SCOPE OF SERVICES/ROLES & RESPONSIBILITIES OF THE ARCHITECT/CONSULTANT FIRM

THE INSTITUTE is proposing to construct the above-mentioned buildings at Plot No.84, Sector 70, Mohali, SAS Nagar, Punjab, under Chandigarh-Panchkula-Mohali Chapter. The scope of the work may vary, and the Institute/THE INSTITUTE may decide to construct initially only a portion and depending upon the need, available vacant space/ ground coverage etc. may consider construction of additional towers at a later date. The Tower(s) will be a modern building having all required amenities and will comply / have features of 'Green 'and Energy efficient building. All necessary statutory approvals from Local Municipal Authorities such as approval of plans / set of drawings, commencement, plinth verification, occupation, completion certificate, NOC from fire brigade and other authorities, water, electrical and drainage connection, certificate from Govt. lift inspectorate, NOC from Fire Department/ NKDA/ Environment Dept., traffic State / Central Govt. and other related Depts. in this regard. The proposal for approval of the commencement certificate etc. from the local Govt. Authorities and other Govt. authorities etc. as may be required, is to be obtained by the consultants. Soon after the building proposal is cleared **by the local Govt. authorities and other** Civic authorities, THE INSTITUTE intends to commence the work and propose to complete the building in all respects viz. ready for occupation within the specified time frame from the date of commencement. All works including permissions, NOCs, occupation / completion certificate required to be obtained from **by the local Govt. authorities and other** State / Central Government / Statutory authorities will have to be obtained by the consultant. As the project, may involve demolition of some existing occupied residential buildings in the Complex, consultant has to oversee the demolition activities with its disposal etc. including obtaining of statutory permission from the local authorities as required in the matter as per the local laws. Further the work of proposed towers need to be completed with minimum disturbance to the people who are staying in the surroundings. The consultant will assume total responsibility for completion of the project in all respects till obtaining of occupation and completion certificate from **by the local Govt. authorities** within the specified time frame. The time is the essence of the contract. While the duties of the consultant will be governed by the standard agreement to be executed with THE INSTITUTE by the successful consultant, the role and responsibilities of the consultant will broadly include following:

- (a) Preparation of detailed /structural/ Architectural design of building including its foundation.
- (b) Preparation of detailed design of all internal and external services such as electrical, AC, plumbing, water supply, soil and storm water drainage, lifts, firefighting / horticulture, EPABX / Networking, gymnasium, parking, rainwater harvesting, sewage treatment plant, recycling of waste water etc. (c) Most of the features applicable for 'Green building' such as energy conservation, use of solar and other renewable sources of energy, recycling of waste water, rain water harvesting, use of natural light to the maximum extent etc. should be taken into account during planning, design, and execution stages so that if THE INSTITUTE desires, the Building can be rated as Green building at least of 'Gold standard'.
- (d) Preparation of all detailed architectural, engineering, structural drawings including those for all services as stated above.
