2.3 A company is engaged in construction of residential housing, offices, industrial units, Roads, Bridges, Marine facilities etc. having sites in India and abroad. The company also has Joint venture projects in India and abroad. Whether Companies (Cost Records and Audit) Rules 2014 would be applicable to the company?

Real Estate Developers including all companies engaged in construction business either as contractors or as sub-contractors, who meet with the threshold limits laid down in the Companies (Cost Records and Audit) Rules, 2014 and undertake jobs with the use of own materials [whether self-manufactured/produced or procured from outside] shall be required to maintain cost records and get cost audit conducted as per the provisions of the Companies (Cost Records and Audit) Rules, 2014.

The provisions of the Companies (Cost Records and Audit) Rules, 2014 would also apply for construction activities undertaken under BOT/BOOT mode, or the projects undertaken as EPC contractor or the projects undertaken abroad by a company incorporated in India.

The Companies (Cost Records and Audit) Rules, 2014, do not make any distinction between the Contractor and Sub-Contractor and accordingly all such companies will be included within the ambit of the Rules.

2.4 A company is engaged in manufacturing products on its own as well as purchase the same products from other companies. The outsourced products are treated as trading activity in the financial accounts. Same products are also manufactured by supply of materials to converters. What would be treatment of such products for the purposes of maintenance of cost accounting records and cost audit?

Products manufactured by the company as well as conversion activity through third parties will be covered under the Companies (Cost Records and Audit) Rules 2014 and the company would be required to maintain cost accounting records and get cost audit conducted subject to threshold limits. - (i) *In a company who is manufacturing Pharmaceutical products, the revenue from export of pharmaceutical products earned in foreign exchange divided by total revenue including other income etc. is 58%.*
- (ii) *The revenue in foreign exchange earned from export of pharmaceutical products plus revenue in foreign exchange earned from rendering of research & development service divided by total revenue including other income etc. is 82%.*

Cost audit is applicable for specified products/services. Rule 4(3) states “The requirement for cost audit under these rules shall not apply to a company which is covered in rule 3, and (i) whose revenue from exports, in foreign exchange, exceeds seventy five per cent of its total revenue”. The inclusion or coverage of a company under Rule 3 is in respect of products/services listed under Table-A and Table-B and consequently the computation of 75% is to be calculated for the specific products/services covered under Rule 3 and not in respect of all the products/services of the company.

The total revenue and turnover of R&D Activities, not being covered under Rule 3 cannot be taken into consideration for computation of 75%.

In this connection it is also clarified that “total revenue” of a company is to be considered as the total revenue as defined in Schedule III of the Companies Act, 2013. Total Revenue as defined in Schedule III is Total Operating Revenue plus Other Incomes.

2.6 A company has units in SEZ and in non-SEZ areas. The Companies (Cost Records and Audit) Rules 2014 has exempted companies operating in special economic zones from cost audit. What would be applicability of the Companies (Cost Records and Audit) Rules 2014 on such a company in respect of maintenance of cost accounting records and cost audit?

Rule 3 of the Companies (Cost Records and Audit) Rules 2014 is specific and it has mandated maintenance of cost accounting records on all products/activities listed under Table-A and Table-B subject to threshold limits. No exemption is available to any company from maintenance of cost accounting records once it meets the threshold limits. Hence, the above company would be required to maintain cost accounting records for all its units including the one located in the special economic zone.

In view of the provisions of Rule 4(3)(ii) of the Companies (Cost Records and Audit) Rules 2014 the unit located in the special economic zone would be outside the purview of cost audit and the company would not be required to include particulars of such unit in its cost audit report. The other units of the company located outside the special economic zone would be covered under cost audit subject to the prescribed threshold limits.

- 2.7 A cost auditor is required to certify under Para 1(vii) of the Cost Audit Report – “Detailed unit-wise and product/service-wise cost statements and schedules thereto in respect of the product/service under reference of the company duly audited and certified by me/us are/are not kept in the company”. Whether product Cost Sheet prepared SKU wise/ type-wise/ size-wise/ specification-wise by the company is required to be certified by the cost auditor and kept in the company?**

Rule 5(2) of the Companies (Cost Records and Audit) Rules 2014 requires that “the cost records referred to in sub-rule (1) shall be maintained on regular basis in such manner as to facilitate calculation of per unit cost of production or cost of operations, cost of sales and margin for each of its products and activities”.

The Rules have identified products as per CETA heading as defined in Rule 2(aa) which states “*Central Excise Tariff Act Heading means the heading as referred to in the Additional Notes in the First Schedule to the Central Excise Tariff Act, 1985[5 of 1986]*”.

First Schedule to the Central Excise Tariff Act, 1985 states – “heading” in respect of goods, means a description in list of tariff provisions accompanied by a four-digit number and includes all sub-headings of tariff items the first four-digits of which correspond to that number.

The above definitions make it clear that maintenance of cost accounting records should conform to the CETA Heading and detailed unit-wise and product/service-wise cost statements and schedules thereto are required to be certified by the cost auditor.

upon the nature of operations. The industry specific operating expenses shall have to be identified and reported upon in the abridged cost statement.

2.9 What is installed capacity and how is this different from total available capacity? How the installed capacity is to be calculated in a multi-product company using the same machine/ facilities? Should installed capacity be the capacity at the beginning of the year or at the end of the year under audit?

The Institute of Cost Accountants of India has defined *“Installed Capacity is the maximum productive capacity, according to the manufacturer’s specifications or determined through an expert study”* [CAS-2 of Cost Accounting Standards]. The Installed Capacity to be disclosed in the Quantitative Details of CRA-3 is to be considered as at the beginning of the year. Capacity enhanced during the year should be considered as the increase in Installed Capacity during the year on pro-rata basis. Available capacity is the total installed capacity after adjustment of capacity enhanced during the year and if any capacity is available by means of leasing arrangement or taking on third-party capacity for increasing the total capacity.

If the same available capacity is utilised for production of multiple products, the following different basis may be adopted to determine the available capacity in respect of each of the products:

- (i) If the company has a system of allocating the total available capacity for production of multiple products, then such allocated available capacity is to be considered for the products being manufactured by utilising the same production facility.
- (ii) If the production allocation is not pre-determined and changes from period to period, then the capacity utilisation is to be determined on the basis of total production of all the products taken together and the total available capacity should be considered for all the products.

2.10 Whether each and every transactions with Related Parties is to be disclosed under Para D-5 of Annexure to the Cost Audit Report?

Details of related Party Transaction are required to be provided in respect of each Related Party and each Product/Service for the year as a whole and not transaction-wise.

2.18 A company is engaged in manufacturing of multiple products. Some of the products are covered under the Companies (Cost Records and Audit) Rules, 2014 and some are not. Part-A, Para 4 of the Annexure to the Cost Audit Report (Product/Service Details for the company as a whole) requires Net Operational Revenue to be reported for each CETA Heading for both the current year and the previous year. Can the Net Operational Revenue of all the Products that are not covered under the Rules be reported in this Para as a single line item?

Part-A, Para 4 of the Annexure to the Cost Audit Report of Companies (Cost Records and Audit) Rules, 2014 require reporting of Net Operational Revenue of every CETA Heading separately comprised in the Total Operational Revenue as per Financial Accounts. Hence, the company would be required to report Net Revenue of every CETA Heading irrespective of whether the same is covered under maintenance of cost accounting records and cost audit or not. In case some of the Products are under the same CETA Heading but having different units of measurement (UOM), then Net Revenue is to be reported for separate UOMs. It may be noted that the number of quantitative details and abridged cost statements will have to be provided for each unique combination of CETA Heading and UOM of the Products which are covered under cost audit.

If the company is engaged in manufacturing of products as well as providing of services and/or trading, such services which are covered under the Companies (Cost Records and Audit) Rules, 2014 will be required to be reported separately according to the definition provided in the Rules classified under different types of services within the same class of service. It may be noted that the number of quantitative details and abridged cost statements will have to be provided for each classification of service covered under cost audit.

Other services that are not covered under the Rules and Revenue from Trading Activity may be reported under suitable heads denoting the service/activity.

The New Taxonomy has introduced a separate line item in this Para to report “Other Operating Incomes” which will form part of the Total Operating Revenue.
