## Answer:

1. (a) According to para 5 of AS-2: valuation of inventories, inventories should be valued at lower of cost and net realizable value. Thus inventories should be valued as per itemwise as is given below:

| Items | Historical Cost (`) & Net Realisable Value (`) | Valuation of Closing Stock (`) |  |
| :---: | ---: | ---: | ---: |
| A | 50,000 | 37,000 | 37,000 |
| B | 64,500 | 64,000 | 64,000 |
| C | 50,000 | 52,000 | 50,000 |
|  |  |  | $1,51,000$ |

(b) Calculation of Depreciation for the year ended March 31, 2015:
$20 \%$ (as per WDV) of [(1-0.20)(1,20,000 $+30,000)]$
$=20 \%$ of $(0.80 \times 1,50,000)={ }^{`} 24,000$.
(c) Profit after Tax

$$
=280-168=` 112 \text { lakh }
$$

Net Worth
= Share Capital + Reserve \& Surplus
$=400+190=` 590$ lakh
Return on Net Worth $=(112 / 590) \times 100=18.98 \%$
(d) Anu's new share
$=(3 / 5)-(1 / 6) \times(1 / 2)=(3 / 5)-(1 / 12)=(36-5) / 60=(31) / 60$
Binu's new share $\quad=(2 / 5)-(1 / 6) \times(1 / 2)=(2 / 5)-(1 / 12)=(24-5) / 60=(19 / 60)$
Chitra's share $\quad=(1 / 6)=(10 / 60)$
Hence, new profit and loss sharing Ratios of partners: (31/60):(19/60):(10/60)=31:19:10.

(c) As per AS-16 borrowing cost (interest) should be capitalized if borrowing cost is directly attributable to the acquisition, construction or production of qualifying asset. In other words, asset acquired must be qualifying asset and borrowing cost should be directly attributable to the acquisition, construction or production of qualifying asset.

The Company obtained loan from Bank amounting ` 60 lakh and utilized for:

|  | - |
| :--- | ---: |
| Construction of a shed | 30 lakh |
| Purchase of Machinery | 15 lakh |
| Working Capital | 10 lakh |
| Advance for Purchase of truck | 5 lakh |

Out of these four payments only construction of a shed of ` 30 lakh is a qualifying assets as per AS-16, other three payments are not for the qualifying asset. Therefore, borrowing cost (interest) attributable to the construction of a shed should only be capitalized which will be equal to (' 9 lakhs \(\times 30 / 60\) ) \(=` 4.50\) lakhs.

The balance of ` 4.50 lakhs (` 9 lakhs - ` 4.50 lakhs) should be expensed and debited to Profit and Loss Account.

In accordance with relevant accounting standard (AS-9) do you agree with the same?
(c) Discuss the Development Stage of an internally Generated Software.

## Suggested Answer_Syl12_Dec2015_Paper_5

## Answer:

5. (a)

## AMTEK CONSTRUCTION LTD. Calculation of Estimated Total Cost

| Cost incurred to date | 750 |
| :--- | ---: |
| Estimated cost to completion | 500 |
| Estimated total cost in completing the contract | 1250 |

Percentage of completion (750/1250) $\times 100=60 \%$
Revenue recognized as a percentage to contract price: $60 \%$ of $1200={ }^{`} 720$ lakh. As per para 35 of AS-7 Construction Contracts, when it is probable that total contract costs will exceed total contract revenue, the expected loss should be recognized as an expense immediately. Accordingly, expenses to be recognized in the Profit and Loss Account will be

(b) As per AS-9 where the ability to assess the ultimate collection with reasonable certainty is lacking at the time of raising any claim, revenue recognition is postponed to the extent of uncertainty involved. In such cases, it may be appropriate to recognize revenue only when it is reasonably certain that the ultimate collection will be made. Where there is no uncertainty as to ultimate collections, revenue is recognized at the time of sale or rendering services. Moreover, consideration receivable should reasonably be determinable. Revenue recognition is postponed if not determinable within a reasonable limit. Thus, in this case, since there are uncertainties, recognition of revenue should be postponed by the company (Evergreen in Ltd.)

| (1) | Interest payable to Anand is calculated as follows: |  |
| :---: | :---: | :---: |
|  | Amount paid for purchase of fruits is invested for 3 months i.e. August 1 to October 31, 2014 (` $30,000 \times 0.12 \times 3 / 12$ ) | 900 |
|  | Amount paid to labour is spread during 2 months (i.e. August 1 to September 30)- the period of season. Therefore, on an average amount is invested for one month (2 months/2) during the period of season. Full month of October is also to be taken because the amount was settled on October 31.
