Behind every successful business decision, there is always a CMA!

## About The Institute of Cost Accountants of India

The Institute of Cost Accountants of India (ICMAI) is a statutory body established under the Cost Accountants Act, 1959 and functions under the Ministry of Corporate Affairs, Government of India, to regulate and develop the profession of Cost and Management Accountancy. Headquartered in Delhi, with regional councils across major cities, numerous chapters in India, and overseas centres, it is the largest CMA body in the world in terms of members and students. The Institute actively contributes to the global accounting profession through its association with international bodies such as IFAC, CAPA, SAFA, AFA, and IIRC. Its core focus lies in strengthening cost and management accounting as a strategic management tool, promoting scientific and ethical practices, continuously updating professional standards, supporting research and publications, organizing professional forums, and fostering a cost-conscious and sustainability-oriented culture in both industry and other sectors of the economy.

## About SSB

The Sustainability Standards Board (SSB) of the Institute of Cost Accountants of India (ICMAI), established in 2022, is dedicated to developing sustainability-related standards and guidance that are aligned with India's unique economic and regulatory environment. It seeks to empower CMAs to take a leadership role in sustainability and ESG reporting while harmonising Indian practices with globally recognised frameworks such as IFRS and GRI, and also developing sector-specific standards that integrate CMA principles. So far, the Board has introduced the ICMAI Sustainability Standards ISSI 1 and ISSI 2. In addition, it actively promotes sustainability awareness and professional engagement through its webinar series "Vasudhaiva Kutumbakam" and "Pariniyati," and through its monthly newsletter, "Sukhinobhavantu."

In view of the significance of Sustainability in the Indian economy and to spread awareness of the subject it is felt that the Institute should celebrate January 2026 as the Sustainability Month which would be observed for the 2nd year since its inception last year.

## Mission Statement

"The CMA Professionals would ethically drive enterprises globally by creating value to stakeholders in the socio-economic context through competencies drawn from the integration of strategy, management and accounting."

## Vision Statement

"The Institute of Cost Accountants of India would be the preferred source of resources and professionals for the financial leadership of enterprises globally."
