General comments and recommendations

1. Overall performance of the students was not encouraging. Only a few students could score above 60.
2. Lack of sufficient preparation, specially practicing sums, has been noticed.
3. Thorough revision of Study Notes and revisionary test papers is necessary to score well.
4. Correct answer to objective type questions and sums should be made target to score good marks.

5. Students for Syllabus 2008 should study pattern of questions and be well conversant with various terms. Stress should be given on conception and practice / revision in order to score well.
