Flash View Recording(Windows)

In order to view Flash class recordings online, you need to have a Firefox browser installed on your windows system.

Below are the links to download the Firefox.
Firefox for Windows 64 bit-
https://workdrive.zohoexternal.com/external/71nqyE7IeyI-Mux0Q
Firefox for Windows 32 bit-
https://workdrive.zohoexternal.com/external/71nqyE7IeyJ-Mux0Q

Once you have installed Firefox, go to Control Panel-->Programs(Uninstall a Program). There you need to check Adobe Flash Player NPAPI is installed or not.
**If installed**, uninstall the installed version and install it using the below link.
If not installed, use the below link to download it and install it.

Flash player:
https://workdrive.zohoexternal.com/external/71nqyE7J5mG-Mux0Q
During installation of Flash player, you need to select "**Never check for updates**" in the end.
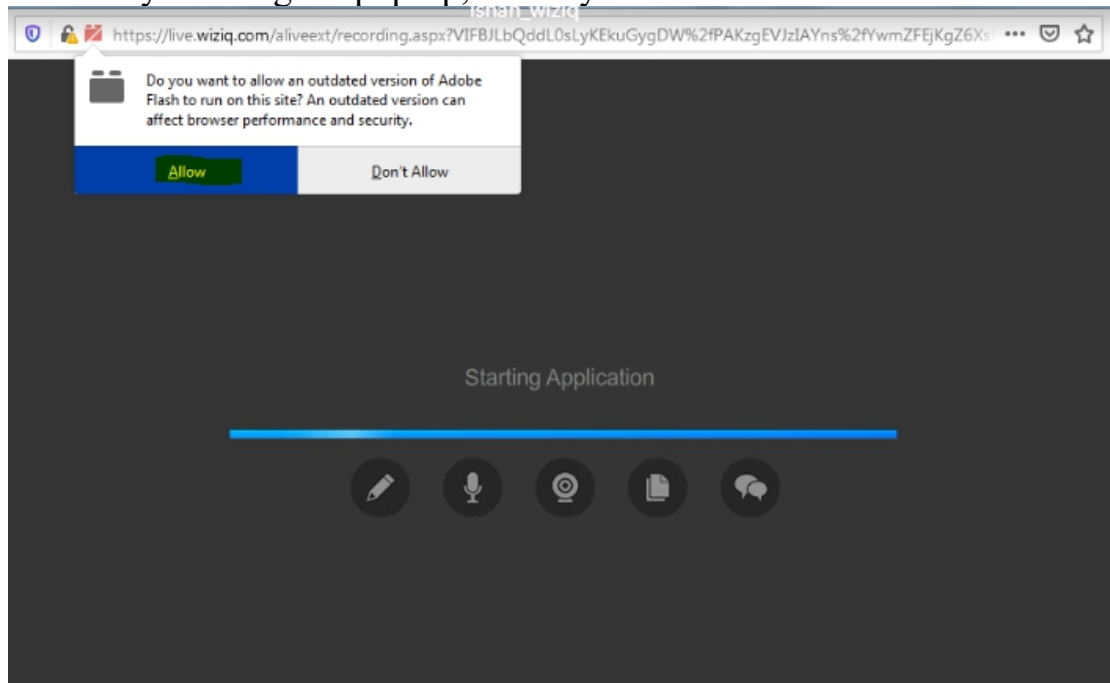

After the above process is done, when you play the recording from website follow the below steps as you will get these windows.
1. You need to click on "**Run Adobe Flash**" or red icon in the URL bar with a diagonal line going through it.

2. Then you will get a pop-up, which you need to "**Allow**".

After completing the above steps, you will be able to view the recording.
