## About the Institute

**T**he Institute of Cost Accountants of India is a statutory body set up under an Act of Parliament in the year 1959. The Institute as a part of its obligation, regulates the profession of Cost and Management Accountancy in India. It is one of the largest Management Accounting body in the world and it is under the administrative control of Ministry of Corporate Affairs, Government of India. Our Institute is a member of International Federation of Accountants (IFAC), South-Asian Federation of Accountants (SAFA), Confederation of Asian & Pacific Accountants (CAPA), National Advisory Committee on Accounting Standards (NACAS), National Foundation for Corporate Governance (NFCG) and a member of Government Accounting Standards Advisory Board (GASAB).

## About the Seminar

**T**he National Seminar titled "Management Accountants - Future of Governance Data, Decisions and AI Disruptions in Global Environment a Strategic Foresight" is organized by the Institute of Cost Accountants of India (ICMAI) to celebrate International Management Accounting Day. This event aims to explore the evolving landscape of management accounting in today's dynamic business environment. Topics to be covered include 'Performance Evaluation & Management: Emerging Trends', 'Infrastructure Project Management: Impact of Time & Cost Overrun', 'Digital Forensic Audit: Tracing Financial Crimes in an Online World', Sustainability Initiatives - To Be or Not to Be', 'Decision making in the era of Emerging Technologies', 'AI & Data Visualization for Management Accountants'. Participants can expect insightful discussions, expert presentations, and networking opportunities to enhance their understanding of contemporary management accounting practices.

This seminar will be immensely beneficial for professionals both in practice and in service. For those in practice, it offers insights into cutting-edge techniques and tools to optimize client services, enhance business performance, and stay competitive in the market. Similarly, professionals in service will gain valuable knowledge in performance and infrastructure management, taking decisions in the era of emerging technologies, inputs on AI & Data Visualization, and contribute effectively to organizational growth and resilience. By attending this seminar, participants can acquire practical skills and strategic insights essential for navigating the complexities of modern management accounting, ultimately advancing their careers and delivering greater value to their clients or organizations.
