Business Sustainability is an exercise that measures the value that a business creates by leveraging Strategy, Organizational Structure and Governance in Social, Economic and Environmental context. Sustainability provides huge professional opportunity for the CMAs. The Challenge for CMAs is to assume leadership, demonstrate their ability to facilitate sustainability and consistently drive the message - Sustainability is no longer a matter of choice.

Cost Management helps to measure efficiency and effectiveness of Men, Money, Machines, Material and Management on the dimensions of Cost, Time, Quality, Environment and Societal impact including the ability to evaluate the contribution of different forms of Capital.

The Institute of Cost Accountants of India, is organising one day interactive Seminar on Redefining the trends towards Business Sustainability through Cost Management Strategies, in order to build capacity of the members of the profession, the industry and other stakeholders.
