

Dear Professional Colleagues,

Namaskar!

We all are passing through the challenging phase of Coronavirus disease (COVID-19) pandemic which has disrupted the social & business activities worldwide. The various governments are taking drastic measures, including locking down of the entire country to reduce the impact of this catastrophe.

The pandemic and consequent lockdown have drastically hit Industry, including MSME, hospitality, civil aviation and other allied sectors. As per the World Bank's latest assessment, India is expected to grow 1.5 per cent to 2.8 percent. Similarly, the IMF projected a GDP growth of 1.9 per cent for India in 2020, as the global economy hits the worst recession since the Great Depression in the 1930s. The government constituted an empowered group headed by Economic Affairs Secretary, Shri Atanu Chakraborty for suggesting measures that can bring the economy back on track quickly, post the lockdown.

We solicit your comments on Impact of COVID-19 on Industry along with the suggestions for remedial measures expected from the Government for recovery of the Industry in the format given here below..

**Please send your comments by email at [pd.hod@icmai.in](mailto:pd.hod@icmai.in) by 22nd April 2020**
