#### **Working Notes**

- 1. Depreciation for the machine purchased on 1.7.2020 For the year 2020 (used for 6 months) = Rs.3,00,000  $\times$  15%  $\times$  6/12 = 22,500 For the year 2021 (used for full year) = Rs.3,00,000  $\times$  15% = Rs.45,000
- 2. Depreciation for the machine purchased on 1.1.2019

  Depreciation = Rs.2,00,000 × 15% = Rs.30,000

  So, Depreciation for 2 years = Rs.30,000 × 2 = Rs.60,000

#### **Working Notes:**

- 1. Consignor's expenses on 1,000 cases are Rs. 5,000. It comes to Rs. 5 per case .The cost of cases lost will therefore be computed at Rs. 105 (i.e. Rs. 100 + Rs. 5) per case
- 2. SI has incurred Rs. 850 on clearing 850 cases i.e. Rs. 1 per case. The consignment Stock in hand has therefore been valued at Rs. 106 (Rs. 105 + Rs. 1) each.

3. From the following Receipts and Payments A/c of M Club, prepare

| Total            | 74,80,000 | Total               | 74,80,000 |

#### Working Notes:

1. Calculation of C's closing capital:

Closing balance of Avinash and Bibha after all adjustments:

A = Rs.23,40,000B = Rs.11,70,000

Total capital of new firm =  $35,10,000 \times 4/3 = 46,80,000$ 

Hence, C's closing capital should be Rs. 11,70,000 (1/4 of 46,80,000)

2. Adjustment for Goodwill

Sacrificing Ration = 2:1

C's share of goodwill =  $2,10,000 \times 1/4 = Rs.52,500$ 

A Capital A/ c will be credited by =  $52,500 \times 2/3 = Rs.35,000$ 

B Capital A/c will be credited by =  $52,500 \times 1/3 = Rs.17,500$ 

- C Capital A/c will be debited by 52,500
- 3. Old profit sharing ratio is 2:1

After admitting C as a partner, new profit sharing ration of the firm is 2:1:1..

7. (a) LBP is leading distributor of petrol. A detail inventory of petrol in hand is taken when the books are closed at the end of each month. At the end of month following information is available:

[9]

Sales = Rs.23,62,500

General overhead cost = Rs.62,500

Inventory at beginning 50,000 litres @ Rs.15 per litre. Purchases

June 1: 1,00,000 litres @ Rs. 14.25 June 30: 50,000 litres @ Rs. 15.15 Closing inventory 65,000 litres.

Compute the following by the FIFO as per AS-2:

- (i) Value of Inventory on June 30.
- (ii) Amount of cost of goods sold for June.
- (iii) Profit/Loss for the month of June.

Answer: 7(a)

i. Cost of closing inventory for 65,000 litres as on 30th June

|                           | Rs.      |
|---------------------------|----------|
| 50,000 litres @ Rs. 15.15 | 7,57,500 |
| 15,000 litres @ Rs. 14.25 | 2,13,750 |
| Total                     | 9,71,250 |

ii. Calculation of cost of goods sold

| Opening inventories | 50,000 litres @ Rs15       | 7,50,000   |
|---------------------|----------------------------|------------|
| Purchases June 1    | 1,00,000 litres @ Rs.14.25 | 14,25,000  |
| June 30             | 50,000 litres @ Rs.15.15   | 7,57,500   |
|                     |                            | 29,32,500  |
| Less: Closing       |                            | (9,71,250) |
| inventories         |                            |            |
| Cost of goods sold  |                            | 19,61,250  |

iii. Calculation of profit:

| Sales (Given ) (A)     | 23,62,500 |
|------------------------|-----------|
| Cost of goods sold     | 19,61,250 |
| Add: General overheads | 62,500    |
| Total cost (B)         | 20,23,750 |
| Profit (A-B)           | 3,38,750  |

#### (b) What are the salient features of computerized accounting system.?

[6]

#### Answer:

Computer information system environment exists when one or more computer(s) of any type or size is (are) involved in the processing of any information, whether those computers are operated by the entity or by a third party. A computerized accounting environment will therefore have the following salient features:

- 1. The processing of information will be by one or more computers.
- 2. The computer or computers may be operated by the entity or by a third party.
- 3. The processing of financial information by the computer is done with the help of one or more computer softwares.
- 4. A computer software includes any program or routine that performs a desired function or set of functions and the documentation required to describe and maintain that program or routine.
- 5. The computer software used for the accounting ssystem may be an acquired software or may be developed specifically for the business.
- 6. Acquired software may consist of a spread sheet package or may be pre-packaged accounting software.

#### 8. Write short notes on any three of the following:

[3x5=15]

- (a) Abnormal Losses;
- (b) The Accrual Concept;
- (c) Bearer plant;
- (d) Operating Cycle of Consignment Arrangement:

#### Answer:8

#### (a) Abnormal Losses-

Abnormal Losses arises as a result of negligence/accident etc., e.g., theft, fire etc. Before as certaining the result of the consignment, value of abnormal loss should be adjusted. The method of calculation is similar to the method of calculating unsold stock. Sometimes insurance company admits the claim in part or in full. The same should also be adjusted against such abnormal loss. While valuing the abnormal loss the proportionate expenses are taken only upto the stage of the loss. For example, if goods are lost in the transit on way to the consignee's place, the value of abnormal loss will include the basic cost of the goods plus proportionate expenses of the consignor only and not the proportionate expenses of consignee because consignee has spent nothing on account of these goods.

Treatment of Abnormal Loss

(i) For abnormal Loss -

Abnormal Loss A/c Dr.

To Consignment A/c

(ii) For the insurance claim due / received by the consignor Insurance Co./Bank A/c Dr.

To Abnormal Loss A/c

(iii) If goods are not insured -

Profit & Loss A/c Dr.

To Abnormal Loss A/c

(iv) For transferring the net loss -

Profit & Loss A/c Dr.

To Abnormal Loss A/

#### (b) The Accraual Concept-

The accrual concept is based on recognition of both cash and credit transactions. In case of a cash transaction, owner's equity is instantly affected as cash either is received or paid. In a credit transaction, however, a mere obligation towards or by the business is created. When credit transactions exist (which is generally the case), revenues are not the same as cash receipts and expenses are not same as cash paid during the period. When goods are sold on credit as per normally accepted trade practices, the business gets the legal right to claim the money from the customer. Acquiring such right to claim the consideration for sale of goods or services is called accrual of revenue. The actual collection of money from customer could be at a later date.

Similarly, when the business procures goods or services with the agreement that the payment will be made at a future date, it does not mean that the expense effect should not be recognized. Because an obligation to pay for goods or services is created upon the procurement thereof, the expense effect also must be recognized. Today's accounting systems based on accrual concept are called as Accrual System or Mercantile System of Accounting.

#### (c) Bearer plant -

Bearer plant is a plant that

- (a) is used in the production or supply of agricultural produce;
- (b) is expected to bear produce for more than a period of twelve months; and
- (c) has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales.

The following are not bearer plants:

- (i) plants cultivated to be harvested as agricultural produce;
- (ii) plants cultivated to produce agricultural produce when there is more than a remote likelihood that the entity will also harvest and sell the plant as agricultural produce, other than as incidental scrap sales;
- (iii) annual crops.

#### (d) Operating Cycle of Consignment Arrangement:

- (i) Goods are send by consignor to the consignee.
- (ii) Consignee may pay some advance or accept a bill of exchange.
- (iii) Consignee will incur expenses for selling the goods.
- (iv) Consignee maintains records of all cash and credit sale.
- (v) Consignee prepares a summary of results called as Account sales.
- (vi) Consignor pays commission to the consignee. Sometimes, the consignor may send the goods at a price higher than cost so that the consignee gets no knowledge of the real cost of goods which is confidential for the consignor.
