Section-B

Answer any five questions out of seven questions given. Each question carries 14 marks.

 $14 \times 5 = 70$

- 2. (a) "Psychological theories of entrepreneurship put emphasis on the emotional and mental aspects of the individual that drives their entrepreneurial activities." In the light of the above statement, analyze Rotter's Locus of Control theory of entrepreneurship.
 - (b) Briefly discuss various types of After Sales Services.

- 3. (a) Discuss the general steps to be followed while incorporating a new company.
 - (b) RONEX Ltd., a newly formed company, has applied to Commercial Bank for the first time for financing its working capital requirements. The following information is available about the projections for the current years:

Elements of Cost:	Per Unit (₹)
Raw materials cost	40
Direct labour	15
Overhead	30
Total Cost	85
Profit	15
Sales	100

Other Information:

Raw Material in Stock: Average 4 weeks consumption, Work-in progress (completion stage 50 per cent): on an average half a month. Finished goods in stock: on an average, one month.

Credit allowed by suppliers is one month.

Credit allowed to debtors is two months.

Average time lag is 11/2 weeks in payment of wages and 4 weeks in overhead expenses.

Cash in hand and at bank is desired to be maintained at ₹ 50,000.

All Sales are on credit basis only.

Required:

- (i) **Prepare** a statement showing estimate of working capital needed to finance an activity level of 96,000 units of production. Assume that production is carried on evenly throughout the year, and wages and overhead accrue similarly. For the calculation purpose, 4 weeks may be taken as equivalent to a month and 52 weeks in a year.
- (ii) From the information stated supra, asses the Maximum permissible bank finance under second and third method of financing as per Tandon Committee norms. Assume that the core current assets constitute 25% of the current assets.
- 4. (a) Analyze various sources of finance in different stages of a start-up business.
 - (b) Briefly discuss any seven applications of data analytics in business.

7

7

7

- 5. (a) Describe the process of design thinking.
 - (b) Critically analyze the Freemium Business Model and Reseller Business Model in the context of a start-up.
- 6. (a) Discuss the challenges and opportunities of sustainability.
 - (b) What do you mean by COSO ERM Framework? List the components of COSO ERM framework with a brief explanation of each.
- 7. (a) Critically assess various strategies for change management.
 - (b) Discuss the barriers to Agri-entrepreneurship development in India.
- 8. PQR Ltd. is a leading start-up operating in healthcare segment. It has a healthy revenue stream and its revenue and profits are growing at a CAGR of 10% p.a. The company regularly procures medical equipment from USA on credit and buys other supplies from domestic suppliers. The operations of the company are well integrated through modern technology

and a sophisticated information system. The company is heavily dependent on some key managerial personnel for smooth functioning. The company is a highly leveraged firm. It invests its surplus funds in both debt and equity securities. The company is expecting certain new regulations to come in place in near future.

PQR Ltd. wants to introduce an Enterprise Risk Management system to monitor the risks it is subject to and to come up with some effective solutions to the same. The company has hired your consultancy firm.

Required:

Prepare a detail report by highlighting the risk exposures and possible responces for each type of risk that should be taken care by the company for introduction of ERM system in the Company.
