(b) When shares have been issued at par:

Gross Liability = 5% of 20,00,000 = 1,00,000 shares.

Issue price = Face Value = ₹ 10 per share

Underwriting Commission = [Gross Liability (in shares) × Issue price per share] × Rate of

Prepare Cash flow statement as per AS-3 (Indirect Method).

**[7]****Answer:****5.****(a)** Profit for the year = ₹24,00,000

Weighted average number of shares = 10,00,000

Basic EPS = 24,00,000/10,00,000 = ₹2.40

No. of shares under option = 2,00,000

No. of shares that would have been issued at fair value = 2,00,000 x 15/20 = 1,50,000

Weighted average number of shares = 10,00,000 + (2,00,000 – 1,50,000) = 10,50,000

Adjusted earnings = ₹24,00,000

6. (a) Distinguish between Audit and Investigation. [7]  
(b) Discuss the rights of a company auditor. [7]

**Answer:****6.**

- (a) It is to be noted that both Both Auditing and Investigation have a fact-finding character. Both involve a systematic and critical examination of the available evidence, yet these are quite distinct from each other as follows:

	BASIS	AUDIT	INVESTIGATION
1.	Meaning	Auditing is an independent and systematic examination of the	An investigation may be defined as an examination of accounts and

		evidence underlying the accounting or other data in accordance with the generally accepted auditing practices to ascertain the true and fair view of the financial statements of an enterprise.	records with a view to ascertain any fact for some special purpose which varies from assignment to assignment.
2.	Scope	The audit has a wide scope. In statutory audit, the scope is determined by the relevant law and in case of a private audit (e.g., management audit) by a client.	The scope of investigations, on the other hand, is limited as regards the period or areas to be covered.
3.	Objective	In audit, the accounts and records are verified as to their truth and fairness.	Investigation is for special purpose (e.g., investigation on the behalf of incoming partner)
4.	Audit Procedure	The audit is conducted in accordance with the generally accepted auditing principle.	Investigations involve an extended auditing procedure.
5.	Evidence	An auditor will evaluate the accounting records predominantly based on persuasive evidence.	An investigator can draw his conclusions only on the basis of substantial or sometimes conclusive evidence.
6.	Approach	Auditor is skeptical and not suspicious.	Whereas an investigator starts with suspicion and collects evidence to either confirm or dispel that suspicion.
7.	Periodicity	Auditing is a routine exercise (normally conducted annually).	Investigation may spread over a period longer than one year.

(b) The Companies Act, 2013 provides the following statutory rights to a company auditor:

- i. **Inspect Books of Accounts and Vouchers:** Every auditor of a company shall have the right of access, at all times, to the books of account and vouchers of the company, whether kept at the registered office of the company or at any other place.
