**5(b)** Acts taking place outside India but having an effect on competition in India (Section 32)

The Commission shall, notwithstanding that:

- (a) an agreement referred to in Section 3 has been entered into outside India. or
- (b) any party to such agreement is outside India. or
- (c) any enterprise abusing the dominant position is outside India. or
- (d) a combination has taken place outside India. or
- (e) any party to combination is outside India. or
- (f) any other matter or practice or action arising out of such agreement or dominant position or combination is outside India.

have power to inquire in accordance with the provisions contained in Sections 19, 20, 26, 29 and 30 of the Act into such agreement or abuse of dominant position or combination if such agreement or dominant position or combination has, or is likely to have, an appreciable adverse effect on competition in the relevant market in India and pass such orders as it may deem fit in accordance with the provisions of this Act.

**6(a) State the kind of approval required for the following transactions under the Foreign Exchange Management Act, 1999:**

- (I) L, a famous playback singer of India wants to perform a musical night in Paris for Indians residing there. Foreign exchange to the extent of USD 20,000 is required for this purpose.  
(II) M requires USD 5,000 to make payment related to 'call back services' of telephone. [5+3]

**(b) State the "Insurable Interest" -based on Insurance Act, 1938**

**[8]**

**Answer:**

**6(a)(i) Contributory:** According to Section 428 of the Companies Act, 1956 in a winding up, the term "contributory" means a past or present member liable to contribute to the assets of the company in the event of its being wound up and includes holders of shares which are fully paid up. If a member is once placed in the list of contributories, he is liable to the extent of original shares that remain unpaid, unless he proves that he should not have been placed in the list.

When a company goes into liquidation, every member, whether past or present, has to contribute to the assets of the company. However, a past member will not be required to contribute in the following circumstances:

- (a) if he had ceased to be a member for a period of one year or upwards before the commencement of winding up.  
(b) if the debt or liability of the company was contracted or incurred after he ceased to be a member.  
(c) if the present members are able to satisfy the contributions required to be made by them under the Act.

**(ii)** (i) Foreign exchange drawals for cultural tours require prior permission/approval of the Government of India irrespective of amount of foreign exchange required. Therefore, in the given case L, the singer is required to seek permission of the Government of India.

(ii) Drawal of foreign exchange for payment related to 'call back services' of telephones is prohibited. Therefore 'M' cannot draw foreign exchange.

**(b) Insurable Interest**

To constitute insurable interest, it must be an interest such "that the risk would by its proximate effect cause damage to the assured, that is to say, cause him to lose a benefit or incur a liability. The validity of an insurance contract in India is dependent on the existence of an insurable interest in the subject matter. The

person seeking an insurance policy must establish some kind of interest in the life or property to be insured, in the absence of which, the insurance policy would amount to a wager and consequently void in nature.

The test for determining if there is an insurable interest is whether the insured will in case of damage to the life or property being insured, suffer pecuniary loss [New India Insurance Company Ltd. v. G.N. Sainani (1997) 6 SCC 383]. A person having a limited interest can also insure such interest. Insurable interest varies depending on the nature of the insurance. The controversy as to the existence of an insurable interest between spouses was settled by the court, which held that such an interest could exist as neither was

likely to indulge in any mischievous game'. The same analogy may be extended to parents and children. Further, the courts have also held that such an insurable interest would exist for a creditor (in a debtor) and for an employee (in an employer) to the extent of the debt incurred and the remuneration due, respectively.

The existence of insurable interest at the time of happening of the event is another important consideration. In case, of life and personal accident insurance it is sufficient if the insurable interest is present at the time of taking the policy. However, in the case of fire and motor accident insurance the insurable interest has to be present both at the time of taking the policy and at the time of the accident. The case is completely different with marine insurance wherein there need not be any insurable interest at the time of taking the policy

**7(a) Explain the OECD principles of Corporate Governance. [8]**

**(b) (i) Whether XBRL is mandatory in all the Companies. If not, state the Companies where XBRL is mandatory.**

**(ii) What are the advantages of XBRL? [2+6]**

**7(a)** In response to a call by its council, the OECD issued the OECD Principles of Corporate Governance in 1999 after extensive consultations. These were later revised in 2004 following a comprehensive survey of corporate governance practices in and outside the OECD area. Since their launch, the principles have formed the basis for corporate governance initiatives in both OECD and non-OECD countries alike. They represent the minimum standard that countries with different traditions have agreed on, being applicable to countries with a civil and common law tradition without being unduly prescriptive. The principles have been devised with four fundamental concepts in mind: responsibility, accountability, fairness and transparency and enabling diversity of rules and regulations. They outline the following:

- (1) the basis for an effective corporate governance framework.
- (2) the rights of shareholders.
- (3) equitable treatment of shareholders.
- (4) the role of stakeholders in corporate governance.
- (5) disclosure and transparency, and
- (6) the responsibilities of the board.

(b) The 2004 revisions covered four main areas:

- (1) a new set of principles on the development of regulatory framework to underpin corporate governance mechanisms for implementation and enforcements.
- (2) additional principles to strengthen the exercise of informed ownership by shareholders that call on institutional investors to disclose their corporate governance policies and to strengthen the rights of shareholders when choosing Board members.
- (3) strengthened principles to reinforce Board oversight and enhance Board members' independent judgment, and
- (4) new and strengthened principles to contain conflicts of interest through enhanced disclosure and transparency (for example, on related party transactions), thus making auditors more accountable to shareholders and promoting auditors' independence.

**(b) (i) XBRL applies to the following companies:**

- 1) All Public listed companies in India and their Indian subsidiaries.
- 2) All companies having a paid up Capital of Rs 5 Crores and above.
- 3) All companies having Turnover of Rs 100 Crores and above.

**(ii) Advantages of XBRL**

XBRL offers major benefits at all stages of business reporting and analysis. The benefits are seen in automation, cost saving, faster, more reliable and more accurate handling of data, improved analysis and in better quality of information and decision making. XBRL enables producers end-consumers of financial data to switch resources away from costly manual

processes; typically involving time consuming comparison, assembly and re-entry of data. They are able to concentrate effort on analysis aided by software which can validate" and 'process XBRL information. XBRL is a flexible language, which is intended to support, all current aspects of reporting in different countries and industries. Its extensible nature means that it can be adjusted to meet particular business requirements, even 'at the individual organization level.

All types of organizations can use XBRL to save costs and improve efficiency in handling business and financial information. Because XBRL is extensible and flexible, it can be adopted to a wide variety of different requirements. All participants in the financial information supply chain can benefit, whether they are preparers, transmitters or users of business data.

XBRL is set to become the standard way of recording, storing and transmitting business financial information. It is capable of use throughout the world, whatever the language of the country concerned, for a wide variety of business purposes. It will deliver major cost savings and gains in efficiency, improving' processes in companies; governments and other organizations.

**8. Write short notes any four of the following :**

**4X4=16**

**(a) Difference between Mediation and Conciliation**

**(b) Life Insurance Business**

**(c) Strategy to tackle black money**

**(d) Activities not to be considered as CSR Activities**

**(e) Disadvantages of the family Businesses over non-family Businesses**

**Answer:**

**8(a) Difference between Mediation and Conciliation**

The meaning of these words as understood in India appears to be similar. 'Mediation' is a way of settling disputes by a third party who helps both sides to come to an agreement, which each considers acceptable. Mediation can be 'evaluative' or 'facilitative'. 'Conciliation', is a procedure like mediation but the third party, the conciliator, takes a more interventionist role in bringing the two parties together and in suggesting possible solutions to help achieve a settlement. The difference lies in the fact that the 'conciliator' can make proposals for settlement, 'formulate' or 'reformulate' the terms of a possible settlement while a 'mediator' would not do so but would merely facilitate a settlement between the parties. From the very wording it appears that the 'Mediation and Conciliation Panel' as contemplated under Section 442 (as the name suggests) will adopt dual approach of 'Mediation' as well as 'Conciliation' in settling the disputes.

**(b) Life Insurance Business:**

Section 2(11): "life insurance business" means the business of effecting contracts of insurance upon human life, including any contract whereby the payment of money is assured on death (except death by accident only) or the happening of any contingency dependent on human life, and any contract which is subject to payment of premiums for a term dependent on human life and shall be deemed to include:

- i) the granting of disability and double or triple indemnity accident benefits, if so provided in the contract of insurance.
- ii) the granting of annuities upon human life, and

iii) the granting of superannuation allowances and benefits payable out of any fund applicable solely to the relief and maintenance of persons engaged or who have been engaged in any particular profession, trade or employment or of the dependents of such persons.

Explanation: For the removal of doubts, it is hereby declared that "life insurance business" shall include any unit linked insurance policy or scrips or any such instrument or unit, by whatever name called, which provides a component of investment and a component of insurance issued by an insurer referred to in clause (9) of this section.

### **(c) Strategy to tackle black money:**

The committee has identified following strategy to tackle black money:

- (i) Preventing generation of black money.
- (ii) Discouraging use to black money.
- (iii) Effective detection of black money.
- (iv) Effective investigation and adjudication.
- (v) Other steps.

### **(d) Activities not to be considered as CSR Activities: The Companies (CSR Policy) Rules, 2014 provides for some activities which are not considered as CSR activities:**

- (1) The CSR projects or programs or activities undertaken outside India.
- (2) the CSR projects or programs or activities that benefit only the employees of the company and their families.
- (3) Contribution of any amount directly or indirectly to any political party under section 182 of the Act.
- (4) Expenses incurred by companies for the fulfillment of any Act/Statute of regulations (such as Labour Laws, Land Acquisition Act etc.) would not count as CSR expenditure under the Companies Act.

### **(e) Disadvantages of the Family Businesses over Non-Family Businesses**

- (i) Staff recruitment: External talent can be reluctant to join the family businesses as they would not enjoy the same freedom that the other businesses offer.
- (ii) Raising funds for growth: Access to capital is required to grow and evolve. However, it is difficult to raise the required funds for the family businesses than non-family businesses.
- (iii) Family conflicts: Conflict among the family members is the major setback for the family businesses.
- (iv) Ownership vs. Management: Separating the ownership from the management and reaching a consensus on the roles of family members in the business are two important issues for the family businesses to address.
