(3) Services fully exempt under other notifications	Specifically excluded in determination of aggregate value	NIL
(4) Declared Services	Value as determined as per section 67 of Finance Act, 1994 and Valuation Rules is to be taken	2,40,000

Aggregate Value for Financial Year 2014-15		10,00,000
Since the aggregate value of service is ₹ 10 lakhs (i.e., not exceeding ₹ 10 lakhs) during financial year 2014-15, Mr. Dey is eligible for threshold exemption (Small Service Providers exemption) during the financial year 2015-16.		Eligible for exemption

- (2) Rate of duty as applicable on the arrival of aircraft which is later than the date of submission of the bill of entry has been considered.
- (3) Landing charges @ 1% have been considered as per Rule 10(2)(b) of the Customs Valuation (Determination of Value of Imported Goods) Rules, 2007.
- (4) Since Air freight exceeds 20% of FOB value of goods, it shall be restricted to 20% of FOB value of goods.

(b) Advantages of Indirect Taxes:

- (i) **Easy management:** Indirect taxes mainly relate to organized sector. Hence, it is convenient to control, i.e., levy, control and collection of indirect taxes are easy.
- (ii) **Assured Collection:** Being easier to control, the incidence of tax evasion is comparatively less. So, the contribution of indirect taxes to the Government shows an increasing trend, as the business progresses.
- (iii) **Psychological Effect:** It creates an impression in the minds of manufacturers and dealers, that they are only collecting the tax and not paying out of their pocket. Also, the ultimate taxpayer does not feel the burden of levy, since it is indirectly included in the price of the product.
- (iv) **Luxury Goods and Necessary Goods:** Indirect taxes control wasteful expenditure on luxury goods by levying higher tax.
- (v) **Industrial Growth:** Indirect taxes have a positive impact on industrial growth, by reducing taxes on goods manufactured in tiny or small scale industries or in backward areas.
- (vi) **Low Cost of Collection:** Cost of collection of indirect taxes is comparatively less.

Answer:

- (a) Computation of aggregate value of clearances of all excisable goods for home consumption for the purpose of eligibility limit of ₹ 400 lakhs.

Particulars	₹ Lakhs
Clearances of branded goods – Not includible, as not eligible for exemption	Not includible
Export sales to Nepal – Includible, as it is clearance for home consumption	80
Export Sales to USA and Canada – Not includible, as it is not clearance for home consumption	Not includible
Clearances of goods (duty paid based on annual capacity of production under Sec. 3A of Central excise Act, 1944) – Includible, as it is also excisable goods and clearance for home consumption.	70

Answer to PTP_Intermediate_Syllabus 2008_Jun 2015_Set 2

Job work under Notification No. 214/86-CE – Not includible Add: Clearance of goods by previous tenant from the same factory (Includible) [It is assumed, in this case, that the same factory was used by both viz. assessee as well as tenant; hence, clubbing is attracted.]	Not includible 120
Value of clearances of all excisable goods for home consumption during 2014-15	410
Since aggregate value of clearances exceeds ₹ 400 lakhs during financial year 2014-15, hence SSI-exemption is not available during financial year 2015-16.	SSI-exemption not available

- (b) In case where service provider is in receipt of consideration in kind, the amount received (in all) and value of consideration received is regarded as inclusive of service tax, as per section 67(1)(ii) of Finance Act, 1994.

Value of services = ₹ 4,12,360 × 100 ÷ 112.36 = ₹ 3,66,999; and service tax @ 12.36% thereon = ₹ 45,361.

The goods are not covered by MRP, but the MRP includes 12.36% Excise Duty and 2% CST. If the cost of production of the tablet is 40 paise per tablet, determine the total duty payable.

[4+8+3]

Answer:

(a) Assessment of the value of the standing crops and trees along with land:

- (i) Land is sold along with standing crops and trees.

Answer to PTP_Intermediate_Syllabus 2008_Jun 2015_Set 2

- (ii) The sale does not pertain to the latter alone in which case they are uprooted and removed. Consequently, they become goods.
- (iii) In the instant case, the standing crops and trees are immovable.
- (iv) They are not goods and hence do not attract sales tax.

(b)

1. Issue of Invoice:

- (i) Invoice must be raised by the service provider specifying the name and address of the service receiver, the description of the service, taxable value and the service tax payable thereon.
- (ii) Hence, the Invoice shall include only the service tax component payable by the service provider. In the given case, the invoice amount shall be ₹ 3,00,000 + ₹ 9,270 (₹ 3,00,000 x 12.36% x 25%) = ₹ 3,09,270.

2. Point of taxation:

(i) D & Co. (Service provider):

- As per Rule 3 of Point of Taxation Rules (POT Rules) if the Invoice is issued within 30 days from the date of completion of service, then the point of taxation shall be the earlier of date of invoice or date of payment.
- Here, date of Invoice (25.09.2014) is within 30 days from the date of completion (15.09.2014).
- Hence, the Point of Taxation (POT) shall be date of Invoice, i.e. 25.09.2014 (since the date of payment is much later).
- Due Date for payment of its share of service tax of ₹9,270 shall be on 6th October 2014.

(ii) H Ltd. (Service Receiver):

- As per Rule 7 of POT Rules for services where the service receiver is liable for service tax, the Point of Taxation shall be the date of payment, if the payment is made within 6 months from the date of Invoice.
- In the given case, the date of payment (06.10.2014) is within 6 months from date of invoice (25.09.2014).
- Hence, the POT shall be date of payment, i.e. 06.10.2014.
- Due Date for payment of its share of Service Tax of ₹27,810 shall be on 6th November 2014. (₹ 3,00,000 x 12.36% x 75%)

3. Cenvat Credit Eligibility for H Ltd.:

- (i) For the amount collected by service provider as part of invoice, i.e. ₹ 9,270: Date of receipt of invoice.
- (ii) For the amount directly paid by Service Receiver, i.e. ₹ 27,810: Actual Date of payment of service tax.

(c) If the product is not covered under MRP provisions, valuation provisions under section 4A of the Central Excise Act, do not apply. In that case, valuation is required to be done as per Central Excise Valuation Rules.

As per the CBEC's circular, any physicians samples or other samples distributed free of cost are to be valued under Rule 11 along with Rule 8 of Central Excise Valuation Rules, 2000.

As per Rule 8, such samples are to be valued at 110% of cost of production or manufacture. The given cost of production is 40 Paise; Assessable Value will be 44 Paise. Therefore, duty payable @ 12.36% on 44 paise = 5.44 paise per tablet.

Answer to PTP_Intermediate_Syllabus 2008_Jun 2015_Set 2

- (c) Since the exported goods have been reimported within 3 years from date of export (viz. Date of export is 1st January 2015, while date of reimport is 8th February 2015) hence, as per exemption issued by the Central Government, the duty payable = Export Incentive viz. Duty drawback claimed at the time of export. Therefore, duty payable = ₹ 16,000.

It is assumed that the goods are reimported without any re-manufacturing or re-processing.

- (d) As per Rule 4(1) of the Central Excise Rules, 2002, every person who produces or manufactures any excisable goods, or who stores such goods in a warehouse, shall pay the duty leviable on such goods. No excisable goods on which any duty is payable, shall be removed without payment of duty from any place, where they are produced or manufactured or from a warehouse, unless otherwise provided.

Thus, a warehouse keeper though not a producer or manufacturer or curer, shall be liable to pay duty of excise on the goods stored by him.

Besides the above, where molasses are produced in a khandsari sugar factory, the person who procures such molasses, whether directly from such factory or otherwise, for use in the manufacture of any commodity, whether or not excisable, shall pay the duty leviable on such molasses, in the same manner as if such molasses have been produced by the procurer.

Thus, warehouse keeper and procurer of molasses are exceptions to the above Rule.

- (b) As per section 2(33) of the Customs Act, Prohibited Goods means any goods the import or export of which is subject to any prohibition under this Act or any other law for the time being in force but does not include any such goods in respect of which the conditions subject to which the goods are permitted to be imported or exported have been complied with.

Answer to PTP_Intermediate_Syllabus 2008_Jun 2015_Set 2

- (c) As per Rule 10A of Central Excise valuation Rules, 2000, where the goods are sold by the principal manufacturer for delivery at the time of removal of goods from the factory of job worker, the value of excisable goods shall be the transaction value of the said goods sold by the principal manufacturer.

Hence, value shall be ₹ 200 per product. Excise duty = 12.36% of ₹ 200 = ₹ 24.72 per product (it is assumed here that the transaction value is excluding all duties and taxes).

If it is assumed to be price-cum-duty, then, excise duty = ₹ 200 × 12.36 ÷ 112.36 = ₹ 22.00 per product.

- (d) As per Section 2(g) of Central Sales Tax Act, 'Sale' means any transfer of property in goods by one person to another for cash or for deferred payment or for any other valuable consideration, but does not include a mortgage or hypothecation of or a charge or pledge on goods.

Answer:

- (a) Yes, remission of duty will be granted under the Central Excise Rules, 2002. Remission cannot be denied simply because there was delay in giving information to the Department. If there is a natural calamity in the factory, procedural lapse cannot come in the way of benefit.
- (b) The admissibility of CENVAT credit—
- (i) **Inputs used for tests or quality control check:** Inputs used for tests or quality control check shall be eligible for cenvat credit as testing and conducting quality control check is necessary for manufacture.
Thus inputs used for the said tests and quality control check have relationship with manufacture of final product and eligible for Cenvat Credit.
 - (ii) **Inputs contained in waste etc:** Credit shall be admissible in respect of inputs contained in the waste, refuse or by-product, since such inputs are used in factory and have some relationship with the manufacture of final product.

Answer to PTP_Intermediate_Syllabus 2008_Jun 2015_Set 2

- (iii) Inputs are pilfered from the store-room: Credit shall not be admissible, since credit on inputs is available only for inputs used in the factory of manufacturer of final products. If the inputs are lost in the store-room without being used at all, credit of duty paid on such inputs will not be available.
- (iv) Materials used for repairs of capital goods: All the goods used within the factory of manufacturer, which have relation whatsoever with manufacture of final products, shall be eligible for Cenvat Credit.
Repairs of capital goods, used in manufacture of final product, have relation with manufacture of final product. Hence, materials used therein will qualify for input credit.
- (c)** The statement is not correct. In some cases, the ship is not brought upto jetty. Goods are discharged at outer anchorage. This may be for various reasons, e.g. (i) deep draught at port; (ii) Ports are busy, (iii) Odd dimensional or heavy lifts or hazardous cargo discharged at anchorage. Charges for brining the goods from outer anchorage are known as 'barging/ lighterage charges'. As per explanation to rule 10(2) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007, ship demurrage charges on chartered vessels, lighterage or barge charges are includible to the custom value while calculating the value of imported goods.
- (d)** Generally, an "intermediary" is a person who arranges or facilitates a supply of goods, or a provision of service, or both, between two persons, without material alteration or further processing. Thus, an intermediary is involved with two supplies at any one time:
- i) the supply between the principal and the third party; and
 - ii) the supply of his own service (agency service) to his principal, for which a fee or commission is usually charged.
- (e)** As per Section 4 of the Central Excise Act, 1944, "Assessable value" can be equated to Sale price only if the following conditions are satisfied:
- There should be a sale.
 - Such sale must be for delivery at the time and place of removal
 - Buyer and seller are not related.
 - Price is the sole consideration.
