- (6) Treatment of capital expenditure on family planning [Section 36(1)(ix)]: Where the asset representing the capital expenditure on family planning is transferred by the amalgamating company to the Indian amalgamated company, in a scheme of amalgamation, the provisions of section 36(1)(ix) to the amalgamating company shall become applicable, in the same manner, to the amalgamated company. Consequently:
 - (i) The capital expenditure on family planning not yet written off shall be allowable to the amalgamated company in the same number of balance installments.
 - (ii) Where such assets are sold by amalgamated company, the treatment of the deficiency/ surplus will be same as would have been in the case of amalgamating company.
- (7) Treatment of bad debts [Section 36(1)(vii)]: Where due to amalgamation, the debts of amalgamating company have been taken over by the amalgamated company and subsequently such debt or part of the debt becomes bad, such bad debt will be allowed as a deduction to the amalgamated company [CIT vs. T. Veerabhadra Rao, K. Koteswara Rao & Co. (1985) 155 ITR 152 (SC)].

- (8) Deduction available under section 80-IAB or 80-IB or 80-IC or 80-IE: Where an undertaking which is entitled to deduction under section 80-IAB/80-IB/80-IC/80-IE is transferred in the scheme of amalgamation before the expiry of the period of deduction under section 80-IAB or 80-IB or 80-IC or 80-IE, then—
- (i) no deduction under section 80-IAB/80-IB/80-IC/80-IE shall be available to the amalgamating company for the previous year in which amalgamation takes place; and
 - (ii) the provisions of section 80-IAB/80-IB/80-IC/80-IE shall apply to the amalgamated company in such manner in which they would have applied to the amalgamating company.
- The benefit of section 80-IA is not available to the amalgamated company where the amalgamation takes place on or after 1-4-2007 [Section 80-IA(12A)].
- (9) Carry forward and set off of business losses and unabsorbed depreciation of the amalgamating company: In addition to the above benefits/concessions, the amalgamated company shall be allowed to carry forward and set off the business losses and unabsorbed depreciation of the amalgamating company if all the conditions mentioned in section 72A are satisfied.
- (10) Apportionment of depreciation between the amalgamating company and amalgamated company [Proviso 5 to section 32]: If in any previous year there is any amalgamation then for the purpose of computing depreciation for that previous year it will be first assumed as if no amalgamation had taken place and thereafter depreciation so computed shall be apportioned between the amalgamating company and the amalgamated company in the ratio of the number of days for which the assets were used by them.

There can be two types of assets which can be transferred by an amalgamating company to the Indian amalgamated company in the scheme of amalgamating viz:

- (i) Non-depreciable assets. (ii) Depreciable assets.

The cost of acquisitions of assets in each case is as under:

Acquisition cost in case of non-depreciable assets for purposes of capital gains under section 45: In this case, the cost of acquisition of the asset shall be deemed to be the cost for which the previous owner of the property acquired it, as increased by cost of any improvement of asset, incurred or borne by the previous owner or the assessee, as the case may be.

However, if the capital asset is a non-depreciable asset and is acquired by the previous owner before 1-4-1981, the cost of acquisition to the amalgamated company can be taken as cost of acquisition to the previous owner or the Fair Market Value of the asset on 1-4-1981, at the option of the amalgamated company.

- (1) Since in the above case, the cost of the previous owner is taken, the period for which the previous owner had held the asset shall also be considered for determining whether the capital gain is short-term or long-term.
- (2) However, indexation of cost shall be done from the year in which it was first held by the amalgamated company i.e. the year of amalgamation.

For other provision of income-tax the cost of these assets to the amalgamated company shall not be the value at which it is actually transferred to the company but it shall be taken to be the same as it would have been if the amalgamating company had continued to hold the capital asset for the purpose of his own business.

Acquisition cost in case of depreciable assets:

- (i) Cost of acquisition for purpose of business income i.e. for calculating depreciation: It shall be the written down value of the block of assets as in the case of the amalgamating company for the immediately preceding previous year as reduced by the amount of depreciation actually allowed in relation to the said preceding previous year.

- (ii) For purpose of capital gains: In the case of depreciable assets, transferred by the amalgamating company to the amalgamated company, the period of holding and indexed cost of acquisition are irrelevant as, these assets will be included in the 'block of assets' of the amalgamated company and according to section 50, if any capital asset of the block is transferred, or the entire block of assets is transferred, the capital gains, if any, on such transfer will be treated as short-term capital gain.

As per section 41(1), where an amalgamating company was earlier allowed any allowance/deduction in respect of loss, expenditure, or trading liability and subsequently the amalgamated company has obtained/recovered whether in cash or in any other manner any amount in respect of which any allowance/deduction was allowed to the amalgamating company, such amount shall be deemed to be the profits and gains of business or profession of the amalgamated company of the previous year in which it is obtained or recovered.

Where any tax is payable by the amalgamating company in respect of its income of business or profession of the earlier period, the amalgamated company shall be liable to pay such tax, if it cannot be recovered from the amalgamating company. However, the amalgamated company shall be liable for the following period:

- (i) for previous year in which the amalgamation took place but only up to the date of amalgamation;
- (ii) for previous year preceding the year in which the amalgamation takes place.

For example: If the amalgamation took place on 17-7-2012 the liability of tax of the amalgamating company for the previous year 2011-12 and previous year 2012-13 (up to 17-7-2012 only) can be recovered from the amalgamated company.

Every amalgamation scheme is effective from the specified/appointed date. The important tax issue that arises is whether the transfer is effective from the date mentioned in the scheme or from the date in which the scheme was approved by the Court. The Madras High Court in United India Life Insurance Co. Ltd vs. CIT (1963) 49 ITR 965 (Mad) held that it is effective from that date of approval by the court.

However, the Bombay High Court in CIT vs. Swastik Rubber Product Ltd (1983) 140 ITR 304 (Bom) held that it is effective from the appointed date as specified in the scheme of amalgamation.

The above issue of specified/appointed date was put at rest by Supreme Court in Marshal Sons & Co. (India) Ltd vs. CIT (1997) 223 ITR 809 (SC) where it was held that it is effective from the date mentioned in the scheme and not from the date on which the courts sanctioned the order. However the courts while sanctioning the scheme, is open to modify the said date and prescribe such date of amalgamation as it thinks appropriate in the facts.

Demerger [Sec. 2(19AA)]

"Demerger" in relation to companies, means the transfer, pursuant to a scheme of arrangement under sections 391 to 394 of the Companies Act, 1956, by a demerged company of its one or more undertakings to any resulting company in such a manner that —

- (i) all the property of the undertaking, being transferred by the demerged company, immediately before the demerger, becomes the property of the resulting company by virtue of the demerger;
- (ii) all the liabilities relatable to the undertaking being transferred by the demerged company, immediately before the demerger, become the liabilities of the resulting company by virtue of the demerger;
- (iii) the property and the liabilities of the undertaking or undertakings being transferred by the demerged company are transferred at values appearing in its books of account immediately before the demerger;
- (iv) the resulting company issues, in consideration of the demerger, its shares to the shareholders of the demerged company on a proportionate basis;

- (v) the shareholders holding not less than three-fourths in value of the shares in the demerged company (other than shares already held therein immediately before the demerger, or by a nominee for, the resulting company or, its subsidiary) become shareholders of the resulting company or companies by virtue of the demerger. Otherwise than as a result of the acquisition of the property or assets of the demerged company or any undertaking thereof by the resulting company;
- (vi) the transfer of the undertaking is on a going concern basis;
- (vii) the demerger is in accordance with the conditions, if any, notified under sub-section (5) of section 72A by the Central Government in this behalf.

For the purpose of this definition, "undertaking" shall include any part of an undertaking, or a unit of division of an undertaking or a business activity taken as a whole, but does not include individual assets and/or liabilities or a combination of these not constituting a business activity. For determining the value of the property which is subject matter of demerger, any change in the value of assets on account of revaluation shall be ignored.

Splitting up or the reconstruction of any authority or a body constituted or established under any Act, or a local authority or a public sector company, into separate authorities or bodies or local authorities or companies shall be deemed to be the demerger if such split up or reconstruction fulfils the conditions as may be notified by the Central Government.

- **Demerged Company [Section 2(19AAA)]** : It means the company whose undertaking is transferred, pursuant to a demerger, to a resulting company.
- **Resulting Company** : means one or more companies (including wholly owned subsidiary thereof) to which the undertaking of the demerged company is transferred in a demerger and the resulting company in consideration of such transfer of undertaking, issues shares to shareholders of the demerged company and includes any authority or body or local authority or public sector company or a company established, constituted or formed as a result of demerger.

If any demerger takes places within the meaning of section 2(19AA) of the Income-tax Act, the following tax concession shall be available:

- (1) Tax concessions to demerged company.
- (2) Tax concessions to shareholders of demerged company.
- (3) Tax concessions to resulting company.

These concessions are on similar lines as are available in case of amalgamation discussed earlier. However some concessions available in case of amalgamation are not available in case of demerger.

(1) Tax concession to demerged company:

- (i) Capital gains tax not attracted [Section 47(vib)]: According to section 41(vib) where there is a transfer of any capital asset in a demerger by the demerged company to the resulting company, such transfer will not be regarded as a transfer for the purpose of capital gain provided the resulting company is an Indian company.
- (ii) Tax concession to a foreign demerged company [Section 47(vic)]: Where a foreign company holds any shares in an Indian company and transfers the same, in a demerger, to another resulting foreign company, such transaction will not be regarded as transfer for the purpose of capital gain under section 45 if the following conditions are satisfied:
 - (a) at least seventy-five per cent of the shareholders of the demerged foreign company continue to remain shareholders of the resulting foreign company; and
 - (b) such transfer does not attract tax on capital gains in the country, in which the demerged foreign company is incorporated.

(iii) Reserves for shipping business: Where a ship acquired out of the reserve is transferred in a scheme of demerger, even within the period of eight years of acquisition there will be no deemed profits to the demerged company.

(2) Tax concessions to the shareholders of the demerged company [Section 47(vii)]: Any transfer or issue of shares by the resulting company, in a scheme of demerger to the shareholders of the demerged company shall not be regarded as a transfer if the transfer or issue is made in consideration of demerger of the undertaking.

In the case of demerger the existing shareholder of the demerged company will now hold:

(a) shares in resulting company; and

(b) shares in demerged company,

and in case the shareholder transfers any of the above shares subsequent to the demerger, the cost of such shares shall be calculated as under:—

Cost of acquisition of shares in the resulting company [Section 49(2C)]: It shall be the amount which bears to the cost of acquisition of shares held by the assessee in the demerged company the same proportion as the net book value of the assets transferred in a demerger bears to the net worth of the demerged company immediately before such demerger.

In other words:

$$\begin{array}{l} \text{Cost of} \\ \text{acquisition of} \\ \text{the shares in} \\ \text{the resulting} \\ \text{company} \end{array} = \begin{array}{l} \text{cost of acquisition} \\ \text{of share held by the} \\ \text{assessee in the} \\ \text{demerged company} \end{array} \times \frac{\begin{array}{l} \text{Net book value of the} \\ \text{assets transferred in a} \\ \text{demerger} \end{array}}{\begin{array}{l} \text{Net worth of the demerged} \\ \text{company immediately} \\ \text{before demerger} \end{array}}$$

Cost of acquisition of shares in the demerged company [Section 49(2D)]: The cost of acquisition of the original shares held by the shareholder in the demerged company shall be deemed to have been reduced by the amount as so arrived at under section 49(2C) above.

For the above purpose net worth shall mean the aggregate of the paid up share capital and general reserves as appearing in the books of account of the demerged company immediately before the demerger.

Period of holding of shares of the resulting company [Section 2(42A)(g)]: In the case of a capital asset, being a share or shares in an Indian company, which becomes the property of the assessee in consideration of a demerger, there shall be included the period for which the share or shares held in the demerged company were held by the assessee.

(3) Tax concession to the resulting company: The resulting company shall be eligible for tax concessions only if the following two conditions are satisfied:

(i) The demerger satisfies all the conditions laid down in section 2(19AA); and

(ii) The resulting company is an Indian company.

The following concessions are available to the resulting company pursuant to a scheme of demerger:

(a) Expenditure for obtaining licence to operate telecommunication services [Section 35ABB(7)]: Where in a scheme of demerger, the demerged company sells or otherwise transfer its licence to the resulting company (being an Indian company), the provisions of section 35ABB which were applicable to the demerged company shall become applicable in the same manner to the resulting company, consequently:

(i) The expenditure on acquisition of licence, not yet written off, shall be allowed to the resulting company in the same number of balance installments.

- (ii) Where such licence is sold by the resulting company, the treatment of the deficiency/surplus will be same as would have been in the case of demerged company.
- (b) Treatment of preliminary expenses [Section 35D(5A)]: Where the undertaking of an Indian company which is entitled to deduction of preliminary expenses is transferred before the expiry of 10 years/5 years, as the case may be, to another company in a scheme of demerger, the preliminary expenses of such undertaking which are not yet written off shall be allowed as deduction to the resulting company in the same manner as would have been allowed to the demerged company. The demerged company will not be entitled to the deduction thereafter.
- (c) Treatment of expenditure on prospecting, etc. of certain minerals [Section 35E(7A)]: Where the undertaking of an Indian company which is entitled to deduction on account of prospecting of minerals, is transferred before the expiry of period of 10 years to another company in a scheme of demerger, such expenditure on prospecting, etc. which is not yet written off shall be allowed as deduction to the resulting company in the same manner as would have been allowed to the demerged company. The demerged company will not be entitled to the deduction thereafter.
- (d) Treatment of bad debts [Section 36(1)(vii)]: Where due to demerger the debts of the demerged company have been taken over by the resulting company and subsequently by such debt or part of debt becomes bad such bad debt will be allowed as a deduction to the resulting company. This is based upon the decision of the Supreme Court in the case of CIT vs. Veerabhadra Rao (T.), K. Koteswara Rao & Co. (1985) 155 ITR 152 (SC) which was decided in the case of amalgamation of companies.
- (e) Amortisation of expenditure in case of demerger [Section 35DD]: According to sub-section 1 where an assessee, being an Indian company, incurs any expenditure, on or after 1-4-1999, wholly and exclusively for the purposes of demerger of an undertaking, the assessee shall be allowed a deduction of an amount equal to one-fifth of such expenditure for each of the five successive previous years beginning with the previous year in which the demerger takes place.
- No deduction shall be allowed in respect of the expenditure mentioned in sub-section (1) under any other provision of this Act.
- (f) Carry forward and set off of business losses and unabsorbed depreciation of the demerged company [Section 72A(4) & (5)]: The accumulated loss and unabsorbed depreciation, in a demerger, should be allowed to be carried forward by the resulting company if these are directly relatable to the undertaking proposed to be transferred. Where it is not possible to relate these to the undertaking, such loss and depreciation shall be apportioned between the demerged company and the resulting company in proportion of the assets coming to the share of each as a result of demerger.
- (g) Deduction available under section 80-IA or 80-IB: Where an undertaking which is entitled to deduction under section 80-IA/80-IB is transferred in the scheme of demerger before the expiry of the period of deduction under section 80-IA or 80-IB, then—
- (i) no deduction under section 80-IA/80-IB shall be available to the demerged company for the previous year in which amalgamation takes place; and
- (ii) the provisions of section 80-IA/80-IB shall apply to the resulting company in such manner in which they would have applied to the demerged company.

The benefit of section 80-IA for the unexpired period shall not be available to the resulting company where the demerger takes place on or after 1-4-2007 [Section 80-IA(12A)].

As per section 2(42C), "slump sale" means the transfer of one or more undertakings as a result of the sale for a lump sum consideration without values being assigned to the individual assets and liabilities in such sales.

- (1) "Undertaking" shall have the meaning assigned to it in Explanation 1 to clause (19AA).
- (2) The determination of the value of an asset or liability for the sole purpose of payment of stamp duty, registration fees or other similar taxes or fees shall not be regarded as assignment of values to individual assets or liabilities.

As per section 50B, any profits or gains arising from the slump sale effected in the previous year shall be chargeable to income-tax as capital gains arising from the transfer of long-term capital assets and shall be deemed to be the income of the previous year in which the transfer took place.

However, any profits or gains arising from the transfer under the slump sale, of any capital asset being one or more undertakings owned and held by an assessee for not more than thirty-six months immediately preceding the date of its transfer shall be deemed to be the capital gains arising from the transfer of short-term capital assets.

In relation to capital assets being an undertaking or division transferred by way of such sale, the "net worth" of the undertaking or the division, as the case may be, shall be deemed to be the cost of acquisition and the cost of improvement for the purposes of sections 48 and 49 and no regard shall be given to the provisions contained in the second proviso to section 48.

Net worth shall be the aggregate value of total assets of the undertaking or division as reduced by the value of liabilities of such undertaking or division as appearing in its books of account.

However any change in the value of assets on account of revaluation of assets shall be ignored for the purposes of computing the net worth.

For computing the net worth, the aggregate value of total assets shall be,—

- (a) in the case of depreciable assets, the written down value of the block of assets determined in accordance with the provisions contained in section 43(6)(c)(i) relating to written down value in case of slump sale;
- (b) in the case of other assets, the book value of such assets.

Conversion of Firm into Company

As per section 47(xiii) if the following conditions are satisfied then the transfer of capital asset in case of a firm into company is not chargeable to tax.

- (a) all the assets and liabilities of the firm relating to the business immediately before the succession become the assets and liabilities of the company;
- (b) all the partners of the firm immediately before the succession become the shareholders of the company in the same proportion in which their capital accounts stood in the books of the firm on the date of the succession;
- (c) the partners of the firm do not receive any consideration or benefit, directly or indirectly, in any form or manner, other than by way of allotment of shares in the company;
- (d) the aggregate of the shareholding in the company of the partners of the firm is not less than 50% of the total voting power in the company and their shareholding continues to be as such for a period of 5 years from the date of the succession.

Conversion of sole proprietary business into a company

As per section 47(xiv) if the following conditions are satisfied then the transfer of capital asset in case of a sole proprietary firm into company is not chargeable to tax:

- (a) all the assets and liabilities of the sole proprietary concern relating to the business immediately before the succession become the assets and liabilities of the company;
- (b) the shareholding of the sole proprietor in the company is not less than 50%, of the total voting

power in the company and his shareholding continues to remain as such for a period of 5 years from the date of the succession; and

- (c) the sole proprietor does not receive any consideration or benefit, directly or indirectly, in any form or manner, other than by way of allotment of shares in the company [Section 47(xiv)].

Withdrawal of exemption in both the above cases [Section 47A(3)]

As per section 47A(3), where the aggregate of the shareholding of the partners or the shareholding of the sole proprietor, as the case may be, in the company does not continue to remain 50% of the total voting power for a period of 5 years from the date of succession, the capital gain not chargeable to tax earlier at the time of succession due to the provisions of section 47(xiii) or (xiv) shall be chargeable to tax in the hands of successor company in the previous year in which such requirement is not complied with.

Carry forward of loss of property firm/firm by company [Section 72A(6)]

According to section 72A(6), where there has been reorganisation of business, whereby, a firm is succeeded by a company fulfilling the conditions laid down in clause (xiii) of section 47 or a proprietary concern is succeeded by a company fulfilling the conditions laid down in clause (xiv) of section 47, then, notwithstanding anything contained in any other provisions of this Act, the accumulated loss and the unabsorbed depreciation of the predecessor firm or the proprietary concern, as the case may be, shall be deemed to be the loss or allowance for depreciation of the successor company for the purpose of previous year in which business reorganization was effected and other provisions of this Act relating to set off and carry forward of loss and allowance for depreciation shall apply accordingly.

In other words, the accumulated loss and unabsorbed depreciation of the predecessor company shall become the accumulated loss and unabsorbed depreciation of the successor company of the previous year in which business reorganization was effected and such business loss can be carried forward for fresh 8 assessment years and the unabsorbed depreciation will be carried forward indefinitely.

Consequences if the conditions laid down under section 47(xiii) and (xiv) are not complied with [Proviso to section 72A(6)]: If any of the conditions laid down under section 47(xiii) and (xiv) are not complied with, the set off of loss or allowance of depreciation made in any previous year in the hands of the successor company, shall be deemed to be the income of the company chargeable to tax in the year in which such conditions are not complied with.

9.7 ASSESSMENT OF CO-OPERATIVE SOCIETIES

Introduction

Cooperative society is a society registered under the Cooperative Societies Act, 1912, or under any other law for the time being in force in any State for registration of co-operative societies.

The deduction provided to various co-operative societies under section 80P are as under:

- (A) Where 100% deduction is allowed

In the case of the following co-operative societies, full deduction is allowable in respect of following incomes:

- (I) Profits attributable to certain specified activities [Section 80P(2)(a)]: 100% of the profits, included in Gross Total Income, attributable to any one or more of the following activities are deductible:
- (i) carrying on the business of banking or providing credit facilities to its members; or
 - (1) W.e.f. assessment year 2007-08, the exemption shall not be available to co-operative banks other than a primary agricultural credit society or a primary co-operative

agricultural and rural development bank. However, deduction shall still be available to a cooperative society which is engaged in the business of providing credit facilities to its members.

(2) Regional Rural Banks are not eligible to take deduction under section 80P. [Circular No. 6/2010, dated 29-0-2010].

- (ii) a cottage industry; or
- (iii) the marketing of the agricultural produce grown by its members; or
- (iv) the purchase of agricultural implements, seeds, livestock or other articles intended for agriculture for the purpose of supplying them to its members; or
- (v) the processing, without the aid of power, of the agricultural produce of its members; or
- (vi) the collective disposal of the labour of its members; or
- (vii) fishing or allied activities, that is to say, the catching, curing, processing, preserving, storing or marketing of fish or the purchase of materials and equipment in connection therewith for the purpose of supplying them to its members.

However, in case of co-operative societies falling under clauses (vi) and (vii) above, the deduction, is available subject to the condition that the rules and bye-laws of the society restrict the voting rights to the following classes of its members, namely:—

- (1) the individuals who contribute their labour or, as the case may be, carry on the fishing or allied activities;
 - (2) the co-operative credit societies which provide financial assistance to the society;
 - (3) the State Government.
- (II) Profits of certain primary co-operative societies [Section 80P(2)(b)]: 100% of the profits, included in Gross Total Income are deductible in the case of a co-operative society, being a primary society engaged in supplying milk, oilseeds, fruits or vegetables raised or grown by its members to
- (i) a federal co-operative society, being a society engaged in the business of supplying milk, oilseeds, fruits, or vegetables, as the case may be; or
 - (ii) the Government or a local authority; or
 - (iii) a Government company as defined in section 617 of the Companies Act, 1956 or a statutory corporation (being a company or corporation engaged in supplying milk, oilseeds, fruits or vegetables, as the case may be, to the public).

Where district societies like the assessee collected milk from primary societies at village or taluk level and thereafter processed the milk and supplied it to the affiliated federal societies, it was held that the assessee was one step above the primary co-operative societies. The assessee was a federal cooperative society not only collecting and supplying milk but also processing the milk. The processing activities carried on by the assessee did not match the expression “being a primary society engaged in supplying the milk” used under section 80P(2)(b) of the Act. Therefore, the assessee was not entitled to deduction under section 80P of the Act [Asstt. CIT vs. Salem District Co-op. Milk Producers Union Ltd (2009) 313 ITR (AT) 43 (Chennai)].

(III) Income from investment with other co-operative societies [Section 80P(2)(d)]: 100% of the profits, included in Gross Total Income are deductible in respect of any income by way of interest or dividends derived by the co-operative society from its investments with any other co-operative society.

(IV) Income from letting of ‘godowns or warehouse’ [Section 80P(2)(e)]: 100% of the profits, included in Gross Total Income are deductible in respect of any income derived by the co-operative society

from the letting of godowns or warehouses for storage, processing or facilitating the marketing of commodities.

(B) Where deduction is allowed to a limited extent

In the following cases, the co-operative societies are entitled to deduction to a limited extent:—

- (1) Co-operative society engaged in other activities [Section 80P(2)(c)]: In the case of a co-operative society engaged in activities, other than those specified in I and II of (A) above, either independently of, or in addition to, all or any of the activities so specified, the profits and gains attributable to such other activities up to the limits indicated below are deductible.
 - (i) where such co-operative society is a consumers' cooperative society ₹1,00,000;
 - (ii) in any other case ₹50,000.
 - (a) Consumer co-operative means a society for the benefit of consumers.
 - (b) Where the assessee co-operative society, supplied coal and diesel to its members for use in production of bricks and tiles, the society was not a 'consumer' cooperative society as the purchases by the members was not for their own consumption [Tamil Nadu Brick and Tiles Manufacturers Industrial Service Co-operative Society Ltd vs. CIT (2004) 265 ITR 332 (Mad)].
- (2) Entire income by way of interest on securities or income from house property if gross total income of a co-operative society (other than specified co-operative society) does not exceed ₹20,000 [Section 80P(2)(f)]: 100% of the income from interest on securities or income from house property shall be allowed as deduction in case of a co-operative society not being—
 - (i) a housing society or
 - (ii) an urban consumer society, or
 - (iii) a society carrying on transport business, or
 - (iv) a society engaged in the performance of any manufacturing operation with the aid of power provided its gross total income does not exceed ₹20,000.

Urban Consumer Co-operative Society means a society for the benefit of the consumers within the limits of municipal corporation, municipality, municipal committee, notified area committee, town area or cantonment.

Where an assessee is also entitled to deduction u/s 80-IA, deduction u/s 80P shall be allowed with reference to such profits and gains as reduced by the deduction allowed under those Sections [Section 80P(3)].

Case Laws:

- (1) Each clause or sub-clause of section 80P(2) is to be treated as a separate and distinct head of exemption without being influenced by conditions) of any other clause or sub-clause. As section 80P is introduced with a view to encouraging and promoting the growth of the co-operative sector in the economic life of the country and in pursuance of the declared policy of the Government, the correct way of reading the different heads of exemption enumerated in that section would be to treat each as a separate and distinct head of exemption. Whenever a question arises as to whether any particular category of an income of a cooperative society is exempt from tax what has to be seen is whether the income fell within any of the several heads of exemption. If it fell within any one head of exemption, it would be free from tax notwithstanding that the conditions of another head of exemption are not satisfied and such income is not free from tax under that head of exemption [Kerala State Co-operative Marketing Federation Ltd vs. 077(1998) 231 ITR 814, 819 (SC)].

- (2) 100% deduction can be availed only where the income is from the activities specified. Activity which is not so specified shall not enjoy the full exemption. Thus, income from a printing press business run by a co-operative society was held not entitled to full exemption [ACIT vs. U.P. Co-operative Cane Union (1978) 114 ITR 70 (All)].
- (3) If a co-operative society carries on certain activities income from which is exempted and also certain activities income from which is not exempted, the profits and gains attributable to the exempted activities shall enjoy the exemption and those attributable to the non-exempted activities shall be taxed. At the same time, it is just and proper that in order to ascertain the income referable to non-exempt activities the proportionate expenditure out of the total expenditure should be deducted [Cf. CIT vs. Sabarkantha Zilla Kharid Vechan Sangh Ltd (1977) 107 ITR 447 (Guj); Sabarkantha Zilla Kharid Vechan Sangh Ltd vs. CIT (1993) 203 ITR 1027 (SC)].

In other words, if a co-operative society is carrying on a business and earning income, part of which is exempted and part of which is not exempted, the profits and gains attributable to the exempted activity has to be arrived at on the basis of the books of account maintained by the assessee. If separate sets of books or separate accounts of expenditure have been maintained for the exempted and non-exempted activities, there is no problem. If separate sets of books of account have not been maintained and the expenses have been incurred jointly for earning both the incomes, then such expenses have to be estimated by the Assessing Officer which are relatable to earn the income from non-exempted activities in order to arrive at the true and correct income. It cannot be presumed that no expenditure was incurred in earning the exempted income.

Following the Supreme Court decision in Gandevi Taluka Khedut (1993) 203 ITR 1027 (SC), Sahakari Sangh Ltd vs. CIT (1994) 207 ITR 175, 179 (Guj) it has been held that while granting deduction under section 80P(2)(a)(iv) only the net income attributable to the activities under section 80P(2)(a)(iv) for the purchase of agricultural implements, live stock, etc. intended for supplying to agriculturists which is included in the gross total income can be deducted and not the entire income from such activities.

- (4) If the society has income some of which is exempt under one clause and the other under another clause of section 80P(2), both will enjoy exemption [Allahabad Dist. Coop. Bank Ltd. vs. Union of India (1972) 83 ITR 895 (All)].

Under the amended provisions of section 80P(2)(a)(iii), exemption is available in respect of income derived from activities specified in the said provision ie income of marketing of produce grown by its members. In the instant case, income derived by the assessee was from dealing in wheat gram, maize, bazra and potatoes which was not grown by its members. The said income was not exempt from tax [CIT vs. Haryana State Co-operative Marketing Federation Ltd. (2008) 171 Taxman 138 (P&H)].

‘Primary Co-operative Bank’ means a co-operative society, other than a primary agricultural credit society—

- (1) the primary object or principal business of which is the transaction of banking business;
- (2) the paid-up shares capital and reserves of which are less than ₹1,00,000; and
- (3) the bye-laws of which do not permit admission of any other cooperative society as a member: However, this provision shall not apply to the admission of a Co-operative Bank as a member by reason of such co-operative Bank subscribing to the share capital of such co-operative society out of funds provided by the State Government for the purpose.

‘Primary agricultural credit society’ means a co-operative society,—

- (i) the primary object or principal business of which is to provide financial accommodation to its members for agricultural purposes or for purposes connected with agricultural activities (including the marketing of crops); and
- (ii) the bye-laws of which do not permit admission of any other co-operative society as member:

the above sub-clause shall not apply to the admission of a co-operative bank as a member by reason of such co-operative bank subscribing to the share capital of such co-operative society out of funds provided by the State Government for the purpose.

The term '**primary co-operative agricultural and rural development bank**' has now been defined to mean a society whose area of operation is confined to a taluka and has as its principal object the provision of long-term credit for specified activities.

On the basis of divided case following receipts can be regarded as income attributable to business of banking:

- (1) Ordinarily, banks invest their money in Government securities. One of the purposes of such activity is to ensure availability of ready money to meet various exigencies of the banking business. In case of co-operative banks, holding of Government securities would indeed appropriately be connected with the banking business and thus their matter would be covered by the first part of section 80P(2)(a)(i) [Berhampur Co-operative Central Bank vs. Addl CIT (1974) 93 ITR 168 (Ori)].

At the same time, the investment contemplated above must be from out of the circulating capital or stock-in-trade of the society [M.P. State Co-operative Bank Ltd vs. Addl. CIT (1979) 119 ITR 327 (MP)].

- (2) Interest on Government securities held as stock-in-trade is eligible for deduction under the provisions similar to section 80P(2)(a)(i). To such interest provisions similar to section 80P(2)(f) are not applicable. [Addl. CIT vs. Rajasthan State Co-operative Bank Ltd, (1987) 163 ITR 213 (Raj)].
- (3) The income derived by the assessee from the investment in Government securities placed with the State Bank of India/Reserve Bank of India cannot be regarded as an essential part of its banking activity in as much as the same does not form part of its stock-in-trade or working/circulating capital. Thus such income shall not be deductible under section 80P(2)(a)(i) but deduction shall be available under section 80P(2)(c) [Madhya Pradesh Co-operative Bank Ltd vs. Addl. CIT (1996) 218 ITR 438 447 (SC)].
- (4) However, the larger bench of the Supreme Court in case of CIT vs. Karnataka State Co-operative Apex Bank (2001) 251 ITR 194 (SC) held that interest on investments made by a Co-operative Bank in compliance with statutory provision to enable it to carry on banking business out of reserve fund has to be treated as eligible income from its banking business as there is a nexus of such income to the business of the assessee and hence it was eligible for deduction under section 80P(2)(a)(i).
- (5) In CIT vs. Ma Sahakari Kendriya Bank Maryadit [(1997) 225 ITR 421 (MP)], income from interest on securities earmarked to reserve fund and gratuity has been held not entitled to deduction under section 80P.
- (6) In case of a co-operative society, interest from Government securities interest on fixed deposits with other banks, etc is income from banking business, hence exempt under section 80P(2)(a)(i): Co-operative banks are eligible for exemption under section 80P(2)(a)(i) on income from the business of banking. Interest from Government securities interest on fixed deposits with other banks, excess collection of interest tax, locker rent, etc were all to be treated as income from banking [Surat District Co-operative Bank Ltd vs. ITO (2003) 262 ITR (AT) 1 (Ahd) (SB)].
- (7) The Supreme Court in the case of CIT vs. Ramanathapuram Distt. Coop. Central Bank Ltd [(2002) 255 ITR 423 (SC)] held that (i) interest on securities, (ii) subsidies for the Government, and (iii) dividend received by the assessee, a cooperative society carrying on banking business, were business income of the assessee, and the assessee was entitled to deduction under section 80P(2)(a)(i) in respect thereof.
- (8) If income derived by a co-operative society (bank) is from the business of banking, then only it will fall within the exemption, but if it arises from and out of the business with a third party as in the case of investment of surplus assets, the exemption is not available because investment of fluid assets is

not a part of the business of the banking. The income must be attributable to banking facility. The investment made to generate income must form part of the circulating capital or stock-in-trade of the (co-operative) bank and the business must have a direct or proximate connection with or nexus to the earnings in order to attract the provisions of section 80P(2)(a)(i) of the Act. Thus, each investment has to be examined, considered and decided on its merits. Thus on the basis of facts found, investments in Indira Vikas Patra was held to be from the funds generated from the banking business [CIT vs. Ratnagiri Dist. Central Co-operative Bank Ltd (2002) 254 ITR 697 (Bom)]. It was made clear that the judgement was confined to the facts of the case as found by tribunal.

- (9) Income of co-operative society from collecting electricity charges on behalf of Public Sector Undertaking is exempt: Income earned by a bank, a co-operative society, by way of fee or commission for collecting electricity charges on behalf of Public Sector Undertaking was income from banking business and thus exempt under section 80P(2)(c)(i).

The expression providing credit facilities to its members has not been explained in the Income-tax Act. On the basis of various case laws meaning of expression 'providing credit facilities to its members' is as under:

- (1) In order to claim the benefit of deduction under section 80P(1) read with section 80P(2)(a)(i), the co-operative society should be engaged in carrying on the business of banking or providing credit facilities to its members. As the provision is intended to encourage co-operative societies, a liberal construction should be given to the language employed in the provision. Hence, if a co-operative society is engaged in carrying on the business of providing credit facilities to its members that would suffice to attract the benefit of deduction. Where one of the objects of the assessee co-operative society was to lend money to its members for the purpose of building houses, it was held that the co-operative society shall be entitled to deduction of the interest received over the interest paid by the society as various objects of the society were distinct and independent objects. The activity of the assessee society in making funds available to its members had to be regarded as one of providing credit facilities to its members [CIT vs. Pondicherry Co-operative Housing Society Ltd (1991) 188 ITR 671 (Mad)].
- (2) The words 'providing credit facilities' occurring in section 80P(2)(a)(i) of the Act, should be construed as similar or akin to the 'carrying on business of banking', the preceding clause in the same sub-section. The word 'providing credit facilities to its member' means providing credit by way of loan and not selling goods on credit [Kerala Co-operative Consumers' Federation Ltd vs. CIT (1988) 170 ITR 455 (Ker)].
- (3) Where the one of the main objects of the co-operative society was providing better quality of seeds of sugarcane, manure and fertilizer, pesticides, agricultural implements, irrigation equipment and arrangement of other articles for agriculture purposes and to provide or to arrange credit facilities for this purpose to the members, it was held section 80P(2)(a)(i) was applicable as one of the main object was to lend to its members and the interest earned by the assessee society from its members qualified for exemption there under [CIT vs. Krishak Sahkari Ganna Samiti Ltd (2002) 258 ITR 594 (All)].
- (4) Providing credit facility to members is eligible for deduction and the word member is used in its normal sense and would not include member of member society. Thus providing credit facilities to member of its member societies would not be providing credit facilities to its members [U.P. Co-operative Cane Union Federation Ltd vs. CIT (1999) 237 ITR 574 (SC)].
- (5) The expression providing credit facilities, in section 80P(2)(a)(i) takes its colour from the activity of banking. In order that the same may constitute a business, it is necessary that these activities must be the chief source of income. A person who advances loans or supplies goods on credit in connection with and in the course of some other business of manufacture or purchase or sale of goods, etc, cannot be said to be carrying on the business of providing credit facilities [Addl. CIT vs. U.P. Co-op. Cane Union (1978) 114 ITR 70 (All)].

- (6) A credit society within the meaning of these provisions can only mean a society which provides credit by way of loans of money to its members and not a society which sells goods on credit [CIT vs. Coral Mills Workers Co-operative Stores Ltd (1977) 106 ITR 868, 871 (Mad)].
- (7) The expression providing credit facilities in section 80P(2)(a)(i) would comprehend the business of lending money on interest. It would also comprehend the business of lending services on profit for guaranteeing payments, because guaranteeing payments is as much a part of banking business for affording credit facility as advancing loans [CIT vs. U.P. Co-operative Cane Union Federation Ltd (1980) 122 ITR 913, 916 (All)].
- (8) If a society only acts as an agent between its members and a bank without the involvement directly or indirectly in the matter of repayment of loan, the society cannot be termed as engaged in the business of providing credit facilities to its members [CIT vs. Anakapalli Co-op Marketing Society Ltd (2000) 111 ITR 702 (AP)].

Cottage Industry

According to Circular No. 722, dated 19-9-1995—

- (a) a cottage industry is one which is carried on a small-scale with a small amount of capital and a small number of workers and has a turnover which is correspondingly limited;
- (b) it should not be required to be registered under the Factories Act;
- (c) it should be owned and managed by the co-operative society;
- (d) the activities should be carried on by the members of the society and their families. For this purpose, a family would include self, spouse, parents, children, spouses of children and any other relative who customarily lives with such a member. Outsiders (i.e. persons other than members and their families) should not work for the society. In other words, the co-operative society should not engage outside hired labour;
- (e) a member of a co-operative society means a shareholder of the society;
- (f) the place of work could be an artisan shareholder's residence or it could be a common place provided by the co-operative society;
- (g) the cottage industry must carry on activity of manufacture, production or processing; it should not be engaged merely in trade, i.e. purchase and sale of the same commodity.

It is further clarified that in the case of a weavers' society, so long as weaving is done by the members of the society at their residences or at a common place provided by the society, without any outside labour, such a society will be eligible for deduction under section 80P(2)(a)(ii) even if certain payments have been made to outside agencies for dyeing, bleaching, transport arrangements, etc, provided it satisfies all other conditions necessary for availing of the deduction under section 80P(2)(a)(ii) of the Income-tax Act, 1961.

The Assessing Officer ought to have called for the bye-laws of the assessee to determine (i) whether a weaver could have become a member of apex society and (ii) whether the assessee was engaged in cottage industry. The department was directed to decide the applicability of section 80P keeping in mind the bye laws of the assessee and the scheme [CIT vs. Rajasthan Raiya Bunkar S. Samiti Ltd (2010) 323 ITR 365 (SC)].

The activity of marketing of agricultural produce of its members, referred to in section 80P(2)(a)(iii), must be confined to the direct produce from agriculture and not to anything manufactured or processed out of it. For instance, paddy is an agricultural produce. If a co-operative society undertakes the sale of paddy grown by its members, the profits derived therefor will gain exemption under this section. But if the society undertakes the sale of rice processed out of such paddy, the exemption is not attracted [South Arcot Dist. Co-op. Supply & Marketing Society Ltd v CIT (1974) 97 ITR 500 (Mad)].

Steps in computing tax liability of Cooperative Societies

The steps are-

Step-I : Compute gross total income, ignoring income exempt from tax u/s. 10 to 13A

Step-II : Deduct permissible deductions u/ss. 80G, 80GGA, 80I, 80I-A 80IB, 80JJA, etc. and 80P as applicable.

Step-III : Apply the tax rates for the relevant Assessment Year to arrive at the tax incidence.

The tax rates applicable are as follows :- The rates of Income-tax are —

Income Range	Rates of tax
1. Where the total income does not exceed ₹ 10,000	10% of the total income
2. Where the total income exceeds ₹ 10,000 but which the does not exceed ₹ 20,000	₹ 1,000 plus 20% of the amount by total income exceeds ₹10,000
3. Where the total income exceeds ₹ 20,000	₹ 3,000 plus 30%, of the amount by which the total income exceeds ₹ 20,000

However, the tax payable by every cooperative society shall be increased by surcharge @ 10% if total income exceeds ₹1 crore, education cess @2% and secondary and higher education cess @ 1%.

The total amount payable as income tax and surcharge on total income exceeding ₹1 crore shall not exceed the total amount payable as income tax on a total income of ₹1 crore by more than the amount of income that exceeds ₹1 crore.

However, from the Assessment Year 2013-14, tax payable cannot be less than 18.5% of "Adjusted Total Income" in some specified cases.

Business Reorganisation in case of Co-operative Bank

As per section 47, the following shall not be treated as transfer:

- (1) Any transfer in a business reorganisation, of a capital asset by the predecessor co-operative bank to the successor co-operative bank.
- (2) Any transfer by a shareholder, in a business reorganisation, of a capital asset being a share or shares held by him in the predecessor co-operative bank if the transfer is made in consideration of the allotment to him of any share or shares in the successor co-operative bank.

Explanation—For the purposes of clauses (vica) and (vicb), the expressions "business reorganisation", "predecessor co-operative bank" and "successor co-operative bank" shall have the meanings respectively assigned to them in section 44DB.

- (3) Special provisions for computing deduction in the case of business reorganization.

Where a business reorganization (ie amalgamation and demerger) of a co-operative bank has taken place during the financial year, the deduction under section 32 (relating to depreciation), section 35D (relating to preliminary expenses), section 35DD (relating to amortization of expenditure in case of amalgamation and demerger) or section 35DDA (relating to amortisation of expenditure incurred on voluntary retirement scheme) shall be allowed in accordance with the following:

1. Deduction for the previous year of business organization (i.e. amalgamation or demerger)

(a) Proportionate deduction to the predecessor co-operative bank [Section 44DB(2)].

The amount of deduction allowable to the predecessor co-operative bank under section 32, section 35D, section 35DD or section 35DDA shall be determined in accordance with the formula—

$$A \times \frac{B}{C}$$

where A = the amount of deduction allowable to the predecessor cooperative bank if the business reorganisation had not taken place;

B = the number of days comprised in the period beginning with the 1st day of the financial year and ending on the day immediately preceding the date of business reorganisation; and

C = the total number of days in the financial year in which the business reorganisation has taken place.

(b) Proportionate deduction to the successor co-operative bank [Section 44DB(3)]:

The amount of deduction allowable to the successor co-operative bank under section 32, section 35D, section 35DD or section 35DDA shall be determined in accordance with the formula—

$$A \times \frac{B}{C}$$

where A = the amount of deduction allowable to the predecessor cooperative bank if the business reorganisation had not taken place;

B = the number of days comprised in the period beginning with the date of business reorganisation and ending on the last day of the financial year; and

C = the total number of days in the financial year in which the business reorganisation has taken place.

2. Deduction to be allowed to the successor co-operative bank for the unexpired period after the year of reorganization [Section 44DB(4)]

If the reorganisation has taken place before the expiry of period specified in section 35D or 35DD or 35DDA (i.e. 5 years), the deduction subsequent to the year of business organization for the unexpired period shall be allowed to the successor co-operative bank in the same manner as would have been allowed to the predecessor bank.

(4) Carry forward and set off of loss and unabsorbed depreciation [Section 72AB].

Where the amalgamation of a co-operative bank or co-operative banks has taken place during the previous year, the successor co-operative bank shall be allowed to set off the accumulated loss and the unabsorbed depreciation, if any, of the predecessor bank as if the amalgamation had not taken place and all the other provisions of this Act relating to set off and carry forward of loss and allowance for depreciation shall apply accordingly provided the following conditions are satisfied.

Demerger of a co-operative bank [Section 72AB(3)]: Where any demerger of any co-operative bank has taken place during the previous year, the resulting co-operative bank shall be allowed to set off the accumulated loss and unabsorbed depreciation, if any, as under:

(a)	Where the whole of amount of such loss or unabsorbed depreciation is directly relatable to the undertaking transferred to the resulting co-operative bank	The whole of such loss or unabsorbed depreciation		
(b)	Where such accumulated loss or unabsorbed depreciation is not directly relatable to the undertaking transferred to the resulting cooperative bank	Accumulated loss or unabsorbed depreciation of the demerged cooperative bank before demerger	x	$\frac{\text{Assets of the undertaking transferred to resulting co-operative bank}}{\text{Assets of the demerged co-operative bank before demerge}}$

(a) Conditions to be satisfied by the predecessor bank [Section 72AB(2)(a)]:

The predecessor bank should:

- (i) have been engaged in the business of banking for three or more years; and
- (ii) have held atleast 75% of the book value of fixed assets as on the date of reorganization, continuously for two years prior to the date of business re-organization.

(b) Conditions to be satisfied by the successor co-operative bank (amalgamated co-operative bank or resulting co-operative bank) [Section 72AB(2)(b)].

The successor co-operative bank should:

- (i) hold at least 75% of the book value of fixed assets of the predecessor co-operative bank acquired through business reorganisation, continuously for a minimum period of five years immediately succeeding the date of business reorganisation;
- (ii) continue the business of the predecessor co-operative bank for a minimum period of five years from the date of business reorganisation; and
- (iii) fulfil such other conditions as may be prescribed to ensure the revival of the business of the predecessor co-operative bank or to ensure that the business reorganisation is for genuine business purpose.
 - The Central Government may, for the purposes of this section, by notification in the Official Gazette, specify such other conditions as it considers necessary, other than those prescribed under section 12AB(2)(b)(iii), to ensure that the business reorganisation is for genuine business purposes [Section 72AB(4)].
 - The period commencing from the beginning of the previous year and ending on the date immediately preceding the date of business reorganisation, and the period commencing from the date of such business reorganisation and ending with the previous year shall be deemed to be two different previous years for the purposes of set off and carry forward of loss and allowance for depreciation [Section 72AB(5)].
 - In a case where the conditions specified in section 72AB(2)(b) or notified under section 72AB(4) are not complied with, the set off of accumulated loss or unabsorbed depreciation allowed in any previous year to the successor co-operative bank shall be deemed to be the income of the successor co-operative bank chargeable to tax for the year in which the conditions are not complied with [Section 72AB(6)].

9.8 ASSESSMENT OF TRUSTS

Trusts can be broadly classified into two categories, viz— (i) Public, (ii) Private.

However, there may be trusts which are a blend of both and are known as Public-cum-Private Trusts.

Private Trust

Private Trust is created and governed by Indian Trusts Act, 1882. It may be created inter vivos or by will. If a trust is created by will it shall be subject to the provisions of Indian Succession Act, 1925.

The following are the requisites for creation of a Trust:

- (i) The existence of the author/settlor of the Trust or someone at whose instance the Trust comes into existence and the settlor to make an unequivocal declaration which is binding on him.
- (ii) There must be a divesting of the ownership by the author of the trust in favour of the trustee for the beneficial enjoyment by the beneficiary.

- (iii) A Trust property.
- (iv) The objects of the trust must be precise and clearly specified.
- (v) The beneficiary who may be particular person or persons.

Unless all the above requisites are fulfilled, a trust cannot be said to have come into existence.

In order to constitute a valid trust the author of the trust must indicate with reasonable certainty—

- (a) the intention on his part to create a trust;
- (b) the purpose of the trust;
- (c) the beneficiaries;
- (d) the trust property;
- (e) transfer of property to the trust [CIT vs. Brig Kapil Mohan (2001) 252 ITR 830 (Del)]; and
- (f) A trust has to be certain as to the beneficiary. Where it is for the benefit of an individual, it is expected that an alternative beneficiary should be provided in case of pre-decease of such individual before maturity of the trust. Where a trust created for two minors-provided for the contingency of predecease of either of them, but not for the contingency of both, the Assessing Officer held the trust to be invalid on the ground of uncertainty as regards the beneficiaries. The High Court in CIT vs. Mehra Trust (2006) 284 ITR 149 (All) found that in such a case, section 77 of the Trust Act would provide for the extinguishment of the trust, so that it will revert back to the settlor. There is, therefore, no uncertainty as presumed by the Assessing Officer. The trust was held to be valid.

In case of private trust, the beneficiaries are individuals or families. Private trusts are further broadly classified into:—

- (i) Private specific trust, also referred to as Private Discretionary Trust with beneficiaries and shares determinate in respect of both.
- (ii) Private Discretionary Trust where the beneficiaries or their share or either is indeterminate.

Public Trust

Public trusts may be created inter vivos or by will. In the case of Hanmantram Ramnath vs. CIT (1946) 14 ITR 716 (Bom), it was held that although the Indian Trusts Act does not specifically apply to charitable trusts, there are three certainties required to create a charitable trust. They are:

- (i) a declaration of trust which is binding on settlor,
- (ii) setting apart definite property and the settlor depriving himself of the ownership thereof, and
- (iii) a statement of the objects for which the property is thereafter to be held, i.e. the beneficiaries.

It is essential that the transferor of the property viz the settlor or the author of the trust must be competent to contract. Similarly, the trustees should also be persons who are competent to contract. It is also very essential that the trustees should signify their assent for acting as trustees to make the trust a valid one.

When once a valid trust is created and the property is transferred to the trust, it cannot be revoked, if the trust deed contains any provision for revocation of the trust, provisions of sections 60 to 63 of the Income-tax Act will come into play and the income of the trust will be taxed in the hands of the settlor as his personal income.

Trust Deed

For creation of a valid trust, it is not necessary to execute a 'trust deed'. The trust, may be testamentary (deed in writing) or non-testamentary (without a written deed). It is now well settled that a formal deed of trust is not absolutely essential to constitute a trust still less to constitute a legal obligations binding the trustee [Radhasoami Satsang vs. CIT (1992) 193 ITR 321 (SC)].

A charitable trust may be created by words sufficient to show the intention. So long as there is clear manifestation of intention to create a charitable or religious trust and there is a formal vesting of the ownership of the property, the dedication is complete [CIT vs. Sant Baba Mohan Singh (1979) 118 ITR 1015 (All)].

A formal deed is not necessary to constitute a public trust, still less to constitute a legal obligation binding the trustees. In the case of a dedication to a public trust, what is essential is that there should be an unambiguous expression of intention to divest and an actual divestment of the interest of the donor for the benefit of the charity. Such divestiture can be proved by a written document or by other evidence as it is not necessary that there should be a writing to constitute a valid dedication [Jai Narayan Jai Govind vs. Controller of E.D. (1963) 49 ITR (ED) 105, 117 (Mad)].

Where there is no formal document or any such document of trust is available, eligibility is not lost. Although a trust can be oral but for recognition as charitable institution, it should be in writing. Evidential documents like revenue records for lands, property tax receipts, affidavits and such other documents, may be accepted in the place of a formal trust deed. Where the existence of the trust is established by these documents, a formal document was not considered necessary [Patel (AJ) vs. CIT (1974) 97 ITR 683 (Bom)].

Rectification of Trust Deed

Ordinarily it is not possible to rectify the objects of a trust but where there is an ambiguity or mutual mistake in the trust deed, it can be got corrected by a suit for rectification under orders of a court under section 26 of the Specific Relief Act, 1963. But that provision does not enable a modification of the trust deed under the guise of rectification. However, where the author of the trust files a suit under that provision to which the trustee are made a party and the deed is rectified by the decree of the Court, the rectification is binding on the trustee and so will have to be recognised by the Assessing Officer in determining the question of eligibility for exemption under these provisions [Yogiraj Charity Trust vs. CIT (1981) 128 ITR 377 (Del) and approved by the Supreme Court in CIT vs. Kamla Town Trust (1996) 217 ITR 699 (SC)]. However, such rectification deed can have no retrospective effect and will operate prospectively from the date on which such rectification is effected by the Court order.

Further, the Supreme Court in Trustees of H.E.H. The Nizam.'s Pilgrimage Money Trust vs. CIT (2000) 243 ITR 676 (SC) held that a civil court had no jurisdiction for altering the objects of a public trust under section 34 of the Indian Trust Act, 1882 since Indian Trust Act, 1882 was applicable only to private trusts. The deed of charitable trust could be amended only by the Court provided it satisfies the requirement of section 92(3) of the Code of Civil Procedure. As per section 92(3) of Code of Civil Procedure, the Court may alter the original purposes of any express or constructive trust created for public purposes of a charitable or religious nature and allow the property or income of such trust or any portion thereof to be applied cypres in one or more of the following circumstances, namely:—

- (a) where the original purposes of the trust, in whole or in part,— (i) have been, as far as may be, fulfilled; or (ii) cannot be carried out at all, or cannot be carried out according to the directions given in the instrument creating the trust, or where there is no such instrument, according to the spirit of the trust; or
- (b) where the original purposes of the trust provide a use for a part only of the property available by virtue of the trust; or
- (c) where the property available by virtue of the trust and other property applicable for similar purposes can be more effectively used in conjunction with, and to that end can suitably be made applicable to any other purpose, regard being had to the spirit of the trust and its applicability to common purposes; or
- (d) where the original purposes, in whole or in part, were laid down by reference to an area which then was, but has since ceased to be, a unit for such purposes; or

(e) where the original purposes, in whole or in part, have, since they were laid down,—

(i) been adequately provided for by other means, or (ii) ceased, as being useless or harmful to the community, or (iii) ceased to be, in law, charitable, or (iv) ceased in any other way to provide a suitable and effective method of using the property available by virtue of the trust, regard being had to the spirit of the trust.

In the case of a private trust, rectification can be done only with the consent of all beneficiaries.

In the context of lingering tax benefits for private trust, one may examine the lingering tax benefits in creation of a private trust, after many of the benefits taken away by anti-avoidance provisions, prescribing maximum rate of tax on income derived by media of private trusts.

The benefits that are still available are as follows:

- (1) The beneficiary will be taxed only to the extent of his entitlement of income from the property and not on its entire income. Valuation for Wealth Tax, when annuity was taxable, was also restricted to the capitalized value of such annuity of his right to receive any benefit on the valuation date and not the entire value of the property. If it is a discretionary trust, nothing can be taxed in the hands of the beneficiary but the tax advantage is neutralised by the maximum rate of tax both for Income Tax and Wealth Tax purposes under statutory provisions. The balance amount not taxed in the hands of beneficiaries is taxable at maximum marginal rate or 3%, whichever is higher, u/s 21(1A) of the Wealth Tax Act, not having been subjected to any change even after reduction of the Wealth Tax rate.
- (2) The second category of trust is the trust created for the benefit of minor children. Notwithstanding the clubbing provision, it has been held that trust in which the minors have the right to the trust property with the income accretion being available only after attaining majority, the aggregation provision will not be applicable. Such a view has been upheld by the Supreme Court in case of CIT vs. M. R. Doshi (1995) 211 ITR 1 (SC) with the result that it has become a safe method to avoid clubbing provisions. But such non inclusion in the year of accrual is hardly a consolidation, since the bunched income during the minority will be taxable in a single year being the year on which the minor attains majority as decided in Ganesh Chhababhai Vallabhai Patel vs. CIT (2002)258 ITR 193 (Guj), where the trustee was held assessable on this basis.
- (3) The third advantage is in the creation of trust by a Will. The first proviso (ii) to section 164(1) dispenses with the need for adoption of maximum rates even where the shares of the beneficiaries are indeterminate, if a trust is declared by a Will exclusively for the benefit of dependent relatives and such trust is the only trust so declared by the settlor this could be useful for those persons who have not made any trust.
- (4) Unborn children may also be beneficiaries. It may be pointed out that even a trust inter vivos for the benefit of unborn children or prospective wife cannot be aggregated. This decision was followed by Madras High Court in the case of L. Gouthamchand vs. CIT (1989) 176 ITR 442 (Mad.). It was also held so in CIT vs. Brig. Kapil Mohan (Lt. Col.) (2001) 252 ITR 830 (Del). However, it was held in CIT vs. Trustees of Keshav Motha Family Trust (1998) 232 ITR 875(Cal.) that the trust was not valid, when the beneficiary is not in existence like , for example, a would-be wife since the contingency is always there for the person not marrying at all , hence, the importance of providing alternate beneficiaries. In the above case, the trust deed should have spelt out what should be done, if the concerned person did not marry at all. Care must be taken to see that every eventuality including demise of the child before marriage is covered and alternatives provided.
- (5) After the provision of maximum rate of tax, where the beneficiary is not identifiable, it is likely that the revenue may seek to apply the maximum rate of tax under section 164, the possible argument being that the income during the year is not specifically receivable on behalf of or for the benefit of any one person on the ground that the future wife or unborn child has not come into existence during accounting year. Such a view is being taken, though the argument

of revenue can be resisted on the ground that alternative beneficiaries have been provided in the event of failure of the provisions relating to unborn child or a future wife. At any rate, the fact that such income is carried over and at the time of accretion there is no definiteness does not mean that the shares are not specified, because definiteness is ensured at the time when the contingency provided for occurs or on determination of the trust.

The exemption under section 11 is allowed to the following:

- (1) a charitable trust,
- (2) a religious trust.

However, the word 'trust' as used in the context of sections 11 to 13 of the Income-tax Act, includes in addition to the 'trust' any other legal obligation.

Trust itself is a legal obligation, as the trustees are legally bound to apply the income of the trust in the manner and for the purposes specified by the author of the trust and it includes the following:

- (i) Property of the estate of deceased held by executor(s) under a legal obligation.
- (ii) Section 25 'Companies' or 'Guarantee Companies'. Such companies are also holding the properties under legal obligation.
- (iii) Muslim Wakfs.
- (iv) Religious Endowments under the Hindu Law.
- (v) Institutions registered under the Societies Registration Act, 1860 as the properties of the society are held under a legal obligation.
- (vi) Bar Councils, Chamber of Commerce, endowments, monasteries, maths, etc. are all instances where the 'property is held under legal obligation'.

Where the assessee, a statutory body, engaged in the activities of development and maintenance of ports in the State of Gujarat, made an application for registration under section 12A, which was rejected by the Commissioner on the ground that the assessee could not be considered as lawful trust within the meaning of term trust, it was held, that the assessee was a charitable institution and eligible for registration as there was no mention of either trust or institution in the definition of person in section 2(31) and merely because it was termed as a local authority, it would not be a bar to its registration. The assessee was an institution within the meaning of section 12AA(1). Section 12A did not make any distinction between trusts and institutions. If an assessee is an institution whose object is charitable as defined under section 2(15), the institution would be entitled to registration under section 12A. In this case, the object of the assessee was to maintain and develop ports in the State of Gujarat which was an object of general public utility [CIT vs. Gujarat Maritime Board (2007) 289ITR 139 (Guj)].

Similarly, an institution established for regulating, procurement and supply of agricultural produce was accepted by the Tribunal as an object of general public utility so as to be eligible for registration as charitable institution under section 12A. The arguments of the department that such committee should have been registered as a trust to qualify for exemption was dismissed because there is no such requirement under the Act [CIT vs. Agricultural Produce & Marketing Committee (2007) 291 ITR 419 (Bom)].

For claiming exemption under section 11, the following conditions must be satisfied:

- (a) Trust must have been created for any lawful purpose;
- (b) Such trust/institution must be for charitable or religious purposes.
- (c) The property from which income is derived should be held under trust by such charitable or religious trust/institution.

- (d) The accounts of the trust/institution should be audited for such accounting year in which the total income, before giving effect to provisions of section 11 or 12, exceeds the maximum amount which is not chargeable to tax and the person in receipt of the income should obtain an audit report in Form No. 10B [Rule 17B] and furnish the same along with the return of income.

Filing of audit report on or before the due date is directory and not mandatory: In the case of CIT vs. Hardeodas Agarwalla Trust (1992) 198 ITR 511 (Cal), it has been held that an omission to file audit report alongwith the return of income may be rectified by filing the report at a later stage before assessment is completed. However, audit report shall have to be filed for claiming exemption.

Failure to file the audit report in time need not deprive the assessee of the benefit of exemption, since it was only a technical lapse [CIT vs. Shreyas Nidhi, Swasti Nidhi, Venu Nidhi and Swasthya Nidhi (2002) 258 ITR 712 (Guj)].

Where for reasons beyond the control of the assessee, some delay has occurred in filing the audit report, the exemption, as available to such trust under sections 11 and 12, may not be denied merely on account of delay in furnishing the auditor's report and the Assessing Officer should record reasons for accepting a belated audit report [Instruction No. 1/1148 — CBDT F. No. 257/482/77-IT (Part), dated 9-2-1978].

- (e) The trust must get itself registered with the Commissioner of Income-tax within the prescribed time.

For claiming benefit under section 11(1)(a), registration under section 12A (Now section 12AA) is a condition precedent [U.P. Forest Corporation & Anr vs. DCIT (2008) 297 ITR 1 (SC)].

- (f) Where the 'property held under a trust' includes a business undertaking, the provisions of section 11(4) shall be applicable. On the other hand, if the trust wishes to carry on business, the profits or gains earned from such business shall not be exempt under section 11, unless the business is incidental to the attainment of the objectives of the trust/institution and separate books of account are maintained by such trust and institution in respect of such business.

- (g) The charitable trust created on or after 1-4-1962 should satisfy the following further conditions:

- (i) it should not be created for the benefit of any particular religious community or caste;
- (ii) no part of the income of such charitable trust or institutions should enure directly or indirectly for the benefit of the settlor or other specified persons; and
- (iii) the property should be held wholly for charitable purposes.

However, the religious trust created before or after 1-4-1962 may not satisfy the condition (i) mentioned above, but if it is created after 1-4-1962, it should satisfy the conditions (ii) and (iii) mentioned above.

Thus, the charitable trust or religious trust created before 1-4-1962 can be partly public charitable or religious trust and partly private charitable/religious trust but charitable or religious trust created after 31-3-1962 should be wholly for charitable or religious purposes.

- (h) The funds of the trust should be invested or deposited in the permissible forms and modes prescribed in section 11(5).

According to section 2(15), charitable purpose includes relief of the poor, education, medical relief and the advancement of any other object of general public utility.

With a view to limiting the scope of the phrase 'Advancement of any other object of general public utility', the Finance Act, 2008 has inserted Proviso 1 to section 2(15) w.e.f. assessment year 2009-10 so as to provide that 'the advancement of any other object of general public utility' shall not be a charitable purpose if it involves the carrying on of—

- (a) any activity in the nature of trade, commerce or business or,

(b) any activity of rendering of any service in relation to any trade, commerce or business, for a fee or cess or any other consideration, irrespective of the nature of use or application of the income from such activity, or the retention of such income, by the concerned entity.

Amendment made by the Finance Act, 2010, w.r.e.f. assessment year 2009-10

The Finance Act, 2010 has inserted second proviso to section 2(15) w.r.e.f. assessment year 2009-10 (i.e. from the assessment year from which proviso 1 is applicable) to avoid hardship faced by the organizations which receive sundry consideration from the above commercial activities. The Act has therefore amended section 2(15) to provide that "the advancement of any other object of general public utility" shall continue to be a "charitable purpose" if the aggregate value of receipts from any activity in the nature of trade, commerce or business, or any activity of rendering any service in relation to any trade, commerce or business do not exceed ₹10 lakh in the previous year (increased to ₹2,500,000 by the Finance Act, 2011, w.e.f. assessment year 2012-13).

As per amendment made by the Finance Act, 2012 where the commercial receipt of the above said charitable trust exceeds ₹25,00,000 in any previous year, there will be no need to cancel the registration of such trust but that exemption under sections 11 and 12 shall not be allowed for that previous year.

Educational Institution

The Uttarakhand High Court in the case of CIT vs. Queens' Educational Society (2009) 177 Taxman 326 (Uttarakhand) held that where an educational institution generates surplus and makes investment in fixed assets which were properties of this assessee exemption should be refused.

However, the Punjab and Haryana High Court in a very elaborate judgement where the above case of Uttarakhand High Court was also considered decided that even if there remains a surplus at the hands of the educational institution, it would be entitled to exemption under section 10(23C)(vi) provided that educational institution solely exists for educational purposes; capital expenditure has to be deducted from the gross income of the educational institution in determining whether 85 per cent of the income has been applied for its objects [Pinegrove International Charitable Trust & Ors. vs. UOI & Ors (2010) 37 DTK (105) (P&H)].

The assumption, that for exemption there should not be any surplus and if it is otherwise the institution society exists for profit and not charity, is not justified. Thus, exemption cannot be rejected merely because there is a surplus. Vanita Vishram Trust (2010) 327 ITR 121 (Bom); Maa Saraswati Trust 194 TM 84 (HP) and Pinegrove International Charitable Trust vs. UOI & Ors (2010) 327 ITR 73 (P&H) followed) [St. Lawrence Educational Society vs. CIT (Delhi High Court)].

Merely, because an educational institution accumulates income, it does not go out of consideration of section 10(23C)(vi). The exemption can be lost if application of income is for purpose other than education [Maa Saraswati Educational Trust vs. UOI (2010) 194 Taxman 84 (HP)].

Charitable Organisation

A charitable organisation is ordinarily formed by way of a trust or a company limited by guarantee under section 25 of the Companies Act, 1956 or a society under the Societies Registration Act, 1860 (Central) or under a State Act in case there is one. As far as the tax angle is concerned, it makes no difference whether the charitable organisation is formed by way of trust, a company or a society.

A trust can be oral but for recognition as a charitable institution, it should be in writing and should have three certainties:

- (i) certainty as regards property which is the object of the trust;
- (ii) the object themselves; and
- (iii) the beneficiaries for whom they are intended.

Forming a formal trust with specified objects which are charitable with a small contribution by the

settlor and appointing trustees with provision of future trustees is a normal form of creation of charitable institution. The advantage of trust is that it is in the control of few persons who are appointed as trustees and not elected. They could be nominated for life or lesser period.

Even a settlor can himself be a sole trustee or one of the trustees.

A Wakf under Mohammeden Law is created under the Wakf Act, 1995 (previously under the Musalman Wakf Act, 1923). The difference between trust law and wakf is that the latter is created either by a Muslim or by a competent court by dedication of immovable property to God for religious, pious or charitable purposes. Such wakfs are managed by Mutawali whose powers are at par with that of trustee.

Some States have their own laws relating to public trusts as in Andhra Pradesh, Gujarat, Maharashtra, Rajasthan and have regulatory agencies under the respective laws. It would be necessary for the trust located in the respective States to conform to these laws as well but non-compliance may not always mean that the trust is invalid or that they would not be eligible for exemption.

A public limited company should be at par with section 25 of the Companies Act provided the following conditions are satisfied:—

- (i) The objects of the company should conform to the requirement of law.
- (ii) It should not be allowed to distribute dividends to the shareholders.
- (iii) Surplus, if any, will have to be utilised for its objects i.e. for charitable purposes.

The following Acts have been decided as acts for charitable purpose by the various courts and authorities:

Promotion of sports: The board has clarified that promotion of sports and games can be considered to be a charitable purpose within the meaning of section 2(15) of the Income-tax Act, 1961. Therefore, an association or institution engaged in promotion of sports and games can claim exemption under section 11 of the Income-tax Act, 1961, even if it is not approved under section 10(23) of the Act relating to exemption from tax of sports associations and institutions having their objects as the promotion, control, regulation and encouragement of specified sports and games [Circular No. 395, dated 24th September, 1984].

Relief of poor: The relief of the poor must not be relief to a body of private individuals but must have a public character [Mercantile Bank of India (Agency) Ltd (1942) 10 ITR 512 (Cal)]. Therefore trusts for the relief of poverty of poor relatives of the settlor were not for a charitable purpose since no element of public benefit was involved [CIT vs. Jamal Mohd. Sahib (1941) 9 ITR 375 (Mad)].

Activity of giving micro finance and earning interest is charitable: Where an assessee is registered under section 25 of Companies Act, 1956, it in itself shows that the company intends to apply its profit in promoting charity. And where the object of the assessee states that it shall promote micro finance services to poor person and help them arise out of poverty, mere surplus from such micro finance service cannot by itself be a ground to say that no charitable purpose exists. Followed Thanthi Trust (2001) 247 ITR 785 (SC) and Agricultural Produce and Market Committee (2007) 291 ITR 419 (Bom) [Dish India Micro Credit vs. CIT (ITAT-Del)].

Education: What education connotes in section 2(15) is the process of training and developing the knowledge, skill, mind and character of students by normal schooling [Sole Trustee, Loka Shikshana Trust vs. CIT (1975) 101 ITR 234, 241 (SC); Addl. CIT vs. Victoria Technical Institute (1979) 120 ITR 358, 370-1 (Mad)]. Education, in order to be charitable, must relate to the public and a trust created for the education of the members of a family or the descendants of a certain named individual are not for charitable purposes [D.V. Arur vs. CIT (1945) 13 ITR 465 (Bom)]. Though newspapers have an educative value, advancement of education results only indirectly. Advancement of education resulting indirectly does not come under the head of education [CIT vs. Sole Trustee, Loka Shikshana Trust (1970) 77 ITR 61, 75 (Mys)].

Where the objects of society make it abundantly clear that the society exists for charitable purpose and the activities of the society includes letting out of the properties to the educational institution and there was a concurrent finding of the fact on the part of the Commissioner (Appeal) and the ITAT that the rental income earned by the society is being utilised again for the purpose of imparting education by maintaining the buildings and constructing new building for the same purpose, it was held that in this case charitable purpose is not lost and it cannot be said that the assessee is not entitled to exemption claimed by it under section 11 of the Act [CIT vs. Jyoti Prabha Society (2009) 310 ITR 162 (Uttarakhand)].

A Government company meant exclusively for publication and selling text books to the students as per the norms prescribed and approved by the Education Department, could well be treated as an educational institution even though it is not imparting formal education [Assam State Text Book Production and Publication Corporation Ltd. vs. CIT (2009) 319 ITR 317 (SC)].

Any other object of general public utility: General means pertaining to a whole class; public means the body of people at large including any class of the public; and utility means usefulness. Therefore, the advancement of any object of benefit to the public or a section of the public as distinguished from an individual or a group of individuals would be of charitable purpose [CIT vs. Ahmedabad Rana Caste Association (1973) 88 ITR 354 (Guj)].

The expression object of general public utility, however, is not restricted to objects beneficial to the whole mankind. An object beneficial to a section of the public is an object of general public utility. To serve a charitable purpose, it is not necessary that the object should be to benefit the whole of mankind or even all persons living in a particular country or province. It is sufficient if the intention is to benefit a section of the public as distinguished from specified individuals. The section of community sought to be benefited must undoubtedly be sufficiently defined and identifiable by some common quality of a public or impersonal nature. Where there is no common quality uniting the potential beneficiaries into a class, it might not be regarded as valid charitable trust [CIT vs. Andhra Chamber of Commerce (1965) 55 ITR 722 (SC)].

State Bar Council has been held to be a body constituted for general public utility although its objects are beneficial to section of a public [CIT vs. Bar Council of Maharashtra (1981) 130 ITR 28 (SC)].

The Satsangis of Radhaswami Satsang Sabha being followers of one religion, are cross-section of the public, and a charitable trust for the benefit of Satsangis as such must be deemed to be a trust for an object of a general public utility [CIT vs. Radhaswami Satsang Sabha (1954) 25 ITR 472 (All)].

A trust created for charitable or religious purposes will enjoy the exemption although it is named after a private person [CWT vs. HEH The Nizam Supplemental & Religious Endowment Trust (1973) 89 ITR 80 (AP)].

Where the primary objects are, charitable, exemption cannot be denied if a subsidiary object is found to be non-charitable but which is intended to subserve the religious and charitable objects [Yograj Charity Trust vs. CIT (1976) 103 ITR 777 (SC)].

The object of an association of chartered accountants to organise seminars, conferences and workshops to educate people on commercial laws, tax laws, auditing accounting, direct and indirect taxes, is an object of general public utility, so as to entitle such society to be treated as a charitable institution and therefore eligible for registration under section 12A and exemption under section 11 [CIT vs. Jodhpur Chartered Accountants Society (2002) 258 ITR 548 (Raj)].

Where the main object is to promote export of diamonds and develop the trade and export market and for this purpose a diamond bourse is established to facilitate liaison between industries in India and abroad, so that there could be a modern diamond market, the object is one of general public utility and the company, which was formed for the purpose is entitled to exemption [Director of Income-tax vs. Bharat Diamond Bourse (2003) 259 ITR 280 (SC) following Addl. CIT vs. Surat Art Silk Cloth Manufacturers Association (1980) 121 ITR 1 (SC)].

The Finance Act, 2008 has inserted proviso to section 2(15) w.e.f. assessment year 2009-10 so as to provide that 'the advancement of any other object of general public utility' shall not be a charitable purpose if it involves the carrying on of—

- (a) any activity in the nature of trade, commerce or business or,
- (b) any activity of rendering of any service in relation to any trade, commerce or business,

for a fee or cess or any other consideration, irrespective of the nature of use or application of the income from such activity, or the retention of such income, by the concerned entity.

However, the above proviso shall not apply if the aggregate value of the receipts from such commercial activities is ₹1,000,000 or less (increased to ₹2,500,000 by the Finance Act, 2011, w.e.f. assessment year 2012-13).

Subject to the provisions of sections 60 to 63, the following incomes of a religious or charitable trust or institution are not included in its total income:

- (a) As per section 11(1)(a), income derived from property held under trust, wholly for charitable and religious purposes, shall be exempt—
 - (i) to the extent such income is applied in India for such purposes; and
 - (ii) where any such income is accumulated or set apart for application to such purposes in India, to the extent to which the income so accumulated or set apart is not in excess of 15% of the income from such property,
- (b) As per section 11(1)(b), income derived from property held under trust in part only for such purpose, shall be exempt:
 - (i) to the extent such income is applied in India for such purposes, provided, the trust in question is created before the commencement of Income-tax Act, 1961 i.e. before 1-4-1962; and
 - (ii) where any such income is finally set apart for application to such purposes in India, to the extent to which the income so accumulated or set apart is not in excess of 15% of the income from such property.
- (c) As per section 11(1)(c),—
 - (i) Income derived from property held under trust, created on or after 1-4-1952 for charitable purpose which tends to promote international welfare in which India is interested, shall be exempt to the extent to which such income is applied to such purpose outside India. Religious trusts are not covered here.
 - (ii) Income derived from property held under a trust for charitable or religious purposes, created before 1-4-1952, shall be exempt to the extent to which such income is applied to such purposes outside India.

In the above two cases, it is necessary that the Board, by general or special order, has directed in either case that it shall not be included in the total income of the person in receipt of such income.

- (d) As per section 11(1)(d), income in the form of voluntary contributions made with a specific direction, that they shall form part of the corpus of the trust or institution, shall be fully exempt. The condition that at least 85% of the income should be applied during the previous year in which it is earned is not applicable in this case.

The essential condition of section 11(1) is that the property itself must be held under trust. That section does not say anything about the income (from the property) held under trust, etc. Therefore, unless the property itself is held under trust the exemptions under the section does not come into play [Cricket Association of Bengal vs. CIT (1959) 37 ITR 277 (Cal); Delhi Stock Exchange Association Ltd vs. CIT (1980) 126 ITR 532 (Del)]. It is not sufficient that the property is indirectly responsible for the income; it is necessary

that the income must directly and substantially arise from the property held under trust. The property must be the effective source from which the income arises [J.K. Trust vs. CIT (1953) 23 ITR 743 (Bom)].

Section 11(1) does not apply to cases where a trust or legal obligation is not created on any property but only the income derived from any particular property or source is set apart and charged for a charitable or religious purpose [Raja P.C. Lall Chaudhry vs. CIT (1957) 31 ITR 226 (Pat)]. Where a religious head, a Swamiji was teaching and accepted offerings, it cannot be said that the money received from offering is derived from a property held under a trust or under other legal obligation [Swami Narsingh Giri vs. CIT (1971) 79 ITR 544 (All)].

But bhents made by the followers to the deity (Radhaswami Dayal) in pursuance of the dictates of their faith and in accordance with the constitution of the Sabha vested in the Sabha under a legal obligation wholly for religious or charitable purposes would be exempt [CIT vs. Radhaswami Satsang Sabha (1954) 25 ITR 472 (All); CIT vs. Avtar Singh (Babd) (1972) 83 ITR 738 (Del)].

Where, the trust deed creates an overriding title in the beneficiaries thereunder (viz, the various cross-sections of the public covered by it to require that the income from the properties which are made the subject-matter of the trust be utilised in the manner set out therein and in no other manner, after the execution of the trust deed, the properties are no longer held by the assessee as the absolute owner thereof; they are held by the assessee under trust and a legal obligation to apply the income exclusively for charitable purposes, thus attracting the provisions for exemption contained in the Act [Moti Lal Chhadami Lal Jain vs. CIT (1991) ITR 1 (SC)].

Treatment of voluntary contributions made to trust with a specific direction that it shall form part of corpus of the trust

Any voluntary contribution received by the trust with a specific direction that it shall form part of the corpus of the trust is fully exempt under section 11(1)(d) and the condition that at least 85% of the income should be applied during the previous year in which it is earned is not applicable in this case.

The question, whether a particular contribution has been towards corpus or otherwise would depend upon the facts of the case. Where the contribution is made for a specific purpose and not for general purpose, it can be understood that the donation is towards corpus [CIT vs. Shri Plot Swetamber Murti Pujak Jain Mandal (1995) 211 ITR 293 (Guj)]. Where the amount was given with specific direction for construction of Wadi, it shall be treated as having been made for corpus [CIT vs. Sthanakvasi Vardhman VanikJain Sangh (2003) 260 ITR 366 (Guj)].

Donations collected by the assessee, in a donation box in the face of its appeal that the amounts so collected would be used for the construction of a building can be considered as carrying specific directions for being used for construction of building and therefore, it is to be treated as donations toward corpus as such amount did not constitute income for the purpose of section 11 or 12 [Shree Mahadevi Tirath Sharda Ma Seva Sangh vs. ITO (2010) 133 TTJ 57 (Chd)(UO)].

Treatment of corpus donations: Corpus donations cannot be treated as income in view of the exception under section 12, so that such corpus donations need not be applied for the objects as required for other donations. It is sufficient, if the income therefrom is applied. It is not unusual for trusts to receive such donations for specified purposes not available for application at the discretion of the trustees according to the objects of the trust, so that the main trust need not lose its right to exemption either for non-application or even for the reason that the specific object of such tied-up donation does not fall within the ambit of the objects of the trust [CIT vs. Sthanakvasi Vardhman VanikJain Sangh (2003) 260 ITR 366 (Guj)].

As per section 12, Voluntary Contributions received by a trust/institution created wholly for charitable or religious purposes (not being contributions made with a specific direction that they shall form part of the corpus of the trust or institution) shall be deemed to be income derived from property held under trust wholly for charitable or religious purposes and the provision of section 11 (including the application of atleast 85% of income) and the provision of section 13 shall apply accordingly. Thus as

per Explanation 1 to section 11 in computing the 15% of income which may be accumulated or set apart, such voluntary contributions, shall be deemed to be part of the income. It may be noted that if such voluntary contributions are received by a trust created partly for charitable or religious purposes, the exemption shall not be available.

For claiming exemption under section 11, atleast 85% of the income should be applied during the previous year towards the purpose for which the trust has been created.

Income applied during the previous year for this purpose includes the following:

- (a) income actually applied during the previous year for charitable and religious purposes,
- (b) income deemed to have been applied for charitable or religious purposes in India during the previous year.

Applied, in this context, means that the income is actually applied for the charitable or religious purposes of the trust [H.E.H. Nizams Religious Endowment Trust vs. CIT (1966) 59 ITR 582, 588 (SC)]. The word applied need not necessarily imply spent. Even if an amount is irretrievably earmarked and allocated for the charitable or religious purpose(s), it may be deemed to have been applied for its purposes [CIT vs. Radhaswami Satsang Sabha (1954) 25 ITR 472, 522-3 (All); CIT vs. H.E.H. The Nizams Charitable Trust (1981) 131 ITR 497, 501-02 (AP)]. A mere credit entry in the books of the trust in the expectation of future income is not sufficient [Nachimuthu Industrial Association vs. CIT (1980) 123 ITR 611 (Mad)] but a credit entry made to allocate already earned income followed by some payments made in the year was held proper application [CIT vs. Thanthi Trust (1982) 137 ITR 735 (Mad)].

It is not necessary that in order to treat any amount as 'application' within the meaning of these provisions, the particular amount should be spent for charitable purposes only after the trust has earned profits.

Application of income may not result into revenue expenditure: Where income is applied for purchase of a capital asset, it would still be application of income to the charitable purpose. If the assessee invests in construction of a building, which is a permissible investment under section 11(5) of the Income-tax Act, so as to augment its resources for fulfilling the objectives of the institution, there is no doubt that such outlay would qualify as income applied for charitable purposes [CIT vs. St. George Parana Church (1988) 170 ITR 62 (Ker)].

Assessee trust established for the purpose of running hospitals, nursing home etc, spending the income for construction of hospital building, is an application of income for the objects of running hospitals and entitled to exemption [CIT vs. Mool Chand Sharbati Devi Hospital Trust (2010) 41 DTR(All) 153].

Repayment of a debt incurred for charitable purposes by a charitable trust and loans advanced by educational trusts are application of income:

Section 11 of the Income-tax Act requires 100% of the income of a charitable and religious trust to be applied for religious and charitable purposes to be entitled to the exemption under the said section. Two questions have been considered regarding the application of income:

- (i) Where a trust incurs a debt for the purposes of the trust, whether the repayment of the debt would amount to an application of the income for the purposes of the trust? and
- (ii) Whether loans advanced by an educational trust to students for higher studies would be treated as application of income for charitable purposes?

Board has decided that repayment of the loan originally taken to fulfil one of the objects of the trust will amount to an application of the income for charitable and religious purposes. As regards the loans advanced for higher studies, if the only object of trust is to give interest-bearing loans for higher studies, it will amount to carrying on of money-lending business. If, however, the object of the trust is advancement of education and granting of scholarship loans as only one of the activities carried on for the fulfilment of the objectives of the trust, granting of loans, even interest-bearing, will amount to

the application of income for charitable purposes. As and when the loan is returned to the trust, it will be treated as income of that year [Circular No. 100, dated 24-1-1973].

When the amount is returned by the beneficiaries of the trust, the receipt in the hands of the trust can only be its income of the years in which it is received [CIT vs. Cutchi Memon Union (1985) 155 ITR 51 (Karn)].

Repayment of loan taken for construction of a building by the assessee for the purpose of augmenting its funds shall qualify as income applied for charitable purpose [CIT vs. Janmabhoomi Press Trust (2000) 242 ITR 703 (Karn)].

Repayment of loan taken by the charitable institution for construction of commercial complex so as to augment the resources of the trust would amount to application of income [Director of Income-tax (Exemption) vs. Govindu Naicker Estate (2009) 315 ITR 237 (Mad)].

Repayment out of rental income of the funds borrowed for construction of the building was to be treated as application of income for charitable purpose and thus the assessee shall be eligible for exemption under section 11. It was further pointed out that as and when the loans are discharged and the assessee becomes free to utilize the rental income, the trust will apply the same for charitable purpose set out in the trust deed and that it is at that juncture that the Assessing Officer could insist that the application of the income be for the purpose mentioned in the trust deed [Director of Income Tax (Exemption) vs. Span Foundation (2009) 178 Taxman 436 (Del)].

Payment of taxes held application: Expenditure by way of payment of tax out of current year's income has to be considered as application for charitable purposes because the payment has been made to preserve the corpus, the existence whereof is essential for the trust itself [CIT vs. Janaki AmmalAyya Nadar Trust (1985) 153 ITR 159 (Mad)].

Donation by one charitable trust to another amounts to application: When a charitable trust donates its income to another charitable trust, the provisions of section 11(1)(a) can be said to have been met by the donor-trust and the donor-trust can be said to have applied its income for charitable and religious purposes. However w.e.f. assessment year 2003-04, any donation made out of income referred to section 11(1)(a) or (b) read with explanation to that sub-section which is not applied, but is accumulated or set apart either during the period of accumulation or thereafter to any trust or institution registered under section 12AA or to any fund, institution or trust or any university or other education institution or any hospital or other medical institution referred to in section 10(23C)(iv), (v), (vi) or (via) shall not be treated as application of income for charitable or religious purposes.

It has been decided by the Board that as the law stands at present, the payment of a sum by one charitable trust to another for utilisation by the donee-trust towards its charitable objects is proper application of income for charitable purpose in the hands of the donee-trust; and the donor-trust will not lose exemption under section 11 of the Income-tax Act, 1961, merely because the donee-trust did not spend the donation during the year of receipt itself [Extracted at (1988) 172 ITR 709 (Guj)].

Where loans were advanced to economically weaker persons for housing purposes in pursuance of the objects of a public charitable trust and such amounts are subsequently written off, the amount so written off could be treated as application for the object of general public utility [CIT vs. Sacred Heart Church (2005) 278 ITR 180 (Guj)].

Other cases of application: Other cases holding that in the facts of those cases, the expenditure or outgoing did constitute application of income for charitable purposes, are:

- (1) CIT vs. Kannika Parameswari Devasthanam & Charities (1982) 133 ITR 779 (Mad) [capital expenditure incurred on improving or maintaining property of the trust].
- (2) Application of surplus funds in construction of additional buildings with the purpose of letting them out and utilising the rent for the objects of the trust would amount to applying funds for religious and charitable purposes [St. George Parana Church (1988) 170 ITR 62 (Ker)].

- (3) Spending on production and exhibition of a film, as also spending for the construction of a overhead tank on land belonging to the legal heirs of the founder of the assessee-trust is application [CIT vs. Divine Light Mission (1990) 183 ITR 56 (Del)].
- (4) Expenditure on salaries and miscellaneous expenses for the purpose of carrying out the objects and purposes of the trust must be considered as application for charitable purposes [CIT vs. Birla Janahit Trust (1994) 208 ITR 372 (Cal)].
- (5) Where the assessee is a charitable institution, legal expenses incurred by the assessee-association for defending the persons running the association against criminal charges are allowable as a permissible deduction while computing the total income of the assessee association [Ananda Marga Pracharaka Sangha vs. CIT (1996) 218 ITR 254 (Cal)].
- (6) Income for the purposes of section 11 should be understood in its commercial sense and, therefore, loss on sale of shares to make investments in specified investments within the meaning of section 11(5) has to be treated as application of income of the trust [Chidambaram Chettiar Foundation vs. ITO (1991) 39 TTJ 82 (AT)(Mad)].

As per clause (2) of the Explanation to section 11(1), if the income applied to charitable or religious purposes during the previous year falls short of 85% of the income derived during the year either:

- (a) for the reason that whole or part of the income has not been received during the previous year or
- (b) for any other reason,

then the charitable trust has been given the option to spend such income for charitable or religious purposes in the following manner:

- (i) In case of (a) either during the previous year in which the income is so received or in the immediately following previous year. Example, if the income of previous year 2013-14 is received on 15-4-2015, such income should be applied for charitable or religious purposes either during previous year 2015-16 and/or 2016-17.
- (ii) In case of (b) during the previous year immediately following the previous year in which the income was derived. Example, if the income is received on 28-1-2014 and it could not be spent in the previous year 2013-14 for any reason, it could be applied in the next previous year i.e. 2014-15.

To avail the facility of the above extended period of application of income, the trust has to exercise an option in writing before the due date of filing return under section 139(1).

If such option is exercised by the trust, such income shall be deemed to have been applied for charitable and religious purposes during the previous year in which the income is earned, though it is actually spent at a later date. In this case, as such income is deemed to have been applied during the previous year in which it was derived, it shall not be treated as application of income for charitable purposes, of the previous year in which it is actually spent.

Where the income for which an option has been exercised by the assessee is not actually applied within the prescribed time, it shall be treated as the income of the previous year immediately following the year of receipt, in case of reason (a) mentioned above.

In case of reason (b) it will be treated as the income of the previous year immediately following the previous year in which such income was derived.

The amount of depreciation debited to the accounts of the charitable institution has to be deducted to arrive at the income available for application to charitable and religious purposes [CIT vs. Sheth Manilal Ranchhoddas Vishram Bhavan Trust (1992) 198 ITR 598 (Guj), CIT vs. Bhomka Public Welfare Trust (1999) 240 ITR 513 (Cal)].

Depreciation is also application of income: (a) Depreciation shall be allowed on the assets, the cost of which had been fully allowed as application of income under section 11.

(b) Depreciation is allowable on assets received on transfer when the assessee had not incurred the cost of acquiring the assets, even though it has already treated as application of income in the hands of the transferor trust [CIT vs. Institute of Banking Personnel Selection (IBPS) (2003) 264 ITR 110 (Bom)].

Where in the light of Escorts Ltd vs. UOI (1993) 199 ITR 43 (SC) a charitable trust was disallowed the depreciation by the Assessing Officer on the ground that since the income of the assessee was exempt from tax under section 11, allowing depreciation would amount to conferring double benefit as the assessee has already claimed deduction of the cost of the asset treating as application of income, it was held that in Escorts Limited's case, the Supreme Court rendered decision in the context of section 35(1)(iv), which barred depreciation under section 32 for an equipment acquired for research, the cost of which had been allowed as deduction under section 35. In case of charitable trust, the depreciation is reduced from the income for determining the percentage of funds which have to be applied for the purpose of the trust. Hence, distinguishing the Escorts Ltd case, it was held that double deduction is not being given in allowing claim of depreciation for computing income for purposes of section 11 [CIT vs. Market Committee, Pipli (2011) 330 ITR 16 (P&H). CIT vs. Tiny Tots Education Society (2011) 330 ITR 21 (P&H)].

Assessee charitable trust is entitled to the claim for depreciation on the assets owned by it. If depreciation is not allowed as a necessary deduction in computing the income of a charitable trust, then there would be no way to preserve the corpus of trust [CIT vs. Shri Gujarati Satnaji (Regd.) (2011) 64 DTR 76 (MP)].

Where a trust or institution expends or applied more than its income, it can only mean that such excess amount is from corpus or future income. The intention whether from corpus or future income should be manifest from the accounts. If such deficit is debited to corpus, it should ordinarily mean that the corpus is used or applied for the purpose of the trust so that there can be no objection to such use. On the other hand, if the deficit is merely carried forward, it would be clear, that the intention is to absorb such deficit against future income.

When a trust had spent in excess of its income for the current year resulting in a deficit which was carried forward to the next year, it was held that in considering the application of income for the next year, the carried forward deficit was first to be set off against the income of the subsequent year [CIT vs. Maharana of Mewar Charitable Foundation (1987) 164 ITR 439 (Raj)].

Adjustment of expenses incurred by the trust in the earlier years against the income earned by the trust in the subsequent year will have to be regarded as application of income by the trust in the subsequent year [CIT vs. Institute of Banking Personnel Selection (IBPS) (2003) 264 ITR 110 (Bom). Set off or carry forward of loss of earlier years, or in other words, deficit of earlier years can be set off against surplus of the succeeding year. See also CIT vs. The Trustees of Seth Merwarjee Framji Panday Charitable Fund (2003) 177 Taxation 19, 20 (Bom)].

Excess expenditure of an earlier year can be adjusted against income of subsequent year and such adjustment is to be treated as application of income in subsequent year [CIT vs. Shri Plot Swetamber Murti Pujak Jain Mandal (1995) 211 ITR 293 (Guj)].

The excess of application of the current year/past year can be set off against the income of subsequent/current year [Raghuvanshi Charitable Trust and others vs. DIT (2011) 221 Taxation 250 (Del)].

Expenditure incurred in the earlier year can be met out of the income of the subsequent year and utilization of such income for meeting the expenditure of the earlier year would amount to such income being applied for charitable or religious purposes [CIT vs. Shri Gujarati Samaj (Regd.) (2011) 64 DTR 76 (MP)].

Anonymous donations to form part of income of trust [Section 13]

As per the new section 115BBC, anonymous donation shall now be taxable at the maximum marginal rate of 30%. Consequently, a new sub-section (7) has been inserted in section 13 to provide that nothing contained in section 11 or section 12 shall operate so as to exclude from the total income of the Previous

Year of the person in receipt thereof, any anonymous donation referred to in the new section 115BBC on which tax is payable in accordance with the provisions of that section. In other words anonymous donation shall not be excluded from the total income of the assessee.

Taxation of Trust

A. Public Trust u/s. 164(2) —

- (i) If income is not exempt u/s 11 or 12, income of Trust is taxable at the rates applicable to an Association of Person.
- (ii) If the exemption is forfeited due to contravention of Sec. 13(1)(c) or 13(1)(d), such income of trust is taxable at maximum marginal rate.

B. Private Trust (shares of beneficiaries are determinate or known) —

- (i) If income does not include business Profits, the trustee is assessable at the rates applicable to each beneficiary. [Sec. 161(1)]
- (ii) If income includes profits from business, the whole income is taxable at maximum marginal rate. [Sec. 161(1A)]

C. Private Trust (share of beneficiaries in determinate or unknown) [Sec. 164(1)] —

- (i) If income does not include business profits, income is taxable at the rates applicable to an AOP if —
 - none of the beneficiaries has taxable income or is a beneficiary in any other trust.
 - the trust is non-testamentary trust created before 1.3.1970
 - exclusively for the relative dependents of the settlor; or
 - it is the only trust declared by a WILL exclusively for the benefit of any dependent relative. In any other case, income is taxable at maximum marginal rate.
- (ii) If income includes business profits, the whole income is taxable at maximum marginal rate.

D. Oral Trust [Sec. 160(1)(v), Sec. 164A] : “Oral Trust” means a trust which is not declared by a duly executed instrument in writing including any wakf deed which is valid under the Mussalman wakf validating Act, 1913 and which is not deemed to be trust by virtue of Explanation 1 to Sec. 160.

- (i) Income of Oral trust is taxable at maximum marginal rate.
- (ii) If Oral trust is declared to be a trust by furnishing a statement in writing containing purposes, particulars and details of trust, beneficiaries and property to the assessing officer within 3 months from the date of declaration of the trust, indicating the share of beneficiaries, the income of the trust is assessable in the hands of trustee at the rates applicable to beneficiaries.

E. Income from property held under Trust partly for religious purposes and partly for other purposes [Sec. 164(3)]

Where property is held under trust partly for religious purposes and partly for other purposes and the individual share of the beneficiaries in the income applicable to purposes other than charitable purposes, is not known, the Income-tax liability will be aggregated as follows :

- (i) the tax which would be chargeable on the part of the relevant income which is applicable to charitable or religious purposes (as reduced by the income which is exempt u/s 11 as if such part were the total income of an Association of Persons); and
- (ii) the tax on that part of income attributable to purposes other than charitable or religious and in respect of which shares of beneficiaries are indeterminate or unknown, at the maximum marginal rate.

F. Securitisation Trust [Sections 115TA to 115TC]:

Securitisation Trust means a trust set up to undertake securitisation activities.

- (i) If income of the trust consists of business income or the participants have taxable income, then trust is subject to maximum marginal rate of tax.
- (ii) The income from the activity of securitisation of such trust will be exempt from tax u/s 10(23DA) with effect from the Assessment Year 2014-15.
- (iii) Such trust will be liable to pay additional income tax on income distributed to its investors @ 25% if the income is distributed to investors being Individual or HUF or 30% for other case. Such amount of tax will be subject to increase by surcharge @10%, Education Cess @ 2% and Secondary and Higher Secondary Education Cess @1%.
- (iv) The additional income tax shall not be payable if the income so distributed by such trust is received by a person who is exempt from tax under the Act.
- (v) Amount of tax on distributed income shall be remitted within 14 days from the date of payment or distribution of income.

Where any part of income is not exempt u/s 11 or 12 by virtue of sec. 13(1)(c) or (d), tax is charged on the relevant income at the maximum marginal rate.

The amount of tax will be increased by surcharge @ 10%, Education Cess @ 2% and Secondary and Higher Education Cess @ 1%.

However, the total amount payable as income tax and surcharge on total income exceeding ₹1 crore shall not exceed the total amount payable as income tax on a total income of ₹1 crore, by more than the amount of income that exceeds ₹1 crore.

Case Laws :

- (i) For purpose of section 164(1) what is relevant is that income is receivable on behalf of beneficiaries and is not necessary that income is received by beneficiaries - Gosar Family Trust vs. CIT 81 Taxman 146/215 ITR 55.
- (ii) Provision merely sets out how tax is to be charged and does not create a charge on the income - CIT vs. Kamalini Khatau 209 ITR 101.

As per section 11(2), if the assessee wants to accumulate or set apart the income in addition to 15% of the income, he can do so if conditions mentioned under are satisfied:

- (1) Such assessee should give a notice, in writing, in the prescribed form [F. No. 10] and manner, to the Assessing Officer specifying:
 - (a) the purpose for which the income is being accumulated or set apart;
 - (b) the period for which the income is to be accumulated or set apart. Such period should not exceed 5 years (10 years up to 31-3-2001) in any case.
- (2) The money so accumulated or set apart should be invested or deposited in the form or mode specified in section 11(5).

Notice for accumulation in Form 10 under section 11(2) should be filed within time limit fixed under rule 17 i.e. within time for filing of return of income under section 139(1). Extended period given under section 139(4) cannot be made applicable in this case [Kerala Rural Employment and Welfare Society vs. ADIT (2009) 184 Taxman 93 (Ker)].

A charitable institution, which is not able to apply the specific percentage of income (75%/85%) for charitable objects during the year, is entitled to accumulate the same with the permission of the Assessing Officer by filing Form No. 10, so as to retain the right to exemption. Where the assessee had filed Form No. 10, but filed a revised form in view of the revised computation of income, the Assessing Officer refused to entertain such revised form on the ground that the law does not permit such revision

especially since the original form itself was not filed along with the return. It was held that there was sufficient reason for the revised form in the light of recomputation of income and that it was bound to be entertained, since it was filed during the course of assessment [CIT vs. Simla Chandigarh Diocese Society (2009) 318 ITR 96 (P&H)].

- In computing the period of 5 years (10 years up to 31.3.2001), the period during which the income could not be applied for the purpose for which it is so accumulated or set apart due to an order or injunction of any court, shall be excluded.
- The notice in Form 10 should be delivered to the Assessing Officer before the expiry of time allowed under section 139(1) for filing the return of income [Rule 17].

The Commissioner can however condone the delay in furnishing this notice in terms of Circular No. 273, dated 3-6-1980. The CIT will, while entertaining such applications, satisfy himself that certain conditions mentioned in the said circular are fulfilled. Such an application cannot be rejected by the Commissioner without giving a hearing to the assessee.

Some of the High Courts have taken a view that though giving notice for accumulation is mandatory, the requirement of delivering the same before the due date for filing return of income is only directory and as such it may be filed at any time. The Supreme Court in the case of CIT vs. Nagpur Hotel Owners Association (2001) 247 ITR 201 (SC) did not decide whether or not time limit for delivery of notice is mandatory or directory. It has, however, held that the delivery of such a notice is mandatory and even if the time limit for its delivery is regarded as directory, it is necessary that it is delivered before the completion of assessment by the Assessing Officer.

The Gujarat High Court has further held that the assessment is not complete while an appeal before the tribunal is pending and accordingly such an application for accumulation of income may be filed before the tribunal decides the appeal [CIT vs. Mayur Foundation (2005) 274 ITR 562 (Guj)].

Section 11(2) further liberalises and enlarges the exemption given under section 11(1)(a). A combined reading of both the provisions would clearly show that section 11(2), while enlarging the scope of exemption, removes the restriction imposed by section 11(1)(a) but it does not take away any the exemption allowed by section 11(1)(a) [CIT vs. G.R. Govindarajulu & Sons Charities (2005) 271 ITR 145 (Mad)].

For accumulation of income under section 11(2), if the accumulation is to achieve the objects of the trust, it must be permitted. The assessee decided to accumulate its income for a period of ten years for fulfilment of the objects for which it had been created and notice to that effect was given by filing the requisite statutory form, giving particulars of the income sought to be accumulated and invested in the specified securities. The Court held that the declaration proposing to utilise the income for the objects of the trust was good enough in law, since plurality for purpose of accumulation is not precluded. Since the declaration was for the main objects of the trust, the Assessing Officer cannot decline to take into consideration the amounts so accumulated on the ground that in the statutory form the specific object for which the income was sought to be accumulated was not indicated. It was held that it is true that specification of a certain purpose or purposes was needed for accumulation of the trust's income under section 11(2) of the Act. At the same time the purpose or purposes to be specified cannot be beyond the objects of the trust [CIT vs. Hotel and Restaurant Association (2003) 261 ITR 190 (Del)].

Though the view taken by the Delhi High Court in the above case is reasonable, but it is contrary to the decision of the Calcutta High Court in case of Director of Income Tax (Exemption) vs. Singhania Charitable Trust (1993) 199 ITR 819 (Cal), where it was held that mere listing of the objects of the trust would not satisfy the requirement of specification of the purpose under section 11(2) of the Act. In this case, it was pointed out that the generality of the objects of the trust cannot take the place of specificity of the need for accumulation. It took the view that a specification of the purpose has to be an agreed one and has to be itemised considering the fact that this is a concession to be allowed only when the purpose requires a large outlay at a future date so as to justify the postponement of utilization in the current year. It is safer to specify the purpose though it would amount to commitment

in advance. One would expect the Assessing Officer to return Form 10, if he feels that the purpose is not specific, so as to enable the assessee to clarify the purpose in a manner acceptable to him. After having accepted the purpose, it should not ordinarily be open to the Assessing Officer to complain that the specification is not adequate and bring the applied income to tax in the year of application.

The requirement for an application in Form 10 for permission for accumulation of income is specification of the purpose. There is no bar against multiplicity of purposes nor is there any requirement of future plan as to the manner of application in clear terms [Director of Income Tax (Exemption) vs. Daulat Ram Education Society (2005) 278 ITR 260 (Del)].

Assessee trust accumulated income for 6 different objects out of 22 objects for which trust was established, it was held accumulation for plurality of purposes was justified [DIT vs. Eternal Science of Mon 's S. (2006) 155 Taxman 42 (Del)].

Where the assessee trust had only three charitable objects viz medical relief, education and relief to the poor and all the three objects were specified in the application made under section 11 (2) seeking exemption it was held that the assessee was not required to be more specific with regard to utilization of funds. Hence exemption should be granted [Bharat Kalyan Pratisthan vs. DIT (Exemption) (2007) 160 Taxman 216 (Del)].

Section 11(5) specifies the following modes of deposit/investment:

- (1) Investment in Government Saving Certificates and any other Securities or Certificates issued by the Central Government under its Small Saving Scheme.
- (2) Deposits with Post Office Savings Banks.
- (3) Deposits with Scheduled Banks or Co-operative Banks (including a Cooperative Land Mortgage Bank or a Cooperative Land Development Bank).
- (4) Investments in the units of Unit Trust of India.
- (5) Investments in Central or State Government Securities.
- (6) Investments in debentures issued by or on behalf of any company or corporation. However both the principal and interest thereon must have been guaranteed by the Central or the State Government.
- (7) Investment or deposits in any public sector company.
An investment or deposit in a public sector company shall continue to be one of the eligible modes of investment for charitable or religious trusts, for a period of three years (in the case of shares), and till the date of maturity of other investment or deposit from the date a public sector company ceases to be a public sector company.
- (8) Investment in bonds of approved financial corporation providing long term finance for industrial development.
- (9) Investment in bonds of approved public companies whose principal object is to provide long-term finance for construction or purchase of houses in India for residential purposes.
- (10) Investment in immovable property excluding plant and machinery, not being plant and machinery installed in a building for the convenient occupation thereof.
- (11) Deposits with or investment in any bonds issued by a public company formed and registered in India with the main object of carrying on the business of providing long-term finance for urban infrastructure in India.

Explanation — For the purposes of this clause, —

- (a) long-term finance means any loan or advance where the terms under which moneys are loaned or advanced provide for repayment along with interest thereof during a period of not less than five years;

- (b) public company shall have the meaning assigned to it in section 3 of the Companies Act, 1956;
- (c) urban infrastructure means a project for providing potable water supply, sanitation and sewerage, drainage, solid waste management, roads, bridges and flyovers or urban transport.
- (12) Deposits with the Industrial Development Bank of India.
- (13) Any other form or mode of investment or deposit as may be prescribed. Rule 17C has prescribed the following forms and mode of investments for this purpose:
 - (i) investment in the units issued under any scheme of mutual fund referred to in section 10(23D) of the Income-tax Act, 1961;
 - (ii) any transfer of deposits to the Public Account of India;
 - (iii) deposits made with an authority constituted in India by or under any law enacted either for the purpose of dealing with any satisfying the need for housing accommodation or for the purpose of planning, development or improvement of cities, towns and villages, or for both;
 - (iv) investment by way of acquiring equity shares of a depository as defined in section 2(1)(e) of the Depositories Act, 1996;
 - (v) investment by way of equity share capital of a specified company;
 - (vi) investment by way of acquiring equity shares of an incubatee by an incubator.

As per Explanation given under section 11 (2), any amount credited or paid out of the income referred to in section 11(1)(a) or (b) read with explanation to that sub-section which is not applied, but is accumulated or set apart, to any trust or institution registered under section 12AA or to any fund or institution or trust or any university or other educational institution or any hospital or other medical institution referred to in section 10(23C)(iv), (v), (vi) and (via) shall not be treated as application of income for charitable or religious purposes, either during the period of accumulation or thereafter.

Further, as per section 11(3), where the income of trust referred to in section 11(2) is credited or paid to any trust or institution registered under section 12AA or any institution or trust referred to in section 10(23C)(iv), (v), (vi) or (via) it shall be treated as not applied for charitable purpose, and such income shall be deemed to be the income of the previous year in which such amount is paid or credited.

As per section 11(3), where the income of the trust referred to in section 11(2)—

- (a) is applied for purposes other than charitable or religious purposes, or ceases to be accumulated or set apart for application thereto, or
- (b) ceases to remain invested or deposited in any mode mentioned under section 11(5) above, or
- (c) is not utilized for the purpose for which it is so accumulated or set apart during the period specified (not exceeding 10/5 years) or in the year immediately following thereof,
- (d) is credited or paid to any trust or institution registered under section 12AA or any institution or trust referred to in section 10(23C)(iv), (v), (vi) or (via),

such income shall be deemed to be the income,—

in case of (a) of the previous year in which it is so applied for other purpose or ceases to be accumulated or set apart, or

in case (b) of the previous year in which it ceases to remain so invested or deposited, or

in case of (c) of the previous year immediately following the expiry of period specified therein, or

in case of (d) of the previous year in which it is paid or credited.

As per section 11 (3A), where the income invested/deposited in approved modes cannot be applied for the purposes for which it was accumulated or set apart, due to circumstances beyond the control of the assessee, such assessee can make an application to the Assessing Officer specifying such other purpose for which he wants to utilise such accumulated income. Such other purposes should also be in conformity to the objects of the trust. The Assessing Officer in this case, may allow the application of

such income to such other purposes. On such an application being allowed by the Assessing Officer, the funds may be accumulated and/or applied for the purposes newly specified and the provisions regarding withdrawal of exemption will be applicable on the basis that new purposes were the ones that had been specified in the notice for accumulation given under section 11(2). However, the Assessing Officer shall not allow application of such income by way of payment or credit made for donation to other trust or other institutions, but the Assessing Officer may allow application of such accumulated income for the purpose of donation to other trust or institution in the year in which such trust or institution was dissolved.

The grants which are received for specific purposes did not belong to the assessee society; such grants did not form corpus of the assessee or its income. Those grants were not donations to the assessee so as to bring them under the purview of section 12. Voluntary contribution covered by section 12 is those contribution which are freely available to the assessee without any stipulation, which the assessee can utilise towards its objectives according to its own discretion and judgement. Tied up grants for specified purpose would only mean that the assessee which was a voluntary organisation had agreed to act as a trustee of a special fund granted by the donor with the result that it need not be pooled or integrated with the assessee normal income or corpus. Hence, even when the assessee had been assessed as AOP and deprived of section 11 benefits, the Assessing Officer could assess only net income of the assessee and not gross receipts. The assessee should have actually credited the grant in the personal account of the donor and any asset spent against the grant should have been debited to that separate account of the donor. That incoming and outgoing need not be reflected in the income and expenditure account of the assessee. At the end of the project, the balance, if any, available to the credit of the donor, could be treated as income of the assessee, if the donor did not insist for the repayment of the balance amount [Nirmal Agricultural Society vs. ITO (1999) 71 ITD 152 (Hyd)]. Also see Society for Integrated Development in Urban & Rural Area vs. DCIT (2004) 90 ITD 493 (Hyd)].

Any profit or gain arising from the transfer of capital asset being property held under trust shall be treated as capital gain. Since such capital gain, whether short-term or long-term, is also part of the income as per section 2(24)(vi), to claim exemption under section 11 the Charitable Trust should also apply income from such capital gain for charitable purposes during the previous year like any other income. It means that trust shall have to apply atleast 85% of the income from such capital gain for charitable purposes during the previous year.

Section 11(1A) which deals with treatment of capital gains, was not there at the inception of the Act. In the absence of such sub-section, all charitable or religious trusts or institutions were required to apply the capital gains for charitable or religious purpose to claim exemption under section 11(1)(a).

As capital assets were normally bought with corpus funds, the requirement of applying capital gain for the objects of the trust to claim exemption under section 11(1)(a) resulted into depletion of corpus. Hence, it was felt necessary to allow an option to such trusts or institutions whereby they could reinvest the sale proceeds from capital assets in some other capital assets, to enable the trust or institutions to maintain the corpus funds for the future.

Therefore, instructions were issued by Circular No. 2-P [LXX-5], dated 15-5-1963 which allowed the charitable or religious trust to reinvest the sale proceeds of the capital asset in another assets and still regard the same as applied for charitable or religious purpose. As per the Circular — where a religious or charitable trust transfers a capital asset forming part of the corpus of its property solely with a view to acquiring another capital asset for the use and benefit of the trust and utilizes the capital gains arising from the transaction in acquiring the new capital asset, the amount of capital gain so utilized should be regarded as having been applied for the religious or charitable purposes of the trust within the meaning of section 11(1).

Some changes were made in section 11(1) by the Finance Act, 1970 and the question was raised whether the instructions contained in Circular No. 2-P above shall be operative after the amendment made by the Finance Act, 1970. It was decided by the Board that the above instructions should continue to be operative notwithstanding the changes made in the scheme of the exemption of charitable or religious trusts through the Finance Act, 1970 [Circular No. 52 [F. No. 152(55) 70-TPL], dated 30-12-1970].

Thus prior to insertion of sub-section (1A) to section 11, the intention of the legislature was not in favour of imposing tax liabilities in case where the capital gain as well as the consideration is applied for acquisition of new capital assets.

The above concession already allowed under executive orders were formalized by the insertion of sub-section (1A) to section 11 by the Finance (No. 2) Act, 1971 w.r.e.f. 1-4-1962. Sub-section (1A) provided that the capital gains for the purpose of sub-section (1) shall be deemed to have been applied for charitable or religious purposes to the extent specified by the said sub-section (1A). In this connection explanatory circular No. 72, dated 6-1-1972 explained the reasons for insertion of sub-section (1A).

Section 11(1A) deals with two situations where income from capital gain shall be deemed to have been applied for charitable purposes:

- (1) Transfer of capital asset held under trust wholly for charitable or religious purposes.
 - (2) Transfer of capital asset held under trust in part only for charitable or religious purposes.
- (1) Transfer of capital asset held under trust wholly for charitable or religious purposes Section 11(1A)(a):
Where any capital asset being property held under trust wholly for charitable or religious purposes is transferred, and
- (i) the whole of the net consideration is utilised for acquiring another capital asset; or
 - (ii) part of the net consideration is utilised for acquiring another capital asset.

then, the capital gain arising from such transfer shall be deemed to have been applied to charitable purposes to the extent specified hereunder:

Amount of net consideration utilized	Amount deemed to be applied
Where the whole of the net consideration of such asset is utilized in acquiring a new capital asset	The whole of the capital gain.
Where only a part of the net consideration is utilized for acquiring the new capital asset	So much of such capital gain as is equal to the amount, if any, by which the amount so utilized exceeds the cost of the transferred asset i.e. amount invested minus cost of the transferred asset.

- (2) Transfer of capital asset held under trust in part only for charitable or religious purposes [Section 11(1A)(b)]: As already discussed such trusts are eligible for exemption under section 11 only when they have been created before the commencement of the Income-tax Act, 1961.

Where capital assets being a property held under trust in part only for such purposes is transferred, the treatment of capital gains shall be as under:

Amount of net consideration utilized	Amount deemed to be applied
Where the whole of the net consideration is utilised in acquiring the new capital asset	The appropriate fraction of the capital gain arising from the transfer of the capital asset
In any other case	The exemption shall be limited to so much of the appropriate fraction of the capital gain as is equal to the amount, if any, by which the appropriate fraction of the amount utilized for acquiring the new capital assets, exceeds the appropriate fraction of the cost of the transferred asset

Appropriate fraction means the fraction which represents the extent to which the income derived from the capital asset transferred was immediately before such transfer applicable to charitable or religious purposes;

Cost of the transferred asset means the aggregate of the cost of acquisition (as ascertained for the purposes of sections 48 and 49) of the capital asset which is the subject of the transfer and the cost of any improvement thereto within the meaning assigned to that expression in section 55(1)(6);

Net consideration means the full value of the consideration received or accruing as result of the transfer of the capital asset as reduced by any expenditure incurred wholly and exclusively in connection with such transfer.

Investment by way of fixed deposit in a public sector company or scheduled bank can be treated as a new asset acquired with the net consideration in terms of section 11(1 A). Further, the option, to apply part of the capital gain in the next year, exercised under the Explanation to sub-section (1) to section 11 requesting the Assessing Officer to treat the part of the capital gain as deemed application of the current year is also permissible [CIT vs. East India Charitable Trust (1994) 206 ITR 152 (Cal)].

The brief facts of the case were as under:

During the relevant previous year ended on 31-12-1981, the assessee-trust sold shares of various companies which formed the corpus of the trust fund for a net consideration of ₹3,778,640. On this transaction, the capital gains shown amounted to ₹2,379,538. The assessee claimed that the net consideration of the sale was utilised for acquiring new capital assets as under:

Date of utilisation in 1981	Amount INR(₹)	Particulars
29-12-1981	12,50,000	Fixed deposit with Hindusthan Petroleum Corporation Ltd
29-12-1981	7,50,000	Fixed deposit with Bharat Petroleum Corporation Ltd
29-12-1981	5,00,000	Fixed deposit with Bharat Heavy Electrical Ltd
30-12-1981	5,88,149	48,130 units of the Unit Trust of India
	30,88,149	
In 1982:		
13-01-1982	4,00,000	Fixed deposit with Bharat Petroleum Corporation Ltd
08-02-1982	3,00,000	Fixed deposit with Bharat Heavy Electricals Ltd
	7,00,000	

Out of the above, a sum of ₹7,00,000 was invested in the next previous year after December 31, 1981, and an option was exercised under the Explanation to section 11(1) requesting the Income-tax Officer to treat the above sum as deemed application during the year ended on December 31, 1981. It was urged that the capital gains of ₹23,79,538 was, therefore, exempt from tax under section 11(1) of the Income-tax Act, 1961.

The Income-tax Officer found that the assessee made fixed deposits with Central Government undertakings and further purchased 48,130 units of the Unit Trust of India. The Income-tax Officer was of the view that the investment in public sector undertakings was nothing but loans floated by these companies under their schemes and did not amount to the acquisition of capital assets. As regards unit trust investment, he found that the shares were not issued during the relevant year. The units were not marketable and the assessee did not become a registered holder of the units in the year under reference. He also found that the sum of ₹5,69,151 was included by the assessee in 'loans and advances' and had not been spent during the calendar year 1981.

The Income-tax Officer observed that the assessee could not get the benefit of deemed application under section 11(1) by utilising the net consideration in the subsequent year. The Income-tax Officer did not accept the assessee's contention that the net consideration for the sale of shares was utilised by it in acquiring new capital assets. He, therefore, did not allow exemption in respect of capital gains of ₹2,379,538 under section 11(1) of the Income-tax Act.

In this reference under section 256(1) of the Income-tax Act, 1961, for the assessment year 1982-83, the following questions of law have been referred to this court:

- (1) Whether, on the facts and in the circumstances of the case, the Income-tax Officer was correct in law in holding that the investment in public sector undertakings was a capital asset within the meaning of section 2(14) of the Income-tax Act, 1961?
- (2) Whether the finding of the Tribunal that the assessee-trust had invested in the units of the Unit Trust of India during the relevant previous year was based on proper evidence and materials?
- (3) Whether, on the facts and in the circumstances of the case, the Income-tax Appellate Tribunal was correct in law in holding that the entire sale proceeds from shares were invested in the acquisition of other capital assets within the meaning of section 11(1A) of the Income-tax Act, 1961?
- (4) Whether the Income-tax Appellate Tribunal was justified in holding that the assessee-trust was entitled to exemption under section 11(1A) of the Income-tax Act, 1961, in respect of the capital gains of ₹2,379,538 on the sale of shares?

In was held that—

- (a) As per section 2(14), capital asset includes property of any kind held by an assessee. 'Deposits or investments' are a kind of property and they do not fall in the exclusionary limb of the said definition.

The definition, when pitted against the definition of assets in section 2(e) of the Wealth-tax Act, 1957, makes it absolutely clear that the very terms 'investments and deposits' are to be accepted as capital assets. Wealth-tax is a tax on the capital value of assets. Therefore, whatever is brought in the net of wealth-tax as an asset is to be ordinarily taken as a capital asset for income-tax assessment unless excluded by its definition in section 2(14) under section 2(e) of the Wealth-tax Act, the expression 'assets' includes property of every description, movable or immovable, excepting those specifically excluded, e.g. agricultural land, farm house, animals, etc

The Wealth-tax Act defines 'asset' in a similar vein as the Income-tax Act defines 'capital assets'. The assets both for Wealth-tax and the Income-tax Acts, barring the specified exclusion, include property of every description, movable or immovable. The Wealth-tax Act has also an exclusionary part, but the exclusions stated therein like the exclusions in the definition of capital assets do not touch any investments or deposits. On the other hand, the investments and deposits are, in the first instance, brought-within the initial charge of wealth-tax and, afterwards, by special provisions, namely, section 5, excludes from the charge of tax certain deposits and investments as enumerated in that section.

What reinforces the assessee's case is the special mention in subsection (5) of section 11 of deposits with public sector companies. This only shows that an investment or deposit in a public sector company is firstly an asset and secondly a capital asset and thirdly a permitted capital asset under the special law relating to the assessment of charitable or public religious trusts. Therefore, the contention of the Revenue that the investment by way of deposit in a public sector company cannot be treated investment by way of deposit in a public sector company cannot be treated as a new asset acquired with the net consideration in terms of section 11(1A) is not tenable.

- (b) In our view, by reason of the option exercised under the Explanation to section 11(1), the assessee is entitled to the benefit under section 11(1A) in as much as the definition of income as contained in section 2(24) of the Act includes capital gains as one of the species of income. That being so, the option as exercisable with regard to income should also avail to capital gains provided such option is exercised in writing before the expiry of the time allowed under subsection (1) of section 139 for furnishing the return. Therefore, the amount of ₹7 lakh utilised in acquiring fixed deposits with the Bharat Petroleum Corporation Ltd and the Bharat Electronics Ltd should also be allowed exemption under the said provision for the assessment year 1982-83.

For the reasons aforesaid, we answer the first and the third questions in R.A. No. 1475/(Cal) of 1986 in the affirmative and against the Revenue.

- (c) So long as the investments were actually made during the accounting period, the issue of the units after the expiry of the accounting year is immaterial. The same shall relate back to the date when the payments were made to the unit trust for the purchase of the units.

There can be no cause for the Revenue to agitate that the utilisation in acquisition of fresh capital assets by way of units of the Unit Trust of India did not take place during the relevant previous year. The Revenue has not brought any evidence to prove that the money for the units had not been tendered on December 30, 1981. Nor is the finding of fact by the lower authorities on that aspect in any manner questioned. Therefore, we answer question No. 2 in the affirmative and in favour of the assessee.

[Director of Income Tax (Exemption) vs. DLF Qutub Enclave Complex Medical Charitable Trust (2001) 115 Taxman 520 (Del)].

Net consideration invested in a fixed deposit is an investment for acquiring another capital asset [Hindustan Welfare Trust vs. ITO (1988) 26 ITD 1 (AT) (SB) (Cal)].

Where an assessee trust had used the consideration on sale of a capital asset for redeeming a pledge, it was held that the assessee trust had merely discharged its obligation to pay the creditor and had not thereby acquired any capital asset so as to be entitled to the exemption under this section [CIT vs. Avkash Nidhi (1986) 160 ITR 729 (Guj)].

Where an assessee sold some shares and a part of the net consideration was deposited in a bank and the balance was left with the purchaser of shares as fixed deposit on interest and in its Balance Sheet this amount was shown as investment, it was held that the provisions of section 11(1A) were fully satisfied [CIT vs. Ambalal Sarabhai Trust (1988) 173 ITR 683 (Guj)].

Investment of the net consideration in fixed deposit with a bank for a period of six months or above would be regarded as utilization of the net consideration for acquiring another capital asset within the meaning of section 11(1A) of the Income-tax Act, 1961 [Instruction No. 883, dated 24-9-1975].

Where the net consideration was utilised during the accounting year for acquiring units of Unit Trust of India but the certificates of the units were received after the expiry of the accounting year, it was held that if the investments were actually made during the accounting year, the issue of the units by the Unit Trust of India after the expiry of the accounting year is immaterial for the purpose of claiming exemption under section 11(1A) [CIT vs. East India Charitable Trust (1994) 206 ITR 152 (Cal)].

Section 11(1A) is not meant for calculation of capital gains tax but is to operate after capital gains are worked in accordance with the provisions of sections 45 to 55 [Akhara Ghamanda Dass vs. Asstt. CIT (2000) 68 TTJ (Asr) 244].

Donation received in kind

Certain funds, trusts and institutions running hospitals, creches orphanages, school, etc, often receive donation in kind from various sources for application towards their charitable purposes. These contributions may be in the shape of books, clothes for the poor, grains to feed the poor, drugs, hospital equipments, etc.

Since, the donation in kind, of a nature referred to above, received by a fund, trust or institution would be income within the meaning of section 2(24)(vi) of the Act, it is clarified that the use of these towards object for which the fund, trust or institutions is established would be regarded as application of the income of the fund, trust or institution [Circular No. 580, dated 14-9-1990].

Where a trust received donation in kind and the same could not be used towards objects for which the trust, fund, etc is established, it should convert the asset in the form or mode specified in section 11(5) before the expiry of one year from the end of the previous year in which asset is acquired.

Business Income of a Trust

Trust can earn the following two types of business income:—

- (a) Profits and gains from a business undertaking held under a trust [Section 11(4)].
- (b) Profits and gains from a business provided such business is incidental to the attainment of the objectives of the trust/institution and separate books of account are maintained in respect of such business [Section 11 (4A)].

- (a) Profits and gains from a business undertaking held under a trust [Section 11(4)]: According to section 11(4), for the purpose of section 11 'property held under trust' includes a business undertaking so held and where a claim is made that the income of any such undertaking shall not be included in the total income of the trust, etc. in receipt thereof, the Assessing Officer shall have the power to determine the income of such undertaking in accordance with the provision of the Income-tax Act relating to the assessment and where the income determined by the Assessing Officer exceeds the income as shown in the books of account of the undertaking, such excess shall be deemed to be applied to purposes other than charitable or religious purposes and hence would not be exempt.

Section 11(4) is merely intended to tax income which is not accounted for in the books: It does not operate to charge a disclosed amount which is admittedly expended, for a purpose either charitable or non-charitable, but is disclosed as business expenditure and consequently added back in computing the business income [CIT vs. Birla Education Trust (1985) 153 ITR 579 (Cal)].

- (b) Profits and gains from incidental business [Section 11(4A)]: Where a trust or an institution is also carrying on any business activity, the provisions of section 11(1), (2), (3) and (3A) regarding exemption etc. shall not apply in respect of income earned from such business activity. However, if such business is incidental to the attainment of the objects of the trust/institution and separate books of account are maintained by such trust/institution in respect of such business, the exemption shall be available to trust in respect of income earned from such business activity.

Consequent to substitution of sub-section (4A), w.e.f. assessment year 1992-93, all that is required for business income of a trust or institution to be exempt is that business should be incidental to attainment of objectives of trust or institution [Asstt. CIT vs. Thanthi Trust (2001) 247 ITR 785 (SC)]. Thus, a business whose income is utilised by the trust or the institution for the purpose of achieving the objective of the trust or the institution is, surely, a business which is incidental to the attainment of the objectives of the trust.

- (1) Income of any other business which is not incidental to the attainment of the objectives of the trust or institution will not be exempt from tax [Circular No. 642, dated 15-12-1992].
- (2) It is relevant to note that the provisions of section 11(4A) do not override the provisions of section 10 of the Income-tax Act, and as such, profits derived by any trust, institution, association etc referred to in clauses (21), (23A), (23B), (23BB), (23C), etc. will continue to be exempted from income tax.
- (3) W.e.f. A.Y. 2009-10, where a trust or institution is registered under the category of 'advancement of any other object of general public utility', and it is carrying on any activity in the nature of trade, commerce or business or it is carrying on any activity of rendering of any service in relation to any trade, commerce or business, such advancement of any other object of general public utility shall not be a charitable purpose. However, this provision shall not be applicable if the gross receipts of such trust or institution from such activity during the previous year does not exceed ₹25,00,000 (₹10,00,000 for assessment years 2010-11 and 2011-12).

Where a charitable institution after acquiring an old building demolished the same and constructed marriage halls and auditoria and with a part of it run as a hostel it was held that such activity of letting is not business. Further, the property is one of the permitted investments under section 11(5) and if it is treated as investment in property, the question of application under section 11(4A) could not arise and the Assessing Officer has not to decide as to whether such business income was used for attainment of its objects [DIT (Exemption) vs. Willington Charitable Trust (2011) 330 ITR 24 (Mad)].

Registration of a Trust

For claiming exemption under sections 11 and 12, the trust must be registered under the Income-tax Act.

The application for registration of a charitable or religious trust has to be made in Form 10A. However, w.e.f. 1-6-2007, section 12A was amended as under:

- (1) For application for registration made on or before 30-5-2007, registration was granted under section 12A.
- (2) For application for registration made on or after 1-6-2007, registration is to be granted under section 12AA.
- (1) Law applicable up to 30-5-2007 [Section 12A(1)(a)]: The person in receipt of income was to make an application for registration of the trust/institution in the prescribed form (Form No. 10A) and in the prescribed manner to the Commissioner of Income-tax before the expiry of a period of one year from the date of creation of the trust or the establishment of the institution. If the application for registration was made within the prescribed time and the registration was granted under section 12A, the provisions of sections 11 and 12 were applicable from the date of creation of trust.

Condonation of delay in making application [Proviso to section 12A(1)(a)]: Where such application was made after the expiry of the aforesaid period, the provisions of sections 11 and 12 were to apply in relation to the income from the date of creation of the trust only if the Commissioner was, for reasons to be recorded in writing, satisfied that the person in receipt of the income was prevented from making the application before the expiry of the period aforesaid for sufficient reasons.

If the Commissioner was not so satisfied, the provisions of sections 11 and 12 were to apply only from the first day of the financial year, in which such application was made.

- (2) Law applicable w.e.f. 1-6-2007 [Sections 12A and 12AA]: Power of condonation of delay in making application for registration of charitable or religious trust has been withdrawn by the Finance Act, 2007.

Hence, as per section 12A(1)(aa) if the application for registration is made on or after 1-6-2007 the registration shall be granted under section 12AA.

Further, as per section 12A(2), the provision of sections 11 and 12 shall apply in relation to the income of such trust or institution from assessment year immediately following the financial year in which such application is made.

Documents to be attached along with application in Form 10A:

According to rule 17A, application for registration of a trust or institution shall be made in Form 10A, in duplicate and it shall be accompanied by the following documents, namely:—

- (a) (i) Where the trust is created, or the institution is established, under an instrument — The instrument in original, together with one copy thereof.
- (ii) Where the trust is created, or the institution is established, otherwise than under an instrument — The document evidencing the creation of the trust or the establishment of the institution, together with one copy thereof.

However, if the instrument or document in original cannot conveniently be produced, it shall be open to the Chief Commissioner or Commissioner to accept a certified copy in lieu of the original;

- (b) where the trust or institution has been in existence during any year or years, prior to the financial year in which the application for registration is made, two copies of the accounts of the trust or institution relating to such prior year or years (not being more than three years immediately preceding the year in which the said application is made) for which such accounts have been made up.

Where a trust is in existence for past several decades and no evidence or any document creating a trust is available, a declaration by existing trustees indicating the trust property and its objects as ascertained from all available evidence and other evidences as revenue records, house tax receipts,

etc. shall form a logical base for inferring a creation of trust and these should be adequate for registration of trust [Laxminarayan Maharaj and Anr vs. CIT (1984) 150 ITR 465 (MP)].

Procedure for Registration of trusts under Income-tax Act

As per section 12AA, the Commissioner, on receipt of an application for registration of a trust or institution made under section 12A, shall—

- (a) call for such documents or information from the trust or institution as he thinks necessary in order to satisfy himself about the genuineness of activities of the trust or institution and may also make such inquiries as he may deem necessary in this behalf; and
- (b) after satisfying himself about the objects of the trust or institution and the genuineness of its activities, he—
 - (i) shall pass an order in writing registering the trust or institution;
 - (ii) shall, if he is not so satisfied, pass an order in writing refusing to register the trust or institution, and a copy of such order shall be sent to the applicant:

However, no order refusing to register the trust shall be passed unless the applicant has been given a reasonable opportunity of being heard.

Order granting or refusing registration should be passed within 6 months [Section 12AA(2)]: Every order granting or refusing registration shall be passed before the expiry of six months from the end of the month in which the application was received under section 12A.

While considering the application for registration under section 12A, the Commissioner is not to examine the application of income. All that he is required to examine is whether the application form for registration is made in accordance with requirements of section 12A read with rule 17A i.e. whether the society has actually made an application in time, whether the accounts of the society have been maintained in the manner as suggested by such section and whether Form No. 10A has been properly filled up. He may also see whether the objects of trusts are charitable or not but at this stage it is not necessary or proper to examine whether the society would be able to claim the exemption under section 11 or 12. The only purpose for which the registration is required is for establishing its identity as an institution for being able to claim benefit under sections 11 and 12 of the Act [New Life In Christ Evangelistic Association vs. CIT (2000) 246 ITR 532 (Mad)].

For the purpose of registration of a trust under section 12AA, authorities have to ascertain only genuineness of activities of trust and how income derived from trust property is applied for charitable or religious purposes and not nature of activity by which income is derived by trust [Sanjeevamma Hanumanthe Gowda Charitable Trust vs. Director of Income Tax (Exemption) (2006) 155 Taxman 466 (Karn)].

Where, on an application filed under section 12A(a), a trust or institution is registered as a charitable or religious one, the registration itself would be sufficient proof of the fact that the trust or institution concerned is created or established for charitable or religious purposes. In such a case, it would not be possible for the Assessing Officer, in the course of the assessment proceedings, to come to a different finding that the trust or institution is not one for charitable or religious purposes. However, the Assessing Officer would be entitled to forfeit the exemption to the trust or institution for non-fulfilment of any other statutory requirement and/or contravention of any other provision of law [CIT vs. Ootacamund Gymkhana Club (1977) 110 ITR 392 (Mad)].

The application of income to charitable purposes outside India is relevant for determining the question of exemption and not for deciding the eligibility for registration under section 12AA [CIT vs. Shri Ram Memorial Foundation (2004) 269 ITR 35 (Del)].

Further, if the objects of the trust are charitable, the fact that no activity has been carried out by the trust does not entitle the Commissioner to hold that trust is not entitled to registration even though its objects are charitable [S.L. Oberai Memorial Charitable Trust vs. ITO (2005) 3 SOT 229 (Del)].

University, incorporated under Haryana Private Universities Act, 2006, is an artificial juristic person within the meaning of term "person" under section 2(31)(vii), hence, it is entitled to make an application for registration under section 12AA. The object of the university were granting fellowship, freeship, scholarship, etc to students belonging to weaker sections of society, it could be concluded that assessee was a charitable institution [O. P. Jindal Global University vs. CIT (2010) 127 ITD 164 (Del)].

Only because no charitable activity is carried on for the relevant year, registration cannot be refused. The Tribunal directed the CIT to grant approval under section 80G(5)(vi) [Jasoda Devi Charitable Trust vs. CIT (2010) 4 ITR 457 (Jaipur)(Trib)].

While granting registration to a Charitable Trust or institution, the powers of the CIT are limited to examination as to whether or not the objects of the trust are charitable in nature and examination about the genuineness of the activities, when genuineness of the activities is not in doubt, the CIT was not justified in refusing the registration under section 12AA, on irrelevant grounds [Saint Kabir Educational Trust vs. CIT (2010) 41 DTR 267 (Asr)(Trib)].

Where a truck operators association was formed for the welfare of the truck operators who were its members and it applied for registration under section 12AA as an association for charitable purpose under the category of advancement of general public utility, it was held that the assessee is not entitled to benefit of registration as it is not formed for advancement of general public utility [CIT vs. Truck Operator Association (2010) 328 ITR 636 (P&H)].

Denial of registration should be in a speaking order: Registration is an executive process, which involves exercise of quasi judicial powers. Where the commission declines registration, it could only be in a speaking order recording reasons for denial. The commissioner not having given any reasons in the order cannot support his denial by adducing reasons in the counter affidavit filed before the High Court [Adarsha Vidyaniidhi Trust vs. CIT (2007) 292 ITR 465 (Ker)].

Where after examining the Income and Expenditure Account for the relevant assessment years, the Commissioner concluded that assessee was not carrying on any charitable activity within the meaning of section 2(15) and its dominant object was to earn profits under the garb of education and accordingly the application for registration was rejected, it was held that in expression 'charitable purpose', charity is soul of expression and mere trade and commerce in education cannot be said to be a charitable purpose entitling a society to grant of registration under section 12AA [CIT vs. National Institute of Aeronautical Engineering Education Society (2009) 181 Taxman 205 (Uttakhand)].

Where a truck operators association was formed for the welfare of the truck operators who were its members and it applied for registration under section 12AA as an association for charitable purpose under the category of advancement of general public utility, it was held that the assessee is not entitled to benefit of registration as it is not formed for advancement of general public utility [CIT vs. Truck Operator Association (2010) 328 ITR 636 (P&H)].

If the Commissioner does not pass any order granting/refusing registration within the time limit set under section 12AA, then the Commissioner is deemed to have allowed the registration [Society for the Promotion of Education, Adventure Sport & Conservation of Environment vs. CIT (2008) 171 Taxman 113 (All)]. See also Bhagwad Swamp Shri Shri Devraha Baba Memorial Shri Hari Parmarth Dham Trust vs. CIT (2008) 299 ITR (AT) 161 (Del)(SB)].

Once the period of limitation prescribed under section 12AA(2) has expired, the subsequent impugned order refusing registration is nothing but a nullity. The expression used in the section is "shall". This "shall" cannot be expressed to mean 'may'. The unequivocal purport of the section is mandatory. There is no escape for the department. Once the limitation period has expired, the Commissioner becomes functus officio as regards the application under consideration before him. At the very moment of expiry of limitation, the application is deemed to have been accepted, in case no order thereon is passed by him.

Wherever application for registration is made, the authorities must act within the time frame. Failure on the part of the authority concerned to pass order within the statutorily laid down period of limitation will give rise to a presumption that registration, as applied for by the assessee, has been granted [Karnataka Golf Association vs. Director of Income Tax (2004) 91 ITD 1 (Bang)].

If the Commissioner does not grant or refuse to grant registration to a trust under section 12AA within the stipulated period of 6 months the registration shall be deemed to have been granted [Rev Father Trust Oscar Colasco Memorial Medical Association vs. Commissioner of Income-tax III, Thane (2009) 31 SOT 1 (Mum)].

Further, if the objects of the trust are charitable, the fact that no activity has been carried out by the trust does not entitle the commissioner to hold that trust is not entitled to registration even though its objects are charitable [S.L. Oberai Memorial Charitable Trust vs. ITO (2005) 3 SOT 229 (Del)].

If the application is made on or after 1-6-2007, the provision of sections 11 and 12 shall apply in relation to the income of such trust or institution from assessment year immediately following the financial year in which such application is made.

Prior to 1-6-2007, the registration would become effective from the date of creation of the trust if the application was made before the expiry of a period of one year from the date of creation of the trust or establishment of the institution. Further, prior to 1-6-2007, the Commissioner had a power to condone the delay in making an application for registration and the registration could be granted by the Commissioner from the date of creation of trust even if application was made after the expiry of the aforesaid one year.

Where a trust or an institution has been granted registration under section 12AA(1)(b) and subsequently, the Commissioner of Income-tax is satisfied that the activities of any trust or institution are not genuine or are not being carried out in accordance with the objects of the trust or institution, he shall, after giving reasonable opportunity of being heard to the concerned trust or institution, pass an order in writing cancelling the registration granted under the said section.

Amendment made by the Finance Act, 2010

Cancellation of registration obtained under section 12A [Section 12AA] [W.e.f. 1-6-2010]

Judicial rulings in Sri Chaitanya Educational Committee vs. CIT (2007) 106 ITD 256 (Hyd) and other cases have held that the Commissioner does not have the power to cancel the registration which was obtained earlier by any trust or institution under provisions of section 12A as it is not specifically mentioned in section 12AA(3).

The Act has therefore amended section 12AA(3) so as to provide that the Commissioner can cancel the registration even if it was obtained under section 12A.

As per section 12AA(3), registration granted to any trust or society under section 12AA(1)(b) can be cancelled only if the CIT is satisfied that the activities of such trust or institution are not genuine or are not being earned out in accordance with the objects thereof; registration could not be cancelled under section 12AA(3) by merely re-examining the objects of the trust or society [Chaturvedi Har Prasad Education Society vs. CIT (2010) 134 TTI 781 (Luck)].

Power to cancel registration under section 12AA(3) is prospective: Insertion of new clause in section 12AA(3) with effect from 1-6-2010, by which Commissioner has got power to cancel registration granted earlier to assessee-trust under section 12A, is not applicable retrospectively and its operation has to be effective from date it was introduced and onwards. Merely by granting a registration under section 12A/12AA, a trust ipso facto is not entitled to exemption prescribed under sections 11 and 12 [Ajit Education Trust v CIT (2010) 42 SOT 415 (Ahd); Bharati Vidyapeeth vs. ITO (2008) 14 DTR 454; Oxford Academy for Career Development vs. CCIT(2009) 315 ITR 382 (All)].

The Finance Act, 2012 has made the following amendments w.r.e.f. A.Y. 2009-10 for this situation:

The second proviso to section 2(15) provides that in case where the activity of any trust or institution is the nature of advancement of any other object of general public utility, and it involves carrying on of any activity in the nature of trade, commerce or business; but the aggregate value of receipts from the commercial activities does not exceed ₹25,00,000 in the previous year, then the purpose of such institution shall be considered as charitable, and accordingly, the benefits of exemption shall be available to it.

Thus, a charitable trust or institution pursuing advancement of object of general public utility may be charitable trust in one year and not a charitable trust in another year depending on whether its aggregate commercial receipts exceed ₹25,00,000 or not.

There is need to ensure that if the purpose of a trust or institution does not remain charitable due to application of first proviso on account of commercial receipts exceeding ₹25,00,000 in a previous year, then, such trust or institution would not be entitled to get benefit of exemption in respect of its income for that previous year for which such proviso is applicable. Such denial of exemption shall be mandatory by operation of law and would not be dependent on any withdrawal of approval or cancellation of registration or a notification being rescinded. Hence, sub-section (8) has been inserted in section 13 to provide that exemption under sections 11 and 12 shall not be allowed for the previous year in which commercial receipts of such trust exceed ₹25,00,000 whether or not registration is cancelled in respect of that trust.

Where fund or institution had been notified or approved by the Central Government or the prescribed authority under section 10(23C), as the case may be, and subsequently that Government or the prescribed authority is satisfied that—

- (i) such fund or institution or trust or any university or other educational institution or any hospital or other medical institution has not,—
 - (a) applied its income in accordance with the provisions applicable; or
 - (b) invested or deposited its funds in accordance with the provisions; or
- (ii) the activities of such fund or trust or institution or any university or other educational institution or any hospital or other medical institution,—
 - (a) are not genuine; or
 - (b) are not being carried out in accordance with all or any of the conditions subject to which such association was notified or approved,

it may, at any time after giving a reasonable opportunity of showing cause against the proposed action to the concerned fund or institution or trust or any university or other educational institution or any hospital or other medical institution, rescind the notification or, by order, withdraw the approval, as the case may be, and forward a copy of the order rescinding the notification or withdrawing the approval to such fund or institution or trust or any university or other educational institution or any hospital or other medical institution and to the Assessing Officer.

The following incomes of charitable or religious trusts/institutions shall not be eligible for exemption under sections 11 and 12.

- (1) Any part of the income from the property held under a trust for private religious purposes which does not enure for the benefit of the public [Section 13(1)(a)].
- (2) Any income of trust/institution created/established for charitable purposes on or after 1-4-1962, if such trust or institution is created or established for the benefit of any particular religious community or caste [Section 13(1)(b)]. The exemption is however, available to a charitable trust or institution created or established before 1-4-1962 even if it is for the benefit of any particular religious community or caste.

A trust or institution created or established for the benefit of Scheduled Castes, backward classes,

Scheduled Tribes or women and children shall not be deemed to be a trust or institution created or established for the benefit of a religious community or caste within the meaning of clause (b) of sub-section (1).

- (3) Any income of charitable or religious trust or institution created or established after 1-4-1962, if under the terms of the trust or rules governing the institution, any part of the income enures directly or indirectly for the benefit of any person referred to in sub-section 13(3) [Section 13(1)(c)].
- (4) Any income of a trust for charitable or religious purposes or a charitable or religious institution (whenever created or established) if any part of such income or any property of the trust or the institution during the previous year is used or applied directly or indirectly for the benefit of any person referred to in section 13(3) [Section 13(1)(c)]. However, exemption is not denied where the trust, etc. is created before 1-4-1962 and such use or application of income is in compliance with a mandatory term of the trust or a mandatory rule governing the institution.

The above restriction is obviously intended to ensure that, despite the ostensibly charitable objects of such trust or institution, its income is not diverted away to benefit persons who are closely connected with the creation, establishment and conduct of the trust or institution.

Charitable Trusts not to lose exemption if educational or medical facilities provided to specified persons [Section 13(6)]: A trust running an educational institution or a medical institution or a hospital shall not lose the benefit of exemption of any income under section 11 other than the value of benefits of educational or medical facilities provided to the specified persons referred to in section 13(3), solely on the ground that such benefits have been provided to such persons.

However, the value of such facilities provided to such specified persons either free of cost or at concessional rate shall be deemed to be income of such trust and shall not be eligible for exemption under section 11.

The expression 'value' shall be the value of any benefit or facility granted or provided free of cost or at concessional rate to any person referred to in clause (a) to clause (e) mentioned in section 13(3).

- (5) Any income of a trust/institution, if its funds are invested/deposited otherwise than as specified under section 11(5) [Section 13(1)(d)]. However, the provisions of section 13(1)(d) shall not apply to the under mentioned:
 - (i) any asset forming part of the corpus of the trust as on 1-6-1973;
 - (ii) any accretion to the corpus shares by way of bonus shares allotted to the trust;
 - (iii) debentures issued by or on behalf of any company or corporation and acquired by the trust before March 1, 1983;
 - (iv) any asset not covered under section 11(5) where such asset is held for not more than 1 year from the end of the previous year in which such asset is acquired;
 - (v) any fund representing the profits and gains of business, being profits and gains of any previous year relevant to the assessment year 1984-85 or any subsequent assessment year. But such relaxation of the restriction will be denied unless the trust keeps separate accounts for the business. As already noted, subject to certain exceptions, such business profits no longer enjoy exemption under section 11.
- (6) As per the new section 115BBC, anonymous donation shall now be taxable at the maximum marginal rate of 30%. Consequently, a new sub-section (7) has been inserted in section 13 to provide that nothing contained in section 11 or section 12 shall operate so as to exclude from the total income of the previous year of the person in receipt thereof, any anonymous donation referred to in the new section 115BBC on which tax is payable in accordance with the provisions of that section. In other words anonymous donation shall not be excluded from the total income of the assessee.

A perusal of section 13 of the Income-tax Act, 1961, makes it clear that it carves out an exception to section 11 or 12 by providing that in those cases which are covered by clauses (a), (b), (c) and (d), the provision of section 11 or 12 shall not operate. Broadly speaking, it is divided into three categories and an exception is carved out in the case of private religious trusts, charitable trusts and charitable or religious trusts if the conditions mentioned in clauses (a), (b), (c) and (d) are satisfied. Firstly, any part of the income from the property held under a trust for private religious purposes which does not enure for the benefit of the public is not to be excluded as provided under section 11 of the Act. Secondly, where a trust for charitable purposes or a charitable institution is created or established after the commencement of the Income-tax Act, the authority is required to find out whether the trust for charitable purposes is established for the benefit of a particular religious community or caste. If it is so established, then the provisions of section 11 would not be applicable. Thirdly, clauses (c) and (d) carve out an exception in the case of a trust for charitable or religious purposes or a charitable or religious institution. It provides certain cases in which any income thereof enures, used or applied, directly or indirectly, for the benefit of any person referred to in section 11(3) [now section 13(3)]. In the three different clauses, namely, (a), (b) and (c) of section 13(1) the Legislature has used different phrases. Clause (a) deals with a trust for private religious purposes or a charitable or religious institution. From this different phraseology used by the Legislature in clauses (a), (b) and (c), it can be inferred that the Legislature intended to cover only trusts for charitable purposes under clause (b). That means, if a trust is composite, that is, for religious and charitable purposes, then it would not be covered. It is also apparent that if the trust is only for religious purposes, clause (b) would not be applicable [CIT vs. Barkate Saifiyah Society (1995) 213 ITR 492 (Guj)].

Section 13(1)(c) provides that where a part of the income of a charitable or religious trust or institution enures or is used or applied, directly or indirectly, for the benefit of those persons specified in section 13(3), such a trust or institution shall forfeit the exclusion under section 11. Even if only a small portion of the income enures or is used or applied for the benefit of a person mentioned in section 13(3), the entire income of the trust is denied the exclusion, except in the case provided in section 13(4) [CIT vs. Jamnalal Bajaj Sewa Trust (1988) 171 ITR 568 (Bom)]. However, w.e.f. assessment year 2002-03, as per section 13(6), if the charitable or religious trust is running an educational institution or a medical institution or a hospital, the exemption shall not be denied if the benefit of educational or medical facility is provided to the persons specified under section 13(3). In this case, only the value of such facility provided to such specified person shall be taxable.

Bonds are like debentures and therefore exemption under section 11 could not be denied: Bond is covered by the expression "debenture" and therefore, investment in bonds of certain companies by the assessee, a Charitable Trust did not amount to infringement of the provision of section 13(1)(d) and therefore, exemption under section 11 could not be denied on that ground [DIT vs. Shree Visheswar Nath Memorial Public Charitable Trust (2010) 46 DTR 49 (Del)(Trib)].

Advance paid by assessee an educational institution registered under 12A, to a club towards membership fee for providing certain amenities to the staff and students of the assessee did not attract the provisions of section 13(1)(c) read with section 13(2)(a) as the said club is not a prohibited person as specified in section 13(3). Provisions of section 13(1)(d) were also not attracted as the said advance was neither a deposit nor an investment and therefore, exemption under section 11 is allowable to the assessee more so when the AO has allowed assessee's claim of exemption under section 11 on the same set of facts in the preceding year [Vidya Pratishthan vs. Dy CIT (2010) 44 DTR 145 (Pune)(Trib)].

Once there is a violation of provision of section 13(3) read with section 13(1)(c), the provisions of sections 11 and 12 of the Act shall not operate so as to exclude the income of the trust from the total income of the previous year. According to sections 11 and 12 of the Act, the voluntary contribution made with specific direction that they shall form part of the corpus of the trust or institution, shall not be included in the total income of the previous year of the trust. But once the exemption under sections 11 and 12 is denied, the assessee would not get any protection from sections 11 and 12 and the voluntary contribution would be treated as income, as per the definition of income given in section 2(24) of the Act, according to which income includes the voluntary contribution receipts by a trust credited wholly

or partly for charitable or religious purposes or by an institution established wholly or partly for such purposes meaning thereby once the exemption under sections 11 and 12 of the Act is withdrawn all the receipts of the trust either by voluntary contribution or income derived from its property would be an income of the trust in a normal course and is chargeable to tax [Kanhya Lai Punj Charitable Trust vs. DIT (2008) 171 Taxman 134 (Del)].

Persons referred to in section 13(3) are as follows:

- (a) The author of the trust or the founder of the institution.
- (b) Any person who has made a substantial contribution to the trust or institution, that is to say, any person whose total contribution at the end of the relevant previous year exceeds fifty thousand rupees.
- (c) Where such author, founder or person is a Hindu undivided family a member of the family.
- (d) Any trustee of the trust or manager (by whatever name called) of the institution.
- (e) Any relative of any such author, founder, person, member, trustee or manager as aforesaid.
- (f) Any concern in which any of the persons referred to in clauses (a), (b), (c) (d) and (e) has a substantial interest.

Every signatory to the memorandum of association has to be treated as founder: In the case of a charitable institution formed as a company, every signatory to the memorandum of association has to be treated as founder, so that money lent to such a person without adequate security constitutes a benefit, which would deprive the exemption for the company [CIT vs. Charat Ram Foundation (2001) 250 ITR 64 (Del)].

Further, the Supreme Court decided upon who is a founder. It held that the expression 'founder of the institution' used in section 13(3)(a) means that the person concerned should be the originator of the institution, or at least one of the persons responsible for the coming into existence of the institution. Contribution of money is not an inexorable test of a person being a 'founder', though it might happen often that the person who originates an institution may often also fund it [Director of Income-tax vs. Bharat Diamond Bourse (2003) 259 ITR 280 (SC)].

The Board have considered a representation that while filing the Form 10B and its annexure, an auditor can accept as correct the list of persons covered by section 13(3) as given by the managing trustee, etc. The Board agree that an auditor can accept as correct the list of specified persons, till given further instruction, by the managing trustee and base their report on the strength of the certificate [Circular No. 143, dated 20-8-1974].

The income or the property of the trust or institution or any part of such income or property is to be deemed to have been used or applied for the benefit of a person referred to in section 13(3) in the following cases:

- (a) Interest free loan or loan without security:** If any part of the income or the property of the trust or institution is or continues to be lent to any person referred to in Section 13(3) for any period during the previous year without either adequate security or adequate interest or both [Section 13(2)(a)].
- (b) Use of properties without charging adequate rent:** If any land, building or other property of the trust or institution is or continues to be, made available, for the use of any person referred to in section 13(3) for any period during the previous year without charging adequate rent or other compensation [Section 13(2)(b)].

Letting out of trust property to an interested person is violation of section 13(2): Where the trust property is let out to a partnership in which the trustee was a partner for a meagre rent, there is clear violation of the requirements of section 13(2)(b), so that the trust has to lose its exemption [Ram Bhawan Dharamshala vs. State of Rajasthan (2002) 258 ITR 725 (Raj)].

- (c) Excessive payment for services:** If any amount is paid out of the resources of the trust or institution to any of the persons referred to in section 13(3) for services rendered to the trust or institution but such amount is in excess of a reasonable sum payable for such services [Section 13(2)(c)].
- (d) Services of trust without adequate remuneration:** If the services of the trust or institution are made available to any person referred to Section 13(3) without adequate remuneration or other compensation [Section 13(2)(d)].
- (e) Purchase of property for trust for excessive consideration:** If any share, security or other property is purchased by or on behalf of the trust or institution from any person referred to in section 13(3) during the previous year for a consideration which is more than adequate [Section 13(2)(e)].
- (f) Sale of trust property for inadequate consideration:** If any share, security or other property is sold by or on behalf of the trust or institution to any person referred to in section 13(3) during the previous year for a consideration which is less than adequate [Section 13(2)(f)].
- (g) Diversion of income or property exceeding ₹1,000:** If any income or property of the trust or institution is diverted during the previous year in favour of any person referred to in section 13(3) provided the aggregate value of such income and property diverted exceeds ₹1,000 [Section 13(2)(g)].
- (h) Investment in substantial interest concerns:** If any funds of the trust or institution are or continue to remain, invested for any period during the previous year (not being a period before the 1-6-1971) in any concern in which any person referred to in section 13(3) has a substantial interest [Section 13(2)(h)].

However, section 13(4) provides that where the aggregate of the funds invested in the said concern does not exceed 5% of the capital of that concern, the exemption under section 11 will be denied only in relation to such income as arises out of the said investment.

Section 13(1)(d) requires that payment for goods or services to interested persons should be commensurate with their value and not excessive: Section 13(1)(d) bars benefit to interested persons but it does not bar any transaction with such interested person. It requires that the payment for such goods or services should be commensurate with their value and not excessive. Thus where an advance was paid to an interested person, being a company in which the trustees were directors, for the purpose of construction of a hospital without security and without interest with the money lying idle throughout the year with the company, it was found to be violation of section 11(5) which bars investments other than those listed therein and section 13(1)(d) which bars benefit to interested person [CIT vs. V.G.P. Foundation (2003) 262 ITR 187 (Mad)].

Assessee a registered society under section 12A, advanced certain sum without any security to its treasurer. It could not furnish any detail about rate of interest and mode of recovery of loan and same was also not reflected in its books as well as audit report except resolution which could not be relied upon. It was a clear case of violation of section 13 and exemption had been rightly denied to it [CIT vs. Audh Educational Society (2011) 203 Taxman 166 (All)].

Return of Income

Every person who is in receipt of the following income, if such income (computed before allowing any exemption under sections 11 and 12) exceeds the maximum amount not chargeable to tax, must file a return of income in respect of:

- (a) income derived from property held under trust or other legal obligation wholly or partly for religious or charitable purposes, or
- (b) income by way of voluntary contribution on behalf of such trust or institution.

The return of income must be furnished in Form ITR-7 and verified in the prescribed manner containing all the prescribed particulars. Such return of income must be furnished by the representative assessee within the time prescribed under section 139(1).

The funds under section 10(23C) whose income is exempt from income tax

Any income received by any person on behalf of the following is exempt from tax:

- (a) The Prime Minister's National Relief Fund; or
- (b) The Prime Minister's Fund (Promotion of Folk Art); or
- (c) The Prime Minister's Aid to Students Fund; or
- (d) The National Foundation for Communal Harmony; or
- (e) Any university or other educational institution existing solely for educational purposes and not for purpose of profit and which is wholly or substantially financed by the Government [Sub-clause (iiiab)]; or
- (f) Any hospital or other institution for the reception and treatment of persons (i) suffering from illness or (ii) mental defectiveness or (iii) during convalescence or (iv) requiring medical attention or rehabilitation, existing solely for philanthropic purpose and not for purpose of profit and which is wholly or substantially financed by the Government [Sub-clause (iiiac)]; or
- (g) Any university or other education institution existing, solely for educational purposes and not for purpose of profit if the aggregate annual receipts of such university or education institution do not exceed ₹1,00,00,000 [Sub-clause (iiiad)]; or
- (h) Any hospital or other medical institution for the purpose mentioned in clause (f) above where aggregate annual receipts do not exceed ₹1,00,00,000 [Sub-clause (iiiae)]; or
- (i) Any other fund or institution established for charitable purposes which may be approved by the prescribed authority having regard to its object and its importance throughout India or throughout any State or States [Sub-clause (iv)]; or
- (j) Any trust (including any other legal obligation) or institution wholly for public religious purposes or wholly for public religious and charitable purposes which may be approved by the prescribed authority having regard to the manner in which the affairs of the trust or institution are administered, and supervised for ensuring that the income accruing thereto is properly applied for the objects thereof [Sub-clause (v)]; or
- (k) Any university or other educational institution existing solely for educational purposes and not for purpose of profit other than those mentioned in clause (e) and (g) above i.e. whose aggregate annual gross receipts exceed ₹1,00,00,000 [Sub-clause (vi)]; or
- (l) Any hospital or other institution for the purpose mentioned in clause (f) above but other than those mentioned in clause (f) and (h) above i.e. whose aggregate annual receipts exceed ₹1,00,00,000 [Sub-clause (via)].

Conditions to be satisfied for claiming exemption under section 10(23C)

The conditions for claiming exemption under section 10(23C) are as under:

	University or educational institution or hospital or medical institution who are substantially financed by the Government [Section 10(25C)(iiiab) and (iiiac)]	University or educational institution or hospital or medical institution whose aggregate annual gross receipts do not exceed ₹1 crore [Section 10(23C)(iiiad) and (iiiae)]	University or educational institution or hospital or medical institution whose aggregate annual gross receipts exceed ₹1 crore [Section 10(23C)(vi) or (via)]	Charitable or religious institution covered under section 10(23C)(iv) or (v)
Whether application for grant for exemption necessary	No	No	Yes, approval is necessary	Yes, approval is required
Form in which application is to be made and to whom it should be made	NA	NA	Form No. 56D to the jurisdictional Chief Commissioner of Income Tax or Director General of Income Tax	Form No. 56 to the Director General of income Tax (Exemption)
Time period within which application is to be made	NA	NA	If application is made on or after 1.4.2009, it shall be made on or before 30th September of the relevant assessment year from which exemption is sought. Prior to this it was required to be made before the end of the relevant assessment year.	If application is made on or after 1.4.2009, it shall be made on or before 30th September of the relevant assessment year from which exemption is sought. Prior to this it was required to be made before the end of the relevant assessment year.
Period of the validity of exemption	NA	NA	If application has been made on or after 13.7.2006, it is a permanent exemption unless withdrawn. However, if application has been made before 13.7.2006, the exemption will be for a period of three years and fresh application shall have to be made after the expiry of un-expired period of 3 years which shall also be permanent exemption unless withdrawn	If application has been made on or after 13.7.2006, it is a permanent exemption unless withdrawn. Whether it is mandatory to file return of income	No	Yes	Yes	Yes

Where an assessee was already registered under section 12A and was also exempt under section 10(23C)(iv), the audit report filed in Form 10B instead of Form 10BB could not by itself lose exemption for the institution, since the mistake is a technical one. The difference in the Forms also did not make a difference in the spirit or the requirements of law [National Horticulture Board vs. CCIT (2009) 319 ITR 74 (P&H)].

Where the assessee society was having multiple objects of which education was one of them, and the Director of Exemption had denied registration to the society under section 10(23C)(vi) merely on the suspicion that the society might deviate from its objective of education in future. It was held that the assessee could be given benefit of exemption under section 10(23C)(vi) subject to an affidavit of undertaking given by the assessee-society that it would not breach any of condition or stipulations imposed by the section and further that surplus fund would be utilized only for educational purpose and would not be diverted to other non educational objectives [Digamber Jain Society for Child Welfare vs. DGIT (Exemption) (2009) 185 Taxman 255 (Del)].

Merely because surplus had arisen to the assessee whose total receipt did not exceed 1 crore by running two scheme it was not required to get any approval from prescribed authority and hence Assessing Officer was not justified in refusing the exemption under section 10(23)(iiia) [Gagan Education Society vs. Addl CIT(2011) 56 DTR 199 (Agra) (Trib)].

Where the petitioners application seeking exemption under section 10(23C)(vi) was rejected on the ground that the object of the petitioner does not exist solely for educational purpose. It was held that, the 'education' means process of training and developing, knowledge, skill, mind and character of students. Activities such as maintaining, library, conducting classes of stitching, weaving, embroidery and adult education, fall within 'education'. Sports and recreational activities also fall with in modern concept of education. Educational society running school having such other objects cannot be denied approval under section 10(23C)(vi) on ground that society is not existing solely for educational purpose [Little Angles Shiksha Samiti Dal Bazaar, Gwalior & Anr. vs. UOI (2011) Tax L.R 941 (MP)].

Where Petitioner University was created under section 3 of Haryana Private University Act, 2006 and it obtained recognition from the Bar Council of India as well as University Grants Commission and also set up infrastructure for starting law courses, it was held that it is an existing educational institution and therefore entitled to approval. Rejection on the ground that petitioner is yet to commence educational activities is set aside and the Commissioner was directed to pass an order granting approval under section 10(23C)(vi) [O. P. Jindal Global University vs. CCIT (Exemption) (2011) 64 DTK 22 (P&H)].

Where assessee society which is teaching and promoting all forms of music and dance, western, Indian or any other form and is run like school or educational institution in a systematic manner with regular classes, vacations, attendance requirements, enforcement of discipline and so on meets the requirement of educational institution within the meaning of section 10(23C)(vi), the High Court quashed the order of prescribed authority and directed to pass the order by giving a reasonable opportunity [Delhi Music Society vs. DIG (2012) 65 DTK 337/246 CTR 327 (Del)].

Other conditions for claiming exemption:

The fund, trust or institution covered under section 10(23C)(iv), (v), (vi) and (via) should satisfy the following additional conditions to claim exemption under this section:

- (1) At the time of making application in Form No. 56 or 56D, it should furnish such documents (including Audited Annual Accounts) or information which the Central Government or the prescribed authority as the case may be, may consider necessary in order to satisfy itself about the genuineness of the activities of the fund or trust or institution/university/hospital, etc. and the Central Government or the prescribed authority, as the case may be, may also make such enquiries as it deems necessary in this behalf.
- (2) (a) it should apply its income, or accumulate it for application, wholly and exclusively to the objects for which it is established and in a case where more than 15% of its income is accumulated, the period of the accumulation of the amount exceeding 15% of its income shall in no case exceed 5 years; and
 - (b) it should not invest or deposit its funds for any period during the previous year otherwise than in any one or more of forms or mode specified in section 11(5).

However the following are the exceptions to the above requirement of funds to be invested as per provisions of section 11(5).

- (i) Where assets held form part of the corpus of the fund, trust or institution or any university or other educational institution or any hospital or other medical institution as on 1-6-1973;
 - (ii) Where asset, being equity shares of a public company, held by any university or other educational institution or any hospital or other medical institution which form part of its corpus as on 1-6-1998.
 - (iii) Where assets (being debentures issued by, or on behalf of, any company or corporation), were acquired by the fund, trust of institution or any university or other medical institution before 1-3-1983;
 - (iv) Where there is any accretion to the shares, forming part of the corpus mentioned in sub-clause (i) and (ii) above, by way of bonus shares allotted it;
 - (v) Where voluntary contributions are received and maintained in the form of jewellery, furniture or any other article as the Board may, by notification in the official gazette, specify;
 - (vi) Where voluntary contribution is received in kind, it has not been held in a mode other than 11(5) after the expiry of one year from the end of the previous year in which such asset is acquired.
1. The grant of exemption from income tax will not apply to any income in the nature of profits and gains of business unless the business is incidental to the attainment of its objectives and separate books of account are maintained by it in respect of such business.
 2. Certain funds, trusts and institutions running hospitals, creches orphanages, school, etc. often receive donation in kind from various sources for application towards their charitable purposes. These contributions may be in the shape of books, clothes for the poor, grains to feed the poor, drugs, hospital equipments, etc.

Since the donation in kind, of a nature referred to above, received by a fund, trust or institution would be income within the meaning of section 2(24) of the Act, it is clarified that the use of these towards object for which the fund, trust or institutions is established would be regarded as application of the income of the fund, trust or institution [Circular No. 580, dated 14-9-1990].

- (I) An educational trust or other similar body running an educational institution solely for educational purposes and not for purposes of profit would be regarded as other educational institutions [Aditanar Educational Institution vs. Addl. CIT (1997) 224 ITR 310 (SC)].
- (II) Even if an educational institution made profit and such profits were applied only for the spread of education, it was entitled to exemption under section 10(22) of the Act [CIT vs. Delhi Kannada Education Society (2000) 246 ITR 731 (Del)]. Also see CIT vs. Lagan Kala Upvan (2003) 259 ITR 489 (Del)].
- (III) The assessee running several schools employing more than one thousand teachers and nuns and imparting education to several thousand students is entitled to exemption under section 10(22) [now 10(23C)]. Activity of running a dispensary for the benefit of students and teachers, running a church for the benefit of nuns and running an orphanage for the benefit of abandoned children did not detract from the educational activities earned on by the assessee [DIT vs. Institute of The Franciscan Clarist Sister of the Most Blessed Sacrament (2005) 196 CTR 582 (Del)].
- (IV) Merely because the assessee has undertaken research projects at instance of Government or local bodies and has taken remuneration for such projects, the character of assessee foundation could not be said to have been converted into one which carried on commerce or business or activity or rendering any service in relation to trades, commerce or business. Such foundation is an educational institution and eligible for grant of exemption under section 10(23C)(iv).
- (V) The conditions precedent for availing of exemption to an educational institution under section 10(23C) or section 11 of the Income-tax Act, 1961, are as follows:
 - (a) the educational institution must actually exist for application of the said provision and mere taking of steps would not be sufficient to attract the exemption;
 - (b) the educational institution need not be affiliated to any university or Board and in fact it need not itself be imparting education and it is enough if it runs some schools or colleges;
 - (c) the educational institution must exist solely for educational purposes and not for purposes of profit. But merely because there is a surplus, that is to say a surplus of receipts over expenditure it cannot be said that the educational institution exists for profit;
 - (d) an entity may be having income from different sources, but if a particular income is from an educational institution which exists solely for educational purposes and not for purposes of profit, then that income would be entitled to exemption and further the income
 - (e) should be directly relatable to educational activity [CIT vs. Delhi Kannada Education Society (2000) 246 ITR 731 (Del)].
- (VI) The term "other educational institutions" is a narrower concept: Where a trust conducted english improvement classes for standards X, XI, and XII and also conducted guidance classes for C.A. entrance examinations, it also held refresher courses for english language teachers and guidance courses for banking service recruitment and similar activities, it was held that although the activities of the assessee were connected with formal education being given by other educational institutions running schools or colleges, the assessee did not run any composite or integrated course of organized and systematic training. The assessee was not affiliated to or registered by, any authority. Such a trust can certainly be considered as qualifying, for exemption under section 11(1)(a) read with section 2(15) but the term "other educational institutions" contemplated by section 10(23C), is a narrower concept. Though educational institution and educational activities are closely interconnected, in section 11(1)(a) read with section 2(15), it is the activities which are in focus, whereas in section

10(23C) both the institution and the activities are in focus. Therefore, an educational institution under section 10(23C) is more than a body carrying on charitable activities in the field of education as contemplated by section 2(15). The expression "other educational institution" in the section would mean an institution imparting formal education in an organized and systematic manner. Where the institution would be accountable to some authority and where there would be teachers and the taught, the former having some degree of control over the later. Although, the expression other education institution may not be confined to schools or colleges, the expression does contemplate an institution imparting formal education or training [Saurashtra Education Foundation vs. CIT (2005) 273 ITR 139 (Guj)].

(VII) Where applicant had earlier obtained exemption under section 10(22) and after omission of said section applies for first time for initial approval in terms of section 10(23C)(vi), prescribed authority must give an opportunity to applicant-institute to comply with monitoring conditions which have been stipulated for first by third proviso to section 10(23C) [American Hotel & Lodging Association, Educational Institute vs. CBDT (2008) 170 Taxman 306 (SC)].

Donation to other trust/institutions, etc out of accumulated income shall not be treated as application of income: Where the above fund or trust or institutions (i.e. covered under section 10(23C)(iv), (v), (vi) and (via) do not apply its income during the year of receipt and accumulates it, any payment or credit out of such accumulation to any trust or institution registered under section 12AA or to similar type of fund or trust or institution or any university or other educational institution shall not be treated as application of income to the objects for which it was established.

Anonymous donation received by the trust or institution covered under section 10(23C)(iiia), (iiiae), (iv), (v), (vi) and (via) shall also be taxable under section 115BBC.

Where such fund or institution had been notified or approved by the Central Government or the prescribed authority, as the case may be, and subsequently that Government or the prescribed authority is satisfied that—

- (i) such fund or institution or trust or any university or other educational institution or any hospital or other medical institution has not applied its income in accordance with the provisions or invested or deposited its funds in accordance with the provisions
- (ii) the activities of such fund or trust or institution or any university or other educational institution or any hospital or other medical institution,—
 - (A) are not genuine; or
 - (B) are not being carried out in accordance with all or any of the conditions subject to which such association was notified or approved,

it may, at any time after giving a reasonable opportunity of showing cause against the proposed action to the concerned fund or institution or trust or any university or other educational institution or any hospital or other medical institution, rescind the notification or, by order, withdraw the approval, as the case may be, and forward a copy of the order rescinding the notification or withdrawing the approval to such fund or institution or trust or any university or other educational institution or any hospital or other medical institution and to the Assessing Officer.

A charitable trust or institution pursuing advancement of object of general public utility may be charitable trust in one year and not a charitable trust in another year depending on whether its aggregate commercial receipts exceed ₹25,00,000 or not.

Hence, seventeenth proviso has been inserted to section 10(23C) to provide that exemption shall not be allowed for the previous year in which commercial receipts of charitable trust or institution referred to section 10(23C)(iv) or (v) exceed ₹25,00,000 whether or not approval has been withdrawn or rescinded in respect of such trust. Further, 3rd proviso has been inserted in section 143(3) to provide that first and second proviso to section 143(3) shall not be applicable where in any previous year commercial receipt

of such trust exceed ₹25,00,000. In other words, Assessing Officer shall not give exemption to such trust covered under section 10(23C)(iv) or (v) even if approval has not been withdrawn or rescinded.

9.9 ASSESSMENT OF MUTUAL ASSOCIATION

Assessment of Mutual Association

To constitute a mutual association, a number of persons associate together to subscribe money for a fund for the purpose of its being spent upon a particular object, and the balance, if any, being returned to the subscribers and proportionately distributed among them. This balance is that part of the fund which is not absorbed by the particular object of the subscriptions. Those transactions are mutual dealings and the unrequired balance is the surplus. This surplus is not assessable to income-tax since it arises out of the mutual dealings. [General Family Pension Fund vs. CIT (1946) 14 ITR 488 (Cal)].

No person can trade with himself and make an assessable profit. If, instead of one person, more than one combine themselves into a distinct and separate legal entity for rendering services to themselves by only charging themselves, the resulting surplus is not assessable to tax, [CIT vs. Merchant Navy Club (1974) 96 ITR 261 (AP)].

The basis for exemption of the income of the mutual association are as follows:

- (1) common identity of contributors and participators,
- (2) the treatment of the assessee, though incorporated, as a mere entity for the convenience of the members, and
- (3) the impossibility of the contributors deriving profit from the contribution made by themselves to a fund which could only be expended or returned to themselves.

(1) Common identity of contributors and participators

The essence of mutuality lies in the return of what one has contributed to a common fund, and, unless there is complete identity between the contributors and the participators in a common fund, the principle of mutuality would not be attracted. If some of the contributors to the common fund are not participators in the surplus or if some of the participators in the surplus are not contributors to the common fund, the profits of the association would be assessable to tax.

However, the criterion that the contributors to the common fund and participators in the surplus must be an identical body does not mean that each member should participate in the surplus or get back from the surplus precisely what he has paid. What is required is that the members as a class should contribute to the common fund and as a class they must be able to participate in the surplus. [CIT vs. Merchant Navy Club (1974) 96 ITR 261 (AP)].

(2) The treatment of the assessee, though incorporated, as a mere entity for the convenience of the members

If there is a common identity of contributors and participators, the particular form which the association takes is immaterial.

Incorporation as a company or as a registered society is a convenient medium for enabling the members to conduct a mutual concern. The property of the incorporated company or registered society, for all practical purposes, in the case of a mutual enterprise, is considered as the property of the members.

The incorporation of any company to carry on the activities of a club does not result in the deprivation of the admissibility of the claim for exemption based on the concept of mutuality. [CIT vs. Madras Race Club (1976) 105 ITR 433 (Mad)].

Even a company assessee can claim exemption on the basis of mutuality principle where its memorandum and articles of association provided that the funds of the company should be utilised solely for the promotion of its objects and that no portion of the income or property shall be paid or transferred directly or indirectly, by way of dividends, bonus to any member or former member. [CIT vs. Escorts Dealers Development Association Ltd. (2002) 253 ITR 305 (P&H)].

(3) The impossibility of the contributors deriving profit from the contribution made by themselves to a fund which could only be expended or returned to themselves

A mutual association is an association of persons who agree to contribute funds for some common purpose mutually beneficial and receive back the surplus left out of these funds in the same capacity in which they have made the contributions. This capacity as contributors and recipients remains the same. They contribute not with an idea to trade but with an idea of rendering mutual help. They receive back the surplus, which is left after meeting the expenditure which they have incurred for this common purpose, in the same capacity in which they have contributed. Thus, they receive back what was already their own. The receipt which thus comes in their hands, is not profit, because no man can make a profit out of himself, just as he cannot trade with himself. [CIT vs. Shree Jari Merchants Association (1977) 106 ITR 542 (Guj)].

The participation in the surplus need not be immediate as soon as the surplus is discerned, but may be on the winding up or dissolution, the surplus for the time being carried to a reserve.

The surplus may be handed back, it may be kept for some future contingency; the test is whether it is the members' money.

The mutuality principle which is true in the case of an individual is equally true in respect of bodies of individuals, such as, (A) a members' club, (B) a co-operative society, (C) a mutual benefit fund, (D) a thrift fund, or (E) a pooling association.

Members' club — Members' club are, without doubt, cent per cent mutual associations. They are co-operative bodies whereby the members raise funds by way of entrance fees and periodical subscriptions in order to provide themselves with social, sporting or similar other amenities.

One among the popular activities of such a club is the providing of refreshments to the members for a charge to cover the cost of preparation, overheads and service. If such refreshments be served to non-members, it would only be on the basis of such non-members being guests of the member who pays for himself and his guest.

Another popular activity of a club is the providing of residential rooms to nonresident members and mofussil members and supplying them with board for a charge to cover the rent of the rooms and the cost of the food and overhead.

Amenities are also provided for sports, such as, billiards, tennis, golf or cards, at a charge to compensate the maintenance of the tennis-court, or golf-course, or the cost of the playing of cards or the wear and tear of the billiard table.

The above are all activities of any social club and there is no element of buying and selling in the providing of these amenities for a certain fee. It is a fallacy to say that where a member of a club orders for dinner and consumes it, there is any sale to him.

In the case of CIT vs. Bankipur Club Ltd. (1997) 226 ITR 97 (SC) the Supreme Court has held that the receipt for various facilities extended by the club to members as part of the usual privileges, advantages and conveniences, attached to the membership of the club, could not be said to be a trading activity. The surplus of excess of receipts over the expenditure as a result of mutual arrangement could not be said to be "Income" for the purpose of Income Tax Act.

The fact that the members are also allowed to entertain their guests shall not be considered to be a disqualification [CIT vs. Darjeeling Club Ltd. (1985) 153 ITR 676 (Cal)].

The fact that there is some diversion to non-members as it happened when some of the rooms were let out to non-members need not vitiate the principle of mutuality as long as there is substantial compliance

with the principle. [CIT vs. Delhi Gymkhana Club Ltd. (1985) 155 ITR 373 (Del)]. It may be pointed out that if the amount involved is substantial, the decision could have been otherwise.

In case the business of the assessee was governed by doctrine of mutuality, not only the surplus from the activity of the club but even the annual value of the club house would be outside the purview of the levy of income-tax. [Chelmsford Club vs. CIT (2000) 243 ITR 89 (SC)].

If the society had a convention centre with catering facilities primarily meant for the use of its member, but derived rental income from others, when it was free. Interest was also derived from funds meant for gratuity of its secretariat office. It was for this reason that the exemption was denied. The High Court while endorsing the decisions of the Tribunal pointed out that there was no commercial activity and the income from non-members was merely incidental to its service to members. [CIT vs. Standing Conference of Public Enterprises (SCOPE) (2009) 319 ITR 179 (Del)].

Interest income of a sports club derived from deposits with bank is not exempt on the ground of mutuality. [Rajpath Club Ltd. vs. CIT (1995) 211 ITR 379 Guj].

In order to get the benefit of the principle of mutuality, the association should confine its activities only as between members. Where such an association banks its surplus funds in fixed deposits it was held that such income from bank interest could not be exempt as banks are not the members of such association. [CIT vs. Bangalore Club (2006) 287 ITR 263 (Karn)].

Investment of surplus fund with some of member banks and other institutions in form of fixed deposit and securities which, in turn resulted in earning of huge interest could not be held to satisfy mutuality concept and, therefore, such interest income was liable to be taxed. [Madras Gymkhana Club vs. DCIT (2009) 183 Taxman 333 (Mad)].

If assessee-company is running a recreation club for its members, the income earned from the members is exempt on the principle of mutuality. Income of the club from FDR's in banks and Government securities, dividend income and profit on sale of investment is also covered by the doctrine of mutuality and is not taxable. [CIT vs. Delhi Gymkhana Club Ltd. (2011) 53 DTR 330 (Del)].

Interest income on investments with banks is not exempt on the principle of mutuality even though the concerned banks are members of the club. [CIT vs. Wellington Gymkhana Club (2010) 46 DTR 22 (Mad)].

Interest income earned on bank deposits made by a club was not income arising out of mutual activities/arrangement among members of club and hence taxable. [Amur Singh Club vs. Union of India (2009) 184 Taxman 481 (J&K)].

However, in CIT vs. Saraswati Kunj Co-operative House Building Society (2006) 287 ITR 22 (Del) it was held that the interest on money kept in saving bank account would be a capital receipt not liable to tax.

Interest on investment and dividend on shares earned by a mutual association, though a co-operative society, will be governed by the principle of mutuality and therefore will not be taxable. [Canara Bank Golden Jubilee Staff Welfare Fund vs. DCIT (2009) 308 ITR 202 (Kar)].

Further, where the trade or activity is mutual, the fact that, as regards certain activities, only certain members of the association take advantage of the facilities which it offers, does not affect the mutuality of the enterprise. But if the object of the assessee-company claiming to be a mutual concern or club, is to carry on a particular business and the money is realised both from the members and the non-members, for the same consideration by giving the same or similar facilities to all alike in respect of the one and the same business carried on by it, the dealings as a whole, disclose the same profit earning motive and are alike tainted with commerciality and the resultant surplus is profit-income liable to tax.

In the case of Joint Commercial Tax Officer vs. Young Men's Indian Association (1970) 26 STC 241, 247 (SC), the Supreme Court observed that if the club even though a distinct legal entity is only acting as an agent for its members in the supply of various preparations to them, no sale would be involved as the element of transfer would be completely absent.

A club is taxable on the profit derived from subscriptions and charges paid by non-members and on the income derived from its capital assets and investment. [Rajpath Club Ltd. vs. CIT (1995) 211 ITR 379 (Guj)].

An enterprise annexed by a club to its activities by way of extending its amenities to members of the public, the sums realised on such extensions would be outside the surplus attributable to mutual activities. Consequently, the receipts from the public or non-members would be income of the club in the eyes of law.

Likewise, rent received from members by a club for providing temporary accommodation to them as part of the amenities provided to them cannot constitute income. Where the income of the club from house property was not the outcome of any mutuality, even though the said income was utilised for the benefit of members, it could not be excluded from the arena of taxation.

If the services of the club are open to non-members then the identity of the contributors and that of the recipients would be lost. In such case the assessee may not be eligible for the exemption. [CIT vs. Royal Western India Turf Club Ltd. (1953) 24 ITR 551 (SC)].

In case the real contributors of income who availed of the facilities of the marriage hall were not the members and in order to enable them to avail of the facilities of the club, non-members were to be given temporary membership only for the purpose of availing of this benefit, it was held that the marriage hall was admittedly being rented out to non-members making them temporary members only for the purpose of letting out the marriage hall to non-members, the principle of mutuality would not apply and the rental income received from non-members was taxable. [CIT vs. Trivandrum Club (2006) 282 ITR 505 (Ker)].

The assessee, a club, running on mutuality basis, had collected amounts from non-members for use of the assessee's premises as floor charges for trading in shares and stocks, it was held that the principle of mutuality could have no application to receipts of such charges. [Investors Club Trichur vs. CIT (2009) 318 ITR 427 (Ker)].

Trade associations as Mutual Associations— Many trade associations which were also undertaking activities of distribution of goods or services were held not assessable as a mutual association. [Mill Owners Mutual Insurance Association Ltd vs. CIT 6 ITC (Bom) 7; CIT vs. Bombay Oil Seeds and Oil Exchange Ltd (1993) 202 ITR 198 (Bom.) and CIT vs. West Godavari District Rice Millers' Association (1984) 150 ITR 394 (AP)].

Where the profits of such association did not go to a common fund, exemption on grounds of mutuality was held inadmissible. [Jaipur Stock Exchange Ltd vs. ITO (1995) 54 ITD 589 (Jaipur-Trib)]. In this case, Special Leave Petition was dismissed. In the case CIT vs. Northern India Motion Pictures Association (1994) 207 ITR (St.) 10, exemption was allowed and SLP was dismissed.

It is also possible that, some of the items like subscriptions and entrance fees may qualify for exemption on principle of mutuality, while other receipts like service charges may not so qualify, where such charges are collected from non-members or where disparity between the contributors and the participants is marked. But it is equally established that there need be no identity in the sense of complete quid pro quo as between the contributors and participants. In other words, there is no stipulation that every contributor must also be a participant.

However, where a hire purchase company claimed exemption of receipts on account of subscription charges of hirer member on account of principle of mutuality, the claim was disallowed since such hirer members have no right to vote and no right to decide the destiny of the surplus on winding up. Further, their membership is temporary as it ceases as soon as the hiring is over Upper India Hire Purchase Co. vs. CIT (2001) 251 ITR 642 (Del).

Co-operative societies — A co-operative society is defined in section 2(19) of the Income Tax Act as a co-operative society registered under the Co-operative Societies Act, 1912, or under any other law for the time being in force in any State for the registration of co-operative societies. Turning to the Co-

operative Societies Act, 1912, some of its important provisions may be noticed:

- (1) Section 4 of the said Act provides that a society which has as its object the promotion of the economic interest of its members in accordance with co-operative principles (emphasis supplied), or a society established with the object of facilitating the operations of such a society, may be registered under this Act;
- (2) Section 29(1) further provides that 'a registered society' shall not make a loan to any person other than a member provided that with the general or special sanction of the Registrar, a registered society may make loans to another registered society;
- (3) Section 30 restricts the powers of the society in respect of its receiving any deposits or loans from persons who are not members of the society;
- (4) Section 31 restricts the transactions of societies with non-members;
- (5) Finally, section 33 provides that no part of the funds of a registered society shall be divided by way of bonus or dividend or otherwise among its members; provided that after at least one-fourth of the net profits in any year have been carried to a reserve fund, payments from the remainder of such profits and from any profits of past years available for distribution may be made among the members to such extent and under such conditions as may be prescribed by rules.

Section 34 further enacts that out of the balance left u/s 33, an amount not exceeding ten per cent thereof may be contributed to a charitable purpose with the sanction of the Registrar.

The above provisions show that a co-operative society is a mutual society and, on mutual principles, would not be earning any income in the eye of law. Transfer fee received by a co-operative housing society is not assessable since the co-operative housing society is a mutual concern and the persons became members of the society before they were entitled to get the flat transferred in their names or were liable to pay the transfer fees. There is an element of mutuality in respect of the transfer fees and therefore the same are not taxable. [CIT vs. Apsara Co-op Housing Society Ltd (1993) 204 ITR 662 (Cal). See also Director of Income-tax vs. All India Oriental Bank of Commerce Welfare Society (2003) 130 Taxman 573 (Del); Ludhiana Agganval Co-operative House Building Society Ltd vs. ITO (1995) 55 ITD 423 (Chd); ITO vs. Mumbai Hindi Shikshak Sayahak Nidhi (1985) 22 TTJ (Bom) 133].

Transfer fee received by a co-operative housing society whether from outgoing or from incoming members is not liable to tax on ground of principle of mutuality where predominant activity of such co-operative society is maintenance of property of society. [SIND Co-op Housing Society vs. ITO Pune (2009) 182 Taxman 346 (Bom)].

Transfer fee and non-occupancy charges received by assessee are not taxable in the hands of the assessee as being governed by principle of mutuality. [Mittal Court Premises Co-operative Society Ltd. vs. ITO (2009) 184 Taxman 292 (Bom)].

The assessee was a Co-operative Housing Building Society established with the specific objective of purchasing agricultural land for development as plots which were to be allotted to its own members. The assessee entered into an agreement with the State Government, which stipulated that the assessee would keep 30% amount realized from plot holders in bank deposit for being utilized by the assessee towards meeting the cost of internal development work in the colony and it would not derive any profit out of sale of plots to its members. Assessing Officer treated the interest earned on said deposit as revenue income. It was held that the money kept in savings bank account had inextricable link with acquisition of land and interest earned on the said deposit would be a capital receipt. [CIT vs. Saruswati Kitnj Co-operative House Building Society (2006) 287 ITR 22 (Del)].

Interest income earned by an assessee on surplus fund of a mutual society deposited with a banking institution is covered by the principle of mutuality. [Shivalika Cooperative Group Housing Society Ltd. vs. ITO (2007) 289 ITR (AT) 105 (Del)].

If a co-operative housing society collects contributions from members for an amenity fund for repairs,

besides collecting contributions for a welfare fund from new members in pursuance of bye-laws framed under the Maharashtra Co-operative Societies Act, there was no violation of the mutuality principle because of these collections. Further the collection of non-occupation charges would also have a similar character. [Mittal Court Premises Co-operative Society Ltd. vs. ITO (2010) 320 ITR 414 (Bom)].

Assessee, a co-operative housing society, was formed for the development and construction of residential houses/flats for its members and to provide them necessary common amenities and facilities, and therefore the principle of mutuality would apply to the income of the society, including the income from sale of shops. Principle of mutuality is attracted also to the interest derived from deposits made by the society out of contribution made by its members. [CIT vs. Talangang Co-operative Group Housing Society Ltd (2010) 44 DTR 58 (Del)].

Pooling associations — Pooling associations are formed to maintain prices, to open, up markets for goods, or to demarcate areas for trade operations. The activities of such associations cannot also be said to bring any profit which can be taxed under the Income Tax Act. An association of traders collecting subscriptions or donations from its members for construction of a building will be a mutual concern although its memorandum may enable its assets to be given to an association with allied objects in the event of its dissolution. [CIT vs. West Godavari District Rice Millers' Association (1984) 150 ITR 394 (AP)].

The aforesaid general observation that mutual activities of a mutual concern do not return taxable income is, however, subject to the following four exceptions expressly provided in the Act:

- (1) Income accruing to a life or non-life mutual insurance concern from the business of such insurance is liable to tax [Section 2(24)(vii)].
- (2) Income derived by a trade, professional or similar association from specific services performed for its members are chargeable to tax [Section 2(24)(v) read with section 28(iii)].
- (3) Income of insurance business carried on by a co-operative society is taxable in all cases (even if it is a mutual concern) and is to be computed in accordance with the rules in the First Schedule [Section 2(24)(vii)].
- (4) The profits and gains of any business of banking (including providing credit facilities) carried on by a co-operative society with its members [Section 2(24)(viii)].

Trade and professional association means an association of traders or professionals for the protection or advancement of their common interest.

Income arising to such trade or professional associations shall be taxable only when such income arises from performing specific services to members. If any entrance fee is taken by these associations, that fee shall not be taxable.

This is an exception to the general principle that a surplus arising to mutual association cannot be regarded as income chargeable to tax. Every trade, professional or similar association which renders specific services to its own members for remuneration related to those services would come within the purview of this sub-section. [Indian Tea Planter's Association Ltd. vs. CIT (1971) 82 ITR 322 (Cal)]. It may however be noted that income derived by a social club/resident welfare association, etc. shall be exempt even if the specific services are rendered by it to its members as these are not trade, professional or similar association. In order to bring an income within this clause two essential facts have to be established, namely that the association rendered specific services to its members and that remuneration was paid by the members for these services, and there must be a connection between remuneration and the service rendered. [Ismailia Grain Merchants Association Ltd. vs. CIT (1957) 31 ITR 433 (Bom)].

Any income derived by a trade, professional or similar association for rendering specific services to its members is taxable under section 28(iii). But any surplus of other receipts over the expenses from mutual activities of such association is not chargeable to tax as it is of mutual character. Since excess

of such surplus is not taxable, if there is any deficiency instead of the surplus, it should normally not be allowed to be set off against taxable income of such association. Section 44A provides a special advantage where such deficiency shall be allowed to be set off from the assessable income of such association subject to the following conditions being satisfied:

- (i) The assessee is a trade, professional or similar association other than an association covered under section 10(23A). Section 10(23A) exempts the income of approved association or institutions established in India having its object — the control, supervision, regulation or encouragement of the profession of law, medicine, accountancy, engineering or architecture or such other notified profession. Provisions of section 44A shall not be applicable to these association or institutions.
- (ii) Such association should not distribute any part of its income to its members except as grants to any association or institution affiliated to it.

If the above conditions are satisfied, the amount of any deficiency will be allowed from the assessable income of such association to the extent of 50% of the assessable income, as arrived at before allowing this deduction.

The aforesaid deduction will be allowed first from the income of such association chargeable under the head profits and gains from business or profession and the balance amount, if any, from the assessable income of the association under any other head.

The said deduction will be allowable from the net assessable income of the association as computed after giving effect to the provisions in the Income Tax Act for the carry forward of unabsorbed depreciation, and past business losses.

Deficiency means the excess of expenditure (other than capital expenditure or not being expenditure deductible in computing the income under any other provisions of the Act) incurred for the advancement of the common interest of the members of the association concerned, over receipts from its members. Such receipts will not include any remuneration for rendering any specific services to the members of such association.

In other words it will be computed as under:

- Step 1** Take expenditure incurred by such association. Expenditure does not include capital expenditure or any expenditure deductible in computing the income under any other provisions of the Act.
- Step 2** Deduct receipt from members. Such receipts will not include any remuneration for rendering any specific services to the members.
- Step 3** Step 1 minus Step 2 is the deficiency which is allowed to be set off against taxable income of such association.

The expression expenditure shall include depreciation provided for in the books of account. The circumstances that such association is not normally entitled to claim depreciation u/s 32 is of no effect. [CIT vs. Indian Jute Mills Association (1982) 134 ITR 68 (Cal)]

9.10 ALTERNATE MINIMUM TAX

Where the regular Income Tax payable for a Previous Year by a person (other than a company) is less than the Alternate Minimum Tax payable for such Previous Year, the Adjusted Total Income shall be deemed to be the total income of such person and he shall be liable to pay Income-tax on such Total Income at the rate of 18.5% [Section 115JC (1)]

To whom Alternate Minimum Tax shall be applicable [Section 115JEE (1)]

The provisions of Alternate Minimum Tax shall apply to a non-corporate assessee who has claimed any deduction under:

- (a) Sections 80-IA to 80RRB other than section 80P; or
- (b) Section 10AA.

To whom Alternate Minimum Tax shall not be applicable [Section 115JEE (2)]

The provisions of Alternate Minimum Tax under Chapter XII-BA *shall not apply to-*

- (a) an Individual; or
- (b) a Hindu Undivided Family; or
- (c) an Association of Persons or a Body of Individuals (whether incorporated or not) or
- (d) an Artificial Juridical Person referred to in section 2(31) (vii),

if the Adjusted Total Income of such person does not exceed ₹20,00,000

Steps involving calculation of Tax where Alternate Minimum Tax provisions applies:

- Step 1: Calculate the regular Income-tax liability of the non-corporate assessee ignoring the provisions of Sections 115JC to 115JF.
- Step 2: Calculate Adjusted Total Income of the non-corporate assessee.
- Step 3: Calculate Alternate Minimum Tax by applying 19.055 percent (18.5 % + 2% EC + 1% SHEC) or 20.9605 percent (i.e. 18.5% + 10% Surcharge + 2% EC + 1% SHEC) incase Adjusted Total Income exceeds ₹1 crore, on Adjusted Total Income computed under Step 2.
- Step 4: Compare tax liability computed under Step 1 and Alternate Minimum Tax computed under Step 3. If amount computed under Step 1 is equal to or more than amount computed under Step 3, then the provisions of Alternate Minimum Tax will not apply.
- Step 5: If amount computed under Step 1 is less than amount computed under Step 3, then amount computed under Step 3 will be deemed as tax liability of the non-corporate assessee for such Previous Years. In this case, the excess amount computed under Step 3 over the amount computed under Step 1 will be available as credit and can be carried forward and set off against regulars tax liability of the non-corporate assessee of the next year or subsequent years.

Report from an accountant [Section 115JC (3)]: Every non-corporate assessee to whom this section applies shall obtain a report, in such form as may prescribed, from an accountant, certifying that the Adjusted Total Income and the Alternate Minimum Tax have been computed in accordance with the provisions of this Chapter and furnish such report on or before the due date of furnishing of return of income under section 139(1).

Tax credit for AMT: Section 115JD provides the credit for tax (tax credit) paid by a non-corporate on account of AMT under Chapter XII-BA shall be allowed to the extent of the excess of *the AMT paid over the regular Income-tax*. This tax credit shall be allowed to be carried forward up to the tenth Assessment Year immediately succeeding the Assessment Year for which such credit becomes allowable. It shall be allowed to be set off for an Assessment Year in which the regular income-tax exceeds the AMT to the extent of *the excess of the regular Income-tax over the AMT*. No interest shall be payable on tax credit allowed under section 115JD.

For the purpose of the given sections:

“Adjusted Total Income” means the Total Income or Net Income of the non-corporate assessee as increased by –

- (a) Amount claimed as deduction by the non-corporate assessee under sections 80H to 80RRB other than section 80P;
- (b) Amount claimed as deduction by the non-corporate assessee under section 10AA.

“Alternate Minimum Tax” shall be the amount of tax computed on Adjusted Total Income at a rate of eighteen and one-half per cent.

Application of other provisions of this Act [Section 115JE]: Save as otherwise provided in this Chapter, all other provisions of this Act shall apply to a non-corporate referred to in this Chapter. Hence, all other provisions relating to Advance tax, interest under sections 234A, 234B and 234C penalty, etc. shall apply to such non-corporate also.

Rates of Income-Tax for Assessment Year 2014-15

Normal Rates of Income Tax

I. Rate of Tax applicable to any Resident Senior Citizen (who attains 60 years age or more during any time of the Previous Year but less than 80 years of age)

Net Income Range	Rate of Income Tax	Education Cess	Secondary and Higher Education Cess
Upto ₹ 2,50,000	Nil	Nil	Nil
₹ 2,50,001 to ₹ 5,00,000	@10% on total income minus ₹ 2,50,000	@2% of Income Tax	@1% of Income Tax
₹ 5,00,001 to ₹ 10,00,000	₹ 25,000 + @20% on total income minus ₹ 5,00,000	@2% of Income Tax	@1% of Income Tax
₹ 10,00,000 onwards	₹ 1,25,000 + @30% on total income minus ₹ 10,00,000	@2% of Income Tax	@1% of Income Tax

II. Rate of Tax applicable to any Resident Super Senior Citizen (who attains 80 years age or more during any time of the Previous Year)

Net Income Range	Rate of Income Tax	Education Cess	Secondary and Higher Education Cess
Upto ₹ 5,00,000	Nil	Nil	Nil
₹ 5,00,001 to ₹ 10,00,000	@20% on total income minus ₹ 5,00,000	@ 2% of Income Tax	@ 1% of Income Tax
₹ 10,00,000 onwards	₹ 1,00,000 + @ 30% on total income minus ₹ 10,00,000	@ 2% of Income Tax	@ 1% of Income Tax

III. In the case of any other Individual or Hindu Undivided Family or AOP/BOI (other than a co-operative society) whether incorporated or not, or every Artificial Judicial Person

Net Income Range	Rate of Income Tax	Education Cess	Secondary and Higher Education Cess
Upto ₹ 2,00,000	Nil	Nil	Nil
₹ 2,00,001 to ₹ 5,00,000	@10% on total income minus ₹ 2,00,000	@ 2% of Income Tax	@ 1% of Income Tax
₹ 5,00,001 to ₹ 10,00,000	₹ 30,000 + @ 20% on total income minus ₹ 5,00,000	@ 2% of Income Tax	@ 1% of Income Tax
₹ 10,00,000 onwards	₹ 1,30,000 + @ 30% on total income minus ₹ 10,00,000	@ 2% of Income Tax	@ 1% of Income Tax

Note : The above rate is applicable to any individual who is not a Senior Citizen. No Addl / special benefit is awarded to Women tax payers. Here, the other individual includes Non-resident individual also irrespective of their age.

The amount of tax computed in accordance with the above rates and special rates u/s 111A (relating

to STCG on shares through recognised stock exchange) and 112 (relating to LTCG) shall be increased by a surcharge at the rate of 10% of such income tax in case the total income exceeds ₹1 crore.

A resident individual, having total income not exceeding ₹5,00,000, can avail rebate of ₹2,000 or 100% of income tax, whichever is less, u/s 87A.

Other Assesseees:

Assessee	Rate of Tax	Surcharge
For Firms (including Limited Liability Partnership)	Total Income $\times$ 30% + EC@ 2% + SHEC @ 1%.	Surcharge @ 10% if the total income exceeds ₹1 crore
Domestic Companies	Total Income $\times$ 30% + EC@ 2% + SHEC @ 1%.	Surcharge @ 5% if the total income exceeds ₹1 crore and @ 10% if the total income exceeds ₹10 crore
Foreign Companies :		
Royalty received from Indian Government or an Indian concern in pursuance of an agreement made by it with the Indian concern after March 31, 1961, but before April 1, 1976, or fees for rendering technical services in pursuance of an agreement made by it after February 29, 1964 and where such agreement has, in either case been approved by the Central Government	Total Income $\times$ 50%+ EC@ 2% + SHEC @ 1%	Surcharge @ 2% if the total income exceeds ₹1 crore and @ 5% if the total income exceeds ₹10 crore
Other Income	Total Income $\times$ 40%+ EC@ 2% + SHEC @ 1%	Surcharge @ 2% if the total income exceeds ₹1 crore and @ 10% if the total income exceeds ₹10 crore
For Local Authorities	Total Income $\times$ 30% + EC@ 2% + SHEC @ 1%.	Surcharge @ 10% if the total income exceeds ₹1 crore
For Co-operative Societies	For First ₹10,000 @ 10% For Next ₹10,000 @ 20% For the Balance @ 30% EC @ 2% and SHEC @ 1% are applicable.	Surcharge @ 10% if the total income exceeds ₹1 crore
MAT = Minimum Alternate Tax	18.5% of Book Profit + EC @ 2% + SHEC 1%	Surcharge as applicable if Book Profits exceed ₹1 crore or ₹10 crore.
AMT = Alternate Minimum Tax	18.5% of Book Profit + EC @ 2% + SHEC 1%	Surcharge if Adjusted Total Income exceed ₹1 crore.

Marginal Relief: The total amount payable as income tax and surcharge on total income exceeding ₹1 crore but not exceeding ₹10 crore, shall not exceed the total amount payable as income tax on a total income of ₹1 crore, by more than the amount of income that exceeds ₹1 crore.

In case of a company having a net income exceeding ₹10 crores, the amount payable as income tax and surcharge on total income of ₹10 crore by more than amount of income that exceeds ₹10 crore.

ILLUSTRATIONS ON ASSESSMENT OF AOP / BOI

Illustration 1. A & B are members of AOP, sharing profit and losses in the ratio of 5 : 3 and they are allowed the following payments:

	A ₹	B ₹
(i) Salary	40,000	60,000
(ii) Interest on capital or loan	20,000	10,000

You are required to compute taxable business profits of AOP and share of each member for the Previous Year 2013-2014 in the following cases:

- AOP has earned profit of ₹ 3,00,000 after making the above payments;
- AOP has earned profit of ₹ 3,00,000 before making the above payments;
- AOP has suffered loss of ₹ 3,00,000 after making the above payments; and
- AOP has suffered loss of ₹ 3,00,000 before making the above payments.

Solution: Computation of income of AOP for the P.Y. 2013-2014 :

Particulars	Case (a) ₹	Case(b) ₹	Case (c) ₹	Case (d) ₹
Profit/ loss	(+) 3,00,000	(+) 3,00,000	(-) 3,00,000	(-) 3,00,000
Add: Inadmissible payments [Sec. 40 (ba)]:				
(i) Salary to members (40,000+60,000)	(+) 1,00,000	—	(+) 1,00,000	—
(ii) Interest on capital/loan to members: (20,000 + 10,000)	(+) 30,000	—	(+) 30,000	—
Profit/Loss as per Income Tax Law	(+) 4,30,000	(+) 3,00,000	(-) 1,70,000	(-) 3,00,000

Computation of member's share in the income/loss of the AOP

Particulars	Case (a)		Case (b)		Case (c)		Case (d)	
	A ₹	B ₹	A ₹	B ₹	A ₹	B ₹	A ₹	B ₹
Salary	40,000	60,000	40,000	60,000	40,000	60,000	40,000	60,000
Interest	20,000	10,000	20,000	10,000	20,000	10,000	20,000	10,000
Divisible profit:								
(a) 4,30,000-1,30,000	1,87,500	1,12,500	X	X	X	X	X	X
(b) 3,00,000-1,30,000	X	X	1,06,250	63,750	X	X	X	X
(c) (-) 1,70,000 +(-)1,30,000 =(-)3,00,000	X	X	X	X	(1,87,500)	(1,12,500)	X	X
(d) (-) 3,00,000 + (-) 1,30,000= (-) 4,30,000	X	X	X	X	X	X	(2,68,750)	(1,61,250)
Share of profit/loss	2,47,500	1,82,500	1,66,250	1,33,750	(1,27,500)	(42,500)	(2,08,750)	(91,250)

- Where assessed business income is a profit: Beneficial payments (i.e. salary, bonus, commission and interest) made to partners should be deducted from assessed profit to arrive at divisible profit, which is to be apportioned among members.

- (ii) Where assessed business income is a loss: Beneficial payments made to partners should be added to assess loss to arrive at the divisible loss which is to be apportioned among members.

Illustration 2. Anand and Aniket are equal members in AA & Associates. The Profit and Loss Account of the AOP for the year ended 31st March 2014 is as follows:

Particulars	₹	Particulars	₹
Selling and administrative Expenses	8,00,000	Gross Profit	20,00,000
Interest to Anand @ 15%	60,000	Income from House Property	3,60,000
Remuneration:			
Anand	1,50,000		
Aniket	1,50,000		
Net Profit:			
Anand	6,00,000		
Aniket	6,00,000		
	23,60,000		23,60,000

Other information :

- Selling and administrative expenses include ₹ 60,000 paid to a consultant in cash.
- The other income/investment details of the members are given as below:

Members	Income	Source of income	Investments
Anand	3,90,000	Interest on fixed deposit from bank	Purchase of NSC VIII ₹ 30,000
Aniket	5,00,000	Interest on Govt. securities	Contribution to PPF ₹ 50,000

Compute the tax liability of the AOP and its members.

Solution: Computation of total income of AOP: PY 2013-2014

Particulars	₹
Net Profit	12,00,000
Add: Inadmissible payments.	
1. Fees paid to consultants in cash Sec. 40A (3)	60,000
2. Interest paid to members [Sec. 40(ba)]:	60,000
3. Remuneration paid to members Sec. 40(ba)	<u>3,00,000</u>
	16,20,000
Less: Income from House Property	<u>3,60,000</u>
Business Profits	12,60,000
Add: Income from House Property	<u>3,60,000</u>
Total Income	<u>16,20,000</u>
Tax Liability of AOP on Total Income	
Tax on slabs rates	3,16,000
Add:	
Education cess 2%	6,320
SHEC @ 1%	<u>3,160</u>
Tax Payable	3,25,480

Allocation of income amongst the members:

Particulars	Anand ₹	Aniket ₹	Total ₹
Interest	60,000	—	60,000
Remuneration	1,50,000	1,50,000	3,00,000
Share of divisible profit (12,60,000-60,000-3,00,000)	4,50,000	4,50,000	9,00,000
Share of profit	6,60,000	6,00,000	12,60,000
Share of income from House Property	1,80,000	1,80,000	3,60,000
	8,40,000	7,80,000	16,20,000

Computation of total income of members:

Particulars	Anand ₹	Aniket ₹
Share income from AOP	8,40,000	7,80,000
Income from Other Sources:		
Interest on bank deposits	3,90,000	—
Interest on Government securities	—	5,00,000
Gross Total Income	12,30,000	12,80,000
Less: Deduction under Sec. 80C	30,000	50,000
Total Income	12,00,000	12,30,000
Tax liability of members : Tax on slab rates	1,90,000	1,99,000
Add: Education cess @ 2% on income tax	3,800	3,980
Add : SHEC @ 1%	1,900	1,990
	1,95,700	2,04,970
Less: Rebate on share of profit at the average: (See Note below)	1,36,990	1,29,981
Tax Payable	58,710	74,989
Tax Payable rounded off to the nearest multiple of ₹ 10 (See. 288B)	58,710	74,990
Note: Anand: $1,95,700/12,00,000 \times 8,40,000$ Aniket : $2,04,970/12,30,000 \times 7,80,000$		

Note: Assumed that the provisions of Alternate Minimum Tax are not applicable in the above case.

Illustration 3. A, B and C Ltd. are three members of an AOP, sharing profit and losses in the ratio 2:2:1. The AOP discloses its income for the PY 2013-2014 as below:

Particulars	₹
(i) Long-term Capital Gains	4,00,000
(ii) Business Profits	6,00,000

Determine tax liability of AOP in the following cases:

- C Ltd. is an Indian company
- C Ltd. is a foreign company

Solution: Allocation of income of AOP among partners

Particulars of income	A ₹	B ₹	C Ltd ₹
Long-term Capital Gains	1,60,000	1,60,000	80,000
Business Profits	<u>2,40,000</u>	<u>2,40,000</u>	<u>1,20,000</u>
Share income of the members	4,00,000	4,00,000	2,00,000

Tax liability of AOP

Particulars	Case – I C Ltd. an Indian company ₹	Case – II C Ltd. as foreign company ₹
Tax on the share of C Ltd. Case I : 1,20,000 x 30.90%	37,080	—
Case II: 1,20,000 x 41.20%	—	49,440
Tax on balance income at AOP: (i) Long-term Capital Gain 4,00,000 x 20.60%	82,400	82,400
(ii) Business Profits 4,80,000 x 30.90%	<u>1,48,320</u>	<u>1,48,320</u>
Total Tax Payable	<u>2,67,800</u>	<u>2,80,160</u>
Total Tax (Rounded off u/s 288B)	2,67,800	2,80,160

Note : Assumed that the provisions of AMT are not applicable in the above case.

Illustration 4. R, S and T Ltd. (a widely held domestic company) are members in an AOP for the Previous Year 2013-2014. They share profit and losses in the ratio 30%, 40% and 30%. Taxable business income of AOP is determined at ₹ 8,00,000. Personal incomes of the partners are given below:

(₹)

R - House Property 90,000

S – Short-term Capital Gain 1,00,000

R deposits ₹ 20,000 in CTDS-15-year account in Post Office in February 2014. S purchases NSC VIII-Issue for ₹ 25,000 in December 2013.

Determine the tax liability of the AOP and its partners

Solution : (a) Computation of tax liability of AOP for the Previous Year 2013-2014. Allocation of AOP income among members:

Particulars	R ₹	S ₹	T Ltd. ₹
Business Profit	2,40,000	320000	240000

Tax liability of AOP: $8,00,000 \times 30.90\% = 2,47,200$

(b) Tax liability of members:

Particulars	R ₹	S ₹	T Ltd. ₹
Share income from AOP	2,40,000	320000	240000
AOP charged at maximum marginal rate	Exempt	Exempt	Exempt
Personal income of members after deduction under Chapter VIA	70,000	75,000	Nil
Personal income below taxable limit	Exempt	Exempt	X

Note : Assumed that AMT is not applicable in the above case.

Illustration 5. GMK are partners in a firm assessed as an association of persons. They share profit and losses in the ratio of 4:3:3. The abridged profit and loss for the Previous Year 2013-2014 is as follows:

Particulars	₹	Particulars	₹
Business expenses	5,00,000	Gross Profits	6,85,000
Salaries to partners		Short-term Capital Gain	2,80,000
G	60,000	Interest on drawings	
M	40,000	G	5,000
K	50,000	M	20,000
Bonus to partners:		K	10,000
G	30,000		
M	20,000		
Commission to K	40,000		
Interest to partners:			
G	20,000		
M	15,000		
K	25,000		
Net Profit			
G	80,000		
M	60,000		
K	60,000		
	10,00,000		10,00,000

Business expenses include donation to Nalanda University ₹ 50,000.

Compute the taxable income of AOP, its tax liability and tax liability of its members in the following cases:

Personal income of members	Case-I ₹	Case-II ₹
G: Interest on bank deposits	2,40,000	1,00,000
M: Interest on Government securities	2,65,000	1,20,100
K: Income from House Property	2,50,000	1,10,000
LIP paid by every member on a policy of ₹ 1,00,000.	20,000	20,000

Solution : Computation of Taxable Business Profits

Particulars	₹
Net Profit as per Profit & Loss A/c	2,00,000
Add: (i) Donation to Nalanda University	50,000
(ii) Salaries to partners [Sec. 40(ba)] (60,000 + 40,000 + 50,000)	1,50,000
(iii) Bonus to partners (30,000 + 20,000)	
(iv) Interest on capital (Net of Interest on Drawings)	
G 20,000 – 5,000 =	50,000
K 25,000 – 10,000 =	15,000
(v) Commission to K	15,000
	<u>40,000</u>
	5,20,000
Less: Short-term Capital Gain	<u>2,80,000</u>
Taxable Business Profits	<u>2,40,000</u>
Computation of Total Income	
Add: (i) Business Profits	2,40,000
(ii) Short-term Capital Gain	<u>2,80,000</u>
Gross Total Income	5,20,000
Less: Deduction for charitable donation (Sec. 80G)	
(a) Actual donation ₹ 50,000 or,	
(b) 10% of gross total income: $\frac{10}{100} \times 5,20,000 = 52,000$	
whichever is less, is qualifying amount. i.e. ₹ 50,000.	
Amount of deduction 50% of ₹ 50,000, qualifying amount	<u>25,000</u>
Total Income	<u>4,95,000</u>

Tax liability of AOP :

Particulars	Case I	Case II
(a) Tax on Total Income at slab rates including Education Cess and SHEC	30,385	—
(b) Tax on Total Income at maximum marginal rates including surcharge plus education cess plus SHEC	—	1,52,955
Tax Payable	30,385	1,52,955
Tax Payable rounded off (u/s 288 B)	30,390	1,52,960

Tax liability of members:

Share of income from AOP:	G (₹)	M (₹)	K (₹)	Total (₹)
(i) Salary	60,000	40,000	50,000	1,50,000
(ii) Bonus	30,000	20,000	—	50,000
(iii) Commission	—	—	40,000	40,000
(iv) Interest	15,000	—	15,000	30,000
	1,05,000	60,000	1,05,000	2,70,000
(v) Divisible loss : (2,40,000-25,000)-270,000 = (-) 55,000	(-) 22,000	(-) 16,500	(-) 16,500	(-) 55,000
Share of Business Profit	83,000	43,500	88,500	2,15,000
Share of Short-term Capital Gain	1,12,000	84,000	84,000	2,80,000
Share of income from AOP	1,95,000	1,27,500	1,72,500	4,95,000

Total Income and Tax Liability of members :

Case:(a) where AOP is taxed at slab rates:

Particulars	G	M	K
Income from House Property	—	—	2,50,000
Income from Other Sources	2,40,000	2,65,000	—
Share income from AOP	1,95,000	1,27,500	1,72,500
Gross Total Income	4,35,000	3,92,500	4,22,500
Less: Deduction under Sec. 80C: LIP restricted to 20% of policy [Assumed the policy is issued before 1.4.2012]	20,000	20,000	20,000
Total Income	4,15,000	3,72,500	4,02,500
Gross income tax at slab rate	21,500	17,250	20,250
Less: Rebate u/s 87A	2,000	2,000	2,000
	19,500	15,250	18,250
Add: Surcharge	Nil	Nil	Nil
Add: Education Cess @ 2%	390	305	365
Add : SHEC @ 1%	195	153	183
	20,085	15,708	18,798
Less: Rebate on share of profit from firm at the average rate	9,438	5,377	8,056
Tax Payable	10,647	10,331	10,742
Tax Payable rounded off (u/s 288B)	10,650	10,330	10,740
Note 1: $20,085 \div 4,15,000 \times 1,95,000 = 9,438$			
Note 2: $15,708 \div 3,72,500 \times 1,27,500 = 5,377$			
Note 3: $18,798 \div 4,02,500 \times 1,72,500 = 8,056$			

Case (b) where AOP is taxed at maximum marginal rate:

Particulars	G	M	K
1. Share of profit from AOP; Since the AOP was assessed at the maximum marginal rate, share of income from AOP is exempt (Sec. 86)	—	—	—
2. Personal income:			
Income from House Property	—	—	1,10,000
Income from Other Sources	1,00,000	1,20,100	—
Less: Deduction u/s 80C	(-) 20,000	(-) 20,000	(-) 20,000
Total Income	80,000	1,00,100	90,000
Tax Payable	Nil	Nil	Nil

Note : Provisions of AMT are not applicable in the above case.

Illustration 6. T and Q are individuals, who constitute an Association of Persons, sharing profit and losses in the ratio of 2:1. For the accounting year ended 31st March 2014, the Profit and Loss Account of the business was as under:

Particulars	₹ in '000	Particulars	₹ in '000
Cost of goods sold	6,250.00	Sales	9,900.00
Remuneration to:		Dividend from companies	25.00
T	130.00	Long-term Capital Gains	1,640.00
Q	170.00		
Employees	256.00		
Interest to :			
T	48.30		
Q	35.70		
Other expenses	111.70		
Sales-tax penalty due	39.00		
Net Profit	4,524.30		
	11,565.00		11,565.00

Additional information furnished:

- (i) Other expenses included:
 - (a) entertainment expenses of ₹ 35,000;
 - (b) wristwatches costing ₹ 2,500 each were given to 12 dealers, who had exceeded the sales quota prescribed under a sales promotion scheme;
 - (c) employer's contribution of ₹ 6,000 to the Provident Fund was paid on 14th January 2014.
 - (d) ₹ 30,000 was paid in cash to an advertising agency for publicity.
- (ii) Outstanding sales tax penalty was paid on 15th April 2014. The penalty was imposed by the sales tax officer for non-filing of returns and statements by the due dates.
- (iii) T and Q had, for this year, income from other sources of ₹ 3,50,000 and ₹ 2,10,000, respectively.

Required to :

- (i) Compute the total income of the AOP for the Previous Year 2013-2014.
- (ii) Ascertain the tax liability of the Association for that year; and
- (iii) Ascertain the tax liability for that year of the individual members.

Solution : (i) Computation of total income of the AOP for PY 2013-2014

Particulars	₹	₹
Profit and Gains of Business (see Working Note below)		33,12,300
Long Term Capital Gain		16,40,000
Income from Other Sources [dividend is exempt u/s 10(34), assuming it is from domestic companies]		NIL
Total Income		49,52,300
Working Note:		
Computation of profits and gains of business:		
Net profit as per Profit and Loss Account		45,24,300
Add: Inadmissible payments:		
Interest to members T & Q (₹ 48,300 + ₹ 35,700)	84,000	
Advertising [disallowance u/s 40A(3)]	30,000	
Remuneration to members T & Q (₹ 1,30,000 + ₹ 1,70,000)	3,00,000	
Sales tax penalty due (See Note 3 below)	<u>39,000</u>	<u>4,53,000</u>
		49,77,300
Less : Income not taxable under this head		
Dividend from companies	25,000	
Long term Capital Gain	<u>16,40,000</u>	<u>16,65,000</u>
Profits and Gains of Business		33,12,300

(ii) Computation of tax liability of the AOP for PY 2013-2014

Particulars	₹	₹
Long-term Capital Gain (₹ 16,40,000 × 20%)		3,28,000
Other Income (₹ 33,12,300 × 30%)		<u>9,93,690</u>
Tax on Total Income		13,21,690
Add : Education cess @ 2%		26,434
Add : SHEC @ 1%		<u>13,217</u>
Total Tax due		<u>13,61,341</u>
Total Tax Rounded off (u/s 288B)		13,61,340

Note :

- Since one of the members has individual income more than the basic exemption limit, the AOP will be assessed at the maximum marginal rate.
- Since the employer's contribution to PF has been paid during the Previous Year 2013-2014 itself, it is allowable as deduction.
- Penalty imposed for delay in filing sales tax return is not deductible since it is on account of infraction of the law requiring filing of the return within the specified period.
- Gift paid to dealers are solely for business purpose and hence, fully deductible item.

(iii) Computation of Tax Liability of members T & Q for the PY 2013-2014

Particulars	₹	Particulars	₹
Tax on ₹ 3,50,000	15,000	Tax on ₹ 2,10,000	1,000
Less: Rebate u/s 87A	<u>2,000</u>	Less: Rebate u/s 87A	<u>1,000</u>
	13,000		Nil
Add : Surcharge	Nil	Add : Surcharge	Nil
	13,000		Nil
Add : Education cess @ 2%	260	Add : Education cess @ 2%	Nil
Add : SHEC @ 1%	130	Add : SHEC @ 1%	Nil
Net Tax Payable	13,390	Net Tax Payable	Nil

ILLUSTRATIONS ON ASSESSMENT OF CHARITABLE TRUSTS

Illustration 7. Shri Dubbawala Charitable Trust (Regd.) submits the particulars of its income / outgoing for the Previous Year 2013-2014 as below :

	₹
(i) Income from property held under trust for charitable purposes: (₹ 2,20,000 out of ₹ 10,00,000 is received in PY 2014-2015)	10,00,000
(ii) Voluntary contributions (out of which ₹ 50,000 will form part of the corpus)	2,00,000

The trust spends ₹ 1,77,500 during the Previous Year 2013-2014 for charitable purposes. In respect of ₹ 2,20,000, it has exercised its option to spend it within the permissible time-limit in the year of receipt or in the year, immediately following the year of receipt.

The trust spends ₹ 2,00,000 during the Previous Year 2012-2013 and ₹ 1,00,000 during the Previous Year 2014-2015. Compute and discuss the chargeability of the income of the trust.

Solution : (a) Computation of taxable income and tax liability of the charitable trust for the PY 2013-2014 / AY 2014-2015

Particulars	₹
(i) Income from property held under trust for charitable purposes	10,00,000
(ii) Voluntary contributions (₹ 2,00,000 - ₹ 50,000)	<u>1,50,000</u>
	11,50,000
Less: 15% set apart for future application	<u>1,72,500</u>
Balance	9,77,500
Less: Amount spent during the Previous Year for charitable purposes	<u>1,77,500</u>
Balance	8,00,000
Less: Income not received during the Previous Year 2013-2014	<u>2,20,000</u>
Taxable Income	<u>5,80,000</u>
Tax payable:	Rate of tax
2,00,000	Nil
3,00,000	10%
80,000	20%
	<u>30,000</u>
	<u>16,000</u>
	46,000
Add: Education Cess @ 2%	920
Add: SHEC @ 1%	460
Tax Payable	<u>47,380</u>
(b) Previous Year 2014-2015 /AY 2015-2016	
Income received during the Previous Year 2014-2015	2,20,000
Amount spent for charitable purposes during 2013-2014	<u>1,00,000</u>
Taxable Income	<u>1,20,000</u>

Illustration 8. Shri Mungeri Ram Temple Trust (Regd.) derived ₹ 6,00,000 income from the property held under charitable trust during the Previous Year 2013-2014. About 40% of the income has been received by the end of the financial year. The trust could spend ₹ 60,000 for charitable purposes during the year 2013-2014 and 40% receipts, received by the year end in 2013-2014, are being planned to be applied for charitable purposes during the Previous Year 2014-2015. Compute its income for the said two years if the amount planned to be spent during Previous Year 2014-2015 for charitable purposes is ₹ 1,00,000.

Solution : (a) Computation of Taxable Income of Charitable Trust: PY 2013-2014/AY 2014-2015

Particulars	₹
Income from property held under Trust	6,00,000
Less: 15% set apart for future application for charitable purposes	<u>90,000</u>
Balance	5,10,000
Less : Income applied for charitable purposes during the year 2013-2014	<u>60,000</u>
Balance	4,50,000
Less: Income realised by the close of the Previous Year—40% of ₹ 6,00,000	<u>2,40,000</u>
Taxable Income	<u>2,10,000</u>
(b) Previous Year : 2014-2015/A.Y. 2015-2016	
Amount set apart in 2013-2014 to be applied for charitable purposes in 2014-2015	= 2,40,000
Less: Amount applied for charitable purposes	= <u>1,00,000</u>
Taxable Income	<u>1,40,000</u>

Illustration 9. Devdas Charitable Trust submits the particulars of its receipts and outgoing during the Previous Year 2013-2014 as below :

(i)	Income from property held under trust for charitable purposes	₹ 20,00,000
(ii)	Voluntary contribution (out of which ₹ 5,00,000 will form part of the corpus)	₹ 15,00,000
(iii)	Donations paid to blind charitable school	₹ 6,00,000
(iv)	Scholarship paid to poor students	₹ 4,00,000
(v)	Amount spent on holding free eye camps in urban slums	₹ 3,00,000
(vi)	Amount set apart for setting up an old age home by March 2016	₹ 10,00,000

Compute the total income of the trust for the Previous Years 2013-2014 and 2016-2017 if it spends ₹ 3,00,000 during the Previous Year 2015-2016 and ₹ 5,00,000 during the Previous Year 2016-2017 in setting up the old age home.

Solution : (a) Computation of the Taxable Income of the trust for Previous Year 2013-2014/AY 2014-2015.

Particulars		₹
(i) Income from property held under charitable trust		20,00,000
(ii) Income from voluntary contributions (₹ 15,00,000 - ₹ 5,00,000)		<u>10,00,000</u>
Total		<u>30,00,000</u>
Less : 15% set apart for future application		<u>4,50,000</u>
Balance		<u>25,50,000</u>
Less: Income applied for charitable purposes:		
(i) Donations to blind charitable school	6,00,000	
(ii) Scholarship to poor students	4,00,000	
(iii) Free eye camps in urban slums	<u>3,00,000</u>	
Total	<u>13,00,000</u>	
Amount set apart for old age home	<u>10,00,000</u>	<u>(23,00,000)</u>
Taxable Income		<u>2,50,000</u>
(b) Previous Year 2016-2017 /AY 2017-2018:		
Amount set apart for old age home	10,00,000	
Less : 1. Amount spent during 2015-2016	(3,00,000)	
2. Amount spent during 2016-2017	<u>(5,00,000)</u>	
Taxable Income	<u>2,00,000</u>	

Illustration 10. CD Charitable Trust furnishes the following particulars, for the year 2013-2014:

		(₹)
(i)	Sale price of capital assets	15,30,000
(ii)	Expenses incurred in connection with sale of the asset	30,000
(iii)	Cost of the asset sold (purchased in 2012-2013)	5,00,000
(iv)	Compute Capital Gain in the following cases:	
	(a) Cost of the new asset to be acquired	15,00,000
	(b) Cost of the new asset to be acquired	8,00,000
	(c) Cost of the new asset to be acquired	4,00,000

Solution: Computation of Capital Gain: PY 2013-2014/AY 2014-2015

Particulars	Case-I ₹	Case-II ₹	Case-III ₹
Sale price	15,30,000	15,30,000	15,30,000
Less: (i) Selling expenses	(-) 30,000	(-) 30,000	(-) 30,000
(ii) Cost of the asset	(-) 5,00,000	(-) 5,00,000	(-) 5,00,000
Short-term Capital Gain	10,00,000	10,00,000	10,00,000
Less: Exemption in respect of Capital Gain	10,00,000	3,00,000	Nil
Taxable Capital Gain	Nil	7,00,000	10,00,000

Note : 1. Cost of new asset - cost of asset sold: 8,00,000 - 5,00,000 = 3,00,000
2. Cost of new asset - cost of asset sold: 4,00,000 - 5,00,000 = Nil

Illustration 11. Where the private trust is charged at the maximum marginal rate u/s 164(1), whether basic exemption is to be allowed?

Solution: No. The tax should be levied at the maximum marginal rate as laid down in the Act itself, without allowing the basic exemption as laid down in the Finance Act. [Surendranath Gangopadhyay Trust vs. CIT (1983) 142 ITR 149 (Cal.).]

Illustration 12. Whether, while computing the income of a private trust, deduction under section 80C is allowable?

Solution: Yes. Section 164(1) comes into play only after the income has been computed in accordance with the provisions of the Act. Where the trustees of a discretionary trust are assessed on behalf of a beneficiary, who is an individual, deduction under section 80C or rebate under section 88 is allowable [CIT vs. Shri Krishna Bandar Trust (1993) 201 ITR 989 (Cal.) and Amy F. Cama vs. CIT (1999) 237 ITR 82 (Bom.)]

It is available against beneficiary's share of income from the trust, even where assessment is made in the hands of the trustee [CIT vs. Saurin S. Zaveri (2002) 257 ITR 160 (Mad.) and CIT vs. Venu Suresh Sanjay Trust (1996) 221 ITR 649 (Mad.)]. The Supreme Court refused special leave to revenue on the question of deduction under section 80C on income assessable in the hands of the trust [CIT vs. Pradeep J. Kinariwala (1999) 237 ITR (St.) 129].

Illustration 13. The Assessing Officer made an assessment for A.Y. 2013-14, in the name of the trust. But, during the assessment proceedings of A.Y. 2014-15 the Assessing Officer found that the assessment in the hands of the beneficiaries would be more beneficial to the revenue than the assessment in the hands of the trust. Accordingly, he made the assessment for A.Y. 2014-15 in the hands of the beneficiaries. Was the Assessing Officer justified in doing so?

Solution: No. In Board's Circular No.157 dated 26.12.1974, it is clarified that at the initial assessment, the Assessing Officer should opt to assess either the trust or the beneficiaries, and that, once the option is exercised, the same income cannot be taxed in the other persons' hands (the beneficiary or the trustee, as the case may be).

Illustration 14. Should the maximum rate of tax prescribed for discretionary trust, where such discretion does not extend to the entire trust's income, be applicable for entire income?

Solution: No. In a similar situation relating to a charitable institution where there was violation in respect of some investments not permitted under section 13(1)(d), it was found in Director of Income Tax (Exemptions) vs. Shaik Mohd. Jan Foundation Trust ITA Nos. 267 & 272 (Bom.), where it was held that maximum rate should be limited only to that part of the income, where there is a violation, attracting such maximum rate and not to the entire income. The decision was rendered in the context of the language of the proviso to section 164(2), which refers to the forfeiture of exemption for breach of section 13(1)(d). It was pointed out that there is a factual difference between eligibility for exemption and withdrawal/forfeiture of exemption. Once there is eligibility, the withdrawal or forfeiture could only be limited to that part of the income which attracts maximum rate. Since the decision was rendered in the context of section 164(2) applicable to discretionary trust, the principle should have application for all private trusts.

Illustration 15. Where a trust is created, for carrying on the business hitherto carried on by joint family, after its partition, could such trust be treated as one liable to be assessed as AOP constituted by the beneficiaries?

Solution: Such a situation arose in CIT vs. Ashok Match Industries B-Unit (2000) 244 ITR 1047 (Mad.). The argument on behalf of the assessee was that, since the consent of members is necessary for treatment as AOP and since the business was carried on by the trustees and not by the beneficiaries, who incidentally were minors, there could be no AOP. The High Court found the consent of the guardian of the minors was good enough to create an AOP. The fact that the titular owner of the business was a trust was not a bar to the treatment of the beneficiaries collectively as AOP. Such a decision was rendered after review of the case law on the subject with reference to the principles laid down by the Supreme Court in N.V. Shanmugham and Co. vs. CIT(1971) 81 ITR 310 (SC). In the result, the concept of trust could not avoid collective assessment of AOP.

In CIT vs. Shabandari Family Trust (2000) 246 ITR 57 (Ker.), a similar issue was remitted back to the Tribunal by the High Court for consideration of the activities of the trust, mode of income derived and beneficiaries of the trust.

Illustration 16. Can a trust be created by the legal guardian of the minor in respect of minor's property on behalf of the minor?

Solution: In T.A.V. Trust vs. CIT (1999) 236 ITR 788 (SC), it was found that as section 7 of the Indian Trusts Act, 1882 provides that a trust can be created only by persons competent to contract and that in the case of a minor, it can be so done only with the permission of the civil court of original jurisdiction, otherwise, such trust is invalid.

Illustration 17. Where there is a sole beneficiary with the trustee having only the power to determine the time when benefit can be availed by the beneficiary, will such trust attract maximum rate of tax under section 164?

Solution: Where the beneficiary is one and is known, it cannot be said that it is a discretionary trust within the meaning of section 164. It is not a case where maximum rate of tax would have application. It was so held in CIT vs. Saroja Raman (1999) 238 ITR 34 (Mad.). Where the High Court pointed out that the object of the provision is directed against trusts, where the benefits could be manipulated and not to deny the normal rate of tax in such cases where there is no choice as between different beneficiaries is left to the trustee.

Illustration 18. Where a trust is created by Will by which the executor has to act as a trustee, when does the executor cease to be an executor and becomes a trustee?

Solution: This issue was decided in K.R. Patel (Deceased) vs. CIT (1999) 239 ITR 738 (SC) where the Will was probated and an application for registration of public trust was also made by the executors. It is neither the date of probate of grant of the Will or the date of application for registration of public trust which is relevant. Till all payments required to be made under the Will are made, the executor continues to be an executor and the income of the estate is required to be assessed only in his hands in that capacity.

Illustration 19. Where there is more than one trustee, is it permissible to adopt the status of the trust as AOP?

Solution: Since the income of a trust has to be allocated to the beneficiaries the status of the beneficiary will be that of the trust in respect of income of each beneficiary.

Illustration 20. Where the sole beneficiary is another trust, can the first trust be treated as a representative assessee so as to be entitled to exemption for which beneficiary is eligible?

Solution: Yes. It has been held that there is no reason why the role of representative assessee should be different merely because the beneficiary is another trust [Honesty Engineers and Contractors Trust vs. CIT (2003) 262 ITR 266 (Mad.)].

Illustration 21. Where a trust has both business income and has also other incomes and section 164 is applicable, should maximum rate be applicable for the total income?

Solution: No. Only the business income will attract the maximum marginal rate [CIT vs. T.A.V. Trust (2003) 264 ITR 52 (Ker.)].

Illustration 22. A trustee made distribution of income to the beneficiaries, in a manner contrary to the terms of the deed. Does it attract maximum marginal rate?

Solution: No. Where the shares are specified, a distribution contrary to specifications does not make it a discretionary trust, so that maximum rate is not applicable [CIT vs. Smt. Gurmail Kaur Trust (2004) 268 ITR 124 (P&H)] .

Illustration 23. Is a trustee, as a representative assessee, where minor is a beneficiary, liable for penalty?

Solution: The fact that beneficiary is a minor does not offer immunity, so that the issue has to be decided on merits. In a case, where under-statement of income in the return filed by legal representative was alleged, the matter was remanded by the High Court for a finding in this regard in a departmental appeal [CIT vs. Master Sunil R. Kalro (2007) 292 ITR 86 (Kar)]. The reasoning appears to be that the representative, responsible for the default, cannot be excused.

Illustration 24. Where a trust attracted maximum marginal rate, can rectification be made to the trust deed, so as to specify shares and avoid such higher rate?

Solution: A trust deed can be rectified in the manner permissible under the terms of trust deed and trust law, but it can have effect only from the date on which rectification is made [Ranga Rao Lottery Agencies Vs. CIT (2006) 287 ITR 542 (Mad.)].

Illustration 25. Where the income of a beneficiary has been assessed in the hands of the trust, is such income includible in the direct assessment of the beneficiary for rate purposes?

Solution: No. Assessing Officer's reliance on section 86 which permits inclusion of share income from Association of Persons, where it has no assessable income, was found to be unjustified, since section 86 can have no application where such income has been assessed in the hands of a representative assessee [CIT vs. P.N. Bajaj (2003) 262 ITR 593 (Mad.)].

Illustration 26. Where grandparents had created 45 trusts for 12 grandchildren at the same time, what is tax treatment?

Solution: Creation of multiple trusts at the same time for similar benefit was held to be not genuine. The entire income was held to be assessable in the hands of an Association of Persons. The better solution was to assess the settlors on the finding that the trusts were not genuine.

ILLUSTRATIONS ON ASSESSMENT OF COOPERATIVE SOCIETIES

Illustration 27. Dinesh Pally Cooperative Society Ltd. furnishes the following particulars of its income for the Previous Year ended on 31st March 2014:

(i)	Interest on Government securities	40,000
(ii)	Profits from banking business	3,50,000
(iii)	Income from purchase and sale of agricultural implement and seeds to its members	2,50,000
(iv)	Income from marketing of agricultural produce of its members	4,00,000
(v)	Profits and gains of business	2,20,000
(vi)	Income from cottage industry	3,50,000
(vii)	Interest and dividends (gross) from other cooperative societies	30,000

Compute Total Income of the society and calculate the Tax Payable by it for the Assessment Year 2014-2015.

Solution : Dinesh Pally Cooperative Society Ltd.

Computation of income of the for the Previous Year 2013-2014 relating to the Assessment Year 2014-2015 :

Particulars	₹	₹
1. Profits and Gains of Business or Profession:		
(a) Banking business	3,50,000	
(b) Income from purchase and sale of agricultural implements and seeds to its members	2,50,000	
(c) Income from marketing of agricultural produce of its members	4,00,000	
(d) Profits and gains of business	2,20,000	
(e) Income from cottage industry	<u>3,50,000</u>	15,70,000
2. Income from Other Sources:		
(a) Interest on Government securities	40,000	
(b) Interest and dividends from other cooperatives	<u>30,000</u>	<u>70,000</u>
Gross Total Income		16,40,000
Less: Deduction allowable from gross total income under Sec. 8OP		
1. Banking business [Assumed it is a Rural Development Bank]	3,50,000	
2. Income from purchase and sale of agricultural implement and seeds to its members	2,50,000	
3. Income from marketing of agricultural produce of its members	4,00,000	
4. Income from cottage industry	3,50,000	
5. Interest on Government securities(not eligible for deduction)	Nil	
6. Interest and dividends from other cooperative societies	<u>30,000</u>	<u>13,80,000</u>
Total Income		2,60,000

Computation of Tax Liability :

Particulars	Rate	₹
On first ₹ 10,000	10%	1,000
On next ₹ 10,000	20%	2,000
On balance ₹ 2,40,000	30%	<u>72,000</u>
Income Tax Payable		75,000
Add: Education cess @ 2%		1,500
Add: SHEC @ 1%		750
Tax Payable		77,250

Note: It is assumed that the provisions of Alternate Minimum Tax are not applicable.

Illustration 28. A co-operative society, engaged in the business of banking, seeks your opinion by the matter of eligibility of deduction under Sec. 80P on the following items of income earned by it during the year ended 31-3-2014.

- (i) Interest on investment in Government securities made out of statutory reserves
- (ii) Hire charges of safe deposit lockers.

Solution : From the Assessment Year 2008-2009 and onward, no deduction is allowed under Sec. 80P to any cooperative bank. However, a primary agricultural credit society or primary cooperative agricultural and rural development bank is outside the purview of this provision [Sec. 80P(4)].

Illustration 29. A cooperative society was engaged in the business of banking or providing credit facilities to its members. It sold goods on credit to its members. Is the cooperative society entitled to special deduction under Sec. 80P(2)(a)(i) in respect of income derived from such an activity?

Solution : Society is not entitled to the special deduction under Sec. 80P(2)(a)(i).

ILLUSTRATIONS ON ASSESSMENT OF INDIVIDUAL

Illustration 30. Salil was running a business. He died on 20th December, 2013, leaving behind his wife Sruti and two minor sons - Sampat and Samar. He did not have any will. Sruti is running the business for and on behalf of herself and the minor children. Salil owned two house properties. Discuss how the rental income and the business income of the financial year 31st March, 2014 will be assessed and in whose hands.

Solution: Section 159 provides that if an assessee dies during the Previous Year, the income of the period beginning from the commencement of Previous Year and ending with the date of death is taxable in the hands of the legal representative as if the assessee had not died. Therefore, the business profits and the rental income accruing from 1st April, 2013 to 20th December, 2013 will be assessable in the hands of the legal representatives. Sruti represents the estate and hence is liable to be assessed as the legal representative of Salil.

Business profits and rental income arise from 21st December, 2013 to 31st March, 2014: As far as rental income is concerned, it will be assessed as income of Sruti, Sampat and Samar according to their shares.

According to provisions of Hindu Succession Act, when a male Hindu dies intestate, his estate will devolve on the heirs mentioned in the Schedule by succession and not by survivorship. Hence, the widow and minor children became co-owners and Section 26 will apply since the respective shares are definite and ascertainable. The rental income will be divided into three parts. However, income of Sampat and Samar will be clubbed with income of Sruti by virtue of section 64(1A).

As far as business profit is concerned, the Andhra Pradesh High Court in Deccan Wine and General Stores vs. CIT [1977] 106 ITR 111 has held on similar facts that it is to be assessed in the status of Body of Individuals.

Illustration 31 : Ria, Gia and Ira are persons ,aged 30 years, 34 years and 35 years respectively, of Indian origin, though their residential status is non-resident. During the Previous Year relevant for the Assessment Year 2013-14, their income from investment in India is as follows:

Particulars	Ria ₹	Gia ₹	Ira ₹
a. Interest on deposits with public limited companies received on March 31, 2014	35,000	80,000	1,50,000
b. Interest on Government securities received on December 31, 2013	2,25,000	2,20,000	2,70,000
c. Interest on deposits with private limited companies on September 30, 2013	Nil	1,00,000	8,80,000
Tax deducted at source, i.e., @ 20.6 per cent in respect of foreign exchange assets (a) and (b); and @ 30.9 per cent in respect of (c)	53,560	92,700	3,58,440

Determine the amount of tax liability/refund for the Assessment Year 2014-15. Also discuss whether the assessee should opt under section 115-I, i.e., not to be governed by provisions of sections 115C to 115-I.

Solution: Tax liability if the assessee opts under section 115-I, not to be governed under the provisions of sections 115C to 115-I:

Particulars	Ria ₹	Gia ₹	Ira ₹
Gross Total Income [(a) + (b) + (c)]	2,60,000	4,00,000	13,00,000
Less: Deduction	<u>Nil</u>	<u>Nil</u>	<u>Nil</u>
Net Income	<u>2,60,000</u>	<u>4,00,000</u>	<u>13,00,000</u>
Tax	6,000	20,000	2,20,000
Add: Education Cess	120	400	4,400
Add: Secondary and Higher Secondary Education Cess	<u>60</u>	<u>200</u>	<u>2,200</u>
	6,180	20,600	2,26,600
Less: Tax Deduction at Source	<u>53,560</u>	<u>92,700</u>	<u>3,58,440</u>
Final tax liability/(-)refund	<u>(-)47,380</u>	<u>(-)72,100</u>	<u>(-)1,31,840</u>
Tax liability if provisions of sections 115C to 115-I are applicable:			
Income from foreign exchange assets eligible for provisions of sections 115C to 115-I [i.e., (a) + (b)]	2,60,000	3,00,000	4,20,000
Tax on income from foreign exchange assets [i.e., @ 20.6% in the case of Ria, Gia and Ira] (1)	<u>53,560</u>	<u>61,800</u>	<u>86,520</u>
Other Income [i.e., (c)]	Nil	1,00,000	8,80,000
Less: Deduction	<u>Nil</u>	<u>Nil</u>	<u>Nil</u>
Taxable Income	<u>Nil</u>	<u>1,00,000</u>	<u>8,80,000</u>
Tax	Nil	Nil	1,06,000
Add: Education Cess	Nil	Nil	2,120
Add: Secondary and Higher Secondary Education Cess	<u>Nil</u>	<u>Nil</u>	<u>1,060</u>
Tax on Other Income (2)	<u>Nil</u>	<u>Nil</u>	<u>1,09,180</u>
Tax liability [i.e., (1) + (2)]	53,560	61,800	1,95,700
Less: Tax Deducted at Source	<u>53,560</u>	<u>92,700</u>	<u>3,58,440</u>
Final tax liability/(-)refund	Nil	(-)30,900	(-)1,62,740

Note: in the problem given above, Ria and Gia should opt under section 115-I (i.e., not to be governed by special provisions of sections 115C to 115-I) by furnishing return of income under section 139. Ira should take the benefit of special provisions of sections 115C to 115-I.

Illustration 32 : From the Profit and Loss Account of Ms. Alo of 36 years old for the year ended March 31, 2014, ascertain her Total Income and Tax liability for the Assessment Year 2014 -15:

Particulars	₹	Particulars	₹
General Expenses	13,500	Gross Profits	3,17,000
Bad debts	22,000	Commission	8,800
Advance Tax	3,000	Brokerage	37,000
Insurance	800	Sundry receipts	2,500
Printing & Stationery	1,200	Bad debt recovered (earlier allowed as deduction)	11,000
Salary to Staff	27,000	Interest on debentures (i.e., net amount ₹18,000 + tax deducted at source : ₹ 2,000)	20,000
Salary to Alo	51,000	Interest on deposit with a company (non – trade) (net interest : ₹ 13,500 + tax deducted at source : ₹ 1,500)	15,000
Interest on Overdraft	4,000		
Interest on loan to Chandra	41,000		
Interest on capital of Alo	22,000		
Depreciation	48,000		
Advertisement expenditure	7,000		
Contribution to employees' Recognized Provident Fund	7,800		
Net Profit	1,63,000		
	4,11,300		4,11,300

Other Information:

1. The amount of depreciation allowable is ₹ 45,000 as per the Income Tax Rules. It includes depreciation on permanent sing board.
2. Advertisement expenditure includes ₹ 2000, being cost of permanent sing board fixed on office premises.
3. Income of ₹ 2500, accrued during the Previous Year, is not recorded in the Profit and Loss Account.
4. Alo pays ₹ 9000 as premium on own life insurance policy of ₹ 1,00,000.
5. General expenses include:
 - (a) ₹ 1,500 given to sister for arranging a party in her birthday party
 - (b) ₹ 1,000 being contribution to a political party.
6. Loan was taken from Chandra for payment of arrears of Income – tax.

Solution :**Assessee : Ms. Alo****Previous Year : 2013-2014****Assessment Year : 2014-2015**

Particulars	₹	₹
Net profit as per Profit & Loss Account		1,63,000
Add: Inadmissible expenses:		
Expenses for arranging personal party	1,500	
Contribution to a political party	1,000	
Advance tax	3,000	
Salary to Alo	51,000	
Interest on capital to Alo	22,000	
Interest on loan taken for payment of Income-tax	41,000

Note :

Provisions of Alternate Minimum Tax are not applicable.

Illustration 34. The total income of Mina for the assessment year 2014-15 is ₹1,01,30,000. Compute the tax payable by Mina for the assessment year 2014-15.

Solution:

Particulars		₹
Tax on ₹1 crore		Nil
On first ₹2,00,000		
Next ₹3,00,000 — 10%		30,000
Next ₹5,00,000 — 20%		1,00,000
Balance ₹90,00,000 — 30%		<u>27,00,000</u>
		28,30,000
Tax on ₹ 1,30,000 which is above ₹1 crore		<u>39,000</u>
₹ 1,30,000 @ 30%		
Total tax		28,69,000
Additional income above ₹ 1 crore	1,30,000	
Tax payable	39,000	
Balance income	91,000	
Surcharge on ₹28,69,000 @ 10% — ₹2,86,600		
∴ surcharge in this case shall be ₹91,000 or ₹2,86,900 whichever is less due to marginal relief		91,000
Tax including surcharge		29,60,000
Add: Education cess & SHEC @ 3%		88,800
Tax Payable		30,48,800

Alternatively:

Particulars		₹
Tax on ₹ 1,01,30,000		Nil
On first ₹2,00,000		
Next ₹3,00,000 — 10%		30,000
Next ₹5,00,000 — 20%		1,00,000
Balance ₹91,30,000 — 30%		<u>27,39,000</u>
		28,69,000
Add : Surcharge @ 10%		<u>2,86,900</u>
	(a)	<u>31,55,900</u>
Tax on ₹ 1,00,00,000		28,30,000
Add : Income over ₹ 1 crore		<u>1,30,000</u>
	(b)	<u>29,60,000</u>
Tax [(a) or (b) whichever is lower]		29,60,000
Add : Education Cess is SHEC @ 3%		88,800
Tax Payable		30,48,800

ILLUSTRATIONS ON ASSESSMENT OF HUF

Illustration 34. The following details have been supplied by the Karta, of an HUF aged 62 years. You are required to compute its total income and tax liability for the Assessment Year 2014-2015.

Particulars	₹
(i) Profits from business (after charging ₹ 1,00,000 salary to Karta for managing the business)	15,00,000
(ii) Salary received by the member of a family	60,000
(iii) Director's fee received by Karta from B Ltd where HUF holds 20% shares but he became director because of his qualifications,	40,000
(iv) Rental income from house property (after deduction of municipal taxes ₹12,000)	78,000
(v) Dividends (gross) from Indian companies	15,000
(vi) Long-term Capital Gain	80,000
(vii) Short-term Capital Gain	30,000
(viii) Donation to a school, which is an approved institution	1,00,000
(ix) Deposits in Public Provident Fund	20,000
(x) NSC-VIII issues purchased	40,000

Solution: Computation of Total Income for the A.Y. 2014-15

Particulars	₹	₹
(i) Income from House Property: Gross annual value (₹ 78,000 + ₹ 12,000) Less: Municipal Taxes paid Annual value Less: Statutory deduction: 30% × 78,000	90,000 <u>12,000</u> 78,000 <u>23,400</u>	54,600
(ii) Profits and gains from business		15,00,000
(iii) Capital Gains (a) long-term + (b) short-term		1,10,000
(iv) Income from other sources—gross dividends from Indian companies: Exempt [Sec. 10(34)]		<u>Nil</u>
Gross Total Income		16,64,600
Less:		
1. Contribution to approved savings (Sec. 80C)		
(i) Deposits in Public Provident Fund	20,000	
(ii) NSC-VIII Issue	<u>40,000</u>	
2. Donation to recognised school:	60,000	
(a) Actual donation: ₹ 1,00,000 or		
(b) 10% of adjusted total income = (Gross Total Income – Long Term Capital Gains – All deductions under Chapter VIA excluding Sec. 80G) of ₹ 15,24,600 (16,64,600 - 80,000 - 60,000) whichever is less, is qualifying amount.		
Amount of deduction: 50% of ₹ 1,00,000	<u>50,000</u>	<u>1,10,000</u>
Total Income		15,54,600

Computation of Tax Liability:

Particulars of total income	Rate of income tax		₹
	₹	₹	
(a) Long-term Capital Gain	80,000	20%	16,000
(b) Balance of total income: ₹ 14,74,600			
(i) First	2,00,000	Nil	—
(ii) Between 2,00,000 – 5,00,000	3,00,000	10%	30,000
(iii) Between 5,00,000 – 10,00,000	5,00,000	20%	1,00,000
(iv) Between 10,00,000 – 14,74,600	4,74,600	30%	1,42,380
Gross Income Tax			2,88,380
Add: Education cess @ 2% on income tax			5,768
SHEC @ 1% on income tax			2,884
Tax Payable			2,97,032
Rounded off u/s 288B			2,97,030

Note : Assumed applicability conditions of AMT are not satisfied and hence, AMT provisions are not applicable.

Illustration 35. Prem was the Karta of HUF. He died leaving behind his major son Anand, his widow, his grandmother and brother's wife. Can the HUF retain its status as such or the surviving persons become co-owners?

Solution: Income-tax law does not require that there should be at least two male members to constitute an HUF [Gowli Buddanna vs. CIT (1966) 60ITR 293 (SC)]. The expression "Hindu Undivided Family" used in the Act should be understood in the sense in which it is understood under the Hindu personal law. The expression "Hindu Undivided Family" under the Income-tax Act is known as "Joint Hindu Family", under the Hindu personal law. A 'Joint Family' may consist of a single male member and the widows of the deceased male members. The property of the Hindu joint family does not cease to be an HUF property merely because that the HUF, consist of one male member at a given point of time, exercising the proprietary rights over the property of HUF property.

Illustration 36. J (HUF) was the owner of a house property, which was being used for the purposes of a business carried on by a partnership firm JC & Co. in which the Karta and other members of the HUF were partners in their individual capacity. The Assessing Officer proposes to assess the annual letting value of the said property as the HUF's income from house property. The HUF contends that the building was used for business purposes and, therefore, the annual letting value thereof was not taxable in its hands as income from house property under Sec. 22. Examine the rival contention.

Solution: Section 22 directs not to tax the annual value of a house property which is used by the owner for his business profession, the profits of which are chargeable to tax. In the instant case, the HUF is not using its property for its business. The Karta of the Hindu undivided family and other members of the HUF are partners in the firm in their personal capacity. They have not joined the partnership on behalf of the HUF. Therefore, it cannot be said that the HUF property was being used by the HUF for its business. Hence, the Assessing Officer is justified to tax the income of the HUF property as income from "House Property".

Illustration 37. J.Hazra was the Karta of a Hindu Undivided Family which was assessed to income tax. He died in an air crash and his two sons received ₹ 8 lakhs as compensation and ₹ 6 lakhs from the insurance company. The said amount of ₹ 14 lakhs was invested in units. The assessee claims that the income from these units is assessable as income of the Hindu Undivided Family composed of his sons and their families. Discuss.

Solution: The right to receive compensation and insurance claim did not vest in the assessee during his life-time. It came into existence only after his death. The income from investment and compensation would be personal income of the assessee [CIT vs. L. Bansi Dhar & Sons (1980) 123 ITR 58 (Del.)].

Illustration 38. C, the Karta of a Hindu Undivided Family, was appointed as the treasurer of a private sector bank on his furnishing security of the family property valued at ₹ 3,00,000, as required by the service rules of the bank. C does not own any self-acquired property.

- (i) Discuss how the remuneration of C as the treasurer should be assessed.
- (ii) Will your answer be different if C had joined a partnership firm as a partner by contributing family funds of ₹ 30,000.

Solution:

- (i) Remuneration from bank cannot be treated a return on the security of family property, pledged with the bank to secure the continuity of service. It cannot be treated as income of the HUF.

Remuneration is a compensation for services rendered by C, in his personal capacity on account of personal qualifications. C is assessable on remuneration as income from "salary". He can claim standard deduction under Sec. 16.

- (ii) Membership of partnership has been obtained because of HUF funds and not because of personal skill or qualification of C. Therefore, any income from partnership firm will be treated as income of the HUF.

Illustration 39. Ordinarily a partition means that a separated member ceases to belong to the joint family. Does a female member cease to be a member of the joint family because of the concept of the notional partition introduced by the Hindu Succession Act, 1956?

Solution: No. There was such a misapprehension because of the decision of the Supreme Court in the case of G.K. Magdum vs. H.K. Magdum (1981) 129 ITR 440 (SC) holding that there is a deemed partition on the death of a coparcener, when there is a female heir with right to his share of the joint family property. But it was pointed out in State of Maharashtra vs. Narayan Rao Sham Rao Deshmukh (1987) 163 ITR 31 (SC) that unless it is given effect HUF will be deemed to continue with all the assets. The share is ascertained, but there is no partition unless there is exercise of such right on the part of the female member.

The Supreme Court judgment in State of Maharashtra vs. Narayan Rao Sham Rao Deshmukh (1987) 163 ITR 31 (SC) was followed in the context of capital gains in CIT vs. Vishwas D. Ranade (2004) 266 ITR 730 (Bom.).

Illustration 40. Can a partitioned family be reunited?

Solution: Yes. It can be done as between the members who were parties to the original partition in respect of all the properties covered by it.

Illustration 41. In levying wealth tax on the family, can the share of the female heir be excluded?

Solution: No. Following Gurupad Khandappa Magdum vs. Hirabhai Khadappa Magdum ((1981) 129 ITR 440 (SC) it was though that on the death of a coparcener, there is a notional partition, which could be given effect. But the subsequent decision in State of Maharashtra vs. Narayan Rao Sham Rao Deshmukh (1987) 163 ITR 31 (SC), it was clarified, that the share can be taken out only on actual partition by metes and bounds.

Illustration 42. Can voluntary foregoing be taken as partition?

Solution: No. There should be a division by metes and bounds. Where an assessee agreed to have only a life interest with a charge to the son, and wife, it was held, that a voluntary charge will not amount to partition. Consequently, the charge was held to be not deductible in computing property income [CIT vs. Satyanarayana Sikaria (1999) 238 ITR 855 (Gau)].

Illustration 43. Can partition be oral?

Solution: The Supreme Court, no doubt, held that partition could be oral in *Hans Raj Agarwal vs. Chief CIT* (2003) 259 ITR 265 (SC). But in practice, it is reduced to writing, when it required registration. But a family arrangement entered into orally but later reduced to writing will not require registration *CIT vs. R. Ponnammal* (1987) 164 ITR 706 (Mad) following the Supreme Court decision in *Kale vs. Dy. Director of Consolidation*, AIR 1976 SC 807.

Illustration 44. Can the status be disturbed in reassessment proceedings, where it had been accepted in the original assessments?

Solution: No. The status has been accepted after due enquiries in the original assessments. The status cannot be changed in the reassessment.

Illustration 45. X and Y, two brothers, constituted an HUF. Y died. X was an issueless widower. There were no other persons entitled to any claim upon the stage, nor were there any widows or other female members of the family with rights to maintenance. In his return of wealth, X claimed his status to be that of HUF. Is the claim correct?

Solution: No. The property in the hands of a sole surviving coparcener of an HUF has to be assessed as the property of an individual [*Ramachandra Rao (K.R.) vs. CWT* (1963) 48 ITR 959 (Mad.)].

In view of the observations of the Supreme Court in *Krishna Prasad vs. CIT* (1974) 97 ITR 493 (SC) to the effect that a family signifies a group and it is essential therefore that there should be plurality of persons to constitute a family, a single male member cannot be treated as an HUF.

However, as pointed out by the Allahabad High Court in the case of *Prem Kumar vs. CIT* (1980) 121 ITR 347 (SC) HUF will come into existence when the sole surviving coparcener marries or even when he adopts a child.

Illustration 46. Does an inherited property always entail assessment as HUF?

Solution: There is a distinction between a joint family and coparcenery. Coparceners in *Mithakshara* have a right in property by birth. Others, particularly females, have other rights like maintenance, etc., though these rights have been enhanced by successive legislation.

Though there is a single coparcener, there can be joint family with other members.

Illustration 47. Is it open to a female member to convert her property to that of a joint family of which she is a member?

Solution: No. The Supreme Court has held in *Pushpa Devi vs. CIT* (1977) 109 ITR 730 (SC) that it is not possible under the Hindu Law. There is, however, no prohibition against her giving a gift to joint family as long as she makes her intention clear that the gift is to the Hindu Undivided Family.

Illustration 48. What is meant by "potential HUF"?

Solution: An individual who receives family assets by partition or survivorship is an individual and assessable for income-tax purposes as an individual. Since it is generally accepted that he can assume the role of karta of a Hindu Undivided Family on his marriage in respect of such property, he is known as potential HUF, not assessable as HUF till marriage.

Illustration 49. When a Hindu throws his assets in common hotchpot, what is the tax incidence?

Solution: The income of joint family arising out of blending will continue to be treated as belonging to him because of the clubbing provision under section 64. Even after partition of such family, the income from such converted assets to the extent to which it is allotted to wife will be treated as belonging to him. Gift tax having been abolished, there is no gift tax implication for transfers made on or after 1st October 1998.

Illustration 50. A Hindu Undivided Family, which was not earlier assessed had disrupted by severance of interests of coparceners without division by metes and bounds. Is it open to the Assessing Officer to treat the same as HUF?

Solution: No. It is because an order recognising partition u/s 171 is not necessary for an HUF, which has not been "hitherto assessed". Since it had already disrupted within the meaning of Hindu Law, assessment can be made only in the hands of members of their respective shares.

Illustration 51. Is it open to the Assessing Officer to keep an application for partition under section 171 open without disposal and continue to make assessment on HUF on the ground that no order has been passed recognising partition so as to enable separate assessments?

Solution: No. The Supreme Court in *Kapurchand Shrimal vs. CIT* (1981) 131 ITR 451 (SC) held that such assessment will not be valid and it has to be set aside so that assessment can be made in conformity with the order under section 171, which the Assessing Officer is bound to pass in accordance with law.

Illustration 52. Does a married daughter still remain a coparcener/member of the HUF of paternal side after she becomes a member of her husband's or father-in-laws HUF?

Solution: A daughter on her marriage ceases to be a member of her father's family and becomes the member of the family of her husband. She cannot be a member of both the families. She had never been a coparcener in her father's family nor will she become one in her husband's family. Her right under Hindu Law is confined to maintenance but Hindu Succession Act, 1956 gives her a right equal to the share of her brother in respect of an individual property of father and the share of her father is the joint family property.

Illustration 53. Can there be multiple HUF besides individual status for a person?

Solution: There can be more than one HUF. There can be even three families, for example, a person can be a member of a larger family of which the grandfather is the karta, while he may be a member of the smaller family with his father as karta, the smaller family having been formed by partial partition or by will or by gift or blending. He can be a karta of a third family with himself as karta, if he were married, with his wife and children, if any. At the same time, he can have individual status as well.

ILLUSTRATIONS ON ASSESSMENT OF FIRM / LLP

Illustration 54: R (29 years) and S (28 years) are two partners of R&S Co. (a firm of Cost Accountants). On March 31, 2013, there is no provision for payment of salary and interest to partners. On April 1, 2013, the deed of partnership has been amended to provide salary and interest as follows:

Particulars	R	S
Salary	₹ 21,000 per month	₹ 23,000 per month
Interest	14 per cent per annum	14 per cent per annum

The Income and Expenditure Account of R&S Co. for the year ended March 31, 2014 is as follows:

Particulars	₹	Particulars	₹
Office Expenses	2,59,000	Receipt from clients	10,57,000
Salary to employees	80,000	Interest recovered from R and S on drawings	3,000
Income tax	41,000		
Salary to R	2,52,000		
Salary to S	2,76,000		
Interest on capital to R @ 14% p.a.	14,000		
Interest on capital to S @ 14% p.a.	21,000		
Net Profit (shared by R and S equally as per the terms of partnership deed)	1,17,000		
	10,60,000		10,60,000

Other Information:

- Out of office expenses, ₹ 19,000 is not deductible by virtue of sections 30 to 37.
- During the year the firm sells a capital asset for ₹ 8,10,000 (indexed cost of acquisition being ₹ 1,88,865).
- Personal income and investments of partners are as follows:

Particulars	R ₹	S ₹
Interest from Government securities	5,70,000	5,23,000
Fixed Deposit interest	2,00,000	1,08,000
Deposit in public provident fund	1,00,000	85,000
Mediclaim insurance premium	12,000	11,000

Find out the net income and tax liability of the firm as well as the partners for the Assessment Year 2014-15.

Solution :

Particulars	₹	₹

Add: Secondary and Higher Secondary Education Cess (1% of tax)	<u>1,133</u>	<u>945</u>
Tax liability (rounded off)	<u>1,16,652</u>	<u>97,382</u>

Note: Interest recovered from partners is fully taxable.
Provisions of Alternate Minimum Tax are not applicable in the above cases.

Illustration 55 : Bebo and Lolo are partners in a partnership firm, K & Co. They share profit at a ratio of 1:4. The firm is engaged in the business of civil construction. The Profit and Loss Account of the firm for the year ended March 31, 2014 is as follows:

Particulars	₹	Particulars	₹
Opening stock of raw material	1,12,200	Sales turnover	48,90,400
Depreciation	2,56,400	Rent of a godown	60,000
Salary to employees	1,65,000	Interest on company deposits	1,86,800
Purchase of raw material	33,12,000	Closing stock of raw material	6,12,600
Interest on loan taken for business purposes	76,400		
Travelling expense	27,200		
Entertainment expense	12,500		
Advertisement expenses	33,700		
Other expenses	4,15,000		
Municipal tax and insurance (₹ 8,000 + ₹ 1,600) of godown	9,600		
Salary to partners as per partnership deed			
Bebo	2,28,000		
Lolo	2,40,000		
Interest to partners as per partnership deed @ 20 per cent p.a.			
Bebo	20,000		
Lolo	60,000		
Net Profit	7,81,800		
	5,74,9800		5,74,9800

Other Information:

- Out of other expenses debited to P&L A/c ₹ 15,700 is not deductible under section 37(1).
- Out of travelling expenses ₹ 7,500 is not deductible under section 37(1).
- On April 1, 2013, the firm owns the following depreciable assets:
Block 1 – Plants 1 and 2, depreciated value: ₹ 4,70,000, rate of depreciation : 15%.
Block 2 – Plants 3 and 4, depreciated value : ₹ 5,20,000, rate of depreciation : 30%.
On January 1, 2014, the firm sells Plant 4 for ₹ 8,90,000 and purchases Plant 5 (rate of depreciation 15%) for ₹ 4,00,000.
- The firm gives a donation of ₹ 1,50,000 to a notified charitable institute which is included in other expenses.

The firm wants to set off the following losses brought forward from earlier years:

Particulars	Assessment Years	
	2012-13 ₹	2011-12 ₹
Business	25,000	—
Capital Loss (short-term)	5,000	3,000

Income of partners Bebo and Lolo is as follows:

Particulars	Bebo ₹	Lolo ₹
Interest on Fixed Deposits	5,36,000	8,20,000
LIC Premium paid (Capital Sum Assured is more than 10% of Premium paid)	50,000	80,000

Firm wants to pay tax under section 44AD. Find out the net income and tax liability of the firm and partners for the Assessment Year 2014-15 on the assumption that –

- Conditions of sections 184 and 40(b) are satisfied; and
- Conditions of section 184 and/or section 40(b) are not satisfied.

Solution:

Particulars	Situation (a): When conditions of sections 184 and 40(b) are satisfied ₹	Situation (b): When conditions of Section 184 and/or 40(b) are not satisfied ₹

Note : (i) Provisions of Alternate Minimum Tax are not applicable in the above cases.

(ii) Bebo & Lolo are assumed to be resident during the previous year.

Illustration 56 : A, B and C are three partners (3: 3: 4) of ABC & Co., a LLP engaged in manufacturing leather goods and it has agencies of different companies. The Profit and Loss Account of the LLP for financial year ended March 31, 2014 is as follows:

Particulars	₹	Particulars	₹
Cost of goods sold	7,90,000	Sales	21,22,000
Salary to staff	7,80,000	Long-term Capital Gains	3,00,000
Depreciation	2,50,000		
Remuneration to Partners :			
A	1,92,000	Short-term Capital Gain under section 111A	55,000
B	96,000	Other Short-term Capital Gain	65,000
C	1,80,000	Fixed deposit interest	50,000
Interest on capital to partners		Other business receipts	2,000
A	17,000	Interest on drawings recovered from A	16,000
B	30,000		
C	40,000		
Other expenses	1,65,000		
Net Profit:			
A	21,000		
B	21,000		
C	28,000		
	26,10,000		26,10,000

Other information:

1. The LLP satisfies conditions of sections 184 and 40(b).
2. The LLP is not eligible for deduction under section 80-IA/80-IB.
3. The LLP has given donation of ₹ 70,000 to a notified public charitable trust which is not debited to the Profit and Loss Account.
4. Up to March 31, 2013, there is no provision in the partnership deed to pay remuneration to partners. The deed is amended on April 1, 2013 to pay remuneration/interest to partners as under:

Particulars	Remuneration ₹	Interest on capital ₹
A	16,000 per month	17 per cent simple interest
B	8,000 per month	15 per cent simple interest
C	15,000 per month	20 per cent simple interest

5. Depreciation as per section 32 comes to ₹ 95,000
6. Other expenses to the tune of ₹ 65,000 is not deductible under sections 30 to 43D.
7. For the Assessment Years 2012-13 and 2013-14, the firm has assessed business loss of ₹ 30,000 and Long-term Capital Loss of ₹ 15,000 (which has not been set off so far).

Solution :

Particulars	₹
Computation of remuneration deductible under section 40(b)

- Provisions of Alternate Minimum Tax are not applicable in the above cases.

Illustration 57 : The following is the Profit and Loss Account for the year ended 31.3.2014 of XYZ (LLP) having 3 partners :

Profit and Loss Account

Particulars		₹	Particulars	₹
Establishment & other expenses		45,50,000	Gross Profit	69,20,000
Interest to partner @ 15%			Rent from house property	1,60,000
X	90,000		Interest on Bank deposits	20,000
Y	1,20,000			
Z	60,000	2,70,000		
Salary to designated partners				
X	2,40,000			
Y	1,80,000	4,20,000		
Net Profit		18,60,000		
		71,00,000		71,00,000

The LLP is eligible for 100% deduction under section 80-IC as it is established in notified area in Himachal Pradesh.

Compute the tax payable by the Limited Liability Firm.

Solution :

Computation of Total Income of XYZ (LLP) for the A.Y. 2014-15

	₹	₹	₹
<i>Income under the head House Property</i>			
Actual Rent		1,60,000	
Less : Deduction 30%		<u>48,000</u>	1,12,000
Business Income			
Net Profit as per P&L A/c		18,60,000	
Less : Income credited but either exempt or taxable under other head			
Rent	1,60,000		
Interest on bank deposit	<u>20,000</u>	<u>1,80,000</u>	
		16,80,000	
Add : Expenses disallowed			
Interest to partners in excess of 12% [i.e. 3/15×2,70,000]	54,000		
Salary to partners	<u>4,20,000</u>	<u>4,74,000</u>	
Book Profit		21,54,000	
Less : Salary as per section 40(b) (See working note)		<u>4,20,000</u>	17,34,000
Income from Other Sources			<u>20,000</u>
Gross Total Income			18,66,000
Less : Deduction under section 80-IC		17,34,000	
Deduction under section 80TTA [Assumed Savings Account]		<u>10,000</u>	17,44,000
Total Income			<u>1,22,000</u>

Regular income tax payable on Total Income

Total Income of ₹ 1,22,000 @ 30% 36,600

Adjusted Total Income

Total Income 1,22,000

Add : Deduction u/s 80-IC 17,34,000

18,56,000

Alternate Minimum Tax (AMT) 18.5% on ₹ 18,56,000 = ₹ 3,43,360

Hence, adjusted total income shall be total income and the tax (payable shall be the Alternate Minimum Tax) i.e. on ₹ 18,56,000 @ 18.5% + 3% (EC + SHEC).

Tax Payable

	₹
Alternate Minimum Tax 18.5% on ₹ 18,56,000	3,43,360
Add : 3% Education Cess & SHEC	10,301
	3,53,661
Rounded off	3,53,660
Working Note:	
Book Profit	21,54,000
Maximum salary allowed	
First 3,00,000 of book profit — 90%	2,70,000
Balance ₹ 18,54,000 of book profit 60%	11,12,400
	13,82,400

Salary allowed shall be ₹ 13,82,400 or ₹ 4,20,000 whichever is lower i.e. ₹ 4,20,000.

AMT Credit of ₹ 3,15,963 (3,53,661 – 37,698) is available which can be carried forward for ten Assessment Years.

Illustration 58. At the time of becoming a partner in the firm of M/s. XYZ, X brings in his house property as his share of capital in the firm. Does such bringing in of immovable property to the stock require registration u/s 17(1)(b) of the Registration Act?

Solution: Where the property is brought in as capital during formation of partnership deed, there is no transfer at all within the meaning of the Transfer of Property Act, 1882, but u/s 14 of the Partnership Act 1932. Therefore, even if a property brought in by one partner be an immovable property, no document registered or otherwise, is required for transferring the property to the partnership [CIT vs. Royal Amber Resorts (1987) 164 ITR 311 (Raj.)].

Illustration 59. A firm consisting of four partners purchased a plot of land. The plot was all through treated as the property of the firm. By an agreement between the partners, the said plot was taken out of the partnership by crediting the plot account at the book value and debiting the partner's capital account in equal proportion in the books of the account of the firm. The plot was subsequently sold and capital gains offered by tax in the hands of partners? Is it valid?

Solution: The capital gains is rightly assessable in the hands of the firm as the entries made in the books of account, the partners had not legally and effectively taken out the immovable property of the firm from its ownership and vested the same in the partners. The transfer could not have been affected to partners without a registered document on 15.6.1976. Since the firm alone is liable to capital gains tax, assessment of partners is not valid [CIT vs. J.M. Mehta & Bros. (1995) 214 ITR 716 (Bom)].

Illustration 60. An assessee entered into a partnership with a company giving the company 50% interest in her business of purchase and sale of lands, though the company did not bring any capital. No business in sale and purchase of land was conducted by the firm. Within three months of its formation, the assessee retired from the firm with the lands taken over by the company with the assessee being given shares equivalent to the balance in her capital account. The Assessing Officer held that there was no genuine partnership, that the transaction had shown that the assessee had received the value of her land and the transaction of transfer of land was subject to capital-gains. Whether the decision of the Assessing Officer is valid in law?

Solution: The decision of the Assessing Officer is valid in law. The true nature of the transaction was "transfer of land" and the various steps in the process of leaving the land with the company were nothing but a device to avoid capital gains tax leviable u/s 45 of the Act. Hence capital gains tax is leviable [Nayantara G. Agarwal vs. CIT (1994) 207 ITR 639 (Bom)].

If a firm is formed merely to dissolve it, so as to affect a transfer by adopting the procedure under

partnership law, the transaction becomes colourable and is, therefore, liable to be discarded. As long as there was an intention of dissolving the firm at the time of its formation, such inference that the transaction is colourable may well follow.

Illustration 61. The purpose of constituting a firm was for construction and letting out godowns. The Assessing Officer had taken the view that since partnership can be only for carrying on a business, there is no business in deriving income from property and that therefore the firm is not entitled to be treated as a firm so as to require registration when registration procedure was in vogue. Even after the registration procedure has been dropped, is it possible to treat it as a firm and not required to be treated as association of persons?

Solution: Business for the purpose of partnership law is different from the concept under Income Tax Law, which requires income from property even in the hands of a property dealer to be treated as property income and not business income. Kerala High Court in CIT vs. George Oommen & Co (2001) 247 ITR 574 (Ker) has pointed out that the heads of income for income-tax purposes have no relevance in deciding whether there is business under Partnership Law. But for purposes of General Law and Partnership Law, business has to be understood in wider sense to include every profit making activity. It was so held in Smith vs. Anderson (1880) 29 WR 21 (CA). This difference was pointed out in CIT vs. Veerabhadra Industries (1999) 240 ITR 5 (AP).

In case property is purchased jointly and the property income is shared, it may be difficult to treat the income as from business. But where they are let out to more than one person with intent to make profit by joint activity or to realise surplus on resale, business can well be inferred. Where the partners decide to construct godowns and then let them out, the inference of business would arise more readily. Leasing out a factory may or may not constitute business depending upon the circumstances.

Where the partnership acquired a cotton ginning mill to run it but leased it out, it was decided that there is business and that partnership has to be recognised, in Nauharchand Chananram vs. CIT (1971) 82 ITR 189 (P&H). It was pointed out that leasing is also a business. Similar view was taken in CIT vs. Admiralty Flats Motel (1982) 133 ITR 895 (Mad) and CIT vs. Tirumalai Traders (1999) 238 ITR 661 (AP). The Supreme Court's decision in S.G. Mercantile Corporation P. Ltd. vs. CIT (1972) 83 ITR 700 (SC) has laid down the criteria for holding a property to be treated as a business asset.

Where a property was taken on lease a vast piece of land and derived income by allowing film companies to shoot films and sale of dairy products, the High Court remanded the case for further examination observing that the activities in one single year were not sufficient to hold that the income was from property and other sources. But where a group of persons derived income from rent without any other activity, such group cannot be recognised as a firm even if there be a partnership deed, so as to be entitled to registration [CIT vs. Y. Narayana Murthy (Decd.) (2004) 270 ITR 275 (AP)].

The same view was repeated by the Kerala High Court in Mrs. Grace S. George vs. CIT (1988) 170 ITR 412 (Ker.) and CIT vs. Jacobs (1986) 160 ITR 570 (Ker.). The issue had come up in Thayyil Enterprises vs. CIT (2006) 287 ITR 414 (Ker). But then, the business has to be understood in a wider sense while considering the provisions of Partnership Law. Earning income from leasing out property has been understood to be business.

Illustration 62. Can a minor share loss? If the partnership deed provides for such share, can the firm be recognised as validly formed? Is a fresh deed necessary when the minor attains majority?

Solution: A minor is not competent to contract. He cannot also be made liable for loss except to the limited extent of profits earlier made. Where a partnership deed makes a minor liable for share of loss, such partnership cannot be recognised as a firm for purposes of registration. This was followed in CIT vs. Badri Nath Ganga Ram (2005) 273 ITR 485 (All.). It is not necessary that a fresh partnership should be formed with the erstwhile minor, since he will continue as a partner unless he had expressed his intention otherwise.

Illustration 63. Is it advisable to form an association rather than a firm from tax point of view?

Solution: An association of persons in General Law is not governed by either partnership law nor is it entitled to treatment available for partnership firms. Partnership Law regulates the relationship between

the partners and their mutual rights and obligations, which are well-defined, while an association of persons is governed solely by the terms of agreement between them, all of which may not be anticipated and reduced to writing giving scope for differences. It is better to have an entity known to law. Those who deal with a firm or a company know the liability of the persons with whom they are dealing, so that AOP will find it difficult to borrow or obtain credit. It is because a person, who deals with such association, would feel uncertain of his rights, so that even from business point of view it is not advisable.

Illustration 64. Where there is dissolution of the firm during F.Y. 2012-2013, but distribution of assets in F.Y. 2013-2014, can the dissolved firm be made liable for the tax from A.Y. 2014-2015?

Solution: Dissolution does not end the partnership. It only ends mutual agency. It was so pointed out in CIT vs. Pigot Chapman and Co (1982) 135 ITR 620 (SC). A dissolved firm continues till it is wound up under section 45 of the Partnership Act. Section 189 authorises such assessment.

Illustration 65. What is the liability of a non-working partner as regards liability of firm after dissolution?

Solution: Every partner is jointly and severally liable for the debts of the firm. Intervening dissolution makes no difference. It was so held in Dhanpat Rai Verma vs. TRO (2004) 268 ITR 215 (All).

Illustration 66. Is it necessary to redraft the partnership deed for conversion of firm into Company?

Solution: The need for having minimum of 7 partners in case of conversion cannot be dispensed with, if the object is to get registered as a limited company. Section 565(1)(b) requires that only a company consisting of 7 or more members has a right to get registered as a company under Part-IX of the Companies Act. In order to get registered as a company with limited liability it is necessary that the conditions which go with the requirement of limited liability are made part of the partnership deed itself, the main requirement being that there should be fixed capital for partners with proper sharing ratio corresponding to ratio of capital fixed for the partners. Any other clause which contradicts the concept of fixed capital, as for example, the usual clause that partners will bring in such additional capital as may be required for the purpose of business, may jeopardise registration, since capital is required to be fixed or companies with limited liability. It is in this context that a partnership firm may find it easier to first get registered as a company with unlimited liability and then take steps for converting such company with unlimited liability to one of limited liability by following the procedure u/s 32 of the Companies Act. It is, however, necessary that there should be positive share capital in either case.

Illustration 67. What is better, whether slump sale or severable itemised sale?

Solution: In a slump sale from A.Y. 2000-2001, there is no benefit of indexation, the difference between book value and consideration is assessed. In a severable sale, the Capital Gain of asset has to be computed, so that in respect of long-term assets, benefit of indexation is available. But where the prospect of short-term capital gains is higher because of extent of depreciable assets comprised therein in severable sale, slump sale is preferable. Hence, what is preferable will be a matter to be considered with reference to facts in each case.

Illustration 68. If a slump sale is made by a firm to a company in a manner that the benefit of exemption u/s 47(xiii) is availed and thereafter the company amalgamates with another company, will there be forfeiture of exemption though 50% parity of ownership may not continue?

Solution: It was once thought that amalgamation could not be transfer in view of the decision of the Supreme Court in CIT vs. Rasiklal Maneklal (HUF) (1989) 177 ITR 198 (SC) rendered in the context of Capital Gains Tax under the earlier law in which there was no exemption available for amalgamation. But then the Supreme Court in a recent decision in CIT vs. Grace Collis (2001) 248 ITR 323 (SC) has held that the later extension of the definition of transfer to include extinguishment would mean that amalgamation is also transfer, so as to make the shareholder liable for tax. The fact that amalgamation is expected u/s 47(vi) and (vii) itself shows that it is otherwise a transfer, though not regarded as transfer for the limited purpose of the provision.

Hence, even if the condition of 50% parity is maintained it may still be construed as violation of condition u/s 47(xiii) of the Act and exemption may be lost.

Illustration 69. What are the tests for inferring business to be one as a going concern or a business as a whole in contrast with severable sale? Is it possible to reduce the incidence of tax in these transactions?

Solution: In a sale of business as a whole, transferred as a going concern with all assets and liabilities, the seller will not be able to withdraw any asset while the buyer will not be able to reject any such assets of business. Similarly, the buyer cannot refuse to takeover any liability. Even if it is not so strictly complied with, it may still pass muster as a slump sale, because slump sale is defined in a wider sense, since Explanation-1 to section 2(19AA) would define an undertaking to include any part of an undertaking or a unit or division of an undertaking or a business activity taken as a whole, while ruling out only transfer of individual assets and liabilities or for combination thereof not constituting a business activity. What is implied is that the transferred entity must be a unit capable of being sold as such, though it may be a part of a larger undertaking. Hence a slump sale under Income Tax Law may be of a business activity, while for Sales Tax Law it may include a unit or a division but cannot possibly include a mere business activity. Where it is a unit or division, it may be capable of being considered as a separate business in some cases where all its assets and liabilities are transferred.

Illustration 70. Is it permissible for a company formed by conversion of firm under Part IX of the Companies Act, 1956 to avail unabsorbed losses and depreciation of the firm against its profits? What is the position of relief under sections 10A, 10B, 80-IA and 80-IB, etc.?

Solution: Where a firm had been converted into company by following the process of Part IX of the Companies Act, 1956, there should be no difficulty for such company in getting the unabsorbed loss and depreciation even without satisfying the condition under section 47(xiii). It has been so held in Chetak Enterprises Pvt. Ltd. vs. Asst. CIT (2006) 281 ITR (AT) 162 (Jodh.) that relief u/s 80IA would continue to be available, notwithstanding such conversion under Part IX route. In CIT vs. Texspin Engineering and Manufacturing Works (2003) 263 ITR 345 (Bom), it was held that there was no liability for Capital Gains Tax, since there is no transfer. On the same reasoning, there is no hindrance in availing benefit of carried forward loss and depreciation by the company converted by Part IX route for availing firm's losses and depreciation. Similar view was also taken in CIT vs. Rita Mechanical Works (2012) 344 ITR 544 (P&H).

W.e.f. A.Y. 2002-2003, section 47(xiii) exempts from capital gains, transfer of assets of a firm, etc. to a company in the course of demutualization or corporatisation of a recognised stock exchange as a result of which such firm or Association of Persons etc. is succeeded by a company.

Illustration 71. Is it possible for two firms to merge with each other without any tax consequence?

Solution: The concept of merger or amalgamation is unknown to partnership law. Where a partnership business is taken over by another firm, there is a profit liable to Capital Gains Tax.

Illustration 72. Is it possible for two firms to convert themselves as companies under Part-IX of Companies Act and thereafter for both the companies to amalgamate so as to avoid capital gains on merger of the business of the two firms?

Solution: The conversion and the later merger are two independent steps. Each should be justified by bona fide commercial considerations and not solely for saving tax. There is no liability at both stages, subject to conditions under the relevant provisions of law.

Illustration 73. Is it possible to avoid capital gains tax, where cost is not ascertainable?

Solution: No. Cost has to be based on best estimate, where evaluation is not possible for lack of details. Law itself in some cases attributed nil cost for certain categories of assets listed u/s 55(2)(a). Written down value will be taken as cost in case of depreciable assets u/s 50. Net worth on the basis of book value will be taken in a slump sale under section 50B.

Illustration 74. Where a company has already been formed for takeover of the business of an existing firm, is it really necessary to get the benefit of Part IX conversion in a case where firm's business is taken over by company?

Solution: The difference between conversion of firm to a company by registration under Part IX and takeover of a business by a company from a firm, was pointed out in Stewart & Co. Ltd. vs. C. Marshal

AIR 1963 Cal 198 (DB). The incidence under property law and tax laws should be different. The liability to stamp duty is one difference. This can be avoided by registration under Chapter IX of the Companies Act.

Illustration 75. Is conversion of a private company to LLP exempt for purposes of capital gains? If the exemption is limited, what is the purpose of limitation?

Solution: Exemption is limited only to companies with gross turnover not exceeding ₹60 lakh. The purpose apparently is that a big company does not avoid the incident of deemed dividend u/s 2(22)(e) and Minimum Alternate Tax by conversion to LLP.

Illustration 76. Are all companies eligible for conversion to LLPs?

Solution: No. Only private limited companies and unlisted public companies are eligible for conversion under section 56 and 57 of the Limited Liability Partnership Act, 2008.

Illustration 77. What happens to partners/ shareholders of firm/ company, where the conversion to LLP does not satisfy the condition under section 47(xiiib)?

Solution: Where the firm/ company does not qualify for exemption under section 47(xiiib), the conversion is still valid under Limited Liability Partnership Act, 2008. But the tax on capital gains arising on transfer will be the responsibility of LLP. The partners of the firm have no liability which has got converted to LLP on the transfer of shares consequent on conversion.

Illustration 78. Which is the regulatory authority of Limited Liability Partnership, whether Registrar of Firms or Registrar of Companies?

Solution: Limited Liability Partnership Act, 2008 provides for administration of the Act with company law authorities with all powers for Registrar of Companies as are available to him under the Companies Act, 1956.

Illustration 79. Can an LLP be understood as body corporate independent of its partners?

Solution: Yes. Section 2(d) of Limited Liability Partnership Act, 2008 understands the LLP as body corporate.

Illustration 80. Are all partners of LLP equally responsible for the acts of LLP?

Solution: The LLP expects, at best, two of the partners to be "designated partners" whose responsibility will be on par with directors of the company.

Illustration 81. What are the formalities of conversion?

Solution: Formalities are prescribed for conversion of firm, private companies and unlisted public companies under the Second, Third and Fourth Schedules respectively of the Limited Liability Partnership Act, 2008.

ILLUSTRATIONS ON ASSESSMENT OF COMPANIES

Illustration 82. RQ Ltd. has huge loss and depreciation to be carried forward. ST Ltd. is making profits. What should company RQ Ltd. do wipe off its losses within a reasonable time by taking the help of ST Ltd.?

Solution: Amalgamation should not have been for mere tax saving like avoiding capital gains tax or merely for avoiding the benefit of set-off of losses and depreciation of a company, which is going defunct. It should satisfy the conditions u/s 72A, if profit making company is taking over a loss making company. Reverse merger, if genuine, will avoid the application of section 72A.

Illustration 83. Company A wants to amalgamate with B. The agreement is entered into on 1.7.2013 indicating the appointed day to be 1.4.2013. The Court however passes the order approving the merger on 15.4.2014. What is the date of amalgamation?

Solution: The amalgamation will take effect from 1.4.2013, which is the appointed day, unless such date is varied by the High Court [Marshall Sons and Co. (India) Ltd. vs. ITO (1997) 223 ITR 809 (SC)].

Illustration 84. Amalgamation of companies X and Y has been approved by the BIFR. CBDT refuses to allow carry forward of losses u/s. 72A. Is the CBDT justified?

Solution: No. According to the Supreme Court in Indian Shaving Products Ltd. vs. BIFR (1996) 218 ITR 140 (SC), once the approval has come from BIFR, Board cannot refuse carry forward of losses.

Illustration 85. A certain family has four companies with different members controlling the companies. There are differences. How could they affect a partition of their interest in the companies?

Solution: They can shuffle their interest in the companies to ensure independence for each member/group of members. But capital gains tax cannot be avoided. Demerger is an alternative. Demergers are exempt. It allows set-off of carried forward of past depreciation and unabsorbed loss subject to conditions prescribed under section 72A.

Illustration 86. Should the character of assets as between investments and stock-in-trade be the same both for amalgamating and amalgamated company?

Solution: Answer will be in the affirmative, if the business is taken over as a going concern and earned on by the amalgamated company [Devare (L.M.) vs. CIT (1998) 234 ITR 813 (Bom.)].

Illustration 87. Since there is always a time lag between appointed date under the scheme and court's order, who should be liable for tax compliance during the interregnum?

Solution: During the interregnum, the pre-existing management will be in charge. As soon as the amalgamation is approved, legal responsibility will be that of the amalgamated company following the decision of the Supreme Court in Marshall Sons and Company (India) Limited vs. ITO, (1997) 223 ITR 80 (SC).

Illustration 88. Is a slump sale an alternative to amalgamation and demerger?

Solution: Yes. It is possible for a division or unit to be sold by slump sale or sell the asset in a severable sale to achieve the same object.

Illustration 89. Does the liability of shareholder get altered in amalgamation, demerger or slump sale?

Solution: No. Amalgamation, demerger or slump sale by a company constitute a taxable event for company and not the shareholder.

Illustration 90. Where there is an acquisition by way of an industrial undertaking or business as a going concern by way of slump sale, can the successor avail the losses and depreciation of the transferred industrial undertaking or business?

Solution: The law does not provide for benefit of set-off of losses and depreciation, where a business is transferred by way of slump sale.

Illustration 91. What is written down value to be adopted for the amalgamated company in cases, where the full eligible depreciation had not been availed by the amalgamating company?

Solution: Explanation (2A) to section 43(1) provides that the written down value of the amalgamating company should be the actual cost for the amalgamated company. In CIT vs. Hindustan Petroleum Corporation Ltd. (1991) 187 ITR 1 (Bom.), it was held that the actual cost of the asset need be reduced only by the unabsorbed depreciation availed (absorbed) in the hands of the amalgamating company for purposes of "actual cost" of such transferred assets in the hands of amalgamated company, unless it satisfies the condition under section 72A. This decision was followed in CIT vs. Kothari Industrial Corporation Ltd. (2005) 274 ITR 600 (Mad.) and CIT vs. Silical Mettallurgic Ltd. (2010) 324 ITR 29 (Mad.). If these decisions are correct, there will be double deduction in cases where assessee avails set-off of past unabsorbed depreciation under section 72A.

The decision has not taken into consideration Explanation 7 to section 43(1), which provides for determination of actual cost of assets taken over by amalgamated company on amalgamation to be the same as for amalgamating company as if the amalgamated company had continued to hold the asset. It follows that the written down value will have to be taken as that of the amalgamated company. Explanation 2, 2A and 2B to section 43(6) providing for computation of written down value for the amalgamated company is also in conformity with Explanation 7 to section 43(1). The decision, therefore, run counter to these statutory provisions. There is, however, no reaction from revenue to the decisions of the High Court, which should probably work in favour of the taxpayer.

Illustration 92. Where the amalgamated company sells the asset obtained from amalgamating company is the option of substituting the cost at market value on specified date available?

Solution: It has been decided that such option is available in Harish Mahindra vs. CIT (1982) 135 ITR 191 (Bom.); H.F. Craig Harvey vs. CIT (2000) 244 ITR 578 (Mad.) and Madura Coats Ltd. vs. CIT (2005) 279 ITR 493 (Bom.). In all these cases, it was held that the amalgamated company steps into the shoes of amalgamating company, since amalgamation is not regarded as transfer. It follows, that the benefit of indexation should also be available for amalgamating company including the period of holding of the asset by the amalgamating company.

Illustration 93. What is the procedure for service of notice for assessment of amalgamating company, when it has ceased to exist on amalgamation?

Solution: The amalgamated company cannot avoid the tax liability of the amalgamating company. Notice of reassessment can be issued on the amalgamated company as successor to amalgamating company to assess or reassess the income of the amalgamating company, subject to conditions therefor [Triveni Engineering and Industries Ltd. vs. Dy. CIT (2006) 280 ITR (AT) 210 (Del.)].

Illustration 94. Will incentive deductions available for amalgamating company continue for the remaining period to the amalgamated company?

Solution: Yes, if the same conditions are continued to be complied with, it will be available. Amalgamation cannot be considered as reconstruction, so that the benefit of deduction is not lost [CIT vs. Silical Metallurgical Ltd. (2010) 324 ITR 29 (Mad.)].

Illustration 95. How is the cost of an asset taken over in a slump sale ascertained?

Solution: Where the asset having been taken over in a slump sale, there is no separate consideration paid for any asset unlike a severable sale. But purchase consideration for the amalgamating company will be available. It is such consideration, which will be the cost for purposes of section 41(2) or 50, as the case may be [CIT vs. Mahindra and Co. Ltd. (2010) 326 ITR 465 (Raj)].

Illustration 96. From the following information, determine the tax liability of Z Ltd., domestic company, for the Assessment Year 2013-2014 and 2014-2015.

S. No.	Assessment year	Book-profits (₹)	Total income (₹)
1.	2013-2014	2,80,000	1,30,000
2.	2014-2015	3,00,000	2,00,000

Solution :

Surcharge is not considered assuming, Net Income less than ₹ 1 crore

Assessment Year	Book-profit (₹)	Total Income (₹)	Tax on Book-Profit (₹)	Tax on Total Income @ 30.9% rounded off u/s 288B (₹)	Tax Credit = Tax on Book Profits (-) Tax on Total Income (₹)	Tax Payable after tax credit set off, if any (₹)	Tax credit balance (₹)
2013-2014	2,80,000	1,30,000	@ 19.055% on 2,80,000 = 53,354	@ 30.9% on 1,30,000 = 40,170	13,184	53,354	13,184
2014-2015	3,00,000	2,00,000	@ 19.055% on 3,00,000 = 57,165	@ 30.9% on 2,00,000 = 61,800	—	48,616 [61,800 – 13,184]	—

Note : Tax Payable is rounded off to the nearest multiple of ₹ 10 (Sec. 288B)

Illustration 97. Fashion Ltd., a well-diversified group, gives below its Profit and Loss Account for the Previous Year 2013-2014 :

Particulars	₹	Particulars	₹
Manufacturing expenses	9,00,000	Sale of manufactured goods	15,00,000
Salaries/wages	5,50,000	Sale of agriculture produce	10,00,000
Cultivation expenses	4,00,000	Receipt from generation / distribution of power	15,00,000
Power generation/distribution expenses	4,00,000	Receipt from I.U. set up in backward district in July 2004	10,00,000
Irrigation expenses	6,00,000	Transfer from Reserve & Provision A/c, debited to Profit and Loss Account in 2005-06 on account of free service under warranty period	9,50,000
Expenses of I.U., located in backward district	5,00,000	Sale of goods of I.U. (Sec. 10B)	2,00,000
Expenses of I.U., located in free trade zone (Sec. 10A)	1,50,000	Sale of goods of I.U. located in free trade zone (Sec. 10A)	2,00,000
Expenses of I.U. (Sec. 10B)	1,00,000	Receipt from water supply/irrigation project	1,00,000
Expenses of I.U. located in NRE	50,000	Income from UTI	50,000
Provision for losses of subsidiary	4,00,000	Sale of goods of I.U. located in Northern Eastern Region (NER) (Sec. 10C)	5,00,000
Sundry expenses	10,000	Long Term Capital Gain on sale of equity shares, transaction chargeable to Securities Transaction Tax	35,00,000
Provision for bad and doubtful debts	2,00,000		
Provision for bills under discount	50,000		
Provision for sales tax, wealth tax against demand notice	3,30,000		
Income tax provision against demand notice	3,00,000		
Dividend paid on preference shares	2,00,000		
Proposed dividend on equity shares	4,00,000		
Transfer to General Reserve	1,00,000		
Dividend Equalisation Reserve	2,00,000		
Penalties under direct tax laws	60,000		
Goodwill written off	50,000		
Depreciation	3,00,000		
Amortisation of patent rights	30,000		
Expenses on transfer of equity shares	20,000		
Net Profit	42,00,000		
	1,05,00,000		1,05,00,000

The following additional information is provided as below:

- Depreciation includes, a sum of ₹ 1,00,000 on account of revaluation of building and plant and machinery.
- Past year losses, before depreciation, are given below:

	Loss (₹)	Depreciation (₹)
2009-2010	(-) 5,00,000	(-) 6,00,000
2010-2011	Nil	(-) 5,00,000
2011-2012	(-) 7,00,000	(-) 4,00,000
2012-2013	(-) 5,00,000	Nil

Compute book-profits for the Previous Year 2013-2014/AY 2014-2015 for MAT under Sec. 115 JB.

Solution :

Computation of Book Profit for the AY 2014-2015

Particulars	₹	₹
Net Profit as per Profit and Loss Account		42,00,000
Add:		
(i) Cultivation expenses	4,00,000	
(ii) Expenses of I.U. located in Free Trade Zone (Sec. 10A)	1,50,000	
(iii) Expenses of I.U. under Sec. 10B	1,00,000	
(iv) Provision of loss of subsidiary	4,00,000	
(v) Provision for bad and doubtful debts— an unascertained liability	2,00,000	
(vi) Provision for bills under discount— an unascertained liability	50,000	
(vii) Provision for wealth-tax, sales- tax, against demand notice — an ascertained liability	—	
(viii) Income-tax provision— an ascertained liability to be added back	3,00,000	
(ix) Dividend paid on preference shares	2,00,000	
(x) Proposed dividend on equity shares	4,00,000	
(xi) Transfer to General Reserve	1,00,000	
(xii) Dividend Equalisation Reserve	2,00,000	
(xiii) Depreciation [Sec. 115JB(2)(g) w.e.f. AY 2011-2012]	<u>3,00,000</u>	<u>28,00,000</u>
Adjusted Profits		70,00,000
Less:		
(i) Sales of agriculture produce [Sec. 10(1)]	10,00,000	
(ii) Receipt from I.U. in Free Trade Zone [Sec. 10A]	2,00,000	
(iii) Receipt from I.U. Sec. 10B	2,00,000	
(iv) Depreciation, excluding depreciation on account of revaluation of assets	2,00,000	
(v) Withdrawals from Reserve & Provision for free sale service, under warranty scheme	9,50,000	
(vi) Long-term capital gain on transfer of equity shares [Sec. 10(38)] — see Note below	Nil	
(vii) Receipts from UTI [Sec. 10(35)]	50,000	
(viii) Brought forward loss or depreciation, whichever is less.	<u>9,00,000</u>	<u>35,00,000</u>
Book-profits		35,00,000

Note: 1. Calculation of brought forward losses or depreciation:

2009-2010	Loss	5,00,000
2010-2011	Loss/depreciation	Nil
2011-2012	Depreciation	4,00,000
2012-2013	Loss/depreciation	Nil
	Total	9,00,000

- 2.** Transfer from provision for after sale service, free of cost, made during the year 2005-2006, debited to Profit and Loss A/c and now credited to Profit and Loss A/c and the amount so credited to Profit and Loss A/c is an allowable deduction [Sec. 115-JB(2)].

3. Long-term Capital Gain from the transfer of equity shares in a company is exempt is chargeable to Securities Transaction Tax (STT). However, for the purposes of computing Book-profits, it is not to be deducted [Sec.10(38)]. Accordingly, the expenditure incurred for the transfer of equity shares has not been added back in computing Book Profits.

Illustration 98. Classic Exporters Ltd, runs a new industrial undertaking set up in 2006-2007 which satisfies the conditions of Sec. 80-IB. Given below is the Profit and Loss Account for the Previous Year 2013-2014 :

Particulars	₹	Particulars	₹
Stock	4,00,000	Domestic sales	24,00,000
Purchases	23,00,000	Export sales	43,00,000
Salaries and wages	9,70,000	Export incentives Sec. 28(iia)/(iic)	50,000
Entertainment expenses	1,30,000	Profit of foreign branch	2,50,000
Freights and insurance attributable to exports	3,00,000	Brokerage/commission/interest/rent, etc	50,000
Travelling expenses	2,20,000	Transfer from contingency reserve	10,00,000
Depreciation	1,50,000	Stock	3,50,000
Selling expenses	1,20,000		
Income tax paid	90,000		
Income-tax penalty	20,000		
Wealth tax paid	10,000		
Custom duty payable against demand notice	30,000		
Provision for unascertained liabilities	20,000		
Provision for ascertained liabilities	50,000		
Proposed dividend	3,00,000		
Loss of subsidiary company	50,000		
Net Profit	32,40,000		
	84,00,000		84,00,000

You are further informed:

- Excise duty for 2012-2013, amounting ₹ 1,20,000 was paid on 15th December 2013.
- Depreciation under Sec. 32 is ₹ 2,20,000.
- During the year 2009-2010, contingency reserve, amounting ₹ 10,00,000, debited to Profit and Loss A/c, was added back to the extent of ₹ 4,00,000 in the computation of Book-profits. The company has transferred the said reserve to the Profit and Loss A/c during the year.
- Brought forward business loss/depreciation:

PY	Accounting purposes		Tax purposes	
	Loss	Depreciation	Loss	Depreciation
2009-2010	(-) 10,00,000	(-) 1,00,000	(-) 5,00,000	(-) 2,50,000
2010-2011	(-) 2,00,000	(-) 3,00,000	(-) 1,00,000	(-) 2,00,000

Compute the following: (a) Total Income, (b) Book-profits and (c) Tax Liability.

Solution :**(a) Computation of Total Income for the AY 2014-2015**

Particulars	₹	₹
Net Profit as per Profit & Loss A/c		32,40,000
Add : <u>Expenses debited to P&L A/c – disallowed</u>		
(i) Income tax	90,000	
(ii) Wealth tax	10,000	
(iii) Custom duty payable	30,000	
(iv) Provision for unascertained liability	20,000	
(v) Proposed dividend	3,00,000	
(vi) Loss of subsidiary company	50,000	
(vii) Income-tax penalty	20,000	
(viii) Depreciation	<u>1,50,000</u>	<u>6,70,000</u>
		39,10,000
Less : <u>Allowable Expenses and wrong credits in P&L A/c</u>		
(i) Withdrawals from contingency reserve	10,00,000	
(ii) Excise duty	1,20,000	
(iii) Depreciation	2,20,000	
(iv) Brokerage, commission, interest and rent, etc.	<u>50,000</u>	<u>13,90,000</u>
Business Profits		25,20,000
Add: Income from Other Sources: Brokerage/ commission, etc.		<u>50,000</u>
Aggregate Income		25,70,000
Less:		
(i) Brought forward losses (Sec. 72)	6,00,000	
(ii) Brought forward depreciation [Sec. 32(2)]	<u>4,50,000</u>	<u>10,50,000</u>
Gross Total Income		15,20,000
Less: Profit from industrial undertaking Sec. 80IB:		
30% of ₹ 15,20,000 as included in GTI		<u>4,56,000</u>
Total Income		10,64,000

(b) Computation of Book Profits for the AY 2014-2015

Particulars	₹	₹
Net profits as per Profit & Loss A/c		32,40,000
Add : <u>Expenses disallowed</u>		
(i) Income tax	90,000	
(ii) Provision for unascertained liability	20,000	
(iii) Proposed dividend	3,00,000	
(iv) Loss of subsidiary	50,000	<u>4,60,000</u>
		37,00,000
Less : <u>Allowable expenses and wrong credit in P & L A/c</u>		
(i) Withdrawals from contingency reserve	4,00,000	
(ii) Brought forward business loss or depreciation whichever is less		
2009-2010 Depreciation	1,00,000	
2010-2011 Loss	<u>2,00,000</u>	<u>7,00,000</u>
Book-profits		30,00,000

**(c) Computation of Tax Liability for the AY 2014-2015**

Particulars	₹
(a) Tax on Total Income (including Education Cess and SHEC) = 30.9% of 10,64,000	3,28,776
(b) Tax on Book Profits (including Education Cess and SHEC) = 19.055% on 30,00,000	5,71,650
Tax payable [Higher of (a) & (b)]	5,71,650

Note :

- No adjustment is required for depreciation debited to Profit and Loss A/c because it is not on account of revaluation of any asset.
- MAT credit available ₹ (5,71,650 – 3,28,776) = ₹ 2,42,874
- Any penalty, interest, etc. paid under any of the direct tax laws or for infraction of any other laws and debited to Profit & Loss Account will be allowed and hence, need not be added back.

Illustration 99. Z Ltd is a qualifying shipping company which has got two qualifying ships during the Previous Year 2013-2014 :

Ship	Tonnage weight	No. of operational days
Ship A	37,949 tonnes and 990 kg	300 days
Ship B	25,550 tonnes and 275 kg	365 days

Compute its tonnage income under Tonnage Tax Scheme for the Assessment Year 2014-2015.

Solution:

Ship A	Ship B
(i) Tonnage consisting of kilograms is ignored. (ii) If such tonnage is not a multiple of 100 tonnes and the last two digits are less than 50, the tonnage is reduced to the previous lower tonnage which is a multiple of 100. (iii) Tonnage rounded off = 37,900 tonnes	(i) Tonnage consisting of kilograms is ignored. (ii) If such tonnage is not a multiple of 100, and last two digits are 50 or more, the tonnage is increased to next higher tonnage which is a multiple of 100 (iii) Tonnage rounded off = 25,600 tonnes

Income — computation under TTS		Income — computation under TTS	
Daily TI:	₹	Daily TI:	₹
First 1,000 tonnes = ₹ 46 × 10 =	460	First 1,000 tonnes = ₹ 46 × 10 =	460
Next 9,000 tonnes = ₹ 35 × 90 =	3,150	Next 9,000 tonnes = ₹ 35 × 90 =	3,150
Next 15,000 tonnes = ₹ 28 × 150 =	4,200	Next 15,000 tonnes = ₹ 28 × 150 =	4,200
Balance 12,900 tonnes = ₹ 19 × 129 =	2,451	Balance 600 tonnes = ₹ 19 × 6 =	114
Daily TI:	10,261	Daily TI:	7,924
Total TI for the Previous Year ₹ 10,261 × 300	30,78,300	Total TI for the Previous Year ₹ 7,924 × 365	28,92,260

ILLUSTRATIONS ON MUTUAL ASSOCIATION

Illustration 100.

(a) Compute the taxable income of Chamber of Commerce from the following data:

	1 (₹)	2 (₹)	3 (₹)
Gross receipts for specified services rendered to members	2,00,000	2,00,000	2,00,000
Expenses incurred in connection with the above	50,000	1,00,000	1,50,000
Interest on bank deposits	40,000	40,000	60,000
Receipt from members	2,00,000	3,00,000	2,50,000
Expenditure incurred on members	1,40,000	4,50,000	2,60,000

(b) Will your answer be different if the above particulars are of a social club?

Solution:

(a) **Statement showing computation of taxable income:**

	1 (₹)	2 (₹)	3 (₹)
Net income from rendering specific services (Gross receipts – Expenses)	1,50,000	1,00,000	50,000
Less: Deficiency set off [maximum to the extent of 50% of total assessable income before set off of deficiency (as per notes)]	—	70,000	50,000
Business Income (A)	1,50,000	30,000	Nil
Interest on bank deposit under other heads	40,000	40,000	60,000
Less: Deficiency although allowable upto 50% of total assessable income which could not be set off against business income	—	—	5,000
Other Income (B)	40,000	40,000	55,000
Gross Total Income (A)+(B)	1,90,000	70,000	55,000
Less: Deduction u/s 80C to 80U	Nil	Nil	Nil
Total Income	1,90,000	70,000	55,000

Note 1: Surplus of ₹ 60,000 under case 1 is not taxable as it is from mutual activity.

Note 2: Deficiency under case 2 and 3 would not be allowed but for the benefit given u/s 44A.

Note 3:

	Case 2 (₹)	Case 3 (₹)
Surplus from specified services	1,00,000	50,000
Interest income	40,000	60,000
	1,40,000	1,10,000
Less: Deduction u/s 80C to 80U	Nil	Nil
	1,40,000	1,10,000

Note 4: In case 3, 50% of the assessable income is ₹ 55,000 (i.e. 50% of ₹ 1,10,000) but it will be set off from business income which in this case is ₹ 50,000 and the balance shall be set off from the other income.

(b) In the case of social club neither surplus from members nor surplus on account of specific services rendered to its members is taxable. Further, if there is any deficiency from mutual activity, it cannot be set off as provisions of section 44A are applicable only in case of trade, professional or similar association.

Therefore, income of a club will be calculated as under:

	1 (₹)	2 (₹)	3 (₹)
Receipt from members	2,00,000	3,00,000	2,50,000
Gross receipts for specified services rendered to members	2,00,000	2,00,000	2,00,000
	4,00,000	5,00,000	4,50,000
Less: Expenses	1,90,000	5,50,000	4,10,000
Surplus/ (Deficiency)	2,10,000	(50,000)	40,000

The above surplus is exempt and deficiency is not allowed to be set off.

	1 (₹)	2 (₹)	3 (₹)
Interest on bank deposits	40,000	40,000	60,000
Gross Total Income	40,000	40,000	60,000
Less: Deduction	Nil	Nil	Nil
	40,000	40,000	60,000

Illustration 101. Whether the transfer fee realised by a co-operative society from its members when the members intended to transfer the flats to any other person, member or otherwise, is liable to tax under section 4 of the Income Tax Act?

Solution: The transfer fee is not liable to tax provided the co-operative society does not carry on any business, and the transfer fee is meant for the benefit of the members of the co-operative society [CIT vs. Apsara Co-operative Housing Society Ltd., (1993) 204 ITR 662 (Cal)].

Illustration 102. Whether 'Gurudakshina' received from the members is liable to tax under section 4 of the Income Tax Act?

Solution: No. The 'Gurudakshina' is exempt on ground of mutuality.

Illustration 103. A co-operative society bought text books at a discount from the Government and sold them at profit to various persons including its members. The society claimed that the profit earned by the sales to its members was not taxable on ground of mutuality. Whether the claim of the society is in order?

Solution: The participators in the profit are members; but the contributors to such profit are non-members who are the buyers of the books. There is no identity between the contributors and the participants. Therefore, the profits derived from the sales to the members is not exempt but taxable [Bihar Rajya Sikshak Sahyog Sangh Ltd. vs. CIT (1987) 165 ITR 681 (Pat.)].

Illustration 104. Whether the principle of mutuality is applicable to income from rent received from house property?

Solution: The principle may not apply where the use of residential accommodation is not confined to members. In such cases, the rent is taxable under the head 'Income from house property'. Even if the income is treated as business income, it would not be exempt, because only some of the members occupy the accommodation, and there is no identity between the contributors and the participants.

In the case of the Presidency Club Ltd. vs. CIT (1981) 127 ITR 264 (Mad.), the Madras High Court accepted the claim for exemption on the basis of mutuality, where the guests of members were allowed the use of the premises. In the case of CIT vs. Bankipur Club Ltd. (1992) 198 ITR 261 (Pat.) (FB) now confirmed by the Supreme Court in CIT vs. Bankipur Club Ltd. (1997) 226 ITR 97 (SC), where the income from the guest houses was received from the members of the club for their use and the use of their guests, principle of mutuality was accepted.

Illustration 105. Can a company registered under section 25 of the Companies Act claim exemption on basis of mutuality?

Solution: There is no reason why a mutual organisation formed as a company should not be treated as a mutual association. This view was reiterated recently in CIT vs. Cement Allocation and Coordinating Organisation (1999) 236 ITR 553 (Bom.) following its own decision in CIT vs. Bombay Oilseeds and Oil Exchange Ltd. (1993) 202 ITR 198 (Bom.) and CIT vs. Bankipur Club Ltd. (1997) 226 ITR 97 (SC).

Illustration 106. Can a mutual association claim to be a charitable organisation?

Solution: If the object is charitable, a mutual association like a trade association can claim exemption under section 11 as was successfully claimed in CIT vs. Andhra Chamber of Commerce (1965) 55 ITR 722 (SC) where the surplus was to use only for public benefit and not to be distributed to its members. If the surplus is to be shared between members, it could claim exemption on grounds of mutuality, if other conditions like participants and contributors are both members with no dealings with outsiders.

Illustration 107. A union of truck owners was registered as a trade union formed for the purpose of promoting relationship between truck operators and the employees and for promoting feeling of co-operation among the truck operators themselves. Should such union be eligible for exemption on the principle of mutuality?

Solution: Since the activity is not confined to the members as it is intended to promote relationship between workmen, and workmen and the truck operators, mutuality principle can have no application. Under Indian Trade Unions Act, 1926, when such workers are not members, there is no principle of mutuality, and hence tax cannot be avoided [Sumerpur Truck Operators Union vs. ITO (2003) 259 ITR 749 (Raj.).

Illustration 108. Can a Nidhi company registered under section 620A of the Companies Act, 1956, be a mutual society, immune from application of section 269SS barring deposits in cash above the specified limit?

Solution: A Nidhi company is also a mutual association recognised under section 620A of the Companies Act, 1956. Hence, any transactions as between such company and members should be treated as with self on principle of mutuality, so that sections 269SS and 269T should have no application. It has been so held by the Tribunal [Muslim Urban Co-operative Credit Society Ltd. vs. Jt. CIT (2005) 96 ITD 83 (Pune)].

Illustration 109. Does mutuality get lost, if a mutual association has different classes of members with different corresponding rights?

Solution: Principle of mutuality does not get destroyed merely because a club has different classes of members with different rights with entrance fees and subscriptions being different for each such class depending upon their rights to participation in the affairs of the club with some classes of membership not having right to vote. The assessee in this case was held entitled to exemption [CIT vs. Willingdon Sports Club (2008) 302 ITR 279 (Bom)].

9.11 DIFFERENT ASPECTS OF DIRECT TAX PLANNING

Introduction:

The provisions of the Income-Tax are contained in the Income-Tax Act, 1961 (the Act), which extends to whole of India and is operative from the 1st day of April, 1962 (the Rules). The Act provides for determination of taxable income, Tax liability, procedures for assessment, appeals, penalties, interest levies, the tax payment schedules and its determination, refunds and prosecutions.

Depending upon Government policies certain income is exempted from tax, for example SEZ (Special Economic Zone) units income, Agriculture income, etc. and deduction are also provided on fulfillment of prescribed criteria. Provisions relating to such exemptions and deduction are also contained in the Act.

Corporate form of business is much in vogue. Therefore, certain taxes specific to companies like Tax on Book profit (115JB), tax on Dividend Distributed (115O), are levied.

At times in Cross border transactions income earned get exposed to tax in India as well as in some other countries. Provisions for upholding relief from double taxation are also made in the Income Tax Act.

The Act also lays down the powers duties of various income-tax authorities. Being revenue legislation, the act is amended once a year through union budgets and the finance bill is normally presented to the Parliament for approval around February. The Act has empowered the Central Board of Direct Taxes (CBDT) to frame the rules and these rules are implemented after necessary Gazette notifications. The CBDT also issues circulars and clarifications from time to time for implementation by the income-tax authorities by virtue of section 119, which gives such rule making powers to the CBDT. It is impracticable for the Act to provide exhaustively for everything relating to limits, conditions, procedures, forms and various other aspects. Therefore this power has been delegated to CBDT and thus periodical changes and modification by an executive authority is facilitated. The power to frame rules is vested with the Board u/s 295 of the Act and the word 'prescribed' used in section 2(33) means what is prescribed by rules made under the Act.

The Income-Tax Act gives definitions of the various terms expressions used in the Act. Unless the context otherwise requires, these definition should be applied. The words 'means' 'includes' and 'means and includes' are used in these definitions and the significance of these terms needs to be understood. When a definition uses the word 'means' the definition is self-explanatory, restrictive and in a sense exhaustive. It implies that the term or expression so defined means only as to what is defines as and nothing else. For example, the terms 'agricultural income' 'assessment year' 'capital asset', are exhaustively defined. When the legislature wants to widen the scope of a term or expression and where an exhaustive definition cannot be provided, it uses the word 'includes' in the definition. Generally an inclusive definition provides an illustrative meaning and the definition could include what is not specifically mentioned in the definition so long as the stipulated criteria are satisfied. To illustrate refer to the definitions of 'income', 'person', 'transfer' in the Act. When the legislature intends to define a term or expression to mean something and also intends to specify certain items to be included, other the words 'means' as well as 'includes' are used. Such definition is not only exhaustive but also illustrative in specifying what is intended to be included. Sometimes specific items are included in an exhaustive definition in order to avoid ambiguity and to provide clarity. Please refer to definitions of 'assessee', 'Indian company', 'recognised provident fund', under the Act.

Further any decision given by the Supreme Court also becomes a law on the subject and will be binding on all the courts, tribunals, income-tax authorities as well as the taxpayers. In case of apparent contradictions in the Supreme Court rulings, the following rules may have to be followed:-

1. The decision of the larger bench would prevail.
2. The principle of the later decision shall prevail, where the decisions are by equal number of judges. Decisions given by High Courts are binding on all taxpayers and It authorities, which fall under its jurisdiction till it is overruled by higher authority.

Tax Planning vs. Tax Evasion

The word 'tax planning' connotes the exercise carried out by the taxpayer to meet his tax obligations in proper, systematic and orderly manner availing all permissible exemptions, deductions and reliefs available under the statute as may be applicable to his case. To illustrate, assessee software company setting up assessee software technology park in assessee notified area to avail benefits of section 10A of the Act is assessee legally allowable course. Planning does not necessarily mean reduction in tax liability but is also aimed at avoiding controversies and consequential litigations.

Every taxpayer is expected to voluntarily make disclosures of his incomes and tax liabilities through legal compliance. When a tax payer deliberately or consciously do not furnish material particulars or furnishes inaccurate or false particulars or defrauds the State by violating any of the legal provisions, it shall be termed as 'tax evasion'. It is also illegal, but also unethical and immoral. Inflation of expenditure, suppuration of income, recording of fictitious transactions, claiming deductions wrongly are few examples.

Benjamin Franklin is credited with this classical statement: There are two certainties in this world – death and taxes. This makes all tax payers in general, and the companies in particular, realize the bitterness or hardship of taxes. Three methods of saving taxes have been developed in most countries of the world in the past few decades: tax evasion, tax avoidance and tax planning. A great deal of confusion prevails in corporate sector about correct connotations of these terms. Hence, we shall attempt to explain these terms to show tax planning is absolutely legal. The expression 'Tax Evasion' means illegally hiding income or concealing the particulars of income or concealing the particular source or sources of income or in manipulating the accounts so as to inflate the expenditure and other outgoings with a view to illegally reduce the burden of taxation. Hence, tax evasion is illegal and unethical. It is uneconomical as well. It deserves to be deprecated not only by the Government but by the companies as well. The next expression is 'Tax avoidance' which is assessee art of dodging taxes without breaking the law. In my opinion, tax avoidance means traveling within framework of the law or acting as per language of the law only in form, but murdering the very spirit of the law and defeating the purpose of the particular legal enactment. If, by adopting an artifice or device against the intension of the legislature but apparently on the face of it acting within the framework of the law, a company is able to dodge income tax, it would be a clear case of tax avoidance. In contrast, 'Tax Planning' takes maximum advantages of the exemptions, deductions, rebates, reliefs, and other tax concessions allowed by taxation statutes, leading to the reduction of the tax liability of the tax payer. Tax planning has been contrasted with the expression tax avoidance and has the legal sanction of the Supreme Court as well. In recent years the sentiments in favour of tax avoidance have changed and the courts view tax avoidance with displeasure. For example, Lord Sumner in IRC vs. Fisher 's Executors AC 395, 412 had earlier as per the ratio of Westminster 's case said:

"My Lords, the highest authorities have always recognized that the subject is entitled so to arrange his affairs as not to attract taxes imposed by the Crown, so far as he can do so with the law, and that he may legitimately claim the advantage of any express terms or any omissions that he could find in this favour in taxing Acts. In so doing, he neither comes under liability nor incurs blame."

The significance of Ramsay as assessee turning point in the interpretation of tax laws in England and the departure from the principle of Westminster 's case were explained in IRC vs. Burmah Oil Co. Ltd., STC 30 where Lord Diplock said:

"It would be disingenuous to suggest and dangerous on the part of those who advise on elaborate tax-avoidance scheme to assume, that Ramsay's case did not mark assessee significant change in the approach adopted by this House its judicial role to assessee pre-ordained series of transactions into which they were inserted steps that have no commercial purpose apart from the avoidance of tax liability, which in the absence of those particular steps would have been payable. The difference is in approach."

Commenting on this judgment the Supreme Court of India in the McDowell Co. Ltd., vs. CTO 154 ITR 148(SC) said:

"It is neither fair nor desirable to except the legislature to intervene and take care of every device and scheme to avoid taxation, it is up to the court to determine the nature of new and sophisticated legal devices to avoid tax and consider whether the situation created by the devices for what they really are and to refuse to give judicial benediction."

In the same judgment, Supreme Court Judges made a clear distinction between tax avoidance and tax planning. This is what the judges of the Supreme Court have said in the same case:

"Tax Planning may be legitimate provided it is within the framework of law. Colorable devices cannot be part of tax planning and it is wrong to encourage or entertain the belief that it is honorable to avoid the payment of tax by resorting to dubious methods. It is the obligation of every citizen to pay the taxes honestly without resorting to subterfuges."

From the above it is very clear that tax planning by Assessee Company cannot be called a crime or an illegal activity or an immoral action as is wrongly considered by confused thinkers on the subject. What constitutes a crime is tax evasion and what is undesirable is tax avoidance but it is certainly desirable to engage in the exercise of tax planning.

In UK, wherefrom the principle coined in McDowell's case was coined, the House of Lords expressly reaffirmed the basic principle, 'A subject is entitled to arrange his affairs so as to reduce his liability to tax. The fact that the motive for a transaction may be to avoid tax does not invalidate it unless a particular enactment so provides'.

The House of Lords expressly reaffirmed the cardinal principle of *Duke of Westminster*, 'Given that a document or transaction is genuine, the Court cannot go behind it to some supposed underlying substance'. They only ruled against the principle being overstated or overextended.

Mukharji J, who in his prompt and lethal report in CWT vs. Arvind Narottam said: '...no amount of moral sermons would change people's attitude towards tax avoidance', and soon thereafter in UoI v Playworld Electronics stated: 'one should avoid subverting the rule of law'. As a matter of law, the Supreme Court in these two latter cases reiterated that where the true effect of a transaction is clear, the appeal to discourage tax avoidance is not a relevant consideration.

In any event, when the language of a deed of settlement is clear, an attempt to invoke McDowell would be futile even if the deed results in tax avoidance. as the Madras High Court held in Valliapan vs. ITO, McDowell does not hit tax planning.

The manner in which McDowell is to be dealt with was well summed up by the Gujarat High Court in Banyan and Berry vs. CIT thus:

The court (in McDowell) nowhere said that every action or inaction on the part of the taxpayer which results in reduction of the tax liability to which he may be subjected in future, is to be viewed with suspicion and be treated as a device for avoidance of tax irrespective of legitimacy or genuineness of the act.... The principle enunciated in the above case has not affected the freedom of the citizen to the act in a manner according to his requirements, his wishes in the manner to do any trade, activity or planning his affairs with circumspection, within the framework of law, unless the same falls in the category of colourable device.

The House concluded that steps which had no commercial purpose and had been artificially inserted for tax purposes into a composite transaction, should be disregarded; but that a transaction which came into statutory language could not be disregarded merely because it was entered into solely for tax purposes.

Therefore, while tax planning these principles emanating from court made law need to be kept in sight. Otherwise, planning looking good on paper may fail in practice.

Tax Management

Planning which leads to filing of various returns on time, compliance of the applicable provisions of law and avoiding of levy of interest and penalties can be termed as efficient tax management. In short, it is an exercise by which defaults are avoided and legal compliance is secured. Through proper tax planning and management, the penalty of upto ₹100000 for delay in furnishing of tax audit reports u/s 44AB can be avoided.

Similarly by applying for Permanent Account Number (PAN), the penalty under the Act can be avoided. The borrowal of loan otherwise than by way of an account payee cheque or bank draft attracts 100% penalty and this can be avoided by conscious planning of the execution of loan transactions. Planning is a perception conceived on legitimate grounds and achieved through genuine transactions within the framework of law e.g. contribution to Public Provident Fund and claiming rebate u/s 88 of the Act. The filing of the returns with all proper documentary evidence for the various claims, rebates, reliefs, deductions, income computations and tax liability calculations would also be termed as tax management.

Tax management is also an important aspect of tax planning. Assessee is exposed to certain unpleasant consequences if obligations cast under the tax laws are not duly discharged. Such consequences take shape of levy of interest, penalty, prosecution, forfeiture of certain rights, etc.

Therefore, any effort in tax planning is incomplete unless proper discharge of responsibilities is not made.

Tax management includes:

1. Compiling and preserving data and supporting documents evidencing transactions, claims, etc.
2. Making timely payment of taxes e.g. advance tax, self assessment tax, etc.
3. TDS and TCS compliance
4. Following procedural requirements e.g. payment of expenses or acceptance of loans or repayment thereof, over ₹ 20,000 by account payee bank cheque or bank draft, etc.
5. Compliance with the prescribed requirements like tax audit, certification of international transactions, etc.
6. Timely filing of returns, statements, etc.
7. Responding to notices received from the authorities.
8. Preserving record for the prescribed number of years.
9. Mentioning PAN, TAN, etc. at appropriate places.
10. Responding to requests for balance confirmation from the other assessees.

Tax Implications in Planning

The main objectives in any exercise on tax planning are to :—

1. Avail all concessions and relief 's and rebates permissible under the Act.
2. Arrange the affairs in a commercial way to minimize the incidence of tax.
3. Claim maximum relief where taxes are paid in more than one country.
4. Become tax compliant and avoid penalties, prosecutions and interest payments.
5. Fruitful investment of savings.
6. Timely compliance of procedural requirements like tax audit, TDS, TCS, etc.
7. Appropriate record keeping
8. Avoidance of litigation.
9. Growth of economy and its stability.
10. Pay taxes – not a penny more, not a penny less.

E-Commerce and Taxation:

In the era of e-commerce, the determination of the place of source with reference to an item of

income may quite often pose difficulty. The source-based taxation of business income depends on physical presence in the form of fixed place of business or a dependent agent in the source country. With e-commerce the need for physical presence virtually ceases. The change in mode of delivery from physical to online raises characterization issues and the lack of physical presence also creates problems in enforcement of tax laws. Therefore the long-term solution of the problems created by characterization lies in making direct taxation identical for all streams of income in a manner aimed at ensuring equitable sharing of revenues between residence country and source country. The following rulings by the Authority for Advanced Ruling may be worth remembering in this context:

1. A company incorporated in Mauritius for sale and distribution of television channels enters into an agreement with an Indian company where under the latter would solicit orders from purchasers of airtime and pass on those orders to the former. The business profits earned by the Mauritian company through Indian company are profits deemed to accrue or arise in India u/s 9 of the Act. However by virtue of Article 7 of the DTAA between India and Mauritius, they are not liable to be taxed in India, if: a) The liability of the Mauritian company to pay tax in Mauritius was established and b) The Mauritian company and not the Indian company is shown to exercise generally the power to conclude the advertisement contract for sale of airtime - P No. 296 of 1996 TVM vs. CIT 237 ITR 230 (AAR).
2. An American company is engaged in providing international credit cards, travelers cheques and travel related services. It has Central Processing Unit (CPU) in USA and Consolidated Data Network (CDN) in Hong Kong. Indian company is given access to the CPU through CDN for the reporting and processing of information on travel by customers in India. Charges for the use of CPU and CDN of American company paid by Indian company is royalty for the case of 'design or model, plan secret formula and process' and therefore taxable in India under Article 12(3)(a) of DTAA between India and USA - p. no. 30 of 1999 238 ITR 296 (AAR).
3. Where there is a PE for a non resident income attributable to such PE is chargeable to tax in the country in which such PE exist - p. no.28 of 1999 242 ITR 208 (AAR). A foreign company having a fixed office will be constructed to have a PE-p. no.13 of 1995 228 ITR 487 (AAR).

Strategic Management Decisions – Tax Implications

In business, the decisions are taken with a view of optimize returns to the stakeholders. A dominant aspect to be considered taking in view the tax consequences of the same on the bottom-line so as to share minimum profits with Government without violating any tax or any other laws in force. It is significant that tax consequences alone need not bind the management to take a decision and it is only a factor which influences the management decisions.

Moreover, in case of taxes, there are both direct as well as indirect taxes and in efforts for planning implications of both category of taxes are required to be considered.

Management decisions, which have a bearing on the bottom line are analyzed below from the point of view of income-tax implications.

- (a) Make or Buy
- (b) Own or Lease
- (c) Retain or Replace
- (d) Repair/Scrap or Return
- (e) Export or Domestic Sale
- (f) Shut Down or Continue
- (g) Expand or Contract
- (h) Demerger
- (i) New Capital Investments
- (j) Accounting Standards for Taxes on Income

CASELETS ON TAX MANAGEMENT AND PLANNING

(a) Capital Structure

Before setting up a new project, an important decision about the type of capital structure has to be taken. While selecting a particular capital structure, the entrepreneur has to keep in view the following considerations:

- (i) Serving the capital base with consistent dividend policy
- (ii) Cost of capital to be raised from the market
- (iii) Chargeability or otherwise of taxes, i.e., direct and indirect taxes
- (iv) Keeping a margin for ploughing back of profits for future plan towards diversification, expansion, modernisation and other development aspects.

Generally, the following means of finance are available for a new project:

- (i) Equity share capital, (ii) Debentures/Loans and borrowings/Lease Finance.

In making capital structure decision, financial leverage plays an important role. The financial leverage states the percentage increase in earning before taxes corresponding to percentage increase in earning before interest and taxes. This can be explained with the help of following example:

Earning before interest and taxes (EBIT)	₹2,000
Less: Interest on securities	₹1,000
Earning before taxes (EBT)	₹1,000
Financial leverage (2,000/1,000)	2

Here, this financial leverage states that any increase in earning before interest and taxes will have two fold increase in earning before taxes. So if EBIT is ₹3,000 then EBT will be—

Earning before interest and taxes (EBIT)	₹3,000
Less: Interest on securities	₹1,000
Earning before taxes (EBT)	₹2,000

Hence, it is clear that 50% increase in EBIT has resulted 100% increase in EBT. Therefore, a high financial leverage would result in a very high return when there is high profitability. But in case of depression, this may prove to be dangerous because the residual net income available to shareholders may reduce to a great extent and sometimes may convert in losses. How much financial leverage is safe is considered with reference to the likely fluctuation in the operating profits and the debt equity mix.

A capital structure is said to be optimum when it has a mix of debt and equity that will yield the lowest weighted average cost of capital. At the same time, a capital mix should not have high debt equity ratio. A high debt/equity ratio has its own advantages and disadvantages.

(b) Lease or buy decisions: In recent years, leasing has become a popular source of financing in India. From the lessees point of view, leasing has the attraction of eliminating immediate cash outflow, and the lease rentals can be claimed as admissible expenditure against the business income. On the other hand, buying has the advantages of depreciation allowance and interest on borrowed capital being tax-deductible. Thus, an evaluation of the two alternatives is to be made in order to take a decision.

However, before opting for a lease decision one has to keep in mind the following disadvantages:

- (i) Leased assets are not owned assets and therefore, the asset cover to equity comes down due to increased dependence on lease finance.

- (ii) Financial ratios are also distorted due to greater dependence on lease finance.
- (iii) Lease rent payments are made out of working capital funds which mean that fixed assets are financed out of short-term funds.
- (iv) The asset taken on lease is taken back by the lessor at the expiry of lease period. Thus, he will be bothered about finding alternative asset at the expiry of lease period.

(c) Make or buy decision: The leasing or buying decision is taken only when it is finalised that a particular asset is to be acquired. In most of the industries, the conception of establishing a new project itself involves acquisition of fixed assets. In assembling industry different components are assembled to make a product. Now a decision regarding the manufacturing of these components is to be taken. It is decided whether the product/part/component of product should be bought from the market or should be manufactured by having necessary manufacturing facilities. The main consideration affecting such a decision is cost. In a make or buy decision, the variable cost of making the product or part/component of product is compared with its purchase price prevailing in the market.

In this decision making process, it may be possible that the decision to manufacture does not result in increasing the fixed cost, and the existing manufacturing facilities cannot otherwise be utilised profitably. Thus, where no fixed costs are incurred for producing the product or component, the main criterion is that it would be more profitable to manufacture than to purchase, if the variable cost is lower than the purchase price.

For example, if a particular component can be acquired at a cost of ₹40 from the market then it will be profitable for the project to produce that component if the variable cost is below ₹40. Here it is assumed that no extra fixed costs are to be incurred on the manufacturing of these components.

However, where the component manufacturing involves additional fixed expenditure, purchase of any plant and machinery or establishment of a new separate unit, then total cost will have to be considered. In such special situations the following tax consideration must be kept in mind:

- (1) **Where the manufacturing of the product requires additional fixed cost also:** In this case, as the assessee will have to incur the additional fixed cost it will form part of the cost of manufacturing of the product.
- (2) **Where the manufacturing of the product requires establishment of a new unit:** In this case, although, there will be cash outflow for establishing a new unit, but the tax incentives shall be as under:—
 - (i) Exemption under section 10AA: The unit of an entrepreneur, which begins to manufacture or produce any article or thing or provide any service in a special economic zone on or after 1.4.2005, shall be allowed a deduction of 100% the profits and gains derived from the export, of such articles or things or from services for a period of 5 consecutive assessment years beginning with the assessment year relevant to the previous year in which the Unit begins to manufacture or produce such articles or things or provide services, as the case may be, and 50% of such profits and gains for further 5 assessment years. Besides this, a further deduction for next 5 consecutive assessment years beyond the period of 10 assessment years mentioned above shall be allowed if certain conditions are satisfied.
 - (ii) Depreciation under section 32: Since a new unit will be established, it will acquire building, plant and machinery, furniture and certain intangible assets, the assessee, in this case, shall be eligible for depreciation on such assets.
 - (iii) Deduction of Interest on money borrowed for acquisition of such capital assets: If the money is borrowed for the acquisition of above capital assets, the assessee will be eligible to claim interest as deduction.
- (3) **If the facilities for production are existing and the assessee wishes to discontinue the manufacturing of such product:** It is possible that buying of such product is cheaper than manufacturing and if it is to be continued for a very long time, the assessee may have to sell the existing plant and

machinery etc. In this case, there will be short term capital gain/loss if the entire block of assets is sold or there will be short term capital gain if the part of the block is sold for a price more than the W.D.V. of the block.

(d) Repair/Renewal or Replacement of an asset: The old and worn out assets need to be either repaired/renewed or replaced at regular intervals. Sometimes, even a good machine requires up gradation or replacement so as to compete in the market. The main tax consideration in these cases shall be whether the assessee, while computing his business income, shall be allowed deduction on account of such expenditure or not.

Repairs/Renewal: Deduction for expenditure on repairs/renewal will be allowed as revenue expenditure in computation of business income as under:—

If the building is a rented building, any expenditure on repairs shall be allowed as deduction. On the other hand, if the building is owned, only current repairs shall be allowed as deduction.

As regards plant & machinery, only current repairs shall be allowed as deduction.

However: the accumulated repairs in the above cases can be claimed under section 37(1).

It may be noted that if the repairs expenditure are of capital nature it shall not be allowed as deduction either under section 30, 31 or 37.

Replacement of assets: If the asset has to be replaced, the expenditure incurred on replacement shall be capital expenditure and the assessee shall only be entitled to depreciation on such assets and as such, the entire expenditure cannot be claimed as deduction which was allowed in case of repairs. The capital expenditure incurred on construction of super structure on rented building is also eligible for depreciation under section 32.

Tax planning in case of employee's remuneration

This requires consideration from the point of view of—

- (1) Employer: While calculating the business income of the employer, the remuneration payable to the employee, in whatever form, should be fully deductible otherwise the employer will have to pay tax on such remuneration also as the same will not be allowed as deduction while computing his business income.
- (2) Employee: The salary received by the employee, whether in cash or kind, should attract minimum income tax liability. He should be in a position to avail maximum exemption / concession in respect of such salary received by him. Some of the exemptions / concessions available to employee under Income Tax Act are as under:
 - (i) Section 10(10) exemption in case of death-cum-retirement gratuity.
 - (ii) Section 10(10A) exemption of commuted pension.
 - (iii) Section 10(10B) exemption of retrenchment compensation.
 - (iv) Section 10(10C) exemption of compensation on voluntary retirement.
 - (v) Section 10(13A) exemption of House Rent Allowance.
 - (vi) Section 10(14) exemption of specified/notified special allowance.
 - (vii) Tax free perquisites, like medical facility, reimbursement of medical expenses, telephone at the residence of employee, free lunch or dinner / free refreshment, leave travel concession, etc.
 - (viii) Contribution by the employer to the provident fund or other welfare fund of the employee.
 - (ix) Perquisites taxable at concessional rate, like rent free accommodation, motorcar, etc.

TAX PLANNING-AN OVERVIEW

Q.1. Why is tax planning necessary?

Answer. The tax paid is an addition to the cost. Just as every businessman tries to maximise his profit by reducing the cost, he should also arrange his affairs in such a way, that he pays the least amount of tax. This however should be done within the four corners of law and there should be no element of fraud in it.

Q. 2. Is tax planning confined only to direct taxes?

Answer. No. The effect of other taxes like sales-tax, customs duty and excise duty, are to be taken into account. It is a dynamic concept and the decision once taken is not valid for all times and requires continuous reappraisal.

Q.3. Is tax planning harmful?

Answer. Tax planning is not harmful. The tax saved can always be recycled in business and not necessarily wasted in conspicuous personal expenditure. The idea behind grant of incentives is to stimulate economy and hence there should be proper planning to make use of these incentives.

Q. 4. When should planning be done?

Answer. Planning has to be done before the income accrues or arises, i.e., at the source itself. Planning done after receipt of income is only diversion of income and may even lead to an inference of fraud.

Q. 5. What are the factors to be taken in tax planning?

Answer. The choice of taxable entity and other choice like time and place have all are common instances. Time is relevant for fixing the year of accrual. Place is relevant for fixing the residential status. The status in which the income is to be assessed, i.e., individuals, HUF firm or AOP or company is also to be considered.

Q. 6. Has tax planning any effect on the rate of tax?

Answer. Yes. As dispersal of income over different taxable entities, slab rate can be reduced .

Q. 7. What is the difference between dispersal and diversion of income?

Answer. Dispersal ensures that income accrues separately in different hands. Diversion is said to take place when money is siphoned off to other hands after accrual in one hand. The decision of the Supreme Court in *CIT vs. Sitaldas Thirakhdas* is as to what constitutes diversion as distinct from dispersal. In this case, an amount of annuity decreed by the court to be paid by son to his mother in view of his obligation was held to be dispersal, i.e., diversion by overriding title, so that he was entitled to reduce such payment from his taxable income. While diversion by overriding title will amount to dispersal, any other diversion without title at source is a mere application of income. The decision of Supreme Court in *CIT vs. Thakar Das Bhargava* illustrates the principle of application of income, which does not help, where a lawyer who had assigned his right to fees to a charitable institution and had not received the same was still held liable to pay tax on such fees.

Q. 8. Does tax planning include compliance within law?

Answer. Certainly. Timely filing of returns, payment of advance tax, finally tax deduction at source, etc., are all important to avoid penal interest, penalty, prosecution, etc.

Q. 9. Is method of accounting important?

Answer. Yes. It is because income for tax purposes is one which is ascertained on the basis of what is computed under ordinary principles of commercial accounting subject only to such adjustments as are specifically required by the statute.

Q.10. What is the caution necessary in tax planning?

Answer. Tax planning may be legitimate provided it is within the law. But colorable devices are not only dishonorable but should not be recognized by the Assessing Officer. One such device is to avoid tax though not prohibited by the statute. It is not necessary that there should be a specific disapproval of every device or scheme. If they are artificial, they are prone to be rejected. What is to be noted is that the device should be genuine in that the income really goes to the person to whom it is intended and does not come back or held effectively by the deviser of the scheme.

Though the decision of the Supreme Court in *Union of India vs. Azadi Bachao Andolan* has granted great recognition to tax planning, the warning against artificial transactions lacking in commercial credibility in *McDowell's* case is still valid.

The concessional treatment for Short-term Capital Gains is available on such gains under section 111A. It may, however, be noticed that these concessions are available only where the transactions are on capital account and not where the shares are held as stock-in-trade.

TAX PLANNING-AVAILABLE AREAS

Q. 1. How to choose the most suitable form of organisation for tax planning?

Answer. It depends on the rate of tax applicable to the organisation, business needs, risk of non-observation of formalities, ability to raise finance, etc.

Q. 2. In what way, does the choice of head of income affect tax?

Answer. Actually assessment under different heads has diverse results as regards deduction and taxability. An asset, if it is property, gets a lump sum deduction at one fourth of annual value and as a business asset it gets depreciation on cost. On sale long term capital gains arises in former case and Short Term Capital Gains in latter.

Q. 3. How to select a location for business?

Answer. Deficiencies in infrastructure have to be balanced against the tax incentives. Excise duty and Sales-tax implications may also prove to be of greater importance.

Q. 4. What is the impact of the size of the business?

Answer. Small units gets some concession from State authorities. Dispersal amongst separate subsidiaries will give relief under certain sections.

Q. 5. Can accounting method have an impact on tax?

Answer. Yes. At present, only two methods mercantile and cash are available. For professionals and money lenders cash system is preferred. Also accounting practices to reflect the correct amount of income have to be adopted so that there is no overload in some years and deficiency in others. Inventory valuation is another area of accounting, which has impact on tax. But it should also be borne in mind that where the statute itself determines the income, accounting method has no relevance.

Q. 6. In what way capital can be restructured for maximum benefit?

Answer. A balance between own and borrowed capital has to be achieved. When own capital is more there will be larger taxable profits and poorer after-tax return. With more borrowed capital, taxable profits are less but after-tax return on own investment is better. There should be a continuous appraisal in this behalf.

Q. 7. What is the best investment?

Answer. Choice of investment depends on the expectations of the investors. Risky investments may involve larger profit or loss. Safe investments give a lesser but steady return. Period of holding depends upon varying needs of liquidity for the investors. As between investment in shares, deposits and debentures in companies, dividends have an edge because these are not taxed in the hand of the receiver. Interest is fully taxed subject to certain deductions.

Q. 8. What should be the consideration regarding investment in plant and machinery?

Answer. Depreciation is a significant deduction from taxable income. Plant and machinery relating to generation of power and pollution control equipment, and those relating to Research and Development, etc., are eligible for 100% deduction. Plant and machinery can be acquired, replaced, repaired, purchased or hired or assembled with different tax consequences.

There has been drastic reduction in rates of depreciation effective from assessment year 2006-07.

Q. 9. Is there any restriction in method of valuing stock?

Answer. Accountancy text books give various methods like: cost, market value, cost or market value whichever is less, FIFO, LIFO, etc. Some value obsolete or slow-moving stocks at lesser cost. At any rate the method adopted should be regular and should not distort the profits inviting rejection of accounts.

Q. 10. Is transfer pricing important?

Answer. Transfer pricing is important in reckoning of reliefs as well as in matters of non-resident taxation. Adoption of correct transfer pricing is a matter of concern for Revenue, but it should be equally a matter of concern for taxpayer lest the method adopted loses for himself the benefit which is otherwise available. This is all the more important in international transactions. Sections 92 to 92F may be seen.

Q. 11. What is the importance of dividend policy?

Answer. Dividend policy determines liquidity, possible impact as price of shares, credit rating, borrowing capacity, shareholder satisfaction, etc., which are matters of business policy. It also affects shareholders' tax liability. It is of importance in closely held companies particularly because even loans to substantial shareholders are treated as deemed dividends under section 2(22)(e) of the I.T. Act.

Q. 12. What are the factors to be borne in foreign collaborations?

Answer. The degree of participation of the foreign concern in Indian business, the extent of investment, duration of physical presence in India, the manner in which such participation is expected, whether by way of equity, loan, royalty, technical fees, etc., would decide liability. For the Indian partner the question whether payments made will be allowed as a deduction will be relevant. Double taxation agreements and where there is none section 91 of Income tax Act will also have relevance. The new provision introduced by Finance Act, 2001 in respect of transfer pricing in sections 92 to 92F w.e.f. 1.4.2002 would require consideration in matters of taxation of business income of non-residents.

Q. 13. Can an employee benefit from tax planning?

Answer. There is large scope for tax benefit for employees. This is done by designing a pay package taking into consideration tax-free and concessional perquisites in a manner that take-home pay is maximum. Minimisation of tax incidence in other words an important objective of tax planning. There are certain allowances that are exempted. An employee should make a wise choice between perquisites and allowances and go for the one which is most beneficial for him or her.

TAX PLANNING-FOR INCOME FROM HOUSE PROPERTY

Q. 1. How is income to be computed, if a property is partly let out and partly self-occupied?

Answer. It has to be treated as two residential units and income from each unit has to be computed according to law by allocating common outgoings on a basis proportionate to area of occupation.

Q. 2. Is it necessary that the person must be a legal owner in order that the income should be computed under the head "income from property"?

Answer. No. If a person is entitled to the income under the law, such income is bound to be assessed under the head "income from property". Tax laws are generally concerned with beneficial ownership as laid down in *CIT vs. Podar Cement Pvt. Ltd.*

Q.3. Is municipal tax deductible in computation of income from: (i) self-occupied property; and (ii) where demand notice is reserved but it has not been paid?

Answer. Since income from one self-occupied property is nil, subject only to deduction of interest the question of deduction of municipal tax does not arise. For let out proper-ties, municipal tax is deductible only if it is paid during the year.

Q.4. Is deduction for repairs available, when tenant undertakes repairs under the rental agreement? What is meant by repairs?

Answer. By repairs we mean only substantial repairs as held in *CIT vs. Parbutty Churn Law and Sir Shadi Lai & Sons vs. CIT*. Where even substantial repairs other than normal maintenance is undertaken by tenant, annual value should get enhanced by the extent of repairs which should have been borne by the landlord so that any deduction for repairs then available to landlord will neutralise the amount

added to annual rent. It would, therefore, mean that where there is specific stipulation that all repairs will be borne by tenant, there can be no deduction for repairs.

Q. 5. Is an annual charge on rent receivable on account of mortgage of property for obtaining funds for business or paying income tax deductible under section 24(1)(iv) of the Income Tax Act, 1961 ?

Answer. No. Since it is a charge created voluntarily by the assessee, it is not deductible as was held in *CIT vs. Indramani Devi Singhania*¹ in case of a business loan and *CIT vs. Tarachand Kalyanji* in the case of a charge created for payment of excess profit tax. In the latter case, it was held that the amount is not deductible even if the charge has been created before 1st April, 1969, when such amount was deductible in law.

Q. 6. What are the conditions for deduction of unrealised rent?

Answer. Rule 4 of the Income-tax Rules as substituted by the Income-tax (Eighth Amendment) Rules, 2001 prescribes the conditions as under:

Unrealised rent—For the purposes of the Explanation below sub-section (1) of section 23, the amount of rent which the owner cannot realise shall be equal to the amount of rent payable but not paid by a tenant of the assessee and so proved to be lost and irrecoverable where,—

- (a) the tenancy is *bona fide*;
- (b) the defaulting tenant has vacated, or steps have been taken to compel him to vacate the property;
- (c) the defaulting tenant is not in occupation of any other property of the assessee;
- (d) the assessee has taken all reasonable steps to institute legal proceedings for the recovery of the unpaid rent or satisfies the Assessing Officer that legal proceedings would be useless.

Q.7. Is salary paid to a caretaker deductible?

Answer. No. Only deductions specified under section 24 are deductible.

Q. 8. How is the income of co-owned property computed?

Answer. Income has to be split up between co-owners and each co-owner has to be assessed as his share of the income as provided under section 26 of the Act.

Q. 9. Where an assessee borrows a second loan for repaying the first loan taken for acquiring a property, will the interest on second loan be deductible as amount borrowed for acquiring the property?

Answer. Yes. It is so conceded in Board's Circular No. 28 dated 20th August, 1969.

Q. 10. Ground rent—whether arrears of earlier years deductible?

Answer. No. The deduction under section 24(1)(v) is confined to the ground rent of previous year, and thus arrears of earlier years are not deductible.

Ground rent is no longer deductible from A.Y.2002-2003.

Q. 11. Interest deductible under section 24(1)(vi): whether simple interest or compound interest?

Answer. Only simple interest is deductible.

Q. 12. What is the treatment given to loss from property?

Answer. Loss from property can be set off against other heads of income in the same year and to the extent unabsorbed, it will be carried forward and set off in next eight years.

Q. 13. Where municipal valuation is higher than the rent charged, what is the basis of computation of property income?

Answer. The law requires that either annual value as fixed by the local authorities or actual rent received, whichever is higher, should be treated as annual value. But where the assessee is unable to enhance the rent due to Rent Control Act, there is a case for acceptance of rent receivable as the basis. It was so held in *CIT vs. Sampathammal Chordia*.

Q.14. Are municipal taxes allowed on the basis of tax leviable for a year or on the basis of payment? If it is on the basis of what is leviable, what happens if demand for earlier years is received only during the year with the result that the payments for earlier years are made during the year?

Answer. Section 23(1) allows property tax levied by local authority on the basis of payment from assessment year 1985-86 vide amendment by Taxation Laws (Amendment) Act, 1984 so that the

controversy in the prior law is now avoided. So, the amount paid during the year, including any amount of arrears for earlier years, is deductible in the year of payment.

Q. 15. Where the assessee is a mutual association having a property, will the property income be covered by the principle of mutuality so as to be exempt?

Answer. Yes, it has been held that principle of mutuality applies even to income from house property in *Chelmsford Club vs. CIT*.

Q. 16. The assessee — Mrs. A is in enjoyment of the property but the right is limited only for life under a Will in her favour. Who has to pay the tax, whether she as the person in enjoyment of the property as the holder of life interest or the remainderman treated as the owner in law?

Answer. Ownership is a bundle of rights. Right to enjoy the property is also a right which is part of such ownership right. Hence it will be assessable in the hands of life interest owner. It has been so held in *Estate of Ambalal Sarabhai vs. CIT*.

Q. 17. Where an assessee receives interest on deposit taken from a tenant, is it necessary to enhance the annual value by the notional interest which would have otherwise been payable?

Answer. Where actual rent received is more than the fair rent, i.e., annual value fixed by the local authorities, notional interest need not be added. It was so held in *CIT vs. J.K. Investors (Bombay) Ltd.* Where such notional interest is to be taken, as for example, where no rent is charged because of such interest free deposit, the interest or other income earned by deployment of the interest free deposit will have to be correspondingly reduced from the annual value but the law does not provide for the same. But it stands to reason that such reduction may have to be allowed, though it is doubtful whether such reasonable interpretation will be acceptable to revenue.

Q. 18. Is it open to the Assessing Officer to substitute reasonable rent where the property is let out to an associate company at a lower rate?

Answer. Since annual value is not the only criterion, it is open to the Assessing Officer to adopt a reasonable rate where it is let out at a concessional rate. It was so held in *T. V. Sundaram Iyengar & Sons Ltd. vs. CIT*.

Q. 19. Where the property is in existence for less than 12 months, is it possible to assess the income as income from property since the scheme of the Act is to assess the annual rent? Does the income escape assessment in such cases?

Answer. The argument that the property should have been held for entire 12 months to be assessable under the head 'Income from property' was accepted in *P.J. Eapen vs. CIT*. But it was held that such income will be assessable under 'Other sources'. The decision is open to doubt because there is no reason why the proportionate income should not be assessed with reference to the period of holding because such proportionality is recognised in section 23 where the property is let out for part of the year and used for own residence for rest of the year under section 23(2)(a)(ii). Hence, similar apportionment should be possible though the annual value is with reference to the income which the property might fetch if let out from year to year.

Q. 20. Where the deduction under section 24 exceeds the available income, can such excess be allowable?

Answer. Where the property is partly let out and partly used for own residence, the deduction under section 24(1) will be limited to the income determined under that clause under the substituted section 24 by Finance Act, 2001. with effect from 1.4.2002, there are no detailed deductions but only 30% of annual value and interest on borrowed capital subject to the limit of ₹ 30,000 for self-occupied property with enhanced limit up to ₹1.50 lakhs subject to conditions as to the date of the loan and the date of construction. Hence, there can be a loss from the property depending upon interest on borrowed capital. It is only in respect of annual value, that there cannot be loss.

Q. 21. There is a practice of receiving deposit instead of rent. The assessee accounts for interest on such deposits as its income. Should he also account for notional income from property?

Answer. The answer was against the assessee in *S.Ujjanappa vs. CIT*, where it was held that ownership confers the duty to account for notional income from such property. The issue as to whether it involves

double taxation was not posed in this case. Interest income earned by the assessee on the deposits or notional interest when used in business could have been set off against such income. There is clearly double taxation implicit in such cases. In *Webb's Agricultural & Automobile Industries vs. ITO*, a car received by way of lottery winnings brought to tax as income was held to be eligible for depreciation, though assessee had not paid for the same, because of the notional cost. This line of reasoning should avoid elimination of double taxation by setting off the two incomes one notional and the other real as between them, but the law on the subject is still nebulous.

Q.22. Is the amount of interest paid on unpaid consideration for acquiring property deductible as interest on borrowing under section 24(1)(vi) of the Income-tax Act?

Answer. In the context of similar interest on unpaid consideration for acquiring a business; the Supreme Court had held in *Bombay Steam Navigation Co. (1953) P. Ltd. vs. CIT* that such interest is not deductible under section 36(1)(iii) of the Income-tax Act, 1961. But in the same case, it was found that it can be allowed as deduction under section 37 of the Act. It is for this reason that it has felt that in absence of similar residuary clause, interest on unpaid consideration for acquiring property would not be deductible. However it was found in *CIT vs. Sunil Kumar Sharma* following *CIT vs. R.P. Goenka and J.P. Goenka* that it makes no difference, whether the buyer borrows from a third party to acquire a property or gets the necessary financial assistance from the seller of the property. It should be construed that the seller is the lender and the purchaser is the borrower. It would thus appear that such interest is deductible.

Q. 23. What is the change in respect of computation of property income by the Finance Act, 2005?

Answer. There is no change in computation of property income, but the incentive for re-payment of loan for acquiring a property is enlarged by removing the limit of ₹ 20,000 in respect of such repayment and by providing such repayment as an outright deduction from the gross total income by the new section 80C substituting section 88, subject, however, to the limit of total deduction under section 80C to ₹ 1 lakh. Interest payable on such loan would be admissible as deduction, if the property were let out, subject to limit of ₹30,000 in case of self- occupation.

Q. 24. If a person puts up a property on leased land, is the lease rent deductible as income from property?

Answer. There is no special provision for deduction of lease rent as was available in the pre-existing law under section 24 either as an annual charge on the property or as ground rent, but all the same, what is payable on leased land gets diverted at source and should not be part of the annual value, so that in determination of annual value, the amount should be deductible. Any other view could not be reasonable. An alternative argument may well be that if it is not deductible, income itself may not be assessable as a property income as the assessee is not the full owner of the property, so that income will be assessable as from "Other sources", so that the deduction in such a case cannot be denied, though the assessee may not be eligible for an ad hoc deduction at 30%; but only actual repairs, where it is assessable as income from other sources.

Q.25. Where a landlord undertakes to meet the expenses of watch and ward, corridor, lighting, lift, etc., are such expenses deductible from property income?

Answer. Expenses which are ordinarily borne by the tenant, but undertaken by the landlord according to terms of rental agreement will go to reduce the annual value, because the rental value of the property can only be the net income after meeting the tenant's burden.

Q.26. Where the assessee allows the property to be used by firm of which he is a partner without charging rent, is he entitled to self-occupation allowance or depreciation?

Answer. Since the firm is not a separate legal entity, the use of property by the firm should be treated as use and occupation of the property by the partner itself, so that self-occupation benefit will be available from income from such property. If the property is used for business, there is eligibility for depreciation also.

Q. 27. Where a partner allows the use of the property by the firm and charges rent for the same, would he be entitled to ad hoc deduction at 30% or depreciation of the property because of the use for business?

Answer. Since the rent is received from a firm of which he is a partner, the amount of rent receivable may not be treated as received in his capacity as landlord, but as a partner. If the property is used for business, the owner should be entitled to depreciation. It was so held in *CIT vs. Ramlubhaiya R. Malhotra* following *A.M. Ponnuranga Mudaliar vs. CIT*. The latter decision was followed in *CIT vs. Texspin Engineering and Manufacturing Works*.

Q.28. In the case where a tenant sublets the property, is the rent paid by the tenant deductible from the income from subletting?

Answer. Since the tenant is not the owner, the income should ordinarily be assessable as income from other sources, so that the rent paid should be deductible. Even if it were lease- hold property, the rent paid may have to be taken into account in determining the annual value. Contrary view taken in *CIT vs. Hemraj Mahabir Prasad Ltd.* would need review.

Q.29. Where the assessee borrows money on mortgage of his property for his daughter's marriage, is such interest paid deductible from the property income?

Answer. Merely because the loan is charged on the property, interest does not become deductible, because the amount is not borrowed for purpose of acquiring or constructing the property.

Q.30. To take advantage of mutuality principle, persons renting the hall of a club for marriage become temporary members. Is such receipt exempt from liability in the hands of the club?

Answer. No. There is no mutuality involved. Temporary membership for an ulterior purpose is not permissible. The rents are taxable in the hands of the club.

TAX PLANNING-FOR BUSINESS EXPENDITURE

Q. 1. There is a prevailing practice of a businessman taking loan of stock from another businessman and returning the same. Since he may have to pay for replacement at a higher price for return of loan of stock, can a provision made for the extra cost be deductible?

Answer. The issue had come up in *Welding Rods Manufacturing Co. vs. CIT*, where it was found that the price rise at the time of closure of accounts in respect of outstanding loan of stock could be recognised and the provision therefore would be allowed as a deduction. In coming to the conclusion the High Court followed the decision in *Calcutta Co. Ltd. vs. CIT*.

In this context, one may refer to the statutory provision in section 47(xv) in respect of capital gains on stock lending, whereby tax on capital gains is spared on such stock lending, if the guidelines issued by Securities and Exchange Board of India had been followed. The provision, however, is only for exemption from capital gains and the mere act of lending of securities in pursuance of stock lending scheme. It cannot have application for dealers in shares. Similarly, the final outcome of the transaction even in the case of an investor may have to be recognised for capital gains tax purposes under the law as exemption is at the stage of lending and not at the stage when the contractual obligation gets discharged.

Q. 2. Does a liability arise under excise law on show cause notice, which makes a special recognition for show cause notice, where such notice has been issued?

Answer. Notwithstanding the effect of a show cause notice, it does not create a demand for payment by itself, so as to justify the amount covered by the notice as statutory liability, on the basis of the decision in *Kedarnath Jute Mfg. Co. Ltd. vs. CIT*. It was so pointed out in *CIT vs. Morarji Goculdas Spg. & Wvg. Co. Ltd.*

Q. 3. Should the right to deduction await final result of any claim?

Answer. Courts have not taken a uniform view. Ordinarily when a final decision is awaited, deduction could be made only in the year in which the matter gets resolved as in the case of requirement of approval from the authorities following the decision in *Nonsuch Tea Estate Ltd. vs. CIT*. But in a case on converse facts, it was held that in the accrual concept in mercantile system of accounting, a mere requirement of approval, when it has become available at the time of assessment or even in appeal, such delay in approval need not bar assessment in the year of receipt as was held in *CIT vs. Jai Hind Travels (P) Ltd.*, where the concept of the doctrine of relating back was adopted for accrual system. Such a view cannot be treated as non-controversial. Deduction need not be denied, where *ex post facto* approval is a formality. It is difficult to draw a line in such cases. It is for the taxpayer to make a provision in such cases in the year of claim, so that even if it is disallowed, it can be claimed in the year of payment. Failure to make the claim in an earlier year may lose the right, if revenue decides that the claim could be allowed only in the first year.

Q. 4. Is it open to the Revenue to disallow a portion of electricity charges paid with reference to the refund claim made during the year, but given in a subsequent year?

Answer. Receipt of refund in a subsequent year cannot be taken as a ground for not allowing a deduction at the time, when it was payable as was held in *Travancore Chemical and Mfg. Co.Ltd. vs. CIT* following the decision in *CIT vs. Bharat Iron and Steel Industries*, The High Court pointed out that

the need for section 41(1) to tax amounts that had been remitted or waived would not have arisen, if allowance due for an earlier year could be modified with reference to the later waiver or remission.

Q. 5. Is it possible to value stock by methods other than cost, market value, or cost or market value, whichever is lower?

Answer. Any method which is consistently followed and is not likely to distort the income and is consistent with accounting principles should be acceptable. Lower valuation for slow moving goods in the view that future carrying cost would require to be taken into consideration was approved in *India Motor Parts and Accessories P. Ltd. vs. CIT*. The method, it was pointed out, had been suggested as a proper valuation in *Industrial Accountants Hand Book* edited by Wyman P Firke of John A. Beckett. Such a view had also the approval of Delhi High Court in *CIT vs. Bharat Commerce and Industries Ltd.* .

Q. 6. How is the work in progress valued? Should the overheads be treated as part of cost?

Answer. Work-in-progress is generally valued at cost. The issue as to whether the overheads should be taken into consideration by adoption of "on-cost" basis or whether only direct cost should be taken was considered in *Duple Motor Bodies Ltd. vs. Inland Revenue Commissioner* , where it was found that either method can be adopted but where the assessee has adopted one method, it is not open to him to change it.

Where an assessee had followed a method of accounting, which excluded over-heads in valuation of work-in-progress on the ground that the goods under manufacture may not result in marketable commodities, the Tribunal rejected the change mainly on the ground that there was no evidence of possible deterioration of work-in-progress. The High Court, however, found that since the assessee had followed the same method in earlier years, it was entitled to continue the same practice. The Supreme Court in *CIT vs. British Paints India Ltd.* decided on the short point that merely because a system has been consistently followed, it does not mean that Revenue is bound by it, if it finds that it is not consistent with accounting principles. If the income could not be rightly deduced from the system followed, it was open to the Assessing Officer to reject the same, since there is no estoppel in such matters. According to this decision, the cost ordinarily has to reckon overheads as well. The distinction between finished stock and work-in-progress was however not appreciated in this case, when it reversed the decision of the Calcutta High Court. But it is still an authority for the view that the method followed should be consistent with accounting principles. A scientific method of valuation of work-in-progress is probably only the retrievable value or a value which makes an allowance for a situation, if the goods turn out to be non-marketable. In other words, valuation at less than the cost or market value for work-in-progress should be permissible in certain lines of manufacture, where there is possible wastage before completion of the manufacture of the product, if such valuation is consistently followed.

Q. 7. An assessee had the practice of accounting receipts from contract only when the bills raised by it were passed by the contractee. Where such a method is regularly followed, can it be rejected by the Assessing Officer?

Answer. Yes. It was so held in *CIT vs. Shaik Mohd Rowther Shipping and Agencies (P) Ltd.* , where it was pointed out that the method is not consistent with any accounting principles. The work has been done on the basis of which bills were raised. 90% of the amount was also received, the balance pending for passing of the bills. Merely because the amount received is shown as advance, it is not possible to postpone recognition of revenue. The mere fact that the Assessing Officer had not disturbed the system in earlier years does not prevent him from correcting the same as the principle of *res judicata* can have no application to tax cases as was pointed out in *CIT vs. Brit.*

Q.8. Which is the best head of income from tax point of view, where there is a possible choice?

Answer. The best head is business as it is eligible for a list of deductions and reliefs.

Q.9. A business executive has purchased and sold shares through a stock broker. Will the loss, if any, be assessable under the head "business" or "capital gain"?

Answer. The mere fact that he has purchased and sold shares through a broker does not entitle the assessee to treat the income as business income. There should be a continuous activity. Moreover, if the interval between purchase and sale is short, profit will be referred under the head "Short Term Capital Gains" without any advantage.

Q.10. A piece of land acquired five years before is plotted out and sold. What is the head of income?

Answer. To treat the sale of land as a business transaction more facts are required. There should be facts to suggest that the land was converted to a business asset and dealt with as such and the sale is not just for the sake of realisation of appreciation in value.

Q.11. Can what is “accrued but not due” ever be treated as accrued for tax purposes? What is the correct treatment of interest from cumulative deposits in the hands of payer and payee?

Answer. This depends on the system of accounting. An assessee might choose with advantage to declare that income from year to year on accrual basis. However, the payer will deduct tax on the accumulated interest at the time of payment accords to section 194A in which case the assessee may have to ask for a refund.

Q.12. How far are Accounting Standards relevant in computation of business income?

Answer. Income for income-tax purposes is computed under ordinary principles of commercial accounting. Accounting Standards lay down such principles accepted by the profession and have even been made mandatory for purposes of company law. Hence they have great persuasive value.

Q.13. A taxpayer has changed his method of stock valuation. Statutory audi-tors did not agree to the change and have qualified the balance sheet. Assessing Officer relies upon the decision of Supreme Court in *British Paint's* case for rejecting the change. Is he justified in doing so?

Answer. What is required is that the change in the method of valuation should be bona fide and thereafter followed continuously.

In *Karnataka State Forest Industries Corporation Ltd. vs. CIT* High Court found that the Income-tax Officer cannot reject a change in the method of valuation of stock merely because statutory auditors objected to it.

Q.14. A firm replaces defective TV sets long after the guarantee period was over with a view to maintain goodwill of the firm. Cost of replacement is disallowed by the Assessing Officer. Is he right?

Answer. Since the outlay was incurred on grounds of commercial expediency the claim is admissible. The paragraph under “commercial expediency” (supra) would give necessary authorities for the same.

Q.15. Is a payment made to Life Insurance Corporation of India towards group gratuity fund deductible under section 36(1)(v), though it has not been routed through an approved gratuity fund?

Answer. The deduction need not be denied merely because a direct payment has been made as long as it is towards account of group gratuity fund. It was so decided in *CIT vs. Textool Co. Ltd.* In fact this would have even otherwise been allowed under Sec. 37.

Q.16. Can dumpers used in contract work be classified as earth moving machinery?

Answer. Yes. They are entitled to depreciation and extra depreciation as earth moving machinery as held in *CIT vs. Abdulkarim Stone Contractor* . They are not road transport vehicles.

Q.17. What is meant by block asset?

Answer. Certain types of assets are grouped into one block and additions to the same will be treated as part of the block.

Q.18. What are the changes brought about by bringing in the concept of ‘block asset’ in evaluating cost for depreciation?

Answer. Each item of machineries is not separately considered for depreciation. Where a particular capital asset or assets forming part of the block is sold, the difference between the full value of the consideration on one hand and the WDV of the block asset, plus expenditure incurred in the transfer, plus value of any asset added to the block on the other hand is treated as Short-term Capital Gains.(Sec. 50)

The idea was to give up the profit under section 41 (2) as it stood then which represented the amount of depreciation actually received. Earlier this amount was added as income and any excess above the depreciation was to be treated as capital gains as held in *CIT vs. Artex Manufacturing Co.*

However section 41 (2) has now been reintroduced with effect from 1.4.1998.

Q. 19. The assessee has a project report for a new venture carried out at the cost of ₹5 lakhs. Assessing Officer disallows the same as the venture re-lates to a new business. Is the assessee eligible for deduction and if not, is he eligible for depreciation?

Answer. If the project report relates to an existing business for its expansion, it will be a revenue expenditure. But if it relates to a new business, it will be a capital expenditure eligible for depreciation as decided in *CIT vs. Harsha Tractor Ltd.* following the decision in *Scientific Engineering House P. Ltd. vs. CIT*. After amendment to section 32(1) allowing depreciation on intangible assets from 1.4.1998, it is a matter of statutory right for the assessee to get depreciation not merely by treating such project report as a plant as under the pre-existing law but as an intangible asset on par with other tangible assets, so that the cost is entitled to depreciation like other intangible assets like know-how, patents, copyrights, trademarks, licence, franchise or any other business or commercial rights of similar nature.

Q.20. Where an air-conditioning plant is fixed in a bus, would such air-conditioner and bus be eligible for rates respectively applied to them?

Answer. Air-conditioning plant, which is an integral part of bus would not be entitled to rate of depreciation different from what is available for motor vehicles, where they are installed.

Q.21. Can fencing be treated as a plant?

Answer. No, it can be treated only as a building.

Q.22. It is the normal practice of revenue to deduct all depreciation allowed including initial depreciation in arriving at the WDV. Is this correct?

Answer. According to Gujarat High Court, depreciation is referable to wear and tear. Initial depreciation being in the form of an incentive is not to be deducted.

Q.23. Where a wholly owned subsidiary company acquires depreciable assets from the holding company at market value, is it eligible for depreciation on such market value?

Answer. No. Explanation 6 to section 43(1) provides that in the case of acquisition of assets by a wholly-owned subsidiary from its holding company, the written down value of the holding company will be the actual cost to the subsidiary as held in *Dalmia Ceramic Industries Ltd. vs. CIT*.

Q.24. Could a road in a factory building used exclusively for industrial purpose be treated as a plant for purposes of depreciation?

Answer. Road could not be treated as a plant, but only as a building for purposes of depreciation.

Q.25. Where the assessee undertook gratuity liability of the vendor of the business as per agreement for sale, such liability is also consideration, so that it could be treated as part of the cost of assets entitled to depreciation. Is this correct?

Answer. Since the assessee has undertaken only a future liability, it cannot form part of the cost so as to be entitled to depreciation.

Q.26. Is it possible to capitalise expenditure as cost of the asset for purposes of depreciation?

Answer. Expenditure which has nexus with the asset can be treated as part of the cost of the asset. Cost of temporary electricity connection, power line and inspection fee relating thereto were held to be part and parcel of cost of machinery for purposes of depreciation.

Q.27. Are computers office equipments so as to be ineligible for investment allowance or additional depreciation?

Answer. 'Office equipment' has not been defined in the statute. What is barred is plant and machinery installed in office premises. Office premises have also not been defined. In case of a doctor, a clinic may be his office, but at the same time, it is also his place of practice. A computer is not ordinarily an office equipment like a typewriter or a duplicating machine. Computers are, therefore, eligible for investment allowance, when it was in vogue and additional depreciation.

Study Note - 10

DOUBLE TAXATION RELIEF

This Study Note includes

10.1 Agreement with Foreign Countries or Specified Territories [Section 90]

10.2 Adoption by Central Government of agreement between Specified Associations for Double Taxation Relief [Section 90A]

10.3 Countries with which no Agreement Exists [Section 91]

10.4 Tax Residency Certificate [TRC] [Section 90A]

10.5 Certain Special Cases

10.1 AGREEMENT WITH FOREIGN COUNTRIES OR SPECIFIED TERRITORIES [SECTION 90]

- (1) The Central Government may enter into an agreement with the Government of any country outside India or specified territory outside India-
 - (a) for the granting of relief in respect of-
 - (i) income on which have been paid both income-tax under this Act and income-tax in that country or specified territory, as the case may be, or
 - (ii) income-tax chargeable under this Act and under the corresponding law in force in that country or specified territory, as the case may be, to promote mutual economic relations, trade and investment, or
 - (b) for the avoidance of double taxation of income under this Act and under the corresponding law in force in that country or specified territory, as the case may be, or
 - (c) for exchange of information for the prevention of evasion or avoidance of income-tax chargeable under this Act or under the corresponding law in force in that country or specified territory, as the case may be, or investigation of cases of such evasion or avoidance, or
 - (d) for recovery of income-tax under this Act and under the corresponding law in force in that country or specified territory, as the case may be, and may, by notification in the Official Gazette, make such provisions as may be necessary for implementing the agreement.
- (2) Where the Central Government has entered into an agreement with the Government of any country outside India or specified territory outside India, as the case may be, under sub-section (1) for granting relief of tax, or as the case may be, avoidance of double taxation, then, in relation to the assessee to whom such agreement applies, the provisions of this Act shall apply to the extent they are more beneficial to that assessee.
- (2A) Notwithstanding anything contained in sub-section (2), the provisions of Chapter X-A of the Act shall apply to the assessee even if such provisions are not beneficial to him.
- (3) Any term used but not defined in this Act or in the agreement referred to in sub-section (1) shall, unless the context otherwise requires, and is not inconsistent with the provisions of this Act or the agreement, have the same meaning as assigned to it in the notification issued by the Central Government in the Official Gazette in this behalf.

- (4) An assessee, not being a resident, to whom an agreement referred to in sub-section (1) applies, shall not be entitled to claim any relief under such agreement unless a certificate of his being a resident in any country outside India or specified territory outside India, as the case may be, is obtained by him from the Government of that country or specified territory.
- (5) The assessee referred to in sub-section (4) shall also provide such other documents and information, as may be prescribed.

Explanation 1 -For the removal of doubts, it is hereby declared that the charge of tax in respect of a foreign company at a rate higher than the rate at which a domestic company is chargeable, shall not be regarded as less favourable charge or levy of tax in respect of such foreign company.

Explanation 2 -For the purposes of this section, "specified territory" means any area outside India which may be notified as such by the Central Government.

Explanation 3 -For the removal of doubts, it is hereby declared that where any term is used in any agreement entered into under sub-section (1) and not defined under the said agreement or the Act, but is assigned a meaning to it in the notification issued under sub-section (3) and the notification issued thereunder being in force, then, the meaning assigned to such term shall be deemed to have effect from the date on which the said agreement came into force.

Concept of Business Connection and Permanent Establishment: The liability to tax in the source country generally arises out of "Business Connection" or through what is called "Permanent Establishment". Most of the agreements spell out what they regard as "Permanent Establishment" as this is of utmost importance while fixing the tax liability. These agreements also lay down maximum limits of tax that can be levied or withheld and the manner in which it can be levied.

Meaning of business connection [Explanation 2 to section 9(1)]: For the removal of doubts, it is hereby declared that "business connection" shall include any business activity carried out through a person who, acting on behalf of the non-resident,—

- (a) has and habitually exercises in India, an authority to conclude contracts on behalf of the non-resident, unless his activities are limited to the purchase of goods or merchandise for the non-resident; or
- (b) has no such authority, but habitually maintains in India a stock of goods or merchandise from which he regularly delivers goods or merchandise on behalf of the non-resident; or
- (c) habitually secures orders in India, mainly or wholly for the non-resident or for that non-resident and other non-residents controlling, controlled by, or subject to the same common control, as that non-resident.

However, such business connection shall not include any business activity carried out through a broker, general commission agent or any other agent having an independent status, if such broker, general commission agent or any other agent having an independent status is acting in the ordinary course of his business.

Further, where such broker, general commission agent or any other agent works mainly or wholly on behalf of a non-resident (hereafter in this proviso referred to as the principal non-resident) or on behalf of such non-resident and other non-residents which are controlled by the principal non-resident or have a controlling interest in the principal nonresident or are subject to the same common control as the principal non-resident, he shall not be deemed to be a broker, general commission agent or an agent of an independent status.

The concept of Permanent Establishment is one of the most important concepts in determining the tax implications of cross border transactions. The term Permanent Establishment (PE) postulates existence of a substantial element of an enduring or permanent nature of a foreign enterprise in another country which can be attributed to a fixed place of business in that country.

Article 5(1) of the DTAA provides that for the purpose of this convention the term 'Permanent Establishment (PE)' means a fixed place of business through which the business of an enterprise is wholly or partly carried in.

Accordingly Article 5(2) enumerates various instances of PE. The term PE includes (a) a place of management (b) a branch (c) an office (d) a factory (e) a workshop (f) a sales outlet (g) a warehouse (h) a mine, a oil or gas well, a quarry or other place of extraction of natural resources.

Business income of a non resident will not be taxed in India unless such non-resident has a permanent establishment in India.

Thus if there is no double taxation agreement with the country of which the non-resident in India is a resident, we will see his business connection in India and tax such income in India to the extent such income is attributable to business connection in India. On the other hand, if there is a double taxation avoidance agreement with the country of which the non-resident in India is a resident, we will see whether such non-resident has Permanent Establishment (PE) in India as per Article 5 of the treaty. If he has PE in India, then Article 7 of treaty shall apply to tax such income in India.

DTAA overrides the provision of Income-tax Act: Where an entity does not fall within the meaning of "permanent establishment" as per the DTAA, it cannot be taxed in India by virtue of its business connection as per Explanation 2 to section 9(1)(i) as in the particular case, DTAA provided that income of non-resident shall be taxable only when it has permanent establishment in India. If such non-resident has business connection in India, such income shall not be taxable in India. Therefore, even though the foreign publishing house has business connection in India, since the applicant is not covered by the definition of 'PE' as contained in article 5 of the DTAA, the publishing house is not liable to tax under the treaty [Speciality Magazines Pvt. Ltd, In re (2005) 274 ITR 310 (AAR - New Delhi)].

Residential status under Double Tax Avoidance Agreement is generally decided in the case of a company not with reference to the place of incorporation, but with reference to the place of "effective management" [Integrated Container Feeder Service vs. Joint CIT (2005) 278 ITR (AT) 182 (Mumbai)].

The applicant is a company incorporated in the UAE. The applicant company is engaged in offering remittance services for transferring amounts from UAE to India on commission basis. It received the entire commission in UAE. The company was granted licence by the RBI for setting up liaison offices in India for undertaking certain approved activities. The activities of the liaison office were:

- (a) Attending to complaint of clients in cases where remittances are sent directly to banks in India; and
- (b) Downloading information from internet, printing cheques/drafts in the name of beneficiaries and sending them through couriers to various places in India in cases where the applicant has to be remit amounts to beneficiaries in India.

As regards the first activity, where the amount is directly transferred, the liaison office has no role to play except to attend to complaints of clients. This work is of auxiliary nature, and so the applicant is exempted from constituting a Permanent Establishment (PE) as per the DTAA between India and UAE. However, as regards the second activity, the liaison office performs an important part of the main work since the performance of the contract would not be complete without remittance of the amount to the beneficiaries. Therefore, the liaison office undertaking this work would constitute PE of the applicant. In such a case, that portion of the profits which is attributable to the liaison office (PE) is deemed to accrue to the applicant in India, and hence, would be taxable in India [UAE Exchange Centre, In re (2004) 268 ITR 9 (AAR-New Delhi)].

10.2 ADOPTION BY CENTRAL GOVERNMENT OF AGREEMENT BETWEEN SPECIFIED ASSOCIATIONS FOR DOUBLE TAXATION RELIEF [SECTION 90A]

- (1) Any specified association in India may enter into an agreement with any specified association in the specified territory outside India and the Central Government may, by notification in the Official Gazette, make such provisions as may be necessary for adopting and implementing such agreement-
 - (a) for the granting of relief in respect of-
 - (i) income on which have been paid both income-tax under this Act and income-tax in any specified territory outside India; or

- (ii) income-tax chargeable under this Act and under the corresponding law in force in that specified territory outside India to promote mutual economic relations, trade and investment, or
 - (b) for the avoidance of double taxation of income under this Act and under the corresponding law in force in that specified territory outside India, or
 - (c) for exchange of information for the prevention of evasion or avoidance of income- tax chargeable under this Act or under the corresponding law in force in that specified territory outside India, or investigation of cases of such evasion or avoidance, or
 - (d) for recovery of income-tax under this Act and under the corresponding law in force in that specified territory outside India.
- (2) Where a specified association in India has entered into an agreement with a specified association of any specified territory outside India under sub-section (1) and such agreement has been notified under that sub-section, for granting relief of tax, or as the case may be, avoidance of double taxation, then, in relation to the assessee to whom such agreement applies, the provisions of this Act shall apply to the extent they are more beneficial to that assessee.
- (2A) Notwithstanding anything contained in sub-section (2), the provisions of Chapter X-A of the Act shall apply to the assessee even if such provisions are not beneficial to him.
- (3) Any term used but not defined in this Act or in the agreement referred to in sub-section (1) shall, unless the context otherwise requires, and is not inconsistent with the provisions of this Act or the agreement, have the same meaning as assigned to it in the notification issued by the Central Government in the Official Gazette in this behalf.
- (4) An assessee, not being a resident, to whom the agreement referred to in sub-section (1) applies, shall not be entitled to claim any relief under such agreement unless a certificate of his being a resident in any specified territory outside India, is obtained by him from the Government of that specified territory.
- (5) The assessee referred to in sub-section (4) shall also provide such other documents and information, as may be prescribed.

Explanation 1- For the removal of doubts, it is hereby declared that the charge of tax in respect of a company incorporated in the specified territory outside India at a rate higher than the rate at which a domestic company is chargeable, shall not be regarded as less favourable charge or levy of tax in respect of such company.

Explanation 2 -For the purposes of this section, the expressions-

- (a) "specified association" means any institution, association or body, whether incorporated or not, functioning under any law for the time being in force in India or the laws of the specified territory outside India and which may be notified as such by the Central Government for the purposes of this section;
- (b) "specified territory" means any area outside India which may be notified as such by the Central Government for the purposes of this section.

Explanation 3 -For the removal of doubts, it is hereby declared that where any term is used in any agreement entered into under sub-section (1) and not defined under the said agreement or the Act, but is assigned a meaning to it in the notification issued under sub-section (3) and the notification issued there-under being in force, then, the meaning assigned to such term shall be deemed to have effect from the date on which the said agreement came into force.

10.3 COUNTRIES WITH WHICH NO AGREEMENT EXISTS [SECTION 91]

- (1) If any person who is resident in India in any previous year proves that, in respect of his income which accrued or arose during that previous year outside India (and which is not deemed to accrue or arise in India), he has paid in any country with which there is no agreement under section 90 for the relief or avoidance of double taxation, income-tax, by deduction or otherwise, under the law in force in that country, he shall be entitled to the deduction from the Indian income-tax payable by him of a sum calculated on such doubly taxed income at the Indian rate of tax or the rate of tax of the said country, whichever is the lower, or at the Indian rate of tax if both the rates are equal.
- (2) If any person who is resident in India in any previous year proves that in respect of his income which accrued or arose to him during that previous year in Pakistan he has paid in that country, by deduction or otherwise, tax payable to the Government under any law for the time being in force in that country relating to taxation of agricultural income, he shall be entitled to a deduction from the Indian income-tax payable by him-
 - (a) of the amount of the tax paid in Pakistan under any law aforesaid on such income which is liable to tax under this Act also; or
 - (b) of a sum calculated on that income at the Indian rate of tax; whichever is less.
- (3) If any non-resident person is assessed on his share in the income of a registered firm assessed as resident in India in any previous year and such share includes any income accruing or arising outside India during that previous year (and which is not deemed to accrue or arise in India) in a country with which there is no agreement under section 90 for the relief or avoidance of double taxation and he proves that he has paid income-tax by deduction or otherwise under the law in force in that country in respect of the income so included he shall be entitled to a deduction from the Indian income-tax payable by him of a sum calculated on such doubly taxed income so included at the Indian rate of tax or the rate of tax of the said country, whichever is the lower, or at the Indian rate of tax if both the rates are equal.

Explanation -In this section,-

- (i) the expression "Indian income-tax" means income-tax charged in accordance with the provisions of this Act;
- (ii) the expression "Indian rate of tax" means the rate determined by dividing the amount of Indian income-tax after deduction of any relief due under the provisions of this Act but before deduction of any relief due under this Chapter, by the total income;
- (iii) the expression "rate of tax of the said country" means income-tax and super-tax actually paid in the said country in accordance with the corresponding laws in force in the said country after deduction of all relief due, but before deduction of any relief due in the said country in respect of double taxation, divided by the whole amount of the income as assessed in the said country;
- (iv) the expression "income-tax" in relation to any country includes any excess profits tax or business profits tax charged on the profits by the Government of any part of that country or a local authority in that country.

10.4 TAX RESIDENCY CERTIFICATE [TRC] [Section 90 & 90A]

For claiming relief under DTAA – section 90 & 90A empowers the Central Government to enter into Double Taxation Avoidance Agreement with the foreign countries / foreign territories.

With effect from 1st April 2013, to avail the benefit, submission of TRC would be necessary.

A simple certificate of being resident of a country is required to avail the benefits of DTAA.

10.5 CERTAIN SPECIAL CASES

Taxation of Business process outsourcing units in India

The provisions containing taxation of IT-enabled business process outsourcing units are not contained in the Income-tax Act, 1961 but are given in Circular No. 5/2004 dated 28-9-2004 issued by the CBDT which is as under:

- (1) A non-resident entity may outsource certain services to a resident Indian entity. If there is no business connection between the two, the resident entity may not be a Permanent Establishment of the non-resident entity, and the resident entity would have to be assessed to income-tax as a separate entity. In such a case, the non-resident entity will not be liable under the Income-tax Act, 1961.
- (2) However, it is possible that the non-resident entity may have a business connection with the resident Indian entity. In such a case, the resident Indian entity could be treated as the Permanent Establishment of the non-resident entity. The tax treatment of the Permanent Establishment in such a case is under consideration in this circular.
- (3) During the last decade or so, India has seen a steady growth of outsourcing of business processes by non-residents or foreign companies to IT-enabled entities in India. Such entities are either branches or associated enterprises of the foreign enterprise or an independent Indian enterprise. Their activities range from mere procurement of orders for sale of goods or provision of services and answering sales related queries to the provision of services itself like software maintenance service, debt collection service, software development service, credit card/mobile telephone related service, etc. The non-resident entity or the foreign company will be liable to tax in India only if the IT-enabled BPO unit in India constitutes its Permanent Establishment. The extent to which the profits of the non-resident enterprise are to be attributed to the activities of such Permanent Establishment in India has been under consideration of the Board.
- (4) A non-resident or a foreign company is treated as having a Permanent Establishment in India under Article 5 of the Double Taxation Avoidance Agreements entered into by India with different countries if the said non-resident or foreign company carries on business in India through a branch, sales office, etc. or through an agent (other than an independent agent) who habitually exercises an authority to conclude contracts or regularly delivers goods or merchandise or habitually secures orders on behalf of the non-resident principal. In such a case, the profits of the non-resident or foreign company attributable to the business activities carried out in India by the Permanent Establishment becomes taxable in India under Article 7 of the Double Taxation Avoidance Agreements.
- (5) Paragraph 1 of Article 7 of Double Taxation Avoidance Agreements provides that if a foreign enterprise carries on business in another country through a Permanent Establishment situated therein, the profits of the enterprise may be taxed in the other country but only so much of them as are attributable to the Permanent Establishment. Paragraph 2 of the same Article provides that subject to the provisions of Paragraph 3, there shall in each contracting state be attributed to that Permanent Establishment the profits which it might be expected to make if it were a distinct and separate enterprise engaged in the same or similar activities under the same or similar conditions and dealing independently with the enterprise of which it is a Permanent Establishment. Paragraph 3 of the Article provides that in determining the profits of a Permanent Establishment there shall be allowed as deductions expenses which are incurred for the purposes of the Permanent Establishment including executive and general administrative expenses so incurred, whether in the State in which the Permanent Establishment is situated or elsewhere. The expenses that are deductible would have to be determined in accordance with the accepted principles of accountancy and the provisions of the Income-tax Act, 1961.
- (6) Paragraph 2 contains the central directive on which the allocation of profits to a Permanent Establishment is intended to be based. The paragraph incorporates the view that the profits

to be attributed to a Permanent Establishment are those which the Permanent Establishment would have made if, instead of dealing with its Head Office, it had been dealing with an entirely separate enterprise under conditions and at prices prevailing in the ordinary market. This corresponds to the “arm’s length principle”. Paragraph 3 only provides a rule applicable for the determination of the profits of the Permanent Establishment, while paragraph 2 requires that the profits so determined correspond to the profit that a separate and independent enterprise would have made. Hence, in determining the profits attributable to an IT-enabled BPO unit constituting a Permanent Establishment, it will be necessary to determine the price of the services rendered by the Permanent Establishment to the Head office or by the Head office to the Permanent Establishment on the basis of “arm’s length principle”.

- (7) “Arm’s length price” would have the same meaning as in the definition in section 92F(iii) of the Income-tax Act. The arm’s length price would have to be determined in accordance with the provisions of sections 92 to 92F of the Income-tax Act.
- (8) The CBDT Circular No. 1/2004, dated 2.1.2004 is hereby withdrawn with immediate effect [Circular No. 5/2004, dated 28.9.2004].

Dividend: Dividend is taxed in the country where the company is incorporated, the other country foregoing the tax thereon even if the dividend income is to be assessed under the relevant laws of that country. Incorporation of the company itself may well depend upon the country, choice of those in control and management, so as to avail a lesser rate of tax. India taxed non-residents on dividend at 20%, before dividend distribution tax was introduced. The range of tax in most countries is 10% to 20%.

Interest: Under the most Double Taxation Avoidance Agreement, rate of tax on interest is 10% but may range from 10% to 20% with a nominal variation for Syria which is 7.5%. Domestic rate of tax itself was 10% for foreign direct loan utilized in India now, by an amendment by the Finance Act, 2012, reduced to 5% from A.Y.2013-2014, so that one has not to look to Double Taxation Avoidance Agreement for relief in most cases.

Royalty: Royalty for supply of technical know-how, patents or other intellectual property rights is most common occurrence in most collaboration agreements with India taxing such royalty at 30% where agreements were made before 31st day of March, 1997, at 20% where agreements were made on or after 1st day of April, 1997 up to 31st day of May, 2005 and finally reduced to 10% where agreements were made on or after 1st day of June, 2005.

Definition of ‘royalty’ requires attention because of amendment expanding the meaning of royalty with retrospective effect from 1.6.1976. The definition vide Explanations 4, 5 and 6 of section 9(1)(vi) as it stands after amendment made by the Finance Act, 2012, reads as follows:

Explanation 4 — For the removal of doubts, it is hereby clarified that the transfer of all or any rights in respect of any right/property/information includes and has always included transfer of all or any right for use or right to use a computer software (including granting of a licence) irrespective of the medium through which such right is transferred.

Explanation 5 — For the removal of doubts, it is hereby clarified that the royalty includes and has always included consideration in respect of any right, property or information, whether or not—

- (a) the possession or control of such right/property/information is with the payer;
- (b) such right/property/information is used directly by the payer;
- (c) the location of such right/property/information is in India.

Explanation 6 — For the removal of doubts, it is hereby clarified that the expression “process” includes and shall be deemed to have always included transmission by satellite (including up-linking, amplification, conversion for down-linking of any signal), cable, optic fibre or by any other similar technology, whether or not such process is secret.

But in most countries in respect of supplies on royalty basis the rate of tax is low at 10% so as to encourage development of technology. In respect of some countries the rate is lower, if it is in connection with supply of scientific or technical services.

According to the Amendments made by Finance Act, 2013, the tax rate, in case of non-resident tax payer, in respect of income by way of royalty as provided u/s 115A, shall be 25%.

Technical Fees: Explanation 2 to section 9(1)(vii) defines “fee for technical services”, which reads as under:

“Fees for Technical Services” means any consideration including any lump sum consideration for the rendering of any managerial, technical or consultancy services including the provision of services of technical or other personnel but does not include consideration for any construction, assembly, mining or like project undertaken by the recipient or consideration which would be income of the recipient chargeable under the head “Salaries”.

Regular agreements or protocols relating to copyright, patents, designs, etc., may provide for sharing of R&D services or provide for assistance by deputation of personnel and even for undertaking training. Services may be rendered either from the home country or in the host country with the result that the identification of the income accruing in respective countries under the local laws may present a problem as it has happened in a number of cases in India. the technical fees of non-residents is taxed by Indian Laws at 20% where agreements were made up to 31.5.2005 and 10% thereafter.

The Finance Act, 2013 has increased the rate to 25%.

The interpretation of the Department with reference to definition of technical fees u/s 9(1)(vii) has been that any use of such technical service in India would attract tax at the domestic rate, even if the entire service is rendered abroad.

Hence, the country with which Indian importer of technical know-how makes an agreement may make vital difference to the non-resident's liability which is relevant for the Indian taxpayer either because he bears such tax under the agreement or such tax forms the component of the amount which he has agreed to pay with the result that it is always the burden of the taxpayer in the market where demand overruns supply.

Where tax rate under the agreement is lower than the domestic rate, the non-resident is entitled to be taxed at such lower rate under the agreement [CIT vs. Reiter Ingolsteadt Spinnereimaschinenbau AG, (2006) 285 ITR 199 (Mad)].

In case the inference of technical service fails, royalty may be sought to be inferred. Royalty in respect of technical know-how should be one, which is capable of being patented and even if not patented, it should be a matter of purveyance of not mere knowledge, but of technique. If it were knowledge, it should be special knowledge, not a matter of public property. A copyrighted article may be sold without attracting the inference of royalty, but copyright itself can be transferred only subject to royalty.

There has been considerable controversy with conflicting decisions of courts in respect of licensed software with Delhi High Court taking the view in Director of Income Tax vs. Ericsson A.B. New Delhi (2012) 343 ITR 470 (Del.), and Karnataka High Court in CIT (International Taxation) vs. Samsung Electronics Co. Ltd. (2011) 203 Taxman 477 (Karn) with Authority for Advance Ruling earlier taking the view favourable to the taxpayer in CIT vs. Dynamic Vertical Software India (P) Ltd. (2011) 332 ITR 222 (Del.), and later in favour of revenue in Dassault Systems K.K. In re (2010) 322 ITR 125 (AAR), Citrix Systems Asia Pacific Ltd. In re (2012) 343 ITR 1 (AAR) and Acclerys K.K. In re (2012) 343 ITR 304 (AAR). A retrospective amendment with effect from 1.6.1976 to section 9(1)(vi) by the Finance Act, 2012 would treat any payment for licensed software to be royalty. Other amendments to the definition of royalty on one hand and the Explanations 4 and 5 to section 9(1)(i) by providing for “look through” and by targeting “underlying assets” have similar effect of experiencing tax base under the domestic law without any impact on Double Taxation Avoidance Agreement in view of Treaty Override, which is specifically recognised by dropping the proposal for amendment to section 96(2) for such override by way of amending the Finance Bill, 2012 before it became law.

Explanation under section 9(2), as substituted by the Finance Act, 2010 with retrospective effect from 1st June, 1976, would seek to clarify that inference of liability u/s 9 does not depend upon place of residence, business connection or service in India. It could apply more appropriately for royalty and technical fee.

Salary: An employee of a non-resident company in India working for such company will become a resident, if he stays in India for 183 days, so that his salary may accrue in India. But where such salary was not borne by a permanent establishment of the non-resident in India and it was paid abroad, such salary income could not be taxable under Double Taxation Avoidance Agreement as was rendered in the context of Agreement between India and such other country.

Conducting Examination in India: A non-resident non-profit organisation was conducting examination through an agent in India without itself having an office in India, besides conducting training programmes on subjects like corporate training, management, consultancy, publishing and trading in educational materials, etc. Authority for Advance Rulings ruled that the applicant for ruling was a non-resident being a tax resident of US and a non-profit organisation was spared liability by the Double Taxation Avoidance Agreement between India and US, in *Knowers Education (India) P. Ltd., In re* (2008) 301 ITR 207 (AAR). Indian company, however, could not be treated as an agent of the non-resident, since it was not concluding contracts on behalf of the non-resident. It could not also be treated as a dependent agency, since it enjoyed independent status. The acceptance of candidature of an individual for a certification in the examination was solely by the non-resident. It was further found that the nature of service was such that it could only be characterised as business, so that it falls under Article 7 of the Indo-US Agreement with liability for non-resident, if the non-resident has a permanent establishment in India, in which case, the income attributable to such PE would have become taxable. It follows that the applicant was not liable to deduct tax at source from payments made by it or routed through it.

Consultancy Services: In case marketing consultancy service is involved, it may not be construed as technical service either in the definition of 'technical service' in Explanation to section 9(1)(vii) or in the relevant Article 12 relating to royalty and technical fees under Double Taxation Avoidance Agreement. What is contemplated in such cases is purely one of marketing of service abroad, if such service is confined outside India. Payment for such service is on par with common sales not liable to tax in India, if services are rendered abroad [*CIT vs. Toshoku Ltd.* (1980) 125 ITR 525 (SC)].

The interpretation placed by the Tribunal in *Deputy CIT vs. Boston Consulting Group P. Ltd.* (2006) 280 ITR (AT) 1 (Mumbai) is more in keeping with the understanding that business of consultancy service is non-technical in nature, so that it may not be treated as royalty and technical fees, but only as professional services. Merely because such services are used in India, the income, there from, does not become taxable either under the domestic law in India or as royalty and technical fees under Double Taxation Avoidance Agreement.

The Delhi Bench of the Tribunal, in *Sheraton International Inc. vs. Dy. Director of Income Tax* (2007) 293 ITR (AT) 68, also understood the law on the subject in the same manner.

The Supreme Court by a Bench of three Judges in *Barendra Prasad Ray vs. ITO* (1981) 129 ITR 295 (SC) has decided on professional service in law, where a UK barrister came to India for discussions and had also appeared in a matter pending in Calcutta High Court along with the counsel entitled to appear before the High Court. The duration of the hearing was 13 days. The payment was made by his client, the German Corporation, which was interested in the suit. The Assessing Officer sought to treat the Indian company as agent of the German Corporation and sought to recover the tax payable by its lawyer. The issue which arose for consideration was whether there was any business connection which was real and intimate and not merely casual. The Supreme Court held that the visit was not casual and that the relationship with Indian company was such as to make it responsible for the liability of the lawyer, who assisted it. There was a business connection which would include within its scope profession, vocation and callings.

Where partners of a law firm stayed in India and rendered legal service for more than 90 days, the professional income of the firm was liable to be taxed in India under the agreement between India and U.K. But the reason given was that it was technical service as the legal assistance related to certain technical projects, the details of which were not made available by the assessee. The decision accords with law in the light of Article 15 dealing with Independent Personal Service.

A foreign company is not liable to tax in India. Mere provision of a data base by a non-resident, where data server is located outside India, since it does not constitute technical service. Since payment is

not taxable, there is no duty to deduct tax. In the absence of a permanent establishment of the non-resident in India, there could be no liability for the non-resident on any part of the business income arising from such receipts from India. This decision of the Tribunal follows a number of precedents as in CIT vs. HEG Ltd. (2003) 263 ITR 230 (MP) holding that mere lending of information cannot give rise to inference of liability. The argument of the revenue that such payment could be royalty and/or fees for technical services either u/s 9(1)(vi) and/or 9(1)(vii) and corresponding Article in the Double Taxation Avoidance Agreement as well was not accepted.

In Wallace Pharmaceuticals P. Ltd. In re, (2005) 278 ITR 97 (AAR) the question related to the place of accrual of consultant's fees for consultancy services rendered abroad but utilised in India. The non-resident carried out services admittedly abroad inter alia engaging professionals for getting orders. Since it involved getting professional service like identification of potential market for the assessee's products, search for marketable products which could be manufactured by the assessee and such other services, such service was treated as technical service under the domestic law as understood u/s 9(1)(vii) of the Income Tax Act, so that the fact that such service is utilized in India should be sufficient for attracting tax. Tax was, therefore, required to be deducted at source.

A non-resident was giving consultancy service to a mine owner, where such consultancy related to analysis of samples and ores conducted in a technical laboratory in Canada. In South West Mining Ltd. In re, (2005) 278 ITR 233 (AAR) the issue was whether such consultancy fees paid in foreign currency abroad would be taxable in India. Technical consultants were also to visit India for collecting random samples at the mine head with the assessee bearing their expenses and providing necessary assistance and facilities. The AAR found that the consultancy service may fall to be assessed within the meaning of fees for technical service under Explanation 2 to section 9(1)(vii)(b) of the Income Tax Act. It was not saved, because it was neither salary nor any consideration for any construction, assembly, mining or like project. The word "consultancy" appearing in section 9(1)(vii), it was ruled, would have application, since the fact that such service is used in India would itself attract liability.

Klaus Vogel in Double Taxation Conventions would point out that the term "technical assistance" has not been clearly defined. It ordinarily implies imparting knowledge and supplying solutions in operation of equipments or providing staff for such operations. The fact that royalties and technical fees are included in the same Article in the Agreement is a pointer to the interpretation. In this position of law, both the domestic law and the Double Taxation Avoidance Agreement, a consultancy service should be more than giving data analysis of the product primarily carried out abroad, so that no part of such income may be liable in India. The fact that the technical consultant may be visiting India for taking random samples or that the report of the analysis may be used in India may not be conclusive, since the use is not for operations, which alone would ordinarily amount to technical service. The ruling in South West Mining's case (supra) would need review.

Foreign Branch Losses in the case of a Resident: The assessee, who is a resident and ordinarily resident in India is assessable on his global income. It follows that loss in foreign branch has to be set-off against other income of the assessee. Where the Assessing Officer sought to apply the provisions of the Double Taxation Avoidance Agreement between India and Japan to disallow the loss of the branch located in Japan, it was held, in Dy. CIT vs. Patni Computer Systems Limited, (2008) 301 ITR (AT) 60 (Pune), that the assessee is entitled to the benefit of either domestic law or Double Taxation Avoidance Agreement, whichever is more favourable to it. On this reasoning, based on Treaty Override, it is also open to the assessee to claim protection of Double Taxation Avoidance Agreement in a later year, when there is profit. Such claim cannot be barred, merely because of different treatment of loss in an earlier year.

Internet Access: Advance Ruling Authority, had ruled on information technology in cross-border transactions. The non-resident was having travel business issuing international credit cards, travellers' cheques and providing other travel related services through a worldwide data network maintained in Hong Kong. The act work supplied information through telephonic and microwave devices as to the transactions in India, through a computer linked with the network for an Indian company, which was rendering service to other group companies with the Indian company by passing on the information to Hong Kong for communication and for this purpose it had leased online facilities from VSNL. The Indian company though not a direct subsidiary of the American company was a subsidiary of its subsidiary,

so that it has been described as sub-subsidiary. It is on these facts, the issue was whether the amount paid by the Indian sub-subsidiary to the applicant for advance ruling, an American company, for use of software and equipment could be called royalty. If it were royalty, it would be taxable in India vide Explanation 2 to section 9(1)(vi) and should be liable to Indian tax even under the Double Taxation Avoidance Agreement by following the source rule. The Authority for Advance Rulings found that the transaction involved a high degree of technical content, which could be described as intellectual property, so that the payment for the use of the same would partake of the character of royalty. There is secrecy involved in respect of transactions of the customers, while analytical data processing is also inevitable. Even that part of the definition covering the right to use "any industrial, commercial or scientific equipment" would also cover such payment. There is liability under Article 12 of the Agreement between the U. S. and India.

In *Cargo Community Network Pte. Ltd., In re* (2007) 289 ITR 355 (AAR), the payment for access to internet based air cargo portals outside India, it was ruled, would be royalty, because it is not a payment merely for getting access to data, but use of the portal for booking cargo, besides training of subscribers and rendering help connected therewith. The decision could have been different, since the material part of agreement was for right to use technical equipment, so that it does not mean that technology gets transferred or that it constitutes a payment for royalty as held in *CIT vs. HEG Ltd.* (2003) 263 ITR 230 (MP). The provision of cellular mobile telephone services was held to be a service, which did not have the character of technical service. The Tribunal, in *Wipro Ltd. vs. ITO* (2005) 278 ITR (AT) 57 (Bang) had held that payment to a foreign publishing house for access to certain data could not amount to royalty.

In case the software involves copyrighted technology with the right to use being limited to a particular server platform and the licence fee to be paid to the non-resident depends upon the extent of use limited to the licensed purposes with supporting technical service without extra charges, it should have the character of royalty. It would be royalty even within the meaning of the Double Taxation Avoidance Agreement between India and U.S. It was found that the decision in *Dun and Bradstreet Espana S.A., In re* (2005) 272 ITR 99 (AAR), which relates to payment merely for information, would have no application to the facts of the assessee's case, so that liability as royalty for the non-resident and consequent liability for the resident to deduct tax at source are absent.

The services, where conveyed through satellite communication may well be covered, so as to be taxable as royalty in view of Explanation 6 to section 9(1)(vi) inserted with retrospective effect from 1.6.1976. However, the interpretation for purposes of Double Taxation Avoidance Agreement is not covered by the amendment.

Logistic Survey: A payment made to a non-resident for reconnaissance of minerals made by a resident licensee for prospecting of mining for diamonds and other minerals was held to be not for technical service. Activities were collection of samples, geophysical survey by use of airborne multispectral scanner and electromagnetic equipment with such exploration being considered at different stages, made available with a team of experts making reports from time to time. The Tribunal reasoned, that though knowledge and expertise were involved, such knowledge and expertise themselves were not made available to the resident assessee. The data collected were further processed by use of software technology, which was not made available. The resident assessee was merely supplied with computer readable conclusions from data collected. This was an agreement for mere service and not for transfer of technology. Reports and maps only contain data, which could not also be treated as technical plan or technical design. Incidentally, it was also interpreted, that the language in Article 12(5)(b) pointing out that two activities of service or supply of technology are linked by the word "or", which is to be understood conjointly and not disjunctively. The decision follows the stricter meaning of 'technical service' with reference to Law Lexicons and the decision of the Supreme Court in *Commissioner of Customs vs. Parasrampur Synthetics Ltd.* (2002) 253 ITR 274 (SC), besides other decisions of the Tribunal.

Maintenance, Repairs and Cleaning Services: Where the predominant purpose involves cleaning service, even if done through use of technology is not technical service by itself as it does not involve transfer of technology. No technology is made available in India in what can be considered as purely cleaning service vide Example 2 in the Protocol in the Agreement between India and U.S. Similarly, maintenance and repairs cannot be treated as technical service. It is a business assignment, so that

the income from such service cannot be taxed, unless the non-resident has a permanent establishment in India, through which such service is rendered. In the absence of such transfer, there can be no tax deduction at source.

Monitoring Consultancy Services of a Branch in India: In the case of Worleyparsons Services Pty. Ltd. In re (2008) 301 ITR 54 (AAR), it was held that in Service of monitoring consultants for a pipeline project in India has to be treated as a business activity, so that the payment for the same cannot be treated as royalty. The income from such activity can only be treated as profit from business. There was also no parting of technology involved as required under the definition of "technical services" under Article 12(3)(g) of the Double Taxation Avoidance Agreement between India and Australia to constitute technical fees. The assessable income, therefore, would be the profit attributable to the permanent establishment, which the non-resident had in India for purposes of its activity.

Payment for Engineering and Procurement Services/Consultants: Sometimes a non-resident without a permanent establishment in India provides engineering and procurement services to an Indian company under an agreement. The expression 'royalty' as defined both under domestic law and Double Taxation Avoidance Agreement, where there was service by way of development and transfer of technical plan and design, besides consultancy and technical service ancillary and subsidiary to tie supply of scientific, technical or commercial information/knowledge. The assessee in this case was rendering service in connection with Jamnagar to Bhopal pipeline and Goa to Hyderabad pipeline undertaken by Reliance. There was, therefore, liability [Worley Parsons Services Pty. Ltd. (No.1)(2009) 312 ITR 273 (AAR)]. In coming to the conclusion, the Authority for Advance Ruling distinguished the decision of the Supreme Court in Ishikawajima-Harima Heavy Industries vs. DIT (2007) 288 ITR 408 (SC) not only because it related to a different Agreement, but also because the offshore element in that case formed an integral part of the contract, apart from the fact that the issue in that case was ascertainment of income attributable to the permanent establishment.

In another matter relating to assessee in Worley Parsons Services Pty. Ltd., In re (No.2)(2009) 312 ITR 317 (AAR), the issue related to agreement for rendering professional service to Indian company for setting up an alumina refinery from inputs gathered from India, while design service was made from Australia. It was found, that the non-resident's employees came to India, stayed in India and collected the necessary data and information. The activities in preparation of design and plan, no doubt, were in Australia, but the work in India was by no means negligible. The service was utilised in India for the benefit of a resident in India. Part of the activities/ services was in India, so that there was sufficient nexus to warrant inference of royalty, so as to require the entire amount to be taxable in India. The ruling in the earlier case in Worley Parsons Services Pty. Ltd. (No.1)(2009) 312 ITR 273 (AAR), was followed distinguishing the decision in Ishikawajima-Harima Heavy Industries' case.

Technology along with Training: In the case of Director General of Inland Revenue vs. Phaltan Sugar Works(1983) 1 MLJ 74, it was held by a Malaysian court, that a payment in pursuance of a joint venture agreement, for supply of technology and investments besides supply of technical personnel could be treated as an agreement giving rise to receipts which could be treated as royalty.

Ticketing Service: Sheraton group of companies, a non-resident U.S. company engaged in hotel related services worldwide, had entered into an agreement with Indian companies including ITC Ltd. Hotel Division and others for helping to procure business for the hotels in India at 3 per cent of the room sales for services which included publicity, advertisement and reservation facilities for overseas customers, by way of brochures, directories, room magazines, brand advertising, promotion of trade shows abroad, etc. The Tribunal in Sheraton International Inc. vs. Deputy Director of Income Tax (2007) 293 ITR (AT) 68 (Delhi), found that services rendered by the non-resident would not attract either the definition of 'royalty' or 'technical fees'. The services rendered were more related to marketing of Indian hotels abroad by advertisement to promote tourism and encourage visitors coming to India to be lodged in these hotels by means which can be described as mere ticketing service, since advertisement, publicity and sales promotion abroad were the main functions with the use of the trade mark or trade name and other services was merely incidental to this main service of the publicising the hotels abroad. The definition of royalty and technical fees in the Indo-US Agreement, it was decided, would also not give rise to any different inference.

The alternate argument by the revenue that the agreement was a colourable device meant to defraud the revenue crossing the limits of legitimate tax planning, was found to lack foundation. It was pointed out, that the Income Tax Department itself allowed a deduction at 25 per cent from the payment in the tax deduction certificate u/s 195(2), though it was argued before the Tribunal that 100 per cent payment will be taxable, on the ground that the order u/s 195(2) was only an interim order not binding in an assessment. It was found that no part of payment was taxable.

The Departmental appeal against the decision of the Tribunal in this case was dismissed in *Director of Income Tax vs. Sheraton International Inc.* (2009) 313 ITR 267 (Del), where it was pointed out that the services were in the nature of advertisement, publicity and sales promotion services and that the use of the trade mark and trade name stylized "S" or other enumerated services for mutual interest of the Sheraton Group of hotels was merely incidental services.

Transponder Hire: In *Asia Satellite Communications Co. Ltd. vs. DCIT*, (2003) 85 ITD 478 (Del), it was held that payment for uplifting of transponder service through earth stations and conversion of signals was held to be royalty.

But it was held, in *Wipro Ltd. vs. ITO* (2003) 86 ITD 407 (Bang), *ITO vs. Raj Television Newark Ltd.* ITA No.1827 and 1828 MDS 1998, *Dy. CIT vs. Panamsat International Systems Inc.* (2006) 103 TTJ (Del) 861, that it was not to be treated as royalty, since it was use of a standard facility in favour of the taxpayer. The reasoning in such cases follows *Dun and Bradstreet Espana S.A., In re* (2005) 272 ITR 99 (AAR), and *Raymond Ltd. vs. Dy. CIT* (2003) 86 ITD 791 (Mum). The view of Madras High Court in *Skycell Communications Ltd. vs. DCIT* (2001) 251 ITR 53 (Mad), is also on the lines, when it held that use of technological facilities does not by itself have a character of technical service in following words:

"In the modern day world, almost every facet of one's life is linked to science and Technology in as much as numerous things used or relied upon in everyday life is the result of scientific and technological development. Every instrument or gadget that is used to make life easier is the result of scientific invention or development and involves the use of technology. On that score, every provider of every instrument or facility used by a person cannot be regarded as providing technical service."

Mere collection of a fee for a standard facility could hardly ever be treated as royalty or technical service.

In *ISRO Satellite Centre (ISAC), In re* (2008) 307 ITR 59 (AAR) it was ruled by the AAR that it will be a business transaction following its earlier ruling in *Dell International Service P. Ltd., In re* (2008) 305 ITR 37 (AAR). It was concluded, after referring to Klaus Vogel's Commentary on Double Taxation Conventions, that the use of satellite is a service and not a rental, unless resident had entire direction and control over the satellite. Where the non-resident has no permanent establishment in India, there could be no liability.

Transponder service providing facility for data transmission to telecasting/telecom operators, came up before a Special Bench of the Tribunal in *New Skies Satellites N.V. vs. Asst. Director of Income Tax (International Taxation)* (2009) 319 ITR (AT) 269 (Del) (SB) to sort out the conflicting decisions in *Asia Satellite Telecommunication Co. Ltd. vs. Dy. CIT* (2003) 85 ITD 478 (Del) and *Dy. CIT vs. Pan Amsat International Systems Inc.* (2006) 9 SOT 100 (Del). After detailed discussion, the Tribunal found that the payment is not for mere hire of transponder known as communication transponders. Sophisticated instruments are required to be installed on geostationary satellites with similarly sophisticated instruments installed in the earth stations for compatibility of uplinking and downlinking the signals by telecasting companies. The specifications are made available by these companies and operated for obtaining optimum results. The activities of both satellite and telecasting companies are no doubt commercial in nature, but there is business connection, so that the income accrues for the non-resident in India under the domestic law because there is a process involved in India. Such process would attract tax, whether it is secret or otherwise. The right to use is made available in India. It is in this context, the non-resident's income becomes taxable in India.

However, the High Court overruled the Special Bench decision, in the case of *Asia Satellite Telecommunications Co. Ltd. vs. Director of Income-tax*, (2011) 332 ITR 340 (Del), when it upheld assessee's claim for non-liability. But the controversy has been finally statutorily resolved as far

as domestic law is concerned by Explanation 6 to section 9(1)(vi) to cover transmission to satellite communication inserted by the Finance Act, 2012 retrospectively with effect from 1.6.1976. But this amendment cannot bind interpretation of Double Taxation Avoidance Agreement.

Availability of Mauritius Route: The issue whether adoption of Mauritius route itself could be treated as a method of tax planning, which can be ignored by the Assessing Officer, was the subject-matter of decision in *Union of India vs. Azadi Bachao Andolan* (2003) 263 ITR 706 (SC). The cloud created by the decision of the Delhi High Court in *Shiva Kant Jha vs. Union of India* (2002) 256 ITR 563 (Del) questioning the Circular No.789 dated 13th April, 2000 was lifted, when the Supreme Court upheld the validity of the circular. As regards income from dividend and capital gains, the inference that the Assessing Officer would be justified in accepting certificate of incorporation issued by the Mauritius Authorities as evidence of residence was found to be valid. But then the circular itself was withdrawn consequent on the Delhi High Court decision by another Circular No.1 of 2003. But then, it would appear that the decision of the Supreme Court would have even a greater effect than the circular which was withdrawn and was found to be valid. In the result, the Mauritius route continues to be a favourable one. It is understood that Cyprus route is becoming popular not only because of the Double Taxation Avoidance Agreements between India and Cyprus, but also because of the tax exemptions and other facilities made available by Cyprus Government.

More favourable treatment for companies incorporated in Mauritius had sparked a controversy as to the validity of such agreement merely with reference to incorporation certificate even for investment income, but was upheld by the Supreme Court in the case of *Azadi Bachao Andolan* (supra). However, the more favourable terms are under negotiation with Mauritius Government with possible revision on par with other countries.

Vodafone Case: Hutchison Group gave up its interest in the business of mobile-telephone operation in India in favour of Vodafone Group by overseas transactions as between holding companies, while the Indian shares continued to be in the hands of same holding companies. Hutchison in this line of business from 1992 of non-resident players functioning in many countries through subsidiaries and subsidiaries of subsidiaries. Briefly, the assessee which was required to deduct tax at source is Vodafone International Holdings B. V., Netherlands (VIH BV), a company controlled by the Vodafone Group Plc. U. K. The Hutchison Group company in Hong Kong acquired interests in the mobile telecommunication industry in India, through a special process vehicle by way of joint venture, Hutchison Max Telecom Ltd. (renamed Hutchison Essar Ltd.) formed in August 2005. Between 1992 and 2006, there had been many changes in international scenario with Hutchison Group acquiring interest in twenty-three mobile telecommunication circles in India in Hutchison Essar Ltd. through a structural arrangement of holding and subsidiary companies. Tax liability was inferred on transfer of control over the operational companies (Indian entities) which were under control, direct or indirect, inter alia, through Mauritius based companies recognized as overseas corporate bodies with tax residency certificates, exercising direct or indirect control held by Mauritian companies became the property of Vodafone Group acquiring on transfer of shares in CGP Investments (CGP), subsidiary of a holding company, both registered in the Cayman Islands [*Vodafone International Holdings B.V. vs. UOI* (2012) 341 ITR 1 (SC)].

There have been a number of amendments to nullify Vodafone's case. Underlying assets which were not found taxable in Vodafone's case in absence of "see through provision" is now introduced vide Explanation 4 to section 9(1)(vi) by the Finance Act, 2012 with retrospective effect from 1.4.1962. Explanation 5 to section 9(1)(i) would deem any share or interest in an Indian company as situated in India has also been inserted by the Finance Act, 2012 with effect from 1.4.1962 to nullify Vodafone's case.

Case Laws:

- (1) As regards the salary paid to a non-resident outside India for services rendered in India, the Authority for Advance Ruling, in *Stanley Keith Kinnett vs. CIT* (1999) 238 ITR 155 (AAR) held that the remuneration was not taxable in India as the payment was not borne by the non-resident's permanent establishment in India.

- (2) A French company alleges that its Indian income was taxed at a rate higher than in France and so there was discrimination. The Authority for Advance Ruling held that discrimination clause does not apply to rates but only to income as held in P. No. 16 of 1998, In re(1999) 236 ITR 103 (AAR). However, this decision was set aside by the Supreme Court in Societe Generate vs. CIT (2001) 251 ITR 657 (SC) on the ground that AAR had no jurisdiction to decide the issue as the matter was pending before the Income Tax Authorities, so that it was left to be decided by normal course in assessment jurisdiction.
- (3) Living allowance to a foreign technician given by an Indian resident is not taxable [CIT vs. H. Link (2000) 244 ITR 93 (Guj.)].
- (4) Where a branch constitutes permanent establishment and makes the remittance to head office of income like interest, tax deduction at source cannot have application [ABN Amro Bank NV vs. Asstt. Dir. of IT. (2006) 280 ITR (AT) 117 (Kol.) (SB)].
- (5) Technical service cannot be inferred unless there is sharing of technology or provision of drawings, designs, etc., for the exclusive use of resident assessee [Dy. CIT vs. Boston Consulting Group P. Ltd. (2006) 280 ITR (AT) 1 (Mum.)].
- (6) Where a formula for inference of taxable income for film distribution rights had been accepted in the past, the same formula is bound to be repeated in the absence of a more positive guideline[Jt. CIT vs. Warner Brothers (FE) Inc. (2006) 282 ITR (AT) 90 (Mum.) (SB)].
- (7) Fees for technical drawing furnished by Canadian company to Indian Government organization is consultancy service liable to tax as technical fees under Article 12 of Indo-Canadian treaty [SNC Lavalin International Inc. (2011) 332 ITR 314 (Del)].
- (8) Denial of benefit of second proviso to section 48 (Indexation benefit) available for only residents does not amount to discrimination under the Article 24 of Indo-Canadian Agreement, since it is based on residential status and not on citizenship [Transworld Garnet Ltd. In re (2011) 333 ITR 32 (AAR)].
- (9) Where the resident assessee received support services from Philippines branch of a Netherlands company, the relevant agreement is one between India and Netherlands. Indo-Philippines agreement will have no relevance merely on the ground that service was rendered from Philippines[Shell Technology India Private Ltd., In re (2012) 345 ITR 206 (AAR)].
- (10) When the Indian has other clients, he is an independent agent, so that he cannot constitute a P.E. [Speciality Magazine Pvt. Ltd. In re, 274 ITR 310 (AAR)].
- (11) When bonus shares are offered to the non-resident there is no release of assets, so there is no requirement for deduction of tax at source [Briggs of Burton (India) P. Ltd., In re (2005) 274 ITR 595 (AAR)].

ILLUSTRATIONS ON DOUBLE TAXATION RELIEF

Illustration 1.

R a resident Indian, has derived the following income for the Previous Year relevant to the Assessment Year 2014-2015.

Particulars	Amount (₹)
Income from profession	3,00,000
Share of income from a partnership in country X (tax paid in Country X for this income in equivalent Indian Rupees 25,000)	2,00,000
Commission income from a concern in country Y (tax paid in country Y @ 20%, converted in equivalent Indian Rupees)	40,000
Interest on scheduled banks [other than savings account]	20,000

R wishes to know whether he is eligible to any double taxation relief, if so, its quantum. India does not have any Double Taxation Avoidance Agreement with countries X and Y.

Solution:**(1) Computation of Total Income for the Assessment Year 2014-15**

Particulars	Amount (₹)	Amount (₹)
Income from Business:		
Income from profession	3,00,000	
Share income in partnership firm in country X	<u>2,00,000</u>	5,00,000
Income from Other Sources:		
Interest from schedule bank	20,000	
Commission earned in country Y, assumed from other sources	<u>40,000</u>	<u>60,000</u>
Total Income		<u>5,60,000</u>

(2) Computation of Tax Liability on Total Income for the Assessment Year 2014-15

Particulars	Amount (₹)
Tax on Total Income of ₹ 5,60,000	42,000
Add: Surcharge on Income Tax (assuming total income is less than one crore)	Nil
Add: Education Cess @ 2%	840
Add: Secondary and Higher Education Cess @ 1%	<u>420</u>
	43,260
Less: Double taxation relief : (2,00,000 + 40,000) = 2,40,0000 x 7.725%	<u>18,540</u>
Tax Payable	<u>24,720</u>

Note: (i) Average rate of tax in the foreign country = $[(25,000 + 8,000) / (2,00,000 + 40,000)] = 13.75\%$

(ii) Average rate of tax in India:

$$= 43,260 / 5,60,000 \times 100 = 7.725\%$$

Whichever is less, is applicable

Illustration 2.

Mr. Prasad, ordinarily resident in India, furnished the following particulars of his income/savings during the Previous Year 2013-2014.

(i) Income from foreign business (Including ₹ 2,00,000 from business connection in India) accruing outside India	12,00,000
(ii) Loss from Indian business	(-) 2,00,000
(iii) Income from house property	4,00,000
(iv) Dividends gross from Indian companies	60,000
(v) Deposit in Public Provident Fund	70,000
(vi) Tax paid in foreign country	2,50,000

There is no double taxation avoidance treaty. Compute the tax liability

**Solution:****(1) Computation of Total Income for the Assessment Year 2014-15**

Particulars	Amount (₹)	Amount (₹)
1. Income from House Property		4,00,000
2. Income from Business:		
(a) Income from Indian Business	(2,00,000)	
(b) (i) Income from foreign business accruing or arising outside India	10,00,000	
(ii) Income from foreign business deemed to accrue or arise in India	<u>2,00,000</u>	10,00,000
3. Income from other sources		
Dividends from Indian Companies- exempted u/s 10(34)		Nil
Gross Total Income		<u>14,00,000</u>
Less: Deduction for approved savings u/s 80C – PPF deposits		<u>70,000</u>
Total Income		<u>13,30,000</u>

(2) Computation of Tax liability on Total Income for the Assessment Year 2014-15

Particulars	Amount (₹)
Tax on Total Income of ₹ 13,30,000	2,29,000
Add: Surcharge on Income Tax (assuming total income is less than one crore)	Nil
Add: Education Cess @ 2%	4,580
Add: Secondary and Higher Education Cess @ 1%	<u>2,290</u>
	2,35,870
Less: Double taxation relief : 10,00,000 x 17.73%	<u>1,77,300</u>
Tax Payable	<u>58,570</u>

Note: 1. Relief is allowed on the doubly taxed income either at average rate of Indian tax or average rate of foreign income tax, whichever is lower:-

(a) Average rate of Indian income tax : $2,35,870 / 13,30,000 \times 100 = 17.73\%$

(b) Average rate of foreign income tax: $(2,50,000 / 12,00,000) \times 100 = 20.833\%$

2. The amount of doubly taxed income has been worked out as under:

Income from foreign business, accruing outside India 12,00,000

Less: Income from business connection deemed to accrue or arise in India which is not entitled to double taxation relief.

2,00,000

Doubly taxed income

10,00,000

3. Loss from Indian business has been set-off against profits from foreign business which is deemed to accrue or arise in India. The mode of set-off increases the amount of double taxation relief.

Illustration 3.

The Income-tax Act, 1961 provides for taxation of a certain income earned by X. The Double Taxation Avoidance Agreement, which applies to X, excludes the income earned by X from the purview of tax. Is X liable to pay tax on the income earned by him? Discuss.

Solution:

Where any conflict arises between the provisions of the Double Taxation Avoidance Agreement and the Income-tax Act, 1961, the provisions of the Double Taxation Avoidance Agreement would prevail over those of the Income-tax Act. X is, therefore, not liable to pay tax on the income earned by him.

Illustration 4.

Explain briefly the proposition of law in case of any conflict between the provisions of the Double Taxation Avoidance Agreement (DTAA) and the Income-tax Act, 1961.

Solution:

Where there is conflict between the provision as contained in the tax treaty and the provisions of Income Tax Act, a payer can take advantage of those provisions which are more beneficial to him. Thus, tax treaties override the provisions of Income Tax Act which can be enforced by the Appellate Authorities/ Courts.

Illustration 5.

Arif, a resident both in India and Malaysia in Previous Year 2013-2014, owns immoveable properties (including residential house) at Malaysia and India. He has earned income of ₹ 50 lakh from rubber estates in Malaysia during the Previous Year 2013-2014. He also sold some property in Malaysia resulting in short-term capital gain of ₹ 10 lakh during the year. Arif has no permanent establishment of business in India. However, he has derived rental income of ₹ 6 lakh from property let out in India and he has a house in Lucknow where he stays during his visit to India. The Article 4 of the Double Taxation Avoidance Agreement between India and Malaysia provides that where an individual is a resident of both the Contracting States, he shall be deemed to be resident of the Contracting State in which he has permanent home available to him. If he has permanent home in both the Contracting States, he shall be deemed to be a resident of the Contracting State with which his personal and economic relations are closer (centre of vital interests).

You are required to state with reasons whether the business income of Arif arising in Malaysia and the capital gains in respect of sale of the property situated in Malaysia can be taxed in India.

Solution:

Where the Central Government has entered into an agreement with the Government of any other country for granting relief to tax or for avoidance of double taxation, the provisions of the Income-tax Act, 1961 are applicable in such case to the extent they are more beneficial to the assessee.

Arif has a residential house both in Malaysia and India. Thus, he has a permanent home in both the countries. However, he has no permanent establishment of business in India. The Double Taxation Avoidance Agreement (DTAA) with Malaysia provides that where an individual is a resident of both countries, he is deemed to be resident of that country in which he has a permanent home and if he has a permanent home in both the countries, he is deemed to be resident of that country, which is the centre of his vital interests, i.e. the country with which he has closer personal and economic relations. Arif owns rubber estates in Malaysia from which he derives business income. However, Arif has no permanent establishment of his business in India. Therefore, his personal and economic relations with Malaysia are closer, since Malaysia is the place where:—

- (a) the property is located ; and
- (b) the permanent establishment (PE) has been set-up. Therefore, he is deemed to be resident of Malaysia for A.Y. 2014-2015.

So, in this case, Arif is not liable to Income tax in India for Assessment Year 2014-2015 in respect of business income and capital gains arising in Malaysia.

Illustration 6.

Ms. Sania, a resident Indian, furnishes the details for the Assessment Year 2014-2015 :

Particulars	Amount (₹)
(1) Income from profession	1,94,000
(2) Share of income from a partnership in country X (tax paid in Country X for this income in equivalent Indian Rupees 8,000)	40,000
(3) Commission income from a concern in country Y (tax paid in country Y @ 20%, converted in equivalent Indian Rupees	30,000
(4) Interest on scheduled banks [other than savings account]	20,000

Ms. Sania wishes to know whether she is eligible to any double taxation relief, if so, its quantum. India does not have any Double Taxation Avoidance Agreement with countries X and Y.

Solution :

(1) Computation of Total Income for the Assessment Year 2014-15

Particulars	Amount (₹)	Amount (₹)
(a) Income from Business or Profession:		
(i) Income from Profession	1,94,000	
(ii) Share of income in partnership firm in country X	<u>40,000</u>	2,34,000
(b) Income from other sources:		
(i) Interest from scheduled bank	20,000	
(ii) Commission earned in Country Y, assumed from other sources	<u>30,000</u>	<u>50,000</u>
Total Income		<u>2,84,000</u>

(2) Computation of Tax Liability on Total Income for the Assessment Year 2014-15

Particulars	Amount (₹)
Tax on Total Income of ₹ 2,84,000	8,400
Add: Surcharge on Income Tax	Nil
Add: Education Cess @ 2%	168
Add: Secondary and Higher Education Cess @ 1%	<u>84</u>
	8,652
Less: Double taxation relief : 70,000 x 3.05%	<u>2,135</u>
Tax Payable	<u>6,517</u>
Rounded off u/s 288B	<u>6,520</u>

Note : (i) Average rate of tax in the foreign country = 20% i.e. $[(₹ 8,000 + 20\% \text{ of } ₹ 30,000) / (40,000 + 30,000)] \times 100$
(ii) Average rate of tax in India = $(8,652 / 2,84,000) \times 100 = 3.05\%$

Illustration 7.

Mr. B is a musician deriving income from foreign concerts performed outside India, ₹ 50,000. Tax of ₹ 10,000 was deducted at source in the country where the concerts were given. India does not have any agreement with that country for avoidance of double taxation. Assuming that Indian income of B is ₹ 2,00,000, what is the relief due to him under Sec. 91 for the Assessment Year 2014-2015.

Solution:**(1) Computation of Total Income for the Assessment Year 2014-15**

Particulars	Amount (₹)
Indian Income	2,00,000
Foreign Income	50,000
Gross Total Income or Total Income	2,50,000

(2) Computation of Tax Liability on Total Income for the Assessment Year 2014-15

Particulars	Amount (₹)
Tax on Total Income	5,000
Add: Education Cess @ 2%	100
Add: Secondary and Higher Education Cess @ 1%	50
Less: Double taxation relief u/s 91 = ₹ 50,000 x 2.06%	1,030
Tax Payable	4,120

Note: 1. Average rate of Indian income tax: $(5,150 \times 2,50,000) \times 100 = 2.06\%$

2. Average rate of foreign income tax:

Relief is allowed either at the average rate of Indian Income Tax or the average rate of Foreign Income Tax = $(10,000/50,000) \times 100 = 20\%$

whichever is lower. Accordingly, the relief has been allowed at the average rate of Indian Income tax.

Illustration 8.

A resident assessee, earned foreign exchange of ₹ 78,800. The foreign income was also subjected to tax deduction of ₹ 8,800 at source in the foreign country with which India had no agreement for avoidance of double taxation. The assessee claimed relief under Sec. 91 of the Income-tax Act in respect of the whole foreign income. Discuss his contention with reference to decided case laws.

Solution:

Where any income is taxed outside India as well as in India, a resident assessee is entitled to claim double taxation relief on such doubly taxed income provided such income is not deemed to accrue or arise in India. If any income arising outside India, is not subjected to tax in India, such foreign income does not form part of doubly taxed income for the purposes of Sec. 91. The expression "doubly taxed income" refers to foreign income which also suffered tax in India.

Where any foreign income, taxed outside India, is also eligible to deduction in computing total income in India, double taxation relief would be allowed only on such income as forms part of total income.

On the amount of doubly taxed income, Income-tax is calculated at the Indian rate of tax and rate of tax of the foreign country. The foreign tax rate has to be calculated separately for each country – CIT vs. Bombay Burmah Trading Corpn. Ltd. [2003] 126 Taxman 403 (Bom.)

Double taxation relief will be allowed on such doubly taxed income either at the average rate of Foreign Income Tax or Indian Income Tax, whichever is lower out of the two.

Illustration 9.

An Indian company pays to a foreign company for providing engineering services to be utilised in India. Part of the work is done abroad but the payment is made entirely outside India. Is the foreign company liable for Indian Income-tax?

Solution:

Yes. The criterion is not where it is paid but where the services are utilized [Steffen Robertson and Kirsten Consulting Engineers and Scientists vs. CIT. (1998) 230 ITR 207 (AAR)]. But liability will be limited to the proportionate profits attributable to activities in India under Explanation 1 to section 9(1) and as provided invariably in all DTA Agreements.

Illustration 10.

A resident pays for electronic purchase of business information reports. Is the payment to be taxed as royalty?

Solution:

No. The transactions are on principal to principal basis, where there is no P.E. of the non-resident. Information is available to anyone. It is not royalty [ABC Ltd., In re, (2006) 284 ITR 1 (AAR)].

Illustration 11

A Ltd. registered in UK filed a certificate of residence in UK from Indian Revenue Authorities in UK and claimed that its entire income from shipping was exempted under Article 9(1) of the Indo-UK Convention. Can the Assessing Officer deny exemption on the ground that assessee has not established its residence in the UK so as to attract the benefit of Indo-UK Agreement?

Solution:

Where a company is incorporated in the UK filed a certificate of residence as well, the Assessing Officer has no material to question the claim of the assessee [Arabian Express Line Ltd. of UK vs. UOI (1995) 2012 ITR 31 (Guj)]

Illustration 12

S&L Ltd., a foreign company has no share in an Indian company, but the holding company of S&L Ltd. has. Indian company advances loan to the foreign company. Does it attract tax as dividend under section 2(22)(e)?

Solution:

No. As S&L Ltd. is not a shareholder in the Indian company, section 2(22)(e) does not apply [Madura Coats P. Ltd., In re (2005) 274 ITR 609 (AAR)].

Illustration 13

What are the conditions for taxation of a non-resident on his salary income in India?

Solution:

There are three conditions all of which are to be satisfied, namely, residence for 183 days or more, payments from a permanent establishment of the country to which the salary is charged etc. for deduction of the same. Primarily the taxability will arise in the country where the service is rendered, unless the residence is less than 183 days in which case, there is liability [CIT vs. Elitos S.P.A. (2006) 280 ITR 495 (All.)].

Where stay is more than 183 days, the liability is at the place of residence though payment is made elsewhere [Hindustan Powerplus Ltd., In re (2004) 271 ITR 433 (AAR)]. Normally, tax is to be paid where service is rendered but the exceptions are to be considered [Emmerich Jaegar vs. CIT (2005) 274 ITR 125 (Guj.)].

Illustration 14

If a taxpayer is entitled to double tax relief in India, though assessable under Indian Law, could such relief be denied merely because such income is exempt from tax in the other country?

Solution:

No. There can be double non-taxation. It was so pointed out in CIT vs. Laxmi Textile Exporters Ltd. (2000) 245 ITR 521 (Mad.), in the similar situation, where income was eligible for exemption under Srilankan Law, though not taxable in India under the DTAA, it was held that relief cannot be denied. The High Court found that the DTAA is binding on the Government even [CIT vs. Visakhapatnam Port Trust (1983) 144 ITR 146 (AP)].

Study Note - 11

RETURN OF INCOME & ASSESSMENT PROCEDURE

This Study Note includes

- 11.1 Return of Income
- 11.2 Annual Information Return [Section 285BA]
- 11.3 Assessment Procedure

11.1 RETURN OF INCOME

The starting point for assessment of income is furnishing of return of income. Filing of return of income is mandatory for certain category of assessee. Incidental provisions for accompaniments to the return of income, error correction and belated returns have been made. Now filing of the return electronically has been made mandatory for certain category of assessee.

Return of income is the format in which the assessee has to furnish information as to his total income and tax payable. The format for filing of returns by different assessee is notified by the CBDT.

11.1.1 Compulsory Filing of Return of Income [Section 139(1)]

- (1) As per section 139(1), it is compulsory for companies and firms to file a return of income for every Previous Year.
- (2) In case of a person other than a company or a firm, filing of return of income is mandatory, if his total income or the total income of any other person in respect of which he is assessable under this Act during the Previous Year exceeds the basic exemption limit.
- (3) Such persons should, on or before the due date, furnish a return of income in the prescribed form and verified in the prescribed manner and setting forth such other particulars as may be prescribed.
- (4) Further, every person, being an individual or a HUF or an AOP or BOI or an artificial juridical person—
 - whose total income or the total income of any other person in respect of which he is assessable under this Act during the Previous Year
 - without giving effect to the provisions of section 10A or 10B or 10BA or Chapter VI-A - exceeded the basic exemption limit is required to file a return of his income or income of such other person.

Every Individual, HUF, etc. must file their return of income if it's Gross Total Income exceeds the exempted income ceiling :

Assessee	Exempted Ceiling
Resident Super Senior Citizen	₹ 5,00,000
Resident Senior Citizen	₹ 2,50,000
Resident or Non-resident Individual	₹ 2,00,000
HUF	₹ 2,00,000

- (5) For company and certain other assessee like firm having tax audit, filing of return in an electronic form is mandatory. (Section 139D)
- (6) **Compulsory filing of Income-tax return in relation to assets located outside India :** It is mandatory to furnish return of income from the Assessment Year 2012-13 if the following conditions are satisfied :
 - (a) The person is resident in India (but other than not ordinarily resident), and
 - (b) The person has any assets (including financial interest from any entity) located outside India or signing authority in any account located outside India.

From the above we can understand that for any person (may be individual or a person other than individual) who satisfies the above two conditions, furnishing of return has become mandatory, irrespective of the fact whether the person has taxable income or not. The above provisions are not applicable if the concerned person is a non-resident or if the person is a resident but not ordinarily resident in India for the relevant Assessment Year.

- (7) **Political Parties** : Political parties are under a statutory obligation to file return of income in respect of each Assessment Year in accordance with the provisions of the Income-tax Act and the total income for this purpose has to be computed without giving effect to the provision of section 13A and Chapter VI-A of the Act.
- (8) **Liquidator** : Under the Companies Act, 1956, a liquidator is not exempt from making an Income-tax return on business managed by him for the beneficial winding up of the company.
- (9) **Charitable Trust** : Submission of return by charitable trust is essential even if its income is exempt. If the total income of a charitable trust (without claiming exemption under section 11 and 12) exceeds the maximum amount not chargeable to tax, then submission of return by the trust is essential.
- (10) No need to file return if Non-agricultural income is less than the amount of exemption limit in the case of an Individual/ HUF.

Exemption provided by the Government when taxable income of an individual is up to ₹ 5,00,000 : If the following conditions are satisfied, the taxpayer has an option to submit his return of income or not to submit his return of income –

- (i) The taxpayer is an individual. He may be resident or non-resident.
- (ii) His taxable income does not exceed ₹5,00,000. Taxable income should consist of salary and/ or saving bank account interest (but interest should not be more than ₹10,000).
- (iii) The individual has reported to his employer his Permanent Account Number (PAN).
- (iv) The individual has reported to his employer his saving bank interest for the purpose of calculating tax deductible under section 192.
- (v) The Individual has received a certificate of tax deduction in Form No. 16 from his employer which mentions the PAN, details of income, tax deducted at source by the employer and deposited to the credit of the Central Government.
- (vi) The individual has no claim of refund of taxes due to him for the income of the Assessment Year.
- (vii) The individual has received salary from only one employer for the Assessment Year.

However, in case notice under section 142(1), 148, 153A or 153C has been issued for filing a return of income for the relevant Assessment Year, exemption is not available.

‘Due date’ means –

- (a) **30th November of the Assessment Year**, where the assessee is required to furnish a report in Form No. 3CEB under section 92E pertaining to international transactions.
- (b) **30th September of the Assessment Year**, where the assessee is -
 - (i) a company; or
 - (ii) a person (other than a company) whose accounts are required to be audited under the Income-tax Act, 1961 or any other law in force; or
 - (iii) a working partner of a firm whose accounts are required to be audited under the Income-tax Act, 1961 or any other law for the time being in force.
- (c) **31st July of the Assessment Year**, in the case of any assessee other than those covered in (a) & (b) above.

The return of income required to be furnished in Form No. ITR-1, ITR-2, ITR-3, ITR-4, ITR-5 or ITR-6 shall not be accompanied by a statement showing the computation of the tax payable on the basis of the return, or proof of the tax, if any, claimed to have been deducted or collected at source or the advance tax or self-assessment tax, if any, claimed to have been paid or any document or copy of any Account or Form or Report of Audit required to be attached with the return of income under any of the provisions of the Act.

The return of income referred to in sub-rule (1) may be furnished in any of the following manners, namely:—

- (a) furnishing the return in a paper form;
- (b) furnishing the return electronically under digital signature;
- (c) transmitting the data in the return electronically and thereafter submitting the verification of the return in Form ITR-V;
- (d) furnishing a bar-coded return in a paper form.

It shall be mandatory for the following assesseees to file the return electronically:

- (a) every person (not being a co. or a person filing return in ITR 7) having total income exceeding ₹5,00,000
- (b) an individual or a Hindu Undivided Family, being a resident, having assets (including financial interest in any entity) located outside India or signing authority in any account located outside India and required to furnish the return in Form ITR-2 or ITR-3 or ITR-4, as the case may be.
- (c) Every person claiming tax relief under Section 90, 90A or 91
- (d) Persons who are required to get their Accounts audited under Section 44AB, 92E, 115JB.
- (e) A company required to furnish the return in Form ITR-6.

However, as per instruction of ITR 7 From assessment year 2013-14 onwards in case an assessee who is required to furnish a report of audit under section 10(23C)(iv), 10(23C)(v), 10(23C)(vi), 10(23C)(via), 10A, 12A(1)(b), 44AB, 80-IA, 80-IB, 80-IC, 80-ID, 80JJAA, 80LA, 92E or 115JB he shall file the report electronically on or before the date of filing the return of income.

E-filing of Income Tax Return for AY 12-13 will not be mandatory for agents of non-residents [u/s 160(1) (i) of the IT Act] as well as for Private Discretionary Trusts.

11.1.2 Interest for Default in Furnishing Return of Income [Section 234A]

- (1) Interest under section 234A is attracted where an assessee furnishes the return of income after the due date or does not furnish the return of income.
- (2) The interest is payable for the period commencing from the date immediately following the due date and ending on the following dates -

When the return is furnished after due date: the date of furnishing of the return

Where no return is furnished: the date of completion of assessment

- (3) The interest has to be calculated on the amount of tax on total income as determined under section 143(1) or on regular assessment as reduced by the advance tax paid and any tax deducted or collected at source @ 1% for every month or part of the month.

In the case of Associated Electro Ceramics vs. Chairman, Central Board of Direct Taxes (1993) 201 ITR 501 (Karn), the Karnataka High Court held that the Board has power to condone the delay in cases having claim of carry forward of losses. The Department did not file special leave petition against this order. Subsequently the matter was taken up with the Ministry of Law who also agreed with the view that the Board has power to condone the delay in filing the return under section 119(2)(b) of the Income-tax Act, 1961, in a case having claim of carry forward of losses. In view of the above,

the CBDT has [vide Circular No. 8/2001, dated 16.5.2001] clarified that delay in making claim of carry forward of losses can be condoned in cases where returned income is a loss. Further the monetary limits prescribed for condonation of delay in making refund claims, by different income-tax authorities will also apply to condonation of delay in cases of claim of carry forward of losses.

The monetary limits prescribed for condonation of delay are as under:

1	Where the loss does not exceed ₹10,000	The Assessing Officer shall obtain prior approval of Commissioner of Income-tax
2	Where the loss exceeds ₹10,000 but does not exceed ₹1,00,000	The Assessing Officer shall obtain prior approval of Chief Commissioner of Income-tax or Director General of Income-tax
3	Where the loss exceeds ₹1,00,000	The power of condonation as well as power of rejection in all cases lies with the CBDT

11.1.3 Option to Furnish Return of Income to Employer [Section 139(1A)]

- (1) This section gives an option to a person, being an individual who is in receipt of income chargeable under the head "Salaries", to furnish a return of his income for any Previous Year to his employer, in accordance with such scheme as may be notified by the CBDT and subject to such conditions as may be specified therein.
- (2) Such employer shall furnish all returns of income received by him on or before the due date, in such form, including on a floppy, diskette, magnetic cartridge tape, CD-ROM or any other computer readable media and manner as may be specified in that scheme.
- (3) In such a case, any employee who has filed a return of his income to his employer shall be deemed to have furnished a return of income under sub-section (1).

11.1.4 Income Tax Return through Computer Readable Media [Section 139(1B)]

- (1) This sub-section enables the taxpayer (company or a person other than company) to file his return of income in computer readable media, without interface with the department.
- (2) Such person may, on or before the due date, furnish a return of income in accordance with such scheme as may be notified by the CBDT, in such form, including on a floppy, diskette, magnetic cartridge tape, CD-ROM or any other computer readable media and manner as may be specified in that scheme.
- (3) In such case, the return furnished under such scheme shall be deemed to be return furnished under sub-section (1) of section 139.

11.1.5 Return of Loss [Section 139(3)]

- (1) This section requires the assessee to file a return of loss in the same manner as in the case of return of income within the time allowed under section 139(1).
- (2) Under section 80, an assessee cannot carry forward or set off his loss against income in the same or subsequent year unless he has filed a return of loss in accordance with the provisions of section 139(3).
- (3) A return of loss has to be filed by the assessee in his own interest and the non-receipt of a notice from the Assessing Officer requiring him to file the return cannot be a valid excuse under any circumstances for the non-filing of such return.
- (4) In particular, a return of loss must be filed by an assessee who has incurred a loss under the heads "Profits and Gains from Business or Profession", "Capital Gains", and income from the activity of owning and maintaining race horses taxable under the head "Income from Other Sources".
- (5) However, loss under the head "Income from House Property" under section 71B and unabsorbed depreciation under section 32 can be carried forward for set-off even though return of loss has not been filed before the due date.

Synopsis of Loss filing of return is as follows :

Section Ref.	Nature of Loss	Filing of Return
71B	Loss under the head Income from House Property	Loss return must be filed
72	Business or Profession Loss	Loss return should be filed timely
73	Speculative Business Loss	Loss return should be filed timely
74	Loss under the head Capital Gains	Loss return should be filed timely
74A	Loss from the activity of owning and maintaining race horse	Loss return should be filed timely
32(2)	Unabsorbed Depreciation Allowance	Loss return should be filed

If return of Loss is not filed timely, the losses under section 72, 73, 74, and 74A could not be carried forward to subsequent years for set off.

11.1.6 Belated Return [Section 139(4)]

- (1) Any person who has not furnished a return within the time allowed to him under section 139(1) or within the time allowed under a notice issued under section 142(1) may furnish the return for any Previous Year at any time -
 - (i) before the expiry of one year from the end of the relevant Assessment Year; or
 - (ii) before the completion of the assessment, whichever is earlier.
- (2) Interest is required to be paid under section 234A, as stated earlier.
- (3) A penalty of ₹ 5,000 may be imposed under section 271F if belated return is submitted after the end of Assessment Year.

11.1.7 Return of Income of Charitable Trusts and Institutions [Section 139(4A)]

- (1) Every person in receipt of income –
 - (i) derived from property held under a trust or any other legal obligation wholly or partly for charitable or religious purpose; or
 - (ii) by way of voluntary contributions on behalf of such trust or institution must furnish a return of income if the total income in respect of which he is assessable as a representative assessee, computed before allowing any exemption under sections 11 and 12 exceeds the basic exemption limit.
- (2) Such persons should furnish the return in the prescribed form and verified in the prescribed manner containing all the particulars prescribed for this purpose.
- (3) This return must be filed by the representative-assessee voluntarily within the time limit. Any failure on the part of the assessee would attract liability to pay interest and penalty.

11.1.8 Return of Income of Political Parties [Section 139(4B)]

- (1) Under this section, a political party is required to file a return of income if, before claiming exemption under section 13A, the party has taxable income.
- (2) The grant of exemption from Income-tax to any political party under section 13A is subject to the condition that the political party submits a return of its total income within the time limit prescribed under section 139(1).
- (3) The chief executive officer of the political party is statutorily required to furnish a return of income of the party for the relevant Assessment Year, if the amount of total income of the Previous Year exceeds the basic exemption limit before claiming exemption under section 13A.

11.1.9 Return of Income of Research Associations etc. [Section 139(4C)]

Any assessee being a research association of which income before claiming exemption u/s. 10 exceeds the maximum amount which is not chargeable to Income Tax must file a return of income.

Section Ref.	Nature of Organisation
10(21)	Research association including an association having its object of undertaking research in social science or statistical science
10(22B)	News Agency
10(23A) / 10(23B)	Specified association or institution
10(23C)(v)	Specified Trust or institution
10(23C)(vi)	Any University or other educational institution
10(23C)(via)	Any Hospital or other medical institution
10(24)	Trade Union
10(46)	Any Body / Authority / Trust
10(47)	Infrastructure Debt Fund

11.1.10 Return of Income of University or College or Other Institution [Section 139(4D)]

Every university or college or other institution referred to in clause (ii) and clause (iii) of sub-section (1) of section 35, which is not required to furnish return of income or loss under any other provision of this section, shall furnish the return in respect of its income or loss in every Previous Year and all the provisions of this Act shall, so far as may be, apply as if it were a return required to be furnished under sub-section (1).

15.1.11 Revised Return [Section 139(5)]

- (1) If any person having furnished a return under section 139(1) or in pursuance of a notice issued under section 142(1), discovers any omission or any wrong statement therein, he may furnish a revised return at any time before the expiry of one year from the end of the relevant Assessment Year or before completion of assessment, whichever is earlier.

In other words :

Such return can be submitted at any time :-

- (a) before the expiry of one year from the end of the relevant Assessment Year; or
- (b) before the completion of assessment

Whichever is earlier

- (2) It may be noted that a belated return cannot be revised. It has been held in *Kumar Jagdish Chandra Sinha vs. CIT* 1996 86 Taxman 122 (SC) that only a return furnished under section 139(1) or in pursuance of a notice under section 142(1) can be revised. A belated return furnished under section 139(4), therefore, cannot be revised.

A return cannot be revised for any kind of omission or wrong statement. Such omission or wrong statement in the original return must be due to a bona fide inadvertence or mistake on the part of the assessee [*Sunanda Ram Deka vs. CIT* (1994) 210 ITR 988 (Gau)].

Further, such a bona fide mistake or omission must be discovered by the assessee himself. In case such an omission or mistake is discovered by the Assessing Officer during the assessment proceedings, a revised return filed at that stage will not be a return under section 139(5) [*CIT vs. Haji P. Mohammed* (1981) 132 ITR 623 (Ker)].

Moreover, unless the omission or a wrong statement has a bearing on assessment, a subsequent return correcting it does not fall within section 139(5) [*Halima Fancy Stores vs. CIT* (1916) 104 ITR 190 (Mad)].

A revised return cannot be filed where assessee merely changes status and the accounting year or method of accounting [Deepnarain Nagu & Co. vs. CIT (1986) 157 ITR 37 (MP)].

If the assessee discovers any omission or any wrong statement in a revised return, it is possible to revise such a revised return provided it is revised within the same prescribed time [Niranjan Lai Ram Chandra vs. CIT (1982) 134 ITR 352 (All); CIT vs. Shrivastava (Dr N.) (1988) 170 ITR 556 (MP)].

Once a revised return is filed, the originally filed return must be taken to have been withdrawn and substituted by the revised return [Dhampur Sugar Mills Ltd. vs. CIT (1973) 90 ITR 236 (All)]. Thus where a return was filed under section 139(1) declaring income and later it is revised declaring a loss, the loss shall be allowed to be carried forward as the revised return shall substitute the original return which was filed within time.

Similarly, where a return is filed declaring a loss within the time allowed under section 139(1) and such loss is increased in the revised return, such higher loss will be eligible for being carried forward [CIT vs. Periyar District Co-op. Milk Producers Union Ltd (2004) 266 ITR 705 (Mad)].

As per the law, a return can be revised at any time before the expiry of one year from the end of the relevant assessment year or before the completion of assessment, whichever is earlier. Issue of notice under section 143(2) or show cause notice under section 144 means that the assessment is not yet completed. Therefore, original return, if submitted within the due date, can be revised even after issue of such notice. But the penalty under section 271(1)(c) for concealment of income may be levied on the additional income disclosed in the revised return.

To sum up, return of income can be revised if the following conditions are satisfied:

- (i) a return has already been filed on or before the due date mentioned under section 139(1) or within the prescribed time in response to a notice under section 142(1);
- (ii) the assessee, after filing the above return, discovers any omission/ wrong statement in the return;
- (iii) revised return should be filed within one year from the end of the relevant assessment year or before completion of the assessment, whichever is earlier.

However, there is a distinction between a revised return and a correction of the return. If the assessee files some application for correcting a return already filed or making amends therein, it would not mean that he has filed a revised return. It will still retain the character of an original return but once a revised return is filed, the original return must be taken to have been withdrawn and to have been substituted by a fresh return for the purposes of assessment [Gopaldas Parshottamdas vs. CIT (1941) 9 ITR 130 (All)].

A letter addressed to the Assessing Officer informing him that a certain items of income not mentioned in the original return be taken to be the income of the assessee would not be a proper revised return under sub-section (5) [Woman Padmanabh Dande vs. CIT (1952) 22 ITR 339 (Nag)].

Further, a revised return does not always spare penalty, where such revised return has been filed after concealment has been brought home. The assessee had admitted that 50% to 70% of his receipt is not recorded, but he claimed that he had admitted the same only during search in a spirit of co-operation in order to avoid penalty and prosecution. The first appellate authority deleted the penalty on the ground that the return was voluntary before proceedings were taken on the returns filed, while the Tribunal endorsed the decision on the ground that it was a matter of bargain between the assessee and the Department and that penalty is exonerated on revised return filed in pursuance of such bargain. The High Court held that the revised return could not be treated as purely voluntary especially, since the assessee had admitted concealment during search [CIT vs. Dr A. Mohd. Abdul Khadir (2003) 260 ITR 650 (Mad)].

Case Laws

- (1) The original return was filed claiming depreciation as per law. A revised return was filed withdrawing claim of depreciation. It was held such a return could not be held to be a valid return under section 139(5) [CIT vs. Andhra Cotton Mills Ltd (1996) 219 ITR 404 (AP)].
- (2) Where the assessee trust was statutorily required to file Auditor's Report with its return did not file the same with the original return, there was a clear omission in the return filed and hence the assessee was entitled to file the same with a revised return [CIT vs. Sri Baldeoji Maharaj Trust (1983) 142 ITR 584 (All)].
- (3) Where an application is filed by the assessee for making correction or for making some amendment in the originally filed return, it would not mean that he has filed a revised return. But once a revised return is filed, the originally filed return must be taken to have been withdrawn and substituted by the revised return [Dhampur Sugar Mills Ltd vs. CIT (1973) 90 ITR 236 (All)].

11.1.12 Particulars required to be furnished with the Return [Section 139(6)]

The prescribed form of the return shall, in certain specified cases, require the assessee to furnish the particulars of -

- (i) income exempt from tax
- (ii) assets of the prescribed nature, value and belonging to him
- (iii) his bank account and credit card held by him
- (iv) expenditure exceeding the prescribed limits incurred by him under prescribed heads
- (v) such other outgoings as may be prescribed.

11.1.13 Defective Return [Section 139(9)]

- (1) Under this sub-section, the Assessing Officer has the power to call upon the assessee to rectify a defective return.
- (2) Where the Assessing Officer considers that the return of income furnished by the assessee is defective, he may intimate the defect to the assessee and give him an opportunity to rectify the defect within a period of 15 days from the date of such intimation. The Assessing Officer has the discretion to extend the time period beyond 15 days, on an application made by the assessee.
- (3) If the defect is not rectified within the period of 15 days or such further extended period, then the return would be treated as an invalid return. The consequential effect would be the same as if the assessee had failed to furnish the return.
- (4) Where, however, the assessee rectifies the defect after the expiry of the period of 15 days or the further extended period, but before assessment is made, the Assessing Officer can condone the delay and treat the return as a valid return.
- (5) A return can be treated as defective if it is not properly filled in or the necessary enclosures are not accompanying the return or it is filed without payment of self-assessment tax.

Specific defects are only illustrative and not exhaustive - CIT vs. Rai Bahadur Bissesswarlal Motilal Malwasie Trust 195 ITR 825.

11.1.14 Permanent Account Number (PAN) [Section 139A]

- (1) Where any person in the following category has not been allotted a Permanent Account Number (PAN), he should apply to the Assessing Officer within the prescribed time for allotment of a PAN -
 - (i) Every person whose total income or the total income of any other person in respect of which the person is assessable under this Act during any Previous Year exceeded the basic exemption limit; or

- (ii) Every person carrying on any business or profession whose total sales, turnover or gross receipts exceeds or is likely to exceed ₹5 lakhs in any Previous Year; or
 - (iii) Every person who is required to furnish a return of income under section 139(4A); or
- (2) The CBDT had introduced a new scheme of allotment of computerized 10 digits PAN. Such PAN comprises of 10 alphanumeric characters and is issued in the form of a laminated card.
 - (3) All persons who were allotted PAN (Old PAN) earlier and all those persons who were not so allotted but were required to apply for PAN, shall apply to the Assessing Officer for a new series PAN within specified time.
 - (4) Once the new series PAN is allotted to any person, the old PAN shall cease to have effect. No person who has obtained the new series PAN shall apply, obtain or process another PAN.
 - (5) On receipt of allotment of PAN it must be mentioned on all tax payment challans, returns, correspondence.
 - (6) Where TDS or TCS is made, the person from whom it is made must communicate his PAN to the person deducting or collecting tax.
 - (7) Every person receiving any document relating to a transaction prescribed under clause (c) of sub-section (5) shall ensure that the Permanent Account Number or the General Index Register Number has been duly quoted in the document.

The Assessing Officer having regard to the nature of transactions as may be prescribed may also allot a Permanent Account Number to any other person (whether any tax is payable by him or not) in the manner and in accordance with the procedure as may be prescribed.

However, any person, not falling under any clause above, may suo moto apply to the Assessing Officer for the allotment of a Permanent Account Number and, thereupon, the Assessing Officer shall allot a permanent account number to such person forthwith.

The PAN application shall be accompanied by the following documents as proof of identity and address of the applicant:

Sl. No.	Applicant	Documents as proof of identity and address
1.	Individual	(i) Proof of identity — Copy of school leaving certificate or matriculation certificate or degree of a recognized educational institution or depository account or credit card or bank account or water bill or ration card or property tax assessment order or passport or voter identity card or driving license or certificate of identity signed by a Member of Parliament or Member of Legislative Assembly or Municipal Councillor or a Gazetted Officer, as the case may be. In case of a person being a minor, any of the above documents of any of the parents or guardian of such minor shall be deemed to be the proof of identity. (ii) Proof of address — Copy of electricity bill or telephone bill or depository account or credit card or bank account or ration card or employer certificate or passport or voter identity card or property tax assessment order or driving license or rent receipt or certificate of address signed by a Member of Parliament or Member of Legislative Assembly or Municipal Councillor or a Gazetted Officer, as the case may be. In case of a person being a minor, any of the above documents of any of the parents or guardian of such minor shall be deemed to be the proof of address.

2.	Hindu Undivided Family	Copy of any document applicable in the case of an individual, in respect of Karta of the Hindu Undivided Family, as proof of identity and address.
3.	Company	Copy of Certificate of Registration issued by the Registrar of Companies.
4.	Firm	Copy of Certificate of Registration issued by the Registrar of Firms or copy of Partnership Deed.
5.	Association of Persons (Trusts)	Copy of Trust Deed or copy of Certificate of Registration Number issued by Charity Commissioner.
6.	Association of Persons (other than Trusts) or Body of Individuals or Local Authority or Artificial Juridical Person	Copy of Agreement or Copy of Certificate of Registration number issued by Charity Commissioner or Registrar of Co-operative Society or any other Competent Authority or Any other document originating from any Central or State Government Department establishing identity and address of such person

Time limit for submitting application for allotment of PAN is as under:

Situation	Time limit for a making application
If his total income or the total income of any other person in respect of which he is assessable under this Act during any previous year exceeded the maximum amount which is not chargeable to income-tax.	on or before 31 st May of the assessment year in which such income is assessable
If he is carrying on any business or profession whose total sales turnover or gross receipt are or is likely to exceed ₹5,00,000 in any previous year.	on or before the end of that accounting year
If he is required to furnish a return of income under section 139(4A), i.e. return of trust and charitable institutions.	on or before the end of the relevant accounting year
If he is a person who is not required to apply for PAN under any of the above clauses	application can be made at any time

With a view to progressively making PAN a common business identification number for other departments such as the Central Board of Excise and Customs and the Director General of Foreign Trade, the Act has delegated the power to the Central Government to notify class or classes of persons for whom it will be obligatory to apply for PAN, provided tax is payable by them under the Income-tax Act or any tax or duty is payable by them under any other law in force including importers and exporters whether any tax is payable by them or not.

The Central Government by Notification No. 11468, dated 29-8-2000 has notified the following class or classes of persons who shall apply to the Assessing Officer for allotment of Permanent Account Number:—

- (i) Exporters and Importers as defined in section 2(20) and section 2(26) of the Customs Act, 1962, who are required to obtain an importer-exporter code under section 7 of the Foreign Trade (Development and Regulations) Act, 1992.

- (ii) Assessee as defined in rule 2(3) of Central Excise Rules, 1944.
- (iii) Persons who issue invoices of Cenvat i.e. traders, etc. requiring registration under Central Excise Rules, 1944.
- (iv) Persons who are assessee under service tax.

The above persons shall apply for allotment of PAN within 15 days of the date of publication of the notification in the Official Gazette. However, persons who may fall in the above category, after the date of the above notification, shall apply for allotment of PAN:—

- (a) in case of (i) above, before making an import or export;
- (b) in case of (ii) and (iii) above, before making an application for registration under Central Excise;
- (c) in case of (iv) above, before making an application for registration under service tax.

The Central Government, by Notification No. 355/2001, dated 11-12-2001 has further notified the following class or classes of persons:

- (1) Persons registered under the Central Sales Tax Act, 1956 or the General Sales Tax Law of the appropriate State or Union Territory, as the case may be.
- (2) As on the date of this notification, a person falling within a class or classes of persons referred to in paragraph 1, shall apply for the allotment of Permanent Account Number within thirty days of the date of publication of this notification in the Official Gazette.
- (3) A person who may fall within such class or classes of persons after the date of this notification, as is referred to in paragraph 1, shall apply for the allotment of Permanent Account Number (PAN) before making any application for registration under the Central Sales Tax Act, 1956 or the General Sales Tax Law of the appropriate State or Union territory, as the case may be.

Further, the Central Government may, for the purpose of collecting any information which may be useful for or relevant to the purposes of this Act, by way of notification specify any class or classes of persons, and such persons shall within the prescribed time apply to the Assessing Officer for allotment of a Permanent Account Number.

On allotment of Permanent Account Number, every person shall:

- (a) quote such number in all his returns to, or correspondence with, any income-tax authority;
- (b) quote such number in all challans for the payment of any sum due under this Act;
- (c) quote such number in all documents pertaining to such transactions as may be prescribed by the Board in the interests of the revenue, and entered into by him.

Following are the transactions where quoting PAN has been made compulsory as per section 139A(5) (c) and rule 114B:

- (a) sale/purchase of any immovable property valued at ₹5 lakh or more.
- (b) sale/purchase of motor vehicle (other than two wheeled vehicles) which requires registration under Motor Vehicles Act, 1988.
- (c) Time deposit exceeding ₹50,000 with a bank/banking company/ banking institution.
- (d) Deposits exceeding ₹50,000 in Post Office Savings Bank.
- (e) Contract for sale/purchase of securities exceeding ₹1,00,000.
- (f) Opening an account with a bank/banking company/banking institution. Where the person opening a bank account is a minor and does not have any income chargeable to income-tax, he shall quote the PAN/GIR number of his father or mother or guardian as the case may be.

- (g) Application for installation of a telephone connection including cellular connection.
- (h) Payment to hotels/restaurants of bills exceeding ₹25,000 at any time.
- (i) payment in cash for purchase of bank draft or pay orders or banker's cheques from a banking company to which the Banking Regulation Act, 1949, applies (including any bank or banking institution referred to in section 51 of that Act) for an amount aggregating ₹50,000 or more during any one day;
- (j) Deposit in cash aggregating ₹50,000 or more, with a banking company to which the Banking Regulation Act, 1949, applies (including any bank or banking institution referred to in section 51 of that Act) during any one day;
- (k) Payment in cash in connection with travel to any foreign country of an amount exceeding ₹25,000 at any one time. Such payment shall include payment in cash towards fare, or to a travel agent or a tour operator, or for the purchase of foreign currency. However, travel to any foreign country does not include travel to the neighbouring countries or to such places of pilgrimage as may be specified by the Board under Explanation 3 of section 139(1).
- (l) Making an application to any banking company to which the Banking Regulation Act, 1949, applies (including any bank or banking institution referred to in section 51 of that Act) or to any other company or institution, for issue of a credit card;
- (m) Payment of an amount of ₹50,000 or more to a Mutual Fund for purchase of its units;
- (n) Payment of an amount of ₹50,000 or more to a company for acquiring shares issued by it;
- (o) Payment of an amount of ₹50,000 or more to a company or an institution for acquiring debentures or bonds issued by it;
- (p) Payment of an amount of ₹50,000 or more to the Reserve Bank of India, for acquiring bonds issued by it.

Provided any person who has not been allotted a Permanent Account Number and who enters into any of the above transactions and makes the payment in cash or otherwise than by way of a crossed cheque drawn on a bank or through credit card issued by any bank shall make a declaration in Form No. 60 giving therein the particulars of such transaction.

Where a person, making an application for opening an account referred to in clause (c) and clause (f) of this rule, is a minor and who does not have any income chargeable to income-tax, he shall quote the Permanent Account Number of his father or mother or guardian, as the case may be, in the document pertaining to the transaction referred to in the said clause (c) and clause (f).

The above provisions shall not apply to as per rule 114C (1):

- (a) Persons who have 'agricultural income' and are not in receipt of any other income chargeable to income-tax. Such person shall make a declaration in Form No. 61.
- (b) Central Government, State Government and Consular Offices in transactions where they are the payers.

The assessee shall intimate the Assessing Officer any change in his address or in the name and nature of his business on the basis of which the Permanent Account Number was allotted to him.

The sub-sections (5A) and (5B) shall not apply in case of a person.

- (a) whose total income is not chargeable to tax; or
- (b) who is not required to obtain PAN under any provisions of the Income-tax Act

such person will be required to furnish a declaration referred to in section 197A in the prescribed form to the effect that the tax on his estimated total income of the previous year will be nil. However, in this case also w.e.f. 1-4-2010, quoting of PAN shall be mandatory in the declaration made in Form No. 15G or 15H, otherwise such declaration shall not be valid.

In case of PAN, the obligations of deductee / buyer and deductor/seller are as follows:

- (1) Obligation of a person receiving any sum/income/amount from which tax has been deducted at source [Section 139A(5A)]: Such person (including non-resident) shall intimate his PAN to the person responsible for deducting tax.
- (2) Obligation of a person who has deducted the tax at source [Section 139A(5B)]: Where any sum or income or amount has been paid after deducting tax, every such person deducting tax shall quote the PAN of the person to whom sum/income/amount has been paid by him in:
 - (a) the statement of perquisites furnished to the employee in accordance with the newly inserted Section 192(2C);
 - (b) all certificates of TDS furnished under section 203;
 - (c) in all quarterly statements prepared and delivered or caused to be delivered in accordance with the provisions of section 200(3).

However, the Central Government may notify different dates from which the provisions of this sub-section shall apply in respect of any class or classes of persons.

- (3) Obligation of a buyer, licensee, lessee or seller of alcoholic liquor, timber or any other forest products referred to in section 206C
 - (a) Obligation of the buyer or licensee or lessee [Section 139A(5C)]: Every such buyer, licensee or lessee shall intimate his PAN to the seller of such goods.
 - (b) Obligation of the seller of such goods [Section 139A(5D)]: Every seller, collecting tax under section 206C shall quote the PAN of every buyer, licensee or lessee:—
 - (i) in all certificates furnished to the buyer/licensee/lessee under section 206C;
 - (ii) in all quarterly statements prepared and delivered or caused to be delivered in accordance with the provisions of section 206C(3).

As per section 272B(1), where any person fails to comply with the provisions of section 139A, the Assessing Officer may direct that such person shall pay, by way of penalty, a sum of ₹10,000.

As per section 272B(2), if a person who is required to—

- (a) quote the Permanent Account Number in any document referred to in section 139A(5)(c); or
- (b) intimate such number as required under section 139A(5A), or
- (c) intimate such number as required under section 139A(5C).

quotes or intimates a number which is false, and which he either knows or believes to be false or does not believe to be true, the Assessing Officer may direct that such person shall pay, by way of penalty, a sum of ₹10,000.

11.1.15 Scheme for Submission of Returns through Tax Return Preparers [Section 139B]

- (1) The Tax Return Preparer shall assist the specified class or classes of person in furnishing the return in a manner that will be specified in the Scheme, and shall also affix his signature on such return. The "specified class or classes of persons" for this purpose means any person other than a company or a person whose accounts are required to be audited under section 44AB (tax audit) or under any other existing law, who is required to furnish a return of income under the Act.
- (2) A Tax Return Preparer can be an individual, other than
 - (i) any officer of a scheduled bank with which the assessee maintains a current account or has other regular dealings.

- (ii) any legal practitioner who is entitled to practice in any civil court in India.
 - (iii) a chartered accountant.
 - (iv) an employee of the 'specified class or classes of persons'.
- (3) The Scheme notified under the said section may provide for the following —
- (i) The manner in which and the period for which the Tax Return Preparers shall be authorised,
 - (ii) The educational and other qualifications to be possessed, and the training and other conditions required to be fulfilled, by a person to act as a Tax Return Preparer,
 - (iii) The code of conduct for the Tax Return Preparers,
 - (iv) The duties and obligations of the Tax Return Preparers,
 - (v) The circumstances under which the authorisation given to a Tax Return Preparer may be withdrawn, and
 - (vi) Any other relevant matter as may be specified by the Scheme.

11.1.16 Power of Board to dispense with furnishing documents, etc. with the Return [Sec. 139C]

- (1) The Board may make rules providing for a class or classes of persons who may not be required to furnish documents, statements, receipts, certificates, reports of audit or any other documents, which are otherwise under any other provisions of this Act, except section 139D, required to be furnished, along with the return but on demand to be produced before the Assessing Officer.
- (2) Any rule made under the proviso to sub-section (9) of section 139 as it stood immediately before its omission by the Finance Act, 2007 shall be deemed to have **been made under the provisions of this section.**

11.1.17 Filing of return in electronic form [Sec. 139D]

The Board may make rules providing for —

- (a) the class or classes of persons who shall be required to furnish the return in electronic form;
- (b) the form and the manner in which the return in electronic form may be furnished;
- (c) the documents, statements, receipts, certificates or audited reports which may not be furnished along with the return in electronic form but shall be produced before the Assessing Officer on demand;
- (d) the computer resource or the electronic record to which the return in electronic form may be transmitted.

11.1.18 Return by whom to be signed [Section 140]

The return under **section 139** shall be signed and verified as under:

Sr. No.	Assessee Category	Who can Sign
1	Individual	(i) By the individual himself; (ii) Where he is absent from India, by the individual himself or by some person duly authorised by him in this behalf; (iii) Where he is mentally incapacitated from attending to his affairs, by his guardian or any other person competent to act on his behalf; and (iv) Where, for any other reason, it is not possible for the individual to sign the return, by any person duly authorised by him in this behalf

2	Hindu Undivided Family (HUF)	By the Karta or where the Karta is absent from India or is mentally incapacitated from attending to his affairs, by any other adult member of such family
3	Company	Managing director or where for any unavoidable reason, managing director is not able to sign or where there is no managing director, by any director thereof. Exceptions : (a) Where the company is being wound up : by the liquidator (b) Where the management of the company has been taken over by the Government : the principal officer thereof (c) Company is not resident in India : a person who holds a valid power of attorney
4	A Firm / Limited Liability Partnership (w.e.f. A.Y 2010-11)	Managing partner or where for any unavoidable reason managing partner is not able to sign and verify the return, or where there is no managing partner, by any partner thereof
5	A Local Authority	The Principal officer thereof
6	A Political Party	The Chief Executive Officer of such party
7	Any other Association	Any Member of the Association or the Principal Officer thereof
8	Any other Person	By that person or by some person competent to act on his behalf

If the Hindu Undivided Family has no major members as its Karta, a return may validly be signed by the eldest minor member of the family who manages the affairs of the family [Sridhar Udai Narayan vs. CIT (1962) 45 ITR 577 (All)].

The General Clauses Act accepts the thumb impression, as one of the modes of signing, valid and binding [CIT vs. Kanhaiya Lai And Sons (2005) 273 ITR 425 (All)].

A return which is not signed or verified is not a defective return but an invalid return and therefore, it is no return in the eyes of law [CIT vs. Krishan Lai Goyal (Dr) (1984) 148 ITR 283 (P&H); Khialdas & Sons vs. CIT (1997) 225 ITR 960 (MP)].

A notice issued under section 143(2) in response to an unsigned and unverified return does not validate such invalid return [Electrical Instrument Company vs. CIT(2001) 250 ITR 734 (Del)].

Return of company not signed by person mentioned in section 140: Return signed and verified not by the assessee but by a person not properly authorised or empowered is an invalid return and thus void ab-initio [Behari Lai Chatterji vs. CIT (1934) 2 ITR 377 (All); Shridhar Udai Narayan vs. CIT 45 ITR 577 (All)].

Where a return of income of a company was signed by a company secretary although it was supposed to sign by managing director or in the absence of managing director by any director, such a return would not be treated as invalid if in spite of defect return is in substance and effect in conformity with or according to interest and purpose of Act. Such defect can be cured by virtue of section 139(5) [Prime Securities Ltd vs. ACIT (2009) 182 Taxman 221 (Bom)].

Board has the power under section 119(2)(b) to condone the delay in filing the loss return and allowed to be carried forward [Lodhi Property Company Ltd vs. Under Secretary Department of revenue (2010) 234 CTR 99 (Del)].

Where return of income filed by assessee was neither signed by her, nor was it verified in terms of mandate of section 140, it was held that such glaring inherent defect could not be cured in spite of deeming effect of section 292B and the Assessing Officer cannot make an assessment on a invalid return [CIT vs. Harjinder Kaur (2009) 180 Taxman 23 (P&H)].

11.1.19 Prescribed Forms:

Forms	Applicability
ITR-1 (SAHAJ)	For individual having income from salary/ one house property (not being brought forward loss from Previous Years)/ income from other sources (except winning from lotteries and income from race horses)
ITR-2	For individuals and HUFs not having business or professional income
ITR-3	For individual or HUFs being partners in firms and not carrying out business or profession under any proprietorship
ITR-4	For individual and HUFs having income from a proprietary business or profession
ITR-4S(SUGAM)	For individual or HUF deriving business income and such income is computed in accordance with special provision referred to in sections 44AD and 44AE
ITR-5	For firms, AOPs and BOIs or any other person (not being individual or HUF or company or to whom ITR-7 is applicable)
ITR-6	For companies other than companies claiming exemption under section 11
ITR-7	For persons including companies required to furnish return under section 139(4A)/(4B)/(4C)/(4D)
ITR-V	Where the data of the return of income in forms ITR-1, ITR-2, ITR-3, ITR-4, ITR-5 and ITR-6 transmitted electronically without digital signature.

15.1.20 Self Assessment Tax Payment [Section 140A]

- (1) Where any tax is payable on the basis of any return required to be furnished under section 139 or section 142 or section 148 or section 153A or, as the case may be, section 158BC, *after taking into account taxes paid earlier*. The assessee shall be liable to pay such tax together with interest payable under any provision of this Act for any delay in furnishing the return or any default or delay in payment of advance tax, before furnishing the return and the return shall be accompanied by proof of payment of such tax and interest.
- (2) If assessee fails to pay the whole or any part of such tax or interest or both on self assessment, the assessee shall be deemed to be an assessee in default in respect of the tax or interest or both remaining unpaid. Penalty can be imposed on any assessee who is in default.
- (3) **With effect from the Assessment Year 2013-14**, the amount of credit available to be set off according to the provisions of section 115JD (Alternative Minimum Tax) will also be taken into account u/s 140A for the purpose of computing the amount of tax payable and interest chargeable under section 234A, 234B and 234C before filing the return of income.

11.2 ANNUAL INFORMATION RETURN [SECTION 285BA]

The annual information return shall be furnished by every person, being –

- (i) an assessee; or
- (ii) the prescribed person in the case of an office of Government; or
- (iii) a local authority or other public body or association; or
- (iv) the Registrar or Sub-Registrar appointed u/s 6 of the Registration Act, 1908; or
- (v) the registering authority empowered to register motor vehicles under Chapter IV of the Motor Vehicles Act, 1988; or

- (vi) the Post Master General as referred to in clause (j) of section 2 of the Indian Post Office Act, 1898; or
- (vii) the Collector referred to in clause (c) of section 3 of the Land Acquisition Act, 1894; or
- (viii) the recognised stock exchange referred to in clause (f) of section 2 of the Securities Contracts (Regulation) Act, 1956; or
- (ix) an officer of the Reserve Bank of India, constituted u/s 3 of the Reserve Bank of India Act, 1934; or
- (x) a depository referred to in clause (e) of sub-section (1) of section 2 of the Depositories Act, 1996,
- who is responsible for registering or maintaining books of account or other document containing a record of any specified financial transaction in respect of all transactions of the specified nature and value which are registered or recorded by him during Financial Year 2004-05 and onwards.

Specified transactions are as follows:

Sl. No.	Class of Person	Nature of Transaction	Value of Transaction
1	Banking Company	Cash deposit	Aggregate deposit of ₹ 10 lakhs or more in any Savings Account of a person maintained in that Bank
2	Banking Company or any Company / Institution issuing Credit Card	Payment of bills on behalf of any person to whom the card is issued	Aggregating to ₹ 2 lakhs or more in a year
3	Trustee of Mutual Fund or other person authorized in this behalf	Receipt for acquiring Units	An amount of ₹ 2 lakhs or more
4	Company or Institution issuing bonds or debentures	Receipt for acquiring bonds or debentures	An amount of ₹ 5 lakhs or more
5	Company issuing shares through a public or rights issue	Receipt for acquiring shares issued by the company	An amount of ₹ 1 lakh or more
6	Registrar or Sub-Registrar u/s 6 of Registration Act, 1908	Purchase or sale of immovable property	An amount of ₹ 30 lakhs or more
7	Person being an officer of the RBI or a person authorized by RBI	Receipt for bonds issued by the Reserve Bank of India	Aggregating to ₹ 5 lakhs or more in a year

The return referred to above shall be furnished to the Commissioner of Income Tax [Central Information Branch]. Where the Board has authorized an agency to receive such return on behalf of the Commissioner Income Tax [Central Information Branch], the return shall be furnished to that agency.

The return comprising Part A and Part B of Form No. 61A shall be furnished, on computer readable media, along with Part A thereof on paper, on or before August 31 immediately following the financial year in which the transaction is registered or recorded.

Defective Return – Where the prescribed Income Tax Authority considers that the annual information return is defective, he may intimate the defect to the person who has furnished such return and give him an opportunity of rectifying the defect within a period of one month from the date of such intimation or within extended period. If the defect is not rectified within the said period, such return shall be treated as an invalid return and the provisions of this Act shall apply as if such person had failed to furnish the annual information return.

Notice for submission of return – Where a person, who is required to furnish an annual information return, has not furnished the same within the prescribed time, the prescribed Income Tax Authority may serve upon such person a notice requiring him to furnish such return within a period not exceeding 60 days from the date of service of such notice.

11.3 ASSESSMENT PROCEDURE

11.3.1 Inquiry before assessment [Section 142]

Inquiry :

- (1) The Assessing Officer has power to make inquiry from any person (a) who has made a return under section 139 or (b) in whose case the time allowed under sub-section (1) or sub-section (4) of section 139 for furnishing the return has expired. For this purpose a notice can be issued for :
 - (i) where such person has not made a return within the time allowed under section 139(1) or 139(4), to furnish a return of his income, or
 - (ii) to produce such accounts or documents as the Assessing Officer may require, or
 - (iii) to furnish in writing and verified in the prescribed manner information in such form and on such points or matters including a statement of all assets and liabilities of the assessee, whether included in the accounts or not, as the Assessing Officer may require
 Provided that –
 - (i) Previous approval of Joint Commissioner shall be obtained before requiring the assessee to furnish a statement of all assets and liabilities not included in the accounts.
 - (ii) The Assessing Officer shall not require the production of any accounts relating to a period more than three years prior to the Previous Year.
- (2) For the purpose of obtaining full information in respect of the income or loss of any person, the Assessing Officer may make such inquiry as he considers necessary.

Audit

If the Assessing Officer, having regard to the nature and complexity of the accounts, volume of the accounts doubts about the correctness of the accounts, multiplicity of transactions in the accounts or specialised nature of business activity of the assessee and the interests of the revenue, opines that it is necessary so to do, he may with the prior approval of the Chief Commissioner or Commissioner, direct the assessee to get the accounts audited by an accountant, as defined in the *Explanation* below section 288(2) and to furnish an audit report, within such period as may be specified, in the prescribed form. The expenses of such audit shall be paid by the assessee.

These provisions of audit shall have effect notwithstanding that the accounts of the assessee have been already audited.

The direction to get accounts audited can be issued only in the course of assessment proceeding which is pending and not after the completion of assessment [Kumar Films Pvt. Ltd vs. CIT (2002) 258 ITR 257 (Patna)]. Further the assessment also includes reassessment.

The Chartered Accountant shall submit the audit report in Form No. 6B to the assessee who will in turn submit it to the Assessing Officer within such period as may be specified by the Assessing Officer [Section 142(2C)]. Such period may, however, be extended by the Assessing Officer suo motu or on the request of the assessee and for any good and sufficient reasons. The aggregate of the period originally fixed and the extended period(s) shall not, in any case, exceed 180 days from the date on which the directions for audit were received by the assessee.

As per section 142(2D), where any direction for audit under section 142(2A) is issued by the Assessing Officer on or after 1-6-2007, the expenses of and incidental to such audit (including the remuneration of the accountant) shall be determined by the Chief Commissioner or Commissioner, in accordance with such guidelines as may be prescribed and the expenses so determined shall be paid by the Central Government.

The remuneration for special auditor to be fixed by the Commissioner as per the scale approved by the ICAI, subject to maximum of ₹ 30 lakh per year. Ad hoc remuneration of ₹20 lakh fixed by the Commissioner was set aside [Dhanesh Gupta & Co. vs. CIT (2010) 42 DTR 7 (Del)].

The twin pre-conditions justifying the special audit under section 142(2A) of the Income-tax Act, 1961 are, the nature and complexity of the accounts and the interests of the Revenue. Before an approval is sought for, the assessing authority must form an opinion as regards the said twin conditions. There should be an honest attempt to understand the books of account of the assessee. There has to be an application of mind on the part of the assessing authority. Complexity of the accounts cannot be equated with doubts being entertained by the assessing authority either with regard to the correctness thereof or the need for obtaining certain vital information not ascertainable from the accounts. The satisfaction is to be based upon objective considerations [Bata India Ltd. vs. CIT (2002) 257 ITR 622 (Cal)].

Special audit can also be ordered so as to protect the interest of the revenue. Such object may or may not be achieved by the audit contemplated by section 44AB [Super Cassettes Industries Ltd. vs. Asst CIT (1999) 102 Taxman 202 (Del)].

The power under section 142(2A) can be invoked when the Assessing Officer finds that accounts are complicated. The overlapping in certain situation with regard to section 44AB and section 142(2A) do not render the provisions either void or superfluous [Narinder Singh Atwal vs. DCIT (1998) 231 ITR 641 (Cal)].

It is the duty of the Commissioner to examine whether the Assessing Officer has examined the books of accounts properly before giving his approval for the special audit under section 142(2A). Approval of special audit cannot be given by the Commissioner mechanically. In the instant case the Assessing Officer, had neither formed any opinion nor given a direction for production of the accounts. The Commissioner should have examined whether the proposal of the Assessing Officer for special audit deserved to be approved. The High Court, therefore, set aside the order for special audit under section 142(2A) [West Bengal State Co-operative Bank Ltd vs. Joint Commissioner of Income Tax (2004) 267 ITR 345 (Cal)].

The Assessing Officer shall give an opportunity to the assessee of being heard in respect of any information gathered by the Assessing Officer on the basis of the aforesaid inquiry under section 142(2) or on the basis of the audit conducted as per section 142(2A) above, where the Assessing Officer proposes to utilise such information for the purpose of any assessment. However, no such opportunity is necessary when the assessment is made under section 144.

Failure to comply with notice under section 142(1) or to get accounts audited as per directions issued under section 142(2A) may result in:

- (a) Best judgment assessment under section 144;
- (b) Penalty under section 271(1)(b) which has been fixed at ₹10,000;
- (c) Prosecution under section 276D with rigorous imprisonment which may extend to one year or with fine which will not be less than ₹4 or more than ₹10 for every day during which the default continues, or with both;
- (d) Issue of a warrant of authorisation under section 132 for conducting search.

If the assessee proves that the non-compliance with the direction under section 142(2A) was not because of his fault but negligence or refusal of the auditor, then best judgment assessment shall not be made and the proceedings shall be dropped.

In *Swadeshi Polytex Ltd. vs. ITO* (1983) 144 ITR 171 (SC) the Supreme Court set aside an assessment made under section 144(1)(b) because of the refusal of the nominated auditor to undertake the audit for a frivolous reason and directed the assessment to be done afresh.

Opportunity to Assessee :

The assessee shall be given an opportunity of being heard in respect of any material gathered on the basis of any inquiry or any audit and proposed to be utilised for the purposes of the assessment. Such opportunity need not be given where the assessment is made under section 144.

11.3.2 Estimate by Valuation Officer in certain cases [Sec. 142A]

For the purposes of making an assessment or reassessment under this Act, where an estimate of the value of any investment referred to in section 69 or section 69B or the value of any bullion, jewellery or other valuable article referred to in section 69A or section 69B or fair market value of any property referred to in sub-section 2 or section 56 is required to be made, the Assessing Officer may require the Valuation Officer to make an estimate of such value and report the same to him.

On receipt of the report from the Valuation Officer, the Assessing Officer may, after giving the assessee an opportunity of being heard, take into account such report in making such assessment or reassessment.

Case Law :

Assessing Officer can look into documents other than books of account for issuing directions - Submission of audited accounts per se would not oust the jurisdiction of the Assessing Officer to pass a direction for special audit. While applying his mind, the Assessing Officer need not confine himself only to the books of account submitted by the assessee, but can take into consideration such other documents related thereto which would be part of the assessment proceedings - *Rajesh Kumar Ors. vs. Dy. CIT*. 287 ITR 91.

Reference to valuation officer under section 142A can be made only in cases covered under sections 69, 69A and 69B. Section 69C is not mentioned in section 142A. Section 69 deals with unexplained investment, section 69A deals with unexplained money etc. and section 69B relates to amount of investments etc. not fully disclosed. On the other hand the provision relates to unexplained expenditures in section 69C. Hence Assessing Officer could not refer matter regarding cost of construction of project to District Valuation Officer under section 142A. The contention of the revenue that such a power could be traced to section 69B is not sustainable [*CIT vs. Aar Pee Apartments (P.) Ltd.* (2009) 32 DTR 92 (Del)].

However, a contrary view has been given by the Allahabad High Court in the case of *Sunder Carpet Industries vs. ITO* (decided on 15.4.2010) where it was held that investment made in the construction of the building, if not recorded in the books of account was under section 69 of the Act and hence reference to District Valuation Officer cannot be said to be without authority of law.

11.3.3 Assessment [Section 143]

Assessment means the act of assessing. After the return of income submitted by assessee, the Department will then make the assessment in order to check whether the Total Income and the tax on that total income as computed by the assessee is correct or not. It will also check whether the penalty, interest, if any, leviable, is correctly added to the tax payable or not.

11.3.3.1 Summary Assessment [Section 143(1)]

Assessing Officer can complete the assessment without passing a regular assessment order. The assessment is completed on the basis of return submitted by the assessee.

Assessing Officer has adopted a two-stage procedure of assessment as part of risk management strategy. In the first stage, all tax returns are processed to correct arithmetical mistakes, internal inconsistencies, tax calculation and verification of tax payment. At this stage, no verification of the income is undertaken. In the second stage, certain percentage of the tax returns are selected for scrutiny/ audit on the basis of the probability of deducting tax evasion. At this stage, the tax administration is concerned with the verification of the income.

Total income of the assessee shall be computed under section 143(1) after making the following adjustments to the total income in the return -

- (i) any arithmetical errors in the return; or
- (ii) an incorrect claim, if such incorrect claim is apparent from any information in the return.

An intimation shall be sent to the assessee specifying the sum determined to be payable by, or the amount of refund due to, the assessee after the aforesaid corrections. The amount of refund due to the assessee shall be granted to him. No intimation shall be sent after the expiry of one year from the end

of the financial year in which the return is made. The acknowledgement of the return shall be deemed to be the intimation in a case where no sum is payable by, or refundable to, the assessee, and where no adjustment has been made.

“An incorrect claim” apparent from any information in the return has been defined. It means claim on the basis of an entry, in the return -

- (i) of an item, which is inconsistent with another entry of the same or some other item in such return;
- (ii) information required to be furnished to substantiate such entry, has not been furnished under the Act; or
- (iii) in respect of a deduction, where such deduction exceeds specified statutory limit which may have been expressed as monetary amount or percentage or ratio or fraction.

As per amendment in section 143(1D) provides that processing of a return under section 143(1) shall not be necessary, where a scrutiny notice has been issued to the assessee under sub-section (2) of Section 143 (w.e.f. July 1, 2012)

Adjustment through computerised processing only : All the adjustments such as arithmetical error, incorrect claim, etc. are made only in the course of computerised processing. For this purpose, a system of centralised processing of returns has been established by the Department. A software will be designed to detect arithmetical inaccuracies and internal inconsistencies and make appropriate adjustments in the computation of total income.

To facilitate this, the Board has formulated a scheme with view to expeditiously determine the tax payable by, or refund due to, the assessee.

11.3.3.2 Notice under section 143(2)

A notice shall be served on the assessee within a period of 6 months from the end of the financial year in which return is furnished. The notice requires the assessee to produce any evidence which the assessee may rely in support of the return.

If notice is sent to the assessee by registered post on last day of the period of limitation and it is served on the assessee a few days later, beyond period of limitation, it cannot be said to be validly served.

Distinction between notice under section 142(1) and section 143(2)

SL. No.	Notice under section 142(1)	Notice under section 143(2)
1.	It is a notice to file return of income or produce accounts or documents or furnish information as the Assessing Officer may require	It is a notice for making assessment under section 143(3)
2.	No assessment is possible by issue of this notice alone	Assessment can be made only if the notice under this section is served on the assessee.
3.	No time limit is prescribed for service of this notice	Time limit of 6 months is prescribed for service of this notice.
4.	Approval of Joint Commissioner necessary if statement of all assets and liabilities not included in accounts is required.	No approval required.
5.	Books of account can be asked for a maximum period of 3 years prior to the previous year	There is no such provision in this case.
6.	Notice can be served even if no return of income is furnished	Notice can be served only if the return of income has been furnished.
7.	Non-compliance with a notice under section 142(1) is an offence for which prosecution may be launched under section 276D.	Non-compliance of notice under section 143(2) is not an offence. Hence, prosecution cannot be launched under section 276D.

There is no sequence prescribed as to what manner notices under section 142(1) and 143(2) are to be issued, therefore, there is nothing to say that notice under section 142(1) should precede notice under section 143(2) [Orissa Rural Housing Development Corporation Ltd. vs. ACIT (2012) 66 DTK 73: 247 CTR (Ori) 137].

11.3.3.3 Regular Assessment [Section 143(3)]

Where a return has been furnished under section 139, or in response to a notice under sub-section (1) of section 142, the Assessing Officer shall, if he considers it necessary or expedient to ensure that the assessee has not understated the income or has not computed excessive loss or has not under-paid the tax in any manner, serve on the assessee a notice requiring him under section 143(2)(ii), either to attend his office or to produce, any evidence on which the assessee may rely in support of the return.

On the day specified in the notice issued under section 143(2) or as soon afterwards as may be, after hearing such evidence as the assessee may produce and such other evidence as the Assessing Officer may require on specified points and after taking into account all relevant material which Assessing Officer has gathered, the Assessing Officer shall, by an order in writing, make an assessment of the total income or loss of the assessee, and determine the sum payable by him or refund of any amount due to him on the basis of such assessment.

Tax has to be determined and such determination is to be made in the assessment order or computation sheet to be annexed with the assessment order. [Kalyan Kumar Ray vs. CIT]

The assessed income may be lower than the returned income. The boards circular no 549 para 5.12 dt. 31.10.1989 has been held to be ultra-vires [Gujarat Gas Co Ltd vs. JCIT(A)]

If a notice under section 143(2) is not served, an assessment cannot be made under section 143(3).

Wherever an assessment is sought to be made under section 143(3), issuing and serving of valid notice under section 143(2) is a precondition and is mandatory [Rattan Lai Tiku vs. CIT (1974) 97 ITR 553 (J&K)].

Further, burden was upon the revenue to prove that the notice under section 143(2) was served upon the assessee within the prescribed time of 6 months from the end of the financial year in which return was furnished. If the revenue failed to prove that notice under section 143(2) was served on the assessee, the assessment order is not valid [CIT vs. Lunar Diamonds Ltd (2006) 281 ITR 1 (Del)].

Where notice under section 143(2) is issued by registered post on the last day of the period of limitation, it could not be said to have been served in time [CIT vs. Inderpal Malhotra (2008) 171 Taxman 359 (Del)].

Where service of notice under section 143(2) was done by affixture on last day after office hours, it was held that it was not a valid service and hence the assessment done on the basis of such notice is not valid [CIT vs. Vishnu & Co. Pvt. Ltd (2009) 319 ITR 151 (Del)].

In the absence of any evidence that any independent person was associated with the identification of assessee's place of business at the time of service under section 143(2) by affixture or that the inspectors of IT had personal knowledge of such place of business service of notice by affixture cannot be treated as valid service. Second notice having been served beyond the specified period was otherwise invalid hence, assessment is annulled [Kohli Bros. vs. ITO (2010) 42 DTR 113 (Luck) (Trib)].

Where the revenue submitted that a notice has been duly dispatched and gave dispatch number of the notice, it was held that merely giving dispatch number would not show that notice under section 143(2) had been served on the assessee [CIT vs. Cebon India Ltd. (2009) 184 Taxman 290 (P&H)].

The Tribunal has held that there was no evidence that there was any refusal by the assessee to accept service of notice. The Tribunal had categorically held that no other mode was adopted and steps for service of notice were taken about a week before the time was expiring. The service by affixture was not proper service. High Court affirmed the order of Tribunal [CIT vs. Kishan Chand (2010) 328 ITR 173 (P&H)].

Order sheet is a very important record. As the Assessing Officer not recorded in the order sheet and the Assessing Officer is not able to show that the notice dated 08-06-2006, was issued and served, it was to be held received after statutory time limit under section 143(2) and was clearly time barred [Dy. CIT vs. Mayawati (2010) 42 SOT 59 (Del)].

No specific form has been prescribed in the Income-tax Rules, 1962 for the notice. Almost invariably a printed form is used for this purpose. Be that as it may, the notice must give the assessee an option to attend in person or to produce the relevant evidence. A notice under this subsection not giving the option is not valid.

A fresh notice under section 143(2) must be served on the assessee if he furnishes a revised return under section 139(5) [Gopaldas Parshottamdas vs. CIT (1941) 9 ITR 130 (All)]. Where the assessment is completed without issuing a fresh notice under section 143(2) in respect of the revised return, the assessment is liable to be set aside for a fresh assessment after service of such notice [Intercraft India vs. CIT (1985) 154 ITR 662 (Del)].

However, the setting aside of the assessment made under section 143(3) on the basis of the original return is not possible where the revised return is not a valid one [CIT vs. Girishchandrarahidas (1992) 196 ITR 833 (Ker)].

As per section 292BB, where an assessee has appeared in any proceeding or cooperated in any inquiry relating to an assessment or reassessment, it shall be deemed that any notice under any provision of this Act, which is required to be served upon him, has been duly served upon him in time in accordance with the provisions of this Act and such assessee shall be precluded from taking any objection in any proceeding or inquiry under this Act that the notice was—

- (a) not served upon him; or
- (b) not served upon him in time; or
- (c) served upon him in an improper manner.

However, nothing contained in this section shall apply where the assessee has raised such objection before the completion of such assessment or reassessment.

As per section 80A(5) inserted by the Finance (No. 2) Act, 2009, where the assessee fails to make a claim in his return of income for any deduction under section 10A or section 10AA or section 10B or section 10BA or under any provision of Chapter VIA under the heading 'C.— Deductions in respect of certain incomes', no deduction shall be allowed to him there under.

Procedure of assessment under section 143(3) of institutions which are claiming exemption under Section 10:

In the case of an institution or association which is required to furnish a return of income under section 139(4C), the Assessing Officer shall not make an assessment order of the total income or loss of such scientific research association referred under section 10(21), news agency referred under section 10(22B), association or institution or fund or trust or university or other educational institution or any hospital or other medical institution referred under section 10(23A) or 10(23B) or 10(23C)(iv), (v), (vi) and (via) without giving effect to the provisions of section 10, unless—

- (i) he has intimated the Central Government or the prescribed authority, the contravention of the provisions contained in such clauses where in his view such contravention has taken place, and
- (ii) the notification issued or approval granted to such a body has been rescinded or withdrawn.

Generally the income of the above institution is exempt under the various clauses of section 10 mentioned above. However, the Assessing Officer can deny the exemption to them in the assessment order to be passed by him if the conditions mentioned in clauses (i) and (ii) are satisfied.

The Finance Act, 2012 has inserted third proviso to section 143(3).

As per the third proviso, first and second proviso to section 143(3) shall not be applicable where in any previous year commercial receipt of such trust exceed ₹25,00,000. In other words, Assessing Officer shall not give exemption to such trust covered under section 10(23C)(iv) or (v) even if approval has not been withdrawn or rescinded.

Procedure of assessment under section 143(3) of university or college which has received donation for carrying on scientific research or research in statistics or in social science:

Where the Assessing Officer is satisfied that the activities of the university, college or other institution referred to in clause (ii) and clause (iii) of sub-section (1) of section 35 are not being carried out in accordance with all or any of the conditions subject to which such university, college or other institution was approved, he may, after giving a reasonable opportunity of showing cause against the proposed withdrawal to the concerned university, college or other institution, recommend to the Central Government to withdraw the approval and that Government may by order, withdraw the approval and forward a copy of the order to the concerned university, college or other institution and the Assessing Officer.

The proceedings of assessment u/s 143(3) are described as quasi-judicial because they have certain, though not all the attributes of a judicial proceeding and the conclusions or decisions taken by the officer have some attributes of judicial decisions. These attributes can be discussed in three principal aspects.

- (1) The Assessing Officer should act in a judicial manner, proceed with a judicial spirit, and come to a judicial conclusion. He should not exercise his powers only in a manner beneficial to the revenue and adverse to the assessee [CIT vs. Simon Carves Ltd. (1976) 105 ITR 212 (SC)].
- (2) A second requirement is that the officer should act independently and arrive at his own conclusions [Dinshaw Darab Shaw Shroff vs. CIT (1943) 11 ITR 172 (Bom)].
- (3) A third important requirement is that he should give a fair hearing to the assessee before deciding against him [Chockalingam (M.) & Meyyappam (M.) vs. CIT (1963) 48 ITR 34 (SC)].

Again, the proceedings for assessment before the Assessing Officer are described as quasi-judicial in character. It has been observed that, before the stage when he issues a notice under sub-section (2) of section 143, his proceedings are purely administrative.

After the receipt of the return also the Assessing Officer is entitled to make private enquiries as to whether there is reason to suspect that the return is incorrect or incomplete. No objection can be taken to such enquiries behind the back of the assessee at that stage, as they are all administrative. They assume a quasi-judicial character only after the issue of notice under sub-section (2) of this section. This is so because the Assessing Officer is not a court, civil or revenue (though he has the same powers as are vested in a court for the limited purposes mentioned in section 131) and the proceedings before him are not strictly judicial proceedings, though they are deemed to be such for limited purposes [Indian & Eastern Newspaper Society vs. CIT (1979) 119 ITR 996 (SC); Gurmukh Singh (Seth) vs. CIT (1944) 12 ITR 393].

Importance of the material gathering and evidence hearing for assessment u/s 143(3):

For the purpose of making assessment under section 143(3), the Assessing Officer is allowed to gather the material but he is also duty bound to give opportunity of being heard to the assessee.

(A) Gathering of material

- (1) **Officer may make private inquiries to gather material:** Such enquiries may be carried out privately or confidentially. He can also summon witnesses and record their statements in the presence of the assessee or even behind his back. Only, he should satisfy himself as to the correctness of the information and as has already been pointed out, the substance of any information sought to be

used against the assessee should be put to him and he should have a fair opportunity. It is up to the assessee to avail of it. Constant with the principles of natural justice, to rebut the same. It is, however, not always essential that a personal hearing should be given to the assessee [Chiranji Lai Steel Rolling Mills vs. CIT (1972) 84 ITR 222 (P&H); Namasivayam Chettiar (S.N.) vs. CIT (1960) 38 ITR 579 (SC); Abdul Razak vs. CIT (1935) 3 ITR 361 (Pat); Balasubramanian (P.N.) vs. ITO (1978) 112 ITR 512 (AP); Bagsu Devi Bafna vs. CIT (1966) 62 ITR 506 (Cal); Kashmir Vastralaya vs. CIT (197'8) 112 ITR 630 (Pat)].

- (2) **Reference to Valuation Officer only in pending cases:** There should be a pending assessment for exercising the power to issue commission. Where a return had been processed u/s 143(1) and no notice u/s 143(2) had been issued, there can be no inference of any pendency of proceedings, so that reference to the District Valuation Officer to estimate the cost of construction was not valid. The reassessment based upon such report would also be consequently invalid [Arjun D. Bharad (Dr) vs. ITO (2003) 259 ITR (AT) (Nag) 1].
- (3) **Officer cannot rely on third party statement without giving the assessee copies and right to cross-examine the deponent:** Where the Assessing Officer relies on the statement of a witness, or evidence allegedly given or a copy of accounts allegedly produced before some other authority by the assessee, the assessee be given, if he requires it and the circumstances warrant it, an opportunity to cross-examine the witness or official [Vasantlal & Co. (C) vs. CIT (1962) 45 ITR 206 (SC)].
- (4) **Summons to witness for examination:** For the purpose of gathering relevant material, the Assessing Officer can issue summons under section 131 for the examination of witnesses and production of documents from third parties to ascertain the assessee's income. He can secure information and guidance by examining rivals in the trade of the assessee, or experts or past employees under the assessee, or managers who are acquainted either with the particular business of the assessee or the class of business in the neighbourhood. He may examine his own inspectors or surveyors if they can aid him and give information. He can rely upon his local knowledge and the previous history of the case. He can take into account the capital employed in the business. This, however, as pointed out in CIT vs. Radha Kishna Nandlal (1975) 99 ITR 143 (SC) will be relevant but not conclusive as profits do not always or wholly depend on the amount of capital employed.
- (5) **Kinds of material which the Assessing Officer may use:** He can refer to materials gathered by him in the course of an earlier assessment which has been set aside but for being re-done. He can refer to the assessment proceedings of previous years for a standard to be applied to the assessee, though such assessment might have been made on a best judgment estimate. He can take into consideration the volume of the business turned over by the assessee and in a money-lending business, the volume of the loans advanced on mortgage or simple bonds and the probability of normal recoveries and collections. He may also take into account the quantity of stocks carried by the assessee from year to year and whether the same is increasing or decreasing, the local reputation that the assessee holds in the business field and the position that he occupies in the market, the style of living of the assessee and any acquisition of property by him during recent years, the increase in his total resources and lastly, the rate of profit earned generally in the business by other businessmen in the line. Where the Assessing Officer relies upon this last-mentioned basis, he should furnish to the assessee details of the cases which he considers comparable, such as, the magnitude of the turnover, or the nature of the contracts entered into by them whether forward or ready, etc. It is not enough that he chooses comparable cases and puts them to the assessee. This principle has now been statutorily declared [Joseph Thomas & Bros. vs. CIT (1968) 68 ITR 796 (Ker)].

Where the additions were made Assessing Officer only by relying on the findings of the custom authorities and the said findings, which were the basis for making additions, had been set aside by the Appellate Authority. The Assessing Officer had not made any independent enquiry and also there was no corroborating evidence to support the case of the revenue. It was also found that even the assessee, whose statement was recorded by the Department of Central Excise, had not been examined by the Assessing Officer. Further, the assessee was not given an opportunity to cross-examine them. It was held

that both the authorities were correct in deleting the additions made by the Assessing Officer [CIT vs. Vignesh Kumar Jewellers (2009) 180 Taxman 18 (Mad)].

(B) Assessee should be heard:

An assessment under section 143(3) can be made only after the assessee has been heard fully in three respects:

- (a) he should be given an opportunity to produce the evidence on which he relies in support of the return;
- (b) if, in respect of the evidence so produced or in view of other material gathered by the officer, he requires any clarifications or evidence on any specific points he should give the assessee an opportunity to furnish or produce the same; and
- (c) if the Assessing Officer has gathered material on which he desires to rely, he should disclose to the assessee the substance of such material and give him an opportunity to have his say in regard thereto.

Nature of evidence that can be accepted for the assessment under section 143(3)

The language of section 143(3) makes it clear that the assessment order should be based on the evidence before the officer.

- (1) **Material and evidence:** The material or evidence on which taxing authorities may rely under the Income-tax Act is not confined to direct testimony by witnesses. Though the word used in the section is evidence, it is not necessary, as already pointed out, that only evidence that would pass muster in a civil or criminal court should be relied on by the Assessing Officer. All relevant circumstances which have a bearing on the issue which are revealed during the course of assessment would be covered by the statement material or evidence on which the Assessing Officer could rely [Mangalchand Gobardhan Das vs. CIT (1954) 26 ITR 706 (Assam)].
- (2) **Assessing Officer not fettered by technical rules of evidence:** The word material, it has been held, clearly shows that the Assessing Officer is not fettered by the technical rules of evidence and the like and that may act on material which may not strictly speaking be accepted as evidence in a court of law. Such evidence need not necessarily be direct evidence.
- (3) **Suspicion not tantamount to evidence:** However, the mere existence of reasons for suspicion would not tantamount to evidence. But it should not be based on mere suspicion, conjecture or guess work or on irrelevant or inadmissible material [Dhirajlal Girdharilal vs. CIT (1954) 26 ITR 736(SC)].
- (4) **Past history:** The past history of an assessee is legitimate material that can be made use of in making an assessment but that may not be sufficient by itself, without more, to justify assessment in a particular year. There must be some material relatable to the accounting year which, taken with the past history, may reasonably entitle the income-tax authorities to hold that there must be some concealed income during the accounting year which is liable to assessment.
- (5) **Comparable cases:** One of the standards generally applied in estimating the profits of an assessee is the rate of profit disclosed (or applied) in comparable cases. But in such cases, though the assessee need not be told the identity of the comparable cases, he is entitled to get so much of the information regarding the same as can be possibly disclosed by the Department and as may be necessary to enable him to show cause why the rate disclosed or applied in the comparable case should not be applied to his case [Dhakeswari Cotton Mills Ltd vs. CIT (1954) 26 ITR 775(SC)].
- (6) **Affidavits:** Evidence may be tendered on an affidavit before the Assessing Officer. Such evidence is legal and can be acted upon by the Assessing/Appellate Authorities. Should the Assessing Officer, or the Deputy Commissioner (Appeals) or the Appellate Tribunal regard the

same as not sufficient proof of the contents thereof, they should cross-examine the deponent and, if dissatisfied, call upon the assessee to produce documentary evidence in support of the contents of the affidavit. If no such thing is done, the affidavit by itself should be regarded as sufficient proof. This was so held by the Supreme Court in *Mehta Parikh & Co vs. CIT* (1956) 30 ITR 181 (SC).

The rule laid down by the Supreme Court in *Mehta Parikhs* case cannot be construed to lay down the proposition that unless the deponent is cross-examined, the affidavit cannot be rejected. That decision only lays down that if there is no material whatsoever on record for doubting the veracity of the statements made in the affidavit and if the deponent has also not been subjected to cross-examination for bringing out the falsity of his statements, then the tribunal will not be justified in doubting the correctness of the statements made by the deponent in the affidavit [*Gunwanthibai Ratilal (Smt.) vs. CIT* (1984) 146 ITR 140 (MP)].

The finding arrived at in such a case would, according to the Supreme Court, be a finding based on pure surmise. Where the affidavit itself constituted the evidence for a particular act such as, for example, a declaration that certain property in the assessee's hands is joint family property, it cannot be rejected without valid reason [*Lakshmi Narain Gadodia & Co. In re* (1943) 11 ITR 491 (Lah)].

It cannot be rejected merely on the ground that it is not supported by documentary evidence unless there is material to suggest that some documentary evidence exists and has not been produced by the assessee despite his being required to do so [*Sohan Lai Gupta (L.) vs. CIT* (1958) 33 ITR 786 (All)].

- (7) **Books of Account:** Books of account maintained in the regular course of business are relevant and constitute a very good piece of evidence of their contents. They need not be formally proved as in a court of law [*CIT (Addl) vs. Jay Engineering Works Ltd* (1978) 113 ITR 389 (Del)].

Their probative value would however, depend on the circumstances and the manner of their maintenance.

- (8) **Photostat copies and tapes:** The photostat copy of a document in the absence of the original or evidence regarding the circumstances in which it was taken, has very little evidentiary value [*Moosa S. Madha & Azam S. Madha vs. CIT* (1973) 89 ITR 65 (SC)].

There will be similar difficulty in acting upon what purports to be a tape recorded conversation. These types of material have, therefore, to be acted upon with great care and circumspection.

The assessment order should determine not only the total income of the assessee but also the amount payable by him. The Assessing Officer should apply his mind to the facts before him, apply the relevant law and come to a positive conclusion that the income assessed belongs to the assessee before him. The assessments under the Act have to be made every year and even if there is a dispute regarding the ownership of the income, the officer must come to a conclusion and cannot hold up his decision till the dispute is resolved in the ordinary courts [*CIT vs. Hirjee (H.)* (1953) 23 ITR 427 (SC)].

Piecemeal or Tentative Assessment

The officer must assess the total income of the assessee in accordance with the provisions of the Act. It is not open to him to assess the income from one or more sources and leave the others undetermined. He cannot make piecemeal assessments nor can he make a provisional or tentative assessment [*Asharfi Lai vs. ITO* (1967) 66 ITR 63 (All)].

Completion of Assessment:

An assessment is complete only when tax is computed by the Assessing Officer under his signature. Mere determination of income or wealth does not complete an assessment, if tax is not computed. Computation of tax however may have been done not as part of assessment order but as part of the record. Even an initial would do in the place of signature but the basic requirement is that the

tax should have been computed under the signature of the Assessing Officer and if it is not done the assessment could not be treated as having been completed [CWT vs. Dhansukhlal J. Gajjar (1999) 237 ITR 537 (Guj)].

The determination of the tax payable by the assessee is as much mandatory as the determination of his income. Where the order determining the total income is passed within the prescribed time limit but the tax payable is not determined within the prescribed time limit, assessment would be time barred [CIT vs. Purshottamdas T. Patel (1994) 209 ITR 52 (Guj)].

As interest under sections 234B & 234C is mandatory it is not necessary that it should be given in the assessment order. The mention of interest in the computation sheet in this case would be adequate [CIT vs. Assam Mineral Development Corporation Ltd (2010) 320 ITR 149 (Gau)].

An entry in the order sheet could be an order of assessment. If the order is not a speaking one, it may violate the principles of natural justice. A cryptic entry in the order sheet merely recording the fact of completion of the assessment of a particular sum as income is against the requirement of law [Sewdutttoy Rambullav & Son vs. CIT (1993) 204 ITR 580 (Cal)].

Section 143(3) contemplates two processes — one, the assessment of the total income and second, the determination of the sum payable by the assessee. It also requires the officer to make an order in writing. It should also be signed by the officer though the statute does not explicitly say so, as no order in writing can be ascribed to a person unless he has subscribed his signature or initial thereto.

Section 143(3) contemplates that the Assessing Officer shall pass an order of assessment in writing. If the assessment order is signed then because the computation of tax is a ministerial act, ITNS-150 need not be signed by the Assessing Officer. However, if the assessment order is not signed, then the fact that he has signed the tax computation form and the notice of demand is irrelevant. The omission to sign the assessment order cannot be explained by relying on section 292B [Vijay Corporation vs. ITO (2012) 18 Taxmann.com 88 (Mum)(Trib)].

Assessment on the basis of an invalid or non est return is void ab initio [Maya Debt Bansal vs. CIT (1979) 117 ITR 125 (Cal)]. However, such order remains in effect and continues to operate until its invalidity is declared by the court. Upon such declaration, the order goes out of existence as from the date on which it was made. But until then, void order is voidable and it continues to operate against the person against whom it was made and he is bound by the consequences flowing from the order [Indomarine Agencies (Kerala) (P.) Ltd vs. STO (1980) 45 STC 163 (Ker)].

11.3.4 Best Judgement Assessment [Section 144]

Best judgement assessment that is popularly known as ex-parte assessment can be made if the assessee fails to comply with the requirement of law as following :-

- (1) The assessee fails to file a return u/s 139 and has not made a return or a revised return under sub-section (4) or (5) of Section 139.
- (2) He fails to comply with the terms of the notice issued u/s 142(1) or fails to comply with a direction issued u/s 142(2A).
- (3) After filing a return he fails to comply with all the terms of the notice issued u/s 143(2).

The non-compliances are independent and not cumulative. A single non compliance can lead to best judgement u/s 144. In such a situation the A.O. after taking into account all relevant materials which he has gathered and after giving the assessee an opportunity of being heard shall make an assessment of income or loss to the best of his judgement and determine the sum payable by him. However, where a notice u/s 142(1) has already been issued to the assessee it will not be necessary to give him such opportunity of being heard.

Provided that such opportunity shall be given by the Assessing Officer by serving a notice calling upon the assessee to show cause, on a date and time to be specified in the notice, why the assessment should not be completed to the best of his judgment.

Best judgement assessment is mandatory for any one of the defaults u/s 144 - CIT vs. Segn. Buchiah Sethy [1970] 77 ITR 539 (SC).

Where Assessing Officer, on finding that assessee had not maintained and kept any quantitative details/ stock register for goods traded in by it; that there was no evidence on record or document to verify basis of valuation of closing stock shown by assessee; and that GP rate declared by assessee during Assessment Year did not match result declared by assessee itself in previous Assessment Years, rejected assessee's books of account and resorted to best judgment assessment under section 144, it was held that since cogent reasons had been given by Assessing Officer for doing so, there was no reason to take a different view - Kachwala Gems vs. Jt. CIT 158 Taxman 71.

The assessments made on the basis of the assessee's accounts and those made on 'best judgment' basis are totally different types of assessments - CST vs. H.M. Esufali H.M. Abdulai 90 ITR 271.

The mere fact that the material placed by the assessee before the Assessing Officer is unreliable does not empower the officer to make an arbitrary order. The power to make a best judgment assessment is not an arbitrary power - State of Orissa vs. Maharaja Shri B.P. Singh Deo 76 ITR 690.

Where the jurisdiction of a notice under section 143(2) is not valid and there has been non-compliance with the same by the assessee, the Assessing Officer cannot resort to section 144 and make an assessment to the best of his judgment [Rajmani Devi vs. CIT (1937) 5 ITR 631 (All)].

An ex parte best judgment assessment under section 144 can only be made for defaults specified in that section. Non-compliance with a summons requiring production of books of account and other documents, etc. is not such a specified default and, therefore, it cannot result in an ex parte best judgment assessment [ITO vs. Luxmi Prasad Goenka (1977) 110 ITR 674 (Cal)].

Rejection of Books of Accounts

Section 145(3) empowers the Assessing Officer to reject the books of account which are unreliable, false or incorrect or incomplete. The Assessing Officer can reject the books of account on the following grounds and may make the assessment in the manner provided in section 144:

- (a) He is not satisfied about the correctness or completeness of the accounts of the assessee.
- (b) Although the accounts of the assessee are correct and complete to the satisfaction of the Assessing Officer but the method of accounting employed is such that, in the opinion of the Assessing Officer, profits cannot be correctly arrived therefrom.
- (c) Where the method of accounting adopted by the assessee has not been regularly followed by him, or
- (d) Where the Accounting Standards notified by the Central Government from time to time have not been regularly followed by the assessee.

In view of the above, the Assessing Officer may reject the books, even if the method of accounting is acceptable to him, if the entries in the books are found to be false or fabricated. Conversely the books of account may be accepted as true but the method of accounting may be rejected by the Assessing Officer as improper.

The expression 'method of accounting' in the section has reference to the pattern, system or principles on the basis of which the accounts of an assessee are maintained and not to its other aspects, such as, language, currency, etc. The assessee may keep his accounts in any language he chooses. Accounts in India are maintained in English, Hindi or other regional languages and in certain scripts employed by certain communities, such as Modi and the like.

Section 144 prescribes for best judgment assessment only in case of 3 failures mentioned in the said section. In case, the Assessing Officer rejects the accounts on any of the grounds mentioned under section 144, the Assessing Officer has to make the assessment under the relevant section i.e. 143(3) or 147 in which the assessment proceedings were going on. But such assessment has to be done in

the manner provided under section 144 i.e. he will have to make the assessment to the best of his judgment. The assessment in this case is not to be done under section 144 but in the manner provided in section 144.

The assessment that has to be made after rejection under section 145(3) of the evidence or books produced is not an assessment under section 144 but it is only an assessment under section 143(3) which is to be made in the manner provided in section 144. In such cases, the Assessing Officer has to give an opportunity to the assessee to contradict the material upon which the former wants to base his estimate [Addl. ITO vs. Ponkunnam Traders (1976) 102 ITR 366 (Ker)].

Following are the cases where rejection of books held justified:

- (1) The presence of unexplained cash credits may justify not only their treatment as income from disclosed or undisclosed sources but also, in appropriate cases, the rejection of the book results [Abdul Khadar Pvt. Ltd vs. CIT (1960) 38 ITR 341 (Mad)].
- (2) Where there was a huge difference between stock of goods as per the accounts and the stock position as shown to the bank for securing overdrafts and there was no material to corroborate the figures shown in the books of account, the rejection of accounts was held to be justified [Murugappa Chettiar (S.) vs. CIT (1988) 174 ITR 245 (Ker)].
- (3) Where the assessee engaged in bidi manufacturing business having several factories and branches did not record day-to-day production of bidis and could not produce day-to-day registers showing the quantity of bidis manufactured and of bidi leaves consumed in each factory, his accounts were liable to be rejected [Bastiram Narayandas Maheshri vs. CIT (1994) 210 ITR 438 (Bom)].
- (4) Detection of fictitious purchase invoices involving large amounts justifies rejection of books of account [Vijay Proteins Ltd vs. ACIT (1996) 55 TTJ 76 (Ahd) (AT)].
- (5) There was a search in assessee's premises as well as at the premises of its directors and other related concerns and persons. The Settlement Commission found that books were not complete and were defective and inspired little confidence about their veracity. Hence, net profit had to be estimated [I.T. Settlement Commission vs. Saraf Textile Mills (P.) Ltd (1996) 130 Taxation 550 (Del) (ITSC)].
- (6) Non-maintenance of stock register, coupled with other factors, rejection may be held justified [Namasivayam Chettiar (S.N.) vs. CIT (1960) 38 ITR 579 (SC)].
- (7) It is not only the right but the duty of the Assessing Officer to consider whether or not the books disclose the true state of accounts and the correct income can be deducted there from. It is incorrect to say that the officer is bound to accept the system of accounting regularly employed by the assessee the correctness of which had not been questioned in the past. There is no estoppel in these matters and the officer is not bound by the method followed in the earlier years [CIT vs. British Paints India Ltd (1991) 188 ITR 44 (SC)].
- (8) Where the payments were made by the assessee by way of post dated cheques, it does not amount to actual payment and the books are unreliable if they incorporate these payments. The books of accounts were rightly rejected under section 145 [Oriental Textiles vs. CIT (2005) 273 ITR 47(A11)].

Following are the cases where rejection of books held not justified:

- (1) The fact that the Assessing Officer has found some faults with the accounts will not necessarily bring the case within the scope of the first proviso to this section. In CIT vs. Padamchand Ramgopal (1970) 76 ITR 719 (SC), the Supreme Court observed that insignificant mistakes cannot afford a ground for resorting to this section. So long as it is not impossible to deduce the true income from the accounts maintained by the assessee, its computation cannot be made in any other way. The fact that the assessee's accounts did not contain the income from paddy and miscellaneous produces, which was negligible, did not stand in the way of accepting the assessee's rubber accounts, and likewise it did not justify the rejection of the pepper accounts of the assessee.

- (2) Assessing Officer cannot reject the method of accounting merely because, in his view, a different system of accounting would be better suited [CIT vs. Margadarsi Chit Funds Pvt. Ltd (1985) 155 ITR 442 (AP)].
- (3) The assessee, according to the Assessing Officer, showed low gross profits. But he neither recorded a clear finding that the assessee's system of accounting was such that correct profit could not be deduced from its books, nor pointed out inherent defects in the system of accounting, which the assessee could rebut. [ITO vs. Highway Service Station (1991) 58 Taxman 254 (ASR) (AT)].
- (4) The assessee, an LIC agent, maintained regular books of account. No defects were shown in the maintenance of books. The accounts were rejected whimsically, and income estimated. Unless the system of accounts is rejected or books of account are rejected on proper basis or no books of account are maintained, the income disclosed cannot be disturbed [ITO vs. Amar Singh Jain (1992) 43 TTJ 11 (Jp)(AT)].
- (5) The Income-tax Authorities and the Tribunal made addition to gross profit mainly on the ground that the assessee could not have sustained a loss in supply of rice to Government under levy orders to the extent claimed because according to them, quality of rice supplied by dealers was always much inferior. The addition on this ground without any acceptable reason was not justified [Shree Ambikaji Rice Mills vs. CIT (1991) 192 ITR 189 (Pat)].
- (6) In case a stock register of goods is not maintained, it may normally not be taken as a defect justifying rejection of books of account. It may be a reason for the Assessing Officer to scrutinise the case with caution [Pandit Bros. vs. CIT (1954) 26 ITR 159 (Punj)].
- (7) Where, in a wholesale business, the weight-wise record was not maintained but a number-wise quantitative stock tally was maintained, the rejection of book profits was not justified [Durai Raj (M.) vs. CIT (1972) 83 ITR 484 (Ker)].

11.3.5 Power of Joint Commissioner to issue directions in certain cases [Sec. 144A]

A Joint Commissioner may, on his own motion or on a reference being made to him by the Assessing Officer or on the application of an assessee, call for and examine the record of any proceeding in which an assessment is pending and, if he considers that, having regard to the nature of the case or the amount involved or for any other reason, it is necessary or expedient so to do, he may issue such directions as he thinks fit for the guidance of the Assessing Officer to enable him to complete the assessment and such directions shall be binding on the Assessing Officer.

Provided that no directions which are prejudicial to the assessee shall be issued before an opportunity is given to the assessee to be heard.

11.3.6 Reference to Commissioner in certain cases [Section 144BA] [Applicable w.e.f. 1.4.2014]

- (1) If, the Assessing Officer, at any stage of the assessment or reassessment proceedings before him having regard to the material and evidence available, considers that it is necessary to declare an arrangement as an impermissible avoidance arrangement and to determine the consequence of such an arrangement within the meaning of Chapter X-A, then, he may make a reference to the Commissioner in this regard.
- (2) The Commissioner shall, on receipt of a reference u/s 144BA (1), if he is of the opinion that the provisions of Chapter X-A are required to be invoked, issue a notice to the assessee, setting out the reasons and basis of such an opinion, for submitting objections, if any, and providing an opportunity of being heard to the assessee within such period, not exceeding sixty days, as may be specified in the notice.
- (3) If the assessee does not furnish any objection to the notice within the time specified in the notice issued under sub-section (2) of this section, the Commissioner shall issue such directions as it deems fit in respect of declaration of the arrangement to be an impermissible avoidance arrangement.

- (4) In case the assessee objects to the proposed action, and the Commissioner, after hearing the assessee in the matter, is not satisfied by the explanation of the assessee, then, he shall make a reference in the matter to the Approving Panel for the purpose of declaration of the arrangement as an impermissible avoidance arrangement.
- (5) If the Commissioner is satisfied, after having heard the assessee that the provisions of Chapter X-A are not to be invoked, he shall by an order in writing communicate the same to the Assessing Officer with a copy to the assessee.
- (6) The Approving Panel, on receipt of reference from the Commissioner u/s 144BA (4) shall issue such directions, as it deems fit, in respect of the declaration of the arrangement as an impermissible avoidance arrangement in accordance with the provisions of Chapter X-A including specifying the Previous Year or Years to which such declaration of an arrangement as an impermissible avoidance arrangement shall apply.
- (7) No direction under sub-section (6) shall be issued unless an opportunity of being heard is given to the assessee and the Assessing Officer on such directions which are prejudicial to the interest of the assessee or the interest of the revenue, as the case may be.
- (8) The Approving Panel may, before issuing any direction u/s 144BA (6),—
 - (i) if it is of the opinion that any further inquiry in the matter is necessary, direct the Commissioner to make such further inquiry or cause to make such further inquiry to be made by any other income-tax authority and furnish a report containing the results of such inquiry to it; or
 - (ii) call for and examine such records related to the matter as it deems fit; or
 - (iii) require the assessee to furnish such document and evidence as it may so direct.
- (9) No direction u/s 144BA (6) shall be issued after a period of six months from the end of the month in which the reference u/s 144BA (4) was received by the Approving Panel.
- (10) The Board shall, for the purposes of this section constitute an Approving Panel consisting of not less than three members, being—
 - (i) income-tax authorities not below the rank of Commissioner; and
 - (ii) an officer of the Indian Legal Service not below the rank of Joint Secretary to the Government of India.

11.3.7. Provision for constitution of alternate dispute resolution mechanism for order of the Transfer Pricing Officer, and foreign company (Section 144C) [W.e.f. 1-10-2009]

The dispute resolution mechanism presently in place is time consuming and finality in high demand cases is attained only after a long drawn litigation till Supreme Court. Flow of foreign investment is extremely sensitive to prolonged uncertainty in tax related matter. Therefore, the Act has amended the Income-tax Act to provide for an alternate dispute resolution mechanism, which will facilitate expeditious resolution of disputes in a fast track basis.

The salient features of the alternate dispute resolution mechanism are as under:—

1. The Assessing Officer shall notwithstanding anything to the contrary contained in this Act, forward a draft of the proposed order of assessment (hereinafter in this section referred to as the draft order) to the eligible assessee if he proposes to make, on or after 1-10-2009, any variation in the income or loss returned which is prejudicial to the interest of such assessee.
2. On receipt of the draft order, the eligible assessee shall, within thirty days of the receipt by him of the draft order,
 - (a) File his acceptance of the variations to the Assessing Officer; or

- (b) File his objections, if any, to such variation with,—
 - (i) The Dispute Resolution Panel; and
 - (ii) The Assessing Officer.
- 3. The Assessing Officer shall complete the assessment on the basis of the draft order, if—
 - (a) The assessee intimates to the Assessing Officer the acceptance of the variation; or
 - (b) No objections are received within the period specified in sub-section (2) i.e. 30 days of the receipts of draft order by the eligible assessee.
- 4. The Assessing Officer shall, notwithstanding anything contained in section 153 or section 153B, pass the assessment order under section 144C(3) within one month from the end of the month in which,—
 - (a) The acceptance is received; or
 - (b) The period of filing of objections under sub-section (2) expires.
- 5. The Dispute Resolution Panel shall, in a case where any objections are received under sub-section (2), issue such directions, as it thinks fit, for the guidance of the Assessing Officer to enable him to complete the assessment.
- 6. The Dispute Resolution Panel shall issue the directions referred to in sub-section (5), after considering the following, namely:—
 - (a) Draft order;
 - (b) Objections filed by the assessee;
 - (c) Evidence furnished by the assessee;
 - (d) Report, if any, of the Assessing Officer, Valuation Officer or Transfer Pricing Officer or any other authority;
 - (e) Records relating to the draft order;
 - (f) Evidence collected by, or caused to be collected by, it; and
 - (g) Result of any enquiry made by, or caused to be made by it.
- 7. The Dispute Resolution Panel may, before issuing any directions referred to in sub-section (5),—
 - (a) Make such further enquiry, as it thinks fit; or
 - (b) Cause any further enquiry to be made by any Income Tax Authority and report the result of the same to it.
- 8. The Dispute Resolution Panel may confirm, reduce or enhance the variations proposed in the draft order so, however, that it shall not set aside any proposed variation or issue any direction under sub-section (5) for further enquiry and passing of the assessment order.

Explanation- For the removal of doubts, it is hereby declared that the power of the Dispute Resolution Panel to enhance the variation shall include and shall be deemed always to have included the power to consider any matter arising out of the assessment proceedings relating to the draft order, notwithstanding that such matter was raised or not by the eligible assessee.

Case Laws

- (I) Order cannot be passed by Dispute Resolution Panel if no transfer pricing adjustments made by TPO. Where no transfer pricing adjustments had been made by the TPO, the assessee was not an "eligible assessee" and the Assessing Officer had no jurisdiction to pass the draft assessment order [Pankaj Extraction Ltd. vs. ACIT (Gujarat High Court)].

- (II) The Dispute Resolution Panel is an authority created under a statute and conferred with the powers, which has the obligation to act as a body living to the expectations which the law mandates. It was held that section 144C empowers the Dispute Resolution Panel to issue directions to the Assessing Officer and cannot be treated as totally redundant or absolutely inefficacious remedy to the assessee. Thus, no assessee can have any kind of apprehension that the approach to the Dispute Resolution Panel is perfunctory [Ericsson AB vs. ADIT (Delhi High Court)].
 - (III) Dispute Resolution Panel while issuing directions under section 144C must not pass "laconic" orders but must deal with assessee's objections. It was held in Sahara India (Farms) vs. CIT 300 ITR 403 (SC) that even "an administrative order has to be consistent with the rules of natural justice" [GAP International Sourcing India Pvt. Ltd. vs. Dy. CIT (ITAT-Delhi)].
 - (IV) Dispute Resolution Panel must give "cogent and germane reasons" in support of section 144C directions [Vodafone Essar Ltd vs. Dispute Resolution Panel (Delhi High Court)].
 - (V) Where there was no variation in income or loss returned which is prejudicial to the interest of the assessee on account of order of TPO under section 92CA, it was held that the assessee cannot be said to be an eligible assessee under section 144C(15), hence there is no need for draft order and taking further steps under section 144C. [Pankaj Extrusion Ltd. vs. ACIT (2011) 56 DTR 32 (Guj)].
 9. If the members of the Dispute Resolution Panel differ in opinion on any point, the point shall be decided according to the opinion of the majority of the members.
 10. Every direction issued by the Dispute Resolution Panel shall be binding on the Assessing Officer.
 11. No direction under sub-section (5) shall be issued unless an opportunity of being heard is given to the assessee and the Assessing Officer on such directions which are prejudicial to the interest of the assessee or the interest of the revenue, respectively.
 12. No direction under sub-section (5) shall be issued after nine months from the end of the month in which the draft order is forwarded to the eligible assessee.
 13. Upon receipt of the directions issued under sub-section (5), the Assessing Officer shall, in conformity with the directions, complete, notwithstanding anything to the contrary contained in section 153 or section 153B, the assessment without providing any further opportunity of being heard to the assessee, within one month from the end of the month in which the direction is received.
 14. The Board may make rules for the efficient functioning of the Dispute Resolution Panel and expeditious disposal of the objections filed, under subsection (2), by the eligible assessee.
 15. According to sub-section 14A of section 144C [w.e.f. 1.4.2013], the provisions of this section shall not apply to any assessment or reassessment order passed by the Assessing officer with the prior approval of the commissioner u/s 144BA(12).
 16. For the purposes of this section,—
 - (a) "Dispute Resolution Panel" means a collegium comprising of 3 Commissioners of Income Tax constituted by the Board for this purpose;
 - (b) "eligible assessee" means,—
 - (i) Any person in whose case the variation referred to in sub-section (1) arises as a consequence of the order of the Transfer Pricing Officer passed under sub-section (3) of section 92CA; and
 - (ii) any foreign company.
- Further, the following consequential amendments have been made—
- (i) Section 131(1) so as to provide that "Dispute Resolution Panel" shall have the same powers as are vested in a Court under the Code of Civil Procedure, 1908;

- (ii) Section 246(1)(a) has been amended so as to exclude the order of assessment passed under section 143(3) or order of re-assessment under section 147 in pursuance of directions of "Dispute Resolution Panel" as an appealable order.
- (iii) Section 253(1) has been amended to insert clause (d) so as to include an order of assessment passed under section 143(3) or order of re-assessment under section 147 in pursuance of directions of "Dispute Resolution Panel" as an appealable order.

An order passed under section 154 rectifying such order shall also be appealable to IT Act.

11.3.8 Income Escaping Assessment [Sec. 147]

If the Assessing Officer has reason to believe that any income chargeable to tax has escaped assessment for any Assessment Year, he may, subject to the provisions of section 148 to 153, assess or reassess such income and also any other income chargeable to tax which has escaped assessment and which comes to his notice subsequently in the course of the proceedings under this section, or recompute the loss or the depreciation allowance or any other allowance, as the case may be, for the Assessment Year concerned.

Where an assessment under section 143(3) or section 147 has been made for the relevant Assessment Year, no action shall be taken under this section after the expiry of four years from the end of the relevant Assessment Year, unless any income chargeable to tax has escaped assessment for such Assessment Year by reason of the failure on the part of the assessee to make a return under section 139 or in response to the notice issued under section 142 or section 148 or to disclose fully and truly all material facts necessary for his assessment, for that Assessment Year.

Nothing contained in the first proviso shall apply in a case where any income in relation to any assets (including financial interest in any entity) located outside India, chargeable to tax, has escaped assessment for any Assessment Year.

The Assessing Officer may assess or reassess such income, other than the income involving matters which are the subject matters of any appeal, reference or revision, which is chargeable to tax and has escaped assessment.

Reassessment of income in relation to any asset located outside India :

The existing time limit for reassessment of 4 years from the end of the Assessment Year, shall not apply in a case where any income in relation to any asset (including financial interest in any asset located outside India) which is chargeable to tax, has been escaped assessment for any Assessment Year.

Assessing Officer empowered to touch upon any other issue for which no reasons have been recorded notwithstanding that the reasons for such issue have not been included in the reasons recorded [Section 147] [W.r.e.f. Assessment Year 1989-90]

The existing provisions of section 147 provides, inter alia, that if the Assessing Officer has reason to believe that any income chargeable to tax has escaped assessment for any Assessment Year, he may assess or reassess such income after recording reasons for re-opening the assessment. Further, he may also assess or reassess such other income which has escaped assessment and which comes to his notice subsequently in the course of proceedings under this section.

Sonic Courts have held that the Assessing Officer has to restrict the reassessment proceedings only to issues in respect of which the reasons have been recorded for reopening the assessment. He is not empowered to touch upon any other issue for which no reasons have been recorded. The above interpretation is contrary to the legislative intent.

With a view to further clarifying the legislative intent, the Act has inserted Explanation 3 in section 147 to provide that the Assessing Officer may assess or reassess income in respect of any issue which comes to his notice subsequently in the course of proceedings under this section, notwithstanding that the reason for such issue has not been included in the reasons recorded under section 148(2).

Case Laws :

- (1) A writ petition challenging reassessment, cannot be thrown out at the threshold on the ground that it is not maintainable - *Techspan India (P.) Ltd. vs. ITO* 283 ITR 212 .
- (2) If the direction by the Commissioner is to reopen the assessment under section 147 by passing the statutory formalities, that would probably amount to dictating his subordinate to act in a particular way thereby taking away the discretion vested in the subordinate - *CIT vs. Abdul Khader Ahamed* 156 Taxman 206.
- (3) Disclosure in wealth-tax proceedings will not suffice - *Arun Kumar Maheshwari vs. ITO* 144 Taxman 651.
- (4) Income cannot be said to have escaped assessment if the proceedings have not culminated in a final assessment [*CIT vs. Sayed Rafiqur Rahman* (1991) 189 ITR 476 (Pat)].
- (5) Where an order of remand has been passed, the assessment proceedings become pending and pending such proceedings, notice under section 148 cannot be issued [*Jhunjhunwala Vanaspati Ltd. vs. ACIT* (2004) 137 Taxman 335 (All)].
- (6) Reassessment under section 147 cannot be made within the time available for issuing notice under section 143(2) and for completion of assessment under section 143(3) [*CIT vs. Abad Fisheries* (2012) 65 DTR 370: 204 Taxman 267/246 CTR 513 (Ker)].
- (7) Original assessments for Assessment Years 2010-11 to 2012-13 were completed, otherwise than in the status of HUF. The Income-tax Officer reopened the assessments and assessed the assessee in the status of HUF. It was held that the issue of status was already decided finally and reopening of the assessments was without jurisdiction [*CIT vs. Lakshmikutty Amma (T.)* (1995) 211 ITR 1014 (Ker)].
- (8) The assessment order was set aside by the Appellate Assistant Commissioner. But the Assessing Officer issued notice under section 148. Held that Assessing Officer was not justified in initiating reassessment proceedings [*Saqi Brothers vs. ITO* (1996) 54 TTJ 306 (Chd) (AT)].
- (9) Where the Assessing Officer's comes into possession of fresh information or new facts, which lead him to form a reasonable belief that income has escaped assessment, he can reopen the assessment [*Phool Chanel Bajrang Lai vs. ITO* (1993) 203 ITR 456 (SC)].
- (10) The Assessing Officer must make independent enquiries for arriving at the prima facie conclusion that income of the assessee had escaped assessment. The Assessing Officer acted merely on the basis of information received from another officer by result of a survey conducted by such officer. The Assessing Officer without forming any opinion/belief of his own and without gathering any further material or enquiry initiated proceedings for reopening. It was held that the Assessing Officer had not made an independent enquiry for arriving at the prima facie conclusion that income of the assessee had escaped assessment and therefore the proceedings under section 148 were not valid [*Jt. CIT vs. George Williamson (Assam) Ltd* (2003) 258 ITR 126 (Gau)].
- (11) Where the assessee was allowed depreciation on certain leased vehicles and subsequently the Assessing Officer had determined that the relevant agreements were with a view to finance the vehicles and not leasing agreements. This finding of the Assessing Officer was also affirmed by the CIT (Appeals). It was held that the Assessing Officer had sufficient reasons to believe that income of the assessee had escaped assessment to issue notice under section 148 of the Act [*Syal Leasing Ltd vs. Assistant Commissioner of Income-tax* (2004) 266 ITR 639 (P&H)].
- (12) Reassessment proceedings may be taken more than once under this section in respect of the same assessee for the same assessment year [*R. Kakkar Glass and Crockery House vs. CIT* (2002) 254 ITR 273 (P&H)]. But second assessment proceedings cannot be started while the first are pending [*Comunidado of Chicalim vs. ITO* (2001) 247 ITR 271 (SC)].

11.3.9 Issue of notice where income has escaped assessment [Section 148]

- (1) Before making the assessment, reassessment or recomputation under section 147, the Assessing Officer shall serve on the assessee a notice requiring him to furnish within specified period, a return of his income or the income of any other person in respect of which he is assessable.
- (2) The Assessing Officer shall, before issuing any notice under this section, record his reasons for doing so.

Legal Notes

- Notice under this section is to be mandatorily served by the Assessing Officer before initiating proceedings u/s 147. The notice is served on the assessee when it is received by him.
- Notice is to be issued within the time limits prescribed by section 149. Section 149(2) states that issue of such notice is subject to the provisions of section 151. Thus, approval for the issue of such notice is to be taken u/s 151 before its issue.
- Such notice can be issued by the Assessing Officer only after he records his reasons for doing so.
- The return to be furnished in response to such notice is treated as a return required to be furnished u/s 139 and the provisions of this Act, so far as may be, apply accordingly.
- Return in response to a notice under this section is to be furnished even if a return has been furnished earlier by the assessee under other provisions of the Act.
- Notice under this section can be issued even where an assessment u/s 143(3) has not been made but related intimations have been sent. [Ranchi Club Ltd. vs. CIT 214 ITR 643]

Case Laws :

- (1) If reasons are supplied along with the notice under section 148(2), it shall obviate unnecessary harassment to the assessee as well as to the revenue by avoiding unnecessary litigation which will save courts also from being involved in unproductive litigation. Above all, it shall be in consonance with the principles of natural justice - *Mitlesh Kumar Tripathi vs. CIT* 280 ITR 16.
- (2) The notice prescribed by section 148 cannot be regarded as a mere procedural requirement. It is only if the said notice is served on the assessee that the ITO would be justified in taking proceedings against the assessee. If no notice is issued or if the notice issued is shown to be invalid, then the proceedings taken by the ITO would be illegal and void - *Y. Narayana Chetty vs. ITO* 1959 35 ITR 388; *CIT vs. Thayaballi Mulla Jeevaji Kapasi* 66 ITR 147 ; *CIT vs. Kurban Hussain Ibrahimji Mithiborwala* 82 ITR 821.
- (3) Where the Appellate Assistant Commissioner set aside the reassessment on the only ground that the assessee was not afforded opportunity to put forward his case, but did not hold that the notice issued under section 148 was invalid, there would be no need for the ITO to issue a fresh notice to the assessee - *CIT vs. T.S.PL.P. Chidambaram Chettiar* 80 ITR 467.
- (4) Notice cannot be issued unless the return which has already been filed has been disposed of - *CIT vs. M.K.K.R. Muthukaruppan Chettiar* 78 ITR 69 ; *Bhagwan Das Sita Ram (HUF) vs. CIT* 146 ITR 563.

11.3.10 Time limit for notice [Section 149]

- (1) No notice under section 148 shall be issued for the relevant Assessment Year —
 - (a) if four years have elapsed from the end of the relevant Assessment Year, unless the case falls under clause (b) or clause (c);
 - (b) if four years, but not more than six years, have elapsed from the end of the relevant Assessment Year unless the income chargeable to tax which has escaped assessment amounts to or is likely to amount to one lakh rupees or more for that year.

- (c) If four years, but not more than sixteen years, have elapsed from the end of the relevant Assessment Year unless the income in relation to any asset (including financial interest in any entity) located outside India, chargeable to tax, has escaped assessment.
- Time-limit applies for 'Issue' and not for service - *R.K. Upadhyaya vs. Shanabhai P Patel* 1987 166 ITR 163 (SC).
 - Amended law will apply only if limitation has not already expired - *Chandiram vs. ITO* 1996 87 Taxman 418 (Raj.).

The word 'issued' in section 149 should be given its natural meaning and not the strained wider meaning of 'served'. Consequently, where the notice was issued within time but was served on the assessee after the expiry of the time-limit, it could not be held to be invalid - *R.K. Upadhyaya vs. Shanabhai P. Patel* 166 ITR 163 (SC); *CIT vs. Sheo Kumari Debi* 157 ITR 13 and *Jai Hanuman Trading Co. (P.) Ltd. vs. CIT* 110 ITR 36.

Circumstances where time limit given under section 149(1) is not relevant:

- (1) Action cannot be taken under section 147 after 4 years in some cases if assessment is made under section 143(3)/147 [Proviso to section 147 and Explanation 1 to section 147]:** Where an assessment under section 143(3) or 147 has already been made for the relevant assessment year, no action under section 147 is possible after the expiry of 4 years from the end of the relevant assessment year unless any income chargeable to tax has escaped assessment by reason of the failure on the part of the assessee to:

- (a) make a return under section 139 or in response to a notice under section 142(1) or 148; or
- (b) disclose fully and truly all material facts necessary for his assessment for that assessment year.

However, nothing contained in the first proviso (relating to reopening of assessment upto 4 years) shall apply in a case where any income in relation to any asset (including financial interest in any entity) located outside India, chargeable to tax, has escaped assessment for any assessment year.

Production before the Assessing Officer of books of account or other evidence from which material evidence could, with due diligence have been discovered by the Assessing Officer, will not necessarily amount to disclosure of material facts.

Proviso to section 147 presupposes an assessment under section 143(3) or section 147. In the absence of such assessment, benefit of this proviso cannot be taken by the assessee.

If the return under section 139/142(1)/148 has been furnished and all material facts relating to the assessment for that previous year have been disclosed fully and truly, then notice cannot be served after the expiry of 4 years if the assessment of that assessment year has been made under section 143(3) or 147.

Where a notice under section 148 was issued after the expiry of 4 year from the end of the assessment for which income escaped assessment, it was held that "full and true disclosure of material facts" means that the disclosure should not be garbled or hidden in the crevices of the documentary material which has been filed by the assessee with the AO. The assessee must act with candor. A full disclosure is a disclosure of all material facts which does not contain any hidden material or suppression of fact. It must be truthful in all respects.

On facts, though the AO enquired into the matter relating to exemption of capital gain and the assessee furnished a copy of the section 54EC bonds (from which the dates of allotment/investment were evident), there was no (specific) reference by the assessee to the dates on which the amounts were invested in the section 54EC bonds. Also, it was evident that the AO had not applied his mind to the issue of section 54EC exemption. Accordingly, the AO was justified in reopening the assessment. [*The Indian Hume Pipe Co. Ltd. vs. ACIT* (2012) 204 Taxman 347 (Bom)].

- (2) Agent of a non-resident [Section 149(3)]:** If the person on whom a notice under section 148 is to be served is a person treated as the agent of a non-resident under section 163 and the assessment,

reassessment or recomputation to be made in pursuance of the notice is to be made on him as the agent of such non-resident, the notice shall not be issued after the expiry of a period of six years from the end of the relevant assessment year.

(3) No time limit for issue of notice for assessment in pursuance of order on appeal, etc. [Section 150(1)]:

Notice under section 148 may be issued at any time for the purpose of making an assessment or reassessment or re-computation in consequence of or to give effect to any finding or direction contained in an order passed:

- (a) by any authority in any proceeding under this Act by way of appeal or revision under section 250/254/260A/262/263/264, or
- (b) by a court in any proceeding under any other law.

It may be noted that a judgment given by a Court under any other law can also lead to reassessment and the time limit prescribed under section 149 shall not be applicable. In other words, such notice can be issued at any time to make assessment or reassessment in consequence of or in order to give effect to the finding or direction contained in the order of:

- (i) The Supreme Court passed under the provisions of Income-tax Act or any other law;
- (ii) A High Court passed under the provisions of Income-tax Act or any other law;
- (iii) CIT (Appeal) under section 250/ITAT under section 254/ Commissioner under section 263 or 264 of the Income-tax Act.

Further, order passed by Supreme Court will apply generally to all assesseees and the order passed by the High Court may apply only to the assesseees who fall in the jurisdiction of the High Court but the order under section 250 or 254 or 263 and 264 will apply for the specific assessee.

Exception to section 150(1) [Section 150(2)]: The above provision that there will be no time limit to issue notice under section 149(1) shall, however, not apply where any such assessment or reassessment as is referred to in sub-section (1) to section 150 relates to an assessment year in respect of which an assessment or reassessment could not have been made at the time the order which was the subject matter of appeal, reference or revision, as the case may be, was made by reason of any other provision limiting the time within which any action for assessment or reassessment may be taken.

Although section 150 appears to be of a very wide amplitude, but it would not mean that recourse to reopening of proceedings in terms of sections 147 and 148 can be initiated at any point of time whatsoever; such a proceeding can be initiated only within a period of limitation prescribed therefore as contained in section 149 [CIT, Shimla vs. Greenworld Corporation (2009) 181 Taxman 111 (SC)].

Although the time limits prescribed in section 149 of the Income-tax Act, 1961, will not apply where assessment proceedings are initiated by a notice to give effect to any finding or direction under section 150(1), but under section 150(2), the period of limitation as laid down in section 149 shall come into play, if the action for assessment or reassessment could not be initiated for an assessment year on the date of order which was the subject matter of appeal, reference or revision. Thus, where the High Court by order dated 1-6-1977, enhanced compensation and a further sum of ₹10,30,320 was paid to him as interest for the period 21-10-1966 to 30-6-1979 and the Assessing Officer treated the interest taxable in the assessment year 1980-81, in an order passed on 19-7-1983. On appeal, the Commissioner (Appeal) by his order dated 16-1-1984 accepted the claim of the assessee that such interest was assessable only on accrual basis and directed the Assessing Officer to recompute the addition accordingly. While giving effect to the order of Commissioner (Appeal), the Assessing Officer issued the notice under section 148 dated 27-3-1984, to assess the interest on accrual basis in the corresponding assessment years 1967-68 to 1979-80.

On a writ petition against the reassessment proceedings, it was held by the Punjab and Haryana High Court that in this case, the question of limitation had also to be considered. In the present case,

the assessment order which was subject matter of appeal before the Commissioner (Appeal) for the assessment year 1980-81 was passed by the Assessing Officer on 19-7-1983. Hence no proceeding under section 147 could be initiated in the assessment years for which the period of limitation of 4 years prescribed under section 149 had expired on that date. The years involved in the present writ petitions were assessment years 1967-68 to 1979-80. The period of limitation of four years prescribed under section 149 for the assessment years 1967-68 to 1978-79 had expired on or before 31-3-1983, which was prior to the date of order dated 19-7-1983. These assessment years were clearly covered within the exception provided by section 150(2). Consequently, the notice issued under section 148 dated 27-3-1984, in respect of these years were clearly barred by limitation. The notice has to be quashed. However, as far as interest for the assessment year 1979-80 was concerned; the notice is not barred by limitation [Col. Sir Harindar Singh Brar vs. ITO (2006) 282 ITR 371 (P&H)].

11.3.11 Provision for cases where assessment is in pursuance of an order on appeal, etc. [Section 150]

- (1) Notwithstanding anything contained in section 149, the notice under section 148 may be issued at any time for the purpose of making an assessment or reassessment or recomputation in consequence of or to give an effect to any finding or direction contained in an order passed by any authority in any proceeding under this Act by way of appeal, reference or revision or by a Court in any proceeding under any other law.
- (2) The provisions of sub-section (1) shall not apply in any case where any such assessment, reassessment or recomputation as is referred to in that sub-section relates to an Assessment Year in respect of which an assessment, reassessment or recomputation could not have been made at the time the order which was the subject-matter of the appeal, reference or revision, as the case may be, was made by reason of any other provision limiting the time within which any action for assessment, reassessment or recomputation may be taken.
 - This section prescribes the time limit for issuance of notice u/s 148 in a special case. This section overrides the provisions of section 149. Section 149 vide sub-section (2) provides that issue of notice u/s 148 is subject to the provisions of section 151. Thus, approval u/s 151 for issue of notice u/s 148(1) is not required in a case covered by section 150 [Sukhdayal Pahwa vs. CIT [1983] 140 ITR 206 (MP)].
 - Notwithstanding the time limits prescribed by section 149, notice u/s 148 can be issued at any time for making assessment, etc., to give effect to any finding or direction referred to in sub-section (1). The order referred to therein may be an order u/s 250, 254, 260, 262, 263 or 264.
 - The power conferred by sub-section (1) to the revenue for making assessment, etc., is withdrawn in a special case covered by sub-section (2). This covers a case where the order for an Assessment Year is made such order being the subject matter of an appeal, reference or revision, the finding or direction of which results in an assessment, etc., referred to in sub-section (1). However, at the time such order is made, the assessment etc, in respect of that A.Y. is itself time barred by virtue of any other provision of this Act. Sub-section (2) applies to such cases.
 - Also see Explanations 2 and 3 to section 153.

11.3.12 Sanction for issue of notice [Section 151]

- (1) In a case where an assessment under sub-section (3) of section 143 or section 147 has been made for the relevant Assessment Year, no notice shall be issued under section 148 by an Assessing Officer, who is below the rank of Assistant Commissioner or Deputy Commissioner, unless the Joint Commissioner is satisfied on the reasons recorded by such Assessing Officer that it is a fit case for the issue of such notice.

Provided that, after the expiry of four years from the end of the relevant Assessment Year, no such notice shall be issued unless the Chief Commissioner or Commissioner is satisfied, on the reasons recorded by the Assessing Officer aforesaid, that it is a fit case for the issue of such notice.

- (2) In a case other than a case falling under sub-section (1), no notice shall be issued under section 148 by an Assessing Officer, who is below the rank of Joint Commissioner, after the expiry of four years from the end of the relevant Assessment Year, unless the Joint Commissioner is satisfied, on the reasons recorded by such Assessing Officer, that it is a fit case for the issue of such notice.
- Reasons need not be communicated to assessee.
 - Commissioner must not accord sanction mechanically.
 - Assent must be commissioners' own hand.
 - Commissioner must give fair hearing to assessee.
 - Whether a mere yes or no endorsement will suffice.

Case Law:

There is no requirement in any of the provisions of the Act or any section laying down as a condition for the initiation of the proceedings that the reasons which induced the Commissioner to accord sanction to proceed under section 147 must also be communicated to the assessee [S. Narayanappa vs. CIT 63 ITR 219].

11.3.13 Other provisions [Section 152]

- (1) In an assessment, reassessment or recomputation made under section 147, the tax shall be chargeable at the rate or rates at which it would have been charged had the income not escaped assessment.
- (2) Where an assessment is reopened under section 147, the assessee may, if he has not impugned any part of the original assessment order for that year either under sections 246 to 248 or under section 264, claim that the proceedings under section 147 shall be dropped on his showing that he had been assessed on an amount or to a sum not lower than what he would be rightly liable for even if the income alleged to have escaped assessment had been taken into account, or the assessment or computation had been properly made.

Provided that in so doing he shall not be entitled to reopen matters concluded by an order under section 154, 155, 260, 262 or 263.

11.3.14 Time limit for completion of assessment and reassessment [Section 153]

Regular assessment u/s 143 or 144 must be made within two years of the relevant Assessment Year or one year from the end of the Financial Year in which the return was filed whichever is later.

The provisions of Section 153 and 153B has been amended to provide an additional 3 months time limit for completion of assessment over the previous time line. The present position is appended below :

Proceeding under section	Previous allowed time limit	Amended time limit
143 or 144	21 months from the end of the Assessment Year	24 months from the end of the Assessment Year
143 or 144 and 92CA (Transfer pricing)	33 months from the end of the Assessment Year	36 months from the end of the Assessment Year
148	9 months from the end of the financial year in which notice was issued	12 months from the end of the financial year in which notice was issued
148 & 92CA	21 months from the end of the financial year in which notice was issued	24 months from the end of the financial year in which notice was issued

250, 254 or 263	9 months from the end of the financial year in which order was received	12 months from the end of the financial year in which order was received
250,254,263 & 92CA	21 months from the end of the financial year in which order was received	24 months from the end of the financial year in which order was received

Note : Corresponding changes has also been incorporated in Wealth Tax Provisions.

The Finance Act, 2013 has made the following changes in sections 153 and 153B:

- (i) Where a reference is made to TPO under section 92CA(1) during the course of proceeding for assessment of A.Y. 2009-10 and subsequent assessment years, the period of completion of assessment under section 143(3)/144 shall be 3 years whether reference is made to TPO before or after 1.7.2012.
- (ii) Where notice under section 148 was served on or after 1.4.2010 and during the course of proceeding for the assessment/reassessment, etc. a reference is made to T.P.O. under section 92CA(1), the period of completion of assessment/ reassessment shall be two years whether reference is made to T.P.O. before or after 1-7-2012.
- (iii) Where fresh assessment/reassessment has to be made on directions given under sections 254, 263 or 264 and during the course of such assessment or reassessment a reference is made to T.P.O. under section 92CA the period of completion of assessment/reassessment shall be two years whether reference to T.P.O. is made before or after 1.7.2012.
- (iv) Clause (iii) of Explanation 1 to section 153 has been amended so as to provide that the period commencing from the date on which the Assessing Officer directs the assessee to get his accounts audited under section 142(2A) and
 - (a) ending with the last date on which the assessee is required to furnish a report of such audit under that sub-section; or
 - (b) where such direction is challenged before a court, ending with the date on which the order setting aside such direction is received by the Commissioner,
 shall be excluded in computing the period of limitation for the purposes of section 153.
- (v) clause (viii) of Explanation 1 to section 153 has also been amended so as to provide that the period commencing from the date on which a reference or first of the references for exchange of information is made by an authority competent under an agreement referred to in section 90 or section 90A and ending with the date on which the information requested is last received by the Commissioner or a period of one year, whichever is less, shall be excluded in computing the period of limitation for the purposes of section 153.

Similar amendments have also been made in the *Explanation* to section 153B of the Income-tax Act relating to time limit for completion of search assessment and exclusion of time.

As per Explanation 1 to section 153, in computing the period of limitation for the purposes of this section the following period shall be excluded:

- (i) the time taken in reopening the whole or any part of the proceeding or in giving an opportunity to the assessee to be reheard under the proviso to section 129 relating to change of incumbent of an office, or
- (ii) the period during which the assessment proceeding is stayed by an order or injunction of any court, or
- (iii) the period commencing from the date on which the Assessing Officer intimates the Central Government or the prescribed authority, the contravention of the provisions of clause (21) or clause (22B) or clause (23A) or clause (23B) or sub-clause (iv) or sub-clause (v) or sub-clause (vi) or sub-clause (via) of clause (23C) of section 10, under clause (i) of the proviso to sub-section (3) of

section 143 and ending with the date on which the copy of the order withdrawing the approval or rescinding the notification, as the case may be, under those clauses is received by the Assessing Officer; or

- (iv) the period commencing from the date on which the Assessing Officer directs the assessee to get his accounts audited under sub-section (2A) of section 142 and ending with the last date on which the assessee is required to furnish a report of such audit under that sub-section, or
- (v) in a case where an application made before the Income-tax Settlement Commission under section 245C is rejected by it or is not allowed to be proceeded with by it, the period commencing from the date on which such application is made and ending with the date on which the order under section 245D(1) is received by the Commissioner, or
- (vi) the period commencing from the date on which an application is made before the Authority for Advance Ruling under sub-section (1) of section 245Q and ending with the date on which the order rejecting the application is received by the Commissioner under sub-section (3) of section 245R, or
- (vii) the period commencing from the date on which an application is made before the Authority for Advance Rulings under sub-section (1) section 245Q and ending with the date on which the advance ruling pronounced by it is received by the Commissioner under sub-section (7) of section 245R.
- (viii) the period commencing from the date on which a reference for exchange of information is made by an authority competent under an agreement referred to in section 90 or section 90A and ending with the date on which the information so requested is received by the Commissioner or a period of 1 year, whichever is less.
- (ix) the period commencing from the date on which a reference for declaration of an arrangement to be impermissible avoidance arrangement is received by the Commissioner under sub-section (1) of section 144BA and ending on the date on which a direction under sub-section (3) or sub-section (6) or an order under sub-section (5) of the said section is received by the Assessing Officer.

If, after the exclusion of the aforesaid period, the period of limitation available to the Assessing Officer for making an order of assessment or reassessment, as the case may be, is less than sixty days, such remaining period shall be extended to sixty days and the period of limitation shall be deemed to be extended accordingly.

Further, where a proceeding before the Settlement Commission abates under section 245HA, the period of limitation available under this section to the Assessing Officer for making an order of assessment, reassessment or re-computation, as the case may be, shall, after the exclusion of the period under section 245HA(4), be not less than one year; and where such period of limitation is less than one year, it shall be deemed to have been extended to one year; and for the purposes of determining the period of limitation under sections 149, 153B, 154, 155, 158BE and 231 and for the purposes of payment of interest under section 243 or section 244 or, as the case may be, section 244A, this proviso shall also apply accordingly.

The period during which the stay order staying the assessment proceedings was in operation is to be excluded for the purpose of computing the period of limitation for making the order of assessment [Auto & Metal Engineers vs. Union of India (1998) 229 ITR 399 (SC)].

11.3.15 Assessment in case of search or requisition [Section 153A]

Notwithstanding anything contained in section 139, section 147, section 148, section 149, section 151 and section 153, in the case of a person where a search is initiated under section 132 or books of account, other documents or any assets are requisitioned under section 132A after the 31st day of May, 2003, the Assessing Officer shall—

- (a) issue notice to such person requiring him to furnish within such period, as may be specified in the notice, the return of income in respect of each Assessment Year falling within six Assessment Years

referred to in clause (b), in the prescribed form and verified in the prescribed manner and setting forth such other particulars as may be prescribed and the provisions of this Act shall, so far as may be, apply accordingly as if such return were a return required to be furnished under section 139;

- (b) assess or reassess the total income of six Assessment Years immediately preceding the Assessment Year relevant to the Previous Year in which such search is conducted or requisition is made.

The Assessing Officer shall assess or reassess the total income in respect of each Assessment Year falling within such six Assessment Years.

It is provided that assessment or reassessment, if any, relating to any Assessment Year falling within the period of six Assessment Years referred to in section 153A(1) pending on the date of initiation of the search under section 132 or making of requisition under section 132A, as the case may be, shall abate.

Provided also that the Central Government may by rules made by it and published in the Official Gazette (except in case where any assessment or reassessment has abated under the second proviso), specify the class or classes of cases in which the Assessing Officer shall not be required to issue notice for assessing or reassessing the total income for six Assessment Years immediately preceding the Assessment Year relevant to the Previous Year in which search is conducted or requisition is made.

Except as otherwise provided in this section, section 153B and section 153C, all other provisions of this Act shall apply to the assessment made under this section;

In an assessment or reassessment made in respect of an Assessment Year under this section, the tax shall be chargeable at the rate or rates as applicable to such Assessment Year.

11.3.16 Prior approval necessary for assessment in cases of search or requisition [Section 153D]

No order of assessment or reassessment shall be passed by an Assessing Officer below the rank of Joint Commissioner in respect of each Assessment Year referred to in clause (b) of section 153A or the Assessment Year referred to in clause (b) of sub-section (1) of section 153B, except with the prior approval of the Joint Commissioner."

QUESTIONS & ANSWERS

RETURN OF INCOME:

Question 1. What is the due date of filing of return of income in case of a non-working partner of a firm whose accounts are not liable to be audited?

Answer : Due date of furnishing return of income in case of non-working partner shall be 31st July of the Assessment Year whether the accounts of the firm are required to be audited or not.

A working partner for the above purpose shall mean an individual who is actively engaged in conducting the affairs of the business or profession of the firm of which he is a partner and is drawing remuneration from the firm.

Question 2. What do you mean by annexure less return? What is the manner of filling the return of income?

Answer : The return of income required to be furnished in Form No. ITR-1, ITR-2, ITR-3, ITR-4, ITR-5, ITR-6 or ITR-7 shall not be accompanied by a statement showing the computation of the tax payable on the basis of the return, or proof of the tax, if any, claimed to have been deducted or collected at source or the advance tax or tax on self-assessment, if any, claimed to have been paid or any document or copy of any account or Form or report of audit required to be attached with the return of income under any of the provisions of the Act.

Manner of filling the return: The return of income referred to in sub-rule (1) may be furnished in any of the following manners, namely:-

- (i) Furnishing the return in a paper form;
- (ii) Furnishing the return electronically under digital signature;
- (iii) Transmitting the data in the return electronically and thereafter submitting the verification of the return in Form ITR-V;
- (iv) Furnishing a bar-coded return in paper form.

Question 3. Is e-filing of return mandatory? State the assessee's for whom e-filing of returns is mandatory?

Answer : CBDT has vide notification No. 34/2013 dated 01.05.2013 has made it mandatory for the following category of the Assesses to file their Income Tax Return Online from A.Y. 2013-14 :-

- (a) It is mandatory for every person (not being a co. or a person filing return in ITR 7) to e-file the return of income if its total income exceeds ₹5,00,000
- (b) an individual or a Hindu Undivided Family, being a resident, having assets (including financial interest in any entity) located outside India or signing authority in any account located outside India and required to furnish the return in Form ITR-2 or ITR-3 or ITR-4, as the case may be.
- (c) Every person claiming tax relief under Section 90, 90A or 91 shall file return in electronic mode.
- (d) Those who are required to get their Accounts audited under Section 44AB, 92E, 115JB.
- (e) A company required to furnish the return in Form ITR-6.

However, as per instruction of ITR 7 From assessment year 2013-14 onwards in case an assessee who is required to furnish a report of audit under section 10(23C)(iv), 10(23C)(v), 10(23C)(vi), 10(23C)(via), 10A, 12A(1)(b), 44AB, 80-IA, 80-IB, 80-IC, 80-ID, 80JJAA, 80LA, 92E or 115JB he shall file the report electronically on or before the date of filing the return of income.

Question 4. Can unabsorbed depreciation be carried forward even if the return is filed after due date?

Answer : Unabsorbed depreciation can be carried forward even if the return of loss is submitted after the due date, as it is not covered under Chapter VI of set off or carry forward of losses but covered u/s 32(2). [East Asiatic Co.(India) Pvt. Ltd. vs.CIT (1986) 161 ITR 135(Mad.)]

Question 5. Can a belated return of income filed u/s 139(4) be revised?

Answer : There was a difference of opinion among various courts regarding filling of revised return in respect of belated returns. However, it has been held that a belated return filed u/s 139(4) cannot be revised as section 139(5) provides that only return filed u/s 139(1) or in pursuance to a notice u/s 142(1) can be revised [Kumar Jagdish Chandra Sinha vs.CIT(1996) 220 ITR 67(SC)].

Question 6. Can a revised return be further revised?

Answer : If the assessee discovers any omission or any wrong statement in a revised return, it is possible to revise such a revised return provided it is revised within the same prescribed time [Niranjan Lal Ram Chandra vs.CIT (1982) 134 ITR 352 (All.)]

Question 7. Can an Assessing Officer himself allot Permanent Account Number to an assessee?

Answer: The Assessing Officer having regard to the nature of the transactions as may be prescribed may also allot a Permanent Account Number to any other person(whether any tax is payable by him or not) in the manner and in accordance with the procedure as may be prescribed.

Question 8. What are the consequences if a person fails to comply with the provisions of Sec.139A i.e. quoting of PAN?

Answer : As per Sec. 272B(2), if a person fails to comply with the provisions of Sec.139A, the Assessing Officer may direct that such person shall have to pay, by way of penalty, a sum of ₹10,000.

Question 9. Who can sign the return of HUF, if HUF does not have a major member?

Answer : If the HUF has no major members as its Karta, a return may validly be signed by the eldest minor member of the family who manages the affairs of the family [Sridhar Udai Narayan vs.CIT(1962) 45 ITR 577 (All.)]

Question 10. Is thumb impression valid for furnishing the Return of Income?

Answer : The General Clauses Act accepts the thumb impression, as one of the modes of signing, valid and binding. [CIT vs. Kanhaiya Lal And Sons (2005) 273 ITR 425 (All.)]

ASSESSMENT PROCEDURE:

Question 11: What is a protective assessment under Income-tax law? What is the procedure followed for the recovery of tax in such cases?

Answer: A protective assessment is made in a case where there are doubts relating to the true ownership of the income. If there is an uncertainty about the taxing of an income in the hands of Mr. A or Mr. B, then at the discretion of the Assessing Officer, the same may be added in the hands of one of them on protective basis. This is to ensure that on finality, the addition may not be denied on the ground of limitation of time. Once finality regarding the identity of the tax payer to be taxed is established, the extra assessment is cancelled. But the Department cannot recover the tax from both the assesseees in respect of the same income. Penalty cannot be imposed on the strength of a protective assessment.

Question 12: Joseph, engaged in profession, filed his return of income for Assessment Year 2014-15 on 15th November, 2014. He disclosed an income of ₹4,00,000 in the return. In February, 2015 he discovered that he did not claim certain expenses and filed a revised return on 3rd February, 2015 showing an income of ₹1,80,000 and claiming those expenses. Is the revised return filed by Joseph acceptable?

Answer: Joseph is engaged in profession. The due date for filing income tax return for Assessment Year 2014-15 as per section 139(1) of the Income-tax Act is 30th September, 2014 if his accounts are required to be audited under any law. The due date is 31st July, 2014 if the accounts are not required to be audited under any law.

The return was filed beyond the due date prescribed in section 139(1). The return so filed is covered by

section 139(4) and the time limit is one year from the end of the relevant Assessment Year. The Apex court in *Kumar Jagadish Chandra Sinha vs. CIT 220 ITR 67 (SC)* has held that a return filed under section 139(4) is not eligible for revision and hence a revised return cannot be filed.

Hence, the revised return filed by Joseph is not valid as the original return was not filed before the due date mentioned in section 139(1).

Question 13: An assessee filed a return of income on 31.8.2014 in respect of Assessment Year 2014-15 disclosing an income of ₹5 lakhs from business. It was not accompanied by proof of payment of tax due on self-assessment. Discuss the validity of such a return.

Answer :As per Explanation to sub-section (9) of section 139 a return is regarded as defective unless it is accompanied by proof of tax deducted at source, advance tax and tax on self-assessment, if any, claimed to have been paid. Therefore, the return is prima facie defective. It is not invalid at that stage. On receipt of the return, the Assessing Officer has to intimate the defect to the assessee and give him an opportunity to rectify the defect within a period of 15 days from the date of such intimation or within such further period which, on application by the assessee, he may, in his discretion, allow. If the defect is not rectified within the said period, the return will be treated as an invalid return and the provisions of the Income-tax Act shall apply, as if the assessee has failed to furnish the return.

Also, it may be noted that section 140A(3) says that if an assessee fails to pay tax or interest on self assessment he shall be deemed to be an assessee in default in respect of the tax or interest or both remaining unpaid and all the provisions of the Act shall apply accordingly.

Question 14: If an assessment is remanded back to Assessing Officer, can he introduce new sources of income for assessment?

Answer: Where the assessment is set aside by the Tribunal and the matter remanded to the Assessing Officer, it is not open to him to introduce into the assessment new sources of income so as to enhance the assessment. Any power to enhance is confined to the old sources of income which were the subject matter of appeal [*Kartar Singh vs.CIT (1978) 111 ITR 184 (P &H)*].

Question 15: Can Department make fresh computation, once the assessment is made final?

Answer: It is now a well settled principle that an assessment once made is final and that it is not open to the department to go on making fresh computation and issuing fresh notices of demand to the end of all time. [*ITO vs.Habibullah (S.K.) (1962) 44 ITR 809 (SC)*]

Question 16: Can an Assessing Officer make an assessment for a year other than the assessment year for which the return is filed?

Answer: It is not open to the Assessing Officer to make assessment in respect of a year other than the Assessment Year for which the return is filed. Thus, in respect of a return filed for Assessment Year 2012-13, assessment cannot be made for the Assessment Year 2013-14. [*CIT vs. Amaimugan Transports Pvt. Ltd. (1995) 215 ITR 553 (Mad.)*]

Question 17: Can an Assessing Officer assess the income below the returned income or assess the loss higher than the returned loss?

Answer: The Assessing Officer cannot assess income under section 144 for an assessment below the returned income or cannot assess the loss higher than the returned loss.

Question 18: Can incomplete, unsigned or unverified return lead to best judgement assessment?

Answer: Incomplete, unsigned or unverified return may lead to best judgement assessment. A best judgement assessment can be made when the return is filed woefully incomplete or not signed and verified. [*Behari Lal Chatterji vs.CIT (1934) 2 ITR 377 (All.)*]

Question 19: Can assessee follow different method of accounting for different businesses?

Answer: If an assessee is carrying on more than one business, he can follow cash system of accounting

for one business and mercantile system (accrual system) of accounting for other business. Similarly, if he had more than one sources of income under the head Income from Other Sources, he can follow accrual system for one source of income under the head Income from Other Sources, and cash system for other sources of income.

Question 20: What can Assessing Officer do when the assessment is not set aside for fresh assessment but annulled?

Answer: Where an assessment is not set aside for fresh assessment but annulled, no extended limitation is available. However, if the original time limit is available, the Assessing Officer may proceed from the stage at which illegality which resulted into the annulment of the assessment supervened and make the assessment afresh. [CIT vs. Mrs. Ratanbai N.K. Dubhash (1998) 230 ITR 495 (Bom.).]

Question 21: An assessment was made on S originally in the status of a nonresident. In the re-assessment made under section 147, he is assessed as resident and ordinarily resident on the ground that the correct status was not disclosed in the return of income filed originally. Is the change of status valid in a re-assessment?

Answer: This case is based on a case decided by the Punjab & Haryana High Court in CIT vs. Surmukh Singh Uppal (Dr) (1983) 144 ITR 191 (P&H) in which the court held that if an assessee fails to disclose fully and truly all the material facts at the time of original assessment then the question of status could be determined in reassessment proceedings if, on account of the non-disclosure of the facts fully and truly, there had been an escapement of income.

In view of the aforesaid case, the action taken by the Assessing Officer in assessing S as a resident and ordinarily resident is correct.

Question 22: A non-resident individual was assessed originally on income arising in India on 8-3-2013 in respect of assessment year 2011-12. The Assessing Officer discovered an omission in the assessment and issued notice to the statutory agent on 10-12-2013 for re-assessment of the omitted income under section 147. Assuming that the statutory agent has been given notice of his appointment and has been heard u/s 163, how will he contest the validity of the re-assessment?

Answer: Section 163(2) provides that no person shall be treated as the agent of a non-resident unless he had an opportunity of being heard by the Assessing Officer as to his liability to be treated as such.

In the present case, the assessee has been given an opportunity of being heard and also the notice has been issued within the time limits laid down under section 148. Hence, the reassessment proceedings are valid.

Question 23: An assessee filed a return showing, inter alia, a sum of ₹35,000 as capital receipt and hence not liable to tax. The Assessing Officer accepted the claim of the assessee and made the assessment on the income disclosed. Subsequently, a successor to the Assessing Officer came across a judgment of the High Court under which the amount claimed as exempt was held to be liable to tax, under identical circumstances. The assessment was re-opened under section 147. The assessee wants you to contend that the notice under section 147 is not valid. What is your opinion?

Answer: This case is based on Explanation 2 to section 147 which provides that where an assessment has been made, but income chargeable to tax has been under-assessed then it shall be deemed that income has escaped assessment. In the present case, the successor to the Assessing Officer came across a High Court judgment according to which ₹35,000 was taxable in similar circumstances. Thus, clearly the Assessing Officer has reason to believe that income chargeable to tax has been under assessed. Hence, the income of ₹35,000 could be re-assessed within the time limit.

Question 24: T Ltd effected purchases of stock-in-trade of the value of ₹1,50,000 from A and Co. during the financial year 2013-14. Vouchers in support of the purchases were produced before the Assessing Officer, who accepted the claim. Subsequently, the Assessing Officer received specific information that the said purchases were not genuine and A and Co. had denied the transaction. The Assessing Officer thereafter re-opened the assessment under section 147. T Ltd challenges the validity of the re-

assessment on the ground that it had disclosed all the primary facts and the Assessing Officer ought to have verified the genuineness of the claim at the time of the original assessment?

Answer: This case is based on Explanation 1 to section 147 which provides that production before the Assessing Officer of books of account or other evidence from which material evidence could with due diligence have been discovered by the Assessing Officer will not necessarily amount to disclosure within the meaning of the first proviso. Re-assessment proceedings may be started either on the ground that some fresh facts have come to light which were not previously disclosed or some information with regard to the facts previously disclosed come to light which tends to expose the untruthfulness of those facts.

In view of the aforesaid provisions, the contention of T Ltd is not correct. The action of the Assessing Officer is justified.

Question 25: Raj files the return of income disclosing an income of ₹4,00,000. The full tax payable on the declared income is covered by tax deducted at source, advance tax and tax on self assessment. The Assessing Officer, through oversight, does not pass any order thereon and the assessment becomes barred by limitation. The assessee claims that since no assessment has been made, on him, the entire tax paid by him is refundable. Discuss the correctness or otherwise of the claim?

Answer: This case is based on a case decided by the Gujarat High Court in ITO vs. Saurashtra Cement & Chemical Industries Ltd. (1992) 194 ITR 659 in which the court held that liability to pay income-tax chargeable under section 4(1) of the Act does not depend upon the assessment being made by the Income-tax Officer but depends on the enactment by any Central Act prescribing rate or rates for any assessment year. Thus, as soon as the rates are prescribed by the appropriate legislation, the liability to pay tax arises on the total income which is to be computed by the assessee in accordance with the provisions of the Act, if it exceeded the maximum amount not chargeable to tax.

On the filing of returns under section 139, the provisions of self-assessment contained in section 140A come into operation and it becomes obligatory on the part of the assessee to discharge his liability which has arisen to pay the tax together with the interest that may be payable for late furnishing of returns. The tax payable on the basis of the returns filed by the assessee is treated as 'assessed tax'. It is not at all made dependent on any regular assessment being made though, in the event of regular assessment, the amount paid under sub-section (1) of section 140A is deemed to have been paid towards the regular assessment. Therefore, by no stretch of imagination, can the tax paid and collected under section 140A be described as a mere ad hoc or interim payment which can be said to fall in the absence of a regular assessment. The procedure of assessment by the Income-tax Officer is essentially to check the computation of total income done by the assessee and to find out whether the computation made is correct or not. Where the return has been accepted by the Income-tax Officer who may not assess the total income, it cannot be said that the liability to pay the tax under the Act on the basis of the admitted total income as reflected from the returns would vanish.

In view of the aforesaid case, the claim of the assessee is not valid.

Study Note - 12

SEARCH AND SEIZURE

This Study Note includes

12.1 Search and Seizure

12.2 Survey

12.1 SEARCH AND SEIZURE

Search and seizure can be authorised by—

- (a) The Director General of Income Tax, or
- (b) The Director of Income Tax, or
- (c) The Chief Commissioner of Income Tax, or
- (d) The Commissioner of Income Tax, or
- (e) The Additional Director or Additional Commissioner, or
- (f) The Joint Director or Joint Commissioner of Income Tax.

The Director General or Director or the Chief Commissioner or Commissioner may authorise any officer subordinate to him but not below the rank of Income Tax Officer to conduct such search. Similarly, Additional Commissioner, Joint Commissioner or Additional Director/Joint Director can authorise any officer subordinate to him but not below the rank of Income Tax Officer to do so.

However, no authorization shall be issued by the Additional Director or Additional Commissioner or Joint Director or Joint Commissioner on or after 1.10.2009, unless he has been empowered by the Board to do so.

The Officer so authorised is referred as Authorised Officer. The authorisation is done by issuing a search warrant in Form 45.

Authorisation for search and seizure can take place if the above authority, in consequence of information in his possession, has reason to believe that:

- (a) any person to whom summons under section 131(1) or notice under section 142(1), was issued to produce or cause to be produced any books of account, or other documents has wilfully omitted or failed to produce or caused to produce such books of account or other documents as required by such summons or notice;
- (b) any person to whom summons or notice, as aforesaid, has been or might be issued, will not or would not produce any books of account or other documents which will be useful or relevant to any proceeding undertaken under the Income Tax Act;
- (c) any person is in possession of any money, bullion or jewellery, or other valuable article or things and these assets represent either wholly or partly the income or property which has not been or would not be disclosed by the person concerned for the purposes of this Act.

From the above it is clear that the persons to be searched are persons:

- (a) who have books of account or documents which have not been produced or are not likely to be produced in response to notices or/summons, or
- (b) persons who are likely to be in possession of undisclosed income or property.

Case Laws

- (1) Clauses (a), (b) and (c) of section 132(1) spell out the circumstances under which the Authorising Authority may issue a warrant of authorization. Under clause (a) action may be taken if a person is served inter alia with a summons u/s 131 or notice u/s 142(1) to produce or cause to be produced specified books of account or other documents and he fails to comply. Such non-compliance affords a surer base for the issuance of the authorization. Under clause (b), a formal notice is not essential. The Authorising Officer must have reason to believe that the person, whether or not a notice has been served on him, is not likely to produce his books, etc. The basic, in such a case, is that the person will suppress books of account and other documents which may be useful and relevant to an income-tax proceeding. Here the Authorising Authority, if challenged, has to prove the basis of his belief. [Mamchand and Co. vs. CIT (1970) 76 ITR 217 (Cal) ; Kusum Lata vs. CIT (1989) 180 ITR 365 (Raj)].
- (2) In order to attract clause (c) there must be information with the Authorising Authority relating to two matters. Firstly, that any person is in possession of money, etc. and Secondly, that such money, etc. represents either wholly or partly income or property which has not been or would not be, disclosed for the purposes of the Act. [CIT vs. Ramesh Chander (1974) 93 ITR 450 (Pun)]. In cases under clause (c), a stiffer burden lies on the Authorising Authority to justify the ground of his belief.

It may be observed that before invoking the provisions of section 132(1), the Director General or the Director or the Chief Commissioner or Commissioner or Joint Director or Joint Commissioner must have reasons to believe that there is justification for such search and seizure as one of the conditions mentioned in section 132(1)(a), (b) or (c) is satisfied. He must, before taking such action, record his reason to believe that the Case is fit for such action. 'Reason to believe' means that the Officer has faith or accepts a fact to exist. Belief must be genuine and not a mere pretence and has to be held in good faith and not a reason to suspect. [ITO vs. Lakshman Mewal Das (1976) 103 ITR 437 (SC)].

In this case disclosure of the material or the information to the person against whom the action is taken u/s 132(1) is not mandatory, because such disclosure might affect or hamper the investigation [Southern Herbals Ltd. vs. DIT (Investigations) (1994) 207 ITR 55 (Karn)]. Only the High Courts and the Supreme Court have the jurisdiction to call for and look into the reasons recorded to decide whether the issue of the search warrant was called for. [Dr. Pratap Singh vs. Director of Enforcement (1985) 155 ITR 166 (SC)].

There is no mandate of section 132 or any other provision in Act that reasonable belief recorded by Designated Authority before issuing warrant of authorization must be disclosed to assessee. Therefore, fact that a copy of information received or satisfaction note recorded by Designated Authority has not been furnished to assessee, cannot be a ground to hold that search and seizure proceedings against assessee are bad in law. [Genom Biotech Pvt. Ltd. vs. Director of Income Tax, (Investigation) (2009) 180 Taxman 395 (Bom)].

Where search or seizer conducted illegally or irregularly, the materials so obtained during the search or seizure can nevertheless be utilised for the purpose of an ordinary assessment. [Pooran Mai vs. Director of Inspection (Investigation), Income-tax (1974) 97 ITR 505 (SC)].

Search can be authorised by a CCIT/CIT other than jurisdictional CCIT/CIT:

- (1) The Chief Commissioner/Commissioner of Income Tax has the power to authorise a search of any building, place, vessel, vehicle or aircraft of a person which is under his jurisdiction and also in cases where such building, place, vessel, vehicle or aircraft is in his area of jurisdiction but he has no jurisdiction over the persons concerned, if he has reason to believe that any delay in obtaining authorisation from the Commissioner having jurisdiction over the person would be prejudicial to the interests of revenue. Such authorization shall be given in Form 45A. [First proviso to section 132(1)].

For example, if the search is to be conducted in the premises of a person in Mumbai but such person is an assessee in Kolkata i.e. the jurisdiction of the assessee is with Chief Commissioner of Kolkata, then the Chief Commissioner/Commissioner of Income Tax Mumbai can authorise such search instead of getting authorisation from jurisdictional Chief Commissioner i.e. Chief Commissioner Kolkata.

- (2) Where a search for any books of account or other documents or assets has been authorised by any authority who is competent to do so, and some other Chief Commissioner / Commissioner in consequence of information in his possession has reason to suspect that such books of account or other documents and asset, etc. of the assessee are kept in any building, place, vessel, vehicle or aircraft not specified in the search warrant issued by such authority, he may authorise the Authorised Officer to search such other building, place, vessel, vehicle or aircraft [Section 132(1A)]. Such authorization shall be given in Form 45B.

For example, if a search warrant is issued by the Director of Income Tax, Chennai, authorising the search of a premises in Mumbai and the Authorised Officer finds that the books of account or other documents and/or assets have been secreted in a building or place not specified in the search warrant, he could request any of the local Commissioner of Mumbai to authorise him to search that building or place.

The Authorised Officer for search and seizure, shall have the powers to —

- (a) enter and search any building, place, vessel, vehicle or aircraft where he has reason to suspect that such books of account, other documents, money, bullion, jewellery or other valuable article or thing are kept;
- (b) break to open the lock of any door, box, locker, safe, almirah or other receptacle for exercising the powers conferred where the keys thereof are not available;
- (c) search any person who has got out of, or is about to get into, or is in the building, place, vessel, vehicle or aircraft, if the Authorised Officer has reason to suspect that such person has secreted about his person any such books of account, other documents, money, bullion, jewellery or other valuable article or thing;
- (d) require any person who is found to be in possession or control of any books of account or other documents maintained in the form of electronic records, to afford the necessary facility to the Authorised Officer to inspect all such books of account or other documents;
- (e) seize any such books of account, other documents, money, bullion, jewellery or other valuable article or thing found as a result of such search. However, w.e.f. 1.6.2003, the Authorised Officer shall have no power to seize any bullion, jewellery or other valuable article or thing being stock-in-trade of the business found as a result of search. He shall make a note or inventory of such stock-in-trade of the business,
- (f) place marks of identification on any books of account or other documents or make or cause to be made extracts or copies therefrom;
- (g) make a note or an inventory of any such money, bullion, jewellery or other valuable article or thing.

If any person searched holds any bullion, jewellery or any other valuable article or things is held as stock-in-trade of the business, it cannot be seized, whether or not the person is able to explain the source of acquisition of such stock. Whether such stock is disclosed or undisclosed, it is immaterial and the same cannot be seized in any circumstance. However, the restriction on seizure of stock-in-trade does not apply to cash. Unaccounted cash can be seized even if it forms part of stock-in-trade of the assessee. For example for a person carrying on business of money lending or exchange of currency, cash in hand is stock-in-trade but it can still be seized.

Case Laws:

- (1) Where the client of the auditor was subject to search and the audit firm itself had not been subject to search, on a writ petition by the auditors, it was held the search party does not have access to data of the other clients contained in the laptops of the auditor. [S. R. Batliboi & Co. vs. Department of Income-tax (Investigation) (2009) 315 ITR 137 (Del)].
- (2) Survey of Chartered Accountant's office and impounding the books of accounts of the assessee would not constitute breach of privilege to which professional like a practising accountant or lawyer would be entitled. Hence, both survey and consequent impounding of documents would be in order. [U.K. Mahapatra and Co. vs. Income-tax Officer (2009) 308 ITR 133 (Ori)].

Additional power and duties of Authorised Officer are as follows:

- (1) Deemed seizure [Second proviso to section 132(1)]: Where it is not possible or practicable to take physical possession of any valuable article or thing and remove it to a safe place due to its volume weight or other physical characteristics or due to its being of a dangerous nature, the Authorised Officer may serve an order on the owner or the person who is in immediate possession thereof that he shall not remove, part with or otherwise deal with it except with the previous permission of such Authorised Officer and such action of the Authorised Officer shall be deemed to be seizure of such valuable article or thing. However, w.e.f. 1.6.2003 in the case of such deemed seizure also, the Authorised Officer shall have no power to seize any valuable article or thing, being stock in trade of the business.
- (2) Restraint order [Section 132(3) with Explanation and section 132(8A)]: In case it is not possible or practicable to seize any books of account, or other documents, or money, bullion jewellery or other valuable articles or things for reasons other than those mentioned in (1) above, the Authorised Officer may serve an order on the owner or a person who is in immediate possession or control thereof that he shall not remove or part with or otherwise deal with it except with the previous permission of such Officer and such Officer may take such steps as may be necessary for compliance of this sub-section. However, in this case serving of such order shall not be deemed to be seizure of such books of account, etc. Such order is commonly known as an attachment order. The order u/s 132(3) shall not be in force for a period exceeding sixty days from the date of the order.

Sub-section (3) can be resorted to only if there is any practical difficulty in seizing the item that is liable to be seized. Where the assessee has deposited the money in a bank, a prohibitory order under section (3) should be served not on the bank but on the assessee and a copy thereof may be sent to the bank. Attachment under sub-section (3) should be made only when the officer is satisfied that the asset is undisclosed.

- (3) Power to requisition service of a Police Officer or Officer of the Central Government [Section 132(2)]: The Authorised Officer may requisition the services of any Police Officer or any of the Officer of the Central Government or of both to assist him for all or any of purposes specified in sub-section (1) and (1A) and it will be duty of every such Officer to comply with such requisition.
- (4) Examination of any person on oath [Section 132(4) with Explanation]: The Authorised Officer may, during the course of the search or seizure, examine on oath any person who is found to be in possession or control of any books of account, documents, money, bullion, jewellery or other valuable article or thing and any statement made by such person during such examination may thereafter be used in evidence in any proceeding under the Income Tax Act, 1961. The statement can be recorded during the course of search and seizure or when it is over. Further, an explanation has been added to provide that the examination of any person may be not merely be in respect of any books of account, other documents or assets found as a result of the search, but also in respect of all matters relevant for the purposes of any investigation connected with any proceeding under the Income Tax Act, 1961.

The Authorised Officer may record statement wherein he may question on all matters which he may deem to be relevant for the purpose of the assessment, unearthing of concealed assets, source of income, investments made during different years, source of investments, marriages performed, expenses incurred on marriages and other ceremonial occasions, sources of expenditure incurred, household expenses and similar other aspects.

The person giving the statement has to be cautious while giving the statement. The admission of any fact therein will entail the financial liabilities and legal consequences resulting thereof in respect of taxation and penalties and prosecution in view of amended provision as per the Finance Act, 2003 with effect from 1.6.2003 for making assessment of search Cases. However, this statement, if no further indiscriminating documents have been found in the search, can be retracted later on but there should be a reasonable ground for the same. The retraction of statement recorded later on has been subject-matter of many judicial pronouncements and conflicting judgments over the same issue are there. But the majority of the Courts including the Agra Bench of the Tribunal have taken the decision favouring assesses that, in the circumstances where there is no indiscriminating material found in the search justifying the surrender in the statement, the same can be retracted.

- (5) Presumption of ownership of books of account and asset and its truthfulness [Section 132(4A)]: Where any books of account, other documents, money, bullion, jewellery and other valuable article is found in possession or control of any person in the course of search, it may be presumed that—
- (a) the books of account or other documents and assets found in the possession of any person in the course of a search belong to such person;
 - (b) the contents of such books of account and other documents are true; and
 - (c) the signature and every other part of such books of account and other documents which purports to be in the handwriting of any particular person are in handwriting of that person or which may reasonably be assumed to have signed or written the books of account or other documents are in that person's handwriting. In case of documents stamped, executed or attested that it was duly stamped and executed or attested by the person by whom it purports to have been so executed or attested.
- (6) Retention of books of account and other documents [Section 132(8)]: The books of account or other documents seized under this section shall not be retained by the Authorised Officer (if he is himself a Assessing Officer) for a period exceeding 30 days from the date of the order of assessment u/s 153A or u/s 158BC(c) (relating to assessment of search cases/block assessment) unless the reasons for retaining the same are recorded by him in writing and the approval of the Chief Commissioner, Commissioner, Director General or Director for such retention is obtained.

However, that the Chief Commissioner, Commissioner, Director General or Director shall not authorise the retention of the books of account and other documents for a period exceeding thirty days after all the proceedings under the income Tax Act, in respect of the years for which the books of account or other documents are relevant are completed.

According to Section 132(10) if a person, legally entitled to the books of account or other documents seized, objects for any reason to the approval of extension given by Chief Commissioner, etc. as above, he may make an application to the Board for return of such books of account and documents and the Board may, after giving the applicant an opportunity of being heard, pass such order as it thinks fit.

The following two conditions must be fulfilled before the retention of books for the extended period is permissible:

- (a) The Authorised Officer or the concerned Assessing Officer seeking the Commissioner's approval should record the reasons for retaining the books in writing.

(b) He should obtain the approval of CIT for the extended period. [CIT vs. Oriental Rubber Works (1984) 145 ITR 477 (SC)].

- (7) Copies of extract of books of account and documents [Section 132(9)]: The person from whose custody any books of account or documents are seized under this section may make copies thereof, or take extracts there from, in the presence of the Authorised Officer or any person empowered by him in this behalf, at such place and time as the Authorised Officer may appoint in this behalf.

Right of copies and taking extracts from the account books is available only to the person from whose custody the books are seized. Others shall be entitled to the copies as and when the same are used by the Tax Authorities against him. [Manickchand Gupta vs. CIT (1988) 173 ITR 662 (All)].

- (8) Handing over of seized books and assets to Assessing Officer [Section 132(9A)]: The Authorised Officer, if he is not the Assessing Officer, is required to hand over the books of account or other documents or any money, etc., seized by him to the Assessing Officer having jurisdiction over the person searched within a period of 60 days from the date on which the last of the authorisation for search was executed; and thereafter, the powers and functions of the Authorised Officer under section 132(8) and (9) would be exercised by the Assessing Officer.

Power to requisition books of account etc. [Section 132A]

- (1) Requisitioning of books of account, etc. taken into custody under any other law. Section 132A provides that in case where any books of account or other documents and assets have been taken into custody by the Officer or authority under any other law e.g., by the Collector of Customs, the Sales Tax Commissioner, etc., the Director General or Director or the Chief Commissioner or Commissioner of Income-tax may, in such circumstances as are covered by section 132 for search and seizure, authorise in Form No. 45C any Additional Director, Additional Commissioner, Joint Commissioner, Joint Director, Deputy Director, Deputy Commissioner, Assistant Commissioner, Assistant Director or the Assessing Officer (Requisitioning Officer) to require such Officer or authority to deliver to him such books of account or other documents and assets.

In case where such a requisition is made the officer or the authority concerned would be required to deliver the books of account or other document and assets to the Requisitioning Officer either forthwith or, when such Officer or the Authority is of the opinion that it is no longer necessary to retain the same in his custody.

This section empowers the Income Tax Authorities to requisition assets and documents which are in the custody of any Officer or Authority under any other law but not those which are in the custody of the court, since the words Officer or Authority would not include a Court. [CIT vs. Balbar Singh (Decd.) (1993) 203 ITR 650 (P&H)].

A bank draft voluntarily sent to a banker for realization is not an asset in custody. Thus, the banker has no control or authority over the draft. It only accepts the instrument for a limited purpose. When it is in the custody of the banker, the banker retains it on behalf of the customer. The banker cannot utilise the draft for any purpose other than what has been desired by the customer. The bank draft when presented for clearing by the customer to the bank cannot be said to have been taken into custody by the bank to attract the applicability of section 132A. [Samta Construction Co. vs. Pawan Kumar Sharma, Deputy Director of Income Tax (Investigation) (2000) 244 ITR 845 (MP)].

- (2) Cases when can such power be invoked [Rule 112D]: Powers under section 132A of Income Tax Act, 1961, to requisition books of account, etc. can be invoked by the Director General or Director or the Chief Commissioner or Commissioner, when he, in consequence of information in his possession, has reason to believe that—
 - (a) any person to whom summons u/s 131(1) or a notice u/s 142(1) was issued to produce, or cause to be produced, any books of account or other documents has omitted or failed to produce, or cause to be produced, such books of account or other documents, as required by such

summons or notice and the said books of account or other documents have been taken into custody by any Officer or Authority under any other law for the time being in force; or

- (b) any books of account or other documents will be useful for, or relevant to, any proceeding under the Act and any person to whom a summons or notice as aforesaid has been or might be issued will not, or would not, produce or cause to be produced, such books of account or other documents on the return of such books of account or other documents by any Officer or Authority by whom or which such books of account or other documents have been taken into custody under any other law for the time being in force; or
- (c) any assets represent either wholly or partly income or property which has not been, or would not have been disclosed for the purposes of the Act, by any person from whose possession or control such assets have been taken into custody by any Officer or Authority under any other law for the time being in force. [Section 132A(1)].

The Authorised Officer requisitioning the books of account shall make the order of requisition in writing. Such requisition shall be accompanied by a copy of authorisation in Form No. 45C.

Application of seized or requisitioned assets [Section 132B]

- (1) According to section 132B(1) where the assets seized under section 132 or requisitioned under section 132A may be dealt with in the following manner, namely:—

- (i) The amount of any existing liability under this Act, the Wealth Tax Act, 1957 the Expenditure Tax Act, 1987 the Gift Tax Act, 1958 and the Interest Tax Act, 1974, and the amount of the liability determined on completion of the assessment under section 153A or under Chapter XIV-B for the block period (including any penalty levied or interest payable in connection with such assessment) and in respect of which such person is in default or is deemed to be in default, may be recovered out of such assets.

Provided that where the person concerned makes an application to the Assessing Officer within 30 days from the end of the month in which asset was seized, for release of asset and the nature and source of acquisition of any such asset is explained to the satisfaction of the Assessing Officer, the amount of any existing liability referred to in this clause may be recovered out of such asset and the remaining portion, if any, of the asset may be released, with the prior approval of the Chief Commissioner or Commissioner, to the person from whose custody the assets were seized.

Provided further that such asset or any portion thereof as is referred to above shall be released within a period of 120 days from the date on which the last of the authorisations for search u/s 132 or for requisition u/s 132A, as the case may be, was executed.

- (ii) If the assets consist solely of money, or partly of money and partly of other assets, the Assessing Officer may apply such money in the discharge of the liabilities referred to in clause (i) and the assessee shall be discharged of such liability to the extent of the money so applied.
 - (iii) The assets other than money may also be applied for the discharge of any such liability referred to in clause (i) as remains undischarged and for this purpose such assets shall be deemed to be under distraint as if such distraint was effected by the Assessing Officer or, as the case may be, the Tax Recovery Officer under authorisation from the Chief Commissioner or Commissioner u/s 226(5) and the Assessing Officer or, as the case may be, the Tax Recovery Officer may recover the amount of such liabilities by the sale of such assets and such sale shall be effected in the manner laid down in the Third Schedule.
- (2) According to section 132B(3) any assets or proceeds thereof which remain after the liabilities (existing and future) referred to in clause (i) of subsection (1) are discharged, shall be forthwith made over or paid to the persons from whose custody the assets were seized.

Nothing contained in section 132A shall preclude the recovery of the amount of liabilities aforesaid by any other mode laid down in this Act. [Section 132B(2)]

Section 132B(4)(a) of the Income Tax Act, 1961, refers to payment of simple interest on the aggregate amount of money seized under section 132 of the Act. In other words, where the money is seized by the Revenue, it would be obliged to pay interest thereon if the conditions laid down in section 132B are fulfilled but this provision is inapplicable to bullion or jewellery that is so seized. [Puran Mal and Sons and Another vs. Union of India and Others (2009) 313 ITR 347 (Del)].

Section 132B(4) provides that interest at the rate of 1/2% for every month or part of a month shall be paid by Central Government on the aggregate amount of—

- (a) the money seized u/s 132 or requisition u/s 132A as reduced by the amount of money if any released under the above proviso; and
- (b) the proceeds of assets sold towards the discharge of existing liability referred to section 132B(1)(i) which exceeds the aggregate of the amount required to meet the liabilities (both existing and liability determined u/s 153A, including penalty and interest) referred to in section 132B(1)(i).

In other words, the interest will be computed on the following amount—

Amount of money seized under section 132 or requisitioned under section 132A	—
Add: Proceeds of assets sold towards the discharge of existing liabilities referred to in section 132(1)(i)	—
	—
Less: Money released under the first proviso to section 132B(1)(i)	—
Less: Aggregate of the amount required to meet the liability (both existing and liability under section 153A including penalty and interest) referred to in section 132B(1)(i)	—
Amount on which interest payable	—

This interest shall be payable from the expiry of the period of 120 days from the execution of the last of the authorizations for search till the date of completion of assessment under section 153A or block assessment.

For the removal of doubts, Explanation 2 to the section has been inserted by the Finance Act, 2013 so as to clarify that the existing liability does not include advance tax payable in accordance with the provisions of Part C of Chapter XVII.

Procedure for assessment of search cases [Sections 153A, 153B and 153C]

Section 153A(1)(b) provides that notwithstanding anything contained in section 139, section 147, section 148, section 149, section 151 and section 153, in the case of a person where a search is initiated under section 132 or books of account, other documents or any assets are requisitioned under section 132A after 31.5.2003, the Assessing Officer shall assess or reassess the total income of six assessment years immediately preceding the assessment year relevant to the previous year in which such search is conducted or requisition is made.

According to section 153A(1)(a) where a search is initiated u/s 132 or books of account, or other documents or any assets are requisitioned u/s 132A after 31.5.2003, the Assessing Officer shall issue notice to such person requiring him to furnish, within such period as may be specified in the notice, return of income in respect of six assessment years immediately preceding the assessment year relevant to the previous year in which the search was conducted u/s 132 or requisition was made u/s 132A.

Such return of income shall have to be furnished in the prescribed form and verified in the prescribed manner and setting forth such other particulars as may be prescribed. Further, in the case of such return, all the provision of the Act shall, as far as may be, apply accordingly as if such return were a return required to be furnished u/s 139.

Example: Suppose a search is conducted on 15.7.2013. The Assessing Officer shall issue notice to file return of income for six assessment years prior to assessment year 2014-15 (i.e. assessment year relevant to previous year 2013-14 in which search was conducted). Hence the return shall have to be furnished for assessment years 2008-09 to 2013-14.

Although the return u/s 153A has to be filed within the time specified in the notice but no time limit is prescribed for issue of such notice u/s 153A. Notice u/s 153A, can be issued at any time. Such time limit would however, be circumscribed by the limitation period for making an assessment u/s 153B.

Section 153A contemplates issue of notice for 6 years preceding the search but does not contemplate a notice for the year of search or requisition. Therefore, no return is required to be filed for the year of search under section 153A. Regular return for the year of search has to be filed as per the provisions of section 139.

As per proviso 1 to section 153A, the Assessing Officer shall assess or reassess the total income of each of such six assessment years.

Assessment or reassessment, if any, relating to any assessment year falling within the period of six assessment years pending on the date of initiation of the search under section 132 or requisition u/s 132A, as the case may be, shall abate. [Second proviso to section 153A]

The words mentioned here are assessment or reassessment pending on that date shall abate and as such the appeal or revision or rectification if pending on the date of initiation of search u/s 132 or requisition u/s 132A shall not abate.

Where on the date on which the search was initiated, the assessment proceeding was pending on the basis of return furnished by the petitioner and instead of complying with requirement of section 153A regarding issue of notice, the Assessing Officer proceeded with the pending assessment proceedings and passed an assessment order, it was held that entire action of Assessing Officer to proceed with assessment proceedings was a nullity. [Abhay Kumar Shroff vs. CIT (2007) 290 ITR 114 (Jharkhand)].

Issuance of notice under section 153A to file return of income for six assessment years is mandatory for the purpose of making an assessment. Though section 153A refers only to issue of notice, a valid assessment cannot be made unless there is a service of the notice under section 153A.

After the search, the total income of the assessee is to be recomputed on the basis of the undisclosed income unearthed during search and the same is to be added with regular income assessed under section 143(3) or computed under section 143(1) for each of the six preceding assessment years. Where any prepaid taxes are there, the same are required to be given credit for computing the further tax payable by the assessee. Thus, assessments or reassessments which were already completed shall not abate.

Save as otherwise provided in section 153A, section 153B and section 153C, all other provisions of this Act shall apply to the assessment or reassessment made under section 153A and as such the assessee shall be liable to pay tax and interest as per the provisions of section 140A at the time of filing the return under section 153A. He shall also be liable to penalty u/s 271(1)(c) for concealment of income, penalty for non-filing of return u/s 271F and interest under section 234A, 234B and prosecution u/s 276CC and all other provisions of the Act shall also apply in his case.

Since, the return furnished, pursuant to a notice issued u/s 153A, shall be deemed to be governed by the provisions of section 139, this would not only pre-suppose a right to fill a revised return but, it shall be incumbent upon the Assessing Officer to issue notice u/s 143(2) for framing the assessment under section 143(3) or 144 read with section 153A. The notice u/s 143(2) would have to be served within a period of 6 months from the end of the financial year in which the return is filed by the assessee in response to notice under section 153A.

In the assessment or reassessment made in respect of an assessment year under this section, the tax shall be chargeable at the rate or rates as applicable to such assessment year.

Return under section 153A shall be required to be furnished even if:—

- (a) the assessee was not required to furnish the return of any assessment year as it was below taxable limit.
- (b) return has already been filed under section 139/142(1) or 148.
- (c) assessment or reassessment of such assessment year have been already completed.
- (d) assessment or reassessment for any of these years is pending.

No order of assessment or reassessment shall be passed by an Assessing Officer below the rank of Joint Commissioner in respect of each assessment year referred to in section 153A(1)(b) or the assessment year referred to in section 153B(1)(b), except with the prior approval of the Joint Commissioner. [Section 153D]

Section 153B provides the time limit for completion of assessment as follows:

- (a) Time limit of completion of assessment of 6 assessment years [Section 153B(1)(a)]: The Assessing Officer shall make an order of assessment or reassessment in respect of each assessment year, falling within six assessment years under section 153A within a period of 24 months (36 months, in case a reference is made u/s 92CA(1) to TPO) from the end of the financial year in which the last of the authorisations for search u/s 132 or for requisition under section 132A was executed.
- (b) Time limit of completion of assessment year relevant to the previous year in which search is conducted, or requisition is made [Section 153B(1)(b)]: This section also provides that the time-limit for completion of assessment in respect of the assessment year relevant to the previous year in which the search is conducted u/s 132 or requisition is made u/s 132A shall be a period of 24 months [36 months, in case a reference is made u/s 92CA(1) to TPO] from the end of the financial year in which the last of the authorisations for search u/s 132 or for requisition u/s 132A, as the case may be, was executed.

Although the return of income of the previous year in which search was conducted shall be filed as per the normal provisions but the assessment of assessment year relevant to such previous year shall have to be completed within 24 months [36 months, in case a reference is made u/s 92CA(1) to TPO] from the end of the financial year (not the assessment year) in which the search was conducted.

The authorisation of search u/s 132 is executed when the last panchnama is drawn up and in case of requisition u/s 132A, when the books of account or other documents or assets have been actually received by the Authorised Officer.

Time limit for assessment in a post-search case starts from the date of completion of the search, which is understood as the date of which the last panchnama was prepared. But where after this date, a carton found during the search was opened and an inventory was prepared, the date of preparation of such inventory cannot be understood as extending the search, so as to entail longer time limit for completion of the assessment. [CIT vs. Rajhans Aromatics (2011) 336 ITR 68 (Del)].

- (c) Time limit for completion of assessment of other person referred to in section 153C [Proviso to section 153B(1)]: In case of such other person, the time limit for making assessment or reassessment of total income of the assessment years referred to in clause (a) i.e. block period of six assessment years and clause (b) i.e. assessment year of search of the said sub-section, shall be the either:
 - (i) 24 months [36 months, in case a reference is made u/s 92CA(1) to TPO] from the end of the financial year in which the last of authorisations for search u/s 132 or for requisition u/s 132A was executed; or
 - (ii) 12 months [24 months, in case a reference is made u/s 92CA(1) to TPO] from the end of the financial year in which books of account or documents or assets seized or requisitioned are handed over under section 153C to the Assessing Officer having jurisdiction over such other person,

whichever is later.

Example: Suppose a search was conducted in case of Aman on 25.7.2013 and was completed (executed) on 5.8.2013. Certain books of account, money, bullion, etc. were proved to belong to Asin which were handed to Assessing Officer of Asin on 28.1.2016. In this case, time limit for making assessment under section 153A in case of Aman and Asin shall be as under:

In case of Aman

- (1) For assessment years 2008-09 to 2012-13 — The assessment or re-assessment will have to be completed under section 153A by 31.12.2015 (i.e. 21 months after the end of the financial year 2013-14 in which search was executed).
- (2) For assessment year 2013-14 — The assessment or re-assessment will have to be completed u/s 153A by 31.03.2016 (i.e. 24 months after the end of the financial year 2013-14 in which search was executed).
- (3) For assessment year 2014-15 — Regular assessment under section 143(3) or 144 will have to be completed by 31.03.2016 (i.e. 24 months after the end of the relevant financial year in which search was executed).

In case of Asin

- (1) For assessment 2008-09 to 2012-13 — The assessment or re-assessment shall have to be completed u/s 153A by 31.12.2015 or 31.12.2016 (i.e. 9 months from the end of the financial year in which books of account documents or assets seized were handed over to jurisdictional Assessing Officer under section 153C) whichever is later i.e. upto 31.12.2016.
- (2) For assessment year 2013-14 — The assessment or re-assessment will have to be completed u/s 153A by 31.03.2016 or 31.03.2017 (i.e. 12 months after from the end of the financial year in which books of account documents or assets seized were handed over to the jurisdiction Assessing Officer u/s 153C) whichever is later i.e. 31.03.2017.
- (3) For assessment year 2014-15 — assessment or reassessment u/s 153A will have to be completed by 31.03.2016 or 31.03.2017 whichever is later i.e. it should be completed upto 31.03.2017.

However, in computing the period of limitation for the purposes of this section the following period shall be excluded:

- (i) the time taken in reopening the whole or any part of the proceeding or in giving an opportunity to the assessee to be reheard under the proviso to section 129 relating to change of incumbent of an office, or
- (ii) the period during which the assessment proceeding is stayed by an order or injunction of any court, or
- (iii) the period commencing from the date on which the Assessing Officer directs the assessee to get his accounts audited u/s 142(2A) and ending with the last date on which the assessee is required to furnish a report of such audit under that sub-section, or
- (iv) in a case where an application made before the Income Tax Settlement Commission u/s 245C is rejected by it or is not allowed to be proceeded with by it, the period commencing from the date on which such application is made and ending with the date on which the order u/s 245D(1) is received by the Commissioner, or
- (v) the period commencing from the date on which an application is made before the Authority for Advance Ruling under section 245Q(1) and ending with the date on which the order rejecting the application is received by the Commissioner u/s 245R(3), or
- (vi) the period commencing from the date on which an application is made before the Authority for Advance Rulings under section 245Q(1) and ending with the date on which the advance ruling pronounced by it is received by the Commissioner u/s 245R(7), or

- (vii) the period commencing from the date of annulment of a proceeding or order of assessment or reassessment referred to in section 153A(2) till the date of the receipt of the order setting aside the order of such annulment, by the Commissioner, or
- (viii) the period commencing from the date on which a reference for exchange of information is made by an authority competent under an agreement referred to in section 90 or section 90A and ending with the date on which the information so requested is received by the Commissioner or a period of six months, whichever is less.

If, after the exclusion of the aforesaid period, the period of limitation available to the Assessing Officer for making an order of assessment or reassessment, as the case may be, is less than sixty days, such remaining period shall be extended to sixty days and the period of limitation shall be deemed to be extended accordingly.

According to section 153C where an Assessing Officer is satisfied that any money, bullion, jewellery or other valuable article or thing or books of account or documents seized or requisitioned belong or belongs to a person other than the person referred to in section 153A, then the books of account, or documents or assets seized or requisitioned shall be handed over to the Assessing Officer having jurisdiction over such other person and that Assessing Officer shall proceed against such other person and issue such other person notice and assess or reassess income of such other person in accordance with the provisions of section 153A.

The disadvantage of section 153C is that once the documents, asset, etc. is handed over to the Assessing Officer of the other person, the provisions of section 153A are made applicable and therefore, even if the asset, etc. is recorded and disclosed to the Department by such other person, the assessment may have to be framed for all the 6 assessment years.

Amendment of section 153C: Under the existing provisions of section 153A(1), where the Assessing Officer is satisfied that books of account or documents or assets seized u/s 132 or requisitioned u/s 132A belong to a person other than a person in whose case search u/s 132 or requisition u/s 132A was made, he shall handover the same to the Assessing Officer having jurisdiction over such other person and that Assessing Officer shall proceed against such other person u/s 153A(1). Second proviso to section 153A(1) provides that assessment or reassessment, if any, relating to any assessment year falling within the period of six assessment years referred to in the said section pending on the date of initiation of the search u/s 132 or on the date of making of requisition under section 132A, as the case may be, shall abate.

The above second proviso for the purpose of other person has been amended by inserting a proviso to section 153C(1) so as to provide that in case of such other person, the reference to the date of initiation of the search u/s 132 or making of requisition u/s 132A in the second proviso to section 153A(1) shall be construed as reference to the date of receiving the books of account or documents or assets seized or requisitioned by the Assessing Officer having the jurisdiction over such other person.

Thus, in this case if the search on A is conducted on 5.8.2013 and books of documents, assets belonging to B were handed over to Assessing Officer of B on 28.1.2016, the period of abatement of pending assessment or reassessment in case of A and B shall be as under:

In case of A — Assessment/re-assessment pending on 5.8.2013 for assessment years 2008-09 to assessment year 2013-14 shall abate i.e. come to an end.

In case of B — Assessment/re-assessment pending on 28.1.2016 shall abate i.e. came to an end. Hence, till a date prior to 28.1.2016 the Assessing Officer of A shall not be debarred from making assessment of assessment years 2008-09 to 2013-14 under section 143(3), 144 or 147.

In case of other person, the assessment of assessment year relevant to previous year in which search was conducted shall also be done under section 153A read with section 153C.

Section 153C(2) provides that in respect of the assessment year relevant to the previous year in which search is conducted u/s 132 or requisition is made u/s 132A, in case of other person, where—

- (a) no return of income has been furnished by such person and no notice u/s 142(1) has been issued to him, or

- (b) a return of income has been furnished by such person but no notice u/s 143(2) has been served and limitation of serving the notice u/s 143(2) has expired, or
- (c) assessment or reassessment, if any, has been made, before the date of receiving of books of account or documents or assets seized or requisitioned by the Assessing Officer having jurisdiction over such other person,

such Assessing Officer shall issue the notice and assess or re-assess total income of such other person for such assessment year in the manner provided in section 153A(1).

The provisions of the new section 153C(2) would apply where books of account or documents or assets seized or requisitioned referred to in section 153C(1) has been received by the Assessing Officer having jurisdiction over such other person after the due date for furnishing the return of income for the assessment year relevant to the previous year in which search is conducted u/s 132 or requisition is made u/s 132A.

The above amendment has been made only in respect of assessment year relevant to the previous year in which search is conducted. In this case, the assessment/reassessment of such assessment year shall be made in the manner provided u/s 153A and not u/s 143/144/147 provided both the following conditions are satisfied:

- (i) The books of accounts, documents, assets, etc. are received by the Jurisdictional Officer after due date of filing the return of income of the relevant assessment year, and
- (ii) Any of the conditions mentioned in clause (a) or (b) or (c) is satisfied.

Case Laws

- (1) Notice u/s 153C can be issued only where the money, bullion, jewellery or other valuable article or thing or books of account or documents seized or requisitioned actually belong to assessee. Notice issued on the basis of loose papers which bear the name of assessee actually not belong to assessee was without jurisdiction. [Vijaybhai N. Chandrani vs. ACIT (2010) 38 DTR 225/231 CTR 474 (Guj)].
- (2) The provisions of sections 153A and 153C are constitutionally valid in as much as the deal with two categories of persons whose books of account assets, etc. have been seized or requisitioned though from different locations. Further, principles of natural justice are incorporated in section 153C as it provides for issuing a notice for the purpose of assessee his income. [Saraya Industries Ltd. vs. Union of India (2008) 171 Taxman 194 (Del)].
- (3) For purpose of attracting section 153C, the document seized must not only be a 'speaking one', but also prima facie 'incriminating one'. The documents cannot be said "incriminating one", merely because it contains the noting of entries which are already recorded in books of accounts or is subjected to scrutiny of Assessing officer in the past in regular assessment u/s. 143(3) of the Act. [Sinhgad Technical Education Society vs. ACIT (Pune)(Trib)]

According to section 246A an appeal against the order of assessment or reassessment u/s 153A shall lie with the Commissioner of Income Tax (Appeals).

An appeal before the Tribunal [or even before the Commissioner (Appeal)] does not take within its fold, questions touching the validity of the search. It is only the assessment proceedings u/s 158BC (now section 153A) that can be challenged in appeal. The satisfaction of the conditions precedent for a search, detailed in section 132(1)(a), (b) or (c) are beyond the scope of assessment proceedings. The validity of search may be questioned only in writ proceedings. [M.B. Lai vs. CIT (2005) 279 ITR 298 (Del)].

The assessee in case of assessment of search and seizure cases shall be liable for penalty u/s 271(1)(c) for concealment of income—

- (A) Explanation 5A to section 271: Explanation 5A shall be applicable where the due date of filing of return of income of the previous year to which the undisclosed income belongs has expired and the assessee has/has not filed the return of income of that previous year before the search is initiated.

Where in the course of a search initiated under section 132 on or after 1.6.2007, the assessee is found to be the owner of,—

- (i) any money, bullion, jewellery or other valuable article or thing (hereinafter in this Explanation referred to as assets) and the assessee claims that such assets have been acquired by him by utilizing (wholly or in part) his income for any previous year; or
- (ii) any income based on any entry in any books of account or other documents or transactions and he claims that such entry in the books of account or other documents or transactions represents his income (wholly or in part) for any previous year,

which has ended before the date of the search and the due date for filing the return of income for such year has expired and the assessee has not filed the return, then, notwithstanding that such income is declared by him in any return of income furnished on or after the date of the search, he shall, for the purposes of imposition of a penalty under section 271(1)(c) of this section, be deemed to have concealed the particulars of his income or furnished inaccurate particulars of such income.

Explanation 5A is also applicable for search initiated u/s 132 on or after 1.6.2007. It is not applicable for requisition of books of account under section 132A.

(B) Penalty under section 271AAA:

- (a) Penalty @ 10% of the undisclosed income [Section 271AAA(1)]: The Assessing Officer may, notwithstanding anything contained in any other provisions of this Act, direct that, in a case where search has been initiated u/s 132 on or after 1.6.2007, the assessee shall pay by way of penalty, in addition to tax, if any, payable by him, a sum computed at the rate of 10% of the undisclosed income of the specified previous year.
- (b) Penalty under section 271AAA shall not be levied in the following case [Section 271AAA(2)]: Where the assessee,—
 - (i) in the course of the search, in a statement u/s 132(4), admits the undisclosed income and specifies the manner in which such income has been derived;
 - (ii) substantiates the manner in which the undisclosed income was derived; and
 - (iii) pays the tax, together with interest, if any, in respect of the undisclosed income the penalty u/s 271AAA shall not be levied.
- (c) Penalty under section 271(1)(c) shall not be levied in this case [Section 271AAA(3)]: No penalty under the provisions of section 271(1)(c) shall be imposed upto the assessee in respect of the undisclosed income referred to in section 271AAA(1).

The provisions of sections 274 and 275 shall, so far as may be, apply in relation to the penalty referred to in this section (i.e. section 271AAA).

Penalty under section 271AAA is applicable for search initiated u/s 132 on or after 1.6.2007. It is not applicable for requisition of books of account u/s 132A. In case of section 132A penalty shall be leviable u/s 271(1)(c).

Section 153A(2) provides that if any proceeding initiated or any order of assessment or reassessment made u/s 153A(1) has been annulled in appeal or any other legal proceeding, then, notwithstanding anything contained in section 153(1), the assessment or reassessment relating to any assessment year which has abated, shall stand revived with effect from the date of receipt of the order of such annulment by the Commissioner.

Further, as per section 153(4), if such assessment/reassessment, which was abated earlier, stands revived, the time limit for making such assessment/reassessment shall be—

- (i) one year from the end of the month in which revival order is received by the CIT or
- (ii) the time prescribed under section 153 or 153B

whichever is later.

However, such revival shall cease to have effect, if such order of annulment is set aside.

Example: Suppose search is conducted on 5.7.2013 and is completed on 15.7.2013.

In this case, assessment of assessment years 2008-09 to assessment year 2013-14 shall be made u/s 153A.

Suppose for assessment year 2009-10, the notice under section 148 was issued which was served on 3.4.2013 and the reassessment under section 147 of the same is pending on 5.7.2013.

Further, suppose for assessment year 2011-12, the assessment under section 143(3) is pending on 5.7.2013.

In the above cases, the assessment of assessment year 2009-10 and assessment year 2011-12 which were pending on 5.7.2013 shall abate i.e. come to end.

Let us assume the Assessing Officer made assessment/reassessment under section 153A for assessment years 2008-09 to 2013-14.

The assessee filed appeal against the said assessment orders made under section 153A.

Let us assume that ITAT on 15.10.2018, annulled the assessment/reassessment made u/s 153A for assessment years 2008-09 to 2013-14.

Since the assessment/reassessment orders passed under section 153A for the assessment year 2008-09 to assessment year 2013-14 were annulled, the reassessment of the assessment year 2009-10 which was abated shall stand revived on the receipt of order by CIT. Similarly, the assessment proceeding of assessment year 2011-12 abated earlier shall also stand revived.

The above assessments as per section 153(4) should be completed by Assessing Officer within one year from the end of month in which revival order is received by CIT.

However, if the High Court set aside the order of annulment, then revived proceeding of assessment year 2009-10 and assessment year 2011-12 shall cease to have effect as the assessment made under section 153A will become valid.

Procedure for assessment of search cases not applicable to survey cases

The procedure as laid down under section 153A-153C/158BC is to be followed in a case where any search has been conducted u/s 132 or where section 132A has been invoked to requisition books of account, documents or assets. This procedure will not apply to any case where no such action u/s 132 or 132A has been taken. Specifically in any case where a survey has been done under powers exercised u/s 133A, this procedure u/s 153A-153C/158BC is not applicable.

12.2 SURVEY

'Survey' contemplates a comprehensive and extensive view of the business activities of an assessee, subject to the limitations laid down in the Income Tax Act.

The survey is conducted by the Income Tax Department to achieve the following 3 objects:

- (1) To bring those into tax net who have taxable income but are not filing returns of income.
- (2) To do a surprise check whether books of accounts are maintained properly, regularly, and correctly.
- (3) To call and to collect information during survey proceedings as may be relevant to the assessment/re-assessment.

The survey can be of two types:

- (a) Specific survey of business premises [Section 133A(1) to (4)].
- (b) Survey in connection with functions, etc. [Section 133A(5)]

Besides the above, another type of survey called door to door survey is also done under section 133B to collect certain information.

Specific survey to business premises [Section 133A (1) to (4)]

The survey of the business premises can be conducted by any Income Tax Authority.

According to Explanation (a) to section 133A Income Tax Authority means a Commissioner, a Joint Commissioner, a Director, a Joint Director, an Assistant Director or a Deputy Director or an Assessing Officer, or a Tax Recovery Officer, and for the purposes of *clause (i) of sub-section (1)*, *clause (i) of sub-section (3)* and *sub-section (5)*, includes an Inspector of Income Tax.

No action under section 133A(1) shall be taken by an Assistant Director or a Deputy Director or an Assessing Officer or a Tax Recovery Officer or an Inspector of Income Tax without obtaining the approval of the Joint Director or the Joint Commissioner, as the case may be.

The Inspector conducting survey even if so authorized by any such other authority specified under this section cannot exercise all the rights and powers conferred on higher authorities. His power is limited to the inspection of books of account or other documents as may be available at the place visited by him. He is entitled to place identification marks on the books of account or other documents inspected by him and is also entitled to make extracts there from. He, however, has no power to verify cash, stock or other valuables or articles. He neither has a right to issue summons to elicit any further information nor a right to record a statement. It is hence necessary to verify the identity card and the status of the official who has visited the premises. [Kamal & Co. vs. ACIT (1999) 104 Taxman (Mag) 79].

Material collected during illegal survey by inspector who was not authorized to verify the inventory, can be used by Assessing Officer for making additions. [CIT vs. Kamal & Co (2009) 308 ITR 129 (Raj)].

It may be clarified that if an inspector visits the premises as an assistant to or a subordinate of a higher authority who has accompanied him, he can certainly perform the verification of stock, cash and valuable articles or things as an assistant of the higher authority.

According to section 133A(1), Notwithstanding anything contained in any other provision of this Act, an Income Tax Authority may enter

- (a) any place within the limits of the area assigned to him, or
- (b) any place occupied by any person in respect of whom he exercises jurisdiction, or
- (c) any place in respect of which he is authorised for the purposes of this section by such Income Tax Authority, who is assigned the area within which such place is situated or who exercises jurisdiction in respect of any person occupying such place,

at which a business or profession is carried on, whether such place be the principal place or not of such business or profession.

The Income Tax Authority who has entered the premises, where the business or profession is carried on, may require any proprietor, employee or any other person who may at that time and place be attending in any manner to, or helping in, the carrying on of such business or profession

- (i) to afford him the necessary facility to inspect such books of account or other documents as he may require and which may be available at such place,
- (ii) to afford him the necessary facility to check or verify the cash, stock or other valuable article or thing which may be found therein, and
- (iii) to furnish such information as he may require as to any matter which may be useful for, or relevant to, any proceeding under this Act.

For the purposes of this sub-section, a place where a business or procession is carried on shall also include any other place, whether any business or profession is carried on therein or not, in which the person carrying on the business or profession states that any of his books of account or other documents or any part of his cash or stock or other valuable article or thing relating to his business or profession are or is kept.

Section 133A(2) provides that an Income Tax Authority may enter:

- (a) any place of business or profession referred to in section 133A(1) only during the hours at which such place is open for the conduct of business or profession and,

(b) any other place, only after sunrise and before sunset.

The object of survey is not the same as that of search or seizure u/s 132 of the Act. This section empowers the Income Tax Authority to enter only a place at which a business or profession is carried on by the assessee, he cannot enter the residential premises of the assessee or the premises of the lawyer or chartered accountant of the assessee. [Board Circular No. 7-D (LXIII 7) of 1967, dated 3.5.1967].

The entry into the business premises must be during business hours but survey operation can continued after business hours. [N.K. Mohnot vs. DCIT (1995) 215 ITR 275 (Mad) affirmed in (1999) 240 ITR 5621.]

Section 133A(3) provides that an Income Tax Authority acting under this section may,

- (a) if he so deems necessary, place marks of identification on the books of account or other documents inspected by him and make or cause to be made extracts or copies therefrom,
- (b) impound and retain in his custody for such period as he thinks fit any books of account or other documents inspected by him:

However, such Income Tax Authority shall not :-

- (i) impound any books of account or other documents except after recording his reasons for so doing; or
 - (ii) retain in his custody any such books of account or other documents for a period exceeding ten days (exclusive of holidays) without obtaining the approval of the Chief Commissioner or Director General therefor, as the case may be,
- (c) make an inventory of any cash, stock or other valuable article or thing checked or verified by him,
 - (d) record the statement of any person which may be useful for, or relevant to, any proceeding under this Act.

Case Laws:

- (1) Whatever statement is recorded under section 133A is not given any evidentiary value obviously for the reason that the officer is not authorized to administer oath and to take any sworn statement which alone has evidentiary value as contemplated under law. [CIT vs. Khader Khan Son (2008) 300 ITR 157 (Mad)].
- (2) Confession made during survey is not conclusive and can be retracted. [CIT vs. Dhingra Metal Works (Delhi High Court)]
- (3) Confession made during survey cannot be the sole basis for making an addition, without considering the explanation of assessee. [Bubulal Gangwal, Jaipur vs. Addl. CIT (2010) Tax World December, 10 Vol. XLIV, Part-6, P. No. 222].
- (4) Section 133A enables the Income Tax Authority only to record any statement of any person which may be useful but does not authorise for taking any sworn-in statement. On the other hand, such power to examine a person on oath is specifically conferred on the authorised officer only u/s 132(4) in the course of any search or seizure. Thus, the Act whenever it thought fit and necessary to confer such power to examine a person on oath, the same has been expressly provided whereas section 133A does not empower any ITO to examine any person on oath. In contradistinction to the power u/s 133A, section 132(4) enables the authorised officer to examine a person on oath and any statement made by such person during such examination can also be used in evidence under the Act. On the other hand, whatever statement recorded under section 133A is not given any evidentiary value obviously for the reason that the officer is authorised to administer oath and to take any sworn in statement which alone has the evidentiary value as contemplated in the law. [Paul Mathew & Sons vs. CIT (2003) 129 Taxman 416 (Ker)].

Section 133A(4) provides that an Income Tax Authority acting under this section shall, on no account, remove or cause to be removed from the place wherein he has entered, any cash, stock or other valuable article or thing.

Survey in connection with any function, etc. [Section 133A(5)]

Where, having regard to the nature and scale of expenditure incurred by an assessee, in connection with any function, ceremony or event, the Income Tax Authority is of the opinion that it is necessary or expedient so to do, he may, at any time after such function, ceremony or event, require the assessee by whom such expenditure has been incurred or any person who, in the opinion of the Income Tax Authority, is likely to possess information as respects the expenditure incurred, to furnish such information as he may require as to any matter which may be useful for, or relevant to, any proceeding under this Act and may have the statements of the assessee or any other person recorded and any statement so recorded may thereafter be used in evidence in any proceeding under this Act.

Consequences if facilities are not provided [Section 133A(6)]

According to section 133A(6) if a person under this section is required to afford facility to the Income Tax Authority to inspect books of account or other documents or to check or verify any cash, stock or other valuable article or thing or to furnish any information or to have his statement recorded either refuses or evades to do so, the Income Tax Authority shall have all the powers under section 131(1) for enforcing compliance with the requirement made.

Further, the visiting officer may approach the higher authority with a view to obtaining a proper warrant of authorisation to convert the survey action into a search and seizure action and the higher authority will be justified in issuing warrant of authorisation for a full scale raid action on the basis of first hand details and information given by the survey party.

As per section 292C where any books of account, other documents, money, bullion, jewellery or other valuable article or thing are or is found in the possession or control of any person in the course of a search under section 132 or survey under section 133A, it may, in any proceeding under this Act, be presumed--

- (i) that such books of account, other documents, money, bullion, jewellery or other valuable article or thing belong or belongs to such person;
- (ii) that the contents of such books of account and other documents are true; and
- (iii) that the signature and every other part of such books of account and other documents which purport to be in the handwriting of any particular person or which may reasonably be assumed to have been signed by, or to be in the handwriting of, any particular person, are in that person's handwriting, and in the case of a document stamped, executed or attested, that it was duly stamped and executed or attested by the person by whom it purports to have been so executed or attested.

Where any books of account, other documents or assets have been delivered to the requisitioning officer in accordance with the provisions of section 132A, then, the above provisions shall apply as if such books of account, other documents or assets which had been taken into custody from the person referred to in section 132A(1)(a), (b) or (c), had been found in the possession or control of that person in the course of a search u/s 132.

The above presumption can be made for any proceeding under the Act relating to assessment of search conducted under section 132 or books of account and other document requisitioned under section 132A or survey conducted under section 133A.

Assessee disclosed an amount of ₹25 lakhs vide letter dated 11-2-2005, which was submitted after two months from the date of survey in the light of various documents and papers found at the time of survey. In the return of income, the said amount was not disclosed. The Assessing Officer rejected the book results and made addition of ₹25 lakhs. The Tribunal also confirmed the addition on the ground that it was not a case of the assessee that the assessee has wrongly understood the contents of the documents, burden on assessee to explain the contents of the documents as the assessee has not discharged the burden addition was justified. [Seasons Catering Services (P) Ltd. vs. Dy. CIT (2010) 127 ITD 50 (Del)]

Study Note - 13

CLUBBING OF INCOME

This Study Note includes

13.1 Clubbing of Income

13.1 CLUBBING OF INCOME

Certain provisions are included in the act as anti tax avoidance measures. Provisions for inclusion in assessee's income, income of some other person, which is not at arm's length, are a kind of such provisions. Such provisions arrest tax leakage likely to result from certain transactions with relatives or diversion of title without losing control over the same, etc.

ENCOMPASS OF CLUBBING PROVISIONS

1	Clubbing of income where control over assets or income is retained while title is transferred	Sections 60, 61, 64(1)(iv),(vi),(vii),(viii)
2	Clubbing of income of relatives under certain circumstances.	Sections 64(ii)
3	Clubbing of income of minor child	Section 64(1A)

TRANSFER OF ASSETS [Sec. 60]

Where any person transfers income without transferring the ownership of the asset, such income is taxable in the hands of the transferor. Such transfer may be revocable or irrevocable. The provision applies irrespective of the time when the transfer has been made i.e. it may be before or after the commencement of the Income-tax Act.

REVOCABLE TRANSFER OF ASSETS [Sec. 61]

Any income arising to any person by virtue of revocable transfer of assets is chargeable to tax as the income of transferor. For this purpose, transfer may include any settlement or agreement.

The transfer is said to be revocable if it contains any provision for the re-transfer of the whole or any part of the income or assets to the transferor or a right to re-assume power over the whole or any part of the income or assets.

If any settlement contains a clause for forfeiture of rights of beneficiaries under certain circumstances, the settlement will be regarded as revocable – CIT vs. Bhubaneshwar Kuer 53 ITR 195 (SC).

IRREVOCABLE TRANSFER OF ASSETS FOR SPECIFIED PERIOD [Sec. 62]

- (1) The provisions of Section 61 shall not apply to any income arising to any person by virtue of a transfer—
 - (i) by way of trust which is not revocable during the lifetime of the beneficiary, and, in the case of any other transfer, which is not revocable during the lifetime of the transferee ; or
 - (ii) made before the 1st day of April, 1961, which is not revocable for a period exceeding six years. Provided that the transferor derives no direct or indirect benefit from such income in either case.

- (2) Notwithstanding anything contained in Sub-section (1), all income arising to any person by virtue of any such transfer shall be chargeable to Income-tax as the income of the transferor as and when the power to revoke the transfer arises, and shall then be included in his total income.

TRANSFER AND REVOCABLE TRANSFER DEFINED UNDER SECTION 63

For the purposes of sections 60, 61 and 62 and of this section,—

- (a) A transfer shall be deemed to be revocable if—
- (i) it contains any provision for the re-transfer directly or indirectly of the whole or any part of the income or assets to the transferor, or
 - (ii) it, in any way, gives the transferor a right to re-assume power directly or indirectly over the whole or any part of the income or assets ;
- (b) "Transfer" includes any settlement, trust, covenant, agreement or arrangement.

REMUNERATION OF SPOUSE [Sec. 64(1)(ii)]

An individual assessee is chargeable to tax in respect of any remuneration received by the spouse from a concern in which the individual has substantial interest. However, remuneration, which is solely attributable to technical or professional knowledge and experience of the spouse, will not be clubbed. Where both the spouses have a substantial interest in the concern and both are in receipt of the remuneration for such concern, such remuneration will be included in the total income of the husband or wife whose total income excluding such remuneration is greater.

The individual is deemed to have substantial interest, if the beneficiary holds equity share carrying not less than 20% voting power in the case of a company or is entitled to not less than 20% of the profits, in any other concern, not being a company at any time during the Previous Year.

The words technical or professional qualification occurring in the first part of the proviso of the section 64(1)(ii) of the Income Tax Act, 1961, do not necessarily relate to technical or professional qualifications acquired by obtaining a certificate, diploma or a degree or in any other form from a recognized body like university or an institute. The intention of the legislature is clear from the use of the expression knowledge and experience in the latter part of the proviso, as otherwise it would have been permissible for the Legislature to use the same expression as occurring in the first part of the proviso to section 64(1)(ii). A harmonious construction of the two parts of the proviso shows that if a person possesses technical or professional knowledge and the income is solely attributable to the application of such technical or professional knowledge and experience, the requirements for the application of the proviso is satisfied, although the person concerned may not possess any qualification issued by a recognized body [Batta Kalyani vs. CIT (1985) 154 ITR 59 (AP)].

Where the spouse was drawing salary as nurse-cum-supervisor from a nursing home in which her husband was a partner, although she was B.Sc. in Bio-science but did not possess any professional or basic qualification as nurse from any recognized Institute, it was held that in view of the nature of employment of the spouse, a degree, a certificate or diploma in some cases may be insisted upon [CIT vs. Pratima Saha (Smt.) (1999) 239 ITR 570 (Gau)].

In CIT vs. Rajagopal (D.) (1985) 154 ITR 375 (Karn), the assessee was getting salary as managing director of a firm. His wife became a partner of that firm subsequently. It was found by the Tribunal that the assessee was only a graduate and did not possess any technical or professional qualification within the meaning of the proviso to section 64(1)(ii). It was held that the salary of the assessee was to be included in the hands of his wife who was a partner of that firm having substantial interest therein. But, in CIT vs. Sarabji Dorabji (1987) 168 ITR 598 (Ker), the Tribunal recorded a finding that the assessee-wife has acquired sufficient professional experience by virtue of her experience as a director for a large number of years. Such finding being one of the fact, was sufficient to hold that the salary received by the assessee-wife could not be included in the income of her husband by virtue of the provisions of Sec.64(1)(ii).

In CIT vs. Madhubala Shrenik Kumar (1990) 181 ITR 180 (MP), it was found by the Tribunal that the husband of the assessee had requisite experience as a salesman, that the firm, wherein the assessee-wife was a partner, was entirely dependent upon the salesmanship of the husband of the assessee as the firm had not employed any other salesman and that the amount of salary paid to the husband of the assessee by the firm was for his professional experience which was utilized by the firm in the conduct of the business of the firm. In view of these findings, it was held that the conditions requisite for the applicability of the proviso to section 64(1)(ii) are satisfied and the remuneration paid to the husband of the assessee could not be clubbed with the income of the assessee-wife.

Where the assessee (the wife) having previous experience as managing director as also requisite professional experience, is functioning as managing director of a company where her husband and the HUF to which she belonged were the majority shareholders, it was held that the case did not fall within the ambit of section 64(1)(ii). Remuneration was received by her by virtue of her professional experience and therefore, the same should be taxed in her hands separately. [Ashaben Rohitbhai vs. CIT (1999) 103 Taxman 296 (Guj)].

The Assessing Officer added salary paid to the wife out of husband's income from scooter agency as husband's income. It was held that such clubbing was not required since the wife held a degree in M.A. Economics [CIT vs. Major B.K.Kaul (2004) 136 Taxman 411 (All)].

INCOME FROM ASSETS TO SPOUSE [Sec. 64(1)(iv)]

Where an asset (other than house property) is transferred by an individual to his or her spouse directly or indirectly otherwise than for adequate consideration or in connection with an agreement to live apart any income from such asset will be deemed to be the income of transferor.

However, this section is not applicable in the following cases—

- (a) if assets are transferred before marriage.
- (b) if assets are transferred for adequate consideration.
- (c) if assets are transferred in connection with an agreement to live apart.
- (d) if on the date of accrual of income, the transferee is not spouse of the transferor.
- (e) if property is transferred by the Karta of HUF, gifting co-parcenary property to his wife.
- (f) the property is acquired by the spouse out of the pin money (i.e., an allowance given to the wife by her husband for her dress and usual household expenses).

INCOME FROM ASSETS TRANSFERRED TO SON'S WIFE OR MINOR CHILD [Sec. 64(1)(vi)]

If an individual directly or indirectly transfers the assets after 1.6.73 without adequate consideration to son's wife or son's minor child (including son's minor step child or son's minor adopted child), income arising from such assets will be included in the total income of the transferor from the Assessment Year 1976-77 onwards.

INCOME FROM ASSETS TRANSFERRED TO A PERSON FOR THE BENEFIT OF SPOUSE OR MINOR CHILD [Sec. 64(1)(vii)]

Where an asset is transferred by individual, directly or indirectly, without adequate consideration to a person or persons for the immediate or deferred benefits of his or her spouse or minor child, income arising from the transferred assets will be included in the total income of the transferor to the extent of such benefit. If no income is accrued out of the property transferred by an individual, then nothing will be included in the income of the individual.

INCOME FROM ASSET TRANSFERRED TO A PERSON FOR THE BENEFIT OF SON'S WIFE [Sec. 64 (1)(viii)]

Where an asset is transferred by an individual, directly or indirectly, or after 1.6.73 without adequate consideration to a person or an Association of Persons for the immediate or deferred benefits of son's wife, income arising directly or indirectly from transferred asset will be included in the total income of the transferor to the extent of such benefit with effect from the Assessment Year 1985-86.

INCOME OF MINOR CHILD [Sec. 64(1A)]

In computing the total income of any individual, there shall be included all such income as arises or accrues to his minor child. However, income of the following types will not be included in the total income of the individual where income arises or accrues to the minor child on account of any—

- (a) manual work done by him; or
- (b) activity involving application of his skill, talent or specialised knowledge and experience.

Person in whose hands to be clubbed :

- (i) 1st year : that parent whose income is higher. Subsequent years : the same parent – unless the AO is satisfied that it should be clubbed with the other parent.
- (ii) Where marriage does not subsist, in the hands of the custodian parent.

However, a deduction — Upto ₹ 1,500 per minor child [Sec. 10(32)] shall be allowed against such income which is clubbed in the hands of the parent.

Where the minor child attains majority during the previous year, then the income till date he remained minor in that previous year shall be clubbed in the hands of the parent.

For the purpose of clubbing of minor's income, it is necessary that the amount to be clubbed must satisfy that it is income. Although, amongst the items included as income in section 2(24), agricultural income has not been specified but section 2(24) starts with the words 'income includes' which makes it clear that the definition of income in section 2(24) is not exhaustive. Hence, the fact that agricultural income has not been specified as one of items in section 2(24) does not mean that agricultural income is not included in the word income wherever the word 'income' has been used in the Act. Section 10 makes it clear that agricultural income is income but by express provision therein agricultural income has been excluded from total income of the assessee for the purpose of levy of income-tax.

Section 2 of the relevant Finance Act clearly provides that net agricultural income shall be taken into account in the manner provided therein for the purpose of determining the rate of income tax applicable to the income of the assessee. In view of this, agricultural income of the minor child of an assessee has to be taken into consideration for the purpose of determining that rate of tax that is applicable to his income [*Suresh Chand Talera vs. Union of India* (2006) 282 ITR 341 (MP.)]

CONVERSION OF SELF-ACQUIRED PROPERTY INTO JOINT FAMILY AND SUBSEQUENT PARTITION [Sec. 64(2)]

Where a member of a HUF has converted his self-acquired property into joint family property after 21.12.1969, income arising from the converted property will be dealt with as follows :-

- (i) For the Assessment Year 1976-77 onwards, the entire income from the converted property is taxable as the income of the transferor.
- (ii) If the converted property is subsequently partitioned amongst the members of the family, the income derived from such converted property, as is receivable by the spouse and minor child of the transferor will be taxable in his hands.

INCOME FROM THE ACCRETION TO ASSETS

In the above mentioned cases the income arising to the transferee from the property transferred, is taxable in the hands of the transferor. However, income arising to the transferee from the accretion of such property or from the accumulated income of such property is not includible in the total income of the transferor. Thus, if Mr. A transfers ₹ 60,000 to his wife without any adequate consideration and Mrs. A deposits the money in a bank, the interest received from the bank on such deposits is taxable in the hands of Mr. A. If, however, Mrs. A purchases shares in a company from the accumulated interest, the dividend received by Mrs. A, will be taxable in her hands and will not be clubbed with the income of Mr. A.

As per Explanation 3 to section 64, if the assets transferred directly or indirectly by an individual to his spouse or son's wife (i.e. 'the transferee') are invested by the transferee:

In any business (such investment being not in the nature of contribution of capital as a partner in a firm or, as the case may be, for being admitted to the benefits of the partnership in a firm), that part of the income arising out of the business to the transferee in any previous year, which bears the same proportion to the income of the transferee from the business as the value of the assets aforesaid as on the first day of the previous year bears to the total investment in the business by the transferee as on the said day shall be included in total income of the individual in that previous year.

Amount to be included in the total income can be calculated as under:-

Amount invested by transferee out of assets transferred = [(Income from Business x without adequate consideration as on the first day of the previous year) / Total investment by transferee as on the first day of the previous year]

CLUBBING OF NEGATIVE INCOME [EXPLANATION TO Sec. 64]

The income of a specified person is liable to be included in the total income of the individual in the circumstances mentioned earlier. For the purposes of including income of the specified person in the income of the individual, the word "income" includes a loss.

RECOVERY OF TAX U/S. 60 TO 64 [Sec. 65]

As per incomes belonging to Sec.s 60 to 64 to other persons are included in the total income of the assessee in such cases, by virtue of sec. 65, the actual recipient of income is liable, on the service of notice of demand, to pay the tax assessed in respect of income included in the income of other person (where the Income Tax Officer so desires).

ILLUSTRATIONS ON CLUBBING OF INCOME

Illustration 1.

Mrs.G holds 7% equity shares in B Ltd., where her married sister, Mrs. N also holds 14% equity shares. Mr.G is employed with B Ltd., without holding technical professional qualification. The particulars of their income for the Previous Year 2013-2014 are given as follows:

	Income of Mr G ₹	Income of Mrs G ₹
(i) Gross Salary from B Ltd.	1,02,000	—
(ii) Dividend from B Ltd.	—	6,000
(iii) Income from House Property	90,000	—

Solution :

Computation of Total Income of Mr. G & Mrs. G for the A.Y. 2014-2015

Particulars	Mr. G ₹	Mrs. G ₹
Gross Salary	—	1,02,000
Taxable Salary to be included in the total income of Mrs G [Sec. 64(1)(ii)]		
Add: Income from House Property	90,000	—
Add: Income from Other Sources : Dividends to Mrs G, but exempt under Sec. 10(34)	—	Nil
Total Income	90,000	1,02,000

Note:

1. In the instant case, Mrs. G along with his sister, holds substantial interest in B Ltd. and Mr. G does not hold professional qualification. Accordingly, remuneration of Mr. G has been included in the total income of Mrs. G.
2. If the requisite conditions of clubbing are satisfied, clubbing provision will apply even if their application results into lower incidence of tax.

Illustration 2.

Mrs. C, a law graduate, is legal advisor of L Ltd. She gets salary of ₹ 1,80,000. Mr. C is holding 20% shares in L Ltd. His income from business, during the Previous Year 2013-2014 is ₹ 4,00,000. Compute their Total Income.

Solution :**Computation of Total Income of Mr. C & Mrs. C for the A.Y. 2014-2015**

Particulars	Mr. C ₹	Mrs. C ₹
1. Gross salary	—	1,80,000
2. Business profits	4,00,000	—
Total Income	4,00,000	1,80,000

Note: Since Mrs. C holds professional qualification, salary income is assessable in her hands.

Illustration 3.

Mr. B holds 5% shares in A Ltd., where his brother and nephew hold 11% and 6% shares, respectively. Mrs. B gets commission of ₹ 1,00,000 from A Ltd. for canvassing orders. She holds no technical/professional qualification. Mr. B earns income of ₹ 5,00,000 from sugar business.

Compute their Total Income for the Assessment Year 2014-15.

Solution :**Computation of Total Income for the AY 2014-15**

Particulars of income	Mr. B ₹	Mrs. B ₹
Income from sugar business	5,00,000	—
Commission for canvassing orders from A Ltd.	—	1,00,000
Total Income	5,00,000	1,00,000

Note: In the instant case, Mr. B holds 5% and his brother holds only 11% shares in A Ltd. The total of their shareholding is less than 20%. They have no substantial interest.

Therefore, commission income is assessable as income of Mrs. B.

Illustration 4.

The shareholding of Mr. K and Mrs. K in S Ltd, is given as follows:

(i) Shareholding of K	7%
(ii) Shareholding of Mrs. K	9%
(iii) Shareholding of M, brother of K	8%
(iv) Shareholding of F, father of Mrs. K	5%

Mr. K and Mrs. K are employed with S Ltd. None of them hold technical qualification. Mr. K gets salary @ ₹ 10,000 p.m and Mrs. K gets @ ₹ 12,000 p.m.

Income from Other Sources:	₹
Mr. K	80,000
Mrs. K	1,00,000

Compute total income for the Assessment Year 2014-2015

Solution :

Computation of Total Income for the AY 2013-14

Particulars	Mr. K (₹)	Mrs. K ₹ (₹)
1. Gross Salary	1,20,000	1,44,000
Salary income of Mr. K to be included in the total income of Mrs. K as her Income from Other Sources is greater and both of them have substantial interest along with their relative in S Ltd.		1,20,000
2. Income from Other Sources	80,000	1,00,000
Total Income	80,000	3,64,000

Illustration 5.

Mr. A gifts ₹ 4,00,000 to Mrs. A on 1st February 2014. Mrs. A starts crockery business and invests ₹ 1,00,000 from her account also. She earns profit of ₹ 60,000 during the period ended 31st March 2014. How would you tax the business profits?

Solution:

Proportionate profits, in proportion to the gifted amount from the spouse on the first day of the Previous Year bears to the total investment in the business on the first day of the Previous Year, will be taxable in the income of the transferor spouse.

As Mrs. A has started the new business, the first Previous Year will begin on the date of setting up and will end on 31st March, immediately following. Thus, the first Previous Year will consist a period of 2 months from 1st February 2014 to 31st March, 2014. Therefore, proportionate profit of ₹ 48,000, computed as below, will be included in the income of Mr. A:

$$\frac{4,00,000}{5,00,000} \times 60,000 = 48,000$$

Illustration 6.

Mr. A gifts ₹ 3,00,000 to Mrs. A on 1st February 2014. Mrs. A invests the same in the existing crockery business where she has already invested ₹ 5,00,000. Mrs. A earns ₹ 3,00,000 from the business during the year 2013-2014 ended on 31st March, 2014. How would you assess the profits?

Solution :

The Previous Year of the existing business is April to March. On the first day of the Previous Year (i.e. 1 April 2013), total investment has come from Mrs. A account. As the proportion of the gifted amount from spouse on 1 April 2013 to the total investment in business on the same day is **NIL**, the whole of the profits of ₹ 3,00,000 for the year 2013-2014 will be included in the total income of Mrs A.

From the Previous Year 2014-2015, 60% [i.e. 3,00,000/5,00,000 × 100] of the business profits will be included in the total income of Mr. A.

Illustration 7.

Mrs. Z is the owner of the business units A and B. A unit has been started with capital contribution from Mr. Z and B unit has been started out of capital contribution from Mrs. Z. The particulars of their income for the Previous Year 2013-2014 are as follows:

Particulars	Mrs. Z	Mr. Z
(i) Income from A unit	—	(-) 6,00,000
(ii) Income from B unit	4,00,000	—
(iii) Income from House Property	—	2,50,000

How would you assess them for the Assessment Year 2014-2015?

Solution :

- Mrs. Z is assessable on the profits from B unit. She cannot set-off the loss from A unit against the profits of B unit. Thus, she would be assessed on ₹ 4,00,000.
- The loss from A unit will be included in the total income of Mr Z in view of Sec. 64(1)(iv). "Income" includes "loss" also. Mr Z is entitled to set-off business loss of A's unit against Income from House Property. Thus, loss of ₹ 3,50,000 would be carried forward but could be set-off only against business profits.

Illustration 8.

Mr. Goutam, out of his own funds, had taken a FDR for ₹ 1,00,000 bearing interest @ 10% p.a. payable half-yearly in the name of his wife Latika. The interest earned for the year 2013-2014 of ₹ 10,000, was invested by Mrs. Latika in the business of packed spices which resulted in a net profit of ₹ 55,000 for the year ended 31st March, 2014. How shall the interest on FDR and income from business be taxed for the Assessment Year 2014-2015?

Solution:

Where an individual transfers an asset (excluding house property), directly or indirectly to his/her spouse, otherwise than for adequate consideration, or in connection with an agreement to live apart, income from such asset is included in the total income of such individual [Sec. 64(1)(iv)].

Accordingly, interest on FDR, accruing to wife, is included in the total income of her husband. However, business profits cannot be clubbed with total income of husband. Clubbing applies only to the income from assets transferred without adequate consideration. It does not apply to the income from accretion of the transferred assets. Hence, business profit is taxable as the income of wife.

Illustration 9.

Sawant is a fashion designer having lucrative business. His wife is a model. Sawant pays her a monthly salary of ₹ 20,000. The Assessing Officer, while admitting that the salary is an admissible deduction, in computing the total income of Sawant, had applied the provisions of Sec. 64(1) and had clubbed the income (salary) of his wife in Sawant's hands.

Discuss the correctness of the action of the Assessing Officer.

Solution:

Where an individual has got substantial interest in a concern and his spouse derives any income from such concern by way of salary, commission, fees or by any other mode, such income is clubbed with the total income of such individual [Sec. 64(1)(ii)].

However, clubbing provision does not apply if the earning spouse holds technical or professional qualification and the income is solely attributable to the application of such knowledge and experience.

Salary earned by wife as model from the concern where her husband holds substantial interest is assessable as her income.

Illustration 10.

Discuss whether the loss could be set-off in the following case:

Smt. Vatika carried on business with the gifted funds of her husband Mr. Dabbu. For the Previous Year ending 31.3.2014, Vatika incurred loss of ₹ 5 lakh which Dabbu wants to set-off from his taxable income.

Solution:

Funds for business were gifted by husband to wife. Accordingly, income from business should be clubbed with the income of husband [Sec. 64(1)(iv)].

"Income" includes "loss" also. Hence, husband is entitled to set-off the business loss of wife against his taxable income.

Illustration 11. Is Section 64(1)(vi) applicable, if one individual gifts assets to wife and children of his brother who similarly gifts to the wife and children of the former individual?

Solution: A mutual agreement between the two brothers is inferable, so that it could be treated as indirect transfer as one's own wife and children as decided by the Supreme Court in CIT vs. C.M.Kothari (1963) 49 ITR 107 (SC).

Illustration 12. An assessee in terms of a divorce decree was bound to maintain his minor child. He transfers money to a bank for this purpose. Is clubbing u/s 64 possible?

Solution: From the Assessment Year 1993-94, clubbing of the minor's income in the hands of the parent with the higher income is mandatory. Earlier, what could be clubbed in such parent's hands u/s 64 was only the income from an asset transferred by the parent. Where such transfer to a trust for the benefit of a minor child was consequent on the terms of a divorce decree, income from such transfer could not be treated as transfer by the parent to the child, so as to be covered by section 64 [CIT vs. Behram B. Dubash (2005) 279 ITR 377 (Bom.)]. The reasoning was that the trust was created as a result of legal obligation imposed by the court, so that it could not be treated as transfer within the meaning of section 64, which has to be understood as a voluntary one by the parent to his/her child. But this decision will have no application after provision for automatic aggregation.

Study Note - 14

SET OFF OR CARRY FORWARD AND SET OFF OF LOSSES

This Study Note includes

14.1 Introduction

14.2 Set off of loss in the Same Year

14.3 Carry forward and set off of loss in Subsequent Year

14.1 INTRODUCTION

If income is one side of the coin, loss is the other side. When a person earns income, he pays tax. However, when he sustains loss, law affords him to have benefit in the form of reducing the said loss from income earned during the subsequent years. Thus, tax liability is reduced at a later date, if loss is sustained. Certain provisions govern the process of carry forward and set off of loss.

This will be discussed on :

1. Set off of Loss in the Same Year
2. Carry forward and Set off of Loss in Subsequent Years
 - (i) Basic Conditions for carry forward of loss.
 - (ii) Conditions applicable to each Head of Income

As stated in Section 14 of the Act computation of total income is made under certain heads viz. (i) Salaries (ii) Income from House Property (iii) Profits and Gains of Business or Profession (iv) Capital Gains and (v) Income from Other Sources.

In case computation results in to a positive figure, it is "Income." Likewise, if the computation results into a negative figure, it is 'Loss'. Therefore, there cannot be loss from the head 'Salary'. Loss can occur from all the remaining heads.

14.2 SET OFF OF LOSS IN THE SAME YEAR

For the purpose of computing total income and charging tax thereon, income from various sources is classified under the following heads :

- A. Salaries
- B. House Property
- C. Profits and Gains of Business or Profession
- D. Capital Gains
- E. Other Sources

These five heads of income are mutually exclusive. If any income falls under one head, it cannot be considered under any other head. Income under each head has to be computed as per provisions under that head. Then, subject to provisions of Set off of Losses (Sec. 70 to Sec. 80) between the heads of income, the income under various heads has to be added to arrive at a Gross Total Income. From this Gross Total Income, deductions under Chapter VIA are to be allowed to arrive at the total income.

In this part, the provisions relating to set off, carry forward and set off of losses are categorised as under:

Set off of losses within the same head [Section 70]

Where the net result for any Assessment Year in respect of any source falling under any head of income is a loss, the assessee shall be entitled to have the amount of such loss set off against his income from any other source under the same head of income for the Assessment Year.

- (1) Where the result of the computation made for any Assessment Year under sections 48 to 55 in respect of any short-term capital asset is a loss, the assessee shall be entitled to have the amount of such loss set off against the income, if any, as arrived at under a similar computation made for the Assessment Year in respect of any other capital asset.
- (2) Where the result of the computation made for any Assessment Year under sections 48 to 55 in respect of any capital asset (other than a short-term capital asset) is a loss, the assessee shall be entitled to have the amount of such loss set off against the income, if any, as arrived at under a similar computation made for the Assessment Year in respect of any other capital asset not being a short-term capital asset.
- (3) Where result of the computation made for the Assessment Year in respect of speculative business is a loss, the assessee shall be entitled to have the amount of such loss set off against the income, if any, as arrived under a similar computation made for the Assessment Year in respect of speculative business only.
- (4) Where result of the computation made for the Assessment Year in respect of a specified business as per Section 35AD is a loss, the assessee shall be entitled to have the amount of such loss set off against the income, if any, as arrived under a similar computation made for the Assessment Year in respect of other specified business covered by Section 35AD.
- (5) Where any loss made in the business of owning and maintaining race horses, the assessee shall not be entitled to have the amount of such loss set off against any income except income from the business of owning and maintaining race horses.

Set off of losses among different head of income [Section 71]

Where the net result of the computation under any head of income in respect of any Assessment Year is a loss, the assessee shall be entitled to have such amount of loss set off against his income assessable for that Assessment Year under any other head of income.

Exceptions to provisions of Sections 70 and 71 are as follows:

- (a) **Loss from Speculation Business:** "Speculation transaction" means a transaction in which a contract for the purchase or sale of any commodity including stocks and shares is periodically or ultimately settled otherwise than by actual delivery or transfer of the commodity or scripts [Sec. 43(5)]. Loss from speculative transaction, if it is in the nature of business, can be set off only against income of another speculative business.
- (b) **Loss under the head Long Term Capital Gains:** Long Term Capital Loss arising from transfer of long-term capital assets will be allowed to be set off only against Long Term Capital Gains.

Note:

1. Loss can be set off against deemed income.
 2. Inter head adjustment is made only when the net income computed under a head is a loss.
 3. The scheme of inter source and inter head adjustment is mandatory.
 4. Indexed Long-term Capital Loss can be set off against Long-term Capital Gain without indexation [Vipul A Shah vs. Asst CIT(2011) 63DTR272 (Mum)(Tri), Keshav S. Phansalkar vs. ITO(2009) 126 TTJ892 (Mum): (2010) 3 ITR (Trib) 236 (Mum)]
- (c) **Loss from owning and maintaining race horses:** Loss from owing and maintaining race horses can be set off only against income of that activity.

- (d) **Loss from lottery, card games, races, etc:** No expenditure or allowance is allowed from wining from lotteries, crossword puzzles, card games etc. similarly, no loss from any lottery, card games, races, etc. is allowed to be set off from the income of such sources. [Sec. 58(4)]
- (e) **Loss from exempt Income:** Loss incurred by an assessee from a source, income from which is exempt cannot be set off against income from a taxable source.
- (f) **Loss from business specified in Section 35AD:** Any loss arising from specified business u/s 35AD, cannot be set off against any other income.
- (g) **Loss from business:** Loss from business and profession including unabsorbed depreciation cannot be set off against Income from Salary.

10.3 CARRY FORWARD AND SET OFF OF LOSS IN SUBSEQUENT YEARS

Basic conditions for carry forward of loss

Section 80: loss returns

In order to carry forward loss under section 72, 73, 74 and 74A, return of income to be submitted within the due date as prescribed in Section 139(1). No loss which has not been determined in pursuance of a return filed within the date in accordance with the provisions of Section 139(3) shall be carried forward under the provisions of section.

The condition for filing of return in accordance with the provisions of Sec. 139(3) shall not apply to loss from House Property carried forward u/s. 71B and unabsorbed depreciation u/s. 32(2).

Brought forward loss of earlier Assessment Year in accordance with Sec.s 72, 73, 74, 74A can be set off against the income of that Assessment Year and can be carried forward further, even if the return is not filed within the due date specified in Section 139(1) of the Act.

CBDT has issued Circular vide No. 8 of 2001 dated 16.5.2001 clarifying that the power has been delegated to Commissioner to condone delay in filing return and carry forward losses in cases where the claim for loss does not exceed ₹ 10,000 for each Assessment Year and to Chief Commissioner/ Director General upto ₹ 1 lakh and beyond such limit CBDT will exercise the power.

Conditions applicable to each head

Sec. 71B: Carry forward and set off of loss from House Property

Where for any Assessment Year the net result of computation under the head "Income from House Property" is a loss to the assessee and such loss cannot be or is not wholly set off against income from any other head of income in accordance with the provisions of Section 71 so much of the loss as has not been so set-off or where he has no income under any other head, the whole loss shall, subject to the other provisions of this Chapter, be carried forward to the following Assessment Year and—

- (i) be set off against the income from House Property assessable for that Assessment Year; and
- (ii) the loss, if any, which has not been set off wholly, the amount of loss not so set off, shall be carried forward to the following Assessment Year, not being more than eight Assessment Years immediately succeeding the Assessment Year for which the loss was first computed.

Sec 72A: Carry forward and set off of accumulated loss in Scheme of Amalgamation or Demerger or Business Re- organization.

Where there has been an amalgamation of -

- (a) a company owning an industrial undertaking or a ship or a hotel with another company; or
- (b) a banking company referred to in Clause (c) of Section 5 of the Banking Regulation Act, 1949 (10 of 1949) with a specified bank; or
- (c) one or more public sector company or companies engaged in the business of operation of aircraft with one or more public sector company or companies engaged in similar business.

Accumulated loss and the unabsorbed depreciation of such company shall be deemed to be the loss of such amalgamated company for the Previous Year in which the Scheme of Amalgamation was brought into force if the following conditions are satisfied:

1. The amalgamating company should have been engaged in the business for three years or more.
2. The amalgamating company should have continuously held at least three-fourths of the book value of fixed assets for at least two years prior to the date of amalgamation.
3. The amalgamated company will hold continuously for a period of five years at least three-fourths of the book value of the fixed assets of the amalgamated company acquired on amalgamation.
4. The amalgamated company will continue the business of the amalgamated company for a period of at least 5 years.
5. The amalgamated company, which has acquired an industrial undertaking of the amalgamated company by way of amalgamation, shall achieve the level of production of at least 50% of the installed capacity of the amalgamated industrial undertaking before the end of four years from the date of amalgamation and continue to maintain the minimum level of production till the end of five years from the date of amalgamation [this condition may be relaxed by Central Government on an application made by the amalgamated company].
6. The amalgamated company shall furnish a certificate in Form 62, duly verified by an accountant, to the Assessing Officer.

If any of the aforesaid conditions are not fulfilled, then the amount of brought forward business loss or unabsorbed depreciation so set off in any Previous Year in the hands of the Amalgamated Company will be deemed to be the income chargeable to tax, the hands of that Amalgamated Company, for the year in which such conditions are not fulfilled.

In case of Demerger, the amount of set off of the accumulated loss and unabsorbed depreciation, if any, allowable to the assessee being a resulting company shall be –

- (i) the accumulated loss or unabsorbed depreciation of the demerged company if the whole of the amount of such loss or unabsorbed depreciation is directly relatable to the undertakings transferred to the resulting company; or
- (ii) The amount which bears the same proportion to the accumulated loss or unabsorbed depreciation of the demerged company as the assets of the undertakings transferred to the resulting company bears to the assets of the demerged company if such accumulated loss or unabsorbed depreciation is not directly relatable to the undertakings transferred to the resulting company.

Unabsorbed loss can be carried forward for the unexpired period of out of total 8 years. Conditions specified in Section 72A are applicable to amalgamation only and not to demerger. However, the Central Government may, for the purposes of this section, by notification in the Official Gazette, specify such other conditions as it considers necessary to ensure that the demerger is for genuine business purposes.

In case of Business Re-organisation, set off of the accumulated loss and unabsorbed depreciation, if any, allowable to the assessee being the successor company for a period of 8 years commencing from the Previous Year of such business re-organisation.

Sec 72AA: Provision relating to carry forward and set off of accumulated loss and unabsorbed depreciation allowance in a scheme of amalgamation of banking company in certain cases

Notwithstanding anything contained in Section 72(2)(1B)(i) to (iii) where there has been an amalgamation of a banking company with any other banking institution under a scheme sanctioned and brought into force by the Central Government under Sec 45(7) of Banking Regulation Act, 1949 the accumulated loss and the unabsorbed depreciation of such banking company shall be deemed to be the loss or, as the case may be, allowance for depreciation of such banking institution for the Previous Year in which the scheme of amalgamation was brought into force and other provision of this Act relating to

set off and carry forward of loss and allowance for depreciation shall apply accordingly. In this case conditions u/s 2(1B) or 72A may or may not be satisfied.

For the purposes of this section :

- (i) "Accumulated loss" means so much of the loss of the amalgamating banking company, under the head "Profits and Gains from Business" (not being a loss sustained in a speculation business) which such amalgamating banking company, would have been entitled to carry forward and set off under the provision of Section 72 if the amalgamation had not taken place;
- (ii) "Banking company" shall have the same meaning as assigned to it in Sub-section (15) of Section 45(15) of the Banking Regulation Act, 1949.
- (iii) "Banking institution" shall have the same meaning as assigned to it in Sub-section (15) of Section 45(15) of the Banking Regulation Act, 1949.
- (iv) "Unabsorbed depreciation" means so much of the allowance for depreciation of the amalgamating banking company which remains to be allowed and which would have been allowed to such banking company if amalgamation had not taken place.

Reverse Merger

One may see that Sec. 72A is an exception of the general rule that the benefit of carry forward of loss and unabsorbed depreciation allowance is available to the same person who incurred the loss or suffered depreciation. However, one may also find that Sec. 72D is not available to him as the entity in which the loss is incurred does not qualify as an industrial undertaking or that some of the conditions of Sec. 72D are onerous to fulfil. Therefore, to get over these problems, the concept of reverse merger gained momentum. Under a normal merger, it is a sick industrial undertaking that is wound up and merged with a healthy undertaking. Under a reverse merger, a healthy company is merged with the sick company that has losses and unabsorbed depreciation allowances carried forward. Thus, the profits of the healthy company after amalgamation will be available for set off to the losses and unabsorbed depreciation allowances. The sick company that incurred the losses and suffered depreciation allowance will be the same person as the person who will carry them forward and adjust against the profits. Thus, Sec. 72D will not apply and the purpose of set off of losses and unabsorbed depreciation allowances will still be achieved. Based on facts in given cases the route merger of reverse merger will suit some companies.

Sec. 72AB: Provisions relating to carry forward and set off of accumulated loss and unabsorbed depreciation allowance in Business Re-organisation of Co-operative Banks

- (1) The assessee, being a successor co-operative bank, shall, in a case where the amalgamation has taken place during the Previous Year, be allowed to set off the accumulated loss and the unabsorbed depreciation, if any, of the predecessor co-operative bank as if the amalgamation had not taken place, and all the other provisions of this Act relating to set off and carry forward of loss and allowance for depreciation shall apply accordingly.
- (2) The provisions of this section shall apply if—
 - (a) the predecessor co-operative bank—
 - (i) has been engaged in the business of banking for three or more years; and
 - (ii) has held at least three-fourths of the book value of fixed assets as on the date of the business re-organisation, continuously for two years prior to the date of business re-organisation;
 - (b) the successor co-operative bank—
 - (i) holds at least three-fourths of the book value of fixed assets of the predecessor co-operative bank acquired through business re-organisation, continuously for a minimum period of five years immediately succeeding the date of business re-organisation;

- (ii) continues the business of the predecessor co-operative bank for a minimum period of five years from the date of business re-organisation; and
 - (iii) fulfils such other conditions as may be prescribed to ensure the revival of the business of the predecessor co-operative bank or to ensure that the business re-organisation is for genuine business purpose.
- (3) The amount of set-off of the accumulated loss and unabsorbed depreciation, if any, allowable to the assessee being a resulting co-operative bank shall be,—
- (i) the accumulated loss or unabsorbed depreciation of the demerged co-operative bank if the whole of the amount of such loss or unabsorbed depreciation is directly relatable to the undertakings transferred to the resulting co-operative bank; or
 - (ii) the amount which bears the same proportion to the accumulated loss or unabsorbed depreciation of the demerged co-operative bank as the assets of the undertaking transferred to the resulting co-operative bank bears to the assets of the demerged co-operative bank if such accumulated loss or unabsorbed depreciation is not directly relatable to the undertakings transferred to the resulting co-operative bank.
- (4) The Central Government may, for the purposes of this section, by notification in the Official Gazette, specify such other conditions as it considers necessary, other than those prescribed under Sub-clause (iii) of Clause (b) of Sub-section (2), to ensure that the business re-organisation is for genuine business purposes.
- (5) The period commencing from the beginning of the Previous Year and ending on the date immediately preceding the date of business re-organisation, and the period commencing from the date of such business re-organisation and ending with the Previous Year shall be deemed to be two different Previous Years for the purposes of set off and carry forward of loss and allowance for depreciation.
- (6) In a case where the conditions specified in Sub-section (2) or notified under Sub-section (4) are not complied with, the set off of accumulated loss or unabsorbed depreciation allowed in any Previous Year to the successor co-operative bank shall be deemed to be the income of the successor co-operative bank chargeable to tax for the year in which the conditions are not complied with.

Section 73A: Set off loss of the specified business (w.e.f A.Y. 2010-11)

With reference to newly inserted Section 35AD (w.e.f A.Y. 2010-11), any loss computed in respect of the specified business shall not be set off except against profits and gains, if any, of any other specified business. To the extent the loss is unabsorbed the same will be carried forward for set off against profits and gains from any specified business in the following Assessment Year and so on.

Section	Losses
71B	Brought forward loss from House Property
32(2)	Brought forward unabsorbed depreciation
72	Carried forward and set-off of business losses other than speculative business.
73	Losses in speculation business.
73A	Brought forward loss from Specified Business u/s 35AD
74	Losses under the head Capital Gains.
74A	Losses from owning and maintaining race horses.

Sec.	Nature of loss	Details of set off	Conditions / Exceptions
32(2)	Brought forward unabsorbed depreciation	Set off against any head of income	Unabsorbed depreciation loss can be carried forward for any number of years until it is fully set off.
71B	Brought forward loss from House Property	Set off only against income from House Property	Carry forward and set off is permissible for 8 Assessment Years immediately succeeding the Assessment Year for which such loss was computed
72	Brought forward unabsorbed business loss other than Speculation Loss	Set off only against income under the head Profits and Gains of Business or Profession.	1. Carry forward and set off is permissible for 8 Assessment Years immediately succeeding the Assessment Year for which the loss was computed. 2. Loss can be carried forward only if the return is filed u/s 139(1) and it is determined and communicated u/s 157.
73	Brought forward unabsorbed Speculation Business Loss	Set off only against income under Speculation Business	1. Carry forward and set off is permissible for 4 Assessment Years immediately succeeding the Assessment Year for which the loss was computed. 2. Loss can be carried forward only if the return is filed u/s 139(1) and it is determined and communicated u/s 157.
73A	Brought forward unabsorbed loss from Specified Business u/s 35AD	Set off only against income from any other Specified Business only	Carry forward for any number of years until it is fully set off
74	Brought forward unabsorbed loss under the head Capital Gains	Set off only against income under the head Capital Gain	1. Carry forward and set off is permissible for 8 Assessment Years immediately succeeding the Assessment Year for which the loss was computed. 2. STCL can be set off against any Capital Gain. However, LTCL can be set off only against LTCG. 3. Loss can be carried forward only if the return is filed u/s 139(1) and it is determined and communicated u/s 157.
74A	Brought forward unabsorbed loss from activity of owning and maintaining race horses	Set off only against income from owning and maintaining race horses	1. Carry forward and set off is permissible for 4 Assessment Years immediately succeeding the Assessment Year for which the loss was computed. 2. Loss can be carried forward only if the return is filed u/s 139(1) and it is determined and communicated u/s 157.

Special provisions

Section 78(1) :

Where a change has occurred in the constitution of the firm, the firm shall not be entitled to carry forward and set off so much of the loss proportionate to the share of a retired or deceased partner remaining unabsorbed. This restriction shall not apply to unabsorbed depreciation.

Change in constitution of the firm for the purpose of this section takes place –

If one or more of the partners cease to be partners due to retirement or death of anyone or more partners, in such circumstances that one or more of the persons who were partners of the firm before the change, continue as partner or partners after the change (provided the firm is not dissolved on the death of any of its partners).

This section does not cover change in constitution of the firm due to change in the profit sharing ratio or admission of new partners.

Section 78(2) :

Section 78(2) provides that where any person carrying on business or profession has been succeeded in such capacity by another person otherwise than by inheritance, nothing, in relating to set-off and carry forward of loss, shall entitle any person other than the person incurring the loss to have it carried forward and set off against his income. In other words, the brought forward business losses can be set off only by the same assessee. The assessee, who has suffered the loss and in whose hands the loss has been assessed, is the person who can carry forward the loss and set-off the same against his business income of the subsequent year. The following are the exceptions:

- (a) **Inheritance:** Where a business carried on by one person, is acquired by another person through inheritance. For example, A is carrying on a business and there are losses to the extent of ₹3,00,000 which can be carried forward and set-off against the income of the subsequent years. A dies and his son R inherits his business. The losses incurred by A can be set-off by his son R against the income from a business activity carried on by R. However such loss can be carried forward by the son for the balance number of years for which the father could have carried forward the loss. However, the unabsorbed depreciation cannot be carried forward by the legal heir as inheritance is not covered u/s 32(2).

Where there is a succession by inheritance, the legal heirs (assessable as BOI) are entitled to set off the business loss of the predecessor. Such carry forward and set off is possible even if the legal heirs constitute themselves as a partnership firm. In such a case, the firm can carry forward and set-off the business loss of the predecessor.

Where the legal heirs of the deceased proprietor enters into partnership and carries on the same business in the same premise under the same trade name, it was held that such loss of sole proprietary firm was allowed to be carried forward by the firm of the legal heirs who have succeeded to the business of the deceased [CIT vs. Madhu Kant M. Mehta (2001) 247 ITR 805 (SC.)]

- (b) **Amalgamation:** Business losses and unabsorbed depreciation of an amalgamating company can be set-off against the income of the amalgamated company if the amalgamation is within the meaning of section 72A/72AA of the Income Tax Act. If the amalgamation is not in the nature specified in section 72A/72AA, the business loss and unabsorbed depreciation of the amalgamating company cannot be carried forward by the amalgamating company. Similarly, business losses and unabsorbed depreciation of an amalgamating co-operative bank can be set off against the income of successor co-operative bank i.e. the amalgamated co-operative bank, if the amalgamation is within the meaning of section 72AB.
- (c) **Succession of proprietary concern or a firm by a company:** Where there has been reorganization of business whereby a proprietary concern or a firm is succeeded by a company and certain conditions mentioned in section 47(xiii) or (xiv) are fulfilled, the accumulated business loss and the unabsorbed depreciation of the predecessor firm/proprietary concern shall be deemed to be the loss or allowance for depreciation of the successor company for the previous year in which business reorganization was effected and carry forward provisions shall be applicable to the successor company.

- (d) **Conversion of private company or unlisted company into Limited Liability Partnership:** Where there has been reorganization of business whereby a private company or unlisted public company is succeeded by a Limited Liability Partnership fulfilling the conditions laid down in the proviso to clause (xiiib) of section 47, then, notwithstanding anything contained in any other provision of this Act, the accumulated loss and the unabsorbed depreciation of the predecessor company, shall be deemed to be the loss or allowance for depreciation of the successor deemed to be the loss or allowance for depreciation of the Limited Liability Partnership for the purpose of the previous year in which business reorganization was effected and other provisions of this Act relating to set-off and carry forward of loss and allowance for depreciation shall apply accordingly.
- (e) **Demerger:** Loss of the demerged company can be carried forward by the resulting company subject to the fulfillment of certain conditions, which the Central Government may for this purpose notify, to ensure that the demerger is for genuine business purposes.

In the following cases, business loss/ unabsorbed depreciation will not be allowed to be carried forward:

- (1) Loss/unabsorbed depreciation of HUF cannot be carried forward by the members of HUF on the partition of HUF.
- (2) Loss/unabsorbed depreciation of a firm succeeded by another firm cannot be carried forward as the assessee has changed.
- (3) Loss/unabsorbed depreciation of sole proprietary concern taken over by the firm cannot be carried forward by the firm even if sole proprietor also becomes the partner of such firm.
- (4) Loss/unabsorbed depreciation of a partnership firm taken over by one of the partner cannot be carried forward in the hands of such partner.

Where any person carrying on any Business or Profession has been succeeded in such capacity by another person otherwise than by inheritance, then the successor cannot have the loss of predecessor carried forward and set off against his income.

Section 79 :

Losses (other than unabsorbed depreciation) in case of closely held company:

In case of a company in which public are not substantially interested (defined in Sec. 2(18) of the Act), the unabsorbed business loss relating to any Assessment Year can be carried forward and set off against the income in a subsequent Assessment Year only if the shares of the company carrying not less than 51% of the voting power were beneficially held by the same persons both on the last day of the Previous Year(s) in which the loss claimed to be set off and on the last day of the Previous Year in which loss was incurred.

Exceptions:

The provisions stated supra shall not apply if

- (a) the change in the voting power takes place due to the following reasons :
 - (i) the death of a shareholder; or
 - (ii) transfer of shares by way of gift to any relative of the shareholder making such gift.
- (b) W.e.f. AY 2000-01, this section shall not apply to any change in the shareholding of an Indian company which is subsidiary of a foreign company arising as a result of amalgamation or demerger of a foreign company subject to the condition that 51% of the shareholders of the amalgamating or demerged foreign company continue to remain the shareholders of the amalgamated or the resulting foreign company.

Notes : Unabsorbed business losses can be carried forward and set off against profits from any business from A.Y. 2000-01. There is no need to continue the same business in which the loss was incurred.

For example:

FY	Shareholders and their holding of shares with voting power as at close of each year	Amount of business profit/loss
2011-2012	Ali 11% Bony 19% Cady 30% Dany 40%	Profit 2,00,000
2012-2013	Ali 5% Bony 29% Cady 30% Dany 36%	Loss 1,00,000
2013-2014	Adi 5% Sony 19% Rani 26% Dany 51%	Profit 4,00,000

In this case, the loss of financial year 2012-13 will not be set off against the profit of financial year 2013-14, since the persons, Bony and Cady, or Bony and Dany or Cady and Dany who hold between them as a pair 51% shares as at the end of financial year 2012-13 do not hold 51% shares at the end of financial year 2013-14.

Case Laws:

- (1) Section 79 applies to all losses, including losses under the head capital gains. However, overriding provisions of section 79 do not affect the set off of unabsorbed depreciation which is governed by section 32(2) [CIT vs. Concord Industries Ltd (1979) 119 ITR 458 (Mad)].
- (2) In section 79, the phrase “beneficially held” should be understood as a registered holder and the expression ‘holder of share’ denotes, in so far as the company is concerned, only a person who, as a shareholder, has his/her name entered on the register of members. Furthermore, a shareholder has been equated with only the registered shareholder and not the beneficial shareholder [Howrah Trading Co. Ltd vs. CIT (1959) 36 ITR 215 (SC)].
- (3) The words “unconditionally” and “beneficially” indicate that the voting power arising from the holding of those shares should be free and not within the control of some other shareholder and registered holder should not be a nominee of another. The Court has also pointed out in Shree Chang Deo Sugar Mills Ltd vs. CIT (1961) 41 ITR 667 (SC) that by “unconditional” and “beneficial” holding it means that the shares are held by the holders for their own benefit only and without any control of another [Raghuvanshi Mills Ltd vs. CIT (1961) 41 ITR 613 (SC)].
- (4) For the applicability of section 79, one has to see that 51% of the voting power, and not 51% of shares, is beneficially held during the year under reference by the persons who held such voting right during the year in which loss as incurred. Therefore, the Tribunal held that the board of directors of wholly owned subsidiary can be considered to be effectively controlled by its parent company and therefore, the parent company would be beneficial owner of its wholly-owned subsidiaries and step-down subsidiaries u/s 79 of the Income Tax Act, 1961 [Amco Power Systems Ltd vs. ITO (2008) 123 TTJ 238 (Bang)].
- (5) In view of the overriding provisions of Article 24(4) of the India-Germany Tax Treaty, disability on account of carried forward and set-off of accumulated losses due to change in shareholding pattern u/s 79 of the Act cannot be extended to Indian subsidiaries of German parent companies as long as the German parent companies are listed on a German Stock Exchange recognized under their domestic laws [Dalmier Chrysler India Pvt. Ltd vs. DCIT (2009) 29 SOT 202 (Pune)]

Order of Priority in carry forward and set-off of losses

Depreciation can be carried forward and set off against the profits from any business in the succeeding Assessment Year upto A.Y. 2001-02. The business in which the loss was incurred need not be continued in that year.

The effect of depreciation and business loss should be given in the following order:

- Current year's Depreciation
- Unabsorbed Business loss
- Unabsorbed Depreciation

A return of loss is required to be furnished for determining the carry forward of such losses, by the due date prescribed for different assesses under section 139(1) of the Act. (Sec. 80).

ILLUSTRATIONS ON SET-OFF AND CARRY FORWARD OF LOSSES

Illustration 1.

Following are the particulars of the income of Mr. Srikant for the Previous Year 2013-2014

Particulars	₹
1. Income from House Property	
(a) Property R	(+) 12,000
(b) Property J	(-) 20,000
2. Profits and Gains from Business:	
(A) Non-speculation:	
(i) Business X	40,000
(ii) Business Y	(-) 50,000
(B) Speculation:	
(i) Silver	40,000
(ii) Bullion	(-) 10,000
3. Capital Gains:	
(i) Long-term Capital Gains	(+) 30,000
(ii) Short-term Loss	(-) 10,000
4. Income from Other Sources:	
(i) Card games-loss	(-) 10,000
(ii) From the activity of owing and maintaining race horses:	
(a) Loss at Mumbai	(-) 50,000
(b) Profit at Kolkata	(+) 40,000
(iii) Dividend from Indian companies	10,000
(iv) Income by letting out plant and machinery	1,11,000
The following losses have been carried forward:	
(i) Long-term Capital Loss from the Assessment Year 2008-2009	18,000
(ii) Loss from silver speculation from the Assessment Year 2010-2011 and which was discontinued in the Assessment Year 2011-2012	25,000

Compute the Gross Total Income for the Assessment Year 2014-2015.

Solution :**Computation of Gross Total Income for the Assessment Year 2014-2015**

Particulars	₹	₹
1. Income from House Property (+ 12,000 - 20,000)		(-) 8,000
2. Profits from speculation:		
(i) Profit from Silver Business	40,000	
Less: Current year loss from bullion	(-) 10,000	
	30,000	
Less: Carried forward silver speculative loss	(-) 25,000	
Surplus from Speculation Business	5,000	
(ii) Add: Business profit from X business	40,000	
(iii) Less: Business loss from Y business	(-) 50,000	(-) 5,000
3. Capital Gains:		
Long-term Capital Gains	30,000	
Less : Short-term Capital Loss	(-) 10,000	20,000
Long-term Capital Gain	20,000	
4. Income from Other Sources:		
(i) Income by letting out plant and machinery		
(ii) Card game-loss		1,11,000
Neither it can be set-off nor it can be carried forward	10,000	
(iii) Profit from race horses at Kolkata	(+) 40,000	
Less : Loss from race horses at Mumbai	(-) 50,000	
Less : to be carried forward for next four Assessment Year	(-) 10,000	
(iv) Dividend from Indian companies: Exempt under Sec. 10(34)		Nil
Aggregated income after setting-off current year losses from house property, profit and business against income from other sources:		1,18,000
Less : Carried forward Long-term Capital Loss, from the Assessment Year 2008-2009 to be set-off against Long-term Capital Gains		18,000
Gross Total Income or total income as there is no deduction available from GTI		1,00,000

Unabsorbed business loss may be set-off against the income of any other head except 'salaries' and 'winnings from lottery, card games, crossword puzzle, betting on race horses', etc.

Illustration 2.

Mr. Dey furnishes the following particulars of his income for the Previous Year 2013-2014:

Particulars	₹
Unit "A": Business loss	(-) 4,00,000
Unabsorbed depreciation	(-) 2,00,000
Unit "B": Business profit	10,00,000
Income from House Property	2,00,000
Apart from the above mentioned, the following are unabsorbed Carried forward losses and allowance:	
Unit "C" business was discontinued on 31-12-2007:	
1. Business loss	(-) 3,00,000
2. Unabsorbed depreciation	(-) 2,00,000
These are occurred during the Previous Year 2007-2008	
Unit "D" business was discontinued on 1-3-2009:	
1. Business loss	(-) 3,00,000
2. Unabsorbed depreciation	(-) 1,00,000
These are occurred during the Previous Year 2008-2009	

Compute his total income for the Assessment Year 2014-15.

Solution :

Computation of Total Income for the AY 2014-2015

Particulars	₹	₹
Income from House Property		2,00,000
Business - Profession		
Profit of B Business	(+) 10,00,000	
Less: Business loss of A Business	(-) 4,00,000	
Depreciation of A Business	(-) 2,00,000	
	(+) 4,00,000	4,00,000
Aggregated Income		6,00,000
Less: Carried forward business loss:		
(i) Loss of C Business to be set-off against business profits	(-) 3,00,000	
(ii) Loss of D Business	(-) 3,00,000	(-) 6,00,000
Total Income		Nil

Note : Where business loss and depreciation both are being carried forward, business loss has got priority, over depreciation. Unabsorbed depreciation is carried forward without time-limit.

Illustration 3.

XYZ & Co., a partnership firm, submits the following particulars of its income and carry forward losses for the Previous Year 2013-2014:

Particulars	Betting on race horses made lawfully (₹)	Betting on race horses made illegally (₹)
1. Gross prize on race horses	15,00,000	5,00,000
2. Expenses incurred:		
(i) Horses purchased during the year	6,00,000	75,000
(ii) Medical expenses	1,00,000	20,000
(iii) Animal trainer fees	50,000	15,000
(iv) Fodder expenses	2,60,000	50,000
(v) Stable-rent/insurance	1,20,000	36,000
(vi) Depreciation in the value of horses	4,60,000	1,50,000
(vii) Staff salaries	1,00,000	40,000
3. Loses brought forward from the Assessment Year 2010-2011	6,00,000	2,00,000

Solution :

Computation of Total Income for the Assessment Year 2014-15

Particulars	Betting on race horses made lawfully (₹)	Betting on race horses made illegally (₹)
Gross prize	15,00,000	5,00,000
Less: Expenses incurred :		
(i) Horses purchased—not allowed	(-) 1,00,000	(-) 20,000
(ii) Medical expenses	(-) 50,000	(-) 15,000
(iii) Animal trainer fees	(-) 2,60,000	(-) 50,000
(iv) Fodder expense	(-) 1,20,000	(-) 36,000
(v) Staff salaries	(-) 1,00,000	(-) 40,000
(vii) Depreciation in the value of horses—not allowed	—	—
	8,70,000	3,39,000
Less: Brought forward loss	6,00,000	Nil
Total Income of the firm = ₹ 6,09,000	2,70,000	3,39,000

Note:

“Horse race” means a horse race upon which wagering or betting may be lawfully made [Explanation (b) to Sec. 74A]. Thus, where wagering or betting is not lawfully made on race horses, any loss incurred on such betting can neither be set off nor carried forward. Hence, the carried forward loss of ₹ 2,00,000 cannot be set-off.

Illustration 4.

Mr. N discloses the following incomes for the Previous Year 2013-2014 :

House Property	Business or Profession		Capital Gains		Income from Other Sources
₹	Speculation ₹	Non-speculation ₹	STCG ₹	LTCG ₹	
A 50,000	P 3,00,000	X 5,00,000	C 6,00,000	F 7,00,000	Family pension 95,000
B (-) 40,000	S (-)2,00,000	Y (-) 3,00,000	D (-) 3,00,000	E (-)5,00,000	Loss from (-) 50,000 letting out from machinery/plant

Determine income under head of income for the A. Y. 2014-2015

Solution :

Aggregation of income under each head of income: A. Y. 2014-2015

House Property	Business or Profession		Capital Gains		Income from Other Sources
₹	Speculation ₹	Non-speculation ₹	STCG ₹	LTCG ₹	₹
A 50,000	P 3,00,000	X 5,00,000	C 6,00,000	F 7,00,000	Family pension 95,000
B (-)40,000	S (-)2,00,000	Y (-)3,00,000	D (-)3,00,000	E (-)5,00,000	Loss from (-)50,000 letting out machinery/ plant
10,000	1,00,000	2,00,000	3,00,000	2,00,000	45,000

Illustration 5.

A discloses the following incomes from business or profession for the Previous Year 2014-2015:

	₹
(i) Profit from X business	6,00,000
(ii) Loss from Y business	(-) 2,00,000
(iii) Loss from profession Z	(-) 2,50,000
(iv) Profit from speculation business – M	2,00,000
(v) Loss from speculation business – N	(-) 3,00,000

Determine the Income from Business or Profession for the Assessment Year 2014-2015

**Solution :****Income from Business or Profession for the AY 2014-2015**

Particulars	₹
(i) X	6,00,000
(ii) Y	(-) 2,00,000
(iii) Z	(-) 2,50,000
Total Income from Non Speculation Business and Profession	1,50,000
Income from Speculation Business	
(i) M	2,00,000
(ii) N	(-) 3,00,000
Loss from Speculation Business	(-) 1,00,000

Speculation loss cannot be set-off against the income from business profit, though both of them fall under the same head of income.

Thus, taxable business profits for the Assessment Year 2014-2015 is ₹ 1,50,000. The speculation loss will be carried forward for future set-off for 4 Assessment Years, immediately succeeding the Assessment Year for which it was first computed [Sec. 73(4)].

The time-limit of 4 years is applicable from the Assessment Year 2015-2016 and subsequent year.

Illustration 6.

D has earned income of ₹ 5,60,000 from speculation business during the PY 2013-2014. However, he has suffered losses in business and profession ₹ 3,20,000 and ₹ 1,70,000, respectively during the same period. Determine his income from business profession for the Assessment Year 2014-2015.

Solution :**Income from Business and Profession for the AY 2014-2015 :**

Particulars	₹
Profits from Speculation Business	5,60,000
Less. (i) Loss from Non Speculation Business	(-) 3,20,000
(ii) Loss from Profession	(-) 1,70,000
Income from Business and Profession	70,000

Illustration 7.

Mr. Samir submits the following information for the A.Y. 2014-15.

Particulars	₹
Taxable Income from Salary	1,64,000
Income from House property :	
House 1 Income	37,000
House 2 loss	(53,000)
Textile Business (discontinued on 10.10.2013)	(20,000)
Brought forward loss of textile business - A.Y. 2010-11	(80,000)
Chemical Business (discontinued on 15.3.2013)	
– b/f loss of Previous Year 2010-11	(25,000)
– unabsorbed depreciation of Previous Year 2010-11	(15,000)
– Bad debts earlier deducted recovered in July '2013	40,000
Leather Business	62,000
Interest on securities held as stock in trade	10,000

Determine the Gross Total Income for the Assessment Year 2014-15 and also compute the amount of loss that can be carried forward to the subsequent years.

Solution :**Computation of Gross Total Income A.Y. 2014-15**

Particulars	₹	₹
I. Income from Salary		1,64,000
II. Income from House property :		
House 1 Income	37,000	
House 2 Loss	(53,000)	(16,000)
III. Profits and Gains of Business or Profession :		
(i) Textile business loss	(20,000)	
(iii) Chemical business – Bad debts recovered taxable u/s 41 (4)	40,000	
Less : (i) Set off of brought forward loss of P.Y. 2010-11 u/s. 72	(25,000)	15,000
		(5,000)
(iii) Leather Business Income	62,000	
(iv) Interest on securities held as stock-in-trade	10,000	72,000
		67,000
Less: B/f business loss ₹ 80,000 restricted to		67,000
Gross Total Income		1,48,000

Note :

1. The unabsorbed loss of ₹ 13,000 (80,000-67,000) of Textile business can be carried forward to A.Y. 2015-16 for setoff u/s. 72, even though the business is discontinued.
2. The unabsorbed depreciation of ₹ 15,000 is eligible for set off against any income other than salary income. Since, Gross Total Income contains the balance of Income from Salary only, unabsorbed depreciation cannot be adjusted, and hence, carried forward for adjustment in the subsequent years.

Illustration 8.

An assessee has filed a belated return showing a business loss. What is the remedy available to him for carry forward and set off of the said loss?

AG Ltd. filed its return of loss for the Assessment Year 2014-2015 on 10.01.2015 beyond the time prescribed u/s 139(3) declaring a total loss of ₹ 12,00,000. It approaches you for your advice regarding the course of action to be taken to secure the benefit of carry forward of the business loss for set off against future profits. Advise the company suitably.

Solution :

- A. CBDT's Powers:** CBDT has the powers to condone the delay in filing return in cases having claim of carry forward of losses. **[Associated Electro Ceramics vs. CBDT 201 ITR 501 (Kar.)]**
- B. Monetary limits** prescribed for the condonation of delay are as under – **[Cir. No. 8/2001 dt. 16.5.2001]**

Refund claimed	Authority empowered to condone
Upto ₹ 10,000	Assessing Officer with the prior approval of the CIT
₹ 10,001 - ₹ 1,00,000	Assessing Officer with the prior approval of the CCIT / DGIT
₹ 1,00,001 and above	Central Board of Direct Taxes

- C. Analysis and conclusion:** Here, since the loss of AG Ltd. is ₹ 12,00,000, the authority empowered to condone the delay is CBDT. Hence, AG Ltd. has to file a condonation petition to the CBDT to carry forward the business loss.

Illustration 9.

Will Long Term Capital Loss from transfer of equity shares which have been sold through recognized stock exchange on which securities transaction has been paid be allowed to the set-off from any other Long Term Capital Gain?

Solution:

Loss incurred by an assessee from a source, income from which is exempt, cannot be set-off against income from a taxable source [CIT vs. Thyagarajan (S.S.) (1981) 129 ITR 115 (Mad.)]

Since, Long Term Capital Gain from the transfer of equity shares which have been sold through recognized stock exchange on which securities transaction has been paid is exempt u/s 10(38), therefore Long Term Capital Loss from such transfer shall not be allowed to be set-off.

Illustration 10.

Can business loss be set-off against income from undisclosed sources?

Solution:

The Madras High Court in the case of CIT vs. Chensing Ventures (2007) 291 ITR 258 (Mad) held that once the loss is determined, the same should be set-off against the income determined under any other head of income. The loss can therefore be set-off even against income from undisclosed sources.

Illustration 11.

The business of Sia Ltd, an industrial undertaking was discontinued on 25th September, 2010 due to fire and the company had incurred the following business losses:

- (i) Loss for Assessment Year 2011-12 ₹4,00,000
- (ii) Brought forward business loss of Assessment Years 2007-08 to 2010-11 ₹6,00,000

The above business is re-established on 25th December, 2013. What will be the treatment of the losses if the profit of assessment year 2014-15 is ₹5,00,000?

Solution:

Since the business is re-established within three years from the end of the previous year in which it was discontinued due to fire, the loss of ₹10,00,000 can be set off against ₹5,00,000 i.e. the income of the year in which it was re-established. The balance loss of ₹5,00,000 can be carried forward for seven succeeding Assessment Years.

Illustration 12.

A, B & C are three partners of firm sharing profit and loss equally. B retires from the firm on 30.9.2013. From the following information furnished to you for the financial year ended 31st March, 2014, compute loss and depreciation which the firm shall be allowed to carry forward.

	₹
Current Year business loss before allowing current year depreciation	3,00,000
Current year depreciation	2,10,000
Brought forward business loss of assessment year 2013-14	1,20,000
Brought forward unabsorbed depreciation of assessment year 2013-14	90,000

Solution:

	₹
Proportionate share of loss of partner 'B' in the current year (3,00,000 x 1/3 x 6/12)	50,000
Proportionate share of brought forward business loss (1,20,000 x 1/3 x 6/12)	20,000
Loss not allowed to be carried forward in the hands of firm	70,000

Loss and depreciation allowed to be carried in the hands of firm

	₹
Business loss of assessment year 2014-15 before depreciation	3,00,000
Less: Share of loss of 'B' the retiring partner of assessment year 2014-15	50,000
Business loss allowed to be carried forward (A)	2,50,000

Brought forward business loss of assessment year 2013-14	1,20,000
Less: Share of loss of 'B' the retiring partner	20,000
Business loss of assessment year 2013-14 allowed to be carried forward (B)	1,00,000
Total unabsorbed depreciation to be carried forward by firm (A+B)	3,50,000

Depreciation allowed to be carried forward

	₹
Current Year Depreciation	2,10,000
Add : Brought forward unabsorbed depreciation of assessment year 2012-13	90,000
Total unabsorbed depreciation to be carried forward by firm	3,00,000

Illustration 13.

A, B, & C are the partners of a firm sharing profits and losses in the ratio 2:2:1 respectively. The firm has brought forward business loss of ₹2,00,000 and unabsorbed depreciation of ₹1,80,000.

During the previous year 2013-14, B retired from the firm w.e.f. 1st July, 2013. Compute the business loss which will not be allowed to be carried forward in the hands of firm if –

- The firm has earned business income of ₹3,00,000 during the previous year 2013-14
- The firm has incurred business loss of ₹3,00,000 during the previous year 2013-14

Solution:

- Where the firm earned business income of ₹3,00,000

Share of loss of partner B in the brought forward business loss = ₹2,00,000 × 2/5 = ₹80,000

Share of profit of partner B in the business income of the previous year 2013-14 i.e. for 3 months = ₹3,00,000 × 2/5 × 3/12 = ₹30,000

Hence, loss which cannot be carried forward in the hands of the firm = ₹80,000 - ₹30,000 = ₹50,000.

Business loss which can be carried forward and set-off brought forward loss = ₹2,00,000 - ₹50,000 (share of loss of partner B) = ₹1,50,000

Hence, in the previous year 2013-14, the firm shall be allowed to set-off of brought forward loss of ₹1,50,000 (instead of ₹2,00,000) from the current business income of ₹3,00,000.

However, entire unabsorbed depreciation of ₹1,80,000 can be set off from the balance income of ₹1,50,000 (= ₹3,00,000 - ₹1,50,000).

- The firm has incurred business loss of ₹3,00,000 during the previous year 2013-14

Share of loss of partner B in the brought forward loss = (₹2,00,000 × 2/5) = ₹80,000.

Share of loss of partner B in the current year business loss for 3 months = ₹3,00,000 × 2/5 × 3/12 = ₹30,000.

Aggregate loss which cannot be carried forward ₹1,10,000 (= ₹80,000 + ₹30,000).

Loss which can be carried forward to subsequent assessment year = (₹2,00,000 + ₹3,00,000) - ₹1,10,000 = ₹5,00,000 - ₹1,10,000 = ₹3,90,000.

However, entire unabsorbed depreciation of ₹1,80,000 shall be allowed to be carried forward.

Study Note - 15

DEDUCTION IN COMPUTING TOTAL INCOME

This Study Note includes

15.1 Introduction

15.2 Deductions from Gross Total Income

15.1 INTRODUCTION

In order to further the Government Policy of attracting investment and activity in the desired direction and to provide stimulus to growth or to meet social objectives, concession in the form of 'deduction' from Taxable Income is allowed. Chapter VI-A of the Income-tax Act, 1961 contains such deduction provisions.

With the advent of new philosophy of giving direct assistance to the desired goal and avoiding indirect route of tax concessions, the numbers of deductions are being omitted. This is also with a view to avoid complexity of tax law.

In computing Total Income of an assessee deductions under sections 80CCC to 80U are permissible from "Gross Total Income". [Section 80A (1)]

Deduction not to be allowed unless return furnished [Sec. 80AC]

Where in computing the Total Income of an assessee of the Previous Year relevant to the Assessment Year commencing on the 1st day of April, 2006 or any subsequent Assessment Year, any deduction is admissible under Section 80-IA or Section 80-IAB or Section 80-IB or Section 80-IC or Section 80-ID or Section 80-IE, no such deduction shall be allowed to him unless he furnishes a return of his income for such Assessment Year on or before the due date specified under sub-section (1) of section 139.

"Gross Total Income" means the aggregate of income computed under each head as per provisions of the Act, after giving effect to the provisions for clubbing of incomes (Sections 60 to 64) and set off of losses and but before making any deductions under this chapter. [Section 80B(5)]

The deductions under Chapter VIA are not available from the following incomes though these are included in the "Gross Total Income":

- (i) Long Term Capital Gains;
- (ii) Winnings from lotteries, cross word puzzles etc.;
- (iii) Incomes referred to in Sections 115A to AD, 115BBA and 115D.

The aggregate amount of deductions under Chapter VIA [Sections 80CCC to 80U] shall not exceed the "Gross Total Income" of the assessee. [Section 80A (2)]

15.2 DEDUCTIONS FROM GROSS TOTAL INCOME

DEDUCTION IN RESPECT OF LIP, CONTRIBUTIONS TO PF, ETC [SEC. 80C]:

1	Eligible Assessee	Individual and HUF
2	Condition	Investment or application of funds during the Previous Year
3	Maximum Deduction	₹ 1,00,000 in a Previous Year
4	Special Provisions	Withdrawal of deductions for certain premature exit from certain investments or application of funds

Rate of deduction [Section 80C(1)]

This deduction shall be admissible only to an assessee, being an Individual or a Hindu Undivided Family. The amount of deduction shall be actual amount paid or deposited during the Previous Year in prescribed saving schemes [to be calculated] as qualifying amount for deduction u/s 80C or ₹ 1,00,000 whichever is less.

Qualifying Amount For Deduction u/s 80C

- (i) to effect or to keep in force an insurance on the life of persons specified in sub-section (4);

Note: Insurance premium on the life of an insured / premium payer, spouse and any children is allowable as deduction within the overall limit of ₹ 1,00,000. However, if the premium payable for any year is more than 20% of the actual sum assured, the excess amount does not qualify for any deduction.

With effect from the Assessment Year 2013-14, if the premium payable for any year is more than 10% of the actual sum assured, the excess amount does not qualify for any deduction.

According to Finance Act, 2013, if the policy issued on or after 01.04.2013, for insurance on life of any person, who is —

- (a) a person with disability or a person with severe disability as referred in Section 80U, or
- (b) suffering from disease or ailment as specified in the rules made u/s 80DDB,

the premium payable for any year should not be in excess of 15% of the actual sum assured.

The revised / amended provision is as follows :

1. The above provisions shall be applicable in case of policies issued on or after 1st April 2012.
2. In respect of the old policies, the earlier provision of 20% ceiling shall be applicable
3. Actual sum assured in relation to any life insurance policy shall mean the minimum amount assured under that policy on the happening of the insured event at any time during the term of the policy, not taking into account-

- (a) the value of any premiums agreed to be returned, or
- (b) any benefit by way of bonus or otherwise over and above the sum actually assured, which is to be or may be received under the policy by any person.

- (ii) to effect or to keep in force a contract for a deferred annuity, not being an annuity plan referred to in Clause (xii), on the life of persons specified in sub-section (4)

Provided that such contract does not contain a provision for the exercise by the insured of an option to receive a cash payment in lieu of the payment of the annuity;

- (iii) by way of deduction from the salary payable by or on behalf of the Government to any individual being a sum deducted in accordance with the conditions of his service, for the purpose of securing him a deferred annuity or making provision for his spouse or children, in so far as the sum so deducted does not exceed one-fifth of the salary;
- (iv) as a contribution by an individual to any provident fund to which the Provident Funds Act, 1925 (19 of 1925) applies;
- (v) as a contribution to any provident fund set up by the Central Government and notified by it in this behalf in the Official Gazette, where such contribution is to an account standing in the name of any person specified in sub-Section (4);
- (vi) as a contribution by an employee to a recognised provident fund;
- (vii) as a contribution by an employee to an approved superannuation fund;
- (viii) as subscription to any such security of the Central Government or any such deposit scheme as that Government may, by notification in the Official Gazette, specify in this behalf;
- (ix) as subscription to any such savings certificate as defined in clause (c) of Section 2 of the Government Savings Certificates Act, 1959 (46 of 1959), as the Central Government may, by notification in the Official Gazette, specify in this behalf;
- (x) as a contribution, in the name of any person specified in sub-section (4), for participation in the Unit-linked Insurance Plan, 1971 (hereafter in this Section referred to as the Unit-linked Insurance Plan) specified in Schedule II of the Unit Trust of India (Transfer of Undertaking and Repeal) Act, 2002 (58 of 2002);
- (xi) as a contribution in the name of any person specified in sub-section (4) for participation in any such unit-linked insurance plan of the LIC Mutual Fund referred to in clause (23D) of Section 10, as the Central Government may, by notification in the Official Gazette, specify in this behalf;
- (xii) to effect or to keep in force a contract for such annuity plan of the Life Insurance Corporation or any other insurer as the Central Government may, by notification in the Official Gazette, specify;
- (xiii) as subscription to any units of any Mutual Fund referred to in clause (23D) of Section 10 or from the Administrator or the specified company under any plan formulated in accordance with such scheme as the Central Government may, by notification in the Official Gazette, specify in this behalf;
- (xiv) as a contribution by an individual to any pension fund set up by any Mutual Fund referred to in clause (23D) of Section 10 or by the Administrator or the specified company, as the Central Government may, by notification in the Official Gazette, specify in this behalf;
- (xv) as subscription to any such deposit scheme of, or as a contribution to any such pension fund set up by, the National Housing Bank established under Section 3 of the National Housing Bank Act, 1987 (53 of 1987) (hereafter in this Section referred to as the National Housing Bank), as the Central Government may, by notification in the Official Gazette, specify in this behalf;
- (xvi) as subscription to any such deposit scheme of—
 - (a) a public sector company which is engaged in providing long-term finance for construction or purchase of houses in India for residential purposes; or

- (b) any authority constituted in India by or under any law enacted either for the purpose of dealing with and satisfying the need for housing accommodation or for the purpose of planning, development or improvement of cities, towns and villages, or for both, as the Central Government may, by notification in the Official Gazette, specify in this behalf;
- (xvii) as tuition fees (excluding any payment towards any development fees or donation or payment of similar nature), whether at the time of admission or thereafter,—
 - (a) to any university, college, school or other educational institution situated within India;
 - (b) for the purpose of full-time education of any of the persons specified in sub-section (4);
- (xviii) for the purposes of purchase or construction of a residential house property the income from which is chargeable to tax under the head "Income from House Property" (or which would, if it had not been used for the assessee's own residence, have been chargeable to tax under that head), where such payments are made towards or by way of—
 - (a) any installment or part payment of the amount due under any self-financing or other scheme of any development authority, housing board or other authority engaged in the construction and sale of house property on ownership basis; or
 - (b) any installment or part payment of the amount due to any company or co-operative society of which the assessee is a shareholder or member towards the cost of the house property allotted to him; or
 - (c) repayment of the amount borrowed by the assessee from—
 - (1) the Central Government or any State Government, or
 - (2) any bank, including a co-operative bank, or
 - (3) the Life Insurance Corporation, or
 - (4) the National Housing Bank, or
 - (5) any public company formed and registered in India with the main object of carrying on the business of providing long-term finance for construction or purchase of houses in India for residential purposes which is eligible for deduction under clause (viii) of sub-section (1) of Section 36, or
 - (6) any company in which the public are substantially interested or any co-operative society, where such company or co-operative society is engaged in the business of financing the construction of houses, or
 - (7) the assessee's employer where such employer is an authority or a board or a corporation or any other body established or constituted under a Central or State Act, or
 - (8) the assessee's employer where such employer is a public company or a public sector company or a university established by law or a college affiliated to such university or a local authority or a co-operative society; or
 - (d) stamp duty, registration fee and other expenses for the purpose of transfer of such house property to the assessee, but shall not include any payment towards or by way of—
 - (A) the admission fee, cost of share and initial deposit which a shareholder of a company or a member of a co-operative society has to pay for becoming such shareholder or member; or
 - (B) the cost of any addition or alteration to, or renovation or repair of, the house property which is carried out after the issue of the completion certificate in respect of the house property by the authority competent to issue such certificate or after the house property or any part thereof has either been occupied by the assessee or any other person on his behalf or been let out; or

(C) any expenditure in respect of which deduction is allowable under the provisions of Section 24;

- (xix) as subscription to equity shares or debentures forming part of any eligible issue of capital approved by the Board on an application made by a public company or as subscription to any eligible issue of capital by any public financial institution in the prescribed form;

Explanation — For the purposes of this clause,—

- (i) “eligible issue of capital” means an issue made by a public company formed and registered in India or a public financial institution and the entire proceeds of the issue are utilised wholly and exclusively for the purposes of any business referred to in sub-Section (4) of Section 80-IA;
 - (ii) “public company” shall have the same meaning assigned to it in Section 3 of the Companies Act, 1956 (1 of 1956);
 - (iii) “public financial institution” shall have the same meaning assigned to it in Section 4A of the Companies Act, 1956 (1 of 1956);
- (xx) as subscription to any units of any mutual fund referred to in clause (23D) of Section 10 and approved by the Board on an application made by such mutual fund in the prescribed form;
- (xxi) *as term deposit—*
- (a) *for a fixed period of not less than five years with a scheduled bank; and*
 - (b) *which is in accordance with a scheme framed and notified, by the Central Government, in the Official Gazette for the purposes of this clause.*
- (xxii) as subscription to such bonds issued by the National Bank for Agriculture and Rural Development, as the Central Government may, by notification in the Official Gazette, specify in this behalf;
- (xxiii) deposit in an account under the Senior Citizens Savings Scheme Rules, 2004;
- (xxiv) deposit in an account under the Post Office Time Deposit Rules, 1981 for a period of five years;

Taxability of Amount Received

1. In following cases the assessee shall have to pay tax on any amount received on:

- (i) Termination of his contract of insurance referred to at point (i) above by notice to that effect or where the contract ceases to be in force by reason of failure to pay any premium, by not reviving contract of insurance :
 - (a) in case of any single premium policy, within two years after the date of commencement of insurance; or
 - (b) in any other case, before premiums have been paid for two years; or
- (ii) Termination of his participation in any unit-linked insurance plan referred to above in point (x) and (xi) by notice to that effect or where he ceases to participate by reason of failure to pay any contribution, by not reviving his participation, before contributions in respect of such participation have been paid for five years; or
- (iii) Transfer of the house property before the expiry of five years from the end of financial years in which possession of such property is obtained by him, or receives back, whether by way of refund or otherwise, any sum specified in that clause, then :
 - (a) no deduction shall be allowed to the assessee under 80C(1) with reference to any of the sums referred to in point (i), (x), (xi) and (xviii), paid in such Previous Year; and
 - (b) the aggregate amount of the deductions of income so allowed in respect of the Previous Year or years shall be deemed to be the income of the assessee of such Previous Year and shall be liable to tax in the Assessment Year relevant to such Previous Year.

DEDUCTION IN RESPECT OF CONTRIBUTION TO PENSION FUND OF LIC OR ANY OTHER PENSION FUND [SEC. 80CCC]

1	Eligible Assessee	Individual
2	Condition	Investment or application of funds during the Previous Year
3	Maximum Deduction	₹ 1,00,000 in a Previous Year
4	Special Provisions	Withdrawal of deductions for certain premature exit from certain investments or application of funds

Deduction of a maximum amount of ₹ 1,00,000 is allowed to an individual assessee for the amount paid or deposited by the assessee during Previous Year to effect or keep in force a contract for annuity plan of LIC or any other insurer for receiving pension from the fund referred to in Sec. 10(23AAB). The whole of the amount received by an assessee or his nominee shall be taxable in the year in which the amount is so received. It may be mentioned that where deduction is claimed in respect of any amount paid or deposited, under this Section, no rebate u/s 88 shall be allowed with reference to the same amount. However, any payment in commutation of pension received from the fund referred to in Section 10(23AAB) is exempt u/s 10(10A)(iii).

Where any amount paid or deposited by the assessee has been taken into account for the purposes of this Section :

- (a) a rebate with reference to such amount shall not be allowed under Sec. 88 for any Assessment Year ending before the 1st day of April, 2006;
- (b) a deduction with reference to such amount shall not be allowed under Section 80C for any Assessment Year beginning on or after the 1st day of April, 2006.

IN RESPECT OF CONTRIBUTION TO PENSION SCHEME OF CENTRAL GOVERNMENT [SEC. 80CCD]

1	Eligible Assessee	Individual
2	Condition	Investment or application of funds during the Previous Year
3	Maximum Deduction	Up to 10% of his salary subject to maximum of ₹ 1,00,000
4	Special Provisions	Withdrawal of deductions for certain premature exit from certain investments or application of funds

Where any amount paid or deposited by the assessee has been allowed as a deduction under this Section:

- (a) No rebate with reference to such amount shall be allowed under Section 88 for any Assessment Year ending before the 1st day of April, 2006;
- (b) No deduction with reference to such amount shall be allowed under Section 80C for any Assessment Year beginning on or after the 1st day of April, 2006.

Tax benefits for New Pension System - extended also to "self-employed", and tax treatment of savings under this system as "exempt-exempt-taxed" [Section 10(44), 115-0, 197A and 80CCD W.r.e.f. A.Y. 2009-10]

Amendment in Section 80CCD: The tax benefit under Section 80CCD of the Income-tax Act, 1961 was hitherto available to "employees" only. However, the NPS now has been extended also to "self-employed". Therefore, the Act has also amended sub-Section (1) of Section 80CCD so as to extend the tax benefit there under also to "self-employed" individuals.

Further, in the case of an employee of Central Government or of any other employer, the deduction of employees' contribution shall be limited to 10% of his salary. Whereas in the case self-employed persons, it shall be limited to 10% of his Gross Total Income in the Previous Year.

Note : The Act has also inserted sub-section (5) to Section 80CCD to provide that for the purposes of

the said Section the assessee shall be deemed not to have received any amount in the Previous Year if such amount is used for purchasing an annuity plan in the same Previous Year.

RESTRICTION ON THE OVERALL LIMIT OF DEDUCTION [SEC. 80CCE]

The aggregate amount of deductions under Sec. 80C, Sec. 80CCC and Sec. 80CCD shall not, in any case, exceed one lakh rupees.

DEDUCTION IN RESPECT OF SUBSCRIPTION TO LONG-TERM INFRASTRUCTURE BONDS [SEC. 80CCF]

1	Eligible Assessee	Individual and HUF
2	Condition	Subscription paid or deposited in notified long-term infrastructure bonds
3	Maximum Deduction	₹ 20,000.

However, this Section is discontinued from the Assessment Year 2013-14

DEDUCTION IN RESPECT OF INVESTMENT MADE UNDER AN EQUITY SAVINGS SCHEME [SEC. 80CCG] [W.E.F. A.Y. 2013-14]

1	Eligible Assessee	Individual who is resident in India has, in a Previous Year, acquired listed equity shares or invested in listed unit of an equity oriented fund in accordance with a scheme, as may be notified by the Central Government in this behalf
2	Conditions	(i) The Gross Total Income of the assessee for the relevant Assessment Year <i>should not exceed</i> ₹ 12,00,000 (ii) The assessee is a <i>new retail investor</i> as may be specified under the scheme notified in this behalf; (iii) The investment is made in such listed equity shares as may be specified under the notified scheme; (iv) The investment is locked-in for a period of three years from the date of acquisition in accordance with the notified scheme; and (v) Such other condition as may be prescribed.
3	Maximum Deduction	The assessee shall be allowed a deduction, in the computation of his Total Income of the Assessment Year relevant to such Previous Year to the extent of - (a) 50% of the amount invested in such equity shares (b) ₹ 25,000 Whichever is less.

If any amount of deduction is claimed by any assessee in any year, the assessee would not be allowed to any other deduction under this section.

If any assessee after claiming the deduction fails to satisfy any of the conditions, the deduction originally allowed, shall be deemed to be income of the assessee of that year in which the condition so violated.

DEDUCTION IN RESPECT OF MEDICAL INSURANCE PREMIUM [SEC.80D]

1	Eligible Assessee	Individual and HUF
2	Condition	Investment or application of funds during the Previous Year by any mode of payment other than cash
3	Maximum Deduction	₹ 15,000. If they medical insurance premium is paid for senior citizen, then maximum deduction is up to ₹ 20,000

Deduction is allowed for any medical insurance premium **paid by any mode of payment other than cash** out of assessee's Taxable Income to GICI or any other approved or notified insurer during the Previous

Year, upto a maximum amount of ₹ 15,000. The deduction is allowed in respect of the following:-

- (a) In case of an individual – insurance on the health of the assessee or wife or husband, dependent parents or dependent children.
- (b) In case of a HUF – insurance on the health of any member of the family.

However, where the assessee or his wife or her husband or dependent parents or any member of his family of HUF is a senior citizen (whose age at any time during the year is 60 years or above w.e.f. A.Y. 2013-14), the limit of deduction is raised from ₹ 15,000 to ₹ 20,000.

Payment made on **preventive health check-up** for self, spouse, dependant children or parents during the Previous Year **by any mode of payment** (including cash), is eligible for deduction u/s 80D to the maximum of ₹ 5,000 [w.e.f. AY 2013-14].

DEDUCTION IN RESPECT OF MEDICAL TREATMENT OF HANDICAPPED DEPENDENT [SEC. 80DD]

Section 80DD of the Income Tax Act provides for a deduction to an individual or HUF, who is a resident in India, in respect of the following:

- (a) Expenditure for the medical treatment (including nursing), training and rehabilitation of a dependant, being a person with disability; and
- (b) Amount paid to LIC or other insurance in respect of a scheme for the maintenance of a disabled dependant.

1	Eligible Assessee	Individual and HUF
2	Condition	Expenditure for medical treatment during the Previous Year
3	Maximum Deduction	₹ 50,000, but where dependent is a person with severe disability, maximum deduction is ₹ 1,00,000.

If the handicapped dependent predeceases the individual or the member of HUF in whose name money has been deposited or paid, an amount equal to the amount paid or deposited under the scheme shall be deemed to be the income of the assessee of the Previous Year in which sum amount is received by the assessee and chargeable to tax in that Previous Year.

For the purpose of this Section dependent means a person who is not dependent for the support or main term on any person other than the assessee.

DEDUCTION IN RESPECT OF MEDICAL TREATMENT, ETC. [SEC. 80DDb]

1	Eligible Assessee	Individual and HUF
2	Condition	The amount should be actually paid for the medical treatment of specified disease
3	Maximum Deduction	₹ 40,000 but if the amount paid is for senior citizen (aged 60 years or more) then the ceiling limit is ₹ 60,000
4	Special Provisions	The assessee is required to furnish with the return of income, a certificate is prescribed Form No. 10-I

Deduction is allowed to a resident individual or Hindu Undivided Family in respect of expenditure actually during the P.Y., incurred for the medical treatment of specified disease or ailment as specified in the Rules 11DD for himself or a dependent relative or a member of an HUF.

Conditions :

- (i) The assessee has to furnish a certificate in Form 10 – I from any doctor registered with Indian Medical Association with postgraduate qualifications.
- (ii) “Dependent” means a person who is dependent for his support or maintenance on the assessee and on no other person.

A deduction of ₹ 40,000 is allowed as reduced by the amount received, if any, from an insurer or reimbursed by an employer for the medical treatment of such person.

Specified diseases and ailments under Section 80DDB and Rule 11DD –

- (i) Neurological Diseases i.e.
 - (a) Dementia;
 - (b) Dystonia Musculorum Deformans
 - (c) Motor Neuron Disease;
 - (d) Ataxia;
 - (e) Chorea;
 - (f) Hemiballismus
 - (g) Aphasia
 - (h) Parkinsons Disease
- (ii) Cancer
- (iii) AIDS
- (iv) Chronic Renal Failure
- (v) Hemophilia
- (vi) Thalassaemia

Note: From the Assessment Year 2013-14, the qualifying age for senior citizen has been reduced from 65 years to 60 years for the purpose of Section 80D and 80DD.

DEDUCTION IN RESPECT OF INTEREST ON LOAN TAKEN FOR HIGHER EDUCATION [SEC. 80E]

1	Eligible Assessee	Individual
2	Condition	The amount is paid by the assessee out of his income as interest on loan taken for higher education.
3	Maximum Deduction	100% of the interest paid on loan taken without any monetary ceiling limit.
4	Special Provisions	The assessee can claim the amount of interest in the initial Assessment Year & carry forward up to 7 Assessment Years.

In computing the Total Income of an assessee, being an individual, there shall be deducted, in accordance with and subject to the provisions of this Section, any amount paid by him in the Previous Year, out of his income chargeable to tax, by way of interest on loan taken by him from any financial institution or any approved charitable institution for the purpose of higher education of him or his relative [Section 80E(1)]

The deduction specified above shall be allowed in computing the Total Income in respect of the initial Assessment Year and seven Assessment Years immediately succeeding the initial Assessment Year or until the interest referred above is paid by the assessee in full, whichever is earlier [80E(2)]

Meaning of "relative" enlarged: The Act has enlarged the definition of "relative" given in clause (e) of sub-Section (3). As per the new definition "relative", in relation to an individual, means the spouse and children of that individual or the student for whom the individual is the legal guardian.

DEDUCTION IN RESPECT OF INTEREST ON LOAN FOR RESIDENTIAL HOUSE PROPERTY [SEC. 80EE]

1	Eligible Assessee	Individual
2	Condition	- Assessee has taken a loan from a financial institution during Financial Year 2013-14, for acquiring residential house property. - Amount of loan does not exceed ₹ 25 lakhs. - Value of house property does not exceed ₹ 40 lakhs. - Assessee does not own any residential house property on the date of sanction of loan
3	Maximum Amount of deduction	Interest payable for the previous year shall be deductible for the Assessment Year 2014-15 subject to a maximum of ₹ 1 lakh
4	Special Provision	If interest payable during the previous year 2013-14 is less than ₹ 1 lakh, the balance amount shall be allowed as deduction in the Assessment Year 2015-16.

From the Assessment Year 2014-15, any individual, not owning any residential house property on the date of sanction of loan, has taken loan for acquiring residential house property during the Financial Year 2013-14, is eligible for deduction u/s 80EE for the amount of interest paid on the loan upto a maximum of ₹ 1 lakh. If, however, interest payable is less than ₹ 1 lakh, the balance amount shall be allowed as deduction in Assessment Year 2015-16.

Conditions :

- (i) The amount of loan sanctioned for acquisition of the residential house property does not exceed ₹ 25 lakh.
- (ii) The value of residential house property does not exceed ₹ 40 lakh.

The interest allowed u/s 80EE can not be deductible under any other provision of the Act for the same or any other assessment year.

DEDUCTION IN RESPECT OF DONATIONS TO CERTAIN FUNDS, CHARITABLE INSTITUTIONS, ETC. [SEC. 80G]

Deduction under this Section is available to all assessees.

Conditions for claiming deduction:-

- (i) The donation should be of a sum of money and not in kind.
- (ii) The donation should be to specified funds/institutions.
- (iii) Amount paid by any mode of payment other than cash and if paid in cash the amount should not exceed ₹ 10,000.

Eligible Donation	Qualifying Deduction	Permissible Amount
1. PM's National Relief Fund; 2. PM's Armenia Earthquake Relief Fund; 3. The Africa (Public Contributions India) Fund; 4. The National Foundation for Communal Harmony 5. A university or any educational institution of national eminence as may be approved; 6. The National Illness Assistance Fund; 7. Any fund setup by the State Government of Gujarat exclusively for providing relief to the victims of earthquake in Gujarat; 17. Any sum paid during the period beginning with 26.1.2001 and ending on 30.9.2001 to any trust, institutions or fund recognised under Section 80G for providing relief to the victims of earthquake in Gujarat; 18. National Trust for Welfare of Persons with Autism, Cerebral Palsy, Mental Retardation and Multiple disabilities constituted under the relevant Act of 1999;	From item Nos. 1 to 23 there is no maximum limit (i.e. 100% of the amount will qualify for deduction)	Quantum of deduction for item Nos. 1 to 18, 20, 24 & 30 = 100% of the qualifying amount. For other items, quantum of deductions = 50% of the qualifying amount.

19. PM's Drought Relief Fund;		
20. The National Children's Fund;		
21. Jawaharlal Nehru Memorial Fund;		
22. Indira Gandhi Memorial Trust;		
23. Rajiv Gandhi Foundation;		
24. Contribution by a company as donations to the Indian Olympic Association or to any other Association notified by the Central Government u/s. 10(23);	From Sl. Nos. 24 to 30 qualifying amount shall be restricted to 10% of Adjusted Total Income	
25. Any approved fund or institution established for charitable purposes;	(i.e. G.T.I. as reduced by deductions u/s. 80CCC to 80U other than 80G and other income on which no tax is payable and other incomes on which deductions under Chapter VIA are not allowed)	
26. Government or local authority to be used for charitable purpose;		
27. Any authority set up for providing housing accommodation or town planning;		
28. Any corporation established by Government for promoting interest of scheduled caste/scheduled tribe/backward class;		
29. Renovation of notified temple mosque, church, or gurudwara or any other notified place of national importance;		
30. Government or local authority or approved institution/association for promotion of family planning;		

The requirements for approval of an institution or fund u/s 80G and rule 11AA are as under:

- (1) The application for approval of any institution or fund of section 80G(5)(vi) shall be in Form No.10G and shall be made in triplicate.
- (2) The application shall be accompanied by the following documents, namely:
 - (i) Copy of registration granted u/s 12A or copy of notification issued u/s 10(23) (omitted w.e.f. Assessment Year 2003-04) or 10(23C);
 - (ii) Notes on activities of institution or fund since its inception or during the last three years, whichever is less;
 - (iii) Copies of accounts of the institution or fund since its inception or during the last three years, whichever is less.
- (3) The Commission may call for such further documents or information from the institution or fund or cause such inquiries to be made as he may deem necessary in order to satisfy himself about the genuineness of the activities of such institution or fund.
- (4) Where the Commissioner is satisfied that all the conditions laid down in clauses (i) to (v) of Section 80G(5) are fulfilled by the Institution or fund, he shall record such satisfaction in writing and grant approval to the institution or fund specifying the assessment year or years for which the approval is valid.
- (5) Where the Commissioner is satisfied that one or more of the conditions laid down in clauses (i) to (v) of Section 80G(5) are not fulfilled, he shall reject the application for approval, after recording the reasons for such rejection in writing.

Provided that no order of rejection of an application shall be passed without giving the institution or fund an opportunity of being heard.

- (6) The time limit within which the Commissioner shall pass an order either granting the approval or rejecting the application shall not exceed six months from the date on which such application was made.

Provided that in computing the period of six months, any time taken by the applicant in not complying with the directions of the Commissioner under sub-rule (3) shall be excluded.

DEDUCTION IN RESPECT OF RENTS PAID [SEC. 80GG]

1	Eligible Assessee	Individual
2	Condition	The condition for deduction in respect of rents paid is given below.
3	Maximum Deduction	Amount of deduction is also given below.

The deduction in respect of rent paid is available to Individual with effect from Assessment Year 1998-99.

Conditions :

- (i) The assessee is not being in receipt of any house rent allowance following under clause (13A) of Section 10 from his employer.
- (ii) The expenditure incurred (for the purpose of his own residence) by way of rent for any furnished or unfurnished accommodation is in excess of 10% of his Total Income after allowing all deductions except deduction under this Section.
- (iii) The assessee or his spouse or minor child or an HUF of which he is a member, does not own any accommodation at the place where he ordinarily resides or performs duties of his office or employment or carries on his business/profession.
- (iv) If the assessee owns any accommodation at any place other than the place of employment or business and such accommodation is not in the occupation of the assessee and shall not be assessed in his hands as self occupied property.

Deduction : Least of the following :-

- (i) Rent paid minus 10% of Adjusted Total Income
- (ii) 25% of Adjusted Total Income
- (iii) ₹ 2,000 p.m.

Adjusted Total Income : Gross Total Income as reduced by :

- (a) Long Term Capital Gain, if any, included in the Gross Total Income
- (b) Short Term Capital Gain under section 111A, if any, included in the Gross Total Income
- (c) All deduction under Chapter VIA (Section 80CCC to 80U) other than the deduction under this Section.
- (d) Any income referred to in Sections 115A to D included in the Gross Total Income.

DEDUCTION IN RESPECT OF CERTAIN DONATIONS FOR SCIENTIFIC RESEARCH OR RURAL DEVELOPMENT [SEC. 80GGA]

In computing the Total Income of an assessee whose Gross Total Income does not include income from "Profits and Gains of Business or Profession", deduction shall be allowed of an amount paid by him to—

- (a) an approved scientific research association or University or College or other institution to be used for scientific research, research in social science or statistical research
- (b) an approved association or institution to be used for carrying out any approved programme or rural development

- (c) an approved institution or association which has the object of training of persons for implementing programmes of rural development [Sec. 35CCA]
- (d) public sector company or local authority or an approved association or institution for carrying out any eligible project or scheme u/s 35AC
- (e) association/institution/fund which has the object of carrying out any programme of conservation of natural resources or afforestation [Sec. 35CCB]
- (f) National Urban Poverty Eradication Fund (NUPEF)

Section 80GGA (2A) provides that no deduction shall be allowed under section 80GGA in respect of any sum exceeding ₹ 10,000 unless such sum is paid by any mode other than cash.

DEDUCTIONS BY COMPANIES TO POLITICAL PARTIES [SEC. 80GGB]

Allowable to : An Indian Company

Condition : Amount should be contributed by any mode other than cash.

Amount of Deduction : 100% of sum contributed during a Previous Year to any political party, registered u/s 29A of Representation of the People Act, 1951.

DONATIONS TO POLITICAL PARTIES [SEC. 80GGC]

Allowable to : Any person except local authority and an artificial juridical person wholly or partly funded by the Government.

Condition : Amount should be contributed by any mode other than cash.

Amount of Deduction : 100% of sum contributed during a Previous Year to any political party, registered u/s 29A of Representation of the People Act, 1951.

Contributions to an Electoral Trust also eligible for deduction under Section 80GGB and 80GGC

DEDUCTIONS IN RESPECT OF PROFITS & GAINS FROM INDUSTRIAL UNDERTAKINGS OR ENTERPRISES ENGAGED IN INFRASTRUCTURE DEVELOPMENT [SEC. 80IA]

The deduction under this Section is applicable to all assessees whose Gross Total Income includes any profits and gains derived from any business of an industrial undertaking or an enterprise as below :

Sl. No.	Classification of Industries	Period of commencement	Deduction
(i)	Any enterprise carrying on the business of developing or maintaining and operating or developing, maintaining and operation any infrastructure facility	On or after 1.4.1995	100% for 10 consecutive Assessment Years.
(ii)	Any undertaking providing telecommunication services whether basic or cellular including radio paging, domestic satellite service or network of trunking and electronic data interchange services.	From 1.4.95 to 31.3.2005	100% for first 5 years & 30% for the next 5 years.
(iii)	Any undertaking which develops or develops and operates or maintains and operates an industrial park notified by the Central Government.	From 1.4.97 to 31.3.2011	100% for 10 consecutive Assessment Years.
(iv)	An Industrial undertaking set up in any part of India for the generation or generation and distribution of power.	From 1.4.93 to 31.3.2014	100% for 10 consecutive Assessment Years.

(v)	An industrial undertaking which starts transmission or distribution of power by laying a network of new transmission or distribution lines.	From 1.4.99 to 31.3.2014	100% for 10 consecutive Assessment Years.
(vi)	An industrial undertaking starts business of substantial renovation and modernisation of existing transmission / distribution lines in Power Sector.	From 1.4.2004 to 31.3.2014	100% for 10 consecutive Assessment Years.
(vii)	Undertaking established for reconstruction / revival of Power Generation Plant	Established before 30.11.2005 to 31.3.2011	100% for 10 consecutive Assessment Years.

The deduction under this Section is available at the option of the assessee for any 10 consecutive Assessment Years out of 15 years beginning from the year in which the undertaking or enterprise develops and begins to operate any infrastructure facility or starts providing telecommunication services or develops an industrial part or generates power or commences transmission or distribution of power. However, in case of an infrastructure facility being a high way project including housing or other activities being an integral part of a high way project, the assessee can claim deduction for any 10 consecutive Assessment Years out of 20 years beginning from the year of operation.

Other Conditions :

- (i) For the purpose of completing deduction under this Section, the profits and gains of the eligible business shall be computed as if such eligible business were the only source of income during the relevant Previous Year.
- (ii) Where housing or other activities are an integral part of the high way project and the profits and gains of which have been calculated in accordance of the provision of the Section, the profits have not been liable to tax if the following conditions are not fulfilled :—
 - (a) The profits have been transferred to a special reserve account
 - (b) The same is actually utilised for the high way project excluding housing and other activities before the expiry of 3 years following the year of transfer to the reserve account.
 - (c) The amount remaining unutilised shall be chargeable to tax as income of the year in which such transfer to reserve account took place.
- (iii) Where the assessee is a person other than a company or a cooperative society, the deduction shall not be admissible unless the accounts of the industrial undertaking for the Previous Year relevant to the Assessment Year for which the deduction is claimed have been audited by an accountant and the report in Form No. 10CCB (Rule 18BBB) is furnished along with the return of income.
- (iv) Where any goods or services held for purposes of the eligible business are transferred to any other business carried on by the assessee or vice versa and if the consideration for such transfer does not correspond to the market value of such goods or services as on the date of transfer, the profits and gains of the eligible business shall be computed as if the transfer had been made at the market value of such goods or services as on that date. However, if the computation of profits and gains presents any difficulty in the opinion of the Assessing Officer, he may compute such profits and gains on such reasonable basis as he may deem fit. Similarly, where due to close connection between the assessee and other person for any other reason it appears to the Assessing Officer that the profits of the eligible business is increased to more than the ordinary profit, the Assessing Officer shall compute the profit on a reasonable basis for allowing the deduction.
- (v) If the profits and gains are allowed as deduction under this Section for any Assessment Year, no deduction under Sections 80HH to 80RRA to the extent of such profits and gains shall be allowed.

- (vi) Where any undertaking of an Indian company which is entitled to the deduction under this Section is transferred before expiry of the period of deduction to another Indian company in a scheme of amalgamation or demerger, no deduction has been admissible to the amalgamating or demerged company for the Previous Year in which amalgamation or demerger expressed and the amalgamated or the resulting company shall be entitled to the deduction as if the amalgamation or demerger had not been taken place.
- (vii) The Act has amended Section 80-IA(4) so as to enable an authority or a board or a corporation or any other body established or constituted under a Central or State Act which is not incorporated under the Companies Act, 1956 also to take advantage of the benefits provided under the said Section.

DEDUCTIONS IN RESPECT OF PROFITS AND GAINS BY AN UNDERTAKING OR ENTERPRISE ENGAGED IN DEVELOPMENT OF SPECIAL ECONOMIC ZONE [SEC. 80IAB]

- (1) Where the Gross Total Income of an assessee, being a Developer, includes any profits and gains derived by an undertaking or an enterprise from any business of developing a Special Economic Zone, notified on or after the 1st day of April, 2005 under the Special Economic Zones Act, 2005, there shall, in accordance with and subject to the provisions of this Section, be allowed, in computing the Total Income of the assessee, a deduction of an amount equal to one hundred per cent of the profits and gains derived from such business for ten consecutive Assessment Years.
- (2) The deduction specified in sub-section (1) may, at the option of the assessee, be claimed by him for any ten consecutive Assessment Years out of fifteen years beginning from the year in which a Special Economic Zone has been notified by the Central Government

Provided that where in computing the Total Income of any undertaking, being a Developer for any Assessment Year, its profits and gains had not been included by application of the provisions of sub-section (13) of Section 80-IA, the undertaking being the Developer shall be entitled to deduction referred to in this Section only for the unexpired period of ten consecutive Assessment Years and thereafter it shall be eligible for deduction from income as provided in sub-section (1) or sub-section (2), as the case may be

Provided further that in a case where an undertaking, being a Developer who develops a Special Economic Zone on or after the 1st day of April, 2005 and transfers the operation and maintenance of such Special Economic Zone to another Developer (hereafter in this Section referred to as the transferee Developer), the deduction under sub-section (1) shall be allowed to such transferee Developer for the remaining period in the ten consecutive Assessment Years as if the operation and maintenance were not so transferred to the transferee Developer.

- (3) The provisions of sub-section (5) and sub-sections (7) to (12) of Section 80-IA shall apply to the Special Economic Zones for the purpose of allowing deductions under sub-section (1).

DEDUCTION IN RESPECT OF PROFITS AND GAINS FOR CERTAIN INDUSTRIAL UNDERTAKING OTHER THAN INFRASTRUCTURE DEVELOPMENT UNDERTAKINGS [SEC. 80IB]

The deduction is available to the following undertaking or enterprises etc.

Sl. No.	Undertaking	% of Profit deductible	Period of deduction
A.	Ship- brought into use between 1.4.91 & 31.3.95	30	For the first 10 years

C.	Any other approved hotel (Hotels in the cities of Calcutta, Chennai, Delhi and Mumbai are not eligible) commenced between 1.4.97 and 31.3.2001	30	For the first 10 years

D.

Sl. No.	Classification of Industries	Period of Commencement between	Deduction of profits dividend
1	Industrial undertaking located in an industrially backward state specified in the Eighth Schedule;	1.4.1993 and 31.3.2004 (1.4.1993 and 31.3.2012 for an industrial undertaking in the State of Jammu and Kashmir)	100% for initial 5 years. Thereafter 30% for 5 years in case of company otherwise 25%. For cooperative society deduction is 100% of initial 5 years and thereafter 25% of 7 years.
2	Industrial undertaking located in industrially backward district notified by the Central Government		
	-Category A	1.10.1994 and 31.3.2004	100% for 5 years and 30% for next 5 years in case of companies (25% for others). For cooperative society 25% for 7 years. after 100% for initial 5 years.
	-Category B	1.10.1994 and 31.3.2004	100% for 3 years and 30% for next 5 years in case of company (25% for others). For cooperative society 25% for 9 years after 100% for initial 3 years.
3	Any company engaged in scientific and industrial research and development.	Approved by the prescribed authority after business for 31.3.2000 but before 1.4.2007	100% of the profits derived from such business for 10 years starting from the initial Assessment year.
4	Undertaking which begins commercial production of mineral oil –		100% for the first 7 consecutive Assessment Years starting from the initial Assessment Years.
	(a) in North Eastern Region.	Before 1.4.97	
	(b) in other Regions	On or after 1.4.97	
	Undertaking which begins refining of mineral oil.	On or after 1.10.98 but before 1.4.2012	
	Undertaking which begins production of natural gas	On or after 1.4.2009	

Sl. No.	Classification of Industries	Period of Commencement between	Deduction of profits dividend
5	Undertaking engaged in developing and building housing projects approved by a local authority: profits derived from of the plot of land minimum 1 acre area and residential unit built up to 1000 sq. ft. where such residential units are in Delhi/Mumbai or within 25 kms. for the municipal limits of these cities and 1500 sq. ft. at any other place. The build-up area of the shops and other commercial establishments included in the housing project should not exceed 3% of the total build-up area of the housing project or 5,000 sq.ft., whichever is more.[see note]	1.10.98 and 31.3.2008 [In case where housing project has been approved by local authority during 2004-05, the construction should be completed within 4 years from the end of the financial year in which the project is approved and if the project is approved on or after 1 st April, 2005, the construction should be completed within 5 years from the end of the financial year in which the project is approved]	100% of the profit derived from such business.
6	Industrial undertaking deriving profit from the business of setting up and operating a cold chain facility for agricultural produce.	1.4.1999 and 31.3.2004	100% for initial 5 years and thereafter 30% for 5 years in case of company (25% for others). For Co-operative Society after initial 5 years @100%, the next 7 years @ 25%
7	Undertaking engaged in integrated business of handling, storage and transportation of food grains.	On or after 1.4.2001	100% for initial 5 years. Thereafter 30% for 5 years for company (25% for others).
	Processing, preservation and packaging of meat and meat products or poultry/marine/dairy products	On or after 1.4.2009	
E	Finance Act, 2002, inserted Sec. 80IB(7A) and Sec.80IB(7B) allowing deduction in case of any multiplex theatre and convention centers w.e.f. AY 2003-04 as under :		
	- Multiplex theatre other than located within the municipal jurisdiction of Chennai, Delhi, Mumbai or Kolkata.	1.4.2002 and ending 31.3.2005	50% of the profits of 5 consecutive years beginning from the initial Assessment Year.
	- Convention Centre	1.4.2002 and ending 31.3.2005	50% of the profits of 5 consecutive years beginning from the initial Assessment Year.
F	Operating and maintaining a hospital		100% of the profits derived from such business for 5 consecutive years beginning from the initial Assessment Year.
	-in rural area	From 1.10.2004 to 31.3.2008	
	-in anywhere in India other than excluded area (w.e.f. AY 2009-10)	From 1.4.2008 to 31.3.2013	

Note: The objective of the tax benefit for housing projects is to build housing stock for low and middle income households. This has been ensured by limiting the size of the residential unit. However, this is being circumvented by the developer by entering into agreement to sell multiple adjacent units to a single buyer. Accordingly, the Act has inserted new clauses viz. clause (e) and (f) to Section 80-IB(10) to provide that the undertaking which develops and builds the housing project shall not be allowed to allot more than one residential unit in the housing project to the same person, not being an individual, and where the person is an individual, no other residential unit in such housing project is allotted to any of the following person:—

- (i) The individual or the spouse or minor children of such individual;
- (ii) The Hindu Undivided Family in which such individual is the Karta;
- (iii) Any person representing such individual, the spouse or minor children of such individual or the Hindu Undivided Family in which such individual is the Karta.

This amendment will take effect from 1-4-2010 and shall accordingly, apply in relation to Assessment Year 2010-11 and subsequent years.

Further, as per the Finance (No. 2) Act, 2009 the deduction will be available if the project is approved by the local authority before 31-3-2008 instead of 31-3-2007.

Where any goods held for the purposes of the eligible business are transferred to any other business carried on by the assessee, or where any goods held for the purposes of any other business are carried on by the assessee are transferred to the eligible business and, in either case, the consideration, if any, for such transfer as recorded in the accounts of the eligible business does not correspond to the market value of such goods as on the date of the transfer, then, for the purposes of the deduction under this section, the profits and gains of such eligible business shall be computed as if the transfer, in either case, had been made at the market value of such goods as on that date.

For the purposes of this sub-section w.e.f. A.Y. 2013-14, 'market value', in relation to any goods or services, means –

- (i) The price that such goods or services would ordinarily fetch in the open market; or
- (ii) The arm's length price as defined in clause (ii) of Section 92F, where the transfer of such goods or services is a specified domestic transaction referred to in section 92BA.

SPECIAL PROVISIONS IN RESPECT OF CERTAIN UNDERTAKINGS OR ENTERPRISES IN CERTAIN SPECIAL CATEGORY STATES [SEC. 80-IC]

- (1) Where the Gross Total Income of an assessee includes any profits and gains derived by an undertaking or an enterprise from any business referred to in sub-section (2), there shall, in accordance with and subject to the provisions of this Section, be allowed, in computing the Total Income of the assessee, a deduction from such profits and gains, as specified in sub-section (3).
- (2) This Section applies to any undertaking or enterprise,—
 - (a) which has begun or begins to manufacture or produce any article or thing, not being any article or thing specified in the Thirteenth Schedule, or which manufactures or produces any article or thing, not being any article or thing specified in the Thirteenth Schedule and undertakes substantial expansion during the period beginning—
 - (i) on the 23rd day of December, 2002 and ending before the 1st day of April, 2007 in any Export Processing Zone or Integrated Infrastructure Development Centre or Industrial Growth Centre or Industrial Estate or Industrial Park or Software Technology Park or Industrial Area or Theme Park, as notified by the Board in accordance with the scheme framed and notified by the Central Government in this regard, in the State of Sikkim; or
 - (ii) on the 7th day of January, 2003 and ending before the 1st day of April, 2012, in any Export Processing Zone or Integrated Infrastructure Development Centre or Industrial Growth

Centre or Industrial Estate or Industrial Park or Software Technology Park or Industrial Area or Theme Park, as notified by the Board in accordance with the scheme framed and notified by the Central Government in this regard, in the State of Himachal Pradesh or the State of Uttaranchal; or

- (iii) on the 24th day of December, 1997 and ending before the 1st day of April, 2007, in any Export Processing Zone or Integrated Infrastructure Development Centre or Industrial Growth Centre or Industrial Estate or Industrial Park or Software Technology Park or Industrial Area or Theme Park, as notified by the Board in accordance with the scheme framed and notified by the Central Government in this regard, in any of the North-Eastern States;

- (b) which has begun or begins to manufacture or produce any article or thing, specified in the Fourteenth Schedule or commences any operation specified in that Schedule, or which manufactures or produces any article or thing, specified in the Fourteenth Schedule or commences any operation specified in that Schedule and undertakes substantial expansion during the period beginning—

- (i) on the 23rd day of December, 2002 and ending before the 1st day of April, 2007, in the State of Sikkim; or
- (ii) on the 7th day of January, 2003 and ending before the 1st day of April, 2012, in the State of Himachal Pradesh or the State of Uttaranchal; or
- (iii) on the 24th day of December, 1997 and ending before the 1st day of April, 2007, in any of the North-Eastern States.

- (3) The deduction referred to in sub-Section (1) shall be—

- (i) in the case of any undertaking or enterprise referred to in sub-clauses (i) and (iii) of clause (a) or sub-clauses (i) and (iii) of clause (b), of sub-section (2), one hundred per cent of such profits and gains for ten Assessment Years commencing with the initial Assessment Year;
- (ii) in the case of any undertaking or enterprise referred to in sub-clause (ii) of clause (a) or sub-clause (ii) of clause (b), of sub-section (2), one hundred per cent of such profits and gains for five Assessment Years commencing with the initial Assessment Year and thereafter, twenty-five per cent (or thirty per cent where the assessee is a company) of the profits and gains.

- (4) This Section applies to any undertaking or enterprise which fulfils all the following conditions, namely:—

- (i) *it is not formed by splitting up, or the reconstruction, of a business already in existence*

Provided that this condition shall not apply in respect of an undertaking which is formed as a result of the re-establishment, reconstruction or revival by the assessee of the business of any such undertaking as is referred to in Section 33B, in the circumstances and within the period specified in that Section;

- (ii) it is not formed by the transfer to a new business of machinery or plant previously used for any purpose.

Explanation : The provisions of *Explanations 1* and *2* to sub-Section (3) of Section 80-IA shall apply for the purposes of clause (ii) of this sub-section as they apply for the purposes of clause (ii) of that sub-section.

- (5) Notwithstanding anything contained in any other provision of this Act, in computing the Total Income of the assessee, no deduction shall be allowed under any other Section contained in Chapter VIA or in Section 10A or Section 10B, in relation to the profits and gains of the undertaking or enterprise.
- (6) Notwithstanding anything contained in this Act, no deduction shall be allowed to any undertaking or enterprise under this Section, where the total period of deduction inclusive of the period of

deduction under this Section, or under the second proviso to sub-section (4) of Section 80-IB or under Section 10C, as the case may be, exceeds ten Assessment Years.

- (7) The provisions contained in sub-section (5) and sub-sections (7) to (12) of Section 80-IA shall, so far as may be, apply to the eligible undertaking or enterprise under this Section.
- (8) Deduction u/s 80-IC will not be allowed if the assessee does not furnish the Return of Income u/s 139(1).
- (9) For the purposes of this Section,—
 - (i) “Industrial Area” means such areas, which the Board, may, by notification in the Official Gazette, specify in accordance with the scheme framed and notified by the Central Government;
 - (ii) “Industrial Estate” means such estates, which the Board, may, by notification in the Official Gazette, specify in accordance with the scheme framed and notified by the Central Government;
 - (iii) “Industrial Growth Centre” means such centres, which the Board, may, by notification in the Official Gazette, specify in accordance with the scheme framed and notified by the Central Government;
 - (iv) “Industrial Park” means such parks, which the Board, may, by notification in the Official Gazette, specify in accordance with the scheme framed and notified by the Central Government;
 - (v) “Initial Assessment Year” means the Assessment Year relevant to the Previous Year in which the undertaking or the enterprise begins to manufacture or produce articles or things, or commences operation or completes substantial expansion;
 - (vi) “Integrated Infrastructure Development Centre” means such centres, which the Board, may, by notification in the Official Gazette, specify in accordance with the scheme framed and notified by the Central Government;
 - (vii) “North-Eastern States” means the States of Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland and Tripura;
 - (viii) “Software Technology Park” means any park set up in accordance with the Software Technology Park Scheme notified by the Government of India in the Ministry of Commerce and Industry;
 - (ix) “Substantial Expansion” means increase in the investment in the plant and machinery by at least fifty per cent of the book value of plant and machinery (before taking depreciation in any year), as on the first day of the Previous Year in which the substantial expansion is undertaken;
 - (x) “Theme Park” means such parks, which the Board, may, by notification in the Official Gazette, specify in accordance with the scheme framed and notified by the Central Government.

DEDUCTION IN RESPECT OF PROFITS AND GAINS FROM BUSINESS OF HOTELS AND CONVENTION CENTRES IN SPECIFIED AREA [SEC. 80ID]

- (1) Where the Gross Total Income of an assessee includes any profits and gains derived by an undertaking from any business referred to in sub-section (2) (such business being hereinafter referred to as the eligible business), there shall, in accordance with and subject to the provisions of this Section, be allowed, in computing the Total Income of the assessee, a deduction of an amount equal to one hundred per cent of the profits and gains derived from such business for five consecutive Assessment Years beginning from the initial Assessment Year.
- (2) This Section applies to any undertaking,—
 - (i) engaged in the business of hotel located in the specified area, if such hotel is constructed and has started or starts functioning at any time during the period beginning on the 1st day of April, 2007 and ending on the 31st day of July, 2010; or

- (ii) engaged in the business of building, owning and operating a convention centre, located in the specified area, if such convention centre is constructed at any time during the period beginning on the 1st day of April, 2007 and ending on the 31st day of July, 2010; or
 - (iii) engaged in the business of hotel located in specified district having a World Heritage Site, if such hotel is constructed and has started or starts functioning at any time during the period beginning on the 1st day of April, 2008 and ending on 31st day of March, 2013.
- (3) The deduction under sub-section (1) shall be available only if —
- (i) the eligible business is not formed by the splitting up, or the reconstruction, of a business already in existence;
 - (ii) the eligible business is not formed by the transfer to a new business of a building previously used as a hotel or a convention centre, as the case may be;
 - (iii) the eligible business is not formed by the transfer to a new business of machinery or plant previously used for any purpose.
 - (iv) the assessee furnishes along with the return of income, the report of an audit in such form and containing such particulars as may be prescribed, and duly signed and verified by an accountant, as defined in the Explanation to sub-section (2) of Section 288, certifying that the deduction has been correctly claimed.
- (4) Notwithstanding anything contained in any other provision of this Act, in computing the Total Income of the assessee, no deduction shall be allowed under any other Section contained in Chapter VIA or Section 10AA, in relation to the profits and gains of the undertaking.
- (5) The provisions contained in sub-section (5) and sub-sections (8) to (11) of Section 80-IA shall, so far as may be, apply to the eligible business under this Section.
- (6) For the purposes of this Section, -
- (i) "Convention Centre" means a building of a minimum 25,000 square metre covered plinth area with centralised air-conditioner comprising of at least 10 conventional halls to be used for the purpose of holding conference and seminars having other specified facilities and amenities.
 - (ii) "Hotel" means two-star, three-star or four-star category hotels as classified by the Central Government.
 - (iii) "Specified Area" means the National Capital Territory of Delhi and the district of Budh Nagar, Faridabad, Gurgaon, Gautam and Ghaziabad.

SPECIAL PROVISIONS IN RESPECT OF CERTAIN UNDERTAKINGS IN NORTH- EASTERN STATES [SEC. 80IE]

- (1) Where the Gross Total Income of an assessee includes any profits and gains derived by an undertaking, to which this Section applies, from any business referred to in sub-section (2), there shall be allowed, in computing the Total Income of the assessee, a deduction of an amount equal to one hundred per cent of the profits and gains derived from such business for ten consecutive Assessment Years commencing with the initial Assessment Year.
- (2) This Section applies to any undertaking which has, during the period beginning on the 1st day of April, 2007 and ending before the 1st day of April, 2017, begun or begins, in any of the North-Eastern States,—
- (i) to manufacture or produce any eligible article or thing;
 - (ii) to undertake substantial expansion to manufacture or produce any eligible article or thing;
 - (iii) to carry on any eligible business.
- (3) This Section applies to any undertaking which fulfils all the following conditions, namely:—
- (i) it is not formed by splitting up, or the reconstruction, of a business already in existence

Provided that this condition shall not apply in respect of an undertaking which is formed as a result of the re-establishment, reconstruction or revival by the assessee of the business of any such undertaking as referred to in Section 33B, in the circumstances and within the period specified in the said Section;

- (ii) it is not formed by the transfer to a new business of machinery or plant previously used for any purpose.

Explanation : The provisions of *Explanations 1* and *2* to sub-Section (3) of Section 80-IA shall apply for the purposes of clause (ii) of this sub-section as they apply for the purposes of clause (ii) of that sub-section.

- (4) Notwithstanding anything contained in any other provision of this Act, in computing the Total Income of the assessee, no deduction shall be allowed under any other Section contained in Chapter VIA or in Section 10A or Section 10AA or Section 10B or Section 10BA, in relation to the profits and gains of the undertaking.
- (5) Notwithstanding anything contained in this Act, no deduction shall be allowed to any undertaking under this Section, where the total period of deduction inclusive of the period of deduction under this Section, or under Section 80-IC or under the second proviso to sub-section (4) of Section 80-IB or under Section 10C, as the case may be, exceeds ten Assessment Years.
- (6) Deduction u/s 80-IE will not allowed if the assessee does not furnish the Return of Income u/s 139(1)
- (7) The provisions contained in sub-section (5) and sub-sections (7) to (12) of Section 80-IA shall, so far as may be, apply to the eligible undertaking under this Section.
- (8) For the purposes of this Section, -
- (i) "Substantial Expansion" means increase in the investment in the Plant and Machinery by at least 25% of the book value of Plant and Machinery as on the 1st day of the Previous Year in which substantial expansion is undertaken.
 - (ii) "Eligible Article or Thing" means the article or thing other than tobacco, manufactured tobacco substitute, plastic carry bag (Less than 20 Microns), and goods produced by petroleum oil or gas refineries.
 - (iii) "Eligible Business" includes –
 - Hotel (Not Below 2 Star Category),
 - Adventure & Leisure Sports including Ropeways,
 - Nursing Homes (Minimum 25 Beds),
 - Old-age Home,
 - Information Technology related Training Centre,
 - Manufacturing Information Technology related Hardware,
 - Vocational Training Institute for Hotel Management, Food Craft, Entrepreneurship Development, Nursing & Para Medical, Civil Aviation & Fashion Design & Industrial Training.
 - Bio-technology

DEDUCTION IN RESPECT OF PROFITS AND GAINS FROM BUSINESS OF COLLECTING AND PROCESSING OF BIO- DEGRADABLE WASTE. [SEC. 80JJA]

With effect from Assessment Year 1999-2000, where the Gross Total Income of an assessee include profits and gains derived from the business of collecting and processing or treatment of bio-degradable waste for generating power, or producing bio-fertilizers, bio-pesticides or other biological agents or for producing bio-gas or making pellets or briquettes for fuel or organic manure these shall be allowed in computing the Total Income of the assessee, a deduction of an amount equal to the whole of such profits and gains for a period of five consecutive Assessment Years beginning with the Assessment Year relevant to the Previous Year in which such business commences.

DEDUCTION IN RESPECT OF EMPLOYMENT OF NEW WORKMEN [SEC 80JJAA]

With effect from Assessment Year 1999-2000, an Indian company is allowed for deduction provided the following conditions are satisfied :

- (i) The Gross Total Income of the assessee includes profits and gains derived from the manufacture of goods in a factory
- (ii) The factory is not hived off or transferred from another existing undertaking or amalgamation with another industrial undertaking.
- (iii) The assessee employs new regular workmen in the Previous Year in such factory.
- (iv) The assessee furnishes the report of a Chartered Accountant in Form No. 10DA [Rule 19AB]

Deduction is available for 3 Previous Years commencing from the Previous Year in which such employment is provided.

Amount of deduction

- (i) **New industrial undertaking** : 30% of the wages paid to regular workmen in excess of 100 regular workmen employed during the year.
- (ii) **Existing undertaking** : 30% of the wages paid to new regular workmen provided there is at least 10% increase in number of regular workmen over the existing number of workmen employed in such undertaking, as on the last day of the preceding year.

Regular workmen

It does not include :—

- (a) a casual workman or
- (b) a workman employed through contract labour; or
- (c) any other workman employed for a period of less than 300 days during the Previous Year.

For the purpose of this section, factory shall have the same meaning as assigned to it in clause (m) of Section 2 of the Factories Act, 1948.

DEDUCTIONS IN RESPECT OF CERTAIN INCOMES OF OFFSHORE BANKING UNITS AND INTERNATIONAL FINANCIAL SERVICES CENTRE [SEC. 80LA]

(1) Where the Gross Total Income of an assessee,—

- (i) being a scheduled bank, or, any bank incorporated by or under the laws of a country outside India; and having an Offshore Banking Unit in a Special Economic Zone; or
- (ii) being a Unit of an International Financial Services Centre, includes any income referred to in sub-section (2), there shall be allowed, in accordance with and subject to the provisions of this Section, a deduction from such income, of an amount equal to—
 - (a) one hundred per cent of such income for five consecutive Assessment Years beginning with the Assessment Year relevant to the Previous Year in which the permission, under clause (a) of sub-section (1) of Section 23 of the Banking Regulation Act, 1949 (10 of 1949) or permission or registration under the Securities and Exchange Board of India Act, 1992 (15 of 1992) or any other relevant law was obtained, and thereafter;
 - (b) fifty per cent of such income for next five Assessment Years.

(2) The income referred to in sub-section (1) shall be the income—

- (a) from an Offshore Banking Unit in a Special Economic Zone; or
- (b) from the business referred to in sub-section (1) of Section 6 of the Banking Regulation Act, 1949 (10 of 1949) with an undertaking located in a Special Economic Zone or any other undertaking which develops or develops and operates or develops, operates and maintains a Special Economic Zone; or

- (c) from any Unit of the International Financial Services Centre from its business for which it has been approved for setting up in such a centre in a Special Economic Zone.
- (3) No deduction under this Section shall be allowed unless the assessee furnishes along with the return of income,—
 - (i) the report, in the form specified by the Central Board of Direct Taxes under clause (i) of sub-section (2) of Section 80LA, as it stood immediately before its substitution by this Section, of an accountant as defined in the *Explanation* to sub-section (2) of Section 288, certifying that the deduction has been correctly claimed in accordance with the provisions of this Section; and
 - (ii) a copy of the permission obtained under clause (a) of sub-section (1) of Section 23 of the Banking Regulation Act, 1949 (10 of 1949).

Explanation : For the purposes of this Section,—

- (a) "International Financial Services Centre" shall have the same meaning as assigned to it in clause (q) of Section 2 of the Special Economic Zones Act, 2005;
- (b) "Scheduled Bank" shall have the same meaning as assigned to it in clause (e) of Section 2 of the Reserve Bank of India Act, 1934 (2 of 1934);
- (c) "Special Economic Zone" shall have the same meaning as assigned to it in clause (za) of Section 2 of the Special Economic Zones Act, 2005;
- (d) "Unit" shall have the same meaning as assigned to it in clause (zc) of Section 2 of the Special Economic Zones Act, 2005.

DEDUCTION IN RESPECT OF CO-OPERATIVE SOCIETIES [SEC. 80P]

The following amounts are allowed as deduction under this Section –

- (i) 100% of the profits attributable to any or more of the following activities in the case of a cooperative society engaged in –
 - (a) carrying on business of banking or providing credit facilities to its members; or
 - (b) a cottage industry; or
 - (c) the marketing of the agricultural produce of its members; or
 - (d) the purchase of agricultural implements, seeds, live stock or other articles intended for agriculture for the purpose of supplying them to its members; or
 - (e) processing, without aid of power, of the agricultural produce of its members; or
 - (f) the collective disposal of the labour of its members; or
 - (g) fishing or allied activities; or
 - (h) primary cooperative society engaged in supplying milk raised by its member to a Federal Milk Co-operative Society or to the Government or a local authority or a Govt. Company or Corporation established under Central/State or Provincial Act. Similar benefit is also extended to a primary Cooperative Society engaged in supplying oilseeds, fruits and vegetables raised or grown by its members.
- (ii) The whole of interest and dividend income derived by a Cooperative Society from its investments in any other Cooperative Society;
- (iii) The whole of interest income from securities and property income in the case of a Cooperative Society other than housing society or an urban Consumer Society or a Society carrying on transport business where Gross Total Income does not exceed ₹ 20,000.

Urban Consumer Cooperative Society means a society for the benefit of consumers within the limits of Municipal Corporation, municipality, municipal committee, notified area committee, town area or cantonment.

- (iv) The whole of the income from letting of godowns or warehouses for storage, processing or facilitating the marketing of commodities.
- (v) In respect of other activities carried on either independently or in addition to above activities upto a sum of ₹ 50,000 (₹ 1,00,000 in case of Consumer Corporation Society) – U/s. 80P(2)(c).

Importance of Classification in registration:

Co-operative societies are classified under the respective State Co-operative Societies Acts as credit society, housing society, consumer co-operative society etc. This classification has apparently nothing to do with taxation as it is made for the purpose of regulating these institutions, which are under the purview and supervision of Registrars of Co-operative Societies. But, for income-tax purposes, there is a total immunity in respect of societies engaged in activities listed in section 80P(2)(a) and (b), while in respect of other co-operative societies deduction is partial.

A consumer co-operative society gets deduction of ₹1 lakh over and above the general exemption limit, while other co-operative societies get ₹50,000. Income by way of interest or dividend from any other co-operative society is totally exempt. So is the income of any co-operative society from letting of godowns or warehouses or storage or processing or facilitating marketing of commodities u/s 80P(2)(e). Section 80P also exempts total income upto ₹20,000 such exemption being confined to co-operative societies other than housing society or consumer society or societies engaged in transport business. This has now become meaningless with exemption limit for all co-operative societies having been raised. Co-operative societies are not deprived of the other deductions as for new industrial undertakings u/s 80-IA or for exports u/s 80-HHC or for that matter any other relief which is available for all persons. Section 80P(3) makes it clear that where deduction is available under other sections of Chapter VI-A, the exemption limit for co-operative societies will be applied after giving Chapter VI-A deductions to which it may be eligible.

DEDUCTION IN RESPECT OF ROYALTY OF AUTHORS [SEC. 80QQB]

Allowable to : Any resident individual, being an author/joint author, in respect of any income by way of lump sum consideration or otherwise as royalty or copyright fees for assignment or grant of any of his interests in the copyright of any book.

Amount of Deduction: 100% of the royalty income etc. subject to a maximum of ₹ 3,00,000.

In case of royalty or copyright fees, not in lump sum consideration, deduction shall be restricted to 15% of the value of books sold during the Previous Year.

Conditions:

- (1) The assessee shall furnish a certificate in Form 10CCD.
- (2) In case of income received from a source outside India, the assessee shall furnish a certificate in Form 10H.

DEDUCTION IN RESPECT OF ROYALTY ON PATENTS [SEC. 80RRB]

1	Eligible Assessee	Any resident individual
2	Condition	He must be registered under the Patents Act, 1970 on or after 1.4.2003, as the true and first inventor in respect of an invention, including a co-owner of the patent. The deduction is not available to assignees or mortgagees in respect of all or any rights of the patent
3	Maximum Cap	100% of such income subject to a maximum ₹ 3,00,000.
4	Special Provisions	(a) a certificate in Form 10CCE duly signed by the Controller under Patents Act. (b) a certificate in Form 10H, in case of income received from abroad, certifying that the deduction has been correctly claimed in accordance with this Section.

DEDUCTION IN RESPECT OF INTEREST ON DEPOSITS IN SAVINGS ACCOUNTS TO THE MAXIMUM EXTENT OF ₹ 10,000 [SECTION 80TTA] [W.E.F. A.Y. 2013-14]

Allowable to: an individual or a Hindu Undivided Family

Conditions: Where the Gross Total Income of an assessee, includes any income by way of interest on deposits (not being time deposits) in a saving account with-

- (a) a banking company to which the Banking Regulation Act, 1949 applies (including any bank of banking institution referred to in Section 51 of that Act);
- (b) a co-operative society engaged in carrying on the business of banking (including a co-operative land mortgage bank or a co-operative land development bank); or
- (c) a Post Office as defined in clause (k) of Section 2 of the Indian Post Office Act, 1898.

Allowable Deduction: A deduction of such interest shall be allowed to the maximum extent of ₹ 10,000.

However, where the income referred to in this Section is derived from any deposit in a savings account held by, or on behalf of, a Firm, an Association of Persons or a Body of Individuals, no deduction shall be allowed under this Section in respect of such income in computing the Total Income of any partner of the firm or any member of the association or any individual of the body.

Exemption U/s. 10(15)(i) – Post Office Savings Bank Account exempt upto ₹ 3,500/- (in an individual account) and ₹ 7,000 (in a joint Account) by virtue of notification number 32/ 2011

A consolidated study of Section 10(15)(i) and Section 80TTA provides (from Assessment Year 2013-14) as follows :

- (i) Exemption upto ₹ 3,500/- in a single account or / and ₹ 7,000/- in a joint account as deduction u/s. 10(15)(i)
- (ii) Deduction upto ₹ 10,000/- under Section 80TTA

DEDUCTION IN RESPECT OF TOTALLY BLIND OR MENTALLY RETARDED OR PHYSICALLY HANDICAPPED PERSON [SEC. 80U]

A resident individual suffering from permanent physical disability or total blindness or partial blindness or mental retardation reducing his capacity substantially for gainful employment is allowed a deduction of ₹ 50,000 or ₹ 1,00,000 in case of severe disability. The extent of blindness or other physical disability has to be certified by a Registered Medical Practitioner of the concerned discipline.

Such certificate has to be obtained from a physician, surgeon, etc. working in a Govt. Hospital. For the purpose of Sec. 80U of the Income Tax Act, 1961 any of the following disabilities shall be regarded as a permanent physical disability [Rule 11DD] e.g.–

- (i) permanent physical disability of more than 50% in one limb; or
- (ii) permanent physical disability of more than 60% in two or more limbs; or
- (iii) permanent deafness with hearing impairment of 71 decibels and above; or
- (iv) permanent and total loss of voice.

ILLUSTRATIONS ON DEDUCTIONS FROM GROSS TOTAL INCOME**Illustration 1.**

Mr. N is employed at a gross salary of ₹ 8,00,000. He gets ₹ 15,000 interest on bank deposit. He has made the following investment/deposit during the year 2013-2014:

	₹
1. Life insurance premium:	
(i) Own life, insured for ₹ 80,000	15,000

Compute deduction u/s 80C for the Assessment Year 2014-2015.

Solution :**Computation of Deduction u/s 80C of Mr. N for the Assessment Year 2014-2015**

Particulars	₹	₹
Deduction in respect of contribution to approved savings (Sec. 80C) :		
1. Life insurance premium (assumed issued before 1 st April, 2012);		
(i) Own life	15,000	
(ii) Brother's life	—	
(iii) Major son	4,000	
2. Contribution to unrecognised provident fund	—	
3. Contribution to ULIP	5,000	
4. Contribution to public provident fund	20,000	
5. Repayment of housing loan to SBI	60,000	
6. Accrued interest on NSC- VIII issue	1,632	
7. Education fees for two children:		
A	12,000	
B	9,000	
	1,26,632	
Deduction restricted upto ₹ 1,00,000		1,00,000

Illustration 2.

Mr. Jamal resident in India, has paid ₹ 60,000 for medical expenses during the Previous Year 2013-2014 for his wife suffering from cancer. Mrs. Jamal is also resident in India and turns 60 years of age on 31st March, 2014. The full treatment cost has been reimbursed by the General Insurance Corporation of India. Please determine if Mr. Jamal is entitled to any deduction under Sec. 80DDB and if the answer is yes, determine the quantum of deduction. Also, please work out the quantum of deduction in the following circumstances :

- I. Mrs. Jamal turns 60 years of age on 1 April, 2014 and the amount reimbursed by the insurer is ₹ 25,000. Payment of medical treatment was made out of exempted income.
- II. Mr. Jamal turns 60 years of age on 1 April, 2013 but Mrs. Jamal is 59 years, 11 months and 30 days as on 31 March, 2014 and the insurer has not reimbursed any expenditure.
- III. Mrs. Jamal is 61 years of age, a non-resident in India and the insurer has reimbursed ₹ 35,000
- IV. Mr. Jamal, though having assessable income in India, is actually resident in Sri Lanka and is getting his wife treated in India for sake of better and more advanced medical facilities Mrs. Jamal is residential in India and the insurer has reimbursed ₹ 20,000.
- V. The expenditure is incurred by the assessee on cancer treatment of his 25 year old grandson who is dependent on him and is resident in India. The insurer has not reimbursed the claim.
- VI. Mr. Jamal is able to produce the receipt of the medical expenditure only to the extent of ₹ 10,000 as he misplaced other receipts and the certificate in Form 10-I regarding the treatment of his wife does not mention the total amount incurred by him during the Previous Year. The insurer has reimbursed only ₹ 5,000.

Solution :

Amount of deduction under Sec. 80DDB : PY 2013-2014 / AY 2014-2015

Particulars	Existing	I	II	III	IV	V	VI
Gross deduction u/s 80DDB in respect of specified ailment of dependant wife.	60,000	40,000	40,000	40,000	Nil	Nil	10,000
Less : Insurance claim received	60,000	25,000	Nil	35,000	Nil	Nil	5,000
Net deduction allowable u/s 80DDB	Nil	15,000	40,000	5,000	Nil	Nil	5,000

Working Notes :

1. In order to be a senior citizen, a person should be a resident in India and be 60 years of age at any time during the Previous Year, be it one the last day of the Previous Year or at any time during the Previous Year. Therefore, except when Mrs. Jamal turns 60 after the end of the Previous Year or when she is a non-resident in India, the gross amount of deduction will be ₹ 40,000.
2. The assessee individual must be resident in India in order to be eligible to the deduction.
3. A grandson is not covered by the definition of "dependant".
4. Form No. 10-I does not require the doctor to certify the amount incurred.

Illustration 3.

Mr. C, manager of L Ltd., has paid ₹ 38,000 during the Previous Year 2013-2014 by way of medical insurance under GIC approved medical policies. The details are given as below:

- (i) For himself ₹ 6,000
- (ii) For Mrs. C, a Canadian citizen, resident in Toronto and not dependent on him ₹ 5,000

- (iii) For B, married son living with him and dependent on him ₹ 3,000
- (iv) For D, minor son resident in Toronto and not dependent on him ₹ 3,000
- (v) For Mrs. B, daughter-in-law, dependent on him ₹ 5,000
- (vi) For E, a minor grandson dependent on him ₹ 3,000
- (vii) For K, father, 67 years, resident and dependent on him ₹ 3,000
- (viii) For M, mother, 66 years, resident in Toronto and dependent on him ₹ 6,000
- (ix) For Grandfather, dependent on him, 95 years of age and resident in India ₹ 4,000.

C has earned gross salary of ₹ 2,50,000 during the year and also earns ₹ 95,000 as interest from 7% Capital Investment Bonds, purchased on 31 May 2004. Compute his eligible deduction u/s 80D for the Previous Year 2013-2014 assuming the following situations:

- I. Premium is paid by cheque from his salary income.
- II. Premium is paid in cash from his salary income. He holds a valid receipt for cash payment.
- III. Premium is paid by cheque out of interest from 7% Capital Investment Bonds, acquired on 31-5-2004.
- IV. Premium is paid in cash out of interest from 7% Capital Investment Bonds, acquired on 1-6-2004.

Solution :

Computation of Deduction for Medical Insurance Premium u/s 80D

Particulars of Medical Insurance premium paid	I ₹	II ₹	III ₹	IV ₹
For himself	6,000	Nil	Nil	Nil
For Mrs. C, a Canadian citizen, resident in Toronto and not dependent on him	5,000	Nil	Nil	Nil
For B, married son living with him and dependent on him	3,000	Nil	Nil	Nil
For D, minor son resident in Toronto and not dependent on him	Nil	Nil	Nil	Nil
For Mrs. B, daughter-in-law, dependent on him	Nil	Nil	Nil	Nil
For E a minor grandson, dependent on him	Nil	Nil	Nil	Nil
For K, father, 67 years, resident in India, a senior citizen and dependent on him	3,000	Nil	Nil	Nil
For M, mother, 66 years, resident in Toronto -not a senior citizen but dependent on him	6,000	Nil	Nil	Nil
For Grandfather, 95 years of age, dependent on him, resident in India, and senior citizen (not a parent, hence not eligible)	Nil	Nil	Nil	Nil
Eligible premium for Deduction u/s 80D	23,000	Nil	Nil	Nil

Working Notes :

- Medical insurance premium on spouse's health is always eligible irrespective of whether the spouse is dependent on the assessee or not. The condition of dependency applies only in case of children and parents.
- Medical premium on health of grandson, grandparents, daughter-in-law or son-in-law are not eligible for deduction u/s 80D.
- Only the premium on health of dependent father will qualify for relaxation as a senior citizen. Since dependent mother is non-resident and, therefore, outside the purview of being a "senior citizen". However, the premium for health of mother will qualify for the normal limit irrespective of the residential status.

4. Any premium paid in cash or by cheque or out of exempted income does not qualify for deduction u/s 80D.

Illustration 4.

Mr. Maity, a resident individual, furnishes the following particulars of his income/expenditure for the Previous Year 2013-2014 :

	₹
(i) Gross Salary	3,00,000
(ii) Income from House Property	1,70,000
(iii) Share of profit from an AOP	25,000
(iv) Long-term Capital Gain	50,000

He has paid medical insurance on his life, his wife and his dependent children. Total premium paid under GIC approved policies is ₹ 10,000 but a sum of ₹ 1,000 was paid in cash due to a prolonged bank clearing strike. He has spent ₹ 20,000 on the treatment of his brother, a dependant with disability. He has also deposited ₹ 25,000 with a specified company u/s 2(h) of Unit Trust of India (Transfer of Undertaking and Repeal) Act, 2003 for maintenance of his brother.

He has paid the following donations during the year:

Particulars of donations made during the year	₹
• Donation to P.M.'s National Relief Fund	10,000
• Donation to Jamia Milia University	5,000
• Donation to National Cultural Fund, set up by Central Government	5,000
• Donation to Delhi Municipal Corporation for Family Planning	12,000
• Donation to Birla Temple (notified):	
(i) for repair and renovation of the temple	2,000
(ii) for religious ceremonies, prasad, etc. for the benefit of devotees in general	5,000
• Donation to a temple managed by the Residents Welfare Association for its much needed repair and maintenance. The Association is a non-profit entity registered with the Registrar of Societies.	5,000
• Following donations to Pt. Pyare Lai Charitable Trust recognised by the Commissioner u/s 80G(5) (vi):	
(i) Donation in form of equity shares of blue chip companies: The shares were sold by the Trust at their market value of ₹ 75,000 and used wholly towards its charitable objectives. However, shares were transferred at cost,	25,000
(ii) Donation paid in cash,	5,000
(iii) Donation made by cheque,	7,000
(iv) 50 blankets costing ₹ 100 each.	5,000
• Donation made to Indian Olympic Association 80G(2)(c) paid by A/c payee cheque,	7,500
• Donation for developing low cost homes for slum-dwellers, paid	
(i) Delhi Development Authority,	3,000
(ii) Delhi Slum-dwellers Rehabilitation Society duly registered with the Registrar,	2,500
• The Rajiv Gandhi Foundation	6,000
• National Children's Fund	3,000

Mr. Maity borrowed a sum of ₹ 2,00,000 in 2003 @ 9% interest from Harsh Vardhan Charitable Trust (registered under Sec. 80G) to complete his B.Tech. degree from Nalanda University. In March 2014, he repaid a sum of ₹ 75,000 (including ₹ 20,000 interest) to the said trust.

Compute his Total Income for the Assessment Year 2014-2015.

Solution :

Computation of Total Income of Mr. Maity for the Assessment Year 2014-2015

Particulars	₹	₹
1. Income from Salary		3,00,000
2. Income from House Property		1,70,000
3. Share of profits from an AOP : Exempt (Sec. 86)		Nil
4. Long-term Capital Gains		50,000
		5,20,000
Gross Total Income		
5. Deduction from Gross Total Income :		
(i) Medical insurance premium (Sec. 80D)	9,000	
(ii) Expenditure on medical treatment and deposit for maintenance of a handicapped dependent relative (Sec. 80DD)	50,000	
(iii) Repayment of interest on loan for higher studies (Sec. 80E) (No deduction is allowed for repayment of principal amount of educational loan w.e.f. A.Y. 2008-2009)	20,000	
	79,000	
(iv) Charitable donations Sec. 80G – [See Note below]	44,000	1,23,000
Total Income		3,97,000

Working Note :

	₹	₹
Gross Total Income		5,20,000
Less : Aggregate of :		
(i) Share of profit in AOP entitled to rebate u/s 86.	Nil	
(ii) Any amount qualifying for deduction from GTI exempt for deduction for donation u/s 80G itself.	79,000	
(iii) Long-term Capital Gain	50,000	
(iv) Any to a NRI from dividend and interest etc. on foreign currency investment referred to u/s 115A, 115AB, 115AC, 115ACA, 115AD.	Nil	1,29,000
Adjusted Gross Total Income		3,91,000

Computation of Deduction for Donations u/s 80G

	₹	₹
A. Donations not subject to qualifying amount, eligible for deduction @ 100% of the amount donated :		
(i) Donation to P.M.'s National Relief Fund	10,000	
(ii) Donation to National Cultural Fund, set up by Central Government	5,000	
(iii) National children's Fund	3,000	18,000
B. Donation not subject to qualifying amount, eligible for deduction @ 50% of the amount donated :		
The Rajiv Gandhi Foundation	6,000	
Only 50% of the amount of donation available as deduction	6,000	3,000
C. Donation subject to qualifying amount :		
(i) Donation to Delhi Municipal Corporation for Family Planning	12,000	
(ii) Donation made to Indian Olympic Association 80G (2)(C) (available only to a company assessee)	Nil	
(iii) Donation to Jamia Milia University	5,000	
(iv) Donation to Birla Temple (notified) for repair and renovation of the temple.	2,000	
(v) Monetary donation to Pt. Pyare Lal Charitable Trust recognized by the Commissioner u/s 80G (5) (vi).	12,000	
(vi) Donation to Delhi Development Authority	3,000	
Aggregate of donations subject to qualifying amount	34,000	
Qualifying amount :		
Lower of the following :		
(a) 10% of Adjusted Gross Total Income, i.e. ₹ 39,100, or		
(b) Aggregate of donations, ₹ 34,000		
Whichever is less, is qualifying amount = 34,000		
100% of ₹ 12,000 out of the QA of 34,000	12,000	
50% of the balance of the QA i.e. 50% of (34,000-12,000)	11,000	23,000
Total deduction for donations u/s 80G		44,000

1. Medical Insurance Premium paid in cash is not allowable as a deduction.
2. Donation to a notified temple is allowed only if it is towards its repairs or maintenance and not otherwise.
3. Only donations paid in monetary terms that is, either in cash or by cheque are eligible for deduction. Conversion of donations in kind into cash by the donee or mere possibility of their conversion is immaterial.
4. Temple managed by the Resident Welfare Association is not a notified temple.

Illustration 5.

Mr. Jamal, a resident assessee, runs a manufacturing business in Delhi. For the Previous Year 2013-2014, he disclosed his Taxable Income as below:

	₹
Business Profits	2,55,000
Long-term Capital Gains	25,000
Short-term Capital Gain	15,000

He has hired furnished accommodation for his own use and pays ₹ 4,000 p.m. He has paid donation amounting to ₹ 10,000 to National Defence Fund. He has deposited ₹ 50,000 under a scheme framed by the Life Insurance Corporation for maintenance of his dependant brother with a disability. The disability is certified by the medical authority. Compute his Total Income for the Assessment Year 2014-2015.

Solution :**Computation of Total Income of Mr Jamal — Assessment Year 2014-2015**

Particulars	₹	₹
Income from Business (computed)		2,55,000
Long-term Capital Gain (computed)		25,000
Short-term Capital Gain (computed)		15,000
Gross Total Income		2,95,000
Deductions from Gross Total Income:		
(i) Deposit for maintenance of a dependent with disability [Sec. 80DD]	50,000	
(ii) Charitable donations to National Defence Fund [Sec. 80G]: Amount of Deduction @ 100% of ₹ 10,000	10,000	
	60,000	
(iii) Expenditure incurred on rent [Sec. 80GG] [W.N.1]	24,000	84,000
Total Income		2,11,000

Workings Note :

Particulars	₹	₹
Expenditure incurred on rent [Sec. 80GG]:		
• [Rent paid -10% of AGTI], i.e. 48,000 – 21,000 = 27,000, or		
• 25% of AGTI, i.e. 25% of 2,10,000 = 52,500, or		
• ₹ 2,000 p.m. = ₹ 24,000		
whichever is less, is to be deducted, i.e. ₹ 24,000		
Adjusted Gross Total Income for Sec. 80GG:		2,95,000
Gross Total Income		
Less: Aggregate of		
2. All permissible deduction from GTI except for deduction for u/s 80GG	60,000	
(ii) Any Long-term Capital Gain	25,000	85,000
Adjusted Gross Total Income [AGTI] for Sec. 80GG		2,10,000

**Illustration 6.**

M, resident in India, furnishes the following particulars of his receipts and outgoings during the Previous Year 2013-2014.

₹

Receipts:

(i) Income from Salary	2,00,000
(ii) Income from House Property	3,00,000
(iii) Gross winning from crossword puzzle	3,50,000

Outgoing :

(i) Contribution to LIC annuity plan	15,000
(ii) Medical insurance premium:	
(a) For himself	4,000
(b) His wife, not dependent	3,000
(c) Mother, non-resident, 67 years, dependent	5,000
(d) Nephew, wholly dependent with disability	3,000
(e) Grandson, dependent	2,000
(iii) Expenditure on medical treatment and maintenance of the nephew referred to	30,000
(iv) Medical treatment for grandson, suffering from a disease specified under Income-tax Rules(v)	50,000
(v) Donation to Gujarat Government for family planning	50,000
(vi) Scholarship to a poor but meritorious student	20,000
(vii) Contribution to approved scientific research association	30,000
(viii) Contribution to Delhi Municipal Corporation for sewage scheme for slum-dwellers, approved by National Committee	50,000
(ix) Donation to Political party paid during November, 2013	20,000

Compute his Total Income for the Assessment Year 2014-2015. Make necessary assumptions and clarify them.

Solution :**Computation of Total Income for AY 2014-2015**

Particulars	₹	₹
Income from Salary		2,00,000
Income from House Property		3,00,000
Gross winnings from crossword puzzle		3,50,000
Gross Total Income		8,50,000
Less: Deductions under Chapter VIA :		
Contribution to LIC annuity plan [Sec. 80CCC]	15,000	
Medical insurance premium [Sec, 80D]		
Self	4,000	
His wife	3,000	
Mother, 67 years old	5,000	
Nephew dependent with disability	Nil	
Grand son	Nil	
	12,000	
Maintenance and medical treatment of a dependent with disability [Sec. 80DD]	Nil	
Expenditure for medical treatment of grandson [Sec. 80DDb]	Nil	
Donations for scientific research or rural development [Sec. 80-GGA]		
(a) Donation to approved scientific research association	30,000	
(b) Contribution to MCD for slum-dwellers scheme, approved by National Committee	50,000	
Donations to political party [Sec. 80GGC w.e.f. 22.9.2004]	20,000	
Charitable donations [Sec. 80G]		
(a) Scholarship to a poor meritorious student	Nil	
(b) Gujarat government for family planning: 100% of qualifying amount		
1. Actual donation = 50,000, or		
2. 10% of specified GTI = 37,300		
8,50,000 – (3,50,000 + 15,000 + 12,000 + 30,000 + 50,000 + 20,000) = ₹ 3,73,000		
whichever is less, is QA 37,300 = 100% of 37,300	37,300	1,64,300
Total Income		6,85,700

Illustration 7.

SK Industries, a diversified group, discloses profit from the following sources for the Previous Year 2013-2014 :

	(₹ in lakhs)
(i) Profits from industrial undertaking located in backward district notified by Central Govt. (Category A), started in 2003-2004	6.00
(ii) Profit from industrial undertaking 1998-99, in Vidisha, a B-class industrially backward district.	10.00
(iii) Profit from multiplex theatre, started in 2007-2008	
(a) Delhi	4.00
(b) Allahabad	2.00

- (iv) Profits from convention centre, started in 2009-2010
- (a) Delhi 5.00
- (b) Allahabad 3.00
- (v) Profits from Hill View, a hotel started in 2004-2005 at Manali in Himachal Pradesh. Hotel is approved by prescribed authority 10.00
- (vi) Profits from undertakings engaged in refining of mineral oil since 1st January, 2007 in Uttar Pradesh, not listed in backward state in Eighth Schedule. 10.00

Compute the Total Income for the Assessment Year 2014-2015.

Solution :

Computation of Total Income

Assessee: S.K Industries

Previous Year-2013-14

Assessment Year- 2014-15

Particulars	(₹ lakhs)	(₹ lakhs)
(i) Profits from industrial undertaking located in backward district		6.00
(ii) Profits from undertaking located in industrially backward B-class district		10.00
(iii) Profits from multiplex theatre: (4 + 2) =		6.00
(iv) Profits from convention centre : (5+3) =		8.00
(v) Profits from Hill View Hotel		10.00
(vi) Profits from refining undertaking		10.00
Gross Total Income		50.00
Less : Deduction in respect of profits and gains from certain industrial undertaking, other than infrastructure undertakings (Sec. 80-IB) :		
1. Profits from industrial undertaking located in backward district [Sec. 80-IB (3)] : 25% of ₹ 6 Lakh	1.50	
2. Profits from undertaking in B-class industrially backward district [Sec. 80-IB (4)] [No deduction is available]	Nil	
3. Profits from multiplex theatre [Sec. 80-IB(7A) 50% of ₹ 2 lakh (No deduction is available)]	Nil	
4. Profits from convention centre [Sec. 80-IB(7B)] [No deduction is available]	Nil	
5. Profits from Hill View Hotel [Sec. 80-IB(7)] Allowed only for Indian company	Nil	
6. Profits from refining undertaking [Sec. 80-IB(9)]-100% of profits for 7 Assessment Years	10.00	11.50
Total Income		38.50

Illustration 8.

Evergreen Construction (P) Ltd. has earned profits during the P.Y. 2013-2014 from construction and sale of flats under three housing projects, developed at Rajarhat, Kolkata, details of which are given below:

(₹ in lakhs)

(a) Profits from construction and sale of flats, built up on a plot of 1.5 acres, built up area of the flat 1400 sq. feet, located 30 k.m. from Kolkata.	80.00
(b) Profits from construction and sale of flats, built up on a plot of 1 acre, built up area 1050 sq. feet, located within 25 k.m. from Mumbai.	60.00
(c) Profits from construction and sale of flats, built on a plot of 0.90 acre, built up area 1000 sq. feet, located 35 k.m. from Kolkata.	40.00

The housing projects have been approved by the Kolkata Industrial Development Authority in the year 1st April, 2010. Compute its Total Income for the Previous Year 2013-2014 relevant for the A.Y. 2014-2015. Would your answer be different in the following cases:

- (i) The housing projects were not approved.
- (ii) The housing project is carried out in accordance with a scheme approved by West Bengal Government for redevelopment of buildings in slum areas.
- (iii) The company was engaged only in the sale of flats and not developing and building the housing project.

Solution :**Computation of Total Income for the AY 2014-2015**

Particulars	(₹ in lakh)	(₹ in lakh)
Profits from Project (a)		80.00
Profits from Project (b)		60.00
Profits from Project (c)		<u>40.00</u>
Less :		180.00
Deductions from profits and gains from certain industrial undertaking other than infrastructure undertaking (Sec. 80-IB):		
(1) Profits from Housing Project (a) are fully deductible as the size of flat not exceeding the prescribed area 1500 sq feet.	80.00	
(2) Profits from Housing Project (b) not deductible as the area of the flat exceeds the prescribed area of 1000 sq feet.	Nil	
(3) Profits from Housing Project (c) not deductible as the size of the Housing plot is less than 1 acre.	<u>Nil</u>	(-) 80.00
Total Income		100.00

- (i) If the housing projects were not approved, then no deduction u/s 80IB is available. Hence, Total Income will be ₹ 180 Lakhs
- (ii) Here, deduction u/s 80IB is allowed and hence, Total Income is ₹ 100 Lakhs
- (iii) Here, deduction u/s 80IB is not allowed, hence, Total Income is ₹ 180 Lakhs

**Illustration 9.**

Mekon Ltd., an Indian company, starts an industrial undertaking on 1st April, 2013. During the Previous Year, it earns profits of ₹ 80 lakh before allowing any deduction for wages. Compute its Total Income for the Previous Year 2013-2014 taking into account the following employment schedules of workers:

Date of employment	Number of workers	Status of workers	Rate of wages
1-5-2013	90	Casual	3000 p.m.
1-6-2013	20	Regular	4000 p.m.
1-7-2013	10	Regular	4000 p.m.

Solution :**Computation of Total Income for the AY 2014-2015**

Particulars	₹	₹
Profits before allowing deduction for wages		80,00,000
Less: Wages paid to workers [Sec. 37(1)] :		
(i) 90 × ₹ 3000 × 11	29,70,000	
(ii) 20 × ₹ 4000 × 10	8,00,000	
(iii) 10 × ₹ 4000 × 9	<u>3,60,000</u>	(-) 41,30,000
Business Profits and Gross Total Income		38,70,000
Less: Deduction in respect of employment of new workmen [Sec. 80 JJAA] 30% (₹ 4000×10×10) [Excess of 100 workmen (including casual)]		(-) 1,20,000
Total Income		37,50,000

Illustration 10.

Mr. R has developed an improved economical model of a motor cycle and got it patented on 31-3-2013 under the Patent Act, 1970. He allowed Z Ltd. to use his patent rights and licenses has been granted to it under the Patent Act, 1970. He has received royalty of ₹ 8,00,000 during the Previous Year 2013-2014. However, the royalty in accordance with the terms and conditions of the license settled by the Controllers under the said Act is ₹ 2,80,000.

He has incurred ₹ 1,00,000 expenses in developing his invention and getting it patented.

Compute his Total Income for the Assessment Year 2014-2015 (i) if he is resident in India, (ii) non-resident India.

Solution :**Computation of Total Income for the Assessment Year 2014-2015**

Particulars	(i) ₹	(ii) ₹
Income from Other Sources	8,00,000	8,00,000
Less : Expenses	<u>1,00,000</u>	<u>1,00,000</u>
Gross Total Income (GTI)	7,00,000	7,00,000
Less: Deduction for respect of royalty on patent (Sec. 80-RRB)		
Least of the followings:		
(a) Income from royalty ₹ 8,00,000; or		
(b) Royalty under the terms of license settled by the Controller ₹ 2,80,000;		
(c) Maximum limit ₹ 3,00,000		
Whichever is less, is to be deducted	2,80,000	Nil
Total Income	4,20,000	7,00,000

Illustration 11.

Mr. J is suffering with 60% locomotor disability which is certified by medical authority. He is employed as Technical Supervisor with Air Tel at a salary of ₹ 20,000 p.m.

Particulars	₹
(i) Income from Government securities	20,000
(ii) Long-term Capital Loss	(-) 40,000
(iii) Short-term Capital Gain (Sec. 111A)	1,00,000
(iv) Insurance commission (gross)	1,00,000
(v) Interest on Saving Fund A/c from Bank	10,000

He has incurred the following expenses:

(i) Medical insurance paid by cheque for his father, resident in India and 70 years	18,000
(ii) Deposit with LIC for maintenance of father, mainly dependant on him for support and maintenance and suffering from low-vision with a severe disability of 80%, as per certificate of the medical authority	1,00,000
(iii) Rent paid for the year 2013-2014 for accommodation hired by him.	40,000

Compute his Total Income for the Assessment Year 2014-2015.

Solution :**Computation of Total Income for the Assessment Year 2014-2015**

Particulars	₹	₹
1. Income from Salaries		2,40,000
2. Income from Capital Gains :		
(a) Short-term Capital Gains (Sec. 111A)		1,00,000
(b) Long-term Capital Loss to be carried forward		Nil
3. Income from Others Sources :		
(a) Interest from Government securities	20,000

Mr. Krishna is a lawyer of Allahabad High Court. He keeps his accounts on cash basis. His Receipts and Payments A/c for the year ended 31-03-2014 is given below :

Dr.

Cr.

Receipts	₹	Payments	₹
Balance b/d	3,820	Purchase of Infrastructure Bonds	20,000
Legal fees	3,45,000	Subscription and membership	4,500
Special commission fees	5,500	Purchase of legal books	17,500
Salary from Law College as part time lecture	87,000	Rent	47,500
Exam. Remuneration	1,480	Municipal Tax paid on H. P.	3,000
Interest on Bank Deposit	3,500	Car expenses	44,000
Sale proceeds of residential property	3,01,000	Office expenses	38,500
Dividend from Co-operative society	1,000	Electricity Exps.	4,000
Dividend received from the units of UTI	2,000	Income Tax	8,000
Rent from house property	15,000	Gift to daughter	12,000
		Domestic expenses	85,000
		Donation to Institutions approved u/s 80G	12,000
		Car purchased	3,27,000
		Life Insurance premium	16,000
		Balance c/d	1,26,300
	7,65,300		7,65,300

Following information are available :

1. The Rent and Electric expenses are related to a house, of which half portion is used for self residence and remaining half portion is used for office.
2. Car is used only for professional purposes.
3. Outstanding legal fees ₹ 10,000.
4. Rent has been paid for 10 months only.
5. Car was purchased on 25-09-2013. Law books purchased are annual publications out of which books of ₹ 2,000 were purchased on 6-4-2013 and balance on 31-10-2013.
6. The house was purchased in January 1988 for ₹ 45,000 and sold on 1-7-2013.
7. Rent of the property which has been sold was ₹ 5,000 p.m. The property was vacated by the tenant on 30-6-2013.

Compute his Total Income for the Assessment Year 2014-15.

Solution :**Computation of Total Income of Mr. Sen for the Assessment Year 2014-15**

Particulars	₹	₹
1. <i>Income from Salary</i> Salary as a part time lecturer Less: Deduction	87,000 Nil	87,000
2. <i>Income from House Property</i> Annual Rent Less: Vacancy Allowance Gross Annual Value (GAV) Less: Municipality Tax paid Net Annual Value (NAV) Less: Standard deduction @ 30% of NAV	60,000 45,000 15,000 3,000 12,000 3,600	8,400
3. <i>Income from Profession</i> Professional Earnings: (i) Legal fees (ii) Special commission Less: Allowable expenses (i) Subscription etc. (ii) 1/2 Rent (Office) (iii) Car expenses (iv) 1/2 electric charges (v) Office expenses (vi) Depreciation on car @ 15% on 3,27,000 (vii) Depreciation on books: @ 100% on Annual Publication of ₹ 2,000 = 2,000 @ 50% on Others of 15,500 = 7,750	3,45,000 5,500 3,50,500 4,500 23,750 44,000 2,000 38,500 49,050 9,750	1,78,950
4. <i>Capital Gains :</i> Sale consideration Less: Indexed cost of acquisition $45,000 \times \frac{939}{150}$	3,01,000 2,81,700	19,300
5. <i>Income from Other Sources :</i> Interest on bank deposit Examiner's fees Dividend from Co-operative Society Dividend from UTI Gross Total Income Less : Deductions (i) 80C - LIP (ii) 80G - Donation @ 50% of ₹ 12,000 (iii) 80CCF - Purchase of Infrastructure Bonds (discontinued) (iv) 80TTA – Interest on bank deposit (assumed savings deposit)	3,500 1,480 1,000 Exempt 16,000 6,000 Nil 3,500	5,980 2,99,630 25,500
Total Income		2,74,130

Notes :

1. As the assessee follows the cash system of accounting, amount actually received and payment actually made on account of expenditure, during the year, shall be considered for computing the income. Therefore, any outstanding receipts will not be included in the Total Income. Similarly, rent not paid for two months will not be allowed as deduction.
2. The system of accounting does not affect the computation of Income from Salary, House Property and Capital Gains. Therefore, in this case, rent for three months, though not received (as it has not been shown in the Receipt and Payment Account) shall be taken into account in computing the income under the head House Property.
3. Car was purchased and put to use for more than 180 days. Therefore, full depreciation @15% has been claimed.
4. Law books worth ₹ 2,000 were purchased and put to use for more than 180 days and are, therefore, eligible for depreciation @100%. The balance books worth ₹ 15,500 were purchased on 31-10-2013; therefore, 50% of the normal depreciation will be allowed as the books were purchased and put to use for less than 180 days. The total depreciation shall, therefore, be ₹ 2,000 + 50% of ₹ 15,500 = ₹ 9,750.

Illustration 13.

Dr. Paul is running a Nursing Home with his wife Dr. (Mrs.) Paul as a partnership firm Paul & Co. On the basis of the following particulars, compute the Total Income of Dr. Paul and Dr. (Mrs.) Paul for the Assessment Year 2014-15.

(A) Particulars of income of the Nursing Home	₹
(i) Income as per Income and Expenditure Account	3,20,000
(ii) Firm's tax not provided in the account	48,000
(iii) Donation to Public Charitable Trust exempt u/s 80G debited in the A/c	35,000
(B) Particulars of Income of Dr. Paul :	
(i) 40% of profit from Nursing Home as per books ₹ 1,28,000	
(ii) Dr. Paul had purchased 500 shares of Laha (P) Ltd. at ₹ 110 each in May 1990. On 14-5-2013 Dr. Paul sold 300 shares at ₹ 400 per share. He invested ₹ 40,000 out of the net sale proceeds in Bonds of RECL in June, 2013. The balance of 200 shares were sold in December, 2013 at ₹ 380 per share.	
(iii) Dr. Paul is a Director in Raha (P) Ltd. from which he received director's fees amounting to ₹ 4,000.	
(iv) Dr. Paul has obtained a loan of ₹ 50,000 from the said company for renovating the Nursing Home. The balance sheet of Raha (P) Ltd. for the Accounting year, <i>inter alia</i> , disclosed the following particulars.	
(a) General Reserve	40,000
(b) Profit & Loss Account (Cr. Balance)	20,000
	<u>60,000</u>
(v) Share of income from property belonging to HUF of which Dr. Paul is the Karta amounts to ₹ 30,000.	
(C) Particulars of Income of Dr. (Mrs.) Paul :	₹
(i) 60% share of profit from Nursing Home as per books	1,92,000
(ii) Income from dividend from UTI	18,000
(iii) Income from house property (as computed under Income-tax Act)	48,000

(D) Particulars of Income of Master Pritam :

Pritam minor son of Dr. Paul and Dr. (Mrs.) Paul has been admitted to the benefits of partnership in Paul & Co. which is carrying on business as Chemists & Druggists. The said firm has two other partners Soham (brother of Dr. Paul) and Priya [sister of Dr. (Mrs.) Paul]. Pritam's share of profits is determined at ₹ 20,000.

Solution :**Computation of Total Income of Paul & Co.****A.Y. : 2014-15**

	₹
Income as per Income and Expenditure Account	3,20,000
Add : Donation to public charitable trust	35,000
Gross Total Income	3,55,000
Donation to public charitable trust being restricted to 10% of Gross Total Income (3,55,000) i.e. 50% of ₹ 35,000	17,500
Total Income	3,37,500
Total tax <i>plus</i> education cess <i>plus</i> SHEC payable by the firm ₹ 1,04,288.	

Computation of Total Income of Dr. Paul**A.Y.: 2014-15**

Particulars	₹	₹
1. His income from the Nursing Home is not taxable. (as tax is already paid by the firm)		Nil
2. Capital Gains

Since the value of gifts received is less than ₹ 5,000, it shall be exempt from tax.

3. As the total income of Mr. X is more than ₹ 5,00,000, rebate u/s 87A is not available.**Illustration 16.**

M, an individual, retired from the services of a Company on 31.10.2013. He joined another employer on 1.11.2013 and was in service till end of March, 2014, when he furnishes the following details and information —

1. Salary and Allowances for the period

From First Employer	₹ Per month
Basic Salary	30,000
Dearness Allowance	16,000
Conveyance Allowance	6,000
From Second Employer	₹ Per month
Basic Salary	35,000
Fixed Conveyance Allowance	8,000

2. While he was with the first employer, M contributed 10% of his basic salary to a Provident Fund

Account with the Regional Provident Fund Commissioner. He did not become a member of the Provident Fund maintained by the second employer.

3. M was permitted by the second employer to encash 15 days leave he had accumulated during his service and received ₹ 12,500 from his employer.
4. M had constructed a residential house in Chennai in February 2009 for ₹ 30 Lakhs. Part of the costs of construction was met by borrowals of ₹ 20 lakhs from the Housing Development Corporation, at interest of 12.5% p.a. The loan was taken on June 2008. The loan outstanding at the beginning of the current year was ₹ 12,00,000. The rate of interest applicable for the current year was reduced to 9% p.a. due to reduction in rates. [He had also borrowed from some relatives ₹ 4,00,000 on which interest at 15% p.a. was due.] The property had been let-out soon after completion.
5. In the Assessment Year 2009-10, M was allowed a deduction of ₹ 50,000 for irrecoverable rents. The annual value decided by the Corporation of Chennai for the property is ₹ 80,000. The property was let-out in the current year to a Company on a rent of ₹ 20,000 p.m. The half-yearly municipal taxes on the property were fixed by the Corporation of Chennai only in August 2013 at ₹ 15,000 for every half year from 1.4.2010. M paid the taxes due in September 2013 upto the year ending 31.3.2013.
6. M also received from the previous tenant ₹ 40,000 (out of the dues of ₹ 50,000).
7. After retirement from the first employer, M received ₹ 4,50,000 from the Regional Provident Fund Commissioner, money was fully invested by him in the 15% Non-Redeemable Debentures issued by the Indian Oil Corporation interest on these had not come in by the end of March 2014.
8. M received interest of ₹ 60,000 on long-term fixed deposits with Banks, ₹ 2,500 as interest on Post Office Savings Bank Accounts and ₹ 20,000 as income from units.
9. M owns a car which is used for office purposes also and it is found that the entire conveyance allowance from his employer had been fully spent on travel for official purposes.
10. One of the policies of insurance taken by M had matured for payment and ₹ 8,00,000 received by him in June 2013 from the LIC was invested by him, in the name of his 16-year old son, in fixed deposits with companies. Interest received upto 31.3.2014 on these deposits was ₹ 90,000. On one of the continuing policies of insurance, M paid a premium of ₹ 60,000 in the year.

Compute M's Total Income for the Assessment Year 2014-15.

Total Income (Rounded Off u/s 288A)			5,02,330

Assumptions :

1. It is presumed that Mr. M accounts for his interest income on receipt basis.
2. Assumed that there has been no repayment of Housing Loan Principal during the year ending 31.3.2008 for the purpose of calculation of prior period interest.
3. Recognised Provident Fund received on retirement shall not be taxable u/s 10 (assuming conditions are satisfied).
4. **Unrealised Rent recovered** : Since the assessee has been allowed a deduction of ₹ 50,000 from his house property income in earlier years in respect of Unrealised Rent, entire ₹ 40,000 recovered during current year becomes taxable.
5. **Deduction of Interest** u/s 24 shall be allowed even if the amount is borrowed from any person other than the Banks/Financial Institutions in respect of Let Out property.

Illustration 17.

Mr. A, a Senior Citizen, has furnished the following particulars relating to his House Properties —

Particulars	House I — ₹	House II — ₹
Nature of Occupation	Self Occupied	Let-out
Municipal Valuation	60,000	1,20,000
Fair Rent	90,000	1,50,000
Standard Rent	75,000	1,40,000
Actual Rent per month	—	12,000
Municipal Taxes paid	6,000	12,000
Interest on Capital borrowed	90,000	80,000

Loan for both Houses were taken on 1.4.2007. House II remained vacant for 4 months.

Besides the above two house, A has inherited during the year 1988-89 an old house from his grandfather. Due to business commitments, he sold the house for a sum of ₹ 250 Lakhs during the year. The house was purchased in 1962 by his grandfather for a sum of ₹ 2 Lakhs. However, the Fair Market Value as on 1.4.1981 was ₹ 30 Lakhs. With the sale proceeds, A purchased a new house in March 2014 for a sum of ₹ 140 Lakhs and the balance was used in his business.

The other income particulars of Mr. A besides the above are as follows (AY 2014–2015) —

- Business Loss ₹ 12 Lakhs
- Income from Other Sources (Bank Interest) ₹ 1 Lakh
- Investments made during the year PF ₹ 70,000
- ICICI Infrastructure Bond Purchased ₹ 30,000

Compute Total Income of Mr. A and his Tax Liability for the Assessment Year 2014–2015.

Solution :

Assessee : Mr. A

Previous Year : 2013-14

Assessment Year : 2014-15

Computation of Total Income

Particulars	₹	₹
1. Income from House Property :		
(a) House I : Self Occupied — Annual Value u/s 23(2) Nil		
Less : Deduction u/s 24(b) = Interest on Housing Loan taken on 1.4.2007 (Note 3) <u>90,000</u>	(90,000)	
(b) House II : Let-out – (Note 6)	(21,200)	(1,11,200)
2. Profits and Gains of Business or Profession – Loss		(12,00,000)
3. Capital Gains — Sale of Residential House Property — Long Term Asset		
Sale Consideration	2,50,00,000	
Less : Expenses on Transfer Nil		
Net Consideration	2,50,00,000	
Less : Indexed Cost of Acquisition — Fair Market Value as on 1.4.81 × CII of year of Sale /CII of year of first holding ($\text{₹ } 30 \text{ Lakhs} \times \frac{939}{161}$)	1,74,96,894	
Long Term Capital Gain	75,03,106	
Less : Exemption u/s 54 — New House purchased	1,40,00,000	Nil
4. Income from Other Sources : Bank Interest		1,00,000
Gross Total Income (assuming this balance is out of Income from other sources only)		(12,11,200)
Less : Deduction under Chapter VI-A		
u/s 80C – Deposits in PPF	70,000	
u/s 80TTAA – Interest on Savings Bank Interest	10,000	
However, i.e. Deduction restricted upto the balance of Gross Total Income	80,000	
Total Income		Nil

Notes :

1. Assumed that loss from House Property & Loss from Business are at first adjusted inter-head, against Long Term Capital Gains and then against Income from Other Sources since it is beneficial to the assessee.
2. Deduction under Chapter VIA cannot be done against LTCG.
3. It is assumed that the construction of the house was completed **within 3 years** from the end of the financial year in which the loan was taken.
4. Deduction in respect of Investment in Long Term Infrastructure Bond u/s 80CCF is discontinued.
5. It is assumed that Bank Interest represents Interest from Savings Bank Account.
6. **Annual Value of House Property II** is computed as under —

(i) Municipal Value (MV)	1,20,000
(ii) Fair Rental Value (FRV)	<u>1,50,000</u>
(iii) Higher of MV & FRV	1,50,000
(iv) Standard Rent	<u>1,40,000</u>
(v) Reasonable Expected Rent (RER)	<u>1,40,000</u>
[lower of (iii) & (iv)]	
(vi) Annual Rent @ ₹ 12,000 pm	1,44,000
(vii) Unrealised Rent	<u>Nil</u>
(viii) Actual Rent [(vi) – (vii)] [Higher than RER]	1,44,000
(ix) Vacancy Allowance [$\frac{1,44,000}{12} \times 4$]	<u>48,000</u>
(x) Gross Annual Value [(viii) – (ix)]	96,000
Less : Municipal Tax paid	<u>12,000</u>
Net Annual Value (NAV)	84,000
Less : Standard deduction @ 30% of NAV u/s 24(a)	25,200
Less : Interest on borrowed Capital u/s 24(b)	<u>80,000</u>
Income for House II	<u>(21,200)</u>

Illustration 18.

Mr. Ashok a senior citizen, owns a property consisting of two blocks of identical size. The first block is used for business purposes. The other block has been let out from 1.4.2013 to his cousin for ₹ 20,000 p.m. The cost of construction of each block is ₹ 5 lacs (fully met from bank loan), rate of interest on bank loan is 10% p.a. The construction was completed on 31.3.2013. During the year ended 31.3.2014, he had to pay a penal interest of ₹ 2,000 in respect of each block on account of delayed payments to the bank for the borrowings. The normal interest paid by him in respect of each block was ₹ 42,000. Principal repayment for each block was ₹ 23,000. An identical block in the same neighbourhood fetches a rent of ₹ 25,000 per month. Municipal Tax paid in respect of each block was ₹ 12,000.

The income from business prior to adjustment towards depreciation on any asset is ₹ 2,20,000. He follows Mercantile System of Accounting. Depreciation on equipments used for business is ₹ 30,000.

On 23.2.2014, he sold shares of B Ltd., a listed share in BSE for ₹ 2,30,000. The share had been purchased 10 months back for ₹ 1,80,000. Security transaction tax paid may be taken as ₹ 220.

Brought forward business loss of a business discontinued on 12.1.2011 is ₹ 90,000. This loss has been determined in pursuance of a return of income filed in time and the current year is the seventh year.

The following payments were affected by him during the year :

1. LIP of ₹ 20,000 on his life and ₹ 12,000 for his son aged 22, engaged as a software engineer and drawing salary of ₹ 25,000 per month.
2. Mediclaim premium of ₹ 6,000 for himself & ₹ 5,000 for above son. The premiums were paid by cheque.

You are required to compute the Total Income for the Assessment Year 2014-15 and the tax payable. The various heads of income should be properly shown. Ignore the interest on bank loan for the period prior to 1.4.2013, as the bank had waived it.

Solution :

Computation of Total Income of Mr. Ashok for A.Y. 2014-15.

Particulars	Amount ₹	Amount ₹
(1) Income from House Property (Let out)		
Gross Annual Value (being Fair rent)	3,00,000	
Less: Municipal Tax	12,000	
Net Annual Value (NAV)	2,88,000	
Less: Deduction:-		
u/s 24(a) Standard Deduction (30% of NAV)	86,400	
u/s 24(b) Interest on loan	42,000	
	1,28,400	1,59,600
(2) Profits and Gains of Business or Profession		
Net Profit before depreciation	2,20,000	
Less: Expenditure allowed but not debited in P & L Account		
Depreciation on equipment	30,000	
Depreciation on building i.e. 10% of ₹ 5,00,000	50,000	
	80,000	
Profits and Gains of Business or Profession of current year	1,40,000	
Less: Brought forward losses set off u/s 72	90,000	
		50,000
(3) Capital Gains		
Consideration for Transfer	2,30,000	
Less: Cost of acquisition	1,80,000	
Short Term Capital Gains		50,000
Gross Total Income		2,59,600
Less: Deduction u/s		
80C: LIC Premium paid	32,000	
Repayment of bank loan	23,000	
	55,000	
80D: Medical insurance premium	6,000	
		61,000
Total Income		1,98,600
Tax Payable		Nil

Notes :

1. Penal interest is not allowed u/s 24(b)
2. It has been assumed that interest, municipal tax on property used for business have already being charged while computing "Business Income Before Depreciation" i.e. ₹ 2,20,000.
3. STT is not allowed as expenditure on transfer.

Illustration 19.

Thomas aged 56 years, took voluntary retirement from State Bank of India on 1st April, 2013 under the Voluntary Retirement Scheme (VRS) and received a sum of ₹ 25 lakh on account of VRS benefits. At the time of his retirement, Thomas was having 47 months of service left and had served the organisation for 18 years 11 months. His last drawn Basic Pay ₹ 60,000, D.A. @ 60% of B/Pay (80% of which forming part of salary). Later, he started a business of plying, hiring and leasing of goods carriages from 1st June, 2013 by acquiring 3 heavy vehicles for ₹ 12 lakh, 2 medium goods vehicle for ₹ 5 lakh and 3 light commercial vehicles for ₹ 6 lakh. Although, he did not maintain regular books of account for his business, the diary maintained by him revealed gross receipts of ₹ 3,12,000 for the financial year ended 31st March, 2014 and he incurred an expenditure of ₹ 1,68,500 on the business towards salaries of drivers, repairs, fuel, etc. Depreciation on vehicle is not included in the said expenditure.

During the financial year 2013-14, he received a sum of ₹ 3,00,000 on account of pension from bank and he contributed a sum of ₹ 65,000 to his PPF account maintained with the said bank in the same year. His PPF account was credited with interest of ₹ 35,000 during the financial year 2013-14. He also purchased long-term infrastructure bonds for ₹ 20,000; Repayment of educational loan interest for the year ₹ 50,000. He also paid medical insurance premium of ₹ 14,000.

Further, he had two residential properties, one is self occupied and other is let out. During the financial year 2013-14, Thomas was able to let out his property for 12 months on a monthly rent of ₹ 17,000. The total municipal taxes on the let out property was ₹ 18,000, 50% of which was paid by the tenant and 50% by him. The interest on loan taken for renovation of the self occupied property paid by him during the year was ₹ 34,000. The insurance premium on the house and actual repairs and collection charges paid are ₹ 1,600 and ₹ 18,000 respectively and the entire expenditure is borne by him. During the financial year 2013-14, he was able to recover the unrealized rent of ₹ 33,000 from old tenant who vacated the house during the August, 2010 after spending litigation expenses of ₹ 15,000. During the financial year 2013-14, Thomas suffered short term capital loss on account of sale of shares on various dates amounting to ₹ 8,50,000.

From the aforesaid information, you are required to compute the Total Income of Thomas for the A.Y. 2014-15 giving reasons in respect of each and every item and indicate the relief/rebate/deduction which he is entitled to claim.

Solution :

Assessee : Mr. Thomas

Previous Year : 2013-2014

Assessment Year : 2014-2015

Computation of Total Income

	₹	₹
(1) Income from Salary		
Pension Received		3,00,000
<u>Voluntary Compensation</u>		
Actual Amount Received	25,00,000	
Less : Exemption u/s 10(10C)		
Least of the following :		
(i) Actual Amount Received	25,00,000	
(ii) Maximum limit	5,00,000	
(iii) Higher of the following :		
(a) Last Drawn Salary × 3 × No. of Fully completed years of service = 88,800 × 3 × 18=47,95,200		
(b) Last Drawn Salary × Balance of number of months of service left = 88,800 × 47 = 41,73,600	47,95,200	
Last Drawn Salary = B/ Pay + D.A (forming part)		
= ₹ [60,000 + 60% of 80% of 60,000]	5,00,000	20,00,000
= ₹ [60,000 + 28,800]		
= ₹ 88,800		

	₹	₹
(2) Income from House Property		
(a) Self occupied :		
Annual Value	Nil	
(-) Interest on Loan u/s 24(b) ₹ 34,000		
– restricted upto ₹ 30,000	<u>(30,000)</u>	(30,000)
(b) Let-out House Property		
Gross Annual Value		
(being the Rental Value) = 17,000 × 12	2,04,000	
Less : Municipal Tax Paid by the assessee during the year		
= 18,000 × 50%	<u>9,000</u>	
Net Annual Value (NAV)	1,95,000	
Less : Standard deduction @ 30% of NAV u/s 24(a)	58,500	
Less : Interest on loan u/s 24(b)	<u>Nil</u>	<u>1,36,500</u>
		1,06,500
(3) Income from Business or Profession		
Presumptive Income u/s 44AE		
in the Business of plying, leasing or hiring trucks		
(i) Light goods vehicles = 3 × 4,500 × 10 =	1,35,000	
(ii) Medium goods vehicles = 2 × 4,500 × 10 =	90,000	
(iii) Heavy goods vehicles = 3 × 5,000 × 10 =	<u>1,50,000</u>	3,75,000
(5) Income from Capital Gains		
Short Term Capital Loss		(8,50,000)
Gross Total Income		19,31,500
Less : Deductions under Chapter VIA		
u/s 80C – Deposits in PPF	65,000	
u/s 80D – Medical Insurance Premium	14,000	
u/s 80E – Interest paid on Education loan	<u>50,000</u>	<u>1,29,000</u>
Total Income		18,02,500
Tax on Total Income of ₹ 18,02,500		3,70,750
(+) E/C @ 2%		7,415
(+) SHEC @ 1%		<u>3,708</u>
Tax Payable		3,81,873
Tax Payable (Rounded off u/s 288B)		3,81,870

Note: Deduction u/s 80CCF, in respect of investment made in Long Term Infrastructure Bond, is discontinued from the A.Y. 2013-14.

Illustration 20.

R borrowed a sum of ₹25,00,000 from the State Bank of India @ 12% p.a. on 1.5.2013 and purchased a house property for ₹36,00,000 on the same day. He does not own any residential house property on the date of taking the loan. He has been using the house property for his own residence since its acquisition.

- (a) Compute the total income of R assuming he has salary income of ₹9,60,000 and he deposited ₹1,30,000 in PPF during the previous year 2013-14.
- (b) What shall be the answer if the total interest on borrowed money is ₹2,40,000 instead of ₹2,75,000.

Solution:**Computation of total income of R for Assessment Year 2014-15**

	₹	₹
Income from salary		9,60,000
Income from house property		
Annual value	Nil	
Less: Deduction		
Interest limited to	1,50,000	(-) 1,50,000
Gross total income		8,10,000
Less: Deduction u/s 80C restricted to ₹1,00,000	1,00,000	
U/s 80EE	1,00,000	2,00,000
Total income		6,10,000

Working Note:

Total interest @ 12% on ₹25,00,000 for 11 months

$$₹25,00,000 \times 12 \times 11/100 \times 12 = 2,75,000$$

- (b) The deduction under section 80EE in this case shall be allowed to the extent of ₹90,000 and the balance ₹10,000 shall allowed in financial year 2014-15 (Assessment Year 2015-16).

Illustration 21.

A handicapped person in business has an income of ₹25 lakhs per annum. He claims the concession u/s 80U. The Assessing Officer declines to grant the same on the ground that his disability has not affected his opportunity to a gainful employment. Is he right?

Solution:

The Assessing Officer is not right, since eligibility for deduction u/s 80U depends upon the nature of permanent physical disability as prescribed under the rules. As long as he qualifies for the same under the rules and files a certificate to that effect from a medical practitioner with prescribed qualification, relief cannot be denied.

Illustration 22.

Whether photographers and TV news film cameraman can avail of the benefit u/s 80RR?

Solution:

Yes, as per Circular No.31 dated 25.10.1969, photographers and TV news film cameraman can be regarded as artists for the purpose of Sec. 80RR.

Illustration 23.

Is it necessary that the assessee to link his savings eligible for deduction u/s 80C with the current taxable income?

Solution:

As long as the assessee has taxable income and the eligible investments are made during the year, there can be no bar for deduction. Section 80C as presently worded would admit the deduction without any pre-qualification of such investments having to be made out of current income.

Illustration 24.

A book written by G was recommended as text book by the Annamalai University for the first time for the academic year 1977-78. Whether G is entitled to special deduction u/s 80QQA?

Solution:

Yes. It is not necessary that the book should have been recommended for the first time during the relevant previous year. G would get special deduction even if the book has been recommended prior to the insertion of section 80QQA, vide Circular No.258 dated 14.6.1979.

Illustration 25.

What is the present position as regards availability of processing of living things?

Solution:

It was considered that relief for processing of living things will no longer be available after the decision of the Supreme Court in CIT vs. Venkateswara Hatcheries (P) Ltd (1999) 237 ITR 174 (SC), and in respect of hotel in CIT vs. Relish Foods (1999) 237 ITR 59 (SC) in respect of processing of shrimps. However, some hope is offered as regards processing for making them marketable treated it as an issue, which is left open by the Supreme Court in Indian Poultry vs. CIT (2001) 250 ITR 664 (SC). The Supreme Court did not deal with the issue only because the relevant material for decision had not been placed by the assessee before the Appellate Tribunal.

The Supreme Court, in CIT vs. Relish Foods (1999) 237 ITR 59 (SC), held that processing of marine products for export may not constitute industrial activity, and reiterated this view in CIT vs. Kala Cartoons P. Ltd. (2001) 252 ITR 658 (SC). But in both the decisions, it found an exception in CIT vs. Marwell Sea Foods (1987) 166 ITR 624 (Ker), on the ground that it was a case where detailed description of the processes was given and that such description spelt out manufacture as found by the Tribunal. It would, therefore, mean that where the assessee is able to show that various processes involved use of skilled labour, and sophisticated machinery, there is no reason why the deduction should not be available.

Illustration 26.

An assessee does not make a claim for relief u/s 80-IA, because it returned a loss. The Assessing officer has computed positive income by making certain disallowances but does not grant relief as no claim had been made. Is the Assessing Officer correct in his view?

Solution:

In CIT vs. Gujarat Agro Oil Enterprises (2000) 244 ITR 3 (Guj), the High Court pointed out that the deduction is permissible, though no specific claim had been made if the conditions therefore are satisfied. The Assessing Officer should, therefore, give an opportunity to the taxpayer to file such audit report.

Illustration 27.

Where a co-operative society is eligible for relief u/s 80-IA as well as u/s 80P, which relief will have precedence?

Solution:

Relief u/s 80-IA will be first given and balance will be reckoned for relief u/s 80P.

Illustration 28.

Should the past losses or unabsorbed depreciation in respect of the same activity in the past be set-off against current income eligible for deduction?

Solution:

The controversy based upon *Cambay Electric Supply Industrial Co. Ltd. vs. CIT* (1978) 113 ITR 84 (SC) continues to haunt the incentive provisions and concessions. Co-operative sector is no exception. The Supreme Court, in *CIT vs. Kotagiri Industrial Co-operative Tea Factory Ltd.* (1997) 224 ITR 604 (SC) has held that the definition of gross total income would taken into consideration the past losses or unabsorbed depreciation as well as has been decided even for the purposes of sections 80HHC, 80-I and 80-IB. Further, the more liberal language "attributable to" instead of "derived from" has been used for section 80P.

Past unabsorbed loss, it was held, would go to reduce the eligible profit for section 80P, since it is required to set-off against current income for the purposes of relief, in *CIT vs. Ganganagar Sahkari Spinning Mills Ltd.* (2004) 265 ITR 540 (Raj.) following *Kotagiri Industrial Co-Operative Tea Factory's Case*.

Illustration 29.

For purposes of relief u/s 80P(e) meant for co-operative societies engaged in letting of godowns and warehouses for storage, processing or facilitating marketing of commodities, is it possible to get relief for a co-operative society having income from cold storage?

Solution:

Cold storage, on a liberal interpretation, would be construed as godown and warehouse considering the purpose of marketing agricultural produce in a condition fit for marketing should merit a favourable interpretation.

Illustration 30.

Is commission earned by a co-operative society from public distribution of controlled commodities exempt?

Solution:

No. In *Udaipur Shahakari Upbhokta Thok Bhandar Ltd. vs CIT* (2009) 315 ITR 21 (SC), the society was storing goods given by the Government and supplying it to fair price shops. The Supreme Court held that the Commission earned was not from letting on hire of godowns and so was not entitled to exemption, the goods having stored in its own godown not for the purpose of storing, processing or facilitating the marketing of the commodities.

Illustration 31.

Is a co-operative society engaged in collective disposal of labour be entitled to relief u/s 80P(2)(a) when firms and associations are its members?

Solution:

No. In view of the retrospective amendment to clause (iii) of section 80P(2)(a) in 1988, it is not possible to treat firms and associations as members of the same status as individuals. The decision in *CIT vs. Salem District Printers Service Industrial Co-operative Society Ltd.* (2007) 290 ITR 371 (SC), following *Kerala State Co-operative Marketing Federation Ltd. vs. CIT* (1998) 231 ITR 814 (SC), is no longer good law.

Illustration 32.

Can interest on loans advanced to nominal members by a credit society be entitled to exemption?

Solution:

Yes, exemption is available in view of the decision of *CIT vs. Punjab State Co-operative Bank Ltd.* (2008) 300 ITR 24 (P&H), following *CIT vs. Bangalore District Co-operative Central Bank Ltd.* (1998) 233 ITR 282 (SC), and *CIT vs. Karnataka State Co-operative Apex Bank* (2001) 251 ITR 194 (SC).

**Illustration 33.**

Is concession given for cottage industries vulnerable because of some payment to outside agency for bleaching, dyeing, transport arrangement, etc.?

Solution:

No. Board's Circular No. 722 dt. 19.09.1995 points out that as long as cottage industry is carried on at the residence or at a common place provided by weavers' society without any outside labour, the use of outside agency for some activity does not lose the benefit for cottage industry.

Illustration 34.

Mr. Rabi is a person with sever disability. He submits you the following information:

	₹
Salary p.a.	48,000
Interest on Bank deposit	40,000
Long Term Capital Gains	2,15,000
Deposit in PPF during the year	10,000

You are required to compute the net tax payable for the Assessment Year 2014-15.

Solution:**Statement Showing Computation of Total Income**

	₹	₹
Income from Salary		48,000
Income from Capital Gains:		
Long Term Capital Gains		2,15,000
Income from Other Sources:		
Interest on Bank deposit		40,000
Gross Total Income		3,03,000
Less: Deduction under Chapter VIA		
U/s 80C	10,000	
U/s 80U	1,00,000	
	1,10,000	
Chapter VIA deduction cannot be availed against LTCG so the deduction cannot exceed GTI exclusive of Long Term Capital Gain Hence deduction allowed		88,000
Total Income		2,15,000

Statement Showing Computation of Tax Payable

	₹
Tax on Long Term Capital Gains $(2,15,000 - 2,00,000) \times 20\%$	3,000
Less : Rebate u/s 87A	2,000
	1,000
Add: Education Cess & SHEC @3%	30
Tax (Rounded Off)	1,030

Study Note - 16

SETTLEMENT OF CASES

This Study Note includes

16.1 Settlement of Cases [Section 245A to 245L]

16.2 Advance Ruling

16.1 SETTLEMENT OF CASES [SECTION 245A TO 245L]

16.1.1 Meaning of Case [Section 245A(b)]

An assessee can make an application to the Settlement Commission at any stage of a Case relating to him. The Finance Act, 2007 substitute clause (b) of section 245A which has changed the meaning of the term "case" and reduce the scope of settlement of cases.

When proceeding is taken as "pending proceeding":-

- In search case, a proceeding for assessment or reassessment for six (6) Assessment Years shall be deemed to have been commenced on the date of issue of notice initiating such proceedings and concluded on the date on which assessment is made,
- In other cases, proceeding shall be deemed to have commenced on the first day of Assessment Year and concluded on the date on which the assessment is made

The list of cases given below where one can have recourse to Settlement Commission at any time on or after the first day of the Assessment Year but before the date of making assessment-

Cases where settlement is not possible up to May 31, 2010	Cases where settlement is not possible with effect from June 1, 2010
(i) Reassessment proceeding under section 147	(i) Reassessment proceeding under section 147
(ii) Proceeding for assessment/ reassessment in search cases	ii) Fresh assessment in pursuance of an order under section 254/263/264 setting aside or cancelling an assessment
(iii) Fresh assessment in pursuance of an order under section 254/263/264 setting aside or cancelling an assessment	

16.1.2 Income-tax Settlement Commission [Section 245B]

- (1) The Central Government shall constitute a Commission to be called the Income-tax Settlement Commission for the settlement of cases under this Chapter.
- (2) The Settlement Commission shall consist of a Chairman and as many Vice-Chairmen and other members as the Central Government thinks fit and shall function within the Department of the Central Government dealing with direct taxes.
- (3) The Chairman Vice-Chairman and other members of the Settlement Commission shall be appointed by the Central Government from amongst persons of integrity and outstanding ability, having special knowledge of, and, experience in, problems relating to direct taxes and business accounts.

Provided that, where a member of the Board is appointed as the Chairman Vice-Chairman or as a member of the Settlement Commission, he shall cease to be a member of the Board.

16.1.3 Jurisdiction and Powers of Settlement Commission [Section 245BA]

- (1) Subject to the other provisions of this Chapter, the jurisdiction, powers and authority of the Settlement Commission may be exercised by Benches thereof.
- (2) Subject to the other provisions of this section, a Bench shall be presided over by the Chairman or a Vice-Chairman and shall consist of two other Members.
- (3) The Bench for which the Chairman is the Presiding Officer shall be the principal Bench and the other Benches shall be known as additional Benches.
- (4) Notwithstanding anything contained in sub-sections (1) and (2), the Chairman may authorize the Vice-Chairman or other Member appointed to one Bench to discharge also the functions of the Vice-Chairman or, as the case may be, other Member of another Bench.
- (5) Notwithstanding anything contained in the foregoing provisions of this section, and subject to any rules that may be made in this behalf, when one of the persons constituting a Bench (whether such person be the Presiding Officer or other Member of the Bench) is unable to discharge his functions owing to absence, illness or any other cause or in the event of the occurrence of any vacancy either in the office of the Presiding Officer or in the office of one or the other Members of the Bench, the remaining two persons may function as the Bench and if the Presiding Officer of the Bench is not one of the remaining two persons, the senior among the remaining persons shall act as the Presiding Officer of the Bench.

Provided that if at any stage of the hearing of any such case or matter, it appears to the Presiding Officer that the case or matter is of such a nature that it ought to be heard of by a Bench consisting of three Members, the case or matter may be referred by the Presiding Officer of such Bench to the Chairman for transfer to such Bench as the Chairman may deem fit.

- (5A) Notwithstanding anything contained in the foregoing provisions of this section, the Chairman may, for the disposal of any particular case, constitute a Special Bench consisting of more than three Members.
- (6) Subject to the other provisions of this Chapter, the places at which the principal Bench and the additional Benches shall ordinarily sit shall be such as the Central Government may, by notification in the Official Gazette, specify and the Special Bench shall sit at a place to be fixed by the Chairman.

16.1.4 Vice-Chairman to act as Chairman or to discharge his functions in certain circumstances [Section 245BB]

- (1) In the event of the occurrence of any vacancy in the office of the Chairman by reason of his death, resignation or otherwise, the Vice-Chairman or, as the case may be, such one of the Vice-Chairmen as the Central Government may, by notification in the Official Gazette, authorise in this behalf, shall act as the Chairman until the date on which a new Chairman, appointed in accordance with the provisions of this Chapter to fill such vacancy, enters upon his office.
- (2) When the Chairman is unable to discharge his functions owing to absence, illness or any other cause, the Vice-Chairman or, as the case may be, such one of the Vice-Chairmen as the Central Government may, by notification in the Official Gazette, authorise in this behalf, shall discharge the functions of the Chairman until the date on which the Chairman resumes his duties.

16.1.5 Power of Chairman to transfer cases from one Bench to another [Section 245BC]

On the application of the assessee or the Chief Commissioner or Commissioner and after notice to them, and after hearing such of them as he may desire to be heard, or on his own motion without such notice, the Chairman may transfer any case pending before one Bench, for disposal, to another Bench.

16.1.6 Decision to be taken by majority [Section 245BD]

If the Members of a Bench differ in opinion on any point, the point shall be decided according to the opinion of the majority, if there is a majority, but if the Members are equally divided, they shall state the point or points on which they differ, and make a reference to the Chairman who shall either hear the point or points himself or refer the case for hearing on such point or points by one or more of the other Members of the Settlement Commission and such point or points shall be decided according to the opinion of the majority of the Members of the Settlement Commission who have heard the case, including those who first heard it.

16.1.7 Application for settlement of cases [Section 245C]

- (1) An assessee may, at any stage of a case relating to him, make an application in such form and in such manner as may be prescribed, and containing a full and true disclosure of his income which has not been disclosed before the Assessing Officer, the manner in which such income has been derived, the additional amount of Income-tax payable on such income and such other particulars as may be prescribed, to the Settlement Commission to have the case settled and any such application shall be disposed of in the manner hereinafter provided :

Provided that no such application shall be made unless—

- (i) the additional amount of Income-tax payable on the income disclosed in the application exceeds the amount given below

Different situations	Application can be filed only if the additional amount of Income-tax payable on the income disclosed in the application exceeds the amount of tax given below		
	Up to May 31 2010	From June 1, 2010 to May 31, 2011	With effect from June 1, 2011
Case 1 – When an application is filed before the Settlement Commission, in cases where proceedings for assessment or reassessment have been initiated as a result of requisition of books of account or other documents or any assets.	Settlement not possible	₹ 50 Lakhs	₹ 50 Lakhs
Case 2 – Where the applicant- a. is “related” to the person [referred to in Case 1 above] in whose case proceedings have been initiated as a result of search and who has filed an application; and b. is a person in whose case proceedings have also been initiated as a result of search	Settlement not possible	₹ 50 Lakhs	₹ 10 Lakhs
Case 3 – Where an application is filed in any other case	₹ 3 Lakhs	₹ 10 Lakhs	₹ 10 Lakhs

- (ii) such tax and the interest thereon, which would have been paid under the provisions of this Act had the income disclosed in the application been declared in the return of income before the Assessing Officer on the date of application, has been paid on or before the date of making the application and the proof of such payment is attached with the application.

However, in the case of the following proceedings though pending for assessment before the Assessing Officer, the assessee shall not be allowed to make the application to the Settlement Commission:

- (i) a proceeding for assessment or reassessment or recomputation under section 147.

These proceeding shall be deemed to have commenced from the date on which a notice under section 148 is issued;

- (ii) a proceeding for making fresh assessment in pursuance of an order under section 254 or section 263 or section 264, setting aside or cancelling an assessment.

These proceedings shall be deemed to have commenced from the date on which the order under section 254 or section 263 or section 264, setting aside or cancelling an assessment was passed.

Thus, the proceeding for assessment or re-assessment under section 147 for fresh assessment in pursuance of order under section 254 or 263 or 264, though pending before the Assessing Officer, shall not be treated as any proceeding pending before the Assessing Officer and thus application for settlement cannot be made in such cases.

- (1A) For the purposes of sub-section (1) of this section, the additional amount of Income-tax payable in respect of the income disclosed in an application made under sub-section (1) of this section shall be the amount calculated in accordance with the provisions of sub-sections (1B) to (1D).

(1B) Where the income disclosed in the application relates to only one Previous Year,—

- (i) if the applicant has not furnished a return in respect of the total income of that year, then, tax shall be calculated on the income disclosed in the application as if such income were the total income;
- (ii) if the applicant has furnished a return in respect of the total income of that year, tax shall be calculated on the aggregate of the total income returned and the income disclosed in the application as if such aggregate were the total income.

- (1C) The additional amount of Income-tax payable in respect of the income disclosed in the application relating to the Previous Year referred to in sub-section (1B) shall be,—

- (a) in a case referred to in clause (i) of that sub-section, the amount of tax calculated under that clause;
- (b) in a case referred to in clause (ii) of that sub-section, the amount of tax calculated under that clause as reduced by the amount of tax calculated on the total income returned for that year;

- (1D) Where the income disclosed in the application relates to more than one Previous Year, the additional amount of Income-tax payable in respect of the income disclosed for each of the years shall first be calculated in accordance with the provisions of sub-sections (1B) and (1C) and the aggregate of the amount so arrived at in respect of each of the years for which the application has been made under sub-section (1) shall be the additional amount of Income-tax payable in respect of the income disclosed in the application.

- (2) Every application made under sub-section (1) shall be accompanied by a fee of ₹ 500
- (3) An application made under sub-section (1) shall not be allowed to be withdrawn by the applicant.
- (4) An assessee shall, on the date on which he makes an application under sub-section (1) to the Settlement Commission, also intimate the Assessing Officer in the prescribed manner of having made such application to the said Commission.

Case Law:

Application must disclose undisclosed income: The requirement is that there must be an income disclosed in a return furnished and undisclosed income disclosed to the Commission by a petition u/s 245C – CIT vs. Damani Bros. 259 ITR 475/126 Taxman 321

Additional tax shall be computed as follows :-

(i) Where the income disclosed in the application relates to only one Previous Year (a) If the applicant has not furnished a return of income of that year (b) If the applicant has furnished a return in respect of total income of that year	• Tax on income disclosed in the application as if such income were the total income • Tax on the aggregate of the total income returned and income disclosed in the application for settlement minus tax calculated on returned income
(ii) Where the income disclosed relates to more than one Previous Year	Aggregate of the amount of tax determined for each year according to rules mentioned.

16.1.8 Procedure for Receipt of Application [Section 245D]

- (1) On receipt of an application under section 245C, the Settlement Commission shall, within seven days from the date of receipt of the application, issue a notice to the applicant requiring him to explain as to why the application made by him be allowed to be proceeded with, and on hearing the applicant, the Settlement Commission shall, within a period of fourteen days from the date of the application, by an order in writing, reject the application or allow the application to be proceeded with.

Provided that where no order has been passed within the aforesaid period by the Settlement Commission, the application shall be deemed to have been allowed to be proceeded with.

- (2) A copy of every order under sub-section (1) shall be sent to the applicant and to the Commissioner.

- (2A) Where an application was made under section 245C before the 1st day of June, 2007, but an order under the provisions of sub-section (1) of this section, as they stood immediately before their amendment by the Finance Act, 2007, has not been made before the 1st day of June, 2007, such application shall be deemed to have been allowed to be proceeded with if the additional tax on the income disclosed in such application and the interest thereon is paid on or before the 31st day of July, 2007.

Explanation— In respect of the applications referred to in this sub-section, the 31st day of July, 2007 shall be deemed to be the date of the order of rejection or allowing the application to be proceeded with under sub-section (1).

- (2B) The Settlement Commission shall,—

- in respect of an application which is allowed to be proceeded with under sub-section (1), within thirty days from the date on which the application was made; or
- in respect of an application referred to in sub-section (2A) which is deemed to have been allowed to be proceeded with under that sub-section, on or before the 7th day of August, 2007, call for a report from the Commissioner, and the Commissioner shall furnish the report within a period of thirty days of the receipt of communication from the Settlement Commission.

- (2C) Where a report of the Commissioner called for under sub-section (2B) has been furnished within the period specified therein, the Settlement Commission may, on the basis of the report and within a period of fifteen days of the receipt of the report, by an order in writing, declare the application in question, after giving opportunity of being heard to the applicant, as invalid, and shall send the copy of such order to the applicant and the Commissioner;

- (2D) Where an application was made under sub-section (1) of section 245C before the 1st day of June, 2007 and an order under the provisions of sub-section (1) of this section, as they stood immediately before their amendment by the Finance Act, 2007, allowing the application to have been proceeded with, has been passed before the 1st day of June, 2007, but an order under the provisions of sub-section (4), as they stood immediately before their amendment by the Finance Act, 2007, was not passed before the 1st day of June, 2007, such application shall not be

allowed to be further proceeded with unless the additional tax on the income disclosed in such application and the interest thereon, is, notwithstanding any extension of time already granted by the Settlement Commission, paid on or before the 31st day of July, 2007.

- (3) The Settlement Commission, in respect of—
 - (i) an application which has not been declared invalid under sub-section (2C); or
 - (ii) an application referred to in sub-section (2D) which has been allowed to be further proceeded with under that sub-section, may call for the records from the Commissioner and after examination of such records, if the Settlement Commission is of the opinion that any further enquiry or investigation in the matter is necessary, it may direct the Commissioner to make or cause to be made such further enquiry or investigation and furnish a report on the matters covered by the application and any other matter relating to the case, and the Commissioner shall furnish the report within a period of ninety days of the receipt of communication from the Settlement Commission;
- (4) After examination of the records and the report of the Commissioner, if any, received under—
 - (i) sub-section (2B) or sub-section (3), or
 - (ii) the provisions of sub-section (1) as they stood immediately before their amendment by the Finance Act, 2007, and after giving an opportunity to the applicant and to the Commissioner to be heard, either in person or through a representative duly authorized in this behalf, and after examining such further evidence as may be placed before it or obtained by it, the Settlement Commission may, in accordance with the provisions of this Act, pass such order as it thinks fit on the matters covered by the application and any other matter relating to the case not covered by the application, but referred to in the report of the Commissioner.
- (4A) The Settlement Commission shall pass an order under sub-section (4),—
 - (i) in respect of an application referred to in sub-section (2A) or sub-section (2D), on or before the 31st day of March, 2008;
 - (ii) in respect of an application made on or after the 1st day of June, 2007, but before the 1st day of June, 2010, within twelve months from the end of the month in which the application was made;
 - (iii) in respect of an application made on or after June 1, 2010, within eighteen months from the end of the month in which application was made;
- (5) Subject to the provisions of section 245BA, the materials brought on record before the Settlement Commission shall be considered by the Members of the concerned Bench before passing any order under sub-section (4) and, in relation to the passing of such order, the provisions of section 245BD shall apply.
- (6) Every order passed under sub-section (4) shall provide for the terms of settlement including any demand by way of tax, penalty or interest, the manner in which any sum due under the settlement shall be paid and all other matters to make the settlement effective and shall also provide that the settlement shall be void if it is subsequently found by the Settlement Commission that it has been obtained by fraud or misrepresentation of facts.
- (6A) Where any tax payable in pursuance of an order under sub-section (4) is not paid by the assessee within thirty-five days of the receipt of a copy of the order by him, then, whether or not the Settlement Commission has extended the time for payment of such tax or has allowed payment thereof by instalments, the assessee shall be liable to pay simple interest at one & one-fourth percent per month (or part of month) on the amount remaining unpaid from the date of expiry of the period of thirty-five days aforesaid. Interest is payable even if the Settlement Commission has extended the time of payment.

- (7) Where a settlement becomes void as provided under sub-section (6), the proceedings with respect to the matters covered by the settlement shall be deemed to have been revived from the stage at which the application was allowed to be proceeded with by the Settlement Commission and the Income-tax Authority concerned, may, notwithstanding anything contained in any other provision of this Act, complete such proceedings at any time before the expiry of two years from the end of the financial year in which the settlement became void.
- (8) For the removal of doubts, it is hereby declared that nothing contained in section 153 shall apply to any order passed under sub-section (4) or to any order of assessment, reassessment or re-computation required to be made by the Assessing Officer in pursuance of any directions contained in such order passed by the Settlement Commission and nothing contained in the proviso to sub-section (1) of section 186 shall apply to the cancellation of the registration of a firm required to be made in pursuance of any such directions as aforesaid.

Case laws:

- (1) Effect of omission of sub-section (1A) of section 245D: Where the applications of the respondents were not proceeded with only because of the objection raised by the Commissioner under sub-section (1A), having regard to the fact that the said sub-section (1A) was removed from the statute book subsequent to 1991, there was no reason why the Settlement Commission could not have entertained fresh applications under section 245C and this would not be a case of review at all - *CIT vs. Bhaskar Picture Palace* 113 Taxman 109.
- (2) Power to over-rule objections is procedural: Amendment of section 245D with effect from 1-4-1979 empowering Settlement Commission to overrule objections of Commissioner was procedural and an order passed by Commissioner under section 245D prior to aforesaid amendment without giving applicant an opportunity of hearing was a nullity being passed in violation of principles of natural justice and after amendment of section 245D with effect from 1-4-1979 assessee was entitled to be heard on objections of Commissioner *R.B. Shreeram Durga Prasad and Fatechand Nursing Das vs. Settlement Commission (IT & WT)* 176 ITR 169/43 Taxman 34.

16.1.9 Provisional Attachment to protect Revenue [Section 245DD]

If during the pendency of any proceedings the Commission is of the opinion that for the purpose of protecting the interests of the revenue, it is necessary to do so, it may attach provisionally for six months any property belonging to the applicant in the manner provided in the Second Schedule to the Act. Such attachment shall not extend in any case more than two years.

16.1.10 Reopening of completed proceedings [Section 245E]

If the Settlement Commission is of the opinion that for the proper disposal of the case pending before it, it is necessary or expedient to reopen any proceedings connected with the case but which has been completed by any Income-tax Authority before the application was made, it may, with the concurrence of the applicant reopen such proceedings and pass such orders thereon as it thinks fit. However, no proceeding shall be reopened by the Settlement Commission under this provision if the period between the end of the Assessment Year to which such a proceeding relates and the date of application for settlement u/s 245C exceed nine years.

Case Law:

Others/matters relating to jurisdiction of Settlement Commission: Failure on the part of the petitioner to deduct tax at source does not come within purview of section 245C(1). Section 245E contemplates reopening of completed proceedings not for benefit of assessee but in the interest of the revenue - *CIT vs. Paharpur Cooling Towers (P.) Ltd.* 85 Taxman 357.

16.1.11 Exclusive jurisdiction of the Settlement Commission over the admitted applications [Section 245F]

After an application made u/s 245C has been allowed to be proceeded with, the Settlement Commission will have exclusive jurisdiction over the case till an order u/s 245D(4) has been made.

During this period the Settlement Commission will have all the powers vested in an Income-tax Authority under the Act. However, in the absence of any express direction to the contrary by the Settlement Commission nothing contained in Section 245F shall effect the operation of any other provisions of the Act requiring the applicant to pay tax on the basis of Self Assessment in relation to the matters before the Settlement Commission.

Case Law:

A final decision, however wrong, is still final and its binding force does not depend upon its correctness Capital Cables (India) (P.) Ltd. vs. Income-tax Settlement Commission 267 ITR 528/139 Taxman 332

16.1.12 Inspection, etc. Reports [Section 245G]

No persons shall be entitled to inspect or obtain copies of any reports made by any Income-tax Authority to the Settlement Commission but the Settlement Commission may in its discretion, furnish copies thereof to any such person or an application made to in this behalf. However, for the purposes of enabling any person whose case is under consideration to rebut any evidence on record against him in any such report, the Commission shall furnish him a certified copy of any such report if the applicant makes an application in this behalf. The copies will be supplied to the applicant on payment of the prescribed fee.

16.1.13 Immunity from Prosecution and Penalty [Section 245H]

If the Settlement Commission is satisfied that any person who made the application for settlement has cooperated with the Settlement Commission in the proceedings before it and has made a full and true disclosure of his income and the manner in which such income has been derived, it may grant immunity from prosecution under the Income-tax Act or under the Indian Penal Code or under any other Central Act as also the imposition of any penalty under the Income-tax Act with respect to the case covered by the settlement. However, w.e.f. 1.6.2007 no such immunity shall be granted by the Settlement Commission in cases where the proceedings for prosecution for any such offence have been instituted before the date of receipt of the application under Section 245C. An immunity granted by the Settlement Commission shall stand withdrawn if the applicant fails to pay the sum specified in the order of settlement within the time specified in such order or within such further time as may be allowed by the Settlement Commission or fails to comply with any other condition subject to which the immunity was granted. The immunity may also be withdrawn if the Settlement Commission is satisfied that the applicant has, in the course of proceedings, concealed any particular material to the settlement or had given false evidence. Once the immunity granted is withdrawn, the assessee may be tried for offence with respect to which the immunity was granted or for any other offences of which he appears to have been guilty in connection with the Settlement and shall also become liable to imposition of any penalty under this Act to which such person would have been liable, had not such immunity been granted.

16.1.14 Abatement of proceeding before settlement Commission [Section 245HA]

Proceedings for settlement shall abate from the date given below –

Circumstances in which the proceeding abates	Date of abatement
Where the application is made on or after June 1, 2007 and is rejected within 14 days from the date of application under section 245D(1)	Date on which the application is rejected.
An application made before June 1, 2007 but the tax is not paid before July 31, 2007 and hence it is rejected under section 245D(2D)	July 31, 2007.

An application made under section 245C declared as invalid with or without the report of the Commissioner under section 245D(2C)	The last day of the month in which the application is declared as invalid.
An application made under section 245C and the order is not passed within the time prescribed in section 245D(4A)	Date on which the time period specified in section 245D(4A) expires.

Where the proceedings before the Settlement Commission abates, the Assessing Officer or any other Income-tax Authority before whom the proceedings are pending at the time of making the application under section 245C shall reassume jurisdiction and shall dispose of the case in accordance with the provisions of the Act.

For the purpose of disposing the case, Assessing Officer can use-

- Material and other information produced by the Assessee before the Settlement Commission; or
- Result of the inquiry held or evidence recorded by the Settlement Commission in the course of the proceedings before it.

Time limit for Sections 149, 153, 153B, 154, 155, 158BE, 231, 243, 244, 244A will be extended by the period-

- Commencing on and from the date of application; and
- Ending on date of abatement.

16.1.15 Credit of Tax paid in case of abatement of proceedings [Section 245HAA]

Where an application made u/s 245C on or after 1st day of June, 2007, is rejected u/s 245D(1) or any other application made u/s 245C is not allowed to be proceeded or is declared invalid or an order has not been passed within the time period, the Assessing Officer shall allow the credit for the tax and interest paid on or before the date of making the application or during the pendency of the case before Settlement Commission.

16.1.16 Order of the Settlement Commission to be conclusive [Section 245-I]

Order passed by the Commission u/s 245D(4) is conclusive as to the matter stated therein and no matter covered by such order shall be reopened in any proceeding under this Act or under any other law for the time being in force save as provided under Chapter XIXA. The order of the Commission can only be challenged through a written petition under Article 226 of the Constitution of India in a High Court or through Special Leave Petition under Article 136 in the Supreme Court on the ground that while making such order, principles of the natural justice has been violated or mandatory procedural requirements of law were not complied with or if it is found that there is no nexus between the reasons given and the decision taken.

16.1.17 Payment of the sums due under order of settlement [Section 245J]

Any sum specified in an order of settlement passed u/s 245D(4) may be recovered and any penalty for default in making payment of such sum may be impose and recovered in accordance with the provisions of Chapter XVII by the Assessing Officer having jurisdiction over the person who made the application for settlement u/s 245C.

16.1.18 Bar on subsequent application for settlement in certain cases [Section 254K]

In cases where an order has been passed u/s 245D(4) providing for the imposition of penalty on the ground of concealment of particulars of income or after passing the order u/s 245D(4), such person is convicted of any offence under Chapter XXII of the Income-tax Act in relation to that case of the case of such person is sent back to the Assessing officer u/s 245BA, he shall not be entitled to apply for Settlement u/s 245C in relation to any other matter.

16.1.19 Proceedings before the Settlement Commission to be judicial proceedings [Section 245L]

Any proceedings under Chapter XIXA before the Settlement Commission shall be deemed to be a judicial proceeding within the meaning of Sec. 193 and 228, and for the purposes of Sec. 196 of the Indian Penal Code.

16.2 ADVANCE RULING

Finance Act, 1993 inserted a Chapter XIX-B in the Income-tax Act, 1961 to provide provisions of **Advance Rulings** to avoid dispute in respect of assessment of Income-tax liability in the case of non-resident. W.e.f. 1.10.1998, the scheme has been extended to cover notified resident applicants also. The Chapter XIX-B contains sections 245N to 245V.

'Advance Ruling' means a determination by the Authority for Advance Rulings, in relation to (i) a transaction which has been undertaken or is proposed to be undertaken by a non-resident or by a resident with a non-resident, including a determination of a question of law or of fact, and (ii) issues relating to computation of income pending before the Income-tax authority or the tribunal including a determination of a question of a law or of fact. [Sec. 245N(a)]

An application may be made by (i) non-resident, (ii) a resident entering into transaction with a non-resident, or (iii) a resident of the notified class or category i.e. a public sector company or a person indulging in a transaction with a non-resident. [Sec. 245N(b)]

Some of the advantages of seeking advance rulings from the Authority are as under:

- (i) The non-resident investor can be sure of its liability towards Income-tax even before the start of investment in India. Hence, he can plan his investment accordingly and thus would be able to avoid long-drawn litigation.
- (ii) The Authority constituted as above, is best suited to sort out complex issues of Income-tax including those concerning Double Taxation Avoidance Agreements (DTAA) which arise as a result of differences of opinion between the tax collectors and the taxpayers.
- (iii) The notified resident i.e. the Public Sector Companies can also take advantage of getting a ruling on questions of facts or law pending before any Tax Authority or Appellate Tribunal.
- (iv) The rulings of the Authority are binding on the applicant as well as the Commissioner of Income-tax and authorities below him, not only for one year but for all the years unless the facts or the law change. Therefore, having obtained the ruling on a given set of facts the taxpayer may be sure about his tax liability in future.
- (v) The authority is to pronounce its rulings within six months of the receipt of the application. This enables the investor to obtain the ruling and draw up the details of his transaction without undue delay on this account and ensures full certainty regarding its tax implications.

Application for advance ruling should be in the prescribed form as below duly verified, along with a payment of fee of ₹ 2,500 shall be submitted to the authority for advance rulings.

Form No	Class of Assesses
34C	Non- resident desires of obtaining an advance ruling.
34D	Resident persons seeking advance ruling in relation to a transaction with a non-resident.
34E	Resident person of notified class or category.

As per section 245Q, the Central Government shall constitute an authority for giving advance rulings, to be known as Authority for Advance Rulings.

The Authority for Advance Rulings will consist of the following members appointed by the Central Government:

- (a) A chairman who will be a retired judge of the Supreme Court,
- (b) An officer of the Indian Revenue Service who is qualified to be member of CBDT, and
- (c) an officer of the Indian Legal Service who is qualified to be an Additional Secretary to the Government of India.

The office of the Authority shall be located in Delhi.

The constitution of the Authority is such that it functions as an independent quasi-judicial body and for the purpose of exercising its powers, it shall have all the powers of a civil court under the Code of Civil Procedure, 1908 as are referred to in section 131 of the Income Tax Act.

The Authority shall be deemed to be a civil court for the purposes of section 195, but not for the purposes of Chapter XXVI of the Code of Criminal Procedure, 1973 and every proceeding before the Authority shall be deemed to be a judicial proceeding within the meaning of sections 193 and 228, and for the purpose of section 196, of the Indian Penal Code.

Although, all the three Members of the Authority function as a body in disposing off the applications before them, but section 245P makes it clear that no proceeding before the Authority, or the pronouncement of advance ruling by the Authority, shall be questioned or shall be invalid on the ground merely of the existence of any vacancy or defect in the Constitution of the Authority [Section 245P].

An applicant desirous of obtaining an advance ruling under this chapter may take the following:

- (1) An application for obtaining an advance ruling under section 245Q(1) shall be made in quadruplicate:
 - (a) in Form No. 34C in respect of a non-resident applicant;
 - (b) in Form No. 34D in respect of a resident applicant seeking advance ruling in relation to a transaction undertaken or proposed to be undertaken by him with a non-resident; and
 - (c) in Form No. 34E in respect of a resident, falling within such class or category of persons notified by the Central Government,

and shall be verified in the manner indicated therein.

Public Sector Company as defined in section 2(36A) of the Income-tax Act has been notified as such class of person as applicant for advance ruling [Notification No. 11456, dated 3-8-2000].

- (2) The application should state the question on which the advance rulings is sought.
- (3) The application should be accompanied by a fee of ₹2,500 (₹10,000 or such fee as may be prescribed in this behalf whichever is higher) in the form of a demand draft drawn in favour of Authority for Advance Ruling.
- (4) The application, its verification, the annexures, to the said application and the statements and documents accompanying it shall be signed by a person mentioned in rule 44E of Income Tax Rules, 1962. Where the authorised representative signs the application and the documents, the application shall be accompanied by a Power of Attorney authorising him to append this signature and an affidavit setting out the unavoidable reasons which entitles him to sign it.
- (5) The application should be addressed to the Secretary and can be submitted either in person or by registered post. If it is sent by registered post, it shall be deemed to have been made on the date when it is received in the office of Authority.
- (6) If the applicant is not hitherto assessed in India, he shall indicate in Annexure 1 to the application:
 - (1) his head office in any other country,
 - (2) the place where his office and residence is located or is likely to be located in India, and
 - (3) the name and address of his representative in India, if any, authorised to receive notices and papers and act on his behalf.
- (7) If the application is found to be defective, the Secretary of the Authority may send the application back to the applicant for removing the defect within such time as he may allow. Such application shall in that case be deemed to have been made on the date on which the application after rectification is submitted.

As per section 44E of the Income Tax Rule, 1962 the application for obtaining advancing ruling should be signed:

- (1) in the case of an individual,—
 - (i) by the individual himself;
 - (ii) where, for any unavoidable reason, it is not possible for the individual to sign the application, by any person duly authorised by him in this behalf. Provided that the person signing the application holds a valid Power of Attorney from the individual to do so, which shall be attached to the application;
- (2) in the case of a Hindu Undivided Family,—
 - (i) by the karta thereof, and
 - (ii) where, for any unavoidable reason, it is not possible for the karta to sign the application, by any other adult member of such family;
- (3) in the case of a company,—
 - (i) by the Managing Director thereof, or where for any unavoidable reason such Managing Director is not able to sign and verify the application, or where there is no Managing Director, by any Director thereof;
 - (ii) where, for any unavoidable reason, it is not possible for the Managing Director or the Director to sign the application, by any person duly authorised by the company in this behalf. Provided that the person signing the application holds a valid Power of Attorney from the company to do so, which shall be attached to the application;
- (4) in the case of a firm, by the managing partner thereof, or where for any unavoidable reason such managing partner is not able to sign and verify the application or where there is no managing partner as such, by any partner thereof, not being a minor;
- (5) in the case of an association of persons, by any member of the association or the principal officer thereof, and
- (6) in the case of any other person, by that person or by some person competent to act on his behalf.

The application should be addressed to the Secretary and can be submitted either in person or by registered post. The number and year of receipt of the application will be filled in the office of the Authority for Advance Rulings. If it is sent by registered post, it shall be deemed to have been made on the date when it is received in the office of Authority.

If the application is found to be defective, the Secretary of the Authority may send the application back to the applicant for removing the defect within such time as he may allow. Such application in that case shall be deemed to have been made on the date on which the application after rectification is submitted.

As per the provisions of sub-section (3) of section 245Q, an application can be withdrawn by the applicant within thirty days from the date of filing of a valid application complete in all respects according to the Act and Rules in the office of the Authority. However, this does not preclude the applicant from withdrawing the application after the said period with the permission of the Authority.

Application made to the Authority for Advance Ruling can be withdrawn after the lapse of 30 days period of application with the permission of authority if facts and circumstances so justify [M.K. Jain AAR No. 644 of 2004. Also see Mr. Manfred Stoeher, Germany AAR No. 594 of 2002].

Where the application for withdrawal was made within period of 30 days of the date of filing of the valid application for Advance Ruling, the application was permitted to be withdrawn [AT&S India Pvt. Ltd. AAR No. 63 of 2005].

Where an application is made earlier, was rejected as the applicant was not a non-resident on that date, the revised application was held to be maintainable if the applicant was non-resident at the time of making the revised application [Rajnikant R Bhatt (Dr) vs. CIT (1996) 222 ITR 562 (AAR-New Delhi)].

An advance ruling shall not be allowed where (i) question of law or fact is already pending either before any Income-tax Authority or the Appellate Tribunal (except in case of a resident applicant of notified class or category) or any court, (ii) a transaction, which is designed for the avoidance of Income-tax; or (iii) determination of the fair market value of any property. However, no application shall be rejected unless an opportunity has been given to the applicant of being heard and if the application is rejected, reasons for such rejection shall be given in the order. [Sec. 245R]

The Authority shall pronounce the advance ruling within six months after the receipt of the application. [Sec. 245R(6)]

In case an application for advance ruling has been made, in respect of an issue by a resident applicant, no Income-tax Authority or the Appellate Tribunal shall give a decision on the same issue. [Sec. 245RR]

The Authority shall not allow an application, in the following cases:

- (a) Where the question of law or fact raised in the application is already pending in case of the applicant either before (i) any Income Tax Authority, or (ii) the Appellate Tribunal or (iii) any Court. However, this will not be applicable in case of notified residents, if it is pending before Income-tax Authority or the Appellate Tribunal. But the application in case of notified resident shall also not to be entertained if the issue is pending before any court.
- (b) Where the question raised relate to the determination of the fair market value of any property.
- (c) Where the transaction in relation to which the question is raised, is designed for the avoidance of Income-tax. However, this will not be applicable in case of notified residents or in case of an applicant falling in section 245N(b)(iiia).

The words already pending should, therefore, be interpreted to mean already pending as on the date of the application and not with reference to any future date. Further pendency must be in case of the applicant [Monte Harris vs. CIT (1996) 218 ITR 413 (AAR)].

In this ruling, AAR has observed as follows:

On account of restrictions under the Indian Law, it may be considered more expedient to channelise all foreign investments into India through a single entity rather than various non-residents making investments individually. This was an important factor which would show that the transaction of investment in India through a company in Mauritius was not designed prima facie for the avoidance of Indian Income-tax. The existence of tax concessions under the DTAA may be only one of the several factors considered by the investor while planning the modality of investments in India. The same may not be the only object or a dominant, object of the transaction. Even though there may be certain suspicious features of such transaction, a ruling cannot be declined on the ground that the transaction was designed for the avoidance of Indian Income-tax.

The authority is prohibited from allowing an application where question involves determination of fair market value of any property and as such where a question was sought by applicant as to whether in light of provisions of section 92C, read with rules 10B and 10C 'Transactional Net Margin Method' is most appropriate method for determination of arm's length price in respect of transaction of services between applicant and Morgan Stanley Advantage Services Private Limited (MSAS) is liable to be rejected [Morgan Stanley & Co. USA (2006) 152 Taxman 1 (AAR-New Delhi)].

Although section 245R(2) give discretion the Authority for Advance Ruling to allow or reject the application, but the first proviso to sub-section (2) to section 245R qualifies the operation of main provision by placing certain restrictions or limitation on the exercise of the power and as such application cannot be admitted if question raised in the application is already pending before any Income Tax Authority or Appellate Tribunal except in case of notified residents [Microsoft Operations Pvt. Ltd. in re (2009) 310 ITR 408 (AAR)].

Advance Ruling sought by the applicant regarding the tax implications of its proposed amalgamation with another company cannot be declined on the ground of pendency of proceedings under the Companies Act [Star Television Entertainment Ltd. & Ors In re (2010) 34 DTR 98 (AAR)].

Merely because the Appellate Tribunal in another case, has decided a similar issue in favour of the revenue, it does not mean that applicant cannot seek Advance Ruling on such issue. There is no impropriety in resorting to remedy conferred by law so long as the applicant comes within four corners of the statutory provisions [Burmah Castrol Plc. In re (2008) 174 Taxman 95 (AAR- New Delhi)].

Where the application for Advance Ruling has been allowed, the Authority shall proceed as under:

- (1) **Submission of additional facts before the Authority:** The Authority may at its discretion permit or require the applicant to submit such additional facts as may be necessary to enable it to pronounce its advance ruling.
- (2) **Hearing of application:** The authority shall notify the applicant and the Commissioner of the date and place of hearing of the application and shall hear them on the day fixed or any other day to which the hearing may be adjourned.
- (3) **Continuation of proceeding after the death of the applicant:** Where the applicant dies or is wound up or dissolved or disrupted or amalgamated or succeeded to by any other person or otherwise comes to an end, the application shall not abate and may be permitted by the Authority, where it considers that the circumstances justify it, to be continued by the executor, administrator or other legal representative of the applicant or by the liquidator, receiver or assignee, as the case may be, on an application made in this behalf.
- (4) **Hearing of application ex-parte:** Where on the date fixed for hearing or any other day to which the hearing may be adjourned, the applicant or the Commissioner does not appear in person or through an authorised representative when called on for hearing, the Authority may dispose of the application ex-parte on merits. However, where an application has been disposed of as above and the applicant or the Commissioner, as the case may be, applies within 15 days of receipt of the order and satisfies the Authority that there was sufficient cause for his non-appearance when the application was called upon for hearing, the Authority may, after allowing the opposite party a reasonable opportunity of being heard, make an order setting aside the ex-parte order and restore the application for fresh hearing.
- (5) **Pronouncement of Advance Ruling:** The Authority shall, after examining such further material as may be placed before it by the applicant or obtained by the authority, pronounce its advance ruling on the question specified in the application.
- (6) **Time limit for pronouncement of Advance Ruling:** The authority shall pronounce its advance ruling in writing within 6 months of the receipt of application. However, it is made clear that the time limit of six months for pronouncing advance ruling is not mandatory and an advance ruling given after the expiry of six months is not invalid as being beyond the said period.
- (7) **Order of Advance Ruling to be sent:** A copy of the advance ruling pronounced by the authority, duly signed by the members and certified in prescribed manner, shall be sent to the applicant and to the Commissioner, as soon as may be, after such pronouncement. In this connection rule 26 provides as under:
 - (a) Every order of the Authority under Chapter XIX-B shall be duly signed by the members and bear the official seal of the Authority.
 - (b) One certified copy of such order of the Authority shall be communicated to the applicant and the Commissioner under the signature of the Secretary or any other officer of the Authority authorised by him in this behalf and bear the official seal of the Authority.
- (8) **Modification of the order:** Where the Authority finds suo motu or on a representation made to it by the applicant or the Commissioner or otherwise, but before the ruling pronounced by the Authority has been given effect to by the Assessing Officer, that there is a change in law or facts on the

basis of which the ruling was pronounced, it may be order modify such ruling in such respects as it considers appropriate, after allowing the applicant and the Commissioner a reasonable opportunity of being heard.

- (9) **Rectification of mistakes:** (i) The Authority may, with a view to rectifying any mistake apparent from the record, amend any order passed by it before the ruling pronounced by the Authority has been given effect to by the Assessing Officer. (ii) Such amendment may be made suo motu or when the mistake is brought to its notice by the applicant or the Commissioner, but only after allowing the applicant and the Commissioner reasonable opportunity of being heard.

The advance ruling shall be binding only on the applicant who has sought it in respect of the specific transaction covered thereunder, on the Commissioner and the Income-tax Authorities subordinate to him, having jurisdiction over the applicant. The advance ruling will continue to remain in force unless there is a change either in law or in fact on the basis of which the advance ruling was pronounced. [Sec. 245S]

Case Laws:

- (i) Settlement Commission cannot be equated with CBDT for exercise of power of relaxation under section 119(2)(a) - *CIT vs. Anjum M.H. Ghaswala* 119 Taxman 352/ 252 ITR 1.
- (ii) Commission is not bound to proceed with any application filed under section 245C - *CIT vs. Hindustan Bulk Carriers* 259 ITR 449/126 Taxman 321.

According to section 245T, the advance ruling shall be void if it is subsequently found by the authority, on a representation made to it by Commissioner or revenue, to have been obtained by fraud or misrepresentation of facts. However on receipt of such representation, a notice shall be issued to the applicant along with a copy of the representation for rebuttal and reasonable opportunity shall be allowed to the applicant and the Commissioner for being heard before passing order declaring the advance ruling to be void.

As per section 245U, the authority has all the powers of a Civil Court in respect of —

- (a) discovery and inspection;
- (b) enforcing the attendance of any person including an officer of a banking company and examining him on oath;
- (c) issuing commissions and compelling the production of books of account and other records.

While considering the maintainability of an application under this Chapter, the basic question to be decided is whether the applicant is a non-resident but the Chapter does not specifically state that he should be a non-resident as on the date of the application. In the case of *Robert W. Smith vs. CIT* (1995) 212 ITR 275 (ARR-New Delhi), Authority for Advance Ruling has ruled that the question of residence must be determined with reference to the previous year and not with reference to a particular date. However, such previous year cannot be the previous year in which the application is made as the application may be made very early in a financial year and may be disposed of much before the end of the financial year. In such a case the full picture of the stay of the assessee in the previous year shall not be available at the time of application or even by the date of its disposal by the authority. Thus, the only previous year with reference to which the status of the applicant is determinable for the purpose of section 245N must be the previous year preceding the financial year in which application is made.

An advance ruling is to be sought only in respect of transactions undertaken or proposed to be undertaken by a non-resident. The non-resident cannot seek ruling from the Advance Ruling Authority as to whether its Indian subsidiary would be entitled to tax exemption under section 10A of the Income-tax Act as the tax exemption of the Indian subsidiary is not in consequence of the transaction undertaken or proposed to be undertaken by the non-resident applicant. Hence, the application for advance ruling was not maintainable [*Connecteurs Cinch, S.A., In re* (2004) 268 ITR 29 (AAR-New Delhi)].

Where non-resident company sought advance ruling on questions relating to a loan transaction between its two Indian subsidiary companies, the Authority for Advance Rulings (AAR) observed that the definition of 'advance ruling' under section 245N(a) has two clauses. For attracting the provisions of clause (i) of this section, the applicant should be a non-resident and the transaction has to be undertaken or proposed to be undertaken by the non-resident applicant. From the facts of the case, it is evident that the applicant is a non-resident but the loan transaction is between 'A Ltd' and 'B Ltd', both of which are residents of India. Therefore, the requirements of clause (i) are not satisfied in this case. Hence, the determination would not fall under clause (i). For the provisions of clause (ii) of this section to be applicable, the question should relate to determination of tax liability of a non-resident in respect of transactions undertaken or proposed to be undertaken by a resident applicant with such non-resident. The applicant is a non-resident and further the transaction of loan was undertaken by two resident companies. The question of tax liability of the non-resident also does not arise. Therefore, it follows that no determination under clause (ii) of this section can be made. Hence, the application was not maintainable due to the aforesaid reasons [X Ltd Netherlands, In re (2005) 275 ITR 327 (AAR-New Delhi)].

The applicant a foreign company entered into a share purchase agreement with the shareholder as well as the Indian company. The Indian company was earlier a partnership firm and it was registered as company under Part IX of the Companies Act. In case such registration under Part IX of the Companies Act may not be held as transfer, the firm, after revaluation of its assets and crediting the excess to the respective partners accounts also satisfied the conditions laid down under section 47(xii) and the erstwhile partners were supposed to hold 50% or more voting power for a period of 5 year from the date of conversion. However, by virtue of transaction with applicant for purchase of shares, that condition of 5 years continuance has been violated and therefore the applicant had filed an application seeking advance ruling on effect of transaction for purchase of share on capital gain tax liability in the hands of the company.

On the facts stated by the applicant, it appears prima facie that the determination sought by the applicant is in relation to the tax liability of an Indian company and, therefore, a doubt has arisen whether the applicant, being a non-resident, can seek 'advance ruling' as per section 245N(a).

Having regard to the wider language of sub-clause (i) of section 245N(a) in contrast with the language employed in sub-clause (ii), the application is maintainable. There is no specific requirement in sub-clause (i) that determination should relate to the tax liability of a non-resident. Going by the averments of the applicant, it is clear that the capital gains tax issue arising in the case of the acquired Indian company has a direct and substantial impact on the applicant's business in view of the stipulations in share purchase agreement. Sub-clause (i) has to be construed in a wider sense and, moreover, a remedial provision shall be liberally construed. Therefore, the question raised by the applicant falls within the definition of 'advance ruling' under section 245N(a). Accordingly, the application is to be allowed under section 245R(2) [Umicore Finance, In re (2009) 184 Taxman 99 (AAR-New Delhi)].

Study Note - 17

GRIEVANCES REDRESSAL PROCEDURE

This Study Note includes

- 17.1 Grievances Redressal Procedure**
- 17.2 Rectification**
- 17.3 Appeal and Appellate Hierarchy**
- 17.4 Revision**
- 17.5 General Provision**

17.1 GRIEVANCES REDRESSAL PROCEDURE

When the assessment order is passed against the assessee, and if he is not satisfied with any order passed by the Assessing Officer, he may appeal to higher court. Procedure for appeal is laid down under the act.

The redressal procedure under the act includes the following:

1. Rectification
2. Appeal
3. Revision

17.2 RECTIFICATION

17.2.1 Rectification of mistake [Section 154]

- (1) For rectifying any mistake apparent from the record an Income Tax Authority referred to in section 116 may, —
 - (a) amend any order passed by it under the provisions of this Act;
 - (b) amend any intimation or deemed intimation under sub-section (1) of section 143;
 - (c) amend any intimation under sub-section (1) of section 200A w.e.f. 1.7.12
- (1A) Where any matter has been considered and decided in any proceeding by way of appeal or revision relating to an order referred to in sub-section (1), the authority passing such order may, notwithstanding anything contained in any law for the time being in force, amend the order under that sub-section in relation to any matter other than the matter which has been so considered and decided.
- (2) Subject to the other provisions of this section, the authority concerned-
 - (a) may make an amendment under sub-section (1) of its own motion, and
 - (b) shall make such amendment for rectifying any such mistake which has been brought to its notice by the assessee or by the deductor, and where the authority concerned is the Commissioner (Appeals), by the Assessing Officer also.
- (3) An amendment, which has the effect of enhancing an assessment or reducing a refund or otherwise increasing the liability of the assessee or the deductor, shall not be made under this section unless the authority concerned has given notice to the assessee or the deductor of its intention so to do and has allowed the assessee or the deductor a reasonable opportunity of being heard.

17.2.2 At whose instance mistakes can be rectified :

- The concerned authority may [implies discretion] make the necessary amendment of its own motion.
- The concerned authority has to make [implies that there is no discretion] such amendment for rectifying any mistake brought to its notice by the assessee.
- Where the concerned authority is the Commissioner (Appeals) and the mistake has been brought to his notice by the Assessing Officer, it has to make such amendment [implies that there is no discretion].

17.2.3 Procedure for such rectification under sub-section (3),(5) and (6):

- An amendment of the following nature can be made only after the concerned authority has given notice in this respect and also a reasonable opportunity of being heard to the assessee or deductor-
 - (a) Amendment which enhances an assessment.
 - (b) Amendment which reduces a refund.
 - (c) Amendment which otherwise increases the liability of the assessee or deductor.
- If any amendment enhances the assessment or reduces a refund already made, a notice of demand is served on the assessee or deductor. Such notice is deemed to be a notice u/s 156.
- If any amendment reduces the assessment, refund due to the assessee is made unless it is withheld u/s 241.

17.2.4 Time Limit for Rectification:

Period of limitation for making rectification as prescribed in sub-section (7) of section 154 is as follows:

- No amendment under this section can be made after the **expiry of 4 years** from the end of the financial year in which the order sought to be amended was passed. It may be noted that an amendment is made when the related order is passed.
- This period of limitation is not applicable in case the provision of section 155 are applicable.
- However, if a valid application has been made by the assessee for rectification within the statutory time limit but is not disposed of by the concerned authority within the time specified, it may be disposed of even after the expiry of such time limit [Circular No. 73, dated 7th January, 1972]. This relief is, however, not admissible in case rectification proceedings are initiated by the department itself.

17.2.5 Action against rectification order:

Following action may be taken against a rectification order:

- Appeal can be made to the Commissioner (Appeals) u/s 246A. Appeal can also be made against an order passed under this section refusing to rectify a mistake [Chennai Prop. & Inv. Ltd. vs. CIT [2001] 247 ITR 226 (Mad.)].
- Appeal can be made to the Appellate Tribunal u/s 253.
- Revision application can be made u/s 264.

17.2.6 Other amendments- For Rectification of Assessment of a Firm [Section 155]:

- (1) Where, in respect of any completed assessment of a partner in a firm for the Assessment Year commencing on the 1st day of April, 1992, or any earlier Assessment Year, it is found-
 - (a) on the assessment or reassessment of the firm, or
 - (b) on any reduction or enhancement made in the income of the firm under this section, section 154, section 250, section 254, section 260, section 262, section 263 or section 264, or

- (c) on any order passed under sub-section (4) of section 245D on the application made by the firm, that the share of the partner in the income of the firm has not been included in the assessment of the partner or, if included, is not correct, the Assessing Officer may amend the order of assessment of the partner with a view to the inclusion of the share in the assessment or the correction thereof, as the case may be; and the provisions of section 154 shall, so far as may be, apply thereto, the period of four years specified in sub-section (7) of that section being reckoned from the end of the financial year in which the final order was passed in the case of the firm.
- (2) Where as a result of proceedings initiated under section 147, a loss or depreciation has been recomputed and in consequence thereof it is necessary to recompute the total income of the assessee for the succeeding year or years to which the loss or depreciation allowance has been carried forward and set off under the provisions of sub-section (1) of section 72, or sub-section (2) of section 73, or sub-section (1) or sub-section (3) of section 74, or sub-section (3) of section 74A, the Assessing Officer may proceed to recompute the total income in respect of such year or years and make the necessary amendment; and the provisions of section 154 shall, so far as may be, apply thereto, the period of four years specified in sub-section (7) of that section being reckoned from the end of the financial year in which the order was passed under section 147.
- (3) Where any deduction in respect of any expenditure on scientific research has been made in any Assessment Year under sub-section (2B) of section 35 and the assessee fails to furnish a certificate of completion of the programme obtained from the prescribed authority within one year of the period allowed for its completion by such authority, the deduction originally made in excess of the expenditure actually incurred shall be deemed to have been wrongly made, and the Assessing Officer may, notwithstanding anything contained in this Act, recompute the total income of the assessee for the relevant Previous Year and make the necessary amendment; and the provisions of section 154 shall, so far as may be, apply thereto, the period of four years specified in sub-section (7) of that section being reckoned from the end of the Previous Year in which the period allowed for the completion of the programme by the prescribed authority expired.
- (4) Where as a result of any proceeding under this Act, in assessment for any year of a company is whose case an order under section 104 has been made for that year, it is necessary to recompute the distributable income of that company, the Assessing Officer may proceed to recompute the distributable income and determine the tax payable on the basis of such recomputation and make the necessary amendment; and the provisions of section 154 shall, so far as may be, apply thereto, the period of four years specified in sub-section (7) of that section being reckoned from the end of the financial year in which the final order was passed in the case of the company in respect of that proceeding.
- (5) Where in the assessment for any year, a capital gain arising from the transfer of a long-term capital asset, is charged to tax and within a period of six months after the date of such transfer, the assessee has made any investment or deposit in any specified asset within the meaning of Explanation 1 to sub-section (1) of section 54E, the Assessing Officer shall amend the order of assessment so as to exclude the amount of the capital gain not chargeable to tax under the provisions of sub-section (1) of section 54E; and the provisions of section 154 shall, so far as may be, apply thereto, the period of four years specified in sub-section (7) of that section being reckoned from the end of the financial year in which the assessment was made.
- (6) Where in the assessment for any year, a capital gain arising from the transfer of any original asset as is referred to in section 54H is charged to tax and within the period extended under that section the assessee acquires the new asset referred to in that section or, as the case may be, deposits or invests the amount of such capital gain within the period so extended, the Assessing Officer shall amend the order of assessment so as to exclude the amount of the capital gain not chargeable to tax under any of the sections referred to in section 54H; and the provisions of section 154 shall, so far as may be, apply thereto, the period of four years specified in sub-section (7) of section 154 being reckoned from the end of the Previous Year in which the compensation was received by the assessee.

- (7) Where in the assessment for any year commencing before the 1st day of April, 1988, the deduction under section 80-O in respect of any income, being the whole or any part of income by way of royalty, commission, fees or any similar payment as is referred to in that section, has not been allowed on the ground that such income has not been received in convertible foreign exchange in India, or having been received in convertible foreign exchange outside India, or having been converted into convertible foreign exchange outside India, has not been brought into India, by or on behalf of the assessee in accordance with any law for the time being in force for regulating payments and dealings in foreign exchange and subsequently such income or part thereof has been or is received in, or brought into, India in the manner aforesaid, the Assessing Officer shall amend the order of assessment so as to allow deduction under section 80-O in respect of such income or part thereof as is so received in, or brought into, India; and the provisions of section 154 shall, so far as may be, apply thereto, the period of four years specified in sub-section (7) of that section being reckoned from the end of the Previous Year in which such income is so received in, or brought into, India; so, however, that the period from the 1st day of April, 1988 to the 30th day of September, 1991 shall be excluded in computing the period of four years.
- (8) Where in the assessment for any year, the deduction under section 80HHB or section 80HHC or section 80HHD or section 80HHE or section 80-O or section 80R or section 80RR or section 80RRA has not been allowed on the ground that such income has not been received in convertible foreign exchange in India, or having been received in convertible foreign exchange outside India, or having been converted into convertible foreign exchange outside India, has not been brought into India, by or on behalf of the assessee with the approval of the Reserve Bank of India or such other authority as is authorised under any law for the time being in force for regulating payments and dealings in foreign exchange and subsequently such income or part thereof has been or is received in, or brought into, India in the manner aforesaid, the Assessing Officer shall amend the order of assessment so as to allow deduction under section 80HHB or section 80HHC or section 80HHD or section 80HHE or section 80-O or section 80R or section 80RR or section 80RRA, as the case may be, in respect of such income or part thereof as is so received in, or brought into, India; and the provisions of section 154 shall, so far as may be, apply thereto, and the period of four years shall be reckoned from the end of the Previous Year in which such income is so received in, or brought into, India.
- (9) Where in the assessment for any year, a capital gain arising from the transfer of a capital asset, being land or building or both, is computed by taking the full value of the consideration received or accruing as a result of the transfer to be the value adopted or assessed by any authority of a State Government for the purpose of payment of stamp duty in accordance with sub-section (1) of section 50C, and subsequently such value is revised in any appeal or revision or reference referred to in clause (b) of sub-section (2) of that section, the Assessing Officer shall amend the order of assessment so as to compute the capital gain by taking the full value of the consideration to be the value as so revised in such appeal or revision or reference; and the provisions of section 154 shall, so far as may be, apply thereto, and the period of four years shall be reckoned from the end of the Previous Year in which the order revising the value was passed in that appeal or revision or reference.

17.3 APPEAL AND APPELLATE HIERARCHY

Appeal is a complaint to a higher court relating to an injustice done by a lower court. The party complaining is called "appellant" and the other party is known as "respondent". There are various provisions in the Income-tax Act relating to appeals and revision of orders.

Under the Income-tax Act, the following remedial measures are available to the assessee if he is not satisfied with any order passed by the Assessing Officer :-

- (i) **Appeal** w.e.f. 1.10.1998 first shall lie with the Commissioner of Income Tax (Appeals) against the order of the Assessing Officer (sec. 246A), or

> 17.4 | TAX MANAGEMENT & PRACTICE

- (ii) **Revision** if appeal is not preferred or it could not be filed within the time limit allowed, the assessee can apply u/s. 264 to the Commissioner of Income Tax for revision of orders passed by the Assessing Officer.

The Commissioner of Income-tax can also take up suo moto the case for revision. Where, however, in the opinion of the Commissioner of Income Tax the order passed by the Assessing Officer is erroneous and prejudicial to the interest of revenue, the Commissioner of Income Tax can also take up the case for revision u/s. 263.

The assessee can file an appeal against the orders of the Commissioner (Appeals) or the revision orders of the CIT under section 263 in the following cases:

- (a) **Second Appeal:** If the assessee is not satisfied with the order passed by the Commissioner (Appeals), he can appeal against that order to the Appellate Tribunal. Similarly, the CIT may also direct the Assessing Officer to file an appeal against that order with the Appellate Tribunal if the Revenue is not satisfied with the order of the Commissioner (Appeals).
- (b) **Appeal against revision:** If the revision of the order of Assessing Officer is done under section 264, by CIT which is revision in favour of the assessee, no appeal can be filed against this order under the Income-tax Act. However, writ under Article 226 or 227 is possible. On the other hand, if the revision order is passed under section 263 by CIT, which is known as revision of orders prejudicial to the interest of revenue, the assessee can file an appeal with the Appellate Tribunal.

If the assessee or the CIT is not satisfied with the order of the Appellate Tribunal, the appeal lies to the High Court/National Tax Tribunal, if the High Court/National Tax Tribunal is satisfied that the case involves a substantial question of law.

If the assessee or the CIT is not satisfied with the order passed by the High Court, they may file an appeal against the order of the High Court to the Supreme Court, provided it is treated as a fit case by the High Court. The Supreme Court is the final appellate authority.

17.3.1 Appeal to Commissioner of Income Tax (Appeals) [Section 246A]

An aggrieved assessee or the deductor may appeal to the Commissioner of Income Tax (Appeals) against the following orders of Assessing Officer-

- (a) An order against the assessee, where the assessee denies his liability to be assessed under this Act; or
- (b) Any order of assessment u/s 143(3) or sub-section (1) of section 200A or section 144, where the assessee objects :
- to the income assessed, or
 - to the amount of tax determined, or
 - to the amount of loss computed, or
 - to the status under which he is assessed;
- (c) An order of assessment, reassessment or recomputations u/s 147 except order passed in pursuance of direction of the Dispute Resolution Panel or Sec. 150;
- (d) An order or rectification made u/s 154 or order u/s 155 having the effect of :
- enhancing the assessment, or
 - reducing a refund, or
 - order refusing to allow the claim made by the assessee under either of these sections;

Except where it is in respect of an order referred to in sub-section (12) of section 144BA.

- (e) An order u/s 163 treating the assessee as the agent of a non-resident;
- (f) An order u/s 170(2), (3) relating to succession to business otherwise than on death;
- (g) An order u/s 171 relating to assessment after partition of a HUF;
- (h) An order u/s 201 treating the assessee deemed to be assessee in default for failure to deduct the whole or any part of the tax or pay tax after deduction ;
- (i) An order u/s 237 relating to refunds;
- (j) An order imposing penalty under sections 221, 271, 271A, 271B, 272A and 272BB, 272AA;
- (k) An order made by Dupty Commissioner imposing a penalty under sections 271C, 271D, 271E and 272AA;
- (l) An order of Dupty Commissioner/Dupty Director imposing a penalty u/s 272A;
- (m) An order imposing a penalty under chapter XXI i.e. u/s 270 to 275;
- (n) An order of assessment made by an Assessing Officer under clause (c) of section 158BC i.e. Block Assessment, in respect of search initiated u/s 132 or books of account, other documents or any asset requisitioned u/s 132A, on or after 1.1.1997;
- (o) An order imposing a penalty u/s 158BFA(2) in case of Block Assessment ;
- (p) An order made by an Assessing Officer other than Deputy/Joint Commissioner under the provisions of this Act in the case of such person or class of persons, as the Board may, having regard to the nature of the cases, the complexities involved and other relevant considerations direct.

Case Laws:

- (1) Non-allowing of interest in rectification order is appealable: When the ITO rectifies an assessment under section 154/155 and grants refund but fails to grant interest on the refund, such rectificatory order has the effect of reducing the amount payable to the assessee and hence appealable under section 246(1)(b) - *CIT vs. Perfect Pottery Co. Ltd.* 173 ITR 545
- (2) Denial of liability to tax under particular circumstances is also covered - The expression 'denial of liability' is comprehensive enough to take in not only the total denial of liability but also the liability to tax under particular circumstances. Thus, an assessee has a right of appeal against the order of the ITO assessing the AOP instead of the members thereof individually - *CIT vs. Kanpur Coal Syndicate* 53 ITR 225
- (3) Objection as to place of assessment cannot be raised - No appeal can lie against an order determining the place of assessment - *Rai Bahadur Seth Teomal vs. CIT* 36 ITR 9

The Act has amended section 246A to provide that the appeal against the order passed by the Assessing Officer under section 143(3) or order of re-assessment under section 147 except an order passed in pursuance of directions of Dispute Resolution Panel shall lie to the Commissioner (Appeals). [w.e.f 1.10.2009]

In case of adverse order passed in the matter of deceased person, his legal heirs can file appeal.

In case of HUF, Karta can file appeal. However, after the partition, if any adverse order is passed in respect of pre-partition HUF, erstwhile coparceners can prefer an appeal.

The right of appeal is not confined merely to the assessee on whom order of assessment has been made but to any assessee aggrieved by the said order e.g. beneficiary may be aggrieved for an order made on the trust [CGT vs. A.C. Mahesh (2001) 252 ITR 440 (Mad)].

As per section 248 where under an agreement or other arrangement, the tax deductible on any income, other than interest, under section 195 is to be borne by the person by whom the income is payable, and such person having paid such tax to the credit of the Central Government, claims that

no tax was required to be deducted on such income, he may appeal to the Commissioner (Appeals) for a declaration that no tax was deductible on such income.

Dispute relating to the chargeability of income of the non-resident recipient can alone be the subject matter of an appeal under section 248 and not the possibility of assessing of the income of the non-resident in the hands of the resident payer as no procedure of assessment of the income of the non-resident in the hands of the resident payer is contemplated in sub-section 1 of section 195 [CIT vs. Sonata Information Technology Ltd (2010) 38 DTR 350 (Kar)].

However, no appeal lies under the Income-tax Act against the following orders:

- (i) Order levying interest under sections 234A, 234B and 234C. However in some special cases there can be waiver of interest by the Chief Commissioner or the Director General of Income-tax;
- (ii) Revision order under section 264. However, in this case a writ can be filed in the High Court;
- (iii) Order of Authority for Advance Rulings;
- (iv) Order of Settlement Commission.

17.3.2 Appeal by person denying liability to deduct tax in certain cases.[Section 248]

Where under an agreement or other arrangement, the tax deductible on any income, other than interest, under section 195 is to be borne by the person by whom the income is payable, and such person having paid such tax to the credit of the Central Government, claims that no tax was required to be deducted on such income, he may appeal to the Commissioner (Appeals) for a declaration that no tax was deductible on such income.

Case Law:

AAC can determine quantum also : In an appeal filed under section 248, AAC has jurisdiction to deal with the quantum of sum chargeable under the provisions of the Act on which the assessee is liable to deduct tax under section 195 - *CIT vs. Westman Engg. Co. (P.) Ltd.* 188 ITR 327

17.3.3 Procedure for filing appeal [Section 249 & Rules 45 & 46]

- (i) An appeal in Form No. 35 should be filed within 30 days of -
 - (a) the date of service of notice of demand relating to assessment or penalty if it relates to assessment or penalty; or
 - (b) the date of payment of tax, if it relates to any tax deducted u/s. 195(1) in respect of payment to non-resident in certain cases; or
 - (c) the date on which intimation of the order sought to be appealed against is served if it relates to any other cases.

The Commissioner of Income-tax (Appeals) may condone the delay in filing appeal petition if he satisfied that the appellant had sufficient cause for not presenting it within that period.

- (ii) No appeal shall be admitted unless at the time of filing of appeal the appellant has paid :-
 - (a) the tax due on the income returned by him, or
 - (b) where no return has been filed the assessee has paid the amount equal to the amount of advance tax which was payable by him. However, the Commissioner (Appeals) may, for any good and sufficient reason to be recorded in writing, exempt the appellant from the payment of such tax.
- (iii) Appeal is required to be made in duplicate. The memorandum of appeal, statement of facts and grounds of appeal should be accompanied by a copy of the order appealed against and the notice of demand in original, if any.

(iv) **Fee for filing appeal :** The memorandum of appeal shall be accompanied by a fee as under :-

(a) Where assessed income is ₹ 1,00,000 or less	₹ 250
(b) Where assessed income exceeds ₹ 1,00,000 but does not exceed ₹ 2,00,000	₹ 500
(c) Where assessed income exceeds ₹ 2,00,000	₹ 1,000
(d) other case except (a),(b) & (c)	₹ 250

W.e.f. 1.6.1999 fee for filing appeal relating to matters which may not have nexus with the returned income (e.g. TDS defaults, non-filing of return) has been prescribed to be ₹ 250 for appeal before Commissioner (Appeals). [Sec. 249]

The Commissioner (Appeals) after hearing the assessee and the income-tax department will pass an order in writing and communicate his order to the Assessee and the Commissioner of Income Tax. The Commissioner (Appeals) may confirm, reduce, enhance or annul an assessment against which the appeal is made. However, he has no power to set aside the assessment and refer the case back to the Assessing Officer for making a fresh assessment according to his direction. He may confirm or cancel the order of penalty. In other cases, he can pass such orders as he thinks fit. [Sec. 251]

Case Laws:

- (1) Demand notice need not be enclosed to memo of appeal - Neither section 249 nor rule 45 makes it incumbent on the assessee-appellant to enclose the demand notice along with the memo of appeal - *Addl. CIT vs. Prem Kumar Rastogi* 115 ITR 503
- (2) Appellate authority is statutorily bound to consider condonation of delay - Where an application for condonation of delay in filing an appeal is preferred, it is the statutory obligation of the appellate authority to consider whether sufficient cause for not presenting the appeal in time was shown by the appellant - *Shrimant Govindrao Narayanrao Ghorpade vs. CIT* 48 ITR 54
- (3) Where an assessee was served a notice of demand which did not include interest and subsequently another notice of demand was served including the interest, it was held that the period of limitation would begin from the date of service of second notice of demand [*CIT vs. Karnani Industrial Bank Ltd.* (1978) 113 ITR 380 (Cal)].
- (4) Where a notice of demand was served on assessee's partner who subsequently handed over the notice to the assessee, it was held that period of limitation would begin when assessee received the notice [*Fatechand Agarwal vs. CIT* (1974) 97 ITR 701 (Ori)].
- (5) When only the notice of demand is served without a copy of the order, the period of 30 days would be counted from the day assessee receives a copy of the order [*Karamchand Thapar* (1976) 38 STC 593 (SC)].
- (6) When an appeal is sent by an assessee by post, the date of filing of appeal would be the date on which the same is received by the Appellate Authority and not the date of posting the same [*Titagar Paper Mills Co. Ltd.* (1980) Tax LR (NOC) 110 (Cal)].
- (7) The Appellate Authority may condone the delay even where there is no such application made by the assessee. Appellate Authority is not competent to straightway dismiss an appeal filed belatedly [*Markland Pvt. Ltd. vs. State of Gujarat* AIR 1989 Guj 44; *Naran Annappa vs. Jayanti Lal Chunilal Shah* AIR 1987 Guj 205].
- (8) The statutory right of appeal must be construed in furtherance of justice and the liberal meaning given to the expression sufficient cause. The Appellate Authority must examine whether there is a good reason for delay and that the appellant did act with reasonable diligence [*Sandhya Rani Sarkar vs. Sudha Rani Debi* AIR 1978 SC 537].

- (9) The quantum of stakes involved and the importance of the issues raised are relevant considerations, while deciding on the condonation of delay [Gupta Rice Mills (1993) 91 STC 208 (All)].
- (10) A subsequent decision of the Supreme Court or a High Court resulting in change of legal position may be a sufficient cause for condonation of delay [CIT vs. Sothia Mining & Mfg. Corp. (1990) 186 ITR 182(Cal)].
- (11) Time taken in pursuing other remedies may be a valid cause for delay [CIT vs. K.S.P. Shanmugavel Nadar & Ors (1985) 153 ITR 596 (Mad)].
- (12) The pendency of a writ before the High Court, and Special Leave Petition before the Supreme Court, has been held as sufficient cause for condoning the delay [Madura Coats Ltd. vs. Collector of Central Excise (1994) 119 CTR 63 (SC)].
- (13) It is important to bear in mind that there should be a sufficient cause, before the date of limitation. Events subsequent to the expiry of limitation may justify only further delay, but not the delay caused before the original limitation expired [Ajit Singh Thakur Singh vs. State of Gujarat AIR 1981 SC 733].
- (14) Where the delay was alleged to be on account of illness but the medical certificate was not filed, in spite of an opportunity having been given, the refusal to condone the delay was justified [Sital Prasad vs. CIT (1991) 187 ITR 135 (All)].
- (15) The order refusing the prayer for condonation of delay must be a speaking order, recording reasons. Where the orders do not contain any cogent reasons, the orders cannot be sustained [Jaimangal Ltd. Avantee Hotel vs. State of Bihar AIR 1989 Pat 190].
- (16) The power of condonation is expected to be exercised liberally so as to advance the cause of justice [Voltas Ltd. vs. DCIT (2000) 241 ITR 471 (AP)]. This decision is in line with the view taken by the Supreme Court in Collector, Land Acquisition vs. Mst. Katiji (1987) 167 ITR 471 (SC).
- (17) The order passed by the Commissioner (Appeals) rejecting the application for exemption from payment of tax which resulted into non-admittance of the appeal amounted to an order disposing of the appeal under section 250 and therefore appeal lies to the Appellate Tribunal [CIT vs. Nanhibai Jaiswal (1988) 171 ITR 646 (MP)].
- (18) If the appeal is filed without the payment of tax on returned income but subsequently the required amount of tax is paid, the appeal shall be admitted on payment of tax and appeal has to be decided on merit [Bhumiraj Constructions vs. Addl. CIT (2011) 49 DTR 195 (Trib.) (Mumbai)].

17.3.4 Procedure in appeal [Section 250]

- (1) The Commissioner (Appeals) shall fix a day and place for the hearing of the appeal, and shall give notice of the same to the appellant and to the Assessing Officer against whose order the appeal is preferred.
- (2) The following shall have the right to be heard at the hearing of the appeal—
 - (a) the appellant, either in person or by an authorized representative;
 - (b) the Assessing Officer, either in person or by a representative.
- (3) The Commissioner (Appeals) shall have the power to adjourn the hearing of the appeal from time to time.
- (4) The Commissioner (Appeals) may, before disposing of any appeal, make such further inquiry as he thinks fit, or may direct the Assessing Officer to make further inquiry and report the result of the same to the Commissioner (Appeals).
- (5) The Commissioner (Appeals) may, at the hearing of an appeal, allow the appellant to go into any ground of appeal not specified in the grounds of appeal, if the Commissioner (Appeals) is satisfied that the omission of that ground from the form of appeal was not wilful or unreasonable.

- (6) The order of the Commissioner (Appeals) disposing of the appeal shall be in writing and shall state the points for determination, the decision thereon and the reason for the decision.
- (6A) In every appeal, the Commissioner (Appeals), where it is possible, may hear and decide such appeal within a period of one year from the end of the financial year in which such appeal is filed before him under sub-section (1) of section 246A.
- (7) On the disposal of the appeal, the Commissioner (Appeals) shall communicate the order passed by him to the assessee and to the [Chief Commissioner or Commissioner].

Case Laws:

- 1) Appeal once filed cannot be withdrawn - An assessee having once filed an appeal, cannot withdraw it. Even if the assessee refuses to appear at the hearing, the AAC can proceed with the enquiry and if he finds that there has been an under-assessment, he can enhance the assessment - *CIT vs. Rai Bahadur Hardutroy Motilal Chamaria* 66 ITR 443 (SC)/CIT vs. B.N. Bhattachargee 118 ITR 461
- 2) Revenue can object to delay in filing appeal - If an appeal by an assessee is admitted without the fact of delay in its presentation having been noticed, it is open to the department to raise the objection at the time of hearing of the appeal - *Mela Ram & Sons vs. CIT* 29 ITR 607

17.3.5 Powers of the Commissioner (Appeals) [Section 251]

- (1) In disposing of an appeal, the Commissioner (Appeals) shall have the following powers—
 - (a) in an appeal against an order of assessment, he may confirm, reduce, enhance or annul the assessment;
 - (b) in an appeal against the order of assessment in respect of which the proceeding before the Settlement Commission abates under section 245HA, he may, after taking into consideration all the materials and other information produced by the assessee before, or the results of the inquiry held or evidence recorded by, the Settlement Commission, in the course of the proceedings before it and such other material as may be brought on his record, confirm, reduce, enhance or annul the assessment;
 - (c) in an appeal against an order imposing a penalty, he may confirm or cancel such order or vary it so as either to enhance or to reduce the penalty;
 - (d) in any other case, he may pass such orders in the appeal as he thinks fit.
- (2) The Commissioner (Appeals) shall not enhance an assessment or a penalty or reduce the amount of refund unless the appellant has had a reasonable opportunity of showing cause against such enhancement or reduction.

Explanation—In disposing of an appeal, the Commissioner (Appeals) may consider and decide any matter arising out of the proceedings in which the order appealed against was passed, notwithstanding that such matter was not raised before the Commissioner (Appeals) by the appellant.

There is no limitation for exercise of powers of the First Appellate Authority in appeal proceedings. Since the power of enhancement is specifically conferred on the Commissioner, the Commissioner can suo motu deal with the issues which were not the subject matter of appeal [CIT vs. Kashi Nath Chandiwala (2006) 280 ITR 318 (All)].

It has been settled by several decisions, including the decisions of the Supreme Court in CIT vs. McMillan & Co. (1958) 33 ITR 182 (SC); CIT vs. Shapoorji Pallonji Mistry (1962) 44 ITR 891 (SC); CIT vs. Kanpur Coal Syndicate (1964) 53 ITR 225 (SC) and CIT vs. Hardutroy Motilal Chamaria (Rai Bahadur) (1967) 66 ITR 443 (SC) that in disposing of an appeal before him the Appellate Authority can travel over the whole range of the assessment order. He can bring in for assessment sources which have been considered or processed by the Assessing Officer even though the officer may have failed to bring them to tax. In other words, the powers of the Appellate Authority in disposing of an appeal are very wide and plenary,

wider than those even of the Tribunal. It is open to him to consider every aspect of the assessment order and given appropriate reliefs or directions.

The Delhi High Court in *CIT vs. Sardari Lai & Co.* (2002) 120 Taxman 595 (Del) held that the Commissioner (Appeals) has no power to deal with an altogether new source of income or issue, which had not been considered by the Assessing Officer. The High Court suggested that in such a case the remedy lies either under section 147 or 148 or section 263.

With effect from 1-6-2001, the Commissioner (Appeal) does not have any power to set aside the assessment for fresh assessment by the Assessing Officer.

An Appellate Authority cannot give direction or finding in respect of other years. Direction or finding can be given only in respect of year or period which is before the authority [*Sun Metal Factory (I) (P) Ltd. vs. ACIT* (2010) 124 ITD 14 (Chennai)].

Stay of Disputed Demand

An appeal can be filed by the assessee after depositing the tax due on the returned income, but the Assessing Officer normally continue with the recovery proceedings of the tax, demanded as per notice of demand. In such cases the assessee who has presented an appeal against such order can apply to the Assessing Officer for stay of the disputed demand. Where an assessee has presented an appeal under section 246A, the Assessing Officer may, in his discretion, and subject to such conditions as he may think fit to impose in the circumstances of the case, treat the assessee as not being in default in respect of the amount in dispute in the appeal, even though the time for payment has expired, as long as such appeal remains undisposed off.

Under Board Circular No. 530, dated 6-3-1989, the Assessing Officer will exercise his discretion under section 220(6) of the Act (subject to such conditions as he may think fit to impose) so as to treat the assessee as not being in default in respect of the amount in dispute in the appeal in the following situations:

- (1) the demand in dispute has arisen because the Assessing Officer had adopted an interpretation of law in respect of which there exists conflicting decisions of one or more High Courts or the High Court of jurisdiction has adopted a contrary interpretation but the Department has not accepted that judgment, or
- (2) the demand in dispute relates to issues that have been decided in favour of the assessee in an earlier order by an Appellate Authority or Court in the assessee's own case.

It is clarified that in the situations mentioned in para 2 above, the assessee will be treated as not in default only in respect of the amount attributable to such disputed points. Further, where it is subsequently found that the assessee has not co-operated in the early disposal of appeal or where a subsequent pronouncement by a Higher Appellate Authority or Court alters the situation referred to in para 2 above, the Assessing Officer will no longer be bound by these instructions and will exercise his discretion independently.

In respect of other cases not covered in para 2 above, the Assessing Officer, while considering the situation for treating the assessee to be not in default, would consider all relevant factors which have a bearing on the demand raised and communicate his decision to the assessee in the form of a speaking order.

The Assessing Officer while acting under section 220(6) should not act as a mere tax-gatherer but as a quasi-judicial authority.

Being a quasi-judicial authority, the powers should be exercised judicially, always remembering that—

- (a) The power under section 220(6) is coupled with a duty to take into consideration all relevant grounds. It should not be exercised arbitrarily or, capriciously or should not be based on matters extraneous or irrelevant.

(b) The Assessing Officer should apply his mind to the relevant factors such as the assessment history of the assessee, his conduct and cooperation to the Department, the points raised in appeal, chances of recovery in case the appeal is dismissed, the hardship to the assessee by insistence on immediate payment, etc.

(c) He must remember that he is not the final arbiter of the disputes involved, but only the first among the statutory authorities [Rajan Nair (N.) vs. ITO (1987) 165 ITR 650 (Ker)].

Therefore, on a petition for stay the authority concerned, is required to look into the prima facie question involved in appeal and the pleas raised by the assessee. Merely saying that there is no prima facie case for grant of stay is not sufficient [Bhilwara Spinners Ltd. (1991) 83 STC 181 (Raj)].

Paucity of funds can be a ground for stay [Sakarpatil Vibhag Kamgar Sahakari Mandali Ltd. vs. ITO (1992) 198 ITR 685 (Guj)].

The power as well as the discretion to grant or refuse stay rests primarily with the Assessing Officer, and not with his superiors [Savithri Sam (Mrs N.) vs. ITO (1969) 72 ITR 730 (Mad)].

The Assessing Officer has to exercise his discretion on the application for stay in a judicial manner. Refusal of stay although on the ground that the assessee had filed an appeal indicates that refusal was made without application of mind [New Rupayan Jewellers vs. Union of India (2009) 314 ITR 288 (Cal)].

The Madras High Court has held that the First Appellate Authority i.e. the CIT(A) has power to grant stay of demand as the power to grant stay of collection of tax is an inherent and incidental power of the Appellate Authority [Paulsons Litho Works vs. ITO (1994) 208 ITR 676 (Mad)].

Even when the assessee has not filed an application under section 220(b), he can approach the Appellate Authority for staying collection of tax pending the appeal [Kesav Cashew Company vs. Dy. CIT (1994) 210 ITR 1014 (Ker)].

The power of the Appellate Authority to stay the recovery of the demand of dues which are the subject matter of appeal pending before him is independent of the provisions of section 220(6) and it is not necessary that before invoking the power of the First Appellate Authority, an assessee should approach the Assessing Officer under the aforesaid provision or that the Assessing Officer must reject the assessee's prayer for stay of demand [Tin Manufacturing Co. of India vs. CIT (1995) 212 ITR 451 (All)].

A reading of section 220(6) shows that the discretion to be exercised under the section can only be exercised by the Assessing Officer and not by the Commissioner of Income Tax. However, it can be exercised by Commissioner (Appeal) if stay petition is filed before him [Pradeep Ratanshi vs. ACIT (1996) 221 ITR 502 (Ker)].

17.3.6 Appellate Tribunal [Section 252]

- (1) The Central Government shall constitute an Appellate Tribunal consisting of as many judicial and accountant members as it thinks fit to exercise the powers and discharge the functions conferred on the Appellate Tribunal by this Act.
- (2) A judicial member shall be a person who has for at least ten years held a judicial office in the territory of India or who has been a member of the Indian Legal Service and has held a post in Grade II of that Service or any equivalent or higher post for at least three years or who has been an advocate for at least ten years.

Explanation—For the purposes of this sub-section,—

- (i) in computing the period during which a person has held judicial office in the territory of India, there shall be included any period, after he has held any judicial office, during which the person has been an advocate or has held the office of a member of a Tribunal or any post, under the Union or a State, requiring special knowledge of law;

- (ii) in computing the period during which a person has been an advocate, there shall be included any period during which the person has held judicial office or the office of a member of a Tribunal or any post, under the Union or a State, requiring special knowledge of law after he became an advocate.
- (2A) An accountant member shall be a person who has for at least ten years been in the practice of accountancy as a Chartered Accountant under the Chartered Accountants Act, 1949 (38 of 1949), or as a registered accountant under any law formerly in force or partly as a registered accountant and partly as a Chartered Accountant, or who has been a member of the Indian Income-tax Service, Group A and has held the post of Additional Commissioner of Income-tax or any equivalent or higher post for at least three years.
- (3) The Central Government shall appoint :
 - (a) a person who is a sitting or retired Judge of a High Court and who has completed not less than seven years of services as a Judge in a High Court; or
 - (b) The Senior Vice President or one of the Vice President of the Appellate Tribunal to be the President thereof.
- (4) The Central Government may appoint one or more members of the Appellate Tribunal to be the Vice President or, as the case may be, Vice Presidents thereof.
- (4A) The Central Government may appoint one of the Vice Presidents of the Appellate Tribunal to be the Senior Vice President thereof.
- (5) The Senior Vice President or a Vice President shall exercise such of the powers and perform such of the functions of the President as may be delegated to him by the President by a general or special order in writing.

In the absence of any specific provision empowering the Tribunal to hear appeal against fixation of audit fees payable to special auditors appointed under section 142(2A), appeal filed by the assessee against the order under section 142(2D), is not maintainable [Sony Mony Electronics Ltd vs. Dy. CIT (2010) 45 DTR 431 (Mum)(Trib)].

17.3.7 Appeal to the Appellate Tribunal [Section 253]

The Appellate Tribunal is constituted by the Central Government and has two classes of members – Judicial and Accountant.

An assessee may file an appeal before the Appellate Tribunal against the following orders u/s 253(1) :-

- (a) an order passed by Commissioner (Appeals), in the following cases :
 - (i) an order u/s 250 i.e. order passed on the appeal filed before him.
 - (ii) an order imposing penalty under sections 271, 271A, 272A.
 - (iii) an order u/s 154 regarding rectification of mistakes in an order passed, if the rectification has not been satisfactorily done by him.
- (b)
 - (i) an order passed by a Commissioner u/s 12AA relating to registration of a trust or institution ;
 - (ii) an order passed by a Commissioner u/s 263 or u/s 272A; or
 - (iii) order passed by a Chief Commissioner, Director General or Director u/s 272A imposing penalty; or
 - (iv) order passed u/s 154 amending his order u/s 263.
 - (v) an order passed by an Assessing Officer under sub-section (3) of section 143 or section 147 or section 153A or section 153C with the approval of the commissioner as referred to in sub-section (12) of section 144BA or an order passed under section 154 or section 155 in respect of such order.

The Commissioner may also, if he objects to any order passed by the Commissioner (Appeals) u/s 154/250, direct the Assessing Officer to appeal to the Appellate Tribunal against the order [Sec. 253(2)].

The Commissioner may, if he objects to any direction issued by the Dispute Resolution Panel under sub-section (5) of section 144C in respect of any objection filed on or after the 1st day of July, 2012, by the assessee under sub-section (2) of section 144C in pursuance of which the Assessing Officer has passed an order completing the assessment or reassessment, direct the Assessing Officer to appeal to the Appellate Tribunal against the order.

It may be mentioned that the Appellate Tribunal is the fact finding authority and hence the order passed by it on questions of fact are final and conclusive.

The appeal should be filed in Form 36, in triplicate, accompanied by :

1.	Two copies (at least one of which should be certified copy) of the order appealed against and two copies of the relevant order of the Assessing Officer.	
2.	Challan as proof of payment of appeal fee. The fee is payable as follows :	
	(a) Total income assessed is upto ₹ 1,00,000	Fee of ₹ 500
	(b) Total Income assessed is ₹ 1,00,001 to ₹2,00,000	Fee of ₹ 1500
	(c) Total Income assessed is over ₹ 2,00,000	Fee of 1% of the assessed income (maximum of ₹10,000)
	(d) Where the subject-matter of appeal is not covered under (a), (b), (c) above	Fee of ₹ 500
	(e) Application for stay of demand	Fee of ₹ 500
3.	Three copies of the paper book containing copies of all documents, if any, to be relied upon.	
4.	Three copies of any order of the Tribunal or a High Court or the Supreme Court, relied upon.	

Where the department prefers an appeal against the order of Commissioner (Appeals) to the Appellate Tribunal a notice of the same along with a copy of the appeal shall be served on the assessee. The assessee should furnish a memorandum of cross objections in Form No. 36A before the Appellate Tribunal within 30 days of receipt of such notice. Similarly, the Department can also file a cross objections before the Tribunal on an assessee's appeal.

Every appeal under sub-section (2A) shall be filed within sixty days of the date on which the order sought to be appealed against is passed by the Assessing Officer in pursuance of the direction of the Dispute Resolution Panel under sub-section (5) of section 144C.

The Assessing Officer or the assessee, as the case may be, on receipt of notice that an appeal against the order of the Deputy Commissioner (Appeals) or, as the case may be, the Commissioner (Appeals) or the Assessing Officer in pursuance of the directions of the Dispute Resolution Panel has been preferred under sub-section (1) or sub-section (2) or sub-section (2A) by the other party, may, notwithstanding that he may not have appealed against such order or any part thereof; within thirty days of the receipt of the notice, file a memorandum of cross-objections, verified in the prescribed manner, against any part of the order of the Assessing Officer, in pursuance of the directions of the Dispute Resolution Panel, or Deputy Commissioner (Appeals) or, as the case may be, the commissioner (Appeals), and such memorandum shall be disposed of by the Appellate tribunal as if were an appeal presented within the time specified in sub-section (3) or sub-section (3A).

The Tribunal may decide the appeal within four years from the end of the Financial Year in which such appeal is filed. Where the Tribunal has issued a stay order, the appeal shall be disposed of within a period of 180 days from the date of stay order otherwise the stay order shall stand vacated (on expiry of the said period). [Sec. 254(2A)]

Case Law:

Where Tribunal found that cross-objections were belated by a period of one year and eleven months and Tribunal came to conclusion that no sufficient cause had been made out explaining delay, Tribunal was justified in holding that delay in filing cross-objections could not be condoned - *Vareli Textile Industries vs. CIT* 154 Taxman 33.

17.3.8 Orders of Appellate Tribunal [Sec. 254]

- (1) The Appellate Tribunal may, after giving both the parties to the appeal an opportunity of being heard, pass such orders thereon as it thinks fit.
- (2) The Appellate Tribunal may, at any time within four years from the date of the order, with a view to rectifying any mistake apparent from the record, amend any order passed by it under sub-section (1), and shall make such amendment if the mistake is brought to its notice by the assessee or the Assessing Officer.

Provided that an amendment which has the effect of enhancing an assessment or reducing a refund or otherwise increasing the liability of the assessee, shall not be made under this sub-section unless the Appellate Tribunal has given notice to the assessee of its intention to do so and has allowed the assessee a reasonable opportunity of being heard.

Provided that any application filed by the assessee in section 254(1) on or after 1.10.1998, shall be accompanied by a fee of ₹ 50.

- (2A) In every appeal, the Appellate Tribunal, where it is possible may hear and decide such appeal within a period of 4 years from the end of the financial year in which such appeal is filed u/s 253 (1), (2) or (2A).

Provided that the Appellate Tribunal may, after considering the merits of the application made by the assessee, pass an order of stay in any proceedings relating to an appeal filed under sub-section (1) of section 253, for a period not exceeding one hundred and eighty days from the date of such order and the Appellate Tribunal shall dispose of the appeal within the said period of stay specified in that order.

Provided further that where such appeal is not so disposed of within the said period of stay as specified in the order of stay, the Appellate Tribunal may, on an application made in this behalf by the assessee and on being satisfied that the delay in disposing of the appeal is not attributable to the assessee, extend the period of stay, or pass an order of stay for a further period or periods as it thinks fit; so, however, that the aggregate of the period originally allowed and the period or periods so extended or allowed shall not, in any case, exceed three hundred and sixty-five days and the Appellate Tribunal shall dispose of the appeal within the period or periods of stay so extended or allowed.

Provided also that if such appeal is not so disposed of within the period allowed under the first proviso or the period or periods extended or allowed under the second proviso, the order of stay shall stand vacated after the expiry of such period or periods.

- (2B) The cost of any appeal to the Appellate Tribunal shall be at the discretion of that Tribunal.
- (3) The Appellate Tribunal shall send a copy of any orders passed under this section to the assessee and to the Commissioner.
- (4) Save as provided in section 256 or section 260A, orders passed by the Appellate Tribunal on appeal shall be final.

Case Laws:

1. Jurisdiction is not higher than that of ITO – The jurisdiction of the Tribunal in the hierarchy created by the Act is no higher than that of the ITO; it is also confined to the year of assessment *ITO vs. Murlidhar Bhagwan Das* 52 ITR 335.

2. Tribunal cannot assume powers inconsistent with statutory provisions –CIT vs. Manick Sons 74 ITR
3. Jurisdiction is restricted to subject-matter of appeal- The powers of the Tribunal in dealing with appeals are expressed in section 254(1) in the widest possible terms. The word 'thereon' of course restricts the jurisdiction of the Tribunal to the subject-matter of the appeal *Hukumchand Mills Ltd. vs. CIT* 63 ITR 232 .

17.3.9 Procedure of Appellate Tribunal [Sec. 255]

- (1) The powers and functions of the Appellate Tribunal may be exercised and discharged by Benches constituted by the President of the Appellate Tribunal from among the members thereof.
- (2) Subject to the provisions contained in sub-section (3), a Bench shall consist of one judicial member and one accountant member.
- (3) The President or any other member of the Appellate Tribunal authorised in this behalf by the Central Government may, sitting singly, dispose of any case which has been allotted to the Bench of which he is a member and which pertains to an assessee whose total income as computed by the Assessing Officer in the case does not exceed five hundred thousand rupees, and the President may, for the disposal of any particular case, constitute a Special Bench consisting of three or more members, one of whom shall necessarily be a judicial member and one an accountant member.
- (4) If the members of a Bench differ in opinion on any point, the point shall be decided according to the opinion of the majority, if there is a majority, but if the members are equally divided, they shall state the point or points on which they differ, and the case shall be referred by the President of the Appellate Tribunal for hearing on such point or points by one or more of the other members of the Appellate Tribunal, and such point or points shall be decided according to the opinion of the majority of the members of the Appellate Tribunal who have heard the case, including those who first heard it.
- (5) Subject to the provisions of this Act, the Appellate Tribunal shall have power to regulate its own procedure and the procedure of Benches thereof in all matters arising out of the exercise of its powers or of the discharge of its functions, including the places at which the Benches shall hold their sittings.
- (6) The Appellate Tribunal shall, for the purpose of discharging its functions, have all the powers which are vested in the Income Tax Authorities referred to in section 131, and any proceeding before the Appellate Tribunal shall be deemed to be a judicial proceeding within the meaning of sections 193 and 228 and for the purpose of section 196 of the Indian Penal Code (45 of 1860), and the Appellate Tribunal shall be deemed to be a civil court for all the purposes of section 195 and Chapter XXXV of the Code of Criminal Procedure, 1898 (5 of 1898).

Case Laws :

1. **Statement to be relied upon must be got recorded:** If the Tribunal desires to rely upon a statement, it should formally call upon counsel for the assessee to record the statement in writing so as to enable the ITO to meet the case - *CIT vs. Thayaballi Mulla Jeevaji Kapasi* 66 ITR 147.
2. **Fiscal matters must be disposed of expeditiously :** Law must move quickly not only in the Courts but also before the Tribunals and officers charged with the duty of expeditious administrative justice. Indeed administrative officers and Tribunals are taking much longer time than is necessary, thereby defeating the whole purpose of creating quasi-judicial Tribunals calculated to produce quick decisions especially in fiscal matters *ITO vs. Ramnarayan Bhojnagarwala* 103 ITR 797.

17.3.10 Statement of case to Supreme Court in certain cases [Section 257]

If, on an application made [against an order made under section 254 before the 1st day of October, 1998,] under section 256 the Appellate Tribunal is of the opinion that, on account of a conflict in the

decisions of High Courts in respect of any particular question of law, it is expedient that a reference should be made direct to the Supreme Court, the Appellate Tribunal may draw up a statement of the case and refer it through its President direct to the Supreme Court.

17.3.11 Appeal to the High Court [Section 260A & 260B]

An appeal shall lie to the High Court from every appellate order passed in appeal by the Tribunal, before the date of establishment of the National Tax Tribunal if the High Court is satisfied that the case involves a substantial question of law. The appeal may be filed by the Chief Commissioner or the Commissioner or the assessee. The Memorandum of Appeal shall precisely state the substantial question of law involving the appeal. An appeal along with a fee (as per Court Fees Act), shall be filed within 120 days of the date of receipt of the order appealed against. The question of law shall be formulated by the High Court, then the appeal shall be heard by a bench of at least two judges and decided by majority opinion. [Secs. 260A and 260B]

Case Laws :

1. Even if the High Courts have consistently taken an erroneous view, it would be worthwhile to let the matter rest, since large number of parties have modulated their legal relationship based on this settled position of law *Union of India vs. Azadi Bachao Andolan* 132 Taxman 373/263 ITR 706.
2. *Revenue authorities to follow decision of jurisdictional High Court*: Revenue authorities within State cannot refuse to follow jurisdictional High Court's decision on ground that decision of some other High Court was pending disposal by Supreme Court *CIT vs. G.M. Mittal Stainless Steel (P.) Ltd.* 130 Taxman 67/263 ITR 255.

Some of the instances which have been accepted as question of law with the High Court are as under:

A view contrary to the one taken by Supreme Court in a subsequent decision [*CIT vs. Kalyan Das Rastogi* (1992) 193 ITR 713 (SC)].

Admissibility and relevancy of evidence [*Hukamchand Jagadharmal vs. CIT* (1935) 3 ITR 211 (Lah)].

Amount spent on taking leases of land for brick kilns whether capital or business expenditure [*Sardar Saheb Sardar Singar Singh & Son vs. CIT* (1942) 10 ITR 441 (Oudh)].

Assessment under section 144 whether made arbitrarily, recklessly or capriciously without the Income-tax Officer exercising his judgment in the matter [*Somchand Maluk Chand vs. CIT* (1937) 5 ITR 336 (Lah)].

Cash credit and interest whether income [*CIT vs. Bhagwandas & Bros.* (1992) 108 CTR 401 (All)].

Cash payments in aggregate on a day whether hit by section 40A(3) [*Shiv Trading Co. vs. CIT* (1989) 176 ITR 410 (All)].

Cash payment under section 40A(3), whether deductible [*CIT vs. Sapna Traders* (1993) 109 CTR 503 (All)].

Charitable trust, whether the assessee is? [*CIT vs. Jewellers Association* (1991) 191 ITR 568 (Raj)].

Charity object whether of general public utility [*Trustees of the Tribune, In re* (1939) 7 ITR 415 (PC)].

Concealment of income whether wilful or not [*CIT vs. Ess Ess Kay Engineering Co. Pvt. Ltd* (1978) 114 ITR 410 (P&H)].

Concealment whether assessee liable to penalty [*CIT vs. Abdul Majeed (T.)* (1992) 193 ITR 339 (Ker)].

Concealing particulars of his income failure to substantiate claim for deductions whether amounts to concealment? [*Jankilal Jaju vs. CIT* (1981) 127 ITR 805 (MP)].

Whether there was any material for conclusion of the Tribunal that there was concealment? [*Laddha Traders vs. CIT* (1996) 222 ITR 754 (MP)].

Concealment under section 271(1)(c) based on its earlier findings in the quantum appeals, without examining further whether the assessee was guilty of concealment or furnishing wrong particulars [Rajasthan Textile Industries vs. CIT (1992) 196 ITR 598 (Raj)].

Clubbing of receipts for and on behalf of other [CIT vs. George Thomas (Dr K.) (1993) 199 ITR 110 (Ker)].

Competency of an appeal before the Appellate Tribunal [Mulla Irshad Ali vs. CIT (1958) 33 ITR 454 (MP)].

Decision of Supreme Court whether applicable to the facts [CIT vs. Maharani Sethu Parvathi Bayi (H.H.) (1993) 199 ITR 625 (Ker)].

Whether the assessee is entitled to depreciation? [G.N.A. Enterprises Pvt. Ltd vs. CIT (1996) 133 Taxation 569 (P&H)].

Whether eligible under section 80HH? [CIT vs. Poyilakada Fisheries Pvt. Ltd (1996) 221 ITR 692 (Ker)].

Whether capital expense or revenue? [CIT vs. Nagmmal Mills Ltd (1996) 217 ITR 309 (Mad)].

Head of income [CIT vs. Carvanserai Ltd (1991) 192 ITR 694 (Del)].

Whether the interest paid on borrowed capital was allowable when the income was assessed by application at a net profit rate [Naraindas Goyal Contractor vs. CIT (1982) 134 ITR 96 (MP)].

Jurisdiction under section 154 to rectify the assessment [CIT vs. Usha Devi (1983) 13 Taxman 463 (MP)].

Limitation period for reassessment or assessment [Krishna Gopal Bhadra vs. ITO (1980) 124 ITR 580 (Cal)].

Profit from land sale, whether business income or capital gains? [Bari Doab Bank Ltd vs. CIT (1989) 177 ITR 454 (P&H)].

Whether the Assessing Officer had jurisdiction under section 154 to rectify the assessment order? [CIT vs. Usha Devi (1983) Tax LR 476 (MP)].

Rectification of original order by Appellate Tribunal so as to increase the cost of certain machinery in exercise of its power under section 254 whether competent? [CIT vs. Bombay Dyeing and Manufacturing Co. Ltd (1971) 82 ITR 892 (SC)].

Salary paid by the company whether any part attributable to extra commercial considerations and liable to be disallowed? [Gwalior Rayon Silk Mfg. (Wvg.) Co. Ltd vs. CIT (1982) 134 ITR 97 (MP)].

Status of an association of persons whether proper? [CIT vs. Sarika Saree House (1991) 191 ITR 517 (All)].

Status whether that of HUF? [CIT vs. Jitendra Kumar Vidya Devi (1990) 184 ITR 247 (All)].

Transactions of sale and purchase of shares whether trading or in the nature of investment? [Holck Larsen (H.) vs. CIT (1972) 85 ITR 285 (Bom)].

Transfer whether under section 2(47)? [CIT vs. Chandra Mohan Swahney (1988) 67 CTR 13 (Del)].

Year in which credit has to be given for TDS [CIT vs. Carvanserai Ltd (1991) 192 ITR 684 (Del)].

Whether the goodwill was computed in accordance with law [S.C. Cambatta & Co, Pvt. Ltd vs. Commissioner of Excess Profits Tax (1961) 41 ITR 500 (SC)].

Whether the Method of Accounting adopted by the Assessing Officer was a legal method? [Narayan Atmaram Patkar vs. CIT (1934) 2 ITR 486 (Bom)].

Adventure in the nature of trade whether the Tribunal was right in holding that the transaction amounted to an adventure in the nature of trade? [CIT vs. Kamla Devi Khazanchi & Ors (1986) 157 ITR 367 (Raj)].

Question as to whether assessee is liable to deduct tax at source under section 194C is a substantial question of law [CIT vs. Ambuja Darla Karssog Transport Co-operative Society Ltd (2008) 168 Taxman 223 (SC). Also See CIT vs. Sirmour Truck Operators Union (2008) 170 Taxman 242 (SC)].

Some of the instances which have not been accepted as question of law by the High Court are as under:

Where Tribunal recalled its appellate order having found as a fact that its decision was based on wrong assumption that a particular document was not filed [CIT vs. Dongre (M.R.) (1993) 113 CTR 351 (Del)].

A question already referred at the instance of one party against decision in opposite party's appeal, need not be referred again [CIT vs. J.K. Synthetics Ltd (1992) 14 CTR (Del) 193].

Question directly covered by decision of jurisdictional High Court need not be referred notwithstanding pendency of Special Leave Petition [CIT vs. Khosla (S.S.) (1997) 136 Taxation 466 (P&H)].

A question of law the answer to which is self-evident [CIT vs. India Mica Supply Co. Pvt. Ltd (1970) 77 ITR 20 (SC)].

A question of law which is academic [CIT vs. Jardine Henderson Ltd (1979) 117 ITR 568 (SC)].

No useful purpose can be served in referring a question where the Tribunal decided the issue in absence of any material in the possession of the Department [CIT vs. Anand Iron & Steel Industries (1989) 179 ITR 620 (Del)].

Where the matter is remanded to the authorities below for fresh examination, no question arising out of such remand order is to be referred [Subeer Singh Tamra vs. CIT (1987) 165 ITR 95 (Raj)].

A question raised which is only explanatory or is argumentative and in effect is an aspect of another question already, need not be referred [CWT vs. Suresh Kumar Kaushik (1991) 187 ITR 343 (All)].

17.3.12 Appeal to the Supreme Court [Section 261]

An appeal lies before the Supreme Court, against an order of the High Court in a reference, or in an appeal. Such appeal can be filed only if the High Court certifies it to be a fit case for appeal to the Supreme Court. If the High Court refuses to grant such a certificate, the assessee can file a Special Leave Petition (SLP) before the Supreme Court. If the SLP is granted, the Supreme Court will hear and decide the appeal on merits. [Sec. 261]

Case Laws :

1. Certificate will not issue against judgment of single Judge: Under article 133(3) of the Constitution, no appeal shall lie to the Supreme Court from the judgment, decree or final order of one Judge of the High Court. Consequently, no certificate can be issued in respect of such a judgment, decree or order State Bank of India vs. State Bank of India Employees' Union 169 ITR 675 .
2. Question must be of great public or private importance A certificate under section 261 which does not set out precisely the grounds or does not raise a question of great public or private importance does not comply with the requirements of the Act. The jurisdiction of the Supreme Court to entertain an appeal from the opinion recorded under the Act arises only when a certificate is properly issued by the High Court or when the Supreme Court grants special leave under article 136 of the Constitution. India Machinery Stores (P.) Ltd. vs. CIT 78 ITR 50 ; CIT vs. Central India Industries Ltd. 82 ITR 555 .

17.3.13 Hearing before Supreme Court [Section 262]

- (1) The provisions of the Code of Civil Procedure, 1908 (5 of 1908), relating to appeals to the Supreme Court shall, so far as may be, apply in the case of appeals under section 261 as they apply in the case of appeals from decrees of a High Court :

Provided that nothing in this section shall be deemed to affect the provisions of sub-section (1) of section 260 or section 265.

- (2) The costs of the appeal shall be in the discretion of the Supreme Court.
- (3) Where the judgment of the High Court is varied or reversed in the appeal, effect shall be given to the order of the Supreme Court in the manner provided in section 260 in the case of a judgment of the High Court.

Case Law :

Question not raised earlier cannot be raised: An independent issue, not considered by Tribunal or High Court, could not be permitted to be raised for first time before Supreme Court *RM. Arunachalam vs. CIT* 93 Taxman 423/227 ITR 222.

17.4 REVISION

Provisions relating to powers of revision of the Commissioner of Income Tax provides in sections 263 and 264 of the Income-tax Act which are analysed in a tabular form as under :

Section 263	Section 264
I. Scope:	
(a) Revision of order erroneous and prejudicial to the interest of revenue passed by the Assessing Officer	Revision of other orders by any sub- ordinate authority.
(b) Two circumstances must exist to enable the Commissioner to exercise the power of revision viz. (i) the order should be erroneous; and (ii) by virtue of the order being erroneous prejudice must have been caused to the interest and of the Revenue. <i>CIT vs. Gabriel India Ltd.</i> , 203 ITR 108(Bom).	The Commissioner shall not revise any order where the appeal against the order is pending before the first or second appellate authorities (or) where the time for filing appeal has not lapsed the assessee has not waived his right of appeal.
II. Procedure :	
(a) Commissioner of Income Tax may call for and examine the records and revise the orders after hearing the assessee.	Commissioner of Income-tax either on his own motion or on an application by the assessee can call for the records and revise the order.
(b) Record shall include all records relating to any proceeding available at the time of examination of the file by the Commissioner of Income-tax.	Every application for revision should be accompanied by a fee ₹ 500.
III. Nature of order :	
(a) An order enhancing, modifying or cancelling the assessment can be passed by the Commissioner.	An order which is not prejudicial to the interest of the assessee can be passed.
(b) If the Income-tax Officer makes any mistake in carrying out the directions of the Appellate Assistant Commissioner or the Tribunal, his order can be revised by the Commissioner of Income Tax. <i>Warner Lambert Co.vs. CIT</i> , 205 ITR 395(Bom).	Commissioner declining to interfere will not amount to passing of an order prejudicial to the assessee.
(c) The Commissioner of Income Tax has jurisdiction and powers to initiate proceedings in respect of issues not touched by the CIT(Appeals) in his Appellate Order- <i>CIT vs. Jayakumar B. Patil</i> , 236 ITR 469(SC).	Where depreciation was not claimed before the Income-tax Officer or the Appellate Assistant Commissioner but was claimed for the first time before the Commissioner of Income Tax in an application u/s 264, the Commissioner must allow the claim on merits. <i>Rashtriya Vikas Ltd. vs. CIT</i> , 196 ITR 694(All.)

IV. Time limit : (a) No order can be passed after the expiry of 2 years from the end of the Financial Year in which the order to be revised was passed.	Commissioner should pass an order disposing of the revision petition within one year from the end of the Financial Year in which the revision petition was filed by the assessee.
(b) An order in revision may be passed at any time in the case of an order which has been passed in consequence of or to give effect to any finding or direction contained in an order of the Appellate Tribunal, the High Court or the supreme court.	On assessee's application- within one year from the end of financial year in which the application was filed.
V. Remedy : Appeal can be filed to the Appellate Tribunal.	There is no right of appeal but appeal vests under constitution.

Case Law :

In view of the vastness of the powers of the Commissioner under section 263, the Courts have often come to the rescue of the tax payer, against indiscriminate exercise of the powers as the following decisions will show:

- (1) The Commissioner did not come to a positive finding that the claim of the assessee was erroneous. He simply asked the Assessing Officer to re-examine the matter. This was not possible [CIT vs. Gabriel India Ltd (1993) 203 ITR 108 (Bom)].
- (2) The Commissioner of Income-tax noted that the assessee was holding large chunk of shares in different companies. The Commissioner of Income-tax remanded the case to the Assessing Officer for making enquiries. The Tribunal observed that the Commissioner of Income-tax did not indicate even one instance of any shareholding being bogus. The Tribunal cancelled the order under section 263 [Mayur Finance Ltd (1994) 122 Taxation 539 (All)].
- (3) The revisionary jurisdiction cannot be allowed to be exercised by the Commissioner either for substituting his own opinion for that of the Assessing Officer or for making a fishing or roving enquiry [Jhulelal Land Development Corpn. vs. DCIT (1996) 56 ITD 345 (Bom)].
- (4) The orders of subordinate authorities should not be cancelled or set aside on mere whims and fancies [Ichhopani (N.S.) vs. CIT (Asst.) (1995) 55 ITD 88 (Chd)(AT)].
- (5) There is no bar on the Assessing Officer bringing the relevant material to the notice of the Commissioner. The only requirement of the section is that upon being informed by the Assessing Officer about the infirmities in the order, the Commissioner cannot straightaway invoke the revisional powers and issue a show-cause notice. If he initiates proceedings without applying his mind and without considering all the facts and circumstances of the case, his order cannot be upheld [CIT vs. Bhagat Shyam & Co. (1991) 188 ITR 608 (All); Sumitra Devi Khirwal vs. CIT (1912) 84 ITR 26 (Cal)].
- (6) Exercise of revisional jurisdiction by the Commissioner solely on the ground that earlier orders of the Tribunal in favour of the assessee were pending reference, was not valid [CIT vs. Orissa State Financial Corp. (1993) 203 ITR 747 (Ori)].

Where it was found that the Assessing Officer had raised specific queries in regard to all relevant points involved in the assessment and the assessee had met those queries with supporting evidence, but where the Assessing Officer made a brief assessment without recording therein all facts, and accepted assessee's version, the assessment order could not be set aside on the ground that no proper enquiry was made [Krishnamurthy (V.G.) vs. CIT (1985) 152 ITR 683 (Karn)].

- (7) Where the assessment is made in undue haste, and without enquiry, it will be erroneous and prejudicial to the interests of revenue [Ram Pyari Devi Saraogi vs. CIT (1968) 67 ITR 84 (SC)].
- (8) When the Assessing Officer has passed an order on the basis of law laid down by the High Court, the order cannot be erroneous [Garden Silk Mills Ltd vs. CIT & Anr (1996) 221 ITR 861 (Guj)].
- (9) Where the Assessing Officer follows the decision of the Tribunal, it cannot be said that his decision is erroneous [Agarwal (K.N.) vs. CIT (1991) 189 ITR 769 (All)].
- (10) Similarly, while making assessment, if the Assessing Officer had made reasonable and requisite enquiries on issues raised by the Commissioner during proceedings under section 263, no order under section 263 could be passed [Jagjit Industries Ltd vs. CIT (Asst.) (1997) 60 ITD 295 (Del)].
- (11) In response to the show cause notice, the assessee can rely upon any ground, whether taken at the time of assessment or not, to establish that the order is not prejudicial to the interest of revenue. The Commissioner must examine the ground taken by the assessee. The Commissioner cannot direct the Assessing Officer to take into consideration such objections before making a fresh assessment. He must himself decide the merit of the assessee's objection [J.P. Srivastava & Sons (Kanpur) Ltd vs. CIT (1978) 111 ITR 326 (All)].
- (12) Where the Income-tax Officer computed capital gains by taking correct cost of acquisition and not fair market value of asset as on 1st January, 1964 (now 1-4-1981), for which the assessee had not opted, his order is not erroneous or prejudicial to the interest of the revenue. The option for substitution lies with the assessee and the Income-tax Authorities cannot have powers to exercise the option [CIT vs. Duncan Brothers & Co. Ltd (1994) 209 ITR 44 (Cal)].
- (13) Where an assessment order is passed, keeping in view not only the provisions of the Act, but also Boards Circulars and instructions, the order cannot be erroneous [CIT vs. Tukaram Ramchandra Shinde (1994) 121 Taxation 251 (Bom)].
- (14) Where the basic issues were fully covered by the Supreme Court judgment, and where the said judgments were cited by the assessee before the Commissioner, the order of the Commissioner without considering the judgments had to be quashed [CIT vs. Paul Brothers (1995) 216 ITR 548 (Bom)].
- (15) However, an assessment order can be revised by the Commissioner, if it is found to be contrary to a Supreme Court judgment, even if it were made as per Board's instructions [CIT vs. United Commercial Bank (1993) 201 ITR 162 (Cal)].
- (16) It was held that as the Department had examined the fundamental nature of the transaction in the earlier years and its nature remained unchanged, the Department could not have changed its view as regards the nature of the transaction by dubbing it as erroneous. The Department is not entitled to re-open an assessment based on a fresh inference of transactions accepted by the revenue for several preceding years on the pretext of dubbing them as erroneous [Associated Food Products 280 ITR 377 (MP), Sirpur Paper Mills Ltd 114 ITR 404 (AP) & CIT vs. Gopal Purohit 228 CTR 582 (Bom) followed by CIT vs. Escorts Ltd (Delhi High Court)].
- (17) AO having not made any enquiry in relation to late payment of employee's contribution towards ESI and PF, by assessee, CIT was justified in invoking the provisions of 263 and setting aside the order of the AO for redoing the same [Star Drugs & Research Labs Ltd. vs. Asstt. CIT (2010) 42 DTR 343 (Chennai)(TM)(Trib)].

Cases where Commissioner's action under section 263 was upheld:

- (1) Where income has not been earned and is not assessable, but is assessed in his or her hands simply because the assessee wants it to be so assessed in order to assist someone else who would have been assessed on a larger income, the assessment is erroneous and prejudicial to the interests of the revenue [Tara Devi Aggarwal vs. CIT (1973) 88 ITR 323 (SC)].

- (2) Audit report as required for claiming deduction was not filed along with the return or thereafter till the assessment was made. There was nothing to show that accounts were audited. The Income-tax Officer was wrong in allowing deduction. Commissioners action under section 263 is justified [CIT vs. Shivanand Electronics (1994) 209 ITR 63 (Bom)].
- (3) Assessment made without considering valuation report for which a reference had already been made to the Valuation Officer in the course of assessment was erroneous and prejudicial to the interests of the revenue [CIT vs. S.M. Oil Extraction Pvt. Ltd (1991) 190 ITR 404 (Cal)].
- (4) The assessee claimed and was allowed a deduction under section 35CCA of the donations to an approved institution. It was established that the approval was withdrawn before the date of the assessment. The Commissioner was justified in canceling the assessment [CIT vs. Bankam Investment Ltd. (1994) 208 ITR 208 (Cal)].
- (5) Where the Assessing Officer followed the orders of the First Appellate Authority and where the said appellate order had been challenged at the instance of the revenue, the order passed by the Assessing Officer was erroneous [KEC International Ltd. vs. Dy. CIT (1994) 51 ITD 178 (Bom)(AT)].
- (6) Where the point at issue is debatable, the Commissioner of Income-tax is justified in canceling the order passed under section 154 [Madhu Jayanti Pvt. Ltd. vs. CIT (1995) 125 Taxation 362 (Cal)].
- (7) Where the Assessing Officer omitted to take into account the benefit or perquisites arising to the assessee as a result of provision of free boarding and lodging, the action of Commissioner under section 263 is justified, even though ultimately no amount was added on merits [Hyundai Heavy Industries Co. Ltd. vs. ITO (1995) 52 TTJ 42 (Del) (AT)].
- (8) Simply because the facts have been disclosed by the assessee, it does not give immunity from revisional jurisdiction of the Commissioner [CIT vs. Emery Stone Mfg. Co. (1995) 213 ITR 843 (Raj)].
- (9) Where the Commissioner after scrutiny found that the assessee paid higher rate of interest on its borrowings, while it charged interest as a lesser rate on advances made to a firm, action of the Commissioner in setting aside the order is justified [Duggal & Co. vs. CIT (1996) 220 ITR 456 (Del)].
- (10) Where the Assessing Officer failed to consider unexplained investment, the Commissioner was justified in setting aside the assessee [Kanhaiyalal vs. CIT(1982) 136 ITR 243 (Raj)].
- (11) To facilitate assessments of assessee having small income and small capital, under a scheme the Department completed spot assessments without any enquiry. The Patna High Court had held that where such assessment was made without inquiring into the source of initial capital, the setting aside was competent [CIT vs. Happy Medical Stores (1990) 185 ITR 413 (Pat)].
- (12) Where the assessment was set aside with the direction that relief under section 80L should be given after setting off the business loss against income from other sources, the revisional order was held proper [Warner Lambert Co. vs. CIT (1994) 205 ITR 395 (Bom)].
- (13) Where a stereotype order is passed, which simply accepts what the assessee has said in the return and fails to make enquiries which are called for in the circumstances of the case, the Commissioner is justified in holding that the order is erroneous and prejudicial to the interests of the revenue [Tara Devi Aggarwal vs. CIT (1973) 88 ITR 323 (SC)].
- (14) Where the assessee did not file an appeal to the Tribunal against the revisional orders under section 263 passed by the Commissioner, he cannot challenge the order of the Assessing Officer giving effect to the order of the Commissioner [Hardillia Chemicals Ltd. vs. CIT (1996) 221 ITR 194 (Bom)].

Following are the cases related to section 264:

- (1) The Court, in the case of Pravin V. Ashar vs. Jaidev, CIT (2001) 247 ITR 828 (Guj), held that in determining and deciding the revision u/s 264, the Commission must afford an opportunity of hearing and also consider the merits of the assessee's claim as per the revision application and in the absence of the same one could not go to the root of the matter.

- (2) Where inspite of the notices given by the Commissioner, the petitioner i.e. the assessee defaulted in appearance, it was held that apart from the non-appearance of default on the part of the assessee it was and still is the duty of the Revisional Authority to exercise his power u/s 264 to examine the legality and validity of the impugned order, particularly when the assessee comes with a grievance of violation of the natural justice [City Express Super Market vs. CIT (2001) 248 ITR 728 (Cal)].
- (3) While passing order u/s 264, it is open to Commissioner to entertain even a new ground or claim or plea not urged before the lower authority [Parekh Bros. vs. CIT (1984) 150 ITR 105 (Ker)]. SLP filed by the Department was dismissed by Supreme Court.
- (4) Where the assessee failed to claim exemption u/s 54F due to mistake of her counsel and made application within the prescribed time u/s 264 to the CIT for revision, it was held that the Commissioner should give the benefit by revising the order [Smt. Snehlata Jain vs. CIT (2004) 140 Taxman 156 (J&K)].
- (5) Where after passing of the assessment order, the assessee found that mistake she had not claimed a deduction which she was entitled to in respect of the investment. Therefore, she made an application u/s 264 to the CIT along with the evidence showing investment for exemption. The Commissioner rejected the revision application holding that from the perusal of the assessment records and the report of the Assessing Officer, it appears that despite opportunity being given, the assessee failed to produce evidence regarding investment made by the petitioner. It was held that there is nothing in section 264 which places any restriction on the CIT's revisional power to give relief to the assessee in a case where the assessee detects mistakes, on account of which he was over assessed after the assessment was completed. It is open to the CIT to entertain even a new ground not urged before the lower authorities while exercising revisional powers [Phool Lata Somani vs. CIT (2005) 197 CTR 339 (Cal)].
- (6) The return of income filed on 31.07.2002, the assessee did not claim exemption u/s 10(10C) by mistake. Revised return filed on 24.09.2002 claiming exemption u/s 10(10C) was held to be invalid. The assessee preferred a revision application to the Commissioner u/s 264 for granting exemption. The Commissioner rejected the application by holding that the petition was beyond the period of limitation. It was held that regardless of whether the revised return was filed or not, once, an assessee is in a position to show that the assessee has been over-assessed under the provisions of the Act, regardless of whether the over-assessment is a result of assessee's own mistake or otherwise, the Commissioner has the power to correct such an assessment u/s 264(1). If the Commissioner refuses to give relief to the assessee, in such circumstances, he would be acting de hors the power under the Act and the provisions of the Act and, therefore, is duty bound to give relief to an assessee, where due, in accordance with the provisions of the Act [S.R. Koshi vs. CIT (2005) 276 ITR 165 (Guj)].
- (7) Where an application u/s 197 relating to obtaining a certificate from Assessing Officer for no deduction or deduction of tax at lower rate is rejected by the Assessing Officer, it can be revised by the Commissioner u/s 264 [Larsen & Toubro Ltd. vs. CIT (2010) 190 Taxman 373 (Bom)].
- (8) The provision dealing with the Appellate Authorities do not bar an appellate from invoking Appellate Jurisdiction, if he has invoked revisionary jurisdiction, even though for invoking revisionary jurisdiction it is a precondition that the Appellate Jurisdiction should have been invoked. Thus, there is nothing in the law that prevents an assessee to move Appellate Jurisdiction u/s 246A if the effort made u/s 264 is proved unsuccessful. It was held that the Commissioner (Appeals) would be justified in entertaining an appeal against the assessment by condoning the delay even though the Commissioner has passed an order u/s 264 against the assessee. The present law provides more than one remedy to the assessee and the assessee can certainly invoke all of them [CIT vs. D. Lakshminarayanpathi (2001) 250 ITR 187 (Mad)].

17.5 GENERAL PROVISIONS

17.5.1 Tax to be paid notwithstanding reference, etc. [Section 265]

Notwithstanding that a reference has been made to the High Court or the Supreme Court or an appeal has been preferred to the Supreme Court, tax shall be payable in accordance with the assessment made in the case.

17.5.2 Execution for costs awarded by Supreme Court [Section 266]

The High Court may, on petition made for the execution of the order of the Supreme Court in respect of any costs awarded thereby, transmit the order for execution to any court subordinate to the High Court.

17.5.3 Amendment of assessment on appeal [Section 267]

Where as a result of an appeal under section 246 or section 246A or section 253, any change is made in the assessment of a body of individuals or an association of persons or a new assessment of a body of individuals or an association of persons is ordered to be made, the Commissioner (Appeals) or the Appellate Tribunal, as the case may be, shall pass an order authorising the Assessing Officer either to amend the assessment made on any member of the body or association or make a fresh assessment on any member of the body or association.

17.5.4 Exclusion of time taken for copy [Section 268]

In computing the period of limitation prescribed for an appeal or an application under this Act, the day on which the order complained of was served and, if the assessee was not furnished with a copy of the order when the notice of the order was served upon him, the time requisite for obtaining a copy of such order, shall be excluded.

17.5.5 Filing of appeal or application for reference by Income Tax Authority [Section 268A]

- (1) The Board may, from time to time, issue orders, instructions or directions to other Income-tax Authorities, fixing such monetary limits as it may deem fit, for the purpose of regulating filing of appeal or application for reference by any Income-tax Authority under the provisions of this Chapter.
- (2) Where, in pursuance of the orders, instructions or directions issued under sub-section (1), an Income-tax Authority has not filed any appeal or application for reference on any issue in the case of an assessee for any Assessment Year, it shall not preclude such authority from filing an appeal or application for reference on the same issue in the case of-
 - (a) The same assessee for any other Assessment Year; or
 - (b) any other assessee for the same or any other Assessment Year.
- (3) Notwithstanding that no appeal or application for reference has been filed by an income-tax authority pursuant to the orders or instructions or directions issued under sub-section (1), it shall not be lawful for an assessee, being a party in any appeal or reference, to contend that the income-tax authority has acquiesced in the decision on the disputed issue by not filing an appeal or application for reference in any case.
- (4) The Appellate Tribunal or Court, hearing such appeal or reference, shall have regard to the orders, instructions or directions issued under sub-section (1) and the circumstances under which such appeal or application for reference was filed or not filed in respect of any case.
- (5) Every order, instruction or direction which has been issued by the Board fixing monetary limits for filing an appeal or application for reference shall be deemed to have been issued under sub-section (1) and the provisions of sub-sections (2)(3) and (4) shall apply accordingly.

Study Note - 18

PENALTY & PROSECUTION

This Study Note includes

18.1 Penalties and Prosecution for defaults

18.1 PENALTIES AND PROSECUTION FOR DEFAULTS

Section	Nature of Default	Minimum Penalty	Maximum Penalty
158BFA	Undisclosed income determined by the Assessing Officer u/s 158BC(c)	100% of the tax on undisclosed income	300% of the tax on undisclosed income
221(1)	Default in making a payment of tax within prescribed time	Such amount as the Assessing Officer may impose	Amount of Tax in arrears
271(1)(b)	Failure to comply with a notice u/s 142(1) or 143(2) or with a direction issued u/s 142(2A).	₹ 10,000 for each failure	₹ 10,000 for each failure.
271(1)(c)	Concealment of the particulars of income or furnishing inaccurate particulars of income.	100% of Tax sought to be evaded.	300% of Tax sought to be evaded.
271A	Failure to keep or maintain books of A/c, document as required u/s 44AA.	₹ 25,000	₹ 25,000
271AA	Failure to keep and maintain information and document in respect of international transaction, (specified domestic transaction) or failure to report international transaction or furnishing of incorrect information.	A sum equal to two per cent of the value of each international transaction entered into by such person.	A sum equal to two per cent of the value of each international transaction entered into by such person.
271AAA	Penalty where search has been initiated — Undisclosed income	A sum computed at the rate of 10% of the undisclosed income of the specified Previous Year.	A sum computed at the rate of 10% of the undisclosed income of the specified Previous Year.
271AAB	Undisclosed income in the case of search (applicable if search is initiated on or after July 1, 2012)	Admit the undisclosed income — 10% of undisclosed income No admit the undisclosed income — 20% of undisclosed income	Admit the undisclosed income — 10% of undisclosed income No admit the undisclosed income — 20% of undisclosed income
271B	Failure to get accounts audited u/s 44AB or to furnish such report along with return of income by due date	1/2% of Total Sales, Turnover or Gross receipts.	₹ 1,50,000

Section	Nature of Default	Minimum Penalty	Maximum Penalty
271BA	Failure to submit report u/s 92E	₹ 1,00,000	₹ 1,00,000
271C	Failure to deduct the whole or any part of tax u/s 192 to 195 or (w.e.f. 1.6.97) failure to pay the whole or any part of tax u/s 115 O(2) or 2nd proviso to Sec. 194B.	Amount of Tax required to be deducted at source.	Amount of Tax required to be deducted at source.
271CA	Penalty for failure to collect tax at source	A sum equal to the amount of tax failed to collect	A sum equal to the amount of tax failed to collect
271D	Taking or accepting any loan or deposit in contravention of the provisions of Section 269SS	Amount of Loan/ Deposit so taken or accepted	Amount of Loan/ Deposit so taken or accepted
271E	Repaying any deposit or loan otherwise than in accordance with the provisions of Sec. 269 T	Amount of deposit so repaid.	Amount of deposit so repaid.
271F	(i) Failure to furnish return of income u/s.139(1) before the end of the relevant Assessment Year (w.e.f. 1.4.99)	₹ 5000	₹ 5000
	(ii) Failure to furnish return of income as per proviso to Sec.139(1) by the end of relevant Assessment Year .	₹ 5000	₹ 5000
271FA	Failure to furnish annual information return within the prescribed time under section 285BA(1)	₹ 100 for every day during the failure continue ₹ 500 for everyday during which the failure continues (if notice is issued)	₹ 100 for every day during the failure continue ₹ 500 for everyday during which the failure continues (if notice is issued)
271FB	Penalty for failure to furnish return of fringe benefits [Fringe Benefit Tax is not applicable from A.Y. 2010-11 onwards]	a sum of one hundred rupees for every day during which the failure continues.	a sum of one hundred rupees for every day during which the failure continues.
271G	Failure to furnish information or documents under section 92D(3)	2% of value of the international transaction (specified domestic transaction) for each failure	₹ 10,000 for each default
271H	Failure to submit in quarterly TDS/ TCS returns	₹ 10,000	₹ 1,00,000
272A(1)(a)	Refuses to answer any question put to a person regarding his assessment by an I.T. Authority.	₹ 10,000 for each default	₹ 10,000 for each default
272A(1)(b)	Refuses to sign any statement made by a person in course of I.T. Proceeding.	₹ 10,000 for each default	₹ 10,000 for each default

Section	Nature of Default	Minimum Penalty	Maximum Penalty
272A(1) (c)	Failure to comply with summons issued u/s 131(1)	₹ 10,000 for each default	₹ 10,000 for each default
272A(2)	Failure to comply with a notice u/s 94, 176(3), 133, 206, 206C, 285B, 134 to furnish return of Income u/s 139(4A) or 139(4C) or to delivery in due time a declaration mentioned in section 197A or 206C(1A), to furnished certificate u/s 203 or 206C	₹ 100 for every day during the failure continues	₹ 100 for every day during the failure continues
272AA	Failure to comply with provisions of Sec. 133B.	Any amount upto ₹ 1,000	₹ 1,000
272B	Failure to comply with the provisions of section 139A or for quoting or intimating a PAN which is false. [w.e.f. 1.6.2002]	₹ 10,000	₹ 10,000
272BB(1)	Failure to comply with the provisions of of Sec. 203A	Up to ₹ 10,000	₹ 10,000
272BB	Failure to comply with the provisions of section 203A (i.e. failure to obtain TAN or after obtaining failure to quote TAN in all challans, certificates and returns etc.)	₹ 10,000	₹ 10,000
272BBB	Failure to comply before 1.10.2004 with the provisions of section 206CA relating to obtaining & quoting TCAN.	₹ 10,000	₹ 10,000

As per section 275, the time limits in various situations for imposing penalty are as under:

		Situation	Time Limit for passing the penalty order
1.		Where penalty is to be levied for concealment or furnishing inaccurate particulars of income under section 271(1)(c)	
	(A)	Where the penalty is to be levied by the Assessing Officer in an assessment made by him	
	(i)(a)	Where an appeal has been filed against the assessment order to Commissioner (Appeal) [Section 275(1)(a) and its proviso]	Penalty order can be passed by the Assessing Officer— (i) on or before the expiry of the financial year in which assessment proceedings are completed, Or (ii) on or before the expiry of one year from the end the month in which the order of Commissioner (Appeal) is received by the Chief Commissioner or Commissioner of Income Tax whichever period expires later.

	(i)(b)	In a case, where further appeal has been filed to Appellant Tribunal [Section 275(1)(a)]. [Rayala Corpn. Pvt. Ltd vs. Union of India (2007) 161 Taxman 127 (Mad)]	Penalty order can be passed by the Assessing Officer— (i) on or before the expiry of the financial year in which assessment proceedings are completed, Or (ii) on or before the expiry of six months from the end of the month in which the order of Appellant Tribunal is received by the Chief Commissioner or Commissioner of Income Tax whichever period expires later.
	(ii)	Where revision application is filed against such assessment to Commissioner under section 264	Six months from the end of the month in which order is passed by the Commissioner under section 264
	(iii)	Where no appeal has been filed against the assessment order or no application is made for revision under section 264	Penalty order can be passed by the Assessing Officer— (i) on or before expiry of the financial year in which the assessment proceedings are completed Or (ii) on or before the expiry of 6 months from the end of the month in which the action for imposition of penalty is initiated whichever period expires later
(B)		Where the penalty is to be levied by the Commissioner (Appeal) in an order passed by him under section 250	
	(i)	Where an appeal has been filed to ITAT against such order	Penalty order can be passed by the Commissioner (Appeal)— (i) on or before the expiry of the financial year in which order under section 250 is passed Or (ii) on or before the expiry of 6 months from the end of the month in which order of ITAT is received by the Commissioner of Income tax whichever period expires later
	(ii)	Where no appeal has been filed against such order to ITAT	Penalty order can be passed— (i) On or before the expiry of the financial year in which order under section 250 was passed Or (ii) On or before 6 months from the expiry of the month in which the penalty proceedings were initiated by Commissioner (Appeal) whichever period expires later
(C)		Where the relevant assessment order is the subject matter of revision under section 263 (i.e. income is enhanced)	

		(i)	Where an appeal against order under section 263 is filed to ITAT	Penalty order can be passed by the Commissioner — (i) on or before the expiry of the financial year in which order under section 263 was passed by the Commissioner Or (ii) on or before the expiry of six months from the end of the month in which order of ITAT is received by the Commissioner whichever period expires later
		(ii)	Where no appeal is filed against order under section 263	Penalty order can be passed by the Commissioner on or before six months from the end of the month in which order under section 263 is passed
2.			Where penalty is to be levied for any default other than concealment of income	
		(i)	Where penalty is levied during the course of assessment proceedings	Time limit for passing the penalty order is same as given under point No. 1 (A) (ia), (ib), (ii) and (iii) above
		(ii)	Where penalty is levied after completion of assessment or no assessment is to be made	Penalty order can be passed — (i) on or before expiry of the financial year in which the penalty proceedings were initiated Or (ii) within 6 months from the end of the month in which penalty proceedings were initiated whichever period expires later
3.			Where relevant assessment or other order is the subject matter of appeal to Commissioner (Appeal) or to the Appellate Tribunal, to the High Court or to the Supreme Court or is subject matter of revision under section 263 or section 264 but the penalty order has been passed before the order of Commissioner (Appeal) or Appellate Tribunal or High Court or Supreme Court is received by the Chief Commissioner or the Commissioner of Income Tax or before the order of revision under section 263 or 264 is passed by the Commissioner [Section 275(1A)]	An order imposing or enhancing or reducing or canceling penalty or dropping the proceedings for the imposition of penalty may be passed on the basis of assessment as revised by giving effect to such order of the Commissioner (Appeal) or the Appellate Tribunal or the High Court or the Supreme Court or order of revision under section 263 or section 264. However, in the above case no order of imposing or enhancing or reducing or canceling or dropping the proceeding for the imposition of penalty shall be passed. (a) unless the assessee has been heard or has been given a reasonable opportunity of being heard; (a) after the expiry of 6 months from the end of the month in which the order of the Commissioner (Appeals) or the Appellate Tribunal or the High Court or the Supreme Court is received by the Chief Commissioner or the Commissioner or the order of revision under section 263 or section 264 is passed.

No order imposing a penalty shall be made —

- (1) by the ITO where the penalty exceeds ₹10,000.
- (2) by the Assistant Commissioner or Deputy Commissioner where the penalty exceeds ₹20,000 except with the prior approval of the Joint Commissioner.

Even after inserting the proviso to section 275(1)(a) which has extended the period of limitation from 6 months to one year, where the appeal has been filed against the assessment order to Commissioner (Appeal), such proviso shall not be applicable to cases where further appeal has been preferred to Tribunal under section 253 against the order of Commissioner (Appeal). In such cases, the limitation period for levy of penalty would be as provided for in section 275(1)(b) i.e. six months from the end of the month in which order of Tribunal is received by Chief Commissioner or Commissioner [Rayala Corporation (P) Ltd vs. Union of India (2007) 161 Taxman 127 (Mad)].

However, as per Explanation to section 275, in computing the period of limitation the following period shall be excluded:

- (i) the time taken in giving an opportunity to the assessee to be reheard under the proviso to section 129;
- (i) any period during which the immunity granted under section 245H remained in force; and
- (ii) any period during which a proceeding under this Chapter for the levy for penalty is stayed by an order or injunction of any court.

Section	Nature of Default	Rigorous imprisonment	
		Minimum Period	Maximum Period
275A	Dealing with seized assets in contravention of the order made by the officer conducting search	Any period up to 2 years and fine	2 years and fine
275B	Failure to comply with the provision of section 132(1)(iib)	Any period up to 2 years and fine	2 years and fine
276	Removal, concealment, transfer or delivery of property to tax recovery	Any period up to 2 years and fine	2 years and fine
276A	Failure to comply with the provisions of section 178(1) & (3) by liquidator of a company	Any period up to 2 years but not less than 6 months in absence of special and adequate reasons	2 years
276B	Failure to pay tax to the Government's treasury or failure to pay to the Government tax payable by him as required by section 115-O(2) or second proviso to section 194B	3 months and fine	7 years and fine
276BB	Failure to pay to the credit of Central Government tax collected u/s 206C	3 months and fine	7 years and fine
276C(1)	Wilful attempt to evade tax penalty or interest imposable under the Act (non-cognizable as per Sec. 279A)	If tax evaded exceeds ₹1,00,000, then for 6 months & fine; otherwise 3 months and fine.	If tax evaded exceeds ₹1,00,000, 7 years & fine; otherwise 3 years and fine.
276C(2)	Wilful attempt to evade the payment of any tax, penalty or interest (non-cognizable as per Sec. 279A).	3 months and fine	3 years and fine

276CC	Wilful failure to file return of income in time u/s. 139(1), or in response to notice u/s. 142(1) or sec. 148(Non-cognizable as per Sec. 279A)	If tax evaded exceeds ₹ 1,00,000, 6 months and fine In any other case, 3 months and fine. Note: No prosecution if : (i) the return is filed before the expiry of the Assessment Year; or (ii) the tax payable on regular assessment, as reduced by TDS and advance tax does not exceed ₹ 3,000	If tax evaded exceeds ₹ 1,00,000, 7 years & fine; otherwise 3 years and fine
276CCC	Wilful failure to furnish in due time the return of total income which is required to be furnished u/s 158BC.	3 months and fine	3 months and fine
276D	Wilful failure to produce books of account and documents u/s 142(1) or wilful failure to comply with a direction to get the accounts audited u/s 142(2A)	Any period upto 1 year and/or fine of ₹ 4 for every day during which default continues.	1 year and/or fine of ₹ 10 every day during which default continues.
277	Making a false statement in verification or delivering a false account or statement (non-cognizable as per Sec. 279A)	If tax evaded exceeds ₹ 1,00,000; 6 months & fine; otherwise 3 months and fine.	If tax evaded exceeds ₹ 1,00,000, 7 years; otherwise 3 years and fine.
278	Abetment to make a false statement or declaration. (non- cognizable as per, Sec. 279A)	If tax evaded exceeds ₹ 1,00,000; 6 months; otherwise 3 months and fine.	If tax evaded exceeds ₹ 1,00,000, 7 years; otherwise 3 years and fine.
278A	Punishment for second and subsequent offences under sections 276B, 276C(1), 276CC, 277 or 278.	6 months for every offence	7 years for every offence & fine
278B and 278C	Offences committed by companies/ firms or HUFs- Criminal liability of managing director managing partner, karta or any such officer, who wilfully committed the offence for the company/firm or HUF.	Same as in the case of the company/firm/ HUF	Same as in the case of the company/firm/ HUF
280(1)	Disclosure of particulars by public servants in contravention of Sec. 138(2) (prosecution to be instituted with the approval of Central Government)	Up to 6 months and fine.	6 months and fine.

If there is a reasonable cause, it can be offered as a defense against penalty, prosecution, etc.

Reasonable cause can be reasonably said to be a cause which prevents a man of average intelligence and ordinary prudence, acting under normal circumstances, without negligence or inaction or want of *bona fides* - *Azadi Bachao Andolan vs. Union of India* 252 ITR 471 (Delhi).

'Reasonable cause' as applied to human action is that which would constrain a person of average intelligence and ordinary prudence. It means an honest belief founded upon reasonable grounds, of the existence of a state of circumstances, which, assuming them to be true, would reasonably lead any ordinary prudent and cautious man, placed in the position of the person concerned, to come to the conclusion that the same was the right thing to do - *Woodward Governors India (P.) Ltd. vs. CIT* 118 Taxman 433 (Delhi).

The words "reasonable cause" in the section must necessarily have a relation to the failure on the part of the assessee to comply with the requirement of the law which he had failed to comply with. *Kalakrithi vs. ITO* 125 Taxman 97 (Mad.).

Liability of directors of private company in liquidation.

Under certain circumstances directors of private company in liquidation are liable to tax liability of the company. Care should be taken to ensure that directors are not exposed to this risk.

Section 179 provides that where any tax due from a private company in respect of any income of any Previous Year or from any public company of any Previous Year during which such other company was a private company cannot be recovered, then, every person who was a director of the private company at any time during the relevant Previous Year shall be jointly and severally liable for the payment of such tax.

No recovery can be made from a director if the non-recovery cannot be attributed to any gross neglect, misfeasance or breach of duty on his part in relation to the affairs of the company.

Section 179 operates without regard to any contrary provision about limited liability, etc. contained in the Companies Act, 1956.

Case Laws:

- (1) Where assessee produced all the books and records, the Assessing Officer rejected the books and estimated income and did not record the finding of willful neglect on part of the assessee, penalty cannot be levied [*Ambassador Dry Cleaners vs. UOI* (1994) 210 ITR 292 (Raj)].
- (2) When a claim was made relying on several High Court decisions, the assessee's claim cannot be said to be *mala fide*. Mere rejection of claim would not amount to concealment [*CIT vs. Bombay Pipe Traders* (1995) 213 ITR 282 (Bom)].
- (3) Where inflation in purchases and difference in cash credits was due to totaling errors and non-posting of cash book entries in the ledger, there was no willful neglect on part of the assessee. Penalty not leviable [*CIT vs. Raja Corporation* (1994) 205 ITR 533 (Mad)].
- (4) Where assessee discovered mistakes in the books of account which were brought to the notice of tax authorities, followed by a revised return, penalty cannot be levied for concealment [*Varkey Chacko vs. CIT* (1993) 203 ITR 885 (SC)].
- (5) No penalty order can be passed unless assessment is completed or if assessment order has been cancelled [*Ripudaman Singal vs. ITO* (1995) 83 Taxman 173 (Chd)(AT)].
- (6) Where the Assessing Officer rejected books of account in the absence of expense vouchers, and a flat rate of 10% was adopted as profit, it was not a case of detection of concealed income and it was only a suspicion of concealment [*CIT vs. J.V. Apadurai Chettiar Co.*(1996) 221 ITR 849 (Mad)].

- (7) Where assessee filed confirmatory letter from lender in respect of cash credit and the lender subsequently denies the loan, followed by a revised return by assessee offering additional amount of cash credit before assessment, there was no concealment [CIT vs. Kusum Products Ltd (1993) 203 ITR 672 (Cal)].
- (8) Where assessee disclosed that it had received interest on tax refunds and claimed that the same was assessable in the earlier year and the Tribunal found that the same was assessable in the earlier year and not current year, there was no concealment [CIT vs. Shah (P.M.) (1993) 203 ITR 792 (Bom)].
- (9) Cash credits were added as income, and no other material was shown to prove concealment. It was held that mere rejection of assessee's Explanation did not amount to concealment [CIT vs. Bimla Devi Sharma (1991) 192 ITR 482 (Patna)].
- (10) Where it was found that the disparity was because the management of business had suddenly passed to young and inexperienced persons, the penalty could not be levied [CIT vs. Dajibhai Kanjibhai (1991) 189 ITR 41 (Bom)].
- (11) No penalty merely because of disallowance of certain expenses bona fide claimed by assessee [CIT vs. Rose Lock Factory (1993) 117 Taxation 366 (Guj)].
- (12) Where creditors confirmed transactions or were produced before the Tax Officer, no addition of cash credit stands and hence penalty quashed [Orissa Oil Industries Ltd vs. Dy. CIT (1996) 58 ITD 403 (Cuttack)(AT)].
- (13) Where the assessee trust disclosed its income fully, but did not pay tax at the correct rate of tax, it cannot be said to have concealed income or furnished inaccurate particulars thereof. Therefore penalty is not leviable [Harshvardhan Chemicals & Minerals Ltd vs. Dy. CIT (1991) 39 TTJ 212 (Jp) (AT)].
- (14) In respect of cash credits added under section 68, the lenders filed confirmations and affidavits indicating source of money given to the assessee. It was held that assessee had substantiated its Explanation with evidence. Penalty was held to be not justified [Ram Commercial Enterprises Ltd. vs. ACIT (1995) 52 ITD 147 (Del)(AT)].
- (15) The assessee claimed depreciation and investment allowance on certain machinery claimed to be installed during the year. The Assessing Officer did not accept the date of installation to be true and disallowed the claim and also levied concealment penalty. It was held by the Tribunal that assessee's claim of depreciation and investment allowance was made on certain basis and even though the same was not considered to be conclusive proof of installation on particular dates, no penalty can be levied for furnishing inaccurate particulars [Gulamrasul M. Pathan vs. CIT (Asst.) (1996) 57 ITD 129 (Ahd)(AT)].
- (16) The company received cash subscription towards its equity share capital. The company furnished names and address of the subscriber. The Income-tax Officer levied penalty on the ground that the assessee did not prove credit-worthiness of subscribers and it had concealed income from undisclosed sources. The Tribunal held that the Assessing Officer could have carried out further enquires by issuing summons to various subscribers. He could not have expected the assessee to have all the information about the shareholders. Further, penalty cannot be levied on the basis of findings in the assessment proceedings. There must be independent finding that there was concealment. Accordingly, penalty was deleted [Union Electric Corporation vs. ACIT (1995) 78 Taxman 29 (Ahd)(AT)].
- (17) Where Income-tax Officer made additions in respect of initial capital shown in the books of account without verifying the fact that assessee could have some money out of his savings from earlier years income, no penalty could be levied [Geo Sea Foods vs. ITO (1991) 37 ITD 233 (Coch) (AT)(TM)].

- (18) The assessee following cash method made certain payment for import of machinery. The accountant by mistake debited the amount to cost of plant and machinery and depreciation thereon was claimed although machinery was not received during the relevant year. The Tribunal held that this was a case of bona fide mistake and penalty deserved to be deleted [Bangalore Steel Distributors vs. ITO (1995) 51 TTJ 125 (Bang)(AT)].

ILLUSTRATIONS ON PENALTY & PROSECUTION

Illustration 1.

Ram, an individual had filed a return of income of ₹4,00,000 for the Assessment Year 2014-15. He paid a sum of ₹10,000 as tax whereas the tax payable on such income was ₹20,600 (including Education Cess + SHEC). His income is assessed at ₹4,90,000 and the tax payable on the assessed income is ₹29,870. Ram wishes to file an appeal against the above order. Advise Ram about the procedure of filing an appeal?

Solution:

- Ram should deposit tax of ₹10,600 i.e. tax payable on returned income minus tax deposited by him (₹20,600 - ₹10,000).
- Ram should deposit ₹1,000 as filing fee as the income assessed is more than ₹2,00,000.
- He should file an appeal in Form 35 (in duplicate).
- Appeal should be filed within 30 days of the receipt of the assessment order.
- He should apply to the Assessing Officer for stay of demand of ₹9,270 (₹29,870 - ₹20,600).

Illustration 2.

X did not file any return of income for the Assessment Year 2013-14. The Assessing Officer assessed his income at ₹3,20,000 under section 144 after giving him show cause notice to which X did not respond. Besides the tax, the interest was charged under sections 234A, 234B and 234C. The notice of demand of ₹22,500 (including interest) was sent to X on 5-3-2013 which was received by him on 7-3-2014. Advise X, the procedure of filing an appeal?

Solution:

- The appeal against the order passed by the Assessing Officer under section 144 should be filed to Commissioner (Appeal) within 30 days of the receipt of notice of demand i.e. on or before 6-4-2014 (within 30 days starting from 8-3-2014).
- A filing fee of ₹1,000 shall have to be deposited before filing such appeal.
- X should apply to the Commissioner (Appeal) for exemption of the payment of tax and interest of ₹22,500 on or before 6-4-2014. If the Commissioner (Appeals) exempts the payment of tax, then appeal filed shall be valid appeal. On the other hand, if the Commissioner (Appeal) asks the assessee to deposit full/part amount of the demand say by 31-5-2014 then the appeal shall be admitted only if the money is deposited by 31-5-2014 and proof of same is filed.

Illustration 3.

Can a CIT make a revision in regard to an order that has been earlier rectified due to some mistake?

Solution: Where an original order of assessment has been rectified, there remains no initial order in existence and as such the Commissioner cannot exercise his power of revision with reference to the original order [CIT vs. Vippy Solvex Products (P) Ltd (1997) 228 ITR 587 (MP)].

**Illustration 4.**

Can a CIT direct an Assessing Officer under section 263 to pass an order?

Solution:

The Commissioner is not empowered under section 263 to direct the Assessing Officer to pass an order [Dinwala (P.P.) vs. CIT (1995) 78 Taxman 421 (Cal)].

Illustration 5.

Is it necessary for the order of the Assessing Officer to be served before making it subject matter of proceedings under section 263?

Solution:

An order passed by the Assessing Officer is not effective till it is served on the assessee. Therefore, where the assessment order was passed but was not served it could not be made the subject-matter of proceedings under section 263 [Jijeebai Shinde vs. CIT (1986) 157 ITR 122 (MP)].

Illustration 6.

Can a CIT revise the order of the Income Tax Officer even if the same has been passed with the directions of the superior authorities?

Solution:

The Commissioner of Income-tax has jurisdiction under section 263 to revise an order passed by the Income-tax Officer with the approval of superior authority under section 144A or 144B [T.N. Civil Supplies Corpn. Ltd vs. CIT (2003) 260 ITR 82 (SC)].

Illustration 7.

Can you make a revision petition u/s 264 if application made u/s 197 is rejected by the Assessing Officer?

Solution:

If an application u/s 197 relating to obtaining a certificate from Assessing Officer for no deduction or deduction of tax at lower rate is rejected by the Assessing Officer, it can be revised by the Commissioner under section 264 [Larsen & Toubro Ltd. vs. CIT (2010) 190 Taxman 373 (Bom)].

Illustration 8.

Who is responsible for initiating penalty? Can the First Appellate Authority initiate penalty on the findings of Assessing Officer?

Solution:

Penalty should be imposed by the Assessing Officer or the First Appellate Authority on their respective findings only [CIT vs. Shadiram Balmukund (1972) 84 ITR 183 (All)]. The fact that during the original assessment proceedings, the Assessing Officer did not initiate penalty proceeding, is no bar to the exercise of such power by the First Appellate Authority [Kamlapat Motilal vs. CIT (1962) 45 ITR 266 (SC)].

Illustration 9.

If the facts of the transactions are disclosed in the return can a penalty for concealment be imposed?

Solution:

Penalty should not be imposed, if the assessee has claimed any exemption after disclosing the relevant basic facts of the transaction of the income and under ignorance of the provisions of the Act of 1961 has not offered that amount for tax. In such cases rather it is the duty of the Assessing Officer to ask for further details and tax the income if it is liable to tax. If the assessee had shown 'Long-term Capital Gain' and claimed exemption, but the transaction had been disclosed in the return. There was no concealment of income and penalty could not be imposed [Chandrapal Bagga vs. Income-tax Appellate Tribunal (2003) 261 ITR 67 (Raj)].

Illustration 10.

Sampat filed a return of income declaring an income of ₹6,25,000. Assessing Officer added unexplained cash credits of ₹2,00,000 and assessed the income at ₹8,25,000. Sampat filed an appeal to Commissioner (Appeal) who further enhanced the income by ₹1,12,500 to ₹9,37,500. Now, Sampat decided not to go for further appeal. Assessing Officer wants to levy penalty under section 271(1)(c) on ₹3,12,500. Is the Assessing Officer justified?

Solution:

The Supreme Court held in CIT vs. Shadiram Balmukund (1972) 84 ITR 183 (All) that the Assessing Officer can levy penalty on the additions made by him and not on the additions made by Commissioner (Appeal). Similarly Commissioner (Appeal) can levy penalty on the additions made by him and not on the additions made by the Assessing Officer. Therefore Assessing Officer can levy penalty on ₹2,00,000 and is not justified in levying penalty on ₹3,12,500.

In this case Assessing Officer had initiated the penalty proceedings before completing the assessment, but Commissioner (Appeal) had not initiated the penalty proceedings before passing the order under section 250. If the Assessing Officer had levied penalty on ₹3,12,500, in view of the above judgement, he will revise the penalty order and levy penalty on ₹2,00,000. Commissioner (Appeal) cannot levy penalty since he has not initiated the penalty proceedings before passing the order under section 250.

Illustration 11.

If there were certain disallowances while computing income under normal provisions but the assessment was made on income computed under section 115JB, will the penalty for concealment be leviable?

Solution:

Where Assessing Officer made certain disallowance while computing income under normal provisions of the Act and still the tax on income so computed is less than tax payable under section 115JB and the assessment was made on income computed under section 115JB, penalty under section 271(1)(c) cannot be levied as concealment in the form of disallowance of expenditures did not lead to tax evasion [CIT vs. Nalwa Sons Investments Ltd (2010) 194 Taxman 387 (Del)].

Illustration 12.

The unexplained investment for Assessment Year 2014-15 was found to be ₹8,00,000 which the assessee claimed to have come from the intangible additions which have been made in the past years as follows:

Assessment Year	Amount (₹)
2013-14	4,00,000
2012-13	3,00,000
2011-12	2,00,000
2010-11	1,00,000
2009-10	1,00,000

You are required to describe how will penalty proceeding be initiated in this case?

Solution:

In the above case penalty proceedings will be initiated on the intangible additions as follows:

For Assessment Year	
2013-14	4,00,000
2012-13	3,00,000
2011-12	1,00,000

If the entire/part of the intangible additions has already been subject to penalty in the past then no such penalty proceedings shall be initiated on such intangible additions which have been claimed to be the source of unexplained investment etc. of the current year.

Illustration 13.

Unexplained investment of ₹15,00,000 was found for Assessment Year 2014-15 and the source of such investment was claimed to have come from intangible additions made in the past. The following addition has been made and penalty imposed in the past years:

Assessment Year	Total addition	Amount of addition on which penalty levied
2013-14	5,00,000	Penalty levied on intangible additions of ₹2,00,000 only
2012-13	5,00,000	Penalty levied on intangible addition of ₹3,00,000
2011-12	5,00,000	Nil

You are required to describe how will penalty proceeding be initiated in this case?

Solution:

In the above case penalty proceedings will be initiated for Assessment Year 2014-15 on the amount mentioned in last column, calculated as under:

Assessment Year	Intangible Additions made starting from immediately preceding Assessment Years in which intangible addition is made	Penalty already levied	Balance amount on which penalty is leviable in respective Assessment Years
1	2	3	4
2013-14	5,00,000	2,00,000	3,00,000
2012-13	5,00,000	3,00,000	2,00,000
2011-12	5,00,000	—	5,00,000

Illustration 14.

Return of income submitted by a Hindu Undivided Family for Assessment Year 2014-15 was ₹ 2,90,000

Additions made by Assessing Officer are as follows:

	Amount (₹)
On account of question of law	30,000
On account of question of facts	1,10,000
Intangible additions	70,000

Compute the tax payable and penalty imposable under section 271(1)(c)

Solution :

	Amount (₹)	Amount (₹)
Return of income submitted		2,90,000
Add: Additions made by Assessing Officer		
On account of question of law	30,000	
On account of question of facts	1,10,000	
Intangible additions	70,000	2,10,000
Assessed Income		5,00,000
Tax payable		
Tax payable on Assessed Income of ₹5,00,000 (including education cess @ 2% + SHEC @ 1%)		30,900
Less: Tax paid on returned income		9,270
Balance tax payable		21,630
Penalty payable		
Tax sought to be evaded shall be determined as under:		
Tax on Assessed Income		30,900
Less: Tax on Assessed Income as reduced by concealed income i.e. Tax on ₹3,90,000 (₹5,00,000 - ₹1,10,000)		19,570
Tax sought to be evaded		11,330
Minimum penalty @ 100%		11,330
Maximum penalty @ 300%		33,990

Note:

- (1) Intangible additions are normally not treated as concealed income and therefore are not subject to any penalty. Similarly, additions due to question of law are not concealment of income.
- (2) In addition to tax, the HUF will have to pay interest as applicable.

Illustration 15.

Who is liable for prosecution for the offences made by HUF under Income Tax Act?

Solution :

As per section 278C(1), where an offence under the Income Tax Act has been committed by a Hindu Undivided Family, the karta thereof shall be deemed to be guilty of the offence and shall be liable to be proceeded against and punished accordingly.

The karta shall not be liable to any punishment if he proves that the offence was committed without his knowledge or that he had exercised all due diligence to prevent the commission of such offence.

As per section 278C(2), where an offence under this Act has been committed by a Hindu Undivided Family and it is proved that the offence has been committed with the consent or connivance of, or is attributable to any neglect on the part of, any member of the Hindu Undivided Family, such member shall also be deemed to be guilty of that offence and shall be liable to be proceeded against and punished accordingly.

**Illustration 16.**

Kunal feels that an offer of additional income cannot be avoided during the course of hearing, but before concealment was established against him. What are the alternatives available to him?

Solution :

An admission of concealment prima facie attracts penalty. Following are the alternatives available to him:

- (1) He can offer additional income and claim that the admission or offer of a higher amount as income is to purchase peace and that penalty is not attracted in such circumstances.
- (2) He can claim waiver of penalty, if it is exigible, before Commissioner u/s 273A by showing that admission is prior to detection, if he pays the tax and otherwise co-operates with the Department.
- (3) He can file a petition before Settlement Commission, if he can show that computation of income is complex, so that he can get immunity from penalty and prosecution.

Study Note - 19

TAX ADMINISTRATION

This Study Note includes

19.1 Tax Administration

19.1 TAX ADMINISTRATION

19.1.1 Income Tax Authorities [Section 116]

In order to discharge executive and administrative functions relating to the Act, the following Income-tax Authorities have been constituted –

- (a) The Central Board of Direct Taxes;
- (b) Directors General of Income-tax or Chief Commissioners of Income-tax;
- (c) Directors of Income-tax or Commissioners of Income-tax or Commissioners of Income-tax (Appeals);
- (d) Additional Directors of Income-tax or Additional Commissioners of Income-tax or Additional Commissioners of Income-tax (Appeals);
- (e) Joint Directors of Income-tax or Joint Commissioners of Income-tax;
- (f) Deputy Director of Income-tax or Deputy Commissioner of Income-tax or Deputy Commissioner of Income-tax (Appeals);
- (g) Assistant Directors of Income-tax or Assistant Commissioners of Income-tax;
- (h) Income-tax Officers;
- (i) Tax Recovery Officers;
- (j) Inspectors of Income-tax.

19.1.2 Appointment of Income-Tax Authorities [Section 117]

- (1) The Central Government may appoint such persons as it thinks fit to be Income-tax Authorities.
- (2) Without prejudice to the provisions of sub-section (1), and subject to the rules and orders of the Central Government regulating the conditions of service of persons in public services and posts, the Central Government may authorize the Board, or a Director-General, a Chief Commissioner or a Director or a Commissioner to appoint Income-tax Authorities below the rank of an Assistant Commissioner or Deputy Commissioner.
- (3) Subject to the rules and orders of the Central Government regulating the conditions of service of persons in public services and posts, an Income-tax Authority authorised in this behalf by the Board may appoint such executive or ministerial staff as may be necessary to assist it in the execution of its functions.

19.1.3 Control of Income-Tax Authorities [Section 118]

The Board may, by notification in the Official Gazette, direct that any Income-tax Authority or authorities specified in the notification shall be subordinate to such other Income-tax Authority or authorities as may be specified in such notification.

19.1.4 CENTRAL BOARD OF DIRECT TAXES (CBDT) [Section 119]

The Central Board of Direct Taxes (CBDT) has been constituted under the Central Board of Revenue Act, 1963. It works under the Ministry of Finance. The important powers of CBDT are:

- (i) To make rules for carrying out purposes of the Act [Sec. 295].
- (ii) To decide jurisdiction of the Income-tax Authorities [Sec. 120].
- (iii) To issue instructions, orders and directions to other Income-tax Authorities for proper administration of this Act and all other persons employed in the execution of this Act. However, it cannot issue instructions to the Commissioner of Income-tax (Appeals). It cannot issue a direction to any Income-tax Authority to dispose of a case in a particular manner. [Sec. 119]
- (iv) To declare an organization as company [Sec. 2(17) (iv)].
- (v) To entertain objections in respect of search and seizure under the Act. [Sec. 132(1)].
- (vi) To relax the provisions of Sections 139, 143, 144, 147, 148, 154, 155, 158BFA, 201(1A), 210, 211, 234A, 234B, 234C, 271 and 273 or otherwise [Section 119(2)(a)].
- (vii) Power of relaxing any requirement contained in Chapter IV (provisions for computation of income under various heads) or Chapter VI-A (provisions for deductions from Gross Total Income) [Section 119(2)(c)].
- (viii) To issue such general or special orders for relaxation of the provisions of sections relating to FBT viz; 115WD, 115WE, 115WF, 115WG, 115WH, 115WJ and 115WK [Section 119(2)(a)].
- (ix) To prescribe categories of transactions and documents pertaining to business or profession, where quoting of PAN is necessary [Sec. 139A(4)].
- (x) Prescribing qualifications for Authorized Representatives [Sec. 288].
- (xi) To condone delay for seeking CBDT's approval, where it is required [Sec. 293B] and authorize any Income Tax Authority not being Commissioner of Income-tax (Appeals), to admit belatedly ant claim for exemption, deduction, refund or relief [Section 119(2)(b)].
- (xii) The Act also assign powers and functions in Sections 2(18), 11(1)(c), 35(3), 36(1)(iv), 44AA, 80RRA, 80U, 118, 124(2), 127, 132(1), 138, 197(2A), 200, 228A, 246, 273A(2), 279, the Second Schedule and the Forth Schedule.

Circulars issued by the CBDT are legally binding on the revenue and this binding character attaches to the circulars even if they are found not in accordance with the correct interpretation of a statutory provision and they depart or deviate from such construction - *K.P. Varghese vs. ITO* 131 ITR 597 (SC).

It is well-settled that circulars can bind the ITO but will not bind the appellate authority or the Tribunal or the Court or even the assessee - *CIT vs. Hero Cycles (P.) Ltd.* 228 ITR 463 (SC).

CBDT has power, interalia, to tone down the rigor of the laws and ensure fair enforcement of its provision by issuing circular.

Circular contemplated in Sec.119 (2)(a) cannot be adverse to the assessee. Power is given for the purpose of just, proper and efficient management of work of assessment. Circular, however are not meant for contradicting or nullifying any provision of the statue. They are meant to mitigate the rigor of application of a particular provision. So long as such a circular is in favour, it would be binding on the departmental authorities in view of the provision of sec. 119 to ensure a uniform and proper administration & application of the IT Act - *UCO Bank vs. CIT* 237 ITR 899 (SC).

As per section 120, Income-tax Authorities shall exercise all or any of the powers and perform all or any of the functions conferred on or, assigned to such authorities by or under this Act in accordance with such directions as the Board may issue or the Board may authorise any other Income-tax Authority to issue orders in writing for the exercise of the powers and performance of the functions by all or any of the other Income-tax Authorities who are subordinate to it.

W.r.e.f. assessment year 1988-89, Explanation to sub-section (1) of section 120 has been inserted so as to provide that any Income-tax Authority, being an authority higher in rank, may exercise the powers and perform the functions of the Income-tax Authority lower in rank, if it is so directed by the Board under the said section. It has also been provided that any such direction issued shall be deemed to be a direction issued by the Board under the said sub-section (1).

As per section 120(3) in issuing the directions or orders, the Board or other Income-tax Authority authorised by it may have regard to any one or more of the following criteria, namely:

- (a) territorial area;
- (b) persons or classes of persons;
- (c) incomes or classes of incomes; and
- (d) cases or classes of cases.

According to section 120(4), the Board may, by general or special order, and subject to such conditions, restrictions or limitations as may be specified therein

- (a) authorise any Director General or Director to perform such functions of any other Income-tax Authority as may be assigned to him by the Board;
- (b) empower the Director General or Chief Commissioner or Commissioner to issue orders in writing that the powers and functions conferred on, or assigned to, the Assessing Officer by or under this Act in respect of any specified area or persons or classes of persons or incomes or classes of income or cases or classes of cases, shall be exercised or performed by a Joint Commissioner.

Further, the Board may require two or more Assessing Officers (whether or not of the same class) to exercise and perform, concurrently, the powers and functions in respect of any area or classes of cases.

Notification issued under section 120 conferring jurisdiction acts only prospectively and cannot be retrospective in effect [West Bengal State Electricity Board vs. DCIT (2005) 278 ITR 218 (Cal)].

Where the assessee claims the status as non-resident, then the AO (International Taxation) had the jurisdiction to make the assessment. [Manoj Kumar Reddy vs. ITO (2010) 42 DTR 171 (Bang)(Trib)].

As per section 129, whenever in respect of any proceeding under this Act an Income-tax Authority ceases to exercise jurisdiction and is succeeded by another who has and exercises jurisdiction, the Income-tax Authority so succeeding may continue the proceeding from the stage at which the proceeding was left by his predecessor:

However, the assessee concerned may demand that before the proceeding is so continued the previous proceeding or any part thereof to be reopened or that before any order of assessment is passed against him, he be reheard.

Such period which the Assessing Officer has taken to rehear the case, on the request of assessee, shall be excluded while determining the time limit of completion of assessment given under section 153.

19.1.5 Director General/Director

The Central Government has power to appoint Director General and Director [Sec. 117]. The CBDT authorize them to perform such functions as may be assigned to them by [Sec. 120]. The powers enjoyed by them include:

- (i) To appoint an Income-tax Authority below the rank of Assistant Commissioner/Deputy Commissioner, if authorised by the Board [Sec. 117].
- (ii) To direct the Joint Commissioner to function and assume the powers of Assessing Officer, if so authorised by the Board [Sec. 120].

- (iii) To transfer cases from one or more Assessing Officers to any other Assessing Officer who is subordinate to him [Sec. 127].
- (iv) To enquire or investigate concealed income of any person within his jurisdiction [Sec. 131(1A)].
- (v) Authorise any Joint Director / Joint Commissioner, Deputy Director / Deputy Commissioner, Assistant Director / Assistant Commissioner or Assessing Officer to enter, search and seize valuables [Sec. 132(1)].
- (vi) To give instructions to Income Tax Officers [Sec. 119(2)].
- (vii) To enquire or investigate into concealment [Sec. 131(1A)].
- (viii) To search and seizure [Sec. 132].
- (ix) To requisition books of accounts, etc.[Sec. 132A].
- (x) To survey [Sec. 133A].
- (xi) To make an enquiry [Sec. 135].

19.1.6 Commissioners of Income-tax

Commissioners of Income-tax are appointed by the Central Government. A Commissioner of Income-tax enjoys the following administrative as well as judicial powers and functions under the different provisions of the Act.

- (i) powers pertain to registration of a charitable trust or institution [Sec. 12A(1)(a)];
- (ii) approval of an annuity contract [Sec. 80E];
- (iii) appointment of Income-tax Officers (Class II) and Inspectors of Income-tax [Sec. 117(2)];
- (iv) instructions to subordinate authorities [Sec. 119] ;
- (v) shifting of jurisdiction [Sec. 125] ;
- (vi) transfer of cases [Sec. 127] ;
- (vii) assignment of functions to Inspectors of Income-tax [Sec. 128];
- (viii) discovery, production of evidence [Sec. 131] ;
- (ix) search and seizure [Sec. 132] ;
- (x) requisite books of account [Sec. 132A] ;
- (xi) any enquiry [Sec. 135] ;
- (xii) disclosure of information respecting assesses [Sec.138] ;
- (xiii) granting sanction for issue of notice to reopen assessment after the expiry of 4 years [Sec. 151(2)];
- (xiv) authorising Income-tax Officers to recover any arrear of tax due from an assessee by distraint and sale of his movable property [Sec. 226(5)] ;
- (xv) set off of refunds against tax remaining payable [Sec. 245] ;
- (xvi) directing the Assessing Officer to prefer an appeal to Appellate Tribunal against the order of the Commissioner (Appeals) [Sec. 253(2)] ;
- (xvii) appeal to High Court [Sec. 260A] ;
- (xviii) revision of orders passed by Assessing Officer which are prejudicial to the revenue [Sec. 263] ;
- (xix) revision of orders passed by subordinate authorities on his own motion or on the application of the assessee [Sec. 264] ;

- (xx) reduction or waiver of penalty in certain cases [Sec. 273A] ;
- (xxi) to award and withdraw recognition to provident funds [Schedule IV].

19.1.7 Commissioner of Income-Tax (Appeals)

Appointment is made by the Central Government. The following are important powers:

- (i) Power regarding discovery, production of evidence etc. [Sec. 131]
- (ii) To condone delay in filing of appeal.
- (iii) Power to call for information. [Sec. 133]
- (iv) Power to inspect register of companies. [Sec. 134]
- (v) To dispose of an appeal and to confirm, reduce, enhance or annul the assessment. - [Sec. 251]
- (vi) Power to impose a penalty. [Sec. 271 and 272A]
- (vii) Power to set off any refund against arrears of tax. [Sec. 245].
- (viii) The Commissioner (Appeals) has inherent powers to stay recovery proceedings *Paulsons Litho Works vs. ITO* 208 ITR 676 (Mad.).

19.1.8 Joint Commissioner of Income Tax

They are appointed by the Central Government. They enjoy the following powers :-

- (i) Power regarding discovery, production of evidence, etc. [Sec. 131]
- (ii) Power of search and seizure, if authorised. [Sec. 132]
- (iii) Power to call for information [Sec. 133]
- (iv) Power to survey [Sec. 133A]
- (v) Power to make an enquiry [Sec. 135]
- (vi) Power to collect certain information [Sec. 133B]
- (vii) Power to inspect register of companies [Sec. 134]
- (viii) To sanction reopening of assessment after the expiry of 4 years, if the assessment is made under any section other than sections 143(3) and 147.
- (ix) Instruction to the Assessing Officers. [Sec. 119(3)]

19.1.9 Assessing Officer

'Assessing Officer' means the Assistant Commissioner or Deputy Commissioner or Assistant Director or Deputy Director or the Income-tax Officer who is vested with the relevant jurisdiction by virtue of directions or orders issued under Section 120 or any other provision of this Act, and the *Additional Commissioner or Additional Director or Joint Commissioner or Joint Director* who is directed under the said section 120 to exercise or perform all or any of the powers and functions conferred on, or assigned to, an Assessing Officer under this Act [Sec. 2(7A)]

The following are some of the powers of Income-tax Officers —

- (i) Power regarding discovery, production of evidence, etc. [Sec. 131]
- (ii) Power of search and seizure, if authorised. [Sec. 132]
- (iii) Power to requisition books of accounts. [Sec. 132A]
- (iv) To apply the assets seized and retained u/s. 132 in satisfaction of the existing liabilities of the assessee under Direct Taxes Act. [Sec. 132B]

- (v) Power to call for information. [Sec. 133]
- (vi) Power to survey. [Sec. 133A]
- (vii) Power to collect certain information [Sec. 133B]
- (viii) Power to inspect register of companies. [Sec. 134]
- (ix) Power to allot Permanent Account Number. [Sec. 139A]
- (x) Power to impose penalties. [Sec. 142]
- (xi) Power to issue direction for setting accounts audited. [Sec. 142]
- (xii) Power to make assessment. [Sec. 143, 144]
- (xiii) Power to reassess income which has escaped assessment. [Sec. 147]
- (xiv) Power to rectify mistakes apparent from the records, either on his own or on an application made by the assessee. [Sec. 154]
- (xv) Power to grant a certificate to an assessee to receive a payment without deduction of tax at source or deduction of tax at source at a lower rate than prescribed [Sec. 197]
- (xvi) Power to grant refund. [Sec. 237, 240]

As per section 127(1), the Director General or Chief Commissioner or Commissioner may, after giving the assessee a reasonable opportunity of being heard in the matter, wherever it is possible to do so, and after recording his reasons for doing so, transfer any case from one or more Assessing Officers subordinate to him (whether with or without concurrent jurisdiction) to any other Assessing Officer or Assessing Officers (whether with or without concurrent jurisdiction) also subordinate to him.

There may be situations where the Assessing Officer from whom the case is transferred and the Assessing Officer to whom the case is transferred do not fall under the control of the same Director General or Chief Commissioner or Commissioner of Income tax. In such cases, the Director General or the Chief Commissioner or Commissioner of Income Tax from whose jurisdiction the case is transferred shall pass an order, if such concerned higher authorities mutually agree for such transfer.

If the higher authorities are not in agreement about the transfer, then, the Board or any such authority authorised by the Board may pass the order.

If the case is transferred between Assessing Officers within the same city or locality or place, then, it is not necessary to give the assessee an opportunity of being heard.

The transfer of a case may be made at any stage of the proceedings and it is not necessary to reissue any notice already issued by the Assessing Officer or Assessing Officers from whom the case is transferred.

As per section 127, the case of any assessee may be transferred from jurisdiction of an Assessing Officer or Assessing Officers (whether or not holding concurrent jurisdiction) to the jurisdiction of another Assessing Officer or Assessing Officers (whether or not holding concurrent jurisdiction). However, before such order of transfer is made, reasons there for have to be recorded and where the transfer is to the jurisdiction of the Assessing Officer or Assessing Officers which is not situated in the same city, locality or place, the assessee has to be given an opportunity of being heard and the reasons recorded for transfer have also to be intimated to him [Ajantha Industries vs. CBDT and Ors (1976) 102 ITR 281(SC)].

It is mandatory to record reasons for transferring the case, hence, transfer of case without any notice and reasons quashed [Chaitanya vs. CIT (2010) 328 ITR 208 (Bom)].

Impugned order made under section 127(2) without reflecting any reasons for transferring the cases from one Assessing Officer to another Assessing Officer cannot be sustained [Hemang Ashvinkumar Baxi (Dr) vs. Dy. CIT & Anr. (2010) 45 DTR 38 (Guj)].

Not only is the requirement of recording reasons under section 127(1) a mandatory direction under the law, but that non communication thereof is not saved by showing that the reasons exist in the file although not communicated to the assessee. Further, opportunity of being heard has to be provided before making the order of transfer of case [Madhu Khurana vs. CIT (2010) 47 DTR 289 (Guj)].

Reasons are not required to be recorded nor an opportunity of being heard required to be given when the case is transferred from one Assessing Officer to another at the same station [Kashtram Agarwalla vs. UOI and Ors (1965) 56 ITR 14 (SC)].

In the case of intra-city transfers, though opportunity of hearing as postulated in section 127(1) and 127(2) has been dispensed with other statutory formalities, which include issuing an order are required to be complied, with Assessing Officer on his own could not transfer an income tax file to another officer without an order under section 127(3) [Kusum Goyal vs. ITO (2010) 48 DTR 343 (Cal)].

In the matter of transfer of a case under section 127 of the Act, it is necessary that the authority which proposes to transfer the case must, wherever it is possible to do so, give the assessee a reasonable opportunity of being heard with a view to enable him to show cause against the proposed transfer. The notice must propose to give a personal hearing. It is also necessary to mention in the notice the reasons for proposed transfer so that the assessee could make an effective representation with reference to the reasons set out. It is not sufficient merely to say in the notice that the transfer is proposed to 'facilitate detailed and coordinated investigation'. The reason cannot be too vague and general in nature and should be based on material facts. It is again not sufficient to record reasons in the file but it is also necessary to communicate the same to the affected party [Melco India Pvt. Ltd. and Ors vs. CIT (2003) 260 ITR 450 (Del)].

Where the assessee had made a representation against the proposed transfer, a speaking order is required to be passed in his case [Parmeshwar Nath Rai vs. Chief CIT and Ors (2002) 258 ITR 591 (Cal)]. The order of transfer has to be made by a Commissioner, Chief Commissioner or Director General to whom the Assessing Officer holding jurisdiction over the assessee is subordinate. However, where the Assessing Officer to whom case is to be transferred is subordinate to another Director General, Chief Commissioner who is not in agreement with his counterpart, the order of transfer is to be made by the Board or a Director General or Chief Commissioner notified by it.

No assessee has a vested right to have his assessment decided by any officer at any place. It is for the head of the Department to allocate work among the officers under him subject to the Act and Rules. There is no scope for interference by the High Court in these matters which are purely administrative in nature, except when there is allegation of mala fides or want of jurisdiction [Redwood Hotel Pvt. Ltd. vs. Chief CIT (2003) 259 ITR 191 (Ker)].

Where there is any change in the address or status of the assessee or there is a change in the employment or any other reason due to which the jurisdiction of the Assessing Officer has changed, the assessee can make an application for the transfer of income-tax file.

For getting the file transferred, the assessee should take the following steps:

Step 1: The assessee should submit an application in duplicate before the following authority:

- (a) Where the Assessing Officer from whom the case is to be transferred and to whom the case is to be transferred, are subordinate to the same Director General or Chief Commissioner of Income-tax or Commissioner of Income Tax :— The application stating full facts in duplicate should be filed before the concerned Director General or Chief Commissioner of Income Tax or CIT, as the case may be. In this case such officer shall pass necessary orders after recording the reasons and giving opportunity to the assessee of being heard, if necessary.
- (b) Where the transferor and transferee Assessing Officers are within the jurisdiction of different Director General/Chief Commissioner of Income Tax/CIT :— The application giving full facts and particulars should be filed before the DGIT/CCIT or CIT, as the case may be, from whose jurisdiction the file is to be transferred, with a copy to the Commissioner to whose jurisdiction

the file is to be transferred and to both the transferor and transferee Assessing Officers. After receiving the application if both the Commissioners are in agreement, then the DGIT/ CCIT/CIT from whose jurisdiction the file is to be transferred shall pass the necessary order giving effect to such transfer. However, if they are not in agreement, the order may be passed by CBDT.

Step 2: The assessee should clearly mention the reasons for seeking the transfer of file in the application. In case of a transfer to a new place, new address should also be mentioned.

Step 3: An appropriate Court Fee stamp (presently Re 1) should be affixed on the original copy of the application.

19.1.11 Inspectors of Income Tax

Inspectors are appointed by the Commissioner of Income Tax.

They have to perform such functions as are assigned to them by the Commissioner or any other Income-tax Authority under which they are appointed to perform their functions.

In case of survey, inspectors have power to inspect books of account and other documents, place marks of identification, to take statements at any function, ceremony or event [Sec. 133A].

19.1.12 Change of incumbent of an Office [Section 129]

Whenever in respect of any proceeding under this Act an Income-tax Authority ceases to exercise jurisdiction and is succeeded by another who has and exercises jurisdiction, the Income-tax Authority so succeeding may continue the proceeding from the stage at which the proceeding was left by his predecessor.

Provided that the assessee concerned may demand that before the proceeding is so continued the previous proceeding or any part thereof be reopened or that before any order of assessment is passed against him, he be reheard.

19.1.13 Powers of Income Tax Authority

(1) Power to issue summons, etc. regarding discovery, production of evidence, etc. [Section 131].

(A) **Same power as of Court [Section 131(1)]:** The Assessing Officer, Joint Commissioner, Commissioner (Appeals), Commissioner and Chief Commissioner shall have the same powers as are vested in a Court under the Code of Civil Procedure, 1908, (when trying a suit) in respect of the following matters:

- (i) Discovery and inspection;
- (ii) Enforcing the attendance of any person including any officer of a Banking Company and examining him on oath;
- (iii) Compelling the production of books of account and other documents; and
- (iv) Issuing commissions.

These powers can be exercised by the aforesaid authorities only in respect of proceedings pending before them. Summons under this section will have to be issued by the Assessing Officer at the request of the assessee where the burden of proof lies on the assessee.

(B) **Power can be exercised whether any proceedings are pending or not [Section 131(1A)]:** If the Director General or Director or Joint Director or Deputy Director or Assistant Director or the Authorised Officer referred to in section 132(1), before he takes action regarding search and seizure, has reason to suspect that any income has been concealed or is likely to be concealed by any person within his jurisdiction, then for the purpose of making an enquiry or investigation relating thereto, he will be competent to exercise the powers mentioned in section 131(1) above, whether any proceedings in respect of such person or class of persons are pending before him or any Income-tax Authority or not.

Power can also be exercised for making an inquiry or investigation in respect of any person on request from Tax Authorities outside India [Section 131(2) inserted by the Finance Act, 2011, w.e.f. 1-6-2011].

For the purpose of making an enquiry or investigation in respect of any person or class of persons in relation to an agreement referred to in section 90 or section 90A, it shall be competent for any Income-tax Authority, not below the rank of Assistant Commissioner of Income Tax, as notified by the Board in this behalf, to exercise the powers currently conferred on Income-tax Authorities referred to in section 131(1). The authority so notified by the Board shall be able to exercise the powers under section 131(1) notwithstanding that no proceedings with respect to such person or class of persons are pending before it or any other Income-tax Authority.

- (C) **Power to impound and retain books of account and documents [Section 131(3)]:** The Officers mentioned in sections 131(1), (1A) and (2) above, may impound and retain in its custody for such period as it thinks fit any books of account or other documents produced before it in any proceedings under this Act.

However, an Assessing Officer or an Assistant Director/Deputy Director shall not impound any books of account or documents without recording his reasons for doing so. Further, he cannot retain in his custody such books of account and documents for a period exceeding 15 days (exclusive of holidays) without obtaining the approval of the Chief Commissioner or Director General or Commissioner/Director.

The books of account and documents can be requisitioned for a period beyond 3 years.

Section 131(3) empowers Income-tax Authorities to impound and retain, inter alia, any documents produced before them and there is no precondition that such power can be exercised only when some proceedings are pending against a particular or specified individual [Suman Sehgal vs. Union of India (2006) 154 Taxman 195 (Del)].

Consequence of defaults in compliance with the terms of summons issued under section 131

As per section 272A(1), a penalty of ₹10,000 can be imposed on a person for each of the following defaults—

- (i) Omission to attend to give evidence or produce the books of account or documents called for,
- (ii) Refusal to answer questions put to him,
- (iii) Refusal to sign the statement made by him.

(2) Power to call for information [Section 133]: The Assessing Officer, the Joint Commissioner or the Commissioner (Appeals) may require the furnishing of the following information for the purpose of this Act,—

- (I) require any firm to furnish him with a return of the names and addresses of the partners of the firm and their respective shares;
- (II) require any Hindu Undivided Family to furnish him with a return of the names and addresses of the manager and the members of the family;
- (III) require any person whom he has reason to believe to be a trustee, guardian or agent, to furnish him with a return of the names of the persons for or of whom he is trustee, guardian or agent, and of their addresses;
- (IV) require any assessee to furnish a statement of the names and addresses of all persons to whom he has paid in any previous year, rent or interest or commission or royalty or brokerage or any annuity, not being any annuity taxable under the head 'Salaries' amounting to more than one thousand rupees, or such higher amount as may be prescribed, together with particulars of all such payments made;

- (V) require any dealer or broker or agent or any person concerned in the management of a stock or commodity exchange to furnish a statement of the names and addresses of all persons to whom the exchange has paid any sum in connection with the transfer, whether by way of sale, exchange or otherwise, of assets, or on whose behalf or from whom he or the exchange has received any such sum, together with particulars of all such payments and receipts;
- (VI) require any person, including a banking company or any officer thereof, to furnish information in relation to such points or matters, or to furnish statements of accounts and affairs verified in the manner specified by the Assessing Officer or the Joint Commissioner or the Commissioner (Appeals) giving information in relation to such points or matters as, in the opinion of the Assessing Officer or the Joint Commissioner or the Commissioner (Appeals) will be useful for, or relevant to, any inquiry or proceeding under this Act.

However, the powers referred to in section 133(6) may also be exercised by the Director-General, the Chief Commissioner, the Director and the Commissioner.

Further that the power in respect of an inquiry, in a case where no proceeding is pending, shall not be exercised by any Income-tax Authority below the rank of Director or Commissioner without the prior approval of the Director or the Commissioner, as the case may be.

Power to collect information on requests received from Tax Authorities outside India [Third proviso to section 133] [Inserted by the Finance Act, 2011, w.e.f. 1.6.2011]: For the purposes of an agreement referred to in section 90 or section 90A, an Income Tax Authority not below the rank of Assistant Commissioner as may be notified by the Board under section 131(2) may exercise all the powers conferred under this section notwithstanding that no proceedings are pending before it or any other Income Tax Authority.

Failure to furnish details, information, etc. requisitioned under section 133 shall attract a penalty under section 272AA of ₹100 per day for the period during which the default continues.

(3) Power to collect certain information [Section 133B]: An Income-tax Authority may, for the purpose of collecting any information which may be useful for, or relevant to the purposes of Income-tax Act, enter:

- (a) any building or place within the limits of the area assigned to such authority; or
- (b) any building or place occupied by any person in respect of whom he exercises jurisdiction,

at which a business or profession is carried on, whether such place be the principal place or not of such business or profession, and require any proprietor, employee or any other person who may at that time and place be attending in any manner to, or helping in, the carrying on of such business or profession to furnish such information as may be prescribed in Form 45D.

The Income-tax Authority may enter any place of business or profession only during the hours at which such place is open for the conduct of business or profession.

The Income-tax Authority shall, on no account, remove or cause to be removed from the building or place wherein he has entered, any books of account or other documents or any cash, stock or other valuable article or thing.

The Income-tax Authority who is authorised to collect information under section 133B shall be —

- (a) Joint Commissioner of Income Tax or Additional Commissioner of Income Tax.
- (b) Assistance Director of Income Tax or Deputy Director of Income Tax.
- (c) Assessing Officer.

(d) An Income Tax Inspector, so authorised by the Assessing Officer.

Failure to furnish information in Form No. 45D shall attract a maximum penalty of ₹1,000 under section 272AA.

(4) Power to inspect registers of companies [Section 134]: The Assessing Officer, the Joint Commissioner or the Commissioner (Appeals), or any person subordinate to him authorised in writing in this behalf by the Assessing Officer or the Joint Commissioner or the Commissioner (Appeals), may inspect, and if necessary take copies, or cause copies to be taken, of any register of the members, debenture holders or mortgages of any company or of any entry in such register.

Failure to allow inspection of such register or to allow copies to be taken shall attract a penalty under section 272A(2)(d) of ₹100 for every day during which the failure continues.

(5) Power of DGIT/DIT/CCIT/CIT/JCIT to make enquiry [Section 135]: The Director General or Director, the Chief Commissioner or Commissioner and the Joint Commissioner are competent to make any enquiry under this Act and for that purpose they shall have all the powers that an Assessing Officer has under this Act in relation to the making of enquiries.

Study Note - 20

LIABILITY FOR SPECIAL CASES

This Study Note includes

20.1 Liability for Special Cases

20.1 LIABILITY FOR SPECIAL CASES

20.1.1 Tax liability after the death of an individual

Where an individual assessee dies, the following situations can arise vis-a-vis the tax payable by him:

- (a) The income earned by the assessee during his life time has been received by him. It only remains to be assessed or the taxes on the income, already assessed, is still to be recovered. This situation is covered by section 159.
- (b) Items of income of the deceased are received after his death by his legal heirs, executors or administrators. In this situation, the income of the deceased is normally part of the estate and hence capital in the hands of the legal representatives may be assessable in their hands by virtue of special provisions such as section 176(3) or (4) i.e. liability in case of discontinued business.
- (c) On the death, the assets of the estate vest, by testate or intestate succession on the heirs or legatees in specie or in specified shares and the income from the time of death accrues or arises to and is received by them. In this situation, the assessment has to be made in normal course in the hands of the heirs or legatees.
- (d) On death, the estate vests in the executors or administrators for the purposes of administration and, pending such administration, the executors or administrators are in receipt of the income of the estate. This situation is provided for in section 168 i.e. liability in case of executors.

20.1.2. Liability of Legal Representatives [Section 159]

Where a person dies, his legal representatives shall be liable to pay any sum which the deceased would have been liable to pay if he had not died, in the like manner and to the same extent as the deceased.

Legal representative means a person who in law represents the estate of a deceased person, and includes any person who intermeddles with the estate of the deceased and where a party sues or issued in a representative character, the person on whom the estate devolves on the death of the party so suing or sued [Section 2(29)]

The legal representatives have been made liable to pay out of the estate, any sum which the deceased would have been liable to pay. Thus, the liability is not confined only to the amount of tax but it also extends to liability in respect of penalties, interest or any other sum that would have been payable by the deceased.

However the liability of the legal representative is limited to the extent to which the estate is capable of meeting the liability.

Consequences if the legal representative is taxable [Section 159(2) and 159(3)]: For the purpose of making an assessment (including reassessment u/s 147) of the income of the deceased and for the purpose of levying any sum in the hands of the legal representatives, the following procedure shall apply:

- (a) any proceeding taken against the deceased before his death shall be deemed to have been taken against the legal representative and may be continued against the legal representative from that stage;
- (b) any proceedings, which could have been taken against the deceased if he had survived, may be taken against the legal representative;
- (c) all the provisions of the Act shall apply accordingly;
- (d) the legal representative of the deceased shall be deemed to be an assessee;

However, the liability of the legal representative shall be limited to the extent to which the estate of the deceased is capable of meeting the liability.

Where the deceased has furnished a return and he died before the completion of assessment, fresh notice under section 143(2) and 142(1) have to be issued to the legal representative and all the provisions of the Act would apply accordingly

Personal liability of legal representative in some cases [Section 159(4)]: If the legal representative of a deceased person creates a charge on or disposes of or parts with any asset of the estate of the deceased, while the liability for tax on the income of the deceased remains undischarged, the legal representative shall be personally liable for any tax payable by him in his capacity as legal representative. However, such liability shall be limited to the value of the asset charged, sold or parted with and the personal liability mentioned above is restricted only to the tax payable and does not extend to interest/penalty or any other sum.

Case Laws

- (1) Although income arising after the date of death is treated as income of the estate and is taxable in the hands of the executors u/s 168 but it will be assessed in the hands of the legal representatives u/s 159. [CIT vs. Hukumchand Mohanlal (1971) 82 ITR 624 (SC)].
- (2) Where the death occurs in the middle of an accounting year, it may be necessary to apportion the accrued income on a time basis except where the income accrues, not de in diem, but on a specific day which may fall after the date of death. [Palmer vs. Cattlemore (1937) 21 TC 191 & Arvind Bhogilal vs. CIT (1976) 105 ITR 764 (Bom)].
- (3) Where an assessee dies, pending any assessment proceedings, it is the duty of the Assessing Officer to ensure compliance of section 159(2) (i.e. bring the legal representative on record) before passing any orders. Hence, the assessment order passed by the Assessing Officer without bringing the legal representative on record was not justified. [CIT vs. Dalumal Shyamumal (2005) 276 ITR 62 (MP)].
- (4) In case of death of assessee before proceedings for assessment are completed, legal representatives must be brought on record otherwise the assessment is void ab initio. [CIT vs. Prabhawati Gupta (1998) 231 ITR 188 (MP) and R.C. Jain (Decd.) through his legal heir R.K. Jain vs. CIT (2005) 273 ITR 384 (Del)].
- (5) Where the assessee's appeal had been received by the Appellate Tribunal, the Department appeal against the order could be proceeded with after bringing on record the legal representative if the assessee has since died. [Prakash vs. ITO (2009) 312 ITR 40 (Bom)].
- (6) When proceedings are taken against an individual in his representative capacity, the name of that individual should first be specified. This should be followed by words describing his capacity or characters to whether he is legal representative, or an executor or administrator. Otherwise the assessment proceedings would be illegal and of no value. The principle that should be borne in mind is that it is not the deceased or the estate of the deceased that is the assessee; he is the individual who represents the estate and it is he that is taxed in his own name and, hence, his name and identity should be clearly specified in the order of assessment. [CIT vs. Amarchand N. Shroff (1963) 48 ITR 59 (SC)].

Some exceptions have however been recognised to the operation of the rule that the assessment on a dead person is a nullity. These are as follows:

- (a) Where the proceedings had come to a conclusion during the lifetime of the deceased but the assessment order was passed in the name of the deceased though by that time the officer had come to know of the death, the assessment order has been upheld as valid. [Joseph Joseph vs. ITO (Ag.) (1973) 92 ITR 114 (Ker)].
- (b) Where the legal representatives have in fact appeared voluntarily or in response to notices and have allowed the proceedings to continue against the deceased without objection, the assessment may be only set aside for being done afresh, not annulled. [CIT vs. Roshan Lal (1982) 134 ITR 145 (Del)].
- (c) Where one of the legal representatives filed a return in response to a notice on the deceased and did not point out to the officer that there were also other representatives, the assessments cannot be annulled. [Sajjan Kumar Saraf vs. CIT (1978) 114 ITR 155 (Cal)].
- (d) The Supreme Court in the case of CIT vs. Jai Parkash Singh (1996) 85 Taxman 407 (SC) held that where after the death of an individual, one of his ten legal representatives filed returns and notice was issued to another legal representative under sections 142(1) and 143(2) and he complied with it and the assessment was duly computed, omission to service notice to all legal representative of the deceased was only an irregularity and not a nullity. Similarly, in another case where an assessment order was made without notice to all the legal representatives, it was held that such assessment order suffered from procedural irregularity which was liable to be corrected. Such assessment order was neither void nor liable to be annulled. [CIT vs. Pushpa Devi (2003) 132 Taxman 506 (Raj)].

As per section 159(1), legal representative shall be liable to pay any sum which the deceased would have been liable to pay if he had not died, "in the like manner and to the same extent as the deceased". These words imply not only that there should be a separate assessment in respect of the deceased estate (separate from the personal assessment of the legal representative) but also that the computation of the income of the deceased estate shall have to be made in the status applicable to the deceased, granting all reliefs, which the deceased may be entitled to in respect of that status, and calculating the deductions and allowances and rebates that the deceased may be entitled to, and finally levying the tax at the average rate applicable to the deceased.

Section 159 applies only in respect of income of the deceased only upto the date of death and not upto the end of the accounting year in which the death occurs. If there is a will of the deceased and the executor is appointed, the income of the estate for the period from the date of death upto the end of the accounting year in which the death occurs and thereafter till the estate is distributed shall be separately assessed in the hands of the executors. Thus, in respect of the year of death two separate and distinct assessment would have to be made, the prior one on legal representatives and the later one on the executors under section 168. It will not make any difference even if the legal representative and the executor are one and the same person.

Penalty proceeding for a default committed by the deceased can be started or continued against the legal representative under this section which applies not only in respect of tax but also any other sum i.e. penalty, fine or interest. [Smt. Tapati Pal vs. CIT (2000) 241 ITR 468 (Cal)]. Further, under this Act, the legal representative, being an assessee for the purposes of Act, is liable to a penalty for him own default e.g. penalty under section 221 for his own default in paying the tax assessed on him or on the deceased or penalty under section 271(1) for having himself submitted an incorrect return of the income of the deceased or having failed to file the return on time. A penalty already imposed on the deceased prior to his death may be demanded from the legal representative and collected out of the estate. However, a legal representative is not liable to prosecution and offences under this Act.

Under wealth tax, no penalty can be levied on legal representative for default of the deceased assessee as provisions of section 18 of Wealth tax Act, 1957, relating to penalty, are outside the ambit of section 19 dealing with liability to assessment in special cases. [CIT vs. H.S. Chauhan (2000) 245 ITR 704 (Del)].

20.1.3. Executors [Section 168]

Section 168 applies to a case where succession is a testamentary succession i.e. by will. However, in the case of intestate succession, i.e. where there is no will, section 168 will have no application.

As per Explanation to section 168 "executor" includes an administrator or other person administering the estate of a deceased person.

An executor is a person who is appointed by the testator to carry out and execute his wishes and for that purpose, to administer his estate after his death. An administrator is a person who is not appointed by the testator, but who is granted letters of administration by a court to the administrator the estate. The capacity of the executors to represent the estate is derived under the will from the date of death and does not depend on whether he has obtained probate or not.

Executors and administrators are charged under this section, not as representative assesseees, but in their own right as persons in whom the estate of the deceased vests until it is completely administered. Where the administration of the estate is not complete, the assessment has to be made on the executors.

The income chargeable in the hands of the executor or administrator is the income of the period commencing from the date of the death of the deceased. Any income in respect of any period prior to that date should be assessed in the hands of the legal representatives under section 159. So, there would be two assessments in respect of the accounting year of death:

- (i) one for the period commencing from the first day of the accounting year and ending with the date of death (in the hands of the legal representative), and
- (ii) the other commencing from the date of death, and ending with the last day of the accounting year (in the hands of the executor or administrator).

Whereas against the legal representative, there would be an assessment qua legal representative only for one year, namely, the assessment year corresponding to the accounting year of death, against the executor or administrator, there would be yearly assessments commencing from the assessment year corresponding to the accounting year of death, and lasting upto the year till the administration of the estate is completed.

Thus, if the accounting year of the deceased is the financial year and the deceased died, say, on 06.06.2013, the first assessment year applicable to the executor or administrator would be assessment year 2014-15. In that assessment, all income that accrued or arose or was received by the executor or administrator commencing from 06.06.2013 and ending with 31.03.2014 would be included in the total income. In respect of income which accrued or arose or received by the executor or administrator during the accounting year 1.4.2014 to 31.3.2015, assessment would have to be made on the executor or administrator in the assessment year 2015-16, and so on. This procedure would have to be observed till the date of complete distribution to the beneficiaries of the estate according to their several interests.

The words "according to their several" qualify the immediately preceding words complete distribution to the beneficiaries; they should not be understood as requiring separate assessments on the executors in respect of the respective shares of the several beneficiaries.

According to Section 168(1), the income of the estate of a deceased person shall be chargeable to tax in the hands of the executor:

- (i) If there is only one executor as if the executor were an individual
- (ii) If there are more executors than one as if the executors were an Association of Persons

The executor shall be deemed to be resident or nonresident according as the deceased person was a resident/non-resident during the previous year in which the death took place.

The assessment of a person qua legal representative or qua executor or administrator is different from the assessment of these individuals in their personal or private capacity. Sub-section (2) of section 168 provides that their personal or private incomes shall have to be assessed separately and ought not to be included in their representative assessments, as made clear by this sub-section.

Sub-section (4) of section 168 provides that in calculating the total income of any accounting year, the executor is entitled to deduct any specific legacy distributed to or applied to the benefit of a specific legatee. This legacy shall be included in the total income of the specific legatee in the year of receipt.

In computing the income from the estate, the executor is not entitled to deduct probate duty or any other expenses directed to be incurred under the will of deceased. All payments are made out of the income of the estate coming into the hands of the executor and such payments, though directed to be made by the testator, cannot be said to have been diverted away from the hands of the executor by any overriding title. The executor stands in the shoes of the testator and the entire income belongs to the estate; and he would not be entitled to any deductions which the deceased himself would not have been entitled to claim, had he been alive. Also he cannot as an executor seek to deduct any sums that he might have paid by way of death duties on the ground that the same had to be paid in order to enable him to carry on the testator's business in those countries.

Section 169 provides the right of executor to recover tax paid. The provisions of section 162 shall, so far as may be, apply in the case of an executor in respect of tax paid or payable by him as they apply in the case of a representative assessee i.e. the executor will be able to recover such tax from the estate or from the persons on whose behalf it is paid.

Case Laws:

- (1) Where a person leaves a will, the estate of the deceased would rest in the executor, who would be assessable under section 168, so that there is no scope for application of the clubbing provision under section 64(1)(iii) [Now substituted by section 64(1A) for aggregation of the minor's income]. [CIT vs. Abdulgafur A. Mistry (2007) 292 ITR 515 (Guj)].
- (2) The Supreme Court in the case of ITO (First Addl) vs. Suseela Sadanandan & Another (1965) 57 ITR 168 (SC) held that if a person dies executing a will appointing more than one executor or dies intestate leaving behind him more than one heir, the ITO shall proceed to assess the total income of deceased against all the executors or the legal representatives, as the case may be.
- (3) A single assessment is to be made under section 168 in respect of the income of the entire estate of the deceased even if he has made separate wills appointing different executors in respect of different properties. [H.H. Maharani Vijaya Kunverba Saheb vs. CIT (1983) 136 ITR 18 (Guj)].
- (4) The Bombay High Court in CIT vs. Usha D Shah (1981) 127 ITR 850 (Bom) held that the effect of section 168 is that it is made obligatory that the estate of a deceased person is charged to tax in the hands of an executor. The provision does not seem to leave any discretion to the Income-tax Authorities in this matter.

20.1.4. Liabilities of a representative assessee as regards the income in respect of which he is a representative assessee of another person [Section 160 to 167]

Assessment on the legal representative or other person administering the estate of a deceased person is dealt with sections 159 and 168. However, legal representative is not a representative assessee within the meaning of this Act.

Where on behalf of or for benefit of another, income is legally receivable by a person, the assessment and collection of tax thereon may present some problems. For ensuring the smooth furnishing of machinery for assessment and collection of tax in such cases, specific provisions have been made in Income-tax Act for assessment and collection of tax from person (i.e. representative assessee) receiving such income.

Income of an assessee is taxable in the hands of a representative assessee either because the assessee is —

- (a) not competent to contract (say a minor or lunatic); or
- (b) not present in India (say a non-resident);
- (c) an artificial person and thus has to be represented by some human being.

A “Representative Assessee” means—

- (i) In respect of the income of a non-resident specified in section 9(1) (i.e. income deemed to accrue or arise in India) — the agent of the non-resident, including a person who is treated as an agent under section 163.
- (ii) In respect of the income of a minor, lunatic or idiot — the guardian or manager who is entitled to receive or is in receipt of such income on behalf of such minor, lunatic or idiot.
- (iii) If the Court of Wards/Administrator General/Official Trustee/receiver or manager etc., is appointed by or under any order of a court to receive any income on behalf of some other person — the representative assessee shall be such Court of Wards/Administrator General/Official Trustee/receiver or manager, etc.
- (iv) In respect of any income under a trust declared by a duly executed instrument in writing, whether testamentary or otherwise (including Wakf deed) for the benefit of any person — the trustee or trustees so appointed who receive or are entitled to receive any income on behalf of the beneficiary.
- (v) in respect of income which a trustee appointed under an oral trust receives or is entitled to receive for the benefit of any person — the trustee or trustees so appointed.

A representative assessee shall be deemed to be an assessee for the purpose of this Act.

Besides the legal representatives mentioned above, there are certain cases, where the income received by one person can be assessed in the hands of another. The person who is liable to be assessed on behalf of other because of their association with the real recipient of the income is known as representative assessee.

Every representative assessee, as regards the income in respect of which he is a representative assessee, shall be subject to the same duties, responsibilities and liabilities as if the income were income received by him, or accruing to him, or in favour of him beneficially, and shall be liable to assessment in his own name in respect of that income; but any such assessment shall be deemed to be made upon him in his representative capacity only, and the tax shall, subject to the other provisions, be levied upon and recovered from him in like manner and to the same extent as it would be leviable upon and recoverable from the person represented by him. Analysis of the above reveals that —

- (i) The income of the representative assessee as such should be kept distinct from such income as he may have in his individual capacity except where he is also a beneficiary. These cannot be clubbed together merely because the person being assessed is the same.
- (ii) Status to be assigned to representative assessee is the same as that of beneficiary or beneficiaries.
- (iii) If there is only one representative assessee, the income will be computed in the same manner as it would have been computed in the hands of the beneficiary and the deduction/exemption and all other relief that the person represented may be entitled to claim shall be allowed to the representative assessee. On the other hand, if there are more than one representative assessee, each has to be assessed in respect of the income he is entitled to receive. These representative assessee would also be entitled to claim deduction, exemption and all other reliefs that the person represented would be entitled to.
- (iv) Where there are more than one beneficiary of a private trust and the share falling to each of the beneficiary are determinate, the assessments are to be made on the trustee(s) as a representative assessee u/s 161. Such assessment will have to be made at the rate applicable

to the total income of each beneficiary. Accordingly, separate assessment for each of the beneficiary on whose behalf the income is received by the trustee will have to be made. However as per section 166, the Income-tax Department has an option to make direct assessment in the hands of each beneficiary entitled to the income.

- (v) Tax liability of representative assessee cannot exceed the sum total of the tax liabilities of each beneficiary separately computed.
- (vi) If the several persons represented have each a trustee, each such trustee shall have to be assessed separately as a representative assessee in respect of individual interest of the respective person represented.
- (vii) Though a representative assessee may be taxed only in respect of a part of the beneficiary income, the tax has to be charged at the rate applicable to the total income. The problems are occurred where there are more than one representative assessee. For the representative assessee, they may not be aware of the other income of the beneficiary and may be able to return only that part of the income which he is entitled to receive. So also, the officer will have to get an idea of the total income of the beneficiary on the basis of all the returns filed by the representative assessee or the beneficiary, if any, before he can complete any of the assessments and if the representative assessee and sources of income are scattered in several places, the difficulty created may be quite considerable.

Exceptions to the rule that the representative assessee is assessable only in like manner and to the same extent as the beneficiary

Where Trust income includes business income [Section 161(1A)]: If the trust income consists of or includes profits and gains of business, the tax shall be charged on the whole of the income in the hands of the representative assessee at the maximum marginal rate and not at the rate applicable to the beneficiary. However such maximum marginal rate will not be applicable where such profits and gains are receivable under a trust declared by any person under a will, exclusively for the benefit of any relative dependent upon him for support and maintenance and such trust is the only trust declared by him.

Where share of the beneficiaries are indeterminate or unknown [Section 164(1)]: In the case of a private discretionary trust, declared by a duly executed instrument in writing where the shares of the beneficiaries are unknown, trustee(s) is liable to tax as a representative assessee at the maximum marginal rate.

However, the maximum marginal rate of income tax will not apply in the following cases:

- (i) Where none of the beneficiaries has any other income exceeding the exemption limit as applicable to an association of persons nor is he a beneficiary under any other private trust; or
- (ii) Where the relevant income or part of the relevant income is receivable under a trust declared by any person by will and such trust is the only trust so declared by him; or
- (iii) Where the trust, yielding the relevant income or part thereof was created by a non-testamentary instrument (before March 1970) bona fide exclusively for the benefit of the relatives of the settlor, or where the settlor is Hindu Undivided Family, exclusively for the benefit of members of such family in circumstances where such relatives or members were mainly dependent on the settlor for their support and maintenance; or
- (iv) Where the relevant income is receivable by the trustees on behalf of a provident fund, superannuation fund, gratuity fund, pension fund or any other fund created bona fide by a person carrying on a business or profession exclusively for the benefit of his employees.

If the case falls within any of the above four exceptions, the relevant income or part thereof is to be taxed at the rate applicable to an association of person.

From the assessment year 1985-86 and subsequent years, the exemption from maximum marginal rate of tax in the aforesaid cases will not apply in case where the income of a private discretionary trust [assessable in the hands of a trustee as representative assessee under section 160(1)(iv)] consists of, or includes profits and gains of business. In such cases the entire income of the trust would be charged at the maximum marginal rate of tax except in cases where the profits and gains are receivable under a trust declared by any person by will exclusively for the benefit of any relative dependent on him for support and maintenance and such trust is the only trust declared by him. In that case, the income of the discretionary trust would be charged to tax at normal rates applicable to an association of persons.

Where any person is, in respect of any income, assessable in the capacity of a representative assessee, he shall not, in respect of that income, be assessed under any other provision of this Act.

Case Laws:

It was held that even if the trust in question had to be regarded as a discretionary trust in as much as the profits had, during the relevant assessment years, been credited to the respective accounts of the beneficiaries, the income was to be assessed in the hands of the beneficiaries. [Moti Trust vs. CIT (1999) 236 ITR (SC)].

Taxability of income of the charitable or religious trust [Section 164(2)]: Such income of the charitable or religious trust which is not exempt under section 11 shall be assessable as income of an association of persons. However, if the whole or any part of the relevant income is not exempt under section 11 or 12 due to the following it shall be charged at the maximum marginal rate:

- (i) if any part of the income of the charitable trust created or established after 1.4.1962 enures directly or indirectly for the benefit of any person referred to in section 13(3), or
- (ii) if any part of such income or any property of the trust, which during the previous year is used or applied for any persons referred to in section 13(3), or
- (iii) if funds of the trust are not invested in the mode specified under section 11(5).

Charge of tax in case of oral trust [Section 164A]: Where a trustee receives or is entitled to receive any income on behalf or for the benefit of any person under an oral trust, then, notwithstanding anything contained in any other provision of this Act, tax shall be charged on such income at the maximum marginal rate.

Where option to tax beneficiary instead of trustees is exercised [Section 166]: Although in the case of discretionary trust, trustees are the representative assessee, but according to Section 166 there can be a direct assessment of the person on whose behalf or for whose benefit the income is received by representative assessee.

The general principle is to charge all income only once. The Assessing Officer should keep this point in view at the time of making the initial assessment either of the trust or the beneficiary and adopt a course beneficial to the Revenue. Having exercised his option once it will not be open to the Assessing Officer to assess the same income for that assessment year in the hands of the other person. [Circular No. 157, dated 26.12.1974].

Further section 166 provides that even in a case where the assessment has been made on the representative assessee, the tax may be recovered from the person beneficially entitled to the income. [CIT vs. Trustees of Miss Gargiben Trust (No. 1) and Others (1981) 130 ITR 479 (Bom)].

Where right to receive income by the beneficiary is postponed, it does not mean that the trust cannot be assessed in respect of such income. The fact, that the beneficiaries were entitled to the income only after majority, does not mean that it would not be the income of the trust. Such income was being merely accumulated before disbursement. Since the income had already accrued and since the law provides for liability on the part of the representative assessee under section 161(1), an assessment is justified in the respective years of accrual. Such income is assessable in the hands of the trustee in the view that it is not that the beneficiary has no income during the year, but his right to the income stands

postponed, so that it should be possible to assess the trust. [Ganesh Chhababhai Vallabhai Patel vs. CIT (2002) 258 ITR 193 (Guj)].

Right of representative assessee to recover tax paid [Section 162]: Every representative assessee who, as such, pays any sum under this Act, shall be entitled to recover the sum so paid from the person on whose behalf it is paid, or to retain out of any moneys that may be in his possession or may come to him in his representative capacity, an amount equal to the sum so paid.

Any representative assessee or any person who apprehends that he may be assessed as a representative assessee, may retain out of any money repayable by him to the person on whose behalf he is liable to pay tax (hereinafter referred to as the principal) a sum equal to his estimated liability under this Chapter and in the event of disagreement between the principal and such respective assessee such representative person may secure from the Assessing Officer a certificate stating the amount to be so retained pending final settlement of liability. The certificate shall be his warrant for retaining that amount.

The amount recoverable from such representative assessee or person at the time of final settlement shall not exceed the amount specified in such certificate, except to the extent to which such representative assessee or person may, at such time, have in his hands additional assets of the principal.

Cases where part of trust income is chargeable [Section 165]: Where part only of the income of a trust is chargeable under this Act, that proportion only of the income receivable by a beneficiary from the trust which the part so chargeable bears to the whole income of the trust shall be deemed to have been derived from that part.

Remedies against property in cases of representative assessee [Section 167]: The Assessing Officer shall have the same remedies against all property of any kind vested in or under the control or management of any representative assessee as he would have against the property of any person liable to pay any tax, and in as full and ample a manner, whether the demand is raised against the representative assessee or against the beneficiary direct.

Agent in relation to a non-resident [Section 163]

The person who may be regarded as an agent of non-resident in India may belong to one of the following five categories:

- (i) One who is employed by or on behalf of the non-resident; or
- (ii) One who has any business connection with the non-resident; or
- (iii) One, from or through whom the non-resident is in receipt of any income, whether directly or indirectly; or
- (iv) One who is the trustee of the non-resident; or
- (v) One, whether a resident or non-resident, who has acquired by means of a transfer, a capital asset in India.

In the first four cases, it is further necessary that the person sought to be assessed as an agent should be in India.

It is the Assessing Officer who has jurisdiction to decide the question whether a particular person should be treated as an agent of the non-resident or not. Amongst these five categories of persons, the Assessing Officer should select the particular person who is connected with the particular income to be assessed as enumerated in section 9(1) and treat him as the agent of the non-resident for that particular income. The principle is that the person who helps the non-resident to make income in India should be saddled with the responsibility of payment of tax due by the non-resident in respect of that income. There is, of course, the added facility of easier assessment and collection of tax from the agent so treated, who is a person in India.

However, a broker in India who, in respect of any transactions, does not deal directly with or on behalf of a non-resident but deals with or through a non-resident broker shall not be deemed to be an agent under this section in respect of such transactions, subject to the fulfillment of following conditions, namely:—

- (i) the transactions are carried on in the ordinary course of business through the first mentioned broker; and
- (ii) the non-resident broker is carrying on such transactions in the ordinary course of his business and not as a principal.

Sub-section (2) of section 163 lays down that a person cannot be treated as the agent of a non-resident unless and until he has had an opportunity of being heard by the Assessing Officer as to his liability. Since an order under this section is appealable, a written order is essential.

Power of attorney does not answer the description of agent in relation to a non-resident, as envisaged under section 163(3)(1), hence, the assessment order framed in the case of NRI in the name of power of attorney treating as an agent held to be illegal and void. [CIT vs. Mukesh B. Shah (2010) 40 DTR 297 (Guj)].

Single transaction of purchase of shares by assessee from non-resident. Consideration remitted by assessee after deduction of tax at source. Assessee can be treated as an agent of non-resident, that assessee has deducted tax at source will not preclude liability to be treated as agent. [Utkal Investments Ltd vs. Astt. DIT (2010) 5 ITR (Trib) 481 (Mum)].

20.1.5. Succession to business otherwise than on death [Section 170]

Section 170 applies to cases of succession to a business profession or vocation and not cases of succession to any other income producing source.

Succession involves change of ownership; i.e. the transferor goes out and the transferee comes in. It connotes that the whole business is transferred; it also implies that substantially the identity and the continuity of the business are preserved.

The expression "succession" has acquired a somewhat artificial meaning. The Supreme Court, in CIT vs. Chambers (KH) (1965) 55 ITR 674 (SC), held that the tests of change of ownership, integrity, identity and continuity of business have to be satisfied before it can be said that a person "succeeded" to the business of another.

Succession and discontinuance: Where a person is carrying on a business or profession, such business or profession may come to an end so far as he is concerned in one of the following ways:

- (i) It may come to end by the business changing hands by way of sale, gift or any other kind of transfer so that the business, considered an integral whole, continues to be carried on, though by a different person. That situation is called "succession" dealt with by the present section.
- (ii) It may come to end in the manner that there is no succession but the business or profession as such ceases to be carried on by the assessee or anyone else. This is called discontinuance. In this case, a charge would arise on the person concerned at the Assessing Officers discretion under the provisions of, and in accordance with the procedure laid down in section 176. Should the Assessing Officer choose not to take action under section 176, the charge would be levied in the assessment year following the previous year of discontinuance. The consequence of a finding of discontinuance would also involve that any business which is found to be carried on by the successor after the discontinuance would be a fresh and new business.

Point no. (ii) eventuality is not provided for in section 170.

Assessment on predecessor & successor [Section 170(1)]: Where a person carrying on any business or profession (such person hereinafter referred to as the predecessor) has been succeeded therein by any other person (hereinafter to as the successor) who continues to carry on that business or profession,—

- (a) the predecessor shall be assessed in respect of the income of the previous year in which the succession took place up to the date of succession (including any gain accruing from the transfer of business as a result of succession);
- (b) the successor shall be assessed in respect of the income of the previous year after the date of succession.

The effect of this section is that the predecessor in business is assessable in respect of the income of the year of succession upto the date of succession, while the successor is assessable in respect of the income of that year after the date of succession. The predecessor and the successor would each be liable to tax at the rate applicable to each. The income of the predecessor and the successor must be computed separately and each must be granted the deduction and allowances appropriate to his case. The assessment on each must be separate and distinct. The successor is not allowed to carry forward and set off the losses incurred by his predecessor. He has also no right to carry forward the unabsorbed depreciation allowance of the years prior to his succession to the business.

Assessment when predecessor cannot be found [Section 170(2)]: Notwithstanding anything contained in sub-section (1), when the predecessor cannot be found, the assessment of—

- (a) the income of the previous year in which the succession took place up to the date of succession, and
- (b) the previous year preceding the year of succession

shall be made on the successor in like manner and to the same extent as it would have been made on the predecessor, and all the provisions of this Act shall, so far as may be, apply accordingly.

Tax of predecessor can be recovered from successor [Section 170(3)]: When any sum payable under this section in respect of the income of such business or profession for the previous year, in which the succession took place, up to the date of succession or for the previous year preceding that year, assessed on the predecessor, cannot be recovered from him, the Assessing Officer shall record a finding to that effect and the sum payable by the predecessor shall thereafter be payable by and recoverable from the successor, and the successor shall be entitled to recover from the predecessor any sum so paid by him.

T Ltd. is succeeded by H Ltd. on 25.09.2013 and the tax cannot be recovered from T Ltd.. In this case the tax relating to previous year 1.4.2013 to 25.09.2013 and the preceding previous year i.e. 2012-13 can only be recovered from the successor provided the Assessing Officer records a finding to that effect. However H Ltd. shall be entitled to recover such income-tax from T Ltd.

Recovery of tax of a HUF on succession thereto [Section 170(4)]: Where business of a Hindu Undivided Family is succeeded, and there is a partition in the family either simultaneously with the succession or sometime later, the tax due by the HUF in respect of its income from the business or profession succeeded to, up to the date of the succession, shall be recoverable from the members of the divided family in accordance with the proportions of the property allotted to them on partition. The liability of such members is joint and several. In respect of such taxes owing by the divided members, the liability of the successor under sub-section (2) and (3) of section 170 would continue. Consequently, if any of the divided members cannot be found or the tax levied upon any of the divided members cannot be recovered from them, the same can be recovered from the successor, subject to the restrictions and qualifications discussed above.

Income of Predecessor includes capital gains by virtue of succession: The explanation to section 170, states that any capital gain accruing to the transferor from the transfer which has resulted in the succession is treated as a category of the predecessors income to which this provision is applicable. One consequence is that, if the predecessor cannot be found, the successor would be liable to pay the tax on the sum of the capital gains.

Section 41(1) provides that where an allowance or deduction has been made in the assessment for any year in respect of loss, expenditure or trading liability incurred by the assessee (hereinafter referred to as the first mentioned person) and subsequently during any previous year, the successor in business

has obtained, whether in cash or in any other manner whatsoever, any amount in respect of which loss or expenditure was incurred by the first-mentioned person or some benefit in respect of the trading liability by way of remission or cessation thereof, the amount obtained by the successor in business or the value of benefit accruing to the successor in business shall be deemed to be profits and gains of the business or profession, and accordingly chargeable to income-tax as the income of that previous year.

20.1.6. Charge of tax in case of AOP/BOI [Section 167B]

The tax liability of AOP/BOI shall be determined on the basis of the following:

- (1) Charge of tax where share of members in AOP/BOI are unknown;
- (2) Charge of tax where share of members are known.

(1) Charge of tax where share of members in AOP/BOI are unknown [Section 167B(1)]: Where the individual share of members of AOP/BOI are indeterminate or unknown, tax shall be charged on the Total Income of the AOP/BOI at the maximum marginal rate i.e. 30%. However, if the total income of any member of AOP/BOI is chargeable at a rate higher than 30%, the tax will be charged on the Total Income of the AOP/BOI also at such higher rate.

Thus, although the maximum tax rate in case of AOP is 30.9% (30% + education cess + SHEC) if the total income does not exceed ₹1 crore and 33.99% (30% + 10% surcharge + education cess + SHEC) if the total income exceeds ₹1 crore but in case a company happens to be a member of AOP/BOI, the rate of tax may be higher. In case of a foreign company which is a member of AOP/BOI, the tax rate will be 41.2% if total income of the foreign company does not exceed ₹1 crore. Where it exceeds ₹1 crore but does not exceed ₹10 crore it will be taxable @ 40% + 2% surcharge + education cess @ 2% + SHEC @ 1% and where it exceeds ₹10 crore, it will be taxable @ 40% + 5% surcharge + education cess @ 2% + SHEC @ 1%.

For the purposes of this section, the individual shares of the members of an association of persons or body of individuals in the whole or any part of the income of such association or body shall be deemed to be indeterminate or unknown, if such shares (in relation to the whole or any part of such income) are indeterminate or unknown on the date of formation of such association or body or at any time thereafter.

(2) Charge of tax where share of members are known [Section 167B(2)]:

- (a) Where one of the members has total income exceeding maximum exemption limit: Where the total income of any member of AOP/BOI, without including his income from AOP/BOI exceeds the maximum amount which is not chargeable to tax, then AOP/BOI will be charged tax at maximum rate of 30% + 10% surcharge (in case total income exceeds ₹1 crore) + education cess + SHEC as applicable on its Total Income. However, in this case, if the total income of one or more member of AOP/BOI is chargeable at a rate more than 30%, tax shall be charged on that portion of income of AOP/BOI which is relatable to the share of such member at such higher rate and the balance of the income is taxable at the maximum marginal rate of tax.
- (b) Where none of the members has total income exceeding maximum exemption limit:
 - (i) Where any member of AOP has total income exceeding neither maximum exemption limit nor any member is taxable at a rate more than maximum marginal rate, the AOP will pay income-tax on its total income at the rates which are applicable to individuals.
 - (ii) Where none of the member has total income exceeding the maximum exemption limit, but one or more member is liable to tax rate of more than the maximum limit (i.e. taxable at a rate higher than 30%), then on that portion of income of AOP which is relatable to that member, the tax rate applicable shall be rate of income-tax which is applicable to such member and the balance total income of AOP shall be charged at the maximum marginal rate.

20.1.7. Liability of partners of Limited Liability Partnership in liquidation [Section 167C] [Inserted by the Finance (No. 2) Act, w.e.f. Assessment Year 2010-11]

Notwithstanding anything contained in the Limited Liability Partnership Act, 2008, where any tax due from a Limited Liability Partnership in respect of any income of any previous year or from any other person in respect of any income of any previous year during which such other person was a Limited Liability Partnership cannot be recovered, in such case, every person who was a partner of the Limited Liability Partnership at any time during the relevant previous year, shall be jointly and severally liable for the payment of such tax unless he proves that the non-recovery cannot be attributed to any gross neglect, misfeasance or breach of duty on his part in relation to the affairs of the Limited Liability Partnership.

20.1.8. Liability of members after partition of Hindu Undivided Family [Section 171]

In case total partition took place during the previous year the total income of the joint family in respect of the period upto the date of partition shall be assessed as if so far no partition had taken place; and each member or group of members shall, in addition to any tax for which he or it may be separately liable and notwithstanding anything contained in Clause (2) of section 10, be jointly and severally liable for the tax on the income so assessed and in case total partition took place after the expiry of the previous year, the total income of the previous year of the joint family shall be assessed as if no partition had taken place; and each member or the group of members shall be jointly and severally liable for the tax on the income so assessed.

In case of partial partition taken place after the 31st December, 1978, the HUF shall continue to be liable to be assessed under this Act as if no such partial partition had taken place and each member or group of members of such HUF immediately before such partial partition and the HUF shall be jointly and severally liable for any tax, penalty, interest, fine or other sum payable under this Act by the HUF in respect of any period, whether before or after such partial partition. The several liability of any member or group of members aforesaid shall be computed according to the portion of the HUF property allotted to him or it at such partial partition.

Some doubt has been expressed on the proposition that where the individual coparcener getting his share on partition is entitled to be treated as Hindu Joint Family when he has wife and minor daughter. This issue need not have arisen at all after the decision of the Supreme Court in *N. V. Narendranath vs. CWT* (1969) 74 ITR 190 (SC) which had held that even asset received on partition would continue to have joint family character in the hands of each erstwhile coparcener, who had taken his share of the joint family property.

In *CIT vs. Harshvadan Mangaldas* (1992) 194 ITR 136 (Guj.) it was held, that the coparcener having a minor daughter on partition could be treated as holding property so acquired as joint family property. The Gujarat High Court has taken the same view in a later decision also *CIT vs. Parmanandas Mahanlal* (1994) 208 ITR 35 (Guj.). However, Andhra Pradesh High Court in *Seth Tulsidas Bolumal vs. CIT* (1988) 170 ITR 1 (AP) and Rajasthan High Court in *Sohan Lal Kukar vs. CWT* (1995) 211 ITR 1001 (Raj.) would take a contrary view holding that it would be individual property. Andhra Pradesh High Court in *Ashok Kumar Ratanchand vs. CIT* (1990) 186 ITR 475 (AP), however, had occasion to reconsider its earlier view and reviewed the earlier precedents exhaustively and came to the conclusion that the decision which it had taken earlier that it would continue to be individual property had overlooked the right or interest of a Hindu wife for maintenance as an obligation attaching to the property. In fact, such a view was taken even in the context of the facts of the case that assessee in this case was not married at the time of partition, so that both the issues as to the concept of "potential family" and the concept of a Hindu joint family with a single coparcener were not considered in this case.

In *CIT vs. Harbhagwan* (1999) 236 ITR 620 (P&H), the High Court dealt with a case, where a member threw his property purchased by him into the common hotchpotch of HUF only to partition the same shortly thereafter before the property was compulsorily acquired, so that the question of computing capital gains in respect of each member of the family entitled to a share in the property came up for

consideration. It can be a matter of dispute because of the difficulty in determining the cost, which could be either: (i) the amount paid by the individual before he converted the same as joint family property; (ii) the market value as on the date of conversion; and (iii) nil value since HUF did not pay for it. There is scope for all the three views from the available judgments and interpretation. The High Court reviewed these possible views in this case and pointed out that Explanation-1 to sub-section (1) of section 49 required that where an asset is received on succession, inheritance or devolution or such other circumstances as prescribed therein, the cost will be that of the previous owner. It therefore did not approve the adoption of nil cost by the Bombay High Court in CIT vs. Kanubhai R. Shah (HUF) (1993) 201 ITR 1050 (Bom) but held, that cost to individual should be taken, so that what it adopted was the cost of the predecessor's predecessor on the inference that both the devolutions in law should be ignored both for period of holding under section 2(42A) of the Act and for ascertaining the relevant date for cost.

The decisions do raise a controversial legal issue, which may have to be resolved by the Supreme Court because of conflicting decisions. It is clear that conversion of individual property to joint family property and partition should be treated as passing of property on devolution under the Hindu Law as well as Tax Law. Incidentally, in respect of shares it should be taken as transmission and not transfer within the meaning of Company Law on the same logic.

When co-sharers hold property of the deceased as tenants in common liability for capital gains can arise only on each co-sharer separately and not in the hands of the HUF.

20.1.9. Discontinued Business [Section 176]

The cessation of the business of the assessee may occur in 2 ways —

- (a) Where the business is no longer in existence i.e. there is complete closing down of the business or profession and a cessor of all the operations immediately. This would amount to "discontinuance" used in that context under this section.
- (b) Where the business is in existence but has been transferred by the assessee as a going concern to another entity. In this case, there is a mere change in the ownership or change in the constitution of firm. A change in ownership may amount to succession and this does not mean the discontinuance of the business. Similarly, there is no discontinuance when a partner of a firm ceases to be a partner.

As succession and discontinuance are two mutually exclusive concepts there cannot be a discontinuance in cases where there is a succession. Further, if a part of the business of an assessee is dropped owing to non-profitable nature, either permanently or temporarily it will not imply that the business has been discontinued.

In the case of dissolutions of a firm or the liquidation of a company, sometimes the trade may be carried on even after such dissolution or liquidation.

Other cases of discontinuance of business are as follows:

- (a) Amalgamation of two separate and independent businesses belonging to distinct owners may result in the discontinuance of those businesses.
- (b) Partition of a joint family business and the business is divided amongst the members. In this case, there will be a discontinuance of the old business even if some or all the members carry on their business in the same premises and take the advantage of the old business connections.
- (c) In case a firm is split up into two different firms and the old business is also divided amongst the different firms, the original firm shall be deemed to have discontinued. [Sait Nagjiu Purushotam and Co. vs. CIT (1969) 51 ITR 849 (SC)].
- (d) If a professional person ceases to exercise his profession a vocation then there would be a discontinuance. The question whether a professional person discontinued his profession depends

upon the state of his mind at the time of cessation. Merely because he takes to the profession once again it cannot be said that there is no discontinuance at the time of cessation.

Section 176(1) provides that notwithstanding anything contained in section 4, where any business or profession is discontinued in any assessment year, the income of the period from the expiry of the previous year for that assessment year up to the date of such discontinuance may at the discretion of the Assessing Officer be charged to tax in that assessment year, that is to say, the pace of assessment may be accelerated. Now this period may cover either a fraction of an accounting year (a broken period, to coin a phrase) or completed accounting year plus a broken period. Thus if the accounting year of an assessee be the financial year and the business is discontinued on, say, the 29.10.2013, i.e., during the assessment year 2014-15, the income of the period between the 1.4.2013 and 29.10.2013 will be income of a broken period. The income of the period contemplated by sub-section (1) of section 176 is that of the entire period between 1.4.2012 to 29.10.2013 being the date of discontinuance. This, as would be seen, includes a completed accounting-year commencing from 1.4.2012 and ending with 31.3.2013 and in addition a broken period being 1.4.2013 to 29.10.2013.

Section 176(2) states as to how the incomes of these two periods should be dealt with. According to this sub-section separate assessments shall be made, one with reference to the income of the completed accounting year, and another with reference to the total income of the broken period. Applying the aforesaid principles to the above example, there shall have to be two separate computations of income for the two periods, viz., 1.4.2012 to 31.3.2013 and 1.4.2013 to 29.10.2013. Further such separate income shall be chargeable to tax at the rate or rates in force in that assessment year.

In order to enable the Assessing Officer to make the accelerated assessment, sub-section (3) provides that the assessee discontinuing the business or profession should give to the Assessing Officer notice of the discontinuance within 15 days thereof.

Sub-section (3A) of section 176 provides that where any business is discontinued in any year, any sum received after the discontinuance shall be deemed to be the income of the recipient and charged to tax accordingly in the year of receipt, if such sum would have been included in the total income of the person who carried on the business had such sum been received before such discontinuance.

Sub-section (4) of section 176 provides that where any profession is discontinued in any year on account of the cessation of the profession by, or the retirement or death of, the person carrying on the profession, any sum received after the discontinuance shall be deemed to be the income of the recipient and charged to tax accordingly in the year of receipt, if such sum would have been included in the total income of the aforesaid person had it been received before such discontinuance. However, section 176(4) applies only to a profession and not to a business discontinued.

Fees earned by a professional person which are collected after his death by the executor are part of the estate and not the income of the estate within section 168, therefore such fees cannot be taxed in the hands of the executor under section 168 or be clubbed with the income of the estate, but the executor may be separately taxed in respect of such fees as the recipient thereof within section 176(4). [CIT vs. Estate of Late A.V. Viswanatha Sastri (1980) 121 ITR 270 (Mad)].

Sub-section (5) of this section enacts that the Assessing Officer may, where he decides to complete an accelerated assessment, serve, on the person whose income is to be assessed, or in the case of a firm, on any of its partners at the time of its discontinuance, or in the case of a company, on the principal officer thereof, a notice calling for the return of the income of the assessee for the completed previous year and/or broken period.

The above procedure in relation to charge of income for a completed previous year or for a broken period is left to the discretion of the Assessing Officer. If the Assessing Officer opts to take action under this section, the sum of the tax would be ascertained and levied under this section. If he does not so opt, the assessment will be made in the normal course under section 4, when the relevant assessment year arrives. The above procedure applies where an assessee has several kinds of business or profession and he discontinues one or more of them and not all. The accelerated assessment would then apply only to the particular business or businesses or profession or professions discontinued.

Sub-section (6) of this section clarifies that the tax chargeable under this section shall be in addition to the tax, if any, chargeable under any other provisions of this Act.

Sub-section (7) of section 176 provides that where the Assessing Officer proceeds to assess the income of the completed previous year and/or the broken period in the year of discontinuance itself, any notice that he issues to the assessee calling for a return either for a regular assessment, or for an escaped assessment or for representative assessment on the assessee, need not grant the normal time of thirty days from the date of service, as specified in section 142(1)(i) or 148, but, it can fix a shorter time of seven days or more as the Assessing Officer may think proper.

20.1.10. Liability of an Association dissolved or business discontinued [Section 177]

This section covers discontinuance of the business of AOP as well as dissolution of AOP.

Where any business or profession carried on by an association of persons has been discontinued or is dissolved, the Assessing Officer shall make an assessment of the total income of the association of persons as if no such discontinuance or dissolution had taken place, and all the provisions of this Act, including the provisions relating to the levy of a penalty or any other sum chargeable under any provision of this Act shall apply, so far as may be, to such assessment.

Without prejudice to the generality of the above provisions, if the Assessing Officer or the Commissioner (Appeals) in the course of any proceedings under this Act in respect of such association of persons is satisfied that the AOP was guilty of any acts specified in Chapter XXI (relating to penalty), he may impose or direct the imposition of a penalty in accordance to provisions of that Chapter.

Every person who was at the time of such discontinuance or dissolution a member of the association of persons, and the legal representative of any such person who is deceased, shall be jointly and severally liable for the amount of tax, penalty or other sum payable, and all the provisions of this Act, so far as may be, shall apply to any such assessment or imposition of penalty or other sum.

Where such discontinuance or dissolution takes place after any proceedings in respect of an assessment year have commenced, the proceedings may be continued against the persons referred above from the stage at which the proceedings stood at the time of such discontinuance or dissolution, and all the provisions of this Act shall, so far as may be, apply accordingly.

A society registered under the Societies Registration Act is a legal entity. Its members are not personally liable for the tax levied on the society as an association of persons, so long as the society is not dissolved and its business is not discontinued. [Swami Satchitanand and Others vs. Second Addl. ITO (1964) 53 ITR 533 (Ker)].

20.1.11. Liability of liquidator/receiver of a company in liquidation [Section 178]

A company in liquidation is still a Company within the meaning of the charging provisions of the Act and the liquidator/receiver is merely an agent of the Company to administer the property of the company for purpose prescribed by the statute. Thus the liquidator/receiver (hereinafter called as liquidator) would have to act in regard to the submission of the return, etc. after the company goes into liquidation, whether under the orders of a court or otherwise.

According to Section 178(1) of the Income-tax Act 1961 provides that it is a duty of the liquidator/receiver to give notice of his appointment to the Assessing Officer who is entitled to assess the income of the company within 30 days of his appointment.

According to section 178(2) the Assessing Officer shall, after making such enquiries or calling for such information as he may deem fit, notify to the liquidator within three months from the date on which he receives notice of the appointment of the liquidator the amount which, in the opinion of the Assessing Officer, would be sufficient to provide for any tax which is then, or is likely thereafter to become, payable by the company.

According to section 178(3) the liquidator—

- (a) shall not, without the leave of the Chief Commissioner or Commissioner, part with any of the assets of the company or the properties in his hands until he has been notified by the Assessing Officer under sub-section (2); and
- (b) on being so notified, shall set aside an amount equal to the amount notified and, until he so sets aside such amount, shall not part with any of the assets of the company or the properties in his hands.

Provided nothing contained in this sub-section shall debar the liquidator from parting with such assets or properties for the purpose of the payment of the tax payable by the company or for making any payment to secured creditors whose debts are entitled under law to priority of payment over debts due to Government on the date of liquidation or for meeting such costs and expenses of the winding up of the company as are in the opinion of the Chief Commissioner or Commissioner reasonable.

According to section 178(4) if the liquidator fails to give the notice in accordance with section 178(1) or fails to set aside the amount as required by section 178(3) or parts with any of the assets of the company or the properties in his hands in contravention of the provisions of that subsection, he shall be personally liable for the payment of the tax which the company would be liable to pay.

Provided if the amount of any tax payable by the company is notified under sub-section (2), the personal liability of the liquidator under this sub-section shall be to the extent of such amount.

Where there are more than one liquidator, the obligations and liabilities attached to the liquidator under this section shall attach to all the liquidators jointly and severally.

The provisions of this section shall have effect notwithstanding anything to the contrary contained in any other law for the time being in force.

Case Law

The scope of section 530(1)(a) of the Companies Act, 1956, is different from that of section 178 of the Income-tax Act. Under section 530(1)(a) of the Companies Act, all taxes which have “become due and payable” alone are entitled to preferential payment. The amount should have crystallised into a liability. Under section 178(2) read with section 178(3) of the Income-tax Act, provision should be made for any tax which is then or is likely thereafter to become payable. Even the amounts which have not crystallised into a liability, but which are “likely to become due thereafter” should be taken note of. Moreover, there is a non-obstante clause in section 178(6). On a total view of the relevant statutory provisions, the Income-tax Department is treated as a “secured creditor” [Imperial Chit Funds (P) Ltd. vs. ITO (1996) 219 ITR 498 (SC)].

20.1.12. Liability of directors of private company in liquidation [Section 179]

Notwithstanding anything contained in the Companies Act, 1956 where any tax due from a private company in respect of any income of any previous year or from any other company in respect of any income of any previous year during which such other company was a private company cannot be recovered, then, every person who was a director of the private company at any time during the relevant previous year shall be jointly and severally liable for the payment of such tax unless he proves that the non-recovery cannot be attributed to any gross neglect, misfeasance or breach of duty on his part in relation to the affairs of the company.

As per section 179 of the Income-tax Act, 1961, every person who was a director of the private company during the relevant year can be made jointly and severally liable to pay the arrears of tax provided the Income-tax Department is unable to realise the arrears from the company. In the absence of any reasons recorded by the Assessing Officer to the effect that the arrears could not be recovered from the company, recovery cannot be made from the directors. [Dipak Dutta vs. Union of India (2004) 268 ITR 302 (Cal). Also see Indu Bhai T. Vasa (HUF) vs. ITO (2006) 282 ITR 120 (Guj)].

Section 179 allows recovery of tax due from a company from the director only when revenue is able to establish that it had taken appropriate step for recovery from the company as the expression used in section 179 is that tax cannot be recovered from the company. Where the revenue has failed to establish the same, the proceedings u/s 179 would not be valid. [Amit Suresh Bhatnagar vs. ITO (2009) 308 ITR 113 (Guj)].

For invoking section 179 it is not necessary that all three ingredients, viz, gross neglect, misfeasance and breach of duty are satisfied; it is sufficient if it is held that there is a gross neglect or misfeasance or breach of duty on part of directors in relation to affairs of company. Thus where a company did not file its return of income for more than 10 year and was not in a position to pay tax demanded, it could be said that there was a gross neglect on part of directors of company and, hence, all ingredients of section 179 were satisfied. [H. Ebrahim vs. DCIT (2009) 185 Taxman 11 (Kar)].

The phrase 'tax' as contemplated under section 179 does not include penalty and interest in so far as directors of company are concerned. [H. Ebrahim vs. DCIT (2009) 185 Taxman 185 (Kar)].

For the purposes of section 179 "Tax" does not include penalty, therefore, directors of the company cannot be called upon to pay penalty of the company under section 179. Order passed by the Assessing Officer under section 179 without examining the question as to whether the non recovery of tax from the assessee company was or not a result of gross neglect, misfeasance or breach of duty on the part of the assessee in relation to affairs of the company, Assessing Officer was directed to pass fresh order after giving a reasonable opportunity to the assessee. [Dinesh T. Tailor vs. Tax Recovery Officer (2010) 326 ITR 85/41 DTR 6/192 Taxman 152 (Bom)]

While deciding, if the nomenclature 'tax' would include other components such as penalty as well as interest, the High Court placed reliance on the judgment in the case of Soma Sundarams Ltd. vs. CIT 116 ITR 620, which had held that the Court has decidedly stated that the component 'income tax' does not include payment of penalty as well as interest. [H. Ebrahim and Others vs. DCIT (2011) 332 ITR 122 (Karn)].

Study Note - 21

WEALTH TAX

This Study Note includes

21.1 Introduction

21.2 Valuation of Assets

21.3 Other Issues relating to Wealth Tax

21.4 Return of Wealth and Assessment

21.1 INTRODUCTION

Wealth tax is payable on net wealth on 'valuation date'. As per Section 2(a), valuation date is 31st March immediately preceeding the assessment year. It is payable by every individual, HUF and company. Net wealth in excess of ₹ 30,00,000 is chargeable to wealth-tax at the rate of 1 per cent. No surcharge or education cess is payable.

No wealth-tax is chargeable in respect of net wealth of –

- (a) any company registered under section 25 of the Companies Act, 1956;
- (b) any co-operative society;
- (c) any social club;
- (d) any political party;
- (e) a Mutual fund specified under section 10(23D) of the Income-tax Act [section 45]; and
- (f) the Reserve Bank of India.

COMPUTATION OF NET WEALTH

Particulars	₹
Assets specified in Section 2(ea) chargeable in the hands of assessee on the basis of location of the assets and the assessee's nationality and residential status	xxx (xxx)
Less: Aggregate value of all the debts owed by the assessee on the valuation date incurred in relation to the above said assets u/s 2(m)	(xxx)
Less: Assets exempt u/s 5	
Add: Deemed asset in the assessee's hands u/s 4	xxx
Net Wealth as per Wealth Tax Act	xxx

Rounding off Net Wealth [Section 44C] : The net wealth computed above shall be rounded off to the nearest multiple of one hundred rupees.

Change of ownership on the valuation date- Since the valuation date is a continuous period starting at the first moment and ending at the last moment of a certain day, net wealth shall be taken at the last moment of the valuation date.

Net wealth [Sec. 2(m)]

The term "net wealth" means taxable wealth. Broadly speaking, it represents the excess of assets over debts. Assets includes deemed assets but do not include exempt assets.

Debt should have been incurred in relation to the assets which are included in net wealth of assessee. Only debt owed on date of valuation is deductible.

Incidence of Tax [Section 6]

Incidence of tax in case of an individual depends upon his residential status and nationality, whereas in the case of a Hindu undivided family and company it depends upon residential status. For the purpose of wealth-tax, residential status will be that which an individual, a Hindu undivided family or a company, enjoys under the Income-tax Act for the previous year ending on the valuation date. The following table summarizes tax incidence under the Act:

	Resident and ordinarily resident in India (or resident in the case of a company)	Resident but not ordinarily resident in India	Non-resident
In the case of an individual who is an Indian national, every Hindu undivided family and company	Taxable wealth = $(x-y)+(p-q)$	Taxable wealth = $(x-y)$ Tax-free wealth = $(p-q)$	Taxable wealth = $(x-y)$ Tax-free wealth = $(p-q)$
In the case of individual who is a foreign national	Taxable wealth = $(x-y)$ Tax-free wealth = $(p-q)$	Taxable wealth = $(x-y)$ Tax-free wealth = $(p-q)$	Taxable wealth = $(x-y)$ Tax-free wealth = $(p-q)$

'x' = all assets located in India, including deemed assets but excluding exempted assets.

'y' = aggregate value of all the debts (whether located in India or outside India) owed by the assessee on the valuation date which have been incurred in relation to the assets included in 'x' supra.

'p' = all assets located out of India including deemed assets but excluding exempted assets.

'q' = aggregate value of all the debts (whether located in India or Outside India) owned by the assessee on the valuation date in relation to the assets included in 'p' supra.

Location of assets

The question as to where an assets is located is essentially one of fact and will have to be decided in the light of evidence. The following guidelines may, however, be used for this purpose:

Wealth	Situation
Tangible immovable property is situated in India.	Property in India.
Right or interest in or over immovable property (otherwise than by way of security) or benefits arising out of immovable property are located in India.	Immovable property to which the rights are attached, or out of which the benefits arises, lies in India.
Right or interest (otherwise than by way of security) in or over tangible movable property are located in India.	If such property is located in India.
Debts secured or unsecured (other than those dealt with below) are located in India.	If they are contracted to be repaid in India or if the debtor is residing in India.
Ships or aircrafts are located in India.	If they are registered in India.
Goods on high sea in transit to India	Located outside India.

Assessment year - Assessment year means a period of 12 months commencing from the first day of April every year falling immediately after the valuation date [Section 2(d)].

21.1.1 Assets [Sec. 2(ea)]

Assets are defined in Section 2(ea) as follows.

(1) Guest house, residential house or commercial building [Sec. 2(ea)(i)] - The following are treated as "assets" -

- (i) Any building or land appurtenant thereto whether used for commercial or residential purposes or for the purpose of guest house
- (ii) A farm house situated within 25 kilometers from the local limits of any municipality (whether known as a municipality, municipal corporation, or by any other name) or a cantonment board.

The following are not included in "assets":

- (a) A residential house is not asset, if it is meant exclusively for residential purposes of employee who is in whole-time employment and the gross annual salary of such employee, officer or director is less than ₹ 10,00,000.
- (b) Any house (may be residential house or used for commercial purposes) which forms part of stock-in-trade of the assessee is not treated as "asset".
- (c) Any house which the assessee may occupy for the purposes of any business or profession carried on by him is not treated as "asset".
- (d) A residential property which is let out for a minimum period of 300 days in the previous year is not treated as an "asset".
- (e) Any property in the nature of commercial establishments or complex is not treated as an "asset".

Case Laws:

- (1) Once it is found that the house is in fact a residential house and that the land is being used as the ground attached to the house for the benefit of the residents of the house, it remains a part of the house for the purpose of the proviso to section 7(4). It is not for the authorities to decide for the assessee as to what the size of his house should be or the extent of the garden or other area which the assessee should have for the house in which he lives. Such enquiry is outside the scope of the Wealth Tax Act. [M.K. Kuppuraj (HUF) vs. CWT (2002) 257 ITR 718 (Mad)].
- (2) Where a person who is the owner of a premise (i.e. building) has made available the same to the partnership firm in which such person is a partner and the firm carries on business in that premise, then it can be said that the premise is used by the partners for the purposes of his business and profession and as such it is not an asset. [CIT vs. Rasiklal Balabhai (1979) 119 ITR 303 (Guj); CIT vs. K.M. Jagannathan (1989) 180 ITR 191 (Mad); CWT vs. D.M. Srinivas (2001) 248 ITR 406 (Karn)(FB)].
- (3) Where two flats, which were situated in residential area, were used by the assessee for business meetings, it was held that since flats were used for conducting meeting as claimed by the assessee which was also not disbelieved by revenue, it was sufficient to treat flats as business assets of the assessee even though certain meeting were held as uninterrupted occupation of property is not necessary to make an asset as business asset. [Tracstar Investment Pvt. Ltd. vs. DCWT (2005) 1 SOT 115 (Mum-Trib)].
- (4) Where the house property was used for business purposes for 95 days in the previous year thereafter it was let out for residential purposes during the remaining period of 27 days, it was held since the property was not occupied for the purpose of assessee's business on the valuation date and it was also not let out for a minimum period of 300 days in the previous year, therefore it does not fall under the exception either under section 2(ea)(i)(3) nor under section 2(ea)(i)(4). Hence such house property shall be an asset liable to wealth tax. [Tracstar Investment Pvt. Ltd vs. CWT (2009) 118 ITD 365 (Mum) and 23 SOT 299 (Mum)].

- (5) Where assessee was entitled under terms of a trust created by the late Nizam to live in a house during his lifetime without being required to pay any rent and he did not include the value of life interest so created in his favour in his wealth tax return for the reason that he had no alienable interest in the house, it was held that assessee's interest, in the property shall be called an "asset" for purposes of the Wealth Tax Act. [CWT vs. Prince Muffakham Jah Bahadur Chamlijan (2001) 247 ITR 351 (SC)].
- (6) A plain reading of clause (54) of the Memorandum explaining the provisions of the Finance (No.2) Bill, 1996 as well as the amendment brought in, clearly shows that commercial buildings used in the business of letting out of property are not proposed to be taxed. Only such commercial buildings which are not used by the assessee in his business or profession are proposed to be taxed. Clause (54) suggests that letting out of properties is to be held to be in the course of the business of the assessee.

The assessee was in the business of letting out of property and the commercial buildings in question had, in pursuance of the business of the assessee, been let out, and in view of clause 54 of the Memorandum explaining the provisions of the Finance (No.2) Bill, 1996, read with section 2(ea), the asset in question did not fall within the ken of section 2(ea). [T.G.C. Projects & Investments Pvt. Ltd. vs. ACWT (2006) 153 Taxman 15 (Hyd)(Tri)].
- (7) Office premises let out on leave-and-licence basis and used by licensors for their business are in the nature of commercial establishments and not includible in net wealth. In order to cover any property in the nature of commercial establishments or complexes, it is not necessary that the property in the nature of commercial establishments or complexes should be occupied by the assessee for the purpose of any business or profession carried on by him. Here, the nature and purpose of use of the property is material, irrespective of the fact whether it is used or occupied either by the assessee himself or anybody else for the purpose of any business or profession carried on by them, as the case may be. [Satvinder Singh Kalra vs. Dy. CWT (2007) 112 TTJ 489 (Pune); (2007) 109 ITD 241 (Pune)].
- (8) In a case where the assessee owns a warehouse which is let out on rental basis and the same is not used by the assessee for the purposes of its business but is used by the tenant for its business, the warehouse is to be excluded as an asset in view of section 2(ea)(i)(5) of the Act. [DCIT vs. Hind Ceramics Pvt. Ltd., WTA No. 42 & 43/Kol 2010, dated 07-01-2011, ITAT Kolkata 'B' Bench, BCAJ pg. 27, Vol. 42-B, Part 5, February 2011 (Trib)].
- (9) Factory building rented out by a partner to the firm is liable for wealth tax since it is not used by the assessee as owner for the purpose of his own business or profession. [CIT vs. Ponnamma Lakshmi Narayani Asiatic Exports Enterprises (2009) 184 Taxman 206 (Ker)].
- (10) Building was held as stock in trade it could not be included in definition of "asset" as per section 2(ea) even though pending completion of sale transaction and it was given on rent to purchasing party. [Dy. CWT vs. Brilliant Estate Ltd. (Indore) (2010) 124 ITD 8 (Indore)].

(2) Motor cars [Section 2(ea)(ii)] - Motor car is an "asset", but not the following -

- (a) motor cars used by the assessee in the business of running them on hire
- (b) motor cars treated as stock-in-trade.

In the case of a leasing company, motor car is an asset.

"Motor car" cover all motor vehicles other than heavy vehicles.

(3) Jewellery, bullion, utensils of gold, silver, etc. [Section 2(ea)(iii)] - Jewellery, bullion, furniture, utensils and any other article made wholly or partly of gold, silver, platinum or any other precious metal or any alloy containing one or more of such precious metals are treated as "assets".

For this purpose, “jewellery” includes -

- (a) ornaments made of gold, silver, platinum or any other precious metal or any alloy containing one or more of such precious metals,
- (b) precious or semi-precious stones, whether or not containing any precious or semi-precious stone and whether or not worked or sewn into any wearing apparel; whether or not set in any furniture, utensils or other article or worked or sewn into any wearing apparel.

Where any of the above assets (i.e., jewellery, bullion, utensils of gold, etc.) is used by an assessee as stock-in-trade, then such asset is not treated as “assets” under section 2(ea)(iii).

(4) Yachts, boats and aircrafts [Section 2(ea)(iv)] - Yachts, boats and aircrafts (other than those used by the assessee for commercial purposes) are treated as “assets”.

(5) Urban land [Section 2(ea)(v)] - Urban land is an “asset”.

An “urban land” is an assets whether it is agricultural land or non-agricultural land.

Urban land means land situated in-

- Area A or Area B **(applicable up to the assessment year 2013-14)**
- Area A or Area C **(applicable from the assessment year 2014-15)**

Area A – Any area which is comprised within the jurisdiction of a municipality (whether known as a municipality, municipal corporation, notified area committee, town area committee, town committee, or any other name) or a cantonment board and which has a population of not less than 10,000 according to the last preceding census of which relevant figures have been published before the valuation date.

Area B – Any area within such distance (not being more than 8 kilometers) from the local limits of any municipality or cantonment board referred to above, as the Central Government may, having regard to the extent of, and scope for, urbanization of that area and other relevant considerations, specify.

Area C – Any area within distance (to be measures aially) given below-

2 kilometers from the local limits of municipality/ cantonment board	If the population of the municipality/ cantonment board is more than 10,000 but not more than 1 lakh
6 kilometers from the local limits of municipality/ cantonment board	If the population of the municipality/ cantonment board is more than 1 lakh but not more than 10 lakh
8 kilometers from the local limits of municipality/ cantonment board	If the population of the municipality/ cantonment board is more than 10 lakh

- “Population” means the population according to the last preceding census of which the relevant figures have been published before the valuation date.
- “Municipality” includes municipal corporation, notified area committee, town planning committee, town committee or a municipality known by any other name.

but does not include

- (a) land classified as agricultural land in the records of the Government and used used for agricultural purposes. **[Inserted by the Finance Act, 2013, w.r.e.f. A.Y. 1993-94];** or
- (b) Land on which construction of a building is not permissible under any law for the time being in force in the area in which such land is situated or
- (c) The land occupied by any building which has been constructed with the approval of the appropriate authority or

- (d) Any unused land held by the assessee for industrial purposes for a period of two years from the date of its acquisition by him or
- (e) Any land held by the assessee as stock-in-trade for a period of ten years from the date of its acquisition by him.

For the purposes of clause (b) of Explanation 1

"population" means the population according to the last preceding census of which the relevant figures have been published before the date of valuation.

Case Laws:

- (1) During period of construction urban land cannot be assessed to Wealth Tax once the urban land is converted to a commercial building which qualifies for exemption under the Act then assessee can start availing exemption even during period of construction of building. [Apollo Tyres Ltd. vs. ACIT (2010) 325 ITR 528 (Ker)].

However contrary view is given by Karnataka High Court as under:

The building in the process of construction could not be understood as a building which had been constructed. The wording being that the urban land would mean land on which complete building stands, such lands alone would qualify for exemption. Hence, urban land shall be liable to wealth tax till building is incomplete. [CWT vs. Giridhar G. Yadalam (2010) 325 ITR 223 (Karn)].

- (2) A property under construction (including investment on construction) is not liable to tax. The word building has to be interpreted to mean a completely built-structure having a roof, dwelling place, walls, doors, windows, electric and sanitary fitting, etc. if one or more of such components are lacking, then it cannot possibly be said that the building is a complete structure for the purpose of section 2(ea). Moreover, the house under construction in this case cannot be included in net wealth as 'urban land'. Urban land does not include land occupied by a building. Hence, neither the superstructure nor the land would be treated as asset. [CIT vs. Neena Jain (2010) 189 Taxman 308 (P&H)]

(6) Cash in hand [Section 2(ea)(vi)] - In case of individual and HUF, cash in hand on the last moment of the valuation date in excess of ₹ 50,000 is an 'asset'. In case of companies, any amount not recorded in books of account is 'asset'.

Assets must belong to the assessee [Sec. 2(ea) read with sec. 2(m)]

Even if a property is an "assets" under section 2(ea), it will not be includible in net wealth unless it belongs to the assessee on the relevant valuation date. The following point should be noted-

- (i) it is the property of a person, or that which is in his possession as of right, which is liable to wealth-tax.
- (ii) The liability to wealth tax arises out of ownership of the asset, and not otherwise. Mere possession, or joint possession, unaccompanied by the right to (or ownership of), property would, therefore, not bring the property within the definition of "net wealth" for it would not then be an asset "belonging" to the assessee.

21.1.2 Deemed Assets

Often, a person transfers his assets in name of others to reduce his liability of wealth tax. To stop such tax avoidance, provision of 'deemed asset' has been made. In computing the net wealth of an assessee, the following assets will be included as deemed assets u/s 4.

(i) Assets transferred by one spouse to another - The asset is transferred by an individual to his or her spouse after March 31, 1956 to his or her spouse, directly or indirectly, without adequate consideration or not in connection with an agreement to live apart, the assets may be held by the transferee on the relevant valuation date in the same form in which it is transferred or otherwise will be 'deemed asset' **[Section 4(1)(a)(i)]**

If an asset is transferred by an individual to his/her spouse, under an agreement to live apart, the provisions of section 4(1)(a)(i) are not applicable. The expression "to live apart" is of wider connotation and even the voluntary agreements to live apart will fall within the exceptions of this sub-clause.

(ii) Assets held by minor child - In computing the net wealth of an individual, there shall be included the value of assets which on the valuation date are held by a minor child (including step child/adopted child but not being a married daughter) of such individual **[Section 4(1)(a)(ii)]**.

The net wealth of minor child will be included in the net wealth of that parent whose net wealth [excluding the assets of minor child so includible under section 4(1)] is greater.

Where, however, the marriage of parents does not subsist, the net wealth of the minor child shall be included in the net wealth of that parent who maintains the minor child during the previous year ending on the valuation date.

Where any such assets are once included in the net wealth of either parents, any such asset shall not be included in the net wealth of the other parent in any succeeding year unless the Assessing Officer is satisfied (after giving that parent an opportunities of being heard) that it is necessary to do so.

(iii) Assets transferred to a person or an association of persons - An asset transferred by an individual after March 31, 1956 to a person or an association of person, directly or indirectly, for the benefit of the transferor, his or her spouse, for the immediate or deferred benefit of person, otherwise than for adequate consideration, the asset may be held by the transferee on the relevant valuation date in the same form in which it was transferred or otherwise, is 'deemed asset' of transferor **[Section 4(1)(a)(iii)]**.

(iv) Assets transferred under revocable transfers - The asset is transferred by an individual to a person or an association of person after March 31, 1956, under a revocable transfer, the asset may be held by the transferee on the relevant valuation date in the same form in which it was transferred or otherwise, is 'deemed asset' of transferor **[Section 4(1)(a)(iv)]**.

Revocable transfer – The following transactions are treated as revocable transfers **[clause (b) of Explanation to section 4]**:

- (a) if the transfer is revocable within a period of 6 years or if it is revocable during the lifetime of the beneficiary: or
- (b) if the transferor derives any benefits, directly or indirectly, from the assets transferred: or
- (c) if the transferor has a right to re-transfer, directly or indirectly, in respect of the whole or any part of the assets or income from the assets so transferred; or
- (d) if the transferor has the right to re-assume power, directly or indirectly, over the whole or any part of the assets or the income from the assets so transferred.

(v) Assets transferred to son's wife [Section 4(1)(a)(v)] - The asset transferred by an individual after May 31, 1973, to son's wife, directly or indirectly, without adequate consideration and the asset may be held by the transferee on the relevant valuation date in the same form in which it was transferred or otherwise, will be 'deemed asset' of transferor **[Section 4(1)(a)(iv)]**.

(vi) Assets transferred for the benefit of son's wife - If the asset is transferred by an individual after May 31, 1973, to a person or an association of the immediate or deferred benefit of son's wife, whether directly or indirectly, without adequate consideration and the asset may be held by the transferee on the relevant valuation date in the same form in which it was transferred or otherwise, it will be treated as 'deemed asset' of the transferor **[Section 4(1)(a)(vi)]**.

Property transferred by an individual to spouse, minor child or sons wife etc., need not have been "assets" as defined in the Wealth Tax Act on the date of transfer. It will be clubbed with the wealth of the individual if it is an "asset" as on the valuation date [M.G. Kollankulam vs. CIT (1978) 115 ITR 161 (Ker)].

Example: Mr. Ram gifts units of UTI to his wife on 20.11.2011. The units were sold by Mrs. Ram on 5.2.2013 and she purchased gold ornaments on 15.2.2013 out of the sale proceeds of the units.

In this case as on 31.3.2012 units held by Mrs. Ram will not be clubbed in the net wealth of Mr. Ram as the units are not "assets" as per section 2(ea) of the Wealth Tax Act.

However, on 31.3.2013 the gold ornaments which were purchased by Mrs. R out of the sale proceeds of the units will be clubbed with the net wealth of Mr. R as the gold ornaments are "assets".

Conversely, if Mr. R gifts gold ornaments to his wife which she sells and acquires the units of UTI out of the sale proceeds of the ornaments, such units will not be clubbed as these are not assets.

If Mrs. R further makes a gift of the gold ornaments to her sister there will be no clubbing as the assets are not being held by Mrs. R and where these are destroyed by fire, in that case also no clubbing is required as the asset is not in existence on the valuation date.

21.1.3 Interest of partner- Where the assessee (may or may not be an individual) is a partner in a firm or a member of an association of persons, the value of his interest in the assets of the firm or an association shall be included in the net wealth of the partner/member. For this purpose, interest of partner/member in the firm or association of persons should be determined in the manner laid down in Schedule III to the Wealth-tax Act **[Section 4(1)(b)]**.

Admission of minor to benefits of the partnership firm - If a minor is admitted to the benefits of partnership in a firm, the value of his interest in the firm shall be included in the net wealth of parent of minor in accordance with the provisions of section 4(1)(a)(ii). It will be determined in the manner specified in Schedule III.

21.1.4 Conversion by an individual of his self-acquired property into joint family property - If an individual is a member of a Hindu undivided family and he converts his separate property into property belonging to his Hindu undivided family, or if he transfers his separate property to his Hindu undivided family after December 31, 1969, directly or indirectly, without adequate consideration, the converted or transferred property shall be deemed to be the property of the individual and the value of such property is includible in his net wealth **[Section 4(1A)]**.

If the converted or transferred property becomes the subject-matter of a total or a partial partition among the members of the family, the converted or transferred property or any part thereof, which is received by the spouse of the transferor, is deemed to be the asset of the transferor and is includible in his net wealth.

21.1.5 Gifts by book entries - Where a gift of money from one person to another is made by means of entries in the books of account maintained by the person making the gift, or by an individual, or a Hindu undivided family, or a firm or an association of persons, or a body of individuals with whom he has business connection, the value of such gift will be included in the net wealth of the person making the gifts unless he proves to the satisfaction of the Wealth-tax Officer that the money had actually been delivered to the other person at the time the entries were made **[Section 4(5A)]**.

21.1.6 Impartible estate - For the purpose of the Wealth-tax Act, the holder of an impartible estate shall be deemed to be the owner of all the properties comprised in the estate **[Section 4(6)]**.

21.1.7 Property held by a member of a housing society - Where the assessee is a member of a co-operative housing society and a building or part thereof is allotted or leased to him, the assessee is deemed to be the owner of such building and the value of such building is includible in computing his net wealth. In determining the value of such building, any outstanding instalments, payable by the assessee to the society towards the costs of such house, are deductible as debt owed by the assessee. The above rules are also applicable if the assessee is a member of a company or an association of persons **[Section 4(7)]**.

21.1.8 Property held by a person in part performance of a contract [Section 4(8)] - A person who is allowed to take or retain possession of any building or part thereof in part performance of a contract of the nature referred to in section 53A of the Transfer of Property Act, 1882. Similarly, a person who acquire

any rights, excluding any rights by way of a lease from month to month or for a period not exceeding one year, in or with respect to any building or part thereof, by virtue of any such transaction as is referred to in section 269UA(f) of the Income-tax Act.

In above cases, the assets are taxable in the hands of beneficial owners, in the same manner in which they are taxed under the Income-tax Act :

21.1.9 Assets which are exempt from tax [Sec. 5]

The following assets are exempt from wealth-tax, as per section 5.

(i) Property held under a trust - Any property held by an assessee under a trust or other legal obligation for any public purpose of charitable or religious nature in India is totally exempt from tax **[Section 5(i)]**.

Business assets held in trust, which are exempt - The following business assets held by an assessee under a trust for any public charitable/religious trust are exempt from tax -

- (a) where the business is carried on by a trust wholly for public religious purposes and the business consists of printing and publication of books or publication of books or the business is of a kind notified by the Central Government in this behalf in the Official Gazette
- (b) the business is carried on by an institution wholly for charitable purposes and the work in connection with the business is mainly carried on by the beneficiaries of the institution
- (c) the business is carried on by an institution, fund or trust specified in sections 10(23B) or 20(23C) of the Income-tax Act.

Any other business assets of a public charitable/religious trust is not exempt.

Case Laws:

- (1) Where an association for promoting the game of cricket was a registered society and held the property under trust for charitable purposes it was held that it is exempt from wealth tax. [CWT vs. Bombay Cricket Association 250 ITR 663 (SC)].
- (2) Properties held by Race Clubs are not exempt as race clubs are not for charitable purpose. [Hyderabad Race Club vs. CWT (1997) 223 ITR 703 (SC)].
- (3) Trust created for charitable purpose, predominantly for the benefit of the family members of the settlor are not entitled to exemption under section 5(i). [Trustees of Gordhandas Govindram Family Charity Trust vs. CIT (1973) 88 ITR 47 (SC)].
- (4) For claiming exemption under section 5(i) in case of charitable or religious trust, it is not necessary that the property must be held in India but it is necessary that the public purpose of charitable or religious nature should be in India. If property, situated in India, is held for any public purpose of charitable or religious nature outside India exemption under section 5(i) is not available. [Trustees of H.E.H. The Nizams Pilgrimage Money Trust vs. CIT (2000) 243 ITR 676 (SC)].
- (5) The Wealth-tax Act does not define 'charitable activities' for the purposes of wealth-tax. It is not essential that the trust claiming to be a charitable trust must be wholly and exclusively engaged in charitable activity. It is sufficient, if its primary or predominant object is charitable. [CWT vs. Attur Thuluva Vellalar Sangam (2000) 243 ITR 774 (Mad)].
- (6) Unlike the provisions of the Income Tax Act, 1961, the holding of a property by the assessee either under a trust or other legal obligation for public purpose of a charitable or religious nature is the only statutory requirement under this section of the Wealth-tax Act, 1957, entitled the assessee to exemption under the Act and the application of the money held under a trust or under legal obligation is not a relevant consideration for such exemption. Therefore, where the property in question was conceded to be a public religious endowment, the circumstance that the income therefrom was being used by the trustees for their own personal benefit will not disentitle the property to exemption from payment of Wealth Tax. [Managing Shebait of Bhukailash Debutter Estate vs. WTO (1977) 106 ITR 904 (Cal)].

- (7) Where the purpose for which property could be put to use were not confined to religious or charitable purpose and the property could be used for social, cultural and other allied purposes at the sole discretion of the trustees, it was held that such a trust was not entitled to exemption under section 5(i) of Wealth-tax Act. [Gangabhai Charities vs. CWT (2001) 250 ITR 666 (SC)]

(ii) Coparcenary interest in a Hindu undivided family - If the assessee is a member of a Hindu undivided family, his interest in the family property is totally exempt from tax **[Section 5(ii)]**.

(iii) Residential Building of a former ruler - The erstwhile Ruler of an Indian State has been given an exemption in respect of any one building in his occupation, being a building which has been declared by the Central Government as his official residence, immediately before the commencement of the Constitution (Twenty Sixth Amendment) Act, 1971.

However, the Supreme Court in the matter of Mohammad Ali & Khan vs. CWT (1997) 224 ITR 672 (SC) held that where a palace consisted of a number of buildings was declared to be the residence of the ruler, some of the buildings of the palace were occupied by the assessee and others were let out to tenants, the exemption shall be available only in respect of the buildings occupied by the assessee.

The exemption under this clause shall be available even though the place was reconstructed after demolishing dilapidated palace. [CWT vs. D. S. Virawala Suragwala (2003) 259 ITR 405 (Guj)].

Where ex-ruler has already opted for one house for exemption under section 5(iii), he will not be entitled to exemption of another house under section 5(vi). [Gaj Singh vs. Settlement Commissioner (2001) 247 ITR 586 (SC)].

Exemption under section 5(iii) of Wealth-tax Act is available in respect of building which is in occupation of ruler and not in occupation of heirs of ruler. In the instant case property was occupied by the widow/heir of the ex-ruler, hence exemption under this section will not be allowed. [CWT vs. Begum Munawar-ul-Nisha (2009) 181 Taxman 182 (P&H)]

- **Partly self-occupied and partly let out**- Where the assessee, a former ruler, owned a palace which was declared by the Central Government as his official residence and the palace consisted of a number of buildings out of which some were actually occupied by the assessee and quite a few of them were let out to various tenants, it was held that under section 5(iii) the assessee was entitled to exemption only in respect of those buildings or palaces which were occupied by the ruler and not in respect of the buildings let out to tenants'. Exemption under section 5(iii) is available in respect of building which is in occupation of a former ruler of a princely State, not in the occupation of heirs of ruler.
- **Land appurtenant** - Land appurtenant to the exempted palace is to be treated as part of the palace and is exempt under section 5(iii).
- **New construction** - Exemption under section 5(iii) is admissible even in respect of new building constructed by an assessee in place of old recognised palace, which was used as his official residence.

Former ruler's jewellery - Jewellery in possession of a former ruler of a princely State, not being his personal property which has been recognised as a heirloom by the central Government before April 1, 1957, or by the Board after that date, is totally exempt from tax **[Section 5(iv)]**.

Provided that the jewellery shall be permanently kept in India and shall not be removed outside India except for a purpose and period approved by the Board. Reasonable steps shall be taken for keeping that jewellery substantially in its original shape. Reasonable facilities shall be allowed to any officer of the Government, or authorised by the Board, to examine the jewellery as and when necessary.

The CBDT is empowered to withdraw such recognition retrospectively w.e.f. 9.9.1972 after recording its reasons in writing.

Where the recognition is withdrawn by the CBDT, the wealth-tax becomes payable by the Ruler for all the Assessment Years after 9.9.1972 for which the jewellery was exempt on account of the recognition.

According to Explanation to this section, for the purpose of calculation of wealth-tax in respect of such assessment years, the fair market value of the jewellery on the date of withdrawal of recognition in respect thereof shall be deemed to be the fair market value of such jewellery on each successive valuation date relevant for the assessment years after 9.9.1972.

However, it has also been provided that the aggregate amount of wealth-tax payable in respect of such jewellery for all such assessment years, shall not in any case exceed 50% of the fair market value of the jewellery on the valuation date relevant for the assessment year in which the recognition was withdrawn

(v) Assets belonging to the Indian repatriates - Assets (as given below) belonging to assessee who is a person of Indian origin or a citizen of India, who was ordinarily residing in a foreign country and who has returned to India with intention to permanently residing in India, is exempt. A person shall be deemed to be of Indian origin if he, or either of his parents or any of his grand parents, was born in undivided India [Section 5(v)].

After his return to India, following shall not be chargeable to tax for seven successive assessment years (commencing with the assessment year next following the date on which such person returned to India) -

- (a) moneys brought by him into India
- (b) value of asset brought by him into India
- (c) moneys standing to the credit of such person in a Non-resident (External) Account in any bank in India on the date of his return to India and
- (d) value of assets acquired by him out of money referred to in (a) and (c) above within one year prior to the date of his return and at any time thereafter.

Case Laws:

- (1) Ordinarily resident in a foreign country must be read along with the other words which require an intention to permanently reside in India after return. Ordinarily, in this context refers to residence of long duration outside the country. A person who normally resides in India and for whom India is a permanent residence cannot claim the benefit of the section merely by travelling abroad and residing abroad for a period of one year and thereafter returning to his own country. [Periannan (V.E.) vs. CWT (1999) 240 ITR 723 (Mad)].
- (2) The exemption under this section does not extend to the income or interest earned out of the use of the aforesaid funds in India after the date of return. [CWT vs. Issac (Dr Mrs) (2002) 125 Taxman 417 (Mad)].
- (3) Exemption under section 5(v) is not available in respect of asset purchased by an assessee out of money remitted from abroad by others. [CWT vs. Noorjahan Jamal (2002) 255 ITR 287 (Mad)].
- (4) Clause (v) of section 5 provides that the value of assets acquired by the assessee out of such money is also held to be exempt. The expression 'such moneys' refers to moneys as well as the value of the assets brought by the assessee from abroad. The value of asset is the money's worth or the sale consideration. Therefore, even if the assessee has converted the assets, which were brought by him from outside India, into money, and if the money has been used for acquisition of other assets, either the original asset, or the money's worth of the assets, or the asset which is acquired with the sale consideration of the original asset, is eligible for exemption, so long as the said asset is available with the assessee. [CWT vs. K.O. Mathews (2003) 261 ITR 702 (Ker)]

(vi) One house or part of a house - In the case of an individual or a Hindu undivided family, a house or a part of house, or a plot of land not exceeding 500 sq. meters in area is exempt. A house is qualified for exemption, regardless of the fact whether the house is self-occupied or let out. In case a house is owned by more than one person, exemption is available to each co-owner of the house [Section 5(vi)].

Case Laws:

- (1) Where a house is owned by a firm, the exemption shall not be available to the firm. However, the partners may claim proportionate exemption of the value of such house in their individual assessment. [CWT vs. Deepak Dumra (1999) 236 ITR 542 (P&H)].

Assets exempt under section 5 must be included in net wealth of firm and then apportioned among partners and exemption must be granted in individual assessment of partners. [CWT vs. T. S. Sundaram (1999) 237 ITR 61 (SC)].

- (2) The word 'house' will include any building irrespective of its use, that is to say, it may be used for business purposes or as a resident or as a schools and it should not be restricted to dwelling house. Hence, exemption shall be allowed for one house irrespective of its use. [CWT vs. Mahal Chanel Pandia (1996) 219 ITR 733 (Gau)]
- (3) However, by no stretch of imagination, can a cinema hall be regarded as a house. [CIT vs. Jai Kishan Gupta (2003) 264 ITR 482 (All)]. But a godown has been held to be a house entitled for exemption. [CIT vs. P. Bhagwati Ammal (2003) 262 ITR 622 (Mad)]. Similarly workshop building has been held to be a house. [CWT vs. N. Thavamani (1999) 237 ITR 152 (Mad)].
- (4) In common parlance a house is a place where people live. Of course a residential building can also be given for commercial purposes yet it will remain a house. However, by no stretch of imagination can a cinema hall be regarded as a house and no one ever calls a cinema hall a house. Similar would be the position with respect of the market, [CIT vs. Dalpat Singh (2005) 276 ITR 133 (All)].
- (5) Several self-contained units which are contiguous and situated in the same compound with common boundaries and having units of structure could be regarded as one building even if four shop rooms had different municipal numbers. [Shiv Narain Chaudri vs. CWT (1977) 108 ITR 104 (All); CWT vs. Najima Nizar (1992) 197 ITR 258 (Ker)]
- (6) A factory building or a cinema house is different and distinct things, Hotel cannot be considered to be house so as to qualify for exemption under section 5(vi). [CWT vs. J. Nagpal (2009) 181 Taxman 168 (Raj)].

21.1.10 Debts

Following assets shall form part of the net wealth:

- (i) Assets as defined u/s 2(ea), belonging to the assessee.
- (ii) Deemed assets covered u/s 4, belonging to other persons.

However, assets exempt u/s 5(i) to (vi) shall not be included in both the above cases.

From the aggregate of (i) and (ii), debt owed by the assessee shall be deductible subject to the following:

- (a) Debt should have been incurred in relation to those assets which are included in the wealth of the assessee.
- (b) Such debt should be still outstanding as on the valuation date.
- (c) Debts located in India or outside India, shall be deductible on the basis of nationality and residential status in case of individual, whereas in case of HUF and company it will be deducted on the basis of its residential status.

Debts are located in India if they are contracted to be repaid in India or if the debtor is residing in India.

It may be noted only debts incurred in relation to taxable assets shall be deducted, but other debts secured on the assets are not deductible.

Liability under the Wealth-tax Act is not a debt incurred in relation to the assets taxable the Wealth-tax Act and is therefore not deductible [Circular No. 663, dated 28.9.1993].

Case Laws:

- (1) Where the assessee company purchased the assets of another company and a part of consideration for the purchase remained outstanding to be paid on the valuation date of the assessee company and was claimed as a debt deductible in the computation of the net wealth of the assessee, it was held that the assessee was entitled to the deduction of the said outstanding payment as a debt, in the computation of its net wealth. [CWT vs. Spencer & Co. Ltd. (1973) 88 ITR 429 (SC)].
- (2) In the computation of net wealth of an assessee under section 2(m) of the Wealth Tax Act, 1957, any debt secured on the security of an asset which is entirely and completely excluded in the computation of net wealth, shall not be deductible. When a debt is secured on several items of properties one of which alone is exempted, that portion of the debt which is attributable to the value of the property exempted from wealth-tax cannot be deducted in the computation of the net wealth of the assessee. [CIT vs. Vaidyanathan (K.S.) (1985) 153 ITR 11 (Mad)(FB)].

	Whether to be		Whether to be deducted	
	Assets located in India	Assets located outside India	Debts located in India	Debts located outside India
1 (A) In case of a citizen of India				
resident and ordinarily resident in India	Yes	Yes	Yes	Yes
resident but not ordinarily resident in India	Yes	No	Yes	No To be deducted if it is incurred, in relation to asset located in India
non-resident	Yes	No	Yes Not to be deducted if it is incurred, in relation to asset located outside India	No To be deducted if it is incurred, in relation to asset located in India

The scope of net wealth in case of three assesses may be summarized as under:

- 1 (B) In case of an individual who is a foreign national (Residential Status in this case shall not have any effect)

	Yes	No	Yes Not to be deducted if it is incurred, in relation to asset located outside India	No To be deducted if it is incurred, in relation to asset located in India
2. In case of HUF				
resident and ordinary resident	Yes	Yes	Yes	Yes
non-resident or resident but not ordinarily resident in India	Yes	No	Yes Not to be deducted if it is incurred, in relation to asset located outside India	No To be deducted if it is incurred, in relation to asset located in India

In case of a company				
resident	Yes	Yes	Yes	Yes
non-resident	Yes	No	Yes Not to be deducted if it is incurred, in relation to asset located outside India	No To be deducted if it is incurred, in relation to asset located in India

If any asset is includible in the computation of net wealth of a person, the debt incurred in relation to that asset shall be deductible whether such debt is located in India or outside India. On the other hand, if any, asset is not includible in the computation of net wealth, the debt, whether located in India or outside India, incurred in relation to that asset shall also be excluded.

21.2 VALUATION OF ASSETS

The value of an asset, other than cash, shall be its value as on the valuation date determined in the manner laid down in Schedule III.

21.2.1 Valuation of a building [Part B of Schedule III]- Value of any building or land appurtenant thereto, or part thereof, is to be made in accordance with Part B of Schedule III to the Wealth-tax Act

First Step:

The first step is to find out gross maintainable rent. Gross maintainable rent is

- (a) annual rent received/receivable by the owner or annual value of the property as assessed by local authority, whichever is higher (if the property is let out) or

- (b) annual rent assessed by the local authority or if the property is situated outside the jurisdiction of a local authority, the amount which the owner can reasonably be expected to receive as annual rent had such property been let (if the property is not let).

Annual Rent: Where the property is let throughout the year ending on valuation date (hereinafter referred to as "previous year") the actual rent received/ receivable by the owner in respect of such rent is "annual rent". If, however, the property is let and was vacant during the previous year, the "annual rent" means the amount which bears the same proportion to the amount of actual rent received or receivable by the owner for the period for which the property is let as the period of 12 months bears to such period. For instance, where a person receives ₹ 9,000 as rent of a house which is let for a period of 6 months during the relevant previous year, "annual rent" will be ₹ 18,000 (being ₹ 9,000x12/6).

In the following cases "actual rent" shall be increased in the manner specified below :

- (a) Municipal taxes borne by tenant
- (b) If property is rented, one-ninth of actual rent will be added, if expenditure on repairs in respect of the property is borne by the tenant
- (c) Interest @ 15% on deposit given by tenant or difference
- (d) Premium received as consideration for leasing of the property or any modification of the terms of the lease will be divided over the number of years of the period of the lease and will be added to 'actual rent'
- (e) If there derives any benefit or perquisite as consideration for leasing of the property or any modification of the terms of the lease, the value of such benefit or perquisite shall be added to actual rent.

Second Step :

Rent received or receivable means

"Rent received or receivable" shall include all payments for the use of the property (by whatever name called), the value of all benefits or perquisites (whether convertible into money or not), obtained from a tenant or occupier of the property and any sum paid by a tenant (or occupier of the property) in respect of any obligation which, but for such payment, would have been payable by the owner.

Net maintainable rent is determined by deducting from the gross maintainable rent :

- (a) the amount of taxes levied by any local authority in respect of property (deduction is available even if these are to be borne by the tenant) ; and
- (b) A sum equal to 15% of gross maintainable rent.

Third Step :

The net maintainable rent is finally capitalized to arrive at value of net asset. This can be done by multiplying the net maintainable rent by 12.5. If the property is constructed on leasehold land, net maintainable rent is to be multiplied by 10 when the unexpired period of lease of such land is 50 years or more and multiplied by 8 where the unexpired period of lease of such land is less than 50 years.

If a property is acquired/constructed after March 31, 1974, then

the value of the house property is determined as above.

Exemption :

- Original cost of construction/acquisition *plus* cost of improvement of the house as property is calculated.

The higher of the above is taken as capitalised value of net maintainable rent.

This exception is applicable in respect of one house property (or a part of one house property). The cost of acquisition/construction (*plus* cost of improvement) does not exceed ₹ 50 lakh, if the house is situated at Mumbai, Kolkata, Delhi and Chennai (₹ 25 lakh at any other place).

Fourth Step :

If unbuilt area of the plot of land on which the property is built exceeds the specified area, premium is to be added to the capitalised value determined above.

After calculating capitalized value of net maintainable rent as above, the next step is to add a premium to it if unbuilt area of the plot of land on which the property is built exceeds the specified area.

“Unbuilt area” means the part of such aggregate area on which no building has been erected, where “aggregate area” means the aggregate of the area on which the property is built and also the unbuilt area.

Specified area means:

- (1) Where the property is situated at Mumbai, Kolkata, Delhi or Chennai – 60% of the aggregate area,
- (2) Where the property is situated at Agra, Ahmedabad, Amritsar, Allahabad, Bangalore, Bhopal, Cochin, Hyderabad, Indore, Jabalpur, Jamshedpur, Kanpur, Lucknow, Ludhiana, Madurai, Nagpur, Patna, Pune, Salem, Sholapur, Srinagar, Surat, Tiruchirapalli, Trivandrum, Vadodara or Varanasi – 65% of the aggregate area, and
- (3) Where the property is situated at any place other than specified in (1) and (2) – 70% of the aggregate area.

However, where the minimum area of the plot required to be kept as open space, for the enjoyment of the property exceeds the specified area, such minimum area is deemed to be the specified area.

The amount of premium to be added to the capitalised value of net maintainable rent is determined as follows:

The excess of unbuilt area over specified area	Premium
Not more than 5% of the aggregate value	Nil
More than 5% but not more than 10% of the aggregate value	20% of capitalised value
More than 10% but not more than 15% of the aggregate value	30% of capitalised value
More than 15% but not more than 20% of the aggregate value	40% of capitalised value
More than 20% of the aggregate value	Rules given in Part B of Schedule III are not applicable. Value of the asset is estimated either by Assessing Office himself or by Valuation Office if reference is made to him.

The value so arrived after adding premium to the capitalized value of net maintainable rent is called Adjusted Net Maintainable Rent.

The next step is to deduct the amount of unearned increment payable or 50% of the value of the property, whichever is less [if the value of the property includes any unearned increment payable].

Valuation of self-occupied property - If assessee owns a house (or a part of the house), being an independent residential unit and is used by the assessee exclusively for his residential purposes throughout 12 months ending on the valuation date, valuation will be as per provisions of section 7(2).

Assessee can either take value of the house as determined above on the valuation date relevant for the current assessment year or he can take value of the house, as determined above, on the first valuation date next following the date on which he became the owner or the valuation relevant for the assessment year 1971-72, whichever is later. The choice is of the assessee.

Where the house has been constructed by the assessee, he shall be deemed to have become the owner thereof on the date on which the construction of such house was completed.

Case Laws:

- (1) If a person has acquired a house for being used as a residential house and that house happens to have large open space around it for use as garden or as play area or other purpose, as long as the house is used solely for residence and the benefit of those ground is confined to the residents of the house and their visitors. Such open space shall be treated as land appurtenant thereto and not a vacant urban land. [M.K. Kuppuraj (HUF) vs. CWT (2002) 257 ITR 718 (Mad)].
- (2) For concessional valuation of self occupied house, it is not necessary that the house should be physically occupied by the assessee, since self-occupation would comprehend reservation for self-occupation of the assessee. [CIT vs. Anil Kumar M. Virani (2002) 258 ITR 81 (Guj)]

Valuation of assets of business [Part D, Schedule III] - If the assessee is carrying on a business for which accounts are maintained by him regularly, the net value of the assets of the business as a whole, having regard to the Balance Sheet of such business on the valuation date, is taken as value of such assets.

(A) The assets are valued as follows -

Depreciable assets - Written down value, plus 20%,

Non-depreciable assets (other than stock-in-trade) - Book value, plus 20%,

Closing stock - Value adopted for the purpose of income-tax, plus 20%.

(B) The value of house property, life interest, jewellery and other assets is calculated as per other provisions of **Wealth Tax Act**.

Where (A) < (B) = (B) is taken as value of the assets

Where (A) > (B) = Aggregate value of depreciable assets, non-depreciable assets and closing stock is taken as value of the assets.

Higher of A or B is taken as value of assets.

According to Rule 14 where the assessee is carrying on a business for which accounts are maintained by him regularly, the net value of the assets of the business as a whole, having regard to the Balance Sheet of such business on the valuation date, shall be taken as under:

(a) the value of any asset as disclosed in the Balance Sheet shall be taken to be as follows —

- (i) in the case of an asset on which depreciation is admissible — its written down value;
- (ii) in the case of an asset on which no depreciation is admissible — its book value;
- (iii) in the case of closing stock — its value adopted for the purposes of assessment under the Income Tax Act for the previous year relevant to the corresponding assessment year.

However, where the value of any of the assets referred to in clause (a) above, determined in accordance with the provisions of Schedule-III as applicable to that particular asset or if there are no such provisions, determined in accordance with rule 20, exceeds the value arrived at in accordance with clause (a) by more than 20 per cent, then the higher value shall be taken to be the value of that asset.

(b) the value of an asset not disclosed in the Balance Sheet, shall be taken to be the value determined in accordance with the provisions of Schedule-III as applicable to that asset;

(c) the value of the following assets which are disclosed in the Balance Sheet shall not be taken into account, namely —

- (i) the value of any asset in respect of which wealth-tax is not payable under this Act.
- (ii) any asset shown in the Balance Sheet not really pertaining to the business.

- (d) From the aggregate value of assets (determined as per clauses (a) and (b) above) deduct the debts owed by the assessee on the valuation date in respect of such assets. However, any debt owed by the assessee to the extent to which it has been specifically utilised for acquiring an asset in respect of which wealth-tax is not payable under this Act shall not be deductible.

Where it is not possible to calculate the amount of debt so utilised, it shall be determined on the following basis:

$$\text{Total Debts} \times \frac{\text{Value of assets of business not subject to Wealth tax}}{\text{Total value of assets}}$$

Rule 14 is applicable to all assessees (whether individual or HUF or a company) which are carrying on business and maintaining books of account regularly and are having business assets. If besides business assets, an individual or HUF is having any personal asset, the same shall be valued normally as per Schedule III.

Liabilities not Considered-The following amounts shown as liabilities in the balance sheet shall not be taken into account, namely:

- (a) capital employed in the business other than attributable to borrowed money;
- (b) reserves by whatever name called (provision for any purpose other than taxation shall be treated as a reserve);
- (c) any provision made for meeting any future or contingent liability;
- (d) any liability shown in the balance sheet not really pertaining to the business;
- (e) any debt owed by the assessee to the extent to which it has been specifically utilised for acquiring an asset in respect of which wealth-tax is not payable under this Act (where it is not possible to determine the amount of debt so utilised, it shall be taken as the amount which bears the same portion to the total of the debts owed by the assessee as the value of that asset bears to the total value of the assets of the business).

Valuation of interest in Firm or Association of Persons [Rule 15 and 16] - According to rule 15, the value of the interest of a person in a firm of which he is a partner or in an association of persons of which he is a member, shall be determined in the manner provided in rule 16, which is as follows:

Step-1: The net wealth of the firm or association of persons on the valuation date shall first be determined as if such firm or association of person were the assessee and the assets of such firm/association will be valued as per rule 14. On the other hand, if the assets are not assets of business, they will be valued as per Rules given in Schedule-III.

Step-2: The value so arrived at in Step-1 shall be allocated amongst the partners in the following manner:

- (i) That portion of the net wealth of the firm or association as is equal to the members amount of its capital shall be allocated amongst the partners or members in the proportion in which capital has been contributed by them;
- (ii) The residue of the net wealth of the firm or association shall be allocated amongst the partners or members in accordance with the agreement of partnership or association for the distribution of assets in the event of dissolution of the firm or association or, in the absence of such agreement, in the proportion in which the partners or members are entitled to share the profits.

Step-3: The sum total of amounts so allocated to a partner or member under clause (i) and clause (ii) shall be treated as the value of the interest of that partner or member in the firm or association:

Proviso and Explanation (b) to rule 16 provides that while valuing the assets of the Firm/AOP, no exemption shall be allowed to Firm/AOP in respect of assets exempt u/s 5. However, the exemption will be allowed to the partner/ member for the proportionate share in the said exempt asset which has been included in the net wealth of the firm/AOP for calculating the interest of the partner/member in the firm/AOP. In other words, proportionate value of such exempt asset (which was not allowed to the firm/AOP) shall be allowed to the partner/member in their individual assessment.

Asset exempt under section 5 should be distributed amongst the partners in the agreed dissolution ratio. Where there is no such agreement, it should be distributed in the profit sharing ratio.

Explanation (a) to rule 16 provides that where the net wealth of the firm or AOP includes the value of any assets located outside India, the value of the interest of any partner or member in the assets located in India shall be determined in the following manner.

$$\text{Value of Interest of partner/member in the firm/AOP} \times \frac{(\text{Value of assets of Firm/AOP located in India}) - (\text{Debts relating to such assets})}{\text{New wealth of the Firm/AOP}}$$

This is relevant where the partner/member is a foreign national or where he is resident but not ordinarily resident in India or non-resident in India as in the case of such partner, his interest in the value of assets of the Firm/AOP which are located in India shall only be taxable.

Value of life interest - The value of the life interest of an assessee shall be arrived as under:

$$\text{Average Annual Income} \times \left[\frac{1}{p+d} - 1 \right]$$

In the above case 'p' represents the annual premium for a whole life insurance without profits on the life of the life tenant for unit sum assured,

'd' is equal to $\frac{i}{1+i}$

'i' being the rate of interest which shall be 6.5% p.a.

(a) "Life Tenant" means a person for the duration of whose life the life interest is to subsist;

(b) "Average Annual Income" means the average of the gross income derived by the assessee from the life interest during each year of the period ending on the valuation date, reduced by the average of the expenses incurred on the collection of such income in each of those years.

Provided that the amount of the reduction for such expenses shall, in no case, exceed five per cent of the average of the annual gross income.

Provided further that in case the income so derived is for a period exceeding three years only that income derived during the three years ending on the valuation date shall be taken into account.

However, the Assessing Officer, may, if he is of the opinion that in the case of the life tenant, a life insurance company would not take the risk of insuring his life at the normal premium rates in force but would demand a higher premium, vary the valuation suitably.

Further, the value of the life interest so determined shall, in no case, exceed the value as on the valuation date as determined under this Schedule, of the corpus of the trust from which the life interest is derived.

In other words, the valuation of life interest will be calculated in following steps:

- (1) Compute the average of the annual gross income derived by the assessee from the life interest asset during each of the last three years ending with the valuation date. Where gross income is earned for more than 3 years, average of the last 3 years is to be taken. If the income earned is for less than 3 years, average of so many years ending with the valuation date is to be computed.

- (2) From the average of the gross income reduce the average of the expenses incurred on the collection of such income in each of those three years/less number of years, as the case may be, subject to the limit of 5 per cent of the average of the annual gross income.
- (3) Multiply the average annual income so arrived at with the value factor against the age of the assessee which will give the value of life interest as on the valuation date.
- (4) The value factors are arrived at on the basis of formula based on annual premium for a whole life insurance, without profits.
- (5) Where the life tenant cannot be insured at normal premium rates but only at higher premium rates, then the Assessing Officer may vary the valuation suitably.
- (6) The value of life-interest shall, in no case, exceed the value as on the valuation date, as determined under the Schedule, of the corpus of the trust from which the life interest is derived.

Valuation of jewellery - The value of jewellery shall be estimated to be the price which it would fetch if sold in the open market on the valuation date (i.e., fair market value). Where the value of jewellery does not exceed ₹ 5,00,000, a statement in Form No. O-8A is to be submitted. Where the value of the jewellery exceeds ₹ 5,00,000, a report of a registered valuer in Form No. O-8 should be submitted. The report is not binding on Assessing Officer (Valuation Officer) and he can determine fair market value of jewellery.

The value of jewellery determined by the Valuation Officer for any assessment year shall be taken to be the value of such jewellery for the subsequent four assessment years subject to the following adjustments:

- (a) where the jewellery includes gold or silver or any alloy containing gold or silver, the value of such gold or silver or such alloy as on the valuation date relevant to the concerned subsequent assessment year shall be substituted for the value of such gold or silver or alloy on the valuation date relevant to the first assessment year;
- (b) where any jewellery or part of jewellery is sold or otherwise disposed of by the assessee, or any jewellery or part of jewellery is acquired by him, on or before the valuation date relevant to the concerned subsequent year, the value of the jewellery determined for the first assessment year shall be reduced or increased, as the case may be, and the value as so reduced or increased shall be the value of the jewellery for such subsequent assessment year.

It was represented to the CBDT, that the requirement of obtaining a report of a registered valuer, every year, in cases where the value of jewellery exceeds ₹5 lakhs is causing uncalled for hardship to the assessees.

The matter has been considered by the Board. It has been decided that the report of the registered valuer obtained for one assessment year can also be used in subsequent four assessment years subject to the following adjustments, namely—

- (a) where the jewellery includes gold or silver or any alloy containing gold or silver, the value of such gold or silver or such alloy as on the valuation date relevant to the concerned subsequent assessment year shall be substituted for the value of such gold or silver or alloy on the valuation date relevant to the first assessment year.
- (b) where any jewellery or part of jewellery is sold or otherwise disposed of by the assessee, or any jewellery or part of the jewellery is acquired by him, on or before the valuation date relevant to the concerned subsequent year, the value of the jewellery determined for the first assessment year shall be reduced or increased, as the case may be, and the value as so reduced or increased shall be the value of the jewellery for such subsequent assessment years.

In such subsequent four assessment years, the requirement of rule 18(2)(ii) can be taken to have been complied with if the report of the registered valuer for the initial assessment year along with a chart showing adjustments made as above are enclosed along with the return of the net wealth furnished by the assessee. [Circular No. 646, dated 15.3.1993].

Valuation of any other asset - The value of any asset, other than cash (being an asset which is not covered in above) shall be estimated either by the Assessing Officer himself or by the Valuation Officer if reference is made to him under section 16A. In both these cases, the value shall be estimated to be the price which it would fetch if sold in the open market, on the valuation date. If the asset is not saleable in the open market, the value shall be determined in accordance with guidelines or principles specified by the Board from time to time by general or special order.

21.3 OTHER ISSUES RELATING TO WEALTH TAX

Charitable or religious trusts - A trust can forfeit exemption for any of the following reasons - (a) any part of the trust's property or any income of the trust, including income by way of voluntary contributions, is used for the benefit of the settlor, the trustee, their relatives etc.; or (b) any part of the income of the trust, created on or after April 1, 1962, including income by way of voluntary contributions, enures directly or indirectly, for the benefit of any of the persons referred to in section 13(3) of the Income-tax Act; or (c) any funds of the trust are invested or deposited or any shares in a company are held by the trust in contravention of the investment pattern for trust funds laid down in section 11(5) of the Income-tax Act. In such case, tax shall be leviable upon and recoverable from the trustee or manager in respect of the property held by him under trust at the rate of tax applicable to a resident in India.

These provisions are not applicable in the case of a scientific research association [Section 10(21) of the Income-tax Act] and in the case of any institution, fund or trust referred to in section 10(22), (22A), (22B) or (23C) of the Income-tax Act in specified situations [Section 21A]

Association of persons where shares of members are indeterminate/unknown - If assets chargeable to wealth-tax are held by an association of persons and the individual shares of the members in the income or assets of the association are indeterminate or unknown, wealth-tax is levied to the same extent as it would be leviable upon and recoverable from an individual who is citizen of India and resident in India [Section 21AA]

Section 45 :

This section provides for exemption from wealth tax to companies registered u/s 25, co-operative societies, social clubs, recognised political parties, mutual funds, etc. This list is now expanded to provide that the 'Reserve Bank of India' will not be liable to pay wealth tax w.e.f. 1-4-1957.

21.4 RETURN OF WEALTH AND ASSESSMENT

Every person is required to file with the Wealth-tax Officer a return of net wealth in Form BA, if his net wealth or net wealth of any other person in respect of which he is assessable under the Act on the valuation date is of such an amount as to render him liable to wealth-tax. Return can be filed on or before the "due date" specified under section 139 of the Income-tax Act.

Enabling provisions for facilitating electronic filing of annexure-less return of net wealth [Section 14A of the Wealth Tax Act] [W.e.f. 1.6.2013]

Section 14 of the Wealth-tax Act provides for furnishing of return of net wealth as on the valuation date in the prescribed form and verified in the prescribed manner setting forth particulars of the net wealth and such other particulars as may be prescribed. Currently, certain documents, reports are required to be furnished along with the return of net wealth under the provisions of Wealth-tax Act read with the provisions of Wealth-tax Rules.

Sections 139C and 139D of the Income-tax Act contain provisions for facilitating filing of annexure-less return of income in electronic form by certain class of income-tax assessee.

In order to facilitate electronic filing of annexure-less return of net wealth, new section 14A has been inserted in the Wealth-tax Act to provide as under:

"The Board may make rules providing for a class or classes of persons who may not be required to furnish documents, statements, receipts, certificates, audit reports, reports of registered valuer or any other documents, which are otherwise under any other provisions of this Act, except section 14B, required to be furnished, along with the return but on demand to be produced before the Assessing Officer."

Board to make rules to provide for filing of wealth tax return in electronic form [Section 14B] [W.e.f. 1.6.2013]

The Finance Act, 2013 has inserted new section 14B to provide as under:

"The Board may make rules providing for—

- (a) the class or classes of persons who shall be required to furnish the return in electronic form;
- (b) the form and the manner in which the return in electronic form may be furnished;
- (c) the documents, statements, receipts, certificates, audit reports, reports of registered valuer or any other documents which may not be furnished along with the return in electronic form but shall be produced before the Assessing Officer on demand;
- (d) the computer resource or the electronic record to which the return in electronic form may be transmitted."

Return in response to a notice - In the case of any person who, in the opinion of Wealth-tax Officer, is assessable to tax, the Wealth-tax Officer may, before the end of the relevant assessment year, issue a notice requiring him to furnish, within 30 days from the date of service of such notice, a return of net wealth in the prescribed form.

If any person has not furnished a return within time allowed under section 14(1) or in response to a notice issued under section 16(4)(i), he may furnish a return at any time before the expiry of one year from the end of the relevant assessment year or before the completion of assessment, whichever is earlier.

Similarly, if a person having furnished the return discovers any omission or wrong statement therein he may furnish a revised return before the expiry of one year from the end of the relevant assessment year or before the completion of the assessment whichever is earlier.

However, the Supreme Court, in the case of Kumar Jagdish Chandra Sinha vs. CIT (1996) 220 ITR 67 (SC), has held that a belated return cannot be revised.

Assessment - The assessee is required to pay the tax before filing of the return and such return is to be accompanied by the proof of such payment. Provisions of regular assessment, as applicable under Income Tax, will apply to wealth tax also.

Assessment proceeding under Income Tax Act, 1961 & Wealth Tax Act, 1957

Activity	Income Tax Act, 1961	Wealth Tax Act, 1957
Return	Section 139(1)	Section 14
Return of Loss	Section 139(3)	---
Belated return	Section 139(4)	Section 15
Revised return	Section 139(5)	Section 15
Return by whom to be signed	Section 140	Section 15A
Self Assessment	Section 140A	Section 15B
Scrutiny Assessment	Section 143(3)	Section 16(2) & (3)
Best Judgment Assessment	Section 144	Section 16(5)
Escaping Assessment	Section 147	Section 17

Time limit for completion of assessment	Section 153	Section 17A
Appeal	Section 246A	Section 23
Appeal to Appellate Tribunal	Section 253(1) & (2)	Section 24 & 26
Revision	Section 263 & 264	Section 25
Appeal to High Court/ National Tax Tribunal	Section 260A	Section 27A
Appeal to supreme Court	Section 261	Section 29
Refunds	Section 240	Section 34A

Interest, Penalty and Presecution -

Section	Nature of Default	Penalty or Fine
17B	Failure to submit return u/s 14(1), 15, 16(4)(i), 17(1) within the due date	Interest @ 1% per month or part of thereof
31(2)	Failure to pay the amount specified in notice of demand u/s 30 within 30 days	Interest @ 1% per month or part of thereof
15B(3)	Failure to pay or interest payable on self-assessment	Liable for penalty by deeming assessee to be in default. However, penalty should not exceed 100% of tax in arrears
18(1)(ii)	Failure to comply with notice u/s 16(2) of 16(4) without reasonable cause	Minimum: ₹1,000 for each failure Maximum: ₹25,000 for each failure
18(1)(iii)	Concealment of wealth	Minimum: 100% of tax sought to be avoided Maximum: 500% of tax sought to be avoided
18A(1)(a), (b) and (c)	Failure to answer questions legally bound or sign statements legally required or comply with summons u/s 37(1) without reasonable cause	Minimum: ₹500 for each failure/default Maximum: ₹10,000 for each failure/default
18A(2)	Failure to furnish statement/information required u/s 38 in due time without reasonable cause	Minimum: ₹100 for every day of default Maximum: ₹200 for every day of default
32	Committing default in payment of tax	Not exceeding 100% of tax in arrears
35A(1)	Wilful attempt to evade tax, penalty or interest:	
	in case amount sought to be evaded exceeds ₹1,00,000	Rigorous imprisonment for a period of 6 months which may extend to 7 years and fine without prejudice to penalty imposable under any other provision of the Act

	In any other case	Rigorous imprisonment for a period of 3 months which may extend to 3 years and fine without prejudice to penalty imposable under any other provision of the Act
35A(2)	Wilful attempt to evade payment of tax, penalty or interest	Rigorous imprisonment for a period of 3 months which may extend to 3 years and fine without prejudice to penalty imposable under any other provision of the Act
35B	Wilful failure to furnish in due time return of wealth in terms of section 14(1) or 14(2) or 17(1):	
	in case amount sought to be evaded exceeds ₹1,00,000	Rigorous imprisonment for a period of 6 months which may extend to 7 years and fine
	In any other case	Rigorous imprisonment for a period of 3 months which may extend to 3 years and fine
35C	Wilful failure to produce accounts/records in terms of section 16(4)	Rigorous imprisonment upto 1 year or fine between ₹4 and ₹10 for every day of default or with both
35D	Filing of false statement in verification (other than u/s 34AB regarding registration value)/delivering false statement:	
	in case amount sought to be evaded exceeds ₹1,00,000	Rigorous imprisonment for a period of 6 months which may extend to 7 years and fine
	In any other case	Rigorous imprisonment for a period of 3 months which may extend to 3 years and fine
35E	Making false statement in verification mentioned in section 34AB	Upto 6 months' imprisonment or fine or both
35EE	Failure without reasonable cause, to furnish particulars u/s 34ACC regarding intimation by registered valuer of his conviction of any offence	Rigorous imprisonment for a period upto 2 years and fine
35EEE	Making contravention of order made u/s 37A(1) or 37A(3A)	Rigorous imprisonment for a period upto 2 years and fine
35F	Abetting or inducing another person to make and deliver false accounts, statement or declaration relating to net wealth chargeable to tax:	
	in case amount sought to be evaded exceeds ₹1,00,000	Rigorous imprisonment for a period of 6 months which may extend to 7 years and fine
	In any other case	Rigorous imprisonment for a period of 3 months which may extend to 3 years and fine
35G	Second and subsequent offences u/s 35A(1), 35B, 35D or 35F	Rigorous imprisonment for a period of 6 months which may extend to 7 years and fine

According to section 35B, prosecution is not to be resorted to in cases where return is furnished before the end of assessment year or tax determined on regular assessment does not exceed ₹3,000.

Section 35H provides that where a HUF has committed any offence and shall be liable to be proceeded against and punished accordingly. If, however, the karta proves that the offence was committed without his knowledge or that he had exercised all due diligence to prevent the commission of offence, he is not liable to any punishment. Further, a member of the family shall be equally guilty in case where the offence was committed with his consent or connivance or due to his neglect.

Where a Company has committed any offence, every person who was in charge of, and was responsible to, the company for the conduct of the business of company would be liable to be prosecuted [Section 35HA]. However, such person shall not be liable to any punishment if he proves that the offence was committed without his knowledge or that he had exercised all due diligence to prevent the commission of such offence. Further, if it is proved that the offence has been committed with the consent or connivance of, or is attributable to any neglect on the part of, any director, manager, secretary or other officer of the company, such director, manager, secretary or other officer shall be deemed to be guilty of that offence and shall be liable to be proceeded against and punished accordingly. For the purpose of this section, company means a body corporate and includes a firm, and AOP or BOI.

Commissioner to grant immunity from prosecution —

- (1) A person may make an application to the Commissioner for granting immunity from prosecution, if he has made an application for settlement under section 22C and the proceedings for settlement have abated u/s 22HA.
- (2) The application to the Commissioner shall not be made after institution of the prosecution proceedings after abatement.
- (3) The Commissioner may, subject to such conditions as he may think fit to impose, grant to the person immunity from prosecution for any offence under this Act, if he is satisfied that the person has, after the abatement, co-operated with the Wealth Tax Authority in the proceedings before him and has made a full and true disclosure of his net wealth and the manner in which such net wealth has been derived. Where the application for settlement u/s 22C had been made before 1.6.2007, the Commissioner may grant immunity from prosecution for any offence under this Act or under the Indian Penal Code or under any other Central Act for the time being in force.
- (4) The immunity granted to a person shall stand withdrawn, if such person fails to comply with any condition subject to which the immunity was granted and thereupon the provisions of this Act shall apply as if such immunity had not been granted.
- (5) The immunity granted to a person may, at any time, be withdrawn by the Commissioner, if he is satisfied that such person had, in the course of any proceedings, after abatement, concealed any particulars, material to the assessment, from the Wealth Tax Authority or had given false evidence, and thereupon such person may be tried for the offence with respect to which the immunity was granted or for any other offence of which he appears to have been guilty in connection with the proceedings.

According to section 35-I, person can be proceeded against for an offence under the Act only at the instance of the Chief Commissioner or the Commissioner (Appeals) either before or after the institution of proceedings, The Chief Commissioner or the Commissioner can also compound any offence under the Act.

Section 35J provides that offences punishable under section 35A (willful attempt to evade tax penalty, etc.), section 35B (failure to furnish returns, etc.) section 35D (false statement in verification, etc.), and section 35F (abetment of false return, etc.) are non-cognizable under the Code of Criminal Procedure,

1973. However, according to Section 35M, the application of section 360 of the Code of Criminal Procedure, 1973 and the provisions of Probation of Offenders Act, 1958 are not applicable in case of minor.

According to section 3SL, no court inferior to that of a Metropolitan Magistrate or a Magistrate of the first class shall try any offence under this Act.

Section 35K provides that a person shall not be proceeded against for an offence u/s 35A or 35D in relation to the assessment for an assessment year in respect of which the penalty is imposed or imposable on him under Section 18(1) has been reduced or waived under section 18B. It also lays down that where any proceeding for prosecution has been taken against any person under this Act, any statement made or account or other document produced by such person before any of the Wealth Tax Authorities shall not be inadmissible as evidence for the purpose of such proceedings merely on the ground that such statement was made or such account or other document was produced in the belief that the penalty imposable would be reduced or waived u/s 18B or that the offence in respect of which such proceeding was taken would be compounded.

Section 35K provides for bar on prosecution and inadmissibility of evidence in certain circumstances on the lines of section 279 (1A) of the Income Tax Act.

Presumption as to books of account etc. [Section 35N]: Where:

- (i) books of account or other documents, articles or things including money found in the possession of any person during search made u/s 37A; or
- (ii) books of account, documents, or inventory of any article or thing taken in custody by an officer or authority under sub-section (i) or section 37B and delivered to a requisitioning officer u/s 37B(2) are tendered as evidence by the prosecution against such person and the person who is accused of abetment of false return u/s 35F, the provision of section 37A(5) — presumption as to books of account, documents, etc. —will apply.

Section 36 provides for production of evidence in prosecution for offences under the Act on the same lines as those of section 279B of the Income Tax Act.

The Central Government has been empowered by section 36A with a view to obtain evidence of any person, appearing to have been directly or indirectly concerned in or privy to the concealment of particulars in respect of net wealth or to the evasion of payment of tax on net wealth to tender such person immunity from prosecution for offences as well as from the imposition of any penalty under this Act. However, this tender of immunity is not irrevocable in character. The Central Government may withdraw it, if it thinks that the person who was granted the immunity has not complied with the condition on which immunity was granted or was willfully concealing anything or giving false evidence.

Section 37 provides that the Assessing Officer, Valuation Officer, Deputy Commissioner (Appeals), Commissioner (Appeals), Chief Commissioner or Commissioner and the Appellate Tribunal shall have the same powers as the Court has under the Civil Procedure Code when trying a suit in respect of the following matters:

- (i) discovery and inspection;
- (ii) enforcing the attendance of any person and examining him on oath;
- (iii) compelling the production of books of account and other documents;
- (iv) issuing commissions [Section 37(1)].

The provisions of section 37 have been brought on the same lines as those of the amended section 131 of the Income Tax Act. Accordingly Valuation Officer is also an authority and the power to summon, etc. has been conferred on him as well.

Section 17 — Wealth-escaping assessment :

Where the Assessing Officer has reason to believe that any wealth chargeable to tax, in respect of which any person is assessable under the Wealth-tax Act, has escaped assessment for any assessment year, whether by reason of under assessment or assessment at a low rate or otherwise, he may subject to certain conditions, take the following steps:

Step 1: Serve a notice on such person requiring him to furnish a return of net wealth within the period specified in the notice. However, before issuing such notice, the Assessing Officer is required to record his reasons for doing so.

Step 2: Assess or re-assess such net wealth which has escaped assessment. If during the course of assessment/re-assessment proceedings under the section, it has come to his notice subsequently that there is any other net wealth which has escaped assessment for that assessment year concerned he may assess or reassess such net wealth also.

After issuing notice to file return of wealth, the Assessing Officer may assess or reassess such net wealth, other than the net wealth which is subject matter of any appeal, reference or revision, which is chargeable to tax and has escaped assessment.

The following shall also be deemed to be cases where wealth has escaped assessment:

- (a) Where no return of net wealth has been furnished by the assessee although his net wealth or the net wealth of any other person in respect of which he is assessable under this Act on the valuation date, exceeded the maximum amount which is not chargeable to wealth-tax;
- (b) Where a return of net wealth has been furnished by the assessee but no assessment has been made and it is noticed by the Assessing Officer that the assessee has understated the net wealth or has claimed excessive exemption or deduction in the return.

Time limit for completion of Assessment and Re-assessment

If return is filed in response to notice under this section i.e. 17(1), the provisions of the Wealth Tax Act shall, so far as may be apply, as if the return were a return required to be furnished under section 14.

This section is amended w.e.f. 1-7-2012 — It is now provided in this section that if any person is found to have any asset or financial interest in any entity located outside India, it will be deemed to be a case where net wealth chargeable to tax has escaped assessment. In such cases the wealth tax assessment can be reopened by the AO within 16 years.

Following are the provisions relating to different time-limits under Wealth Tax Act:

Section	Nature of Compliance	Time Limit
15B(1)	Wealth Tax payment along with interest due for filing belated return on self-assessment	Before furnishing return
16(1)(a)	Intimation of any tax or interest found due after adjusting tax or interest paid, etc.	Within 24 months from the end of the assessment year in which net wealth was first assessable
16(2)	Service of notice requiring assessee's attendance, production of evidence, etc. in support of the return	Within 12 months from the end of the month in which the return is furnished
17(1)	Service of notice by Assessing Officer in case of any taxable wealth escaping assessment for relevant assessment year for reasons other than failure of assessee to file return u/s 14,15,16(4),17 or to disclose fully all material facts	Within 4 years from the end of the relevant assessment year or unless escapement of wealth is in relation to any asset located outside India
17(1A)	Service of notice by Assessing Office for reassessment:	
	(a) Where wealth which has escaped assessment is less than ₹10,00,000	Within 4 years from the end of the relevant assessment year
	(b) Where wealth which has escaped assessment is ₹10,00,000 or more	Within 6 years from the end of the relevant assessment year
	(c) Where wealth (including financial interest in any entity) which has escaped assessment is located outside India	Within 16 years from the end of the relevant assessment year
17A(1)	Passing assessment order u/s 16	Within 2 years from the end of the assessment year in which net wealth was first assessable
17A(2)	Passing assessment or reassessment order u/s 17	Within 1 years from the end of the Financial year in which the notice u/s 17(1) was served
17A(3)	Completion of fresh assessment after assessment has been cancelled or set aside u/s 23A, 24 or 25	Within 1 year from the end of the financial year in which the order u/s 23 or 24 is received or order u/s 25 is passed
18(5)	Penalty imposition for failure without reasonable cause to comply with notices u/s 16(2)/16(4) and concealment of wealth, etc. —	
	(a) Where the relevant assessment is subject matter of an appeal before Deputy Commissioner (Appeals) u/s 23 or before Tribunal u/s 24(2)	Before the end of the financial year in which proceedings in the course of which action for imposition of penalty has been initiated are completed or 6 months from the end of the month in which the relevant appellate order is received by the Chief Commissioner or Commissioner, whichever is later

	(b) Where the relevant assessment is the subject matter of revision by Commissioner u/s 25(2)	Before the expiry of 6 months from the end of month in which such revision order is passed
	(c) In any other cases	Before the expiry of the financial year in which in which the proceedings, in the course of which action for imposing penalty has been completed or 6 months from the end of the month in which action for imposing penalty is initiated, whichever is later
22D(1)	Rejecting or allowing the application for settlement	Within 1 year from the end of the month in which application is made
22D(4)	Passing order of settlement	Within 4 years from the end of the financial year in which application is allowed to be proceeded with
23(2)/23A(1)	Filing of appeal to Commissioner (Appeal)	Within 30 days from the date of receipt of notice of demand or the date as extended
23A(8A)	Hearing and decision of the appeal by Commissioner (Appeal)	Within a period of 1 year from the end of the financial year in which such appeal is filed, where it is possible
24(1)/24(2)	Filing of appeal to Tribunal	Within 60 days from the date of communication of order of Deputy Commissioner (Appeals) or Commissioner (Appeal) or within extended time
24(2A)	Cross objections' filing with Tribunal	Within 30 days from the date of receipt of notice or within extended time
24(5A)	Hearing and decision of the appeal by Tribunal	Within the period of 4 years from the end of the financial year in which such appeal is filed, where it is possible
25(1)	Proviso (c): filing application to Commissioner for revision of order (not prejudicial to assessee)	Within 1 year from the date of the order sought to be revised or within the time as extended
	Proviso (d): revision order by Commissioner suo moto (not prejudicial to assessee)	Within 1 year from the date of order sought to be revised
25(2)/25(3)	Revision of order of Assessing Officer by Commissioner if considered prejudicial to revenue	Within 2 years from the end of the financial year in which order sought to be revised is passed
25(3A)	Passing order by Commissioner on application made by assessee for revision	Within 1 year from the end of the financial year in which application is made
26(1)	Appeal to Tribunal from orders of enhancement u/s 18, 18A or 25(2) by Chief Commissioner or Commissioner or an order passed by the Director General or Director u/s 18A	Within 60 days from the date of communication of order of Chief Commissioner or Commissioner or Director General or Director

27(1)/27(2)	Filing application to Tribunal for reference to High Court	Within 60 days from the date of service of order of Tribunal u/s 24 or 26 or within such further time not exceeding 30 days as allowed by Tribunal on sufficient cause
	Drawing up statement of case by Tribunal and referring it to High Court	Within 120 days of receipt of application
27(3)	Filing application to High Court requiring Tribunal to state case	Within 90 days from the date of service of notice of refusal or rejection
	Withdrawal of application to Tribunal's refusal to state case	Within 30 days from the date on which assessee received notice of refusal
27A	Filing appeal to High Court by the assessee or Chief Commissioner or Commissioner	Within 120 days of the day upon which he is served with notice of an order u/s 24 or 26 or 35(1)(e)
31(1)/31(3)	Payment of tax, penalty, etc	Within 30 days of service of notice of demand or within the time as extended or reduced
34C(2)	Provisional attachment of property	Effective only upto 6 months from the date of attachment order or upto 2 years by extension
35(7)/35(7A)	Rectification of mistake —	
	(a) In case of amendment u/s 35(2)	Within 4 years from end of financial year in which order is passed in first appeal or revision
	(b) in cases where valuation of any asset has been enhanced by Valuation Officer	Within 1 year of the date of order of Valuation Officer
	(c) In any other case	Within 4 years from end of financial year in which order is sought to be amended is passed

Collection and recovery of tax

The Assessing Officer is under an obligation to serve upon the assessee a "Notice of Demand" in the prescribed Form (Form No. C) specifying the sum payable, if any as tax, interest, penalty, fine or any other sum is payable in consequence of any order passed under this Act [Section 30]. The amount specified in the notice of demand is to be paid within 30 days of the service of notice. However, the Assessing Officer may specify in the notice a lesser period than that of 30 days, if he has any reason to believe that the full period of 30 days is likely to be detrimental to revenue. But he may do so only with the previous approval of the Joint Commissioner. [Section 31(1) and the proviso]. Any failure on the part of the assessee to pay the amount within such specified period will render him liable to payment of interest @ 1% for every month or part of a month comprised in the period commencing from the day immediately following the end of the period mentioned in section 31(1) and ending with the day on which the amount is paid. But if in consequence of an order under sections 23A, 24, 25, 26, 27A, 29 or section 35 or any order of the Settlement Commission, the amount on which interest was payable had been reduced, the interest will accordingly be reduced and the interest paid in excess, shall be refunded [Section 31(2) and the proviso]. Sub-section (2AA) empowers the Chief Commissioner or the Commissioner to reduce or waive the interest payable under section 31(2) for reasons of hardship, circumstances beyond control and the co-operation extended by the assessee. Without prejudice to the provisions of sub-section (2), if the assessee makes an application before the due date under sub-

section (1) expires, the Assessing Officer may either extend the time for payment or allow payment by installments. But while doing so the Assessing Officer may lay down such conditions as the circumstances of the case might warrant [Section 31(3)]. The modes of recovery of tax interest, penalty etc. are similar to those prescribed under sections 221 to 227, 228A, 229, 231, 232 of the Income Tax Act, and the Second and Third Schedules thereto and any rules made thereunder [Section 32].

Any reference to section 173 and section 222(2) or (6) or (7) of the Income Tax Act will be treated as references to section 22(7) and section 31(2) or (6) or (7) of the Wealth Tax Act respectively. The Tax Recovery Commissioner, and the Tax Recovery Officer referred to in the Income-tax Act shall be deemed to be the Tax Recovery Commissioner and the Tax Recovery Officer for the purpose of recovery of wealth-tax and sums imposed by way of penalty, fine and interest.

According to section 33, where by reason of the provisions contained in section 4, the value of any assets transferred to any of the persons mentioned in that section have to be included in the net wealth of an individual, the person in whose name such assets stand shall be liable to pay that portion of the tax assessed on the assessee as is attributable to the value of the assets standing in his name as aforesaid. However in this case the Assessing Officer shall have to serve a notice of demand to the transferee to pay such amount. Further if such asset is held jointly by more than one person they shall be jointly and severally liable to pay the tax as is attributable to the value of asset so jointly held. If the transferee or joint transferees fail to pay the tax as specified in the Notice of Demand, he or they would be deemed to be assessee in default and all the provisions in regard to recovery would apply to them.

Example: M gifts jewellery to his wife. The value of jewellery as per Schedule III is ₹15,00,000. The net wealth is ₹75,00,000 which includes jewellery of ₹15,00,000. Therefore, the wealth tax which can be recovered from Mrs. M is as under:

Wealth tax on ₹75,00,000	₹45,000
Proportionate tax which can be recovered from Mrs. M $[45,000 \times 15,00,000/75,00,000]$	₹9,000

Refunds [Section 34A]

If as a result of any order passed in an appeal or other proceeding (including a rectification proceeding), the refund of any amount becomes due to the assessee, the Assessing Officer should refund to the assessee the amount due to him without his being required to make any claim in that behalf [Section 34A(1)]. In other words, it is not necessary for the assessee to make a claim in that behalf.

However, where an assessment is set aside with the direction to make it a fresh, any refund will become due only after the fresh assessment is made. Further, where an assessment is annulled, the tax on the net wealth returned will not be refunded. Only the tax paid in excess of the tax chargeable on the net wealth returned will be refunded.

According to sub-section (2), where refund of any amount becomes due to the assessee as a result of an order under this act or under the provisions of sub-section (1) of section 16 after a return has been made under section 14 or section 15 or in response to a notice under clause (i) of sub-section 4 of section 16 and the Assessing Officer is of the opinion having regard to the fact that —

- (i) a notice has been issued or is likely to be issued under section 16(2) in respect of the said return or
- (ii) the order is the subject matter of an appeal or further proceeding or
- (iii) any other proceeding under this Act is pending

and that the grant of the refund is likely to adversely affect the revenue, the Assessing Officer may with the previous approval of the Chief Commissioner or the Commissioner withhold the refund till such time as the Chief Commissioner or the Commissioner may determine.

Sub-section (4B) provides that where refund becomes due to the assessee, he shall be entitled to receive in addition to the said amount simple interest thereon calculated @ 1/2% for every month or

part thereof comprised in the period or periods from the date or dates of payment of the tax or penalty to the date on which the refund is granted.

The expression date of payment of the tax or penalty for this purpose means the date on and from which the amount of tax or penalty specified in the notice of demand is paid in excess of such demand.

Where the refund has been increased or reduced on reassessment, appeal, revision, rectification or by an order of the Settlement Commission, the refund shall be automatically revised.

The Assessing Officer, or the Commissioner (Appeals) or the Chief Commissioner, as the case may be, has the power under sub-section (5) of section 34A to set off the amount of refund or any portion of that amount against the sum, if any remaining payable under this Act by the person to whom the refund is due. Such a person must, however, be informed in writing of the action proposed to be taken.

Rectification of Mistake [Section 35]

It may be possible that a Wealth Tax Authority or the Appellate Tribunal or Valuation Officer may commit a mistake while passing an order of assessment, appeal, revision, valuation, etc. With a view to rectify any mistake apparent from the record, the Wealth Tax Authority or Appellate Authority or Valuation Officer is empowered as under:

- (a) the Assessing Officer may amend any order of assessment or of refund or any other order passed by him;
- (b) a wealth-tax authority may amend any intimation deemed intimation sent by it u/s 16(1);
- (c) the Valuation Officer may amend any order passed by him u/s 16A;
- (d) the Commissioner (Appeals) may amend any order passed by him u/s 23;
- (e) the Commissioner may amend any order passed by him u/s 25;
- (f) the Appellate Tribunal may amend any order passed by it u/s 24.

The above rectification can be made by the authority concerned on its own motion or on an application made by the assessee in this behalf.

Further, where the authority concerned is the Valuation Officer or the Commissioner (Appeals) or the Appellate Tribunal, such application for rectification can be made by the Assessing Officer also.

Where any rectification is made under this section, an order of rectification shall be passed in writing. If such rectification order has the effect of increasing the liability of the assessee, or reducing a refund, the authority concerned must give a notice to the assessee of its intention to do so and an opportunity of being heard must be given to the assessee. Rectification can be made only within four years from the end of the financial year in which the order sought to be rectified was passed. Where any such amendment has the effect of enhancing the assessment or reducing a refund already made, the Assessing Officer shall serve a notice of demand on the assessee in the prescribed form specifying the sum payable and such notice of demand shall be deemed to be issued u/s 30 and the provision shall apply accordingly.

Where any amendment made by the Valuation Officer, has the effect of enhancing the valuation of any asset, he shall send a copy of his order to the Assessing Officer who shall thereafter proceed to amend the order of assessment in conformity with the order of the Valuation Officer. The consequential amendment to the order of assessment may be made by the Assessing Officer at any time before the expiry of one year from the date of the order of the Valuation Officer.

A mistake arising as a result of subsequent interpretation of law by the Supreme Court will constitute a mistake apparent from the records and rectificatory action will be in order [Circular No. 68, dated 17.11.1971].

Liability in Special Cases [Section 19 to 22]

(A) Tax of deceased person payable by legal representative [Section 19]: These are of two kinds:

- (a) According to Section 19(1) where a person dies, his executors, administrator or the other legal representative, shall be liable to pay the wealth-tax or any sum which would have been payable by the deceased, if he were alive. Such sum shall be payable to the extent to which the estate of the deceased is capable of meeting such amount.
- (b) According to Section 19(2) where a person dies, without having furnished a return under the provisions of section 14 or after having furnished a return, which the Assessing Officer has reason to believe to be incorrect or incomplete the Assessing Officer is empowered to make an assessment of the net wealth of the deceased person and determine the wealth tax payable by him on basis of such assessment.

The provisions of section 14, 15, and 17 shall apply to an executor, administrator or other legal representative as they apply to person referred to in those sections. [Section 19(3)]

The provisions of section 19 are applicable to all the assessment years relevant to the valuation dates falling prior to the death of the assessee.

Case Laws:

- (i) Section 19 positively deals with the case, where an assessee dies after the relevant valuation date on which his liability to pay wealth-tax has accrued. It is that liability which has to be worked out via the provisions of section 19 and the tax which the deceased was liable to pay or any other sum which would have been payable by him if he had not died has to be paid by the executor, administrator or other legal representatives [OPT vs. Keshub Mahindra (1983) 139 ITR 22 (Bom)].
- (ii) The legal representatives of the deceased may be called upon to produce any accounts, documents or other evidence which might, under the provisions of section 16, have been required from the deceased person, if he were alive. [CWT vs. V. Varadarajan (1980) 122 ITR 1014 (Mad)].
- (iii) Penalty under section 18 cannot be imposed on the legal representatives as section 19(3) does not cover section 18. [CWT vs. H.S. Chauhan (2000) 245 ITR 704 (Del)].
- (iv) No penalty can be levied against legal representative under wealth-tax. [ACIT vs. Late Shrimant P.P. Galkhand (2009) 313 ITR 192 (Guj)].

(B) Assessment in the case of executors [Section 19A]

The provisions of section 19A are summarised as under:

- (a) These will be applicable only in respect of assessment years relevant to the valuation dates falling after the death of assessee.
- (b) The section will apply only to case where an assessee dies having executed a will and appointed an executor or executors. If he died intestate i.e., without making a will, the estate would have gone to his heirs and therefore, the heirs shall be separately liable to pay tax in their individual assessment in respect of wealth acquired by them.
- (c) For the purpose of this section, the executor or executors shall be treated as an individual.
- (d) Status of the executor or executors as regards residence and citizenship shall be same that of the deceased on the valuation date immediately preceding his death.
- (e) Separate assessment will be made in respect of: (i) his own net wealth held in his individual capacity
(ii) the net wealth of the deceased.
- (f) Till the assets of the deceased are completely distributed to the beneficiaries of the estate, separate assessment will be made in respect of, the estate on each valuation date.

- (g) In computing the net wealth on any valuation date under this section, any assets of the estate distributed to, or applied to the benefit of, any specific legatee of the estate prior to that valuation date shall be excluded, but the assets so excluded shall, to the extent such assets are held by the legatee on any valuation date, be included in the net wealth of such specific legatee on that valuation date.

(C) Assessment after partition of a Hindu Undivided Family [Section 20]

At the time of making an assessment, where it is brought to the notice of the Assessing Officer that a partition has taken place among the members of a Hindu Undivided Family, and the Assessing Officer, after inquiry, is satisfied that the joint family property has been partitioned as a whole among the various members or groups of members in definite portions, he shall record an order to that effect. He shall make an assessment on the net wealth of the Hindu Undivided Family as such for the assessment year or years, including the year relevant to the previous year in which the partition has taken place, if the partition has taken place on the last day of the previous year and each member or group of members shall be liable jointly and severally for the tax assessed on the net wealth of the joint family as such.

Where the Assessing Officer is not so satisfied, he may, by order, declare that such family shall be deemed for the purpose of this Act to continue to be a Hindu Undivided Family liable to be assessed as much.

In other words, if the partition takes place prior to the last date of the previous year i.e., the valuation date, then the assessment for that previous year shall be made in the hands of the members individually. On the other hand, if the partition takes place on the last date of the previous year i.e., 31st of March, then the assessment for that previous year shall be made in the hand of the HUF and not the members.

This section is applicable only when there is a complete partition by metes and bounds amongst the members of the family.

The relevant date is the date on which the partition took place and not the date of the order recognising partition.

Prior to 1.1.1979, partial partition of the HUF was recognised by the Act and the assessment in respect of the partitioned property could be made in the hands of the members. This led to creation of multiple Hindu undivided families and was used as a device for tax avoidance. To curb this practice section 20A was introduced and now if there is a partial partition after 31.12.1978, such partition shall not be recognised for tax purposes and assessment shall be done as follows:

- (i) such family shall continue to be liable to be assessed under this Act as if no such partial partition had taken place;
- (ii) each member or group of members of such family immediately before such partial partition and the family shall be jointly and severally liable for any tax, penalty, interest, fine or other sum payable under this Act by the family in respect of any period, whether before or after such partial partition;
- (iii) the several liability of any member or group of members aforesaid shall be computed according to the portion of the joint family property allotted to him or it at such partial partition.

(D) Assessment in cases of diversion of property, or of income from property, held under trust for public charitable or religious purpose [Section 21A]

Although property held under trust for any public purpose of a charitable or religious nature in India is exempt u/s 5(i) but the exemption shall be forfeited in certain cases, if there is diversion of property or income of such trust (whether derived from such property or from voluntary contribution). If the exemption is forfeited, wealth-tax shall be leviable upon and recoverable from the trustee or manager (by whatever name called) in the like manner and to the same extent as if the property was held by an individual who is a citizen of India and resident in India for the purpose of this Act.

Following are the cases where exemption u/s 5(i) will be forfeited and thus taxable u/s 21A:

- (i) Where any part of such property or any income of such trust whether derived from such property or from voluntary contributions referred to in 2(24)(iia) is used or applied, directly or indirectly for the benefit of any person referred to in section 13(3) of the Income-tax Act, or
- (ii) Where any part of the income of the trust whether derived from such property or from voluntary contribution referred to in section 2(24)(iia) of the Income Tax Act, being a trust created on or after the 1st day of April, 1962, enures, directly or indirectly, for the benefit of any person referred to in section 13(3) of the Income Tax Act, or
- (iii) Where any funds of the trust are invested or deposited, or any shares in a company are held by the trust, in contravention of the provisions of section 13(1)(d) of the Income Tax Act.

However, in the following cases exemption u/s 5(i) shall not be forfeited:

- (a) In the cases of a trust created before 1.4.1962, if, because of compliance with a mandatory term of the trust, any part of the property or income of such trust is used or applied, whether directly or indirectly for the benefit of the persons referred to in section 13(3) of the Income Tax Act.
- (b) If the property is held by a scientific research association (referred to in section 10(21) of the Income Tax Act) restriction mentioned in clause (i) and (ii) above, shall not be applicable. However, in this case, the funds of such association should not be invested/deposited in contravention of provision of section 10(21) of the Income-tax Act. Therefore, scientific research associations are subject only to restrictions mentioned in section 10(21) of the Income Tax Act regarding investment of their income or property. If such association contravenes such restrictions, the exemptions u/s 5(i) shall be forfeited and wealth-tax shall be leviable.
- (c) If the property is held by the following institutions:
 - (i) University or other educational institution 10(22); (ii) Hospitals 10(22 A); (iii) Approved charitable trust 10(238); (iv) Public charitable institutions 10(23C).

For the purpose of section 21 A, any part of the property or Income of a trust shall be deemed to have been used or applied for the benefit of any of the specified categories of person in every case in which it can be deemed to have been so used or applied within the meaning of section 13(1)(c) of the Income Tax Act at any time during the period of the twelve months ending within the relevant valuation date.

(E) Assessment when assets are held by certain Association of Persons [Section 21AA]

Association of persons, other than a company or a cooperative society or a society registered under the Society Registration Act, 1986 or any law corresponding to that Act, may be of two types:

- (a) In case where associations of persons whose individual member's share in income or assets or both in the said association are determinate or known, the value of interest of each member in the assets of the said association of persons shall be included in the individual assessment of each member. Such value shall be determined in the manner laid down in Schedule-III.
- (b) In case where association of persons whose member's individual share in the income or assets or both in the said association are indeterminate or unknown, wealth-tax shall be levied upon and recovered from such association in the like manner and to the same extent as it would be leviable and recoverable from an individual who is a citizen of India and resident in India. Further, in case of association of persons concerned under section 21AA(1) i.e. clause (b) save where any business or profession carried off by an association of persons has been discontinued or where such association of persons is dissolved, the Assessing Officer shall make an assessment of the net wealth of the association of persons as if no such discontinuance or dissolution had taken place and all the provisions of the Wealth-tax Act, including the provisions relating to the levy of penalty or any other sum chargeable under any provisions of this Act, so far as may be, shall apply to such assessment. [Section 21 AA(2)]

The following provisions are also relevant in the assessment of association of persons of the nature described in clause (b) above.

- (i) Without prejudice to the generality of the provisions of section 21AA(2), if the Assessing Officer or the Commissioner (Appeals) in the course of any proceedings under the Wealth Tax Act, in respect of any such association of persons as is referred to in section 21AA(1) is satisfied that the association of persons was guilty of any of the act specified in section 18 or section 18A, he may impose or direct the imposition of a penalty in accordance with the provisions of the said sections.
- (ii) Every person who was at the time of such discontinuance or dissolution a member of the association of persons, and the legal representative of any such person who is deceased, shall be jointly and severally liable for the amount of tax, penalty or other sum payable, and all the provisions of the Wealth Tax Act, so far as may be, shall apply to any such assessment or imposition of penalty or other sum.
- (iii) Where such discontinuance or dissolution takes place after any proceedings in respect of an assessment year have commenced, the proceedings may be continued against the persons referred to in clause (ii) above, from the stage at which the proceedings stood at the time of such discontinuance or dissolution, and all the provisions of the Wealth Tax Act, shall so far as may be, apply accordingly.

(F) Assessment of persons residing outside India [Section 22]

Where the persons liable to tax under Wealth Tax Act resides outside India, the tax may be levied upon and recovered from his agent, and he shall be deemed to be, for all the purposes of the Wealth Tax Act, the assessee in respect of such tax.

The following persons may be regarded as an agent of a person residing outside India:

- (a) A person employed by or on behalf of a person residing outside India;
- (b) A person through whom the person residing outside India is in receipt of any income/profit or gains;
- (c) A person who is in possession of, or has custody of any asset of a person residing outside India.

The Assessing Officer can choose any of the above persons as the agent of such person and shall serve a notice to the person of his intention of treating him as agent of a person residing outside India. The person on whom the notice is served, shall be deemed to be an agent of the person residing outside India. However, the Assessing Officer should give him an opportunity of being heard in this matter.

Powers of the Agent:

- (i) He shall be entitled to recover any sum paid under the Wealth Tax Act from the person on whose behalf it is paid or to retain out of any moneys that may be in his possession or come to him in his capacity as such agent, an amount equal to the sum so paid.
- (ii) If he apprehends that he may be assessed as an agent, he may retain out of any money payable by him to person residing outside India on whose behalf he is liable to pay tax, a sum equal to his estimated liability under this section, and in the event of any disagreement between the principal and such agent or person, as to the amount to be retained, such agent or person may secure from the Assessing Officer a certificate stating the amount to be so retained pending final settlement of the liability, and the certificate so obtained shall be his warrant for retaining that amount. The amount recoverable from such agent or person at the time of final settlement shall not exceed the amount specified in such certificate, except to the extent to which such agent or person may at such time have in his hands additional assets of the principal.

Any arrear of tax due from a person residing outside India may be recovered also in accordance with the provisions of Wealth Tax Act from any asset of such person which is or may at any time come within India.

Appeal, Revision and References [Section 23A to 29]

The provisions regarding appeals, revision and references under the Wealth Tax Act, are analogous to the provisions contained in the Income Tax Act. Like provisions under the Income-tax Act, the following two alternatives are available to the assessee if he is not satisfied with the order of the Assessing Officer.

- (i) Appeals: First appeal against the order of Assessing Officer shall in all cases be filed before the Commissioner (Appeals).

OR

- (ii) Revision: Alternatively, if the appeal is not preferred, or if it could not be filed within the time limit allowed, the assessee can apply to the Commissioner for revision of the order of the Assessing Officer u/s 25(1). This is known as revision in favour of the assessee. The Commissioner can also take up suo moto the case for revisions u/s 25(1).

In some cases, the Commissioner can also take up the case for revision u/s 25(2), this is known as revision of the order of the Assessing Officer which is prejudicial to. This first appeal can only be made by the assessee. The Assessing Officer cannot appeal higher authority against his own order.

The following remedy is available against the orders of the First Appellate Authority or the revision order of the Commissioner:

- (a) Second Appeals: If the assessee or the Commissioner is not satisfied with the order passed by the First Appellate Authority, the assessee can appeal against that order to the Appellate Tribunal. Similarly, the Commissioner may also direct the Assessing Officer to file an appeal against that order with the Appellate Authority.
- (b) Appeal against revision: If the revision of the order of Assessing Officer is done u/s 25(1), by the Commissioner which is revision in favour of the assessee, no further remedy is available to the assessee. However, writ under article 226/227 is possible. On the other hand, if the revision order is passed u/s 25(2), by the Commissioner which is known as revision of orders prejudicial to the revenue, the assessee can file an appeal with the Appellate Authority.

If the assessee or the Commissioner is not satisfied with the order of Tribunal, the appeal will now lie direct to High Court, if the High Court is satisfied that the case involves a substantial question of law. With the constitution of the National Tax Tribunal, the appeal shall now lie to the National Tax Tribunal instead of the High Court.

If the assessee or the CIT is not satisfied with the order passed by the High Court/ National Tax Tribunal, as the case may be, they may file an appeal against such order to the Supreme Court. Where the appeal is filed against the order of the High Court the appeal to the Supreme Court can be filed only when it is treated as a fit case by the High Court. There is no such requirement where the appeal is filed against the decision or order of the National Tax Tribunal.

First appeal:

Any assessee aggrieved by any of the following order of an Assessing Officer may appeal to the Commissioner (Appeals) against such order—

- (a) objecting to the amount of net wealth determined under Wealth Tax Act; or
- (b) objecting to the amount of wealth tax determined as payable by him under Wealth Tax Act; or
- (c) denying his liability to be assessed under Wealth Tax Act; or
- (d) objecting to any penalty imposed by the Assessing Officer u/s 18;
- (e) objecting to any order of the Assessing Officer, u/s 20(2) referring to non-acceptance of the partition of HUF;
- (f) objecting to any penalty imposed by the Assessing Officer under the provisions of section 221 of the

Income Tax Act as applied u/s 32 for the purpose of wealth-tax; (it related to penalty payable by assessee in default); or

- (g) objecting to any order of the Assessing Officer u/s 22 treating him as the agent of a person residing outside India; or
- (h) objecting to any order of the Assessing Officer u/s 35 (rectification of mistake) having the effect of enhancing the assessment or reducing a refund; or refusing to allow the claim made by the assessee under the said section; or
- (i) objecting to any order of the Valuation Officer u/s 35 having the effect of enhancing the valuation of any asset or refusing to allow the claim made by the assessee under the said section;
- (j) objecting to any penalty imposed by the Joint Director or Joint Commissioner u/s 18A.

Following is the procedure for filing appeal u/s 23A (3):

- (1) The appeal is to be filed in Form E, verified in the prescribed manner and it should be accompanied by a fee of ₹250.
- (2) The appeal should be filed within a period of 30 days of the date of service of notice of demand relating to assessment or penalty or the day on which any other order objected to is communicated.
- (3) The Appellate Authority may admit an appeal after the expiration of the prescribed period, if he is satisfied that the appellant had sufficient cause for not presenting it within that period.
- (4) Where a return has been filed by an assessee, no appeal under this section shall be admitted unless at the time of filing of the appeal he has paid the tax due on the net wealth returned by him.
- (5) Appeal is required to be made in duplicate. The memorandum of appeal statement of facts and the grounds of appeal should be accompanied by a copy of the order appealed against and notice of demand in original, if any.
- (6) Such memorandum of appeal, the grounds of appeal and the verification shall be signed by the person who is authorised to sign the return of net wealth as provided in section 15A of the Wealth Tax Act, 1957.

Procedure in hearing appeal [Section 23A(5), (6), (7), (8), (8A), (9), (9A), (10), (11)]:

- (i) The Commissioner (Appeals) shall fix a day and place for the hearing of the appeal and shall give notice of the same to the appellant and to the Assessing Officer against whose order the appeal is preferred.
- (ii) The following persons shall have a right of being heard at the hearing of the appeal:
 - (a) the appellant, either in person or through authorised representative.
 - (b) the Assessing Officer, either in person or through a representative.
 - (c) the Valuation Officer, where the valuation made by him under section 16A has been objected by the assessee.
 - (d) the Valuation Officer in any other case on the request being made in this behalf by the Assessing Officer.
- (iii) The relevant Appellate Authority shall have the power to adjourn the hearing of the appeal from time to time.
- (iv) The relevant Appellate Authority may, before disposing of any appeal, make such further inquiry as he thinks fit and may direct the Assessing Officer to do so and report the same.
- (v) The relevant Appellate Authority may, at the hearing of the appeal, allow the appellant to go into any ground of appeal not specified in the grounds of appeal, if he is satisfied that omission of such ground of appeal was not willful or unreasonable.

- (vi) In disposing of an appeal, the Commissioner (Appeals) may consider and decide any matter arising out of the proceedings in which the order appealed against was passed notwithstanding the same matter was not placed before the Commissioner (Appeals) by the appellant.
- (vii) In disposing of an appeal, the Commissioner (Appeals) may pass such order as he thinks fit which may include an order enhancing the assessment or penalty. However, no order enhancing the assessment or penalty shall be made unless the person affected thereby has been given a reasonable opportunity of showing cause against such enhancement.
- (viii) In disposing of an appeal against the order of assessment in respect of which the proceeding before the Settlement Commission abates under section 22HA, he may, after taking into consideration all the material and other information produced by the assessee before, or the results of the inquiry held or evidence recorded, by the Settlement Commission, in the course of the proceedings before it and such other material as may be brought on his record, confirm, reduce, enhance or annul the assessment [inserted by the Finance Act, 2008, w.e.f. 1.4.2008].
- (ix) The order of the relevant appellate authority disposing of the appeal shall be in writing and shall state the points for determination, the decision thereon and the reason for the decision.
- (x) The order passed by the Appellate Authority shall be communicated to the assessee and the Chief Commissioner/Commissioner.
- (xi) The Commissioner (Appeals), where it is possible, may hear and decide such appeal within a period of one year from the end of the financial year in which such appeal is filed.

Appeal to Appellate Tribunal [Sections 24 and 26]:

- (A) Any assessee may file an appeal before the Wealth Tax Appellate Tribunal against the following orders:
 - (a) an order passed by the Commissioner (Appeals), in the following cases:
 - (i) an order under section 23A i.e., order passed by the First Appellate Authority on the appeal filed before it.
 - (ii) an order of the First Appellate Authority imposing penalty u/s 18 and 18A.
 - (iii) an order u/s 35 regarding rectification of mistakes in an order passed by the First Appellate Authority, if the rectification has not been satisfactorily done by the Appellate Authority.
 - (b) an order passed by Chief Commissioner/Commissioner in the following cases:
 - (i) an order passed by a Commissioner under section 25(2); or
 - (ii) order passed by a Chief Commissioner, Director General or Director u/s 18 and 18A imposing penalty; or
 - (iii) order passed under section 35 amending his order under section 25(2) and 18 or 18A.
- (B) The Commissioner may also, if he objects to any order passed by Commissioner (Appeals) u/s 23A, direct the Assessing Officer to appeal to the Appellate Tribunal against the order.

The rectification of an error by the First Appellate Authority is not an independent exercise of power, but it only impinge on the exercise of the appellate jurisdiction and gets fused into the original appellate order. Where the First Appellate Authority rectified his order u/s 35(8), it exercises the power conferred on him u/s 23. The rectified order comes u/s 23 and an appeal to the Tribunal is competent from such order. (George Paul Puthuran vs. CWT (1990) 181 ITR 438, 442 (Ker)).

Procedure for appeal to Appellate Tribunal:

- (1) The appeal to the Appellate Tribunal shall be filed within 60 days of the date on which the order sought to be appealed against, is communicated to the assessee or to the CWT, as the case may be [Section 24(1), (2)].

- (2) The Assessing Officer or the assessee, as the case may be, on receipt of notice that an appeal against the order of Commissioner (Appeals) has been filed by the other party, may, notwithstanding that he has not appealed against such order or any part thereof, file memorandum of cross objections with the Appellate Tribunal. The memorandum of cross objections shall be in the prescribed form and shall be disposed of by the Appellate Tribunal as if it were an appeal before it. The memorandum of cross objections has to be filed within 30 days of the receipt of above said notice. [Section 24(2A)].
- (3) The Appellate Tribunal may admit an appeal or permit the filing of a memorandum of cross objections after the expiry of 60 or 30 days, if it is satisfied that there was sufficient cause for not presenting it within the specified period. [Section 24(3)].
- (4) The appeal to the Appellate Tribunal shall be in Form No. F and memorandum of cross objection in Form No. G. The appeal and memorandum etc. are to be filed in triplicate and shall be accompanied by two copies of the order appealed against and two copies of the order of the Assessing Officer. Two copies of the grounds of appeal and statement of facts before the first appellate authority are also to be filed. [Section 24(4) and Rule 6].
- (5) An appeal to the Appellate Tribunal shall be in the prescribed form and shall be accompanied by a fee of ₹1,000. Where the appeal is not relatable to the net Wealth as computed by the Assessing Officer, the appeal shall be accompanied by a fee of ₹500.

However, no such fee shall be payable in case:

- (i) the appeal is filed by the Commissioner; or
- (ii) where the memorandum of cross objection is filed [Section 24(4)].

Order of Appellate Tribunal [Section 24(5)]:

The Appellate Tribunal may, after giving both parties to the appeal an opportunity of being heard, pass such orders thereon as it thinks fit and any such orders may include an order enhancing the assessment or penalty:

Provided that if the valuation of any asset is objected to, the Appellate Tribunal shall—

- (a) in case where such valuation has been made by a Valuation Officer under section 16A, also give such Valuation Officer an opportunity of being heard;
- (b) in any other case, on a request being made in this behalf by the Assessing Officer, give an opportunity of being heard also to any Valuation Officer nominated for the purpose by the Assessing Officer.

Provided further that no order enhancing an assessment or penalty shall be made unless the person affected thereby has been given a reasonable opportunity of showing cause against such enhancement.

In every appeal, the Appellate Tribunal, where it is possible, may hear and decide such appeal within a period of four years from the end of the financial year in which such appeal is filed under sub-section (1). [Section 24(5A)].

The cost of any appeal to the Appellate Tribunal shall be at the discretion of that Tribunal. [Section 24(5B)].

A copy of every order passed by the Appellate Tribunal under this section shall be forwarded to the assessee and the Commissioner. [Section 24(9)].

Save as provided in section 27 and 27(A), any order passed by the Appellate Tribunal on appeal shall be final [Section 24(10)].

Remedy against the order of Appellate Tribunal

- (A) Remedy in respect of order passed by the Appellate Tribunal before the establishment of National Tax Tribunal.

- (B) Remedy in respect of order passed by the Appellate Tribunal after the establishment of National Tax Tribunal.

Direct appeal to High Court [Section 27A]: An appeal shall lie to the High Court for every order passed in appeal by the Appellate Tribunal on or after 1.10.1998 but before the establishment of the National Tax Tribunal, if the High Court is satisfied that the case involves a substantial question of law.

Procedure for filing an appeal

- (1) The appeal should be filed within 120 days from the date on which the order appealed against is communicated to the appellant.
- (2) It should be accompanied by a fee prescribed under the provisions of Code of Civil Procedure 1908 relating to appeal to High Court.
- (3) The memorandum of appeal should precisely state the substantial question of law involved.
- (4) The High Court may determine any issue which:—
 - (a) has not been determined by the Appellate Tribunal; or
 - (b) has been wrongly determined by the Appellate Tribunal on such substantial question of law.
- (5) When an appeal has been filed before the High Court under section 27A, it shall be heard by a bench of not less than two judges of the High Court, and shall be decided in accordance with the opinion of such Judges or of the majority, if any, of such judges. Where there is no such majority, the Judges shall state the point of law upon which they differ and the case shall then be heard upon that point only by one or more of the other judges of the High Court and such point shall be decided according to the opinion of the majority of the Judges who have heard the case including those who first heard it [Section 28].

Where the High Court delivers a judgment in an appeal filed before it under section 27A, effect shall be given to the order passed on the appeal, by the Assessing Officer, on the basis of a certified copy of judgment.

Where judgment is passed by the High Court on or reference by Appellate Tribunal under section 27, a copy of the judgment shall be sent to the Appellate Tribunal which shall pass such orders as are necessary to dispose of the case in conformity to such judgment.

Appeal to the Supreme Court [Section 29]:

The assessee or the Commissioner may prefer an appeal to the Supreme Court from any judgment of the High Court delivered on a reference made u/s 27 or on appeal made under section 27A to the High Court or the National Tax Tribunal as the case may be. The appeal against the order of the High Court will lie to the Supreme Court only if the High Court certifies the case to be fit case for appeal to the Supreme Court. Thus, this certificate of fitness is a must for preferring an appeal to the Supreme Court. If, however, the High Court decides not to give such a certificate, then the aggrieved party may make an application to the Supreme Court under Article 136 of the Constitution for Special Leave to Appeal against the decision of the judgment. There is no such requirement where the appeal is filed against the decision or order of the National Tax Tribunal.

The Supreme Court upon hearing any such case shall decide the question of law raised therein and shall deliver its judgment thereon containing the grounds on which such decision is founded. A copy of the judgment shall be sent to the Appellate Tribunal, Assessing Officer as the case may be which shall pass such order as are necessary to dispose off the case in conformity to such judgment.

Revision by the Commissioner:

According to section 25(1), revision of orders not covered by section 25(2), can be made by the Commissioner either on his own motion or on an application made by the assessee, provided orders have been passed by an authority subordinate to him. The application made by the assessee shall be

accompanied by a fee of ₹25. The Commissioner may call for the record of any proceeding under this Act on the basis of which such order has been passed and may make such inquiry or cause such inquiry to be made. He may pass such orders thereon as he thinks fit as are not prejudicial to the assessee.

In the following cases the Commissioner shall not revise any order under this section:

- (a) where the order has been made more than one year previously, the Commissioner shall not, on his own motion, revise such an order; or
- (b) where the application for revision by the assessee has been made after one year from the date on which the order in question was communicated to him; or
- (c) where an appeal against the order lies to the Commissioner (Appeals) or the Appellate Tribunal but it has not been made and the time within which such appeal may be made has not expired; or
- (d) where in the case of an appeal to the Commissioner (Appeals)/Appellate Tribunal, the assessee has not waived his right to appeal; or
- (e) where the order is pending on an appeal before the Deputy Commissioner (Appeal); or
- (f) where the order has been made the subject of an appeal to the Commissioner (Appeals) or to the Appellate Tribunal.

According to section 25(2), the Commissioner may call for and examine the record of any proceedings under the Act, if he considers that any order passed therein by the Assessing Officer is erroneous in so far as it is prejudicial to the interests of the revenue. He may pass such order thereon as the circumstances of the case justify.

He may pass an order enhancing or modifying the assessment or cancelling the assessment and directing a fresh assessment. However, he has to pass such order only after giving the assessee an opportunity of being heard and after making or causing to be made such enquiry as he deems necessary.

Therefore, the Commissioner can revise the order passed by the Assessing Officer only if he considers that the order passed is prejudicial to the interests of the revenue.

The Commissioner cannot revise the order of the Assessing Officer after the expiry of 2 years from the end of the financial year in which the order sought to be revised was passed.

However, an order of revision may be passed at any time in the case of an order which has been passed in consequence of, or to give effect to, any finding or direction contained in an order of the Appellate Tribunal, the High Court or the Supreme Court.

According to section 18C, where an assessee claims that any question of law arising in his case for an assessment year which is pending before the Assessing Officer or any Appellate Authority, is identical with a question of law arising in his case for another assessment year which is pending in an appeal, before the High Court or Supreme Court, he may furnish to the Assessing Officer or the Appellate Authority, as the case may be, a declaration on prescribed form, that if the Assessing Officer or the Appellate Authority, as the case may be, agree to apply to the relevant case the final decision on the question of law in the other case, he shall not raise such question of law in the relevant case in appeal.

Where such declaration is furnished to any Appellate Authority, it shall call for a report from the Assessing Officer on the correctness of the claim made by the assessee. Where the Assessing Officer makes request to the Appellate Authority to give him an opportunity of being heard in the matter, it shall allow him such opportunity.

The Assessing Officer or the Appellate Authority, as the case may be, may by an order in writing admit the claim of the assessee if he or it is satisfied that the question of law arising in the relevant case is identical with the question of law in the other case; or reject the claim if not satisfied. Any such order shall be final and shall not be called in question in any proceeding by way of appeal, reference or revision under this Act.

Where a claim is admitted, the Assessing Officer or the Appellate authority, as the case may be, may make an order disposing of the relevant case without awaiting the final decision on the question of law in the other case. The assessee shall not be entitled to raise in relation to the relevant case, such question of law in appeal before any Appellate Authority or Court.

When the decision on the question of law in the other case becomes final, it shall be applied in the relevant case and the Assessing Officer or the Appellate Authority, as the case may be, shall, if necessary, amend the order passed as above in the relevant case confirming to such decisions.

Reference to Valuation Officer [Section 16A]:

As already discussed, the valuation of an asset is done as per the provisions of Section 7 and Schedule-III of the Wealth Tax Act. Where, as per these provisions, the valuation is to be taken as the market value of the asset, the Assessing Officer, for the purpose of making an assessment, may refer the valuation of such asset to a Valuation Officer. Reference to Valuation Officer can be made in the following cases:

- (i) In case where the value of the asset, as returned by assessee, is in accordance with the estimate made by a registered valuer, the Assessing Officer may refer the case to the valuation officer if he is of the opinion that the value declared in the return is less than its fair market value.
- (ii) In any other case the Assessing Officer may refer the valuation of the asset under the following circumstances:
 - (a) The Assessing Officer is of opinion that the fair market value of the asset exceeds the value of the asset as declared by the assessee in his return, by more than 33 1/3% of the value declared in the return or by `50,000 [Rule 3B].
 - (b) That having regard to the nature of the asset and other relevant circumstances it is necessary to do so.

For the purpose of estimating the value of such asset, the Valuation Officer may serve upon the assessee a notice requiring him to produce or cause to be produced, on a date specified, such accounts, records or other documents as the Valuation Officer may require:

- (a) If the Valuation Officer is of the opinion that the value of the asset has been correctly declared in the return filed by the assessee, he shall pass an order in writing to that effect and send a copy of his order to the Assessing Officer and to the assessee.
- (b) In case where the Valuation Officer is of the opinion that the value of the asset is higher than the value declared in the return, the Valuation Officer shall serve a notice on the assessee intimating the value which he proposes to estimate. He will also give the assessee an opportunity to state his objections to such valuation and produce evidence in support of his objections, if the assessee so desires, either in person or in writing before the Valuation Officer, on a date specified in the notice. The same procedure is to be followed where no value of the asset is declared in the return or the asset is not disclosed or where no such return has been made.

After hearing the objections and taking into consideration the evidence produced, if any, by the assessee and the explanations given by him and taking into account all material which the Valuation Officer has gathered, the Valuation Officer shall by order in writing, estimate the value of the asset and send a copy of his order to Assessing Officer and to the assessee.

The Assessing Officer, on receipt of the order of valuation passed under clause (a) or (b) above, shall as far as valuation of the assets in question is concerned, proceed to complete the assessment in conformity with the estimate of the Valuation Officer as such valuation report is binding on Assessing Officer.

ILLUSTRATIONS ON WEALTH TAX

Illustration 1 :

ALtd is engaged in the construction of residential flats. For the valuation date 31.3.2014, it furnishes the following data and requests you to compute the taxable wealth -

- (a) Land in urban area (Construction is not permitted as per Municipal Laws in force) ₹ 55,00,000
- (b) Motor-cars (used on hire by the company) ₹ 10,00,000
- (c) Jewellery (Investment) ₹ 25,00,000. Loan taken for purchasing the same ₹ 20,00,000
- (d) Cash Balance (as per books) ₹ 2,75,000
- (e) Bank Balances ₹ 5,50,000
- (f) Guest House (situated in a place which is 30 Kms away from the local limits of the municipality) ₹ 10,00,000
- (g) Residential flats occupied by the Managing Director ₹ 15,00,000. The Managing Director is on whole time appointment and is drawing remuneration of ₹ 2,00,000 per month.
- (h) Residential house were let out on hire for 200 days ₹ 10,00,000

Solution :**Assessee: A Ltd.****Valuation Date: 31.03.2014****Assessment Year : 2014-15****Computation of Taxable Wealth**

Nature of asset	₹	Reason
Land in Urban Area	NIL	Land in which construction is not permitted as per municipal law is not an asset u/s 2(ea)
Motor Cars	NIL	Motor cars used in business of hire is not an asset u/s 2(ea)

Less: Exempt u/s 5(vi)	(20,00,000)		plot less than 500 sq.mts.
Cash in hand		Nil	Since not exceeding ₹ 50,000
Urban Land Purchased	15,00,000	Nil	Purchased out of money brought into
Less: Exempt u/s 5(v)	(15,00,000)		India
NET WEALTH		52,50,000	
Less : Basic Exemption		30,00,000	
Net Taxable Wealth		22,50,000	
Tax Payable @ 1%		22,500	

(1) Working Notes: Valuation of Building :

Net Maintainable Rent(NMR) = ₹1,00,000

Capitalized Value of NMR=NMR×12.5 (Owner of the land) = ₹ 1,00,000 × 12.5 = ₹12,50,000

Add : Premium for excess of unbuilt area (20%) over specified area = 40% of CNMR = ₹ 5,00,000

VALUE OF THE HOUSE ₹17,50,000

Illustration 9. Mr. Kushal Sengupta owns a house at Jharkhand, which is let-out at ₹1,35,000 per annum. The annual value of the property as per municipal records also is ₹1,00,000. Municipal taxes are partly borne by the owner (₹5,000) and partly by the tenant (₹6,000). Repair expenses are borne by tenant (₹10,000) the difference between the un-built area and specified area does not exceed 5%. The property was acquired on 10.5.1999 for ₹ 15,00,000.

Determine for purposes of Wealth Tax Act, the value of the property as on 31.3.2014 on the following situations — (a) The house is built on a freehold land.

(b) It is built on a leasehold land, the unexpired period of lease of the land is more than 50 years.

(c) If the area of the plot on which the house is built is 800 sq. meters. FSI, permissible is 1.4 and FSI utilised is 1088 Sq. metres. (136 Sq. metres × 8 Storeys)

Solution :

Assessee : Mr. Kushal Sengupta

Valuation Date : 31.3.2014

Assessment Year : 2014-15

For Situations (a) & (b):

Computation of Value of House Property

Computation of Gross Maintainable Rent (Amount in ₹)

Particulars	No Rental Deposit	Rental Deposit excess of 3 Mths
Actual Annual Rent	1,35,000	1,35,000
Add: Municipal Taxes borne by the tenant	6,000	6,000
1/9 th of Actual Rent Receivable since repair expenses are borne by the tenant (₹1,35,000/ 9)	15,000	15,000
Rental Deposits - 15% Interest on ₹ 1,00,000	Nil	15,000
GROSS MAINTAINABLE RENT	1,56,000	1,71,000
Less: Municipal Taxes Paid	11,000	11,000
Less: 15% of Gross Maintainable Rent	23,400	25,650
Net Maintainable Rent	1,21,600	1,39,350
Case (a) Capitalization of Net Maintainable Rent -Freehold Land NMR x 12.5	15,20,000	16,79,375
Case (b) Capitalization of Net Maintainable Rent -Leasehold Land - Unexpired Lease 50 Years = NMR×10	12,16,000 15,00,000	13,43,500 15,00,000
Property Acquired after 31.3.1974 i.e. 10.5.1999	15,00,000	15,00,000
Therefore, Value of the Property (whether on Lease-hold Land or on Freehold Land)		

**For Situation (c) : In case of excess unbuilt area :**

Unbuilt Area = (Actual Area of the Land **less** Built up Area) = (800 sq. mt **less** 136 sq. mt). = 664 sq. mt.

Excess Unbuilt Area = (Unbuilt Area **less** Specified Area) = 664 sq. mt. **less** 70% of 800 sq. mt. = 664 Less 560 = 104 sq. mt

% of Excess Unbuilt Area = **Excess Unbuilt Area** × **100/Aggregate Area** = 104 × 100/800 = 13%

Therefore, Value of the Property = Substituted Net Maintainable Rent i.e. ₹15,00,000 + 30% of SNMR = ₹19,50,000

Illustration 10. From the following dated furnished by Mr.Soumitra, determine the value of house property built on leasehold land as at the valuation date 31.3.2014 :

Particulars	₹
Annual Value as per Municipal valuation	1,40,000
Rent received from tenant (Property vacant for 3 months during the year)	1,08,000
Municipal tax paid by tenant	10,000
Repairs on property borne by tenant	8,000
Refundable deposit collected from tenant as security deposit which does not carry any interest	50,000
The difference between unbuilt area and specified area over aggregate area is 10.5%.	

Solution :**Assessee: Mr. Soumitra****Valuation Date: 31.3.2014****Assessment Year: 2014-15****Computation of Value of House Property****Step I: Computation of Gross Maintainable Rent (GMR)**

Particulars	₹	₹
Actual Annual Rent- ₹ 1,08,000 x 12 Months/9 Months		1,44,000
Add: Municipal tax paid by the Tenant	10,000	
1/9 th of Actual Rent Receivable as repair expenses are borne by the tenant - ₹ 1,44,000/9	16,000	
Interest on Refundable Security Deposit- ₹ 50,000 x 15% x 9/12	5,625	31,625
GROSS MAINTAINABLE RENT (GMR)		17,05,625

Step II: Computation of Net Maintainable Rent (NMR)

Particulars	₹	₹
Gross Maintainable Rent (GMR)		1,76,000
Less: Municipal Taxes levied by the local authority	10,000	
15% of Gross Maintainable Rent - ₹ 1,75,625 x 15%	26,399	(36,399)
NET MAINTAINABLE RENT (NMR)		1,39,281

Step III: Capitalisation of the Net Maintainable Rent (CNMR) (Assumed that unexpired lease period is more than 50 Years)

NMR × Multiple Factor for an Unexpired Lease Period - ₹ 1,39,281 × 10 = ₹ 13,92,810

Step IV: Addition of Premium to SNMR in case of excess inbuilt area:

Particulars	₹
Add: Capitalisation of the Net Maintainable Asset	13,92,810
Premium for excess of 10.5% unbuilt area over specified area-30% of CNMR	4,17,843
Value of House Property as per Wealth Tax Act	18,10,653

Illustration 11. Property Company Ltd. has let-out a premise with effect from 1.10.2013 for monthly rent of ₹1.5 lakh. The lease is valid for 10 years and the tenant has made a deposit equivalent to 3 months rent. The tenant has undertaken to pay the municipal taxes of the premises amounting to ₹2 lakh. What will be the value of the property under Schedule III of the Wealth Tax Act for assessment to wealth tax?

Solution :**Assessee: Property Company Ltd. Valuation Date: 31.3.2014****Assessment Year : 2014-15****Computation of Value of Let-out Property**

Actual Annual Rent Receivable - ₹ 1,50,000 × 12 Months	18,00,000
Add: Municipal Taxes borne by the Tenant	2,00,000
GROSS MAINTAINABLE RENT	20,00,000
Less: Municipal Taxes levied by the Municipal Authority	2,00,000
Less: 15% of Gross Maintainable Rent ₹ 20,00,000 × 15%)	3,00,000
NET MAINTAINABLE RENT	15,00,000

Value of the Property = Capitalized Value of NMR

NMR × 8 (unexpired period of lease is less than 50 years) = ₹ 15,00,000 × 8 = ₹ 1,20,00,000

VALUATION OF PARTNER'S INTEREST IN FIRM

Illustration 12. Net wealth of firm consisting of three partners Bidyut, Kingshuk and Deepak in 2:2:1 and a capital contribution of ₹17 Lakhs, ₹13 Lakhs, and ₹12 Lakhs respectively is as under -

(a) Value of assets located outside India	₹ 30,00,000
(b) Value of assets located in India	₹ 80,00,000
(c) Debts incurred in relation to assets in India	₹ 40,00,000

Determine the value of interest of the partners in the firm under the Wealth Tax Act, 1957.

Solution :**Assesses : Bidyut, Kingshuk & Deepak Valuation Date : 31.3.2014****Assessment Year: 2014-15****Computation of net wealth of the Firm**

Particulars	₹	₹
Value of Assets located in India	80,00,000	
Less: Liability in relation to assets in India	40,00,000	40,00,000
Value of Assets located outside India		30,00,000
Net Wealth of the Firm		70,00,000

Solution :

Computation of Interest of the Partner in the net wealth of the Firm

(Amount in ₹)

Particulars	Bidyut	Kingshuk	Deepak
To the extent of Capital Contribution	17,00,000	13,00,000	12,00,000
Balance (Net Wealth-Capital Contribution) in Profit sharing ratio since dissolution ratio is not given	11,20,000	11,20,000	5,60,000
Interest of the Partner in the Net Wealth of the Firm	28,20,000	24,20,000	17,60,000

Computation of the Interest of the Partner in the net wealth of the Firm on the basis of location of assets:
(Interest of the Partner in the Firm **apportioned** in the ratio of **4:3**)

Particulars	Balu	Kausik	Deepu
Assets Located Inside India	16,11,429	13,82,857	10,05,714
Assets Located Outside India	12,08,571	10,37,143	7,54,286
Interest of the Partner in the Net Wealth of the Firm	28,20,000	24,20,000	17,60,000

Illustration 13. A, B and C are three partners of a firm engaged in manufacturing activities, sharing profits and loss in the ratio of 2 : 2 : 1. The following is the Balance Sheet of the firm as on 31.3.2014:

Liabilities	Book Value	Assets	Book Value	Value as per Schedule III to Wealth Tax Act
Capital:		Land (700 sq. mt.) situated in a rural area	10,80,000	—
A	18,00,000	Urban land (1500 sq. mt.)	25,20,000	35,00,000
B	24,00,000	Motor cars (WDV ₹78,00,000)	10,80,000	5,00,000
C	24,00,000	Plant & Machinery (WDV ₹16 Lakh)	21,60,000	—
Loan against security of urban land for working capital	27,60,000	Office Building (WDV ₹ 36 Lakh)	40,80,000	—
Loan for payment of ex-cise duty	2,40,000	Residential House (WDV ₹4 Lakh)	9,60,000	25,00,000
Loan for purchasing residential house	8,40,000	Gold Bars	14,40,000	68,20,000
Loan for acquiring gold Bars	4,80,000	Cash in hand	16,80,000	—
Loan for purchasing rural land	6,00,000	Sundry Debtors	10,80,000	—
Provision for income tax	9,60,000	Advance tax for the Assessment Year 2013-14	4,80,000	—
Sundry Creditors	40,80,000		1,65,60,000	
	1,65,60,000			

Residential house is provided rent free to a factory manager whose gross salary is ₹11 lakh per annum.

Value of personal assets (as per Schedule III) and amount of "debt owed" by A, B & C on 31.3.2014 are as follows:

Assets	A ₹	B ₹	C ₹
Residential house	—	1,40,000	16,00,000
Car	2,90,000	—	1,90,000
Gold	25,00,000	16,00,000	12,00,000
Cash in hand	1,00,000	50,000	40,000
Debts			
Loan taken to purchase car	2,00,000	—	1,10,000
Loan taken on security of gold for investing in firm	14,00,000	5,00,000	—
Loan taken on personal security for purchasing residential house	50,000	80,000	

Find out the net wealth of A, B and C for the Assessment Year 2014-15.

Solution:

Computation of Net Wealth of Firm

Particulars	₹
Land situated in rural area (not an "asset")	—
Urban Land	
Book value ₹25,20,000 Schedule III value ₹35,00,000	
₹35,00,000 > ₹25,20,000 + 20% of ₹25,20,000	
Hence Schedule III value is to be taken	35,00,000
Motor car	
WDV ₹7,00,000 Schedule III value ₹5,00,000 does not exceed ₹7,00,000 + 20% of ₹7,00,000	
Hence, WDV is to be taken	7,00,000
Plant and Machinery (not an asset)	—
Office Building (not an asset)	—
Residential house given by firm to factory manager is an asset	
WDV ₹4,00,000 Schedule III value ₹25,00,000 exceeds the ₹4,00,000 + 20% of ₹4,00,000.	
Hence Schedule III value is taken	25,00,000
Gold Bars [Schedule III valuation is taken as it is higher than book value + 20% i.e. ₹17,28,000 (₹14,40,000 + 2,88,000)]	68,20,000
Cash in hand (not an "asset" as recorded in books)	—
Sundry debtors (not an "asset")	—
Advance tax (not a asset)	—
Gross wealth	1,35,20,000
Less: Debt owed	
Loan for purchase of gold	4,80,000
Loan for purchasing residential house	8,40,000
Net Wealth of the firm	1,22,00,000

Allocation of the Net Wealth among the Partners

Particulars	A ₹	B ₹	C ₹
Net wealth to the extent of capital	18,00,000	24,00,000	24,00,000
Remaining net wealth (i.e. ₹56,00,000) in the ratio of 2 : 2 : 1	22,40,000	22,40,000	11,20,000
	40,40,000	46,40,000	35,20,000
Share of partners in the net wealth of firm [out of which residential house, i.e. ₹16,60,000 to be distributed in the ratio of 2:2:1]	(6,64,000)	(6,64,000)	(3,32,000)

Net Wealth of Partners

Particulars	A ₹	B ₹	C ₹
Personal residential house	—	1,40,000	16,00,000
Car	2,90,000	—	1,90,000
Gold	25,00,000	16,00,000	12,00,000
Cash in hand	50,000	—	—
Value of interest in firm (excluding residential house)	33,76,000	39,76,000	31,88,000
Share in the residential house of the firm	6,64,000	6,64,000	3,32,000
Total	68,80,000	63,80,000	65,10,000
Less: Exemption under section 5(vi) in respect of one residential house property	6,64,000	6,64,000	16,00,000
Gross wealth	62,16,000	57,16,000	49,10,000
Less: Debt owed			
Loan for purchasing car	2,00,000	—	1,10,000
Loan for investing in firm	14,00,000	5,00,000	—
Loan for purchasing personal residential house	—	50,000	—
Net Wealth	46,16,000	51,66,000	48,00,000

VALUATION OF LIFE INTEREST

Illustration 14. Satender is aged 25 years. His father settled a property in trust giving whole life interest therein to Satender. The income from the property for the years 2010-11 to 2013-14 was ₹ 70,000, ₹ 84,000, ₹ 90,000, ₹ 108,000, respectively. The expenses incurred each year were ₹ 2,000, ₹ 4,000, ₹ 5,000 and ₹ 6,000 respectively. Calculate the value of life interest of Mr. Jogi in the property so settled on the valuation date 31.3.2014, with the help of the factor of 9.267.

Step	Procedure
1	Average Income for last three years = (₹ 84,000 + ₹ 90,000 + ₹ 1,08,000) / 3 = ₹ 94,000.
2	Average Expenses for the last three years = (₹ 4,000 + ₹ 5,000 + ₹ 6,000) / 3 = ₹ 5,000.
3	Maximum Permissible Expenses = Average Expenses or 5% of Average Income, whichever is less = 5% of ₹ 94,000 = ₹ 4,700
4	Average Annual Income = ₹ 94,000 Less ₹ 4,700 = ₹ 89,300.
5	Life Interest = Average Annual Income × Life Interest Factor = ₹ 89,300 × 9.267 = ₹ 8,27,543.

Illustration 15. 'X' received a vacant site under his father's will. The value of the site on 31.3.2013 is ₹15 Lakhs. As per terms of the 'Will' in the event 'X' wants to sell the site he should offer it to his brother for sale at ₹10 Lakhs. 'X', therefore, claims that the value of the site should be taken at ₹10 Lakhs as at 31.3.2014. Is the claim correct?

Solution :

- As per Rule 21 of Schedule III to the Act, the **price or other consideration for which** any property may be **acquired by or transferred to any person under the terms of a deed of trust** or through or under any restrictive agreement in any instrument of transfer **shall be ignored** for the purpose of determining the value under the provisions of the Schedule.
- In view of the above, the value of the site should be taken as ₹ 15 Lakhs and not as ₹ 10 Lakhs.
- Therefore, **claim of X is incorrect.**

Illustration 16. An assessee took a loan of ₹18 lakh for the purchase of a house property. But the value of the house property as per Schedule III was ₹14.75 lakh only. For A.Y. 2014-15, will the assessee get deduction under section 2(m) for ₹18 lakh or for ₹14.75 lakh only?

Solution: The full value of the debt at ₹18 lakh will be deductible. Deducibility of the debt is not restricted to the value of the asset forming part of the net wealth.

Illustration 17. After having obtained a report from the Valuation Officer under section 16A(1) of the Wealth-tax Act, whether the Wealth-tax Officer can proceed to complete the assessment without considering the said valuation report?

Solution: No. The Wealth-tax Officer has no option except to proceed to complete the assessment in conformity with the value proposed by the Valuation Officer in so far as the valuation of the assets is done by the Valuation Officer [CWT vs. Dr. H. Rehman (1996) 217 ITR 107 (All.)].

Illustration 18. Mr. Roy has vast open land in front of his house. He claims that the entire property has to be valued on the basis of municipal tax he is paying for the property including the land. Is he right?

Solution: No. Appurtenant land has to be taken along with the building and the surplus land valued separately [Shantilal Popatlal's case (1997) 225 ITR 242 (Guj.)].

Illustration 19. Can a trust which does not qualify for exemption u/s 11 of the Income Tax Act qualify for exemption from wealth tax under section 5(1)(i) of the Wealth Tax Act, 1957?

Solution: It is possible that a trust which does not satisfy the conditions u/s 11 either because it has not been registered or its objects were vitiated by business could be eligible for exemption under Wealth

Tax Act because what is required is that the trust should have been formed for charitable purposes. Where the primary and predominant object is charitable, exemption will follow [CWT vs. Attur Thuluva Vellalara Sangam (2000) 243 ITR 778 (Mad.)].

Illustration 20. Where the property is grossly under-valued, is penalty leviable, when the property itself was disposed and is it possible to reassess wealth for undervalued property with reference to Valuation Officer?

Solution: Explanation 4 to section 18(1) of Wealth Tax Act would presume concealment, where there is under-valuation beyond the tolerance limit of 30%. It does not mean that penalty is leviable in every case of such difference, unless the difference arises on account of deliberate understatement [CWT vs. Mrs. Vidya Malhotra (2000) 246 ITR 524 (Del.)].

Valuation Report being only an opinion, where the property itself has been disclosed by the assessee, valuation report cannot be a basis for reassessment for wealth tax [Bhagwandas Jain vs. Dy. CIT (2000) 246 ITR 632 (MP)]. The law in this regard follows a number of precedents in respect of reassessment under Income Tax Law.

Illustration 21. Is it open to the Assessing Officer or Appellate Authorities to make reference to the Valuation Officer after the assessment is over?

Solution: In Smt. Saraswati Devi vs. WTO (2002) 125 Taxman 759 (Del.) it was held that the law provides for reference to the Valuation Officer only for the purposes of making an assessment u/s 16A of the Wealth Tax Act. Hence, reference after the assessment is not valid.

A valuation report which did not exist at the time of original assessment, it was held could not justify reassessment notice [CWT vs. Sewalal Gafarlal (2002) 257 ITR 523 (Raj.)].

Illustration 22. In respect of liability for wealth tax on taxable wealth held by a trust, whether it should be the trust itself or beneficiaries, who should be assessed?

Solution: In case of discretionary trust, where the shares of beneficiaries are indeterminate or unknown for any year, it is only the trust, which alone would be assessed. Where the shares of beneficiaries are specified in trust deed, assessment can be made either on trust, but computing the liability with reference to wealth tax payable by each beneficiary in respect of his/her share of wealth or on each beneficiary directly on respective shares. This is the law laid down by the Supreme Court in the case of CIT vs. Trustees of HEH the Nizam's Jewellery for Family Trust (2001) 250 ITR 632 (AP).

Illustration 23. A land, which is a taxable asset, is offered to M and G without specifying shares. Describe how wealth tax is to be levied.

Solution: In this case it should be presumed that each has a half share and assessed accordingly without attempting to tax it as either AOP or BOI [CWT vs. J. K. Srivastava (2006) 280 ITR 470 (All.)]

Illustration 24. Is non-filing of return liable for concealment penalty?

Solution: Wealth Tax Act would deem concealment on the non-filers on the assumption that the entire wealth liable to be returned is concealed. The expression "who has not previously been assessed under this Act" has been omitted with effect from 01.04.2003 so that the penalty is exigible, even if the assessee had been previously assessed.

Illustration 25.

Value of asset declared in the return	₹3,00,000
Fair market value of asset, estimated by the Assessing Officer:	
Situation 1	₹3,30,000
Situation 2	₹3,55,000
Situation 3	₹4,15,000

Can a reference be made to the Valuation Officer in the above cases?

Solution:**Situation 1:**

Fair market value as estimated by the Assessing Officer		₹3,30,000
Value as per return	₹3,00,000	
Add: 33 1/3% of ₹3,00,000	<u>₹1,00,000</u>	₹4,00,000

The fair market value estimated by the Assessing Officer neither exceeds the value returned and 33 1/3% thereof, nor the sum of ₹50,000. Hence the Assessing Officer cannot refer the valuation to the Valuation Officer.

Situation 2:

Fair market value as estimated by the Assessing Officer		₹3,55,000
Value as per return	₹3,00,000	
Add: 33 1/3% of ₹3,00,000	<u>₹1,00,000</u>	₹4,00,000

The fair market value estimated by the Assessing Officer does not exceed the value returned and 33 1/3% thereof, but it exceeds ₹50,000. Hence the Assessing Officer can refer the valuation to the Valuation Officer.

Situation 3:

Fair market value as estimated by the Assessing Officer		₹4,15,000
Value as per return	₹3,00,000	
Add: 33 1/3% of ₹3,00,000	<u>₹1,00,000</u>	₹4,00,000

Since the fair market value estimated by the Assessing Officer exceeds the value returned and 33 1/3% thereof and also ₹50,000, the Assessing Officer can refer the valuation to the Valuation Officer.

The Assessing Officer is empowered to refer the valuation to the Valuation Officer, only when the valuation as per section 7 and Schedule-III is the market value and not any other basis of determination. Even though the excess amount is less than ₹50,000, the Assessing Officer can refer the valuation to the Valuation Officer if the fair market value estimated by Assessing Officer exceeds the value returned and 33 1/3%.

Study Note - 22

TAXATION OF INTERNATIONAL TRANSACTIONS

This Study Note includes

- 22.1 International Taxation and Transfer Pricing – Introduction
- 22.2 International Transaction
- 22.3 Arm's Length Principle
- 22.4 Transfer Pricing – Classification of Methods
- 22.5 Steps in the process of computing Arm's length price – Transfer Pricing (TP) Study
- 22.6 Transfer Pricing issues
- 22.7 Cross-border transactions
- 22.8 Classification of "Cross Border Services"
- 22.9 Associated Enterprise

22. 1 INTERNATIONAL TAXATION AND TRANSFER PRICING – INTRODUCTION

The source rule/statutory provision relating to levy and collection of tax liability on international transactions is empowered through Sec.92 to 92F of the Income Tax Act, 1961. These provisions were inserted by the Finance Act, 1976. With the opening up of global economy, apart from goods, there has been transfer or transaction relating to rendering of services cross-border. There is a magnanimous increase in the volume of cross-border transactions, which calls for attracting the provisions of Indirect Taxes in India. There arises the necessity and therefore leads to computation of reasonable, fair and equitable profit and tax in India are not being eroded of Indian tax revenue. Any income arising from an international transaction shall have to be computed having regard to arm's length price.

22.2 INTERNATIONAL TRANSACTION

As per Sec. 92B of the Income Tax Act, 1961

- (1) For the purposes of this section and sections 92, 92C, 92D and 92E, "international transaction" means a transaction between two or more associated enterprises, either or both of whom are non-residents, in the nature of purchase, sale or lease of tangible or intangible property, or provision of services, or lending or borrowing money, or any other transaction having a bearing on the profits, income, losses or assets of such enterprises, and shall include a mutual agreement or arrangement between two or more associated enterprises for the allocation or apportionment of, or any contribution to, any cost or expense incurred or to be incurred in connection with a benefit, service or facility provided or to be provided to any one or more of such enterprises.
- (2) A transaction entered into by an enterprise with a person other than an associated enterprise shall, for the purposes of sub-section (1), be deemed to be a transaction entered into between two associated enterprises, if there exists a prior agreement in relation to the relevant transaction between such other person and the associated enterprise, or the terms of the relevant transaction are determined in substance between such other person and the associated enterprise.

22.3 ARM'S LENGTH PRINCIPLE

The arm's length principle seeks to ensure that transfer prices between members of an MNE ("controlled transactions"), which are the effect of special relationships between the enterprises, are either eliminated or reduced to a large extent. It requires that, for tax purposes, the transfer prices of controlled transactions should be similar to those of comparable transactions between independent parties in comparable circumstances ("uncontrolled transactions"). In other words, the arm's length principle is based on the concept that prices in uncontrolled transactions are determined by market forces and, therefore, these are, by definition, at arm's length. In practice, the "arm's-length price" is also called "market price". Consequently, it provides a benchmark against which the controlled transaction can be compared.

The Arm's Length Principle is currently the most widely accepted guiding principle in arriving at an acceptable transfer price. As circulated in 1995 OECD guidelines, it requires that a transaction between two related parties is priced just as it would have been if they were unrelated. The need for such a condition arises from the premise that intra-group transactions are not governed by the market forces like those between two unrelated entities. The principle simply attempts to place uncontrolled and controlled transactions on an equal footing.

22.2.1 Why Arm's Length Pricing?

The basic object of determining Arm's Length Price is to find out whether any addition to income is warranted or not, if the following situations arises:

- (a) Selling Price of the Goods < Arm's Length Price
- (b) Purchase Price > Arm's Length Price

Total Income as disclosed by an Assessee	XXXX
Add: Understatement of profit due to overstatement of purchase price	XXX
Add: Understatement of profit due to understatement of selling price	XXX
Total Income after Assessment	XXXX

22.2.2 Role of market forces in determining the "Arm's Length Price"

In case of transactions between Independent enterprises, the conditions of their commercial and financial relations (eg. The price of goods transferred or services provided and the conditions of the transfer or provision) are, ordinarily, determined by the market force.

Whereas,

In case of transactions between MNEs (Multinational Enterprises), their commercial and financial relations may not be affected by the external forces in the same way, although associated enterprises often seek to replicate the dynamics of the market forces in their dealings with each other.

22.2.3 Difficulties in applying the arm's length principle

The arm's length principle, although survives upon the international consensus, does not necessarily mean that it is perfect. There are difficulties in applying this principle in a number of situations.

- (a) The most serious problem is the need to find transactions between independent parties which can be said to be exact compared to the controlled transaction.
- (b) It is important to appreciate that in an MNE system, a group first identifies the goal and then goes on to create the associated enterprise and finally, the transactions entered into. This procedure obviously does not apply to independent enterprises. Due to these facts, there may be transactions within an MNE group which may not be between independent enterprises.
- (c) Further, the reductionist approach of splitting an MNE group into its component parts before

evaluating transfer pricing may mean that the benefits of economies of scale, or integration between the parties, is not appropriately allocated between the MNE group.

- (d) The application of the arm's length principle also imposes a burden on business, as it may require the MNE to do things that it would otherwise not do (i.e. searching for comparable transactions, documenting transactions in detail, etc).
- (e) Arm's length principle involves a lot of cost to the group.

22.4 TRANSFER PRICING – CLASSIFICATION OF METHODS

In order to ensure that a transfer price meets the arm's length standard, the OECD (Organization for Economic Co-operation and Development) guidelines have indicated five transfer pricing methods that can be used. These methods fall in two categories:

- (1) Traditional Transaction Methods;
- (2) Transactional Profit Methods.

As per Sec.92C of the Income Tax Act, 1961, the methods for determining Arm's Length Price may be represented as under:

- (1) Comparable Uncontrolled Price Method,
- (2) Resale Price Method,
- (3) Cost plus Method,
- (4) Profit Split Method,
- (5) Transactional Net Margin Method,
- (6) Such other method as may be prescribed by the Board.

22.5 STEPS IN THE PROCESS OF COMPUTING ARM'S LENGTH PRICE – TRANSFER PRICING (TP) STUDY

Transfer Pricing Study (TP Study) is the prime document which is used during transfer pricing assessment. The statement of particulars to be furnished in the Annexure to Form No.3CEB for the Income Tax Act, 1961 assessment, has thirteen clauses.

The following are the steps to be followed:-

Step 1	Selection of comparable companies
Step 2	Use of different filters
Step 3	Screening of comparables based on FAR

Step 4	Use of Power under Indirect Tax laws [special reference to Sec.133(6) of the Income Tax Act,1961]
Step 5	Adjustments
Step 6	5% Safe Harbour

The steps may be enumerated as follows:

Step 1: Selection of Comparable Companies

The first step for doing this study is to select comparable companies. This can be selected in the following four ways:-

- (a) Industry-wise selection
- (b) Product-wise selection
- (c) NIC Code-wise selection
- (d) Segment-wise selection

The data relating to the financial year in which the international transaction has been entered into must be used in analyzing the comparability of an uncontrolled transaction with an international transaction.

Step 2: Use of different filters

Once there is a selection of comparable companies, the next step is to filter these companies with the use of quantitative and qualitative filters. The following filters are also used sometimes:

- (a) Companies whose data is not available for the relevant year
- (b) Companies for which sufficient financial data is not available to undertake analysis
- (c) Different financial year filter
- (d) Turnover filter
- (e) Service Income filter
- (f) Export filter
- (g) Diminishing Loss filter
- (h) Related party filter
- (i) Companies that had exceptional year/(s) of operation
- (j) Employee cost filter
- (k) Onsite and offsite filter
- (l) Fixed Asset filter
- (m) Research & Development Expense filter
- (n) Income Tax filter

Step 3: Screening of comparables based on FAR

Comparability of an international transaction with an uncontrolled transaction shall have to be judged with relevance to the following factors:

- (a) The specific characteristics of the property transferred or services provided in either transaction;
- (b) FAR Analysis- the (F) functions performed, taking into account (A) assets employed or to be employed or the (R) risks assumed by the respective parties to the transactions;
- (c) The contractual terms (whether or not such terms are formal or in writing) of the transactions which

lay down explicitly or implicitly how the responsibilities, risks and benefits are to be divided between the respective parties to the transactions;

- (d) Conditions prevailing in the markets in which the respective parties to the transactions operate, including the geographical location and size of the markets, overall economic development and level of competition and whether the markets are wholesale or retail.

There may arise situation, where it requires further analysis of the following factors:-

- (i) Is there a public issue in the relevant year or previous year?
- (ii) Are the entity's profits exempted from tax?
- (iii) Is there any merger/de-merger, etc., during the relevant time?
- (iv) Is the depreciation policy different?
- (v) Is there a wide difference between various segments' profitability?
- (vi) Is the area of operation, i.e. geography different?
- (vii) Is the volume of operation different?

Step 4: Use of power under Indirect Tax Laws

This power is usually used by the Revenue Department/Authorities, with a special reference to Sec.133(6) of the Income Tax Act, 1961. The authorities may exercise such powers for getting details which are generally not available in the annual reports of the companies. This power is used more in the earlier years.

Step 5: Adjustments

Based on specific characteristics of the property transferred or the services rendered in either transaction and the contractual terms (whether or not such terms are formal or in writing) of the transactions which lay down explicitly or implicitly how the responsibilities, risks and benefits are to be divided between the respective parties to the transactions. The following enterprise level and transaction level adjustments are suggested:

- (a) Functional differences
- (b) Asset differences
- (c) Risk differences
- (d) Geographical location
- (e) Size of the market
- (f) Wholesale or retail market
- (g) The laws and governmental orders in force
- (h) Cost of labour
- (i) Cost of capital in the markets
- (j) Overall economic development
- (k) Level of competition
- (l) Accounting practices

However, in practice the following adjustments are provided:

- (i) Working capital adjustment
- (ii) Risk adjustment
- (iii) Volume/geographical/depreciation/idle capacity/first year operation, etc.

Step 6: 5% Safe Harbour

- (a) If the application of the MAM (Most Appropriate Method) leads to determination of more than one price, the arithmetical mean of such prices shall be taken to be the Arm's Length Price (ALP) in relation to the international transaction.
- (b) If the ALP so determined is within +/- 5% range of international transaction price, then no adjustments are required
- (c) If the ALP is not within +/- 5% range of the international transaction price, then adjustments are required for the whole difference between the ALP and international transactions and benefit of 5% will not be available.

However, the Finance Act, 2012 has fixed the upper limit of safe harbor as 3%.

22.6 TRANSFER PRICING ISSUES

In the content of International Transactions and ascertainment of arm's length price, the following issues are surfaced. These needs to be further examined in the light of applicable statutory provisions of Indirect Tax laws in India.

22.6.1 Key current and emerging TP Audit issues in India

Indian transfer pricing administration over the past 10 years has witnessed several challenges in administration of transfer pricing law. In the above backdrop, this chapter highlights some of the emerging transfer pricing issues and difficulties in implementation of arm's length principle.

22.6.2 Key Issues for consideration

- (a) **Challenges in the comparability analysis** - Increased market volatility and increased complexity in international transaction have thrown open serious challenges to comparability analysis and determination of arm's length price.
- (b) **Issue relating to risks** - A comparison of functions performed, assets employed and risks assumed is basic to any comparability analysis. India believes that the risk of a MNE is a by-product of performance of functions and ownership, exploitation or use of assets employed over a period of time. Accordingly, risk is not an independent element but is similar in nature to functions and assets. In this context, India believes that it is unfair to give undue importance to risk in determination of arm's length price in comparison to functions performed and assets employed.
- (c) **Arm's length range** - Application of most appropriate method may set up comparable data which may result in computation of more than one arm's length price. Where there may be more than one arm's length price, mean of such prices is considered. Indian transfer pricing regulations provide that in such a case the arithmetic mean of the prices should be adopted as arm's length price. If the variation between the arithmetic mean of uncontrolled prices and price of international transaction does not exceed 3% or notified percentage of such transfer pricing, then transfer price will be considered to be at arm's length. In case transfer price crosses the tolerance limit, the adjustment is made from the central point determined on the basis of arithmetic mean. Indian transfer pricing regulation do not mandate use of inter quartile range.
- (d) **Comparability adjustment** - Like many other countries, Indian transfer pricing regulations provide for "reasonably accurate comparability adjustments". The onus to prove "reasonably accurate comparability adjustment" is on the taxpayer. The experience of Indian transfer pricing administration indicates that it is possible to address the issue of accounting difference and difference in capacity utilization and intensities of working capital by making comparability adjustments. However, Indian transfer pricing administration finds it extremely difficult to make risk adjustments in absence of any reliable and robust and internationally agreed methodology to provide risk adjustment. In some cases taxpayers have used Capital Asset Pricing Method (CAPM).

(e) Location Savings - It is view of the Indian transfer pricing administration that the concept of “location savings” which refer to cost savings in a low cost jurisdiction like India – should be one of the major aspects to be considered while carrying out comparability analysis during transfer pricing audits. Location savings has a much broader meaning; it goes beyond the issue of relocating a business from a ‘high cost’ location to a ‘low cost’ location and relates to any cost advantage. MNEs continuously search options to lower their costs in order to increase profits. India provides operational advantages to the MNEs such as labour or skill employee cost, raw material cost, transaction costs, rent, training cost, infrastructure cost, tax incentive etc.

- (i) Highly specialized skilled manpower and knowledge
- (ii) Access and proximity to growing local/regional market
- (iii) Large customer base with increased spending capacity
- (iv) Superior information network
- (v) Superior distribution network
- (vi) Incentives
- (vii) Market premium

The incremental profit from LSAs is known as “location rents”. The main issue in transfer pricing is the quantification and allocation of location savings and location rents among the associated enterprises.

Under arm's length pricing, allocation of location savings and rents between associated enterprises should be made by reference to what independent parties would have agreed in comparable circumstances.

The Indian transfer pricing administration believes it is possible to use the profit split method to determine arm's length allocation of location savings and rents in cases where comparable uncontrolled transactions are not available. In these circumstances, it is considered that the functional analysis of the parties to the transaction (functions performed, assets owned and risks assumed), **and** the bargaining power of the parties (which at arm's length would be determined by the competitiveness of the market availability of substitutes, cost structure etc) should both be considered appropriate factors.

(f) Intangibles - Transfer pricing of intangibles is well known as a difficult area of taxation practice. However, the pace of growth of the intangible economy has opened new challenges to the arm's length principle. Seventy five percent of all private R&D expenditure worldwide is accounted for by MNEs.

The transactions involving intangible assets are difficult to evaluate because of the following reasons:

- (i) Intangibles are seldom traded in the external market and it is very difficult to find comparables in the public domain.
- (ii) Intangibles are often transferred bundled along with tangible assets.
- (iii) They are difficult to be detected.

A number of difficulties arise while dealing with intangibles. Some of the key issues revolve around determination of arm's length price of rate of royalties, allocation of cost of development of market and brand in a new country, remuneration for development of marketing, Research and Development intangibles and their use, transfer pricing of cobranding etc.

(g) R&D activities - Several global MNEs have established subsidiaries in India for research and development activities on contract basis to take advantage of the large pool of skilled manpower

which are available at a lower cost. These Indian subsidiaries are generally compensated on the basis of routine and low cost plus mark up. The parent MNE of these R&D centres justify low cost plus markup on the ground that they control all the risk and their subsidiaries or related parties are risk free or limited risk bearing entities.

The claim of parent MNEs that they control the risk and are entitled for major part of profit from R&D activities is based on following contentions:

- (i) Parent MNE designs and monitors all the research programmes of the subsidiary.
- (ii) Parent MNE provides fund needed for R&D activities.
- (iii) Parent MNE controls the annual budget of the subsidiary for R&D activities.
- (iv) Parent MNE controls and takes all the strategic decisions with regards to core functions of R&D activities of the subsidiary.
- (v) Parent MNE bears the risk of unsuccessful R&D activities.

The Indian transfer pricing administration always undertakes a detailed enquiry in cases of contract R&D centres. Such an enquiry seeks to ascertain correctness of the functional profile of subsidiary and parent MNE on the basis of transfer pricing report filed by the taxpayers, as well as information available in the public domain and commercial databases. After conducting detailed enquiries, the Indian tax administration often reaches the following conclusions:

- (i) Most parent MNEs were not able to file relevant documents to justify their claim of controlling risk of core functions of R&D activities and asset (including intangible assets) which are located in the country of subsidiary or related party.
- (ii) Contrary to the above, it was found that day to day strategic decisions and monitoring of R&D activities were carried out by personnel of subsidiary who were engaged in actual R&D activities and bore relevant operational risks.

(h) Marketing Intangibles

Marketing related intangible assets are used primarily in the marketing or promotion of products or services.

This includes: Trademarks; Trade names; Service marks; Collective marks; Certification marks; Trade dress; Newspaper mastheads; Internet domain names; Non-competitive agreements

- (i) **Customer-related intangible assets** – are generated through inter-action with various parties such as customers, entities in complimentary business, suppliers , etc. these can either be purchased from outside or generated internally.

- (i) Contractual basis: customer contracts and customer relationships; order or production backlog
- (ii) Non-contractual basis:- customer lists; non-contractual customer relationships;

- (j) **Artistic-related intangible assets** – are rights granted by Government or other authorized bodies to the owners or creators to reproduce or sell artistic or published work. These are on a contractual basis. These includes: Plays, opera and ballets; Books, magazines, newspapers and other literary works; Musical works; Picture and photographs; Video and audio-video material.

- (k) **Intra-group Services** - Globalization and the drive to achieve efficiencies within MNE groups have encouraged sharing of resources to provides support between one or more location by way of shared services. Since these intra group services are the main component of "tax efficient supply chain management" within an MNE group, the Indian transfer pricing authorities attach high priority to this aspect of transfer pricing.

The tax administration has noticed that some of the services are relatively straight forward in nature like marketing, advertisement, trading, management consulting etc. However, other services may

be more complex and can often be provided on stand alone basis or to be provided as part of the package and is linked one way or another to supply of goods or intangible assets. An example can be agency sale technical support which obligates the licensor to assist the licensee in setting up of manufacturing facilities, including training of staff.

The Indian transfer pricing administration generally considers following questions in order to identify intra group services requiring arm's length remuneration:

- (i) Whether Indian subsidiaries have received any related party services i.e., intra group services?
- (ii) Nature and detail of services including quantum of services received by the related party.
- (iii) Whether services have been provided in order to meet specific need of recipient of the services?
- (iv) What are the economic and commercial benefits derived by the recipient of intra group services?
- (v) Whether in comparable circumstances an independent enterprise would be willing to pay the price for such services?
- (vi) Whether an independent third party would be willing and able to provide such services?

The answers to above questions enable the Indian tax administration to determine if the Indian subsidiary has received or provided intra group services which requires arms' length remuneration. Determination of the arm's length price of intra group services normally involve following steps:

- (i) Identification of the cost incurred by the group entity in providing intra group services to the related party.
- (ii) Understanding the basis for allocation of cost to various related parties i.e., nature of allocation keys.
- (iii) Whether intra group services will require reimbursement of expenditure along with markup.
- (iv) Identification of arm's length price of markup for rendering of services.

(I) Financial Transactions

Intercompany loans and guarantees are becoming common international transactions between related parties due to management of cross border funding within group entities of a MNE group. Transfer pricing of inter company loans and guarantees are increasingly being considered some of the most complex transfer pricing issues in India. The Indian transfer pricing administration has followed a quite sophisticated methodology for pricing inter company loans which revolves around:

- (i) comparison of terms and conditions of loan agreement;
- (ii) determination of credit rating of lender and borrower;
- (iii) Identification of comparables third party loan agreement;
- (iv) suitable adjustments to enhance comparability.

Transfer pricing administration is more than a decade old in India. However disputes are increasing with each transfer pricing audit cycle, due to the following factors:

- (i) Cross border transactions have increased exponentially in the last one decade.
- (ii) Lack of international consensus on taxation of certain group cross border transactions like intangible, financial transactions, intra group services etc.
- (iii) Difficulty in applying the arm's length principle to complex transactions like business restructuring.
- (iv) Taxpayers in India can postpone payment of tax liability by resorting to litigation.
- (v) Availability of multiple channels to resolve disputes in India.

22.7 CROSS-BORDER TRANSACTIONS

Cross Border Transaction services means services related to transaction which involve two or more countries. In India there are two Acts which primarily seems to show concern when a person (Indian Resident or foreign Resident) undertakes cross border transactions viz.

- (i) Foreign Exchange Management Act, 1999
- (ii) Income Tax Act, 1961

Therefore it is imperative that a person needs to deal with both the above mentioned Acts to enter into a cross-border transaction.

22.7.1. Relevant provisions and the structure

In terms of the provisions of Sec.5 (2) of the Income Tax Act, 1961, non-residents are also liable to tax in India on the income received or deemed to be received in India.

22.7.1.1. Major charging provision

The major charging provision is Sec.5(2) of the Income Tax Act, 1961. Two major and specific tests are required to determine the incidence of tax and tax liability thereafter. The tests are related to determining:-

- (i) Whether Income Accruing or Arising in India or not;
- (ii) Whether the Source of Income is India or not.

22.7.1.2. Deeming provisions

The major provisions laying down the source rule are contained in sections 9(1)(vii), 44D, 44DA and 115A of the Income Tax Act, 1961. There are some specific provisions also related to imposing tax liability on cross-border services, which are, Sections 44B, 44BB, 44BBA, 44BBB.

Section	Deals with	
9(1)(vii)	Fees for technical services paid by the Government or a resident is deemed to accrue or arise in India unless such services are utilized by a resident for business or profession carried on outside India or for the purpose of earning income from any source outside India.	
	Fees for technical services paid by a non-resident is deemed to accrue in India only if such services are utilized in a business carried on in India by the non-resident or are utilized for the purpose of earning income from any source in India.	
44D	Restriction on the right of foreign company to claim deduction for expenses from income in the nature of royalties or fees for technical services received from the Government or an Indian concern as follows:	
	Date of Signature of Agreement	restriction on deduction for expenses
	Before April 1, 1976	deduction allowed upto 20% of gross amount of fees for technical services
	After 31 st March, 1976 but before April 1, 2003	No deduction allowed.
	<i>This section is applicable to foreign companies only and not to any other non-residents.</i>	

44DA	Specific provisions dealing with royalties/fees for technical services – after 31st March, 2003 Provisions laid down in this section emphasizes to harmonise the provisions relating to income from royalty or fees for technical services attributable to a fixed place of profession or permanent establishment in India with similar provisions in various tax treaties. In terms of the provisions of this section, deduction is available for expenses from royalty or fees for technical services to a non-resident if : (i) Royalties or FTS are received from Government or an Indian concern (ii) Agreement is made after 31st March, 2003 (iii) Business is carried on in India through a permanent establishment (iv) Professional services are provided from fixed place of profession (v) Right, property or contract for which royalty/fees for technical services arises is effectively connected with the permanent establishment or fixed place of profession. “Permanent Establishment is defined in Sec.92F (iiia), which includes a fixed place of business through which the business of the enterprise is wholly or partly carried on”. There are three types of Permanent Establishments (PEs): (i) Basic rule PE – a fixed place of business, office, branch, installation, etc (ii) Service PE – presence of employees (iii) Agency PE – presence of dependent agent
44C	The provision starts with a 'non-obstante clause', i.e. “Notwithstanding anything to the contrary contained in section 28 to 43A.....”. This section overrides Sections 28 to 43A and accordingly the words “computation under the head profits and gains of business or profession in accordance with the provisions of ITA” would mean that deduction of head office expenses would be allowed subject to restrictions contained in Section 44C.
44DA	This section is inserted “with a view to harmonize the provisions relating to the income from royalty or fees for technical services attributable to a fixed place of profession or a permanent establishment in India with a similar provisions in various DTAA’s”.

22.7.1.3. Income accruing or arising

A non-resident is subject to tax in India, if the income is:

- (i) Received in India, or
- (ii) Deemed to be received in India, or
- (iii) Accrues or arises in India, or
- (iv) Deemed to be accruing or arising in India

Income from services is subject to tax in India for the non-resident, if such income/fees are received in India or are deemed to be received in India or such fees accrue or arise in India, or are deemed to be accruing or arising in India.

The dictionary meaning of the word “accrue” is to “arise or spring as a natural growth or result”; “to come by way of an increase”. “Arising” means “coming into existence or notice or presenting itself”.

The word “accrue” and “arise” do not mean actual receipt of the income, profits or gains; and they may be interpreted as conveying the idea of a present enforceable right to receive the income, profits or gains. It is something unclear but is being enforced or converted into money by actual receipt. The words denote a point of time anterior to the actual receipt”.

22.7.1.4. Source of Income

The term source is used in the context of income, deduction or collection of tax, and for certain purposes. A source of income in simple terms is a source from which income gets generated or arises. The word source means a place from which something is obtained. The source in relation to an income has been construed to be where the transaction of sale takes place and not where the item of value, which was the subject of the transaction, was acquired.

“Source means not a legal concept but something which a practical man would regard as a real source of income; the ascertaining of the actual source is a practical hard matter of fact”.

Example:

A Tax Association proposes to organize its Annual Congress in Country X. For this purpose, the Association branch in Country X has hired an event management company (EMC). The EMC has finalized a five-star hotel as a venue for the Annual Congress. The delegates would also stay in the same hotels. EMC would also coordinate hotel reservations for the delegates coming from the respective countries. The delegate would do the hotel booking through EMC, although the payment would be made directly to the hotel.

For the hotel, the source of income can be said to be :

- (i) Tax Association's branch in Country X
- (ii) The EMC
- (iii) The delegates who actually pay room rent to the hotel
- (iv) The event

Different sources of income:

Considering the above analysis/example, the following may be considered as categories of source of income:

- (i) Person paying income – the person from whom the income is received and earned. Accordingly, income is said to be originating from him and the payer as such becomes the source of income.
- (ii) Economic activity – these ultimately result in revenue for the organization and hence such economic activities can be treated as source of income.
- (iii) Business unit/industrial undertaking – these unit would produce/generate income, and hence can be referred as a “source of income”.
- (iv) Contractual arrangement between the parties – the relationships, rights, obligations and the income flow from such contracts, and hence such contractual arrangement can be viewed as a source of income.
- (v) An Asset – tangible or intangible – income may be seen as originating from various types of assets. If an asset generating income is situated/located in a particular country, then it can be treated as a source of income in that country.
- (vi) An event/ an act – there are situations, when an event or an act is considered to be a source of income.
- (vii) Law/regulations/court decree - in some situations, the income may be originating from the law itself and in such cases, the law itself is treated as the source of income.

22.7.1.5. Place of utilization of services

With reference to terms of Sec.9(1)(vii)(b) of the Income Tax Act, 1961, the issue which comes up is, what are the parameters to decide the place where the services are utilized? This correspondingly leads to the issue – whether to avail the exemption under the said provision, whether the services should necessarily be utilized outside India?

22.7.1.5.1. Rendition of services – some broad categories

There may be various forms of rendition of services, some of which are as follows:

- (i) Services could be rendered by actually deploying people on a project, say repairing a machine, installing a machine at the location of the person availing services (onsite services).
- (ii) Services can be rendered at the location of the services provider by actually deploying people for say repairing a machine, etc
- (iii) Services can be rendered by preparing at the location of service provider a written report or an advice
- (iv) Services can be rendered by giving advice in a physical meeting
- (v) Services can be rendered by giving advice through video-conferencing
- (vi) Services can be rendered by giving advice on a telephone

22.7.1.5.2. Place where services are immediately implemented/rendered as a place of utilization of services (immediate location)

The place where the services are immediately implemented or rendered or utilized can be said to be place of utilization of services.

Say,

Situation	Place of utilization of services
(i) Engineer of a service provider repair a machine at the location of the client	such location of the client
(ii) If a machine is repaired at the location of the service provider	location of the person availing services where the machine is put to use
(iii) Services rendered in the form of a written report	place where the report is read and implemented
(iv) Advice through electronic media or a physical meeting	place where the advice is implemented

Some more common examples could be as:-

- (a) While you are busy in your office, sitting in a place in India, you are eager to know the results of an ongoing cricket match between India and Australia, which is held in Melbourne Cricket Ground. You have typed "CRI" (i.e. cricket) and sent it to "8888" from your cell phone.
- (b) Within a few seconds, the reply/information/data comes back to your hand-set. The services are said to be utilized in India.
- (c) While relaxing during your busy schedule, you have logged in to say 'FACEBOOK' or search engine 'Google'. The request is sent from your Cell-phone/Laptop/I-pad/Note-pad/any other electronic device, which is located with you, somewhere in India. The server of 'FACEBOOK' or 'Google' is in a place outside India. You are receiving the required information/data while you are physically present within India. Hence, the place of utilization would be India.

- (d) X Ltd. has factories in four different locations A,B,C and D. The Head office of X Ltd is in Location E. Certain functions are centralized in location E. For example, if there are any technical problems in any machines in the factories, then such machines are brought at Location E. Engineers of external service providers visit Location E and repair the machines. The repaired machines are sent back to the respective locations, i.e. A,B,C or D.
- (e) In this case, the machines are repaired by external service provider at location E, but the repaired machines are actually utilized in locations A,B,C and D. The immediate location of utilization of services is E but the actual and ultimate utilization of services happens at locations A,B,C and D, i.e. the ultimate locations.
- (f) A & Co. is a firm of Cost Accountants. It has branches in four locations, X,Y,Z and P. the staff strength in each location is fifty professionals. A & Co. also hires an external services provider to conduct soft skill training to its professional staff. The training is given at a conference conducted in location X. The staff from the other locations also travelled to location X to avail this training.
- (g) The immediate location of services is location X but the ultimate location are all X,Y,Z and P. This is because the professional staff availing the training could actually apply the skills learned in the respective locations.

22.8 CLASSIFICATION OF "CROSS BORDER SERVICES"

(a) Advance Ruling Representative Services

The term 'advance ruling' means (a) the determination of a question of law or fact in relation to a transaction which has been undertaken or is proposed to be undertaken by a non-resident applicant and also includes the determination of the tax liability of a non-resident arising out of such transaction with a resident applicant; (b) the determination or a decision on a question of law or fact relating to the computation of total income which is pending before any Income-tax authority or the Appellate Tribunal.

(b) Branch office set up of a Foreign Company

Permission to set up a branch office is granted by the Reserve Bank of India. A Branch office of a foreign company upon approval from the RBI must be compulsorily registered under the (Indian) Companies Act, 1956.

Upon registration under the Companies Act, 1956 the branch office can carry on its business activities in the same way as a domestic company. Unlike a liaison office a branch office can generate revenue from the sales in the local market and repatriate the profits to the foreign parent company.

A branch office so approved and registered can carry on the following activities :-

- (a) Export/Import of goods
- (b) Rendering professional or consultancy services
- (c) Carrying out research work, in which the parent company is engaged
- (d) Promoting technical or financial collaborations between Indian companies and parent or overseas group company
- (e) Representing the parent company in India and acting as buying selling agents in India
- (f) Rendering services in Information Technology and development of software in India

(c) Business set up services

Consultancy services rendered to Non-residents and entrepreneurs in starting, growing, expanding, diversifying and in case required, closing businesses in India. The services may also include

preparation of project reports, feasibility report, Market survey, Project Planning & many more.

(d) FEMARBI Compliance

The transaction involving foreign exchange is regulated by Foreign Exchange Management Act, 1999 in India. The main thrust from liberalization of economy has been on promotion of foreign exchange rather than control of foreign exchange. All transaction involving foreign exchange is regulated by FEMA and the provisions of FEMA have to comply with wherever applicable. The preamble of the act says that it is an Act to consolidate and amend the law relating to foreign exchange with the objective of facilitating external trade and payments and for promoting the orderly development and maintenance of foreign exchange market in India.

(e) Foreign company incorporation

In India, incorporation of a company involving foreign investment is primarily governed by two laws i.e. Companies Act, 1956 and Foreign Exchange Management Act, 1999 (FEMA). Companies Act is principally concerned with compliance with requirements and guidelines prescribed by registrar of companies whereas FEMA mandates compliances with guidelines prescribed by Reserve Bank of India in relation to Foreign Direct Investment in India. It is imperative from above that our scope of service emanate in form of consultancy services for ensuring compliance with both the above laws i.e. Companies Act, 1956 and FEMA, 1999 and liaisoning with respective authorities.

Cases for reference:

1. B Ltd., having 200 employees, engaged in manufacturing concern. The tax laws requires that the company should deduct taxes should deduct taxes from the salaries paid to its employees. To comply with the requirement, the company has recruited a pay roll manager whole role, besides other things, is to determine the taxes required to be deducted from the salaries of the employees. Similarly, payroll manager also takes care of the leave balances of the employees. The work performed by the payroll manager can be said to be managerial services.

AZ and Co., a firm of service providers, have developed payroll software which takes care of various payroll related functions of the organizations. The firm approaches to offer the services of managing payroll of B Ltd. through this software. As per revised arrangement, the employees of B Ltd. would interact with the website of AZ and Co. as against the payroll manager of B Ltd.

2. If a service provider provides services of managing canteen of an organization, it would be an ongoing process which will continue throughout the year. As against this, if a company organizes events celebrating completion of its 25th year, the service provider who manages such celebration event (i.e. event manager) would be doing a onetime assignment.

Apparently, there is no difference between the two. In both the cases, the service provider uses his managerial skills and manages various functions. Merely because the celebration event happens only, once in a year the fact that the services provided are managerial in nature cannot be denied. Further, neither the definition of "fees for technical services" contained in Explanation 2 nor Sec.9(1) (vii) suggests that the managerial services cannot be for one off transaction.

3. Indirect Taxes on Soft ware

"Software is the set of instructions that allows physical hardware to function and perform computations in a particular manner, be it a word processor, web browser or the computer's operating system. These expressions are in contrast with the concept of hardware which are the physical components of a computer system, and data, which is information that performs no computation and gives no enabling instructions to computer hardware but is ready for processing by the computer software" – LML Ltd. vs. Commissioner of Customs 2010 (258) ELT 321 (SC).

Also held that CD-ROM containing images of drawings and designs of engineering goods are not classifiable as computer software.

In 2004, the Supreme Court pronounced a landmark judgement in case of Tata Consultancy Services vs. State of Andhra Pradesh (2004) 141 Taxman 132(SC) – TCS Case. The judgement stated the parameters under which software would qualify as “goods”. The relevant text of the judgement read “ the text, to determine whether a property is ‘goods’, for the purposes of sales tax (now VAT), is not whether the property is tangible or intangible or incorporeal. The test is whether the concerned item is capable of abstraction, consumption and use and whether it can be transmitted, transferred, delivered, stored, possessed, etc. Admittedly in the case of software, both canned and uncanned, all of these are possible.’

While the Supreme Court firmly concluded that sale of branded/canned software is liable to sales tax law (now VAT), the view expressed on unbranded software was with caveat stating that ‘even unbranded software, when it is marketed/sold, may be goods. We, however, are not dealing with this aspect and express no opinion thereon because in case of unbranded software other questions like situs of contract of sale and/or whether the contract is a service contract may arise’.

In the light of Tax Treaty Provisions

1. A Ltd. is a tax resident in Country A and has a branch in Country B. The branch in Country B pays fees to technical services to C Ltd which is a tax resident of Country C. There is a tax treaty between Country B and Country C.

As per Para 5 of Article 12 of the tax treaty, the fees are “deemed to arise” in Country B as it is paid and borne by the branch. As per the domestic law of country A, the fees arise in Country A. Further, Article 12 shall be applicable to such fees i.e. as per Para 1, fees arising in Country B and paid to a resident of Country C may be taxed in Country C.

While interpreting Para 2 of Article 12, the same question needs to be analysed i.e. whether the term “arising” in Para 2 shall also include “deemed to arise”.

As per Para 1 of Article 12, income (deemed to) arising in Country B and paid to the resident of Country C may be taxed in Country C.

Such fees may also be taxed in the country in which it arises i.e. Country B. This is on the basis that once the fees are deemed to arise in Country B, all the implications shall follow as if the income would have arose in Country B.

2. A and B are tax residents of Country A and Country B respectively. A has an office in Country A which is its permanent establishment. B renders services to A in relation to the permanent establishment and the fees are borne by the permanent establishment.

In this example, the fees would be deemed to arise in Country A as per the second sentence of Para 5 of Article 12. However, the fees would be deemed to arise in Country A even by virtue of the first sentence of Para 5 of Article 12, this is because A is a tax resident of Country A. Further,

generally a permanent establishment is generally contemplated in a country other than the country in which the head office exists i.e. the country in which the person is a resident.

Thus, although the second sentence of Para 5 of Article 12 uses the words “ is a resident of a contracting state or not” , it probably does not contemplate a situation described in this example i.e. a person having a permanent establishment in the country in which it is resident.

3. A, B and C are residents of countries A,B and C respectively. C has a permanent establishment in Country B and the fees are borne by it. C pays fee to A.

In this case, the payer (C) is not a resident of country B where the permanent establishment is situated. Although the payer is not a resident of country B, it has a permanent establishment in that country.

4. Credit Rating Services

X Ltd. an Indian Company availed credit rating services from B Ltd. an Australian Company, for which the Indian Company had paid the annual surveillance fee to B Ltd. Is this taxable?

In terms of tax treaty provision between India and Australia, the payment was held to be “royalty” considering the provisions of clauses (c) & (d) of Article 12(3), which are worded as follows:

“(c) the supply of scientific, technical, industrial or commercial knowledge or information;

(d) the rendering of any technical or consultancy services (including those of technical or other personnel) which are ancillary and subsidiary to the application or enjoyment of any such property or right as is mention in sub-paragraph(a) any such equipment as mentioned in sub-paragraph(b) or any such knowledge or information as is mentioned in sub-paragraph(c)”.

Credit rating was treated as “commercial information” and fees received was falling under “Royalty”.

[Essar Oil Limited (Essar) and Standard & Poor's (Australia) Pty. Ltd (S&P)].

5. Procurement charges for goods

An Indian Company availed services of a German entity for the purpose of procurement of goods from outside India. As a consideration, the Indian company paid 4% of the total purchase price as fees to the German entity.

If this service is subject to tax as “fees for technical services”?

The Mumbai Bench of the Tribunal had examined this issue in the case of Linde A.G. vs ITO., where the CIT(A) held the case as “fees for technical services” in terms of Indo-German treaty. The relevant definition read as follows:

“ the payment of any kind to any person other than payments to an employee of the person making the payments in consideration for services of a managerial ,technical or consultancy nature, including the provision of services of technical or other personnel”.

The Tribunal held that the entire fees were in the nature of commercial profits and cannot be subject to tax in India in the absence of permanent establishment of the German Company in India.

6. Inspection fees

A German company sold certain equipment to an Indian Company. The equipment was damaged in transit. The German company sent two of its technicians and charged “inspection fees”. The tax authorities taxed such fees as “fees for technical services”. The German company claimed that such fees cannot be taxed as “fees for technical services”.

The Tribunal held that the technician could not have been sent unless they were equipped with “technical knowledge”. Accordingly, the fees were held to be ‘fees for technical services’ in terms of the provisions of Article 12 of the Indo-German treaty.

7. Services linked to purchase of machinery

The Indian party importing large machinery and equipment from foreign suppliers also require their assistance in installation/commissioning of such machinery, etc. At times, the foreign supplier would send his technicians to India for this purpose. The foreign supplier may also charge separate consideration for such services.

On a standalone basis, the services provided by the foreign supplier may be in the nature of technical services. However, the court has taken a view that such services are to be treated as incidental to the purchase of machinery and also inextricably linked to it. On the basis, the consideration for such services is not treated as fees for technical services, but is given the same treatment which is given to the sales consideration. Hence, it is to be considered as "make available" and not fees for technical services.

8. Dividend Income

(a) "Forming part of the Assets"

- (i) A UK-based company has established a banking branch in India. The branch has also invested its funds in shares of Indian Companies. The shares of Indian companies could be said to be forming part of the assets of the permanent establishment. The branch is the economic owner of the shares
- (ii) A US-based conglomerate company has a permanent establishment in India. The company has different types of business including cement, steel, etc. The Indian branch is in the business of steel. The US-based company also owns certain shares of an Indian cement company. The Indian branch, which is involved in steel business, has nothing to do with the cement business. However, it has the custody of the share certificates of the shares owned by the head office. These shares are not shown in the balance sheet of the Indian branch.

Are the shares forming part of assets of the permanent establishment? The answer seems to be 'no'. The permanent establishment is just holding the shares physically and it may be possible to say that such shares do not form part of the assets of the permanent establishment. The permanent establishment is not the economic owner of the shares, as it does not enjoy the risk and rewards of the shares.

(b) What is 'otherwise effectively connected'?

- (i) A non-resident company has a subsidiary company in India. Such company, however, becomes permanent establishment of the non-resident company by virtue of provisions of Article 5(4) – dependent agent. This subsidiary company declares dividend to the parent company.

Are the shares effectively connected with the permanent establishment? The answer seems to be 'yes'. This is because the subsidiary is a permanent establishment of the foreign company and the shares are of such subsidiary.

However, considering the new guidance available in the OECD commentary, the permanent establishment may not be said to be the "economic owner" of the shares.

- (ii) The Indian permanent establishment has played effective role in purchasing the shares of an Indian company on behalf of its head office outside India. In such situation, it may be difficult to say that the shares are effectively connected with the Indian permanent establishment, as it is no way connected with the shares except that it played a major role in acquisition of the shares for the head office.

9. Service PEs

An enterprise can carry on business in other country in different manners. This may be broadly divided in the following three categories:

- (i) Business activities carried on in a branch, an office, etc
- (ii) Business activities through a dependent agent
- (iii) Business activities through employees.

Service PE is defined in clause (b) of Article 5(3) of the UN Model, as follows:

"The furnishing of services, including consultancy services,

by an enterprise through employees or other personnel engaged by the enterprise for such purpose, but only if activities of that nature continues (for the same or a connected project) within the country for a period of periods aggregating more than six months within any twelve month period."

(a) Presence of person availing services

If the person availing the services is present in the country in which the services are rendered, the service PE would be formed. This can be explained on the basis of the following example:

X Ltd a company based in Country X, specializes in rendering machine maintenance services. This service requires actual testing, cleaning, etc of the machine.

Z Ltd. a company in Country Z, wants maintenance services for the machines purchased by it. Z Ltd. engages X Ltd for this purpose. The employees of X Ltd visit Country Z and carry out the maintenance for the machines.

In this case, X Ltd is furnishing services in Country Z through its employees. Service PE is created if the employees of X Ltd provide services for a period exceeding 90 days.

(b) Absence of person availing services in the country –direct utilization / consumption of services

It is possible that the person availing services may not be present in the country in which services are rendered, but such services may be consumed in the same country in which the service are rendered.

The issue is whether it is necessary that the person availing services should be present in the same country in which the services are rendered. As such the language of Article 5(3)(b) does not require that the person availing services should be present in the same country. What it requires is that the services should be rendered within the country. This can be explained on the basis of the following example:

X Ltd a company based at Country X, specializes in rendering machine maintenance services. The service requires actual testing, claiming, etc of the machine.

Y Ltd, a company situated in Country Y, wants maintenance services for the machines sold by it to its customers in Country Z. Y Ltd. engages X Ltd for this purpose. The employees of X Ltd visit country Z and carry out maintenance for the machines sold by Y Ltd.

The following issues may arise in this structure:

- (i) The employees of X Ltd are rendering services to whom? To the customers in Country Z or to Y Ltd based in Country Y?
- (ii) If the services are rendered to Y Ltd., then can it be said that the services are not furnished in Country Z as the beneficiary (Y Ltd) is situated in Country Y. Does presence of employees result in service PE of X Ltd in country Z?

The answer to the first query is that the employees of X Ltd are rendering services to X Ltd only, as there is a contract of employment between them. There is no contract between employees of X Ltd and Y Ltd or the customers of Y Ltd.

The second issue is whether it can be claimed that services are furnished within Country Z as the beneficiary (Y Ltd) is not present in country Z.

The services are undoubtedly furnished in Country Z as the employees are present and render such services in Country Z. Further, Article 5(3)(b) does not suggest that the person availing such services should also be present in the same country in which the services are rendered.

(c) Absence of person availing services in the country – indirect utilization of services

It may happen that the person availing services is not present in the country where the employees carry out activities. However, the services may ultimately be utilized in the same country.

Example:

X Ltd. is based in Country X, specializes in real estate related issues. Y Ltd is situated in Country Y, wants to enter into real estate sector in Country Z. Y Ltd. engages X Ltd for the purpose of studying the real estate market in Country Z. The employees of X Ltd visit Country Z and carry out the market research activities. The employees of X Ltd carry out various activities in Country Z for 130 days and at the end of the assignment the employees go back to Country X, prepare the final report and sent it to Y Ltd. Y Ltd. uses such report for the purpose of future investments in Country Z.

The issue to be answered is whether X Ltd. can be considered as rendering services within Country Z? Whether the presence of such employees results in X Ltd having a service PE in Country Z?

In this example, the residence country is country X. however, the determination of the source country leads to some confusion. Should Country Y be considered as 'source country' on the basis that X Ltd earns income from the resident of country Y. Alternatively, should country Z be considered as a source country on the basis that the source of revenue for X Ltd is the activities carried out in Country Z.

Even in a situation, where the services are considered as not rendered in Country Z, the fact that the economic activities are carried out on the soil of Country Z cannot be denied. Accordingly, country Z may want to tax such activities. Country Z may have the right to tax the employees of X Ltd for the services rendered and X Ltd. However, such right can be exercised only if the provisions of DTAA permit.

22.9 ASSOCIATED ENTERPRISE

The term 'associated enterprise' has been defined in a broad manner. Based on the same, the following illustrates the definition when Enterprise X ("X") would be the associated enterprise of Enterprise Y ("Y") :

- X participates, directly or indirectly, or through one or more intermediaries, in the management, control or capital of Y and one or more of the requisites enlisted below are fulfilled; or
- The same persons participate in the management, control or capital of X, as also that of Y and one or more of the requisites enlisted below are fulfilled.
- X and Y would be deemed to be associated enterprises if at any time during the previous year :
- X holds directly or indirectly shares carrying at least 26% voting power in Y or vice versa;
- Any person holds directly or indirectly shares carrying at least 26% voting power in both X and Y;
- A loan advanced by X to Y amounts to atleast 51% of book value of the total assets of Y or vice versa;
- X guarantees at least 10% of the total borrowings of Y or vice versa;
- More than half of the directors or members of the governing board, or one or more of the executive directors or executive members of the governing board of X are appointed by Y or vice versa;
- More than half of the directors or members of the governing board, or one or more of the executive directors or members of the governing board of X and Y are appointed by the same person(s);
- The manufacture / processing of goods/articles by, or business of, X, is wholly dependent on use of intangibles or any other commercial rights of similar nature, or any data, documentation or drawing etc., owned by Y or for which Y has exclusive rights; or
- Atleast 90% of raw materials for the manufacture or processing of goods or articles required by X are supplied by Y or persons specified by Y under commercial terms influenced by Y or;
- Goods / articles manufactured / processed by X are sold to Y or persons specified by Y, and Y influences the commercial terms relating to the sale or;
- X is controlled by Mr. A and Y is controlled by Mr. A or relative of Mr. A either individually or jointly;
- X is controlled by a Hindu Undivided Family, and Y is controlled by a member of such Hindu Undivided Family or by a relative of a member of such Hindu Undivided Family, or jointly by such member and his relative; or
- X is a firm, association of persons or body of individuals, and Y holds atleast 10% interest in such firm, association of persons or body of individuals; or
- There exists, between X and Y, any relationship of mutual interest, as may be prescribed (no such relationship has yet been prescribed).

Explanatory Notes & Illustrations on the different Methods of determination of Arms Length Price u/s 92C of the Income Tax Act, 1961

Method 1: Computation of Arm's Length Price:

COMPARABLE UNCONTROLLED PRICE METHOD (CUP)

An uncontrolled price is the price agreed between unconnected parties for the transfer of goods and services. If this transfer is in all material respects comparable to transfers between associates, then that price becomes a comparable uncontrolled price.

Under this method, the price at which a controlled transaction is carried out is compared to the price obtained in a comparable uncontrolled transaction.

Rule 10B (1) (a) of the Income Tax Rules read with sub-section (2) of Section 92C, the CUP method is described as under:

- (i) The price charged or paid for property transferred or services provided in a comparable uncontrolled transaction, or a number of such transactions, is identified;
- (ii) Such price is adjusted to account for differences, if any, between the international transaction and the comparable uncontrolled transactions or between the enterprises entering into such transactions, which could materially affect the price in the open market;
- (iii) The adjusted price arrived at sub-clause(ii) is taken to be an ALP in respect of the property transferred or services provided in the international transaction.¹

Terms used:

- (1) Transaction:** As per Sec.92F(v) the term "transaction" which is defined to include an arrangement, understanding or action in concert, whether or not such arrangement, understanding or action is formal or in writing or whether or not it is intended to be enforceable by legal proceeding.

"Transaction" includes a number of closely linked transactions.

- (2) "Uncontrolled Transaction":** a transaction between enterprises other than associated enterprises, whether resident or non-resident.

- (3) "Comparable Transaction":** The OECD guidelines further states that an uncontrolled transaction is comparable to a controlled transaction (i.e. it is a comparable uncontrolled transaction) for purposes of the CUP method if one of the two conditions is met:

- (i) None of the differences(if any) between the transactions being compared or between the enterprises undertaking those transactions could materially affect the price in the open market;
- (ii) Reasonably accurate adjustments can be made to eliminate the material effects of such differences.

- (4) International transaction :** Sub-section (1) of Sec.92B defines the term as follows:

"For the purposes of this section and sections 92,92C,92D and 92E, "international transaction" means a transaction between two or more associated enterprises, either or both of whom are non-residents,

¹ Definition of CUP as per OECD Guidelines:

"The CUP method compares the price charged for property or services transferred in a controlled transaction to the price charged for property or services transferred in a comparable uncontrolled transaction in comparable circumstances. If there is any difference between the two parties, this may indicate that the conditions of the commercial and financial relations of the associated enterprises are not at arm's length, and that the price in the uncontrolled transaction may need to be substituted for the price in the controlled transaction".

in the nature of purchase, sale or lease of tangible or intangible property, or provision of services, or lending or borrowing money, or any other transaction having a bearing on the profits, income, losses or assets of such enterprises, and shall include a mutual agreement or arrangement between two or more associated enterprises for the allocation or apportionment of, or any contribution to, any cost or expense incurred or to be incurred in connection with a benefit, service or facility provided or to be provided to any one or more of such enterprises."

(5) **"Property"** includes goods, articles or things and intangible property.

(6) **"Services"** include financial services.

Scope:

Company C sells toaster ovens to its subsidiary A and to unrelated distributor C. Toaster ovens sold to A and B are identical and there are no material differences between the C to A and C to B transactions. CUP is the most reliable (best) method.

- (1) Interest rate charged on a loan;
- (2) Royalty payment;
- (3) Industries where CUPs are more prevalent, for example, software development where products are often licensed to a third party;
- (4) The price charged for the transfer of a homogeneous item, such as traded commodity
- (5) Extracted raw materials;
- (6) Harvested crops;
- (7) Animal products;
- (8) Fungible chemicals;
- (9) Other fungible goods i.e. pen, pencil, clips, computer disk, etc.;
- (10) Transactions which are dependent on publicly available market quotations

Methods of CUP:

The CUP method provides the best evidence of an arm's length price.

CUP can be either of the following:

(1) Internal CUP: this would be available if the taxpayer (or one of its group entities) enters into a comparable transaction with an unrelated party where the goods or services under consideration are same or similar.

Situations where Internal CUP may be applicable:

- (a) The tax payer or any other member of the group **sells** similar goods in similar quantities and under similar terms to an independent enterprise in a similar market.
- (b) The tax payer or another member of the group **buys** similar goods in similar quantities and under similar terms from an independent enterprise in a similar market (an internal comparable).

- (2) **External CUP:** this would be applicable if a transaction between two independent enterprises involves comparable goods or services under comparable conditions.
 - (a) An independent enterprise **sells** the particular product in similar quantities and under similar terms to another independent enterprise in a similar market;
 - (b) An independent enterprise **buys** similar goods in similar quantities and under similar terms from another independent enterprise in a similar market.

Adjustments to CUP:

There will be no comparable transactions to the ones under review and there will be a real doubt over how independent parties would have behaved. It is possible to adjust a potential comparable to take account of factors such as differences in volumes sold, markets traded in, terms of trade, etc.

If there are differences between the controlled and uncontrolled transactions that would affect price, adjustments should be made to the price of the uncontrolled transaction according to the comparability provisions.

The tax payer must provide sufficient proof by way of concrete documentation that the adjustments made were correct.

- (1) FAR Analysis;
- (2) Quality of the product or service;
- (3) Characteristics of the Property;
- (4) Contractual terms;
- (5) Level of the market;
- (6) Geographic market in which the transaction takes place;
- (7) Date of the transaction;
- (8) Intangible property associated with the sale; and
- (9) Foreign currency risks.

Other important factors affecting CUP

- (1) Time of the transaction and multiple year data
- (2) Data and assumptions
- (3) Indirect CUP
- (4) Use of quotation medium
- (5) Extra ordinary market conditions

Conditions for application of Comparable Uncontrolled Price Method:

“Where an assessee, being an associated enterprise as per Sec. 92A of the Act had entered into a transaction as per Sec. 92B of the Act, involving transfer of goods or rendering of services as per Sec. 92F (v) of the Act, and where such a transaction is uncontrolled in nature, having classified to be a comparable transaction, the Assessing officer shall for the purpose of determining the Arm’s Length price, being satisfied that the transactions could materially affect the price in the open market and hence comparable; then reasonable adjustments shall be made to eliminate the material effects arising from such differences, for the purpose of determining the Arm’s Length Price. The adjustments for differences shall be made for:

- (i) FAR Analysis;
- (ii) Quality of the product or service;
- (iii) Characteristics of the Property;
- (iv) Contractual terms;
- (v) Level of the market;
- (vi) Geographic market in which the transaction takes place;
- (vii) Date of the transaction;

- (viii) Intangible property associated with the sale;
- (ix) Foreign currency risks;
- (x) Time of the transaction and multiple year data;
- (xi) Data and assumptions;
- (xii) Indirect CUP;
- (xiii) Use of quotation medium; and
- (xiv) Extra ordinary market conditions."

Accountant's Report:

The arm's length price as computed under this method shall be audited and certified in Form No. 3CEB vide Rule 10E.

Steps in Computation of Arm's Length Price using CUP Method:

Step I: Identify the price charged/ paid for property transferred or services provided in a **comparable uncontrolled transaction(s)**.

Step II: Adjust the price derived in Step I above **for differences**, if any, which could materially affect the price in the open market.

- (a) between the international transaction and the comparable uncontrolled transactions, or
- (b) between the enterprises entering into such transactions.

Step III: Arm's Length Price = Step I **Add/Less:** Step II

Computation of Arm's Length Price as per Comparable Uncontrolled Price Method

No.	Particulars	Amount (₹)
1	Price charged or paid for property transferred or services rendered in a comparable uncontrolled transaction	XXXXX

Illustrations on COMPARABLE UNCONTROLLED PRICE METHOD

Illustration 1: J Inc. of Korea and CD Ltd, an Indian Company are associated enterprises. CD Ltd manufactures Cell Phones and sells them to J.K. & F Inc., a Company based at Nepal. During the year CD Ltd. supplied 2,50,000 Cellular Phones to J Inc. Korea at a price of ₹3,000 per unit and 35,000 units to JK & F Inc. at a price of ₹5,800 per unit. The transactions of CD Ltd with JK & F Inc. are comparable subject to the following considerations -

Sales to J Inc. are on FOB basis, sales to JK & F Inc. are CIF basis. The freight and insurance paid by J Inc. for each unit @ ₹700. Sales to JK & F Inc. are under a free warranty for Two Years whereas sales to J Inc. are without any such warranty. The estimated cost of executing such warranty is ₹500. Since J Inc.'s order was huge in volume, quantity discount of ₹200 per unit was offered to it.

Compute the Arm's Length Price and the subsequent amount of increase in the Total Income of CD Ltd, if any.

(a) Computation of Arm's Length Price of Products sold to J Inc. Korea by CD Ltd

Particulars	₹	₹
Price per Unit in a Comparable Uncontrolled Transaction		5,800
Less: Adjustment for Differences -		
(a) Freight and Insurance Charges	700	
(b) Estimated Warranty Costs	500	
(c) Discount for Voluminous Purchase	200	(1,400)
Arms's Length Price for Cellular Phone sold to J Inc. Korea		4,400

(b) Computation of Increase in Total Income of CD Ltd

Particulars	₹
Arm's Length Price per Unit	4,400
Less: Price at which actually sold to J Inc. Korea	(3,000)
Increase in Price per Unit	1,400
No. of Units sold to J Inc. Korea	2,50,000
Increase in Total Income of CD Ltd (2,50,000 x ₹1,400)	₹ 35 Crores.

Illustration 2: — Comparable sales of same product

DSM, a manufacturer, sells the same product to both controlled and uncontrolled distributor. The circumstances surrounding the controlled and uncontrolled transactions are substantially the same, except that the controlled sales price is a delivered price to the buyer and the uncontrolled sales are made F.O.B. DSM's factory. Differences in the contractual terms of transportation and insurance generally have a definite and reasonably ascertainable effect on price, and adjustments are made to the results of the uncontrolled transaction to account for such differences. In this case the transactions are comparable and internal CUP can be applied by comparing the prices of both, the controlled and uncontrolled transactions, albeit after subtracting the costs of transportation and insurance of the controlled transaction.

Illustration 3: — Effect of geographic differences

FM, a foreign specialty radio manufacturer, also exports its radios to a controlled U.S. distributor, AM, which serves the United States. FM also exports its radios to uncontrolled distributors to serve in South America. The product in the controlled and uncontrolled transactions is the same, and all other circumstances

surrounding the controlled and uncontrolled transactions are substantially the same, other than the geographic differences. The geographic differences e.g. differences in purchasing power, levels of economic development, etc, in two different geographies, are likely to have a material effect on price, for which accurate adjustments cannot be made and hence the transactions are not comparable. Thus, CUP method cannot be applied.

Illustration 4: — External Commercial Borrowing

Pharma Ltd, an Indian company has borrowed funds from its parent company at LIBOR plus 150 basis points. The LIBOR prevalent at the time of borrowing is 4% for US\$, thus its cost of borrowings is 5.50%. The borrowings allowed under the External Commercial Borrowings guidelines issued under FEMA, for example, say is LIBOR plus 250 basis points, then it can be said that Pharma's borrowing at 5.50% is less than 6.50% and thus at arm's length.

In this connection, one may rely on Rule 10B (2) (d) which specifies that the comparability of an international transaction with an uncontrolled transaction shall be judged with reference to the laws and government orders in force.

Method 2: Computation of Arm's Length Price:

RESALE PRICE METHOD (RPM)

The RPM is a direct method which comprises the gross margins (i.e. gross profit over sales) earned in transactions between related and unrelated parties for the determination of the arm's-length price. The RPM method requires high level of functional comparability and is mainly applicable where the controlled party is a distributor.

Rule 10B (1) (b) of the Income Tax Rules read with sub-section (2) of Section 92C, the RPM method is described as under:

- (i) The price at which property purchased or services obtained by the enterprises from an associated enterprise is resold or are provided to an unrelated enterprise, is identified;
- (ii) Such resale price is reduced by the amount of a normal gross profit margin accruing to the enterprise or to an unrelated enterprise from the purchase and resale of the same or similar property or from obtaining and providing the same or similar services, in a comparable uncontrolled transaction, or a number of such transactions;
- (iii) The price so arrived at is further reduced by the expenses incurred by the enterprise in connection with the purchase of property or obtaining of services;
- (iv) The price so arrived at is adjusted to take into account the functional and other differences including differences in accounting practices, if any, between the international transaction and the comparable uncontrolled transactions, or between the enterprises entering into such transactions, which could materially affect the amount of gross profit margin in the open market;
- (v) The adjusted price arrived at under sub-clause (iv) is taken to be an arm's length price in respect of the purchase of the property or obtaining of the services by the enterprise from the associated enterprise.²

Terms used:

1) Transaction: As per Sec.92F(v) the term "transaction" which is defined to include an arrangement, understanding or action in concert, whether or not such arrangement, understanding or action is formal

2 Definition of RPM as per OECD Guidelines :

"a transfer pricing method based on the price at which a product that has been purchased from an associated enterprise is resold to an independent enterprise. The resale price is reduced by resale price margin. What is left after subtracting the resale price margin can be regarded, after adjustment for other costs associated with the purchase of the product (i.e. custom duties) as an ALP of the original transfer of property between the associated enterprises".

For the above purposes, the OECD Guidelines define Resale Price Margin as: "a margin representing the amount out of which a reseller would seek to cover its selling and other operating expenses and, in the light of the functions performed (taking into account assets used and risks assumed), make an appropriate profit."

or in writing or whether or not it is intended to be enforceable by legal proceeding.

"Transaction" includes a number of closely linked transactions.

- 2) **"Uncontrolled Transaction"**: a transaction between enterprises other than associated enterprises, whether resident or non-resident.
- 3) **"Comparable Transaction"**: The OECD guidelines further states that an uncontrolled transaction is comparable to a controlled transaction (i.e. it is a comparable uncontrolled transaction) for purposes of the CUP method if one of the two conditions is met:
 - i) None of the differences(if any) between the transactions being compared or between the enterprises undertaking those transactions could materially affect the price in the open market;
 - ii) Reasonably accurate adjustments can be made to eliminate the material effects of such differences.
- 4) **International transaction** : Sub-section (1) of Sec.92B defines the term as follows:

"For the purposes of this section and sections 92,92C,92D and 92E, "international transaction" means a transaction between two or more associated enterprises, either or both of whom are non-residents, in the nature of purchase, sale or lease of tangible or intangible property, or provision of services, or lending or borrowing money, or any other transaction having a bearing on the profits, income, losses or assets of such enterprises, and shall include a mutual agreement or arrangement between two or more associated enterprises for the allocation or apportionment of, or any contribution to, any cost or expense incurred or to be incurred in connection with a benefit, service or facility provided or to be provided to any one or more of such enterprises."
- 5) **"Property"** includes goods, articles or things and intangible property.
- 6) **"Services"** include financial services.
- 7) **Controlled party**:
- 8) **Gross margin**: Gross margin is calculated as a percentage on sales, earned in transactions between related and unrelated parties for the determination of the arm's length price.
- 9) **Tested Party**: As per the OECD guidelines, the tested party is ought to be the enterprise that offers a higher degree of comparability or would require lesser adjustment with uncontrolled companies. Consequently, the enterprise that requires the least amount of adjustments as compared to potentially comparable companies should be the tested party. Hence, in most cases, the tested party will be the least complex of the controlled tax payers and will not own valuable intangible property or unique assets that distinguish it from potential uncontrolled comparables.

Applicability of RPM:

This method is ideally suited to measure the value of the services performed by a buyer or seller of goods who generally acts as a distributor and does not add a significant value to goods sold. It is applicable even with differences in products, as long as the functions performed are similar. However, it is less useful where goods are further processed or in nature of raw material.

RPM is applied in a backward process. From the sale price to an unrelated third party, appropriate adjustments to the gross margin is made by comparing the transaction to other, third party transactions.

- (1) This method can be applied when there are no comparable uncontrolled sales and an applicable resale price is available within a reasonable time before or after the controlled sale.
- (2) Where the reseller does not add substantial value to the goods through physical modification. Limited enhancements such as packaging, repackaging, labeling or minor assembly ordinarily do not generally affect the use of RPM. Hence, RPM may not be applicable if the reseller performs value added functions.
- (3) RPM is more accurate where it is realized within a short time of the reseller's purchase of goods.
- (4) RPM is ordinarily used when the controlled reseller does not use intangible property to add substantial value to the products.
- (5) RPM is applied when the reseller does not alter the physical characteristics of the product.
- (6) Where the reseller has the exclusive right to resell the goods, the gross margin would be affected by factors like size of market, existence of substitute goods, and level of activity undertaken by the reseller.

Adjustments to RPM:

Where it is not possible to compare the transactions even by comparing with the transactions entered by the third party and that the differences have a material effect on price, necessary adjustments shall have to be made to eliminate the effect of such differences.

- (1) **Inventory adjustment:** An adjustment to operating income for ratios other than the ROA is necessary if a comparable company has a different relative level of inventory holding than the tested party. The inventory adjustment thus estimates the implicit capital cost of holding inventory ("AVGINV").
- (2) **Accounts payable adjustment:** This adjustment eliminates the implicit interest in the price of goods purchased on other than a cash basis from supplier. The purpose of this adjustment is to identify and eliminate from profit comparisons the effect of companies' decisions on how to finance purchases.
- (3) **Accounts receivable adjustment:** This adjustment eliminates the implicit interest in the price of goods or services sold on other than cash basis to customer. The purpose of this adjustment is to identify and eliminate the profit related to finance decisions of the seller. A company selling on cash basis would receive a lower price than a company selling the goods on terms, because selling on terms subjects the seller to a capital cost that will be reflected in the price.
- (4) **Contractual terms:** where the contractual terms includes the provisions like warranties, terms of credit, facilities for transportation and transshipment of goods, facilities related to quantity of purchase or sale of goods.
- (5) **The level of the market:** The adjustments also considers the level of the market, i.e. wholesale, retail, etc.
- (6) **Foreign currency adjustments:** In case of an export transaction, the foreign exchange loss because of depreciation of the USD is disadvantageous to the exporter and it results in lower margin. The comparable companies having domestic sale transactions will be having higher margin. If the tested party imports raw material from foreign company, being an associated enterprise, it will be exposed to foreign exchange risk. The comparable companies using raw material procured from India will not be exposed from this risk. If the comparable companies hedge, the forex risk using financial instruments adjustment for the same is required for the tested party which does not perform the hedging.

Conditions for application of Resale Price Method:

"Where an assessee, being an associated enterprise as per Sec. 92A of the Act had entered into a transaction as per Sec. 92B of the Act, involving transfer of goods or rendering of services as per Sec.92F (v) of the Act, and where it is not possible to compare the transactions even by comparing with the transactions entered by the third party and that the differences have a material effect on price, the Assessing officer shall for the purpose of determining the Arm's Length price having satisfied that the transactions could materially affect the price in the open market and hence comparable; then reasonable adjustments shall be made for such comparable to eliminate the material effects of such differences for the purpose of determining the Arm's Length Price. The adjustments for differences shall be made for:

- i) FAR Analysis;
- ii) Quality of the product or service;
- iii) Contractual terms;
- iv) Level of the market;
- v) Inventory turnover;
- vi) Intangible property associated with the sale;
- vii) Foreign currency risks;
- viii) Transport costs;
- ix) Data and assumptions;
- x) Extra ordinary market conditions; and
- xi) Other measurable difference."

Accountant's Report:

The arm's length price as computed under this method shall be audited and certified Form No. 3CEB vide Rule 10E.

Steps in Computation of Arm's Length Price as per Resale Price Method:

Step I: Identify the price at which property purchased or services obtained by the enterprise from an associated enterprise are resold or are provided to an **unrelated enterprise**.

Step II: Reduce the normal GP margin accruing to the enterprise or to an unrelated enterprise from the purchase and resale of the same or similar property or from (II) obtaining and providing the same or similar services, in a comparable uncontrolled transaction/(s).

Step III: Reduce expenses incurred by the enterprise in connection with the purchase of property or obtaining of services.

Step IV: Adjust for functional and other differences, including differences in accounting practices, if any, between the international transaction and the comparable uncontrolled transactions, or between the enterprises entering into such transactions, which could materially affect the amount of gross profit margin in the open market.

Step V: Arm's Length Price = Step I

Less: Step II & III

Add / Less: Step IV.

Computation of Arm's Length Price as per Resale Price Method

No.	Particulars	Amount (₹)
1	Price at which property purchased or services obtained by the enterprise from an associated enterprise are resold or are provided to an unrelated enterprise .	XXXX
2	Add/Less: Adjustments for differences, having material affect on the price in the open market:	
	i) Adjustments for FAR Analysis	XXXX
	ii) Quality of the product or service	XXXX
	iii) Characteristics of the Property	XXXX
	iv) Contractual terms	XXXX
	v) Level of the market	XXXX
	vi) Inventory turnover	XXXX
	vii) Intangible property associated with the sale	XXXX
	viii) Foreign currency risks	XXXX
	ix) Data and assumptions	XXXX
	x) Extra ordinary market conditions	XXXX
3	Arm's Length Price for the purpose of Sec.92C (1 -2)	XXXX

Illustrations on RESALE PRICE METHOD

Illustration 5: Megabyte Inc. of France and R Ltd. of India are associated enterprises. R Ltd. imports 3,000 compressors for Air Conditioners from Megabyte Inc. at ₹7,500 per unit and these are sold to Pleasure Cooling Solutions Ltd at a price of ₹11,000 per unit. R Ltd. had also imported similar products from Cold Inc. Poland and sold outside at a Gross Profit of 20% on Sales.

Megabyte Inc. offered a quantity discount of ₹1,500 per unit. Cold Inc. could offer only ₹500 per unit as Quantity Discount. The freight and customs duty paid for imports from Cold Inc. Poland had cost R Ltd. ₹ 1,200 per piece. In respect of purchase from Cold Inc., R Ltd. had to pay ₹200 only as freight charges.

Determine the Arm's Length Price and the amount of increase in Total Income of R Ltd.

(a) Computation of Arm's Length Price of Products bought from Megabyte Inc., France by R Ltd, India

Particulars	Amount (₹)
Resale Price of Goods Purchased from Megabyte Inc.	11,000
Less: Adjustment for Differences –	
a) Normal Gross Profit Margin at 20% of Sale Price [20% x ₹11,000]	2,200
b) Incremental Quantity Discount by Megabyte Inc. [₹1,500 - ₹500]	1,000
c) Difference in Purchase related Expenses [₹ 1,200 - ₹200]	1,000
Arms Length Price	6,800

(b) Computation of Increase in Total Income of R Ltd

Particulars	Amount (₹)
Price at which actually bought from Megabyte Inc. of France	7,500
Less: Arms Length Price per unit under Resale Price Method	(6,800)
Decrease in Purchase Price per unit	700
No. of units purchased from Megabyte Inc.	3,000 units
Increase in Total Income (3,000 units x ₹700)	₹21,00,000

Illustration 6:

A Ltd. an Indian company purchases microwave ovens from its parent company situated in US. The same are sold to third party customers in India. The price of the microwave oven set is ₹ 9,000 and the same is sold for ₹ 12,000. A Ltd. also purchases washing machines from another company in UK who is not a related party for ₹ 10,000. The washing machines are sold to customers in India for ₹ 12,000. A Ltd. performs the same functions in case of both purchases of microwave oven and washing machines, that is reselling the goods to the Indian customer. Both the products are sold in the same market and in the same conditions.

Analysis

In this case A Ltd. has transactions with the US Company and the UK Company. The transactions with the US Company are controlled transactions and those with the UK Company are uncontrolled transactions. However, the functions performed in case of both type of transactions are same/similar, that is distributing the same to the third party customers in India without adding any value. Further, the product purchased from US Company and from UK Company are both consumer durables. Though the products need not be similar but the functions are similar and both products broadly fall within the same industry (the white goods industry segment).

Hence, for the purpose of RPM, these transactions can be taken as the basis of comparison. The RPM for this product would be calculated as under:

Particulars	Microwave Oven (₹)	Washing Machine (₹)
Sale Value	12,000	12,000
Cost of Goods Sold	9,000	10,000
Other Expenses	1,500	1,000
Gross Profit (GP)	1,500	1,000
Gross Profit Margin (%)	12.5	8.33

In this case the gross profit margin in case of purchases made from related party is higher as compared to the margin in respect of purchases made from the unrelated party. Hence the controlled transactions are at Arm's Length.

Method 3: Computation of Arm's Length Price:

COST PLUS METHOD (CPM)

The cost plus method determines an arm's length price by adding an appropriate gross profit margin to an associated entity's costs of producing products or services. The gross profit margin should reflect the functions performed by an entity and should include a return for capital used and risks accepted by the entity. The gross profit margin for a controlled transaction is calculated by reference to the gross profit margins made in comparative uncontrolled transactions.

Rule 10B (1) (c) of the Income Tax Rules read with sub-section (2) of Section 92C, the Cost Plus Method (CPM) method is described as under:

- (i) the direct and indirect costs of production incurred by the enterprise in respect of property transferred or services provided to an AE, are determined;
- (ii) the amount of a normal gross profit mark-up to such costs (computed according to the same accounting norms) arising from the transfer or provision of the same or similar property or services by the enterprise, or by an unrelated enterprise, in a comparable uncontrolled transaction, or a number of such transactions, determined;
- (iii) the normal gross profit mark-up referred to in sub-clause (ii) is adjusted to take into account the functional and other differences, if any, between the international transaction and the comparable uncontrolled transactions, or between the enterprises entering into such transactions, which could materially affect such profit mark-up in the open market;
- (iv) the cost referred to in sub-clause (i) are increased by the adjusted profit mark-up arrived at under sub-clause (iii);
- (v) the sum so arrived at is taken to be an ALP in relation to the supply of the property or provision of services by the enterprise.³

³ Definition of CPM as per OECD Guidelines:

"A transfer pricing method using the costs incurred by the supplier of property (or services) in a controlled transaction. An appropriate cost plus mark up is added to this cost, to make an appropriate profit in light of the functions performed (taking into account assets used and risks assumed) and the market conditions. What is arrived at after adding the cost plus mark up to the above costs may be regarded as an ALP of the original controlled transaction."

Scope:**Application of CPM:**

- 1) The CPM is ordinarily used where:
- 2) Semi finished goods are sold between related parties;
- 3) Contract/Toll Manufacturing arrangements;
- 4) Long-term buy — and supply arrangements have been entered; and
- 5) Services are provided.

Special consideration while applying the CPM:

- 1) The third party comparable mark-up on a comparable cost. For example, if the supplier to which reference is made in applying the cost plus method in carrying out its activities uses leased business assets, the cost basis may not be comparable without adjustment if the supplier in the controlled transaction owns its business assets.
- 2) The differences in the level and type of expenses should also be considered while applying the CPM.
- 3) The assets employed and functions performed by the parties have also to be taken into account while applying the CPM.
- 4) Appropriate adjustments should be made to ensure that there is accounting consistency between the controlled and uncontrolled transactions.
- 5) The mark-ups must be measured consistently between the associated enterprises and the independent enterprises.
- 6) If the tested party employs valuable and unique assets, it would be difficult to apply this method, as comparables may not be available.

Degree of Reliability:

The application of CPM is less likely to be reliable if material differences exist between the controlled and uncontrolled transactions with respect to:

- 1) intangibles;
- 2) cost structure;
- 3) business experience;
- 4) management efficiency;
- 5) functions performed; and
- 6) products.

Adjustments to CPM:

Some of the factors in respect of which adjustments may be required for application of CPM are:

- 1) Complexity of manufacturing or assembling;
- 2) Manufacturing, production and process engineering;
- 3) Procurement, purchasing, and inventory control activities;
- 4) Testing functions;
- 5) Selling, general and administrative expenses;
- 6) Accounting treatment of costs between controlled and uncontrolled transactions
- 7) Foreign currency risks; and
- 8) Contractual terms for example scope and terms of warranties provided, sales or purchase volume, credit terms, transport terms

Issues to be considered while applying the CPM

In this method, the direct and indirect costs of production are to be identified. The terms "direct" or "indirect" costs are however not defined. A reference may therefore be made to the industry practice.

In identifying and adopting the direct and indirect costs, the following factors would also have to be borne in mind:

- (a) utilisation of the plant; for example, if the plant has been under-utilised;
- (b) method of absorbing costs; absorption costing method is normally to be preferred;
- (c) in abnormal situations, marginal-costing principles may have to be applied; for example, use of incremental costing or marginal costing can be applied.

Under the Indian Companies Act, there is no requirement to report distinctly the gross profits of companies. Thus, there is no consistency in the accountancy practices across the industry. The non-availability of gross margins of comparable companies from public databases makes the application of this method rare, and hence in practice this method is rarely used for testing the controlled transactions.

Conditions for application of Cost Plus Method:

"Where an assessee, being an associated enterprise as per Sec. 92A of the Act had entered into a transaction as per Sec. 92B of the Act, involving transfer of goods or rendering of services as per Sec. 92F (v) of the Act, and where

- (i) Semi-finished goods are sold between related parties;
- (ii) Contract/toll manufacturing arrangements;

- (iii) Long-term buy- and supply arrangements have been entered; and
- (iv) Services are provided;

the Assessing officer, for the purpose of determining the Arm's Length price, to eliminate the effect on valuation, shall cause to make appropriate adjustments to ensure accounting consistency between the controlled and uncontrolled transactions, considering the third party comparable mark-up on a comparable cost.

The adjustments for differences shall be made for:

- i) FAR Analysis;
- ii) Complexity of manufacturing or assembling;
- iii) Characteristics of the Property;
- iv) Manufacturing, production and process engineering;;
- v) Procurement, purchasing and inventory control activities;
- vi) Testing functions;
- vii) Selling, general and administrative expenses;
- viii) Accounting treatment of costs between controlled and uncontrolled transactions;
- ix) Intangible property associated with the sale;
- x) Foreign currency risks;
- xi) Contractual terms"

Accountant's Report:

The arm's length price as computed under this method shall be audited and certified in Form No. 3CEB vide Rule 10E.

Steps in Computation of Arm's Length Price using Cost Plus Method

Step I: Determine the direct and indirect costs of production incurred by the enterprise in respect of property transferred or services provided to an associated enterprise.

Step II: Determine the normal GP mark-up to such costs (computed under same accounting norms) arising from the transfer or provision of the same or similar property or services by the enterprise, or by an unrelated enterprise, in a comparable uncontrolled transaction(s).

Step III: Adjust the normal gross profit mark-up referred to in Step II to take into account the functional and other differences, if any, between the international transaction and the comparable uncontrolled transactions, or between the enterprises entering into such transactions, which could materially affect such profit mark-up in the open market.

Step IV: Arm's Length Price = Step I **Add** Step III

Computation of Arm's Length Price as per Cost Plus Method

No.	Particulars	Amount (₹)
1	Price at which property purchased or services obtained by the enterprise from an associated enterprise are resold or are provided to an unrelated enterprise .	XXXX
2	Add/Less: Adjustments for differences, having material effect on the price in the open market:	
	i) Adjustments for FAR Analysis	XXXX
	ii) Quality of the product or service	XXXX
	iii) Characteristics of the Property	XXXX
	iv) Contractual terms	XXXX
	v) Level of the market	XXXX
	vi) Inventory turnover	XXXX
	vii) Intangible property associated with the sale	XXXX

3	Arm's Length Price for the purpose of Sec.92C (1 -2)	XXXX

Illustrations on COST PLUS METHOD

Illustration 7: Branco Inc., French Company, holds 45% of Equity in the Indian Company Chirag Technologies Ltd (CTL). CTL is engaged in development of software and maintenance of the same for customers across the globe. Its clientele includes Branco Inc. During the year, CTL had spent 2,400 Man Hours for developing and maintaining software for Branco Inc, with each hour being billed at ₹1,300. Costs incurred by CTL for executing work for Branco Inc. amount to ₹ 20,00,000.

CTL had also undertaken developing software for Harsha Industries Ltd for which CTL had billed at ₹2,700 per Man Hour. The persons working for Harsha Industries Ltd. and Branco Inc. were part of the same team and were of matching credentials and caliber. CTL had made a Gross Profit of 60% on the Harsha Industries work.

CTL's transactions with Branco Inc. are comparable to the transactions with Harsha Industries, subject to the following differences:

- Branco Inc. gives technical know-how support to CTL which can be valued at 8% of the normal gross profit. Harsha Industries does not provide any such support.
- Since the work for Branco involved huge number of man hours, a quantity discount of 14% of Normal Gross Profits was given.
- CTL had offered 90 Days credit to Branco the cost of which is measured at 2% of the Normal Billing Rate, No such discount was offered to Harsha Industries Ltd.

Compute ALP and the amount of increase in Total Income of Chirag Technologies Ltd.

(a) Computation of Arms Length Gross Profit Mark Up

Particulars	%	%
Normal Gross Profit Mark Up		60.00
Less: Adjustment for differences:(which had the effect of reducing the profit of CTL)		
(i) Technical support from Branco Inc. (8% of Normal Gross Profit 60%)	4.80	
(ii) Quantity Discount @ 14% of Normal Gross Profit (14% of 60%)	8.40	13.20
Normal Gross Profit Rate of CTL, had the transaction been unrelated and there been no technical support or quantity discount		46.80
Add: Cost of Credit to Branco Inc. @2% of Normal Gross Profit (2% of Gross Profit 60%) [since this had effect of reducing the gross profit of CTL]		1.20
Arms Length Gross Profit Mark-up		48.00

(b) Computation of Increase in Total Income of CTL for services to Branco Inc.

Particulars	Amount (₹)
Cost of Services provided to Branco	20,00,000
Billed Value at Arm's Length [Cost / (100 – Arm's Length Mark) = ₹20,00,000/ (100% -48%]	38,46,154
Less: Actual Billing to Branch Inc. [2,400 x 1,300]	31,20,000
Increase in Total Income of Branco Inc.	7,26,154

Illustration 8:

Indco, an Indian company, manufactures specialized stamping equipment for uncontrolled companies in the manufacturing industry using designs supplied to them by the arm's length parties. Indco realizes its costs plus a mark-up of 8% on this custom manufacturing. Under the arm's length agreements, costs are defined as the sum of direct costs (i.e., labour and materials) plus 50% of the direct costs. The additional 50% of direct costs is intended to approximate indirect costs, including overhead. Indco also manufactures stamping machines for its Chinese subsidiary, Chco, using designs supplied by Chco. Under the Chco agreement, costs are defined as the sum of the direct costs plus the indirect costs, including overhead is also computed at 50% of direct costs, and the mark-up earned is 10% of the direct and indirect costs.

The cost plus mark up is calculated as follows:

Calculation of mark-up under the uncontrolled transaction

Particulars	Amount(₹)
Direct costs	1,000
Indirect costs(50% * 1,000)	500
Total costs	1,500
Mark-up 8%	120

Calculation of mark-up under the controlled transaction

Particulars	Amount(₹)
Direct costs	3,000
Indirect costs (50% * 1,000)	1,500
Total costs	4,500
Mark-up earned on controlled transactions at 10%	450

Calculation of arm's length cost mark up

Cost plus markup from uncontrolled transactions	8%
Cost plus mark up from controlled transactions	10%

Thus the controlled transactions are at Arm's Length.

However, in practice, globally it is found that it is not feasible to apply this method.

Illustration 9: Happy Ltd. , an Indian Company is a wholly-owned subsidiary of Happy Inc. Happy Ltd. is engaged in provision of software development services to its associated enterprise Happy Inc. The following is the income statement if Happy Ltd. for the year ended 31.3.2010

Happy Ltd.	All figures in Rupees '000
Revenue from associated enterprises	
- Total operating income	95,000
Costs	
- Pay roll	40,000
- Rent	16,500
- Depreciation	9,500
- General administration expenses	8,200
- Other operating expenses	11,800
Total operating expenses	86,000
Operating profit	9,000
Net Cost plus mark-up (%) [Operating profit /total operating expenses]	10.46%

Conclusion: For the financial year ended 31st March, 2010, Happy Ltd has earned a Net Cost Plus mark-up of 10.46% from its associated enterprises. Accordingly, it is reasonable to conclude that Happy Ltd's international transactions with Happy Inc., relating to the provision of software services, appears to be consistent with the arm's length standard from the Indian transfer pricing perspective.

Use of multi-year data

As per Rule 10B (4), the use of the data relating to the financial year in which such international transaction has been entered into, must be considered. Data for earlier years may also be used, if such data reveals facts, which could have an influence on the determination of transfer prices in relation to the transactions being compared.

The purpose of using multiple-year data is to ensure that the outcomes for the relevant year

Implications of tested party earning lower than arm's length mark-up

If Happy Ltd's actual mark-up is less than the arm's length mark-up benchmark of 11.77%, it would need further examination as to whether it is compliant with the arm's length standard from an Indian Transfer pricing perspective. We may have two different scenarios:

Scenario 1: where Happy Ltd's margin is below the arm's length mark-up but within the range permissible under the proviso to Sec.92C (2)

Scenario 2: Where Happy Ltd's margin falls below the lower limit of the range of permissible under the proviso.

The calculation of range of permissible margins applying the proviso is shown in Table A. The arithmetic mean of 11.77% is applied to the costs of the tested party (₹86,000) to derive the arm's length price of the international transaction (refer col.2 –figure indicated as ALP ₹ 96,122) is a balancing figure and refers to the arm's length price of the international transaction.

The adjustment of (+/-) 5 percent permitted by the proviso is applied to the ALP to give the range of values that would be considered at arm's length. Further, as the international transactions consists of export of services, the lower end of the range is 95% of ALP ₹91,316 (Col.4) representing the lowest possible transaction value that would be considered compliant with the arm's length principle.

Table A

Calculation of Range of outcomes that would meet the arm's length standard applying the proviso to Section 92C (2)

Profit & Loss Account for the year ended 31st March, 2010 [All figures in Rupees '000]

(c) Operating Profit [(a) – (b)]	9,000	10,122	1		14,928		5,316	
Net Cost Mark-up (%)	10.46%							
Arm's length mark-up [i.e. arithmetical mean of the Net Cost Plus mark-up(%) of broadly comparable independent companies]		11.77%						
Range of net cost plus mark-ups that would be considered compliant with the arm's length standard applying the +/- 5% variation permitted by proviso to Sec.92C(2)					17.36%		6.18%	
[= Operating Profit / Operating expenses]								

**Notes:**

- Operating profit in Col.2 is a derived figure by applying mark-up of 11.77% to the tested party's total operating expenses of ₹86,000
- Revenue from associated enterprises (international transaction) in Col.2 is the balancing figure considering operating profit derived in Col.1 above and the total operating expenses remaining unchanged at ₹86,000. This revenue figure is the Arm's Length Price (ALP).
 - Revenue from associated enterprises (international transaction) in Col.3 represents the upper limit of the range permissible under the proviso the Section 92C(2)
 - Revenue from associated enterprises (international transaction) in Col.4 represents the lower limit of the range permissible under the proviso the Section 92C(2)
- The Net Cost Plus Mark-up earned by the tested party (col.1) is higher than the arm's length mark-up (col.2), accordingly the international transaction complies with the arm's length principle.

Workings: Computation of Weighted Net Cost-plus mark-ups of broadly comparable independent companies. (on the basis of hypothetical data of 5 such companies for 5 years)

(c) Operating Profit [(a) – (b)]	5,000	10,122	1		14,928		5,316	
Net Cost Mark-up (%)	5.82%							
Arm's length mark-up [i.e. arithmetical mean of the Net Cost Plus mark-up (%) of broadly comparable independent companies]		11.77%						
Range of net cost plus mark-ups that would be considered compliant with the arm's length standard applying the +/- 5% variation permitted by proviso to Sec.92C(2)					17.36%		6.18%	
[= Operating Profit / Operating expenses]								

Notes:

- Operating profit in Col.2 is a derived figure by applying mark-up of 11.77% to the tested party's total operating expenses of ₹86,000
- Revenue from associated enterprises (international transaction) in Col.2 is the balancing figure considering operating profit derived in Col.1 above and the total operating expenses remaining unchanged at Rs 86,000. This revenue figure is the Arm's Length Price (ALP).
 - Revenue from associated enterprises (international transaction) in Col.3 represents the upper limit of the range permissible under the proviso the Section 92C (2)

- (c) Revenue from associated enterprises (international transaction) in Col.4 represents the lower limit of the range permissible under the proviso to Section 92C (2)
3. The Net Cost Plus Mark-up earned by the tested party (col.1) falls below the lower limit of the range permissible under proviso 92C(2) [Col.(4)] . This situation may expose the tested party to an adjustment to the price charged by it in its international transaction. Such adjustment, if recommended to be made by the TPO to the AO should amount to ₹316 As explained hereunder.
4. Quantum of adjustment:
- | | |
|---|--------|
| (i) Value of the international transaction | 91,000 |
| (ii) Arm's length price | 96,122 |
| (iii) Arm's length price applying the proviso to Sec.92C(2) | 91,316 |
| (iv) Adjustment (iii) – (i) | 316 |

Method 4: Computation of Arm's Length Price:

PROFIT SPLIT METHOD (PSM)

The PSM evaluates whether the allocation of the combined operating profit or loss attributable to one or more controlled transactions is arm's length with reference to the relative value of each controlled taxpayer's contribution to that combined operating profit or loss.

The combined operating profit or loss must be derived from the most narrowly identifiable business activity of the controlled taxpayers for which data is available that includes the controlled transactions.

Objective of PSM:

- 1) To determine the relative value of each controlled taxpayer's contribution;
- 2) To assess the impact of the controlled taxpayer's contribution on the success of the relevant business activity;
- 3) To identify and evaluate the impact of the controlled taxpayer's contribution that reflects the functions performed, risks assumed, and resources employed.
- 4) To eliminate the effect on profits of special conditions made or imposed in a controlled transaction (or in controlled transactions that are appropriate to aggregate) by determining the division of profits that independent enterprises would have expected to realize from engaging in the transaction or transactions.
- 5) To identify the profit to be split for the associated enterprises from the controlled transactions in which the associated enterprises are engaged.
- 6) To allocate the profits between the associated enterprises on an economically valid basis that approximates the division of profits that would have been anticipated and reflected in an agreement made at arm's length.

The Indian TPR regulations provide that PSM is mainly applicable to international transactions involving transfer of unique intangibles or in multiple international transactions which are so interrelated that they cannot be evaluated separately for the purpose of determining the arm's length price.

Rule 10B (1)(d) of the Income Tax Rules read with sub-section (2) of Section 92C, the Profit Split Method (PSM) method is described as under:

- (i) the combined net profit of the AE arising from the international transaction in which they are engaged, is determined;

- (ii) the relative contribution made by each of the AE to the earning of such combined net profit, is then evaluated on the basis of the functions performed, assets employed or to be employed and risks assumed by each enterprise and on the basis of reliable external market data which indicates how such contribution would be evaluated by unrelated enterprises performing comparable functions in the similar circumstances;
- (iii) the combined net profit is then split amongst the enterprises in proportion to their relative contributions, as evaluated under sub-clause (ii);
- (iv) the profit thus apportioned to the assessee is taken into account to arrive at an ALP in relation to the international transaction.⁴

Terms Used:

- (1) **Comparable Residual Profit:** A comparable profit split is derived from the combined operating profit of the uncontrolled taxpayers whose transactions and activities are similar to those of the controlled taxpayers in the relevant business activity.
- (2) **Residual Profit Split:** This is the residual profit which is apportioned to each party based on ownership of non-routine intangibles (i.e. network reach, efficiency of Sales & Marketing team, etc)
- (3) **Contribution Analysis:** Under this approach, the combined profits, which are the total profits from the uncontrolled transactions under examination, would be divided between the AEs based upon the relative value of the functions performed by each of the AEs participating in the controlled transaction, supplemented as much as possible by external market data that indicate how independent enterprises would have divided the profits in similar circumstances.

Residual Analysis: Under this analysis, the combined profit from controlled transactions under examination in two stages. In the first stage, each participant is allocated sufficient profit to provide it with a basic return appropriate for the type of transactions in which it is engaged. In the second stage, any residual profit (or loss) remaining after the first stage division would be allocated among the parties based on an analysis of facts and circumstances that might indicate how this residual profit would have been divided between independent enterprises.

Applicability of PSM (Profit Split Method)

The Indian TPR affirms that the PSM may be applicable mainly in the following cases:

- a) Transactions involving transfer of unique intangibles;
- b) Multiple inter-related international transactions which cannot be evaluated separately for determining the ALP of any one transaction.
 - (i) The extent of economies of backward and forward integration, the existence of intangibles on both sides of the transaction, and complex functional and transactional structures may limit the use of standard approaches to economic analysis for transfer pricing purposes (i.e. performing comparable company searches to apply the TNMM). In those circumstances, the arm's length nature of transactions may be better evaluated by considering the transaction from an end-to-end perspective, and thus PSM can be applied.
 - (ii) This method can be used in situations where economies of integration differentiate the tested party from the comparables, provided these are taken into account in the principle for

⁴ Definition of PSM as per **OECD Guidelines:**

"A transactional profit method that identifies the combined profit to be split for the associated enterprises from a controlled transaction (or controlled transactions that is appropriate to aggregate) and then splits those profits between the associated enterprises based upon an economically valid basis that approximates the division of profit that would have been anticipated and reflected in an agreement made at arm's length."

allocating profits. The method enables accounting for valuable intangibles being developed on both sides of the transaction.

- (iii) The allocation of profit can be calculated based on principles that take into account the contribution of intangibles in the industry's or the group's value creation process.
- (iv) This method is also well suited to complex transactions where several entities are involved in the same functions and it is not possible to define precisely the scope of functions and responsibilities. While this method has not been widely used, it has been somewhat popular in the financial services industry.

Conditions for application of Profit Split Method (PSM):

"Where an assessee, being an associated enterprise as per Sec. 92A of the Act had entered into a transaction as per Sec. 92B of the Act, involving transfer of goods or rendering of services as per Sec. 92F (v) of the Act, and where it is not possible to compare the transactions even by comparing with the transactions entered by the third party and that the differences have a material effect on price, the Assessing officer shall for the purpose of determining the Arm's Length price having satisfied that the transactions could materially affect the price in the open market and hence comparable; then reasonable adjustments shall be made for such comparable to eliminate the material effects of such differences for the purpose of determining the Arm's Length Price. The adjustments for differences shall be made for:

- i) FAR Analysis;
- ii) Quality of the product or service;
- iii) Contractual terms;

- iv) Level of the market;
- v) External Data and Internal Data;
- vi) Estimation of projected profits;
- vii) Contribution Analysis;
- viii) Residual Analysis."

Accountant's Report:

The arm's length price as computed under this method shall be audited and certified in Form No. 3CEB vide Rule 10E.

Steps in computation of Arm's Length Price using Profit Split Method:

This method is mainly applicable in international transactions involving transfer of unique intangibles or in multiple international transactions which are so inter-related that they cannot be evaluated separately for the purpose of determining the Arm's Length Price of any one transaction.

Step I: Determine the combined net profit of the associated enterprises arising from the international transaction in which they are engaged.

Step II: Determine the relative contribution made by each of the associated enterprises to the earning of such combined net profit. This is determined on the basis of the **FAR** Analysis:

- (a) **F**unctions performed;
- (b) **A**ssets employed;
- (c) **R**isks assumed by each enterprise;
- (d) on the basis of reliable external market data which indicates how such contribution would be determined by unrelated enterprises performing comparable functions in similar circumstances.

Step III: Split the combined net profit amongst the enterprises on the basis of reasonable returns and in proportion to their relative contributions, as determined in Step II. (**See note below**)

Step IV: Arm's Length Price - Profit apportioned to the assessee under Step III.

NOTE: Combined Net Profit shall be split as under:

III.A. First Split = Reasonable Return: Allocate an amount to each enterprise so as to provide it with a basic return appropriate for the type of international transaction with reference to market returns achieved in similar types of transactions by independent enterprises.

III.B. Second Split = Contribution Ratio: Allocate the residual net profit amongst the enterprises in proportion to their relative contribution.

III.C. Total Profit: Share of profit of each enterprise = **Step III.A + III.B**

Illustrations on PROFIT SPLIT METHOD

Illustration 10: NBR Medical Equipments Inc. (NBR) of Canada has received an order from a leading UK based Hospital for development of a hi-tech medical equipment which will integrate the best of software and latest medical examination tool to meet varied requirements. The order was for 3,00,000 Euros. To execute the order, NBR joined hands with its subsidiary Precision Components Inc. (PCI) of USA and Bioinformatics India Ltd (BIL), an Indian Company. PCI holds 30% of BIL. NBR paid to PCI and BIL Euro 90,000 and Euro 1,00,000 respectively and kept the balance for itself. In the entire transaction, a profit of Euro 1,00,000 is earned. Bioinformatics India Ltd incurred a Total Cost of Euro 80,000 in execution of its work in the above contract. The relative contribution of NBR, PCI and BIL may be taken at 30%, 30% and 40% respectively. Compute the Arm's Length Price and the incremental Total Income of Bioinformatics India Ltd, if any due to adopting Arms Length Price determined here under.

A	Share of each of the Associates in the Value of the Order	3,00,000
	Share of BIL [Given]	1,00,000
	Share of PCI [Given]	90,000
	Share of NBR [Amount Retained = 3,00,000 – 1,00,000 - 90,000]	1,10,000
B	Share of each of the Associates in the Profit of the Order	
	Combined Total Profits	1,00,000
	Share of BIL [Contribution of 40% x Total Profit € 1,00,000]	40,000
	Share of PCI [Contribution of 30% x Total Profit € 1,00,000]	30,000
	Share of NBR [Contribution of 30% x Total Profit € 1,00,000]	30,000

C	Computation of Incremental Total Income of BIL	
	Total Cost to BIL Ltd	80,000
	Add: Share in the Profit to BIL (from B above)	<u>40,000</u>
	Revenue of BIL on the basis of Arm's Length Price	1,20,000
	Less: Revenue Actually received by BIL	(1,00,000)
	Increase in Total Income of BIL	20,000

Illustration 11:

Indco, an Indian company, has developed and manufactures a robot to be used for multiple industrial applications. The robot is considered to be an innovative technological advance. Chco, a Chinese subsidiary of Indco, has developed and manufactures a software programme which incorporates the new programme in the robot and makes it more effective. The success of the robot is attributable to both companies for the design of the robot and the software programme.

Indco manufactures and supplies Chco with the robot for installing of the new software programme for assembly and manufacture of the robot. Chco manufactures the robot and sells to an arm's length distributor.

In light of the innovative nature of the robot and software, the group was unable to find comparables with similar intangible assets. Because they were unable to establish a reliable degree of comparability, the group was unable to apply the traditional transaction methods or the TNMM.

However, reliable data are available on robot and software manufacturers without innovative intangible property, and they earn a return of 10% on their manufacturing costs.

The total profits attributable to manufacture of robots are calculated as follows:

Particulars	Amount (₹)	Amount (₹)
Sales to the arm's length distributor		1,000
Deduct:		
Indco's manufacturing costs	200	
Chco's manufacturing costs	300	
Total manufacturing costs for the group		500
Gross Margin		500
Deduct:		
Indco's development costs	100	
Chco's development costs	50	
Indco's operating costs	50	
Chco's operating costs	<u>100</u>	300
Net profit		200
Indco's return to manufacturing (200 * 10%)		20
Chco's return to manufacturing (300 * 10%)		30
Residual profit attributable to development		150

The split of the residual profit has been considered on the basis of the development cost considering the significance of technology in the manufacturing process.

Based on proportionate development costs

Particulars	(₹)
Indco's share of residual profit $[100/(100+50)] * 150$	100
Chco's share of residual profit $[50/(100+50)] * 150$	50

Indco's transfer price is calculated as follows:

Particulars	Amount (₹)
Manufacturing costs	200
Development costs	100
Operating costs	50
Routine 10% return on manufacturing costs	20
Share of residual profit	100
Transfer price	470

Method 5: Computation of Arm's Length Price:

TRANSACTION NET MARGIN METHOD (TNMM)

Under the Transaction Net Margin Method (TNMM), an arm's length price is determined by comparing the operating profit of the "tested party" with the operating profit of an uncontrolled party engaged in comparable transactions. The tested party is the least complex of the controlled tax payers and does not own valuable intangibles that contribute to the resulting profits from its operations.⁵

Objectives of TNMM:

- (1) Computation of net profit margin realized by an AE from an international transaction to be made in relation to a particular factor such as costs incurred, sales, assets utilized, etc.
- (2) Aggregate the relevant controlled transactions to test whether the controlled transactions earn a reasonable margin as compared to uncontrolled transactions.
- (3) Benchmarking the dealings between the tested party and its associated enterprises on the basis of the margins earned by comparable uncontrolled companies.

Rule 10B (1)(e) of the Income Tax Rules read with sub-section (2) of Section 92C, the Transaction Net Margin Method (TNMM) is described as under:

- (i) the net profit margin realised by the enterprise from an international transaction entered into with an AE is computed in relation to costs incurred or sales effected or assets employed or to be employed by the enterprise or having regard to any other relevant base;
- (ii) the net profit margin realised by the enterprise or by an unrelated enterprise from a comparable uncontrolled transaction or a number of such transactions is computed having regard to the same base;
- (iii) the net profit margin referred to in sub-clause (ii) arising in comparable uncontrolled transactions is adjusted to take into account the differences, if any, between the international transactions and the comparable uncontrolled transactions, or between the enterprises entering into such transactions, which could materially affect the amount of net profit margin in the open market;
- (iv) the net profit margin realised by the enterprise and referred to in sub-clause (i) is established to be the same as the net profit margin referred to in sub-clause (iii);

⁵ The OECD Guidelines states that TNMM may be particularly sensitive to differences in business structure or management effectiveness between the controlled entities and the tested party, as these factors are likely to impact the operating profits generated across different entities.

- (v) the net profit margin thus established is then taken into account to arrive at an ALP in relation to the international transaction.”⁶

Application of the TNMM

- i) An analysis under the TNMM considers the profits of the associated enterprise that are attributable to the company as a whole or to similar functional activities, e.g., manufacturing, trading, etc. TNMM requires establishing comparability at a broad functional level, for example trading function, manufacturing activities, etc.
- ii) Only one party to the controlled transaction is analysed in applying TNMM. The party to the international transaction whose profitability is examined is known as the tested party.
- iii) The choice of the tested party depends upon the availability of the data. In general, TNMM is applied to the least complex of the entity involved in the controlled transaction. There are usually more comparable data available in respect of the least complex entities, and fewer adjustments would be required to account for the differences in the functions and risk between the controlled and uncontrolled transactions.
- iv) TNMM requires comparison between net margins derived from the operations of the uncontrolled parties and net margins derived by an AE from similar operations. Net margin is indicated by the rate of return on sales or cost or operating assets, and this forms the basis for TNMM.
- v) A functional analysis of the tested party or the independent enterprise, as the case may be, is required to determine whether the transactions are comparable and the adjustments that are required to be made to obtain reliable results. The tested party would have to consider other factors, like cost of assets of comparable companies, etc. while applying the return on assets measure.

Steps in computation of Arm's Length Price using Transaction Net Margin Method

Step I: Compute the net profit margin realised by the enterprise from an international transaction entered into with an associated enterprise, in relation to costs incurred or sales effected or assets employed by enterprise or having regard to any other relevant base.

Step II: Compute the net profit margin realised by the enterprise or by an unrelated enterprise from a **comparable uncontrolled transaction (s)**, having regard to the same base as in Step I.

Step III: Adjust the net profit margin as per Step II for differences, if any, which could materially affect amount of net profit margin in the open market:

- (a) between the international transaction and the comparable uncontrolled transactions, or
- (b) between the enterprises entering into such transactions.

Step IV: Net Profit Margin for uncontrolled transactions = Step II **Add/Less** Step III.

Step V: Arm's Length Price = Transaction Value x Net Profit Margin as per Step IV above.

Meaning of certain terms: For the computation of Arm's Length Price -

1. **“Transaction”** includes a number of closely linked transactions.
2. **“Uncontrolled Transaction”** means a transaction between unrelated enterprises, whether resident or non-resident.
3. **“Unrelated Enterprises”:** Enterprises are said to be unrelated, if they are not associated or deemed to be associated u/s 92A.

⁶ Definition of TNMM as per **OECD Guidelines:**

“a transactional profit method that examines the net profit margin relative to an appropriate base (e.g. costs, sales, assets) that a assessee realizes from a controlled transaction (or transactions that it is appropriate to aggregate).”

4. **“Uncontrolled conditions”**: Conditions which are not controlled or suppressed or moulded for achievement of pre-determined results are said to be uncontrolled conditions.
5. **“Property”** includes goods, articles or things, and intangible property.
6. **“Services”** include financial services.

Computation of Arm's Length Price as per Transaction Net Margin Method

No.	Particulars	Amount (₹)
1	Price at which property purchased or services obtained by the enterprise from an associated enterprise are resold or are provided to an unrelated enterprise .	XXXX
2	Add/Less: Adjustments for differences, having material affect on the price in the open market:	
	i) Adjustments for FAR Analysis	XXXX
	ii) Quality of the product or service	XXXX
	iii) Characteristics of the Property	XXXX
	iv) Contractual terms	XXXX
	v) Level of the market	XXXX
	vi) Inventory turnover	XXXX
	vii) Intangible property associated with the sale	XXXX
	viii) Foreign currency risks	XXXX
	ix) Data and assumptions	XXXX
	x) Extra ordinary market conditions	XXXX
3	Arm's Length Price for the purpose of Sec.92C (1 -2)	XXXX

Use of Profit Level Indicator (PLI)

In trying to benchmark the results of the tested party with that of unrelated parties i.e. comparable companies, by applying the TNMM, it is important to use appropriate PLIs. The choice of PLI is dependent upon the following which also includes:

- (a) the nature of the activities of the tested party,
- (b) the reliability of the available financial data with respect to comparable companies,
- (c) the extent to which a particular PLI is applicable to this data.

All PLIs not similar. The selection of the appropriate PLI depends on the structure and the business of the tested party. For example, Berry Ratio might be an apt PLI in case of the tax-payers that almost exclusively perform services and distribution activities. On the other hand, a manufacturing concern with an extensive capital investment in plant and equipment might require the application of the return on assets to determine the arm's length prices.

Use of Operating Margin

The operating margin (in this case the ratio of EBIT to Operating Revenue) is a profitability measure. EBIT is a measure of operating profit, which excludes the effect of company financing and taxation decisions as well as abnormal and extraordinary items.

The ratio is a useful indicator of comparative performance by showing the ability of a company to control its costs relative to its level of sales.

Illustrations on TRANSACTION NET MARGIN METHOD

Illustration 12: Fox Solutions Inc. a US Company, sells Laser Printer Cartridge Drums to its Indian Subsidiary Quality Printing Ltd at \$ 20 per drum. Doc Solutions Inc. has other takers in India for its Cartridge Drums, for whom the price is \$ 30 per drum. During the year, Fox Solutions had supplied 12,000 Cartridge Drums to Quality Printing Ltd.

Determine the Arm's Length Price and taxable income of Quality Printing Ltd if its income after considering the above is ₹45,00,000. Compliance with TDS provisions may be assumed and Rate per USD is ₹45. Also determine income of Doc Solutions Inc.

(A) Computation of Total Income of Quality Printing Ltd

Particulars	Amount (₹)	Amount(₹)
Total Income before adjusting for differences due to Arm's Length Price		45,00,000
	1,08,00,000	
Add: Difference on Account of adopting Arm's Length Price [12,000 x \$20 x ₹45]	<u>1,62,00,000</u>	
Less: Amount under Arm's Length Price[12,000 x \$ 30 x ₹45]	<u>(54,00,000)</u>	
Incremental Cost on adopting ALP u/s 92(3), Taxable Income cannot be reduced on applying ALP. Therefore, difference on account of ALP is ignored.		
Total Income of Quality Printing Ltd.		45,00,000

(B) Computation of Total Income of Fox Solutions Inc.

The provisions relating to taxing income of Fox Solutions Inc., on applying Arm's Length Price for transactions entered into by a Foreign Company is given in Circular 23 dated 23.7.1969, which is as follows:

- (I) Transactions Not Taxable in India:** Transactions will not be subject tax in India if transactions are on principal-to-principal basis and are entered into at ALP, and the subsidiary also carries on business on its own.
- (II) Transactions Taxable in India** if the Indian Subsidiary does not carry on any business on its own. The following are the other considerations in this regard -
 - a) Adopting ALP does not affect the computation of taxable income of Fox Solutions Inc. if tax has been deducted at source or if tax is deductible.
 - b) Where ALP is adopted for taxing income of the Parent Company, income of the recipient Company (i.e. Quality Printing Ltd) will not be recomputed.

Illustration 13: Khazana Ltd is an Indian Company engaged in the business of developing and manufacturing Industrial components. Its Canadian Subsidiary Techpro Inc. supplies technical information and offers technical support to Khazana for manufacturing goods, for a consideration of Euro 1,00,000 per year. Income of Khazana Ltd is ₹90 Lakhs. Determine the Taxable Income of Khazana Ltd if Techpro charges Euro 1,30,000 per year to other entities in India. What will be the answer if Techpro charges Euro 60,000 per year to other entitles. (Rate per Euro may be taken at ₹50.)

Computation of Total Income of Khazana Ltd

Particulars	Amount	Amount
When price charged for Comparable Uncontrolled Transaction	€ 1,00,000	€ 50,000
Price actually paid by Khazana Ltd [€1,00,000 x ₹50]	50,00,000	50,00,000
Less: Price charged in Rupees (under ALP) [€1,30,000 x ₹50] [€60,000 x ₹50]	65,00,000	30,00,000
Incremental Profit on adopting ALP (A)	(15,00,000)	20,00,000
Total Income before adjusting for differences due to Arm's Length Price	90,00,000	90,00,000
Add: Difference on account of adopting Arms Length Price [if (A) is positive]	NIL	20,00,000
Total Income of Khazana Ltd.	90,00,000	1,10,00,000

Note: u/s 92(3), Taxable Income cannot be reduced on applying ALP. Therefore, difference on account of ALP which reduces the Taxable Income is ignored.

Illustration 14:

Designer Dolls Ltd. (DDI), located in United States, has a subsidiary in India. The Subsidiary manufactures designer dolls, using the unique technology developed by DDI. The Subsidiary has been able to locate from the public data base similar independent doll manufacturer. The Subsidiary pays Royalty to DDI @ 10% on sales, which is part of operating costs, which is the only international transaction that needs to be benchmarked.

The following is the profitability of the two companies:

Particulars	Subsidiary Co. (₹)	Independent Co. (₹)
Net Sales	2,50,000	7,00,000
Cost of goods sold	1,50,000	4,00,000
Operating Costs(including Royalty of ₹ 25,000)	50,000	2,00,000
Net Profit	50,000	1,00,000
Operating Margin: Net Profit/Net Sales *100	20%	14.28%

Thus, as the net profit margins earned by the subsidiary are more than the margin earned by the Independent Co, the international transactions of the Subsidiary, i.e. Royalty paid of ₹ 25,000 is at arm's length.

Cost Cover Ratio

The cost coverage ratio measures the ability of a company to cover its operating expenses through operating revenue. Given the limitation of financial information publicly available, the operating expenses of a selected comparable company are the sum of its operating revenue less EBIT.

An example explaining the application of Operating margin is given below.

Illustration 15:

Indco, an Indian company produces a pen for itself and three foreign subsidiaries of its Swiss parent company. The foreign parent owns the rights to the product formulae for the pen. Although Indco has no internal comparable transactions, it has been able to locate data from a public data base, relating to a third party who manufactures similar pens. Indco has been able, after the appropriate functional analysis, to verify that the pen manufacturer is comparable. However, Indco cannot obtain the relevant information at the gross margin level. Therefore, it is unable to apply the CPM. The arm's

length manufacturer realizes a net mark-up of 10% on the cost of manufacturing pens.

The following is the comparison of the net cost plus earned by IndCo, vis-à-vis the independent manufacturer is calculated as follows:

Particulars	Amount (₹)
Indco's cost of goods sold	1,000
Indco's operating expenses	300
Total costs	1,300
Sales Price earned by IndCo.	1,430
Markup earned (₹ 1430 – ₹ 1300)	130
Net Cost plus earned by IndCo ($130/1300 \times 100$)	10%
Net Cost plus earned by Third Party Manufacturer	10%

Thus, IndCo's transactions are at arm's length.

Return on Assets Ratio

The return on assets ratio measures the amount of EBIT per rupee of asset invested. This is a profitability ratio measuring each company's operational efficiency, that is, how efficiently the assets have been deployed by the company.

Berry Ratio

Berry ratio is the ratio of gross profit to operating expenses. It measures the return on operating expenses. As the functions performed by the tax-payers are often reflected in the operating expenses, this ratio determines the relationship of the income earned in relation to the functions performed. This ratio helps in overcoming the difficulties in applying the RPM, which does not explain the creation of gross profit. This ratio is used in conducting an arm's length analysis of service-oriented industry such as limited risk distributor, advertising, marketing and engineering services. The Berry ratio may be used to test whether service providers have earned enough mark-up on their operating expenses. In essence, the Berry ratio implicitly assumes that there is a relationship between the level of operating expenses and the level of gross profits earned by routine distributors and service providers. The use of Berry ratio is illustrated by way of the following example:

An example explaining the application of Operating margin is given below.

Illustration 16:

ABC Ltd. India acts as a limited risk distributor in respect of the goods manufactured by its parent company.

Dr. Profit and loss account of ABC Ltd India for the year ended March 31, 2010 Cr.

Particulars	Amount (₹)	Amount (₹)	Particulars	Amount (₹)	Amount (₹)
To Purchases		1,500	By Sales		2,500
To Gross profit		1,000			
Total		2,500	Total		2,500
To Employee Cost	250				
To Rent	200				
To Legal Charges	100				
To Depreciation	200				
To Total Operating Expenses		750			
Total		1,000	Total		1,000
To Interest Cost		15			

To Loss on sale of assets		2			
To Net Profit before tax		8			
Total		1,000	Total		1,000

In this case, ABC India purchases the goods from its AE only on receipt of orders received from third party domestic customers. Accordingly, it does not bear the risk of inventory.

In such a scenario, Berry Ratio would be an appropriate PLI as it represents a return on a company's value added functions and assumes that those functions are captured in its operating expenses. Thus, a Berry Ratio > 1 implies that the distributor earns enough to be able to recover its operating costs.

ABC India's Berry Ratio (Gross Profit/Operating Expenses) works out to be 1.33 (100/75).

Similarly, the mean of Berry Ratio of comparable companies is 1.17, which is illustrated as under:

Name of the Company	Gross Profit (₹)	Operating Expenses (₹)	Berry Ratio (GP/Op.Exp)
A Ltd.	50	40	1.25
B Ltd.	75	80	0.94
C Ltd.	120	80	1.50
D Ltd.	90	90	1.00
Mean			1.17

Since, the Berry Ratio of ABC India is higher than that of the mean of comparable companies the international transactions of ABC India regarding purchase of goods are at arm's length.

Documentation (Information and documents to be kept and maintained under section 92D)

Rule 10D. (1) Every person who has entered into an international transaction shall keep and maintain the following information and documents, namely:—

Documents	Details
Ownership structure	(a) a description of the ownership structure of the assessee enterprise with details of shares or other ownership interest held therein by other enterprises;
Profile of MNC group	(b) a profile of the multinational group of which the assessee enterprise is a part along with the name, address, legal status and country of tax residence of each of the enterprises comprised in the group with whom international transactions have been entered into by the assessee, and ownership linkages among them;
Description of business	(c) a broad description of the business of the assessee and the industry in which the assessee operates, and of the business of the associated enterprises with whom the assessee has transacted;
Nature and terms of international transactions	(d) the nature and terms (including prices) of international transactions entered into with each associated enterprise, details of property transferred or services provided and the quantum and the value of each such transaction or class of such transaction;
Description of FAR	(e) a description of the functions performed, risks assumed and assets employed or to be employed by the assessee and by the associated enterprises involved in the international transaction;

Record of economic and market analyses	(f) a record of the economic and market analyses, forecasts, budgets or any other financial estimates prepared by the assessee for the business as a whole and for each division or product separately, which may have a bearing on the international transactions entered into by the assessee;
Record of uncontrolled transactions for comparability	(g) a record of uncontrolled transactions taken into account for analysing their comparability with the international transactions entered into, including a record of the nature, terms and conditions relating to any uncontrolled transaction with third parties which may be of relevance to the pricing of the international transactions;
Record of analysis	(h) a record of the analysis performed to evaluate comparability of uncontrolled transactions with the relevant international transaction;
Description of the methods considered for determining ALP	(i) a description of the methods considered for determining the arm's length price in relation to each international transaction or class of transaction, the method selected as the most appropriate method along with explanations as to why such method was so selected, and how such method was applied in each case;
Record of actual working	(j) a record of the actual working carried out for determining the arm's length price, including details of the comparable data and financial information used in applying the most appropriate method, and adjustments, if any, which were made to account for differences between the international transaction and the comparable uncontrolled transactions, or between the enterprises entering into such transactions;
Assumptions, policies and price negotiations	(k) the assumptions, policies and price negotiations, if any, which have critically affected the determination of the arm's length price;
Details of adjustments	(l) details of the adjustments, if any, made to transfer prices to align them with arm's length prices determined under these rules and consequent adjustment made to the total income for tax purposes;
Any other information	(m) any other information, data or document, including information or data relating to the associated enterprise, which may be relevant for determination of the arm's length price.

Non-applicability:

Rule 10D(2): Nothing contained in sub-rule (1) shall apply in a case where the aggregate value, as recorded in the books of account, of international transactions entered into by the assessee does not exceed one crore rupees.

Provided that the assessee shall be required to substantiate, on the basis of material available with him, that income arising from international transactions entered into by him has been computed in accordance with section 92.

Rule 10D (3): The information specified in sub-rule (1) shall be supported by authentic documents, which may include the following:

- (a) official publications, reports, studies and data bases from the Government of the country of residence of the associated enterprise, or of any other country;
- (b) reports of market research studies carried out and technical publications brought out by institutions of national or international repute;
- (c) price publications including stock exchange and commodity market quotations;
- (d) published accounts and financial statements relating to the business affairs of the associated enterprises;

- (e) agreements and contracts entered into with associated enterprises or with unrelated enterprises in respect of transactions similar to the international transactions;
- (f) letters and other correspondence documenting any terms negotiated between the assessee and the associated enterprise;
- (g) documents normally issued in connection with various transactions under the accounting practices followed.

Rule 10D (4): The information and documents specified under sub-rules (1) and (2), should, as far as possible, be contemporaneous and should exist latest by the specified date referred to in clause (iv) of section 92F:

Provided that where an international transaction continues to have effect over more than one previous year, fresh documentation need not be maintained separately in respect of each previous year, unless there is any significant change in the nature or terms of the international transaction, in the assumptions made, or in any other factor which could influence the transfer price, and in the case of such significant change, fresh documentation as may be necessary under sub-rules (1) and (2) shall be maintained bringing out the impact of the change on the pricing of the international transaction.

Rule 10D (5): The information and documents specified in sub-rules (1) and (2) shall be kept and maintained for a period of eight years from the end of the relevant assessment year.

Application of Berry Ratio under different propositions

Illustration 17:

ABC Ltd. An Indian Company, acts as a limited risk distributor in respect of the goods manufactured by its parent company.

Dr. Profit and loss account of ABC Ltd India for the year ended March 31, 2010 Cr.

Particulars	Amount (₹)	Amount (₹)	Particulars	Amount (₹)	Amount (₹)
To Purchases		1,500	By Sales		2,500
To Gross profit		1,000			
Total		2,500	Total		2,500
To Employee Cost	250		By Gross Profit		1,000
To Rent	200				
To Legal Charges	100				
To Depreciation	200				
Total Operating Expenses		750			
Total		1,000	Total		1,000
To Interest Cost		150			
To Loss on sale of assets		20			
To Net Profit before tax		80			
Total		1,000	Total		1,000

In this case, ABC Ltd. purchases the goods from its AE only on receipt of orders received from third party domestic customer. Accordingly, it does not bear the risk of inventory.

In such a scenario, Berry Ratio would be an appropriate PLI as it represents a return on a company's value added functions and assumes that those functions are captured in its operating expenses. Thus, a Berry Ratio > 1 implies that the distributor earns enough to be able to recover its operating costs.

ABC Ltd.'s Berry Ratio (Gross Profit/Operating Expenses) works out to be 1.33 (100/75).

Similarly, the mean of Berry Ratio of comparable companies is 1.17, which is illustrated as under:

Name of the Company	Gross Profit (₹)	Operating Expenses (₹)	Berry Ratio (GP/Op. Exp)	Purchase price in comparable transactions at same quantity by domestic companies from their AEs
A Ltd.	50	40	1.25	1,380
B Ltd.	75	80	0.94	1,390
C Ltd.	120	80	1.50	1,410
D Ltd.	90	90	1.00	1,370
Mean			1.17	1,387.5

Since, the **Berry Ratio of ABC Ltd. is higher than that of the mean of comparable companies**, the international transactions of ABC Ltd. regarding purchase of goods are at arm's length.

Alternate Proposition I:

If Berry Ratio of ABC Ltd. is 1.03 as compared to that of mean of comparable companies 1.17, is there any need to order for re-assessment of arm's length price?

Since, the **Berry Ratio of ABC Ltd. is lower than that of the mean of comparable companies**, the international transactions of ABC Ltd. regarding purchase of goods are **not at arm's length**.

Impact on assessment of Arm's Length Price:

Particulars	Amount (₹)
Net Profit as per Profit & Loss Account before tax	80
Add : Adjustment for over-statement in Purchase Price on goods purchased from AE [= Purchase cost debited in Profit & Loss A/c (-) Average Purchase Price of Comparable Companies = ₹1,500 – 1,387.50]	112.50
Revised Net Profit after adjustment of over-statement in Purchase price but before tax	192.50

Alternate Proposition II:

Interest expense indicates only the extent to which the firm's assets are secured by debt and the amount of depreciation recorded on a firm's accounts is more likely to reflect the timing of that firm's acquisition of assets than the actual depletion of capital assets. What would be the impact on assessment if these both are excluded from Operating expenses for calculation of Berry Ratio?

Impact on assessment of Arm's Length Price:

Particulars	Amount (₹)
Net Profit as per Profit & Loss Account before tax	80
Add : Interest expense already excluded in computing operating expense, hence not considered further	Nil
Add: Depreciation on assets added back	200
Revised Net Profit after adjustment of over-statement in Purchase price but before tax	380

Revised Operating Expenses = 750-200 =550

Revised Berry Ratio = (Gross Profit/Operating Expenses) works out to be 1.82 (1000/550).

Since, the **Berry Ratio of ABC Ltd. is higher than that of the mean of comparable companies**, the international transactions of ABC Ltd. regarding purchase of goods are at arm's length.

Capacity Utilisation Adjustment

XYZ Ltd. An Indian Company, acts as a limited risk distributor in respect of the goods manufactured by its parent company.

Dr. Profit and loss account of ABC Ltd India for the year ended March 31, 2010 Cr.

Particulars	Amount (₹)	Amount (₹)	Particulars	Amount (₹)	Amount (₹)
To Purchases		1,500	By Sales		2,500
To Gross profit		1,000			
Total		2,500	Total		2,500
To Employee Cost	250		By Gross Profit		1,000
To Rent	200				
To Legal Charges	100				
To Depreciation	200				
Total Operating Expenses		750			
Total		1,000	Total		1,000
To Interest Cost		150			
To Loss on sale of assets		20			
To Net Profit before tax		80			
Total		1,000	Total		1,000

Installed capacity: 10,000 hours. Capacity Utilisation: 75%. Cost of Fixed Assets Rs.10,000, Depreciation provided till date Rs.8,000, rate of depreciation @ 10%. Also given that there are 40 labourers, 260 working days and 8 hours per day. Industry capacity utilization rate is 90%

What would be the adjustments required?

Solution:

(1) Depreciation related to "idle assets" should be adjusted from Profit & Loss Account.

Year Ended	INR'000
Total depreciation charged in Profit & Loss Account	200
Add: Proportionate depreciation in relation to "idle assets" to the extent of 30%, since utilized capacity is 75%	50
= [200 x 25%]	
Depreciation adjusted in line with capacity utilisation	150

(2) Adjustment in Profit & Loss Account

Year Ended	INR'000
Net Profit as per Profit & Loss Account	80
Add: Proportionate depreciation in relation to "idle assets" to the extent of 25%, since utilized capacity is 75% = [200 x 25%], now written back	50
Adjusted Net Profit	130

(3) Adjustment related to utilization of man-power

Steps	Year Ended	INR'000
(a)	Head counts	40
(b)	Maximum number of hours per employee (ie 260 days * 8 hrs per day)	2,080
(c)	Total available hours (c = a * b)	83,200
(d)	Utilisation rate	75%
(e)	Utilised hours (= c * d)	62,400

(f)	Unutilised hours (= c – e)	20,800
(g)	Unutilised hours after considering the industry unutilised rate of 10% (= f / 0.25*0.10)	8,320
(h)	Unutilised head counts (= g/2,080)	4
(i)	Employment related costs (i)	250
(j)	Adjustment to total employment related Cost (= i/a * h)	25

(4) Impact of capacity under-utilisation and its adjustment is shown as under:

Year Ended	INR'000
Sales (i)	2,500
Less: Total Cost (ii)	2,420
Operating profit (iii = i – ii)	80
Cost plus mark-up (iv = iii/ii * 100)	3.31%
Unutilised capacity cost adjustment –related to employee cost (v)	25
Unutilised capacity cost adjustment –related to depreciation “idle asset” (vi)	50
Adjusted operating profit (vii = iii + v + vi)	155
Adjusted cost plus mark-up (viii = vii/ii * 100)	6.40%
Net increase in cost plus mark-up (ix = iv – viii)	3.09%

Illustrations on Forex Adjustment

Illustration 18:

- (a) An Indian software company receives an order from an European union country. The buyer will pay in four quarterly installments each of €0.5 million, starting from the end of the first quarter. The rates for euros in India is as follow :

Spot	3 month forward	6 month forward	9 month forward	1 year forward
₹ 52.80	₹ 52.70	₹ 52.55	₹ 52.50	₹ 52.48

If an Indian company hedges its foreign exchange rate risk in the forward market, how much revenue does it earn?

- (b) Are arbitrage gains possible from the following set of information to the arbitrageur?

Spot rate: 47.88/\$

3 month forward rate : ₹ 47.28/\$

3 month interest rates :

Re. : 7% p.a.

\$: 11% p.a.

Answer 18. (a)

Indian software company will have the following income streams :

Installment	Euro income (€)	Rate (₹)	Revenue (₹)
1 st quarter-end	5,00,000	52.70/€	2,63,50,000
2 nd quarter – end	5,00,000	52.55/€	2,62,75,000
3 rd quarter-end	5,00,000	52.50/€	2,62,50,000
4 th quarter-end	5,00,000	52.48/€	2,62,40,000
Total revenue income is			10,51,15,000

Answer 18. (b)

3 month forward rate of the dollar is higher (at ₹48.28) than the spot rate (₹47.88). It implies that the dollar is at premium.

$$\text{Premium (\%)} = (\text{₹}48.28 - \text{₹}47.88) / 47.88 \times 12/3 \times 100 = 3.34\% \text{ per annum}$$

$$\text{Interest rate differential} = 11\% - 7\% = 4\% \text{ per annum}$$

Since interest rate differential (4%) and premium % (3.34%) do not match, there are arbitrage gain possibilities. An arbitrageur can take the following steps in this regard :

- (i) Arbitrageur borrows, say, ₹100 million at 7% for 3 months (he borrows in Indian currency as it carries lower interest rate).
- (ii) He then converts ₹100 million in US \$ at the spot rate of ₹47.88 in the spot market. He gets an amount of US \$ 2,088,554.72 (₹100 million/ ₹47.88).
- (iii) He invests US \$ 2,088,554.72 in the money market at 11% interest per annum for 3 months. As a result of this investment, he obtains the interest of US \$ 57,435.2548 (\$ 2,088,554.72 × 3/12 × 11/100).
- (iv) Total sum available with arbitrageur, 3 months from now is (US \$ 2,088,554.72 amount invested + US \$ 57,435.2548 interest) = US \$ 2,145,989.974.
- (v) Since he would get US \$ 2,145,989.974 after 3 months, he sells forward US \$ 2,145,989.974 at the rate of ₹48.28.
- (vi) As a result of a forward deal, at the end of 3 months from now, he would get ₹103,608,395.90, i.e. (\$ 2,145,989.974 × 48.28).
- (vii) He refunds the Rs. 100 million borrowed, along with interest due on it. The refunded sum is ₹100 million + ₹1,750,000 i.e. (₹100 million × 3/12 × 7/100) = ₹101,750,000.
- (viii) Net gain is ₹103,608,395.90 – ₹101,750,000 = ₹18,58,395.90.

Illustration 19:

The investment manager of a large Indian software company receives the following quotes from its foreign exchange broker.

US dollar spot rate : ₹47.75/ US \$

US dollar option quotation

Strike price	Call			Put		
	September	December	March	September	December	March
45.0000	3.0	-	-	-	-	-
45.5000	2.6	2.9	-	-	-	-
46.0000	2.0	2.3	2.45	0.2	-	-
46.5000	1.85	1.95	2.15	0.25	-	-
47.0000	1.25	1.85	2.00	0.70	-	-
47.5000	0.85	1.15	1.45	1.00	1.25	1.75
48.0000	0.50	0.74	0.89	1.59	1.92	2.50
48.5000	0.30	0.52	0.68	1.70	2.20	-
49.0000	0.15	-	-	1.90	-	-
49.5000	0.10	-	-	2.00	-	-
50.0000	0.08	-	-	2.30	-	-

What calculation will the investment manager make for following questions?

- (i) What is the intrinsic value for the December 47.5 call option?
- (ii) What is the intrinsic value for the September 46 put option?
- (iii) What is the break-even exchange rate for the March 46.5 call and the March 48 put?
- (iv) If the March spot rate is expected to be ₹48.50/US \$, which call option should be bought?
- (v) The software company will receive its export income in March and the expected spot rate (in March) will be ₹46.5/US \$, which put option should be bought?

Answer 19.

Intrinsic value of an option is the amount by which the option is in-the-money.

For a call option, intrinsic value = Maximum [(Spot rate – Strike rate), 0]

For a put option, intrinsic value = Maximum [(Strike rate – Spot rate), 0]

- i. Intrinsic value for the December 47.5 call option

$$= \text{Max} [(\text{₹}47.75/\text{US \$} - \text{₹}47.5/\text{US \$}), 0]$$

$$= \text{Max} [\text{₹}0.25/\text{US \$}, 0] = \text{₹}0.25/\text{US \$}$$

- ii. Intrinsic value for the September 46 put option

$$= \text{Max} [(\text{₹}46/\text{US \$} - \text{₹}47.75/\text{US \$}), 0]$$

$$= \text{Max} [-(\text{₹}1.75/\text{US \$}), 0] = 0$$

- iii. The break-even exchange rate for the March 46.5 call on settlement date is Re. X/US \$

$$\text{So, The premium paid} = \text{₹}2.15/\text{US \$}$$

$$\text{Profit from the call option} = \text{₹}(X - 46.5)/\text{US \$}$$

$$\text{At break even, } \text{₹}(X - 46.5)/\text{US \$} = \text{₹}2.15/\text{US \$}$$

$$X = \text{₹}48.65/\text{US \$}$$

The break even exchange rate for March 48 put is :

$$\text{Premium paid} = \text{₹}2.50/\text{US \$}$$

$$\text{Profit from the put option} = \text{₹}(48 - X)/\text{US \$}$$

$$\text{At break-even, } \text{₹}(48 - X)/\text{US \$} = \text{₹}2.50/\text{US \$}$$

$$X = \text{₹}45.5/\text{US \$}$$

- iv. For an expected spot rate of ₹48.50/US \$, we need to find out profit from buying the March call option at various strike prices.

Gain from call option

$$= \text{Max} [(\text{Settlement rate} - \text{Strike rate}), 0] - \text{Premium}$$

$$= \text{value of option at expiration} - \text{Premium}$$

Option	Strike price (₹)	Premium (A)	Option value at expiration (B) (₹)	Gain/ Loss [B – A] (₹)
March call	46.00/ US \$	2.45/ US \$	2.50 / US \$	0.05/ US \$
March call	46.50/ US \$	2.15/ US \$	2.00/ US \$	- 0.15/ US \$
March call	47.00/ US \$	2.00/ US \$	1.50/ US \$	- 0.50/ US \$
March call	47.50/ US \$	1.45/ US \$	1.00/ US \$	- 0.45/ US \$
March call	48.00/ US \$	0.89/ US \$	0.50/ US \$	- 0.39/ US \$
March call	48.50/ US \$	0.68/ US \$	0.00/ US \$	- 0.68/ US \$

So, for the expected March spot rate of ₹48.50/ US \$, the March call option of strike price ₹46.00/ US \$ should be bought.

- v. Gain from purchasing the March put option of various strikes, for which quotes are available, for an expiration price of ₹46.50/ US \$.

Option	Strike price (₹)	Premium (A) (₹)	Option value at expiration (B) (₹)	Gain/ Loss [B – A] (₹)
March put	47.50/ US \$	1.75/ US \$	1.00 / US \$	- 0.75/ US \$
March put	48.00/ US \$	2.50/ US \$	1.50/ US \$	- 1.00/ US \$

As no gains accrue by purchasing the different March put available for the expected March expiration rate of ₹46.50/ US \$, the software company should not hedge through the put options.

Illustration 20:

- (a) XYZ Ltd. a US firm will need £ 3,00,000 in 180 days. In this connection, the following information is available :

Spot rate 1£ = \$ 2.00

180 days forward rate of £ as of today = £ 1.96

Interest rates are as follows :

Particulars	U.K.	U.S.
80 days deposit rate	4.5%	5%
80 days borrowing rate	5%	5.5%

A call option on £ that expires in 180 days has an exercise price of \$ 1.97 and a premium of \$ 0.04.

XYZ Ltd. has forecasted the spot rates 180 days hence as below :

Future rate (\$)	1.91	1.95	2.05
Probability	25%	60%	15%

Which of the following strategies would be most preferable to XYZ Ltd.?

- (a) a forward contract
- (b) a money market hedge
- (c) an option contract
- (d) no hedging

Show calculations in each case.

- (b) For imports from UK, Philadelphia Ltd. of USA owes £ 6,50,000 to London Ltd., payable on May, 2010. It is now 12 February, 2010.

The following future contracts (contract size £ 62,500) are available on the Philadelphia exchange :

Expiry Current futures rate

March 1.4900 \$/£ 1

June 1.4960 \$/£ 1

- (i) Illustrate how Philadelphia Ltd. can use future contracts to reduce the transaction risk if, on 20 May the spot rate is 1.5030 \$/£ 1 and June futures are trading at 1.5120 \$/£. The spot rate on 12 February is 1.4850 \$/£ 1.
- (ii) Calculate the "hedge efficiency" and comment on it.

Answer 20. (a)

(a) Taking a Forward Contract

US \$ needed on expiration of 180 days

$$= £ 3,00,000 \times \$ 1.96 = \$ 5,88,000$$

(b) Money Market Hedge Transaction

Now :

Borrow in US dollars and invest in UK pounds on expiration of 180 days

On expiration of 180 days :

Repay in US \$:

US \$ needed to purchase UK £

$$= £ 2,87,081$$

US \$ needed to convert into UK £

$$= £ 2,87,081 \times \$ 2 = \$ 5,74,162$$

Principal and interest payable in US \$ loan on expiry of 180 days

$$= \$ 5,74,162 \times \$ 1.055 = \$ 6,05,741$$

(c) Entering into Option Market by taking Call Option

Expected spot rate in 180 days	Premium per unit	Exercise option	Total price per unit	Total price for £ 3,00,000 (x)	Probability (p)	(px)
1.91	0.04	No	1.95	5,85,000	0.25	1,46,250
1.95	0.04	No	1.99	5,97,000	0.60	3,58,200
2.05	0.04	Yes	2.01	6,03,000	0.15	90,450
						5,94,900

Answer 20. (b)

- (a) For Philadelphia Ltd. the appropriate futures contract will be the one that will expire soonest after the end of the exposure period i.e. the June contract.

Number of contracts needed

$$= \text{£ } 6,50,000 / \text{£ } 62,500 = 10.4 \text{ (say 10 contracts)}$$

P Ltd. will buy 10 June contracts now (12 Feb.) at \$1.4960/£1 and sell 10 contracts on 20 May for \$1.5120/£1, thus making a profit from the futures trading that will largely but not totally, netate the 'loss' from the spot market (since sterling has strengthened between 12 February and 20 May).

We now calculate the profit/loss from the futures contracts trade :

- (i) The 'tick' movement is $(1.5120 - 1.4960) = 0.0160$ i.e., 160 ticks (for one tick = 0.00001)
- (ii) 'Tick' value per contract = $\text{£ } 62,500 \times 0.00001 = \$ 6.25$
- (iii) Profit = $10 \text{ contracts} \times 160 \times \$ 6.25 = \$ 10,000$
- (iv) Overall cost on 20 May when P Ltd. will exchange \$ for £ on the spot market :
- (v) The net 'cost' to P Ltd.
 $= \$ 9,76,950 - \$ 10,000 = \$ 9,66,950$

(b) Hedge Efficiency

The spot on February 12 was 1.4850 \$/£1. So £650,000 would have cost \$ 9,65,250 and the los on the 'spot market' is \$ $(9,76,950 - 9,65,250) = \$ 11,700$.

The hedge efficiency is therefore the future contract profit divided by the spot market loss

The inefficiency is due to :

- (i) rounding the contracts to 10 from 10.4, and
- (ii) basis risk - the fact that the movement on the futures price has not exactly equalled the movement on the spot rate.

Illustration 21:

- (a) The following quotes are available for 3-months options in respect of a share currently traded at Rs. 31 :

Strike price	₹30
Call option	₹3
Put option	₹2

An investor devises a strategy of buying a call and selling the share and a put option. Draw his profit/loss profile if it is given that the rate of interest is 10% per annum. What would be the position if the strategy adopted is selling a call and buying the put and the share?

- (b) What is the difference between Forward and Futures contracts?

Answer 21. (a)

Strategy I : Buying a call and selling a put and a shre

$$\text{Initial cash inflow } (\text{₹}31 - \text{₹}3 + \text{₹}2) = \text{₹}30$$

$$\text{Interest rate} = 10\%$$

$$\text{Amount grows in 3 months to } (30 \times e^{1 \times .25}) = \text{₹}30.76^*$$

If the share price is greater than ₹30, he would exercise the call option and buy one share for ₹30 and his net profit is ₹0.76 (i.e. ₹30.76 - 30).

However, if the share price is less than ₹30, the counter-party would exercise the put option and the investor would buy one share at ₹30. The net profit to the investor is again ₹0.76.

Strategy II : Selling a call and buying a put and a share

In case, the investor has to arrange a loan @ 10% of ₹30 (i.e. ₹31 + ₹2 – ₹3).

This amount would be repaid after 3 months. Amount payable $(30 \times e^{1 \times .25})$ is ₹30.76.

After 3 months, if the market price is more than ₹30, the counter-party would exercise the call option and the investor would be required to sell the share at ₹30. The loss to the investor would be ₹0.76 (i.e. ₹30.76 – 30).

However, if the rate is less than ₹30, the investor would exercise the put option and would get ₹30 from the rate of share. The loss to the buyer would again be ₹0.76.

* Interest can also be calculated on simple interest basis instead of continuous compound interest.

Answer 21. (b)

Fundamentally, forward and futures contracts have the same function: both types of contracts allow people to buy or sell a specific type of asset at a specific time at a given price.

However, it is in the specific details that these contracts differ. First of all, futures contracts are exchange-traded and, therefore, are standardized contracts. Forward contracts, on the other hand, are private agreements between two parties and are not as rigid in their stated terms and conditions. Because forward contracts are private agreements, there is always a chance that a party may default on its side of the agreement. Futures contracts have clearing houses that guarantee the transactions, which drastically lowers the probability of default to almost never.

Secondly, the specific details concerning settlement and delivery are quite distinct. For forward contracts, settlement of the contract occurs at the end of the contract. Futures contracts are marked-to-market daily, which means that daily changes are settled day by day until the end of the contract. Furthermore, settlement for futures contracts can occur over a range of dates. Forward contracts, on the other hand, only possess one settlement date.

Lastly, because futures contracts are quite frequently employed by speculators, who bet on the direction in which an asset's price will move, they are usually closed out prior to maturity and delivery usually never happens. On the other hand, forward contracts are mostly used by hedgers that want to eliminate the volatility of an asset's price, and delivery of the asset or cash settlement will usually take place.

Illustration 22:**Hedging with Commodity Futures :**

Bharat Oil Corporation (BOC) imports crude oil for its requirements on a regular basis. Its requirements are estimated at 100 tonnes per month.

Of late, there has been a surge in the prices of oil. The current price (month of June) of crude oil is ₹ 5,500 per barrel. The firm expects the price to rise in coming months to ₹ 5,800 by August. It wants to hedge against the rising prices for its requirements of the month of August.

Multi Commodity Exchange (MCX) in India offers a futures contract in crude oil. The contract size is 100 barrels and August contract is currently traded at ₹5,668 per barrel.

- How can BOC hedge its exposure against the rising price of crude oil?
- If Bharat Oil Corporation hedges its exposure at MCX, how many contracts must it book?
- Analyse the position of BOC if in the month of August (i) the spot price is ₹5,750 and futures price is ₹5,788, (ii) the spot price is ₹5,417 and futures market were matched?

Ignore marking-to-the-market and initial margin on futures contracts.

Answer 22.

1 tonnes = 7.33 barrels

- Hedging strategy would be to take position in the futures market opposite to that of in the physical market.

BOC is short on crude oil and therefore they must go long on the futures of crude oil.

Following would be the hedging strategy :

June : Buy futures contract now

August : Purchase crude oil at the price prevailing then in the spot market, and Sell the future contracts.

- (b) Quantity to be imported/hedged = 100 tonnes or 733 barrels

Contract size = 100 barrels

Nos of contracts bought = $733/100 = 8$ (rounded off)

- (c) In August, the firm would buy its requirements of crude oil in the market and unwind its position in the futures market by selling the contracts bought in June. By doing so, the gains/loss in the physical market would be offset significantly.

August futures on crude oil = ₹5,668 per barrel

- (i) When the price of crude oil rises :

Spot crude oil price = ₹5,750 Future price = ₹5,788

Purchase price in the spot for = $733 \times 5750 = ₹42,14,750$

Cash flow on futures position

Buying price 5668

Selling price 5788

Profit 120

Realizations from futures market = $8 \times 100 \times 120$

= – ₹96,000

Net amount paid ₹41,18,750

Effective price per barrel = $41,18,750/733 = ₹5,619$

- (ii) When the price of crude oil falls :

Spot crude oil price = ₹5,417

Futures price = ₹5,455

Purchase price in the spot for = $733 \times 5417 = ₹39,70,661$

Cash flow on futures position

Buying price 5668

Selling price 5455

Profit – 213

Realisations from futures market = $8 \times 100 \times -213$

= ₹1,70,400

Net amount paid ₹41,41,061

Effective price per barrel = $41,41,061/733 = ₹5,649$

- (d) If positions in the physical market and futures market were matched then

The effective price would be = $S_1 - (F_1 - F_0)$

When price rose the effective price paid is
 $= 5750 - (5788 - 5668) = ₹5,630$ per barrel

When price fell the effective price paid is
 $= 5417 - (5455 - 5668) = ₹5,630$ per barrel

Illustration 23:

Cancelling a swap

A company has borrowed through a fixed rate instrument of 8%. The swap quote from the bank is 7.80/7.90, i.e., bank pays 7.80 fixed for receiving LIBOR and would receive 7.90% fixed for paying LIBOR. The company enters the swap deal with the bank.

After some time, the swap market changes to 6.40/6.50 and the company again reverses the original swap by entering into 2nd swap opposite to that of the first one.

- What does the structure of the first swap achieve?
- What is the cost of funds for the firm before and after the swap?
- What is the structure of 2nd swap and what does it do?
- Find the cost of funds for the company after the second swap?

Answer 23.

- The company would undertake the transform the fixed rate liability to floating rate, as it possibly expects a decline in the interest rates.
- Cost of funds after swap = $L + 0.2\%$
- The company would enter into a swap opposite to that of the first one. In the first swap, the firm received fixed and paid variable. Now in the second swap, it would pay fixed while receiving LIBOR. This would enable cancelling the floating leg. The company would gain the differential of the fixed legs of first and second swap.
- | | |
|------------------------------------|--------|
| Pay fixed to borrowers | 8.00 |
| Receive fixed from bank (1st swap) | – 7.80 |
| Pay fixed to bank (2nd swap) | 6.50 |
| Effective cost after 2nd swap | 6.70 |

**Effect of change in Foreign Investments in equity on Arm's Length Price
 (through Cost Plus Method)**

Illustration 24: Milano Inc., Italian Company, holds 45% of Equity in the Indian Company, Systems Technologies Ltd (STL). STL is engaged in development of software and maintenance of the same for customers across the globe. Its clientele includes Milano Inc. During the year, STL had spent 2,400 Man Hours for developing and maintaining software for Milano Inc, with each hour being billed at ₹1,300. Costs incurred by STL for executing work for Milano Inc. amount to ₹20,00,000.

STL had also undertaken developing software for Harsha Industries Ltd for which STL had billed at ₹2,700 per Man Hour. The persons working for Harsha Industries Ltd. and Milano Inc. were part of the same team and were of matching credentials and caliber. STL had made a Gross Profit of 60% on the Harsha Industries work.

STL is wholly dependent on the use of know-how from Milano Inc.

STL's transactions with Milano Inc. are comparable to the transactions with Harsha Industries, subject to the following differences:

- (a) Milano Inc. gives technical know-how support to STL which can be valued at 8% of the normal gross profit. Harsha Industries does not provide any such support.
- (b) Since the work for Milano involved huge number of man hours, a quantity discount of 14% of Normal Gross Profits was given.
- (c) STL had offered 90 Days credit to Milano the cost of which is measured at 2% of the Normal Billing Rate, No such discount was offered to Harsha Industries Ltd.

Compute ALP and the amount of increase in Total Income of Systems Technologies Ltd.

Alternate proposition I:

Will there be any impact on your assessable value, as determined, if Milano Inc., Italian Company, a year ago, having their shareholding at 8% of Equity in the Indian Company, Systems Technologies Ltd (STL) was charged @ ₹ 2,500 per man hour ?

Alternate proposition II:

Milano Inc. intends to hold investment in STL for a indefinite period of time and it has no intention to resell for short-term profits. i.e. they classify quoted equity securities as Available-for-Sale (AFS) financial assets.

As at 31st December, 2010, the fair value (represented by the quoted bid price) of STL shares was ₹75 per share as compared with the original acquisition cost of ₹ 100 per share, representing a decline of 25%.

STL's share price has been trading at around ₹75 per share for the past three months. The historical volatility of STL's share price for the past 5 years is approximately 30 percent. Recent financial analyst reports indicate a target price range of ₹ 90 to ₹ 125 for STL's share.

Milano Inc. assessed the recoverability of the investment based on internally established criteria. Based on the assessment, Milano Inc. concluded that the decline in fair value below cost is not considered to be significant or prolonged and thus, investment is not impaired. Therefore, the unrealized holding loss remains in equity and is not charged to profit or loss.

The financial statements for the year ended 31st December 2010 reflected a fair value loss of ₹ 1 crore in fair value reserve, under shareholders' equity. This is equal to approximately 10% of profit of the year. What should the directors consider when validating the reasonableness of the estimates made by management?

What is the impact on assessment of Arm's Length Price?

Basic Proposition:

(a) Computation of Arms Length Gross Profit Mark Up

Particulars	%	%
Normal Gross Profit Mark Up		60.00
Less: Adjustment for differences: (which had the effect of reducing the profit of STL)		
(i) Technical support from Milano Inc. (8% of Normal Gross Profit 60%)	4.80	
(ii) Quantity Discount @ 14% of Normal Gross Profit (14% of 60%)	8.40	13.20
Normal Gross Profit Rate of STL, had the transaction been unrelated and there been no technical support or quantity discount		46.80
Add: Cost of Credit to Milano Inc. @2% of Normal Gross Profit (2% of Gross Profit 60%) [since this had effect of reducing the gross profit of STL]		1.20
Arms Length Gross Profit Mark-up		48.00

(b) Computation of Increase in Total Income of STL for services to Milano Inc.

Particulars	Amount (₹)
Cost of Services provided to Milano	20,00,000
Billed Value at Arm's Length [Cost / (100 – Arm's Length Mark) = [₹ 20,00,000/ (100% - 48%]	38,46,154
Less: Actual Billing to Branch Inc. [2,400 x 1,300]	31,20,000
Increase in Total Income of Milano Inc.	7,26,154

Alternate Proposition I:

It is proposed to ascertain the effect of change in equity on determination of Arm's Length Price, with increase in foreign ownership ratio, as compared to past years.

The ownership structure can be classified into two class of shareholders:

- (i) The market investor;
- (ii) The stable investor.

The stable investor, including financial institutions and affiliated firms, tends to have on-going business ties with firms in which it holds shares. Financial institutions such as banks and insurance companies usually have lending, corporate insurance, and other financial transactions with the firms in which they hold shares. Corporate shareholders are usually business partners, suppliers or customers of the firms in which they have cross-shareholdings. Stable shareholders are more interested in stabilizing their business relationship than in the return on investment since the **relative cash flows from the former far exceed those of the later.**

Market investors are those who buy, sell and hold stocks primarily for investment purposes. The main objective of market investors is a high investment return because, unlike stable investors, they have only arm's length financial relations with firms in which they own shares. Thus, firms with a larger percentage of outstanding shares held by market investors are under great pressure to adopt profit-maximizing policies.

Thus, increase in foreign ownership ratio is positively associated with firm performance.

Foreign ownership change is measured in the ratio of firm's outstanding shares held by foreign shareholders.

Assuming this following information relating to ratio of foreign ownership in comparison to total outstanding shares is already available.

Year/Particulars	1	2	3	4	5
Total shares outstanding	1,00,000	1,20,000	1,50,000	1,50,000	2,00,000
Foreign ownership	2,000	2,400	3,000	3,000	90,000
% of Foreign ownership on firm's outstanding shares held by stable investors	2%	2%	2%	8%	45.00%
% Increase in foreign equity	-	-	-	300%	2150%
Price charged per man-hour	₹ 2,500	₹ 2,500	₹ 2,500	₹ 2,200	₹ 1,300
Decrease in price charged per man-hour	-	-	-	₹ 300	₹ 1,200
% decrease in price charged per man-hour	-	-	-	12%	54.55%

Impact of decrease in price –change on increase in foreign equity:

= (% decrease in price charged per man-hour) / (% Increase in foreign equity) x 100

= (54.55% / 2150%) x 100 = 2.54%

(a) Computation of Arms Length Gross Profit Mark Up

Particulars	%	%
Normal Gross Profit Mark Up		60.00
Less: Adjustment for differences:(which had the effect of reducing the profit of STL)		
(i) Technical support from Milano Inc. (8% of Normal Gross Profit 60%)	4.80	
(ii) Quantity Discount @ 14% of Normal Gross Profit (14% of 60%)	8.40	13.20
Normal Gross Profit Rate of STL, had the transaction been unrelated and there been no technical support or quantity discount		46.80
Add: Cost of Credit to Milano Inc. @2% of Normal Gross Profit (2% of Gross Profit 60%) [since this had effect of reducing the gross profit of STL]		1.20
Add: impact of decrease in price charged due to increase in foreign equity investment in STL by Milano Inc.		2.54
Arms Length Gross Profit Mark-up		50.54

(b) Computation of Increase in Total Income of STL for services to Milano Inc.

Particulars	Amount (₹)
Cost of Services provided to Milano	20,00,000
Billed Value at Arm's Length [Cost / (100 – Arm's Length Mark) = ₹20,00,000/ (100% - 50.54%]	40,43,672
Less: Actual Billing to Branch Inc. [2,400 x 1,300]	31,20,000
Increase in Total Income of Milano Inc.	9,23,672

Increase in total income of Milano Inc. due to change in Proposition

= Total Income vide Alternate proposition II (-) Total Income vide Alternate proposition I

= ₹9,23,672 (-) ₹7,26,154 = ₹1,97,518

However, Return on Assets (ROA) and Return on Investments (ROI), Sales and Leverage Ratio could also be considered for analyzing the impact of change in equity.

Alternate Proposition II:

It is important to understand the impairment criteria established by management for assessing whether a decline below cost is "significant" or "prolonged" and consider whether the criteria are reasonable and supportable based on relevant facts and circumstances.

The share price of an investment could be a relevant supporting criterion if it increases shortly after the reporting date or has a high level of volatility.

After looking at the basis, underlying the criteria established, it is important to consider whether the unimpaired share price is reasonable and sensible in light of available market evidence. This could be performed by comparing the cost with relevant factors, for example:

- (i) Recent financial analysts' target price range and outlook;
- (ii) The net assets per share of the investee; or the fundamental value of the investee;
- (iii) The earnings multiple, such as price-to-earnings ratios, implied by the acquisition price.

In this case, since the historical volatility of STL's share price is approximately 30 percent, the decline does not appear to be significant. The decline of three months would not be considered to be prolonged.

Hence, impact of change may be ignored for computation of Arm's Length Price.

Working Capital Adjustment

The need for working capital adjustment

Performing working capital adjustment is necessary to ensure that returns derived from a set of comparables can be applied reliably to a tested party operating in a non-arm's-length setting.

Rationale:

The adjustments is economically sound, tax authorities/administrations in many countries across the globe accept/recognise this concept and usually require or at least recommend that taxpayers make such adjustments during the course of defending a transfer pricing audit, or while preparing and advance pricing agreement (APA) to ensure that the results are comparable by smoothening differences in working capital levels amongst otherwise functionally similar companies.

Example:

For example, in China, the State Administration for Taxation — SAT (issued notice on capital adjustment issues in transfer pricing tax administration), vide the release of Circular [2005] 745, explicitly identifies the working capital issue as follows:

"In this regard, if there are differences in working capital (such as accounts receivables, accounts payables, inventories, etc.) between the investigated enterprise and the comparable companies, adjustments should be made for the effects of implicit interest cost embedded in working capital on profitability levels. Hence, when comparing the profit level of the investigated enterprise and the comparable companies, capital adjustments will increase operating profit reliability from an economic perspective and improve the profit level comparability."

Approach adopted for performing working capital adjustments

The basis for making the working capital adjustment is that a uniform and harmonised formula is adopted globally for the outcome of this adjustment.

The assumption normally considered for such adjustment is that the debtors/ creditors whose name appears in the books of a company or receivables/payables which are there in the books of a company arise during the course of discharge of the business by the company.

Working capital adjustment implies adjustment for differences in the credit terms or working capital policies.

Companies with higher working capital requirements, other things being equal, would be expected to earn higher levels of operating profit to compensate for the greater use of capital. There are three critical elements in the working capital policy of any entity:

- 1) time-lag between the sale of products and payments received, which creates accounts receivable;
- 2) time-lag between the purchase of inputs and payments becoming due, which creates accounts payable; and
- 3) time-lag between production and sale, which create inventories.

The objectives of the adjustments to accounts receivables (AR) and accounts payable (AP) are to remove the interest embedded in the AR/AP, attributable to the different levels of AR/AP, carried by the comparables and by the tested party.

The step-by-step procedure (synopsis) (explained in detail in the ensuing sections) adopted in performing the accounts receivables (AR) and accounts payables (AP) adjustment(s) are set out as under:

Step 1: Calculation of the average AR/AP amount during the year

$$= \left[\frac{\text{AR (beginning of yr)} + \text{AR (end of yr)}}{2} \right]$$

This is performed by both the tested party and the comparables.

Step 2: Calculation of AR/AP turnover (times)

AR/AP turnover represents the number of times the debtors have been turned over to produce the sales for the year.

$$\text{AR T/o (times)} = \left[\frac{\text{Sales}}{\text{AR}} \right]$$

Step 3: Calculation of average credit period

Average credit period represents the number of days' sales that remains with the debtors.

$$\text{AR days} = \left[\frac{365}{\text{AR\_t/o}} \right]$$

Step 4: Calculation of the differential AR/AP of the comparable vis-à-vis the tested party.

The comparables (C) and the tested part (T) have different credit policies which are reflected in the differential levels of receivables, vis-à-vis, their sales (S) that they carry. This step aims at identifying the differential values of receivables that are carried by the comparable vis-à-vis the tested party.

$$\text{Differential AR of C (vis-à-vis TP)} = \left[\frac{\text{AR}_T}{S_T} - \frac{\text{AR}_C}{S_C} \right] * S_C$$

Step 5: Calculation of the interest embedded in the differential AR/AP of the comparable vis-à-vis the tested party. The differential AR/AP of the comparable vis-à-vis the tested party) contains two elements:

- the sales price (that would have been paid in a cash sale and referred to as the AR/AP base);
- an interest element that is a compensation for the credit period advanced.

The interest rate for this purpose is often taken to be the prime lending rate as available on the Reserve Bank of India website. However, it is important to note that depending on the specific facts and circumstances, a different interest rate can also be justified for the purposes of making the working capital adjustments.

$$\text{Diff AR base} = \left[\frac{\text{Diff\_AR}_C}{1 + i * \frac{\text{AR\_Days}_C}{365}} \right] \text{ OR } \left[\frac{\text{Diff\_AR}_C}{1 + i * \frac{\text{AR\_AR}_C}{S_C}} \right]$$

Interest embedded in Diff AR of Comparable = Differential AR of C Minus Diff AR base (as computed above).

Step 6: AR/AP adjustment – calculation of the differential interest embedded in the sales of the comparable vis-à-vis the tested party.

AR/AP adjustment is the differential interest embedded in the sales of the comparable company vis-à-vis the tested party and is calculated as follows:

Interest embedded in sales of comp = Interest embedded in Diff AR of Comp X Debtors turnover.

Capital adjustments often improve the reliability of TNMM comparisons if the tested party differs from the comparables with respect to their relative levels of certain balance sheet items (eg accounts payable, accounts receivable or inventory). Adjustments may differ depending on the profit level indicator selected. The following describes capital adjustments for accounts payable, accounts receivable, and inventory.

Accounts payable adjustment

- 1) The accounts payable adjustment removes implicit interest in the price of goods purchased on other than a cash basis from suppliers.
- 2) The purpose of this adjustment is to eliminate from profit comparisons the effects of companies' decisions on how to finance purchases.
- 3) A company purchasing goods on a cash basis would receive a lower price than a company purchasing the same goods on terms, because purchasing on terms subjects the seller to a capital cost that will be reflected in the price. Accordingly, if an adjustment is not made to reflect the implicit interest charged by suppliers, then a company that incurs more accounts payable would appear to be less profitable than an otherwise identical company that incurred less accounts payable.
- 4) The adjustment for this difference, referred to as "accounts payable adjustment", adjusts the cost of goods sold for each company by an estimate of the amount of interest included in the purchase price of the goods (or services). In other words, the cost of goods sold and, accordingly, operating profit is adjusted to a level that would be expected to exist if the companies purchased on a cash basis rather than on terms.
- 5) In simple terms, the embedded interest in cost of goods sold relating to accounts payable financing is estimated by multiplying an interest factor by the average outstanding accounts payable.
- 6) The amount of the adjustment to operating income is identical, regardless of the PLI. Moreover, because the decision on financing purchases does not affect a company's operating assets, sales or operating expense, this adjustment does not affect the denominator of the ROA, operating margin or Berry ratio. The adjustment affects cost of goods sold and also the denominator of the net cost plus ratio.
- 7) The company receiving longer terms will report a higher cost of goods sold and as a result lower operating profit.
- 8) The accounts payable adjustment thus estimates the implicit interest cost embedded in the cost of goods sold ("CGS"). The adjustment reduces the cost of goods sold (and as a result increases the gross profit) of the tested party and each of the comparables by the implicit interest paid to suppliers for financing received throughout the year. The amount financed by suppliers in a year is reflected by the average reported accounts payable ("AVGAP") during that year.
- 9) To determine the accounts payable adjustment, an "interest-free" average accounts payable by eliminating the embedded interest from AVGAP is computed. To calculate these interest-free accounts payable by dividing AVGAP by one plus a fraction of a year's interest rate corresponding to the number of days, the accounts payable remained outstanding. Finally, the embedded interest paid to the suppliers by multiplying the interest-free accounts payable by an annual interest rate ("RATE") is calculated. Accordingly, the formula for the accounts payable adjustment ("PAYZ") is:

$$\text{PAYZ} = \frac{\text{RATE} \times \text{AVGAP}}{1 + \text{RATE} \times \frac{\text{AVGAP}}{\text{CGS}}}$$

This formula is applicable to both the tested party and the comparable companies.

If cost of goods sold is controlled (sales in the denominator of the PLI)

$$\text{Payables Adjustment} = \left[\frac{\text{AP}_T}{S_T} - \frac{\text{AP}_C}{S_C} \right] * S_C * \left[\frac{i}{1 + i * \frac{\text{AP}_C}{S_C}} \right]$$

If sales are controlled (costs – TC is the denominator of the PLI)

$$\text{Payables Adjustment} = \left[\frac{AP_T}{TC_T} - \frac{AP_C}{TC_C} \right] * TC_C * \left[\frac{i}{1 + i * \frac{AP_C}{TC_C}} \right]$$

This formula is applicable only to the comparable companies.

Accounts receivable adjustment

- 1) The accounts receivable adjustment removes implicit interest in the price of goods or services sold on other than cash basis to customers.
- 2) The purpose of this adjustment is to eliminate the profit related to finance decisions of the seller.
- 3) A company selling on cash basis would receive a lower price than a company selling the same goods on terms, because selling on terms subjects the seller to a capital cost that will be reflected in the price.
- 4) Accordingly, if an adjustment is not made to reflect the implicit interest charged to customers, a company that extended longer payment terms would have higher accounts receivable and would appear to be more profitable than an otherwise identical company that extended shorter terms.
- 5) The adjustment for this difference, referred to as an "accounts receivable adjustment", adjusts the sales for each company by an estimate of the amount of interest included in the selling price of the goods or services. In other words, the sales, and accordingly the operating profit, are adjusted to a level that would be expected if the companies sold on cash basis rather than on terms.
- 6) The amount of the adjustment to operating income is identical, regardless of the PLI. However, the adjustment to the denominator depends on the PLI. For ROA, as the selling terms are being adjusted to a cash basis, accounts receivable are adjusted to zero. Accordingly, accounts receivable are removed from the asset base. For operating margin, as the adjustment for imputed financing costs is to sales, the denominator is reduced by the same amount of imputed interest as the numerator. For the Berry ratio and net cost *plus* ratio, as the accounts receivable adjustment is to sales, no adjustment is made to the denominator.
- 7) In simple terms, the embedded interest in sales relating to accounts receivable financing is estimated by multiplying an interest factor by the average outstanding accounts receivable.
- 8) By allowing customers to defer payment for a certain period, a firm foregoes the right to receive its revenues immediately and to earn additional income by reinvesting these revenues over the deferral period. For instance, a firm which demands immediate payment could invest its revenues in a financial instrument and earn interest over the next 90 days, an opportunity that is not available to a firm that allows its customers 90 days to pay for their purchases.
- 9) The accounts receivable adjustment thus estimates the implicit interest income embedded in sales ("SALE"). The adjustment reduces the sales (and as a result reduces the gross profit) of the tested party and each of the comparables by the implicit interest received from customers for financing provided throughout the year. The amount of financing provided to customers in a year is reflected in the reported average accounts receivable ("AVGAR") during that year.
- 10) The prime lending rate has been used as a proxy for computing the opportunity cost to the comparable of choosing a particular level of receivables, and thereby foregoing the interest it could have earned by investing in short-term interest bearing security the excess cash that was "tied up" in receivables. In the case of cash related assets (ie accounts receivable and accounts payable), the prime-lending rate is appropriately discounted since receivables/payables are stated at their future value (ie its value in 1 year).
- 11) To determine the accounts receivable adjustment, we first compute an "interest- free" average accounts receivable by eliminating the embedded interest from AVGAR. We then calculate these

interest-free accounts receivable by dividing AVGAR by one plus a fraction of a year's interest rate corresponding to the number of days the accounts receivable remained outstanding. Finally, we calculate the embedded interest received from customers by multiplying the interest-free accounts receivable by an annual interest rate ("RATE"). Accordingly, the formula for the accounts receivable adjustment ("RECZ") is provided as under:

$$\text{RECZ} = \frac{\text{RATE} \times \text{AVGAR}}{1 + \text{RATE} \times \frac{\text{AVGAR}}{\text{SALE}}}$$

This formula is applicable not only to the tested party but also to the comparable companies.

If the cost of goods sold is controlled (sales in the denominator of the PLI)

$$\text{Receivables Adjustment} = \left[\frac{\text{AR}_T}{S_T} - \frac{\text{AR}_C}{S_C} \right] * S_C * \left[\frac{i}{1 + i * \frac{\text{AR}_C}{S_C}} \right]$$

If cost of goods sold is controlled (sales in the denominator of the PLI)

$$\text{Inventory Adjustment} = \left[\frac{\text{INV}_T}{S_T} - \frac{\text{INV}_C}{S_C} \right] * S_C * i$$

If sales are controlled (costs in the denominator of the PLI)

$$\text{Inventory Adjustment} = \left[\frac{\text{INV}_T}{\text{TC}_T} - \frac{\text{INV}_C}{\text{TC}_C} \right] * \text{TC}_C * i$$

This formula is applicable only to the comparable companies.

Treasury instruments are cited here only for illustrative purposes. Clearly, the firm could consider alternative investments with different profiles of risk and expected return.

Particulars	Reference	Comparable	Tested
		Financial year ended 31.3.2010

Case Study 1:

J Inc. of Korea and CD Ltd, an Indian Company are associated enterprises. CD Ltd manufactures Cell Phones and sells them to J.K. & F Inc., a Company based at Nepal. During the year CD Ltd. supplied 2,50,000 Cellular Phones to J Inc. Korea at a price of ₹8,000 per unit and 35,000 units to JK & F Inc. at a price of ₹16,800 per unit. There being no other customer for CD Ltd. during this year. The transactions of CD Ltd with JK & F Inc. are comparable subject to the following considerations -

Sales to J Inc. are on FOB basis, sales to JK & F Inc. are CIF basis. The freight and insurance paid by J Inc. for each unit @ ₹700. Sales to JK & F Inc. are under a free warranty for Two Years whereas sales to J Inc. are without any such warranty. The estimated cost of executing such warranty is ₹500. Since J Inc.'s order was huge in volume, quantity discount of ₹200 per unit was offered to it. CD Ltd. has borrowed funds amounting to ₹100 crores, from its parent company at LIBOR plus 150 basis points. The fund is utilized for capital investment purposes, viz, expansion of capacity. The LIBOR prevalent at the time of borrowing is 6% for US\$, thus its cost of borrowings is 7.50%. The borrowings allowed under the External Commercial Borrowings guidelines issued under FEMA, for example, say is LIBOR plus 250 basis points, then it can be said that Pharma's borrowing at 7.50% is less than 6.50% and thus at not at arm's length. Installed Capacity: 4,00,000 units. Industry utilization rate: 90%. The company works for 300 days in a year at 8 hours per day and has 300 employees. Cost of employees ₹1,00,000. Total Depreciation charged during the year ₹10,00,000. Net Profit for the year for CD Ltd. ₹8,54,000. Net profit ratio is 8%.

Compute the Arm's Length Price and the subsequent amount of increase in the Total Income of CD Ltd, if any.

(a) Computation of Arm's Length Price of Products sold to J Inc. Korea by CD Ltd

Particulars	₹	₹
Price per Unit in a Comparable Uncontrolled Transaction		16,800
Less: Adjustment for Differences -		
(a) Freight and Insurance Charges	700	
(b) Estimated Warranty Costs	500	
(c) Discount for Voluminous Purchase	200	
(d) External Commercial Borrowings (Working Note 1)	35	
(e) Depreciation adjustment (Working Note 2a)	1	
(f) Adjustment for under-utilisation of manpower (Working Note 2 c)	3333.29	(4,769.29)
Arms's Length Price for Cellular Phone sold to J Inc. Korea		12,030.71

(b) Computation of Increase in Total Income of CD Ltd

Particulars	₹
Arm's Length Price per Unit	12,030.71
Less: Price at which actually sold to J Inc. Korea	(10,000)
Increase in Price per Unit	2,030.71
No. of Units sold to J Inc. Korea	2,50,000
Increase in Total Income of CD Ltd (2,50,000 x ₹2,030.71)	₹ 50,76,77,500 Crores.

Working Note 1: Adjustment for External Commercial Borrowings:

Excess Interest rate provided in comparison to ECB guidelines = $(7.50 - 6.50) \% = 1\%$

Excess Interest cost = 1% of ₹ 100 crores = ₹ 1 crore.

Installed Capacity = 4,00,000 units.

Interest Cost per unit, based on Utilised Capacity = ₹ 1,00,00,000 / $(2,50,000 + 35,000)$ = ₹ 35 (appx)

Capacity Utilised = $2,85,000 / 4,00,000 \times 100 = 71.25\%$

Working Note 2:

(a) Depreciation related to "idle assets" should be adjusted from Profit & Loss Account.

Year Ended	₹
Total depreciation charged in Profit & Loss Account	10,00,000
Add: Proportionate depreciation in relation to "idle assets" to the extent of 28.75%, since utilized capacity is 71.25%	2,87,500
= $[10,00,000 \times 28.75\%]$	
Depreciation adjusted in line with capacity utilisation	7,12,500

Depreciation adjustment per unit based on utilized capacity = $2,87,500 / 2,85,000 = 1.01 = 1.00$ (appx)

(b) Adjustment in Profit & Loss Account

Year Ended	₹
Net Profit as per Profit & Loss Account	8,54,000
Add: Proportionate depreciation in relation to "idle assets" to the extent of 28.75%, since utilized capacity is 71.25% = $[10,00,000 \times 28.75\%]$, now written back	2,87,500
Adjusted Net Profit	11,41,500

(c) Adjustment related to under-utilization of man-power

Steps	Year Ended	INR'000
(a)	Head counts	300
(b)	Maximum number of hours per employee (ie 300 days * 8 hrs per day)	2,400
(c)	Total available hours ($c = a * b$)	7,20,000
(d)	Utilisation rate	71.25%
(e)	Utilised hours ($= c * d$)	5,13,000
(f)	Unutilised hours ($= c - e$)	2,07,000
(g)	Unutilised hours after considering the industry unutilised rate of 10% ($= f / 0.2875 * 0.10$)	72,000
(h)	Total Unutilised head counts ($= g / 2,400$)	30
(i)	Proportionate unutilized head counts on the basis of output provided to AE $= (30 \times 2,50,000 / 2,85,000)$	26.316
(j)	Total Employment related costs	1,00,000
(k)	Proportionate employee related cost on the basis of output provided to Associated Enterprise = $(1,00,000 / 2,85,000 \times 2,50,000)$	87,719
(l)	Adjustment to total employee related Cost proportionate to output provided to AE ($= k / i$)	3333.29

Case Study 2

Happy Ltd., an Indian Company is a wholly-owned subsidiary of Happy Inc. Happy Ltd. is engaged in provision of software development services to its associated enterprise Happy Inc. The following is the

income statement if Happy Ltd. for the year ended 31.3.2010 Happy Ltd.

All figures in Rupees '000

Revenue from associated enterprises	
- Total operating income	95,000
Costs	
- Pay roll	40,000
- Rent	16,500
- Depreciation	9,500
- General administration expenses	8,200
- Other operating expenses	11,800
Total operating expenses	86,000
Operating profit	9,000

Net Cost plus mark-up (%) [Operating profit /total operating expenses] 10.46%

For the financial year ended 31st March, 2010, Happy Ltd has earned a Net Cost Plus mark-up of 10.46% from its associated enterprises. Accordingly, it is reasonable to conclude that Happy Ltd's international transactions with Happy Inc., relating to the provision of software services, appears to be consistent with the arm's length standard from the Indian transfer pricing perspective.

If Happy Ltd's actual mark-up is less than the arm's length mark-up benchmark of 11.77%, what would be the impact on assessment of arm's length price?

Solution:

It would need further examination as to whether it is compliant with the arm's length standard from an Indian Transfer pricing perspective. We may have two different scenarios:

Scenario 1: where Happy Ltd's margin is below the arm's length mark-up but within the range permissible under the proviso to Sec.92C (2)

Scenario 2: Where Happy Ltd's margin falls below the lower limit of the range of permissible under the proviso.

The calculation of range of permissible margins applying the proviso is shown in Table A. The arithmetic mean of 11.77% is applied to the costs of the tested party (₹86,000) to derive the arm's length price of the international transaction (refer col.2 –figure indicated as ALP ₹96,122) is a balancing figure and refers to the arm's length price of the international transaction.

The adjustment of (+/-) 5 percent permitted by the proviso is applied to the ALP to give the range of values that would be considered at arm's length. Further, as the international transactions consists of export of services, the lower end of the range is 95% of ALP ₹91,316 (Col.4) representing the lowest possible transaction value that would be considered compliant with the arm's length principle.

Table A

Calculation of Range of outcomes that would meet the arm's length standard applying the proviso to Section 92C (2)

Profit & Loss Account for the year ended 31st March, 2010

[All figures in Rupees '000]

Particulars	Col. 1	Col. 2		Col.3		Col.4	
	Actual	At ALP	Refer Note No.		At ALP (+) 5% of ALP	At ALP (-)5% of ALP	
(a) Revenue							
-From associated enterprises (international transaction)	95,000	96,122	2	ALP	1,00,928	ALP (+)5%	91,316
Total Operating Income	95,000	96,122			1,00,928		91,316
(b) Costs (all unrelated, no international transactions)							
Pay roll	40,000	40,000			40,000		40,000
Rent	16,500	16,500			16,500		16,500
Depreciation	9,500	9,500			9,500		9,500
General administration exp.	8,200	8,200			8,200		8,200
Other operating expenses	11,800	11,800			11,800		11,800
Total Operating expenses	86,000	86,000			86,000		86,000
(c) Operating Profit [= (a) – (b)]	9,000	10,122	1		14,928		5,316
Net Cost Mark-up (%)	10.46%						
Arm's length mark-up [i.e. arithmetical mean of the Net Cost Plus mark-up(%) of broadly comparable independent companies]		11.77%					
Range of net cost plus mark-ups that would be considered compliant with the arm's length standard applying the +/- 5% variation permitted by proviso to Sec.92C(2)					17.36%		6.18%
[= Operating Profit / Operating expenses]							

Notes:

- Operating profit in Col.2 is a derived figure by applying mark-up of 11.77% to the tested party's total operating expenses of ₹86,000
- (a) Revenue from associated enterprises (international transaction) in Col.2 is the balancing figure considering operating profit derived in Col.1 above and the total operating expenses remaining unchanged at ₹86,000. This revenue figure is the Arm's Length Price (ALP).

(b) Revenue from associated enterprises (international transaction) in Col.3 represents the upper limit of the range permissible under the proviso the Section 92C(2)

(c) Revenue from associated enterprises (international transaction) in Col.4 represents the lower limit of the range permissible under the proviso the Section 92C(2)

6. The Net Cost Plus Mark-up earned by the tested party (col.1) is higher than the arm's length mark-up (col.2), accordingly the international transaction complies with the arm's length principle.

Workings: Computation of Weighted Net Cost-plus mark-ups of broadly comparable independent companies. (on the basis of hypothetical data of 5 such companies for 5 years.)

Total Operating expenses	86,000	86,000			86,000		86,000	
(c) Operating Profit [(a) – (b)]	5,000	10,122	1		14,928		5,316	
Net Cost Mark-up (%)	5.82%							
Arm's length mark-up [i.e. arithmetical mean of the Net Cost Plus mark-up(%) of broadly comparable independent companies]		11.77%						
Range of net cost plus mark-ups that would be considered compliant with the arm's length standard applying the +/- 5% variation permitted by proviso to Sec.92C(2)					17.36%		6.18%	
[= Operating Profit / Operating expenses]								

Notes:

5. Operating profit in Col.2 is a derived figure by applying mark-up of 11.77% to the tested party's total operating expenses of ₹86,000
6. (a) Revenue from associated enterprises (international transaction) in Col. 2 is the balancing figure considering operating profit derived in Col.1 above and the total operating expenses remaining unchanged at ₹86,000. This revenue figure is the Arm's Length Price (ALP).
(b) Revenue from associated enterprises (international transaction) in Col.3 represents the upper limit of the range permissible under the proviso the Section 92C (2)
(c) Revenue from associated enterprises (international transaction) in Col.4 represents the lower limit of the range permissible under the proviso the Section 92C (2)
7. The Net Cost Plus Mark-up earned by the tested party (col.1) falls below the lower limit of the range permissible under proviso 92C(2) [Col.(4)] . This situation may expose the tested party to an adjustment to the price charged by it in its international transaction. Such adjustment, if recommended to be made by the TPO to the AO should amount to Rs.316 As explained hereunder.
8. Quantum of adjustment:

(v) Value of the international transaction	91,000
(vi) Arm's length price	96,122
(vii) Arm's length price applying the proviso to Sec.92C(2)	91,316
(viii) Adjustment (iii) – (i)	316

Case Study 3:

ABC ENGINEERING INC

The use of Cost Accounting Principles could lead to establishment of an Arms' Length Price which is different from the price arrived at by assessee in the TP Study Report.

The objective of our study would be to find out whether the Arms Length Price (ALP) worked out using CPM was in accordance with generally accepted cost accounting principles.

The assessee had a revenue model that was based on a man-hour rate with it's AE. Institute is finding was that the assessee was computing the total cost incurred over the entire available man-hours, which included idle time. Institute's contention was that the total cost needed to be segregated into variable costs and fixed costs and for the purpose of computing cost per hour, the variable costs should be computed based on capacity utilized and not on total hours (including idle hours). Cost of fixed expenses could, however, be computed based on total hours (including idle hours).

Computation of cost using CPM (in which it accepted the profit margins adopted by the assessee based on study of comparables) and recommended that the ALP be revised upwards to the tune of ₹55,83,930.

The computation made based on Cost Records are:

Annexure - Computation of Arm's Length Price					
ABC ENGINEERING INC.					
Total available hours				A	172,804
Hours billed to HO for work done				B	47,543
Idle hours billed to HO				C	48,447
External hours billed				D	16,465
Total billed hours				E=B+C+D	112,455

Capacity utilised for actual work				$F = (B+D) * 100 / A$	37.04%
Idle capacity billed				$G = C * 100 / A$	28.04%
Idle capacity not billed				$H = (A-E) * 100 / A$	34.92%
Total Variable costs reported in Annexure 3 of TP Study Report(₹)					15,399,050
Total actual hours of work done					64,008
Variable Cost per hour (₹)					241
Total Fixed Costs reported in Annexure 3 as per TP Study Report(₹)					54,427,999
Total available hours					172,804
Fixed Cost per hour					315
Total Cost per hour					556
Normal Margin per Hour (on sales)					27.55%
Arms Length charge per hour (CPM)					767
Variation (-5%)					728
Arms Length Price considered by assessee					645
Adjustment required (upward) per hour					83
Total upward adjustment required for the year (₹)					3,946,069
Tax thereon @ 40%					1,578,428
Surcharge @ 2.50%					39,461
					1,617,888
E-Cess /H.S.E-Cess @ 3%					48,537
					1,666,425

COST RECORDS – as an important tool for Assessment under Tax Laws

RELEVANCE OF COST ACCOUNTING PRINCIPLES IN ARM'S LENGTH PRICING

As a concept, the worldwide acceptability of Arm's Length Pricing (aka Transfer Price) as the price at which transactions between Associated Enterprises should take place is no more a matter of debate. It is true that some countries in South America have specific guidelines on Transfer Price which do not match with the methods recommended by the OECD but even those guidelines are generally in keeping with the concept of Arm's Length.

In a business environment in which competitive forces determine revenue earnings, profits are budgeted for by keeping a close control over costs. "Cost Control" is a byword in all corporate across the world and the better one is able to control costs, the more competitive one can price one's product or services.

Global corporations are increasingly centralizing essential functions like purchasing, IT infrastructure, legal service and R & D efforts with the objective of cutting costs and negotiating economies of scale with vendors. As a result, it is quite common now for the parent company to charge a "Management Fee" from its subsidiaries /associated enterprises or apportion a part of costs as a part of "Cost Contribution Arrangements".

The term "Management Fees" is usually used to loosely describe any Inter-Company Transfer that is neither a transfer of tangible property nor one of intangible property. It is often difficult to find comparables for such services or evaluate the benefits received. As a result, tax administrations are generally sceptical about "Management Fees" and consider them to be prone to potential abuse.

There are two views on the issue of Management Fees: Developed nations have adopted rules and regulations on deductibility of Management Fees as an expense so long as it complies with the applicable domestic tax law and Arm's Length Principle. However, other nations do not permit deductibility of these expenses and do not even recognize such kinds of expenses. Such nations impose restrictions by way of exchange controls and withholding taxes thus creating a barrier for such nature of remittances.

Before any structure can be defined for Management Fees, it is vital to establish the following:

- The exact nature of the services to be performed (taking care to exclude "Shareholder Activities").
- Which entities are to render the services and which are to receive the services.
- Actual costs involved in rendering the services.
- Deductibility of the expenses in the recipient country

The structure of the fees, scope of services and other aspects relating to the arrangement may be documented in the form of a written agreement (bilateral or multilateral) and would also require evidence of costs incurred and services actually rendered. Additionally, country-specific documentation should be added wherever applicable. A recent trend that has been discussed is that tax administrations are now seeking to establish that a direct benefit has resulted and the benefits are not indirect.

As mentioned earlier, for such nature of services, it is not easy to establish a comparable with an independent party. When a comparable cannot be established, the usual preference is to use the CPM (Cost Plus Method). **This requires establishing the costs, which may be ascertained by using an appropriate cost accounting method.** Furthermore, care should also be taken to distinguish between what constitutes a reimbursement and what constitutes a service function. Subject to the limitations discussed above, it would be appropriate to add a cost markup on the actual costs of the service function.

Cost sharing is based on the idea that a number of group companies/related companies may get together to fund the costs of research and development of new technologies or know-how. By sharing in the costs, each participant in the CCA obtains a right to the R&D. As soon as viable commercial opportunity arises, each participant may choose to exploit the opportunity optimally.

While the concept of **cost sharing** is simple, there are complex accounting and regulatory issues that arise in practice from such arrangements. For example, if the costs include cost of equipments /machinery, how will this be captured in the books of accounts of the participating entities. Will this be capitalized or charged to revenue? Should there be a profit markup in sharing?

There are benefits, too, that arise from cost sharing. For example, it may eliminate the need to pay royalties for transfer of intangible properties because each of the participants, by being a co-funder of the expenses, is entitled to enjoy the fruits of the intangible. Secondly, cost sharing is also a means of financing of R&D. Since related entities /group companies may be expected to benefit from R&D activity carried out by one of the entities (usually the parent company or a Research Centre), if they do not share the costs, it leads to a situation where the related entities get benefits at the cost of one entity only. Cost sharing eliminates this inequity.

A valid CCA between related entities involves a written agreement, signed preferably before commencement of the R&D work, to share the costs and risks of the R&D effort under mutual direction and benefit. Each participant agrees to bear a part of the costs and risks and in turn reaps proportionate benefits.

Acceptance of CCAs by all tax administrations has not happened yet but these are being recognized more and more by different administrations.

The strongest theoretical basis for cost allocation is by reference to the actual benefits derived from the activity (it is respectfully suggested that a recent ruling by the ITAT in the matter of Dressner Rand may not reflect international thought in this matter). However, all R&D expenditure may not necessarily result in commercially exploitable situations and there must be a method of dealing with abortive expenditure as well as successful expenditure. It is because of this that the preferred method of cost allocation is referenced to expected benefit. This calculation, however, is very complicated and may not be economical to perform. In practice, considerable weight is given to expected sales/revenue of each participant.

An important point to be remembered in this connection is that while tax administrations, in general, prefer to follow OECD guidelines in the matter of CCAs, some tax administrations have designed and brought into force special regulations dealing with these: For example, Article 41 of the Corporate Income Tax Law of China; Guidelines on CCAs issued in March 2006 by Japan; Taxation Ruling 2004/1 issued by Australia etc.

As mentioned earlier, a key issue is on the deductibility of expenses under CCAs. Should they be revenue expenditure or capital expenditure. There is no prescribed guideline on this and the accounting and tax treatment shall have to follow local tax law.

A more fundamental issue is on the proportion of costs charged under a CCA and whether this is reasonable. Tax administrations may wish to examine the CCA at a group level rather than at company level to examine this matter. A considerable amount of disclosure may be required to be made by the group in this matter and consequently, the documentation required for this is of crucial importance. From a practical standpoint, it should be remembered that examination by tax authorities is with the benefit of hindsight whereas when CCAs are entered into, it is on the basis of foresight. Therefore, there may be instances of abortive expenditure which tax administrations may use to relook at the expected benefits (and consequently the proportion of sharing).

In general, whether one is talking about Management Fees or Cost Contribution Arrangements, the Cost Plus Method & Transactional Net Margin Method are of increasing relevance in view of the fact that with such levels of globalization, it is difficult and complex to use CUP as the method of establishing transfer prices because comparables are more and more difficult to identify. In fact, it is expected that once India introduces Advance Pricing Arrangements, the Transactional Net Margin Method will be more commonly applied than CUP or CPM.

General Anti Avoidance Rule (GAAR)

Applicable of general anti- avoidance rule [Sec.95]

General Anti Avoidance Rules (GAAR) have been inserted with effect from April 1, 2014. The following explanation is given in the "Memorandum Explaining the provision in the Finance Bill, 2012" –

" The question of substance over form has consistently arisen in the implementation of taxation laws. In the Indian context, judicial decisions have varied. While some courts in certain circumstances had held that legal form of transactions can be dispensed with and the real substance of transaction can be considered while applying the taxation laws, others have held that the form is to be given sanctity. The existence of anti- avoidance principles is based on various judicial pronouncements. There are some specific anti-avoidance provisions but general anti-avoidance has been dealt only through judicial decisions in specific cases.

In an environment of moderate rates of tax, it is necessary that the correct tax base be subject to tax in the face of aggressive tax planning and use of opaque low tax jurisdictions for residence as well as for sourcing capital. Most countries have codified the "substance over form" doctrine in the form of General Anti Avoidance Rule (GAAR).

In the above background and keeping in view the aggressive tax planning with the use of sophisticated structures, there is a need for statutory provision so as to codify the doctrine of "substance over form" where the real intention of the parties and effect of transactions and purpose of an arrangement is

taken into account for determining the tax consequences, irrespective of the legal structure that has been superimposed to camouflage the real intent and purpose. Internationally several countries have introduced, and are administering statutory General Anti Avoidance provisions. It is, therefore, important that Indian taxation law also incorporate a statutory General Anti Avoidance Provisions to deal with aggressive tax planning. The basic criticism of statutory GAAR which is raised worldwide is that it provides a wide discretion and authority to the tax administration which at times is prone to be misused. This vital aspect, therefore, needs to be kept in mind while formulating any GAAR regime."

Impermissible Avoidance Arrangements

An arrangement whose main purpose (or one of the main purposes) is to obtain a tax benefit (and which also satisfies at least one of the four tests), can be declared as an "impermissible avoidance arrangements".

Four tests- The four tests are —

- The arrangement creates rights and obligations, which are not normally created between parties dealing at arm's length.
- It results in misuse or abuse of provisions of tax laws.
- It lacks commercial substance or is deemed to lack commercial substance.
- It is carried out in a manner , which is normally not employed for bona fide purpose

Onus of Proof – In the Finance Bill (as presented in Lok Sabha on March 16, 2012) the onus of establishing that the main purpose of the arrangement is not to obtain tax benefit, was on the taxpayer. However, this provision has been removed at the time of passing of the Finance Bill in Lok Sabha.

Lack of commercial substance – An arrangement will be deemed to lack commercial substance if-

- a. The substance or effect of the arrangements as a whole, is inconsistent with, or differs significantly from, the form of its individual steps or a part ; or
- b. It involves or includes-
 - i. Round trip financing;
 - ii. An accommodating party;
 - iii. elements that have effect of offsetting or cancelling each other; or
 - iv. a transaction which is conducted through one or more persons and disguises the value, location, source, ownership or control of fund which is subject matter of such transaction; or
- c. it involves the location of an asset or of a transaction or of the place of residence of any party which is without any substantial commercial purpose other than obtaining tax benefit for a party
 - **Round trip financing-** For the above purpose round trip financing includes any arrangement in which, through a series of transaction –
 - a. funds are transferred among the parties to the arrangement; and
 - b. such transactions do not have any substantial commercial purpose other than obtaining the tax benefit, without having any regard to –
 - whether or not the funds involved in the round trip financing can be traced to any funds transferred to, or received by, any party in connection with the arrangement;
 - the time or sequence, in which the funds involved in the round trip financing are transferred or received; or
 - the means by, or manner in or mode through, which funds involved in the round trip financing are transferred or received.

It is also provided that certain circumstances like period of existence of arrangement, taxes arising from arrangement, exit route, shall not be taken into account while determining 'lack of commercial substance' test for an arrangement.

Consequences of an impermissible avoidance arrangement – Once the arrangement is held to be an impermissible avoidance arrangement then the consequences of the arrangement in relation to tax or benefit under a tax treaty can be determined by keeping in view the circumstances of the case, however, some of the illustrative steps are –

- a. Disregarding or combining any step of the arrangement,
- b. Ignoring the arrangement for the purpose of taxation law,
- c. Disregarding or combining any party to the arrangement,
- d. Reallocating expenses and income between the parties to the arrangement,
- e. Relocating place of residence of a party, or location of a transaction or situs of an asset to a place other than provided in the arrangement,
- f. Considering or looking through the arrangement by disregarding any corporate structure, and
- g. Re-characterizing equity into debt, capital into revenue, etc.
 - These provisions can be used in addition to or in conjunction with other anti-avoidance provisions or provisions for determination of tax liability, which are provided in the taxation law.
 - For effective application in cross border transaction and to prevent treaty abuse, a limited treaty override is also provided.

Procedure for invoking GAAR

The procedure for invoking GAAR is as under-

1. The Assessing Officer shall make a reference to the Commissioner for invoking GAAR and on receipt of reference the commissioner shall hear the taxpayer and if he is not satisfied by the reply of taxpayer and is of the opinion that GAAR provision are to be invoked, he shall refer the matter to an Approving Panel. In case the assessee does not object or reply, the Commission shall make determination as to whether the arrangements is an impermissible avoidance arrangement or not.
2. The Approving Panel has to dispose of the reference within a period of 6 months from the end of the month in which the reference was received from the Commissioner.
3. The Approving Panel shall either declare an arrangement to be impermissible or declare it not to be so, after examining material and getting further inquiry to be made.
4. The Assessing Officer will determine consequences of such a positive declaration of arrangement as impermissible avoidance arrangement.
5. The final order in case any consequence of GAAR is determined shall be passed by the Assessing Officer only after approval by the Commissioner and, thereafter, first appeal against such order shall lie to the Appellate Tribunal.
6. The period taken by the proceedings before the Commissioner and Approving Panel shall be excluded from time limitation for completion of assessment.
7. The Board will set-up an Approving Panel consisting of not less than 3 members being —
 - a. Income – tax authorities (not below the rank of Commissioner) and
 - b. An official of the Indian Legal Service (not below the rank of Joint Secretary.)
8. The panel will have a minimum of three members. The procedure and working of Panel shall be administered through subordinate legislation.

9. In addition to the above, it is provided that the Board shall prescribe a scheme for regulating the condition and the manner of application of these provisions.

Advance Pricing Agreement Scheme (APA)

Meaning of expressions used in matters in respect of advance pricing agreement.

10F For the purposes of this rule and rules 10G to 10T,–

- (a) 'agreement' means an advance pricing agreement entered into between the Board and the applicant, with the approval of the Central Government, as referred to in sub-section (1) of section 92CC of the Act;
- (b) "application" means an application for advance pricing agreement made under rule 10I;
- (c) "bilateral agreement" means an agreement between the Board and the applicant, subsequent to, and based on, any agreement referred to in rule 44 GA between the competent authority in India with the competent authority in the other country regarding the most appropriate transfer pricing method or the arms' length price;
- (d) "competent authority in India" means an officer authorised by the Central Government for the purpose of discharging the functions as such for matters in respect of any agreement entered into under section 90 or 90A of the Act;
- (e) "covered transaction" means the international transaction or transactions for which agreement has been entered into;
- (f) "critical assumptions" means the factors and assumptions that are so critical and significant that neither party entering into an agreement will continue to be bound by the agreement, if any of the factors or assumptions is changed;
- (g) "most appropriate transfer pricing method" means any of the transfer pricing method, referred to in sub-section (1) of section 92C of the Act, being the most appropriate method, having regard to the nature of transaction or class of transaction or class of associated persons or function performed by such persons or such other relevant factors prescribed by the Board under rule 10B and 10C;
- (h) "multilateral agreement" means an agreement between the Board and the applicant, subsequent to, and based on, any agreement referred to in rule 44GA between the competent authority in India with the competent authorities in the other countries regarding the most appropriate transfer pricing method or the arms' length price;
- (i) "tax treaty" means an agreement under section 90, or section 90A, of the Act for the avoidance of double taxation;
- (j) "team" means advance pricing agreement team consisting of income-tax authorities as constituted by the Board and including such number of experts in economics, statistics, law or any other field as may be nominated by the Director General of Income Tax (International Taxation);
- (k) "unilateral agreement" means an agreement between the Board and the applicant which is neither a bilateral nor multilateral agreement.

Persons eligible to apply

10G Any person who –

- (i) has undertaken an international transaction; or
 - (ii) is contemplating to undertake an international transaction,
- shall be eligible to enter into an agreement under these rules.

Pre-filing Consultation

- 10H (1) Every person proposing to enter into an agreement under these rules shall, by an application in writing, make a request for a pre-filing consultation.
- (2) The request for pre-filing consultation shall be made in Form No. 3 CEC to the Director General of Income Tax (International Taxation).
 - (3) On receipt of the request in Form No. 3 CEC, the team shall hold pre-filing consultation with the person referred to in rule 10G.
 - (4) The competent authority in India or his representative shall be associated in pre-filing consultation involving bilateral or multilateral agreement.
 - (5) The pre-filing consultation shall, among other things,-
 - (i) determine the scope of the agreement;
 - (ii) identify transfer pricing issues;
 - (iii) determine the suitability of international transaction for the agreement;
 - (iv) discuss broad terms of the agreement.
 - (6) The pre-filing consultation shall—
 - (i) not bind the Board or the person to enter into an agreement or initiate the agreement process;
 - (ii) not be deemed to mean that the person has applied for entering into an agreement.

Application for advance pricing agreement

- 10I (1) Any person, who has entered into a pre-filing consultation as referred to in rule 10H may, if desires to enter into an agreement furnish an application in Form No. 3 CED alongwith the requisite fee.
- (2) The application shall be furnished to Director General of Income Tax (International Taxation) in case of unilateral agreement and to the competent authority in India in case of bilateral or multilateral agreement.
 - (3) Application in Form No. 3 CED may be filed by the person referred to in rule 10G at any time—
 - (i) before the first day of the previous year relevant to the first assessment year for which the application is made, in respect of transactions which are of a continuing nature from dealings that are already occurring; or
 - (ii) before undertaking the transaction in respect of remaining transactions.
 - (4) Every application in Form No. 3 CED shall be accompanied by the proof of payment of fees as specified in sub-rule (5).

Withdrawal of application for agreement

- 10J (1) The applicant may withdraw the application for agreement at any time before the finalisation of the terms of the agreement.
- (2) The application for withdrawal shall be in Form No. 3CEE.
 - (3) The fee paid shall not be refunded on withdrawal of application by the applicant.

Preliminary processing of application

- 10K (1) Every application filed in Form No. 3CED shall be complete in all respects and accompanied by requisite documents.
- (2) If any defect is noticed in the application in Form No. 3CED or if any relevant document is not attached thereto or the application is not in accordance with understanding reached in pre-filing

consultation referred to in rule 10H, the Director General of Income-tax (International Taxation) (for unilateral agreement) and competent authority in India (for bilateral or multilateral agreement) shall serve a deficiency letter on the applicant before the expiry of one month from the date of receipt of the application.

- (3) The applicant shall remove the deficiency or modify the application within a period of fifteen days from the date of service of the deficiency letter or within such further period which, on an application made in this behalf, may be extended, so however, that the total period of removal of deficiency or modification does not exceed thirty days.
- (4) The Director General of Income Tax (International Taxation) or the competent authority in India, as the case may be, on being satisfied, may pass an order providing that application shall not be allowed to be proceeded with if the application is defective and defect is not removed by applicant in accordance with sub-rule (3).
- (5) No order under sub-rule (4) shall be passed without providing an opportunity of being heard to the applicant and if an application is not allowed to be proceeded with, the fee paid by the applicant shall be refunded.

Procedure

- 10 L (1) If the application referred to in rule 10K has been allowed to be proceeded with, the team or the competent authority in India or his representative shall process the same in consultation and discussion with the applicant in accordance with provisions of this rule.
- (2) For the purpose of sub-rule (1), it shall be competent for the team or the competent authority in India or its representative to—
 - (i) hold meetings with the applicant on such time and date as it deem fit;
 - (ii) call for additional document or information or material from the applicant;
 - (iii) visit the applicant's business premises; or
 - (iv) make such inquiries as it deems fit in the circumstances of the case.
- (3) For the purpose of sub-rule (1), the applicant may, if he considers it necessary, provide further document and information for consideration of the team or the competent authority in India or his representative.
- (4) For bilateral or multilateral agreement, the competent authority shall forward the application to Director General of Income Tax (International Taxation) who shall assign it to one of the teams.
- (5) The team, to whom the application has been assigned under sub-rule (4), shall carry out the enquiry and prepare a draft report which shall be forwarded by the Director General of Income Tax (International Taxation) to the competent authority in India.
- (6) If the Applicant makes a request for bilateral or multilateral agreement in its application, the competent authority in India shall in addition to the procedure provided in this rule invoke the procedure provided in the rule 44 GA.
- (7) The Director General of Income Tax (International Taxation) (for unilateral agreement) or the competent authority in India (for bilateral or multilateral agreement) and the applicant shall prepare a proposed mutually agreed draft agreement enumerating the result of the process referred to in sub-rule (1) including the effect of the arrangement referred to in sub-rule (5) of rule 44GA which has been accepted by the applicant in accordance with sub-rule (8) of the said rule.
- (8) The agreement shall be entered into by the Board with the applicant after its approval by the Central Government.

- (9) Once an agreement has been entered into the Director General of Income Tax (International Taxation) or the competent authority in India, as the case may be, shall cause a copy of the agreement to be sent to the Commissioner of Income Tax having jurisdiction over the assessee.

Terms of the agreement

10 M (1) An agreement may among other things, include –

- (i) the international transactions covered by the agreement;
 - (ii) the agreed transfer pricing methodology, if any;
 - (iii) determination of arm's length price, if any;
 - (iv) definition of any relevant term to be used in items (ii) or (iii);
 - (v) critical assumptions;
 - (vi) the conditions if any other than provided in the Act or these rules.
- (2) The agreement shall not be binding on the Board or the assessee if there is a change in any of critical assumptions or failure to meet conditions subject to which the agreement has been entered into.
 - (3) The binding effect of agreement shall cease only if any party has given due notice of the concerned other party or parties.
 - (4) In case there is a change in any of the critical assumptions or failure to meet the conditions subject to which the agreement has been entered into, the agreement can be revised or cancelled, as the case may be.
 - (5) The assessee which has entered into an agreement shall give a notice in writing of such change in any of the critical assumptions or failure to meet conditions to the Director General of Income Tax (International Taxation) as soon as it is practicable to do so.
 - (6) The Board shall give a notice in writing of such change in critical assumptions or failure to meet conditions to the assessee, as soon as it comes to the knowledge of the Board.
 - (7) The revision or the cancellation of the agreement shall be in accordance with rules 10Q and 10R respectively.

Amendments to Application

- 10 N (1) An applicant may request in writing for an amendment to an application at any stage, before the finalisation of the terms of the agreement.
- (2) The Director General of Income Tax (International Taxation) (for unilateral agreement) or the competent authority in India (for bilateral or multilateral agreement) may, allow the amendment to the application, if such an amendment does not have effect of altering the nature of the application as originally filed.
 - (3) The amendment shall be given effect only if it is accompanied by the additional fee, if any, necessitated by such amendment in accordance with fee as provided in rule 10 I.

Furnishing of Annual Compliance Report

- 10 O (1) The assessee shall furnish an annual compliance report to Director General of Income Tax (international Taxation) for each year covered in the agreement.
- (2) The annual compliance report shall be in Form 3CEF.
 - (3) The annual compliance report shall be furnished in quadruplicate, for each of the years covered in the agreement, within thirty days of the due date of filing the income tax return for that year, or within ninety days of entering into an agreement, whichever is later.

- (4) The Director General of Income Tax (International Taxation) shall send one copy of annual compliance report to the competent authority in India, one copy to the Commissioner of Income Tax who has the jurisdiction over the income-tax assessment of the assessee and one copy to the Transfer Pricing Officer having the jurisdiction over the assessee.

Compliance Audit of the agreement

- 10 P (1) The Transfer Pricing Officer having the jurisdiction over the assessee shall carry out the compliance audit of the agreement for each of the year covered in the agreement.
- (2) For the purposes of sub-rule(1), the Transfer Pricing Officer may require –
- (i) the assessee to substantiate compliance with the terms of the agreement, including satisfaction of the critical assumptions, correctness of the supporting data or information and consistency of the application of the transfer pricing method;
 - (ii) the assessee to submit any information, or document, to establish that the terms of the agreement has been complied with.
- (3) The Transfer Pricing Officer shall submit the compliance audit report, for each year covered in the agreement, to the Director General of Income Tax (International Taxation) in case of unilateral agreement and to the competent authority in India, in case of bilateral or multilateral agreement, mentioning therein his findings as regards compliance by the assessee with terms of the agreement.
- (4) The Director General of Income Tax (International Taxation) shall forward the report to the Board in a case where there is finding of failure on part of assessee to comply with terms of agreement and cancellation of the agreement is required.
- (5) The compliance audit report shall be furnished by the Transfer Pricing Officer within six months from the end of the month in which the Annual Compliance Report referred to in rule 10 O is received by the Transfer Pricing Officer.
- (6) The regular audit of the covered transactions shall not be undertaken by the Transfer Pricing Officer if an agreement has been entered into under rule 10L except where the agreement has been cancelled under rule 10R.

Revision of an agreement

- 10 Q (1) An agreement, subsequent to it having been entered into, may be revised by the Board, if,-
- (a) there is a change in critical assumptions or failure to meet a condition subject to which the agreement has been entered into;
 - (b) there is a change in law that modifies any matter covered by the agreement but is not of the nature which renders the agreement to be non binding ; or
 - (c) there is a request from competent authority in the other country requesting revision of agreement, in case of bilateral or multilateral agreement.
- (2) An agreement may be revised by the Board either *suo-moto* or on request of the assessee or the competent authority in India or the Director General of Income Tax (International Taxation).
- (3) Except when the agreement is proposed to be revised on the request of the assessee, the agreement shall not be revised unless an opportunity of being heard has been provided to the assessee and the assessee is in agreement with the proposed revision.
- (4) In case the assessee is not in agreement with the proposed revision the agreement may be cancelled in accordance with rule-10R.
- (5) In case the Board is not in agreement with the request of the assessee for revision of the agreement, the Board shall reject the request in writing giving reason for such rejection.

- (6) For the purpose of arriving at the agreement for the proposed revision, the procedure provided in rule 10 L may be followed so far as they apply.
- (7) The revised agreement shall include the date till which the original agreement is to apply and the date from which the revised agreement is to apply.

Cancellation of an agreement

10 R (1) An agreement shall be cancelled by the Board for any of the following reasons:

- (i) the compliance audit referred to in rule 10P has resulted in the finding of failure on the part of the assessee to comply with the terms of the agreement;
 - (ii) the assessee has failed to file the annual compliance report in time;
 - (iii) the annual compliance report furnished by the assessee contains material errors; or
 - (iv) the agreement is to be cancelled under sub-rule (4) of rule 10Q.
- (2) The Board shall give an opportunity of being heard to the assessee, before proceeding to cancel an application.
 - (3) The competent authority in India shall communicate with the competent authority in the other country or countries and provide reason for the proposed cancellation of the agreement in case of bilateral or multilateral agreement.
 - (4) The order of cancellation of the agreement shall be in writing and shall provide reasons for cancellation and for non acceptance of assessee's submission, if any.
 - (5) The order of cancellation shall also specify the effective date of cancellation of the agreement, where applicable.
 - (6) The order under the Act, declaring the agreement as *void ab initio*, on account of fraud or misrepresentation of facts, shall be in writing and shall provide reason for such declaration and for non acceptance of assessee's submission, if any.
 - (7) The order of cancellation shall be intimated to the Assessing Officer and the Transfer Pricing Officer, having jurisdiction over the assessee.

Renewing an agreement

10 S Request for renewal of an agreement may be made as a new application for agreement, using the same procedure as outlined in these rules except pre filing consultation as referred to in rule 10H.

Miscellaneous

- 10 T (1) Mere filing of a application for an agreement under these rules shall not prevent the operation of Chapter X of the Act for determination of arms' length price under that Chapter till the agreement is entered into.
- (2) The negotiation between the competent authority in India and the competent authority in the other country or countries, in case of bilateral or multilateral agreement, shall be carried out in accordance with the provisions of the tax treaty between India and the other country or countries."
- (b) after rule 44G of the principal rules, the following rule shall be inserted, namely.-

"Procedure to deal with requests for bilateral or multilateral advance pricing agreements.

44GA

- (1) Where a person has made request for a bilateral or multilateral advance pricing agreement in an application filed in Form No. 3 CED in accordance with rule 10 I, the request shall be dealt with subject to provisions of this rule.

- (2) The process for bilateral or multilateral advance pricing agreement shall not be initiated unless the associated enterprise situated outside India has initiated process of advance pricing agreement with the competent authority in the other country.
 - (3) The competent authority in India shall, on intimation of request of the applicant for a bilateral or multilateral agreement, consult and ascertain willingness of the competent authority in other country or countries, as the case may be, for initiation of negotiation for this purpose.
 - (4) In case of willingness of the competent authority in other country or countries, as the case may be, the competent authority in India shall enter into negotiation in this behalf and endeavour to reach a set of terms which are acceptable to the competent authority in India and the competent authority in the other country or countries, as the case may be.
 - (5) In case of an agreement after consultation, the competent authority in India shall formalise a mutual agreement procedure arrangement with the competent authority in other country or countries, as the case may be, and intimate the same to the applicant.
 - (6) In case of failure to reach agreement on such terms as are mutually acceptable to parties mentioned in sub-rule 4, the applicant shall be informed of the failure to reach an agreement with the competent authority in other country or countries.
 - (7) The applicant shall not be entitled to be part of discussion between competent authority in India and the competent authority in the other country or countries, as the case may be; however the applicant can communicate or meet the competent authority in India for the purpose of entering into an advance pricing agreement.
 - (8) The applicant shall convey acceptance or otherwise of the agreement within thirty days of it being communicated.
 - (9) The applicant, in case the agreement is not acceptable may at its option continue with process of entering into an advance pricing agreement without benefit of mutual agreement process or withdraw application in accordance with rule 10J ”.
- (c) In Appendix-II of the principal rules, after Form No. 3 CEB, the following Forms shall be inserted, namely: -

“Form No. 3CEC (See sub-rule (2) of rule 10 H)	Application for a pre-filing meeting
Form No. 3 CED (See sub-rule (1) of rule 10 I)	Application for an Advance Pricing Agreement I. General II. Functional analysis III. Industry and market analyses IV. Transfer pricing background V. Transfer Pricing Methodology analysis: VI. Impact of proposed TPMs
Form No. 3 CEE (See sub-rule (2) of rule 10 J)	Application for withdrawal of APA request
Form No. 3 CEF (See sub-rule 2 of rule 10 O)	Annual Compliance Report on Advance Pricing Agreement

- 23.2 Case Laws on Central Excise
- 23.3 Case Laws on Customs
- 23.4 Case Laws on Service Tax

23.1 CASE LAWS ON DIRECT TAX

A. BASIC CONCEPTS

1. **Whether where for assessment year 2005-06 section 2(14) does not specifically exclude paintings from the purview of 'personal effects' is liable to Capital gain tax.**

CIT vs. Kuruvilla Abraham (2013) 215 Taxman 644 (Mad) (HC)

During the previous year relevant to the assessment year 2005-06, the assessee had sold paintings and did not admit tax liability on the profit arising from sale of such paintings contending that the said paintings were 'personal effects' and not 'capital asset'.

The Assessing Officer rejected the contention of the assessee and brought to tax the aforesaid profit in the hands of the assessee under the head 'capital gains'.

The relevant assessment year is 2005-06 and during such assessment year the definition of 'capital asset' found under section 2(14) does not specifically exclude paintings from the purview of 'personal effects'. The paintings were excluded from the purview of 'personal effects' and consequently included as one of the 'capital asset' under section 2(14) only in pursuant to the amendment made by the Finance Act, 2007 and that too with effect from 1-4-2008. The above amendment was not made with any retrospective effect. On the other hand, the amendment was intended to take effect from 1-4-2008 and will accordingly apply in relation to the assessment year 2008-09 and for subsequent years. When the amendment itself was brought in with prospective effect, the same cannot be applied retrospectively. In order to attract the tax liability under the head 'capital gains', it should first fall within the definition of 'capital asset' as contemplated under section 2(14). The paintings are excluded from the purview of 'personal effects' and included within the scope of 'capital asset' only with effect from 1-4-2008. Therefore, the capital gains tax on the paintings are liable only with effect from 1-4-2008 in respect of the assessment year 2008-09 onwards and not in respect of earlier assessment years.

2. **Assessing Officer did not grant exemption under section 2(14)(iii) on ground that there was possibility of distance shorter than 8 kms between plots of land and municipal limits - However, Assessing Officer did not doubt use of land being for agriculture - Whether, question of law can be raised before Tribunal only if it arises from facts as found by Income-tax authorities**

CIT vs. Nirmal Bansal (2013) 215 Taxman 639 (Delhi)(HC)

The assessee sold different plots of land, which were claimed to be agricultural land, situated at distance of more than 8 kms. from municipal limits. In support the assessee furnished certificate of Tehsildar and letter of District Town Planning stating that the land was situated beyond 8 kms. from outer limits of the municipal corporation. Assessing Officer disallowed the claim. On appeal Commissioner (Appeals) decided in issue in favour of assessee. Appeal of the department was

dismissed by Tribunal. On appeal by revenue the court held that a question of law can be raised only if it arises from facts as found by Income-tax authorities. Therefore, where the Tribunal did not consider a question raised by revenue that land in question was not agricultural land as the Assessing Officer had not doubted such fact, order of Tribunal did not call for any interference.

3. **Assessee-trust was running educational institutions. To aid spreading of education and update syllabus and other related educational aspects, two magazines were started its sister concern in which it made investment. Assessing Officer denied exemption under section 11 to assessee on ground that by publishing magazines assessee infringed section 13(1)(c). Whether assessee was entitled to benefit under section 11.**

CIT vs. Vijaya Vani Educational Trust (2013) 215 Taxman 137(Mag.) (AP)(HC)

The background facts leading to this reference are these. M/s. Vijaya Vani Educational Trust, Chowdepalle in Chittoor District (hereafter, "the assessee") is an association registered under the Societies Registration Act, 1860. It was constituted through a memorandum of association dated June 11, 1984. The assessee obtained registration under section 12A of the Act from the Commissioner of Income-tax and availed of the benefits under section 11 till 1985-86. But, for the assessment years 1986-87 and 1987-88, the Assessing Officer denied the exemption. The reasons were three, namely, (i) the association is not a public charitable trust ; its objects are limited for the benefit of a few people ; (ii) the association is running educational institution only for the purpose of commerce ; and (iii) there is violation of the provisions of sections 11(5) of the Act, inasmuch as the assessee invested the monies in two organisations publishing "Maabadi", "Patasala" and "Vijaya Vani Printers" and thereby infringed section 13(1)(c) of the Act. The assessment was accordingly completed by the Assistant Commissioner of Income-tax, Tirupathi, treating the assessee as an association of persons with maximum marginal rate.

In the case on hand, running M/s. Vijaya Vani Printers, Maabadi and Patasala, etc., cannot be said to be commercial ventures as held by the Commissioner of Income-tax. To argue that the trust exists for the benefit of a few members cannot be accepted as there has been an amendment in the memorandum of association as noticed supra. The assessee herein was running educational institutions and to aid spreading of the education and update the syllabus and other related educational aspects, two magazines were started by the assessee or their sister concern. They are incidental and ancillary to the main activities of the trust and, therefore, the ratio in Yogiraj Charity Trust (supra) is not applicable. Question No. 4, therefore, has to be answered in the negative in favour of the assessee and against the Revenue and question No. 5 is answered in the affirmative against the Revenue and in favour of the assessee.

4. **Assessee-trust was established under Rajasthan Urban Improvement Act, 1959 by State Government with predominant purpose of development of Urban areas in State of Rajasthan - Whether since main objects of assessee were to construct roads, provide water and electricity facility, to construct drainage system, to improve gardens and open space, to provide housing facility by allotting residential plots etc. which were in nature of general public utility and even though assessee might be carrying on with a profit motive but such activity was incidental to objects of assessee, it was entitled for registration under section 12A.**

Urban Improvement Trust vs. CIT (2013) 142 ITD 313 (Jodh.)(Trib.)

The assessee trust was established by Rajasthan Urban Improvement Act, 1959 by the State of Rajasthan with predominant purpose of development of the urban areas in the State of Rajasthan. The income earned by the assessee was deployed for the development of the urban areas in the State. The Commissioner rejected application of the assessee for registration under section 12A on the ground that there was profit motive in carrying the objectives.

The main objects of the assessee are to construct the roads, provide the water and electricity facility, to construct the drainage system, to improve the gardens and open space, to provide

housing facility by allotting the residential plots etc. which are in the nature of general public utility and even though the assessee might be carrying on with a profit motive but such activity was incidental to the objects of the assessee, therefore, it was entitled for registration under section 12A.

Further the activities of the assessee were covered under any other object of general public utility. The primary purpose of public welfare was predominant object of the assessee, therefore, the assessee was entitled for registration under section 12A.

5. Whether goods sold to sister concern provision of section 2(22)(e) is made applicable.

CIT vs. Shripad Concrete (P.) Ltd. (2013) 215 Taxman 143 (Mag.) (Guj.)(HC)

During the assessment proceedings, the Assessing Officer found that assessee had given certain amount as advance to its sister concern. The assessee's explanation was that said amount was not a loan or advance rather it represented value of goods sold to sister concern which the Assessing Officer rejected and made addition u/s.2(22)(e). The Commissioner (Appeals) as well as Tribunal finding that assessee had infact sold goods to its sister concern, set aside addition made by the Assessing Officer. Court held that since the amount in question involved business transaction and it could not be categorised as loan or advance, question of application of s. 2(22)(e) did not arise.

6. In case of assessee-company was engaged in generation and distribution of power. It supplied power to GEB and ESL - In accordance with agreement of power generation and supply thereof with GEB and ESL tax payable by assessee-company was agreed to be reimbursed by both companies - Whether as per agreement between assessee and GEB, amount of income-tax calculated and paid by GEB was part of tariff charged by assessee on sale of electricity and not reimbursement of expenses and, therefore, it was part of receipts in hands of assessee.

Essar Power Ltd. vs. Addl. CIT (2013) 142 ITD 251 (Mum.)(Trib.)

The assessee-company was engaged in the generation and distribution of power. During the year under consideration, it supplied the power to GEB and ESL. In accordance with the agreement of power generation and supply thereof with GEB and ESL, tax payable by the assessee-company was agreed to be reimbursed by both the companies. For the year under consideration, assessee had shown below the profit and loss account certain amount as provision for tax recoverable. This amount had not been included in the total income of the assessee. According to the assessee it was in the nature of reimbursement of expenditure and, hence, not income in the assessee's hand. The Assessing Officer held that such reimbursement would be added to assessee's total income. The Commissioner (Appeals) upheld the order of the Assessing Officer.

From the agreement between assessee and GEB it is clear that amount of income-tax calculated and paid by GEB is part of tariff charged by the assessee on sale of electricity and not reimbursement of expenses and, therefore, it is part of receipts in the hands of the assessee. And under the Act, the definition of income in clause (24) of section 2 is an inclusive definition. Anything which can properly be described as income is taxable unless, of course, it is exempted under one or the other provisions of the Act. It is from the said angle that the amount paid by the power purchasers by way of tax on the amount of tariff charges received by the assessee can be treated as the income of the assessee. It cannot be overlooked that the said amount is nothing but a tax upon the payments received by the assessee. By virtue of the obligation undertaken by the power purchasers to reimburse the tax to the assessee, it does not mean that it is not the income in the hands of the assessee. The payment of tax received by the assessee is a part of tariff charges as per agreements and, hence, it is an income in the hands of the assessee. Therefore, the said amount, without allowing any deduction, is liable to be included in the income of the assessee.

7. **Capital or revenue-Income earned on sale of carbon credits is capital receipt and not revenue receipt liable to tax.**

My Home Power Ltd. vs. Dy. CIT (2013) 21 ITR 186/81 DTR 173 (Hyd.)(Trib.)

The assessee company was generating power through biomass power generation unit. During the year, it had received CERs (Carbon Emission Reduction certificates) and sold CERs to a foreign company. The Assessing Officer held that the sale of CERs was a revenue receipt since they are a tradable and even quoted in stock exchange. The CIT(A) upheld the addition. The Tribunal deleted the addition by holding that carbon credit was in the nature of "an entitlement" received inter alia to improve world atmosphere heat and gas emissions. The entitlement is to be regarded as a capital receipt and cannot be taxed as a revenue receipt as it is not generated or created due to carrying on business but it is accrued due to "world concern" and "environment". The amount received for carbon credits does not have any element of profit and hence not liable for tax in terms of sections 2(24), 28, 45 and 56.

8. **Assessee a company entered into a collaboration agreement with owner of an immovable property, who executed a General Power of Attorney (GPA) in assessee's favour - Sub-Registrar resisted to register GPA on basis of circular issued by Government of NCT of Delhi, holding that transaction was, in effect, a transaction of sale, and it was sought to evade stamp duty - Whether, circular directing Registrars not to register conveyance of immovable property based on a GPA, was contrary to observation of Supreme Court and was liable to be set aside.**

Pace Developers & Promoters (P.) Ltd. v. Government of NCT (2013) 215 Taxman 554 (Delhi)(HC)

The petitioner company entered into a collaboration agreement with 'R', owner of an immovable property, who executed a General Power of Attorney (GPA) in favour of the assessee. The GPA was duly registered and stamped. 'R' also executed a will, as per which 25 per cent of the land on which the said property was built, was to devolve on the director of the petitioner company on her death. The Divisional Commissioner, Government of NCT of Delhi (respondent) issued a circular, which is claimed to be contrary to the judgment of the Supreme Court in the case of Suraj Lamp & Industries (P.) Ltd. v. State of Haryana [2012] 340 ITR 1/[2011] 202 Taxman 607/14 taxmann.com 103 by the assessee. The assessee filed instant writ petition requesting the Court to direct the sub-registrar to register the GPA. The respondents claimed that the transaction between assessee and 'R' was entered into to evade stamp duty and it was in effect, a transaction of sale; rate of stamp duty being 6 per cent and not 3 per cent. Therefore, there was resistance by the sub-registrar to register the document.

A bare reading of the circular would show that the respondents have issued across the board, a directive to all Registrars and Sub-Registrar not to register any conveyance vis-à-vis an immovable property which is based on a GPA, Will or Agreement to Sell. This direction clearly misconstrues the observations of the Supreme Court in the case of Suraj Lamp & Industries (P.) Ltd. (*supra*), wherein the Supreme Court has not said that in no case a conveyance can be registered by taking recourse to a GPA. As long as the transaction is genuine, the same will have to be registered by the sub-registrar. There is distinctly a specific reference to the fact that, a person may enter into a development agreement with a land developer or builder for development of a parcel of land or for construction of apartments in a building, and for this purpose, a power of attorney empowering the developer to execute sale agreements can be executed. Therefore, the directions contained in the impugned circular dated 27-4-2012, are quite contrary to the observations made by the Supreme Court in Suraj Lamp & Industries (P.) Ltd. (*supra*). Accordingly, the same are set aside.

9. **Whether compensation on land acquisition – Hindu Undivided Family- Amount belongs to family members cannot be taxed in the hands of individual.**

ACIT v. Sureschandra Mahagoankar (2013) 215 Taxman 143 (Mag.)(Karn.)(HC)

A land belonging to the assessee was acquired by the State Electricity Board for which compensation was paid. The acquisition notification was issued in the name of the assessee. The

consideration was invested in fixed deposits in name of assessee, his wife and children on various dates. The Assessing Officer taxed the amount of consideration in the individual capacity. The Commissioner (Appeals) and the Tribunal, however, held that said amount belonged to joint family and its members. Held that the question as to whether compensation amount exclusively belonged to assessee or it belonged to joint family and its members, was purely a question of fact and no substantial question of law arose there from.

10. Whether Income–Accrual–Interest on foreign currency convertible bonds paid to non-resident investors liable to tax.

Addl. DIT (IT) v. Adani Enterprises Ltd. (2013) 153 TTJ 476/85 DTR 33(Ahd.)(Trib.)

The assessee paid interest to non-resident investors on FCCB. The Assessing Officer held that the interest income has accrued or arisen in India on the basis that the payer is on Indian company and the Assessing Officer has totally ignored this aspect of the matter as to where the money lending transaction has taken place. It is admitted factual position that money lending transaction has taken place outside India and the same was utilized for the overseas business of the assessee. The Tribunal held that interest payment by the assessee to non-resident investors cannot be said to have accrued or arisen in India and it also cannot be said that this interest income can be deemed to have accrued or arisen in India. Therefore, no TDS is to be deducted by the assessee from this payment. The Tribunal confirmed the order of CIT(A) and decided the issue in favour of assessee. The assessee had filed cross objection which was dismissed by the Tribunal as no TDS was deductible from interest paid to non-resident bond holders.

11. Whether payment made by assessee for systematic research to its overseas entity not having PE in India, without deducting tax at source, could be disallowed under section 40(a)(ia).

ACIT v. Evolv Clothing Co. (P). Ltd. (2013) 142 ITD 618 (Chennai)(Trib.)

The assessee company paid an amount to its overseas agent for providing systematic research without deducting tax at source. The Assessing Officer disallowed the same under section 40(a)(ia). However, the assessee contended that since the payee did not have any permanent establishment in India and the services were rendered outside India, the amount paid was not taxable in India. It further contended that systematic research did not fall under the definition of technical services. On first appeal, the Commissioner (Appeals) deleted the addition.

The issue which arises for consideration is as to whether the 'systematic research' giving rise to payment in question made by the assessee to its overseas entity could be termed as 'fee for technical services' or not. Section 9(1)(i), prescribes that the income would be deemed to accrue and arises in India, whether directly or indirectly, if it is through or from any business connection. Then, in sub-section (1)(vii) income by way of 'fee for technical services' is defined. In other words, section 9(1)(i) is a general provision whereas, clause (vii) is in the nature of specific provision. *Explanation* substituted by the Finance Act, 2010 with retrospective effect from 1-4-1976, makes it categoric that in cases covered by clause (vii), it would not be necessary for the non-resident to have residence or place of business or business connection in India. To simplify, in case of 'fee for technical services', the mandate of the legislative is that clause (vii) would have overriding effect by virtue of aforesaid *Explanation* to section 9(1)(i). Proceeding on this analogy, there is no issue between the parties that the assessee has paid for systematic research made by the overseas entity, its only contention is that the systematic research does not fall under the definition of technical services. In *Explanation 2* of clause (vii) of section 9(1) with effect from 1-4-1977, fee for 'technical services' means any consideration paid for 'technical' or 'consultancy services'. Further, the Legislature itself provides for some conditions which are admittedly not applicable in this case. In these facts and circumstances, it is held that the word technical services would imply an operation involving skilled precision which 'systematic research' also involves. Therefore, assessee's agreement in question leading to payment in hand made to the overseas entity amounts to fees for 'technical' services. Hence, the assessee was liable to deduct TDS

as per the provisions of the Act, failure of which would entail disallowance under section 40(a)(ia) of the 'Act'. Accordingly, the revenue succeeds in the present appeal and the order of the Assessing Officer is restored.

12. Income deemed to accrue or arise in India – DTAA- India- USA–Australia- Italy-Permanent establishment-“Force of attraction rule”.

Varian India (P.) Ltd. v. ADIT (2013) 142 ITD 692 (Mum.)(Trib.)

The Assessee entered into a distribution & representation agreement with the 5 Group Companies of its parent company. The assessee carried out two types of sales a) Indirect Sales of analytical lab instruments, & b) direct sales of spares for the same. The A.O. held that the assessee was a dependent company & by virtue of “Force of Attraction Rule” under Art 7(1) of the respective DTAA, the profits of the UGC's was taxable in India. The CIT(A) upheld the order of the A.O. On appeal, the Tribunal, held, in favour of the assessee: Under Article 5(4), an agent is deemed to be PE if (a) he independently concludes contracts, (b) Maintains Stocks, (c) Secures order; and none being fulfilled by the assessee and similarly also under para 38 of the OECD an agent is dependent if (a) Has authority to conclude contracts, & (b) Is ready to bear entrepreneurial risk; and the above conditions are also not being fulfilled by the assessee. The Tribunal held that the assessee held only obligations of pre sale and post sale, none regarding the actual sale. Since the assessee is not a dependent agent & thus not a PE, hence “Force of attraction rule” will not apply.

13. Income deemed to accrue or arise in India – Fees for technical services-DTAA-India-Thailand - Royalty and fees for technical services cannot be taxed under residual Article 22 of India-Thailand DTAA, unless item of income does not fall under any other express provisions of DTAA.

Bangkok Glass Industry Co. Ltd. v. ACIT (2013) 82 DTR 326/215 Taxman 116(Mag.) (Mad.)(HC).

The assessee, a non-resident company of Thailand, entered into technical assistance know-how agreement and India Company for transfer of technology know-how. The assessee received technical know-how fees for five years, which was treated as not taxable as per Article 12 of DTAA between India and Thailand. The Assessing Officer took a view that what was transferred was sharing of knowledge and not know-how, and therefore, consideration received was not covered by definition of royalty under Article 12 of DTAA. Therefore, he held that consideration could be taxed only or in the contracting State where the income arose under the residual clause that is Article 22 of DTAA. On appeal High Court held that residual clause of Article 22 of DTAA had no relevance as far as royalty and fees for technical services were contemplated as it would come into play only when item of income did not fall for consideration under any express provisions of DTAA.

14. Whether export activity having taken place or having been fulfilled in India, source of income was located in India and not outside and mere fact that export proceeds emanated from persons situated outside India did not constitute them as source of income.

CIT v. Havells India Ltd. (2013) 352 ITR 376 (Delhi)(HC)

The assessee-company was engaged in manufacture of switch gears, energy meters, cables and wires, electrical fans, compact florescent lamps and related components. It paid certain amount to a USA company for the purpose of obtaining witness testing of AC contractor as part of CB report and KEMA certification. As the assessee had not deducted tax at source under section 195 from the amount paid to the US company, the Assessing Officer proposed to disallow the payment by invoking section 40(a)(ia). The assessee contended that as the testing was carried out by the US Company outside India, no income arose or accrued to the US company in India and, therefore, the provisions of section 40(a)(ia) could not be invoked to disallow the payment on the ground of non-deduction of tax at source. The Assessing Officer held that the amount paid represented fees for technical services rendered by the US company to the assessee within the

meaning of Explanation 2 below section 9(1)(vii)(b) and, therefore, the amount was assessable in the hands of the US company as income deemed to have accrued or arisen in India and since no tax was deducted by the assessee from the remittance of the amount, the amount was liable to be disallowed under section 40(a)(ia). On appeal, the Commissioner(Appeals) upheld the disallowance. On second appeal, the Tribunal deleted the disallowance holding that the assessee had been able to show that the testing and certification were necessary for the export of its products and that these were actually utilized for such export and were not utilized for the business activities of production in India and, therefore its case was covered by the second exception made in section 9(1)(vii)(b).

In view of decision in CIT v. Anglo French Textiles [1993] 199 ITR 785 (Mad.), the export activity having taken place or having been fulfilled in India, the source of income was located in India and not outside. Mere fact that the export proceeds emanated from persons situated outside India did not constitute them as the source of income.

Section 9(1)(vii)(b) contemplates a source located outside India. It is difficult to conceptualize the place/ situs of the person who makes payment for the export sales as the source located outside India from which assessee earned profits. The export contracts obviously are concluded in India and the assessee's products are sent outside India under such contracts. The manufacturing activity is located in India. The source of income is created at the moment when the export contracts are concluded in India. Thereafter, the goods are exported in pursuance of the contract and the export proceeds are sent by the importer and are received in India. The importer of the assessee's products is no doubt situated outside India, but he cannot be regarded as a source of income. The receipt of the sale proceeds emanate from him from outside. He is, therefore, only the source of the monies received. The income component of the monies or the export receipts is located or situated only in India. There is a distinction between the source of the income and the source of receipt of the monies. In order to fall within the second exception provided in section 9(1)(vii)(b), the source of the income, and not the source of receipt, should be situated outside India. That condition is not satisfied in the instant case. The Tribunal does not appear to have examined the case from this aspect. Its conclusion that the technical services were not utilised for the assessee's business activity of production in India does not bring the assessee's case within the second exception in section 9(1)(vii)(b). It does not bring the case under the first exception either, because in order to get the benefit of the first exception it is not sufficient for the assessee to prove that the technical services were not utilized for its business activities of production in India, but it is further necessary for the assessee to show that the technical services were utilized in a business carried on outside India. Therefore, the Tribunal's conclusion cannot be approved to the extent it seems to suggest that the assessee satisfies the condition necessary for bringing its case under the first exception.

For these reasons, it cannot be held that the assessee's case falls under the second exception provided in section 9(1)(vii)(b). In other words, it cannot be accepted that the fees for technical services were paid by the assessee to the US company for the purpose of making or earning any income from any source outside India.

The result of aforesaid discussion is that the fees for technical services are taxable in the hands of the US company under the provisions of the Act. The question to be considered then would be whether there is anything in the Agreement for Avoidance of Double Taxation between India and USA which would exempt or reduce the burden of taxation in respect of the fees for technical services received by the US company. This aspect of the matter has not been examined by the Tribunal, though raised before it by the assessee, since there was no occasion for the Tribunal to do so on account of the view it took regarding the taxability of the fees for technical services under the Act. It is axiomatic that if the receipt is not taxable under the Act, then there is no need to examine whether it would fall under any of the provisions of the Agreement for Avoidance of Double Taxation. Therefore, no fault can be found with the Tribunal for not having discussed the applicability of article 12 of the Indo-US Treaty, which defines 'fees for included services' in a

manner which is different from the definition of 'fees for technical services' in Explanation 2 below section 9(1)(vii). It would, therefore, not be proper or necessary to examine the applicability of the Treaty which should be left to the Tribunal. Therefore, the issue relating to the applicability of the Indo-US Treaty to the receipt in question and, consequently, the applicability of section 40(a) (ia) is to be restored to the Tribunal.

15. **Income deemed to accrue or arise in India – Fees for technical services-Sub-arranger fee paid to non-resident does not amount to fees for technical services. Doing small parts of overall activity cannot be regarded as rendering managerial services.**

Credit Lyonnais (Through their successor: Calyon Bank) v. ADIT (2013) BCAJ –August –P. 36 (Mum.)(Trib.)

The assessee was appointed as arranger by an Indian Bank for mobilising deposits from NRI customers and collecting bank for receiving and handling application forms under "India Millennium Deposit" scheme. The assessee in turn appointed sub-arrangers for mobilizing IMDS both in and outside India. The sub-arrangers work was in the nature of soliciting NRI customers for IMD of Indian banks and then to remit the amount received by them to the designated banks. Tax authorities disallowed the payments of sub-arranger fees on the grounds that such payments to non-residents were in the nature of FTS on which tax was required to be withheld under the Act. On appeal the Tribunal held that from the nature and scope of services rendered by the sub-arrangers, it was clear that no technical knowledge, expertise or qualification was required. Convincing potential customers and helping them to fill requisite forms and coordinating transfer of funds, cannot be considered as a "technical services". The services rendered by the sub-arranger were only a small part of the management of the IMD issue. Sub-arrangers were not involved in the "management" of MID issue. The assessee was simply acting as commission agent or broker for which it was entitled to a particular rate of commission. Sub-arranger obligation was a part of overall obligation of IMDs and hence services cannot be regarded as fees for managerial services.

16. **Property held for charitable purposes – Exemption - Can be denied- In absence of production of details of expenditure.**

ACIT v. Amritsar Improvement Trust (2013) 153 TTJ 364/56 SOT 106 /85 DTR 99 (Asr.)(Trib.)

Assessee trust being registered under section 12AA claimed exemption under section 11 of the Act. The Assessing Officer asked for details of various expenditure whereas assessee failed to submit the same. The Assessing Officer denied exemption under section 11 of the Act and taxed the amount as Income from business as the trust failed to achieve other activities required for exemption under section 11 of the Act. CIT(A) allowed the appeal of the assessee. Tribunal allowed the appeal of the Revenue and held that when the registration is granted, it does not debar the Assessing Officer from examining the details of various activities / work undertaken by the trust to achieve the object of the assessee trust. Secondly the Tribunal also held that the assessee trust has not proved its case for seeking exemption under section 11 by producing various details of expenditure incurred by the assessee Trusts on various activities undertaken to achieve its objects before the Tribunal not even before the Tribunal in spite of asking to the counsel for the assessee trust.

17. **Property held for charitable purposes – Payment made to office bearers out of the corpus fund cannot be the basis to deny exemption under section 11 of the Act.**

Hyndavi Educational Society v. ADIT (Exempt) (2013) 86 DTR 196 (Hyd.)(Trib.)

The Assessing Officer denied the claim of exemption under section 11 of the Act on the ground that certain payment have been made to the founder members out of the corpus funds and hence, the same constitutes clear violation on the part of the assessee and hence, the consequences of provisions of section 13(1)(c) of the Act are attracted. The CIT(A) upheld the action of the

Assessing Officer. The Tribunal allowed the appeal on the ground that assessee society cannot be denied exemption under section 11 where persons of prohibited category render services to the society and in turn, get some remuneration. The Tribunal remanded the matter to the file of Assessing Officer with the direction to examine the situation which warranted the assessee to make payments to such members and decide the issue in accordance of law.

18. Registration-Trust or institution-Objects of trust.

Shri Gian Ganga Vocational & Educational Society v. CIT (2013) 154 TTJ 74/85 DTR 66 (Delhi)(Trib.)

The Tribunal found that the learned CIT(A) has not raised any objection against the objects of the assessee-society. The main object of the assessee society is education which, undeniably, is of charitable nature, in line with the provisions of section 2(15) of the Act. The CIT(A) has no jurisdiction and competence to examine an issue under the RTE Act obviously lies with authorities mentioned therein. CBDT circular No. 11 of 2008 dated 19th Dec., 2008 (2009) 221 CTR (St) 1 clearly states, inter alia, that the proviso to section 2(15) does not apply in the case of education, it will constitute 'charitable purpose' even if it incidentally involves carrying on of commercial activities. The Tribunal directed the CIT to grant registration to the society on verifying the original documents of establishment of the assessee trust.

19. Procedure for registration-Trust or institution-Scope of Enquiry – CIT not entitled to examine compliance of conditions of section 11– section 13–Mere earning of surplus income does not render charitable activity non-genuine.

PIMS Medical and Education Charitable Society v. CIT (2013) 56 SOT 522 (Chd.)(Trib.)

The assessee was a society engaged in carrying on activities in relation to healthcare and education. The CIT did not allow registration under section 12A of the Income Tax Act, 1961 as the assessee allegedly had earned surplus income in violation of amended definition of charitable purposes in section 2(15), and had not complied with certain conditions in section 11 and section 13. On appeal, held, allowing the appeal: It is incumbent upon the CIT, while considering granting of registration under section 12AA of the Act that he should satisfy himself only about genuineness of activities of the trust, in accordance with its objects and not about credential, capacity and qualification etc. of trust. The satisfaction of statutory conditions of Sections 11, 12 and 13 of the Act, for the purpose of grant of registration under section 12A and 12AA, are not relevant. CIT erred in heavily relying on the issue of corpus fund and secured loans raised by the appellant society, in concluding the activities of the appellant as non-genuine. The same considerations were not relevant at the stage of registration under section 12AA.

20. In case the share capital is raised in a foreign country and repatriated to India on a need basis from time to time for approved uses, can the gain arising on the balance sheet date due to fluctuation in foreign exchange, in respect of that part of share capital which is to be used as working capital, be treated as a revenue receipt?

CIT vs. Jagatjit Industries Ltd. (2011) 337 ITR 21 (Delhi)

On this issue, the assessee contended that the entire gain arising from the fluctuation in foreign exchange on the balance sheet date, in respect of the share capital raised in foreign country, should be treated as capital receipt as the source of funds was capital in nature.

However, as per the Tribunal's decision, gain due to fluctuation in foreign exchange arising on that part of share capital which is used for acquiring fixed assets should be treated as capital receipt and the remaining gain that arises on that part of share capital which is to be used as working capital will be treated as revenue receipt and accordingly, would be chargeable to tax.

The Delhi High Court observed that in this case, the manner of utilization of such fund partly for acquiring fixed asset and partly as working capital and was approved by the Ministry of Finance. The High Court held that the capital raised, whether in India or outside, can be utilised both for the purposes of acquiring fixed assets and to meet other expenses of the organisation i.e. as

working capital. For determining the nature of the receipts, due consideration should be given to the source of funds and not to the ultimate use of the funds.

Therefore, the entire gain has to be treated as capital receipt as the source of fund in this case is capital in nature.

- 21. In case, there is no possibility of recovery of loans issued by a non-banking financial company (NBFC), which is non-performing assets (NPA) as per RBI guidelines, can the interest on such loan be treated as income of the NBFC, following mercantile system of accounting?**

DIT vs. Brahmaputra Capital Financial Services Ltd. (2011) 335 ITR 182 (Delhi)

In the present case, the assessee, a non-banking financial company (NBFC), issued interest bearing loans to group concerns. The NBFC is bound by the NBFC Prudential Norms (RBI) Directions, 1998 which states, inter alia, that the interest/discount or any other charges on non-performing assets (NPA) shall be recognised only when it is actually realised. Accordingly, the assessee did not credit the interest in the profit and loss account relating to certain loan amount which had become NPA as per the said norms. Even the recovery of principal amount of the said loan was doubtful.

The department did not dispute that the recovery of the said loan was doubtful but contended that since the assessee is following mercantile system of accounting, it is required to declare interest income on the above loan on accrual basis in the relevant assessment year, irrespective of the date of actual receipt of interest. It contended that such interest should be treated as income of the assessee as per the provisions of section 5 and taxed accordingly.

On the said issue, the Delhi High Court held that it was prudent decision on the part of the assessee that the interest on the non-performing asset, whose recovery was doubtful, was not accounted for in the books of account. Also, the assessee was bound by the RBI guidelines, which required the said treatment of the interest income.

Therefore, in this case, the High Court held that there was no real accrual of interest income in the hands of assessee and, hence, it would not be chargeable to tax under section 5.

- 22. What is the nature of incentive received under the scheme formulated by the Central Government for recoupment of capital employed and repayment of loan taken for setting up/expansion of a sugar factory – Capital or Revenue?**

CIT vs. Kisan Sahkari Chini Mills Ltd. (2010) 328 ITR 27 (All.)

The assessee, engaged in the business of manufacture and sale of sugar, claimed that the incentive received under the Scheme formulated by the Central Government for recoupment of capital employed and repayment of loans taken from a financial institution for setting up/expansion of a new sugar factory is a capital receipt. The Assessing Officer, however, treated it as a revenue receipt.

On this issue, the High Court followed the ruling of the Apex Court in CIT vs. Ponni Sugars and Chemicals Ltd. (2008) 306 ITR 392, wherein a similar scheme was under consideration. In that case, the Apex Court had held that the main eligibility condition for the scheme was that the incentive had to be utilized for the repayment of loans taken by the assessee to set up a new unit or substantial expansion of an existing unit. The subsidy receipt by the assessee was, therefore, not in the course of a trade and hence, was of capital nature.

- 23. What is the nature of liquidated damages received by a company from the supplier of plant for failure to supply machinery to the company within the stipulated time – a capital receipt or a revenue receipt?**

CIT vs. Saurashtra Cement Ltd. (2010) 325 ITR 422 (SC)

The assessee, a cement manufacturing company, entered into an agreement with a supplier for purchase of additional cement plant. One of the conditions in the agreement was that if

the supplier failed to supply the machinery within the stipulated time, the assessee would be compensated at 5% of the price of the respective portion of the machinery without proof of actual loss. The assessee received 8.50 lakhs from the supplier by way of liquidated damages on account of his failure to supply the machinery within the stipulated time. The Department assessed the amount of liquidated damages to income-tax. However, the Appellate Tribunal held that the amount was a capital receipt and the High Court concurred with this view.

The Apex Court affirmed the decision of the High Court holding that the damages were directly and intimately linked with the procurement of a capital asset i.e., the cement plant, which lead to delay in coming into existence of the profit-making apparatus. It was not a receipt in the course of profit earning process. Therefore, the amount received by the assessee towards compensation for sterilization of the profit earning source, not in the ordinary course of business, is a capital receipt in the hands of the assessee.

- 24. Where the hotel industry was established based on subsidy announced by the State Government, can such subsidy be treated as a revenue receipt solely due to the reason that the same was received by the assessee after completion of the hotel projects and commencement of the business?**

CIT vs. Udupi Builders P. Ltd. (2009) 319 ITR 440 (Kar.)

The assessee-company treated the amount of subsidy received from the State Government, as a capital investment. The subsidy was granted by the State Government to encourage the hotel industry. The Assessing Officer opined that the same was a revenue receipt. The Commissioner (Appeals) held that the subsidy had been granted to the assessee by the State Government as per the package of incentives and concessions and that it was towards investment and not a revenue receipt. The Tribunal confirmed the order passed by the Commissioner (Appeals).

The Revenue filed an appeal to the High Court contending that since the subsidy is received by the assessee after completion of the hotel project and commencing of the business, such receipt has to be taken as a revenue receipt and not a capital investment.

The High Court held that the hotel industry was established based on the subsidy announced by the State Government to encourage tourism and the State Government was in the habit of releasing the subsidy amount depending upon the budgetary allocation in each year. In several cases, the State Government had released the subsidy amount even after ten years of the commencement of the project. Therefore, the subsidy received has to be treated as a capital receipt and would not be liable to tax.

- 25. Would the provisions of deemed dividend under section 2(22)(e) be attracted in respect of financial transactions entered into in the normal course of business?**

CIT vs. Ambassador Travels (P) Ltd. (2009) 318 ITR 376 (Del.)

Relevant section: 2(22)(e)

Under section 2(22)(e), loans and advances made out of accumulated profits of a company in which public are not substantially interested to a beneficial owner of shares holding not less than 10% of the voting power or to a concern in which such shareholder has substantial interest is deemed as dividend. However, this provision would not apply in the case of advance made in the course of the assessee's business as a trading transaction.

The assessee, a travel agency, has regular business dealings with two concerns in the tourism industry dealing with holiday resorts. The High Court observed that the assessee was involved in booking of resorts for the customers of these companies and entered into normal business transactions as a part of its day-to-day business activities. The High Court held that such financial transactions cannot under any circumstances be treated as loans or advances received by the assessee from these concerns for the purpose of application of section 2(22)(e).

26. Whether the refund collected illegally by the assessee by producing bogus TDS certificates can be treated as income of the assessee?

CIT vs. K. Than gamani (2009) 309 ITR 015 (Mad.)

Relevant Section: 2(24)

The expression income in section 2(24) of the Income-tax Act, 1961 is wide and the objective of the Act being to tax income it has to be given an extended meaning. Any kind of income earned by the assessee attracts income-tax at the point of earning and tax law is not concerned with the ultimate event how the income is expended. The Act makes an obligation to pay tax on all income received. The Act considers income earned legally as well as tainted income alike.

The assessee was engaged in tax consultancy and audit work. During the search conducted at the residential premises and office of the assessee certain incriminating documents were seized. From the documents seized it was revealed that the assessee had been claiming and receiving income-tax refunds by filing bogus TDS certificates with returns of income prepared by him even in the names of non-existing persons. The Assessing Officer treats the deposits, being the TDS certificates encashed by the assessee during the previous year, as professional income during the previous year. The Commissioner (Appeals) reduced the income on account of the refunds received by him and held it taxable under residuary head instead of Profession. The Tribunal held that the amount of refunds received by the assessee by fraudulent means could not be assessed as income of the assessee.

The High Court held that when the Tribunal found that the assessee had indulged in fabricating TDS certificates and got refunds from the Department it should not have come to the conclusion that such income was not taxable.

27. Whether the amount received by the assessee from WAFM for holding a national convention for farmers was a capital receipt in the hands of the assessee or income under section 2(24)(iia)?

Bharat Krishak Samaj vs. Deputy Director of Income-tax (Exemption) (2008) 306 ITR 153 (Del)

Relevant Section: 2(24)(iia)

The assessee had received an amount of 2,00,000 from WAFM for the purposes of holding a national convention for farmers. According to the assessee, the amount was received by way of advance for holding the convention but the convention could not be held in that year and was only held in the subsequent year. The assessee claimed that this amount constituted a capital receipt in its hands. The Assessing Officer rejected the claim. The Tribunal held that the amount was assessable under section 2(24)(iia).

The High Court held that there was nothing in the record of the case to suggest that the amount was actually received by the assessee as an advance as contended. The amount received was for holding a national convention. It is also not clear from the record whether the national convention of farmers was to be held for and on behalf of the donor or was to be utilised for holding a national convention by the assessee. Under the circumstances, in view of the failure of the assessee to explain the receipt of ₹ 2,00,000 the provisions of section 2(24)(iia) of the Act would be attracted and the amount must be treated as income of the assessee and not as a capital receipt.

28. Can the expenditure incurred after the setting up of the business but before the commencement of the business, be allowed as a permissible deduction?

CIT vs. Hughes Escorts Communications Ltd. (2009) 311 ITR 253 (Del)

Relevant Section: 2(34) & 3

A plain reading of section 2(34) of the Income-tax Act, 1961, shows that for a new business the previous year is the period beginning with the date of setting up of the business. There is a

distinction between setting up and commencement of a business. There may be an interregnum, there may be an interval between a business which is set up and a business which is commenced and all expenses incurred during the interregnum after the setting up of the business and before the commencement of the business, all expenses would be permissible deductions.

The assessee carried on the business of satellite business communications for which very small aperture terminal VSAT equipment is used. The VSAT can be used only after establishing, maintaining and using the communication facilities on a licence from the Department of Telecommunications. The assessee made an application to the Department of Telecommunications for grant of such licence and entered into a licence agreement on August 1994, with the Department of Telecommunications. The assessee placed a purchase order dated July 1994, with H, USA for the purchase of the VSAT equipment. In its return, the assessee claimed an expenditure of ₹ 28,96,269. The Assessing Officer rejected the claim on the ground that the assessee had begun receiving the satellite signals only in the month of February and further since the installation was complete only on March, it could be said that the business of the assessee had been set up only in March. The Tribunal, however, allowed the assessee's claim.

The High Court held that the business of the assessee involved different activities in which the first step was the purchase of the VSAT equipment. The purchase order was placed in July. The application to the Department of Telecommunications for licence and the receipt of the satellite signals were the consequential stages. The signals were to be received after the VSAT equipment was installed in the premises of the customer. In the circumstances, the business of the assessee should be held to have been set up on July. This was the relevant date for determining the nature of the expenses incurred thereafter. The expenses incurred in the previous year, prior to the commencement of the business but after the setting up its business, which two dates need not be the same, would be deductible as revenue expenditure.

29. Whether the Tribunal was justified in upholding the order of Commissioner of Income-tax (Appeals) deleting the addition of ₹ 10 lakhs as deemed dividend under section 2(22)(e) of the Income-tax Act ?

CIT vs. Hotel Hilltop (2009) 313 ITR 116 (Raj.)

Relevant Section: 2(22)(e)

The assessee-firm constituted of two partners ran a hotel business. It entered into an agreement with a private limited company formed by the two partners with their close relations under which the management of the firm's hotel was to be handed over to the company. The assessee-firm received a sum of Rs.10 lakhs as advance against security. The Assessing Officer made an addition to the income of the assessee treating the amount as deemed dividend under section 2(22)(e) of the Act. The Commissioner (Appeals) deleted the addition on the ground that the firm was not a shareholder of the company. The Tribunal confirmed the deletion.

The High Court held that in order to attract the provisions of section 2(22)(e) of the Income-tax Act, 1961, the following four conditions are the sine qua-non : (i) the assessee should be a shareholder of the company ; (ii) the company should be a closely held company in which the public are not substantially interested ; (iii) there must be payment by way of advance or loan to a shareholder or any payment by the company on behalf of or for the individual benefit of the shareholder ; and (iv) there must be sufficient accumulated profits in the hands of the company up to the date of such payment.

It was further held that the assessee was not shown to be the shareholder of the company and the two individuals who were partners of the firm were the majority shareholders of the company. Therefore, the security advanced by the company to the assessee could not be deemed to be dividend as the assessee was not a shareholder in the company. The amount was paid by the company to the assessee on behalf of the individuals. Therefore, the liability of tax as deemed dividend could be attracted in the hands of the individuals, being the shareholders in the company. The Tribunal was justified in upholding the order of the Commissioner (Appeals) deleting the addition of Rs.10 lakhs made as deemed dividend under section 2(22)(e) of the Act.

30. Whether the Tribunal was justified in deleting the addition which has been received on account of gift when no relation has been established from whom gifts have been received?

CIT vs. Padam Singh Chouhan (2009) 315 ITR 433 (Raj.)

Relevant Section: 68

The Assessing Officer found that the assessee and his family had received huge gifts from a person residing abroad and concluded that the gifts were not genuine. The Commissioner (Appeals) held that the gifts were made out of love and affection towards the assessee and having gone through the bank accounts of the donors he found there was sufficient cash balance on the date of the gift to the assessee and deleted the addition. The Tribunal affirmed the finding of the Commissioner (Appeals).

The High Court held that there was no legal basis to assume that to recognise a gift to be genuine, there should be any blood relationship, or any close relationship between the donor and the donee. The assessee had produced the copies of gift deeds and the affidavits of the donors. In the absence of anything to show that the act of the assessee in claiming gift was an act by way of money laundering, simply because he happened to receive gifts, it could not be said that amount had to be added in his income.

31. Would the interest earned on surplus funds of a club deposited with institutional members satisfy the principle of mutuality to escape taxability?

Madras Gymkhana Club vs. DCIT (2010) 328 ITR 348 (Mad.)

The assessee, club providing facilities like gym, library, etc., to its members and also earns interest from fixed deposits which it had made by investment of its surplus funds with its corporate members.

The High Court held that interest earned from investment of surplus funds in the form of fixed deposits with institutional members does not satisfy the principle of mutuality and hence cannot be claimed as exempt on this ground. The interest earned is, therefore, taxable.

32. Can winnings of prize money on unsold lottery tickets held by the distributor of lottery tickets be assessed as business income and be subject to normal rates of tax instead of the rates prescribed under section 115BB?

CIT vs. Manjoo and Co. (2011) 335 ITR 527 (Kerala)

On the above issue, the Kerala High Court observed that winnings from lottery is included in the definition of income by virtue of section 2(24)(ix). Further, in practice, all prizes from unsold tickets of the lotteries shall be the property of the organising agent. Similarly, all unclaimed prizes shall also be the property of the organising agent and shall be refunded to the organising agent.

The High Court contended that the receipt of winnings from lottery by the distributor was not on account of any physical or intellectual effort made by him and therefore cannot be said to be "income earned" by him in business. The said view was taken on the basis that the unsold lottery tickets cease to be stock-in-trade of the distributor because, after the draw, those tickets are unsaleable and have no value except waste paper value and the distributor will get nothing on sale of the same except any prize winning ticket if held by him, which, if produced will entitle him for the prize money. Hence, the receipt of the prize money is not in his capacity as a lottery distributor but as a holder of the lottery ticket which won the prize. The Lottery Department also does not treat it as business income received by the distributor but instead treats it as prize money paid on which tax is deducted at source.

Further, winnings from lotteries are assessable under the special provisions of section 115BB, irrespective of the head under which such income falls. Therefore, even if the argument of the assessee is accepted and the winnings from lottery is taken to be received by him in the course of his business and as such assessable as business income, the specific provision contained in section 115BB, namely, the special rate of tax i.e. 30% would apply.

Therefore, the High Court held that the rate of 30% prescribed under section 115BB is applicable in respect of winnings from lottery received by the distributor.

B. INCOME WHICH DO NOT FORM PART OF TOTAL INCOME

1. Whether section 14A is applicable in respect of deductions, which are permissible and allowed under Chapter VI-A?

CIT vs. Kribhco (2012) 209 Taxman 252 (Delhi)

In the given case, the assessee is a co-operative society and is engaged in marketing of fertilizers and purchase and processing of seeds. The assessee had claim deduction under section 80P(2)(d) on dividend income received from NAFED and co-operative bank and also on interest on deposits made with co-operative banks.

The Assessing Officer, relying upon section 14A, contended that the aforesaid incomes were not included in the total income of the assessee and therefore, expenditure with respect to such income should be disallowed.

The High Court observed that section 14A is not applicable for deductions, which are permissible and allowed under Chapter VIA. Section 14A is applicable only if an income is not included in the total income as per the provisions of Chapter III of the Income-tax Act, 1961. Deductions under Chapter VIA are different from the exclusions/ exemptions provided under Chapter III.

The words “do not form part of the total income under this Act” used in section 14A are significant and important. Income which qualifies for deductions under section 80C to 80U has to be first included in the total income of the assessee and then allowed as a deduction. However, income referred to in Chapter III do not form part of the total income and therefore, as per section 14A, no deduction shall be allowed in respect of expenditure incurred by the assessee in relation to such income which does not form part of the total income.

Therefore, the Delhi High Court held that no disallowance can be made under section 14A in respect of income included in total income in respect of which deduction is allowable under section 80C to 80U.

2. Can Explanation to section 11(2) be applied in respect of the accumulation up to 15% referred to in section 11(1)(a), to treat the donation made to another charitable trust from the permissible accumulation upto 15% as income of the trust?

DIT (Exemption) vs. Bagri Foundation (2012) 344 ITR 193 (Delhi)

The assessee is a charitable trust registered under section 12AA and recognized under section 80G. The assessee filed the return of income for the previous year declaring nil income. On perusal of the application of income made during the year, it was found that donation to the corpus of another trust was made which was much higher than the gross total income declared in the return of income. The source of the excess donation was the accumulation of income of the past made under section 11(1)(a) (i.e., out of permissible accumulation upto 15%) and encashment made out of these accumulations/funds.

The Assessing Officer added the donation made out of the accumulations or the set apart income, applying the Explanation to section 11(2) and accordingly, computed taxable income of the assessee.

Considering the above mentioned issue, the Delhi High Court held that, as per the provisions of section 11(1)(a), the accumulations upto 15% is permitted and no additional conditions are attached with such accumulation. It is an absolute exemption.

However, as per section 11(2) accumulations in excess of 15% is also allowed but subject to certain conditions mentioned therein and also subject to provisions of Explanation to section 11(2), which mentions that the amount accumulated in excess of 15% under section 11(2) cannot be donated to another trust. Such an explanation is not mentioned under section 11(1). Therefore, the Explanation

to section 11(2) cannot be said to be applicable to the accumulations under section 11(1)(a) i.e. accumulations upto 15%, unless there is an express mention in the Act for the same.

Therefore, it follows that even if the donations by the assessee to another charitable trust were out of past accumulations under section 11(1)(a) i.e. upto 15%, the same would not be liable to be included in the total income as assessed by the Assessing Officer.

3. Can exemption under section 10(10C) be availed by a retiring employee of Reserve Bank of India opting for the Optional Early Retirement Scheme?

Chandra Ranganathan vs. CIT (2010) 326 ITR 49 (SC)

Relevant section : 10(10C)

On this issue, the Supreme Court held that the amounts received by employees retiring from the Reserve Bank of India opting for the Optional Early Retirement Scheme are eligible for exemption under section 10(10C).

4. Would the provisions of section 14A get attracted to disallow set-off of loss on sale of units of a mutual fund (short-term capital loss), income from which is exempt under section 10(35)? Can such loss be disallowed by treating the said transaction as a sham since the assessee was getting tax-free dividend and at the same time claiming loss on sale of the units?

CIT vs. Walford Share and Stock Brokers (P) Ltd. (2010) 326 ITR 1

Relevant sections : 10(35), 14A & 94(7)

The assessee earned income, mainly from share trading and brokerage. It purchased some units of a mutual fund before the record date, as a result of which it became entitled to receive dividend on those units. As a result of declaration of dividends, the value of the unit reduced and the assessee sold all the units within 3 days at a loss. The assessee claimed exemption of dividend income and also set-off the short-term capital loss incurred on sale of the units. The Department, however, contended that the loss on purchasing the cum-dividend units and selling the ex-dividend units will be an expenditure attributable towards earning tax free dividend income, which is not allowable under section 14A. Therefore, the Department disallowed the set-off claimed.

The Apex Court held that the assessee had received income which was exempt under section 10(35) [erstwhile section 10(33)] and there has been a sale of units, which resulted in a short-term capital loss. The assessee had taken advantage of the provisions of law and earned tax free income, which is not an abuse of law. Even if the transaction was pre-planned, it does not impeach the genuineness of the transaction. The provisions of section 94(7) relating to dividend stripping will apply to this case and not section 14A. In such a case, loss to the extent of dividend income will be ignored and not the entire loss. Losses over and above the dividend received would be allowed to be set-off, which makes it clear that the dividend stripping transaction is not a sham or bogus transaction.

Note: In this case, it was observed that section 14A and 94(7) operate in two different fields. Section 14A would apply to cases where the assessee incurs expenditure to earn tax-free income. This section was introduced to apportion expenditure between taxable and non-taxable income and disallow the portion of expenditure incurred to earn non-taxable income. The basic principle of section 14A is to tax net income i.e., gross income less expenditure. However, section 94(7) would be attracted where there is an acquisition of securities or unit and the loss arises subsequently at the time of sale of such securities or unit, after receipt of exempt income. Therefore, section 14A comes into play when there is a claim for deduction of an expenditure, whereas section 94(7) would apply when there is a claim for allowance of loss.

5. Whether the Tribunal was justified in directing the Assessing Officer to allow the claim of the assessee for exemption under section 10(10C) of the Income-tax Act, 1961 to the extent of ₹ 5,00,000 by applying the prospective amendment retrospectively?

Income-tax Officer vs. Dhan Sai Srivas (2009) 315 ITR 318 (Chhattisgarh)

Relevant Section: 10(10C)

The assessee's employer had determined the ex-gratia amount payable to the assessee on his voluntary retirement of ₹ 7,13,513, but out of this amount only one-fifth, i.e., ₹1,42,703 was actually paid to the assessee in the previous year relevant to the assessment year 2003-04. The assessee, however, claimed deduction for a total sum of ₹ 5,00,000, the maximum limit under section 10(10C) of the Income-tax Act, 1961. The Assessing Officer allowed exemption only for ₹ 1,42,703 and added back the balance. The assessee preferred an appeal, whereupon the Commissioner (Appeals) partly allowed the appeal. The appeal preferred by the Department was dismissed by the Tribunal.

The High Court held that under the scheme, the liability to pay was incurred and the amount became payable at the time when the employee was released, having opted for the voluntary retirement under the scheme. Salary or benefit in lieu of salary payable to an employee opting for voluntary retirement was chargeable to tax under section 15(a) as soon as it became due, though not paid. The amount so received was exempt from being charged to tax to the extent of ₹ 5,00,000 by reason of section 10(10C) of the Act. Even if the payment was stretched over a period of years, it would not become chargeable to tax in any subsequent assessment year.

Section 10(10C) of the Act was inserted in order to make voluntary retirement more attractive and beneficial to employees opting for voluntary retirement. Therefore, this has to be interpreted in a manner beneficial to the optee of voluntary retirement, if there is any ambiguity.

It could not have been the intention of the Legislature to restrict the benefit under section 10(10C) of the Act to employees, who retired before April 1, 2004, to the extent of the amount actually received by them at the time of voluntary retirement for that particular assessment year and to other employees of the same organization who opted for voluntary retirement after that to extend that benefit for the amount received by them as well as the amount receivable by them in the subsequent financial years. Therefore, the amendment to clause (10C) of section 10 of the Act by the Finance Act, 2003 with effect from April 1, 2004 adding the words "or receivable" after the words "received" is clarificatory.

6. Whether the assessee can claim exemption under section 10B in respect of interest earned from advance amount received from its sister concern for purchasing goods?

CIT vs. Hycon India Ltd. (2009) 308 ITR 251 (Raj.)

Relevant Section: 10(B)

The assessee purchased goods from its sister concern and for such purchases it paid in advance to the seller and the advance amount yielded interest income to the assessee. The Assessing Officer allowed exemption to the interest income under section 10B holding that the interest income was attributable to the business of the undertaking. The Commissioner found that there was nothing on record to show that the sister concern had desired deposit of any specific amount of advance prior to its agreement to supply raw material to its own sister concern nor was there anything to indicate that the Assessing Officer examined the case from this angle, before allowing the exemption under section 10B. Likewise, the Commissioner considered that even if there was a business practice where the suppliers of certain goods required an advance for future purchase, the transactions of the assessee with its own sister concern were to be considered on a different footing. On these findings, the Commissioner revised the order of the Assessing Officer under section 263 on the ground that it was prejudicial to the interests of the Revenue. The Tribunal did not agree with the view of the Commissioner and held that interest income received by the assessee from its sister concern was income from business.

The High court held that "Profits and gains of business or profession" and "Income from other sources" are different species of income. Section 2(24) of the Income-tax Act, 1961, does not categorise separately, profits and gains of business or profession. The expression "profits and gains" as used in section 2(24) is wider and is not confined to "Profits and gains of business or profession". Section 10B provides for exemption with respect to any "profits and gains" derived by the assessee, and is not confined to "profits and gains of business or profession".

Hence, the interest income received by the assessee from its sister concern did fall within the expression "profits and gains" and was eligible for exemption as business income under section 10B.

C. INCOME FROM HOUSE PROPERTY

1. **Can the rental income from the unsold flats of a builder be treated as its business income merely because the assessee has, in its wealth tax return, claimed that the unsold flats were stock-in-trade of its business?**

Azimganj Estate (P.) Ltd. vs. CIT (2012) 206 Taxman 308 (Cal.)

The assessee, a property developer and builder, in the course of its business activities constructed a building for sale, in which some flats were unsold. During the year, the assessee received rental income from letting out of unsold flats which is disclosed under the head "Income from house property" and claimed the permissible statutory deduction of 30% therefrom. The Assessing Officer contended that since the assessee had taken the plea that the unsold flats were stock-in-trade of its business and not assets for the purpose of Wealth-tax Act, 1961, therefore, the rental income from the said flats have to be treated as business income of the assessee. Consequently, he rejected the assessee's claim for statutory deduction of 30% of Net Annual Value.

On this issue, the Calcutta High Court held that the rental income from the unsold flats of a builder shall be taxable as "income from house property" as provided under section 22 and since it specifically falls under this head, it cannot be taxed under the head "Profit and gains from business or profession". Therefore, the assessee would be entitled to claim statutory deduction of 30% from such rental income as per section 24. The fact that the said flats have been claimed as not chargeable to wealth-tax, treating the same as stock-in-trade, will not affect the computation of income under the Income-tax Act, 1961.

2. **Can benefit of self-occupation of house property under section 23(2) be denied to a HUF on the ground that it cannot occupy a house property, being a fictional entity?**

CIT vs. Hariprasad Bhojnagarwala (2012)342 ITR 69 (Guj.) (Full Bench)

The assessee, being a Hindu Undivided Family (HUF), claimed the benefit of self occupation of a house property under section 23(2). However, the Assessing Officer did not accept the said claim and denied the benefit of self occupation of house property to the HUF arguing that such benefit is available only to the owner who can reside in his own residence i.e., only an individual assessee, who is a natural person, and not to a imaginary assessable entity being HUF or a firm, etc.

On the above mentioned issue, the Gujarat High Court observed that a firm, which is a fictional entity, cannot physically reside in a house property and therefore a firm cannot claim the benefit of this provision, which is available to an assessable entity who can actually occupy the house. However, the HUF is a group of individuals related to each other i.e., a family comprising of a group of natural persons. The said family can reside in the house, which belongs to the HUF. Since a HUF cannot consist of artificial persons, it cannot be said to be a fictional entity. Also, it was observed that since singular includes plural, the word "owner" would include "owners" and the words "his own" used in section 23(2) would include "their own".

Therefore, the Court held that the HUF is entitled to claim benefit of self-occupation of house property under section 23(2).

3. Can an assessee engaged in letting out of rooms in a lodging house also treat the income from renting of a building to bank on long term lease as business income?

Joseph George and Co.vs. ITO (2010) 328 ITR 161 (Kerala)

On the above issue, it was decided that while lodging is a business, however, letting out of building to the bank on long-term lease could not be treated as business. Therefore, the rental income from bank has to be assessed as income from house property.

4. Can notional interest on interest free deposit received by an assessee in respect of a shop let out on rent be brought to tax as "Business income" or "Income from house property"?

CIT vs. Asian Hotels Ltd. (2010)323 ITR 490 (Del.)

The assessee had received interest free deposit in respect of shops given on rent. The Assessing Officer added to the assessee's income notional interest on the interest free deposit at the rate of 18 per cent simple interest per annum on the ground that by accepting the interest free deposit, a benefit had accrued to the assessee which was chargeable to tax under section 28(iv).

The High Court held that section 28(iv) is concerned with business income and brings tax the value of any benefit or perquisite, whether convertible into money or not, arising from business or the exercise of a profession. Section 28(iv) can be invoked only where the benefit or amenity or perquisite is other than cash. In the instant case, the Assessing Officer has determined the monetary value of the benefit stated to have accrued to the assessee by adding a sum that constituted 18 per cent simple interest on the deposit. Hence, section 28(iv) is not applicable. Section 23(1) (a) deals with the determination of the annual letting value of such property for computing the income from house property. It provides that the annual letting value is deemed to be the sum for which the property might reasonably be expected to be let from year to year. This contemplates the possible rent that the property might fetch and certainly not the interest on fixed deposit that may be placed by the tenant with the landlord in connection with the letting out of such property.

Thus, the notional interest is not assessable either as business income or as income from house property.

5. Can long-term capital gain exempted by virtue of erstwhile section 54E be included in the book profit computed under erstwhile section 115J?

N. J. Jose and Co. (P.) Ltd. vs. ACIT (2010) 321 ITR 0132 (Ker.)

The assessee claimed exemption under section 54E on the income from long-term capital gains by depositing amounts in specified assets in terms of the said provision. In the computation of book profit under section 115J, the assessee claimed exclusion of capital gains because of exemption available on it by virtue of section 54E. The Assessing Officer reckoned the book profits including long-term capital gains for the purpose of assessment under section 115J.

The High Court held that once the Assessing Officer found that total income as computed under the provisions of the Act was less than 30 per cent of the book profit, he had to make the assessment under section 115J which does not provide for any deduction in terms of section 54E. As long as long-term capital gains are part of the profits included in the profit

and loss account prepared in accordance with the provisions of Parts II and III of Schedule VI to the Companies Act, 1956, capital gains cannot be excluded unless provided under the Explanation to section 115J(1A).

Note: It may be noted that the rationale of this decision would apply even where minimum alternate tax (MAT) is attracted under section 115JB, on account of tax on total income being less than 18% of book profits. If an assessee has claimed exemption under section 54EC by investing in bonds of NHAI/ RECL, within the prescribed time, the long term capital gains so exempt would be taken into account for computing book profits under section 115JB for levy of minimum alternate

tax (MAT), since Explanation 1 to section 115JB does not provide for such deduction. Further, it may be noted that even the long term capital gain exempt under section 10(38) is included for computation of book profit under section 115JB.

7. Is the rental income from the sub-letting of a building taken on lease taxable under the head 'income from other sources' or 'income from house property' or 'income from business'?

Harikrishna Family Trust vs. CIT (2008) 306 ITR 303 (Guj.) Relevant Section: 22

A lease deed was executed between the owners of a property partly constructed and the assessee-trust. The trust took on lease the said property at a monthly lease rent of ₹ 4,000. The beneficiaries were dependent relatives of the co-owners of the property. The trust, after completing construction work of the balance portion of the building, rented out the whole premises and the rental income was shown as income from property and originally assessed as such. Subsequently, by virtue of action under section 263 of the Income-tax Act, 1961, the CIT set aside the order. After enquiry the Assessing Officer assessed the income as business income but the CIT(A) on appeal held that it was income from other sources. The Tribunal held that the amount was assessable as business income.

The High Court held that the assessee-trust was merely a lessee of the property and had sub-let the property after completing the partly constructed building which the assessee-trust had taken on lease. In the circumstances, in the absence of the assessee-trust being the owner of the property, there could be no question of taxing the rental income from the said property in the hands of the assessee-trust under the head "Income from house property". The assessee-trust at no point of time indulged in any systematic activity so as to treat the assessee as having indulged in business or a venture in the nature of business. On facts the income was liable to be taxed as "Income from other sources".

D. PROFITS AND GAINS OF BUSINESS OR PROFESSION

1. In case of an assessee whose income includes exempted income arising out of Mutual Fund Investment. Since no bifurcation was made by assessee between total and exempt income, Assessing Officer disallowed total expenditure under section 14A. However, Tribunal held that in absence of rule 8D, no disallowances can be made under section 14A. Whether it could not be said that in absence of rule 8D, no disallowance can be made under section 14A by proportionate bifurcation of expenditure.

CIT v. Sintex Industries Ltd.(2013) 215 Taxman 148(Mag.) (Guj.)(HC)

The issue pertains to disallowance of part of the remuneration paid to the directors. The Assessing Officer noted that the assessee had earned exempt income under Section 10(35) of the Income-tax Act, 1961, arising out of Mutual Fund Investment. He was therefore of the opinion that the expenditure incurred for earning exempt income should be disallowed under Section 14A of the Act. Since no bifurcation was made by the assessee, the Assessing Officer disallowed the total expenditure under this head. In the result, he added back a sum of ₹3,25,868/-being the amount of salary.

Commissioner(Appeals) and Tribunal did not approve such decision of the Assessing Officer. With respect to proposition that Rule 8D is not retrospective in operation, we have no hesitation in agreeing with the decision of the Bombay High Court in the case of Godrej & Boyce Mfg. Co. Ltd. (supra). Previously also, we had occasion to deal with the said Rule and held as and the Bombay High Court has done. That, however, does not mean in our prima-facie opinion that no disallowances can be made under Section 14A of the Act by bifurcating the expenditure in a reasonable manner towards earning of the taxable income and tax exempt income. In the present case, since the amount involved is not very large, we reserve our final conclusion on such an issue in appropriate case. Therefore, we are not inclined to entertain this Tax Appeal. However, we should not be seen to have confirmed the Tribunal's view on the aspect that in absence of Rule 8D, no disallowances can be made under Section 14A of the Act, by proportionate bifurcation of the expenditure. In the result, Tax Appeal stands dismissed.

2. Disallowance of expenditure-Exempt income-Shares held as stock-in-trade-In arriving at the disallowance u/r.8D, the amount as per Rule 8D(2)(ii) qua shares held as stock-in-trade would be restricted to 20% thereof.

DCIT vs. Damani Estates and Finance P.Ltd. (2013) 25 ITR 683(Mum.)(Trib.)

In AY 2008-08, the assessee, a trader cum investor in shares, offered ₹10 lakhs as disallowance u/s 14A. It claimed that the amount invested in shares was funded by its own, non-interest bearing funds and that there was no direct expenditure relatable to the investments. The AO applied Rule 8D and computed the disallowance at ₹ 1.40 crore. On appeal, the CIT(A) upheld the stand of the assessee as to the quantum of the disallowance. On appeal by the department, the Tribunal had to consider (i) whether s.14A applies to shares held as stock-in-trade?, (ii) whether it could be said that the expenditure having been incurred for the share trading business, no expenditure can be said to be in relation to the dividend income?, (iii) whether it can be argued that the investment in tax-free securities is made out of own funds and no disallowance of interest on borrowed funds can be made?, (iv) whether Rule 8D(2)(ii) which deals with interest expenditure not directly attributable to any particular income or receipt requires modification if the dominant purpose is to earn share trading income?, (v) Whether Rule 8D(2)(iii) which prescribes the ratio in respect of indirect expenditure can be modified if the dominant purpose is to earn share trading income? & (vi) whether the allowance for depreciation u/s 32 has to be excluded in computing the disallowance? HELD by the Tribunal:

S. 14A gets attracted on incurring of expenditure in relation to tax-exempt income. The purpose for which the shares are purchased and held would not impact the applicability of s. 14A. S. 14A comes into play irrespective of the head of income (on account of it arising qua a trading asset) under which the income is assessable. The fact that the share trading business yields both taxable income in the form of share trading profit and tax-exempt income by way of dividend income makes no difference to the applicability of s.14A. Accordingly, s.14A applies to shares held as stock-in-trade;

The argument that all expenditure has been incurred for the share trading business and that there is no additional expenditure incurred for earning dividend is not acceptable because though the expenditure is incurred for the purpose of the business of share trading, the said business yields taxable and non-taxable income. It is the integral activity of purchase and holding the shares which generates two separate streams of income. Accordingly, some of the expenditure has to be attributed to the dividend income;

The argument that investment in shares yielding tax-free dividend income has been made out of own funds and so no interest expenditure has been incurred in relation to the dividend income is not acceptable. No presumption of investment of own funds, on ground of its sufficiency, on the basis of CIT v. Reliance Utilities and Power Ltd (2009) 313 ITR 340 (Bom.) can be drawn;

If Rule 8D(2)(ii) which quantifies the interest on the investments, income from which is not taxable, on a proportionate basis, is applied literally, it will lead to absurd results because then the entire interest relatable to the average share holding will be attributed to the tax exempt dividend income even though the shares are bought and held primarily for share trading income. Rule 8D(2)(ii) needs to be scaled down by bifurcating the expenditure so arrived at between the tax-free and the taxable incomes. Given that the dominant objective of the share holding is to earn share trading income, an ad hoc ratio of 20% toward tax-exempt dividend income will be reasonable. Accordingly, in arriving at the disallowance u/r 8D, the amount as per Rule 8D(2)(ii) qua shares held as stock-in-trade would be restricted to 20% thereof;

Rule 8D(2)(iii) which prescribes the ratio of indirect expenditure required to support an investment need not be modified because though the expenditure prescribed for disallowance is based only on one variable, i.e. the average value of investments, the prescribed allocation ratio of 0.5% of the investment value qua indirect expenditure is very nominal and not harsh;

Depreciation – an economic and accounting concept – statutorily recognized and provided, is only a charge on capital account, i.e., a capital expenditure. It has to be excluded in computing the s. 14A disallowance (ITO v. Daga Capital management Pvt Ltd. (2009) 117 ITD 169 (Mum)(SB), Dhanuka & Sons v. CIT (2011) 339 ITR 319 (Cal.) & American Express Bank followed; CCI Ltd (2012) 71 DTR (Kar) 141, CIT v. Leena Ramachandran (2011) 339 ITR 296 (Ker) & Yatish Trading not followed; Godrej & Boyce MFG Co. Ltd. v. Dy. CIT (2010) 328 ITR 81 (Bom) & CIT v. Walfort Share and Stock Brokers (P) Ltd. (2010) 326 ITR 1 (SC) referred/ followed).

3. Disallowance of expenditure-Exempt income-Interest expenditure has to be netted against interest income and only the difference, if any, can be considered for disallowance. [Rule 8D]

ITO v. Karnavati Petrochem Pvt. Ltd. (Ahd.)(Trib.)

In AY 2008-09, the assessee invested ₹ 95 lakhs in shares on which it earned ₹ 300 as dividend. The AO applied Rule 8D and made a disallowance of ₹ 15 lakhs. The assessee claimed that no expenditure had been incurred to earn the dividend income on the basis that while the interest expense was ₹1.83 crore, the interest income was ₹1.86 crore and there was a net surplus interest income of ₹3.79 lakh. The CIT(A) held that the AO had not established a nexus between the expenditure incurred and the tax free income and that as the assessee had net positive interest income, there could be no disallowance of the interest expenditure u/s 14A read with Rule 8D. He sustained the disallowance at 0.5% of the average investment. On appeal by the department HELD dismissing the appeal: No nexus has been established by the AO between the expenditure incurred by the assessee and the tax free income earned by him. Further, as the interest income was more than interest expense and the assessee was having net positive interest income, the interest expenditure cannot be considered for disallowance u/s 14A and Rule 8D (Trade Apartment (ITAT Kol) & Morgan Stanley (ITAT Mum) (both included in the file) followed)(ITA No. 2282/Ahd/2012, dt. 30/03/2012.

4. Assessee, engaged in realty business, participated in an auction to acquire a piece of land. It obtained loan from its holding company and deposited same as earnest money to acquire land. However, it could not succeed in auction. It paid interest on borrowed fund and received interest on earnest money. It claimed differential between interest as loss and claimed for carry forward of said loss. Whether finding returned by Tribunal, being finding of fact, no question of law arose for consideration.

CIT vs. Dhoomketu Builders & Development (P) Ltd. (2013) 87 DTR 249 (Delhi)(HC)

The assessee in realty business, participated in a tender to acquire land. It obtained a loan from its holding company and deposited the same as earnest money in response to the tender. However, it could not acquire the said land and, consequently, the earnest money was returned to it with interest. On the borrowed fund, it had paid interest. The differential between the interest received and the interest paid was treated by the assessee as loss and it claimed deduction in respect of the same. The relevant assessment year being first year of existence of assessee, the Assessing Officer was of the view that since the assessee was not successful in acquiring the land, it could not be said that the business was set-up in the relevant accounting year and denied the deduction.

The Commissioner (Appeals) also rejected assessee's claim for computation of business loss and carry forward of the same but he allowed interest paid as deduction under section 57(iii). The Tribunal held that the investment was not as a deposit fund rather it was earnest money paid by the assessee for the purchase of land. Thus, the assessee had demonstrated that its business was set up during the accounting period relevant to the assessment year and allowed the said claim.

The Tribunal has observed that having regard to the business of the assessee, which is the development of real estates, the participation in the tender represents commencement of one activity which would enable the assessee to acquire the land for development. If the assessee is in a position to commence business, that means the business has been set-up. The Acts of applying for participation in the tender, the borrowing of monies for interest from the holding company, the deposit of the borrowed monies on the same day with as earnest money were all Acts which

clearly establish that the business had been set-up. The commencement of real estate business would normally start with the acquisition of land or immovable property. When an assessee whose business is to develop real estates, is in a position to perform certain acts towards the acquisition of land, that would clearly show that it is ready to commence business and, as a corollary, that it has already been set-up. The actual acquisition of land is the result of such efforts put in by the assessee; once the land is acquired the assessee, it may be said to have actually commenced its business which is that of development of real estate. The actual acquisition of land may be a first step in commencement of business, but section 3 does not speak of commencement of business, it speaks only of setting-up of the business. When the assessee in the present case was in a position to apply for the tender, borrowed money for interest albeit from its holding company and deposited the same on the same day, it shows that the assessee's business had been set-up and it was ready to commence business. The revenue would, however, state that till the land is acquired, the business is not set-up. The difficulty in accepting the argument is that an assessee may not be successful in acquiring land for long period of time though he is ready to commence his business in real estate, and that would result in the expenses incurred by him throughout that period not being computed as a loss under the head 'Business' on the ground that he is yet to set-up his business. That would be an unacceptable position. The other argument of the revenue that the tax auditors of the assessee have themselves pointed out that the assessee is yet to commence its business is also relevant because of the distinction between the commencement of the business and setting-up of the same.

Under section 260A, an appeal lies to the High Court only on a substantial question of law. The finding of the Tribunal in the present case is a finding of fact and it cannot be said that the finding was without any basis or material. Moreover, the Tribunal did take note of the distinction between the commencement of a business and setting-up of a business and applied the relevant test. In the above circumstances, no substantial question of law arises out of the order of the Tribunal.

5. Whether the Tribunal was right in law in not deciding the issue on the merits and allowing the expenditure claimed by the assessee u/s.35D of the I. T. Act on the ground that such claim was not disallowed in earlier years and thereby allowing to perpetuate an error on the face of very clear and undisputed provision of law?

DCIT v. Gujarat Narmada Valley Fertilizers Co. Ltd. (2013) 215 Taxman 616 (Guj.)(HC)

The assessee claim deduction under Section 35D of the Act since last seven years. In the year under consideration, such claim was made to the extent of ₹87.73 lakh. The Assessing Officer restricted it to ₹13.50 lakh on the ground that only eligible expenses are allowed to be spread over under Section 35D of the Act and therefore, expenses only to the extent that have nexus to the eligible projects are admissible.

Tribunal noted that in last seven years, no such disallowances were made. Referring to and relying on the decision in case of *Radhasoami Satsang v. CIT* 193 ITR 321, the Tribunal directed that such benefit be granted. It is an undisputed position that claim under Section 35D of the Act did not arise for consideration for the first time. Since last several years, the Assessing Officer granted such claim on the same consideration. The Tribunal therefore, correctly held that such claim could not have been suddenly disallowed. We may refer to a decision of this Court in case of *Saurashtra Cement & Chemical Industries Ltd. v. Commissioner of Income-tax, Gujarat*, reported in [(1980) 123 ITR 669], wherein, in the context of successive claim of tax holiday, the Court held that the ITO was not justified in refusing to continue the benefit of such tax holiday granted to the assessee in the earlier years, without disturbing the relief granted for the initial years. We are conscious that the issue is not identical in nature. However, the Income-tax Act recognizes the principle of consistency. In the present case, for as many as seven years, previously the Assessing Officer did not dispute certain claims and therefore, the Tribunal correctly interpreted that the Assessing Officer has sought to reopen the issue.

- 6. Assessing Officer imposed penalty under section 271(1)(c) upon assessee on account of disallowance of bad debt - Tribunal deleted penalty holding that it was a case of difference of opinion on allowability of certain deductions and in absence of any material to indicate any dishonest attempt on part of assessee to conceal income, no penalty could be imposed - Whether Tribunal was justified in deleting penalty?**

CIT v. Sambhav Media Ltd. (2013) 215 Taxman 161(Mag.)(Guj.)(HC)

The issue pertains to deletion of penalty imposed on account of disallowance of bad debts. It appears that the assessee disclosed all relevant material facts before the Assessing Officer at the time of filing of return. The Assessing Officer did not find such claim sustainable and imposed penalty on the assessee. The CIT(A) deleted such penalty and the Tribunal has rightly held in the finding that it is a case of difference of opinion in allowability of certain deductions and in absence of any material to indicate any dishonest attempt on the part of the assessee to conceal the income, no penalty can be imposed.

Tribunal do not find anything to entertain this Tax Appeal as neither there is any concealment of income nor is there any material to indicate filing of inaccurate particulars of income by the assessee. The CIT(A) & Tribunal were right in deleting the penalty imposed under Section 271(1)(c) of the Act in view of the decision of the Apex Court in the case of CIT v. Reliance Petroproducts (P.) Ltd. [2010] 322 ITR 158/189 Taxman 322.

- 7. Whether in absence of any defect in maintenance of books of account, disallowance could be made merely on ground that expenses incurred in current year were more than that in preceding year?**

CIT v. Shree Rama Multi Tech Ltd. (2013) 215 Taxman 157 (Mag.) (Guj.)(HC)

The commission expenses to the tune of ₹1.24 crore was paid out by the assessee of the said total claim of the expenses of commission. The Assessing Officer had disallowed the same to the tune of 20% on noting that in the preceding year, the commission payment was claimed only at 0.70% whereas in the year under consideration 2005-06, the said claim was of 1.93% of the gross turnover. This was challenged before the Commissioner of Income Tax (Appeals) who confirmed the view of the Assessing Officer even though it was argued before it that no notice was served upon the assessee and on merit also, addition was not justifiable.

The Tribunal held that it was not open to the department to prescribe what expenditure the assessee should incur and in what circumstances he should incur the expenses. It sought to rely upon the decision of the Apex Court in case of Commissioner of Income Tax, Andhra Pradesh vs. Dhanrajgirji Raja Narasinghirji reported in 91 ITR 544 for arriving at such findings. In our opinion, sufficiently elaborate discussion already finds place in the order of the Tribunal. Tribunal has appropriately considered the entire gambit of facts presented before it. It also noted the maintenance of books of account for the assessee and absence of any defect in such record and therefore, it rightly held that merely because in the subsequent year more expenses are incurred by the assessee by making such comparison, disallowance was not justified.

- 8. Whether expenditure incurred on issue of debentures is to be allowed as revenue expenditure despite indications to effect that debentures are to be converted in near future into equity shares.**

CIT v. Havells India Ltd. (2013) 352 ITR 376 (Delhi)(HC)

During the relevant previous year, the assessee-company issued 4 per cent fully convertible debentures (FCDs) to a Mauritius company. The issue of debentures was to give effect to the investor agreement entered into with the Mauritius company. Expenditure incurred in connection with issue of debentures were claimed as revenue expenditure. The Assessing Officer, relying upon the board resolution in which it was stated that the FCDs would be converted into equity shares on or before 12-6-2006 and these shares would be issued to the Mauritius company, held that the debenture issue was in fact an issue of equity share capital to the Mauritius company and,

accordingly, the entire expenditure should be disallowed as capital expenditure. On appeal, the Commissioner (Appeals) relied upon the judgment of the Rajasthan High Court in CIT vs. Secure Meters Ltd. [2010] 321 ITR 611/[2008] 175 Taxman 567 (Raj.) in which it was held that the position has to be examined only with reference to the time when the debentures were issued and that the fact that at a future point of time they were to be converted into shares was irrelevant in order to decide the allowability of the expenditure incurred in connection with the debenture issue, and allowed the expenditure as revenue expenditure. He accordingly directed the Assessing Officer to allow the expenditure as revenue expenditure. His decision was affirmed by the Tribunal.

It is well-settled that expenditure incurred in connection with the issue of debentures or obtaining loan is revenue expenditure. The question under consideration, however, is whether it is a debenture issue or an issue of share capital involving the strengthening of the capital base of the company. Though it prima facie appears that there are sufficient facts to indicate that what was contemplated was an issue of shares to the Mauritius company under the Investor Agreement which would result in strengthening of the assessee's capital base, having regard to the judgments cited on behalf of the assessee, in which it has been held that despite indications to the effect that the debentures are to be converted in the near future into equity shares, the expenditure incurred should be allowed as revenue expenditure on the basis of the factual position obtaining at the time of the debenture issue, a different view cannot be taken.

9. **Whether once it is found that expenditure has been incurred by assessee for publicity or advertisement, it is not for department to consider what commercial expediency justify such expenditure; mere fact that on account of expenditure incurred by assessee wholly and exclusively for its own business, incidentally some third party is also benefited is no ground to disallow any part of such expenditure . In case of an assessee procured usage rights for brand “Rasna” for a valuable consideration and incurred advertisement expenses in respect of products manufactured by it under such brand name. Assessing Officer noted that by advertising said brand, other parties were also benefited and an intangible asset was created, which was not even owned by assessee and, therefore, expenses relatable thereto were not for business purpose of assessee but were capital in nature and disallowed said claim. Whether disallowance made by AO is correct.**

CIT v. Khambhatta Family Trust (2013) 215 Taxman 602 (Guj.)(HC)

The assessee procured usage rights for brand “Rasna” for a valuable consideration and incurred some advertisement expenses in respect of products manufactured by it under such brand name. It claimed deduction towards the said expenditure. The Assessing Officer noted that by advertising said brand, other parties were also benefited and an intangible asset was created, which was not even owned by the assessee and, therefore, the expenses relatable thereto were not for the business purpose of the assessee and in the alternative were capital in nature and he disallowed 30 per cent of said expenditure. However, the Commissioner (Appeals) allowed the assessee's claim. The Tribunal concurred with the Commissioner (Appeals).

In the case at hand, the assessee procured usage rights for brand “Rasna” for a valuable consideration and incurred advertisement expenses in respect of products manufactured by it under such brand name. No part of the said expenditure was expended for any purpose other than for the assessee's business; merely because by virtue of such advertisements the brand value of Rasna is enhanced and other manufacturers of the brand are also indirectly benefited, it cannot be said that the expenditure incurred by the assessee is not wholly and exclusively for its own business. It cannot be gainsaid that when any user of a brand name advertises its product, as a necessary corollary the brand value is likely to increase, thereby benefiting the owner of such brand name. If the owner of the brand name has licensed such brand to other manufacturers, it is quite possible that such other manufacturers may also be benefited on account of such advertisements as the advertisements may enhance the value of the brand as a whole. In fact, such incidental benefits are bound to accrue to the owner of the brand as well as other users of the brand name when any of the users of such brand name advertises its products. However, merely because some

other persons are incidentally benefited from the advertisements issued by the assessee, the same would not change the character of the expenses from being wholly and exclusively for the purpose of its business. Therefore, it is not a relevant circumstance for the purpose of considering allowability of expenditure under section 37.

The Tribunal was, therefore, wholly justified in confirming the order of the Commissioner (Appeals) allowing such expenditure under section 37. There being no legal infirmity in the impugned order, the same does not give rise to any question of law, much less, a substantial question of law so as to warrant interference.

10. Amounts not deductible- Disallowance applies only to amounts “payable” as of 31st March and not to amounts already “paid” during the year. Merilyn Shipping (SB) approved.

CIT v. Vector Shipping Services (P) Ltd. (All)(HC)

The assessee engaged Mercator Lines Ltd to perform ship management work on behalf of the assessee for which it paid an amount of ₹ 1.17 crore. The assessee claimed that the amount paid by it to Mercator was a ‘reimbursement of salaries’ and that as Mercator had deducted TDS on the payments made by it to the employees, the assessee was not required to deduct TDS. The AO disagreed and disallowed the entire payment u/s.40(a)(ia). The Tribunal upheld the assessee’s claim and held that no TDS was required to be deducted on a reimbursement. It also relied on Merilyn Shipping and Transport Ltd. v. Add. CIT (2012) 136 ITD 23 (Vishkhapatam)(SB) where it was held that S. 40(a)(ia) applied only to amounts that were “payable” as at the end of the year and not to amounts that had already been “paid” during the year. On appeal by the department, HELD dismissing the appeal:

The revenue cannot take any benefit from the observations made by the Special Bench of the Tribunal in Merilyn Shipping and Transport Ltd. v. CIT (2012) 136 ITD 23 (Vishakhapatnam) (SB) to the effect that s. 40(a)(ia) was introduced by the Finance Act, 2004 w.e.f. 1.4.2005 with a view to augment the revenue through the mechanism of tax deduction at source. S. 40(a)(ia) was brought on the statute to disallow the claim of even genuine and admissible expenses of the assessee under the head ‘Income from Business and Profession’ in case the assessee does not deduct TDS on such expenses. The default in deduction of TDS would result in disallowance of expenditure on which such TDS was deductible. On facts, tax was deducted as TDS from the salaries of the employees paid by Mercator Lines and the circumstances in which such salaries were paid by Mercator Lines for the assessee were sufficiently explained. It is to be noted that for disallowing expenses from business and profession on the ground that TDS has not been deducted, the amount should be payable and not which has been paid by the end of the year.

11. In case of an assessee, a transporter, had taken services of various small truck owners. It claimed deduction on account of freight charges paid to said transporters but did not deduct TDS under section 194C. Assessing Officer disallowed said claim for non-submission of Form 15J with prescribed authority. Tribunal found that Form 15J was submitted by assessee with Commissioner and that in assessment proceedings assessee had filed copy of said form with Assessing Officer who had not doubted payment of freight charges as non-genuine - Tribunal deleted said disallowance - Whether there was no infirmity in order of Tribunal.

CIT vs. Gurvinder Transport (2013) 215 Taxman 593 (Guj.)(HC)

The assessee was a transporter who had taken services of various small truck owners. The freight charges were paid to them without deduction of TDS under section 194C and Form No. 15J was submitted. The Commissioner (Appeals) confirmed the said disallowance. However, the Tribunal noted that the assessee had filed copy of 15J form with the Assessing Officer who had not doubted the payment of freight charges as non-genuine and he deleted the said disallowance. However, the Tribunal noted that the assessee had filed copy of 15J form with the Assessing Officer who had not doubted the payment of freight charges as non-genuine and he deleted the said disallowance.

Before the Tribunal itself the revenue had contended that there was no 'J' form available with Commissioner - II, Baroda whereas the assessee's jurisdiction to file 15J form was with Commissioner - I Baroda. Further, the Tribunal has recorded that during the course of the assessment proceedings, assessee had filed copy of 15J form with the Assessing Officer who had not doubted the payment of freight charges as non-genuine. Before the Tribunal the assessee had also filed a paper book pointing out that the assessee is a transporter who had taken services of various small truck owners and freight charges were paid to them.

In view of such facts, the Tribunal committed no error in holding that disallowance under section 40(a)(ia) was not justified.

12. Whether assessee can claimed deduction under section 40(b) towards the payment of interest to the partners on the balances in the capital accounts in terms of the partnership deed?

Sri Venkateswara Photo Studio vs. ACIT (2013) 215 Taxman (Mag.) 119 (Mad.)(HC)

The assessee claimed deduction under section 40(b) towards the payment of interest to the partners on the balances in the capital accounts in terms of the partnership deed. The Assessing Authority pointed out that the assessee had apportioned the interest in the profit and loss account, without claiming depreciation. He pointed out that since depreciation is a charge on the profit of the company, charging of interest has to be on the book profit of the company or firm. The Commissioner (Appeals) pointed out that in absence of definition of profit in relation to clause (iv) of section 40(b), the assistance of Explanation 3 to clause (v) could be taken advantage to find out, how the interest paid to partners could be worked out. In the circumstances, the Commissioner (Appeals) confirmed the view of the Assessing Officer that without providing for depreciation, the partner's account could not be credited with any interest.

A reading of the provisions of sections 40(b)(iv) and 40(b)(v) on interest and salary clearly shows the marked difference in the treatment of the said payments in the matter of granting deduction under section 40. Section 40(b)(iv) recognizes interest payment as deduction up to 18 per cent simple interest. For the purposes of disallowance of deduction on payment of interest, section 40(b)(iv) states that simple interest paid in excess of 18 per cent, would go for disallowance. The payment of interest, in any event, would be allowed as deduction only if it is authorised and is in accordance with the terms of partnership deed. The payment of interest may be either from the account of book profit or from the net profit. As regards deduction claim on the salary payment to partners, deduction on the payment to all partners is worked out at the percentage of book profit as given in the section itself. Explanation 3 defines what book profit means. It states that 'book profit' means the 'net profit' as shown in the profit and loss account computed in the manner laid down in Part IV-D relating to "profits and gain of business or profession", which means the net profit has to be necessarily worked out after giving such deductions and allowances as provided for in sections 28 to 44D. Taking into consideration that the legislature has consciously provided for such differential treatment in the matter of granting deduction and disallowance on the payment of interest and salary, it is difficult to be accept the plea of the revenue that section 40(b) disallowance has to be worked out only on the book profit, meaning thereby, the net profit after working out the depreciation. It is no doubt true that depreciation is given as a charge on the profit, but then, when working out section 40(b) disallowance, particularly with reference to clause (iv), when there is no specific reference to a book profit as a basis on which an interest has to be paid, unlike in the case of salary, the mere score that depreciation is made a charge on the profit, per se, would not justify the claim of the revenue that the granting of such relief on the gross profit would lead to distorted figures in the matter of working out the real income of the assessee for the purpose of taxation. The question is that, at what point could the interest be worked out and considered to be credited to the capital account of the partners for the purpose of considering the claim for deduction.

Given the fact that the partnership deed provided for interest payment and what is disallowed under section 40(b)(iv) is the rate of interest exceeding 18 per cent simple interest, as it then stood, in the absence of any clear-cut guidance under the Act as has been provided in the case of salary,

through Explanation that the payment of salary of all the partners for the purpose of deduction has to be worked out on the percentage of book profit computed in the manner laid down in Chapter IV-D the plea of the assessee that the method adopted by the assessee justifies the claim is to be accepted. It is no doubt true, as pointed out in the assessment order, that after working out the depreciation and expenses, practically, there might not be anything available at the hands of the firm for crediting any interest to the capital account, but then, as section 40(b)(iv) stands in contrast to section 40(b)(v), it is difficult to accept the case of the revenue that by reason of this figure alone, the accounts have to be rejected. Thus, going by the provisions under section 40(b)(iv), there being, no restriction placed on the working of interest before working out the depreciation, the revenue cannot insist on depreciation being a charge on profit, has to be deducted first before considering any interest payment on the capital of the firm. In the circumstances, the order of the Tribunal is to be set aside.

13. S.40A(2): Expenses or payments not deductible-Excess or unreasonable- Remuneration to Directors.

Fashion Suitings (P) Ltd. v. JCIT (2013) 154 TTJ 1/ 86 DTR 49 (Jodh.)(Trib.)

Disallowance under section 40A(2) by linking remuneration to directors with assessee's turnover or profit earned by the assessee was not proper. The only thing is to be seen is as to whether the remuneration was excessive. The Assessing Officer did not doubt the payment of remuneration to the directors and it was not the case of that the services were not rendered. The Tribunal deleted the addition made by Assessing Officer and sustained by the learned CIT(A) on the basis that the directors who were well experience and having proper qualification rendered the services to the assessee company.

14. Whether rule 6DD(k) which was formulated as a proviso to section 40A(3) seeks to relieve to a certain extent, measure of hardship which might be imposed upon small businesses and professionals who are engaged in activities and are dependent entirely on timely cash flow.

RC Goel v. CIT (2013) 259 CTR 15 (Delhi)(HC)

The assessee was a mobile railway catering contractor and was serving the passengers on trains. While making scrutiny assessment, the Assessing Officer noticed that the assessee had purchased goods and supplies making cash payment of Rs. 27.48 lakhs from one 'S', a Mumbai-based concern, for providing supplies in the trains. The Assessing Officer made disallowance in view of the provisions of section 40A(3). The case of the assessee was that purchase from that concern was necessary and the supplier 'S' insisted for payment in cash against delivery of items and the assessee, having regard to the nature of its contract with the IRCTC was bound to supply the goods and articles in the trains in a short time. Transactions were genuine and bona fide and had to be taken out of the scope of section 40A(3). The assessee relied upon rule 6DD(k) to urge that his case was falling within the proviso to section 40A(3) as the payment was made in view of business expediency.

The assessee engages itself in executing catering contracts for Railways in respect of two trains. In those trains, its personnel are deployed for sale of small articles of daily necessity and use to the passengers. Per force, the payments received by them are necessarily in cash. These amounts are collected and in turn handed over to the assessee. The assessee in terms of its contract is bound to maintain constant supplies in the trains and ensure that at no point in time can the passengers be deprived of these articles (which are food articles, soft drinks and other items necessary for travel). In the course of such transactions, it sources these articles from 'S'. Apparently, that concern is also a small time one and insists on cash payments for ensuring continuity and timely supplies. Whilst, the Court is conscious and does not in any manner wish to comment adversely on the larger public interest element embedded in section 40A and the underlying principle, at the same time, the Court also notes that the proviso seeks to relieve to a certain extent, the measure of hardship which might be imposed upon small businesses and professionals who are engaged in activities and are dependent entirely on timely cash flow. It is in such cases that rule 6DD - which was formulated as a

proviso to section 40A(3) - steps into aid such assessee and concerns. In this context, the statutory mandate in rule 6DD(k), at least in the circumstances of the case, has to be so construed as to mean that but for the cash payment, the assessee would have been deprived of the benefit of supplies itself. The High Court clarifies that the interpretation of the expression 'who is required to make payment in cash' having regard to the circumstances of the case is fact dependent, at least in the present case. The consequence of instances of payment through account payee cheques in small business which are dependent on such supplies would be to completely stifle, if not stop, the business activities. It is in that sense that the expression 'required' would have to be construed.

In view of the above discussion, the High Court is of the opinion that having regard to the peculiar facts and circumstances, the Tribunal and the lower authorities adopted an unduly narrow and technical interpretation of rule 6DD(k), the benefit of which the assessee clearly was entitled to. The question of law is accordingly answered in favour of the assessee and against the revenue.

15. S.43B: Deductions on actual payment– Employees' contribution to PF, ESI, etc.–Payment before due date of filing return and beyond due dates prescribed under respective statutes is allowable as deduction. [S.2(24)(x), 36(1)(va), 139,264]

Spectrum Consultants India (P.) Ltd. v. CIT (2013) 215 Taxman 597 (Karn.)(HC)

The assessee claimed deduction of ₹ 22,91 lakhs, being employee's contribution under the EPF Act, and ESI Act, which were remitted beyond the due dates prescribed under the statutes. An amount of ₹ 20.76 lakhs was paid during the financial year ending 31-03-2006 and balance was paid prior to last date for filing return under section 139(1), extended up to 30-11-2006. Assessing Officer disallowed the payment on the ground that section 43B(b) allowed payment of only employer's contribution till due date of filing of return. The assessee filed revision application under section 264, which was dismissed. The assessee challenged the said order by filing writ petition. Allowing the petition the Court held that where the assessee remitted employees' contribution under EPF Act, and ESI Act after due dates prescribed under said statutes, but before extended due date for filing return u/s 139(1), deduction could not be disallowed. Followed the ratio in CIT v. Alom Entrusions Ltd (2009) 319 ITR 306(SC) and CIT v. Sabari Enterprises (2008) 298 ITR 141 (Karn.)(HC).

16. Can business contracts, business information, etc., acquired by the assessee as part of the slump sale be described as 'goodwill', be classified as an intangible asset to be entitled for depreciation under section 32(1)(ii)?

Areva T and D India Ltd. vs. DCIT (2012) 345 ITR 421 (Delhi)

In the present case, a transferor under a transfer by way of slump sale, transferred its ongoing business unit to the assessee company. On perusal of the sale consideration, it was found that some part of it was attributable to the tangible assets and the balance payment was made by the assessee company for acquisition of various business and commercial rights categorized under the separate head, namely, "goodwill" in the books of account of the assessee. These business and commercial rights comprised the following: business claims, business information, business records, contracts, skilled employees, know-how. The assessee company claimed depreciation under section 32 on the excess amount paid which was classified as "goodwill" under the category of intangible assets.

The Assessing Officer accepted the allocation of the slump sale between tangible and intangible assets (described as Goodwill). However, he claimed that depreciation in terms of section 32(1)(ii) is not allowable on goodwill. He further contended that the assessee has failed to prove that such payment can be categorized under "other business or commercial right of similar nature" as mentioned in section 32(1)(ii) to qualify for depreciation.

The assessee argued that any right which is obtained for carrying on the business effectively, is likely to come within the sweep of the meaning of intangible asset. Therefore, the present case shall qualify for claiming depreciation since business claims, business information, etc., are in the nature

of "any other business or commercial rights" However, the Revenue argued that, the business or commercial rights acquired by the assessee would not fall within the definition of intangible assets under section 32.

The Delhi High Court observed that the principle of ejusdem generis provides that where there are general words following particular and specific words, the meaning of the latter words shall be confined to things of the same kind. The Court applied this principle for interpreting the expression "business or commercial rights of similar nature" specified in section 32(1)(ii). It is seen that such rights need not be the same as the description of "know-how, patents, trademarks, licenses or franchises" but must be of similar nature as the specified assets. The use of these general words after the specified intangible assets in section 32(1)(ii) clearly demonstrates that the Legislature did not intend to provide for depreciation only in respect of specified intangible assets but also to other categories of intangible assets, which were neither feasible nor possible to exhaustively enumerate.

Further, it was observed that the above mentioned intangible assets are invaluable assets, which are required for carrying on the business acquired by the assessee without any interruption. In the absence of the aforesaid intangible assets, the assessee would have had to commence business from scratch and go through the gestation period whereas by acquiring the aforesaid business rights along with the tangible assets, the assessee has got a running business. The aforesaid intangible assets are, therefore comparable to a license to carry on the existing business of the transferor.

Therefore, the High Court held that the specified intangible assets acquired under the slump sale agreement by the assessee are in the nature of intangible asset under the category "other business or commercial rights of similar nature" specified in section 32(1)(ii) and are accordingly eligible for depreciation under section 32(1)(ii).

17. What would be the nature of expenditure incurred by the assessee by way of severance cost paid to the employees in respect of suspension of one of the activities, in a case where he continues to carry on other business activities - Capital or Revenue?

CIT vs. KJS India P. Ltd. (2012) 340 ITR 380 (Delhi)

In the present case, the assessee was carrying more than one business activity, namely manufacturing powdered soft drink and trading in soft drinks. However, the manufacturing activity was not profitable and hence, was stopped. The employees who were directly connected with this manufacturing activity were laid off and severance cost was paid to those employees. The same was claimed by the assessee as revenue expenditure. The Assessing Officer disallowed the same treating it as a capital expenditure, on the argument that it was incurred as a result of closure of business of the assessee.

The Delhi High Court, on the above mentioned issue, held that though one of the business activities was suspended, it cannot be construed that the assessee has closedown its entire business. The assessee still continues to trade in soft drinks. Therefore the said expenditure will be allowed as revenue expenditure though it was related to manufacturing activity which was suspended.

18. Is the income or expense of an asset management company liable to be assessed on the basis of the maximum limit mentioned in the SEBI regulations or should the assessment be made on the basis of the actual income or expenses charged?

CIT vs. Templeton Asset Management (India) P. Ltd. (2012) 340 ITR 279 (Bom.)

The assessee is a private limited company engaged in the business of asset management of mutual funds. The Assessing Officer noticed and made additions in respect of the under mentioned items:

- (i) The difference between the ceiling for investment advisory fees prescribed under the relevant regulation of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and the actual amount claimed as being charged from the mutual fund.
- (ii) Certain expenses incurred by the assessee on behalf of the mutual funds. The assessee recovered

only a part of those expenses from the mutual fund and the balance was borne by the assessee himself. In some cases, the whole expense was borne by the assessee. The Assessing Officer, relying on the relevant SEBI regulation, contended that since the SEBI regulation empowers the assessee to recover those expenses up to the ceiling prescribed therein, the assessee was not justified in charging those expenses to its own account, thereby reducing its taxable income. Accordingly, the Assessing Officer added the differential amount to the income of the assessee.

On the issue mentioned in (i) above, the Bombay High Court, confirming the decision of the Commissioner (Appeals) and the Income-tax Appellate Tribunal, held that the relevant SEBI regulation provides for the maximum limit towards the fees that could be charged by an asset management company from the mutual funds. In case due to business exigencies, if the assessee, an asset management company, collects lesser amount of fees than the ceiling prescribed, it is not open to the Assessing Officer to make additions on notional basis and assess the assessee at the maximum amount prescribed under the SEBI regulation.

Similarly, in respect of the issue mentioned in (ii) above, it was held that it is a bonafide decision of the assessee to claim part of the expenses or claim no expense from the mutual funds on the basis of commercial prudence. The ceiling on expenses mentioned in the SEBI regulation is the maximum amount that can be claimed from the mutual fund. The restrictions under the SEBI Regulations are imposed with a view to ensure that the mutual funds are not overcharged and the said Regulations are not intended to mandatorily burden the mutual funds with the liability set out in the Regulations. In case an asset management company does not charge the mutual funds part of the expenses actually incurred due to a bonafide commercial decision, then, no part of the expenditure can be disallowed unless it is established that there were no business exigencies or the claim was not genuine. Therefore, the disallowance made by the Assessing Officer in the present case is not justified since the transaction was genuine in nature.

- 19. Can the expense incurred by the assessee on the education and travelling of an employee, for acquiring knowledge relating to assessee's business, be disallowed merely on the ground that the employee is the son of an ex-director of the assessee company?**

CIT vs. Naidunia News and Networking (P.) Ltd. (2012) 210 Taxman 73 (MP)

In the present case, the assessee was engaged in the business of printing and distribution of newspapers and magazines. It incurred foreign travel and education expenditure on higher studies in printing technology for its employee, who was the son of the ex-director of the company. However, the said expense was disallowed by the Assessing Officer.

The Madhya Pradesh High Court held that the expenses incurred by the assessee on the foreign travel and education of a regular employee outside India for gaining advanced knowledge of the latest printing technology, which was directly related to the business of the assessee, is allowable under section 37(1). The expenditure cannot be disallowed merely because it was incurred in respect of an employee, who was son of ex-director of the assessee company.

- 20. Can advance given to employees and security deposit paid to the landlord by the amalgamating company, which became irrecoverable, be allowed as a business loss in the hands of the amalgamated company?**

CIT vs. Triveni Engg. & Industries Ltd. (2012) 343 ITR 245 (Delhi)

The amalgamating company had given certain advances to employees and had made a security deposit with the landlords for obtaining lease of premises for purposes of its business. Both the advance given and the security deposit paid by the amalgamating company became irrecoverable and were written off in the books of account of the assess-amalgamated company. The Assessing Officer disallowed the said claims on the ground that the same is not directly related to carrying on of the business of the assessee-amalgamated company nor is it incidental to the same.

On the above mentioned issue, the Delhi High Court held that advances to employees were given by the amalgamating company in the ordinary course of business by way of temporary financial accommodation to be recovered out of the salary paid to the employees. The giving of such advances was necessitated in order to share up the personal finances of the employees, to meet any emergency/financial commitment and keep the employees motivated, contented and happy. Therefore, such advances given to persons who had been employed by the assessee company which have become irrecoverable would be treated as business loss.

However, as regards the allowability of non-recoverable security deposit given to the landlord for obtaining lease of premises for purposes of business, the High Court observed that the security deposits were refundable and therefore, were not in the form of rent. They were given for securing the premises on rent. The assessee had obtained a right to use the property, i.e., tenancy right, which is a capital asset. Therefore, it is not allowable as business loss.

21. Can an assessee, engaged in money lending business, claim interest paid on money borrowed as business expenditure?

Rajendra Kumar Dabriwala vs. CIT (2012) 347 ITR 353 (Cal.)

In the present case, the assessee was engaged in the business of dealing in shares and money lending. He borrowed funds for lending purposes, paid interest on the funds borrowed and claimed the same as deduction while computing business income. The interest received was shown as income. The Assessing Officer did not allow the claim of interest paid as business expenditure on the contention that, substantial amount of loan was obtained by the assessee from various parties and substantial amount of loans were given to different parties. The Assessing Officer claimed that the loans were not given for the sake of business transactions but simply the loans taken from one party were transferred to the other parties by way of loan.

The Calcutta High Court held that the Assessing Officer is not right in his contention, since the assessee is in the money lending business. He is entitled to receive interest from the loan advanced and is also entitled to take loan for running the money lending business. Therefore, the assessee is lawfully entitled to deduct interest paid on the funds borrowed as business expenditure, subject however to the provisions contained in section 14A. In other words, if any loan has been taken by the assessee in relation to the income which does not form part of his total income under the Act, the assessee will not get deduction of interest paid on that amount.

22. Can subsidy received by the assessee from the Government of West Bengal under the scheme of industrial promotion for expansion of its capacities, modernization and improving its marketing capabilities be treated as a capital receipt?

CIT vs. Rasoi Ltd. (2011) 335 ITR 438 (Cal.)

In the present case, the assessee received the subsidy by way of financial assistance in the period of crisis for promotion of the industries mentioned in the schemes which had manufacturing units in West Bengal and which were in need of financial assistance for expansion of their capacities, modernization and improving their marketing capabilities. The subsidy was a onetime receipt and was equivalent to 90% of the amount of sales tax paid.

The Assessing Officer, relying on the decision of the Supreme Court in the case of "Sahney Steel & Press Works Ltd. vs. CIT (1997) 228 ITR 253", came to the conclusion that since the subsidy received from the Government was 90% of the sales tax paid, the same was in the form of refund of sales tax paid and hence, should be considered as a revenue receipt.

The Calcutta High Court, applying the rationale of Supreme Court in CIT vs. Ponni Sugars & Chemicals Ltd. (2008) 306 ITR 392, observed that if the object of the subsidy is to enable the assessee to run the business more profitably, the receipt is a revenue receipt. On the other hand, if the object of the assistance is to enable the assessee to set up a new unit or to expand an existing unit, the receipt would be a capital receipt. Therefore, the object for which subsidy is given determines

the nature of the subsidy and not the form of the mechanism through which the subsidy is given. Further, it was observed that in "Sahney Steel and Press Work Ltd. ", the subsidy was given by way of assistance in carrying the trade or business more profitably and hence, the receipt was a revenue receipt. However, in the instant case, the object of the subsidy was for expansion of their capacities, modernization and improvement of their marketing capabilities. It was further observed that merely because the subsidy was equivalent to 90% of the sales tax paid, it cannot be construed that the same was in the form of refund of sales tax paid.

Therefore, the High Court held that, in the present case, the subsidy received has to be treated as a capital receipt and not as a revenue receipt.

23. Can the assessee, being a charitable institution claim depreciation under section 32 in respect of an asset, where the cost of such asset has been treated as application of income for charitable purposes under section 11(1)(a)?

Lissie Medical Institutions vs. CIT (2012) 348 ITR 344 (Ker.)

On the above issue, it was held that once the expenditure on acquisition of assets has been treated as application of income for charitable purposes under section 11(1)(a), the full value of the asset stands written off and if depreciation is further allowed, the same will result in double deduction of capital expenditure leading to violation of provision of section 11(1) and therefore, the trust is not eligible to claim depreciation on such capital expenditure, in the current year or in any subsequent year.

24. Is the assessee entitled to depreciation on the value of goodwill considering it as an asset within the meaning of Explanation 3(b) to Section 32(1)?

CIT vs. Smifs Securities Ltd. (2012) 348 ITR 302 (SC)

In this case, the assessee has paid an excess consideration over the value of net assets of the amalgamating company acquired by it, which is treated as goodwill, since the extra consideration was paid towards the reputation which the amalgamating company was enjoying in order to retain its existing clientele. The assessee had claimed depreciation on the said goodwill. However, the Assessing Officer contended that the goodwill is not an asset falling under Explanation 3 to section 32(1) and therefore, is not eligible for depreciation.

On this issue, the Supreme Court observed that Explanation 3 to section 32(1) states that the expression 'asset' shall mean an intangible asset, being know-how, patents, copyrights, trademarks, licences, franchises or any other business or commercial rights of similar nature. A reading of the words 'any other business or commercial rights of similar nature' in Explanation 3(b) indicates that goodwill would fall under the said expression. In the process of amalgamation, the amalgamated company had acquired a capital right in the form of goodwill because of which the market worth of the amalgamated company stood increased.

Therefore, it was held that 'Goodwill' is an asset under Explanation 3(b) to section 32(1) and depreciation thereon is allowable under the said section.

25. Is abkari licence covered under section 32(1)(ii) and eligible for depreciation @ 25% of written down value?

S. Ambika vs. DCIT (2011) 203 Taxman 2 (Ker.)

Relevant section: 32

On this issue, the High Court observed that abkari licence is treated as a transferable asset and the Excise Commissioner is authorised to approve transfers as per Foreign Liquor Rules. When licence is transferable according to the Rules under which it is issued, it is for consideration and the licence would be renewed every year unless general policy decision is taken by the Government against it, and therefore, it is a business asset for long-term exploitation. Therefore, abkari licence is a business right given to the party to carry on liquor trade.

As per section 32(1)(ii), the assessee is entitled to claim depreciation on know-how, patents, copyright, trademarks, licenses, franchises or any other business or commercial rights of similar nature as being intangible assets.

Therefore, the High Court held that the abkari licence squarely falls under section 32(1)(ii) on which the assessee is entitled to depreciation at 25% of the written down value as provided under Section 32(1).

26. Is the commission paid to doctors by a diagnostic centre for referring patients for diagnosis be allowed as a business expenditure under section 37 or would it be treated as illegal and against public policy to attract disallowance?

CIT vs. Kap Scan and Diagnostic Centre P. Ltd.(2012) 344 ITR 476 (P&H)

On the above mentioned issue, the Punjab and Haryana High Court held that the argument of the assessee that giving commission to the private doctors for referring the patients for various medical tests was a trade practice which could not be termed to be illegal and therefore, the same cannot be disallowed under section 37(1), is not acceptable. Applying the rationale and considering the purpose of Explanation to section 37(1), the assessee would not be entitled to deduction of payments made in contravention of law. Similarly, payments which are opposed to public policy being in the nature of unlawful consideration cannot also be claimed as deduction. The assessee cannot take a plea that businessmen are entitled to conduct their business even contrary to law and claim deduction of certain payments as business expenditure, notwithstanding that such payments are illegal or opposed to public policy or have pernicious consequences to the society as a whole.

As per the Indian Medical Council (Professional Conduct, Etiquette and Ethics) Regulations, 2002, no physician shall give, solicit, receive, or offer to give, solicit or receive, any gift, gratuity, commission or bonus in consideration of a return for referring any patient for medical treatment.

The demanding as well as paying of such commission is bad in law. It is not a fair practice and is opposed to public policy and should be discouraged. Thus, the High Court held that commission paid to doctors for referring patients for diagnosis is not allowable as a business expenditure.

27. What would be the nature of the repair and reconditioning expenditure incurred on a machine which broke down years ago – Revenue or Capital?

Bharat Gears Ltd. vs. CIT (2011) 337 ITR370 (Delhi)

In the present case, the assessee had machinery which broke down many years back and was not in use. In the current year the assessee got that machinery repaired and reconditioned and claimed that expenditure as current repairs i.e., revenue expenditure. The assessee contended that this was neither a case of replacement of asset nor acquisition of a new asset. The defects in the machinery were only being removed and therefore, the expenditure should be treated as current repairs. The Assessing Officer disallowed the claim since the expenditure incurred has given a benefit of enduring nature to the assessee by increasing the useful life of the machinery and therefore, has to be treated as a capital expenditure on which depreciation is allowable.

After considering the above mentioned arguments, the Delhi High Court held that the machinery which was repaired had outlived its utility and huge expenditure was incurred by replacing many vital parts in order to make the same functional. The expenditure was of such nature that it brought into existence a new machinery altogether and consequently, there was a benefit of enduring nature to the assessee even though technically no new asset came into existence. Therefore, the Delhi High Court observed that it is in the nature of capital expenditure on which depreciation can be claimed.

- 28. Where the provision for bad and doubtful debts under section 36(1)(viia) relates to rural advances, can deduction for actual write off under section 36(1)(vii) in respect of urban advances be restricted to the amount in excess of the credit balance in the provision for bad and doubtful debts made under section 36(1)(viia)?**

Catholic Syrian Bank Ltd. vs. CIT (2012) 343 ITR 270 (SC)

As per the provisions of section 36(1)(viia), a scheduled bank can claim deduction in respect of provision for bad and doubtful debts in respect of its rural advances. Further, as per proviso to section 36(1)(vii), deduction under section 36(1)(vii) in respect of bad and doubtful debts written off shall be limited to the amount by which such debt or part thereof exceeds the credit balance in the provision for bad and doubtful debts created under section 36(1)(viia). The issue under consideration is whether the claim for bad debts under section 36(1)(vii) in respect of urban advances can be restricted to the amount in excess of the credit balance in the provision for bad and doubtful debts made under section 36(1)(viia) in respect of rural advances.

On the above issue, the Supreme Court observed that the deduction on account of provision for bad and doubtful debts under section 36(1)(viia) relating to rural advances of a scheduled bank is distinct and independent of the provisions of section 36(1)(vii), where such bad debts are in respect of urban advances.

In effect, where the provision under section 36(1)(viia) is in respect of rural advances and the bad debts write off under section 36(1)(vii) is in respect of urban advances, the restriction contained in the proviso to section 36(1)(vii) would not apply. The Supreme Court held that in such a case, the benefit of deduction under section 36(1)(vii) in respect of urban advances would be available to the bank, subject to provisions of section 36(2).

- 29. What is the nature of expenditure incurred on demolition and re-erection of a cell room and expenditure incurred on purchase of pumping set, mono block pump and two transformers, which were parts of a bigger plant – revenue or capital?**

CIT vs. Modi Industries Ltd. (2011) 339 ITR 467 (Del.)

On the issue of allowability of expenditure on demolition and re-erection of a cell room, the High Court referred to the Supreme Court ruling in CIT vs. Saravana Spinning Mills P. Ltd. (2007) 293 ITR 201, wherein it was observed that "current repairs" under section 31 refer to expenditure effected to preserve and maintain an already existing asset and the object of expenditure must not be to bring a new asset into existence or to obtain a new advantage. In that case, it was held that since the entire machine had been replaced, the expenditure incurred by the assessee did not fall within the meaning of "current repairs" in section 31(1).

Applying the rationale of the Apex Court ruling, the Delhi High Court observed that if a part of a structure becomes dilapidated and repairs/reinforcement of some parts of the structure is required, it would be treated as "current repairs". However, on the other hand, if a part of the building is demolished and a new structure is erected on that place, it has to be treated as capital expenditure, as in that case a totally new asset is created even if it may be a part of the building.

In this case, it was clear that after completely demolishing the old cell room, an entire new cell room was erected. The money spent was not merely on repairs of the cell room but for constructing a new cell room. Even the nomenclature of the entry, as given by the assessee, was "fabrication and erection charges of cell room." Thus, it was nothing but a complete demolition of the old cell room and construction/erection of a new cell room in its place. The expenditure incurred on the cell room was capital expenditure.

However, so far as purchase of pumping set, mono block pump with HP motors and two transformers were concerned, they were not stand alone equipment, but were part of the bigger plant. Therefore, it would be treated as replacement of those parts and the expenditure would be eligible for deduction under section 37(1).

30. Can the provisions of section 41(1) be invoked both in respect of waiver of working capital loan utilized for day-to-day business operations and in respect of waiver of term loan taken for purchasing a capital asset?

Rollatainers Ltd. vs. CIT (2011) 339 ITR 54 (Del.)

The assessee, a sick company under the provisions of the Sick Industrial Companies (Special Provisions) Act, 1985, approached the Corporate Debt Restructuring Cell for settlement of outstanding dues of various financial institutions/banks. The Cell approved the reworked restructuring package, pursuant to which financial institutions and banks waived part of their respective dues, comprising principal and interest. The Commissioner (Appeals) held that the principal amount of loans waived by the banks, including the waiver of the principal amount against the working capital loans in the form of cash credit limits did not constitute taxable income. The Tribunal held that the waiver of the working capital loan utilized towards day-to-day business operations resulted in manifest in the revenue field and hence was taxable in the year of waiver.

The High Court observed that the Tribunal had found as a fact that the term loans were taken for the purchase of capital assets from time to time. Therefore, as regards term loans, the Tribunal had come to a conclusion that since the monies did not come into the possession of the assessee on account of any trading transaction, the receipts were capital in nature, being loan repayable over a period of time along with interest. Therefore, on writing off of the loans, no benefit or perquisite arose to the assessee in the revenue field. The liability in question, i.e. the term loan for purchase of capital assets, was not a trading liability. Therefore, the provisions of section 41(1) are also not attracted in this case since the waiver was in respect of a term loan taken for a capital asset and hence, cannot be treated as remission or cessation of a trading liability. Thus the waiver of such term loans cannot be treated as income of the assessee.

However, in the case loan is written off in the cash credit account, the benefit is in the revenue field as the money had been borrowed for day-to-day affairs and not for the purchase of capital asset. These loans were for circulating capital and not fixed capital. Therefore, the writing off of these loans on the cash credit account which was received for carrying out the day-to-day operations of the assessee amounted to remission of a trading liability and hence, has to be treated as income in the hands of the assessee by virtue of section 41(1).

31. Can a company engaged in the business of owning, running and managing hotels claim interest on borrowed funds, used by it for investing in the equity share capital of a wholly owned subsidiary company, as deduction where the subsidiary company was formed for exercising effective control of new hotels acquired by the parent company under its management?

CIT vs. Tulip Star Hotels Ltd. (2011) 338 ITR 482 (Del.)

The assessee-company was engaged in the business of owning, running and managing hotels. The assessee had borrowed certain funds which it had utilized to subscribe to the equity capital of the subsidiary company. The investment in the wholly owned subsidiary was for effective control of the hotels acquired by the assessee-company under its management and the subsidiary company also used the funds for the said purpose.

The assessee paid interest on the borrowed money. This interest liability incurred by the assessee was claimed by it as deduction under section 36(1)(iii) on the ground that it was business expenditure. The Assessing Officer refused to allow the expenditure. However, the Commissioner (Appeals) reversed the decision of the Assessing Officer and this opinion was confirmed by the Tribunal.

The High Court held that the assessee was in the business of owning, running and managing hotels. For the effective control of new hotels acquired by the assessee under its management it had invested in a wholly owned subsidiary company. The expenditure incurred was for business purposes and was thus allowable under section 36(1)(iii).

Note - Under section 36(1)(iii), the amount of the interest paid in respect of capital borrowed for the

purposes of the business or profession is allowable as deduction. In this case, it has been held that interest paid on capital borrowed for investment in a subsidiary company is allowable as deduction since the subsidiary company was formed to carry on the business of the parent company in a more effective manner.

32. Can "moneys payable" in respect of a building sold by the assessee (which has to be reduced from the opening written down value of the block of assets for calculating depreciation) be construed as the fair market value of the asset instead of the actual sale price?

CIT vs. Cable Corporation of India Ltd. (2011) 336 ITR 56 (Bom.)

On this issue, the Bombay High Court observed that the "moneys payable" to be reduced from the written down value of the block of assets as per section 43(6) is to be construed as per the meaning assigned to the same according to the Explanation below section 41(4) which states that the moneys payable"" in relation to the sale of a building, machinery, plant or furniture would be the price for which it is sold.

Therefore, the written down value of the asset falling within that block of assets at the beginning of the previous year has to be adjusted by the amount for which the asset is actually sold and not by its fair market value.

It may, however, be noted that, in case of scrap, the amount of scrap value (i.e. the fair market value) has to be reduced as per the provisions of section 43(6), to arrive at the written down value at the end of the year.

33. Can the expenditure incurred on the assessee-lawyer's heart surgery be allowed as business expenditure under section 31 by treating it as current repairs considering heart as plant and machinery or under section 37 by treating it as expenditure incurred wholly and exclusively for purposes of business or profession?

Shanti Bhushan vs. CIT (2011) 336 ITR 26 (Delhi)

In the present case, the assessee is a lawyer by profession. The assessee argued that the repair of vital organ (i.e. the heart) had directly impacted his professional competence. He contended that the heart should be treated as plant as it is used for the purpose of his professional work. He substantiated his contention by stating that after his heart surgery, his gross receipts from profession increased manifold. Hence, the expenditure on the heart surgery should be allowed as business expenditure either under section 31 as current repairs to plant and machinery or section 37 as an expense incurred wholly and exclusively for the purpose of profession. The department argued that the said expenditure was personal in nature and was not incurred wholly and exclusively for the purpose of business or profession, and therefore, the same should not be allowed as business expenditure.

On this issue, the Delhi High Court observed that a healthy and functional human heart is necessary for a human being irrespective of the vocation or profession he is attached with. Expenses incurred to repair an impaired heart would thus add to the longevity and efficiency of a human being which would be reflected in every activity he does, including professional activity. It cannot be said that the heart is used as an exclusive tool for the purpose of professional activity by the assessee. Further, the High Court held that:

- (i) To allow the heart surgery expenditure as repair expenses to plant, the heart should have been first included in the assessee's balance sheet as an asset in the previous year and in the earlier years. Also, a value needs to be assigned for the same. The assessee would face difficulty in arriving at the cost of acquisition of such an asset for showing in his books of account. Though the definition of plant as per the provisions of section 43(3) is inclusive in nature but the plant must have been used as a business tool which is not true in case of heart. Therefore, the heart cannot be said to be plant for the business or profession of the assessee. Therefore, the expenditure on heart surgery is not allowable as repairs to plant under section 31.

- (ii) According to the provisions of section 37, inter alia, the said expenditure must be incurred wholly and exclusively for the purposes of the assessee's profession. As mentioned above, a healthy heart will increase the efficiency of human being in every field including its professional work. Therefore, there is no direct nexus between the expenses incurred by the assessee on the heart surgery and his efficiency in the professional field. Therefore, the claim for allowing the said expenditure under section 37 is also not tenable.

Hence, the heart surgery expenses shall not be allowed as a business expenditure of the assessee under the Income-tax Act, 1961.

34. Can the Assessing Officer bring to tax the actual profits as per books of accounts, if the same is higher than 10% of receipts which are deemed to be the profits under section 44BBB in case of a foreign company engaged in turnkey projects?

DIT vs. DSD Noell GmbH (2011) 333 ITR 304 (Delhi)

In the present case, the assessee is a German company providing engineering and technical services for various projects eligible for presumptive taxation scheme under section 44BBB. The assessee filed its return declaring a sum equal to 10% of the amount paid or payable to the assessee under the projects undertaken by it as deemed profits and gains chargeable to tax under the head "Profits and gains of business or profession" as per the provisions of section 44BBB. The Assessing Officer contended that on the basis of books of account maintained by the assessee, the profits could be more than 10% and therefore, the actual profits should be brought to tax by invoking sub-section (2) of section 44BBB.

On the above issue, the Delhi High Court held that if an assessee fulfills all the conditions mentioned in section 44BBB(1), the provisions of sections 28 to 44AA of the Act would not be applicable for computation of its business income, and a sum equal to 10% of the amount paid or payable to such foreign company would be deemed as its business income. Further, under section 44BBB(2), the assessee has the benefit of declaring before the Assessing Officer that the actual profits earned by it were less than 10% but the Revenue cannot take recourse of this sub-section to claim that the profits earned by the assessee were more than 10%.

35. Would expenditure incurred on feasibility study conducted for examining proposals for technological advancement relating to the existing business be classified as a revenue expenditure, where the project was abandoned without creating a new asset?

CIT vs. Priya Village Roadshows Ltd. (2011) 332 ITR 594 (Delhi)

In this case, the assessee, engaged in the business of running cinemas, incurred expenditure towards architect fee for examining the technical viability of the proposal for takeover of cinema theatre for conversion into a multiplex/ four-screen cinema complexes. The project was, however, dropped due to lack of financial and technical viability. The issue under consideration is whether such expenses can be treated as revenue in nature, since no new asset has been created.

On this issue, the High Court observed that, in such cases, whether or not a new business/asset comes into existence would become a relevant factor. If there is no creation of a new asset, then the expenditure incurred would be of revenue nature. In this case, since the feasibility studies were conducted by the assessee for the existing business with a common administration and common fund and the studies were abandoned without creating a new asset, the expenses were of revenue nature.

36. Is the assessee entitled to depreciation on value of goodwill considering it as "other business or commercial rights of similar nature" within the meaning of an intangible asset?

B. Raveendran Pillai vs. CIT (2011) 332 ITR 531 (Kerala)

Under section 32(1)(ii), depreciation is allowable on intangible assets, being know-how, patents, copyrights, trade marks, license, franchise, or any other business or commercial rights of similar

nature.

In this case, a hospital was run in the same building, in the same town, in the same name for several years prior to purchase by the assessee. By transferring the right to use the name of the hospital itself, the previous owner had transferred the goodwill to the assessee and the benefit derived by the assessee was retention of continued trust of the patients, who were patients of the previous owners. When goodwill paid was for ensuring retention and continued business in the hospital, it was for acquiring a business and commercial right and it was comparable with trade mark, franchise, copyright etc., referred to in the first part of clause (ii) of section 32(1) and so, goodwill was covered by the above provision of the Act entitling the assessee for depreciation.

37. Would the special provisions for computing profits under section 44BB be applicable to a non-resident carrying on business of seismic data acquisition and processing under contract with Indian concerns?

Global Geophysical Services Ltd., In re (2011) 332 ITR418 (AAR)

On an application made to the Authority of Advance Ruling by the non-resident on the above issue, the Authority observed that in an identical issue in *Geofityka Torun SP. Z.O.O.* (2010) 320 ITR 0268 (AAR), it was observed that without seismic data acquisition and interpretation, it is impractical to carry out the activity of prospecting of mineral oil and gas which is a step in aid to its exploration. The seismic data (in processed form) is used to create highly accurate images of the earth's sub-surface which in turn are used by the exploration and production companies for locating potential oil and gas reserves based upon the geology observed.

Accordingly, in this case, the AAR ruled that the said activities and services of the applicant clearly fell within the description of section 44BB and the income derived by the applicant under the contracts with Indian concerns, namely ONGC and Cairn Energy, for seismic data acquisition and processing were to be computed under the provisions of section 44BB.

38. Can EPABX and mobile phones be treated as computers to be entitled to higher depreciation at 60%?

Federal Bank Ltd. vs. ACIT (2011) 332 ITR319 (Kerala)

On this issue, the High Court held that the rate of depreciation of 60% is available to computers and there is no ground to treat the communication equipment as computers. Hence, EPABX and mobile phones are not computers and therefore, are not entitled to higher depreciation at 60%.

39. Can the waiver of principal amount of loan taken for purchase of capital asset by the bank be treated as "benefit arising out of business" or a remission of trading liability" for taxability as business income of the company?

Iskraemeco Regent Ltd. vs. CIT (2011) 331 ITR 317 (Mad.)

The assessee company, engaged in the business of development, manufacturing and marketing of electro-mechanical and static energy meters, took a bank loan for purchase of capital assets. The grant of bank loan for purchase of a capital asset is a capital receipt and not a trading receipt. The provisions of section 41(1) are attracted only in case of remission of a trading liability. Since the loan was taken for purchase of capital assets, waiver of a portion of principal would not amount to remission of a trading liability to attract the provisions of section 41(1). Further, such waiver cannot be treated as a benefit arising out of business and consequently, section 28(iv) will not apply in respect of such loan transaction.

40. Would the phrase "used for purpose of business" in respect of discarded machine include use of such asset in the earlier years for claim of depreciation under section 32?

CIT vs. Yamaha Motor India Pvt. Ltd. (2010) 328 ITR 297 (Delhi)

The issue under consideration in this case is whether depreciation is allowable on the written down

value of the entire block, even though the block includes some machinery which has already been discarded and hence, cannot be put to use during the relevant previous year.

On the above issue, it was observed that the expression "used for the purposes of the business" in section 32 when used with respect to discarded machinery would mean the use in the business, not in the relevant financial year/previous year, but in the earlier financial years. The discarded machinery may not be actually used in the relevant previous year but depreciation can be claimed as long as it was used for the purposes of business in the earlier years provided the block continues to exist in the relevant previous year. So, the condition for claiming depreciation in respect of the discarded machine would be satisfied if it is used in the earlier previous years for the business.

- 41. Can expenditure incurred by a company on higher studies of the director's son abroad be claimed as business expenditure under section 37 on the contention that he was appointed as a trainee in the company under "apprentice training scheme", where there was no proof of existence of such scheme?**

Echjay Forgings Ltd. vs. ACIT (2010) 328 ITR 286 (Bom.)

On this issue, it was observed that there was no evidence on record to show that any other person at any point of time was appointed as trainee or sent abroad for higher education. Further, the appointment letter to the director's son, neither had any reference number nor was it backed by any previous application by him. The appointment letter referred to "apprentice training scheme" with the company in respect of which no details were produced. There was no evidence that he was recruited as trainee by some open competitive exam or regular selection process. Hence, there was no nexus between the education expenditure incurred abroad for the director's son and the business of the assessee company. Therefore, the aforesaid expenditure was not deductible.

- 42. Can the expenditure incurred for purchase of second hand medical equipment for use as spare parts for existing equipment be claimed as revenue expenditure?**

Dr. Aswath N. Rao vs. ACIT (2010) 326 ITR 188 (Karn)

Relevant section: 37(1)

The assessee, a cardiologist, following cash system of accounting claimed deduction of expenditure incurred for purchase of second hand medical equipment from USA on 31st March of the relevant previous year. However, the said equipment reached India only in August (i.e., the next previous year). The second-hand machinery was purchased for the purpose of dismantling the same and using its parts as spare parts to the existing machinery.

The assessee contended that as the existing machines were old, they went out of order quite often, and spare parts were not readily available in India. Therefore, as and when he visited USA on professional work, he purchased second hand machinery which he brought to India and used the spare parts after dismantling the machinery. Therefore, he claimed deduction of expenditure incurred for purchase of such machinery.

The Department rejected the claim of the assessee on the ground that such expenditure was a capital expenditure. Further, since the machines had reached India only in the next year, any claim for deduction could be considered only in the next year.

On these issues, the High Court held that since the second hand machinery purchased by the assessee is for use as spare parts for the existing old machinery, the same had to be allowed as revenue expenditure. Since the entire sale consideration was paid on 31st March of the relevant previous year and the machinery was also dispatched by the vendor from USA, the sale transaction was complete on that date. The title to the goods had passed on to him on that date and he became the owner of the machinery even though the goods reached India only in August next year. Therefore, the assessee was eligible to claim deduction of expenditure in the relevant previous year ended 31st March.

43. Can the amount incurred by the assessee for replacing the old mono sound system in its cinema theatre with a new Dolby stereo system be treated as revenue expenditure?

CIT vs. Sagar Talkies (2010) 325 ITR133 (Karn.)

On this issue, the High Court observed held that the assessee had provided certain amenities to its customers by replacing the old system with a better sound system and by introducing such system, the assessee had not increased its income in any way. The assessee installed dolby stereo system instead of repairing the existing old stereo system. This had not benefited the assessee in any way with regard to the total income since there was no change in the seating capacity of the theatre or increase in the tariff rate of the ticket. In such a case, the expenditure on such change of sound system could not be considered capital in nature.

44. Can payment to police personnel and gundas to keep away from the cinema theatres run by the assessee be allowed as deduction?

CIT vs. Neelavathi & Others (2010) 322ITR 643 (Karn) Relevant section: 37(1)

The assessee running cinema theatres claimed deduction of the sum paid to the local police and local gundas towards maintenance of the theatre. The same was disallowed by the Assessing Officer.

On this issue, the High Court observed that if any payment is made towards the security of the business of the assessee, such amount is allowable as deduction, as the amount is spent for maintenance of peace and law and order in the business premises of the assessee i.e., cinema theatres in this case. However, the amount claimed by the assessee, in the instant case, was towards payment made to the police and gundas. Any payment made to the police illegally amounts to bribe and such illegal gratification cannot be considered as an allowable deduction. Similarly, any payment to a gunda as a precautionary measure so that he shall not cause any disturbance in the theatre run by the assessee is an illegal payment for which no deduction is allowable under the Act.

If the assessee had incurred expenditure for the purpose of security, the same would have been allowed as deduction. However, in the instant case, since the payment had been made to the police and gundas to keep them away from the business premises such a payment is illegal and hence, not allowable as deduction.

45. Can expenditure incurred on alteration of a dam to ensure adequate supply of water for the smelter plant owned by the assessee be allowed as revenue expenditure?

CIT vs. Hindustan Zinc Ltd. (2010) 322 ITR 478 (Raj.) Relevant section: 37(1)

The assessee company owned a super smelter plant which requires large quantity of water for its day-to-day operation, in the absence of which it would not be able to function. The assessee, therefore, incurred expenditure for alteration of the dam (constructed by the State Government) to ensure sharing of the water with the State Government without having any right or ownership in the dam or water. The assessee's share of water is also determined by the State Government. The assessee claimed the expenditure as deduction under section 37, which was disallowed by the Assessing Officer on the ground that it was of capital nature. The Tribunal, however, was of the view that since the object and effect of the expenditure incurred by the assessee is to facilitate its trade operation and enable the management to conduct business more efficiently and profitably, the expenditure is revenue in nature and hence, allowable as deduction.

The High Court observed that the expenditure incurred by the assessee for commercial expediency relates to carrying on of business. The expenditure is of such nature which a prudent businessman may incur for the purpose of his business. The operational expenses incurred by the assessee solely intended for the furtherance of the enterprise can by no means be treated as expenditure of capital nature.

46. Is the amount paid by a construction company as regularization fee for violating building bye-laws allowable as deduction?

Millennia Developers (P) Ltd. vs. DCIT (2010) 322 ITR 401 (Karn.)

Relevant section: 37(1)

The assessee, a private limited company carrying on business activity as a developer and builder, claimed the amount paid by way of regularization fee for the deviations made while constructing a structure and for violating the plan sanctioned in terms of the building bye-laws, approved by the municipal authorities as per the provisions of the Karnataka Municipal Corporations Act, 1976. The assessee's claim was disallowed by the Assessing Officer and the disallowance was confirmed by the Tribunal.

The High Court observed that as per the provisions of the Karnataka Municipal Corporations Act, 1976, the amount paid to compound an offence is obviously a penalty and hence, does not qualify for deduction under section 37. Merely describing the payment as a compounding fee would not alter the character of the payment.

47. Would beneficial ownership of assets suffice for claim of depreciation on such assets?

CIT vs. Smt. A. Sivakami and Another (2010)) 322 ITR 64

Relevant section: 32(1)

The assessee, running a proprietary concern, claimed depreciation on three buses, even though she was not the registered owner of the same. However, in order to establish that she was the beneficial owner, she furnished documents relating to loans obtained for the purchase of buses, repayment of such loans out of collections from the buses, road tax and insurance paid by her. She had also obtained an undertaking from the persons who hold the legal title to the vehicles as well as the permits, for plying buses in the name of her proprietary concern. Further, in the income and expenditure account of the proprietary concern, the entire collections and expenditure (by way of diesel, driver's salary, spares, R.T.O. tax etc.) from the buses was shown. The buses in dispute were also shown as assets in the balance sheet of the proprietary concern.

The assessee claimed depreciation on these buses. The Assessing Officer rejected the claim of the assessee on the ground that the assessee was not the owner of the three buses and the basic condition under section 32(1) to claim depreciation is that the assessee should be the owner of the asset. The Assessing Officer was of the view that mere admission of the income cannot per se permit the assessee to claim depreciation.

The High Court observed that in the context of the Income-tax Act, 1961, having regard to the ground realities and further having regard to the object of the Act i.e., to tax the income, the owner is a person who is entitled to receive income from the property in his own right. The Supreme Court, in CIT vs. Podar Cement P Ltd. (1997) 226 ITR 625, observed that the owner need not necessarily be the lawful owner entitled to pass on the title of the property to another. Since, in this case, the assessee has made available all the documents relating to the business and also established before the authorities that she is the beneficial owner, she is entitled to claim depreciation even though she is not the legal owner of the buses.

48. Is the expenditure incurred on payment of retrenchment compensation and interest on money borrowed for payment of retrenchment compensation on closure of one of the textile manufacturing units of the assessee-company revenue in nature?

CIT vs. DCM Ltd. (2010) 320 ITR 307 (Delhi)

The assessee-company had four textile units, out of which one unit had to be closed down as it was located in a non-conforming area, while the other three units continued to carry on business. The company claimed deduction of retrenchment compensation paid to employees of the unit which had been closed down and interest on money borrowed for payment of retrenchment

compensation. The Revenue contended that the textile unit was a separate business maintaining separate books of account and engaging separate workers, and hence, with the closure of the unit, the assessee should not be allowed deduction of the aforementioned expenses.

The issue under consideration was whether closure of one textile mill unit would amount to closure of the business as contended by the Revenue. The Tribunal observed that there was no closure of business since the textile mill unit was only a part of the textile manufacturing operations, which continued even after closure of the textile mill unit, as the assessee-company continued in the business of manufacturing of textiles in the remaining three units. The assessee prepared a consolidated profit and loss account and balance sheet of all its manufacturing units taken together; the control and management of the assessee was centralized in the head office and also all important policy decisions were taken at the head office. Also, the head office provided funds required for various units and there were common marketing facilities for all the textile units.

The Tribunal applied the tests laid down by the Apex Court in CIT vs. Prithvi Insurance Co. (1967) 63 ITR 632 and arrived at the conclusion that there was interconnection, interlacing and unity of control and management, common decision making mechanism and use of common funds in respect of all the four units.

The High Court concurred with these findings of the Tribunal and accordingly, held that deduction was allowable in respect of expenditure on payment of retrenchment compensation and interest on money borrowed for payment of retrenchment compensation.

Note – In this case, the payment of compensation to workers on closure of a textile mill unit is treated as a revenue expenditure since after closure of the unit, the remaining business continued and there was inter-connection in the functioning of the different units. Therefore, it follows that if compensation is paid to workers on closure of the entire business, the same would be a capital expenditure.

49. Can an assessee manufacturing textile goods claim additional depreciation under section 32(1)(iia) on setting up of a windmill?

CIT vs. VTM Limited (2009) 319 ITR 336 (Mad.)

Relevant section: 32(1)(iia)

The assessee is a company engaged in the business of manufacture of textile goods. It claimed additional depreciation on the setting up of wind mills for generation of power. The Revenue contended that the setting up of a windmill for generation of power had absolutely no connection with the business of the company i.e. for the manufacture of textile goods, and, therefore, the company was not entitled to claim the additional depreciation under section 32(1)(iia).

The High Court held that in order to claim the benefit of section 32(1)(iia), what is required to be satisfied is that the new machinery or plant should have been acquired and installed after March 31, 2002 (March, 31, 2005, as per the amended provisions), by an assessee, who was already engaged in the business of manufacture or production of any article or thing. The provision does not state that the setting up of a new machinery or plant should have any operational connectivity to the article or thing that is already being manufactured by the assessee. Hence, it was held that the assessee is entitled to additional depreciation on setting up of a wind mill.

50. Are expenses incurred on purchase of software components in the nature of capital expenditure or revenue expenditure?

CIT vs. Sundaram Clayton Ltd. (2010) 321 ITR 69 (Mad.)

Relevant section: 37(1)

The Delhi High Court observed that this issue is covered by its decision in the case of CIT vs. Southern Roadways Ltd. (2007) 288 ITR 15. In that case, it was held that the up-gradation of computers by

changing certain parts thereby enhancing the configuration of the computers for improving their efficiency, but without making any structural alterations is not a change of an enduring nature.

Therefore, applying the ratio of the above decision in this case, the Madras High Court held that the expenditure incurred on purchase of software components has to be treated as a revenue expenditure.

51. Is admission fee paid by a company towards corporate membership of a club allowable as a revenue expenditure?

CIT vs. Samtel Color Ltd. (2010) 326 ITR 425 (Delhi)

Relevant section: 37(1)

The issue in this case relates to the admissibility of corporate membership fee paid to a club (viz., Indian Habitat Centre and Sports and Cultural Club).

The Assessing Officer disallowed the same on the ground that the expenditure resulted in benefit of an enduring nature hence, was on capital account.

The Commissioner (Appeals) opined that though the membership of the club provided the assessee a benefit which fulfills the business purpose test, it also resulted in benefits to directors and executives in their personal capacity. Accordingly, it directed the Assessing Officer to disallow 20% of the expenditure and allow the balance amount as revenue expenditure on the ground that the entire expenditure was not incurred for business purposes.

The Tribunal, however, observed that corporate membership itself was meant for the benefit of the company and not for any particular employee as it was the company which had a right to nominate and substitute an employee at any point of time. It further observed that since membership allowed the employees to interact with its customers, the expenses were for business purposes and, therefore, there was no reason to disallow the expenditure either wholly or in part.

The High Court upheld the decision of the Tribunal observing that the expenditure incurred towards admission fee for corporate membership was for the benefit of the company. The "business purpose" basis adopted for eligibility of expenditure under section 37 was the right approach and this was further strengthened by the Tribunal's findings that it was the assessee company which nominated the employees who would be eligible to avail the benefit of the corporate membership. The High Court further observed that an expenditure which gives enduring benefit is by itself not conclusive as regards the nature of the expenditure. The true test for qualification of expenditure under section 37 is that it should be incurred wholly and exclusively for the purposes of business and the expenditure should not be towards capital account. In the instant case, the admission fee paid towards corporate membership is an expenditure incurred wholly and exclusively for the purposes of business and not towards capital account as it only facilitates smooth and efficient running of a business enterprise and does not add to the profit-earning apparatus of the business enterprise.

52. Can the expenditure incurred by the assessee on techno-economic feasibility report for the manufacture of a new product be eligible for deduction under section 35D?

CIT vs. Tamil Nadu Road Development Co. Ltd. (2009) 316 ITR 380 (Mad.)

Relevant section: 35D

The assessee-company engaged in the business of implementation of the industrial policy and creation of infrastructure facilities in the State of Tamil Nadu on a commercial framework claimed deduction in respect of the expenditure incurred on account of techno-economic feasibility report for the manufacture of new products. The Assessing Officer disallowed the deduction treating it as a capital expenditure. The Commissioner (Appeals) allowed the assessee's claim on the finding that the expenses incurred were covered under section 35D of the Income-tax Act, 1961, as the expenses were incurred to find out new ideas by conducting test studies and pilot studies for improving the existing business and, therefore, could not be treated as capital expenditure. This was confirmed by the Tribunal and the High Court.

- 53. Is the expenditure incurred by the assessee towards commitment charges for issuing debentures deductible as business expenditure, where the borrowing is for the purposes of meeting the working capital needs of the existing business?**

CIT vs. Mihir Textiles Ltd. (2009) 316 ITR 403 (Guj.)

Relevant section: 36(1)

On this issue, the High Court observed that money borrowed by issue of debentures is in the nature of a loan and cannot assume the characteristic of investment. Therefore, the expenditure in the nature of commitment charges at the time of issuing such debentures would be on revenue account only. Hence, the commitment charges were allowable as deduction under section 36(1).

Note - In this case, the Gujarat High Court has followed the decision of the Supreme Court in Deputy CIT vs. Core Health Care Ltd. [2008] 298 ITR 194.

- 54. Can the reimbursement of expenses towards customs duty be included for computing profits under section 44BB?**

Director of Income Tax (International Taxation) vs. Schlumberger Asia Services Ltd. (2009) 317 ITR 156 (Uttarakhand)

Relevant section: 44BB

In this case, the Assessing Officer noticed that the assessee, a non-resident company, had not offered for tax under section 44BB, the reimbursement of expenses, which include customs duty also. The Assessing Officer brought to tax these sums. The Commissioner (Appeals) partly allowed the appeal holding that the customs duty paid in importing the equipment for rendering services does not form part of the amount taxable under section 44BB. It was observed that for import of machinery or equipment, liability to pay the customs duty was on ONGC, who had hired the services of the assessee company in contract and there could not be any element of profit in reimbursement of the customs duty paid by the assessee.

The High Court held that reimbursement of expenses towards the customs duty paid by the assessee, being statutory in nature, could not form part of amount for the purposes of deemed profits, unlike the other amounts received towards reimbursement. Therefore, same would not form part of the amount taxable under section 44BB.

- 55. Where the hotel industry was established based on subsidy announced by the State Government, can such subsidy received be treated as a revenue receipt solely due to the reason that the same is received by the assessee after completion of the hotel projects and commencement of the business?**

CIT vs. Udupi Builders P. Ltd. (2009) 319 ITR 440 (Kar.)

The assessee-company treated the amount of subsidy received from the State Government, as a capital investment. The subsidy was granted by the State Government to encourage the hotel industry. The Assessing Officer opined that the same was a revenue receipt. The Commissioner (Appeals) held that the subsidy had been granted to the assessee by the State Government as per the package of incentives and concessions and that it was towards investment and not a revenue receipt. The Tribunal confirmed the order passed by the Commissioner (Appeals).

The Revenue filed an appeal to the High Court contending that since the subsidy is received by the assessee after completion of the hotel project and commencing of the business, such receipt has to be taken as a revenue receipt and not a capital investment.

The High Court held that the hotel industry was established based on the subsidy announced by the State Government to encourage tourism and the State Government was in the habit of releasing the subsidy amount depending upon the budgetary allocation in each year. In several cases, the State Government had released the subsidy amount even after ten years of the commencement

of the project. Therefore, the subsidy received has to be treated as a capital receipt and would not be liable to tax.

56. In a case where the partnership deed does not specify the remuneration payable to each individual working partner but lays down the manner of fixing the remuneration, would the assessee-firm be entitled to deduction in respect of remuneration paid to partners?

CIT vs. Anil Hardware Store (2010) 323 ITR 0368 (HP) Relevant section: 40(b)(v)

The partnership deed of the assessee firm provided that in case the book profits of the firm are up to ₹ 75,000, then the partners would be entitled to remuneration up to ₹ 50,000 or 90 per cent of the book profits, whichever is more. In respect of the next ₹ 75,000, it is 60 per cent and for the balance book profits, it is 40 per cent. Thereafter, it is further clarified that the book profits shall be computed as defined in section 40(b) of the Income-tax Act, 1961, or any other provision of law as may be applicable for the assessment of the partnership firm. It has also been clarified that in case there is any loss in a particular year, the partners shall not be entitled to any remuneration. Clause 7 of the partnership deed laid down that the remuneration payable to the partners should be credited to the respective accounts at the time of closing the accounting year and clause 5 stated that the partners shall be entitled to equal remuneration.

The High Court held that the manner of fixing the remuneration of the partners has been specified in the partnership deed. In a given year, the partners may decide to invest certain amounts of the profits into other venture and receive less remuneration than that which is permissible under the partnership deed, but there is nothing which debars them from claiming the maximum amount of remuneration payable in terms of the partnership deed. The method of remuneration having been laid down, the assessee-firm is entitled to deduct the remuneration paid to the partners under section 40(b)(v) of the Income-tax Act.

Note –

(1) Payment of remuneration to working partners is allowed as deduction if it is authorized by the partnership deed and is subject to the overall ceiling limits specified in section 40(b)(v). The limits for partners' remuneration under section 40(b)(v) has revised upwards and the differential limits for partners' remuneration paid by professional firms and non-professional firms have been removed. On the first ₹ 3 lakh of book profit or incase of loss, the limit would be the higher of ₹ 1,50,000 or 90% of book profit and on the balance of book profit, the limit would be 60%.

(2) The CBDT had, vide Circular No. 739 dated 25-3-1996, clarified that no deduction under section 40(b)(v) will be admissible unless the partnership deed either specifies the amount of remuneration payable to each individual working partner or lays down the manner of quantifying such remuneration.

In this case, since the partnership deed lays down the manner of quantifying such remuneration, the same would be allowed as deduction subject to the limits specified in section 40(b)(v).

57. Can freight subsidy arising out of the scheme of Central Government be treated as a “profit derived from the business” for the purposes of section 80-IA?

CIT vs. Kiran Enterprises (2010) 327 ITR 520 (HP)

Section 80-IA provides for deduction in respect of profits and gains derived from eligible business. In this case, the Central Government had framed a scheme whereby freight/transport subsidy was provided to industries set up in remote areas where rail facilities were not available and some percentage of the transport expenses incurred to transport raw material/finished goods to or from the factory was subsidized.

The issue under consideration is whether such freight subsidy arising out of the scheme of Central Government can be treated as a “profit derived from the business” for the purposes of section 80-IA.

On appeal, the High Court held that the transport subsidy received by the assessee was not a profit derived from business since it was not an operational profit. The source was not the business of the assessee but the scheme of Central Government. The words “derived from” are narrower in connotation as compared to the words “attributable to”. Therefore, the freight subsidy cannot be treated as profits derived from the business for the purposes of section 80-IA.

58. Can the assessee treat shares held in subsidiary company, which is ordered to be wound up, as trading loss?

CIT vs. H. P. Mineral and Industrial Development Corporation Ltd. (2008) 305 ITR 111 (HP)

Relevant Section: 28

One of the assessee's subsidiary companies was ordered to be wound up and the assessee decided to write off the value of the shares held by it in the subsidiary company. The lower authorities decided in favour of the assessee holding that there was no question of selling off the shares as the subsidiary company had gone into liquidation.

The High Court held that once a company had been ordered to be wound up, there was no question of any party dealing in the shares of that company. The Tribunal had come to a finding that the shares were stock-in-trade and had therefore allowed the loss. The loss had to be treated as a trading loss. The mere fact that the shares were not sold was of no significance since in fact the shares could not have been sold and had become worthless.

59. Whether the amount transferred to the reserve fund account as per the provisions of section 67 of the Gujarat Co-operative Societies Act, 1962, was diversion of income at source by overriding title or could such transfer be treated as business expenditure deductible either under section 28 or section 37?

CIT vs. Mehsana District Co-op. Milk Producers' Union Ltd. (2008) 307 ITR 83 (Guj.)

Relevant Section: 28

The assessee contended that under sub-section (2) of section 67 of the Gujarat Co-operative Societies Act, 1962, at least one-fourth of the net profits of the society were required to be carried to the reserve fund every year, and hence there was a diversion at source by virtue of the provisions of section 67 which operates as an overriding title. Hence, it was submitted that the amount transferred to the reserve fund could not be charged as income liable to tax under the Act. Alternatively, it was pleaded that the amount of profits transferred to the reserve fund would constitute a charge on the taxable income under the provisions of section 28 of the Income-tax Act, 1961, or an expenditure having the characteristics of business expenditure under section 37. The Assessing Officer rejected the contention and this was upheld by the Tribunal.

The High Court held that it was only in the event the society did not choose to use the reserve fund for the business of the society that the question about investing the reserve fund in the specified category of investments and thereafter utilizing the same for the objects specified by the State Government could arise. Hence, not only was there no diversion of income by overriding title but in fact there was no outgoing of funds from the domain of the assessee society. In fact, the profits at the specified percentage were set apart so as to be available to the society for use in the business of the society at a later point of time. Once the society was in a position to use the funds lying in the reserve fund for the business of the society as and when the society so chose, there could be no question of keeping out such profits from the purview of taxation. The Tribunal has right in law in holding that the amount transferred to the reserve fund account as per the provisions of section 67 of the Gujarat Co-operative Societies Act, 1962, was not diversion of income at source by overriding title nor could such transfer be treated as business expenditure deductible either under section 28 or section 37.

60. Whether the amount received by the assessee under a lease agreement is income from other sources or business income?

East West Hotels Ltd. vs. DCIT (2009) 309 ITR 149 (Kar.)

Relevant Section: 28

The assessee was engaged in the hotel business activities. The assessee by an agreement with IHC gave one of its hotels on lease for an initial period of 33 years with an option to renew for a further period of 33 years. The assessee claimed that the amount received from IHC had to be treated as its business income. The claim was rejected by the Assessing Officer on the ground that the assessee was not getting any business income as the hotel had been leased out by the assessee to IHC and any amount received by the assessee from such company had to be treated as income from other sources and not business income. The Commissioner (Appeals) as well as the Tribunal held that the income received by the assessee from such hotel building was income from other sources.

The High Court held that the clauses in the agreement were more in the nature of a lease deed and not a licence given for a particular period with no intention to resume its business of hotel in the premises. It could not be said that the assessee had been managing the hotel through IHC. Therefore, the amount received from IHC had to be treated as income from other sources and not as business income.

61. Whether the swapping premium is profit derived from the business of providing long-term finance in terms of section 36(1)(viii) of the Income-tax Act, 1961 ?

Rural Electrification Corporation Ltd., In re (2009) 308 ITR 321 (AAR) Relevant Section: 36(1)(viii)

The main object of the applicant, a public sector undertaking, was to provide long-term finance, primarily to State Electricity Boards, for the purpose of transmission, distribution and generation of electricity to enable industrial, agricultural and infrastructure development. The applicant was filing income-tax returns right from the beginning and the Department had all along, in the past, allowed deduction under section 36(1)(viii) of the Income-tax Act, 1961, in respect of the special reserve created and maintained for providing long-term finance for industrial or agricultural development or development of infrastructure. For the assessment year 2004-05, the applicant credited ₹ 170.85 crores as "swapping premium" received and claimed deduction thereon under section 36(1)(viii). "Swapping premium" was a scheme under which long-term finance given at a higher percentage of interest was converted to a lower rate of interest. The applicant itself had declared the swapping premium receipt in its balance-sheet as "Other income" and not income from lending operations. The Assessing Officer held that the applicant forfeited the claim for allowance of deduction under section 36(1)(viii) in respect of the "swapping premium". The Commissioner (Appeals) agreed with the Assessing Officer. The applicant appealed to the Appellate Tribunal but withdrew the appeal. Meanwhile, the applicant obtained permission of the Committee on Disputes to pursue the matter before the Authority. The Authority ruled:

- (i) That the applicant was an eligible entity, i.e., a financial corporation as laid down in section 36(1)(viii).
- (ii) That the applicant was engaged in the business of providing long-term finance to its clients for rural electrification which paved the way for industrial, agricultural and infrastructural development. The availability of electricity contributed significantly to the overall development of the country including that of industry, agriculture and infrastructure. The provision of electricity was essential for modernization and growth of agriculture and also catered to the requirements of industry including small and medium industries, agro-industries, Khadi and village industries, etc. The applicant had been providing finance for industrial and agricultural development and, keeping in view these very goals, the Government of India had granted approval to the applicant for deduction under section 36(1)(viii). The applicant could be said to be engaged in providing long-term finance for industrial and agricultural development in India.

- (iii) That the long-term loan financed by the applicant to its clients in the beginning had not been tampered with on rescheduling of the interest and no fresh loan agreements had also been drawn.
- (iv) That clause (e) of the Explanation to section 36(1)(viii) defined long-term finance as “any loan or advance where the terms under which moneys are loaned or advanced provide for repayment along with interest thereon during a period of not less than five years”. In this case, the loans had been advanced in the beginning for five years and those loan amounts had not undergone any change, so the period of five years had to be counted from the date of advancing the initial loans and not from the date of rescheduling the interest rates.
- (v) That the “swapping premium” was nothing but discounted interest and had “originated” in the long-term finance initially advanced. The premium was actually traced to the original source and was not a step removed from the business of providing long-term finance. No fresh agreement had been entered into for advancing long-term financing and the one-time measure for rescheduling the interest had been actuated by business expediency. The swapping premium was simply a compensation received for agreeing to a lesser amount as against a higher fixed rate of interest initially fixed. The business of providing long-term finance was the immediate and effective source of the swapping premium received.
- (vi) That the swapping premium could not be termed as compensation for breach of contract because neither party had breached the contract. The disclosure of the swapping premium in the balance-sheet as “Other income” instead of business income was also immaterial since entries in the books of account are not determinative of the true character of a receipt.
- (vii) That, therefore, the applicant was entitled to deduction under section 36(1)(viii) in respect of the swapping premium received.

62. Whether the payments made by the assessee to its employees under the nomenclature ‘Good work reward’ constitute bonus within the meaning of section 36(1)(ii) of the Income-tax Act, 1961 or were allowable as normal business expenditure under section 37 ?

Shriram Pistons and Rings Ltd. vs. CIT (2008) 307 ITR 363 (Del.)

Relevant Section: 37

The “good work reward” that was given by the assessee to some employees on the recommendation of senior officers of the assessee did not fall in any of the categories of bonus specified under the industrial law. There was nothing to suggest that the good work reward given by the assessee to its employees had any relation to the profits that the assessee may or may not make. The reward had relation to the good work done by the employee during the course of his employment and at the end of the financial year on the recommendation of a senior officer of the assessee, the reward was given to the employee. Consequently, the “good work reward” could not fall within the ambit of section 36(1)(ii) of the Income-tax Act, 1961. The “good work” reward was allowable as business expenditure under section 37(1) of the Act.

63. Whether the Tribunal was justified in deleting the addition of an amount represented rate difference payment in the purchase of milk paid by the assessee even though the said payment was paid at the end of the previous year?

CIT vs. Solapur Dist. Co-Op. Milk Producers and Process Union Ltd. (2009) 315 ITR 304 (Bom.)

Relevant Section: 37

The assessee-societies were federal milk societies and their members were primary milk co-operative societies. The business of the assessee was to purchase milk from its members and other producers of milk at the rate, i.e., similar to both the members and outside milk producers and sell the milk to various parties. The rate of purchase price was fixed by the board of the assessee-societies. The purchase price was linked to the fat content of milk and also varied according to seasons. For

instance, the rate for purchase of milk in the lean season was different from the flush seasons. The assessee-societies fixed the rate of processing of milk at the beginning of the year on the basis of the price declared by the Government of Maharashtra and the price which other buyers paid to the vendors. These rates were revised from time to time. It was made always clear that the rates were provisional and the final milk rate difference was determined in the month of March every year and the difference was paid subsequently in the following year. The primary milk society also in turn made payment of the final rate difference to the individual milk producers around Diwali. The assessee claimed deduction of the final rate difference. The Assessing Officer refused to exclude the final rate difference paid from the total amount paid by the assessee. The Commissioner (Appeals) upheld the order. The Tribunal allowed the appeal and allowed deductions of the final rate.

The High Court held that the amount to be paid was not out of the profits ascertained at the annual general meeting. It was not paid to all shareholders. The amount which was the subject-matter was paid to members who supplied milk and in some case also to non-members. The payment was for the quantity of milk supplied and in terms of the quality supplied. The commercial expediency for payment of this price was the market conditions and the need to procure more milk from the members and non-members to the assessee. Therefore, the amount paid could not be said to be dividend to the members or shareholders or payment in the form of bonus as bonus also had to be paid from the accrued profits. It was deductible.

64. Whether the expenses incurred by the assessee for promotion films, slides, advertisement films is capital expenditure?

CIT vs. Geoffrey Manners and Co. Ltd. (2009) 315 ITR 134 (Bom.)

Relevant Section: 37

The assessee incurred expenditure on film production by way of advertisement for the marketing of products manufactured by it. The Assessing Officer disallowed the expenses incurred by the assessee for promotion films, slides, advertisement films and treated it as capital expenditure. The Commissioner (Appeals) held that the films were in the form of advertisement whose life term could not be ascertained. Therefore, they could not be held as capital expenditure. The Tribunal upheld the order of the Commissioner (Appeals).

The High Court held that if the expenditure is in respect of an ongoing business of the assessee and there is no enduring benefit it can be treated as revenue expenditure. If the expenditure is in respect of business which is yet to commence then it cannot be treated as revenue expenditure since the expenditure is on a product yet to be marketed. Hence, the expenditure incurred in respect of promoting ongoing products of the assessee was revenue expenditure.

65. Whether the expenditure incurred by the assessee in the machinery repairs could be treated as revenue expenditure though this related to the cost of motors and other items resulting in an enduring benefit to the assessee and was in the nature of capital expenditure?

CIT vs. Hero Cycles P. Ltd (2009) 311 ITR 349 (P&H)

Relevant Section: 37

The assessee claimed expenditure of ₹ 73,180 on purchase of motors and certain other items of machinery. The Assessing Officer rejected the claim for treating the amount as revenue expenditure on the ground that the items purchased by the amount were not spare parts but independent items and the amount had, thus, to be treated as capital expenditure. On appeal, the plea of the assessee that most of the items purchased were electric motors for replacement of existing machinery, was upheld. The Tribunal affirmed the order and held that occasional replacements were necessary having regard to the machinery installed.

The High court held that the Tribunal was right in law in allowing expenditure of ₹ 73,180 shown by the assessee in the machinery repairs account as revenue expenditure.

66. Whether the fine paid for belated payment of excise duty is a allowable business expenditure?

CIT vs. Hoshiari Lal Kewal Krishan (2009) 311 ITR 336 (P&H) Relevant Section: 37

The assessee claimed deduction of ₹ 31,433 paid as fine for belated payment of the excise duty instalment. This was disallowed by the Assessing Officer as well as the appellate authority but the Tribunal allowed it.

The Supreme Court in *Prakash Cotton Mills P. Ltd. vs. CIT* [1993] 201 ITR 684, observed that whenever any statutory impost paid by an assessee by way of damages or penalty or interest is claimed as an allowable expenditure under section 37(1) of the Income-tax Act, the assessing authority is required to examine the scheme of the provisions of the relevant statute providing for payment of such impost notwithstanding the nomenclature of the impost as given by the statute, to find whether it is compensatory or penal in nature. The authority has to allow deduction under section 37(1) of the Income-tax Act, wherever such examination reveals the concerned impost to be purely compensatory in nature.

Hence, in the present case, the High Court held that it had been clearly found that though termed as fine, the payment was not in the nature of punishment but was by way of compensation. The payment was deductible.

67. Whether section 40(b) of the Income-tax Act, 1961, is applicable to the amount of salary and bonus paid by the assessee-firm to its partners for their individual service as against their Hindu undivided family character?

CIT vs. Unimax Laboratories (2009) 311 ITR 191 (P&H) Relevant Section: 40(b)

The Assessing Officer made an addition under section 40(b) of the Income-tax Act, 1961, on account of salary and bonus paid by the assessee-firm to its four working partners. Those partners were partners in their representative capacity as karta of their Hindu undivided families. Since these partners represented their respective Hindu undivided families, they were treated to be partners for the purpose of disallowance of benefits under section 40(b) of the Act by the Assessing Officer. However, on appeal the addition was deleted on the ground that the salary and bonus were paid to these persons as individuals and in these circumstances section 40(b) of the Act had no application.

The High Court held that the Tribunal was right in allowing the amount of salary and bonus paid by the firm to partners for services rendered by them on the ground of having technical qualification and expertise, though they represented their Hindu undivided families and section 40(b) of the Act was not attracted.

68. Whether the amount written back by the assessee to the credit of its profit and loss account during the accounting period under consideration constituted income of the assessee-company under section 41(1) of the Income-tax Act 1961?

Jay Engineering Works Ltd. vs. CIT (2009) 311 ITR 299 (Del.) Relevant Section: 41(1)

The assessee had written back in its accounts unclaimed balances totalling ₹ 1,16,240. The Inspecting Assistant Commissioner added back this amount to the income of the assessee. This was upheld by the Commissioner (Appeals) as well the Tribunal.

The High Court held that the amounts were not statutory liabilities but contractual liabilities. These amounts were unilaterally written off by the assessee. Therefore, the unclaimed liability written off by the assessee was taxable as income.

69. Whether the amount transferred to profit and loss account in case of waiver of loan taken by assessee for business purposes assessable as business income under section 41(1) of the Income-tax Act, 1961?

Solid Containers Ltd. vs. DCIT (2009) 308 ITR 417 (Bom.)

Relevant Section: 41(1)

The assessee had taken a loan for business purposes which was written back and directly credited to the reserves account, as a result of consent terms arrived at in a suit. The assessee claimed this amount as capital receipt, even though it had offered the interest on the said loan as its income by crediting the same to its profit and loss account. The Assessing Officer added the amount to the total income of the assessee as its income and this was upheld by the Tribunal.

The High Court held that it was a loan taken for trading activity and ultimately, upon waiver the amount was retained in the business by the assessee. The amount had become the assessee's income and was assessable.

70. Is depreciation under section 32 allowable in respect of emergency spares of plant and machinery, which though acquired during the previous year, have not been put to use in that year?

CIT vs. Insilco Ltd. (2009) 179 Taxman 55 (Del.) Relevant Section: 32

On this issue, the Delhi High Court observed that the expression "used for the purposes of business" appearing in section 32 also takes into account emergency spares, which, even though ready for use, yet are not consumed or used during the relevant period. This is because these spares are specific to a fixed asset, namely plant and machinery, and form an integral part of the fixed asset. These spares will, in all probability, be useless once the asset is discarded and will also have to be disposed of. In this sense, the concept of passive use which applies to standby machinery will also apply to emergency spares. Therefore, once the spares are considered as emergency spares required for plant and machinery, the assessee would be entitled to capitalize the entire cost of such spares and claim depreciation thereon.

Note – One of the conditions for claim of depreciation is that the asset must be "used for the purpose of business or profession". In the past, courts have held that, in certain circumstances, an asset can be said to be in use even when it is "kept ready for use". For example, depreciation can be claimed by a transport company on spare engines kept in store in case of need, though they have not actually been used by the company. Hence, in such cases, the term "use" embraces both active use and passive use. However, such passive use should also be for business purposes.

71. What is the tax treatment of pre-payment premium paid by the assessee-company to IDBI for restructuring its debt?

CIT vs. Gujarat Guardian Ltd. (2009) 177 Taxman 434 (Del.) Relevant Section: 43B

The assessee-company paid pre-payment premium to IDBI during the relevant previous year for restructuring its debts and reducing the rate of interest. It claimed the full payment as business expenditure in that year on the reasoning that it was an upfront payment representing the present value of the differential rate of interest that would have been due on the loan if the restructuring of loan had not taken place. The Assessing Officer and Commissioner (Appeals) were of the view that the premium has to be amortised over 10 years, and accordingly allowed only 1/10th of the premium as deduction for the relevant previous year. The Tribunal, however, concurred with the assessee's view and held that in terms of section 36(1)(iii) read with section 2(28A), the deduction for pre-payment premium was allowable.

The issue under consideration is whether the deduction has to be allowed in one lump-sum as claimed by the assessee or should the same be deferred over a period of time as opined by the Assessing Officer and Commissioner (Appeals).

The Delhi High Court concurred with the Tribunal's view that the deduction has to be allowed to the assessee-company in one lump sum according to the provisions of section 43B(d). Section 43B(d) provides that any sum payable by the assessee as interest on any loan or borrowing from any public financial institution shall be allowed to the assessee in the year in which the same is paid, irrespective of the period or periods in which the liability to pay such sum is incurred by the

assessee according to the method of accounting regularly followed by the assessee. As there was no dispute that the pre-payment premium paid represented interest and that it was paid to a public financial institution i.e. IDBI, the Court held that, as per the provisions of section 43B(d), the assessee's claim for deduction has to be allowed in the year in which the actual payment was made i.e. the previous year relevant to the assessment year under consideration.

Note – Section 36(1)(iii) provides for deduction of interest paid in respect of capital borrowed for the purposes of business or profession. Section 2(28A) defines interest to include, inter alia, any other charge in respect of the moneys borrowed or debt incurred. Section 43B provides for certain deductions to be allowed only on actual payment. From a combined reading of these three sections, it can be inferred that –

- (i) pre-payment premium represents interest as per section 2(28A);
- (ii) such interest is deductible as business expenditure as per section 36(1)(iii);
- (iii) such interest is deductible in one lump-sum on actual payment as per section 43B(d).

72. Is disallowance under section 40(a)(i) for non deduction of tax at source attracted in respect of payment for purchase of software from a non-resident, by treating the same as royalty in case where the purchase is for subsequent resale in the Indian market?

CIT vs. Dynamic Vertical Software India P. Ltd. (2011) 332 ITR 0222 (Delhi)

In this case, the Delhi High Court held that since the assessee had purchased the software from Microsoft and subsequently sold the same in the Indian market, he had acted as a dealer and therefore the payment to the non-resident, Microsoft, can not be termed as royalty. Therefore, section 40(a)(i) would have no application in this case and the payment made to the non-resident cannot be disallowed under section 40(a)(i) on the ground that no tax was deducted at source.

E. CAPITAL GAINS

1. Whether action of Assessing Officer in not complying with directions of Tribunal was failure on his part, which was against basic principle of justice?

Steel Authority of India Ltd. v. ITO (2013) 142 ITD 547 (Delhi)(Trib.)

The assessee - company entered into an agreement for technical knowhow, etc. for supervisory services for erection, instalment and commission of steel plants with a Russian company 'T'. 'T' provided supervisory services in accordance with the agreement. The assessee made certain remittance to 'T'. The Assessing Officer held that remittance made by the assessee to 'T' was taxable in hands of 'T' in terms of provisions of section 44D, read with section 115A. He further determined rate of TDS at 30 per cent as against 20 per cent, which assessee itself had applied treating payment as FTS. On appeal, the Commissioner (Appeals) upheld the order of the Assessing Officer. The Tribunal, on second appeal filed by the assessee, remanded the matter back to the Assessing Officer to decide matter in light of decision of the Commissioner (Appeals) in the appellant's own case in three preceding assessment years. The Assessing Officer passed fresh assessment order in which he again determined rate of TDS at 30 per cent as done in original order. On appeal, the Commissioner (Appeals) upheld order of the Assessing Officer.

The Assessing Officer instead without complying with the said directions of the Tribunal has again determined the rate of TDS at 30 per cent as done in the original order. The Commissioner (Appeals) has upheld this action of the Assessing Officer on the basis that he in the assessment years 1995-96 to 1997-98 had not examined the issue of the taxability of business profit as per article 7 of the DTAA between India and Russia and consequently the application of the provisions of sections 44D and 115A and in those years he had passed the order following the order of the Tribunal in the case of one Electrim Warsaw, wherein the Tribunal had held the profit rate at 10 per cent. The

Commissioner (Appeals) accordingly observed in his order that the Assessing Officer may consider this case while determining profit of 'T' in view of its business necessities. The Bench does not concur with this approach of the Commissioner (Appeals), because before him the first and foremost issue to decide was as to whether the Assessing Officer was justified in not following the directions of the Tribunal.

The Assessing Officer and the Commissioner (Appeals) may be justified in saying that different view taken by them was more appropriate in the interest of revenue, but one has to keep in mind that the earlier order dated 30-9-2008 of the Tribunal was passed after affording opportunity of being heard to the parties and if the department was aggrieved with the said order of the Tribunal the remedy was available with the department to prefer an appeal before the High Court. Therefore, the action of the Assessing Officer in not complying with the directions of the Tribunal is failure on his part, which is against the basic principle of justice and is thus highly condemnable. Hence, the Assessing Officer was to be directed give compliance of the said order of the Tribunal.

2. **Whether amount received on transfer of additional floor space index ["FSI"] was not chargeable to tax in its hands-"principle of mutuality" applied in this case between the society and its members and therefore, the sum could not be taxed as dividend in the hands of the assessee.**

Dy. CIT v. IGE India Ltd. (2013) 22 ITR 462 (Chennai)(Trib.)

In the year 1984, the assessee purchased a residential flat in a co-operative society. Under the Development Control Regulations, 1991, the society became entitled to the right to allow the usage of additional floor space index ["FSI"] of an area equivalent to the existing FSI, which was available for development. The society decided to demolish the existing building and construct two new buildings on the property by utilizing the FSI. For this purposes, development of the building was undertaken and the transferable development rights ["TDRs"] were sold to the builder for a consideration of ₹ 8.35 crores towards collective share of the 24 occupants of the flats. In this amount, the assessee's share was ₹33,23,522/- out of which ₹16,61,761/- was receivable at the time of execution of the agreement. In its books, the assessee recognized the entire amount as income following the mercantile system of accounting, but in the return of income, the assessee claimed that cost on transfer of additional FSI was not chargeable to tax in its hands. The Assessing Officer held that the net amount was chargeable to capital gains under section 50 of the Act. Alternatively, the Assessing Officer held that the amount was taxable as dividend received by the assessee from the co-operative housing society. The CIT(A) overruled the view of the Assessing Officer. On appeal by the Department, the Tribunal dismissing the revenue appeal held: That even though the transfer of transferable development rights amounts to transfer of a capital asset, the gains could not be subjected to tax under the head "Capital gains" for the reason that there was no cost of acquisition in acquiring the flat which had been transferred and the computation mode given under section 48 was, thus, inapplicable in such cases. That firstly money has not been received by the assessee from the society – under the agreement entered into between the developer, the society and the members, the consideration was payable to the members by the developers for transfer of respective entitlements of the members and secondly, the "principle of mutuality" applied in this case between the society and its members and, therefore, the sum could not be taxed as dividend in the hands of the assessee.

3. **Capital gains- Transaction not regarded as transfer- Assessee acquiring title directly or indirectly before 1/4/81, the FMV as on 1/4/81 was to be adopted as cost of acquisition for purpose of computing capital gain on sale of said property.**

ITO v. Noella P. Perry(Ms) (2013) 56 SOT 495 (Mum.)(Trib.)

In this case, Ld. CIT(A) agitates the direction by the Ld. CIT(A) in taking the fair market value of the capital asset as on 1/4/81, being prior to that date, as its cost of acquisition, as against of the said value by the Assessing Officer. The issue in dispute before Tribunal was whether from which date the cost inflation index would apply in computing the LTCG under reference. Dismissing the appeal,

the Tribunal held that the conveyance of property through inheritance or by will is not regarded as a transfer under section 47 of the Act. The cost of acquisition to the previous owner i.e., the owner who comes to own the property through inheritance by will is not regarded as a transfer under section 47 of the Act. The cost of acquisition to the previous owner i.e., to the owner which comes to own the property in a manner other than these specified in section 49(1)(ii), or succession or inheritance or devolution as per section 49(1)(iii) is to be deemed as the cost of acquisition in the hands of the assessee, in whose hands the entire capital gains on the transfer of the property is to be computed. The fiction extends to be holding period of the asset as well, so that the lives of the testator and the legatee/s are combined for reckoning the holding period (Expl. 19b) to section 2(42A). Further, where the date of acquisition is prior to 1/4/81 i.e., the cut-off date, the assessee, may at its option substitute the fair market value of the capital asset as on that date for its cost of acquisition. Therefore the cost held that the treatment of FMV of the asset as on 1/4/81 was to be treated as the cost of acquisition.

- 4. Capital gains –Leasehold Land acquired at NIL value prior to 1.4.81 – determination of “fair market value” – provision of section 55(2)(a)(ii) is not applicable while valuing the “cost of acquisition” of the land and value of the lease-hold rights in the land in question\ has to be determined in accordance with the section 48 of the Act by valuing “fair market value” of the land as on 1.4.1981.**

Natraj vs. Dy. CIT (2013) 56 SOT 23 / 152 TTJ 619 (Ahd.)(Trib.)

The assessee had taken land on lease for 98 years vide registered deed dated 15.9.1966. Revenue authorities took the cost of acquisition of the land as NIL by invoking the provisions of section 55(2)(a)(ii). The assessee claimed that in accordance with the scheme of the Act and in particular the provision of section 48 of the Act, the assessee was entitled to adoption of fair market value of the land as on 1.4.1981 and the indexed cost of the acquisition thereof. On appeal by the assessee to the Tribunal, held partly allowing the appeal: Section 55(2)(a) applies only in relation to the capital assets specifically mentioned in the Section only. The capital assets as mentioned in the Section are exhaustive and all inclusive of capital assets, such as goodwill, trade mark brand name, right to manufacture, produce or process any article or thing or right to carry on any business, tenancy rights, stage carriage permits or loom hours, and being an exhaustive list of capital assets, any other capital asset such as land etc. could not be included for the purpose of valuation of “cost of acquisition” for the purposes of sections 48 and 49. The Legislature has intentionally not added word “land” in the provision of Section 55(2)(a). Accordingly, the value of the lease-hold rights in the land in question of the assessee, has to be determined in accordance with the provision of section 48 of the Act by valuing “fair market value” of the land as on 1.4.1981 and the indexed cost of acquisition has to be determined in order to assess long term capital gains in the hands of the assessee; and cost cannot be taken as ‘nil’.

- 5. Can non-cumulative preference shares carrying a fixed rate of dividend with a fixed holding period be said to be equated with bonds or debentures so as to deny the indexation benefit while computing capital gain on its transfer, applying the third proviso to section 48?**

CIT vs. Enam Securities P. Ltd. (2012) 345 ITR 64 (Bom.)

As per the third proviso to section 48, benefit of indexation is not available on transfer of a long-term capital asset, being bond or debenture other than capital indexed bonds issued by the government.

In the present case, the assessee had subscribed to non-cumulative preference shares of a private limited company carrying dividend@4% p.a. and redeemable after the expiry of 10 years from the date of allotment. On the redemption of a part of the aforesaid preference shares at par, the assessee computed the capital loss on the same after claiming the benefit of indexation. However, the Assessing Officer claimed that the above mentioned 4% non-cumulative redeemable preference shares have a fixed holding period and a fixed rate of return which are the principal characteristics of a bond and on this basis denied the benefit of cost indexation to the assessee, applying the third proviso to section 48.

On this issue, the Bombay High Court, following the judgement of the Supreme Court in *Anarkali Sarabhai vs. CIT* (1997) 224 ITR 422, observed that the redemption of preference shares by a company falls within the ambit of section 2(47) and amounts to transfer so as to attract capital gain tax.

The Court held that, since shares, debentures and bonds are not defined in the Income-tax Act, 1961, the terms have to be understood from the meaning given in the Companies Act, 1956. As per the Companies Act, 1956, the share capital of a company limited by shares can be of two kinds only, namely, equity share capital and preference share capital. Further, as per section 2(12) of the Companies Act, 1956, debenture is defined to include debenture stock, bonds and any other securities of a company, whether or not they constitute a charge on the assets of the company. A debenture is a certificate of a loan or a bond evidencing the fact that the company is liable to pay an amount specified with interest. Though the amount which is raised by a company through debentures becomes a part of its capital structure, it does not become part of share capital. Hence, the 4% non-cumulative preference shares cannot be said to be in the nature of bonds or debentures.

Therefore, the indexation benefit on the transfer of long-term capital asset, being 4% non-cumulative preference shares cannot be denied applying the provisions of the third proviso to section 48.

6. **In case of a house property registered in joint names, whether the exemption under section 54F can be allowed fully to the co-owner who has paid whole of the purchase consideration of the house property or will it be restricted to his share in the house property?**

CIT vs. Ravinder Kumar Arora (2012) 342 ITR 38 (Delhi)

In the present case, the assessee filed the return of income showing long-term capital gain on sale of plot of land. The assessee claimed exemption under section 54F from such long-term capital gain on account of purchase of new residential house property within the stipulated time period as mentioned in the aforesaid section. He claimed exemption under section 54F taking into consideration the whole of purchase price of the residential house property. However, after going through the purchase deed of the house property, the Assessing Officer found that the said house property was purchased in joint names of assessee and his wife. Therefore, the Assessing Officer allowed 50% of the exemption claimed under section 54F, being the share of the assessee in the property purchased in joint names.

The assessee submitted that the inclusion of his wife's name in the sale deed was just to avoid any litigation after his death. He further explained that all the funds invested in the said house were provided by him, including the stamp duty and corporation tax paid at the time of the registration of the sale deed of the said house. This fact was also clearly evident from the bank statement of the assessee. The assessee claimed that the exemption under section 54F is to be allowed with reference to the full amount of purchase consideration paid by him for the aforesaid residential house and is not to be restricted to 50%. The Assessing Officer did not deny the fact that the whole amount of purchases of the house was contributed by the assessee and nothing was contributed by his wife. However, the Assessing Officer opined that exemption under section 54F shall be allowed only to the extent of assessee's right in the new residential house property purchased jointly with his wife, i.e. 50%.

Considering the above mentioned facts, the Delhi High Court held that the assessee was the real owner of the residential house in question and mere inclusion of his wife's name in the sale deed would not make any difference. The High Court also observed that section 54F mandates that the house should be purchased by the assessee but it does not stipulate that the house should be purchased only in the name of the assessee. In this case, the house was purchased by the assessee in his name and his wife's name was also included additionally. Therefore, the conditions stipulated in section 54F stand fulfilled and the entire exemption claimed in respect of the purchase price of the house property shall be allowed to the assessee.

7. Can the scheme of arrangement approved under section 391 to 394 of Companies Act, 1956 be treated as slump sale to attract capital gains provisions?

SREI Infrastructure Finance Ltd. vs. Income-tax Settlement Commission (2012) 207 Taxman 74 (Delhi)

In this case, assessee had received certain amount from its subsidiary (under a scheme of arrangement) which was sanctioned by the High Court under sections 391 to 394 of the Companies Act, 1956. The Settlement Commission brought to tax such amount by applying the provisions of section 50B treating such arrangement as slump sale. However, the assessee contended that the transfer of assets between the assessee and its subsidiary was under the "scheme of arrangement", and the same cannot be treated as slump sale as contemplated under section 2(42C).

Considering the above, the Delhi High Court held that it would be wrong to infer that section 50B is applicable only in case actual "sale" of assets takes place. It shall apply in case of all types of "transfer" mentioned in section 2(47). When a scheme under sections 391 to 394 of the Companies Act, 1956 is sanctioned by the Court, it is treated as a binding statutory scheme because the scheme has to be implemented and enforced. However, this cannot be a ground for the assessee to escape tax on 'transfer' of a capital asset under the provisions of the Income-tax Act, 1961. The taxability of the said transaction is to be decided as per the provisions of the Income-tax Act, 1961.

Therefore, the scheme approved by the court under sections 391 to 394 of the Companies Act, 1956 shall be treated as slump sale and capital gains provisions would be attracted. The cost of acquisition of the arrangement shall, therefore be determined as per the provisions of section 50B.

8. Will an agricultural land be treated as capital asset, in case it is located within 8 kilometers from the local limits of a City Municipal Corporation, even though the same is not notified by the Central Government under section 2(14)(iii)(b)?

CIT vs. Madhukumar N. (HUF) (2012) 208 Taxman 394 (Kar.)

On this issue, the Karnataka High Court observed that, as per section 2(14), an agricultural land is not a capital asset except in the following cases -

- (a) when it is located within the jurisdiction of a municipality, etc, which has a population not less than 10,000 or
- (b) when it is located within 8 kilometers from the local limit of a municipality, etc., mentioned in (a) above, which is notified by the Central Government in this regard.

For an agricultural land to become a capital asset by virtue of (b) above, two conditions have to be satisfied namely, the population of the municipality etc, should not be less than 10,000 and the same should be notified by the Central Government.

Therefore, in case an agricultural land is situated within 8 kilometers from the local limit of a municipality, etc. whose population is more than 10,000 but the same is not notified by the Central Government, the said land would not be a capital asset and no capital gain tax would be attracted on its sale.

9. What are the factors determining the nature of income arising on sale of shares i.e. whether the income is taxable as capital gains or business income?

PVS Raju vs. ACIT (2012) 340 ITR 75 (AP.)

On the said issue, the Andhra Pradesh High Court held that the question whether the shares were held as an investment to give rise to capital gain on its sale or as a trading asset to give rise to business income is not a pure question of law but essentially one of fact. The character of a transaction cannot be determined solely on the application of any abstract rule, principle or test but must depend upon all the facts and circumstances of the case. The facts that may be considered while determining the same are the magnitude and frequency of buying and selling of shares by the assessee; the period of holding of shares, ratio of sales to purchases and the total

holdings, etc. Mere classification of shares in the books of accounts of the assessee is not relevant for determining the nature of income for income-tax purposes.

- 10. Can an assessee be deprived of claiming exemption under section 54EC, if bonds of assessee's choice are not available or are available only for a broken period within the period of six months after the date of transfer of capital asset and the bonds are purchased shortly after it became available next time after the expiry of the said six months?**

CIT vs. Cello Plast (2012) 209 Taxman 617 (Bom.)

In the present case, the assessee sold its building on 22.03.2006. To avail exemption under section 54EC, the assessee was required to invest the sale proceeds either in the bonds of Rural Electrification Corporation Ltd. (REC bonds) or in the bonds of National Highway Authority (NHA bonds) within six months from the date of sale of building i.e. on or before 21.09.2006. However, during this period of six months, REC bonds were available only between 1.07.2006 to 3.08.2006. Thereafter, it became available only on 22.01.2007 to 31.01.2007. The assessee purchased the REC bonds on 31.01.2007 and claimed the exemption under section 54EC.

However, the Assessing Officer disallowed the benefit of section 54EC to the assessee and taxed the entire capital gain on the contention that bonds were purchased beyond the period of six months from the date of transfer of capital asset. The Assessing Officer contended that since the REC bonds were available during the period from 1.07.2006 to 3.08.2006, the same could have been purchased before 3.08.2006. The Assessing Officer further argued that the assessee could have purchased NHA bonds, if REC bonds were not available throughout the period of said six months.

On the above mentioned issue, the Bombay High Court observed that though REC bonds were available for limited period between 1.07.2006 to 3.08.2006, but assessee had time till 21.09.2006 to invest in these bonds to avail the benefit under section 54EC. The availability of the bonds only for a limited time during the period of six months from the date of sale of the asset as provided in section 54EC, cannot restrict the assessee's right to exercise the same upto last date. The contention of the Revenue that since the REC bonds were available upto 3.08.2006, the assessee should have purchased the bonds before this date, is not sustainable as the time given by the statute is till 21.09.2006.

Hence, reasonable extension ought to be granted after the bonds are made available, at least to the extent of the number of days between 4.08.2006 (being the last date the bonds were available) and 21.09.2006 (being the expiry of 6 months from the date of transfer)

Therefore, the High Court held that since the assessee invested in the bonds on 31.01.2007 i.e. within 9 days of their being available once again from 22.01.2007 he cannot be deprived of exemption under section 54EC.

The High Court further held that since section 54EC gives the choice to the assessee either to invest in REC bonds or in NHA bonds, in case the bonds of the assessee's choice are not available, the time to invest in the bonds get automatically extended till the bonds are available in the market.

- 11. Would sale of a plot of land held as stock-in-trade by an assessee engaged in the business of real estate and construction of plots, be treated as sale of capital assets, to attract the provisions of section 50C?**

CIT vs. Kan Construction and Colonizers (P) Ltd (2012) 208 Taxman 478 (All.)

On this issue, the High Court observed that for applicability of section 50C, the essential requirement is that the building and land transferred should be a capital asset. Further, as per section 2(14), capital asset does not include stock-in-trade held for the purpose of an assessee's business or profession.

The Assessing Officer treated the sale of plot of land held by the assessee as sale of capital asset

and accordingly, applied the provisions of section 50C.

The High Court held that since the assessee is a builder and construction of buildings is its business, investment in purchase and sale of plots by it is ancillary and incidental to its business activity. Therefore, it was held that the assessee has held the land as stock in-trade and not as a capital asset. Hence, section 50C will not apply in this case and the profit on sale of land will be treated as business income.

12. Can exemption under section 54F be denied to an assessee in respect of investment made in construction of a residential house, on the ground that the construction was not completed within three years after the date on which transfer took place, on account of pendency of certain finishing work like flooring, electrical fittings, fittings of door shutter, etc?

CIT vs. Sambandam Udaykumar (2012) 345 ITR 389 (Kar.)

In this case, the assessee has claimed benefit of exemption under section 54F in respect of capital gain arising on sale of shares of a company by investing the amount in construction of a house property. However, the Assessing Officer contended that no exemption under section 54F would be available in this case, as the construction of a residential house was not completed on account of pendency of certain work like flooring, electrical fittings, fittings of door shutter, etc., even after lapse of three years from the date of transfer of the shares.

The Karnataka High Court held that the condition precedent for claiming the benefit under section 54F is that capital gains realized from sale of capital asset should have been invested either in purchasing a residential house or in constructing a residential house. If he has invested the money in the construction of a residential house, merely because the construction was not completed in all respects and possession could not be taken within the stipulated period, would not disentitle the assessee from claiming exemption under section 54F. In fact, in this case, the assessee has taken the possession of the residential building and is living in the said premises despite the pendency of flooring work, electricity work, fitting of door and window shutters. The condition precedent for claiming exemption under section 54F is that the capital gain realized from sale of capital asset should have been parted by the assessee and invested either in purchasing a residential house or in constructing a residential house within the stipulated period.

Therefore, the Court held that in this case the assessee would be entitled to exemption under section 54F in respect of the amount invested in construction within the prescribed period.

13. Whether indexation benefit in respect of the gifted asset shall apply from the year in which the asset was first held by the assessee or from the year the same was first acquired by the previous owner?

CIT vs. Manjula J. Shah 16 Taxman 42 (Bom.)

As per Explanation 1 to section 2(42A), in case the capital asset becomes the property of the assessee in the circumstances mentioned in section 49(1), inter alia, by way of gift by the previous owner, then for determining the nature of the capital asset, the aggregate period for which the capital asset is held by the assessee and the previous owner shall be considered.

As per the provisions of section 48, the profit and gains arising on transfer of a long-term capital asset shall be computed by reducing the indexed cost of acquisition from the net sale consideration. The indexed cost of acquisition meant the amount which bears to the cost of acquisition the same proportion as Cost Inflation Index (CII) for the year in which the asset is transferred bears to the CII for the year in which the asset was first held by the assessee transferring it i.e., the year in which the asset was gifted to the assessee in case of transfer by the previous owner by way of gift.

In the present case, the assessee had acquired a capital asset by way of gift from the previous owner. The said asset when transferred was a long-term capital asset considering the period of holding by the assessee as well as the previous owner. The assessee computed the long-term capital gain considering the CII of the year in which the asset was first held by the previous owner.

The Assessing Officer raised an objection mentioning that as per meaning assigned to the Indexed cost of acquisition, the CII of the year in which the asset is first held by the assessee need to be considered and not the CII of the year in which the asset was first held by the previous owner.

In the present case, the Bombay High Court held that by way of 'deemed holding period fiction' created by the statute, the assessee is deemed to have held the capital asset from the year the asset was held by the previous owner and accordingly the asset is a long term capital asset in the hands of the assessee. Therefore, for determining the indexed cost of acquisition under Section 48, the assessee must be treated to have held the asset from the year the asset was first held by the previous owner and accordingly the CII for the year the asset was first held by the previous owner would be considered for determining the indexed cost of acquisition.

Hence, the indexed cost of acquisition in case of gifted asset has to be computed with reference to the year in which the previous owner first held the asset and not the year in which the assessee became the owner of the asset.

Note- The Delhi High Court, in the case of Arun Shungloo Trust vs. CIT (2012) 205 Taxman 456 (Delhi) has also given the similar view on the said issue. The court observed that as per Explanation (iii) to section 48, the expression 'asset held by the assessee' is not defined and therefore, in the absence of any intention to the contrary, it has to be construed in consonance with the meaning given in section 2(42A). However, the Assessing Officer contended that in section 49, the benefit of indexed cost of acquisition will be available only from the date the capital asset was transferred and not from the date on which the asset was held by the previous owner.

The High Court observed that this will result in inconsistency because as per the provisions of Explanation to section 48, the holding of predecessor has to be accounted for the purpose of computing the cost of acquisition, the cost of improvement and indexed cost of improvement, but not for the purpose of indexed cost of acquisition.

In the present case, the Bombay High Court held that by way of 'deemed holding period fiction' created by the Statute, the assessee is deemed to have held the capital asset from the year the asset was held by the previous owner and accordingly, the asset is a long term capital asset in the hands of the assessee. Therefore, for determining the indexed cost of acquisition under section 48, the assessee must be treated to have held the asset from the year in which the asset was first held by the previous owner and accordingly the cost inflation index for the year the asset was first held by the previous owner would be considered for determining the indexed cost of acquisition.

14. Would an asset which is sold the very next day after the period of 12/36 months is over, be treated as long-term capital asset by including both the date on which the asset is acquired and the date on which the asset is transferred for computing period of holding?

Bharti Gupta Ramola vs. CIT [2012] 207 Taxman 178 (Delhi)

As per section 2(29A), long-term capital asset means a capital asset which is not a short-term capital asset. Further, section 2(42A) defines 'short-term capital asset' to mean a capital asset held by an assessee for not more than thirty-six months immediately preceding the date of its transfer. However, in case of a share held in a company or any other security listed in a recognized stock exchange in India or a unit of the Unit Trust of India, or a unit of a Mutual Fund specified under section 10(23D) or a zero coupon bond, 'twelve months' would be considered instead of 'thirty-six months' for the purpose of section 2(42A).

In the present case, the assessee had sold two mutual fund instruments on 29.9.2005 and 14.10.2005 and had shown the income earned as long-term capital gains. The aforesaid mutual fund instruments were purchased by the assessee on 29.9.2004 and 14.10.2004. The Assessing Officer treated the two gains as short-term capital gains on the ground that the instruments had not been held for a period of more than 12 months immediately preceding the date of transfer. The contention of the Revenue was that the asset must be held for a period of more than 36/12 months plus one day

before the date when the transfer is made, to be treated as a long-term capital asset. In effect, the date on which the transfer is made has to be excluded.

The High Court observed that the expression 'immediately preceding the date of transfer' is a cut off point for determining and deciding the period during which the asset was held by an assessee. The said expression should not be interpreted to mean that the date of transfer itself should be added or excluded.

Section 2(42A) stipulates that if an asset is held for 36/12 months, or less, it will be a short term capital asset. The term 'month' would mean "calendar month". In normal course, period of 12 calendar months would begin on the specified day when the asset was transferred and the assessee became the holder of the asset and end one day before in the relevant calendar month, next year. The expression used in section 2(42A) is 'for not more than 36/12 months'. The requirement prescribed is that the assessee should not hold the asset for more than 36/12 months. The moment an assessee exceeds this period and the holding continues beyond 36/12 months, the asset is treated as a long term asset and accordingly the gains are computed. For computing the period of 12/36 months, neither the date on which the asset is acquired, nor the date of sale/transfer is to be excluded. Thus, if an asset is held for 12/36 months and is sold the very next day after the period of 12/36 months is over, the asset would be treated as a long term capital asset. There is nothing in the said section to show and hold that the time period would not include fraction of a day. Thus, an asset acquired on the 1st January would complete 12 months at the end of the said year, i.e. on 31st December and if it is sold on 1st January next year and if the proviso to section 2(42A) applies, it would be treated as a long term capital gains.

- 15. Can the assessee claim exemption under section 54F, on account of capital gain arising on transfer of depreciable assets held for more than 36 months i.e. a long-term capital asset, though the same is deemed as capital gain arising on transfer of short-term capital asset by virtue of section 50?**

CIT vs. Rajiv Shukla (2011)334 ITR 138 (Delhi)

In the above mentioned case, the assessee had claimed benefit of exemption under section 54F in respect of capital gain arising on the sale of property, being a depreciable asset held for more than 36 months i.e. long-term capital asset. However, the department contended that no exemption under section 54F is available in this case, as the said exemption is granted in respect of the capital gain arising from the transfer of a long-term capital asset where as the capital gain arising on transfer of depreciable asset is deemed to be capital gain arising from transfer of short-term capital asset by virtue of provisions of section 50.

The Delhi High Court in the present case relying on the decision of the Bombay High Court in the case of CIT vs. Ace Builders P. Ltd. (2006) 281 ITR 210 and the decision pronounced by Gauhati High Court in CIT vs. Assam Petroleum Industries P. Ltd. [2003] 262 ITR 587, in relation to erstwhile section 54E, held that the deeming fiction created by section 50 that the capital gain arising on transfer of a depreciable asset shall be treated as capital gain arising on transfer of short-term capital asset is only for the purpose of sections 48 and 49 and not for the purpose of any other section. Section 54F being an independent section will not be bound by the provisions of section 50. The depreciable asset if held for more than 36 months shall be a long-term capital asset as per the provisions of section 2(29A).

Therefore, the exemption under section 54F on transfer of depreciable asset held for more than 36 months cannot be denied on account of fiction created by section 50.

- 16. Can exemption under section 54 be claimed in respect of more than one residential flat acquired by the assessee under a joint development agreement with a builder, wherein the property owned by the assessee was developed by the builder who constructed eight residential flats in the said property, four of which were given to the assessee?**

CIT vs. Smt. K. G. Rukminiamma (2011) 331 ITR 211 (Kar.)

The assessee, being the owner of a property, entered into a joint development agreement with a builder to develop the property. Under the agreement, the builder constructed eight residential flats and handed over four residential flats to the assessee. The entire cost of construction and other expenses were borne by the builder.

The issue under consideration is whether capital gains exemption under section 54 can be claimed in respect of the four residential flats treating them as a "residential house". In the present case, the Revenue contended that the benefit of deduction under section 54 could be availed only in respect of one residential flat and in respect of the remaining three residential flats, the assessee was not entitled to deduction under section 54.

The Karnataka High Court, applying the decision in *Anand Basappa (2009) 309 ITR 329 (Kar.)* to the present case, held that all the four flats are situated in the same residential building and hence, will constitute "a residential house" for the purpose of section 54. Therefore, the assessee would be entitled to deduction under section 54 in respect of all four flats.

17. In determining the period of holding of a capital asset received by a partner on dissolution of firm, can the period of holding of the capital asset by the firm be taken into account?

P. P. Menon vs. CIT (2010) 325 ITR 122 (Ker.)

Relevant sections: 2(42A) & 49(1)(iii)(b)

The assessee was a partner in a firm which owned a hospital building and land. The firm was dissolved and the entire assets including the hospital building and land were taken over by the assessee. The assessee sold the hospital building and the land within three days of dissolution. He, however, claimed that the period of holding should be reckoned by including the period when he was a partner of the firm. He contended that since the total period has more than 36 months, the capital gain was to be treated as a long-term capital gain.

The High Court held that the benefit of including the period of holding of the previous owner under section 2(42A) read with section 49(1)(iii)(b) can be availed only if the dissolution of the firm had taken place at any time before April 1, 1987. In this case, the firm was dissolved on April 15, 2001 and therefore the benefit of these sections would not be available to the assessee. Therefore, the period of holding of the asset by the assessee in this case has to be reckoned from the date of dissolution of the firm. Since the assessee sold the property within three days of acquiring the same, the gains have to be treated as short-term capital gain.

18. What is the cost of acquisition of additional share of property obtained on partition of HUF?

Lalitaben Hariprasad vs. CIT (2010) 320 ITR 698 (Guj)

A residential property was divided as part and parcel of total partition of a HUF comprising of four members i.e., father, mother and two sons. The father and mother took one-half share each of the property. The father made payment of ₹ 14,33,000 to one son for acquisition of one-fourth share of the property. The mother made similar payment to the other son for the same purpose. The father and mother claimed ₹ 14,33,000 each as cost of acquisition of one-fourth share of the property from their sons. This claim was disallowed by the Assessing Officer holding that since the property was of the HUF, the only cost of acquisition which could be allowed was under the provisions of section 49 i.e., the cost of acquisition in the hands of the original owner (namely, the HUF) from whom the property had been received on partition.

On this issue, the High Court observed that the cost of acquisition of one-fourth share of the house property, being the proportion which each member is entitled to, would be governed by the provisions of section 49(1)(i) i.e., the cost of acquisition to the HUF would be the cost to the member for computation of capital gains on subsequent sale of the property. However, in respect of the additional share acquired by the members at the time of partition from other members, the amount of ₹ 14,33,000 paid would be the cost of acquisition in each case. Therefore, ₹ 14,33,000 can be

claimed as additional cost of acquisition of the property for computation of capital gains in the hands of each of the assesseees on subsequent sale of their share of the property.

- 19. Can exemption under section 54EC be denied on account of the bonds being issued after six months of the date of transfer even though the payment for the bonds was made by the assessee within the six month period?**

Hindustan Unilever Ltd. vs. DCIT (2010) 325 ITR 102 (Bom.)

Relevant section: 54EC

In this case, the Bombay High Court observed that in order to avail the exemption under section 54EC, the capital gains have to be invested in a long-term specified asset within a period of six months from the date of transfer. Where the assessee has made the payment within the six month period, and the same is reflected in the bank account and a receipt has been issued as on that date, the exemption under section 54EC cannot be denied merely because the bond was issued after the expiry of the six month period or the date of allotment specified therein was after the expiry of the six month period. For the purpose of the provisions of section 54EC, the date of investment by the assessee must be regarded as the date on which payment is made. The High Court, therefore, held that if such payment is within a period of six months from the date of transfer, the assessee would be eligible to claim exemption under section 54EC.

- 20. Can the valuation done by any authority of the State Government for the purpose of payment of stamp duty in respect of land or building be taken as actual sale consideration received by the purchaser?**

CIT vs. Chandni Buchar (2010) 323 ITR 0510 (Pun.& Har.)

The Assessing Officer added the difference between purchase price disclosed in the sale deed and purchase price of the property adopted for the purpose of paying the stamp duty to the total income of the assessee as income from unexplained sources. The Commissioner of Income-tax (Appeals) deleted this addition by holding that section 50C is a deeming provision for the purpose of bringing to tax the difference as capital gain. Further, he also held that in the absence of any legally acceptable evidence, valuation done for the purpose of section 50C would not represent actual consideration passed on to the seller. The Tribunal also held that valuation done by any State agency for the purpose of stamp duty would not ipso facto substitute the actual sale consideration as being passed on to the seller by the purchaser in the absence of any admissible evidence. The Assessing Officer is obliged to bring on record positive evidence indicating the fact that the assessee has paid anything more than the sum disclosed in the purchase deed. In this case, the assessee has discharged the burden of proving the sale consideration as projected in the sale deed by producing original bank statement.

The High Court, therefore, held that the view taken by the Tribunal while accepting the order of the Commissioner of Income-tax (Appeals) does not suffer from any legal infirmity.

- 21. Can the interest payable by the assessee company on loan availed from the directors for the purchase of an asset be added to the cost of acquisition of the asset while computing long term capital gain, where the resolution to pay interest has been passed after the date of sale?**

CIT vs. Sri Hariram Hotels P. LTD (2010) 325 ITR 136 (Karn.)

The assessee borrowed loans from some of its directors and purchased an immovable property in order to put up a hotel building. However, the project did not materialize on account of various reasons. Ultimately, the assessee sold the property. While filing the return, it claimed the interest paid to the directors on the loan borrowed from them in order to purchase the property as cost of acquisition for computation of the capital gain. The Assessing Officer disallowed the claim made by the assessee, but the Tribunal allowed it.

The main contention of the Revenue was that it was after the sale of property that a resolution was passed by the company to pay the interest to the Directors, and as such, there was no liability for the company to pay the interest as on the date of sale.

The High Court, dismissing the appeal, held that since the property had been purchased out of the loans borrowed from the directors, any interest paid thereon had to be included while calculating the cost of acquisition of the asset.

Note: In this case, it has been established that the date of passing resolution for payment of interest is not relevant since interest generally starts accruing as soon as the loan is taken.

22. Can exemption under section 54B be denied solely on the ground that the new agricultural land purchased is not wholly owned by the assessee, as the assessee's son is a co-owner as per the sale deed?

CIT vs. Gurnam Singh (2010) 327 ITR 278 (P&H)

The assessee claimed deduction under section 54B in respect of the land purchased by him along with his son out of the sale proceeds of the agricultural land. However, the same was denied by the Assessing Officer on the ground that the land was registered in the name of the assessee's son.

The Tribunal observed that the agricultural land sold belonged to the assessee and the sale proceeds were also used for purchasing agricultural land. The possession of the said land was also taken by the assessee. It is not the case that the sale proceeds were used for other purposes or beyond the stipulated period. The only objection raised by the Revenue was that the land was registered in the name of his son. Therefore, it cannot be said that the capital gains were in any way misused for any other purpose contrary to the provisions of law.

In this case, the High Court concurred with the Tribunal's view that merely because the assessee's son was shown in the sale deed as co-owner, it did not make any difference. It was not the case of the Revenue that the land in question was exclusively used by the son. Therefore, the assessee was entitled to deduction under section 54B.

23. Can the loss on account of forfeiture of share application money be treated as short-term capital loss?

DCIT vs. BPL Sanyo Finance Ltd. (2009) 312 ITR 63 (Kar.) Relevant Section: 45

The assessee company is engaged in non-banking financial business and applied for allotment of one lakh equity shares of the IDBI in response to the public issue of shares and remitted the share application money. The IDBI allotted 89,200 shares to the assessee as against one lakh equity shares applied for. Thereafter, the IDBI called the assessee to pay the balance sum for issuance of shares in its favour. As the assessee company failed to remit the balance outstanding allotment money, the IDBI cancelled the allotment and forfeited the share application money. The assessee claimed it as a short-term capital loss in its return of income. The Assessing Officer disallowed the claim. The Commissioner (Appeals) confirmed the order passed by the Assessing Officer. The Tribunal allowed the appeal filed by the assessee.

The High Court held that consequent to the assessee's default in not paying the balance of money on allotment, its right in the shares stood extinguished on forfeiture by the IDBI. The loss suffered by the assessee, i.e., the non-recovery of share application money was consequent to the forfeiture of its right in the shares and was to be understood to be within the scope and ambit of transfer. It would amount to short-term capital loss to the assessee.

24. Can the transfer of capital asset by a company to its wholly owned subsidiary company be regarded as transfer and, therefore, attract levy of capital gains tax?

CIT vs. Coats of India Ltd. (2009) 315 ITR 215 (Cal.) Relevant Section: 47

The entire packaging coating units of the assessee was transferred to CCIPL for a sum of ₹ 29,89,87,000 by way of adjustment and issue of equity shares of ₹ 10 each in CCIPL credited as fully paid-up share capital. In the process of such transfer a surplus amount of ₹ 19,14,55,804 was credited to the accounts of the assessee over and above the book value of the assets actually transferred to CCIPL. The assessee claimed that this excess amount was not taxable on the ground that the assessee transferred the assets of the company to its wholly owned subsidiary company. It was further stated that the unit was transferred with all its assets and, therefore, the value of each of the items could not be determined separately as the sale was made on slump basis and, accordingly, the actual profit from each asset could not be determined. The Tribunal held that the entire packaging coating business undertaking itself constituted a distinct "capital asset" under section 2(14) of the Income-tax Act, 1961, for which consideration was not determined with reference to individual assets but with reference to the capitalised value of the said business, that the proviso to section 47(v) and (iv) was applicable only if, in the hands of the transferee the capital asset on its transfer constituted stock-in-trade, that such packaging coating business on its transfer was not accounted for in the books of CCIPL as stock-in-trade and that, therefore, since the entire paid-up capital of CCIPL as on December 31, 1997, was held by the assessee the transfer of the undertaking was covered by the provisions of section 47(iv) and, therefore, no income under the head "Capital gains" was assessable in the assessment year 1998-99.

The High Court held that the Tribunal was right and no capital gains arose.

25. Can the actual sale consideration recorded in the agreement to sell of the asset and received by the assessee be substituted by the value as adopted by the District Valuation Officer under section 55A of the Act for the purpose of computing the capital gains chargeable to tax ?

Dev Kumar Jain vs. Income-tax Officer (2009) 309 ITR 240 (Del.)

Relevant Section: 55A

The assessee declared income by way of capital gains arising from the sale of property. The Assessing Officer was of the view that the sale price disclosed in the agreement to sell was low and made a reference to the District Valuation Officer under section 55A for determining the fair market value of the property on the date of sale. The District Valuation Officer determined the value of the plot on the date of the sale and this was communicated to the assessee. The Tribunal accepted the stand of the Revenue that the actual sale consideration recorded in the agreement to sell should be substituted by the value arrived at by the District Valuation Officer under section 55A.

The High Court held that section 55A of the Income-tax Act, 1961, applies only where the Assessing Officer is required to ascertain the fair market value of a capital asset. Section 45(1A) stipulates that capital gains shall be computed by deducting from the full value of consideration received or accruing as a result of the transfer of the capital asset, the amount of expenditure incurred wholly and exclusively in connection with such transfer as also the cost of acquisition of the asset and the cost of any improvement thereto. A combined reading of section 45(1A) and section 48 shows that when a sale of property takes place, the capital gains arising out of such a transfer has to be computed by looking at the full value of the consideration received or accruing as a result of such transfer. The expression "full value of sale consideration" is not the same as "fair market value" as appearing in section 55A. Thus, for the purpose of computing capital gains there is no necessity for computing the fair market value. Further, there was nothing on record to show that the assessee received consideration for the sale of the property in excess of that which was shown in the agreement to sell. Thus, the actual sale consideration recorded in the agreement to sell and received by the assessee could not be substituted by the value as adopted by the District Valuation Officer under section 55A for the purpose of computing the capital gains chargeable to tax.

F. INCOME FROM OTHER SOURCES

- 1. Can the loan or advance given to a shareholder by the company, in return of an advantage conferred on the company by the shareholder, be deemed as dividend under section 2(22)(e) in the hands of the shareholder?**

Pradip Kumar Malhotra vs. CIT (2011) 338 ITR 538 (Cal.)

In the present case, the assessee, a shareholder holding substantial voting power in the company, permitted his property to be mortgaged to the bank for enabling the company to take the benefit of loan. The shareholder requested the company to release the property from the mortgage. On failing to do so and for retaining the benefit of loan availed from Bank, the company gave advance to the assessee, which was authorized by a resolution passed by its Board of Directors.

The issue under consideration is whether the advance given by the company to the assessee shareholder by way of security deposit for keeping his property as mortgage on behalf of company to reap the benefit of loan, can be treated as deemed dividend within the meaning of section 2(22)(e).

In the above case, the Calcutta High Court observed that, the phrase "by way of advance or loan" appearing in section 2(22)(e) must be construed to mean those advances or loans which a share holder enjoys simply on account of being a person who is the beneficial owner of shares (not being shares entitled to a fixed rate of dividend whether with or without a right to participate in profits) holding not less than 10% of the voting power. In case such loan or advance is given to such shareholder as a consequence of any further consideration which is beneficial to the company received from such a shareholder, such advance or loan cannot be said to a deemed dividend within the meaning of the Act. Thus, gratuitous loan or advance given by a company to a share holder, who is the beneficial owner of shares holding not less than 10% of the voting power, would come within the purview of section 2(22)(e) but not to the cases where the loan or advance is given in return to an advantage conferred upon the company by such shareholder.

Therefore, in the present case, the advance given to the assessee by the company was not in the nature of a gratuitous advance given, instead it was given to protect the interest of the company. Therefore, the said advance cannot be treated as deemed dividend in the hands of the shareholder under section 2(22)(e).

- 2. Can winnings of prize money on unsold lottery tickets held by the distributor of lottery tickets be assessed as business income and be subject to normal rates of tax instead of the rates prescribed under section 115BB?**

CIT vs. Manjoo and Co. (2011) 335 ITR 527 (Kerala)

On the above issue, the Kerala High Court observed that winnings from lottery is included in the definition of income by virtue of section 2(24)(ix). Further, in practice, all prizes from unsold tickets of the lotteries shall be the property of the organising agent. Similarly, all unclaimed prizes shall also be the property of the organising agent and shall be refunded to the organising agent.

The High Court contended that the receipt of winnings from lottery by the distributor was not on account of any physical or intellectual effort made by him and therefore cannot be said to be "income earned" by him in business. The said view was taken on the basis that the unsold lottery tickets cease to be stock-in-trade of the distributor because, after the draw, those tickets are unsaleable and have no value except waste paper value and the distributor will get nothing on sale of the same except any prize winning ticket if held by him, which, if produced will entitle him for the prize money. Hence, the receipt of the prize money is not in his capacity as a lottery distributor but as a holder of the lottery ticket which won the prize. The Lottery Department also does not treat it as business income received by the distributor but instead treats it as prize money paid on which is tax deducted at source.

Further, winnings from lotteries are assessable under the special provisions of section 115BB, irrespective of the head under which such income falls. Therefore, even if the argument of the assessee is accepted and the winnings from lottery is taken to be received by him in the course of his business and as such assessable as business income, the specific provision contained in section 115BB, namely, the special rate of tax i.e. 30% would apply.

Therefore, the High Court held that the rate of 30% prescribed under section 115BB is applicable in respect of winnings from lottery received by the distributor.

3. Would the provisions of deemed dividend under section 2(22)(e) be attracted in respect of financial transactions entered into in the normal course of business?

CIT vs. Ambassador Travels (P) Ltd. (2009) 318 ITR 376(Del.)

Relevant section: 2(22)(e)

Under section 2(22)(e), loans and advances made out of accumulated profits of a company in which public are not substantially interested to a beneficial owner of shareholding not less than 10% of the voting power or to a concern in which such shareholder has substantial interest is deemed as dividend. However, this provision would not apply in the case of advance made in the course of the assessee's business as a trading transaction.

The assessee, a travel agency, has regular business dealings with two concerns in the tourism industry dealing with holiday resorts. The High Court observed that the assessee was involved in booking of resorts for the customers of these companies and entered into normal business transactions as a part of its day-to-day business activities. The High Court held that such financial transactions cannot under any circumstances be treated as loans or advances received by the assessee from these concerns for the purpose of application of section 2(22)(e).

4. Whether the Tribunal was right in law in holding that the income from lease of hospital, after giving a finding that the hospital basically remains a business asset, should be assessed as 'Income from other sources' and not as 'Business Income'?

Orient Hospital Ltd. vs. DCIT (2009) 315 ITR 422 (Mad.)

Relevant Section: 56(2)(iii)

The assessee-company constructed a hospital building and ran the hospital. As the assessee-company suffered loss in running the business, it leased the hospital building along with equipment and machinery to A on a monthly lease of ₹ 3,00,000 per month and claimed this sum as business income against which earlier business losses were set off. The Assessing Officer treated the income from lease of the hospital as "Income from other sources" and disallowed set off of the earlier years' business losses. The Commissioner (Appeals) allowed the assessee's appeal, but the Appellate Tribunal, while holding that the lease income was to be treated as income from other sources, allowed the lease income to be set off against the previous years' losses.

The High Court held that income derived out of the lease of property and furniture as in this case could not be treated as income from profits and gains of business or profession. The finding given by the Tribunal that the income was income from other sources was correct.

5. What can be the tests to determine "substantial part of business" of lending company for the purpose of application of exclusion provision under section 2(22)?

CIT vs. Parle Plastics Ltd. (2011) 332 ITR 63 (Bom.)

Under section 2(22), dividend does not include, inter alia, any advance or loan made to a shareholder by a company in the ordinary course of its business, where the lending of money is a substantial part of the business of the company. The expression used in the exclusion provision of

section 2(22) is "substantial part of the business". Sometimes a portion which contributes a substantial part of the turnover, though it contributes a relatively small portion of the profit, would be termed as a substantial part of the business. Similarly, a portion which is relatively small as compared to the total turnover, but generates a large portion, say more than 50% of the total profit of the company would also be a substantial part of its business. Percentage of turnover in relation to the whole as also the percentage of the profit in relation to the whole and sometimes even percentage of manpower used for a particular part of the business in relation to the total manpower or work force of the company would be required to be taken into consideration for determining the substantial part of business. The capital employed for a specific division of a company in comparison to total capital employed would also be relevant to determine whether the part of the business constitutes a substantial part.

In this case, 42% of the total assets of the lending company were deployed by it by way of loans and advances. Further, if the income earned by way of interest is excluded, the other business had resulted in a net loss. These factors were considered in concluding that lending of money was a substantial part of the business of the company. Since lending of money was a substantial part of the business of the lending company, the money given by it by way of advance or loan to the assessee could not be regarded as a dividend, as it had to be excluded from the definition of "dividend" by virtue of the specific exclusion in section 2(22).

G. SET-OFF AND CARRY FORWARD OF LOSSES

- 1. In order to determine whether Explanation to section 73 is applicable in a particular case, is it necessary to first determine the gross total income of the assessee computed as per normal provisions of the Act?**

CIT vs. Darshan Securities (P.) Ltd. (2012) 341 ITR 556 (Bom.)

On this issue, the Bombay High Court observed that, in order to apply the exemption carved out in the bracketed portion of the Explanation to section 73, the gross total income (GTI) of a company is to be first computed as per the normal provisions of the Act and thereafter, it needs to be determined whether the GTI of the assessee consists of mainly income under the head interest on securities, income from house property, capital gains and income from other sources. The words "consists mainly" are indicative of the fact that the legislature had in its contemplation that the GTI consists predominantly of income from the four heads that are referred to therein.

In case the gross total income of an assessee consists of loss in share trading and service charges taxable under the head "Profit and gains of business or profession", then such loss would be first set-off against such income as given in section 70 and then the composition of GTI has to be determined. In case such loss is completely set-off against the income, and the assessee has income predominantly under heads mentioned in the exception carved out in the bracketed portion of the said Explanation, such loss will not be treated as speculation loss for applicability of section 73(1).

H. DEDUCTIONS FROM GROSS TOTAL INCOME

- 1. Can an assessee, engaged in the business of developing a housing project, be denied deduction under section 80-IB(10) on the ground that the ownership of land has not yet been transferred to the assessee and the approval to build the housing project has been taken in the name of the land owner, though the assessee assumes the entire risks and rewards of the project?**

CIT vs. RadheDevelopers (2012) 341 ITR 403 (Guj.)

The assessee is a land developer and derives its income from the business of developing and building of housing project. To execute a housing project, the assessee entered into a development

agreement with the owner of a land. On the same day, the land owner entered into an “agreement to sell” the said land to the assessee. The assessee claimed deduction under section 80-IB(10) contending that the income derived was by an undertaking developing and building a housing project approved by the local authority.

However, the Assessing Officer rejected the assessee's claim for deduction under section 80-IB(10) on the ground that the assessee was not the owner of the land on which the housing project was developed and also the approval by the local authority to commence such housing project was not in the name of the assessee. The Department was of the view that the assessee had merely acted as an agent or contractor for the land owner for development of housing project and therefore, it would be taken as a works contractor and hence, would not be eligible for the deduction applying Explanation to section 80-IB(10).

The assessee contended that the ownership of land is not a pre-requisite to claim deduction under section 80-IB(10). The assessee further argued that the execution of a housing project cannot be taken to be a works contract in this case since the assessee had the full authority to take all the decisions and had assumed the full risk of the failure or success of the housing project. The profit or loss derived from the project was of the assessee and the owner of the land would only receive a part of sale consideration in lieu of which he had granted development permission to the assessee. The land owner was not exposed to any risk in respect of the housing project. Therefore, Explanation to section 80-IB(10) is not applicable and deduction cannot be denied on that basis.

Considering the above, the Gujarat High Court held that, on perusal of the provisions of section 80-IB(10), it is clear that deduction of 100% of profit is provided to an undertaking deriving profit from the business of developing and building housing projects which is approved by the local authority before the specified date, subject to certain other conditions mentioned therein. The said provisions nowhere require that only those developers who themselves own the land would be entitled to deduction under section 80-IB(10). This condition cannot be read for the applicability of section 80-IB(10). The issue is whether the contract is a contract of work or a contract of sale. As the land owner entered into an agreement to sell the land to the assessee, it would constitute a contract for sale and not a works contract. The owner of the land had, in part performance of the agreement to sell, given the possession thereof to the assessee and the assessee had carried out the construction work for development of the housing project. Therefore, as per provisions of section 2(47) read with section 53A of the Transfer of Property Act, 1882, it can be construed that the land, for the purpose of the Income-tax Act, 1961, is deemed to have been transferred to the assessee, though the title of the land has not yet been transferred to the assessee. The ownership has been understood differently in different contexts. Hence, for the purpose of deduction under section 80-IB(10), the assessee had satisfied the condition of ownership, even if it was necessary. Therefore, the assessee shall be deemed to be the owner of the land.

Hence, in the present case, as per the provisions of section 80-IB(10), deduction shall be provided to the assessee engaged in the business of developing and building housing projects, in case it satisfies the conditions mentioned therein even if the ownership of the land has not yet been transferred to the assessee and the approval for such housing project is obtained in the name of the original land owner.

2. **In a case where an additional building was constructed on a plot of land and approval for the same is obtained in the year 2002, can deduction under section 80-IB(10) be denied in respect of the said building on the contention that it was an extension of an earlier project for construction of four buildings, in respect of which approval was obtained before 1.10.98?**

CIT vs. Vandana Properties (2012) 206 Taxman 584 (Bom.)

In this case, the assessee-firm, engaged in business of construction and development of housing projects, constructed buildings A, B, C and D prior to 1.10.1998 on a plot measuring 2.36 acres, in respect of which approval was obtained prior to 1.10.1998. After taking permission of the State

Government in the year 2001, the assessee-firm has constructed an additional building 'E' with other residential units, in respect of which approval was obtained in the year 2002. The assessee claimed deduction under section 80-IB in respect of building 'E'.

However, the Assessing Officer disallowed the claim for deduction on the ground that approval for building 'E', granted in the year 2002, was an extension of approvals granted earlier for other buildings and, hence, the project commenced prior to 1.10.1998 which disentitled the project from claiming deduction under section 80-IB. The Assessing Officer, further, making reference to the conditions laid down under section 80-IB(10)(b), contended that project should be on the size of a plot of land of minimum one acre. However, in this case, even if the plot is proportionately divided between five buildings, the land pertaining to building 'E' would be less than one acre, thus, violating the condition mentioned above for claiming deduction under section 80-IB(10).

The Bombay High Court observed that construction of building 'E' constitutes an independent housing project and therefore, the date prior to 1.10.1998 applicable to the other buildings in the housing project could not be applied to building 'E'. It is only in the year 2001 that the status of the land was converted from surplus vacant land by the State Government and consequently, the building plan for construction of building 'E' was submitted and the same was approved by the local authority in the year 2002. Further, It was observed that section 80-IB specifies the size of the plot of land of minimum 1 acre but not the size of the housing project. It is immaterial as to whether any other housing projects are existing on the said plot of land or not. Hence, the objection raised by the Assessing Officer that if plot was proportionately divided between 5 buildings, the land pertaining to building 'E' would be less than 1 acre was not correct.

Therefore, the High Court held that the assessee was entitled to deduction under section 80-IB(10) in respect of building E.

3. Can an industrial undertaking engaged in manufacturing or producing articles or things treat the persons employed by it through agency (including contractors) as "workers" to qualify for claim of deduction under section 80-IB?

CIT vs. Jyoti Plastic Works Private Limited (2011) 339 ITR 491 (Bom.)

One of the conditions to be fulfilled by an industrial undertaking engaged in manufacturing or producing articles or things to qualify for claim of deduction under section 80-IB is that it should employ ten or more workers in a manufacturing process carried on with the aid of power or twenty or more workers in a manufacturing process carried on without the aid of power. The issue under consideration in this case is whether the persons employed by such industrial undertaking through agency (including contractors) can be treated as "workers" for fulfillment of the above condition.

In this case, the Assessing Officer rejected the assessee's claim for deduction under section 80-IB on the grounds that -

- (1) the assessee was not a manufacturer as the goods were not manufactured at the factory premises of the assessee but at the factory premises of the job workers; and
- (2) the total number of permanent employees employed in the factory being less than ten, the assessee had not fulfilled the condition stipulated in section 80-IB(2)(iv).

The Commissioner (Appeals) allowed the claim of the assessee and the Tribunal upheld the order of the Commissioner (Appeals).

The High Court observed that the Tribunal had found on the basis of the material on record that manufacturing activity was carried out at the factory premises of the assessee. Though the workers employed by the assessee directly were less than ten, it was not in dispute that the total number of workers employed by the assessee directly or hired through a contractor for carrying on the manufacturing activity exceeded ten.

The expression "worker" is neither defined under section 2 of the Income-tax Act, 1961, nor under

section 80-IB(2)(iv) of the Act. Therefore, it would be reasonable to hold that the expression "worker" in section 80-IB(2)(iv) of the Act is referable to the persons employed by the assessee directly or by or through any agency (including a contractor) in the manufacturing activity carried on by the assessee. The employment of ten or more workers is what is relevant and not the mode and the manner in which the workers are employed by the assessee.

The High Court, therefore, held that the Tribunal was justified in holding that the condition of section 80-IB(2)(iv) had been fulfilled and therefore, the deduction under section 80-IB is allowable.

4. Can freight subsidy arising out of the scheme of Central Government be treated as a "profit derived from the business" for the purposes of section 80-IA?

CIT vs. Kiran Enterprises(2010)327 ITR 520 (HP)

Relevant section: 80-IA

Section 80-IA provides for deduction in respect of profits and gains derived from eligible business. In this case, the Central Government had framed a scheme whereby freight/transport subsidy was provided to industries set up in remote areas where rail facilities were not available and some percentage of the transport expenses incurred to transport raw material/finished goods to or from the factory was subsidized.

The issue under consideration is whether such freight subsidy arising out of the scheme of Central Government can be treated as a "Profit derived from the business" for the purposes of section 80-IA.

On appeal, the High Court held that the transport subsidy received by the assessee was not a profit derived from business since it was not an operational profit. The source was not the business of the assessee but the scheme of Central Government. The words "derived from" are narrower in connotation as compared to the words "attributable to". Therefore, the freight subsidy cannot be treated as profits derived from the business for the purposes of section 80-IA.

5. Does the period of exemption under section 80-IB commence from the year of trial production or year of commercial production? Would it make a difference if sale was effected from out of the trial production?

CIT vs. Nestor Pharmaceuticals Ltd. / Sidwal idwal Refrigerations Ind Ltd. vs. DCIT (2010) 322 ITR631 (Delhi)

In this case, the assessee had started trial production in March 1998 whereas commercial production started only in April, 1998. Therefore, the assessee claimed deduction under section 80-IB for the assessment years 1999-2000 to 2003-04, whereas the Assessing Officer denied deduction for A.Y.2003-04 on the ground that the five year period would be reckoned from A.Y.1998-99, since the trial production began in March, 1998.

The Tribunal observed that not only the trial production had started in March 1998 but there was in fact sale of one water cooler and air-conditioner in the month of March 1998. The explanation of the assessee was that this was done to file the registration under the Excise Act and Sales-tax Act.

The High Court observed that with mere trial production, the manufacture for the purpose of marketing the goods had not started which starts only with commercial production, namely, when the final product to the satisfaction of the manufacturer has been brought into existence and is fit for marketing. However, in this case, since the assessee had effected sale in March 1998, it had crossed the stage of trial production and the final saleable product had been manufactured and sold. The quantum of commercial sale and the purpose of sale (namely, to obtain registration of excise / sales-tax) is not material. With the sale of those articles, marketable quality was established. Therefore, the conditions stipulated in section 80-IB were fulfilled with the commercial sale of the two items in that assessment year, and hence the five year period has to be reckoned from A.Y. 1998-99.

Note – Though this decision was in relation to deduction under section 80-IA, as it stood prior to its substitution by the Finance Act, 1999 w.e.f. 1.4.2000, presently, it is relevant in the context of section 80-IB.

- 6. Can the Duty Entitlement Passbook Scheme (DEPB) benefits and Duty Drawback be treated as profit derived from the business of the industrial undertaking to be eligible for deduction under section 80-IB?**

Liberty India vs. CIT (2009) 317 ITR218 (SC)

Relevant section: 80-IB

On this issue, the Supreme Court observed that DEPB / Duty drawback are incentives which flow from the schemes framed by the Central Government or from section 75 of the Customs Act, 1962. Section 80-IB provides for the allowing of deduction in respect of profits and gains derived from eligible business. However, incentive profits are not profits derived from eligible business under section 80-IB. They belong to the category of ancillary profits of such undertaking. Profits derived by way of incentives such as DEPB/Duty drawback cannot be credited against the cost of manufacture of goods debited in the profit and loss account and they do not fall within the expression “profits derived from industrial undertaking” under section 80-IB. Hence, Duty drawback receipts and DEPB benefits do not form part of the profits derived from the eligible business for the purpose of the deduction under section 80-IB.

- 7. Does the period of exemption under section 80-IB commence from the year of trial production or year of commercial production? Would it make a difference if sale was effected from out of the trial production?**

CIT vs. Nestor Pharmaceuticals Ltd. / Sidwal Refrigerations Ind Ltd. vs. DCIT (2010) 322 ITR 631 (Delhi)

In this case, the assessee had started trial production in March 1998 whereas commercial production started only in April, 1998. Therefore, the assessee claimed deduction under section 80-IB for the assessment years 1999-2000 to 2003-04, whereas the Assessing Officer denied deduction for A.Y.2003-04 on the ground that the five year period would be reckoned from A.Y.1998-99, since the trial production began in March, 1998.

The Tribunal observed that not only the trial production had started in March 1998 but there was in fact sale of one water cooler and air-conditioner in the month of March 1998. The explanation of the assessee was that this was done to file the registration under the Excise Act and Sales-tax Act.

The High Court observed that with mere trial production, the manufacture for the purpose of marketing the goods had not started which starts only with commercial production, namely, when the final product to the satisfaction of the manufacturer has been brought into existence and is fit for marketing. However, in this case, since the assessee had effected sale in March 1998, it had crossed the stage of trial production and the final saleable product had been manufactured and sold. The quantum of commercial sale and the purpose of sale (namely, to obtain registration of excise I sales-tax) is not material. With the sale of those articles, marketable quality was established. Therefore, the conditions stipulated in section 80-IB were fulfilled with the commercial sale of the two items in that assessment year, and hence the five year period has to be reckoned from A.Y.1998-99.

Note - Though this decision was in relation to deduction under section 80-IA, as it stood prior to its substitution by the Finance Act, 1999 w.e.f. 1.4.2000, presently, it is relevant in the context of section 80-8.

- 8. Can freight subsidy arising out of the scheme of Central Government be treated as a “profit derived from the business” for the purposes of section 80-IA?**

CIT vs. Kiran Enterprises (2010) 327 ITR 520 (HP)

Relevant section: 80-IA

Section 80-IA provides for deduction in respect of profits and gains derived from eligible business. In this case, the Central Government had framed a scheme whereby freight/transport subsidy was provided to industries set up in remote areas where rail facilities were not available and some percentage of the transport expenses incurred to transport raw material/finished goods to or from the factory was subsidized.

The issue under consideration is whether such freight subsidy arising out of the scheme of Central Government can be treated as a "profit derived from the business" for the purposes of section 80-IA.

On appeal, the High Court held that the transport subsidy received by the assessee was not a profit derived from business since it was not an operational profit. The source was not the business of the assessee but the scheme of Central Government. The words "derived from" are narrower in connotation as compared to the words "attributable to". Therefore, the freight subsidy cannot be treated as profits derived from the business for the purposes of section 80-IA.

9. Whether interest on fixed deposits with a bank and other interest income qualify as income for deduction under section 80-IA?

CIT vs. Jagdishprasad M. Joshi (2009) 318 ITR 420 (Bom.)

Relevant section: 80-IA

On this issue, the High Court concurred with the decision of the Tribunal holding that interest income earned by the assessee on fixed deposits with bank and other interest income were in the nature of business income and should be considered as part of business profit for the purpose of granting deduction under section 80-IA.

10. Whether the assessee was entitled to deduction under section 80-IB of the Income-tax Act, 1961, on the ground that conversion of jumbo rolls into salable packets/rolls of standard size was not manufacture or production of article or thing?

Computer Graphics Ltd. vs. ACIT (2009) 308 ITR 96 (Mad.)

Relevant Section: 80IB

The assessee, a company engaged in the business of conversion of jumbo rolls of Konica colour paper, Konica graphic art film and medical x-ray films into saleable packets, filed its return of income for the assessment years claiming deduction under section 80-IB of the Income-tax Act, 1961. The Assessing Officer disallowed the deduction on the ground that there was no manufacture of any article or thing. The Commissioner (Appeals) as well as the Tribunal confirmed the disallowance made by the Assessing Officer.

The High Court held that the activity of converting jumbo rolls into marketable small sizes could not be regarded as a manufacturing activity and the assessee was not entitled to the benefit of section 80-IB of the Act as had been already decided in the assessee's own case in the earlier year.

11. Whether the assessee is eligible for deduction under section 80P(2)(a)(i) in respect of the interest income earned on deposits made with H.P. State Co-operative Bank in the shape of F. D. R. as income derived from banking business?

CIT vs. Kangra Co-operative Bank Ltd. (2009) 309 ITR 106 (HP) Relevant Section: 80P

The assessee, a co-operative bank, created under the H. P. Co-operative Societies Act, 1968, invested its reserve fund in another co-operative society. The Assessing Officer held that the interest income earned by the assessee by investing statutory reserve fund did not qualify for exemption under section 80P(2)(a)(i) of the Income-tax Act, 1961, as it was not income received from banking activities. The Commissioner (Appeals) partly allowed the appeal and remanded the case to the Assessing Officer. The Tribunal allowed the appeal of the assessee.

According to section 57 of the H. P. Co-operative Societies Act, 1968, every co-operative society is required to keep a percentage of its profits in a reserve fund. These reserve funds can only be invested or deposited in a certain manner. Sub-section (4) provides that the portion of the reserve fund not being used in the business of the society shall be invested in post office savings bank, or in any security specified under section 20 of the Indian Trusts Act, 1882, or any other bank approved by the Registrar.

The High Court held that interest on investments made out of the reserve fund was eligible for deduction under section 80P(2)(a)(i) of the Act. Further, there was sufficient material on record to show that the Registrar had been approving the balance-sheets of the assessee bank which implied the approval of the Registrar. Since the assessee had made an investment in another co-operative society, it was entitled for deduction under section 80P(2)(d) of the Act.

12. Whether a co-operative society engaged in the business of manufacture and sale of sugar out of the sugarcane grown by its members, can be denied deduction under section 80P(2)(a)(iii) of the Income-tax Act, 1961 on the ground that processing involves use of power ?

Budhewal Co-op. Sugar Mills Limited vs. CIT (2009) 315 ITR 351 (P&H) Relevant Section: 80P(2)(a)(iii)

Section 80P has been enacted with a view to encourage and promote growth of the co-operative sector in the economic life of the country and in pursuance of the declared policy of the Government. It has to be liberally construed. "Marketing" is a comprehensive term. It does not mean merely buying and selling. It includes "processing" which may be necessary for making the agricultural produce marketable.

The correct way of reading the different heads of exemption enumerated in the section would be to treat each as a separate and distinct head of exemption. Whenever a question arises as to whether any particular category of an income of a co-operative society is exempt from tax, what has to be seen is, whether the case falls within any of the several heads of exemption. If it falls within any one head of exemption, it would be free from tax notwithstanding that the conditions of another head of exemption are not satisfied and such income is not free from tax under that head of exemption.

The case of the growers of agricultural produce is dealt with by section 80P(2)(a)(iii). Sub-clause (iii) has a wider scope. Under this sub-clause, the members have to be growers themselves, meaning thereby, that for the society with members being growers, the deduction is available even if the agricultural produce is marketed without further processing or even if it is processed with the use of power. Sub-clause (v) of section 80P(2)(a) is a restrictive clause and has to be understood as covering a case of members having agricultural produce not grown by them. Sub-clause (v) is applicable on fulfilment of the following conditions: "(a) some processing is to be carried out on the agricultural produce; and (b) the processing is without the aid of power." Clause (v) is different inasmuch as sub-clause (iii) applies where the members of the co-operative societies are the growers of the agricultural produce whereas sub-clause (v) applies in a case where the agricultural produce is not grown by the members but may belong to them. Additionally, there cannot be sufficient market for purchase of sugarcane itself as grown by the members. The sugarcane necessarily is to be converted into sugar before it can be made marketable. Therefore, keeping in view the legislative intent for enacting section 80P(2)(a)(iii), the benefit thereunder could not be denied to a society which manufactures and sells sugar out of the sugarcane grown by its members.

13. Would the procurements of parts and assembling them to make windmill fall within the meaning of "manufacture" and "production" to be entitled for deduction under section 80-IB?

CIT vs. Chiranjeevi Wind Energy Ltd. (2011) 333 ITR 192 (Mad.)

The Supreme Court, in India Cine Agencies vs. CIT(2009) 308 ITR 98, laid down that the test to determine whether a particular activity amounts to "manufacture" or not is whether new and different goods emerge having distinctive name, use and character. Further, the Supreme Court,

in CIT vs. Sesa Goa Ltd. (2004) 271 ITR 331, observed that the word “production” or “produce” when used in comparison with the word “manufacture” means bringing into existence new goods by a process, which may or may not amount to manufacture. It also takes in all the by-products, intermediate products and residual products, which emerge in the course of manufacture of goods.

In this case, Madras High Court, applying the above rulings of the Apex Court, observed that the different parts procured by the assessee could not be treated as a windmill individually. Those different parts had distinctive names and only when assembled together, they got transformed into an ultimate product which was commercially known as a “windmill”. Thus, such an activity carried on by the assessee would amount to “manufacture” as well as “production” of a thing or article to qualify for deduction under section 80-IB.

Note: The definition of manufacture has been incorporated in section 2(29BA) by the Finance (No. 2) Act, 2009 w.e.f. from 01.04.2009, and it means, inter alia, a change in a non-living physical object or article or thing resulting in transformation of the object or article or thing into a new and distinct object or article or thing having a different name, character and use. Assembling of windmill at factory and putting them at site of customer apparently satisfies this definition of manufacture also.

14. Can an assessee not claiming deduction under section 80-IB in the initial years claim the said deduction for the remaining years during the period of eligibility, if the conditions are satisfied?

Praveen Soni vs. CIT (2011) 333 ITR 324 (Delhi)

On the above issue, the Delhi High Court held that the provisions of section 80-IB nowhere stipulated a condition that the claim for deduction under this section had to be made from the first year of qualification of deduction failing which the claim will not be allowed in the remaining years of eligibility. Therefore, the deduction under section 80-IB should be allowed to the assessee for the remaining years up to the period for which his entitlement would accrue, provided the conditions mentioned under section 80-IB are fulfilled.

15. Does income derived from sale of export incentive qualify for deduction under section 80-IB?

CIT vs. Jaswand Sons (2010) 328 ITR 442 (P&H)

On this issue, the High Court held that income derived from sale of export incentive cannot be said to be income “derived from” the industrial undertaking and therefore, such income is not eligible for deduction under section 80-IB.

16. Would grant of transport subsidy, interest subsidy and refund of excise duty qualify for deduction under section 80-IB?

CIT vs. Meghalaya Steels Ltd. (2011) 332 ITR 91 (Gauhati)

The Supreme Court, in Liberty India vs. CIT [2009] 317 ITR 218, observed that section 80-IB provides for deduction in respect of profits and gains “derived from the business” of the assessee and accordingly, the Parliament intended to cover sources of profits and gains not beyond the first degree. There should be a direct nexus between the generation of profits and gains and the source of profits and gains, the latter being directly relatable to the business of the assessee. Any other source, not falling within the first degree, can only be considered as ancillary to the business of the assessee.

In this case, the High Court observed that the transport and interest subsidies were revenue receipts which were granted after setting up of the new industries and after commencement of production. The transport subsidy would have the effect of reducing the inward and outward transport costs for the purposes of determining the cost of production as well as for sales. However, the subsidy had no direct nexus with the profits or gains derived by the assessee from its industrial activity and the benefit to the assessee was only ancillary to its industrial activity. The subsidies were not directly relatable to the industrial activity of the assessee, and hence they did not fall within the first degree

contemplated by the Act. Therefore, the subsidies could not be taken into account for purposes of deduction under section 80-IB.

However, the payment of Central excise duty had a direct nexus with the manufacturing activity and similarly, the refund of the Central excise duty also had a direct nexus with the manufacturing activity, being a profit-linked incentive, since payment of the Central excise duty would not arise in the absence of any industrial activity. Therefore, the refund of excise duty had to be taken into account for purposes of section 80-IB.

Note: Similar ruling was pronounced by the Himachal Pradesh High Court in CIT vs. Gheria Oil Gramudyog Workers Welfare Association (2011) 330 ITR 117, wherein it was held that interest subsidy received from the State Government cannot be treated as

“profit derived from industrial undertaking” and hence was not eligible for deduction under section 80-IB.

I. ASSESSMENT OF VARIOUS ENTITIES

1. Would interest earned on fixed deposits made by a social club with its corporate members satisfy the principle of mutuality to escape taxability?

CIT vs. Secunderabad Club Picket (2012) 340 ITR 121 (A.P.)

The assessee is a social and recreational club. It is a mutual association and a non-profit making concern. The assessee was in receipt of monthly subscriptions, admission/entrance fee and payments made by its members for use of club facilities. It earned interest from the fixed deposit made by it with certain banks and financial institutions, which were also its corporate members. The assessee filed its return claiming this interest to be exempt on the contention that the interest was earned from its members and, therefore, the same was not taxable. The assessee further contended that if a person carries on an activity, which is also trade, in such a way that they and the customers are the same persons, no profits are yielded by such trade for tax purpose and therefore, principle of mutuality would apply.

However, in this case, the Assessing Officer denied such exemption on the ground that neither the assessee deposited the amounts with the banks and financial institutions, treating them as corporate members, nor the banks and financial institutions accepted the same in the capacity of members of the club. The banks and the financial institutions treated the club at par with their other customers and offered them the same interest as offered to the general public.

In the present case, the Andhra Pradesh High Court following the judgement of the Supreme Court in Bankipur Club Ltd (1997) 226 ITR 97, concluded that certain factors need to be considered to arrive at a conclusion as to what point the relationship of mutuality ends and that of trading begins. If the object of the assessee claiming to be a 'mutual concern' is to carry on a business and the same consideration is realized both from the members and from non members by giving similar facilities to them, then, the resultant surplus would be an income liable to tax.

The High Court, considering, inter alia, the above mentioned facts, held that the principle of mutuality ends the moment the club deposits the amount with its corporate members, being banks and financial institutions, with the sole aim of earning interest on the deposits. Also, the corporate members, i.e the banks and financial institutions, have treated the club as a regular customer, accepting deposits in the normal course of business. There is nothing to show that the interest on fixed deposits have been provided as a facility to the club. The social relationship and social activities of the club have nothing to do with its deposits with corporate members.

Therefore, the said interest income is not exempt on the principle of mutuality.

2. Would non-resident match referees and umpires in the games played in India fall within the meaning of sportsmen to attract taxability under the provisions of section 115BBA, and consequently attract the TDS provisions under section 194E in the hands of the payer?

Indcom vs. Commissioner of Income-tax (TDS) (2011) 335 ITR485 (Calcutta)

On this issue, the Calcutta High Court observed that, in order to attract the provisions of the section 194E, the person should be a non-resident sportsperson or non-resident sports association or institution whose income is taxable as per the provisions of section 115BBA.

The umpires and the match referees can be described as professionals or technical persons who render professional or technical services, but they cannot be said to be either non-resident sportsmen (including an athlete) or non-resident sports association or institution so as to attract the provisions of section 115BBA and consequently, the provisions of tax deduction at source under section 194E are also not attracted in this case. Though for the purpose of section 194J, match referees and umpires are considered as professionals, the tax deduction provisions thereunder are attracted only in case where the deductee is a resident individual, which is not so in the present case.

Therefore, although the payments made to non-resident umpires and the match referees are 'income' which has accrued and arisen in India, the same are not taxable under the provisions of section 115BBA and thus, the assessee is not liable to deduct tax under section 194E.

Note - It may be noted that since income has accrued and arisen in India to the non-resident umpires and match referees, the TDS provisions under section 195 would be attracted and tax would be deductible at the rates in force.

3. Can interest under sections 234B and 234C be levied where a company is assessed on the basis of book profits under section 115JB?

Joint CIT vs. Rolta India Ltd. (2011) 330 ITR 470 (SC)

On this issue, the Supreme Court observed that there is a specific provision in section 115JB(5) providing that all other provisions of the Income-tax Act, 1961 shall apply to every assessee, being a company, mentioned in that section. Section 115JB is a self-contained code pertaining to MAT, and by virtue of sub-section (5) thereof, the liability for payment of advance tax would be attracted. Therefore, if a company defaults in payment of advance tax in respect of tax payable under section 115JB, it would be liable to pay interest under sections 234B and 234C. Therefore, interest under sections 234B and 234C shall be payable on failure to pay advance tax in respect of tax payable under section 115JB.

Note - According to section 207, tax shall be payable in advance during any financial year, in accordance with the provisions of sections 208 to 219 (both inclusive), in respect of the total income of the assessee which would be chargeable to tax for the assessment year immediately following that financial year. Under section 115JB(1), where the tax payable on total income is less than 18.5% of "book profit" of a company, the "book profit" would be deemed to be the total income and tax would be payable at the rate of 18.5%. Since in such cases, the book profit is deemed to be the total income, therefore, as per the provisions of section 207, tax shall be payable in advance in respect of such book profit (which is deemed to be the total income) also.

4. Would the interest earned on surplus funds of a club deposited with institutional members satisfy the principle of mutuality to escape taxability?

Madras Gymkhana Club vs. DCIT (2010) 328 ITR 348 (Mad.)

The assessee, club providing facilities like gym, library, etc., to its members earned interest from fixed deposits which it had made by investment of its surplus funds with its corporate members.

The High Court held that interest earned from investment of surplus funds in the form of fixed deposits with institutional members does not satisfy the principle of mutuality and hence cannot be claimed as exempt on this ground. The interest earned is, therefore taxable.

Note: It may be noted that the Delhi High Court in the case of Delhi Gymkhana Club Ltd. vs. CIT

(2011) 339 ITR 525 held that, income from fixed deposit in bank satisfies the doctrine of mutuality and would be exempt in the hands of the club.

Rationale of the judgment in the case of Madras Gymkhana Club was that the club had invested the surplus fund as fixed deposit with its own institutional member which had an effect of providing benefit to the said member of utilizing the funds in any manner it desired and depriving other members of such benefit. Therefore, the same cannot be said to satisfy the doctrine of mutuality and shall be chargeable to tax.

In case of Delhi Gymkhana Club Ltd, the rationale of the ruling was that the fixed deposit was made with a bank i.e., an outside body and therefore, the income on deposit with bank satisfies the doctrine of mutuality and the same would be exempt.

5. Can transfer fees received by a co-operative housing society from its incoming and outgoing members be exempt on the ground of principle of mutuality?

Sind Co-operative Housing Society vs. ITO (2009) 317 ITR 47 (Bom)

On this issue, the High Court observed that under the bye-laws of the society, charging of transfer fees had no element of trading or commerciality. Both the incoming and outgoing members have to contribute to the common fund of the assessee. The amount paid was to be exclusively used for the benefit of the members as a class. The High Court, therefore, held that transfer fees received by a co-operative housing society, whether from outgoing or from incoming members, is not liable to tax on the ground of principle of mutuality since the predominant activity of such co-operative society is maintenance of property of the society and there is no taint of commerciality, trade or business.

Further, section 28(iii), which provides that income derived by a trade, professional or similar association from specific services performed for its members shall be treated as business income, can have no application since the co-operative housing society is not a trade or professional association.

6. Can long-term capital gain exempted by virtue of erstwhile section 54E be included in the book profit computed under erstwhile section 115J?

N. J. Jose and Co. (P.) Ltd. vs. ACIT (2010) 321 ITR 0132 (Ker.)

The assessee claimed exemption under section 54E on the income from long-term capital gains by depositing amounts in specified assets in terms of the said provision. In the computation of book profit under section 115J, the assessee claimed exclusion of capital gains because of exemption available on it by virtue of section 54E. The Assessing Officer reckoned the book profits including long-term capital gains for the purpose of assessment under section 115J.

The High Court held that once the Assessing Officer found that total income as computed under the provisions of the Act was less than 30 per cent of the book profit, he had to make the assessment under section 115J which does not provide for any deduction in terms of section 54E. As long as long-term capital gains are part of the profits included in the profit and loss account prepared in accordance with the provisions of Parts II and III of Schedule VI to the Companies Act, 1956, capital gains cannot be excluded unless provided under the Explanation to section 115J(1A).

Note - It may be noted that the rationale of this decision would apply even where minimum alternate tax (MAT) is attracted under section 115JB, on account of tax on total income being less than 18% of book profits. If an assessee has claimed exemption under section 54EC by investing in bonds of NHAI/ RECL, within the prescribed time, the long term capital gains so exempt would be taken into account for computing book profits under section 115JB for levy of minimum alternate tax (MAT), since Explanation 1 to section 115JB does not provide for such deduction. Further, it may be noted that even the long term capital gain exempt under section 10(38) is included for computation of book profit under section 115JB.

- 7. In a case where the partnership deed does not specify the remuneration payable to each individual working partner but lays down the manner of fixing the remuneration, would the assessee-firm be entitled to deduction in respect of remuneration paid to partners?**

CIT vs. Anil Hardware Store (2010) 323 ITR 0368 (HP)

The partnership deed of the assessee firm provided that in case the book profits of the firm are up to ₹ 75,000, then the partners would be entitled to remuneration up to ₹50,000 or 90 per cent of the book profits, whichever is more. In respect of the next ₹ 75,000, it is 60 per cent and for the balance book profits, it is 40 per cent. Thereafter, it is further clarified that the book profits shall be computed as defined in section 40(b) of the Income-tax Act, 1961, or any other provision of law as may be applicable for the assessment of the partnership firm. It has also been clarified that in case there is any loss in a particular year, the partners shall not be entitled to any remuneration. Clause 7 of the partnership deed laid down that the remuneration payable to the partners should be credited to the respective accounts at the time of closing the accounting year and clause 5 stated that the partners shall be entitled to equal remuneration.

The High Court held that the manner of fixing the remuneration of the partners has been specified in the partnership deed. In a given year, the partners may decide to invest certain amounts of the profits into other venture and receive less remuneration than that which is permissible under the partnership deed, but there is nothing which debars them from claiming the maximum amount of remuneration payable in terms of the partnership deed. The method of remuneration having been laid down, the assessee-firm is entitled to deduct the remuneration paid to the partners under section 40(b)(v) of the Income-tax Act.

Note -

- (1) Payment of remuneration to working partners is allowed as deduction if it is authorized by the partnership deed and is subject to the overall ceiling limits specified in section 40(b)(v). The limits for partners' remuneration under section 40(b)(v) has revised upwards and the differential limits for partners' remuneration paid by professional firms and non-professional firms have been removed. On the first ₹3 lakh of book profit or in case of loss, the limit would be the higher of ₹1,50,000 or 90% of book profit and on the balance of book profit, the limit would be 60%.
- (2) The CBDT had, vide Circular No. 739 dated 25-3-1996, clarified that no deduction under section 40(b)(v) will be admissible unless the partnership deed either specifies the amount of remuneration payable to each individual working partner or lays down the manner of quantifying such remuneration.

In this case, since the partnership deed lays down the manner of quantifying such remuneration, the same would be allowed as deduction subject to the limits specified in section 40(b)(v).

- 8. Can an AOP be constituted by inheritance under will?**

CIT vs. Laxmi Pd. and Sons (2009) 316 ITR 330 (All.)

An association of persons is a voluntary association of two or more persons who join together for a particular purpose which may not necessarily be with the object of deriving of income or profits or gains. The association should be voluntary on the part of the persons forming the same irrespective of the object of associating. Forced association of persons on account of inheriting joint property under a will or such other circumstances not being voluntary would not constitute such joint legatees as "association of persons" for the purpose of section 2(31).

- 9. Is it necessary that there be a written agreement between persons to prove the status of association of persons, in a case where the accounts seized from the persons prove joint investments and sharing of profits in business?**

CIT vs. T. George and M. Syed Alavi (2009) 316 ITR 333 (Ker.)

During the search conducted at the residential premises of two assesseees it was found that the two persons were engaged in contract work for slaughter tapping and sale of rubber trees. The assessments were based on entries in the seized records and available evidence including statements recorded from the assesseees. When a notice under section 147 was issued for taxing income escaping assessments in the hands of the association of persons constituting both the assesseees, both of them filed individual returns denying the existence of an association of persons. The Tribunal held that there was nothing to indicate the intention of the members of the association of persons to carry on business together and no written agreement for slaughter tapping for one estate was recovered by the Department.

The High Court observed that the accounts seized from both members of association of persons were mutually complementary and proved joint investments in slaughter tapping and receipt on sale of rubber latex and timber. The assesseees had admitted that slaughter tapping of one estate was undertaken by them together as association of persons. Failure on the part of the Department to recover a written agreement in respect of the other estate would not affect the validity of the assessment because the accounts were seized from both the assesseees and complementary to each other conclusively establishing that slaughter tapping was done by the assesseees together in this estate. The accounts seized from the assesseees proved that both undertook business together and shared the profit.

The High Court held that the status of association of persons need not be proved through an agreement. The business carried on by the members together was proved through accounts recovered on search, which justifies the assessment of the assesseees in that status.

CHARITABLE OR RELIGIOUS TRUSTS AND INSTITUTIONS

10. Whether the Tribunal was right in negating the assessee's claim for accumulation of unspent income?

Bharat Krishak Samaj vs. Deputy Director of Income-tax (Exemption) (2008) 306 ITR 153 (Del)

Relevant Section: 11

The assessee, a society registered under section 12A of the Income-tax Act, 1961, filled in Form No. 10 provided under the Income-tax Rules, 1962, and submitted it to the Assessing Officer along with its resolution, seeking permission to accumulate unspent funds under section 11(2) of the Act for the objects of the trust. The Assessing Officer was of the view that the objects for which accumulation was sought were not particularised in as much as they covered the entire range of objects of the trust. On this basis, the Assessing Officer denied the benefit of accumulation to the assessee. This was upheld by the Tribunal.

The High Court held that it is not necessary for a charitable trust to particularise each and every object for which accumulation is sought. It is enough if the assessee seeks accumulation for the objects of the trust. Hence, the assessee had sought to accumulate the sum for purposes of the trust and had specified such objects. It was therefore, entitled to accumulate the sum under section 11.

11. Whether repayment of borrowed funds utilised for construction of commercial complex augmenting income of trust and amounts to application of income for charitable purpose eligible for exemption under section 11?

Director of Income-tax (Exemption) vs. Govindu Naicker Estate (2009) 315 ITR 237 (Mad.)

Relevant Section: 11

During the assessment under section 143(3) of the Act, the Assessing Officer noted that, the trust had made part repayment of a loan taken from the bank for constructing a multi-storied building. The Assessing Officer opined that the multi-storied commercial complex was not one of the objects

of the trust and the expenditure incurred for the construction of the building could not be treated as charitable in nature, that the repayment of loan could not be regarded as application of income towards the charitable objects of the trust and rejected the claim of the assessee. The Commissioner (Appeals) allowed the appeal on the ground that the property of the trust was in a dilapidated condition and fresh construction had to be undertaken by obtaining a loan. The subsequent letting out of the property was connected with the carrying out of the objects of the trust and hence, the repayment of loan ought to have been treated as eligible application. The finding of the Commissioner (Appeals) was confirmed by the Tribunal.

The High Court held that the Tribunal was right in holding that the repayment of loan taken from the bank for construction of commercial complex was application of income for charitable purposes and the assessee-trust was eligible for exemption under section 11 of the Act. Even though the expenditure incurred is capital in nature, if the expenditure is incurred for the purpose of promoting the object of the trust, it could be considered as application of the income for the purpose of the trust. If the application of the income resulted in the maintenance of the property held under trust for charitable purpose, is for the purpose of augmenting income in order to pursue the objects of the trust that would amount to application of income for the purpose of the trust.

12. Whether the Tribunal has erred in law in holding that the assessee carried on activity for charitable purpose in terms of section 2(15) and directing the Commissioner of Income-tax to grant registration under section 12AA of the Act to the assessee society?

CIT vs. National Institute of Aeronautical Engineering Educational Society (2009) 315 ITR 428 (Uttarakand)

Relevant Section: 12AA

The assessee, a registered society, moved an application before the Commissioner for grant of registration under section 12AA(1)(b)(i) of the Act, in Form 10A. The Commissioner examined the papers including the income and expenditure of the assessee for the previous years and concluded that the assessee was not carrying on any charitable activity within the meaning of section 2(15) of the Act, as it was in a profit making business. Consequently, he rejected the application for registration under section 12AA of the Act. The assessee preferred an appeal before the Appellate Tribunal, which was allowed.

The High Court held that section 12AA of the Act provides the procedure for registration. Clause (a) of sub-section (1) of section 12AA empowers the Commissioner to call for such documents or information from the trust or institution as he thinks necessary in order to satisfy himself about the genuineness of the activities of the trust or institution and he may also make such inquiries, as he may deem necessary in this behalf. The Commissioner is not supposed to allow registration with blind eyes. The Commissioner had considered the relevant papers before him, which included the income and expenditure accounts of the previous years after the assessee society got registered with the Assistant Registrar of Firms, Societies and Chits.

The Commissioner observed that the society was charging substantial fees from the students and making huge profits. Merely imparting education for the primary purpose of earning profits could not be said to be a charitable activity. In the expression "charitable purpose", "charity" is the soul of the expression. Mere trade or commerce in the name of education cannot be said to be a charitable purpose and the Commissioner has to satisfy itself as provided under section 12AA of the Act before allowing the registration. The order of the Commissioner was justified.

J. INCOME-TAX AUTHORITIES

1. Can extension of the maximum period of retention of 15 days of books of accounts and documents impounded be granted indefinitely?

Subha and Prabha Builders P Ltd. vs. ITO(2009) 318 ITR 29 (Kar^P).

Relevant section: 131

On this issue, the High Court observed that section 131 confers on the income-tax authorities the power to impound and retain books of account or other documents for a maximum period of 15 days, after recording of reason for doing so. Extension can be granted with the prior approval of the higher authority for a reasonable period and not for an indefinite period.

The High Court held that the extension can only be a one time exercise and supplementing the outer limit of 15 days for few more days depending on the circumstances. Since the outer limit is specified in days, the period can be extended only in days and not in months or years.

- 2. Does the High Court have an inherent power under the Income-tax Act, 1961 to review an earlier order passed on merits?**

Deepak Kumar Garg vs. CIT (2010) 327 ITR 448 (MP)

The power to review is not an inherent power and must be conferred by law specifically by express provision or by necessary implication. The appellate jurisdiction of the High Court carries with it statutory limitations under the statute, unlike the extraordinary powers which are enjoyed by the Court under article 226 of the Constitution of India.

It was observed that, keeping in view the provisions of section 260A(7), the power of readmission/restoration of the appeal is always enjoyed by the High Court. However, such power to restore the appeal cannot be treated to be a power to review the earlier order passed on merits.

- 3. Whether the assessee can request condonation of delay in filing of return, where the reason for delay was not attributable to the assessee?**

Pala Marketing Co-operative Society Ltd. vs. Union of India (2009) 311 ITR 177 (Kar.)**Relevant Section: 119**

The assessee, a co-operative society engaged in marketing agricultural produce of its members, filed its return after completion of audit by the auditor appointed under section 63(4) of the Kerala Co-operative Societies Act, 1969, claiming refund of advance tax and the tax deducted at source remitted by others. The Assessing Officer rejected the return as time barred and declined the refund claimed. The application filed by the petitioner under section 119(2)(b) of the Income-tax Act, 1961, before the Central Board of Direct Taxes for condonation of delay in filing the refund application was rejected.

The High Court held that the assessee was bound to get its accounts audited under section 64 of the Kerala Co-operative Societies Act, 1969, and the delay in audit by the auditor appointed under the Act was not attributable to the assessee. Besides showing sufficient cause for delay in filing the return for refund, the assessee had also established genuine hardship inasmuch as it had suffered losses in the five succeeding years. If the delay was not condoned the petitioner society would be deprived of ₹ 10 lakhs which it was otherwise not liable to pay by virtue of exemption claimed under section 80P of the Act.

- 4. Whether the transfer of assessee cases from Kolkata to Patna not for the purpose of co-ordinated and effective investigation but for centralization, valid?**

Dillip Kumar Agarwal vs. CIT (2009) 314 ITR 291 (Cal.)**Relevant Section: 127(2)(a)**

In connection with search and seizure operations against the R group of companies, the Commissioner of Income-tax after hearing the assessees passed a reasoned order directing transfer of the cases of the assessees from the Income-tax Officers at Kolkata to Patna.

On writ petitions challenging the transfer of cases the High Court held that the notices proposing transfer did not indicate that the transfer was for the purpose of co-ordinated and effective

investigation. The transfer as proposed was for the purpose of centralisation. The assessee had made categorical statements in their representations that they had no business connection with their father, had no business at any place in Bihar, they managed their businesses on their own and had no business link with R, their father, and had no relation either in the business or otherwise in the R group of companies, but the authorities had not rebutted the categorical statements made in the written objections. Thus, as the order did not disclose any nexus of the assessee with R or the R group of companies, the order was without merit and could not be sustained.

5. Whether revenue was entitled to demand unrestricted access to acquire electronic records present in laptops pertaining to third parties unconnected with person searched?

S. R. Batliboi and Co. vs. Department of Income-tax (Investigation) (2009) 315 ITR 137 (Del.)

Relevant Section: 132

The petitioner was a firm of auditors. During the course of search and seizure operations conducted against EMAAR, the laptop computers of two employees of the petitioner, who were conducting an audit of EMAAR, were seized by the Deputy Director. Subsequently, the Deputy Director issued summons under section 131 to the employees of the petitioner and their statements were recorded. On the request of the Deputy Director these employees provided him with the electronic data relating to three companies of the EMAAR group together with the print copies of the data. The Deputy Director insisted on securing total and unrestricted access to the laptops of all the other clients of the petitioner. This request was refused by the employees. The seized laptops were sent by the Deputy Director to the Central Forensic Science Laboratory who, however, could not ascertain the password and accordingly could not access the entire data on the laptops. The petitioner was thereupon asked to disclose the password, which it again declined and thereafter the laptops were sealed in the presence of the employees of the petitioner.

On a writ petition the High Court held that the powers of search and seizure are very wide and the Legislature has provided a safeguard that the Assessing Officer should have reason to believe that a person against whom proceedings under section 132 of the Income-tax Act, 1961, are to be initiated is in possession of assets which have not been or would not be disclosed. Secondly, the authorised officer is also required to apply his mind as to whether the assets found in the search have been disclosed or not, and if no undisclosed asset is found no action can be taken under section 132(1)(iii) or (3). An arbitrary seizure is not maintainable. The objection of the petitioner was vis-à-vis only the material relating to its other clients and not to material which had causal connection with EMAAR against whom the search and seizure operation was directed. The offer in this regard had been spurned by the Revenue. In view of the fact that the Deputy Director had rejected the offer made by the petitioner the summons had to be set aside and the Deputy Director had to forthwith return the laptops to the petitioner.

K. ASSESSMENT PROCEDURE

1. Is a person having income below taxable limit, required to furnish his PAN to the deductor as per the provisions of section 206AA, even though he is not required to hold a PAN as per the provisions of section 139A?

Smt. A. Kowsalya Bai vs. UOI (2012) 346 ITR 156(Kar.)

As per the provisions of section 139A, inter alia, a person whose total income does not exceed the maximum amount not chargeable to income-tax is not required to apply to the Assessing Officer for the allotment of a permanent account number (PAN).

However, as per the provisions of section 206AA, notwithstanding anything contained in any other provision of this Act, any person who is entitled to receive any sum or income or amount on which tax is deductible under Chapter XVII-B, i.e., the deductee shall furnish his PAN to the deductor, otherwise tax shall be deducted as per the provisions section 206AA, which is normally higher. It is mandatory for an assessee to furnish his PAN, despite filing Form 15G as required under section 197A, to seek exemption from deduction of tax.

The provisions of section 139A are contradictory to section 197A, due to the fact that assessee whose income was less than the maximum amount not chargeable to income-tax, were not required to hold PAN, whereas their declaration furnished under section 197A was not accepted by the bank or financial institution unless PAN was communicated as per the provisions of section 206AA. The provisions of section 206AA creates inconvenience to small investors, who invest their savings from earnings as security for their future, since, in the absence of PAN, tax was deducted at source at a higher rate.

In order to avoid undue hardship caused to such persons, the Karnataka High Court, in the present case, held that it may not be necessary for such persons whose income is below the maximum amount not chargeable to income-tax to obtain PAN and in view of the specific provision of section 139A, section 206AA is not applicable to such persons. Therefore, the banking and financial institutions shall not insist upon such persons to furnish PAN while filing declaration under section 197A. However, section 206AA would continue to be applicable to persons whose income is above the maximum amount not chargeable to income-tax.

2. Can an assessee revise the particulars filed in the original return of income by filing a revised statement of income?

Orissa Rural Housing Development Corpn.Ltd. vs. ACIT (2012) 343 ITR 316(Orissa)

On this issue, the Orissa High Court held that the assessee can make a fresh claim before the Assessing Officer or make a change in the originally filed return of income only by filing revised return of income under section 139(5). There is no provision under the Income-tax Act, 1961 to enable an assessee to revise his income by filing a revised statement of income. Therefore, filing of revised statement of income is of no value and will not be considered by the Assessing Officer for assessment purposes.

The High Court, relying on the judgement of the Supreme Court in Goetze (India) Ltd. vs. CIT (2006) ITR 323, held that the Assessing Officer has no power to entertain a fresh claim made by the assessee after filing of the original return except by way of filing a revised return.

3. Is it permissible under section 147 to reopen the assessment of the assessee on the ground that income has escaped assessment, after a change of opinion as to a loss being a speculative loss and not a normal business loss, consequent to a mere re-look of accounts which were earlier furnished by the assessee during assessment under section 143(3)?

ACIT vs. ICICI Securities Primary Dealership Ltd.(2012) 348 ITR 299 (SC)

Relevant section: 147

In the above case, the Assessing Officer had completed the assessment of assessee under section 143(3) after taking into consideration the accounts furnished by assessee. After the lapse of four years from relevant assessment year, the Assessing Officer had reopened the assessment of assessee under section 147 on the ground that after re-look of the accounts of the relevant previous year, it was noticed that the assessee company had incurred a loss in trading in share, which was a speculative one. Therefore, such loss can only be set off against speculative income. Consequently, the loss represents income which has escaped assessment. Accordingly, the Assessing Officer came to conclusion that income had escaped assessment and passed an order under section 147.

The Supreme Court observed that the assessee had disclosed full details in the return of income in the matter of its dealing in stocks and shares. There was no failure on the part of assessee to disclose material facts as mentioned in proviso to section 147. Further, there is nothing new which has come to the notice of the Assessing Officer. The accounts had been furnished by the assessee when called upon. Therefore, re-opening of the assessment by the Assessing Officer is clearly a change of opinion and therefore, the order of re-opening the assessment is not valid.

- 4. In case of change of incumbent of an office, can the successor Assessing Office initiate reassessment proceedings on the ground of change of opinion in relation to an issue which the predecessor Assessing Officer, who had framed the original assessment, had already applied his mind and come to a conclusion?**

H. K. Buildcon Ltd.vs. Income-tax Officer (2011) 339 ITR 535 (Guj.)

On this issue, the Gujarat High Court referred to the ruling of the Apex Court in CIT vs. Kelvinator of India Ltd. (2010) 320 ITR 561, wherein it was held that the Assessing Officer has the power only to reassess and not to review. Reassessment has to be based on fulfillment of certain precondition and if the concept of change of opinion is removed, then, in the garb of reopening the assessment, review would take place. The Apex Court further laid down that one must treat the concept of change of opinion as an in-built test to check abuse of power by the Assessing Officer. The Apex Court referred to Circular No.549 dated 31.10.1989 explaining the amendment made by the Direct Tax Laws (Amendment) Act, 1989 with effect from 1.4.1989 to reintroduce the expression "reason to believe", and concluded that if the phrase "reason to believe" is omitted, the same would give arbitrary powers to the Assessing Officer to reopen the past assessment on mere change of opinion and this is not permissible even as per legislative intent.

The Gujarat High Court, applying the rationale of the Apex Court ruling, observed that in the entire reasons recorded in this case, there was nothing on record to show that income had escaped assessment in respect of which the successor Assessing Officer received information subsequently, from an external source. The reasons recorded themselves indicated that the successor Assessing Officer had merely recorded a different opinion in relation to an issue to which the Assessing Officer, who had framed the original assessment, had already applied his mind and come to a conclusion. The notice of reassessment was, therefore, not valid.

- 5. Can the Assessing Officer issue notice under section 154 to rectify a mistake apparent from record in the intimation under section 143(1), after issue of a valid notice under section 143(2)?**

CIT vs. Haryana State Handloom and Handicrafts Corporation Ltd. (2011) 336 ITR 699 (P&H)

On this issue, the Punjab and Haryana High Court referred to the Delhi High Court ruling in CIT vs. Punjab National Bank (2001) 249 ITR 763, where it was held that rectification of an intimation cannot be made after issuance of notice under section 143(2) and during the pendency of proceedings under section 143(3). It was held that if any change was permissible to be effected, the same can be done in the assessment under section 143(3) and not by exercising the power under section 154 to rectify the intimation issued under section 143(1).

In the present case, the Punjab and Haryana High Court relying, inter alia, on the said decision held that the scope of proceedings under section 143(2) is wider than the power of rectification of mistake apparent from record under section 154. The notice under section 143(2) is issued to ensure that the assessee has not understated the income or has not computed excessive loss or underpaid the tax. It is only on consideration of the matter and on being satisfied that it is necessary or expedient to do so that the Assessing Officer issues the notice under section 143(2). Therefore, the Assessing Officer has to proceed under section 143(3) and issue an assessment order. If issue of notice under section 154 is permitted to rectify the intimation issued under section 143(1), then it would lead to duplication of work and wastage of time.

Therefore, it was concluded that proceedings under section 154 for rectification of intimation under section 143(1) cannot be initiated after issuance of notice under section 143(2) by the Assessing Officer to the assessee.

- 6. Can the unabsorbed depreciation be allowed to be carried forward in case the return of income is not filed within the due date?**

CIT vs. Govind Nagar Sugar Ltd. (2011) 334 ITR 13(Delhi)

On this issue, the Delhi High Court observed that, the provisions of section 80 and section 139(3), requiring the return of income claiming loss to be filed within the due date, applies to, inter alia, carry forward of business loss and not for the carrying forward of unabsorbed depreciation. As per the provisions of section 32(2), the unabsorbed depreciation becomes part of next year's depreciation allowance and is allowed to be set-off as per the provisions of the Income-tax Act, 1961, irrespective of whether the return of earlier year was filed within due date or not.

Therefore, in the present case, the High Court held that the unabsorbed depreciation will be allowed to be carried forward to subsequent year even though the return of income of the current assessment year was not filed within the due date.

7. Would the doctrine of merger apply for calculating the period of limitation under section 154(7)?

CIT vs. Tony Electronics Limited (2010) 320 ITR 378 (Del.)

Relevant section: 154(7)

The issue under consideration is whether the time limit of 4 years as per section 154(7) would apply from the date of original assessment order or the order of the Appellate Authority.

The High Court held that once an appeal against the order passed by an authority is preferred and is decided by the appellate authority, the order of the Assessing Officer merges with the order of the appellate authority. After merger, the order of the original authority ceases to exist and the order of the appellate authority prevails. Thus, the period of limitation of 4 years for the purpose of section 154(7) has to be counted from the date of the order of the Appellate Authority.

8. Does the Central Board of Direct Taxes (CBDT) have the power under section 119(2)(b) to condone the delay in filing return of income?

Lodhi Property Company Ltd. vs. Under Secretary, (ITA-II), Department of Revenue (2010) 323 ITR 0441 (Del.)

The assessee filed his return of income which contains a claim for carry forward of losses a day after the due date. The delay of one day in filing the return of income was due to the fact that the assessee had not reached the Central Revenue Building on time because he was sent from one room to the other and by the time he reached the room where his return was to be accepted, it was already 6.00 p.m. and he was told that the return would not be accepted because the counter had been closed. These circumstances were recorded in the letter along with the return of income delivered to the office of the Deputy Commissioner of Income-tax on the very next day. Later on, the CBDT, by a non-speaking order, rejected the request of the assessee for condonation of delay in filing the return of income under section 119.

The issue under consideration is whether the CBDT has the power under section 119(2)(b) to condone the delay in filing return of income.

The High Court held that the Board has the power to condone the delay in case of a return which was filed late and where a claim for carry forward of losses was made. The delay was only one day and the assessee had shown sufficient reason for the delay of one day in filing the return of income. If the delay is not condoned, it would cause genuine hardship to the petitioner. Therefore, the Court held that the delay of one day in filing of the return was to be condoned.

Note – Section 119(2)(b) empowers the CBDT to authorise any income tax authority to admit an application or claim for any exemption, deduction, refund or any other relief under the Act after the expiry of the period specified under the Act, to avoid genuine hardship in any case or class of cases. The claim for carry forward of loss in case of a loss return is relatable to a claim arising under the category of any other relief available under the Act. Therefore, the CBDT has the power to condone delay in filing of such loss return due to genuine reasons.

9. Can the Assessing Officer reopen an assessment on the basis of merely a change of opinion?

Aventis Pharma Ltd. vs. ACIT (2010) 323 ITR 0570 (Bom.)

The power to reopen an assessment is conditional on the formation of a reason to believe that income chargeable to tax has escaped assessment. The existence of tangible material is essential to safeguard against an arbitrary exercise of this power.

In this case, the High Court observed that there was no tangible material before the Assessing Officer to hold that income had escaped assessment within the meaning of section 147 and the reasons recorded for reopening the assessment constituted a mere change of opinion. Therefore, the reassessment was not valid.

10. Whether the Tribunal was right in holding that the assessment framed in the status of HUF by the Assessing Officer as null and void, though the assessee himself admitted during the assessment proceedings that the land sold by him on which consideration was received and was declared in the return of income as capital gains, belonged to HUF?

CIT vs. Rohtas (2009) 311 ITR 460 (P&H)

Relevant Section: 148

The assessee sold agricultural land which was assessable to tax under the head Capital gains but the assessee did not file the return. Pursuant to the notice under section 148 of the Income-tax Act, 1961, the assessee filed his return in the status of individual. The Assessing Officer completed the assessment treating the status of the assessee as Hindu undivided family as against individual. This was confirmed by the Commissioner (Appeals). The Tribunal held that the assessment framed by the Assessing Officer was null and void because the notice issued to the assessee under section 148 was without intimating his status to be Hindu undivided family.

The High Court held that the finding of the Tribunal was that the assessee did not make any statement about the status of Hindu undivided family in the letter in question on which the Assessing Officer had placed heavy reliance. Once a notice under section 148 and other notices under section 143(2) and 142(1) were issued treating the assessee as individual then the Assessing Officer could not have framed the assessment treating the income in the hands of the Hindu undivided family.

11. Whether the Tribunal was right in law in upholding the order of the CIT(A) in deleting the trading addition made by the Assessing Officer, as the assessee failed to produce the quantitative details of raw materials and finished products?

CIT vs. Om Overseas (2009) 315 ITR 185 (P&H) Relevant Section: 143

The assessee-firm derived its income from manufacturing and export of duries, rugs, woollen carpets, made ups, etc., and filed a nil return of income. Subsequently it was assessed under section 143(3) of the Income-tax Act, 1961 and it declared gross profit on the total turnover of 25.38 per cent as against 29.5 per cent declared in the immediate preceding assessment year. Being dissatisfied with the explanation given by the assessee, the Assessing Officer rejected the books of account of the assessee invoking section 145(3) and applied the gross profit rate of 27 per cent which resulted in certain additions. The Commissioner (Appeals) deleted the additions made by the Assessing Officer. The Tribunal upheld the order of the Commissioner (Appeals).

The High Court held that the factual finding given by the Commissioner (Appeals) that the additions were made by the Assessing Officer without pointing out any specific defect in the books of account was upheld by the Tribunal. As no perversity or illegality in the finding was pointed out by the Department, no substantial question of law arose for determination.

12. Whether a proceedings sent pursuant to filing of returns without demand of tax or interest is an intimation under section 143(1)(a) of the Act?

CIT vs. Sitaram Textiles (2009) 313 ITR 330 (Ker.) Relevant Section: 154

The assessee has filed loss returns for the two assessment years which were accepted by the Assessing Officer and intimations were sent under section 143(1)(a) of the Income-tax Act, 1961. After issuing notice under section 143(2) of the Act, regular assessment was completed under section 143(3) of the Act. Later, the Assessing Officer noticed that the intimations sent were incorrect. Accordingly notices were sent under section 154(1)(b) of the Act and assessments were rectified. In the appeals filed by the assessee, the Commissioner of Income-tax (Appeals) held that the proceedings sent under section 143(1)(a) for the respective assessment years do not constitute intimations under section 143(1)(a) of the Act. Consequently, he cancelled the rectification orders in which additional tax was demanded under section 143(1A) of the Act. In second appeal filed by the Department before the Tribunal, the Tribunal confirmed the orders of the Commissioner of Income-tax (Appeals).

The proviso to section 143(1) of the Income-tax Act, 1961, makes it clear that besides acknowledgment of receipt of return, issue of an intimation under section 143(1)(a) is contemplated under the Act. The above provision specifically authorises rectification of mistakes in such intimations issued. In fact, prior to the amendment with effect from June 1, 1999, section 154(1)(b) provided for amendment of any intimation sent by the officer under sub-section (1) of section 143 or to enhance or reduce the amount of refund granted by it under that sub-section. An intimation sent without demand of tax or interest also could be rectified under section 154(1)(b).

Where proceedings issued under section 143(1)(a) are not superseded or merged in the assessment issued under section 143(3), it would be open to the officer to rectify the intimation issued under section 143(1)(a).

13. Whether the Tribunal is right in holding that the rectification order under section 154 was not proper especially when the audit had raised an objection that the interest income was to be brought to tax under the head 'Income from other sources'?

CIT vs. A. G. Granites P. Ltd. (2009) 311 ITR 170 (Mad.) Relevant Section: 154

The assessee-company, an exporter of granite blocks, filed its return of income admitting an income of ₹ 9,68,900 after claiming deduction under section 10B of the Income-tax Act, 1961, to the extent of ₹ 1,32,389. The return was processed under section 143(1) and refund of ₹ 1,280 was allowed. On verification of the records, it was noticed that the assessee had offered interest income on fixed deposit made under the head "Other income", but it was required to be assessed under the head "Income from other sources". Upon a notice under section 154 of the Act to the assessee, the Assessing Officer after considering the reply rectified the assessment order. The appeal filed by the assessee was dismissed by the Commissioner (Appeals). The Tribunal, allowing the appeal filed by the assessee, held that debatable issues were not to be rectified under section 154 of the Act.

Section 154 of the Income-tax Act, 1961, provides for rectification of mistakes, which are apparent from the record. The phraseology "mistake apparent from the record" has been considered by several judicial opinions and all those judicial opinions uniformly held that an error, which is not self-evident, and has to be detected by a process of reasoning, cannot be said to be an error apparent on the face of the record. There is a clear distinction between an erroneous order and an error apparent on the face of the record, while the first can be corrected by the higher forum, the latter can only be corrected by exercise of the power of rectification.

The High Court held that the issue as to the head under which the "interest income" had to be assessed was a debatable issue. Thus, the interest income offered by the assessee under the head "Other income" could not be reassessed under the head "Income from other sources" by way of rectification and on the basis of the objection raised by the audit parties.

14. Can the Assessing Officer reassess issues other than the issues in respect of which proceedings were initiated under section 147 when the original "reason to believe" on basis of which the notice was issued ceased to exist?

Ranbaxy Laboratories Ltd. vs. CIT (2011) 336 ITR 136 (Delhi)

In the present case, the assessee company was engaged in the business of manufacture and trading of pharmaceutical products. The Assessing Officer accepted the returned income filed by the assessee but initiated reassessment proceedings under section 147 in respect of the addition to be made on account of club fees, gifts and presents and provision for leave encashment. It was observed that the Assessing Officer had reason to believe that income has escaped assessment due to claim and allowance of such expenses and accordingly, he issued notice under section 148. However, after sufficient enquiries were made during reassessment proceedings, the Assessing Officer came to the conclusion that no additions are required to be made on account of these expenses. Therefore, while completing the reassessment he did not make additions on account of these items but instead made additions on the basis of other issues which were not the original "reason to believe" for the issue of notice under section 148. The Assessing Officer made such additions on the basis of Explanation 3 to section 147 as per which the Assessing Officer may assess the income which has escaped assessment and which comes to his notice subsequently in the course of proceedings under section 147 even though the said issue did not find mention in the reasons recorded in the notice issued under section 148.

The issue under consideration is whether the Assessing Officer can make an assessment on the basis of an issue which came to his notice during the course of assessment, where the issues, which originally formed the basis of issue of notice under section 148, were dropped in its entirety.

As per section 147, the Assessing Officer may assess or reassess such income and also any other income chargeable to tax which has escaped assessment and which comes to his notice in the course of proceedings under this section. The Delhi High Court observed that the words "and also" used in section 147 are of wide amplitude.

The correct interpretation of the Parliament would be to regard the words 'and also' as being "conjunctive and cumulative with" and not "in alternative to" the first part of the sentence, namely, "the Assessing Officer may assess and reassess such income". It is significant to note that Parliament has not used the word 'or' but has used the word 'and' together and in conjunction with the word 'also'. The words 'such income' in the first part of the sentence refer to the income chargeable to tax which has escaped assessment and in respect of which the Assessing Officer has formed a reason to believe for issue of the notice under section 148. Hence, the language used by the Parliament is indicative of the position that the assessment or reassessment must be in respect of the income, in respect of which the Assessing Officer has formed a reason to believe that the same has escaped assessment and also in respect of any other income which comes to his notice subsequently during the course of the proceedings as having escaped assessment. If the income, the escapement of which was the basis of the formation of the "reason to believe" is not assessed or reassessed, it would not be open to the Assessing Officer to independently assess only that income which comes to his notice subsequently in the course of the proceedings under the section as having escaped assessment. If he intends to do so, a fresh notice under section 148 would be necessary.

L. SEARCH, SEIZURE AND BLOCK ASSESSMENT

1. Discuss whether section 133(6) is applicable in the case of a co-operative society or co-operative bank

Section 2(31) defines 'person'. The definition clause is inclusive and not exhaustive. After arraying the categories of persons covered by the normal meaning of term 'person', the residuary clause covers every 'artificial juridical person' not falling within any of the preceding sub-clauses. This shows that the Act does not exclude anyone or any institution from the scope of definition of the term 'person'. A society constituted under the Co-operative Societies Act is an artificial juridical person and so much so it answers the above definition of 'person'. Therefore, section 133(6) squarely applies to a co-operative society as well. Want of specific mention of co-operative society or co-operative bank in section 133(6) does not make any difference. Co-operative societies or Co-

operative banks are not immune from proceedings under section 133(6) so far as they come within the definition of 'person'.

The provisions of sections 80P and 194A, under which the co-operative societies enjoy exemption from payment of income-tax and also enjoy immunity from deduction of tax at source in respect of receipt of interest on their deposits with other institutions, do not have any relation with section 133(6). Exemption and immunity available under these sections are mutually complimentary and are on certain income of the society. This does not mean that the activities of the society are free from scrutiny by the Income-tax Department. Co-operative society is an asscsce under the Act and is liable to pay tax on income covered by section 80P though at a lower rate. Therefore, every society will have to file its return and the same would be subject to scrutiny by the department. The Assessing Officer is, therefore, free to call for books of account to convince himself about the correctness of the return filed. Therefore, books of account of the society and its transactions are subject to scrutiny by the Assessing Officer in the normal course-M.V. Rajendran vs. ITO[2003] 128 Taxman 385 (Ken).

2. An Inspector calls at the residence of X seeking information about X's income and assets. Can X decline to co-operate in the enquiry?

Powers of survey under section 133A is limited to (i) entry of a place at which business or profession is carried on, (ii) inspection of accounts, verification of cash, stock and (iii) collection of information at the place. Officials are expected to follow the law scrupulously and they should be cautious to avoid a trespass, when there is resistance to their survey of a residence. A survey of residential premises is not authorised in the Act. There is nothing, however, to prevent an Assessing Officer's conducting a search of the residential premises under section 132, provided the pre-conditions stipulated in that section are satisfied.

It is the duty of every citizen to furnish whatever information is relevant to his or her assessment to the tax authorities. The mere fact that the taxpayer does not consider the query relevant to his or her assessment will not be a good ground for refusing to answer the query. When the required information is already in the assessment records of the taxpayer, the official who calls at the taxpayer's residence may be courteously told that the assessment records may be referred to. When the information asked for is not readily available at home, the official may be requested to leave his address and the materials may be communicated to him by post. If the owner or tenant or the principal member of the family is not at home, the official may be asked to contact him later either at home or at his place of work. The burden of compliance and the obligation to furnish the information needed is greater in the case of a person who has not paid the taxes due from him despite his liability. It is always good to extend co-operation to the income-tax administration by not withholding necessary information and by clearing all reasonable doubts. Suppression of facts, if any, will, in the long-run, prove prejudicial to the taxpayer's interests.

3. While some Assessing Officers permit tax advocates and authorised persons to be present during survey/ search and copies of the statements recorded at the time of survey/search are supplied on the spot to the assessee, some Officers do not permit the authorised representatives to witness the proceedings and refuse to give copies of statements to the assessee. In connection with survey/ search, discuss the following:

- (1) Whether an authorised person can be present at the time of survey/ search ?**
- (2) Whether the assessee is entitled to receive a copy of the statement recorded at the time of survey/search?**
- (3) Whether the assessee is entitled to receive a copy of inventory of stocks prepared at the time of survey/search?**
- (4) Whether the assessee is entitled to receive copies of the documents referred to above on application and on payment of fee.**

The queries raised are answered in seriatum as follows :

- (1) Whether an authorised person can be 'present at the time of survey or search - Presumably the querist refers to an authorised representative as contemplated in section 288. The functions of this authorised representative is to represent the assessee in some of the proceedings under the Act. He cannot be a substitute for the assessee when the latter is required under section 131 to attend personally for examination on oath or affirmation. Now, a search or seizure proceeding under section 132, or a survey under section 133A, does not take place by appointment, nor is there a previous notice served on the assessee to be present at the scene. The question of the services of an authorised representative during such proceedings does not, therefore, ordinarily arise. But the assessee or the owner of the searched premises may not find it possible to be present in all the rooms of the premises. He may, therefore, authorise someone else to be present when a search is going on. But this principle of natural justice will not entitle him to authorise the person to sign seized documents, etc., on his behalf or assist him when he is examined on oath. The search is required to be made by the income-tax authorities in the presence of two or more respectable inhabitants of the locality in which the building or place to be searched is situated [Rule 112(6) of the Income-tax Rules]. Section 132(4) provides for the examination of the person found in possession of the seized valuables on the spot. A witness is not entitled to be assisted or represented by a lawyer or a representative.
 - (2) Whether the assessee is entitled to receive a copy of the statement recorded at the time of the search/survey-The provisions of sub-section (4) of section 132 empower the 'authorised officer' to examine on oath any person found to be in possession of documents, money, jewellery, etc., and to record his statement. As such statements constitute evidence in the relation to the assessment or any other proceedings under the Act, the assessee is entitled to copies of such recorded evidence so as to avail of the opportunity to defend his case. The denial of such opportunity to the assessee will vitiate any proceedings against him.
 - (3) Whether assessee is entitled to receive a copy of inventory of stocks prepared at the time of survey/search- The provisions of section 132(l)(b)(v) relating to search and seizure, and of section 133A(3)(it) relating to survey, empower the appropriate income-tax authority to make an inventory of 'valuable article or thing' or of stock. While a list of all seized things has to be delivered to the person owning or occupying the searched premises in terms of rule 112(8) of the Income-tax Rules, there is no provision either in section 132 or section 132A or the Rules requiring the authority conducting a search or a survey to let the owner/occupant of the premises have a copy of any inventory that he may make of the things found in the place searched/surveyed, but not seized. However, it is obvious that it is in the interests of the revenue to give a copy and to get the signature of the owner/occupant on the spot as a confirmation of the authenticity/accuracy of the survey, backed by a statement from the owner/occupant. Failure to do so will expose the revenue in avoidable disputes about the correctness of the inventory.
 - (4) Whether the assessee is entitled to receive copies of documents referred to above on application and on payment of fee - The answer is in the affirmative. Section 132(9) enables the person from whose custody any books of account or documents are seized under section 132(1) or 132(2A) to make copies thereof or extracts therefrom. One can ask for a certified copy of any document to which he is entitled in law. The Allahabad High Court has pointed out that unless there is a statutory prohibition, a person against whom action is being taken under section 132 is entitled to inspect the record of the proceedings and obtain copies of the orders passed in those proceedings-New Kashmir & Oriental Transport Co. (P.) Ltd vs. CIT [1973] 92 ITR 334 (All.). If an assessment is made on the basis of materials to which access has not been given to the assessee, cannot obviously be sustained-Ramesh Chander v. CIT [1974] 93 ITR 244 (Punj.) and Dhaniram Gupta v. Union of India [1973] 189 ITR 280 (Cal.).
- 4. Is the Assessing Officer's refusal to deliver a carbon copy of the statement on oath taken at the time of special survey under section 133A valid or against the law?**

Sub-section (5) of section 133A, which relates to enquiries in connection with a function or ceremony, empowers an income-tax authority to have the statements of the assessee or any other person recorded. It is also stated that any statement so recorded may, thereafter, be used in evidence in any proceeding under the Act. Further, clause (iii) of section 133A(3) similarly authorises the recording of the statement of any person which may be useful for or relevant to any proceeding under the Act.

No rules have been framed in respect of the proceedings under section 133A. However, since statements recorded under section 133A will constitute evidence in relation to assessment proceedings, and the assessee will have to be given full opportunity for rebuttal of any material likely to be used against him, for which he will need appropriate preparation, it is obvious that the assessee is entitled to copies of such recorded evidence. The denial of such opportunity to the assessee may weaken or even invalidate the proceedings against him. It is not, however, necessary that the tax authorities should give the assessee a carbon copy of the statement immediately it is recorded, i.e., on the spot.

M. APPEALS AND REVISION

1. **Would the period of limitation for an order passed under section 263 be reckoned from the original order passed by the Assessing Officer under section 143(3) or from the order of reassessment passed under section 147, where the subject matter of revision is different from the subject matter of reassessment under section 147?**

CIT vs. ICICI Bank Ltd. (2012) 343 ITR 74 (Bom.)

In the present case, an order of assessment was passed under section 143(3) allowing the deduction under section 36(1)(vii), 36(1)(viia) and foreign exchange rate difference. Further, two notices of reassessment were issued under section 148 and an order of reassessment was passed under section 147 which did not deal with the above deductions.

Later, the Commissioner passed an order under section 263 for disallowing the deduction under section 36(1)(vii), 36(1)(viia) and in respect of foreign exchange rate difference which have not been taken up in the reassessment proceedings under section 147 but which was decided in the original order of assessment passed under section 143(3).

The assessee claimed that the order passed by the Commissioner under section 263 is barred by limitation since the period of 2 years from the end of the financial year in which the order sought to be revised was passed, had lapsed. However, the Revenue gave a plea that period of limitation shall be reckoned from the date of order under section 147 and not from the date of the original assessment order under section 143(3), applying the doctrine of merger.

The Revenue pointed out that as per the provisions of Explanation 3 to section 147, the Assessing Officer is entitled to assess or reassess the income in respect of any issue which has escaped assessment though the reasons in respect of such issue have not been included in the reasons recorded under section 148(2).

Considering the above mentioned facts, the Bombay High Court held that the order of assessment under section 143(3) allowed deduction under section 36(1)(vii), 36(1)(viia) and in respect of foreign exchange rate difference. The order of reassessment, however, had not dealt with these issues. Therefore, the doctrine of merger cannot be applied in this case. The order under section 143(3) cannot stand merged with the order of reassessment in respect of those issues which did not form the subject matter of the reassessment. Therefore, period of limitation in respect of the order of Commissioner under section 263 in respect of a matter which does not form the subject matter of reassessment shall be reckoned from the date of the original order under section 143(3) and not from the date of the reassessment order under section 147.

- 2. Can an assessee make an additional/new claim before an appellate authority, which was not claimed by the assessee in the return of income (though he was legally entitled to), otherwise than by way of filing a revised return of income?**

CIT vs. Pruthvi Brokers & Shareholders (2012) 208 Taxman 498 (Bom.)

While considering the above mentioned issue, the Bombay High Court observed the decision of the Supreme Court, in the case of Jute Corporation of India Ltd. vs. CIT (1991) 187 ITR 688 and National Thermal Power Corporation. Ltd vs. CIT (1998) 229 ITR 383, that an assessee is entitled to raise additional claims before the appellate authorities. The appellate authorities have jurisdiction to permit additional claims before them, however, the exercise of such jurisdiction is entirely the authorities' discretion.

Also, the High Court considered the decision of the Apex Court in the case of Addl. CIT vs. Gurjargravures (P.) Ltd.(1978) 111 ITR 1, wherein it was held that in case an additional ground was raised before the appellate authority which could not have been raised at the stage when the return was filed or when the assessment order was made, or the ground became available on account of change of circumstances or law, the appellate authority can allow the same.

The Supreme Court, in the case of Goetze (India) Ltd vs. CIT (2006) 157 Taxmann 1, held that the assessee cannot make a claim before the Assessing Officer otherwise than by filing an application for the same. The additional claim before the Assessing Officer can be made only by way of filing revised return of income.

The decision in the above mentioned case, however, does not apply in this case, since the Assessing Officer is not an Appellate Authority.

Therefore, in the present case, the Bombay High Court, considering the above mentioned decisions, held that additional grounds can be raised before the Appellate Authority even otherwise than by way of filing return of income. However, in case the claim has to be made before the Assessing Officer, the same can only be made by way of filing a revised return of income.

- 3. Does the Appellate Tribunal have the power to review or re-appreciate the correctness of its earlier decision under section 254(2)?**

CIT vs. Earnest Exports Ltd. (2010) 323 ITR 577 (Bom.)

Relevant section: 254(2)

In this case, the High Court observed that the power under section 254(2) is limited to rectification of a mistake apparent on record and therefore, the Tribunal must restrict itself within those parameters. Section 254(2) is not a carte blanche for the Tribunal to change its own view by substituting a view which it believes should have been taken in the first instance. Section 254(2) is not a mandate to unsettle decisions taken after due reflection.

In this case, the Tribunal, while dealing with the application under section 245(2), virtually reconsidered the entire matter and came to a different conclusion. This amounted to a re-appreciation of the correctness of the earlier decision on merits, which is beyond the scope of the power conferred under section 254(2).

- 4. Does the High Court have an inherent power under the Income-tax Act, 1961 to review an earlier order passed on merits?**

Deepak Kumar Garg vs. CIT (2010) 327 ITR 448 (MP)

Relevant section: 260A(7)

The power to review is not an inherent power and must be conferred by law specifically by express provision or by necessary implication. The appellate jurisdiction of the High Court carries with it

statutory limitations under the statute, unlike the extraordinary powers which are enjoyed by the Court under article 226 of the Constitution of India.

It was observed that, keeping in view the provisions of section 260A(7), the power of re-admission/restoration of the appeal is always enjoyed by the High Court. However, such power to restore the appeal cannot be treated to be a power to review the earlier order passed on merits.

5. Would the doctrine of merger apply for calculating the period of limitation under section 154(7)?

CIT vs. Tony Electronics Limited (2010) 320 ITR 378 (Del.)

The issue under consideration is whether the time limit of 4 years as per section 154(7) would apply from the date of original assessment order or the order of the Appellate Authority.

The High Court held that once an appeal against the order passed by an authority is preferred and is decided by the appellate authority, the order of the Assessing Officer merges with the order of the appellate authority. After merger, the order of the original authority ceases to exist and the order of the appellate authority prevails. Thus, the period of limitation of 4 years for the purpose of section 154(7) has to be counted from the date of the order of the Appellate Authority.

Note - In this case, the Delhi High Court has followed the decision of the Supreme Court in case of Hind Wire Industries vs. CIT (1995) 212 ITR 639.

6. Does the Appellate Tribunal have the power to recall its own order under section 254(2)?

CIT vs. Earnest Exports Ltd. (2010) 323 ITR 577 (Bom.)

In this case, the High Court observed that the power under section 254(2) is limited to rectification of a mistake apparent on record and therefore, the Tribunal must restrict itself within those parameters. Section 254(2) is not a carte blanche for the Tribunal to change its own view by substituting a view which it believes should have been taken in the first instance. Section 254(2) is not a mandate to unsettle decisions taken after due reflection.

In this case, the Tribunal, while dealing with the application under section 245(2), virtually reconsidered the entire matter and came to a different conclusion. This amounted to a re-appreciation of the correctness of the earlier decision on merits, which is beyond the scope of the power conferred under section 254(2).

7. Can the Tribunal exercise its power of rectification under section 254(2) to recall its order in entirety?

Lachman Dass Bhatia Hingwala (P) Ltd. vs. ACIT (2011) 330 ITR 243 (Delhi) [FB]

On this issue, the Delhi High Court observed that the justification of an order passed by the Tribunal recalling its own order is required to be tested on the basis of the law laid down by the Apex Court in Honda Sael Power Products Ltd. vs. CIT (2007) 295 ITR 466, dealing with the Tribunal's power under section 254(2) to recall its order where prejudice has resulted to a party due to an apparent omission, mistake or error committed by the Tribunal while passing the order. Such recalling of order for correcting an apparent mistake committed by the Tribunal has nothing to do with the doctrine or concept of inherent power of review. It is a well settled provision of law that the Tribunal has no inherent power to review its own judgment or order on merits or re-appreciate the correctness of its earlier decision on merits. However, the power to recall has to be distinguished from the power to review. While the Tribunal does not have the inherent power to review its order on merits, it can recall its order for the purpose of correcting a mistake apparent from the record.

The Apex Court, while dealing with the power of the Tribunal under section 254(2) in Honda Sael Power Products Ltd., observed that one of the important reasons for giving the power of rectification to the Tribunal is to see that no prejudice is caused to either of the parties appearing before it by its decision based on a mistake apparent from the record. When prejudice results from an order attributable to the Tribunal's mistake, error or omission, then it is the duty of the Tribunal to set it right. In that case, the Tribunal had not considered the material which was already on record

while passing the judgment. The Apex Court took note of the fact that the Tribunal committed a mistake in not considering material which was already on record and the Tribunal acknowledged its mistake and accordingly, rectified its order.

The above decision of the Apex Court is an authority for the proposition that the Tribunal, in certain circumstances can recall its own order and section 254(2) does not totally prohibit so. In view of the law laid down by the Apex Court in that case, the decisions rendered by the High Courts in certain cases to the effect that the Tribunal under no circumstances can recall its order in entirety do not lay down the correct statement of law.

Applying the above-mentioned decision of the Apex Court to this case, the Delhi High Court observed that the Tribunal, while exercising the power of rectification under section 254(2), can recall its order in entirety if it is satisfied that prejudice has resulted to the party which is attributable to the Tribunal's mistake, error or omission and the error committed is apparent.

Note - In deciding whether the power under section 254(2) can be exercised to recall an order in entirety, it is necessary to understand the true principle laid down in the Apex Court decision. A decision should not be mechanically applied treating the same as a precedent without appreciating the underlying principle contained therein. In this case, the Apex Court decision was applied since prejudice had resulted to the party on account of the mistake of the Tribunal apparent from record.

8. Can the Assessing Officer issue notice under section 154 to rectify a mistake apparent from record in the intimation under section 143(1), after issue of a valid notice under section 143(2)?

CIT vs. Haryana State Handloom and Handicrafts Corporation Ltd. [2011] 336 ITR 699 (P&H)

On this issue, the Punjab and Haryana High Court referred to the Delhi High Court ruling in CIT vs. Punjab National Bank (2001) 249 ITR 763, where it was held that rectification of an intimation cannot be made after issuance of notice under section 143(2) and during the pendency of proceedings under section 143(3). It was held that if any change was permissible to be effected, the same can be done in the assessment under section 143(3) and not by exercising the power under section 154 to rectify the intimation issued under section 143(1)

In the present case, the Punjab and Haryana High Court relying, inter alia, on the said decision held that the scope of proceedings under section 143(2) is wider than the power of rectification of mistake apparent from record under section 154. The notice under section 143(2) is issued to ensure that the assessee has not understated the income or has not computed excessive loss or underpaid the tax. It is only on consideration of the matter and on being satisfied that it is necessary or expedient to do so that the Assessing Officer issues the notice under section 143(2). Therefore, the the Assessing Officer has to proceed under section 143(3) and issue an assessment order. If issue of notice under section 154 is permitted to rectify the intimation issued under section 143(1), then it would lead to duplication of work and wastage of time.

Therefore, it was concluded that proceedings under section 154 for rectification of intimation under section 143(1) cannot be initiated after issuance of notice under section 143(2) by the Assessing Officer to the assessee.

9. Can the Commissioner initiate revision proceedings under section 263 on the ground that the Assessing Officer's order not initiating penal proceedings was erroneous and prejudicial to the interest of the Revenue, in a case where non-initiation of penal proceedings was a pre-condition for surrender of income by the assessee?

CIT vs. Subhash Kumar Jain [2011] 335 ITR 364 (P&H)

In the present case, an addition of ₹ 9,91,090 was made in the assessment of the assessee under section 143(3) on account of agricultural income, since the assessee failed to explain the source of agricultural income as declared by him in the return of income. The said addition was made on the basis of the report submitted by the Inspector pointing out the defects in the documents

furnished by the assessee. As a result, the assessee made an offer to surrender ₹ 9,91,090 subject to a condition that no penal action under section 271(1)(c) would be initiated. The Assessing Officer accepted the same as the department did not have any documentary evidence against the assessee and the assessment was made only on the basis of the report by the Inspector. Accordingly, the assessment was framed by the Assessing Officer without initiating the penalty proceedings under section 271(1)(c). The Commissioner of Income-tax, exercising his power under section 263, directed the Assessing Officer to frame a fresh assessment order after taking into account the facts attracting the penal action under section 271(1)(c), considering the original order erroneous and prejudicial to the interest of the Revenue.

The issue under consideration in this case is whether, when the Assessing Officer, while passing the assessment order under section 143(3), had given effect to the office note that the surrender of the agricultural income which was made by the assessee would not be subject to penal action under section 271(1)(c) and accordingly not levied penalty, can the Commissioner of Income-tax, in exercise of his power under section 263, hold the order of the Assessing Officer to be erroneous and prejudicial to the interest of the Revenue.

On this issue, the Punjab and Haryana High Court observed that, on perusal of the office note issued by the Assessing Officer, it was clear that the assessee had made surrender of income with a clear condition that no penal action under section 271(1)(c) would be initiated. The office note further depicts that the offer of the assessee was accepted by the Department. Once that was so, the Commissioner cannot take a different view and levy penalty. The High Court relied on the decision of the Bombay High Court in *Jivatlal Purtapshi vs. CIT* (1967) 65 ITR 261, where it was observed that an order based on an agreement cannot give rise to grievances and the same cannot be agitated.

- 10. The Assessing Officer served the notice under section 143(2) on the assessee's brother on March 18, fixing the date of hearing on March 19. The notice was not handed over to the assessee by the brother. The assessment which was becoming time barred was made by the Assessing Officer on March 20. Before this, no notice was issued under section 143(2). The assessee filed an appeal under section 246A and his plea is that the officer has passed the order under section 144 without jurisdiction because he did not serve the notice under section 143(2) on the assessee. The assessee's contention is that the notice should have been sent to him by registered post after the amendment in CPC, by Order 5 rule 19A but this was not done. His further contention is that the officer has violated natural justice by not disclosing to him the basis of the best judgment assessment. The view of the Commissioner (Appeals) is that appeal filed under section 246A on the above grounds are not maintainable. Discuss whether the Assessing Officer's order was legal and whether the Commissioner (Appeals) view is correct.**

This is a case which illustrates how avoidable difficulties arise by reason of the taxpayer's failure to avail of the remedies for which the law provides. It would certainly be very unreasonable to expect a taxpayer to appear before the Assessing Officer on 19th March if the notice was served only on 18th and delivery of the notice to the taxpayer's forgetful or indifferent brother on 18th March makes the position worse for the revenue. If the Assessing Officer woke up when the case was getting time barred, he should have taken proper steps to ensure that his last-minute notice was not miscarried. The assessee is entitled to satisfy the appellate authorities on the mistakes, if any, in the basis of the estimate of income and obtain appropriate relief, but they will be justified in shutting out any agitation on the propriety of the ex parte assessment in the appeal against the quantum of income assessed. The assessee can either move the Commissioner under section 264 for revision of the assessment under section 144 or appeal to the ITAT against the Commissioner (Appeals) order for reduction of the income assessed. The former course is advisable if the assessee does not seriously dispute the quantum of income assessed and his anxiety is to avoid penalty under section 271. Alternatively, the quantum matter can be agitated before the ITAT and the penalty, if it is imposed, fought separately in appeal before the Commissioner (Appeals) and the ITAT in the ordinary course.

N. PENALTIES

1. Can the repayment of loan by passing mere adjusting book entries by the assessee be taken to be in contravention of provisions of section 269T to attract penalty under section 271 E?

CIT vs. Triumph International Finance (I.) Ltd. (2012) 345 ITR 270 (Bom.)

In the present case, the assessee is a public limited company, registered as category-I merchant banker with SEBI, engaged in the business of stock broking, investment and trading in shares and securities. The assessee had taken a loan from the Investment Trust of India. During the previous year in question, the assessee had transferred shares of a company held by it to the Investment Trust of India. Therefore, in the current assessment year, the assessee was liable to pay the loan amount to the Investment Trust of India and had a right to receive the sale price of the shares transferred to Investment Trust of India. In order to avoid the unnecessary circular transfer of shares, both the parties agreed to set-off the amount payable and receivable by way of passing journal entries and the balance loan amount was paid by the assessee by way of an account payee cheque. The amount of loan settled by way of passing journal entries exceeds ₹ 20,000.

The Assessing Officer passed the assessment order levying penalty under section 271E for the contravention of the provisions of section 269T on the argument that since section 269T put an obligation on the assessee to pay loan only by way of an account payee cheque or an account payee draft, the settlement of a portion of the loan by passing journal entry would be a mode otherwise than by way of an account payee cheque or an account payee draft and therefore, the penal provisions under section 271E shall be attracted.

The assessee argued that the transaction of repayment of loan or deposit by way of adjustment through book entries was carried out in the ordinary course of business and the genuineness of the assessee's transaction with the Investment Trust of India was also accepted by the Tribunal. It is a bonafide transaction. The assessee further contended that section 269T mentions that in a case where the loan or deposit is repaid by an outflow of funds, the same has to be by an account payee cheque or an account payee demand draft. However, in case the discharge of loan or deposit is in a manner otherwise than by an outflow of funds, as is the situation in the present case, the provisions of section 269T would not apply.

Considering the above mentioned facts and arguments, the Bombay High Court held that, the obligation to repay the loan or deposit by account payee cheque/ bank draft as specified in section 269T is mandatory in nature. The contravention of the said section will attract penalty under section 271E.

The argument of the assessee cannot be accepted since section 269T does not make a distinction between a bonafide or a non-bonafide transaction neither does it require the fulfillment of the condition mentioned therein only in case where there is outflow of funds. It merely puts a condition that in case a loan or deposit is repaid, it should be by way of an account payee cheque/ draft. Therefore, in the present case the assessee has repaid a portion of loan in contravention of provisions of section 269T.

However, the cause shown by the assessee for repayment of the loan otherwise than by account payee cheque/bank draft was on account of the fact that the assessee was liable to receive amount towards the sale price of the shares sold by the assessee to the person from whom loan was received by the assessee. It would have been mere formality to repay the loan amount by account payee cheque/draft and receive back almost the same amount towards the sale price of the shares. Also, neither the genuineness of the receipt of loan nor the transaction of repayment of loan by way of adjustment through book entries carried out in the ordinary course of business has been doubted in the regular assessment. Therefore, there is nothing on record to suggest that the amounts advanced by Investment Trust of India to the assessee represented the unaccounted money of the Investment Trust of India or the assessee and also it cannot be said that the whole transaction was entered into to avoid tax. This is accepted as a reasonable cause under section 273B.

In effect, the assessee has violated the provisions of section 269T by repaying the loan amount by way of passing book entries and therefore, penalty under section 271E is applicable. However, since the transaction is bona fide in nature being a normal business transaction and has not been made with a view to avoid tax, it was held that the assessee has shown reasonable cause for the failure under section 269T, and therefore, as per the provisions of section 273B, no penalty under section 271E could be imposed on the assessee for contravening the provisions of section 269T.

Note: In order to mitigate the hardship caused by certain penalty provisions in case of genuine business transactions, section 273B provides that no penalty under, inter alia, section 271E shall be imposed on a person for any failure referred to in the said section, if such person proves that there was reasonable cause for such failure.

2. **Would making an incorrect claim in the return of income per se amount to concealment of particulars or furnishing inaccurate particulars for attracting the penal provisions under section 271(1)(c), when no information given in the return is found to be incorrect?**

CIT vs. Reliance Petro Products Pvt. Ltd. (2010)322 ITR 158 (SC)

Relevant section: 271(1)(c)

In this case, the Supreme Court observed that in order to attract the penal provisions of section 271(1)(c), there has to be concealment of the particulars of income or furnishing inaccurate particulars of income. Where no information given in the return is found to be incorrect or inaccurate, the assessee cannot be held guilty of furnishing inaccurate particulars. Making an incorrect claim (i.e. a claim which has been disallowed) would not, by itself, tantamount to furnishing inaccurate particulars.

The Apex Court, therefore, held that where there is no finding that any details supplied by the assessee in its return are incorrect or erroneous or false, there is no question of imposing penalty under section 271(1)(c). A mere making of a claim, which is not sustainable in law, by itself, will not amount to furnishing inaccurate particulars regarding the income of the assessee.

3. **Can the penalty under section 271(1)(c) be imposed where the assessment is made by estimating the net profit at a higher percentage applying the provisions of section 145?**

CIT vs. Vijay Kumar Jain (2010) 325 ITR 0378 (Chhattisgarh)

In this case, the Assessing Officer levied penalty under section 271(1)(c) on the basis of addition made on account of application of higher rate of net profit by applying the provisions of section 145, consequent to rejection of book results by him.

On this issue, the High Court held that the particulars furnished by the assessee regarding receipts in the relevant financial year had not been found inaccurate and it was also not the case of revenue that the assessee concealed any income in his return. Thus, penalty could not be imposed.

The High Court placed reliance on the ruling of the Supreme Court in CIT vs. Reliance Petro-products P. Ltd. (2010) 322 ITR 158, while considering the applicability of section 271(1)(c). In that case, the Apex Court had held that in order to impose a penalty under the section, there has to be concealment of particulars of income of the assessee or the assessee must have furnished inaccurate particulars of his income. Where no information given in the return is found to be incorrect or inaccurate, the assessee cannot be held guilty of furnishing inaccurate particulars.

4. **Whether the Tribunal was right in confirming the penalty under section 271(1)(c) in respect of the inflation of purchase which was actually detected only when the assessment was subjected to audit under section 142(2A) as not a valid and correct ground?**

Kalpaka Bazar vs. CIT (2009) 313 ITR 414 (Kar.) Relevant Section: 271 (1)(c)

For the assessment year 1984-85, the Income-tax Officer completed the assessment of the assessee by including addition towards purchase and gross profit. In fact, search was carried out in the

premises of the assessee and books of account and other documents were seized. Statutory audit was done under section 142(2A) of the Income-tax Act. The auditor brought out bogus purchases accounted by the assessee which represents proforma invoices not representing any actual purchases. Penalty is levied based on inflation of purchase value and on account of gross profit addition. However, in successive appeals, penalty attributable to gross profit addition was deleted which is final. However, the Tribunal sustained penalty pertaining to inflation of purchases.

The High Court held that the disputed amount represents proforma invoices which do not represent actual purchases and so much so, the disputed expenditure is bogus purchase accounted by the assessee. Accounting of bogus purchase expenditure is nothing but concealment and, therefore, penalty was rightly levied which got confirmed in appeal.

- 5. Whether, the imposition of penalty under section 271(1)(c) was justified in view of Explanation 4(a) to section 271(1)(c) due to inaccurate particulars of income by wrongly claiming the deduction under section 80P(2)(a)(iii) of the Income-tax Act, as it was engaged in manufacturing and not in marketing business?**

CIT vs. Budhewal Co-operative Sugar Mills Ltd. (2009) 312 ITR 92 (P & H)

Relevant Section: 271 (1)(c)

The assessee, a co-operative society, earned income from the activity of manufacturing of sugar, molasses and other by products from sugarcane. In the return of income, he claimed deduction under section 80P(2)(a)(iii) of the Act. The Assessing Officer disallowed the deduction claimed by the assessee under section 80P(2)(a)(iii) of the Income-tax Act, 1961 and initiated penalty proceedings under section 271(1)(c) of the Act for furnishing inaccurate particulars of income. The Commissioner (Appeals) confirmed the disallowance and penalty imposed on the assessee. The Tribunal upheld the disallowance of deduction but cancelled the penalty levied on the assessee on the grounds that the assessee had disclosed all the particulars relating to the computation of its income, paid the tax in advance and on self-assessment and that the assessee's claim was bona fide.

The High Court held that the society had paid advance tax as well as self-assessment tax not taking into account the deduction claimed under section 80P(2)(a)(iii) of the Act. It was evident from the facts that the assessee's claim was bona fide and that all the particulars relating to the computation of income had been disclosed. Thus, the Tribunal rightly cancelled the penalty levied.

- 6. Whether the imposition of penalty under section 271(1)(c) for furnished inaccurate particulars of income to the extent of making a wrong claim of share trading loss against the normal income is justified?**

CIT vs. A uric Investment and Securities Ltd. (2009) 310 ITR 121 (Del.)

Relevant Section: 271 (1)(c)

The assessee in its return of income has claimed an amount of ₹ 22,15,837 in its profit and loss account on account of share trading loss and has treated the same as normal business expense. However, during the assessment proceedings, the Assessing Officer found that this loss is speculative in nature and cannot be adjusted against normal income of the assessee. Consequently, the loss of the assessee has been assessed at the amount of ₹ 85,259 against returned loss of ₹ 23,05,096. The Assessing Officer also held that the assessee had furnished inaccurate particulars of income to the extent of making a wrong claim of share trading loss against normal income. Hence, he was liable for imposition of penalty. Therefore, penalty of under section 271(1)(c) of the Income-tax Act, 1961 was levied, for furnishing inaccurate particulars of income.

The High Court held that it is clear from the record that all the requisite information as required by the Assessing Officer, was furnished by the assessee. There is nothing on record to show that in furnishing its return of income, the assessee has either concealed its income or has furnished any inaccurate

particulars of income. The mere treatment of the business loss as speculation loss by the Assessing Officer does not automatically warrant inference of concealment of income. The assessee did not conceal any particulars of income, as he filed full details of the sale of shares. In any case, it cannot be said that the assessee has concealed any particulars so far as its computation of income is concerned and as the such provisions of section 271(1)(c) of the Act are not attracted in this case.

7. Whether the Tribunal has erred in law in deleting the penalty under section 271(1)(c) of the Act when concealed income had been brought to tax under section 147/148 of the Act ?

CIT vs. Pearey Lal and Sons (Ep) Ltd. (2009) 308 ITR 438 (P&H)

Relevant Section: 271(1)(c)

The Assessing Officer completed the reassessment in respect of the assessee under section 147 of the Act and imposed penalty to the extent of 200 percent of the tax sought to be evaded. The Commissioner (Appeals) reduced the penalty to 100 per cent. The Tribunal set aside the penalty imposed by the Assessing Officer on the ground that the mention in the assessment order that "penalty proceedings under sections 271(1)(c) and 273(2)(a) of the Act were being initiated separately" did not amount to recording of satisfaction during the course of assessment in terms of section 271(1)(c) of the Act.

The High Court held the only requirement under section 271(1)(c) of the Income-tax Act, 1961, is that during the course of assessment there must be existence of satisfaction for initiating penalty proceedings and this must be expressly reflected in the assessment order. There is no required format in which such satisfaction is to be recorded. An indication in the assessment order regarding the initiation of penalty proceedings separately is tantamount to an indication as to the satisfaction of the authorities that the assessee has concealed income or furnished inaccurate particulars.

In the present case, the existence of satisfaction during the course of assessment was clear. Absence of satisfaction could not be inferred from the fact that the only words used in the assessment order were that proceedings were being separately initiated. The view of the Tribunal that mere mention of initiation of penalty proceedings separately did not justify initiation of penalty proceedings was to be set aside and the matter was remanded to the Tribunal for a fresh decision on the issue of penalty in accordance with law.

8. Can penalty under section 271(1)(c) for concealment of income be imposed in a case where the assessee has raised a debatable issue?

CIT vs. Indersons Leather P. Ltd. (2010) 328 ITR 167 (P&H)

The assessee company, after discontinuing its manufacturing business, leased out its shed along with fittings and disclosed the income as income from business, whereas the Revenue contended that the same be assessed as "Income from house property. The issue under consideration is whether penalty under section 271(1)(c) can be imposed in such a case.

On this issue, the High Court observed that, mere raising of a debatable issue would not amount to concealment of income or furnishing inaccurate particulars and therefore, penalty under section 271(1)(c) cannot be imposed.

O. OFFENCES AND PROSECUTION

1. Would prosecution proceedings under section 276CC be attracted where the failure to furnish return in time was not willful?

Union of India vs. Bhavacha Machinery and Others (2010) 320 ITR 263 (MP)

Relevant section: 276CC

In this case, the High Court observed that for the provisions of section 276CC to get attracted, there should be a willful delay in filing return and not merely a failure to file return in time. There

should be clear, cogent and reliable evidence that the failure to file return in time was 'willful' and there should be no possible doubt of its being 'willful'. The failure must be intentional, deliberate, calculated and conscious with complete knowledge of legal consequences flowing from them.

In this case, it was observed that there were sufficient grounds for delay in filing the return of income and such delay was not willful. Therefore, prosecution proceedings under section 276CC are not attracted in such a case.

P. DEDUCTION, COLLECTION AND RECOVERY OF TAX (May 13)

- 1. In respect of a co-owned property, would the threshold limit mentioned in section 194-I for non-deduction of tax at source apply for each co-owner separately or is it to be considered for the complete amount of rent paid to attract liability to deduct tax at source?**

CIT vs. Senior Manager, SBI BI (2012) 206 Taxman 607 (All.)

In the present case, the assessee was paying rent for the leased premises occupied. The said premise was co-owned and the share of each co-owner was definite and ascertainable. Also, the assessee made payment to each co-owner separately by way of cheque. The assessee did not deduct tax at source under section 194-I stipulating that the payment made to each co-owner was less than the minimum threshold mentioned in the said section and therefore, no liability to deduct tax at source on the rent so paid is attracted, though the whole rent taken together exceeds the said threshold limit.

The Revenue contended that since the premises let out to the assessee had not been divided/partitioned by metes and bounds, it cannot be said that any specified portion let out to the assessee was owned by a particular person. Therefore, the assessee had to deduct tax at source on the rent so paid assessing the co-owners as association of persons and the threshold limit mentioned in section 194-I was to be seen in respect of the entire rent amount. Hence, the Revenue was of the view that assessee was liable to deduct tax on the payment of rent and interest would be leviable on failure to deduct such tax under section 201.

Considering the above mentioned facts, the Allahabad High Court held that, since the share of each co-owner is definite and ascertainable, they cannot be assessed as an association of persons as per section 26. The income from such property is to be assessed in the individual hands of the co-owners. Therefore, it is not necessary that there should be a physical division of the property by metes and bounds to attract the provisions of section 26.

Therefore, in the present case, since the payment of rent is made to each co-owner by way of separate cheque and their share is definite, the threshold limit mentioned in section 194-I has to be seen separately for each co-owner. Hence, the assessee would not be liable to deduct tax on the same and no interest under section 201 is leviable.

- 2. Can the payment made to contractors for hiring dumpers, by an assessee engaged in transportation of building material, be treated as rent for machinery or equipment to attract provisions of tax deduction at source under section 194-I?**

CIT (TDS) vs. Shree Mahalaxmi Transport Co. (2011) 339 ITR 484 (Guj.)

In this case, the assessee was engaged in the business of transportation of building material, salt, black trap, iron, etc. During the relevant previous year, the assessee made payment for hiring of dumpers and deducted tax at source at the rate under section 194C applicable for sub-contracts which, according to the Assessing Officer, was not correct as the assessee had taken dumpers on hire and such payments were governed under section 194-I. The Assessing Officer, accordingly, held that the assessee had short deducted tax at source and passed an order under section 201(1) holding the assess to be an assessee-in-default.

The High Court observed that the assessee had given contracts to the parties for the transportation of goods and had not taken machinery and equipment on rent. The Court observed that the

transactions being in the nature of contracts for shifting of goods from one place to another would be covered as works contracts, thereby attracting the provisions of section 194C. Since the assessee had given sub-contracts for transportation of goods and not for the renting out of machinery or equipment, such payments could not be termed as rent paid for the use of machinery and the provisions of section 194-I would, therefore, not be applicable.

Note: Similar ruling was pronounced by the Gujarat High Court on an identical issue in CIT (TDS) vs. Swayam Shipping Services P. Ltd. (2011) 339 ITR 647.

3. Do the tips collected by hotel and disbursed to employees constitute salary to attract the provisions for tax deduction at source under section 192?

CIT (TDS) vs. ITC Ltd [2011] 338 ITR 598(Del.)

The assessee -company was engaged in the business of owning, operating and managing hotels. The assessee -company allowed the employees to receive tips from the customers, by virtue of the employment, and in case the employer himself collected tips, those were also disbursed by the employer to the employees. Once the tips were paid by the customers either in cash directly to the employees or by way of charge to the credit cards in the bills, the employees gained additional income, which was by virtue of their employment. When the tips were received by the employees directly in cash, the employer hardly had any role and it may not even know the amounts of tips collected by the employees. That would be out of the purview of responsibility of the employer under section 192.

However, when the tips were charged to the bill either by way of a fixed percentage, say 10 percent or so on the total bill, or where no percentage was specified and the amount was indicated by the customer on the bill as a tip, the tip went into the receipt of the employer and was subsequently disbursed to the employees. As soon as such amounts were received by the employer, there was an obligation on the part of the employer to disburse them to the rightful persons, namely, the employees. Simultaneously, a right accrued to the employees to claim the tips from the employer. By virtue of the employer-employee relationship, a vested right accrued to the employee to claim the tips. The High Court, therefore, held that the tips would constitute income within the meaning of section 2(24) and thus, taxable under section 15. It was obligatory upon the company to deduct tax at source from such payments under section 192.

In this case, the assessee-company had not deducted tax at source on tips under a bonafide belief that tax was not deductible. This practice had been accepted by the Revenue by accepting the assessments in the form of annual returns of the assessee in the past. The High Court held that since no dishonest intention could be attributed to the assessee, they could not be made liable for levy of penalty as envisaged under section 201.

The High Court, however, observed that payment of interest under section 201(1A) is mandatory. The payment of interest under that provision is not penal. There was, therefore, no question of waiver of such interest on the basis that the default was not intentional or on any other basis.

4 What is the nature of landing and parking charges paid by an airline company to the Airports Authority of India and is tax required to be deducted at source in respect thereof ?

CIT vs. Japan Airlines Co. Ltd. (2010) 325 ITR 298 (Del.)

Relevant section: 194-I

On this issue, the Delhi High Court referred to the case of United Airlines vs. CIT (2006) 287 ITR 281, wherein the issue arose as to whether landing and parking charges could be deemed as rent under section 194-I. The Court observed that rent as defined in the said provision had a wider meaning than 'rent' in common parlance. It included any agreement or arrangement for use of land. The Court further observed that when the wheels of the aircraft coming into an airport touch the surface of the airfield, use of the land of the airport immediately begins. Similarly, for parking the

aircraft in that airport, again, there is use of the land. Therefore, the landing and parking fee were definitely 'rent' within the meaning of the provisions of section 194-I as they were payments for the use of the land of the airport.

Note- The Madras High Court in CIT vs. Singapore Airlines Ltd.(2012) 209 Taxman 581 (Mad.), expressed a contrary view on the said issue. The Court has observed that payment made for the use of any land or building and the land appurtenant thereto under a lease or sub-lease or tenancy or under any agreement or arrangement with reference to the use of the land, would be 'rent' as per Explanation to section 194-I. Therefore, only if the agreement or arrangement has the characteristics of lease or sub-lease or tenancy for systematic use of the land, the charges levied would fall for consideration under the definition of 'rent' for the purpose of section 194-I.

The principles guiding the charges on landing and take-off show that the charges are with reference to the number of facilities provided by the Airport Authority of India in compliance with the international protocols and the charges are not made for any specified land usage or area allotted. The charges are governed by various considerations on offering facilities to meet the requirement of passengers safety and on safe landing and parking of the aircraft. Depending on the traffic, there is a shared use of the airfield by the airlines. Thus, the charges levied are, at the best, in the nature of fee for the services offered rather than in the nature of rent for the use of the land.

Therefore, mere use of the land for landing and the payment charged, which is not only for the use of the land, but for maintenance of the various services, including the technical services involving navigation, would not automatically bring the transaction and the charges within the meaning of either lease or sub-lease or tenancy or any other agreement or arrangement of the nature of lease or tenancy so that the charges would fall within the meaning of 'rent' as appearing in Explanation to section 194-I.

The High Court observed that use of the runway by an aircraft cannot be different from the analogy of a road used by any vehicle or any other form of transport. If the use of tarmac of airport could be characterized as use of land, the use of a road too would be a use of land. Thus, going by the nature of services offered by the Airport Authority in respect of landing and parking charges, collected from the assessee, there is no ground to accept that the payment would fit in with the definition of 'rent' as given under section 194-I. Therefore, the charges would get attracted under the provisions of section 194C.

- 5. Does payment of charter fee to a non-resident (for chartering fishing vessels), by way of percentage of fish catch done outside the territorial waters of India but brought to an Indian port for verification and valuation before dispatch of the same to the non-resident, attract the provisions of tax deduction at source under section 195?**

Kanchanganga Sea Foods Ltd. vs. CIT &ITO (2010) 3251TR 540 (SC)

Relevant sections: 5(2) & 195

An Indian company engaged in the sale and export of sea foods entered into an agreement with a non-resident for chartering two fishing vessels (trawlers) for an all-inclusive charter fee of US \$ 6,00,000 per vessel per annum. The charter fee was payable out of earnings from the sale of fish and for this purpose, 85% of the gross earnings from the sale of fish was to be paid to the non-resident company.

The trawlers were delivered to the Indian company. The actual fishing operations were done outside the territorial waters of India but within the exclusive economic zone. The voyage commenced and concluded at the Chennai Port. The catch made at high seas were brought to Chennai where the surveyor of the Fishery Department verified the log books and assessed the value of the catch over which local taxes were levied and paid. The Indian company paid the dues and arranged for customs clearance for the export of fish. The trawlers, which were used for fishing, carried the fish to

the destination chosen by the non-resident company. The trawlers reported back to the Chennai Port after delivering fishes to the destination and thereafter, commenced a fresh voyage.

The Indian company did not deduct tax at source from the payments to the non-resident and therefore, notice under section 201(1) of the Income-tax Act, 1961 was issued deeming the company as an assessee-in-default for failure to deduct tax at source under section 195. The Indian company, however, contended that it was not required to deduct tax at source since -

- (i) no income accrued to the non-resident company in India since it did not carry on activities in India.
- (ii) even if bringing the catch to the Chennai Port for customs appraisal and export to the non-resident results in an operation, it was an operation for mere purchase of goods and therefore, there is no assessable income.

even if 85% of the catch is considered as charter fee to the non-resident company, it was paid outside India.

The Apex Court observed that the chartered vessels with the entire catch were brought to the Indian Port, the catch were certified for human consumption, valued, and after customs and port clearance, the non-resident company received 85% of the catch. As long as the catch was not apportioned, the entire catch was the property of the Indian company and not of the non-resident company as the latter did not have any control over the catch. The control came into the hands of the non-resident only after it was given its share of 85% of the catch.

Since the first receipt of 85% of the fish catch was in India, the non-resident effectively received the charter fee in the shape of 85% of the fish catch in India. The sale of fish and the realization of the sale consideration of fish by the non-resident outside India does not mean that there was no receipt in India. When 85% of the catch is received after valuation by the non-resident in India, in sum and substance, it amounts to receipt of the value of money. Had it not been so, the value of the catch ought to have been the price for which the non-resident sold the fish catch at the chosen destination.

In light of the above, the income earned by the non-resident was chargeable to tax under section 5(2) of the Income-tax Act, 1961. The Indian company was, therefore, liable to deduct tax under section 195 on the payment made to the non-resident company. Since it had failed to deduct tax at source, it was an assessee-in-default under section 201.

Note - It may be noted that TDS provisions under section 195 are attracted even if the charter fees is payable in kind, for example, as a percentage of fish catch, as in this case.

6. Whether retention of a percentage of advertising charges collected from customers by the advertising agencies for payment to Doordarshan for telecasting advertisements would attract the provisions of tax deduction at source under section 194H?

CIT vs. Director, Prasar Bharti (2010) 325 ITR 205 (Ker)

Relevant section: 194H

Prasar Bharti is a fully owned Government of India undertaking engaged in telecast of news, sports, entertainment, cinema and other programmes. The major source of its revenue is from advertisements, which were canvassed through agents appointed by Doordarshan under the agreement with them. The advertisement charges were recovered from the customers by the advertisement agencies in accordance with the tariff prescribed by Doordarshan and incorporated in the agreement between the parties. There was a provision in the agreement permitting advertising agencies to retain 15% of the advertising charges payable by them to Doordarshan towards commission from out of the charges received for advertising services from customers.

The issue under consideration is whether retention of 15% of advertising charges by the advertising agency is in the nature of commission to attract the provisions of tax deduction at source under

section 194H. It was contended that the agreement between Prasar Bharti and the advertising agency is not an agency but is a “principal to principal” agreement of sharing advertisement charges and therefore, the provisions for deduction of tax at source under section 194H would not get attracted in this case.

In this context attention was invited to a clause of the agreement between the parties which reads as follows -

“Agency agrees to pay the TDS/income-tax liability as applicable under the income-tax law on the discount retained by him. For this purpose, the agency agrees to make payment to Doordarshan Commercial Service by means of cheque/demand draft for the TDS on 15% discount retained by them. This cheque/demand draft will be drawn separately and should not be included in the telecast fees/advertisement charges”.

The above provision makes it clear that the advertising agency clearly understood the agreement as an agency agreement and the commission payable by Prasar Bharati to such agency is subject to tax deduction at source under the Income-tax Act, 1961. The permission granted by Doordarshan under the agreement to the agencies to retain 15% out of the advertisement charges collected by them from the customers amounts to payment of commission by Doordarshan to agents, which is subject to deduction of tax at source under section 194H.

It is clear from section 194H that tax has to be deducted at the time of credit of such sum to the account of the payee or at the time of payment of such income in cash or by the issue of cheque or draft or any other mode, whichever is earlier. When the agent pays 85% of the advertisement charges collected from the customer, the agent simultaneously gets paid commission of 15%, which he is free to appropriate as his income. TDS on commission charges of 15% has to be paid to the Income-tax Department with reference to the date on which 85% of the advertisement charges are received from the agent.

- 7. Can services rendered by a hotel to its customers in providing hotel room with various facilities I amenities (like house keeping, bank counter, beauty saloon, car rental, health club etc.) amount to “carrying out any work” to attract the provisions of section 194C?**

East India Hotels Ltd. vs. CBDT (2010) 320 ITR 0526 (Som.)

Relevant section: 194C

On this issue, the High Court observed that the words “carrying out any work” in section 194C are limited to any work which on being carried out culminates in a product or result. “Work” in the context of this section, has to be understood in a limited sense and would extend only to the service contracts specifically included in section 194C by way of clause (iv) of the Explanation* below sub-section(7).

The provisions of tax deduction at source under section 194C would be attracted in respect of payments for carrying out the work like construction of dams, laying of roads and air fields, erection or installation of plant and machinery etc. In these contracts, the execution of the contract by a contractor or sub-contractor results in production of the desired object or accomplishing the task under the contract.

However, facilities or amenities made available by a hotel to its customers do not fall within the meaning of work under section 194C, and therefore provisions of TDS under this section are not attracted.

- 8. Can the interest under sections 234B and 234C, be levied on the basis of interest calculation given in the computation sheet annexed to the assessment order, though the direction to charge such interest is not mentioned in the assessment order?**

CIT vs. Assam Mineral Development Corporation Ltd. (2010) 320 ITR 149 (Gau.)

The Assessing Officer determined the total income of the assessee for the year in question and issued an order. No specific order levying interest was recorded by the Assessing officer. However, in the computation sheet annexed to the assessment order, interest under 234B and 234C was computed while determining the total sum payable by the assessee. On appeal the Commissioner of Income-tax (Appeals) deleted the interest charged under sections 234B and 234C.

The High Court held that, as per the judgment of the Supreme Court in case of CIT vs. Anjum M. H. Ghaswala (2001) 252 ITR 1, the interest leviable under sections 234B and 234C is mandatory in nature. The computation sheet in the form prescribed, signed or initialed by the Assessing Officer, is an order in writing determining the tax payable within the meaning of section 143(3). It is an integral part of the assessment order. Hence, the levy of interest and the basis for arriving at the quantum thereof have been explicitly indicated in the computation sheet and therefore, such interest has to be paid.

9. Is an employee liable to pay interest under sections 234A, 234B and 234C, where the employer has failed to deduct tax at source, but has later paid such tax with interest under section 201(1A)?

CIT vs. Emilio Ruiz Berdejo (2010) 320 ITR 190 (Born.)

The High Court held that the person who fails to deduct tax is liable to pay interest under section 201(1A). Sections 234A, 234B and 234C cast liability on the assessee to pay interest for the default committed by him in the circumstances mentioned in the sections. Interest charged under sections 234A, 234B and 234C are compensatory and not in the nature of penalty.

Therefore, where the deductor had already discharged tax liability with interest payable under section 201(1A), no further interest could be claimed by the Revenue from the deductee-employee either under section 234A or section 234B or section 234C.

10. Would the payments made by the assessee to MTNL / other companies for the services provided through interconnect / port / access / toll attract TDS under section 194J?

CIT vs. Bharti Cellular Ltd. (2009) 319 ITR 139 (Del.)

The assessee-companies engaged in providing cellular telephone facilities to their subscribers, had been granted licences by the Department of Telecommunication for operating in specified circles. The licences stipulated that the Department of Telecommunication/MTNL/BSNL would continue to operate in the service areas in respect of which licences were issued. Where calls were to be made by subscribers of one network to another network, such calls were to be routed through MTNL/BSNL through interconnection points known as ports. For providing interconnection, the assessees entered into agreements with MTNL/BSNL, which were regulated by the Telecom Regulatory Authority of India. Under the agreement the assessees had to pay interconnection, access charges and port charges to the interconnection providers. The Department was of the view that interconnect/port access charges were liable for tax deduction at source in view of the provisions of section 194J on the understanding that these charges were in the nature of fee for technical services.

The High Court held that the services rendered relating to interconnection, port access did not involve any human interface and, therefore, the services could not be regarded as "technical services" as contemplated under section 194J. The interconnect/port access facility was only a facility to use the gateway and the network of MTNL/other companies. MTNL or other companies did not provide any assistance to the assessees in managing, operating, setting up their infrastructure and networks. Even though the facility of interconnection and port access provided by MTNL/other companies was "technical" in the sense that it involved sophisticated technology, the expression "technical service" is not to be construed in the abstract and general sense but in the narrower sense as circumscribed by the expressions "managerial service" and "consultancy service" under Explanation 2 to section 9(1)(vii). The expression "technical service" would have reference to only technical service rendered by a human. It would not include any service provided by machines or

robots. The interconnect charges/port access charges could not, therefore, be regarded as fees for technical services, and hence TDS provisions under section 194J are not attracted.

- 11. Would there be an obligation to deduct tax at source under section 195 in respect of payments to non-residents if such payments do not give rise to income chargeable under the provisions of the Income-tax Act, 1961?**

GE India technology Centre P. Ltd. vs. CIT and Another (2010) 327 ITR 456 (SC)

The Apex Court observed that the expression "chargeable under the provisions of the Act" in section 195(1) shows that the remittance has got to be a trading receipt, the whole or a part of which is liable to tax in India. If the tax is not so assessable, there is no question of tax at source being deducted. A person paying interest or any other sum to a non-resident is not liable to deduct tax if such sum is not chargeable to tax under the Act.

- 12. Whether the assessee was under statutory obligation under the Income-tax Act, 1961, and/or the Rules to collect evidence to show that its employee(s) had actually utilized the amount paid towards leave travel concession(s)/conveyance allowance?**

CIT vs. Larsen and Toubro Ltd. (2009) 313 ITR 1 (SC) Relevant Section: 192 & 10(5)

The employer is not under any statutory obligation under the Income-tax Act, 1961, or the Rules, to collect evidence to show that the employee had actually utilized the amount paid towards leave travel concession or conveyance allowance under section 10(5). Nor is there any circular of the Central Board of Direct Taxes requiring the employer under section 192 to collect and examine the evidence supporting the declaration submitted by the employee.

- 13. Whether the Tribunal was correct in holding that no interest need to be paid by the assessee for non-deduction of TDS (being consequential) after having held that the assessee was liable to deduct TDS on the interest component paid by having remanded to verify certain facts and recomputed the interest?**

CIT vs. Oriental Insurance Co. Ltd. (2009) 315 ITR 102 (Kar.) Relevant Section: 201 (1A)

The proviso to section 201(1) of the Income-tax Act, 1961, empowers the levy of penalty if the tax deducted at source is not affected for any valid reason. However, section 201(1A) is a distinct provision to levy interest for delayed remittance.

Pursuant to the award made under the Motor Vehicles Act, the assessee paid compensation to the victim of the accident which included interest liability. The assessee failed to deduct and remit the tax deducted at source to the Revenue. The Assessing Officer directed the assessee to deposit the tax amount with interest. The Commissioner (Appeals) confirmed the order. The Tribunal set aside the direction to pay interest on the ground that the liability was in the nature of penalty but permitted the assessee to split and spread over the interest liability for each of the assessment years.

The High Court held that the assessee was liable to pay interest at the rate of 12 per cent for belated payment of tax for any reasonable cause. The levy of interest under section 201(1A) of the Act cannot be construed as a penalty. The Tribunal had rightly directed that the interest paid above ₹50,000 was to be split and spread over the period from the date interest was directed to be paid till payment.

- 14. Whether the Tribunal were justified in passing an order under section 201 and in levying interest invoking section 201(1A) of the Income-tax Act, without considering the cause and explanation shown by the appellant?**

Karnataka Urban Infrastructure Development Finance Corporation vs. CIT (2009) 308 ITR 297 (Kar.) Relevant Section: 201 & 201 (1A)

The appellant is a public sector company wholly owned by the State of Karnataka. The appellant-company has entrusted certain contracts to a foreign company, which is a non-resident company,

to provide technical know-how and consultancy to the appellant in terms of the contract. Similarly, it also entered into another contract with a company situated in the U. K. As per the terms and conditions of the agreement, the appellant-company in addition to making the payment towards the consultancy fees, the appellant has to reimburse the expenditure that may be incurred by those two companies, when they are in Karnataka (for the accommodation and conveyance of the staff of these two companies, when they are in India). In terms of the agreement, the appellant-company has to take care of the tax liability of the non-resident companies. The Income-tax Officer has initiated the proceedings by invoking the provisions of sections 201 and 201 (1A) of the Income-tax Act on the ground that the appellant-company as required under section 195 of the Act did not deduct the tax at source and remit the same in accordance with law, in so far as the reimbursement of expenditure portion only. The assessee has sent the reply by stating that it was under the bona fide impression that no tax was required to be deducted in regard to the reimbursement since it was only an amount spent by the appellant-company towards the conveyance and accommodation to the officers/employees of non-resident companies, when they were in India for the purpose of execution of the agreement. The explanation offered by the assessee was not accepted. Accordingly, an order was passed under section 201 and also under section 201 (1A) of the Income-tax Act.

The High Court held that the authorities had not properly considered the explanation offered by the assessee, and there was no intention on the part of the assessee to violate the provisions of section 195 of the Act. The levy of penalty under section 201 was to be set aside.

Further, it was held that the levy of penalty under section 201 of the Income-tax Act, 1961 and the levy of interest under section 201 (1A) of the Act are entirely different. An Assessing Officer has discretion to drop the penalty proceedings. But if the tax is not deducted under section 195 of the Act, the assessee is bound to pay interest, as it is a mandatory provision. Even if the penalty proceedings are dropped under section 201, the assessee cannot escape his liability to pay interest under section 201 (1A) of the Act. Both the sections are independent and they are not interlinked and they cannot be read conjunctively as levy of interest and levy of penalty are two different proceedings. Hence, the order levying interest under section 201 (1A) of the Act was to be confirmed.

15. Would the payments made by a company to BSNL/ MTNL for the services provided through interconnect / port / access / toll be treated as “fees for technical services” to attract the provisions of tax deduction at source under section 194J?

CIT vs. Bharti Cellular Ltd. & Hutchison Essar Telecom Ltd. (2011) 330 ITR 239 (SC)

On this issue, the Delhi High Court had held that the services rendered in relation to interconnection, port access did not involve any human interface and, therefore, the services could not be regarded as “technical services” as contemplated under section 194J. The expression “technical service” would have reference to only technical service rendered by a human. It would not include any service provided by machines or robots. The Delhi High Court, therefore, concluded that interconnect charges/port access charges could not be regarded as fees for technical services, and hence, TDS provisions under section 194J were not attracted.

The Supreme Court observed that the problem which arises in these cases is that there is no proper evidence from the side of the Department to show how human intervention takes place, particularly, during the process when calls take place. During the traffic of calls from one place to another, whether there is any manual intervention is one of the points which requires to be examined. Similarly, the basis for allotment of “capacity” to a service provider and consequences if such “capacity” is exhausted and “additional capacity” is required on an urgent basis, needs to be examined to study whether at that stage, any human intervention is involved. These types of matters cannot be decided without any technical assistance.

The Apex Court was of the view that the Department should not proceed solely on the basis of

contracts placed before its officers, but should examine the matter with the support of technical experts so that such matters could be disposed of expeditiously on the basis of factual findings. Accordingly, the Apex Court remitted the matter to the Assessing Officer, directing him to examine the same with the assistance of a technical expert from the side of the Department and to decide the matter within a period of four months.

16. Can difference between published price and minimum fixed commercial price be treated as additional special commission in the hands of the agents of an airline company to attract TDS provisions under section 194H?

CIT vs. Qatar Airways (2011) 332 ITR 253 (Bom.)

In this case, the airline company sold tickets to the agents at a minimum fixed commercial price. The agents were permitted to sell the tickets at a higher price, however, up to the maximum of published price. Commission at the rate of 9% of published price was payable to the agents of the airline company, on which tax was deducted under section 194H. The issue under consideration is whether the difference between the published price and the minimum fixed commercial price amounts to additional special commission in the hands of the agents to attract the provisions of section 194H.

On this issue, the Bombay High Court observed that the difference between the published price and minimum fixed commercial price cannot be taken as additional special commission in the hands of the agents, since the published price was the maximum price and airline company had granted permission to the agents to sell the tickets at a price lower than the published price. In order to deduct tax at source, the exact income in the hands of the agents must necessarily be ascertainable by the airline company. However, the airline company would have no information about the exact rate at which the tickets were ultimately sold by its agents, since the agents had been given discretion to sell the tickets at any rate between the minimum fixed commercial price and the published price. It would be impracticable and unreasonable to expect the airline company to get a feedback from its numerous agents in respect of each ticket sold.

Thus, tax at source was not deductible on the difference between the actual sale price and the minimum fixed commercial price, even though the amount earned by the agent over and above minimum fixed commercial price would be taxable as income in his hands.

17. Can discount given on supply of SIM cards and recharge coupons by a telecom company to its distributors under a prepaid scheme be treated as commission to attract the TDS provisions under section 194H?

Vodafone Essar Cellular Ltd. vs. ACIT (TDS) (2011) 332 ITR 255 (Kerala)

On this issue, the Kerala High Court observed that it was the SIM card which linked the mobile subscriber to the assessee's network. Therefore, supply of SIM card by the assessee-telecom company was only for the purpose of rendering continued services to the subscriber of the mobile phone. The position was the same so far as recharge coupons or e-topups were concerned which were only air time charges collected from the subscribers in advance under a prepaid scheme.

There was no sale of any goods involved as claimed by the assessee and the entire charges collected by the assessee from the distributors at the time of delivery of SIM cards or recharge coupons were only for rendering services to ultimate subscribers. The assessee was accountable to the subscribers for failure to render prompt services pursuant to connections given by the distributor. Therefore, the distributor only acted as a middleman on behalf of the assessee for procuring and retaining customers and therefore, the discount given to him was within the meaning of commission under section 194H on which tax was deductible.

18. Would non-resident match referees and umpires in the games played in India fall within the meaning of sportsmen to attract taxability under the provisions of section 115BBA, and consequently attract the TDS provisions under section 194E in the hands of the payer?

Indcom vs. Commissioner of Income-tax (TDS) (2011) 335 ITR 485 (Calcutta)

On this issue, the Calcutta High Court observed that, in order to attract the provisions of the section 194E, the person should be a non-resident sportsperson or non-resident sports association or institution whose income is taxable as per the provisions of section 115BBA.

The umpires and the match referees can be described as professionals or technical persons who render professional or technical services, but they cannot be said to be either non-resident sportsmen (including an athlete) or non-resident sports association or institution so as to attract the provisions of section 115BBA and consequently, the provisions of tax deduction at source under section 194E are also not attracted in this case. Though for the purpose of section 194J, match referees and umpires are considered as professionals, the tax deduction provisions thereunder are attracted only in case where the deductee is a resident individual, which is not so in the present case.

Therefore, although the payments made to non-resident umpires and the match referees are "income" which has accrued and arisen in India, the same are not taxable under the provisions of section 115BBA and thus, the assessee is not liable to deduct tax under section 194E.

Note - It may be noted that since income has accrued and arisen in India to the non-resident umpires and match referees, the TDS provisions under section 195 would be attracted and tax would be deductible at the rates in force.

Q. INTEREST

1. **Can the interest under sections 234B and 234C, be levied on the basis of interest calculation given in the computation sheet annexed to the assessment order, though the direction to charge such interest is not mentioned in the assessment order?**

CIT vs. Assam Mineral Development Corporation Ltd. (2010) 320 ITR 149 (Gau.)

The Assessing Officer determined the total income of the assessee for the year in question and issued an order. No specific order levying interest was recorded by the Assessing officer. However, in the computation sheet annexed to the assessment order, interest under 234B and 234C was computed while determining the total sum payable by the assessee. On appeal the Commissioner of Income-tax (Appeals) deleted the interest charged under sections 234B and 234C.

The High Court held that, as per the judgment of the Supreme Court in case of CIT vs. Anjum M. H. Ghaswala (2001) 252 ITR 1, the interest leviable under sections 234B and 234C is mandatory in nature. The computation sheet in the form prescribed signed or initialed by the Assessing Officer is an order in writing determining the tax payable within the meaning of section 143(3). It is an integral part of the assessment order. Hence, the levy of interest and the basis for arriving at the quantum thereof have been explicitly indicated in the computation sheet and therefore, such interest has to be paid.

2. **Is an employee liable to pay interest under sections 234A, 234B and 234C, where the employer has failed to deduct tax at source, but has later paid such tax with interest under section 201(1A)?**

CIT vs. Emilio Ruiz Berdejo (2010) 320 ITR 190 (Bom.)

The High Court held that the person who fails to deduct tax is liable to pay interest under section 201(1A). Sections 234A, 234B and 234C cast liability on the assessee to pay interest for the default committed by him in the circumstances mentioned in the sections. Interest charged under sections 234A, 234B and 234C are compensatory and not in the nature of penalty.

Therefore, where the deductor had already discharged tax liability with interest payable under section 201(1A), no further interest could be claimed by the Revenue from the deductee employee either under section 234A or section 234B or section 234C.

3. Can interest under sections 234B and 234C be levied where a company is assessed on the basis of book profits under section 115JB?

Joint CIT vs. Rolta India Ltd. (2011) 330 ITR 470 (SC)

On this issue, the Supreme Court observed that there is a specific provision in section 115JB(5) providing that all other provisions of the Income-tax Act, 1961 shall apply to every assessee, being a company, mentioned in that section. Section 115JB is a self-contained code pertaining to MAT, and by virtue of sub-section (5) thereof, the liability for payment of advance tax would be attracted. Therefore, if a company defaults in payment of advance tax in respect of tax payable under section 115JB, it would be liable to pay interest under sections 234B and 234C. Therefore, interest under sections 234B and 234C shall be payable on failure to pay advance tax in respect of tax payable under section 115JB.

R. ADVANCE RULING

1. Whether the income derived by him on the purchase in India and export of gold jewellery and on the purchase of gold for manufacture of jewellery for export accrued or arose in India and was taxable in India.

Mustaq Ahmed, In re (2008) 307 ITR 401 (AAR)

Relevant Section: 9

The applicant, an individual, was a resident of Singapore. He carried on business in the manufacture and sale of gold jewellery in Chennai (India). He sold jewellery in the local market as well as by export mostly to Singapore. He purchased gold for the purpose of conversion into jewellery and export and also purchased gold jewellery for export. The applicant's banks in Chennai acted on his behalf and received the export sale proceeds in India and they were credited to his account through electronic service. The applicant sought the ruling of the Authority.

The Authority ruled that the income arising from the sale proceeds of exported goods had actually been received from the importer/buyer at Chennai in India and the applicant's banks at Chennai in India had been crediting the amounts received from the importers/buyers to the account of the applicant. A reasonable inference could be drawn that the right to receive the payments had arisen in India on account of export sales of gold jewellery to the importers abroad (Singapore). The fact that the importers/buyers abroad were companies controlled by the applicant made no difference in law. Since the income actually accrued or arose in India there was no scope to say that the accrual was nullified by clause (b) of Explanation 1 to section 9(1)(i) of the Income-tax Act, 1961. The income was taxable in India.

S. TAX PLANNING

1. XY Ltd is a company incorporated in UK. It is an investment company operating in UK since 1980. XY Ltd will incorporate a subsidiary company in Singapore. The entire share capital of the company in Singapore will be owned by XY Ltd and its nominees. The company in Singapore (say, B Ltd.) will have income from purchase and sale of shares/securities in overseas companies including Indian companies. Under the new agreement protocol with Singapore, the Indian Government has given some concession to Singaporean companies having income from capital gains in India. My query is whether B Ltd, the newly incorporated company in Singapore, can claim the benefit of these concession. What strategy B Ltd. should adopt to get the maximum benefit by way of tax exemption in India under the new Indo-Singapore Double Taxation Agreement ? Whether these concessions are also available in respect of securities transaction tax payable in India.

Capital gains arising to a Singapore resident on sale of shares in Indian companies would not be taxable in India. This is because India has agreed to extend Mauritius-like 'capital gains' tax concession to Singapore through a protocol (under Indian's existing double taxation avoidance agreement with Mauritius, capital gains from sale of shares are liable to be taxed in the country

of residence of the investor). Consequent to this protocol, capital gains derived by a Singapore resident would be liable to tax only in Singapore. At present, there is no capital gains tax in Singapore. Consequently, such gains would not be taxed even in Singapore. This concession has been made coterminous with the Indian-Mauritius Double Taxation Avoidance Agreement. It will continue till such time as the capital gains tax concession continues to be extended to Mauritius.

The detailed provisions are given below

1. Gains derived by a resident of Singapore from transfer of any property in India shall be taxable only in Singapore. The resident of Singapore may be a company or any other form of business organization. This concession is, however, not available in respect of transfer of the following assets in India
 - a. gain derived by a resident of Singapore from transfer of immovable property in India;
 - b. gain from transfer of movable business property of a permanent establishment in India.
2. A resident of Singapore shall not be entitled to the above benefit if its affairs were arranged with the primary purpose to take advantage of the benefits contained in the new Protocol.
3. A shell/conduit company that claims it is a resident of Singapore shall not be entitled to the above benefits.
4. A shell/conduit company is any legal entity falling within the definition of resident with negligible business operations or nil business operations or with no real and continuous business activities carried out in Singapore.
5. A resident of Singapore shall be deemed to be a shell/conduit company if its total annual expenditure in operations in Singapore is less than S\$2,00,000 in the immediately preceding period of 24 months from the date the gains arise. The term "annual expenditure" means an expenditure incurred during a period of 12 months. The period of 24 months shall be calculated by referring to two block of 12 months immediately preceding the date when the gains arise.
6. A resident of Singapore shall not be deemed to be a shell/conduit company in the following two situations-
 - a. if it is listed in a recognised stock exchange in Singapore (i.e., the securities market operated by the Singapore Stock Exchange Ltd., Singapore Exchange Securities Trading Ltd. and the Central Depository (Pie) Ltd.;
 - b. if its total annual expenditure on operations in Singapore is equal to or more than S\$2,00,000 in the immediately preceding 24 months as stated in (5) supra.

On the basis of above provisions the query may be answered as follows

1. In India securities transaction tax is applicable. It is payable at the time of purchase as well as sale of equity shares (delivery based) by the purchaser and the seller. The current rate of securities transaction tax is 0.1 per cent of purchase price or sale price as the case may be. In the case of non-delivery based transactions (sale of equity shares) it is payable at the time of sale at the rate of 0.02 per cent by the seller. In the case of sale of derivative, it is payable by the seller at the rate of 0.0133 per cent. The above noted concessions taken from the new Indo-Singapore Protocol is not applicable in respect of securities transaction tax. If securities transaction tax is applicable, any long-term capital gain arising on transfer of shares is exempt from tax under section 10(38) and short-term capital gain is taxable at the rate of 15 per cent (+SC+EC).

If securities transaction tax is applicable and B Ltd. generates any long-term capital gain on transfer of shares in India, it is fully exempt from tax, even if B Ltd. is a shell/conduit company. Conversely, if B Ltd. generates any short-term capital gain on transfer of shares in India, the gain would be exempt only when B Ltd. is listed in a recognised stock exchange in Singapore as stated in (6)(a) supra. Alternatively, B Ltd. can have the benefit of tax-free short-term capital gain on transfer of shares in

India if it is not a shell/conduit company. In other words, if short-term capital gain arises in India on October 10, 2005, then annual expenditure on operations in Singapore should not be lower than the following :-

During October 10, 2004 to October 9, 2005	S\$2,00,000
During October 10, 2003 to October 9, 2004	S\$2,00,000

2. On the basis of above discussion the following conclusions can be drawn

B Ltd	Long-term capital gain on transfer of shares in India (securities transaction tax is applicable)	Short-term capital gain on transfer of shares in India (securities transaction tax is applicable)
First 12 months of operation in Singapore	Not chargeable to tax	Not chargeable to tax only if B Ltd. is listed on a recognised stock exchange in Singapore
Next 12 months of operation in Singapore	Not chargeable to tax	Not chargeable to tax only if B Ltd. is listed on a recognised stock exchange in Singapore
Any period after 24 months	Not chargeable to tax	Not chargeable to tax only if B Ltd. is listed on a recognised stock exchange in Singapore. Conversely, if B Ltd. is not listed in Singapore, short-term capital gain will not be taxable in India if annual expenditure by B Ltd. on operations in Singapore is not less than S\$2,00,000 as stated in (6)(b) supra

2. In the case of one of my clients, there is a foreign business income of ₹ 40,00,000 for the assessment year 2012-13 on which withholding tax liability in the country in which the income is generated is ₹ 6,80,000. India does not have avoidance of double taxation agreement with the other country. For the same year, there is a business loss in India to the tune of ₹ 14,50,000 and income from other sources under section 56 to the tune of ₹ 90,000. I am confused on which income relief under section 91 will be available? Will it be available on ₹ 40,00,000 or ₹ 25,50,000?

Double taxation relief under section 91 will be available in the given query according to the observation of the Supreme Court in the case of K. V. AL. M. Ramanathan Chettiar vs. CIT [1973] 88 ITR 169. Relief under section 91 and the tax liability for the assessment year 2012-13 will be calculated as follows :-

	If the taxpayer is an individual resident in India (₹)	If the taxpayer is an Indian company (₹)
Foreign business income	40,00,000	40,00,000
Indian business income	(-) 14,50,000	(-) 14,50,000
Business income	25,50,000	25,50,000

	If the taxpayer is an individual resident in India (₹)	If the taxpayer is an Indian company (₹)
Income from other sources	6,80,000	6,80,000
Taxable income	32,30,000	32,30,000
Indian tax liability	8,45,630	9,98,070
Average rate of tax (a)	26.18%	30.9%
Foreign rate of tax (h)	17%	17%
Rate at which relief is available under section 91 [i.e., (a) or (b), whichever is lower]	17%	17%
Doubly taxed income (as per ruling of Supreme Court)	32,30,000	32,30,000
Relief under section 91 on ₹32,30,000 at the rate of 17%	5,49,100	5,49,100
Tax liability in India	2,96,530	4,48,970

T. MISCELLANEOUS

1. **A client of mine is a partnership firm engaged in the business of obtaining contracts for supply of goods to semi-Government organizations. The firm is insisting that I should get a tax clearance certificate from the appropriate authority to participate in a tender of Orissa Government which involves a payment of ₹ 50 crore. As the amount is quite substantial and the client does not want to loose the contract, kindly you're your expert opinion regarding the procedural requirement in this respect.**

Contractors are now not required to obtain income-tax clearance certificate from the Income-tax Department and there is no need to furnish such certificate while submitting tenders or obtaining commercial contracts. Further, income-tax clearance certificate shall also not be required for any other purposes such as registration or renewal of registration of contractors, renewal of import/export licences, renewal of post licences and renewal of shipping licences. However, all such persons shall quote their Permanent Account Number in their tender or other relevant documents-Circular No. 2/2004, dated February 10, 2004. Consequently, there is no requirement to obtain tax clearance certificate from the Income-tax department in the case of your client.

2. **Kindly advise whether the provisions of sections 269SS and 269T will be attracted if one partner introduces ₹ 50,000 in cash and another partner withdraws ₹ 50,000 in cash on the same day ?**

Under the Indian Partnership Act, 1932 a firm is not a distinct legal entity and the partnership property in law belongs to all the partners constituting the firm. When one talks of the firm's property or firm's assets, all that is meant is property or assets in which all partners have a joint or common interest-Malabar Fisheries Co. vs. CIT [1979] 120 ITR 49 (SC).

While the position in law is as stated above, the Assessing Officer is likely, on the facts given above, to hold that the transaction is really as between two partners in their individual capacity and they have colluded to avoid the provisions of section 269SS by making entries in the firm's books to show that money has passed through the medium of the firm. The Assessing Officer may invoke the ruling of the Supreme Court in McDowell & Co. Ltd. vs. Commercial Tax Officer [1985] 154 ITR 148 for the purpose.

3. **A taxpayer has a number of current accounts as well as loan and deposit accounts in its books. If it receives instructions from A to debit his account with a sum of ₹ 25,000 and credit the said amount**

to the account of B can it be done by us a simple journal entry in the books of the taxpayer despite the provisions of section 269SS or section 269T ?

Section 269SS defines 'loan or deposit' as loan or deposit of money. Section 269T also defines loan or deposit as any loan or deposit of money. By 'money' is meant specie or such medium of exchange that changes from hand to hand and is accepted as a final discharge of debt. A book entry of the type narrated above does not have this character of common acceptance : it is a closed transaction among two or three specified parties. By such transaction a loan or deposit can be created or can be extinguished, but no money is involved. Accordingly such book transfers are excluded from the scope of section 269SS or section 269T. The object of these two sections is to prevent cash transactions of substantial amounts which could otherwise remain unaccounted for. A book entry remains in the book and is duly accounted for.

4. Kindly advise whether a firm having deposits from family members in excess of ₹ 20,000 each can make cash payments to banks/Government departments on behalf of the depositors for purchase of National Savings Certificates, payment of life insurance premium, income-tax, wealth-tax, etc.

Section 269T provides that no firm shall repay any loan or deposit exceeding ₹ 20,000 made with it otherwise than by an account payee cheque or account payee bank draft drawn in the name of the person who has made the deposit. No exceptions have been provided to this rule. Therefore, it would not be in the order for the firm to make cash payments direct to banks/ Government departments in such cases on behalf of depositors.

5. Please clarify :

(1) Whether provisions of section 269T in respect of repayment of deposit in excess of ₹ 20,000 will apply to firms which are in villages where no banking facilities are available ?

(2) X was having a deposit in excess of ₹ 20,000 which has been adjusted against the amount due from him on other account. Whether, such adjustment is covered by the provisions of section 269T?

(3) Whether section 269T will apply to current accounts of partners and outsiders with the firm ?

- (1) The law stated in section 269T is in absolute terms and does not exclude from its scope of operation such rural areas wherein banking facilities are not available. Government policies are to extend banking facilities all over the country and nationalised banks have been opening branches extensively so as to cover rural areas as well. Any concessions to firms carrying on business in villages, which the querist has in mind, would be incompatible with the Government's avowed policies. The answer to the first part of the query is, therefore, in the affirmative.
- (2) The second part of the query relates to adjustments in the accounts of the payer. Section 269T speaks of "repayment". A payment or repayment implies release of assets. In the case of such adjustment as the query describes, there is no release of assets. What happens is that a separate debt due from the so called payee is extinguished or reduced. Such adjustment is not repayment. Cash is certainly not involved nor is there the necessity of issuing a cheque or bank draft (which section 269T insists upon) as an instrument for the purpose of carrying out the adjustment. There are provisos in section 269T which exempt transfers by banks from deposit accounts to current or savings accounts. The reason is that such transfers are merely book adjustments and do not constitute payments. These provisos are unnecessary and seem to have been inserted only to allay apprehensions. In any case, they do indicate that adjustments are not repayments.
- (3) In regard to the third part of the query, current account of partners or outsiders do certainly represent deposits, being "deposit of money which is repayable after notice or repayable after a period". A partner or outsiders wishing to make withdrawals will surely have to ask for them which in law is the "notice" referred to in Explanation (ii) of section 269T. A partner's capital is, however, something different, being subject to the provisions of the Partnership Act and to erosion or augmentation according to the fortunes of the firm. Partners' capital is not such fund as can just be withdrawn by giving notice; it is subject otherwise to the contract amongst partners. Therefore, partner's capital is not deposit subject to the provisions of section 269T.

6. The following points may please be clarified with reference to section 269T.

- (1) The words "repayable after notice or repayable after a period" are ambiguous. What is meant for "notice" and "Period"? Suppose one gets back the payment the next day. Will it also attract the section?
- (2) Is the section applicable if the interest alone is paid and deposits exceeding ₹ 20,000 are retained?
- (3) A group of persons with different shares are partners in a number of firms which can be termed as "sister concerns" Can payments between these inter-connected concerns be made in cash?
- (4) In the Punjab State, the cultivators bring their agricultural produce for sale to the market. The sale is made through the agency of foodgrains, dealers who act as commission agents (popularly known as katcha arhatias). These dealers do not purchase or sell the agricultural produce but arrange sales. The purchasers are generally businessmen. The payment is normally released to the katcha arhatias by the purchasers, after the lapse of some time, and in many cases the producers do not collect their dues from katcha arhatias for a long time. Thus, the amount which is to be paid to the producer is kept with the katcha arhatias as trust money. Will these amounts be treated as "deposits" for the purposes of section 269T?
- (5) As the definition of "deposit" stands, even return the next day will be covered by section 269T. "Period" can be taken to mean any period of time and "notice" any kind of intimation or request or demand for withdrawal of the "deposit".
- (6) The letter of the law requires repayment of a deposit "together with any interest" by a cheque. It would be in conformity with the scheme of the Chapter XXB, to issue a cheque even where interest is alone paid for the time being, or the repayment is made in small instalments none of which exceeds ₹ 20,000.
- (7) Deposits made with or received from inter-connected or sister concerns would also come within the purview of section 269T, irrespective of the transactions being above board and properly accounted for in the books of the respective concerns.
- (8) The only practical and safe solution to the problem is to induce the arhatias also to get into the banking habit. There is scope for a difference of opinion on the nature of the "deposits" made by arhatias-whether they constitute mere sale proceeds or cash deposits of the sale proceeds belonging to their principals. Even sale proceeds may assume the character of deposits if they are not collected immediately but left to accumulate for some time with the merchants who purchase the commodities in question. Where does one draw the line? Each transaction may call for separate consideration on the basis of the special facts of the case.

7. In the context of section 269T, please clarify the following:

- (1) Is it still possible to make repayment of deposits exceeding ₹ 20,000 which are made in a series of little less than ₹ 20,000 by cash or otherwise than by account payee cheque or bank draft, e.g., deposits of ₹ 19,000 each made in ten instalments and repayment of ₹ 1,90,000 at a time? Or is it now obligatory for repayments exceeding ₹ 20,000 to be made by way of account payee cheque or draft, irrespective of the amount of initial deposit?
- (2) Are trade deposits, deposits against share application, security deposits, earned money deposits, or advance for purchase or sale in fall within the meaning of deposit as defined in clause (d) of Explanation to section 269T.
- (3) Suppose one receives a crossed cheque and as he has got no bank account, he gives this cheque to another having a bank account for collection after endorsement in his favour. The payment is made by the second party to the first party after collection the very same day. Would this also fall within the purview of section 269T?

- (1) Section 269T relates to the repayment of any loan or deposit of money repayable after notice or after a period. It makes it obligatory for companies, including banking companies, co-operative societies or firms, which receive such deposits to repay the amount of deposit, along with interest, which may be payable, only by account payee cheque or account payee draft, when the amount paid exceeds ₹ 20,000. Failure to pay in the manner thus restricted would be liable for prosecution. It appears that the obligation to pay by an account payee cheque or account payee draft is attracted in relation to the quantum of deposit. If any item of deposit is ₹ 19,000 but the interest payable thereon is above ₹ 1,000 and the amount payable, accordingly, exceeds ₹ 20,000, this obligation would be operative. The provision does not oblige the payer to repay the depositor at the same time all the deposits which may have been made from time to time by the latter. The repayment may be made in instalments subject to the statutory obligation to the clearance being in the form of account payee cheques or drafts.
- (2) The term "loan or deposit" is defined in Explanation (iii) to section 269T as "any loan or deposit of money which is repayable after notice or repayable after a period". The definition is wide enough to cover deposits of money against supply of goods including capital goods, and services. However, in such cases the deposits will mostly have been covered by the commodities and services supplied, so that the question of repayment of money forming part of the advance would hardly arise. In this category would come deposits against share application and advance for supply of goods. In case no shares are allotted or inadequate number of shares are allotted or the value of goods supplied falls short of the advances, the excess deposit/advance will have to be refunded to the depositor. If the amount repayable in any such a case exceeds ₹ 20,000, the provisions of section 269T would be attracted. Security deposits and earnest money deposits are without doubt "deposits" and the person repaying the sums will be subject to the restrictions of section 269T. The meaning of trade deposits is not clear. Whatever it may mean, the position will be the same as for advances for the supply of goods and services.
- (3) A repayment to the depositor by crossed cheque drawn in favour of a third party who pays the depositor will not be compliance with the provisions of section 269T. The repayment must be made to the depositor direct by an account payee cheque or by an account payee draft.

8. Please advise whether section 269SS is applicable in cases when capital investment made by proprietor or partner in cash exceeds ₹ 20,000.

The legislative intent behind section 269SS, as explained in paragraph 32 of the Explanatory Notes to the Finance Act, 1984, is to act as a curb on the practice of explaining unaccounted cash found during the course of searches conducted by the department as loans or deposits taken from various persons. When a person contributes capital to a firm in which he is a partner, there is neither a 'loan' nor a 'deposit', and the transaction does not also remain unaccounted. The term 'deposit' as explained in section 269T means deposit of money which is repayable after notice or repayable after a period. A contribution to capital does not fit into this definition also. Section 269SS will not, therefore, apply to capital contributions to a firm by its partners, or where a proprietor contributes capital to his business.

9. X wants to purchase a residential house for ₹ 50,000 from Y. The purchase consideration would he paid in cash, X has ₹ 25,000 in his bank account. X's father withdraws ₹ 25,000 from his bank account and he gives a cash loan of ₹ 25,000 to X for the purchase of house. Discuss whether section 269SS would be applicable against X for the acceptance of cash loan of ₹ 25,000 from his father? Also clarify whether he may repay this loan in cash.

The loan obtained by X from his father being a loan of money will be subject to the provision of section 269SS. There appears to be no difficulty about issuing an account payee cheque or draft

on the part of the father in favour of X because both of them have bank accounts. There is no bar to the repayment of the loan by X to his father in cash.

- 10. Kindly advise whether provisions of section 269SS will be attracted in case of credit of accrued interest amounting to ₹ 20,000 or more, or in case where the interest is less than ₹ 20,000 and such interest and the loan amount exceed ₹ 20,000, in respect of unsecured loans.**

Section 269SS provides that no person shall, take or accept from any other person (depositor) any loan or deposit otherwise than by an account payee cheque or account payee bank draft if the amount of such loan or deposit is ₹ 20,000 or more. The section applies only to acceptance of loan or deposit from a third party, namely, the depositor. Interest that has accrued on a deposit is neither in the nature of loan or deposit, nor is it received from a third party. Therefore, section 269SS is not attracted if accrued interest of any amount is credited to the account of a creditor for loan or deposit.

- 11. Kindly advise whether section 269SS will be attracted in case the landlord accepts ₹ 1 lakh in cash as advance against rent from his tenant?**

Section 269SS provides that no person shall, take or accept from any other person any loan or deposit otherwise than by an account-payee cheque or account-payee bank draft if the amount of such loan or deposit is ₹ 20,000 or more. Under clause (iii) of the Explanation to section, 'loan or deposit' means a loan or deposit of money. According to the Random House Dictionary, 'deposit' means, inter alia, 'to give as security or in part payment' and 'advance' means, inter alia, 'to furnish or supply (money or goods) on credit'. It would appear that section 269SS would be attracted in the case above because, what the tenant has done is to make a deposit of rent in advance.

- 12. Kindly advise whether payment or repayment in cash of a deposit direct into the other party's bank account violates section 269SS/ 269T?**

Yes, because, both sections 269SS and 269T provide that such payments must be made only by account payee cheques or account payee bank draft in the circumstances specified in those sections. There is no case law on the point. However, the plain language of the two provisions makes the position clear.

- 13. A is a partner in a firm. He introduces ₹ 50,000 as capital Kindly advise whether this will be hit section 269SS. Kindly also advise whether, when a firm pays its partner ₹ 50,000 in cash out of credit balance of ₹ 2 lakh in his capital account, it will be hit by section 269T?**

Section 269SS relates to mode of taking or accepting certain loans or deposits. A partner's capital contribution to a firm being neither a loan nor a deposit is outside the purview of section 269SS. Withdrawal by a partner from his capital account is not 'repayment of deposit' within the meaning of section 269T. See clause (ii) of the Explanation to section 269T which defines the term 'deposit'. Therefore, when a firm pays its partner ₹ 50,000 out of the credit balance in his capital account, the provisions of section 269T are not attracted.

- 14. A firm issues post-dated cheque to a money-lender who gives the firm money equal to the amount of cheque less interest for the period for which the cheque is post-dated Kindly advise whether section 269SS would be attracted if, in such a case, the firm obtains the money in cash from the money-lender. Kindly also advise whether any exemption has been provided to shroffs and authorised financiers by notification under clause (e) of the proviso to section 269SS.**

Section 269SS provides that no person shall, take or accept from any other person any loan or deposit otherwise than by an account payee cheque or account payee bank draft if the amount of such loan or deposit is ₹ 20,000 or more. Merely because the loan or deposit is made on the strength of a post-dated cheque will not take the transaction outside the scope of section 269SS.

No notification has been issued till now by the Central Government under clause (e) of the proviso to section 269SS providing for exemption in case of loans or deposits taken or accepted from shroffs and authorised financiers.

- 15. Please clarify whether section 269SS would be attracted in the following cases: (1) A is partner in a firm. C who is A's brother gave cash of ₹ 50,000 to A for safe custody and does not receive any interest. A credits the amount in a separate account in the firm's book in the name of C, (ii) Husband's cash surplus was used by his wife for construction?**

Section 269SS refers to both loan and deposit. When C gave amount of ₹ 50,000 in cash and such amount is repayable to C, it would normally be a deposit. A deposit/ loan may or may not carry interest. Agreement about the amount carrying no obligation on the part of the firm to pay interest, does not make it anything other than a deposit or loan. Whether the amount is a deposit or loan, depends upon the terms of agreement between the Parties. In the present circumstances, it is either of them depending upon the agreement between C and the firm. Such an arrangement falls within the purview of section 269SS.

Similarly, when the husband takes money from his wife with a promise to pay her back the amount such taking of the amount would fall within the purview of section 269SS. The purpose for which the money is to be utilised is irrelevant.

- 16. In A's books, there is a deposit of ₹ 1 lakh to the credit of B. Bowes C ₹ 1 lakh. Kindly advise whether A can under instructions from B, credit ₹ 1 lakh to C's account by debiting B's account by ₹ 1 lakh and whether this would be violative of section 269SS ?**

There is no case law on the specific point raised. However, on a strict view it would appear that acceptance by A of a deposit of ₹ 1 lakh from C otherwise than by an account payee cheque or account payee bank draft would be violative of the provisions of section 269SS.

U. WEALTH TAX

- 1. Whether the best judgment assessment order passed without giving the assessee an opportunity of being heard is valid in a case where the notice under section 16(4) has already been given?**

CWT vs. Motor and General Finance Limited (2011) 332 ITR 1 (Delhi)

In the present case, the assessee did not file the wealth-tax return under section 14(1). The Assessing Officer issued a notice to the assessee under section 16(4), calling upon it to furnish the return. On the failure of the assessee to comply with the terms of the notice issued, the Assessing Officer proceeded to make the assessment to the best of his judgment without issue of any further notice under section 16(5). The assessee questioned upon the validity of the assessment done on the ground that the mandatory notice under section 16(5), giving opportunity of being heard to the assessee, was not issued by the Assessing Officer.

On the above issue the Delhi High Court held that, as per section 16(5) the Assessing Officer can resort to making best judgment assessment, after giving an opportunity of being heard to the assessee by issue of notice, in case where:

- (a) where a person fails to make the return under section 14(1) or under section 15, or
- (b) where he fails to comply with all the terms of notice issued under section 16(2) or section 16(4).

Further, according to the second proviso to section 16(5), no notice or opportunity of hearing is required where a notice under section 16(4) has been issued prior to the making of the best judgment assessment.

In the present case, since the Assessing Officer has duly served the notice under section 16(4) on the assessee upon failure of the assessee to file the wealth-tax return, no separate notice under section

16(5) giving opportunity of being heard is required to be issued before making a best judgment assessment.

2. Whether the assessee is not entitled to claim exemption under section 5(1)(iv) of the Wealth Tax Act, in respect of hotel building?

CIT vs. Hiro J. Nagpal (2009) 313 ITR 028 (Raj.)

Relevant Section: 5(1)(iv)

The assessee claimed exemption under section 5(1)(iv) of the Act in respect of a hotel building. The valuation officer valued the interest of the assessee in the hotel property. The Wealth-tax Officer issued a demand under section 16(3) of the Act. The Appellate Assistant Commissioner of Wealth-tax upheld the order of the Wealth-tax Officer. The Tribunal granted the benefit of exemption under section 5(1)(iv) of the Act.

The High Court held that Section 5(1)(iv) of the Wealth-tax Act, 1957 was amended on April 1, 1972, taking away the words "exclusively used for dwelling purposes". The word "house" has neither been defined under the Wealth-tax Act nor under the General Clauses Act. The word "building" has been used in section 5(1)(iii) and the word "property" has been used in section 5(1)(i) of the Act. In common parlance, "house" means a dwelling place where people live. However, a residential building or house can also be used for commercial purposes. Hence, a hotel could not be considered to be house so as to qualify for the exemption under section 5(1)(iv) of the Act.

3. Is wealth-tax leviable on the value of house under construction, where the construction was still incomplete on the relevant valuation date?

CIT vs. Smt. Neena Jain (2011) 330 ITR 157 (P & H)

On this issue, the Revenue contended that the incomplete house of the assessee fell within the purview of assets in section 2(ea) of the Wealth-tax Act, 1957 and it was liable to wealth-tax. Consequently, the value of the plot and investment of assessee's share in construction of the residential house was added and tax was, accordingly assessed.

The High Court opined that the words "any building" could not be read in isolation and had to be harmoniously construed with the remaining portion of section 2(ea) i.e., whether the building was used for residential or commercial purposes or for the purpose of maintaining a guest house, because an incomplete building could not possibly either be used for residential or commercial purposes or for the purposes of maintaining a guest house. Therefore, the word "building" has to be interpreted to mean a completely built structure having a roof, dwelling place, walls, doors, windows, electric and sanitary fittings etc.

In this case, the assessee was constructing the building after obtaining sanction from the appropriate authorities. Explanation 1(b) under section 2(ea) defining "urban land" for levy of wealth-tax, specifically excludes from its scope, the land occupied by any building which has been constructed with the approval of the appropriate authority. Therefore, the incomplete building of the assessee neither fell within the meaning of a building nor within the purview of "urban land" under section 2(ea). Consequently, the incomplete building is not an asset chargeable to wealth-tax.

4. Dr. (Mrs.) Y has purchased a dispensary in March 1992 in the joint names of herself and her husband X (not being a doctor and non-resident for the last 7 years approximately). X has paid entire purchase price of the dispensary and has shown the amount in his books of account as loan given to his wife. Apart from this, he has no interest whatsoever in the property. Now, the following questions arise:

- (1) **Whether X will be treated as owner of the property along with Y, who is the real owner ?**

- (2) **If yes, what will be the status of X and Y under the Income-tax Act and the Wealth-tax Act, i.e., co-owner, joint owner, AOP with indefinite share, etc. ?**
- (3) **Whether X and/or Y will be hit by the provisions of section 64 of the Income-tax Act and section 4 of the Wealth-tax Act and to what extent ?**
- (4) **As X has no interest whatsoever in the property, is it possible for him to remove his name from the purchase agreement and make Y as a sole-owner of the property ? (The agreement is already registered under the Registration Act with the appropriate authority). If yes, how ?**
- (5) **If it is possible to remove his name, will it be necessary for them to comply with the provisions of section 269UC? Can he show in his books the amount paid as loan to wife ?**
- (6) **If he cannot remove his name from the agreement, to what extent he will be treated as owner of property for the purpose of Wealth-tax Act, and Income-tax Act and still can he show that he has given a loan to his wife ? If yes, to what extent ?**

It is not clear how the price of the dispensary could be shown as a loan to Y in the books of X, if it has been registered in the joint names of X and Y. Any rectification or change at this stage will not remove doubts about the claim of Y to be the owner of the dispensary. If no interest has been charged or is chargeable in respect of the loan or the interest charged is unrealistically low, it may strengthen the adverse inference against X's position in the matter. There is a possibility that the dispensary may be treated as his. If the revenue concedes it is a joint venture of X and Y, the income of Y may be aggregated with that of X under section 64(1)(z). If it is taken to be wholly or partly an asset acquired out of X's resources, it may fall within the mischief of section 64(1)(iv), irrespective of whether the transfer of funds by X is found to be a gift to Y or a loan to her. The doctrine of advancement is not applicable in India.

Section 45 of the Transfer of Property Act makes it clear that in the absence of a contract to the contrary, the purchasers will take the property as tenants-in-common, each taking a share corresponding to the consideration paid or provided by him/her. If the genuineness of the alleged loan to Y is doubted, the entire property or business may be taken to belong to X. The withdrawal of X from the venture at this stage may have no effect on the course of events set in motion by the initial acquisition of the property in the names of both X and Y. It is impossible to give proper advice without all the facts of the case. The following points may, however, serve to guide the querist, in a general way :

- (1) Conversion of a current account in a bank into a joint account does not result in a gift, because the balances in the account may vary from time to time-State Bank of India vs. CED [1968] 69 ITR 270 (Punj.).
- (2) Registered documents cannot be mutated retrospectively. A fresh document, conveying X's share to Y, may require registration. It may not, however, serve any useful purpose.
- (3) There is no scope for proceedings for acquisition of the dispensary under section 269UC.
- (4) If the resources with which the property was acquired had been brought into India when X decided to reside here permanently, he will be eligible for wealth-tax exemption on the assets acquired out of the remitted funds for seven successive assessment years commencing with the assessment year next following the date on which he returned to India in terms of section 5 of the Wealth-tax Act. A loan may create more problems than it solves, in the circumstances of the case, as set out by the querist.

5. **M Ltd is a private limited company. It is a manufacturing company and shares are owned by M and its family members. M is a whole time director (salary being ₹ 40,000 per month). M Ltd wants to purchase a residential house property for ₹ 2 crore. The investment will be financed through bank home loan for ₹ 1.75 crore and the balancing amount of ₹ 25 lakh will be paid by the company out of its own sources. Yearly interest will be around ₹ 16 lakh. The house will be given by the**

company to M as rent-free accommodation. The point or consideration is whether the company can claim deduction for interest paid as revenue expenses. Is it possible for the company to claim depreciation on the cost of building? What is the perquisite value to be added to the salary of M? Is there any wealth-tax liability?

Interest liability pertaining to the period till the asset is put to use (till it is used by the director for his residential purposes) can be capitalised and added to the cost of house. Interest liability after the asset is put to use can be claimed as revenue deduction under section 36(1) on yearly basis. The company can claim depreciation in respect of cost of superstructure. In other words, cost of land which is included in purchase consideration of ₹ 2 crore is not qualified for depreciation. In the hands of M, the perquisite value of rent-free house (i.e., 15 per cent of salary) will be chargeable to tax.

The house property purchased by M Ltd. will be an "asset" under section 2(ea) of the Wealth-tax Act. The exemption given by section 2(ea)(1) is not applicable as annual salary of the director is not less than ₹ 5 lakh. However, the value of the house is calculated as per Schedule III to the Wealth-tax Act.

23.2 CASE LAWS ON CENTRAL EXCISE

A. BASIC CONCEPTS

1. **Whether sale of specified goods that do not physically bear a brand name from a branded sale outlet would amount to sale of banded goods and would disentitle the taxpayer from the benefit of SSI exemption notification.**

CCE, Chennai v Australian Foods India Pvt Ltd [2013 (287) ELT 385 (SC)]

The taxpayer was engaged in the manufacturing and sale of cookies from the branded retail outlets of "Cookie Man". The Appellant had acquired this brand name from M/s Cookie Man Pvt Ltd, Australia. The taxpayer was selling some of these cookies in plastic pouches / container on which the brand name of Cookie Man was printed. No brand name was affixed or inscribed on the cookies. The taxpayer was paying excise duty on the cookie sold in the said pouches / container. However on the cookies sold loosely from the counter of the same retail outlet with plain plates and tissue paper excise duty was not paid.

Factually, no loose cookies were received in the outlet nor did the taxpayer manufacture the same. The taxpayer received all the cookies in sealed pouches / containers. Cookies which were sold separately were taken out of the container and displayed for sale separately.

The taxpayer argued that only specified goods bearing an affixed brand name of those goods which physically display the brand name would qualify as goods bearing brand name and hence won't be eligible for SSI exemption. In this case since no brand name was affixed on the cookies loosely sold he is entitled for SSI exemption.

The Supreme Court ('SC') observed that the same cookies when sold in containers do not become unbranded cookies. The in-invoices carry the name of the company and the cookies were sold from the counter of the store. The SC held that the store's decision to sell some cookies without the container stamped with its brand or trade name doesn't change the brand of the cookies. The SC held that cookies once sold even without inscription of the brand name, indicate a clear connection with the brand name in the course of taxpayer's business of manufacture and sale of cookie under the brand name 'Cookie Man'. They continue to be the branded cookies of "Cookie Man" and hence SSI exemption is not available.

2. **Comptroller and Auditor General of India has no power to audit records of non-government companies which are not in receipt of any aid or assistance from any government or government entity; since conflicting decision was appeared to have been given in another case, matter was referred by the Single Judge to the Division Bench**

SKP Securities Ltd v Deputy Director (RA-IDT) [2013 (29) STR 337 (CAL)]

The taxpayers were a company incorporated under the Companies Act, 1956 and were inter alia engaged in the business of trading in stocks and securities. No aids in the form of funds or loan were provided to the taxpayers by the Central or State Government or any other Government undertaking or organization. A notice was issued by the Office of the Principal Director of Audit (Central), Kolkata for getting the ac-accounts, service tax records and other documents audited by the Central Excise Revenue Audit ('CERA') authorities. A writ application was filed by the taxpayers against the said notice.

In the present writ application, the question before the Calcutta High Court was whether Central Excise Revenue Audit authorities [an audit wing of the Principal Director of Audit (Central), Kolkata under the Comptroller and Auditor General of India ('CAG')] had the powers/ authority/ jurisdiction to audit the accounts, service tax records or other documents of the taxpayers.

During the course of hearing, it was observed by the Court that none of the relevant statutes like the Companies Act, 1956, the Income Tax Act, 1961, the Central Excise Act, 1944 or the Finance Act, 1994 contained any provision which would empower the CAG or any audit team subordinate to the CAG to conduct audit of any company incorporated under the Companies Act 1956, except a government company within the meaning of Section 619 of the Companies Act. The Court also observed that under Section 20(1) of the Comptroller and Audit General's (Duties, Powers and Conditions of Service) Act, 1971, accounts of a non-government company could be audited by the CAG only when the CAG is requested to do so by the President of India/ the Governor of a State/ the Administrator of Union Territory, which was not the situation in the present case.

In this writ petition, the taxpayers also challenged the vires of Rule 5A of the Service Tax Rules 1994 ('Service Tax Rules') contending inter alia that the said rule is in excess of the rule making power conferred under the Finance Act, 1994.

The Court held that there is no provision in the Finance Act, 1994 or the CAG Act which empowered the CAG to audit the accounts of a non-government company, which was not receiving any aid or assistance from any government or government entity. Further Sub-section (2) of Section 94 also did not empower the Central Government to frame rules for audit of the accounts of a taxpayer by any audit team under the CAG. With respect to Rule 5A of the Service Tax Rules, it was held that the rule did not oblige a tax-payer to agree to an unauthorized audit of its accounts by an audit team from the CAG's office. It was further clarified that statutory rules framed in exercise of power conferred by a statute, cannot introduce something not contemplated in the statute, from which the rule making power is derived.

The Single Judge was of the opinion that the impugned notice could not be sustained and the same is liable to be set aside. However, in the light of a conflicting judgment given by a Co-ordinate bench in the case of *Berger Paints India Limited and Others vs. Joint Commissioner (Audit) Central Excise, Calcutta – II Commissionerate, Calcutta & Ors.*, the Single Judge decided to refer the writ application to a Division Bench for adjudication on the grounds of judicial propriety.

3. **Wheeled Tractor Loader Backhoe (WTLB) and Vibrating Compactor (VC) are construction machinery could not be termed as 'Automobile' by applying definition provided under Motor Vehicles Act - Parts of WTLB and VC would not be covered by the expression 'parts, components and assemblies of automobiles' appearing against Entry No. 100 of Third Schedule, thus, their packing and repacking would not amount to manufacture**

New Holland Construction v CCE [2013 (287) ELT 447 (TRI- DEL)]

The taxpayers are manufacturers of construction equipments namely Wheeled Tractor Loader Backhoe ('WTLB') and Vibrating Compactor ('VC') covered under HSN heading No 8429 and 8430. In addition they also trade in spare parts of WTLB and VC which are classifiable under CETH 8431 which covers 'parts suitable for use solely or principally with machinery of heading no 8425 to 8430'. The taxpayer was paying applicable excise duty on procurement of spare parts and was onward selling the same after re-packing. No excise duty was charged by the taxpayer as in their view no excise duty was applicable.

According to Section 2(f)(iii) of Central Excise Act, 1944 ('CEA') in respect of goods listed in Schedule III to Central Excise Act, 1944 ('Schedule III') inter-alia packing, re-packing of goods to render the same marketable to the consumer amounts to manufacture. Schedule III inter-alia cover 'parts, components and assemblies of automobiles' falling under any chapter heading.

The Revenue contended that the word 'automobiles' would cover even the WTLB and VC in terms of definition as given in Section 2(28) of the Motor Vehicle Act, 1988 and Section 2(e) of the Air (Prevention and Control of Pollution Vehicle) Act, 1981. Therefore spare parts of WTLB and VC would be treated as parts, components and assemblies of automobiles and their packing or repacking for retail sale would amount to manufacture.

The Tribunal observed that in the Central Excise Tariff Act, 1985 ('CETA'), WTLB and VC are covered under Heading No 8429 and 8430 and parts of these goods are covered under Heading No 8431. Tribunal noted that when in the CETA, the WTLB and VC are treated as construction machinery falling under Chapter 84 and not as 'vehicle other than railways or tram way' covered by Chapter 87 then for the purpose of interpreting the scope of term 'Automobiles' in Schedule III a different criteria based on the definition of the term 'vehicle' or 'automobiles' in Air (Prevention and Control of Pollution) Act, 1981 or Motor Vehicle Act 1988 cannot be adopted. Tribunal held that these two laws are for totally different purpose. Tribunal held the prima facie the word 'Automobiles' in the entry parts, components or assemblies of automobiles under Schedule III has to be understood in the context of CETA in which goods in question are treated as parts of construction machinery not as parts of automobiles.

- 4. Section 4A of the Central Excise Act, 1944 is applicable only in respect of those goods for which there is a requirement of declaration of MRP under the provisions of the Standards of Weights and Measures Act, 1976 and the rules made thereunder.**

Hero Motorcorp Ltd v CCE [2013 (288) ELT 82 (TRI-DEL)]

The taxpayers were engaged in the manufacture of motorcycle and parts thereof. The spare parts in loose condition were cleared by the taxpayers from their Daruhara factory in Haryana to a Spare Parts Division ('SPD') in Gurgaon on payment of duty on 110 percent of the cost of production (i.e. the value determined as per Rules 8 and 9 of the Central Excise Valuation Rules, 2000). SPD, Gurgaon pack-aged such loose motor parts for retail sale and cleared them on payment of duty on the value determined under Section 4A of the Central Excise Act, 1944.

The Revenue Authorities insisted that the taxpayers should also pay duty on clearances of spare parts from Daruhara unit to SPD, Gurgaon as per the value determined under Section 4A. The matter reached the Tribunal where the taxpayers contended that the motorcycle parts were cleared by Daruhara unit in bulk and the same were not packed for retail sale at that stage. Further, packaging for retail sale was done at SPD, Gurgaon where MRP tags are also affixed on packages. It was also argued by the taxpayers that the provisions of the Standards of Weight and Measures Act, 1976 ('SWM Act') and the Standards of Weight and Measures (Packaged Commodities) Rules, 1977 ('SWM Rules') were not applicable to the loose parts as such provisions were applicable only on those commodities which have been packed for retail sale.

The Tribunal observed that for Section 4A to apply, it was a pre-requisite that there must be a requirement under the SWM Act or the SWM Rules to declare the MRP of the goods on their packages. Such requirement was there only in respect of commodities packaged for retail sale. The Tribunal further observed that the goods cleared in loose condition to SPD, Gurgaon were not packaged commodities, therefore the demand of duty in respect of such clearances was declared to be unsustainable.

- 5. Does the process of removal of foreign materials from iron ore for concentration of such ore amount to manufacture?**

Commissioner vs. Steel Authority of India Ltd. 2012 (283) E.L.T. A112 (S.C.)

Facts of the Case:

The Steel Authority of India Ltd. (SAIL) was mining iron ore from mines. The Department submitted that Steel Authority of India Ltd. (SAIL) was mining iron ore from mines and subjecting the same to crushing, grinding, screening and washing with an aim to concentrate the ores.

The Department contended that in the case of the Respondents their mining activity was done by fully mechanized system; that they were mining iron ores from mines and then ores were subjected to process of crushing, grinding and screening and washing with a view to remove foreign materials and to concentrate such ores, that at each stage of washing water is added to improve the flowability of material by removing the sticky particles and the processes undertaken by them

involved removal of parts of foreign material from the ores and increase the "Fe" content (i.e. iron content), thus goods so obtained by such process would qualify as concentrate.

The SAIL submitted that the washing of iron ore by itself could never convert it into concentrates and that washing by itself did not amount to manufacture. The assessee also contended that the concentrates were manufactured by increasing the concentration of Fe content of the mineral by removing and separating different impurities, that concentrates were manufactured by enriching the material in terms of its Fe content, that under this process, raw iron ore of low Fe content was ground to very fine consistency and passed through various processes for making concentrates, that in the present matters neither they undertook any such process nor there was any variation in the Fe content of iron ore extracted from its mines and the Fe content of seized iron ore.

Point of Dispute:

Department contended that any ore which after being subjected to physical or physico chemical process viz., crushing, screening, etc., has had part or whole of its extraneous, foreign matter removed, would be termed as "concentrate", and thus the product obtained after the processes carried out by the Respondents was "iron ore concentrate" only and not iron ore.

Decision of the Case:

The Supreme Court held that removal of foreign materials from iron ore, i.e., mining iron ore from mines and then subjecting to process of crushing, grinding, screening and washing with a view to remove foreign materials to concentrate such ores do not result in manufacture of different commercial commodity. No Central excise duty is leviable on iron ore concentrate.

6. Whether the addition and mixing of polymers and additives to base bitumen results in the manufacture of a new marketable commodity and as such exigible to Excise duty?

CCE vs. Osnar Chemical Pvt. Ltd. 2012 (276) E.L.T. 162 (S.C.)

Facts of the Case:

Osnar Chemical Pvt. Ltd. (Osnar) was engaged in the supply of Polymer Modified Bitumen (for short "PMB"). It entered into a contract with M/s. Afcons Infrastructure Ltd. (Afcons) for supply of PMB at their work site. As per the agreement, the base bitumen and certain additives were to be supplied by Afcons to Osnar directly at the site, where Osnar, in its mobile polymer modification plant, was required to heat the bitumen at a temperature of 160°C with the help of burners. To this hot bitumen, 1% polymer and 0.2% additives were added under constant agitation, for improving its quality by increasing its softening point and penetration. The process of agitation was to be continued for a period of 12 to 18 hours till the mixture becomes homogenous and the required properties were met. The said bitumen in its hot agitated condition was mixed with stone aggregates which were then used for road construction. The Osnar paid duty on PMB processed at their factory in Mumbai but had not paid the same for the conversion done at their work site.

Point of Dispute:

Revenue contended that the aforesaid process carried out by the assessee (Osnar) amounted to manufacture of PMB in terms of section 2(f) of the Central Excise Act, 1944.

It was submitted that the end products, viz. PMB and Crumbled Rubber Modified Bitumen (CRMB) were different from bitumen, in as much as polymers and additives were the raw materials consumed in the process of manufacture of the said final products and were therefore, covered by the definition of the term "manufacture" in section 2(f) of the Act. The Revenue further added that PMB and CRMB were exigible to Excise duty, both falling under a specific entry, while bitumen is classifiable under Chapter sub heading 2713 20 00, and polymer is classifiable under Chapter sub heading 3901 90 00, the finished products, PMB and CRMB were classifiable under Chapter sub heading 2715 00 90. Further, Revenue submitted that PMB and CRMB were commercially known in the market for being bought and sold and therefore, satisfied the test of marketability which is one of the essential conditions for the purpose of levy of excise duty.

Decision of the Case:

The Supreme Court was of the view that “manufacture” could be said to have taken place only when there was transformation of raw materials into a new and different article having a different identity, characteristic and use. It was a well settled principle that mere improvement in quality did not amount to manufacture. It was only when the change or a series of changes take the commodity to a point where commercially it could no longer be regarded as the original commodity but was instead recognized as a new and distinct article that manufacture could be said to have taken place.

The Court held that in the Schedule to the Central Excise Tariff Act, no such process or processes have been specified in the Section notes or Chapter notes in respect of Petroleum Bitumen falling under Tariff Item 2713 20 00 or even in respect of bituminous mixtures falling under Tariff Item 2715 00 90 to indicate that the said process amounts to manufacture. Thus, it was evident that the said process of adding polymers and additives to the heated bitumen to get a better quality bitumen, viz. PMB or CRMB, could not be given an extended meaning under the expression manufacture in terms of section 2(f)(ii) of the Act. The Supreme Court thus concluded that the process of mixing polymers and additives with bitumen did not amount to manufacture.

7. Whether the metal scrap or waste generated during the repair of his worn out machineries/ parts of cement manufacturing plant by a cement manufacturer amounts to manufacture?

Grasim Industries Ltd. vs. UOI 2011 (273) E.L. T. 10 (S.C.)

Facts of the case:

The assessee was the manufacturer of the white cement. He repaired his worn out machineries/ parts of the cement manufacturing plant at its workshop such as damaged roller, shafts and coupling with the help of welding electrodes, mild steel, cutting tools, M.S. Angles, M.S. Channels, M.S. Beams, etc. In this process of repair, M.S. scrap and Iron scrap were generated. The assessee cleared this metal scrap and waste without paying any excise duty. The Department issued a show cause notice demanding duty on the said waste contending that the process of generation of scrap and waste amounted to the manufacture in terms of section 2(f) of the Central Excise Act.

Decision of the case:

The Apex Court observed that manufacture in terms of section 2(f) includes any process incidental or ancillary to the completion of the manufactured product. This ‘any process’ can be a process in manufacture or process in relation to manufacture of the end product, which involves bringing some kind of change to the raw material at various stages by different operations. The process in relation to manufacture means a process which is so integrally connected to the manufacturing of the end product without which, the manufacture of the end product would be impossible or commercially inexpedient.

However, in the present case, it is clear that the process of repair and maintenance of the machinery of the cement manufacturing plant, in which M.S. scrap and Iron scrap arise, has no contribution or effect on the process of manufacturing of the cement, (the end product). The repairing activity in any possible manner cannot be called as a part of manufacturing activity in relation to production of end product. Therefore, the M.S. scrap and Iron scrap cannot be said to be a by-product of the final product. At the best, it is the by-product of the repairing process.

Hence, it held that the generation of metal scrap or waste during the repair of the worn out machineries/parts of cement manufacturing plant does not amount to manufacture.

8. Are the physician samples excisable goods in view of the fact that they are statutorily prohibited from being sold?

Medley Pharmaceuticals Ltd. vs. CCE & C., Daman 2011 (263) E.L. T. 641 (S.C.)

The question which arose for consideration was whether physician samples of patent and proprietary medicines intended for distribution to medical practitioner as free samples, satisfied the test of marketability. The appellant contended that since the sale of the physician samples was prohibited under the Drugs and Cosmetics Act, 1940 and the rules made thereunder, the same could not be considered to be marketable.

Supreme Court observed that merely because a product was statutorily prohibited from being sold, would not mean that the product was not capable of being sold. Physician sample was capable of being sold in open market.

Moreover, the Drugs and Cosmetics Act, 1940 (Drugs Act) and the Central Excise Act, 1944 operated in different fields. The restrictions imposed under Drugs Act could not lead to non-levy of excise duty under the Central Excise Act thereby causing revenue loss. Prohibition on sale of physician samples under the Drugs Act did not have any bearing or effect on levy of excise duty.

Therefore, the Court inferred that the physician samples were excisable goods and were liable to excise duty.

Note: This case was affirmed in case of Medley Pharmaceuticals Ltd. vs. Commissioner - 2011 (269) E.L.T. A20 (S.C.).

9. Whether assembling of the testing equipments for testing the final product in the factory amounts to manufacture?

Usha Rectifier Corpn. (I) Ltd. vs. CCEx., New Delhi 2011 (263) E.L. T. 655 (S.C.)

Facts of the case:

The appellant was a manufacturer of electronic transformers, semi-conductor devices and other electrical and electronics equipments. During the course of such manufacture, the appellant also manufactured machinery in the nature of testing equipments to test their final products.

The appellant had stated in their balance sheet that the addition to the plant and machinery included testing equipments. The said position was further substantiated in the Director's report wherein it was mentioned that during the year, the company developed a large number of testing equipments on its own.

However, the assessee contended that such items were assembled in the factory for purely research and development purposes, but research being unsuccessful, same were dismantled. Hence, it would not amount to manufacture.

The appellant further submitted that the said project was undertaken only to avoid importing of such equipment from the developed countries with a view to save foreign exchange.

Decision of the case:

The Supreme Court observed that once the appellant had themselves made admission regarding the development of testing equipments in their own Balance Sheet, which was further substantiated in the Director's report, it could not make contrary submissions later on. Moreover, assessee's stand that testing equipments were developed in the factory to avoid importing of such equipments with a view to save foreign exchange, confirmed that such equipments were saleable and marketable. Hence, the Apex Court held that duty was payable on such testing equipments.

10. Does a product with short shelf-life satisfy the test of marketability?

Nicholas Piramal India Ltd. vs. CCEx., Mumbai 2010 (260) E. L. T. 338 (S. C.)

Facts of the case:

In the instant case, the product had a shelf-life of 2 to 3 days. The appellant contended that since the product did not have shelf-life, it did not satisfy the test of marketability.

**Decision of the case:**

The Supreme Court ruled that short shelf-life could not be equated with no shelf-life and would not ipso facto mean that it could not be marketed. A shelf-life of 2 to 3 days was sufficiently long enough for a product to be commercially marketed. Shelf-life of a product would not be a relevant factor to test the marketability of a product unless it was shown that the product had absolutely no shelf-life or the shelf-life of the product was such that it was not capable of being brought or sold during that shelf-life.

11. Whether the theoretical possibility of product being sold is sufficient to establish the marketability of a product?**Bata India Ltd. vs. CCE 2010 (252) ELT 492 (SC)****Decision of the case:**

The Apex Court observed that marketability is essentially a question of fact to be decided on the facts of each case and there can be no generalization. The test of marketability is that the product which is made liable to duty must be marketable in the condition in which it emerges. The question is not whether there is a hypothetical possibility of a purchase and sale of the commodity, but whether there is sufficient proof that the product is commercially known. The mere theoretical possibility of the product being sold is not sufficient but there should be commercial capability of being sold. Theory and practice will not go together when one examines the marketability of a product.

The Supreme Court further ruled that the burden to show that the product is marketed or capable of being bought or sold is entirely on the Revenue. Revenue, in the given case had not produced any material before the Tribunal to show that the product was either being marketed or capable of being marketed, but expressed its opinion unsupported by any relevant materials.

Note: The above judgment is in conformity with the explanation to section 2(d) of the Central Excise Act, 1944 inserted by the Finance Act, 2008.

12. Whether the machine which is not assimilated in permanent structure would be considered to be moveable so as to be dutiable under the Central Excise Act?**CCE vs. solid & correct Engineering Works and Ors 2010 (252) ELT 481 (SC)****Facts of the case:**

The assessee was engaged in the manufacture of asphalt batch mix and drum mix/ hot mix plant by assembling and installing its parts and components. The Revenue contended that the said plant would be considered to be moveable so as to be dutiable under the Central Excise Act, 1944.

Decision of the case:

The Court opined that an attachment where the necessary intent of making the same permanent is absent cannot constitute permanent fixing, embedding or attachment in the sense that would make the machine a part and parcel of the earth permanently.

The Court observed that as per the assessee, the machine was fixed by nuts and bolts to a foundation not because the intention was to permanently attach it to the earth, but because a foundation was necessary to provide a wobble free operation to the machine.

Hence, the Supreme Court held that the plants in question were not immovable property so as to be immune from the levy of excise duty. Consequently, duty would be levied on them.

13. Does the process of preparation of tarpaulin made-ups after cutting and stitching the tarpaulin fabric and fixing the eye-lets amount to manufacture?**CCE vs. Tarpaulin International 2010 (256) E.L.T. 481 (S.C.)**

Facts of the case:

The assessee was engaged in manufacture of 'tarpaulin made-ups'. The 'tarpaulin made-ups' was the tarpaulin cloth prepared by making solution of wax, aluminum stearate and pigments which were mixed. The solution was heated in a vessel and was transferred to a tank. Grey cotton canvas fabric was then dipped into this solution and passed through two rollers, whereafter the canvas was dried by exposure to atmosphere. Thereafter, the tarpaulin made-ups were prepared by cutting the cloth into various sizes and stitched and eye-lets were fitted. Department viewed that the "tarpaulin made-ups" prepared by means of cutting, stitching and fixing of eye-lets amounted to manufacture and, hence, they were exigible to duty. However, the assessee stated that the process of mere cutting, stitching and putting eyelets did not amount to manufacture and hence, the Department could not levy excise duty on tarpaulin made-ups.

Decision of the case:

The Apex Court opined that stitching of tarpaulin sheets and making eyelets did not change basic characteristic of the raw material and end product. The process did not bring into existence a new and distinct product with total transformation in the original commodity. The original material used i.e., the tarpaulin, was still called tarpaulin made-ups even after undergoing the said process. Hence, it could not be said that the process was a manufacturing process. Therefore, there could be no levy of Central excise duty on the tarpaulin made-ups.

Hence, the Supreme Court, upholding the decision of the Tribunal, held that conversion of tarpaulin into tarpaulin made-ups would not amount to manufacture.

14. Whether assembling of the testing equipments for testing the final product in the factory amounts to manufacture?

Usha Rectifier Corpn. (I) Ltd. vs. CCEx., New Delhi 2011 (263) E.L. T. 655 (S.C.)

Facts of the case:

The appellant was a manufacturer of electronic transformers, semi-conductor devices and other electrical and electronics equipments. During the course of such manufacture, the appellant also manufactured machinery in the nature of testing equipments to test their final products.

The appellant had stated in their balance sheet that the addition to the plant and machinery included testing equipments. The said position was further substantiated in the Director's report wherein it was mentioned that during the year, the company developed a large number of testing equipments on its own.

However, the assessee contended that such items were assembled in the factory for purely research and development purposes, but research being unsuccessful, same were dismantled. Hence, it would not amount to manufacture.

The appellant further submitted that the said project was undertaken only to avoid importing of such equipment from the developed countries with a view to save foreign exchange.

Decision of the case:

The Supreme Court observed that once the appellant had themselves made admission regarding the development of testing equipments in their own Balance Sheet, which was further substantiated in the Director's report, it could not make contrary submissions later on. Moreover, assessee's stand that testing equipments were developed in the factory to avoid importing of such equipments with a view to save foreign exchange, confirmed that such equipments were saleable and marketable. Hence, the Apex Court held that duty was payable on such testing equipments.

15. Does the addition of stabilizing agent, masking agent etc. amount to manufacture within the meaning of section 2(f) of the Central Excise Act, 1944?

CCEx. vs. Karam Chand 2009 (236) E.L.T. 647 (H.P.)

The respondent was engaged in the manufacture of liquid mosquitoes' destroyer. It used to obtain concentrated alletherin and convert it into diluted alletherin by adding solvent deodorized kerosene oil, perfume (as a masking agent) and DHT (as a stabilising agent). The question which came for the consideration before the High Court was whether the addition of stabilizing agent, masking agent etc. amounted to manufacture within the meaning of section 2(f) of the Central Excise Act, 1944.

The High Court held that mere processing of the goods was not manufacture and to fall within the definition of manufacture a new substance should be formed. In the present case, no new substance was formed and only a diluted form of original substance was packaged under a different brand name. Alletherin in its concentrated form was an insecticide. The final product manufactured by the respondent was a diluted form of insecticide-allethrin which would only kill small insects like mosquitoes. Hence, only the potency of the insecticide was being reduced. Therefore, it could not be termed as manufacture.

16. Whether the assessee is required to pay duty on the activity of assembling and installing furniture at its customers' premises out of the components of Office Furniture System/Work Stations (OFS/WS) purchased from the supplier?

CCEx., Delhi vs. Blow Plast Ltd. 2009 (236) E.L.T. 631 (Del.)

The assessee manufactured OFS/WS from the various parts of furniture purchased from the supplier (K&C). The assessee contended that they were only marketing OFS/WS and the entire system already stood duty paid at the hands of the manufacturer i.e. K&C. Thus, the question under consideration was whether assembling and installing furniture at customer's premises out of components of Office Furniture System/Work Stations (OFS/WS) purchased from the supplier (K&C) amounted to manufacture.

The Tribunal arrived at the conclusion that since K&C had cleared the complete set of elements required for the work station in a knocked down condition for the purpose of facilitating transportation, it could not be said that K&C had manufactured the parts and not the complete system.

The High Court, upholding the Tribunal's decision, held that the same product as known to the trade could not be manufactured twice over. Consequently, nothing new had come into existence so as to bring the activities of the assessee within the parameters specified in section 2(f) of the Central Excise Act, 1944. What the assessee received was complete OFS/WS and what it left on its clients' sites was also complete OFS/WS. Nothing new had come into existence. Hence, no duty was payable by the assessee.

17. Whether the assessee can be considered as manufacturer if it gets its products manufactured through its sister concern which is also situated in same premises?

Lamina International vs. CCEx., Bangalore 2009 (239) E.L. T. 232 (Kar.)

M/s Lamina International (LI), engaged in export of goods, got manufactured the products from M/s. Lamina Suspension Products Limited (LSPL) on job work basis. Revenue contended that since the documents furnished by the appellant clearly showed that the goods in question were manufactured by the assessee through LSPL, appellant could not be considered as a manufacturer. In this regard, the appellant replied that both the appellant and LSPL were housed in one premise and both the units were under the control and supervision of the appellant (assessee).

The High Court noted that the assessee was apparently a creation of LSPL and both the units were one and the same i.e. they were sister concerns. Considering the word 'manufacturer' (as defined under section 2(f) of the Act) which includes any person engaged in the production or manufacture on his own account, the Court observed that the manufacturer-LSPL was manufacturing the goods on behalf of the appellant and the appellant was having a full control and supervision over the activities of LSPL.

High Court also referred to the cases of *Commissioner of Sales Tax vs. Sukh Deo* AIR 1969 SC 499 and *Modi Rubber Ltd. vs. Union of India* 1997 (19) RLT 479 (Del.) ,wherein it was held that manufacturer is a person by whom or at whose direction and control the articles or materials are made.

Considering the definition under section 2(f) and the case laws referred above, the High Court answered the question of law framed in the appeal in favour of the assessee. Hence, the appellant was held as the manufacturer of the goods.

18. Whether production of mustard oil and oil cake from mustard seeds amounts to manufacture?

***Jai Bhagwan Oil and Flour Mills vs. UOI* 2009 (239) E.L.T. 401 (S. C.)**

The Apex Court held that the true test to ascertain whether a process is a manufacturing process producing a new and distinct article, whether the article produced is regarded in the trade, by those who deal in it, as a marketable product distinct in identity from the commodity/raw material involved in the manufacture.

When mustard seeds were subjected to the process of extraction whereby mustard oil and oil cake were produced, the process involved manufacture of mustard oil as also the manufacture of oil cake. It was certainly not a mere process of cleaning, repairing, reconditioning, recycling or assembling. Oil cake was a distinct and different entity from mustard seeds and it had a separate name, character and use different from mustard seed. Oil cake was not a waste to be thrown away, but was a valuable product with a distinct name, character, use and marketability. So, oil cake was a finished product and not a by-product and the said process amounted to manufacture.

19. Have the aluminium dross and skimmings become excisable in view of the insertion of Explanation to section 2(d) of the Central Excise Act, 1944 by the Finance Act, 2008?

***Hindalco Industries Ltd. vs. UOI* 2009 (243) E.L.T. 481 (All.)**

Relevant Section: 2(d) of the Central Excise Act, 1944

The assessee submitted that insertion of the explanation to section 2(d) would not change the position established in law that 'aluminium dross and skimming,' were neither processed or manufactured, or were marketable commodities.

Decision of the case:

The High Court observed that effect of the explanation is to get over the judgment of the Apex Court in case of *Commissioner, Central Excise vs. Indian Aluminium Co. Ltd.* 2006 (203) E.L.T. 3 (S.C.) wherein the Supreme Court held that everything that can be sold was not necessarily marketable.

The High Court elucidated that, prima facie, the insertion of the explanation under section 2(d) providing for a fiction in law by a deeming clause in definition of "goods" to include any article, material or substance which is capable of being bought and sold for a consideration, and to treat such goods as marketable, would make the 'aluminium dross and skimming' liable to excise duty. Where the goods are specified in the Tariff, they can be subjected to duty, if they are produced, or manufactured by the person on whom duty is 'proposed'. The High Court noted that the expression had been explained by the Supreme Court to mean that the goods so produced must satisfy the test of marketability. The excise duty is levied on production and manufacture which means bringing out a new commodity, substance, and it is implicit that such goods must be usable, saleable and marketable. If the goods are marketable or are deemed to be marketable, as on now by the explanation added to section 2(d), such goods included in the Tariff would attract excise duty.

20. Does the fabrication, assembly and erection of waste water treatment plant amount to manufacture?

***Larsen & Toubro Limited vs. UOI* 2009 (243) E.L.T. 662 (Bom.)**

Relevant Section: 2(f) of the Central Excise Act, 1944

Facts of the case:

The assessee was engaged in fabrication, assembly and erection of waste water treatment plant. As per the assessee, the plant could not function as such until it was wholly built including the civil construction. Since, after being completely built, waste water treatment plant became immovable, duty could not be levied on it.

However, the Department alleged that the assessee had fabricated/ manufactured the waste water treatment plant. It further alleged that waste water treatment plant came into existence in an unassembled form before the same was installed and assembled to the ground with civil work. It became operational after it was embedded in the civil work and, therefore, the excise duty was payable on it.

Decision of the case:

The High Court opined that mere bringing of the duty paid parts in an unassembled form at one place, i.e. at the site does not amount to manufacture unless an excisable movable product (say a plant) comes into existence by assembly of such parts. In the present case, the petitioner had stated that the waste water treatment plant did not come into existence unless all the parts were put together and embedded in the civil work. Waste water treatment plant did not become a plant until the process which included the civil work, was completed. Thus, the Court held that no commercial movable property came into existence until the assembling was completed by embedding different parts in the civil works. Hence, the fabrication, assembly and erection of waste water treatment plant does not amount to manufacture.

21. Whether the theoretical possibility of product being sold is sufficient to establish the marketability of a product?**Bata India Ltd. vs. CCE 2010 (252) ELT 492 (SC)****Decision of the case:**

The Apex Court observed that marketability is essentially a question of fact to be decided on the facts of each case and there can be no generalization. The test of marketability is that the product which is made liable to duty must be marketable in the condition in which it emerges. The question is not whether there is a hypothetical possibility of a purchase and sale of the commodity, but whether there is sufficient proof that the product is commercially known. The mere theoretical possibility of the product being sold is not sufficient but there should be commercial capability of being sold. Theory and practice will not go together when one examines the marketability of a product.

The Supreme Court further ruled that the burden to show that the product is marketed or capable of being bought or sold is entirely on the Revenue. Revenue, in the given case, had not produced any material before the Tribunal to show that the product was either being marketed or capable of being marketed, but expressed its opinion unsupported by any relevant materials.

Note: The above judgment is in conformity with the explanation to section 2(d) of the Central Excise Act, 1944 inserted by the Finance Act, 2008.

22. Does the activity of packing of imported compact discs in a jewel box along with inlay card amount to manufacture?**CCE vs. Sony Music Entertainment (I) Pvt. Ltd. 2010 (249) E.L.T. 341 (Bom.)****Relevant Section: 2(f) of the Central Excise Act, 1944****Facts of the case:**

The appellant imported recorded audio and video discs in boxes of 50 and packed each individual disc in transparent plastic cases known as jewel boxes. An inlay card containing the details of the content of the compact disc was also placed in the jewel box. The whole thing was then shrink

wrapped and sold in wholesale. The Department contended that the said process amounted to manufacture.

Decision of the case:

The High Court observed that none of the activity that the assessee undertook involved any process on the compact discs that were imported. It held that the Tribunal rightly concluded that the activities carried out by the respondent did not amount to manufacture since the compact disc had been complete and finished when imported by the assessee. They had been imported in finished and completed form.

B. CLASSIFICATION OF EXCISABLE GOODS

1. In case of specific classification viz-a-viz classification based on material used/ composition of goods, which one should be adopted?

Commissioner of Central Excise, Bhopal vs. Minwool Rock Fibres Ltd. 2012 (278) E.L. T. 581 (S.C.)

Facts of the Case:

Minwool Rock Fibres Ltd. started manufacturing rockwool and slagwool using more than 25% of blast furnace slag by weight in 1993. They classified them under Central Excise Tarriff heading 6803 00 (i.e. Slagwool, Rockwool and similar mineral wools) and had been filing classification declarations mentioning this fact. Such declarations so filed prior to 1997-98 were accepted by the Department. However, another specific sub-heading 6807 10 of Central Excise Tariff was introduced vide Budget 1997 for 'Goods having more than 25% by weight blast furnace slag'. Accordingly, they claimed that the goods manufactured by them, namely, slagwool and rockwool should henceforth be classified under Chapter sub-heading 6807 10 of the Tariff.

The Revenue contended that when there was a specific sub-heading, i.e. 6803 00 wherein the goods, such as Slagwool, Rockwool and similar wools were enumerated, that entry requires to be applied and not Chapter sub-heading 6807.10.

Point of Dispute:

The assessee's contention was that the appropriate classification for their product was under Chapter sub-heading No. 6807 10 of the Act while the Department contended that the appropriate classification was under Chapter sub-heading No. 6803 00 of the Act.

This was the subject matter of the appeal before the Supreme Court.

Decision of the Court:

The Supreme Court held that there was a specific entry which speak of Slagwool and Rockwool under sub-heading 6803 00 chargeable at 18%, but there was yet another entry which was consciously introduced by the Legislature under sub-heading 6807 10 chargeable at 8%, which speaks of goods in which Rockwool, Slag wool and products thereof were manufactured by use of more than 25% by weight of blast furnace slag.

It was not in dispute that the goods in question were those goods in which more than 25% weight of one or more of red mud, press mud or blast furnace slag was used. If that be the case, then, in a classification dispute, an entry which was beneficial to the assessee required to be applied and the same had been done by the adjudicating authority, which had been confirmed by the Tribunal. Further, tariff heading specifying goods according to its composition should be preferred over the specific heading. Sub-heading 6807 10 is specific to the goods in which more than 25% by weight, red mud, press mud or blast furnace slag is used as it is based entirely on material used or composition of goods.

Therefore, the Court opined that the goods in issue were appropriately classifiable under Sub-heading 6807 10 of the Tariff.

2. In case of a specific entry viz-a-viz a residuary entry, which one should be preferred for classification purpose?

CCE vs. Wockhardt Life Sciences Ltd. 2012 (277) E.L. T. 299 (S.C.)

Facts of the Case:

Wockhardt Life Sciences Ltd. was the manufacturer of Povidone Iodine Cleansing Solution USP and Wokadine Surgical Scrub. The only difference between these two products was that Wokadine was a branded product whereas Povidone Iodine Cleansing Solution was a generic name.

The Revenue contended that the said products were not medicament in terms of Chapter Note 2(i) of the Tariff Act as it neither had "Prophylactic" nor "Therapeutic" usage. The Revenue said that in order to qualify as a medicament, the goods must be capable of curing or preventing some disease or ailment. Therefore, the said products cannot be classified under Chapter Heading 3003 of Tariff Act. They submitted that the product in dispute, namely Povidone Iodine Solution or its patent and proprietary equivalent Wokadine surgical scrub, was essentially used as a medicated detergent.

The assessee stated that the Revenue, in their show cause notices, had admitted that the products in issue were antiseptic and used by surgeons for cleaning or de-germing their hands and scrubbing surface of skin of patient before operation. They further submitted that the products were medicament in which some carriers were added and therefore, it would fall under chapter sub-heading 3003 and not under chapter 34.

Point of Dispute:

The assessee's claim before the authorities and also before the Tribunal was that the aforesaid products were medicaments and, therefore, required to be classified under Chapter sub-heading 3003 of the Tariff, whereas the Revenue's stand was that the products in question are detergents and, therefore, to be classified under chapter subheading 3402.90.

Decision of the Case:

The Supreme Court observed that it is the specific case of the assessee that the products in question are primarily used for external treatment of the human-beings for the purpose of the prevention of the disease. This is not disputed by the Revenue. Revenue's stand is that since the products in question are primarily used as detergents/cleansing preparation, they cannot be brought under the definition of medicaments. Medicaments are products which can be used either for therapeutic or prophylactic usage. The Court said that since the product in question is basically and primarily used for the prophylactic uses, the Tribunal was justified in coming to a conclusion that the product was a medicament. The miniscule quantity of the prophylactic ingredient is not a relevant factor.

The Court said that the combined factor that requires to be taken note of for the purpose the classification of the goods are the composition, the product literature, the label, the character of the product and the use to which the product is put. In the instant case, it is not in dispute that this is used by the surgeons for the purpose of cleaning or de-germing their hands and scrubbing the surface of the skin of the patient that portion is operated upon. The purpose is to prevent the infection or disease. Therefore, the product in question can be safely classified as "medicament" which would fall under chapter sub-heading 3003 which is a specific entry and not under chapter sub-heading 3402.90 which is a residuary entry.

Thus, on the basis of the above observation by the Court the Revenue's appeal was rejected.

3. When entries in Harmonised System of Nomenclature (HSN) and the Excise Tariff are not aligned, can reliance be placed upon HSN for the purpose of classification of goods?

Camlin Ltd. vs. CCEx., Mumbai 2008 (230) E.L.T. 193 (SC)

The Supreme Court ruled that when the entries in the Harmonised System of Nomenclature (HSN)

and the Excise Tariff are not aligned, reliance cannot be placed upon HSN for the purpose of classification of goods under the said Tariff. It further added that in the instant case, the Tribunal erred in relying upon the HSN for the purpose of classification of the impugned product. The Tribunal failed to appreciate that since the entries under the HSN and the entries under the said Tariff were completely different, the Tribunal could not base its decision on the entries in the HSN.

4. Whether the rules of interpretation applicable to the cases of classification under the Excise Tariff are also applicable to interpretation of exemption notification?

CCEx., Jaipur vs. Mewar Bartan Nirman Udyog 2008 (231) ELT 27 (SC)

The Apex Court clarified that it is well settled position in law that exemption notification has to be read strictly. A notification of exemption has to be interpreted in terms of its language. Where the language is plain and clear, effect must be given to it.

While interpreting the exemption notification, one cannot go by rules of interpretation applicable to cases of classification under the Excise Tariff. Tariff items in certain cases are required to be interpreted in cases of classification disputes in terms of HSN, which is the basis of the Tariff. The rules of interpretation applicable to the cases of classification under the Tariff cannot be applied to interpretation of exemption notification.

5. How to determine whether a product is covered by 'cosmetics' or 'medicaments'?

CCEx., Nagpur vs. Shree Baidyanath Ayurved Bhawan Ltd. 2009 (237) E.L.T. 225 (S. C.)

The question that arose for consideration before the Apex Court was in relation to classification of "Dant Manjan Lal" (DML) manufactured by M/s. Baidyanath Ayurved Bhawan Limited. While Baidyanath contended that the product DML was a medicament under Chapter sub-heading 3003 31 of the Central Excise Tariff Act, 1985, the stand of the Department was that the said product was a cosmetic/toiletry preparation/tooth powder classifiable under Chapter heading 3306.

The Apex Court observed that in order to determine whether a product is covered by 'cosmetics' or 'medicaments' or in other words whether a product falls under Chapter 30 or Chapter 33, common parlance test continues to be relevant. One should resort to the popular meaning and understanding attached to such products by those using the product and not to the scientific and technical meaning of the terms and expressions used. Hence, it is important to note how the consumer looks at a product and what is his perception in respect of such product.

The Supreme Court further ruled that merely because there is some change in the tariff entries, the product will not change its character. Something more is required for changing the classification especially when the product remains the same. Therefore, since there was no change in the nature, character and uses of DML, it had to be classified as a tooth powder as held earlier in case of the assessee itself in *Shree Baidyanath Ayurved Bhawan Ltd. vs. Collector 1996 (83) E.L. T. 492 (S.C.)*. The Apex Court clarified that although, this case related to old Tariff period i.e. prior to enactment of new Tariff Act but since the product in its composition, character and uses continued to be the same, even after insertion of new sub-heading 3301 30, change in classification was not justified as common parlance test continued to be relevant for classification.

6. Whether the carpet, in which jute is predominant by weight, but the surface is entirely of polypropylene, should be classified as jute carpet or polypropylene carpet?

CCEx., Bhubneshwar vs. Champdany Industries Limited 2009 (241) E.L. T. 481 (S.C.)

The assessee was engaged in the manufacture of the carpets in which jute predominated by weight over every other single textile material. However, Revenue contended that the same should be classified as polypropylene carpet.

In this regard, the Apex Court considered the following points:

- (i) Relying on Note 1 to Chapter 57¹, Revenue argued that the surface of the carpet being entirely

of polypropylene, the same should be classified as polypropylene carpet. The Supreme Court viewed that role of Chapter Note is limited to decide whether the goods in question are “carpets and other textile floor coverings” for the purposes of Chapter 57 or not. Once the goods are carpets and falling under Chapter 57, the role of Chapter Note 1 comes to an end.

Further referring to the relevant statutory provisions laid down in Section Notes 2(A) and 14(A) of Section XI², the Apex Court held since the impugned goods admittedly fell under Chapter 57 and consisted of more than two textile materials, it had to be classified on the basis of that textile material which predominated by weight over any other single textile material. As, in the goods in question, jute admittedly predominated by weight over each other single textile material, the said carpet could only be classified as jute carpets and nothing else. The contrary interpretation given by the Revenue was incorrect.

- (ii) Relying on the concept of essentiality test, Revenue argued that as the exposed surface of the carpet was polypropylene fiber and not jute, these goods could not be classified as jute carpets. The Court held the said argument of the Revenue to be erroneous because it was against the principle of predominance test.
- (iii) Learned counsel for the Revenue further argued that the common parlance test should be applied for classifying the carpets and the carpets, to the common man, would not appear to be jute carpet but polypropylene carpet. The Supreme Court observed that it is already established principle that while interpreting statutes like the Excise Tax Acts or Sales Tax Acts, the common parlance test can be accepted only if any term or expression is not properly defined in the Act. Therefore, going by the aforesaid principle, the Court held that common parlance test did not have any application here.
- (iv) Learned counsel for the Revenue argued that for the purpose of classification in this case, rule 3 of the ‘Rules for the Interpretation of the First Schedule to the Central Excise Tariff Act, 1985’ should be applied. Applying the said rule, Revenue wanted to classify the carpets under the residuary sub-heading 5702 90 of Heading 5702 - “others”. In this regard, the Apex Court observed that Revenue’s stand in this case was contrary to the decision of Supreme Court in *HPL Chemicals Ltd. vs. Commissioner of Central Excise, Chandigarh (2006) 5 SCC 208*, wherein it was held that rule 3(a) of the Interpretative Rules provides that if the goods are covered by a specific heading, the same cannot be classified under the residuary heading at all.

Apart from that, the Court noted that the point of rule 3, which had been argued by the learned counsel for the Revenue, was not part of its case in the show-cause notice. It is well settled that in Court, Revenue cannot argue a case not made out in its show-cause notice.

In the light of the above discussion, the Apex Court pronounced that the said carpets shall be classified as jute carpets and not as polypropylene carpet.

7. Is the product “Scrabble” classifiable under sub-heading 9503 00 or sub-heading 9504 90 of the First Schedule to the Central Excise and Tariff Act, 1985?

Pleasantime Products vs. CCE 2009 (243) E.L.T. 641 (S.C.)

Facts of the case:

According to the assessee, “Scrabble” was a puzzle or in the alternative it was an educational toy falling under sub-heading 9503 00. However, Revenue alleged that “Scrabble” was not a puzzle, it was not a toy but a game. Moreover, since “Scrabble” has board(s) and pieces it was classifiable under sub-heading 9504 90.

Decision of the case:

The Court opined that “Scrabble” was not a puzzle/crossword. The difference between a “game” and a “puzzle” is brought out by three distinct features, viz., outcome, clue-chance and skill. In a puzzle, the outcome is fixed or pre-determined which is not there in “Scrabble”. In a “Scrabble”

there are no clues whereas in crossword puzzle, as stated above, words are written according to clues. Hence, the essential characteristic of crossword to lay down clues and having a solution is absent from "Scrabble". Thus, "Scrabble" would not fall in the category or class mentioned in sub-heading 9503 00, namely, "puzzles of all kinds".

As per the dictionary meaning, "Scrabble" is a board game in which players use lettered tiles to create words in a crossword fashion. Applying the dictionary meaning, the Apex Court held that "Scrabble" was a board game. It was not a puzzle. In the circumstances, it would fall under heading 9504 and not under sub-heading 9503 00 of the Central Excise Tariff.

Note - The headings cited in the case law mentioned above may not co-relate with the headings of the present Excise Tariff as it relates to an earlier point of time.

C. VALUATION OF EXCISABLE GOODS

1. Whether the price used for selling of a product below the cost price for penetration of market can be considered as transaction value?

CCEx., Mumbai vs. Fiat India Pvt. Ltd. 2012 (283) E.L. T. 161 (S.C.)

Facts of the Case:

The Fiat India Pvt. Ltd. (Fiat) was the manufacturer of motor cars. They were selling Fiat UNO model cars below cost and were making losses in wholesale trade. The purpose was penetrate the market and competing with other manufacturers of similar goods. The prices were not based on manufacturing cost and profit. This was happening over the period of five years. The Assistant Commissioner directed for the provisional assessment of the cars at a price which would include cost of production, selling expenses including transportation and landing charges, wherever necessary and profit margin, on the ground that the cars were not ordinarily sold in the course of wholesale trade as the cost of production is much more than their wholesale price, but were sold at loss for a consideration.

Point of Dispute: -

The Department disputed that as the extra commercial consideration was involved in this case an additional consideration should be added to the price for the purpose of duty. Thus, the Department invoked Best Judgment Assessment.

Decision of the Case:

The Supreme Court held that the duty has to be paid on the "transaction value". Section 4(1)(a) of the Central Excise Act, 1944 defines transaction value as under "in a case where the goods are sold by the assessee, for delivery at the time and place of the removal, the assessee and the buyer of the goods are not related and the price is the sole consideration for the sale, be the transaction value.

If any of the ingredients in the above definition is missing then the price shall not be considered as the sole consideration as transaction value.

Supreme Court opined that this is a case of extra commercial consideration in fixing of price and artificially depressing it. Full commercial cost of manufacturing and selling was not reflected in the price as it was deliberately kept below the cost of production. Thus, price could not be considered as the sole consideration for sale. No prudent business person would continuously suffer huge loss only to penetrate market; they are expected to act with discretion to seek reasonable income, preserve capital and, in general, avoid speculative investments. It is immaterial that the cars were not sold to related persons.

In view of the above resorting to best judgment assessment was proper.

2. Whether the charges towards pre-delivery inspection and after-sale-service recovered by dealers from buyers of the cars would be included in the assessable value of cars?

Maruti Suzuki India Ltd. vs. CCE 2010 (257) E.L. T. 226 (Tri. – LB)

Facts of the case:

The appellants were manufacturers of various types of motor vehicles chargeable to duty on ad valorem basis. Department observed that while selling the vehicles to the customers, the dealers added their own margin known as the dealer's margin to the price at which the vehicles were made available to them by the appellants. This dealer's margin contained provision for rendering pre-delivery inspection and three after sale services. Hence, the Department contended that the cost of post delivery inspection and after sale services were to form part of the assessable value of the automobile while discharging the duty liability.

Decision of the case:

The Larger Bench of the Tribunal drew the following propositions:

(i) Transaction value includes the amount paid by reason of/in connection with sales of goods

The Court noted that the transaction value does not merely include the amount paid to the assessee towards price, but also includes any amount a buyer is liable to pay by reason of or in connection with the sale of the goods, including any amount paid on behalf of assessee to the dealer or the person selling the vehicles. The reason of sale and inter connection thereto are essential elements to contribute for assessable value.

Measure of levying is expanded and its composition is broad based to bring all that a buyer is liable to pay or incur by reason of sale or in connection on therewith. The transaction value, therefore, is not confined to the amount actually paid and is not restricted to flow back of consideration or part thereof to the assessee directly but even for discharge of sales obligations both in present and future. Thus, all deferred and future considerations are added to assessable value.

(ii) Definition of transaction value is extensive, at the same time restrictive and exhaustive in relation to the items excluded therefrom

Extensive

The use of expressions like "includes in addition to" and "including but not limited to" in the definition clause establishes that it is of very wide and extensive in nature.

Restrictive and exhaustive

At the same time, it precisely pinpoints the items which are excluded therefrom, with the prefix as "but does not include". Exclusions being defined no presumption for further exclusions is permissible. Hence, the definition is restrictive and exhaustive in relation to the items excluded therefrom.

(iii) PDI and after sales service charges is a payment on behalf of the assessee to the dealer by the buyer

Both, direct benefit as well as indirect benefit (wholly or partly), flowing from buyer to assessee, resulting from the payment made by the buyer to the dealer in connection with or by reason of the sale transaction will have to be included in the assessable value. Being so, any amount collected by the dealer towards pre-delivery inspection or after sale services from the buyer of the goods under the understanding between the manufacturer and the dealer or forming part of the activity of sales promotion of the goods would be a payment on behalf of the assessee to the dealer by the buyer, and hence, it would form part of the assessable value of such goods.

Hence, it was held that the charges towards pre-delivery inspection and after-sales service recovered by dealers from buyers of the cars would be included in the assessable value of cars.

Notes:

1. As per section 4(3)(d) of the Central Excise act, 1944, transaction value is defined as follows:
Transaction value:
 - **means** the price actually paid or payable for the goods, when sold, and
 - **includes in addition to** the amount charged as price, any amount that the buyer is liable to pay to, or on behalf of, the assessee, by reason of, or in connection with the sale, whether payable at the time of the sale or at any other time,
 - **including, but not limited to**, any amount charged for, or to make provision for, advertising or publicity, marketing and selling organization expenses, storage, outward handling, servicing, warranty, commission or any other matter;
 - **but does not include** the amount of duty of excise, sales tax and other taxes, if any, actually paid or actually payable on such goods.
2. It may be noted that CBEC, in view of the aforesaid judgment has clarified vide Circular No. 936/26/2010-CX. dated 27-10-2010 that pre-delivery inspection charges and after-sale service charges collected by the dealers are to be included in the assessable value under section 4 of the Central Excise Act, 1944.

(iv) Students may note that the Apex Court, in case of **CCEx., Pondicherry vs. Acer India Ltd. 2004 (172) E.L.T. 289 (S.C.)** (reported in Select Cases-2005), had held that the valuation of goods would be subject to the charging provisions contained in section 3 of the Act and also sub-section (1) of section 4. The definition of 'transaction value' must be read in the text and context of section 3. Section 4 is a machinery provision and that the said machinery provision as well as the definition of "transaction value" contained therein can not override the charging provision of section 3.

The Supreme Court, in case of **CCEx., Indore vs. Grasim Industries Ltd. 2009 (241) E.L.T. 321 (S.C.)**, has differed with its decision in case of Acer's case and held that the interpretation by the Supreme Court of sections 3 and 4 of the Central Excise Act, 1944 after the substitution of section 4, with effect from 01.07.2000, by the Finance Act, 2000 is not in conformity with the scheme of the Act prima facie, for the reasons that:

- (a) section 3 is a charging section providing for levy of excise duty on excisable goods, whereas section 4 provides for the measure for valuation of excisable goods with reference to which the charge of excise duty is to be levied,
- (b) both operate in their independent fields even though there may be a link between the two and
- (c) in the case of *UOI vs. Bombay Tyre International Ltd. 1983 (14) ELT 1896 (SC)*, the contention of the assessee that "the measure was to be found by reading section 3 with section 4, thus drawing the ingredients of section 3 into the exercise" was specifically rejected.

Besides, the Supreme Court also had reservation with the observation in Acer's case that the definition of "transaction value" must be read in the text and context of section 3 of the Act. The Court held that this would amount to diluting the width of "transaction value" as defined in the substituted provision.

D. CENVAT CREDIT

1. **In case the testing is critical to ensure marketability of manufactured product i.e. the manufacture is not complete without testing; is CENVAT credit of the testing material allowed?**
Flex Engineering Ltd. vs. Commissioner of Central Excise, U.P. 2012 (276) E.L. T. 153 (S. C.)

Facts of the Case:

The Flex Engineering Ltd. ('Flex' in short), a manufacturer was engaged in the manufacturing of various types of packaging machines, marketed Automatic Form Fill and Seal Machines ('F&S machines' in short) .. The machines were 'made to order', in as much as all the dimensions of the packaging/sealing pouches, for which the F&S machine is required, are provided by the customer. The purchase order contained the following inspection clause:

"Inspection/ trial will be carried out at your works in the presence of our engineer before dispatch of equipment for the performance of the machine."

As the machine ordered was customer specific, if after inspection by the customer it was found deficient in respect of its operations for being used for a particular specified packaging, it could not be delivered to the customer, till it was re-adjusted and tuned to make it match with the required size of the pouches as per the customer's requirement. On completion of the above process and when the customer was satisfied, an entry was made in the RG-1 register declaring the machine as manufactured, ready for clearance.

As per the above clause, testing material to be used was Flexible Laminated Plastic Film in roll form & Poly Paper which are duty paid.

Point of Dispute:

The Department denied CENVAT credit on the material used for testing of the packaging machines. Two questions were raised to the High Court in this regard:

- (i) Whether duties paid on testing material would be eligible as credit under rule 57A of the erstwhile Central Excise Rules, 1944 [now rule 2(k) of the CENVAT Credit Rules, 2004]?
- (ii) Whether such use of material in testing in view of the purposes mentioned above, could be said to be used in the manufacture of or use in relation to the manufacture of the final products viz., machines as assembled?

The High Court answered both the above questions in the negative. According to the High Court, anything required to make the goods marketable must form a part of the manufacture and any raw material or any materials used for the same would be a component part of the end product. It thus observed that materials used for testing after manufacture of the final product, viz. the F&S machine, is only to detect the deficiency in the final product and therefore, could not be considered as the goods used in or in relation to the manufacture of the final product. The Flex made an appeal to the Supreme Court against the above order.

Decision of the Case:

The Supreme Court held that the process of manufacture would not be complete if a product is not saleable as it would not be marketable. Thus, the duty of excise would not be leviable on it.

The Supreme Court was of the opinion that the process of testing the customized F&S machines was inextricably connected with the manufacturing process, in as much as, until this process is carried out in terms of the afore-extracted covenant in the purchase order, the manufacturing process is not complete, the machines are not fit for sale and hence, not marketable at the factory gate. The Court was, therefore, of the opinion that the manufacturing process in the present case gets completed on testing of the said machine. Hence, the afore-stated goods viz. the flexible plastic films used for testing the F&S machines are inputs used in relation to the manufacture of the final product and would be eligible for CENVAT credit under rule 57A of the erstwhile Central Excise Rules, 1944 [now rule 2(k) the CENVAT Credit Rules, 2004].

2. **The assessee claimed the CENVAT credit on the duty paid on capital goods which were later destroyed by fire. The Insurance Company reimbursed the amount inclusive of excise duty. Is the CENVAT credit availed by the assessee required to be reversed?**

CCE vs. Tata Advanced Materials Ltd. 2011 (271) E.L.T. 62 (Kar.)**Facts of the case:**

The assessee purchased some capital goods and paid the excise duty on it. Since, said capital goods were used in the manufacture of excisable goods, he claimed the CENVAT credit of the excise duty paid on it. However, after three years the said capital goods (which were insured) were destroyed by fire. The Insurance Company reimbursed the amount to the assessee, which included the excise duty, which the assessee had paid on the capital goods. Excise Department demanded the reversal of the CENVAT credit by the assessee on the ground that the assessee had availed a double benefit.

Decision of the case:

The High Court noted that the as per CENVAT Credit Rules, 2004, CENVAT credit taken irregularly stands cancelled and CENVAT credit utilized irregularly has to be paid for.

In the instant case, the Insurance Company, in terms of the policy, had compensated the assessee. The High Court observed that merely because the Insurance Company had paid the assessee the value of goods including the excise duty paid, it would not render the availment of the CENVAT credit wrong or irregular. It was not a case of double benefit as contended by the Department.

The High Court therefore answered the substantial question of law in favour of the assessee.

3. **In case of combo-pack of bought out tooth brush sold alongwith tooth paste manufactured by assessee, is tooth brush eligible as input under the CENVAT Credit Rules, 2004?**

CCus. vs. Prime Health Care Products 2011 (272) E. L. T. 54 (Guj.)**Facts of the case:**

The assessee was engaged in the manufacture of tooth paste. It was sold as a combo pack of tooth paste and a bought out tooth brush. The assessee availed CENVAT credit of central excise duty paid on the tooth brush. Revenue contended that the tooth brush was not an input for the manufacture of the tooth paste and the cost of tooth brush was not added in the M.R.P. of the combo pack and hence the assessee had availed CENVAT credit of duty paid on tooth brush in contravention of the provisions of the CENVAT Credit Rules, 2004.

Decision of the case:

The High Court noted that the process of packing and re-packing the input, that was, toothbrush and tooth paste in a unit container would fall within the ambit of "manufacture" [as per section 2(f) (iii) of the Central Excise Act, 1944].

Further, the word "input" was defined in rule 2(k) of the CENVAT Credit Rules, 2004 which also included accessories of the final products cleared along with final product. There was no dispute about the fact that on toothbrush, excise duty had been paid. The toothbrush was put in the packet along with the tooth paste and no extra amount was recovered from the consumer on the toothbrush.

Considering the definition given in the rules of "input" and the provisions contained in rule 3, the High Court upheld the Tribunal's decision that the credit was admissible in the case of the assessee.

4. **Whether CENVAT credit can be denied on the ground that the weight of the inputs recorded on receipt in the premises of the manufacturer of the final products shows a shortage as compared to the weight recorded in the relevant invoice?**

CCE vs. Bhuwalka Steel Industries Ltd. 2010 (249) ELT 218 (Tri-LB)**Relevant Rule: 3(1) of the CENVAT credit Rules, 2004**

The Larger Bench of the Tribunal held that each case had to be decided according to merit and

no hard and fast rule can be laid down for dealing with different kinds of shortages. Decision to allow or not to allow credit under rule 3(1), in any particular case, will depend on various factors such as the following:

- (i) Whether the inputs/capital goods have been diverted en-route or the entire quantity with the packing intact has been received and put to the intended use at the recipient factory.
- (ii) Whether the impugned goods are hygroscopic in nature or are amenable to transit loss by way of evaporation etc.
- (iii) Whether the impugned goods comprise countable number of pieces or packages and whether all such packages and pieces have been received and accounted for at the receiving end.
- (iv) Whether the difference in weight in any particular case is on account of weighment on different scales at the despatch and receiving ends and whether the same is within the tolerance limits with reference to the Standards of Weights and Measures Act, 1976.
- (v) Whether the recipient assessee has claimed compensation for the shortage of goods either from the supplier or from the transporter or the insurer of the cargo.

Tolerances in respect of hygroscopic, volatile and such other cargo has to be allowed as per industry norms excluding, however, unreasonable and exorbitant claims. Similarly, minor variations arising due to weighment by different machines will also have to be ignored if such variations are within tolerance limits.

5. Whether penalty can be imposed on the directors of the company for the wrong CENVAT credit availed by the company?

Ashok Kumar H. Fulwadhya vs. UOI 2010 (251) E.L. T. 336 (Bom.)

Decision of the case:

It was held that words "any person" used in rule 13(1) of the erstwhile CENVAT Credit Rules, 2002 [now rule 15(1) of the CENVAT Credit Rules, 2004] clearly indicate that the person who has availed CENVAT credit shall only be the person liable to the penalty. The Court observed that, in the instant case, CENVAT credit had been availed by the company and the penalty under rule 13(1) [now rule 15(1)] was imposable only on the person who had availed CENVAT credit [company in the given case], who was a manufacturer. The petitioners-directors of the company could not be said to be manufacturer availing CENVAT credit.

6. Can CENVAT credit be taken on the basis of private challans?

CCEx. vs. Stelko Strips Ltd. 2010 (255) EL T 397 (P & H)

Issue:

The issue under consideration before the High Court in the instant case was that whether private challans other than the prescribed documents are valid for taking MODVAT credit under the Central Excise Rules, 1944.

Decision of the case:

The High Court placed reliance on its decision in the case of CCE vs. M/s. Auto Spark Industries CEC No. 34 of 2004 decided on 11.07.2006 wherein it was held that once duty payment is not disputed and it is found that documents are genuine and not fraudulent, the manufacturer would be entitled to MODVAT credit on duty paid on inputs.

The High Court also relied on its decision in the case of CCE vs. Ralson India Ltd. 2006 (200) ELT 759 (P & H) wherein it was held that if the duty paid character of inputs and their receipt in manufacturer's factory and utilization for manufacturing a final product not disputed, credit cannot be denied.

Thus, the High Court held that MODVAT credit could be taken on the strength of private challans as the same were not found to be fake and there was a proper certification that duty had been paid.

Note: Though, the principle enunciated in the above judgement is with reference to erstwhile Central Excise Rules, 1944, the same may apply in respect of CENVAT Credit Rules, 2004.

7. Whether the interest on irregular credit under rule 14 of the CENVAT Credit Rules, 2004 arises from date of availing such credit or date of utilization of the credit?

UOI vs. Ind-Swift Laboratories Ltd. 2011 (265) E.L.T. 3 (S.C.)

The Supreme Court elucidated that rule 14 is clear and unambiguous. It specifically provides for levying interest when CENVAT credit is taken or utilized wrongly or erroneously refunded. Thus, credit is recoverable with interest on happening of any of the three specified circumstances.

It held that rule 14 cannot be interpreted to mean that interest is payable from date of utilization of irregular credit and not from the date of availing such credit.

8. The assessee claimed the CENVAT credit on the duty paid on capital goods which were later destroyed by fire. The Insurance Company reimbursed the amount inclusive of excise duty. Is the CENVAT credit availed by the assessee required to be reversed?

CCE vs. Tata Advanced Materials Ltd. 2011 (271) E.L. T. 62 (Kar.)

Facts of the case:

The assessee purchased some capital goods and paid the excise duty on it. Since, said capital goods were used in the manufacture of excisable goods, he claimed the CENVAT credit of the excise duty paid on it. However, after three years the said capital goods (which were insured) were destroyed by fire. The Insurance Company reimbursed the amount to the assessee, which included the excise duty, which the assessee had paid on the capital goods. Excise Department demanded the reversal of the CENVAT credit by the assessee on the ground that the assessee had availed a double benefit.

Decision of the case:

The High Court noted that the as per CENVAT Credit Rules, 2004, CENVAT credit taken irregularly stands cancelled and CENVAT credit utilised irregularly has to be paid for.

In the instant case, the Insurance Company, in terms of the policy, had compensated the assessee. The High Court observed that merely because the Insurance Company had paid the assessee the value of goods including the excise duty paid, it would not render the availment of the CENVAT credit wrong or irregular. It was not a case of double benefit as contended by the Department.

The High Court therefore answered the substantial question of law in favour of the assessee and against the Revenue.

9. Head office distributed the CENVAT credit of the service tax paid on the services received to its various units. Can the CENVAT credit be denied to a particular unit on the ground that input services were obtained by another unit belonging to the same manufacturer?

CCE vs. Ecof Industries Pvt. Ltd. 2011 (271) E.L. T. 58 (Kar.)

Facts of the case:

The assessee was engaged in manufacturer of excisable goods in Malur. Its head office, located in Chennai, was registered as 'Input Service Distributor'. The head office had paid service tax for services received by the head office and its units from various service providers. Thereafter, it had distributed the credit of service tax to its various units including the unit at Malur. The assessee availed and utilized the said credit for payment of central excise duty on their final products.

Revenue contended that since the service tax was paid in respect of services obtained by Cuttack unit, the credit of the said service tax paid could not be utilized by Malur unit.

Decision of the case:

Considering rules 2(k), 2(l), 2(m), 3(1) and 7 of the CENVAT Credit Rules, 2004, the High Court elucidated that availment of credit of the service tax paid on the input service at a particular unit by another unit is not prohibited under law. However, the head office is expected to register itself as an input service distributor and thereafter, is entitled to distribute the credit of such input services in the manner prescribed under law. The High Court therefore held that Malur unit had rightly availed the CENVAT credit of the service tax paid by its head office.

10. In case of transfer of factory to another site, is the assessee entitled to transfer the CENVAT credit corresponding only to the quantum of inputs and capital goods transferred to the new site?

CCEx., Pondicherry vs. CESTAT 2008 (230) ELT 209 (Mad.)

The assessee, a manufacturer of polypropylene bags and tubing, shifted its factory from one site to another. The assessee transferred the entire quantity of inputs and capital goods, available with it at the time of transfer, to the new site. On conducting physical verification, the Range Officer of the new premises reported that the capital goods, the inputs and unutilised CENVAT credit balance had been duly received and accounted for by the assessee in the respective registers of the new factory. The balance of unutilized CENVAT credit lying with the assessee exceeded the amount of CENVAT credit corresponding to the quantum of inputs and capital goods transferred to the new site. Revenue claimed that the assessee was entitled to transfer the CENVAT credit corresponding only to the quantum of inputs and capital goods transferred to the new site and not the entire balance of unutilized credit.

Madras High Court pronounced that rule 8 of the erstwhile CENVAT Credit Rules, 2002 [now rule 10 of the CENVAT Credit Rules, 2004*] does not provide that the assessee could transfer the CENVAT credit corresponding only to the quantum of inputs transferred to the new factory, but permits the assessee to transfer the entire balance of unutilised CENVAT credit along with inputs and capital goods in stock at the factory to the new site. Thus, requirement of erstwhile rule 8 of the CENVAT Credit Rules, 2002 [now rule 10 of the CENVAT Credit Rules, 2004*] had been complied with by the assessee. Hence, he could avail the entire CENVAT credit transferred by him.

Note:

*1. Relevant portion of rule 10 of the CENVAT Credit Rules, 2004 reads as follows:

If a manufacturer of the final products shifts his factory to another site, the manufacturer shall be allowed to transfer the CENVAT credit lying unutilised in his accounts to such transferred factory.

Such transfer of the CENVAT credit shall be allowed only if the stock of inputs as such or in process, or the capital goods is also transferred along with the factory or business premises to the new site and the inputs, or capital goods, on which credit has been availed of, are duly accounted for to the satisfaction of the Deputy Commissioner/the Assistant Commissioner of Central Excise, as the case may be.

2. Supreme Court, in an appeal filed by the Department, has maintained the decision taken by the High Court in above mentioned case [Commissioner v. CESTAT 2009 (237) E.L.T. A48 (S.C.)].

11. Whether inputs can be confiscated under rule 15 of the CENVAT Credit Rules, 2004 on the ground of non-accountal of inputs in the records maintained in computer?

Green Alloys Pvt. Ltd. vs. UOI 2009 (235) ELT 405 (P & H)

The High Court held that the procedure for seizure had to be reasonable and fair. There had to be some basis for continuing to detain the goods. In the instant case, it could not be held that there was a clear case for confiscation only on the ground that the seized goods had been found to be

entered in the stock register, but not in the excel sheet in the computer.

There was nothing to show that in respect of such goods, there had been wrongful availment of CENVAT credit. Revenue sought to draw the presumption of wrongful availment of CENVAT credit on the ground that there was little value addition to the finished product over and above the value of the raw material. However, the High Court held it to be a debatable issue. Therefore, the Court held that there was not a strong prima facie case for confiscation of goods which would justify continued detention of goods.

12. Is Department justified in levying 10% on the sale price of the printed books in terms of rule 6(3)(b) of the CENVAT Credit Rules, 2004 even though the final product is exported?

Repro India Ltd. vs. UOI 2009 (235) ELT 614 (Bom.)

The petitioner manufactured both dutiable (packaged software and stationery books) and exempted final product (printed books). The printed books were entirely exported by the petitioners. The petitioner had taken the credit on inputs used in the manufacture of dutiable as well as exempted final products by virtue of rule 6(6)(v) of the CENVAT Credit Rules, 2004. Department directed the assessee to pay the 10% of the sale price of the printed books even though they were exported. According to the Revenue, since the printed books were exempted goods/goods chargeable to nil rate of duty, they could not be allowed to be cleared by giving bond under rule 19 of the Central Excise Rules, 2002 and the petitioner has to follow the ARE-2 procedure for claiming refund of the duty on the exempted goods.

However, the High Court observed that if the exempted goods are exported outside India, the provisions of rule 6(6)(v) of the CENVAT Credit Rules, 2004 are applicable. Therefore, the bar provided under rule 6(1) and the liability created under rule 6(3)(b) are not attracted. The Department was not justified in levying 10% on the sale price of the printed books in terms of rule 6(3)(b). It was only in the event that the petitioner did not export the printed books and did not maintain the account as contemplated by rule 6(2), the petitioner would be required to pay 10% on the sale price of the printed books not so exported.

The High Court held that considering the language of rule 6(6)(v) of the said rules, the petitioner was entitled to avail CENVAT credit in respect of the inputs used in the manufacture of the final products being exported irrespective of the fact that the final product was otherwise exempt.

The Court clarified that the intent behind the Government enacting special scheme was to ensure that the duty was not levied even on inputs going into the export products. The intention was to ensure that only goods were exported and not the taxes. If the inputs of an export commodity were subject to excise duty, the Indian manufacturer would have become internationally uncompetitive. Therefore, rule 6(6) has been consciously and expressly enacted with the specific objective to ensure that duty is not levied on the inputs going to the export products.

Hence, levy of 10% on the value of the exported goods under rule 6(3)(b) on the footing that the printed books were exempt was completely incorrect.

Note:

(1) Rule 6(6)(v) of the CENVAT Credit Rules, 2004 reads as follows:

The provisions of sub-rules (1), (2), (3) and (4) of rule 6 of the aforesaid rules shall not be applicable in case the excisable goods removed without payment of duty are cleared for export under bond in terms of the provisions of the Central Excise Rules, 2002.

(2) Notification No. 16/2009 - CE (NT) dated 07.07.2009 has amended rule 6(3)(i) so as to prescribe that a manufacturer of both dutiable and exempted goods, opting not to maintain separate accounts, shall pay an amount equal to 5% of the value of the exempted goods instead of 10%. The principle enunciated in above decision still holds good.

13. Whether CENVAT credit is admissible on plastic crates as inputs/capital goods?

Banco Products (India) Ltd. vs. CCEx., Vadodara-I 2009 (235) ELT 636 (Tri-LB)

The appellant was using plastic crates as a material handling device within their factory premises. Such plastic crates were used for internal transportation of the raw material from stores to processing machine, semi-finished goods from one machine to other machine and finished goods to their storage area. The appellant contended that the plastic crates were eligible capital goods for the purposes of CENVAT credit and alternatively as input.

The Tribunal first analyzed the definition of “accessories to the main machine” in order to decide whether plastic crates got covered in the definition of the capital goods as per rule 2(b) of the erstwhile CENVAT Credit Rules, 2002 [now rule 2(a)(A)(iii) of the CENVAT Credit Rules, 2004]. After meticulous consideration of various relevant judgments, the Tribunal observed that the only criteria for an object to be held as an accessory is that that a particular item should be capable of being used with a machine and should advance the effectiveness of working of that machine.

The plastic crates in question were used for transportation of the raw material to the processing machine and all the finished goods from the machine to storage area. If instead of using plastic crates manual transportation of the inputs or semi-finished goods had been opted for, practically, it would have hampered the continuous working of the machine on account of delays in the delivery of the raw material/semi-finished goods etc. Hence, viewed and judged in the light of the interpretation of the term “accessory” by various Courts, the Tribunal concluded that the plastic crates could be held as accessory. Hence, plastic crates would be eligible for CENVAT credit as capital goods.

While dealing with the expression “in the manufacture of the goods” in the definition of inputs under rule 2(g) of the erstwhile CENVAT Credit Rules, 2002 [now rule 2(k) of the CENVAT Credit Rules, 2004], the Apex Court, in the case of *Collr. of C.E. vs. M/s. Rajasthan State Chemical Works 1991 (55) E.L. T. 444*, had observed that the said expression encompassed all processes which were directly related to the actual production. The process of handling/ lifting/ pumping/ transfer/ transportation of the raw material was also a process in relation to manufacture, if integrally connected with further operation leading to manufacture of the goods.

By applying the ratio as enacted by the Supreme Court to the issue in dispute, the Tribunal held that process started with the issuance of the inputs from the stores and their further transportation to the production platform was only a part of the process of manufacture integrally related to the final production. In absence of the delivery of the raw material to the manufacturing platform, the process could not start. Such delivery of the goods included transportation of the goods by plastic crates. Similarly, finished products were required to be stored in a bonded store room. The plastic crates were again used for such transportation. Hence, the Tribunal opined that the plastic crates would also be eligible for CENVAT credit as input.

In the light of aforesaid discussion, the large bench of the Tribunal held that CENVAT credit was admissible on the plastic crates used as material handling equipment in the factory premises as capital goods as also as input.

14. Whether Tribunal is empowered to reduce penalty imposable under rule 57-I(4) of the erstwhile Central Excise Rules, 1944 [now rule 15(2) of the CENVAT Credit Rules, 2004]?

CCus & Ex., Raigad vs. Fibre Foils Ltd. 2009 (241) E.L.T. 201 (Bom.)

The Bombay High Court noted that from the plain or literal reading of the said sub-rule, it would be clear that the language used is “shall”. Hence, the Court pronounced that undoubtedly, the language is mandatory and there is no discretion vested in the authorities in the matter of imposition of penalty. The penalty had to be imposed by the A.O. based on the material available and not on the defence which the assessee might have taken. Hence, the Court held that the penalty has to be equal to the amount of duty which is payable and not less than that.

15. Can the plastic dropper supplied along with pediatric drops be considered as an input used in or in relation to manufacture of final product (pediatric drops)?

CCEx., Mumbai vs. Okasa Ltd. 2009 (241) E.L.T. 359 (Bom.)

The assessee was engaged in the manufacture of pharmaceutical product-pediatric drops. They contended that the plastic droppers supplied with the bottle containing drops were inputs used in or in relation to manufacture of final product namely Novamox pediatric drops. However, the Revenue argued that these droppers were separately kept in the cartons along with the sealed bottle of the pediatric drop. These droppers were neither used in the manufacture of pediatric drop nor used in relation to its manufacture.

The High Court agreed with the contention of the assessee that for purpose of dispensation or administration of the drugs in proper quantity as per the medical prescription, dropper had to be affixed on the bottle containing the drug. Further, as the droppers were necessary packaging material for marketing of the drug (as per the directions given by the Controller of Drugs for India), they would be covered by the words "packaging material". The Tribunal, while allowing the appeal in the instant case, had relied upon the decision taken in *Heal Well Pharmaceutical vs. Collector 1994 (72) E.L. T. 446 (Tribunal)* wherein it was held that where dropper was provided in the carton along with bottle containing the drug, it amounted to manufacture and the manufacturer was entitled to credit of duty paid on such product being input of the firm product.

Considering the all the facts, circumstances and the legal position, the High Court, upholding the Tribunal's decision, held that the plastic dropper packed in the pediatric drops and marketed at the factory gate should be construed to be an input used in or in relation to the manufacture of the final product.

16. Whether the manufacturers of concentrates are eligible to avail credit of the service-tax paid on advertising services, sales promotion, market research etc. availed by them and utilize such credit towards payment of excise duty on the concentrate?

Coca Cola India Pvt Ltd. vs. CCE (2009) 15 STR 657 (Bom.)

Relevant Rule : Rule 2(1) of the CENVAT Credit Rules, 2004

Facts of the case:

The appellants manufactured non-alcoholic beverage bases also known as concentrates. This concentrate was sold by the appellants to bottling companies, who in turn sell the aerated beverages manufactured from the concentrates to distributors and who in turn sell it to retailers for the ultimate sale to the consumer. The advertisement and sales promotion activities including market research were undertaken by the appellant.

The concentrate manufacturer claimed the credit of service tax on the advertising service used for marketing of soft drink removed by bottlers. However, the credit was denied on the ground that the advertisements did not relate to concentrates manufactured by the appellants.

Decision of the case:

Bombay High Court held that though the contents of advertisements made by the appellants (the manufacturer of 'concentrates') essentially featured the 'bottle of aerated waters' (the bottles being the final products manufactured by bottlers and not by the appellants), the credit on advertising services received by the appellant could not be denied on the ground that the advertisement was not of the final product of the appellants (viz., 'concentrates'), but of the final product of the bottlers (viz. 'aerated waters').

The High Court laid down the following propositions -

(i) Five limbs of definition of 'input service' under rule 2(1)

The definition of 'input service' under rule 2(1) can be conveniently divided into the following five independent limbs:

- Any service used by the manufacturer, whether directly or indirectly, in or in relation to the manufacture of final products.
- Any service used by the manufacturer whether directly or indirectly, in or in relation to clearance of final products from the place of removal.
- Services used in relation to setting up, modernization, renovation or repairs of a factory, or an office relating to such factory.
- Services used in relation to advertisement or sales promotion, market research, storage upto the place of removal, procurement of inputs.
- Services used in relation to activities relating to business and outward transportation upto the place of removal.

Each of the aforementioned limbs of the said definition is an independent benefit/concession. If an assessee satisfies any one of the above limbs, then credit on input service would be admissible even if the assessee does not satisfy the other limbs.

Interpretation of certain expressions used in the definition of "input service"

(a) Expression "means" and "includes"

Above two expressions are exhaustive. By the word "includes", services which may otherwise have not come within the ambit of the definition clause are covered and by the word "means", these are made exhaustive.

(b) Expression "such as"

The words "such as" are illustrative and not exhaustive. In the context of business, it refers to those services which are related to the business.

Interpretation of the phrase "activities relating to business"

The phrase "**activities relating to business**" are words of wide import.

- (a) The word 'business' is of wide import and cannot be given a restricted definition to say that business of a manufacturer is to manufacture final products only. In the present case, the business of the appellant would include, apart from manufacture of concentrates, entering into franchise agreements with bottlers, permitting use of brand name, promotion of brand name, etc.
- (b) The expression 'relating to' further widens the scope of the expression 'activities relating to business'.
- (c) The expression 'activities' further widens the scope of the aforesaid expression. Rule making authority has not employed any qualifying words before the word 'activities', like main activities or essential activities etc. It implies that all activities (essential or not) in relation to a business would fall within the ambit of input service. Hence, in the present case all activities having a relation with the manufacturer of the concentrate would fall within the definition of input service.

(d) Input services forming part of value of final product eligible for CENVAT credit

Service tax is a value added tax and a consumption tax and the burden of service tax must be borne by the ultimate consumer and not by any intermediary i.e. the manufacturer or service provider. In order to avoid the cascading effect, CENVAT credit on input stage goods and services must be allowed as long as a connection between the input stage goods and services is established. Conceptually as well as a matter of policy, any input service that forms a part of value

of final product should be eligible for the benefit of CENVAT credit. In the present case, since the advertising cost forms part of the assessable value, the assessee is eligible to take credit of tax paid on advertising services.

(i) Credit allowed in case of existence of relationship between input service and final product

So long as the manufacturer can demonstrate that the advertisement services availed have an effect or impact on the manufacture of the final product and establish the relationship between the input service and the manufacture of final product, credit must be allowed. In the present case, the Court held that the advertisement of soft-drink enhanced the marketability of the concentrate.

Hence, the Bombay High Court inferred that the manufacturers of concentrates are eligible to avail credit of the service-tax paid on advertising services, sales promotion, market research etc. availed by them and can utilize such credit towards payment of excise duty on the concentrate.

17. Whether an assessee would be entitled to claim CENVAT credit in cases where it sells electricity outside the factory to the joint ventures, vendors or gives it to the grid for distribution?

Maruti Suzuki Ltd. vs. CCE (2009) 240 ELT 641 (SC)

Relevant Rule: 2(k) of the CENVAT Credit Rules, 2004

Facts of the case:

The assessee was engaged in the manufacture of electricity using naphtha as fuel for generation of electricity. The electricity was partly used captively and partly sold outside to its joint ventures, vendors or given to the grid for distribution. The assessee claimed the CENVAT credit on the naphtha used in the manufacture of the electricity. However, Department denied the credit on the ground that CENVAT credit on naphtha could not be admitted because part of the electricity was cleared outside the factory to the joint ventures, vendors etc.

Decision of the case:

The Court observed that the statutory definition of the word "input" in rule 2(g) in the erstwhile CENVAT Credit Rules, 2002 [now rule 2(k) in the CENVAT Credit Rules, 2004], can be divided into three parts, namely :

- (i) Specific part
- (ii) Inclusive part
- (iii) Place of use

All the three parts of the definition, namely, specific part, inclusive part and place of use, are required to be satisfied before an input becomes an eligible input.

(I) SPECIFIC PART

"Input" is defined to mean all goods, except light diesel oil, high speed diesel oil and petrol, used in or in relation to the manufacture of final products whether directly or indirectly and whether contained in the final product or not.

Therefore, as per this part, two crucial pre-requisites are as follows:

- (a) All goods "used in or in relation to the manufacture" of final products qualify as "input".
- (b) Presupposition that the element of "manufacture" must be present.

The specific part uses the expression "used in or in relation to the manufacture of final product". It implies that the use of input in the manufacturing process, be it direct or indirect and the absence of the input in the final product become irrelevant.

Electricity may not have any concern with the manufacture of the finished product, but it is

an ancillary activity which is anterior to the process of manufacture of the final product. It is on account of the use of the above expression “used in relation to manufacture” that such an activity of electricity generation comes within the ambit of the definition.

(II) INCLUSIVE PART

Input includes:

- (a) Lubricating oils, greases, cutting oils and coolants;
- (b) Accessories;
- (c) Paints;
- (d) Packing materials;
- (e) Input used as fuel;
- (f) Input used for generation of steam or electricity.

The Court elucidated that, in each case, it has to be established that inputs mentioned in the inclusive part is “used in or in relation to the manufacture of final product”. Unless and until the said input is used in or in relation to the manufacture of final product within the factory of production, the said item would not become an eligible input.

(III) PLACE OF USE

Supreme Court held that the definition of “input” brings within its fold, inputs used for generation of electricity or steam, provided such electricity or steam is used within the factory of production for manufacture of final products or for any other purpose.

The excess electricity cleared to the grid for distribution or to the joint ventures, vendors, and that too for a price (sale), electricity generated cannot be said to be “used in or in relation to the manufacture of final product, within the factory”.

Hence, the Apex Court inferred that the assessee was entitled to credit on the eligible inputs utilized in the generation of electricity to the extent to which they were using the produced electricity within their factory (for captive consumption). They were not entitled to CENVAT credit to the extent of the excess electricity cleared at the contractual rates in favour of joint ventures, vendors etc., which was sold at a price.

18. Can the CENVAT credit of duty paid on inputs and capital goods used in mines be availed?

Madras Cements Ltd. vs. CCE 2010 (257) E.L.T. 321 (S.C.)

Decision of the case:

The Apex Court decided the issue with regard to the eligibility of Modvat/ Cenvat credit on inputs and capital goods used in mines as follows:

(i) CENVAT credit on inputs used in mines

The Supreme Court held that the issue as to availability of Modvat/ Cenvat credit on inputs (explosives, lubricating oils etc.) was squarely covered by the case of Vikram Cement vs. CCE 2006 (194) E.L.T. 3 (S.C.). Therefore, the credit on inputs is allowed.

(ii) CENVAT credit on capital goods used in mines

(a) If the mines are captive mines

If the mines are captive mines so that they constitute one integrated unit together with the concerned cement factory, Modvat/ Cenvat credit on capital goods will be available to the assessee.

(b) If the mines are not captive mines

1. If the mines are not captive mines but they supply goods to various other cement companies of different assessees, and it is found that the said goods were being used in the lime stone mines outside the factory of the assessee, Modvat/ Cenvat credit on capital goods used in such mines will not be available to the concerned assessee.

19. Whether welding electrodes used in repairs/ maintenance of plant and machinery can be considered as input' as defined under rule 2(g) of the erstwhile CENVAT Credit Rules, 2002 [now rule 2(k) of the CENVAT Credit Rules, 2004]?

Ambuja Cements Eastern Ltd. v. CCE 2010 (256) E.L.T. 690 (Chhattisgarh)

Relevant Rule: 2(k) of the CENVAT Credit Rules, 2004

Facts of the case:

Ambuja Cement Ltd., engaged in manufacture of clinker and cement, availed the credit on welding electrodes used in manufacture of parts and components of the capital goods and also in repairs and maintenance of the capital goods within the factory of production. The Department denied the CENVAT credit on welding electrodes under rule 2(g) of the erstwhile CENVAT Credit Rules, 2002 [now rule 2(k) of the CENVAT Credit Rules, 2004].

Decision of the case:

The High Court observed that the definition of "input" occurring under rule 2(g) of the erstwhile CENVAT Credit Rules, 2002 [now rule 2(k) of the CENVAT Credit Rules, 2004] takes in its ambit all inputs, except the specifically excluded items under erstwhile rule 2(g) [now rule 2(k)], which have been employed in the manufacturing process, whether directly or indirectly and whether contained in the final product or not.

The High Court, relying upon certain earlier decisions, overruled the decision of the Larger Bench of the Tribunal in case of Jaypee Rewa Cement vs. CCE 2003 (159) E.L.T. 553 (Tribunal - LB), wherein it was held that welding electrode was not admissible for CENVAT credit. The High Court answered the substantial question of law in favour of the appellant-assessee and held that welding electrodes used in repairs and maintenance of plant and machinery were inputs as defined under erstwhile rule 2(g) [now rule 2(k)] and thus, entitled for CENVAT credit.

E. DEMAND, ADJUDICATION AND OFFENCES

1. Whether Additional Director General, Directorate General of Central Excise Intelligence can be considered a central excise officer for the purpose of issuing SCN?

Raghunath International Ltd. vs. Union of India, 2012 (280) E.L. T. 321 (All.)

Facts of the Case:

The appellant was engaged in the manufacture and clearance of Gutkha and Pan Masala. Search and seizure was conducted at the appellant's premises by the officers of the Directorate General of Central Excise, New Delhi. A show-cause notice was issued by Additional Director General, Directorate General of Central Excise Intelligence asking the petitioner to show cause to the Commissioner of Central Excise, Kanpur within 30 days as to why the duty, penalty and interest were not to be imposed.

Point of Dispute:

The appellant contended that Additional Director General, Directorate General of Central Excise Intelligence had no jurisdiction to issue the Show Cause Notice. It was contended that he was not a "Central Excise Officer" within the meaning of section 2(b) of the Central Excise Act, 1944. It was further contended that no notification regarding his appointment as Central Excise Officer was published in the Official Gazette as required by the rule 3(1) of the Central Excise Rules, 2002.

Another contention pressed by the appellant was that the authority who had issued the show cause notice ought to have obtained prior permission from the adjudicating authority before issuing the Show Cause Notice.

Decision of the Case:

The Court on observing the issue held that Additional Director General, Directorate General of Central Excise Intelligence having been authorized to act as a Commissioner of Central Excise was a Central Excise Officer, within the meaning of section 2(b) of the Central Excise Act, 1944 and was fully authorized to issue the Show Cause Notice.

It was held that the Additional Director General, Directorate General of Central Excise Intelligence having been specified as a Commissioner of Central Excise was fully entitled to issue the show cause notice under section 11A, being a Central Excise Officer. No such provision had been referred to nor shown which may require approval before issuing the show cause notice of the adjudicating authority/officer.

The Government submitted that the Board had already issued notification dated 2-6-2001, in exercise of power under section 2(b) of the Central Excise Act, 1944 read with sub-rule (1) of rule 3 of the Central Excise Rules, 2002, appointing the specified officers as Central Excise officer and investing them with all the powers, to be exercised by them throughout the territory of India. In this notification, Additional Director General, Directorate General of Central Excise Intelligence was specified as Commissioner of Central Excise. Hence, he was fully competent to issue the impugned show cause notice.

2. Is the copy of the order mandatory to be served vi a "registered post" or a speed post would also suffice?

Amidev Agro Care Pvt. Ltd. vs. Union of India 2012 (279) E.L. T. 353 (Bom.)

Facts of the Case:

The appellant-assessee had filed an appeal in May 2010. The date of order was 31st March 2008. The assessee contended that the copy of the order passed by the Commissioner of Central Excise (Appeals) on was not served upon the assessee. It was only when the recovery proceedings were initiated, the assessee sought a copy of the order dated 31st March 2008 and the same was made available to the assessee on 26th February 2010. Immediately thereupon the assessee filed an appeal before the CESTAT on 17th May 2010.

Point of Dispute:

The Department contended that the appeal was not filed within the stipulated time of 3 months from 31st March 2008 while the appellant contended that the appeal filed was within three months of serving of the order on 26 February 2010.

Decision of the Case:

As per section 37C(1)(a) of the Central Excise Act, 1944, it was obligatory on the part of the Revenue, either to tender a copy of the decision to the assessee or to send it by "registered post with due acknowledgment" to the assessee or its authorize agent.

In the present case, neither of the above had been complied with by the Revenue. The High Court thus held that in the facts of the present case, it cannot be accepted that the requirements of section 37C had been complied with. Accordingly, the contention of the assessee that a copy of the order of Commissioner of Central Excise (Appeals) was received for the first time on 26th February 2010 would have to be accepted.

3. If Revenue accepts judgment of the Commissioner (Appeals) on an issue for one period, can it be precluded to make an appeal on the same issue for another period?

Commissioner of C. Ex., Mumbai-III vs. Tikitar Industries, 2012 (277) E.L. T. 149 (S.C.)

Facts of the Case:

The assessee was a manufacturer of the 'Bitulux Insulation Board' known as 'TikkiExjo Filler'. The 'TikkiExjo Filler' is obtained by the process of bituminization of the Insulation board. The adjudicating authority concluding that the above process amounts to manufacture, levied excise duty on it. Aggrieved by the order, the assessee carried an appeal before the Commissioner (Appeals), who accepted the assessee's stand and held that the above process does not amount to manufacture. Department did not appeal against it and the above order of the appellate authority attained the finality.

In the meantime, the Revenue issued several Show Cause-cum-Demand Notices to the assessee directing the assessee to pay the differential duty, but for a time period different from the period covered in the said appeal.

Point of Dispute:

The assessee was of the view that the process of bituminization of the Insulation board by which 'TikkiExjo Filler' is obtained is not manufacture. Revenue, on the other hand, was of the view that the process of bituminization of the Insulation Board resulted in manufacture and thus, duty should be levied on it.

Decision of the Case:

The Supreme Court observed that since the Revenue had not questioned the correctness or otherwise of the findings on the conclusion reached by the first appellate authority, it may not be open for the Revenue to contend this issue further by issuing the impugned show cause notices on the same issue for further periods.

4. Whether time-limit under section 11A of the Central Excise Act, 1944 is applicable to recovery of dues under compounded levy scheme?

Hans Steel Rolling Mill vs. CCE., Chandigarh 2011 (265) E.L. T. 321 (S.C.)

The Apex Court elucidated that compounded levy scheme is a separate scheme from the normal scheme for collection of excise duty on goods manufactured. Rules under compounded levy scheme stipulate method, time and manner of payment of duty interest and penalty. Since the compounded levy scheme is a comprehensive scheme in itself, general provisions of the Central Excise Act and rules are excluded from this scheme.

The Supreme Court affirmed that importing one scheme of tax administration to a different scheme is inappropriate and would disturb smooth functioning of such a unique scheme. Hence, it held that the time-limit under section 11A of the Central Excise Act, 1944 is not applicable to recovery of dues under compounded levy scheme.

5. Whether non-disclosure of a statutory requirement under law would amount to suppression for invoking the larger period of limitation under section 11A?

CC Ex. & C vs. Accrapac (India) Pvt. Ltd. 2010 (257) E.L. T. 84 (Guj.)

Facts of the case:

The respondent-assessee was engaged in manufacture of various toilet preparations such as after-shave lotion, deo-spray, mouthwash, skin creams, shampoos, etc. The respondent procured Extra Natural Alcohol (ENA) from the local market on payment of duty, to which Di-ethyl Phthalate (DEP) is added so as to denature it and render the same unfit for human consumption. The Department alleged that the intermediate product i.e. Di-ethyl Alcohol manufactured as a result of addition of DEP to ENA, was liable to central excise duty.

**Issue:**

The question which arose before the High Court in the instant case is whether non-disclosure as regards manufacture of Denatured Ethly Alcohol amounts to suppression of material facts thereby attracting the larger period of limitation under section 11A.

Decision of the case:

The Tribunal noted that denaturing process in the cosmetic industry was a statutory requirement under the Medicinal & Toilet Preparations (M&TP) Act. Thus, addition of DEP to ENA to make the same unfit for human consumption was a statutory requirement. Hence, failure on the part of the respondent to declare the same could not be held to be suppression as Department, knowing the fact that the respondent was manufacturing cosmetics, must have the knowledge of the said requirement. Further, as similarly situated assessee were not paying duty on denatured ethyl alcohol, the respondent entertained a reasonable belief that it was not liable to pay excise duty on such product.

The High Court upheld the Tribunal's judgment and pronounced that non-disclosure of the said fact on the part of the assessee would not amount to suppression so as to call for invocation of the extended period of limitation.

6. Whether time-limit under section 11A of the Central Excise Act, 1944 is applicable to recovery of dues under compounded levy scheme?

Hans Steel Rolling Mill vs. CCE., Chandigarh 2011 (265) E.L. T. 321 (S.C.)

The Apex Court elucidated that compounded levy scheme is a separate scheme from the normal scheme for collection of excise duty on goods manufactured. Rules under compounded levy scheme stipulate method, time and manner of payment of duty, interest and penalty. Since the compounded levy scheme is comprehensive scheme in itself, general provisions of the Central Excise Act and rules are excluded from this scheme.

The Supreme Court affirmed that importing one scheme of tax administration to a different scheme is inappropriate and would disturb smooth functioning of such unique scheme. Hence, it held that the time-limit under section 11A of the Central Excise Act, 1944 is not applicable to recovery of dues under compounded levy scheme.

7. Whether there is any discretion under section 11AC of the Central Excise Act, 1944 to impose penalty less than the amount equal to duty evaded?

UOI vs. Dharamendra Textile Processors 2008 (231) E.L.T. 3 (S.C.)

The Apex Court pronounced that under section 11AC, there is no discretion vested with the authority to impose any penalty different than the one prescribed by the said provision. The Court observed that section 11AC of the Act was introduced in Union Budget of 1996-97. In para 136 of the Union Budget, reference had been made to the said provision stating that the levy of penalty was a mandatory penalty. In the Notes on Clauses also, the similar indication had been given.

The Court noted that if the contention of learned counsel for the assessee was accepted that the use of the expression "assessee shall be liable" proved the existence of discretion, it would lead to a very absurd result. In the same provision, there was an expression used i.e. "liability to pay duty". It could by no stretch of imagination be said that the adjudicating authority had even discretion to levy duty less than what was legally and statutorily leviable.

8. Whether Government dues have a priority of claim over the dues of secured creditors?

Tata Metaliks Limited vs. UOI 2009 (234) E.L. T. 596 (Bom.)

The Bombay High Court has reaffirmed that Government dues do not have priority of claim over that of secured creditors. However, if the Legislature makes those dues as having priority of claims, the State dues will rank higher in priority than dues of a secured creditor.

9. Is the interest under section 11AB of the Central Excise Act, 1944 recoverable when differential duty is paid on account of price escalation?

CCEx. & C vs. Chloritech Industries 2009 (235) E.L.T. 17 (Guj.)

The High Court held that interest under section 11AB of the Central Excise Act, 1944 was not recoverable when differential duty was paid on account of price variation. In the instant case, at the time of undertaking the transaction, the additional price was not fixed. Hence, the liability of buyer to pay additional amount was not known to buyer himself. The Gujarat High Court observed that mere existence of an escalation clause in contract between parties could not bring the subsequent escalation within the definition of the term "transaction value" for the purposes of levying interest.

The High Court further provided that if neither side to transaction was aware as to the amount which was to be charged and which was to be paid under the escalation clause on the date when the transaction was entered into, no liability to pay interest could arise under the provisions of section 11AB. Section 11AB of the Act itself says that interest is to be paid on the amount short paid from the first date of the month succeeding the month in which the duty ought to have been paid under the Act.

10. What are the conditions and the circumstances that would attract the imposition of penalty under section 11AC of the Central Excise Act, 1944?

UOI vs. Rajasthan Spinning & Weaving Mills 2009 (238) ELT 3 (SC)

The Apex Court, overruling the decision of the Tribunal, held that mandatory penalty under section 11AC of the Central Excise Act, 1944 is not applicable to every case of non-payment or short-payment of duty. In order to levy the penalty under section 11AC, conditions mentioned in the said section should exist. Supreme Court ruled that the Tribunal was not justified in striking down the levy of penalty against the assessee on the ground that the assessee had deposited the balance amount of excise duty (that was short paid at the first instance) before the show cause notice was issued. The Apex Court elaborated that the payment of the differential duty whether before/after the show cause notice is issued cannot alter the liability for penalty. The conditions for penalty to be imposed are clearly spelt out in section 11AC of the Act.

Supreme Court clarified that both section 11AC as well as proviso to sub-section (1) of section 11A use the same expressions : "...by reasons of fraud, collusion or any wilful mis-statement or suppression of facts, or contravention of any of the provisions of this Act or of the rules made thereunder with intent to evade payment of duty,...". Hence, it drew the inference that the penalty provision of section 11AC would come into play only if the notice under section 11A(1) states that the escaped duty was the result of any conscious and deliberate wrong doing and in the order passed under section 11A(2), there is a legally tenable finding to that effect.

11. Whether the payment of differential duty by the assessee at the time of issuance of supplementary invoices to the customers demanding the balance of the revised prices is liable to interest under section 11AB and penalty thereof?

CCE vs. SKF India Ltd. 2009 (239) E.L. T. 385 (S. C.)

The respondent-assessee, manufacturing ball-bearings and textile machine parts, paid the differential duty to the Department as the prices of the said goods were revised with retrospective effect. The Revenue took the view that the assessee was liable to pay interest on differential duty under section 11AB of the Central Excise Act and penalty thereof. The assessee replied that there was no question of charging interest and penalty as the payment of differential duty was made by it at the time of issuing supplementary invoices to the customers.

The Tribunal held that no interest was chargeable where there was no time-gap between the payment of the differential duty and issuance of supplementary invoices to the customers on the

basis of upward revision of prices in respect of the goods sold earlier.

The Apex Court noted that section 11A relating to recovery of duties can be divided in two parts:

- (i) **Where the non-payment or short payment etc. of duty is not intentional and for a reason other than deceit;** the default is due to oversight or some mistake. Such cases are dealt with under sub-section (2B) of section 11A. It provides that the assessee in default may, before the notice issued under sub-section (1) is served on him, make payment of the unpaid duty and inform the Central Excise Officer in writing about the payment made by him. In that event, he would not be given the demand notice. However, from the combined reading of explanation 2 to section 11A(2B) and section 11AB, it can be concluded that the person who has paid the duty under sub-section (2B) of section 11A, shall, in addition to the duty, be liable to pay interest. No penalty is attracted.
- (ii) **Where the non-payment or short payment etc. of duty is intentional, deliberate and/or by deceitful means;** "by reason of fraud, collusion or any willful mis-statement or suppression of facts, or contravention of any of the provisions of the Act or of Rules made thereunder with intent to evade payment of duty". Such cases are dealt with under sub-section (1A) of section 11A. Both interest and penalty are attracted.

The Apex Court, overruling the Tribunal's decision, held that the payment of differential duty by the assessee at the time of issuance of supplementary invoices to the customers demanding the balance of the revised prices clearly falls under the provision of sub-section (2B) of section 11A of the Act. Consequently, no penalty would be leviable on the assessee.

12. Is the assessee liable to pay interest under section 11AB on the differential duty paid on the difference between price at date of removal and enhanced price at which goods are ultimately sold?

CCE v. International Auto Ltd. 2010 (250) E.L.T. 3 (S.C.)

Relevant Section: 11A(2B) and section 11AB of the Central Excise Act, 1944

Decision of the case:

The Apex Court, following the decision made in the case of CCE v. S.K.F. India Limited 2009 (239) E.L.T. 385 (S.C.), observed that sub-section (2B) of section 11A provides that the assessee in default may make payment of the unpaid duty on the basis of his own ascertainment or as ascertained by a Central Excise Officer and, in that event, such assessee in default would not be served with the demand notice under section 11A(1) of the Act.

However, Explanation 2 to the sub-section (2B) of section 11A makes it clear that such payment would not be exempt from interest chargeable under section 11AB of the Act. What is stated in Explanation 2 to section 11A(2B) is reiterated in section 11AB of the Act, which deals with interest on delayed payment of duty.

From the scheme of section 11A(2B) and section 11AB of the Act, it becomes clear that interest is levied for loss of revenue caused on any count. In the present case, the price, on the date of removal/clearance of the goods, was not correct i.e. it was understated. The enhanced duty was leviable on the corrected value of the goods on the date of removal. When the differential duty was paid after the date of clearance, it indicated short payment/short-levy on the date of removal, hence, interest which was for loss of revenue, became leviable under section 11AB of the Act.

Note: Relevant portions of section 11A(2B), explanation 2 to section 11A(2B) and section 11AB read as follows:

Section 11A(2B)

Where any duty of excise has not been levied or paid or has been short-levied or short-paid or erroneously refunded, the person, chargeable with the duty, may pay the amount of duty [on the basis of his own ascertainment of such duty or on the basis of duty ascertained by a Central Excise

Officer] before service of notice on him under sub-section (1) in respect of the duty, and inform the Central Excise Officer of such payment in writing, who, on receipt of such information shall not serve any notice under sub-section (1) in respect of the duty so paid.

Explanation 2 to section 11A(28)

For the removal of doubts, it is hereby declared that the interest under section 11AB shall be payable on the amount paid by the person under this sub-section and also on the amount of short-payment of duty, if any, as may be determined by the Central Excise Officer, but for this sub-section.

Section 11AB

Where any duty of excise has not been levied or paid or has been short-levied or short-paid or erroneously refunded, the person who is liable to pay the duty as determined under sub-section (2), or has paid the duty under sub-section (2B), of section 11A, shall, in addition to the duty, be liable to pay interest at such rate not below ten per cent and not exceeding thirty-six per cent. per annum, as is for the time being fixed by the Central Government, by notification in the Official Gazette, from the first date of the month succeeding the month in which the duty ought to have been paid under this Act, or from the date of such erroneous refund, as the case may be, but for the provisions contained in sub-section (2), or sub-section (2B), of section 11A till the date of payment of such duty.

13. Whether non-disclosure of a statutory requirement under law would amount to suppression for invoking the larger period of limitation under section 11A?

CC Ex. & C vs. Accrapac (India) Pvt. Ltd. 2010 (257) E.L.T. 84 (Guj.)

Relevant Section: 11A of the Central Excise Act, 1944

Facts of the case:

The respondent-assessee was engaged in manufacture of various toilet preparations such as after-shave lotion, deo-spray, mouthwash, skin creams, shampoos, etc. The respondent procured Extra Natural Alcohol (ENA) from the local market on payment of duty, to which Di-ethyl Phthalate (DEP) is added so as to denature it and render the same unfit for human consumption. The Department alleged that the intermediate product i.e. Di-ethyl Alcohol manufactured as a result of addition of DEP to ENA, was liable to central excise duty.

Issue:

The question which arose before the High Court in the instant case is whether non-disclosure as regards manufacture of Denatured Ethly Alcohol amounts to suppression of material facts thereby attracting the larger period of limitation under section 11A.

Decision of the case:

The Tribunal noted that denaturing process in the cosmetic industry was a statutory requirement under the Medicinal & Toilet Preparations (M&TP) Act. Thus, addition of DEP to ENA to make the same unfit for human consumption was a statutory requirement. Hence, failure on the part of the respondent to declare the same could not be held to be suppression as Department, knowing the fact that the respondent was manufacturing cosmetics, must have the knowledge of the said requirement. Further, as similarly situated assesses were not paying duty on denatured ethyl alcohol, the respondent entertained a reasonable belief that it was not liable to pay excise duty on such product.

The High Court upheld the Tribunal's judgment and pronounced that non-disclosure of the said fact on the part of the assessee would not amount to suppression so as to call for invocation of the extended period of limitation.

F. REFUND

- 1. Whether the interest on delayed refund under section 11BB would be payable from the date of deposit of tax or from the date of receipt of application for refund?**

Kanyaka Parameshwari arameshwari Engineering Ltd. . vs. Comm of Cus & Cx 2012 (26) STR 380 (A.P)

Facts of the Case:

Kanyaka Parameshwari Engineering Ltd. was engaged in business of manufacture and sale of LPG cylinders. The appellant had paid excise duty under protest for the financial year 1999-2000 as the price was not finalized by the oil companies so the appellant undertook to pay the differential duty, if any, on fixation of exact price.

Pursuant to the reduction in the prices of LPG cylinders, the appellant filed applications for finalization of assessments and for refund of excess duty so paid by them. The Department refunded the excess duty paid by the appellant with interest from three months after the application for refund filed till the date of payment.

The appellant further filed an appeal demanding interest on the excess duty so paid by them as per section 11BB of Central Excise Act from the date of payment as duty was paid under protest.

Point of Dispute:

Whether under section 11BB, the interest on refund is payable from the date of deposit of tax or from the date three months after the submission of the application the refund?

Decision of the Case:

Under section 11BB of the Central Excise Act, 1944, if any duty is not refunded within three months from the date of receipt of application under sub-section (1), the interest shall be paid on such duty from the date immediately after expiry of three months from the date of receipt of such application till the date of refund of such duty.

The High Court upheld the order of the CESTAT and granted interest on delayed refund from the expiry of three months from the date of application till the date of refund.

- 2. What is the date of commencement of the period for the purpose of computing interest on delayed refunds under section 11BB- the date of receipt of application for refund or date on which the order of refund is made?**

Ranbaxy Laboratories Ltd. vs. UOI 2011 (273) E.L. T. 3 (SC)

Decision of the case:

The Apex Court observed that interest under section 11BB becomes payable, if on an expiry of a period of three months from the date of receipt of the application for refund, the amount claimed is still not refunded. Thus, the only interpretation of section 11BB that can be arrived at is that interest under the said section becomes payable on the expiry of a period of three months from the date of receipt of the application under section 11B (1).

The Apex Court further noted that Explanation appearing below the proviso to section 11BB introduces a deeming fiction that where the order for refund of duty is not made by the Assistant Commissioner/ Deputy Commissioner of Central Excise but by an Appellate Authority or the Court, then for the purpose of this section the order made by such higher Appellate Authority or by the Court shall be deemed to be an order made under section 11B(2). It is apparent that the explanation does not bear any connection with the date from which interest under section 11BB becomes payable and does not postpone the said date.

In the light of the aforesaid discussion, the Supreme Court elucidated that section 11BB of the Central Excise Act, 1944 comes into play only after an order for refund has been made under section 11B. However, the liability of the revenue to pay interest under section 11BB commences from the date of expiry of three months from the date of receipt of application for refund under section 11B(1) and not on the expiry of the said period from the date on which order of refund is made.

3. Can the excess duty paid by the seller be refunded on the basis of the debit note issued by the buyer?

CCE vs. Techno Rubber Industries Pvt Ltd. 2011 (272) E. L. T. 191 (Kar.)

Facts of the case:

The assessee cleared the goods paying higher rate of excise duty in the month of March, although the rate of duty on the said goods had been reduced in the budget of the same financial year. However, the buyer refused to pay the higher duty which the assessee had paid by mistake. The customer raised a debit note in his name in the month of June of the same year. The assessee applied for the refund of excess excise duty paid. Revenue rejected his claim on the ground that incidence of the duty had been passed by him to the buyer.

While claiming refund, the assessee relied on the debit note raised by the buyer in his name in the month of June to demonstrate that his customer had not paid the excess duty to him. The adjudicating authority argued that since the debit note was issued in the month of June and not March, it could not be the basis for refund.

Decision of the case:

The High Court elucidated that once it is admitted that the Department has received excess duty, they are bound to refund it to the person who has paid the excess duty. If the buyer of the goods has paid that excess duty, he would have been entitled to the said refund.

In the instant case, when the buyer had refused to pay excess duty claimed and had raised a debit note, the only inference to be drawn was that the assessee had not received that excess duty which he had paid to the Department. Consequently, Department was bound to refund to the assessee the excess duty calculated. Hence, the substantial question of law raised was answered in favour of the assessee and against the revenue.

4. Merely because assessee has sustained loss more than the refund claim, is it justifiable to hold that it is not a case of unjust enrichment even though the assessee failed to establish non-inclusion of duty in the cost of production?

CCE vs. Gem Properties (P) Ltd. 2010 (257) E.L.T. 222 (Kar.)

Decision of the Case:

The High Court answered the question of law in favour of the Revenue. The Court observed that indisputably, the assessee was not liable to pay the duty and was entitled to the refund of the excise duty wrongly paid by it. The claim of the assessee had been rejected on the ground that if the application was allowed, it would amount to unjust enrichment because all the materials sold by the assessee had been inclusive of the duty. Therefore, the burden had been heavy on the assessee to prove that while computing the cost of the material it had not included the duty paid by it.

The Court elucidated that merely because the assessee had sustained the loss in the relevant year, could not be a ground to hold it had not been a case of unjust enrichment. It was evident from the Chartered Accountant's certificate that the cost of the duty was included while computing the cost of production of the material. Therefore, on facts of the case, the High Court held that assessee could not be granted relief since it had failed to establish that the cost of the duty was not included while computing the cost of the products.

5. Can the excess duty paid by the seller be refunded on the basis of the debit note issued by the buyer?

CCE vs. Techno Rubber Industries Pvt. Ltd. 2011 (272) E.L.T. 191 (Kar.)

Facts of the case:

The assessee cleared the goods paying higher rate of excise duty in the month of March, although the rate of duty on the said goods had been reduced in the budget of the same financial year. However, the buyer refused to pay the higher duty which the assessee had paid by mistake. The customer raised a debit note in his name in the month of June of the same year. The assessee applied for the refund of excess excise duty paid. Revenue rejected his claim on the ground that incidence of the duty had been passed by him to the buyer.

While claiming refund, the assessee relied on the debit note raised by the buyer in his name in the month of June to demonstrate that his customer had not paid the excess duty to him. The adjudicating authority argued that since the debit note was issued in the month of June and not March, it could not be the basis for refund.

Decision of the case:

The High Court elucidated that once it is admitted that the Department has received excess duty, they are bound to refund it to the person who has paid the excess duty. If the buyer of the goods has paid that excess duty, he would have been entitled to the said refund.

In the instant case, when the buyer had refused to pay excess duty claimed and had raised a debit note, the only inference to be drawn was that the assessee had not received that excess duty which he had paid to the Department. Consequently, Department was bound to refund to the assessee the excess duty calculated. Hence, the substantial question of law raised was answered in favour of the assessee and against the revenue.

6. Can goods lost by 'theft' or 'dacoity' be considered to be "goods lost or destroyed by natural causes or by unavoidable accident" under rule 49 of the erstwhile Central Excise Rules, 1944 (now rule 21 of the Central Excise Rules, 2002)?

Gupta Metal Sheets vs. CCE 2008 (232) ELT 796 (Tri. - LB)

The Large Bench of the Tribunal ruled that as per rule 49 of the erstwhile Central Excise Rules, 1944 (now rule 21 of the Central Excise Rules, 2002), loss must be attributable to any natural cause or unavoidable accident. It clarified that the term 'loss' cannot be understood in the limited sense of 'loss to the manufacturer', but it has to be understood as being unavailable for consumption in the market. However, in case of theft or dacoity, the goods are not 'lost' or 'destroyed', they rather enter the market for consumption, although illegally, after being removed from the approved premises or the place of storage.

'Natural cause' refers to some natural phenomenon i.e. vagary of nature or some act of nature like fire, flood or a similar natural calamity. The act of forcibly removing the goods by any means - non-violent or violent - amounting to theft or dacoity under the Indian Penal Code cannot be said to be a natural cause.

Considering the definitions of 'theft' and 'robbery' in the Indian Penal Code, the Tribunal inferred that 'theft' or 'dacoity' involves forcible removal of goods by non-violent or violent means, as the case may be, and this cannot be said to be a natural cause. The Tribunal opined that theft and dacoity are committed by a design and they cannot be said to be accident by any logic. By taking due care and caution, they can be avoided and, therefore, it cannot be said that theft or dacoity is 'unavoidable accident'.

In view of the above, the Tribunal held that 'theft' or 'dacoity' cannot be called unavoidable accident within the meaning of the rule 49 of the erstwhile Central Excise Rules, 1944 (now rule 21

of the Central Excise Rules, 2002) and the goods lost in theft or dacoity would not be eligible for remission. The issue was thus answered in the negative i.e. in favour of the Revenue and against the assessee.

7. Is remission of duty possible in case of loss occurring due to de-bagging, shifting of concentrates, seepage of rain water, storage and loading on trucks, accounting method adopted?

UOI vs. Hindustan Zinc Limited 2009 (233) E.L. T. 61 (Raj.)

The assessee was engaged in the manufacture of lead and zinc concentrates. At the time of carrying out the physical stock taking, some difference was found between the physically verified stock and the stock as per the books. According to the assessee, this difference was due to de-bagging, shifting of concentrates, seepage of rain water, storage and loading on trucks, accounting method adopted. The assessee applied for the remission of the duty under rule 21 of the Central Excise Rules, 2002. Revenue contended that the shortage could have been avoided or minimized by the assessee, as these were neither due to natural causes, nor due to unavoidable accident. Thus, the prayer for remission was declined.

The Rajasthan High Court held that the expressions “natural causes” and “unavoidable accident” were required to be given, reasonable and liberal meaning, lest the provisions of rule 21, so far as they relate to admissibility of remission, on these two grounds, would be rendered altogether ineffective. The Court noted that if the contention of Revenue was accepted, no loss or destruction would fall in either of these clauses because in either case, grounds may be projected, on the anvil of requirement of appropriate storage, or safety measures, and so on and so forth. Even in cases of “unavoidable accident”, it could always be contended that the accident could have been avoided by taking recourse of one or more measures. Thus, a bit liberal rather more practical approach was required to be taken in the matter.

The aspect of satisfaction under rule 21 was essentially a subjective satisfaction of authority concerned and in the instant case; the Tribunal independently recorded its satisfaction about the loss, or destruction having been sustained by the assessee under the circumstances as covered by rule 21. Therefore, merely on the basis of method of accounting of physical stock, the remission of duty could not be denied.

G. APPEALS

1. Whether doctrine of merger is applicable when appeal dismissed on the grounds of limitation and not on merits?

Raja Mechanical Co. (P) Ltd. vs. Commissioner of C. Ex., Delhi-I, 2012 (279) E.L. T. 481 (S. C.)

Point of Dispute:

The issue under consideration is that in case the first appellate authority had rejected the appeal filed by the assessee on the ground of limitation, whether the orders passed by the original authority would merge with the orders passed by the first appellate authority.

The learned counsel for the assessee contended that in given case, the orders passed by the original authority would merge with the orders passed by the first appellate authority and therefore, the Tribunal should consider the appeal filed by the assessee.

It further submitted that the Tribunal ought to have considered the assessee's appeal not only on the ground of limitation but also on merits of the case. Since that has not been done, according to the learned counsel, the Tribunal has committed a serious error. The learned counsel further submitted that the “doctrine of merger” theory would apply in the sense that though the first appellate authority had rejected the appeal filed by the assessee on the ground of limitation, the orders passed by the original authority would merge with the order passed by the first appellate authority and, therefore, the Tribunal ought to have considered the appeal.

On the other hand, the learned counsel for the respondent submitted that the doctrine of merger would not apply to a case where an appeal was dismissed only on the ground of the limitation.

Decision of the Case:

The Court observed that if for any reason an appeal is dismissed on the ground of limitation and not on merits that order would not merge with the orders passed by the first appellate authority. Apex Court opined that the High Court was justified in rejecting the request made by the assessee for directing the Revenue to state the case and also the question of law for its consideration and decision. In view of the above discussion, Supreme Court rejected the appeal.

- 2. Whether the construction of pre-fabricated components at one site to be used at different inter-connected metro construction sites in Delhi would get covered under exemption Notification No. 1/2011 -C.E.(N.T.) dated 17-2-2011 exempting the “goods manufactured at the site of construction for use in construction work at such site” ?**

Commissioner of Central Excise vs. Rajendra Narayan 2012 (281) E.L. T. 38 (Del.)

Facts of the Case:

The respondent-assessee were carrying on construction of the Delhi Metro. They had manufactured pre-fabricated components, which have been used in the construction of the Delhi Metro. The assessee claimed the exemption under Notification No. 1/2011-C.E. (N.T.) dated 17-2-2011 which exempts the goods covered under specified chapter headings for a specified period, manufactured at the site of construction for use in construction work at such site. The Department contended that the respondent- assessee were not entitled to claim the exemption stating that the goods were not manufactured at the site of the construction for use in the construction work at the site.

Decision of the Court:

The Court noted that Delhi Metro Rail Corporation Ltd. had contracted and called upon the respondent- assessee to construct pre-fabricated components of different segments to be used in elevated viaducts etc.. For the purpose of pre-fabricating the components a specific casting yard, premises was allotted by Delhi Metro Rail Corporation Ltd.. The said casting yard constituted the construction site. From the said construction site, components had been moved to different locations where elevated viaducts of the tunnel were being constructed. The Court held that keeping in view the facts of the present case and that the construction was done virtually all over Delhi and construction sites were interconnected, practically pre-fabrication was done on construction site only.

Therefore, it allowed the appeal in the favour of the respondent- assessee.

Hence, the Court opined that CESTAT exceeded its powers under section 35C(2) of the Act. In pursuance of a rectification application, it cannot re-appreciate the evidence and reconsider its legal view taken earlier.

- 3. Is the CESTAT order disposing appeal on a totally new ground sustainable?**

CCE vs. Gujchem Distillers 2011 (270) E.L. T.338 (Bom.)

The High Court elucidated that in the instant case, the CESTAT had disposed of the appeal on a ground which was not urged by the respondents before the adjudicating authority. Thereby the CESTAT had disposed of the appeal on a totally new ground which was not laid before the adjudicating authority and which would entail a finding of facts.

The High Court explained that had the CESTAT not been satisfied with the approach of the adjudicating authority, it should have remanded the matter back to the adjudicating authority. However, it could not have assumed to itself the jurisdiction to decide the appeal on a ground which had not been urged before the lower authorities.

4. Can re-appreciation of evidence by CESTAT be considered to be rectification of mistake apparent on record under section 35C(2) of the Central Excise Act, 1944?

CCE vs. RDC Concrete (India) Pvt. Ltd. 2011 (270) E.L. T. 625 (S.C.)

Decision of the case:

In the instant case, the arguments not accepted at an earlier point of time were accepted by the CESTAT while hearing the application for rectification of mistake and it arrived at a conclusion different from earlier one.

The Apex Court elucidated that re-appreciation of evidence on a debatable point cannot be said to be rectification of mistake apparent on record. It is a well settled law that a mistake apparent on record must be an obvious and patent mistake and the mistake should not be such which can be established by a long drawn process of reasoning.

The Supreme Court observed that arguments not accepted earlier during disposal of appeal cannot be accepted while hearing rectification of mistake application.

Submissions made before Tribunal while arguing rectification of mistake application had also been advanced before Tribunal when appeal heard at earlier stage. The Apex Court held that CESTAT had reconsidered its legal view as it concluded differently by accepting the arguments which it had rejected earlier.

Hence, the Court opined that CESTAT exceeded its powers under section 35C(2) of the Act. In pursuance of a rectification application, it cannot re-appreciate the evidence and reconsider its legal view taken earlier.

Note: Section 35C(2) reads as under:

The Appellate Tribunal may, at any time within six months from the date of the order, with a view to rectifying any mistake apparent from the record, amend any order passed by it under sub-section (1) and shall make such amendments if the mistake is brought to its notice by the Commissioner of Central Excise or the other party to the appeal.

5. Discuss the interpretation of phrase “a mistake apparent from record”.

Asst Commr, IT, Rajkot vs. Saurashtra Kutch Stock Exchange Ltd. 2008 (230) ELT 385 (SC)

Supreme Court, while interpreting the phrase “any mistake apparent from record” under section 254(2) of the Income Tax Act, 1961, stated that a patent, manifest and self-evident error which does not require elaborate discussion of evidence or argument to establish it, can be said to be an error apparent on the face of the record and can be corrected while exercising certiorari jurisdiction. An error apparent on the face of the record means an error which strikes on mere looking and does not need long drawn-out process of reasoning on points where there may conceivably be two opinions. Such error should not require any extraneous matter to show its incorrectness.

The Apex Court further clarified that an error cannot be said to be apparent on the face of the record if one has to travel beyond the records to see whether the judgment is correct or not. An error which has to be established by a long drawn process of reasoning on points where there may conceivably be two opinions can hardly be said to be an error apparent on the face of the record.

The Court held that the error should be so manifest and clear that no Court would permit it to remain on record. If the view accepted by the Court in the original judgment is one of the possible views, the case cannot be said to be covered by an error apparent on the face of the record.

8. Can there be a difference in the Final Order issued by Tribunal and the Handwritten Order in Order Sheet?

Dinkar Khindria vs. UOI 2008 (231) ELT 47 (Del.)

The High Court held that a difference in the Final Order issued by the Tribunal and the Handwritten Order in Order Sheet i.e. a change of order by Members of the Tribunal amounts to tampering with

the judicial records. Once an order is passed and it is signed by the members, the same cannot be altered unless law provides for a review of the same and that too only after hearing the parties. The Tribunal should ensure that such unsavory incidents should not occur in the course of their conduct of judicial proceedings.

9. Whether the appeal filed by Commissioner himself and not by subordinate officer based on authorization under the erstwhile section 35B, is maintainable?

Commr. Of C.Ex. & Cus. vs. Shree Ganesh Dyeing & Ptnng. Works 2008 (232) ELT 775 (Guj.)

In the instant case, the assessee raised objection as to maintainability of the appeal on the ground that the appeal had been filed by Commissioner himself, instead of by the Central Excise Officer authorised by the Commissioner as required by the erstwhile section 35B(2) of the Central Excise Act, 1944.

The Court, while analyzing section 35B(2), held that section 35B(2) of the Act is made up of two parts or two stages:

First stage is formation of an opinion by Commissioner that the order made by the appellate authority is not legal or proper.

Second stage is filing of an appeal against order of appellate authority by directing any Central Excise Officer authorised by the Commissioner in this behalf to file an appeal on behalf of the Commissioner.

Accordingly, the Commissioner is vested with a discretion, in the first instance to form an opinion as to whether appellate order is legal or proper and then exercise the discretion to decide whether an appeal should be preferred or not, having come to the conclusion that the order is not proper or legal.

The High Court further clarified that when a person is statutorily entitled to delegate powers to another person to file an appeal on behalf of the first named person, it goes without saying that the power which can be delegated is the power which the first named person would be entitled to exercise. Hence, until and unless the Commissioner himself is entitled to file an appeal, there is no question of the Commissioner authorising another officer to file appeal on his behalf. The language of the latter part of sub-section (2) of section 35B of the Act itself makes this more than abundantly clear when the provision uses the phrase 'to appeal on his behalf'.

10. Can the judgments of the courts be construed as statutes?

CCEx., Bangalore v. Sri kumar Agencies 2008 (232) ELT 577 (SC)

The Apex Court held that judgments of Courts are not to be construed as statutes. Courts should not place reliance on decisions without discussing as to how the factual situation fits in with the fact situation of the decision on which reliance is placed. Observations of Courts are neither to be read as Euclid's theorems nor as provisions of the statute and that too taken out of their context. These observations must be read in the context in which they appear to have been stated. To interpret words, phrases and provisions of a statute, it may become necessary for judges to embark into lengthy discussions, but the discussion is meant to explain and not to define. Judges interpret words of statutes, their words are not to be interpreted as statutes. Circumstantial flexibility, one additional or different fact may make a world of difference between conclusions in two cases. Disposal of cases by blindly placing reliance on a decision is not proper.

11. Whether non-filing of appeal for some assessment years is a bar in filing appeal for other assessment years?

CIT vs. J. K. Charitable Trust 2008 (232) ELT 769 (SC)

The Supreme Court pronounced that there may be certain cases where because of the small amount of revenue involved, no appeal is filed. Policy decisions may be taken not to prefer appeal

where the revenue involved is below a certain amount. Similarly, where the effect of the decision is revenue neutral, there may not be any need for preferring the appeal. All these certainly provide the foundation for making a departure.

In the case of *C.K. Gangadharan's vs. CIT 2008 (228) ELT 497 (SC)*, it was held that merely because in some cases revenue has not preferred an appeal, that does not operate as a bar for the Revenue to prefer an appeal in another case where there is just cause for doing so, or it is in public interest to do so, or for a pronouncement by the higher court when divergent views are expressed by the different High Courts. The Court further provided that if the assessee takes the stand that the Revenue acted mala fide in not preferring appeal in one case and filing the appeal in other case, it has to establish mala fides.

However, in the given case, the Apex Court noted that it was accepted by the learned counsel for the appellant (Revenue) that the fact situation in all the assessment years was same. Under the circumstances, the Court concluded that since the fact situation had not changed, Revenue could not prefer an appeal and thus, the court dismissed the appeal filed by the Department.

12. Can a writ petition be filed against the order of waiver of pre-deposit (under first proviso to section 35F of the Central Excise Act, 1944) or refusal thereof?

Cisco Systems India Pvt. Limited vs. UOI 2009 (234) E.L. T. 618 (Del.)

The High Court held that power to waive pre-deposit to avoid hardship to party against whom demand is raised is discretionary. As long as discretion is not exercised in an arbitrary and unusual fashion, a writ court would not interfere with order of waiver of pre-deposit or refusal thereof. Mere fact that issues that arise for consideration of appellate authority were arguable is not in itself sufficient for a complete waiver of pre-deposit.

Writ court would be slow in interfering with discretionary order, especially so where appellant has not pleaded any financial hardship as such before appellate authority. The Delhi High Court ruled that recovery of taxes cannot be stayed under Article 226 of the Constitution except under exceptional circumstances.

13. Whether the Department is not required to state any reason while filing an application for condonation of delay in filing the appeal to CESTAT?

CCEx., Chennai vs. CEGAT 2009 (236) E.L.T. 21 (Mad.)

The Department filed the appeal to the Tribunal 100 days after the expiry of the period prescribed for filing an appeal. However, the delay had not been supported by sufficient reasons.

Learned counsel for the petitioner submitted that in the case of the Department, the Court had always been lenient in condoning the delay. So, there could not be any exception to the procedure followed by this Court as well as the Supreme Court in respect of the fiscal matters.

The High Court observed that the power to condone the delay in filing the appeal had been vested with the Tribunal only on being satisfied with the reasonable cause shown for the delay. Since the Department had not substantiated any reason for causing the delay, it could not expect the Tribunal to condone the delay in a routine manner. Even before the High Court the petitioner had not stated the reason. If minimum pain or effort had been taken by the authorities, some reason would have been stated for the delay. However, in the absence of any sufficient cause, the Tribunal could not by itself invent reason and grant the relief as sought for by the petitioner.

H. EXEMPTION BASED ON VALUE OF CLEARANCES (SSI)

1. Whether an assessee can claim the benefit of SSI exemption on the brand name of another firm if its proprietor is also a partner in such other firm?

Commissioner vs. Elex Knitting Machinery Co. 2012 (283) E.L.T. A 18 (S. C.)

Facts of the Case:

The Elex Knitting Machinery Co. was engaged in the manufacture of flat knitting machines. They had been availing the SSI exemption. They were found using the brand name "ELEX" on those

machines which belonged to M/s. Elex Engineering Works and according to the Central Excise Authorities they were not entitled to avail the benefit of said notification.

Point of Dispute:

The Department denied the benefit of the SSI exemption notification solely on the ground that they had manufactured and cleared the goods (flat knitting machines) under the brand name "ELEX" which belonged to M/s. ELEX Engineering Works but on record there was no oral or documentary proof to substantiate this ground.

Decision of the Court:

The Supreme Court was of the view that the benefit of exemption could be availed only when the company is manufacturing the goods under its own brand name or the brand name being used belonged to a sister concern of that company.

The Supreme Court held that the appellant was eligible to claim benefit of the SSI exemption as the proprietor of Elex Knitting Machinery Co. was one of the partners in Elex Engineering Works. And hence being the co-owner of the brand name of Elex, he could not be said to have used the brand name of another person, in the manufacture and clearance of the goods in his individual capacity.

2. **Whether the exempted goods on which duty has been paid by mistake by the assessee and refund thereof has also not been claimed would be excluded while computing turnover for preceding year for claiming SSI exemption?**

Bonanzo Engg. & Chemical P. Ltd. vs. CCEx. 2012 (277) E.L. T. 145 (S.C.)

Facts of the case:

The appellant was a manufacturer of goods falling under Chapter headings 32 and 84 of the first schedule to the Central Excise Tariff Act, 1985. The goods falling under Chapter heading 84 were wholly exempt from duty vide an exemption notification, but the appellant by mistake paid the excise duty on it and did not even claim refund of the same. For goods falling under Chapter heading 32, the appellant wanted to claim SSI exemption. It satisfied all the conditions for claiming the said exemption.

For the purposes of computing the eligible turnover for SSI exemption, the assessee excluded the goods which were exempted although duty was paid mistakenly on them. However, the Revenue contended that clearances of such goods should be included while computing the eligible turnover.

Decision of the Case:

The Supreme Court opined that SSI exemption would be allowable to the assessee, as they meet all the conditions thereof. The amount of clearances in the SSI exemption notification needs to be computed after excluding the value of exempted goods. Merely because the assessee by mistake paid duty on the goods which were exempted from the duty payment under some other notification, did not mean that the goods would become goods liable for duty under the Act. Secondly, merely because the assessee had not claimed any refund on the duty paid by him would not come in the way of claiming benefit of the SSI exemption.

Accordingly the appeal was allowed in the favor of the appellant-assessee. The Court directed the adjudicating authority to apply the SSI exemption notification in the assessee's case without taking into consideration the excess duty paid by the assessee under the other exemption notification.

3. **Whether the clearances of two firms having common brand name, goods being manufactured in the same factory premises, having common management and accounts etc. can be clubbed for the purposes of SSI exemption?**

CCE vs. Deora Engineering Works rks 2010 (255) ELT 184 (P & H)

Facts of the case:

The respondent-assessee was using the brand name of "Dominant" while clearing the goods manufactured by it. One more manufacturing unit was also engaged in the manufacture and clearance of the same goods under the same brand name of "Dominant" in the same premises. Both the firms had common partners, the brand name was also common and the machines were cleared from both the units under common serial number having common accounts. Department clubbed the clearance of the goods from the both the units for the purposes of SSI exemption because both the units belong to same persons and they had common machinery, staff and office premises etc.

Decision of the case:

The High Court held that indisputably, in the instant case, that the partners of both the firms were common and belonged to same family. They were manufacturing and clearing the goods by the common brand name, manufactured in the same factory premises, having common management and accounts etc. Therefore, High Court was of the considered view that the clearance of the common goods under the same brand name manufactured by both the firms had been rightly clubbed.

I. SETTLEMENT COMMISSION**1. Can the Settlement Commission decline to grant immunity from prosecution after confirming the demand and imposing the penalty?**

Maruthi Tex Print & Processors P. Ltd. vs. C. & C. Ex. Sett. Comm., Chennai 2012(281) E.L.T. 509 (Mad.)

Facts of the Case:

M/s. Maruthi Tex Print & Processors Pvt. Limited, Hyderabad, was a concern registered with the Excise Department for manufacture of man-made fabrics (MMF) and also for manufacture of cotton fabrics. During the course of business, search was carried out at various places, including the factory, registered office premises, their godown and dealer's premises, which resulted in recovery of certain records relating to delivery of processed fabrics, and seizure of certain quantities of grey and processed fabrics. The Department issued SCN confirming demand at the higher rate of duty and interest and penalty thereon and seized goods also. However, there was no clear evidence to hold that the fabrics mentioned in all delivery challans were attracting higher rate of duty. The assessee approached the Settlement Commission. The Settlement Commission confirmed the entire demand, penalty, seizure and denied the immunity from the prosecution. The assessee approached the High court.

Point of Dispute:

Can the Settlement Commission decline to grant immunity from prosecution after confirming the demand and imposing the penalty?

Decision of the Court:

The High Court held that when an allegation of clandestine manufacture and clearances is made, the person making the allegation should establish the complete charge including the nature of the goods and its value involved for determining the appropriate demand of duty.

Secondly, the Settlement Commission can be approached if a person, who suffered a show cause notice on the charge of evasion of duty, finally wants to settle the matter, by making full disclosure admitting certain omissions/ commissions. The Settlement Commission, by looking at the onus upon the Department to prove about the nature of goods cleared without payment of duty, should decide the matter. However, in the present case, without placing the burden on the department to prove their case, the Settlement Commission confirmed the demand on the assessee.

Settlement Commission should not have refused the benefit of immunity from prosecution. Hence, that part of refusal to grant immunity for prosecution is alone interfered with. Accordingly, the Court set aside the order relating to non-grant of immunity for prosecution and resultantly, the assessee was granted immunity from being prosecuted.

2. Whether a consolidated return filed by the assessee after obtaining registration but for the period prior to obtaining registration, could be treated as a return under clause (a) of first proviso to section 32E(1)?

Icon Industries vs. UOI 2011 (273) E.L. T. 487 (Del.)

Facts of the case: The petitioner got its units registered after few days of the search conducted in its units. Thereafter, it filed consolidated return with the Department for the period prior to search. After that, it filed a settlement application in respect of the proceedings issued by the Commissioner.

The Settlement Commission opined that the units were registered only after the search was conducted and prior to that there was no registration and no returns as mandated by clause (a) of first proviso to section 32E(1) of the Central Excise Act, 1944 were filed. Consequently, the Commission rejected the settlement application on the ground that the application did not conform to the parameters as stipulated under section 32E(1) of the Act.

Decision of the case:

The High Court noted that certain riders have been provided in section 32E(1) for entertaining applications for settlement. Clause (a) of first provision clearly lays down that unless the applicant has filed returns, showing production clearance and Central Excise duty paid in the prescribed manner, no such application shall be entertained.

The Court referred the case of *M/s. Emerson Electric Company India Pvt. Ltd.* wherein it was held that although section 32E(1) does not refer to rule 12 of the Central Excise Rules, 2002 under which ER-1/ER-3 returns are prescribed, since the said returns contain details of excisable goods manufactured, cleared and duty paid in the prescribed manner, the said return can be deemed to be the 'return' referred to in section 32E(1). Hence, the concept of return has to be understood in context of rule 12 of the Central Excise Rules, 2002. However, in case of consolidated returns filed in the instant case the applicant would not be able to indicate 'duty paid' in the prescribed manner (or even in any manner) and question would continue to agitate about the details of production and clearance to be filled in such belated returns.

Considering the above discussion, it rejected the submission of the petitioner that filing consolidated return covering all the past periods would serve the purpose. Hence, it held that the order passed by the Settlement Commission was absolutely justifiable.

3. Is the Settlement Commission empowered to grant the benefit under the proviso to section 11AC in cases of settlement?

Ashwani Tobacco Co. Pvt. Ltd. vs. UOI 2010 (251) E.L.T. 162 (Del.)

Decision of the case: The Court ruled that benefit under the proviso to section 11AC could not be granted by the Settlement Commission in cases of settlement.

It elucidated that the order of settlement made by the Settlement Commission is distinct from the adjudication order made by the Central Excise Officer. The scheme of settlement is contained in Chapter-V of the Central Excise Act, 1944 while adjudication undertaken by a Central Excise Officer is contained in the other Chapters of the said Act. Unlike Settlement Commission, Central Excise Officer has no power to accord immunity from prosecution while determining duty liability under the Excise Act.

Once the petitioner has adopted the course of settlement, he has to be governed by the provisions of Chapter V. Therefore, the benefit under the proviso to section 11AC, which could have been availed when the matter of determination of duty was before a Central Excise Officer was not attracted to the cases of a settlement, undertaken under the provisions of Chapter-V of the Act.

4. Is Settlement Commission entitled to reject the 'rectification of mistake' application, filed on the basis of a Supreme Court judgment, holding the issue debatable?

CIT vs. Settlement Commission 2009 (234) E.L. T. 584 (Ker.)

The Kerala High Court held that when an application for rectification is filed before Settlement Commission, within the permitted time limit, based on a subsequent decision of the Apex Court, directly on the point, normally, it has to be entertained. However, in this case, the Settlement Commission had rejected the application on the ground that the issue raised was a debatable issue.

The Court observed that when there is a decision of the Apex Court on a particular issue, no inferior court or Tribunal can say that the issue is a debatable issue for the reason that a bench of two judges of the Apex Court has doubted the correctness of the decision of the Constitution Bench. The inferior courts and Tribunals are bound to follow the decision of the Constitution Bench. So, the rejection of application was unjustified.

5. In a case where the Settlement Commission has sent the case back to the adjudicating authority under section 32L(1), can the order of adjudication passed by the Settlement Commission be considered to be final ?

Vishwa Traders Pvt. Ltd. vs. UOI 2009 (241) E.L.T. 164 (Guj.)

The appellant filed an application with the Settlement Commission under section 32E of the Central Excise Act, 1944. However, as the applicant was not willing to accept the duty liability settled by the Commission, it sent the case back to the adjudicating authority in terms of section 32L(1) of the Act. It directed the adjudicating officer to dispose the case in accordance with the provisions of the Act as if no application had been made to Settlement Commission.

When case came up before Revenue for adjudication, it decided that since as per section 32M, any order made by the Settlement Commission was conclusive; the figure of duty liability fixed by the Settlement Commission had attained finality. Hence, the petitioner was required to make payment of the said amount along with penalty and interest.

The High Court held that under section 32L(1), once the Settlement Commission forms an opinion that any person who made an application for settlement under section 32E of the Act has not cooperated in the proceedings before the Commission, the Settlement Commission may send the case back to the adjudicating authority to dispose of the case in accordance with provisions of the Act, as if, no application under section 32E had been made. If there is no application before Settlement Commission, there can be no question of any final order of adjudication. Consequently, the order passed by the Settlement Commission under section 32L(1) cannot be considered to be the final order of adjudication.

The High Court, while interpreting section 32L(3), held that for working out the time limit prescribed under section 11A for recovery of duties, the period commencing from the date of application to the Settlement Commission to the date of receipt of the order under section 32L by the adjudicating authority, shall be excluded. Therefore, the balance period available from the date of making of application before Settlement Commission shall be available to the adjudicating authority for making an order assessing duty liability of an assessee.

Hence, the High Court pronounced that Revenue shall continue the adjudication proceedings from the stage at which the proceedings before Settlement Commission commenced.

J. ADVANCE RULINGS

1. Can a writ petition be invoked against advance rulings?

UAE Exchange Centre Ltd. vs. UOI 2009 (236) E.L. T. 223 (Del.)

The Delhi High Court held that the ruling by Advance Rulings Authority is binding on the applicant, the transaction on which ruling is sought and the Departmental officers concerned. It does not exclude the jurisdiction of the Courts either expressly or by implication. There is no provision which gives finality to the decision of the Authority. The Court viewed that the Courts would have jurisdiction to entertain actions under Article 226 of the Constitution (writ petition) impugning the ruling given by the Authority i.e. writ jurisdiction is invocable against advance rulings.

23.3 CASE LAWS ON CUSTOMS

A. BASIC CONCEPTS

1. **Education Cess would not be leviable only on such portion of customs duty as is exempt under the Duty Entitlement Passbook Scheme.**

Gujarat Ambuja Exports Ltd & 1 v Gov of India, [(2013)-TIOL-15-SC-CUS]

The taxpayer is engaged in manufacturing various goods and also exporting such goods to various countries. The taxpayers have been availing of the Duty Entitlement Passbook Scheme ('DEPB scheme') with respect to which, exemption from payment of import duty is granted at the specified rates for the specified commodities under Notification No 45/2002-Cus dated April 22, 2002 ('Notification No 45/2002').

The taxpayer adopted a position that when an importer imports any goods and avails the benefits under the DEPB scheme, in essence, he does not pay any customs duty and accordingly, is also not liable to pay education cess at the prescribed rate. This was based mainly on the premise that the goods imported under the DEPB scheme by virtue of Notification No 45/2002, carry 'nil' rate of customs duty and additional duty.

The taxpayers pointed out that the Government of India in the Circular No 5/2005 -Cus dated May 31, 2005 clarified that in case of the imports made under the DEPB scheme, the education cess at the rate of 2 percent would also be debited from the DEPB scrip.

The High Court held that education cess is to be collected on the customs duty levied and collected by the Central Government at the rate of 2 percent on such duty. Further, it observed that based on the nature of DEPB scheme and the exemption granted to imports made under such scheme, it can be seen that the very purpose is to neutralise the import duty component on the imported goods used for production of export items. Such object is achieved through the DEPB scheme under which the exporter is given the facility of utilising the credits in the DEPB scrip for the purpose of adjustment against the customs duty liability on the goods imported for the ultimate purpose of export on value addition.

If goods are fully exempted from excise duty or customs duty or are chargeable to nil rate of duty or are cleared without payment of duty under specified procedure such as clearance bond, there is no collection of duty and, therefore, no education cess would be leviable on such clearances.

In view of the above, the HC held in favour of the taxpayer. Gujarat Ambuja Exports Ltd v Gov of India Thr' Under Secretary, [(2012)-TIOL-546-HC-AHM-CUS].

The Supreme Court dismissed the Special Leave Petition filed against the above order of High Court.

2. **In case no statutory definition is provided under law, can the opinion of expert in trade who deals in those goods be considered?**

Commissioner of Customs (Import), Mumbai vs. Konkan Synthetic Fibres 2012 (278) E.L. T. 37 (S.C.)

Facts of the Case: Konkan Synthetic Fibres was an importer. It had imported one unit of the equipment which was declared as "Kari Mayer High Speed Draw Warping Machine with 1536 ends along with essential spares". The importer claimed that these goods are covered under an exemption notification.

Under said notification, exemption was available in respect of the High Speed Warping Machine with yarn tensioning, pneumatic suction devices and accessories. Undisputedly, the assessee had imported High Speed Warping Machine, but it had drawing unit and not the pneumatic suction device. The textile commissioner, who was well conversant with these machines, had stated that

the goods imported by the assessee were covered under the exemption notification. He further stated that drawing unit was just an essential accessory to the machines imported by assessee and, therefore, was covered under said notification. The opinion so furnished is taken note of by the Tribunal while granting relief to the assessee.

The Customs authorities refused to accept the request of the assessee and accordingly, had directed the assessee to pay the duty under the provisions of the Customs Act, 1962.

Point of Dispute: Revenue contended that the machine imported by the assessee was not in consonance with the exemption notification and, therefore, the benefit of exemption should not be available under the notification to the assessee.

Decision of the Case: The Supreme Court stated that it was a settled proposition in a fiscal or taxation law that while ascertaining the scope or expressions used in a particular entry, the opinion of the expert in the field of trade, who deals in those goods, should not be ignore rather it should be given due importance. The Supreme Court on referring to the case of Collector of Customs vs. Swastic Woollens (P) Ltd. 1988 (37) E.L. T. 474 (S. C.), held that when no statutory definition was provided in respect of an item in the Customs Act or the Central Excise Act, the trade understanding, i.e. the understanding in the opinion of those who deal with the goods in question was the safest guide.

Thus, the Supreme Court concluded that the imported goods were covered under the exemption notification.

3. Are the clearance of goods from DTA to Special Economic Zone chargeable to export duty under the SEZ Act, 2005 or the Customs Act, 1962?

Tirupati Udyog Ltd. vs. UOI 2011 (272) E.L.T. 209 (A.P.)

Decision of the case: The High Court, while deciding the aforesaid question of law, made the following observations:-

- A charging section has to be construed strictly. If a person has not been brought within the ambit of the charging section by clear words he cannot be taxed at all.
- SEZ Act does not contain any provision for levy and collection of export duty for goods supplied by a DTA unit to a Unit in a Special Economic Zone for its authorised operations. In the absence of a charging provision in the SEZ Act providing for the levy of customs duty on such goods, export duty cannot be levied on the DTA supplier by implication.
- With regard to the Customs Act, 1962, a conjoint reading of section 12(1) with sections 2(18), 2(23) and 2(27) of the Customs Act, 1962 makes it clear that customs duty can be levied only on goods imported into or exported beyond the territorial waters of India. Since both the SEZ unit and the DTA unit are located within the territorial waters of India, Section 12(1) of the Customs Act 1962 (which is the charging section for levy of customs duty) is not attracted for supplies made by a DTA unit to a unit located within the Special Economic Zone.

The High Court thus inferred that the clearance of goods from DTA to Special Economic Zone is not liable to export duty either under the SEZ Act, 2005 or under the Customs Act, 1962.

Notes:

Karnataka High Court in case of CCE vs. Biocon Ltd. 2011 (267) E.L.T. 28 has also taken a similar view as elucidated in the aforesaid judgment.

4. Is the Port Trust liable to pay duty on goods pilfered while in their possession?

Board of Trustees of the Port of Bombay vs. UOI 2009 (241) E.L. T. 513 (Bom.)

In the instant case, goods were pilfered before clearance while in possession of the Port Trust as custodian. The Department raised the demand of custom duty on the Port Trust because goods were pilfered whilst in their custody.

The High Court viewed that considering the language of section 45(3) of the Customs Act, the liability to pay duty is of the person, in whose custody the goods remain, as an approved person under section 45 of the Customs Act. Considering that the possession of the goods by the Port Trust is by virtue of powers conferred on the Port Trust under the Port Trust Act, the Court found it impossible to hold that the Port Trust is an approved person or can be notified as an approved person. It implies that section 45(3) of the Customs Act refers to the persons who have approved warehouses in terms of sections 9 and 10 of the Customs Act.

The High Court further opined that under section 45 of the Customs Act, the person referred to in sub-section (1) thereof can only be the person approved by the Commissioner of Customs. It excludes a body of persons, who by virtue of a law for the time being in force, is entrusted with the custody of goods by incorporation of law under another enactment, (for example, the Port Trust Act in the given case).

The Court interpreted that the intention of the law might have been to check the pilferage taken place from a private warehouse or a customs warehouse run by a private party. The negligence on such private parties should not cause loss to the exchequer.

Thus, the Court held that under section 45(1) of the Customs Act, the recovery of duty in respect of pilfered goods could only from the approved person and the Port Trust is not liable to pay duty on goods pilfered while in their possession.

B. LEVY OF AND EXEMPTIONS FROM CUSTOMS DUTY

1. Whether remission of duty is permissible under section 23 of the Customs Act, 1962 when the remission application is filed after the expiry of the warehousing period (including extended warehousing period)?

CCE vs. Decorative Laminates (I) Pvt. Ltd. 2010 (257) E.L.T. 61 (Kar.)

Relevant Section: 23 of the Customs Act, 1962

Facts of the case:

The respondent imported resin impregnated paper and plywood for the purpose of manufacture of furniture. The said goods were warehoused from the date of its import. The respondent sought an extension of the warehousing period which was granted by the authorities. However, even after the expiry of the said date, it did not remove the goods from the warehouse. Subsequently, the assessee applied for remission of duty under section 23 of the Customs Act, 1962 on the ground that the said goods had become unfit for use on account of non-availability of orders for clearance.

Decision of the case:

The High Court, while interpreting section 23, stipulated that section 23 states that only when the imported goods have been lost or destroyed at any time before clearance for home consumption, the application for remission of duty can be considered. Further, even before an order for clearance of goods for home consumption is made, relinquishing of title to the goods can be made; in such event also, an importer would not be liable to pay duty.

Therefore, the expression "at any time before clearance for home consumption" would mean the time period as per the initial order during which the goods are warehoused or before the expiry of the extended date for clearance and not any period after the lapse of the aforesaid periods. The said expression cannot extend to a period after the lapse of the extended period merely because the licence holder has not cleared the goods within the stipulated time.

Moreover, since in the given case, the goods continued to be in the warehouse, even after the expiry of the warehousing period, it would be a case of goods improperly removed from the warehouse as per section 72(1)(b) read with section 71.

The High Court, overruling the decision of the Tribunal, held that the circumstances made out under section 23 were not applicable to the present case since the destruction of the goods or loss of the goods had not occurred before the clearance for home consumption within the meaning of that section. When the goods are not cleared within the period or extended period as given by the authorities, their continuance in the warehouse will not attract section 23 of the Act.

2. Whether remission of duty is permissible under section 23 of the Customs Act, 1962 when the remission application is filed after the expiry of the warehousing period (including extended warehousing period)?

CCE vs. Decorative Laminates (I) Pvt. Ltd. 2010 (257) E.L. T. 61 (Kar.)

Facts of the case:

The respondent imported resin impregnated paper and plywood for the purpose of manufacture of furniture. The said goods were warehoused from the date of its import. The respondent sought an extension of the warehousing period which was granted by the authorities. However, even after the expiry of the said date, it did not remove the goods from the warehouse. Subsequently, the assessee applied for remission of duty under section 23 of the Customs Act, 1962 on the ground that the said goods had become unfit for use on account of non-availability of orders for clearance.

Decision of the case:

The High Court, while interpreting section 23, stipulated that section 23 states that only when the imported goods have been lost or destroyed at any time before clearance for home consumption, the application for remission of duty can be considered. Further, even before an order for clearance of goods for home consumption is made, relinquishing of title to the goods can be made; in such event also, an importer would not be liable to pay duty.

Therefore, the expression "at any time before clearance for home consumption" would mean the time period as per the initial order during which the goods are warehoused or before the expiry of the extended date for clearance and not any period after the lapse of the aforesaid periods. The said expression cannot extend to a period after the lapse of the extended period merely because the licence holder has not cleared the goods within the stipulated time.

Moreover, since in the given case, the goods continued to be in the warehouse, even after the expiry of the warehousing period, it would be a case of goods improperly removed from the warehouse as per section 72(1)(b) read with section 71.

The High Court, overruling the decision of the Tribunal, held that the circumstances made out under section 23 were not applicable to the present case since the destruction of the goods or loss of the goods had not occurred before the clearance for home consumption within the meaning of that section. When the goods are not cleared within the period or extended period as given by the authorities, their continuance in the warehouse will not attract section 23 of the Act.

C. CLASSIFICATION OF GOODS

1. Where a classification (under a Customs Tariff head) is recognized by the Government in a notification any point of time, can the same be made applicable in a previous classification in the absence of any conscious modification in the Tariff?

Keihin Penalfa Ltd. vs. Commissioner of Customs 2012 (278) E.L. T. 578 (S.C.)

Facts of the Case:

Department contended that "Electronic Automatic Regulators" were classifiable under Chapter sub-heading 8543.89 whereas Keihin Penalfa Ltd. was of the view that the aforesaid goods were classifiable under Chapter sub-heading 9032.89. An exemption notification dated 1-3-2002 exempted the disputed goods classifying them under chapter sub-heading 9032.89. The period of dispute, however, was prior to 1-3-2002.

**Point of Dispute:**

The dispute was on classification of Electronic Automatic Regulators.

Decision of the Court:

The Apex Court observed that the Central Government has issued an exemption notification dated 1-3-2002 and in the said notification it has classified the Electronic Automatic Regulators under Chapter sub-heading 9032.89. Since the Revenue itself has classified the goods in dispute under Chapter sub-heading 9032.89 from 1-3-2002, the said classification need to be accepted.

2. Whether classification of the imported product changes if it undergoes a change after importation and before being actually used?

Atherton Engineering Co. Pvt. Ltd. vs. UOI 2010 (256) E.L.T. 358 (Cal.)

Decision of the case:

The Court noted that it was the use of the product that had to be considered in the instant case. If a product undergoes some change after importation till the time it is actually used, it is immaterial, provided it remains the same product and it is used for the purpose specified in the classification. Therefore, in the instant case, it examined whether the nature and character of the product remained the same.

The Court opined that if the embryo within the egg was incubated in controlled temperature and under hydration, a larva was born. This larva did not assume the character of any different product. Its nature and characteristics were same as the product or organism which was within the egg.

Hence, the Court held that the said product should be classified as feeding materials for prawns under the heading 2309. These embryos might not be proper prawn feed at the time of importation but could become so, after incubation.

Note - The Headings cited in this case law may not co-relate with the Headings of the present Customs Tariff as this case relates to an earlier point of time.

3. Will the description of the goods as per the documents submitted along with the Shipping Bill be a relevant criterion for the purpose of classification, if not otherwise disputed on the basis of any technical opinion or test? Whether a separate notice is required to be issued for payment of interest which is mandatory and automatically applies for recovery of excess drawback?

MIS CPS Textiles P Ltd. vs. Joint Secretary 2010 (255) ELT 228 (Mad.)

Decision of the case:

The High Court held that the description of the goods as per the documents submitted along with the Shipping Bill would be a relevant criteria for the purpose of classification, if not otherwise disputed on the basis of any technical opinion or test. The petitioner could not plead that the exported goods should be classified under different headings contrary to the description given in the invoice and the Shipping Bill which had been assessed and cleared for export.

Further, the Court, while interpreting section 75A(2) of the Customs Act, 1962, noted that when the claimant is liable to pay the excess amount of drawback, he is liable to pay interest as well. The section provides for payment of interest automatically along with excess drawback. No notice need to be issued separately as the payment of interest become automatic, once it is held that excess drawback has to be repaid.

4. Where the importer clears the imported goods on the basis of classification which was upheld by Commissioner of Customs (A), is the seizure of such goods and collecting any amount in excess of what is assessed by the custom authorities justified?

Vodafone Essar South Ltd. vs UOI 2009 (237) E.L. T. 35 (Bom.)

The Commissioner of Customs (Appeals) in petitioner's own case, on 25-3-2008, had held that Optic Fibre Cables (OFC) imported by petitioners were classifiable under Heading 85.44 of the Central Excise Tariff, 1985. The Revenue filed an appeal before CESTAT against the said order claiming the classification of the goods under Heading 90.01. However, on 18-12-2008, the customs authorities (DRI officers) threatened the petitioner to arrest the directors of the petitioner-company and other staff unless differential duty between Headings 85.44 and 90.01 was paid.

The Bombay High Court held that the action of the Director of Revenue Intelligence (D.R.I. officers) in the Customs Department in seizing the goods and collecting money from the petitioners was wholly unjustified and uncalled for, because of following five reasons:-

- (i) When the Commissioner of Customs (Appeals) in petitioner's own case on 25-3-2008 had held that OFC imported by petitioners were classifiable under Heading 85.44 of the Central Excise Tariff, the petitioners were not wrong in classifying the goods imported after 25-3-2008 under Heading 85.44 *ibid*.
- (ii) Decision of Commissioner (Appeals) was neither stayed by CESTAT nor by any other competent authority. Hence, mere fact that appeal filed by Revenue against the decision of Commissioner (Appeals) was pending could not be a ground to hold the petitioner guilty of misclassification of goods.
- (iii) D.R.I. officers were bound by the decision given by Commissioner of Customs (Appeals).
- (iv) The Bills of Entry filed by the petitioners by classifying the goods under Heading 85.44 had been assessed under Heading 85.44 and the goods had been cleared only on payment of duty as assessed. Therefore, till the assessment was set aside, the customs authorities could not have seized the goods assessed and cleared under Heading 85.44, on the ground that the goods were liable to be assessed under Heading 90.01.
- (v) In the absence of any re-assessment order passed determining the duty liability, there would be no question of recovering differential duty.

D. VALUATION UNDER THE CUSTOMS ACT, 1962

- 1. Whether subsequent increase in the market price of the imported goods due to inflation would lead to increase in customs duty although the contract price between the parties has not increased accordingly?**

Commissioner of Cus., Vishakhapatnam vs. Aggarwal Industries Ltd. . 2011 E.L. T. 641 (S.C.)

Facts of the Case:

On 26th June 2001, Aggarwal Industries Ltd. entered into a contract with foreign suppliers viz M/s. Wilmar Trading Pvt. Ltd., Singapore, for import of 500 metric tons of crude sunflower seed oil at the rate of US \$ 435 CIF/metric ton. Under the contract, the consignment was to be shipped in the month of July 2001. However, the mutually agreed time for shipment was extended to 'mid August 2001'. Thus, the goods were actually shipped on 5th August 2001 at the price prevailing at the contract date.

Point of Dispute:

The Revenue contended that when actual shipment took place, after the expiry of the original shipment period, the international market price of crude sunflower seed oil had increased drastically, and, therefore, the contract price could not be accepted as the 'transaction value' in terms of rule 4 of the erstwhile Customs Valuation (Determination of Price of Imported Goods) Rules, 1988 [now rule 3 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007]. Therefore the duty should be imposed on the increased prices.

Decision of the Case:

The Supreme Court held that in the instant case, the contract for supply of crude sunflower seed oil @ US \$ 435 CIF/ metric ton was entered into on 26th June 2001. It could not be performed on time because of which extension of time for shipment was agreed between the contracting parties. It is true that the commodity involved had volatile fluctuations in its price in the international market, but having delayed the shipment, the supplier did not increase the price of the commodity even after the increase in its price in the international market. There was no allegation of the supplier and importer being in collusion. Thus, the appeal was allowed in the favour of the respondent- assessee.

2. **Service charges paid to the Canalising Agent (MMTC) includible in the assessable value of imports - "Service Commission" paid to Canalising Agent (MMTC) not to be equated with "buying commission" under Rule 9(1)(a)(i) of the Customs Valuation (Determination of Price of Imported Goods) Rules, 1988 - Canalising Agency (MMTC) not to be treated as an Agent of the buyer as it does not represent its buyer abroad - Purchases by Canalising Agency (MMTC) from foreign sellers and subsequent sale by it to Indian buyers are independent of each other.**

Hyderabad Industries Ltd. vs. UOI 2000 (115) ELT 593 (SC)

Relevant Section: 14 of the Customs Act, 1962.

Fact of the Case:

Under the provisions of the Import and Export Policy of the Government of India the MMTC is designated as a canalising agent for import of raw asbestos from foreign Countries. The MMTC imports the raw asbestos in bulk purchasing the same from the foreign sellers. It then enters into sale agreement on what is known as high seas sales basis with the various users of raw asbestos. Consideration paid by the purchasers of the raw asbestos from the MMTC (which includes the appellant) includes apart from the purchase value incurred by the MMTC an additional sum equivalent to 3.5 per cent of the C & F value of the imports as service charges. As per the Appellant these service charges are in the nature of 'buying commission' and accordingly are not includible in the assessable value in view of the exclusion provided in Rule 9(1)(a)(i) of the Customs Valuation (Determination of Price of Imported Goods) Rules, 1988, whereas as per Revenue department there is no relationship of Principal and Agent between Indian buyers and the MMTC. Service charges paid to the MMTC cannot be equated with "buying commission" nor the Canalising Agency (MMTC) is an Agent of the Indian buyers as there is no relationship of Principal and Agent between them and nor the Canalising Agency (MMTC) represented the Indian buyer abroad to purchase the material. On the contrary the Canalising Agency (MMTC) purchased the material of its own and then sold the goods to Indian buyers on high seas sales basis. The purchases of Canalising Agency (MMTC) from foreign sellers and subsequent sale of it to Indian buyers are independent of each other. Thus the Service Charges paid to the Canalising Agency (MMTC) are includible in the assessable value of the imported goods and form part of the sale consideration. [para 7]

Decision of the case:

Customs duty - Heavy and unreasonable burden - Inclusion of 'Service Charges' paid to Canalising Agency (MMTC) in the assessable value - Even if it causes heavy burden, it cannot be avoided on that ground - Even otherwise Appellant were permitted to import goods independently - Procurement from Canalising Agency (MMTC) also benefitted the Indian buyers from avoiding sales tax - Plea of unreasonableness of the levy hence not acceptable - Sections 12 and 14 of the Customs Act, 1962 - Article 226 of the Constitution of India.

3. **Design and engineering charges are includible in the assessable value of the imported goods only if the goods imported are specifically manufactured on the basis of the design and engineering specifications provided by the importer.**

TISCO Ltd. vs. CCE. & Cus. 2000 (116) ELT 422 (SC)

Relevant Section: 14 of the Custom Act, 1962

The Supreme Court in this case has held that design and engineering charges paid for use during construction, erection, assembly etc. of imported goods, being relatable to post import activity, are not includible in the value. Thus, the design and engineering charges which relate to pre-importation activity are only includible in the value. Since, in this case the design and engineering charges are paid for manufacturing the imported product, i.e., they relate to pre-importation activity, the same are includible in the value. Thus, the statement is correct.

4. **Inspection charges are not includible in the assessable value of the imported goods if contract does not specify for certification by an independent agency.**

Bombay Dyeing & Mfg. vs. CC 1997 (90) ELT 276 (SC)]

Where there is no requirement in the contract for independent inspection and the inspection is carried out by foreign supplier on his own and is not required for the purpose of fulfilling the condition of the contract, then such charges incurred on inspection are not includible in assessable value

5. **Section 14 of the Act was not applicable to the over-valuation of the export goods, Comments.**

Supreme Court in the case of M/s. Om Prakash Bhatia vs. Commissioner of Customs, Delhi 2003 (155) E.L.T. 423.

The Apex Court observed that for finding the true export value of the goods, section 14 of the Customs Act, 1962 has to be read along with section 2(41) which defines the word 'value'.

Value in relation to any goods means the value thereof determined in accordance with the provisions of section 14(1). Section 14 specifically provides that in case of assessing the value for purpose of export, value is to be determined at the price at which such or like goods are ordinarily sold or offered for sale at the place of exportation in the course of international trade where the seller and buyer have no interest in the business of each other and the price is the sole consideration for the sale. Therefore, for determining the export value of the goods, the method of determining the value under section 14 has to be followed even if no duty is leviable on the export of goods.

E. WAREHOUSING

1. **Whether the issue of the imported goods warehoused in the premises of 100% EOU for manufacture/production/processing in 100% EOU would amount to clearance for home consumption?**

Paras Fab International vs. CCE 2010 (256) E.L.T. 556 (Tri. - LB)

Issue:

Following questions arose before the Larger Bench of the Tribunal for consideration:-

- (a) Whether the entire premises of 100% EOU should be treated as a warehouse?
- (b) Whether the imported goods warehoused in the premises of 100% EOU are to be held to have been removed from the warehouse if the same is issued for manufacture/production/processing by the 100% EOU?
- (c) Whether issue for use by 100% EOU would amount to clearance for home consumption?
- (d) Whether non-filing of ex-bond bill of entry before using the goods by the 100% EOU makes the goods as not cleared for home consumption?

Facts of the case:

The appellants were 100% EOU in Alwar. They imported the impugned goods namely HSD oil through Kandla Port and filed 'into Bond Bill of Entry' for warehousing the imported goods. The impugned goods were warehoused in their 100% EOU in Alwar and subsequently used in the factory within the premises of the 100% EOU for manufacture of the finished goods. The Department demanded customs duty on the impugned goods.

The contention of the appellants was that since (i) the entire premises of the 100% EOU had been licensed as a warehouse under the Customs Act; (ii) the impugned goods had been warehoused therein and subsequently utilized for manufacture of finished goods in bond; and (iii) the impugned goods had not been removed from the warehouse, there could not be any question of demanding duty on the same.

Department contended that the entire premises of the 100% EOU could not be treated as a warehouse. The Appellants had executed a common bond B-17 for fulfilling the requirements under the Customs Act, 1962 and the Central Excise Act, 1944. Under the Central Excise Law, the removal of goods for captive consumption would be treated as removal of goods and the assessee were required to pay duty on such removal.

Decision of the case:

The Tribunal observed that as per Customs manual, the premises of EOU are approved as a Customs bonded warehouse under the Warehousing provisions of the Customs Act. It is also stated therein that the manufacturing and other operations are to be carried out under customs bond. The goods are required to be imported into the EOU premises directly and prior to undertaking import, the unit is required to get the premises customs bonded. The imported goods, except capital goods and spares are required to be utilized within a period of one year or within such period as may be extended by the Customs authorities and the importer is required to maintain a proper record and proper account of the import, consumption and utilization of all imported materials and exports made and file periodical returns. The EOUs are licensed to manufacture goods within the bonded premises for the purpose of export.

The Tribunal held that neither the scheme of the Act nor the provisions contained in the Manual require filing of ex-bond bills of entry or payment of duty before taking the imported goods for manufacturing in bond nor there is any provision to treat such goods as deemed to have been removed for the purpose of the Customs Act, 1962.

The Tribunal answered the issues raised as follows:-

(a) The entire premises of a 100% EOU has to be treated as a warehouse if the licence granted under section 58 to the unit is in respect of the entire premises.

(b), (c) and (d) Imported goods warehoused in the premises of a 100% EOU (which is licensed as a Customs bonded warehouse) and used for the purpose of manufacturing in bond as authorized under section 65 of the Customs Act, 1962, cannot be treated to have been removed for home consumption.

F. DEMAND & APPEALS

1. Whether Revenue can prefer an appeal in case of a consent order?

Ous vs. Trilux Electronics 2010 (253) E.L. T. 367 (Kar.)

Decision of the case:

High Court held that if an order was passed by CESTAT based on consent and the matter was remanded at the instance of Revenue, then Revenue could not pursue an appeal against such order in a higher forum.

In the instant case, the Tribunal had remanded the matter in order to re-compute the duty payable by the assessee on the basis of representation of Revenue. Thereafter, the Revenue filed an appeal against the said order.

The assessee contended that the appeal filed by the Revenue was not maintainable since the order had been passed by the Tribunal on the submission of the representative of the Revenue. Further, since it is a consent order, no appeal would lie. The High Court held that an appeal against the consent order cannot be filed by the Revenue.

G. REFUND

- 1. Whether Chartered Accountant's certificate alone is sufficient evidence to rule out the unjust enrichment under customs?**

CCus., Chennai vs. BPL Ltd. 2010 (259) E.L.T. 526 (Mad.)

Decision of the case:

The High Court noted that section 27 of the Customs Act mandates on the importer to produce such documents or other evidence, while seeking refund, to establish that the amount of duty in relation to which such refund is claimed, has not been passed on by him to any other person.

However, in the given case, the respondent had not produced any document other than the certificate issued by the Chartered Accountant to substantiate its refund claim. The certificate issued by the Chartered Accountant was merely a piece of evidence acknowledging certain facts. It would not automatically entitle a person to refund in the absence of any other evidence. Hence, the respondent could not be granted refund merely on the basis of the said certificate.

Thus, the High Court, overruling the Tribunal's decision, answered the question of law in favour of revenue.

- 2. Can a refund claim be filed under section 27 of the Customs Act, 1962 if the payment of duty has not been made pursuant to an assessment order?**

Aman Medical products Ltd. vs. CCus., Delhi 2010 (250) EL T 30 (Del.)

Relevant Section: 27 of the Customs Act, 1962

Fact of the case:

The assessee filed a Bill of Entry and paid the higher duty in ignorance of a notification which allowed him the payment of duty at a concessional rate. There was no assessment order for being challenged in the appeal which was passed under erstwhile section 27(1)(i) [now clause (a) of sub-section (1) of section 27] of the Act. The Revenue contended that a refund in appeal can be asked for under section 27 of the Customs Act, 1962 only if the payment of duty had been made pursuant to an assessment order.

Decision of the case:

The High Court, referring to the language of section 27, interpreted that it is not necessary that the duty paid by the importer must be pursuant to an order of assessment. The duty paid by the importer can also be 'borne by him' Clauses (i) and (ii) of erstwhile sub-section (1) of section 27 (now clause (a) and (b) of sub-section (1) of section 27) are clearly in the alternative because the expression "or" is found in between the two clauses. The object of section 27(ii) [now section 27(b)] is to cover those classes of case where the duty is paid by a person without an order of assessment.

The High Court held that the refund claim of the appellant was maintainable under section 27 and the non-filing of the appeal against the assessed bill of entry did not deprive the appellant to file its claim for refund under section 27 of the Customs Act, 1962. The refund claim, in the case on hand, would fall under clause (ii) of erstwhile sub-section (1) of section 27 [now clause (b) of sub-section (1) of section 27]

- 3. Can the assessee be denied the refund claim only on the basis of contention that he had produced the attested copy of TR-6 challan* and not the original of the TR-6 challan?**

Narayan Nambiar Meloths vs. CCus. 2010 (251) E.L. T. 57 (Ker.)

Relevant Section: 27 of the Customs Act, 1962

Facts of the case:

In the instant case, the refund application filed by the assessee was not entertained on the ground that the petitioner had not produced original of the TR-6 Challan* and what was produced was only an attested copy. According to respondents, production of original of the TR-6 challan* was a mandatory requirement for processing the refund application.

Decision of the case:

The Kerala High Court decided that the petitioner could not be denied the refund claim on account of following mentioned grounds:-

Firstly, the Court opined that the only contention raised against the petitioner was that TR-6 Challan* he produced was only an attested copy, which was purely a technical contention and could not be accepted.

Secondly, as per clarification issued vide F.No. 275/37/2K-CX. 8A dated 2-1-2002, a simple letter from the person who made the deposit, requesting for return of the amount, along with the appellate order and attested Xerox copy of the Challan in Form TR-6* would suffice for processing the refund application. Evidently, in the instant case, the petitioner had fully complied with the requirement laid down in this clarification.

*Note: Now TR-6 Challan has been replaced with GAR-7 challan

H. PROVISIONS RELATING TO ILLEGAL IMPORT, ILLEGAL EXPORT, CONFISCATION, PENALTY & ALLIED PROVISIONS

1. Whether discharge of liability on indicated value would still make the assessee liable for confiscation of goods if he has initially made a mis-declaration of the value thereof ?

Iffringley India Pvt. Ltd. vs. Commr. of Cus.(Imports), Chennai 2011 (274) E.L.T. 172 (Mad.)

Facts of the Case:

Wringley India Pvt. Ltd. had imported second-hand machinery along with spare parts from its sister concern located at Spain as per Bill of Entry dated 28-4-2006. There was indication in the invoice that the machinery was certified by M/s. S.G.S. Spain, the load port Chartered Engineer at Euro 35876.49. However, the certificate issued by M/s. S.G.S. Spain, the load port Chartered Engineer was not enclosed along with the Bill of Entry and only the invoice was submitted. Since the appellant didn't submit the valuation report, the Custom authorities referred the matter for valuation to local valuer. It entrusted the valuation to the local Chartered Engineer-M/s S.G.S. India Pvt. Ltd. During the process of valuation, M/s. S.G.S. India Private Limited found that the report originally issued by M/s. S.G.S. Spain was showing a higher value of goods than the value declared by the appellant to the customs authorities. Wringley India then paid duty on that high value indicated as per the original report of M/s. S.G.S. Spain.

Point of Dispute:

The revenue contended that since the appellant had mis-declared the value of the goods imported, therefore the imported goods should be confiscated under section 111 (m) of the Customs Act, 1962.

Decision of the Case:

The High Court held that since the appellant made an attempt to mis-declare the value of the imported goods and to misguide the Customs Department, which was also evident from the fact that when the Customs Department directed the appellant to obtain the certificate from the local Chartered Engineer, even at that time they did not disclose the true value assessed by the load port Chartered Engineer M/s. S.G.S. Spain. Even after obtaining the valuation certificate from M/s. S.G.S. India Private Limited, the appellant had no grievance. In fact the valuation so done by the local Chartered Engineer was readily accepted by the appellant as evident from the letter issued by them to the Customs Department and the subsequent payment made by them.

The High Court was thus convinced that there was clear mis-declaration of value by the appellant and as per section 111(m) of the Customs Act, the revenue was asked to confiscate the goods so imported.

2. Whether the smuggled goods can be re-exported from the customs area without formally getting them release from confiscation?

In Re Hemal K. Shah (Order No. 102/2011- Cus., Dated 14-6-2011 In F.No. 380/82/B/10-RA)

Before the Government of India, Ministry Of Finance (Before the Government Of India, Ministry Of Finance)

Facts of the Case:

Shri Hemal K. Shah, a passenger, who arrived at SVPI Airport, Ahmedabad on 20-6-2009, had declared the total value of goods as ₹ 13,500 in the disembarkation slip. On detailed examination of his baggage, it was found to contain Saffron, Unicore Rhodium Black, Titan Wrist watches, Mobile Phones, assorted perfumes, Imitation stones and bags. Since, the said goods were in commercial quantity and did not appear to be a bona fide baggage, the said goods were placed under seizure. The passenger in his statement admitted the offence and showed his readiness to pay duty on seized goods or re-shipment of the said goods. The adjudicating authority determined total value of seized goods as ₹ 8,39,760 (CIF) and ₹ 10,91,691 (LMV); ordered confiscation of seized goods u/s 111(d) and (m) of the Customs Act, 1962 imposed penalty of ₹ 2,50,000 on Hemal K. Shah, confirmed and ordered for recovery of customs duty on the goods with interest and gave an option to redeem the goods on payment of fine of ₹ 2,00,000 which should be exercised within a period of three months from the date of receipt of the order. On appeal by Hemal K. Shah, the appellate authority allowed re-export of the confiscated goods.

Point of Dispute:

The Department disputed the re-export of confiscated goods. They said that the goods which have been confiscated were being smuggled in by the passenger without declaring the same to the Customs and are in commercial quantity. In view of these facts, the appellate authority has erred in by allowing the re-export of the goods by reducing the redemption fine and penalty. While doing so, he has not taken into account the law laid down by the Hon'ble Supreme Court in the case of CC, Kolkata vs. Grand Prime Ltd. [2003 (155) E.L.T. 417 (S.C.)]

Decision of the Case:

The Government noted that the passenger had grossly mis-declared the goods with intention to evade duty and smuggle the goods into India. As per the provision of Section 80 of Customs Act, 1962 when the baggage of the passenger contains article which is dutiable or prohibited and in respect of which the declaration is made under Section 77, the proper officer on request of passenger detain such article for the purpose of being returned to him on his leaving India. Since passenger neither made true declaration nor requested for detention of goods for re-export, before customs at the time of his arrival at Airport. So the re-export of said goods cannot be allowed under Section 80 of Customs Act.

3. Can the goods be detained indefinitely without any formal order under section 110 of the Customs Act, 1962?

SJ Fabrics Pvt. Ltd. vs. UOI 2011 (268) E.L. T. 475 (Cal.)

Decision of the case:

The High Court held that there is no time limit for issuance of an order under section 110 and/or the proviso thereof. However, such notice should ordinarily be issued immediately upon interception and detention of the goods. The goods cannot indefinitely be detained without any order under section 110.

The High Court observed that section 110(2) provides that when any goods are seized under sub-section (1) and no notice in respect thereof is given under clause (a) of section 124 within six months of the seizure of the goods, the goods shall be returned to the person from whose possession, the goods were seized. The proviso to Section 110(2), however, empowers the Commissioner of Customs to extend the aforesaid period of six months by a further period of not exceeding six months on sufficient cause being shown.

Note: Although, it has already been established in number of cases that detention and seizure are not same under the customs provisions, in the aforesaid judgment, the two terms seem to have been used inter-changeably. The said fact may be borne in mind while going through the aforesaid decision.

4. Is it mandatory for the Revenue officers to make available the copies of the seize documents to the person from whose custody such documents were seized?

Manish Lalit Kumar Bavishi vs. Addl. DIR. General, DRI 2011 (272) E.L. T. 42 (Bom.)

Facts of the case:

The assessee sought copies of the documents seized from his office premises under panchanama and print outs drawn from the Laptop during his attendance in DRI. However, Revenue officers replied that the documents would be provided to him on completion of the investigation.

Decision of the case:

The High Court held that from the language of section 110(4), was apparent that the Customs officers were mandatorily required to make available the copies asked for. It was the party concerned who had the choice of either asking for the document/seeking extract and not the officer.

If any document was seized during the course of any action by an officer and relatable to the provisions of the Customs Act, that officer was bound to make available copies those documents. The denial by the Revenue to make the documents available was clearly an act without jurisdiction.

The High Court directed the Revenue to make available the copies of the document asked for by the assessee which was seized during the course of the seizure action.

5. Under what circumstances can the penalty be imposed in terms of section 112(a)(ii) of the Customs Act, 1962?

O. T. Enasu vs. UOI 2011 (272) E.L. T. 51 (Ker.)

The High Court noted that under sub-clause (ii) of clause (a) of section 112, the liability to penalty is determined on the basis of duty sought to be evaded. Therefore, the jurisdictional fact to impose a penalty in terms of section 112(a)(ii) includes the essential ingredient that "duty was sought to be evaded". Being a penal provision, it requires to be strictly construed. 'Evade' means, to escape, slip away, to escape or avoid artfully, to shirk, to baffle, elude. The concept of evading involves a conscious exercise by the person who evades. Therefore, the process of "seeking to evade" essentially involves a mental element and the concept of the status "sought to be evaded" is arrived at only by a conscious attempt to evade.

In view of the above discussion, the High Court inferred that unless it is established that a person has, by his omissions or commissions, led to a situation where duty is sought to be evaded, there cannot be an imposition of penalty in terms of section 112(a)(ii) of the Act.

6. Can separate penalty under section 112 of the Customs Act be imposed on the partners when the same has already been imposed on partnership firm?

Textoplast Industries vs. Additional Commissioner of Customs 2011 (272) E.L.T. 513 (Bom.)

Decision of the case:

The High Court noted that Explanation to section 140 of the Customs Act, 1962 brings within purview of "Company", a firm or an association of individuals, and 'Director' in relation to firm, includes its partner. The High Court observed that in case of Apex Court judgment of Standard Chartered Bank vs. Directorate of Enforcement, there emerged the principle that the deeming fiction is not confined to a criminal prosecution but will also extend to an adjudication proceeding as well. Hence, the High Court, in the instant case, held that the deeming fiction in section 140(2) making Director, Manager, Secretary or other officer of company liable to penalty, would not be confined to criminal prosecution but extends to adjudication proceeding as well.

The High Court explained that had it been otherwise, it would have led to strange situation where, for criminal prosecution, partner as well as person in charge responsible for conduct of business of partnership firm would be liable whereas for adjudication purposes, a narrower construction had to be adopted. There was no reason to exclude penalty on partnership firm, particularly when it was consistent with overall scheme and object of the Act.

In view of the above discussion, the High Court held that for the purpose of imposing penalty, the adjudicating authority under Customs Act, 1962 might, in an appropriate case, impose a penalty both upon a partnership firm as well as on its partners.

Note: The Gujarat High Court, in case of CCE & C, Surat-II vs. Mohammed Farookh Mohammed Ghani 2010 (259) E.L.T. 179, has held that separate penalty under section 112 could not be imposed on the partners in addition to the penalty on the partnership firm. However, the Gujarat High Court, while deciding the said case, has not considered the principle enunciated by the Supreme Court in the Standard Chartered Bank case. In the circumstances, it appears that separate penalty under section 112 can be imposed on the partners in addition to the penalty on the partnership firm.

7. Is the want of evidence from foreign supplier enough to cancel the confiscation order of goods undervalued?

CCus. vs. Jaya Singh Vijaya Jhaveri 2010 (251) E.L.T. 38 (Ker.)

Decision of the case:

In the instant case, the High Court held that in a case of confiscation of goods because of their under valuation, Tribunal could not cancel the confiscation order for the want of evidence from the foreign supplier. The Court considered it be illogical that a person who was a party to under-valuation would give evidence to the Department to prove the case that the invoice raised by him on the respondent was a bogus one and that they had received underhand payment of the differential price. Resultantly, the Court upheld the confiscation order.

8. Whether the benefit of exemption meant for imported goods can also be given to the smuggled goods?

CCus. (Prev.), Mumbai vs. M. Ambalal & Co. 2010 (260) E. L. T. 487 (SC)

Decision of the case:

The question which arose before the Apex Court for consideration was whether goods that were smuggled into the country could be considered as 'imported goods' for the purpose of granting the benefit of the exemption notification.

The Apex Court held that the smuggled goods could not be considered as 'Imported goods' for the purpose of benefit of the exemption notification. It opined that if the smuggled goods and imported goods were to be treated as the same, then there would have been no need for two different definitions under the Customs Act, 1962.

The Court observed that one of the principal functions of the Customs Act was to curb the ills of smuggling on the economy. Hence, it held that it would be contrary to the purpose of exemption notifications to give the benefit meant for imported goods to smuggled goods.

9. **In case the Department fails to provide some contemporaneous evidence that the price declared in the invoice is not the correct price, how would the transaction value be determined? Would the goods be liable to confiscation in such a case?**

Commissioner of Customs, Mumbai vs. Mahalaxmi Gems 2008 (231) ELT 198 (SC)

The assessee imported three lots of rough diamonds supplied at different CIF prices per carat in the same shipment. Department opined that the goods were over-invoiced. As per the Appraisers' Valuation report as well as the Trade Panel report submitted through the Gems and Jewellery Export Promotion Council, the ascertained fair value of the goods was found to be lower than the invoiced value. Therefore, the Department proposed the confiscation of goods under section 111(m) of the Customs Act, 1962.

The assessee while explaining the reason for the same stated that the shipper had before hand informed that if after assortment, the assessee did not find the value of the goods to be satisfactory, it should reshipe the goods back.

The Tribunal held that the value of the goods that was declared was the transaction value. The genuineness of the invoice that the assessee produced has not been questioned. It has not been alleged that it was fabricated or fake or that any relationship existed between the importer and the exporter. It was also held that there was no contemporaneous evidence to prove that the goods imported were over invoiced.

Thus, Supreme Court, upholding the Tribunal's view, pronounced that the transaction value had to be accepted until and unless it was shown by some contemporaneous evidence that the price declared in the invoice was not the correct price. Hence, there was no over invoicing by the importer of the goods.

10. **Whether the action of the custom authorities in selling the confiscated goods during the period of pendency of appeal is justified?**

Shabir Ahmed Abdul Rehman vs. UOI 2009 (235) ELT 402 (Bom.)

Revenue confiscated the gold carried by the petitioner from Muscat. The petitioner informed the custom authorities that he was filing an appeal against the order of confiscation. Revenue informed the petitioner that the confiscated goods had been handed over to the warehouse of the Custom House for disposal and consequently, auctioned the confiscated goods.

The High Court held that handing over the confiscated gold immediately after serving the order of confiscation itself was improper. In any event, after receiving letter from the petitioner, the custom authorities ought to have stopped the auction sale of the confiscated gold. The action of the custom authorities in selling the gold during the pendency of the appeal was not justified.

11. **Is an exporter, who has been held guilty of exporting 'prohibited goods', entitled to an option to pay fine in lieu of confiscation under section 125?**

CCus. (Preventive), West Bengal vs. India Sales International 2009 (241) E.L. T. 182 (Cal.)

Learned Counsel for Revenue submitted that the Tribunal was not justified in granting an exporter, who had been held guilty of exporting 'prohibited goods', an option to pay fine in lieu of confiscation under section 125 of the Customs Act. He argued that word which had been used by the legislators under section 125 as 'prohibited' had to be read as 'prohibited absolutely'.

The High Court opined that the Court cannot insert any word in the statute since it is within the domain of legislators. However, the Court has power to interpret the same without inserting anything. Whatever the legislators think fit and proper, can be legislated.

The High Court rejected the Revenue's contention that word 'prohibited' as used by legislators under section 125 of the Customs Act, 1962 could be read as 'prohibited absolutely'. It held that the Court cannot insert the word which has not been used in section 125 by legislators. Further,

the option given under section 125 in respect of the prohibited goods and the right given to the authorities for redemption of the confiscated goods in question cannot be taken away by the Court by inserting a particular word therein.

Hence, the Court viewed that the Tribunal had the right to pass an order by giving an option to pay fine in lieu of confiscation of goods.

12. Can the Court grant anticipatory bail for an arrest under section 104 of the Customs Act, 1962?

Union of India vs. Padam Narain Aggarwal 2008 (231) ELT 397 (SC)

The respondent - Padam Narain Aggarwal filed an anticipatory bail in the sessions court which dismissed it, but he later moved to the High Court which granted him anticipatory bail with a direction to the authorities that he should not be arrested without giving a ten days' prior notice to him. Revenue contended that the order passed by the High Court was illegal and erroneous.

Supreme Court observed that power to arrest a person by a Custom Officer under section 104 of the Customs Act, 1962 is statutory in character and cannot be interfered with. Supreme Court further noted that the law, on one hand, allows a Custom Officer to exercise power to arrest a person who has committed certain offences, and on the other hand, takes due care to ensure individual freedom by laying down norms and providing safeguards so that the power of arrest is not abused or misused by the authorities. 'Blanket' order of bail may amount to an invitation to commit an offence or a passport to carry on criminal activities.

Supreme Court pronounced that on the facts and in the circumstances of the present case, above directions could not be said to be legal or in consonance with law. Firstly, the order passed by the High Court was a blanket one and granted protection to respondents in respect of any non-bailable offence. Secondly, it illegally obstructed, interfered and curtailed the authority of Custom Officers from exercising statutory power of arresting a person said to have committed a non-bailable offence by imposing a condition of giving ten days prior notice, a condition not warranted by law. Hence, the order granting the anticipatory bail to the accused was set aside.

13. Whether, under section 125 of the Customs Act, 1962, discretion vests with the Adjudicating Authority to give option to redeem the goods even though the said goods are liable to absolute confiscation (since the importation of said goods is prohibited)?

CCus vs. Alfred Menezes 2009 (242) E.L.T. 334 (Som.)

Relevant Section: 125 of the Customs Act, 1962

Decision of the case:

The High Court observed that section 125(1) deals with two situations:-

Importation and exportation of prohibited goods and Importation and exportation of any other goods

(1) Importation and exportation of prohibited goods

In case of importation or exportation of prohibited goods, where the goods were confiscated, the word used is "may". Hence, in case of prohibited goods, there is discretion in the officer either to release the confiscated goods in terms as set out therein or not.

(2) Importation and exportation of any other goods

In the case of any other goods, which are confiscated, the word used is "shall". Thus, in case of other goods, the officer is bound to release the goods.

The High Court pronounced that in the instant case, the adjudicating officer's action was justified. He had exercised his discretion and had given an option to redeem the goods even though the said goods were liable for absolute confiscation as the importation of said goods was prohibited.

14. In case the imported goods are confiscated, and goods are not redeemed by paying fine, whether the importer is bound to pay the customs duty?

Poona Health Services vs. CCus. 2009 (242) E.L.T. 335 (Bom.)

Relevant Section: 111 and 125 of the Customs Act, 1962

Decision of the case:

The primary question, in the instant case, was that in case where the imported goods were confiscated, and goods were not redeemed by paying fine, whether the appellant was bound to pay duty. The High Court answered the question in affirmative.

The appellant contended that once the imported goods were confiscated under section 125 of the Customs Act, 1962, and the option to release them was not exercised, no duty was payable. He placed reliance on section 23 which provides that if the owner of imported goods relinquishes his title to the goods, he shall not be liable to pay the duty thereon.

The High Court elucidated the distinction between section 23 and section 125. Under section 23, the person who imports the goods, surrenders his title in the goods. By surrendering title in the goods, the person importing the goods or the owner of the goods ceases to have a right to claim the goods.

On the other hand, the order of confiscation is passed in respect of the person who has claimed to import or export the goods. It implies that he claims title or right in the property. The fine under section 125 is payable by the person who seeks redemption of the goods. If the goods are not redeemed, then they vest in the State. The person however, who had imported the goods, does not cease to have liability for payment of duty because he continues to be the person who had imported the goods and claims title of the goods. The two sections therefore, operate in two different situations and are mutually exclusive. Therefore, section 23 cannot be considered for the purpose of interpreting section 111.

Section 111 confers the power to confiscate and applies only when the goods are improperly imported and or the other provisions are satisfied. The fine payable to get possession of the goods under section 125 is distinct and different from the duty of goods which are to be imported or exported. The fine is the nature of recompensation to the state for goods which are vested in it and on sale would have realized the value of the goods and from that to recover the duty which is unpaid as also fine.

Hence, in case the imported goods are confiscated, and goods are not redeemed by paying fine, the importer is bound to pay the customs duty.

15. Whether the goods held to be improperly imported are liable for confiscation under section 111 of the Customs Act, 1962, even though the same are cleared and not available for seizure? Whether redemption fine can be imposed with regard to such goods?

CCus vs. Finesse Creation Inc. 2009 (248) E.L.T. 122 (Bom.)

Relevant Section: 111 and 125 of the Customs Act, 1962

Decision of the case:

The Court opined that the concept of redemption fine arises in the event when the goods are available and are to be redeemed. If the goods are not available, there is no question of redemption of the goods.

Under section 125, a power is conferred on the Customs Authorities in case import of goods becoming prohibited on account of breach of the provisions of the Act, rules or notification, to order confiscation of the goods with a discretion in the authorities on passing the order of confiscation, to release the goods on payment of redemption fine. Such an order can only be passed if the

goods are available, for redemption. The question of confiscating the goods would not arise if there are no goods available for confiscation nor consequently redemption. Once goods cannot be redeemed, no fine can be imposed.

Consequently, the Court held that in the absence of the goods being available, no fine in lieu of confiscation could have been imposed.

16. In case of the goods liable to confiscation under section 111, issuing of a notice to the owner-original importer of the goods is enough or whether notice is also required to be issued to the person from whose custody the goods are seized?

Gawar Construction Ltd. vs. UOI 2009 (243) E.L.T. 484 (Bom.)

Relevant Section: 110 and 124 of the Customs Act, 1962

Decision of the case:

The High Court held that customs authorities are empowered to seize goods in custody of person other than importer without notice, but show cause notice proposing confiscation is required to be issued within 6 months or extended period.

The word 'or' used in the expression "the owner of the goods or such person" in section 124 has been used conjunctively and not disjunctively. Hence, the notice for confiscation is required to be issued to owner when owner is in possession of goods and goods are seized from his custody. In case of seizure of goods from the custody of person other than importer, notice must also be given to person from whose custody goods were seized. Opportunity must be given to the person in possession of the goods because their confiscation would affect his civil right to possess the goods which were seized from his custody. Thus, the person from whose custody goods are seized is also entitled to notice and hearing before order of confiscation is passed.

17. Is the want of evidence from foreign supplier enough to cancel the confiscation order of goods under-valued?

CCus. vs. Jaya Singh Vijaya Jhaveri 2010 (251) E.L.T. 38 (Ker.)

Decision of the case:

In the instant case, the High Court held that in a case of confiscation of goods because of their under valuation, Tribunal could not cancel the confiscation order for the want of evidence from the foreign supplier. The Court considered it be illogical that a person who was a party to undervaluation would give evidence to the Department to prove the case that the invoice raised by him on the respondent was a bogus one and that they had received underhand payment of the differential price. Resultantly, the Court upheld the confiscation order.

I. SETTLEMENT COMMISSION

1. In case of a Settlement Commission's order, can the assessee be permitted to accept what is favourable to them and reject what is not?

Sanghvi Reconditioners Pvt. Ltd. Vs. UOI 2010 (251) ELT 3 (SC)

Decision of the case:

The Apex Court held that the application under section 127B of the Customs Act, 1962 is maintainable only if the duty liability is disclosed. The disclosure contemplated is in the nature of voluntary disclosure of concealed additional customs duty. The Court further opined that having opted to get their customs duty liability settled by the Settlement Commission, the appellant could not be permitted to dissect the Settlement Commission's order with a view to accept what is favourable to them and reject what is not.

2. Can the order of the Settlement Commission be considered to be a judicial proceeding?

UOI vs. East and West Shipping Agency 2010 (253) E. L. T. 12 (Bom.)

Facts of the case:

The Custom House Agent License of the respondents was suspended on the ground that authorised agent of the respondents had committed misconduct by taking active part in the act of smuggling and had thus violated the Custom House Agent Licensing Regulations, 2004. During pendency of the misconduct proceedings, respondents approached Settlement Commission. The Settlement Commission after hearing all the parties held that Revenue had failed to prove that the authorised agent of the respondent Custom House Agent (CHA) had a conscious knowledge of mis-declaration of goods. On the basis of said order of the Settlement Commission, Tribunal decided the case in favour of the respondents and dropped the misconduct proceedings against them. The appellants challenged the Tribunal's order alleging that the order passed by the Settlement Commission was ab-initio, null and void being without jurisdiction.

Decision of the case:

The High Court observed that as per section 127M of the Customs Act, 1962, the order passed by the Settlement Commissioner is in judicial proceedings and it is a judicial order. Further, the appellants had not challenged the said order. Hence, the order passed by the Settlement Commissioner could not be brushed aside considering the scheme of Chapter XVIA. It must be held good in law so long as it is not set aside. Considering the facts and circumstances of the case, the High Court answered the question of law in affirmative in favour of the respondents and against the appellant.

3. Does the Settlement Commission have jurisdiction to settle cases relating to the recovery of drawback erroneously paid by the Revenue?

Union of India vs. Cus. & C. Ex. Settlement Commission 2010 (258) EL T 476 (Bom.)

Facts of the case:

The above question was the issue for consideration in a writ petition filed by the Union of India to challenge an order passed by the Settlement Commission in respect of a proceeding relating to recovery of drawback. The Commission vide its majority order overruled the objection taken by the Revenue challenging jurisdiction of the Commission and vide its final order settled the case. The aforesaid order of the Settlement Commission was the subject matter of challenge in this petition.

The contention of the Revenue was that the recovery of duty drawback does not involve levy, assessment and collection of customs duty as envisaged under section 127A(b) of the Customs Act, 1962. Therefore, the said proceedings could not be treated as a case fit to be applied before the Settlement Commission. However, the contention of the respondent was that the word "duty" appearing in the definition of "case" is required to be given a wide meaning. The Customs Act provides for levy of customs duty as also the refund thereof under section 27. The respondent contended that the provisions relating to refund of duty also extend to drawback as drawback is nothing but the return of the customs duty and thus, the proceedings of recovery of drawback would be a fit case for settlement before the Commission.

Decision of the case:

The High Court noted that the Settlement Commission while considering the aforesaid question of its jurisdiction for taking up the cases relating to drawback had considered the definition of "drawback" as defined in rules relating to drawback as also the definition of the word "case" as defined in section 127A(b) and after referring to the various judgments of the Tribunal came to the conclusion that the Commission had jurisdiction to deal with the application for settlement. The High Court stated that the reasons given by the Settlement Commission in support of its order are in consonance with the law laid down by the Supreme Court in the case of Liberty India vs. Commissioner of Income Tax (2009) 317 ITR 218 (SC) wherein the Supreme Court has observed that

drawback is nothing but remission of duty on account of statutory provisions in the Act and Scheme framed by the Government of India.

The High Court thus concluded that the duty drawback or claim for duty drawback is nothing but a claim for refund of duty may be as per the statutory scheme framed by the Government of India or in exercise of statutory powers under the provisions of the Act. Thus, the High Court held that the Settlement Commission has jurisdiction to deal with the question relating to the recovery of drawback erroneously paid by the Revenue.

23.4 CASE LAWS ON SERVICE TAX

1. **Services provided and invoices is-sued before change in effective rate of tax but payment received after-wards– rate of tax would be the one prevailing earlier as provided by Rule 4 (a) (ii) of the Point of Taxation Rules, 2011.**

Delhi Chartered Accountants Society (Regd) v UOI [2013-TIOL-81-HC-DEL-ST]

The taxpayer is an association of Chartered Accountants, registered as a society in Delhi. They filed a writ petition on the following 2 issues:

- (a) Taxable event for the purpose of levy of service tax where the Chartered Accountants rendered services and invoices were issued before April 01, 2012, but the payment is received after April 01, 2012
- (b) Quashing of the Circular No 158/9/2012-ST dated May 08, 2012 and Circular No 154/5/2012-ST dated March 28, 2012

The taxpayer relying on Rule 4(a) (ii) of the Point of Taxation Rules, 2011 (the 'POTR'), contended that the point of taxation shall be the date of issuing of invoice.

The revenue on the contrary relied on the Circular No 158/9/2012-ST dated May 08, 2012 wherein it was clarified that for the 8 specified services mentioned in Rule 7 (including Chartered Accountant services), for invoices issued on or before March 31, 2012, the point of taxation shall be the date on which payment is received or made, as the case may be. Also it relied on Circular No 154/5/2012-ST dated March 28, 2012 wherein it was clarified that if the payment is received or made, on or after April 01, 2012, the service tax needs to be paid at the rate of 12 percent.

The High Court allowed taxpayer's writ petition relying on Rule 4 (a) (ii) of the POTR Rules and held that where the services of Chartered Accountants were actually rendered and the invoice was issued before April 01, 2012, but the payment is received after April 01, 2012, then the date of issuance of invoice shall be deemed to be the date on which the service was rendered. Thus, the rate of tax will be 10 percent and not 12 percent.

High Court also held that since Rule 7 was substituted by a new rule w.e.f. April 01, 2012 which does not apply to services rendered by Chartered Accountants, the applicability of both the Circulars becomes redundant. Therefore, the Circulars being contrary to the Finance Act, 1994 and the POTR were quashed.

2. **Taxable event under the erstwhile service tax regime is the date of providing of taxable service and not the date of receipt of payment.**

CST v Consulting Engineering Services India Pvt Ltd [2013-TIOL-60-HC-DEL-ST]

The issue in consideration before the High Court was which rate would be applicable for services rendered prior to date of rate change in respect of which payments were received after the rate change.

Tribunal relied on the decision given by the Gujarat High Court in the case of Commissioner of Central Excise & Customs v. Reliance Industries Ltd [2010 (19) STR 807 (GUJ)] wherein it was held that

the effective rate of service tax would be based on the date on which the service is provided and not the date of billing and decided the issue in favour of the taxpayer.

Revenue contended that the view taken by the Gujarat High Court is not binding on this Court and placed reliance on the Service Tax Rules, 1994, the Point of Taxation Rules, 2011 along with Section 67A of the Finance Act, 1994.

It was held that since the relevant period here is April, 2003 to September, 2003 and none of the provisions relied upon by Revenue are in effect during the above period therefore, the taxable event has to be considered in the light of provision of the Finance Act, 1994. Accordingly, the date of providing the taxable services is the taxable event and not the date of receipt of payment.

3. Rate of service tax prevailing at time of providing service is relevant under the erstwhile regime, not on the date of receipt of payment – TRU Instruction dated April 28, 2008 clarifying to the contrary quashed.

Vistar Construction Pvt Ltd v UOI [2013-TIOL-73-HC-DEL-ST]

The taxpayers were engaged in rendering works contract services which were taxable at the rate of 2 percent which was enhanced to 4 percent with effect from March 01, 2008. The issue for consideration before the Court was what will be the effective rate of service tax on the works contract services rendered prior to March 01, 2008 for which the payment was received post March 01, 2008.

The revenue relied on TRU Instruction F No 545/6/2007-TRU, dated April 28, 2008 ('TRU Instruction') to contend that the date of receipt of payment by the taxpayers was relevant in determining the correct rate of service tax applicable on the services rendered by the taxpayers and therefore, service tax would be payable at the rate of 4 percent. The TRU Instruction specifically clarified that the service tax was chargeable on receipt basis and on the amount so received for the service provided or to be provided, whether or not services were preformed.

The High Court relied on the Supreme Court judgement in the case of Association of Leasing and Financial Service Companies v UOI [2010 (20) STR 417 (SC)] and its own judgment in the case of Commissioner of Service Tax v Consulting Engineering Services India Pvt Ltd in Service tax Application 76/2012 decided on March 14, 2013. The Court held that since there were no provisions under the law to the contrary during the relevant period, date of rendering the service is the taxable event.

The Court quashed the TRU Instruction and held that services in the present case were taxable at the rate applicable on date of rendering such services i.e. 2 percent.

4. Service tax not applicable on transfer of employees to hotels run by subsidiaries/ associate companies under man-power recruitment or supply agency service.

ITC Ltd v CST [2013-29-STR-387-TRI-DEL]

The taxpayers are owners of several hotels. Some hotels are owned and managed by their subsidiaries/associate companies. The manager/employees of the taxpayers are sent on deputation to hotels owned and managed by subsidiaries/ associate companies and in turn reimbursement is made for actual expenses incurred in relation to such employees without adding any mark-up.

Revenue's contention was that taxpayers are providing taxable services under the category of 'manpower recruitment or supply services'.

Tribunal in the instant case granted stay from recovery of service tax on the ground that taxpayers are not running any man-power recruitment or supply agency. Taxpayers are managing hotels and some employees were sent to other hotels managed by the subsidiaries/ associate companies on deputation and cost was recovered on the basis of actual expenses. Therefore, it cannot be said that the taxpayers are engaged in supply of manpower or as an agency and prima facie case exists in favour of taxpayers.

- 5. Services of transportation of export cargo is performed substantially outside India and thus, qualify as export of service under the erstwhile provisions – taxpayer cannot be made liable to pay service tax on the ground that export cargo was handed over to the airlines in India.**

Sirlankan Airlines v Commissioner of Service Tax, Chennai [2013-29-STR-365-TRI-CHENNAI]

The taxpayers were engaged in the business of transportation of cargo by air. Taxpayers received cargo from their customers in India and transported the same outside India. For providing the aforesaid services, tax-payers charged a fee from its customers and received the same in Indian currency. The revenue authorities demanded service tax from the taxpayers on the services provided by them during the period March 15, 2005 to June 23, 2005 on the ground that services were not export.

On March 15, 2005, Export of Service Rules, 2005 (the 'Export Rules') were introduced and all the taxable services were classified under three baskets namely 'services relating to immovable property', 'performance based services' and 'recipient based services'.

Transportation of goods by air ('TGA') services as provided by taxpayers were classified under second basket i.e. 'performance based services' and accordingly such services were considered as export if they were either wholly or partly performed outside India. In light of Export Rules, Tribunal held that since TGA services involved taking of goods outside India which is a service substantially performed outside India, taxpayers were not liable to pay any tax. The Tribunal rejected the argument of the Revenue that such services cannot qualify as export since the cargo was handed over to the airlines in India.

From June 16, 2005 Exports Rules were amended to include receipt of convertible foreign exchange as a pre condition for a service to qualify as exports. Since the taxpayers were not receiving payment for TGA services in convertible foreign exchange from their clients, they became liable to pay service tax on TGA services provided by them from June 16, 2005. However, exemption to this effect was provided to airlines from July 15, 2005. Thus, for the period June 16, 2005 to July 15, 2005, taxpayers were liable to deposit service tax. The taxpayers started collecting tax from their customers only from June 23, 2005 onwards.

The Tribunal thus held that for a short period from June 16, 2005 to June 23, 2006, there was no provision which waived service tax liability on TGA services provided by the taxpayers and they were liable for payment of service tax on the same. The Tribunal also upheld invocation of extended period of limitation since the taxpayers were aware of the changes in law and knowingly evaded payment of service tax and inability to collect service tax from customers cannot be a ground for pleading bona fide belief. However, the Tribunal waived off the penalty considering the peculiar nature of circumstances.

- 6. Consideration received towards goodwill on transfer of running business by taxpayer to another company is not taxable under Business Auxiliary Services.**

CCE v S S Engineers & Contractors [2013-38-STT-312]

The taxpayers entered into two agreements with their client M/s Dirk India Ltd. ('Dirk India'). One agreement was for transfer of goodwill wherein the consideration was calculated at a rate per ton of output produced by Dirk India. Other agreement was for providing services of collection, delivery and handling of fly ash produced by taxpayers to Dirk India on which taxpayers were paying service tax classifying the same as 'business auxiliary services'.

The revenue authorities sought to levy tax on royalty received by taxpayers for transfer of goodwill by including the same in the value of 'business auxiliary services' on the ground that such income was also towards commission only.

The Tribunal held that there were two separate agreements entered by the respondents - one for transfer of business goodwill and other for collection, delivery and handling of fly ash on which

service tax liability has been discharged. The Tribunal held that by no stretch of imagination, payment of goodwill on transfer of business can come under the category of 'business auxiliary services' thereby rejected the appeal made by the Revenue.

7. Collection of toll charges by the concessionaire under an assignment agreement does not amount to Business Auxiliary Services.

Swarna Tollway Pvt Ltd v CCE, Guntur [2011-5-TMI-192-CESTAT-BANGALORE]

A Concession Agreement was executed between National Highways Authority of India ('NHAI') and a Malaysian company CIDBI on Build, Operate and Transfer ('BOT') basis, wherein NHAI granted to CIDBI ('Primary Concessionaire') the exclusive right, license and authority to implement the project and the concession in respect of the Project Highways i.e. NH-5 and NH-9 in Andhra Pradesh.

Under a separate Assignment Agreement, NHAI agreed to the assignment of concession by CIDBI in favour of Swarna Tollway Pvt Ltd ('taxpayer') pursuant to which tax-payers were deemed to be Concessionaire under the Concession Agreement. Under the said Assignment Agreement, the tax-payers were made responsible for completion of the project and later on collection of appropriate fees from the users of the Project Highways at the prescribed rate.

Revenue authorities contended that CIDBI was only the authorized Concessionaire as per the Concession Agreement and was not entitled to transfer the concession rights allotted to them under the Concession Agreement. Accordingly, taxpayers were collecting toll from users on behalf of CIDBI and were acting in the capacity of an agent of CIDBI. Consequently, Revenue sought to recover service tax on toll charges collected by taxpayers under the taxable category of Business Auxiliary services.

The Tribunal while relying on the various clauses of the aforementioned agreements held that pursuant to the Assignment Agreement (approved by NHAI), taxpayers had stepped into the shoes of CIDBI and were collecting toll in the capacity of 'Concessionaire' and not as an agent of CIDBI. Hence, taxpayers were not liable to deposit service tax on toll charges under Business Auxiliary services and appeal was allowed in the favour of taxpayers.

8. Activity of providing transportation from one of its establishments to another establishment for facilitating provision of ropeway services does not fall within the ambit of tour operator services.

CCE, Meerut-I v Usha Breco Ltd Hardwar (Uttarkhand) [2013-TIOL-20-HC-UKHAND-ST]

The taxpayer provides ropeway services between its two establishments, both situated in Haridwar, one at Mansa Devi Temple and other at Chandi Devi Temple upon payment of fees which is not chargeable to service tax. For facilitating such service, the taxpayer also provides transportation of passengers between the two establishments upon payment of a separate fee.

Revenue contended that such transportation services would fall under the scope of 'tour operator services' leviable to service tax.

The Tribunal held that the taxpayer cannot be said to be a 'tour operator' because the service of providing transportation is not his main activity and is only ancillary to the main business of providing ropeway service. Hence, the Appeal was dismissed.

9. Stay granted in relation to renting of immovable property on the view that meaning of term "renting" will not cover long term leasing. Further, developing a township according to a plan conducive to the society at large has to be prima facie considered as a sovereign function and not a commercial activity.

Greater Noida Industrial Development Authority v CCE, Noida [2013-TIOL-44-CESTAT-DEL]

The taxpayer, Greater Noida Industrial Development Authority ('GNIDA') is a body established under Uttar Pradesh Industrial Development Act, 1976 which empowers GNIDA to allocate and transfer

whether by way of lease or sale or other-wise plots of land for industrial, commercial and residential purposes. The taxpayers charge both onetime lease charges at the time of initial handing over of the land and also annual fees charges at different rates for land given for different purposes.

Service tax was sought to be recovered on the lease charges received under the category of 'renting of immovable property'.

The taxpayers contended that they are undertaking statutory sovereign functions and not a service and that long term lease is like a 'sale' not akin to renting, taxable under the Finance Act, 1994 (the 'Act') which only includes short term renting.

Opposing the taxpayers, the Revenue contended that the all the properties leased out by taxpayers continue to belong to them. The property is given on lease basis and not on free hold basis. Further, the fact that taxpayers also collect annual rent in addition to onetime payment shows that property is not sold at all.

The Tribunal held that with new types of 'transfer of rights' emerging, the ordinary meaning of 'renting' will not cover long term leasing. The term 'leasing' used in the inclusive definition of renting under the Act does not cover long term leasing where a property is given to a person with rights to transfer, assign and mortgage the rights. Such transfers are more akin to sale and less to renting of property.

Further, developing a township according to a plan conducive to the society at large has to be prima facie considered as a sovereign function and not a commercial activity of the Government. Accordingly, based on the prima facie view that the taxpayer is not liable for payment of service tax, stay was granted.
