Disclaimer: The contents of this subject / paper shall be reviewed every 6 months and shall be incorporated accordingly.

Content

TAX MANAGEMENT & PRACTICE

Amendments brought in by the Finance Act, 2013 (Indirect Taxes)

A.1 - A.9

Amendments brought in by the Finance Act, 2013 (Direct Taxes)

A.10 - A.36

Study Note 1 : Canons of Taxation

1.1	Basis for Taxation	1.1
1.2	Direct Taxes and Indirect Taxes	1.2
1.3	Constitutional Validity	1.4
1.4	Administration and Relevant Procedures	1.4

Study Note 2 : Central Excise Act, 1944

2.1	Constitutional Background	2.1
2.2	Laws Relating to Central Excise	2.2
2.3	Central Excise Act, 1944	2.3
2.4	Duties Leviable	2.3
2.5	Levy, Collection & Exemptions from Excise Duty	2.3
2.6	Goods	2.6
2.7	Excisability of Plant & Machinery, Waste and Scrap	2.10
2.8	Manufacture	2.11
2.9	Manufacturer	2.15
2.10	Classification of Goods	2.16
2.11	Valuation of Goods	2.31
2.12	Valuation in case of Job Work –Rule 10A	2.44
2.13	Some Critical Issues in Central Excise	2.46
2.14	Assessable Value under Section 4	2.52
2.15	Value Based on Retail Sale Price	2.53
2.16	MRP Based Valuation	2.54
2.17	Assessment under Central Excise Law	2.66
2.18	Procedural Aspects under Central Excise Duty	2.71
2.19	Refund & Other Important Provisions	2.73
2.20	Other Procedures in Central Excise	2.77
2.21	Central Excise Audit and Special Audit under Section 14A and 14AA	2.82
2.22	Export Benefits and Procedures	2.88
2.23	Excise on Small Scale Industries	2.91
2.24	Exemption under Section 5A	2.100
2.25	Demands and Penalties	2.102
2.26	Power of Officer	2.111
2.27	Appeals under Excise	2.112

Study Note 3 : Cenvat Credit

3.1	Background of Cenvat Credit	3.1
3.2	Highlights of Cenvat Credit Scheme	3.2
3.3	Utilization of Cenvat Credit	3.14
3.4	Reversal of Cenvat Credit	3.15
3.5	Refund of Cenvat Credit	3.18
3.6	Obligation of a manufacturer or Producer of final Products and a provider of taxable services	3.20
3.7	Input service Distributor	3.23
3.8	Documents and Accounts	3.23
3.9	Other Provisions	3.25

Study Note 4 : Customs Law, 1962

Section A

4.1	Introduction	4.1
4.2	Type of Customs Duties	4.13
4.3	Valuation in Customs	4.22
4.4	Methods of Valuation	4.28
4.5	Export Goods- Valuation for Assessment	4.45
4.6	Self Assessment on basis of 'Risk Management System' (RMS)	4.45
4.7	Procedures for Import	4.46
4.8	Procedures for Export	4.50
4.9	Transit and Transhipment of Goods	4.51
4.10	Exemptions and Remission	4.52
4.11	Refund of Customs Duty	4.55
4.12	Appointment of Officers of Customs	4.58
4.13	Appointment of Customs Station, Warehousing Stations etc.	4.59
4.14	Central Government Power of Prohibition, Detection of Illegal Imported and Export Goods	4.60
4.15	Warehousing in Customs	4.62
4.16	Provisional Assessment of Duty under Section 18	4.75
4.17	Baggage, Courier and Import and Export through Post	4.76
4.18	Drawback	4.89
4.19	Other provisions in Customs	4.93
4.20	Project Imports	4.94
4.21	Offences, Power and Penalties under Customs	4.98

Section B

4.22	Anti-Dumping Duty-An Overview	4.101

Study Note 5 : Exim Policy

5.1	Export Promotion Schemes	5.1
5.2	Duty Drawback	5.4
5.3	Export Oriented Units (EOU)	5.7
5.4	Special Economic Zones Act, 2005 (SEZ)	5.21

10.5	Certain Special Cases	10.6

Study Note 11 : Return of Income & Assessment Procedure

11.1	Return of Income	11.1
11.2	Annual Information Return under Section 285BA	11.16
11.3	Assessment Procedure	11.18

Study Note 12 : Search and Seizure

12.1	Search and Seizure	12.1
12.2	Survey	12.15

Study Note 13 : Clubbing of Income

13.1	Clubbing of Income	13.1

Study Note 14 : Set off or Carry Forward and Set off of Losses

14.1	Introduction	14.1
14.2	Set off of loss in the Same Year	14.1
14.3	Carry forward and set off of loss in Subsequent Year	14.3

Study Note 15 : Deduction in Computing Total Income

15.1	Introduction	15.1
15.2	Deductions from Gross Total Income	15.2

Study Note 16 : Settlement of Cases

16.1	Settlement of Cases under Section 245A to 245L	16.1
16.2	Advance Ruling	16.10

Study Note 17 : Grievances Redressal Procedure

17.1	Grievances Redressal Procedure	17.1
17.2	Rectification	17.1
17.3	Appeal and Appellate Hierarchy	17.4
17.4	Revision	17.20
17.5	General Provision	17.25

Study Note 18 : Penalty & Prosecution

18.1	Penalties and Prosecution for defaults	18.1

Study Note 19 : Tax Administration

19.1	Tax Administration	19.1

Study Note 20 : Liability for Special Cases

20.1	Liability for Special Cases	20.1

Study Note 21 : Wealth Tax

21.1	Introduction	21.1
21.2	Valuation of Assets	21.14
21.3	Other Issues relating to Wealth Tax	21.21
21.4	Return of Wealth and Assessment	21.21

Study Note 22 : Taxation of International Transactions

22.1	International Taxation and Transfer Pricing – Introduction	22.1
22.2	International Transaction	22.1
22.3	Arm's Length Principle	22.2
22.4	Transfer Pricing – Classification of Methods	22.3
22.5	Steps in the process of computing Arm's length price – Transfer Pricing (TP) Study	22.3
22.6	Transfer Pricing issues	22.6
22.7	Cross-border transactions	22.10
22.8	Classification of “Cross Border Services”	22.14
22.9	Associated Enterprise	22.20

Study Note 23 : Case Laws

23.1	Case Laws on Direct Tax	23.1
23.2	Case Laws on Central Excise	23.123
23.3	Case Laws on Customs	23.171
23.4	Case Laws on Service Tax	23.190

AMENDMENTS BROUGHT IN BY THE FINANCE ACT, 2013

AMENDMENTS MADE IN INDIRECT TAXES

CHANGES IN CUSTOMS ACT

- Provided also that where the amount of refund claimed is less than rupees one hundred, the same shall not be refunded."

3. No demand for amount Below ₹ 100

- In Section 28 Proviso is added
- "Provided that the proper officer shall not serve such show cause notice, where the amount involved is less than rupees one hundred."

4. Reference to Section 28(4) Notice as well in Sec. 28BA

- Section 28BA – Provisional attachment to protect revenue in certain cases –
- Reference in that section was only to notices issued under section 28(1).
- Amendment is made to include notices issued under sec. 28(4) as well.

5. Activity redefined for Advance Ruling

- In Section 28E(a) the term activity was defined as ""activity" means import or export".
- It is now amended as – "activity" means import or export and includes any new business of import or export proposed to be undertaken by the existing importer or exporter, as the case may be;

6. Amendment to Section 29

- Arrival vessel or aircraft in India at any place other than customs port or airport as may be called or landed if permitted by the Board.

7. Filing of e-manifest

- Section 30/41 is amended requiring to file import/export manifest filing electronically
- If not feasible then commissioner may permit filing in any other manner.

8. Section 47(2) Amended

- Section 47(2) is amended to reduce the time period available for payment of duty after return of the BOE from 5 days to 2 days.

9. Storage in public warehouse pending clearance

- No time limit was existing. Now it section 49 is amended to put 30 days time limit, which can be extended by Commr. of Customs 30 days at a time.

10. Re-export of warehoused goods

- Section 69(1)(a) is amended to permit re-export of warehoused goods even by post.

11. Section 104(6) substituted

- Earlier it said the offences under Customs Act, was bailable.
- Now – Offence punishable u/s 135 relating to
 - (a) evasion or attempted evasion of duty exceeding fifty lakh rupees; or
 - (b) prohibited goods notified under section 11 which are also notified under sub-clause (C) of clause (i) of sub-section (1) of section 135; or
 - (c) import or export of any goods which have not been declared in accordance with the provisions of this Act and the market price of which exceeds one crore rupees; or
 - (d) fraudulently availing of or attempt to avail of drawback or any exemption from duty provided under this Act, if the amount of drawback or exemption from duty exceeds fifty lakh rupees,
- Is made non-bailable – Other offence are bailable

12. Consequential changes in Sec. 135

- The amount of ₹30 Lakhs which were mentioned earlier in section 135 is increased to ₹50 Lakhs pertaining to
 - evasion or attempted evasion of duty
 - fraudulently availing of or attempt to avail of drawback or any exemption from duty

13. Stay by Tribunal – Sec. 129B(2A)

- Earlier it was set out that stay order would get vacated after expiry of 180 days of such order.
- Now it is provided that on application being made by the appellant it can be extended for a further period of 185 days. If the appeal is not disposed off within 365 days from the date of order, stay stands vacated.

14. Single member bench scope increased

- Earlier single member bench of tribunal was permitted to hear cases upto monetary limit of ₹10 Lakhs.
- The same is now increased to ₹ 50 Lakhs.

15. Recovery method added – Sec. 142

- In addition to existing methods of recovery set out in Sec. 142, recovery is permitted by issue of notice to
 - Any person from whom money is due or may become due – to person who is due.

- Any person who holds or may subsequently hold money for or on account of - person who is due.
- Such persons should pay to Govt. directly.
- If not he is deemed to be defaulter.

16. Sec. 143A Omitted

- 7210 - **Flat-rolled products of iron or non- alloy steel, of a width of 600 mm or more, clad, plated or coated**
- 7212 - **Flat-rolled products of iron or non- alloy steel, of a width of less than 600 mm, clad, plated or coated**

CHANGES IN CENTRAL EXCISE

20. Limit increased for offences liable for higher punishment

- In case of offences set out at Section 9(1) relating to any excisable goods, where the duty leviable thereon exceeds **Fifty lakh** of rupees, is punishable with imprisonment for a term which may extend to seven years and with fine:
- Earlier it was **Thirty Lakh**

21. Amendment to Sec. 9A

- Section 9A(1) is replaced with -
 - "(1) Notwithstanding anything contained in the Code of Criminal Procedure, 1973, offences under section 9, except the offences referred to in sub-section (1A), shall be non-cognizable within the meaning of that Code.
 - (1A) The offences relating to excisable goods where the duty leviable thereon under this Act exceeds fifty lakh rupees and punishable under clause (b) or clause (bbbbb) of sub-section (1) of section 9, shall be cognizable and non-bailable."

22. Section 11 – recovery amended

- Similar to Section 142 of Customs Act.

23. Insertion of sub-section 7A in Sec. 11A

- Periodical SCN merely by way of statement containing details of duty

24. Amendment in Sec. 11DDA – Provisional attachment of property

- Reference to Sub-section (1) of 11A is omitted.
- Correction

25. Amendment to Sec. 20 & 21

- Sec. 20 - Procedure to be followed by officer in charge of police station.
- Sec. 21 – Central Excise officer has also power similar to officer incharge of police station.
- These sections are amended to admit to bail in cases where it is non-cognizable.

26. Activity redefined for Advance Ruling

- In Section 23E(a) the term activity was defined as ““activity” means production or manufacture of goods”.
- It is now amended as
 - “activity” means production or manufacture of goods and includes any new business of production or manufacture proposed to be undertaken by the existing producer or manufacturer, as the case may be;

27. Other changes in Advance Ruling

- Sec. 23C (1)(e) is amended
 - It was earlier covering only credit of duty,
 - It is now amended to include credit of input services as well.
- Sec. 23F – error to reference to 28-I was changed to 23D

 - Medicaments exclusively used in Ayurvedic, Unani, Siddha, Homoeopathic or Bio-Chemic systems, manufactured as per formulae in authoritative books or Pharmacopoeia. Such medicaments sold under a brand name.

CHANGES – SERVICE TAX

31. Sec. 65B - Definitions

- Changes in Definition – Section 65B
- (11) (i) a course run by an industrial training institute or an industrial training centre affiliated to the National Council for Vocational Training **or State Council for Vocational Training** offering courses in designated trades notified under the Apprentices Act, 1961;
- (iii) **a course run by an institute affiliated to the National Skill Development Corporation set up by the Government of India; - omitted**

32. Sec. 65B - Definitions

- 65B(40) – Definition of Process amounting to manufacture or production of goods –
- “the Medicinal and Toilet Preparations (Excise Duties) Act, 1955” was added - Unintended omission earlier corrected – whether retrospective?.

33. Explanation to Section 66B

- Explanation provided in section 66B was omitted
- But in the books there was no such explanations.

34. New Sec. 66BA introduced

- (1) For the purpose of levy and collection of service tax, any reference to section 66 in the Finance Act, 1994 or any other Act for the time being in force, shall be construed as reference to section 66B thereof.
- (2) The provisions of this section shall be deemed to have come into force on the 1st day of July, 2012"
 - To take care of error in amendments made.

35. Sec. 66D - Negative List

“(i) agricultural operations directly related to production of any agricultural produce including cultivation, harvesting, threshing, plant protection or seed testing;”

- In services relating to agriculture among other thing, only testing of Seed was considered as non-taxable.
- Now by omitting the word 'seed' it is made to cover all types of testing .

36. Saving demand for normal period – insertion of section 73(2A)

- Demands are –
 - For normal period (18 months from relevant date)
 - For extended period (5 years from relevant date)
- If Notice is issued under 5 years, the demand for normal period would not survive – S.C. Decision in the case of Alcobex Metals
- Now amend the provision to save the demand for normal period in such cases.

37. Penalty for non-registration

- Sec. 77(1)(a) – ₹ 10000/- or ₹ 200/day whichever is higher no outer limit
- It is amend to say upto ₹ 10000/- thereby fixing maximum limit.
- In our view this is not applicable for failure to amend, instead it is to register only.

38. Penalty on company officers – insertion of section 78A

- Penalty upto ₹ 1 Lakh
- Applicable to -
 - Any Director; Manager ; Secretary; Other officers
- Who at the time of specified contravention was
 - in charge of and responsible for the conduct of business of company

₹2,00,001 to ₹5,00,000	10%
₹5,00,001 to ₹10,00,000	20%
Above ₹10,00,000	30%

II. In the case of every **individual**, being a **resident in India**, who is of the **age of 60 years or more but less than 80 years** at any time during the previous year.

Upto ₹2,50,000	Nil
₹2,50,001 to ₹5,00,000	10%
₹5,00,001 to ₹10,00,000	20%
Above ₹10,00,000	30%

III. In the case of every **individual**, being a **resident in India**, who is of the **age** of 80 years or more at any time during the previous year.

Upto ₹5,00,000	Nil
₹5,00,001 to ₹10,00,000	20%
Above ₹10,00,000	30%

Surcharge: The amount of income-tax computed in accordance with the above rates and special rates specified in section 111A (relating to short term capital gain on shares sold through recognised stock exchange) and section 112 (relating to long-term capital gain) shall be increased by a surcharge at the rate of 10% of such income-tax in case of a person having a total income exceeding ₹1 crore.

Marginal relief: The total amount payable as income-tax and surcharge on total income exceeding ₹1 crore shall not exceed the total amount payable as income-tax on a total income of ₹1 crore by more than the amount of income that exceeds ₹1 crore.

Cess: 'Education Cess' @2%, and 'Secondary and Higher Education Cess (SHEC)' @1% on income tax (inclusive of surcharge, if applicable) shall be chargeable.

(B) In the case of every co-operative society

(1) where the total income does not exceed ₹10,000	10% of the total income;
(2) where the total income exceeds ₹10,000 but does not exceed ₹20,000	₹1,000 <i>plus</i> 20% of the amount by which the total income exceeds ₹10,000;
(3) where the total income exceeds ₹20,000	₹3,000 <i>plus</i> 30% of the amount by which the total income exceeds ₹20,000.

Surcharge: The amount of income-tax shall be increased by a surcharge at the rate of 10% of such income-tax in case of a co-operative society having a total income exceeding ₹1 crore.

Marginal relief: The total amount payable as income-tax and surcharge on total income exceeding ₹1 crore shall not exceed the total amount payable as income-tax on a total income of ₹1 crore by more than the amount of income that exceeds ₹1 crore.

Cess: 'Education Cess' @ 2% and SHEC @ 1% on income tax (inclusive of surcharge, if applicable) shall be chargeable.

(C) In case of any firm (including limited liability partnership) — 30%.

Surcharge: The amount of income-tax shall be increased by a surcharge at the rate of 10% of such income-tax in case of a firm having a total income exceeding ₹1 crore.

Marginal relief: The total amount payable as income-tax and surcharge on total income exceeding ₹1 crore shall not exceed the total amount payable as income-tax on a total income of ₹1 crore by more than the amount of income that exceeds ₹1 crore.

Cess: 'Education Cess' @ 2% and SHEC @ 1% on income tax (inclusive of surcharge, if applicable) shall be chargeable.

(D) In the case of a company

(i) For domestic companies: 30%,

Surcharge: Where the total income of a domestic company exceeds ₹1 crore but does not exceed ₹10 crore a surcharge of 5% of tax shall be levied.

Where the total income of the domestic company exceeds ₹10 crore a surcharge at the rate of 10% of tax shall be levied.

Marginal relief: However, the total amount payable as income-tax and surcharge on total income exceeding ₹1 crore but not exceeding ₹10 crore, shall not exceed the total amount payable as income-tax on a total income of ₹1 crore, by more than the amount of income that exceeds ₹1 crore.

Further, the total amount payable as income-tax and surcharge on total income exceeding ₹10 crore, shall not exceed the total amount payable as income-tax and surcharge on a total income of ₹10 crore, by more than the amount of income that exceeds ₹10 crore.

Cess: 'Education Cess' @ 2%, and 'Secondary and Higher Education Cess' @1% on income tax (inclusive of surcharge if applicable) shall be chargeable.

(ii) For foreign company: 40%.

Surcharge: Where the total income of a company other than a domestic company exceeds ₹1 crore but does not exceed ₹10 crore a surcharge of 2% of tax shall be levied.

Where the total income of such company exceeds ₹10 crore a surcharge at the rate of 5% of tax shall be levied.

Marginal relief: However, the total amount payable as income-tax and surcharge on total income exceeding ₹1 crore but not exceeding ₹10 crore, shall not exceed the total amount payable as income-tax on a total income of ₹1 crore, by more than the amount of income that exceeds ₹1 crore.

Further, the total amount payable as income-tax and surcharge on total income exceeding ₹10 crore, shall not exceed the total amount payable as income-tax and surcharge on a total income of ₹10 crore, by more than the amount of income that exceeds ₹10 crore.

Cess: 'Education Cess' @ 2%, and 'Secondary and Higher Education Cess' @1% on income tax (inclusive of surcharge if applicable) shall be chargeable.

AMENDMENTS RELATING TO DEFINITIONS

2. Amendment in the meaning of land in definition of agricultural income [Section 2(1A)] [W.e.f. A.Y. 2014-15]

The provision contained in clause (1A) of the section 2 defines the term "agricultural income". Sub-clause (c) of the said clause (1A) includes any income derived from any building on, or in the immediate vicinity of the land, and is used as a dwelling house, store house or other out-building as required by the receiver of the rent or revenue or the cultivator, in connection with such land, within the definition of "agricultural income". Clause (ii) of proviso to sub-clause (c) provides that where the land is not assessed by land revenue or subject to a local rate, it should not be situated within the areas as specified in item (A) or item (B) of clause (ii) of the proviso, to qualify income derived from any such building as agricultural income.

The Act has amended item (B) of clause (ii) of the proviso to sub-clause (c) of clause (1A) of section 2 so as to provide that if the land is situated in any area within the distance, measured aerially,—

- (i) not being more than 2 kilometers, from the local limits of any municipality or cantonment board referred to in item (A) and which has a population of more than 10,000 but not exceeding 1,00,000; or
- (ii) not being more than 6 kilometers, from the local limits of any municipality or cantonment board referred to in item (A) and which has a population of more than 1,00,000 but not exceeding 10,00,000; or
- (iii) not being more than 8 kilometers, from the local limits of any municipality or cantonment board referred to in item (A) and which has a population of more than 10,00,000,

the income derived from such building on, or in the immediate vicinity of such land will not be agricultural income.

For the purposes of clause (ii) of the proviso to sub-clause (c), "population" means the population according to the last preceding census of which the relevant figures have been published before the first day of the previous year. [Explanation 4 to section 2(1A)].

3. Amendment in the definition of Capital Asset [Section 2(1A) and section 2(14)] [W.e.f. A.Y. 2014-15]

The existing provisions contained section 2(14) of the Income-tax Act define the term "capital asset" as property of any kind held by an assessee, whether or not connected with his business or profession. Certain categories of properties including agricultural land have been excluded from this definition. Section 2(14) (iii) provides that—

- (a) agricultural land situated in any area within the jurisdiction of a municipality or cantonment board having population of not less than ten thousand according to the last preceding census of which relevant figures have been published before the 1st day of the previous year, or
- (b) agricultural land situated in any area within such distance not exceeding eight kilometers from the local limits of any municipality or cantonment board, as notified by the Central Government having regard to the extent and scope of urbanization and other relevant factors,

forms part of capital asset.

The Act has amended the above item (a) as under:

The words "according to the last preceding census of which relevant figures have been published before the 1st day of the previous year" shall be omitted. Instead of this, the expression "population" has been defined by inserting an *Explanation* to this clause.

The Act has also amended the above item (b) of section 2(14)(iii) so as to provide that the following land situated in any area within the distance, measured aerially (shortest aerial distance) shall form part of capital asset,—

- (I) any land situated not being more than two kilometers, from the local limits of any municipality or cantonment board referred to in item (a) and which has a population of more than 10,000 but not exceeding 1,00,000; or
- (II) any land situated not being more than six kilometers, from the local limits of any municipality or cantonment board referred to in item (a) and which has a population of more than 1,00,000 but not exceeding 10,00,000; or
- (III) any land situated not being more than eight kilometers, from the local limits of any municipality or cantonment board referred to in item (a) and which has a population of more than 10,00,000.

Further, the Act has also defined the expression “population” both for items (a) and (b) above to mean population according to the last preceding census of which the relevant figures have been published before the first day of the previous year.

Similar amendments have also been made in section 2(1A) of the Income-tax Act, 1961 relating to the definition of “agricultural income” and in respect of the definition of “urban land” in the Wealth-tax Act, 1957.

AMENDMENTS RELATING TO INCOME EXEMPT FROM TAX

4. Raising the limit of percentage of eligible premium for life insurance policies of persons with disability or specified disease [Section 10(10D)] [W.e.f. A.Y. 2014-15]

The Act has provided that any sum including the sum allocated by way of bonus received under an insurance policy issued on or after 01.04.2013 for the insurance on the life of any person who is—

- (i) a person with disability or a person with severe disability as referred to in section 80U, or
- (ii) suffering from disease or ailment as specified in the rules made under section 80DDB,

shall be exempt under section 10(10D) if the premium payable for any of the years during the term of the policy does not exceed 15% of the actual capital sum assured instead of 10% in case of others.

For policy issued on or after 1.4.2012 but before 1.4.2013 the exemption under section 10(10D) in the case of above persons referred to in 80DD or 80U shall like others, be allowed only when the sum payable as premium does not exceed 10% of actual capital sum assured.

5. Amendment relating to “Keyman Insurance Policy” [Section 10(10D)] [W.e.f. A.Y. 2014-15]

The existing provisions of section 10(10D), *inter alia*, exempt any sum received under a life insurance policy other than a keyman insurance policy.

Explanation 1 to the said section 10(10D) defines a keyman insurance policy to mean a life insurance policy taken by a person on the life of another person who is or was the employee of the first-mentioned person or is or was connected in any manner whatsoever with the business of the first-mentioned person.

It has been noticed that the policies taken as keyman insurance policy are being assigned to the keyman before its maturity. The keyman pays the remaining premium on the policy and claims the sum received under the policy as exempt on the ground that the policy is no longer a keyman insurance policy. Thus, the exemption under section 10(10D) is being claimed for policies which were originally keyman insurance policies but during the term these were assigned to some other person. The Courts have also noticed this loophole in law.

With a view to plug the loophole and check such practices to avoid payment of taxes, the Act has amended Explanation 1 to section 10(10D) to provide that a keyman insurance policy which has been assigned to any person during its term, with or without consideration, shall continue to be treated as a keyman insurance policy and hence maturity amount shall not be exempt under section 10(10D).

6. Exemption to income of a securitisation trust [Section 10(23DA)] [w.e.f. A.Y. 2014-15]

The Act has provided for exemption in respect of any income of a securitisation trust from the activity of securitisation.

Meaning of securitisation: "Securitisation" shall have the same meaning as assigned to it,—

- (i) in regulation 2(1)(r) of the Securities and Exchange Board of India (Public Offer and Listing of Securitised Debt Instruments) Regulations, 2008 made under the Securities and Exchange Board of India Act, 1992 and the Securities Contracts (Regulation) Act, 1956; or
- (ii) under the guidelines on securitisation of standard assets issued by the Reserve Bank of India.

Meaning of securitisation trust. "Securitisation Trust" shall have the meaning assigned to it in the Explanation below section 115TC.

As per Explanation to section 115TC, "Securitisation Trust" means a trust, being a—

- (i) "Special purpose distinct entity" as defined in regulation 2(1)(u) of the Securities and Exchange Board of India (Public Offer and Listing of Securitised Debt Instruments Regulations, 2008 made under the Securities and Exchange Board of India Act, 1992 and the Securities Contracts (Regulation) Act, 1956, and regulated under the said regulations; or
- (ii) "Special Purpose Vehicle" as defined in, and regulated by, the guidelines on securitisation of standard assets issued by the Reserve Bank of India.

7. Exemption to income of Investor Protection Fund of depositories [Section 10(23ED)] [W.e.f. A.Y. 2014-15]

Under the provisions of SEBI (Depositories and Participants) Regulations, 1996, as amended in 2012, the depositories are mandatorily required to set up an Investor Protection Fund.

Under the existing provisions, section 10(23EA) provides that income by way of contributions from a recognised stock exchange received by an Investor Protection Fund set up by the recognised stock exchange shall be exempt from taxation.

On similar lines, the Act has provided that income, by way of contribution from a depository, of the Investor Protection Fund set up by the depository in accordance with the regulations prescribed by SEBI will not be included while computing the total income subject to same conditions as are applicable in respect of exemption to an Investor Protection Fund set up by recognised stock exchanges.

However, where any amount standing to the credit of the fund and not charged to income-tax during any previous year is shared wholly or partly with a depository, the whole of the amount so shared shall be deemed to be the income of the previous year in which such amount is so shared.

8. Pass through Status to certain Alternative Investment Funds [Section 10(23FB)] [W.r.e.f. A.Y. 2013-14]

Existing provisions of section 10(23FB) of the Income-tax Act provide that any income of a Venture Capital Company (VCC) or Venture Capital Fund (VCF) from investment in a Venture Capital Undertaking (VCU) shall be exempt from taxation. Section 115U of the Income-tax Act provides that income accruing or arising or received by a person out of investment made in a VCC or VCF shall be taxable in the same manner as if the person had made direct investment in the VCU.

These sections provide a tax pass through status (i.e. income is taxable in the hands of investors instead of VCF/VCC) only to the funds which satisfy the investment and other conditions as are provided in SEBI (Venture Capital Fund) Regulations, 1996. Further the pass through status is available only in respect of income which arises to the fund from investment in VCU, being a company which satisfies the conditions provided in SEBI (Venture Capital Fund) Regulations, 1996.

The SEBI (Alternative Investment Funds) Regulations, 2012 (AIF regulations) have replaced the SEBI (Venture Capital Fund) Regulations, 1996 (VCF regulations) from 21st May, 2012.

In order to provide benefit of pass through to similar venture capital funds as are registered under new regulations and subject to same conditions of investment restrictions in the context of investment in a

venture capital undertaking, the Act has substituted the existing Explanation 1 to section 10(23F) by the following Explanation:

- (a) "venture capital company" means a company which—
 - (A) has been granted a certificate of registration, before 21.5.2012, as a Venture Capital Fund and is regulated under the Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996 (hereinafter referred to as the Venture Capital Funds Regulations) made under the Securities and Exchange Board of India Act, 1992; or
 - (B) has been granted a certificate of registration as Venture Capital Fund as a sub-category of Category I Alternative Investment Fund and is regulated under the Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012 (hereinafter referred to as the Alternative Investment Funds Regulations) made under the Securities and Exchange Board of India Act, 1992, and which fulfils the following conditions, namely:—
 - (i) it is not listed on a recognised stock exchange;
 - (ii) it has invested not less than two-thirds of its investible funds in unlisted equity shares or equity linked instruments of venture capital undertaking; and
 - (iii) it has not invested in any venture capital undertaking in which its director or a substantial shareholder (being a beneficial owner of equity shares exceeding ten per cent of its equity share capital) holds, either individually or collectively, equity shares in excess of fifteen per cent of the paid-up equity share capital of such venture capital undertaking;
- (b) "venture capital fund" means a fund—
 - (A) operating under a trust deed registered under the provisions of the Registration Act, 1908, which—
 - (I) has been granted a certificate of registration, before 21.5.2012, as a Venture Capital Fund and is regulated under the Venture Capital Funds Regulations; or
 - (II) has been granted a certificate of registration as Venture Capital Fund as a sub-category of Category I Alternative Investment Fund under the Alternative Investment Funds Regulations and which fulfils the following conditions, namely:—
 - (i) it has invested not less than two-thirds of its investible funds in unlisted equity shares or equity linked instruments of venture capital undertaking;
 - (ii) it has not invested in any venture capital undertaking in which its trustee or the settler holds, either individually or collectively, equity shares in excess of fifteen per cent of the paid-up equity share capital of such venture capital undertaking; and
 - (iii) the units, if any, issued by it are not listed in any recognised stock exchange; or
 - (B) operating as a venture capital scheme made by the Unit Trust of India established under the Unit Trust of India Act, 1963;
- (c) "venture capital undertaking" means—
 - (i) a venture capital undertaking as defined in clause (n) of regulation 2 of the Venture Capital Funds Regulations; or
 - (ii) a venture capital undertaking as defined in clause (aa) of sub-regulation (1) of regulation 2 of the Alternative Investment Funds Regulations.

9. Exemption to the shareholder on account of buy back of shares [Section 10(34A)] [W.e.f.A.Y. 2014-15]

See point 35.

10. Exemption of distributed income received from a Securitisation Trust by an investor [Section 10(35A)]

See point 38.

11. Exemption in respect of income received by certain foreign companies [Section 10(48)] [W.e.f. A.Y. 2014-15]

As per section 10(48), income of a notified foreign company from the sale of crude oil to any person in India in Indian currency is exempt if certain conditions are satisfied. Besides the sale of crude oil, the Finance Act, 2013 has extended the exemption to:

- (a) any other goods; or
- (b) rendering of services

as may be notified by the Central Government in this behalf.

12. Exemption to National Financial Holdings Company Limited [Section 10(49)] [W.e.f. A.Y. 2013-14]

The Specified Undertaking of Unit Trust of India (SUUTI) was created vide the Unit Trust of India (Transfer of Undertaking and Repeal) Act, 2002 as the successor of Unit Trust of India (UTI). Exemption from Income-tax was available to SUUTI in respect of its income up to 31.3.2014.

SUUTI has been wound up and is succeeded by a new company wholly owned by the Central Government. It has been incorporated on 7.6.2012 as National Financial Holdings Company Limited (NFHCL).

In order to provide the exemption on the lines of SUUTI to NFHCL, the Act has amended section 10 to grant exemption to National Financial Holdings Company Limited in respect of its income accruing, arising or received on or before 31.03.2014.

AMENDMENTS RELATING TO INCOME FROM BUSINESS AND PROFESSION

13. Incentive for acquisition and installation of new plant or machinery by manufacturing company [Section 32AC] [W.e.f. A.Y. 2014-15]

(A) Manufacturing company eligible for deduction @ 15% of actual cost of new asset being eligible plant and machinery [Section 32AC(1)]

In order to encourage substantial investment in plant or machinery, the Act has inserted a new section 32AC in the Income-tax Act to provide that where an assessee, being a company,—

- (I) is engaged in the business of manufacture of an article or thing; and
- (II) acquires and installs new assets (eligible plant or machinery) during the period beginning from 1.4.2013 and ending on 31.3.2015 and the aggregate amount of actual cost of such new assets exceeds ₹100 crores, then, such company shall be allowed—
 - (i) for the assessment year 2014-15, a deduction of 15% of aggregate amount of actual cost of new assets acquired and installed during the financial year 2013-14, if the aggregate amount of actual cost of such assets exceeds ₹100 crore;
 - (ii) for the assessment year 2015-16, a deduction of 15% of aggregate amount of actual cost of new assets, acquired and installed during the period beginning on 1.4.2013 and ending on 31.3.2015, as reduced by the deduction allowed, if any, for assessment year 2014-15.

(B) Meaning of new asset [Section 35AC(4)]

New assets means any new plant or machinery (other than ship or aircraft) but does not include—

- (i) any plant or machinery which before its installation by the assessee was used either within or outside India by any other person;
- (ii) any plant or machinery installed in any office premises or any residential accommodation, including accommodation in the nature of a guest house;
- (iii) any office appliances including computers or computer software;
- (iv) any vehicle;
- (v) ship or aircraft; or

- (vi) any plant or machinery, the whole of the actual cost of which is allowed as deduction (whether by way of depreciation or otherwise) in computing the income chargeable under the head "Profits and gains of business or profession" of any previous year.

The above "new asset" acquired and installed should not to be sold or otherwise transferred within a period of 5 years from the date of its installation except in connection with amalgamation or demerger.

(C) Consequences if the new asset acquired and installed is transferred within a period of 5 years from the date of its installation [Section 32AC(2)]

If any new asset acquired and installed by the assessee is sold or otherwise transferred except in connection with the amalgamation or demerger, within a period of 5 years from the date of its installation, the consequence of the same shall be as under:

The amount of deduction allowed under section 32AC(1) in respect of such new asset shall be deemed to be income chargeable under the head profit and gains of business and profession of the previous year in which new asset is sold or otherwise transferred.

In addition to the above, if any capital gain arises under section 50 on account of transfer of such new asset, that too shall become taxable in that previous year.

(D) Consequences if amalgamated company or resulting company transfers such assets within 5 years from the date of installation by the amalgamating company or demerged company [Section 32AC(3)]

If after amalgamation or demerger, the amalgamated company or the resulting company, as the case may be, sells or transfers any such asset within 5 years from the date of its installation by the amalgamating company or the demerged company, then the amalgamated company or resulting company shall be taxed in the same manner as it would have been taxed in the hands of the amalgamating or demerged company, as the case may be.

14. Clarification for amount to be eligible for deduction as bad debts in case of banks [Section 36(1)(vii) & (viiia)] [W.e.f. A.Y. 2014-15]

Provisions of section 36(1)(vii) of the Act provide for deduction for bad debt actually written off as irrecoverable in the books of account of the assessee. The proviso to this clause provides that for an assessee, to which section 36(1)(viiia) of the Act applies, deduction under section 36(vii) shall be limited to the amount by which the bad debt written off exceeds the credit balance in the Provision for Bad and Doubtful Debts Account made under section 36(1)(viiia) of the Act.

The provisions of section 36(1)(vii) of the Act are subject to the provisions of section 36(2) of the Act. Section 36(2)(v) of the Act provides that the assessee, to which section 36(1)(viiia) of the Act applies, should debit the amount of bad debt written off to the Provision for Bad and Doubtful Debts Account made under section 36(1)(viiia) of the Act.

Therefore, the banks or financial institutions are entitled to claim deduction for bad debt actually written off under section 36(1)(vii) of the Act only to the extent it is in excess of the credit balance in the Provision for Bad and Doubtful Debts Account made under section 36(1)(viiia) of the Act. However, certain judicial pronouncements have created doubts about the scope and applicability of proviso to section 36(1)(vii) and held that the proviso to section 36(1)(vii) applies only to provision made for bad and doubtful debts relating to rural advances.

In order to clarify the scope and applicability of provision of clause (vii) and (viiia) of sub-section (1) and sub-section (2) of section 36, the Act has inserted Explanation 2 in clause (vii) of section 36(1) stating that for the purposes of the proviso to section 36(1)(vii) and section 36(2)(v), only one account as referred to therein is made in respect of provision for bad and doubtful debts under section 36(1)(viiia) and such account relates to all types of advances, including advances made by rural branches.

Therefore, for an assessee to which clause (viiia) of section 36(1) applies, the amount of deduction in respect of the bad debts actually written off under section 36(1)(vii) shall be limited to the amount by which such bad debts exceeds the credit balance in the Provision for Bad and Doubtful Debts Account made under section 36(1)(viiia) without any distinction between rural advances and other advances.

Note: The amendment has been made to overrule the judicial decision in the case of Catholic Syrian Bank Ltd. vs. CIT (2012) 206 Taxman 182 (SC) where it was held that proviso to section 36(1)(vii) is applicable only for rural branches of banks. In case of other branches of the bank, deduction of actual bad debt shall be allowed even if these branches have made a provision for bad and doubtful debts.

15. Commodities Transaction Tax to be allowed as a deduction [Section 36(xvi)] [W.e.f. A.Y. 2014-15]

The Act has inserted clause (xvi) in section 36 of the Income-tax Act to provide that an amount equal to the commodities transaction tax paid by the assessee in respect of the taxable commodities transactions entered into in the course of his business during the previous year shall be allowable as deduction, if the income arising from such taxable commodities transactions is included in the income computed under the head "Profits and gains of business or profession".

It has also inserted an *Explanation* to provide that for the purposes of this clause, the expressions "commodities transaction tax" and "taxable commodities transaction" shall have the meanings respectively assigned to them under Chapter VII of the Finance Act, 2013.

"Commodities Transaction Tax" means tax leviable on the taxable commodities transactions under the provisions of Chapter VII of the Finance Act, 2013.

"Taxable Commodities Transaction" means a transaction of sale of commodity derivatives in respect of commodities, other than agricultural commodities, traded in recognised associations.

16. Disallowance of certain fee, charge, etc. in the case of State Government Undertakings [Section 40(a)(iib)] [W.e.f. A.Y. 2014-15]

The existing provisions of section 40 specifies the amounts which shall not be deducted in computing the income chargeable under the head "Profits and gains of business or profession". The non-deductible expense under the said section also includes statutory dues like income-tax, wealth-tax, etc.

Disputes have arisen in respect of income-tax assessment of some State Government undertakings as to whether any sum paid by way of privilege fee, license fee, royalty, etc. levied or charged by the State Government exclusively on its undertakings are deductible or not for the purposes of computation of income of such undertakings. In some cases, orders have been issued to the effect that surplus arising to such undertakings shall vest with the State Government. As a result it has been claimed that such income by way of surplus is not subject to tax.

It is a settled law that State Government undertakings are separate legal entities than the State and are liable to income-tax.

The Act has amended section 40 of the Income-tax Act to provide that—

- (a) any amount paid by way of royalty, licence fee, service fee, privilege fee, service charge or any other fee or charge, by whatever name called, which is levied exclusively on, or
- (b) any amount appropriated, directly or indirectly, from a State Government undertaking, by the State Government,

shall not be allowed as deduction for the purposes of computation of income of such undertakings under the head "Profits and gains of business or profession".

The expression "State Government Undertaking" has also been defined for this purpose as under:-

A State Government undertaking includes—

- (i) a corporation established by or under any Act of the State Government;
- (ii) a company in which more than 50% of the paid-up equity share capital is held by the State Government;
- (iii) a company in which more than 50% of the paid-up equity share capital is held by the entity referred to in clause (i) or clause (ii) (whether singly or taken together);
- (iv) a company or corporation in which the State Government has the right to appoint the majority of the directors or to control the management or policy decisions, directly or indirectly, including by virtue of its shareholding or management rights or shareholders agreements or voting agreements or in any other manner;

- (v) an authority, a board or an institution or a body established or constituted by or under any Act of the State Government or owned or controlled by the State Government.

17. Derivative trading in commodities also not to be treated as speculative transaction [Proviso to section 43(5)] [W.e.f. A.Y. 2014-15]

Like eligible transaction in respect of trading in derivatives of securities, an eligible transaction in respect of trading in commodity derivatives carried out in a recognised association shall also not be treated as speculative transaction. Hence, income/loss from such transactions shall be treated as non-speculative business income/loss.

Further, the following *Explanation 2* has been inserted to provide for certain definitions relating to above transactions.

Meaning of “commodity derivative”: “Commodity derivative” shall have the meaning as assigned to it in Chapter VII of the Finance Act, 2013;

Meaning of “eligible transaction”: “Eligible transaction” means any transaction,—

- (A) carried out electronically on screen-based systems through member or an intermediary, registered under the bye-laws, rules and regulations of the recognised association for trading in commodity derivative in accordance with the provisions of the Forward Contracts (Regulation) Act, 1952 and the rules, regulations or bye-laws made or directions issued under that Act on a recognised association; and
- (B) which is supported by a time stamped contract note issued by such member or intermediary to every client indicating in the contract note, the unique client identity number allotted under the Act, rules, regulations or bye-laws referred to in sub-clause (A), Unique Trade Number and Permanent Account Number allotted under this Act.

Meaning of “recognised association”: “Recognised association” means a recognised association as referred to in section 2(j) of the Forward Contracts (Regulation) Act, 1952 and which fulfils such conditions as may be prescribed and is notified by the Central Government for this purpose.

18. Special provision for full value of consideration for transfer of assets other than capital assets in certain cases [Section 43CA] [W.e.f. A.Y. 2014-15]

Currently, when a capital asset, being immovable property, is transferred for a consideration which is less than the value adopted, assessed or assessable by any authority of a State Government for the purpose of payment of stamp duty in respect of such transfer, then such value (stamp duty value) is taken as full value of consideration under section 50C of the Income-tax Act. These provisions do not apply to transfer of immovable property, held by the transferor as stock-in-trade.

(A) Stamp duty value to be deemed consideration in certain cases [Section 43CA(1)]: The Act has inserted a new section 43CA to provide that where the consideration for the transfer of an asset (other than capital asset), being land or building or both, is less than the stamp duty value, the value so adopted or assessed or assessable shall be deemed to be the full value of the consideration for the purposes of computing income under the head “Profits and gains of business of profession”.

(B) Provisions of section 50C(2) and (3) made applicable to section 43CA [Section 43CA(2)]: The provisions of sub-section (2) and sub-section (3) of section 50C shall, so far as may be, apply in relation to determination of the value adopted or assessed or assessable under section 43CA(1).

Where valuation can be referred to the Valuation Officer [Section 50C(2)]: If the following conditions are satisfied, the Assessing Officer may refer the valuation of the relevant asset to a Valuation Officer in accordance with section 55A of the Income-tax Act:

- (i) where the assessee claims before the Assessing Officer that the value adopted or assessed or assessable by the stamp valuation authority exceeds the fair market value of the property as on the date of transfer; and

- (ii) the value so adopted or assessed or assessable by stamp valuation authority has not been disputed, in any appeal or revision or reference before any authority or Court,

Consequences where the value is determined by the Valuation Officer: If the fair market value determined by the Valuation Officer is less than the value adopted (assessed or assessable) for stamp duty purposes, the Assessing Officer may take such fair market value to be the full value of consideration. However, as per section 50C(3), if the fair market value determined by the Valuation Officer is more than the value adopted or assessed or assessable for stamp duty purposes, the Assessing Officer shall not adopt such fair market value and will take the full value of consideration to be the value adopted or assessed or assessable for stamp duty purposes.

(C) Stamp duty value on the date of agreement to be deemed consideration [Section 43CA(3)] : The Act has also provided that where the date of an agreement fixing the value of consideration for the transfer of the asset and the date of registration of the transfer of the asset are not same, the stamp duty value may be taken as on the date of the agreement for transfer and not as on the date of registration for such transfer.

However, this exception shall apply only in those cases where amount of consideration or a part thereof for the transfer has been received by any mode other than cash on or before the date of the agreement. [Section 43CA(4)]

Section 43CA has been inserted to cover sale of immovable property held as stock-in-trade.

AMENDMENTS RELATING TO INCOME FROM OTHER SOURCES

19. Taxability of immovable property received for inadequate consideration [Section 56(2)(vii)] [W.e.f. A.Y. 2014-15]

The existing provisions of sub-clause (b) of section 56(2)(vii) of the Income-tax Act, inter alia, provide that where any immovable property is received by an individual or HUF without consideration, the stamp duty value of which exceeds fifty thousand rupees, the stamp duty value of such property would be charged to tax in the hands of the individual or HUF as income from other sources.

The existing provision does not cover a situation where the immovable property has been received by an individual or HUF for inadequate consideration.

The Act has amended the provisions of clause (vii) of section 56(2) so as to provide that where any immovable property is received for a consideration which is less than the stamp duty value of the property by an amount exceeding fifty thousand rupees, the stamp duty value of such property as exceeds such consideration, shall be chargeable to tax in the hands of the individual or HUF as income from other sources.

Stamp duty value to be taken on the date of agreement [Proviso to section 56(2)(vii)(b)]: Where the date of the agreement fixing the amount of consideration for the transfer of the immovable property and the date of registration are not the same, the stamp duty value may be taken as on the date of the agreement, instead of that on the date of registration.

This exception shall, however, apply only in a case where the amount of consideration, or a part thereof, has been paid by any mode other than cash on or before the date of the agreement fixing the amount of consideration for the transfer of such immovable property.

AMENDMENTS RELATING TO DEDUCTIONS FROM GROSS TOTAL INCOME

20. Raising the limit of percentage of eligible premium for life insurance policies of persons with disability or disease [Section 80C] [W.e.f. A.Y. 2014-15]

The Act has amended section 80C(3A) so as to provide that the deduction under the said section on account of premium paid in respect of a policy issued on or after 01.04.2013 for insurance on the life of a person referred to in section 80DDB or 80U shall be allowed to the extent the premium paid does not exceed 15% of the actual capital sum assured instead of 10% in case of others.

21. Expanding the scope of deduction in respect of investment made under an equity saving scheme [Section 80CCG] [W.e.f. 2014-15]

With a view to liberalize the incentive available for investment in capital markets by the new retail investors, the Act has made the following changes in section 80CCG:

- (i) besides equity shares, investment in listed units of an equity oriented fund shall also be eligible for deduction in accordance with the provisions of section 80CCG.
- (ii) the deduction under this section shall be allowed for three consecutive assessment years, beginning with the assessment year relevant to the previous year in which the listed equity shares or listed units were first acquired by the new retail investor.
- (iii) the gross total income for the relevant assessment year should not exceed ₹12,00,000 instead of ₹10,00,000 at present.

Meaning of "equity oriented fund": "Equity oriented fund" shall have the meaning assigned to it in section 10(38).

22. Deduction for contribution to Health Schemes similar to Central Government Health Scheme [Section 80D] [W.e.f. A.Y. 2014-15]

The existing provisions of section 80D, *inter alia*, provide that the whole of the amount paid in the previous year out of the income chargeable to tax of the assessee, being an individual, to effect or to keep in force an insurance on his health or the health of the family or any contribution made towards the Central Government Health Scheme (CGHS) or any payment made on account of preventive health check-up of the assessee or his family, as does not exceed in the aggregate ₹15,000, is allowed to be deducted in computing the total income of the assessee.

It has been noticed that there are other health schemes of the Central and State Governments, which are similar to the CGHS but no deduction for such schemes is available to the subscribers of such schemes. In order to bring such schemes at par with the CGHS, the Act has amended section 80D, so as to allow the benefit of deduction under this section within the said limit, in respect of any payment or contribution made by the assessee to such other health scheme as may be notified by the Central Government.

23. Deduction in respect of interest on loan sanctioned during financial year 2013-14 for acquiring residential house property [Section 80EE] [W.e.f. A.Y. 2014-15]

Under the existing provisions of section 24 of the Income-tax Act, income chargeable under the head 'Income from House Property' is computed after making the deductions specified therein. The deductions specified under the aforesaid section are as under:—

- (i) A sum equal to 30% of the annual value;
- (ii) Where the property has been acquired, constructed, repaired, renewed or reconstructed with borrowed capital, the amount of any interest payable on such capital.

It has also been provided that where the property consists of a house or part of a house which is in the occupation of the owner for the purposes of his own residence or cannot actually be occupied by the owner by reason of the fact that owing to his employment, business or profession carried on at any other place, he has to reside at that other place in a building not belonging to him, then the amount of deduction as mentioned above shall not exceed ₹1,50,000 subject to the conditions provided in the said section.

Keeping in view the need for affordable housing, the Act has provided an additional benefit for *first-home buyers* by inserting a new section 80EE in the Income-tax Act relating to deduction in respect of interest on loan taken for residential house property which is to be let out or self-occupied.

(A) To whom deduction is allowed: The deduction under this section shall be allowed to an individual only.

(B) Purpose for which deduction is allowed: Deduction shall be allowed on account of interest payable on loan taken by the individual from any Financial Institution for the purpose of acquisition of a residential house provided certain conditions are satisfied.

(C) Conditions to be satisfied:

- (i) the loan is sanctioned by the financial institution during the period beginning on 1.4.2013 and ending on 31.3.2014;
- (ii) the amount of loan sanctioned for acquisition of the residential house property does not exceed ₹25,00,000;
- (iii) the value of the residential house property does not exceed ₹40,00,000;
- (iv) the assessee does not own any residential house property on the date of sanction of the loan.

(D) Quantum of deduction: The deduction shall not exceed ₹1,00,000 in the previous year 2013-14 (i.e. assessment year 2014-15).

However, where the interest payable for the previous year relevant to the said assessment year is less than ₹1,00,000, the balance amount shall be allowed as deduction in the previous year 2014-15 (i.e. assessment year 2015-16).

(E) Deduction not to be allowed under any other section: Where a deduction under this section is allowed for any assessment year, in respect of interest referred to in section 80EE(1), deduction shall not be allowed in respect of such interest under any other provisions of the Income-tax Act for the same or any other assessment year.

Meaning of "financial institutions": Financial institution" means a banking company to which the Banking Regulation Act, 1949 applies including any bank or banking institution referred to in section 51 of that Act or a housing finance company.

Meaning of "housing finance company": "Housing finance company" means a public company formed or registered in India with the main object of carrying on the business of providing long-term finance for construction or purchase of houses in India for residential purposes.

In case of let out house property, the deduction of interest is allowed for the entire amount under section 24(b).

24. 100% deduction for donation to National Children's Fund [Section 80G] [W.e.f. A. Y. 2014-15]

Deduction for donations to the National Children's Fund has been raised from 50% to 100%.

25. Contributions to political parties not to be in cash [Section 80GGB & 80GGC] [W.e.f. A.Y. 2014-15]

No deduction shall be allowed under section 80GGB and 80GGC in respect of any sum contributed by way of cash.

26. Extension of the sunset date under section 80IA for the power sector [Section 80IA(4)] [W.e.f. A.Y. 2014-15]

Under the existing provisions contained in the clause (iv) of subsection (4) of section 80IA, a deduction of profits and gains is allowed to an undertaking which,—

- (a) is set up in any part of India for the generation or generation and distribution of power if it begins to generate power at any time during the period beginning on 1.4.1993 and ending on 31.3.2013;
- (b) starts transmission or distribution by laying a network of new transmission or distribution lines at any time during the period beginning on 1.4.1999 and ending on 31.3.2013;
- (c) undertakes substantial renovation and modernisation of the existing network of transmission or distribution lines at any time during the period beginning on 1.4.2004 and ending on 31.3.2013.

With a view to provide further time to the undertakings to commence the eligible activity to avail the tax incentive, the Act has amended the above provisions so as to extend the terminal date by a further period of one year i.e. up to 31.3.2014.

27. Deduction for additional wages in certain cases [Section 80JJAA] [W.e.f. A.Y. 2014-15]

The existing provisions contained in section 80JJAA of the Income-tax Act provide for a deduction of an amount equal to thirty per cent of additional wages paid to the new regular workmen employed in any previous year by an Indian company in its industrial undertaking engaged in manufacture or production of article or thing. The deduction is available for three assessment years including the assessment year relevant to the previous year in which such employment is provided.

No deduction under this section is allowed if the industrial undertaking is formed by splitting up or reconstruction of an existing undertaking or amalgamation with another industrial undertaking.

The tax incentive under section 80JJAA was intended for employment of blue collared employees in the manufacturing sector whereas in practice, it is being claimed for other employees in other sectors also. The Act has therefore amended the provisions of section 80JJAA so as to provide that the deduction shall be available to an Indian Company deriving profits from manufacture of goods in its factory. The deduction shall be of an amount equal to thirty per cent of additional wages paid to the new regular workmen employed by the assessee in such factory, in the previous year, for three assessment years including the assessment year relevant to the previous year in which such employment is provided.

Further, the deduction under this section shall not be available if the factory is hived off or transferred from another existing entity or acquired by the assessee company as a result of amalgamation with another company.

AMENDMENTS RELATING TO REBATE AND RELIEF

28. Rebate of maximum ₹2,000 for resident individuals having total income up to ₹5 lakh [Section 87A] [W.e.f. A.Y. 2014-15]

With a view to provide tax relief to the individual tax payers who are in lower income bracket, the Act has provided rebate from the tax payable by an assessee, if the following conditions are satisfied:

- (1) The assessee is an individual
- (2) He is resident in India,
- (3) His total income does not exceed ₹5,00,000.

Quantum of rebate: The rebate shall be equal to:

- (1) the amount of income-tax payable on the total income for any assessment year or
- (2) ₹2,000,

whichever is less.

AMENDMENTS RELATING TO AVOIDANCE OF DOUBLE TAXATION

29. Tax Residency Certificate [Section 90 & 90A] [W.r.e.f. A.Y. 2013-14]

Sub-section (4) of sections 90 and 90A of the Income-tax Act inserted by Finance Act, 2012 made submission of a certificate, containing such particulars as may be prescribed, of his being resident, as a condition for availing benefits of the agreements referred to in these sections.

W.e.f. A.Y. 2013-14, the Act has deleted the words "certificate, containing such particulars as may be prescribed, of his being resident" in sub-section (4) of section 90 and section 90A and substituted the same with the words "a certificate of his being resident".

In other words, a simple certificate of being resident of that country is required. The particulars of the certificate shall not be prescribed by the Board.

Further, sub-section (5) has been inserted in both sections 90 and 90A to provide as under:

"The assessee referred to in sub-section (4) shall also provide such other documents and information, as may be prescribed."

SPECIAL RATES OF TAX

30. Taxation of Income by way of interest, royalty or fees for technical services [Section 115A] [W.e.f. A.Y. 2014-15]

The Act has made the following amendments in section 115A:

(1) Special rate of tax on interest from investments referred to in section 194LD [Section 115A(1)(a)(iiab)]

The rate of tax on interest from the following investments referred to in section 194LD shall be 5%:

- (i) a rupee denominated bond of an Indian company;
- (ii) a Government security.

(2) Special rate of tax in case of royalty or fees for technical services

Section 115A of the Income-tax Act provides for determination of tax in case of a non-resident taxpayer where the total income includes any income by way of Royalty and Fees for Technical Services (FTS) received under an agreement entered after 31.03.1976 and which are not effectively connected with permanent establishment, if any, of the non-resident in India. The tax is payable on the gross amount of income at the rate of—

- (i) 30% if income by way of royalty or FTS is received in pursuance of an agreement entered on or before 31.05.1997;
- (ii) 20% if income by way of royalty or FTS is received in pursuance of an agreement entered after 31.05.1997 but before 01.06.2005; and
- (iii) 10% if income by way of royalty or FTS is received in pursuance of an agreement entered on or after 01.06.2005.

India has tax treaties with 84 countries, majority of tax treaties allow India to levy tax on gross amount of royalty at rates ranging from 10% to 25%, whereas the tax rate as per section 115A is 10%. In some cases, this has resulted in taxation at a lower rate of 10% even if the treaty allows the income to be taxed at a higher rate.

In order to correct this anomaly, the tax rate in case of non-resident taxpayer, in respect of income by way of royalty and fees for technical services as provided under section 115A, has been increased from 10% to 25%.

This rate of 25% shall be applicable to any income by way of royalty and fees for technical services received by a non-resident, under an agreement entered after 31.03.1976, which is taxable under section 115A.

31. Special rate of income tax in case of Foreign Institutional Investor in respect of interest referred to in section 194LD [Proviso to section 115D] [W.e.f. A.Y. 2014-15]

The Act has inserted the following proviso to section 115AD(1)(i):

“Provided that the amount of income-tax calculated on the income by way of interest referred to in section 194LD shall be at the rate of 5%.

32. Lower rate of tax on dividends received from foreign companies [Section 115BBBD] [W.e.f. A.Y. 2014-15]

Section 115BBBD of Income-tax Act provides for taxation of gross dividends received by an Indian company from a specified foreign company (in which it has shareholding of 26% or more) at the rate of 15% if such dividend is included in the total income for the Financial Years 2011-12 and 2012-13 i.e. Assessment Years 2012-13 and 2013-14.

The above provision was introduced as an incentive for attracting repatriation of income earned by residents from investments made abroad subject to certain conditions.

In order to continue the tax incentive for one more year, section 115BBBD has been amended to extend the applicability of this section in respect of income by way of dividends received from a specified foreign company in Financial Year 2013-14 also, subject to the same conditions.

DIVIDEND DISTRIBUTION TAX

33. Removal of the cascading effect of Dividend Distribution Tax (DDT) [Section 115-O(1A)] [W.e.f. 1.6.2013]

The Finance Act, 2013 has amended section 115-O(1A) to provide as under:

For the purpose of computation of tax on distributed profits, the amount of dividend distributed by the domestic company during the financial year shall be reduced by the following:

the amount of dividend, if any, received by the domestic company during the financial year, if such dividend is received from its subsidiary and,—

- (a) where such subsidiary is a domestic company, the subsidiary has paid the tax which is payable under this section on such dividend; or
- (b) where such subsidiary is a foreign company, the tax is payable by the domestic company under section 115BBD on such dividend.

However, the same amount of dividend shall not be taken into account for reduction more than once.

TAX ON DISTRIBUTED INCOME OF DOMESTIC COMPANY FOR BUY-BACK OF SHARES [CHAPTER XII-DA]

34. Additional Income-tax on distributed income by company for buy-back of unlisted shares [Section 115QA to 115QC] [W.e.f. 1.6.2013]

Section 115-O provides for levy of Dividend Distribution Tax (DDT) on the company at the time when company distributes, declares or pays any dividend to its shareholders.

Consequent to the levy of DDT: The amount of dividend received by the shareholders is not included in the total income of the shareholder.

The consideration received by a shareholder on buy-back of shares by the company is not treated as dividend but is taxable as capital gains under section 46A of the Act.

A company, having distributable reserves, has two options to distribute the same to its shareholders either by declaration and payment of dividends to the shareholders, or by way of purchase of its own shares (i.e. buy back of shares) at a consideration fixed by it. In the first case, the payment by company is subject to DDT and income in the hands of shareholders is exempt. In the second case the income is taxed in the hands of shareholder as capital gains.

Unlisted Companies, as part of tax avoidance scheme, are resorting to buy back of shares instead of payment of dividends in order to avoid payment of tax by way of DDT particularly where the capital gains arising to the shareholders are either not chargeable to tax or are taxable at a lower rate.

In order to curb such practice the Act has amended the Act, by insertion of new Chapter XII-DA, to provide as under:

(1) Tax on distributed income to shareholders (Section 115QA)

(A) Additional income tax on buy back of shares [Section 115QA(1)]

- (i) In addition to the income tax payable by the company on its total income as per the provisions of the Act, the domestic company shall be liable to pay additional income tax @ 20% on any amount of distributed income paid by the company on buy back of shares.

Meaning of buy back: "Buy-back" means purchase by a company of its own shares in accordance with the provisions of section 77A of the Companies Act, 1956.

Meaning of distributed income: "Distributed income" means the consideration paid by the company on buy-back of shares as reduced by the amount which was received by the company for issue of such shares.

- (ii) Rate of additional income tax: 20% + 10% SC + 3% Cess i.e. 22.66%.

(B) Additional income tax payable even if the total income of domestic company is exempt [Section 115QA(2)]

Notwithstanding that no income-tax is payable by a domestic company on its total income computed in accordance with the provisions of this Act, the tax on the distributed income under section 115QA(1) shall be payable by such company.

(C) Time limit for deposit of additional income tax [Section 115QA(3)]

The principal officer of the domestic company and the company shall be liable to pay the tax to the credit of the Central Government within 14 days from the date of payment of any consideration to the shareholder on buy-back of shares referred to in section 115QA(1).

(D) Additional income tax to be treated as final payment [Section 115QA(4)]

The tax on the distributed income by the company shall be treated as the final payment of tax in respect of the said income and no further credit therefore shall be claimed by the company or by any other person in respect of the amount of tax so paid.

(E) Income charged to tax not allowed as deduction [Section 115QA(5)]

No deduction under any other provision of this Act shall be allowed to—

- (i) the company; or
- (ii) a shareholder

in respect of the income which has been charged to tax under section 115QA(1) or the tax thereon.

(2) Interest payable for delayed payment of tax [Section 115QB]

Where the principal officer of the domestic company and the company fails to pay the whole or any part of the tax on the distributed income referred to in section 115QA(1), within the time allowed under section 115QA(3) of that section, he or it shall be liable to pay simple interest @ 1% for every month or part thereof on the amount of such tax for the period beginning on the date immediately after the last date on which such tax was payable and ending with the date on which the tax is actually paid.

(3) When company is deemed to be assessee in default [Section 115QC]

If any principal officer of a domestic company and the company does not pay tax on distributed income in accordance with the provisions of section 115QA, then, he or it shall be deemed to be an assessee in default in respect of the amount of tax payable by him or it and all the provisions of this Act for the collection and recovery of income-tax shall apply.

35. Exemption to the shareholder on account of buy back of shares [Section 10(34A)] [W.e.f. A.Y. 2014-15]

Since, the company has to pay additional income-tax on buy back of shares, any income arising to an assessee, being a shareholder, on account of buy back of shares (not being listed on recognised stock exchange), shall be exempt.

TAX ON DISTRIBUTED INCOME BY THE MUTUAL FUNDS

36. Rationalisation of tax on distributed income by the Mutual Funds [Section 115R] [W.e.f. 1.6.2013]

Under the existing provisions of section 115R any amount of income distributed by the specified company or a Mutual Fund to its unit holders is chargeable to additional income-tax. In case of any distribution made by a fund other than equity oriented fund to a person who is not an individual and HUF, the rate of tax is 30%, whereas in case of distribution to an individual or an HUF, it is 12.5% or 25% depending on the nature of the fund.

In order to provide uniform taxation for all types of funds, other than equity oriented fund, the Act has increased the rate of tax on distributed income from 12.5% to 25% in all cases where distribution is made to an individual or a HUF. Further, the surcharge shall be @ 10% + EC & SHEC @ 3%, totaling to 28.325%.

Further in case of an Infrastructure Debt Fund (IDF) set up as a Non-Banking Finance Company (NBFC) the interest payment made by the fund to a non-resident (not being a company) or a foreign company is taxable at a concessional rate of 5%. However in case of distribution of income by an IDF set up as a Mutual Fund, the distribution tax is levied at the rates described above in the case of a Mutual Fund.

In order to bring parity in taxation of income from investment made by a nonresident (not being a company) or a foreign company in an IDF whether set up as a IDF-NBFC or IDF-MF, the Act has amended section 115R to provide that tax @ 5% on income distributed shall be payable in respect of income distributed by a Mutual Fund under an IDF scheme to a non-resident investor.

Meaning of infrastructure debt fund scheme: "Infrastructure debt fund scheme" shall have the same meaning as assigned to it in clause (1) of regulation 49L of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 made under the Securities and Exchange Board of India Act, 1992.

"Money market mutual fund" means a money market mutual fund as defined in sub-clause (p) of clause 2 of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996.

"Liquid fund" means a scheme or plan of a mutual fund which is classified by the Securities and Exchange Board of India as a liquid fund in accordance with the guidelines issued by it in this behalf under the SEBI Act, 1992 or regulations made thereunder.

SPECIAL PROVISIONS RELATING TO TAX ON DISTRIBUTED INCOME BY SECURITISATION TRUSTS [CHAPTER XII-EA]

37. Taxation of Securitisation Trusts [Section 115TA to 115TC] [W.e.f. 1.6.2013]

Section 161 of the Income-tax Act provides that in case of a trust if its income consists of or includes profits and gains of business then income of such trust shall be taxed at the maximum marginal rate in the hands of trust.

The special purpose entities set up in the form of trust to undertake securitisation activities were facing problem due to lack of special dispensation in respect of taxation under the Income-tax Act. The taxation at the level of trust due to existing provisions was considered to be restrictive particularly where the investors in the trust are persons which are exempt from taxation under the provisions of the Income-tax Act like Mutual Funds.

In order to facilitate the securitisation process, the Act has provided a special taxation regime in respect of taxation of income of securitisation entities, set up as a trust, from the activity of securitisation. The Act has inserted a new Chapter XIIEA containing the following sections 115TA to 115TC:

I. Tax on income distributed by securitisation trust to its investors

(A) Liability to pay additional income tax [Section 115TA(1)]

Notwithstanding anything contained in any other provisions of the Act, any amount of income distributed by the securitisation trust to its investor shall be chargeable to additional income tax at the following rates:

Where income is distributed to

(a) any person being individual or HUF	25% + 10% SC + 3% EC + SHEC aggregating to 28.325%
(b) any other person	30% + 10% SC + 3% EC + SHEC aggregating to 33.99%

However, no additional tax shall be payable in respect of any income distributed by the securitisation trust to any person in whose case income, irrespective of its nature and source, is not chargeable to tax under the Act.

(B) Time limit for deposit of additional income tax [Section 115TA(2)]: The tax is to be paid to the credit of the Central Government within 14 days from the date of:

- (a) distribution of income, or
- (b) payment of income

whichever is earlier

- (C) Furnishing of statement of income distributed, tax paid thereon, etc. [Section 115TA(3)] :** The person responsible for making payment of the income distributed by the securitisation trust shall, on or before the 15th day of September in each year, furnish to the prescribed income-tax authority, a statement in the prescribed form and verified in the prescribed manner, giving the details of the amount of income distributed to investors during the previous year, the tax paid thereon and such other relevant details, as may be prescribed.
- (D) No deduction allowed for such income distributed [Section 115TA(4)]:** No deduction under any other provisions of this Act shall be allowed to the securitisation trust in respect of the income on which additional income-tax has been paid.

II. Interest payable for non-payment of tax [Section 115TB]

Where the person responsible for making payment of the income distributed by the securitisation trust does not pay the aforesaid additional income-tax within the period of 14 days mentioned above, he or it shall be liable to pay simple interest @ 1% every month or part thereof on the amount of such tax for the period beginning on the date immediately after the last date on which such tax was payable and ending with the date on which the tax is actually paid.

III. Securitisation trust to be assessee in default [Section 115TC]

If any person responsible for making payment of the income distributed by the securitisation trust and the securitisation trust does not pay tax, as referred to in section 115TA(1), then, he or it shall be deemed to be an assessee in default in respect of the amount of tax payable by him or it and all the provisions of this Act for the collection and recovery of income-tax shall apply.

Meaning of investor: "Investor" means a person who is holder of any securitised debt instrument or securities issued by the securitisation trust;

Meaning of securities: "Securities" means debt securities issued by a Special Purpose Vehicle as referred to in the guidelines on securitisation of standard assets issued by the Reserve Bank of India;

Meaning of securitised debt instrument: "Securitised debt instrument" shall have the same meaning as assigned to it in regulation 2(1)(s) of the Securities and Exchange Board of India (Public Offer and Listing of Securitised Debt Instruments) Regulations, 2008 made under the Securities and Exchange Board of India Act, 1992 and the Securities Contracts (Regulation) Act, 1956;

Meaning of securitisation trust: "Securitisation trust" means a trust, being a—

- (i) "Special purpose distinct entity" as defined in clause (u) of sub-regulation (1) of regulation 2 of the Securities and Exchange Board of India (Public Offer and Listing of Securitised Debt Instruments) Regulations, 2008 made under the Securities and Exchange Board of India Act, 1992 and the Securities Contracts (Regulation) Act, 1956, and regulated under the said regulations; or
 - (ii) "Special Purpose Vehicle" as defined in, and regulated by, the guidelines on securitisation of standard assets issued by the Reserve Bank of India,
- which fulfils such conditions, as may be prescribed.

38. Exemption of distributed income received from a Securitisation Trust by an investor [Section 10(35A)]

Since the Securitisation Trust is liable to additional income tax on any amount of income distributed by it to its investor, such income received by any person being investor from such trust shall be exempt.

AMENDMENT RELATING TO SEARCH AND SEIZURE

39. Application of seized assets [Section 132B] [W.e.f. 1.6.2013]

The existing provisions contained in section 132B of the Income-tax Act, inter alia, provide that seized assets may be adjusted against any existing liability under the Income-tax Act, Wealth-tax Act, the Expenditure-tax Act, the Gift-tax Act and the Interest-tax Act and the amount of liability determined on completion of assessments pursuant to search, including penalty levied or interest payable and in respect of which such person is in default or deemed to be in default.

Various courts have taken a view that the term “existing liability” includes advance tax liability of the assessee, which is not in consonance with the intention of the legislature. The legislative intent behind this provision is to ensure the recovery of outstanding tax/interest/penalty and also to provide for recovery of taxes/interest/penalty, which may arise subsequent to the assessment pursuant to search.

Accordingly, the Act has inserted Explanation 2 to the aforesaid section so as to clarify that the existing liability does not include advance tax payable in accordance with the provisions of Part C of Chapter XVII of the Act. Hence, seized asset shall not be adjusted against advance tax liability w.e.f. 1.6.2013.

AMENDMENTS RELATING TO FILING OF RETURNS AND ASSESSMENTS

40. Return of Income filed without payment of self-assessment tax to be treated as defective return [Section 139(9)] [W.e.f. 1.6.2013]

The existing provisions contained in section 139(9) provide that where the Assessing Officer considers that the return of income furnished by the assessee is defective, he may intimate the defect to the assessee and give him an opportunity to rectify the defect within a period of fifteen days. If the defect is not rectified within the time allowed by the Assessing Officer, the return is treated as an invalid return. However, where the assessee rectifies the defect after the expiry of 15 days or further period allowed, but before the assessment is made, the Assessing Officer may condone the delay and treat the return as a valid return. The conditions, the non-fulfillment of which renders the return defective, have been provided in the *Explanation* to the aforesaid sub-section.

Section 140A provides that where any tax is payable on the basis of any return, after taking into account the prepaid taxes, the assessee shall be liable to pay such tax together with interest payable under any provision of this Act for any delay in furnishing the return or any default or delay in payment of advance tax, before furnishing the return.

It has been noticed that a large number of assessee are filing their returns of income without payment of self-assessment tax.

The Act, therefore, has inserted clause (aa) in the aforesaid *Explanation* w.e.f. 1.6.2013 so as to provide that the return of income shall be regarded as defective unless the tax together with interest, if any, payable in accordance with the provisions of section 140A has been paid on or before the date of furnishing the return.

Hence, if self-assessment tax (which also includes interest under section 234A, 234B and 234C) is not paid on or before the date of furnishing the return of income, the Assessing Officer will intimate the defect and require the assessee to pay self assessment tax within 15 days of the receipt of notice and the extended time, as the case may be, failing which the return shall be treated as invalid return and the provisions of Income-tax Act shall apply as if the assessee has failed to furnish the return.

41. Scope of special audit expanded [Section 142(2A)] [W.e.f. 1.6.2013]

The existing provisions contained in section 142(2A) of the Income-tax Act, *inter alia*, provide that if at any stage of the proceeding, the Assessing Officer having regard to the nature and complexity of the accounts of the assessee and the interests of the revenue, is of the opinion that it is necessary so to do, he may, with the approval of the Chief Commissioner or Commissioner, direct the assessee to get his accounts audited by an accountant and to furnish a report of such audit.

The expression “nature and complexity of the accounts” has been interpreted in a very restrictive manner by various courts.

The Act, therefore has amended the aforesaid sub-section so as to provide that if at any stage of the proceedings before him, the Assessing Officer, having regard to—

- (a) the nature and complexity of the accounts, or
- (b) volume of the accounts, or
- (c) doubts about the correctness of the accounts, or
- (d) multiplicity of transactions in the accounts, or

- (e) specialized nature of business activity of the assessee,
and

- (f) the interests of the revenue,

is of the opinion that it is necessary so to do, he may, with the previous approval of the Chief Commissioner or the Commissioner, direct the assessee to get his accounts audited by an accountant and to furnish a report of such audit.

42. Time limit and exclusion of time in computing the period of limitation for completion of assessments and reassessments [Section 153 & 153B] [W.e.f. 1.6.2013]

The Finance Act, 2013 has made the following changes in sections 153 and 153B:

- (i) Where a reference is made to TPO under section 92CA(1) during the course of proceeding for assessment of A.Y. 2009-10 and subsequent assessment years, the period of completion of assessment under section 143(3)/144 shall be 3 years whether reference is made to TPO before or after 1.7.2012.
- (ii) Where notice under section 148 was served on or after 1.4.2010 and during the course of proceeding for the assessment/reassessment, etc. a reference is made to T.P.O. under section 92CA(1), the period of completion of assessment/ reassessment shall be two years whether reference is made to T.P.O. before or after 1-7-2012.
- (iii) Where fresh assessment/reassessment has to be made on directions given under sections 254, 263 or 264 and during the course of such assessment or reassessment a reference is made to T.P.O. under section 92CA, the period of completion of assessment/reassessment shall be two years whether reference to T.P.O. is made before or after 1.7.2012.
- (iv) Clause (iii) of Explanation 1 to section 153 has been amended so as to provide that the period commencing from the date on which the Assessing Officer directs the assessee to get his accounts audited under section 142(2A) and
 - (a) ending with the last date on which the assessee is required to furnish a report of such audit under that sub-section; or
 - (b) where such direction is challenged before a court, ending with the date on which the order setting aside such direction is received by the Commissioner,shall be excluded in computing the period of limitation for the purposes of section 153.
- (v) clause (viii) of Explanation 1 to section 153 has also been amended so as to provide that the period commencing from the date on which a reference or first of the references for exchange of information is made by an authority competent under an agreement referred to in section 90 or section 90A and ending with the date on which the information requested is last received by the Commissioner or a period of one year, whichever is less, shall be excluded in computing the period of limitation for the purposes of section 153.

Similar amendments have also been made in the *Explanation* to section 153B of the Income-tax Act relating to time limit for completion of search assessment and exclusion of time.

COLLECTION AND RECOVERY OF TAX

43. Clarification of the phrase “tax due” for the purposes of recovery in certain cases [Section 167C and 179] [W.e.f. 1.6.2013]

Section 179 of the Income-tax Act provides that where the tax due from a private company cannot be recovered from such company, then the director (who was the director of such company during the previous year to which non-recovery relates) shall be jointly and severally liable for payment of such tax unless he proves that the non-recovery of tax cannot be attributed to any gross neglect, misfeasance or breach of duty on his part. This provision is intended to recover outstanding demand under the Act of a private company from the directors of such company in certain cases.

However, some courts have interpreted the phrase ‘tax due’ used in section 179 to hold that tax due does not include penalty, interest and other sum payable under the Act.

In view of the above, the Act has clarified that for the purposes of this section, the expression “tax due” includes penalty, interest or any other sum payable under the Act.

Amendments on the similar lines for clarifying the expression “tax due” have also been made to the provisions of section 167C relating to liability of partners of limited liability partnership in liquidation.

AMENDMENTS RELATING TO TDS

44. Tax Deduction at Source (TDS) on transfer of certain immovable properties (other than agricultural land) [Section 194-IA] [W.e.f. 1.6.2013]

There is a statutory requirement under section 139A of the Income-tax Act read with rule 114B of the Income-tax Rules, 1962 to quote Permanent Account Number (PAN) in documents pertaining to purchase or sale of immovable property for value of ₹5 lakh or more. However, the information furnished to the Department in Annual Information Returns by the Registrar or Sub-Registrar indicate that a majority of the purchasers or sellers of immovable properties, valued at ₹30 lakh or more, during the financial year 2011-12 did not quote or quoted invalid PAN in the documents relating to transfer of the property.

Under the existing provisions of the Income-tax Act, tax is required to be deducted at source on certain specified payments made to residents by way of salary, interest, commission, brokerage, professional services, etc. On transfer of immovable property by a non-resident, tax is required to be deducted at source by the transferee. However, there is no such requirement on transfer of immovable property by a resident except in the case of compulsory acquisition of certain immovable properties. In order to have a reporting mechanism of transactions in the real estate sector and also to collect tax at the earliest point of time, the Act has inserted a new section 194-IA which provides as under:

(A) Transferee to deduct tax at source: Any person, being a transferee, responsible for paying (other than the person referred to in section 194LA) to a resident transferor any sum by way of consideration for transfer of any immovable property (other than agricultural land), shall deduct an amount equal to 1% of such sum as income-tax thereon:

(a) at the time of credit of such sum to the account of the transferor, or

(b) at the time of payment of such sum in cash or by issue of a cheque or draft or by any other mode, whichever is earlier,

However, no deduction of tax under this provision shall be made where the total amount of consideration for the transfer of an immovable property is less than ₹50,00,000.

(B) Deductor is not required to obtain Tax Deduction and Collection Account Number [Section 194-IA(3)]:

The provisions of section 203A relating to obtaining Tax Deduction and Collection Account Number shall not apply to a person required to deduct tax in accordance with the provisions of this section.

Meaning of agricultural land: “Agricultural land” means agricultural land in India, not being a land situate in any area referred to in items (a) and (b) of section 2(14)(iii).

Meaning of immovable property: “Immovable property” means any land (other than agricultural land) or any building or part of a building.

In other words, TDS shall not be applicable in case of transfer of rural agricultural land.

45. Income by way of interest on certain bonds and Government securities [Section 194LD] [W.e.f. 1.6.2013]

(A) Person responsible for paying interest to deduct tax at source [Section 194LD(1)]: Any person who is responsible for paying to a person being a Foreign Institutional Investor or a Qualified Foreign Investor, any income by way of interest referred to in sub-section (2), shall, at the time of credit of such income to the account of the payee or at the time of payment of such income in cash or by the issue of a cheque or draft or by any other mode, whichever is earlier, deduct income-tax thereon.

Rate of TDS: The rate shall be 5%

Notes:

1. Surcharge as applicable, education cess & SHEC shall be added to the above rates.
2. The rate of TDS will be 20% in all cases, if PAN is not quoted by the deductee.
3. As tax cannot be deducted at lower rate, section 197 shall not be applicable in this case.

(B) Income on which tax is to be deducted [Section 194LD(2)]: The income by way of interest referred to in sub-section (1) shall be the interest payable on or after 1.6.2013 but before 1.6.2015 in respect of investment made by the payee in—

- (i) a rupee denominated bond of an Indian company;
- (ii) a Government security.

However, the rate of interest in respect of bond referred to in clause (i) shall not exceed the rate as may be notified by the Central Government in this behalf.

Since, tax on such interest is deductible under section 194LD, corresponding amendments have been made in sections 195 and 196D to exclude such interest under those provisions.

Meaning of “Foreign Institutional Investor”: “Foreign Institutional Investor” shall have the meaning assigned to it in clause (a) of the Explanation to section 115AD;

Meaning of “Government of Security”: “Government security” shall have the meaning assigned to it in clause (b) of section 2 of the Securities Contracts (Regulation) Act, 1956;

Meaning of “Qualified Foreign Investor”: “Qualified Foreign Investor” shall have the meaning assigned to it in the Circular, No. CIR/IMD/DF/14/2011, dated 9.8.2011, as amended from time to time, issued by the Securities and Exchange Board of India, under section 11 of the Securities and Exchange Board of India Act, 1992.

46. Meaning of “person responsible for paying” [Section 204(ia)] [W.e.f. A.Y. 2013-14]

As per existing clause (ia) of section 204, in the case of any sum payable to a nonresident Indian, being any sum representing consideration for the transfer by him of any foreign exchange asset, which is not a short-term capital asset, the authorised dealer responsible for remitting such sum to the non-resident Indian or crediting such sum to his Non-resident (External) Account maintained in accordance with the Foreign Exchange Regulation Act, 1973 and any rules made thereunder is the person responsible for paying.

The words “authorized dealer” mentioned above shall be substituted by the words “authorized person”.

“Authorized person” shall have the meaning assigned to it in section 2(c) of the Foreign Exchange Management Act, 1999.

47. Section 206AA not applicable in respect of payment of interest on long-term infrastructure bonds [Section 206AA(7)] [w.e.f. 1.6.2013]

As per section 206AA, the deductee shall furnish his Permanent Account Number to the person responsible for deducting the tax at source, failing which tax shall be deducted at the higher of the following rates, namely:—

- (i) at the rate specified in the relevant provision of this Act; or
- (ii) at the rate or rates in force; or
- (iii) at the rate of twenty per cent.

The above provisions of section 206AA shall not apply in respect of payment of interest, on long-term infrastructure bonds, as referred to in section 194LC, to a non-resident not being a company, or to a foreign company.

48. TCS on sale of bullion or jewellery [Section 206C(1D)] [W.e.f. 1.6.2013]

As per the existing section, every person, being a seller, who receives any amount in cash as consideration for sale of bullion (excluding any coin or any other article weighing ten grams or less) or jewellery, shall, at the time of receipt of such amount in cash, collect from the buyer, a sum equal to one per cent, of sale consideration as income-tax, if such consideration,—

- (i) for bullion, exceeds ₹2,00,000; or
- (ii) for jewellery, exceeds ₹5,00,000.

The words “excluding any coin or any other article weighing ten grams or less” mentioned above have been omitted w.e.f. 1.6.2013 and hence, tax will be collected at source on sale of any coin or any other article weighing ten grams or less if payment in excess of ₹2,00,000 is received in cash.

AMENDMENT RELATING TO INCOME TAX APPELLATE TRIBUNAL

49. Appointment of President of the Tribunal [Section 252(3)] [W.e.f. 1.6.2013]

As per the existing section, the Central Government shall appoint Senior Vice-President or one of the Vice-Presidents of the Tribunal to be the President of the Tribunal.

The Finance Act has amended sub-section (3) of section 252 to provide that the Central Government shall appoint:

- (a) a person who is a sitting or retired Judge of a High Court and who has completed not less than seven years of service as a Judge in a High Court; or
- (b) the Senior Vice-President or one of the Vice-Presidents of the Appellate Tribunal.

to be the President thereof.

AMENDMENT RELATING TO PENALTY

50. Penalty for non-filing of Annual Information Return [Section 271FA] [W.e.f. A.Y. 2014-15]

Section 285BA mandates furnishing of annual information return by the specified persons in respect of specified transactions within the time prescribed under sub-section (2) thereof. Sub-section (5) of the section empowers the Assessing Officer to issue notice if the annual information return has not been furnished by the due date.

The existing provisions contained in section 271FA of the Income-tax Act provide that if a person who is required to furnish an annual information return, as required under section 285BA(1), fails to furnish such return within the time prescribed under that subsection, the income-tax authority prescribed under the said sub-section may direct that such person shall pay, by way of penalty, a sum of ₹100 for every day during which the failure continues.

The Act has amended the aforesaid section so as to provide that if a person who is required to furnish an annual information return, as required under section 285BA(1), fails to furnish such return within the time prescribed under section 285BA(2) thereof, the Income Tax Authority, prescribed under sub-section (1) may direct that such person shall pay, by way of penalty, a sum of ₹100 for every day during which the failure continues.

It has further provided that where notice is issued by the prescribed Income Tax Authority under section 285BA(5) to furnish such return and such person fails to furnish the return within the period specified in the notice issued under section 285BA(5) (i.e. a period not exceeding 60 days from the date of service of such notice), he shall pay, by way of penalty, a sum of ₹500 for every day during which the failure continues, beginning from the day immediately following the day on which the time specified in such notice for furnishing the return expires.

AMENDMENT RELATING TO APPROVAL OF PROVIDENT FUND

51. Extension of time for approval of provident fund [W.r.e.f. A. Y. 2013-14]

Rule 4 in Part-A of the Fourth Schedule to the Income-tax Act provides for conditions which are required to be satisfied by a Provident Fund for receiving or retaining recognition under the Income-tax Act. One of the requirements of rule 4 as contained in clause (ea) is that the establishment has to be notified by the Central Provident Fund Commissioner under section 1(4) of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 [EPF & MP Act] and has obtained exemption under section 17 of the said Act.

Rule 3 in Part-A of the Fourth Schedule provides that the Chief Commissioner or the Commissioner of Income-tax may accord recognition to any provident fund which, in his opinion, satisfies the conditions specified under the said rule 4 and the conditions which the Board may specify by rules.

The first proviso to sub-rule (1) of rule 3, *inter alia*, specifies that in a case where recognition under the Income-tax Act has been accorded to any provident fund on or before 31st March, 2006, but such provident fund does not satisfy the conditions set out in clause (ea) of rule 4 on or before 31st March 2013, the recognition to such fund shall be withdrawn.

It has been noticed that a number of applications are yet to be processed by the Employees' Provident Fund Organization (EPFO) for grant of exemption under section 17 of EPF & MP Act. With a view to provide further time to the EPFO to decide on the pending applications seeking exemption under section 17 of the EPF & MP Act, the first proviso has been amended, so as to extend the time limit from 31st March, 2013 to 31st March, 2014.

AMENDMENT MADE IN THE WEALTH TAX ACT

1. Change in the definition of urban land [Explanation 1 to section 2(ea)] [W.e.f. A.Y 2014-15]

The existing definition of urban land has been substituted by a new definition. The new definition provides as under:

"Urban land" means land situate—

- (i) in any area which is comprised within the jurisdiction of a municipality (whether known as a municipality, municipal corporation, notified area committee, town area committee, town committee, or by any other name) or a cantonment board and which has a population of not less than 10,000; or
- (ii) in any area within the distance, measured aerially,—
 - (I) not being more than two kilometres, from the local limits of any municipality or cantonment board referred to in sub-clause (i) and which has a population of more than 10,000 but not exceeding 1,00,000; or
 - (II) not being more than six kilometres, from the local limits of any municipality or cantonment board referred to in sub-clause (i) and which has a population of more than 1,00,000 but not exceeding 10,00,000; or
 - (III) not being more than eight kilometres, from the local limits of any municipality or cantonment board referred to in sub-clause (i) and which has a population of more than 10,00,000,

but does not include

- (a) land classified as agricultural land in the records of the Government and used for agricultural purposes. [w.r.e.f. A.Y. 1993-94]; or
- (b) land on which construction of a building is not permissible under any law for the time being in force in the area in which such land is situated or
- (c) the land occupied by any building which has been constructed with the approval of the appropriate authority or

- (d) any unused land held by the assessee for industrial purposes for a period of two years from the date of its acquisition by him or
- (e) any land held by the assessee as stock-in-trade for a period of ten years from the date of its acquisition by him.

For the purposes of clause (b) of *Explanation 1*, "population" means the population according to the last preceding census of which the relevant figures have been published before the date of valuation.

2. Enabling provisions for facilitating electronic filing of annexure-less return of net wealth [Section 14A of the Wealth Tax Act] [W.e.f. 1.6.2013]

Section 14 of the Wealth-tax Act provides for furnishing of return of net wealth as on the valuation date in the prescribed form and verified in the prescribed manner setting forth particulars of the net wealth and such other particulars as may be prescribed. Currently, certain documents, reports are required to be furnished along with the return of net wealth under the provisions of Wealth-tax Act read with the provisions of Wealth-tax Rules.

Sections 139C and 139D of the Income-tax Act contain provisions for facilitating filing of annexure-less return of income in electronic form by certain class of income-tax assessee.

In order to facilitate electronic filing of annexure-less return of net wealth, new section 14A has been inserted in the Wealth-tax Act to provide as under:

"The Board may make rules providing for a class or classes of persons who may not be required to furnish documents, statements, receipts, certificates, audit reports, reports of registered valuer or any other documents, which are otherwise under any other provisions of this Act, except section 14B, required to be furnished, along with the return but on demand to be produced before the Assessing Officer."

3. Board to make rules to provide for filing of wealth tax return in electronic form [Section 14B] [W.e.f. 1.6.2013]

The Finance Act, 2013 has inserted new section 14B to provide as under:

"The Board may make rules providing for—

- (a) the class or classes of persons who shall be required to furnish the return in electronic form;
- (b) the form and the manner in which the return in electronic form may be furnished;
- (c) the documents, statements, receipts, certificates, audit reports, reports of registered valuer or any other documents which may not be furnished along with the return in electronic form but shall be produced before the Assessing Officer on demand;
- (d) the computer resource or the electronic record to which the return in electronic form may be transmitted."

4. Power to make rules [Section 46] [W.e.f. 1.6.2013]

The Finance Act, 2013 has inserted clauses (ba) and (bb) in section 46(2) to enable the Board to make rules to provide for the following:

- "(ba) the documents, statements, receipts, certificates, audit reports, reports of registered valuer or any other documents which may not be furnished along with the return but shall be produced before the Assessing Officer on demand under section 14A;
- (bb) the class or classes of persons who shall be required to furnish the return in electronic form; the form and the manner in which the return in electronic form may be furnished; the documents, statements, receipts, certificates, audit reports, reports of registered valuer or any other documents which may not be furnished along with the return in electronic form and the computer resource or electronic record to which such return may be transmitted under section 14B."

OTHER AMENDMENTS

1. Commodities Transaction Tax

A new tax called Commodities Transaction Tax (CTT) has been levied on taxable commodities transactions entered into in a recognised association.

Taxable 'commodities transaction' has been defined to mean a transaction of sale of commodity derivatives in respect of commodities, other than agricultural commodities, traded in recognised associations.

The tax has been levied at the rate, given in the Table below, on taxable commodities transactions undertaken by the seller as indicated hereunder:

Table

Taxable commodities transaction	Rate	Payable by
Sale of commodity derivative	0.01%	Seller

The provisions with regard to collection and recovery of CTT, furnishing of returns, assessment procedure, power of Assessing Officer, chargeability of interest, levy of penalty, institution of prosecution, filing of appeal, power to the Central Government, etc. have also been provided.

This tax shall be levied from the date on which Chapter VII of the Finance Act, 2013 comes into force by way of notification in the Official Gazette by the Central Government.

Further, section 36 of the Income-tax Act has been amended to provide that an amount equal to the commodities transaction tax paid by the assessee in respect of the taxable commodities transactions entered into in the course of his business during the previous year shall be allowable as deduction, if the income arising from such taxable commodities transactions is included in the income computed under the head "Profits and gains of business or profession".

An *Explanation* has been inserted to provide that for the purposes of this clause, the expressions "commodities transaction tax" and "taxable commodities transaction" shall have the meanings respectively assigned to them under Chapter VII of the Finance Act, 2013.

2. Securities Transaction Tax (STT) [W.e.f. 1.6.2013]

Securities Transaction Tax (STT) on transactions in specified securities was introduced vide Finance (No. 2) Act, 2004.

Section 98 of the Finance (No. 2) Act, 2004 has been amended to reduce STT rates in the taxable securities transactions as indicated hereunder:

Table

Nature of taxable securities transaction	Payable by	Existing Rates (in per cent)	New Rates (in per cent)
Delivery based purchase of units of an equity oriented fund entered into in a recognised stock exchange	Purchaser	0.1	Nil
Delivery based sale of units of an equity oriented fund entered into in a recognised stock exchange	Seller	0.1	0.001
Sale of a futures in securities	Seller	0.017	0.01
Sale of a unit of an equity oriented fund to the mutual fund	Seller	0.25	0.001

Study Note - 1

CANONS OF TAXATION

This Study Note includes

- 1.1 Basis for Taxation
- 1.2 Direct Taxes and Indirect Taxes
- 1.3 Constitutional Validity
- 1.4 Administration and Relevant Procedures

1.1 BASIS FOR TAXATION

India is a socialist, democratic and republic state. Constitution of India is supreme law of land. All other laws, including the Income Tax Act, are subordinate to the Constitution of India. The Constitution provides that 'no tax shall be levied or collected except by Authority of Law'. The Constitution includes three lists in the Seventh Schedule providing authority to the Central Government and the State Governments to levy and collect taxes on subjects stated in the lists.

1.2 DIRECT TAXES AND INDIRECT TAXES

A) Direct Taxes: They are imposed on a person's income, wealth, expenditure, etc. Direct Taxes charge is on person concern and burden is borne by person on whom it is imposed.

Example- Income Tax, Wealth Tax.

B) Indirect Taxes: They are imposed on goods/ services. The Immediate liability to pay is of the manufacturer/ service provider/ seller but its burden is transferred to the ultimate consumers of such goods/ services. The burden is transferred not in form of taxes, but, as a part of the price of goods/ services.

Example- Excise Duty, Customs Duty, service Tax, Value-Added Tax (VAT), Central Sales Tax (CST).

Government need funds for various purposes like maintenance of law and order, defence, social/ health services, etc. Government obtains funds from various sources, out of which one main source is taxation. Justice Holmes of US Supreme Court, has, long ago, rightly said that tax is the price which we pay for a civilized Society.

Direct Taxes & Indirect Taxes: -

Particulars	Direct Taxes	Indirect Taxes
Meaning	Direct Taxes are those taxes where the incidence and impact falls on the same person.	Indirect Tax is a tax where incidence and impact fall on two different person.
Nature of tax	Direct Tax progressive in nature.	Indirect Taxes is regressive in nature.
Taxable Event	Taxable Income / Taxable Wealth of the Assessee.	Purchase / Sale / Manufacture of goods and provision of services.
Levy & Collection	Levied and collected from the Assessee.	Levied & collected from the consumer but paid / deposited to the Exchequer by the Assessee / Dealer.
Shifting of Burden	Directly borne by the Assessee. Hence, cannot be shifted.	Tax burden is shifted or the subsequent / ultimate user.
Collected	After the income for a year is earned or valuation of assets is determined on the valuation date.	At the time of sale or purchases or rendering of services.
Disadvantages of Direct taxes / Advantages of Indirect Taxes	It is psychologically very difficult for a person to pay some amount after it is received in his hands. Hence, there is psychological resistance [This is the reason why even Income Tax Act is widening the scope of "Tax Deduction at Source" (TDS) and TCS. Thus, a direct tax is converted to an indirect tax].	Since the price of commodity or service is already inclusive of indirect taxes, the customer i.e. the ultimate tax payer does not feel a direct pinch while paying indirect taxes and hence, resistance to indirect taxes is much less compared to resistance to direct taxes. Manufacturer's/ Dealer's Psychology favours indirect taxes- The manufacturer/ trader who collects the taxes in his Invoice and pays it to Government, has a psychological feeling that he is only collecting the taxes and is not paying out of his own pocket (though this feeling may not be always correct).
	Direct taxes are mainly on income/ wealth of individuals, firms or corporate bodies, where millions of transactions are carried out in lakhs of places and keeping an eye over all such transactions is virtually impossible.	Indirect taxes are easier to collect as indirect taxes are mainly on goods/ commodities/ services, for which record keeping, verification and control is relatively easy (at least in organized sector). Manufacturing activities are carried out mainly in organized sector, where records and controls are better.

Particulars	Direct Taxes	Indirect Taxes
	Tax evasion is comparatively more in direct taxes where it is on unorganized sector, since control is difficult.	Tax evasion is comparatively less in indirect taxes in organized sector due to convenience of control.
	Collection cost of direct taxes as percentage of tax collected are higher in indirect taxes compared to indirect taxes.	Collection costs of indirect taxes as percentage of tax collected are lower in indirect taxes compared to direct taxes.
	Direct taxes can control such wasteful expenditure only indirectly by taxing higher income group people.	Government can levy higher taxes on luxury goods, which reduces the wasteful expenditure.
	Government can judiciously use the direct taxes to support development in desirable areas, while discouraging in backward areas, infrastructure development etc.	Government can judiciously use the indirect taxes to support development in desirable areas, while discouraging it in others, e.g. reducing taxes on goods manufactured in tiny or small scale units; lowering taxes in backward areas etc.
Advantages of Direct taxes/ Disadvantages of Indirect taxes	Direct taxes are 'progressive', as they depend on paying capacity. Rich person is taxed more compared to poor person.	Indirect taxes do not depend on paying capacity. Since the indirect tax is uniform, the tax payable on commodity is same, whether it is purchased by a poor man or a rich person. Hence, the indirect taxes are termed as 'regressive'. (This argument is only partially correct; as it is possible to levy lower taxes on goods of daily consumption while levying higher taxes on luxury goods and the regressive effect can be reduced in many circumstances.)
	Direct taxes do not affect prices of goods and service.	Tax on goods and services increases its prices, which reduces demand of goods and services. Lesser demand means lower growth of industrialization.
	High income tax rates increase tax evasion and havalas transactions.	High customs/ excise duty increases smuggling, havalas trade and mafia gangs, which is harmful in many ways. Similarly, high excise duty leads to evasion.
	Direct taxes do not have such effect.	Higher customs duty and excise duty increases cost of modern machinery and technology.
	Direct taxes are not inflationary.	Indirect taxes increase the prices of products and hence are often perceived as inflationary.

Recovery from buyer is not essential condition for levy of indirect taxes- In general, indirect taxes are recovered from buyer, it is not an essential feature of indirect taxes. Tax on goods or services will be valid even if it is not recovered or recoverable from buyer.

1.3 CONSTITUTIONAL VALIDITY

Central Excise is a duty on excisable goods manufactured or produced in India, other than alcoholic liquor. Duty liability is principally on 'manufacturer', except in a few cases. In majority of cases, duty rate w.e.f. 17.03.2012 is 12% plus Education Cess of 2% and Secondary and Higher Education Cess of 1%. Thus, generally, duty is 12.36%. There are some exclusions, partial or full exemptions and higher duties in some cases. As per Appendix IV of CETA, the rate of additional duty on Goods of Special Importance is 8% in majority of the cases. (Section 3(1) of The Additional Duties of Excise (Goods of Special Importance) Act, 1957.

Power of Taxation under Constitution of India is as follows :

- The Central Government gets tax revenue from Income Tax (except on Agricultural Income), Excise (except on alcoholic drinks) and Customs.
- The State Governments get tax revenue from sales tax, excise from liquor and alcoholic drinks, tax on agricultural income.
- The Local Self Governments e.g. municipalities, etc. get tax revenue from entry tax and house property tax.

Article 265 provides that no tax shall be levied or collected except by authority of Law. The authority for levy of various taxes, as discussed above, has been provided for under Article 246 and the subject matters enumerated under the three lists set out in the Schedule-VII to the Constitution.

1.4 ADMINISTRATION AND RELEVANT PROCEDURES

In India, Constitution which came into effect on 26th January, 1950 is supreme and all laws and Government actions are subordinate to our Constitution. Clear understanding of concepts is vital for any discussion on taxation matters as power to levy and collect tax is derived from Constitution. If it is found that any Act, Rule, Notification or Government order is not according to the Constitution, it is illegal and void and it is called ultra vires the Constitution.

India is Union of States – The structure of Government is federal in nature. Article 1(1) of Constitution of India reads, 'India, that is Bharat, shall be a Union of States'.

Government of India (Central Government) has certain powers in respect of whole country. India is divided into various States and Union Territories and each State and Union Territory has certain powers in respect of that particular State. Thus, there are States like Gujarat, Maharashtra, Tamilnadu, Kerala, Uttar Pradesh, Punjab etc. and Union Territories like Pondicherry, Chandigarh etc.

Sources and Authority of Taxes in India

Powers of Central or State Government to levy tax		
Article	Empowers	For
246(1)	Central or State Government	Levy of various taxes
246(1)	Central Government	Levy taxes in List I of the Seventh Schedule of the Constitution.
246(3)	State Government	Levy taxes in List II of the Seventh Schedule of the Constitution.
—	Central and State Government	List III of Seventh Schedule.

Bifurcation of powers between Union and States – Article 246(1) of Constitution of India states that Parliament has exclusive powers to make laws with respect to any of matters enumerated in List I in the Seventh Schedule to Constitution (called 'Union List'). As per Article 246(3), State Government has exclusive powers to make laws for State with respect to any matter enumerated in List II of Seventh Schedule to the Constitution.

Seventh Schedule to Constitution consists of following three lists:

- List I (Union List) contains entries under exclusive jurisdiction of Union Government.
- List II (State List) contains entries under exclusive jurisdiction of States.
- List III (Concurrent List) contains entries where both Union and State Governments can exercise power. [In case of Union Territories, Union Government can make laws in respect of all the entries in all three lists].

Taxation under Constitution

Union List (List I)	State List (List II)
Only Union Government can make laws.	Only State Government can make laws.
Given in Schedule Seven of Constitution	Given in Schedule Seven of Constitution.
Important taxes in Union List	Important taxes in State List
Entry No. 82 – Tax on income other than agricultural income. Entry No. 83 – Duties of customs including export duties. Entry No. 84 – Duties of excess on tobacco and other goods manufactured or produced in India except alcoholic liquors for human consumption, opium, narcotic drugs, but including medicinal and toilet preparations containing alcoholic liquor, opium or narcotics. Entry No. 85 – Corporation Tax. Entry No. 86 – Taxes on the capital value of assets, exclusive of agricultural land, of individuals and companies; taxes on capital of companies. Entry No. 92A – Taxes on the sale or purchase of goods other than newspapers, where such sale or purchase takes place in the course of interstate trade or commerce. Entry No. 92B – Taxes on consignment of goods where such consignment takes place during interstate trade or commerce. Entry No. 92C – Tax on services [Amendment passed by Parliament on 15-1-2004, but not yet made effective]. Entry No. 97 – Any other matter not included in List II, List III and any tax not mentioned in list II or list III. (These are called 'Residual Powers'.)	Entry No. 46 – Taxes on agricultural income. Entry No. 51 – Excise duty on alcoholic liquors, opium and narcotics. Entry No. 52 – Tax on entry of goods into a local area for consumption, use or sale therein (usually called Entry Tax or Octroi). Entry No. 54 – Tax on sale or purchase of goods other than newspapers except tax on interstate sale or purchase. Entry No. 55 – Tax on advertisements other than advertisements in newspapers. Entry No. 56 – Tax on goods and passengers carried by road or inland waterways. Entry No. 59 – Tax on professions, trades, callings and employment.

List III : Concurrent List

Both union and State Government can exercise power

Given in Schedule Seven of constitution

Entry No.17A – Forest Income

Entry No. 25 – Education Income

Study Note - 2

CENTRAL EXCISE ACT, 1944

This Study Note includes

- 2.1 Constitutional Background
- 2.2 Laws Relating to Central Excise
- 2.3 Central Excise Act, 1944
- 2.4 Duties Leviable
- 2.5 Levy, Collection & Exemptions from Excise Duty
- 2.6 Goods
- 2.7 Excisability of Plant & Machinery, Waste and Scrap
- 2.8 Manufacture
- 2.9 Manufacturer
- 2.10 Classification of Goods
- 2.11 Valuation of Goods

- 2.13 Some Critical Issues in Central Excise
- 2.14 Assessable Value under Section 4
- 2.15 Value Based on Retail Sale Price
- 2.16 MRP Based Valuation
- 2.17 Assessment under Central Excise Law
- 2.18 Procedural Aspects under Central Excise Duty
- 2.19 Refund & Other Important Provisions
- 2.20 Other Procedures in Central Excise
- 2.21 Central Excise Audit and Special Audit u/s 14A and 14AA
- 2.22 Export Benefits and Procedures
- 2.23 Excise on Small Scale Industries
- 2.24 Exemption u/s 5A
- 2.25 Demands and Penalties
- 2.26 Power of Officer
- 2.27 Appeals under Excise

2.1 CONSTITUTIONAL BACKGROUND

Central Excise is a duty on excisable goods manufactured or produced in India, other than alcoholic liquor. Duty liability is principally on 'manufacturer' of excisable goods in India, except in a few cases. In majority of cases, duty rate is 12% plus Education Cess of 2% and Secondary and Higher Education Cess of 1%. Thus, generally, duty is 12.36%. There are some exclusions, partial or full exemptions and higher duties in some cases. As per Appendix IV of CETA, the rate of additional duty on Goods of special Importance is 8% in majority of the cases. (Section 3(1) of The Additional Duties of Excise (Goods of Special Importance) Act, 1957.

Power of Taxation under Constitution of India is as follows:

- (a) The Central Government gets tax revenue from Income Tax (except on Agricultural Income) as a part of Direct Taxes, Excise, Service (except on alcoholic drinks) and Customs as a part of Indirect Taxes.
- (b) The State Governments get tax revenue from sales tax, excise from liquor and alcoholic drinks, tax on agricultural income.
- (c) The Local Self Governments e.g. municipalities, etc. get tax revenue from entry tax and house property tax.

Article 265 provides that no tax shall be levied or collected except by authority of Law. The authority for levy of various taxes, as discussed above, has been provided for under Article 246 and the subject matters enumerated under the three lists set out in the Schedule-VII to the Constitution.

Difference between Direct and Indirect Taxes:

Direct Taxes	Indirect Taxes
Payer of tax and sufferer of tax one and same (i.e. impact and incidence on the same person)	Payer of tax not sufferer of tax whereas sufferer of tax is not paying directly to the Government (i.e. impact on one head and incidence on other head)
Income based taxes	Transaction based taxes
Rate of taxes are different from person to person	Rate of duties are not different from person to person
Entire revenue goes to Central Government of India	Revenue source to Central Government of India as well as State Governments
Central Board of Direct Taxes (CBDT) is an important part of Department of Revenue, Ministry of Finance (India). It plays a vital role in planning & implementing direct taxes policy in India. It also monitors direct taxes law followed by Income Tax Departments	Central Board of Excise and Customs (CBE&C) is an important part of Department of Revenue, Ministry of Finance (India). It plays a vital role in planning & implementing indirect taxes policy in India. It also monitors indirect taxes law followed by Excise and Customs Departments

Note: these differences are illustrative but not exhaustive.

2.2 LAWS RELATING TO CENTRAL EXCISE

Central Excise Act, 1944 (CEA) : The basic act which provides the constitutional power for charging of duty, valuation, powers of officers, provisions of arrests, penalty, etc.

Central Excise Tariff Act, 1985 (CETA): This classifies the goods under 96 chapters with specific codes assigned.

Central Excise Rules, 2002: The procedural aspects are laid herein. The rules are implemented after issue of notification.

Central Excise Valuation (Determination of Price of Excisable Goods) Rules, 2000: The provisions regarding the valuation of excisable goods are laid down in this rule.

Cenvat Credit Rules, 2004: The provisions relating to Cenvat Credit available and its utilization are mentioned.

Central Excise law extended to "designated areas" in continental shelf and exclusive Economic Zone of India i.e., upto 200 nautical miles from the base line of India and represents the limit till which India can be engaged in economic exploitation.

2.3 CENTRAL EXCISE ACT, 1944

The duty of Central Excise is levied if the following conditions are satisfied:

- (1) The duty is on goods.
- (2) The goods must be excisable.
- (3) The goods must be manufactured or produced.
- (4) Such manufacture or production must be in India.

In other words, unless all of these conditions are satisfied, Central Excise Duty cannot be levied. Ownership of raw material is not relevant for duty liability - Hindustan General Industries v. CCE 2003 (155) ELT 65 (CEGAT)

Example 1: In the case of **CCE v M M Khambhatwala (1996) SC**, Mr. Khambhatwala was the owner of raw material. He supplied the raw material to the household ladies who were manufacturing the 'dhoop, agarbatti; etc. in their houses. There was no control or supervision over their work and payment to the ladies was on the basis of number of pieces manufactured. It was held that the household ladies, and not Mr. Khambhatwala, were the manufacturers.

2.4 DUTIES LEVIABLE

Basic Excise Duty is levied u/s 3(1) of Central Excise Act. The section is termed as 'charging section'. General rate of duty of central excise on non-petroleum products has been increased from 10% to 12% w.e.f. 17-3-2012. (The duty rate was 14% during 1-3-2008 to 6-12-2008, which was reduced to 10% w.e.f. 7-12-2008 and to 8% w.e.f. 24-02-2009). This duty is applicable to majority of excisable goods. There is partial exemption to a few products.

Education Cess @ 2% of excise duty under section 93 of Finance (No. 2) Act (w.e.f. 9-7-2004).

Secondary and Higher Education Cess (S&H Education Cess) @ 1% of the total duties of excise vide section 136 read with section 138 of Finance Act, 2007 w.e.f. 1-3-2007.

Thus, total excise duty is 12.36%% in majority of the cases.

Example 2:	Basic Excise Duty	12.00%
	Add: 2% Education Cess on 12%	0.24%
	Add: 1% S & H Education Cess on 12%	0.12%
	Total effective rate of duty	12.36%

National Calamity Contingent Duty – A 'National Calamity Contingent Duty' (NCCD) has been imposed vide section 136 of Finance Act, 2001 on some products. NCCD of 1% has been imposed on mobile phones w.e.f. 1-3-2008.

In addition, cesses and duties have been imposed on some specified products.

2.5 LEVY, COLLECTION & EXEMPTIONS FROM EXCISE DUTY

2.5.1 What is the Taxable Event?

The taxable event is of great significance in levy of any tax or duty. Excise duty is leviable on all excisable goods, which are produced or manufactured in India. Thus, 'manufacture or production in India' of an excisable goods is a 'taxable event' for Central Excise. It becomes immaterial that duty is collected at a later stage i.e. at the time of removal of goods. Therefore, removal from factory is not the 'taxable event'.

In *UOI v Bombay Tyre International Ltd.* (1983) 14 ELT 1896 (SC), the Supreme Court of India had held that while the levy of duty of excise is on manufacture or production of the goods, taxable event is with reference to manufacture.

Example 3:

Product X is produced on 1st February 2013 by X Ltd. On that date X is an excisable commodity with a tariff rate of 12%. Subsequently on 31st March, 2013 Product X was removed from the factory. Hence, the taxable event is on 1st November 2012 and not on 31st December 2012.

2.5.2 Who is Liable to Pay Duty?

Rule 4(1) of the Central Excise Rules, 2002 provides that every person who produces or manufactures any excisable goods, or who stores such goods in a warehouse, shall pay the duty leviable on such goods in the manner provided in Rule 8 or under any other law, and no excisable goods, on which any duty is payable, shall be removed without payment of duty from any place, where they are produced or manufactured or from a warehouse, unless otherwise provided.

It is provided that the goods falling under Chapter 61 or 62 of the First Schedule to the Tariff Act, produced or manufactured by a job worker may be removed without payment of duty leviable thereon and the duty of excise leviable on such goods shall be paid by the person referred to in sub-rule (3), as if such goods have been produced or manufactured by him, on the date of removal of such goods from his premises registered under rule 9.

Explanation – Where such person has authorized the job worker to pay the duty leviable on such goods under sub-rule (3), such duty shall be paid by the job worker on the date of removal of such goods from his registered premises.

Rule 4(2) provides that notwithstanding anything contained in sub-rule (1), where molasses are produced in a khandsari sugar factory, the person who procures such molasses, whether directly from such factory or otherwise, for use in the manufacture of any commodity, whether or not excisable, shall pay the duty leviable on such molasses, in the same manner as if such molasses have been produced by the procurer.

Rule 4(3) provides that notwithstanding anything contained in sub-rule (1), every person who gets the goods, falling under Chapter 61 or 62 of the First Schedule to the Tariff Act, produced or manufactured on his account on job work, shall pay the duty leviable on such goods, at such time and in such manner as may be specified under these rules, whether the payment of such duty be secured by bond or otherwise, as if such goods have been manufactured by such person.

Provided that such person may authorize the job worker to pay the duty leviable on such goods on his behalf and the job worker so authorized, undertake to discharge all liabilities and comply with all the provisions of these rules.

From the above discussion it can be concluded that the following persons shall be liable to pay excise duty :

- (I) A person, who produces or manufactures any excisable goods,
- (II) A person, who stores excisable goods in a warehouse,
- (III) In case of molasses, the person who procures such molasses,
- (IV) In case goods are produced or manufactured on job work,
 - (a) the person on whose account goods are produced or manufactured by the job work, or
 - (b) the job worker, where such person authorizes the job worker to pay the duty leviable on such goods.

2.5.3 Liability to Excise Duty

Section 3(1) provides that there shall be levied and collected in such manner, as may be prescribed:

- (a) a duty of excise to be called the Central Value Added Tax (CENVAT), on all excisable goods which are produced or manufactured in India as, and at the rates, set forth in the First Schedule to the Central Excise Tariff Act, 1985;
- (b) a special duty of excise, in addition to the duty of excise specified in clause (a) above, on excisable goods specified in the Second Schedule to the Central Excise Tariff Act, 1985, which are produced or manufactured in India, as, and at the rates, set forth in the said Second Schedule :

Provided that the duties of excise which shall be levied and collected on any excisable goods which are produced or manufactured:

- (i) in a Free Trade Zone or a Special Economic Zone and brought to any other place in India (omitted w.e.f. 11-5-2007); or
- (ii) by a hundred per cent Export Oriented Undertaking and brought to any other place in India, shall be an amount equal to the aggregate of the duties of customs which would be leviable under the Customs Act, 1962 or any other law for the time being in force on like goods produced or manufactured outside India if imported into India, and where the said duties of customs are chargeable by reference to their value.

2.5.4 Exemption on DTA Clearance by 100% EOU [Notification no. 23/2003-C.E., Dated 31.3.2003]

DTA clearances by 100% EOU are exempt from-

- (a) 50% of the basic duties leviable thereon ;
- (b) Additional duty of customs u/s 3(5) of customs tariff Act, 1975. Exemption from additional duty is available only if the goods so removed are not exempt from payment of sales tax/VAT in India.

2.5.5 Collection of Excise Duty

For collection of Central Excise Duty, the following two procedures are followed by the Central Excise Department:

- (i) **Physical Control Procedure:** Applicable to cigarettes only. In this case, assessment is done by Central Excise Officer and thereafter goods are removed under his supervision under cover of an invoice countersigned by him.
- (ii) **Self-Removal Procedure:** Applicable to all other goods produced or manufactured within the country. Under this system, the assessee himself determines the duty liability on the goods and clears the goods.

2.5.6 Exemptions from Levy of Excise Duty

Section 5A of the Central Excise Act, 1944 empowers the Central Government to grant Exemption from levy of excise duty and lays down the provisions relating thereto:

(1) Power to Notify Exemptions in Public Interest

Section 5A(1) provides that the Central Government is empowered to exempt in the public interest, any excisable goods from the levy of whole or any part of excise duty. Such exemption may be granted either absolutely or subject to such conditions, as may be specified in the Notification.

Exceptions — However, unless specifically provided in such notification, no exemption shall apply to excisable goods, which are produced or manufactured :

- (i) in a Free Trade Zone or Special Economic Zone and brought to any other place in India; or
- (ii) by a hundred per cent Export Oriented Undertaking and brought to any place in India.

(2) Exemption in public interest

Section 5A(2) provides that if the Central Government is satisfied that it is necessary in the public interest so to do, it may, by special order in each case, exempt from payment of duty of excise, under circumstances of an exceptional nature to be stated in such order, any excisable goods on which duty of excise is leviable.

(3) Notification may provide for different method of levy of duty as well

Section 5A(3) provides that an exemption in respect of any excisable goods from any part of the duty of excise leviable thereon may be granted by providing for the levy of a duty on such goods at a rate expressed in a form or method different from the form or method in which the statutory duty is leviable and any exemption granted in relation to any excisable goods in the manner provided in this sub-section shall have effect subject to the condition that the duty of excise chargeable on such goods shall in no case exceed the duty statutorily payable.

Section 5A(2A) provides that the Central Government may, if it considers it necessary or expedient so to do for the purpose of clarifying the scope or applicability of any notification issued or order issued, insert an Explanation in such notification or order, as the case may be, by notification in the Official Gazette at any time within one year of issue of the notification or order, and every such Explanation shall have effect as if it had always been the part of the first such notification or order, as the case may be.

2.6 GOODS

"Goods" has not been defined in the central Excise Act, 1944.

As per Article 366(12) of the Constitution of India, "Goods" means all articles, materials and commodities.

Section 2(7) of Sale of Goods Act, 1930 defines 'Goods' to mean every kind of movable property other than actionable claims and money and includes stocks and shares, growing crops, grass and things attached to and forming part of the land, which are agreed to be severed before sale or under the contract of sale.

These articles, materials and commodities must be movable and marketable. [Decision of the Supreme Court of India in the case of Union of India vs Delhi Cloth and General Mills Ltd (1977)].

Those movable and marketable goods must be excisable goods as per section 2(d) of the Central Excise Act, 1944. Those excisable goods must be manufactured in India as per section 2(f) of the Central Excise Act, 1944 which includes any process incidental or ancillary to the completion of the manufactured product. [Decision of the Supreme Court in the case of Wallace Flour Mills Ltd Vs Commissioner of Central Excise (1989)].

Basic conditions for levy of Duty Under Section 3

It is obvious from section 3(1) that, to attract excise duty, the following conditions must be fulfilled:

- There should be movable goods;
- The goods must be excisable;
- The goods must be manufactured or produced; and
- The manufacture or production must be in India.

Goods manufactured or produced in SEZ are "excluded excisable goods". This means, that the goods manufactured or produced in SEZ are "excisable goods" but no duty is leviable, as charging section 3(1) excludes these goods. Thus, the goods manufactured in SEZ are not "exempted goods". They can be termed as "excluded excisable goods".

As per explanation to section 2(d), 'goods' includes any article, material or substance which is capable of being bought and sold for a consideration and such goods shall be deemed to be marketable'.

Basic Ingredients

From the above definitions of 'goods', the two essential elements of goods are emanated:

- (i) They should be movable, and
- (ii) They should be marketable.

2.6.1 Goods must be Movable

In order to be movable, an article must fulfill two conditions:

- (i) It should come into existence (as a result of manufacture); and
- (ii) It should be capable of being moved to market to be bought and sold.

Thus, goods must exist. Where goods have not come into existence, they cannot be moved as well. So long as the goods have not come into existence, no question of levy of excise duty would arise. It has been observed that the word 'manufacture' or 'production' are associated with movables.

In *Municipal Corporation of Greater Mumbai v. Union of India*, a petrol pump of huge storage capacity which was not embedded to earth but which could not be removed without dismantling was held to be immovable in nature.

In *Sirpur Papers Mills Ltd. V. CCE* the machinery embedded to a concrete base to ensure its wobble free operation was held to be a movable property.

CBEC has clarified that whatever is attached to earth, unless it is like a tree/building/similar thing, shall not necessarily be regarded as immovable property if the whole purpose behind such attaching to the concrete base is to secure maximum operational efficiency and safety.

Thus, excise duty cannot be levied on immovable property.

Example 4: A Ltd. was engaged in fabrication, assembly and erection of waste treatment plant. The plant could not function as such until it was wholly built including civil construction. A Ltd. purchased duty paid parts of water treatment plant in unassembled form and assembled to the ground with civil work. Hence, excise duty is not required to pay. Because, the product emerges as immovable in nature. *Larsen & Toubro Limited v UOI 2009 (243) ELT 662 (Bom)*.

Waste Water Treatment Plant is an immovable property

Example 5: M/s X Ltd., engaged in the manufacture of drums mix/hot mix plant by assembling and installing its parts and components. The machine is fixed by nuts and bolts to a foundation not because the intention was to permanently attach it to the earth, but because a foundation was necessary to provide a wobble free operation to the machine. Hence, the Supreme Court held that the plants in question were not immovable property. Consequently, duty would be levied on them [*CCE v Solid & Correct Engineering Works and Ors 2010 (252) ELT 48 1 (SC)*].

Drum Mix Plant

Hot Mix Plant

2.6.2 Goods must be Marketable

Marketability denotes the capability of a product, of being put into the market for sale. Where goods are not marketable, excise duty cannot be charged on them. Marketability is the decisive test for durability. The article must be capable of being sold to consumer without any additional thing.

The test of marketability will depend on the facts and circumstances of each case. It is a question of fact. The vendibility or marketability test includes the following three essential components: -

- (a) the goods should be capable of being sold in the market,
- (b) the goods should be capable of being sold ordinarily, and
- (c) the goods should be capable of being sold as such.

The following points can be noted –

- i. Marketability is to be decided on the basis of condition in which goods are manufactured or produced.
- ii. Everything that is sold is not necessarily 'marketable'.
- iii. Waste and Scrap can be 'goods' but dutiable only if 'manufactured' and are mentioned in Tariff.
- iv. The marketability test requires that the goods as such should be in a position to be taken to market and sold. If they have to be separated, the test is not satisfied. Thus, if machinery has to be dismantled before removal, it will not be goods - *Triveni Engineering v. CCE* AIR 2000 SC 2896 = 2000 AIR SCW 3144 = 40 RLT 1 = 120 ELT 273 (SC).
- v. Branded Software is goods. However, service tax will be payable on tailor made software (w.e.f. Finance Act, 2008).

Shelf-life of 2 to 3 days sufficient for Marketability

The Apex Court namely the Supreme Court ruled that short shelf-life could not be equated with no shelf-life. A shelf-life of 2 to 3 days was sufficiently long enough for a product to be commercially marketed. Shelf-life of a product would not be a relevant factor to test the marketability of a product unless it was shown that the product had absolutely no shelf-life or the shelf-life of the product was such that it was not capable of being brought or sold during that shelf-life.

Hence, product with the shelf life of 2 to 3 days was marketable and hence, excisable [*Nicholas Piramal India Ltd v CCE*, Mumbai 2010 (260) ELT 338 (SC)].

Theoretical possibility of product being sold is not sufficient to establish the marketability of a product:

It means to say that a product known in the market with a nomenclature is not sufficient for marketability unless for the said product there is a buyer to buy it.

Example 6: *M/s X Ltd.* manufactured Double Textured Rubberized Fabric (i.e. upper lace of the shoe) and removed from the factory for job work, it has no marketability, because the said product known in the market with no buyer [*Bata India Ltd. v CCE* 2010 (252) ELT 492 (SC)].

Case Laws

- (a) *In Cipla Ltd. V Union of India*, it was held by the Karnataka High Court that for dutiability, a product must pass the test of marketability, even if it is a transient item captively consumed in the manufacture of other finished goods and that the onus is on the Department to produce evidence of marketability.
- (b) *In UOI v Indian Aluminium Co. Ltd. v CCE*, the Supreme Court held that marketability of a product must be for its dutiability. Mere manufacture or specification of an article in Tariff is not enough.
- (c) *In Bhor Industries Ltd. v CCE*, the Supreme Court held that the mere inclusion of a particular article

in the Tariff Schedule will not render it liable to excise duty. The marketability of that article is of primary importance. The decision given in this case was a turning point because prior to this decision, it was normal to treat all goods in the Tariff Schedule, as chargeable to duty regardless of the test of marketability.

- (d) *In Union Carbide India Ltd. v UOI & Geep Industrial Syndicate Ltd. v Central Government*, the Supreme Court held that intermediate products, which were in a crude form, would not constitute goods. In this case, aluminium cans produced by the extrusion process were not to be goods, as they were neither capable of being sold nor were marketable.

Example 7: concept of immovability and marketability has been explained in the following lines:

*Bags are movable and marketable
Excise Duty can be levied on bags*

*Commercial buildings are immovable even
though marketable Excise Duty cannot be levied
on commercial buildings*

2.6.3 Excisable Goods

Section 2(d) of Central Excise Act defines Excisable Goods as 'Goods specified in the Schedule to Central Excise Tariff Act, 1985 as being subject to a duty of excise and includes salt. As per explanation to section 2(d), 'goods' includes any article, material or substance which is capable of being bought and sold for a consideration and such goods shall be deemed to be marketable'. Thus, unless the item is specified in the Central Excise Tariff Act as subject to duty, no duty is leviable.

In terms of the above definition of 'Excisable Goods, it may be held that all those goods, which are specified in the Tariff Schedule are 'Excisable Goods'. However, question arises as to whether those goods, which are exempted from duty by a notification, but find a place in the tariff schedule, are excisable goods. To answer this question we should know two terms namely dutiable goods and non-dutiable goods.

- i. Dutiable goods mean excisable goods which has rate of duty greater than 2% per cent.
- ii. Non-dutiable goods or exempted goods mean excisable goods which has rate of duty nil or 0% or 1% or 2%.

Therefore, both dutiable and non-dutiable goods are called as excisable goods.

Note: The rate of duty of 1% imposed on 130 items in the last Budget has been increased to 2%. The exceptions to this increase are:

- i) Goods of heading no. 2701, i.e. coal;
- ii) All goods of Chapter 31, other than those clearly not to be used as fertilizers;
- iii) Articles of jewellery of heading 7113; and
- iv) Mobile handsets and cellular phones of heading 8517.

Impact: Manufacturers paying excise duty @1% or 2% as the case may be are not eligible for claiming CENVAT Credit. Since, these goods are called as exempted goods.

By analyzing the definition, the following two important ingredients of excisable goods are found :

- Goods must be specified in the Schedule to the Central Excise Tariff Act, 1985;
- The goods so specified must be subject to duty.
- "Non-Excisable goods" are that goods which has not been very clearly mentioned in the Central Excise Tariff Act before they are manufactured.

2.6.4. The goods must be Manufactured or Produced in India

The term manufacture as understood under excise law refers to a process involving the conversion of an input into a completely different output. Goods manufactured in special economic zone are not exigible to excise duty as they are excluded from the scope of charging provisions of section 3 of Central Excise Act, 1944. However the goods manufactured by 100% EOU will be attracted if goods are cleared for domestic tariff area.

Excisable Goods manufactured in the state of Jammu and Kashmir attracts the excise duty since, the Central Excise Act, 1944 extended to the whole of India.

The Central Excise Act, 1944 has been extended to the designated areas in the Continental Shelf and Exclusive Economic Zone (EEZ) of India (vide Notification No. 166/87-CE, dated 11.6.1987).

Exclusive Economic Zone extends to 200 nautical miles from the base line of the coast. It means goods manufactured outside EEZ excise duty does not attract.

The entire concept of Goods Manufactured in India has been explained in the following diagram:

2.7 EXCISABILITY OF PLANT & MACHINERY, WASTE AND SCRAP

2.7.1 Excisability of Plant & Machinery

In view of Entry No. 84 of List-I Seventh Schedule to the Constitution of India, duty of excise could be levied only on goods and not on immovable property. The goods are classified and charged to duty according to the state and condition in which they are removed from the factory.

Assembly of Plant & Machinery at Site:

Mere bringing together of parts of a plant and machinery at site cannot be termed to be manufacture and hence, assembled plant cannot be treated to be goods.

Where assembly of parts and components brings out a different recognizable marketable product, before its installation or erection or attachment to the earth, it would be goods and hence chargeable to duty.

In *Sirpur Paper Mills Ltd. v CCE*, the Supreme Court held that machinery assembled and erected at site from bought out component was held to be goods and hence chargeable to duty, as it was attached to earth for operational efficiency and could be removed and sold.

However, in *Triveni Engineering v CCE* the Supreme Court overruled its decision given in *Sirpur* case and held that the marketability test, essentially, requires that goods should be in such condition, as could be brought as such to the market and sold, but if machinery requires dismantling before removal, it cannot be goods and hence, not chargeable to duty.

2.7.2 Excisability of Waste & Scrap

Section 3 imposes duty on manufacture of goods. Waste and scrap are not manufactured, but arise as a result of manufacture of the final product. Therefore, generally, there should not be levied any tax on the waste and scrap. Thus, waste and scrap can be 'goods' but dutiable only if 'manufactured' and are mentioned in Tariff.

In view of the amendment made by the Finance Act, 2008 in the definition of excisable goods under Section 2(d) of the Central Excise Act, 1944, which include bagasse, aluminium/zinc dross and other such products termed as waste, residue or refuse which arise during the course of manufacture and are capable of being sold for consideration would be excisable goods and chargeable to payment of excise duty [Circular No. 904/24/09-CX, dated 28.10.2009].

Case Laws

In 1987 in the case of *Modi Rubber Ltd.*, it was held that even though the waste was capable of fetching some amount of sale, it would not be chargeable to excise duty. Similar decision was given in the case of *Captainganj Distilleries*.

Later in 1989, the criteria for determining, whether waste generated would be excisable or not was laid down in the case of *Asiatic Oxygen Limited v CCE*. The Tribunal held that the question as to whether waste would be charged to duty or not would depend on:

- (a) whether a process of manufacture has taken place,
- (b) whether the waste generated is marketable, and
- (c) whether the product named in the Tariff.

2.8 MANUFACTURE

Any taxable event for central excise duty is manufacture or production in India. The word 'produced' is broader than 'manufacture' and covers articles produced naturally, live products, waste, scrap etc. Manufacture means to make, to inset, to fabricate, or to produce an article by hand, by machinery or by other agency. To manufacture is to produce something new, out of existing materials.

i. 'Manufacture' means :

- (a) Manufacture as specified in various Court decisions i.e. new and identifiable product having a *distinctive name, character or use must emerge or*
- (b) Deemed Manufacture.

ii. Deemed Manufacture is of two types –

- (a) CETA specifies some processes as 'amounting to manufacture'. If any of these processes are carried out, goods will be said to be manufactured, even if as per Court decisions, the process may not amount to 'manufacture', [Section 2(f)(ii)].

- (b) In respect of goods specified in Third Schedule to Central Excise Act, repacking, re-labelling, putting or altering retail sale price etc. will be 'manufacture'. The goods included in Third Schedule of Central Excise Act are same as those on which excise duty is payable u/s 4A on basis of MRP printed on the package. [Section 2(f) (iii) w.e.f. 14-5-2003].

2.8.1 Definition

Section 2(f) defines the term 'Manufacture' to include any process:

- (i) incidental or ancillary to the completion of a manufactured product; and
- (ii) which is specified in relation to any goods in the Section or Chapter Notes of the Schedule to the Central Excise Tariff Act, 1985, as amounting to manufacture or,
- (iii) which, in relation to the goods specified in the Third Schedule, involves packing or repacking of such goods in a unit container or labeling or re-labelling of containers including the declaration or alteration of retail sale price on it or adoption of any other treatment on the goods to render the product marketable to the consumer. And the word "manufacturer" shall be construed accordingly and shall include not only a person who employs hired labour in the production or manufacture of excisable goods, but also any person who engages in their production or manufacture on his own account.

[Clauses (ii) and (iii) are called Deemed Manufacture]

And the word "manufacturer" shall be construed accordingly and shall include not only a person who employs hired labour in the production or manufacture of excisable goods, but also any person who engages in their production or manufacture on his own account".

Thus, according to the above definition, the manufacturer is a person:

- (a) who manufactures or produces any excisable goods, or
- (b) carries on any process incidental or ancillary to the completion of the manufactured products.

Case Laws

It was decided in the case of "Union of India v Delhi Cloth & General Mills Ltd" that, the manufacturer of vanaspati used to purchase oil from market and vanaspati was manufactured after subjecting the oil with various processes. The excise was paid on vanaspati. The Excise Department contended that during the process of manufacture of vanaspati, vegetable non-essential oil was produced, which is a separate dutiable product. The court decided that :

Manufacture implies a change, but every change is not manufacture and yet every change of an article is the result of treatment, labour and manipulations. But something more is necessary and there must be transformation; a new and different article must emerge having a distinctive name and character or use."

Based on the above definition, the Court held that mere processing of basic oils did not amount to manufacture, because it is not marketable product. The refined oil requires deodorization before marketing.

In *South Bihar Sugar Mills Ltd. v UOI* the Supreme Court held that there must be such a transformation that a new and different article must emerge having a distinctive name.

In *Ujagar Prints v UOI*, the Supreme Court held that the generally accepted test to ascertain whether there was a manufacture, is whether the change or the series of changes brought about by the application of processes should take the commodity to the point, where commercially can no longer be regarded as the original commodity, but instead is recognized as a distinct and new article that has emerged out of and because of the result of processes.

Example 8: X Ltd is engaged in the activity of conversion of gray into embroidered dyed cloth. In the course of the various activities it gets the sizing done by S and dyeing by D. The cost of gray cloth is

₹ 50 per meter. S charges ₹ 10 per meter for sizing and D charges ₹ 30 per meter. The finished product is sold by A Ltd for ₹ 100 per meter. In the context of Central Excise Act, 1944, is there any manufacture involved? Who will be regarded as the manufacturer in this situation?

Answer:

As per the decided case law of the Supreme Court in *Ujagar Paints v Union of India* (1998), the end product should be one which is distinctive in name, usage and commercial character. In the given case, consequent to the value addition made to the grey cloth which is the input, the end product which emerges is commercially different with its own price structure, customs and commercial incidents. Hence, there is manufacture within the meaning of section 2(f) of the Central Excise Act, 1944.

It is not necessary that manufacturer should be the owner of the end product. Hence, in the given case, S and D will be regarded as manufacturers.

2.8.2 Assembly or Repair or Production- Whether the same is Manufacture

Assembly involves use of certain duty paid components to bring into existence an operational or functional product. As per the cardinal list laid down by the Supreme Court in *Emperor Industries case*, "any process would amount to manufacture if as a result of the said process the object has been transferred into a commercially known new and different product".

Thus, where assembly brings into existence of a new commercially known different product, however minor the consequent change, it would amount to manufacture.

Example 9: M/s Antony India Ltd. imported various components of TV (i.e T.V parts) in different consignments separately. They assembled these parts to bring into existence TV, it is a complicated procedure. Therefore, components cannot be considered as if they were finished goods. Hence, assembling of TV parts called as manufacture.

However, in *Enfield India Ltd. case* the tribunal held that an assembly, repair or reconditioning only improves the quality of performance of something which is not otherwise useful or fit to use, it would be manufacture.

Explanation as to what is not Manufacture

Any activity shall not be deemed to be manufacture, only because it has been so written in the licence granted. The following are not manufacture :

- (a) Natural activity, even if carried otherwise, e.g. drying yarn in natural sun;
- (b) Processing of duty paid goods;
- (c) Purchasing various item and putting into a container and selling them;
- (d) Obtaining of natural products;
- (e) Testing/quality control of items manufactured by others;
- (f) Cutting and polishing of diamond;
- (g) Upgradation of computer system;
- (h) Printing on glass bottles;
- (i) Affixing brand name;
- (j) Crushing of boulders into smaller stones.

Example 10: Cigarettes were wrapped in it with the help of roll of Aluminum Foil. It did not change the nature and substance of foil. The said process did not render any marketable value, only made it usable for packing. *CCE v. GTC Industries Ltd. 2011 (266) E.L.T. 160 (Bom.)*.

2.8.3 Explanation about Incidental & Ancillary Process

'Incidental' means anything that occurs incidentally. It refers to occasional or casual process.

'Ancillary' means auxiliary process, which unless pursued, shall not result into manufacture of the product. The definition of 'manufacture' under section 2(f), includes the processes which are 'incidental or ancillary to the completion of a manufactured product'. A process can be regarded as incidental or ancillary to the completion of the manufactured product, if it comes in relation to the finished product. It is immaterial whether the process is significant or inessential. On the other hand, where a process is not connected to the manufacture of the final product, it cannot be termed as incidental or ancillary.

Example 11: Mr. Ram use to purchase duty paid MS tubes from its manufacturers and cut the same into requisite length. Thereafter, put it in the swaging machine for undertaking swaging process whereby dies fitted in the machine imparted “folds” to the flat surface of the MS tube/pipe. The Department took the plea that swaging process amounted to manufacture and hence duty was payable on the goods manufactured by Mr. Ram.

Answer:

As per Section 2(f) of the Central Excise Act, 1944, Manufacture includes ‘any process incidental or ancillary to the completion of a manufactured product’. However, input and output must be different with each other. Therefore, the process of swaging amounts to manufacture. Mr. Ram was liable to pay the duty. [*Prachi Industries v CCEx., Chandigarh 2008 (225) ELT 16 (SC)*]

Intermediate Products & Captive Consumption

The definition of manufacture under section 2(f) implies that manufacture would take place even at an intermediate stage, so long as the intermediate product is commercially and distinctly identifiable.

Intermediate products are such products, which are produced in a process naturally in the course of manufacture of a finished product, which involves more than one process. Thus, such products are output of one process and input for the subsequent process. Captive consumption means consumption of such output of one process in the subsequent process. Generally, the intermediate products do not have any marketable identity and can hardly be sold in the market.

In the case of *JK Spinning & Weaving Mills v UOI* the Supreme Court held that the captive consumption would amount to removal, hence chargeable to duty. However, in *Union Carbide v UOI*, the Supreme Court held that an intermediate product would be chargeable to excise duty, only if it is a complete product and can be sold in the market to a consumer. This decision was affirmed in *Bhor Industries v UOI*.

2.9 MANUFACTURER

Manufacturer is the person who actually brings new and identifiable product into existence.

- (i) Duty liability is on manufacturer in most of the cases.
- (ii) Mere supplier of raw material or brand name owner is not ‘manufacturer’.
- (iii) Loan licensee is not ‘manufacturer’.

Loan licensee can be treated as manufacturer only if the manufacture is carried out by use of his own raw material under his own supervision by hiring the premises and equipment shift-wise or otherwise.

Exception:

2.9.1 Brand owners Liable to pay Excise Duty (w.e.f. 1-3-2011)

In case of ready-made garments and made-up articles of textiles manufactured on job-work basis, liability to pay excise duty and comply with the provisions of the Central Excise Rules, 2002 is on the merchant manufacturer (i.e. person on whose behalf the goods are manufactured by job workers, namely owner of raw materials), as per rule 4(1A) of the Central Excise Rules, 2002 (vide Notification No. 4/2011 C.E. dt. 1-3-2011).

Example 12: X Pvt. Ltd is job worker located at Tambaram South, Chennai, received raw material for manufacture of articles of apparels, clothing accessories, knitted or crocheted and worn clothing from Peter England a brand owner. Hence, the liability to pay excise duty is on brand owner namely Peter England.

2.9.2 Manufacturer as per Statute

The following are held to be manufacturer:

- (a) Person manufacturing for own consumption,
- (b) Person hiring labour or employees for manufacturing,
- (c) A job-order worker,
- (d) A contractor.

2.9.3 Person not considered as Manufacturer

The following have been held as not to be a manufacturer :

- (a) Where an activity is not a manufacture;
- (b) Brand Owners, if their relation with the manufacturer is 'Principal to Principal' basis.
- (c) Labour Contractors, who supply labor;
- (d) Loan licensee.
- (e) Raw material supplier is not manufacturer

Example 13: Assessee repairs his worn out machineries /parts with the help of welding electrodes, mild steel, cutting tools, M.S. Channel, M.S. Beam etc, in this process M.S. Scrap and Iron Scrap generated. Repairing activity in any possible manner cannot be called as a part of manufacturing activity in relation to production of end product. The generation of metal scrap or waste during the repair of worn out machineries/parts of cement manufacturing plant does not amount to manufacture. *GRASIM INDUSTRIES LTD v UOI 2011 (273) E.L.T 10 (S.C.)*

2.9.4 Dutiability of Packing, Labelling and Repacking Activities

Section 2(f), defines 'Manufacture' to include any process, which is specified in relation to any goods in the Section or Chapter notes of the Schedule to the Central Excise Tariff Act, 1985 (CETA) as amounting to manufacture. Thus, the process may not amount to manufacture as per principles evolved by Courts, but the same may be liable to excise duty, if it is defined as amounting to manufacture under CETA.

This provision seemingly includes the process like packing, labeling, re-labelling, re-packing into manufacture, though otherwise these processes are not 'manufacture' as no new product emerges. In fact, these processes are adjunct to manufacture. The manufacture shall be complete only when the product is rendered marketable and movable and for this purpose packing is an inevitable process. Therefore, packing and associated with that the labeling is a part of the manufacturing process.

In *CCE v Prabhat Packaging Ltd.*, the Tribunal has held that repacking of an already manufactured product would not amount to manufacture in excise law, since repacking does not result into a new commercially distinct product.

Labelling on packaged products is also not manufacture, since in the common market parlance a labeled and unlabelled product is treated as the same product and the distinction as such is made. The principle was affirmed in the case of *Pioneer Tools and Appliances Ltd. v UOI* by the Bombay High Court.

2.10 CLASSIFICATION OF GOODS

Central Excise Duty is chargeable on the goods, which are manufactured in India and are subject to excise duty. However, all goods cannot be charged with the same rate of duty. Therefore, the goods need to be grouped into separate categories and sub-categories, for which the rate of excise duty may be determined. This identification of goods through groups and sub-groups is called classification of goods.

The rate of duty is found out by classifying the product in its appropriate heading under Central Excise Tariff. The Central Excise Tariff Act, 1985 (CETA) classifies all the goods under 96 chapters and specific code is assigned to each item. CETA is based on International Convention of Harmonised System of Nomenclature (HSN), which is developed by World Customs Organisation (WCO) (That time called as Customs Cooperation Council). This is an International Nomenclature standard adopted by most of the Countries to ensure uniformity in classification in International Trade. HSN is a multi purpose 6 digit nomenclature classifying goods in various groups. Central Excise Tariff is divided in 20 broad sections. Section Notes are given at the beginning of each Section, which govern entries in that Section. Each of the sections is divided into various Chapters and each Chapter contains goods of one class. Chapter Notes are given at the beginning of each Chapter, which govern entries in that Chapter. There are 96 chapters in Central Excise Tariff. Each chapter and sub-chapter is further divided into various headings and sub-headings depending on different types of goods belonging to same class of products.

The Central Excise Tariff Act, 1985 (CETA) came into force w.e.f. 28th February, 1986.

The main features of the Excise Tariff are:

- The Central Excise Tariff has been made very detailed and comprehensive as all the technical and legal aspects in relation to goods have been incorporated in it.
- The Excise Tariff is based on the Harmonised System of Nomenclature, which is an internationally accepted product coding system formulated under the GATT.
- The goods of the same class have been grouped together to bring about parity in treatment and restrict the dispute in classification matter.
- The Central Excise Tariff provided detailed clarificatory notes under each section/chapter.
- The interpretation of the Tariff have been provided for at the beginning of the Schedule. All the section notes, chapter notes and rules for interpretation are legal notes and/therefore serve as statutory guidelines in classification of goods.
- The Tariff is designed to group all the goods relating to one industry under one chapter from one raw material in a progressive manner.

2.10.1 Harmonised System of Nomenclature (HSN)

Goods are classified under Central Excise Tariff Act based on the "Harmonized System of Nomenclature" having eight digit classifications. All goods are classified using 4 digit system. These are called 'headings'. Further 2 digits are added for sub-classification, which are termed as 'sub-headings'. Further 2 digits are added for sub-sub-classification, which is termed as 'tariff item'. Rate of duty is indicated against each 'tariff item' and not against heading or sub-heading.

Harmonised System of Nomenclature (HSN) is an internationally accepted product coding system, formulated to facilitate trade flow and analysis of trade statistics. The system was developed by World Customs Organisation (WCO), which was earlier known as Customs Cooperative Council. HSN was adopted by International Convention of Harmonised System of Nomenclature.

The CETA is also based on the HSN pattern, of course, with some deviation. HSN has got commercial as well as judicial recognition.

Example 14:

Chapter	XXXX
Sub Chapter	XXXX
Heading	- - - - - (Four digits)
Sub-heading	----- (Six digits)
Tariff Item	----- (Eight digits)
Rate	%

2.10.2 Trade Parlance Theory/ Commercial Parlance

If a product is not defined in the Schedules and Section Notes and Chapter Notes of the Central Excise Tariff Act, 1985, then it should be classified according to its popular meaning attached to it by those dealing with it i.e., in its commercial sense.

2.10.3 Interpretative Rules of CETA

The Central Excise Tariff Act, 1985 incorporates SIX Rules of interpretation, which together provide necessary guidelines for classification of various products under the schedule. Rules for Interpretation of Schedule to Tariff are given in the Tariff itself. These are termed as 'General Interpretative Rules' (GIR). GIR (General Interpretative Rules) are to be applied for interpretation of Tariff, if classification is not possible on the basis of tariff entry and relevant chapter notes and section notes. Following are the steps of classification of a product.

- (1) Refer the heading and sub-heading. Read corresponding Section Notes and Chapter Notes. If there is no ambiguity or confusion, the classification is final (Rule 1 of GIR). You do not have to look to classification rules or trade practice or dictionary meaning. If classification is not possible, then only to GIR. The rules are to be applied sequentially.

Example 15: Mr. A manufactured wooden table. There is no ambiguity or confusion while classifying the said product. Hence, the said product can be classified as wooden table.

- (2) If meaning of word is not clear, refer to trade practice. If trade understanding of a product cannot be established, find technical or dictionary meaning of the term used in the tariff. You may also refer to BIS or other standards, but trade parlance is most important.

Example 16: Glass mirror cannot be classified as Glass and Glassware because glass loses its basic character after it is converted into mirror. It means that mirror has the reflective function [Atul Glass Industries Ltd v CCE (SC) (1986)]

Example 17: M/s. Baidyanath Ayurved Bhawan Limited manufacturing a product called "Dant Manjan Lal" (DML). The assessee contended that the product DML was a medicament under Chapter sub-heading 3003.31 of the Central Excise Tariff Act, 1985. However, the stand of the Department was that the said product was a cosmetic/toiletry preparation/tooth powder classifiable under Chapter heading 33.06, by considering common parlance test.

As long as product has popular meaning and understanding which is attached to such products by those using the product and not to the scientific and technical meaning of the terms and expressions used. Hence, it is important to note how the consumer looks at a product and his perception in respect of such product.

Moreover, merely because there is some change in the tariff entries, the product may not change its character. Therefore, it has to be classified as a tooth powder and falls under cosmetics.

Hence, the Department stand is correct. *CCEx., Nagpur v Shree Baidyanath Ayurved Bhawan Ltd. 2009 (237) ELT 225 (SC)*

- (3) If goods are incomplete or un-finished, but classification of finished product is known, find if the un-finished item has essential characteristics of finished goods. If so, classify in same heading - Rule 2(a).

Example 18: Motor Car not fitted with wheels or tyres will be classified under the heading of Motor Vehicle.

- (4) Mixture or Combinations of goods falls under different classifications –Rule 2(b):

Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance. The classification of goods consisting of more than one material or substance shall be according to the principles of rule 3.

Example 19: The Motor Car contains the stereo (music system), here two different products namely Motor Vehicle and Electronic System, hence we have to refer the Rule 3 for solution. It means to say that if Rule 2(b) is applied, or for any other reason, goods are prima facie classifiable with two or more headings then classification shall be under Rule 3.

- (5) If ambiguity persists, find out which heading is specific and which heading is more general. Prefer specific heading:- Rule 3(a).

Example 20: Electrical lighting used for motor vehicles is more specifically classified as part of motor vehicle.

- (6) If problem is not resolved by Rule 3(a), find which material or component is giving 'essential character' to the goods in question - Rule 3(b).

Example 21: Cell phone which consist a calculator will be called as Cell phone and not a Calculator. It means to say that the classification should be done according to its main function and additional function may be ignored.

- (7) If both are equally specific, find which comes last in the Tariff and take it - Rule 3(c).

Example 22: If a product by virtue of its essential character comes under two headings namely 8512 and 8513 equally then the said product can be classified under the heading 8513 (i.e. Latter the better)

- (8) If you are unable to find any entry which matches the goods in question, find goods which are most akin - Rule 4.

Example 23: Manufacturer manufacturing the following products can be understood as most akin products:

- (a) Window mirror of the car
- (b) Front mirror of the car

- (9) Packing material is to be classified in the heading in which the goods packed are classified – Rule 5.

Example 24: packing material used as cases for camera classifiable as camera product.

- (10) Goods compared at the same level of sub-headings- Rule 6: The classification of goods in the sub-headings of a heading shall be determined according to the terms of those sub-headings and any related sub-heading Notes and, mutatis mutandis, to the above rules, on the understanding that only sub-headings at the same level are comparable. For the purposes of this rule the relative Section and Chapter Notes also apply, unless the context otherwise requires.

This means to say that if one heading contains 4-5 sub-headings, these sub-headings can be compared with each other. However, sub-heading under one heading should not be compared with the sub-heading of another heading.

As regards the Interpretative Rules, the classification is to be first tested in the light of Rule 1. Only when it is not possible to resolve the issue by applying this Rule, recourse is taken to rules 2,3 and 4 in seriatim.

2.10.4 Steps in Classification

The following steps are involved in classification:

- (i) First reference is made to the heading and sub-heading, together with corresponding section notes and chapter notes. In case of no ambiguity, as per Rule 1, the classification would be final.
- (ii) Where the product name is not clear, reference is made to the common trade practice, further reference may be made to dictionary meaning or technical terminology, if the product name is not understood in common trade practice or, it is a new product.

- (iii) In case of incomplete or un-finished goods, the essential characteristics of the product must be matched with the known finished product. In case of similarity, it should be classified, as per Rule 2, under the same heading.
- (iv) In case of ambiguity Rule 3(a) should be applied and specific heading should be preferred over general heading.
- (v) If Rule 3(a) does not apply, goods should be classified, as per rule 3(b) as if they consist of material or components which give them their essential character.
- (vi) When goods cannot be classified with reference to rules 3(a) and 3(b), they should be classified, as per Rule 3(c) under the heading, which occurs last in numerical order.
- (vii) In case of residuary items classification should be made as per Rule 4 under heading, which is most akin to the goods in question.

2.10.5 Tariff Commission and other Tariff Authorities

Tariff Commission

The Tariff Commission aims to be a premier knowledge based organisation, and a centre of excellence in the field of domestic and global market research and in tax, tariff, trade related matters, and realistic cost/price determination.

Mission of Tariff Commission

To advise the Government, Public Sector Undertakings(PSUs) and other client organisations, in a relevant, fair, and unbiased manner to enable and sharpen their decision making capabilities with practical recommendations.

Objectives

To complete the designated studies in a time bound manner, using technoeconomic-costing skills, scientific and analytical/costing techniques to examine relevant primary data obtained from reliable sources.

Background of Predecessor Bodies

- (i) In the pre independence period, the tariff board under the Ministry of Commerce was in existence "to advise the Government on measures required for the protection of domestic industry".
- (ii) The Tariff Commission was set up in 1951 under the Tariff Commission Act 1951 by merging tariff board with statutory powers and functions to recommend protection to Indian industries, change in duties of any goods, action in relation to dumping of goods and to undertake suo moto studies.
- (iii) Bureau of Industrial Costs and Prices (BICP) was set up in 1970 on the recommendation of administrative reforms commission with statutory powers under IDR Act to call for information and to advice on various issues pertaining to determination of industrial costs, on cost reduction and improvement in industrial efficiency and pricing in relation to various industries.
- (iv) The old Tariff Commission was wound up under the TC(REPEAL) Act 1976 due to stringent import and foreign exchange regulation, the necessity of protection of domestic industry through tariff regulation had lost significance and the observation of the second fiscal commission that the functions of the TC were largely similar to those of BICP.
- (v) Out of BICP, National Pharmaceutical Pricing Authority(NPPA) was carved out with the functions of pricing of bulk drugs and formulation and placed under the Ministry of Chemicals and Fertilizers.

Present Tariff Commission

- (i) The Tariff Commission was established on 2nd September, 1997, under the Department of Industrial Policy and Promotion, as an independent expert body to tender advice to the Government on tariffs and tariff related issues concerning trade in goods and services, that have an impact on India's larger economic interests and international commitments.
- (ii) The Bureau of Industrial Costs & Prices (BICP) was merged with Tariff Commission in April, 1999. The BICP role was to advise the Government on a continuous basis on issues relevant to cost reduction, improvement in industrial efficiency, energy audit and pricing of public and private sector industrial products and services.

Constitution of Tariff Commission

The Commission is headed by a Chairman in the rank of Secretary to the Government of India and assisted by a Member Secretary in the rank of Additional Secretary to the Government of India.

Tariff Commission is the only organization in the Public domain having multi-disciplinary teams of :-

- Engineers from the field of Science and Technology belonging to Tariff Commission
- Cost Accountants/Chartered accountants from Indian Costs & Account Service (IC&AS)
- Economists from Indian Economic Service (IES); and
- Statisticians from Indian Statistical Service (ISS).

Status of Tariff Commission

- (i) Commenced functioning in April 1999 as a focal and catalyst organization with vision and objectives outlined above.
- (ii) The Commission is an independent status, and functions as an expert body.
- (iii) The Commission is headed by a Chairman of the level of Secretary to Government of India, and assisted by a Member Secretary in the rank of Additional Secretary to Government of India.
- (iv) Unfettered access to outside expertise.
- (v) Unique independent and expert organization with multidisciplinary professionals in the fields of Finance, Costing, Economics, Science & Technology.
- (v) Functions as an advisory body to the Government of India in formulating policies to promote competitiveness in indigenous industry, and enhance consumer welfare.
- (vi) Advise Government on tariff related matters, impact analysis, cost/price analysis in a scientific and analytical manner, taking into account forward and backward linkages.

Functions of Tariff commission

A: On a reference from Government Tariff Commission undertakes

- (i) Fixation of tariffs and all tariff related issues for goods and services.
- (ii) Examination of transition period for select industries for gradual phasing out of tariffs.
- (iii) Identification of tariffication process for select economic activities.
- (iv) To evolve an overall tariff structure and look into tariff rationalization issues.

- (v) To examine market access offers from trading partners within WTO framework (including antidumping and safe guards).
- (vi) To advise on classification of goods and applicable tariffs on such goods and products.
- (vii) Such other tasks as may be assigned by the Government from time to time.

B. On suo-moto basis

(i) To conduct –

Detailed impact analysis in select sectors like textiles, agriculture, automobiles, steel, information technology, chemicals and engineering goods.

(ii) To maintain & monitor –

Tariff changes of competing and trade partner countries and inventorize tariff rates.

(iii) To carry out studies –

On cost of production of different goods and services and its competitiveness in relation to other countries.

(iv) To discharge –

Core functions of the merged Bureau of Industrial Costs & Prices.

Capabilities

The use of inter-disciplinary professional expertise developed over the last three decades has made the Tariff Commission into a cohesive, comprehensive and analytical organization with demonstrable synergies, unique in its ability to

- (i) Collect and analyse data from government, public and private sector;
- (ii) Advise on costs, prices, efficiencies and competitiveness of industrial ventures;
- (iii) Interact with transparency and confidence with the captains of industry/technology leaders to look into issues relating to industrial production;
- (iv) Advise on policy issues related to specialized fields keeping in view the overall government policies;
- (v) Calculate price, based on normative costing of the product using prudent accounting methods and provide a better way of determining the protection level for domestic industries so that they can survive competition from foreign manufacturers and products and intervention;
- (vi) Develop technological input/output norms which are also appropriate to international cost calculations in so far as they are anchored on efficiency and realism;
- (vii) Suggest improvements in industrial efficiency, cost reduction and pricing issues in relation to normative industrial cost and realistic/reasonable fair price;
- (viii) Suggest systemic improvements conducive to cost rationalization and optimal efficiency of the operating units of the industry.

Study Areas

The Commission undertakes studies suo-moto or on reference from various Ministries/Departments. Area covered are :

- (i) Industrial Policy Issues
- (ii) Resource Efficiency Studies – Energy, Water, Materials, R & D and Environment
- (iii) Tariff studies for streamlining/ rationalizing/ harmonizing the tariff structure
- (iv) Studies in International Competitiveness
- (v) Pricing studies of industries including utility and service sector
- (vi) Developmental studies
- (vii) Consumer oriented studies
- (viii) Techno economic & cost studies of industries with reference to cost of inputs, possibilities of technological improvements and effective utilization of capital & other material resources, cost reduction measures.

Achievements

The Tariff Commission, and the erstwhile BICP, has always advocated a regime of industrial/economic liberalization, and made recommendations which have been accepted for implementation, including phased/full decontrol of price and distribution of cement, aluminium, steel, coal, and newsprint.

The Tariff Commission has always advocated move towards the regime of open general license with suitable tariffs on intermediates and final products, so that the industrial sector becomes internationally competitive.

Industry specific studies include :

- (i) Pricing zones for sugar
- (ii) Realistic cost/price of cement, salt and healthcare products
- (iii) Two part power tariff structures
- (iv) Taking measures for improving the energy efficiency for various industries like cement, caustic soda, fertilizer, steel, water conservation, paper, petrochemicals, etc.
- (v) Determining methodology for fixation of service charges of polishing, lacquering, powder coating, electroplating etc. for handicraft service centres
- (vi) Water conservation in steel, pulp and paper industry
- (vii) Fixation of normative milling charges for raw rice and par boiled rice
- (viii) Pricing of levy sugar
- (ix) Study on the transportation tariff of gas and regasification charges of Liquefied Natural Gas(LNG)
- (x) Study on evaluation of methodology and procedures adopted by Madhya Pradesh Electricity Board(MPSEB) for accounting & computation of capital related charges
- (xi) India's need for critical raw materials and identification of sources of raw materials in Asia, Africa & Latin America
- (xii) Transportation tariff for KG Basin Gas supply network
- (xiii) Study on Fee Structure of Medical Education in Central Government run Institutions

The Tariff Commission's recommendations on prices, rationalization of tariff structure, and cost reduction measures (e.g. efficient use of materials, appropriate scales of production, reduction in capital costs, availability of raw materials and intermediates at international prices) have played an important role in encouraging :

- (i) Development of industry
- (ii) Stimulating demand and directing channelisation of investments
- (iii) Directing production to meet the requirements of the priority sectors at economic prices
- (iv) Helping industry to achieve international competitiveness
- (v) Determining the reasonable/realistic prices of individual products

This has been achieved by close interaction with units, industry associations, researchers in the field, and the concerned administrative ministries/departments of the Government of India.

Tariff Commission's Strengths

- (i) Independent and expert organization carrying out the vital role of detailed analytical studies with long term national interest and facilitating real time policy making.
- (ii) Recommendations have been appreciated by client Ministries/Departments.
- (iii) Mature and reputed organization on industry and trade matters.
- (iv) Reservoir of qualified and enlightened professionals, Engineers / Scientists, Chartered Accountants and Economists.
- (v) Use of transparent procedure and objective decision-making.
- (vi) Inbuilt flexibility and creativity to adapt with the fast, changing business environment.
- (vii) Rich repository of Data/Information (973 study reports – upto September 2011).
- (viii) Equipped with validated and tested diagnostic tools/methodologies for holistic analysis and assessment of industry and trade issues (such as Normation of Inputs/Long Run Marginal Cost(LRMC), Escalation Formulae, Domestic Resource Cost (DRC), Effective Rate of Protection (ERP) and Project Appraisal & Financial Viability.
- (ix) Has inhouse expertise on fixation of tariffs, impact analysis, cost-price studies, regulatory issues, international competitiveness, resource efficiency evaluation, benchmarking and investigation of consumer grievances and unique core competence within GOI in determining normative and fair price/cost-price of goods and services.
- (x) Currently assisting in a series of studies on energy pricing issues.
- (xi) Several recommendations of Tariff Commission have been commended/ recognized by the Supreme Court, Prime Minister's Office, World Bank, and various Ministries and Associations.

Opportunities

- (i) Ministry of Finance has observed that "TC (as an expert body) is necessary for dealing with critical issues of India, which is emerging as major trading power."
- (ii) In the emerging complex global economy vis-à-vis complicated issues, the need for an independent and expert TC is becoming increasingly essential to critically analyse the issues and prescribe remedies for evolving national policies.
- (iii) The Tariff Commission has the ability to advise Ministries/Departments on industry & trade related issues as an umbrella organization for referral.
- (iv) Provide complementary/supplementary knowledge-based support to all Regulatory Bodies.

- (v) Undertake alleged injury study and investigation in Anti-Dumping and Duty Safeguard measures.
- (vi) Determine cost-price of Government regulated and consumer sensitive goods and services like fertilizers, natural gas, sugar, coal, public utilities, rice-milling, etc.
- (vii) Data source for the Competition Commission in investigations of abuse of predatory pricing, limiting of production/supply, cases where claimed benefits are to be passed on to consumers, assess sunk cost/investment, which is often a barrier for entry/exit, and the reasonability of license fees.
- (viii) Assist the National Manufacturing Competitive Council (NMCC) to examine competitiveness, gaps of indigenous products & sectoral benchmarking studies.
- (ix) Undertake resource efficiency, assessment of energy, water, and material intensive products, and also address (ecology linkage and industrial waste management) issues of industry.
- (x) Provide assistance in tariff-related problems of agriculture commodities to the Commission on Agriculture Costs & Prices (CACP).

Confidentiality of Tariff Commission Reports

The Reports of the Tariff Commission are confidential between the Commission and Client Ministries/ Departments.

Methodology of Tariff Commission Study – Procedural Aspects

Receipt of Reference

The Administrative Ministries of the Government of India normally requests Tariff Commission (TC) to take up studies on specified aspects. Besides the Administrative Ministries studies are also taken up based on requests received from State Governments, Industry Associations, etc. The Commission also initiates studies on its own (suo-moto), if there are important issues regarding a particular sector which merits such studies.

Once a reference is received or the Commission decides to take up a study on suo-moto basis, the Commission communicates the acceptance of studies to the client Ministries/Departments with a request to nominate the nodal officer and terms of reference (ToR) of the study. This is followed by nomination of a Study Coordinator(SC) (who is normally at the level Adviser/Director) and one member to assist the SC from each division provided the study requires input from S&T, Cost or Economic Division. The Study Coordinator is an inter-face between the team members and the Commission and plays a vital role in drawing up ToRs, study tours if any, data collection and analysis associated with conducting and completion of the study. The study team members are selected by Secretariat Division of the Commission with the approval of Member Secretary/Chairman depending on the work load of the officers associated with the studies taken up by the Commission. The various activities carried out by a Study Coordinator and its role is detailed below.

Role of Study Coordinator

The Study Coordinator plays a crucial role and has the following responsibilities to discharge from the time the reference is received till the Report is submitted to the client.

- (i) On receipt of a reference or in the event of a suo-motu study, a file, which would contain a copy of the reference, background note, names of study team, PERT chart is opened. During the course of the study, minutes of various meetings, questionnaire, draft report and final report, if it is not a secret one, etc. will be added. This would be useful not only for referencing but also to ensure continuity in case, the divisional officer proceeds on leave/tour or alternatively where there is a change of team coordinator or member.
- (ii) Preparation of ToRs and finalization of scope of the Study.

- (iii) Preparation of a status note wherever required particularly when a study is held up for want of information, non approval of ToRs by concerned Department/Ministry, assistance in data entry etc.
- (iv) Preparation of detailed time schedule in the form of PERT charts and mandays required for the completion of the study.
- (v) Drawing up of a comprehensive questionnaire covering Economic, Technical and Costing aspects.
- (vi) Consolidation of identified data gaps/clarification received from different divisions and onward transmission to Secretary, TC for calling data from the concerned units.
- (vii) Preparation of an approach paper detailing the methodology to be adopted, issues requiring focus and data collection report, structure/chapter profile etc.
- (viii) Planning and submission of tour programme in consultation with team members of each division through Secretary (TC) to Member Secretary/Chairman. Secretary (TC) will examine the tour programme from expenditure point of view.
- (ix) Fortnightly/monthly review of the progress of the study by Study Coordinator and Member Secretary respectively. The Study Coordinator is primarily responsible for monitoring as well as initiating action as on various aspects of the study as and when required, till the study is completed and the report approved by the Commission.
- (x) Consolidation of Chapters of different Divisions, ensuring that repetitions are avoided. The draft report is to be put up to Member Secretary/Chairman for comments and review.
- (xi) Presentation of salient features/highlights/focal issues/important recommendation in the internal meeting fixed prior to the Commission meeting. This will include brain storming on the subject with selected officers of the Commission, industry leaders, industry representatives, officers of the nodal Ministry associated with the study and any experts who are associated with the subject.
- (xii) After submission of a Commission Report, the Study Coordinator is required to identify the areas/data which requires editing/camouflaging before sending the same to the Editorial Board for further action on actual editing, presentation, layout, etc.

Manpower Planning

The Commission at the beginning of financial year draws out a detailed Annual Action Plan (AAP) now known as Results Framework Document (RFD) indicating therein the various studies to be done during the year (on-going + new references), studies taken up suo-motu, along with their target date of completion. The Study Coordinator in consultation with the members of each Division draws out a detailed time schedule in the form of a PERT Chart of various activities proposed for the study which is synchronised with the time schedule of the Commission's RFD. The likely date of completion of the study is finalized keeping in view the need of the client Ministry, viz-a-viz existing references received by the Commission. A systematic review of the existing manpower both with regard to numbers as well as expertise would reveal the need for engaging consultants, if any, with relevant experience keeping in view the objective of the study. Young Professionals/DEOs are also employed to supplement the efforts of the Commission's officials in compilation of information from secondary and primary sources, data analysis, etc. The Division-wise mandays proposed to be assigned in a study for each activity is tabulated and consolidated in order to get the total number of mandays expected to be utilized. The number of mandays will in no case exceed 90 days from the date of receipt of information/data required for the study.

Preparation of Questionnaire

Keeping in view the objective/scope of the study the probable issues involved and ToR of the study, a questionnaire consisting of economic, technical and costing aspects, is designed by all the three

divisions. At times, in case of new area of study, before the data requirement can be crystallized there exists a need for a preliminary visit to the manufacturing units to have an understanding of the manufacturing process and various forward and backward linkages. This visit helps in understanding the manufacture, process, technology involved, other related issues, which in turn facilitate the preparation of questionnaire. The requirement of data from the industry (associations/units) are put in a formal, concise, crisp and cogent questionnaire by each Division. The questions should be formulated in a manner that the respondents (manufacturers) can easily understand, compile and respond promptly. The calling of unrelated or unrequired data should be avoided in order to avoid unnecessarily burdening the parties involved in the study.

Further the questionnaire to the extent feasible be structured in a manner that information can be provided by the manufacturers in soft copy with minimum effort. The draft computer and respondent friendly questionnaire is consolidated by the Study Coordinator and is put up to the Commission for approval. Further, the Questionnaire covering of Economic, Technical and Costing aspects as Sections (A), (B) and (C) respectively be issued to the selected units by Secretary, Tariff Commission. The normal time frame for response from the units is 4 to 8 weeks, depending on the scope of the study. Full assistance be provided by the Study Coordinator to the respondents in order to understand and furnish replies to the questionnaire in the manner required.

Data Compilation

Till the response is received from the units, secondary source data be compiled. The secondary sources normally comprises of concerned Industry Association/Administrative Ministry/Consultants/Academic Institutions, particularly in the area of applied research/statistical organizations/various technical, economic and costing journals as well as Cost Audit Reports, past study reports etc. The scanning of data from secondary sources is an on-going process which helps in culling data/information and is a continuous process till the report is submitted.

Primary Sources

Once the replies are received, the data gaps/clarification be identified by the team members of respective division and the same be sent to the Coordinator for consolidation. The consolidated data gap/clarification sought from the units are further sent to the units by the Study Coordinator through Secretary, TC. In some cases, data gaps/clarification can be collected during the field visits. Any additional data assessed on a scrutiny of replies to questionnaire can also be collected during the field visits. The field visit tour program is to be put up by the study coordinator 15 days prior to commencement of tour to Member Secretary. Secretariat will examine the tour programme before approval of MS keeping in view the economy in expenditure / economy instructions, availability of TA funds etc.

Discussions/meetings with officials of companies/units in order to seek clarification are to be organized with concurrence of the Member Secretary, if required.

The Commission study teams comprising of one officer(s) from each division, if necessary (if full replies are received the particular division can assess if visit is necessary) visit the units to verify the data already collected, hold discussions, understand plant and processes, seek clarification and collect additional detailed information/data wherever necessary. The field visit tour programme is to be put up by the study coordinator for the approval of the Member Secretary/Chairman through Secretary, TC. The study units are informed about the visit in order to enable them to render required assistance and wanting / additional data/information to the visiting teams by the Secretary, TC. All officers proceeding on tour are required to endorse copies of the approved tour programme to all HoDs, Secretary and PPS to Member Secretary/Chairman. A check list of points should also be prepared for obtaining clarification from various functionaries at the unit/plant level by the study team before proceeding on field visit.

After completion of tour, officers are required to submit tour reports brining out the benefits of the tour to Chairman through Member Secretary. The tour report is to be kept by the Secretariat section in the concern study file after being seen by the Member Secretary/Chairman.

Detailed Analysis

After collection of primary and secondary data, the same is analysed and evaluated and study lines drawn up. At this stage an approach paper detailing the important issues to be focused, methodology to be adopted, alongwith the structure/chapter profile of the report should be prepared by the Study Coordinator which is discussed in a meeting convened by Study Coordinator with the study team and concerned Chief Adviser. Following this, detailed chapter composition should commence.

Chapter Writing and Consolidation of Report

Chapters in accordance with the approved structure of the Report are composed and drafted by the nominated study team members from each division after consultation/approval with/of their HoD. General guidelines for preparing various Chapters of the TC Reports are detailed below. These are then consolidated/integrated by the Study Coordinator which is then circulated directly to Member Secretary/Chairman for perusal/comments recording their observation.

General Guidelines while preparing the Chapters of Commission Report

- (i) An index covering the following : Dates or period relating to : (a) Prices of major inputs (domestic and imported) ; (b) Production data ; (c) Import data ; (d) Export Data ; and (e) Pricing period of the study, wherever relevant should normally be prepared. Another index listing all the abbreviations used in the Report should also to be prepared.
- (ii) Executive Summary at the beginning of the report should be self-contained, focused and crisp and different from conclusion and recommendation chapter which appears at the end of the report.
- (iii) The Introduction should cover background, scope and ToR of the study along with the approach & methodology adopted in the study.
- (iv) Chapter profile sub-themes should have sub-para numbers.
- (v) Units should be uniformly used throughout the Report.
- (vi) Maps/Bar Charts/Pie Diagrams etc. should be given in the Report and should be also numbered.
- (vii) All tables should have corresponding Chapter numbers. The percentages should be built in the tables themselves.
- (viii) Contents of tables should be explained if some inference/analysis is being drawn.
- (ix) Company/unit data should not be repeated in every chapter provided by different divisions. Such data should be reflected at one place only. Thus, it is important that chapters from different divisions are presented in a cohesive and integrated manner by the Study Coordinator.
- (x) The main inferences/conclusions should be given at the end of every chapter.
- (xi) The Commission's recommendations/suggestions should form a part of the last chapter and the gist of the main recommendations should be given in the executive summary.

Monitoring the progress of the work - Monthly Review Meetings and Other Meetings

The progress of each study is periodically reviewed normally every week by Study Coordinator and once a month by Member Secretary/Chairman. HODs undertake a systematic review of all cases under their charge, at least once a fortnight, in order to ensure that study is progressing on schedule, study direction is being appropriately addressed and important issues related to the study are not left unattended either by oversight or by default. Member Secretary presides over the Review Meetings which are normally held once in a month and attended by all HOD's and Secretary(TC). Specific problems being experienced by the Study Coordinator or other officers are brought out in such meeting for suitable attention and action. In such review meetings, the need for rescheduling various steps for completing the study in time are also discussed for suitable action in various cases. These meetings be minuted and

circulated by Secretary, TC. Follow-up action on studies is taken by Secretary, TC, by ascertaining the progress of different studies and the action taken on various decisions during the meeting. This should be done by sending 'Action Due' statement to all Study Coordinators and consolidating the 'Action Taken' received from them which is put up to Member Secretary/Chairman on a fortnightly basis. If it is felt that a study requires an in-depth discussion on its progress, issues involved, methodology, meetings will be taken by Member Secretary in smaller groups with Members and concerned officers only, in order to expedite the study data collection, analysis and report writing and adherence to the time schedule.

A record of the time spent by officers on various studies is required to be kept in order to find out the cost of each study, and also to work out the mandays required and reschedule activities, whenever required.

PERT Charts in respect of each study showing the progress of study are prepared by the Study Coordinator and loaded on the computer, updated and delivered before the Monthly Review meeting.

Internal Meeting

Internal meeting is the mechanism used for discussing draft reports circulated in which Study Coordinator presents the salient features/highlights/focal issues of the report. Such presentations are made before the Commission in which other concerned officers from all Divisions are also normally present. The suggestions made during this internal meeting are incorporated by the Study Coordinator/Study team members and a modified draft report is circulated by the Study Coordinator to the Commission. The draft report after incorporation of the comments of the Member Secretary is put up to Chairman for kind perusal by the Study Coordinator through Member Secretary and incorporate the comments of Chairman. The study report can also be circulated by Study Coordinator to the Chief Advisers or HoDs for their comments. The comments can be incorporated after discussion with Member Secretary. The final report is to be put up by Secretary, TC for signature of Member Secretary /Chairman with the forwarding letter for onward transmission to the client Ministries/Departments.

Commission Meeting

The formal Commission meeting, which is normally held to consider draft reports is chaired by Member Secretary. The others present during this meeting are Study Coordinator, Study team members and Secretary, TC. The views of the industry association are also heard by the Member Secretary and to be incorporated in the report, along with observations of the Commission.

The report is approved with or without modifications in the meeting of the Commission. In case of major changes, the report is redrafted and submitted again for the consideration of Commission. The approved report is sent to the EDP division for formatting etc. The EDP division will send the report to the Secretariat division with soft copies.

Publication of Reports

After taking into account various factors like the objective of the study, the sensitivity of data, etc., the Commission decides on whether a particular Report should be published or not. Once a decision is taken to publish a Report, editing of the same is required, which involves camouflaging of sensitive data, ensuring consistency across Chapters, avoiding repetition/verbosity of any kind, improving presentation and layout. This should normally be done within one month of submission of Report. Generally this work is done in-house by the Study Coordinator with the help of his study team members. If required, outside editor may also appointed for this purpose. The Report, as edited, by the Study Coordinator/editor, is given final shape by the Editorial Board, constituted for the purpose. The Editorial Board among other things takes care of formatting, spelling, presentation, layout, content of the Report in terms of sensitivity of data, avoiding overlapping, if any, across Chapters. The edited Report is thereafter put up for approval of the Commission (Chairman & Member Secretary). This is then sent to systems division of TC for in-house publishing. After the final print out by system division, proof reading by the Study Coordinator and Secretary, TC, the same is sent to the Government of India Press for printing the

required number of copies. Published Report is made available at a cost to Government Departments, Industry Associations, etc. if a request for the same is received. The cost of report will be decided from time to time by the Commission.

(1) Pleasantime Products (243) E.L.T 641 (S.C.) 2009

The assessee is of the view that "Scrabble" was a puzzle or in the alternative it was an educational toy falling under sub-heading 9503.00, whereas the Department argued that "Scrabble" was not a puzzle, it was not a toy but a game therefore it was classifiable under sub-heading 9504.90.

The difference between a "game" and a "puzzle" is brought out by three distinct features, viz., outcome, clue-chance and skill. In a puzzle, the outcome is fixed or pre-determined which is not there in "Scrabble". In a "Scrabble" there are no clues whereas in crossword puzzle, as stated above, words are written according to clues. Hence, the essential characteristic of crossword to lay down clues and having a solution is absent from "Scrabble". Thus, "Scrabble" would not fall in the category or class mentioned in sub-heading 9503.00, namely, "puzzles of all kinds". As per the dictionary meaning, "Scrabble" is a board game in which players use lettered tiles to create words in a crossword fashion. Applying the dictionary meaning, the Apex Court held that "Scrabble" was a board game. It was not a puzzle. In the circumstances, it would fall under heading 95.04 and not under sub-heading 9503.00 of the CF TA.

(2) Vicco Laboratories 254 ELT A44 (SC) (2010):

As per the ingredients tests and common parlance test Vicco Vajardanti Paste, powder and vicco Turmeric cream classified as "medicaments/Ayurvedic medicine and not as 'cosmetic' as contended by the department.

The fact that the products were re-labelled for export to other countries in advertising/ attractive packing, by itself cannot result in the product being classified as cosmetic. Advertisements, packing materials etc., cannot be taken into consideration for determining the real nature and character of the product.

(3) Bhushan Steels & Strips Ltd. 257 ELT 5 (SC) 2010:

Side offcuts of HR coils made of iron and steel are classified as "angles, shapes and sections of iron or non-alloy steel" under heading 7216, and not under "slitting, end cutting, roughly shaped pieces and trimmings" under heading 7204 of the tariff as "Waste and scrap" as contended by the assessee and not as "Flat rolled products" as contended by the department.

(4) Tikitar Industries [2010] 253 ELT 513 (SC):

Assessee engaged in the Process of making blown grade bitumen from straight grade bitumen through oxidation known as blowing process. It was held that said process doesn't amount to manufacture.

Further, it was also held that Bituminous coated/ covered hessian fabric which is "Rot proof, water proof and fire resistant" is classifiable under Heading 59.09 and not under heading 68.07 even though Bitumen is used in the process of manufacture of such Hessian fabric since the expression "similar materials" in Heading 68.07 has to be read in the light of other articles specifically mentioned thereunder i.e., stone, plaster, cement, asbestos and mica.

Notes:

Heading 59.09: All other textiles products and articles of a kind suitable for industrial use (for example, textile fabrics, combined with one or more layers of rubber, leather or other material, bolting cloth, endless felts of textile fabrics, straining cloth).

Heading 68.07: All other articles of stone, plaster, cement, asbestos, mica or of similar materials not elsewhere specified or included.

(5) L.M.L. Ltd. v. CC [2010 258 ELT 321 (SC)]

It was held by the Apex court that, drawings and designs contained in a CD ROMs are not classifiable as "printed matter" nor "Information and Technology Software" not either "Bare CD ROM". It is Classifiable as "Recorded CD ROM".

(6) N.I. Systems (India) P. Ltd. [2010] 256 ELT 173(SC)

It was held that based on functional test PXI Controllers, Input/output Modules/Adaptor units and Signal Converters are classified under Chapter 90 as 'Measuring and Checking Instruments' and not classifiable as 'computers/data processing machines' under Chapter 84.

2.11 VALUATION OF GOODS

Excise duty is payable on any one of the following basis:

- i. **Duty based on production capacity** - Some products (e.g. pan masala, rolled steel products) are perceived to be prone to duty evasion. In case of such products, Central Government, by notification, can issue notification specifying that duty on such notified products will be levied and collected on the basis of production capacity of the factory [section 3A(1) of Central Act inserted w.e.f. 10th May 2008]. When such notification is issued, annual capacity will be determined by Assistant Commissioner [section 3A(2)(a) of CEA]. Factors relevant to determine production capacity will be specified by rules issued by Central Government [section 3A(2)(b)(i)].
- ii. **Specific Duty** - It is the duty payable on the basis of certain unit like weight, length, volume, thickness etc. For example, duty on Cigarette is payable on the basis of length of the Cigarette, duty on sugar is based on per Kg basis etc.

Example 25: (a) Excise Duty payable on cigarette is based on the length of the Cigarette. If the length of cigarette is 5 mm the rate of duty is say ₹ 2 flat irrespective of the price at which it is sold.

(b) Excise duty payable on sugar is based on quintals of sugar. The excise duty is ₹ 100 per Kg of sugar product irrespective of the price at which it is sold.

- iii. **Tariff value** - In some cases, tariff value is fixed by Government from time to time. This is a "Notional Value" for purpose of calculating the duty payable. Once 'tariff value' for a commodity is fixed, duty is payable as percentage of this 'tariff value' and not the Assessable Value fixed u/s 4.

Products covered under the tariff basis of valuation:

- (a) Pan masala packed in retail packs of upto 10 gm per pack
- (b) Readymade garments

Example 26: The price of readymade garment is ₹ 500 per unit. Suppose the government fixes a rate of 60% for computing tariff value. In this case, the tariff value is 60% of ₹ 500 i.e. ₹ 300. If the duty rate is 12.36%, the excise duty payable will be ₹ 300 x 12.36% = ₹ 37.08 per unit

- iv. **Duty based on basis of Maximum Retail Price printed on carton after allowing deductions - section 4A of CEA.**

As per section 4A of the Central Excise Act 1944, MRP provisions will be covered only when the following two conditions are satisfied:

- (a) Goods must be specified under Legal Metrology Act, 2009, w.e.f. 1-8-2011 (earlier Standards of Weights and Measures Act, 1976).
- (b) Those Goods must be mentioned in the notification issued by the Government of India along with rate of abatement.

Example 27: The MRP of an Air-condition Machine is ₹ 40,000 and the abatement per cent is 40%. The Excise duty is the BED rate is 12% will be as under:

Maximum Retail Price	= ₹ 40,000
Less: abatement (40%)	= ₹ 16,000
Assessable Value	= ₹ 24,000
Central Excise Duty (12%) = ₹ 24,000 x 12/100	= ₹ 2,880
Educational Cess (2%) = ₹ 2,880 x 2/100	= ₹ 57.60
Secondary and Higher Education Cess (1%) = ₹ 2,880 x 1/100	= ₹ 28.80
Total Excise Duty Payable	= ₹ 2,966.40

- v. Compounded Levy Scheme** - Normal excise procedures and controls are not practicable when there are numerous small manufacturers. Rule 15 of Central Excise Rules provides that Central Government may, by notification, specify the goods in respect of which an assessee shall have option to pay duty of excise on the basis of specified factors relevant to production of such goods and at specified rates. The scheme is presently applicable only to stainless steel pattas/pattis and aluminium circles. These articles are not eligible for SSI exemption.

Example 28: (i) The rate of compounded levy in case of cold rolled Stainless Steel patties/pattas, the manufacturer has to pay ₹ 40,000 per cold rolling machine per month plus cess as applicable.

(ii) The rate of compounded levy on aluminum circles is ₹ 12,000 per machine per month plus cess as applicable.

(iii) Duty as % based on Assessable Value (i.e. Transaction Value) fixed under section 4 (ad valorem duty) (If not covered in any of above)

It means, that payment of excise duties are depends upon value of goods (i.e. ad-valorem duty) or volume of goods (including production capacity) as the case may be. This concept explained hereunder:

2.11.1 Methods & Techniques of Valuation

Proper valuation of goods manufactured is an integral part towards levy of Excise Duty accurately. Accordingly, goods manufactured should be valued strictly in the manner as prescribed in the Central Excise Act, 1944 and rules framed there-under.

2.11.2 Value Under the Central Excise Act, 1944

Value of the excisable goods has to be necessarily determined when the rate of duty is on ad-valorem basis. Accordingly, under the Central Excise Act, 1944 the following values are relevant for assessment of duty. Transaction value is the most commonly adopted method.

- (i) Transaction value under Section 4 of the Central Excise Act.
- (ii) Value determined on basis of Maximum Retail Sale Price as per Section 4A of the Act, if applicable to a given commodity.
- (iii) Tariff value under Section 3, if applicable.

Details of all the methods of valuation are discussed below :

1. Transaction Value

Section 4(3) (d) of the Central Excise Act, as substituted by section 94 of the Finance Act, 2000 (No. 10 of 2000), came into force from the 1st day of July, 2000. This section contains the provision for determining the Transaction Value of the goods for purpose of assessment of duty.

For applicability of transaction value in a given case, for assessment purposes, certain essential requirements should be satisfied. If anyone of the said requirements is not satisfied, then the transaction value shall not be the assessable value and value in such case has to be arrived at under the valuation rules notified for the purpose. The essential conditions for application of a transaction value are :

- (a) The excisable goods must be sold by the assessee.
- (b) The transaction is between unrelated parties, i.e, the assessee and the buyer are not related parties
- (c) The price is the sole consideration for the sale.
- (d) The goods are sold by an assessee for delivery at the time of place of removal. The term "place of removal" has been defined basically to mean a factory or a warehouse, and will include a depot, premises of a consignment agent or any other place or premises from where the excisable goods are to be sold after their clearances from the factory.

Transaction value would include any amount which is paid or payable by the buyer to or on behalf of the assessee, on account of the factum of sale of goods. In other words, if, for example, an assessee recovers advertising charges or publicity charges from his buyers, either at the time of sale of goods or even subsequently, the assessee cannot claim that such charges are not to be included in the transaction value. The law recognizes such payment to be part of the transaction value, that is assessable value for those particular transactions.

- (1) As per the new Sec.4, transaction value shall include the following receipts/recoveries or charges, incurred or provided for in connection with the manufacturing, marketing, selling of the excisable goods :
 - I. Advertising or publicity;
 - II. Marketing and selling organization expenses;
 - III. Storage;

- IV. Outward handling;
- V. Servicing, warranty;
- VI. Commission or
- VII. Any other matter.

The above list is not exhaustive and whatever elements which enrich the value of the goods before their marketing and were held by Hon'ble Supreme Court to be includible in "value" under the erstwhile section 4 would continue to form part of section 4 value even under new section 4 definition.

- (2) Thus if in addition to the amount charged as price from the buyer, the assessee recovers any other amount by reason of sale or in connection with sale, then such amount shall also form part of the transaction value. Where the assessee includes all their costs incurred in relation to manufacture and marketing while fixing price payable for the goods and bills and collects an all inclusive price -as happens in most cases where sales are to independent customers on commercial consideration - the transaction price will generally be the assessable value.

However, where the amount charged by an assessee does not reflect the true intrinsic value of goods marketed and total value split up into various elements like special packing charges, warranty charges, service charges etc. it has to be ensured that duty is paid on correct value.

2.11.3 Inclusions in Assessable Value

- (i) **Packing Charges:** Packing charges shall form part of the assessable value as it is a charge in connection with production and sale of the goods, recovered from the buyer. Under the erstwhile Sec. 4, inclusion of cost of packing in the value was related to the nature of packing such as preliminary or secondary etc. Such issues are not relevant in the new Sec. 4 and any charges recovered for packing, whether ordinary or special is includible in the transaction value if the same is not included in the price of the goods.

In the case of reusable containers (glass bottles, crates etc.), normally the cost is amortized and included in the cost of the product itself. Therefore, the same is not required to be included in the value or the product unless it is found that the cost of reusable container has not been amortised and included in the value of the product.

However, rental charges or cost of maintenance of reusable metal containers like gas cylinders etc. are to be included in the value since the amount has been charged by reason of, or in connection with the sale of goods.

Similarly, cost of containers supplied by the buyer will be included in the transaction value of the goods, as the price will not be the sole consideration of the sale and the valuation would be governed by Rule 6 of the Valuation Rules, 2000.

Durable and Returnable Packing : In case of durable/returnable containers, all that would be necessary, as per the Board's Circular No. 643/34/2002-CX dated 1-7-2002 [2002 (143) E.L.T. T39], is to include the amortised cost of the container in the price of the product itself; the returnable deposit taken from the buyer or deposit of the empty container by him would not then be treated as additional consideration.

- (ii) **Design and Engineering Charges** being an essential process/activity for the purpose of manufacture shall be included in the Assessable value.
- (iii) **Consultancy Charges** relating to manufacturing/production is included as such payment is 'by reason of sale'.
- (iv) **Loading and Handling** charges within the factory are included in Assessable Value.
- (v) **Royalty Charged in Franchise Agreement** for permission to use the brand name is included in

Assessable value as such payment is 'by reason of sale' or 'in connection with sale'.

- (vi) **Advance Authorisation Surrendered** in favour of seller is additional consideration and includible. It is considered as an Additional consideration. It shall be included if it is paid by or on behalf of buyer to manufacturer-assessee and not when it is given by third party.
- (vii) **Price Increase, Variation, Escalation** subsequent to removal of goods cleared from the factory is not relevant, provided the price is final at the time of removal.
- (viii) **Free After Sales Service/Warranty** charges will form part of the transaction value irrespective of whether the warranty is optional or mandatory.
- (ix) **Advertisement and Sales Promotion Expenses Incurred by the Buyer:** Manufacturer incurs advertisement expenditure. These are obviously built in the selling & distribution cost for determining the selling price. In addition, often dealers also advertise for the product at their own cost.

Definition of "Transaction Value" includes charges for "advertisement, publicity and marketing expenses". However, these are includible only if the buyer is liable to pay the amount to assessee or on behalf of the assessee.

Thus, advertisement and sales promotion expenses incurred by dealer/distributor, if done on his own, are not to be included, if transaction between buyer and seller is on principle to principle basis. This is because the buyer is not incurring these expenses "on behalf of the assessee".

- (x) **After Sales Service and Pre Delivery Inspection (PDI) Charges:** After sales service and pre delivery inspection (PDI) are services provided free by the dealer on behalf of the assessee and the cost towards this is included in the dealer's margin (or reimbursed to him).

The value of goods which are consumed by the assessee or on his behalf in the manufacture of other articles will be on cost construction method only (Rule 8). The assessable value of captivity consumed goods will be taken at 110% (substituted by 60/2003 (NT.) 5-10-2003 - prior to that it was 115%) of the cost of manufacture of goods even if identical or comparable goods are manufactured and sold by the same assessee as there have been disputes in adopting values of comparable goods. The concept of deemed profit for notional purposes has also been done away with and a margin of 10% by way of profit etc. is prescribed in the rule itself for ease of assessment of goods used for captive consumption. The cost of production of captively consumed goods will be done strictly in accordance with CAS- 4.

- (xi) **"Transaction Value"** includes receipts/recoveries or charges incurred or expenses provided for in connection with the manufacturing, marketing, selling of the excisable goods to be part of the price payable for the goods sold. In other words, whatever elements which enrich the value of the goods before their marketing and were held by Hon'ble Supreme Court to be includible in "value" under the erstwhile Section 4 would continue to form part of Section 4 value even under new Section 4 definition. Where the assessee charges an amount as price for his goods, the amount so charged and paid or payable for the goods will form the assessable value. If however, in addition to the amount charged as price from the buyer, the assessee also recovers any other amount "by reason of sale" or "in connection with sale", then such amount shall also form part of the transaction value for valuation and assessment purposes. Thus if assessee splits up his pricing system and charges a price for the goods and separately charges for packaging, the packaging charges will also form part of assessable value as it is a charge in connection with production and sale of the goods recovered from the buyer.
- (xii) **Dharmada Charges:** As per CBE&C Circular No. 763/79/2003-CX dt. 21-11-2003 has clarified that dharmada is includible in Assessable Value and the same view expressed by the Apex Court namely Supreme Court of India in the case of CCE v. Panchmukhi Engg. Works 2003 (158) E L T 550 (SC).

- (xiii) Dealers Margin:** Dealer's margin contained provision for rendering pre-delivery inspection and there after sale services, then amount collected by the dealers towards pre-delivery inspection or after sale services from the buyer of the goods during the warranty period it would form part of the assessable value of such goods. Therefore, pre-delivery inspection charges and after sale service recovered from the buyers of vehicles would be included in the assessable value of vehicles. The same view confirmed by the Tribunal in the case of Maruti Suzuki India Ltd. v. CCE (2010).

2.11.4 Exclusions from Transaction Value

- (i) Taxes and Duties:** The definition of transaction value mentions that whatever amount is actually paid or actually payable to the Government or the relevant statutory authority by way of excise, sales tax and other taxes, such amount shall be excluded from the transaction value. If any excise duty or other tax is paid at a concessional rate for a particular transaction, the amount of excise duty or tax actually paid at the concessional rate shall only be allowed to be deducted from price.
- (ii) Erection, Installation and Commissioning Charges:** If the final product is not excisable, the question of including these charges in the assessable value of the product does not arise. As for example, since a thermal power, as a whole, is an immovable property and therefore not excisable, no duty would be payable on the cost of erection, instigations and commissioning of the steel plant. Similarly, if a machine is cleared from a factory on payment of appropriate duty and later on taken to the premises of the buyer for installation/erection and commissioning into an immovable property, no further duty would be payable. On the other hand if parts/ components of a generator are brought to a site and the generator erected/installed and commissioned at the site then, the generator being an excisable commodity, the cost of erection, installation and commissioning charges would be included in its assessable value. In other words if the expenditure on erection, installation and commissioning has been incurred to bring into existence any excisable goods, these charges would be included in the Assessable Value of the goods. If these costs are incurred to bring into existence some immovable property, they will not be included in the assessable value of such resultant property.

However, 'time of removal' in case of excisable goods removed from the place of removal is deemed to be the time of clearance of such goods from the 'factory'. Therefore, the assessable value is with reference to delivery at the 'time and place of removal, transaction value will be the assessable value.

- (iii) Freight :** It follows from the Valuation Rules that in such categories of cases also if the price charged is with reference to delivery at a place other than the depot, etc. then the actual or average cost of transportation (average freight being calculated according to Generally Accepted Principles of Costing - CAS - 5 beyond the depot/place of sale will not be taken to be a part of the transaction value and exclusion of such cost allowed on similar lines as discussed earlier, when sales are effected from factory gate/warehouse. There is no question of including the freight etc. right upto the buyer's premises even though delivery may be effected at that place. Delivery to the carrier at factory gate/depot is delivery to the buyer and element of freight and transit insurance are not includible in assessable value. Moreover, the ownership of the goods has no relevance so far as their transit insurance is concerned. - Escorts JCB Ltd. v. CCE., Delhi-II - 2002 (146) E.L.T. 31 (S.C) and Prabhat Zarda Factory Ltd. v. CCE. -2002 (146) E.L.T. 497 (S.C). Freight (actual or average) upto the point of depot etc. will, however, continue to be included.
- (iv) Advertising/Publicity Expenditure by Brand Name/Copyright Owner:** The expenditure incurred by brand name/copyright owner on advertisement and publicity charges, in respect of goods will not be added to assessable value, as such expenditure is not incurred on behalf of the manufacturer-assessee.
- (v) Notional Interest on Security Deposit/Advances:** The notional interest on advances may not be includible if relation between advance and selling price is only casual. There is 'relation' but 'no connection in relation to manufacture'.

(vi) Interest on Receivables: As regards interest for delayed payments it is the normal practice in industry to allow the buyers some credit period for which no interest is charged. That is to say, the assessee allows the buyers some time (normally 30 days, which could be less or even more depending upon industry) to make the payment for the goods supplied. Interest is charged by him from the buyer only if the payments are made beyond this period. A question has been raised whether such interest on receivables (for delayed payments) should form part of the transaction value or not. As per the earlier practice under Section 4 such amount of interest is not included in "value". Also, similar is the practice followed in this regard on the Customs side, where duties are collected on transaction value basis, and the importers are given certain "free" period for payment or to pay up interest for delayed payments. As the intention is not to disturb the existing trade practice in this regard, charges for interest under a financing arrangement entered between the assessee and the buyer relating to the purchase of excisable goods shall not be regarded as part of the assessable value provided that :

- (a) the interest charges are clearly distinguished from the price actually paid or payable for the goods;
- (b) the financing arrangement is made in writing; and
- (c) where required, assessee demonstrates that such goods are actually sold at the price declared as the price actually paid or payable.

(vii) Discounts : As regards discounts, the definition of transaction value does not make any direct reference. In fact, it is not needed by virtue of the fact that the duty is chargeable on the net price paid or payable. Thus if in any transaction a discount is allowed on declared price of any goods and actually passed on to the buyer of goods as per common practice, the question of including the amount of discount in the transaction value does not arise. Discount of any type or description given on any normal price payable for any transaction will, therefore, not form part of the transaction value for the goods, e.g. quantity discount for goods purchased or cash discount for the prompt payment etc. will therefore not form part of the transaction value.

- (i) cash discount for prompt payment and
- (ii) interest or cost of finance for delayed payment, when not exorbitant, is to be granted abatement whether availed or not even under new Section 4 - 2006 (204) E.L.T. 570 (Tri - L.B.) - CCE v. Arvind Mills Ltd.

The differential discounts extended as per commercial considerations on different transactions to unrelated buyers if extended can't be objected to and different actual prices paid or payable for various transactions are to be accepted for working assessable value. Where the assessee claims that the discount of any description for a transaction is not readily known but would be known only subsequently - as for example, year end discount - the assessment for such transactions may be made on a provisional basis. However, the assessee has to disclose the intention of allowing such discount to the department and make a request for provisional assessment. Trade discount not paid to dealers at the time of invoice preparation but paid later on net sale value was held as deductible for valuation purpose by Hon'ble Supreme Court in the case of *Commissioner v. DCM Textiles* - 2006 (195) E.L.T. 129 (S.C). Liquidated damages (as for example price reduction for delay in delivery of goods) is acceptable - 2006 (204) E.L.T. 626 (Tri.) - *United Telecom Ltd. v. CCE*.

(viii) Deemed Export Incentives Earned on Goods Supplied: Duty drawback cannot be added to assessable value, especially if there is no evidence of drawback with depression of prices.

(ix) Subsidy/Rebate Obtained by Assessee: A general subsidy/rebate is not to be included as it has no connection with individual clearances of goods. In case of rebate/subsidy which is directly relatable to individual clearances, it should not be includible.

(x) Price of Accessories and Optional Bought-out items is not includible in Assessable Value.

2.11.5 Valuation Rules to Determine Assessable Value

As per Section 4(1)(b) of the Central Excise Act, if 'Assessable Value' cannot be determined u/s 4(1)(a), it shall be determined in such manner as may be prescribed by rules. Under these powers, Central Excise Valuation (Determination of Price of Excisable Goods) Rules, 2000 have been made effective from 1-7-2000.

In *Ispat Industries Ltd. v CCE 2006*, it was observed that Excise Valuation Rules should be applied serially. The rules are as below :

- (i) Value nearest to time of removal if goods not sold:** If goods are not sold at the time of removal, then value will be based on the value of such goods sold by assessee at any other time nearest to the time of removal, subject to reasonable adjustments. **[Rule 4]**

The rule applies when price at the time of removal is not available as the goods are not sold by the assessee at the time of removal. Thus, this rule should apply in case of removal of free samples or supply under warranty claims.

In case of new or improved products or new variety of products, price of similar goods may not be available. In such case, valuation should be on basis of cost of production plus 10%, in absence of any other mode available for valuation.

- (ii) Goods sold at different place:** Sometimes, goods may be sold at place other than the place of removal e.g. Buyer's place. In such cases, actual cost of transportation from place of removal upto place of delivery of the excisable goods will be allowable as deduction. Cost of transportation can be either on actual basis or on equalized basis. **[Rule 5]**

Explanation:

- (1) "Cost of transportation" includes – (i) the actual cost of transportation; and (ii) in case where freight is averaged, the cost of transportation calculated in accordance with Generally Accepted Cost Accounting Principle.
- (2) For removal of doubts, it is clarified that the cost of transportation from the factory to the place of removal, where the factory is not the place of removal, shall not be excluded for the purpose of determining the value of the excisable goods.

- (iii) Valuation when the price is not the sole consideration :** Where the price is not the sole consideration for sale, the value of such goods shall be deemed to be the aggregate of —

- (a) such transaction value, and
- (b) the amount of money value of any additional consideration flowing directly or indirectly from the buyer to the assessee. **[Rule 6]**

In case any of the goods and services (*listed below*) is provided by the buyer free of charge or at reduced cost in connection with production and sale of such goods, then, the value of such goods and services, apportioned as appropriate, shall be deemed to be the money value of the additional consideration.

Only the value of the following goods and services are to be added in the transaction value:

- (a) materials, components, parts and similar items relatable to such goods;
- (b) tools, dies, moulds, drawings, blue prints, technical maps and charts and similar items used in the production of such goods;
- (c) material consumed, including packaging materials, in the production of such goods;
- (d) engineering, development, artwork, design work and plans and sketches undertaken elsewhere than in the factory of production and necessary for the production of such goods.

- (iv) Sale at Depot/Consignment Agent:** Section 4(3) (c) (iii) provides that in case of sale at depot/consignment agent, the depot/place of consignment agent will be the 'place of removal'. As per section 4(3) (cc), in case of sale from depot/place of consignment agent, 'time of removal' shall be deemed to be the time at which the goods are cleared from factory.

In other words, in case of sale from depot/place of consignment agent, duty will be payable on the price prevailing at the depot as on date of removal from factory. Price at which such goods are subsequently sold from the depot is not relevant for purpose of excise valuation.

When goods are sold through depot, there is no 'sale' at the time of removal from factory. In such cases, price prevailing at depot (but at the time of removal from factory) shall be the basis of Assessable Value. The value should be 'normal transaction value' of such goods sold from the depot at the time of removal or at the nearest time of removal from factory. **[Rule 7 of Valuation Rules]**

As per Valuation Rule 2(b), "normal transaction value" means the transaction value at which the greatest aggregate quantity of goods are sold.

For example, if an assessee transfers a consignment of paper to his depot from Delhi to Agra on 5-7-2013, and that variety and quality of paper is normally being sold at the Agra depot on 5-7-2013 at transaction value of ₹ 15,000 per tonne to unrelated buyers, where price is the sole consideration for sale, the consignment cleared from the factory at Delhi on 5-7-2013 shall be assessed to duty on the basis of ₹ 15,000 per tonne as the assessable value. If assuming that on 5-7-2013 there were no sales of that variety from Agra depot but the sales were effected on 1-7-2013, then the normal transaction value on 1-7-2013 from the Agra depot to unrelated buyers, where price is the sole consideration shall be the basis of assessment.

- (v) **Captive Consumption (Rule 8):** Since excise duty is on manufacture of goods, duty is payable as soon as goods are manufactured within the factory. Such goods are called 'intermediate products' and its use within the factory is termed as 'Captive Consumption'. Duty is payable even when goods are dispatched from one factory to another factory of the same manufacturer.

Duty payable on intermediated products: In *A S Processors v. CCE 1999(112) ELT 706 (CEGAT)*, it was held that once a new marketable intermediate product comes into existence, it is to be charged to duty if not exempted by a notification – same view in *CCE v. Citric India 2001(127) ELT 539 (CEGAT)*.

Captive consumption for dutiable final products: The intermediate product manufactured within the factory is exempt from duty, if it is consumed captively for manufacture of (a) Capital goods as defined in Cenvat Credit Rules i.e. those which are eligible for Cenvat credit or (b) Used for or in relation to manufacture of final products eligible for Cenvat, made from inputs which are eligible for Cenvat. [Notification No. 67/1995 dated 16-3-1995].

Duty payable on captive consumption if intermediate product under Compounded Levy scheme: In *Gaya Aluminium Industries v. CCE (2004) 170 ELT 98 (CESTAT)*, it was held that even if Aluminium Circles are captively consumed, duty will be payable under compounded levy scheme [However, assessee claimed that compounded levy scheme is optional and assessee can opt to pay normal duty. Hence, the matter was remanded to adjudicating authority for consideration].

In *Gouri Shankar Industries v. CCE 2004 (173) ELT 247 (CESTAT)* also, it was held that duty is payable if Aluminium circles are consumed captively.

Valuation in case of captive consumption: In case of captive consumption, valuation shall be done on basis of cost of production plus 10% [The percentage was 15% upto 5-8-2003]. (Rule 8 of Valuation Rules). Cost of production is required to be calculated as per CAS – 4.

Captive consumption means goods are not sold but consumed within the same factory or another factory of same manufacturer (i.e. inter-unit transfers).

The rule may also be helpful if goods are to be transferred to job worker for job work and then brought back for further processing. If job worker is utilizing some of his own material, it may be advisable to clear processed inputs on payment of duty to job worker. The job worker can avail Cenvat credit and then send back the goods manufactured by him on payment of duty.

Rule 8. Where the excisable goods are not sold by the assessee but are used for consumption by him or on his behalf in the production or manufacture of other articles, the value shall be one hundred and ten per cent of the cost of production or manufacture of such goods.

Captive consumption by related person: In case goods are supplied to a 'related person' but consumed by the related person and not sold, valuation will be done on the basis of cost of production plus 10% [Proviso to rule 9]. – CBE&C, vide its circular No. 643/34/2002-CX dated 1-7-2002, has clarified that this proviso applies when goods are transferred to a sister unit or another unit of the same factory for captive consumption in their factory.

Cost Sheet

Suggested cost sheet as per CAS-4 (issued by ICWAI) is as follows -

Statement of cost of production of

manufactured/ to be manufactured during the period

Q1 Quantity Produced (Unit of Measure)

Q2 Quantity Dispatched (Unit of Measure)

Particulars	Total Cost (₹)	Cost/ Unit (₹)
Material Consumed		
Direct Wages and Salaries		
Direct Expenses		
Works Overheads		
Quality Control Cost		
Research and Development Cost		
Administrative Overheads (Relating to production capacity)		
Total (1 to 7)		
Add - Opening stock of Work-in-Progress		
Less - Closing stock of Work-in-Progress		
Total (8+9-10)		
Less: Credit for Recoveries/Scrap/By-Products/Misc Income		
Packing Cost		
Cost of Production (11-12+13)		
Add: Inputs received free of cost		
Add: Amortised cost of moulds, tools, dies and patterns etc. received free of cost		
Cost of Production for goods produced for captive consumption (14+15+16)		
Add: Opening stock of finished goods		
Less: Closing Stock of finished goods		
Cost of production of goods dispatched (17+18-19)		

[Note - The form is common both for future cost and historical cost. In case of future cost (say for future quarter or half year), some of the columns e.g. opening and closing stock of WIP and FG are not relevant].

Example 29: Raj & Co. furnish the following expenditure incurred by them and want you to find the assessable value for the purpose of paying excise duty on captive consumption. Determine the cost of production in terms of rule 8 of the Central Excise Valuation (Determination of Price of Excisable Goods) Rules, 2000 and as per CAS-4 (cost accounting standard) (i) Direct material cost per unit inclusive of excise duty at 12.36% - ₹ 1,320, (ii) Direct wages - ₹ 250, (iii) Other direct expenses - ₹ 100, (iv) Indirect materials - ₹ 75, (v) Factory Overheads - ₹ 200, (vi) Administrative overhead (25% relating to production capacity) ₹ 100 (vii) Selling and distribution expenses - ₹ 150, (viii) Quality Control - ₹ 25, (ix) Sale of scrap realized - ₹ 20, (x) Actual profit margin - 15%.

Answer:

Particulars	Amount (₹)
(i) Direct Material (exclusive of Excise Duty) $[1,320 \times 100/112.36]$	1174.80
(ii) Direct Labour	250.00
(iii) Direct Expenses	100.00
(iv) Works Overhead [indirect material (75) plus Factory OHs (200)]	275.00
(v) Quality Control Cost	25.00
(vi) Research & Development Cost	Nil
(vii) Administration Overheads (to the extent relates to production activity)	25.00
Less: Realizable Value of scrap	<u>(20.00)</u>
Cost of Production	1,829.80
Add 10% as per Rule 8	<u>183.00</u>
Assessable Value	<u>2,012.80</u>

Example 30: Determine the cost of production on manufacture of the under-mentioned product for purpose of captive consumption in terms of Rule 8 of the Central Excise Valuation (DPE) Rules, 2000 - Direct material - ₹ 11,600, Direct Wages & Salaries - ₹ 8,400, Works Overheads - ₹ 6,200, Quality Control Costs - ₹ 3,500, Research and Development Costs - ₹ 2,400, Administrative Overheads - ₹ 4,100, Selling and Distribution Costs ₹ 1,600, Realisable Value of Scrap - ₹ 1,200. Administrative overheads are in relation to production activities. Material cost includes Excise duty ₹ 1,054.

Answer: Cost of production is required to be computed as per CAS-4. Material cost is required to be exclusive of Cenvat credit available.

Particulars	Total Cost (₹)
1 Material Consumed (Net of Excise duty) $(11,600 - 1,054)$	10,546
2 Direct Wages and Salaries	8,400
3 Direct Expenses	-
4 Works Overheads	6,200
5 Quality Control Cost	3,500
6 Research and Development Cost	2,400
7 Administrative Overheads	4,100
Less: Sale of Scrap	<u>(1,200)</u>
Cost of Production	33,946
Add: 10% Profit margin on cost of production (i.e. $33,946 \times 10\%$)	<u>3,395</u>
Assessable Value as per Rule 8 of the valuation rules	<u>37,341</u>

- Note -** (1) Indirect labour and indirect expenses have been included in Works Overhead
 (2) Actual profit margin earned is not relevant for excise valuation.

Example 31: Hero Electronics Ltd. is engaged in the manufacture of colour television sets having its factories at Kolkata and Gujarat. At Kolkata the company manufactures picture tubes which are stock transferred to Gujarat factory where it is consumed to produce television sets. Determine the Excise duty liability of captively consumed picture tubes from the following information: - Direct material cost (per unit) ₹ 800; Direct Labour ₹ 100; Indirect Labour ₹ 50; Direct Expenses ₹ 100; Indirect Expenses ₹ 50; Administrative Overheads ₹ 50; Selling and Distribution Overheads ₹ 100. Additional Information: - (1) Profit Margin as per the Annual Report of the company for 2012-13 was 12% before Income Tax. (2) Material Cost includes Excise Duty paid ₹ 73 (3) Excise Duty Rate applicable is 12%, plus education cess of 2% and SHEC @ 1%.

Answer: Cost of production is required to be computed as per CAS-4. Material cost is required to be exclusive of Cenvat credit available.

Particulars	Total Cost (₹)
1 Material Consumed (Net of Excise duty) (800 – 73)	727
2 Direct Wages and Salaries	100
3 Direct Expenses	100
4 Works Overheads	100
5 Quality Control Cost	—
6 Research and Development Cost	—
7 Administrative Overheads (Relating to production capacity)	50
8 Total (1 to 7)	1,077
9 Less - Credit for Recoveries/Scrap/By-Products/Misc Income	-
10 Cost of Production (8-9)	1,077
11 Add - 10% as per rule 8	108
12 Assessable Value	1,185
13 Excise duty @ 12% of ₹ 1,185	142.2
14 Education Cess @ 2% of ₹ 142.2	2.844
15 SHEC @ 1% on ₹ 142.2	1.422

∴ Total Duty Liability = ₹ (142.2 + 2.844 + 1.422) = ₹ 146.466

Note - (1) Indirect labour and indirect expenses have been included in Works Overhead (2) In absence of any information, it is presumed that administrative overheads pertain to production activity. (3) Actual profit margin earned is not relevant for excise valuation.

- (vi) Sale to a Related Person:** 'Transaction Value' can be accepted as 'Assessable Value' only when buyer is not related to seller. In other words, price to an independent buyer has to be considered for excise valuation.

As per section 4(3) (b) of Central Excise Act, persons shall be deemed to be 'related' if

- (a) They are inter-connected undertakings
 (b) They are relatives

(c) Amongst them, buyer is a relative and a distributor of assessee, or a sub-distributor of such distributor or

(d) They are so associated that they interest, directly or indirectly, in the business of each other.

Interconnected Undertakings: Buyer and seller are 'related' if they are inter-connected undertakings, as defined in section 2(g) of Monopolies and Restrictive Trade Practices Act, 1969 (MRTP). – *Explanation* (i) to section 4(3) (b) of Central Excise Act.

The essence of the definition under MRTP is that the inter-connection could be through ownership, control or management. Just 25% of total controlling power in both undertakings is enough to establish inter-connection.

Since only 25% control is enough to make to buyer and assessee as inter connected undertakings, many assessees would come under the definition. This would have affected many assessees.

However, the provisions in respect of 'inter connected undertaking' have been made almost ineffective in valuation rules. Now, the 'inter connected undertakings' will be treated as 'related person' only if they are holding and subsidiary or they are 'related person' under any other clause. In other cases, they will not be treated as 'related person'. If they are not treated as related person, price charged by assessee to buyer will be accepted as 'transaction value' – confirmed in *South Asia Tyres v. CCE* (2003) 152 ELT 434 (CEGAT)

Interest in business of 'each other': As per section 4(3)(b)(iv), buyer and seller are 'related' if they are associated that they have interest, directly or indirectly, in the business of each other. It is not enough if only buyer has interest in seller or seller has interest in buyer. Both must have interest, directly or indirectly, in each other - *Atic Industries Ltd. v. UOI* (1984) 3 SCR 930 = 1984 (17) ELT 323 (SC) = AIR 1984 SC 1495 = (1984) 3 SCC 575.

The term 'relative and distributor' should be 'read down' and understood to means as '*distributor who is a Relative*' of assessee.

The word 'relative' is defined in section 6 of Companies Act, 1956 as follows : - A person shall be deemed to be a relative of another if, and only if, - (a) they are members of a Hindu undivided family; or (b) they are husband and wife; or (c) the one is related to the other in the manner indicated in Schedule I-A of the Companies Act. This Schedule contains following relatives : (1) Father (2) Mother (including step-mother) (3) Son (including step-son) (4) Son's wife (5) Daughter (including step-daughter) (6) Father's father (7) Father's mother (8) Mother's mother (9) Mother's father (10) Son's son (11) Son's son's wife (12) Son's daughter (13) Son's daughter's husband (14) Daughter's husband (15) Daughter's son (16) Daughter's son's wife (17) Daughter's daughter (18) Daughter's daughter's husband (19) Brother (including step-brother) (20) Brother's wife (21) Sister (including step-sister) (22) Sister's husband.

It is obvious that only a living i.e. natural person can be 'relative' of other. Thus, a company, partnership firm, body corporate, HUF, trust cannot be 'relative' of other.

Valuation when sale is through related person: If entire sale is made through 'related person', price relevant for valuation will be 'normal transaction value' at which the related buyer sales to unrelated buyer, as per rules 9 and 10 of Valuation Rules.

As per Valuation Rule 2(b), 'normal transaction value' means the transaction value at which the greatest aggregate quantities of goods are sold. The term '**Greatest Aggregate Quantity**' is used in Rule 7 of Customs Valuation Rules.

Provision when sale is only partly through related person : Rules 9 and 10 of Central Excise Valuation Rules make it clear that these rules apply only in cases where assessee sales goods exclusively to or through 'related person'.

Thus, there is no provision in rules when assessee partly sale to related person and partly to unrelated persons. As the wording stands, even if negligible quantity is sold to unrelated buyer, rules 9 and 10 become inapplicable. Valuation cannot be done on the basis of 'transaction value' of assessee to buyer as that is prohibited u/s 4(1)(a).

In such case, the only alternative seems to be residual method i.e. rule 11 of Valuation Rules, which states that if value cannot be determined under any of the foregoing rules, value shall be determined using reasonable means consistent with the principles and general provisions of section 4 and Valuation Rules.

- (vii) Best Judgement Assessment:** If assessment is not possible under any of the foregoing rules, assessment will be done by 'best judgement'. If the value of any excisable goods cannot be determined under the foregoing rules, the value shall be determined using reasonable means consistent with the principles and general provisions of these rules and sub-section (1) of section 4 of the Act. **[Rule 11]**

As the Valuation Rules stand today, there is no provision for calculating 'Value' in following cases- (a) If assessee makes sale partly to related person and partly to others. (b) Free samples. In these cases, valuation may be done under rule 11.

2.12 VALUATION IN CASE OF JOB WORK—RULE 10A

2.12.1 Meaning of Job Worker – As per *Explanation* to rule 10A, for the purposes of rule 10A, 'job worker' means a person engaged in manufacture or production of goods on behalf of a principal manufacturer, from any inputs or capital goods supplied by the said principal manufacturer or by any other person authorised by him.

Example 32: A Trader supplies raw material of ₹ 1,150 to processor. Processor processes the raw material and supplies finished product to the trader. The processor charges ₹ 450, which include ₹ 350 as processing expenses and ₹ 100 as his (processor's) profit. Transport cost for sending the raw material to the factory of processor is ₹ 50. Transport charges for returning the finished product to the trader from the premises of the processor is ₹ 60. The finished product is sold by the trader at ₹ 2,100 from his premises. He charges Vat separately in his invoice at applicable rates. The rate of duty is 12% plus education cess as applicable. What is the AV, and what is total duty payable ?

Answer:

Assessable Value is to be calculated on basis of selling price of trader which is ₹ 2,100 (cum-duty). This price is to be treated as inclusive of excise duty. Hence, assessable value will be $(2,100 \times 100)/112.36$ i.e. ₹ 1,868.99. Basic excise duty @ 12% will be ₹ 224.28. Education Cess (2%) is ₹ 4.49 and Secondary and Higher Education Cess is ₹ 2.24. Total duty payable will be ₹ 231.01.

2.12.2 Valuation in Case of Job Work

Excise duty will not be payable if raw material/semi-finished components are sent for job work under Cenvat provisions or under notification No. 214/86-CE. However, in other cases, if job work results in 'manufacture' of a product, duty will become payable by job worker. Rule 10A of Valuation Rules, as inserted w.e.f. 1-4-2007 provides that in such cases, excise duty will be payable on the basis of price at which the raw material supplier (termed as 'principal manufacturer' in valuation rules) sales the goods. Rule 10A has been inserted in the Central Excise Valuation (Determination of Price of Excisable Goods) Rules, 2000 to provide that where goods are manufactured by a job-worker on behalf of a person (commonly known as principal manufacturer), the value for payment of excise duty would be based on the sale value at which the principal manufacturer sells the goods, as against the present provision where the value is taken as cost of raw material plus the job charges - *Para 32.1 of DO letter F. No. 334/1 /2007-TRU dated 28-2 -2007.*

- (i) **When the Goods are Sold by the Principal Manufacturer from the Premises of Job Worker:** In a case where the goods are sold by the principal manufacturer for delivery at the time of removal

of goods from the factory of job-worker, where the principal manufacturer and the buyer of the goods are not related and the price is the sole consideration for the sale, the value of the excisable goods shall be the transaction value of the said goods sold by the principal manufacturer;

- (ii) **When the Goods are Sold by the Principal Manufacturer from a Place Other than the Premises of Job Worker:** In a case where the goods are not sold by the principal manufacturer at the time of removal of goods from the factory of the job-worker, but are transferred to some other place from where the said goods are to be sold after their clearance from the factory of job-worker and where the principal manufacturer and buyer of the goods are not related and the price is the sole consideration for the sale, the value of the excisable goods shall be the normal transaction value of such goods sold from such other place at or about the same time and, where such goods are not sold at or about the same time, at the time nearest to the time of removal of said goods from the factory of job-worker;
- (iii) **When Valuation as per Rule 10A(i) or 10A(ii) of Valuation Rules is not Possible** – If valuation is not possible as per rule 10A(i) or 10A(2) of Valuation Rules, 'value' will be determined in accordance with the principles enunciated in the Valuation Rules on a case-to-case basis [rule 10A(iii) of Valuation Rules]. For example, if the excisable goods manufactured on job-work are sold by the principal manufacturer where the price is not the sole consideration for sale, the value of such goods shall be determined in terms of principles laid down in rule 6. If goods are captively consumed by Principal Manufacturer, valuation can be on basis of rule 8.

2.12.3 Manufacturer not Liable for Duty Liability of Scrap / Waste Generated at end of Job Worker

Earlier rule 57F provided that waste and scrap arising during job work is required to be returned to raw material supplier. New Cenvat Credit Rules make no such provision. Hence, in *Rocket Engineering Corporation v. CCE 2006 (193) ELT 33 (CESTAT)*, it has been held that the scrap is not required to be returned to raw material supplier and the raw material supplier is not required to pay any duty on the scrap, since Cenvat Credit Rules after 1-4-2000 do not make any such provision – view confirmed in *CCE v. Rocket Engineering Corporation (2008) 223 ELT 347 (Bom HC DB)* - followed in *Emco Ltd. v. CCE (2008) 223 ELT 613 (CESTAT)*. In *Preetam Enterprises v. CCE 2004 (173) ELT 26 (CESTAT)*, it was held that even in respect of inputs sent under Cenvat Credit Rules, job worker is manufacturer of scrap and he is liable to pay duty on scrap. Duty on scrap cannot be demanded from raw material supplier after 1-4-2000 – same view in *Rocket Engineering v. CCE 2006 (193) ELT 33 (CESTAT)* [Scrap is treated as a final product if mentioned in the Tariff. However, it is 'final product' of job worker and not of raw material supplier].

In *Silicon Cortec v. CCE (2004) 166 ELT 473 (CESTAT SMB)*, it has been held that waste and scrap is final product of job worker and he can clear the same on payment of duty. In *Timken India v. CCE (2007) 215 ELT 182 (CESTAT)*, it was held that duty liability on scrap is of the job worker. If he is under SSI exemption, no duty is payable by him. In *GKN Sinter Metals v. CCE 2007 (210) ELT 222 (CESTAT)*, it was held that if waste and scrap is only in nature of floor sweeping, and if there is invisible loss, no duty is required to be paid on such scrap.

2.12.4 Service Tax on Job Work

Job work falls under 'Business Auxiliary Service', if the job work is not 'manufacture'. Service tax will be payable. Job work done under Cenvat provisions is exempt from service tax. If the job worker is not availing any Cenvat credit of any common input or input services, question does not arise. However, if the job worker is availing Cenvat credit on inputs or input services, he will be liable to pay 8% 'amount' on job charges under rule 6(3) of Cenvat Credit Rules, or he may have to go in for proportionate reversal of Cenvat Credit as per rule 6(3A) of Cenvat Credit Rules effective from 1-4-2008. If the job worker thinks that the rule 6(3A) is cumbersome, it may be advisable to pay service tax @ 12.36% on job charges, since the customer will be in a position to avail Cenvat credit. If job worker charges 8% 'amount', customer cannot avail Cenvat credit, but if job worker charges regular service tax, the customer will be eligible to avail Cenvat credit.

2.13 SOME CRITICAL ISSUES IN CENTRAL EXCISE

2.13.1 Software is 'Goods', But Unbranded Software is Service

In *Tata Consultancy Services v. State of Andhra Pradesh* (2005) 1 SCC 308 = 141 Taxman 132 = 271 ITR 401 = AIR 2005 SC 371 = 2004 AIR SCW 6583 = 137 STC 620 = 178 ELT 22 (SC 5 member Constitution bench), it has been held that canned software (i.e. computer software packages sold off the shelf) like Oracle, Lotus, Master-Key etc. are 'goods'. The copyright in the programme may remain with originator of programme, but the moment copies are made and marketed, they become 'goods'. It was held that test to determine whether a property is 'goods' for purpose of sales tax, is not whether the property is tangible or intangible or in-corporal. The test is whether the concerned item is capable of abstraction, consumption and use, and whether it can be transmitted, transferred, delivered, stored, possessed etc. Even intellectual property, once it is put on a media, whether it be in form of books or canvas (in case of painting) or computer discs or cassettes and marketed would become goods. In all such cases, intellectual property has been incorporated on a media for purpose of transfer. The buyer is purchasing the intellectual property and not the media, i.e. the paper or cassette or discs or CD. There is no distinction between 'branded' and 'unbranded' software. In both cases, the software is capable of being abstracted, consumed and used. In both the cases, the software can be transmitted, transferred, delivered, stores, possessed etc. Unbranded software when marketed/sold may be goods.

However, Supreme Court did not express any opinion because in case of unbranded software, other questions like situations of contract of sale and/or whether the contract is a service contract may arise. Hence, in case of unbranded software, the issue is not yet fully settled. [SC upheld decision of AP High Court reported in *Tata Consultancy Services v. State of AP* (1997) 105 STC 421 (AP HC DB)].

In *Bharat Sanchar Nigam Ltd . v. UOI* (2006) 3 SCC 1 = 152 Taxman 135 = 3 STT 245 = 145 STC 91 = 282 ITR 273 (SC 3 member bench), following extract from decision in case of *Tata Consultancy Services v. State of Andhra Pradesh* was quoted with approval and adopted, 'A 'goods' may be a tangible property or an intangible one. It would become goods provided it has the attributes thereof having regard to (a) its utility; (b) capable of being bought and sold and (c) capable of being transferred, delivered, stored and possessed. If a software, whether customized or non-customized satisfies these attributes, the same would be goods'.

Earlier also, in *Associated Cement Companies Ltd. v. CC* 2001 (4) SCC 593 = 2001 AIR SCW 559 = 128 ELT 21 = AIR 2001 SC 862 = 124 STC 59 (SC 3 member bench), it was held that computer software is 'goods' even if it is copyrightable as intellectual property.

In *State Bank of India v. Municipal Corporation* 1997(3) Mh LJ 718 = AIR 1997 Bom 220, it was held that 'computer software' is 'appliance' of computer. It was held that it is 'goods' and octroi can be levied on full value and not on only value of empty floppy. [In this case, it was held that octroi cannot be levied on license fee for duplicating the software for distribution outside the corporation limits].

Excise duty on software: All software, except canned software i.e. software that can be sold off the shelf, is 'exempt' under notification No. 6/2006-CE dated 1-3-2006.

Para 138 of Finance Minister's speech dated 28-2-2006 reads as follows, 'I propose to impose an 8 per cent excise duty on packaged software sold over the counter. Customized software and software packages downloaded from the internet will be exempt from this levy'.

Meaning of 'software': 'Information Technology Software' is defined in Supplementary Note of chapter 85 of Central Excise Tariff (and also Customs Tariff) as follows - 'For the purpose of heading 8523, 'Information Technology Software' means any representation of instructions, data, sound or image, including source code and object code, recorded in a machine readable form, and capable of being manipulated or providing interactivity to a user, by means of an automatic data processing machine'.

In *CCE v. Pentamedia Graphics* (2006) 198 ELT 164 (SC), it was held that 'motion picture animation file' recorded in a machine readable format and capable of being manipulated by automatic data

processing machine is software – referred in *Padmini Polymers v. CCE* (2007) 215 ELT 392 (CESTAT), where it was held that multimedia application software on CD ROM is exempt. In this case, Cook Books and games which were interactive were held as 'software'. Reference was made to CBE&C circular No. 7/98-Cus dated 10-2-1998 where it was clarified that encyclopedia, games, books will be 'software' if these satisfy the interactivity criterion.

The SC decision was also followed in *Gayatri Impex v. CC* (2007) 215 ELT 397 (CESTAT) and *Adani Exports v. CCE* (2007) 210 ELT 443 (CESTAT). However, from the decision, it is not clear what was exactly imported. There is no requirement that to qualify as software, it must work without any operating system preloaded on computer. Any programme which requires another programme like operating system will also be treated as software – *Contessa Commercial Co. P Ltd. v. CC* (2007) 208 ELT 299 (CESTAT). In this case, the importer had imported educational programmes and games.

Classification of encyclopedia, books on CD: In case of encyclopedia and books, there is hardly any 'interactivity', except that search engine helps in locating particular information. Further, search engine, which can be termed as 'software' forms insignificant part of the whole goods.

Applying the criteria of 'essential character' in case of mixture of goods, in my view, these cannot be termed as 'software'. These have to be classified as books.

Chapter 49, Note no 2 reads as follows, 'For the purpose of Chapter 49, the term 'printed' also means reproduced by means of a duplicating machine, produced under the control of an automatic data processing machine, embossed, photographed, photocopies, thermo-copied or type-written. Hence, it can be argued that a book can be 'printed' on CD since it is produced under the control of an automatic data processing machine.

As per item Sr. No. 26 of Notification No. 6/2006-CE dated 1-3-2006, CD-ROMs containing books of an educational nature, journal, periodicals (magazines) or newspaper are fully exempt from excise duty. Thus, a book can be on CD has been recognized in law.

Unbranded software is service

Though Supreme Court has held that tailor made software is also goods, Finance Bill, 2008 has imposed service tax on tailor made i.e. unbranded software. "Information technology software" means any representation of instructions, data, sound or image, including source code and object code, recorded in a machine readable form, and capable of being manipulated or providing interactivity to a user, by means of a computer or an automatic data processing machine or any other device or equipment [proposed section 65(53a) of Finance Bill, 2008]. Any service provided or to be provided to any person, by any other person in relation to information technology software for use in the course, or furtherance, of business or commerce, including:—

- (i) development of information technology software,
- (ii) study, analysis, design and programming of information technology software,
- (iii) adaptation, upgradation, enhancement, implementation and other similar services related to information technology software,
- (iv) providing advice, consultancy and assistance on matters related to information technology software, including conducting feasibility studies on implementation of a system, specifications for a database design, guidance and assistance during the startup phase of a new system, specifications to secure a database, advice on proprietary information technology software
- (v) acquiring the right to use information technology software for commercial exploitation including right to reproduce, distribute and sell information technology software and right to use software components for the creation of and inclusion in other information technology software products
- (vi) acquiring the right to use information technology software supplied electronically, is a taxable service [proposed section 65(105)(zzzze) of Finance Bill, 2008].

Departmental clarification : CBE&C TRU letter F. No.334/1/2008-TRU dated 29-1-2008 clarifies as follows -Software consists of carrier medium such as CD, Floppy and coded data. Softwares are categorized as “normal software” and “specific software”. Normalised software is mass market product generally available in packaged form off the shelf in retail outlets. Specific software is tailored to the specific requirement of the customer and is known as customized software.

Packaged software sold off the shelf, being treated as goods, is leviable to excise duty. Number of IT services and IT enabled services (ITeS) are already leviable to service tax under various taxable services:

- i. Consulting engineer's service - advice, consultancy or technical assistance in the discipline of hardware engineering.
- ii. Management or business consultant's service - procurement and management of information technology resources.
- iii. Management, maintenance or repair service - maintenance of software, both packaged and customized and hardware.
- iv. Banking and other financial services - 'provision and transfer of information and data processing'.
- v. Business support service - various outsourced IT and IT enabled services.
- vi. Business auxiliary service - services provided on behalf of the client such as call centers.

IT software services provided for use in business or commerce are covered under the scope of the proposed service. Said services provided for use, other than in business or commerce, such as services provided to individuals for personal use, continue to be outside the scope of service tax levy. Service tax paid shall be available as input credit under Cenvat credit Scheme.

Software and upgrades of software are also supplied electronically, known as digital delivery. Taxation is to be neutral and should not depend on forms of delivery. Such supply of IT software electronically shall be covered within the scope of the proposed service.

With the proposed levy on IT software services, information technology related services will get covered comprehensively.

Duties on packaged/canned software [Notification No. 14/2011, dated 1-3-2011]:

Retail Sale Price (RSP) of packaged/canned software consist of two components namely

- (i) Value of the software and
- (ii) License (right to use)

The Central Board of Excise and Customs (CBE&C) issued Circular No. 15/2011 -Cus, dated 18.3.2011 to clarify the levy of Excise, Service Tax and Customs duties on packaged/canned software.

Note: if the packaged/canned software imported then the additional customs duty (CVD) under section 3(1) of the Customs Tariff Act, 1975 would be charged on value on the basis of MRP under section 4A of the Central Excise Act, 1944 provided affixation of RSP is mandatory. Otherwise additional customs duty (CVD) will be charged on the basis of Sec. 4 of the Central Excise Act, 1944.

2.13.2 Plant and Machinery Assembled at Site

Plant and Machinery assembled and erected at site cannot be treated as 'goods' for the purpose of Excise duty, if it is not marketable and movable. [It may be noted that even if goods are held as 'excisable', they will be exempt if manufactured within factory of production. See case law under '*Larsen & Toubro Ltd. vs. UOI* (2009(243)ELT 662 (Mumbai)).

The word 'goods' applies to those which can be brought to market for being bought and sold, and it is implied that it applies to such goods as are movable. Goods erected and installed in the premises and embedded to earth cease to be goods and cannot be held to be excisable goods. - *Quality Steel Tubes (P.) Ltd. v. CCE* 75 ELT 17 (SC) = (1995) 2 SCC 372 = 6 RLT 131 = 1995 AIR SCW 11 - in this case, it was held that tube mill and welding head erected and installed in the premises and embedded in the earth for manufacture of steel tubes and pipes are not 'goods'. followed in *Mittal Works v. CCE* (1997) 1 SCC 203 = 1996 (88) ELT 622 (SC) = 106 STC 201 -quoted with approval in *Thermax Ltd. v. CCE* 1998(99) ELT 481 (SC) - same view in *Triveni Engineering v. CCE* AIR 2000 SC 2896 = 2000 AIR SCW 3144 = 40 RLT 1 = 120 ELT 273 (SC) * *CCE v. Damodar Ropeways* 2003(151) ELT 3 = 54 RLT 125 (SC 3 member bench).

In *Municipal Corporation of Greater Bombay v. Indian Oil Corporation* AIR 1991 SC 686 = 1991 Supp (2) SCC 18, it was held that if the chattel is movable to another place in the same position (condition?), it is movable property. If it has to be dismantled and re-erected at later place, it is attached to earth and is immovable property.

Assembly at site is not manufacture, if immovable product emerges: In *Mittal Engg Works v. CCE*

1996 (88) ELT 622 = 17 RLT 612 = 106 STC 201 = (1997) 1 SCC 203, it was held that if an article has to be assembled, erected and attached to the earth at site and if it is not capable of being sold as it is, without anything more, it is not 'goods'. Erection and installation of a plant is not excisable - followed in *CCE v. Hyderabad Race Club* 1996 (88) ELT 633 (SC), where it was held that an article embedded in the earth was not 'goods' and hence excise duty is not leviable – followed in *TIG Industries v. CCE* 2004 AIR SCW 3329 = 167 ELT 501 (SC) – same view in case of storage cabinets, kitchen counters etc. erected at site in *Craft Interiors P Ltd. v. CCE* 2006 (203) ELT 529 (SC) – same view in respect of refrigeration plant, air conditioning plant and caustic soda plant in *CCE v. Virdi Brothers* 2007 (207) ELT 321 (SC).

Capital Goods manufactured within factory of production are exempt even if manufactured by third party - It may be noted that capital goods manufactured within the factory and used within the factory are exempt from excise duty vide notification No. 67/1995-CE dated 16.3.1995.

The exemption is available even when the capital goods are manufactured in the factory of production by third party. [refer case law under 'Captive Consumption'].

Assembly is manufacture only if machinery can be removed without dis-assembly: In *Triveni Engineering v. CCE* AIR 2000 SC 2896 = 2000 AIR SCW 3144 = 40 RLT 1 = 120 ELT 273 (SC), it was observed, 'The marketability test requires that the goods as such should be in a position to be taken to market and sold. If they have to be separated, the test is not satisfied'. [Thus, if machine has to be dis-assembled for removal, it is not 'goods' and duty cannot be levied].

If machine (generating set in this case) is only bolted on a frame and is capable of being shifted from that place, it is capable of being sold. It is goods and not immovable property – *Mallur Siddeswara Spinning Mills v. CCE* 2004 (166) ELT 154 (SC).

Present legal position in respect of machinery erected at site: The latest judgment on the issue is of *Triveni Engineering* judgment dated 8-8-2000, which has been practically accepted by Board vide its circular dated 15-1-2002. Hence, the present legal provision is, as decided in *Triveni Engineering*, i.e.

'The marketability test requires that the goods as such should be in a position to be taken to market and sold. If they have to be separated, the test is not satisfied'. Thus, if machinery has to be dismantled before removal, it will not be goods. Following is also clear (a) Duty cannot be levied on immovable property (b) If plant is so embedded to earth that it is not possible to move it without dismantling, no duty can be levied (c) If machinery is superficially attached to earth for operational efficiency, and can be easily removed without dismantling, duty is leviable (d) Turnkey projects are not dutiable, but individual component/machinery will be dutiable, if marketable.

Article can be 'goods' if marketable before erection - An article will be liable to duty if its manufacture is complete before it is fastened to earth. Similarly, if 'machinery' is in marketable condition at the time of removal from factory of manufacture, duty will be leviable, even if subsequently, it is to be fastened to earth.

2.13.3 Dutiability of Steel and Concrete Structures

Following are covered in 'iron and steel structure' as defined in tariff heading 7308 – (i) big structures like bridges, transmission towers, and lattice masts, lock-gates, roofs etc. of iron and steel, (ii) parts of structures e.g. doors, windows and their frames, shutters, balustrades, pillars and columns etc. of iron and steel, (iii) Plates, rods, angles, shapes, sections, tubes and the like prepared for use in structures of iron and steel.

In *Mahindra & Mahindra Ltd. v. CCE 2005 (190) ELT 301 (CESTAT 3 member LB)*, it has been held as follows –

- (i) Immovable iron and steel structures are not goods.
- (ii) Structures and parts mentioned in parenthesis of 7308 like bridges, lock-gates, towers, trusses, columns frames etc., in their movable state will be subject to excise duty, even if latter they get permanently fixed in the structures. (iii) Plates, rods, angles, sections, tubes and the like, prepared for use in the structures will also be excisable goods subject to duty *in their pre-assembled or disassembled state*.

Fabrication of steel structurals like columns, crane, grinders, trusses amounts to 'manufacture'- *R S Avtar Singh v. CCE (2007) 213 ELT 105 (CESTAT)*.

Structure for pre-fabricated building is dutiable – Steel structure for prefabricated building is dutiable. – *Mittal Pipe Mfg. Co . v. CCE 2002(146) ELT 624 (CEGAT)*.

Fabrication of steel structure at site is exempt : As per Sr. No. 64 of notification No. 3/2005-CE dated 24-2-2005, (earlier it was in tariff entry 7308.50), structures fabricated at site of work for use in construction at site are exempt from duty. In *Delhi Tourism v. CCE 1999(114) ELT 421 (CEGAT)*, it was held that the term 'site' should be given wider meaning and not narrow meaning. Even if structure is cast at different place and brought to site of construction, it will be eligible for exemption.

2.13.4 Goods with Blank Duty Rate in Central Excise Tariff are 'Excisable Goods'

Some goods are mentioned in Central Excise Tariff but column of rate of duty is blank (e.g. live animals in Chapter 1, Electrical Energy in chapter 27, Newspaper and maps in Chapter 49).

As per additional note No. 1(c) to Central Excise Tariff, 'tariff item' means description of goods in the list of tariff provisions accompanying either eight-digit number and the rate of duty or eight-digit number with blank in the columns of the rate of duty. Hence, goods where duty rate is blank is excisable goods – para 22 of *Geetanjali Woolens v. CCE (2007) 218 ELT 152 (CESTAT)* [Interestingly, in case of Customs Tariff, the note 1(c) does not make mention of 'blank' rate in the column of rate of duty].

However, in *CCE v. Solaris Chemtech (2007) 9 STT 412 = 214 ELT 481 (SC)*, it is observed that electricity is not an excisable item. In excise tariff, rate is 'blank' in items like rice, wheat, soya bean, cotton seed etc. These are 'produced'. In excise tariff, rate is 'blank' in items like rice, wheat, soya bean, cotton seed etc. These are 'produced'.

Goods mentioned as 'free' in Customs Tariff - In *Associated Cement Companies Ltd . v. CC* 2001 AIR SCW 559 = AIR 2001 SC 862 = (2001) 4 SCC 593 = 128 ELT 18 = 124 STC 59 = (SC 3 member bench), it was held that if duty rate specified in Customs Tariff Act is 'FREE' (i.e. no duty is payable), no duty is payable on such goods and hence these are not 'dutiable goods'. [In Central Excise Tariff, the duty rate indicated is 'Nil'. Hence, these are 'excisable goods'].

2.13.5 Manufacture –Other Aspects

Cutting of jumbo rolls of typewriter to make ribbon of standard length and winding on spool and blister packed - In *Kores India v. CCE* (2003) 152 ELT 395 (CEGAT), it was held that conversion of jumbo reels of ribbons into spool form to suit particular model and make of typewriting/telex machine is 'manufacture' as new and distinct product emerges – view upheld in *Kores India v. CCE* (2005) 1 SCC 385 = 174 ELT 7 (SC) – followed in *CCE v. Sohni Industries Ltd .* 2006 (203) ELT 493 (CESTAT).

This decision was discussed in *Anil Dang v. CCE* (2007) 213 ELT 29 (CESTAT 3 member bench). It was held that this was no mere cutting and slitting but the roll was spooled on metal spools, plaster packed and sealed with aluminium foils. Hence, this decision will not apply where only slitting and cutting is involved.

Betel Nut to supari powder is not manufacture : Crushing betel nuts into smaller pieces and sweetening them does not result in a distinct product, as 'betel nut remains a betel nut' – *Crane Betel Nut Powder Works v. CCE* 2007 (210) ELT 171 = 6 VST 532 (SC) – decision of Tribunal in *CCE v. Crane Betel Nut Powder Works* 2005 (187) ELT 106 (CESTAT) is now not valid.

Upgradation of computer system is not manufacture : Upgradation of computer system by increasing its storage / processing capacity by increasing hard disk capacity, RAM or changing processor chip is not manufacture as new goods with different name, character and use do not come into existence. - CBE&C circular No. 454/20/99-CX dated 12-4-1999 – view confirmed in *Maxim Information Tech v. CCE* 2005 (184) ELT 78 (CESTAT) * *CCS Infotech v. CCE* (2007) 216 ELT 107 (CESTAT).

2.13.6 Classification of Goods

Classification of parachute coconut oil : In *Amardeo Plastics Industries v. CCE* (2007) 210 ELT 360 (CESTAT 2 v. 1 order), on the basis of chapter notes, it was held that parachute coconut oil is 'vegetable oil' under chapter 15 and not 'preparation for use on the hair', since the marking on package did not say that it is for 'such specialized use', though advertisements did indicate so.

However, in *Shalimar Chemical Works v. CST* (2008) 12 VST 485 (WBTT), it has been held that except in a few Southern States, coconut oil is not treated as edible oil for use of daily cooking. In West Bengal, considering consumption pattern, coconut oil cannot be treated as 'edible oil'. It has to be treated as 'hair oil'.

Plastic name plate : Plastic name plate for motor vehicle is to be classified as 'accessory of motor vehicle' in chapter 87 and not 'other articles of plastic' in chapter 39, since 'name plate' is not specified in any heading in chapter 39 – *Pragati Silicons P Ltd. v. CCE* (2007) 8 VST 705 = 211 ELT 534 (SC).

Meaning of 'set of articles' : Distinction between laptop and desktop – 'Set of article' should consist of more than one item, each complementing the work of another and retaining their individual identity all the time – *CC v. Acer India P Ltd.* (2007) 218 ELT 17 (SC). In this case, it was held that a desktop computer is a combination of CPU with monitor, mouse and keyboard as a set. A desktop computer does not lose individual identities of CPU, monitor, mouse and keyboard. Not only they are marketable as separate items but are also used separately. On the other hand, a laptop (notebook computer) comes in an integrated and inseparable form. It is a combination of CPU, monitor, mouse and keyboard. A laptop cannot be said to be set of CPU with monitor mouse and keyboard – confirming Tribunal decision in *CC v. Acer India P Ltd .* (2007) 208 ELT 132 (CESTAT).

Software/records/tapes supplied along with equipment – Software imports are exempt from customs duty. Earlier, Customs and Central Excise Tariff had a note No. 6 which stated that software when presented with the apparatus for which it was intended will be classifiable as software. This note has been deleted w.e.f. 1-1-2007. Hence, software embedded or pre-loaded in machine is to be classified

along with the machine. This will also be case when software is brought separately, but as a 'set'. If tangible software e.g. operating software or application software loaded on disk, floppy, CD-ROM etc. is imported, it will be classifiable as software under heading 8523 – CC (Import), Mumbai PN 39/2007 dated 3-12-2007. In *CC v. Hewlett Packard India (Sales) P Ltd.* (2007) 215 ELT 484 (SC), it was held that pre-loaded software in laptop forms integral part of the laptop. Without operating system like windows, the laptop cannot work. Hence, the laptop along with software has to be classified as laptop and values as one unit. Software pre-loaded cannot be classified separately as software (In this case, the importer wanted to classify hard disk along with software as 'software' and refused to give value of software even when called upon to do so. Hence, the decision has to be seen from peculiar facts of the case).

Principles of classification irrelevant for valuation : Classification decides the applicable rate. It is followed by valuation i.e. value at which rate is to be applied. The concept of 'classification' is therefore different from the concept of valuation. Section and chapter notes in Tariff and interpretative rules do not provide guidelines for valuation - *CCE v. Frick India Ltd.* (2007) 216 ELT 497 (SC).

2.14 ASSESSABLE VALUE UNDER SECTION 4

2.14.1 Factory can be Place of Removal even if Insurance taken by Assessee as Service to Customers

In *Blue Star Ltd. v. CCE* (2008) 224 ELT 258 (CESTAT), transport was arranged by assessee since individual customer cannot arrange for transportation. Insurance was taken for safe transport of goods, as a service to customers. It was held that insurance cover cannot be taken as criteria for determining ownership of goods. It was held that there was sale at factory gate and freight is not includible in assessable value.

2.14.2 Minimum Charges if Assured Quantity not Purchased, are not Part of Excise Assessable Value

In *Jindal Praxair Oxygen v. CCE* (2007) 208 ELT 181 (CESTAT), MTOP charges were payable to assessee if buyer fails to purchase minimum quantity assured, as in such cases, assessee is not in position to operate his plant at optimum capacity. It was held that these are not includible in assessable value - followed in *CCE v. Praxair India* (2008) 223 ELT 596 (CESTAT).

2.14.3 Place of Removal in Case of Exports

In case of exports, the place of removal is port where export documents are presented to customs office – *Kuntal Granites v. CCE* (2007) 215 ELT 515 = 2007 TIOL 930 (CESTAT) – quoted and followed in *Rajasthan Spinning & Weaving Mills v. CCE* (2007) 8 STR 575 (CESTAT).

2.14.4 Cash Discount Admissible Whether Availed or Not

In *CCE v. Arvind Mills Ltd.* (2006) 204 ELT 570 (CESTAT 3 member bench), it has been very clearly held that cash discount and finance cost are admissible under new section 4 of CEA also. Differential price represents interest for delayed payment. Cost of finance and cash discount whether availed or not are to be granted as abatement even after 1-7-2000.

2.14.5 Self Insurance Charges Addible

In *Gujarat Borosil v. CCE* (2007) 217 ELT 367 (CESTAT), assessee was collecting 7% amount was 'insurance charges'. Actual insurance premium paid was much less. The charge was to cover breakage of goods in transit. It was held that this cannot be permitted as deduction since assessee was not an insurance company.

2.14.6 Valuation of Free Samples

CBE&C, vide circular No. 813/10/2005-CX dated 25-4-2005 has clarified that in case of samples distributed free, valuation should be done on basis of rule 4 i.e. value of similar goods. The revised circular dated 25-4-2005 stating that valuation of samples should be on basis of rule 4, has been upheld as valid in *Indian Drugs Manufacturers' Assn v. UOI* (2008) 222 ELT 22 (Bom HC DB).

2.14.7 Valuation in Case of Stock Transfer

In case of stock transfer, value to be adopted is the price prevailing in depot at the time of clearance from factory. Once goods are cleared from factory to depot on payment of duty (on basis of price prevailing at the time of removal from factory), it is not necessary to chase the goods and see at what price the goods were subsequently sold - *CCE v. Carborandum Universal Ltd.* (2008) 224 ELT 290 (CESTAT).

2.14.8 Sale to Parent Company both as Spares as well as for Maintenance

In *CCE v. Aquamall Water Solutions* (2008) 223 ELT 385 (CESTAT), assessee sold its water purifying equipment to its parent company (Eureka Forbes Ltd.). Assessee also supplied parts of the water purifying equipment to its parent company, both for sale as spares and also for maintenance purposes. In case of spares for sale, duty was paid on the basis of selling price of spares of parent company. In case of parts supplied for use in maintenance, duty was paid on the basis of cost of production plus 10%. Department contended that in case of parts supplied for maintenance also, duty should be paid on basis of selling price of parent company. However, Tribunal held that when parts are not sold by parent company, duty should be paid under rule 8 on basis of cost of production plus 10% since no other specific rule to cover this (The decision is based on a Board circular which has since been withdrawn).

Part sale and part consumption – in *Ispat Industries Ltd. v. CCE* 2006 (201) ELT 65 (CESTAT), it was held that if goods are partially sold to unrelated buyers and partially supplied to sister concern, valuation should be under rule 4 i.e. on the basis of price at which goods are sold to other independent buyers – relying on *Aquamall Water Solutions v. CCE* 2003 (153) ELT 428 (CEGAT). - view upheld in *Ispat Industries v. CCE* 2007 (209) ELT 185 (CESTAT 3 member bench).

2.15 VALUE BASED ON RETAIL SALE PRICE

Section 4A of CEA empowers Central Government to specify goods on which duty will be payable based on 'retail sale price'.

The provisions for valuation on MRP basis are as follows :

- The goods should be covered under provisions of Legal Metrology Act, 2009, w.e.f. 1-8-2011 (earlier Standards of Weights and Measures Act, 1976) **[section 4A(1)]**.
- Central Government has to issue a notification in Official Gazette specifying the commodities to which the provision is applicable and the abatements permissible. Central Government can permit reasonable abatement (deductions) from the 'retail sale price' **[section 4A(2)]**.
- While allowing such abatement, Central Government shall take into account excise duty, sales tax and other taxes payable on the goods **[section 4A(3)]**.
- The 'retail sale price' should be the maximum price at which excisable goods in packaged forms are sold to ultimate consumer. It includes all taxes, freight, transport charges, commission payable to dealers and all charges towards advertisement, delivery, packing, forwarding charges etc. If under certain law, MRP is required to be without taxes and duties, that price can be the 'retail sale price' **[Explanation 1 section 4A]**.
- If more than one 'retail sale price' is printed on the same packing, the maximum of such retail price will be considered **[Explanation 2(a) to section 4A]**. If different MRP are printed on different packages for different areas, each such price will be 'retail sale price' for purpose of valuation **[Explanation 2(c) to section 4A]**.

- (f) Removing excisable goods without MRP or wrong MRP or tampering, altering or removing MRP declared on a package is an offence and goods are liable to confiscation [section 4A(4)] If price is altered, such increased price will be the 'retail sale price' for purpose of valuation **[Explanation 2(b) to section 4A]**.

For example, Government had issued a notification to the effect that excise duty on 'cosmetics and toilet preparations' will be payable on the basis of MRP printed on retail carton after allowing abatement of 40%. In such case, if MRP printed on carton is ₹ 200 and if the duty on 'cosmetics & toilet preparations' is 12% plus education cess of 2% plus SAH education cess of 1%, the duty @ 12% will be payable on ₹ 120 (i.e. after allowing 40% abatement on MRP of ₹ 200). Thus duty payable per pack will be ₹ 14.40, plus Education Cess ₹ 0.288 plus SAH education cess of ₹ 0.144.

MRP provisions are overriding provisions– Section 4A(2) of Central Excise Act uses the words 'notwithstanding section 4A. Hence, when section 4A is applicable, provisions of section 4 for determination of assessable value are not applicable.

Provision of MRP based valuation are applicable only when product is statutorily covered both under Weights and Measures Act and notification issued under CEA - reiterated in Swan Sweets v. CCE 2006 (198) ELT 565 (CESTAT).

Same product sold in wholesale and under MRP– CBE&C has clarified in circular No. 737/53/2003-CX dated 19-8-2003 that when goods covered u/s 4A are supplied in bulk to large buyer (and not in retail), valuation is required to be done u/s 4. Provisions of section 4A apply only where manufacturer is legally obliged to print MRP on the packages of goods. Thus, there can be instances where the same commodity would be partly assessed on basis of section 4A and partly on basis of transaction value u/s 4.

Products covered under the MRP valuation scheme– So far, 96 articles have been covered under this scheme [Notification No. 2/2006-CE(NT) dated 1-3-2006].

Non-applicability of provisions of MRP– If an article is not covered under provisions in respect of marking MRP, provisions of duty payable on basis of MRP do not apply and in those cases, duty will be payable on *ad valorem* basis as per section 4. As per rules 2A and 34 of Standards of Weights and Measures (Packaged Commodities) Rules, 1977 (as amended w.e.f. 14-1-2007), the provisions of marking MRP are not applicable to following commodities – Packages above 25Kg (50 Kg in case of cement) * Packaged commodities for industrial or institutional consumers * Small packages of 10gm/10 ml or less * Fast food items * Scheduled drugs and formulations * Agricultural farm produce * Bidis for retail sale * Domestic LPG gas.

Deemed Manufacture of products covered under MRP– In respect of goods specified in third schedule to Central Excise Act, any process which involves packing or repacking of such goods in a unit container or labelling or re-labelling of containers including the declaration or alteration of retail sale price on the container or adoption of any other treatment on the goods to render the product marketable to consumer will be 'manufacture'. [section 2(f)(iii) effective from 14-5-2003].

2.16 MRP BASED VALUATION

2.16.1 Same product partly sold in retail and partly in wholesale

CBE&C has further clarified in circular No. 737/53/2003-CX dated 19-8-2003 that when goods covered u/s 4A are supplied in bulk to large buyer (and not in retail), valuation is required to be done u/s 4. Provisions of section 4A apply only where manufacturer is legally obliged to print MRP on the packages of goods. Thus, there can be instances where the same commodity would be partly assessed on basis of section 4A and partly on basis of transaction value u/s 4 – view noted and approved in Jayanti Food Processing v. CCE (2007) 10 STT 375 = 215 ELT 327 (SC).

2.16.2 Valuation on MRP basis even if package is not really intended for retail sale

In *Jayanti Food Processing v. CCE* (2007) 10 STT 375 = 215 ELT 327 (SC), it was observed that nature of sale is not the relevant factor for application of section 4A but application would depend on five factors i.e. (i) goods should be excisable goods (ii) They should be such as are sold in the package (iii) There should be requirement of SWM Act or rules or any other law to declare price of such goods relating to their retail price on package (iv) The Central Government must have specified such goods by notification of Official gazette and (v) Valuation of such goods would be as per the declared retail price on the package less the amount of abatement.

In *ITEL Industries P Ltd. v. CCE* 2004 (163) ELT 219 (CESTAT 2 v. 1 decision), telephone instruments were supplied to DOT/MTNL in bulk with MRP duly marked. DOT/MTNL lent these to subscribers retaining their ownership. It was held that since goods were packed, the valuation is required to be done u/s 4A on basis of MRP, even if goods were not sold to customers – followed in *BPL Telecom v. CCE* (2004) 168 ELT 251 = 60 RLT 664 (CESTAT), where it was held that there is no requirement under Packaged Commodities Rules that goods covered by those provisions must be actually sold in retail – view confirmed in *Jayanti Food Processing v. CCE* (2007) 10 STT 375 = 215 ELT 327 (SC).

This was followed in *CCE v. Liberty Shoes* (2007) 216 ELT 692 (CESTAT), where it was held that MRP provisions apply even when sale is in bulk to institutional buyers.

2.16.3 Provision does not apply to Ice Cream sold in bulk

In *Monsanto Manufacturers v. CCE* 2006 (193) ELT 495 (CESTAT), it was held that if ice cream is sold in bulk to hotels and not intended for retail sale, valuation will be as per section 4 and not on MRP basis – view confirmed in *Jayanti Food Processing v. CCE* (2007) 10 STT 375 = 215 ELT 327 (SC).

2.16.4 Two Items in Combi-Pack with One Item Free

In *Icon Household Products v. CCE* (2007) 216 ELT 579 (CESTAT), assessee was selling Mosquito Repellent Liquid (MRL) and Liquid Vapourising Device (LVD) as combi-pack. MRP was contained only on plastic container of MRL and not on LVD. It was held that this MRP will be taken for valuation of multipack. LVD supplied free in the multipack is not liable to assessment separately – relying on *Himalaya Drug Company v. CCE* (2006) 195 ELT 109 (CESTAT) - same view in *CCE v. J L Morison* (2008) 223 ELT 655 (CESTAT SMB).

2.16.5 No MRP on Free Gifts/Samples, Hence Valuation as Per Section 4

In *Jayanti Food Processing v. CCE* (2007) 10 STT 375 = 215 ELT 327 (SC), assessee was selling Kitkat chocolates to Pepsi. These were distributed as free gift along with Pepsi bottle as a marketing strategy. It was held that even if product (chocolate) is covered under MRP provisions, since the product was not to be sold in retail, MRP is not required. Hence, valuation should be on basis of section 4.

2.16.6 Provision when more than One Retail Price Declared

MRP printed on package is required to be inclusive of taxes. Rate of taxes vary from State to State. Hence, in some cases, a manufacturer may print different prices for different States. In some cases, manufacturer earmarks different packages for different areas and marks different prices for different areas.

If a package bears more than one retail sale price, maximum out of these will be deemed to be retail price for purpose of section 4A [Explanation 2(a) to section 4A(4)]. If retail price declared on the package at the time of removal is subsequently altered to increase the price, such increased retail price will be retail price for purpose of section 4A [Explanation 2(b) to section 4A(4)]. Where different retail sale prices are declared on different packages, each such retail price shall be the 'retail sale price' for purposes of

valuation of excisable goods intended to be sold in area to which the retail price relates. [Explanation 2(c) to section 4A(4)]. Thus, if different prices are printed on different packages, each such price will be 'retail price'.

There is no stipulation in the Act that all packages should bear same MRP. Different MRPs for different buyers can be fixed. Even if MRP is different for each packet, such MRP is required to be adopted for assessable value— CCE v. Bell Granito Ceramics (209) 235 ELT 171 (CESTAT).

2.16.7 Provisions and Requirements of the Standards of Weights and Measures (Packaged Commodity) Rules, 1977 ("SWM Rules")

The relevant provisions and requirements of the SWM Rules, are as follows

- (1) **Only Packages Intended for Retail Sale Covered:** The requirement to declare retail sale price of the packages is applicable only in respect of packages intended for retail sale.
- (2) **Goods on which RSP need not be Declared:** There is no requirement to declare RSP on-
 - (a) Packages of commodities containing quantity of more than 25 Kg or 25 Liters (excluding cement and fertilizer sold in bags up to 50 Kg.);
 - (b) Packaged commodities meant for industrial consumers or institutional consumers;

"Industrial consumer" means those consumers who buy packaged commodities directly from the manufactures/packers for using the product in their industry for production etc.;

"Institutional consumers" means those consumers who buy packaged commodities directly from the manufacturers/packers for service industry like transportation including airways, railways, hotel or any other similar service industry;
 - (c) Any domestic LPG cylinders of which the price is covered under the Administered Price Machanism of the Government;
 - (d) goods meant for export;
 - (e) goods supplied free as marketing strategy (e.g. physicians sample);
 - (f) any package containing fast food item packed by restaurant/ hotel and the like;
 - (g) any package containing a commodity if it contains schedule formulation and non-schedule formulations covered under the Drugs (price Control) order, 1995;
 - (h) Wholesale packages;
 - (i) agriculture farm produces in packages of above 50Kg.
- (3) **Certain Definitions:**
 - (a) retail packages means the packages intended for retail sale to the ultimate consumer for consumption of the commodity contained therein and includes the imported packages. The expression 'ultimate consumer' doesn't include industrial or institutional consumers.
 - (b) retail sale means the sale, distribution or delivery of a commodity through retail sale agencies or other instrumentalities for consumption by an individual or a group of individual or any other consumer.
 - (c) wholesale package means a package containing-
 - (i) A number of retail packages, where wholesale package is intended for sale, distribution or delivery to an intermediary and is not intended for sale direct to a single consumer; or
 - (ii) A commodity sold to an intermediary in bulk to enable such intermediary to sell, distribute or delivery such commodity to the consumer in smaller quantities; or
 - (iii) Packages containing ten or more than ten retail packages provided that the retail packages are labeled as required under the rules.

Example 33: 1,500 pieces of a product 'A' were manufactured during the financial year. Its list price (i.e. retail price) is ₹ 250 per piece, exclusive of taxes. The manufacturer offers 20% discount to wholesalers on the list price. During the year, 840 pieces were sold in wholesale, 510 pieces were sold in retail, 35 pieces were distributed as free samples. Balance quantity of 115 pieces was in stock at the end of the

year. The rate of duty is 12% plus education cess and SAH education cesses as applicable. What is the total duty paid during the financial year?

Assume that the manufacture is not eligible for SSI concession.

Answer: The total selling price is as follows –

Qty	Price	Total (₹)
510	250	1,27,500
840	200	1,68,000
35	200	7,000
Total		3,02,500

Duty payable is 12% of ₹ 3,02,500 i.e. ₹ 36,300, plus education cess @ 2% i.e. ₹ 726 plus SAH education cess @ 1% is ₹ 363, therefore total excise duty is ₹ 37,389

Note – (a) Since 115 pieces were in stock at year end, no duty will be payable. Duty will be payable only when goods are cleared from factory. (b) In case of samples, as per rule 4 of Valuation Rules, value nearest to the time of removal, subject to reasonable adjustments is required to be taken. However, since prices are varying, value nearest to the time of removal may not be ascertainable and will not be acceptable for valuation as the prices are changing. In such case, recourse will be taken to rule 11 of Valuation Rules, i.e. best judgment assessment. We can take recourse to rule 7 and 9 where principle of 'normal transaction value' is accepted, when prices are varying.

As per rule 2(b) of Valuation Rules, 'normal transaction value' means the transaction value at which the greatest aggregate quantity of goods is sold. Since greatest quantity of 840 pieces are sold at ₹ 200, that will be 'normal transaction value', which can be taken for valuation of free samples.

Example 34: A manufacturer has appointed brokers for obtaining orders from wholesalers. The brokers procure orders for which they get brokerage of 5% on selling price. Manufacturer sells goods to buyers at ₹ 250 per piece. The price is inclusive of State Vat and Central excise duty. State Vat rate is 4% and excise duty rate is 12% plus education cess and SAH education cess as applicable. What is the AV, and what is duty payable per piece?

Answer:

Assume that Assessable Value = x. No deduction is available in respect of brokerage paid to third parties from Assessable Value.

Since Excise duty is 12%, education cess is 2%, SAH education cess is 1% and State Vat rate is 4%, price including excise will be 1.1236x.

State Vat @ 4% of 1.1236x is 0.0449x. Hence, price inclusive of sales tax and excise duty will be 1.1685x.

Now, $1.1685x = ₹ 250.00$

Hence, $x = ₹ 213.95$

Check the answer as follows –

Assessable Value = ₹ 213.95

Add duty @ 12.36% of ₹ 213.95 = ₹ 26.44

Add State Vat @ 4% on ₹ 240.39 (213.95+26.44) = ₹ 9.62

Total Price (Including duty and tax)

(213.95+26.44+9.62) = ₹ 250.00

Example 35: Find Assessable Value and duty payable. The product is not covered under section 4A. Maximum Retail Trade Price : ₹ 1,100 per unit, State Vat, Octroi and other Local Taxes: 10% of net price, Cash Discount :2%, Trade Discount: 10%, Primary and Secondary packing cost included in the above MRP: ₹ 100, Excise duty rate: 12% ad valorem plus education cesses as applicable.

Answer:

Cash discount ₹ 22 (2% of ₹ 1,100) and trade discount ₹ 88 [8% of ₹ 1,100] are available as deduction. Packing cost is not allowable as deduction. Hence, price of excise purposes is ₹ 990. [₹ 1,100 – 22 – 88]. — Now, if X is the assessable value, excise duty is 1.1236x. State Vat and local taxes @ 10 % of 1.1236x will be 0.1236x and price including Excise duty is inclusive of excise duty and sales tax will be 1.2360x.

Now,	1.2360 x	=	₹ 990.00
Hence,	x	=	₹ 800.97
Excise Duty @ 12.36% of ₹ 800.97	x	=	₹ 99.00
Check the answer as follows Assessable Value		=	₹ 800.97
Add duty @ 12.36% of ₹ 800.97		=	₹ 99.00
Add State Vat @ 10% on ₹ 899.97 (800.97+99)		=	₹ 90.00
Total Price (After allowable deductions)		=	₹ 989.97 or ₹ 990

Example 36: A manufacturer has to supply a machinery on following terms and conditions : (a) Price of machinery : ₹ 3,40,000 (net of taxes and duties), (b) Machinery erection expenses : ₹ 26,000, (c) Packing (normally done by him for all machinery) : ₹ 4,000, (d) Design and drawing charges relating to manufacture of machinery : 30,000 or (Net of taxes and duties), (e) Central Sales Tax @ 4%, (f) Central Excise Duty @ 12% plus education cess of 2% plus SAH education cess of 1%, (g) Cash discount of ₹ 5,000 will be offered if full payment is received before dispatch of goods, (h) The buyer made all payment before delivery, (i) The manufacturer incurred cost of ₹ 1,200 in loading the machinery in the truck in his factory. These are not charged separately to buyer. Find the 'Assessable Value' and the duty payable.

Answer:

Erection expenses are not includible in AV. Cash discount is allowable as deduction. Duty is not payable on optional bought out accessories supplied along with the machinery. The cost of ₹ 1,200 is already included in the selling price of machinery (as it is not charged separately) and hence is not to be added again. Hence, AV is ₹ 3,69,000 [₹ 3,40,000 + ₹ 4,000 + ₹ 30,000 – ₹ 5,000]. Duty @ 12% will be ₹ 44,280, plus education cess @ 2% i.e. ₹ 885.60 and SAH education cess @ 1% i.e. ₹ 442.80.

Example 37: M/s. XYZ Ltd., sold machinery to Mr. Kapoor at a price of ₹ 5 lakhs on 15th June, 2013 and the same was removed from the factory at Kolkata. The rate of excise duty applicable is 12.36% on the date of removal. Mr. Kapoor refused to take delivery of the machine when it reached his destination. In the meantime, M/s. XYZ Ltd. increased the prices of the similar type of machinery to ₹ 6 lakhs with effect from 16th June, 2013. The machinery as refused by Mr. Kapoor has been sold on 20th June 2013 to Mr. Lal at the revised price of ₹ 6 lakhs. The excise duty including Education Cess is 12.36% applicable with effect from 10th June, 2013.

Explain the following with reasons:

- What is the value to be taken as assessable value?
- What is the rate of excise duty applicable and duty payable on above transaction?
- The Central Excise Officer is demanding duty on the price of ₹ 6 lakhs at the time of sale to Mr. L. Is he right in his approach?
- Does cost of production have any bearing on the assessable value?

Answer:

- The price prevailing at the time of removal from factory (i.e. ₹ 5 lacs on 15th June 2013 is the assessable value.
- The applicable rate of duty is @ 12.36% and duty amount is ₹ 61,800 (i.e. ₹ 5 lacs × 12.36/100).

- (iii) The Central Excise Officer is not right in his approach.
- (iv) Cost of production has no bearing with assessable value in present case. Central Excise valuation can be below manufacturing cost. If price is the sole consideration and dealing between seller and buyer are arm's length, assessable value will be decided on the basis of selling price, even if it is below manufacturing cost. So cost of manufacturing will not change the assessable value.

Example 38: ABC Ltd of Kanpur agreed to sell an electronic motor to DEF Ltd of New Delhi for ₹ 15,000.00 on ex-factory basis. Other particulars are:

- (i) Transportation and transit insurance were arranged by ABC Ltd. This was at the request of DEF Ltd and amounted to for ₹ 1,250 and ₹ 1,500 respectively which were charged separately. Actual transportation charges amounted to ₹ 1,000 only.
- (ii) A discount of ₹ 1,000 was given to DEF Ltd. on the agreed price on payment of an advance of ₹ 3,500 with the order. (Ignore notional interest on advance).
- (iii) Interest of ₹ 800 was charged from DEF Ltd. as it failed to make the payment within 30 days.
- (iv) Packing charges of the motor amount to ₹ 1300.
- (v) The expenditure incurred by ABC Ltd. towards 'free after sale service' during warranty period comes out to be ₹ 500 per motor.
- (vi) Dharmada charges of ₹ 200 were recovered from DEF Ltd.
- (vii) ABC Ltd. sold a lubricant worth ₹ 250 along with the motor to the interested customers. Lubricant which was purchased from the market by ABC Ltd. at ₹ 200 ensured durability and high efficiency of the motor. DEF Ltd. opted for the said lubricant.

Compute the Assessable Value.

Answer:

Calculation of Assessable Value

Offered Price to DEF	=	14,000
Add: Discount	=	1,000
Add: Packing charges	=	1,300
Add: Free after sale service	=	500
Add: Dharmada charges	=	200
Assessable Value	=	<u>17,000</u>

Example 39: How will the assessable value under the subject transaction be determined under section 4 of the Central Excise Act, 1944? Give reasons with suitable assumptions where necessary.

Contracted sale price for delivery at buyer's premises ₹ 10,00,000. The contracted sale price includes the following elements of cost:

(I) Cost of drawings and designs	₹ 3,000
(II) Cost of primary packing	₹ 3,500
(III) Cost of packing at buyer's request for safety during transport	₹ 7,500
(IV) Excise duty	₹ 2,11,200
(V) VAT (Sales tax)	₹ 37,000
(VI) Octroi	₹ 9,500
(VII) Freight and insurance charges paid from factory to 'place of removal	₹ 20,000
(VIII) Actual freight and insurance from 'place of removal' to buyer's premises	₹ 42,300

Answer:

Sale price	₹ 10,00,000
Less: Excise Duty	₹ 2,11,200
VAT	₹ 37,000
Octroi	₹ 9,500
Freight and insurance from Place of removal to buyers	₹ 42,300
	<u>₹ 3,00,000</u>
Assessable Value	<u>₹ 7,00,0000</u>

Example 40: Determine the assessable value for purpose of excise duty under the Central Excise Act, 1944 in the following cases:

- An assessee sells his excisable goods for ₹ 1,12,360 per unit and does not charge any duty of excise in his invoice. Subsequently it was found that the goods were not exempted from excise duty but were liable at 12.36%.
- Certain excisable goods were sold for ₹ 1,12,360 per unit and @12.36% is the rate of excise duty. Subsequently it was found that the price cum duty was in fact ₹ 1,40,000 per unit as the assessee had collected ₹ 40,000 per unit separately.
- The cum duty price per unit was ₹ 1,10,300 and the assessee had paid duty at 10.30%. subsequently it was found that the rate of duty was 15.45% and the assessee had not collected anything over and above ₹ 1,10,300 per unit.

Answer:

Statement showing Assessable Value for the Purpose of Excise Duty in each case: (As per CBE&C DO letter No. 334/1/2003- TRU dated 28.2.2003)

Sl. No.	Particulars	Value (₹)	Workings
(i)	Assessable value	1,00,000	₹ 1,12,360 x 100/112.36 = ₹ 1,00,000
(ii)	Assessable value	1,24,600	Cum-duty price ₹ 1,12,360 (12.36% duty inclusive). Hence, assessable value is ₹ 1,00,000. Additional consideration received subsequently of ₹ 40,000. Hence, Cum-duty price is ₹ 1,40,000. 1,40,000 x 100/112.36 = ₹ 1,24,600
(iii)	Assessable value	95,539	Cum-duty price ₹ 1,10,300 (excise duty included @10.30%). However, correct rate of duty is 15.45%. If no additional consideration has been received, then ₹ 1,10,300 is it self considered as inclusive of excise duty @15.45%. 1,10,300 x 100/115.45 = ₹ 95,539.

Maximum Retail Price (MRP)

Example 41: B Ltd manufactures two products namely, Eye Ointment and Skin Ointment. Skin Ointment is a specified product under section 4A of the Central Excise Act, 1944. The sale prices of the two products are ₹ 43 per unit and ₹ 33 per unit respectively. The sale price of both the products included 14% excise duty as BED, education cess of 2% and SAH of 1%. It also includes CST of 4%. Additional information is as follows:

Units cleared: Eye Ointment - 1,00,000 units, Skin Ointment – 1, 50,000 units. Deduction permissible under section 4A: 40%

Calculate the total excise duty liability of B Ltd for both the products.

Answer:

Eye Ointment:

Let us assume X as the assessable value

Assessable Value	=	X
Add: BED @14%	=	0.14X
Add: Education Cess @2%	=	0.0028X
Add: SAH @1%	=	0.001 4X
	=	1.1 442X
Add: CST @ 4%	=	0.045768X
Selling price	=	1.1 89968X

Assessable value per unit	₹ 43 x 1/1.189968
	= ₹ 36.1354 per unit
Total Assessable Value	= ₹ 36, 13,540 (i.e. ₹ 36.1354 x 1,00,000 units)
Excise duty @14%	= ₹ 5, 05,896
Education Cess @2%	= ₹ 10,118
SAH Cess @1%	= ₹ 5,059
Total Excise Duty	= ₹ 5, 21,073

Skin Ointment:

Maximum Retail Price	=	₹ 33
Less: Abatement @40%	=	₹ (13)
Assessable Value (per unit)	=	₹ 20
Total Assessable Value	=	₹ 30,00,000 (i.e. ₹ 20 x 1,50,000 units)
Excise Duty @14%	=	₹ 4,20,000
Education Cess @2%	=	₹ 8,400
SAH Cess @ 1%	=	₹ 4,200
Total Excise Duty	=	₹ 4,32,600
B Ltd liable to pay total excise duty	=	₹ 9,53,673 (₹ 5,21,073 + 4,32,600)

Transaction Value with Valuation Rules

Example 42: Cost of production of a product X calculated as per Cost Accounting Standard is ₹ 350 per piece.

550 pieces of a product were manufactured. 120 pieces were sold at ₹ 700 per piece to Industrial Consumers. 70 pieces were sold to a Central Government department @ ₹ 690 per piece. 210 pieces were sold to wholesalers at ₹ 720 per piece. 70 pieces were sold in retail @ ₹ 800 per piece. 20 pieces were given out as free samples. Out of the 70 pieces sold to Government department, 25 pieces were rejected, which were subsequently sold to other customers @ ₹ 300 per piece, without bringing them in the factory. Balance pieces were in stock, out of which 25 pieces were so damaged that they became unsaleable.

Note that all the prices are exclusive of excise and sales tax. The rate of duty on the product is 12% plus education cess as applicable.

- (a) What is the total duty payable?
 (b) Advise Management about steps to be taken in respect of 25 pieces which were damaged in storage.

Answer:

- (a) Calculation of duty payable on product X

Name of the buyer	Number of pieces	Rate per piece (₹)	Total (₹)
Industrial Consumers	120	700	84,000
Central Government department	70	690	48,300
Wholesalers	210	720	1,51,200
Retailers	70	800	56,000
others (Free samples) (Rule 4)	20	720	14,400
Assessable Value			3,53,900

Basic excise duty @12% (3,53,900 × 12%)	₹ 42,468
Education Cess @2%	₹ 849
SAH Cess @ 1%	₹ 425
Total Excise Duty	₹ 43,742

- (b) As per Rule 21 of the Central Excise Rules, 2002, obtain the remission certificate from the central excise department for the damaged units of 25 pieces.

Valuation Rules:

Example 43: Compute the assessable value and excise duty under the Central Excise Act, 1944 in the following case:

Production	:	2,000 units on 1.1.2013
Quantity sold	:	450 units @ ₹ 200 per unit
	:	650 units @ ₹ 190 per unit
Samples clearances	:	50 units
Balance in stock	:	850 units

(at the end of factory day for 1-1-2013)

Assume that the rate per unit is exclusive of Central Excise duty. Basic Excise Duty @12%, education cess as applicable.

Answer:

(Rule 4 read with 2(c)) Assessable value

Units	Rate per unit (₹)	Total (₹)	Remarks
450	200	90,000	
650	190	1,23,500	
50	190	9,500	Samples are valued as per rule 4 read with rule 2(c) of C.Ex. Valuation Rules, 2000
Assessable Value		2,23,000	

Total excise duty = ₹ 27,562.80 (i.e. ₹ 2,23,000 × 12.36%)

Example 44: A manufacturer having a factory at Mumbai has uniform price of ₹ 2,000 per unit (exclusive of taxes and duties) for sale anywhere in India. During the financial year 2013-14, he made the following sales:

Particulars	Quantity sold in units	Cost of transportation (₹)
Goods sold at factory in Mumbai	1,000	Nil
Goods sold from New Delhi	500	12,000
Goods sold from Chennai	600	48,000
Goods sold from Kolkata	900	30,000

Find assessable value per unit and total excise duty payable by the manufacturer. Excise duty @12% plus 2% education cess and 1% Secondary and Higher Education cess.

Answer:

(Rule 5 of valuation rule)

Selling price per unit	= ₹ 2,000
Less: cost of equalized freight	= ₹ 30
Assessable value per unit	= ₹ 1,970
Total excise duty payable	= ₹ 7,30,476 (3,000 units × ₹ 1,970 per unit × 12.36%)

Working note:

(1)

Particulars	Quantity sold in units	Cost of transportation (₹)
Goods sold at factory in Mumbai	1,000	Nil
Goods sold from New Delhi	500	12,000
Goods sold from Chennai	600	48,000
Goods sold from Kolkata	900	30,000
Total	3,000	90,000

(2) Cost of equalized freight = ₹ 30 (₹ 90,000/3,000 units)

(3) The aforesaid equalized freight has to be certified by the Cost Accountant/Chartered Accountant/ Company Secretary in practice.

Example 45: Compute the assessable value and amount of excise duty payable under the Central Excise Act, 1944 and rules made there-under from the following information:

Particulars	No. of units	Price at Factory Per unit	Price at Depot Per unit	Rate of Duty Advalorem
(i) Goods transferred from factory to depot on 8th February	1,000	₹ 200	₹ 220	12%
(ii) Goods actually sold at depot on 18th February	950	₹ 320	₹ 350	8%

Answer:

(Rule 7 of valuation rules)

	Amount (₹)	
Assessable Value	2,20,000	[i.e. 1,000 units × ₹ 220]
Basic Excise Duty	26,400	[i.e. ₹ 2,20,000 × 12/100]
2% Education Cess	528	[i.e. ₹ 26,400 × 2/100]
1% SAH Edu. Cess	264	[i.e. ₹ 26,400 × 1/100]
Total Excise Duty	27,192	[i.e. ₹ 26,400 + ₹ 528 + ₹ 264]

Example 46: Name the Cost Accounting Standard which is to be used while calculating cost of production for valuation for captive consumption under Central Excise. Is the standard mandatory? As per that standard, which of the following costs are includible/not includible in 'Cost of Production'?

- (i) Research and Development Cost
- (ii) Interest on capital borrowed,
- (iii) Lay-off wages to workmen
- (iv) Packing cost.

Answer:

(Rule 8 of valuation rules)

The Cost Accounting Standard 4 is required to be used while calculating cost of production for valuation for captive consumption under Central Excise. As per circular issued by CBEC, cost of production is required to be calculated as per CAS-4 issued by the Central Council Members of The Institute of Cost Accountants of India (ICAI). Hence, the standard is mandatory.

Cost includible	Cost not includible
(i) Research and Development	(i) Interest on capital borrowed
(ii) Packing cost	(ii) Lay off wages to workmen

Example 47: X Ltd. manufacturer manufactured components within factory for own use. Cost of raw materials purchased for ₹ 50,000 to manufacture said components. Cost of overheads as certified by a Cost Accountant, as per Cost Accounting Standard (CAS) – 4 is ₹ 20,000. Profit margin on inter departmental transfer @20%. These components are subject to Excise Duty @12.36% and State VAT rate @12.50%.

You are required to answer (a) Assessable Value of these Components, (b) Total Excise Duty and (c) Value Added Tax (VAT).

Answer: (Rule 8 of valuation rules)

	₹
Cost of Material	= 50,000
Overhead Cost	= 20,000
Cost of Production	= 70,000
ADD: 10% profit margin (as per Rule 8 of Valuation Rules)	= 7,000
(a) Assessable Value	= 77,000
(b) Excise Duty	= ₹ 77,000 x 12.36/100 = ₹ 9,517
(c) VAT payable is nil, since these components are consumed internally. VAT will attract only when there is a sale.	

Example 48: R & Co. furnish the following expenditure incurred by them and want you to find the assessable value for the purpose of paying excise duty on captive consumption. Determine the cost of production in terms of rule 8 of the Central Excise Valuation (Determination of Price of Excisable Goods) Rules 2000 and as per CAS – 4 (Cost Accounting Standard):

(i)	Direct material cost per unit inclusive of excise duty at 12.36%	₹ 880
(ii)	Direct wages	₹ 250
(iii)	Other direct expenses	₹ 100
(iv)	Indirect materials	₹ 75
(v)	Factory overheads	₹ 200
(vi)	Administrative overhead (25% relating to production capacity)	₹ 100
(vii)	Selling and distribution expense	₹ 150

(viii)	Quality control	₹ 25
(ix)	Sale of scrap realised	₹ 20
(x)	Actual profit margin	15%

Answer: Cost of production is required to be computed as per CAS-4. Material cost is required to be exclusive of Cenvat credit available.

	Particular	Total Cost (₹)
1.	Material Consumed (Net of Excise duty) [₹ (880-108.77)]	771.23
2.	Direct Wages	250.00
3.	Other Direct Expenses	100.00
4.	Works Overhead [indirect material (₹ 75) plus factory overhead (₹ 200)]	275.00
5.	Quality control cost	25.00
6.	Administrative Overhead (25% relates to production activity)	25.00
	Less : Sale of Scrap	(20.00)
	Cost of Production	1,426.23
	Add : 10% profit margin on cost of production (₹) 426.23 x 10%	142.62
	Assessable value as per Rule 8 of the valuation rules	1,568.85

Note : Actual profit margin is not relevant for excise valuation.

Tax Planning

Example 49: A company manufacturing a dutiable product in the factory at Cochin, was making sales through its depot in Mumbai. The sale price at Mumbai depot at ₹ 30,000 per piece inclusive of transport charges from Cochin to Mumbai of ₹ 3,000. The depot price includes excise duty @ 12% plus cess @ 3% but excludes Maharashtra VAT. Annually 2,000 pieces are sold by the depot. The company decides to make direct sale from Cochin to its customers which would attract CST at 2% to be borne by the company. The company wants to close down the depot at Mumbai bringing cost saving of ₹ 5,00,000 per annum. The sale price will continue to be as earlier.

Evaluate the implications of the decision.

Answer:

Depot continues:

Presently, goods are sold from depot. If the sale is from depot, excise duty is payable on the depot price of ₹ 30,000. No deduction of transport cost from Cochin to Mumbai depot is allowed.

Since, the price is inclusive of excise duty @ 12.36% (12% plus 2% education cess plus 1% SAH education cess), the duty payable is ₹ 3,300 (i.e. ₹ 30,000 x 12.36 / 112.36) and Assessable Value is ₹ 26,700 (i.e. ₹ 30,000 x 100/112.36).

	Value per piece
Depot sale price	₹ 30,000
Less: Transport charges	₹ 3,000
Less: Excise duty	₹ 3,300
Net revenue if depot continues	₹ 23,700

Depot closes down:

If goods are sold directly from Cochin, CST @ 2% will be payable. The price chargeable to dealers is required to remain unchanged at ₹ 30,000 per piece.

Net price of Product	X
Add- Excise Duty @ 12.36%	<u>0.1236X</u>
Taxable turnover	1.1236 X
Add- CST @ 2% on 1.1236 X	<u>0.0225X</u>
Total price	1.1461X
Add- Transport charges	<u>₹ 3,000</u>
Total Invoice Value	1.1461X + 3,000

Note: Excise duty and CST are not payable on transport charges, if charged separately in invoice, because sale is from factory.

$$\text{Now, } 1.1461X + 3,000 = ₹ 30,000$$

$$\text{Net price of the product} = ₹ 23,558 \text{ [(i.e. ₹ 30,000 – 3,000)/1.1461]}$$

Net realizable value is ₹ 22,725 per piece if the depot closes down.

If depot continues the revenue	₹ 23,700 per piece
Less: If depot closes down the revenue	<u>₹ 23,558 per piece</u>
Net revenue loss if depot closes down	<u>₹ 142 per piece</u>
Total revenue loss for 2,000 pieces annually if depot closes down (i.e. 2,000 pieces x ₹ 30 per piece)	₹ 2,84,000
Less: Savings on account of closes down the depot	= <u>₹ 5,00,000</u>
Net savings on account of close down the depot	= <u>₹ 2,16,000</u>

If depot is closed, there will be net savings of ₹ 2,16,000 per annum.

Hence, it is economical to close down the depot.

2.17 ASSESSMENT UNDER CENTRAL EXCISE LAW

2.17.1 ASSESSMENT [Rule 6 & 7]

Before each removal, whether outside the factory of manufacture or production or for captive consumption, duty has to be assessed on the excisable goods.

The expressions 'assessment' and 'assessee' have been defined in the Central Excise Rules, 2002.

'Assessment,' as per Rule 2(b), includes

- (a) Self-assessment of duty made by the assessee, and
- (b) Provisional assessment under Rule 7 of the said Rules.

'Assessee', as per Rule 2(c), means

- (a) any person, who is liable for payment of duty assessed or
- (b) a producer or manufacturer of excisable goods or
- (c) manufacturer of excisable goods or
- (d) a registered person of a private warehouse in which excisable goods are stored and includes an authorized agent of such person.

Liability to Assessment and Payment of Duty

Rule 4 of the Central Excise Rules, 2002 provides that every person, who produces or manufactures any excisable goods, or who stores such goods in a warehouse, shall pay the duty leviable on such goods in the manner provided in Rule 8 or under any other law. No excisable goods, on which any duty is

payable, shall be removed without payment of duty from any place, where they are produced or manufactured, or from a warehouse, unless otherwise provided.

Incidence of Duty I.E. Removal

For the purposes of the Rule 4, excisable goods manufactured in a factory and utilized, as such or after subjecting to any process, for the manufacture of any other commodity, in such factory, shall be deemed to have been removed from such factory immediately before such utilization.

Major Ingredients of Assessment

Before each removal, whether outside the factory of manufacture or production or for captive consumption, duty has to be assessed on the excisable goods.

Classification and Rate of Duty

For determining the rate of duty, classification is a prerequisite.

Classification means the appropriate classification code, which is applicable to the excisable goods in question under the First Schedule to Central Excise Tariff Act, 1985. There are Section Notes and Chapter Notes, in the Tariff which are helpful in determining the appropriate classification. In case of difficulties, there are "Interpretative Rules" in the said Act.

Determination of Rate of Duty

After classification, determine the appropriate rate of duty.

Valuation

Where rate of duty is dependent on the value of goods (*ad valorem duty*), value has to be determined, in accordance with the provisions of Central Excise Act, 1944, as follows :

- (i) Value under section 4 based on transaction value or determined in terms of valuation Rule,
- (ii) Value based on retail sale price under section 4A,
- (iii) Tariff value fixed under section 3.

Quantity

Where duty is on value, the Total value is determined by multiplying Unit value with the Total Quantity. The unit quantity of goods is also required in cases where duty is charged at specific Rate.

SELF ASSESSMENT [Rule 6]

(a) For Excisable goods other than Cigarettes

As per Rule 6 of the Central Excise Rules, 2002 a Central Excise assessee is himself (self-assessment) required to determine duty liability at the time of removal of excisable goods and discharge the same. In other words, the assessee should apply correct classification and value (*where duty is ad valorem*) on the quantities being removed by him and indicate the same in the invoice. However, in case assessee manufacturing cigarettes, the Superintendent or Inspector of Central Excise has to assess the duty payable before removal by the assessee.

(b) Cigarettes

Assessment before removal of the goods- by the Superintendent or Inspector of Central Excise.

(c) Scrutiny of assessment

(i) Responsibility of departmental officers to scrutinize the assessment

In view of the self-assessment procedure wherein the assessee himself assesses the duty liability, the responsibility of the Departmental officers [Central Excise Officers having jurisdiction over the factory/ premises of the assessee] is to scrutinize the assessment made for verification of its correctness.

(ii) Documents required by officer

For this purpose, the said officer(s) may require the relevant documents. Though the statutory records have been dispensed with, the assessee is required to maintain private records containing all requisite information as required by different rules and also provide a list of all records maintained by him to the Range Office.

The Officer responsible for scrutiny of return may require:

- Invoices issued by the assessee
- Daily Stock Account
- CENVAT Account
- Cash ledgers
- Ledger of all receipts and payments
- Source documents etc.

(iii) Compulsory for assessee to furnish the documents

It shall be compulsory for the assessee to provide the necessary records upon receiving the 'Requisition Letter' from the Range Officer or other superior officers. He shall hand over the records under proper acknowledgement and receive them back under proper acknowledgement. The officer scrutinizing return may require presence of the assessee or his authorised person at mutually convenient time, for seeking certain information relating to the records.

(iv) Scrutiny of assessment

The Superintendent of Central Excise in charge of the Range Office, with assistance of the Inspectors in-charge of the factory of an assessee, will scrutinise all the returns. They shall, in selected cases, call for all connecting documents including invoices and the records and scrutinise the correctness of assessment.

Central Excise Officer who will scrutinized the return	Amount of duty paid by the unit through PLA per annum every six months
Deputy/ Assistant Commissioner of Central Excise	> ₹ 1 Crore, but < ₹ 5 crores
Additional/ Joint Commissioner of Central Excise	≥ ₹ 5

Provisional Assessment

Provisional assessment is resorted to, where the assessee is unable to determine the

- (i) Value of Excisable goods, or
- (ii) Rate of duty applicable

Ac or Dc of central excise, as the case may be,, shall pass order for final assessment, as soon as may be, after the relevant information, as may be required for finalizing the assessment, is available, but within a period not exceeding six months from the date of the communication of the order issued under sub-rule (1);

Provided that the period specified in this sub-rule may, on sufficient cause being shown and the reason to be recorded in writing, be extended by the commissioner of central Excise for a further period not exceeding six months and by the Chief Commissioner of Central Excise for such further period as he may deemed fit.

Guidelines and Procedure for Provisional Assessment**(a) Request in Writing**

Rule 7 of the Central Excise Rules lays down that where the assessee is unable to determine the value of excisable goods or determine the rate of duty applicable thereto, they may request the

Assistant Commissioner of Central Excise or the Deputy Commissioner of Central Excise, as the case may be, indicating:

- (i) Specific grounds and reasons and the documents or information's, for want of which final assessment cannot be made.
- (ii) Period for which provisional assessment is required.
- (iii) The rate of duty or the value or both, as the case may be, proposed to be applied by the assessee, for Provisional Assessment.
- (iv) That he undertakes to appear before the Assistant Commissioner or Deputy Commissioner of Central Excise within 7 days or such date fixed by him, and furnish all relevant information and documents within the time specified by the Assistant or Deputy Commissioner of Central Excise in his order, so as to enable the proper officer to finalize the provisional assessment.

(b) Order

On receipt of the request, the Deputy/Assistant Commissioner of Central Excise will examine it, if necessary, in consultation with the concerned Range Officer, to ascertain whether provisional assessment is necessary at all.

- (i) **Order rejecting provisional assessment** : If the reasons/ grounds are not sufficient, he may ask the assessee to appear before him on an appointed day and time, and if he is satisfied that provisional assessment is not necessary, he may pass a reasoned order rejecting the same and also ordering the rate of duty or the value, to be applied by the assessee.
- (ii) **Order directing provisional assessment**: Where the Deputy/Assistant Commissioner of Central Excise is satisfied with the genuineness of the assessee's request he will issue a specific order directing provisional assessment clearly stating:-
 - The grounds on which provisional assessment has been ordered.
 - The rate and for value, as the case may be, at which duty has to be provisionally paid.
 - The amount of differential duty for which bond is to be executed covering the period, if any, during which assessee paid duty provisionally under the deeming provisions, after applying the rate and or value specified in (b) above.
 - The amount of security or surety as may be fixed by Assistant Commissioner keeping in view the instructions issued by the Board from time to time.

(c) Furnishing of bonds

As mentioned earlier, provisional payment of duty is allowed if the assessee executes a bond in the prescribed form with such surety or security in such amount as the Assistant Deputy Commissioner may order. Such bond shall bind the assessee for payment of the difference between the amount of duty finally assessed and the amount of duty paid provisionally.

Though it is incumbent upon the assessee to ensure that the bond amount and corresponding securities are sufficient, the Divisional as well as the Range Officer will also keep a strict vigil on such cases with the help of 'Provisional Assessment Register'.

The Assistant/Deputy Commissioner of Central Excise will be held responsible to ensure that bonds for proper amount i.e., 3 times of the estimated differential duty are taken, in case of general bonds and that these are backed by proper (25%) security/ bank guarantee of the bond amount.

(d) Finalization of Assessment

Finalisation of provisional assessment means finalisation of an issue/ ground and thereafter finalization of each E.R.1s.

Final Assessment order may be passed by the Assistant Commissioner of Central Excise or the Deputy Commissioner of Central Excise after the relevant information required for finalizing the assessment is available. The amount of duty finalized will be communicated to the assessee at the earliest.

(d) Time limit for passing the order

Normally, final order should be passed within 6 months from the date of Provisional Assessment is available. Time limit may be extended by another 6 months by the commissioner of Central Excise. And it can be extended for any period by the Chief Commissioner of Central Excise.

(e) Interest payable on differential amount

The amount of each differential duty shall be paid along with interest at the rate notified under section 11AA of the Act from the first day of the month succeeding the month for which such amount is determined, till the date of payment thereof.

Note:

- (i) In the event the assessee is in a position to ascertain the duty himself, he may pay the duty on his own at the earliest and in that case, he will not have to incur interest on account of time taken by the Department to finalise assessment and communicate the amount.
- (ii) As per the general law, the provisions of provisional assessment relating to interest clause and statutory time limit can only be prospective. Therefore, the provisions of interest and statutory time limit shall be applicable only to those cases of provisional assessment, which are ordered on or after 1 July, 2001.

(f) Refund after finalization of assessment

- (i) **Refund order** - Where any refund becomes due to the assessee, order shall be passed for such refund, but disbursement shall be subject to further verification about incidence of such duty.
- (ii) **Refund subject to provision of unjust enrichment** - The assessee will be required to submit proof to the Assistant/ Deputy Commissioner of Central Excise that the duty incidence was borne by him (assessee). If the assessee fails to produce such proof/evidence, the Assistant/ Deputy Commissioner of Central Excise will pass an order for depositing the amount in Consumer Welfare Fund in the prescribed manner.
- (iii) **Interest payable on refund** - Otherwise, the refund shall be given along with interest under section 11BB of the Act from the first day of the month succeeding the month for which such refund is determined, till the date of refund.

(g) Department, suo motu, cannot issue directions for provisional assessment

It is important to note that rule 7 of the said Rules does not provide for the Department, suo motu, issuing directions for resorting to provisional assessment. Therefore, when the Central Excise Officers, during scrutiny or otherwise, find that self-assessment is not in order the assessee may be asked for all necessary documents, records or other information for issue of duty demand for differential duty, if any, after conducting inquiry. Where the assessee fails to provide the records or information and Department is unable to issue demand, 'Best Judgement' method may be used to raise demand based on collateral evidences. The burden will be on the assessee to provide information for appropriate re-determination of duty, if any.

Payment of Duty under Protest

Sometimes it happens that the classification of goods done by excise authorities, Assessable Value determined by the excise authorities in adjudication proceedings, etc. are not agreeable or acceptable to the assessee. In such cases, the assessee can file an appeal and in the meanwhile he can pay duty under protest (If no stay is obtained from Appellate Authorities).

Duty Liability of Pre-Budget Stock

Some goods in stock on the budget day are cleared subsequent to presentation of budget. If there is change in duty at budget, it was felt that these goods should be cleared at the rate applicable before the budget. The thinking was that duty liability is fastened as soon as goods are manufactured as 'manufacture in India' is taxable event in Central Excise. Since goods were already manufactured before budget, rate as applicable at the time of manufacture should be applied.

2.18 PROCEDURAL ASPECTS UNDER CENTRAL EXCISE DUTY

2.18.1 Registration Under Central Excise Law

A manufacturer has to compulsorily get registered under the central excise law if he manufactures dutiable goods.

The following persons are also required to get registered under central excise law:

- i. First Stage Dealer,
- ii. Second Stage Dealer,
- iii. Importer
- iv. Person who stores dutiable goods in the specified area or in a warehouse before exports.
- v. Manufacturers liable to pay excise duty @1% or 2% as the case may be

First Stage Dealer: Rule 2(ij) of CENVAT Credit Rules defines first stage dealer to mean a person who purchases directly from manufacturer or depot of the said manufacturer or consignment agent of the said manufacturer or any other place from where goods are sold by or on behalf of the said manufacturer under cover of excise invoice and includes purchases from importer or consignment agent of the importer or depot of the said importer under an invoice.

The concept of dealer has been introduced under Central Excise merely to enable a buyer to avail the CENVAT credit when the goods are bought from a person other than the manufacturer. Here the dealer can pass on the CENVAT credit of the excise duty paid on the goods by the manufacturer, to his buyer. If a person is registered as dealer then he shall pass on credit which is equal to the amount of duty per unit of the goods in question, paid by the manufacturer at the time of clearance. The dealer does not pay any duty from his pocket as there is no processing or value addition at his end and he only enjoys a margin on his cost. However his margin on sales can be arrived at by calculating backwards.

Second Stage Dealer means a dealer who purchases goods from a first stage dealer. Dealer of any subsequent stage after second stage cannot issue Cenvatable Invoice.

- i. The following manufacturers are exempt from registration and consequently payment of excise duty:
- ii. Manufacturer of dutiable goods who claims exemption under SSI notification Manufacturer in a unit of 100% Export Oriented Units (EOUs) and Software Technology Park are exempted from the registration provided they do not procure and sell the goods in the Domestic Tariff Area (DTA).
- iii. Dealers

2.18.2 Exemption from Registration

- Persons who manufacture the excisable goods, which are chargeable to nil rate of excise duty or are fully exempt from duty by a notification;
- Small scale units availing the exemption based on value of clearances under a notification. However, such units will be required to give a declaration once the value of their clearances crosses ₹ 90 lakhs for a financial year;

- Persons manufacturing excisable goods by following the warehousing procedure under the Customs Act, 1962 subject to certain conditions;
- The person who carries on wholesale trade or deals in excisable goods (except first and second stage dealer, as defined in Cenvat Credit Rules, 2004);
- Persons who use excisable goods for any purpose other than for processing or manufacture of goods availing benefit of concessional duty exemption notification. (Notification 36/2001-C.E. (N.T.), dated 26-6-2001)

2.18.3 Procedure for Obtaining Central Excise Registration

- i. Fill up Form A-1 in full and have it duly signed. If the applicant is a manufacturer/producer/ dealer/ warehouse incharge/importer.
- ii. Submit copy of PAN card issued by the Income Tax Department.
- iii. The Inspector in the office of Assistant Commissioner/Deputy Commissioner will scrutinize the A-1 form and if found in order it shall be fed into computer through System for Allotment of Central Excise Registration (SACER).
- iv. A 15 digit PAN based registration number (ECC) will be allotted to the assessee on the spot; otherwise the same will be delivered to him within the next working day.
- v. Registration under Central Excise can be granted in the name of minor, provided a legal guardian undertakes to conduct the business.
- vi. Normally separate registrations are required if factories are located in different locations. Similarly if the warehouse is at a significant distance from the factory these must be registered separately. A single registration can be allowed by the Commissioner of Central Excise for factories located in adjoining premises, or premises separated by road; railway, etc can if the facts and circumstance facilitates to do so.

Example 50: A manufacturer has place of business in the Factory in one location and in the warehouse at another location. If these locations are bifurcated by road, railway etc then with the permission of Commissioner of Central Excise the assessee can avail a single registration for these two locations. Otherwise each location has to be registered separately. In that case each factory of the manufacturer is considered a separate registration.

Centralized registration: Every mine engaged in the production/manufacture of specified goods is exempt from obtaining registration where the producer/manufacture of such goods has a centralized billing/accounting system in respect of such goods produced by different mines and opts for registering only the premises or office from where such centralized billing or accounting is done (Notification No. 10/2011-CE dt. 24-3-2011).

- vii. If the assessee ceases to carry on operations for which he is registered his registration certificate can be cancelled. This is called de-registration.

Sometimes registration certificate can also be revoked by registering authority. Registration certificate can be revoked in the following cases.

- (a) If the manufacturer manufactures prevented goods. (like arms, explosive devise without license).
- (b) Manufacturer carries higher risk (evasion of duty continuously, repeatedly producing the malafide evidences etc).

2.18.4 Provisions Relating to Non Registration

As per Rule 25 of the Central Excise Rules, 2002, where registration under Central Excise is required for a manufacturer but not registered then, all such goods shall be liable to confiscation. Such manufacturer is supposed to face the punishment and penalty.

Punishment: (Section 9 of the Central Excise Act, 1944)

- i. if the duty leviable on the excisable goods exceeds ₹ 50,00,000 (w.e.f. 28-5-2012)
 - (a) imprisonment upto seven years and fine without any upper limit.
 - (b) 6 months minimum imprisonment unless there are special and adequate reasons for granting lesser punishment.
- ii. if the duty leviable on the excisable goods is less than or equal to ₹ 50,00,000 (w.e.f. 28-5-2012)
 - (a) Imprisonment upto three years or fine or both can be imposed
 - (b) 6 months minimum imprisonment unless there are special and adequate reasons for granting lesser punishment

Section 9A is being amended to make an offence cognizable and non-bailable where the duty liability exceeds ₹50 lakhs and punishable under clauses (b) or clause (bbbbb) of Sub-section (1) of Section 9.

Penalty for Non-Registration

The penalty for non-registration is amount of duty of contravening goods or ₹ 2,000 whichever is higher. [Rule 25(1)(c) of the Central Excise Rules]

2.18.5 Daily Stock Account (DSA)

Every assessee registered under Central Excise should maintain the Daily Stock Account (DSA) [Rule 10(1) of Central Excise Rules, 2002]

There is no specific format for Daily Stock Account. The following information should be captured in the DSA

- i. Description of goods manufactured
- ii. Opening balance of goods manufactured
- iii. Quantity manufactured
- iv. Inventory of goods (closing stock)
- v. Goods removed from the place of removal (quantity)
- vi. Assessable value of goods removed
- vii. Amount of duty payable to the department
- viii. Particulars with regard to the amount of duty actually paid.

The first page and the last page of the DSA shall be duly authenticated by the manufacturer or his authorized person. The DSA shall be preserved for five years.

Penalty upto the amount of duty payable can be imposed and the offending goods can be confiscated if DSA is not maintained by the manufacturer. [Rule 25(1)(b) of Central Excise Rules]

2.19 REFUND & OTHER IMPORTANT PROVISIONS

Other important provisions are summarized below.

2.19.1 Refund of Excise Duty

- i. Assessee can claim refund of duty within one year from relevant date u/s 11 B, in form R.
- ii. Refund is subject to doctrine of unjust enrichment, i.e. refund will be available only if the amount was not recovered from buyer. These are overriding provisions.
- iii. Doctrine of unjust enrichment applies to captive consumption, provisional assessment and also when duty was paid under protest.
- iv. If refund is delayed beyond three months, interest is payable @ 6% p.a.

2.19.2 Exemption from Duty

Goods exported under bond are not 'Exempted Goods'

Rule 19(1) of Central Excise Rules states that any material may be exported without payment of duty from factory of producer or manufacturer by removing under bond. Thus, the goods are cleared 'without payment of duty'. They are not 'exempt' goods. Ministry of Law Advice dated 29.10.1974 – confirmed and circulated vide CBE&C circular No. 278/112/96-CX dated 11.12.1996, states as follows, 'Under Central Excise, 'exemption' means exemption by notification under section 5A of CEA [earlier rule 8]. Thus, goods exported under bond are not 'exempt' from duty. These goods also cannot be termed as 'chargeable to Nil rate of duty', as in fact, the goods are dutiable.

- i. Section 5A(1) of Central Excise Act and section 25(1) of Customs Act empower Central government to exempt any excisable goods from duty, by issuing notification in Official Gazette.
- ii. Such exemption may be partial or full, conditional or unconditional.
- iii. Absolute i.e. unconditional exemption is compulsory, while conditional notification is at option of assessee.
- iv. Central Government can also grant exemptions in exceptional cases u/s 5A(2).
- v. An exemption notification should be strictly construed, but purposeful construction is permissible.
- vi. Principle of promissory estoppel can apply to an exemption notification.

2.19.3 Remission of Duty for Goods Lost, Destroyed or unfit for Consumption or Marketing

- i. Rule 21 provides for remission of duty if the assessee can prove to the satisfaction of the Commissioner of Central Excise that the goods have been lost or destroyed by natural cause or by unavoidable accident or the manufacturer claims them as unfit for consumption or for marketing, before their clearance. In such cases Commissioner can remit the duty on such goods subject to such conditions as may be imposed by him or ordered in writing. Power of remission given to various officers have been increased in 2007. The assessee should apply for destruction and remission in duplicate. Credit taken for inputs of the goods so lost or destroyed need not be reversed as such loss cannot be equated to exemption to goods - 2007 (208) E.L.T. 336 (Tri.-LB) - *Grasim Industries v. CCE*. But as per new sub-rule (5C) of Rule 3 of Cenvat Credit Rules, 2004, such credit on input requires reversal. No remission is allowable if goods are lost due to theft or dacoity - 2008 (232) E.L.T. 796 (Tri.-LB) - *Gupta Metal Sheets v. CCE*.
- ii. But no remission of duty is grantable for any loss or destruction or deterioration of any goods taking place after the goods have been cleared for home consumption on payment of duty or in cases of theft.
- iii. For duty upto ₹ 10,000, Superintendent of Central Excise has been empowered to grant remission. Deputy /Assistant Commissioner can grant remission of duty exceeding ₹ 10,000 and upto ₹ 1 lakh. Additional/Joint Commissioner will have the power to remit duty exceeding ₹ 1 lakh and upto ₹ 5 lakhs. No limit has been prescribed for Commissioner in this regard.
- iv. Remissions have to be claimed by the assessee and the burden to furnish adequate evidence of loss is on the assessee. Remission when granted is subject to conditions as may reasonably be imposed by the officer, such as irretrievable destruction under official supervision of goods claimed to be unfit for consumption or for marketing.

2.19.4 Compounded Levy Schemes

- i. As per Rule 15, the Central Government may by notification specify the goods in respect of which the assessee shall have the option to pay excise duty on the basis of such factors as may be relevant to production of such goods and at such rate as may be notified in this respect. The Central Government has, therefore, notified the *Compounded Levy Scheme for Stainless Steel pattis/pattas, aluminium circles, subject to the process of cold rolling*. - Notification No. 17/2007-C.E., dated 1-3-2007. These units have to pay Education Cess and SHE Cess also over and above

the compounded levy rates as per C.B.E. & c. Letter F. No. 27/16/2008-CX.1, dated 25-8-2008 [2008 (230) E.L.T. T19].

- ii. Section 3A has been inserted by Finance Act, 2008, empowering the Central Government to charge excise duty on the basis of capacity of production in respect of notified goods and to notify the procedure for the same. Accordingly, pan masala and pan masala containing tobacco commonly known as gutkha manufactured with the aid of packing machine and packed in pouches have been notified for this purpose with effect from 1-7-2008. Pan masala with betel nut content not exceeding 15% is not covered. Detailed procedures and other matters like filing of specified declaration/intimation, payment of duty at notified rates, abatement in case of non-production, requirement of declaration of retail sale price on packages, bar on Cenvat credit availment, addition or removal of packing machines, penalty and confiscation for contravention and the like are provided in Pan Masala Packing Machines (Capacity Determination And Collection of Duty) Rules, 2008.

New procedure for End-Use Exemption (erstwhile Chapter X procedure) - A new procedure for End-Use Exemption has been notified in Central Excise (Removal of Goods at Concessional Rate of Duty for Manufacture of Excisable Goods) Rules, 2001.

The new Rules contemplate that procurement of goods for end-use under concessional (including fully exempted) rate of duty.

- iii. Goods received duty free can be removed to another eligible manufacturer under the new end-use exemption procedure. Commissioner can also allow sending goods outside the factory for test, repair, reconditioning etc. and return thereof under their supplemental instruction power under Central Excise Rule 31.

2.19.5 Removal of Goods from FTZ, EOU and SEZ to Domestic Tariff Area

- i. As per Rule 17, removal of goods from FTZ and EOU to the domestic tariff area shall be made under an invoice and on payment of appropriate duty by 5th of the following month except March, like other units in DTA. Such unit shall maintain proper account relating to production, description of goods, quantity removed, duty paid and each removal made on an invoice. Unit shall also submit a monthly Return to the Superintendent, Central Excise within ten days from the close of the month to which the return relates. The Return shall be submitted in form ER-2
- ii. For the period prior to 11-5-2001 when Section 3 of the Act was amended to substitute the words "allowed to be sold" with the words "brought to any other place", clearances from EODs if not allowed to be sold into India shall continue to be chargeable to duty under main Section 3(1) of Central Excise Act, 1944 as such units are also situated in India.
- iii. SEZ having been given the status of foreign territory, imports there from to DTA will be governed by the provisions of the Special Economic Zones Act, 2005. Removal of semi-finished goods or finished goods for further processing, or testing has been permitted under Rules 1 6B and 1 6C, broadly on the pattern of old Rule 56B.

2.19.6 Return of Duty paid Goods for Repairs etc. - Credit of Duty

- i. As per Rule 16 of the Central Excise Rules, 1944 where any duty paid goods (whether originally manufactured in the same or another factory) are subsequently returned to the factory for being remade, refined, reconditioned or for any other reason, the assessee shall record the particulars of such returned goods in his record and take Cenvat Credit of the duty paid on such goods as if they are inputs and shall utilize this credit according to the Cenvat Credit Rules, 2002. But the goods received must be eventually returned.
- ii. When the process to which the returned goods are subjected, does not amount to manufacture, the assessee shall pay the amount equal to Cenvat credit taken in respect to such returned goods. In other cases the returned goods after processing shall be removed on payment of duty according to the value and rate of duty applicable as on the date of removal.

- iii. As per sub-rule (3) of Rule 16, where it is difficult to follow the provisions of sub-rule (1) and sub-rule (2) of Rule 16, the assessee can receive the goods subject to such conditions as may be specified by the Commissioner of Central Excise. Thus, in case where it is not possible to know the amount of the duty paid on returned goods as they may have been removed originally long back and the original invoice may not be available, in such or similar cases the return of goods shall be subject to the general or specific orders of the Commissioner of Central Excise and there will be no credit and no payment of duty.
- iv. According to one school of thought, under the Rules there are now no restrictions on return, re-entry, retention and re-issue of duty paid goods if no credit is desired and taken. But presence of the returned goods in the factory may cause accounting and surprise stock checking problems unless the returned goods are clearly identifiable as such and are stored and accounted for (in private accounts) separately. It has been held that restrictions for re-entry apply only to identical or similar to those manufactured in the factory and not to other goods - 2004 (168) E.L.T. 53 (Tri.) - *Varsha Engineering v. C.C.E.*

2.19.7 Removal of Excisable Goods on Payment of Duty

- i. As per Rule 4, no excisable goods on which duty is payable shall be removed without payment of duty from any place where they have been produced, manufactured or warehoused, unless otherwise provided. Duty, however is payable as specified in Rule 8.
- ii. As per Rule 4(2), where molasses are produced in a khandsari sugar factory, the person who procures such molasses, whether directly from such factory or otherwise, for use in the manufacture of any commodity (whether or not excisable) shall pay the duty payable on such molasses as if it is produced by him.
- iii. By virtue of Rule 12AA excise duty can be paid either by the principle jewellery manufacturer or by his job worker.
- iv. Full amount collected from the customer by way of duty should be shown distinctly in the invoice and paid to the credit of the Government.

2.19.8 Storage of Non-Duty paid goods outside the Factory

As per Rule 4(4) of the Central Excise Rules, 2002, the storage of non-duty paid goods outside the factory can be permitted by the Commissioner of Central Excise subject to such safeguards as he may specify. Such storage outside the factory premises is permissible in exceptional circumstances having regard to the nature of the goods and shortage of storage space in the factory. No merchant overtime charges would be recovered for supervision over such storage.

2.19.9 Manner of Payment of Duty Monthly

- (i) Rule 8 provides the manner of payment of duty. 'Duty' for this purpose includes the 'amount' payable in terms of the Cenvat Credit Rules, 2004. This rule allows payment of duty on monthly basis by 5th day of the succeeding month (6th day of the following month in case of e-payment through internet banking) except for the month of March when duty is to be paid by 31st March.
- (ii) The buyers of the goods cleared by manufacturers would be allowed to avail credit in respect of the duty payable on such goods immediately on receipt of the goods by them.
- (iii) The duty liability shall be deemed to have been discharged only if the cheque received by the nominated bank is honored. Where the cheque is duly honoured, even if a few days later, the date of presentation of the cheque to the nominated bank is the date of payment of duty/ deposit. For P.L.A. format (Annexure 8 in Part 7) and the procedure of its maintenance in triplicate.
- (iv) Electronic payment (e-payment) of excise duty using Internet banking facility has been made mandatory w.e.f. 1-4-2007 for assesseees who have paid excise duty of rupees 50 lakhs or more in cash (i.e. from P.L.A.) during the preceding financial year. It is optional for others. For features of the department's Electronic Accounting System in Excise and Service Tax (EASIEST) and the list of

banks authorised for Internet banking, see 2007 (211) E.L.T. T25-30; 2007 (213) E.L.T. A62 and 2009 (235) E.L.T. T19-T22. Cut off time for e-payment on a particular day is 8 PM. E-payment received after 8 PM will be treated as received on the next day.

- (v) GAR-7 Challans for paying amounts in banks must contain the 15-digit PAN/TAN based assessee code as well as Commissionerate code besides other particulars. A separate GAR -7 Challan should be used for each major head of account.

2.19.10 Action in Case of Default

As per Rules 8(3) and 8(3A), when the assessee fails to pay the duty by the due date he shall be liable to pay the outstanding amount along with interest at the rate notified under Section 11AB from the first day of default to the date of actual payment of the outstanding amount. If the default in payment continues beyond 30 days from the due date, then without the need for any order from the A.C/D.C, duty requires to be paid for each consignment at the time of removal till outstanding amount with interest thereon is paid. Cenvat credit is not utilisable for such payment. In the event of any failure, it shall be deemed that such goods have been cleared clandestinely with consequential penal action. Tribunal, however, holds: "It is well settled that Cenvat account is the same as PLA in regard to debit of Central Excise duty - 2006 (202) E.L.T. 814 (Tri.) - *SCT Ltd. v. CCE*.

2.20 OTHER PROCEDURES IN CENTRAL EXCISE

Some procedures are basic, which every assessee is required to follow. Besides, some procedures are required to be followed as and when required.

Basic Procedures

- (i) Every person who produces or manufactures excisable goods, is required to get registered, unless exempted. [Rule 9 of Central Excise Rules]. If there is any change in information supplied in Form A-1, the same should be supplied in Form A-1.
- (ii) Manufacturer is required to maintain Daily Stock Account (DSA) of goods manufactured, cleared and in stock. [Rule 10 of Central Excise Rules]
- (iii) Goods must be cleared under invoice of assessee, duly authenticated by the owner or his authorised agent. In case of cigarettes, invoice should be countersigned by Excise officer. [Rule 11 of Central Excise Rules]
- (iv) Duty is payable on monthly basis through GAR-7 challan / Cenvat credit by 5th/6th of following month, except in March. Assessee paying duty through PLA more than ₹ 10 lakhs per annum is required to make e-payment only [Rule 8].

Excise Duty Due Date w.e.f. 1.4.2010 by SSI units: (Notification No. 05/2010-CE (N.T.) dated 27.02.2010)

Frequency –Quarterly (other than e-pay)

April – December	5th of the following month from the end of the relevant quarter
January – March	31st March itself.

Frequency –Quarterly (e-pay)

April – December	6th of the following month from the end of the relevant quarter
January – March	31st March itself.

- (v) Monthly return in form ER-1 should be filed by 10th of following month. SSI units have to file quarterly return in form ER-3. [Rule 12 of Central Excise Rules] — EOU/STP units to file monthly return in form ER-2 – see rule 17(3) of CE Rules.

- (vi) Assessee paying duty of ₹ 1 crore or more per annum through PLA are required to submit Annual Financial Information Statement for each financial year by 30th November of succeeding year in prescribed form ER-4 [rule 12(2) of Central Excise Rules].
- (vii) Specified assessee is required to submit Information relating to Principal Inputs every year before 30th April in form ER-5, to Superintendent of Central Excise. Return for 2004-05 was required to be submitted by 31-12-2004 [rule 9A(1) to Cenvat Credit rules inserted w.e.f. 25-11-2004]. Any alteration in principal inputs is also required to be submitted to Superintendent of Central Excise in form ER-5 within 15 days [rule 9A(2) to Cenvat Credit Rules inserted w.e.f. 25-11-2004]. Only assessee manufacturing goods under specified tariff heading are required to submit the return. The specified tariff headings are – 22, 28 to 30, 32, 34, 38 to 40, 48, 72 to 74, 76, 84, 85, 87, 90 and 94; 54.02, 54.03, 55.01, 55.02, 55.03, 55.04. Even in case of assessee manufacturing those products, only assessee paying duty of ₹ 1 crore or more through PLA (current account) are required to submit the return.
- (viii) Assessee who is required to submit ER-5 is also required to submit monthly return of receipt and consumption of each of Principal Inputs in form ER-6 to Superintendent of Central Excise by tenth of following month [rule 9A(3) to Cenvat Credit rules inserted w.e.f. 25-11-2004]. *Only those assessee who are required to submit ER-5 return are required to submit ER-6 return.*
- (ix) Every assessee is required to submit a list in duplicate of records maintained in respect of transactions of receipt, purchase, sales or delivery of goods including inputs and capital goods, input services and financial records and statements including trial balance [Rule 22(2)].
- (x) Inform change in boundary of premises, address, name of authorised person, change in name of partners, directors or Managing Director in form A-1.

These are core procedures which each assessee has to follow.

2.20.1 Periodic Returns under Central Excise

Mandatory e-filing of Central Excise Returns in ACES w.e.f. 1-10-2011 (vide CBEC Circular No.955/16/2011 - CX dt. 15-9-2011). It means all assessee are required to file returns mandatorily through e-filing, irrespective of the payment of excise duty. Penalty for delayed submission of return can extend upto ₹ 5,000 and with confiscation of the goods in respect of which the offence is committed. [Rule 27 of Central Excise Rules]

Form of return	Description	Assessee	Time Limit
ER-1	Monthly	Manufacturer	10th of the following month from the end of the relevant month.
ER-2	Monthly	EOU	10th of the following month from the end of the relevant month.
ER-3	Quarterly	SSI	10th of the following month from the end of relevant quarter w.e.f. 1.4.2010
Annexure 13B	Quarterly	First Stage Dealer (or) Second Stage Dealer	15th of the following month from the end of the relevant quarter.
ER-4	Annual Financial Information Statement (A F I)	Duty paid including CENVAT Credit ₹ 100 lakhs in the previous year.	Annually by 30th November of next year.
ER-5	Information relating to principal inputs statement	Duty paid including CENVAT Credit ₹ 100 lakhs in the previous year.	Annually by 30th April for the current year.

ER-6	monthly input and output	ER-5	10th of the following month from the end of the relevant month.
ER-7	Annual Installed Capacity Statement	by every assessee*	30th April of the succeeding Financial Year
ER-8	Quarterly	An assessee is availing the exemption under N.T. 1/2011 dt. 1-3-2011 namely paying duty @1% or 2% as the case may be and does not manufacture any other products.	10th of the following month from the end of relevant quarter. For the year end quarter 31st March.

***Exempted from filing Annual Installed Capacity Statement (i.e. ER-7)**

The following manufacturers are exempted from filing Annual Installed Capacity Statement, vide Notification No. 26/2009-CE-(NT), dated 18.11.2009, namely:

- biris manufactured without the aid of machines falling under tariff item 2403 10 31.
- matches manufactured without the aid of power falling under heading 3605.
- reinforced cement concrete pipes falling under heading 6810.

The Following Assesseees are Exempted From E-Filing (Nt 21 & 22/2011 W.E.F. 1.10.2011:

- (a) Exempted goods are cleared from the state of Uttaranchal or Himachal Pradesh
- (b) Units located in the Industrial Growth Centre or
- (c) Industrial development centre
- (d) Industrial Infrastructure Development centre
- (e) Export promotion industrial park

2.20.2 Automation of Central Excise and Service Tax (ACES)

The Central Board of Excise & Customs (CBE & C) has developed a new software application called **Automation of Central Excise and Service Tax (ACES)**, which aims at improving tax-payer services, transparency, accountability and efficiency in indirect tax administration.

It is a centralized, web based software application which automates various processes of Central Excise and Service Tax for Assesseees and Department, and gives complete end to end solution. Any Assessee can register with Department using ACES application, can file tax return, claims & intimations, track its status and get online messages.

Benefits to the Assesseees

- i. Reduce Physical Interface with the Department
- ii. Save Time
- iii. Reduce Paper Work
- iv. Online Registration and Amendment of Registration Details
- v. Electronic filing of all documents such as applications for registration, returns [On-line and off-line downloadable versions of ER 1, 2, 3, 4, 5, 6, Dealer Return, and ST3], claims, permissions and intimations; provisional assessment request, export-related documents, refund request
- vi. System-generated e-acknowledgement
- vii. Online tracking of the status of selected documents
- viii. Online view facility to see selected documents

- ix. Internal messaging system on business-related matters

Salient features of ACES homepage

- i. ACES homepage is an interface for users/Assesses to access the Central Excise and Service Tax applications.
- ii. The website also enables users to make online payment through e-payment option, download the Returns offline utilities through Download option.
- iii. The website also keeps track on latest updates of the ACES application and gives links to various other sites under CBEC.

Certified Facilitation Centre (CFC)

CFC stand for Certified Facilitation Centre under ACES project of CBEC and is an e-facility, which may be set-up and operated by a Cost Accountant/Chartered Accountant/Company Secretary or a proprietary concern/firm of Cost Accountants or Chartered Accountants or Company Secretaries in practice to whom a certificate is issued under the ACES project, where the assessees of Central Excise and Service Tax can avail this facility to file their returns and other documents electronically along with associated facilitation on payment of specified fees.

2.20.3 There are other Procedures Which are not Routine

Non-core procedures - The non-core procedures are as follows: -

- (a) Export without payment of duty or under claim of rebate [Rules 18 and 19 of Central Excise Rules].
- (b) Receipt of goods for repairs / reconditioning [Rule 16 of Central Excise Rules].
- (c) Receipt of Goods at concessional rate of duty for manufacture of Excisable Goods.
- (d) Payment of duty under Compounded Levy Scheme.
- (e) Provisional Assessment [Rule 7 of Central Excise Rules].
- (f) Warehousing of goods.
- (g) Appeals and settlement.

2.20.4 Invoice for Removal of Final Products

Rule 11(1) of Central Excise Rules provides that excisable goods can be removed from factory or warehouse only under an 'Invoice' signed by owner or his authorised agent. In case of cigarettes, invoice shall be counter-signed by Inspector. Invoice should bear serial number and should be in triplicate. As per Rule 11(2) of Central Excise Rules, Invoice shall contain –

- (a) Registration Number,
- (b) Address of jurisdictional Central Excise Division,
- (c) Name of consignee,
- (d) Description and classification of goods,
- (e) Time and date of removal,
- (f) Mode of transport and vehicle registration number,
- (g) Rate of duty,
- (h) Quantity and Value of goods,
- (i) Duty payable on the goods.

2.20.5 Export Procedures

Exports are free from taxes and duties.

- i. Goods can be exported without payment of excise duty under bond under rule 19 or under claim of rebate of duty under rule 18.
- ii. Excisable Goods should be exported under cover of Invoice and ARE-1 form.
- iii. Merchant exporter has to execute a bond and issue CT-1 so that goods can be cleared without payment of duty. Manufacturer has to issue Letter of Undertaking.
- iv. Export to Nepal/Bhutan are required to be made on payment of excise duty.
- v. EOU has to issue CT-3 certificate for obtaining inputs without payment of excise duty.

Bringing goods for repairs, re-making etc.

- i. Duty paid goods can be brought in factory for being re-made, refined, reconditioned or for any other reason under rule 16.
- ii. The goods need not have been manufactured by assessee himself.
- iii. Cenvat credit of duty paid on such goods can be taken, on basis of duty paying documents of such goods.
- iv. After processing/repairs, if the process amounts to 'manufacture', excise duty based on assessable value is payable.
- v. If process does not amount to manufacture, an 'amount' equal to Cenvat credit availed should be paid [rule 16(2)].
- vi. If some self manufactured components are used, duty will have to be paid on such components
- vii. Buyer/recipient of such goods can avail Cenvat credit of such amount/duty.
- viii. If the above procedure cannot be followed, permission of Commissioner is required [rule 16(3)].

2.20.6 Receipt of Goods at Concessional Rate of Duty

Some users of excisable goods can obtain goods at nil or lower rate of duty, subject to certain conditions. In other words, the exemption is based on end use. If the buyer is entitled to obtain excisable goods at nil or concessional rate of duty, he is required to follow prescribed procedure. The provisions are contained in Central Excise (Removal of Goods at Concessional Rate for Manufacture of Excisable Goods) Rules, 2001.

Payment of Duty through Personal Ledger Account (PLA)

The Personal Ledger Account (PLA) is a running account through which the manufacturer can avail the credit the excise duty credit, pay the shortfall, if any, or carry forward the surplus if any.

In order to open a new Personal Ledger Account, the manufacturer, quoting his registration number, shall obtain the New Excise control Code Number (New ECC Number), which is a Permanent Account Number (PAN). Once the department adopts 'common number' for registration and accounts, separate ECC number shall not be required.

The manufacturer working under the procedure shall maintain an account current (Personal Ledger Account) in the Form specified in Annexure-8.

Each credit and debit entry should be made on separate lines and assigned a running serial number for the financial year. The PLA is credited when duty is deposited in the bank by GAR- 7 challan. The PLA is debited with the duty required to be paid on manufacture of goods on monthly basis. PLA and CENVAT credit should be used only for payment of excise duty and not other payments like fines, penalties etc.

The PLA must be prepared in triplicate by writing with indelible pencil and using double-sided carbon-original. Duplicate copies of the PLA should be detached by the manufacturers and sent to the central Excise Officer in charge along with the monthly/ quarterly periodical return in form E.R 1 or E.R 3.

2.21 CENTRAL EXCISE AUDIT AND SPECIAL AUDIT UNDER SECTION 14A AND 14AA

Goods are removed by the assessee under a system of self-removal. Returns are filed by the assessee without verification by the Excise department. Hence there is a need for audit by the Excise department to protect the interests of the government i.e. to check that there are no revenue leakages. A series of audits under the Central Excise Law is contemplated.

2.21.1 Types of Audits

Three types of audit are contemplated under Central Excise Law.

- (1) Central Excise Revenue Audit (known as CERA Audit) conducted by the office of the Comptroller and Auditor General of India. (C & AG)
- (2) Internal audit conducted by the Excise Department (known as Excise Audit 2000)
- (3) Special audit conducted by Cost Accountant/Chartered Accountant.

(1) Central Excise Revenue Audit

The key points relating to this audit are as under:

- (i) Conducted by the Comptroller and Auditor General of India (C & A G) it is called Central Excise Revenue Audit (CERA).
- (ii) This is an audit of the Central Excise Department's functioning and is carried out at the office of the Central Excise Department.
- (iii) This is not an audit of the assessee.
- (iv) The audit focuses on ascertaining revenue leakage and is assessed on the basis of the periodical returns filed by the assessee, the execution of various bonds, and other relevant information such as cost audit reports, and income-tax audit reports of the assessee.
- (v) The CERA auditor has the right to visit the office of the assessee though the audit is not of the assessee.
- (vi) There is no defined frequency for the carrying out of this audit.
- (vii) C & A G submits the report to the President of India, who causes these to be laid before each House of Parliament.

(2) Special Audit u/s 14A of CEA

If at any stage of enquiry, investigation or any other proceedings before him, any Central Excise Officer not below the rank of an Assistant/Deputy Commissioner of Central Excise having regard to the nature and complexity of the case and the interest of revenue, is of the **opinion that the value has not been correctly declared or determined** by a manufacturer or any person, he may, with the previous approval of the Chief Commissioner of Central Excise, direct such manufacturer of such person to get the accounts of his factory, offices, depots, distributors or any other place, as may be specified by the said Central Excise officer, audited by a Cost/Chartered Accountant, nominated by the Chief Commissioner of Central Excise in this behalf. Cost accountant shall have the meaning assigned to it in clause (b) of sub-section (1) of section 2 of the Cost and Works Accountants Act, 1959. Chartered Accountant shall have the meaning assigned to it in section 2(1) (b) of the Chartered Accountants Act, 1949.

The directions given by Assistant/Deputy Commissioner for special audit after obtaining prior approval of Chief Commissioner of Central Excise is not an appealable order in terms of section 35B. The Tribunal in the case of *Neelam Products Ltd. vs. CCE Delhi III* held that an opportunity for hearing is to be given to the assessee before the issuance of the direction for special audit. As the opportunity for hearing would help the authority to form an objective opinion on the complexity of the case based on prescribed factors.

The cost accountant/ Chartered Accountant, so nominated shall, within the period specified by the Central Excise Officer, submit a report of such audit duly signed and certified by him to the said Central Excise Officer mentioning therein such other particulars as may be specified :

Provided that the Central Excise Officer may, on an application made to him in this behalf by the manufacturer or the person and for any material and sufficient reason, extend the said period by such further period or periods as he thinks fit; so, however, that the aggregate of the period originally fixed and the period or periods so extended shall not, in any case, exceed one hundred and eighty days from the date on which the direction under sub-section (1) is received by the manufacturer or the person.

The manufacturer shall be given an opportunity of being heard in respect of any material gathered on the basis of audit and proposed to be utilized in any proceedings under the Central Excise Act or Rules. This special audit can be conducted notwithstanding that the accounts of the manufacturer or the person have been audited under any other law for the time being in force or otherwise.

The expenses of, and incidental to, such audit (including the remuneration of the cost accountant/ Chartered Accountant) shall be determined by the Chief Commissioner of Central Excise (which determination shall be final) and paid by the manufacturer or person and in default of such payment, shall be recoverable from the manufacturer or the person in the manner provided in section 11 for the recovery of sums due to the Government.

The Cost Accountant or the Chartered Accountant has to submit the duly signed and certified audit report within the period specified by the Central Excise Officer. He shall also mention in the report such other particulars as may be prescribed by such Central Excise Officer.

Advisory from The Institute of Cost Accountants of India

The members of the Institute are undertaking Valuation Audit under Section 14A of Central Excise Act, 1944. The basic objective of the Section 14A is to ensure correct determination of value for the manufacture of excisable goods produced or manufactured for correct realisation of revenue.

Consequent upon the Supreme Court judgment in the case of Commissioner of Central Excise, Mumbai Vs. M/s Fiat India (P) Ltd. & ANR. dated 29th August, 2012, it has been observed that greater responsibilities have been thrown on the shoulders of the Cost Accountants in Practice while undertaking Special Audit under Section 14A of the Central Excise Act, 1944.

The members of the Institute are hereby advised to take into consideration the Compliance Report and the Cost Audit Report, if the product is covered under the Cost Audit, to ensure the correct determination of the value and thus fair assessment of revenue by the Excise Department.

(3) Special Audit u/s 14AA (CENVAT Credit Audit)

Special Audit in Cases where Credit of Duty Availed or Utilised is not within the Normal Limits, etc.

- (1)** If The Commissioner of Central Excise may call for an audit if he has reason to believe that the credit of duty availed of or utilized by a manufacturer of any excisable goods –
 - (a) is not within the normal limits having regard to the nature of the excisable goods produced or manufactured, the type of inputs used and other relevant factors, as he may deem appropriate;
 - (b) has been availed of or utilized by reason of fraud, collusion or any willful mis-statement or suppression of facts.

The Commissioner shall direct such manufacturer to get the accounts of his factory, office, depot, distributor or any other place, as may be specified by him, audited by a Cost Accountant or Chartered Accountant nominated by him. Cost Accountant shall have the meaning assigned to it in clause (b) of sub-section (1) of section 2 of the Cost and Works Accountants Act, 1959. Chartered Accountant shall have the meaning assigned to it in section 2(1)(b) of the Chartered Accountants Act, 1949.

- (2) The cost accountant so nominated shall, within the period specified by the Commissioner of Central Excise, submit a report of such audit duly signed and certified by him to the said Commissioner mentioning therein such other particulars as may be specified.
- (3) The provisions of sub-section (1) shall have effect notwithstanding that the accounts of the said manufacturer aforesaid have been audited under any other law for the time being in force or otherwise.
- (4) The expenses of, and incidental to, such audit (including the remuneration of the cost accountant) shall be determined by the Commissioner of Central Excise (which determination shall be final) and paid by the manufacturer and in default of such payment shall be recoverable from the manufacturer in the manner provided in section 11 for the recovery of sums due to the Government.
- (5) The manufacturer shall be given an opportunity of being heard in respect of any material gathered on the basis of the audit under sub-section (1) and proposed to be utilized in any proceeding under this Act or rules made thereunder.

Explanation : For the purpose of this section, "cost accountant" shall have the meaning assigned to it in clause (b) of sub-section (1) of section 2 of the Cost and Works Accountants Act, 1959 [23 of 1959]. 84]

Audit prescribed by Central Excise Department

The Central Excise Department also has evolved a system of departmental audit in view of the fact that all the statutory records to be maintained by the assessee have been abolished in year 2000/01.

History of provisions

In conventional sense, "audit" means scrutiny and verification of documents, events and processes in order to verify facts and, draw conclusions regarding the correctness of recording of facts and the efficiency of a system under study. For Central Excise purposes "audit" means scrutiny of the records of assessee and the verification of the actual process of receipt, storage, production and clearance of goods with a view to check whether the assessee is paying the central excise duty correctly and following the central excise procedures.

Under the conventional /traditional system of central excise audit, audit parties visit assessee's unit without much preparation and verify all the statutory records (i.e. those prescribed under the Central Excise law) to check compliance of procedures and also leakage of revenue, if any. Experiences show that such audits do not result in detection of major aberrations. Most of the audit objections pertain to either minor procedural irregularity or duty short payment of small amounts mostly due to human error. Further, this method of auditing does not envisage checking of the internal records of the assessee as well as those records which are maintained by the assessee under the other laws like Income-tax Act, Sales Tax Act, Companies Act etc.

One of the announcements made during Budget 2000 as a measure of simplification of procedures, was the dispensation of all statutory records under the central excise law. No longer was the assessee required to record the receipt of raw material, production and clearance/sale of finished goods etc. in registers/documents prescribed by the central excise department. As a result, the assessee is now allowed to maintain all their records in whichever form they like (including maintenance of the entire records in electronic form) provided the essential information required for calculation of central excise duty liability can be obtained from such records. Under these circumstances it becomes necessary for the auditors to look into the assessee's own (private) records to verify whether the assessee is paying central excise duty correctly and following the laid down procedures.

Another change brought in recent years is doing away the system of assessment of the returns by the departmental officers. Now the assessee is required to self assess his monthly tax returns (called the E.R.1/E.R.2) before filing the same with the department. The departmental officers only scrutinise

this return to check for any apparent mistake made by the assessee. They are not required to carry out detailed verification. Therefore, the entire burden of checking whether the assessee actually paying his taxes correctly, now lies with audit.

The statutory changes resulting in dispensation of statutory records as well as self assessment of central excise duty by the assessee has led to the conventional/traditional system of audit becoming irrelevant.

(4) Excise Audit 2000

Excise Audit 2000 (EA 2000) is a new system of audit initiated from 1st December 1999. The essential philosophy of EA 2000 is that this audit is based on the scrutiny of business records of the assessee. This is a more systematic form of audit wherein the auditors are required to gather basic information about the assessee and analyze them to find out vulnerable areas before conducting the actual audit. The audit is therefore more focused and in-depth as compared to the traditional audit. Further, at every stage of audit, the assessee is consulted. This makes EA 2000 audit user friendly.

The frequency of conducting the Excise Audit 2000 is as follows:

Amount of Annual duty (In cash + CENVAT credit) Paid by assessee	Frequency of Audit
(i) Above ₹ 3 Crores	Every Year
(ii) Between ₹ 1 Crore and ₹ 3 Crores	Once every two years
(iii) Between ₹ 50 lakhs and ₹ 1 Crore	Once every five years
(iv) Less than ₹ 50 lakh	10% of the units audited every year

Procedure of Excise Audit 2000

(i) Selection of Assessee

The process of EA 2000 begins with identification of a unit to be audited. Normally, there are about 1000 to 1500 assesseees under the jurisdiction of a Central Excise Commissionerate. It is not possible for the audit staff to conduct audits of all the units every year. Therefore, depending upon the manpower availability, about 300 to 400 units are selected for conducting audit during a financial year. Under the conventional system of audit the units were picked up randomly without any scientific basis of selection. Under EA 2000, the selection of the unit is based taking into account in the 'risk-factors'. This means that the assesseees who have a bad track record (having past duty evasion cases, major audit objections, past duty dues etc.) are given priority for conducting audit over those having clean track record.

(ii) Desk Review

The auditors are assigned the assesseees to be audited at the beginning of the financial year. The auditors are required to gather as much information about the assessee as possible. They can gather information from the departmental records, published documents like balance sheets annual statements etc., and through market enquirer. Since this can be done without interacting with the assessee, this step called as 'desk-review'.

(iii) Documenting Information

At the stage of 'Desk Review' the auditors may have already identified certain areas, which warrant closer examination. The auditor may also require certain documents or information from the assessee to complete his preliminary investigation. For this he may write letter to the assessee or send him a questionnaire to obtain this information. This step is called 'gathering and documenting assessee information'.

(iv) Touring

The auditor then visits the unit of the assessee to see the actual running of the unit, the systems that are followed for maintaining records in various sections and the system of movement of

goods and the related documents within the unit. This step is called 'touring of the premises'. This gives the auditors a general overview about the procedure adopted by the assessee and the possible loopholes through which revenue leakage can take place.

(v) Audit Plan

Based on his experiences and the information gathered so far about the assessee, the auditor now makes a 'audit plan'. The idea of developing audit plan is to list the areas which, as per the auditor are the vulnerable areas from the revenue point of view. Since number of documents/ records maintained by assessee is huge in number, it also necessary that the auditor should select only some of them for the actual verification. The preparation of audit plan helps him to do that. It must be remembered that audit plan is not rigid but a dynamic concept. During the course of audit if the auditor notices certain new facts or new aspects of the planned area of audit, he can always alter the audit plan accordingly, with the approval of his supervisor. Similarly, during the actual audit, if the auditor is convinced that any area which was earlier planned for verification does not require in-depth scrutiny, he may alter the plan midway after obtaining approval of the superior officers. Preparation of audit plan is one of the most important steps of EA 2000. A well thought audit plan generally increases the success of audit result manifolds.

(vi) Verification

The most important step of audit is the conduct of actual audit, which in technical parlance is called 'Verification'. The auditors visit the unit of the assessee on a scheduled date (informed to the assessee in advance) and carry out the scrutiny of the records of the assessee as per the audit plan. The auditor is required to compare the documentation of a fact from different documents. For example, the auditor may check the figures of clearance of finished goods showed by the assessee in central excise return with the sales figures of the said goods in Balance Sheet, Sales Tax Returns, Bank statements etc. The auditor may also enquire about the entries which appear vague (say an entry like 'Misc. Income') in various records and documents. The idea behind conduct of verification is to reasonably ensure that no amount, which as per the Central Excise law is chargeable to duty, escapes taxation. The process of verification is always carried out in presence of the assessee so that he can clarify the doubts and provide required information to the auditor.

(vii) Audit Objection and Audit Para

Where the auditor finds instances of short payment of duty or non-observance of Central excise procedures, he is required to discuss the issue with the assessee. After explanation provided by the assessee, if the auditor is satisfied that such non-tax compliance has occurred, he records the same as an 'Audit Objection' or 'Audit Para' of the 'draft audit report' that he would be preparing at the end of the verification process. Auditor is advised not to take formal objections to mere procedural lapses/ infractions/ adoption of wrong procedures, which do not result in any short payment of duty or do not have bearing upon the duty payment. In such cases the auditor is required to discuss the matter with the assessee and advise him to follow the correct procedure in future. Further, while making an audit para, attempt should be made to tabulate the duty short paid by the assessee at the spot and incorporate it in the para itself. However, if this is not possible for the paucity of time or for the want of some information not available at that time, the auditor should make a note of the same in his report.

(viii) Audit Report

At the end of the process of verification the auditor prepares an 'Draft Audit Report' which incorporates all the audit objections/audit paras. An audit report provides (issue or para wise) the issue in brief, the reply or the explanation of the assessee, the reason for the auditor not being satisfied with the reply, the amount of short payment (if tabulated) and the recoveries of the same (if could be made at the spot). The draft audit report is then submitted to the superior officers for review, who examine the sustainability of the objections raised by the

auditors. After such review, the audit report becomes final and in cases where the disputed amounts have not already been paid by the assessee at the spot, demand notices are issued by the department for their recoveries.

(ix) Conclusion

EA 2000 is a modern, transparent and interactive method of audit wherein the auditor proceeds with audit fully conversant with the business of the assessee. On his part, the assessee is given full opportunity to explain his stand on any particular matter so that matters are resolved in full appreciation of legal position. EA 2000 is thus a participative audit.

A requirement of EA 2000 is that the auditors must be thorough in their knowledge of Central Excise law and procedures, notifications, instructions and circulars issued by the Finance Ministry and the judicial decisions on issues relating to central excise laws. To be successful auditor, knowledge about financial bookkeeping, accountancy and proficiency in understanding commonly used commercial books and documents is of great help. Further, being computer literate is an added requirement while auditing an assessee who maintains his accounts in electronic format.

Note: Finance Act 2009, amendment of Section 1 4A and 1 4AA, for the words “cost accountant,” the words “cost accountant or chartered accountant” shall be substituted.

Departmental Verification

- (a) The assessee has to submit periodic returns to Superintendent of Central Excise and date stamped acknowledgement for the same should be obtained.
- (b) In general the Superintendent and Inspectors of Central Excise may visit factories of the assessee to verify the records, stock taking and so on. Stock taking can be done for finished goods and CENVAT goods.
- (c) Sometimes road checks are carried out by the department authorities to check whether all goods moving are accompanied by duty paying documents or not.
- (d) Moreover, each Commissionerate has a preventive section to have surprise checks and raids when evasion is suspected. Directorate of Central Excise Intelligence under Central Board of Excise and Customs gathers information from various sources about the duty evasion and initiate suitable action against them.

In short, in addition to the audit, the Central Excise Department is empowered to carry out verification at ANY point in time.

Submission of Records and Books (vide NT 22/2012 C.Ex. dt. 30-3-201 2)

As per Rule 22 (3) of the Central Excise Rules, 2002, every assessee, and first stage and second stage dealer shall, on demand make available to the officer empowered by the Commissioner or the audit party deputed by the commissioner or Comptroller and Auditor General of India, or a Cost Accountant or Chartered Accountant nominated under section 1 4A or section 1 4AA of the Act,

- (i) the records maintained or prepared by the assessee.
- (ii) the cost audit reports, if any under section 233B of the Companies Act, 1956.
- (iii) the income-tax audit report, if any under section 44AB of the Income-tax Act, 1961.

for the scrutiny of the officer or the audit party or the Cost Accountant or Chartered Accountant, as the case may be.

2.22 EXPORT BENEFITS AND PROCEDURES

2.22.1 Export Benefits and Incentives

In order to boost exports from India various incentives and benefits have been allowed *inter alia* under the Excise and Customs Law. A brief account of the same is given below:

- (i) **Rebate of duty on “export goods” and “material” used in manufacture of such goods :** Rule 18 of the Central Excise Rules, 2002 provides for grant of rebate of duty paid on goods exported or duty paid on the material used in the manufacture of export goods, subject to such conditions, limitations and procedures as specified in the Notifications Nos. 40/2001 -CE(NT) and 41/2001-CE(NT), both dated 26-6-2001.
- (ii) **Export of goods without payment of excise duty under Bond:** As per Rule 19, any excusable goods can be exported or inputs for manufacture of such goods can be removed without payment of duty from the factory or warehouse or any other premises as may be approved by the Commissioner under Bond subject to the conditions safeguards and procedures notified by CBEC vide the Notifications Nos. 42/2001-CE(NT) to 45/2001-CE(NT), all dated 26-6-2001.

Further, to facilitate export under Bond , export warehouses have been allowed to be setup, from where goods can also be exported directly. Goods can also be cleared directly from the job workers' premises to export warehouses of even merchant exporters for export.
- (iii) **Cenvat credit of input excise duty provided drawback for the same is not taken :** Where goods are exported under bond, the input credit taken on account of export can be utilized for paying duty on similar products cleared for home consumption. Assessee may also obtain cash refund. However, cash refund of input credit is not admissible for 'deemed exports to FTZ units and 100% EOU's.
- (iv) **Setting up of units in FTZ/EPZ/ETP and Jewellery Complexes and 100% EOU/SEZ :** All required inputs and capital goods, whether indigenous or imported, are made available to these units free of customs and excise duties under bond. For getting indigenous/imported inputs, CT-3 book-lets/ Procurement Certificate is issued to them by the Range Officer. These are customs bonded units set up under section 65 of the Customs Act, 1962 but with a much relaxed control and in accordance with the EXIM Policy for manufacture of articles for export out of India or for production or packaging or job work for export of goods or services out of India.

Inter-unit transfers for valid reasons are freely allowed among EPZ/EOU/SEZ units themselves. The warehousing licence for that would be valid for 5 years.

100% EOUs have been given the facility of sending the Customs bonded goods to such contractors in DTA for job work and EOUs/EPZ units have also been allowed to carry out job work for DTA units. Capital goods can be sent to DTA for repairs and return under the Range Superintendent's permission. All EOUs and units having an investment of ₹ 5 crores or above, in plant and machinery, have to show positive value addition only.
- (v) **Drawback of Customs and Central Excise Duties in respect of Inputs, both Indigenous and Imported:** An All Industry Rate Schedule is laid down and published for this purpose within 3 months of presentation of each Budget. If an exporter's goods do not figure therein or if he finds the all Industry rate too low (less than four-fifths of the input duties paid by him), he can apply for fixation of brand rate(s) for his goods. Anti-dumping duty, if actually paid on inputs, can only be claimed by way of brand rate. It is a Simplified Brand Rate Fixation Scheme under which all applicant exporters can be allowed a provisional brand rate within 15 days without pre-verification of data submitted by them. Exporters should send the data duly verified by them and accompanied by original duty paying documents (bills of entry and invoices) direct to the Ministry of Finance (Revenue Department), Joint Secretary (Drawback), Jeevan Deep Building 10, Parliament Street, New Delhi – 110001.

DTA exporters are also eligible for grant of drawback at *brand* rate only in respect of duties suffered on their inputs which are processed by EOU/EPZ units. Sanctions for brand rate are normally valid for one year but for brand rates having all Industry Rate linkage, validity is up to notification of the next AIR Schedule.

Drawback for inputs is permissible not only in case of manufacture but also for processing or other operations for export of goods.

- (vi) **Drawback of 98% customs duty (including anti-dumping duty):** If imported goods are re-exported as such, drawback of 98% customs duty is permitted. Re-export can be through any port and to any party (not necessarily the original supplier of the goods).
- (vii) **Duty free Replenishment Scheme:** The scheme allows duty free replenishment on post-export basis for import of inputs on the basis of input-output norms where such norms exist and on condition of uniform value addition of 33%. The duty exemption is only for basic customs duty, surcharge and SAD. There would be no exemption for anti-dumping duty or safeguard duty or CVD. But Cenvat credit of CVD can be taken.
- (viii) **DEEC Scheme:** For imported inputs against Advance Licence (Quantity Based only) Duty Entitlement Export Certificate has to be taken subject to bond executed with customs authorities undertaking to export stipulated quantity/value of specified finished goods. These licences are not transferable. However, imports against these licenses have been exempted from payment of all kinds of duties like basic, additional Customs duty, special customs duty, anti-dumping/ safeguard duty.
- (ix) **DEPB Scheme:** Duty entitlement pass book scheme patterned on the credit-debit system of Central Excise CENVAT scheme was scheduled to phase out by March 31, 2002 but is being continued till VAT comes into force.

Under the scheme, exporters are granted duty credits, on the basis of pre-notified entitlement rates, which will allow them to import inputs duty free. The exporter can export any product under the DEPB Scheme provided the same is covered by the Standard Input-Output Norms. The importer has the option to forego exemption from C.V.D. and pay the C.V.D. in cash so that he or the customer can claim Cenvat credit. Goods in the Negative List of EXIM Policy cannot be exported.

Pass Book credit can also be used for paying duty on (1) SIL imports, and (2) imports under other schemes like EPCG Scheme or Project Imports, thereby availing the exemption from Special Additional Duty. In case the imported goods are eligible for another partial exemption from payment of duty, such exemption would also be applicable to goods imported against a DEPB scrip. In the case of composite items, the lowest rates applicable to their constituents would be allowable.

Verification of present market value of the export product is assigned to SIIB Branch of Customs house to be completed in 30 days.

- (x) **Imports for repair, jobbing, etc. free of duties (both basic and additional) :** Such imports are made subject to bond for their re-export with 10% value addition. No CCP is required now. Jobbing operations would be carried out in accordance with the Customs (Import of Capital Goods at Concessional Rate for Manufacture of Excisable Goods) Rules, 1996 and not in Customs Bond under section 65. Such export should be completed within 6 months.
- (xi) **Import of capital goods at 5% concessional rate under EPCG Scheme:** Such imports are subject to export obligation and are applicable to all sectors and to all capital goods without any threshold limit. No payment of additional Customs duty (e.v.d.) and special additional duty (SAD) applies. The scheme has also been extended to identified service sectors. The export obligation is to be completed in eight years. However, for the following categories, export obligation period will be 12 years :

1. EPCG licenses of ₹ 100 crores or more;
2. Units in agri-export zones; and
3. Companies under the revival plan of the BIFR.

Further, supplies under deemed exports are eligible to counting for discharge of export obligation.

(xii) Duty Free Entitlement Credit Certificate to Status holders: Who show incremental growth of more than 25% in exports, such certificate would be equal to 10% of the incremental growth achieved during 2002-2003 subject to a maximum turnover of ₹ 25 crores. Imports under it would be exempt from basic customs duty, CVD and SAD. Actual user condition would apply to certificate and the goods imported thereunder [Notification No. 53/2003-Cus]

(xiii) Duty Free Entitlement Credit Certificate to Service Providers: It would be equal to 10% (5% in the case of hotels) of average forex earnings of the preceding three years subject to a maximum earning of ₹ 10 lakhs. Extent of exemption and all conditions shall be same as in case of status holders. Service providers should register themselves with FIEO. [Notification No. 54/2003-Cus]

(xiv) Special Economic Zones: By new notifications 22, 23, 24, 25/2003-CE & 51 -52/2003-Cus. Special incentives have been provided for the special economic zones set up on Chinese model at Mumbai, Kandla, Cochin and other locations by converting the existing EPZs into SEZ, which would be treated as under outside territory of India.

2.22.2 Export Without Payment of Duty

The Rule 19 of the Central excise Rules, 2002, which corresponds to Rule 13 of the Central excise Rules, 1944 provides that:

- i. Any excisable goods may be exported without payment of duty from a factory of the producer or the manufacturer or the warehouse or any other premises, as may be approved by the Commissioner.
- ii. Any material may be removed without payment of duty from a factory of the producer or the manufacturer or the warehouse or any other premises for use in the manufacture or processing of goods which are exported, as may be approved by the Commissioner.
- iii. The export under sub-rule (1) or sub-rule (2) shall be subject to such conditions, safeguards and procedure as may be specified by notification by the Board.

Categories of Exports

There are two categories of export without payment of duty –

- (i) Export of finished goods without payment of duty under bond or undertaking.
- (ii) Export of manufactured/processed goods after procuring raw material without payment of duty under bond.

Simplified Export Procedure For Exempted Units

Units, which are fully exempted from payment of duty by a notification granting exemption based on value of clearances for home consumption, may be exempted from filing ARE. 1 and Bond till they remain within the full exemption limit. The following simplified export procedure, as detailed out in the Central Excise Manual, 2001, shall be followed in this regard by such units:

Filing of Declaration

Manufacturers exempted for payment of duty will not be required to take Central Excise Registration. They shall however, file a declaration in terms of Para 2 of Notification No. 36/2001-CE(NT), dated 26-6-2001, and obtain declarant code number [notwithstanding they are exempted from declaration], but for this procedure.

Documentation

The clearance document will be as follows:

- (i) Such manufacturers are permitted to use invoices or other similar documents bearing printed Serial Numbers beginning from 1st day of a financial year for the purpose of clearances for home consumption as well as for exports. (The printing of Serial Numbers can be done by use of franking machine). The invoices meant for use during a month shall be pre-authenticated by the owner or partner or Director/ Managing Director of a Company or other authorized person.
- (ii) The declarant's Code Number should be mentioned on all clearance documents.
- (iii) Such declarant's document should contain particulars of the description of goods, name and address of the buyer, destination, value, [progressive total of total value of excisable goods cleared for home consumption since beginning of the financial year], vehicle number, date and time of the removal of the goods.
- (iv) The clearance document will be signed by the manufacturer or his authorized agent at the time of clearance.
- (v) In case of export through merchant exporters, the manufacturer will also mention on the top "EXPORT THROUGH MERCHANT EXPORTERS" and will mention the Export-Import Code No. of such merchant exporters.
- (vi) In case of direct export by the manufacturer-exporters, he will mention on the top "FOR EXPORT" and his own Export-Import Code No., if any.

2.23 EXCISE ON SMALL SCALE INDUSTRIES

2.23.1 Small Scale Industries

The contribution of Small Scale Sector in the industrial growth of the Indian economy and to the Gross Domestic Product is significant, besides the potential for employment generation. Keeping this into consideration, special provisions of Central Excise are applicable to small-scale units.

2.23.2 Exemption to SSI

- SSI are eligible for exemption from duty under Notification No. 8/2003-CE dated 1-3- 2003. The SSI unit need not be registered with any authority.
- Broadly, items generally manufactured by SSI (except in tobacco, matches and textile sector) are eligible for SSI exemption. Some items like pan masala, matches, watches, tobacco products, Power driven pumps for water not conforming to BIS, products covered under compounded levy scheme etc. are specifically excluded, even when these can be manufactured by SSI. Some items like automobiles, primary iron and steel etc. are not eligible for SSI exemption, but anyway, these are beyond capacity of SSI unit to manufacture.
- Unit whose turnover was less than or equal to ₹ 4 crores in previous year are entitled to full exemption upto ₹ 150 lakhs in current financial year.
- SSI units manufacturing goods with brand name of others are not eligible for exemption, unless the goods are manufactured in rural area.
- Turnover of all units belonging to a manufacturer will be clubbed for calculating SSI exemption limit.
- Clubbing is also possible if two units are sham or bogus or if there is unity of interest and practically they are one. While calculating limit of ₹ 400/150 lakhs -
- Turnover of Exports, deemed exports, turnover of non-excisable goods, goods manufactured with other's brand name and cleared on full payment of duty, job work done under notification No.214/86-CE, 83/94-CE and 84/94-CE, processing not amounting to manufacture, strips of plastics used within factory is to be excluded.

- Value of intermediate products (when final product is exempt under notification other than SSI exemption notification), branded goods manufactured in rural area and cleared without payment of duty, export to Nepal and Bhutan and goods cleared on payment of duty is to be included.
- Value of turnover of goods exempted under notification (other than SSI exemption notification or job work exemption notification) is to be included for purpose of limit of ₹ 400 lakhs, but excluded for limit of ₹ 150 lakhs.

Distinction between mode of calculations of ₹ (150/ 400) lakhs

Generally, provisions for calculation of turnover for ₹ 150 lakhs and ₹ 400 lakhs are similar. Major distinction is that if goods are exempt under a notification other than SSI exemption notification or job work exemption notification, that turnover is included for calculating ₹ 400 lakhs limit but *not* for ₹ 150 lakhs limit. If final product is exempt under job work exemption notification, it is not to be considered either for ₹ 150 lakhs or for ₹ 400 lakhs.

Clearances of goods exempted under any other notification to be excluded for ₹150 lakhs but includible for ₹ 400 lakhs - Some goods may be exempt under some other notification, i.e. other than SSI exemption notification. In some cases, duty may not be payable on such goods for some other reason. Turnover of such goods is not to be considered for calculating exemption limit of ₹ 150 lakhs. *However, this turnover (except clearances to EOU, SEZ, STP, EHTP, UN etc. and job work under notifications 214/86-CE, 83/94-CE and 84/94-CE) will have to be considered for calculating exemption limit of ₹ 400 lakhs.*

If some intermediate product gets produced during manufacture of exempted final product, its turnover will be held as includible for calculating exemption limit of ₹ 150 lakhs, if such intermediate product is dutiable.

Example 51: A Ltd. is having a manufacturing unit at Faridabad. In the financial year 2012-13 the value of total clearances from the unit was ₹ 750 lakhs as per the following details: (i) Exports to USA - ₹ 100 lakhs; to Nepal - ₹ 50 lakhs (ii) Clearances to a 100% export oriented unit - ₹ 75 lakhs (iii) Clearances as loan licensee of goods carrying the brand name of another upon full payment of duty - ₹ 200 lakhs (iv) Clearances exempted *vide* Notification No. 214/86-C.E. dated 25-3-86 - ₹ 125 lakhs. (v) Balance clearances of goods in the normal course: ₹ 200 lakhs. You are required to state with reasons whether the unit is entitled to the benefit of exemption under Notification No.8 /2003-C.E.dated 1-3-2003 as amended for the financial year 2009-10.

Answer:

Following is includible for calculating limit of ₹ 400 lakhs : (i) Exports to Nepal - ₹ 50 lakhs (ii) Normal clearances ₹ 200 lakhs. Total ₹ 250 lakhs. Since the turnover is less than ₹ 400 lakhs, A Ltd. is entitled to SSI concession in 2013-14.

Example 52: Z Associates is a Small Scale unit located in a rural area and is availing the benefit of Small Scale exemption under Notification No. 8/2003-C.E. in the year 2013-14. Determine the value of the first clearance and duty liability on the basis of data given below: (i) Total value of clearances of goods with own brand name - ₹ 75,00,000, (ii) Total value of clearances of goods with brand name of other parties - ₹ 90,00,000, (iii) Clearances of goods which are totally exempt under another notification (other than an exemption based on quantity or value of clearances) ₹ 35,00,000.

Normal rate of Excise duty @12%. Education cess @ 3% of Excise duty. Calculations should be supported with appropriate notes. It may be assumed that the unit is eligible for exemption under Notification No. 8/2003.

Answer:

While calculating SSI exemption limit of ₹ 150 lakhs, goods cleared under brand name in rural area are to be included, since goods manufactured in rural area with brand name of others are entitled for SSI exemption. However, goods which are exempted from duty under notification other than exemption based on quantity or value of clearances is not required to be considered. Thus, for purpose of SSI

exemption, his value of turnover is ₹ 165 lakhs. His first turnover of ₹ 150 lakhs is exempt. Thus, he is liable to pay excise duty on ₹ 15 lakhs.

Hence, Excise duty @ 12.36% is ₹ 1,85,400 .

Example 53: S & Co., a small scale unit, had cleared goods of the value of ₹ 750 lakhs during the financial year 2012-13. Records show that the following clearances were included in the total turnover of ₹ 750 lakhs : (i) Total exports during the year - ₹ 200 lakhs (30% of total exports were to Nepal), (ii) Job-work in terms of Notification No. 214/86 - ₹ 50 lakhs, (iii) Job-work in terms of Notification No.83 /94-E - 50 lakhs, (iv) Clearances of excisable goods without payment of duty to a 100% E.O.U. ₹ 20 lakhs, (v) Goods manufactured in rural area with others brand - ₹ 100 lakhs. Find out whether the unit is eligible to avail concession for the year 2013-14, under Notification No. 8/2003-CE dated 1st March, 2003, giving reasons for your answer.

Answer:

Turnover not to be considered for ₹400 lakhs - (i) ₹140 lakhs, (ii) ₹50 lakhs, (iii) ₹50 lakhs, (iv) ₹ 20 lakhs. Excluding this turnover, his turnover during 2012-13 was ₹ 490 lakhs. Since it is more than ₹400 lakhs, he is not eligible for SSI exemption in 2013-14.

Example 54: The clearances of Dreams Ltd. were ₹ 400 lakh during the financial year 2013-14. The following are included in the said clearances: (i) Exports to Nepal and Bhutan - ₹ 120,00,000, (ii) Exports to countries other than Nepal and Bhutan - ₹ 1,00,00,000 (iii) Job work exempted from duty under Notification No. 214/86 - ₹ 90,00,000, (iv) Sales to 100% EOU against Form CT-3 - ₹ 50,00,000. The company is of the view that it is not liable to pay any duty on its clearances in the financial year 2013-14 as per Notification No. 8/2003 dated 1st March, 2003. Do you agree with the company? Give reasons for your answer.

Answer:

SSI exemption is available upto first clearances of ₹ 150 lakhs. While calculating limit of ₹ 150 lakhs, exports to countries other than Nepal and Bhutan, job work under notification No. 214/86-CE and supplies to EOU (deemed exports) are not required to be considered. However, supplies to Nepal and Bhutan are required to be considered. If these are excluded, the turnover of the assessee for purpose of calculation of limit of ₹ 150 lakhs is ₹ 160 lakhs [(= ₹400 – ₹100 – ₹ 90 – ₹50) lakhs]. Thus, the assessee can avail exemption of ₹ 150 lakhs and will have to pay duty on ₹ 10 lakhs.

Example 55: A Small Scale Unit (SSI) has effected clearances of goods of the value of ₹ 460 lakhs during the financial year 2012-13. The said clearances include the following: (i) Clearance of excisable goods without payment of Excise duty to a 100% EOU unit - ₹ 40 lakhs. (ii) Export to Nepal and Bhutan - ₹ 50 lakhs, (iii) Job-work in terms of Notification No. 214/86 C.E., which is exempt from duty - ₹ 60 lakhs. (iv) Goods manufactured in rural area with the brand name of others - ₹ 70 lakhs. Write a brief note with reference to the Notifications governing SSI under the Central Excise Act whether the benefit of exemption would be available to the unit for the financial year 2013-14.

Answer:

Turnover in respect of sale to EOU (₹ 40 lakhs) and job work under notification No. 214/86-CE (₹ 60 lakhs) is required to be excluded for purpose of SSI exemption limit of ₹ 400 lakhs. Turnover of SSI excluding these sales is ₹ 360 lakhs (₹460-₹40-₹60 lakhs). Hence, the SSI unit will be entitled to exemption in 2013-14 upto first turnover of ₹ 150 lakhs.

Example 56: A SSI unit has effected clearances of goods of the value of ₹ 475 lacs during the Financial Year 2012-13. The said clearances include the following: (i) Clearance of excisable goods without payment of excise duty to a 100% EOU unit ₹ 120 lacs, (ii) Job work in terms of notification no. 214/86 CE, which is exempt from duty - ₹ 75 lacs, (iii) Export to Nepal and Bhutan - ₹ 50 lacs, (iv) Goods manufactured in rural area with the brand name of the others ₹ 90 lacs. Examine with reference to the notification governing SSI, under the Central Excise Act whether the benefit of exemption would be available to the unit for the Financial Year, 2013-14.

Answer:

While calculating the turnover of ₹ 400 lakhs, following are not required to be considered -

- (a) Deemed exports i.e. supplies to 100% EOU (₹ 120 lakhs);
- (b) Job work that amounts to 'manufacture' done under notifications No. 214/86-CE, 83/94-CE and 84/94-CE (₹ 75 lakhs).

Turnover in respect of sale to EOU (₹ 120 lakhs) and job work under notification No. 214/86-CE (₹ 75 lakhs) is required to be excluded for purpose of SSI exemption limit of ₹ 400 lakhs. Turnover of SSI excluding these sales is ₹ 280 lakhs (₹ 475 - ₹ 120 - ₹ 75 lakhs). Hence, the SSI unit will be entitled to exemption in 2013-14 upto first turnovers of ₹ 150 lakhs.

2.23.3 Goods not Eligible for SSI Concession

Many of goods manufactured by SSI are eligible for the concession. However, some items are not eligible (some of the items not eligible for SSI exemption are eligible for exemption under different notifications. Some are not exempt at all). Thus, SSI exemption is available only if the item is covered in this notification.

Broadly, items generally manufactured by SSI (except in tobacco, matches and textile sector) are eligible for SSI exemption. Some items like pan masala, matches, watches, tobacco products, Power driven pumps for water not conforming to BIS, products covered under compounded levy scheme etc. are specifically excluded, even when these can be manufactured by SSI. Some items like automobiles, primary iron and steel etc. are not eligible for SSI exemption, but anyway, these are beyond capacity of SSI unit to manufacture.

Goods with other's brand name not eligible, but packing material with other's brand name eligible-

Goods manufactured by an SSI unit with brand name of others are not eligible for SSI concession, unless goods are manufactured in a rural area. However, SSI exemption will be available to all packing materials meant for use as packing material by or on behalf of the person whose brand name they bear.

2.23.4 Other Provisions in respect of Concession to SSI

Other provisions for concession to SSI are as follows.

'Value' for calculating SSI exemption limit

Value for purpose of calculating the SSI exemption limit of ₹ 150 and ₹ 400 lakhs is the 'Assessable Value' as per section 4, i.e. transaction value.

However, when goods are assessed on basis of MRP (Maximum Retail Price), the 'value' will be as determined under section 4A.

SSI exemption available in respect of goods exported to Nepal & Bhutan

The SSI exemption is available for home consumption, i.e. for consumption within India. However, explanations to SSI exemption notifications make it clear that clearances for home consumption shall also include clearances for export to Bhutan & Nepal. Thus, exports to Nepal & Bhutan will qualify for SSI exemption, whether the Indian exporter receives payment in Indian Rupees or foreign exchange.

Question 57: Small and company a small scale industry provides the following details. Determine the eligibility for exemption based on value of clearances for the Financial year 2013-14 in terms of Notfn. No. 8/2003-CE dated 1.3.2003 as: (I) Total value of clearances during the financial Year 2012-13 (including VAT ₹ 50 lakhs) ₹ 870 lakhs, (II) Total exports (including for Nepal and Bhutan ₹ 200 lakhs) ₹ 500 lakhs, (III) Clearances of excisable goods without payment of duty to a Unit in software technology park ₹ 20 lakhs, (IV) Job work under Notfn.No.84/94-CE dated 11.4.1994 ₹ 50 lakhs. Job work under Notfn. No.21 4/86-CE dated 25.3.1986 ₹ 50 lakhs (v) Clearances of excisable goods bearing brand name of Khadi and Village Industries board ₹ 200 lakhs. Make suitable assumptions and provide brief reasons for your answers where necessary.

**Answer:**

₹ in Lakhs

Total turnover	870.00
Less: Value of clearances including VAT	50.00
Total Exports excluding Nepal & Bhutan (500-200)	300.00
Clearance for STP jobs	20.00
Clearance for job work	100.00
Turnover (for calculating limit of crores)	400.00

Goods bearing brand name of Khadi and Village Board are eligible for SSI exemption. Hence, its turnover cannot be excluded for calculating limit of ₹ 4 crores.

Thus, his turnover for purpose of SSI exemption limit is 400 lakhs. The requirement is that turnover should not exceed ₹ 400 lakhs.

Since it is not exceeding ₹ 400 lakhs, the company will be entitled to avail exemption upto first ₹ 150 lakhs in financial year 2013-14.

Question 58: M/s Punctual Ltd., (manufacturing watches) has cleared goods of the value of ₹ 120 lakhs during the financial year 2013-14 exclusive of duties and taxes. The goods attract 12% *ad valorem* Excise Duty plus Education cess as applicable. Determine the Excise Duty liability when the assessee opts for CENVAT facility and also in the case when the assessee decides not to avail CENVAT benefit. The turnover of the assessee in the previous year 2012-13 was ₹ 100 lakhs.

Answer:

Watches are not eligible for SSI exemption. Hence, the assessee has to pay excise duty on entire turnover of ₹ 120 lakhs @ 12% plus education cess. Thus, total duty payable is ₹ 14.832 lakh.

Question 59: Mahesh Ltd., which is engaged in manufacturing of excisable goods, started its business on 1st June, 2013. It availed SSI exemption during the financial year 2012-13. The following are the details available to you:

- 12,500 Kg of inputs purchased @ ₹ 1,190.64 per Kg (Inclusive of Central excise duty @8.24%) ₹ 1,48,83,000;
- Capital goods purchased on 31.5.2012 (Inclusive of Excise duty @14.42%) ₹ 80,09,400;
- Finished goods sold (at uniform transaction value throughout the year) ₹ 3,00,00,000.

You are required to calculate the amount of excise duty payable by M/s Mahesh Ltd. in cash, if any, during the year 2013-14. Rate of duty on finished goods sold may be taken @12.36% for the year and you may assume the selling price exclusive of central excise duty.

There is neither any processing loss nor any inventory of input and output.

Answer:

Statement showing Excise duty liability of M/s Mahesh Ltd for the financial year 2012-13

Particulars	Value (₹)	Cenvat credit (₹)
Cost of Purchases [i.e. ₹ 1,48,83,000 X 100/108.24]	1,37,50,000	11,33,000
Cost of Capital goods [i.e. ₹ 80,09,400 X 100/114.42]	70,00,000	10,09,400
CENVAT credit on capital goods ₹ 10,09,400 (i.e. ₹ 80,09,400 - ₹ 70,00,000)		
Total CENVAT credit		21,42,400

Value of Finished goods	3,00,00,000	
Less: Exemption limit	1,50,00,000	
Value of Finished goods attract excise duty	1,50,00,000	
Excise duty @12.36% on ₹ 1,50,00,000	18,54,000	
Less: CENVAT credit (Note 1)		
— on input goods (note 1)	(5,66,500)	
— on capital goods	(10,09,400)	
Net Excess Excise Duty c/f	(2,78,100)	

Working Note:

- (i) Output value = ₹ 3,00,00,000
Input value = ₹ 1,50,00,000

Eligible Cenvat credit on input goods used for manufacture of finished goods beyond ₹ 150 lakhs is ₹ 5,66,500 (i.e. $11,33,000 \times ₹ 150 : ₹ 300$).

- (ii) For SSI unit, Excise duty is nil, upto ₹ 1,50,00,000 of Finished Goods.

(iii) Rule 2(a) of the CENVAT Credit Rules, 2004

CENVAT credit on Capital Goods allowed up to 100% in the year of receipt of such goods for SSI units (w.e.f. 01.04.2010).

Question 60: An SSI unit (manufacturing goods eligible for benefits of SSI exemption notification) has cleared goods of the value of ₹ 60 lakhs during the financial year 2013-14. The effective rate of Central Excise Duty on the goods manufactured by it is 12% Ad valorem. Education cesses are payable at applicable rates. What is the correct amount of duty which the unit should have paid on the above clearances for 2013-14?

Answer: (a) If unit intends to avail Cenvat credit on inputs, duty payable is normal duty i.e. 12% of ₹ 60 lakhs, i.e. ₹ 7,20,000, plus education cess of ₹ 14,400 (2% of ₹ 7.20 lakhs), plus SAH education cess of ₹ 7,200 (1% of ₹ 7.20 lakhs). (b) If unit does not intend to avail Cenvat credit on inputs, duty payable is Nil.

Question 61: The value of excisable goods viz. Iron and Steel articles manufactured by M/s. Alpha Ltd. was ₹ 120 lakhs during the financial year 2013-14, net of taxes and duties. The goods attract 12% *ad-valorem* basic duty plus education cess of 2% plus SAH education cess as applicable. Determine the excise duty liability when the assessee opts for 'CENVAT' and opts for not to avail 'CENVAT' under SSI exemption notification respectively.

Answer:

M/s Alpha Ltd has no option to opt for SSI exemption benefit since Iron and Steel are ineligible industries for availing the said benefit.

Hence, the duty liability can be calculated is as follows:

Basic excise duty	=	₹ 120 Lakhs x 12%	=	₹ 14.40 Lakhs
Education cess	=	₹ 14.40 Lakhs x 2%	=	₹ 0.288 Lakhs
SAH education cess	=	₹ 14.40 Lakhs x 1%	=	₹ 0.144 Lakhs

Therefore the total excise duty payable is ₹ 14.832 Lakhs

Question 62: A small scale manufacturer had achieved sales of ₹86 lakhs in 2012-13. Turnover achieved during 2013-14 was ₹1.52 crores. Normal duty payable on the product is 12% plus education cesses as applicable. Find the total excise duty paid by the manufacturer during 2013-14 (a) If the unit has availed Cenvat credit, (b) If the unit has not availed Cenvat credit. [The turnover is without taxes and duties].

Answer:

- (a) If the unit has availed Cenvat credit, it has to pay full duty on entire turnover. Hence, duty payable is 12% of ₹1.52 crores i.e. ₹18.24 lakhs, plus education Cess @ 2% of ₹18.24 lakhs i.e. ₹36,480, plus SAH education Cess @ 1% of ₹18.24 lakhs i.e. ₹18,240. Total - ₹18,78,720.
- (b) If the SSI unit has not availed Cenvat, the duty payable is as follows: (i) On first ₹150 lakhs : Nil (ii) On subsequent sales - Normal duty of 12% plus Education cess as applicable. Thus, duty on remaining ₹2 lakhs will be ₹24,000. Thus, excise duty paid is ₹24,000, plus education Cess of ₹480 plus SAH Education Cess of ₹240.
∴ Total - ₹24,720.

Question 63: Z Ltd. is a small-scale industrial unit manufacturing a product X. The Annual report for the year 2013-14 of the unit shows a gross sale turnover of ₹1,91,40,000, which includes excise duty and sales tax. The product attracted an excise duty rate of 12% as BED, education cess @ 2% of excise duty and Sales Tax 10%. Determine the duty liability under Notification No. 8/2003-CE, if SSI unit had availed SSI exemption and then paid duty. On the other hand, if SSI had availed Cenvat Credit on all its inputs, what would be the excise duty liability? (Ignore SAH education Cess).

Answer: Duty liability of Z Ltd. in each case is as follows -

- (a) In respect of first net turnover of ₹150 lakhs (₹1,50,00,000), excise duty is Nil and education cess is also Nil. Sales tax @ 10% is payable on net turnover on ₹1,50,00,000. Hence, sales tax @ 10% is ₹15,00,000. Thus, gross sale turnover in respect of first net turnover of ₹150 lakhs (where excise duty is not paid) is ₹1,65,00,000.
- Therefore, balance gross sale turnover is ₹26,40,000 (₹1,91,40,000 - ₹1,65,00,000). This includes excise duty at 12%, Education Cess @ 2% of duty, SAH Education Cess @ 1% and sales tax @ 10%.
- Excise Duty = $[(₹26,40,000 \times 100/110) \times 12.36/112.36] = ₹2,64,008$
- Sales Tax = $₹26,40,000 \times 10/110 = ₹2,40,000$
- (b) If SSI unit intends to avail Cenvat credit on all its inputs, it has to pay full 12.36% duty on its entire turnover is as follows:
- Excise duty = $[(₹1,91,40,000 \times 100/110) \times 12.36/112.36] = ₹19,14,062$
- Sales tax = $₹1,91,40,000 \times 10/110 = ₹17,40,000$.

Example 64: A small scale manufacturer produces a product 'P'. Some of the production bears his own brand name, while some productions bears brand name of his customer. The customer purchases the goods from the small scale unit and sales himself by adding 20% margin over his purchase cost ₹3,53,00,000. He achieved clearances SSI unit in 2012-13 was ₹445 lakhs. In 2013-14 as per following break up [These clearances are without considering excise duty and sales tax] are :

- (i) Clearances with his own brand name - ₹80 lakhs, (ii) Clearances of product bearing his customer's brand name - ₹365 lakhs. Normal excise duty of his product is 12% plus education cesses as applicable. The SSI unit intends to avail Cenvat benefit on inputs on goods supplied to the brand name owner but intends to avail SSI exemption on his own clearances.
- (A) Find the total duty paid by the manufacturer in 2013-14, if (i) Inputs are common but SSI unit is able to maintain separate records of inputs in respect of final products under his brand name and those with other's brand name (ii) The inputs are common and SSI unit is not able to maintain separate records on inputs used in final products manufactured under his brand name and with other's brand name.

- (B) What will be the rate of excise duty payable by him in April 2013 (i) on product bearing his own brand name and (ii) on product bearing his customer's brand name.
- (C) Will there be any difference in duty payable in April 2013 if all his clearances of ₹ 445 lakhs in 2012-13 were of product under his own brand name?

Answer :

- (A) SSI unit can avail Cenvat on final products cleared under other's brand name and avail SSI exemption in respect of his own production.
- (i) In the first case, he has to pay duty @ 12% on ₹ 365 lakhs, i.e. ₹ 43.80 lakhs plus education cess of ₹ 87,600 plus SAH Education Cess of ₹ 43,800. He cannot avail Cenvat credit in respect of inputs used to manufacture product under his own brand name.
- (ii) In the second case, since he is unable to maintain separate record of inputs, he will have to pay 6% on ₹ 80 lakhs as per rule 6(3) (i) of Cenvat Credit Rules. Thus, he has to pay duty of ₹ 43.80 lakhs, plus education cess of ₹ 87,600 plus SAH education cess of ₹ 43,800, plus an 'amount' of ₹ 4.80 lakhs. He can avail Cenvat on all the inputs. — Note that in respect of goods bearing customer's brand name, duty is payable on his selling price to the customer even if customer sells them subsequently at higher price.
- The assessee has to carefully do his costing and decide (i) whether to avail Cenvat on all inputs, pay full duty on all final products and 6% on final products cleared under his own brand name or (ii) Not avail Cenvat at all and avail exemption from duty on his own production with his brand name.
- (B) The turnover of SSI during 2012-13 was not exceeds ₹ 4 crores. However, for purposes of calculating the upper limit of ₹ 4 crores, clearances with other's brand name are not to be considered. Hence, from 1st April 2013, he can clear goods bearing his own brand name upto ₹ 150 lakhs without payment of duty, if he does not avail Cenvat credit on inputs used in such products. If he is unable to maintain separate records, he will have to pay 6% 'amount' on goods manufactured under his own brand name.
- (C) If total turnover of ₹ 4.45 crores in 2012-13 was under his own brand name, the manufacturer is not eligible for any Small industry concession in April 2013, and he will have to pay duty at normal rates on his total clearances in April 2013.

Example 65: The value of clearances from four units of M/s X Ltd. during 2012-13 are as follows:—

Units situated at Value of clearances (₹ in lakh)

Guwahati	120
Patna	100
Delhi	130
Chennai	170

M/s X Ltd. seeks your advice as a consultant whether benefit under Notification No. 8/2003 shall be available to M/s X Ltd. during 2013-14. You are required to indicate your advice in this context.

Answer:

In the given case M/s X Ltd. total turnover for the year 2012-13 is ₹ 520 Lakh (i.e. ₹ 120 + ₹ 100 + ₹ 130 + ₹ 170). Hence, the benefit of exemption Notification No. 8/2003 shall not be available to M/s X Ltd. in the current year 2013-14.

Example 66: Determine the amount CENVAT Credit available to M/s Y Ltd. in respect of following items procured by them in the month of October 2013:

- (I) If the aggregate value of clearances of M/s Y Ltd. for the financial year 2012-13 is ₹ 450 lakhs;

- (ii) If the aggregate value of clearances of M/s Y Ltd. for the financial year 2012-13 is ₹ 350 lakhs and in the current year opted to claim the benefit of the SSI exemption from payment of duty.

Items	Excise duty paid (inclusive of Education cess and SAH Ed. Cess) (₹)
Raw materials	52,000
Capital goods used for generation of electricity for captive use within the factory	1,00,000
Motor spirit	40,000
Inputs used for construction of a building	1,00,000
Dairy and bakery products consumed by the employees	5,000
Motor vehicle (not capital goods)	4,50,000

Note: Aggregate clearance of dutiable goods for the month of October 2012 is ₹ 180 lakhs.

Answer:

Statement showing CENVAT Credit allowed or not allowed:

Items	Excise duty paid (inclusive of Education cess and SAH Ed. Cess) (₹)	Remarks
Raw materials	52,000	100% CENVAT Credit allowed
Capital goods used for generation of electricity for captive use within the factory	1,00,000	For SSI Units 100% CENVAT Credit allowed. For other than SSI Units upto 50% in the 1st year of receipt of capital goods and balance in subsequent year's
Motor spirit	Nil	CENVAT Credit not allowed
Inputs used for construction of a building	Nil	CENVAT Credit not allowed
Dairy and bakery products consumed by the employees	Nil	CENVAT Credit not allowed
Motor vehicle	Nil	CENVAT Credit not allowed

Statement showing CENVAT Credit allowed amount:

Descriptoin	CENVAT Credit eligible for the month of October, 2012 (₹)	
(i) The aggregate value of clearances of M/s Y Ltd. for the financial year 2012-13 is ₹ 450 lakhs.	1,02,000 (i.e. 52,000 + [1,00,000 x 50%])	
(ii) The aggregate value of clearances of M/s Y Ltd. for the financial year 2012-13 is ₹ 350 lakhs.	CENVAT Credit on input goods (i.e. ₹52,000 x 30 lakhs/1 80 lakhs)	8,667
	CENVAT Cenvat on Capital goods	1,00,000
	Therefore, total CENVAT Cenvat	1,08,667

Example 67: XYZ & Co., a SSI unit manufactures different products and the value of the clearances for the financial year 2012-13 is given below:

	(₹ lakhs)		
Products	A1	A2	A3
(i) Clearance for home consumption	55	40	60
(ii) Captive consumption in the manufacture of excisable goods	100	80	60
(iii) Export to U.S.A.	90	80	Nil
(iv) Export to Nepal	50	40	39
(v) Job work done under Notification 214/86-C.E.	55	30	60
(vi) Goods manufactured in rural area with brand name of others	45	35	35

the unit seeks your advice as to whether they are eligible for SSI unit exemption for the year 2013-14. Explain the basis for your conclusions.

Answer:

Statement showing aggregate clearance in the financial year 2012-13 (₹ in lakhs)

S. No.	Particulars	Product A1	Product A2	Product A3	Total	Remarks
(i)	Clearance for home consumption	55	40	60	155	
(ii)	Captive consumption in the manufacture of excisable goods	-	-	-	-	This turnover not addable, since it is forming part of finished goods
(iii)	Export to U.S.A.	-	-	-	-	Export turnover excluded
(iv)	Export to Nepal	50	40	39	129	Not considered as export turnover.
(v)	Job work done under Notification 214/86- C.E.	-	-	-	-	Not addable, because it is exempted from duty in the hands of jobworker
(vi)	Goods manufactured in rural area with brand name of others	45	35	35	115	
	Total	150	115	134	399	

Note: Option to claim SSI exemption benefit is applicable only when the previous year turnover is < ₹ 400 lakhs.

For current year 2013-14 XYZ & Co. is eligible to avail the SSI exemption since, during the previous year the aggregate clearance is ₹ 399 lakhs.

2.24 EXEMPTION (SECTION 5A)

Power to grant exemption from duty of excise

- (1) If the Central Government is satisfied that it is necessary in the public interest so to do, it may, by notification in the Official Gazette exempt generally either absolutely or subject to such conditions (to be fulfilled before or after removal) as may be specified in the notification, excisable goods of any specified description from the whole or any part of the duty of excise leviable thereon:

Provided that, unless specifically provided in such notification, no exemption therein shall apply to excisable goods which are produced or manufactured —

- (i) in a free trade zone or a special economic zone and brought to any other place in India; or
- (ii) by a hundred per cent export-oriented undertaking and brought to any place in India.

Explanation. — In this proviso, “free trade zone”, “special economic zone” and “hundred per cent export-oriented undertaking” shall have the same meanings as in Explanation 2 to sub-section (1) of section 3.

- (1A) For the removal of doubts, it is hereby declared that where an exemption under sub-section (1) in respect of any excisable goods from the whole of the duty of excise leviable thereon has been granted absolutely, the manufacturer of such excisable goods shall not pay the duty of excise on such goods.
- (2) If the Central Government is satisfied that it is necessary in the public interest so to do, it may, by special order in each case, exempt from payment of duty of excise, under circumstances of an exceptional nature to be stated in such order, any excisable goods on which duty of excise is leviable.
- (2A) The Central Government may, if it considers it necessary or expedient so to do for the purpose of clarifying the scope or applicability of any notification issued under sub-section (1) or order issued under sub-section (2), insert an explanation in such notification or order, as the case may be, by notification in the Official Gazette at any time within one year of issue of the notification under sub-section (1) or order under sub-section (2), and every such explanation shall have effect as if it had always been the part of the first such notification or order, as the case may be.
- (3) An exemption under sub-section (1) or sub-section (2) in respect of any excisable goods from any part of the duty of excise leviable thereon (the duty of excise leviable thereon being hereinafter referred to as the statutory duty) may be granted by providing for the levy of a duty on such goods at a rate expressed in a form or method different from the form or method in which the statutory duty is leviable and any exemption granted in relation to any excisable goods in the manner provided in this sub-section shall have effect subject to the condition that the duty of excise chargeable on such goods shall in no case exceed the statutory duty.

Explanation. — “Form or method”, in relation to a rate of duty of excise means the basis, namely, valuation, weight, number, length, area, volume or other measure with reference to which the duty is leviable.

- (4) Every notification issued under sub-rule (1), and every order made under sub-rule (2), of rule 8 of the Central Excise Rules, 1944, and in force immediately before the commencement of the Customs and Central Excises Laws (Amendment) Act, 1988 (29 of 1988) shall be deemed to have been issued or made under the provisions of this section and shall continue to have the same force and effect after such commencement until it is amended, varied, rescinded or superseded under the provisions of this section.
- (5) Every notification issued under sub-section (1) or sub-section 2(A) shall, —
 - (a) unless otherwise provided, come into force on the date of its issue by the Central Government for publication in the Official Gazette;
 - (b) also be published and offered for sale on the date of its issue by the Directorate of Publicity and Public Relations, Customs and Central Excise, New Delhi, under the Central Board of Excise and Customs constituted under the Central Boards of Revenue Act, 1963 (54 of 1963).
- (6) Notwithstanding anything contained in sub-section (5), where a notification comes into force on a date later than the date of its issue, the same shall be published and offered for sale by the said Directorate of Publicity and Public Relations on a date on or before the date on which the said notification comes into force.

2.25 DEMANDS AND PENALTIES

2.25.1 Recovery of duties not levied or not paid or short-levied or short-paid or erroneously refunded [Section 11A]

- (1) Where any duty of excise has not been levied or paid or has been short-levied or short-paid or erroneously refunded, for any reason, other than the reason of fraud or collusion or any wilful misstatement or suppression of facts or contravention of any of the provisions of this Act or of the rules made thereunder with intent to evade payment of duty,—
 - (a) the Central Excise Officer shall, within one year from the relevant date, serve notice on the person chargeable with the duty which has not been so levied or paid or which has been so short-levied or short-paid or to whom the refund has erroneously been made, requiring him to show cause why he should not pay the amount specified in the notice;
 - (b) the person chargeable with duty may, before service of notice under clause (a), pay on the basis of,—
 - (i) his own ascertainment of such duty; or
 - (ii) duty ascertained by the Central Excise Officer, the amount of duty along with interest payable thereon under section 11AA.
- (2) The person who has paid the duty under clause (b) of sub-section (1), shall inform the Central Excise Officer of such payment in writing, who, on receipt of such information, shall not serve any notice under clause (a) of that sub-section in respect of the duty so paid or any penalty leviable under the provisions of this Act or the rules made thereunder.
- (3) Where the Central Excise Officer is of the opinion that the amount paid under clause (b) of sub-section (1) falls short of the amount actually payable, then, he shall proceed to issue the notice as provided for in clause (a) of that sub-section in respect of such amount which falls short of the amount actually payable in the manner specified under that sub-section and the period of one year shall be computed from the date of receipt of information under sub-section (2).
- (4) Where any duty of excise has not been levied or paid or has been short levied or short-paid or erroneously refunded, by the reason of—
 - (a) fraud; or
 - (b) collusion; or
 - (c) any wilful mis-statement; or
 - (d) suppression of facts; or
 - (e) contravention of any of the provisions of this Act or of the rules made thereunder with intent to evade payment of duty,

by any person chargeable with the duty, the Central Excise Officer shall, within five years from the relevant date, serve notice on such person requiring him to show cause why he should not pay the amount specified in the notice along with interest payable thereon under section 11AA and a penalty equivalent to the duty specified in the notice.

- (5) Where, during the course of any audit, investigation or verification, it is found that any duty has not been levied or paid or short-levied or short-paid or erroneously refunded for the reason mentioned in clause (a) or clause (b) or clause (c) or clause (d) or clause (e) of sub-section (4) but the details relating to the transactions are available in the specified record, then in such cases, the Central Excise Officer shall within a period of five years from the relevant date, serve a notice on the person chargeable with the duty requiring him to show cause why he should

not pay the amount specified in the notice along with interest under section 11AA and penalty equivalent to fifty per cent of such duty.

- (6) Any person chargeable with duty under sub-section (5), may, before service of show cause notice on him, pay the duty in full or in part, as may be accepted by him along with the interest payable thereon under section 11AA and penalty equal to one per cent of such duty per month to be calculated from the month following the month in which such duty was payable, but not exceeding a maximum of twenty-five per cent of the duty, and inform the Central Excise Officer of such payment in writing.
- (7) The Central Excise Officer, on receipt of information under sub-section (6) shall—
- (i) not serve any notice in respect of the amount so paid and all proceedings in respect of the said duty shall be deemed to be concluded where it is found by the Central Excise Officer that the amount of duty, interest and penalty as provided under sub-section (6) has been fully paid;
 - (ii) proceed for recovery of such amount if found to be short-paid in the manner specified under sub-section (1) and the period of one year shall be computed from the date of receipt of such information.
- (7A) Service of a statement containing details of duty not paid, short levied or erroneously refunded shall be deemed to be a Service of notice under Sub-section (1) or (3) or (4) or (5) of this section.
- (8) In computing the period of one year referred to in clause (a) of subsection (1) or five years referred to in sub-section (4) or sub-section (5), the period during which there was any stay by an order of the court or Tribunal in respect of payment of such duty shall be excluded.
- (9) Where any appellate authority or Tribunal or court concludes that the notice issued under sub-section (4) is not sustainable for the reason that the charges of fraud or collusion or any wilful mis-statement or suppression of facts or contravention of any of the provisions of this Act or of the rules made thereunder with intent to evade payment of duty has not been established against the person to whom the notice was issued, the Central Excise Officer shall determine the duty of excise payable by such person for the period of one year, deeming as if the notice were issued under clause (a) of sub-section (1).
- (10) The Central Excise Officer shall, after allowing the concerned person an opportunity of being heard, and after considering the representation, if any, made by such person, determine the amount of duty of excise due from such person not being in excess of the amount specified in the notice.
- (11) The Central Excise Officer shall determine the amount of duty of excise under sub-section (10)—
- (a) within six months from the date of notice in respect of cases falling under subsection (1);
 - (b) within one year from the date of notice in respect of cases falling under subsection (4) or sub-section (5).
- (12) Where the appellate authority modifies the amount of duty of excise determined by the Central Excise Officer under sub-section (10), then the amount of penalties and interest under this section shall stand modified accordingly, taking into account the amount of duty of excise so modified.
- (13) Where the amount as modified by the appellate authority is more than the amount determined under sub-section (10) by the Central Excise Officer, the time within which the interest or penalty is payable under this Act shall be counted from the date of the order of the appellate authority in respect of such increased amount.
- (14) Where an order determining the duty of excise is passed by the Central Excise Officer under this section, the person liable to pay the said duty of excise shall pay the amount so determined along with the interest due on such amount whether or not the amount of interest is specified separately.

Explanation.—For the purposes of this section and section 11AC,—

- (a) “refund” includes rebate of duty of excise on excisable goods exported out of India or on excisable materials used in the manufacture of goods which are exported out of India;
- (b) “relevant date” means,—
 - (i) in the case of excisable goods on which duty of excise has not been levied or paid or has been short-levied or short-paid, and no periodical return as required by the provisions of this Act has been filed, the last date on which such return is required to be filed under this Act and the rules made thereunder;
 - (ii) in the case of excisable goods on which duty of excise has not been levied or paid or has been short-levied or short-paid and the return has been filed on due date, the date on which such return has been filed;
 - (iii) in any other case, the date on which duty of excise is required to be paid under this Act or the rules made thereunder;
 - (iv) in a case where duty of excise is provisionally assessed under this Act or the rules made thereunder, the date of adjustment of duty after the final assessment thereof;
 - (v) in the case of excisable goods on which duty of excise has been erroneously refunded, the date of such refund;
- (c) “specified records” means records including computerised records maintained by the person chargeable with the duty in accordance with any law for the time being in force.’

2.25.2 Interest on delayed payment of duty [Section 11AA]

- (1) Notwithstanding anything contained in any judgment, decree, order or direction of the Appellate Tribunal or any court or in any other provision of this Act or the rules made thereunder, the person, who is liable to pay duty, shall, in addition to the duty, be liable to pay interest at the rate specified in sub-section (2), whether such payment is made voluntarily or after determination of the amount of duty under section 11A.
- (2) Interest, at such rate not below ten per cent and not exceeding thirty-six per cent per annum, as the Central Government may, by notification in the Official Gazette, fix, shall be paid in terms of section 11A after the due date by the person liable to pay duty and such interest shall be calculated from the date on which such duty becomes due up to the date of actual payment of the amount due.
- (3) Notwithstanding anything contained in sub-section (1), no interest shall be payable where,—
 - (a) the duty becomes payable consequent to the issue of an order, instruction or direction by the Board under section 37B; and
 - (b) such amount of duty is voluntarily paid in full, within forty-five days from the date of issue of such order, instruction or direction, without reserving any right to appeal against the said payment at any subsequent stage of such payment.

2.25.3 Penalty for short-levy or non-levy of duty in certain cases [Section 11AC]

- (1) The amount of penalty for non-levy or short-levy or non-payment or short payment or erroneous refund shall be as follows :—
 - (a) where any duty of excise has not been levied or paid or short-levied or short paid or erroneously refunded, by reason of fraud or collusion or any wilful mis-statement or suppression of facts, or contravention of any of the provisions of this Act or of the rules made there under with intent to evade payment of duty, the person who is liable to pay duty as determined under

sub-section (10) of section 11A shall also be liable to pay a penalty equal to the duty so determined;

- (b) where details of any transaction available in the specified records, reveal that any duty of excise has not been levied or paid or short-levied or short-paid or erroneously refunded as referred to in sub-section (5) of section 11A, the person who is liable to pay duty as determined under sub-section (10) of section 11A shall also be liable to pay a penalty equal to fifty per cent of the duty so determined;
- (c) where any duty as determined under sub-section (10) of section 11A and the interest payable thereon under section 11AA in respect of transactions referred to in clause (b) is paid within thirty days of the date of communication of order of the Central Excise Officer who has determined such duty, the amount of penalty liable to be paid by such person shall be twenty-five per cent of the duty so determined;
- (d) where the appellate authority modifies the amount of duty of excise determined by the Central Excise Officer under sub-section (10) of section 11A, then, the amount of penalties and interest payable shall stand modified accordingly and after taking into account the amount of duty of excise so modified, the person who is liable to pay duty as determined under subsection (10) of section 11A shall also be liable to pay such amount of penalty or interest so modified.

Explanation.—For the removal of doubts, it is hereby declared that in a case where a notice has been served under sub-section (4) of section 11A and subsequent to issue of such notice, the Central Excise Officer is of the opinion that the transactions in respect of which notice was issued have been recorded in specified records and the case falls under sub-section (5), penalty equal to fifty per cent of the duty shall be leviable.

- (2) Where the amount as modified by the appellate authority is more than the amount determined under sub-section (10) of section 11A by the Central Excise Officer, the time within which the interest or penalty is payable under this Act shall be counted from the date of the order of the appellate authority in respect of such increased amount".

2.25.4 Claim for refund of duty and interest, if any, paid on such duty [Section 11B]

- (1) Any person claiming refund of any duty of excise and interest, if any, paid on such duty may make an application for refund of such duty and interest, if any, paid on such duty to the Assistant Commissioner of Central Excise or Deputy Commissioner of Central Excise before the expiry of one year from the relevant date in such form and manner as may be prescribed and the application shall be accompanied by such documentary or other evidence (including the documents referred to in section 12A) as the applicant may furnish to establish that the amount of duty of excise and interest, if any, paid on such duty in relation to which such refund is claimed was collected from, or paid by, him and the incidence of such duty and interest, if any, paid on such duty had not been passed on by him to any other person.

Provided that where an application for refund has been made before the commencement of the Central Excises and Customs Laws (Amendment) Act, 1991, such application shall be deemed to have been made under this sub-section as amended by the said Act and the same shall be dealt with in accordance with the provisions of sub-section (2) substituted by that Act.

Provided further that] the limitation of one year shall not apply where any duty and interest, if any, paid on such duty has been paid under protest.

- (2) If, on receipt of any such application, the Assistant Commissioner of Central Excise or Deputy Commissioner of Central Excise is satisfied that the whole or any part of the duty of excise and interest, if any, paid on such duty paid by the applicant is refundable, he may make an order accordingly and the amount so determined shall be credited to the Fund.

Provided that the amount of duty of excise and interest, if any, paid on such duty as determined by the Assistant Commissioner of Central Excise or Deputy Commissioner of Central Excise under the foregoing provisions of this sub-section shall, instead of being credited to the Fund, be paid to the applicant, if such amount is relatable to –

- (a) rebate of duty of excise on excisable goods exported out of India or on excisable materials used in the manufacture of goods which are exported out of India;
- (b) unspent advance deposits lying in balance in the applicant's account current maintained with the Commissioner of Central Excise;
- (c) refund of credit of duty paid on excisable goods used as inputs in accordance with the rules made, or any notification issued, under this Act;
- (d) the duty of excise and interest, if any, paid on such duty paid by the manufacturer, if he had not passed on the incidence of such duty and interest, if any, paid on such duty to any other person;
- (e) the duty of excise and interest, if any, paid on such duty borne by the buyer, if he had not passed on the incidence of such duty and interest, if any, paid on such duty to any other person;
- (f) the duty of excise and interest, if any, paid on such duty borne by any other such class of applicants as the Central Government may, by notification in the Official Gazette, specify :

Provided further that no notification under clause (f) of the first proviso shall be issued unless in the opinion of the Central Government the incidence of duty and interest, if any, paid on such duty has not been passed on by the persons concerned to any other person.

- (3) Notwithstanding anything to the contrary contained in any judgment, decree, order or direction of the Appellate Tribunal or any Court or in any other provision of this Act or the rules made thereunder or any other law for the time being in force, no refund shall be made except as provided in sub-section (2).
- (4) Every notification under clause (f) of the first proviso to sub-section (2) shall be laid before each House of Parliament, if it is sitting, as soon as may be after the issue of the notification, and, if it is not sitting, within seven days of its re-assembly, and the Central Government shall seek the approval of Parliament to the notification by a resolution moved within a period of fifteen days beginning with the day on which the notification is so laid before the House of the People and if Parliament makes any modification in the notification or directs that the notification should cease to have effect, the notification shall thereafter have effect only in such modified form or be of no effect, as the case may be, but without prejudice to the validity of anything previously done thereunder.
- (5) For the removal of doubts, it is hereby declared that any notification issued under clause (f) of the first proviso to sub-section (2), including any such notification approved or modified under sub-section (4), may be rescinded by the Central Government at any time by notification in the Official Gazette.

[Explanation. — For the purposes of this section, -

- (A) "refund" includes rebate of duty of excise on excisable goods exported out of India or on excisable materials used in the manufacture of goods which are exported out of India;
- (B) "relevant date" means, -
 - (a) in the case of goods exported out of India where a refund of excise duty paid is available in respect of the goods themselves or, as the case may be, the excisable materials used in the manufacture of such goods, -

- (i) if the goods are exported by sea or air, the date on which the ship or the aircraft in which such goods are loaded, leaves India, or
 - (ii) if the goods are exported by land, the date on which such goods pass the frontier, or
 - (iii) if the goods are exported by post, the date of despatch of goods by the Post Office concerned to a place outside India;
- (b) in the case of goods returned for being remade, refined, reconditioned, or subjected to any other similar process, in any factory, the date of entry into the factory for the purposes aforesaid;
- (c) in the case of goods to which banderols are required to be affixed if removed for home consumption but not so required when exported outside India, if returned to a factory after having been removed from such factory for export out of India, the date of entry into the factory;
- (d) in a case where a manufacturer is required to pay a sum, for a certain period, on the basis of the rate fixed by the Central Government by notification in the Official Gazette in full discharge of his liability for the duty leviable on his production of certain goods, if after the manufacturer has made the payment on the basis of such rate for any period but before the expiry of that period such rate is reduced, the date of such reduction;
- (e) in the case of a person, other than the manufacturer, the date of purchase of the goods by such person;
- (ea) in the case of goods which are exempt from payment of duty by a special order issued under sub-section (2) of section 5A, the date of issue of such order;
- (eb) in case where duty of excise is paid provisionally under this Act or the rules made there under, the date of adjustment of duty after the final assessment thereof;
- (ec) in case where the duty becomes refundable as a consequence of judgment, decree, order or direction of appellate authority, Appellate Tribunal or any court, the date of such judgment, decree, order or direction;
- (f) in any other case, the date of payment of duty.

2.25.5 Interest on delayed refunds [Section 11BB]

If any duty ordered to be refunded under sub-section (2) of section 11B to any applicant is not refunded within three months from the date of receipt of application under sub-section (1) of that section, there shall be paid to that applicant interest at such rate, not below five per cent and not exceeding thirty per cent per annum as is for the time being fixed by the Central Government, by Notification in the Official Gazette, on such duty from the date immediately after the expiry of three months from the date of receipt of such application till the date of refund of such duty.

Provided that where any duty ordered to be refunded under sub-section (2) of section 11B in respect of an application under sub-section (1) of that section made before the date on which the Finance Bill, 1995 receives the assent of the President, is not refunded within three months from such date, there shall be paid to the applicant interest under this section from the date immediately after three months from such date, till the date of refund of such duty.

Explanation: - Where any order of refund is made by the Commissioner (Appeals), Appellate Tribunal, National Tax Tribunal or any court against an order of the Assistant Commissioner of Central Excise or Deputy Commissioner of Central Excise, under sub-section (2) of section 11B, the order passed by the Commissioner (Appeals), Appellate Tribunal, National Tax Tribunal or, as the case may be, by the court shall be deemed to be an order passed under the said sub-section (2) for the purposes of this section.

2.25.6 Power not to recover duty of excise not levied or short-levied as a result of general practice [Section 11C]

(1) Notwithstanding anything contained in this Act, if the Central Government is satisfied -

(a) that a practice was, or is, generally prevalent regarding levy of duty of excise (including non-levy thereof) on any excisable goods; and

(b) that such goods were, or are, liable -

(i) to duty of excise, in cases where according to the said practice the duty was not, or is not being, levied, or

(ii) to a higher amount of duty of excise than what was, or is being, levied, according to the said practice,

then, the Central Government may, by notification in the Official Gazette, direct that the whole of the duty of excise payable on such goods, or as the case may be, the duty of excise in excess of that payable on such goods, but for the said practice, shall not be required to be paid in respect of the goods on which the duty of excise was not, or is not being, levied, or was, or is being, short-levied, in accordance with the said practice.

(2) Where any notification under sub-section (1) in respect of any goods has been issued, the whole of the duty of excise paid on such goods or, as the case may be, the duty of excise paid in excess of that payable on such goods, which would not have been paid if the said notification had been in force, shall be dealt with in accordance with the provisions of sub-section (2) of section 11B.

Provided that the person claiming the refund of such duty or, as the case may be, excess duty, makes an application in this behalf to the Assistant Commissioner of Central Excise or Deputy Commissioner of Central Excise, in the form referred to in sub-section (1) of section 11B, before the expiry of six months from the date of issue of the said notification.

2.25.7 Duties of excise collected from the buyer to be deposited with the Central Government [Section 11D]

(1) Notwithstanding anything to the contrary contained in any order or direction of the Appellate Tribunal or any Court or in any other provision of this Act or the rules made thereunder, every person who is liable to pay duty under this Act or the rules made thereunder, and has collected any amount in excess of the duty assessed or determined and paid on any excisable goods under this Act or the rules made thereunder from the buyer of such goods in any manner as representing duty of excise, shall forthwith pay the amount so collected to the credit of the Central Government.

(1A) Every person, who has collected any amount in excess of duty assessed or determined and paid on any excisable goods or has collected any amount as representing duty of excise on any excisable goods which are wholly exempt or chargeable to nil rate of duty from any person in any manner, shall forthwith pay the amount so collected to the credit of the Central Government.

(2) Where any amount is required to be paid to the credit of the Central Government under sub-section (1) or sub-section (1A), as the case may be, and which has not been so paid, the Central Excise Officer may serve, on the person liable to pay such amount, a notice requiring him to show cause why the said amount, as specified in the notice, should not be paid by him to the credit of the Central Government.

- (3) The Central Excise Officer shall, after considering the representation, if any, made by the person on whom the notice is served under sub-section (2), determine the amount due from such person (not being in excess of the amount specified in the notice) and thereupon such person shall pay the amount so determined.
- (4) The amount paid to the credit of the Central Government under sub-section (1) or sub-section (1A) or sub-section (3), as the case may be, shall be adjusted against the duty of excise payable by the person on finalisation of assessment or any other proceeding for determination of the duty of excise relating to the excisable goods referred to in sub-section (1) and sub-section (1A).
- (5) Where any surplus is left after the adjustment under sub-section (4), the amount of such surplus shall either be credited to the Fund or, as the case may be, refunded to the person who has borne the incidence of such amount, in accordance with the provisions of section 11B and such person may make an application under that section in such cases within six months from the date of the public notice to be issued by the Assistant Commissioner of Central Excise for the refund of such surplus amount.

2.25.8 Interest on the amounts collected in excess of the duty[Section 11DD]

- (1) Where an amount has been collected in excess of the duty assessed or determined and paid on any excisable goods under this Act or the rules made thereunder from the buyer of such goods, or from any person or where a person has collected any amount as representing duty of excise on any excisable which are wholly exempt or are chargeable to Nil rate of duty, the person who is liable to pay such amount as determined under sub-section (3) of section 11D, shall, in addition to the amount, be liable to pay interest at such rate not below ten per cent, and not exceeding thirty-six per cent. per annum, as is for the time being fixed by the Central Government, by notification in the Official Gazette, from the first day of the month succeeding the month in which the amount ought to have been paid under this Act, but for the provisions contained in sub-section (3) of section 11D, till the date of payment of such amount.

Provided that in such cases where the amount becomes payable consequent to issue of an order, instruction or direction by the Board under section 37B, and such amount payable is voluntarily paid in full, without reserving any right to appeal against such payment at any subsequent stage, within forty-five days from the date of issue of such order, instruction or direction, as the case may be, no interest shall be payable and in other cases the interest shall be payable on the whole amount, including the amount already paid.

- (2) The provisions of sub-section (1) shall not apply to cases where the amount had become payable or ought to have been paid before the day on which the Finance Bill, 2003 receives the assent of the President.

Explanation 1. - Where the amount determined under sub-section (3) of section 11D is reduced by the Commissioner (Appeals), the Appellate Tribunal or, as the case may be, the court, the interest payable thereon under sub-section (1) shall be on such reduced amount.

Explanation 2. - Where the amount determined under sub-section (3) of section 11D is increased by the Commissioner (Appeals), the Appellate Tribunal or, as the case may be, the court, the interest payable thereon under sub-section (1) shall be on such increased amount.

2.25.9 Provisional attachment to protect revenue in certain cases [Section 11DDA]

- (1) Where, during the pendency of any proceedings under section 11A or section 11D, the Central Excise Officer is of the opinion that for the purpose of protecting the interest of revenue, it is necessary so to do, he may, with the previous approval of the Commissioner of Central Excise, by order in writing, attach provisionally any property belonging to the person on whom notice is served under sub-section (1) of section 11A or sub-section (2) of section 11D, as the case may be, in accordance with the rules made in this behalf under section 142 of the Customs Act, 1962.
- (2) Every such provisional attachment shall cease to have effect after the expiry of a period of six months from the date of the order made:

Provided that the Chief Commissioner of Central Excise may, for reasons to be recorded in writing, extend the aforesaid period by such further period or periods as he thinks fit, so, however, that the total period of extension shall not in any case exceed two years:

Provided further that where an application for settlement of case under section 32E is made to the Settlement Commission, the period commencing from the date on which such application is made and ending with the date on which an order under sub-section (1) of section 32F is made shall be excluded from the period specified in the preceding proviso.

2.25.10 Adjudication Powers:

Authority	Remission of duty (upto ₹)	Demand of Duty (upto ₹)
The Superintendent	10,000	1,00,000
The Deputy/Assistant Commissioner	1,00,000	5,00,000
The Joint/Additional Commissioner	5,00,000	50,00,000
Commissioner	without any upper limit	without any upper limit

Note :

1. Demand of duty or differential duty may be relating to * determination of valuation and / or classification or * Cenvat credit cases or * duty short paid or not paid or erroneously refunded for any reason. Such demand may or may not contain for allegation of fraud, suppression of facts etc. (in other words, whether or not there is allegation of fraud/suppression of facts etc., the monetary limit of adjudication remains same.
2. As per CBE&C circular No. 809/6/2005-CX dated 1-3-2005, in case of refund claim, AC/ DC can pass order without any monetary limit. However, claims of ₹ 5 lakhs and above will be subject to pre-audit at level of jurisdictional Commissioner
3. It has been clarified that value of goods/conveyance, plants, machinery, land, building etc. liable to confiscation will not alter the powers of adjudication as the powers solely depend upon the amount of duty/Cenvat credit involved on the offending goods.

Who can issue show cause notice - Show cause notice should be approved and signed by officer empowered to adjudicate the case.

2.26 POWER OF OFFICER

Powers of Central Excise Officers:

- (i) **Power to access registered premises:** As per Rule 22(1) of Central Excise Rules, 2002, an officer empowered by the Commissioner in this behalf shall have access to any premises registered under these rules for the purpose of carrying out any scrutiny, verification and checks as may be necessary to safeguard the interest of revenue.
- (ii) **Power to stop and search:** As per Rule 23 of Central Excise Rules, 2002, any Central Excise Officer, may search any conveyance carrying excisable goods in respect of which he has reason to believe that the goods are being carried with the intention of evading duty.
- (iii) **Power to detain or seize goods:** As per Rule 24 of Central Excise Rules, 2002, if a Central Excise Officer, has reason to believe that any goods, which are liable to excise duty but no duty has been paid thereon or the said goods were removed with the intention of evading the duty payable thereon, the Central Excise Officer may detain or seize such goods.
- (iv) **Powers of to delegate authority:** As per Section 12E(1) of Central Excise Act, 1944, a Central Excise Officer may exercise the powers and discharge the duties conferred or imposed under this Act on any other Central Excise Officer who is subordinate to him.

Notwithstanding anything contained in sub-section (1), the Commissioner of Central Excise (Appeals) shall not exercise the powers and discharge the duties conferred or imposed on a Central Excise Officer other than those specified in section 14.

- (v) **Power to arrest:** As per Section 13 of the Central Excise Act, 1944, Central Excise Officer not below the rank of Inspector of Central Excise may, with prior approval of the Commissioner of Central Excise, arrest any person whom he has reason to believe to be liable to punishment under this Act or the rules made thereunder.

Note: provisions of arrest are not applicable to service tax matters.

- (vi) **Power to summon persons to give evidence and produce documents in inquiries under this Act:**

As per Section 14 of the Central Excise Act, 1944,

- (a) Any Central Excise Officer duly empowered by the Central Government in this behalf, shall have power to summon any person whose attendance he considers necessary either to give evidence or to produce a document or any other thing in any inquiry which such officer is making for any of the purposes of this Act. A summons to produce documents or other things may be for the production of certain specified documents or things or for the production of all documents or things of a certain description in the possession or under the control of the person summoned.
- (b) All persons so summoned shall be bound to attend, either in person or by an authorised agent, as such officer may direct; and all persons so summoned shall be bound to state the truth upon any subject respecting which they are examined or make statements and to produce such documents and other things as may be required:

Provided that the exemptions under Sections 132 and 133 of the Code of Civil Procedure, 1908 (5 of 1908) shall be applicable to requisitions for attendance under this section.

- (c) Every such inquiry as aforesaid shall be deemed to be a "judicial proceeding" within the meaning of Section 193 and Section 228 of the Indian Penal Code, 1860.

2.27 APPEALS UNDER EXCISE

Appeals under Excise

Appeals to Commissioner (Appeals) [Section 35]

- (1) Any person aggrieved by any decision or order passed under this Act by a Central Excise Officer, lower in rank than a Commissioner of Central Excise, may appeal to the Commissioner of Central Excise (Appeals) hereafter in this Chapter referred to as the Commissioner (Appeals) within sixty days from the date of the communication to him of such decision or order.

Provided that the Commissioner (Appeals) may, if he is satisfied that the appellant was prevented by sufficient cause from presenting the appeal within the aforesaid period of sixty days, allow it to be presented within a further period of thirty days.

- (1A) The Commissioner (Appeals) may, if sufficient cause is shown at any stage of hearing of an appeal, grant time, from time to time, to the parties or any of them and adjourn the hearing of the appeal for reasons to be recorded in writing.

Provided that no such adjournment shall be granted more than three times to a party during hearing of the appeal.

- (2) Every appeal under this section shall be in the prescribed form and shall be verified in the prescribed manner.

Procedure in appeal [Section 35A]

- (1) The Commissioner (Appeals) shall give an opportunity to the appellant to be heard, if he so desires.
- (2) The Commissioner (Appeals) may, at the hearing of an appeal, allow an appellant to go into any ground of appeal not specified in the grounds of appeal, if the Commissioner (Appeals) is satisfied that the omission of that ground from the grounds of appeal was not willful or unreasonable.
- (3) The Commissioner (Appeals) shall, after making such further inquiry as may be necessary, pass such order, as he thinks just and proper, confirming, modifying or annulling the decision or order appealed against.

Provided that an order enhancing any penalty or fine in lieu of confiscation or confiscating goods of greater value or reducing the amount of refund shall not be passed unless the appellant has been given a reasonable opportunity of showing cause against the proposed order:

Provided further that where the Commissioner (Appeals) is of opinion that any duty of excise has not been levied or paid or has been short-levied or short-paid or erroneously refunded, no order requiring the appellant to pay any duty not levied or paid, short-levied or short-paid or erroneously refunded shall be passed unless the appellant is given notice within the time-limit specified in section 11A to show cause against the proposed order.

- (4) The order of the Commissioner (Appeals) disposing of the appeal shall be in writing and shall state the points for determination, the decision thereon and the reasons for the decision.
- (5) The Commissioner (Appeals) shall, where it is possible to do so, hear and decide every appeal within a period of six months from the date on which it is filed.
- (6) On the disposal of the appeal, the Commissioner (Appeals) shall communicate the order passed by him to the appellant, the adjudicating authority, the Chief Commissioner of Central Excise and the Commissioner of Central Excise.

Appeals to the Appellate Tribunal [Section 35B]

(1) Any person aggrieved by any of the following orders may appeal to the Appellate Tribunal against such order —

- (a) a decision or order passed by the Commissioner of Central Excise as an adjudicating authority;
- (b) an order passed by the Commissioner (Appeals) under section 35A;
- (c) an order passed by the Central Board of Excise and Customs constituted under the Central Boards of Revenue Act, 1963 (54 of 1963) (hereafter in this Chapter referred to as the Board) or the Appellate Commissioner of Central Excise under section 35, as it stood immediately before the appointed day;
- (d) an order passed by the Board or the Commissioner of Central Excise, either before or after the appointed day, under section 35A, as it stood immediately before that day.

Provided that no appeal shall lie to the Appellate Tribunal and the Appellate Tribunal shall not have jurisdiction to decide any appeal in respect of any order referred to in clause (b) if such order relates to, —

- (a) a case of loss of goods, where the loss occurs in transit from a factory to a warehouse or to another factory, or from one warehouse to another, or during the course of processing of the goods in a warehouse or in storage, whether in a factory or in a warehouse;
- (b) a rebate of duty of excise on goods exported to any country or territory outside India or on excisable materials used in the manufacture of goods which are exported to any country or territory outside India;
- (c) goods exported outside India (except to Nepal or Bhutan) without payment of duty;
- (d) credit of any duty allowed to be utilised towards payment of excise duty on final products under the provisions of this Act or the rules made thereunder and such order is passed by the Commissioner (Appeals) on or after the date appointed under section 109 of the Finance (No. 2) Act, 1998.

Provided further that the Appellate Tribunal may, in its discretion, refuse to admit an appeal in respect of an order referred to in clause (b) or clause (c) or clause (d) where —

- (i) in any disputed case, other than a case where the determination of any question having a relation to the rate of duty of excise or to the value of goods for purposes of assessment is in issue or is one of the points in issue, the difference in duty involved or the duty involved; or
- (ii) the amount of fine or penalty determined by such order, does not exceed fifty thousand rupees;

(1A) Every appeal against any order of the nature referred to in the first proviso to sub-section (1), which is pending immediately before the commencement of Section 47 of the Finance Act, 1984, before the Appellate Tribunal and any matter arising out of, or connected with, such appeal and which is so pending shall stand transferred on such commencement to the Central Government, and the Central Government shall deal with such appeal or matter under section 35EE as if such appeal or matter were an application or a matter arising out of an application made to it under that section.

- (1B)** (i) The Central Board of Excise and Customs constituted under the Central Boards of Revenue Act, 1963 (54 of 1963) may, by notification in the Official Gazette, constitute such Committees as may be necessary for the purposes of this Act.

(ii) Every Committee constituted under clause (i) shall consist of two Chief Commissioners of Central Excise or two Commissioners of Central Excise, as the case may be.

- (2)** The Committee of Commissioners of Central Excise may, if it is of opinion that an order passed by the Appellate Commissioner of Central Excise under section 35, as it stood immediately before the appointed day, or the Commissioner (Appeals) under section 35A, is not legal or proper, direct any Central Excise Officer authorised by him in this behalf (hereafter in this Chapter referred to as the authorised officer) to appeal on its behalf to the Appellate Tribunal against such order.

Provided that where the committee of Commissioners of Central Excise differs in its opinion regarding the appeal against the order of the Commissioner (Appeals), it shall state the point or points on which it differs and make a reference to the jurisdictional Chief Commissioner of Central Excise who shall, after considering the facts of the order, if is of the opinion that the order passed by the Commissioner (Appeals) is not legal or proper, direct any Central Excise Officer to appeal to the Appellate Tribunal against such order.

Explanation- For the purposes of this sub section, "Jurisdiction Chief Commissioner" means the Chief Commissioner of Central Excise having jurisdiction over the adjudicating authority in the matter.

- (3)** Every appeal under this section shall be filed within three months from the date on which the order sought to be appealed against is communicated to the Commissioner of Central Excise, or, as the case may be, the other party preferring the appeal.
- (4)** On receipt of notice that an appeal has been preferred under this section, the party against whom the appeal has been preferred may, notwithstanding that he may not have appealed against such order or any part thereof, file, within forty-five days of the receipt of the notice, a memorandum of cross-objections verified in the prescribed manner against any part of the order appealed against and such memorandum shall be disposed of by the Appellate Tribunal as if it were an appeal presented within the time specified in sub-section (3).
- (5)** The Appellate Tribunal may admit an appeal or permit the filing of a memorandum of cross-objections after the expiry of the relevant period referred to in sub-section (3) or sub-section (4), if it is satisfied that there was sufficient cause for not presenting it within that period.
- (6)** An appeal to the Appellate Tribunal shall be in the prescribed form and shall be verified in the prescribed manner and shall, irrespective of the date of demand of duty and interest or of levy of penalty in relation to which the appeal is made, be accompanied by a fee of, —
- (a) where the amount of duty and interest demanded and penalty levied by any Central Excise Officer in the case to which the appeal relates is five lakh rupees or less, one thousand rupees;
 - (b) where the amount of duty and interest demanded and penalty levied by any Central Excise Officer in the case to which the appeal relates is more than five lakh rupees but not exceeding fifty lakh rupees, five thousand rupees;
 - (c) where the amount of duty and interest demanded and penalty levied by any Central Excise Officer in the case to which the appeal relates is more than fifty lakh rupees, ten thousand rupees;

Provided that no such fee shall be payable in the case of an appeal referred to in sub-section (2) or a memorandum of cross-objections referred to in sub-section (4).

(7) Every application made before the Appellate Tribunal —

- (a) in an appeal for grant of stay or for rectification of mistake or for any other purpose; or
- (b) for restoration of an appeal or an application, shall be accompanied by a fee of five hundred rupees.

Provided that no such fee shall be payable in the case of an application filed by or on behalf of the Commissioner of Central Excise under this sub-section.

Orders of Appellate Tribunal [Section 35C]

(1) The Appellate Tribunal may, after giving the parties to the appeal an opportunity of being heard, pass such orders thereon as it thinks fit, confirming, modifying or annulling the decision or order appealed against or may refer the case back to the authority which passed such decision or order with such directions as the Appellate Tribunal may think fit, for a fresh adjudication or decision, as the case may be, after taking additional evidence, if necessary.

(1A) The Appellate Tribunal may, if sufficient cause is shown, at any stage of hearing of an appeal, grant time, from time to time, to the parties or any of them and adjourn the hearing of the appeal for reasons to be recorded in writing:

Provided that no such adjournment shall be granted more than three times to a party during hearing of the appeal.

(2) The Appellate Tribunal may, at any time within six months from the date of the order, with a view to rectifying any mistake apparent from the record, amend any order passed by it under sub-section (1) and shall make such amendments if the mistake is brought to its notice by the Commissioner of Central Excise or the other party to the appeal:

Provided that an amendment which has the effect of enhancing an assessment or reducing a refund or otherwise increasing the liability of the other party, shall not be made under this sub-section, unless the Appellate Tribunal has given notice to him of its intention to do so and has allowed him a reasonable opportunity of being heard.

(2A) The Appellate Tribunal shall, where it is possible to do so, hear and decide every appeal within a period of three years from the date on which such appeal is filed:

Provided that where an order of stay is made in any proceeding relating to an appeal filed under sub-section (1) of section 35B, the Appellate Tribunal shall dispose of the appeal within a period of one hundred and eighty days from the date of such order:

Provided further that if such appeal is not disposed of within the period specified in the first proviso, the stay order shall, on the expiry of that period, stand vacated.

Provided further that in cases where delay in disposing of the appeal is not attributable to the appellant, the Tribunal may extend the period of stay by a period not exceeding 185 days subject to the condition that if the appeal is not disposed of within the total period of 365 days from the date of order, the stay shall stand vacated.

(3) The Appellate Tribunal shall send a copy of every order passed under this section to the Commissioner of Central Excise and the other party to the appeal.

(4) Save as provided in section 35G or section 35L, orders passed by the Appellate Tribunal on appeal shall be final.

Procedure of Appellate Tribunal [Section 35D]

- (1)** The provisions of sub-sections (1), (2), (5) and (6) of section 129C of the Customs Act, 1962 (52 of 1962), shall apply to the Appellate Tribunal in the discharge of its functions under this Act as they apply to it in the discharge of its functions under the Customs Act, 1962.
- (2) Omitted**
- (3)** The President or any other member of the Appellate Tribunal authorised in this behalf by the President may, sitting singly, dispose of any case which has been allotted to the Bench of which he is a member where —
 - (a) in any disputed case, other than a case where the determination of any question having a relation to the rate of duty of excise or to the value of goods for purposes of assessment is in issue or is one of the points in issue, the difference in duty involved or the duty involved; or
 - (b) the amount of fine or penalty involved, does not exceed fifty lakh rupees.

Powers of Committee of Chief Commissioners of Central Excise or Commissioner of Central Excise to pass certain orders [Section 35E]

- (1)** The Committee of Chief Commissioners of Central Excise may, of its own motion, call for and examine the record of any proceeding in which a Commissioner of Central Excise as an adjudicating authority has passed any decision or order under this Act for the purpose of satisfying itself as to the legality or propriety of any such decision or order and may, by order, direct such Commissioner or any other Commissioner to apply to the Appellate Tribunal for the determination of such points arising out of the decision or order as may be specified by the Committee of Chief Commissioners of Central Excise in its order.

Provided that where the Committee of Chief Commissioners of Central Excise differs in its opinion as to the legality or propriety of the decision or order of the Commissioner of Central Excise, it shall state the point or points on which it differs and make a reference to the Board which, after considering the facts of the decision or order, if it is of the opinion that the decision or order passed by the Commissioner of Central Excise is not legal or proper, may, by order, direct such Commissioner or any other Commissioner to apply to the Appellate Tribunal for the determination of such points arising out of the decision or order, as may be specified in its order.

- (2)** The Commissioner of Central Excise may, of his own motion, call for and examine the record of any proceeding in which an adjudicating authority subordinate to him has passed any decision or order under this Act for the purpose of satisfying himself as to the legality or propriety of any such decision or order and may, by order, direct such authority or any Central Excise Officer subordinate to him to apply to the Commissioner (Appeals) for the determination of such points arising out of the decision or order as may be specified by the Commissioner of Central Excise in his order.
- (3)** Every order under sub-section (1) or sub-section (2), as the case may be, shall be made within a period of three months from the date of communication of the decision or order of the adjudicating authority.
- (4)** Where in pursuance of an order under sub-section (1) or sub-section (2) the adjudicating authority or the authorised officer makes an application to the Appellate Tribunal or the Commissioner (Appeals) within a period of one month from the date of communication of the order under sub-section (1) or sub-section (2) to the adjudicating authority, such application shall be heard by the Appellate Tribunal or the Commissioner (Appeals), as the case may be, as if such application were an appeal made against the decision or order of the adjudicating authority and the provisions of this Act regarding appeals, including the provisions of sub-section (4) of section 35B shall, so far as may be, apply to such application.

(5) Omitted

SECTION 35EA. Omitted

Revision by Central Government [Section 35EE]

- (1)** The Central Government may, on the application of any person aggrieved by any order passed under section 35A, where the order is of the nature referred to in the first proviso to sub-section (1) of section 35B, annul or modify such order :

Provided that the Central Government may in its discretion, refuse to admit an application in respect of an order where the amount of duty or fine or penalty, determined by such order does not exceed five thousand rupees.

Explanation. — For the purposes of this sub-section, “order passed under section 35A” includes an order passed under that section before the commencement of section 47 of the Finance Act, 1984 against which an appeal has not been preferred before such commencement and could have been, if the said section had not come into force, preferred after such commencement, to the Appellate Tribunal.

- (1A)** The Commissioner of Central Excise may, if he is of the opinion that an order passed by the Commissioner (Appeals) under section 35A is not legal or proper, direct the proper officer to make an application on his behalf to the Central Government for revision of such order.

- (2)** An application under sub-section (1) shall be made within three months from the date of the communication to the applicant of the order against which the application is being made:

Provided that the Central Government may, if it is satisfied that the applicant was prevented by sufficient cause from presenting the application within the aforesaid period of three months, allow it to be presented within a further period of three months.

- (3)** An application under sub-section (1) shall be in such form and shall be verified in such manner as may be specified by rules made in this behalf and shall be accompanied by a fee of, -

- (a) two hundred rupees, where the amount of duty and interest demanded, fine or penalty levied by any Central Excise officer in the case to which the application relates is one lakh rupees or less;
- (b) one thousand rupees, where the amount of duty and interest demanded, fine or penalty levied by any Central Excise officer in the case to which the application relates is more than one lakh rupees :

Provided that no such fee shall be payable in the case of an application referred to in sub-section (1A).

- (4)** The Central Government may, of its own motion, annul or modify any order referred to in sub-section (1).

- (5)** No order enhancing any penalty or fine in lieu of confiscation or confiscating goods of greater value shall be passed under this section, —

- (a) in any case in which an order passed under section 35A has enhanced any penalty or fine in lieu of confiscation or has confiscated goods of greater value; and
- (b) in any other case, unless the person affected by the proposed order has been given notice to show cause against it within one year from the date of the order sought to be annulled or modified.

- (6) Where the Central Government is of opinion that any duty of excise has not been levied or has been short-levied, no order levying or enhancing the duty shall be made under this section unless the person affected by the proposed order is given notice to show cause against it within the time-limit specified in section 11A.

Deposit, pending appeal, of duty demanded or penalty levied [Section 35F]

Where in any appeal under this Chapter, the decision or order appealed against relates to any duty demanded in respect of goods which are not under the control of Central Excise authorities or any penalty levied under this Act, the person desirous of appealing against such decision or order shall, pending the appeal, deposit with the adjudicating authority the duty demanded or the penalty levied.

Provided that where in any particular case, the Commissioner (Appeals) or the Appellate Tribunal is of opinion that the deposit of duty demanded or penalty levied would cause undue hardship to such person, the Commissioner (Appeals) or, as the case may be, the Appellate Tribunal, may dispense with such deposit subject to such conditions as he or it may deem fit to impose so as to safeguard the interests of revenue.

Provided further that where an application is filed before the Commissioner (Appeals) for dispensing with the deposit of duty demanded or penalty levied under the first proviso, the Commissioner (Appeals) shall, where it is possible to do so, decide such application within thirty days from the date of its filing.

Explanation. — For the purposes of this section "duty demanded" shall include, —

- (i) amount determined under section 11D;
- (ii) amount of erroneous CENVAT credit taken;
- (iii) amount payable under rule 57CC of Central Excise Rules, 1944;
- (iv) amount payable under rule 6 of Cenvat Credit Rules, 2001 or Cenvat Credit Rules, 2002 or Cenvat Credit Rules, 2004;
- (v) interest payable under the provisions of this Act or the rules made thereunder.

Interest on delayed refund of amount deposited under the proviso to Section 35F [Section 35FF]

Where an amount deposited by the appellant in pursuance of an order passed by the Commissioner (Appeals) or the Appellate Tribunal (hereinafter referred to as the appellate authority), under the first proviso to section 35F, is required to be refunded consequent upon the order of the appellate authority and such amount is not refunded within three months from the date of communication of such order to the adjudicating authority, unless the operation of the order of the appellate authority is stayed by a superior court or tribunal, there shall be paid to the appellant interest at the rate specified in section 11BB after the expiry of three months from the date of communication of the order of the appellate authority, till the date of refund of such amount.

SECTION 35G. Appeal to High Court

- (1) An appeal shall lie to the High Court from every order passed in appeal by the Appellate Tribunal on or after the 1st day of July, 2003 (not being an order relating, among other things, to the determination of any question having a relation to the rate of duty of excise or to the value of goods for purposes of assessment), if the High Court is satisfied that the case involves a substantial question of law.
- (2) The Commissioner of Central Excise or the other party aggrieved by any order passed by the Appellate Tribunal may file an appeal to the High Court and such appeal under this sub-section shall be -
- (a) filed within one hundred and eighty days from the date on which the order appealed against is received by the Commissioner of Central Excise or the other party;

- (b) accompanied by a fee of two hundred rupees where such appeal is filed by the other party;
 - (c) in the form of a memorandum of appeal precisely stating therein the substantial question of law involved.
- (2A)** The High Court may admit an appeal after the expiry of the period of one hundred and eighty days referred to in clause (a) of sub-section (2), if it is satisfied that there was sufficient cause for not filing the same within that period.
- (3)** Where the High Court is satisfied that a substantial question of law is involved in any case, it shall formulate that question.
- (4)** The appeal shall be heard only on the question so formulated, and the respondents shall, at the hearing of the appeal, be allowed to argue that the case does not involve such question:
- Provided** that nothing in this sub-section shall be deemed to take away or abridge the power of the Court to hear, for reasons to be recorded, the appeal on any other substantial question of law not formulated by it, if it is satisfied that the case involves such question.
- (5)** The High Court shall decide the question of law so formulated and deliver such judgment thereon containing the grounds on which such decision is founded and may award such cost as it deems fit.
- (6)** The High Court may determine any issue which -
- (a) has not been determined by the Appellate Tribunal; or
 - (b) has been wrongly determined by the Appellate Tribunal, by reason of a decision on such question of law as is referred to in sub-section (1).
- (7)** When an appeal has been filed before the High Court, it shall be heard by a bench of not less than two Judges of the High Court, and shall be decided in accordance with the opinion of such Judges or of the majority, if any, of such Judges.
- (8)** Where there is no such majority, the Judges shall state the point of law upon which they differ and the case shall, then, be heard upon that point only by one or more of the other Judges of the High Court and such point shall be decided according to the opinion of the majority of the Judges who have heard the case including those who first heard it.
- (9)** Save as otherwise provided in this Act, the provisions of the Code of Civil Procedure, 1908 (5 of 1908), relating to appeals to the High Court shall, as far as may be, apply in the case of appeals under this section.

Application to High Court [Section 35H]

- (1)** The Commissioner of Central Excise or the other party may, within one hundred and eighty days of the date upon which he is served with notice of an order under section 35C passed before the 1st day of July, 2003 (not being an order relating, among other things, to the determination of any question having a relation to the rate of duty of excise or to the value of goods for purposes of assessment), by application in the prescribed form, accompanied, where the application is made by the other party, by a fee of two hundred rupees, apply to the High Court to direct the Appellate Tribunal to refer to the High Court any question of law arising from such order of the Tribunal.
- (2)** The Commissioner of Central Excise or the other party applying to the High Court under sub-section (1) shall clearly state the question of law which he seeks to be referred to the High Court and shall also specify the paragraph in the order of the Appellate Tribunal relevant to the question sought to be referred.

- (3)** On receipt of notice that an application has been made under sub-section (1), the person against whom such application has been made, may, notwithstanding that he may not have filed such application, file, within forty-five days of the receipt of the notice, a memorandum of cross-objections verified in the prescribed manner against any part of the order in relation to which an application for reference has been made and such memorandum shall be disposed of by the High Court as if it were an application presented within the time specified in sub-section (1).
- (3A)** The High Court may admit an application or permit the filing of a memorandum of cross objections after the expiry of the relevant period referred to in sub-section (1) or sub-section (3), if it is satisfied that there was sufficient cause for not filing the same within that period.
- (4)** If, on an application made under sub-section (1), the High Court directs the Appellate Tribunal to refer the question of law raised in the application, the Appellate Tribunal shall, within one hundred and twenty days of the receipt of such direction, draw up a statement of the case and refer it to the High Court.

Power of High Court or Supreme Court to require statement to be amended [Section 35-I]

If the High Court or the Supreme Court is not satisfied that the statements in a case referred to it are sufficient to enable it to determine the questions raised thereby, the Court may refer the case back to the Appellate Tribunal for the purpose of making such additions thereto or alterations therein as it may direct in that behalf.

Case before High Court to be heard by not less than two judges [Section 35-J]

- (1)** When any case has been referred to the High Court [under section 35G or section 35H], it shall be heard by a Bench of not less than two judges of the High Court and shall be decided in accordance with the opinion of such judges or of the majority, if any, of such judges.
- (2)** Where there is no such majority, the judges shall state the point of law upon which they differ and the case shall then be heard upon that point only by one or more of the other judges of the High Court, and such point shall be decided according to the opinion of the majority of the judges who have heard the case including those who first heard it.

Decision of High Court or Supreme Court on the case stated [Section 35-K]

- (1)** The High Court or the Supreme Court hearing any such case shall decide the question of law raised therein and shall deliver its judgment thereon containing the grounds on which such decision is founded and a copy of the judgment shall be sent under the seal of the Court and the signature of the Registrar to the Appellate Tribunal which shall pass such orders as are necessary to dispose of the case in conformity with such judgment.
- (1A)** Where the High Court delivers a judgment in an appeal filed before it under section 35G, effect shall be given to the order passed on the appeal by the concerned Central Excise Officer on the basis of a certified copy of the judgment.
- (2)** The costs of any reference to the High Court or an appeal to the High Court or the Supreme Court, as the case may be, which shall not include the fee for making the reference, shall be in the discretion of the Court.

Appeal to the Supreme Court [Section 35-L]

An appeal shall lie to the Supreme Court from —

- (a)** any judgment of the High Court delivered -
 - (i) in an appeal made under section 35G; or
 - (ii) on a reference made under section 35G by the Appellate Tribunal before the 1st day of July, 2003;

(iii) on a reference made under section 35H,

in any case which, on its own motion or on an oral application made by or on behalf of the party aggrieved, immediately after passing of the judgment, the High Court certifies to be a fit one for appeal to the Supreme Court; or

- (b) any order passed before the establishment of the National Tax Tribunal by the Appellate Tribunal relating, among other things, to the determination of any question having a relation to the rate of duty of excise or to the value of goods for purposes of assessment.

Hearing before Supreme Court [Section 35M]

- (1) The provisions of the Code of Civil Procedure, 1908 (5 of 1908), relating to appeals to the Supreme Court shall, so far as may be, apply in the case of appeals under section 35L as they apply in the case of appeals from decrees of a High Court :

Provided that nothing in this sub-section shall be deemed to affect the provisions of sub-section (1) of section 35K or section 35N.

- (2) The costs of the appeal shall be in the discretion of the Supreme Court.
- (3) Where the judgment of the High Court is varied or reversed in the appeal, effect shall be given to the order of the Supreme Court in the manner provided in section 35K in the case of a judgment of the High Court.

Sums due to be paid notwithstanding reference, etc. [Section 35N]

Notwithstanding that a reference has been made to the High Court or the Supreme Court or an appeal has been preferred to the Supreme Court, under this Act before the commencement of the National Tax Tribunal Act, 2005 sums due to the Government as a result of an order passed under sub-section (1) of section 35C shall be payable in accordance with the order so passed.

Exclusion of time taken for copy [Section 35-O]

In computing the period of limitation prescribed for an appeal or application under this Chapter, the day on which the order complained of was served, and if the party preferring the appeal or making the application was not furnished with a copy of the order when the notice of the order was served upon him, the time requisite for obtaining a copy of such order shall be excluded.

Transfer of certain pending proceedings and transitional provisions [Section 35P]

- (1) Every appeal which is pending immediately before the appointed day before the Board under section 35, as it stood immediately before that day, and any matter arising out of or connected with such appeal and which is so pending shall stand transferred on that day to the Appellate Tribunal and the Appellate Tribunal may proceed with such appeal or matter from the stage at which it was on that day.

Provided that the appellant may demand that before proceeding further with that appeal or matter, he may be re-heard.

- (2) Every proceeding which is pending immediately before the appointed day before the Central Government under section 36, as it stood immediately before that day, and any matter arising out of or connected with such proceeding and which is so pending shall stand transferred on that day to the Appellate Tribunal and the Appellate Tribunal may proceed with such proceeding or matter from the stage at which it was on that day as if such proceeding or matter were an appeal filed before it.

Provided that if any such proceeding or matter relates to an order where —

- (a) in any disputed case, other than a case where the determination of any question having a relation to the rate of duty of excise or to the value of goods for purposes of assessment is in issue or is one of the points in issue, the difference in duty involved or the duty involved; or

(b) the amount of fine or penalty determined by such order, does not exceed ten thousand rupees, such proceeding or matter shall continue to be dealt with by the Central Government as if the said section 36 had not been substituted.

Provided further that the applicant or the other party may make a demand to the Appellate Tribunal that before proceeding further with that proceeding or matter, he may be re-heard.

- (3) Every proceeding which is pending immediately before the appointed day before the Board or the Commissioner of Central Excise under section 35A, as it stood immediately before that day, and any matter arising out of or connected with such proceeding and which is so pending shall continue to be dealt with by the Board or the Commissioner of Central Excise, as the case may be, as if the said section had not been substituted.
- (4) Any person who immediately before the appointed day was authorised to appear in any appeal or proceeding transferred under sub-section (1) or sub-section (2) shall, notwithstanding anything contained in section 35Q, have the right to appear before the Appellate Tribunal in relation to such appeal or proceeding.

Appearance by authorised representative [Section 35Q]

- (1) Any person who is entitled or required to appear before a Central Excise Officer or the Appellate Tribunal in connection with any proceedings under this Act, otherwise than when required under this Act to appear personally for examination on oath or affirmation, may, subject to the other provisions of this section, appear by an authorised representative.
- (2) For the purposes of this section, "authorized representative" means a person authorised by the person referred to in sub-section (1) to appear on his behalf, being —
 - (a) his relative or regular employee; or
 - (b) any legal practitioner who is entitled to practise in any civil court in India; or
 - (c) any person who has acquired such qualifications as the Central Government may prescribe for this purpose.
- (3) Notwithstanding anything contained in this section, no person who was a member of the Indian Customs and Central Excise Service — Group A and has retired or resigned from such Service after having served for not less than three years in any capacity in that Service, shall be entitled to appear as an authorised representative in any proceedings before a Central Excise Officer for a period of two years from the date of his retirement or resignation, as the case may be.
- (4) No person, —
 - (a) who has been dismissed or removed from Government service; or
 - (b) who is convicted of an offence connected with any proceeding under this Act, the Customs Act, 1962 (52 of 1962) or the Gold (Control) Act, 1968 (45 of 1968); or
 - (c) who has become an insolvent,
 shall be qualified to represent any person under sub-section (1), for all times in the case of a person referred to in clause (a), and for such time as the Commissioner of Central Excise or the competent authority under the Customs Act, 1962 or the Gold (Control) Act, 1968, as the case may be, may, by order, determine in the case of a person referred to in clause (b), and for the period during which the insolvency continues in the case of a person referred to in clause (c).
- (5) If any person, —
 - (a) who is a legal practitioner, is found guilty of mis-conduct in his professional capacity by any authority entitled to institute proceedings against him, an order passed by that authority

shall have effect in relation to his right to appear before a Central Excise Officer or the Appellate Tribunal as it has in relation to his right to practise as a legal practitioner;

- (b) who is not a legal practitioner, is found guilty of mis-conduct in connection with any proceedings under this Act by the prescribed authority, the prescribed authority may direct that he shall thenceforth be disqualified to represent any person under sub-section (1).
- (6) Any order or direction under clause (b) of sub-section (4) or clause (b) of sub-section (5) shall be subject to the following conditions, namely:—
 - (a) no such order or direction shall be made in respect of any person unless he has been given a reasonable opportunity of being heard;
 - (b) any person against whom any such order or direction is made may, within one month of the making of the order or direction, appeal to the Board to have the order or direction cancelled; and
 - (c) no such order or direction shall take effect until the expiration of one month from the making thereof, or, where an appeal has been preferred, until the disposal of the appeal.

Appeal not to be filed in certain cases [Section 35R]

- (1) The Central Board of Excise and Customs may, from time to time, issue orders or instructions or directions fixing such monetary limits, as it may deem fit, for the purposes of regulating the filing of appeal, application, revision or reference by the Central Excise Officer under the provisions of this Chapter.
- (2) Where, in pursuance of the orders or instructions or directions, issued under sub-section (1), the Central Excise Officer has not filed an appeal, application, revision or reference against any decision or order passed under the provisions of this Act, it shall not preclude such Central Excise Officer from filing appeal, application, revision or reference in any other case involving the same or similar issues or questions of law.
- (3) Notwithstanding the fact that no appeal, application, revision or reference has been filed by the Central Excise Officer pursuant to the orders or instructions or directions issued under sub-section (1), no person, being a party in appeal, application, revision or reference shall contend that the Central Excise Officer has acquiesced in the decision on the disputed issue by not filing appeal, application, revision or reference.
- (4) The Appellate Tribunal or court hearing such appeal, application, revision or reference shall have regard to the circumstances under which appeal, application, revision or reference was not filed by the Central Excise Officer in pursuance of the orders or instructions or directions issued under sub-section (1).
- (5) Every order or instruction or direction issued by the Central Board of Excise and Customs on or after the 20th day of October, 2010, but before the date on which the Finance Bill, 2011 receives the assent of the President, fixing monetary limits for filing of appeal, application, revision or reference shall be deemed to have been issued under sub-section (1) and the provisions of sub-sections (2), (3) and (4) shall apply accordingly.

Definitions [Section 36]

In this Chapter —

- (a) “appointed day” means the date of coming into force of the amendments to this Act specified in Part II of the Fifth Schedule to the Finance (No. 2) Act, 1980;
- (b) “High Court” means, —
 - (i) in relation to any State, the High Court for that State;

- (ii) in relation to a Union Territory to which the jurisdiction of the High Court of a State has been extended by law, that High Court;
 - (iii) in relation to the Union Territories of Dadra and Nagar Haveli and Daman and Diu, the High Court at Bombay;
 - (iv) in relation to any other Union Territory, the highest court of civil appeal for that territory other than the Supreme Court of India;
- (c) "President" means the President of the Appellate Tribunal.

PRACTICAL PROBLEMS

Example 68: M/s XYZ. are in the business of supplying "Turbo-alternators" to various customers. They manufacture steam turbines in the factory, which are removed to the customer's site on payment of Central Excise Duty. They purchase duty paid alternators from the market which are delivered at the customer's site. M/s XYZ assemble both the items and fix them permanently on a platform at the site. Department demands central excise duty payable on "Turbo-alternator" when it comes into existence after being assembled on the platform embedded to the earth. Is the view taken by the department correct. Discuss with the help of case laws, if any.

Answer:

In the present case two issues are involved

- (i) Whether assembly of steam turbines and duty paid alternators amounts to manufacture of turbo alternators, and
- (ii) Whether such assembly results in manufacture of excisable goods.

The facts of the case are similar to the case of *Triveni Engineering and Industries Ltd. v C. CEX, 2000* (120) ELT 273 (SC)

In the present case, the Appellants were, according to specified designs, combining steam turbine and alternator by fixing them on a platform and aligning them. As a result of this activity of the Appellants, a new product, turbo alternator, came into existence, which has a distinctive name and use different from its components. Therefore, the process involved in fixing steam turbine and alternator and in coupling and aligning them in a specified manner to form a turbo alternator, a new commodity, is nothing but a manufacturing process.

Though the process of assembling results into a new commodity and therefore is a process amounting to manufacture, yet the turbo alternator set (known in the market as such) comes into existence only when a steam turbine and alternator with all their accessories are fixed at the site. Further, in order to be brought in the market the turbo would not remain turbo alternator. Thus, it is obvious that without fixing to the ground the turbo alternator does not come into being. The installation or erection of turbo alternator on the platform specially constructed on the land cannot be treated as a common base, therefore, such alternator would be immovable property. Accordingly, such activity could not be considered as 'excisable goods'.

Example 69: Snow White Ltd. Manufactures paper and in the course of such manufacture, "waste paper" is produced (paper being the main product and dutiable goods). The Central Excise Tariff Act, 1985 (CET) was amended w.e.f. 1-3-1995, so as to include waste paper. White Ltd. was issued a show cause notice by the Central Excise Officer, demanding duty of ₹ 2 lakhs on waste paper produced during October, 1994 to February, 1995, but cleared during April-May, 1995. A reply is due to be filed immediately to the notice. As Counsel of Snow White Ltd. you are required to advise the company about –

- (i) The legality and validity of the proposed levy and collection of duty on waste paper for the period prior to 1-3-1995; and
- (ii) State (with the help of decided cases) the reasons for your advice/opinion.

Answer:

The issue involve in the given case is determination of taxable event for the purpose of levy of excise duty.

As per section 3 of the Central Excise Act, 1944, the taxable event for levy of Central Excise is "manufacture of excisable goods". The date for determination for rate of duty and tariff valuation is the date of actual removal of the goods from the factory or warehouse.

However, there must be a levy of duty of excise at the time of manufacture and only then, the duty can be collected at the time of removal as has already been held in Vazir Sultan Tobacco Industry's case 1996 (83) ELT 3(SC).

Therefore, the waste paper produced prior to the levy will not be chargeable to duty of excise even though it has been cleared after such levy and the proposed show cause notice demanding ₹ 2 lakhs of excise duty on such waste paper is invalid and illegal and liable to be quashed.

Example 70: Kagaz Karkhana Ltd., manufactures paper in the year 1995, it embarked on a major expansion programme, and for the purpose, fabricated at site, 75% of the portion of papermaking machine and procured (paying excise duty) the remaining parts of the papermaking machine from other suppliers. Having done so, it assembled all the parts together into a paper-making machine at site. The erection and installation was completed during November, 1995 and the machine was firmly fastened to the earth, with the help of bolts, nuts and grouting material on a concrete bed, to prevent rattling and ensure wobble-free operation and presently the machine is functional and operating. During July, 1998, the Central Excise authorities served the company a show cause demanding excise duty of ₹ 5 crores, on the paper-making machine, alleging that the activity resulted in manufacture of excisable goods, failing under chapter 84 of CET. The company engages you as 'counsel' to represent them and desires to contest the case on the grounds :

- (i) That the activity of erection and installation was not manufacture,
- (ii) That the activity resulted in "immovable property" emanating at site and
- (iii) That the demand is time-barred

You are required to discuss the tenability or otherwise of the contentions of the notice client and advice them drawing support from the judicial decision.

Answer:

There are three issues involved in the present case:

- (i) Whether the activity of erection and installation was not manufacture,
- (ii) Whether the activity resulted in "immovable property" emanating at site and
- (iii) Whether the demand is time-barred

In respect of the first issue, it is to be noted that the excise duty is levied on the excisable goods manufactured in India, and hence it will not be attracted where goods are not produced from the manufacturing process.

A commodity is said to be manufactured if by application of the process its identity is changed and it is known in the market as a separate and distinct commodity having separate name, character and use.

The assembly of parts results in paper-making machine which has distinct identity, name and character and use and hence such assembly amounts to manufacture.

The second issue is whether erection and installation of such machine on a concrete base results in an immovable property. The Supreme Court, in *Sirpur Paper Mills v C.C.Ex.*, Hyderabad 1998(97) ELT 3 (SC), has held that papermaking machine if assembled and erected at site and embedded in concrete base to ensure wobble free operation will not become an immovable property. The machine can be dismantled from its base and sold in parts. Hence, the assessee's first two contentions are untenable and incorrect as the activity has resulted in the manufacture of goods and there is no immovable property brought into existence and assembly operations are liable to duty of excise.

The third issue is whether the demand notice is time barred. Under section 11A of the Central Excise Act, 1944, the extended period of limitation can be invoked only when there is a fraud, collusion, willful misstatement, suppression of facts or contravention of the provisions of the Act with an intent to evade the payment of duty of excise. If the manufacturing activity of paper-making machine was known to the department then the department cannot invoke the extended period of limitation. Hence, the contention of the assessee is an arguable point and the same is legally tenable.

Example 71: Regarding the applicability of excise duty, Computers are covered under Heading no 84.71 of the First schedule to the Central Excise Tariff Act, 1985 which describes computers as automatic data processing machines. XYZ Ltd. has undertaken upgradation of its computers both in terms of storage capacity and processing speed by increasing the hard disc capacity, RAM, changing of processor chip from 386 to 486 and in certain cases from Pentium III to Pentium IV. The Department's contention is that new goods with a different name character and use have come into existence and the upgraded products are chargeable to excise duty. Discuss in the light of provision of section 2(f) of the Central Excise Act, 1944 relating to "manufacture" whether this stand of the Department is justified.

Answer:

The computers covered under heading No. 84.71 of the Schedule to the Central Excise Tariff Act, 1985 are described as automatic data processing machines. An automatic data processing machine will be known by this name, irrespective of its capacity of storage and processing, which may be enhanced by increasing the hard disk capacity, RAM or by changing the mother board or the processor chip. However, it cannot be said that new goods with a different name, character and use have come into existence, which can be subjected to duty again.

Accordingly, upgrading of old and used computer systems would not amount to manufacture, in so far as the upgradation does not bring into existence goods with a distinct new name, character and use.

Example 72: Full exemption is granted by exercising Central Excise Notification which explains all products of printing industry including newspapers and printed periodicals." A manufacturer, who is manufacturing cardboard cartons and subsequently doing varied printing on them, claims benefit of the said exemption notification on the ground that every material on which printing is done becomes a product of the printing industry. Is the claim of the manufacturer justified? Give reasons for your view.

Answer:

The cited Central Excise exemption notification grants full exemption to – "all products of printing industry including newspapers and printed periodicals". The products in respect of which exemption is claimed are cardboard, cartons although subsequently varied printing is done on them. These products relate to the packaging industry. The mere fact that printing is done on these products will not render these products as the products of the printing industry.

Accordingly, the products of the packaging industry shall not be entitled to the exemption granted to "all products of printing industry including newspapers and printed periodicals". The case in support is *Rollatainers Ltd. v UOI* (1994) 72 ELT 793(SC).

Example 73: How would you arrive at the assessable value for the purpose of levy of excise duty from the following particulars-Cum-Duty selling price exclusive of sales Tax ₹ 10,000, Rate of excise duty applicable to the product - 12.36% (including education cess), Trade discount allowed – ₹ 1,200, Freight ₹ 750 from factory to buyer place.

Answer:

In computation of assessable value for the purpose of Levy of excise duty, trade discount and freight are allowed as deductions.

Thus,

$$\begin{aligned}\text{Net price} &= \text{Selling Price} - (\text{Trade Discount} + \text{Freight}) \\ &= ₹ 10,000 - (1,200 + 750) \\ &= ₹ 8,050\end{aligned}$$

Since the price is inclusive of excise duty @12.36 %,

Therefore,—

$$\begin{aligned}\text{Assessable Value} &= ₹ 8,050 \times 100/112.36 \\ &= ₹ 7,164.47\end{aligned}$$

$$\text{Excise Duty will be } ₹ 8,050 - ₹ 7,164.47 = ₹ 885.53$$

Check : 12.36% of ₹ 7,164.47 is ₹ 885.53.

Example 74: X Ltd. is engaged in the manufacture of 'paracetamol' tablets that has an MRP of ₹ 9 per strip. The company cleared 1,00,000 tablets and distributed as physician's samples. The goods are not covered by MRP, but the MRP includes 12.36% Excise Duty and 2% CST. If the cost of production of the tablet is 40 paise per tablet, determine the total duty payable.

Answer:

If the product is not covered under MRP provisions, valuation provisions under section 4A do not apply. In that case, valuation is required to be done as per Central Excise Valuation Rules.

As per the CBEC's circular, any physicians samples or other samples distributed free of cost are to be valued under Rule 11 read with Rule 8 of Central Excise Valuation Rules, 2000.

As per Rule 8, such samples are to be valued at 110% of cost of production or manufacture. The given cost of production is 40 Paise, Assessable Value will be 44 Paise. Therefore, duty payable @ 12.36% on 44 paise = $12.36\% \times 0.44 = 0.0544$ paise per tablet.

Example 75: M/s. A.U.L. avail of CENVAT credit of the duty paid on the inputs namely, steel sheets. The scrap generated during the manufacture of their final product was cleared by them without payment of duty. Subsequently the Department raised a demand of Excise duty on waste and scrap. M/s. A.U.L. accepted the duty liability, but contended that the price at which waste and scrap had been sold should be considered to be cum-duty price and assessable value should be determined after deducting the element of excise duty. The contention of the Department is that as no central Excise duty was paid by them while clearing the scrap, no deduction on account of excise duty is available to M/s. A.U.L.

Answer:

The facts of the given case are similar to those decided by the Supreme Court in *C.C.Ex. v Maruti Udyog Ltd.* (2002) 141 ELT 3 (SC) in the said case, the department raised duty demand on waste and scrap

and the price realized by the assessee was taken as the assessable value. The assessee contended that the price of such waste and scrap was inclusive of excise duty. The Supreme Court decided the issue in favour of the assessee. Accordingly, in the given case, as the Department has raised duty demand on waste and scrap, the price collected by M/s. A.U.L. will be considered as the Cum-Duty price and it shall be deemed that the element of excise duty is already included in such price. The manufacturer will therefore be entitled for deduction on account of such price. Thus the assessable value will be worked out as under –

$$\text{Assessable value} = \frac{(\text{Cum-Duty Price} - \text{Permissible Deduction}) \times 100}{100 + \text{Rate of Duty}}$$

Example 76: State whether the following elements are to be included or not as part of the 'Transaction value' under section 4 of the Central Excise Act, 1944.

- (i) Erection and commissioning charges
- (ii) System software etched in the computer system
- (iii) Cylinder holding charges
- (iv) After-sales warranty charges

Answer:

- (i) Any payment made by buyer to assessee is includible in assessable value only if it is in 'connection' with sale. In case of erection and commissioning charges for erecting machinery at site, these are incurred after goods are removed from the factory. These may be in 'relation' to sales but are not in 'connection' with sales as there is no 'cause and effect' relationship between the two. Hence these are not includible in assessable value. This is also confirmed *vide* CBE&C Circular No. 643/34/2002-CX, dated 1-7-2002.
- (ii) A computer manufacturer loads bought out computer software on computer while selling. Thus, the system software is loaded on computer while computer is cleared from the factory. Computer software as such is exempt from duty. Department had earlier clarified that value of computer software etched or loaded on computer will be includible. However, if computer software is supplied separately on floppy disc or tapes, its value will not be includible. [However, as per CBE&C circular dated 28-2-2003, value of computer software will not be includible in assessable value of computer].
- (iii) In case of durable and returnable containers, the container is returnable after the gas or other material inside is used. Often, manufacturing companies take some deposit and charge some rent for the container. These are 'cylinder holding charges'. CBE&C, *vide* its Circular No. 643/34/2002-CX, dated 1-7-2002, has clarified that rental charges or cost of maintenance of reusable metal containers like cylinders etc. are to be included in assessable value. This view is correct as such rental charges and the sale of gas are so intrinsically connected that there can be no sale without such charges.
- (iv) Compulsory after sales warranty charges are includible as the sale goods and such charges are inseparable. However, optional service charges are not includible as there is no connection between the sale of goods and the optional service charges.

Example 77: A Ltd., a manufacturer of tyres was extending a warranty discount on any tyres that were defective. The scheme of warranty discount operated thus, the customers lodged their claim with regard to any defects in the tyres. Such claims were then scrutinized by a Technical Committee of A Ltd., which would decide the amount of refund due to the customer on the basis of the reduction in the normal life of

tyre attributable to the defect. This refund was to be given by the Technical Committee. This practice was being followed by A Ltd. for the last 15 years. A Ltd. claimed the 'warranty discount' as a Trade discount which is deductible in computing the assessable value of the tyres. Is this correct? Discuss in the light of the provisions under Section 4 of the Central Excise Act, 1944.

Answer:

According to section 4 of the Central Excise Act, 1944, regarding discounts, transaction value does not make a direct reference. Now actually the excise duty is paid/payable on the net price of the goods after deduction of discounts. If in any transaction discount is allowed in accordance with normal practice of trade and it is passed on to the buyer, the inclusion of such discount is not justified. However, the said amount to be allowed as deduction must be in the nature of discount.

From the facts of the above case, the manufacturer was extending warranty discount on any tyres that were defective. Though this was known as discounts, but it was only a compensation for defects in tyres, which was given to the customers. Hence, it will not be allowed as deduction from the transaction value as was held in *GOI v MRF* (1995) 77 ELT 433(SC).

Example 78: How would you arrive at the assessable value for the purpose of levy of excise duty from the following particulars :

- i. Cum-duty selling price exclusive of sales tax ₹ 20,000
- ii. Rate of excise duty applicable to the product 12.36%
- iii. Trade discount allowed ₹ 2,400
- iv. Freight ₹ 1,500

Answer:

Trade discount of ₹ 2,400 and freight of ₹ 1,500 are allowed as deductions. Hence, net price will be ₹ 16,100 [₹ 20,000 – ₹ 2,400 – ₹ 1,500].

Since the price is inclusive of excise duty of 12.36%, Excise Duty will be ₹ 1,771.06 ($₹ 16,100 \times 12.36 / 112.36$) and Assessable Value will be ₹ 14,328.94 [$₹ 16,100 - ₹ 1,771.06$]

Example 79: M/s U.T.A. manufacture welding electrodes which are put first in Polythene bags and then packed together in cardboard cartons. They sell electrodes at the factory gate packed in cardboard cartons whereas such electrodes are also packed in wooden boxes when sold to their customers located at outstations. Is the department justified to include the cost of wooden boxes in the assessable value of the welding electrodes? Discuss with the help of case laws, if any.

Answer:

The new Section 4 of the Central Excise Act, 1944, does not make any specific reference to packing charges. In normal commercial transactions the price of goods charged includes the cost of packing charges. The charges that are recovered on account of packing are obviously the charges in relation to sale of goods under assessment and will form the part of transaction value. Whatever be the nature of packing that is whether the packing is primary or secondary or special or packing for the purpose of transportation, the cost of such packing shall be includible.

In light of the new Section 4, the earlier case laws hold no significance now.

Example 80: A1 Ltd., manufactures three soft drinks namely Coke, Pep, and Maaza. Coke was sold only to A2 Ltd., a subsidiary company of A1 Ltd. Pep was sold to A3 Ltd., where the Managing Director of A1 Ltd., is a Manager. Maaza was sold to A Ltd, who is sole distributor of A1 Ltd., and was coming under same management of A1 Ltd.

Determine the assessable value of the three products in the hands of A1 Ltd. on the basis of the following information:

Price of A1 Ltd to A2 Ltd. is	₹ 1,00,000
Price of A1 Ltd. to A3 Ltd. is	₹ 50,000
Price of A1 Ltd. to A Ltd. is	₹ 20,000
Price of A2 Ltd. to Consumer is	₹ 1,20,000
Price of A3 Ltd. to Consumer is	₹ 60,000
Price of A Ltd. to consumer is	₹ 30,000

Note: sale prices are exclusive of duties and taxes.

Answer: (Rule 10)

Statement showing computation of Assessable value for A1 Ltd.

Particulars	Assessable value (₹)	Relation ship	Applicable Rule	Remarks
Coke sold to A2 Ltd.	1,20,000	Relative	Rule 10 of the Valuation Rules, 2000	Price at which relative buyer, sells goods in the open market to non relative buyer
Pep sold to A3 Ltd.	50,000	Non relative	--	Relation ship will come into exist only when there is holding and subsidiary concept persist.
Maaza sold to A Ltd.	20,000	Non relative	--	Relation ship will come into exist only when there is holding and subsidiary concept persist.
Total	1,90,000			

Example 81: M/s R.M.T. Industries manufactures cigarettes which are sold in wholesale, exfactory, at cum-duty price to wholesale dealers. The price charged to all the dealers from the cigarettes is the same. However, the dealers who purchase on credit are required to deposit interest free security with M/s R.M.T. The department has demanded duty from M/s R.M.T. contending that they had earned notional interest in the security deposit received from the dealers which should be included in the assessable value of the cigarettes being the additional consideration. Duty on cigarettes is being charged on advalorem basis. Discuss the stand taken by the department with decided case laws, if any.

Answer:

The facts of this case are similar to the case of *VST Industries Ltd. v C.C.Ex.* (1998) 97 ELT 395 (SC).

In the instant case the interest free deposit scheme was introduced by the assessee because of commercial consideration of covering the risk of credit sales, no special consideration flowing from the assessee to the buyer keeping tile deposit, the Supreme Court held that the notional interest cannot be included in the assessable value.

Example 82: Determine the value on which Excise duty is payable in the following instances. Quote the relevant section/rules of Central Excise Law.

- A Ltd. sold goods to B Ltd., at a value of ₹ 100 per unit, In turn, B Ltd. sold the same to C Ltd. at a value of ₹ 110 per unit. A Ltd. and B Ltd. are related, whereas B Ltd. and C Ltd. are unrelated.
- A Ltd. and B Ltd. are inter-connected undertakings, under section 2(g) of MRTP Act. A Ltd. sells goods to B Ltd. at a value of ₹ 100 per unit and to C Ltd. at ₹ 110 per unit, who is an independent buyer.
- A Ltd. sells goods to B Ltd. at a value of ₹ 100 per unit. The said goods are captively consumed by B Ltd. in its factory. A Ltd. and B Ltd. are unrelated. The cost of production of the goods to A Ltd. is ₹ 120 per unit.
- A Ltd. sells motor spirit to B Ltd. at a value of ₹ 31 per litre. But motor spirit has administered price of ₹ 30 per litre, fixed by the Central Government.
- A Ltd. sells to B Ltd. at a value of ₹ 100 per unit. B Ltd. sells the goods in retail market at a value of ₹ 120 per unit. The sale price of ₹ 100 per unit is wholesale price of A Ltd. Also, A Ltd. and B Ltd. are related.
- Depot price of a company are -

Place of removal	Price at depot on 1-1-2013	Price at depot on 31-1-2013	Actual sale price at depot on 1-2-2013
Amritsar Depot	₹ 100 per unit	₹ 105 per unit	₹ 115 per unit
Bhopal Depot	₹ 120 per unit	₹ 115 per unit	₹ 125 per unit
Cuttack Depot	₹ 130 per unit	₹ 125 per unit	₹ 135 per unit

Additional information : (i) Quantity cleared to Amritsar Depot – 100 units, (ii) Quantity cleared to Bhopal Depot – 200 units, (iii) Quantity cleared to Cuttack Depot – 200 units, (iv) The goods were cleared to respective depots on 1-1-2013 and actually sold at the depots on 1-2-2013.

Answer:

- Transaction value ₹ 110 per unit (Rule 9 of Transaction value Rules). [Sale to unrelated party].
- Transaction value ₹ 100 per unit for sale to B and ₹ 110 for sale to C – Rule 10 read with Rule 4 [Note that inter connected undertaking will be treated as 'related persons' for purpose of excise valuation only if they are 'holding and subsidiary' or are 'related person' as per any other part of the definition of 'related person'. Note that A is selling directly to C as per the question, and not through B Ltd].
- Transaction value will be ₹ 100. – section 4(1)—In case of sale to unrelated person, question of cost of production does not arise.
- Transaction value ₹ 31. – section 4. – Since the goods are actually sold at this price, administered price is not considered.
- Transaction value ₹ 120 per unit – Rule 9 read with section 4 of Central Excise Act. Sale to an unrelated buyer. [Under new rules, there is no concept of 'wholesale price and retail price']
- Under Rule 7, the price prevailing at the Depot on the date of clearance from the factory will be the relevant value to pay Excise duty.

Therefore –

- Clearance to Amritsar depot will attract duty based on the price as on 1-1-2013. Transaction value ₹ 110x 100 units = ₹ 11,000

- (ii) Clearance to Bhopal depot, so depot price on 1-1-2013. Therefore, transaction value ₹ 120x 200 units = ₹ 24,000
- (iii) Clearance to Cuttack Depot, depot price on 1-1-2013. Transaction value ₹ 130x120 units = ₹ 26,000. Note the relevant date is 1-1-2013, since the goods were cleared to the depots on that date. No additional duty is payable even if goods are later sold from depot at higher price.

Example 83: Having regard to the provisions of section 4 of the Central Excise Act, 1944, compute/derive the assessable value of excisable goods, for levy of duty of excise, given the following information :

Cum-duty wholesale price including sales tax of ₹ 2,500	₹ 15,000
Normal secondary packing cost	₹ 1,000
Cost of special secondary packing	₹ 1,500
Cost of durable and returnable packing	₹ 1,500
Freight	₹ 1,250
Insurance on freight	₹ 200
Trade discount (normal practice)	₹ 1,500
Rate of C.E. duty as per C.E. Tariff	12% Advalorem

State in the footnote to your answer, reasons for the admissibility or otherwise of the Deductions.

Answer:

The assessable value from cum-duty price can be worked out by the under-mentioned formula

$$\text{Assessable Value} = \frac{(\text{Cum-Duty Price} - \text{Permissible Deduction}) \times 100}{100 + \text{Rate of Duty}}$$

Computation of Assessable Value

	₹	₹
Cum-duty price		15,000
Less : Deductions (See Notes)		
Sales tax	2,500	
Durable & returnable-packing	1,500	
Freight	1,250	
Insurance	200	
Trade-Discount	1,500	6,950
		8,050
Less: Central Excise Duty thereon @ 12.36%		
8,050 × 12.36/112.36		885.53
Assessable value		7,164.47

Notes :

1. The transaction value does not include Excise duty, Sales tax and other taxes.
2. The Excise duty is to be charged on the net price, hence trade discount is allowed as deduction.
3. With regards to packing, all kinds of packing except durable and returnable packing is included in the assessable value. The durable and returnable packing is not included as the such packing is not sold and is durable in nature.

4. Freight and insurance on freight will be allowed as deduction only if the amount charged is actual and it is shown separately in the invoice as per Rule 5 of the Central Excise Valuation Rules, 2000.

Example 84: Explain whether the following items can be included in/excluded from the transaction value under section 4 of the Central Excise Act, 1944.

- (1) Collection expenses incurred in respect of empty bottles for filling aerated waters from the premises of buyers to the manufacturers.
- (2) Delivery and collection charges of gas cylinders and collection of empty cylinders.
- (3) Interest notional or real accruing on deposits for sale/return of gas cylinders as well as rentals.
- (4) Cash discount known at the time of clearance of goods but not availed by the customer.
- (5) Value of system software in case of computers.

Answer:

- (1) Transaction value includes any amount charged in addition to the price of the goods by reason of or in connection with the sale. Since collection expenses are incurred by reason of or in connection with the sale, it would be included in the transaction value.
- (2) CBEC has vide Circular No. 643/34/2002, dated 1-7-2002 clarified that delivery and collection charges of gas cylinders are by reason of or in connection with the sale of goods and therefore, the same would be included in the transaction value.
- (3) The interest on advances taken from the customers would not be included in the assessable value, unless the receipt of such advance had no effect of depressing the wholesale price.
In VST Industries Ltd. v C.C.Ex, Hyderabad 1998 (97) ELT 395(SC), where interest free deposits were taken because of commercial consideration of covering the risk of credit sales, no special consideration flowing from the assessee to the buyer keeping the deposit was found and the Supreme Court held that notional interest cannot be included in the assessable value.
- (4) However, in such case, the burden of proof lies on the Department to prove a nexus between the fact of advance taken and the depression in the value.
- (5) The transaction value is the price actually paid or payable for the goods. In the given situation, as the case of cash discount has not been passed on to the customer, it will not be allowed as deduction.

As per the CBEC & Circular No. 644/35/2002-CX, dated 12-7-2002 the Software can be of the following types – *Systems software/Operating software* – which is designed to control the operation of the computer system.

Application software – Which is developed for specific applications only.

Valuation of goods is done in the form in which it is cleared. Therefore, computer systems will be valued by including the value of the software loaded on the hard disc. No distinction is to be made between an 'operating software' and an 'application software'.

Example 85: Thunder TV Ltd is engaged in the manufacture of colour television sets having its factories at Bangalore and Pune. At Bangalore the company manufactures picture tube; which are stock transferred to Pune factory where it is consumed to produce television sets. Determine the Excise duty liability of the captively consumed picture tubes from the following information:

Direct material cost (per unit)	₹ 600
Indirect material	₹ 50
Direct Labour	₹ 100
Indirect Labour	₹ 50
Direct Expenses	₹ 100
Indirect Expenses	₹ 50
Administrative overheads	₹ 50
Selling and Distribution overheads	₹ 100

Additional Information:

Profit margin as per the Annual Report for the company for 2012-2013 was 15% before income tax.

(i) Material cost includes Excise duty paid ₹ 100.

(ii) Excise duty rate applicable is 12.36%.

Answer:

As per Rule 8 of The Central Excise Valuation (Determination of Price of Excisable Goods) Rules, 2000, the valuation of captively consumed goods is 110% of the cost of production. The cost of production of goods would include cost of material, labour cost and overheads including administration cost and depreciation etc.

The cost of material would be net of excise duty if CENVAT credit is availed in respect of such inputs.

Accordingly, the assessable value will be determined as follows :

Raw materials Cost (net of excise duty)	₹ 500
Indirect material	₹ 50
Direct Labour	₹ 100
Indirect Labour	₹ 50
Direct Expenses	₹ 100
Indirect Expenses	₹ 50
Administrative overheads	₹ 50
Total cost of production	₹ 900
Assessable value	₹ 990

(i.e. 110% of the cost of production)

Total Duty Liability = ₹ 990 x 12.36/100 = ₹ 122.36

The raw material cost has been taken at ₹ 500 after deducting the duty element assuming that the CENVAT credit has been availed.

Example 86: Mrs. E fails to pay Excise Duty of ₹ 60,000 on the goods cleared in February by 5th March of 2013. The assessee, Mrs. E, is owner of a SSI unit. What is the interest payable under Rule 8 of Central excise Rules, 2002 if the duty was actually paid on 10th May of 2013?

Answer:

Interest = ₹ 60,000 x 18/100 x 40 days /365 days = ₹ 1,184

Note: w.e.f. 1-4-2011 rate of interest is @18% p.a. simple interest

Example 87: From the following data, determine the CENVAT allowable if the goods are produced or manufactured in a FTZ or by a 100% EOU and used in any other place in India.

Assessable value : ₹ 770 per unit,

Quantity cleared 77,770 units,

BCD— 10%,

CVD – 12%

Answer:

As per Rule 3 of CENVAT Credit Rules, 2002 the following formula is to be used if a unit in DTA purchases goods from EOU –

Assessable value	= ₹ 770	
Add: 50% on BCD 10%	= ₹ 38.50	(10% x 50%= 5% on ₹ 770)
Balance	= ₹ 808.5	
Add: CVD 12%	= ₹ 97.02	(12% on ₹ 808.50)

CENVAT Credit allowed to the extent of CVD. Therefore, ₹ 97.02 per unit for 77,770 units is ₹ 75,45,245.

Example 88: X Ltd. purchased a Boring-Drilling machine at a cum-duty price of ₹ 35,95,520. The Excise duty rate charged on the said machine was @12.36%. The machine was purchased on 1.4.2011 and disposed of on 30.6.2013 for a price of ₹ 12,00,000 in working condition as second hand machinery (Excise duty @12.36%). The company was claiming depreciation @25% following Straight Line Method on the value of machine. Using the said information, answer the following questions:

What is the excise duty paid on the machine?

What is the CENVAT credit allowable under CENVAT Credit Rules?

What is the amount of CENVAT credit reversible or duty payable at the time of clearance of the said machinery?

Answer:

- (a) Excise duty is ₹ 3,95,520 (i.e. ₹ 35,95,520 x 12.36/100)
- (b) Upto 50% allowed as CENVAT credit in the year 2011-12 on 1-4-2011 and balance CENVAT credit in the year 2012-13 on 1-4-2012.
- (c)

Year	No. of quarter	Workings
2011	3	April – December
2012	4	January – December
2013	2	January – June
Total	9	

Particulars	Amount (₹)	Workings
Cenvat credit on capital goods	3,95,520	
Less: Reduction	(44,496)	₹ 1,97,760 x 2.5% x 9 qtrs.
	(24,720)	₹ 1,97,760 x 2.5% x 5 qtrs.
Amount to be paid	3,26,304	
Or		
Excise duty on transaction value	1,48,320	₹ 12 lakhs x 12.36%
Amount to be paid	3,26,304	Whichever is higher

Example 89: Prepare a Cenvat account in the books of A Ltd., and determine the balance as on 30-9-2011 from the following data :

Opening balance as on 1-4-2013 ₹ 47,000.

Inputs received on 04-04-2013 involving excise duty paid ₹ 14,747

Purchased a lathe for ₹ 1,16,000-cum duty price @ excise duty rate of 12% on 5-4-2013 and received the lathe into the factory on 5-12-2013.

On 6-4-2013 paid excise duty on final products @ 12% through Cenvat A/c (cum duty price of the goods ₹ 2,32,000).

Inputs cleared as such to a job worker on 1-4-2013 not returned in 180 days, quantity 1,000 Kgs; Assessable value ₹ 2 lacs; ED @ 12% of the above, 50% of the inputs were received on 1-10-2013.

Common inputs were used in a product, which was exempted from payment of duty cleared at a price of ₹ 100/unit, which included taxes of ₹ 20/unit ; quantity cleared 1,000 units.

On 7-4-2013 duty paid on inputs amounting to ₹ 17,867 was taken credit for in the Cenvat A/c as ₹ 17,687.

Answer:

CENVAT Credit Receivable Account in the Books of A Ltd., as on 30-9-2013

Date	Particulars	Debit (₹)	Credit (₹)
1-4-2013	To Opening Balance	47,000	
4-4-2013	To Sundry Creditors	14,747	
6-4-2013	By Excise duty paid on Final product		25,521
7-4-2013	To Sundry Creditors	17,687	
30-9-2013	To Sundry Creditors (Credit short taken on 7-4-2013)	180	
30-9-2013	By Reversal of Cenvat Account (5% Amount on Exempted goods)		6,180
30-9-2013	By Reversal of Cenvat Account (Amount equal to duty on inputs not returned within 180 days)		24,720
	By Balance Carry Forward		23,193

Notes :

- (i) Since capital goods (lathe) was received only on 5-12-2013, the credit is permissible only on 5-12-2013 and not before that date.

When 50% of inputs are received on 1-10-2013 (sent on job work), the credit is allowable for 50% only on 1-10-2013.

- (iii) Where goods are exempted, an 'amount' is payable @ 5% on sale price less taxes.
- (iv) For wrong amount of credit, rectification entry is passed.
- (v) The 'amount' paid on 30-9-2013 is reversal of Cenvat credit. It is not 'excise duty'. Hence, a separate account 'Reversal of Cenvat Account' or "Payment of 'Amount' under Central Excise Rules" may be opened. At the year end, the balance may be transferred to expenses account. Strictly legally, it is not 'excise duty' paid.

Example 90: M/s Tips and Toes Ltd., manufactures four types of "Nail Polishes", namely Sweety, Pretty, Beauty, Tweety. The company has availed CENVAT credit of ₹ 4,00,000 on the common inputs used in the manufacture of 'Nail Polishes'. During the financial year 2012-2013, the company manufactured 1000 litres of each type of 'Nail Polishes'. The CENVAT availed input was used in equal proportion in all the four types of the products. Calculate the CENVAT credit amount not available or amount payable under CENVAT Rules 57AA read with 57AD of CENVAT Rules of Central Excise, using the following additional data :

Product	Nature of Sale	Sale price excluding Sales Tax & other local taxes
Sweety	Sale to Home Consumption	₹ 30 per 20 ml bottle
Pretty	Sold to a 100% EOU	₹ 40 per 20 ml bottle
Beauty	Fully exported	₹ 50 per 20 ml bottle
Tweety	Supplied to Defence Canteen under exemption	₹ 60 per 20 ml bottle

Answer:

Cenvat credit is available in respect of the products Sweety (Home Consumption), Pretty (sale to EOU) and Beauty (Goods exported). However, Cenvat credit is not available in respect of goods cleared for home consumption under exemption notification. Thus, Cenvat credit is not available in respect to 'Tweety' i.e. goods supplied to defence canteen under exemption.

Assessee has two options –

- (a) Maintain separate records right from receipt stage in respect of inputs used in 'Tweety'.
- (b) If this is not possible, pay an amount of 5% on the exempted goods.

In this case, since the inputs are common, it is assumed that assessee was not in a position to maintain separate records. The price of goods is ₹ 60 per 20 ml bottle i.e. ₹ 300 per 100 ml, i.e. ₹ 3,000 per 1000 ml, i.e. ₹ 3,000 per litre. Thus, total value of goods is 1,000 liters x 3,000 i.e. ₹ 30,00,000.

Therefore, he is required to pay 5% of ₹ 30,00,000 i.e. ₹ 1,50,000.

Example 91: A manufacturer brings some inputs valued at ₹ 25,000 on which duty of ₹ 5,000 has been paid @ 20%. Subsequently, the manufacturer sold the input as such, which goods he sold for ₹ 30,000. What is the duty payable by the manufacturer if –

- 1. Rate of duty on the date of clearance on inputs was 25%.
- 2. Rate of duty on the date of clearance on input was 10%.

Answer:

CENVAT Credit Rules, 2002, provide that in case the inputs are removed as such then the removal of such goods will be under cover of Invoice and the manufacturer will have to pay duty as if the inputs are manufactured in his premises.

Hence, in –

Case 1 : The duty payable by the manufacturer will be 25% of ₹ 30,000 = ₹ 7,500

Case 2 : The duty payable by the manufacturer will be 10% of ₹ 30,000 = ₹ 3,000

However, the Finance Bill, 2003 has amended CENVAT credit Rules, 2002. As per the amended Rule 3(4), now if the inputs are removed as such, the manufacturer will have to pay excise duty equal to the credit availed in respect of such inputs.

Therefore, as per the amendment the duty payable in both the above cases will be ₹ 5,000.

Example 92: ABC and Co. are manufacturing the products specified below from excise duty paid high density polyethylene granules. Part of the goods are captively consumed and other part of the goods cleared for home consumption in India and for export to Bhutan and United Kingdom. The effective rate of duty, and the value of clearances during the preceding year 2012-13, and the current assessment period 2013-2014 are as follows –

1. Rate of duty —

Product 'A' – 12.36%. Product 'B' – 12.36%. Product 'C' (Waste & Scrap)- Exempt from duty.

2. Value clearances in 2012-13 –

Product 'A'—

- (a) Clearance for home consumption – ₹ 130 Lakhs.
- (b) For captive consumption in the manufacture of excisable goods – ₹ 135 lakhs.
- (c) Exports to Bhutan – ₹ 35 lakhs
- (d) Exports to UK under bond – ₹ 100 lakhs

Product 'B'—

- (a) Clearance for home consumption – ₹ 80 lakhs
- (b) For captive consumption in the manufacture of excisable goods – Nil
- (c) Exports to Bhutan – ₹ 50 lakhs.
- (d) Exports to UK under bond – ₹ 200 lakhs.

Product 'C'—

- (a) Clearance for home consumption – ₹ 40 lakhs
- (b) For captive consumption in the manufacture of excisable goods – ₹ 20 lakhs
- (c) Exports to Bhutan – Nil
- (d) Exports to UK – Nil

3. Value of clearances during current year i.e. 2013-14 —

Product 'A'—

- (a) Clearance for home consumption – ₹ 50 lakhs.
- (b) For captive consumption in the manufacture of excisable goods – ₹ 40 lakhs
- (c) exports to Bhutan – Nil

(d) Exports to UK under bond ₹ 50 lakhs.

Product 'B'–

- (a) Clearance for home consumption – ₹ 80 lakhs
- (b) For captive consumption in the manufacture of excisable goods- Nil
- (c) Exports to Bhutan – ₹ 50 lakhs.
- (d) Exports to UK under bond – ₹ 100 lakhs.

Product 'C'–

- (a) Clearance for home consumption – ₹ 50 lakhs.
- (b) For captive consumption in the manufacture of excisable goods- Nil
- (c) Exports to Bhutan – ₹ 50 lakhs.
- (d) Exports to UK under bond – ₹ 100 lakhs.

Advise the manufacturers as to whether they are entitled to small scale exemption and the amount of excise duty payable for their clearances during 2013-14, if the assessee intends to avail Cenvat credit.

Answer:

Turnover in 2010-11 for purpose of considering SSI exemption limit is as follows –

Product A – ₹ 165 lakhs [130 + 35]

Product B – ₹ 130 lakhs [80 + 50]

Product C – ₹ 20 lakhs.

If final product is exempt from duty, the goods used for captive consumption are liable to duty. Therefore, total turnover during 2012-13 is ₹ 315 lakhs.

Since total turnover does not exceeds ₹ 400 lakhs, the assessee is entitled to exemption in 2013-14 and has to pay normal duty @ 12.36% on ₹ 165 lakhs (₹ 315 lakhs - ₹ 150 lakhs)= ₹ 20.39 lakhs

If assessee avails cenvat credit, duty payable will be = 12.36% of ₹ 315 lakhs = ₹ 38.93 lakhs

Example 93: The value of excisable goods viz. Iron and Steel articles manufactured by M/s. Alpha Ltd., was ₹ 120 lakhs during the financial year 2012-13. The goods attract 10.30% ad valorem duty. Determine the excise duty liability when the assessee opts for 'CENVAT' and 'opts for not to avail CENVAT' under SSI exemption notifications respectively.

Answer:

If the assessee does not avail Cenvat, duty will payable will be ₹ 2.60 lakhs. [Nil for first 100 lakhs and ₹ 2.06 lakhs for subsequent ₹ 20 lakhs]. If assessee avails Cenvat credit, duty payable will be ₹ 8.24 lakhs (₹ 6.18 lakhs on first ₹ 100 lakhs and ₹ 2.06 lakhs on balance ₹ 20 lakhs)

Example 94: M/s NML, a unit registered as a small scale unit, manufactures coloured television sets under the brand name "SONY" in India, which brand name is owned by a Foreign Company. M/s NML has the exclusive right to use the Brand name "SONY" in India.

Explain briefly with reference to Notifications governing Small Scale Industrial Undertakings under the Central Excise Act, 1944 and the Rules, whether the manufacturer in this case M/s NML is entitled to the benefit of the exemption as applicable to small scale industrial undertakings.

Answer:

The benefit of SSI exemption is not applicable in case an SSI unit is manufacturing under the brand name or trade name of another person whether registered or not.

In the present case, since NML is manufacturing the TV sets under the brand name of "Sony", it will not be entitled for the benefit of SSI exemption.

Case in support is *Namtech Systems Ltd. v C.C.Ex. (Tribunal)*.

Example 95: M/S RPL has three units situated in Bangalore, Delhi and Pune. The total clearances from all these three Small Scale units of excisable goods was ₹ 350 lakhs during the financial year, 2012-2013. However, the value of individual clearances of excisable goods from each of the said units was Bangalore Unit ₹ 150 lakhs; Delhi Unit ₹ 100 lakhs; and Pune Unit ₹ 1000 lakhs.

Discuss briefly with reference to the Notifications governing small scale industrial undertakings under the Central Excise Act, 1944 whether the benefit of exemption would be available to M/s RPL for the financial year, 2013-2014.

Answer:

Any SSI unit whose turnover was less than ₹ 4 crore in the previous year is entitled for exemption irrespective of their investment in plant & machinery or number of employees.

Where the manufacturer has more than one factory, the turnover of all factories will have to be clubbed together for the purpose of calculating the SSI exemption limit of ₹ 400 lakhs.

Since in the above case, the total value of clearances during the preceding financial year 2012-2013 is 350 lakhs, hence it will be entitled for the SSI benefit.

Example 96: An assessee has factory in Kolkata. As a sales policy, he has fixed uniform price of ₹ 2,000 per piece (excluding taxes) for sale anywhere in India. Freight is not shown separately in his invoice. During F.Y. 2013-14, he made following sales: (i) Sale at factory gate in Kolkata – 1,200 pieces – no transport charges; (ii) Sale to buyers in Gujarat – 600 pieces, actual transport charges incurred ₹ 28,000; (iii) Sale to buyers in Bihar – 400 pieces, actual transport charges incurred – ₹ 18,000, (iv) Sale to buyers in Kerala – 1,000 pieces, actual transport charges ₹ 54,800. Find assessable value.

Answer:

The total pieces sold are 3,200 (1,200 + 600 + 400 + 1000). The actual total transport charges incurred are ₹ 1,00,800 (Nil + 28,000 + 18,000 + 54,800). Thus, equalized (averaged) transport charges per piece are ₹ 31.50. Hence assessable value will be ₹ 1968.50 (₹ 2,000 – ₹ 31.50). This will apply to all 3,200 pieces sold by the manufacture.

Study Note - 3

CENVAT CREDIT

This Study Note includes

3.1 Background of Cenvat Credit

3.2 Highlights of Cenvat Credit Scheme

3.3 Utilization of Cenvat Credit

3.4 Reversal of Cenvat Credit

3.5 Refund of cenvat Credit

3.6 Obligation of a manufacturer or Producer of final Products and a provider of taxable services

3.7 Input service Distributors

3.8 Documents and Accounts

3.9 Other Provision

3.1 BACKGROUND OF CENVAT CREDIT

Excise and Service tax are central taxes, expected to be consumption based taxes to the extent practicable. Till the goods or service is finally consumed, the burden of excise duty and service tax is passed on to next buyer, who gets credit of the tax and excise duty paid by the supplier/ service provider. Thus, effectively, tax is paid on value added at each stage, as illustrated in following example. It means to say that CENVAT Credit eliminates cascading effect of tax.

Cascading effect of tax: it means goods suffered tax suffering again and again in addition to tax on taxes, whereas CENVAT Credit eliminates the cascading effect of tax.

Example 1:

Details	Transaction without VAT		Transaction With VAT	
	A (₹)	B (₹)	A (₹)	B (₹)
Purchases	—	110	—	100
Value Added	100	40	100	40
Sub-Total	100	150	100	140
Add Tax 10%	10	15	10	14
Total	110	165	110	154

'B' is purchasing goods from 'A'. In second case i.e. under Vat, his purchase price is ₹ 100 as he is entitled to Cenvat credit of ₹ 10 i.e. tax paid on purchases. His invoice shows tax paid as ₹ 14. However, since he has got credit of ₹ 10, effectively he is paying only ₹ 4 as tax, which is 10% of ₹ 40, i.e. 10% of 'value added' by him. Cenvat (Central Value Added Tax) scheme is used to achieve the aim of levying tax only on 'value added' at each stage.

Example 2:

Particulars	Value ₹
Goods Purchased by Mr. Y by paying ₹ 224 from Mr. X out of which ₹ 24 towards excise duty which is not considered as cost)	200.00
Add: Value Addition	80.00
Taxable Turnover	280.00
Add: CENVAT @12%	33.60
SALES INCLUSIVE OF E.D.	313.60

Total excise duty payable = ₹ 33.60
Less: CENVAT Credit = ₹ 24.00
Net excise duty payable = ₹ 9.60
Value Added Tax is ₹ 9.60

3.2 HIGHLIGHTS OF CENVAT CREDIT SCHEME

CENVAT Credit is an integration of excise duty and service tax. It means while paying excise duty service tax can claim as Cenvat credit and while paying service tax excise duty can claim as Cenvat credit. The same has been explained in the following example:

Example 3:

M/s X Ltd. (not a SSI unit) is a manufacturer produced dutiable finished goods in the month of April 2012 for ₹ 20,00,000, exclusive of excise duty payable is @12.36%. Input goods (i.e. raw material) purchased for ₹ 5,61,800 inclusive of excise duty @ 12.36%. Capital goods purchased in the same month for ₹ 10,00,0000 (exclusive of excise duty 12.36%). Input services used from a consultant for ₹ 2,00,000 (exclusive of service tax 12.36%). Finished goods removed from the factory in the month of April 2012. Find the net excise duty payable by M/s X Ltd., and due date of payment of excise duty?

Answer:**(Amount in ₹)**

Particulars	Basic Excise Duty (₹)	2% Edu. Cess (₹)	1% S.A.H Edu. Cess (₹)	Workings
Finished Goods	2,40,000	4,800	2,400	₹ 20 L x 12%
Less: CENVAT CREDIT on input goods	(60,000)	(1,200)	(600)	5,61,800 x 12.36/112.36 = ₹ 61,800
Less: CENVAT CREDIT on capital goods	(60,000)	(1,200)	(600)	₹ 10,00,000 x 12.36% = ₹ 1,23,600 Up to 50% allowed as CENVAT credit in the first year of receipt of capital goods and balance allowed in the subsequent year or years
Less: CENVAT CREDIT on input services	(24,000)	(480)	(240)	₹ 2,00,000 x 12.36% = ₹ 24,720
Net excise duty payable	96,000	1,920	960	Due date of payment of excise duty is on or before 5th May 2012

3.2.1 Cenvat Credit Rules, 2004**Rule 1: Title, extent and commencement:**

These rules called as CENVAT Credit Rules, 2004. They extended to the whole of India. However, these rules not applicable to the State of Jammu and Kashmir with regard to availment and utilization of credit of service tax.

Definitions under Cenvat Credit Rules, 2004

Rule 2: Definitions:

Rule 2(a): capital goods:

The term “Capital goods” under CENVAT Rules is Different from capital goods as understood in accounting or in income-tax. Items like spare parts, tools, dies, tubes fittings etc. are never capitalized in accounts for income-tax purposes but are defined as capital goods for CENVAT.

(A) Capital goods are —

- (i) All goods falling under Chapters 82, 84, 85, 90, heading number 6805, grinding wheels and the like parts thereof falling under heading 6804 of the First Schedule to Central Excise Tariff Act, 1985. Tools, hand tools

Chapter 82: Tools, Implements, Cutlery etc.

Chapter 84: Nuclear Reactors, Boilers, Machinery and Mechanical appliances parts thereof

Chapter 85: Electrical Machinery & Equipment & parts thereof, sound recorders, and parts and accessories of such articles

Chapter 90: Optical, photographic, medical & surgical instruments and apparatus parts and accessories thereof.

- (ii) Pollution control equipment
- (iii) Components, spares and accessories of goods specified at (i) and (ii) above
- (iv) Moulds and dies
- (v) Refractories and refractory materials
- (vi) Tubes, pipes and fittings thereof, used in the factory
- (vii) Storage tank and
- (viii) Motor vehicles other than those falling under tariff heading 8702, 8703, 8704, 8711 and their chassis, (but including dumpers and trippers) Used—
 - (1) in the factory of the manufacturer of the final products, but does not include any equipment or appliance used in an office; or
 - (1A) Outside the factory of the manufacturer of the Final products for generation of electricity for captive use within the factory (w.e.f. 1-4-2011); or
 - (2) For providing output service;

(B) w.e.f. 1-7-2012 motor vehicle designed for transportation of goods including their chassis registered in the name of the service provider, when used for

- (i) providing an output service of renting of such motor vehicle; or
- (ii) transportation of inputs and capital goods used for providing an output service; or
- (iii) providing an output service of courier agency

(C) w.e.f 1-7-2012 motor vehicle designed to carry passengers including their chassis, registered in the name of the provider of service, when used for providing output service of

- (i) transportation of passengers; or
- (ii) renting of such motor vehicle; or
- (iii) imparting motor driving skills.

(D) w.e.f. 1-4-2012 components, spares and accessories of motor vehicles which are capital goods for the assessee;

Rule 2(b): Customs Tariff Act means the Customs Tariff Act, 1975

Rule 2(c): Excise Act means Central Excise Act, 1944

Rule 2(d): As per Rule 2(d) of Cenvat Credit Rules, 2004, exempted goods (i.e. non-dutiable goods) means goods which are exempted from whole of duty of excise leviable thereon and includes goods which are chargeable to ₹ Nil' rate of duty and the goods in respect of which the benefit of an exemption under Notification No. 1/2011-CE dated 1-3-2011 is availed (i.e. goods on which 1% or 2% (w.e.f 17-3-2012) of excise duty has been paid).

Rule 2(e): As per Rule 2(e) of Cenvat Credit Rules, 2004, exempted services means taxable services which are exempted from the whole of the service tax leviable thereon, and includes services on which no service tax is leviable under section 66 of the Finance Act, 1994 and taxable services whose part of value is exempted on the condition that no credit of inputs and input services, used for providing such taxable service, shall be taken. For removal of doubts, it is hereby clarified that ₹ exempted services' includes trading (w.e.f. 1-4-2011).

Trading goods: A manufacturer or service provider may also be trading in goods. For example authorized service station of automobiles is also selling spare parts of motor car. For the purpose of valuation, the value of exempted service shall be the difference between the sale price and the cost of goods sold (determined as per the generally accepted accounting principles without including the expenses incurred towards the purchases) or 10% of the cost of goods sold, whichever is higher (vide

— Notification No. 13/2011-CE dated 31-3-2011).

Taxable service whose part of value is exempted on the condition that no credit of inputs and input services, used for providing such taxable service, shall be taken, but shall not include a service which is exported in terms of rule 6A of the Service Tax Rules, 1994.

Rule 2(f): Excise Tariff Act means the Central Excise Tariff Act, 1985

Rule 2(g): Finance Act means the Finance Act, 1994

Rule 2(h): Rule 2(h) of CENVAT Credit Rules defines **final products** under Central Excise to mean those goods that are excisable and have come into existence from manufacturing activity making use of inputs or by using input services. Here final products mean only excisable goods i.e. those goods which are liable for excise duty which may be at nil rate or a rate higher than zero. Assessee are generally under the misconceived notion that only goods which suffer duty at a rate higher than zero percent are excisable goods whereas that is not the case. This definition of exempted goods is vital as there are certain restrictions as to availability of CENVAT credit. However the goods against which there is no rate prescribed in the CET may not be said to be excisable goods.

Rule 2(ij): first stage dealer "**First stage dealer**" means a dealer, who purchases goods directly from manufacturer OR importer or from the depot of an importer or from the premises of the consignment agent of importer, under cover of an invoice;

Example 4: Mr. D purchased dutiable goods from M/s X Ltd by paying excise duty and the same sold to M/s Y Ltd. In the given case Mr. D (registered under Central Excise as registered dealer) is competent to pass the excise duty as CENVAT Credit from M/s X Ltd to M/s Y Ltd. The same has been explained in the following diagram:

C.C. = CENVAT CREDIT

Rule 2(k): (w.e.f. 1-4-2011) "input" means—

- (i) all goods used in the factory by the manufacturer of the final product; or
- (ii) any goods including accessories, cleared along with the final product, the value of which is included in the value of the final product and goods used for providing free warranty for final products; or
- (iii) all goods used for generation of electricity or steam for captive use; or
- (iv) all goods used for providing any output service;

but excludes—

(A) light diesel oil, high speed diesel oil or motor spirit, commonly known as petrol;

(B) w.e.f. 1-7-2012 any goods used for—

- (a) construction or execution of works contract of a building or a civil structure or a part thereof; or
- (b) laying of foundation or making of structures for support of capital goods, except for the provision of service portion in the execution of a works contract or construction service as listed under clause (b) of section 66E of the Act;
- (c) capital goods except when used as parts or components in the manufacture of a final product;
- (d) Motor vehicles;
- (e) any goods, such as food items, goods used in a guesthouse, residential colony, club or a recreation facility and clinical establishment, when such goods are used primarily for personal use or consumption of any employee;
- (f) any goods which have no relationship whatsoever with the manufacture of a final product.

Explanation:- For the purpose of this clause, "free warranty" means a warranty provided by the manufacturer, the value of which is included in the price of the final product and is not charged separately from the customer;

What is Input

Any input

- which is used “in the manufacture” or
- which is used “in relation to manufacture”
- which is not defined as capital goods will be eligible as inputs.

All goods (except High Speed Diesel, Light Diesel Oil and Petrol) used in or in relation to the manufacture of the final product, directly or indirectly and whether contained in the final product or not, and includes (i) Lubricating oils, (ii) Greases, (iii) cutting oils, (iv) accessories of the final products, (v) goods used as paints, as packing material, as fuel or for generation of electricity or steam used for manufacture of final products are eligible for CENVAT.

Example 5: X Ltd. removed cookers along with packing material from factory but used for packing at depot had to be considered as have been used in or in relation to the manufacture of final products and credit of duty paid on such master cartons (i.e. packing material) could not have been denied. The entire packing material is to be considered as has been used in or in relation to the manufacture of the final product. Accordingly they are entitled to avail the credit of duty paid on the packing material *Hawkins Cookers Ltd. (2010) (HC)*.

Construction service is not an 'input service to any manufacturer or service provider w.e.f. 1-4-2011

Example 6: Laboratory, test or quality check is always in relation to the manufacture of finished goods. It is immaterial whether or not the input is physically present in the final finished product as such; therefore, the laboratory test in relation to the manufacture of final product is a part of manufacture. Hence Cenvat Credit is available on raw material destroyed in laboratory test. *Tata Engineering & Locomotive Co. Ltd. 2010 (HC)*.

What is not input?

- (a) Any input which is used as “facilitation to the manufacture” is not considered as an eligible Input.
- (b) Input like steel, cement, angles, channels, CTD (Cold Twisted Deformed) or TMT (thermo mechanically treated) bar, other material used for following purpose is not eligible for credit
 - Construction of building or civil structure or part thereof
 - Laying of foundation or making of structures for support of Capital goods

Conditions one should satisfy to avail CENVAT Credit:

Cenvat Credit can be claimed only in respect of eligible inputs subject to the following conditions.

Condition 1: The input should be used in factory (Material sent for job work is acceptable provided these are brought back within 180 days from the date of dispatch). This condition is not applicable to the service provider.

Condition 2: Central Excise duty should be paid on inputs (Actual payment of duty by the buyer cum- manufacturer may not be required)

Condition 3: Final product must be dutiable goods.

Rule 2(I): input service (w.e.f. 1-4-2011), “input service” means any service,—

- (i) used by a provider of output service for providing an output service; or
- (ii) used by the manufacturer, whether directly or indirectly, in or in relation to the manufacture of final products and clearance of final products, upto the place of removal, and includes
 - (a) services used in relation to setting up, modernization, renovation or repairs of a factory, premises of provider of output service or an office relating to such factory or premises,

- (b) advertisement or sales promotion,
- (c) market research,
- (d) storage upto the place of removal,
- (e) procurement of inputs,
- (f) accounting,
- (g) auditing,
- (h) financing,
- (i) recruitment and quality control,
- (j) coaching and training,
- (k) computer networking,
- (l) credit rating,
- (m) share registry,
- (n) security,
- (o) business exhibition,
- (p) legal services,
- (q) inward transportation of inputs or capital goods and
- (r) outward transportation upto the place of removal;

but excludes

- (A) (w.e.f. 1-7-2012) service portion in the execution of a works contract and construction services including service listed under clause (b) of section 66E of the Finance Act (hereinafter referred as specified services) in so far as they used for
 - a. Construction or execution of works contract of a building or a civil structure or a part thereof; or
 - b. Laying of foundation or making of structures for support of capital goods, except for the provision of one or more of the specified services; or
- (B) Services provided by way of renting of a motor vehicle in so far as they relate to a motor vehicle which is not a capital goods; or
- (C) service of general insurance business, servicing, repair and maintenance, in so far as they relate to a motor vehicle which is not a capital goods except when used by-
 - (a) a manufacturer of a motor vehicle in respect of a motor vehicle manufactured by such person; or
 - (b) an insurance company in respect of a motor vehicle insured or reinsured by a such person; or
 - (c) such as those provided in relation to outdoor catering, beauty treatment, health services, cosmetic and plastic surgery, membership of a club, health and fitness centre, life insurance, health insurance and travel benefits extended to employees on vacation such as Leave or Home Travel Concession, when such services are used primarily for personal use or consumption of any employee.

The following service is excluded from the definition of '*input service*' only so far as they relate to a motor vehicle, which is not a capital goods (w.e.f. 1-7-2012).

- Renting of a motor vehicle

However, these services will be eligible as '*input service*' if used for provision of taxable services for which CENVAT CREDIT of motor vehicle is available as capital goods.

The following services are excluded from the definition of '*input service*' (w.e.f. 1.7.2012)

- General Insurance Service
- Servicing
- Repair and maintenance in relation to motor vehicle which is not a capital goods.

However, these services will be eligible as 'input service' if used by

(a) a manufacturer of a motor vehicle in respect of a motor vehicle manufactured by him or

(b) an insurance company in respect of a motor vehicle insured or reinsured by such person .

Note: Construction service is not an 'input service' to any manufacturer or service provider w.e.f. 1-4-2011

Clarifications from the CBE&C (Circular No. 943/04/2011-CX, dated 29-4-2011) with regard to input and input services

Since, definition of 'input', and 'input service' has been changed w.e.f. 1-4-2011, the Central Board of Excise and Customs has been issued clarifications in this regard vide CBE&C No. 943/04/2011 -CX., dated 29-4-2011, the same were explained with the help of examples;

Sl. No.	Issue	Clarification	Examples
1	Can credit of capital goods be availed of when used in manufacture of dutiable goods on which benefit under Notification 1/2011- CE is availed or in provision of a service whose part of value is exempted on the condition that no credit of inputs and input services is taken?	As per Rule 6(4) of the CENVAT credit Rules, 2004, no credit can be availed on capital goods used exclusively in manufacture of exempted goods or in providing exempted service. Goods in respect of which the benefit of an exemption (i.e. Excise duty @1% is paid) under notification No. 1/2011-CE, dated the 1st March, 2011 (or excise duty 2% w.e.f 17-3-2012) is availed are exempted goods [Rule 2(d)]. Taxable services, whose part of value is exempted on the condition that no credit of inputs and input services, used for providing such taxable service, shall be taken, are exempted services [Rule 2(e)]. Hence credit of capital goods used exclusively in manufacture of such goods or in providing such service is not allowed.	(1) M/s. X Ltd. is a manufacturer of Mathematical boxes, geometry boxes and colour boxes, pencil sharpeners. These goods are subject to excise duty @2% (w.e.f. 1-4-2012). Machinery purchased for Rs 1,12,360 (inclusive of excise duty @12.36%) to produce aforesaid final products. Hence, M/s. X Ltd. is not eligible to claim CENVAT credit of duty paid on capital goods. (2) M/s. CDS Builders provided construction of commercial contract services. While executing construction contract, service provider purchased Drilling Machine (i.e. Capital Goods) for Rs 2,24,720 (inclusive of excise duty @12.36%). Service tax was paid by service provider after claiming abatement @67%. Hence, M/s. CDS Builders are not eligible to claim CENVAT credit of duty paid on capital goods.

Sl. No.	Issue	Clarification	Examples
2	Is the credit of only specified goods and services listed in the definition of inputs and input services not allowed such as goods used in a club, outdoor catering etc, or is the list only illustrative?	The list is only illustrative. The principle is that cenvat credit is not allowed when any goods and services are used primarily for personal use or consumption of employees. Illustrative list : • Outdoor catering, • Beauty treatment, • Health services, • Cosmetic and plastic surgery, • Membership of a club, • Health and fitness centre, • Life insurance, • Health insurance and travel benefits extended to employees on vacation such as Leave or Home Travel Concession etc.	M/s. A Ltd. is a manufacturing company regularly providing lunch to their employees. For this purpose M/s. A Ltd. received outdoor catering service from Mr. B. Since, this service meant primarily for the personal use or consumption of employees will not constitute an input service. Therefore, service tax paid on outdoor catering service is not allowed as CENVAT credit. <i>However, outdoor catering service should be considered as input service if used for sales promotion, training, auditing (i.e. lunch to auditors), legal services, security or to directors who are not employees.</i>
3	How is the “no relationship whatsoever with the manufacture of a final product” to be determined?	Credit of all goods used in the factory is allowed except in so far as it is specifically denied. The expression “no relationship whatsoever with the manufacture of a final product” must be interpreted and applied strictly and not loosely. The expression does not include any goods used in or in relation to the manufacture of final products whether directly or indirectly and whether contained in the final product or not. Only credit of goods used in the factory but having absolutely no relationship with the manufacture of final product is not allowed.	(1) M/s. Ram Ltd. purchased Steel, cement and other material used for construction of factory building is not eligible as input goods. (2) Part of inputs goes in process loss, may not be reflected in final product. However, CENVAT credit is available on entire quantity of inputs. Since, inputs are used in the manufacture of final product. (3) <i>Goods such as furniture and stationary used in an office within the factory are goods used in the factory and are used in relation to the manufacturing business and hence the credit of same is allowed.</i>
4	Is the credit of input services used for repair or renovation of factory or office available?	<i>Credit of input services used for repair or renovation of factory or office is allowed.</i> Services used in relation to renovation or repairs of a factory, premises of provider of output service or an office relating to such factory or premises, are specifically provided for in the inclusive part of the definition of input services.	M/s. X Ltd. paid Rs1,10,300 (inclusive of service tax @12.36%) to a provider of taxable services towards renovation of factory and office relating to such factory. M/s. X Ltd. is allowed to claim CENVAT credit on input services (i.e. renovation and repairs of a factory) as per Rule 2(l) of CENVAT Credit Rules, 2004 (w.e.f. 1-4-2011).

Sl. No.	Issue	Clarification	Examples
5	Is the credit of Business Auxiliary Service (BAS) on account of sales commission now disallowed after the deletion of expression "activities related to business"?	The definition of input services allows all credit on services used for clearance of final products upto the place of removal as per the Rule 2(1)(ii) of the CENVAT Credit Rules, 2004 (w.e.f. 1-4-2011). Moreover activity of sale promotion is specifically allowed and on many occasions the remuneration for same is linked to actual sale. Reading the provisions harmoniously it is clarified that credit is admissible on the services of sale of dutiable goods on commission basis.	Mr. X is a commission agent of M/s Y Ltd., manufacturer of furniture. A sum of Rs 11,030 (inclusive of service tax) has been paid by M/s Y Ltd., towards commission to Mr. X. Service tax paid on input service (Business Auxiliary Service) is allowed as CENVAT credit.
6	Can the credit of input or input services used exclusively in trading, be availed?	Trading is an exempted service. Hence the credit of any inputs or input services used exclusively in trading cannot be availed.	An assessee is a dealer of Air Condition Machines. These goods are purchased from a manufacturer by paying value of goods as well as excise duty. However, excise duty is not allowed as CENVAT credit.
7	Are the taxes and year end discounts to be included in the sale price and cost of goods sold while calculating the value of trading?	Generally accepted accounting principles need to be followed in this regard. All taxes for which set off or credit is available or are refundable/ refunded may not be included. Discounts are to be included.	Value of trading: selling price of a product is Rs 250 and the purchase price is Rs 200, the difference is Rs 50 or Rs 20 (i.e. Rs 200 x 10%) whichever is higher will be considered as value of exempted service for the purpose of payment of amount @6% or for proportionate reversal of credit. <i>Selling price includes discounts but excludes taxes and duties for which credit is allowed.</i>
8	Does the expression "in or in relation" used in Rule 6 override the definition of "input" under Rule 2(k) for determining the eligibility of Cenvat credit?	The definition of "input" is given in Rule 2(k) and Rule 6 only intends to segregate the credits of inputs used towards dutiable goods and exempted goods. While applying Rule 6, the expression "in or in relation" must be read harmoniously with the definition of "inputs".	

Sl. No.	Issue	Clarification	Examples
9	Sub-rules 3B and 3C of rule 6 apply to whole entity or independently in respect of each registration?	The sub-rules 6(3B) and 6(3C) impose obligation on the entities providing banking and financial services (in case of a bank and a financial institution including a non-banking financial company) or life insurance services or management of investment under ULIP service. The obligation is applicable independently in respect of each registration. When such a concern is exclusively rendering any other service from a registered premise, the said rules do not apply. In addition to BoFS and life insurance services if any other service is rendered from the same registered premises, the said rules will apply and due reversals need to be done.	
10	Is the credit available on services received before 1.4.11 on which credit is not allowed now?	The credit on such service shall be available if its provision had been completed before 1.4.2011.	rent-a-cab service

For easy understanding we have presented the entire concept so far explained in the following diagram:

Rule 2(m)	input service distributor means an office of the manufacturer or producer of final products or provider of output service, which receives invoices issued under rule 4A of the Service Tax Rules, 1994 towards purchase of input services and issues invoice, bill or, as the case may be, challan for the purposes of distributing the credit of service tax paid on the said services to such manufacturer or producer or provider, as the case may be.
Rule 2(n)	job worker means processing or working upon of raw material or semi-finished goods supplied to the job worker, so as to complete a part or whole of the process resulting in the manufacture or finishing of an article or any operation which is essential for aforesaid process and the expression "job worker" shall be construed accordingly.
Rule 2(na)	large taxpayer shall have the meaning assigned to it in the Central Excise Rules, 2002;
	A Large Taxpayer Unit (LTU) is one who meets ANY ONE of the following conditions:
	• excise duty in cash (account current) of ₹ 5 crore or more; or
	• service tax in cash (account current) of ₹ 5 crore or more; or
	• advance (income) tax/corporation tax of ₹ 10 crore or more
Rule 2(naa)	manufacturer or producer
	(i) in relation to articles of (jewellery or other articles of precious metals falling under heading 7113 or 7114 as the case may be) of the First Schedule to the Excise Tariff Act, includes a person who is liable to pay duty of excise leviable on such goods under sub-rule of rule 12AA of the Central Excise Rules, 2002;
	(ii) in relation to goods falling under Chapter 61, 62 or 63 of the First Schedule of Excise Tariff Act, includes a person who is liable to pay duty of excise leviable on such goods under sub-rule (1 A) of rule 4 of the Central Excise Rules, 2002.
Rule 2(o)	notification means the notification published in the Official Gazette;
Rule 2(p)	output service (w.e.f 1-7-2012) "Output Service" means any service provided by a provider of service located in the taxable territory but shall not include a service-
	(i) specified in section 66D of the Finance Act, or
	(ii) where the whole of service tax is liable to be paid by the recipient of service.
Rule 2(q)	person liable for paying service tax has the meaning as assigned to it in clause (d) of sub-rule (1) of rule 2 of the Service Tax Rules, 1994.
Rule 2(r)	provider of taxable service include a person liable for paying service tax.
Rule 2(s)	second stage dealer means a dealer who purchases the goods from a first stage dealer.
Rule 2(t)	words and expressions used in these rules and not defined but defined in the Excise Act or the Finance Act shall have the meaning respectively assigned to them in those Acts.

Types of CENVAT Credit

In terms of Rule 3 of CENVAT Credit Rules, credit is available to the manufacturer of excisable goods which either may be dutiable or non dutiable and the provider of taxable service. CENVAT credit is not available to the dealer as the dealer does not engage himself in any processing amounting to manufacture as defined under law which would entitle him to CENVAT credits and therefore, merely passes on the CENVAT benefit which is equal to the duty per unit of the final product, paid by the manufacturer on clearances effected by him. The following duties paid on inputs are eligible as CENVAT Credit for the manufacturer of Excisable goods:

- Basic duty of excise specified under First Schedule to Central Excise Tariff Act.
- Special duty of excise specified under Second Schedule to Central Excise Tariff Act.
- The additional duty of excise under Section 3 of Additional duties of excise (T & TA) Act, 1978 (40

of 1978) **and** wherein restrictions are provided as to utilization i.e. it can be utilized only towards payment of excise duty leviable under additional duties of excise (T & TA) Act 1978.

- (iv) The additional duty of excise leviable under section 3 of Additional duties of excise (Goods of special importance) Act, 1957 (58 of 1957) and it can be utilized towards payment of either basic or special excise duty.
- (v) The National Calamity Contingent duty leviable under section 136 of Finance Act, 2001 (14 of 2001) and this duty can be utilized for payment of NCCD.
- (vi) Education Cess on excisable goods or on taxable services leviable under section 91 read with section 93 of Finance Act, 2004 and this is to be utilized only towards the payment of education cess either on goods or taxable output services.
- (vii) Secondary and Higher education cess on inputs and input services leviable under section 136 read with section 138 of Finance Act, 2007 (22 of 2007) and it can be utilized only towards payment of secondary and higher education cess either on excisable goods or on taxable output service.
- (viii) The additional duty leviable under section 3(5) of the Customs Tariff Act, No restrictions are provided for its utilization but however the duty leviable under this section cannot be availed by service providers.
- (ix) The additional duty of excise leviable under section 157 of the Finance Act and this can be utilized towards payment of additional duty of excise under section 157.
- (x) Additional duty of excise equivalent to duty of excise leviable under section 3 of Customs Tariff Act to offset the effect of Central Excise Duty on locally manufactured goods. This is known as CVD
- (xi) Service tax leviable under section 66, 66A (import of services under erstwhile service tax law) or Section 66B (charging section under negative list based taxation). No restrictions as to utilization is provided and this credit can be utilized towards payment of either excise duty or for paying service tax.
- (xii) Additional duty of excise leviable under section 85 of the Finance Act and this is to be utilized towards payment of additional duty of excise leviable under section 85 of the Finance Act.

However duty paid at the rate of 1% in terms of Notification No. 1/2011-CE dated 1-3-2011 cannot be availed as Credit. It is also set out in proviso to Rule 3(l)(v/7) that credits upto 85% of additional duty of Customs under section 3(1) of Customs Tariff Act, 1975, on ships, boats and other structures for breaking up can be allowed.

CENVAT Credit is available either to the manufacturer or producer of excisable products or provider of taxable services on:

- (a) Inputs received in the factory of manufacture of final products on or after 10th September 2004.
- (b) Capital goods received in the factory of manufacture of final products (except in case capital goods installed outside the factory for generation of electricity for captive use) on or after 10th September, 2004.
- (c) Input services received by the manufacturer of final product on or after 10th September, 2004.
- (d) Any inputs or input services used in the manufacture of intermediate products by a job worker and received by the manufacturer for further use in relation to manufacture.

Transitional Credit

Rule 3(2) provides for availment of credit on inputs when the assessee enters into the tax net for the first time, as in the normal course the manufacturer would have stock in hand (raw materials, consumables, packing materials) as on that date. The removals from that date would suffer duty; therefore credit on the inputs contained in finished goods and work in progress is available and on the other hand any

assessee who opts out of CENVAT scheme should also reverse the credit contained in the raw material, finished goods and work in progress. For availing the transitional credit, the inputs must satisfy all the conditions as to definition of inputs under Central Excise Law. This provision is mainly invoked by SME units availing the benefit of Notification No. 8/2003-CE as they are required to pay duty on crossing ₹ 150 lacs and avail credit while at the end of the year they are required to reverse the credit on excising the option available under Notification No. 8/2003-CE.

3.3 UTILIZATION OF CENVAT CREDIT

Rule 3: Cenvat Credit allowed or may be utilized for various types of duties and taxes explained under the sub rules of rule 3.

Cenvat Credit allowed or may be utilized for various types of duties and taxes explained under the sub rules of rule 3.

As per Rule 3(4) of CENVAT Credit Rules 2004, credit may be utilized for payment of

- (a) any duty of excise on any final products or
- (b) an amount equal to CENVAT credit taken on inputs if such inputs are removed as such or after being partially processed; or
- (c) an amount equal to the CENVAT credit taken on capital goods if such capital goods are removed as such; or

an amount under sub-rule (2) of rule 16 of Central Excise Rules, 2002 (it means if the process to which the goods are subjected before being removed does not amount to manufacture, the manufacturer shall pay an amount equal to the CENVAT credit taken) service tax on any output service.

The following table will provide clear picture in respect of claiming of credit.

Particulars	BED	2% EDU. Cess	1% EDU. Cess	Remarks
Finished Goods	XXXX	XX	XX	
OUTPUT SERVICE	XXXX	XX	XX	
AMOUNT	XX	--	--	AMOUNT DOES NOT ATTRACT CESS
LESS: C.C. ON I.G.	(XX)	(XX)	(XX)	
LESS: C.C. ON I.S.	(XX)	(XX)	(XX)	
LESS: C.C. ON C.G.	(XX)	(XX)	(XX)	UPTO 50% 1ST YEAR
LESS: C.V.D.	(XX)	--	--	Equal to B.E.D.
LESS: SPL. CVD	(XX)	--	--	Equal to VAT / CST
NET PAYABLE	XX	XX	XX	

C.C. ON I.G = cenvat credit on input goods

C.C. ON I.S = cenvat credit on input services

C.C. ON C.G = cenvat credit on capital goods

C.V.D. = countervailing duty (also called as additional customs duty)

SPL. CVD = special countervailing duty (also called as special additional customs duty)

Rule 3(1)(i): Additional Customs Duty (i.e. CVD) Imported Goods

Ships, boats and other structures imported for breaking up which will attract excise duty falling under 8909 00 00, because various items like washing machine, furniture, air condition machine and so on will come out. Therefore, CVD paid on account of import of ships, boats allowed as cenvat credit only to the extent of 85% (w.e.f 1.3.2011) while paying excise duty on products extracted from ships, boats or other structures.

Rule 3(2): Ceases to be exempted

Manufacture is allowed to take cenvat credit lying in stock or in process (work in progress) or inputs contained in the final goods lying as stock on the date on which any goods manufactured by the said manufacturer ceases to be exempted goods (i.e. goods become dutiable). The same provision is also applicable for service provider rule 3(3).

3.4 REVERSAL OF CENVAT CREDIT

Rule 3(5) Removal of Goods as such

When inputs or capital goods, on which CENVAT credit has been taken, are removed as such from the factory, or premises of the provider of output service, the manufacturer of the final products or provider of output service, as the case may be, shall pay an amount equal to the credit availed in respect of such inputs or capital goods and such removal shall be made under the cover of an invoice referred to in rule 9 of the Cenvat Credit Rules, 2004.

It is provided that if the manufacturer of goods or the provider of output service fails to pay the amount payable under sub-rules (5), (5A) and (5B) of Rule 3 (Payment on removal of Inputs/Capital goods as such or after use and write off of Inputs/Capital goods), it shall be recovered, in the manner as provided in rule 14, for recovery of CENVAT Credit wrongly taken.

Exceptions:

- (a) Cenvat credit not required to be reversed if input goods or capital goods removed outside the premises of the provider of output service for providing the output service;
- (b) Cenvat credit shall not be required to be reversed where any inputs are removed outside the factory for providing free warranty for final products.

Rule 3(5A) Removal of Capital goods after use (w.e.f. 1-4 -2012)

If the capital goods, on which CENVAT credit has been taken, are removed after being used, whether as capital goods or as scrap or waste, the manufacturer or provider of output services, shall pay

- (a) an amount equal to the CENVAT Credit taken on the said capital goods reduced by the percentage points calculated by straight line method as specified below for each quarter of a year or part thereof from the date of taking the CENVAT Credit or
- (b) equal to excise duty payable on transaction value (i.e. Sale value)
- (c) WHICHEVER IS HIGHER

**Rule 3(6): The buyer can avail Cenvat credit of the amount paid:**

The buyer can avail Cenvat credit of the amount paid on removal of the capital goods.

Rule 3(5B): CENVAT credit to be reversed/paid

Any inputs or capital goods before being put to use, are written off fully or partly or any provision is made in books of account to write off fully or partially, the manufacturer or service provider is required to pay fully an amount equal to CENVAT credit taken in respect of such inputs or capital goods (w.e.f. 1-3-2011).

Rule 3(5C): Damage/Destruction of Finished goods

Earlier, Circular No. 800/33/2004 provided for reversal of CENVAT credit where the excise duty on finished goods had been remitted under Rule 21 on account of damage or destruction etc. and this is now provided for in Rule 3(5C). Where the duty of excise on goods manufactured or produced is remitted u/r 21, the credit on inputs used in manufacturing or producing such goods would have to be reversed if the same had been availed earlier. The reversal is only in respect of inputs and not required for input services or for that matter capital goods.

Example 7: Y Ltd. manufactured cars which have been destroyed by fire within the factory. If Y Ltd. obtained remission of duty on finished goods, then duty on input goods had availed as CENVAT credit should be reversed.

Rule 3(7): CENVAT Credit on purchases from EOU/EHTP/STP

Goods removed from a 100% Export Oriented Unit to Domestic Tariff Area are liable to pay excise duty. As per Rule 17 of Central Excise Rules, 2002 goods shall be removed from a 100% Export Oriented Unit

to Domestic Tariff Area under an invoice by following the procedure specified in rule 11 of CENVAT Credit Rules, 2004, and the duty leviable on such goods shall be paid by utilizing the CENVAT credit or by crediting the duty payable to the account of the Central Government in the manner specified in rule 8 of the Central Excise Rules, 2002 [CCEx. & Cus. v Suresh Synthetics (2007) (SC)].

As per present law, duty on clearances of goods to DTA from 100% EOU will be equal to 50% of basic customs duty, countervailing duty under section 3(1) of the Customs Tariff Act, 1975 plus special additional duty under section 3(5) of Customs Tariff Act, 1975, if applicable (i.e. VAT exempted), and cess as applicable.

Example 8 : M/s X Ltd (a unit of 100% EOU) sold goods to M/s A Ltd. for ₹ 20 lac. BCD @10%, CVD 16% and Spl. CVD @4% (VAT exempted) are applicable.

Find the total duty of excise. How much Cenvat Credit allowed to M/s A Ltd. Answer:

Particulars	Value in ₹	Workings
Assessable value	20,00,000	
Add: Basic Customs Duty 10%	1,00,000	20,00,000 X 10% X 50%
Balance	21,00,000	
Add: CVD @16%	3,36,000	21,00,000 X 16%
Balance	24,36,000	
Add: 2% CESS	8,720	4,36,000 X 2%
Add: 1% SAH CESS	4,360	4,36,000 X 1%
Balance	24,49,080	
Add: SPL. CVD 4%	97,963	24,49,080 X 4%
Value of import	25,47,043	

Cenvat Credit allowed is ₹ 4,33,963 (i.e. CVD + Spl. CVD)

Rule 4: Conditions for availing CENVAT Credit

In all taxation laws, the benefit is always available with some Conditions and the conditions for utilizing the CENVAT credits are provided in Rule 4 of CENVAT Credit Rules 2004:

1. The CENVAT Credit in respect of inputs can be availed immediately on receipt of the inputs in the factory of the manufacture and in respect of final products falling under chapter 7113, the CENVAT on inputs may be taken immediately on receipt of inputs in the registered premises of the person who gets the final products manufactured on his behalf on job work basis subject to the condition that inputs are used by the job worker for manufacturing such final product. Physical receipt of inputs is very important for availment.

Further CENVAT credit in respect of inputs may be taken by the provider of output service when the inputs are delivered to such provider, subject to maintenance of documentary evidence of delivery and location of the inputs.

2. The CENVAT Credit in respect of capital goods received in a factory at any point in a given financial year shall be taken only to the extent of 50% of the duty paid. [Manufacturer eligible for SSI exemption would be eligible to avail 100% in the 1st year]

Further CENVAT credit in respect of capital goods may be taken by the provider of output service when the capital goods are delivered to such provider, subject to maintenance of documentary evidence of delivery and location of the capital goods.

3. Rule 4(2)(a)) which provides for availing credits on receipt of capital goods into factory, is amended w.e.f. 1-4-2011, to state that the CENVAT credit would be allowed even on capital

goods which is received outside the factory and used for generation of electricity for captive used in factory.

4. However if the capital goods are cleared as such in the same financial year, whole of the duty paid shall be taken as CENVAT. Availment of Credit upto 50% in the year of receipt is not applicable to additional duty of excise levied under section 3(5) of Customs Tariff Act. Similar to what is stated in the aforesaid clause, physical receipt is important for availment of CENVAT credit. Facility has been provided to SSI units that are eligible to avail the benefit of Notification No. 8/2003-CE to take the full CENVAT credit on capital goods in one installment in the year of receipt of goods.
5. The balance of CENVAT credit may be taken in any financial year subsequently only if the capital goods are in the possession of the manufacturer and in case the manufacturer has not availed duty of excise in the year of procurement, then entire credit would be available in the next year. This requirement as to possession in the subsequent year would not apply to components, spares and accessories, moulds, tools and dies and refractories and refractory materials.
6. The manufacturer is not expected to own the capital goods for the purpose of availment, relaxations are provided in Rule 4(3) allowing credit in respect of capital goods even if the capital goods are acquired either on lease, hire or loan agreement from a financing company.
7. Rule 4(4) provides that CENVAT credit in respect of capital goods shall not be allowed on such value of capital goods representing duty when the manufacturer has claimed depreciation under section 32 of Income Tax Act on the said amount of duty. In other words, the manufacturer or the service provider cannot claim CENVAT credit and again include the CENVAT amount in the cost of the capital goods for the purpose of claiming depreciation.
8. Rule 4(5)(b) has been amended during 2010 budget changes to provide that CENVAT credit shall be allowed in respect of jigs, fixtures, moulds and dies sent by a manufacturer of final products to another manufacturer for production of goods or to a job worker for the production of goods on his behalf. Therefore, these items can also be sent to another manufacturer for manufacture of goods as per his specifications.
9. Rule 4(7) provided prior to 1-4-2011 that credit can be availed on input services only after making payment of value and service tax. But after 01.04.2011, it is amended to say that the credit can be taken on receipt of invoice. However the payment for the same should be made within three months of date of invoice. If the payment is not made the credit availed should be reversed. Subsequently on making payment, the credit reversed can be taken.
10. The Rule 4 (7) is amended by way of proviso, w.e.f. 1-4-2011, to state that when any payment made towards the input service is returned then the manufacturer or service provider who has taken the credit on such input service shall pay proportionate amount to the CENVAT availed in respect of such amount returned. This payment can be by utilizing the CENVAT credit or otherwise.

3.5 REFUND OF CENVAT CREDIT

Rule 5: Refund of Cenvat Credit

Following the amendment in Rule 5, the Government has issued a fresh Notification No. 27/2012 –CE (N.T.) dated 18 June 2012 (the Notification) which has superseded earlier Notification in this regard i.e. Notification No. 5/2006 – CE (N.T.) dated 14 March 2006. The Notification prescribes new procedures, safeguards, conditions and limitations with respect to the manner in which the refund would be claimed by the exporter of goods / services.

The key changes are as under:

- (a) In case of person exporting goods and services simultaneously, option has been provided to submit two refund claims, one in respect of export of goods and the other in respect of export of services;
- (b) Option to submit monthly claims under certain circumstances has been withdrawn. Therefore, every person will now have to file the refund claim on a quarterly basis;
- (c) In addition to the maximum cap provided in Rule 5 (to the extent of export turnover / total turnover), the Notification further provides for a restriction, wherein the amount of refund claim can neither exceed the closing balance of credit lying at the end of quarter to which the refund claim relates nor the balance of credit lying at the time of filing of refund claim;
- (d) The amount of refund would have to be debited to CENVAT credit amount at the time of filing of such claim. However, if the sanctioned amount of refund is less than the amount of refund filed, the difference may be taken back as credit by the claimant;
- (e) Credit is being allowed on motor vehicles (except those of heading nos. 8702, 8703, 8704, 8711 and their chassis).

The Credit of tax paid on the supply of such vehicles on rent, insurance and repair shall also be allowed;

- (f) Credit of insurance and service station service is being allowed to –
 - (i) Insurance companies in respect of motor vehicles insured and re-insured by them; and
 - (ii) Manufacturers in respect of motor vehicles manufactured by them.
- (g) At present, credit on goods can be taken only after they are brought to the premises of the service provider. Rule 4(1) and 4(2) are being amended to allow a service provider to take credit of inputs or capital goods whenever the goods are delivered to him, subject to specified conditions.
- (h) Rule 7 for input service distributors is being amended to provide that credit of service tax attributable to service used wholly in a unit shall be distributed only to that unit and that the credit of service tax attributable to service used in more than one unit shall be distributed prorata on the basis of the turnover of the concerned unit to the sum total of the turnover of all the units to which the service relates.
- (i) Rule 9(1) (e) is being amended to allow availment of credit on the tax payment challan in case of payment of service tax by the service receiver on reverse charge basis.

W.e.f 1.4.2012 Simplified scheme introduced for exporter and service providers who are exported goods and services.

$$\text{REFUND AMOUNT} = \frac{\text{EXPORT TURNOVER OF GOODS \& SERVICE}}{\text{TOTAL TURNOVER}} \times \text{Net CENVAT CREDIT}$$

EXPORT TURNOVER	VALUE ₹
DUTIABLE F.G. EXPORTED DURING THE RELEVANT PERIOD	XXXX
INTERMEDIATE PRODUCTS CLEARED FOR EXPORT DURING RELEVANT PERIOD	XXXX
TOTAL	XXXX

EXEMPTED GOODS EXPORTED REMAINS CALLED AS EXEMPTED GOODS ONLY

Export Turnover of Service	Value ₹
Payments received during the relevant period for export service	XXXX
Export services whose provision has been completed for which payment had been received in advance	XXXX
Less: Advance received for export of services for which services not completed during the relevant period	XXXX
Total	XXXX

Total Turnover	Amount ₹
Dutiable goods cleared during relevant period for export as well as for D.T.A	XXXX
Exempted goods cleared during relevant period for export as well as for D.T.A	XXXX
Export of services and services provided in D.T.A	XXXX
Input goods and capital goods removed as such against an invoice for the relevant period - rule 3(5)	XXXX
Total	XXXX

Net Cenvat Credit	Amount ₹
Total cenvat credit on input goods and input services	XXXX
Less: Amount reversed for the relevant period as per rule 3(5c) of CCR	(XXX)
Total	XXXX

Example 7:	Export of dutiable goods	= ₹ 60,000
	Domestic turnover	= ₹ 30,000
	Cenvat Credit	= ₹ 4,500
	Excise duty Liability	= ₹ 3,708

Answer:

Refund is ₹ 792

$(₹ 60,000 / ₹ 90,000) \times ₹ 4,500 = ₹ 3,000$

Or

Cenvat Credit balance = ₹ 792 (i.e. 4500 – 3708)

Whichever is less.

Refund claim should be after paying excise duty liability.

Note: Time limit for claiming refund is ONE year from the date of provision of the services.

3.6 OBLIGATION OF A MANUFACTURER OR PRODUCER OF FINAL PRODUCTS AND A PROVIDER OF TAXABLE SERVICES

Rule 6: Obligation of a manufacturer or producer of final products and a provider of taxable service

Option 1: As per rule 6(2) of the CENVAT Credit Rules, 2004 (w.e.f. 1-4-2011)

If separate accounts maintained for the receipt, consumption and inventory of inputs, then the assessee shall take CENVAT credit on inputs which are used:-

in or in relation to the manufacture of dutiable final products excluding exempted goods; and for the provision of output services excluding exempted services.

If separate accounts maintained for the receipt and use of input services, then the assessee shall take CENVAT credit on input services which are used:-

- in or in relation to the manufacture of dutiable final products, excluding exempted goods, and their clearance upto the place of removal; and
- for the provision of output services excluding exempted services

If the capital goods used by the manufacturer or service provided for dutiable as well as non-dutiable goods and for taxable services as well as exempted services then the available Cenvat Credit can be claimed fully (i.e. upto 50% in the first year of receipt and the balance in the subsequent years).

If separate accounts are not maintained

In this case the manufacturer or service provider has following three options:

Option 2: As per rule 6(3)(i) of the Cenvat Credit Rules, 2004, *pay an amount:*

The manufacturer of goods shall pay an amount equal to 6% of 'value' of exempted goods (w.e.f. 1-4-2012) and the provider of output services shall pay an amount equal to 6% (w.e.f. 1-4-2012) of 'value' of the exempted services.

(Or)

Option 3: As per rule 6(3) (ii) of the Cenvat Credit Rules, 2004, pay an amount proportionately attributable to CENVAT credit utilized for exempted final product and exempted output services as provided in rule 6(3A) of the Cenvat Credit Rules, 2004.

Option 4: As per rule 6(3)(iii) of the Cenvat Credit Rules, 2004, maintain separate account for inputs and pay 'amount' as determined under rule 6(3A) in respect of input services (w.e.f. 1-4-2011).

Goods Exported under bond are not exempted goods: Final products 9dutiable goods0 are exported under bond without payment of duty. They are not exempted goods. Hence, an amount @6% is not required to be paid. At the same time proportionate reversal of CENVAT credit is also not required as per rule 6(6)(v) of the Cenvat Credit Rules, 2004. Exported goods are considered as dutiable goods for the purpose of calculation of formulae as per rule 6(3A).

Rule 6(6A): the provisions of rule 6(1), 6(2), 6(3) and 6(4) shall not be applicable in case the taxable services are provided, without payment of service tax, to a unit in a Special Economic Zone or to a Developer of a Special Economic Zone for their authorized operations.

Important points with regard to Rule 6:

- (i) Pay an 'Amount' to the department without charging Education cess and Secondary and 1-higher education cess.
- (ii) The buyer of exempted product is not eligible to get the CENVAT credit. Hence, the buyer of such exempted goods will not be eligible to avail CENVAT credit of 'amount' paid to the manufacturer or service provider (CBE & C circular No. 870/08/2008-C.Ex., dated 16-5-2008).
- (iii) At the end of the year, assessee should calculate the ratios on actual basis and make fresh calculations and pay difference if any on or before 30th June. If any excess is paid, such an excess amount can be adjusted in CENVAT credit.
- (iv) Delay in payment of shortfall amount will attract interest @ 24% per annum after the due date (i.e. 30th June.) till the date of payment of short amount.
- (v) If assessee opts to pay ₹ 'amount' on exempted services under 6(3)(i) of Cenvat credit Rules, 2004, the amount will be calculated on the value so exempted under abatement scheme. For example Mr. Raj provider of commercial construction services opted abatement 67%. Gross value of contract is ₹ 100 lakhs. Exempted services are ₹ 67 lakhs and taxable services are ₹ 33 lakhs. Hence, he is liable to pay service tax on ₹ 33 lakhs and ₹ 'amount' @6% on ₹ 67 lakhs.

(vi) Value for purpose of Rule 6(3) and 6(3A) of the Cenvat Credit Rules, 2004 (w.e.f. 1-4-2011): Assessee has to either pay ₹ amount' on value of exempted goods or services as per rule 6(3) or opt for proportionate reversal of credit as per rule 6(3A). As per rule 6(3D) of the Cenvat Credit Rules, 2004, ₹ Value' in both the cases will be as follows:

- (a) Gross amount of works contract is ₹ 1,00,000 were service provider opted for composition scheme (i.e. @4.8%). Service tax will be ₹ 4,800. Hence, value of exempted services is ₹ 40,000 (i.e. $1: 4,800 \times 100/12$).
- (b) Provider of commercial construction services opted abatement 67%. Gross value of contract is ₹ 100 lakhs. Exempted services are ₹ 67 lakhs and taxable services are ₹ 33 lakhs. Hence, he is liable to pay service tax on ₹ 33 lakhs and 'amount' @6% on ₹ 67 lakhs. That is value of exempted services is ₹ 67 lakhs.
- (c) In case of trading goods, selling price of a product is ₹ 250 and the purchase price is ₹ 200, the difference is ₹ 50 or ₹ 20 (i.e. ₹ 200 x 10%) whichever is higher will be considered as value of exempted service for the purpose of payment of amount @6% or for proportionate reversal of credit.

Rule 6(3B): Bank or NBFC services

A substantial part of the income of a bank is from investment or by way of interest in which a number of inputs and input services are used (i.e. exempted as well as taxable). Hence, a banking company or a financial institution including NBFC, providing banking and financial services are being obligated to pay an amount equal to 50% of the credit availed on inputs and input services as per rule 6(3B) of the Cenvat Credit Rules, 2004, w.e.f. 1-4-2011. Therefore, other options of payment of amount under Rule 6 shall not be available for this service provider.

Rule 6(3C): Insurance Company services: A substantial part of the income of an insurance company is from investment or by way of interest in which a number of inputs and input services are used (i.e. exempted as well as taxable). Therefore, general insurance services and life insurance services or management of ULIPs, amount payable is equal to 20% of Cenvat credit availed on inputs and input services in the month as per rule 6(3C) of the Cenvat Credit Rules, 2004, w.e.f. 1-4-2011. Therefore, other options of payment of amount under Rule 6 shall not be available for this service provider. However, Rule 6(3C) has been withdrawn w.e.f. 1.4.2012. It means Insurance companies now can avail full cenvat credit.

Rule 6(4): No CENVAT credit shall be allowed on capital goods which are used exclusively in the manufacture of exempted goods or in providing exempted services, other than the final products which are exempt from the whole of the duty of excise leviable thereon under Notification No. 8/2003 namely SMALL SCALE UNIT's

Rule 6(6): Goods sold to EOU, SEZ, EHTP, STP, UN Agencies: Dutiable goods removed without payment of duty to Export Oriented Units (EOUs), Special Economic Zone (SEZ units), Electronic Hardware Technology Park (EHTP), Software Technology Park (STP), United Nations (UN) agencies as per rule 6(6) of Cenvat Credit Rules, 2004, then the Cenvat credit on inputs/capital goods / input services used in the manufacture of such final products shall be allowed. It means CENVAT Credit need not required to be reversed or pay an ₹ amount'. It means these goods are not 'exempted goods'.

Exempted goods cannot be exported under bond & benefit of rule 6(6) of Cenvat Credit Rules, 2004 is not available. i.e. Manufacturer is not eligible to take Cenvat credit of Inputs/capital goods/input services used in such goods. It means these goods are to be considered as exempted goods only.

3.7 INPUT SERVICE DISTRIBUTOR

Rule 7: Manner of distribution of credit by input service distributor (w.e.f. 1-4-2012):

The input service distributor may distribute the CENVAT CREDIT in respect of the service tax paid on the input service to its manufacturing units or units providing output service, subject to the following conditions, namely:-

- (a) The Input service distributor must ensure that such a distribution should not exceed the service tax paid.
- (b) In case an input service is attributable to service use in a unit exclusively engaged in manufacture of exempted goods or exempted services, then such credit of service tax shall not be distributed.
- (c) Credit of service tax attributable to service used wholly in a unit shall be distributed only to that unit; and
- (d) Credit of service tax attributable to service used in more than one unit shall be distributed prorata on the basis of the turnover of the concerned unit to the sum total of the turnover of all the units to which the service relates.

Rule 7A: Distribution of credit on inputs by the office or any other premises of output service provider:

Cenvat credit on input goods and capital goods can be distributed by the service provider only if such person registered as first stage dealer or a second stage dealer.

Rule 8: Storage of input outside the factory of the manufacturer: In exceptional cases, AC/DC may permit the manufacturer considering the nature of goods and shortage of space to store the inputs on which CENVAT credit has been availed, outside the factory premises. Condition may be prescribed to safeguard revenue. This relaxation is available only to inputs and not capital goods.

3.8 DOCUMENTS AND ACCOUNTS

Rule 9: Documents and accounts:

CENVAT Credit can be taken based on the following any documents:

- invoice
- supplementary invoice
- bill or challan
- debit note / credit note

The above documents if does not contain full information then deputy commissoiner or the assistant commissioner of central excise is satisfied that the said goods have been accounted for in the books of the assessee he may allow the Cenvat credit.

Rule 9(4): Purchases from first stage or second stage dealer

Rule 9(4) provides that CENVAT credit in respect of inputs and capital goods shall be allowed only if the dealer has maintained proper records and should indicate that the goods are cleared from the duty paid stock. CENVAT Credit shall be allowed only if the duty portion is expressly provided on the invoice i.e. on pro rata basis. The dealer should ensure that he has proper stock records to take care of this issue.

Rule 9(5): Admissibility of CENVAT Credit

Rule 9(5) of CENVAT Credit Rules provides that it is the duty of the manufacturer to prove the admissibility of credit and the manufacturer shall maintain proper records for receipt, disposal, consumption and

inventory of input and capital goods. The manufacturer shall also maintain a statement presenting the information as to value, availment and utilization of CENVAT credit and the name of the manufacturer or dealer from whom the inputs or capital goods were procured. In short the burden of proving the admissibility is on the person availing the CENVAT.

Return of CENVAT Credit

The manufacturers availing CENVAT benefits are required to file a CENVAT credit return along with monthly return within ten days' from the close of the month. The due date for filing of quarterly returns for SSI units is changed wherein it has to be filed within 10 days from the end of the quarter instead of 20 days from the end of the quarter. The dates are aligned with the date for Non-SSI units so that all the returns are required to be filed by 10th of the month following the said month for non SSI's and 10th of the month following the quarter for SSI units.

Rule 9A: Information in respect of Principal Inputs

The information that is required to be furnished under Rule 9A is:

- The Central Government has notified manufacturers who have remitted excise duty of more than one hundred lakhs during the preceding financial year to furnish the declaration in form ER 5 and monthly return in for ER 6.
- The manufacturer shall file a declaration in form ER 5 containing the information as to the excisable goods manufactured or to be manufactured and also the quantity of principal inputs required for manufacture of one unit of finished goods. The said declaration is to be made annually and filed within 30th April. If there is any alteration to the information already provided in ER 5, then the manufacturer shall within 15 days of such change, inform the superintendent of central excise.
- The manufacturer shall file a return in form ER 6 within 10 days from the end of month containing the details as to the quantity of finished goods manufactured and information relating to receipt and consumption of each principal input.
- Explanation to Rule 9A was provided to explain principal inputs to mean any input which is used in the manufacture of final product and the cost of such input is not less than 10% of the total cost of raw material for the manufacture of unit quantity of a given final product.

Rule 10: Transfer of CENVAT Credit

In terms of Rule 10 of CENVAT Credit Rules, relaxations in the form of transfer of credit is available to manufacturer of final products when the manufacturer shifts his factory to another location or transfers his business on account of change in ownership or on sale, merger, amalgamation, lease or transfers his property to a joint venture with the specific provision for transfer of liabilities, and only then the manufacturer shall be allowed to transfer the unutilized CENVAT credit to the transferee.

The transfer of unutilized credit is allowable only if the stock of inputs or inputs in process or capital goods is also transferred along with the factory and it should be duly accounted to the satisfaction of ACCE or DCCE.

Rule 10A: Inter-unit transfer of Additional CVD

A new Rule 10A is introduced wherein if manufacturer has more than one registered premises, it provides for transfer of CENVAT Credit of additional CVD (additional duty leviable under sub-section (5) of section 3 of the Customs Tariff Act) from one unit to another unit, such credit lying in balance at the end of quarter.—

The credit can be transferred as follows:

- (i) making an entry for such transfer in the documents maintained for CENVAT Credit;
- (ii) issuing a transfer challan containing registration number, name and address of the registered premises transferring the credit and receiving such credit, the amount of credit transferred and the particulars of such entry as mentioned in clause (i) above,

(iii) based on such transfer challan, the recipient premises may take CENVAT credit

The above benefit is restricted if the transferring unit is the benefit of following notification:

- (a) 32/99- CE -Goods produced in specified areas like north-east, J&K, Uttarakhand, Himachal Pradesh, Sikkim and Kutch (Gujarat)
- (b) 33/99-CE specified goods of factories in North-East (Assam, Tripura, Meghalaya, Meghalaya, Mizoram, Manipur, Nagaland or Arunachal Pradesh)
- (c) 39/2001-CE - Exemption to excisable goods cleared from units in Kutch (Gujarat)
- (d) 56/2002-CE - Exemption to all goods produced (except cigars, tobacco and its products, soft drinks and their concentrates) produced in Jammu & Kashmir by units located in Industrial Growth Centre, IIDC, EPIP or industrial Estate.
- (e) 57/2002-CE - exemption to specified goods produced by units in Jammu & Kashmir
- (f) 56/2003-CE - exemption to specified goods cleared from new units in Sikkim
- (g) 71/2003-CE - Exemption to all goods produced(except cigars, tobacco and its products, Specified Carry bags, mineral oils, branded aerated beverages, pollution causing paper and paper products) Cleared from specified areas of Sikkim by unit in Industrial Growth Centre, IIDC, EPIP or industrial Estate from excise duty other than duty paid on account of Cenvat credit
- (h) 20/2007-CE Exemption to north East including Sikkim on all goods (except as specified) cleared from Assam, Tripura, Meghalaya, Mizoram, Manipur, Nagaland or Arunachal Pradesh or Sikkim from duty Paid other than by utilization of Cenvat credit.
- (i) 1/2010-CE - exemption to all goods except cigarettes, cigars, tobacco products and soft drinks or their concentrates cleared from new units (established/expanded after 6-2-2010) in J&K.

3.9 OTHER PROVISIONS

Rule 11: Transitional provision:

Final product fully exempted from Excise Duty due to any one of the following reasons:

- (a) As per Rule 11(2) of the CENVAT Credit Rules, 2004, a manufacturer claiming CENVAT credit on inputs or input services, subsequently opt for full exemption from excise duty under Notification No. 8/2003 (i.e. Small Scale Industrial (SSI) exemption).
- (b) As per Rule 11(3) of the CENVAT Credit Rules, 2004, a manufacturer of final product opts for full exemption from excise duty, if the said final products are exempted absolutely under section 5A of the Central Excise Act, 1944.
- (c) As per Rule 11(4) of the CENVAT Credit Rules, 2004, a service provider opts for full exemption from payment of tax on his output service.

In such cases, an '*amount*' is payable equivalent to CENVAT credit taken on such —

- inputs lying in stock or
- inputs lying in process or
- inputs contained in final products or
- input services.

The said '*amount*' can be paid by utilizing the CENVAT credit receivable account. The balance CENVAT credit, if any, receivable will lapse.

Rule 12: Special Dispensation in respect of inputs manufactured in factories located in specified areas of North East region, Kutch district of Gujarat, State of Jammu & Kashmir and State of Sikkim where a manufacturer has cleared any inputs or capital goods, in terms of notifications of the Govt. of India, the cenvat credit on such inputs or capital goods shall be admissible as if no portion of the duty paid on such inputs or capital goods was exempted under any of the said notifications.

Rule 12A: Large Tax payer Unit (LTU) — Special Enabling provisions

Large tax payer means any person, engaged in the manufacture or production of goods, except the goods falling under chapter 24 or Pan Masala falling under chapter 21 of the First schedule of the Central Excise Tariff Act, 1985 and has remitted during the financial year preceding the year under consideration:

- (i) Duties of excise of more than rupees five hundred lakhs in cash or through account current; or
- (ii) Advance tax of more than rupees ten hundred lakhs, under the Income Tax Act, 1961.

Rule 12A facilitates the large tax payer to remove CENVATABLE inputs or capital goods except petrol, diesel and LDO without payment of duty under CENVAT Credit Rules either under the cover of an invoice or challan to another premise for further use in the manufacture of final products in the recipient premises provided that:

- The goods are manufactured using the said transferred inputs and are cleared on payment of duty or exported under bond or letter of undertaking within a time span of six months from the receipt of such inputs.
- Any other conditions that are prescribed by the Commissioner of Central Excise would have to be followed.
- Explanation is provided prescribing the requirements that the transfer challan shall be serially numbered containing registration number, name, address of the transferor unit, description, classification, time and date of removal, mode of transport and vehicle registration number, quantity of goods and registration number and name of the consignee.

If default is made in following the above mentioned procedure or conditions stipulated by the Commissioner of Central Excise or the inputs are cleared as such, then the large tax payer shall pay an amount equal to the credit taken in respect of such inputs along with interest specified under Rule 14 of the CENVAT Credit Rules.

Yet another proviso is added to recover CENVAT credit availed on capital goods by the LTU, when the capital goods are exclusively used in manufacture of exempted goods or such goods are cleared from recipient premises. However in this case too recovery is made from the recipient's premises along with interest specified under Rule 14 of CENVAT Credit Rules.

The above conditions shall not be applicable if the recipient is availing either the benefits under Notifications provided below or the unit is an export oriented unit or a unit located in electronic hardware technology park (EHTP) or software technology park (STP).

No 32/99, dt. 8-7-1999	33/99 dt. 8-7-1999	39/2001 dt. 31-7-2001
56/2002, dt. 14-11-2002	57/2002 dt. 14-11-2002	56/2003 dt. 25-6-2003
71/2003, dt. 9-9-2003	20/2007 dt. 25-4-2007	01/2010-CE dt. 6-2-2010

The other salient features of this Rule are provided below:

- The first recipient premise may avail the benefit of CENVAT credit of the amount paid under the proviso discussed above as if the duty is discharged by the sender premises and the document should expressly provide duty details.
- The CENVAT credit of any specified duties availed under Rule 3 of CENVAT Credit Rules shall neither be denied or varied in respect of input or capital goods if removed as such under Rule 12(1) and cannot be treated as removed without payment of duty under Rule 3(5) of the CENVAT Credit

Rules or the said inputs or capital goods are used in the manufacture of intermediate goods which are removed without payment of duty under Rule 12BB of Central Excise Rules.

- The large tax payer unit (LTU) shall submit a monthly return for each of the registered premises.

Rule 12A (4): Transfer of Credits within units

The LTU has the facility to transfer the credits available from one registered manufacturing unit to another registered premises by making an entry for such transfer in a record maintained under Rule 9(5) and by issuing a transfer challan containing the particulars as to registration number, name and address of the registered premises transferring the credit as well as receiving such credit and amount, the challan is specified to enable the recipient to avail the credit.

Rule 12A (4) provides for transfer of credit from one unit to another but correspondingly Rule 3 which speaks about availment of CENVAT credit and Rule 9 which states the documents for availment has neither spoken about availment of credit nor states that CENVAT credit can be availed by the recipient unit on the basis of transfer challan, but merely provides that utilization is subject to the conditions/restrictions specified in Rule 3(7)(b) of CENVAT Credit Rules.

Rule 12AA: Power to impose restrictions in certain types of cases like misuse of credit Central Govt. of India is empowered to impose restrictions on manufacturer, first stage and second stage dealer or an exporter if they misuse of CENVAT Credit.

Nature of restrictions:

- Restrictions on utilization of CENVAT Credit
- Suspension of registration in case of a dealer and type of facilities to be withdrawn

Rule 13: Power of Central Government to notify goods for deemed CENVAT credit:

The Central Govt. may, by notification, declare the input or input service on which the duties of excise, or additional duties of customs or service tax paid, shall be deemed to have been paid at such rate or equivalent to such amount as may be specified in that notification and allow CENVAT CREDIT of such duty or tax deemed to have been paid in such manner and subject to such conditions as may be specified in that notification even if, in the case of input, the declared input, or in the case of input service, the declared input service, as the case may be, by the provider of taxable service, declared in that notification, but contained in the said final products, or as the case may be, used in providing the taxable service.

Rule 14: Recovery of CENVAT credit wrongly taken or erroneously refunded (w.e.f 1-4-2012):

Where the CENVAT Credit has been taken and utilized wrongly or has been erroneously refunded, the same along with interest shall be recovered from the manufacturer or the provider of the output service and the provisions of sections 11 A and 11 AA of the Excise Act, or section 73 and 75 of the Finance Act, shall apply mutatis mutandis for effecting such recoveries.

Rule 15: Confiscation and penalty in case of wrongly or in contravention of any provisions of these rules:

If any person, takes or utilizes CENVAT Credit in respect of input or capital goods or input services, wrongly or in contravention of any of provisions of these rules, then, all such goods shall be liable to confiscation and such person shall be liable to a penalty: ₹ 2,000 or duty / service tax on such goods or services whichever is higher is the penalty.

Rule 15A: General penalty:

Whoever contravenes the provisions of these rules for which no penalty has been provided in the rules, he shall be liable to a penalty which may extend to ₹ 5,000.

Rule 16: Supplementary provisions (i.e. any notification, circular, instruction, standing order, trade notices or other orders issued under the CENVAT Credit Rules, 2002 or the Service Tax Credit Rules, 2002 by the Central Govt., shall be deemed to be valid under CENVAT Credit Rules, 2004.

PRACTICAL PROBLEMS WITH ANSWERS

Payment of Excise Duty after Adjusting Cenvat Credit

Example 9: An assessee cleared various manufactured final products during June 2012. The duty payable for June 2012 on his final products was as follows:

Basic Excise duty ₹ 2, 00,000, Education Cess as applicable.

During June he received various inputs on which total duty paid by suppliers of inputs was as follows:

Basic Excise Duty ₹ 50,000, Education Cess as applicable.

Excise duty paid on capital goods received during the month was as follows: Basic Excise Duty ₹ 12,000 Education Cess as applicable.

Service Tax paid on input services was as follows:

Service Tax ₹ 10,000 Education Cess ₹ 200 and SAH ₹ 100.

Due date of payment of duty is 5th July 2012. He receives some inputs on 4th July, 2012 on which the excise duty paid is ₹ 1,000 plus education cess as applicable. Compute the amount of excise duty payable by him for the month of June 2012?

Answer :

Excise duty liability for the month of June 2012

Particulars	BED (₹)	ST (₹)	Cess (₹)	SAH (₹)
On final product	2, 00,000		4,000	2,000
Duty payable	2, 00,000		4,000	2,000
Input tax credit	50,000		1,000	500
On other than capital goods				
On capital goods	6,000	-	120	60
On input services	-	10,000	200	100
CENVAT Credit	56,000	10,000	1,320	660
Net duty payable (₹)	1,34,000		2,680	1,340

Note: Input tax credit ₹ 1,000 received during the month of July 2012 can be adjusted against the duty liability due as on 31st July, 2012.

Example 10: A manufacturer purchased certain inputs from Z. The, assessable value was ₹ : 20,000 and the Central Excise duty was calculated at ₹ 3,296 making a total amount of invoice at ₹ 23,296. However, the buyer manufacturer paid only ₹ 20,800 to Z in full settlement of this bill. How much CENVAT credit can be availed by the manufacturer and why?

Answer :

CENVAT credit that can be availed by the manufacturer is ₹ 3,296.

CENVAT credit cannot be reversed just because the supplier of inputs has given some reduction in price after removal of goods or the buyer manufacturer paid only reduced amount than that of invoice [unless supplier of inputs claims and get refund of excise duty paid by him].

[CCE v Trinetra Texturisers 2004 (CESTAT)].

Example 11: Prepare a CENVAT account in the books of A Ltd., and determine the balance as on 31.3.2012 from the following data:-

- (i) Opening balance as on 1.4.2011 ₹ 47,000
- (ii) Inputs received on 15.8.2011 involving excise duty paid ₹ 14,747
- (iii) Purchased a Lathe for ₹ 1,10,300 (excise duty @10.30% inclusive) on 5.10.2011 and received the Lathe into factory on 1.4.2012.
- (iv) On 6.10.2011 paid excise duty on final products @10.30% through CENVAT credit account (cum duty price of the goods ₹ 3,52,960).
- (v) Inputs worth ₹ 2,00,000 (excise duty @16.48%) cleared as such to a job worker on 1.7.2011, these goods were received back on 1.4.2012.
- (vi) Common inputs were used for manufacture of dutiable and exempted final products. Manufacturer opted to pay 6% as an amount on exempted final products. These goods (1,000 units) are cleared from the factory on 1.12.2011 at a price of ₹ 100 per unit inclusive of VAT ₹ 20 per unit.
- (vii) On 15.3.2012 duty paid on input amounting to ₹ 17,867 was taken credit for in the CENVAT account as ₹ 17,687.

Answer :

In the books of A Ltd.

Dr. CENVAT Credit Receivable Account for the Year 2011-12 Cr.

Date	Particulars	Amount (₹)	Date	Particulars	Amount (₹)
1.4.2011	To Opening bal. b/d	47,000	6.10.2011	By Excise duty payable	32,960
15.8.2011	To Bank	14,747	1.12.2011	By Profit and Loss A/c (6% on final goods exempted from duty)	4,800
15.3.2012	To Bank	17,687	28.12.2011	By Profit and Loss A/c (reversal of CENVAT credit on 181 days)	32,960
31.3.2012	To Bank	180	31.3.2012	By Balance c/d	8,894
	TOTAL	79,614		TOTAL	79,614
1.4.2012	To Opening bal. b/d	9,694			

Note:

- (1) Purchased a lathe (i.e. Capital goods) for ₹ 1,10,300 (excise duty @10.30% inclusive) on 5.10.2011 and received the lathe into factory on 1.4.2012.
Excise duty = ₹ 10,300 (i.e. ₹ 1,10,300 x 10.30/110.30).
Up to 50% of ₹ 10,300 is allowed in the year of receipt of capital goods and balance will be allowed in the subsequent year or years. However, lathe received into factory on 1.4.2012, and hence, ₹ 5,150 can be allowed as CENVAT credit in the year 2012-13 and balance in the subsequent year. Thereby, no CENVAT credit is allowed for the year ended 31st March, 2012.
- (2) On 6.10.2011 paid excise duty on final products @10.30% through CENVAT credit account (cum duty price of the goods ₹ 3,52,960).
Excise duty on final goods = ₹ 32,960 (i.e. ₹ 3,52,960 x 10.30 / 110.30)
- (3) Inputs worth ₹ 2,00,000 (excise duty @16.48%) cleared as such to a job worker on 1.7.2011, these goods were received back on 1.4.2012.

In case goods sent for job work are not returned within 180 days from the date of dispatch, then the input tax credit on those goods need to reverse or pay the amount equal to input tax credit availed. Therefore, on 28th Dec 2011 CENVAT credit of ₹ 32,960 has been reversed (i.e. on 181 day).

However, CENVAT credit is allowed only when these goods were returned to factory. In the given case these goods are returned into factory on 1.4.2012, and hence, the manufacturer is eligible to take credit on 1.4.2012.

- (4) Common inputs were used for manufacture of dutiable and exempted final products. Manufacturer opted to pay 6% as an amount on exempted final products. These goods are cleared from the factory on 1.12.2011 at a price of ₹ 100 per unit inclusive of VAT ₹ 20 per unit.

Assessable value = ₹ 80 per unit (i.e. ₹ 100 – ₹ 20)

An Amount = ₹ 4,800 (i.e. 1,000 units x ₹ 80 x 6%)

Example 12: M/s X & Co. Ltd. have cleared their goods manufactured final products during April, 2012 and the duty payable is ₹ 2,40,000 plus education cess as applicable. Given below are the details of excise duty payable by them during the month at the time of purchase of goods.

		₹	
(i)	On inputs (RM)	1,00,000	(Invoice for excise duty of ₹ 20,000 paid was received by the assessee on 4.5.2012)
(ii)	On input service	20,000	
(iii)	On welding electrodes for repairs and maintenance of capital goods	5,000	
(iv)	Fuel (excluding HSD/Petrol)	6,000	
(v)	Storage tank	8,000	
(vi)	Tubes and Pipes (used in the factory)	14,000	
(vii)	Air Conditioner for the office of the Factory Manager	12,000	

Note: All the above payments are exclusive of education cesses as applicable. Find the total duty payable by the assessee for the month of April, 2012 after taking into account the Cenvat credit available.

Answer :

Cenvat Credit receivable as on 30th April 2012:

(value in ₹)

Sl. No.	Particulars	Basic Excise Duty (₹)	Service Tax (₹)	Education Cess @2% (₹)	SAH Education Cess @1% (₹)	Remarks	Workings
(i)	Input Goods	80,000	-	1,600	800	₹20,000 allowed as Cenvat credit in the month of May 2010.	₹ 1,00,000 - ₹ 20,000 = ₹ 80,000
(ii)	Input services		20,000	400	200	It is assumed that input service tax was paid	

(iii)	On welding electrodes for repairs and maintenance of capital goods	2,500		50	25	Considered as capital goods as per the Supreme Court judgment in case of Hindustan Zinc Ltd.	$\text{₹ } 5,000 \times 50\% = 2,500$
(iv)	Fuel (excluding HSD/Petrol)	6,000		120	60	Considered as inputs	
(v)	Storage tank	4,000		80	40	Capital goods	$\text{₹ } 8,000 \times 50\% = \text{₹ } 4,000$
(vi)	Tubes and Pipes (used in the factory)	7,000		140	70	Capital goods	$\text{₹ } 14,000 \times 50\% = \text{₹ } 7,000$
(vii)	Air Conditioner for the office of the Factory Manager	—	—	—	—	Not considered as input goods	
	CENVAT Credit Receivable at the end of April 2012	99,500	20,000	2,390	1,195		

Excise duty payable for the month of April, 2012;

(Value in ₹)

Sl. No.	Particulars	Basic Excise Duty (₹)	Service Tax (₹)	Education @ 2% (₹)	SAH Education Cess @ 1% (₹)	Remarks	Workings
(i)	Output	2,40,000	--	4,800	2,400		
	Total	2,40,000	--	4,800	2,400		

Statement showing total duty payable by the assessee for the month of April 2012.

(Value in ₹)

Sl. No.	Particulars	Basic Excise Duty (₹)	Service Tax (₹)	Education Cess @ 2% (₹)	SAH Education Cess @ 1% (₹)	Remarks	Workings
(i)	Output	2,40,000	--	4,800	2,400		
(ii)	CENVAT Credit Receivable	1,19,500	--	2,390	1,195		$\text{₹ } 99,500 + \text{₹ } 20,000 = \text{₹ } 1,19,500$
	Excise Duty liability after CENVAT Credit.	1,20,500	--	2,410	1,205		

Eligibility of CENVAT Credit

Example 13: C Limited is engaged in manufacturing water pipes. Compute the CENVAT credit admissible to C Ltd. The excise duty paid at the time of purchase of following goods is:—

	(Value in ₹)
Raw Steel	12,000
Water pipe making machine	25,000
Lubricating oil	2,000
Equipments used in the office	10,000
Petrol	15,000
Pollution control equipment	22,000
Components, spares and accessories used in machinery	12,000

Answer :

Calculation of Cenvat Credit admissible to C Ltd.

Particulars	Nature of goods	Value (₹)	Eligibility	Cenvat Credit (₹)
Raw Steel	Other than capital goods	12,000	100%	12,000
Water pipe making machine	Capital goods	25,000	50%	12,500
Lubricating oil	Other than capital goods	2,000	100%	2,000
Equipment used in office	Capital goods	10,000	Not eligible	----
Petrol	Other than capital goods	15,000	Not eligible	----
Pollution control equipment	Capital goods	22,000	50%	11,000
Components, spares and accessories used in machinery capital goods	Capital goods	12,000	50%	6,000
Total Cenvat Credit admissible				43,500

Example 14: Following transactions took place in the factory of A Ltd.:

- An imported consignment of raw materials was received vide Bill of Entry dated 2.12.12 showing the following customs duty payments: Basic Customs duty ₹ 25,000; Additional duty (CVD) ₹ 20,000; Special Additional duty ₹ 5,800.
- A consignment of 1,000 kgs of inputs was received. The Excise duty paid as per the invoice was ₹ 10,000. While the input was being unloaded 50 kgs were damaged and were found to be not usable.
- A vehicle containing machinery was received. The machinery was purchased through a dealer and not from the manufacturer. The dealer's Invoice No. 925, dated 3.4.12 marked 'original for buyer' certified that the Excise duty paid by the manufacturer of machinery was ₹ 24,000. The dealer is registered with the Central Excise Authorities.
- Some inputs for final products were received. These were accompanied by a certified Xerox copy (photo copy) of Invoice No. 286 dated 15.1.2013 indicating that Excise duty of ₹ 6,400, has been paid on inputs. The original or duplicate copies of invoice are not traceable.

Indicate the eligibility of CENVAT Credit in each case under the CENVAT Credit Rules, 2004 with explanations where necessary.

**Answer :**

- (i) CENVAT credit available for the following:
Additional duty (CVD) ₹ 20,000;
Special Additional duty ₹ 5, 800
- (ii) CENVAT credit available for 950 Kgs
Eligible CENVAT credit = ₹ 10,000 x 950/1000 = ₹ 9,500.
- (iii) CENVAT credit can be availed if the goods are purchased from a first or second stage dealer. The eligible CENVAT credit for the first year = ₹ 24,000 x 50% = ₹ 12,000.
The balance CENVAT credit for the second and subsequent years
- (iv) CENVAT credit is not available based on the certified Xerox copy of invoice. CENVAT credit can be availed only when any one of the following invoices available:
(a) Original for buyer
(b) Duplicate for transporter
(c) Triplicate for seller.

However, It is pertinent to note that the High Court held that Cenvat Credit could be taken on the strength of private challans (i.e. other than prescribed documents) as the same were not found fake and there was proper certification that duty has been paid (**CCEx. v Stelko Strips Ltd. 2010 (255) E.L.T. 397 (P&H)**).

Therefore in the given case Xerox copy of invoice can be considered as a valid document for taking CENVAT credit.

Removal of Capital Goods after use

Example 15: X Ltd received capital goods on 15-12-2009 for ₹ 9,00,000 (Excise Duty @ 10.30%). The said machinery was sold for ₹ 5,50,000 from the factory after being used in the manufacture of dutiable goods on 1st July 2012. Excise duty attributable for said machine at the time of removal @12.36%. You are required to compute the amount of CENVAT credit to be reversed.

Answer :

Year	No. of quarters	Workings
2009	1	October to December
2010	4	January to December
2011	4	January to December
2012	3	January to September
Total	12	

Statement Showing CENVAT Credit to be Reversed:

Particulars	Amount (₹)	workings
Cenvat credit taken on capital goods	92,700	9,00,000 x 10.30%
Less: Reduction @2.5% per quarter or part thereof from the date of taking Cenvat credit up to the date of removal 46,350 x 2.5% x 12 quarters = ₹ 13,905 46,350 x 2.5% x 10 quarters = ₹ 11,588	(25,493)	Up to 50% taken on 15-12-2009 (2009-2010) Balance 50% taken on 1-4-2010 (2010-11)
Amount to be paid	67,207	
Or		
Excise duty on transaction value	67,980	5,50,000 x 12.36%
Amount payable or credit to be reversed under Rule 3(5A) of Cenvat Credit Rules, 2004.	67,980	Whichever is higher is required to pay as an 'AMOUNT'

Example 16: S Ltd. purchased 25 computer systems, eligible as capital goods under CENVAT Credit Rules, 2004 on 1.7.2010 paying a duty of ₹ 2,600 on each computer system. However, since these systems became outdated, it sold 20 computer systems out of 25 on 25.6.2012 at a residual value of ₹ 2,000 each. Excise duty on such residual value @12.36%. Determine the amount of CENVAT credit required to be reversed in the financial year 2012-13.

Answer :

Year	No. of quarters	Workings
2010	2	July to December
2011	4	January to December
2012	2	January to June
Total	8	

Statement Showing CENVAT Credit to be Reversed:

Particulars	Amount (₹)	workings
Cenvat credit taken on capital goods	52,000	20 nos. x ₹ 2,600
Less: Reduction:	(31,200)	
Up to 50% (credit taken 1-7-2010)		
26,000 x 10% x 4 quarters = ₹ 10,400		
26,000 x 8% x 4 quarters = ₹ 8,320		
Balance 50% (credit taken on 1-4-2011)		
26,000 x 10% x 4 quarters = 10,400		
26,000 x 8% x 1 quarter = 2,080		
Amount to be paid	20,800	
Or		
Excise duty on transaction value	4,944	2,000 x 20 x 12.36%
Amount payable or credit to be reversed under Rule 3(5A) of Cenvat Credit Rules, 2004.	20,800	Whichever is higher is required to pay as an 'AMOUNT'

Dutiable and non Dutiable Goods Manufactured

Example 17: Mr. A is manufacturing goods with other's brand name. Mr. A has manufactured goods of ₹ 90,00,000 in the FY 201 2-1 3. Out of this, ₹ 70,00,000 are taxable final products and ₹ 20,00,000 are exempt final products.

Excise duty paid on his inputs (excluding education cess and SAH education cess) is ₹ 10,00,000.

Rate of basic excise duty on final products is 14%. Ignore education cess and SAH education cess.

Discuss the options available to Mr. A for availment of CENVAT credit, if he is not able to bifurcate inputs between those used for exempt goods and taxable final products. Calculate CENVAT credit available to him under different options and explain which option is beneficial to him.

Answer :

Option 1:

Maintain separate records for taxable and exempted goods and accordingly take the credit attributable for taxable final goods.

Option 2:

Excise duty on taxable goods	=	₹ 9,80,000	(i.e. ₹ 70,00,000 x 14%)
Less: CENVAT credit allowed	=	₹ (10,00,000)	
Excess Credit	=	₹ (20,000)	
Add: 6% amount payable on exempted goods	=	₹ 1,00,000	(i.e. ₹ 20,00,000 x 6%)
Net amount payable by GAR -7 challan	=	₹ 80,000	

Option 3:

Excise duty payable on taxable goods	=	₹ 9,80,000	
Less: proportionate credit allowed			
(₹ 10,00,000 x ₹ 70 lacs / ₹ 90 lacs)			= ₹ 7,77,778
Net Excise Duty payable by GAR -7 Challan	=	₹ 2,02,222	

Option 2 is beneficial.

Example 18: Maharaja, a manufacturer of dutiable as well as exempted goods, furnishes the following information for the month of May 2012:

- (i) Assessable value of dutiable goods ₹ 250 lakh (rate of duty 16%);
- (ii) Price of exempted goods cleared from the factory ₹ 200 lakh;
- (iii) CENVAT credit of input X (used only in the manufacture of exempted goods) ₹ 10 lakh;
- (iv) CENVAT credit of input Y (used only in the manufacture of dutiable goods) ₹ 15 lakh;
- (v) CENVAT credit of input Z (used commonly in manufacture of exempted as well as dutiable goods but no separate accounts are maintained in respect of such input Z) ₹ 20 lakh; and
- (vi) CENVAT credit of capital goods (used partly for manufacture of exempted goods also) ₹ 25 lakh (total amount of duty).

Compute the amount of excise duty and any other amount payable by Maharaja for the month of May 2012.

Answer:

Excise Duty payable on finished goods	= ₹ 40.00 lakhs	(i.e. ₹ 250 lakh x 16 %)
Add: 6% amount on exempted goods	= ₹ 10.00 lakhs	(i.e. ₹ 200 lakhs x 5%)
Total liability	= ₹ 50.00 lakhs	
Less:		
CENVAT credit of input 'Y'	= ₹ 15.00 lakhs	
CENVAT credit of input 'Z'	= ₹ 20.00 lakhs	
CENVAT credit of capital goods	= ₹ 12.50 lakhs	(i.e. ₹ 25 lakhs x 50%)
Net liability for the month of Jan 2011	= ₹ 2.50 lakhs	

Notes:

- (i) CENVAT credit of input 'X' (used only in the manufacture of exempted goods): ₹ 10 lakh not allowed as CENVAT credit.
- (ii) CENVAT credit of input 'Y' (used only in the manufacture of dutiable goods) ₹ 15 lakh is allowed fully.
- (iii) As per Rule 6(3A) of the CENVAT Credit Rules, 2004, at the option of the manufacturer can pay an amount 6% on the value of exempted final goods. Hence, CENVAT credit of common input 'Z' (used in the manufacture of exempted as well as dutiable goods but no separate accounts are maintained in respect of such input 'Z') : ₹ 20 lakh can be claim fully.
- (iv) CENVAT credit of capital goods (used partly for manufacture of exempted goods also) ₹ 25 lakh (total amount of duty) is also allowed fully against duty payable on finished goods. It means to say that, upto 50% in the year of receipt of goods and the balance in subsequent year or year.
- (v) The excise duty 16% is subject to education cess and SAH education cess.
- (vi) It is assumed that CENVAT credit is exclusive of 2% education cess as well as 1% SAH Education cess.

Study Note - 4

CUSTOMS LAW, 1962

This Study Note includes

SECTION A

- 4.1 Introduction
- 4.2 Type of Customs Duties
- 4.3 Valuation in Customs
- 4.4 Methods of Valuation
- 4.5 Export Goods- Valuation for Assessment
- 4.6 Self assessment on basis of 'Risk Management System' (RMS)
- 4.7 Procedures for Import
- 4.8 Procedures for Export
- 4.9 Transit and Transshipment of Goods
- 4.10 Exemptions and Remission
- 4.11 Refund of Customs Duty
- 4.12 Appointment of Officers of Customs
- 4.13 Appointment of Customs Station, Warehousing Stations etc.
- 4.14 Central Government Power of Prohibition, Detection of Illegally Imported and Export Goods
- 4.15 Warehousing in Customs
- 4.16 Provisional Assessment of Duty [Section 18]
- 4.17 Baggage, Courier and Import and Export through Post
- 4.18 Drawback
- 4.19 Other provisions in Customs
- 4.20 Project Imports
- 4.21 Offences, Power and Penalties under Customs

SECTION B

- 4.22 Anti-Dumping Duty-An Overview

4.1 INTRODUCTION

4.1.1 Customs duty is on imports into India and export out of India. The power to levy customs duty is derived from Entry 83 of Union List of the Seventh Schedule to the Constitution of India, which reads as, "Duty of Customs including export duties".

Thus, the power to make laws in respect of Customs duty vests with the Central Government. The tax receipts on account of customs duty are solely enjoyed by the Union.

Section 12 of Customs Act, often called charging section, provides that duties of customs shall be levied at such rates as may be specified under 'The Customs Tariff Act, 1975', or any other law for the time being in force, on goods imported into, or exported from, India.

The body of the Customs Law comprises of -

(1) The Customs Act, 1962	This is a consolidating enactment providing levy of import and export duties of customs on goods imported into or exported from India through sea, air or land. It provides for the provisions of levy and collection of duty, importation or exportation, transit and transshipment, prohibition on importation or exportation of goods, warehousing, duty drawback, appeals, settlement commission, advance rulings, offences and penalties etc.
(2) The Customs Tariff Act, 1975	The Act contains various types of custom duties to be levied on the importation and exportation of the articles. It contains two Schedules - Schedule I known as, 'Import Tariff and Schedule II known as, 'Export Tariff.' 'Import Tariff consists of 98 Chapters grouped under 21 Sections. This Schedule refers to goods liable to import duty of customs. 'Export Tariff refers to goods liable to export duty of customs.
(3) Rules	Section 156 of the Customs Act, 1962 empowers the Central Government to make rules consistent with this Act. Such rules may provide for matters relating to the manner of determining the price of imported goods, duty drawback, baggage, detention and confiscation of goods etc.
(4) Regulations	Section 157 of the customs Act, 1962 empowers the Central Board of Excise and Customs to make regulations consistent with the Act and the rules, generally to carry out the purposes of the Act. For example, Import Manifest Vessels Regulation, Boat Note Regulations, Export Manifest Vessel Regulations have been framed in this regard.
(5) Notification under Customs Act	Notification, as per Article 13(3)(a) of the Constitution of India, means 'a written or printed matter that give notice'. Central Government has been empowered to issue notifications under various sections of the Customs act, 1962.

- i. There are many common provisions in Central Excise and Customs Law.
- ii. In case of imports, taxable event occurs when goods mix with landmass of India - *Kiran Spinning Mills v. CC* 1999(113) ELT 753 = AIR 2000 SC 3448 = 2000 AIR SCW 2090 (SC 3 member bench).
- iii. In case of warehoused goods, the goods continue to be in customs bond. Hence, 'import' takes place only when goods are cleared from the warehouse - confirmed in *UOI v. Apar P Ltd.* 1999 AIR SCW 2676 = 112 ELT3 = 1999(6) SCC 118 = AIR 1999 SC 2515 (SC 3 member bench).-followed in *Kiran Spinning Mills v. CC* 1999(113) ELT 753 = AIR 2000 SC 3448 = 2000 AIR SCW 2090 (SC 3 member bench).
- iv. In case of exports, taxable event occurs when goods cross territorial waters of India - *UOI v. Rajindra Dyeing and Printing Mills* 2005 (180) ELT 433 (SC)
- v. Territorial waters of India extend upto 12 nautical miles inside sea from baseline on coast of India and include any bay, gulf, harbour, creek or tidal river.
(1 nautical mile = 1.1515 miles = 1.853 Kms).
Sovereignty of India extends to the territorial waters and to the seabed and subsoil underlying and the air space over the waters.
- vi. Indian Customs waters extend upto 12 nautical miles beyond territorial waters. Powers of customs officers extend upto 12 nautical miles beyond territorial waters.
- vii. 'Exclusive economic zone' extends to 200 nautical miles from the base-line.

4.1.2 Common Aspects of Customs and Central Excise

- i. There are many common links between Customs and Central Excise.
- ii. Both are Central Acts and derive power of levy from list I - Union List - of the Seventh Schedule to Constitution.
- iii. Both are under administrative control of one Board (Central Board of Excise and Customs) under Ministry of Finance.
- iv. Organizational hierarchy is same from top upto Assistant Commissioner level. Transfers from customs to excise and *vice versa* are not uncommon.
- v. Chief Commissioner in charge of each Zone is same for excise and customs at many places.
- vi. In the interior areas, Excise officers also work as customs officers.
- vii. Classification Tariffs of both acts are based on HSN and principles of classification are identical.
- viii. Principles of deciding 'Assessable Value' have some similarities i.e. both are principally based on 'transaction value'. Concept of 'Related Person' appears in Customs as well as Excise valuation.
- ix. Provisions of refund, including principle of 'Unjust Enrichment' are similar. Provisions for interest for delayed payment are also identical.
- x. Provisions of raising demand for short levy, non-levy or erroneous refund are similar. Provisions in respect of recovery, mandatory penalties etc. are also similar.
- xi. Provisions for granting exemptions from duty - partial or full, conditional or unconditional are identical.
- xii. Powers of search, confiscations etc. are quite similar in many respects. In fact, some of provisions of Customs Act have been made applicable to Central Excise with suitable modifications.
- xiii. Provisions in respect of Settlement Commission and Authority for Advance Ruling are identical.
- xiv. Appeal provisions are identical.
- xv. Appellate Tribunal (CESTAT) is same. Hence, procedures of appeal to Tribunal are identical.

4.1.3 Definitions Under Customs Act, 1962

- 1) **Adjudicating Authority [Section 2(1)]:** Adjudicating authority means any authority competent to pass any order or decision under this Act, but does not include:
 - The Central Board of Excise and Customs (CBE&C),
 - Commissioner of Customs (Appeals) or
 - Customs, Excise and Service Tax Appellate Tribunal (CESTAT)
- 2) **Assessment [Section 2(2)]:** Assessment means process of determining the tax liability in accordance with the provisions of the Act, which includes provisional assessment, self assessment, reassessment and any assessment in which the duty assessed is nil.
- 3) **Appellate Tribunal [Section 2(1B)]:** Appellate Tribunal means the Customs, Excise and Service Tax Appellate Tribunal constitute under section 129.
- 4) **Baggage [Section 2(3)]:** Baggage includes unaccompanied baggage but does not include motor vehicles.
- 5) **Bill of Entry [Section 2(4)]:** Bill of Entry means a bill of entry referred to in section 46. Bill of entry is the basic document for assessment of custom duty. The importer has to present bill of entry for clearance of imported goods.

- 6) **Board [Section 2(6)]:** Board means the Central Board of Excise and Customs constituted under the Central Board of Revenue Act, 1963.
- 7) **Bill of Export [Section 2(5)]:** The exporter of any goods shall make entry thereof by presenting to the proper officer in the case of goods to be exported by land, a bill of export in the prescribed form.
- 8) **Customs Airport [Section 2(10)]:** Customs airport means,-
 - Any airport appointed under section 7(a) to be a customs airport, and
 - Includes a place appointed u/s 7(aa) to be an air freight station.
- 9) **Conveyance [Section 2(9)]:** 'Conveyance includes a Vessel, an Aircraft and a Vehicle'. The specific terms are vessel (by sea), aircraft (by air) and vehicle (by land).
- 10) **Coastal Goods [Section 2(7)]:** The term coastal goods means goods, other than imported goods, transported in a vessel from one port in India to another.

Under section 7(1)(d) of the Customs Act, 1962, the Central Board of Excise and Customs (CBE&C), may by notification in the Official Gazette, appoint the ports which alone shall be coastal ports for the carrying on of trade in coastal goods or any class of such goods with all or any specified ports in India.

- 11) **Customs Area [Section 2(11)]:** Customs area means the area of a customs station and includes any area in which imported goods or exported goods are ordinarily kept before clearance by Customs Authorities.
- 12) **Customs Port [Section 2(12)]:** Customs port means any port appointed under section 7(a) of the Customs Act, to be a customs port and includes a place appointed under section 7(aa) of the Customs Act, to be an inland container depot (ICD).
- 13) **Customs Station [Section 2(13)]:** Customs station means any customs port, customs airport or land customs station.

As per Section 8 of the Customs Act, 1962, the Commissioner of Customs may (i) approve proper places in any customs port or customs airport or coastal port for the unloading of goods or for any class of goods; (ii) specify the limits of any customs area.

As per Section 141 of the Customs Act, 1962, all conveyances and goods in customs area are subject to control of officers of customs for enforcing the provisions of the Customs Act, 1962. The receipt/storage/delivery/dispatch/any other handling of goods (import/export) in the Customs area shall be in the prescribed manner and the responsibility thereon lies on the persons engaged in such activities (i.e. Custodian of the said goods).

- 14) **Customs Act, 1962 and Customs Tariff Act, 1975** have been extended to whole of Exclusive Economic Zone (EEZ) and Continental Shelf of India for the purpose of (i) processing for extraction or production of mineral oils and (ii) Supply of any goods in connection with processing for extraction or production of mineral oils.

Say for example, Goods imported by the assessee for consumption on oil rigs which are situated in Continental Shelf/Exclusive Economic Zones of India, are deemed to be a part of Indian Territory. Therefore, the supply of imported spares or goods or equipments to the rigs by a ship will attract import duty [*Aban Lloyd Chilies Offshore Ltd. v UOI* (2008) 227 ELT24 (SC)].

- 15) **Dutiable Goods [Section 2(14)]:** The term is defined to mean any goods which are chargeable to duty and on which duty has not been paid. It means to say that the name of the product or goods should find a mention in the Customs Tariff Act.
- 16) **Domestic Tariff Area** means the whole of India (including the territorial waters and continental shelf) but does not include the areas of the Special Economic Zones (Section 2(i) of Special Economic Zones Act, 2005), 100% Export Oriented Units (EOUs)/Electronic Hardware Technology Park (EHTP)/ Software Technology Park (STP)/ Bio Technology Park (BTP).

17) Exclusive Economic Zone: Exclusive Economic Zone extends to 200 nautical miles from the base line. In this zone, the coastal State has exclusive rights to exploit it for economic purpose like constructing artificial islands for oil exploration, power generation and so on.

(Note: one nautical mile = 1.151 5miles or 1.853kms.)

18) Examination [Section 2(17)]: "Examination" in relation to any goods, includes measurement and weighment thereof.

19) Exporter [Section 2(20)]: Exporter in relation to any goods at any time between their entry for export and the time when they are exported, includes any owner or any person holding himself out to be the exporter.

20) Entry As per section 2(16)]: Entry in relation to goods means an entry made in bill of entry, shipping bill or bill of export and includes in the case of goods imported or to be exported by post, the entry referred to in section 82 or the entry made under the regulations made under section 84 of the Customs Act.

21) Export [Section 2(18)]: The term export means taking out of India to a place outside India.

22) Exported Goods [Section 2(19)]: The term exported goods means any goods, which are to be taken out of India to a place outside India.

Example: The vessel sunk within territorial waters of India and therefore there is no export. Accordingly, no duty drawback shall be available in this case. [*Union of India v Rajindra Dyeing & Printing Mills Ltd. 2005 (180) ELT 433 (SC)*]. The territorial waters extend to 12 nautical miles into the sea from the base line.

23) Fund [Section 2(21A)]: Fund means the Consumer Welfare Fund established under section 12C of the Central Excise Act, 1944.

24) Foreign going Vessel or Aircraft [Section 2(21)]: The foreign going vessel or aircraft means any vessel or aircraft for the time being in the carriage of goods or passengers between any port or airport in India and any port or airport outside India, whether touching any intermediate port or airport in India or not. The following are also included in the definition:

- A foreign naval vessel doing naval exercises in Indian waters
- A vessel engaged in fishing or any other operation (like oil drilling by domestic vessel or foreign vessel) outside territorial waters
- A vessel going to a place outside India for any purpose whatsoever.

Example 1: A ONGC vessel and a vessel owned by A Ltd. of USA are drilling oil beyond 12 nautical miles in the sea. Hence, both the vessels are called as foreign going vessels.

25) Goods [Section 2(22)]: The term goods includes—

- (a) Vessels, aircrafts and vehicles
- (b) stores
- (c) baggage
- (d) currency and negotiable instruments and
- (e) any other kind of movable property.

26) High Seas: An area beyond 200 nautical miles from the base line is called High Seas. All countries have equal rights in this area.

27) Import [Section 2(23)]: The term import means bringing into India from a place outside India.

28) Imported Goods [Section 2(25)]: The term imported goods means any goods brought into India from a place outside India but does not include goods which have been cleared for home consumption.

- 29) Importer [Section 2(26)]:** The term importer means in relation to any goods at any time between their importation and the time when they are cleared for home consumption, includes any owner or any person holding himself out to be the importer.
- 30) India (i.e. Territorial Waters) [Section 2(27)]:** The term India is an inclusive definition and includes not only the land mass of India but also Territorial Waters of India. The territorial waters extend to 12 nautical miles into the sea from the base line. Therefore, a vessel not intended to deliver goods should not enter these waters.
- 31) Indian Customs Waters [Section 2(28)]:** The term Indian Customs Waters means the waters extending into the sea up to the limit of contiguous zone of India under section 5 of the Territorial Waters, Continental Shelf, Exclusive Economic Zone and other Maritime Zone Act, 1976 and includes any bay, gulf, harbour, creek or tidal river.

Continental Shelf means the area of relatively shallow seabed between the shore of a continent and deeper ocean

Indian Customs Waters extend up to 24 nautical miles from the base line. Thereby, Indian Customs Waters cover both the Indian Territorial Waters and Contiguous Zone as well. Indian Territorial Waters extend up to 12 nautical miles from the base line whereas Contiguous Zone extended to a further 12 nautical miles from the outer limit of territorial waters.

Example 2: The proper officer of customs has reason to believe that any vessel in Indian Customs waters is being used in the smuggling of any goods, he may at any time stop any such vessel and examine and search any goods in the vessel (Section 106(1)(b) of the Customs Act, 1962).

- 32) Import Report [Section 2(24)]:** The person-in-charge of a vehicle carrying imported goods or any other person as may be notified by the Central Government shall, in the case of a vehicle, deliver to the proper officer an import report within twelve hours after its arrival in the customs station, in the prescribed form.
- 33) Import General Manifest (IGM) [Section 2(24)]:** IGM is a document to be filed in prescribed form with the customs by the carriers of the goods i.e. the steamer Agent or airlines in terms of Sec 30 of Customs Act, 1962. This document indicates the details of all the goods to be transhipped, private property of the crew and arms and ammunitions, gold and silver should also be cleared separately irrespective of whether for landing, for transshipment or for being carried as same bottom cargo. The IGM has to be filed within 24 hours after arrival of the ship/ aircraft. However, in the case of vessel (ship) the manifest maybe delivered even before the arrival of the vessel. This is known as 'prior entry import general manifest'. This system enables the importer to file Bills of Entry and get them assessed and pay duty so that the goods can be taken delivery soon after the unloading.
- Section 30 in being provide for electronic filing of import manifest and also provide that the commission of customs may, in cases where it is not feasible to deliver the import manifest by presenting electronically, all the same to be delivered in any other manner.

- 34) Market Price [Section 2(30)]:** Market price in relation to any goods means the wholesale price of the goods in the ordinary course of trade in India.

- 35) Person-in-Charge [Section 2(31)]:** means

1) Vessel	Master
2) Aircraft	Commander or Pilot in Charge
3) Train	Conductor or Guard
4) Vehicle	Driver
5) Other Conveyance	Person in Charge

- 36) Prohibited goods [Section 2(33)]:** Means any goods the import or export of which is subject to any prohibition under this Act or any other law for the time being in force but does not include any such

goods in respect of which the conditions subject to which the goods are permitted to be imported or exported have been complied with.

Say for example, Pornographic and obscene materials, Maps and literature where Indian external boundaries have been shown incorrectly, Narcotic Drugs and Psychotropic Substances, Counterfeit goods and goods violating any of the legally enforceable intellectual property right, Chemicals mentioned in Schedule 1 to the Chemical Weapons Convention of U.N. 1993, Wild life products, Specified Live birds and animals, Wild animals, their parts and products, Exotic birds except a few specified ones, Beef, tallow, fat/oil of animal origin, Specified Sea-shells, Human skeleton.

- 37) Shipping Bill [Section 2(39)]:** Shipping bills means a shipping bill referred to in section 50. Shipping bill is the basic document for assessment of export duty. The exporter has to present shipping bill for clearance of export goods through vessel or aircraft.
- 38) Smuggling [Section 2(39)]:** "Smuggling", in relation to any goods, means any act or omission which will render such goods liable to confiscation under section 111 (improper importation) or section 113 (improper exportation).
- 39) Stores [Section 2(38)]:** Stores means goods for use in a vessel or aircraft and includes fuel and spare parts and other articles of equipment, whether or not for immediate fitting.
- 40) Tariff Value [Section 2(40)]:** The CBEC has the power to fix tariff values for any class of imported goods or exported goods. Fixing the tariff value for any class of imported goods or exported goods means the duty shall be chargeable with reference to such tariff value. (For example, please refer the duty based on the % of tariff value under Central Excise).
- 41) Tariff value [Section 2(40)]:** Tariff value in relation to any goods, means the tariff value fixed in respect thereof under section 14(2) of the Act.
- 42) Value [Section 2(41)]:** "Value" in relation to any goods, means the value thereof determined in accordance with the provisions of Section 14(1)(2) of the Act.
- 43) Vehicle [Section 2(42)]:** Vehicle means conveyance of any kind used on land and includes a railway vehicle.
- 44) Warehoused [Section 2(43)]:** "Warehouse" means a public warehouse appointed under section 57 or a private warehouse licensed under section 58.
- 45) Warehouse Goods [Section 2(44)]:** "Warehouse Goods" means goods deposited in a warehouse.
- 46) Warehouse Station [Section 2(45)]:** "Warehouse Station" means a place declared as a warehousing station under section 9.

Significance of Indian Customs Waters under Custom Act, 1962

The significance of Indian Customs Waters is as under-

- (i) Any person who has landed from/ about to board/ is on board any vessel within Indian Customs water and who has secreted about his person, any goods liable to confiscation or any documents relating thereto may be searched [Section 100];
- (ii) Any person within Indian Customs waters, who has committed an offence punishable under section 132 or 133 or 135 or 135A or 136, may be arrested [Section 104];
- (iii) Any vessel within Indian custom water, which has been, is being, or is about to be, used in the smuggling of any goods or in carriage of any smuggling goods, may be stopped [Section 106];
- (iv) Any goods which are brought within the Indian customs waters for the purpose of being imported from a place outside India, contrary to any prohibition imposed by or under this Act or any other law for the time being in force, shall be liable to confiscation [Section 111(d)]; and
- (v) Any vessel which is or has been within Indian customs waters is constructed, adapted, altered or fitted in any manner for concealing for concealing goods shall be liable to confiscation [Section 115(1)(a)].

The primary concept has been explained in the following diagram

4.1.4 Circumstances of Levy

Section 12: Imported or Exported goods into or out of India is the taxable event for payment of the duty of customs. Lot of problems was faced in determining the point at which the importation or exportation takes place. The root cause of the problem was the definition of India.

The Supreme Court of India has given the landmark judgments in cases of *Union of India v Apar Industries Ltd* (1999) and further in the case of *Garden Silk Mills Ltd v Union of India* (1999). The import of goods will commence when they cross the territorial waters but continues and is completed when they become part of the mass of goods within the country, and the taxable event being reached at the time when goods reach the Customs barriers and Bill of Entry for home consumption is filed.

(A) Taxable event for Imported Goods

In the case of *Kiran Spinning Mills* (1999) the Hon'ble Supreme Court of India held that import is completed only when goods cross the customs barrier. The taxable event is the day of crossing of customs barrier and not on the date when goods landed in India or had entered territorial waters of India. Crossing customs barrier:

when goods are imported into India even after the goods are unloaded from the ship, and even after the goods are assessed to duty subsequent to the filing of a bill of entry, the goods cannot be regarded as having crossed the customs barrier until the duty is paid and the goods are brought out of the limits of the customs station.

Hence, taxable event in case of imported goods can be summed up in the following lines:

The taxable event occurs in the course of imports under the customs law with reference to the principles laid down by the Supreme Court in the cases of *Garden Silk Mills Ltd. v Union of India*; and *Kiran Spinning Mills v CC*:

- i. Unloading of imported goods at the Customs Port— is not a taxable event
- ii. Date of entry into Indian Territorial Waters—is not a taxable event
- iii. Date on which the goods cross the customs barrier - is a taxable event
- iv. Date of presentation of bill of entry—is not a taxable event

No time limit for submission of bill of entry after the delivery of Import General Manifest (IGM):

As per Section 46(3) of the Customs Act, 1962 a bill of entry may be presented at any time after the delivery of import manifest or import report. Therefore, no time limit has been fixed for submission of bill of entry. Hence, no penalty can be imposed if there is delay in submission of Bill of Entry. However, cargo should be cleared from the wharf within 30 days of unloading.

Note: Bill of Entry can also be filed up to 30 days before the arrival of the goods in India. The classification, valuation and duty can be checked and verified beforehand so that when the consignment arrives it can be cleared immediately.

(B) Taxable event for Warehoused Goods

The taxable event in case of warehoused goods is when goods are cleared from customs bonded warehouse, by submitting EX-bond bill of entry. As per Section 15(1)(b) of the Customs Act, 1962, when goods have been deposited into a warehouse, and they are removed there from for home consumption, the relevant date for determination of rate of duty is the date of presentation of ex-bond bill of entry (i.e. Sub-bill of Entry) for home consumption.

(C) Taxable event for Exported Goods

As per section 16(1) of the Customs Act, 1962, taxable event arises only when proper officer makes an order permitting clearance (i.e. entry outwards) granted —*Esajee Tayabally Kapasi* (1995)(SC) and loading of the goods for exportation took place under Section 51 of the Customs Act, 1962. In the case of any other goods, on the date of payment of duty.

Therefore, export duty rate prevailing as on the date of entry outwards granted to the vessel by the Customs Officer is relevant.

Example 3: An assessee submitted the shipping bill on 1st January 2010. At that time the export duty was nil (i.e. duty free). Let export order (i.e. entry outwards) was granted on 5th January 2010. However, due to some problems goods could not be loaded into ship. On 25th March 2010, the shipping bills were voluntarily resubmitted by the assessee with the request to permit the shipment by a different vessel. Subsequently, on 27th March 2010, let export order was granted. However, in the mean time the duty at the rate of 10% ad valorem was levied with effect from 1st March 2010. Examine, whether exporter is liable to pay duty?

Answer:

In the given case actual export took place only after revised shipping bill was submitted on 25th March 2010, for which entry outwards granted on 27th March, 2010. Hence, the rate prevalent as on the date of entry outwards granted to the vessel is relevant for determination of rate of duty. Therefore, assessee is liable to pay export duty @ 10%.

Note: Export duties do not carry any cess. Entry Inwards to the vessel

The Master of the vessel is not to permit the unloading of any imported goods until an order has been

given by the proper officer granting Entry Inwards of such vessel. Normally, Entry Inwards is granted only after the import manifest has been delivered. This entry inward date is crucial for determining the rate of duty, as provided in section 15 of the Customs Act, 1962. Unloading of certain items like accompanied baggage, mail bags, animals, perishables and hazardous goods are exempted from this stipulation.

(D) Entry outwards to the vessel

The vessel should be granted 'Entry Outward'. Loading can start only after entry outward is granted under section 39 of Customs Act, 1962. Steamer Agents can file 'application for entry outwards' 14 days in advance so that intending exporters can start submitting 'Shipping Bills'. This ensures that formalities are completed as quickly as possible and loading in ship starts quickly.

If the shipping bill has been presented before the date of entry outwards of the vessel by which the goods are to be exported, the shipping bill shall be deemed to have been presented on the date of such entry outwards. The provisions of this section shall not apply to baggage and goods exported by post.

(E) Date of determination of Rate of duty and tariff valuation for Imported Goods

Date for determining the rate of duty and tariff valuation of imported goods will depend upon the imported goods cleared for home consumption and cleared for warehousing. The determination of appropriate rate of duty can be explained with the help of the following example:

Note: The applicable exchange rate is the rate declared by the CBEC on the date of submission of Bill of Entry. If more than one exchange of CEBC is available then consider the exchange rate which was prevailed as on the date of submission of Bill of Entry.

(F) Date of for determination of rate of duty and tariff valuation of export goods [Section 16]: According to section 16 of the Customs Act, 1962, the provision relating to date for determination of rate of duty and tariff valuation of export goods are as under –

- in the case of goods entered for export under section 50, the date on which the proper officer makes an order permitting clearance and loading of the goods for exportation under section 51.
- in the case of any other goods, the date of payment of duty.

The provision of section 16 shall not apply to baggage and goods exported by post.

(G) Clearance of goods from DTA to SEZ

In the case of **Advait steel Rolling Mills Pvt. Ltd. vs. UOI [2012] 286 ELT 535(Mad)**, it is held that the clearance of goods from DTA to Special Economic Zone are not chargeable to export duty either under the SEZ Act, 2005 or under the Customs Act, 1962 on the basis of the following observations –

- The charging section needs to be construed strictly. If a person is not expressly brought within the scope of the charging section, he cannot be taxed at all.
- SEZ Act does not contain any provision for levy and collection of export duty on goods supplied by a DTA unit to a unit in a Special Economic Zone for its authorized operations. Since there is no charging provision in the SEZ Act providing for the levy of customs duty on such goods, export duty cannot be levied on the DTA supplier.
- Reading section 12(1) of the Customs Act, 1962 makes it apparent that Customs duty can be levied only on goods imported into or exported beyond the territorial water of India.

Since both the SEZ unit and the DTA unit are located within the territorial waters of India, supplies from DTA to SEZ would not attract Section 12(1).

(H) Determination of duty where goods consist of articles liable to different rates of duty [Section 19] :

Except as otherwise provided in any law for the time being in force, where goods consist of a set of articles, duty shall be calculated as follows,-

(a) articles liable to duty with reference to quantity shall be chargeable to that duty;

(b) articles liable to duty with reference to value shall be chargeable to duty as under,-

- if such articles are liable with the same rate of duty then duty shall be levied at that rate;
- if the articles in the set are liable to duty at different rates then duty shall be calculated at the highest of those rates.

(c) articles not liable to duty, then they shall also be chargeable to duty at the highest of the rates specified in (b) above.

Duty where evidence of separate value of articles is available : If the importer produces evidence to the satisfaction of the proper officer or the evidence is available regarding the value of any of the articles liable to different rates of duty, such article shall be chargeable to duty separately at the rate applicable to it.

(I) Rate of Duty applicable to accessories, etc. supplied with imported article [Accessories (Condition) Rules, 1963] :

Certain accessories are sometimes compulsorily supplied with the main equipment. It may be difficult to value such accessories and to assess them separately or to charge duty on them when no additional consideration is involved in normal course. In such case, if any accessories of, spare parts and maintenance implements for, any article are imported along with that article, then such accessories/spare parts and maintenance implements shall be chargeable at the same rate of duty as that article, if the proper officer is satisfied that in the ordinary course of trade,-

(a) such accessories, parts and implements are compulsorily supplied with that article; and

(b) no separate charge is made for such supply, their price being included in the price of that article.

(j) Circumstance under which no duty will be levied

- i) No duty will be levied on pilfered goods under section 13 of the Customs Act. If any imported goods are pilfered after the unloading thereof and before the proper officer has made an order for clearance for home consumption or deposit in a warehouse, then the importer shall not be liable to pay the duty leviable on such goods.
- ii) No duty will be levied when the goods are damaged or deteriorated before or during the course of their unloading, where it is shown to the satisfaction of the Assistant or Deputy Commissioner of Customs (Section 22).
- iii) No duty will be levied in case of warehoused goods, when the goods are damaged before their actual clearance from such warehouse, where it is shown to the satisfaction of the Assistant or Deputy Commissioner of Customs (Section 22).
- iv) No duty will be levied in case of goods lost or destroyed due to natural causes like fire, flood, etc. such loss may take place at any time before the clearance of goods for home consumption. The loss may be at the warehouse (Section 22).
- v) No duty will be levied in case of goods abandoned by importers. Sometimes it may so happen that importer is unwilling or unable to take delivery of the imported goods due to the following reasons:
 - the said goods may not be according to the specification,
 - the goods may have been damaged during voyage,
 - there might have been breach of contract.

In all the above cases the importer has to relinquish his title to the goods unconditionally and abandon them. The relinquishment is done by endorsing the document of title to the goods in favour of the Commissioner of Customs along with invoice.

- vi) No duty will be levied, if the Central Government is satisfied that it is necessary in the public interest not to levy import duty by issuing the notification in the Official Gazette.

(k) Self-assessment of Customs Duty (Section 17 of the Customs Act, 1962, w.e.f. 8-4-2011)

The importer or exporter shall self-assess the duty leviable on imported or exported goods respectively (except where goods are to be cleared as 'stores' for supply to vessels or aircrafts without payment of duty and without assessment under section 85 of Customs Act, 1962) as per section 17(1) of the Customs Act, 1962. The procedure of self assessment is same for imports and exports. Importer importing goods is required to submit Bill of Entry under section 46 of Customs Act, 1962. Exporter is required to submit shipping bill at the time of export under section 50 of Customs Act, 1962. Bill of Entry and Shipping Bill must be submitted electronically, unless manual submission is specifically permitted by Commissioner of Customs.

Verification by proper officer

The self assessment may be verified by 'proper officer' by examining or testing the goods [section 17(2) of Customs Act 1962, w.e.f. 8-4-2011]. For verification of self assessment, 'Proper Officer' may ask importer, exporter or any other person (i.e. Customs House Agent or person who has purchased goods on high seas sale basis) to produce any contract, broker's note, insurance policy, catalogue or other documents whereby duty payable can be ascertained and to furnish further information for ascertainment.

Re-assessment

The proper officer can ask for only those documents which are within the powers of importer or exporter or other person to furnish [section 17(3) of Customs Act 1962, w.e.f. 8-4-2011]. On Such verification, 'proper officer' may re-assess the Bill of entry. Such re-assessment would be without prejudice to any

other action which may be taken under Customs Act [section 17(4) of Customs Act, 1962, w.e.f. 8-4-2011]. If the importer or exporter accepts in writing the reassessment made by proper officer about classification or valuation or exemption or concession, then no question of issuing any formal order arises.

Speaking order

Where the importer or exporter does not accept the re-assessment in writing, the proper officer shall pass a speaking order within 15 days from the date of re-assessment of 'Bill of Entry' [section 17(5) of Customs Act, 1962 w.e.f. 8-4-2011].

Audit by proper officer at his office or premises of importer or exporter

If the goods are not taken for verification of self assessment, the goods will be allowed to be cleared from customs. However, later, proper officer may audit the assessment of duty. Such audit can be done either in the office of proper officer or at the premises of importer, as may be expedient [section 17(6) of Customs Act, 1962 w.e.f. 8-4-2011]. Subsequent to such audit, demand for differential duty and interest can be made under section 28 of Custom Act 1962. This section also makes provisions in respect of penalty for such short payment.

General provisions

Assessment includes provisional assessment, self-assessment, re-assessment and any assessment in which the duty assessed is Nil [section 2(2) of Customs Act, 1962 as substituted w.e.f. 8-4-2011].

As per section 2(34) of Customs Act, 'proper officer' in relation to any function under Customs Act, mi the officer of customs who is assigned those functions by Board (CBE & C) or Commissioner of Customs.

4.2 TYPE OF CUSTOMS DUTIES

4.2.1 Basic customs duty is levied under section 12 of Customs Act. Normally, it is levied as a percentage of value as determined under section 14(1). The rates vary for different items, but general rate on non-agricultural goods at present is 10% w.e.f. 1.3.2007 and Ad valorem component of customs duty on textile fabrics and garments has been reduced from 12.5% to 10%.

Duty on liquor (including wine) is also high i.e. 150%. CVD and education cess on liquor and wine has been exempted w.e.f. 3.7.2007 as per WTO agreement.

Assessable Value = CIF value of imported goods converted into Rupees at exchange rate specified in notification issued by CBE&C plus landing charges 1% (plus some additions often arbitrarily and whimsically made by customs).

Section 2 of the Customs Tariff Act, 1975 provides the rate of duty to be applied on the value of goods. Basically section 2 of the Customs Tariff Act, 1975 provides following

- First Schedule - Goods liable for import duty
- Second Schedule - Goods liable for export duty

Basic Customs Duty levied u/s 12 of Customs Act.

- i. The rate of basic customs duty is specified in Customs Tariff Act, read with relevant exemption notification. Generally, Basic Customs Duty is 10% of Non-Agricultural Goods.
- ii. CVD equal to excise duty is payable on imported goods u/s 3(1) of Customs Tariff Act. General excise duty rate is 12%. Consider only basic excise duty as CVD. It means CVD is equal to Basic Excise Duty(w.e.f 17-3-2012).
- iii. Special CVD (SAD) is payable @4% on imported goods u/s 3(5) of Customs Tariff Act. This is in lieu of Vat/Sales tax to provide level playing field to Indian goods.
- iv. Education Cess of customs @ 2% and SAH Education Cess of 1% is payable.
- v. Total import duty considering all duties plus education Cess on non-agricultural goods is generally 26.85% w.e.f 27-2-2010.
- vi. NCCD has been imposed on a few articles. In addition, on certain goods, Anti-Dumping Duty, Safeguard Duty, Protective Duty etc. can be imposed.

Calculated of customs duty payable is as follows, w.e.f. 17.3.2012

Seq.	Duty Description	Duty %	Amount	Total Duty
(A)	Assessment Value ₹		20,000.00	
(B)	Basic Customs Duty	10	2,000.00	2,000.00
(C)	Sub-Total for calculating CVD '(A+B)'		22,000.00	
(D)	CVD 'C' x excise duty rate	12	2,640.00	2,640.00
(E)	Sub-total for edu cess on customs 'B+D'		4,640.00	
(F)	Edu Cess of Customs – 2% of 'E'	2	92.80	92.80
(G)	SAH Education Cess of Customs – 1% of 'E'	1	46.40	46.40
(H)	Sub-total for Spl CVD 'C+D+F+G'		24,779.20	
(I)	Special CVD u/s 3(5) – 4% of 'H'	4	991.16	991.16
(J)	Total Duty			5,770.36
(K)	Total duty rounded to	₹		5,770.00

Notes- Buyer, who is manufacturer, is eligible to avail Cenvat Credit of D and I above. A buyer, who is service provider, is eligible to avail Cenvat Credit of D above. A trader who sells imported goods in India after charging Vat/sales tax can get refund of Special CVD of 4% i.e. 'I' above

4.2.2 Additional Customs Duty U/S 3(1) (CVD)

- i. CVD (Countervailing Duty) is payable on imported goods u/s 3(1) of Customs Tariff Act to counter balance impact of excise duty on indigenous manufactures, to ensure level paying field.

- ii. CVD is payable equal to Excise Duty payable on like articles if produced in India. It is payable at effective rate of Excise Duty, which is generally 12%. It means CVD is equal to Basic Excise Duty (w.e.f 17-3-2012).
- iii. CVD is payable on assessable value plus basic customs duty. In case of products covered under MRP provisions, CV duty is payable on MRP basis as per section 4A of Central Excise.
- iv. CVD can be levied only if there is 'manufacture'.
- v. CVD is neither Excise Duty nor Basic Customs Duty levied under Customs Act. However, all provisions of Customs Act apply to CVD. Calculation of duty payable is as follows -

Example 4: An importer imported some goods for subsequent sale in India at \$12,000 on CIF basis. Relevant exchange rate as notified by the Central Government and RBI was ₹ 45 and ₹ 45.50 respectively. The item imported attracts basic duty at 10% and education Cess as applicable. If similar goods were manufactured in India, Excise Duty payable as per Tariff is 14% plus education Cess of 2% and SAH 1%. Arrive at the Assessable value and the total duty payable thereon. State eligibility of CENVAT credit to buyer.

Answer:

Assessable Value	=	₹ 5,45,400
Add: Basic Customs Duty 10% x 5,45,400	=	₹ 54,540
Balance	=	₹ 5,99,940
Add: CVD 14% on ₹ 5,99,940	=	₹ 83,992
Add: Education Cess 2% on 54,540 + 83,992	=	₹ 2,771
Add: SAH 1% on 54,540 + 83,992	=	₹ 1,385
Total value of imported goods	=	₹ 6,88,088

Working Note:

CIF Value	=	12,000 US\$
Total CIF in ₹ @ 45.00 per US \$	=	₹ 5,40,000
Add: Landing Charges @1% of CIF	=	₹ 5,400
Assessable value	=	₹ 5,45,400

4.2.3 Additional Duty Under Section 3(5) (Special CVD - SAD)

Section 3(5) of Customs Tariff Act empowers Central Government to impose additional duty. This is in addition to Additional Duty leviable u/ss 3(1) and 3(5) of Customs Tariff Act. Provision for this duty has been made w.e.f. 1-3-2005. Purpose of the Additional Duty is to counter balance Sales Tax, VAT, Local Tax or Other charges leviable on articles on its sale, purchase or transaction in India.

The obvious intention is to provide level playing field to manufacturers in India who are manufacturing similar goods. Hence, it is termed as 'Special CVD' or 'SAD' (Special Additional Duty).

Exemption from SAD - Some categories of imports have been exempted from this special CVD (SAD), vide customs notification No. 20/2006-Custom dated 1-3-2006. The main among these are: Articles of jewellery attracts a lower rate of special CVD at 1%.

Departmental clarifications - Department has clarified as follows, vide MF (DR) circular No. 1 8/2006-Cus dated 5-6-2006 -

- i. Special CVD of 4% is not leviable in case of imports under advance authorisation, EOU, EPCZ and SEZ schemes
- ii. In case of Export Promotion Schemes like DEPB, target plus, service from India, DFCE and Vishesh Krishi and Gram Udyog Yojana, 4% Special CVD is required to be debited to the duty scrip/entitlement certificate.

- iii. In case of DFRC scheme, 4% special CVD is payable.
- iv. Duty debited through DEPB, DFCE, target plus scheme etc. will be eligible for Cenvat Credit or duty drawback.

4.2.4 Safeguard Duty under the Custom Tariff Act, 1975

In order to ensure that goods imported in increased quantity do not cause or threaten to cause serious injury to domestic industry, there are provisions for levy of safeguard duty on import of such articles into India. It can provide adequate protection to the indigenous industry against competition from the world players. The safeguard duty on imported goods is leviable under Section 8B of the Customs Tariff Act, 1975 read with the Customs Tariff (Identification and Assessment of Safeguard Duty) Rules, 1997.

- (i) **Imposition:** Safeguard Duty can be imposed if the Central Government on enquiry finds that the imports in increased quantity - (a) have caused serious injury to Domestic Industry or, (b) is threatening to cause serious injury to Domestic industry. It can be imposed irrespective of origin of imported goods.

Serious injury means an injury causing significant overall impairment in the position of a domestic industry.

Threat of serious injury means a clear and imminent danger of serious injury.

- (ii) **No Safeguard Duty on Articles Originating from Developing Countries:** In case of articles originating from a Developing Country (i.e. a country notified by the Government of India for purpose of levy of such duty), this duty cannot be imposed under following circumstances -

- (a) If the imports of such article from that developing country does not exceed three percent of the total imports of that article into India.
- (b) Where the article is originating from more than one developing countries (each with less than three percent import share), then the aggregate of imports from all such countries taken together does not exceed nine percent of the total imports of that article into India.

- (iii) **Provisional Safeguard Duty Pending Enquiry:** Section 8B(2) enables the Central Government to impose a provisional Safeguard Duty in appropriate cases, pending the determination of the issues as to whether the import of the concerned article to India would cause or threaten to cause serious injury to the domestic industry. The duty so collected, shall be refunded if, on a final determination, the Central Government is of the opinion that neither any injury has been caused to the Domestic Industry, nor there is any such threat to cause serious injury.

The Provisional safeguard Duty cannot remain in force for more than 200 days from the date when it was first imposed.

- (iv) **Duration:** The Safeguard Duty shall, unless it is revoked earlier, be in force till the expiry of 4 years from the date of its imposition. However, the Central Government reserves the right for its extension but total period of imposition cannot be beyond 10 years from the date of its imposition.
- (v) **No Safeguard Duty in certain cases:** Unless specifically provided, the safeguard duty shall not be imposed on goods imported by a 100% EOU or unit located in Free Trade Zone/ Special Economic Zone.
- (vi) **Provision of custom Act, 1962 to apply:** The provision of custom Act, 1962 and the rules and regulations made there under, including those relating to the date for determination of rate of duty, assessment, non-levy, short levy, refunds, interest, appeals, offences and penalties shall, as far as may be, apply to the duty chargeable under this section as they apply in relation to duty leviable under that act.

4.2.5 Refund of Special CVD of Customs to Traders

Traders selling imported goods in India after charging sales tax/Vat can claim refund of special CVD of 4% from Customs Department – Notification No. 1 02/2007-Cus dated 14-9-2007. The dealer (trader) (if he is registered with Central Excise and is issuing Cenvatable Invoice) selling such imported goods must mention in his invoice that the buyer will not be able to avail Cenvat credit of such duty. This is required if he is claiming refund of the special CVD. If he is not claiming refund, obviously, such remark is not required. A manufacturer using these goods in his manufacture can avail Cenvat credit of this duty. Thus, he gets credit through central excise route.

Example 5: An importer imported some goods for subsequent sale in India at \$ 20,000 on CIF basis. Relevant exchange rate as notified by the Central Government ₹ 45. The item imported attracts basic duty at 10% and education Cess as applicable. If similar goods were manufactured in India, Excise Duty payable as per Tariff is 14% plus education Cess of 2% and SAH 1%. Special Additional Customs Duty is 4%. Find the total duty payable.

Answer:

		(₹)
CIF value USD 20,000 X 45	=	9,00,000
Add: Loading and unloading @1%	=	9,000
Assessable Value	=	9,09,000
Add: Basic Customs Duty @10% on ₹9,09,000	=	90,900
	=	9,99,900
Add: Additional Customs Duty [@14% x ₹9,99,900]	=	1,39,986
		11,39,886
Add: Education Cess 2% on (₹90,900 + ₹1,39,986)	=	4,618
Add: SAH @1% on (₹90,900 + ₹1,39,986)	=	2,309
	=	11,46,813
Add: Special Additional Customs Duty [@4% x ₹11,46,813]	=	45,873
Total value of imported goods	=	11,92,686
Therefore total duty payable is ₹ 2,83,686.		

Valid points:

- While calculating CVD we should not take into account NCCD of excise.
- CVD can also be imposed even if there is exemption from Basic Customs Duty.
- Imported goods contain more than one classification and the importer is unable to give the breakup of each item with value then the highest rate of duty among them will be considered.
- CVD can be levied only when the importer imported manufactured goods. It means CVD can be levied only if goods are obtained by a process of manufacture *Hyderabad Industries Ltd v Union of India* (1995) (SC).

Example 6: Mr. X imported the coal from USA. Exporter in USA exported the coal after washing coal to reduce its ash content. Hence, no CVD on coal, because the imported product was not manufactured and the same imported into India.

- If the importer is the manufacturer, he can claim the CENVAT credit of CVD.

- (iv) No CVD on Anti Dumping Duty, Safeguard Duty, Protective Duty or Countervailing Duty on Subsidized articles.

If the importer is the manufacturer availing the benefit of SSI Exemption benefit under Notification No.8/2003 under Central Excise. Thereby he is not paying excise duty on his final product manufactured by him in India. Such a manufacturer is not liable to pay CVD (equivalent of Excise Duty) on his imports, even if he is not liable to pay any duty under Central Excise Act, 1944.

4.2.6 Anti-Dumping Duty

- i. Anti dumping duty is leviable u/s 9A of Customs Tariff Act when foreign exporter exports his goods at low prices compared to prices normally prevalent in the exporting country.
- ii. Dumping is unfair trade practice and the anti-dumping duty is levied to protect Indian manufacturers from unfair competition.
- iii. Margin of dumping is the difference between normal value (i.e. his sale price in his country) and export price (price at which he is exporting the goods).
- iv. Price of similar products in India is not relevant to determine 'margin of dumping'.
- v. 'Injury Margin' means difference between fair selling price of domestic industry and landed cost of imported products. Dumping duty will be lower of dumping margin or injury margin.
- vi. Benefits accruing to local industry due to availability of cheap foreign inputs are not considered. This is a drawback.
- vii. CVD is not payable on anti-dumping duty. Education Cess and SAH education Cess is not payable on anti-dumping duty. In case of imports from WTO countries, anti-dumping duty can be imposed only if it causes material injury to domestic industry in India.
- viii. Dumping duty is decided by Designated Authority after enquiry and imposed by Central Government by notification. Provisional antidumping duty can be imposed.
- ix. Appeal against antidumping duty can be made to CESTAT.

Example 7: Mr. X an importer imported certain goods CIF value was US \$20,000 and quantity 1,000 Kgs. Exchange rate was 1 US \$ = ₹ 50 on date of presentation of Bill of Entry. Customs Duty rates are— (i) Basic Customs Duty 10%, (ii) Education Cess 2%, (iii) SAH Education Cess – 1%. There is no excise duty payable on these goods if manufactured in India. As per Notification issued by the Government of India, anti-dumping duty has been imposed on these goods. The anti-dumping duty will be equal to difference between amount calculated @ US \$30 per kg and 'landed value' of goods. Compute Customs Duty liability and anti-dumping liability.

Answer:

Part I	Amount in ₹
Total CIF Price US \$ 20,000 x ₹ 50	10,00,000
Add: Landing charges @ 1% x ₹10,00,000	10,000
Assessable Value	10,10,000
Basic duty @ 10%	1,01,000
Sub total	11,11,000
Add: Education cess 2% on ₹ 1, 01,000	2,020
Add: Secondary and Higher Education Cess [@1% on ₹ 1,01,000]	1,010

Value of imported goods	11,14,030
Total Customs Duty payable is ₹ 1,04,030.	
Part II	
Rate as per Anti Dumping Notification is ₹ 15,00,000 [US \$ 30 per kg x 1,000 Kgs x ₹ 50]	
Part III	
Computation of anti-dumping duty	
Rate as per Anti Dumping Notification	15,00,000
Less: Value of imported goods as computed above	(11,14,030)
Anti Dumping Duty payable	3,85,970

(i) Anti Dumping Duty on Dumped Articles

Often, large manufacturer from abroad may export goods at very low prices compared to prices normally prevalent in export market. Such dumping may be with intention to cripple domestic industry or to dispose of their excess stock. This is called 'Dumping' and is an unfair trade practice. In order to avoid such dumping and to protect domestic industry, Central Government can impose, under section 9A of Customs Tariff Act, anti-dumping duty, if the goods are being sold at less than its normal value. Levy of such anti-dumping duty is permissible as per WTO agreement. Anti dumping action can be taken only when there is an Indian industry producing 'like articles'. In *Shenyang Mastusushita v. Exide Batteries* 2005 (181) ELT 320 (SC 3 member bench), it was observed, ' Principle behind anti-dumping laws is to protect the domestic industry from being adversely affected by import of goods at export prices which are below the normal value of the goods in the domestic market of the exporter. The duty is calculated on the margin of dumping which is the difference between the export price and the normal value'.

In *SS Enterprise v. Designated Authority* AIR 2005 SC 1527 = 181 ELT 375 (SC 3 member bench), it was held that purpose being imposition of anti-dumping duty is to curb unfair trade practices resorted to by exporters of a particular country of flooding the domestic markets at rates which are lower than the rate at which the exporters normally sell the same or like goods in their own countries, so as to cause or be likely to cause injury to the domestic market. The levy of dumping duty is a method recognized by GATT (*should be* WTO) which seeks to remedy the injury and at the same time balances the rights of exporters from other countries to sell their products within the country with the interest of domestic markets. Thus the factors to constitute ' dumping' is (i) an import at prices which are lower than the normal value of goods in exporting country, (ii) the exports must be sufficient to cause injury to domestic industry.

However, negligible quantity of imports would not be sufficient to cause such injury.

Presently, countries like China, Taiwan are said to be involved in dumping. Even Indian steel exporters are facing charges of dumping goods in USA.

(ii) Provisional Anti-Dumping Duty

Pending determination of margin of dumping, duty can be imposed on provisional basis. After dumping duty is finally determined, Central Government can reduce such duty and refund duty extra collected than that finally calculated. Such duty can be imposed upto 90 days prior to date of notification, if there is history of dumping which importer was aware or where serious injury is caused due to dumping.

(iii) No CVD on Anti-Dumping Duty

Anti Dumping Duty and Safeguard Duty is not required to be considered while calculating CVD – view confirmed in *Tonira Pharma v. CCE* (2007) 208 ELT 38(CESTAT 2 v. 1 order).

(iv) No Education Cess and SAHE Cess on Anti-Dumping Duty – Education Cess and SAH Education Cess is not payable on anti-dumping duty.

- (v) No Anti-Dumping Duty in Case of Imports by EOU and SEZ** – Anti-dumping duty is not applicable for imports by EOU or SEZ units, unless it is specifically made applicable in the notification imposing anti-dumping duty. [section 9A(2A) of Customs Tariff Act]

(vi) Margin of Dumping

'Margin of dumping' means the difference between normal value and export price (i.e. the price at which these goods are exported). [Section 9A(1)(a)].

'Normal Value' means comparable price in ordinary course in trade, for like article, when destined for consumption in the exporting country or territory. If such price is not available or not comparable (a) comparable representative price of like article exported from exporting country or territory to appropriate third country or (b) cost of production plus reasonable profit, can be considered [section 9A(1)(c) of Customs Tariff Act]. The 'normal value' is to be determined as per rules.

In *Reliance Industries Ltd. v. Designated Authority* 2006 (202) ELT 23 (SC), it was held that 'normal value' are not exporter specific but exporting country specific. Once dumping of specific goods from country is established, dumping duty can be imposed on all exports of those goods from that country in India, irrespective of the exporter. Rate of duty may vary from exporter to exporter depending upon the export price.

'Export Price' means the price at which goods are exported. If the export price is unreliable due to association or compensatory arrangement between exporter and importer or a third party, export price can be constructed (revised) on the basis of price at which the imported articles are first sold to independent buyer or according to rules made for determining margin of dumping. [Section 9A(1)(b)].

Margin of dumping is determined on basis of weighted average of 'normal value' and the 'export price' of product under consideration.

(vii) Quantum of Dumping Duty

The anti-dumping duty will be dumping margin or injury margin, *whichever is lower*. 'Injury margin' means difference between fair selling price of domestic industry and landed cost of imported product. The landed cost will include landing charges of 1% and basic customs duty. Thus, only anti-dumping duty enough to remove injury to domestic industry can be levied.

For example, if normal value in exporting country is ₹ 11 and export price is ₹ 8, dumping margin is ₹ 3. If landed cost is ₹ 9 and fair selling price of domestic industry is ₹ 10, then injury margin is ₹ 1. Hence, anti-dumping duty of only Re 1 can be imposed.

In *Reliance Industries Ltd. v. Designated Authority* 2006 (202) ELT 23 (SC), it was held that non-injurious price (NIP) has to be calculated for domestic industry as a whole and not in respect of any particular company or enterprise. [Hence, even if product is captively consumed by Indian manufacturer, transfer price (market value) of inputs is to be considered and not actual cost of captive consumption]. It was observed that there has to be a single NIP for a product and not several NIP for the same product. NIP is not exporter specific.

In *Alkali Manufacturers Association of India v. Designated Authority* 2006 (194) ELT 161 (CESTAT). Designated Authority had calculated domestic price on basis of profit of 22% of investment. It was held that this is reasonable.

(viii) Dumping Duty for WTO Countries

Section 9B of Customs Tariff Act provides restrictions on imposing dumping duties in case of imports from WTO countries or countries given 'Most Favored Nation' by an agreement. Dumping duty can be levied on import from such countries, only if Central Government declares that import of such articles in India causes material injury to industry established in India or materially retards establishment of industry in India.

[WTO agreement permits levy of anti-dumping duty when it causes injury to domestic industry as a result of specific unfair trade practice by foreign producer, by selling below normal value].

'Injury to domestic industry' will be considered on basis of volume effect and price effect on Indian industry. There must be a 'casual link' between material injury being suffered by dumped articles and the dumped imports.

(ix) Rules for Deciding Subsidy or Dumping Margin

Central Government has been empowered to make rules for determining (a) subsidy or bounty in case of bounty fed goods (b) the normal value and export price to determine margin of dumping in case of dumping. Accordingly, Customs Tariff (Identification, Assessment and Collection of Anti-dumping duty

on Dumped Articles and for determination of Injury) Rules, 1995 [Customs Notification No. 2/95 (N.T.) dated 1-1-95] provide detailed procedure for determining the injury in case of dumped articles.

(x) Procedure for Fixing Anti Dumping Duty

After the 'designated authority' is satisfied about *prima facie* case, he will give notice to Governments of exporting countries. Opportunity to inspection of documents and making representations will be given to interested parties who are likely to be affected. Designated Authority will first give preliminary finding and then final finding within one year. Provisional duty can be imposed on basis of preliminary finding which can continue upto 6 months, extendable to 9 months. Additional duty may be imposed on basis of the final finding.

As per rule 18 of Anti-Dumping Duty Rules, Central Government has to issue a notification fixing anti-dumping duty within three months from date of notification issued by designated authority.

(xi) Appeal Against Order Determining Dumping Duty

Appeal against the order determining the duty can be made to CESTAT. The appeal will be heard by at least three members bench consisting of President, one judicial member and one technical member [section 9C of Customs Tariff Act].

(xii) No Appeal against Order of Tribunal

Section 9C does not provide for statutory appeal against order of Tribunal. Hence, only remedy is either writ in High Court or SLP in Supreme Court.

(xiii) High Court should not Exercise Writ Jurisdiction

In view of appeal provisions, High Court should not entertain writ petitions and grant interim relief. Otherwise, the provisions of appeal would be rendered otiose – *Association of Synthetic Fibre Industry v. J K Industries 2006* (199) ELT 196 (SC) * *Nitco Tiles v. Gujarat Ceramic Floor Tiles Mfg Association 2006* (199) ELT 198 (SC).

(xiv) Mid-Term Review

Mid-term review of Anti-Dumping Duty is permissible under rule 23 of Anti-Dumping Duty Rules. In *Rishiroop Polymers v. Designated Authority 2006* (196) ELT 385 (SC), it was held that scope of review enquiry by Designated Authority is limited to the satisfaction as to whether there is justification for continuing imposition of Anti-Dumping Duty. The inquiry is limited to change in various parameters like normal value, export value, dumping margin, fixation of non-injury price and injury to domestic industry. Only changed parameters should be considered.

(xv) New Shipper Review

After imposing of Anti-Dumping Duty, a new exporter may want to export same goods to India. As per rule 22, if he had not exported earlier, he can ask for review of Anti-Dumping Duty. During

the period of review, Government may resort to provisional assessment and may allow imports on submission of guarantee, pending review. If anti-dumping duty is determined, it will be payable retrospectively from date of initiation of review. Such review is termed as 'new Shipper Review'.

(xvi) Discontinuation of Anti-Dumping Duty i.e. Sunset Review

Anti dumping duty ceases on the expiry of five years from date of imposition. However, Central Government can extend the anti-dumping duty, if it is of the opinion that cessation is likely to lead to continuation or recurrence of dumping and injury.

Example 8: An importer imported Description of goods: Mulberry Raw Silk (not thrown) (HS Code 5002 00) from People's Republic of China. CIF value was US \$ 20,000 and quantity 1,000 Kgs. Exchange rate was US \$ = ₹ 44 on date of presentation of Bill of Entry. Customs Duty rates are – (i) Basic Customs Duty 10%, (ii) Education Cess 2%, (iii) SAH Education Cess - 1%. There is no excise duty payable on these goods if manufactured in India. As per Notification No. 106/2003-Cus dated 10-7-2003, anti-dumping duty has been imposed on these goods imported from China, manufactured by any producer in People's Republic of China. The anti-dumping duty will be equal to difference between amount calculated @ US \$31.69 per Kg and 'Landed value' of goods. Compute Customs Duty liability & anti-dumping liability.

Answer:

(a)	Computation of Customs Duty :	
	Total CIF Price	US \$ 20,000
	CIF @ Rs 44 per 1 US \$	₹ 8,80,000.00
	Add – Landing charges @ 1%	₹ 8,800.00
	Assessable Value	₹ 8,88,800.00
	Basic duty @ 10%	₹ 88,880.00
	Education Cess @ 2% on 88,880.00	₹ 1,777.60
	SAH education Cess 1%	₹ 888.80
	Total Customs Duty payable (Basic + Education Cess)	₹ 91,546.40
	Rounded off	₹ 91,546.00
(b)	Computation of landed value	
	Assessable Value Under Customs Act	₹ 8,88,800.00
	Add: All Duties of Customs	₹ 91,546.40
	Landed Value as per Anti-Dumping Notification	₹ 9,80,346.00
(c)	Computation of anti-dumping duty	
	Rate of Silk Yarn as per Anti-Dumping Notification	
	(US \$ 31.69 per kg) × 1000 kgs =	US \$ 31,690
	Value @ ₹ 44 per US \$ = (31,690\$ × ₹ 44)	₹ 13,94,360
	Less : Landed value as per Anti-Dumping =	₹ 9,80,346
	Anti-Dumping Duty Payable	₹ 4,14,014

4.3 VALUATION IN CUSTOMS

4.3.1 Customs duty is payable as a percentage of 'Value' often called 'Assessable Value' or 'Customs Value'. The Value may be either (a) 'Value' as defined in section 14(1) of Customs Act or (b) Tariff value prescribed under section 14(2) of Customs Act. The provisions relating to customs valuation have been completely revamped by introducing new section 14 w.e.f. 10-10-2007.

4.3.2 Tariff Value -

- i. Tariff Value can be fixed by CBE&C (Board) for any class of imported goods or export goods. CBE&C should consider trend of value of such or like goods while fixing tariff value. Once so fixed, duty is payable as percentage of this value. (The percentage applicable is as prescribed in Customs Tariff Act). Fixing tariff value is not permitted under GATT convention. However, the provision of fixing tariff values has been retained.
- ii. Tariff value for crude palm oil, RBD Palmolein, palm oil, crude soya-bean oil and brass scrap has been fixed by notification No. 36/200 1 -Cus (NT) dated 3-8-2001.
- iii. Transaction value at the time and place of importation or exportation, when price is sole consideration and buyer and sellers are unrelated is the basic criteria for 'value' u/s 14(1) of Customs Act. Thus, CIF value in case of imports and FOB value in case of exports is relevant.
- iv. In case of high sea sale, price charged by importer to assessee would form the assessable value and not the invoice issued to the importer by foreign supplier. –*National Wire v. CC* 2000(122) ELT 810 (CEGAT) * *Godavari Fertilizers v. CC* (1996) 81 ELT 535 (CEGAT).
- v. Rate of exchange will be as determined by CBE&C or ascertained in manner determined by CBE&C.
- vi. Valuation for customs is required to be done as per provisions of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007
- vii. CIF value of goods plus 1% landing charges is the basis for deciding 'Assessable Value'.
- viii. Commission to local agents, packing cost, value of goods and tooling supplied by buyer, royalty relating to imported goods are addible.
- ix. Interest on deferred payment, demurrage and value of computer software loaded is not to be added.
- x. Old machinery and old cars are often valued on basis of depreciated value, though such method has no sanction of law.

4.3.3 Additions To 'Customs Value'

Rule 10 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 [Rule 9 upto 10-10-2007] provide that following cost and services are to be added, *if these are not already included in the invoice price.* –

- i. Commission and brokerage, except buying Commission, if not already included in the invoice price [rule 10(1)(a)(i)].
- ii. Cost of container which are treated as being one with the goods for customs purposes, if not already included in the invoice price [rule 10(1)(a)(ii)]. Cost of packing whether labour or materials, if not already included in the invoice price [rule 10(1)(a)(iii)].
- iii. Materials, components, tools, dies, moulds, and consumables used in production of imported goods, supplied by buyer directly or indirectly, free of charge or at reduced cost, to the extent not already included in price [rule 10(1)(b)(i), (ii) and (iii)]
- iv. Engineering, development, art work, design work, plans and sketches undertaken elsewhere than in India and necessary for production of imported goods, to the extent not already included in price [rule 10(1)(b)(iv)].
- v. Royalties and license fees relating to imported goods that buyer is required to pay, directly or indirectly, as a condition of sale of goods being valued [rule 10(1)(c)]
- vi. Value of proceeds of subsequent resale, disposal or use of goods that accrues directly or indirectly to seller (i.e. to foreign exporter) [rule 10(1)(d)]
- vii. All other payments made as condition of sale of goods being valued made directly or to third party to satisfy obligation of seller, to the extent not included in the price [rule 10(1)(e)]
- viii. Cost of transport upto place of importation [rule 10(2)(a)]

- ix. Loading, unloading and handling charges associated with delivery of imported goods at place of importation [These are termed as landing charges and are to be taken as 1%] [rule 10(2)(b)]
- x. Cost of insurance [rule 10(2)(c)]

The additions should be on the basis of objective and quantifiable data [rule 10(3) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 (earlier rule 9(3))].

4.3.4 Services / Documents / Technical Know-How Supplied by Buyer

Cost of engineering, development, art work, design work and plans and sketches undertaken by buyer which is necessary for production of imported goods is includible, only if such work is undertaken *outside India*. [Rule 10(1)(b)(iv) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 (earlier rule 9)] The addition should be done on objective and quantifiable data. Data available with importer should be used as far as possible. If the services are purchased or leased by importer, such purchase/lease cost should be added. If the importer has himself done the work abroad, its cost should be added on basis of structure and management practices of importer and his accounting methods (in other words, if development work, plans, sketches etc. is done by importer himself *outside India*, its cost should be calculated based on normal accounting practices - like apportionment of overheads, apportionment over various jobs if the same development work, design work etc. is used for more than one jobs etc.) [Interpretative Note to rule 10(1)(b)(iv) of Customs Valuation Rules].

4.3.5 Technical Know How Related to Imported Machinery

In *CC v. Essar Gujarat Ltd.* (1997) 9 SCC 738 = 88 ELT 609 = 17 RLT 588 (SC 3 member bench), it was held that payment of license fee and transfer of technology, without which the imported plant could not function, will have to be added to the value of imported plant. However, training charges cannot be included. —wrongly followed in *CC v. Himson Textile Engg. Ltd.* 1997(93) ELT 301 (CEGAT).

4.3.6 Royalties and License Fee

Royalties and license fees related to imported goods that the buyer is required to pay, directly or indirectly, as a condition of sale of the goods being valued, to the extent that such royalties and fees are not included in the price actually paid or payable, are required to be added in assessable value. [Rule 10(1)(c) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 (earlier rule 9)].

4.3.7 Royalty Payment Un-connected with Imported Goods not to be Added

Often, a lump-sum payment of royalty is made to foreign collaborators for technical know-how. In addition, components / parts/ CKD packs are procured from foreign collaborators. Customs department normally holds that the price of parts/CKD packs should be loaded, on assumption that the part of price of component parts/CKD packs has been paid as 'royalty payment'.

4.3.8 Charges for Reproduction of Goods in India not to be Added

Interpretative Note to rule 10(1)(c) of Customs Valuation Rules makes it clear that charges for right to reproduce the imported goods in India shall not be added.

4.3.9 Barge/ Lighterage Charges includible

In some cases, the ship is not brought upto jetty. Goods are discharged at outer anchorage. This may be for various reasons, e.g. (a) deep draught at port, (b) Ports are busy, (c) Odd dimensional or heavy lifts or hazardous cargo discharged at anchorage. Charges for brining the goods from outer anchorage are known as 'barging/ lighterage charges'.

As per *explanation* to rule 10(2) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 [inserted w.e.f. 10-10-2007], ship demurrage charges on chartered vessels, lighterage or barge charges are includible. Mode of computation of freight of time chartered/daughter vessel has been specified in MF(DR) circular No. 4/2006-Cus dated 12-1-2006.

4.3.10 Demurrage charge

Demurrage charges are levied for the space the goods occupy and for the period it remains not being released, on account of lack of customs clearance not given under Section 45 of Customs Act, 1962.-Shipping Corporation of India Ltd. vs. C.L. Jain Woollen Mills 2001 (129) ELT 561 (SC)

No Rent/demurrage charges payable if the Customs authorities have detained the cargo. If rent is paid to the Port Trust, it is refundable

In case, Consignment was detained by Customs for special examination for 42 days and then released. There was no fault or negligence on importer's part. Wharf rent exemption certificate/ detention certificate was issued by Customs - Importer's claim for refund of the charges of rent paid is permissible under Port Trust Notification No. 412 of August 1979. High Court ordered the Port Trust to pay the claim within two months failing which to pay interest @ 12% per annum for next two months and thereafter interest @ 18% per annum till the amount along with interest is paid. Out of 18% interest, 6% of that interest should be recovered from the Port Trust Officer responsible for the delay in payment of refund - Section 45 of Customs Act, 1962.-Neo Plastic Industries vs. Union of India 1999 (111) ELT 33 (Cal.)

Waiver of demurrage charges

Demurrage charges are liable to be waived by International Airport Authority of India when detention certificate issued by Customs authorities mentioning delay caused due to ITC formalities and not tariff classification dispute, under clauses 2 and 3 of the directives issued on 10-12-1977 under Regulation 6 of the International Airport Authority Act, 1971 - Section 45 of the Customs Act, 1962.--Gaurisons and another vs. International Airport Authority of India and another 1988 (34) ELT 550 (Del.)

Demurrage charges liable to be paid by the Customs if the inordinate delay is due to the Customs Authorities

Under the circumstances, demurrage and container detention charges were ordered to be borne fully by Customs Department by Delhi High Court when clearance of consignments under four Bills of Entry inordinately delayed by Department for about six years. Conduct of Customs Officers concerned was also under investigation - Section 47 of Customs Act, 1962.-Union of India vs. Sanjeev Woollen Mills 1998 (100) ELT 323 (SC)

Importer need not required to bear the charges when the Customs have detained the cargo

Demurrage and container charges were incurred during detention and confiscation of goods by customs and such detention and confiscation having been held illegal by competent court/authority. The carrier and the custodian have their rights under clauses 14 and 18 of the Indian Bills of Lading Act, 1956 and Section 170 of the Contract Act and they retain a lien over the goods until their dues are paid. There is no provision in the Customs Act, 1962 that nullifies the rights of the carrier/custodian, the moment Customs issue a detention certificate, Section 45(2)(b) of Customs Act does not absolve the Customs of their liability of paying the demurrage charges.- Shipping Corporation of India LW. vs. C.L. Jain Woolen Mills 2001 (129) ELT :561 (SC)

Cases in which customs alone has to pay the demurrage charges

M/s Austin Engineering Co. Ltd. vs. CC (Exports), Chennai 2009--TIOL-564-HC-MAD-CUS. (Dated: September 18, 2009)

Demurrage charges - As per the detention certificate issued by the Customs, the detention was not due to any fault or negligence on the part of the importer - In such cases, the customs alone has to pay the demurrage charges.

Demurrage Charges - Madras High Court orders Customs to pay demurrage charges for detaining goods for no fault of importer. Relying on the decision of Supreme Court in case of Shipping Corporation of India vs. C.L. Jain Woolen Mills 2002-TIOL-536-SC-CUS-LB, the HC held that the Customs Department

alone has to pay the demurrage charges for the period for which detention certificate was issued by the Customs. For the period from 05.08.2004 till the date of clearance of the goods, it was held that the petitioner importer is liable to pay the demurrage charges.-- 2009-TIOL-564-HC-MAD-CUS

4.3.11 Landing Charges to be added

Cost of unloading and handling associated with delivery of imported goods in port (called *landing charges*) shall be added. These will be calculated @ 1% of CIF value, i.e. FOB price plus freight plus insurance. [Rule 10(2)(b) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 –earlier rule 9].

4.3.12 Cost of Transport upto Port should be added

Cost of transport from exporting country to India is to be added in 'Assessable Value'. [Rule 10(2)(a) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 (earlier rule 9).] In other words, CIF value is the basis for valuation. If the goods are imported by air, the air freight will be very high. Hence, in case air freight is higher than 20% of FOB price of goods, only 20% of FOB price will be added for Customs Valuation purposes.

If cost of transport is not ascertainable, it will be taken as 20% of FOB value of goods. However, cost of transport within India is not to be considered.

4.3.12 Insurance Cost should be added

Insurance charges on goods are to be added. [Rule 10(2)(c) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007]. If these are not ascertainable, these will be calculated @ 1.125% of FOB Value of goods.

4.3.14 Exclusions from Assessable Value

Interpretative Note to rule 3 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 provide that following charges shall be excluded:

- Charges for construction, erection, assembly, maintenance or technical assistance undertaken *after* importation of plant, machinery or equipment
- Cost of transport *after* importation
- Duties and taxes in India

Other payments from buyer to seller *that do not relate* to imported goods are not part of the customs value. Demurrage charges payable to port trust authorities for delay in clearing goods are not to be added. - *Dee pak Fertilisers v. CC* 1989(41) ELT 550 (CEGAT) * *Hindustan Lever v. UOI* 2002(142) ELT 33 (Cal HC). [However, ship demurrage is includible w.e.f. 10-10-2007].

Ship demurrage includible w.e.f. 10-10-2007 - explanation to rule 10(2)

4.3.15 Essential Ingredients of Valuation (section 14)

The essential ingredients of section 14 may be analyzed as under:

- a) Section 14 would be applicable only when customs duty is chargeable on goods based on their value either under the Customs Tariff Act, 1975 or under any other law for the time being in force.
- b) The value of goods under section 14(1) is deemed value.
- c) The assessable value will be price at which like goods are ordinarily sold.
- d) Where there is no sale price, the value shall be the price at which such or like goods are ordinarily offered for sale.
- e) The terms of the price should be for delivery at the time and place of importation or exportation, as the case may be.
- f) The sale or offer for sale should be in the course of international trade.
- g) There should be no mutuality of interest between the seller and the buyer.
- h) Price should be the sole consideration for sale or offer for sale.

Analysis in the Light of Judicial Decisions

The above ingredients may be further explained with the help of judicial rulings as under:

(a) Assessable Value is Deemed Value

Section 14(1)(a) brings about the concept of deemed value, which is a fictional value that relates to the concept of intrinsic value of goods, which it may fetch in the international market.

In the case of *Union of India v Glaxo Laboratories Ltd.*, the Court observed that the assessable value as per section 14(1), need not as a matter of fact, be the invoice price or the price that is agreed between the parties. It may be deemed value.

(b) Price

In *N Gulabair D Parekh v Union of India*, it was observed that the invoice price based on the prevailing price list, should be accepted in terms of section 14(1) (a) of the Customs Act.

A declared price list can be used for the purpose of arriving at the value but there is no hard and fast rule and the invoice may supersede the price list as held by the Supreme Court in *Mirah Exports Pvt. Ltd. v CC*.

In *Rajkumar Knitting Mills P Ltd. v CC*, a three member bench of Supreme Court held that for valuation purposes, 'ordinary' price at the time of importation is relevant and *not* the price prevalent on the date of contract.

(c) At which such or like goods Are Ordinarily Sold

In *Chander Prakash & Co v Collector of Customs*, it was held that when the invoice price was very low and when the prices of comparable goods were available, it would not be appropriate to adopt the invoice price.

(d) Where there is no sale price, the 'Offer for Sale' price will be applicable

In case a sale price is not available, the offer for sale price may be construed as the basis determining the assessable value. For example, in case a price list is available, such price list is the quotation as well.

(e) Ordinarily Sold

In *Collector of Customs, Bombay v Maruti Udyog Limited* (1987), Maruti Udyog Limited, which had collaboration with Suzuki Motor Co. Limited, was the only buyer of Suzuki SKD/CKD packs and complete vehicles. A controversy arose so to whether the price charges by Suzuki could be considered as one at which goods were ordinarily sold or offered for sale. In this case, the court held that the price charged by the Suzuki was a commercial price. Also, it was held that there was nothing to prove that the transaction between the two companies were not at arm's length.

(f) In the course of International Trade

In *Satellite Engineering Limited v Union of India* (1983), the assessee, who was manufacturers of fluorescent starter switches imported lead glass tubing at rate of 0.15 pounds per kg. However, the customs department which was of the opinion that the value was low obtained two more quotations which were 0.430 pounds per kg. And 0.429 pounds per kg. respectively. It was held that the prices indicated in the two quotations were in the course of international trade and hence that rate will form the basis for determining the assessable value.

(g) Price being the Sole Consideration

In *Sanjay Chandiram v Collector of Customs*, the court held that as there is no proof of comparable goods being imported at a higher rate and as it cannot be shown that the importer had paid to the supplier, an amount more than that required to be paid, there is no ground for rejection of the transaction value.

4.3.16 Relevant Date for Rate and Valuation of Import Duty

Section 15 of Customs Act prescribes that rate of duty and tariff valuation applicable to imported goods shall be the rate and valuation in force at one of the following dates (a) if the goods are entered for home consumption, the date on which bill of entry is presented (b) in case of warehoused goods, when Bill of Entry for home consumption is presented u/s 68 for clearance from warehouse and (c) in other cases, date of payment of duty.

4.4 METHODS OF VALUATION

The Customs Valuation (Determination of Value of Imported Goods) Rules, 2007, based on WTO Valuation Agreement (earlier GATT Valuation Code), consist of rules providing six methods of valuation.

- i. The methods of valuation for customs methods are as follows —
- ii. Transaction Value of Imported goods [Section 14(1) and Rule 3(1)]
- iii. Transaction Value of Identical Goods [Rule 4]
- iv. Transaction Value of Similar Goods [Rule 5]
- v. Deductive Value which is based on identical or similar imported goods sold in India [Rule 7]
- vi. Computed value which is based on cost of manufacture of goods plus profits [Rule 8]
- vii. Residual method based on reasonable means and data available [Rule 9]

4.4.1 Methods to be applied Sequentially

These methods are to be applied in sequential order, i.e. if method one cannot be applied, then method two comes into force and when method two also cannot be applied, method three should be used

and so on. The only exception is that the 'Computed value' method may be used before 'deductive value' method, if the importer requests and Assessing Officer permits.

4.4.2 Rejection of 'Value'

Importer has to declare 'value' of goods. If the assessing officer has reason to doubt about truth or accuracy of the value declared by the importer, he can ask the importer to submit further information and evidence. If the customs officer still has *reasonable doubt*, he can reject the 'value' as declared by the importer. [Rule 12(1) w.e.f. 10-10-2007 – earlier rule 10A(1) of Customs Valuation Rules added w.e.f. 19-2-1998]. If the importer requests, the assessing officer has to give reasons for doubting the truth or accuracy of value declared by importer [Rule 12(2) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 – earlier rule 10A(2) of Customs Valuation Rules upto 10-10-2007].

4.4.3 Rule 12 is only Mechanism to Reject the Declared Value

As per *explanation (1)(i)* to Rule 12, the Rule 12 does not provide any method for determination of value. It only provides mechanism to reject declared value, where there is reasonable doubt. If transaction value is rejected, valuation has to be done as per Rule 4 to 9 [Explanation (1)(i) to Rule 12 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007].

4.4.4 Transaction Value of Imported Goods [Section 14(1) and Rule 3(1)]

As per rule 3(1), value of imported goods shall be transaction value adjusted in accordance with provisions of rule 10 [Rules effective from 10.10.2007].

As per rule 10 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007, various additions like sales commission, cost of containers, cost of packing; cost of materials, components etc. or services supplied by buyer; royalties payable, transport charges, insurance etc. are includible, *if these do not already form part of transaction value (as mentioned above)*.

Rule 3(1) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 is subject to rule 12, which means that provisions of rule 12 overrides provisions of rule 3. As per rule 12 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007, the value as declared by importer can be rejected by Assessing Officer, if he has doubts about truth or accuracy of the value as declared. However, the Assessing Officer has to give reasons for his doubts in writing and provide opportunity of personal hearing. Thus, it is not obligatory on customs officer to accept the transaction value if he has reasons to doubt the truth or accuracy of the same.

Transaction value can be rejected either for special circumstances as per section 14(1) or conditions as specified in rule 3(2) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007.

(A) Special circumstances as per Section 14(1) - The 'special circumstances' in section 14(1) are (a) Buyer and seller should not be related and (b) Price should be the sole consideration for the sale. If these 'special circumstances' are not satisfied, transaction value can be rejected. Any other 'special circumstances' cannot be considered.

(B) Conditions as per Rule 3(2) - As per rule 3(2) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 [Earlier rule 4(2) of Customs Valuation Rules], transaction value can be accepted only if following requirements are satisfied –

(C) No restriction on Buyer for Disposal of Goods - There are no restriction on buyer on disposition or use of goods except the following: (a) restrictions prescribed by public authorities in India (b) restriction on geographical area within which goods may be resold e.g. goods should not be sold outside particular State or outside India or (c) restriction that does not materially affect value of goods - e.g. exporter puts a condition to importer of automobile that car should not be exhibited before a particular date – illustration given in Interpretative Note to rule 3(2) (a) (iii). [rule 3(2) (a)].

(D) Sale not subject to conditions of which value cannot be determined - *The sale or price should not be subject to a condition or consideration for which value cannot be determined. Examples given in interpretative note to rule 3(2) (b) are – (a) Price is subject to condition that buyer buys some other goods in specified quantities from seller (b) price is dependent on price at which buyer of imported goods sells other goods to seller (c) Price is based on form of payment extraneous the imported goods. However, (i) buyer furnishing engineering and plans undertaken in India to seller (ii) Buyer undertaking activities of marketing of imported goods in India will not form part of value of imported goods [rule 3(2) (b)].*

(E) No further consideration to Seller of which adjustment cannot be made - *Seller should not be entitled to further consideration like part of subsequent resale, disposal or use of goods by the buyer will accrue directly or indirectly to seller, unless proper adjustment in value terms can be made as per rule 10 e.g. if the importer is a trader and the condition is that after he sells the goods in India, the foreign exporter will get a fixed amount after the sale, that extra amount can be added for Customs Valuation [rule 3(2) (c)].*

(F) Unrelated Buyer and Seller, Except when price acceptable under Rule 3(3) - *Buyer and seller are not be related, unless the transaction value is acceptable under rule 3(3) [rule 3(2)(d)] [earlier rule 4(2)(h) upto 10-10-2007]. If any of the aforesaid requirements is not satisfied, 'transaction value' cannot be accepted for valuation purposes.*

Related person under Customs Valuations Provisions

Rule 2(2) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 and Rule 2(2) of Customs Valuation (Determination of Value of Export Goods) Rules, 2007 define that persons shall be deemed to be 'related' only if one of the conditions is satisfied:

- they are officers or directors of one other's businesses [Rule 2(2)(i)]
- they are legally recognised partners in business [Rule 2(2)(ii)]
- they are employer and employee [Rule 2(2)(iii)]
- any person directly or indirectly owns, controls or holds 5% or more of shares of both of them [Rule 2(2)(iv)]
- one of them controls other directly or indirectly [Rule 2(2)(v)]
- both of them are controlled - directly or indirectly - by third person [Rule 2(2)(vi)]
- together they control a third person - directly or indirectly [Rule 2(2)(vii)]
- they are members of same family [Rule 2(2)(viii)]. (what is **"family"** is not defined).

Person includes legal person i.e. Company, partnership firm, trust etc. [Explanation I to Rule 2(2)].

If a person is sold agent or sole distributor or sole concessionaire of other, he will be deemed to be 'related', if he falls within the criteria of rule 2(2) [Explanation II to Rule 2(2)]. Thus, sole selling agent or sole distributor or sole concessionaire will be 'related person' only if he falls within the criteria as specified in rule 2(2). A sole selling agent or sole distributor or sole concessionaire is not automatically deemed as 'related person' in all the cases.

Interpretative Note to rule 2 clarify that for purpose of rule 2(2)(v), one person is deemed to control other if he is legally or operationally in a position to exercise restraint or direction over the other. Thus, control need not be only legal - even operational control is enough.

In *CC v. East African Traders* 2000(115) ELT 613 (SC), it was held that authorities can pierce the corporate veil to ascertain whether the buyer and seller are indeed related persons within the meaning of the rule. [Piercing corporate veil means looking behind the facade to see the persons who are in real control]. [The Tribunal had held that even if MD of supplier company is brother of importing firm, supplier and importer cannot be treated as related person. However, Supreme Court has said that they can be treated so by piercing the corporate veil].

However, merely because two parties are related to each other will not amount to under valuation per se. It will depend on facts and circumstances of each individual case - CC v. Variant (India) Ltd. (2007) 210 ELT 481 (SC).

In Siemens Ltd v. CC2000(126) ELT 1134 (CEGAT), it was held that even if buyer is a subsidiary company, invoice price should be accepted if the relationship has not affected the invoice price and price is same as the price sold to other independent buyers.

4.4.5 Transaction Value of Identical Goods

Rule 4(l) (a) of Customs Valuation (Determination of Value of Imported Goods) Rules 2007 of Customs Valuation Rules provide that if valuation on the basis of 'transaction value' is not possible, the 'Assessable value' will be decided on basis of transaction value of identical goods sold for export to India and imported at or about the same time.

Rule 4(1)(b) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 provides that transaction value of identical goods at the same commercial level and in substantially same quantity as the goods being valued shall be used to determine value of imported goods.

If transaction value at different commercial level or in different quantities or *both* is available, suitable adjustments can be made to take into account the difference.

Identical goods' are defined under Rule 2(1)(d) of Custom Valuation (Determination of value of Imported Goods) Rules, 2007 as those goods which fulfill all following conditions i.e. (i) the goods should be same in all respects, including physical characteristics, quality and reputation; except for minor differences in appearance that do not affect value of goods, (ii) the goods should have been produced in the same country in which the goods being valued were produced, (iii) they should be produced by same manufacturer who has manufactured goods under valuation - if price of such goods are *not* available, price of goods produced by another manufacturer in the same country. However, if engineering, development work, art work, design work, plan or sketch undertaken in India were completed by the buyer on these imported goods free of charge or at reduced rate for use in connection with the production and sale for export of these imported goods, these will not be 'identical goods'.

Summary of valuation of 'Identical Goods'

- i. Contemporaneous imported goods,
- ii. Same in all respect,
- iii. Minor difference in appearance like Nokia 6265 (steel gray) & Nokia 6265 (Black colour),
- iv. Produced in same country at same commercial level, substantially same quantity – Lowest value to be taken,
- v. 1st preference – same manufacturer,
- vi. 2nd preference – only if same manufacturer not available then different manufacturer,

Adjustments to be made

Price of identical goods should be compared at same commercial level and in substantially same quantity of goods [rule 4(1)(b) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007] - noted in Elite Packaging Industries v. CC-1992 (60) ELT 311 (SC).

If transaction value at different commercial level or in different quantities or *both* is available, suitable adjustments can be made to take into account the difference. It should be on demonstrated evidence which clearly establishes reasonableness and accuracy of adjustments [rule 4(1)(c) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007].

As per interpretative note to rule 4 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007, if price of identical goods at same commercial level and in substantially the same quantities

as the goods being valued is not available, customs officer can use any of the following price of identical goods - (a) sale at same commercial level but in different quantities (b) sale at different commercial levels but in substantially the same quantities or (c) sale at different commercial level and in different quantities. Such price can be only 'transaction value' which has already been accepted under rule 3. After such sale is found, adjustment will be made for (a) quantity factor only (b) commercial level factors only or (c) both commercial level and quantity factors.

Such adjustment can be only on basis of demonstrative evidence e.g. valid price lists containing prices referring to different levels or different quantities. For example, assume that import is for 10 units, while transaction value of identical goods is available for 500 units. If the seller is known to be giving quantity discounts and if seller's price list for 10 units and 500 units is available, adjustment can be made based on seller's price list. In such case, price of identical goods made in 10 units need not be available. Such adjustment can be only on objective measure on bona fide evidence and not arbitrary.

Adjustment for distances and transport costs - If valuation of identical goods was made after adding costs and services as per rule 10 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007, differences arising due to differences in distances and means of transport should be considered, while arriving at 'Assessable Value' of goods under valuation. This will be required if value of identical goods manufactured by different manufacturer and/or at different place is being taken as basis for valuation [Rule 4(2)].

4.4.6 Transaction Value of Similar Goods

If first method of transaction value of the goods or second method of transaction value of identical goods cannot be used, rule 5 (earlier rule 6) provide for valuation on basis of 'Transaction value of similar goods imported at or about the same time'.

What are Similar goods - Rule 2(1)(f) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 [earlier rule 2(1)(e) upto 10-10-2007] define 'similar goods' as (a) alike in all respects, have like characteristics and like components and perform same functions. These should be commercially inter-changeable with goods being valued as regards quality, reputation and trade mark. (b) the goods should have been produced in the same country in which the goods being valued were produced. (c) they should be produced by same manufacturer who has manufactured goods undervaluation - if price of such goods are not available, price of goods produced by another manufacturer in the same country can be considered. . However, if engineering, development work, art work, design work, plan or sketch undertaken in India were completed by the buyer on these imported goods free of charge or at reduced rate for use in connection with the production and sale for export of these imported goods, these will not be 'similar goods'.

As per rule 5(2) and interpretative note to rule 5 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007, the adjustments that can be made are same as can be done in respect of identical goods under rule 4 i.e. (a) Adjustments for commercial level and/or quantity can be made (b) if valuation of similar goods is made after adding costs and services as per rule 10, differences arising due to differences in distances and means of transport should be considered, (c) if more than one value is available, lowest of such values should be taken.

Distinction between identical goods and similar goods

The major distinction between 'identical goods' and 'similar goods' is that the 'identical goods' should be same in all respects, except for minor differences in appearance, while in case of 'similar goods', it is enough if they have like characteristics and like components and perform same functions. In both the cases, (a) quality and reputation (including trade mark reputation) should be same (b) Goods should be from same country, (c) Goods produced by another manufacturer can be considered if price of goods produced by same manufacturer are not available. However, brand reputation and quality of other manufacturer should be comparable (d) If engineering, development work, art work, design work, plan or sketch undertaken in India were completed by the buyer on these imported

goods free of charge or at reduced rate for use in connection with the production and sale for export of these imported goods, the price cannot be considered.

'Similar' does not mean identical but means corresponding to or resembling to in many respects. - Vishrut Industries v. CCE 2001 (130) ELT 225 (CEGAT).

Goods produced in Japan and goods produced in France cannot be termed as 'similar goods' for purpose of these rules - Nitisodya Diamond Tools v. CC - 1994 (74) ELT 49 (CEGAT)

Summary of valuation of 'Similar Goods'

- i. Contemporaneous imported goods,
- ii. Not like in all respect,
- iii. Like characteristics and component materials,
- iv. Perform same functions,
- v. Commercially inter changeable w.r.t. quality, reputation & trademark,
- vi. Produced in same country,
- vii. 1st preference – same manufacturer,
- viii. 2nd preference – only if same manufacturer not available then different manufacturer.

4.4.7 Deductive Value Method

Rule 7 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 provide for the next i.e. fourth alternative method, which is called 'deductive method'.

If the importer requests and the Customs Officer approves, 'computed value' method as given in rule 8 can be used before the method of 'deductive value' [proviso to Rule 6 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007].

This method should be applied if transaction value of identical goods or similar goods is not available; but these products are sold in India. The assumption made in this method is that identical or similar imported goods are sold in India and its selling price in India is available. The sale should be in the same condition as they are imported. Assessable Value is calculated by reducing post-importation costs and expenses from this selling price. This is called 'deductive value' because assessable value has to be arrived at by method of deduction (deduction means arrive at by inference i.e. by making suitable additions/subtractions from a known price to arrive at required 'Customs Value').

Price at or about the time of valuation - Price at or about the time at which goods in question are being valued should be considered. However, rule 7(2) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 provide that if such price is not available, price at the date after importation but within 90 days can be considered. Thus, if price prevalent prior to date of import of goods under-valuation is not available, even price subsequent to import of the goods can be considered under this rule.

Such sale should be in sufficient quantity to establish unit price.

Price after processing - If price of identical or similar goods in India is not available, but price in India is available after the imported goods are processed, such price can be considered after deducting processing cost. Such deduction should be on objective and quantifiable data. This method is not normally applicable if the imported goods lose identity after processing, unless value of imported component can be determined accurately without difficulty even after such conversion. This method also should not be applied if after processing, imported goods form a minor part of the processed goods. In such cases, reducing costs of other materials and processing costs from selling price of processed goods may not give reliable results [rule 7(3) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007].

The method may be used when goods are extracted on High Seas (e.g. minerals, crude oil etc.) and brought into India for sale. It will be 'import' and dutiable. In other cases, chances of using this method of valuation are indeed very rare.

Subtractions from selling price in India - Following subtractions should be made from selling price of imported goods in India, (a) Selling commission, general (selling) expenses and selling profits made in connection with sale of imported goods in India. General expenses includes direct and indirect cost of marketing the goods in question in India, (b) transport, insurance and associated costs within India (c) customs duties, sales tax and other taxes levied in India.

Seller in India of imported goods will incur all these expenses and hence, it is clear that 'CIF Value' can be arrived at i.e. 'deduced only after all these expenses are reduced from selling price of identical or similar goods sold in India. In other words, all (estimated) expenses incurred after importation of goods should be subtracted from selling price in India to arrive at 'CIF Price' of goods.

Unit price sold in greatest numbers - Rule 7 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 specify that while considering selling price of imported goods in India, unit price at which greatest aggregate quantity of identical or similar goods are sold to unrelated persons in India should be the basis. Interpretative Note to rule 7 of Customs Valuation Rules gives some illustrations - e.g. if 65 units are sold @ ₹100, 55 units are sold @ ₹95 and 80 units are sold @ ₹90; then greatest aggregate quantity is 80 which is sold @ ₹90 per unit, which will be the basis for valuation. Another example given in the Interpretative Note is that if 500 units are sold at price of ₹95 and 400 units are sold at ₹90, then greatest quantity is 500 and hence price of ₹95 should be considered.

Summary of valuation of 'Deductive value method'

- i. Transaction value of imported goods or identical or similar goods is not ascertainable,
- ii. Goods one sold in India after importation,
- iii. Sale in India in same condition,
- iv. Goods sold after further processing shall be considered,
- v. Sale to unrelated person,
- vi. Sales are made at or about the time (within a maximum 90 days after import),
- vii. Unit price at which greatest number of unit it sold at the first commercial level after importation,

4.4.8 Computed Value Method

If valuation is not possible by deductive method, the same can be done by computing the value under rule 8 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 [earlier rule 7A upto 10-10-2007], which is the fifth method. If the importer requests and the Customs Officer approves, this 'computed value' method can be used before the method of 'deductive value' [proviso to Rule 6 of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007].

In this method, value is the sum of (a) Cost of value of materials and fabrication or other processing employed in producing the imported goods (b) an amount for profit and general expenses equal to that usually reflected in sale of goods of the same class or kind, which are made in the country of exportation for export to India, (c) The cost or value of all other expenses under rule 10(2) i.e. transport, insurance, loading, unloading and handling charges.

Method suitable when producer prepared to give costing - Generally, valuation should be done on basis of information available in India. Thus, this method is normally possible when the importer in India and foreign exporter are closely associated and the foreign exporter is willing to give necessary costing and to provide for subsequent verification, which may be necessary.

In *Rabindra Chandra Paul v. CC(2007) 209 ELT 326 (SC)*, it was observed that this rule may be involved in agro processing, processing of seeds, refined oil from crude oil etc, where raw material has a crucial role to play in the method of costing.

How to calculate cost and profit - Interpretative Note to rule 8 [earlier rule 7A upto 10-10-2007] of Customs Valuation Rules explains how cost or value and profit should be calculated.

The Cost and Value should be on the basis of information supplied by or on behalf of the producer. The information should be on basis of commercial accounts based on generally accepted accounting practices. Cost of commission and brokerage and packing cost has to be added. Similarly, cost of material supplied free, tooling cost, development and engineering charges, design work cost etc. have also to be added. No cost should be counted twice.

How to calculate profit - The amount of profit and general expenses should be taken as a whole. A low profit and higher general expenses may occur in cases where for valid commercial reasons, the prices have been kept low e.g. (a) producers have to sale at lower profit due to unforeseen drop in demand (b) Goods are sold to complement a range of goods produced in India and low price is accepted to maintain competitiveness. However, if the data of producer is not consistent with those generally reflected in sale of goods of same class sold in India, amount of profit and general expenses may be based on other relevant information.

What are General Expenses - General Expenses means direct and indirect cost of producing and selling goods for export, other than those already covered above. [In costing terminology, these are termed as 'overheads'.]

Same class or kind of goods - If data of profit and general expenses of another producer is considered, the goods should be of same class or kind. This should be within very narrow range of group of goods. It must be from same country and not from another country.

Summary of valuation of 'Computed Value Method'

- i. When the producer is willing to give necessary costing data and subsequent clarification,
- ii. Sum total of the production / processing cost of imported goods and,
- iii. Add the usual profit and general expenses and,
- iv. Add costs and charges as per Rule 10(2).

4.4.9 Residual Method

The sixth and the last method is called "residual method". It is also often termed as 'fallback method'. This is similar to 'best judgment method' of the Central Excise, Income Tax and Sales Tax. This method is used in cases where 'Assessable Value' cannot be determined by any of the preceding methods. While deciding Assessable Value under this method, reasonable means consistent with general provisions of these rules should be the basis and valuation should be on basis of data available in India. [Rule 9(1) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007].

The value cannot exceed normal price - The value so determined cannot be more than the 'normal price' i.e. price at which such or like goods are ordinarily sold or offered for sale for delivery at the time and place of importation in course of International Trade, when seller and buyer have no interest in the business of each other or one of them has no interest in the other and price should be sole consideration for sale or offer for sale [proviso to rule 9(1). There was no parallel proviso in earlier rule 8(1)].

Summary of valuation of 'Residual Value Method'

- i. Value to be determined,
- ii. Using reasonable means and section 14 & data available,
- iii. Value so determined shall not exceeds the price at which such or like goods are ordinary sold at the time and place of importation in the course of international trade,
- iv. Buyer or seller are not interest in business of other,
- v. Selling price in India of goods produced in India can't take.

4.4.10 Inclusions/Exclusions in Customs Value

- i. Valuation for customs is required to be done as per provisions of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007.
- ii. CIF value of goods plus 1% landing charges is the basis for deciding 'Assessable Value'.
- iii. Commission to local agents, packing cost, value of goods and tooling supplied by user, royalty relating to imported goods are to be added.
- iv. Interest on deferred payment, demurrage at port is not required to be added.
- v. Value of computer software loaded on machine is to be added to value of machinery.
- vi. Old machinery and old cars are valued on basis of depreciated value, though such method has no sanction of law.

No other additions - No other addition shall be made to price paid or payable, except as provided for in rule 10 [rule 10(4) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 (earlier rule 9(4)]. Interpretative Note to rule 3 (earlier rule 4) also clarifies that activities undertaken by buyer other than those for which adjustments are provided in rule 10 are not to be added, even though it may be regarded as benefit to the seller.

4.4.11 High Sea Sales

It is the responsibility of the importer to prove that the high seas sales transactions constituted transfer of goods. He has to establish a link between the first International transfer of goods to the last transaction.

Custom Valuation Rules, 1988, determination of assessable value for goods sold on high seas- In case the actual high sea sale contract price is more than "the CIF value plus 2%", then the "actual contract price" paid by the last buyer is being taken as the value for the purpose of assessment. In some of the custom Houses, however, audit has raised objection stating that if, in a particular transaction, there were about three/ four high-sea-sales, then high-sea-sales service charges @ 2% has to be added to the CIF value, for each such transaction.

4.4.12 "Green Channel Procedure" for Clearance of Imported Goods

Green Channel procedure has been introduced in major Custom Houses on experimental basis to expedite clearance of imported goods. This procedure is applied only in respect of certain specified imports.

Some of such imports identified are:-

- a) Goods imported by Government departments and public sector undertakings, which do not require physical identification for the purpose of either ITC classification/ restrictions or Customs classification.
- b) Imports under project Import Regulations.
- c) Bulk imports sourced directly from reputed suppliers.
- d) Consignments, which consist of single product of a well-known brand or specification, tested earlier and, covered by valid test report of an earlier import.
- e) Imports by importers with proven identity and unblemished record of past conduct.

The Bills of Entry under this procedure are processed and assessed to duty under the second appraisement system i.e., assessment and duty collection is done first and then consignment examined. In such cases the Assessing Officer indicates on the reverse of the duplicate Bill of Entry to the Appraiser in charge of examination to 'Inspect the lot and check marks and numbers on the packages'. After inspection of the lot and marks and numbers of the packages with reference to the declaration in the Bill of Entry and other connection documents, the Docks Appraiser gives 'passed Out of Customs' order. The Docks Appraiser, in the presence of Assistant Commissioner may examine the goods in exceptional cases.

4.4.13 Practical Problems of Computing Customs Value

BCD, CVD & Spl. CVD

Example 9: D Ltd., an actual user imports certain goods from USA, at Chennai port, at cost of \$1,00,000 FOB. The other details are as follows:

- (i) Packing charges: \$22,000.
 - (ii) Sea freight to Indian port: \$28,000.
 - (iii) Transit insurance: \$10,000.
 - (iv) Design and development charges paid to a consultant in USA by importer: \$9,000.
 - (v) Selling commission to be paid by the Indian importer: ₹ 5,000.
 - (vi) Rate of exchange announced by RBI: ₹ 40.60/\$.
 - (vii) Rate of exchange notified by the Central Board of Excise and Customs: ₹ 40.70/\$.
- Rate of basic custom duty: 15%.

Compute the assessable value of the imported goods and the basic customs duty payable.

Answer :

Statement showing Assessable value of the imported goods and customs duty payable

Particulars	Value (in US\$)	Remarks	Workings
FOB	1,00,000		
Add: Packing charges	22,000	Included into the Assessable value	
Add: sea freight	28,000	-do-	No restriction on sea freight.
Add: insurance	10,000	-do-	
Add: Design and development charges	9,000	-do-	
Add: Selling Commission	122.8501	-do-	₹ 5,000/₹ 40.70
CIF value	1,69,122.8501		
Add: 1% loading and unloading on CIF	1,691.2285		\$ 1,69,122.8501 x 1%
Assessable Value	1,70,814.0786		

Particulars	Value in ₹	Remarks	Workings
Assessable Value	69,52,133		USD 1,70,814.0786 x ₹ 40.70
Add: Basic Customs Duty	10,42,820		₹ 69,52,133 x 15%
Add: 2% Education cess	20,856		₹ 10,42,820 x 2%
Add: 1% SAH Education cess	10,428		₹ 10,42,820 x 1%
Landed value	80,26,237		

Example 10: The following information is furnished by Mr. K on 8th June 2013, 2 respect of articles of jewellery imported from USA in the month of April 2013.

FOB value	\$20,000
Exchange rate	\$1 = ₹ 44
Air freight	\$4,500
Insurance charges	Not known
Landing charges	₹ 1,000
Basic customs duty	10%
Excise duty chargeable on similar goods in India as per tariff rate	16%
Additional duty of customs u/s 3(5) of the Customs Tariff Act, 1975	As applicable.
Calculate the total customs duty payable by Mr.K.	

Answer :

Statement showing customs duties payable by Mr. K.

Particulars	USD (\$)	Remarks	Workings
FOB	20,000		
Add: Air freight	4,000	Air freight should not exceed 20% on FOB	20,000\$ x 20% = 4,000
Add: Insurance	225		1.125% on FOB
CIF value	24,225		
Add: 1% loading and unloading	242.25		24,225 x 1%
Assessable value	24,467.25		
	Value in ₹		
Assessable value	10,76,559		USD 24,467.25 x ₹ 44
Add: Basic Customs Duty	1,07,656		₹ 10,76,559 x 10%
Sub-total	11,84,215		
Add: CVD 16%	1,89,474		₹ 11,84,215 x 16%
Sub-total	13,73,689		
Add: 2% education cess	5,943	2% calculated on BCD plus CVD	₹ 2,97,130 x 2%
Add: 1% SAH education cess	2,971	1% calculated on. BCD plus CVD	₹ 2,97,130 x 1%
Sub-total	13,82,603		
Add: Spl . CVD u/s 3(5) of the Customs Tariff Act, 1975	55,304	Spl . CVD is equal to 4%	₹ 13,82,603 x 4%
Value of imported goods	14,37,907		
Total Customs Duty	₹ 3,61,348		

Example 11: A consignment is imported by air. CIF price is 2,000 Euro. Air freight is 550 Euro and insurance cost is Euro 50. Exchange rate announced by CBE&C as per customs notification is 1 Euro = ₹ 54.15. Basic customs duty payable is 10%. Excise duty on similar goods produced in India is 12%. Education cess and special CVD as applicable. Find value for customs purpose and total customs duty payable. How much Cenvat can be availed by importer, if he is manufacturer?

Answer :

Particulars	Value in EURO (€)	Remarks	Workings
CIF price	2,000		
Less: Air freight	550		
Less: Insurance	50		
FOB price	1,400		
Add: Air freight	280	Restricted to 20% on FOB	EURO 1,400 × 20%
Add: Insurance	50		
CIF (corrected value)	1,730		
Add: 1% unloading on CIF value	17.30		EURO 1,730 × 1%
Assessable Value	1747.30		
	Value in ₹		
Assessable value	94,616	Relevant exchange rate is ₹ 54.15 per EURO	EURO 1,747.30 × 54.15
Add; Basic Customs Duty	9,462	Relevant rate 10%	₹ 94,616 × 10%
Sub-total	1,04,078		
Add: CVD	12,489	Relevant rate 16%	₹ 1,04,078 × 12%
Sub-total	1,16,567		
Add: 2% Education Cess	439		₹ 21,951 × 2%
Add: 1%SAH education cess	220		₹ 21,951 × 1%
Sub-total	1,17,226		
Add: Spl . CVD	4,689		₹ 1,17,226 × 4%
Total value of imported goods	1,21,915		
Total Customs Duty	27,299		

Importer, if he is manufacturer can avail the following duties as Cenvat credit under Cenvat Credit Rules, 2004 is as follows:

CVD= ₹ 16,652 & Spl. CVD = ₹ 4,861

Example 12: M/s. Premium Industries Ltd., has imported a machine from Japan at an F.O.B. cost of 1,00,000 yen (Japanese). The other expenses incurred were as follows: (i) Freight from Japan to Indian port 10,000 yen; (ii) insurance paid to insurer in India ₹ 5,000; (iii) Designing charges paid to consultancy ifrm in Japan 15,000 yen; (iv) M/s Premium Industries Ltd. spent ₹ 50,000 in India for development work connected with the machine; (v) Transportation cost from Indian port to factory ₹ 15,000; (vi) central government has announced exchange rate prevailing in the market was 1 yen = ₹ 0.40 by notification under section 14(3). However, the exchange rate prevailing in the market was 1 yen = ₹ 0.4052 (vii) M/s Premium Industries Ltd. made payment to the bank based on exchange rate of 1 yen = ₹ 0.4150, (viii) The commission payable to the agent in India was @5% of F.O.B. price in Indian rupees. The rate is BCD @10%. Similar goods are subject to 12% excise in India. Education cess and special CVD is as applicable. Find the customs duty and other duties payable. How much CENVAT can be availed by importer, if he is manufacturer?

Answer :

Particulars	Japanese Yen
FOB	1,00,000
Add: Freight	10,000
Add: Designing charges	15,000
Sub-total	1,25,000

	Value in ₹
Sub- total (1,25,000 YEN x ₹0.40)	50,000
Add: Insurance	5,000
Add: Commission (1,00,000 YEN x 5% x ₹0.40)	2,000
CIF Value	57,000
Add: 1% unloading on CIF	570
Assessable Value	57,570

Calculate of Custom Duty payable:

@10%BCD is ₹ 5,757, CVD @12% is ₹ 7,599, Education Cess is ₹ 267, SAH Education Cess is ₹ 134 and Special CVD @4% is ₹ 2,853. Total Customs Duty payable is ₹ 16,610.

Cenvat credit of ₹ 7,599 (CVD) can be availed up to 50% in the first year and balance in the subsequent years. However, with regard to Special CVD is ₹ 2,853 can be availed fully in the first year itself.

Example 13: Compute the Customs duty from the following data— (i) Machinery imported from USA by Air (FOB) 8,000 US \$, (ii) Accessories were compulsorily supplied with Machine (Electric Motor & others) (FOB) 2,000 US \$, (iii) Air freight 3,000 US\$ (iv) Insurance 100 US \$, (v) Local agents commission to be paid in Indian Rupees is ₹ 4,500 (say equivalent to US \$ Dollars 100), (vi) The exchange rate is 1 US Dollars = Indian Rupees is ₹ 45, (vii) Customs duty on Machinery –10% ad valorem, (viii) Customs Duty on Accessory –normal rate 20% *ad valorem*, (ix) CVD – 24% (Effective Rate is 16% by a notification), (x) Education Cess and special CVD is as applicable. How much Cenvat can be availed by importer, if he is manufacturer?

Answer :

	US \$
FOB value of Machinery	8,000
FOB value of Accessories compulsorily supplied with machine	2,000
Total FOB value	10,000
Add: Air freight 20% on FOB is US\$ 2,000 or US \$ 3,000	2,000
(WHICHEVER IS LOWER)	100
Add: Insurance	100
Add: Commission	100
CIF Value	12,200
Add: 1% unloading charges on CIF value	122
Assessable Value	12,322
	=====
Assessable value (i.e. US \$ 12,322 x ₹ 45)	Value in ₹ 5,54,490

Calculation Custom duties: BCD ₹ 55,449, CVD ₹ 97,590 and SPL. CVD ₹ 28,485

CENVAT credit available to the importer being a manufacturer is ₹ 97,590 (CVD) and Special CVD is ₹ 28,485.

Cenvat Credit	Amount in ₹
CVD (₹ 97,590 × 50%)	48,795
SPL. CVD (100% allowed as Cenvat Credit)	28,485
TOTAL	77,280

Note: CENVAT credit on CVD can be availed up to 50% in the 1st year and balance in the subsequent years.

Example 14: 'A' import by air from USA a gear cutting machine complete with accessories and spares. Its HS classification is 8461 40 10 and value US \$ F.O.B. 20,000 other relevant date/ information: (1) At the request of the importer, US \$ 1,000 have been incurred for improving the design, etc. of machine, but is not reflected in the invoice, but will be paid by the party, (2) Freight – US \$ 6,000, (3) Goods are insured but premium is not shown/ available in invoice, (4) Commission to be paid to local agent in India ₹ 4,500, (5) Freight and insurance from airport to factory is ₹ 4,500, (6) Exchange rate is US \$ 1 = ₹ 45, (7) Duties of customs: basic – 10%, CVD – 12% Education Cess on duty as applicable. Compute (i) Assessable value (ii) customs duty. How much CENVAT can be availed by importer, if he is manufacturer?

Answer:

Assessable Value ₹ 11,51,021, BCD is ₹ 1,15,102, CVD @12% is ₹ 1,51,935, Education Cess is ₹ 5,341 and S&H Education Cess is ₹ 2,670. Total Customs duty is ₹ 2,75,048.

Note: CENVAT credit is ₹ 1,51,935 (CVD). Up to 50% of CVD can be avail in the 1st year and the balance in the subsequent years.

Example 15: Compute the duty payable under the Customs Act, 1962 for an imported equipment based on the following information:

Assessable value of the imported equipment US \$10,100.

Date of Bill of Entry 25.4.2013 basic customs duty on this date 20% and exchange rate notified by the Central Board of Excise and Customs US \$ 1 = ₹ 65.

Date of Entry inwards 21.4.2013 Basic customs duty on this date 12% and exchange rate notified by the Central Board of Excise and Customs US \$ 1 = ₹ 50.

Additional duty payable under section 3(1) and (2) of the Customs Tariff Act, 1975: 15%.

Additional duty under section 3(5) of the Customs Tariff Act, 1975: 4%.

Educational cess @2% in terms of the Finance Act (No. 2), 2004 and secondary and higher educational Cess @ 1% in terms of the Finance Act, 2007.

Make suitable assumptions where required and show the relevant workings and round off your answer to the nearest Rupee.

Answer :

	Value in ₹
A.V	6,56,500 (10,100 x 65)
ADD: BCD 20% ON ₹6,56,500	1,31,300
Balance	7,87,800
ADD: CVD 12% ON ₹7,87,800	94,536
Balance	8,82,336
ADD: 2% EDU. CESS	4,517 (2,25,836 x 2%)
ADD: 1% SAH EDU. CESS	2,258 (2,25,836 x 1%)

Balance	8,89,111
ADD: SPL. CVD (4% ON ₹ 8,89,111)	35,564
Value of Imported Goods	9,24,675
Customs Duty	2,68,175

BCD, CVD & Spl. CVD and CENVAT CREDIT:

Example 16: CIF value of imported goods is ₹ 10,00,000. Basic Customs duty payable is 10%. If the goods were produced in India, excise duty payable would have been 8%. Education Cess is 2% and SAH Education Cess is 1 %. Special CVD is payable at appropriate rates. Find the Customs duty payable. What are the duty refunds /benefits available if the importer is (a) manufacturer or, (b) service provider or, (c) trader?

Answer :

Statement showing assessable value and customs duties

Particulars	Value in ₹	Workings
CIF value	10,00,000	
Add: 1% unloading charges	10,000	₹ 10,00,000 x 1%
Assessable value	10,10,000	
Add: Basic Customs Duty	1,01,000	₹ 10,10,000 x 10%
Sub-total	11,11,000	
Add:CVD	88,880	₹ 11,11,000x8%
Sub-total	11,99,880	
Add: 2% Education cess	3,798	₹ 1,89,880 x 2%
Add: 1% SAH Education cess	1,899	₹ 1,89,880x 1%
Sub-total	12,05,577	
Add: Spl. CVD	48,223	₹ 12,05,577x 4%
Value of imported goods	12,53,800	

The following import duties are allowed as CENVAT credit:

If the importer	BCD	CVD ₹	SPL.CVD ₹	Edu. CESS
Manufacturer	CENVAT credit not allowed	88,880	48,223	CENVAT credit not allowed
Service provider	CENVAT credit not allowed	88,880	CENVAT credit not allowed	CENVAT credit not allowed
Dealer	CENVAT credit not allowed	CENVAT credit not allowed	CENVAT credit not allowed. However refund is allowed if VAT paid.	CENVAT credit not allowed

Revised CIF Value:

Example 17: Robotics Private Limited imported some goods by air from ABC Inc. of US. Compute the value of the goods for the purpose of levying the duty:-

Particulars	Dollars(\$)
CIF value	5,000
Freight paid	1,500
Insurance cost	500

The banker realized the payment from importer at the exchange rate of ₹ 45 per US \$.

Central Board of Excise and Customs notified the exchange rate as ₹ 44.50 per US \$.

Basic Customs Duty @10% advalorem. There is no CVD and Special CVD. Find the total import duty.

Answer:

Particulars	US \$
CIF value	5,000
Less: Air Freight	1,500
Less: Insurance	500
FOB value	3,000
Add: Insurance	500
Add: Air Freight 20% on FOB	600
CIF value	4,100
Add: 1% unloading charges on CIF value	41
Assessable value	4,141
Assessable value in ₹ 1,84,275 (i.e. ₹ 44.50 x US \$ 4,141)	
Total customs duty = ₹ 18,980 (i.e. ₹ 1,84,275 x 10.30%)	
Import of MRP Products and Cenvat Credit	

Example 18. Assessable value of certain goods imported from USA in ₹ 10,00,000. The packet contains 10,000 pieces with maximum retail price ₹ 200 each. The goods are assessable under Section 4A of the Central Excise Act, 1944, after allowing an abatement of 40%. The excise duty rate is 8% advalorem. Calculate the amount of Additional duty of Customs under Section 3(1) of the Customs Tariff Act, 1975; assuming basic customs duty@10% advalorem.

Answer :

MRP of imported goods = ₹ 20,00,000 (i.e. ₹ 200 x 10,000 pieces)

Less: abatement @ 40% = ₹ 8,00,000 (i.e. ₹ 20 lakhs x 40%)

Assessable for CVD purpose = ₹ 12,00,000

Additional Duty of Customs under Section 3(1) of the Customs Tariff Act, 1975 is ₹ 96,000. (i.e. ₹ 12 lakhs x 8%)

Valuation of Imported Goods (Rule 4)

Example 19: A consignment of 8,000 units of product X was imported from USA by a charitable organization in India for free distribution to below poverty line citizens in a backward area. This being a special transaction, a nominal price of US\$ 50 per product was charged for the consignment to cover the freight and insurance charges. The Customs House found out that at or about the time of import of this gift consignment, there were following imports of product X from USA:

S. No.	Quantity imported in metric tonnes	Unit price in US \$ (CIF)
1.	200	260
2.	1,000	220
3.	5,000	200
4.	9,000	175
5.	4,000	180
6.	7,800	160

The rate of exchange on the relevant date was 1 US\$ = ₹ 50.00 and the rate of basic customs duty was 10% ad valorem. There is no countervailing duty or special additional duty. Calculate the amount

of duty leviable on the consignment under the Customs Act, 1962 with appropriate assumptions and explanations where required.

Answer :

	US\$
CIF value	= 160.00
Add: 1% unloading charges on CIF value	= 1.60
Assessable value per unit	= 161.60
	Value in ₹
Assessable value for total import	= 6,46,40,000 (i.e. 161.60 x 8,000 units x ₹50)
Add: Customs Duty	= 66,57,920 (i.e. 6,46,40,000 x 10.30%)
Total value of imports	= 7,12,97,920

Anti-Dumping Duty

Example 20: A commodity is imported into India from a country covered by a notification issued by the Central Government under section 9A of the Customs Tariff Act, 1975. Following particulars are made available:

CIF value of the consignment: US\$25,000

Quantity imported: 500 kgs.

Exchange rate applicable: ₹ 50 = US\$1

Basic customs duty: 20%

Education and secondary and higher Education Cess as applicable as per the Finance Act, 2008.

As per the notification, the anti-dumping duty will be equal to the difference between the costs of commodity calculated @US\$70 per kg. and the landed value of the commodity as imported.

Appraise the liability on account of normal duties, Cess and the anti-dumping duty.

Assume that only 'Basic Customs Duty' (BCD) and Education and Secondary and Higher Education Cess are payable.

Answer : Statement showing land value of imported goods and anti-dumping duty:

Particulars	US \$
CIF value	25,000
Add: 1% unloading charges on CIF	250
Assessable value	25,250
	Value in ₹
Assessable value (i.e. 25,250 x ₹ 50)	12,62,500
Add: Customs duty 20.60% on Assessable value	2,60,075
Landed value (or value of imported goods)	15,22,575
Market value of imported goods (500 kgs x ₹ 50 x US\$70)	17,50,000
Anti-dumping duty (₹ 17,50,000 – ₹ 15,22,575)	2,27,425
Total customs duty payable	₹ 4,87,500

4.5 EXPORT GOODS - VALUATION FOR ASSESSMENT

Customs value of export goods is to be determined under section 14 of Customs Act, read with Customs Valuation (Determination of Value of Export Goods), Rules, 2007. Transaction value at the time and place of exportation, when price is sole consideration and buyer and sellers are unrelated is the basic criteria. If there is no sale or buyer or seller are related or price is not the sole consideration, value of the goods will be determined as per Valuation Rules [Clause (ii) of second proviso to section 14(1)].

4.5.1 Valuation when buyer and seller are related

Definition of related person as per rule 2(2) of Customs Valuation (Determination of Value of Export Goods) Rules, 2007 is same as per definition of rule 2(2) of Customs Valuation (Determination of Value of Imported Goods) Rules, 2007.

As per rule 3(2) of Customs Valuation (Determination of Value of Export Goods) Rules, 2007, the transaction value, the transaction value will be accepted as 'value' even if buyer and seller are 'related', if the relationship has not influenced price.

4.5.2 Valuation if value cannot be determined on basis of transaction value

If valuation is not possible on basis of transaction value, valuation will be done by proceeding sequentially through rules 4 to 6 [Rule 3(3) of Customs Valuation (Determination of Value of Export Goods) Rules, 2007].

The methods are - Export value by comparison on the basis of transaction value of 'goods of like kind and quality' exported at or about the same time to other buyers in same destination country [Rule 4], Computed value on basis of cost of production plus profit [Rule 5] and Residual method using reasonable means consistent with principles and general provisions of rules [Rule 6].

4.5.3 Rejection of Value as Declared by Exporter

As per rule 7 of Customs Valuation (Determination of Value of Export Goods) Rules, 2007, the exporter has to file declaration about full 'value' of goods. If the assessing officer has doubts about the truth and accuracy of 'value' as declared, he can ask exporter to submit further information, details and documents. If the doubt persists, the assessing officer can reject the value declared by importer. [rule 8(1) of Customs Valuation (Determination of Value of Export Goods) Rules, 2007]. If the exporter requests, the assessing officer has to give reasons for doubting the value declared by exporter [rule 8(2)].

4.5.4 Rule 8 is only Mechanism to Reject the Declared Value

As per *explanation (1)(i)* to rule 8, the Rule 8 does not provide any method for determination of value. It only provides mechanism to reject declared value, where there is reasonable doubt.

Declared value shall be accepted if assessing officer is satisfied about truth and accuracy of the declared value [Explanation (1)(ii) to rule 8 of Customs Valuation (Determination of Value of Export Goods) Rules, 2007].

4.6 SELF ASSESSMENT ON BASIS OF 'RISK MANAGEMENT SYSTEM'(RMS)

One major step is being taken to move in the direction of implementing international best practices in customs clearance. A 'Risk Management System' for customs clearance of import and export cargo has been introduced. The details of scheme are contained in MF (DR) circular No. 43/2005-Cus dated 24-11-2005- see also CC, Bangalore-I PN 88/2006 dated 31-7-2006 (201 ELT T5). Initially, the scheme will be introduced in Air Cargo Complex, Sahar Mumbai and then it will be introduced in other customs houses in phases. Under Risk Management System (RMS), only high risk cargo is selected for examination. The system provides for special customs clearance for Accredited Clients having good track record and meet specified criteria.

The scheme proposes to do away with existing system of routine assessments and concurrent audit. Goods will be normally cleared on basis of self assessment of importer. Bill of Entry submitted electronically will be transmitted to RMS. The RMS will process the data and produce an electronic output. This output will determine whether the Bill of Entry will be taken up for appraisal/examination or be cleared after payment of duty without any assessment and examination. Any change in system will require prior approval of Commissioner of Customs and after recording reasons. Focus will be on quality assessment, examination and post clearance audit of Bills of Entry selected by the Risk Concurrent audit will be replaced by Post Clearance Audit on Bill of Entry selected by the Risk Management System. Subsequently, demand can be raised even if goods have been cleared from customs.

4.6.1 No change in Custom Act and Rules

The scheme is being introduced without making any change in Customs Act or Rules, the basic procedures of sanctions and approvals remain unaltered and hence is not similar to scheme of self-assessment under Central Excise, where clearances are affected by assessee without supervision or presence of excise inspectors. Scope of the scheme is also very limited.

4.6.2 Scheme open only to 'Accredited Clients'

The scheme is limited to only 'Accredited Clients' as defined in MF (DR) circular No. 42/2005-Cus dated 24-11-2005. They should have imported goods valued at ₹ 10 crores in previous financial year or paid duty more than ₹ 1 crore. In case of importers who are central excise, they should have paid at least ₹ 1 crore of duty through PLA in previous financial year. They should have filed at least 25 Bills of Entry in the previous financial year.

4.7 PROCEDURES FOR IMPORT

Import Procedure has been explained as follows

4.7.1 Goods should arrive at Customs Port/Airport only

- i. Person in charge of conveyance is required to submit Import Manifest or Export-Manifest,
- ii. Goods can be unloaded only after grant of 'Entry Inwards',

- iii. Importer has to submit Bill of Entry giving details of goods being imported, along with required documents. Electronic submission of documents is to be done in many ports,
- iv. Goods are assessed to duty, examined and customs duty is paid. Bond is executed if required,
- v. Goods can be cleared from port after 'Out of Customs Charge' order is issued by customs officer,
- vi. Self Assessment on basis of 'Risk Management System' (RMS) has been introduced in some ports in respect of specified goods and importers,
- vii. Demurrage is payable if goods are not cleared within three days from port. Goods can be disposed of if not cleared within 30 days.

4.7.2 Overview of Procedures for Import

The broad procedures to be followed for assessment and clearance of imported goods are as follows –

- i. Importer to submit Bill of Entry giving details of goods to be cleared from customs,
- ii. Bill of Entry can be for home consumption (i.e. clearance after payment of duty) (white colour) or for warehousing (keeping in warehouse without payment of duty and later clearing on payment of duty when required) (yellow colour),
- iii. Importer to submit other documents like Invoices, contracts, product literature, packing lists, import license etc. So that customs officer can assess the imported goods under clearance,
- iv. Noting of Bill of Entry by customs officer,
- v. Examination of goods and assessment by customs officer (if first appraisement system) or assessment of goods on basis of documents (if second appraisement system),
- vi. Pre-audit by customs department,
- vii. Customs Officer to approve assessment (valuation of goods) on the Bill of Entry and return to importer,
- viii. Importer to execute bond if clearance at concessional rate of duty subject to some conditions or clearance is under provisional assessment,
- ix. Importer to pay duty, if clearance is for home consumption or execute bond, if clearance is for warehousing,
- x. Inspection of goods (if assessment was under second appraisement system),
- xi. Out of customs charge order by customs officer,
- xii. Pay dues of port trust, pay demurrage (if applicable), pay other dues,
- xiii. Transport the goods from customs.

These procedures are for import by ship/air/road. There is separate procedure for goods imported as a baggage or by post.

4.7.3 Submission of Bill of Entry

Bill of Entry is a very vital and important document which every importer has to submit to customs officer in respect of imported goods other than goods intended for transit or transshipment. Bill of Entry should be in prescribed form. It can be either for home consumption or for warehousing [section 46(1)]. It should include all goods mentioned in Bill of Lading or other receipt given by carrier to consignor [section 46(2)]. Importer has to declare that contents of Bill of Entry are true [section 46(4)]

- i. White Bill of Entry is for home consumption. Imported goods are cleared on payment of customs duty.
- ii. Yellow Bill of Entry is for warehousing. It is also termed as 'into bond Bill of Entry' as bond is executed. Duty is not paid and imported goods are transferred to warehouse where these are stored.
- iii. Green Bill of Entry is for clearance from warehouse on payment of customs duty. It is for ex-bond clearance.

4.7.4 When should the Bill of Entry be filed ?

Bill of entry can normally be filed to clear the goods after the Import General Manifest (IGM) is presented to the Custom officers by the steamer Agents/Airlines as the case may be. In exceptional cases the customs authorities may note the Bill of Entry before the manifest is filed. In addition of the goods entered in the vessels manifest Bills of Entry are also required for the clearance of –

- (a) Ship's stores if in considerable quantities.
- (b) Ship's Ballast such as stone, sand, Shingla etc.
- (c) Salvaged goods
- (d) "Sweepings" of import cargo.

4.7.5 Any imported goods should be cleared within 30 days from the date of unloading of goods at a customs station failing which the goods may be disposed of by way of auction.

4.7.6 Time limit to pay Duty once a Bill of Entry has been assessed:

Duty has to be paid within two days from the date on which the Bill of Entry is returned after assessment to the importer / Agent for payment of duty. If duty is not paid within the stipulated time, simple interest @ 15% p.a presently on amount of duty is payable (Section 47 of the Customs Act, 1962).

4.7.7 Documents to be submitted by Importer to Clear the Imported Goods for Home Consumption

Documents required by customs authorities are required to be submitted to enable them to (a) check the goods (b) decide value and classification of goods and (c) to ensure that the import is legally permitted. *The documents that are essentially required are :*

- i. Copy of order/ contract.
- ii. Supplier's invoice in four copies.
- iii. Copy of the Letter of Credit.
- iv. Import licence.
- v. Bill of Lading (original and non-negotiable).
- vi. Packing List (2 copies).
- vii. Weight specification.
- viii. Freight insurance memo.
- ix. Manufacturer's test certificate.
- x. Exchange slip for purpose of exchange rate.
- xi. Certificate of origin.
- xii. Delivery order issued by Shipping company, its agent or carriers.
- xiii. If spare parts are being imported, invoice should indicate unit price and extended total of each item.
- xiv. If invoice is for FOB, freight charges and insurance premium amount certificate should be attached.
- xv. OGL declaration.
- xvi. No commission letter to be given by importer i.e., Agent's commission, if any, has not been paid in India.
- xvii. Customs declaration (4 copies)
- xviii. Catalogue/write-up/ drawing for machinery items.

- xix. Importer-Exporter Code Number.
- xx. If second-hand machinery is being imported then Chartered Engineer's certificate is necessary as per the Import Export Policy.
- xxi. If steel is being imported then analysis certificate from manufacturers.
- xxii. In the case of chemicals and allied products like synthetic resin wax, literature showing chemical composition.
- xxiii. Textile commissioner's endorsement in respect of textile items.

4.7.8 Electronic Submission under EDI system

Customs work at many ports has been computerized. In that case, the Bill of Entry has to be filed electronically, i.e. through Customs EDI system through computerization of work. Procedure for the same has been prescribed vide Bill of Entry (Electronic Declaration) Regulations, 1995.

- i. The broad procedures to be followed for exports are as follows –
- ii. Submit Shipping Bill for export to customs authorities,
- iii. Submit invoice, packing lists, contracts, export license (if applicable) and other related documents,
- iv. Submit necessary declarations for export. Submit * GR/SDF/SOFTEX form as required under FEMA * Excise ARE-1 form
- v. Noting of Shipping Bill by customs officer
- vi. Assessment i.e. valuation and classification of goods. Checking of Advance License, if applicable
- vii. Custom check whether export is restricted/prohibited
- viii. Examination of goods by customs officer
- ix. Pay export duty, if applicable
- x. Stuffing of container, if not already done
- xi. 'Let export' Order by customs officer
- xii. Obtain ARE-1 form duly signed by customs officer. Obtain Bill of Lading from shipping company. Submit proof of export to excise authorities.

Complete formalities relating to claim of duty drawback.

4.7.9 Prior Submission of Bill of Entry

After the goods are unloaded, these have to be cleared within stipulated time - usually three working days. If these are not so removed, demurrage is charged by port trust/airport authorities, which is very high. Hence, importer wants to complete as many formalities as possible before ship arrives. Proviso to section 46(3) of Customs Act allows importer to present bill of entry upto 30 days before expected date of arrival of vessel. In such case, duty will be payable at the rate applicable on the date on which 'Entry Inward' is granted to vessel and not the date of presentation of Bill of Entry, but rate of exchange will be as prevalent on date of submission of bill of entry. - confirmed in CC, New Delhi circular No 64/96 dated 10.12.1996 and CBE&C circular No. 22/97-Cus dated 4.7.1997.

Department has clarified that if vessel does not arrive within 30 days, filing of fresh bill of entry will be necessary and in such cases, date of filing fresh Bill of Entry will be considered for calculating rate of exchange.

4.7.10 Importer can Abandon the Imported Goods

He can abandon the imported goods at any time before the proper officer has given the order for clearance of the goods for home consumption or for warehousing. However if any offence has been committed in respect of the said goods, then the option to abandon the goods is not available.

4.7.11 Customs Recognized Brokers for the purposes of Customs Clearance who can be approved for clearance of Import

Every custom house has authorized Customs Brokers licensed by that particular custom house. Each Customs Brokers has a license / registration no. and identity cards which can be verified from the nearest Custom House / Custom Station.

An importer / exporter can file documents on his own account without the help of any Customs Brokers. But before this he must get an authority / permission from the proper officer for 'self – clearance'. It is not mandatory to take the help of the Customs Brokers in clearing consignment.

4.8 PROCEDURES FOR EXPORT

Export Procedure has been explained as follows

The broad procedures to be followed for exports are as follows —

- i. Submit Shipping Bill for export to customs authorities,
- ii. Submit invoice, packing lists, contracts, exports authorization (if applicable) and other related documents,
- iii. Submit necessary declarations for export. Submit* GG/SDF/SOFTEX form as required under FEMA* Excise ARE-1 form,
- iv. The 'Export Value Declaration' should be in form given in Annexure A to MF(DR) circular No. 37/2007-Cus dated 9-10-2007,

- v. Noting of Shipping Bill by customs officer,
- vi. Assessment i.e. valuation and classification of goods. Checking of Advance Authorization, if applicable,
- vii. Custom check whether export is restricted/prohibited,
- viii. Examination of goods by customs officer,
- ix. Pay export duty, if applicable,
- x. Stuffing of container, if not already done,
- xi. 'Let export' Order by customs officer,
- xii. Obtain ARE-1 form duly signed by customs officer. Obtain Bill of Landing from shipping company. Submit proof of export to excise authorities,
- xiii. Complete formalities relating to claim of duty drawback.

4.8.1 Every Exporter should take following initial steps

Obtain BIN (Business Identification Number) from DGFT. It is a PAN based number

Open current account with designated bank for credit of duty drawback claims

Register licenses/advance license/DEPB etc. at the customs station, if exports are under Export Promotion Schemes.

4.8.2 RCMC Certificate from Export Promotion Council

Various Export Promotion Councils have been set up to promote and develop exports (e.g. Engineering Export Promotion Council, Apparel Export Promotion Council, etc.) Exporter has to become member of the concerned Export Promotion Council and obtain RCMC - Registration cum membership Certificate. Exporter should apply for registration with EPC that relates to his main line of business. However, exporter can take membership of any other EPC in addition –DGFT circular No. 2/2004-09 dated 6-10-2004.

4.8.3 Third Party Exports

Third party exports means exports made by an Exporter or Manufacturer on behalf of another exporter/s. The Shipping Bill shall indicate the names of both the exporter and/or manufacturer. The BRC, GR declaration, export order and the Invoice shall be in name of the third party exporter.

SEZ unit can export goods or software through a merchant exporter/status holder.

Merchant Exporter - Merchant Exporter means a person engaged in trading activity and exporting or intending to export goods.

4.9 TRANSIT AND TRANSHIPMENT OF GOODS

4.9.1 Transit of Goods (Section 53 of the Customs Act, 1962)

Any goods imported in any conveyance will be allowed to remain on the conveyance and to be transited without payment of duty, to any place out of India or any customs station.

Example 21: A vessel Bhishma, sailing from U.S.A. to Australia via India. Bhishma carries various types of goods namely 'A, B, C & D'. 'A & B' are destined to Mumbai Port and balance remains in the same vessel. Subsequently vessel chartered to Australia.

Find the imported goods and transit goods?

Answer:

Imported Goods are A & B

Transit goods are C & D

4.9.2 Transhipment of Goods (Section 54 of the Customs Act, 1962)

Transhipment means transfer from one conveyance to another with or without payment of duty. It means to say that goods originally imported from outside India into India, then transhipped to another vessel to a place within India or outside India.

4.9.3 Transhipment of goods without payment of duty under Section 54(3)

Transhipment of goods without payment of import duty is permissible only if the following conditions satisfy:

- i. Transhipment of goods with foreign destination.
- ii. The goods find place as Transhipment Goods in the Import of General Manifest (IGM) or Import Report in case of goods imported in a vehicle.
- iii. Bill of Transhipment or Declaration of Transhipment filed.
- iv. Goods must be transhipped to another vessel to place outside India.

Example 22: A vessel Bhishma, sailing from U.S.A to Australia via., India carries various types of products namely 'A, B, C & D'. 'A & B' are destined to Mumbai Port. On account of submission of **bill of transhipment** product 'A' transhipped to Chennai port as ultimate destination in India and product 'B' transhipped to Srilanka.

Find the imported goods, Transhipment goods and transit goods?

Answer :

Product 'A' is imported goods because its ultimate destination is in India.

Products 'A & B' are called as Transhipment goods, since these goods are transhipped to another vessel, Product 'A' transhipped to Chennai attracts import duty whereas product 'B' is destined to Srilanka without payment of duty.

Products C & D are transit goods since these goods remains in the same vessel Bhishma chartered to Australia.

4.10 EXEMPTIONS AND REMISSION

4.10.1 Basic conditions of Exemption and Remission

- i. Exemption can be granted by Government by issuing a notification.
- ii. Capital goods and spares can be imported under project imports at concessional rate of customs duty.
- iii. Remission can be obtained on goods lost/pilfered in port.
- iv. Title of imported goods can be relinquished and then no customs duty will be payable.
- v. Goods exported can be re-imported. Concessional customs duty is payable in most of such re-imports.

4.10.2 Pilferage: Section 13 of the Customs Act, 1962

- i. Pilferage means loss arising out of theft.

- ii. No duty is payable at all under section 13, if the goods are pilfered.
- iii. Importer does not have to prove pilferage, however, the pilferage is to find before the goods cleared from the customs.
- iv. If the duty is paid before finding the pilferage, refund can be claimed if goods are found to be pilfered during examination but before order for clearance are made.
- v. Section 13 does not apply for the warehoused goods.

4.10.3 Abatement of duty on damaged or deteriorated goods [Section 22]: Where it is shown to the satisfaction of the Assistant Commissioner of Customs or Deputy Commissioner of Customs,-

- (a) that any imported goods had been damaged or had deteriorated at any time before or during the unloading of the goods in India; or
- (b) that any imported goods, other than warehoused goods, had been damaged at any time after the unloading thereof in India but before their examination under section 17, on account of any accident not due to any wilful act, negligence or default of the importer, his employee or agent; or
- (c) that any warehoused goods had been damaged at any time before clearance for home consumption on account of any accident not due to any wilful act, negligence or default of the owner, his employee or agent,

then, such goods shall be chargeable to duty determined in the following manner –

$$\begin{array}{c} \boxed{\text{Duty leviable on such damaged or deteriorated goods}} = \frac{\boxed{\text{Duty chargeable on the goods before the damage or deterioration}}}{\boxed{\text{Value of the goods before damage or deterioration}}} \times \boxed{\text{Value of the damaged or deteriorated goods}} \end{array}$$

$$\boxed{\text{Abatement of duty on damaged or deteriorated goods}} = \boxed{\text{Duty leviable on the goods before damage}} - \boxed{\text{Duty leviable on the goods after damage}}$$

Valuation of damaged/deteriorated goods: The value of damaged or deteriorated goods may be ascertained by either of the following methods (at the option of the owner):-

- (1) The value of such goods may be ascertained by the proper officer; or
- (2) Such goods may be sold by proper officer by public auction or by tender or with consent of owner in any other manner and the gross sale proceeds shall be deemed to be the value of such goods.

4.10.4 Loss or destruction of goods: Section 23 of the Customs Act, 1962

- i. Loss or destruction (including leakage if any) must be due to fire natural calamity (like earthquake or bad weather).
- ii. Section 23 applies only when there is no pilferage under section 13.
- iii. Burden of proof is on importer to prove loss or destruction under section 23.
- iv. Initially is duty levied under section 23 but the same is remitted by Assistant Commissioner of Customs. Once the duty is paid the same can be claimed for refund only if the remission is granted by Customs Department.

- v. Loss or destruction should be found before clearance of goods from the customs.
- vi. Section 23 is applicable even for the goods warehoused.

4.10.5 Pilfered goods u/s 13 vs. Lost or destroyed goods u/s 23

Pilfered goods u/s 13	Lost or destroyed goods u/s 23
Pilferage refers to that in small quantities	Lost or destroyed postulates loss or destroyed by whatever reason whether theft, fire, accident etc.
In this case, the importer is not liable to pay duty leviable on such goods.	The duty payable on lost goods is remitted by Assistant/Deputy Commissioner.
In this case, if the pilfered goods are retrieved duty becomes payable.	In this case, restoration is impossible if the goods are destroyed.
The pilferage must have occurred after the unloading of the goods but before the proper officer has made an order for clearance for home consumption under section 47 or deposit on a warehouse under section 60.	In this case, the goods must have been lost or destroyed at any time before their clearance for home consumption. Thus, it also covers the cases where the goods are lost after the duty has been paid and order for clearance has been given but before the goods are actually cleared.
These provisions do not apply to warehoused goods.	Section 23(i) is applicable to warehoused goods also.
The importer does not have to prove pilferage, as it is obvious at the time of examination by the proper officer.	In this case, the burden is cast on the importer to satisfy the Assistant/Deputy Commissioner that the imported goods have been lost or destroyed at any time before the physical clearance of the goods for home consumption.

4.10.6 Goods derelict, wreck, etc. [Section 21]:

All goods derelict, jetsam, flotsam and wreck brought or coining into India, shall be dealt with as if they were imported into India, unless it is shown to the satisfaction of the proper officer that they are entitled to be admitted duty-free under this Act.

4.10.7 Power to make rules for denaturing or mutilation of goods [Section 24]:

Section 24 of Customs Act 1962, provides that an importer can request Central Government to denature or mutilate the imported goods, which are ordinarily used for more than one purpose, so as to render them unfit for one or more of such purpose. If the goods are denatured or mutilated, they are assessed as if the goods were imported in denatured or mutilated form. The Central Government has framed Denaturing of Spirit Rules, 1972 in this regard.

4.10.8 Duty Liability in Certain Special Circumstances

Goods are imported into India after exportation there from.

Imported goods have been originally exported to the overseas supplier for repairs.

Exported goods may come back for repairs and re-export.

Re-importation of goods [Section 20] : In case if any goods have been imported into India after exportation therefrom, such goods shall be liable to duty and subject to such restrictions and conditions, if any, to which the goods of like kind and value are liable or subject on the importation thereof.

Re-imports are entitled for following concessions as have been notified by the Government:

Condition - 1:

Goods exported under claim of drawback or under bond without payment of duty or under claim for rebate and re-imported within 3 years (or extended period, if any) without being re-manufactured/ re-processed.

Duty Liability: The amount of benefit availed on account of duty drawback and excise duty concessions/ rebate when the goods were exported. [Notification No. 94/96-Cus., dated 16-12-1996].

Condition - 2:

Goods exported for repairs abroad and reimported by the same person within 3 years (or extended period, if any) without being re-manufactured/ re-processed.

Duty leviable on a value = Fair cost of repairs carried out including cost of materials used in repairs (whether such costs are actually incurred or not) + Insurance and freight charges, both ways. [Notification No. 94/96-Cus., dated 16-12-1996].

Condition - 3:

Goods manufactured in India and re-imported into India -

- (a) for repairs or re-conditioning within 3 years from the date of exportation (in case of Nepal, such re-importation takes place within 10 years from date of exportation); or
- (b) for reprocessing; or refining; or re-making; or other similar process within 1 year from the date of exportation.

Duty Liability: NIL, if -

- (a) such goods are exported within 6 months from the date of their re-importation or such extended period not exceeding a further period of six months as the Commissioner of Customs may allow; and
- (b) the Assistant Commissioner of Customs is satisfied as regards identify of the goods; [Notification No. 158/95-Cus., dated 14-11-1995].

4.11 REFUND OF CUSTOMS DUTY

Importer or Exporter actually paid the duty on import or export, which is not required to pay alone allowed as refund.

4.11.1 Refund of Export Duty

As per Section 26 of the Customs Act, 1962, duty paid on exported goods can be claim for refund in the case of combined reading of the following if:

- i. The goods are returned to such person otherwise than by way of re-sale;
- ii. The goods are re-imported within **One year** from the date of exportation and
- iii. An application for refund of such duty is made before the expiry of **six months** from the date on which the Customs officer makes an order for importation.

Example 23: X Ltd. exported product 'P' to Y Ltd of USA on 1.1.2010. The duty paid on export of product 'P' for ₹ 1,00,000. Y Ltd. returned product 'P' to X Ltd., on 1.8.2010. The return is otherwise than by way of sale (i.e. it may be sale return or rejected goods, goods sent on consignment returned by the overseas agent or goods sent for exhibition coming back etc.). It means to say that Y Ltd. should not be sold 'P'

to X Ltd. Moreover, exported goods are returned within One year from the date of exportation. Hence, X Ltd. can claim for refund of ₹ 1,00,000 within Six months from Customs clearances order for imported goods (i.e. 1.8.201 0).

4.11.2 Refund of Import Duty [Section 26A]

Duty paid on imported goods can be claim for refund on account of satisfying following conditions:

(a) Goods are found defective

The goods are found to be defective or otherwise not in conformity with the specifications agreed upon between the importer and the supplier of goods:

Provided that the goods have not been worked, repaired or used after importation except where such use was indispensable to discover the defects or non-conformity with the specifications;

(b) The goods have not been worked, repaired or used after importation except where such use was indispensable to discover the defects or non-conformity with the specifications;

(c) Goods are easily identifiable as imported goods

The goods are identified to the satisfaction of the Assistant Commissioner of Customs or Deputy Commissioner of Customs as the goods which were imported;

(d) No drawback claim is made

The importer does not claim drawback under any other provisions of this Act; and

(e) Activities carried out after importation

- The goods are exported; or
- The importer relinquishes his title to the goods and abandons them to customs; or
- Such goods are destroyed or rendered commercially valueless in the presence of the proper officer, in such manner as may be prescribed and within a period not exceeding 30 days from the date on which the proper officer makes an order for the clearance of imported goods for home consumption under section 47.

Note:

- (i) However, the period of 30 days may, on sufficient cause being shown, be extended by the Commissioner of Customs for a period not exceeding three months.
- (ii) No refund under section 26 is allowed in respect of perishable goods and goods which have exceeded their shelf life.

Moreover, nothing contained in this section (Sec. 26A of the Customs Act, 1962) shall apply to the goods regarding which an offence appears to have been committed under this Act or any other law for the time being in force.

(f) Manner and time-limit of claiming refund

An application for refund of duty shall be made before the expiry of 6 months from the relevant date in prescribed form and manner.

Relevant date:

Relevant date in case of filing refund claim may be any one of the following:

- Let export order issued or
- Date of abandonment or
- Date of destruction of goods

(g) Exceptions to this Section

- (i) **Offending goods:** This section shall not apply to the goods regarding which an offence appears to have been committed under this Act or any other law for the time being in force.

- (ii) **Perishable goods or Expired goods** : No refund shall be allowed in under this Section in respect of perishable goods and goods which have exceeded their shelf life or their recommended storage-before-use period.

4.11.3 Claim for Refund of Duty (Section 27 of the Customs Act, 1962)

Section 27 of the Customs Act, 1962 deals with refund of duty paid on imported or exported goods in excess of what was actually payable. Sometimes, such excess payment of duty may be due to shortage/ short landing, pilferage of goods or even incorrect assessment of duty by Customs. In such cases, any excess interest has been paid by the importer or exporter can also be claimed for refund.

Provided that if the amount of refund claimed is less than rupees hundreded, the same shall not be refunded.

A refund claim can be made u/s 27 if the payment of higher duty and interest in ignorance of a notification which allowed payment of duty at a concessional rate even if there was no assessment order and the payment u/s 27(i) has not been made pursuant to an assessment order. Section 27(ii) covers those classes of cases where the duty is paid by a person without an order of assessment. It means a refund claim can be filed under section 27 of the Customs Act, 1962 even if the payment of duty has not been made pursuant to an assessment order [*Aman Medical Products Ltd. v CCus., Delhi* 2010 (250) ELT30 (Del.)].

Attested Xerox copy of the GAR-7 Challan sufficient for claiming refund.

Refund claim **CAN NOT BE DENIED** purely on a technical contention that the assessee had produced the attested copy of GAR -7 (earlier TR-6) challan and not the original of the GAR-7 challan. Also as per clarification issued vide F.No. 275/37/2K-CX. 8A dated 2-1-2002, a simple letter from the person who made the deposit, requesting for return of the amount, along with the appellate order and attested Xerox copy of the Challan in Form GAR-7 would suffice for processing the refund application. [*Narayan Nambiar Meloths v CCus.* 2010 (251) ELT57 (Ker)]

4.11.4 Time Limit for claiming refund:

Person claiming refund	Time limit for claiming refund	Remarks
Individual- imported goods for his personnel use, Government or Any educational institutions or Any research institutions or Charitable institutions or hospitals	Application for refund can be made before the expiry of ONE year from the date of payment of duty and interest	The application for refund in duplicate has to be filed before the Assistant Commissioner or Dy. Commissioner of Customs.
Individual – for business use Companies or Firm etc.	Application for refund can be made before the expiry of ONE year (w.e.f. 8-4-2011) from the date of payment of duty and interest	The application for refund in duplicate has to file before the Assistant Commissioner or Dy. Commissioner of Customs.

4.11.5 Interest on delayed refunds

As per section 27A of the Customs Act, 1962, if the refund ordered is not paid within 3 months from the date of receipt of refund application by the Assistant Commissioner or Deputy Commissioner of Customs, then the department is liable to pay interest at the rate of 6% p.a. (i.e. interest is liable to be paid after expiry of three months from the date of receipt of the application for refund).

4.11.6 Few differences between section 26 and section 27 of the Customs Act, 1962

Section 26 deals with refund of export duty whereas Section 27 deals with refund of any export duty, import duty interest paid thereon.

Refund of duty under section 26 is allowed on account of satisfying certain conditions whereas refund under section 27 is allowed only when duty paid in excess of normal duty.

Refund is payable to the exporter who paid the duty under section 26 whereas refund is payable to the importer who paid the duty or to the buyer by whom the duty was borne.

Chartered Accountant Certificate not sufficient to claim refund under section 27.

As per section 27 of the Customs Act, 1962 the importer to produce such documents or other evidence, while seeking refund, to establish that the amount of duty in relation to which such refund is claimed, has not been passed on by him to any other person.

However, if importer had not produced any document other than the certificate issued by the Chartered Accountant to substantiate its refund claim.

In the given case Madras High Court held that, the certificate issued by the Chartered Accountant was merely a piece of evidence acknowledging certain facts. It would not automatically entitle a person to refund in the absence of any other evidence. Hence, the importer could not be granted refund merely on the basis of the said certificate [CCus., Chennai v BPL Ltd. 2010 (259) ELT526 (Mad)].

The period of limitation of one year for the purpose of refund of duty under Sec. 27(1B) shall be computed in the following manner, namely:

- (i) In the case of goods which are exempt from payment of duty by a special order issued under section 25(2) of the Custom Act, the limitation of one year shall be computed from the date of issue of such order;
- (ii) Where the duty becomes refundable as a consequence of any judgment, the limitation of one year shall be computed from the date of such judgment.
- (iii) Where any duty is paid provisionally under section 18, the limitation of one year shall be computed from the date of adjustment of duty after the final assessment thereof or incase of re-assessment, from the date of such re-assessment.

4.12 APPOINTMENT OF OFFICERS OF CUSTOMS

(1) Classes of officers of customs [Section 3]: The various classes of Officers of Customs, as given under section 3, are: -

- (a) Chief Commissioners of Customs;
- (b) Commissioners of Customs;
- (c) Commissioners of Customs (Appeals);
- (d) Joint Commissioners of Customs;
- (e) Deputy Commissioners of Customs;
- (f) Assistant Commissioners of Customs;
- (g) Such other class of officers of customs as may be appointed for the purposes of this Act.

Among the other classes of officers of customs, the following officers have been appointed:

- (i) Appraisers of Customs, who do the assessment work of import and export goods, including classification, valuation and examination of the goods; and
- (ii) Preventive Officers of Customs, who do the executive duties like,
 - (a) Boarding and checking ships and aircrafts;
 - (b) Clearing passengers and crew and their baggage;
 - (c) Supervision and control over loading and unloading of cargo;

- (d) Preventing smuggling by checking suspect;
 - (e) Interrogating suspects/witnesses and investigation.
 - (iii) Ministerial Officers, who maintain records, keep accounts, etc.
 - (iv) Chemical Examiner, who tests samples of imported or export cargo for determination of true character of the goods for proper classification and value, necessary for determination of customs duty.
- (2) Appointment of officers of Customs [Section 4]:** The Board may appoint such persons as it thinks fit to be officers of customs. The Board may authorise a Chief Commissioner or Commissioner or joint or Assistant or Deputy Commissioner of Customs to appoint officers of customs below the rank of Assistant Commissioner of Customs.
- (3) Powers of officers of customs [Section 5]:**
- (a) Subject to such conditions and limitations as the Board may impose, an officer of customs may exercise the powers and discharge the duties conferred or imposed on him under this Act.
 - (b) An officer of customs may exercise the powers and discharge the duties conferred or imposed under this Act on any other officer of customs who is subordinate to him.
- Powers of Commissioner (Appeals):** Commissioner (Appeals) shall not exercise the powers and discharge the duties conferred or imposed on an officer of customs other than those specified in Chapter XV and Section 108.
- (4) Entrustment of functions of Board and customs officers on certain other officers [Section 6]:** The Central Government may entrust either conditionally or unconditionally to any officer of Central or State Government or local authority any function of the Board or any officer of customs.

4.13 APPOINTMENT OF CUSTOMS STATION, WAREHOUSING STATIONS ETC.

- (a) Power to approve landing places and specify limits of customs area [Section 8]:** The Commissioner of Customs has the power to -
- (i) approve proper places in any customs port or customs airport or coastal port for the unloading and loading of goods or for any class of goods;
 - (ii) specify the limits of any customs area.
- (B) Power to declare places to be warehousing stations [Section 9]:** The CBEC has the power to declare places to be warehousing stations at which alone public warehouses may be appointed and private warehouses may be licensed.
- (c) Appointment of boarding stations [Section 10]:** The Commissioner of Customs has power to appoint, in or near any customs port, a boarding station for the purpose of boarding of, or disembarkation from, vessels by officers of customs.
- Appointment of customs ports, airports, etc. [Section 7]:** The CBEC may, by notification in the Official Gazette, appoint the following,
- (a) ports and airports, which alone shall be customs ports or customs airport for the unloading of imported goods and the loading of export goods or any class of such goods.
 - (b) places, which alone shall be inland container depots or air freight stations for the unloading of imported goods and the loading of export goods or any class of such goods. [Bold portion amended by Finance Act, 2012 w.ef. 28-05-2012]

- (c) places, which alone shall be land customs station for the clearance of goods imported or to be exported by land or inland water or any class of such goods.
- (d) routes by which alone goods or any class of goods specified in notification may pass by land or inland water into or out of India, or to or from any Land Customs Station, or from or to any land frontier.
- (e) ports which alone shall be coastal ports for the carrying on of trade in coastal goods or any class of such goods with all or any specified ports in India.

4.14 CENTRAL GOVERNMENT POWER OF PROHIBITION, DETECTION OF ILLEGALLY IMPORTED AND EXPORT GOODS

Power to prohibit importation or exportation of goods [Section 11]: If the Central Government is satisfied that it is necessary so to do for any of the purposes as specified, it may, by notification in the Official Gazette, prohibit either absolutely or subject to such conditions (to be fulfilled before or after clearance) as may be specified in the notification, the import or export of goods of any specified description.

Purposes of prohibition: The importation or exportation of goods may be prohibited for following purposes,

- (a) the maintenance of the security of India;
- (b) the maintenance of public order and standards of decency or morality;
- (c) the prevention of smuggling;
- (d) the prevention of shortage of goods of any description;
- (e) the conservation of foreign exchange and the safeguarding of balance of payments;
- (f) the prevention of injury to the economy of the country by the uncontrolled import or export of gold or silver;
- (g) the prevention of surplus of any agricultural product or the product of fisheries;
- (h) the maintenance of standards for the classification, grading or marketing of goods in international trade;
- (i) the establishment of any industry;
- (j) the prevention of serious injury to domestic production of goods of any description;
- (k) the protection of human, animal or plant life or health;
- (l) the protection of national treasures of artistic, historic or archaeological value;
- (m) the conservation of exhaustible natural resources;
- (n) the protection of patents, trade marks and copyrights;
- (o) the prevention of deceptive practices;
- (p) the carrying on of foreign trade in any goods by the State, or by a Corporation owned or controlled by the State to the exclusion, complete or partial, of citizens of India;
- (q) the fulfillment of obligations under the Charter of the United Nations for the maintenance of international peace and security;
- (r) the implementation of any treaty, agreement or convention with any country;
- (s) the compliance of imported goods with any laws which are applicable to similar goods produced or manufactured in India;
- (t) the prevention of dissemination of documents containing any matter which is likely to prejudicially affect friendly relations with any Foreign State or is derogatory to national prestige;
- (u) the prevention of the contravention of any law for the time being in force; and
- (v) any other purpose conducive to the interests of the general public.

(i) Detection of illegally imported goods and prevention of their disposal [Section 11A to 11G]:

“Illegal import” means the import of any goods in contravention of the provisions of this Act or any other law for the time being in force.

- **Power of Central Government to notify goods:** Goods of any class or description may be notified by Central Government for the purpose of checking the illegal import of such goods or facilitating the detection of such goods.
- **Persons possessing notified goods to intimate the place of storage, etc.:** Every person who owns, possesses or controls, any notified goods, shall, within seven days from the notified date, deliver to the proper officer a statement in relation to the notified goods specifying the place where such goods are to be kept.
- **Persons possessing notified goods to maintain accounts:** Such person shall maintain true and complete account of such goods and also state the particulars of the person from whom such goods have been acquired or sold. Such accounts shall be kept at the place where such specified goods are kept.
- **Precautions to be taken by persons acquiring notified goods:** No person shall acquire any notified goods except by way of gift or succession, from any individual in India, unless such goods are accompanied by voucher or memorandum as specified in rules,

The restrictions as specified above does not apply to any notified goods which are:

- (a) in personal use of the person by whom they are owned, possessed or controlled, or
- (b) kept in the residential premises of a person for his personal use.

(ii) Prevention or detection of illegal export of goods [Section 11H to 11M]:

“Illegal export” means the export of any goods in contravention of the provisions of this Act or any other law for the time being in force.

- **Power of Central Government to specify goods:** Goods of any class or description may be specified by the Central Government for the purpose of checking the illegal export of such goods or facilitating the detection of goods which are likely to be illegally exported.
- **Persons possessing specified goods to intimate the place of storage, etc.:** Every person who owns, possesses or controls, any specified goods, the market price of which exceeds ₹ 15,000 shall, within seven days from the specified date, deliver to the proper officer an intimation containing the particulars of the place where such goods are kept within the specified area.
- **Persons possessing specified goods to maintain accounts:** Such person shall maintain true and complete account of such goods and also state the particulars of the person from whom such goods have been acquired or sold. Such accounts shall be kept at the place where such specified goods are kept.

When the specified goods are lesser in quantity than the stock shown in accounts, then it shall be presumed, unless the contrary is proved, that shortfall has been illegally exported.

- **Transport of specified goods to be covered by vouchers:** No specified goods shall be transported from, into or within any specified area or loaded on any animal or conveyance in such area, unless they are accompanied by a transport voucher (in such form and containing such particulars as may be specified by rules made in this behalf) prepared by the person owning, possessing, controlling or selling such goods
- **Steps to be taken by persons selling or transferring any specified goods:** Every person who sells or otherwise transfers within any specified area, any specified goods (except where he receives payment by cheque drawn by the purchaser), shall obtain, on his copy of the sale or transfer voucher, the signature and full postal address of the person to whom such sale or transfer is made

and take such other reasonable steps as specified by rules. If on inquiry made by a proper officer, it is found that the purchaser or the transferee, as the case may be, is not traceable or is a fictitious person, it shall be presumed, unless the contrary is proved, that such goods have been illegally exported.

The restrictions as specified above shall not apply to petty sales of any specified goods if the aggregate market price obtained by such petty sales, made in the course of a day, does not exceed ₹ 2,500.

Explanation: "Petty sale" means a sale at a price which does not exceed one thousand rupees.

Power to exempt [Section 11N]: If the Central Government is satisfied that it is necessary in the public interest so to do, it may, by notification in the Official Gazette, exempt generally, either absolutely or subject to such conditions as may be specified in the notification, goods of any class or description from all or any of the provisions from Section 11A to 11.

4.15 WAREHOUSING IN CUSTOMS

(1) Need for warehousing

If the imported goods are not required immediately, importer may like to store the goods in a warehouse without payment of duty under a bond and then clear from warehouse when required on payment of duty. This will enable him to defer payment of customs duty till goods are actually required by him. In such case, importer can keep goods in warehouse without payment of customs duty. Goods are cleared from customs port under bond and kept in the warehouse. The importer can clear goods from customs warehouse on payment of duty when he requires the goods for use/consumption/sale.

This facility is available to traders as well as direct importers.

A trader can import goods and keep in warehouse. He can supply the goods to buyers from warehouse, after paying customs duty. Thus, small importers, duty free shops etc. can procure goods from bonded warehouse without actually importing the goods.

A manufacturer can import inputs without payment of customs duty for manufacture in bond. He will have to export final product which was manufactured using imported duty free material.

Even duty free clearances can be made from bonded warehouse, if buyer is otherwise eligible for obtaining goods duty free, as confirmed vide MF(DR) circular No. 79/2000- Cus dated 22-9-2000.

(a) Use of warehousing facility

The facility is useful to direct importers also, in following cases -

- (a) Importer has to plan his purchases well in advance. He also has to maintain some stocks to ensure that there is no loss of production if a shipment of imported raw materials is delayed. Thus, when the goods arrive in the port, the importer may not immediately require the goods as he may be having stock.
- (b) Importer would like to store the imported goods without payment of customs duty as far as possible and pay duty only when goods are required for his immediate use, so that his funds are not blocked.
- (c) The importer may be intending to clear the goods without payment of duty under Advance Licence or DEPB scheme. However, the licence/DEPB may not be in hands when imported goods have arrived at the docks.
- (d) The importer may not be having adequate ready funds to pay customs duty.
- (e) Importer can avail facility of manufacture in bonded warehouse and then reexport the final products

Warehousing by traders - Foreign Trade Policy permits keeping imported goods in bonded warehouse without payment of duty. These can be cleared later on payment of duty. Even goods under negative list can be imported by traders and kept in warehouse. These can later be supplied on payment of duty against specific licence.

Sale/transfer of warehoused goods - Imported goods kept in warehouse can be transferred to another person as per section 50 of Customs Act. Sale of imported warehoused goods to Duty Exemption or duty concession licence holders is also allowed. In such case, transferee can clear the goods on payment of customs duty, if any, and fulfilling other licensing provisions - CBE&C Circular No. 473 /43/94-LC dated 22-9-1994. (The words 'if any', mean that if no duty is payable,

Warehousing pending registration of project under project import - In *Bharat Earth Movers v. CC2006 (201) ELT 60 (CESTAT)*, goods were kept in warehouse as contract for project import was yet to be registered. Goods were cleared from warehouse after contract was registered.

Duty credit scrips can be used to clear goods from customs bonded warehouse - Duty Credit Scrips like SFIS, VKGUY, FMS, FS, SHIS schemes can be used to clear goods from Customs Bonded warehouse under same procedure as applicable for DEPB scrip, subject to conditions and limitations mentioned in FTP - MF(DR) circular No. 50/2011-Cus dated 9-11-2011.

Warehouse to store imported goods without payment of duty - Provision of warehousing has been made in Customs Act to enable importer to store goods in warehouse without payment of duty and clear goods from warehouse only when these are actually required by him. Importer only has to pay warehousing charges. Thus, he can delay payment of customs duty. Both public and private warehouses are available all over India where goods can be stored.

(b) Warehousing Bond

Since imported goods are kept in warehouse without payment of customs duty, importer has to execute a bond binding himself to (a) observe all provisions of Customs Act and rules/regulations in respect of the goods (b) pay on demand the (z) duties, interest (ii) warehousing rent and charges with interest (c) pay all penalties leviable for violations of provisions of Customs Act, rules and regulations. The bond amount is equal to twice the amount of duty assessed. Generally, part of bond amount is secured by way of a bank guarantee. Bond will continue to be valid even if goods are transferred to another person or removed to another warehouse **[section 59]**.

Bond is cancelled and returned only when duty and all other dues are paid on goods cleared and goods are duly accounted for **(section 73)**.

Bonded warehouse - Since goods are kept in warehouse under a 'bond', the warehouse is termed as 'bonded warehouse'. It does not necessarily mean that the warehouse is physically bonded. For example, in case of manufacture in warehouse, the manufacture is in 'bonded warehouse' but there is no physical supervision of customs officer. However, in case of goods stored in warehouse and cleared from warehouse on payment of duty, the warehouse is under physical control of customs officer and clearance can be only with his permission.

Warehousing of export goods

Goods removed for export can be kept in a warehouse pending export. These provisions are useful when exporter would like to store the goods and export them as soon as export order is received.

(2) Public/Private Bonded warehouses

As per section 2(43) of Customs Act, 'warehouse' means a public warehouse appointed u/s 57 or a private warehouse licensed under section 58 of Customs Act. As per section 2(44), 'warehoused goods' means goods deposited in a warehouse.

Sections 57 and 58 of Customs Act provide that 'warehouse' can be appointed or licensed only at a 'warehousing station'. As per section 2(45) of Customs Act, 'warehousing station' means a place declared as a warehousing station u/s 9 of Customs Act.

Warehouses can be public or private.

(a) Warehousing station - Section 9 of Customs Act authorises CBE&C (Board) to declare places as warehousing stations. Public and private warehouses can be situated only at such approved warehousing stations. Board has issued over 300 notifications prescribing various areas. Generally, cities and towns where imported goods are stored for use or where there is Industrial Estate where imported raw material is required are declared as 'Warehousing Stations'.

Power to declare a place as warehousing station under section 9 of Customs Act have been delegated to Chief Commissioner - Chapter 9 Para 32 of CBE&C's Customs Manual, 2011.

(b) Public or private Warehouses - Warehouses are of two types (a) Public warehouses appointed by Assistant Commissioner of Customs under section 57 of Customs Act. (b) Private warehouses licensed by Assistant/Deputy Commissioner of Customs. The licence can be cancelled by giving one month notice. Licence can be cancelled if licensee contravenes any provisions of Customs Act. In such cases, show cause notice has to be issued and pending enquiry, licence can be suspended.

As the name suggests, goods can be stored in Public Warehouse by any importer, while goods can be stored in private warehouse only by person who has been licensed.

Private warehouses are permitted quite liberally. Even private operators can be appointed as custodian for public warehouse. CBE&C has clarified that permission for public or private warehouse can be given by Commissioner without making any reference to Board. Permission for storage of any category of goods can be given if the applicant is financially sound, has good credibility and has not been involved in customs or excise duty evasion in last five years. Premises of storage should be suitable and adequately secured. Services of Customs Officer should be provided on cost recovery basis, or on payment of supervision charges - CBE&C Circular No. 68/95 dated J5-6-1995.

For keeping sensitive goods in private as well as public bonded warehouse, bank guarantee equal to 25% of duty in respect of sensitive goods should be taken - MF(DR) circular No. 18/2007-Cus dated 24-4-2007.

PSUs shall be exempt from furnishing bank guarantee or other form of security for storing sensitive goods in the duty free shop operated by them. However, double duty bond is required to be executed - MF(DR) circular No. 26/2012-Cus dated 10-9-2012.

It is not necessary to obtain 'No objection certificate' from public warehouse before granting license to private bonded warehouse - CBE&C circular No. 1 /96-Cus dated 1-1-1996.

License to EOU by AC/DC - The license to EOU for warehouse (section 58) and permission to manufacture in warehouse under bond (section 65) will be granted by Assistant/Deputy Commissioner - MF(DR) Circular No. 9/2008-Cus dated 25-6-2008.

Warehousing charges even if goods detained by customs - Warehousing charges are payable in case of public warehouse, even if goods are detained by customs - Monika Indrav. UOI(2010) 260 ELT 177 (P&H HC DB).

(c) Procedure for warehousing imported goods

Imported goods are cleared from seaport/airport on submission of Bill of Entry for warehousing. This Bill of Entry is printed on yellow paper and often called 'Yellow Bill of Entry'. Bond is executed for transfer of goods from port to warehouse.

Space Availability Certificate - If the goods are to be despatched to public bonded warehouse, a 'Space Availability Certificate' is required, before movement of goods. However, in case of private warehouses, 100% EOU, STP, EHTP etc., such certificate is not necessary - CCCE Hyderabad PN 16/97 dated 12.2.1997.

Transit bond and insurance - The importer has to execute a bond for movement of goods from customs port to warehousing station. Bond should be with bank guarantee. He also has to take transit insurance to cover duty element while the goods are in transit. However, EOU, STP & EHTP units do not have to give bank guarantee. They have to give either bond or take transit insurance policy. - MF(DR) circular No. 41/97-Cus dated 19.9.1997, as amended vide circular No. 38/98-Cus dated 21.5.1998.

When the warehouse is within the City or within 50 Kms within the jurisdiction of Commissioner of Customs, goods can be sent under escort. If the goods are outside city limits, transit bond in form of cash security or bank guarantee should be taken. This should be 50% of duty involved for sensitive goods and 25% for non-sensitive goods. -CBE&C circular No. 99/95-Cus dated 20-9-1995 amended vide CBE&C No. 47/99-Cus dated 27-7-1999.

The importer should submit re-warehousing certificate within 30 days from date of despatch of goods from seaport/airport. Otherwise, duty is payable.

Waiver of warehousing at port of import - If goods are to be taken to a port in interior town, goods should be warehoused at the port of importation and then removed to another warehouse under bond u/s 67. Since this will involve double handling of goods, Assistant Commissioner of Customs can grant waiver of physical warehousing at the port of importation.

(3) Warehousing period under customs

Section 61 of Customs Act prescribes warehousing period. If goods are not removed within the prescribed period, Customs Officer can sell the goods after notice to owner as much quantity as he deems fit.

(a) Normal warehousing for one year, extension can be granted - Section 61 (1) (b) of Customs Act provides warehousing period as one year from the date of issue of order by Customs Officer permitting deposit of goods in a warehouse. The period of one year can be reduced by Commissioner if goods are likely to deteriorate. This period can be increased by Commissioner upto 6 months and by Chief Commissioner of Customs without any limit of period.

In case of EOU, the normal warehousing period is three years for inputs, spares and consumables and five years for capital goods, [section 61 (1)]. This warehousing period can be extended by Commissioner without any upper time limit.

(b) Policy for granting extension - While considering requests for extension of warehousing period, concerned authority should be satisfied about condition of goods and should ensure that the goods are not likely to deteriorate during the extended period of warehousing. Whenever necessary, goods should be tested for quality before granting extension of warehousing period. Interest accrued should be paid before granting extension. This interest can be adjusted against final interest payable. A liberal approach may be adopted in following cases, if goods are in good condition - (i) Ship stores/aircraft spares (ii) Goods supplied to diplomats (iii) Goods warehoused and sold through duty free shops (iv) Goods imported by EOU (v) Goods used in units operating under manufacture-in-bond scheme (vi) Machinery, equipments and raw materials imported for building and fitment in ships. Trade should file application for extension 15 days prior to warehousing period. However, request for warehousing can be considered even after expiry of warehousing period, after taking into consideration exceptional circumstances of the case. Though powers for unlimited extension are with Chief Commissioner, the aforesaid guidelines should be kept in mind. - CBE&C circular No. 47/2002-Cus dated 29-7-2002. [Earlier CBE&C circular No. 12/98-Cus dated 5-3-1998 subsumed in this circular].

Commissioner can grant extension upto 6 months, Beyond 6 months, Chief Commissioner can grant extension. Such extension by Chief Commissioner will normally be 3 months at a time. However, in respect of goods falling under categories (v) and (vi) of para 5 of Circular No. 47/2002-Cus dated 29-7-2002, extension can be granted for a period even greater than 3 months if goods are not likely to deteriorate and interest is paid. The extension is subject to overall limit of warehousing permitted under section 61 of Customs Act for relevant category of goods - MF(DR) Instruction No. 473/2/ 2011-LC dated 1-6-2011.

(c) Interest not payable at the time of granting extension - Interest is not payable at the time of granting extension. Interest is payable only when it is due and if not waived - MF(DR) Instruction F No. 473/02/2011-LC dated 29-2-2012.

(d) If warehousing period reduced by law - If warehousing period is reduced by amendment to law, the reduced period will not apply to goods warehoused prior to such amendment - Bangalore Wire Rod Mills v. UOI 1992(61) ELT 37 (Kar) - approved by SC - 83 ELT 251 (SC) - accepted by CBE&C vide MF(DR) circular No. 12/2007-Cus dated 9-2-2007.

(e) EOU should consume inputs etc. within the warehousing period - In case of EOU units, the whole factory is treated as a bonded warehouse. Hence, bonding period of three years means inputs, consumables and spares should be consumed for manufacture of export product within that warehousing period. If not, application for extension should be made. - - However, interest will be payable on the basis of duty payable at the time of clearance (and not duty assessed when goods were warehoused), [section 61(2)(i)].

(f) Five years warehousing for capital goods for EOU - The warehousing period can be upto five years in case of capital goods intended for use in EOU unit, as per section 61(l)(a) of Customs Act. This period can be reduced by Commissioner if goods are likely to deteriorate. The period can be extended without any upper limit.

However, if goods are stored beyond a period of five years, interest is payable for storing goods beyond the period of five years in the warehouse. The interest is payable on the basis of duty payable at the time of clearance (and not duty assessed when goods were warehoused), [section 61(2)(i)].

Extension in respect of capital goods obtained by EOU units will be granted at the time of renewal of license of EOU, even if five years of those capital goods are not over -MF(DR) circular No. 7/2005-Cus dated 14-2-2005.

(g) Interest payable beyond prescribed period

In case of goods allowed to be warehoused, interest is payable at prescribed rate. In case of normal warehousing (other than EOU), interest is payable if goods are warehoused beyond 90 days, [section 61(2)(ii)].

Presently, the interest rate is 15% [Notification No. 18/2003-Customs (NT) dated 1-3-2003]. Earlier, the interest rate was 24%. In case of EOU, interest is payable if warehousing is beyond three years in case of inputs/ consumables/spares and five years in case of capital goods.

(h) Interest if goods cleared after warehousing period is over - Interest is payable even if goods are cleared after warehousing period is over, till date of clearance. Interest is payable even if notice demanding interest is not issued - Suresh Chand v. UOI (201 0)254 ELT (Bom HC DB).

(i) Interest for warehousing beyond 90 days - Even if goods are permitted to be stored for one year (plus extension if permitted), interest is payable for storing goods beyond a period of 90 days in the warehouse. The interest is payable on the basis of duty payable at the time of clearance (and not duty assessed when goods were warehoused) [section 61(2)(ii)].

(j) Interest payable if goods cleared from warehouse through DEPB debit - Since debit under DEPB is treated as payment of duty, Cenvat credit or duty drawback is available. Hence, interest is payable if goods are cleared from warehouse by debit to DEPB -MF(DR) circular No. 26/2007-Cus dated 20-7-2007 - agreed and followed in Tanfac Industries v. CCE (2009) 235 ELT 103 (CESTAT) - view confirmed in Tanfac Industries v. CCE(2009) 240 ELT 341 (Mad HC DB), where it was observed that there is difference between DEPB and Advance Authorisation. Goods cleared under DEPB are not exempted. They are to be treated as duty paid.

(k) Interest if goods provisionally assessed were stored in warehouse - If goods provisionally assessed were stored in the warehouse, assessee cannot file Bill of Entry for ex-bond clearance. Hence, interest will be payable only after the provisional assessment is finalized by department. Importer cannot suffer for delay by department - Nirma Ltd. v. CC(2011) 263 ELT 261 (CESTAT)

(l) Policy for granting waiver of interest - In following cases, application for waiver of interest should be considered, as charging of interest would enhance costs unnecessarily - (i) Ship stores/aircraft spares (ii) Goods supplied to diplomats (iii) Goods warehoused and sold through duty free shops (iv) Goods imported by EOU (v) Goods used in units operating under manufacture-in-bond scheme (vi) Machinery, equipments and raw materials imported for building and fitment in ships (vii) Petroleum products (viii) Plant and machinery imported for projects (ix) Machinery, equipments and raw materials imported for manufacture and installation of power generation units (x) goods imported under OGL and warehoused for subsequent clearance under advance authorisation/ DEPB etc. (xi) Goods imported in bulk by canalising agencies (xii) Imports under EPCG scheme (xiii) Import of capital goods by PSU [MF(DR) circular No. 10/2006-Cus dated 14-2-2006]. It is also clarified that when no duty is payable, interest payment is not necessary.

Demand of interest should be raised when due, but it should not be enforced. On fulfilment of purpose of import, waiver of interest should be decided within 6 months - MF(DR) circular No. 10/2006-Cus dated 14-2-2006.

(m) Interest not payable when no customs duty payable - In some cases, no customs duty is payable on goods warehoused as they are exempt from duty on date of clearance. This may happen when goods are stored in warehouse as 'advance licence' is not available in hand. In such cases, goods are assessed at normal rates of customs duty and kept in warehouse. Subsequently, these are cleared after receipt of advance licence without payment of duty. In such cases, is interest payable beyond the period allowed for free warehousing? There were conflicting views. Finally, in Pratibha Processors v. UOI 1996 AIR SCW 4299 = AIR 1997 SC 138 = 1996(11) SCC 101 = 88 ELT 12 (SC) it has been held that if no customs duty is payable at the time of clearance of goods from warehouse, no interest is payable. Interest is a mere 'accessory' to principal and if principal is not payable, interest is also not payable - view accepted by CBE&C vide circular No. 10/2006-Cus dated 14-2-2006 - reiterated in MF(DR) circular No. 26/2007-Cus dated 20-7-2007.

(n) Waiver of interest - Provision of interest @ 15% after just 90 days has made the provision of warehousing slightly unattractive. [Now, warehousing will be beneficial only when goods can be cleared later without payment of duty against advance license etc.]

Waiver of interest can be granted by Chief Commissioner upto ₹ two crores and by CBE&C above that.

(o) No interest if duty paid after warehousing period but before SCN? - In CC v. Stilbene Chemicals (2009) 236 ELT 78 (CESTAT), it was held that if duty is paid after warehousing period is over (but before issue of notice), interest is not payable - relying on Ghanshyam Das Suresh Chand v. UOI(2004) 165 ELT 514 (Del).

Summary of applicability of interest on warehouse goods

**(4) Manufacture in customs bonded warehouse**

Manufacturing or other operations can be carried out in the warehouse with sanction of Assistant Commissioner (section 65 of Customs Act). The facility is useful if final products are to be exported after manufacture (though final products can be cleared for home consumption too). After manufacture, the produced goods may either be exported without payment of customs duty or cleared for home consumption on payment of duty.

These provisions are applicable to EOU, STP, EHTP or BTP units who have to manufacture goods under customs bond. They have to obtain license from customs.

Facility for manufacture in warehouse under bond is also available for goods imported for repairs, re-conditioning, re-engineering etc. The goods can be imported without payment of customs duty and can be re-exported after repairs, reconditioning etc. Such re-export must be within three years from date of import. [Notification No. 134/94 - Cus dated 22-6-94]

Permission for in-bond manufacture facility can be given by Commissioner. Permission can be given after scrutinising credibility and financial soundness of applicant - CBE&C circular No. 132/95-Cus dated 22-12-1995.

Permission by AC/DC in case of EOU - The license to EOU for warehouse (section 58) and permission for manufacture in warehouse under bond (section 65) will be granted by Assistant/Deputy Commissioner - MF(DR) Circular No. 9/2008-Cus dated 25-6-2008.

(a) Removal of waste or refuse arising during manufacture - If waste or refuse is generated during manufacturing operations, the provisions are as follows - (a) If the final product is exported, import duty on quantity of warehoused goods contained in such waste or refuse will be remitted if such waste or refuse is either destroyed, or duty is paid on such waste or refuse as if it had been imported into India in the form of waste or scrap (b) If final product is cleared for home consumption, import duty will be payable on quantity of warehoused goods contained in such waste or refuse [section 65(2) of Customs Act].

In view of section 65(2)(b) of Customs Act, import duty is payable on the quantity of the imported goods contained in the waste and not only on scrap value - *Cochin Shipyards v. CC* (2011) 267 ELT 387 (CESTAT).

(b) Conditions for manufacture in bonded warehouse

Board has framed 'Manufacture and Other Operations in Warehouse Regulations, 1966' prescribing procedures. Procedures for manufacture under bond have now been considerably simplified. Physical control and supervision of customs officer on the bonded warehouse has been done away with, since July 1998. - MF(DR) circular No. 88/ 98-Cusdated2-12-1998.

Owner has to make application giving full details regarding process to be carried out, imported and other goods used, plan and description of warehouse and volume of manufacture anticipated. On obtaining permission, necessary bond has to be executed undertaking to observe all regulations and maintaining accounts etc. Manufacture will not be under supervision of Customs Officers. However, customs officers can visit warehouse and control and supervise manufacturing process or imported and other goods. Detailed accounts are required to be maintained of raw materials, stock, WIP and production. Input-output norms should be fixed wherever considered necessary.

Manufacturer can suspend or discontinue manufacture with one month notice. Sanction for manufacture in warehouse can be withdrawn if conditions of Act or regulations are violated.

Procedures have been prescribed under Central Excise Law for bringing goods manufactured in India without payment of excise duty.

Special audit of accounts of the warehouse can be ordered by Chief Commissioner of Customs. He can appoint a cost accountant to conduct audit of accounts of warehouse, office, stores, godowns, factory, depot of the manufacturer. This provision has been made in July 1998, as physical control of customs officer has been removed.

(c) Goods manufactured in bonded warehouse are not made in India and are liable to customs duty? -

In *Mustan Teherbhai v. CC* 2003 (154) ELT 472 (CEGAT), it has been held that customs duty is payable on goods manufactured in customs bonded warehouse. Thus, goods manufactured in customs bonded warehouse are not 'made in India'. The reason given is that section 66 of Customs Act makes mention of 'rate of duty leviable on goods manufactured'. Such duty can only be customs duty.

(5) Clearance from bonded warehouse

Section 71 allows clearance for (a) home consumption, (b) re-exportation or (c) removal to another warehouse.

(a) Removal for home consumption

Under section 68, goods stored in warehouse can be removed on payment of duty. Procedure is summarised in Chapter 9 Para 19 of Customs Manual, 2011.

(b) Procedure for removal of goods - Importer has to submit bill of entry in prescribed form for removal of goods from warehouse for home consumption, this Bill of Entry is printed on yellow paper and often called 'Yellow Bill of Entry'. It is also called 'Into Bond Bill of Entry' as bond is executed for transfer of goods in warehouse without payment of duty. The Bill of Entry is assessed by customs officer in charge of warehouse. Duty, penalties, rent and interest is payable as per rules. Goods are then allowed to be cleared by Customs Officer.

(c) No interest if duty not paid within 2 days on return of Bill of Entry - The provision for payment of duty within 2 working days after return of Bill of entry, as provided in section 47(2) of Customs Act applies to clearance from customs port and not to clearance from customs warehouse. Thus, no interest is payable so long as clearance is made within period allowable for interest free warehousing - *CC v. Acalmar Oils* (2009) 240 ELT 440 (CESTAT).

(d) Rate of duty as applicable on date of removal - As per section 15(l)(fc), rate of duty as prevalent on date of presentation of Bill of Entry for home consumption for clearance from warehouse is applicable and not rate prevalent when goods were removed from customs port.

(e) Rate of exchange in case of warehoused goods - Relevant exchange rate for valuation is as in force on date on which bill of entry is presented u/s 46. Bill of Entry is presented u/s 46 of Customs Act either for home consumption or for warehousing. Hence, in case of warehoused goods, exchange rate prevailing on the date on which Bill of Entry is presented u/s 46 and not when Bill of Entry is presented u/s 68 for clearance from customs warehouse.

(f) No Anti dumping duty on goods warehoused prior to levy of anti-dumping duty - Antidumping duty is leviable on date of importation. Hence, if goods are already warehoused prior to imposition of anti-dumping duty, anti-dumping duty will not be leviable on warehoused goods, even if cleared subsequent to imposition of anti-dumping duty. Section 15(1)(b) of Customs Act does not apply to anti-dumping duty u/s 9A of Customs Tariff Act. - CCv. Suja Rubber Industries 2002(142) ELT 586 (CEGAT).

Same principle will apply to protective duty and safeguard duty also.

(g) Duty payable only on quantity cleared from warehouse - In Mangalore Refinery v. CCE 2002(141) ELT 247 (CEGAT), it was held that taxable event is when goods are cleared from warehouse. Hence, customs duty is payable only on the quantity which is cleared from warehouse and not the quantity which had entered the territorial waters.

(h) Duty payable if warehousing period is not extended - Goods which are not removed within the permissible period, are deemed to be improperly removed on the day it should have been removed. Thus, duty applicable on such date (i.e. last date on which the goods should have been removed) is applicable, and not the date on which goods were actually removed.

Sometimes, goods are not cleared even after warehousing period is over and extension has not been obtained or granted. In such cases, the relevant date for determination of rate of duty is as follows - (a) If importer does not remove the goods even after expiry of warehousing period, customs officer can issue notice u/s 72 demanding duty. In such case, the last date on which goods should have been removed is 'deemed date of removal' and duty applicable on that date is payable, (b) If importer submits bill of entry and obtains clearance u/s 68, the relevant date is the date on which Bill of Entry for home consumption is submitted u/s 68 (That time it was date of payment of duty) - Raymond Synthetics Ltd. v. CC 2000(119) ELT 205 (CEGAT 5 member bench). - civil appeal admitted by SC on 3.9.2001 - (2001) 134 ELT A166.

(i) Title can be relinquished even after warehousing period is over - In RPG Cables v. CC (2007) 212 ELT 538 (CESTAT), it was held that importer can relinquish title even after warehousing period is over, since title can be relinquished anytime before clearance for home consumption - same view in Macmillan Indiv. CC(2008) 223 ELT 449 (CESTAT) - same view in JK Cement Works v. CCE (2008) 223 ELT 138 (Raj HC DB), where it was also held that even after relinquishment, rent, interest etc. is required to be paid. It was also held that acceptance of option of relinquishment is not subject to discretion of proper officer, but only for fulfilment of conditions prescribed in proviso to section 68 of Customs Act.

(j) Interest if goods cleared after warehousing period is over - Interest is payable even if goods are cleared after warehousing period is over, till date of clearance. Interest is payable even if notice demanding interest is not issued - Suresh Chand v. t/O/(2010) 254 ELT (Bom HC DB).

(k) Re-export can be permitted even after bonding period has expired - Importer may be allowed to re-export goods even after the period of warehousing has expired and demand notice is issued. Before granting the permission, warehousing period should be extended, so that importer can re-export the goods within such extended warehousing period.

(l) Interest not payable even if duty paid after five days from return of ex-bond bill of entry - As per section 47(2) of Customs Act, if duty is not paid within five working days from date of return of Bill of Entry to importer. This section is applicable for clearance from port and not for clearance from warehouse,

for which separate provisions have been made under section 68 of Customs Act. This is self contained provision. Hence, in case of warehoused goods, interest is not payable even if duty is paid beyond period of five days from return of ex-bond bill of entry. However, interest as provided in section 61 (2) would be payable - MF(DR) Circular No. 15/2009-Cus dated 12-5-2009.

(m) Sales Tax and octroi/entry tax on warehoused goods - Sales tax is payable when goods are sold from bonded warehouse. State sales tax is also payable when goods are supplied to foreign going vessel. However, sales tax should not be payable in following - (a) Goods exported from bonded warehouse (b) Goods sold by transfer of documents when goods are within the bonded warehouse.

Octroi/Entry Tax can be levied on warehoused goods for which 'Value' can include customs duty payable on such goods, even if not paid at the time of warehousing. However, in case of EOU/SEZ, since they do not have to pay customs duty, the custom duty will not be includible in value for purpose of octroi payment.

(n) Sale of goods when goods are in bonded warehouse is 'sale in the course of import'

In *Kiran Spinning Mills v. CC1999(U3)ELT753 = 2000 AIRSCW2090 = AIR2000 SC 3448* (SC 3 member bench), it has been held that goods continue to be in customs barrier when they are in customs bonded warehouse. Import would be completed only when goods cross customs barrier and not when they land in India or enter territorial waters.

Thus, if documents are transferred when goods are in customs bonded warehouse, it will be treated as transfer of documents before goods cross customs barrier.

(o) Transfer to other bonded warehouse

Section 67 of Customs Act permit removal to other warehouse under bond. Transit bond for customs duty involved backed by bank guarantee/security should be furnished. In the case of EOU, bank guarantee for transfer of goods is not required - Chapter 9 Para 18 of CBE&C's Customs Manual, 2011.

In case of inter-city transfer of goods from one warehouse to another warehouse, bank guarantee is not required in case of Central and State Public Sector Undertakings (PSU). However, transit bond should be executed - MF(DR) circular No. 42/2007-Cus dated 30-11-2007.

(p) Clearance for export

Customs warehoused goods can be exported without payment of duty, vide section 69(1) of Customs Act. A shipping bill or bill of export or label or declaration (in case of export by post) has to be presented. Export duty, penalties, rent, interest etc. is payable as applicable and then goods are allowed to be exported.

If warehoused goods are re-exported without payment of duty, no interest is payable - MF(DR) circular No. 38/2005-Cus dated 28-9-2005.

(6) Other provisions of customs warehousing

Other provisions in respect of warehousing are as follows.

(a) Relinquishing of title after warehousing - The owner of warehoused goods can relinquish the title of goods any time before order for home clearance is made. He will be required to pay rent, interest, other charges and penalties that may be payable, but duty will not be payable [proviso to section 68 inserted w.e.f. 14-5-2003]. The word 'interest' is not clear and is likely to lead to litigation. It has been consistently held that when duty is not payable, question of payment of duty does not arise.

Relinquishment of title of goods will not be permissible if offence appears to have been committed in respect of such goods under Customs Act or any other law [second proviso to section 68 of Customs Act inserted w.e.f. 18-4-2006].

(b) Repurchase of goods after relinquishing - The goods relinquished are normally auctioned. In that case, the person who has relinquished the goods can repurchase the goods as the goods are no more 'imported goods' - *Aabhas Spinners v. UOI* (20\0) 260 ELT 554 (P&H HC DB).

(c) Remission of duty permissible - If goods are damaged in warehouse, the damage is covered u/s 23 and hence no duty is payable, since clearance from port to the warehouse is not 'clearance for home consumption'.

(d) Remission if Loss of inputs in stores or during process of EOU - If inputs are lost due to fire, after they are issued for production and are in 'work in progress', no duty is payable on imported and indigenous inputs received duty free. Remission of duty is required to be granted - *Sarni Labs v. CC* (2007) 216 ELT 59 (CESTAT).

Remission can be obtained by EOU if goods deteriorated when in the factory (as it is a warehouse) - *Sandoz P Ltd. v. CCE* (2012) 278 ELT 259 (CESTAT) * *CC v. Next Fashion Creators* (2012) 280 ELT 374 (Karn HC DB).

(e) No remission after warehousing period is over - In *CCE v. Decorative Laminates* (2010) 257 ELT 61 (Kar HC DB), it was held that remission cannot be granted after expiry of warehousing period [reversing *Decorative Laminates v. CC* (2006) 195 ELT 175 (CESTAT)], where it was held that application for remission can be made even after expiry of warehousing period but before clearance from warehouse for home consumption.

(f) Control over bonded warehouse - The warehouse is subject to control of Customs Officer, who has powers to enter warehouse and examine the goods.

(g) Transfer to another person - Goods in warehouse can be transferred to another person u/s 59(3). Sale of warehoused goods to holder of duty concession license is also permissible.

(h) Rent and warehouse charges - Rent and warehouse charges are payable by importer. If not paid, the warehouse keeper can sell the goods after giving notice to importer and with permission of Customs Officer (section 63).

(i) Owner's rights to deal in goods in warehouse - With the permission of Customs Officer and on payment of prescribed fees, owner can deal with warehoused goods as follows (a) inspect the goods (b) separate damaged or deteriorated goods (c) sort the goods or change containers for preservation, sale, export or disposal of goods (d) show the goods for sale (e) take samples of goods - the samples can be removed without payment of duty with permission of Customs Officer, but if these are not brought back, customs duty is payable (section 64).

(j) No remission if there is theft in warehouse - Remission cannot be granted if there was theft in warehouse - *Maneesh Exports (EOU), In re* (2011) 273 ELT 466 (GOI).

Goods not accounted for - If goods are removed in contravention of rules or if goods are not properly accounted for, full duty is payable on such goods together with penalty, interest, rent etc. If duty, penalty etc. is not paid, goods in warehouse can be sold by Customs Officer after giving notice to importer. Besides, bond or bank guarantee executed by importer can be encashed [section 72(l)(d)J.

(k) Goods improperly removed from warehouse

As per section 72(1), following goods are 'goods improperly removed from warehouse, etc'

- (a) Warehoused goods removed in contravention of provisions of section 71 are goods improperly removed [section 72(1)(a)]. [Section 71 allows clearance for home consumption on payment of duty, re-exportation or removal to another warehouse].
- (b) Warehoused goods not removed at the expiration of warehousing period as specified in section 61 (unless extension is obtained)
- (c) Taking samples from warehouse without payment of duty and not returning them
- (d) Goods entered into warehousing under bond u/s 59 are not duly accounted for [section 72(1)(d)].

In such case, full duty, along with interest, penalty, rent and other charges can be demanded. If these are not paid, the warehoused goods can be sold by customs officer, besides other action that can be taken under customs law [section 72(2)].

(I) Reassessment cannot be made at warehouse

The department has clarified as follows - 'Insofar as value for assessment of duty is concerned, it is not required to be re-determined and it is the original value as determined at the time of filing of 'Into Bond Bill of Entry' and assessments before warehousing. - Chapter 9 Para 19.3 of CBE&C's Customs Manual, 2001.

(7) Storage in warehouse pending clearance

Normally, imported goods are kept in customs bonded warehouse after goods are assessed to duty. However, occasionally, it may happen that assessment of duty may take time for want of some clarification/reports etc. In such cases, goods lying in docks may incur heavy demurrage. There is a provision that Customs department can issue 'detention certificate' and on the basis of such certificate, port trust authorities may remit demurrage. However, chances of pilferage or loss are high if goods lie at docks.

Hence, if assessment is likely to be delayed, section 49 of Customs Act allows that goods can be stored in public warehouse for period upto 30 days. However, such goods are not to be treated as 'warehoused goods' for purposes of Customs Act as the goods are not assessed. Hence, it is called 'storage without warehousing' or 'warehousing without warehousing'. The goods are cleared from the warehouse after duty is assessed and paid [The limit of 30 days was put w.e.f. 10th May, 2013]

The storage period is 30 days. The period can be extended by Commissioner of Customs by 30 days at a time - [proviso to section 49 of Customs Act, inserted w.e.f. 10th May, 2013].

PRACTICAL PROBLEMS

Example 24: An importer imported some goods in February, 2013 and the goods were cleared from Mumbai port for warehousing on 8th February, 2013 after assessment. Assessable value was ₹ 4,86,000 (US \$ 10,000 at the rate of exchange ₹ 48.60 per US \$). The rate of duty on that date was 20% (assume that no additional duty is payable). The goods were warehoused at Pune and were cleared from Pune warehouse on 4th March, 2013, when rate of duty was 15% and exchange rate was ₹ 48.75 = 1 US \$. What is the duty payable while removing the goods from Pune on 4th March, 2013?

Answer:

Amount in ₹

The rate of exchange will be ₹ 48.60 per USD Assessable value	4, 86,000
(i.e. US\$ 10,000 at ₹ 48.60 per US\$) Rate of duty	@15%.
Basic Customs Duty payable	72,900
Education Cess 2% on ₹ 72,900	1,458
SAH @1% on ₹ 72,900	729
Total Duty payable	75,087

Example 25: Certain goods were imported in February 2012. "Into bond" bill of entry was presented on 14th February, 2012 and goods were cleared from the port for warehousing. Assessable value was \$5,00,000. Customs officer issued the order under section 60 permitting the deposit of the goods in warehouse on 21st February, 2012 for 3 months. Goods were not cleared even after warehousing period was over, i.e., 21st May, 2012 and extension of time was also not obtained. Customs officer issued notice under section 72 demanding duty and other charges. Goods were cleared by importer on 28th June, 2012. What is the amount of duty payable while removing the goods? Compute on the basis of following information (assume that no additional duty or special additional duty payable).

	14.02.2012	21.05.2012	28.06.2012
Rate of Exchange per USD	₹ 48.30	₹ 48.40	₹ 48.50
Basic customs duty	35%	30%	25%

Answer:

Rate of duty applicable	@30%
Exchange rate	₹ 48.30
Assessable value	₹ 2,41,50,000
Customs Duty @30% x ₹ 2,41,50,000	₹ 72,45,000
Education cess 2% x ₹ 72, 45,000	₹ 1,44,900
SAH @ 1% x ₹ 72, 45,000	₹ 72,450
Total Customs duty payable	₹ 74,62,350

Note: Goods not removed from the warehouse within the permissible period, is considered as deemed to be removed *improperly* on the due date, even though, the goods actually removed at a later date. The rate of duty prevailing on the date on which the goods should have been removed is to be considered i.e. 30% (21-5-2012) [Kesoram Rayon v Commissioner of Customs (1996)]

Example 26: An importer imported some goods on 1st January, 2012 and the goods were cleared from Mumbai port for warehousing on 8th January, 2012 by submitting Bill of Entry, exchange rate was ₹ 50 per US \$. FOB value US \$ 10,000. The rate of duty on 8th January, 2012 was 20%. The goods were warehoused at Pune and were cleared from Pune warehouse on 31st May, 2012, when rate of basic customs duty was 15% and exchange rate was ₹ 48.75 per 1 US \$. What is the duty payable while removing the goods from Pune on 31st May, 2012? CVD @10% and Special CVD 4% are applicable.

You are required to find:

- The total Customs duty payable?
- The interest if any payable?

Answer:

	(US \$)	
FOB	10,000	
ADD: 20% Freight on FOB	2,000	
ADD: 1.125% Insurance on FOB	112.50	
CIF	12,112.50	
ADD: 1% on CIF	121.125	
ASSESSABLE VALUE	12,233.63	
	(₹)	
ASSESSABLE VALUE	6,11,681.25	(i.e. 12,233.625 x ₹50)
Add: BCD 15%	91,752.19	(i.e. 6,11,681.25 x 15%)
Balance	7,03,433.44	
Add: CVD 10%	70,343.34	(i.e. 703,433.44 x 10%)
Balance	7,73,776.78	
Add: 2% Ed. Cess	3,241.91	(i.e. 1,62,095.63 x 2%)
Add: 1%SAH Ed. Cess	1,620.96	(i.e. 1,62,095.63 x 1%)
Balance	7,78,639.65	
Add: Spl. CVD 4%	31,145.59	(i.e. 7,78,639.65 x 4%)
Value of import	8,09,785.24	
Amount of Customs duties	1,98,104.00	

**Interest:**

(i.e. ₹1,98,104 x 15% x 55/365)

4,478.00

Jan 24 days + Feb 29 days + Mar 31 + April 30 days + May 31 days = 145 days

145 days – 90 days = 55 days.

4.16 PROVISIONAL ASSESSMENT OF DUTY [SECTION 18]

Provisional assessment [Section 18]: The provisional assessment can be directed by proper officer in the following circumstances,-

- (a) where the importer or exporter is unable to make self-assessment under section 17(1) and makes a request in writing to the proper officer for assessment; or
 - (b) where the proper officer deems it necessary to subject any imported goods or export goods to any chemical or other test; or
 - (c) where the importer or exporter has produced all the necessary documents and furnished full information but the proper officer deems it necessary to make further enquiry; or
 - (d) where necessary documents have not been produced or information has not been furnished and the proper officer deems it necessary to make further enquiry.
- **Furnishing of security:** The proper officer may direct provisional assessment if the importer or the exporter, as the case may be, furnishes such security as the proper officer deems fit for the payment of the deficiency, if any, between the duty as may be finally assessed or re-assessed (as the case may be), and the duty provisionally assessed.
 - **Importer required to file bill of entry in case of provisional assessment also:** The provisions of section 18 apply without prejudice to the provisions of Section 46. Hence, the bill of entry is required to be presented in accordance with the provisions of Section 46 even for the purposes of provisional assessment as well.
 - **Finalisation of assessment:** When the duty leviable on such goods is assessed finally or re-assessed by the proper officer in accordance with the provisions of this Act, then -
 - (a) If the goods are cleared for home consumption or exportation, the amount paid shall be adjusted against the duty finally assessed or re-assessed. In case the amount so paid falls short or is in excess of duty finally assessed or re-assessed, the importer or the exporter of the goods shall pay the deficiency or is entitled to a refund.
 - (b) If the goods are warehoused and the duty finally assessed or re-assessed is in excess of the provisional duty, the customs officer may require the importer to execute a bond binding himself in a sum equal to twice the amount of the excess duty.
 - **Interest of demand:** The importer or exporter shall be liable to pay interest, on any amount payable to Central Government, consequent to the final assessment order or reassessment order, at the rate specified in Section 28AA of the Customs Act, 1962 (i.e. @ 18% p.a.) from the first day of the month in which the duty is provisionally assessed till the date of payment thereof.
 - **Interest on delayed refund:** If any amount refundable is not refunded within three months from the date of assessment of duty finally or reassessment of duty, as the case may be, there shall be paid an interest on such amount at the rate specified in section 27A of the customs Act, 1962 (i.e @6% p.a) till the fund of refund of such amount.
 - **Circumstances under which refund can be granted:** The amount of duty and the interest shall be credited to Customer Welfare Fund. However , instead of being credited to Consumer Welfare

Fund in the following cases it shall be paid to the importer or the exporter, if such amount is related to,-

- (a) the duty and interest, (if any, paid on such duty) paid by the importer, or the exporter, as the case may be, if he had not passed on the incidence of such duty and interest, to any other person;
- (b) duty and interest (If any, paid on such duty) on imports made by an individual for his personal use;
- (c) the duty and interest (if any, paid on such duty) borne by the buyer, if he had not passed on the incidence of such duty and interest, to any other person;
- (d) the export duty as specified in section 26;
- (e) drawback of duty payable under section 74 and 75.

4.17 BAGGAGE, COURIER AND IMPORT AND EXPORT THROUGH POST

4.17.1 General Provisions about Baggage

Section 2(3) states that baggage includes 'un-accompanied baggage' but does not include motor vehicles. Thus, baggage rules are also applicable in respect of baggage which comes separately and which is despatched from abroad before or after the traveller's departure. Section 79(1)(b) of Customs Act exempts bona fide baggage of passenger which is for use of the passenger or his family. Section 79(2) authorises Central Government to frame rules for prescribing conditions for granting exemption to baggage. In exercise of these powers, Central Government has issued Baggage Rules, 1998, making provisions in respect of baggage.

Baggage - The term has not been defined as such. However, following may be noted: (a) Baggage means all dutiable articles, imported by passenger or a member of a crew in his baggage (b) Un-accompanied baggage, if despatched previously or subsequently within prescribed period is also covered (c) baggage does not include motor vehicles, alcoholic drinks and goods imported through courier (d) Baggage does not include articles imported under an import licence for his own use or on behalf of others.

Bona fide Baggage Exempt from duty - Bona fide baggage accompanying passenger is exempt from duty. It includes wearing apparel, toilet requisites and other personal effects.

General prohibitions - Following are general prohibitions/restrictions - (a) Foreign and Indian currency can be taken out/ brought in only as per restrictions of RBI under FEMA (discussed later in this chapter). (b) Possession of narcotic drugs is strictly prohibited. (c) Domestic pets like dogs, cats, birds etc. can be brought as per strict health certificate regulations. (d) Taking out exotic birds, wind orchids and wild life, is strictly prohibited. (e) Endangered species or articles made from flora and fauna such as ivory, musk, reptile skins, furs, shahtoosh or antiques are prohibited.

Declaration by owner of baggage

Section 77 of Customs Act provides that owner of any baggage has to make declaration of its contents to Customs Officer. Rate of duty and tariff valuation shall be the rate and valuation in force on the date of declaration.

Green Channel - It is impractical to ask every traveller to declare contents of his baggage. Hence, customs have provided two channels at airports. If a person does not have any dutiable goods, he can go through green channel.

An incoming passenger has to submit disembarkation card, containing written declaration about his baggage. This should be collected when passenger goes through green channel. - MF(DR) circular No. 9/2001-Cus dated 22.2.2001.

Passenger who has nothing to declare can simply walk through green channel with baggage on basis of oral declaration/declaration on their disembarkation cards. Any passenger found walking through green channel with dutiable or prohibited goods (or found mis-declaring quantity, value or description while going through red channel) is liable to strict penal action of seizure and confiscation. He can even be arrested/ prosecuted.

Mere declaration does not absolve the passenger - Mere voluntary disclosure of goods to customs authorities does not preclude the authorities from adjudicating upon the nature of imports and whether the passenger is entitled to clear goods without payment of duty and without any licence - Goods can be confiscated if found that licence is required to import the goods in question - R Karuppan v. B Namachivayam 1998(99) ELT 214 (Mad HC DB).

Red Channel - Person carrying dutiable goods should pass through red channel and should submit declaration. The declaration of goods and value as given by passenger in disembarkation card is generally accepted, but baggage can be inspected by Customs Officer.

4.17.2 Rate of customs duty on baggage

Rate of duty on baggage is as follows:

General Rate on baggage - Baggage is classified in Customs Tariff in Chapter 9803, irrespective of actual classification as per Customs Tariff. The entry reads as "All dutiable articles, imported by passenger or member of crew in his baggage". Tariff rate is 100%. However, effective rate (i.e. specified by a notification) is 35% w.e.f. 1-3-2005. Baggage is exempt from CVD. However, education cess @ 2% and SAH education cess of 1% is payable. Thus, total customs duty on baggage is 36.05%,

This rate is not available to - fire arms, cartridge of fire arms exceeding 50, cigarettes, cigars or tobacco in excess of the quantity prescribed for importation free of duty under Baggage Rules and goods imported through courier service. [Notification No. 136/90 dated 20-3-90 as amended]. Since 'baggage' does not include motor vehicles, liquor and firearms, the rate is obviously not applicable for those goods.

Exemption to laptop computer - Laptop computer (notebook computer) brought as baggage by person over 18 years of age (other than member of crew) is fully exempt from customs duty - Notification No. 11/2004-Cus dated 8-1-2004.

A laptop is a small portable Personal Computer (in short 'PC'). A notebook computer is a laptop - CC v. Hewlett Packard India (Sales) P Ltd. (2007) 215 ELT 484 (SC).

Import for personal use - Dutiable articles imported by air or post, but not as baggage, intended for personal use, which are not prohibited under Foreign Trade (Development and Regulation) Act are classifiable under 9804 and general rate is 20%. The goods are exempt from additional duty (CVD). However, 9804 does not cover items brought as baggage. Thus, this covers goods sent by post or air by a person abroad to another person in India.

Relevant date for determining rate of duty and valuation - As per section 78 of Customs Act, 'relevant date' for rate of duty and baggage is date on which declaration is made in respect of baggage as required u/s 77 of Customs Act.

Valuation of baggage

In Naresh Lokumal Serai v. CC 2006 (203) ELT 580 (CESTAT), it was held that there are no separate provisions for valuation of baggage. Hence, valuation rules apply to valuation of baggage also. In baggage, most of items may be used. Hence, valuation on basis of best judgment assessment is appropriate. It was also held that valuation on basis of internet prices cannot be considered for valuation. Similarly, price tags on goods cannot be considered for valuation, since the price indicated is for sale within that country and not for export to India.

4.17.3 Exemptions/ Restrictions on Baggage

Tourists can be broadly classified as (a) Indian persons going abroad for a short trip and coming back (b) Indian persons gone abroad for work and coming back after few years (c) tourists visiting India for sight seeing or business purpose. Accordingly, 'Baggage Rules, 1998' contain different provisions for (a) Residents from India (b) Tourists visiting India and (c) Persons transferring their residence.

Exemption only to bona fide baggage - As per section 79(1) of Customs Act, bona fide baggage will be passed free of customs duty. Section 79(1) of Customs Act provides that (a) article in any baggage of passenger or crew will be allowed if it was in use for a period specified in rules and (b) bona fide gifts within the limits prescribed in rules.

Present Baggage Rules do not prescribe any limit for which the articles in baggage should be 'in use', but unused articles may not be held as 'bona fide' baggage.

Baggage declaration form prescribed that 'bona fide baggage' includes - * wearing apparel * personal and household effects meant for personal use of passenger or family members travelling with him and not for sale or gift * Jewellery including articles made wholly or mainly of gold, in reasonable quantity according to status of passenger * Tools of draftsman * Instruments of physician or surgeon.

Personal effects

The term 'personal effects' has not been defined. Rule 11 of earlier baggage rules stated that the expression 'personal effects' means all clothings and other articles, new or used, which a tourist may personally and reasonably require taking into account all the circumstances of his visit but excluding all merchandise imported for commercial purpose.

Departmental clarification - Following will be covered in 'personal effects'. Only used personal effects are permitted. However, as long as it is not prima facie new goods in their original packings which can be disposed of off hand, it will be permitted. The list as given in MF(DR) circular No. 72/98-Cus dated 24-9-1998 is as follows

- Personal jewellery
- One camera with film-rolls not exceeding 20
- One video camera/camcorder with accessories and with video cassettes not exceeding 12
- One pair of binoculars
- One portable colour TV (not exceeding 15 cms in size)
- One music system including compact disc player
- One portable typewriter
- One perambulator
- One tent and other camping equipment
- One computer (laptop/note book) [Laptop/note book computer has been exempted from customs duty vide notification No. 11 /2004-Cus dated 8-1-2004]
- One electronic diary
- One portable wireless receiving set (transistor radio)
- Professional equipments, instruments and apparatus of appliances including professional audio/ video equipments
- Sports equipments such as one fishing outfit, one sporting firearm with 50 cartridges, one non-powered bicycles, one canoe or ranges less than 51 metres long, one pair of skids, two tennis rackets, one golf set (14 pieces with a dozen of golf balls)
- One cell phone

Bona fide luggage will not include - `Alcoholic liquor exceeding half pint \* Perfumed spirit exceeding two ounces in open or unopened bottles' cigars or cheroots exceeding 50 ` Country bidis exceeding 200 " Un-manufactured or manufactured tobacco exceeding 4 ounces and snuff exceeding 10 tolas `Piano, pianola and radio * Carriage, motor car, motor cycle * Refrigerator' Cotton piece goods or textile materials in long lengths "Arms and ammunition except personal licensed gun, rifles, revolver or pistol' Wireless apparatus and dictaphone.

Since 'baggage' does not include motor vehicles, liquor and firearms, these cannot be considered as 'personal effects'.

Baggage fully exempt or at concessional rate of duty - Following baggage is fully exempt from customs duty, as per Notification No. 49/96-Cus dated 23-7-1996

- (a) Personal property re-imported
- (b) Free replacement under warranty of articles which are private personal property of passenger
- (c) foodstuff upto ₹ 50,000
- (d) Free gifts and donations to red cross, CARE or Government of India for relief and rehabilitation
- (e) Samples, price lists, prototypes, commercial samples etc.
- (f) Goods brought for display, exhibition, fair etc., subject to various conditions.
- (g) Agricultural products or goods manufactured or produced in Nepal.
- (h) Newspapers, drawing and designs and other goods as specified.

Exemption to minor amounts of customs duty - Customs duty is not payable if amount of duty is Equal to or less than ₹ 100. [Section 25(6)].

Export Certificate - If a person had gone abroad from India, he should take 'Export Certificate' while taking out jewellery, camera etc. Otherwise, customs duty will be leviable while bringing back the goods.

Goods cannot be imported in commercial quantity as 'Baggage'?

Import of consumer goods in commercial quantity is not permissible as per Foreign Trade policy and it cannot be treated as 'bona fide baggage. However, if passenger brings other goods also, that portion which is not in commercial quantity would be eligible to free baggage allowance. Only goods brought in commercial quantity will be liable for adjudication, penalty and confiscation.

4.17.4 Baggage of Indian resident or foreigner residing in India

Resident means a person holding Indian Passport and normally residing in India (i.e. Indian persons going abroad for short visit). The concession of free import of used personal effects and General Free Allowance is also available for foreign citizens residing in India.

Exempted baggage- Baggage Rules, 1998 allow following imports as duty free:

Used personal effects - Used articles of personal wear and articles in personal use of passengers for daily necessities is fully exempt. Used personal effects are also exempt. (This allowance is also available to foreign citizens residing in India returning from abroad).

General Free Allowance

The free allowance as provided in Baggage Rules, 1998 is as follows:

General Free Allowance - In addition to personal effects (excluding jewellery) and a laptop computer, a passenger of 10 or more years of age is allowed general free allowance of ₹ 35,000, if the Indian Resident is returning from country other than Nepal, Bhutan, Myanmar or China [Hong Kong Special Administrative Region (HKSAR) is separate customs territory from China and hence allowance of

₹35,000 will be applicable to persons coming from Hong Kong - MF(DR) circular No. 25/2010-Cus dated 4-8-2010]

This allowance is also available to foreign citizens residing in India, after stay of more than three days. This allowance cannot be pooled with General Free Allowance of other passengers - e.g. husband and wife bringing one item of ₹70,000 will not be permitted duty free. This General Free Allowance is not applicable to un-accompanied baggage.

The limit of ₹35,000 is reduced as follows - (a) ₹15,000 for passengers after stay abroad of three days or less (This limit was ₹12,000 upto 17-3-2012). (b) If the passenger is upto 10 years of age and is returning from country other than Nepal, Bhutan, Myanmar or China (but not in case of Hong Kong), the allowance is ₹15,000 (w.e.f. 23-4-2012 - earlier it was ₹6,000), if a person is returning after stay of more than 3 days and ₹3,000, if his stay was 3 days or less. (c) If the passenger is returning from Pakistan by land route, as specified in Annexure IV of Baggage Rules, the general free allowance is ₹6,000 for passengers above 10 years and ₹1,500 for passengers upto 10 years of age [applicable to passengers returning from countries other than Nepal, Bhutan, Myanmar or China.

Lower General Free allowance in case of certain countries - An Indian Resident or foreigner residing in India of age 10 or more is entitled to lower rate of General Free Allowance of ₹ 6,000, if he is returning from Nepal, Bhutan, Myanmar or China after stay of more than 3 days, by route other than land route. Passenger upto 10 years returning from these countries after stay of more than 3 days is entitled to General Free Allowance of ₹1500. There is no duty on personal effects. There is no general free allowance if a person is returning from these countries after stay of three days or less. There is no free allowance if passenger returns by land route from these countries, even if his stay abroad was more than 3 days. If the passenger is returning from Pakistan by land route as specified in Annexure IV of Baggage Rules, the general free allowance is ₹6000 for passengers above 10 years and ₹1500 for passengers upto 10 years of age.

No General Free allowance in certain cases - General Free Allowance is available to Indian Residents, foreigners who are residing in India and tourists of Indian origin. The allowance is also available if he is transferring his residence or returning after 3/12/24 months. A Non Resident Indian who does not hold Indian passport is also entitled to GFA if he is of Indian origin. The GFA is not available to foreign tourists.

No GFA on un-accompanied baggage - General Free Allowance is not allowed on unaccompanied baggage.

Restricted/Excluded items from General Free Allowance - The exemption is not allowed to items included in Annex I to Baggage Rules, 1998. Items included in Annex I are : (1) fire arms; (2) cartridges of fire arms exceeding 50; (3) cigarettes exceeding 200 or cigars exceeding 50 or tobacco exceeding 250 Gms; (4) Alcoholic liquor or wines in excess of two liters (5) Gold or Silver in any form, other than ornaments.

Allowance to professionals returning to India

An Indian passenger who was engaged in his profession abroad for over three months is allowed to import following duty free goods as additional allowance - (a) Used Household Articles upto ₹12,000 (e.g. linen, utensils, tableware, kitchen appliances, an iron etc.) (b) Professional equipment like portable equipments, apparatus and appliances required in such profession, upto ₹20,000. The limit will be increased to ₹40,000, if he was abroad for over 6 months. [This allowance is in addition to General Free Allowance].

This exemption of professional equipment is only for carpenters, plumbers, welders, masons and the like and not for items of common use like cameras, typewriter, cassette-recorder, computers, word processor etc. - Rule 5 of Baggage Rules, 1998 read with Appendix C.

Limited exemption to jewellery

Bringing jewellery duty free on transfer of residence - If the passenger was residing abroad for over one year, jewellery can be imported duty free upto ₹50,000 in case of gentleman passenger and ₹1,00,000 in case of lady passenger. [Appendix D to Baggage Rules, 1998].

Imported goods taken abroad and brought back

A tourist can take imported equipment like camera, cellular phone, note book computers etc. abroad. In such case, he should take 'Export Certificate' with him while going abroad. This will enable him to bring back the said goods without payment of duty on return. It is now provided that frequent travellers can get such certificate in advance. The certificate will be serially numbered with official seal of issuing authority giving details of the product. Such certificate will be valid for one year and can be obtained from any major customs house, international airport or seaport. - CBE&C circular No 66/96-Cus dated 26.12.1996.

Duty payable on balance un-exempted baggage - The baggage (including unaccompanied baggage) is exempt subject to limits mentioned above. The balance quantity is dutiable at rates explained above. Duty payable on Silver and Gold imported as baggage has been separately prescribed.

4.17.5 Concession to persons transferring his residence (TR)

A person who is transferring his residence to India is eligible to bring used personal and household articles to India without duty. The provisions are applicable to all - i.e. foreigners coming for residing in India as well as Indian resident coming after 2 years and who is transferring his residence to India.

Conditions for TR concession - The conditions for TR concession are:

- (a) He should have been residing abroad for at least two years. During this period short visits not exceeding 6 months are permissible.
- (b) The provision regarding 2 years' stay can be condoned upto 2 months by Assistant Commissioner, if the early return was due to terminal leave or vacation or other special circumstances.
- (c) The provision regarding maximum 6 months stay during 2 years can be relaxed by Commissioner in deserving cases.
- (d) The passenger should not have availed this concession in preceding three years. (e) Goods in Annexure I and Annexure II are not allowed under this concession.
- (e) Goods in Annexure III are fully exempt from customs duty, if within limit of ₹ five lakhs.
- (f) Jewellery upto ₹10,000 for male passenger and ₹20,000 for female passenger can be imported free of customs duty. (Rule 8 of Baggage Rules, 1998, read with Appendix F).

Since 'baggage' does not include motor vehicles, liquor and firearms, the exemption is obviously not applicable for those goods.

Firearms cannot be imported as baggage without a license which is required under Arms Act, 1959 - Anirudh Singh Katochi v. U012O11 (266) ELT 321 (SC).

Limit on bringing jewellery duty free - The jewellery allowed to be imported duty free is limited to ₹10,000 for male passenger and ₹20,000 for female passenger. This limit is not applicable if the passenger produces evidence that the jewellery was, in fact, taken out of India by the passenger or his family.

New and unused goods not eligible for TR concession - New and unused goods are not eligible for transfer of residence benefit - Naresh Lokurnal Serai v. CC2006 (203) ELT 580 (CESTAT).

General Free Allowance - A passenger can also avail of 'General Free Allowance' as available to other residents, in addition to above. (Rule 8).

Condonation of shortfall in periods - While calculating the aforesaid period of two years (a) short visits to India totalling not more than six months during the period are ignored. This period can be extended by Commissioner of Customs. (b) Minimum stay abroad of two years can be condoned upto two months by Assistant Commissioner if the early return is caused by his availing terminal leave or vacation or by special circumstances.

Personal and Household goods - The exemption is available only for 'personal and household goods' i.e. those required for use of the passenger or running the household.

Goods need not have been owned by the person? - The goods should be in possession of the person before he left for India. Ownership of goods is not the criteria for determining eligibility to TR concession - CCE v. Hameed Kunhipally Hussainar 2005 (187) ELT 502 (CESTAT) [If he is not owner, how goods will be in his possession?].

Concession for transfer of residence

A person transferring his residence to India after stay abroad for two years and who has not availed this concession in preceding three years is eligible for concession upto value of ₹5 lakhs exclusive of value of his personal effects and other household articles. This concession is available on all articles contained in Annex II and Annex III of Baggage Rules, 1998. [As against only ₹ 75,000 in case of Mini TR - inclusive of personal effects and other household articles - available to those who are coming after stay abroad for 365 days out of last two years].

Articles not allowed under TR - Transfer of Residence concession is not available to motor vehicles, vessels, aircrafts, cinematograph films, alcoholic liquor or wines (in excess of two litres), cigarettes (exceeding 200), cigars (exceeding 50), tobacco (exceeding 250 gms), Gold (other than ornaments), Silver (other than ornaments), fire arms and cartridges of fire arms exceeding 50 - Annex I of Baggage.

Allowance for persons returning after one year i.e. Mini TR

A person who was working abroad and is returning to India on termination of work and who was staying abroad for at least 365 days out of previous two years, is eligible to certain concessions. This is termed as 'mini TR' i.e. 'Mini Transfer of Residence'. He is entitled to bring personal effects and household articles upto ₹75,000 duty free [The limit was ₹30,000 upto 28-2-2002]. This allowance is in addition to General Free Allowance. The conditions are (a) These should be in possession of himself or his family and used for at least six months (b) He shall be allowed to avail himself of this exemption only once in three years. (c) Items in Annex I, Annex II or Annex III to Baggage Rules are not allowed under this rule. (d) Goods should be contained in his bona fide baggage.

Items under Annex I are already explained above. Items under Annex II and Annex III are as follows :

Items in Annexure II - (1) Colour/ monochrome TV (2) Digital Video Disc (DVD) player (3) Video Home Theatre system (4) Dish washer (5) Music system (6) Air conditioner (7) Domestic refrigerator above 300 litres or its equivalent (8) deep freezer (9) Microwave oven (10) Video camera or combination of video camera with TV, sound/video recording apparatus (11) word processing machine. (12) Fax machine. (13) Portable photocopying machine (14) Vessels (15) Aircrafts (16) Cinematograph films of 35 mm and above. (17) Gold or Silver in any form, other than ornaments.

Items in Annexure III - (1) VCR/VCP/VTR/VCDP (2) washing machine (3) Electrical/ LPG Cooking range (4) Personal Computer (Desktop Computer) (5) Laptop (Note Book) Computer (6) Domestic Refrigerators of capacity upto 300 litres or its equivalent.

In other words, the exemption of ₹75,000 is illusory as the items a person would like to bring after stay abroad are mostly not exempt. However, duty payable is 30% on items included in Annex II upto value of ₹1,50,000 in case of Mini TR.

Since 'baggage' does not include motor vehicles, liquor and firearms, the exemption is obviously not applicable for those goods.

Concessional Rate if person returning after stay of 365 days - The general rate of customs duty on baggage is reduced to 30% if a person holding Indian passport, returns to India after staying abroad for at least 365 days in last two years. He should be 'working abroad', i.e. mere stay with relatives or others is not enough to avail this concession. The person is eligible for following concession : duty payable is 30% plus education cess of 2% of duty, on CTV, VCR, VCP, cooking range, washing machines, A/C, Refrigerator, dish washers, musical systems, refrigerator, deep freeze, micro-wave oven, video camera, word processing machine and Fax machine.

Concession is available for one unit of these goods per family upto total value of ₹75,000, inclusive of value of other goods imported duty free under rule 5 of Baggage Rules. [Under these rules, household articles excluding those in Annex I and Annex II are permitted to be imported duty free].

This concession is available if goods were in his possession or were purchased at International airport in duty free shop at the time of his arrival but before customs clearance - probably this is to encourage purchases in duty free shops in our international airports. The concession is also available to un-accompanied baggage despatched later within prescribed period. No CVD is payable.

Rupee payment in duty free shops - Goods upto ₹5,000 per passenger per visit can be purchased against rupee payments in duty free shops at international airport.

4.17.6 Concessions to Tourists

Tourists visit India for various purposes and rules have been framed to allow them to bring goods to India.

Who is a Tourist - Tourist means (a) a person who is not normally resident of India (b) who enters India for stay of not more than six months in the course of twelve month period (c) he should come for legitimate non-immigrant purpose such as touring, recreation, sport, health, family reasons, study, religious pilgrimages or business. [Rule 2(iii) of Baggage Rules, 1998].

Thus, Non-Resident Indians who do not hold Indian passports are also covered in this definition.

Exemption to Baggage of tourists - Following are the exemptions [Appendix E as amended w.e.f. 14-11-2011]-

- (a) Used personal effects of tourist are allowed duty free. Personal effects should be for personal use of the tourist and these goods, other than consumed, should be re-exported when tourist leaves India for foreign destination.
- (b) Tourists of Indian origin (even if holding foreign passport) other than those coming from Pakistan by land route as specified in Annexure IV of Baggage Rules, are entitled to General Free Allowance in addition to 'personal effects'.
- (c) Foreign Tourists (including tourist of Nepalese or Bhutanese origin, but other than tourists of foreign origin) are permitted to bring articles upto ₹8,000 (₹6,000 if they are coming from Pakistan by land route) for making gifts and travel souvenir. However, articles in Annexure I (cigars, liquor, gold, silver, arms) will not be allowed duty free, Duty has to be paid for gifts over the value of ₹8,000/6,000.
- (d) Tourists of Pakistani origin or foreign tourists coming from Pakistan (by land route or by air), foreign tourists coming by land route from Pakistan, tourists of Indian origin coming from Pakistan by land route as specified in Annexure IV of Baggage Rules, are entitled to bring used personal effects and articles upto value of ₹6,000 for personal use or as gifts and travel souvenir.

Tourist include tourists of Nepalese origin coming from Nepal or of Bhutanese origin coming from Bhutan - Earlier, tourist of Nepalese origin coming from Nepal and Bhutanese origin coming from Bhutan were not entitled to any exemption. Now, w.e.f. 14-11-2011, they will be eligible for exemption available to any other tourist of foreign origin.

Articles for use of passenger always exempt - As per section 79(l)(b) of Customs Act, articles of baggage for use of the passenger or his family are exempt from customs duty. Hence they will be exempt even if the tourist is of Pakistani origin.

Persona/Effects- The term 'travel souvenirs' are not defined. The term 'Personal effects' as specified in MF(DR) circular dated 24-9-1998 has been explained earlier in this chapter.

Travel Souvenirs - The term 'travel souvenirs' has neither been defined nor explained in the Baggage Rules.

Import by foreign experts - Foreign experts assigned to India under various UN schemes etc. are permitted to bring various articles, including VCR, video camera and Air conditioners. These are exempt from customs duty on obtaining certificate of undertaking from the expert. Duty will be paid by concerned ministry/department- CBE&C circular No. 70/95-Cus dated 20-6-1995.

Foreign nationals can make payment in Rs or foreign exchange in India – Foreign Nationals, including Persons of Indian Origin, while in India, can make payment for charges towards airline/train tickets, hotels, hospitals etc. either in Indian Rupees or in equivalent foreign exchange.

4.17.7 Other provisions of Baggage

Other provisions regarding baggage are explained below:

Crew member of vessel/aircraft - Crew member of vessel/aircraft can bring petty gifts like chocolates, cheese, cosmetics etc. upto ₹1,500 while returning from foreign journey, for their personal use or family use [The limit was ₹600 upto 1-3-2013] - Rule 10 of Baggage Rules.

Indian Government officers posted abroad - Baggage Rules, 1994 are fully applicable to

Indian diplomatic officers and their families as well as Government of India officers posted abroad, when they return to India. Some concessions were granted to them vide instructions dated 16-4-1951. These concessions have now been withdrawn. In specific cases, ad hoc exemption on merits may be granted - CBE & C Circular No. 4/95-Cus dated 12-1-1995.

Export of Baggage

There are very few restrictions in taking out personal baggage. Prohibited goods cannot be taken out as baggage. Foreign and Indian currency can be taken out within the limits prescribed by RBI under FEMA.

Goods even in commercial quantities can be taken out as accompanied or un-accompanied baggage, if the passenger is able to establish source of funds for buying these goods as foreign exchange brought by him on his arrival in India. - CBE&C circular No. 17/95-Cus dated 1-3-1995.

If a tourist purchases goods in free foreign currency and takes it out as tourist baggage, duty drawback and other export benefits are available. The exporter must submit relevant encashment document of foreign currency, shipping bill etc. - CBE&C circular No. 36/98-Cus dated 20-5-1998.

Unaccompanied Baggage

Baggage' includes un-accompanied baggage brought before or after arrival of passenger within the prescribed period. Bona fide unaccompanied luggage is also allowed under above rules and subject to aforesaid restrictions, if it was in his possession abroad. The baggage may be sent by him earlier or after his departure from abroad. The conditions are (A) If despatched before he starts from abroad: Un-accompanied baggage may arrive upto two months prior to his arrival. This limit can be increased, if passenger could not start due to genuine reasons like sudden illness or natural calamities or disturbed conditions or any other genuine reason to the satisfaction of Assistant Commissioner. (B) Goods despatched after he starts journey: The condition is that the goods should be in his possession when he was abroad and despatched within one month of arrival of passenger in India. This limit can be increased by Assistant Commissioner of Customs. (Rule 9 of Baggage Rules, 1998).

General Free Allowance is not allowed for un-accompanied baggage. In other cases, concessions available to baggage under Baggage Rules are also available for 'unaccompanied baggage'.

Detention and Transshipment of baggage

It may happen that goods brought by a tourist may be prohibited in India. In such case, if he makes true declaration in respect of those goods, the goods can be temporarily detained by customs authorities. These will be returned to him when he leaves India. If he is not able to personally take the goods, he can authorise any other passenger leaving India to collect the goods. Alternately, the goods can also be returned as cargo consigned in his name - [section 80 of Customs Act].

Transshipment of baggage - It may happen that the un-accompanied baggage lands at once customs station but the passenger may like to clear the goods from another customs station. In such cases, such baggage may be permitted to be transported by air or passenger train, under Baggage (Transit to Customs Stations) Regulations, 1967. The baggage will be under supervision of officer of customs. The passenger will have to make all arrangements for transport and pay for supervision charges. This facility is available only at Mumbai, Delhi, Kolkata, Chennai, Bangalore, Trivendrum, Hyderabad, Cochin, Ahmedabad, Goa, Calicut, Coimbatore, Lucknow or Amritsar. The baggage can come by air, passenger train or trucks.

Levy of fees on detained or seized baggage - If customs authorities decide to detain the baggage for inspection/payment of duty/clarification etc.; the same will be kept in store in custody of customs. In such cases, the passenger will have to pay fees as prescribed by Commissioner of Customs. The fees will be prescribed depending on nature of articles contained in baggage and expenses for transportation of goods from landing place to storage place and other expenditure incurred.

Clearance of passenger's baggage for export - Baggage for export also should be allowed after clearance from Customs Officer. The passenger should pay export duty, where leviable and produce export license, if applicable.

No demurrage on baggage - In *International Airport Authority of India v. Ashok Dhawan* 1999(106) ELT 16 (SC), it has been held that 'baggage' is not 'cargo' and hence no demurrage can be levied upon baggage. Same principle applies in case of transshipment also.

Import of cars

Import of cars in bulk is permitted, but there are restrictions in FTP. However, import of car on individual basis is permitted in following cases: (a) Import of cars by persons returning to India. They should have been staying abroad for continuous period of two years. However, short visits to India during these two years is permitted. This facility of import of cars is permitted only to persons who are returning to India for permanent settlement. - CBE&C circular No. 96/95/CUS. VI dated 29-8-1995. (b) Foreign privileged persons (like diplomats etc.) can import cars. If they want to sell in India, such sale must be only to State Trading Corporation (STC). If the sale is within three years, STC has to pay customs duty on the car. (c) Air conditioned cars can be imported for tourism development. Authorisation /certificate from Director General, Tourism will be deemed to be import licence for this purpose. There is no condition regarding ceiling on value. The import duty can be paid in Indian rupees.

PRACTICAL PROBLEMS

Example 27: Mrs. & Mr. Menon visited Germany and brought following goods while returning to India after 6 days stay abroad on 8th April 2012.

- (i) Their personal effects like clothes, etc., valued at ₹ 35,000.
- (ii) A personal computer bought for ₹ 36,000.
- (iii) A laptop computer bought for ₹ 95,000.
- (iv) Two liters of liquor bought for ₹ 1,600.
- (v) A new camera bought for ₹ 37,400.

What is the amount of customs duty payable?

Answer:

Their personal effects like clothes, etc., valued at ₹ 35,000.	exempt
A personal computer bought for ₹ 36,000.	36,000
A laptop computer bought for ₹ 95,000.	exempt
Two liters of liquor bought for ₹ 1,600.	1,600
A new camera bought for ₹ 37,400.	37,400
Total	75,000
Less: General Free Allowance ₹ 35,000 + ₹ 35,000	70,000
Baggage taxable	5,000

Customs Duty is ₹ 1,803 (i.e. $5,000 \times 36.05\%$) payable by Mrs. & Mr. Menon.

Example 28: After visiting USA, Mrs. & Mr. Rao brought to India a laptop computer valued at ₹ 80,000 personal effects valued at ₹ 90,000 and a personal computer for ₹ 52,000. What is the customs Duty payable?

Answer: Duty payable on baggage = ₹ $(52,000 - 35,000) \times 36.05\% = ₹ 6,129$

Example 29: Mr. Ram an Indian resident, aged 45 years, returned to India after visiting USA on 10/05/2012. He had gone to USA on 1/05/2012. On his way back to India he brought following goods with him –

His personal effects like clothes etc. valued at ₹ 90,000:

2 liter of Wine worth ₹ 1,000;

A video camera worth ₹ 21,000;

A watch worth ₹ 23,000.

Find the customs duty payable by Mr. Ram

Answer :

2ltrs of wine	= ₹ 1,000
Video camera	= ₹ 21,000
Watch	= ₹ 23,000
Total	= ₹ 45,000
Less: GFA	= ₹ 35,000
Net value	= ₹ 10,000

Customs duty @ 36.05% on ₹ 10,000 = ₹ 3,605

Example 30: Mr. Venkatesh, an IT professional and a person of Indian origin, is residing in U.S.A. for the last 14 months. He wishes to bring a used microwave oven (costing approximately ₹ 11,200 and weighing 15 kg) with him during his visit to India. He purchased the oven in U.S.A. 6 months back and he has been using that oven for his personal use in his kitchen. He is not aware of Indian customs rules. Could you please provide him some advice in this regard?

Answer :

Free allowances to professionals in respect of their professional equipments upto ₹ 40,000 if Indian passenger returning to India after at least 6 months and in case of house hold articles it is upto ₹ 12,000.

In the given example Amarnath brings the used household articles worth ₹ 11,200 which is free of duty. As per the rule 5 of the Baggage Rules, 1998 he is not liable to pay any duty.

Example 31: Mr. C is a Cost Accountant, Indian resident worked in USA for 4 months, brought with him the following items on his return to India.

Personal effects like clothes etc. of ₹ 5,50,000;

Jewellery of ₹ 25,000

A Camera for ₹ 50,000

Household articles of ₹ 30,000

Professional equipments like electronic diary, calculator and other items worth ₹ 40,000

A Laptop worth for ₹ 3,00,000

Compute the duty payable by Mr. C

Answer:	Amount in ₹
Jewellery	= 25,000
Camera	= 50,000
Household articles	= 30,000
Professional equipments	= 40,000
Subtotal	= 1,45,000
Less: GFA 35,000 + 12,000+20,000	= 67,000
Balance subject to duty	= 78,000

Basic Customs Duty ₹ 28,119 (i.e. ₹ 78,000 x 36.05%)

Example 32: Mr. Kishore is a Chartered Accountant (aged 40 years) an Indian resident goes to Nepal on tour. He purchased one computer for ₹ 50,000, one laptop computer for ₹ 1,50,000 and hair dryer of ₹2,000 in a duty free shop in Nepal and brings the same to India. What is the duty payable?

- (i) If he returns on 3rd day by air
- (ii) If he returns on 3rd day by land route
- (iii) If he returns on 15th day by air
- (iv) If he returns on 15th day by land route

Answer :

(i) If he returns on 3rd day by air:

Value of Computer and hair dryer is taxable @36.05% One laptop is exempt from duty

General Free Allowance not allowed

Customs Duty = ₹ 18,746 (i.e. 52,000 x 36.05%)

(ii) If he returns on 3rd day by land route:

Value of Computer and hair dryer is taxable @36.05% One laptop is exempt from duty

General Free Allowance not allowed

Customs Duty = ₹ 18,746 (i.e. 52,000 x 36.05%)

(iii) If he returns on 15th day by air (i.e. after 3 days of stay):

Value of Computer and hair dryer is taxable @36.05% One laptop is exempt from duty

General Free Allowance ₹ 6,000 is allowed

Customs Duty = ₹ 16,583 [i.e. (52,000 – 6,000) x 36.05%]

(iv) If he returns on 15th day by land route:

Value of Computer and hair dryer is taxable @36.05% One laptop is exempt from duty

General Free Allowance not allowed

Customs Duty = ₹ 18,746 (i.e. 52,000 x 36.05%)

4.17.7 Import and Export through Courier – Postal Articles

As per sections 82 to 84 of the Customs Act, 1962, goods can be cleared by post. Any label or declaration accompanying the goods showing the description, quantity and value thereof, shall be treated as “an entry for import” under the Customs Act.

The rate of duty and tariff value applicable to goods imported by post shall be the rate and valuation in force on the date on which the postal authorities present to the proper officer a list containing the particulars of such goods for the purpose of assessment of duty.

The procedure for clearance:

- (i) Post parcels are allowed to pass from port/airport to Foreign Parcel Department of Government Post Offices without payment of customs duty.
- (ii) The Postmaster hands over to Principal Appraiser of Customs the memo showing Total number of parcels from each country of origin,
 - Parcel bills or senders 'declaration,
 - Customs declaration and dispatch notes, and
 - Other information that may be required.

The mail bags are opened and scrutinized by Postmaster under supervision of Principal Postal Appraiser of Customs.

- (iii) Packets suspected of containing dutiable goods are separated and presented to Customs Appraiser with letter mail bill and assessment memos.
- (iv) The Customs Appraiser marks the parcels which are required to be detained if— necessary particulars are not available, or misdeclaration or undervaluation is suspected or goods are prohibited for import.

Appraiser has the power to examine any parcel. After inspection, the parcels are sealed with a distinctive seal. Any misdeclaration or undervaluation is noted or goods are prohibited goods for imports these be detained and the same intimated to Commissioner of Customs.

If everything is in order after verification, goods will be handed over to Post Master, who will hand over the same to the addressee on receipt of customs duty.

4.17.8 Import through post

- i. Label/declaration on postal article is treated as 'Entry'. Separate Bill of Entry is not required.
- ii. Postal articles are sent to Foreign parcel Department of Post Office. The list is handed over to Principal Appraiser of Customs.
- iii. He will inspect mail. Packets suspected of dutiable articles will be opened and examined by him. He will assess the goods and then seal the parcel.

- iv. Goods will be handed by postmaster to addressee only on receipt of customs duty payable on the goods.
- v. Gifts upto ₹ 10,000 are free. Post parcel is exempt if customs duty is upto ₹ 100.

4.17.9 Import of Samples

In the International trade it is considered often necessary that samples of the goods manufactured in one country be sent to another country for being shown or demonstrated for Customer appreciation. There are duty free imports of genuine commercial samples into the country for smooth flow of trade.

The commercial samples are basically specimens of goods that may be imported by the traders or representatives of manufacturers. However, goods which are prohibited under Foreign Trade (Development and Regulation) Act, 1992 are not allowed to be imported as samples (i.e. wild animals, wild birds and parts of wild animals, arms and ammunitions and so on).

Samples can be imported by the traders, industry, individuals, research institutes and so on. These samples can also be brought by the persons as part of their personal baggage or through port or in courier.

4.18 DRAWBACK

4.18.1 Basic concept

In 'duty drawback', the excise duty and customs duty paid on inputs and service tax paid on input services is given back to the exporter of finished product by way of 'duty drawback'.

It may be noted that duty drawback under section 75 is granted when imported materials are used in the manufacture of goods which are then exported, while duty drawback under section 74 is applicable when imported goods are re-exported as it is, and article is easily identifiable.

Duty drawback rates are of following types - (a) All Industry Rate (b) Brand Rate and (c) Special Brand Rate. Duty drawback rates can be fixed with retrospective effect [rule 5(2) of Drawback Rules, 1995].

Comparison of the provision of section 74 and 75 is as follows:

Drawback allowable on re-export of duty paid goods – (Sec. 74)	Drawback on material used in the manufacture of exported goods (sec. 75)
(i) Drawback, in relation to any goods Exported out of India, means refund of duty paid on importation of such goods in terms of section 74. Thus, drawback is allowed only if import duties of customs.	"Drawback" in relation to any goods manufactured in India and exported, means the rebate of duty or fact, as the case may be, chargeable on any imported materials or excisable materials used or taxable services used as input services in the manufacture of such goods.
(ii) The identity of the goods exported should be established as the one, which was imported on payment of duty.	The goods exported under this section one different from the inputs as the inputs are manufactured, processed or any operations are carried on then before their export.
(iii) Drawback under this section is available on all goods (Identification is the only criterion)	Drawback under this section is available only on notified goods.
(iv) The exported goods should have been imported and customs duty by paid thereon.	The goods to be exported may be manufactured or processed from imported or indigenous inputs or by utilizing input services.

(v) The rate of drawback is 98% in case the goods are exported without use. The rate of drawback on goods taken into use is separately notified depending upon the period of use, depreciation in value and other relevant factors.	Rate per unit of final article to be exported is fixed by taking into account Mode of manufacture Input-output ratio Standardization of the products etc.
(vi) The goods should be exported within two years from the date of payment of duty or such extended time as the board may allow.	No such restrictions.
(vii) There is no criterion of minimum value addition, which is to be fulfilled before export for claim of drawback.	It has been specifically provided that there should not be negative value addition and in case where minimum value addition is specified the same should be achieved for claim of drawback.
(viii) No provision in this behalf	The sale-proceeds in respect of such goods on which the drawback has been allowed, have to be received by the exporter or by any person on his behalf with the period as specified in the FEMA, 1999. In absence of this, such drawback shall be deemed never to have been allowed and procedure for recovery or adjustment of the drawback amount will be initiated
(ix) The drawbacks is governed by the Re-export of imported goods	The drawback, in this case, is governed by the customs central excise duties and service tax drawback Rules, 1995. The rules cover customs duty, central excise duty and service tax.

4.18.2 Duty Drawback on Re-Export – Section 74 of Customs Act, 1962 provide for drawback if the goods are re-exported as such or after use. This may happen in case like import for exhibitions, goods rejected or wrong shipment etc. The re-exported goods should be identifiable as having been imported and should be re-exported within two years from date of payment of duty when they were imported. This period (of two years) can be extended by CBE&C on sufficient cause being shown. These should be declared and inspected by Customs Officer. Original shipping bill under which the goods were imported should be produced. The goods can be exported as cargo by air or sea, or as baggage or by post. After inspection, export and submission of application with full details, 98% of the customs duty paid while importing the goods is repaid as drawback. @98% of import duty is allowed as Duty Drawback if re-exported without use.

Duty draw back allowed based on period of usage:

Period	% of DDB on import duty
≤6M	85%
> 6 M ≤ 12 M	70%
> 12 M ≤ 18 M	60%
> 18 M ≤ 24 M	50%
>24M ≤ 30M	40%
>30M ≤ 36M	30%
>36M	NIL

Summary of duty drawback on re-export has been explained as follows

All Industry Drawback Rates – All Industry Drawback rates are fixed by Directorate of Drawback, Dept. of Revenue, Ministry of Finance, Govt. of India, Jeevan Deep, Parliament Street, New Delhi-110001. The rates are periodically revised-normally on 1st June every year. The All Industry Drawback Rate is fixed under rule 3 of Drawback Rules by considering average quantity and value of each class of inputs imported or manufactured in India.

Duty drawback rate shall not exceed 33% of market price of export goods (Rule 8A w.e.f. 15-2-2006).

Brand Rate of Duty Drawback – It is possible to fix All Industry Rate only for some standard products. It cannot be fixed for special type of products. In such cases, *brand rate* is fixed under rule 6. The manufacturer has to submit application with all details to Commissioner, Central Excise. Such application must be made within 60 days of export.

Upper limit of Drawback Rate – Duty drawback rate shall not exceed 33% of market price of export goods (Rule 8A w.e.f. 15-2-2006).

Special Brand Rate of duty drawback

All Industry rate is fixed on average basis. Thus, a particular manufacturer or exporter may find that the actual excise/customs duty paid on inputs or input services is higher than All Industry Rate fixed for his product. In such case, he can apply under rule 7 of Drawback Rules for fixation of Special Brand Rate, within 30 days from export.

The conditions of eligibility are (a) the All Industry Rate fixed should be less than 80% of the duties paid by him (b) rate should not be less than 1% of FOB value of product except when amount of drawback per shipment is more than ₹ 500 (c) export value is not less than the value of imported material used in them - i.e. there should not be 'negative value addition'.

Practical Problems Related to Customs Duty

Example 33: Calculate the amount of duty drawback allowable under section 74 of the Customs Act, 1962 in following cases:

- Salman imported a motor car for his personal use and paid ₹ 5,00,000 as import duty. The car is re-exported after 6 months and 20 days.
- Nisha imported wearing apparel and paid ₹ 50,000 as import duty. As she did not like the apparel, these are re-exported after 20 days.
- Super Tech Ltd. imported 10 computer systems paying customs duty of ₹ 50 lakh. Due to some technical problems, the computer systems were returned to foreign supplier after 2 months without using them at all.

Answer :

- The amount of duty drawback is ₹ 4,40,000 (i.e. ₹ 5,00,000 x 88%), since these goods used in India.
- Duty drawback is not allowed on wearing apparel.
- Duty drawback is ₹ 49,00,000 (i.e. ₹ 50,00,000 x 98%), since these goods are re-exported without being used.

Example 34: Computation of duty drawback: 'A' exported a consignment under drawback claim consisting of the following items—

Particulars	Chapter Heading	FOB value (₹)	Drawback rate
200 pieces of pressure stores mainly made of beans @₹ 80/piece	74.04	16,000	4% of FOB
200 Kgs. Brass utensils @₹ 200 per Kg.	74.13	40,000	₹ 24/Kg.
200 Kg. Artware of brass @₹ 300 per Kg.	74.22	60,000	17.50% of FOB subject to a maximum of ₹ 38 per Kg.

On examination in docks, weight of brass Artware was found to be 190 Kgs. and was recorded on shipping bill. Compute the drawback on each item and total drawback admissible to the party.

Answer:

The drawback on each item and total drawback admissible to the party shall be-

Particulars	FOB value (₹)	Drawback rate	Drawback Amount (₹)
200 pcs, pressure stoves made of brass	16,000	4% of FOB	640
200 Kgs. Brass utensils	40,000	₹ 24 per Kg.	4,800
200 kgs. Artware of brass, whose actual weight was 190 Kgs. only.	60,000	17.50% of FOB subject to maximum of ₹ 38 per Kg. (₹ 9,975 or ₹ 7,220 whichever is less)	7,220
Total Drawback admissible (in ₹)			12,660

Example 35: X Ltd has exported following goods Product P, FOB value worth ₹ 1,00,000 and the rate of duty drawback on such export of goods is 0.75%. FOB value of product 'Q' worth ₹ 10,000 and the rate of duty drawback on such export of goods is 1%. Will X Ltd be entitled to any duty drawback?

Answer:

Duty drawback on product P allowed is ₹ 750 (i.e. 1,00,000 x 0.75%), since amount is more than ₹ 500.

Duty drawback on product Q is allowed, because the amount of duty drawback ₹ 100 (which is more than ₹ 50).

Example 36: Y Ltd has been exported following goods to USA. Discuss whether any duty drawback is admissible under section 75 of the Customs Act, 1962.]

Product	FOB Value of Exported goods (₹)	Market Price of goods (₹)	Duty drawback rate
A	2,50,000	1,80,000	30% of FOB
B	1,00,000	50,000	0.75% of FOB
C	8,00,000	8,50,000	3.50% of FOB
D	2,000	2,100	1.50% of FOB

Note: Imported value of product C is ₹ 9,50,000.

Answer :

Duty draw back amount for all the products are as follows

Product A:

Drawback amount = 2,50,000 x 30% = ₹ 75,000 or ₹ 1,80,000 x 1/3 = ₹ 60,000

Allowable duty draw back does not exceed 1/3 of the market value.

Hence, the amount of duty drawback allowed is ₹ 60,000

Product B:

Drawback amount allowed is ₹ 750 (i.e. ₹ 1,00,000 x .0.75%). Since, the amount is more than ₹ 500 even though the rate is less than 1%.

Product C:

No duty drawback is allowed, since the value of export is less than the value of import (i.e. negative sale)

Product D

No duty drawback is allowed, since the duty drawback amount is ₹ 30 (which is less than ₹ 50). Though rate of duty drawback is more than 1%, no duty drawback is allowed.

4.19 OTHER PROVISIONS IN CUSTOMS

4.19.1 Person who had received any Show Cause Notice in Last Three Financial Years is Ineligible –

In order to ensure that scope of the scheme remains limited (and the scheme fails), it is provided that no case should be pending against them. Even show cause notice invoking penal provisions should not have been issued against them in last three financial years. Such importers can be probably counted on fingers. If this condition is insisted upon, the scheme is stillborn and will be a non-starter.

4.19.2 Application for Getting Accreditation

Importers desirous of availing the facility of 'Accredited Client' has to make application for registration in form given in MF (DR) circular No. 42/2005-Cus dated 24-11-2005. Application has to be accompanied by a CA certificate that the accounting system of applicant is as per accounting standards prescribed by ICAI.

4.19.3 Decision regarding ACP status within 30 days

In case of status holders, Customs will communicate decision on conferring ACP status (Accredited Client under Risk Management System of customs clearance, within 30 days from receipt of application by customs.

4.19.4 Risk Management Division in Systems Directorate

A risk management division has been created in Systems Directorate. Risk Management Committees will be constituted at National level and Local level –MF(DR) circular No. 23/2007-Cus dated 28-6-2007.

4.20 PROJECT IMPORTS

4.20.1 Basic Concept

Project imports status is being granted to the green houses set up for protected cultivation of horticulture and floriculture product. As such, these projects would attract concessional rate of basic customs duty of 5%.

4.20.2 Salient Features of Project Imports

- (i) 'Project Imports' is an Indian innovation to facilitate setting up of and expansion of industrial projects. Normally, imported goods are classified separately under different tariff headings and assessed to applicable Customs duty, but as a variety of goods are imported for setting up an industrial project their separate classification and valuation for assessment to duty becomes cumbersome. Further, the suppliers of a contracted project, do not value each and every item or parts of machinery which are supplied in stages. Hence, ascertaining values for different items delays assessment leading to demurrage and time and cost overruns for the project. Therefore, to facilitate smooth and quick assessment by a simplified process of classification and valuation, the goods imported under Project Import Scheme are placed under a single Tariff Heading 9801 in the Customs Tariff Act, 1975. The Central Government has formulated the Project Import Regulation, 1986 prescribing the procedure for effecting imports under this scheme.
- (ii) The Project Import Scheme seeks to achieve the objective of simplifying the assessment in respect of import of capital goods and related items required for setting up of a project by classifying all goods under heading 9801 of the Customs Tariff Act, 1975 and prescribing a uniform Customs duty rate for them even though other headings may cover these goods more specifically.
- (iii) The different projects to which heading 9801 applies are; irrigation project, power project, mining project, oil/mineral exploration projects, etc. Such an assessment is also available for an industrial plant used in the process of manufacture of a commodity. The Central Government can also notify projects in public interest keeping in view the economic development of the country to which this facility will apply. Thus, a number of notifications have been issued notifying a large number of projects for assessment under Tariff Heading 9801. However, this benefit is not available to hotels, hospitals, photographic studios. Photographic film processing laboratories, photocopying studio, laundries, garages and workshops. This benefit is also not available to a single or composite machine.
- (iv) Goods that can be imported under Project Import Scheme are machinery, prime movers, instruments, apparatus, appliances, control gear, transmission equipment, auxiliary equipment, equipment required for research and development purposes, equipment for testing and quality control, components, raw materials for the manufacture of these items, etc. In addition, raw material, spare parts, semi-finished material, consumables up to 10% of the assessable value or goods can also be imported.

- (v) The purposes for which such goods can be imported under the Project Import Scheme are for 'Initial setting up' or for 'Substantial expansion' of a unit of the project. The 'unit' is any self contained portion of the project having an independent function in the project. A project would fall under the category of 'substantial expansion' if the installed capacity of the unit is increased by not less than 25%, as per the Project Import Regulations.

4.20.3 Registration of Contracts

- (i) In terms of Regulation 4 of the Project Import Regulations, 1986 (PIR) the basic requirement for availing the benefit of assessment under Tariff Heading No. 98.01 is that the importer should have entered into one or more contracts with the suppliers of the goods for setting up a project. Such contracts should be registered prior to clearance in the Customs House through which the goods are expected to be Imported. The importer shall apply for such registration in writing to the proper officer of Customs.
- (ii) Regulation 5 provides in the manner of registering contracts as follows:-
- (a) Before any order is made by the proper officer of customs permitting the clearance of the goods for home consumption;
- (b) In the case of goods cleared for home consumption without payment of duty subject to re-export in respect of fairs, exhibitions, demonstrations, seminars, congress and conferences, duly sponsored or approved by the Government of India or Trade Fair Authority of India, as the case may be, before the date of payment of duty.
- (iii) To expedite registration, the importers are advised to submit the following documents along with the application for registration:-
- (a) Original deed of contract together with true copy thereof.
- (b) Industrial License and letter of intent, SSI Certificate granted by the appropriate authority with a copy thereof.
- (c) Original Import license, if any, with a list of items showing the dimensions, specifications, quantity, quality, value of each item duly attested by the Licensing Authority and a copy thereof.
- (d) Recommendatory letter for duty concession from the concerned Sponsoring Authority, showing the description, quantity, specification, quality, dimension of each item and indicating whether the recommendatory letter is for initial set up or substantial expansion, giving the installed capacity and proposed addition thereto.
- (e) Continuity Bond with Cash Security Deposit equivalent to the 2% of CIF value of contract sought to be registered subject to the maximum of ₹ 50,00,000/- and the balance amount by Bank Guarantee backed by an undertaking to renew the same till the finalisation of the contract. The said continuity bond should be made out for an amount equal to the CIF value of the contract sought to be registered.
- (f) Process flow chart, plant layout, drawings showing the arrangement of imported machines along with an attested copy of the Project Report submitted to the Sponsoring authorities, Financial Institution, etc.
- (g) Write up, drawings, catalogues and literature of the items under import.
- (h) Two attested copies of foreign collaboration agreement, technical agreement, know-how, basic/detailed engineering agreement, equipment supply agreement, service agreement, or any other agreement with foreign collaborators/suppliers/persons including the details of payment actually made or to be made.
- (i) Such other particulars, as may be considered necessary by proper officer for the purpose of assessment under Heading No. 9801.

- (iv) After satisfying that goods are eligible for project imports benefit and importer has submitted all the required documents, the contract is registered by the Custom House and as a token of registration the provisional duty bond is accepted by the Assistant/ Deputy Commissioner of Customs, Project Import Group. The details of the contracts are entered in the register kept for the purpose and a Project Contract Registration Number is assigned and communicated to the importer. The importer is required to refer to this number in all subsequent correspondence.

4.20.4 Clearance of Goods after Registrations

On every Bill of Entry filed for clearance of goods under the Project Import Scheme, the importer/CHA is required to indicate the Project Contract Registration Number allotted to it. After noting, the Bill of Entry is sent to the Project import Group, which is required to check the description, value and quantity of the goods imported vis-a-vis the description, value and quantity registered. In case these particulars are found in order, the Bill of Entry is assessed provisionally and handed over to the importer or his agent for payment of duty. The Project Import Group keeps a note of the description of the goods and their value in the Project Contract Register and in the file maintained in the Group for each project.

4.20.5 Finalisation of Contract

- (i) Under Regulation 7 of the PIR, 1986 the importer is required to submit, within three months from the date of clearance of the last consignment or within such extended time as the proper officer may allow, the following documents for the purpose of finalisation of the assessment:-
 - (a) A reconciliation statement i.e. a statement showing the description, quantity and value of goods imported along with a certificate from a registered Chartered Engineer certifying the installation of each of the imported items of machinery;
 - (b) Copies of the Bills of Entry, invoices, and final payment certificate. The final payment certificate is insisted upon only in cases where the contract provides that the amount of the transaction will be finally settled after completion of the supplies.
- (ii) To ensure that the imported goods have actually been used for the projects for which these were imported, plant site verification may be done in cases where value of the project contract exceeds ₹ 1 crore. In other cases plant site verification is normally done selectively.
- (iii) In the normal course, after submission of the reconciliation statement and other documents by the importers, the provisional assessments are finalized within a period of three months where plant site verification is not required and within six months where plant site verification is required. In cases where a demand has been issued and confirmed on such finalization and importer has not paid the duty demanded, steps are taken as per law to realise the amount.

Benefit available in the absence of Restrictions of Registration before Warehousing:

Registration of contracts before an order is made permitting clearance for home consumption or before the deposit in warehouse to avail benefit of concessional rate of duty. Goods imported were warehoused awaiting registration cleared for home consumption only after registration. Restrictions of registration before warehousing being absent in present Regulations benefit is available. Regulations 4 and 5 of Project Import Regulations, 1986. [Para's 2, 3, 4]-Bharat Earth Movers Limited u. Commissioner of Customs, Mysore 2006 (201) ELT 60 (Tri.-Bang)

Project Imports benefit not to be denied merely because goods cleared before Registration of contract. Project Imports benefit available to expansion of computer software plant.-Collector v. DPS India (P) Ltd. 1997 (92) ELT A130 (SC)

No Replacement Imports form part of the Original Import:

Contract covering all the imports registered, all the formalities under the Project Imports Regulations fulfilled - Appellants submitted certain reasons for not getting free replacements from original supplier - Secretary to Government of Kerala, sponsoring authority of the project, issued the essentiality certificate for the replacements stating that items imported are entitled for concessional duty under Project Import

Regulations- Lower authorities' reasoning that since replacements are not free, therefore, project import benefit cannot be given has no legal basis - Damaged parts having been exported and no indication that Project Import Regulations have been misused by appellants - Appellants entitled for benefit of project import - Regulations 4, 5, 6 of Project Import Regulations, 1986. [Para 7]-'--BSES Kerala Power Limited v. Commissioner of Customs, Cochin 2006 (196) ELT 246 (Tri.-Bang)

Import of spares be considered under Project Imports:

Original assessment claimed on merits under respective headings - Assessee entitled to claim assessment as project import under Heading 98.01 of Customs Tariff when assessment is reopened- Import of spares to be considered under Project Imports.-Tata Hydro Electric Power Supply Co. Ltd. v. C.C., Mumbai 1999 (114) ELT 171 (Tri.-Bom)

Exemption from Customs duty under other notifications not deniable to Project Imports:

Exemption from Customs duty under other notifications is not deniable to Project Imports - Horological machinery imported without specifying the Tariff Heading but treated as Project Import under Chapter 98 - Notification dated 28-2-1985, exempts Horological machinery from duty in excess of 10% without specifying the Tariff Heading - HELD: Horological machines eligible to the benefit of notification dated 28-2-1985 even if cleared under Heading 98.01 of Customs Tariff since project import notification clearly specifies that exemption under other notifications will not be effected by it and moreover the exemption notification, dated 28-2-1985 did not specify the Heading for the goods exempted under it. -Abrol Watches Put. Ltd. u. Collector of Customs, Bombay 1997 (092) ELT 311 (SC)

No industrial license is necessary from the DGTD before the benefit of Heading 84.66 could be given to an importer:

There is nothing in the Project Imports (Registration of Contract) Regulations, 1965 [sub-regulations 3(a) and 3(c)] to indicate that there must be an industrial license necessarily from the DGTD before the benefit of Heading 84.66 could be given to an importer.-Collector of Customs u. Kodagu Coffee Growers Co-Op. Society Ltd. 1992 (61) ELT 300 (Tri.-Del)- This case was Approved in 1997 (94) ELT 476 (SC)

Project Import Regulations cannot be held as excessive delegated legislation to declare them invalid.

Project Imports Regulations, 1986 defined "industrial plant" so as to exclude service establishments like photographic studios from project import benefit. Note (2) to Chapter 98 of Customs Tariff Act, 1975 does not amount to excessive delegation - Section 157 of Customs Act, 1962. "We are, therefore, of the considered opinion that Chapter Note (2) cannot be faulted as an instance of excessive delegation of essential legislative function nor can the Project Imports Regulations be faulted on the ground of travelling beyond the purview of the statute." [1967 (3) S.C.R. 557, 1979 (1) SCR 845 and 1981 (2) SCR 742 followed].

Project Imports Regulations, 1986 are relatable not only to Section 157 of Customs Act, 1962 but also to express power conferred by Note (2) to Chapter 98 of Customs Tariff Act, 1975. Any alleged practice to the contrary is irrelevant. - Subhash Photographics v. Union of India 1993 (66) ELT 3 (SC)

Captive power plant a part of Project Imports

Zuari Industries Ltd v. CCE & C 2007-T/OL-55-SC-CUS (Dated: March 29, 2007)

Captive power plant - Part of project imports eligible for exemption - Heading 98.01 is a specific entry - Once an essentiality certificate was issued by the sponsoring authority, it was mandatory for the Revenue to register the contract.

4.21 OFFENCES, POWER AND PENALTIES UNDER CUSTOMS

4.21.1 Offences under Customs

The term Offence means a violation or breach of a law, like evasion of duty and breaking prohibitions under the Customs Act, 1962. However, offence not defined under Customs Act, 1962. Thereby, 'Offence' as any act or omission made punishable by any law for the time being in force.

There are basically two types of punishments namely civil penalty and criminal penalty. Civil penalty for violation of statutory provisions involving a penalty and confiscation of goods and can be exercised by the Department of Customs. Criminal punishment is of imprisonment and fine, which can be granted only in a criminal court after prosecution.

4.21.2 Evasion of duty or prohibition under section 135(1) of the Customs Act, 1962

If a person has nexus with misdeclaration of value or evasion of duty or handling in any manner goods liable for confiscation under section 111 (i.e. Confiscation of improperly imported goods) or section 113 (i.e. Export goods liable for confiscation), he shall be punishable in the following manner:

4.21.3 Imprisonment upto SEVEN years and FINE for the following four kinds of offences

- i. Market value of offending goods exceeds ₹ 1 Crore
- ii. Value of evasion of duty exceeds ₹ 30 lakhs
- iii. Offence pertains to prohibited goods notified by Central Government of India
- iv. Value of fraudulent availment of drawback/exemption exceeds ₹ 30 lakhs

For all other kind of offences imprisonment is upto THREE years or fine or both.

For repeat conviction, the imprisonment can be SEVEN years and FINE and in absences of special and adequate reasons, the punishment shall not be less than ONE year.

4.21.4 Cognizable and Non-cognizable Offence

Cognizable offence means an offence for which a police officer may arrest without warrant (i.e. without the order of a Magistrate). Non-cognizable offence means offences under Customs where a police officer cannot investigate cases without the order of a Magistrate.

Cognizance of Offences

As per Section 137(1) of the Customs Act, 1962, Court cannot take cognizance of offences under the Customs Act, 1962 in the following cases without previous sanction of the Commissioner of Customs:

- i. False declaration or documents (Section 132)
- ii. Obstruction (i.e. stop the progress) of Officers of Customs (Section 133)
- iii. Refusal to be X-rayed (Section 134)
- iv. Evasion of duty or prohibitions (Section 135)
- v. Preparation to do clandestine export (i.e. improper export) (Section 135A)

As per Section 137(2) of the Customs Act, 1962, for taking cognizance of an offence committed by a Customs officer under section 136 the Court needs previous sanction of the Central Government in respect of officers of the rank of Assistant or Deputy Commissioner and above and previous sanction of the Commissioner of Customs in respect of officers lower in rank than Assistant or Deputy Commissioner.

4.21.5 Section 136 of the Customs Act deals with offences by Officers of Customs:

- i. An officer of customs facilitated to do fraudulent export.

- ii. Search of persons without reason to believe in the secreting of goods on them.
- iii. Arrest of person without reason to believe that they are guilty.
- iv. These are called *vexatious actions* of department officers.

4.21.6 Power

Section 100

- i. Power to search suspected persons entering or leaving India.
- ii. Search of person for any goods liable for confiscation by the proper officer in and around customs area.
- iii. Burden of proof on department (section – 123).

Section 101

- i. Power to search suspected person in certain other cases.
- ii. Search is conducted by the officer of customs empowered by the commissioner.
- iii. Search of person for notified goods which are liable for confiscation order by commissioner anywhere in India.
- iv. Burden of proof, that goods not smuggled, or importer.

Section 105

- i. Power to search premises.
- ii. Search of place for goods liable for confiscation & documents useful for any proceeding under the Act.
- iii. If notified goods, burden of proof that goods are not smuggled on importer.

Section 106

- i. Power to stop and search conveyance.
- ii. Stop and search conveyance for any smuggled goods.
- iii. Refer section 115.

Section 110

- i. Seizure of goods, documents & things.
- ii. Seizure of goods & documents are liable to confiscation.
- iii. Notice must be made by proper officer for confiscation of goods within 6 months.

Section 100, 101 & 105

- i. For prohibited goods may give option to redemption fine (Except arms, RDX etc).
- ii. For other goods must give an option.
- iii. In both the above case, goods are smuggled goods.

4.21.7 Penalties under Custom Act

- i. Smuggling in relation to goods is an act or omission which will make the goods liable to confiscation.
- ii. Penalty can be imposed for improper import as well as attempt to improperly export goods. 'Improper' means without the knowledge of the customs officers.
- iii. Monetary penalty upto value of goods or ₹ 5,000 whichever is higher can be imposed.
- iv. Goods can be confiscated. Permission can be granted for re-export of offending goods.

- v. In case of goods covered under section 123 of Customs Act, burden of proof that the goods are not smuggled goods is on the accused.

Following monetary penalties prescribed under section 112 of the customs Act, with regard to improper importation:

Imported Goods (A)	Value in (₹) (B)	Minimum Penalty in (₹) (C)	Minimum Penalty in (₹) (B) or (C)
Prohibited Goods	Value of prohibited goods	₹ 5,000	Whichever is higher
Dutiable goods (Other than prohibited goods)	Duty sought to be evaded	₹ 5,000	Whichever is higher
Misdeclaration of value	Value declared - Actual value = ₹ XXXX	₹ 5,000	Whichever is higher
Prohibited goods plus misdeclaration value	Value of prohibited goods or Value declared – Actual value whichever is higher	₹ 5,000	Whichever is higher
Dutiable goods plus misdeclaration of value	Duty sought to be evaded or Value declared – Actual value whichever is higher	₹ 5,000	Whichever is higher

4.21.8 Export Goods Liable for Confiscation (Section 113)

These are goods attempted to be improperly exported under clause of section 113.

- (a) Goods attempted to be exported by Sea or Air from place other than customs port or customs airport.
- (b) Goods attempted to be exported by land or inland water through unspecified route.
- (c) Goods brought near land frontier or coast of India or near any bay, gulf, creek or tidal river for exporting from place other than customs port or customs station.
- (d) Goods attempted to be exported contrary to prohibition under custom Act or any other law
- (e) Goods concealed in any conveyance brought within limits of customs area for exportation.
- (f) Goods loaded or attempted to be loaded for eventual export out of India, without permission of proper officer, in contravention of section 33 and 34 of the customs Act, 1962.
- (g) Goods stored at un-approved place or loaded without supervision of customs officer.
- (h) Goods not mentioned or found excess of those mentioned in shipping Bill or declaration in respect of baggage –
 - (i) Any goods entered for exportation not corresponding in respect of value or any other particulars in shipping Bill or declaration of contents of baggage
 - (ii) Goods entered for Export under claim for duty drawback which do not correspond in any material particular with any information provided for fixation of duty drawback.
- (i) Goods imported without duty but being re-exported under claim for duty drawback.
- (j) Goods cleared for exportation which are not loaded on account of willful act, negligence or default, or goods unloaded after loading for exportation, without permission.
- (k) Provision in respect of 'specified goods' are contravened.

SECTION - B

4.22 ANTI-DUMPING DUTY - AN OVERVIEW

Trade Protection Measures under WTO

Under the WTO regime, international trade has been liberalized allowing free movement of goods and services between member countries by eliminating tariff and non-tariff barriers to a large extent. The liberalization has further being extended in cross-border transactions at regional levels by entering into various regional preferential trade agreements.

With the present low rate of import duty, a small deviation from fair trade practice on the part of the exporter or subsidy offered by exporting country will make it difficult for domestic industries to compete with imported products which are like products to the products manufactured by domestic industry.

The WTO agreements as an exceptional measure, depending upon the situation permit product specific imposition of Anti-dumping duty, safeguards duty and countervailing duty as the case may be for the protection of domestic industry from the injury caused by imported goods.

These three duties are exceptional in nature and are imposed on three different mutually exclusive conditions.

Basis of distinction	Anti-Dumping Duty	Countervailing Duty	Safeguard Duty
Applicability	Export Price < Price normally charged in domestic/home market	Exporting Government is giving subsidy to exporter in that foreign land for the purpose of exporting	In a situation, when there is a sudden and sharp increase in imports as a result of unforeseen developments causing injury to domestic industry
Act of conflict that leads to imposition	Alleged foul play on the part of the exporter	An alleged foul play on the part of the exporting country	Imposed purely for the protection of domestic industry on a no fault principle where domestic industry is temporarily unable to compete with imported products on account of these unforeseen developments.
	Product-specific and exporter specific duty	Product-specific duty imposed against imports coming from all sources irrespective of the exporter and country of origin	
Tenure of applicability	It can continue as long as dumping continues	It can also continue forever as long as subsidy continues	It can continue only for a temporary period not exceeding 10 years.

4.22.1 Anti-Dumping

Dumping means export of goods by exporters of one country/territory to the market of another country/territory at a price lower than the price prevailing in the country of export and the difference in such price is called margin of dumping. This is an unfair trade practice which can have a distortive effect on international trade and needs to be condemned under WTO law.

Anti-dumping is a measure to rectify the trade distortive effect of dumping and re-establish fair trade, which is achieved by imposition of a duty on dumped imports, not exceeding the margin of dumping.

4.22.2 The Salient Features

- i. It is an instrument for ensuring fair trade and is not a measure of protection per se for the domestic industry
- ii. It provides relief to the domestic industry against the injury caused by dumping and gives domestic industry a level playing field.
- iii. The duty is imposed as a deterrent effect to discourage dumped imports, so that users can buy material from domestic industry from whom they were not buying earlier on account of availability of cheap dumped imports.
- iv. The idea is to levy and collect extra tax, rather to take the landed value of imports to a level where domestic industry can fairly compete with imports and sell the product in the domestic market.

4.22.3 Application of Anti-Dumping

- i. The Anti-dumping duty is levied and collected as a duty of Customs and charged over and above the National Customs Duty chargeable on the import of the item.
- ii. Anti-dumping duty is not creditable
- iii. It will be charged as an extra cost on dumped imports.

4.22.4 Authority for Anti-dumping Action against Unfair Trade Practices

- i. Anti-dumping measure in India are administered by the Directorate General of Anti-dumping and Allied Duties (DGAD) functioning in the Department of Commerce, Ministry of Commerce and Industry, which is headed by the "Designated Authority".
- ii. The Designated Authority's function is to conduct the Anti-dumping investigation and make recommendation to the Government for imposition of Anti-dumping duty.
- iii. Such duty is finally imposed/levied by a Notification of the Ministry of Finance.

4.22.5 Termination of Investigation under Anti-Dumping

The Designated Authority may suspend or terminate the investigation under Anti-dumping in the following cases:

- (1) If there is a request in writing from the domestic industry at whose instance the investigation was initiated
- (2) When there is no sufficient evidence of dumping or injury
- (3) If the margin of dumping is less than 2% of the export price
- (4) The volume of dumped imports from a country is less than 3% of the total imports of the like article imported into India, unless the volume of dumped imports collectively from all such countries who individually account for less than 3%, is not more than 7% of total imports
- (5) If injury is negligible.

4.22.6 Terminologies Used

1. **Designated Authority:** It is the authority appointed by the Government of India to investigate the existence, degree and effect of any alleged dumping in relation to any import of any article.
2. **Period of Investigation (POI):** It refers to the specific period, during which there is an action and application of dumping, injury and there exists a casual link between such dumping and injury. It is a period of not less than six months and not more than eighteen months.

3. **Interested Party:** A party/exporter, which is going to be affected if duties are imposed after investigation and those who has an interest in the investigation, is called interested party. Basically, they are the stakeholders.
4. **The Product under Consideration (PUC) or Article under Investigation:** It refers to that imported product which is alleged to have been imported at dumped price and on which Anti-dumping duty is proposed to be levied.
5. **Like Product:** It is a product, which is identical, i.e. alike in all respects with reference to the 'product under consideration' or in the absence of such a product, another product which, although not alike in all respects, has characteristics closely resembling those of the 'product under consideration'.
6. **Domestic Industry:** It refers to the domestic producers as a whole of the like products or those producers whose collective output of the like products constitutes a major proportion of the total domestic production of like products.
7. **Normal Value:** It is the price of the product under consideration, in the ordinary course of trade, when destined for consumption in the exporting country market. Example: Product A is being imported from Country Z. The import price is ₹100 (without any element of duty, freight, insurance, etc) while the price of this product if sold in Country Z is ₹60. So, the normal value of the goods is ₹60, i.e. the price at which it would have been sold in the exporting country.
8. **Export Price:** The export price is the transaction price/value at which the foreign producer sells the product to an importer in the importing country. As per the example given in earlier paragraph, the export Price is ₹100.
9. **Dumping Margin/ Margin of Dumping (DM):** In reference to an article, it means the difference between the normal value and its export price. Example: if the normal value is ₹60 and the export price is ₹100. The Margin of Dumping = Export Price (-) Normal Value = ₹ (100 – 60) = ₹40.
10. **Non-market Economies (NME):** The economies, where the government has a complete or substantial monopoly of its trade or government has a significant role in fixation of domestic prices of inputs and finished goods, are called non-market economies.
11. **Non Injurious Price (NIP):** It is the sale price which is constructed (i.e. arrived at/ ascertained) for the domestic industry, which will give a reasonable return on investment and if Domestic Industry is able to sale its product at that price it will claim no injury.
12. **Landed value of imports:** This refers to cost of the goods imported including all the expenses incurred during the course of importation upto the port including non-creditable duties of customs.
13. **Injury Margin (IM):** This represents the difference between Non Injurious Price (NIP) and Landed Value of Imports.
14. **Price Undercutting (by imports):** Sale value of domestic industry at factory gate (net of taxes) [-] landed value of imports.

Example 37: Sale value of domestic industry at factory gate ₹120 (net of taxes). Landed Value of imports ₹90. Hence, Price under cutting = ₹120 (-) ₹90 = ₹30. This is positive undercutting. It creates pressure on domestic industry from imports, as the imported goods are sold at ₹90, which is less than the price charged by domestic industry.

On the contrary, if the Sale value of domestic industry at factory gate (net of taxes) is ₹100 and the Landed value of imports ₹115, then, Price under cutting = ₹100 (-) ₹115 = ₹(15). This is negative undercutting. The domestic industry is in a comfortable position, as the price of imports is more than the price charged by the domestic industry.

15. **Price Underselling (by exporters):** Non Injurious Price (NIP) of Domestic Industry (-) Landed Value of Imports.

Example 38: Let NIP ₹150, Landed value of imports ₹120. Then, the price underselling by exporters = ₹150 – ₹120 = ₹30.

A positive price underselling shows the inability of the domestic industry to sell its product at a price which is non-injurious to it on account of pressure from imports coming into the country

On the contrary, if the NIP is ₹120 and the Landed value of imports ₹140, then the price underselling by exporters = ₹120 (-) ₹140 = ₹(20). This negative price underselling represents a comfortable position for the domestic industry, as the price of its products is lower than imported goods.

- 16. Provisional Duty:** It is the duty which is levied/ imposed by the Central Government by a notification based on preliminary findings of Designated Authority, in a case, where a full-fledged investigation is pending.
- 17. Final Duty:** It is the duty of Anti-dumping imposed by Central Government by a notification after completion of investigation.
- 18. Circumvention of Duty:** When Anti-dumping Duty imposed on a product is being bypassed by exporters or importers by some malpractices like changing the description of product or by import of the product in an unassembled or disassembled form or by changing the country of origin of the product, it is construed that there is a circumvention of duty. In simple words, this is an act of evasion of duty by unfair trade practices.
- 19. De-minimis margin of dumping:** Any exporter whose margin of dumping is less than 2% of the export price shall be excluded from the purview of anti-dumping duties. Example: Landed Value of Imports ₹100. Sale Price of like products in domestic market ₹ 101.50. Now, there is a margin of dumping to the extent of ₹ 1.50 (= ₹ 101.50 – ₹ 100). Since the margin of dumping ₹ 1.50 as a percentage on Landed value of imports (₹ 100) is measured to be 1.5%, hence the rule of de-minimis margin of dumping is applicable, and as the tolerance/deviation is less than 2%. Hence, this is not a case to be reviewed under Anti-dumping laws in India.
- 20. De-minimus imports:** If the volume of dumped imports, actual or potential, from a particular country accounts for less than 3% of the total imports of the like products, then investigation under Anti-dumping laws should be suspended. However, in such a case, the cumulative imports of the like product from all these countries who individually account for less than 3% should not exceed 7% of the import of the like product.

4.22.7 Principles Governing the Determination of Normal Value, Export Price and Margin of Dumping

The designated authority while determining the normal value, export price and margin of dumping shall take into account inter alia, the following principles-

- (1) The elements of costs referred to in the context of determination of normal value shall normally be determined on the basis of records kept by the exporter or producer under investigation, provided such records are in accordance with the generally accepted accounting principles of the exporting country, and such records reasonably reflect the cost associated with production and sale of the article under consideration.
- (2) Sales of the like product in the domestic market of The exporting country, or sales to a third country at prices below per unit(fixed and variable) costs of production plus administrative, selling and general costs may be treated as not being in the ordinary course of trade by reason of price. The designated authority may disregard these sales, in determining normal value provided it has determined that:
 - (i) such sales are made within a reasonable period of time (not less than six months) in substantial quantities, i.e. when the weighted average selling price of the article is below the weighted average per unit costs or when the volume of the sales below per unit costs represents not less than twenty per cent of the volume sold in transactions under consideration, and

- (ii) such sales are at prices which do not provided for the recovery of all costs within a reasonable period of time.
- (3) The said prices will be considered to provide for recovery of costs within a reasonable period of time if they are above weighted average per unit costs for the period of investigation, even though they might have been below per unit costs at the time of sale.
 - (i) The said authority in the course of investigation shall consider all available evidence on the proper allocation of costs, including that which is made available by the exporter or producer provided that such allocation has been historically utilized by the exporter or producer, in relation to establishing appropriate amortization and depreciation periods and allowances for capital expenditure and other development costs.
 - (ii) unless already reflected in allocation of costs referred to in clause(1) and sub-clause(i) above, the designated authority, will also make appropriate adjustments for those non-recurring items of cost which benefits further and/or current production, or for circumstances in which costs during the period of investigation are affected by start-up operation.
- (4) The amounts for administrative, selling and general costs and for profits as referred to in sub-section(1) of section 9A of the Act, shall be based on actual data pertaining to production and sales in the ordinary course of trade, of the like article by the exporter or producer under investigation. When such amounts cannot be determined on this basis, the amounts may be determined on the basis of:
 - (i) the actual amount incurred and realise by the exporter or producer in question, in respect of production and sales in the domestic market of the country of origin of the same general category of article;
 - (ii) the weighted average of the actual amounts incurred and realized by other exporters or producers subject to investigation in respect of production and sales of the like article in the domestic market of the country of origin; or
 - (iii) any other reasonable method, provided that the amount for profit so established shall not exceed the profit normally realized by the exporters or producers on sales of products of the same general category in the domestic market of the country of origin.
- (5) The designated authority, while arriving at a Constructed export price, shall give due allowance for costs including duties and taxes, incurred between importation and resale and for profits.
- (6)
 - (i) While arriving at margin of dumping the designated authority shall make a fair comparison between the export price and the normal value. The comparison shall be made at the same level of trade, normally at the ex- factory level, and in respect of sales made at as nearly as possible the same time. Due allowance shall be made in each case, on its merits, for differences which affect price comparability, including differences in conditions and terms of sale, taxation, levels of trade, quantities, physical characteristics, and any other differences which are demonstrated to affect price comparability.
 - (ii) In the cases where export price is a constructed price, the comparison shall be made only after establishing the normal value at equivalent level of trade.
 - (iii) When the comparison under this para requires a conversion of currencies, such conversion should be made by using the rate of exchange on the date of sale, provided that when a sale on foreign currency on forward markets is directly linked to the export sale involved the rate of exchange in the forward sale shall be used. Fluctuations in exchange rates shall be ignored and in an investigation the exporters shall be given at least sixty days to have adjusted their export prices to reflect sustained movements in exchange rates during the period of investigation.
 - (iv) Subject to the provisions governing comparison in this paragraph, the existence of margin of dumping during the investigation phase shall normally be established on the basis of a

comparison of a weighted average normal value and export prices on a transaction-to-transaction basis. A normal value established on a weighted average basis may be compared to prices of individual export transactions if it is found that a pattern of export prices which differ significantly among different purchasers, regions or time period and if an explanation is provided as to why such differences cannot be taken into account appropriately by the use of a weighted average-to-weighted average or transaction-to-transaction comparison.

- (7) In case of imports from non-market economy countries, normal value shall be determined on the basis of the price or constructed value in a market economy third country, or the price from such a third country to other countries, including India, or where it is not possible, on any other reasonable basis, including the price actually paid or payable in India for the like product, duly adjusted if necessary, to include a reasonable profit margin. An appropriate market economy third country shall be selected by the designated authority in a reasonable manner and due account shall be taken of any reliable information made available at the time of the selection. Account shall also be taken within time limits; where appropriate, of the investigation if any made in similar matter in respect of any other market economy third country. The parties to the investigation shall be informed without unreasonable delay the aforesaid selection of the market economy third country and shall be given a reasonable period of time to offer their comments.

4.22.8 Principles governing investigations

- (1) The designated authority shall, after it has decided to initiate investigation to determine the existence, degree and effect of any alleged dumping of any article, issue a public notice notifying its decision and such public notice shall, inter alia, contain adequate information on the following :-
 - (i) the name of the exporting country or countries and the article involved;
 - (ii) the date of initiation of the investigation;
 - (iii) the basis on which dumping is alleged in the application;
 - (iv) a summary of the factors on which the allegation of injury is based;
 - (v) the address to which representations by interested parties should be directed; and
 - (vi) the time-limits allowed to interested parties for making their views known.
- (2) A copy of the public notice shall be forwarded by the designated authority to the known exporters of the article alleged to have been dumped, the Governments of the exporting countries concerned and other interested parties.
- (3) The designated authority shall also provide a copy of the application referred to in sub-rule (1) of Rule 5 to -
 - (i) the known exporters or to the concerned trade association where the number of exporters is large, and
 - (ii) the governments of the exporting countries : Provided that the designated authority shall also make available a copy of the application to any other interested party who makes a request therefore in writing.
- (4) The designated authority may issue a notice calling for any information, in such form as may be specified by it, from the exporters, foreign producers and other interested parties and such information shall be furnished by such persons in writing within thirty days from the date of receipt of the notice or within such extended period as the designated authority may allow on sufficient cause being shown.

Explanation:

For the purpose of this sub-rule, the notice calling for information and other documents shall be deemed to have been received one week from the date on which it was sent by the designated authority or transmitted to the appropriate diplomatic representative of the exporting country.

- (5) The designated authority shall also provide opportunity to the industrial users of the article under investigation, and to representative consumer organizations in cases where the article is commonly sold at the retail level, to furnish information which is relevant to the investigation regarding dumping, injury where applicable, and causality.
- (6) The designated authority may allow an interested party or its representative to present the information relevant to the investigation orally but such oral information shall be taken into consideration by the designated authority only when it is subsequently reproduced in writing.
- (7) The designated authority shall make available the evidence presented to it by one interested party to the other interested parties, participating in the investigation.
- (8) In a case where an interested party refuses access to, or otherwise does not provide necessary information within a reasonable period, or significantly impedes the investigation, the designated authority may record its findings on the basis of the facts available to it and make such recommendations to the Central Government as it deems fit under such circumstances.

4.22.9 Principles for determination of non-injurious price [Rule 17(1)]

- (1) The designated authority is required under sub-rule (1) of rule 17 to recommend the amount of anti-dumping duty which, if levied, would remove the injury where applicable to the domestic industry.
- (2) For the purpose of making recommendation under clause (1), the designated authority shall determine the fair selling (notional) price or non-injurious price of the like domestic product taking into account the principles specified herein under.
- (3) The non-injurious price is required to be determined by considering the information or data relating to cost of production for the period of investigation in respect of the producers constituting domestic industry. Detailed analysis or examination and reconciliation of the financial and cost records maintained by the constituents of the domestic industry are to be carried out for this purpose.
- (4) The following elements of cost of production are required to be examined for working out the noninjurious price, namely: —
 - (i) The best utilisation of raw materials by the constituents of domestic industry, over the past three years period and the period of investigation, and at period of investigation rates may be considered to nullify injury, if any, caused to the domestic industry by inefficient utilisation of raw materials.
 - (ii) The best utilisation of utilities by the constituents of domestic industry, over the past three years period and period of investigation, and at period of investigation rates may be considered to nullify injury, if any, caused to the domestic industry by inefficient utilization of utilities.
 - (iii) The best utilisation of production capacities, over the past three years period and period of investigation, and at period of investigation rates may be considered to nullify injury, if any, caused to the domestic industry by inefficient utilization of production capacities.
 - (iv) The Propriety of all expenses, grouped and charged to the cost of production may be examined and any extra-ordinary or non-recurring expenses shall not be charged to the cost of production and salary and wages paid per employee and per month may also be reviewed and reconciled with the financial and cost records of the company.
 - (v) To ensure the reasonableness of amount of depreciation charged to cost of production, it may be examined that no charge has been made for facilities not deployed on the production of the subject goods, particularly in respect of multi-product companies and the depreciation of re-valued assets, if any, may be identified and excluded while arriving at reasonable cost of production.

- (vi) The expenses to the extent identified to the product are to be directly allocated and common expenses or overheads classified under factory, administrative and selling overheads may be apportioned on reasonable and scientific basis such as machine hours, vessel occupancy hours, direct labour hours, production quantity, sales value, etc., as applied consistently by domestic producers and the reasonableness and justification of various expenses claimed for the period of investigation may be examined and scrutinised by comparing with the corresponding amounts in the immediate preceding year.
- (vii) The expenses, which shall not to be considered while assessing non-injurious price include,—
 - a) research and development Provisions (unless claimed and substantiated as related to the product specific research);
 - b) since non-injurious price is determined at ex-factory level, the post manufacturing expenses such as commission, discount, freight- outward etc. at ex-factory level;
 - c) excise duty, sales tax and other tax levies on sales;
 - d) expenses on job work done for other units;
 - e) royalty, unless it is related to technical know-how for the product;
 - f) trading activity of product under consideration; or
 - g) other non-cost items like bad debts, donations, loss on sale of assets, loss due to fire, flood, etc.
- (viii) A reasonable return (pre-tax) on average capital employed for the product may be allowed for recovery of interest, corporate tax and profit. The average capital employed is the sum of "net fixed assets and net working capital which shall be taken on the basis of average of the same as on the beginning and at the end of period of investigation. For assessment of reasonable level of working capital requirement, all the elements of net working capital shall be scrutinized in detail. The impact of revaluation of fixed assets shall not be considered in the calculation of capital employed. Interest is allowed as an item of cost of sales and after deducting the interest, the balance amount of return is to be allowed as pre-tax profit to arrive at the non- injurious price.
- (ix) Reasonableness of interest cost may be examined to ensure that no abnormal expenditure on account of interest has been incurred. Details of term loans, cash credit limits, short term loans, deposits and other borrowings taken by the company and interest paid thereon may be examined in detail along with the details of assets deployed.
- (x) In case there is more than one domestic producer, the weighted averages of non-injurious price of individual domestic producers are to be considered. The respective share of domestic production of the subject goods may be taken as basis for computation of weighted average non-injurious price for the domestic industry as a whole".

4.22.10 Anti-dumping Application Proforma -

The following is an outline of application proforma under Anti-dumping laws in India:-

PART	Deals with
I	Imported Product Information
II	Indian Industry Profile
III	Evidence of Dumping 1. Estimates of Normal Value 2. Estimates of Export Price 3. Estimates of Dumping Margin
IV	Evidence of Injury
IVA	Injury Information on Domestic Industry
IVB	Country wise landed value
V	Evidence of Casual link
VI	Costing Information Format "A" – Statement of Raw Materials and Packing Materials Consumption and Reconciliation Format "B" – Statement of Raw Material Consumption Format "CI" – Statement of Cost of Production Format "CII" – Allocation and Apportionment of Expenditure Format "D" – Statement of Consumption of Utilities Format "E" – Statement of Sales Relations Format "F" – Certificate

4.22.11 Cost Accounting – as an aid for assessment under Anti-dumping laws in India In moving the Cost and Works Accountants Bill, 1959 for reference to the Joint Committee, the then Deputy Minister of Commerce and Industry explained the nature and purpose of cost accounting as follows (Lok Sabha Debates, Vol. XXIV, dated 20th December, 1958, pp. 6608-09):

"Cost accounting is a function entirely different from general or financial accounting. Cost accountancy covers a wide range of subjects, with special emphasis on cost accounting, factory organization and management, engineering techniques, and knowledge of the working of the factories. The cost accountant performs services involving pricing of goods, preparation, verification, certification of cost accounts and related statements, or recording presentation or certification of cost facts or data. In a manufacturing concern, he works out the economical cost of production and evaluates its progress at each stage of production. In mass production enterprises, he points out wastage of manpower due to overstaffing or inefficient organization and indicates the output, the capacity of the machines and labour, the stock position, the movement of stores and weakness in the production process. The systematic determination of cost in every single and distinct process of manufacturing provides a continuous check on the margin of waste in the processing of raw and semi-finished materials, on the utilisation of machinery installed, on manpower expended and the percentage of rejection of finished products. This pinpoints also the particular process in which defects and deficiencies exist, thereby enabling immediate remedial measure being taken. Costing, in short, aims at making the organization efficient and economical, by providing the minimum of labour and material and getting the full capacity of the machine output. The cost accountant, therefore, is concerned solely and mainly with the internal economy of the industry, and renders services essential to the day-to-day management of the undertaking."

In the WTO regime and in the post-liberalization era there was a need to enhance and retool the mechanism of cost audit to enable performance management as a part of the governance framework. A need was also felt to reorient the cost audit mechanism, particularly to build up appropriate cost database to fight anti-dumping measures imposed against the country in foreign markets as also to detect the cases of dumping in our market by foreign manufacturers. Such an alignment with the governance framework by linking up with the role of audit committee and in turn presented to the stakeholders a reliable, standardized and industry-wide database is possible only by way of statutory maintenance of Cost Accounting Records and Cost Reporting system.

4.22.12 Generally Accepted Cost Accounting Principles (GACAP)

The Ministry of Corporate Affairs, Government of India implemented Companies (Cost Accounting Records) Rules, 2011. These rules introduced a common set of record rules for industries other than regulated industries specified in the Rules, in place of industry specific rules in vogue earlier.

The Rules require every company to which the rules apply, including all units and branches thereof, to keep cost records in respect of each of its products and activities on regular basis. The cost records are to be maintained in accordance with the generally accepted cost accounting principles and cost accounting standards issued by the Institute of Cost Accountants of India.

The GACAP has defined **Cost of Production**. It consists of Material Consumed, Direct Wages and Salaries, Direct Expenses, Works Overheads, Quality Control Costs, Research & Development Cost, Packing Cost and Administrative Overhead relating to production.

The objective of GACAP can be stated as follows:

- (i) To codify as may be applicable to Indian Industry;
- (ii) To narrow down diversities in cost accounting practices facilitating the process of development of cost accounting standards;
- (iii) To provide reference source to industry and practitioners in preparation and attestation of cost statements, where specific cost accounting standards are yet to be issued;
- (iv) To provide reference source to all the stakeholders in the understanding and interpretation of the cost statement; and
- (v) To provide a base for monitoring the evolution of new concepts and practices in cost accounting and to codify them as and when they become generally accepted.

4.22.13 Cost Accounting Standards (CASs) - relevance and application in the light of Anti-dumping Laws in India

The following are the Cost Accounting Standards issued by the Institute of Cost Accountants of India. Effective application of CASs brings about uniformity in the principles of measurement and valuation of goods.

CAS	Deals with
1	Classification of Cost
2	Capacity Determination
3	Overheads
4	Cost of Production for Captive consumption
5	Average (Equalized) cost of transportation
6	Material Cost
7	Employee Cost
8	Cost of Utilities
9	Packing Material Cost

10	Direct Expenses
11	Administrative Overheads
12	Repairs and Maintenance
13	Cost of Service Cost Centre
14	Pollution Control Cost
15	Selling and Distribution Overheads

4.22.14 Companies (Cost Accounting Records) Rules 2011

The Companies (Cost Accounting Records) Rules 2011 has made a departure from the erstwhile cost accounting records in so far as prescription of specific cost formats is concerned.

Rule 2(e) has defined “**Cost Records** means books of accounts relating to utilization of material, labour and other items of cost as applicable to the production, processing, manufacturing and mining activities of the company”. It has also been clarified that such conformance to GACAP and CAS are to be followed to the extent these are found to be relevant and applicable and the variations, if any, are required to be indicated and explained. The Institute of Cost Accountants of India has so far prescribed 15 Cost Accounting Standards and has also issued GACAP.

The basic purpose of maintenance of these cost records is to enable the company to exercise, as far as possible, control over the various operations and costs with a view to achieve optimum economies in utilization of resources. These records shall also provide necessary data which is required to be furnished under these rules.

Maintenance of Cost Accounting Records is applicable to every company including a foreign company engaged in production, processing, manufacturing or mining wherein:

- The aggregate value of net worth as on the last date of the immediately preceeding financial year exceeds ₹5 crores; or
- The aggregate value of the turnover made by the company from all products or activities during the immediately preceding financial year exceeds ₹ 20 crores; or
- The company's equity or debt securities are listed or are in the process of listing on any stock exchange.

Hence, for the purpose of making assessment/proceedings under Anti-dumping laws in India, there would be cost records available to support the needs of the stakeholders.

4.22.15 Companies (Cost Audit Report) Rules, 2011 - relevance and application in the light of Anti-dumping Laws in India

The following states the relevance of respective Para prescribed Cost Audit Reports and Cost Accounting Standards which may be used as reference for making an authentic assessment under Anti-dumping laws in India. Since the Cost Accounting Records are to be maintained by companies satisfying the prescribed parameters, a reference to the Cost Compliance Report or the Cost Audit Report may be an important tool for the stakeholders in ascertainment of injury margin. Further, application of generally accepted cost accounting principles and cost accounting standards, would bring about a uniformity/standardization in the principles followed in measurement and valuation of cost.

Anti-dumping Application Proforma	Reference to Para prescribed under Cost Audit Report Rules, 2011		Reference to relevant Cost Accounting Standards
Format A - Statement of Raw Materials and Packing Materials Consumption and Reconciliation	Para 5 : Abridged Cost Statement	Item No.1 & 2 Raw Material Consumption and Process Materials	CAS 6 – Material Cost
		Item No.16 and 23 – Primary Packing Cost Material and Secondary Packing Cost	CAS 9 – Packing Material Cost
Format B – Statement of Raw Material Consumption	Para 5 : Abridged Cost Statement – Item Nos.1 & 2		CAS – 6 – Material Cost
Format CI – Statement of Cost of Production (to be certified by a Cost Accountant in Practice)	Para 5 : Abridged Cost Statement – Item No. 21 – Cost of Production		CAS 2 – Capacity Determination CAS 6 – Material Cost CAS 7 – Employee Cost CAS 8 – Cost of Utilities CAS 9 – Packing Material Cost CAS 10 – Direct Expenses CAS 12 – Repairs & Maintenance
Format CII – Allocation and Apportionment of Expenditure	Para 2 : Cost Accounting Policy		CAS 1 – Classification of Cost CAS 2 – Capacity Determination CAS 3 - Overheads
Format D – Statement of Consumption of Utilities	Para 5: Abridged Cost Statement – Item No.3 – Utilities		CAS 8 – Cost of Utilities

However, for the purpose of ascertaining the Normal Value, Non-injurious price or to determine price undercutting or price underselling, application of the specific Cost Accounting Standards in all relevant situations may be made which would be a safeguard for the stakeholders.

Example 37: FORMAT “CI” - STATEMENT OF COST OF PRODUCTION

Name of the Company: XYZ Limited

Installed Capacity	1,00,000 units							
Production in Installed	65,000 units							
Capacity Utilization (%)	65%							
Production in Investigation Period	56,000 units							
Capacity Utilisation in Investigation period	56%							
Sales (quantity)	61,000 units				51,000 units			
Particulars	Previous Accounting Year				Investigating Period			
	Qty	Rate (₹)	Value (₹)	Cost per unit (₹)	Qty	Rate (₹)	Value (₹)	Cost per unit (₹)
Manufacturing Expenses:								
• Raw Materials (specify the major raw materials) (MT)	10,000	100.00	10,00,000	15.38	8,000	120.00	9,60,000	17.14
• Utilities								
• Depreciation			2,00,000	3.08			1,90,000	3.39
• Others (specify nature of expenditure)			1,95,000	3.00			1,75,000	3.13
Administrative Expenses								
• Variable			1,30,000	2.00			1,12,000	2.00
• Fixed			78,000	1.20			78,000	1.39
Selling & Distribution Expenses								
• Variable			61,000	1.00			56,000	1.00
• Fixed			40,000	0.66			40,000	0.71
Financial Expenses								
• Variable			1,30,000	0.70			35,700	0.70
• Fixed			21,000	0.32			21,000	0.38
Less: Miscellaneous Income								
(from product concerned) – Sale of Scrap raw materials			(25,000)				(20,000)	
Total Cost to make and sell			18,34,000	28.22			16,47,700	29.42
Selling Price				35.00				32.00
Profit/Loss				6.78				2.58

Note: This Statement of Cost of Production is to be authenticated by a Cost Accountant in Practice

One of the major reasons for this decrease in the quantity of sales is identified to be import of like/similar goods by a foreign company to India. The selling price of such goods, in Indian market, as fixed by the foreign counterpart is ₹ 23, while the same goods are normally sold at that foreign country for Rs.35. Landed Value of Imports ₹ 25

XYZ Ltd. being deceived requested the competent authority to have a review. Ascertain the injury margin and suggest the measure suitable to safeguard the Indian Industry.

Solution:

Particulars	Amount (₹)
Price of the "Product under Consideration (PUC) or "Article under Investigation" from the Exporting Country / Export Price	23.00
Normal Value of such product, when sold in the domestic market of the exporting country	35.00
Dumping Margin or Margin of Dumping (DM) = 35.00 – 25.00	10.00
Non Injurious Price (NIP) – this is the constructed sale price of the domestic industry which will give a reasonable return on investment and if the domestic industry is able to sale its product at that price, it will not claim any injury	30.00 (say)
Landed Value of Imports (including all the expenses incurred during the course of importation upto the port including the non-creditable duties of customs	25.00
Injury Margin (IM) = Non Injurious Price (-) Landed Value of Imports = 30.00 (-) 25.00	5.00

Thus, for XYZ Ltd. the Injury Margin is ascertained at Rs.5 per unit. Accordingly, the Authorities shall cause to initiate necessary proceedings to levy additional duty of customs (under the aegis of Anti-dumping Laws) to safeguard the domestic industry.

Example 38: Following is the relevant extract from the Trial Balance of ABC Ltd. for the year ended 31.3.2012.

Particulars	Amount (₹)	Particulars	Amount (₹)
Raw Materials	5,00,000	Sales	21,60,000
Consumable Stores and Spares (Other Inputs)	3,00,000		
Utilities (Power, Fuel, Steam, Water, etc)	1,80,000		
Direct Labour	4,00,000		
Manufacturing Overheads	1,50,000		
Research & Development	60,000		
Administrative Overheads	90,000		
Selling & Distribution Cost	50,000		
Depreciation	30,000		
Financial expenses	10,000		
Other Miscellaneous Expenses	12,000		

Company deals with two products for which necessary information is furnished:

Particulars of Expenses	Product X1	Product X2
Raw Materials (Ratio of utilization)	60%	40%
Consumable Stores and Spares (Other Inputs)	in proportion to raw materials	
Utilities (Power, Fuel, Steam, Water, etc)	in proportion to raw materials	
Direct Labour	2,45,000	1,55,000
Manufacturing Overheads	30%	35%
Research & Development	35%	40%
Administrative Overheads	30%	40%
Selling & Distribution Cost	35%	50%
Depreciation	45%	55%
Financial expenses	50%	30%
Other Miscellaneous Expenses	25%	25%

Prepare Statement showing Allocation and Apportionment of Expenditure for assessment under Anti-dumping laws in India for Product A, which is the Product under Investigation.

Solution:

Format CII

Statement Showing Allocation and Apportionment of Expenditure for Product X1

Sl. No.	Particulars of expenses	Total applicable to product under investigation	Share applicable to product under investigation	Share not allocation/ apportionment	Basis
1	Raw Materials (Ratio of utilization)	3,00,000	3,00,000	NIL	Actual Ratio
2	Consumable Stores and Spares (Other Inputs)	1,80,000	1,80,000	NIL	Raw Material Ratio
3	Utilities (Power, Fuel, Steam, Water, etc)	1,08,000	1,02,000	6,000	CAS 8
4	Direct Labour	2,45,000	2,41,000	4,000	CAS – 7 (Actual)
5	Manufacturing Overheads	45,000	38,000	7,000	Cost Driver
6	Research & Development	21,000	15,000	6,000	Wrong Basis
7	Administrative Overheads	27,000	24,000	3,000	CAS - 11
8	Selling & Distribution Cost	17,500	16,000	1,500	CAS -15
9	Depreciation	13,500	11,500	2,000	Value of Asset
10	Financial expenses	5,000	5,000	NIL	Actual utilization of borrowed funds
11	Other Miscellaneous Expenses	3,000	3,000	NIL	Actual
12	Total Expenditure	9,65,000	9,35,500	29,500	
	Total of (1) to (11)				
13	Sales	10,95,000	10,95,000	Nil	
14	Other Income (Sale of Scrap of Product X1)	3,000	3,000	Nil	
15	Total Income (13+14)	10,98,000	10,98,000	Nil	
16	Profit/Loss	1,33,000	1,33,000		

Note:

This statement is to be certified by a Practicing Cost Accountant.

Study Note - 5

EXIM POLICY

This Study Note includes

- 5.1 Export Promotion Schemes
- 5.2 Duty Drawback
- 5.3 Export Oriented Units (EOU)
- 5.4 Special Economic Zones Act, 2005 (SEZ)
- 5.5 Advance Authorisation
- 5.6 Duty Entitlement Pass Book Scheme (DEPB Scheme)
- 5.7 Duty Free Import Authorisation (DFIA)
- 5.8 EPCG Authorisation
- 5.9 Foreign Trade Policy
- 5.10 Import/Export Authorisation
- 5.11 Policy for Import of Goods
- 5.12 Restrictions on Exports
- 5.13 Exim Policy of India

Introduction

The Govt. of India, Ministry of Commerce and Industry announces Export Import Policy every five years. The current policy covers the period 2009-2014. The Export Import Policy (EXIM Policy) is updated every year on the 31st of March and the modifications, improvements and new schemes are effective w.e.f. 1st April of every year. The EXIM Policy of the Indian Government is regulated by the Foreign Trade (Development and Regulation) Act, 1992. This Act has replaced the earlier law known as the Imports and Exports (control) Act, 1947. Chapter 6 of the Exim policy under the said Act deals with Export Oriented Units and Chapter 7 deal with units in the Special Economic Zones.

Foreign Trade has gained immense importance in India in the recent years. The export import (exim) policy of India has laid guidelines for India to become a major player in world trade, an all encompassing; comprehensive view needs to be taken for the overall development of the country's foreign trade. The new exim policy states that reasonableness and consistency among trade and other economic policies is important for maximizing the contribution of such policies to development. The foreign trade policy implies in its preamble that while incorporating the existing practice of enunciating an annual exim policy, it is necessary to go much beyond and take an integrated approach to the developmental requirements of India's foreign trade. The import laws of India are governed by the foreign trade policy. All exporters/importers trading from India have to adhere to the foreign exim policies in order to gain benefits on the trade front.

5.1 EXPORT PROMOTION SCHEMES

5.1.1 Background

- (i) Basic concept is that goods and services are to be exported, taxes are not to be exported.
- (ii) As per WTO stipulations, export incentives cannot be given, but exported goods can be made tax free.

- (iii) Various scheme have been devised to enable exporters to obtain inputs without payment of excise and customs duty and input services without payment of service tax. If tax paid, rebate can be obtained.
- (iv) Goods can be exported without payment of excise duty. If excise duty is paid, refund can be obtained.

Broadly, the export incentives for manufacturers are —

- (a) Indigenous inputs without payment of excise duty or rebate if duty paid.
- (b) No excise charged on final product or rebate if duty paid.
- (c) Imported inputs without payment of customs duty, or rebate if duty paid.
- (d) No export duty on export of final product.
- (e) Bank finance on priority basis and at concessional rate of interest.
- (f) Import of capital goods at concessional rate (under EPCG scheme).
- (g) Exemptions/relaxations from Income tax.
- (h) Exemption from sales tax on final product (refund of CST paid on inputs in case of EOU. No CST for supply to SEZ and SEZ units).
- (i) Usance bills of exchange executed by an exporter in relation to export transaction are fully exempt from stamp duty – SO 804(E) dated 8-7-2004.

WTO stipulation - As per stipulation of World Trade Organisation (WTO), no country can give 'export incentives' as such. The reason is that WTO intends to encourage free competition among nations. If incentives are given for exports, there will not be free competition. That is the reason why income-tax incentives on export income are being phased out. However, goods can be made tax-free for export purposes, which is permissible under WTO stipulations. Hence, all our export promotion schemes are directed towards ensuring that inputs as well as final products are made 'tax free'.

5.1.2 Input Duty Relief Schemes

Various schemes have been devised to obtain inputs free from duty or to grant refund of the same. In some schemes, the unit has to be isolated from domestic production units, while in some schemes, the units producing goods for domestic production are also entitled to get inputs free of cost.

- A. Schemes where export production unit has to be isolated from domestic production units** - There are schemes where units producing goods for export purposes have to be isolated from domestic units. The schemes are - EOU, STP, EHTP, BTP and SEZ. [BTP – Bio-Technology Park]
- B. Schemes where domestic production unit can get inputs free from taxes** - The schemes of EOU, SEZ, STP, BTP and EHTP are suitable where the unit is exclusively or at least predominantly for export purposes. There are other schemes where a unit producing goods for domestic purposes is also entitled to get inputs / capital goods without payment of customs duty / excise duty. These can be broadly classified as follows.
- C. Relief of excise duty on inputs** – (a) Cenvat credit of duty paid on inputs can be utilized for payment of excise duty on other final products. Alternatively, refund of duty paid on inputs can be obtained (b) Same result can be achieved by paying duty on final product and claiming rebate. In this case, additional benefit is that duty paid on capital goods will also get refunded indirectly. In first case, only duty paid on inputs is refundable (c) Obtaining inputs without payment of excise duty under notification No. 43/2001-CE(NT). This is advisable when there are one or two major identifiable inputs (d) Rebate of duty paid on inputs under notification No. 41/2001- CE (NT) (e) Excise portion of Duty drawback.
- D. Relief of customs duty on inputs** – (a) Advance Authorisation (b) Duty Entitlement Pass Book scheme (DEPB) (c) DFIA (d) Customs portion of duty drawback.

E. Capital goods at concessional rate - Capital goods can also be obtained at concessional rate of customs duty under EPCG scheme.

It should be noted that an exporter can get relief only once. He cannot get double benefit.

5.1.3 Concept of EOU/SEZ Scheme

The highlights of EOU (Export Oriented Unit) and SEZ (Special Economic Zone) and distinctions are as follows –

Distinctions

- i. Supplies to SEZ from DTA are 'exports' while supplies to EOU from DTA are 'deemed exports'.
- ii. SEZ unit has to be located within the specified zones developed, while EOU unit can be set up at any of over 300 places all over India. [Similarly, STP/EHTP/BTP unit can be situated within the zone specifically developed or at any place where EOU can be set up]
- iii. There is physical control over movement of goods in Special Economic Zone, but there is no such physical control over goods to individual EOU.
- iv. Minimum investment in plant and machinery and building is Rs 100 lakhs for EOU. This should be before commencement of commercial production. There is no such limit for SEZ.
- v. Fast Track Clearance Scheme (FTCS) for clearances of imported consignments for EOU. In case of SEZ units, customs clearance for export and import is obtained within the zone itself.
- vi. In case of EOU, sale within India should be on payment of excise duty. In certain cases, excise duty payable will be only 50%/30% of normal customs duty payable on such goods if imported into India. In case of supplies from SEZ to Domestic Tariff Area, normal customs duty as payable on import of similar goods is payable.
- vii. EOU unit can sale in DTA (Domestic Tariff Area) sale upto 50% of the FOB value of sales of preceding year, subject to fulfillment of positive NFE, on payment of concessional rate of duty. There is no such restriction in case of SE on percentage, but SEZ have to attain positive NFE.
- viii. Restrictions under Companies Act on managerial remuneration are not applicable to SEZ units.
- ix. The unit can exit (de-bond) with permission of Development Commissioner, on payment of applicable duties. However, in case of SEZ, the unit has to physically go out of SEZ. This is not the case of EOU.
- x. In case of EOU, Central Sales Tax (CST) paid on purchases is refundable (but not local tax), if goods are used for production (and not for services). In case of SEZ unit, supplier does not have to pay CST.
- xi. Service tax is exempted in case of services provided with SEZ. In case of EOU, service tax exemption is not available but they can claim refund.
- xii. 100% foreign equity is permissible in SEZ, except in a few cases. In case of EOU, restrictions of Foreign Direct Investment (FDI) are slightly more.
- xiii. Supplies made to EOU by Indian supplier are 'deemed exports' and supplier is entitled to benefits of 'deemed export' in form of refund of terminal excise duty and duty drawback. Supplies to SEZ are 'exports' and all export benefits i.e. DEPB and duty drawback are available.
- xiv. Restrictions on External Commercial Borrowings are less in case of SEZ, compared to restrictions on EOU.
- xv. No exemption from labour laws, but State Government can relax certain provisions of labour laws in case of SEZ.

- xvi. SEZ are in specific locations where infrastructure is generally better.
- xvi. SEZ have more freedom of operations within zone compared to EOU.

Similarities

- i. The unit can import capital goods, raw materials, consumables, packing material, spares etc. without payment of customs duty. Similarly, these can be procured indigenously without payment of excise duty. Second hand capital goods can also be imported.
- ii. They have to achieve positive NFE (Net Foreign Exchange Earnings).
- iii. A bond in prescribed form has to be executed. [B-17 in case of EOU and form prescribed in Special Economic Zone Rules, 2003 in case of SEZ]. There is no physical supervision of customs / excise authorities over production and clearances, but prescribed records are required to be maintained.
- iv. Generally, all final production should be exported, except rejects upto prescribed limit.
- v. Sub-contracting of production outside on job work basis is permissible after obtaining necessary permission on annual basis
- vi. Job work for exports is permitted
- vii. Samples can be sold / given free within prescribed limit
- viii. Unutilised raw material can be disposed of on payment of applicable duties
- ix. all foreign exchange earnings can be retained in EEFC account in foreign exchange.

STP / EHTP/BTP unit – Concept of STP/EHTP/BTP is similar to EOU. The STP/EHTP scheme is administered by Ministry of Information Technology, while BTP scheme is monitored by Department of Biotechnology. The STP/ EHTP/BTP unit can be at a place specifically developed for the purpose or it can be located at any place where EOU can be set up. Thus, a STP/EHTP/BTP unit can be set up as an EOU unit anywhere in India or as a SEZ unit at specified developed locations in India.

5.1.4 Pros and Cons of Various Schemes

It is true that no one scheme can be suitable to all. Each manufacturer has to weigh *pros* and *cons* of each scheme and determine which scheme is most beneficial to him.

Generally, if major production of the company is towards sale in DTA (Domestic Tariff Area) and only partly towards export, schemes like DEPB or DFRC or advance authorisation are suitable. Other things being equal, scheme of duty drawback is simple and easy to operate particularly when All Industry Rate fixed is good.

Schemes like EOU (Export Oriented Unit)/SEZ (Special Economic Zones) are suitable (a) when the undertaking is predominantly export oriented (b) Requirement of imported capital goods and imported raw material is high. EOU has lost most of its attractive features and recently, EOUs are getting step-motherly treatment from Government, while SEZ is 'favoured baby'.

5.2 DUTY DRAWBACK

- i. Duty drawback is rebate of excise duty and customs duty paid on inputs used in exported final product u/s 75 of Customs Act.
- ii. All Industry drawback rate is fixed on industry average basis for various products. Incidence of service tax is also taken into account while fixing drawback rate.
- iii. An individual exporter can get brand rate fixed for his product.
- iv. Drawback rate is fixed by Commissioner of Central Excise.
- v. Duty drawback is available on re-export u/s 74 of Customs Act.

> 5.4 I TAX MANAGEMENT & PRACTICE

Drawback of customs and excise duty paid on inputs and service tax paid on input services – As per rule 2(a) of Customs, Central Excise Duties and Service Tax Drawback Rules, 1995, Drawback, in relation to any goods manufactured in India and exported, means the rebate of duty or tax, as the case may be, chargeable on any imported materials or excisable materials used or taxable services used as input services in manufacture of such goods [reference to service tax was inserted w.e.f. 13-7-2006]. 'Input service' has same meaning as assigned to it in Cenvat Credit Rules, 2004 [rule 2(da) of Drawback Rules, 1995].

As per para 9.22 of FTP, Drawback, in relation to any goods manufactured in India and exported, means the rebate of duty chargeable on any imported materials or excisable material used in manufacture of such goods in India. The goods include imported spares, if supplied with capital goods manufactured in India.

Duty Drawback even if CVD paid through DEPB – Duty drawback of CVD is available even when CVD is paid through DEPB credit – MF(DR) circular No. 41/2005-Cus dated 28-10-2005.

5.2.1 Drawback – When not Eligible

Section 75 of Customs Act, 1962 provides some disallowances or cases when drawback allowed can be recovered. Further, section 76(2) of Customs Act, 1962 authorises Central Government to issue notifications prohibiting drawback if the goods are likely to be smuggled back to India after export. Drawback Rules also provide for some disallowances. These are summarised below:

- i. If sale proceeds of export goods are not received within time stipulated by RBI [This provision does not apply to goods supplied from DTA unit to SEZ unit]
- ii. If no customs/excise duty is paid on the inputs or service tax is not paid on input services
- iii. If imported inputs were obtained under Advance License (DEEC scheme) without payment of duty
- iv. If importer avails DEPB or DFRC
- v. Goods manufactured under Customs Bond or Excise Bond where inputs were obtained without payment of duty
- vi. Goods manufactured by EOU or a unit in Special Economic Zone (as they obtain inputs without payment of duty)
- vii. If Cenvat was claimed on indigenous inputs. [In such case, excise portion of duty drawback will not be available].
- viii. In case of negative value addition – i.e. selling price of exported goods is less than value of imported goods i.e. foreign exchange spent on import of raw material is more than FOB Value of exports.
- ix. Jute batching oil used in manufacture of jute yarn, twist, twine etc.
- x. Packing materials used in relation to export of jute yarn, jute fabrics and jute manufacture.
- xi. Where specific rates are provided, drawback will not be paid if it is less than 1% of FOB Value of the product, unless drawback claim per shipment is over ₹ 500 – para 11 of Notification No. 81/2006-Cus(NT) dated 13-7-2006 [earlier Notification No. 36/2005-Cus(NT) dated 2-5-2005].
- xii. If wholesale market price of goods in India is less than the amount of drawback due.
- xiii. Exports to Nepal/Bhutan. However, exports to Nepal are eligible if payment is received under hard currency i.e. dollars, euro, Yen British pounds etc.
- xiv. No drawback of sales tax, octroi or other taxes – drawback is of customs and Central Excise duties only.

- xv. Export of alcoholic liquor, cigarettes, cigar and pipe tobacco; as stores; to foreign going vessel of less than 200 tons.
- xvi. If goods exported by vessel of less than 1,000 tons; unless certificate is submitted that sale proceeds in foreign currency have been received and goods have landed at destination within three months.
- xvii. If drawback is less than ₹ 50.

Broadly, drawback is not allowed if excise/customs duty or service tax has not been paid on inputs or manufacturer has availed some other benefit in respect of duty paid on inputs or input services. Principle is that there cannot be double benefit.

5.2.2 Type of Drawback Rates

Duty drawback rates are of following types – (a) All Industry Rate (b) Brand Rate and (c) Special Brand Rate.

- A. All Industry Drawback Rates** - All Industry Drawback rates are fixed by Directorate of Drawback, Dept. of Revenue, Ministry of Finance, Govt. of India, Jeevan Deep, Parliament Street, New Delhi – 110 001. The rates are periodically revised – normally on 1st June every year. Data from industry is collected for this purpose.

Whenever specific rates are provided, drawback shall be payable only if amount is more than 1% of FOB value, except when the drawback claim per shipment exceeds Rs 500. Revised rates have been announced vide Notification No. 68/2007-Cus(NT) dated 16-7-2007 [earlier Notification No. 81/2006-Cus(NT) dated 13-7-2006].

The all industry drawback rates are given in two ways – (a) when Cenvat facility has been availed and (b) when Cenvat facility not availed. The difference between the two is central excise portion of duty drawback. If rate indicated in both is same, it means that it pertains to only customs portion and is available irrespective of whether exporter has availed Cenvat or not – Condition No 5 to Notification No. 68/2007-Cus(NT) dated 16-7-2007 [earlier No. 81/2006-Cus(NT) dated 13-7-2006].

Duty drawback rate shall not exceed 33% of market price of export goods (Rule 8A w.e.f. 15-2-2006).

In case of some cases, value cap has been fixed. In such cases, maximum drawback allowable per unit of quantity has been specified (This is to avoid misuse by over-valuation of export goods).

- B. Brand Rate of duty drawback** – It is possible to fix All Industry Rate only for some standard products. It cannot be fixed for special type of products. In such cases, *brand rate* is fixed under rule 6. The manufacturer has to submit application with all details to Commissioner, Central Excise. Such application must be made within 60 days of export. This period can be extended by Central Government by further 30 days. Further extension can be granted even upto one year in if delay was due to abnormal situations as explained in MF(DR) circular No. 82/98-Cus dated 29-10-1998.

Duty drawback rate shall not exceed 33% of market price of export goods (Rule 8A w.e.f. 15-2-2006).

- C. Special Brand Rate of duty drawback** – All Industry rate is fixed on average basis. Thus, a particular manufacturer or exporter may find that the actual excise/customs duty paid on inputs or input services are higher than All Industry Rate fixed for his product. In such case, he can apply under rule 7 of Drawback Rules for fixation of Special Brand Rate, within 30 days from export. The conditions of eligibility are (a) the All Industry Rate fixed should be less than 80% of the duties paid by him (b) rate should not be less than 1% of FOB value of product except when amount of drawback per shipment is more than ₹ 500 (c) export value is not less than the value of imported material used in them – i.e. there should not be 'negative value addition'.

5.2.3 Drawback Rate Fixation

Forms and procedures have been prescribed for submitting details to jurisdictional Commissioner of Central Excise, who will fix the rate of duty drawback. [Earlier, it was done by Director of Drawback, New Delhi, upto 31-3-2003]. Manufacturer has to make application for fixation of duty drawback rate. Application for fixation of rate has to be filed to Commissioner of Central Excise within 30/60 days of export. [60 days in case of brand rate and 30 days in case of special brand rate]. This period can be extended by him upto further 30 days in exceptional and genuine cases, for which a special request should be made.

5.2.4 Drawback Claim Procedure

At the time of export, exporter shall endorse on the 'shipping bill' the description, quantity and other details to decide whether goods are eligible for duty drawback. He should submit one extra copy of shipping bill for drawback purposes. Copy of Invoice should be submitted.

If shipping bill under drawback is submitted electronically, that itself will be treated as claim for drawback [rule 13(5) of Drawback Rules amended w.e.f. 13-7-2006].

Declaration by Exporter – A declaration should be made rule 12(1)(a)(ii) of Duty Drawback Rules, on shipping bill or bill of export that claim of drawback. Further declarations are also required when brand rate or special brand rate has been fixed. These declarations have to be signed by exporter.

Forms of declarations for claiming All Industry Rates have been given in CC, Mumbai PN 10/2005-Cus dated 16-3-2005 [182 ELT T12].

Triplicate copy of Shipping Bill is the drawback copy and should be marked as 'Drawback Claim Copy'. It should be submitted with pre-receipt on reverse side with revenue stamp.

Declaration for non-availment of Cenvat – (a) If the manufacturer-exporter or supporting manufacturer of merchant exporter is registered with Central Excise, fact of non-availment of Cenvat credit can be verified from ARE-1 form furnished (b) If the manufacturer-exporter or supporting manufacturer of merchant exporter is not registered with Central Excise, they have to submit self-declaration about non-availment of Cenvat in prescribed form. – MF(DR) circular No. 8/2003-Cus dated 17-2-2003.

5.2.5 Duty Drawback on Re-Export

Section 74 of Customs Act, 1962 provide for drawback if the goods are re-exported as such or after use. This may happen in cases like import for exhibitions, goods rejected or wrong shipment etc. The re-exported goods should be identifiable as having been imported and should be re-exported within two years from date of payment of duty when they were imported. This period (of two years) can be extended by CBE&C on sufficient cause being shown. These should be declared and inspected by Customs Officer. Original shipping bill under which the goods were imported should be produced. The goods can be exported as cargo by air or sea, or as baggage or by post. After inspection, export and submission of application with full details, 98% of the customs duty paid while importing the goods is repaid as drawback.

Section 74 is applicable when imported goods are re-exported as it is and article is easily identifiable, while section 75 is applicable when imported materials are used in the manufacture of goods which are then exported – *ABC India Ltd. v. UOI* 1992(61) ELT 205 (Del HC).

5.3 EXPORT ORIENTED UNITS (EOU)

Salient features of EOU scheme

Introduction

EOU scheme was introduced in the year 1980 vide Ministry- of Commerce resolution dated 31st December 1980. The purpose of the scheme was basically to boost exports by creating additional

production capacity. It was introduced as a complementary scheme to the Free Trade Zones/Export Processing Zone (EPZ) Scheme introduced in the sixties, which had not attracted many units due to locational restrictions. The exporters showed willingness to set up units with long term commitment to exports under Customs bond operations provided they had the freedom to locate them in places of their choice and given most of the benefits as provided to units set up in the Zones.

The Export Oriented Units (EOUs) are governed by the provisions of Chapter 6 of the Foreign Trade Policy (FTP) and its procedures, as contained in the Handbook of Procedure (HBP). Provisions of the said Chapter 6 and its procedures have also been made applicable to the Electronics Hardware Technology Parks (EHTPs), Software Technology Parks (STPs) and Bio-Technology Parks (BTPs). Hence the scheme is for EOU/STP/EHTP/BTP and is referred in common parlance as EOU scheme.

Over the years, the EOU Scheme has undergone various changes and its scope has also expanded substantially as compared to the initial Scheme, which was basically for manufacturing sector with certain minimum value addition in terms of export earnings. Presently, the units undertaking to export their entire production of goods are allowed to be set up as an EOU. These units may be engaged in the manufacture, services, development of software, repair, remaking, reconditioning, re-engineering including making of gold/silver/platinum jewellery and articles thereof, agriculture including agro-processing, aquaculture, animal husbandry, biotechnology, floriculture, horticulture, pisciculture, viticulture, poultry, sericulture and granites. The EOUs can export all products/services except prohibited items of exports in ITC (HS).

Some benefits that are extended to the EOUs to impart to them a competitive edge to compete in export market are, as follows:-

- (i) EOUs are allowed to procure raw materials/capital goods duty free, either through import or through domestic sources;
- (ii) Reimbursement of Central Sales Tax (CST);
- (iii) Reimbursement of duty paid on fuels procured from domestic oil companies;
- (iv) CENVAT credit on the goods and service and refund thereof;
- (v) Fast track clearance facilities;
- (vi) Exemption from Industrial Licensing for manufacture of items reserved for SSI sector; and
- (vii) Income Tax exemption for 10 years (upto 31.3.2011).

5.3.1 Customs and Central Excise exemptions

EOUs/EHTPs/STPs are entitled to import/procure locally duty free raw materials, capital goods and office equipment etc. vide (i) Customs Notification No. 52/2003-Cus., dated 31-3-2003 (for duty free imports) and (ii) Central Excise Notification No. 22/2003-CE., dated 31-3-2003 (for duty free procurements).

5.3.2 Setting up of an EOU

Projects having a minimum investment of ₹ 1 Crore and above in building, plant and machinery are usually considered for establishment under EOU Scheme. Minimum investment criteria is to be fulfilled at the time of commencement of production by the unit. The minimum investment criterion does not apply for certain sectors like Electronic Hardware Technology Park unit, Software Technology Park unit, Handicrafts, Agriculture and Aquaculture. Setting up of trading units is not permitted under EOU scheme.

EOUs are normally permitted to be set up by a Unit Approval Committee headed by the Development Commissioner. Jurisdictional Commissioner of Central Excise & Customs is a member of the said committee. Proposals for setting up EOUs requiring industrial licence also require clearance by the

Board of Approval (BOA) and Department of Industrial Policy and Promotion (DIPP). 100% foreign direct investment (FDI) is permitted through Automatic Route.

For setting up of an EOU, three copies of the application in the prescribed form (Appendix 14-1-A) are required to be submitted to the Development Commissioner. In certain cases, approval of the Board of Approval (BOA) is required. Applications for setting up of Electronic Hardware Technology Park/ Software Technology Park units are submitted to the officer designated by the Department of Information Technology for this purpose. After approval of the application and issuance of Letter of Permission, the applicant is required to execute a legal undertaking (Appendix 14-1-F) with the development Commissioner/ Designated Officer concerned within the prescribed time period. On execution of legal undertaking, a Green Card is issued to the unit.

On approval for setting up an EOU by Unit Approval Committee, a Letter of Permission (LOP/LOI) is issued by the jurisdictional Development Commissioner. It mentions *inter-alia* the capacity and items of manufacture and export, capital goods permitted to be imported/ procured. Thereafter, the unit has to execute a legal undertaking with the Development Commissioner. The LOP/LOI issued is construed as a licence for all purposes. After obtaining the LOP and execution of legal undertaking, the unit is required to apply for a licence for Private Bonded Warehouse and In-bond manufacturing sanction order under provisions of Section 58 and 65 of the Customs Act, 1962 respectively from the jurisdictional Assistant/Deputy Commissioner of Central Excise and Customs.

5.3.3 Import/procurement and warehousing

Under the EOU scheme, the units are allowed to import or procure from DTA or bonded warehouses in DTA/ International exhibitions in India, without payment of duty all types of goods including capital goods, raw materials, components, packing materials, consumables, spares and various other specified categories of equipments including material handling equipments, required for export production or in connection therewith. However, the goods prohibited for import are not permitted. In the case of EOUs engaged in agriculture, animal husbandry, floriculture, horticulture, pisciculture, viticulture, poultry, sericulture and granite quarrying, only specified categories of goods mentioned in the relevant notification are permitted duty-free import.

The Customs exemption notification No. 52/03-Cus. for imports and related Central Excise exemption Notification No. 22/03-CE, both dated 31-3-2003 prescribe several conditions to be fulfilled by the beneficiaries keeping in view the objective of the Scheme and to prevent abuse. The entire premises of the EOU is a Customs bonded premise. A few exceptions, however, may be available under specific schemes. They also provide various flexibilities in the matter of taking out the materials for jobwork, inter-unit transfer. The EOU/EHTP/STPI/BTP are required to be positive net foreign exchange earner except for sector specific provision of appendix 14-1-C of HBP v. I where a higher value addition shall be required as per the provisions of Foreign Trade Policy. NFE earnings is calculated cumulatively in blocks of 5 years from the commencement of commercial production according to a prescribed formula as per para 6.9.1 of HBP v. I.

The EOUs are licensed to manufacture goods within the bonded premises for the purpose of export. The period of LOP bonding is initially for five years after the unit has commenced production, which is extendable to another five years by the Development Commissioner. On completion of the bonding period, it is for the unit to decide whether to continue under, or to opt out, of the scheme. The imported capital goods are allowed to be warehoused for a period of 5 years. For other goods, the warehousing period is one year, which can 'be extended further by the Commissioner/Chief Commissioner of Central Excise & Customs. On an application being made by the unit, extension of the time limit is granted in all cases unless there is malafide and diversion of duty free materials.

5.3.4 Monitoring and administrative control

The EOUs basically function under the administrative control of the Development Commissioner of the Special Economic Zones, whose jurisdiction has been notified by the Ministry of Commerce. In all, there

are seven Development Commissioners at Mumbai, Gandhidham, Chennai, Cochin, Visakhapatnam, Noida and Kolkata, who supervise the functioning of the EOUs. The Development Commissioners of the SEZs are the Licensing Authorities in respect of units under the EOU scheme, as per specified territorial jurisdiction as indicated in the FTP.

The provisions of the Customs and Central Excise law in respect of the EOUs are administered by the Commissioners of Customs and Central Excise, who work under the control of Central Board of Excise & Customs. The work relating to the EOUs located in port cities/towns or within the municipal limits of port cities/towns, which was being handled by jurisdictional Commissioner of Customs has been transferred to the jurisdictional Commissioner of Central Excise. [Refer Circular Nos. 72/2000-Cus., dated 31-8-2000; No. 87/ 2000-Cus., dated 2-11-2000; and No. 932/ 22/ 2010-CX, dated 4-8-2010]

On the policy front, all decisions relating to the EOUs are taken by the Board of Approvals (BOA), set up under the Department of Commerce. The BOA is chaired by the Secretary, Ministry of Commerce. In the case of units engaged in manufacture of electronic hardware and software, the policy decisions are taken by the Inter Ministerial Standing Committee (IMSC) set up under the Department of Information Technology and the same are implemented through its Designated Officers. CBEC representative is a member of both the BOA/IMSC. The availability of any benefit under Customs or Central Excise Acts or the notifications issued thereunder has, however, to be determined by the Commissioner of Central Excise and Customs having jurisdiction over the unit. Appropriate inter-Ministerial liaison is maintained for ensuring uniformity as far as possible in the Foreign Trade Policy provisions and the provisions built in the relevant Customs and Central Excise notifications.

5.3.5 Customs bonding

The premises of EOU are approved as a Customs bonded warehouse under the warehousing provisions of the Customs Act. The manufacturing and other operations are carried out under customs bond and the unit bears appropriate charges for officers on cost recovery basis. In case of units in Aquaculture, Horticulture, Floriculture, Granite quarrying etc exemption from bonding is given for administrative reasons with certain other safeguards being put in place to check that duty free benefits where availed are not abused. The EOUs are required to execute a multipurpose bond with surety/security with jurisdictional Central Excise and Customs officers. [Refer Circular No. 15/95-Cus., dated 23-2-1995]

5.3.6 Items allowed duty free imports/procurement

Under the EOU scheme, the units are allowed to import or procure locally without payment of duty, all types of goods including capital goods, raw materials, components, packing material, consumables, spares and various other specified categories of equipments like material handling equipments, UPSs, quality assurance equipments, captive power plants, central air conditioning equipments, security systems, pollution control equipments, modular furniture and parts thereof etc. required for the production/ jobwork and other operations in terms of letter of permission (LOP). All goods other than prohibited goods are allowed to be imported by an EOU/STP/EHTP. The specified activities for setting up an EOU/STP/EHTP are as follows :-

- (i) Manufacture of articles for export or for being used in connection with the production or packaging or job work for export of goods or services by export oriented undertaking;
- (ii) Manufacture or development of software, data entry and conversion, data processing, data analysis and control data management or call center services for export by Software Technology Park (STP) unit, or a unit in Software Technology Park Complex under the export oriented scheme;
- (iii) Manufacture and development of electronics hardware or electronics hardware and software in an integrated manner for export by an Electronic Hardware Technology Park (EHTP) unit or a unit in Electronic Hardware Technology Park Complex under the export oriented scheme; production, manufacture or packaging of articles by export oriented undertaking in horticulture, agriculture and animal husbandary sector;

- (iv) Use in aqua-culture farm in connection with operational requirements of such aquacultural farm and export of aquacultural products so produced by export oriented undertaking in aquaculture sector;
- (v) Quarrying of granite by export oriented undertaking engaged in processing and manufacture or production of articles of granite for export;
- (vi) Manufacture of gems and jewellery and export thereof by EOUs in the Special Export Oriented Complex, Jhandewalan and EOUs in gems and jewellery sector.

5.3.7 Time limit for utilization of imported capital goods and inputs

An EOU is required to install the capital goods within a period of one year from the date of import or procurement thereof and account for the usage of inputs within a period of three years from the date of import or procurement thereof. This period can be extended by the jurisdictional Assistant/Deputy Commissioner of Central Excise and Customs/Central Excise.

5.3.8 Manufacture in bond

EOUs are private bonded warehouse under provisions of Section 58 of the Customs Act, 1962. To undertake manufacturing or other operations in the warehouse in relation to warehoused goods, the required permission is granted under Section 65 of the Customs Act, 1962, read with "Manufacture and Other Operations in Warehouse Regulations, 1966". The degree of supervision of the Departmental officers on movement of raw materials, components, finished goods and manufacturing process and accounting in an EOU is aimed at providing operational flexibility, easing restrictions and removing practical difficulties faced by EOUs. Accordingly, the manufacture is now allowed without any physical supervision of the Central Excise and Customs authorities, locking of the warehouse premises, control over the issue and return of imported goods. Further, all movements from and to the units like clearance of raw materials/components to the job worker's premises, return of goods from the job worker's premises, clearance to other EOUs, export and sale into DTA can be made by the manufacturer subject to recording of each transaction in the records prescribed by the Board/Commissioners or their private records approved by the Commissioner. [Refer Circular No. 88/ 98-Cus.. dated 2-12-1998]

Exports by EOUs are allowed on self-sealing and self-certification basis.

The EOUs are allowed self-bonding self-warehousing without the requirement of physical verification of goods by officers of Customs and Central Excise for both imported as well as indigenously procured goods. This relaxation is presently available to those EOUs with a clean track record and whose physical export turnover of goods or services is ₹ 15 crores or above in the preceding financial year. [Refer Circular No. 19/ 2007-Cus., dated 3-5-2007]

5.3.9 B-17 bond

Import/procurement of goods by an EOU for use in manufacture or in connection with production or packaging of goods for export is exempted from payment of customs and central excise duties. EOUs execute a general purpose B-17 bond along with surety or security covering the duty foregone on imported goods. This bond is prescribed under Notification No. 6/98-CE (NT), dated 2-3-1998 as General Bond to be executed by the EOUs for provisional assessment of goods to Central Excise duty, for export of goods and for accounting/disposal of excisable goods procured without payment of duty. This bond also takes care of the interest of revenue against risks arising out of goods lost in transit, goods taken into Domestic Tariff Area for job work/repair/display etc but not brought back. Basically the B-17 bond is an 'all purpose' bond covering liabilities of the EOU both under Customs and Central Excise Acts. However, it does not cover the differential duty *amount* against advance DTA sale for which a separate bond is to be executed.

The B-17 bond is executed with the jurisdictional Assistant/Deputy Commissioner of Central Excise and Customs, as the case may be. The bond is taken for an amount equivalent to 25% of the duty foregone

on the sanctioned requirement of capital goods plus the duty forgone on raw materials required for three months. Surety or security equivalent to 5% of the bond amount in the form of bank guarantee or cash deposit or any other mode of security recognized by the Government is required to be given by the EOUs. In the case of surety, a letter from the person standing surety duly certified by a Chartered Accountant for solvency is also required to be submitted.

Units in existence for the last three years with unblemished track record having export turnover of ₹ five crores or above, are exempted from furnishing Bank Guarantee etc. or Surety along with B-17 bond. [Refer Circulars No. 14/98-Cus., dated 14-3-1998; No. 42/98-Cus., dated 19-6-1998; No. 66/ 98-Cus., dated 15-9-1998; and No. 76/ 99-Cus., dated 17-11-1999]

5.3.10 Monitoring of export performance/foreign exchange realization

The EOUs basically function under the administrative control of the Development Commissioner of the SEZ as per the jurisdiction notified by the Ministry of Commerce. The Development Commissioner is the licensing authority in respect of EOU. In respect of STP/EHTP units, the designated officer (Director) of the Ministry of Communication and Information technology is the licensing authority. These authorities are also responsible for monitoring the export performance of the units in terms of Para 6.12.1 of HBP read with Appendix 14-I-G of HBP.

The concept of NFEP and EP has been replaced with Net Foreign Exchange Earning (NFE) from 2003-04. Further, duty liability is fixed in proportion to shortfall in NFE. Now the unit has to achieve a positive NFE i.e. their foreign exchange earning has to be more than the foreign exchange outflow. The NFE is calculated cumulatively in the block of 5 years. If the unit is not NFE positive, Development Commissioner is required to inform the Central Excise authorities for recovery of the proportionate duty. This provision is not only more equitable but also prevents a unit to become unviable on account of huge demand without taking into account the exports performance achieved.

The Development Commissioner is responsible for monitoring foreign exchange realization/remittances of EOUs in co-ordination with the concerned General Manager of RBI. [Refer RBI Circular No. COEXD. 3109/05.62.05/1999-2000, dated 21-2-2000]

The Unit Approval Committee headed by the Development Commissioner is responsible for monitoring the performance of EOUs.

5.3.11 Import and export procedures

With regard to clearance of import cargo, the EOUs are placed in a special category, eligible for fast track clearance through the Customs on the strength of procurement certificate issued by the jurisdictional Assistant/ Deputy Commissioner. Generally, the EOU cargo is not examined at the gateway port/airport and in case of loose cargo, marks and numbers on the packages are verified. As for sealed containers, the seal number and container number are verified with the Bill of Lading. If the seal is found intact, the container is allowed clearance. The imported cargo so cleared and brought into the unit's premises are examined by the jurisdictional Central Excise and Customs officials. After examination (percentage check only), the goods are allowed to be used for export production. Re-warehousing certificate is to be submitted to the Assistant/Deputy Commissioner in charge of the port of import within 90 days of the issue of procurement certificate.

On the export side, the units having status of a Super Star Trading House, Star Trading House, Trading House, and Export House are allowed the facility of self-sealing of their export containers. [Refer Circulars No. 63/97-Cus., dated 21-11-1997; No. 14/98-Cus., dated 10-3-1998; and No.90/98-Cus., dated 8-12-1998]

5.3.12 Goods imparted/exported and found defective

Subject to grant of GR waiver by the RBI, the EOUs are allowed to make free replacement of the goods exported by them earlier and found defective, damaged or otherwise unfit by the overseas buyer.

However, such defective, damaged or otherwise unfit for use goods are required to be brought back subsequently, to the country. The units are also allowed to re-import part consignment/full consignment in case of failure of the foreign buyer to take delivery.

The EOUs are also allowed to receive free replacement of the goods imported and found defective, damaged or otherwise unfit for use prior to re-export of the same. However, such damaged, defective goods are required to be re-exported subsequently. In case the supplier of such goods does not insist for re-exportation, such goods are required to be either destroyed or cleared into DTA on payment of full customs duty. (Reference Boards Circular 60/99-Cus., dated 10-9-1999)

5.3.13 Procurement of indigenous goods under CT-3 procedure

The EOUs can procure goods from DTA without payment of Central Excise duty on strength of CT-3, which is issued by the Superintendent of Central Excise in charge of the EOU. Such goods are required to be brought directly from the manufacturer/warehouse into the unit's premises under ARE-3 procedure. To avoid separate permission every time, the EOUs are issued pre-authenticated CT-3 in booklet form and against such pre-authenticated CT-3, the EOUs are allowed to procure capital goods, raw materials, consumables etc. Goods procured from DTA and found to be defective can be returned to the manufacturer as prescribed under Central Excise law.

5.3.14 DTA sale

The goods manufactured by EOU, which are similar to the goods exported or likely to be exported from the EOU, are allowed to be sold in Domestic Tariff Area (DTA) at concessional rate of duty upon fulfillment of certain conditions in terms of Para 6.8(a) of the FTP read with Para 6.14 and Appendix 14-1-H of the HBP.

Similar goods' has been defined as goods which are identical in all respects including goods which although not alike in all respect, have like characteristics and like components, materials which enable them to perform the same function and are commercially interchangeable with the goods exported or expected to be exported.

The EOUs (other than gems & jewellery units) are allowed to sell goods (including rejects, scrap, waste, remnants and by-products) in DTA up to 50% of FOB value of exports on payment of concessional duty if they are NFE positive. However, units which are manufacturing and exporting more than one product, can sell any of these products into DTA, upto 90% of FOB value of export of the specific products within the overall DTA entitlement of 50%. Gems and Jewellery units may sell up to 10% of FOB value of export of preceding year subject to fulfillment of positive NFE.

The DTA sale entitlement earned by an EOU is valid for 3 years from the date of its accrual. DTA sales over and above the 50% of FOB value of exports could be made on payment of full duty subject to positive NFE condition.

For a newly set up unit, Advance DTA sale is also allowed on the basis of the projection of export in the first year. For pharmaceutical units, advance DTA sale is allowed on the basis of the projection of export in the first two years. The advance DTA sale is to be adjusted within two years from the date of commencement of production by an EOU. However, in case of pharmaceutical units, this period for adjustments is three years. For this purpose, a separate bond is to be executed with the Assistant/ Deputy Commissioner to cover the difference of duty paid on the advance DTA sale and the duty payable on such goods.

The DTA sale facility on concessional rate is not available for certain products namely motor car, alcoholic liquor, tea (except instant tea), and such other items as are notified from time to time. This facility is also not available to units engaged in the activities of packaging/ labelling/ segregation/ refrigeration/ compacting/ micronisation/ pulverization/ granulation/conversion of monohydrate form of chemical to anhydrous form or vice versa.

DTA sale of pepper & pepper products, marble is not allowed even on payment of full duty.

Specified supplies of goods in DTA which are in the nature of 'deemed exports' as provided in Para 6.9 of FTP and are counted for fulfillment of positive NFE, are also allowed on payment of customs duties leviable on these goods.

5.3.15 Valuation of goods sold in DTA

Section 3 of the Central Excise Act, 1944, provides that the valuation of goods manufactured in the EOU and cleared into DTA is to be done in accordance with the provisions of the Customs law. Thus, when the invoice price of the goods under assessment is in the nature of transaction value, such invoice value can be accepted. [Refer Circulars No.23/84-CX-6, dated 29-5-1984; and No. 330/46/97-CX dated 20-8-1997; and Instruction F. No. 268/35/92-CX-8, dated 17-8-1994]

5.3.16 Duty liability on DTA clearances/sales

In terms of proviso to Section 3(1) of the Central Excise Act, 1944, duty payable on goods cleared in DTA is equal to the aggregate of the Customs duties which would be leviable under the Customs Act, 1962 or under any other law for the time being in force, on like goods produced or manufactured outside India, if imported into India. The value for payment of duty is arrived at in accordance with the provisions of the Customs Act, as if these are imported goods.

On fulfillment of positive NFE, the EOUs other than Gem and Jewellery units are allowed to sell goods including rejects, waste, scrap, remnants, byproducts and services in DTA, its products similar to goods which are exported or expected to be exported from units, within overall ceiling of 50% of FOB value of exports at a concessional rate of duty in an amount equal to 50% of Customs duties. Sales beyond 50% of entitlement would attract full duties. Sale of rejects upto 5% of FOB value of exports and sale of Scrap/waste/remnants shall not be subject to achievement of NFE. The words "FOB value of exports" refers to physical exports only. Therefore, the value of deemed exports made by the unit is not considered while determining the FOB value of exports.

Sales made to a unit in SEZ is also taken into account for purpose of arriving at FOB value of export by EOU provided payment for such sales are made from Foreign Exchange Account of SEZ unit. Sale to DTA would also be subject to mandatory requirement of registration of pharmaceutical products (including bulk drugs). An amount equal to Anti-Dumping duty under section 9A of the Customs Tariff Act, 1975 leviable at the time of import, shall be payable on the goods used for the purpose of manufacture or processing of the goods cleared into DTA from the unit.

For services, including software units, sale in DTA in any mode, including on line data communication, is also permissible up to 50% of FOB value of exports and/or 50% of foreign exchange earned, where payment of such services is received in foreign exchange.

In case of new EOUs, advance DTA sale are allowed not exceeding 50% of its estimated exports for first year, except pharmaceutical units where this will be based on its estimated exports for first two years.

Units in Textile and Granite sectors have an option to sell goods into DTA in terms of sub-paras 6.8 (a), (d), (e), (g) and (k) of the FTP, on payment of an amount equal to aggregate of duties of excise leviable under section 3 of the Central Excise Act, 1944 or under any other law for the time being in force, on like goods produced or manufactured in India other than in an EOU, subject to the condition that they have not used duty paid imported inputs in excess of 3% of the FOB value of exports of the preceding year and they have achieved positive NFE. Once this option is exercised, the unit will not be allowed to import any duty free inputs for any purpose.

The concessional rate of duties for goods sold in DTA by an EOU are prescribed under Notification No. 23/2003-CE, dated 31-3-2003.

5.3.17 Goods manufactured from indigenous materials in EOU

Goods manufactured out of wholly indigenous inputs are allowed clearance into DTA on payment of only Central Excise duty. Earlier, goods supplied from DTA to EOU on which deemed export benefits had been availed were also considered as indigenous goods for extending the benefit of Notification No. 23/2003-CE, dated 31-3-2003 for payment of Central Excise duty, but w.e.f. 6-7-2007 the exemption is denied where goods are manufactured out of indigenous goods on which deemed exports benefits have been availed.

Where goods are either non-excisable or are leviable to nil rate of import duty, no exemption in respect of inputs utilized for manufacture of such goods is allowed. An EOU is required to pay back the duty foregone on the inputs used in manufacture of goods cleared in DTA on which no duty is leviable.

5.3.18 Clearance of by-products, rejects, waste, scrap, remnants, nonexcisable goods, etc.

Scrap/waste/remnants arising out of production process or in connection therewith are allowed to be sold in DTA, as per SION notified by Directorate General of Foreign Trade (under Duty Exemption Scheme), on payment of concessional duties as applicable, within overall ceiling of 50% of FOB value of exports. Such sales of scrap/waste/remnants shall not be subject to achievement of positive NFE. In respect of items not covered by SION norms, Development Commissioner may fix *ad-hoc* norms for a period of six months and within this period, norm should be fixed by Norms Committee and *ad-hoc* norms will continue till such time. Sale of waste/scrap/remnants by units not entitled to DTA sale, or sales beyond DTA sale entitlement, shall be on payment of full duties. Scrap/waste/remnants may also be exported. However, no duties/taxes on scrap/waste/remnants are charged, in case same are destroyed with permission of Central Excise & Customs authorities.

The DTA clearance of by-products and rejects on concessional rate duty is not allowed to the EOUs, which have failed to achieve the positive NFE. In such cases, the EOUs are liable to pay full duty. Further, in case of such units, DTA clearance of finished goods is not allowed even on payment of full duty.

DTA clearance of goods manufactured by the EOUs which are not excisable (e.g. cut flowers) the duty on inputs and consumables etc. procured/imported duty free under exemption notifications, which have gone into production of such non excisable goods cleared into DTA, is recovered.

In case of Gems and Jewellery EOUs and EHTP/STP units, scrap, dust or sweepings of gold/silver/platinum generated in the unit is allowed to be forwarded to the Government Mint or Private Mint for conversion into standard gold bars and return thereof to the unit subject to the observance of procedure laid down by the Commissioner of Central Excise & Customs. The said dust, scrap or sweepings are also allowed clearance into DTA on payment of applicable customs duty on the gold/silver/platinum content in the said scrap, dust or sweepings. Samples of the sweepings/dust are taken at the time of clearance and sent to mint for assaying. The assessment is finalized when the reports are received from the mint. [Refer Circular No. 19/ 99-Cus., dated 29-4-1999]

5.3.19 Special concessions for certain waste products and other goods

Rags, trimmings and tailor cuttings arising in the course of manufacture of readymade garments are fully exempt from excise duty when cleared into DTA by EOUs. This is subject to the condition that the percentage of waste material in the form of rags, trimmings and tailor cuttings does not exceed the percentage fixed in this regard by the Board of Approval. The waste of fish or crustaceans, mollusks or other aquatic invertebrates falling in chapter heading 05.01, castor oil cake manufactured from the indigenous castor oil seeds on indigenous plant and machinery falling under chapter heading 23.01, guar meal manufactured wholly from indigenous guar seeds falling under chapter heading 23.02 and yarn of jute and goods of jute, manufactured from wholly indigenous raw materials headings 53.07, 53.10, 5702.12, 5703.20, 58.01, 58.02, 58.06 or 6305.0 are fully exempt from payment of duty if manufactured by EOUs wholly from indigenous materials and cleared into DTA. Also, cotton waste

(including yarn falling under heading 52.02) is fully exempted if produced or manufactured by EOU and allowed to be sold in India.

Gems and Jewellery units may sell jewellery upto 10% of FOB value of exports of the preceding year in DTA, subject to fulfillment of positive NFE. In respect of sale of plain jewellery, recipient shall pay concessional rate of duty as applicable to sale from nominated agencies. In respect of studded jewellery, duty shall be payable as applicable.

Specified textile items are allowed clearance on payment of concessional duty.

5.3.20 Reimbursement of Central Sales Tax (CST)/Drawback

Supplies from DTA to EOUs are regarded as "deemed exports" and considered for discharge of any export obligation on the supplier. For such supplies, the DTA supplier (or the EOU if the DTA supplier gives a disclaimer) is eligible for the following benefits:---

- (i) Supply of goods against Advance Authorisation/Advance Authorisation for annual requirement/ DFIA;
- (ii) Deemed Export Drawback;
- (iii) Exemption from terminal excise duty where supplies are made against ICB. In other cases, refund of terminal excise duty.

Goods manufactured in India and supplied to EOU are eligible for reimbursement of CST.

All the above benefits are administered and disbursed by the Development Commissioner/ Regional Authority of DGFT under the Ministry of Commerce.

5.3.21 Calculation of duty on goods/services/waste/scrap/by-products cleared in DTA under Paragraph 6.8 of the FTP:

The concessional rate of duties for goods sold in DTA by an EOU are prescribed under Notification No. 23/2003-CE, dated 31-3-2003.

5.3.22 Clearance of samples

EOUs may on basis of records maintained by them, and on prior intimation to jurisdictional Central Excise and Customs authority---

- (i) Supply or sell samples in DTA for display/market promotion on payment of applicable duties.
- (ii) Remove samples without payment of duty, on furnishing a suitable undertaking to jurisdictional Central Excise and Customs authorities for bringing back samples within a stipulated period.
- (iii) Export free samples, without any limit, including samples made in wax moulds, silver mould and rubber moulds through all permissible mode of export including through courier agencies/post. For statutory requirement of Stability & Retention sample with manufacturer, an EOU may re-import without payment of duty, those samples, which were exported by it, under intimation to Custom Authorities and FOB value of such samples shall not be counted for NFE purpose and other export benefits, if any.
- (iv) Send samples to other EOUs for display on returnable basis within a period of 30 days.

EOUs are allowed to send samples abroad through the courier. The packages containing such samples are sealed in the presence of the Departmental Officer and are handed over to the representative of the courier company authorised by the Commissioner of Central Excise & Customs for presentation to the Customs at the port of export. These sealed samples are not normally examined again before "let export" is given if the seals are found intact and not tampered. The representative of the courier company later hands over the proof of export to the jurisdictional Assistant/Deputy Commissioner. [Refer Circulars No. 22/ 98-Cus., dated 27-3-1998; and No. 52/99-Cus., dated 20-8-1999]

5.3.23 Clearance of Fax/laptop computers outside approved premises

EOUs may-

- (i) Install one fax machine at a place of choice, outside the premises of unit, subject to intimation of its location to concerned Customs/Central Excise authorities.
- (ii) Temporarily take out of premises of unit, duty free laptop computers and video projection systems for working upon by authorized employees.
- (iii) Install personal computers not exceeding two in number, imported/procured duty free in their registered Administrative Office subject to CBEC guidelines.
- (iv) For IT and IT enabled services, persons authorized by software units may access facility installed in EOU/ EHTP/ STP/ BTP unit through communication links.

5.3.24 Sale of surplus/unutilized goods

EOUs are allowed to sell surplus/unutilized goods and services, imported or procured duty free, into DTA on payment of duty on the value at the time of import/procurement and at rates in force on the date of payment of such duty, in case the unit is unable, for valid reasons, to utilize the goods. The permission for such DTA sale is given by the jurisdictional Assistant/ Deputy Commissioner of Central Excise and Customs.

Unutilized goods and services may also be transferred to another EOU/EHTP/STP/BTP/SEZ unit or exported. Such transfer to another such unit would be treated as import for receiving unit.

Obsolete/surplus capital goods and spares can either be exported, transferred to another EOU/EHTP/STP/BTP/SEZ unit or disposed of in the DTA on payment of applicable duties. The benefit of depreciation, as applicable, will be available in case of disposal in DTA only when the unit has achieved positive NFE. Duty is not charged in case of obsolete/ surplus capital goods, consumables, spares, goods manufactured, processed or packaged and scrap, waste, remnants are destroyed within the unit after intimation to Central Excise & Customs authorities or destroyed outside unit with the permission of Central Excise & Customs authorities.

5.3.25 Destruction of flowers/ horticulture products

Flowers, vegetables and agricultural products have a very short shelf life and are prone to malformation, injury, damage, infection etc. These products cannot be preserved for a longer period. There are circumstances (especially in case of floriculture units) when the EOUs do not find the goods exportable/ marketable for various reasons such as malformation, injury, damage, infection by pest and diseases etc. and the units have to resort to forced destruction of flowers, vegetables etc. In such cases, duty is not charged from the EOUs.

At times, the flowers and floriculture products deposited in the warehouse of the airlines at the international airports for the purpose of exports are not exported owing to various reasons, such as, delay in flights, cancellation of flights etc. In such cases, the units are allowed to sell such flowers and floriculture products in DTA on payment of applicable duty. For such DTA sales, the unit must have DTA sale entitlement under the scheme. The unit is required to obtain permission from the concerned Development Commissioner for such DTA sale and shall clear the goods on payment of duty assessed by the concerned Assistant Commissioner/Deputy Commissioner in charge of the cargo.

The DTA sale is allowed against documents as are used for DTA sale by EOUs in the manner as if the goods cleared from the unit itself. [Refer-Circular No. 31/2001-Cus., dated 24-5-2001]

5.3.26 Sub-contracting

EOUs, including Gems and Jewellery units, are allowed to sub-contract their production process to DTA. These units may also sub-contract upto 50% of the overall production of previous year in value

terms for job work in DTA. For this, permission is to be obtained from the Central Excise authorities. Sub-contracting of both production and production process are also allowed to be undertaken through another EOU or SEZ unit on the basis of records maintained by the unit. The units are also allowed to sub-contract part of the production process abroad.

To help utilize the idle capacity, an EOU can undertake job work for export, on behalf of DTA exporter, provided the goods are exported directly from EOU's premises and export documents are prepared jointly in the name of DTA/EOU. For such exports, the DTA unit is entitled for refund of duty paid on the inputs by way of Brand rate of duty Drawback.

Sub-contracting by EOU Gems and Jewellery units through other EOUs, or SEZ units, or units in DTA shall be subject to following conditions:-

- (i) Goods, finished or semi-finished, including studded jewellery, taken out for sub-contracting shall be brought back to the EOU within 90 days.
- (ii) No cut and polished diamonds, precious and semi-precious stones (except precious, semi-precious and synthetic stones having zero duty) shall be allowed to be taken out for sub-contracting.
- (iii) Receive plain gold/silver/platinum jewellery from DTA/EOU/ SEZ units in exchange of equivalent quantity of gold/silver/platinum, as the case may be, contained in said jewellery.
- (iv) EOUs shall be eligible for wastage as applicable as per para 4A.2 of HBP v1 for sub- contracting and against exchange.
- (v) DTA unit undertaking job work or supplying jewellery against exchange of gold/silver/platinum shall not be entitled to deemed export benefits. [Refer Circulars No. 65/2002-Cus., dated 7-10-2002; and No. 26/2003-Cus, dated 1-4-2003]

5.3.27 Temporary removal of goods

The EOUs, STP, EHTP units engaged in development of software are allowed to remove imported laptop computers and video projection system out of the bonded premises temporarily without payment of duty subject to following the prescribed procedures. [Refer Circulars No.17/ 98-Cus., dated 16-3-1998; and No. 84/2000-Cus., dated 16-4-2000]

5.3.28 Inter-unit transfer

Inter-unit transfer of manufactured and capital goods from one EOU unit to another EOU/SEZ unit is permitted in terms of Para 6.13 of the FTP. Sale of unutilized goods is also allowed from one EOU to another EOU/SEZ unit in terms of Para 6.15 of FTP. Inter-unit transfer of the raw material is not allowed in normal course. However, where a unit proves that it is not able to utilize the raw material, same can also be allowed to be transferred.

Inter-unit transfer is allowed without payment of duty Goods supplied by one unit to another unit are treated as imported goods for the receiving unit in terms of Para 6.13(c) of the FTP and therefore the usual procedure of bonding and re-warehousing is to be followed. Further the value of goods obtained from another EOU is to be included in the import value for fulfillment of NFE in terms of Para 6.10.2 of the HBP. Further, such supplies are also counted towards FE earning provided these are permissible in terms of Para 6.15 of the HBP.

Capital goods and goods manufactured, produced, processed, or packaged in an EOU can be taken to another EOU/SEZ unit without payment of duty under the cover of ARE-3 for manufacture and export there from or for use within the unit after giving intimation to the proper officer. Both the units have to keep account of such removal and receipt and are required to follow in-bond movement procedure or rewarehousing procedure as the case may be.

5.3.29 Repair, reconditioning and re-engineering

EOU / EHTP/ STP/BTP units may be set up with approval of BOA to carry out reconditioning, repair, remaking, testing, calibration, quality improvement, upgradation of technology and re-engineering

activities for export in foreign currency. Provisions of paras 6.8, 6.9, 6.10, 6.13, 6.14 of the FTP and para 6.28 of the HBP shall not, however, apply to such activities. In other words the unit undertaking these activities are not permitted sale in DTA and some other benefits.

5.3.30 Replacement/repair of imported/indigenous goods

EOUs may send capital goods abroad for repair with permission of Customs authorities. Any foreign exchange payment for this purpose will also be allowed. However, no permission will be required for sending capital goods for repair within the country.

5.3.31 Special provisions relating to Gems and Jewellery EOUs

The EOUs in Gems and Jewellery sector are allowed certain special facilities as mentioned below, with prior permission of Assistant/ Deputy Commissioner of Central Excise and Customs:-

- (i) An authorized person of the EOU can import gold in primary form, upto 10 Kgs in a financial year through personal carriage, as per guidelines prescribed by RBI and DOR;
- (ii) The items of gems and jewellery to be taken out temporarily into DTA without payment of duty for the purpose of display and to be returned thereafter;
- (iii) Personal carriage of gold/silver/platinum jewellery, cut & polished diamonds, semi-precious stones, beads and articles as samples upto US \$ 1 million for export promotion tours and temporary display/ sale abroad with the approval of development Commissioner subject to the condition that the exporter would bring back the goods or repatriate sale proceeds within 45 days from the date of departure through normal banking channel and that the unit shall declare personal carriage of such samples to Customs while leaving country and obtain necessary endorsement;
- (iv) Export of jewellery including branded jewellery for display and sale in the permitted shops setup abroad, or *in the showroom* of their distributors or agents provided that items not sold abroad within 180 days, shall be re-imported within next 45 days;
- (v) Gems and jewellery manufactured in the EOUs situated in the municipal limits of Calcutta, Chennai, Delhi and Mumbai and sold to a foreign-bound passenger are allowed to be transferred to the retail outlets or show-rooms set up in the departure lounge or Customs warehouse at international airports for being handed over to the said passenger for the purpose of export;
- (vi) Removal of moulds, tools, patterns, and drawings into the DTA for jobwork without payment of duty and to be returned to *the unit* thereafter.

5.3.32 Cost Recovery charges

Cost recovery charges are the amount recoverable from the EOU on account of the expenses incurred by the Government for the posting of Central Excise & Customs staff at its premises to supervise their operations. The cost of posts created for EOUs has been determined at an amount equivalent to the actual salary and emoluments of the staff deployed i.e. the average pay and allowances including D.A., H.R.A etc. The EOUs pay in advance the cost recovery charges determined for the entire year. Generally, one Central Excise and Customs officer supervises the functioning of four to five units and the cost recovery charges are shared amongst them. [Refer Instructions F. No. 305/105/85-FTT, dated 10-6-1986; and F. No. 11018/63/87-Ad IV, dated 11-1-1988]

5.3.33 Supervision by Departmental Officers

In terms of the Manufacture and Other Operations in Warehouse Regulations, 1966 operational flexibility is provided to EOUs and they do not need to carry out manufacturing operations under physical supervision of Central Excise and Customs Officers and are also exempt from locking of the warehouse, control over the issue of imported goods etc. by these officers. All *the* movements from and to the EOU like clearance of raw materials/component to the job workers premises, return of goods from the job-

workers' premises, clearance to other EOUs, export and sale in DTA are allowed to be made by the EOU subject to maintenance of the records.

In absence of physical control greater stress is given on proper maintenance of prescribed records & accounts and non-maintenance of the accounts by the units is viewed seriously. The officers in charge of EOUs are required to scrutinize/ examine the accounts/ records and transactions of the EOU at least once a month and ensure that all movements of goods are recorded in the proper register. The Chief Commissioner is empowered to order special audit of the EOU by Cost Accountant nominated in this regard. Cost audit is employed as a tool to check the correctness of raw materials, quantity used, finished goods produced or other such situation. [Refer Circular No. 88/ 98-Cus., dated 2-12-1998]

5.3.34 Monitoring of EOUs

In terms of Appendix 14-I-G of the HBP, the performance of EOUs is to be reviewed by the Unit Approval Committee (UAC) of the SEZ headed by the Development Commissioner which consists of Commissioner of Central Excise and Customs or his nominee as one of the members. The purpose of review is to ensure that the performance of EOUs is effectively monitored and action is taken against the units which have contravened the provisions of the FTP/HBP and the Customs Law/Procedures. Besides, such monitoring gives an opportunity to the Government to discuss and help resolve the problems/ difficulties being faced by the EOUs. The idea is to remove all bottlenecks in export promotion efforts while not jeopardizing the interests of revenue.

5.3.36 Recovery of duty forgone and penal action for abuse/ diversion etc.

EOUs are required to achieve positive NFE as stipulated in the FTP and in case of failure to do so, the duty forgone under the EOU scheme along with interest is recoverable from the units. Further, the duty is recoverable from the units in case of non receipt of imported/indigenously procured goods in the factory premises after import/procurement, loss of goods in transit, non-accountal of imported/indigenously procured goods, unauthorized DTA sale, clandestine removal etc. Duty can also be demanded in case of failure to utilize duty free imported/indigenously procured goods including capital goods within the prescribed time limit. The duty is also recoverable on goods removed for job work/display/testing/quality testing, but not received back in the unit within the specified period of time.

Apart from recovery of duty forgone, the law also provides for taking penal action where any EOU is found to have indulged into any fraudulent activities eg. clandestine removal of production into DTA without payment of duties, diversion of duty free materials in transit to the unit after customs clearance or after receipt etc., not only the offending goods can be seized and confiscated, but even units penalized heavily/prosecuted.

5.3.36 De-bonding of goods/exit from EOU scheme

An EOU can clear any capital goods to any other place in India or de-bond in accordance with FTP with the permission of the Development Commissioner and on payment of duty at the rate in force on the date of clearance/de-bonding on the depreciated value.

Clearance or de-bonding of capital goods are allowed on payment of duty on the depreciated value thereof and at the rate in force on the date of de-bonding or clearance, as the case may be, if the unit has fulfilled the positive NFE criteria taking into consideration the depreciation allowable on the capital goods at the time of clearance or de-bonding. In case of failure to achieve the said positive NFE, the depreciation shall be allowed on the value of capital goods in the same proportion as the achieved portion of NFE.

The depreciation of capital goods shall be allowed in straight line method as specified below, namely:-

(a) For computer and computer peripherals:

For every quarter in the first year	@10%
For every quarter in the second year	@8%
For every quarter in the third year	@5%
For every quarter in the fourth and fifth year	@1%

(b) For capital goods other than computer and computer peripherals:--

For every quarter in the first year	@4%
For every quarter in the second year	@3%
For every quarter in the third year	@3%
For every quarter in the fourth and fifth year	@ 2.5 %
and thereafter for every quarter	@ 2%

For the purpose of computing rate of depreciation for any part of a quarter, a full such quarter is taken into account. There is no upper limit for such depreciation and depreciation upto 100% could be allowed.

Raw materials, semi-finished and finished goods including empty cones, containers suitable of repeated use lying in stock at the time of de-bonding can also be cleared on payment of duty on their value at the time of import and at the rate of duty in force on the date of payment of such duty.

Used packing materials such as cardboard boxes, polyethylene bags of a kind unsuitable for repeated use can be cleared without payment of duty.

As per para 6.18(e) of FTP and Appendix 14-I-L of HBP, an EOU can opt out of the scheme after taking approval of the Development Commissioner. Such exit is permitted subject to payment of the duties and the industrial policy in force at the time of exit. The Development Commissioner first gives permission for 'in-principle' de-bonding, then unit is required to pay all pending Customs/ Central Excise duties to obtain no-dues certificate from Central Excise & Customs authorities. Thereafter the Development Commissioner permits final de-bonding.

If the unit has not achieved the export obligation under the scheme, it is also liable to pay penalty under Foreign Trade (Development and Regulation) Act at the time of exit.

After obtaining in principle de-bonding order, the unit is required to assess the duty liability by itself and submit such details to jurisdictional Customs/Central Excise authority. The Assistant/ Deputy Commissioner of Central Excise and Customs is required to confirm the duty liability within 15 days of the receipt of the details of assessment from the unit and issue 'No-dues Certificate' to the unit. In case of any discrepancy, it has to be conveyed to the unit within 15 days.

5.4 SPECIAL ECONOMIC ZONES ACT, 2005 (SEZ)

An Act to provide for the establishment, development and management of the Special Economic Zones for the promotion of exports and for matters connected therewith or incidental thereto.

BE it enacted by Parliament in the Fifty-sixth Year of the Republic of India as follows:-

5.4.1 Statement of Objects and Reasons

1. The Government of India had announced a Special Economic Zone Scheme in April, 2000 with a view to provide an internationally competitive environment for exports. The objectives of Special Economic Zones include making available goods and services free of taxes and duties supported by

integrated infrastructure for export production, expeditious and single window approval mechanism and a package of incentives to attract foreign and domestic investments for promoting export-led growth.

2. There are at present eleven functioning Special Economic Zones. While seven Zones have been set up by the Central Government, four by the private/joint/State sector. In addition, approvals have been given for setting up of thirty-five new Special Economic Zones in the private/joint/State sector.
3. While the policy relating to the Special Economic Zones is contained in the Foreign Trade Policy, incentives and other facilities offered to the Special Economic Zone developer and units are implemented through various notifications and circulars issued by the concerned Ministries/ Departments. The present system, therefore, does not lend enough confidence for investors to commit substantial funds for development of infrastructure and for setting up of the units in the Zones for export of goods and services. In order to give a long term and stable policy framework with minimum regulatory regime and to provide expeditious and single window clearance mechanism, a Central Act for Special Economic Zones has been found to be necessary in line with international practice. To achieve this purpose, a "Special Economic Zones Bill, 2005" is proposed. The salient features of the Bill are as under :
 - (i) matters relating to establishment of Special Economic Zone and for setting up of units therein, including requirements, obligations and entitlements;
 - (ii) matters relating to requirements for setting up of off-shore banking units and units in International Financial Service Center in Special Economic Zone, including fiscal regime governing the operation of such units;
 - (iii) the fiscal regime for developers of Special Economic Zones and units set up therein;
 - (iv) single window clearance mechanism at the Zone level;
 - (v) establishment of an Authority for each Special Economic Zone set up by the Central Government to impart greater administrative autonomy; and
 - (vii) designation of special Courts and single enforcement agency to ensure speedy trial and investigation of notified offences committed in Special Economic Zones.
4. The Bill seeks to achieve the aforesaid objects.

5.4.2 Short title, extent and commencement

1. This Act may be called THE SPECIAL ECONOMIC ZONES ACT, 2005.
2. It extends to the whole of India.
3. It shall come into force on such date² as the Central Government may, by notification in the Official Gazette, appoint, and different dates may be appointed for different provisions of this Act and any reference in any such provision to the commencement of this Act shall be construed as a reference to the coming into force of that provision.

5.4.3 Definitions

In this Act, unless the context otherwise requires,--

- (a) "appointed day" with reference to a Special Economic Zone means the date on which the Special Economic Zone is notified by the Central Government under sub-section (1) of section 4;
- (b) "Approval Committee" means an Approval Committee constituted under sub-section (1) of section 13;
- (c) "authorised operations" means operations which may be authorised under sub-section (2) of section 4 and sub-section (9) of section 15;

- (d) "Authority" means a Special Economic Zone Authority constituted under sub-section (1) of section 31;
- (e) "Board" means the Board of Approval constituted under sub-section (1) of section 8;
- (f) "Co-Developer" means a person who, or a State Government which, has been granted by the Central Government a letter of approval under sub-section (12) of section 3;
- (g) "Developer" means a person who, or a State Government which, has been granted by the Central Government a letter of approval under sub-section (10) of section 3 and includes an Authority and a Co-Developer;
- (h) "Development Commissioner" means the Development Commissioner appointed for one or more Special Economic Zones under sub-section (1) of section 11;
- (i) "Domestic Tariff Area" means the whole of India (including the territorial waters and continental shelf) but does not include the areas of the Special Economic Zones;
- (j) "entrepreneur" means a person who has been granted a letter of approval by the Development Commissioner under sub-section (9) of section 15;
- (k) "existing Special Economic Zone" means every Special Economic Zone which is in existence on or before the commencement of this Act;
- (l) "existing Unit" means every Unit which has been set up on or before the commencement of this Act in an existing Special Economic Zone;
- (m) "export" means-
 - (i) taking goods, or providing services, out of India, from a Special Economic Zone, by land, sea or air or by any other mode, whether physical or otherwise; or
 - (ii) supplying goods, or providing services, from the Domestic Tariff Area to a Unit or Developer; or
 - (iii) supplying goods, or providing services, from one Unit to another Unit or Developer, in the same or different Special Economic Zone;
- (n) "Free Trade and Warehousing Zone" means a Special Economic Zone wherein mainly trading and warehousing and other activities related thereto are carried on;
- (o) "import" means-
 - (i) bringing goods or receiving services, in a Special Economic Zone, by a Unit or Developer from a place outside India by land, sea or air or by any other mode, whether physical or otherwise; or
 - (ii) receiving goods, or services by a Unit or Developer from another Unit or Developer of the same Special Economic Zone or a different Special Economic Zone;
- (p) "infrastructure facilities" means industrial, commercial or social infrastructure or other facilities necessary for the development of a Special Economic Zone or such other facilities which may be prescribed;
- (q) "International Financial Services Centre" means an International Financial Service Centre which has been approved by the Central Government under sub-section (1) of section 18;
- (r) "manufacture" means to make, produce, fabricate, assemble, process or bring into existence, by hand or by machine, a new product having a distinctive name, character or use and shall include processes such as refrigeration, cutting, polishing, blending, repair, remaking, re-engineering and includes agriculture, aquaculture, animal husbandry, floriculture, horticulture, pisciculture, poultry, sericulture, viticulture and mining;

- (s) "notification" means a notification published in the Official Gazette and the expression "notify" shall be construed accordingly;
- (t) "notified offences" means the offences specified as such under sub-section (1) of section 21;
- (u) "Offshore Banking Unit" means a branch of a bank located in a Special Economic Zone and which has obtained the permission under clause (a) of sub-section (1) of section 23 of the Banking Regulation Act, 1949 (10 of 1949);
- (v) "person" includes an individual, whether resident in India or outside India, a Hindu undivided family, co-operative society, a company, whether incorporated in India or outside India, a firm, proprietary concern, or an association of persons or body of individuals, whether incorporated or not, local authority and any agency, office or branch owned or controlled by such individual, Hindu undivided family, co-operative, association, body, authority or company;
- (w) "prescribed" means prescribed by the rules made by the Central Government under this Act;
- (x) "Reserve Bank" means the Reserve Bank of India constituted under section 3 of the Reserve Bank of India Act, 1934 (2 of 1934);
- (y) "Schedule" means Schedules to this Act;
- (z) "services" means such tradable services which,-
 - (i) are covered under the General Agreement on Trade in Services annexed as IB to the Agreement establishing the World Trade Organisation concluded at Marrakesh on the 15th day of April, 1994;
 - (ii) may be prescribed by the Central Government for the purposes of this Act; and
 - (iii) earn foreign exchange;
- (za) "Special Economic Zone" means each Special Economic Zone notified under the proviso to sub-section (4) of section 3 and sub-section (1) of section 4 (including Free Trade and Warehousing Zone) and includes an existing Special Economic Zone;
- (zb) "State Government" means a State Government of the State in which a Special Economic Zone is established or proposed to be established;
- (zc) "Unit" means a Unit set up by an entrepreneur in a Special Economic Zone and includes an existing Unit, an Offshore Banking Unit and a Unit in an International Financial Services Centre, whether established before or established after the commencement of this Act;
- (zd) all other words and expressions used and not defined in this Act but defined in the Central Excise Act, 1944 (1 of 1944), the Industries (Development and Regulation) Act, 1951 (65 of 1951), the Income-tax Act, 1961 (43 of 1961), the Customs Act, 1962 (52 of 1962) and the Foreign Trade (Development and Regulation) Act, 1992 (22 of 1992) shall have the meanings respectively assigned to them in those Acts.

5.4.4 Procedure for making proposal to establish Special Economic Zone

- (1) A Special Economic Zone may be established under this Act, either jointly or severally by the Central Government, State Government, or any person for manufacture of goods or rendering services or for both or as a Free Trade and Warehousing Zone.
- (2) Any person, who intends to set up a Special Economic Zone, may, after identifying the area, make a proposal to the State Government concerned for the purpose of setting up the Special Economic Zone.
- (3) Notwithstanding anything contained in sub-section (2), any person, who intends to set up a Special Economic Zone, may, after identifying the area, at his option, make a proposal directly to the Board for the purpose of setting up the Special Economic Zone:

Provided that where such a proposal has been received directly from a person under this sub-section, the Board may grant approval and after receipt of such approval, the person concerned shall obtain the concurrence of the State Government within the period, as may be prescribed.

- (4) In case a State Government intends to set up a Special Economic Zone, it may after identifying the area, forward the proposal directly to the Board for the purpose of setting up the Special Economic Zone:

Provided that the Central Government may,-

- (a) after consulting the State Government concerned;
 - (b) without referring the proposal for setting up the Special Economic Zone to the Board; and
 - (c) after identifying the area, suo mote set up and notify the Special Economic Zone.
- (5) Every proposal under sub-sections (2) to (4) shall be made in such form, and, manner, containing such particulars as may be prescribed.
- (6) The State Government may, on receipt of the proposal made under sub-section (2), forward the same together with its recommendations to the Board within such period as may be prescribed.
- (7) Without prejudice to the provisions contained in sub-section (8), the Board may, after receipt of the proposal under sub-sections (2) to (4), approve the proposal subject to such terms and conditions as it may deem fit to impose, or modify or reject the proposal.
- (8) The Central Government may prescribe the following requirement for establishment of a Special Economic Zone, namely:-
- (a) the minimum area of land and other terms and conditions subject to which the Board shall approve, modify or reject any proposal received by it under sub-sections (2) to (4); and
 - (b) the terms and conditions, subject to which the Developer shall undertake the authorised operations and his obligations and entitlements:

Provided that different minimum area of land and other terms and conditions referred to in clause (a) may be prescribed by the Central Government for a class or classes of Special Economic Zones.

- (9) If the Board,-
- (a) approves without any modification the proposal received under sub-sections (2) to (4), it shall communicate the same to the Central Government;
 - (b) approves with modifications the proposal received under sub-sections (2) to (4), it shall, communicate such modifications to the person or the State Government concerned and if such modifications have been accepted by such person or State Government, the Board shall communicate the approval to the Central Government;
 - (c) rejects the proposal received under sub-sections (2) to (4), it shall record the reasons therefor and communicate the rejection to the Central Government which shall intimate to the State Government or the person concerned.
- (10) The Central Government shall, on receipt of communication under clause (a) or clause (b) of sub-section (9), grant, within such time as may be prescribed, a letter of approval on such terms and conditions and obligations and entitlements as may be approved by the Board, to the Developer, being the person or the State Government concerned.

Provided that the Central Government may, on the basis of approval of the Board, approve more than one Developer in a Special Economic Zone in cases where one Developer does not have in his possession the minimum area of contiguous land, as may be prescribed, for setting up a Special Economic Zone and in such cases, each Developer shall be considered as a Developer in respect of the land in his possession.

- (11) Any person who, or a State Government which, intends to provide any infrastructure facilities in the identified area referred to in sub-sections (2) to (4), or undertake any authorised operation may, after entering into an agreement with the Developer referred to in sub-section (10), make a proposal for the same to the Board for its approval and the provisions of sub-section (5) and sub-sections (7) to (10) shall, as far as may be, apply to the said proposal made by such person or the State Government.
- (12) Every person or the State Government Board and who, or which has been whose proposal has been approved by granted letter of approval by the Central Government, shall be considered as a Co-Developer of the Special Economic Zone.
- (13) Subject to the provisions of this section and the letter of approval granted to a Developer, the Developer may allocate space or built up area or provide infrastructure services to the approved Units in accordance with the agreement entered into by him with the entrepreneurs of such units.

5.4.5 Establishment of Special Economic Zone and approval and authorisation to operate it to, Developer

- (1) The Developer shall, after the grant of letter of approval under sub-section (10) of section 3, submit the exact particulars of the identified area referred to in sub-sections (2) to (4) of that section, to the Central Government and thereupon that Government may, after satisfying that the requirements, under sub-section (8) of section 3 and other requirements, as may be prescribed, are fulfilled, notify the specifically identified area in the State as a Special Economic Zone.

Provided that an existing Special Economic Zone shall be deemed to have been notified and established in accordance with the provisions of this Act and the provisions of this Act shall, as far as may be, apply to such Zone accordingly.

Provided further that the Central Government may, after notifying the Special Economic Zone, if it considers appropriate, notify subsequently any additional area to be included as a part of that Special Economic Zone.

- (2) After the appointed day, the Board may, authorise the Developer to undertake in a Special Economic Zone, such operations which the Central Government may authorise.

5.4.6 Guidelines for notifying Special Economic Zone

The Central Government, while notifying any area as a Special Economic Zone or an additional area to be included in the Special Economic Zone and discharging its functions under this Act, shall be guided by the following, namely:-

- (a) generation of additional economic activity;
- (b) promotion of exports of goods and services;
- (c) promotion of investment from domestic and foreign sources;
- (d) creation of employment opportunities;
- (e) development of infrastructure facilities; and
- (f) maintenance of sovereignty and integrity of India, the security of the State and friendly relations with foreign States.

5.4.7 Processing and non-processing areas

The areas falling within the Special Economic Zones may be demarcated by the Central Government or any authority specified by it as-

- (a) the processing area for setting up Units for activities, being the manufacture of goods, or rendering services; or

- (b) the area exclusively for trading or warehousing purposes; or
- (c) the non-processing areas for activities other than those specified under clause (a) or clause (b).

5.4.8 Exemption from taxes, duties or cess

Any goods or services exported out of or imported into, or procured from the Domestic Tariff Area by-

- (a) Unit in a Special Economic Zone; or
- (b) Developer,

shall, subject to such terms, conditions and limitations, as may be prescribed, be exempt from the payment of taxes, duties or cess under all enactments specified in the First Schedule.

5.4.9 Constitution of Board of Approval

- (1) The Central Government shall, within fifteen days of the commencement of this Act, by notification, constitute, for the purposes of this Act, a Board to be called the Board of Approval.
- (2) The Board shall consist of-
 - (a) an officer not below the rank of an Additional Secretary to the Government of India in the Ministry or Department of the Central Government dealing with commerce-Chairperson, ex officio;
 - (b) two officers, not below the rank of a Joint Secretary to the Government of India, to be nominated by the Central Government to represent the Ministry or Department of the Central Government dealing with revenue-Member, ex officio;
 - (c) one officer not below the rank of a Joint Secretary to the Government of India to be nominated by the Central Government to represent the Ministry or Department of the Central Government dealing with economic affairs (financial services)-Member, ex officio;
 - (d) such number of officers, not exceeding ten, not below the rank of the Joint Secretary to the Government of India, to be nominated by the Central Government to represent the Ministries or Departments of the Central Government dealing with commerce, industrial policy and promotion, science and technology, small scale industries and agro and rural industries, home affairs, defence, environment and forests, law, overseas Indian affairs and urban development-Members, ex officio;
 - (e) a nominee of the State Government concerned--Member, ex officio;
 - (f) the Director General of Foreign Trade or his nominee-Member, ex officio;
 - (g) the Development Commissioner concerned-Member, ex officio;
 - (h) a Professor in the Indian Institute of Management, being a society registered under the Societies Registration Act, 1860 (21 of 1860) or the Indian Institute of Foreign Trade, being a society registered under the Societies Registration Act, 1860 (21 of 1860), as may be, nominated by the Central Government---Member., ex officio;
 - (i) an officer not below the rank of Deputy Secretary to the Government of India dealing with the Special Economic Zones in the Ministry or Department of the Central Government, dealing with commerce to be nominated by the Central Government-Member-Secretary, ex officio;

Provided that the member, being the Joint Secretary, nominated under clauses (b) to (d) of this sub-section, may, if he is unable to attend the meeting of the Board, authorise any other officer to attend the meeting of the Board on his behalf.

- (3) The term of office of an ex officio Member shall come to an end as soon as he ceases to hold the office by virtue of which he was so nominated.

- (4) For the purposes of performing its functions, the Board may co-opt as members such number of persons as it deems fit, who have special knowledge of, and practical experience in, matters relating to, or relevant to activity connected with the Special Economic Zones and any such person shall have the right to take part in the discussions of the Board but shall not be counted for the quorum and shall not be a member for any other purpose and such person shall be entitled to receive such allowance or fees, as the case may be, fixed by the Board.
- (5) The Board shall meet at such times and places as may be appointed by it and shall have the power to regulate its own procedure.
- (6) One-third of the total Members of the Board shall form a quorum, and all the acts of the Board shall be decided by a general consensus of the Members present.
- (7) No act or proceeding of the Board shall be called in question on the ground merely of existence of any vacancy in, or any defect in the constitution of, the Board.
- (8) All orders and decisions of the Board and all other instruments issued by it shall be authenticated by the signature of the Member-Secretary, or any other Member as may be authorised by the Board in this behalf.

5.4.10 Duties, powers and functions of Board

- (1) Subject to the provisions of this Act, the Board shall have the duty to promote and ensure orderly development of the Special Economic Zones.
- (2) Without prejudice to the generality of the provisions contained in sub-section (1), the powers and functions of the Board shall include —
 - (a) granting of approval or rejecting proposal or modifying such proposals for establishment of the Special Economic Zones;
 - (b) granting approval of authorised operations to be carried out in the Special Economic Zones by the Developer;
 - (c) granting of approval to the Developers or Units (other than the Developers or the Units which are exempt from obtaining approval under any law or by the Central Government) for foreign collaborations and foreign direct investments (including investments by a person resident outside India), in the Special Economic Zone for its development, operation and maintenance;
 - (e) granting of approval or rejecting of proposal for providing infrastructure facilities in a Special Economic Zone or modifying such proposals;
 - (f) granting, notwithstanding anything contained in the Industries (Development and Regulation) Act, 1951 (65 of 1951), a license to an industrial undertaking referred to in clause (d) of section 3 of that Act, if such undertaking is established, as a whole or part thereof, or proposed to be established, in a Special Economic Zone;
 - (g) suspension of the letter of approval granted to a Developer and appointment of an Administrator under sub-section (1) of section 10;
 - (h) disposing of appeals preferred under sub-section (4) of section 15;
 - (i) disposing of appeals preferred under sub-section (4) of section 16;
 - (j) performing such other functions as may be assigned to it by the Central Government.
- (3) The Board may, if so required for purposes of this Act or any other law for the time being in force relating to Special Economic Zones, by notification, decide as to whether a particular activity constitutes manufacture as defined in clause (r) of section 2 and such decision of the Board shall be binding on all Ministries and Departments of the Central Government.

- (4) The Board may, delegate such powers and functions as it may deem fit to one or more Development Commissioners for effective and proper discharge of the functions of the Board.
- (5) Without prejudice to the foregoing provisions of this Act, the Board shall, in exercise of its powers or the performance of its functions under this Act, be bound by such directions on the questions of policy as the Central Government may give in writing to it from time to time.
- (6) The decision of the Central Government whether a question is one of policy or not shall be final.

5.4.11 Suspension of letter of approval and transfer of Special Economic Zone in certain cases

- (1) If, at any time, the Board is of the opinion that a Developer —
 - (a) is unable to discharge the functions or perform the duties imposed on him by or under the provisions of this Act or rules made thereunder; or
 - (b) has persistently defaulted in complying with any direction given by the Board under this Act; or
 - (c) has violated the terms and conditions of the letter of approval; or
 - (d) whose financial position is such that he is unable to fully and efficiently discharge the duties and obligations imposed on him by the letter of approval, and
the circumstances exist which render it necessary for it in public interest so to do, the Board may, on application, or with the consent of the Developer, or otherwise, for reasons to be recorded in writing, suspend the letter of approval, Economic Zone, for a period not exceeding one year and appoint an Administrator to discharge the functions of the Developer in accordance with the terms and conditions of the letter of approval and manage the Special Economic Zone accordingly.
- (2) Consequent upon appointment of an Administrator, the management of the Special Economic Zone of the Developer referred to in sub-section (1) shall vest in the Administrator.
- (3) No letter of approval shall be suspended under sub-section (1) unless the Board has given to the Developer not less than three months' notice, in writing, stating the grounds on which it proposes to suspend the letter of approval, and has considered any cause shown by the Developer within the period of that notice, against the proposed suspension.
- (4) The Board may, instead of suspending the letter of approval under sub-section (1), permit it to remain in force subject to such further terms and conditions as it thinks fit to impose, and any further terms or conditions so imposed shall be binding upon and be complied with by the Developer and shall be of like force and effect as if they were contained in the letter of approval.
- (5) In case the Board suspends a letter of approval under this section, it shall serve a notice of suspension upon the Developer and fix a date on which the suspension shall take effect.
- (6) Upon suspension of the letter of approval under sub-section (1), the Special Economic Zone of the Developer referred to in sub-section (5) shall vest in the Administrator under sub-section (2) for a period not exceeding one year or up to the date on which the letter of approval for such Special Economic Zone is transferred, whichever is earlier, in accordance with the provisions contained in sub-sections (7) and (9), as the case may be.
- (7) Where the Board has given notice for suspension of letter of approval under sub-section (5), the Developer may, after prior approval of the Board, transfer his letter of approval to any person who is found eligible by the Board for grant of such approval.
- (8) If at any time, it appears to the Board that the purpose of the order appointing the Administrator has been fulfilled or that for any reason it is undesirable that the order of appointment should remain in force, the Board may cancel the order and thereupon the Administrator shall be divested of the management of the Special Economic Zone which shall, unless otherwise directed by the

Board, again vest in the person, being the Developer, in whom it was vested immediately prior to the date of appointment of the Administrator.

- (9) Where the Board suspends the letter of approval, under this section, in respect of any Developer, the following provisions shall apply, namely :
- (a) the Board shall invite applications for transferring the letter of approval of the Developer, whose approval has been suspended and select the person or persons, in accordance with the procedure as may be prescribed, to whom the letter of approval of the Developer in the Special Economic Zone may be transferred;
 - (b) upon selection of person or persons under sub-clause (a), the Board may, by notice in writing, require the Developer to transfer his letter of approval in a Special Economic Zone to the person or persons so selected and thereupon the Developer shall transfer his interests, rights and liabilities in the Special Economic Zone to any of the persons (hereafter in this section referred to as the "transferee") who has been selected by the Board on such terms and conditions and consideration as may be agreed upon between the Developer and the transferee;
 - (c) all the rights, duties, obligations and liabilities of the Developer, on and from the date of suspension of letter of approval or on and from the date, if earlier, on which his letter of approval in the Special Economic Zone of the Developer has been transferred to the transferee, shall cease absolutely except for any liabilities which have accrued prior to that date;
 - (d) the Board may make such interim arrangements in regard to the operation of the Special Economic Zone as may be considered appropriate;
 - (e) the Administrator shall exercise such powers and discharge such functions as the Board may direct.
- (10) The Board may, in order to promote export or to protect the interest of Units or in the public interest, issue such directions or formulate such scheme as it may consider necessary for operation of the Special Economic Zone.

5.4.12 Development Commissioner

- (1) The Central Government may appoint any of its officers not below the rank of Deputy Secretary to the Government of India as the Development Commissioner of one or more Special Economic Zones.
- (2) The Central Government may appoint such officers and other employees as it considers necessary to assist the Development Commissioner in the performance of his functions in the Special Economic Zones established by a Developer (other than the Central Government) under this Act on such terms and conditions as it deems fit.
- (3) Every Development Commissioner, officer and other employee shall be entitled to such salary and allowances and subject to such terms and conditions of service in respect of leave, pension, provident fund and other matters as may, from time to time, be specified by the Central Government.

5.4.13 Functions of Development Commissioner

- (1) Every Development Commissioner shall take all steps in order to discharge his functions under this Act to ensure speedy development of the Special Economic Zone and promotion of exports therefrom.
- (2) Without prejudice to the generality of the foregoing provisions, the Development Commissioner shall-

- (a) guide the entrepreneurs for setting up of Units in the Special Economic Zone;
 - (b) ensure and take suitable steps for effective promotion of exports from the Special Economic Zone;
 - (c) ensure proper co-ordination with the Central Government or State Government Departments concerned or agencies with respect to, or for the purposes, of clauses (a) and (b);
 - (d) monitor the performance of the Developer and the Units in a Special Economic Zone;
 - (e) discharge such other functions as may be assigned to him by the Central Government under this Act or any other law for the time being in force; and
 - (f) discharge such other functions as may be delegated to him by the Board.
- (3) Every Development Commissioner shall be overall in-charge of the Special Economic Zone and shall exercise administrative control and supervision over the officers and employees appointed under sub-section (2) of section 11 (including the officials deputed to such Special Economic Zone) to discharge any of the functions under this Act.
- (4) Without prejudice to the provisions of sub-sections (1) to (3), every Development Commissioner shall discharge such functions and exercise such powers as may be delegated to him by a general or special order by the Central Government or the State Government concerned, as the case may be.
- (5) Every Development Commissioner may call for such information from a Developer or Unit from time to time as may be necessary to monitor the performance of the Developer or the Unit, as the case may be.
- (6) The Development Commissioner, may, delegate any or all of his powers or functions to any of the officers employed under him.

5.4.14 Constitution of Approval Committee

- (1) The Central Government shall,-
- (a) in the case of existing Special Economic Zones, within six months from the date of commencement of this Act;
 - (b) in case of other Special Economic Zones established after the commencement of this Act, within six months from the date of establishment of such Special Economic Zone, by notification, constitute a Committee for every Special Economic Zone, to be called the Approval Committee to exercise the powers and perform the functions specified in section 14.
- (2) Every Approval Committee shall consist of—
- (a) the Development Commissioner-Chairperson, ex officio;
 - (b) two officers of the Central Government to be nominated by that Government-Members, ex officio;
 - (c) two officers of the Central Government to be nominated by that Government to represent the Ministry or Department dealing with revenue-Members, ex officio;
 - (d) one officer of the Central Government to be nominated by that Government to represent the Ministry or Department dealing with Economic affairs (financial services)-Member, ex officio;
 - (e) two officers of the State Government concerned to be nominated by that State Government-Members, ex officio;
 - (f) a representative of the Developer concerned-Special invitee.

- (3) For the purpose of exercising its powers and performing its functions, the Approval Committee may invite to its meetings, such persons as the Committee deems fit, whose assistance or advice it may consider necessary.
- (4) Every Approval Committee shall meet at such times and places as it considers necessary and shall have the power to regulate its own procedure.
- (5) One-half of the total Members of the Approval Committee shall form a quorum, and all the acts of the Approval Committee shall be decided by a general consensus of the Members present.
Provided that in case the Approval Committee is unable to decide any matter by a general consensus, such matter shall stand referred to the Board of Approval for its decision.
- (6) No act of the Approval Committee shall be called in question on the ground merely of existence of any vacancy in, or any defect in the constitution of the Approval Committee.
- (7) All orders and decisions of the Approval Committee and all other communications issued by it shall be authenticated by the signature of the Chairperson or any other member as may be authorised by the Approval Committee in this behalf.
- (8) The term of office of an ex officio Member shall come to an end as soon as he ceases to hold the office by virtue of which he was so nominated.

5.4.15 Powers and functions of Approval Committee

- (1) Every Approval Committee may discharge the functions and exercise the powers in respect of the following matters, namely :-
 - (a) approve the import or procurement of goods from the Domestic Tariff Area, in the Special Economic Zone for carrying on the authorised operations by a Developer;
 - (b) approve the providing of services by a service provider, from outside India, or from the Domestic Tariff Area, for carrying on the authorised operations by the Developer, in the Special Economic Zone;
 - (c) monitor the utilisation of goods or services or warehousing or trading in the Special Economic Zone;
 - (d) approve, modify or reject proposals for setting up Units for manufacturing or rendering services or warehousing or trading in the Special Economic Zone [other than the grant of license under clause (e) of sub-section (2) of section 9] in accordance with the provisions of sub-section (8) of section 15.
Provided that where the Approval Committee is unable to decide whether a particular process constitutes manufacture or not, it shall refer the same to the Board of Approval for decision;
 - (e) allow, on receipt of approval under clause (c) of sub-section (2) of section 9, foreign collaborations and foreign direct investments (including investments by a person outside India) for setting up a Unit;
 - (f) monitor and supervise compliance of conditions subject to which the letter of approval or permission, if any, has been granted to the Developer or entrepreneur; and
 - (g) perform such other functions as may be entrusted to it by the Central Government or the State Government concerned, as the case may be.
- (2) The Approval Committee shall not discharge such functions and exercise such powers referred to in sub-section (1) in relation to a Developer, being the Central Government, as may be specified, by notification, by the Central Government.

Provided that till such time, the Approval Committee is constituted, the concerned Development Commissioner shall discharge all functions and exercise all powers of the Approval Committee.

5.4.16 Setting up of Unit

- (1) Any person, who intends to set up a Unit for carrying on the authorised operations in a Special Economic Zone, may, submit a proposal to the Development Commissioner concerned in such form and manner containing such particulars as may be prescribed.

Provided that an existing Unit shall be deemed to have been set up in accordance with the provisions of this Act and such Units shall not require approval under this Act.

- (2) On receipt of the proposal under sub-section (1), the Development Commissioner shall submit the same to the Approval Committee for its approval.
- (3) The Approval Committee may, either approve the proposal without modification, or approve the proposal with modifications subject to such terms and conditions as it may deem fit to impose, or reject the proposal in accordance with the provisions of sub-section (8).

Provided that in case of modification or rejection of a proposal, the Approval Committee shall given a reasonable opportunity of being heard to the person concerned and after recording the reasons, either modify or reject the proposal.

- (4) Any person aggrieved, by an order of the Approval Committee, made under sub-section (3), may prefer an appeal to the Board within such time as may be prescribed.
- (5) No appeal shall be admitted if it is preferred after the expiry of the time prescribed therefor.

Provided that an appeal may be admitted after the expiry of the period prescribed therefor if the appellant satisfies the Board that he had sufficient cause for not preferring the appeal within the prescribed time.

- (6) Every appeal made under sub-section (4) shall be in such form and shall be accompanied by a copy of the order appealed against and by such fees as may be prescribed.
- (7) The procedure for disposing of an appeal shall be such as may be prescribed.

Provided that before disposing of an appeal, the appellant shall be given a reasonable opportunity of being heard.

- (8) The Central Government may prescribe,-

- (a) the requirements (including the period for which a Unit may be set up) subject to which the Approval Committee shall approve, modify or reject any proposal referred to in sub-section (3);
- (b) the terms and conditions, subject to which the Unit shall undertake the authorised operations and its obligations and entitlements.

- (9) The Development Commissioner may, after approval of the proposal referred to in sub-section (3), grant a letter of approval to the person concerned to set up a Unit and undertake such operations which the Development Commissioner may authorise and every such operation so authorised shall be mentioned in the letter of approval.

5.4.17 Cancellation of letter of approval to entrepreneur

- (1) The Approval Committee may, at any time, if it has any reason or cause to believe that the entrepreneur has persistently contravened any of the terms and conditions or its obligations subject to which the letter of approval was granted to the entrepreneur, cancel the letter of approval.

Provided that no such letter of approval shall be cancelled unless the entrepreneur has been given a reasonable opportunity of being heard.

- (2) Where the letter of approval has been cancelled under sub-section (1), the Unit shall not, from the date of such cancellation, be entitled to any exemption, concession, benefit or deduction available to it, being a Unit, under this Act.
- (3) without prejudice to the provisions of this Act, the entrepreneur, whose letter of approval has been cancelled under sub-section (1), shall remit, the exemption, concession, drawback and any other benefit availed by him in respect of the capital goods, finished goods lying in stock and unutilised raw materials relatable to his Unit, in such manner as may be prescribed.
- (4) Any person aggrieved by an order of the Approval Committee made under sub-section (1), may prefer an appeal to the Board within such time as may be prescribed.
- (5) No appeal shall be admitted if it is preferred after the expiry of the time prescribed therefor.
Provided that an appeal may be admitted after the expiry of the period prescribed therefor if the appellant satisfies the Board that he had sufficient cause for not preferring the appeal within the prescribed time.
- (6) Every appeal made under sub-section (4) shall be in such form and shall be accompanied by a copy of the order appealed against and by such fees as may be prescribed.
- (7) The procedure for disposing of an appeal shall be such as may be prescribed.
Provided that before disposing of an appeal, the appellant shall be given a reasonable opportunity of being heard.

5.4.18 Setting up and operation of Offshore Banking Unit

- (1) An application for setting up and operation of an Offshore Banking Unit in a Special Economic Zone may be made to the Reserve Bank in such form and manner as may be prescribed.
- (2) On receipt of an application under sub-section (1), the Reserve Bank shall, if it is satisfied that the applicant fulfils all the conditions specified under sub-section (3), grant permission to such applicant for setting up and operation of an Offshore Banking Unit.
- (3) The Reserve Bank may, by notification, specify the terms and conditions subject to which an Offshore Banking Unit may be set up and operated in the Special Economic Zone.

5.4.19 Setting up of International Financial Services Centre

- (1) The Central Government may approve the setting up of an International Financial Services Centre in a Special Economic Zone and prescribe the requirements for setting up and operation of such Centre.
Provided that the Central Government shall approve only one International Financial Services Centre in a Special Economic Zone.
- (2) The Central Government may, subject to such guidelines as may be framed by the Reserve Bank, the Securities and Exchange Board of India, the Insurance Regulatory and Development Authority and such other concerned authorities, as it deems fit, prescribe the requirements for setting up and the terms and conditions of the operation of Units in an International Financial Services Centre.

5.4.20 Single application form, return, etc

Notwithstanding anything contained in any other law for the time being in force, the Central Government may, if required,-

- (a) prescribe a single application form for obtaining any license, permission or registration or approval by a Developer, or an entrepreneur under one or more Central Acts;
- (b) authorise the Board, the Development Commissioner or Approval Committee, to exercise the powers of the Central Government on matters relating to the development of a Special Economic Zone or setting up and operation of Units;

- (c) prescribe a single form for furnishing returns or information by a Developer or an entrepreneur under one or more Central Acts.

5.4.21 Agency to inspect

Notwithstanding anything contained in any other law for the time being in force, the Central Government may, by notification, specify any officer or agency to carry out surveys or inspections for securing of compliance with the provisions of any Central Act by a Developer or an entrepreneur, as the case may be, and such officer or agency shall submit verification and compliance reports, in such manner and within such time as may be specified in the said notification.

5.4.22 Single enforcement officer or agency for notified offences

- (1) The Central Government may, by notification, specify any act or omission made punishable under any Central Act, as notified offence for the purposes of this Act.
- (2) The Central Government may, by general or special order, authorise any officer or agency to be the enforcement officer or agency in respect of any notified offence or offences committed in a Special Economic Zone.
- (3) Every officer or agency authorised under sub-section (2) shall have all the corresponding powers of investigation, inspection, search or seizure as is provided under the relevant Central Act in respect of the notified offences.

5.4.23 Investigation, inspection, search or seizure

The agency or officer, specified under section 20 or section 21, may, with prior intimation to the Development Commissioner concerned, carry out the investigation, inspection, search or seizure in the Special Economic Zone or in a Unit if such agency or officer has reasons to believe (reasons to be recorded in writing) that a notified offence has been committed or is likely to be committed in the Special Economic Zone.

Provided that no investigation, inspection, search or seizure shall be carried out in a Special Economic Zone by any agency or officer other than those referred to in sub-section (2) or sub-section (3) of section 21 without prior approval of the Development Commissioner concerned.

Provided further that any officer or agency, if so authorised by the Central Government, may carry out the investigation, inspection, search or seizure in the Special Economic Zone or Unit without prior intimation or approval of the Development Commissioner.

5.4.24 Designated Courts to try suits and notified offences

- (1) The State Government, in which the Special Economic Zone is situated, may, with the concurrence of the Chief Justice of the High Court of that State, designate one or more Courts –
 - (a) to try all suits of a civil nature arising in the Special Economic Zone; and
 - (b) to try notified offences committed in the Special Economic Zone.
- (2) No Court, other than the Court designated under sub-section (1), shall try any suit or conduct the trial of any notified offence referred to in that sub-section.

Provided that the Courts, in which any suit of a civil nature in a Special Economic Zone had been filed before the commencement of this Act, shall continue to try such suit after such commencement.

Provided further that the Courts, in which any trial of any notified offence is being conducted before the commencement of this Act, shall continue to conduct the trial of such offence after the commencement of this Act.

Provided also that the Courts competent to try any notified offence, before the commencement of this Act, shall conduct the trial in respect of such offence after the commencement of this Act until the Courts have been designated under sub-section (1) and all such cases relating to such trials shall thereafter be transferred to such Courts so designated which shall conduct the trial from the stage at which such cases were so transferred.

5.4.25 Appeal to High Court

Any person aggrieved by any decision or order of the Court designated under sub-section (1) of section 23, may, file an appeal to the High Court within sixty days from the date of communication of the decision or order of the Courts so designated to him on any question of fact or law arising out of such orders.

Provided that the High Court may, if it is satisfied that the appellant was prevented by sufficient cause from filing an appeal within the said period, allow it to be filed within a further period not exceeding sixty days.

Explanation-In section 23 and in this section "High Court" means the High Court of the State in which the Special Economic Zone is situated.

5.4.26 Offences by companies

- (1) Where an offence has been committed by a company, every person, who at the time the offence was committed was in charge of, and was responsible to, the company for the conduct of the business of the company, as well as the company, shall be deemed to be guilty of the offence and shall be liable to be proceeded against and punished accordingly.

Provided that nothing contained in this sub-section shall render any such person liable to any punishment provided for the offences, if he has proved that the offence was committed without his knowledge or that he had exercised all due diligence to prevent the commission of such offence.

- (2) Notwithstanding anything contained in sub-section (1), where an offence has been committed by a company and it is proved that the offence has been committed with the consent or connivance of, or is attributable to any neglect on the part of, any director, manager, secretary or other officer of the company, such director, manager, secretary or other officer shall also be deemed to be guilty of the offence and shall be liable to be proceeded against and punished accordingly.

Explanation -For the purposes of this section,-

- (a) "company" means any body corporate and includes a firm or other association of individuals; and
- (b) "director", in relation to a firm, means a partner in the firm.

5.4.27 Exemptions, drawbacks and concessions to every Developer and entrepreneur

- (1) Subject to the provisions of sub--section (2), every Developer and the entrepreneur shall be entitled to the following exemptions, drawbacks and concessions, namely :-
 - (a) exemption from any duty of customs, under the Customs Act, 1962 (52 of 1962) or the Customs Tariff Act, 1975 (51 of 1975) or any other law for the time being in force, on goods imported into, or services provided in, a Special Economic Zone or a Unit, to carry on the authorised operations by the Developer or entrepreneur;
 - (b) exemption from any duty of customs, under the Customs Act, 1962 (52 of 1962) or the Customs Tariff Act, 1975 (51 of 1975) or any other law for the time being in force, on goods exported from, or services provided, from a Special Economic Zone or from a Unit, to any place outside India;

- (c) exemption from any duty of excise, under the Central Excise Act, 1944 (1 of 1944) or the Central Excise Tariff Act, 1985 (5 of 1986) or any other law for the time being in force, on goods brought from Domestic Tariff Area to a Special Economic Zone or Unit, to carry on the authorised operations by the Developer or entrepreneur;
 - (d) drawback or such other benefits as may be admissible from time to time on goods brought or services provided from the Domestic Tariff Area into a Special Economic Zone or Unit or services provided in a Special Economic Zone or Unit by the service providers located outside India to carry on the authorised operations by the Developer or entrepreneur;
 - (e) exemption from service tax under Chapter V of the Finance Act, 1994 (32 of 1994) on taxable services provided to a Developer or Unit to carry on the authorised operations in a Special Economic Zone;
 - (f) exemption from the securities transaction tax leviable under section 98 of the Finance (No. 2) Act, 2004 (23 of 2004) in case the taxable securities transactions are entered into by a non-resident through the International Financial Services Centre;
 - (g) exemption from the levy of taxes on the sale or purchase of goods other than newspapers under the Central Sales Tax Act, 1956 (74 of 1956) if such goods are meant to carry on the authorised operations by the Developer or entrepreneur.
- (2) The Central Government may prescribe, the manner in which, and, the terms and conditions subject to which, the exemptions, concessions, draw back or other benefits shall be granted to the Developer or entrepreneur under sub-section (1).

5.4.28 Provisions of Income-tax Act, 1961 to apply with certain modifications in relation to Developers and entrepreneurs

The provisions of the Income-tax Act, 1961 (43 of 1961), as in force for the time being, shall apply to, or in relation to, the Developer or entrepreneur for carrying on the authorised operations in a Special Economic Zone or Unit subject to the modifications specified in the Second Schedule.

5.4.29 Duration of goods or services in Special Economic Zones

The Central Government may prescribe the period during which any goods brought into, or services provided in, any Unit or Special Economic Zone without payment of taxes, duties or cess shall remain or continue to be provided in such Unit or Special Economic Zone.

5.4.30 Transfer of ownership and removal of goods

The transfer of ownership in any goods brought into, or produced or manufactured in, any Unit or Special Economic Zone or removal thereof from such Unit or Zone shall be allowed, subject to such terms and conditions as the Central Government may prescribe.

5.4.31 Domestic clearance by Units

Subject to the conditions specified in the rules made by the Central Government in this behalf,-

- (a) any goods removed from a Special Economic Zone to the Domestic Tariff Area shall be chargeable to duties of customs including anti-dumping, countervailing and safeguard duties under the Customs Tariff Act, 1975 (51 of 1975), where applicable, as leviable on such goods when imported; and
- (b) the rate of duty and tariff valuation, if any, applicable to goods removed from a Special Economic Zone shall be at the rate and tariff valuation in force as on the date of such removal, and where such date is not ascertainable, on the date of payment of duty.

5.4.32 Constitution of Authority

- (1) The Central Government shall, by notification in the Official Gazette, constitute, for every Special Economic Zone established by it before the commencement of this Act or which may be established after such commencement by the Central Government, an Authority to be called the (name of the Special Economic Zone) Authority to exercise the powers conferred on, and discharge the functions assigned to it under this Act.

Provided that in respect of existing Special Economic Zones established by the Central Government, such Authority shall be constituted by the Central Government within six months from the date of commencement of this Act.

Provided further that until such Authority is constituted, the person or the authority (including the Development Commissioner) exercising control over such existing Special Economic Zones shall continue to exercise such control over the Special Economic Zones till the Authority is constituted.

- (2) Every Authority shall be a body corporate by the name aforesaid, having perpetual succession and a common seal, with a power, subject to the provisions of this Act, to acquire, hold and dispose of property, both movable and immovable, and to contract and shall, by the said name, sue and be sued.
- (3) The head office of every Authority shall be at such place as the Central Government may specify in the notification referred to in sub-section (1).
- (4) Any Authority may, with the previous approval of the Central Government, establish branch offices at other places in India.
- (5) Every Authority shall consist of –
 - (a) the Development Commissioner of the Special Economic Zone over which the Authority exercises its jurisdiction-Chairperson, ex officio;
 - (b) two officers of the Central Government to be nominated by that Government having knowledge of, or experience in, dealing with matters relating to Special Economic Zones-Members, ex officio;
 - (c) an officer of the Government of India in the Ministry or Department dealing with Commerce on matters relating to Special Economic Zone — Member, ex officio;
 - (d) not more than two persons, being entrepreneurs or their nominee, to be nominated by the Central Government-Members, ex officio.
- (6) The term of office of the Members of an Authority (other than ex officio Members) and the manner of filling of vacancies shall be such as may be prescribed.
- (7) An Authority may associate with itself in such manner, subject to such conditions and for such purposes as may be prescribed, any person whose assistance or advice it requires in discharging its functions effectively and that person shall be entitled to receive such allowances or fees as may be fixed by the Authority.
- (8) One-third of the total Members of the Authority shall form a quorum, and all the acts of the Authority shall be decided by a majority of the Members present.
- (9) No act or proceeding of an Authority shall be invalidated merely by reason of —
 - (a) any vacancy in, or any defect in the constitution of, the Authority; or
 - (b) any defect in the appointment of a person acting as a Member of the Authority; or
 - (c) any irregularity in the procedure of the Authority not affecting the merits of the case.
- (10) Every Authority shall meet at such times and places and shall observe such rules of procedure in regard to the transaction of business at its meetings (including quorum at such meetings) as may be prescribed.

5.4.33 Officers of Authority and other staff

- (1) Every Development Commissioner of the Special Economic Zone, for which he is appointed as such, shall be the chief executive of the Authority concerned and exercise such powers and perform such functions as may be prescribed.
- (2) Every Authority may, in addition to the officers and employees transferred to it under section 33, appoint such other officers and employees, as it considers necessary for the efficient discharge of its functions under this Act.
- (3) The method of appointment, the conditions of service and the scales of pay and allowances of such other officers and employees appointed under sub-section (2) shall be such as may be prescribed.

5.4.34 Special provision for transfer of officers or other employees to Authority

- (1) It shall be lawful for the Central Government to transfer to each Authority, by order, and with effect from such date or dates, as may be specified in the order, any officer or other employee holding office as such (except officers or other employees on deputation) in the existing Special Economic Zone concerned.

Provided that the scale of pay of the post to which such officer or other employee is transferred shall not be lower than the, scale of pay of the post which he was holding immediately before such transfer and the other terms and conditions of service (including pension, leave, provident fund and medical benefits) of the post to which he is transferred shall not be less favourable than the terms and conditions of service in relation to the post held by him immediately before such transfer.

Provided further that if, immediately before the date of his transfer, any such officer or other employee is officiating in a higher post under the Central Government either in a leave vacancy or in any vacancy of a specified duration, his pay and other allowances, if any, on transfer, shall be protected for the unexpired period of such vacancy and thereafter he shall be entitled to the scale of pay applicable to the post under the Central Government to which he would have reverted but for his transfer to the Authority.

- (2) If any question arises as to whether the prescribed terms and conditions of service in respect of any matter, including remuneration, pension, leave, provident fund and medical benefits, are less favourable than those attached to the post held by an officer or other employee immediately before his transfer to the Authority, the decision of the Central Government in the matter shall be final.

5.4.35 Functions of Authority

- (1) Subject to the provisions of this Act, it shall be the duty of each Authority to undertake such measures as it thinks fit for the development, operation and management of the Special Economic Zone for which it is constituted.
- (2) Without prejudice to the generality of the provisions of sub-section (1), the measures referred to therein may provide for—
 - (a) the development of infrastructure in the Special Economic Zone;
 - (b) promoting exports from the Special Economic Zone;
 - (c) reviewing the functioning and performance of the Special Economic Zone;
 - (d) levy user or service charges or fees or rent for the use of properties belonging to the Authority;
 - (e) performing such other functions as may be prescribed.

5.4.36 Grants and loans by Central Government

The Central Government may, after due appropriation made by Parliament by law in this behalf, make to every Authority by way of grants and loans or such sums of money as that Government may think fit for being utilised for the purposes of this Act.

5.4.37 Constitution of Fund and its application

- (1) There shall be established by every Authority a Fund to be called the (the name of the Special Economic Zone concerned) Authority Fund and there shall be credited thereto—
 - (a) all sums of money, which the Central Government may, after due appropriation made by Parliament by law in this behalf, provide to the Authority;
 - (b) all grants or loans that may be made to the Authority under this Act;
 - (c) all sums received on account of user or service charges or fees or rent for the use of properties belonging to the Authority;
 - (d) all sums received by the Authority from such other sources as may be decided upon by the Central Government.
- (2) The Fund shall be applied for meeting—
 - (a) the salaries, allowances and other remuneration of the members, officers and other employees of the Authority;
 - (b) the expenses of the Authority in the discharge of its functions under section 34;
 - (c) repayment of any loan;
 - (d) the expenses on objects and for purposes authorised by this Act;
 - (e) meeting any other administrative expenses of the Authority.

5.4.38 Accounts and audit

- (1) Every Authority shall maintain proper accounts and other relevant records and prepare an annual statement of accounts in such form as may be prescribed by the Central Government, in consultation with the Comptroller and Auditor-General of India.
- (2) The accounts of every Authority shall be audited by the Comptroller and Auditor-General of India at such intervals as may be specified by him and any expenditure incurred in connection with such audit shall be payable by the Authority to the Comptroller and Auditor-General of India.
- (3) The Comptroller and Auditor-General of India or any person appointed by him in connection with the audit of the accounts of the Authority shall have the same rights and privileges and authority in connection with such audit as the Comptroller and Auditor-General of India generally has in connection with the audit of the Government accounts and, in particular, shall have the right to demand the production of books, accounts, connected vouchers and other documents and papers and to inspect any of the offices of the Authority.
- (4) The accounts of every Authority as certified by the Comptroller and Auditor-General of India or any other person appointed by him in this behalf together with the audit report thereon shall be forwarded annually to the Central Government and the Central Government shall cause the same to be laid before each House of Parliament.

5.4.39 Directions by Central Government

Every Authority shall be bound to carry out such directions as may be issued to it from time to time by the Central Government for the efficient administration of this Act.

5.4.40 Returns and reports

- (1) Every Authority shall furnish to the Central Government at such time and in such form and manner as may be prescribed or as the Central Government may direct, such returns and statements and such particulars in regard to the promotion and development of exports and the operation and maintenance of the Special Economic Zone and Units as the Central Government may, from time to time, require.
- (2) Without prejudice to the provisions of sub-section (1), every Authority shall, as soon as possible, after the end of each financial year, submit to the Central Government a report in such form and before such date, as may be prescribed, giving a true and full account of its activities, policy and programmes during the previous financial year.
- (3) A copy of every report received under sub-section (2) shall be laid, as soon as may be, after it is received, before each House of Parliament.

5.4.41 Power to supersede Authority

- (1) If at any time the Central Government is of the opinion that an Authority is unable to perform, or has persistently made default in the performance of, the duty imposed on it by or under this Act or has exceeded or abused its powers, or has wilfully or without sufficient cause, failed to comply with any direction issued by the Central Government under section 38, the Central Government may, by notification, supersede that Authority for such period not exceeding six months, as may be specified in the notification.

Provided that before issuing a notification under this sub-section, the Central Government shall give reasonable time to that Authority to make representation against the proposed supersession and shall consider the representations, if any, of the Authority.

- (2) Upon the publication of a notification under sub-section (1) superseding the Authority,-
 - (a) the Chairperson and other Members of the Authority shall, notwithstanding that their term of office has not expired as from the date of supersession, vacate their offices as such;
 - (b) all the powers, functions and duties which may, by or under the provisions of this Act, be exercised or discharged by or on behalf of the Authority shall, during the period of supersession, be exercised and performed by such person or persons as the Central Government may direct;
 - (c) all property vested in the Authority shall, during the period of supersession, vest in the Central Government.
- (3) On the expiration of the period of supersession specified in the notification issued under sub-section (1), the Central Government may—
 - (a) extend the period of supersession for such further period not exceeding six months; or
 - (b) reconstitute the Authority in the manner provided in section 31.

5.4.42 Members, officers and other employees of Authority to be public servants-All Members, officers and other employees of every Authority, shall, when acting or purporting to act in pursuance of any of the provisions of this Act or the rules made thereunder, be deemed to be public servants within the meaning of section 21 of the Indian Penal Code (45 of 1860).

5.4.43 Highlights of SEZ Rules

SEZ Rules, 2006 provide for the following :

- (i) Procedure for establishment of SEZ (Rules 3 to 16).
- (ii) Procedure for establishment of a Unit in SEZ (Rules 17 to 21).

- (iii) Terms and conditions for entitlement of exemptions, drawbacks and concessions (Rules 22 to 46 - Chapter IV).
- (iv) Conditions for removal of goods from SEZ to DTA (Chapter V - Rules 47 to 50).
- (v) Requirements and monitoring of Foreign Exchange Earnings (Chapter VI - Rules 53 to 54).
- (vi) Procedures for appeal to Board of Approval from order of Approval Committee (Chapter VII - Rules 55 to 69).
- (vii) Provisions relating to Identity Card, foreign exchange remittances, revival of sick unit, exit of unit and self declaration.
- (viii) Prescribed Forms A to K

SEZ Rules provide for–

- (i) Simplification of procedures for development, operation, and maintenance of the Special Economic Zones and for setting up and conducting business in SEZs.
- (ii) Single window clearance for setting up of an SEZ.
- (iii) Single window clearance for setting up a unit in a Special Economic Zone.
- (iv) Single Window clearance on matters relating to Central as well as State Governments.
- (v) Simplified compliance procedures and documentation with an emphasis on self certification; and
- (vi) A wide range of services can be rendered from SEZs.
- (vii) Documentation for various activities of the units has been reduced to the barest minimum with an emphasis on self-certification.
- (viii) No requirement for providing bank guarantees, thereby reducing transaction costs.
- (ix) Contract manufacturing for foreign principals allowed.
- (x) Option to obtain sub-contracting permission at the initial approval stage.
- (xi) Import - Export of all items, through personal baggage has been allowed.

Policy to Set Up SEZ

Central Government has liberal policy for setting up such zones. SEZ can be set up in public, private, joint sector or by Central Government or State Government, jointly or severally [section 3(1) of Act]. Developer of such SEZ can allocate fully developed plots to entrepreneurs on purely commercial basis. Developer of SEZ can provide services like water, electricity, security, restaurants, recreation etc. He can also develop township adjacent to SEZ.

Proposal to establish a SEZ will be approved by Board of Approvals (BOA). Procedure to be followed for establishment of SEZ is given in Rules 3 to 16 of SEZ Rules, 2006.

Conditions Relating to Area and its Utilisation

SEZ should have minimum specified area. In respect of non-processing areas, developer cannot lease vacant lands.

A. Area requirements of SEZ - Minimum area of land and other terms and conditions of approval shall be prescribed by Central Government [section 3(8) of SEZ Act]. Minimum area requirements stipulated for various categories of SEZs are as follows.

As per press report dated 5-4-2007, maximum area of SEZ can be 5,000 hectares. Minimum processing area shall be 50%. State Government shall not undertake any compulsory acquisition of land for such SEZ. Comprehensive resettlement and rehabilitation policy will be worked out ensuring livelihood of displaced persons.

- B. Multi-product SEZ** - Multi-product SEZs should have an area of 1,000 hectares or more [rule 5(2)(a) of SEZ Rules]. "Special Economic Zone for multi-product" means a Special Economic Zone where Units may be set up for manufacture of two or more goods in a sector or goods falling in two or more sectors or for trading and warehousing or rendering of two or more services in a sector or rendering of services falling in two or more sectors [rule 2(za) of SEZ Rules]

Minimum 35% area shall be earmarked for processing. This can be relaxed to 25% by Central Government on recommendation from Board of Approvals. Thus, remaining 65%/75% area will be available for developing residential and commercial areas.

- C. Service Sector SEZ** - Services-Sector SEZs should have an area of 100 hectares or more [first proviso to rule 5(2)(a) of SEZ Rules].

Minimum 35% area shall be earmarked for processing. This can be relaxed to 25% by Central Government on recommendation from Board of Approvals. Thus, remaining 65%/75% area will be available for developing residential and commercial areas.

- D. SEZ in port or airport** - In case of SEZ in port or airport, the area must be at least 100 hectares [rule 5(2)(b) of SEZ Rules]. "Special Economic Zone in a port or airport" means a Special Economic Zone in an existing port or airport for manufacture of goods in two or more goods in a sector or goods falling in two or more sectors or for trading and warehousing or rendering of services [rule 2(zc) of SEZ Rules].

- E. Sector Specific SEZ** - In some sectors where India has a competitive advantage, such as gems and jewellery, information technology, electronic hardware and software, bio-technology, sector-Specific SEZs can be set up over an area of 10 hectares or more Similarly, in case of SEZ in non-conventional energy, solar energy, the area shall be 10 hectares or more [first and second proviso to rule 5(2)(b) of SEZ Rules]

In case of SEZ for specific sectors, at least 50% of the area shall be earmarked for developing processing area. Thus, remaining 50% area will be available for developing residential and commercial areas.

5.5 ADVANCE AUTHORISATION

Inputs required to manufacture export products can be imported without payment of customs duty under Advance Authorisation. Advance Authorisation can be granted to merchant exporter or manufacturer exporter to import raw materials. Since the raw materials can be imported before exports of final products, the Authorisation issued for this purpose is called 'advance Authorisation'. [This was termed as 'Advance License' upto 1-4-2006].

Advance Authorisation is issued to allow duty free import of inputs with normal allowance for wastage. In addition, fuel, oil, energy, catalysts etc. required can also be allowed. Duty free import of mandatory spares upto 10% of CIF Value of Authorisation, which are required to be exported with resultant products may also be allowed. However, prohibited items of imports cannot be imported.

Advance Authorisation will indicate name and description and of items to be imported and exported/supplied, aggregate CIF value of imports, FOB/FOR value and quantity of exports/supplies. If quantity cannot be indicated, value shall be indicated. Goods can be exported in anticipation of Advance Authorisation, after submission of application to licensing authority.

The Advance Authorisation will be for Actual User only. It is not transferable. The material imported under Advance Authorisation is also not transferable even after completion of export obligation. However, goods manufactured out of such imported material can be disposed of, after export obligation is fulfilled.

There must be positive value addition.

- (i) **Export Obligation** - Export should be within 24 months from date of issuance of Authorisation. In case of projects, export obligation shall be fulfilled within duration of execution of project. In case of Advance Authorisation for drugs issued against specific order, export obligation shall be fulfilled within 6 months from date of import of first consignment.

Advance Authorisation can be revalidated for 6 months if export obligation was fulfilled, on payment of composition fee of 2% of duty saved on all unutilized imported items, by submitting application in 'Aayat Niryat Form'. Further extension of 6 months can be obtained on payment of 5% of duty saved on all unutilised imported items as composition fee.

There is no extension beyond 36 months (24+12 months) – MF(DR) circular N. 16/2006-Cus dated 9-5-2006.

If it is not possible to fulfill export obligation in time, extension has to be obtained from licensing authority (i.e. DGFT). If there is marginal shortfall upto 5%, it can be regularised. If shortfall is higher (upto 50%), extension upto one year can be obtained on submission of bank guarantee of full amount of duty saved. Shortfall in exports can be regularised on payment of duty along with interest @ 15%.

- (ii) **Application for advance authorisation** - Application for authorisation shall be made in duplicate in 'Aayat Niryat Form' given in Handbook of Procedures (HOP).

SION - The imports of raw materials is on the basis of standard input-output norms (SION). The SION are finalised and quantity allowed to be imported will be based on quantity exported. The price of inputs will be as declared by applicant. However, there must be positive value addition.

SION is fixed by 'Norms Committee'. Advance authorisation can be issued on basis of self declaration, subject to final adjustment as per SION fixed by NC (Norms Committee).

- (iii) **Exports in anticipation of authorisation** – Exports in anticipation of Advance Authorisation is permissible, if procedure as specified is followed. Advance authorisation after exports can be issued on basis of actual proof of exports. In such case, BG/LUT [Bank Guarantee/Letter of Undertaking] is not necessary. In *CC v. Hindustan Tobacco* 2006 (193) ELT 190 (CESTAT), it was confirmed that export can be made in anticipation of license (now authorisation w.e.f. 1-4-2006).

- (iv) **EOU / SEZ / EHTP / BTP / STP can supply goods against advance authorisation** – EOU / SEZ / EHTP / DTP/STP units can supply goods against advance authorisation. It is not necessary to convert advance authorisation into advance release order. The supplier will be entitled to benefits of deemed exports.

- (v) **Advance release order** - Goods can be procured from indigenous manufacturer against advance release order (ARO) to be issued by RA (Regional Authority) (earlier known as Regional Licensing Authority upto 31-3-2006). The ARO can be denominated in foreign exchange/Indian Rupees. Alternatively, exporter can obtain goods from indigenous sources on basis of back to back Inland Letter of Credit (LC) from bank. The value of Advance Authorisation will be reduced to that extent.

Goods can be obtained from EOU/EHTP/SEZ/STP/BTP unit on basis of Advance Authorisation or DFRC. It is not necessary to convert Advance Authorisation into ARO (Advance Release Order).

- (vi) **Advance authorisation for intermediate supplies** - In respect of supplies made against advance authorisation/ DFRC/DFIA against 'deemed export', the supplier is entitled to Advance Authorisation/DFRC/DFIA for intermediate supplies.

- (vii) **Import and Export from specified port** – Export and import under advance authorisation can be through sea ports, airports, ICDs and LCS. Export shipments can be effected from any of SEZs.

(viii) Advance authorisation for annual requirements to exporters – Annual Advance authorisation would be issued to exporters having past export performance to enable them to import their requirements of inputs on annual basis. Annual Advance Authorisation will be granted upto 300% of FOB value of exports in preceding financial year. There should be positive value addition. Customs Notification No. 94/2004-Cus dated 10-9-2004 make provisions for such annual authorisation.

5.6 DUTY ENTITLEMENT PASS BOOK SCHEME (DEPB SCHEME)

The scheme is easy to administer and more transparent. The scheme is similar to Cenvat credit scheme. The exporter gets credit when he exports the goods. The credit is on basis of rates prescribed. This credit can be utilized for payment of customs duty on imported goods.

DEPB scheme will continue to be in operation until it is replaced by a new scheme, which will be drawn up in consultation with exporters. DEPB scheme has been extended upto 31-3-2008 by customs notification No. 48/2007-Cus dated 29-3-2007. Same provisions in amendment to Foreign Trade Policy, announced on 18-4-2007.

The scheme is proposed to be replaced by a new scheme, since it is said that existing scheme is not WTO compliant.

The objective of the scheme is to neutralise incidence of customs duty on the import content of export product. The neutralisation shall be provided by way of grant of duty credit against the export product.

Exporter can have either DEPB or duty drawback and not both.

Exports under DEPB scheme are allowed only when DEPB rate for the concerned export product is finalised. Under this scheme, exporters will be granted duty credit on the basis of notified entitlement rates. The entitlement rates will be notified by DGFT. The entitlement rates will be a percentage of FOB made in free foreign currency.

The entitlement rate will be fixed on basis of SION (Standard Input Output Norms) and deemed import content.

Value addition achieved in export product will also be taken into account.

DEPB is a post export duty remission scheme, which allows neutralization of deemed import duty charges on inputs used in the export product as per SION and the basic customs duty payable on such deemed imports. Value addition is also taken into account.

Credit can be utilised for payment of customs duty on *any item* which is freely importable. [Till 1-4-2006, the credit could not be used for payment of customs duty on capital goods].

Credit can be used for payment of basic customs duty as well as CVD. The importer has option to pay CVD by cash.

The credit can also be used for payment of special CVD of 4%. If the CVD is paid by debit to DEPB, Cenvat credit/brand rate of duty drawback is available – MF (DR) circular No. 18/2006-Cus dated 5-6-2006.

The credit can be transferred to another person, but the transfer will be valid for imports within the same port from where exports were made. Import from other port will be available under TRA facility.

DEPB is valid for 24 months for import. The DEPB and/or the items imported are freely transferable. However, DEPB can be transferred only after realisation of export proceeds.

The scheme is available to both manufacturer exporters as well as merchant exporters. DEPB has to be registered with customs house.

Application for DEPB - Filing of applications for DEPB and Advance Authorisation through DGFT website is compulsory w.e.f. 16-1-2006. The application should be digitally signed and fees shall be paid electronically. The procedure is prescribed in DGFT policy circular No. 44 (RE-2005)/2004-09 dated 10-1-2006.

Actual import content in export product not required – DEPB credit to be granted is not related to actual content of imported goods in export products, but deemed import content – *Anjani International v. CC 2005 (186) ELT 512 (CESTAT)*.

No All India rate of duty drawback if goods exported under DEPB – If goods are exported under DEPB, All Industry Rate of duty drawback will not be available - para 2(g) of customs Notification No. 8/2005-Cus(NT) dated 18-1-2005.

Duty drawback and CVD credit available even if duty paid through DEPB, w.e.f. 17-9-2004 – Earlier, it was clarified that Cenvat of CVD can be availed only if CVD is paid in cash. Similarly, duty drawback was allowed only if CVD was paid in cash. However, para (vi) of notification No. 96/2004-Cus dated 17-9-2004 now specifically provides that drawback or Cenvat credit of CVD can be availed against amount debited in DEPB. The benefit is available only in respect of DEPB issued under Foreign Trade Policy i.e. on or after 1-9-2004 – confirmed in MF(DR) circular No. 59/2004-Cus dated 21-10-2004.

'Normally, the exports made under the DEPB scheme shall not be entitled for drawback. However, the additional customs duty/excise duty paid in cash or through debit under DEPB shall be adjusted as Cenvat credit or duty drawback as per rules framed by Department of Revenue'. Thus, Cenvat credit is available whether CVD is paid in cash or by debit to DEPB.

Duty drawback of CVD is available even when CVD is paid through DEPB credit – MF(DR) circular No. 41/2005- Cus dated 28-10-2005.

Customs can check PMV – In *Om Prakash Bhatia v. CC 2003 AIR SCW 3452 = 155 ELT 423 (SC)*, it was held that over invoicing is an offence. To such goods, section 113(d) would apply and they can be confiscated. - - If margin of profit appears unreasonable, it is for the exporter to establish that it was a true export value stated in the shipping bill. [view held in *Om Prakash Bhatia v. CC 2001 (127) ELT 81 (CEGAT 5 member bench)* confirmed].

Who cannot avail DEPB ? – Following cannot avail DEPB – (a) Goods manufactured in customs bonded warehouse (b) Goods exported against discharge of export obligation under Advance Authorisation (c) EOU, SEZ, STP, BTP or EHTP units (d) Export of goods of foreign origin, unless there is manufacture or processing (e) Exports made under specified paras of FTP.

Sales tax on sale of DEPB – DEPB (Duty Entitlement Passbook Scheme) is freely tradable. It is right to claim back credit. It is freely tradable and is 'goods'. It is taxable under sales tax. It is not actionable claim. – *Philco Exports v. STO (2001) 124 STC 503 (Del HC DB)*. However, Haryana Tax Tribunal in case of *Sadhu Overseas*, has held that DEPB is a sort of money which can be used either by dealer or anybody else. Hence it is not 'goods'.

5.7 DUTY FREE IMPORT AUTHORISATION (DFIA)

'Duty Free Import Authorisation' (DFIA) has been introduced w.e.f. 1-5-2006 as per para 4.4 of Foreign Trade Policy. Corresponding customs notification No. 40/2006-Cus dated 1-5-2006 has been issued. The scheme is said to contain features of Advance Authorisation and DFRC scheme.

'Advance Authorisation' is not transferable, while material imported under DFIA will be transferable after fulfillment of export obligation. In case of Advance Authorisation, positive value addition is sufficient, while in case of DFIA, 20% value addition is required, except in case of gem and jewellery sector.

DFIA is issued to allow duty free import of inputs used in manufacture of export product (with normal allowances for wastages), and fuel, energy, catalyst etc. Duty free import of mandatory spares

upto 10% value of authorisation, which are required to be exported/supplied with resultant product is also allowed.

DFIA is issued on basis of SION. Import Authorisation will be limited to quantity mentioned in SION. DFIA is issued to manufacturer-exporter or merchant-exporter for following – (i) Physical exports including supplies to SEZ (b) Intermediate supplies and (c) Main contractors for supply of goods under Deemed Exports (except supply against Advance Authorisation and marine containers). In case of some deemed exports, DFIA is available to sub-contractors also.

DFIA is initially issued with 'actual user condition'. Imports will be exempted from payment of Basic Customs Duty, Additional Customs Duty, Education Cess, Anti-Dumping Duty and Safeguard duty, if any.

After export obligation is fulfilled, the scrip can be made transferable by Regional Authority. After endorsement of transferability, duty free inputs (except fuel) can be transferred. However, where SION is subject to 'actual user' norm, transferability is not allowed. In case of fuel, import entitlement can be transferred only to companies which have been granted authorisation to market fuel by Ministry of Petroleum and Natural Gas.

Cenvat credit will not be available in respect of inputs. Drawback will be available only in respect of duty paid material used in goods exported as per drawback rate fixed by Ministry of Finance.

Duty free procurement from domestic market is permissible against ARO/invalidation letter/back to back inland LC.

Value addition should be minimum 20%, except in case of gem and jewellery sector and items for which higher value addition has been prescribed under Advance Authorisation Scheme.

In respect of supplies made against advance authorisation/DFRC/DFIA against 'deemed export', the supplier is entitled to Advance Authorisation/DFRC/DFIA for intermediate supplies.

In respect of sensitive items, exporter will have to furnish declaration with regard to technical characteristics, quality and specification in shipping bill – MF(DR) circular No. 16/2006- Cus dated 9-5-2006.

Customs procedures as prescribed in customs notification No. 40/2006-Cus dated 1-5-2006.

5.8 EPCG AUTHORISATION

Under Export Promotion Capital Goods (EPCG) scheme, an authorisation holder can import capital goods (i.e. plant, machinery, equipment, components and spare parts of the machinery) at concessional rate of customs duty of 5%. Capital goods can be imported for pre-production, production and post production (including CKD/ SKD of capital goods and computer software systems).

Capital goods which can be imported under 'project imports' can be imported under EPCG scheme. The export obligation will be 8 times the duty saved i.e. difference between concessional rate under project imports and rate applicable under EPCG.

Capital goods required for retailers having minimum area of 1,000n SqM is permissible. Importer will be issued 'EPCG Authorisation' for this purpose.

Importer can either claim exemption of CVD or pay CVD in cash. If he pays CVD in cash, that amount will not be considered for purpose of fixation of export obligation. However, in that case, he cannot avail Cenvat credit of the CVD paid (Amendment w.e.f. 2-3-2005. Till now, importer could pay CVD in cash and avail Cenvat credit. Now, if he pays CVD in cash, his export obligation will get correspondingly reduced, but he cannot avail Cenvat of CVD paid in cash).

Computer software systems are also eligible. Import of spares of capital goods is permitted, without any limit. Jigs, fixtures, dies, moulds will be allowed to the extent of 100% of CIF value of authorisation.

Spares for existing plant and machinery can also be imported. Second hand capital goods can also be imported under EPCG scheme.

However, second hand capital goods of Indian origin are not permitted under EPCG scheme – DGFT Policy circular No. 16 (RE-2005)/2004-09 dated 15-7-2005.

Hotel equipment (window cleaning equipment in this case) can be imported under EPCG scheme – *CC v. Hotel Leela Venture Ltd.* 2003 (158) ELT 777 (CESTAT).

Authorisation will be issued on the basis of certificate of Chartered Engineer in respect of imported capital goods and exported final product.

Merchant Exporters can also import capital goods under EPCG scheme, if the capital goods are installed in the factory of their supporting manufacturer. The name and address of supporting manufacturer should be endorsed on EPCG authorisation and bond with Bank guarantee has to be executed jointly and severally by merchant exporter and his supporting manufacturer.

The import is permitted only through specified port of registration. If EPCG is registered at one place but import is from other customs house, the import shall be permitted against TRA (Telegraphic Release Order) which will be issued by customs house at port of registration.

Clubbing of EPCG authorisations - All EPCG authorisations issued under one notification in one financial year and for export of same product/s or services will be clubbed for reducing paper work and easy monitoring.

Export obligation - Importer has to fulfill export obligation equal to eight times duty saved on imported capital goods to be fulfilled over a period of 8 years. In respect of capital goods imported for technological upgradation, export obligation will be six times the duty saved. 50% export obligation should be fulfilled in first block of 6 years and balance 50% in next block of two years. SSI units will have export obligation equal to 6 times duty saved on capital goods imported, to be fulfilled over a period of 8 years. Agro units will have export obligation of 6 times the duty saved, to be fulfilled over period of 12 years.

Extension of export obligation beyond 8+2 years can be considered for a further period of two years with condition that 50% of duty payable in proportion to unfulfilled export obligation is paid to customs.

In respect of EPCG authorisation for Rs 100 crore or more, the export obligation shall be required to be fulfilled over a period of 12 years. Similarly, sick companies under BIFR and units in Agri Export Zones can fulfil export obligation in 12 years. Export obligation for every block has been specified. Extension for fulfilling export obligation upto two years can be obtained.

If 75% export obligation is completed in half or less than half the prescribed period, companies can be freed from their obligations in remaining period.

The export obligation shall be fulfilled by export of goods capable of being manufactured or produced by the capital goods imported under the scheme. However, goods can be manufactured in other unit of authorisation holder also. The export obligation will be over and above the average level of exports achieved during preceding three licensing years. — Export obligation can also be fulfilled by export of other goods manufactured by the importer. Exports of goods/services by group companies will also be considered towards fulfilment of export obligation. However, in such case, additional export obligation will be over and above the average exports achieved by unit/group company/managed hotel in preceding three years.

Exports shall be physical exports, but some deemed exports are eligible. Royalty payments and payments for R&D services received in free foreign exchange will be considered towards fulfillment of export obligation.

EPCG authorisations can be clubbed for discharge of export obligation.

Example 1 : Discuss whether any duty drawback is admissible under section 75 in the following cases and if yes, what is the quantum of such duty drawback—

	FOB value of exported goods (₹)	Rate or amount of drawback	Market price of goods (₹)	Value of imported material used in goods (₹)
(a)	1,00,000	0.75% of FOB value	80,000	50,000
(b)	49,000	1% of FOB value	50,000	30,000
(c)	60,000	0.8% of FOB value	70,000	35,000
(d)	3,000	1.5%	3,100	2,500
(e)	2,00,000	40% of FOB value	1,50,000	1,20,000
(f)	1,00,000	₹ 30 per kg.	55,000	40,000
	(2,000 kgs.)			
(g)	4,00,000	3.5% of FOB value	4,60,000	4,50,000
(h)	4,20,000	4% of FOB value	4,10,000	3,00,00**

*** In this case, the Central Government has specified that the export value should be 40% more than the value of the imported material used therein.**

Answer :

The admissibility or otherwise of duty drawback in the aforesaid cases in discussed hereunder—

- Drawback Admissible ₹ 750 :** Even if the rate of drawback is less than 1% of FOB value of goods, drawback will be admissible because the amount of drawback i.e. 0.75% of 1,00,000 i.e. ₹ 750/- exceeds ₹ 500.
- Drawback Admissible ₹ 490 :** Even if the amount of drawback is less than ₹ 500, drawback will be admissible because it is 1% or more of the FOB value of the goods,
- Drawback Inadmissible :** The drawback will not be admissible because it is less than 1% of the FOB value of the goods and its amount (0.8% of 60,000 i.e. 480) is less than ₹ 500.
- Drawback Inadmissible :** Even if the drawback is 1.5% of FOB value, drawback will be inadmissible as the amount thereof is 1.5% of 3,000 i.e. ₹ 45, which is less ₹ 50.
- Drawback Admissible ₹ 50,000 :** The amount of drawback i.e. 40% of 2,00,000 i.e. ₹ 80,000 shall be restricted to 1/3rd of the Market price of the goods i.e. 1/3rd of 1,50,000. Hence, the amount of drawback admissible shall be ₹ 50,000.
- Drawback Inadmissible :** In this case the market price of the goods ₹ 55,000 is less than the amount of drawback i.e. 2,000 kgs. × ₹ 30 i.e. ₹ 60,000. Hence, no drawback shall be allowed.
- Drawback Inadmissible :** No drawback shall be allowed in this case, as the export value i.e. FOB value of the goods is less the value of imported material used therein.
- Drawback Inadmissible :** The value 40% more than value of imported materials is ₹ 3,00,000 + 40% of 3,00,000 i.e. ₹ 4,20,000. Since, the export value is not more than ₹ 4,20,000, no drawback shall be admissible.

Example 2 : As per proviso to section 3 of Central Excise Act, excise duty payable is equal to customs duty on like articles imported into India. As per Sr No. 2 of Notification No. 23/2003-CE dated 31.3.2003 (as

amended), the duty payable is to be calculated as if (a) customs duty is reduced to 50% and (b) Special duty of 4% u/s 3(5) of Customs Tariff Act is not payable. However, if goods cleared in DTA are exempt from VAT, this special additional duty will be payable.

Answer :

If assessable value = ₹ 10,000, Basic customs duty = 10%; basic excise duty = 12%, education cess is 2%, secondary and higher education cess is 1%, the duty calculation will be as follows—

	Duty %	Amount (₹)	Total Duty
(A) Assesable Value		10,000.00	
(B) Basic Customs Duty	5	500.00	500.00
(C) Sub-Total for calculating CVD (A+B)		10,500.00	
(D) CVD 'C' × excise duty rate	12	1,260.00	1,260.00
(E) Sub-total for education cess of customs (B+D)		1,760.00	
(F) Education cess of customs - 2% of 'E'	2	35.20	35.20
(G) SAH education cess of customs - 1% of 'E'	1	17.60	17.60
(H) Sub-total for spl CVD (C+D+F+G)		11,812.80	
(I) Special CVD u/s 3(5) - 4% of 'H'	4	472.51	472.51
Total duty			2,285.31
Total duty rounded off			2,285.00

5.9 FOREIGN TRADE POLICY

India had for long time adverse balance of payment position in international trade i.e. imports were more than exports; due to which there was shortage of foreign exchange in India. Foreign Exchange Regulation Act was introduced in 1947. This was later replaced with 'the Foreign Exchange Regulation Act, 1973' (FERA), which came into effect on 1st Jan., 1974 (Now FEMA is in force w.e.f. 1-6-2000).

The policy adopted was to restrict imports by licensing and heavy customs duty on imports.

Import Trade Controls were first introduced in early stages of Second World War by notification under Defense of India Rules. Later, Imports and Exports (Control) Act, 1947 was passed. Foreign exchange rate was artificially controlled by RBI.

India's poor export performance - India's share in total world export of goods and commercial services was 0.6% in 1995. It rose to 0.7% in 2001 and is 1% in 2007. China's share in world exports was 4.3% in 2001 which rose to 8.4% in 2007 [source - Economic Survey 2007-08 - Government of India].

India has adverse balance of trade i.e. imports are more than exports. In 2006-07, imports were 1,85,747 million USD and exports were 1,26,360 million USD.

Policy Changes Since 1991

Government realised the ill effects of controls on imports and foreign exchange rates. Liberalisation of policies started in 1991. Restrictions on imports have been considerably reduced. Rupee has been made freely convertible on current account. Customs duty has been gradually reduced to almost international level.

Policy for Foreign Direct Investment (FDI) in India has been considerably liberalised. India has established a good lead in service exports - particularly in software sector.

Import and export free in majority of cases - As per WTO stipulations, Quantitative Restrictions (QR) on imports (i.e. import license restrictions) have to be removed. Such restrictions are permitted only if

country has difficult position of foreign exchange reserves. However, since India's foreign exchange position is comfortable, European countries, USA, Japan and Canada took a stand that import restrictions must be removed. Finally, India agreed to remove all import restrictions w.e.f. 1-4-2001.

Exports shall be free, except in cases where these are regulated by provisions of FTP or any other law for the time being in force. The item-wise export and import policy shall be as specified in ITS (HS) [Import Trade Classification (Harmonised System)] published and notified by DGFT, as amended from time to time.

Most of non-agricultural goods are freely importable. Even import of gold and silver has been considerably liberalised.

However, there are some restrictions on imports of agricultural produce, old cars etc. There will be prohibition of import of animal skins, narcotics, drugs, environmentally dangerous goods etc. Such prohibitions are permissible under WTO.

5.9.1 Foreign Trade Policy 2004-09

Section 5 of FT(D&R) Act authorises Central Government to formulate and announce Export and Import Policy and also amend the same from time to time, by notification in Official Gazette. The policy, which was earlier termed as Exim policy is now termed as 'Foreign Trade Policy'.

New Foreign Trade Policy for 2004-2009 (FTP) (earlier known as EXIM Policy) was announced on 31-8-2004. The policy is effective from 1-9-2004. Generally, it is amended every year in April (besides amendments done throughout the year). Annual amendments were made last year on 19-4-2007. This year, amended policy has been issued on 11-4-2008.

Contents of Foreign Trade Policy - The Foreign Trade Policy for the period 2004-2009 as announced on 31-8-2004 is a 5 volume document, as follows -

- i. Foreign Trade Policy having 9 chapters giving basic policy.
- ii. Handbook of Procedures (HBP) Vol 1, containing 9 chapters, covering procedural aspects of policy. It also contains many Appendices, giving various forms, guidelines and lists.
- iii. Standard Input-Output Norms (SION) of various products for purpose of Duty Exemption Scheme
- iv. ITC(HS) Classifications of Export and Import Items and policy in respect of each item.
- v. Handbook of DEPB Rates

Matters covered by Foreign Trade Policy

Following issues are covered under FTP -

- i. Policy for regulating import and export of goods and services.
- ii. Export Promotional Measures
- iii. Duty Remission and Duty Exemption schemes for promotion of exports
- iv. Export Promotion Capital Goods (EPCG) scheme
- v. EOU/EHTP/STP and BTU schemes
- vi. Special Economic Zones

5.9.2 Foreign Trade Policy 2009-14

In exercise of powers conferred by Section 5 of the Foreign Trade (Development & Regulation) Act, 1992 (No.22 of 1992) read with paragraph 1.2 of the Foreign Trade Policy, 2009-2014, the Central Government notified the Foreign Trade Policy, 2009-2014. The Policy has already come into force w.e.f. 27th August, 2009.

The year 2009 was witnessing one of the most severe global recessions in the post-war period. Countries across the world have been affected in varying degrees and all major economic indicators of industrial production, trade, capital flows, unemployment, per capita investment and consumption have taken a hit. The WTO estimates project a grim forecast that global trade is likely to decline by 9% in volume terms and the IMF estimates project a decline of over 11%.

The recessionary trend has huge social implications.

In the last five years our exports witnessed a robust growth to reach a level of US\$ 168 billion in 2008-09 from US\$ 63 billion in 2003-04. Our share of global merchandise trade was 0.83% in 2003; it rose to 1.45% in 2008 as per WTO estimates. Our share of global commercial services export was 1.4% in 2003; it rose to 2.8% in 2008. India's total share in goods and services trade was 0.92% in 2003; it increased to 1.64% in 2008. On the employment front, studies have suggested that nearly 14 million jobs were created directly or indirectly as a result of augmented exports in the last five years.

The short term objective of the present policy is to arrest and reverse the declining trend of exports and to provide additional support especially to those sectors which have been hit badly by recession in the developed world. The policy objective was set to achieve an annual export growth of 15% with an annual export target of US\$ 200 billion by March 2011. In the remaining three years of this Foreign Trade Policy i.e. upto 2014, the country should be able to come back on the high export growth path of around 25% per annum. By 2014, we expect to double India's exports of goods and services. The long term policy objective for the Government is to double India's share in global trade by 2020.

5.10 IMPORT/EXPORT AUTHORISATION

Application for license for import or export has to be made to DGFT. Application fees are payable as prescribed. [section 8(1) of FT(D&R) Act].

License can be granted or refused. Refusal can be only by recording reasons in writing [section 8(2) of FT(D&R) Act].

License can be suspended or cancelled by giving notice and giving him opportunity of being heard.

If license is refused, not renewed, suspended or cancelled, appeal against such order can be filed u/s 15 of FT(D&R) Act [section 9(5) of FT(D&R) Act].

Application for Authorisation is to be made in form ANF 2B for import of restricted items, and in form ANF 2D for export of restricted items and ANF 2E for export of SCOMET items.

Two copies of Authorisation - Authorisation (earlier termed as License) is issued in two originals - one is 'Exchange Control Copy' (which has to be submitted to bank for remitting foreign exchange) and other 'Customs Copy' to be submitted to customs authorities for permitting imports.

Denomination of import authorisation and EO – CIF value of Import Authorisation and FOB value of Export Obligation (EO) will be denominated in free foreign currency as well as in Rupees. However, control will be on basis of foreign exchange amount and not on basis if Rupees. Export Obligation in case of intermediate supply and for deemed export shall be denominated in Indian Rupees.

Application fees for Authorisation - Application fees payable are prescribed in Schedule to Foreign Trade (Regulation) Rules, 1993. Fee is not payable if application is by Government, local authority, institutions setup for educational, charitable or missionary purpose for import of goods, or import of goods (other than motor vehicle) for personal use - [rule 5(3) of Foreign Trade (Regulation) Rules, 1993].

5.11 POLICY FOR IMPORT OF GOODS

As per WTO Stipulation, India had to remove all quantitative restrictions (QRs) on imports in phased manner. Hence, the imports were being liberalised every year and import restrictions were completely lifted on 1-4-2001. Now almost all non-agricultural items are freely importable.

A. Import free unless restricted or prohibited - Exports shall be free, except in cases where these are regulated by provisions of FTP or any other law for the time being in force. The item-wise export and import policy shall be as specified in ITS (HS) [Import Trade Classification (Harmonised System)] published and notified by DGFT, as amended from time to time.

All items, except restricted, prohibited and importable through State Trading Enterprises (earlier termed as canalised items) can be freely imported [Items which could be freely imported were earlier termed as 'OGL' i.e. 'Open General License'].

B. ITC(HS)

The ITC (HS) [Import Trade Classification (Harmonised System)] notified by DGFT, gives item-wise policy for import of various articles].

The list is based on HSN system of classification (which is also followed in Customs Tariff Act]. Policy in respect of each item is given against each item, in following categories –

- (a) Free – no restriction on imports (However, in some cases, prescribed conditions have to be fulfilled)
- (b) Prohibited goods
- (c) Restricted through authorisation or in terms of a public notice issued [para 2.7 of FTP]
- (d) Importable through State Trading Enterprises (STE) (earlier terms as Canalised). However, these goods can be imported by anyone on obtaining Authorisation from DGFT.

General restrictions – General prohibitions/restrictions on import/export are as follows –

- i. Import/export of arms and related material from/to Iraq
- ii. Direct or indirect export and import of nuclear related or weapons of mass destruction from/to Democratic People's Republic of Korea
- iii. Direct or indirect export and import of nuclear related or Iran's enrichment related or heavy water related activities

Restriction through notification by DGFT – DGFT can adopt and enforce any measure necessary for protection of public morals, protection of health, protection of IPR, conservation of natural resources etc., by issuing a notification.

Actual User - If the import authorisation or license is required, it is issued only to Actual User, unless the condition is specifically waived by RA (Regional Authority).

'Actual User' may be Industrial or non-industrial.

The Actual User (Industrial) means a person who utilises the imported goods for manufacturing in his own industrial unit or manufacturing for his own unit in another unit including a jobbing unit. [Thus, actual user can supply the machinery / raw material etc. to other unit for manufacture on job work basis].

Actual User (Non Industrial) means a person who utilises imported goods for commercial establishment, laboratory, R&D Institution, University, educational institution or any service industry.

In *Northern Plastics Ltd. v. CCE* 1998 AIR SCW 2355 = AIR 1998 SC 2371, it was held that a registered SSI unit can be an 'actual user'.

- C. Transfer of goods imported under Actual User condition** – Goods imported with Actual User condition can be transferred with prior permission of Regional Authority. Application giving details as prescribed in para 2.43 of HBP Vol. 1 should be made.

D. Broad Policy for import of goods

Broad outline of policy is as follows -

- (a) Import of agricultural products like wheat, rice, maize, other coarse cereals, copra and coconut oil will be in State Trading category. Similarly, import of petroleum products including petrol, diesel and ATF will be in the category of State Trading. Urea will also be in State Trading.
- (b) Import of Food Articles will be subject to compliance of provisions of Food Adulteration Act and Rules. Import of meat and poultry products will comply with provisions of Meat Food Product Order. Import of Tea Waste will be as per Tea Waste (Control) Order. Import of beef or even oils and food products containing beef is prohibited.
- (c) Import of textile material using prohibited dyes like azo dyes is not permitted.
- (d) New cars can be imported only from country of manufacture. They should comply with provisions of Central Motor Vehicle Rules. They should be right hand drive, with speedometer in KM. Import is permitted only through specified ports. Customs duty on new cars (CBU – Completely Built Units) has been kept high to discourage imports.
- (e) Import of alcoholic beverages (liquor) will be as per mandatory requirements stipulated by State Governments.
- (f) Second hand capital goods (except computers) are freely permitted without actual user condition. Thus, even traders can import and sale second hand capital goods Duty can be paid through DEPB credit.
- (g) **Prohibited Items** - Wild animals, their parts, ivory, tallow, fats or oils of animal origin, fish nail/tail/waste, pig fats, margarine of animal origin, degreas, mutton tallow, chicory plants, and animal rennet are prohibited goods for obvious reason of saving wild life. These cannot be imported even on obtaining an 'authorisation'.
- (h) **Second hand goods** – Second hand capital goods including refurbished/reconditioned spares are freely permitted. Other second hand goods are restricted. Import of second hand PC, laptop, air conditioner, DG set, photocopier will require authorization. Import of re-manufactured goods will also require authorisation.
- (i) **Import of gold & silver** – Import of silver and gold and coins is free subject to RBI regulations.
- (j) **Import only through State Trading Enterprises** - Some items should be imported only through State Trading Enterprises [earlier termed as 'Canalised items' upto 31.3.2001]. (a) Petroleum Products can be imported only through Indian Oil Corporation (b) Urea only through STC, MMTC and Indian Potash Ltd. (c) Wheat, maize, rice etc. Food Corporation of India (FCI) (d) Copra and crude oil – STC.

Users in India who require these goods have to register their indent with the canalising agency. Normally, the goods are released to only actual users. After the quota of goods is released in the favour of indenter, payment should be made within the stipulated period and delivery should be taken. Otherwise, the allotted quota lapses.

- (k) **Import on export basis** – New or second hand capital goods, equipments, components, parts, containers, jigs, fixtures, tools, moulds, dies etc. can be imported for export without an authorisation, if item is freely importable. A bond or bank guarantee for its re-export has to be submitted to Customs Authorities.

- (l) **Repairs abroad and re-import** - Capital goods or their parts (whether imported or indigenous) can be sent abroad for repairs, testing or upgradation and re-imported without authorisation (license).
- (m) **Import of gifts** - Import of gifts is permitted when goods are freely importable. In other cases, Customs Clearance Certificate (CCP) from DGFT will be required. Gifts upto ₹ 10,000 are exempt from customs duty.
- (n) **Import of metallic waste and scrap** – The metallic scrap should not contain hazardous, toxic waste, radioactive material, arms, ammunition, mines, shells, cartridge or explosive material. Import of steel, cast iron, copper, brass, Nickel, Aluminium, Zinc, Tin and Magnesium scrap is free subject to prescribed conditions. Pre-shipment inspection can be prescribed. Import will be permitted through specified ports only. Import of other metallic scrap will be allowed only as per conditions given in ITC (HS).
Pre-shipment inspection can be prescribed for this purpose.
- (o) **Import of live stock and live stock products, poultry products** – Import of live-stock and live-stock products is prohibited in view of Aviation Influenza.
Samples upto ₹ 1,00,000 (₹ 3,00,000 for gem and jewellery sector) can be imported by all exporters without duty as amended w.e.f. 1-4-2008.
- (p) **Samples in baggage** - Commercial samples are not treated as 'bona fide' luggage. Its import is as per provisions of Foreign Trade Policy as applicable to normal imports of commercial goods. These should be declared before customs officers at the time of arrival. [New Delhi Commissionerate TN 12/96 dated 15-2-1996]. The commercial samples are exempt from duty only to the extent explained below.
- (q) **Small commercial samples and prototypes** – Bona fide samples and prototypes upto ₹ 10,000 are exempt from customs duty, if imported by post or in aircraft or by courier service. While calculating value of samples / prototypes, postal charges or airfreight are not considered.

5.12 RESTRICTIONS ON EXPORTS

Restrictions on exports are less compared to restrictions on imports. The Policy gives negative list of exports. This negative list is under three headings (a) Prohibited goods (b) Restricted through Authorisation (c) State Trading Enterprises [earlier termed as canalised].

- A. Third party exports** – Third party exports means exports made by an Exporter or Manufacturer on behalf of another exporter/s. The Shipping Bill shall indicate the names of both the exporter/manufacturer and exporter. The BRC, GR declaration, export order and the Invoice shall be in name of the third party exporter.
- B. Merchant Exporter** – Merchant Exporter means a person engaged in trading activity and exporting or intending to export goods.
- C. General restrictions** – General prohibitions/restrictions on import/export are as follows –
 - i. Import/export of arms and related material from/to Iraq
 - ii. Direct or indirect export and import of nuclear related or weapons of mass destruction from/to Democratic People's Republic of Korea
 - iii. Direct or indirect export and import of nuclear related or Iran's enrichment related or heavy water related activities

- D. Restriction through notification by DGFT** – DGFT can adopt and enforce any measure necessary for protection of public morals, protection of health, protection of IPR, conservation of natural resources etc., by issuing a notification.
- E. Prohibited goods for export** - Wild life including their products and parts, exotic birds, endangered plants, beef, pig fat, carcasses of buffalo, certain rock lobsters, meat and bones of wild animals, milk, skimmed milk, milk food for babies, peacock feathers and handicrafts of peacock feathers, dried leguminous vegetables, guar seeds, lentils, wheat and meslin, specified plant and plant portions, sea weeds, tallow/flat/oil of any animal origin excluding fish oil, sugar, sea shells, ivory, bovine semen, potato seeds, seeds, margarine of animal origin, human skeletons, wood and wood products, wood pulp, sandalwood and red sanders wood are prohibited.
- Thus, items related to conservation of our natural resources, are mainly prohibited.
- F. Export of personal luggage** - *Bona fide* personal luggage can be exported either with passenger or one year before or after his departure from India. Export of items in negative list will require licence or authorisation.
- G. Export of gifts** - Gifts upto ₹ 5,00,000 can be exported without authorisation. These can include edible items
- For export of gifts/spares/replacement goods in excess of ceiling/period, application can be made to DGFT.
- H. Exports of warranty spares and replacement** - Warranty spares of plant, machinery etc. can be exported without authorisation along with the main equipment or subsequently within warranty period, subject to approval of RBI. [It is not clear why this new hurdle is created when we are talking of more and more liberalization].
- If goods exported were found to be defective/damaged or otherwise unfit] can be replaced free of charge by exporter. Such replacement is allowed provided the replacement goods are not under restricted category.
- For export of gifts/spares/replacement goods in excess of ceiling/period, application can be made to DGFT.
- I. SCOMET Items** - Export of Special Chemicals, Organisms, Materials, Equipment and Technologies (SCOMET) is either prohibited or restricted. These cover nuclear material, nuclear reactors, equipment for nuclear explosive devices, rocket systems, toxic chemicals, micro-organisms, chemicals for weapons, viruses, etc.
- Application for license for exporting these items is to be made to DGFT. Application will be considered by Exim Facilitation Committee (EFC). In respect of items specified in Appendix 3 to Schedule 2 of ITC (HS), application will be considered by Inter-Ministerial working group in DGFT based on criteria as specified.
- On export of SCOMET items, the end use is required to issue certificate in form given in Appendix.
- J. General System of Preferences (GSP)** – Under this scheme, industrialized i.e. developed countries extend tariff concessions to developing countries on unilateral basis. USA, EOU, Japan, Australia, Russia etc. Provide such concessions. Information is required to be submitted in prescribed form and is to be certified by authorised agencies. List of agencies authorised to issue GSP CoO (Certificate of Origin) is given in Appendix.
- K. Global System of Trade Preference (GSTP)** – Under this scheme, tariff concessions are exchanged among developing countries who have signed agreement. Some 46 countries are members of GSTP. India has exchanged tariff concessions with few countries in respect of some products. Certificate of Origin (CoO) is required to be obtained from Export Inspection Council [EIC].
- L. SAARC Preferential Trading Agreement (SAPTA)** – SAPTA came into operation in 1995. More than 3,000 tariff items are under tariff concessions. Certificate of Origin (CoO) is to be obtained from agencies as notified in Appendix.

- M. Asia-Pacific Trade Agreement (APTA)** – Bangladesh, Sri Lanka, South Korea, India and China are exchanging tariff concessions under APTA. Certificate of Origin (CoO) is required to be obtained from Export Inspection Council [EIC].

5.13 EXIM POLICY OF INDIA

5.13.1 Exim Policy

- (i) The foreign trade of India is guided by the Export Import policy of the govt. of india
- (ii) Regulated by the foreign trade development and regulatory Act 1992.
- (iii) Exim policy contain various policy decisions with respect to import and exports from the country
- (iv) Exam policy is prepared and announced by the central govt.

4.13.2 General Objective of Exim Policy

- (i) To establish the framework for globalization
- (ii) To promote the productivity competitiveness of Indian Industry
- (iii) To Encourage the attainment of high and internationally accepted standards of quality

4.13.3 Special Focus Initiatives

Market Diversification

- (i) diversification of Indian exports to other markets.
- (ii) (a) 27 new countries have been included within the ambit of Focus Market Scheme.
- (iii) (b) The incentives provided under Focus Market Scheme have been increased from 2.5% to 3%.C
- (iv) (c) There has been a significant increase in the outlay under 'Market Linked Focus Product Scheme' by inclusion of more markets and products.

Technological Upgradation

- (i) Zero duty has been introduced for certain engineering products, electronic products, basic chemicals and pharmaceuticals, apparel and textile, plastics, handicrafts, chemicals and allied products and leather and leather products.
- (ii) The existing 3% EPCG Scheme has been considerably simplified.
- (iii) A number of products including automobiles and other engineering products have been included for incentives under Focus Product, and Market Linked Focus Product Schemes.
- (iv) Steps to encourage Project Exports shall be taken.

Support to Status Holders

- (i) The Government recognized 'Status Holders' contribute approx 60% of India's goods exports.
- (ii) additional duty credit scrip can be used for import of capital goods by these status holders.
- (iii) The status holder incentive scrip scheme is being expanded to cover more export product groups.

Agriculture and Village Industry

- (i) Vishesh Kris hi and Gram Udyog Yojana.
- (ii) Capital goods imported under EPCG will be permitted.
- (iii) Import of restricted item

- (iv) Import of inputs such as pesticides are permitted.
- (v) New towns of export excellence with a threshold limit of ₹ 150 crore shall be notified.

Handlooms

- (i) 2% bonus benefits. E Specific funds for promoting handloom exports.
- (ii) Duty free import entitlement of specified trimmings and embellishments.
- (iii) Duty free import entitlement of hand knotted carpet samples.
- (iv) Duty free import of old pieces of hand knotted.

Handicrafts

- (i) Duty free import
- (ii) Specific funds are earmarked.
- (iii) CVD is exempted on duty free import of trimmings li Machinery and equipment are exempt from customs duty.
- (iv) All handicraft exports would be treated as special Focus products.
- (v) 2% bonus benefits under Focus Product Scheme for Handicraft exports.

Gems & Jewellery

- (i) Import of gold of 8k and above is allowed
- (ii) Duty Free Import Entitlement of Consumables, Tools and additional items.

Leather and Footwear

- (i) Additional 2% bonus benefits under Focus Product Scheme.
- (ii) Duty free import entitlement of specified items
- (iii) Machinery and equipment shall be exempted from basic customs duty.

Marine Sector

- (i) Duty free import of specified specialised inputs/ chemicals and flavouring oils.
- (ii) Marine products are incentivized at special higher rate
- (iii) Marine sector included for benefits under zero duty EPCG scheme.

Sports Goods and Toys

- (i) Duty free import of specified specialised inputs allowed
- (ii) Sports goods and toys shall be treated as a Priority sector
- (iii) Fast track clearance
- (iv) Treated as special focus products
- (v) 2% bonus benefits for Sports Goods & Toys.

4.13.4 Green Products and Technologies

- (i) India aims to become a hub for production and export of green products and technologies.
- (ii) special initiative will be taken to promote development and manufacture of such products and technologies for exports.

4.13.5 Incentives for Exports from the North Eastern Region

- (i) In order to give a fillip to exports of products from the north-eastern States, notified products of this region would be incentivized under Reward Schemes of Chapter 3 of FTP.

Study Note - 6

SERVICE TAX

This Study Note includes

- 6.1 Introduction
- 6.2 Registration Under Service Tax
- 6.3 Reverse Charge
- 6.4 Brand Name of Another Person
- 6.5 Payment of Service Tax
- 6.6 Rate of Service Tax
- 6.7 Invoices Under Service Tax
- 6.8 Records to be Maintained
- 6.9 Automation of Central Excise and Service Tax (ACES)
- 6.10 Electronic Accounting System in Excise and Service Tax (EASIEST)
- 6.11 Negative List, Exempted Services & Mega Exemptions
- 6.12 Point of Taxation
- 6.13 Taxable Event in Service Tax
- 6.14 Place of Provision of Service Rules
- 6.15 Valuation of Taxable Services (Section 67)
- 6.16 Important Issue under Service Tax Provisions
- 6.17 E-payment of Service Tax
- 6.18 Self Adjustment of Excess Tax Paid
- 6.19 Special Audit
- 6.20 Return
- 6.21 Penalties
- 6.22 Adjudication & Appeals
- 6.23 FAQ's of ST3

6.1 INTRODUCTION

There is no separate Act for Service Tax. The provisions of service tax are contained in Chapter V of the Finance Act, 1994 and administered by the Central Board of Excise & Customs (CBEC).

Service tax is being imposed by amending Finance Act, 1994 and the scope has been amended time to time.

The power to change service tax vests with the Central Government. This authority is granted to the Central Government by Entry 92C (yet to be made effective) of the union list. However, currently, the service tax is collected under the power of the Residuary Entry 97 of the Union List.

Service tax was introduced in the year 1994. No separate Act on Service Tax is in force as yet but it finds its enactment in the Finance Act, 1994. Till date, the service tax amendments are being introduced by amending the Finance Act, 1994 from time to time. The taxable services are defined in section 65 of the Finance Act, 1994. Section 66 is the charging section of the said Act.

6.1.1 Statutes Governing the Levy of Service Tax

- i. The Finance Act, 1994 Chapter V — Sections 64 to 96-I. This chapter extends to the whole of India except the State of Jammu and Kashmir.
- ii. The Finance Act, 2004 Chapter VI — for levy of Education Cess @ 2% on the Service Tax.
- iii. The Finance Act, 2007 — for levy of Secondary and Higher Education Cess of 1% on service tax.

- iv. The Service Tax Rules, 1994. (Also referred to as 'Rules' or 'STR, 1994').
- v. The CENVAT Credit Rules, 2004.
- vi. The Place of Provision of Services Rules, 2012
- vii. The Service Tax (Registration of Special categories of persons) Rules, 2005.
- viii. The Service Tax (Determination of Value) Rules, 2006 (with effect from 19th April, 2006)
- ix. The Point of Taxation Rules, 2011

6.1.2 Sources of Service Tax Law

As you are aware there is no separate Act for the service tax. However, the sources of service tax law are:

- i. Finance Act, 1994
- ii. Various Rules on service tax
- iii. Notifications on service tax
- iv. Circulars/Instructions on service tax issued by CBEC time to time
- v. Orders on service tax published by the CBEC (Rule 3) and the Central Government (Section 95) and
- vi. Trade notices on service tax issued by Central Excise and Service tax commissionerates

6.1.3 Extent and scope of service tax [section 64 of the Finance Act, 1994]

Chapter V of the Finance Act, 1994 (i.e. the service tax law), which came into force from 1-7-1994, extends to the whole of India except the state of Jammu and Kashmir. The various aspects relating to the extent of applicability of the service tax law are as follows:

(1) India [Section 656(27)]: India means,-

- (a) the territory of the Union as referred to in clauses (2) and (3) of Article 1 of the Constitution i.e. the States and Union Territories;
- (b) its territorial waters, continental shelf, exclusive economic zone or any other maritime zone as defined in the Territorial Waters, Continental Shelf, Exclusive Economic Zone and other Maritime Zones Act, 1976;
- (c) the seabed and the subsoil underlying the territorial waters;
- (d) the air space above its territory and territorial waters; and
- (e) the installations, structures and vessels located in the continental shelf of India and the exclusive economic zone of India, for the purposes of prospecting or extraction or production of mineral oil and natural gas and supply thereof.

(2) Service Tax extends to the Continental Shelf & Exclusive Economic Zone (CS & EEZ) of India [Notification No. 14/2010-S.T., dated 27-2-2010]: The Central Government has extended provisions of Chapter V of the Finance Act, 1994, to the following areas in the continental shelf and exclusive economic zone of India for the following purposes mentioned correspondingly –

Area	Purpose for which service tax law extended
(1) Whole of continental shelf economic zone of India and exclusive	Any service provided for all activities pertaining to construction of installations, structures and vessels for the purposes of prospecting or extraction or production of mineral oil and natural gas and supply thereof.
(2) Installations, structures and the continental shelf and vessels within the exclusive economic zone of India, constructed for the purposes of prospecting or extraction or production of mineral oil and natural gas.	Any service provided or to be provided by or to such installations, structures and vessels and for supply of any goods connected with the said activity.

- (3) **Service tax doesn't extend to the State of Jammu and Kashmir:** This means that the services provided (as per the Place of provision of service rules, 2012) in the territorial jurisdiction of the State of Jammu and Kashmir are not liable to service tax. The location of the service provider or the service recipient doesn't matter.

6.1.4 Salient features of levy of service tax

The salient features of levy of service tax are as under -

- (i) **Service defined:** The word service has been defined under section 65B(44) of the Chapter V of Finance Act, 1994. It is an exhaustive definition and covers all the activities except those specifically excluded from the ambit of service tax.
- (ii) **Scope:** Section 66B is the charging section which provides that service tax shall be levied on all the services provided or agreed to be provided in a taxable territory other than services specified in Negative list.
- (iii) **Negative list:** Section 66D specifies services which are covered in negative list. The services so specified go out of ambit of chargeability of service tax. In all, there are seventeen heads of services that have been specified in the negative list.
- (iv) **Exempted Services:** In addition to services specified in negative list, a mega exemption Notification No. 25/2012-S.T., dated 20-06-2012 has been issued exempting many services from payment of service tax.
- (v) While the services in the negative list are not taxable at all, the exempted services are those that are otherwise taxable but exempt vide notification issued by the Central Government.
- (vi) **Declared services:** To avoid disputes between sale of goods and services, Section 66E provides certain activities to be specifically treated as declared services. Nine activities have been specified in the said section which are deemed to be declared service.
- (vii) **Taxable Territory:** Since provision of service in taxable territory is an important ingredient of taxability, Section 66C empowers the Central Government to make rules for determination of place of provision of service. The Central Government has notified Place of Provision of Service Rules, 2012 in this regard.
- (viii) **Principles of Interpretation:** Principles of Interpretation have been laid down in Section 66F of the Act for interpretation whenever services have to be treated differentially for any reason and also for determining the taxability of bundled services.
- (ix) **Date of determination of rate of tax, value of taxable service & exchange rate:** Section 67A has been inserted w.e.f. 01-07-2012 which states that the rate of service tax, value of taxable service & exchange rate shall be the rate in force or as applicable at the time when taxable service has been provided or agreed to be provided. Point of taxation Rules, 2011 has been framed for this purpose.
- (x) **Rate of service tax:** The rate of service tax specified under section 66B is 12% of value of taxable services. Service tax is to be increased by Education cess @ 2% and Secondary & Higher education cess @ 1%. Hence, effective rate of charge of service tax is 12.36% of value of taxable service.
- (xi) **Valuation of services:** For the purpose of levy of service tax, the value of taxable service is to be determined in accordance with Section 67 read with Service Tax (Determination of Value) Rules, 2006,
- (xii) **Payment of service tax:** The liability for payment of service tax is affixed either on service provider or on recipient of service (in case of reverse charge). With effect from 01-07-2012, a new scheme of taxation is brought into effect where the liability of payment of service tax will be shared by service provider as well as service recipient in specified services. This is called as partial reverse charge.
- (xiii) **Cenvat credit:** The credit of service tax and excise duty across goods and services are available in accordance with Cenvat Credit Rules, 2004.

- (xiv) **Procedural compliances:** Provisions have been made for registration, assessment including self assessment, rectification, special audit, appeals and penalties for non compliance of the provisions of the Act and Rules.

6.1.5 Concept of charge of service tax

Charge of service tax on and after Finance Act, 2012 [Section 66B]: There shall be levied service tax at the rate of 12% on the value of all services, other than those services specified in the negative list, provided or agreed to be provided in the taxable territory by one person to another and collected in such manner as may be prescribed.

Essentials for charge of service tax: Thus, important ingredients for charge of service tax are -

- (i) The service should have been provided or agreed to be provided.
- (ii) The service should be provided for a consideration.
- (iii) The service should be provided by one person to another person.
- (iv) The service should be provided in taxable territory (i.e. India excluding State of Jammu & Kashmir) as per Place of Provision of Service Rules, 2012.
- (v) Services must not be specified in the negative list.
- (vi) Service tax is levied @ 12% (increased by EC @ 2% & SHEC @ 1%) of value of taxable service. Hence, effective rate is 12.36% of value of taxable service.
- (vii) Service tax is collected in such manner as may be prescribed (i.e. in accordance with Service Tax Rules, 1994).

6.1.6 Nature of Service Tax

Service tax can be levied on the following:

- (a) Taxable Service, and
- (b) Value of Taxable Service.

Taxable Services

Service tax is levied on all services except negative list of services in the Finance Act, 1994. There are several services which are taxable if service is provided by a service provider; any person to any person.

However, all taxable services are NOT subject to service tax.

This is because taxability is not only dependent on the nature of service but also on—

- (i) Who is the service provider,
- (ii) Who is the service receiver.

Example 1:

X Ltd, an advertising company is not liable to collect and pay service tax on advertisement service rendered to the Approved International Organisation in India, even though for the same service to another entity X Ltd will have to collect and pay tax. ("Who is the Service receiver" principle)

Example 2:

Mr. A, a professional dealing in indirect tax gives consulting advice to the government of India, he is required to collect service tax from the Government of India and remit the same to the Service Tax department. However, if the Reserve Bank of India were to render the same service to the Government of India it is not required to collect and pay service tax. ("Who is the Service provider" principle) such services are taxable services; RBI is not liable to pay the service tax. Likewise any services provided by the service provider which are in the nature of statutory services, then service tax cannot be levied.

6.1.7 Service [Section 658(44)]: "Service" means -

- any activity carried out by a person for another for consideration, and
- includes a declared service,
- but shall not include, -
 - (a)** An activity which constitutes merely, -
 - (i) A transfer of He in goods or immovable property, by way of sale, gift or in any other manner; or
 - (ii) Such transfer, delivery or supply of any goods which is deemed to be a sale within the meaning of Article 366(29A) of the Constitution; or
 - (iii) A transaction in money or actionable claim;
 - (b)** A provision of service by an employee to the employer in the course of or in relation to his employment;
 - (c)** Fees taken in any Court or tribunal established under any law for the time being M force.

Explanation 1: For the removal of doubts, it is hereby declared that nothing contained in this clause shall apply to, -

- (A)** The functions performed by the Members of Parliament, Members of State Legislative, Members of Panchayats, Members of Municipalities and Members of other local authorities who receive any consideration in performing the functions of that office as such member; or
- (B)** The duties performed by any person who holds any post in pursuance of the provisions of the Constitution in that capacity; or
- (C)** The duties performed by any person as a Chairperson or a Member or a Director in a body established by the Central Government or State Governments or local authority and who is not deemed as an employee before the commencement of this section.

Explanation 2: For the purposes of this clause, transaction in money shall not include any activity relating to the use of money or its conversion by cash or by any other mode, from one form, currency or denomination, to another form, currency or denomination for which a separate consideration is charged.

Explanation 3: For the purposes of this Chapter,-

- (a) An unincorporated association or a body of persons, as the case may be, and a member thereof shall be treated as distinct persons;
- (b) An establishment of a person in the taxable territory and any of his other establishment in a non-taxable territory shall be treated as establishments of distinct persons.

Explanation 4: A person carrying on a business through a branch or agency or representational office in any territory shall be treated as having an establishment in that territory.

The following are the ingredients of service, -

(1) Service means any activity carried out by a person:

- (a)** The term 'Activity' would include an act done, a work done, a deed done, an operation carried out, execution of an act, provision of a facility etc. It is a term with very wide connotation.
- (b)** Activity could be active or passive and would also include forbearance to act. Agreeing to an obligation, to refrain from an act or to tolerate an act or a situation has been specifically listed as a declared service under section 66E of the Act.

(2) The activity shall be carried out by one person for another person:**(b) Person [Section 65B(37)]:** Person includes, -

- an individual,
- a Hindu undivided family,
- a company,
- a society,
- a limited liability partnership,
- a firm,
- an association of persons or body of individuals, whether incorporated or not,
- Government,
- a local authority, or
- every artificial juridical person, not falling within any of the preceding sub-clauses.

(b) Two separate persons are required for taxability: Service must be provided by one person to another i.e. service provider and service receiver. Thus, self service is outside the purview of service tax. However the following are its exceptions, -

- **Deemed Separate person:** As per Explanation 3 of Section 65B(44) which are as under,-
 - (a)** an establishment of a person located in taxable territory and another establishment of such person located in non-taxable territory are treated as establishments of distinct persons.
 - (b)** an unincorporated association or body of persons and members thereof are also treated as distinct persons.
- **Implications of these deeming provisions:** Thus, inter-se provision of services between such persons, deemed to be separate persons, would be taxable. This provision is an exception to the 'principle of mutuality'.

Example 3:

(a) Services provided to the branch office in India of a multi-national company by the headquarters of the multi-national company located outside India;

(b) Services provided by a club to its members,

would be taxable provided other conditions relating to taxability of service are satisfied.

(3) Activity must be carried out for a consideration:

- (a) **Consideration:** "Consideration" means everything received or recoverable in return for a provision of service which includes monetary consideration as well as non-monetary consideration.

Monetary consideration: "Monetary consideration" means any consideration received in the form of money.

Non monetary consideration: Non-monetary consideration essentially means compensation in kind such as the following:

- Supply of goods and services in return for provision of service ;
- Refraining or forbearing to do an act in return for provision of service ;
- Tolerating an act or a situation in return for provision of a service;
- Doing or agreeing to do an act in return for provision of service.

In case of non-monetary consideration, the money value of such consideration is to be determined in accordance with Service Tax (Determination of Value) Rules, 2006.

- (b) **Activities carried out without consideration are outside the scope of service:** Activity carried out without any consideration like donations, gifts or free charities are, therefore, outside the ambit of service.

Examples 4:

- (i) Grants given for a research where the researcher is under no obligation to carry out a particular research would not be a consideration for such research. Conditions in a grant stipulating merely proper usage of funds and furnishing of account also will not result in making it a provision of service.
- (ii) Donations to a charitable organization is not consideration unless charity is obligated to provide something in return e.g. display or advertise the name of the donor in a specified manner or such that it gives a desired advantage to the donor. (Circular No. 127/09/2010-ST, dated 16-8-2010)

- (c) **Consideration need not only be paid by service receiver:** Consideration may be paid by any person and not necessarily receiver of service.

- (d) **Consideration must arise out of contractual reciprocity:** An activity done without express or implied contractual reciprocity of consideration would not be an activity for a consideration even if such activity may lead to accrual of gains to the person carrying out such activity.

Examples 5:

- (i) Life time achievement award will not comprise an activity for a consideration.
- (ii) Artist performing at street where viewers are under no obligation to pay any amount.
- (iii) Provision for free tourism, access to free TV channels or governmental activities without charges will not comprise an activity for a consideration.
- (iv) Grant of pocket money, a gift or reward (which has not been given in terms of reciprocity), amount paid as alimony for divorce would be examples in this category.

However a reward given for an activity performed explicitly on the understanding that the winner will receive the specified amount in reciprocity for a service to be rendered by the winner would be a consideration for such service.

Thus amount paid in cases where people at large are invited to contribute to open software development (e.g. Linux) and getting an amount if their contribution is finally accepted will be examples of activities for consideration.

- (e) Fines and penalties which are legal consequences of persons actions are not in nature of activity for a consideration.

(4) Certain instances:

Sl. No.	A	B
	Nature of payment	Whether consideration for service?
1.	Amount received in settlement of dispute.	It shall not be regarded as consideration unless it represents a portion of the consideration for an activity that has been carried out. If the dispute itself pertains to consideration relating to service then it would be a part of consideration.
2.	Amount received advances for performance of service.	Such advances are consideration for the agreement to perform a service.
3.	Deposits returned on cancellation of an agreement to provide a service.	Returned deposits are in the nature of a returned consideration. If tax has already been paid the tax payer would be entitled to refund to the extent specified and subject to provisions of law in this regard.
4.	Advances forfeited for cancellation of an agreement to provide a service.	Since service becomes taxable on an agreement to provide a service such forfeited deposits would represent consideration for the agreement that was entered into for provision of service.
5.	Security deposit that is returnable on completion of provision of service.	Returnable deposit is in the nature of security and hence do not represent consideration for service. However if the deposit is in the nature of a colorable device wherein the interest on the deposit substitutes for the consideration for service provided or the interest earned has a perceptible impact on the consideration charged for service then such interest would form part of gross amount received for the service. Also security deposit should not be in lieu of advance payment for the service.
6.	Security deposits forfeited for damages done by service receiver in the course of receiving a service.	If the forfeited deposits relate to accidental damages due to unforeseen actions not relatable to provision of service then such forfeited deposits shall not be regarded as consideration and the same is specifically excluded in the Valuation Rule, 2006.
7.	Excess payment made as a result of a mistake.	If returned it is not consideration. If not returned and retained by the service provider it becomes a part of the taxable value.

(5) Declared Services:

The definition of service includes declared service. Declared services are activities that have been specified in Section 66E of the Act. When such activities are carried out by one person for another in the taxable territory for a consideration, then such activities are taxable services. In fact, most of the declared services have been specified with the intent of clarifying the distinction between the deemed sales and activities related thereto which are outside the realm of deemed sales but qualify as a service.

Exclusions from the definition of Service / Activities not covered under Service -**(1) Sale/Deemed sale/Transaction only in money do not constitute service:**

- (a) **Sale - Mere transfer in title of goods or immovable property:** Mere transfer in title of goods or immovable property by way of sale, gift or in any other manner for a consideration, does not constitute service.

- (i) **Goods [Section 65B(25)]:** Goods means every kind of movable property other than actionable claim and money; and includes securities, growing crops, grass, and things attached to or forming part of the land which are agreed to be severed before sale or under the contract of sale.
 - (ii) **Immovable property [Clause (26) of the General Clauses Act, 1897]:** Immovable property to include land, benefits to arise out of land, and things attached to the earth, or permanently fastened to anything attached to the earth.
 - (iii) **Transfer of title:** "Transfer of title" means change in ownership. Mere transfer of custody or possession over goods or immovable property where ownership is not transferred does not amount to transfer of title. For example giving the property on rent or goods for use on hire would not involve a transfer of title, and will therefore, be charged to service tax.
 - (iv) **Composite transactions:** A transaction which, in addition to a transfer of title in goods or immovable property, involves an element of another activity carried out or to be carried out by the person transferring the title would not be rightly excluded from the definition of service.
- (b) **Deemed sales:** "Service" shall not include an activity which constitutes merely transfer, delivery or supply of any goods which is deemed to be sales within the meaning of Article 366(29A) of the Constitution. 'Deemed sales' refer to those transactions which will be deemed as sales even if, as per the normal definition, these cannot be held as sales.

Though deemed sales are outside the purview of 'Service' but activities related to deemed sales which qualify as a service, has been declared as a service as per the provisions of Section 66E of the Finance Act, 1994.

- (c) **A mere transaction in money or actionable claims:** Any activity which constitutes merely a transaction in money or actionable claim will not constitute service.
- (i) **Money [Section 65B(33)]:** "Money" means legal tender, cheque, promissory note, bill of exchange, letter of credit, draft, pay order, traveller cheque, money order, postal or electronic remittance or any such similar instrument but shall not include any currency that is held for its numismatic value.
 - (ii) **Actionable Claim [Section 65B(1)]:** Actionable claim shall have the meaning assigned to it in Section 3 of the Transfer of Property Act, 1882. As per Section 3 of the Transfer of Property Act, 1882 'Actionable claim' means a claim to,-
 - (a) any debt, other than a debt secured by mortgage of immovable property or by hypothecation or pledge of movable property; or
 - (b) any beneficial interest in movable property not in the possession, either actual or constructive, of the claimant, which the Civil Courts recognize as affording grounds for relief,

whether such debt or beneficial interest be existent, accruing, conditional or contingent.

Examples of actionable claims are -

- Unsecured debts;
- Right to participate in the draw to be held in a lottery.

[**Note:** Only those debts which can be enforced through Court of Law can be said to be actionable claims.]

- (iii) **Activities regarded as transaction only in money:** The following are some of the activities which fall under this category -

- (a) principal amount of deposits in, or withdrawals from a bank;
- (b) advancing or repayment of principal sum on loan to some one;
- (c) conversion of, say Z 1,000 currency notes into one rupee coins (to the extent amount is received in money form);
- (d) actionable claims like transfer of unsecured debts.

Thus, transaction in money per-se would be outside the ambit of service.

Related activities covered: Any related activity for which separate consideration is charged would not be treated as transaction in money and would be chargeable to service tax if other elements of taxability are present.

For example: Making of a bank draft, where the bank charges a commission for the preparation of the same is not transaction only in money and the commission charged shall be the value of service provided.

(iv) Activities relating to use of money or its conversion into another form/ currency/ denomination for consideration included in definition of service [Explanation 2]:

Activities relating -

- to use of money; or
- its conversion from one form, currency or denomination to another form, currency or denomination;

for which a separate consideration is charged; shall be included as 'service'.

(2) Service by an employee to employer in course of employment do not constitute service:

Any service provided by an employee to his employer during the course of his employment is outside the ambit of service. Therefore,-

Functions performed by MPs, MLAs, persons holding constitutional posts are not included in 'service'

[Explanation 1]: As per explanation 1, the following functions/ duties will not be covered in service,-

- (a) The functions performed by the Members of Parliament, Members of State Legislative, Members of Panchayats, Members of Municipalities and Members of other local authorities who receive any consideration in performing the functions of that office as such member; or
- (b) The duties performed by any person who holds any post in pursuance of the provisions of the Constitution in that capacity; or
- (c) The duties performed by any person as a Chairperson or a Member or a Director in a body

established by the Central Government or State Governments or local authority and who is not deemed as an employee before the commencement of this section.

However, the following will be covered in scope of service -

- (i) **Services provided outside employment for a consideration -Taxable:** Services provided outside employment for a consideration would be covered under the definition of 'service'.
Example: If an employee provides his service on contract basis to an associate of the employer, it would be covered under 'service'.
- (ii) **Services provided on contract basis - Taxable:** Services provided on contract basis i.e. principal to principal basis are not services in course of employment and therefore come within the ambit of taxable service.
- (iii) **Amounts received by an employee from the employer on premature termination of contract of employment - Not regarded as service:** Such amounts paid by the employer to the employee for premature termination of a contract of employment are treatable as amounts paid in relation to services provided by the employee to the employer in the course of employment. Hence, amounts so paid would not be chargeable to service tax.
- (iv) **Non competing fees - Taxable:** Any amount paid for not joining a competing business would be liable to be taxed being paid for providing the service of forbearance to act.

(d) Status of services provided by casual workers or contract labour:

If	Then
Services provided by casual worker to employer who gives wages on daily basis to the worker	These are services provided by the worker in the course of employment
Casual worker are employed by a contractor, like a building contractor or a security service agency, who deploys them for execution of a contract or for provision of security services to a client.	Service provided by the workers to the contractor are services in the course of employment and hence not taxable. However, services provided by the contractor to his client by deploying such workers would not be a service provided by the workers to the client in the course of employment. The consideration received by the contractor would therefore be taxable if other conditions of taxability are present.

(3) Service of Court/Tribunal - Not covered:

Fees taken in any Court or tribunal established under any law for the time being in force is outside the coverage of 'service'

6.1.8 Extent and scope of levy of service tax on 'Composite contracts of sale and service'

The power to levy tax on sale of goods is within the legislative competence of the states. A transaction which in addition to a transfer of title in goods or immovable property involves an element of another activity carried out or to be carried out by the person transferring the title would not be outrightly excluded from the definition of service.

- (1) **If two transactions can be separable then service portion will be leviable to service tax:** If two transactions, although associated, are two discernibly separate transactions then each of the separate transactions would be assessed independently. The service portion will only be liable for service tax.

Example 6: A builder carrying out an activity for a client wherein a flat is constructed by the builder for the client for which payments are received in instalments and on completion of the construction the title in the flat is transferred to the client involves two elements namely provision of construction service and transfer of title in immovable property. The two activities are discernibly separate. The activity of construction carried out by the builder would, therefore, be a service and the activity of transfer of title in the flat would be outside the ambit of service.

- (2) Composite contract for sale of goods & provision of services - Inseparable - 'Dominant Nature Test' applicable:** Service is different from sale. The fact that some goods have been used in the course of providing 'service' doesn't make that transaction a 'sale'.

The nature of the transaction depends on the intention of the parties. If the parties intended to enter into a transaction of purchase and sale of 'goods', the transaction will be 'sale' even though some services might have been provided, which will be taxed separately. However, in case where goods have been used in providing services or in case where the sale of goods is incidental to the provision of services, the transaction would primarily be that of service.

Therefore, if the predominant factor in a transaction is 'sale', the transaction would be classified as 'sale', however, if the predominant factor in a transaction is 'service', the transaction would be classified as 'service' only. This is commonly known as "Dominant Nature Test". - *Bharat Sanchar Nigam Ltd. v. ITO* [2006] 2 STR 161 (SC)

- (3) Exceptions to Dominant Nature Test - Transactions of 'deemed sales' under Constitution [Article 366(29A)]:** As per Article 366(29A) of Constitution of India, sale includes some transactions which are regarded as deemed sale. The dominant nature test doesn't apply to the aforesaid transactions of deemed sales, which are deemed to be divisible. The 'sale' element, which is deemed to be divisible, cannot be subjected to service tax.

Further, the States can impose tax only on the 'sale' element of these transactions; the States cannot impose any tax on 'service element' in these transactions, as the 'service element' can be taxed only by Parliament/ Centre.

The present status as regards taxation of deemed sales is as under -

		'Sale Element'	'Service Element'
(1)	Transfer, otherwise than in pursuance of a contract	Transfer, otherwise than in pursuance of a contract, of property in any goods for cash, deferred payment or other valuable consideration;	There is no service element
(2)	Works Contract	Transfer of property in goods (whether as goods or in some other form) involved in the execution of a works contract;	Service portion in the execution of a works contract is a declared service under section 66E(h);
(3)	Hire-purchase contract	Delivery of goods on hire-purchase or any system of payment by installments;	Activities in relation to delivery of goods on hire purchase or any system of payment by installments is a declared service under section 66E(g);
(4)	Lease contract	Transfer of the right to use any goods for any purpose (whether or not for a specified period) for cash, deferred payment or other valuable consideration;	Transfer of goods by way of hiring, leasing, licensing or in any such manner without transfer of right to use such goods is a declared service under section 66E(f);

(5)	Supply of goods by association to its members	Supply of goods by any unincorporated association or body of persons to a member thereof for cash, deferred payment or other valuable consideration;	According to section 65B(44) explanation 3(b), An unincorporated association or a body of persons, as the case may be, and a member thereof shall be treated as distinct persons and provision of service between them is chargeable to tax.
(6)	Catering Contract	Supply, by way of or as part of any service or in any other manner whatsoever, of goods, being food or any other article for human consumption or any drink (whether or not intoxicating), where such supply or service, is for cash, deferred payment or other valuable consideration.	Service portion in an activity wherein goods, being food or any other article of human consumption or any drink (whether or not intoxicating) is supplied in any manner as a part of the activity is a declared service under section 66E(i).

6.2 REGISTRATION UNDER SERVICE TAX

Any person liable to pay service tax has to register with the Superintendent of Central Excise (Section 69) within 30 days from the date of commencement of the business of providing taxable service (Rule 4 of Service Tax Rules, 1994).

Service Tax Registration is required if —

- the taxable turnover of the service provider during the previous year exceeds ₹ 9 lakhs, or
- the service provider is acting as an input service distributor irrespective of his turnover.
- Service provider provided services under the brand name of another person.
- the service receiver is liable to pay service tax being recipient of any services under Reverse Charge.

A service provider whose value of service exceeds ₹ 9 lakhs, in the year of providing the service or in any subsequent year, when the value of service cross ₹ 9 lakh for the first time, would require registration, however such service provider can avail exemption if the value of service does not exceed ₹ 10 Lakhs per annum.

Small Service Provider Exemption

Service tax provides for an exemption to small service providers who provide taxable services of a value not exceeding the specified limit. The specified limit is now ₹ 10 lakhs. In other words where the value of taxable services provided do not exceed ₹ 10 lakhs in the previous financial year, the concerned service provider would not be required to pay service tax upto receipts of ₹ 10 lakhs in the current financial year. The exemption is through notification 6/2005 ST dated 01.03.05 as amended from time to time.

6.2.1 Registration procedure under Service Tax

Step 1: Apply for registration in Form ST-1 to the Superintendent of Central Excise

Step 2: Submit along with Form ST-1 the following documents

- Permanent Account Number (PAN)
- Affidavit declaring the commencement of the services (prescribed Format)
- Copy of passport or ration card or any other document as residential proof
- Passport size photograph of the assessee in case of individual and of partners in the case of partnership firm and of directors in the case of a company.
- Partnership deed in case of firm
- Memorandum and Articles of Association in case of company

Step 3: The Superintendent of Central Excise will grant a certificate of registration in Form ST-2 within 7 days of the date of receipt of the application. If the registration is not granted within 7 days registration is deemed to be granted. It means deeming provision in rule 4(5) is applicable to registration granted by the Superintendent of Central Excise. However, no time stipulated on the Commissioner of Central Excise to grant centralized registration under rule 4(2), the provision of deemed registration is not attracted in case of grant of centralised registration by the Commissioner [*Karamchand Thapar & Bros. (Coal Sales) Ltd. v UOI 2010 (20) STR 3 (Cal)*].

Step 4: Certificate of Registration can be surrendered if the assessee ceases to provide the taxable services for which he had been registered.

Where a service is rendered from different locations falling under different Commissionerates, multiple registrations are required. However, even in this case a single registration is possible, with the permission from the Department, if the assessee maintains centralized billing or centralized accounting for multiple services provided from more than one premises.

Dealer's registration not available under service tax unlike First Stage Dealer and Second Stage Dealer under Central Excise

Such permission can be granted by the Chief Commissioner of Central Excise or Commissioner of Central Excise if all the premises are falling under the jurisdiction of one Chief Commissioner or Commissioner.

If the premises of the assessee are falling under the jurisdiction of more than one Chief Commissioner then the permission has to be got from the Director General of Service Tax (DGST).

Registration under service tax can also be done through online system namely ACES mode (i.e. Automation of Central Excise and Service Tax).

6.2.2 Registration in case of Multiple Services

One application for registration is enough even though the service provider is providing or provides multiple services. Registration is not granted service wise but assessee wise. All services can be mentioned in one ST-1 form and the same can be submitted in the office of the Superintendent of Central Excise.

Example 7:

Mr. B is providing erection, commissioning and installation and mining services in addition to Mandap keeping services. How many applications for registration under service tax provisions Mr. B need to apply?

Answer:

Single ST-1 Form is enough for all multiple services rendered by Mr. B.

6.2.3 Transfer of Business

If the assessee transferred his business to another person, the transferee shall obtain a fresh certificate of registration. Certificate of registration is non-transferable.

Example 8:

Mr. Ram provider of interior decorating services since 2009, hold's service tax registration under service tax provisions. Mr. Ram subsequently sold the entire business to Mr. Y for ₹ 10 lacs. You are required to answer whether the registration number of Mr. Ram will be the registration number of Mr. Y?

Answer:

No, the registration certificate under the service tax is non-transferable.

6.2.4 Amendments in Registration Certificate

Certain changes may require amendments in registration certificate. Whereas any change in constitution of the business, new registration number is required to be obtained.

Changes in registration certificate:

In Case of

- i. Service provider providing any taxable service other than that provided in the registration certificate.
- ii. Change of billing address from one location to other etc.

Service provider should furnish such additional information or details, in writing to the jurisdictional Assistant Commissioner or Deputy Commissioner of Central Excise within 30 days of such change.

Hence, the revised registration certificate will be issued after cancelling the registration certificate issued earlier. However, no new registration number will be allotted.

Change of business constitution:

Where there is change in the constitution of business such as, a new registration certificate for the changed form of business need to be obtained, like partnership firm converting into a private limited or public limited company, a private limited company converted into public limited company and so on. In the case of change, the transferee needs to obtain a fresh new registration certificate with a new number.

6.2.5 Salient Features of STC

Service Tax Registration number also known as Service Tax Code (STC) contains 15 digits PAN based number.

- i. The first 10 digits of this number (i.e. STC) are the same as the PAN of such person.
- ii. Next 2 digits are ST
- iii. Next 3 digits are serial numbers indicating the number of registrations taken by the service taxpayer against a common PAN. (for example 001 for one registration number, 002 for two registration numbers of such a person having common PAN for such premises)

6.2.6 Premises Code

In addition to PAN based STC number, another number, namely, 'premises code' is also given in the registration certificate (i.e. ST-2). This number indicates the code of the jurisdictional Commissionerate, division, range and serial number within the range. This number is issued for easy identification of location of registration of the service tax payer.

6.2.7 Multiple Centralized Registration

A bank has its head office at Mumbai and regional offices at Chennai, Hyderabad and Cochin and the bank has centralized billing or centralized accounting facilities available at each of these regional offices, in addition to the Head office. Such bank at its option can obtain multiple centralized registration for each regional offices for the purpose of discharging the service tax liability.

6.2.8 Cancellation or Surrender of Registration Certificate

Once registration is granted it will be valid till such time it is surrendered. However, registration can be cancelled in the following cases:

- i. Service provider ceases to provide the taxable service
- ii. Service provider deceased (in case of a sole proprietor)
- iii. Service provider transferred his business in favour of others

Before cancellation of registration the Superintendent of Central Excise shall ensure that the assessee has paid all monies due to the Central Government and then cancel the registration certificate.

6.2.9 Input Service Distributor (ISD)

In case of input service distributor registration under Service Tax provisions is compulsory irrespective of the turnover limit.

Input service distributor means an office managing the business of manufacturer or producer of final products or provider of output services, which receives invoices issued under Rule 4A of the Service Tax Rules, 1994 towards purchase of input services and issues invoice, bill or, as the case may be, challan for the purpose of distributing the credit of service tax paid under said services to such manufacturer or producer or provider, as the case may be. [Rule 2(m) of the CENVAT CREDIT RULES, 2004]

Manner of distribution of credit by input service distributor (Rule 7 of the CENVAT CREDIT RULES, 2004) (w.e.f. 1-4-2012):

The input service distributor may distribute the CENVAT CREDIT in respect of the service tax paid on the input service to its manufacturing units or units providing output service, subject to the following conditions, namely:-

- (a) The Input service distributor must ensure that such a distribution should not exceed the service tax paid.
- (b) In case an input service is attributable to service use in a unit exclusively engaged in manufacture of exempted goods or exempted services, then such credit of service tax shall not be distributed.
- (c) Credit of service tax attributable to service used wholly in a unit shall be distributed only to that unit; and
- (d) Credit of service tax attributable to service used in more than one unit shall be distributed pro-rata on the basis of the turnover of the concerned unit to the sum total of the turnover of all the units to which the service relates.

Example 9:

X Ltd. has three units namely:

Place	Nature	Turnover for the April 2012 (₹)	Output
Chennai	Factory	2,50,000	Dutiable goods
Bangalore	Factory	1,50,000	Dutiable goods
Hyderabad	Service unit	1,10,000	Taxable service
Total		5,10,000	

M/s Mudra Pvt. Ltd an advertising agency provided services for ₹ 3,00,000 in the month April 2012 by charging Service Tax @12.36% to X Ltd. to promote products of Chennai and Bangalore factories. However, Hyderabad unit not received input services from M/s Mudra Pvt. Ltd.

In the given case X Ltd can distribute the CENVAT CREDIT on input service to Chennai and Bangalore factory, in respect of their turnover ratio. It means input service distributor should not distribute the CENVAT CREDIT on input service to the Hyderabad unit. Since, this unit were not received any input service.

6.3 REVERSE CHARGE

Every person providing a taxable service is required to pay service tax at the prescribed rate. However in certain cases the service recipient is made liable to pay service tax on the services received. Since the person receiving services is made liable to pay service tax, the mechanism of collection of such tax is called as reverse charge (RCM).

This concept is set out in service tax law by virtue of section 68(2) by empowering the Central Government to notify services positively on which the said RCM would apply. To support this the person liable to pay service tax as defined in rule 2(1)(d) of the Service Tax Rules, 1994 also includes service recipients.

The SSI exemption is not available for the service tax payable under reverse charge in Service tax, person receiving the service covered under RC is liable to pay irrespective of quantum.

However, in addition to the concept of reverse charge a new concept of joint charge (recipient and provider of services liable to pay tax) is also introduced.

Joint Charge Mechanism

Under the concept of joint charge, for one service the service provider as well as service receiver is made liable for payment of service tax to the extent notified. This liability is independent of the other person's liability. In other words the failure to comply with the provisions by one person on his part would not impact the compliance requirement of other person and vice versa.

The notified taxable services are as follows:

- (i) **Insurance Services:** General Insurance Services or Life Insurance Services provided by the insurance agents to the insurance company. Hence, the insurance company being recipient of service is liable to pay service tax. However, an option to pay service tax at a rate other than standard rate (i.e. 12%) is given an insurer carrying on life insurance business. Life insurance company collects premium which covers risk plus savings has option to pay service tax @ 3% 1ST YEAR AND SUBSEQUENTLY @1.5% on PREMIUM (w.e.f. 1-4-2012). Cenvat Credit Fully Allowed on Inputs, Capital Goods and Input Services.
 - (i) However, such option shall not be available in cases where
 - (ii) the entire premium paid by the policy holder is only towards risk cover in life insurance; or
 - (iii) the part of the premium payable towards risk cover in life insurance is shown separately in any of the documents issued by the insurer to the policy holder.
- (ii) **Import of Services:** Services imported from a country outside India, into India for business or commerce. Hence, the importer being recipient of service is liable to pay service tax.

Example 10: X Ltd an Indian company, imported services from A Ltd of USA for the personal purposes. X Ltd liable to pay service tax in India, since there is no personal service in the case of a body corporate.

(iii) GTA Services: As per the new rule, if the person liable for making payment of freight in a specified person then he is liable to pay taxes otherwise GTA is liable to pay taxes.

Goods Transport Agency means any person who provides service in relation to transport of goods by road and issues consignment note.

RULE 4B: Issue of consignment note - Any goods transport agency which provides service in relation to transport of goods by road in a goods carriage shall issue a consignment note to the recipient of Service:

Provided that where any taxable service in relation to transport of goods by road in a goods carriage is wholly exempted under section 93 of the Act, the goods transport agency shall not be required to issue the consignment note.

Explanation - For the purposes of this rule and the second proviso to rule 4A, "consignment note" means a document, issued by a goods transport agency against the receipt of goods for the purpose of transport of goods by road in a goods carriage, which is serially numbered, and contains the names of the consignor and consignee, registration number of the goods carriage in which the goods are transported, details of the goods transported, details of the place of origin and destination, person liable for paying service tax whether consignor, consignees or the goods transport agency.

Contents of Consignment Note:

- (i) Name of the consignor or consignee
- (ii) Registration number of the goods carriage (i.e. vehicle registration number)
- (iii) Details of goods transported
- (iv) Details of the place of origin and destination
- (v) Person liable for paying service tax whether consignor, consignee or the goods transport agency.

Exemption based on amount charged:

The gross amount charged on an individual consignment transported in a goods carriage does not exceed ₹ 750 (i.e. Freight collected for transporting small consignment for persons, who paid less than or equal to ₹ 750 for each consignment) or

The gross amount charged on consignments transported in a goods carriage does not exceed ₹ 1,500 (i.e. Freight collected for transporting goods in small vehicles for persons, who paid less than or equal to ₹ 1,500 per trip)

Note: (i) An individual consignment means all goods transported by a goods transport agency by road in a goods carriage for a consignee.

(ii) S.T. is Payable after Claiming an Abatement @ 75%

(iv) Sponsorship services to any body corporate or firm located in Taxable Territory: In case of sponsorship service provided to a body corporate or firm located in India, the body corporate or firm receiving such services will be liable to pay service tax. However, if the recipient of sponsorship service is located outside India, service tax is required to be paid by the service provider and not by the recipient of such sponsorship services.

Example 11:

Ferrari conducting the Formula 1 races by displaying logo or brand name of various companies. Hence, companies receiving sponsorship services from Ferrari are liable to pay service tax.

Example 12:

Sponsorship services provided for events like Indian Premier League (IPL) cricket matches, golf and tennis etc., are covered under reverse charge.

(v) **Services Provided by an Arbitral Tribunal** to any business entity located in taxable territory then recipient of service is liable pay service tax (w.e.f. 1-7-2012)

(vi) **Legal Consultancy Service:** In case of Services provided by an individual advocate or a firm of advocates by way of legal services to any business entity located in the taxable territory, the recipient of such services is liable to pay service tax.

(vii) **Support Services by Govt. or Local Authority:** Support services provided by Govt. or local authority to a business entity then the liability to pay S.T. is on the business entity.

Support services includes :

- i. Infrastructural
- ii. Operational
- iii. Administrative
- iv. Logistic,
- v. marketing

(viii) **Directors Remuneration (VIDE NT 45/2012 W.E.F. 7-8-2012):** Services provided or agreed to be provided by a director of a company to the company, such company would be liable to pay service tax on remuneration paid to such directors.

Note: No service tax is payable if the director is employee of the company.

List 1 - Service under Full Reverse Charge Mechanism:

Sl. No.	Nature of Service	Description of services	Percentage of Service tax payable by Service Provider	Percentage of Service tax payable by Service Recipient
i.	Goods transport Service	Transport of goods by road (If the person is specified person)	Nil	100%
ii.	Sponsorship Service	Sponsorship service	Nil	100%
iii.	Legal Services	Legal Services by Individual advocate or a firm of advocate including arbitral services.	Nil	100%
iv.	Government Services	Support services by Government or local authority (excluding renting of immovable property and certain other specified services)	Nil	100%
v.	Directors Fees	Services provided or agreed to be provided by a Director of a company to a said company	Nil	100%
vi.	Import of Service	Any taxable service where the Service provider is located in a non taxable territory and service recipient located in a taxable territory	Nil	100%

(ix) Partial Reverse Charge (w.e.f. 1-7-2012)

By the virtue of powers conferred under Sub-section (2) of Section 68 of the Act, the Central Govt. has issued notification dated 1.7.2012 notifying the following below services which shall be covered under the partial reverse charge mechanism.

Partial reverse charge is applicable in relation to service provided or agreed to be provided by way of renting of a motor vehicle designed to carry passengers to any person who is not in the similar line of business or supply of manpower for any purpose of service portion in execution of works contract by any individual, hindu undivided family or partnership firm whether registered or not, including association of person, located in the taxable territory to a business entity registered as body corporate, located in the taxable territory, both the service provider and the service recipient to the extent notified under sub-section (2) of section 68 of the act, for each respectively.

"Body Corporate" or "corporation" includes a company incorporated outside India but does not include –

- (a) a corporation sole;
- (b) a co-operative society registered under any law relating to co-operative societies; and
- (c) any other corporate (not being a company as defined in this act) which the central Government may, by notification in the Official Gazette, specify in this behalf.

The service provider and service recipient will pay the service tax in the following proportion as notified by the Government:

List 2 - Service under Partial Reverse Charge Mechanism:

S. No.	Nature of Service	Description of services	Percentage of Service tax payable by Service Provider	Percentage of Service tax payable by Service Recipient
i.	Rent-a-cab Service	Hiring of a motor vehicle designed to carry passengers (a) With abatement (i.e. 60%) (b) Without abatement	Nil 60%	100% 40%
ii.	Manpower supply Service	Supply of manpower for any service	25%	75%
iii.	Works contract service	Works contract service	50%	50%
iv.	Security Service	Security Service	25%	75%

Partial Reverse Charge is not Applicable in the following cases:

Service Provider	Recipient of Service
Company or body corporate	Individual or partnership firm or body corporate or any other person
Renting of motor vehicle designed to carry passengers by individual / firm / Huf/Aop	Any person who is in the same business of carry in passengers (i.e. sub-contract)

6.4 BRAND NAME OF ANOTHER PERSON

Service provider who is providing taxable services under the brand name of another person is not eligible for claiming exemption limit of ₹ 10 lakhs and hence, is liable to pay service tax irrespective of the turnover.

Notification No. 8/2005-ST clearly provides that small scale service provider exemption will not be applicable to taxable services provided by a person under a brand name or trade name, whether registered or not, of another person.

Example 13: Mr. Ram who markets his goods under the brand name of TATA Company. Therefore, it is very clear that Mr. Ram is a provider of services under the brand name of the company and his services are taxable under Business Auxiliary Services. Hence, he can not avail the benefit of ₹ 10,00,000 exemption.

6.5 PAYMENT OF SERVICE TAX

Service Tax on value of taxable services provided or received during the calendar month whichever is earlier should be paid by the 5th of the following month. In case the assessee is an individual or proprietary firm or partnership firm (other than HUF) or Limited Liability Partnership firm, the tax is payable on quarterly basis within 5 days from the end of the quarter.

If the payment is made through internet banking, such e-payment can be made by the 6th of the following month or following quarter as the case may be upto 8 p.m.

If the last day of payment and filing return is a public holiday, tax can be paid and return can be filed on the next working day.

If the service tax paid during the previous year exceeds or equal to ₹ 10 lacs, w.e.f. 1-4-2010 e-payment is mandatory.

Manual Payment of service tax may be either by cheque or cash depositing it through GAR-7 Challan with the bank designated by the CBEC.

Delay in payment of service tax attracts the simple interest (as per Section 75 of the Finance Act, 1994) at the rate as prescribed below and penalty. Notification No. 26/2004, dated 10-9-2004 has specified the rate. The table below shows the rate of interest applicable at relevant period of time:

Interest on delayed payment of service tax - Section 75 of the Finance Act, 1994

Sr. No.	Period	Rate of Interest
i.	Till 11-5-2001	1.5% per month
ii.	11-5-2001 to 11-5-2002	24% per annum
iii.	11-5-2002 to 10-9-2004	15% per annum
iv.	From 10-9-2004 to 31-3-2011	13% per annum
v.	From 1-4-2011	18% per annum
vi.	From 1-4-2011	15% per annum (whose annual turnover of taxable services during the previous year is ₹ 60 lakh).

6.6 RATE OF SERVICE TAX

The table below shows the rate of service tax applicable at the relevant period of time:

Sr. No.	Period	Rate of Service Tax	Rate of Education Cess
i.	Till 13-5-2003	5%	Nil
ii.	14-5-2003 to 9-9-2004	8%	Nil
iii.	10-9-2004	10%	2% of the S.T.
iv.	18-4-2006 onwards	12%	2% of the S.T. and 1% S A H w.e.f. 11th May 2007
v.	w.e.f. 24-2-2009	10%	2% plus 1% cess
vi.	w.e.f. 01 -04-2012	12%	2% plus 1% cess

Note: SAH means Secondary and Higher Education Cess.

6.7 INVOICES UNDER SERVICE TAX

RULE 4A: Taxable service to be provided or credit to be distributed on invoice, bill or challan –

- (1) Every person providing taxable service shall, not later than thirty days from the date of completion of such taxable service or receipt of any payment towards the value of such taxable service, whichever is earlier, issue an invoice, a bill or, as the case may be, a challan signed by such person or a person authorized by him in respect of such taxable service provided or agreed to be provided and such invoice, bill or, as the case may be, challan shall be serially numbered and shall contain the following, namely :-

- (i) the name, address and the registration number of such person;
- (ii) the name and address of the person receiving taxable service;
- (iii) description and value of taxable service provided or agreed to be provided; and
- (iv) the service tax payable thereon.

Provided that in case the provider of taxable service is a banking company or a financial institution including a non-banking financial company providing service to any person, an invoice, a bill or, as the case may be, challan shall include any document, by whatever name called, whether or not serially numbered, and whether or not containing address of the person receiving taxable service but containing other information in such documents as required under this sub-rule:

Provided further that in case the provider of taxable service is a goods transport agency (GTA), providing service to any person, in relation to transport of goods by road in a goods carriage, an invoice, a bill or, as the case may be, a challan shall include any document, by whatever name called, which shall contain the details of the consignment note number and date, gross weight of the consignment and also contain other information as required under this sub-rule.

Provided also that in case of continuous supply of service, every person providing such taxable service shall issue an invoice, bill or challan, as the case may be, within thirty days of the date when each event specified in the contract, which requires the service receiver to make any payment to service provider, is completed.

Provided also that in case the provider of taxable service is a banking company or a financial institution including a non-banking financial company providing service to any person, the period within which the invoice, bill or challan, as the case may be, is to be issued, shall be forty-five days:

Provided also that in case the provider of taxable service is providing the service of transport of passenger, an invoice, a bill or as the case may be, challan shall include ticket in any form by whatever name called and whether or not containing registration number of the provider of service and address of the recipient of service but containing other information in such documents as required under this sub-rule.

Provided also that wherever the provider of taxable service receives an amount upto rupees one thousand in excess of the amount indicated in the invoice and the provider of taxable service has opted to determine the point of taxation based on the option as given in Point of Taxation Rules, 2011, no invoice is required to be issued to such extent.

- (2) Every input service distributor distributing credit of taxable services shall, in respect of credit distributed, issue an invoice, a bill or, as the case may be, a challan signed by such person or a person authorized by him, for each of the recipient of the credit distributed, and such invoice, bill or, as the case may be, challan shall be serially numbered and shall contain the following, namely:-
- (i) the name, address and registration number of the person providing input services and the serial number and date of invoice, bill, or as the case may be, challan issued under sub-rule (1);
 - (ii) the name, and address of the said input services distributor;
 - (iii) the name and address of the recipient of the credit distributed;
 - (iv) the amount of the credit distributed.

Provided that in case the input service distributor is an office of a banking company or a financial institution including a non-banking financial company providing service to any person an invoice, a bill or, as the case may be, challan shall include any document, by whatever name called, whether or not serially numbered but containing other information in such documents as required under sub-rule.

6.8 RECORDS TO BE MAINTAINED

Rule 5: Records

- (1) The records including computerized data as maintained by an assessee in accordance with the various laws in force from time to time shall be acceptable.
- (2) Every assessee shall furnish to the superintendent of Central Excise at the time of filing of return for the first time or the 31st day of January, 2008, whichever is later, a list in duplicate, of –
 - (i) all the record prepared or maintained by the assessee for accounting of transactions in regard to,-
 - (a) Providing of any service;
 - (b) receipt or procurement of input services and payment for such input services;
 - (c) receipt, purchase, manufacture, storage, sale, or delivery, as the case may be, in regard of inputs and capital goods;
 - (d) other activities, such as manufacture and sale of goods, if any.
 - (ii) all other financial records maintained by him in the normal course of business.;
- (3) All such records shall be preserved at least for a period of five years immediately after the financial year to which such records pertain.

Explanation – For the purpose of this rule, “registered premises” includes all premises or offices from where an assessee is providing taxable services.

6.9 AUTOMATION OF CENTRAL EXCISE AND SERVICE TAX (ACES)

The Central Board of Excise & Customs (CBE & C) has developed a new software application called *Automation of Central Excise and Service Tax (ACES)*, which aims at improving tax-payer services, transparency, accountability and efficiency in indirect tax administration.

It is a centralized, web based software application which automates various processes of Central Excise and Service Tax for Assessee and Department, and gives complete end to end solution.

In ACES, the various processes of Service Tax automated are —

- i. Registration,
- ii. Returns,
- iii. Refunds,
- iv. ST-3A,
- v. Dispute Resolution and
- vi. Audit.

ACES can be used for:

- i. Online registration and amendment of registration details
- ii. Electronic filing of documents such as Returns, Claims, Intimations and permissions
- iii. Online tracking of the status of applications, claims and permissions
- iv. Online facility to view documents like Registration Certificate, Returns, Show Cause Notice, Order-In-Original etc.

Certified Facilitation Centre (CFC)

CFC stand for Certified Facilitation Centre under ACES project of CBEC and is an e-facility, which may be set-up and operated by a Cost Accountant/Chartered Accountant/Company Secretary or a proprietary concern/firm of Cost Accountants or Chartered Accountants or Company Secretary in practice to whom a certificate is issued under the ACES project, where the assessee of Central Excise and Service Tax can avail this facility to file their returns and other documents electronically along with associated facilitation on payment of specified fees.

6.10 ELECTRONIC ACCOUNTING SYSTEM IN EXCISE AND SERVICE TAX (EASIEST)

EASIEST has been developed to make payment of tax easy. An assessee paying service tax manually by filing GAR – 7 challan one single copy of challan and its acknowledgement is sufficient. This facility is available with 28 banks across the India.

Benefits of EASIEST:

- (a) One copy of the challan has to be filled (earlier 4 copies were required to file)
- (b) Facility of online verification of the status of tax payment using Challan Identification Number

PRACTICAL PROBLEMS

Registration

Example 15: Sri R is a practicing Chartered Accountant. His Gross taxable services during the year 2011-12 are ₹ 9,50,000. Registration is compulsory for him? If so in which year?

Answer:

Yes, Registration is compulsory in the year 2011-12 (i.e. exceeded ₹ 9,00,000).

Example 16: Mr. Hari, an engineer, renders the taxable services during the year 2011-12 for ₹ 4,00,000. During current year 2012-13 he rendered the taxable services ₹ 9,00,010 up to the end of the 30th June 2012. Explain for him registration is compulsory? If so what the last date for registration?

Answer:

Yes, Registration is required in the year 2012-13 on or before 30th July 2012.

Example 17: Mr. X is a provider of taxable service under the brand name of others. He started his business in April, 2011. Taxable turnover for the year 2011-12 is ₹ 5 lakh. Registration is compulsory for him?

Answer:

Yes, Registration is compulsory for service provider irrespective of his turnover, if he provides service under the brand name of others. For Mr. X registration is compulsory under the Finance Act, 1994.

Example 18: Mr. D is provider of taxable services from head office located at Hyderabad and from two branch offices located at Chennai and Mumbai.

- (a) Is centralized registration is permissible. If centralized billing and accounting carried out from Head Office?
- (b) Who will be the competent authority to grant centralized registration?
- (c) Rework (a) and (b) if his turnover is ₹ 8 lacs for the year 2011-12, but acting as input service distributor?

Answer:

- (a) Yes, centralized registration is permissible
- (b) DGST
- (c) Registration is compulsory. Service provider should obtain multiple registrations to act as input service distributor.

Example 19: State briefly whether the following persons are liable to apply for registration under the Finance Act, 1994 and Service tax (Registration Special Category of Persons) Rules, 2005 and if so from which date:

- (i) An input service distributor who starts his business with effect from 1st January, 2011.
- (ii) A provider of taxable service under an unregistered brand name of another person.

In both cases aggregate value of taxable services was ₹ 6,00,000 upto 31-3-2012.

Answer:

- (i) In case of input service distributors registration is compulsory without any threshold limit. Such person has to obtain the registration within 30 days from the date of commencing the business.
- (ii) A Job worker or a person who renders taxable services under some other brand name, then such person is not eligible to get the exemption limit. Therefore such a job worker is liable for registration within 30 days from the date of under taking such activities.

Reverse Charge

Example 20: ABT transport providing goods transport services. 'A Ltd' sold goods from Mumbai to 'B Ltd' of Chennai. Freight charged by ABT transport for transporting said goods is ₹ 1,00,000 (exclusive of ST) as per consignment note, dated 1st July 2012. Freight paid by A Ltd on 15th September 2012.

You are required to answer:

- Name of provider of service and recipients of service?
- Who is liable to pay service tax and why?
- Due date of payment of service tax?
- Service Tax liability?

Answer :

- Service provider → 'ABT' transport services.
Service recipients → 'Both 'A Ltd' & 'B Ltd'.
 - Either 'A Ltd' (or) 'B Ltd' being the recipients of the services. However, in the given case A Ltd is liable to pay service tax, since, freight paid by A Ltd.
 - 5th October, 2012 in case of manual payment. 6th October, 2012 in case of e-payment.
 - Service tax liability
- | | |
|---|--------------|
| Total amount of freight paid | ₹ = 1,00,000 |
| Less: Abatement of 75% on the value of freight (₹ 1,00,000 x 75%) | = (75,000) |
| Taxable Services | 25,000 |

Service tax = ₹ 3,090 (i.e. ₹ 25,000 * 12.36/100)

Example 21: A Ltd. provided services valuing ₹ 8 lakhs during the financial year 2011-12. During 2012-2013, it has provided taxable services valuing ₹ 10 lakhs and has received payments towards payable services ₹ 8.5 lakhs. It has also received services in the nature of transport of goods by road on 1-4-2012, valuing ₹ 50,000 (exclusive of service tax), in respect of which it is the person liable to pay service tax. Freight has been paid on 10-6-2012. Compute the service tax, if any, payable by A Ltd. for the financial year 2012-2013. It is given that goods transport service is exempt to the extent of 75% of value thereof.

Answer :

Value of transport services received	=	₹ 50,000
Less: abatement 75% on ₹ 50,000	=	₹ 37,500
Taxable services		₹ 12,500
Service tax liability in the hands of A Ltd (2012-13)	=	₹ 1,545 (i.e. ₹ 12,500 x 12.36/100)

Note:

- The company is eligible for small service provider exemption during the financial year 2012-13, as the value of taxable services provided during financial year 2011-12 does not exceed ₹ 10 lakhs.
- For the value of taxable services provided during the financial year 2012-13, no tax liability would arise, as the payments received or services provided do not exceed ₹ 10 lakhs. However, for goods transport agency services received, in respect of which M/s. A Ltd. is the person liable to pay service tax, the company cannot claim for small service provider exemption.

Interest

Example 22: Mr. X practicing Cost Accountant received ₹ 20,00,000 (exclusive of service tax) in the June 2012. He paid service tax on 25th July 2012 by way of GAR – 7 challan. Gross receipt in the year 2011-12 is ₹ 25 lakhs.

You are required to calculate Interest on delay payment of service tax.

Answer :

Service tax @12.36% on ₹ 20,00,000 = ₹ 2,47,200.

Due date of payment of service tax = 5th July, 2012.

No. of days delay = 20 days

Interest = ₹ 2,032 (i.e. ₹ 2,47,200 x 15/100 x 20/365)

6.11 NEGATIVE LIST, EXEMPTED SERVICES & MEGA EXEMPTIONS

6.11.1 Introduction

In terms of Section 66B of the Act, service tax will be leviable on all services provided in the taxable territory by a person to another for a consideration other than the services specified in the negative list. The services specified in the negative list therefore go out of the ambit of chargeability of service tax. The negative list of service is specified in the Act itself in Section 66 D. In all, there are seventeen heads of services that have been specified in the negative list. The scope and ambit of these is explained in paras below.

Services	Inclusion in Negative list (it means outside the scope of service tax)	Exclusion from Negative list (it means taxable unless exempted from service tax)	Remarks
1) Services provided by Govt. or local Authority	All services provided by Govt., in terms of their sovereign right to business entities. - Grant of mining licenses - Audit of Comptroller and Auditor General, etc.	- Speed post, Express Parcel post, Life insurance and agency services carried out on payment of commission - Services in relation to vessel or an aircraft - Transport of goods and passengers - Support services. (16) Services relating to transportation of goods	I. By road (except GTA and courier agency) II. By aircraft or vessel from a place outside india up to the customs station III. By inland waterways	- Goods Transport Agency (GTA) - COURIER - ANGADIA	
(17) Funeral, burial, crematorium or mortuary services including transportation of the deceased.	All relevant services	—	

Chapter V of the Finance Act, 1994, is being amended vide Finance Act 2013:

- (i) Definition of 'approved vocational education course' provided in section 65B(11) is being amended: firstly the word , or, State Council of Vocational Training' (SCVT) is being inserted in (i), and secondly, entry at item serial number(iii) is being omitted, for NSDC is not an affiliating body.

After the proposed amendment takes effect, a course run by an industrial training institute or an industrial training centre affiliated to the National Council for vocational training or State Council for vocational training offering courses in designated trades notified under the Apprentices Act, 1961.

- (ii) Definition of "process amounting to manufacture or Production of goods", in section 65B(40) being amended to include processes on which duties of excise are leviable under the Medicinal and Toilet Preparations (Excise Duties) Act, 1955.
- (iii) Maximum penalty imposable for failure to obtain registration will be ten thousand rupee only.
- (iv) Section 78A is being introduced, to make provision for imposition of penalty on director, manager, secretary or other officer of the company, who at the time of specified contravention was in charge of and responsible for the conduct of business of company was knowingly concerned with such contravention.
- (v) Section 89 is being amended; (i) in the case of an offence specified in clause (a), (b) and (c) of sub section (1) where the amount exceeds fifty lakh rupees, punishment shall be for a term which may extend to three years, but shall not, in any case, be less than six months; (ii) in the case of failure to pay service tax collected, to the credit of Central Government within six months, an offence specified in section 89(1)(d), if such non-payment exceeds fifty lakh rupees, punishment shall be imprisonment for a term which may extend upto seven years but not less than six months; (iii) in the case of any other offence, the punishment shall be imprisonment for a term which may extend to one year.
- (vi) Retrospective exemption is being extended to the Indian Railways on the service tax leviable on various taxable services provided by them during the period prior to the 1st day of July 2012, to the extent show cause notices have been issued upto the 28th day of February 2013. Section 99 is being added for this purpose, in chapter V of the Finance Act, 1994.
- (vii) Rationalization of Abatement

At present taxable portion for service tax purpose is prescribed as 25% uniform for constructions where value of land is included in the amount charged from the service recipient. This is being rationalized. Accordingly, where the carpet area of residential unit is upto 2000 square feet or the amount charged is less than One Crore Rupees, in the case 'Construction of complex, building or civil structure, or a part thereof, intended for sale to a buyer, wholly or partly except where the entire consideration is received after issuance of completion certificate by the competent authority', taxable portion for service tax purpose will remain as 25%, in all other cases taxable portion for service tax purpose will be 30%. This change will come into effect from the 1st day of March, 2013.

- (viii) Review of Exemptions (to take effect from 1st day of April, 2013)

(A) The following exemption are being rationalized:

- Rationalization of exemption limit prescribed for charitable organisations, provided service towards any other object of general public utility. So far, the limit was 25 Lakh Rupees per annum. Now, they will be covered by the threshold exemption.
- Exemption provided to restaurant other than those having (i) air-conditioning and (ii) license to serve liquor, is being rationalized; condition regarding 'license to serve liquor, is being omitted. Therefore, with effect from 1st April 2013, service tax will be leviable on taxable service provided in restaurants with air-conditioning or central air heating in any part of the establishment at any time during the year.
- Rationalization of exemption to transport of goods by road and rail/vessel.

6.11.2 Exempted Services

The need for exemptions is not obviated with the introduction of negative list. While some existing exemptions have been built into the negative list, others, wherever necessary, have been retained as exemptions. In addition some new exemptions are also introduced. For ease of reference and simplicity most of the exemptions are now a part of one single mega exemption notification 25/2012-ST dated 20/6/12. These exemptions have been explained below:

There are broadly two types of exemptions namely general exemptions and mega exemption from service tax levy.

(A) General Exemptions:

(i) Small service provider

A service provider whose previous year taxable services are less than or equal to ₹ 10 Lakhs, in the current year such service provider is called as small service provider. A person who is newly started business or office for the first time is also be called as small service provider if in the current year his taxable services does not exceeds ₹ 10 Lakhs.

The service provider should however satisfy certain conditions in order to avail the benefit of this exemption. The conditions to be noted here are as follows –

- Taxable services provided by a person under a brand name or a trade name (whether registered or not) of another person would **NOT** be eligible for this exemption
- A receiver of services who is liable to pay service tax on the services he has received by virtue of section 68(2) cannot avail the benefit of this exemption with regard to such payments. More commonly this is relevant for recipient of GTA Services or in case of import of services where no exemption is entitled.
- Once an option is exercised in regard to this exemption during a financial year, it cannot be changed in the same financial year. [This however does not mean that the claiming of the exemption makes it compulsory to claim for the whole year. In between even without reaching ₹10 lakhs the option to pay can be made.]
- No cenvat credit can be availed on inputs or input services used in providing such output service for which exemption is being claimed.
- Cenvat credit cannot be availed on capital goods received in the premises of provider of such service during the exemption period.
- The service provider shall pay an amount equivalent to the cenvat credit taken by him in respect of inputs lying in stock or in process on the date of availment of exemption. After paying such an amount, if there is any balance of cenvat credit remaining unutilized, such balance would lapse.
- The exemption shall apply in respect of the aggregate value of all taxable services provided by the service provider (even if from more than one premises) and not individually.
- Exempted services shall be outside the purview of the exemption of this notification. In other words, the value for ascertaining the limit of Rs. 10 Lakhs would be that of taxable services alone on which service tax is payable.
- The aggregate value of such services provided in the preceding financial year should not exceed the aforesaid exemption limit.

The Small Service Provider whose turnover of all taxable services from one or more premises does not exceeds ₹ 10,00,000 during the previous year, then no service tax in the current year upto ₹ 10,00,000.

How to compute aggregate value (i.e. exemption limit) of ₹ 10,00,000: W.e.f. 1-4-2012 it has been provided that the exemption to the small service provider shall be on the basis of the value of invoice in a financial year and not on the basis of payment received in that year.

As per the amendment, Aggregate value means the sum total of value of taxable services charged in the first consecutive invoices issued or required to be issued, as the case may be, during a financial year but does not include value charged in invoices issued towards such services which are exempt from whole of service tax leviable thereon under section 66 of the Finance Act, 1994

Example 23: M/s X Pvt. Ltd is provider of taxable services namely Construction of Commercial Complexes. The taxable services in the financial year 2011-12 were ₹ 9,50,000. In the current financial year 2012-13 the following services provided and also opted the small service provider exemption.

Invoice Dt.	Particulars	Value in (₹) (exclusive of service tax)	Abatement	Small Service Provider Exemption limit	Remarks
10-4-2012	Construction of one shop	12,00,000	67%	Applicable for the portion of ₹ 3,96,000 (i.e. ₹ 12 lakhs x 33%)	Exemption limit of ₹ 10 lakhs applicable only for the portion of invoice which is non-exempted from service tax. Therefore, ₹ 3,96,000 exempted from service tax
	Payment received against the previous year bills (2011-12).	9,50,000	Nil	Not applicable.	Exemption to the the small service provider shall be on the basis of the value of invoice in a financial year and not on the basis of payment received in that year.
15-4-2012	Advance received (i.e. services to be provided in May 2012)	28,00,000 (includes ₹ 18 lakhs services provided in the state of Jammu & Kashmir)	75%	Applicable for the portion of ₹ 2,50,000. Therefore, fully exempt from service tax	Exempted services, any how exempted from service tax. Therefore, exempted services should not be adjusted against exemption limit of ₹ 10 lakhs.
30-4-2012	Construction of super market	15,00,000	67%	Applicable for the portion of ₹ 3,54,000.	Over and above ₹ 10 lakhs of exemption limit is fully taxable @12.36%. therefore service tax is ₹ 17,428.

Exemption limit of ₹ 10,00,000 not applicable in the following cases

- Previous year taxable turnover of a service provider exceeds ₹ 10 Lacs.
- Service recipient is liable to pay service tax (i.e. Reverse Charge).
- Provider of services under the brand name of others.

(ii) Services provided to United Nations or an International Organization

Services provided to the agencies of the United Nations and to the employees of the United Nations, whether for official or personal purpose. Services rendered to an approved international organization, service tax is exempted.

(iii) Special Economic Zone (SEZ)

(Vide Notification No. 17/2011-ST dt. 1-3-2011, w.e.f. 1-3-2011)

Taxable services provided to a unit of SEZ or a SEZ developer by the service provider is exempted from payment of service tax, if the services are wholly consumed within SEZ. If services are not consumed wholly within SEZ, such services are taxable in the hands of service provider. However, the exemption is available by way of refund of service tax paid on the specified services received for the authorized operations in a SEZ.

Wholly consumed within SEZ

Where the *specified services* has been received and used for authorized operation by a unit of Special Economic Zones (or) SEZ developer will be exempt if the services are “*wholly consumed*” within SEZ, including services liable to tax on reverse charge basis under Section 66A of the Finance Act, 1994.

It has also been specified that all services received by an entity in a SEZ, which does not have any other Domestic Tariff Area (DTA) operations, will constitute “wholly consumed” services w.e.f. 1-3-2011. A service provider shall provide the services wholly consumed within the SEZ, without payment of service tax on obtaining from developer or the unit of SEZ for authorized operation the following documents

- (a) List of taxable services for authorized operations approved by the approval committee (i.e. specified services) of the concerned SEZ.
- (b) A declaration, where applicable in Form No. A-1 duly verified by the specified officer of SEZ. Since, no service tax has been paid by a unit of SEZ or SEZ developer, refund of service tax does not arise.

Meaning of Service wholly consumed within the SEZ

The concept of wholly consumed has been borrowed from the Export of Services Rules, 2005. The expression “wholly Consumed” refer to following taxable services, received by a Developer or Unit of a SEZ, for the authorized operations, namely:-

- (a) Services listed in Rule 3(1) (i) of the Export of Services Rules, 2005, in relation to an immovable property situated within the SEZ; or
- (b) Services listed in Rule 3(1) (ii) of the Export of Services Rules, 2005, as are wholly performed within the SEZ; or Services listed in Rule 3(1) (iii) of the Export of Services Rules, 2005, provided to a Developer or Unit of SEZ, who does not own or carry on any business other than the operations in the SEZ.

SEZ units providing taxable service to any person for consumption in Domestic Tariff Area (DTA) is subject to service tax.

Not wholly Consumed within SEZ

Where the *specified services* are provided to a unit of Special Economic Zone (or) SEZ developer will be taxable in the hands of service provider, if the services are not “*wholly consumed*” within SEZ (i.e. shared between authorized operations in SEZ unit and Domestic Tariff Area (DTA) unit). However, a unit of SEZ or SEZ developer can claim refund of service tax paid on the specified services received for the authorized operations in a SEZ.

The refund shall be restricted to the extent of the ratio of export turnover to the total turnover for the given period to which the claim relates.

(iv) Exemption to the extent of R & D Cess paid

The Government has exempted the taxable services provided by a consulting engineer to any person on transfer of technology to the amount of Cess paid (i.e. 5%).

Service Tax Payable	=	XXXX
Less: 5% Cess Paid	=	(XXX)
Net Service Tax Liability	=	<u>XXXX</u>

Example 24: The value of service provided by a consulting engineer is ₹ 10,00,000. He has paid ₹ 50,000 as cess under section 3 of the Research and Development Cess Act, 1986. What is the amount of service tax payable by him?

Answer:

Value of taxable services = ₹ 10,00,000

Service tax @ 12.36% = ₹ 1,23,600 less cess paid ₹ 50,000, Net service tax payable = ₹ 73,600

6.11.3 Mega Exemptions:

(1) Services provided to all international organizations:

Services to only specified international organisations are exempt. 'Specified international organisation' has been defined in the notification and means an international organization declared by the Central Government in pursuance of section 3 of the United Nations (Privileges and Immunities) Act, 1947 to which the provisions of the Schedule to the said Act apply.

Illustrative list of specified international organisations are as follows:

- (a) International Civil Aviation Organisation
- (b) World Health Organisation
- (c) International Labor Organisation
- (d) Food and Agriculture Organisation of the United Nations
- (e) UN Educational, Scientific and Cultural Organisation (UNESCO)
- (f) International Monetary Fund (IMF)
- (g) International Bank for Reconstruction and Development
- (h) Universal Postal Union
- (i) International Telecommunication Union
- (j) World Meteorological Organisation
- (k) Permanent Central Opium Board
- (l) International Hydrographic Bureau
- (m) Commissioner for Indus Waters, Government of Pakistan and his advisers and assistants
- (n) Asian African Legal Consultative Committee
- (o) Commonwealth Asia Pacific Youth Development Centre, Chandigarh
- (p) Delegation of Commission of European Community
- (q) Customs Co-operation Council
- (r) Asia Pacific Telecommunity
- (s) International Centre of Public Enterprises in Developing Countries, Ljubljana (Yugoslavia)
- (t) International Centre for Genetic Engineering and Biotechnology
- (u) Asian Development Bank
- (v) South Asian Association for Regional Co-operation
- (w) International Jute Organisation, Dhaka, Bangladesh

(2) Health Care Services

Services in recognized systems of medicines in India are exempt. In terms of the Clause (h) of section 2 of the Clinical Establishments Act, 2010, the following systems of medicines are recognized systems of medicines:

- i. Allopathy
- ii. Yoga
- iii. Naturopathy
- iv. Ayurveda
- v. Homeopathy
- vi. Siddha
- vii. Unani
- viii. Any other system of medicine that may be recognized by central government

Paramedic Services also exempted:

Services like nursing staff, physiotherapists, technicians, lab assistants etc are called as paramedic services which are exempt from service tax. Services by them in a clinical establishment would be in the capacity of employee and not provided in independent capacity and will thus be considered as services by such clinical establishment. Similar services in independent capacity are also exempted.

However, the following services even if provided by Doctors or Hospitals shall be taxable:

- (a) hair transplant or
- (b) cosmetic or plastic surgery, except when undertaken to restore or to reconstruct anatomy or function of body affected due to congenital defects, developmental abnormalities, injury or trauma.

(3) Services by a Veterinary Clinic in relation to health care of animals or birds are exempted from service tax.**(4) Services provided to or by a governmental authority**

The following conditions should be satisfied for a board, body or an authority to be called as a governmental authority:

- i. set up by an act of the Parliament or a State Legislature;
- ii. established with 90% or more participation by way of equity or control by Government; and
- iii. carries out any of the functions entrusted to a municipality under article 243W of the Constitution.

(A) Are all services provided by a governmental authority exempt from service tax?

No. All services are not exempt. Services by a governmental authority by way of any activity in relation to any function entrusted to a municipality under article 243 W of the Constitution are exempt. All other services are subjected to service tax if they are not otherwise exempt.

(B) Are all services provided to a governmental authority exempt from service tax?

No. A governmental authority enjoys same benefits as the Government or a local authority in respect of receipt of services. The following services when provided to a governmental authority are exempt:

- a) Specified services as listed in Sr. no. 12 of Exhibit A3 relating to construction.

- b) Services in relation to any function ordinarily entrusted to a municipality in relation to water supply, public health, sanitation conservancy, solid waste management or slum improvement and upgradation.
- c) Services received from a service provider located in a non- taxable territory by such authorities in relation to any purpose other than commerce, industry or any other business or profession.

(C) Services by an entity registered under section 12AA of the Income tax Act, 1961: by way of charitable activities; service provider carry out one or more of the specified charitable activities are exempted from service tax.

Following are the specified charitable activities:-

- a) public health by way of –
 - (I) care or counseling of (i) terminally ill persons or persons with severe physical or mental disability, (ii) persons afflicted with HIV or AIDS, or (iii) persons addicted to a dependence-forming substance such as narcotics drugs or alcohol; or
 - (II) public awareness of preventive health, family planning or prevention of HIV infection;
- b) advancement of religion or spirituality;
- c) advancement of educational programmes or skill development relating to,-
 - (i) abandoned, orphaned or homeless children;
 - (ii) physically or mentally abused and traumatized persons;
 - (iii) prisoners; or
 - (iv) persons over the age of 65 years residing in a rural area;
- d) preservation of environment including watershed, forests and wildlife; or

(5) Renting of religious place or conducting religious ceremony:

Services by a person by way of

- (a) renting of precincts of a religious place meant for general public or
- (b) conduct of any religious ceremony is also exempted from service tax.

(6) Services by an Arbitral Tribunal and Advocates:

Services provided by-

- (a) an arbitral tribunal to -
 - (i) any person other than a business entity; or
 - (ii) a business entity with a turnover up to rupees ten lakh in the preceding financial year;
- (b) an individual as an advocate or a partnership firm of advocates by way of legal services to,-
 - (i) an advocate or partnership firm of advocates providing legal services ;
 - (ii) any person other than a business entity; or
 - (iii) a business entity with a turnover up to rupees ten lakh in the preceding financial year; or
- (c) a person represented on an arbitral tribunal to an arbitral tribunal;

However, in respect of services provided to business entities, with a turnover exceeding ₹10 lakh in the preceding financial year, tax is required to be paid on reverse charge by the

business entities. Business entity is defined in section 65B of the Finance Act, 1994 as 'any person ordinarily carrying out any activity relating to industry, commerce or any other business or profession'. Thus it includes sole proprietors as well. The business entity can, however, take input tax credit of such tax paid in terms of Cenvat Credit Rules, 2004, if otherwise eligible. The provisions relating to arbitral tribunal are also on similar lines.

(7) Exemption to clinical research organisation:

Services by way of technical testing or analysis of newly developed drugs, including vaccines and herbal remedies, on human participants by a clinical research organisation approved to conduct clinical trials by the Drug Controller General of India;

(8) Exemption for Recreational coaching or training:

There is exemption from service tax to training or coaching in recreational activities relating to arts, culture or sports. The benefit is available to coaching or training relating to all forms of dance, music, painting, sculpture making, theatre and sports etc.

(9) Exemption for services provided to an educational institution:

Services provided to an educational institution in respect of education exempted from service tax, by way of,-

- (a) auxiliary educational services; or
- (b) renting of immovable property

(10) Services provided to recognised sport body: Services provided to a recognised sports body by-

- (a) an individual as a player, referee, umpire, coach or team manager for participation in a sporting event organized by a recognized sports body;
- (b) another recognised sports body; are exempted from service tax. However, services by individuals such as selectors, commentators, curators, technical experts are taxable.

Services of an individual as a player, umpire in a premier league is taxable. The service of a player to a franchisee which is not a recognized sports body is taxable.

However, services of an individual as umpire, referee when provided directly to a recognized sports body shall be exempt.

(11) Services in relation to sponsorship of sporting events organised: Services by way of sponsorship of sporting events organised,-

- (a) by a national sports federation, or its affiliated federations, where the participating teams or individuals represent any district, state or zone;
- (b) by Association of Indian Universities, Inter-University Sports Board, School Games Federation of India, All India Sports Council for the Deaf, Paralympic Committee of India or Special Olympics Bharat;
- (c) by Central Civil Services Cultural and Sports Board;
- (d) as part of national games, by Indian Olympic Association; or
- (e) under Panchayat Yuva Kreedha Aur Khel Abhiyaan (PYKKA) Scheme; are exempted from service tax.

(12) Services provided to the Government, a local authority or a governmental authority by way of construction, erection, commissioning, installation, completion, fitting out, repair, maintenance, renovation, or alteration:

Exemption is available to the services by way of construction, erection, commissioning, installation, completion, fitting out, repair, maintenance, renovation, or alteration of:

- A. a civil structure or any other original works meant predominantly for use other than for commerce, industry, or any other business or profession
- B. a historical monument, archaeological site or remains of national importance, archaeological excavation, or antiquity specified under Ancient Monuments and Archaeological Sites and Remains Act, 1958
- C. a structure meant predominantly for use as (i) an educational, (ii) a clinical, or (iii) an art or cultural establishment
- D. canal, dam or other irrigation works
- E. pipeline, conduit or plant for (i) water supply (ii) water treatment, or (iii) sewerage treatment or disposal
- F. a residential complex predominantly meant for self-use or the use of their employees or other persons specified in the of a religious building

The exemption is available for a civil structure or any other original works meant predominantly for use other than for commerce, industry, or any other business or profession. The significance of the word predominantly is that benefit of exemption will not be denied if the building is also incidentally used for some other purposes if it is used primarily for commerce, industry, or any other business or profession.

Construction of roads for use by general public is exempt from service tax. Construction of roads which are not for general public use e.g. construction of roads in a factory, residential complex would be taxable.

Service tax is exempt on construction of a building owned by an entity registered under section 12 AA of the Income tax Act, 1961 and meant predominantly for religious use by general public.

A constructed service provided to a client is other than the Government, a local authority or a governmental authority, service tax required to pay. However, exemption is available for services provided to the Government, a local authority or a governmental authority by way of construction of a residential complex predominantly meant for self-use or the use of their employees.

Service tax is payable on construction of a residential complex having more than one single residential unit. Single residential unit is defined in the notification and means a self-contained residential unit which is designed for use, wholly or principally, for residential purposes for one family. If each of the floors of a house is a single residential unit in terms of the definition, the contractor is liable to pay service tax. If the title of each of floors is capable of being transferred to another person by mutation in land/ municipal records, both the floors may be considered as separate single residential units.

(13) Services provided by way of construction, erection, commissioning, etc. :

Services provided by way of construction, erection, commissioning, installation, completion, fitting out, repair, maintenance, renovation, or alteration of,-

- (a) A road, bridge, tunnel, or terminal for road transportation for use by general public;
- (b) a civil structure or any other original works pertaining to a scheme under Jawaharlal Nehru National Urban Renewal Mission or Rajiv Awaas Yojana;
- (c) a building owned by an entity registered under section 12 AA of the Income tax Act, 1961 (43 of 1961) and meant predominantly for religious use by general public;
- (d) a pollution control or effluent treatment plant, except located as a part of a factory; or
- (e) a structure meant for funeral, burial or cremation of deceased are exempted from service tax.

(14) Services by way of construction, erection, commissioning or installation of original works:

Services by way of construction, erection, commissioning, or installation of original works are exempted if these services pertaining to,-

- (a) an airport, port or railways, including monorail or metro;
- (b) a single residential unit otherwise than as a part of a residential complex;
- (c) low-cost houses up to a carpet area of 60 square meters per house in a housing project approved by competent authority empowered under the 'Scheme of Affordable Housing in Partnership' framed by the Ministry of Housing and Urban Poverty Alleviation, Government of India;
- (d) post-harvest storage infrastructure for agricultural produce including cold storages for such purposes; or
- (e) mechanised food grain handling system, machinery or equipment for units processing agricultural produce as food stuff excluding alcoholic beverages;

(15) Services in relation to temporary transfer or permitting the use or enjoyment of a copyright :

Temporary transfer of a copyright relating to original literary, dramatic, musical, artistic work or cinematographic film (restricted to exhibition of cinematography films in a cinema hall or a cinema theatres) falling under clause (a) and (b) of sub-section (1) of section 13 of the Indian Copyright Act, 1957 is exempt.

However, a music company would be required to pay service tax as the copyright relating to sound recording falls under clause (c) of sub-section (1) of section 13 of the Indian Copyright Act, 1957.

Example 25: Mr. X a composer of a song having the copyright for his song. When he allow the recording of the song on payment of some royalty by a music company for further distribution, if so Mr. X is required to pay service tax on the royalty amount received from a music company?

Answer:

No, as the copyright relating to original work of composing song falls under clause (a) of subsection (1) of section 13 of the Indian Copyright Act, 1957 which is exempt from service tax.

Similarly an author having copy right of a book written by him would not be required to pay service tax on royalty amount received from the publisher for publishing the book. A person having the copyright of a cinematographic film would also not be required to pay service tax on the amount received from the film exhibitors for exhibiting the cinematographic film in cinema theatres.

(16) Services by artist in relation to folk or classical art

The following services are exempted from service tax if provided by a performing artist in folk or classical art forms of (i) music, or (ii) dance, or (iii) theatre, excluding services provided by such artist as a brand ambassador;

The activities by a performing artist in folk or classical art forms of music, dance, or theatre are not subjected to service tax. All other activities by an artist in other art forms e.g. western music or dance, modern theatres, performance of actors in films or television serials would be taxable. Similarly activities of artists in still art forms e.g. painting, sculpture making etc. are taxable.

(17) Services in relation to collecting or providing of News

Services by way of collecting or providing news by an independent journalist, Press Trust of India or United News of India; are exempted from service tax.

(18) Services in relation to renting of hotel, inn, guest house, club etc.

Services by way of renting of a hotel, inn, guest house, club, campsite or other commercial places meant for residential or lodging purposes, having declared tariff of a unit of accommodation below rupees one thousand per day or equivalent;

Declared tariff includes charges for all amenities provided in the unit of accommodation (given on rent for stay) like furniture, air-conditioner, refrigerators or any other amenities, but without excluding any discount offered on the published charges for such unit. Its relevance is in determining the liability to pay service tax on renting of a hotel, inn, guest house, club, campsite or other commercial places meant for residential or lodging purposes as exemption is available where declared tariff of a unit of accommodation is below rupees one thousand per day or equivalent. However, the tax will be liable to be paid on the amount actually charged i.e. declared tariff minus any discount offered.

Thus if the declared tariff is ₹ 1200/-, but actual room rent charged is ₹ 900/-, tax will be required to be paid on ₹ 900/-.

When the declared tariff is revised as per the tourist season, the liability to pay tax shall be only on the declared tariff for the accommodation where the published/printed tariff is above Rupees 1000/-. However, the revision in tariff should be made uniformly applicable to all customers and declared when such change takes place.

(19) Services provided by Restaurant

Services provided in relation to serving of food or beverages by a restaurant, eating joint or a mess, other than those having (i) the facility of air-conditioning or central air-heating in any part of the establishment, at any time during the year, and (ii) a licence to serve alcoholic beverages; are exempted from service tax.

(20) Exemption for transportation of certain goods, by rail or a vessel:

Services by way of transportation by rail or a vessel from one place in India to another of the following goods are exempted from service tax; -

- (b) relief materials meant for victims of natural or man-made disasters, calamities, accidents or mishap
- (c) defence or military equipments;
- (f) newspaper or magazines registered with the Registrar of Newspapers;
- (g) railway equipments or materials;
- (h) agricultural produce;
- (i) foodstuff including flours, tea, coffee, jaggery, sugar, milk products, salt and edible oil, excluding alcoholic beverages; or
- (j) chemical fertilizer and oilcakes;

(21) Services by transport of essential goods etc by Goods Transport Agency (GTA) & Rail/vessel:

Services provided by a goods transport agency by way of transportation of -

- (a) Agriculture produce;
- (b) goods where gross amount charged for the transportation of goods on a consignment transported in a single goods carriage does not exceed one thousand five hundred rupees; or
- (c) goods, where gross amount charged for transportation of all such goods for a single consignee in the goods carriage does not exceed rupees seven hundred fifty;
- (d) Food stuff including flours, tea, coffee, jaggery, sugar, milk products, salt and edible oil, excluding alcoholic beverages;
- (e) Chemical fertilizer and oilcakes;
- (f) Newspaper or magazines registered with the registrar of news papers;

- (g) Relief materials for disasters, calamities, accidents or mishap victims;
- (h) Defense or military equipments

(22) Services by hiring of vehicle: Services by way of giving on hire -

- (a) to a state transport undertaking, a motor vehicle meant to carry more than twelve passengers; or
- (b) to a goods transport agency, a means of transportation of goods;

Giving on hire a bus to a state transport undertaking is exempt from service tax. If the bus is given on hire to a person other than a state transport undertaking, it will be taxed.

Transport of passengers in a contract carriage for the transportation of passengers, for tourism, conducted tour, charter or hire is taxable.

(23) Services of transport of passengers by different mode of transportation: Transport of passengers, with or without accompanied belongings, by -

- (a) air, embarking from or terminating in an airport located in the state of Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, or Tripura or at Bagdogra located in West Bengal;
- (b) a contract carriage for the transportation of passengers, excluding tourism, conducted tour, charter or hire; or
- (c) ropeway, cable car or aerial tramway; are exempted from service tax.

(25) Specified services to Government, a local authority or a governmental authority: Services provided to Government, a local authority or a governmental authority by way of -

- (a) carrying out any activity in relation to any function ordinarily entrusted to a municipality in relation to water supply, public health, sanitation conservancy, solid waste management or slum improvement and upgradation; or
- (b) repair or maintenance of a vessel.

(26) Services of General Insurance Business under the specified scheme:

Services of general insurance business provided under following schemes are exempted from service tax:

- (a) Hut Insurance Scheme;
- (b) Cattle Insurance under Swarnajaynti Gram Swarozgar Yojna (earlier known as Integrated Rural Development Programme);
- (c) Scheme for Insurance of Tribals;
- (d) Janata Personal Accident Policy and Gramin Accident Policy;
- (e) Group Personal Accident Policy for Self-Employed Women;
- (f) Agricultural Pumpset and Failed Well Insurance;
- (g) premia collected on export credit insurance;
- (h) Weather Based Crop Insurance Scheme or the Modified National Agricultural Insurance Scheme approved by the Government of India and implemented by the Ministry of Agriculture;
- (i) Jan Arogya Bima Policy;
- (j) National Agricultural Insurance Scheme (Rashtriya Krishi Bima Yojana);
- (k) Pilot Scheme on Seed Crop Insurance;

- (l) Central Sector Scheme on Cattle Insurance;
- (m) Universal Health Insurance Scheme;
- (n) Rashtriya Swasthya Bima Yojana; or
- (o) Coconut Palm Insurance Scheme;

(26A) Service of Life Insurance business provided under following schemes :

- (a) Janashree Bima Yojana (JBY); or
- (b) Aam Aadmi Bima Yojana (AABY).

(27) Services provided by an incubatee:

Services provided by an incubatee up to a total turnover of fifty lakh rupees in a financial year subject to the following conditions, namely:-

- (a) the total turnover had not exceeded fifty lakh rupees during the preceding financial year; and
- (b) a period of three years has not been elapsed from the date of entering into an agreement as an incubatee;

(28) Services by an Non-Profit Making Organisation/unincorporated body :

Service by an unincorporated body or a non-profit entity registered under any law for the time being in force, to its own members by way of reimbursement of charges or share of contribution -

- (a) as a trade union;
- (b) for the provision of carrying out any activity which is exempt from the levy of service tax; or
- (c) up to an amount of five thousand rupees per month per member for sourcing of goods or services from a third person for the common use of its members in a housing society or a residential complex;

Where Residential Welfare Association (RWA) is working as a pure agent of its members for sourcing of goods or services from a third person, amount collected by RWA from its members may be excluded from the value of taxable service in terms of Rule 5(2) Of Service Tax (Determination of Value) Rules, 2006 subject to compliance with the specified conditions.

(29) Services by the specified persons in respective categories are exempted from service tax:

Services by the following persons in respective capacities -

- (a) sub-broker or an authorised person to a stock broker;
- (b) authorised person to a member of a commodity exchange;
- (c) mutual fund agent to a mutual fund or asset management company;
- (d) distributor to a mutual fund or asset management company;
- (e) selling or marketing agent of lottery tickets to a distributor or a selling agent;
- (f) selling agent or a distributor of SIM cards or recharge coupon vouchers;
- (g) business facilitator or a business correspondent to a banking company or an insurance company, in a rural area; or
- (h) sub-contractor providing services by way of works contract to another contractor providing works contract services which are exempt;

(30) Services by way of job work:

Carrying out an intermediate production process as job work exempted from service tax if these services are in relation to -

- (a) agriculture, printing or textile processing;
- (b) cut and polished diamonds and gemstones; or plain and studded jewellery of gold and other precious metals, falling under Chapter 71 of the Central Excise Tariff Act, 1985 (5 of 1986);
- (c) any goods on which appropriate duty is payable by the principal manufacturer; or
- (d) processes of electroplating, zinc plating, anodizing, heat treatment, powder coating, painting including spray painting or auto black, during the course of manufacture of parts of cycles or sewing machines upto an aggregate value of taxable service of the specified processes of one hundred and fifty lakh rupees in a financial year subject to the condition that such aggregate value had not exceeded one hundred and fifty lakh rupees during the preceding financial year;

(31) Services in relation to business exhibition:

Services by an organiser to any person in respect of a business exhibition held outside India are exempted from service tax.

(32) Services by making telephone calls:

Services by way of making telephone calls from -

- (a) departmentally run public telephone;
- (b) guaranteed public telephone operating only for local calls; or
- (c) free telephone at airport and hospital where no bills are being issued;

(33) Services by way of slaughtering of animals;

(34) Services by a person located in non-taxable territory:

Services received from a provider of service located in a non-taxable territory by-

- (a) Government, a local authority, a governmental authority or an individual in relation to any purpose other than commerce, industry or any other business or profession;
- (b) an entity registered under section 12AA of the Income tax Act, 1961 (43 of 1961) for the purposes of providing charitable activities; or
- (c) a person located in a non-taxable territory;

(35) Services by public libraries:

Services of public libraries by way of lending of books, publications or any other knowledge-enhancing content or material; are exempted from service tax.

(36) Services by Employee's State Insurance (ESI) Corporation:

Services by Employees' State Insurance Corporation to persons governed under the Employees' Insurance Act, 1948 (34 of 1948) are exempted from service tax.

(37) Services by way of transfer of a going concern:

Services by way of transfer of a going concern, as a whole or an independent part thereof; exempted from service tax.

(38) Services by way of public convenience:

Services by way of public conveniences such as provision of facilities of bathroom, washrooms, lavatories, urinal or toilets; are exempted from service tax.

- (zh) "sub-broker" has the meaning assigned to it in sub-clause (gc) of clause 2 of the Securities and Exchange Board of India (Stock Brokers and Sub-brokers) Regulations, 1992;
- (zi) "trade union" has the meaning assigned to it in clause (h) of section 2 of the Trade Unions Act, 1926 (16 of 1926).

6.12 POINT OF TAXATION

Introduction

We must thoroughly understand terms "Point of Taxation", "taxable event" and "value of taxable services" for the following reasons:

- i. The amount of service tax is based on the Point of Taxation.
- ii. Service tax is payable on the basis of provision of service instead of realization of value of taxable service except in the case of individuals/firms/limited liability partnership firms (LLP's) w.e.f. 1-4-2012.
- iii. If money is received in advance, ahead of completion or rendering of service, service tax is payable as soon as the advance is received.

The point of taxation defines the point in time when a service shall be deemed to have been provided. It has impact on determination of rate of tax, as normally the rate of tax shall apply as prevailing on the date when service shall be deemed to have been provided.

The Government of India has introduced the Point of Taxation Rules, 2011 to remove the disputes about applicability of the rate of tax and for ascertainment of the Point of Taxation. These rules have been explained with the help of examples are as follows:

Rule 1: These rules shall be called the Point of Taxation Rules, 2011

Rule 2: Definitions

Rule 2(a) "Act" means the Finance Act, 1994; Rule 2(b) "**associated enterprises**" shall have the meaning assigned to it in section 92A of the Income Tax Act, 1961;

Rule 2(ba) "**change in effective rate of tax**" shall include a change in the portion of value on which tax is payable in terms of a notification issued in the Official Gazette under the provisions of the Act, or rules made there under (w.e.f. 1.4.2012).

Rule 2(c) "**continuous supply of service**" means any service which is provided, or to be provided continuously or on recurrent basis, under a contract, for a period **exceeding three** months with the obligation for payment periodically or from time to time or where the Central Govt. by notification in the Official Gazette, prescribes provision of a particular service to be a continuous supply of service, whether or not subject to any condition.

Rule 2(d) "**invoice**" means the invoice referred to in rule 4A of the Service Tax Rules, 1994 and shall include any document as referred to in the said rule;

Rule 2(e) "**point of taxation**" means the point in time when a service shall be deemed to have been provided;

Rule 2(f) "taxable service" (omitted w.e.f. 1-7-2012)

Rule 2A: "Date of payment" as given in Point of Taxation Rules, 2011

According to Rule 2A of the Point of taxation Rules, 2011, the date of payment shall be the earlier of the following dates,-

- (i) Date when the payment is entered in the books of accounts (i.e. payment accounted for in books); or
- (ii) Date on which the same is credited in the bank account of the person liable to pay tax (i.e. actually received in bank of the person)

In case of new levy or change in effective rate of tax: During the intermittent period when the payment is accounted for and the same is actually received in the bank, if there is change in the,-

- effective rate of tax; or
- service is taxed for the first time (i.e. new levy),

then,-

Date of payment shall be the date of credit in the bank account, if following conditions are fulfilled,-

- (a) the credit in the bank account is after **4 working days from the date where there is change in the effective rate of tax or service** is taxed for the first time; and
- (b) the payment is made by way of an instrument which is credited to a bank account,

If any rule requires determination of the time or date of payment received, the expression 'date of payment' shall be construed to mean such date on which payment is received. **[Inserted w.e.f. 1-4-2012]**

Example 26: The invoice of ₹20,00,000 is issued for services on 01-06-2013. A cheque for the same is received and accounted for in the books on 15-06-2012. The amount on the cheque was credited in the bank on 06-07-2012. Meanwhile, on 01-07-2012, the aforesaid service was brought in the ambit of taxable service. What will be the date of payment?

Answer:

Here, as the new levy is introduced on 01-07-2012 (i.e during the intermittent period when the payment was accounted for in the books and the same was actually received in the bank), the credit in the bank account is after 4 working days from the date of the new levy [i.e after (01-07-2012 + 4 working days)], therefore, the date of credit in the bank account shall be taken as the date of payment. Thus, the date of payment, here, will be 06-07-2012.

Rule 3: Determination of point of taxation:

- Date of invoice or payment, whichever is earlier, if the invoice is issued within the prescribed period of 30 days from the date of completion of the provision of service (w.e.f. 1-4-2012).
- Date of completion of the provision of service or payment, whichever is earlier if the invoice is not issued within the prescribed period as state in rule 4A of the Service Tax Rules, 1994.

w.e.f. 1-4-2012, in case of continuous supply of service where the provision of the whole or part of the service is determined periodically on the completion of an event in terms of a contract, which requires the receiver of service to make any payment to service provider, the date of completion of each such event as specified in the contract shall be deemed to be the date of completion of provision of service.

Example 27: In the case of construction services if the payments are linked to stage-by-stage completion of construction, the provision of service shall be deemed to be completed in part when each stage of construction is completed.

Wherever the provider of taxable service receives a payment up to ₹ 1,000 in excess of the amount indicated in the invoice, the point of taxation to the extent of such excess amount, at the option of the provider of taxable service, shall be the date of receipt of such amount.

Example 28: M/s X Pvt. Ltd. provided services for ₹ 1,00,000 and service tax charged separately @12.36% vide invoice dated 1-4-2012. Payment received ₹ 1,13,260 on 1st July 2012. It means excess payment received is ₹ 900. Hence, no need to issue separate invoice for the same. Hence, the point of taxation for the invoice value is 1-4-2012, whereas for ₹ 900 the point of taxation is 1st July 2012.

POT = Point of Taxation

Example 29: The applicability of the rule will be clear from the following table:

M/s X Pvt. Ltd. is provider of service.

SL. No.	Date of completion of service	Date of invoice	Date on which payment recd.	Point of Taxation	Due date of payment (manual payment)	Remarks
1.	April 10, 2012	April 20, 2012	June 30, 2012	April 20, 2012	5 th May 2012	Invoice issued in 30 days from the date of completion of service. Dt. of invoice or Dt. of payment whichever is earlier
2.	April 10, 2012	May 26, 2012	June 30, 2012	April 10, 2012	5 th May 2012	Invoice not issued within 30 days and payment received after completion of service

SL. No.	Date of completion of service	Date of invoice	Date on which payment recd.	Point of Taxation	Due date of payment (manual payment)	Remarks
3.	May 10, 2012	May 20, 2012	April 15, 2012	April 15, 2012	5 th May 2012	Invoice issued in 30 days but payment received before invoice
4.	April 10, 2012	May 26, 2012	April 5, 2012 (part) and May 25, 2012 (remaining)	April 5, 2012 And April 10, 2012 for respective amounts	5 th May 2012	Invoice not issued in 30 days. Part payment before completion, remaining later

Service Tax liability on receipt basis for Individuals and Partnership Firms including LLP's (w.e.f. 1-4-2012)

It is pertinent to note point of taxation in case of individuals and partnership firms whose aggregate value of taxable services provided from one or more premises is ₹ 50 lakhs or less in the previous financial year, the service provider shall have the option to pay tax on taxable services provided or to be provided by him up to a total of ₹ 50 lakhs in the current financial year, by the dates specified in the Rule 6 of Service Tax Rules, 1994, with respect to the relevant quarter, in which payment is received.

P.Y = Previous Year, C.Y= Current Year.

Example 30: Mr. C, Practicing C.A. started profession in the year 2012-13 (₹ in lakhs) has been chosen the option to pay service tax on receipt basis in the current year.

₹ in lakhs

Particulars	1st qtr.	2nd qtr.
services provided	20	2
services to be provided (i.e. advance)	35	NIL
TOTAL	55	2
S.T. @12.36%	4.326	0.2472
Note: small service provider exemption not availed		

Note:

Services provided or to be provided exceeds ₹ 50 lakhs in the 1st quarter itself. Entire value of ₹ 35 lakhs is taxable on receipt basis as per point of taxation rule 3.

Services provided in the 1st quarter for ₹ 20 lakhs will be taxable on receipt basis.

Service provided or to be provided in the 2nd quarter fully taxable as per Point of Taxation Rule 3.

Example 31: Mr. C, Practicing C.A. started profession in the year 2012-13 (rupees in lakhs) has been chosen the option to pay service tax on receipt basis in the current year.

₹ in lakhs

Particulars	1st qtr.	2nd qtr.
services provided	55	2
services to be provided (i.e. advance)	NIL	NIL
TOTAL	55	2
S.T. @12.36%	6.798	0.2472

Note 1:

- i) small service provider exemption not availed
- ii) Since, ₹ 50 lakhs exceeds in the 1st quarter, services provided over and above ₹ 50 lakhs is taxable as per point of taxation rule 3.

Service tax is payable on ₹ 5 lakhs on provisional basis and balance ₹ 50 lakhs will be taxable on receipt basis.

From 2nd quarter onwards services are taxable based on point of taxation rule 3

Example 32: Mr. C, Practicing C.A. started profession in the year 2012-13 (₹ in lakhs) has been chosen the option to pay service tax on receipt basis in the current year.

₹ in lakhs

Particulars	1st qtr.	2nd qtr.
services provided	NIL	2
services to be provided (i.e. advance)	55	NIL
TOTAL	55	2
S.T. @12.36%	6.798	0.2472

Note:

- (i) small service provider exemption not availed
- (ii) Since, in the 1st quarter services to be provided for which advance received exceeds ₹ 50 lakhs, then the entire value on receipt basis taxable, and subsequently service provider is liable to pay service tax as per Point of Taxation Rule 3.

Rule 4: Determination of point of taxation in case of change in effective rate of tax:

Notwithstanding anything contained in rule 3, the point of taxation in cases where there is a *change in effective rate* of tax in respect of a service, shall be determined in the following manner, namely:-

(a) in case a taxable service has been provided before the change in effective rate,—

- (i) where the invoice for the same has been issued and the payment received after the *change in effective rate*, the point of taxation shall be date of payment or issuing of invoice, whichever is earlier; or
- (ii) where the invoice has also been issued prior to *change in effective rate* but the payment is received after the change in effective rate, the point of taxation shall be the date of issuing of invoice; or
- (iii) where the payment is also received before the *change in effective rate*, but the invoice for the same has been issued after the *change in effective rate*, the point of taxation shall be the date of payment;

Example 33: (a) The applicability of the rule will be clear from the illustrations in the following table:

Sl.No.	Date of provision of service	Date of Invoice	Date on which payment received	Point of taxation
(i)	Before change	After change	After change	Date of payment or invoice, whichever is earlier
(ii)	Before change	Before change	After change	Date of invoice
(iii)	Before change	After change	Before change	Date of payment

(b) In case a taxable service has been provided after the change in effective rate,-

- (i) where the payment for the invoice is also made after the change in effective rate but the invoice has been issued prior to the change in effective rate, the point of taxation shall be the date of payment; or
- (ii) where the invoice has been issued and the payment for the invoice received before the change in effective rate, the point of taxation shall be the date of receipt of payment or date of issuance of invoice, whichever is earlier; or
- (iii) where the invoice has also been raised after the change in effective rate but the payment has been received before the change in effective rate, the point of taxation shall be date of issuing of invoice.

Example 34: The applicability of the rule will be clear from the illustrations in the following table:

S. No.	Date of provision of service	Date of Invoice	Date on which payment received	Point of taxation
(i)	After change	Before change	After change	Date of payment
(ii)	After change	Before change	Before change	Date of payment or invoice, whichever is earlier
(iii)	After change	After change	Before change	Date of invoice

Explanation: For the purposes of this rule, “change in effective rate of tax” shall include a change in the portion of value on which tax is payable in terms of a notification issued under the provisions of Finance Act, 1994 or rules made thereunder.

Alternative: there are three voters namely date of provision of service, date of invoice and date of payment received and two candidates' namely new rate of tax and old rate of tax. Hence, majority wins.

Example 35:

S.No.	Date of provision of service	Date of Invoice	Date on which payment received	Effective rate of S.T.
(i)	Before change	After change	After change	New Rate
(ii)	Before change	Before change	After change	Old Rate
(iii)	Before change	After change	Before change	Old Rate
(iv)	After change	Before change	After change	New Rate
(v)	After change	Before change	Before change	Old Rate
(vi)	After change	After change	Before change	New Rate

Rule 5: Payment of tax in cases of new services:

Where a service, not being a service covered by rule 6, is taxed for the first time, then,—

- (a) no tax shall be payable to the extent the invoice has been issued and the payment received against such invoice before such service became taxable;

Example: Food King Pvt. Ltd., provider of restaurant services having facility of air conditioning and license to serve alcoholic beverages in relation to serving of food or beverage. These services are taxable w.e.f. 1-5-2011. Payment received and invoice raised prior to 1-5-2011 are not taxable.

- b) no tax shall be payable if the payment has been received before the service becomes taxable and invoice has been issued within 14 days of the date when the service is taxed for the first time (w.e.f. 1-4-2012).

Example 36: Queen Pvt. Ltd., provider of taxable services. These services are taxable w.e.f. 1-5-2012. Payment was received from a customer for ₹ 5,00,000 on 20-4-2012. The invoice has been issued on 4-5-2012 (i.e. within 14 days of the date when the service is taxed for the first time). Hence, service provider not liable to pay service tax on the entire value of ₹ 5,00,000.

Rule 6: Determination of point of taxation in case of continuous supply of service (Omitted w.e.f. 1-4-2012)

Rule 7: Determination of point of taxation in case of specified services or persons (w.e.f. 1-4-2012)

The Point of Taxation in respect of the persons required to pay tax as recipients of service under the rules made in this regard in respect of services notified under section 68(2) of the Finance Act, 1994 shall be the date on which payment is made; provided that, where the payment is made within a period of six months of the date of invoice.

In case the recipient of services failed to make the payment within a period of 6 months of the date of invoice, the point of taxation shall be determined as if this rule does not exist. It means if the recipient of service is not making the payment within 6 months, the point of taxation shall shift from the date of making payment to the condition specified under rule 3 of these rules.

In case of "associated enterprises", where the person providing the service is located outside India, the point of taxation shall be the date of credit in the books of account of the person receiving the service or date of making the payment whichever is earlier.

Rule 8: Determination of point of taxation in case of copyrights, etc.

In respect of royalties and payments pertaining to copyrights, trademarks, designs or patents, where the whole amount of the consideration for the provision of service is not ascertainable at the time when service was performed, and the payment for the benefit of such service is made subsequently. In this case, point of taxation will be each time when the payment received or the date when the invoice is issued by the provider of service, whichever is earlier.

Rule 8A: Determination of point of taxation in case of copyrights, etc. (w.e.f 1-4-2012):

For determination of POT in other cases whereby in the cases where date of invoice or date of payment is not available, the C.E.O. (Central Excise Officer) can conduct best judgment assessment to determine the point of taxation.

Rule 9: Transitional Provisions:

Nothing contained in these rules shall be applicable

- (i) where the provision of service is completed; or
- (ii) where invoices are issued prior to the date on which these rules come into force.

6.13 TAXABLE EVENT IN SERVICE TAX

Taxable event and tax liability do not happen at the same time. Taxable event happens when a taxable service is rendered. Tax liability is required to pay as per Point of Taxation Rules, 2011 (w.e.f. 1-4-2011).

6.13.1 Point of Taxation as per the Point of Taxation Rules, 2011,

- Date of Invoice (or)
- Payment received (or)
- Completion of the provision of service

Whichever is earlier.

As per the Point of Taxation Rules, discussed above, different points of time have been chosen when a service shall be deemed to have been provided, whereas the rules has made by introducing a deeming fiction when a service shall be deemed to have been provided, but no such provisions have been made in the Finance Act, 1994.

However, the said provision is not applicable for those service providers named under Rule 7 of the Point of Taxation Rules, 2011 namely determination of point of taxation in case of specified services or persons. For them taxable event is rendering of taxable service only.

6.13.2 When Service Provider Receives an Advance

Payment may be received in advance (i.e. ahead of rendering of complete service) or in arrears (i.e. after rendering of service).

When the service provider receives an advance payment in respect of a taxable service being rendered by him, the liability to pay service tax arises as soon as he receives the advance.

When the service provider receives an advance payment in respect of a non-taxable service which is not taxable at the time the advance is being received, there will be service tax liability if the services are taxable at the time of rendering the services.

Service tax is payable on value of taxable service actually billed, even though the value of taxable services yet to be received.

If the amount of invoice is renegotiated due to deficient provision or in any other way changed in terms of conditions of the contract (e.g. contingent on the happening or non-happening of a future event), the tax will be payable on the revised amount provided the excess amount is either refunded or a suitable credit is issued to the service receiver.

6.13.3 Concession is not available for bad debts

If an assessee issues invoice, say for ₹ 5,00,000 and realized only ₹ 4,80,000 from his client and ₹ 20,000 becomes bad debt, then he cannot claim that he has paid excess tax for ₹ 20,000 and in such a situation, he shall not be entitled to make any adjustment of tax paid in respect of ₹ 20,000, which has become a bad debt.

Example 37: The service provider, a chartered accountant whose previous year (2011-12) turnover less than ₹ 50 lakhs, received an amount of ₹ 1,00,000 in April 2012, for a consulting engagement worth ₹ 5,00,000 which he completes in the month of July 2012 and for which balance payment is received on August 2012. Service tax is payable on ₹ 1,00,000 for the quarter April to June on or before 5th July 2012. Service tax liability for the balance of ₹ 4,00,000 for the quarter July to September, on or before 5th October 2012. Service provider is liable to pay service tax on payment receipt basis as per rule 3 of the Point of Taxation Rules, 2011 read with rule 6 of Service Tax Rules, 1994 (w.e.f. 1-4-2012).

Example 38: Information technology software services provided by X Ltd. for ₹ 25,00,000 lakhs and an invoice issued on 1st July 2012. Service provider has not been received consideration upto the end of 31st July, 2012. As per rule 3 of the Point of Taxation Rules, 2011 service provider is liable to pay service tax on the value of invoice on or before 5th August, 2012.

Example 39: A Ltd., being an interior decorator received the advance money from his customer of ₹ 30,000 in the month of July 2012, for which he is going to work in the month of September, 2012. A Ltd. being service provider is liable to pay the service tax @ 12.36% on ₹ 30,000 for the month of July, 2012 on or before 5th August, 2012. The order has been cancelled on 25th August, 2012. Hence, A Ltd. can file refund for the amount paid as service tax. Alternatively he can adjust the same against any taxable output services.

Example 40: X Ltd. provided cargo handling services for ₹ 15,00,000 in the month of 15th May, 2012. Invoice issued on 1st July 2012. 50% has been received on 1st April, 2012 and balance on 5th July, 2012.

You are required to find out due dates of payment of service tax.

Answer:

As per rule 3 of the Point of Taxation Rules, 2011, point of taxation for the first 50% of receipt is 1st April, 2012 (i.e. date of completion of service or date of receipt of payment whichever is earlier, since, invoice has not been issued within 30 days of completion of service).

Therefore, due date of payment of service tax is 5th May, 2012.

Point of taxation for the balance 50% is 15th May, 2012 (i.e. date of completion of service or date of receipt of payment whichever is earlier, since, invoice has not been issued within 30 days of completion of service).

Therefore, due date of payment of service tax is 5th June, 2012.

Example 41: A provider (X Ltd.) of information technology software services received an advance of ₹ 10 lakhs on 21st July 2012 and the balance ₹ 40 lakhs on 1st October 2012. Information technology software service was listed as a taxable service w.e.f. 16-5-2008. Services actually rendered on 1st August 2012 and invoice issued on 10th August 2012. There will be service tax liability @12.36% on ₹ 10 lakhs for the month of July 2012, and on ₹ 40 lakhs for the month of August 2012.

6.14 PLACE OF PROVISION OF SERVICE RULES

The 'Place of Provision of Services Rules, 2012' specifies the manner to determine the taxing jurisdiction for a service. Hitherto, the task of identifying the taxing jurisdiction was largely limited in the context of import or export of services. For this purpose rules were formulated which handled the subject of place of provision of services somewhat indirectly, confining to define the circumstances in which a provision of service would constitute import or export.

These rules are primarily meant for persons who deal in cross-border services. They will also be equally applicable for those who have operations with suppliers or customers in the state of Jammu and Kashmir.

Additionally service providers operating within India from multiple locations, without having centralized registration will find them useful in determining the precise taxable jurisdiction applicable to their operations. The rules will be equally relevant for determining services that are wholly consumed within a SPECIAL ECONOMIC ZONE (SEZ), to avail the outright exemption.

Rule 1: place of provision of services rules, 2012 (w.e.f. 1-7-2012) Definitions.- In these rules, unless the context otherwise requires,-

- (a) "Act" means the Finance Act, 1994 (32 of 1994);
- (b) "account" means an account bearing interest to the depositor, and includes a non-resident external account and a non-resident ordinary account;
- (c) "banking company" has the meaning assigned to it in clause (a) of section 45A of the Reserve Bank of India Act, 1934 (2 of 1934);
- (d) "continuous journey" means a journey for which a single or more than one ticket or invoice is issued at the same time, either by one service provider or through one agent acting on behalf of more than one service provider, and which involves no stopover between any of the legs of the journey for which one or more separate tickets or invoices are issued;
- (e) "financial institution" has the meaning assigned to it in clause (c) of section 45-I of the Reserve Bank of India Act, 1934 (2 of 1934);
- (f) "intermediary" means a broker, an agent or any other person, by whatever name called, who arranges or facilitates a provision of a service (hereinafter called the 'main' service) between two or more persons, but does not include a person who provides the main service on his account.;

- (g) "leg of journey" means a part of the journey that begins where passengers embark or disembark the conveyance, or where it is stopped to allow for its servicing or refueling, and ends where it is next stopped for any of those purposes;
- (h) "location of the service provider" means-
- (a) where the service provider has obtained a single registration, whether centralized or otherwise, the premises for which such registration has been obtained;
 - (b) where the service provider is not covered under sub-clause (a):
 - (i) the location of his business establishment; or
 - (ii) where the services are provided from a place other than the business establishment, that is to say, a fixed establishment elsewhere, the location of such establishment; or
 - (iii) where services are provided from more than one establishment, whether business or fixed, the establishment most directly concerned with the provision of the service; and
 - (iv) in the absence of such places, the usual place of residence of the service provider.
- (i) "location of the service receiver" means:-
- (a) where the recipient of service has obtained a single registration, whether centralized or otherwise, the premises for which such registration has been obtained;
 - (b) where the recipient of service is not covered under sub-clause (a):
 - (i) the location of his business establishment; or
 - (ii) where services are used at a place other than the business establishment, that is to say, a fixed establishment elsewhere, the location of such establishment; or
 - (iii) where services are used at more than one establishment, whether business or fixed, the establishment most directly concerned with the use of the service; and
 - (iv) in the absence of such places, the usual place of residence of the recipient of service.
- Explanation:-. For the purposes of clauses (h) and (i), "usual place of residence" in case of a body corporate means the place where it is incorporated or otherwise legally constituted.
- Explanation 2:-. For the purpose of clause (i), in the case of telecommunication service, the usual place of residence shall be the billing address.
- (j) "means of transport" means any conveyance designed to transport goods or persons from one place to another;
- (k) "non-banking financial company" means¹³⁷
- (i) a financial institution which is a company; or
 - (ii) a non-banking institution which is a company and which has as its principal business the receiving of deposits, under any scheme or arrangement or in any other manner, or lending in any manner; or
 - (iii) such other non-banking institution or class of such institutions, as the Reserve Bank of India may, with the previous approval of the Central Government and by notification in the Official Gazette specify;
- (l) "online information and database access or retrieval services" means providing data or information, retrievable or otherwise, to any person, in electronic form through a computer network;
- (m) "person liable to pay tax" shall mean the person liable to pay service tax under section 68 of the Act or under sub-clause (d) of sub-rule (1) of rule (2) of the Service Tax Rules, 1994;

- (n) "provided" includes the expression "to be provided";
- (o) "received" includes the expression "to be received";
- (p) "registration" means the registration under rule 4 of the Service Tax Rules, 1994;
- (q) "telecommunication service" means service of any description (including electronic mail, voice mail, data services, audio tex services, video tex services, radio paging and cellular mobile telephone services) which is made available to users by means of any transmission or reception of signs, signals, writing, images and sounds or intelligence of any nature, by wire, radio, visual or other electro-magnetic means but shall not include broadcasting services.
- (r) words and expressions used in these rules and not defined, but defined in the Act, shall have the meanings respectively assigned to them in the Act.

Rule 3: Location of the receiver:

The place of provision of a service shall be the location of the recipient of service:

Provided that in case the location of the service receiver is not available in the ordinary course of business, the place of provision shall be the location of the provider of service.

Example 42:

Example 43:

Rule 4: Performance based Services:

Place of provision of service shall be the location where the services are actually performed. However services provided by way of electronic means in relation to tangible goods, the place of provision of service shall be the actual location of goods:

Rule 4(a): services that are provided "in respect of goods that are made physically available, by the receiver to the service provider in order to provide the service"	Rule 4(a): not covers where supply of goods by the receiver is not material to the rendering of services
i. Repair or reconditioning or any other job work on goods (not amounting to manufacture) ii. Storage and warehousing iii. Courier services iv. Cargo handling services v. Technical testing /inspection/certification/analysis of goods vi. Dry cleaning etc.,	i. Consultancy report commissioned by a person is given on pen drive belonging to the customer ii. Market research service etc.,

Place of provision of service shall be the location where the services are actually performed:

Rule 4(b): services that are provided "to an individual which required the physical presence of the receiver with the provider for provision of the service" and includes a person acting on behalf of the receiver.	Rule 4(b): not covers where physical presence of an individual is not required being recipient of service
i. Cosmetic or plastic surgery, ii. Beauty treatment services iii. Personal security services iv. Class room teaching v. Photographic services vi. Internet café services	i. Auditing ii. Interior decoration etc.,

Rule 5: Location of Immovable Property:

Place of provision of service is where the immovable property is located or intended to be located:

The place of provision of services relating to immovable property located in the taxable territory includes:	The place of provision of services relating to immovable property located in the taxable territory does not includes:
i. Lease or a right to use, occupation enjoyment or provision of hotel accommodation by a hotel, guest house, club ii. Construction service iii. Architects iv. Interior decorators v. Renting of immovable property etc.,	i. Repair and maintenance of machinery ii. Advice relating to land prices iii. Real estate feasibility studies iv. Services of an agent who arranges finance v. Legal opinion vi. Computation of tax for rent of immovable property

Rule 6: Services relating to Events:

Place of provision of service shall be the place where the event is actually held:

The place of provision of services relating to events in the taxable territory includes:	The place of provision of services relating to events does not includes:
Services in relation to admission as well as organisation of events such as conventions, i. Conferences, exhibitions, fairs, ii. Seminars, iii. Workshops, iv. Weddings, v. Sports and cultural events , vi. Artistic vii. Scientific, educational, viii. Entertainment events ix. Services ancillary to such admission	i. A service of courier agency used for distribution of entry tickets for an event is a service that is not ancillary to admission to the event

Rule 7: Part Performance of a Service at Different Locations:

Place of provision of service will be the place in the taxable territory where the greatest proportion of services is provided (i.e. Kerala).

Where any service stated in rules 4, 5, or 6 is provided at more than one location, including a location of taxable territory, its place of provision shall be the location in the taxable territory where the greatest proportion of the service is provided

Rule 8: Service Provider and Receiver in Taxable Territory:

The place of provision of service will be the location of the receiver, notwithstanding the earlier rules (i.e. 4 to 6).

Rule 9: Specified Services:

Place of provision is location of the service provider.

SPECIFIED SERVICES INCLUDES:

- (i) Services provided by a banking company, or financial company, or a NBFC to account holders
- (ii) Online information and database access or retrieval services
- (iii) Intermediary services (i.e. travel agent, tour operator, commission agent etc)
- (iv) Services consisting of hiring of means of transport, upto a period of one month

Rule 10: Place of Provision of a Service of Transportation of Goods:

Place of provision of service of transportation of goods is the place of destination of goods, except in the case of services provided by a G.T.A (in case of GOODS TRANSPORT AGENCY the place of provision of service is the location of the person liable to pay service tax).

Covered under rule 10	Not covered under rule 10
Goods transported by • Air • Vessel • Rail • Road	Goods transported by • Courier • Mail

**Rule 11: Passenger Transportation Services:**

The place of provision of a passenger transportation service is the place where the passenger embarks on the conveyance for a continuous journey.

Rule 12: Services Provided on Board Conveyances:

Any service provided on board a conveyance (air craft, vessel, rail, or roadways bus) will be covered here. The place of provision of service is the first scheduled point of departure of that conveyance for the journey.

Example 44: A video game or a movie on demand is provided as on board entertainment during the Kolkata – Delhi leg of a Bangkok-Kolkata-Delhi flight. The place of provision of this service will be Bangkok (outside taxable territory) and hence not taxable,

Rule 13: Power to Notify Services or Circumstances:

In order to prevent double taxation or non-taxation of the provision of a service or for the uniform application of rules.

Rule 14: Order of Application of Rules:

When two or more rules may appear equally applicable then rule that occurs later among the rules preferable.

Place of Provision of Services Rules, 2012
(adopted from Educational Guide issued by TRU, CBE&C, MoF, GoI)

Rules at a glance:

Rule 3	Location of the Receiver
Rule 4	Performance based Services
Rule 5	Location of Immovable Property
Rule 6	Services relating to Events
Rule 7	Part performance of a service at different locations
Rule 8	Services where the Provider as well as Receiver is located in Taxable Territory
Rule 9	Specified services- Place of provision is location of the service provider
Rule 10	Place of Provision of a service of transportation of goods
Rule 11	Passenger Transportation Services
Rule 12	Services provided on board conveyances
Rule 13	Power to notify services or circumstances
Rule 14	Order of application of Rules

Rule 3- Location of the Receiver**6.14.1 What is the implication of this Rule?**

The main rule or the default rule provides that a service shall be deemed to be provided where the receiver is located.

The main rule is applied when none of the other later rules apply (by virtue of rule 14 governing the order of application of rules- see para 5.14 of this guidance paper). In other words, if a service is not covered by an exception under one of the later rules, and is consequently covered under this default rule, then the receiver's location will determine whether the service is leviable to tax in the taxable territory.

The principal effect of the Main Rule is that:-

A. Where the location of receiver of a service is in the taxable territory, such service will be deemed to be provided in the taxable territory and service tax will be payable.

B. However if the receiver is located outside the taxable territory, no service tax will be payable on the said service.

6.14.2. If the place of provision of a taxable service is the location of service receiver, who is the person liable to pay tax on the transaction?

Service tax is normally required to be paid by the provider of a service, except where he is located outside the taxable territory and the place of provision of service is in the taxable territory.

Where the provider of a service is located outside the taxable territory, the person liable to pay service tax is the receiver of the service in the taxable territory, unless of course, the service is otherwise exempted.

Following illustration will make this clear:-

A company ABC provides a service to a receiver PQR, both located in the taxable territory.

Since the location of the receiver is in the taxable territory, the service is taxable. Service tax liability will be discharged by ABC, being the service provider and being located in taxable territory.

However, if ABC were to supply the same service to a recipient DEF located in non-taxable territory, the provision of such service is not taxable, since the receiver is located outside the taxable territory.

If the same service were to be provided to PQR (located in taxable territory) by an overseas provider XYZ (located in non-taxable territory), the service would be taxable, since the recipient is located in the taxable territory. However, since the service provider is located in a nontaxable territory, the tax liability would be discharged by the receiver, under the reverse charge principle (also referred to as "tax shift").

6.14.3 Who is the service receiver?

Normally, the person who is legally entitled to receive a service and, therefore, obliged to make payment, is the receiver of a service, whether or not he actually makes the payment or someone else makes the payment on his behalf.

Illustration 1:

A lady leaves her car at a service station for the purpose of servicing. She asks her chauffeur to collect the car from the service station later in the day, after the servicing is over. The chauffeur makes the payment on behalf of the lady owner and collects the car.

Here the lady is the 'person obliged to make the payment' towards servicing charges, and therefore, she is the receiver of the service.

6.14.4 What would be the situation where the payment for a service is made at one location (say by the headquarters of a business) but the actual rendering of the service is elsewhere (i.e. a fixed establishment)?

Occasionally, a person may be the person liable to make payment for the service provided on his behalf to another person. For instance, the provision of a service may be negotiated at the headquarters of an entity by way of centralized sourcing of services whereas the actual provision is made at various locations in different taxing jurisdictions (in the case of what is commonly referred to as a multi-locational entity or MLE). Here, the central office may act only as a facilitator to negotiate the contract on behalf of various geographical establishments.

Each of the geographical establishments receives the service and is obligated to make the payment either through headquarters or sometimes directly. When the payment is made directly, there is

no confusion. In other situations, where the payment is settled either by cash or through debit and credit note between the business and fixed establishments, it is clear that the payment is being made by a geographical location. Wherever a fixed establishment bears the cost of acquiring, or using or consuming a service through any internal arrangement (normally referred to as a “recharge”, “reallocation”, or a “settlement”), these are generally made in accordance with corporate tax or other statutory requirements. These accounting arrangements also invariably aid the MLE’s management in budgeting and financial performance measurement.

Various accounting and business management systems are generally employed to manage, monitor and document the entire purchasing cycle of goods and services (such as the ERP Enterprise Resource Planning System). These systems support and document the company processes, including the financial and accounting process, and purchasing process.

Normally, these systems will provide the required information and audit trail to identify the establishment that uses or consumes a service.

It should be noted that in terms of proviso to section 66B, the establishments in a taxable and non-taxable territory are to be treated as distinct persons. Moreover, the definition of “location of the receiver” clearly states that “where the services are “used” at more than one establishment, whether business or fixed, the establishment most directly concerned with the use of the service” will be the location. Thus, the taxing jurisdiction of service, which is provided under a ‘global framework agreement’ between two multinational companies with the business establishment located outside the taxable territory, but which is used or consumed by a fixed establishment located in the taxable territory, will be the taxable territory.

6.14.5 What is the place of provision where the location of receiver is not ascertainable in the ordinary course of business?

Generally, in case of a service provided to a person who is in business, the provider of the service will have the location of the recipient’s registered location, or his business establishment, or his fixed establishment etc, as the case may be. However, in case of certain services (which are not covered by the exceptions to the main rule), the service provider may not have the location of the service receiver, in the ordinary course of his business. This will also be the case where a service is provided to an individual customer who comes to the premises of the service provider for availing the service and the provider has to, more often than not, rely on the declared location of the customer. In such cases the place of provision will be the location of the service provider. It may be noted that the service provider is not required to make any extraordinary efforts to trace the address of the service receiver. The address should be available in the ordinary course of business.

In case of certain specified categories of services, the place of provision shall be the place where the services are actually performed. These are discussed in the following paragraphs.

Rule 4- Performance based Services

6.14.6 What are the services that are provided “in respect of goods that are made physically available, by the receiver to the service provider, in order to provide the service”?- sub-rule (1):

Services that are related to goods, and which require such goods to be made available to the service provider or a person acting on behalf of the service provider so that the service can be rendered, are covered here. The essential characteristic of a service to be covered under this rule is that the goods temporarily come into the physical possession or control of the service provider, and without this happening, the service cannot be rendered. Thus, the service involves movable objects or things that can be touched, felt or possessed. Examples of such services are repair, reconditioning, or any other work on goods (not amounting to manufacture), storage and warehousing, courier service, cargo handling service (loading, unloading, packing or unpacking of cargo), technical testing/ inspection/certification/ analysis of goods, dry cleaning etc. It will not cover services where the supply of goods by the receiver is not material to the rendering of the service e.g. where a consultancy report

commissioned by a person is given on a pen drive belonging to the customer. Similarly, provision of a market research service to a manufacturing firm for a consumer product (say, a new detergent) will not fall in this category, even if the market research firm is given say, 1000 nos. of 1 kilogram packets of the product by the manufacturer, to carry for door-to-door surveys.

6.14.7 What is the implication of the proviso to sub-rule (1)?

The proviso to this rule states as follows:-

“Provided further that where such services are provided from a remote location by way of electronic means, the place of provision shall be the location where goods are situated at the time of provision of service.”

In the field of information technology, it is not uncommon to provide services in relation to tangible goods located distantly from a remote location. Thus the actual place of performance of the service could be quite different from the actual location of the tangible goods. This proviso requires that the place of provision shall be the actual location of the goods and not the place of performance, which in normal situations is one and the same.

6.14.8 What are the services that are provided “to an individual ... which require the physical presence of the receiver ... with the provider for provision of the service.”? - sub-rule (2)

Certain services like cosmetic or plastic surgery, beauty treatment services, personal security service, health and fitness services, photography service (to individuals), internet café service, classroom teaching, are examples of services that require the presence of the individual receiver for their provision. As would be evident from these examples, the nature of services covered here is such as are rendered in person and in the receiver's physical presence.

Though these are generally rendered at the service provider's premises (at a cosmetic or plastic surgery clinic, or beauty parlor, or health and fitness centre, or internet café), they could also be provided at the customer's premises, or occasionally while the receiver is on the move (say, a personal security service; or a beauty treatment on board an aircraft).

6.14.9 What is the significance of “..in the physical presence of an individual, whether represented either as the service receiver or a person acting on behalf of the receiver” in this rule?

This implies that while a service in this category is capable of being rendered only in the presence of an individual, it will not matter if, in terms of the contractual arrangement between the provider and the receiver (formal or informal, written or oral), the service is actually rendered by the provider to a person other than the receiver, who is acting on behalf of the receiver.

Illustration 2:

A modelling agency contracts with a beauty parlour for beauty treatment of say, 20 models. Here again is a situation where the modelling agency is the receiver of the service, but the service is rendered to the models, who are receiving the beauty treatment service on behalf of the modelling agency. Hence, notwithstanding that the modelling agency does not qualify as the individual receiver in whose presence the service is rendered, the nature of the service is such as can be rendered only to an individual, thereby qualifying to be covered under this rule.

Rule 5- Location of Immovable Property

In the case of a service that is 'directly in relation to immovable property', the place of provision is where the immovable property (land or building) is located, irrespective of where the provider or receiver is located.

6.14.10 What is “immovable property”?

“Immovable Property” has not been defined in the Finance Act, 1994. However, in terms of section 4 of

the General Clauses Act, 1897, the definition of immovable property provided in sub-section 3 (26) of the General Clauses Act will apply, which states as under:

"Immovable Property" shall include land, benefits to arise out of land, and things attached to the earth, or permanently fastened to anything attached to the earth."

It may be noted that the definition is inclusive and thus properties such as buildings and fixed structures on land would be covered by the definition of immovable property. The property must be attached to some part of earth even if underwater.

6.14.11 What are the criteria to determine if a service is 'directly in relation to' immovable property located in taxable territory?

Generally, the following criteria will be used to determine if a service is in respect of immovable property located in the taxable territory:

- i) The service consists of lease, or a right of use, occupation, enjoyment or exploitation of an immovable property;
- ii) the service is physically performed or agreed to be performed on an immovable property (e.g. maintenance) or property to come into existence (e.g. construction);
- iii) the direct object of the service is the immovable property in the sense that the service enhances the value of the property, affects the nature of the property, relates to preparing the property for development or redevelopment or the environment within the limits of the property (e.g. engineering, architectural services, surveying and sub-dividing, management services, security services etc);
- iv) the purpose of the service is:
 - a) the transfer or conveyance of the property or the proposed transfer or conveyance of the property (e.g., real estate services in relation to the actual or proposed acquisition, lease or rental of property, legal services rendered to the owner or beneficiary or potential owner or beneficiary of property as a result of a will or testament);
 - b) the determination of the title to the property.

There must be more than a mere indirect or incidental connection between a service provided in relation to an immovable property, and the underlying immovable property. For example, a legal firm's general opinion with respect to the capital gains tax liability arising from the sale of a commercial property in India is basically advice on taxation legislation in general even though it relates to the subject of an immovable property. This will not be treated as a service in respect of the immovable property.

6.14.12 Examples of land-related services

- i) Services supplied in the course of construction, reconstruction, alteration, demolition, repair or maintenance (including painting and decorating) of any building or civil engineering work;
- ii) Renting of immovable property;
- iii) Services of real estate agents, auctioneers, architects, engineers and similar experts or professional people, relating to land, buildings or civil engineering works. This includes the management, survey or valuation of property by a solicitor, surveyor or loss adjuster;
- iv) Services connected with oil/gas/mineral exploration or exploitation relating to specific sites of land or the seabed;
- v) The surveying (such as seismic, geological or geomagnetic) of land or seabed;
- vi) Legal services such as dealing with applications for planning permission;

- vii) Packages of property management services which may include rent collection, arranging repairs and the maintenance of financial accounts;
- viii) The supply of hotel accommodation or warehouse space.

6.14.13 What if a service is not directly related to immovable property?

The place of provision of services rule applies only to services which relate directly to specific sites of land or property. In other words, the immovable property must be clearly identifiable to be the one from where, or in respect of which, a service is being provided. Thus, there needs to be a very close link or association between the service and the immovable property.

Needless to say, this rule does not apply if a provision of service has only an indirect connection with the immovable property, or if the service is only an incidental component of a more comprehensive supply of services.

For example, the services of an architect contracted to design the landscaping of a particular resort hotel in Goa would be land-related. However, if an interior decorator is engaged by a retail chain to design a common décor for all its stores in India, this service would not be land related.

The default rule i.e. Rule 3 will apply in this case.

6.14.14. Examples of services which are not land-related

- i) Repair and maintenance of machinery which is not permanently installed. This is a service related to goods.
- ii) Advice or information relating to land prices or property markets because they do not relate to specific sites.
- iii) Land or Real Estate Feasibility studies, say in respect of the investment potential of a developing suburb, since this service does not relate to a specific property or site.
- iv) Services of a Tax Return Preparer in simply calculating a tax return from figures provided by a business in respect of rental income from commercial property.
- v) Services of an agent who arranges finance for the purchase of a property.

Rule 6- Services relating to Events

6.14.15. What is the place of provision of services relating to events?

Place of provision of services provided by way of admission to, or organization of a cultural, artistic, sporting, scientific, educational, entertainment event, or a celebration, conference, fair, exhibition, or any other similar event and of services ancillary to such admission, shall be the place where the event is held.

6.14.16. What are the services that will be covered in this category?

Services in relation to admission as well as organization of events such as conventions, conferences, exhibitions, fairs, seminars, workshops, weddings, sports and cultural events are covered under this Rule.

Illustration 3:

A management school located in USA intends to organize a road show in Mumbai and New Delhi for prospective students. Any service provided by an event manager, or the right to entry (participation fee for prospective students, say) will be taxable in India.

Illustration 4:

An Indian fashion design firm hosts a show at Toronto, Canada. The firm receives the services of a Canadian event organizer. The place of provision of this service is the location of the event, which is outside the taxable territory. Any service provided in relation to this event, including the right to entry, will be non-taxable.

6.14.17. What is a service ancillary organization or admission to an event?

Provision of sound engineering for an artistic event is a prerequisite for staging of that event and should be regarded as a service ancillary to its organization. A service of hiring a specific equipment to enjoy the event at the venue (against a charge that is not included in the price of entry ticket) is an example of a service that is ancillary to admission.

6.14.18. What are event-related services that would be treated as not ancillary to admission to an event?

A service of courier agency used for distribution of entry tickets for an event is a service that is not ancillary to admission to the event.

Rule 7- Part performance of a service at different locations

6.14.19. What does this Rule imply?

This Rule covers situations where the actual performance of a service is at more than one location, and occasionally one (or more) such locations may be outside the taxable territory.

This Rule states as follows:-

"Where any service stated in rules 4, 5, or 6 is provided at more than one location, including a location in the taxable territory, its place of provision shall be the location in the taxable territory where the greatest proportion of the service is provided".

The following example illustrates the application of this Rule:-

Illustration 5:

An Indian firm provides a 'technical inspection and certification service' for a newly developed product of an overseas firm (say, for a newly launched motorbike which has to meet emission standards in different states or countries). Say, the testing is carried out in Maharashtra (20%), Kerala (25%), and an international location (say, Colombo 55%).

Notwithstanding the fact that the greatest proportion of service is outside the taxable territory, the place of provision will be the place in the taxable territory where the greatest proportion of service is provided, in this case Kerala.

This rule is, however, not intended to capture insignificant portion of a service rendered in any part of the taxable territory like mere issue of invoice, processing of purchase order or recovery, which are not by way of service actually performed on goods.

It is clarified that this rule is applicable in performance-based services or location-specific services (immovable property related or event-linked). Normally, such services when provided in a non-taxable territory would require the presence of separate establishments in such territories. By virtue of an explanation of sub-clause (44) of section 65B, they would constitute distinct persons and thus it would be legitimate to invoice the services rendered individually in the two territories.

Rule 8- Services where the Provider as well as Receiver is located in Taxable Territory

6.14.20 What is the place of provision of a service where the location of the service provider and that of the service receiver is in the taxable territory?

The place of provision of a service, which is provided by a provider located in the taxable territory to a receiver who is also in the taxable territory, will be the location of the receiver.

6.14.21 What is the implication of this Rule?

This Rule covers situations where the place of provision of a service provided in the taxable territory may be determinable to be outside the taxable territory, in terms of the application of one of the earlier Rules i.e. Rule 4 to 6, but the service provider, as well as the service receiver, are located in the taxable territory.

The implication of this Rule is that in all such cases, the place of provision will be deemed to be in the taxable territory, notwithstanding the earlier rules. The presence of both the service provider and the service receiver in the taxable territory indicates that the place of consumption of the service is in the taxable territory. Services rendered, where both the provider and receiver of the service are located outside the taxable territory, are now covered by the mega exemption.

Illustration 6:

A helicopter of Pawan Hans Ltd (India based) develops a technical snag in Nepal. Say, engineers are deputed by Hindustan Aeronautics Ltd, Bangalore, to undertake repairs at the site in Nepal. But for this rule, Rule 4, sub-rule (1) would apply in this case, and the place of provision would be Nepal i.e. outside the taxable territory. However, by application of Rule 7, since the service provider, as well as the receiver, are located in the taxable territory, the place of provision of this service will be within the taxable territory.

Rule 9- Specified services- Place of provision is location of the service provider

6.14.22. What are the specified services where the place of provision is the location of the service provider?

Following are the specified services where the place of provision is the location of the service provider:-

- i) Services provided by a banking company, or a financial company, or a non-banking financial company to account holders;
- ii) Online information and database access or retrieval services;
- iii) Intermediary services;
- iv) Service consisting of hiring of means of transport, up to a period of one month.

6.14.23. What is the meaning of “account holder”? Which accounts are not covered by this rule?

“Account” has been defined in the rules to mean an account which bears an interest to the depositor. Services provided to holders of demand deposits, term deposits, NRE (non-resident external) accounts and NRO (non-resident ordinary) accounts will be covered under this rule. Banking services provided to persons other than account holders will be covered under the main rule (Rule 3- location of receiver).

6.14.24. What are the services that are provided by a banking company to an account holder (holder of an account bearing interest to the depositor)?

Following are examples of services that are provided by a banking company or financial institution to an “account holder”, in the ordinary course of business:-

- i) services linked to or requiring opening and operation of bank accounts such as lending, deposits, safe deposit locker etc;
- ii) transfer of money including telegraphic transfer, mail transfer, electronic transfer etc.

6.14.25. What are the services that are not provided by a banking company or financial institution to an account holder, in the ordinary course of business, and will consequently be covered under another Rule?

Following are examples of services that are generally NOT provided by a banking company or financial institution to an account holder (holder of a deposit account bearing interest), in the ordinary course of business:-

- i) financial leasing services including equipment leasing and hire-purchase;
- ii) merchant banking services;

- iii) Securities and foreign exchange (forex) broking, and purchase or sale of foreign currency, including money changing;
- iv) asset management including portfolio management, all forms of fund management, pension fund management, custodial, depository and trust services;
- v) advisory and other auxiliary financial services including investment and portfolio research and advice, advice on mergers and acquisitions and advice on corporate restructuring and strategy;
- vi) banker to an issue service.

In the case of any service which does not qualify as a service provided to an account holder, the place of provision will be determined under the default rule i.e. the Main Rule 3. Thus, it will be the location of the service receiver where it is known (ascertainable in the ordinary course of business), and the location of the service provider otherwise.

6.14.26. What are “Online information and database access or retrieval services”?

“Online information and database access or retrieval services” are services in relation to online information and database access or retrieval or both, in electronic form through computer network, in any manner. Thus, these services are essentially delivered over the internet or an electronic network which relies on the internet or similar network for their provision. The other important feature of these services is that they are completely automated, and require minimal human intervention.

Examples of such services are:-

- i) online information generated automatically by software from specific data input by the customer, such as web-based services providing trade statistics, legal and financial data, matrimonial services, social networking sites;
- ii) digitized content of books and other electronic publications, subscription of online newspapers and journals, online news, flight information and weather reports;
- iii) Web-based services providing access or download of digital content.

The following services will not be treated as “online information and database access or retrieval services”:-

- i) Sale or purchase of goods, articles etc over the internet;
- ii) Telecommunication services provided over the internet, including fax, telephony, audio conferencing, and videoconferencing;
- iii) A service which is rendered over the internet, such as an architectural drawing, or management consultancy through e-mail;
- iv) Repair of software, or of hardware, through the internet, from a remote location;
- v) Internet backbone services and internet access services.

6.14.27. What are “Intermediary Services”?

Generally, an “intermediary” is a person who arranges or facilitates a supply of goods, or a provision of service, or both, between two persons, without material alteration or further processing. Thus, an intermediary is involved with two supplies at any one time:

- i) the supply between the principal and the third party; and
- ii) the supply of his own service (agency service) to his principal, for which a fee or commission is usually charged.

For the purpose of this rule, an intermediary in respect of goods (such as a commission agent i.e. a buying or selling agent, or a stockbroker) is excluded by definition.

Also excluded from this sub-rule is a person who arranges or facilitates a provision of a service (referred to in the rules as "the main service"), but provides the main service on his own account.

In order to determine whether a person is acting as an intermediary or not, the following factors need to be considered:-

Nature and value: An intermediary cannot alter the nature or value of the service, the supply of which he facilitates on behalf of his principal, although the principal may authorize the intermediary to negotiate a different price. Also, the principal must know the exact value at which the service is supplied (or obtained) on his behalf, and any discounts that the intermediary obtains must be passed back to the principal.

Separation of value: The value of an intermediary's service is invariably identifiable from the main supply of service that he is arranging. It can be based on an agreed percentage of the sale or purchase price. Generally, the amount charged by an agent from his principal is referred to as "commission".

Identity and title: The service provided by the intermediary on behalf of the principal is clearly identifiable.

In accordance with the above guiding principles, services provided by the following persons will qualify as 'intermediary services':-

- i) Travel Agent (any mode of travel)
- ii) Tour Operator
- iii) Commission agent for a service [an agent for buying or selling of goods is excluded]
- iv) Recovery Agent

Even in other cases, wherever a provider of any service acts as an intermediary for another person, as identified by the guiding principles outlined above, this rule will apply. Normally, it is expected that the intermediary or agent would have documentary evidence authorizing him to act on behalf of the provider of the 'main service'.

Illustration 7:

A freight forwarder arranges for export and import shipments. There could be two possible situations here- one when he acts on his own account, and the other, when he acts as an intermediary.

When the freight forwarder acts on his own account (say, for an export shipment)

A freight forwarder provides domestic transportation within taxable territory (say, from the exporter's factory located in Pune to Mumbai port) as well as international freight service (say, from Mumbai port to the international destination), under a single contract, on his own account (i.e. he buys-in and sells freight transport as a principal), and charges a consolidated amount to the exporter. This is a service of transportation of goods for which the place of supply is the destination of goods. Since the destination of goods is outside taxable territory, this service will not attract service tax. Here, it is presumed that ancillary freight services (i.e. services ancillary to transportation- loading, unloading, handling etc) are "bundled" with the principal service owing to a single contract or a single price (consideration).

On an import shipment with similar conditions, the place of supply will be in the taxable territory, and so the service tax will be attracted.

When the freight forwarder acts as an intermediary

Where the freight forwarder acts as an intermediary, the place of provision will be his location.

Service tax will be payable on the services provided by him. However, when he provides a service to an exporter of goods, the exporter can claim refund of service tax paid under notification for this purpose.

Similarly, persons such as call centres, who provide services to their clients by dealing with the customers of the client on the client's behalf, but actually provided these services on their own account, will not be categorized as intermediaries.

6.14.28 What is the service of "hiring of means of transport"?

Normally the following will constitute means of transport:-

- i) Land vehicles such as motorcars, buses, trucks;
- ii) Vessels;
- iii) Aircraft;
- iv) Vehicles designed specifically for the transport of sick or injured persons;
- v) Mechanically or electronically propelled invalid carriages;
- vi) Trailers, semi-trailers and railway wagons.

The following are not 'means of transport':-

- i) Racing cars;
- ii) Containers used to store or carry goods while being transported;
- iii) Dredgers, or the like.

6.14.29 What if I provide a service of hiring of a fleet of cars to a company on an annual contract? What will be place of provision of my service if my business establishment is located in New Delhi, and the company is located in Faridabad (Haryana)?

This Rule covers situations where the hiring is for a period of upto one month. Since hiring period is more than one month, this sub-rule cannot be applied to the situation. The place of provision of your service will be determined in terms of Rule 3 i.e. receiver location, which in this case is Faridabad (Haryana).

Rule 10- Place of Provision of a service of transportation of goods

6.14.30 What are the services covered under this Rule?

Any service of transportation of goods, by any mode of transport (air, vessel, rail or by a goods transportation agency), is covered here. However, transportation of goods by courier or mail is not covered here.

6.14.31 What is the place of provision of a service of transportation of goods?

Place of provision of a service of transportation of goods is the place of destination of goods, except in the case of services provided by a Goods Transportation Agency in respect of transportation of goods by road, in which case the place of provision is the location of the person liable to pay tax (as determined in terms of rule 2(1)(d) of Service Tax Rules, 1994 (since amended)).

Illustration 8:

A consignment of cut flowers is consigned from Chennai to Amsterdam. The place of provision of goods transportation service will be Amsterdam (outside India, hence not liable to service tax). Conversely, if a consignment of crystal ware is consigned from Paris to New Delhi, the place of provision will be New Delhi.

6.14.32 What does the proviso to this Rule imply?

The proviso to this Rule states as under:-

“Provided that the place of provision of services of transportation of goods by goods transportation agency shall be the location of the person liable to pay tax.”

Sub-rule 2(1)(d) of Service Tax Rules, 1994 provides that where a service of transportation of goods is provided by a ‘goods transportation agency’, and the consignor or consignee is covered under any of the specified categories prescribed therein, the person liable to tax is the person who pays, or is liable to pay freight (either himself or through his agent) for the transportation of goods by road in a goods carriage. If such person is located in non-taxable territory, then the person liable to pay tax shall be the service provider.

Illustration 9:

A goods transportation agency ABC located in Delhi transports a consignment of new motorcycles from the factory of XYZ in Gurgaon (Haryana), to the premises of a dealer in Bhopal, Madhya Pradesh. Say, XYZ is a registered assessee and is also the person liable to pay freight and hence person liable to pay tax, in this case. Here, the place of provision of the service of transportation of goods will be the location of XYZ i.e. Haryana.

Illustration 10:

A goods transportation agency ABC located in Delhi transports a consignment of new motorcycles from the factory of XYZ in Gurgaon (Haryana), to the premises of a dealer in Jammu (non-taxable territory). Say, as per mutually agreed terms between ABC and XYZ, the dealer in Jammu is the person liable to pay freight. Here, in terms of amended provisions of rule 2(1)(d), since the person liable to pay freight is located in non-taxable territory, the person liable to pay tax will be ABC. Accordingly, the place of provision of the service of transportation of goods will be the location of ABC i.e. Delhi.

Rule 11- Passenger Transportation Services

6.14.33 What is the place of provision of passenger transportation services?

The place of provision of a passenger transportation service is the place where the passenger embarks on the conveyance for a continuous journey.

6.14.34 What does a “continuous journey” mean?

A “continuous journey” means a journey for which:-

- (i) a single ticket has been issued for the entire journey; or
- (ii) more than one ticket or invoice has been issued for the journey, by one service provider, or by an agent on behalf of more than one service providers, at the same time, and there is no scheduled stopover in the journey

6.14.35 What is the meaning of a stopover? Do all stopovers break a continuous journey?

“Stopover” means a place where a passenger can disembark either to transfer to another conveyance or break his journey for a certain period in order to resume it at a later point of time. All stopovers do not cause a break in continuous journey. Only such stopovers will be relevant for which one or more separate tickets are issued. Thus a travel on Delhi-London- New York-London-Delhi on a single ticket with a halt at London on either side, or even both, will be covered by the definition of continuous journey. However if a separate ticket is issued, say New York-Boston-New York, the same will be outside the scope of a continuous journey.

Rule 12- Services provided on board conveyances

6.14.36 What are services provided on board conveyances?

Any service provided on board a conveyance (aircraft, vessel, rail, or roadways bus) will be covered here. Some examples are on-board service of movies/music/video/ software games on demand, beauty treatment etc, albeit only when provided against a specific charge, and not supplied as part of the fare.

6.14.37 What is the place of provision of services provided on board conveyances?

The place of provision of services provided on board a conveyance during the course of a passenger transport operation is the first scheduled point of departure of that conveyance for the journey.

Illustration 11:

A video game or a movie-on-demand is provided as on-board entertainment during the Kolkata-Delhi leg of a Bangkok-Kolkata-Delhi flight. The place of provision of this service will be Bangkok (outside taxable territory, hence not liable to tax).

If the above service is provided on a Delhi-Kolkata-Bangkok-Jakarta flight during the Bangkok-Jakarta leg, then the place of provision will be Delhi (in the taxable territory, hence liable to tax).

Rule 13- Power to notify services or circumstances

6.14.38 What is the implication of this Rule?

This Rule states as follows:-

“In order to prevent double taxation or non-taxation of the provision of a service, or for the uniform application of rules, the Central Government shall have the power to notify any description of service or circumstances in which the place of provision shall be the place of effective use and enjoyment of a service.”

The rule is an enabling power to correct any injustice being met due to the applicability of rules in a foreign territory in a manner which is inconsistent with these rules leading to double taxation. Due to the cross border nature of many services it is also possible in certain situations to set up businesses in a non-taxable territory while the effective enjoyment, or in other words consumption, may be in taxable territory. This rule is also meant as an anti-avoidance measure where the intent of the law is sought to be defeated through ingenious practices unknown to the ordinary ways of conducting business.

Rule 14- Order of application of Rules

6.14.39 What is the implication of this Rule?

Rule 14 provides that where the provision of a service is, prima facie, determinable in terms of more than one rule, it shall be determined in accordance with the rule that occurs later among the rules that merit equal consideration.

This Rule covers situations where the nature of a service, or the business activities of the service provider, may be such that two or more rules may appear equally applicable.

Following illustrations will make the implications of this Rule clear:-

Illustration 12:

An architect based in Mumbai provides his service to an Indian Hotel Chain (which has business establishment in New Delhi) for its newly acquired property in Dubai. If Rule 5 (Property rule) were to be applied, the place of provision would be the location of the property i.e. Dubai (outside the taxable territory). With this result, the service would not be taxable in India.

Whereas, by application of Rule 8, since both the provider and the receiver are located in taxable territory, the place of provision would be the location of the service receiver i.e. New Delhi. Place of provision being in the taxable territory, the service would be taxable in India.

By application of Rule 14, the later of the Rules i.e. Rule 8 would be applied to determine the place of provision.

Illustration 13:

For the Ms Universe Contest planned to be held in South Africa, the Indian pageant (say, located in Mumbai) avails the services of Indian beauticians, fashion designers, videographers, and photographers. The service providers travel as part of the Indian pageant's entourage to South Africa. Some of these services are in the nature of personalized services, for which the place of provision would normally be the location where performed (Performance rule-Rule 4), while for others, under the main rule (Receiver location) the place of provision would be the location of receiver.

Whereas, by application of Rule 8, since both the provider and the receiver are located in taxable territory, the place of provision would be the location of the service receiver i.e. New Delhi. Place of provision being in the taxable territory, the service would be taxable in India.

By application of Rule 15, the later of the Rules i.e. Rule 8 would be applied to determine the place of provision.

6.14.40 Taxability of 'bundled services'

'Bundled service' means a bundle of provision of various services wherein an element of provision of one service is combined with an element or elements of provision of any other service or services. An example of 'bundled service' would be air transport services provided

by airlines wherein an element of transportation of passenger by air is combined with an element of provision of catering service on board. Each service involves differential treatment as a manner of determination of value of two services for the purpose of charging service tax is different.

Two rules have been prescribed for determining the taxability of such services in clause (3) of section 66F of the Act. These rules, which are explained below, are subject to the provisions of the rule contained in sub section (2) of section 66F.

6.14.40.1 Services which are naturally bundled in the ordinary course of business

The rule is – 'If various elements of a bundled service are naturally bundled in the ordinary course of business, it shall be treated as provision of a single service which gives such bundle its essential character'

Illustrations 14:

- A hotel provides a 4-D/3-N package with the facility of breakfast. This is a natural bundling of services in the ordinary course of business. The service of hotel accommodation gives the bundle the essential character and would, therefore, be treated as service of providing hotel accommodation.
- A 5 star hotel is booked for a conference of 100 delegates on a lump sum package with the following facilities:
 - Accommodation for the delegates
 - Breakfast for the delegates,
 - Tea and coffee during conference
 - Access to fitness room for the delegates

- Availability of conference room
- Business centre

As is evident a bouquet of services is being provided, many of them chargeable to different effective rates of tax. None of the individual constituents are able to provide the essential character of the service. However, if the service is described as convention service it is able to capture the entire essence of the package. Thus the service may be judged as convention service and chargeable to full rate. However it will be fully justifiable for the hotel

to charge individually for the services as long as there is no attempt to offload the value of one service on to another service that is chargeable at a concessional rate.

6.14.40.2 Services which are not naturally bundled in the ordinary course of business

The rule is – 'If various elements of a bundled service are not naturally bundled in the ordinary course of business, it shall be treated as provision of a service which attracts the highest amount of service tax.'

Illustrations 15:

- A house is given on rent one floor of which is to be used as residence and the other for housing a printing press. Such renting for two different purposes is not naturally bundled in the ordinary course of business. Therefore, if a single rent deed is executed it will be treated as a service comprising entirely of such service which attracts highest liability of service tax. In this case renting for use as residence is a negative list service while renting for non-residence use is chargeable to tax. Since the latter category attracts highest liability of service tax amongst the two services bundled together, the entire bundle would be treated as renting of commercial property.

6.14.40.3 Significance of the condition that the rule relating to 'bundled service' is subject to the provisions of sub-section (2) of section 66F

Sub-section (2) of section 66 lays down : 'where a service is capable of differential treatment for any purpose based on its description, the most specific description shall be preferred over a more general description'. This rule predominates over the rule laid down in sub-section (3) relating to 'bundled services'. In other words, if a bundled service falls under a service specified by way of a description then such service would be covered by the description so specified. The illustration, relating to a bundled service wherein a pandal and shamiana is provided in combination with catering service, given in the second bullet in para 9.1.2 above explains the operation of this rule.

6.14.40.4 Manner of determining if the services are bundled in the ordinary course of business

Whether services are bundled in the ordinary course of business would depend upon the normal or frequent practices followed in the area of business to which services relate. Such normal and frequent practices adopted in a business can be ascertained from several indicators some of which are listed below –

- The perception of the consumer or the service receiver. If large number of service receivers of such bundle of services reasonably expect such services to be provided as a package then such a package could be treated as naturally bundled in the ordinary course of business.
- Majority of service providers in a particular area of business provide similar bundle of services. For example, bundle of catering on board and transport by air is a bundle offered by a majority of airlines.
- The nature of the various services in a bundle of services will also help in determining whether the services are bundled in the ordinary course of business. If the nature of services is such that one of

the services is the main service and the other services combined with such service are in the nature of incidental or ancillary services which help in better enjoyment of a main service. For example service of stay in a hotel is often combined with a service or laundering of 3-4 items of clothing free of cost per day. Such service is an ancillary service to the provision of hotel accommodation and the resultant package would be treated as services naturally bundled in the ordinary course of business.

Other illustrative indicators, not determinative but indicative of bundling of services in ordinary course of business are –

- There is a single price or the customer pays the same amount, no matter how much of the package they actually receive or use.
- The elements are normally advertised as a package.
- The different elements are not available separately.
- The different elements are integral to one overall supply – if one or more is removed, the nature of the supply would be affected.

No straight jacket formula can be laid down to determine whether a service is naturally bundled in the ordinary course of business. Each case has to be individually examined in the backdrop of several factors some of which are outlined above.

When two or more rules may appear equally applicable then rule that occurs later among the rules preferable.

6.15 VALUATION OF TAXABLE SERVICES [SECTION 67]

Section 67 provides for valuation of taxable services provided by different service providers for charging of the service tax. Determination of value of services for all type of services should be made as per the provisions of this section and guided by the principles followed for the valuation of excisable goods under Section 4 of the Central Excise Act, 1944.

Section 67 was substituted by the Finance Act, 2006 w.e.f. 18.4.2006. Unlike the erstwhile system of valuation of taxable services based on gross amount charged subject to some exclusions and inclusions, the new valuation norms provide for a three tier valuation mechanism and for the first time in service tax legislation, provisions for valuation of non-monetary consideration is being provided for. The valuation of services shall be done three fold as under -

(i) Where the provision of service for such consideration in money	Gross amount charged by this for service provider services provided or to be provided
(ii) Where the provision of service is consideration not wholly or partly consisting of money (i.e. partly in cash, partly in kind)	Amount of money with addition of service tax, equivalent to the consideration
(iii) Where the provision of service is consideration which is not ascertainable	Amount as may be determined for in prescribed manner

6.15.1 Determination of Value

The value of taxable service means, the gross amount received by the service provider for the taxable service provided or to be provided by him. Taxable value has to be determined as per the provisions of the Section 67 of the Finance Act, 1994 read with Service Tax (Determination of Value) Rules, 2006.

According to CBEC Letter No. B 1/4/2006-TRU dated 19.04.2006, section 67 provides for valuation of taxable services for charging service tax. The salient features of the new section 67 are-

- Where the consideration received for provision of services is wholly in money, the value shall be the gross amount charged by the service provider for provision of service.
- Where the consideration received for provision of service is not wholly consisting of money, the value in such cases shall be the gross amount charged by the service provider for provision of similar service to any other person in the ordinary course of trade.
- If the value of similar service provided by the same service provider is not available, then the value has to be determined.
- Money value of non-money consideration received should be determined by the service provider.
- If the consideration received is not wholly consisting of money, equivalent money value of the consideration determined by the service provider shall be the taxable value for charging service tax.
- If the consideration received is partly in money and partly in non-money terms, the sum of consideration received in money and the equivalent money value of the non-money consideration determined by the service provider shall be the taxable value for charging service tax.
- The taxable value shall be determined by the service provider but the value so determined for the purpose of paying service tax should not be less than the cost of provision of such service.

The section 67 and the rules notified for this purpose enable charging of service tax in cases where the consideration received is not in money terms. Where the service tax is charged on the basis of similar services provided by the same person, the same should be based on a normal transaction between two independent persons at an arm's length price.

It was further clarified that in view of the comprehensive provisions on value of taxable services, all the circulars issued relating to value of taxable services are withdrawn. This has been further reiterated vide Circular No. 93/04/2007 dated 10-5-2007 stating that certain portion of various circulars relate to issue of valuation of taxable services. Any such portion, which is inconsistent with the Service Tax (Determination of Value) Rules, 2006 stand withdrawn w.e.f. 19-4-2006 vide para 4.1.13 of Instruction No. B1/4/2006-TRU, dated 19-4-2006. Therefore, in all cases, the value of a taxable services is to be determined strictly in terms of the Service Tax (Determination of Value) Rules, 2006 read with section 67 of the Finance Act, 1994.

Normally, the "value of taxable service" means, the gross amount received by the service provider for the taxable service provided or to be provided by him. Section 67 of the Finance Act, 1994 read with Service Tax (Determination of Value) Rules, 2006, has to be followed to arrive at the taxable value.

For certain services, a specified percentage of abatement is allowed from the gross amount collected for rendering the services, subject to the conditions, inter alia, that Cenvat Credit has not been availed by the service provider and cost of goods sold in the process of providing the subject service is not deducted in terms of Notification No. 12/2003-ST, dated 20.6.2003. (Since rescinded w.e.f. 1-7-2012 vide Notification No. 34/2012-ST, dated 20.6.2012)

Exemption to Education Cess Vide Circular No. 134/3/2011-ST -- F. No. 354/42 2011-TRU, dated 8.4.2011, CBEC has issued directions for not initiating proceedings to recover education cess and secondary & higher education cess where 'whole of service tax' stands exempted under any Notification. Similarly, where education cess has been refunded to exporters alongwith service tax by virtue of exemption notification where 'whole of service tax' is exempt, the same need not be recovered.

The Circular states as follows-

1. Representations have been received from the field formations, seeking clarification regarding the applicability of service tax exemption to Education Cess (refers to both Education Cess leviable

under Finance (No.2) Act, 2004 and Secondary and Higher Education Cess leviable under Finance Act, 2007), under notifications where 'whole of service tax' stands exempted. Apparently the doubt arises in the context of Tribunal's Order in the matter of M/s. Balasore Alloys Ltd. v. CCE, Customs and Service Tax, BBSR-I (2010-TIOL-1659-CESTAT-KOL).

2. The issue has been examined. Though Tribunal's Order referred above is in favor of revenue, it is inconsistent with the policy intention of the Government to exempt education cess in addition to service tax, where 'whole of service tax' stands exempted. According to section 95(1) of Finance (No.2) Act, 2004 and section 140(1) of Finance Act, 2007, Education Cess and Secondary and Higher Education Cess are leviable and collected as service tax, and when whole of service tax is exempt, the same applies to education cess as well, Since Education Cess is levied and collected as percentage of service tax, when and wherever service tax is NIL by virtue of exemption, Education Cess would also be NIL.
3. This being the principle, field formations are directed not to initiate proceedings to recover the education cess, where 'whole of service tax' stands exempted under the notification. Extending the same principle, where education cess has been refunded to exporters along with service tax, by virtue of exemption notifications where 'whole of service tax' is exempt, the same need not be recovered".

Following terms have been explained in Section 67 by way of an Explanation-

'Consideration' has been explained to include any amount that is payable for the taxable services provided or to be provided. It means any amount that is payable i.e., past, present and future liability, all are included. Also services may have already been rendered, being rendered or to be rendered in future. Amount payable, whether paid or not or whether recovered or not shall be included in 'consideration'.

As per Explanation (a) to section 67 of the Act "consideration" includes any amount that is payable for the taxable services provided or to be provided.

Since this definition is inclusive it will not be out of place to refer to the definition of 'consideration' as given in section 2 (d) of the Indian Contract Act, 1872 as follows-

"When, at the desire of the promisor, the promisee or any other person has done or abstained from doing, or does or abstains from doing, or promises to do or to abstain from doing, something, such act or abstinence or promise is called a consideration for the promise".

In simple terms, 'consideration' means everything received or recoverable in return for a provision of service which includes monetary payment and any consideration of non-monetary nature or deferred consideration as well as recharges between establishments located in a non-taxable territory on one hand and taxable territory on the other hand.

According to CBEC Letter No. 334/1/2012-TRU dated 16.3.2012, the definition of 'consideration' as given in the Indian Contract Act, 1872 can safely be adopted to understand the concept of consideration. When so applied to the Act, 'consideration' for a service provided or agreed to be provided by service provider would mean anything which the service receiver or any other person has done or abstained from doing, or does or abstain from doing, or promises to do or to abstain from doing for receiving the service.

In Commission of European Communities v. French Republic (2012) 36 STT 690 (ECJ), it was held that gratuities or voluntary tips paid by the customer spontaneously and directly to employees as a token of satisfaction of service, over and above the service charges are not includible in taxable value.

Tips or service charges are compulsory price supplements which are included in the total price charged to the customer and which are generally borne by the customer by way of remuneration for the

'service provided in certain establishments', i.e. 'service charge'. A service charge is to be distinguished from gratuities or voluntary tips paid by the customer spontaneously and directly to employees of the establishment in question as a token of his satisfaction, over and above the service charge itself.

The consideration received or receivable by the supplier for the provision of a service, which constitutes the taxable amount arising from that operation, must be capable of being expressed in terms of the consideration actually received for it, which is a subjective value and not a value estimated according to objective criteria. The consideration must be capable of being expressed in money.

In *Apple and Pear Development Council vs. Commissioner of Customs & Excise* (2012) 36 STT 678 (ECJ), it was held that for the provision of services to be taxable, there must be a direct link between the service provided and the consideration received. Concept of supply of services effected for consideration presupposes the existence of a direct link between the service provided and the consideration received.

Following are the implications of the condition that activities should be carried out for a consideration'-

- To be taxable an activity should be carried out by a person for another for a 'consideration'.
- Activity carried out without any consideration like donations, gifts or free charities are therefore outside the ambit of service. For example grants given for a research where the researcher is under no obligation to carry out a particular research would not be a consideration for such research.
- An act by a charity for consideration would be a service and taxable unless otherwise exempted.
- Conditions in a grant stipulating merely proper usage of funds and furnishing of account also will not result in making it a provision of service.
- Donations to a charitable organization are not consideration unless charity is obligated to provide something in return e.g. display or advertise the name of the donor in a specified manner or such that it gives a business advantage to the donor.

Monetary consideration means any consideration received in the form of money. 'Money' includes not only cash but also cheque, promissory note, bill of exchange, letter of credit, draft, pay order, traveller's cheque, money order, postal or electronic remittance or any such similar instrument when used as consideration to settle an obligation.

Non-monetary consideration could be in the form of following:

- Supply of goods and services in return for provision of service
- Refraining or forbearing to do an act in return for provision of service
- Tolerating an act or a situation in return for provision of a service
- Doing or agreeing to do an act in return for provision of service

The non-monetary consideration also needs to be valued for determining the tax payable on the taxable service since service tax is levied on the value of consideration received which includes both monetary consideration and money value of non-monetary consideration.

The value of non-monetary consideration is determined as per section 67 of the Act and the Service Tax (Determination of Value) Rules 2006, which is equivalent money value of such consideration and if it is not ascertainable, then as follows:-

- On the basis of gross amount charged for similar service provided to other person in the ordinary course of trade;
- Where value cannot be so determined, the equivalent money value of such consideration, not less than the cost of provision of service.

CBEC Guidance Note dated 20-6-2012 also clarifies on certain payments as to whether such payments could be considered as 'consideration' as follows-

Sl. No.	Nature of payment	Whether consideration for service?
1.	Amount received in settlement of dispute.	Would depend on the nature of dispute. Per se such amounts are not consideration unless it represents a consideration for an activity that has been carried out. If the dispute itself pertains to consideration relating to service then it would be a part of consideration.
2.	Amount received as advances for performance of service.	Such advances are consideration for the agreement to perform a service.
3.	Deposits returned on cancellation of an agreement to provide a service.	Returned deposits are in the nature of a returned consideration. If tax has already been paid the tax payer would be entitled to refund to the extent specified subject to provisions of law in this regard.
4.	Advances forfeited for cancellation of an agreement to provide a service.	Since service becomes taxable on an agreement to provide a service such forfeited deposits would represent consideration for the agreement that was entered into for provision of service.
5.	Security deposit that is returnable on completion of provision of service.	Returnable deposit is in the nature of security and hence do not represent consideration for service. However, if the deposit is in the nature of a colourable device wherein the interest on the deposit substitutes for the consideration for service provided or the interest earned has a perceptible impact on the consideration charged for service then such interest would form part of gross amount received for the service. Also security deposit should not be in lieu of advance payment for the service.
6.	Security deposits forfeited for damages done by service receiver in the course of receiving a service	If the forfeited deposits relate to accidental damages due to unforeseen actions not relatable to provision of service then such forfeited deposits would not be a consideration in terms a clause proposed to be inserted in rule 6 of the Valuation Rules.
7.	Excess payment made as a result of a mistake	If returned it is not consideration. If not returned and retained by the service provider it becomes a part of the taxable value.
8.	Demurrages payable for use of services beyond the period initially agreed upon e.g. retention of containers beyond the normal period.	This will be consideration and is covered by clause (x) of sub-rule (1) to Rule 6 of the Valuation Rules.

Following points are also relevant -

- To be taxable an activity should be carried out by a person for a 'consideration'
- Activity carried out without any consideration like donations, gifts or free charities are therefore outside the ambit of service. For example grants given for a research where the researcher is under no obligation to carry out a particular research would not be a consideration for such research.
- An act by a charity for consideration would be a service and taxable unless otherwise exempted.
- Conditions in a grant stipulating merely proper usage of funds and furnishing of account also will not result in making it a provision of service.
- Donations to a charitable organization are not consideration unless charity is obligated to provide something in return e.g. display or advertise the name of the donor in a specified manner or such that it gives a desired advantage to the donor.

The consideration for a service may be provided by a person other than the person receiving the benefit of service as long as there is a link between the provision of service and the consideration. For example, holding company may pay for services that are provided to its associated companies.

The consideration for a service may be provided by a person other than the person receiving the benefit of service as long as there is a link between the provision of service and the consideration. For example, holding company may pay for works contract service or architect services that are provided to its associated companies.

In *Mahabola Mannur vs. CCE 2011 (22) STR. 419 (CESTAT, Bangalore)*, it was held that the interpretation of gross amount charged by the appellant is not in line with the provisions of law. Section 67 clearly provides that for calculating value of a service, consideration in monetary as well as non-monetary terms are required to be taken into account and where consideration is not ascertainable, it has to be determined in the prescribed manner as per Service Tax (Determination of Value on Rules), 2006. Exclusions of value of materials supplied by service recipient is not available under Section 67 of Finance Act, 1994 after amendment from 18-4-2006.

'Money has been defined to include all forms of money except the currency that is held for its numismatic value. It will include any -

- Currency
- Cheques
- promissory notes
- letter of credit
- draft
- pay orders
- traveller's cheque
- money order
- postal remittance (order)
- any other similar instrument.

Any other similar instrument is a residual entry which will cover all types of bills of exchange, hundi, cash in transit etc., but not goods for value of money.

Finance Act, 2012 has, however, omitted the above definition of money as provided in explanation (b) to section 67. However, a new definition of 'money' has been provided in clause (33) to section 65B (w.e.f. 1-7-2012) which reads as under -

“money” means legal tender, cheque, promissory note, bill of exchange, letter of credit, draft, pay order, traveller’s cheque, money order, postal or electronic remittance or any similar instrument but shall not include any currency that is held for its numismatic value;

The new definition is a much wider definition. Readers may also refer to Topic No. 36 of the Book.

Gross amount charged has been defined to include payments by way of -

- (i) cheque
- (ii) credit card
- (iii) deduction from account
- (iv) any form of payment by issue of credit notes or debit notes and book adjustments
- (v) any amount credited or debited to any account, whether called suspense account or other account, in the book of person liable to pay tax, in case of a transaction with associated enterprise.

The gross amount charged for the taxable service shall include any amount received towards the taxable service before, during or after the provision of taxable service.

Cheque does not mean only a cheque but would cover all such similar instruments. Credit cards would also include other payment or charge cards. The most concerning items in the aforementioned definition is any form of payment by issue of credit note or debit note and book adjustments. This will not only create lots of confusion but also be a subject matter of dispute between department and the assessee. It is a common practice to issue debit notes or credit notes or to do book adjustments for any reason and it is not necessary that such note on adjustment would tantamount to payment. For example, a service provider raises a bill on the service receiver for ₹ 10000 but he finally settles the bill for ₹ 8000 only and while final settlement takes place, he raises a credit note on him. Such notes may not be considered as payment or gross amount charged.

6.15.2 Date of determination of rate of tax, value of taxable service and value of exchange [Section 67A]

New section 67A has been inserted by the Finance Act, 2012 to provide for:

- (a) date of determination of rate of tax,
- (b) value of taxable service, and
- (c) rate of exchange (as referred in section 14 of Customs Act, 1962)

This will be effective from 1-7-2012.

The provisions of section 67A reads as follows -

The rate of service tax, value of a taxable service and rate of exchange, if any, shall be the rate of service tax or value of a taxable service or rate of exchange, as the case may be, in force or as applicable at the time when the taxable service has been provided or agreed to be provided”.

It provides that value of taxable services (particularly in case of import, and export of taxable services) and the rate of tax shall be determined in terms of Point of Taxation Rules, 2011. Accordingly, date, value and rate of exchange, as the case may be, shall be as in force or as applicable at the time when taxable service has been provided or agreed to be provided.

As per explanation to section 14 of the Customs Act, 1962, ‘rate of exchange’ means the rate of exchange-

- (i) determined by the Central Government, or
- (ii) ascertained in such manner as the Central Government may direct, for the conversion of Indian currency into foreign currency or foreign currency into Indian currency. Both Indian currency and foreign currency are defined in Foreign Exchange Regulation Act, 1973.

Cum Tax Value

Section 67(2) provides that where the gross amount charged by the service provider for the taxable services provided or to be provided is inclusive of service tax payable, the value of taxable service in such case shall be the amount as with the addition of service tax payable, is equal to the gross amount charged.

In such cases, gross value of taxable service shall be considered as inclusive of service tax. Also, as per Section 67(3), gross amount charged for taxable service shall include any amount received towards the taxable service before, during or after the rendering of such service. A similar provision existed in earlier provisions of Section 67.

In *Robot Detective & Security Agency GCE Chennai vs. CCE, Cheenai* (2009) 16 STJ 305; (2009) 14 STR 689; (2009) 20 STT 42 (CESTAT, Chennai), where assessee was providing taxable services and charged gross value without indicating the service tax element separately, it was held that taxable value realized has to be treated as inclusive of service tax due and that service tax liability was to be redetermined.

In *CCE & C vs. Advantage Media Consultant* (2008) 14 STJ 172 (CESTAT Kolkata), it was held that when no tax is collected separately, the gross amount has to be adopted to quantify the tax liability treating it as a value of taxable service plus service tax payable.

In *Turret Industrial Security Pvt. Ltd vs. CCE* (2008) 18 VST 348; (2009) STR 564 (CESTAT, Kolkata) where the assessee had not collected service tax separately from its clients, it was held that the value of services received from such clients has to be taken as the value plus tax and accordingly, a bifurcation has to be done to determine the tax amount payable on such receipts.

In *Shakti Motors vs. CST, Ahmedabad* (2008) 12 STR 710 (CESTAT, Ahmedabad) it was held that in terms of section 67(2) of the Finance Act, 1994, if invoice specifically does not say that gross amount charged includes service tax, it can not be treated as cum service tax price. Cum tax benefit is not extendable in absence of evidence to show that invoice is prepared in this manner.

In *Multi Mantec International Pvt. Ltd. vs. CST Ahmedabad* (2008) 15 STJ 251 (CESTAT, Ahmedabad), it was held that when price is inclusive of taxes, it would mean that all taxes have been collected, unless otherwise provided through specific evidence.

In *P. Sugumar vs. CCE, Pondicherry* (2009) 23 STT 173 (CESTAT Chennai), where assessee had not received any separate amount towards service tax, it was held that gross amount received by him should be taken as cum- tax value and tax amount was to be recalculated.

In *Mackintosh Burn Ltd vs. CST, Kolkata* (2010) 19 STR 682 (CESTAT, Kolkata), it was held that where separate bills were raised on customers, mere non payment by customer does not mean that service charges collected to be treated as cum-tax value and as such, cum-tax benefit was not permissible.

In *BSNL vs. CCE, Jaipur-I* (2011) 24 STR 435 (CESTAT, Delhi), where Service Tax could not be collected from customer though Service Tax was payable, it was held that demand was to be made out on the basis of cum tax value, i.e, amount received by service provider less tax payable. As such, demand amount would have to be reduced.

In *National Refrigeration & Conditioning Engg. vs, CCE, Ludhiana* (2011) 33 STT 154 (CESTAT, New Delhi), it was held that since assessee had not charged service tax separately, the assessee was entitled to cum-tax benefit.

In *Kopran Ltd vs. CCE, Raigad* (2011) 331 STT 228 (CESTAT, Mumbai), it was affirmed that when no service tax is collected separately, gross amount has to be adopted to quantify tax liability, treating it as value of service plus service tax payable. The assessee was entitled to deduct service tax from gross amount charged, for arriving at taxable value of service [Also see *CCE vs. Advantage Media Consultant* (2008) 14 STT 483 (CESTAT, Kolkata); *Amrit Agro Industries Ltd vs, CCE* (2007) 210 ELT 183 (SC); *ABN Amro Bank vs. CCE, Noida* (2011) 23 STR 529 (CESTAT, New Delhi).

Book Adjustments

In business, the books most frequently referred to are the books of account in which business transactions are recorded. Books of account are normally considered to be legal documents. Books of account contain various accounts (say, debtors and creditors). Such accounts mean an account or register of debt or credit in a book. A "book account" means a book containing a statement in detail of the transactions between parties, including prices, made contemporaneously with the transaction, and entered in a book.

Adjustment in finance and accounts means to correct figures or make allowances for charges, credits etc. It involves alteration in debit or credit balances by way of allowances or charges posted in an account by means of debit or credit notes. It is a process of adjusting financially the sums due or owed. Such adjustments are done by way of adjusting entries by way of journal entries without directly affecting the cash flows. Such adjustments are absolutely legal and an universally accepted accounting practice.

According to Dictionary of Accounting Terms, 'adjustment' means --

- (a) increase or decrease to an account resulting from an adjusting journal entry. For example, the accrual of wages at year-end will cause an increase in both salary expense and salary payable.
- (b) changing an account balance because of some happening or event. For example, a customer who returns merchandise will receive a credit adjustment to the account.

According to Black's Law Dictionary, 8th edition 2004, 'suspense account' means temporary record used in book keeping to track receipts and disbursements or an uncertain nature until they are identified and posted in the appropriate ledgers and journals. A suspense account does not appear in a final financial statement. It is a useful tool when, for example, a lump-sum receipt or expenditure must be broken down to match several transactions before posting.

Suspense accounts are accounts of transactions which being impossible to enter in the normal books of accounts in a regular way for one reason or the other are thus required to be held in suspense for the time being. Suspense account is a temporary account that records part of a transaction before complete analysis of that transaction, or that records sums to correct errors.

In common parlance, it means an account in which the amount is held in deposit in favour of the person who remitted it and may be refunded in future, if the same is not appropriated or utilised for the purpose for which it was remitted. (LIC vs. Prasanna Devaraj, 1994 (2) KLT 541 at 545)

The expression 'suspense account' in the common parlance, means an account in which the amount is held in deposit in favour of the person who remitted it and may be refunded in future, if the same is not appropriated or utilised for the purpose for which it was remitted.

LIC of India vs. Prasanna Devraj, (1995) 82 Comp cases 611, 616 (Ker).

Suspense account is a temporary account in which entries of credits or charges are made until then proper disposition can be determined. Entries in suspense accounts are generally transitional. It is an account used temporarily to any doubtful receipts and disbursements or discrepancies pending their analysis and permanent classification.

Associated enterprises

CBEC has clarified as follows in respect of levy of service tax on transactions between associated enterprises vide Circular No. 334/112008-TRU dated 29.2.2008 -

Service tax is levied at the rate of 12% of the value of taxable services (section 66). Section 67 pertaining to valuation of taxable service for charging service tax states that value shall be the gross amount charged for the service provided or to be provided and includes book adjustment. As per rule 6 of the Service Tax Rules, 1994, service tax is required to be paid only after receipt of the payment.

It has been brought to the notice that the provision requiring payment of service tax after receipt of payment are used for tax avoidance especially when the transaction is between associated enterprises. There have been instances wherein service tax has not been paid on the ground of non-receipt of payment even though the transaction has been recognized as revenue/expenditure in the statement of profit and loss account for the purpose of determining corporate tax liability.

As an anti-avoidance measure, it is proposed to clarify that service tax is leviable on taxable services provided by the person liable to pay service tax even if the amount is not actually received, but the amount is credited or debited in the books of account of the service provider. In other words, service tax is required to be paid after receipt of payment or crediting/debiting of the amount in the books of accounts, whichever is earlier. However, this provision is restricted to transaction between associated enterprises. This provision shall also apply to service tax payable under reverse charge method (Section 66A) as taxable services received from associated enterprises. For this purpose section 67 and rule 6(1) are being amended.

The term 'associated enterprise' has the same meaning as assigned to it in section 92A of the Income Tax Act, 1961. It is a relative concept i.e. an enterprise is an associated enterprise when it is viewed in relation to other enterprises. This concept is used in the Income Tax Act for applying transfer pricing provisions. An enterprise which participates, directly or indirectly, or through one or more intermediaries, in the management or control or capital of the other enterprise is considered as associated enterprise. It also covers an enterprise in respect of which one or more persons who participate, directly or indirectly, or through one or more intermediaries, in the management or control or capital of the other enterprise.

Section 92A(2) of the Income Tax Act specifies various situations under which two enterprises shall be deemed to be associated enterprises. Enterprise means a person who is engaged in the provision of any services of any kind. For details, relevant provisions of Income Tax Act may be referred to."

Free Services (Services without Consideration)

Service Tax (Determination of Value) Rules, 2006 in rule 3 addresses the issue of determining the value of taxable service. It addresses two situations -- one where consideration is not wholly or partly in money and two, where consideration is not ascertainable. In both the cases, there must be some consideration, whether in money form or in non-ascertainable form. The valuation rules shall apply only when some consideration is received or given. There is no deeming provision in section 67 or the rules framed thereunder.

If there is no consideration, there is no value of taxable service or its value is nil and therefore, there cannot be any levy of service tax thereon [also see *Chandravadan Desai vs. CCE, Calcutta-I* (1998) 98 ELT 515 (CESTAT, Calcutta)]. The Tribunal held that section 67 does not have the concept of deeming provision of valuation of taxable service. The departmental appeal before Supreme Court was dismissed. [(1999) 105 ELT A 193 (Supreme Court)].

The definition of 'consideration' as explained in Section 67 is clear i.e., any amount that is payable for the taxable services provided. If no amount is paid (including past, present and future liability), there is no consideration involved. In general understanding, consideration means, something in return. It is an act or forbearance or its promise. Section 2(d) of Indian Contract Act, 1972 defines consideration to mean anything regarded as compensation or equivalent for what one does or undertakes for another's benefit.

The Service Tax (Determination of Value) Rules shall come into operation only when -

- (i) Consideration is involved.
- (ii) Consideration is partly in cash or partly in other than cash (say, kind).
- (iii) Consideration is there but it is not ascertainable or cannot be determined.
- (iv) All costs are not included in the value of taxable service and reimbursement of expenses are excluded from the value.

(v) Question of 'pure agent' has to be decided.

Notification No. 24/2012-ST, dated 1-7-2012 has amended valuation rules w.e.f 1-7-2012. Accordingly, in relation to works contracts, outdoor caterers and restaurant services, it has been provided that taxable value will include fair market value of all goods and services supplied.

Supreme Court's View on Valuation of Services

Supreme Court has held that section 67 of the Finance Act, 1994 does not have the concepts of deeming provision of valuation of taxable service. Following is the summary of the order-

The Supreme Court Bench on 16.11.1998 dismissed the Civil Appeal No. 3188 of 1998 filed by Commissioner of Central Excise, Calcutta against the CEGAT Order No.S/628/A-1168/CAL/97 dated 3.9.1997 and reported in 1998 (98) E.L.T 515 (Tribunal) (Chandravadan Desai vs. Commissioner).

The Appellate tribunal in its order in question had held that ex facie there was no allegation in the order of the Superintendent of Central Excise, Service Tax Cell that he resorted to the best judgment under Section 72 of the finance Act, 1994. The order was also not mentioning that the accounts of assessee was rejected as incorrect or incomplete. It was also not given in the order that on what basis the Superintendent has stated that the brokerage must be charged in all cases and there was no free service provided by a stock broker at all having regard to the practice of the trade. The tribunal also held that Section 67 of the said Finance Act relating to service tax does not have the concept of deeming provision of valuation of taxable service. In the circumstances the Tribunal held that the authorities below have not prima facie passed a correct order and allowed the Stay Petition unconditionally.

In Federation of Hotel and Restaurant association of India vs. Union of India (1989) 178 ITR 97 (Supreme Court), it was held that the subject of a tax is different from the measure of the levy. The measure of the tax is not determinative of its essential character or of the competence of the legislature. Following this, in Tamil Nadu Kalyana Mandapam Owners' Association v. Union of India and Others (2002) 253 ITR 250 Madras High Court held that there can be no dispute that section 67(1) is nothing but the measure of the tax which can not be considered while considering the true nature of the tax.

In C. K. Jidheesh v. Union of India (2005) 3 STJ 985 (Supreme Court), where the explanation to Section 67 only exempted the cost of unexposed films during the course of providing the service, in case of photography services, service tax on which was levied w.e.f. 16th July, 2001 vide Notification No. 4/2001-ST dated 9.7.2001, a clarificatory Circular (No. F No. B11/1/2001 TRU dated 9.7.2001) was also issued by TRU of Ministry of Finance, clarifying various issues in relation to levy of service tax in respect of new services taxed in the Finance Act, 2001. The Circular being challenged in the subject writ petition stated that the value of taxable service is the gross amount charged from the customer for the service rendered. However, the cost of unexposed photography films sold to the customer is excluded. The service provider claiming benefit of the cost of film should be advised to show them clearly on the invoices along with description and particulars of the film. Otherwise, the claim will not be considered as admissible. No other cost (such as photographic paper, chemicals, etc.) is excluded from the taxable value.

The court observed that while the challenge is to letter dated 09.07.2001 issued by Ministry, the real challenge is to amendment in the Finance Act. That letter under question only clarifies what amended section 67 provides for. A mere challenge to such a clarificatory letter is not enough and the challenge has to be to the provisions of the Act. Such a challenge to the statutory provisions was made in Kerala Colour Lab Association v Union of India (2002) 168 Taxation 563 (Kerala), where in it was held that levy of service tax on photography services does not impose any unreasonable restriction on the fundamental right and was held to be constitutionally valid. The Petitioner has also challenged the discriminatory attitude of the Respondent in levying service tax on gross receipts in photographic business when on other pure service providers like stock brokers, travel agent etc, the tax is levied only on the commission. On the issue of discrimination in levying the service tax on gross receipts, it was held

that there is no discrimination. Such cases were contracts of service, pure and simple. In other cases, there is a bifurcation because service is provided and goods are sold.

In *Bharat Sanchar Nigam Ltd. v. Union of India* (2005) 4 STJ (Supreme Court), it was held that the aspect theory would not apply to enable the value of the services to be included in the sale of goods or the price of goods in the value of the services. The value of services cannot be included in the meaning of goods. In a telecom service, what could comprise as a sale is the sale of handset only and not the service component.

Free Supply of Goods

Valuation of taxable services covers gross amount charged or collected from service receiver against a service which also, includes monetary equivalent of non-monetary consideration.

According to section 67 of Finance Act, 1994 as amended and Service Tax (Determination of Value) Rules, 2006, gross amount is chargeable to service tax. The inclusion of money value of free supplies of items in taxable value of services rendered is consistent with intention of legislative as reflected in the language of Act and Valuation Rules. If this value is not included, the assessee will also not get the benefit of exemption under Notification No. 1/2006 or 12/2003, as the case may be.

Receipt of free supply of items by a manufacturer is similar to receipt of materials free of cost by a service provider, as both the manufacturer and the service provider will have to otherwise incur cost of these items to produce excisable goods or to render taxable service. In both the cases, receipt of free supply of materials does not yield any additional return to the assessee. However, it is well recognized that for the purpose of section 4 of the Central Excise Act, free supply of items constitutes additional consideration received by a manufacturer. Therefore, inclusion of money value of free supply on items in the taxable value of the service rendered is consistent with the intention of the Legislature as reflected in the language of the Act as well as the Service Tax (Determination of Value) Rules, 2006. In a case where the service recipient does not provide such items to the service provider, the assessee will include the value of the materials used in rendering the taxable service and charge the same from the client. The assessee cannot exclude the value of these material in computing the taxable value. The Commissioner rightly relied on the judgment of Supreme Court in *Burn Standard Co. Ltd v. Union of India* (1992) 60 ELT 671 wherein it was held that value of free supply of items was includible in the assessable value under section 4 of Central Excise Act. (Refer *VPR Mining Infrastructure Pvt. Ltd v. CCE, Hyderabad* (2011) 32 STT 1; (2011) 23 STR 279 (CESTAT, Bangalore).

Notification No. 24/2012-ST, dated 1-7-2012 has amended valuation rules w.e.f 1-7-2012. Accordingly, in relation to works contracts, outdoor caterers and restaurant services, it has been provided that taxable value will include fair market value of all goods and services supplied.

Gross Value - Some Points to be Noted

- (i) Service tax is chargeable on gross value of taxable services rendered as determined in terms of Service Tax (Determination of Value) Rules, 2006.
- (ii) Where gross amount charged is inclusive of service tax, value of taxable service shall be an amount which with addition of service tax would be equal to gross amount charged.
- (iii) Services provide free (without any consideration) shall not attract any service tax as value will be nil.
- (iv) Gross amount charged includes amounts received before, during and after the provision of taxable service.
- (v) Gross amount would include payment by cheque, credit card, deduction from account, credit notes, debit notes, book adjustments and amounts debited or credited to any account including suspense account in case of transactions with associated enterprises.
- (vi) Gross consideration would include reimbursement of expenses unless incurred by a pure agent on behalf of the client.

- (vii) Value of taxable service is total amount of consideration whether split into various components or not.
- (viii) Value of goods and material supplied will not be included in the gross amount charged except in case of works contract/outdoor catering/restaurant services (Refer Notification No. 24/2012-ST, dated 6-6-2012).
- (ix) Gross value of taxable services and service tax should be indicated in invoices.
- (x) Abatements, if any allowed, are to be calculated on the gross amount charged.
- (xi) TDS is to be deducted on gross amount charged.
- (xii) Value of taxable services will exclude Sales tax, VAT etc.
- (xiii) Service tax returns should indicate gross amount charged for all taxable services.
- (xiv) Only gross value of taxable service determines the liability of service tax.
- (xv) CENVAT credit should be taken before depositing service tax on value of taxable service.

In *Quadrant Communication Ltd. v. CCE, Pune III* (2012) 26 STR 33 (CESTAT, Mumbai), it was held that appellant was liable to pay service tax on the gross amount charged from the clients in respect of advertising services rendered. The value added tax practiced in India is on "invoice basis". The service tax liability has to be discharged on the gross amount charged to the client and the service provider can avail Service Tax/excise duty paid on the inputs or input services used in or in relation to the provision of output. Rule 5 of the Service Tax (Determination of Value) Rules, 2006 makes it abundantly clear that where any expenditure or costs are incurred by the service provider in the course of providing taxable service, all such expenditure or costs shall be treated as consideration for the taxable service provided and shall be included in the value for the purpose of charging service tax on the said service.

6.15.3 Valuation w.e.f. 1.7.2012

With the introduction of system of taxation of services based on the negative list there has been no fundamental change in the manner of valuation of service for the purpose of payment of service tax. The broad scheme remains the same barring some marginal changes carried out to align the scheme of valuation of taxable services and the Service Tax (Determination of Value) Rules, 2006 with the new system of taxation. Broadly these changes in the Valuation Rules are as follows:-

- (i) As compared to the existing two schemes for valuation of works contract services - one under the rule 2A of the Valuation Rules and second under the Works Contract (Composition Scheme for Payment of Service Tax) Rules 2007 has been replaced with a unified scheme under the new rule 2A of Service Tax (Determination of Value) Rules, 2006.
- (ii) A new Rule 2C has been inserted for determining the value of service involved in supply of food or any other article of human consumption or any drinks in a restaurant or as outdoor catering. The existing scheme of determination of value of such services through prescribed abatements in various exemption notifications has been done away with.
- (iii) There are certain changes in rule 6 of the Service Tax (Determination of Value) Rules, 2006.
- (iv) All notifications that prescribed the abatements for working out the taxable value from the gross amount charged have been merged into one single exemption notification i.e., Notification No. 26/2012- ST dated 20/6/12.

The manner of value of service is provided in Section 67. As per sub-section (1) of Section 67 wherever Service Tax is chargeable on any taxable service with regard to its value then its value shall -

- (i) in a case where the provision of service is for a consideration in money, be the gross amount charged by the service provider for such service provided or to be provided by him;
- (ii) in a case where the provision of service is for a consideration not wholly or partly consisting of

money, be such amount in money as, with the addition of service tax charged, is equivalent to the consideration;

- (iii) in a case where the provision of service is for a consideration which is not ascertainable, be the amount as may be determined in the prescribed manner.

There may be several situations wherein it may be difficult to determine the consideration received by service provider for provision of a service. Such situations can arise on account of several factors such as consideration of service being embedded in the total amount received as consideration for a composite activity involving elements of provisions of service and element of sale of goods or consideration for service being included in the gross amount charged for a particular transaction or consideration of service being wholly or partly in the nature of non-monetary consideration.

The manner has been prescribed under Service Tax (Determination of Value) Rules 2006. These rules inter-alia provide provisions in respect of the following situations:

- (i) Determination of value of service portion involved in execution of works contract.
- (ii) Determination of value of service in relation to money changing.
- (iii) Determination of value of service portion involved in supply of food and any other article of human consumption or any drinks in a restaurant or as outdoor catering.
- (iv) Determination of value where such value is not ascertainable.
- (v) The said rules also specify certain expenditures or costs that are incurred by the service provider which have to be included or excluded
- (vi) The said rules also specify certain commissions or costs that are received by the service provider that have to be included or excluded while arriving at the taxable value.

In addition to the Service Tax (Determination of Value) Rules 2006, certain sub-rules in rule 6 of the Service Tax Rules, 1994 also provide simplified compounded mechanism for determination of value of taxable services in specified situations.

6.15.4 Salient Features of Service Tax (Determination of Value) Rules, 2006 (Notification No. 12/2006-ST dated 19.4.2006 as amended)

Following valuation rules have been prescribed vide Service Tax (Determination of Value) Rules, 2006.

These rules contain seven rules dealing with -

- (1) Title and commencement
- (2) Definition of value, section and other words
- (2A) Determination of value of services involved in execution of Works Contract
(substituted by Notification No. 11/2012-ST, dated 17-3-2012)
- (2B) Determination of value of service in relation to money changing
- (2C) Determination of value of taxable service involved in supply of food and drinks in a restaurant or as outdoor catering (inserted by Notification No. 11/2012-ST, dated 17-3-2012 and superceded by Notification No. 24/2012-ST, dated 6-6-2012 w.e.f. 1-7-2012)
- (3) Manner of determination of value
- (4) Rejection of value
- (5) Inclusion in or exclusion from taxable value of certain expenditure or costs
- (6) Cases in which commission, costs etc. will be included or excluded
- (7) Actual consideration to be the value of taxable service provided from outside India. (Omitted by Notification No. 11/2012-ST, dated 17-3-2012 and superceded by Notification No. 24/2012-ST, dated 6-6-2012 w.e.f. 1-7-2012)

In *Jaihind Projects Ltd. v. CST, Ahmedabad* (2010) 25 STT 196 (Costal, Ahmedabad), it was observed that section 67 clearly provides that for calculating value of a service, consideration in monetary as well as non monetary terms are required to be taken into account and where consideration is not ascertainable, it has to be determined in the prescribed manner. Service Tax (Determination of Valuation Rules), 2006 provides for determination of value of services. Rule clearly provides that where the value cannot be determined, equivalent money value of consideration which cannot be less than the cost of the provisions of taxable service, is required to be taken into account and value of taxable service is the total value of taxable service is the total amount of consideration consisting of all components of taxable service. Rule 5 provides that all expenditure/cost incurred by service provider are to be treated as consideration. Rule 5 also provides examples of different types of expenses. It was held that assessee was required to pay service tax on full value of contracts including cost of pipes provided by service receiver, and if value of pipes, which were used for laying pipelines, was not included, assessee would not be eligible for abatement.

Valuation rules known as Service Tax (Determination of Value) Rules, 2006 provide for arms length pricing mechanism for valuing a taxable service for levy of service tax. These rules, in all contain seven rules providing for manner of determination of taxable value, rejection of value, inclusion in or exclusion from taxable value of certain expenditure or costs, cases in which commission, cost etc. will be included or excluded and actual consideration to be the value of taxable service provided from outside India.

6.15.5 Value

Rule 2 defines value as referred to in Section 67 of the Finance Act, 2006 i.e., gross amount charged by the service provider for taxable services provided or to be provided. When it is in money terms the consideration in money would include any amount that is payable for the taxable services provided or to be provided. The terms- consideration, money and gross amount charged have been defined by way of explanation to Section 67.

(A) Determination of Value of Services in Execution of Works Contract (Rule 2A)

Service Tax (Determination of Value) Rules, 2007 have been amended by Notification No. 29/2007-ST dated 22.5.2007 w.e.f. 1.6.2007 to insert new rule 2A which provides for determination of value of taxable service involved in the execution of works contracts. It prescribes the manner in which valuation of service component of works contracts shall be done.

Accordingly,

- (i) Value of works contract service determined shall be equivalent to the gross amount charged for the works contract less the value of transfer of property in goods involved in the execution of the said works contract.
- (ii) Where Value Added Tax or sales tax, as the case may be, has been paid on the actual value of transfer of property in goods involved in the execution of the works contract, then such value adopted for the purposes of payment of Value Added Tax or sales tax, as the case may be, shall be taken as the value of transfer of property in goods involved in the execution of the said works contract for determining the value of works contract service.

The gross amount shall include and exclude as follows -

- (a) gross amount charged for the works contract shall not include Value Added Tax (VAT) or sales tax, as the case may be, paid, if any, on transfer of property in goods involved in the execution of the said works contract;
- (b) value of works contract service shall include,-
 - (i) labour charges for execution of the works;
 - (ii) amount paid to a sub-contractor for labour and services;
 - (iii) charges for planning, designing and architect's fees;

- (iv) charges for obtaining on hire or otherwise, machinery and tools used for the execution of the works contract;
- (v) cost of consumables such as water, electricity, fuel, used in the execution of the works contract;
- (vi) cost of establishment of the contractor relatable to supply of labour and services;
- (vii) other similar expenses relatable to supply of labour and services; and
- (viii) profit earned by the service provider relatable to supply of labour and services;

In case of works contracts, CBEC has vide Circular No. 150/2012-ST, dated 08.02.2012 clarified that the meaning of the expression 'gross amount' appearing in Rule 3(1) of the Works Contract (Composition Scheme for Payment of Service Tax) Rules, 2007, is qualified by the Explanation inserted in the said Rule with effect from 07/07/2009. Since the Explanation inserted in Rule 3(1) with effect from 07/07/2009 is clarificatory and prospective in nature, inclusion of value of free-of-cost supplies of goods and services in or in relation to the execution of Works Contract [mentioned in the Explanation to Rule 3(1)(a)(i) and (ii)] in the 'gross amount' for the purpose of payment of service tax on works contract under the composition scheme, is a legal requirement, only with effect from 07/07/2009 when the Explanation became a part of Rule 3(1).

The explanation appended to Rule 3(1) with effect from 07/07/2009, categorically says in the proviso that "...nothing contained in this Explanation shall apply to a works contract where the execution under the said contract has commenced or where any payment, except by way of credit or debit to any account, has been made in relation to the said contract on or before the 7th day of July, 2009." Where execution of works contract has commenced prior to 07/07/2009 or where any payment (except payment through credit or debit) has been made towards a works contract prior to 07/07/2009, then in those cases 'gross amount' for the purpose of payment of service tax does not include the value of free of cost supplies.

Notification No 11/2012-ST dated 17.3.2012 as superceded by Notification No. 24/2012-ST, dated 16-6-2012 has completely substituted Rule 2A w.e.f. 1-7-2012. Accordingly, the value of service portion in the execution of works contract shall be redefined as follows -

- (i) As at present, first determination will be the value of service being the total amount charged for the contract reduced by the value of property transferred in goods for State VAT purpose;
- (ii) If value of goods is not intimated to State VAT, the assessee can still calculate the actual value of goods and the same will be relevant to deduce the value of the service involved in the works contract;
- (iii) If the value is not so deduced, and not merely as an option, the value shall be specified percentage of the total value as follows:
 - (a) for original works: 40% of the total amount;
 - (b) for maintenance/repair/reconditioning/restoration servicing : 70% of the total amount
 - (c) other contracts: 60% of the total amount;
 - (d) for contracts involving construction of complex or building for sale where any part of the consideration is received before the completion of the building: 25% of the total amount (deleted by Notification No. 24/2012-ST)

Original works will include all new constructions; all addition/alterations to abandoned or damaged structures on land that are required to make them workable; and all types of additions and alterations to abandoned or damaged structures to make them workable,

The total amount will be gross amount plus the fair market value of any material or services supplied under the same contract or any other contract after deducting amend charged for such goods or services if any and amount of VAT levied thereon.

The input tax credit on goods forming part of the property on which VAT is payable shall not be available as they are not used in the provision of service, which is totally independent of the deemed sale. However taxes paid on capital goods and input services will be available including in respect of (iii.c) above.

The manner for determining the value of service portion of a works contract from the total works contract is given in Rule 2A of the Service Tax (Determination of Value) Rules, 2006. As per sub-rule (i) of the said Rule 2A the value of the service portion in the execution of a works contract is the gross amount charged for the works contract less the value of transfer of property in goods involved in the execution of the said works contract.

Gross amount includes	Gross amount does not include
Labour charges for execution of the works	Value of transfer of property in goods involved in the execution of the said works contract, Note: As per Explanation (c) to the said sub-rule (i), where value added tax or sales tax has been paid or payable on the actual value of property in goods transferred in the execution of the works contract, then such value adopted for the purposes of payment of value added tax or sales tax, shall be taken as the value of property in goods transferred in the execution of the said works contract.
Amount paid to a sub-contractor for labour and services	
Charges for planning, designing and architect's fees	
Charges for obtaining on hire or otherwise, machinery and tools used for the execution of the works contract	
Cost of consumables such as water, electricity, fuel, used in the execution of the works contract	
Cost of establishment of the contractor relatable to supply of labour and services and other similar expenses relatable to supply of labour and services	Value Added Tax (VAT) or sales tax, as the case may be, paid, if any, on transfer of property in goods involved in the execution of the said works contract
Profit earned by the service provider relatable to supply of labour and services	

The manner of arriving at the 'total amount charged' is explained with the help of the following example pertaining to works contract for execution of 'original works'.

S. No.	Particulars	Amount (in ₹)
1	Gross amount received excluding taxes	95,00,000
2	Fair market value of goods supplied by the service receiver excluding taxes	10,00,000
3	Amount charged by service receiver for 2 above	5,00,000
4	Total amount charged (1+2-3)	1,00,00,000
5	Value of service portion (40% of 4 above in case of original works)	40,00,000

When the service provider pays partially or fully for the materials supplied by the service receiver, gross amount charged would inevitably go higher by that much amount.

In term of Notification No. 30/2012-ST dated 20.06.2012 dealing with reverse charge mechanism, it has been provided that in works contract services, where both service provider and service recipient are

the persons liable to pay Service Tax, the service recipient has the option of choosing the valuation method as per choice, independent of valuation method adopted by the service provider.

(B) Determination of Value of Service in relation to Money Changing (Rule 2B)

A Rule 2B was inserted vide Notification No. 2/2011-ST to prescribe the value of services rendered in relation to money changers w.e.f. 1.4.2011. The value shall be as follows:

- (i) The difference between the buying rate or the selling rate, as the case may be, and the RBI reference rate for that currency for that day multiplied by units of currency exchanged;
- (ii) If RBI reference rate is not available the value shall be 1% of the value of money exchanged in Indian rupees;
- (iii) When both the currencies are not Indian rupees, 1% of the lesser of the amounts receivable if the two currencies are converted at RBI reference rate.

Composite rate

The rate of composition under rule 6(7B) of Service Tax Rules, 1994 has been lowered from 0.25% to the following rates of the gross amount of money exchanged. However, the proviso relating to paying tax on billed charges has been deleted. Thus now the assessee will have the option to pay tax @ the following rates of gross amount exchanged or else at standard rate on the value of service in terms of rule 2B, as mentioned above:

- (a) 0.1 per cent (0.12 per cent w.e.f. 1-4-2012) of the gross amount of currency exchanged for an amount upto rupees 100,000, subject to the minimum amount of rupees 25 (₹ 30 w.e.f. 1-4-2012); and
- (b) rupees 100 (₹ 120 w.e.f. 1-4-2012) and 0.05 per cent (0.06 per cent w.e.f. 1-4-2012) of the gross amount of currency exchanged for an amount of rupees exceeding rupees 100,000 and upto rupees 10,00,000; and
- (c) rupees 550 (₹ 660 w.e.f. 1-4-2012) and 0.01 per cent (0.012 per cent w.e.f. 1-4-2012) of the gross amount of currency exchanged for an amount of rupees exceeding 10,00,000, subject to maximum amount of rupees 5000 (₹ 6000 w.e.f. 1-4-2012):

Provided that the person providing the service shall exercise such option for a financial year and such option shall not be withdrawn during the remaining part of that financial year."

Rates/Abatements

S. No.	Classification	Description	Old Rate	New Rate
1	Works contract Service - any work	Composition Scheme	4.12%	4.944% (wef 1.4.2012) [Notification No. 10/2012-ST dated 17/03/2012 w.e.f. 01/04/2012 upto 30.06.2012]
2	Works contract Service -original work without land	As per Valuation Rule 2A	NA	4.944% (40% of 12.36%) w.e.f. 1.7.2012
3	Works Contract service - original work including land	As per Valuation Rule 2A	NA	3.09% (25% of 12.36%) w.e.f. 1.7.2012

4	Works Contract service - Completion and finishing works	As per Valuation Rule 2A	NA	7.416% (60% of 12,36) w.e.f. 1.7.2012
5	Construction of Complex alongwith land	Abatement scheme (Notification No. 26/2012-ST)	2.575% (25% of 10.3%)	3.09% w.e.f. 1.7.2012
6	Construction of Complex without land	Abatement scheme (Notification No. 26/2012-ST)	3.399% (33% of 10.3%)	4.07% w.e.f. 1.7.2012
7	Construction of Complex - Completion and finishing	NA	10.3%	12.36% w.e.f. 1.7.2012

Abatements

Earlier there were a number of exemption notifications that prescribed the abatements for various categories of services. As another measure of simplification now all such abatements for specified category of services have been merged into a single Notification No. 26/2012-ST dated 20/6/2012.

In certain cases, abatements are allowed from value of taxable services in terms of Notification No. 26/2012-ST dated 20.6.2012. W.e.f. 1.7.2012.

(C) Determination of value of taxable service involved in supply of food and drinks in a restaurant or as Outdoor Catering (Rule 2C)

New Rule 2C has been inserted by the Notification No. 11/2012-ST dated 17.3.2012 and superceded by Notification No. 24/2012-ST, dated 6-6-2012 for determination of value of service portion involved in supply of food and drinks in a restaurant or as outdoor catering.

The value is being adjusted such that the industry is able to utilize credit on capital goods, specified inputs (other than chapter 1 to 22 i.e. foods and beverages) and input services. The supply may be of goods being food, other articles of human consumption or any arise (whether or not intoxicating) in any manner. Thus the taxable portion is being raised but the move is expected to be business-friendly.

The revised taxable portion shall be as follows-

S. No	Description of service	Existing taxable portion	Taxable portion w.e.f. 1-7-2012
1.	Service portion in the supply of goods being food or any other article of human consumption or drink (intoxicating or otherwise) at a restaurant	30%	40%
2.	S. No,1 provided from a premises elsewhere (outdoor catering)	50%	60%

Total amount will mean the sum total of the gross amount and the fair market value of all goods and services, excluding the value added tax, if any, levied on goods or services supplied free of cost for use in or in relation to the supply of food or any other article of human consumption or any drink, under the same contract or any other contract as reduced by amount charged for such goods or services and VAT. Where the value of goods or services supplied free of cost is not ascertainable, the same shall be determined on the basis of the fair market value of the goods or services in accordance with generally accepted accounting principles.

Explanation to Rule 2C provides a condition that any goods classifiable under chapter 1 to 22 of the Central Excise Tariff Act, 1985 (5 of 1986) meant for human consumption shall not be considered as "inputs" for the service portion in an activity wherein goods, being food or any other article of human consumption or drink is supplied in any manner as part of the activity."

In terms of article 366(29A) of the Constitution of India supply of any goods, being food or any other article of human consumption or any drink (whether or not intoxicating) in any manner as part of a service for cash, deferred payment or other valuable consideration is deemed to be a sale of such goods. Such a service therefore cannot be treated as service to the extent of the value of goods so supplied. The remaining portion however constitutes a service. It is a well settled position of law, declared by the Supreme Court in BSNL's case [2006(2) STR161(SC)], that such a contract involving service along with supply of such goods can be dissected into a contract of sale of goods and contract of provision of service. Since normally such an activity is in the nature of composite activity, difficulty arises in determining the value of the service portion. In order to ensure transparency and standardization in the manner of determination of the value of such service provided in a restaurant or as outdoor catering a new rule 2C has been inserted in the Service Tax (Determination of Value) Rules, 2006 by the amendment rules of 2012.

Although services provided by any kind of restaurant would be valued in the manner provided in Rule 2C, it may be borne in mind that the following category of restaurants are exempted -

- Services provided in relation to serving of food or beverages by a restaurant, eating joint or a mess, other than those having the facility of air-conditioning or central air-heating in any part of the establishment, at any time during the year, and which has a license to serve alcoholic beverage.
- Below the threshold exemption

Rule 2C applies only in cases of restaurants and outdoor catering. For valuation of service portion where such supplies are made in any other premises like hotel, convention center, club, pandal, shamiana or any place specially arranged for organizing a function an abatement of 30% has been provided for in exemption Notification No. 26/2012-ST dated 20/6/12.

Manner of Determination of Taxable Value (Rule 3)

As per Rule 3, the value of taxable service shall be determined in accordance with Service Tax (Determination of Value) Rules, 2006 except as provided otherwise in the Act. Thus, subject to as provided in the Section 67 of Finance Act, 1994, value of taxable service shall be determined by the rules as under-

- (a) Taxable Value where Consideration is not wholly or partly in Money Under Rule 3, value of taxable service is determined in cases where consideration is not wholly or partly in money terms, i.e., part of it is in cash and part of it is otherwise than for cash. In such cases, value of taxable service shall be equivalent to the gross amount charged by service provider in ordinary course of trade and gross amount charged will be the sole consideration. Notification No. 24/2012-ST, dated 6-6-2012 has substituted the words, 'where such value is not ascertainable' for the words, 'where the consideration received is not wholly or partly consisting of money' w.e.f. 1-7-2012.

While the money consideration would be on actuals and can be determined without any problem, there may be some subjectivity in ascertaining the value where consideration is not in money but in kind of some money equivalent value.

Central Excise Officer shall have powers and right to satisfy himself about the accuracy of information or documents presented for this purpose to him (Rule 4).

- (b) Taxable Value where Consideration is not ascertainable

Under Rule 3, it has been provided that where the taxable services provided are for a consideration

in money term but such consideration or value is not ascertainable, the value of such services shall be determined by service provider as equivalent money value of such consideration which shall in no case be less than the cost of providing such taxable service.

Notification No. 11/2012-ST, dated 17-3-2012 as superceded by Notification No 24/2012-ST, dated 6-6-2012 has amended Rule 3 to provide that it will be applicable only in the cases where valuation is not ascertainable.

Rejection of Value (Rule 4)

Rule (4) provides powers to Central Excise Officer to reject the valuation done under Rule (3) above. Rule (3) shall and does not restrict the powers of Central Excise Officer to question about the accuracy of information furnished on documents presented for valuation. Central Excise Officer shall be empowered to issue a notice to service provider to show cause why the value of taxable service be notified, as specified in notice, where he is satisfied that value so determined by the service receiver under Rule 3 is not in accordance with provisions of Act. He cannot change the valuation unless notice is served on the service provider and show cause opportunity given. After the reasonable opportunity has been given, he can determine the value of taxable service under question for levy of service tax thereon.

The value determined by the service provider under rule 3 for the purpose of payment of service tax should not be less than the cost of provision of such services. However, where there are adequate reasons warranting verification of the value adopted by the service provider for payment of service tax, rule 4(2) specifically enables verification of records in such cases.

The service tax department can, therefore, reject or modify the value determined by the service provider. It may be noted that ----

- (i) The Central Excise Officer is empowered to verify the accuracy of any information furnished or document presented for valuation.
- (ii) If the value adopted by the Service Tax assessee is not acceptable in accordance with the statute, the officer shall issue a show cause notice (SCN) proposing to determine the value as per the law.
- (iii) The SCN would be decided after providing reasonable opportunity of being heard to the assessee.

(D) Inclusion or Exclusion of Certain Expenses/Costs from Value of Taxable Service (Rule 5)

Rule 5 deals with circumstances where certain costs or expenses could be excluded from or added to value of taxable services. It has been provided that all expenses and costs incurred by the service provider for providing the taxable services during the course of such service shall be included as part of value of taxable services. In such cases, there will be no exemption or abatement from service tax in respect of such costs or expenses. For example, cost of consumables, office expenses, telephone expenses, rentals etc. However, where the service provider incurs expenses and cost as a agent of service receiver, i.e., for or on behalf of the service receiver (as a pure agent of the client), such costs or expenses shall be excluded from the value of taxable services. For claiming such costs or expenses to be out of scope of value of service, the service receiver should act as a pure agent or agent of the service receiver.

6.15.6 Pure Agent

A pure agent or agent shall be a person who satisfies the following conditions -

- (a) enters into a contractual agreement with his client (recipient of service) to act as an agent of the client to incur expenditure or costs in the course of providing a taxable service;
- (b) neither intends nor holds any title to the goods or services so provided as an agent of the client;
- (c) never uses such goods or services provided; and
- (d) receives the actual amount incurred to procure such goods or services.

Following conditions must be satisfied in respect of certain expenses or costs for exclusion from the value of taxable service -

- (i) the service provider acts as an agent of the recipient of service when he makes payment to the third party for the goods or services procured;
- (ii) the recipient of service receives and uses the goods or services so procured by the service provider as an agent of the recipient of service;
- (iii) the recipient of service is liable for making payment to the third party;
- (iv) the recipient of service authorises the service provider to make the payment on his behalf;
- (v) the recipient of service knows that the goods and services for which payment has been made by the service provider shall be provided by a third party;
- (vi) the service provider's payment on the service recipient's behalf is indicated separately when he invoices the recipient of service;
- (vii) the service provider recovers from recipient of service only the actual amount he has paid to the third party; and
- (viii) the goods or services procured by service provider from third party as a pure agent of recipient of service are in addition to the services he provides on his own account.

The rules explain the aforesaid exclusion/inclusion test by way of following illustrations-

Illustration 1.

X contracts with Y, a real estate agent to sell his house and thereupon Y gives an advertisement in newspaper. Y billed X including charges for newspaper advertisement and paid service tax on the total consideration billed. In such a case, consideration for the service provided is what X pays to Y. X cannot contend that Y acted as agents on his behalf when obtaining newspaper advertisement even if the cost of newspaper advertisement is mentioned separately in the bill. Such services are in the nature of input services for the estate agent in order to enable or facilitate him to perform his services as an estate agent.

Illustration 2.

To provide a taxable service, a service provider incurs costs such as travelling expenses, postage, telephone, etc., in the course of providing a taxable service and may indicate these items separately on the invoice to the recipient of service. In such a case, the service provider is not acting as an agent of the recipient of service but procure the inputs or input service on his own account for providing the taxable service. Merely because such expenses are shown separately in an invoice do not mean that they are reimbursable expenditure.

Illustration 3.

A contracts with B, an architect for building a house. During the course of providing the taxable service B incurs expenses such as telephone charges, air travel tickets, hotel accommodation, etc., to enable him effectively to perform the provision of services to A. In such a case, in whatever form B recovers such expenditure from A, whether as a separately itemised expense or as part of an inclusive overall fee, service tax is payable on the total amount charged by B. It is quite immaterial how the service provider computes the charges or how they break their invoice or bill down. Consideration for the service is what A pays B which is the taxable value for the purposes of levy of service tax.

Illustration 4.

To provide a taxable service of rent-a-cab, company X provides chauffeurs for overseas visitors. The chauffeur is given a lump sum amount during the tour to cover his food and overnight accommodation and any other incidental expenses such as parking fees. At the end of the tour, he returned the balance of the amount with a statement of his expenses and the relevant bills. Company X charged

these amounts from the recipients of service. In such a case, the cost incurred by the chauffeur and billed to the recipient of service constituted part of the consideration for the provision of services by the company.

An explanation has been added after rule 5(1) of the Service Tax (Determination of Value) Rules, 2006 clarifying that for the purpose of telecommunication service [Section 65(105)(zzzx)] the value shall be the gross amount paid by the person to whom the service is provided by the telegraph authority. Thus, in case of service provided by way of recharge coupons or prepaid cards or the like, the value shall be the gross amount charged from the subscriber or the ultimate user of the service and not the amount paid by the distributor or any such intermediary to the telegraph authority. This amendment shall come into force on 1.3.2011. Vide Notification No. 24/2012-ST, dated 6-6-2012, it has been provided that w.e.f. 1-7-2012, value of telecommunication services shall be the gross amount paid by the person to whom telecommunication service is actually provided.

On reimbursable expenditure, it has been clarified by CBEC vide Letter No. B1/4/2006 dated 19.4.2006 as under -

Value for the purpose of charging service tax is the gross amount received as consideration for provision of service. All expenditures or costs incurred by the service provider in the course of providing a taxable service forms integral part of the taxable value and are includable in the value. It is not relevant that various expenditure or costs are separately indicated in the invoice or bill issued by the service provider to his client.

The service provider in the course of providing any taxable service may incur certain expenditure or cost as a pure agent of the client. The service provider seeks to exclude such expenditure or cost incurred by him as a pure agent of his client (generally known as reimbursable expenditure) from the value of the taxable services.

There could be situations where the client of the service provider specifically engages the service provider, as his agent, to contract with the third party for supply of any goods or services on his behalf. In those cases such goods or services so procured are treated as supplied to the client rather than to the contracting agent. The service provider in such cases incurs the expenditure purely on behalf of his client in his capacity as agent of the client. Amounts paid to the third party by the service provider as a pure agent of his client can be treated as reimbursable expenditure and not includible in the taxable value. However, if the service provider acts as an undisclosed agent i.e. acting in his own name without disclosing that he is actually acting as an agent of his client, he cannot claim the expenditure incurred by him as reimbursable expenditure. Whether the expenditure or cost incurred by the service provider in his capacity as a pure agent of the client or incurred on his own account is a question of fact and law and is to be determined carefully.

Indication of different elements of the transaction in the invoice or bill could often be misleading. One has to carefully examine the exact legal nature of the transactions and other material facts before taking a view as to whether or not the expenditure sought to be excluded from the value is reimbursable expenditure. Not only the form, but also the substance of the transaction should be duly taken into account.

Rule 5 pertains to reimbursable expenditure incurred by the service provider as a pure agent of his client. Explanation (1) to rule 5(2) clearly specifies the criteria to decide whether the service provider acts as a pure agent or not in a given situation. In the case of agency function, the agent neither intends to hold nor holds any title to the goods or services and also never uses such goods or services so procured. It is also important to note that the service provider only receives the actual amount incurred to procure such goods or services.

The service provider who seeks to claim exclusion of certain value from the taxable value should also fulfill all the conditions specified in rule 5(2).

In *Rolex Logistics Pvt. Ltd vs. CST Bangalore* (2009) 13 STR 1471; (2009) 20 STT 431 (CESTAT, Bangalore), it was held that reimbursement of expresses are not for services rendered but expenditure incurred on behalf of client by service provider. Gross amount for service rendered means only for services rendered. It also interpreted 'reimbursement' as payments made on behalf of service recipient by service provider in the course of rendering services. The gross receipt for the services rendered means only for the services rendered.

It held as follows;

What is a reimbursement? When a service provider provides service to a service receiver or a client, on behalf of his client he incurs various expenditure and these expenditure are all for different purposes. The Service Tax liability in terms of Section 67 is only on the gross amount received towards the services rendered. If the service provider in the course of rendering service has to make certain payments on behalf of the service receiver, they are known as reimbursements. The reimbursements are actually not towards the service rendered but they are only towards other expenditure incurred on behalf of the client by the service provider. Normally, the service provider incurs these expenditures in the interest of quicker service. Suppose the service provider has to first receive the money and then render the service, it would cause lot of delay. Therefore, while providing service to the client, the service provider has to incur various expenditure in order to save time and avoid delay, hence, the expenditure is incurred by the service provider and later these are reimbursed by the client. In fact, the client is supposed to pay all these amounts. For example, take the case of a Custom House Agent in the course of clearance of the goods, the importer may have to incur different expenditures towards the port, stevedoring clearances, stationery, all that. These expenditures are actually to be paid by the importer but the CHA initially incurs all these expenditure and then later collects from the client. These are reimbursements. So what is to be borne in mind is that these reimbursements are not for the services rendered. The gross receipt for the services rendered means only for the services rendered. The amount of money received only for the services rendered not for all the other expenditure which is to be incurred normally by the client."

The above judgment clearly specifies the reimbursements that can be excluded from the taxable value by citing of the example of CHA who incurs expenses such as port charges, customs duties on importation, demurrage charges payable to the wharf etc., actually payable by the client but incurred on behalf of the latter, which were reimbursed on actual basis, and qualify for abatement from the taxable value of CHA which includes his charges for clearing the goods from the customs and the above analogy also holds good for 'pure agent' of the Valuation Rules, as these expenses are not related to the service rendered at all.

The Apex Court in the case of *All India Federation of Tax Practitioners v. Union of India* [2007] 10 STT 166 held that service tax is destination based consumption tax and that may be either performance based or property based. Economic services are provided for valuable consideration without being rendered charitable. No service which is uneconomical or commercially unviable is provided in the commercial world. Various elements of cost contribute to the provision of economic services. Expenses which are indispensable and inevitably incurred to make the economic service performable that contribute to the gross value of service. The provider of economic service recovers his entire cost involved in providing such service in the best possible manner that may be viable to him and the service recipient.

In *Intercontinental Conslt. & Tech. Pvt. Ltd. v Union of India* (2008) 12 S.T.R. 689 (Delhi), it was held by high court that the demand on reimbursement of expenses like air travel, hotel stay, room rent, boarding and lodging charges etc. after including such amounts in taxable value in case of consulting engineer's services can not be coerced. The petitioner contended that reimbursable expenses were not forming part of services and such amounts were also indicated separately in bills. It was held that while proceedings pursuant to SCN may continue, coercive steps need not to be taken till passing of adjudication order.

In *Scott Wilson Kirkpatrick (I) Ltd. vs. Commissioner of Service Tax*, (2007) 5 STR 118 (CESTAT, Bangalore), it was held that reimbursable expenses were not subject to service tax at the relevant time.

In *Sri Bhagavathy Traders v CCE* (2011) 24 S.T.R. 290 (CESTAT - LB, Bangalore), it was held that reimbursement arises only when person actually paying under no obligation to pay and pays amount on behalf of buyer while recovering same from buyers. Only when service recipient is having obligation, legal or contractual to pay certain amount to any third party and said amount is paid by service provider on behalf of service recipient, question of reimbursing expenses arises.

Reimbursement of expenses has been a contentious issue and actual reimbursements of expenses is not subject to levy of Service Tax; more so when these reimbursements can be substantiated by evidence. Reference can be made to following judicial pronouncements -

- (i) *Alathur Agencies vs. CCE & C* (2007) 8 STT 204 (CESTAT, Bangalore)
- (ii) *Nandini Warehousing Corporation vs. CCE* (2008) 12 STT 120 (CESTAT, Bangalore)
- (iii) *Hassan Hajee & Co vs. CCE* (2007) 5 STR 397 (CESTAT, Bangalore)
- (iv) *M.P.R. Mercantile Syndicate vs. CCE, Cochin* (2011) 22 STR 443 (CESTAT, Bangalore).
- (v) *Sri Sastha Agencies Pvt. Ltd. vs. Asst. Commr. of C.Ex & Cus. Palakkad* [2007 (6) STR 185 (CESTAT, Bangalore)]
- (vi) *Bhagyanagar Services vs. CCE, Hyderabad* [2006 (4) STR 22 (CESTAT, Bangalore.)]
- (vii) *CCE, C & ST, BBSR-I vs. M/s. Nilaihita Enterprises* [2007 (6) STR 318 (CESTAT, Kolkata)]
- (viii) *Sangamitra Services Agency vs. CCE, Chennai* [2007 (8) STR 233 (CESTAT, Chennai)]
- (ix) *Apco Agencies vs. CCE*, (2008) 10 STR 169 (CESTAT, Bangalore).
- (x) *S & K Enterprises vs. CCE* (2008) 10 STR 171 (CESTAT, Bangalore).
- (xi) *E.V. Mathai & Co. vs. CCE* (2006) 3 STR 116 (CESTAT, Bangalore).
- (xii) *Keralam Enterprises vs. CCE* (2008) 9 STR 503 (CESTAT, Bangalore).
- (xiii) *M/s U.M. Thariath & Company, M/s S.J.C. Pharma vs. CCE. Cochin* [2007 (8) STR 161 (CESTAT, Bangalore)]
- (xiv) *Al -Baith Steel Pvt. Ltd. vs. CCE* (2008) 10 STR 554 (CESTAT, Bangalore).
- (xv) *Jayalaxmi Enterprises vs. CCE Mangalore* [2008 (9) STR 19 (CESTAT, Bangalore)]
- (xvi) *M/s. B.S. Refrigeration Ltd. vs. CST, Bangalore* [2006 (4) S.T.R. 103 (CESTAT, Bangalore)]
- (xvii) *Rolex Logistics Pvt. Ltd. vs. CST* (2009) 13 STR 147 (CESTAT, Bangalore).
- (xviii) *K.D. Sales Corporation vs. CCE, Belgaum* [2007 (6) STR 418 (CESTAT, Bangalore)]

However, on the other hand, in the following cases, Tribunals have held that the reimbursement charges to be included in gross value of the taxable services rendered :

Sl. No.	Citation	Decision
1.	<i>Kirloskar Pneumatics Co. Ltd vs. CCE</i> 2011 (23) S.T.R. 161 (Cestat - Mumbai)	It was held that the reimbursement of the expenses incurred by service provider in connection with the services provided - Such recoveries were made under statutory invoices issued to the customers, but Service tax was not paid on expenses reimbursed by the customers - Prima facie entire amount collected by appellant from their customers would constitute gross taxable value for the purpose of payment of Service tax.
2.	<i>Naresh Kumar & Co. Pvt. Ltd. vs. CST</i> (2008) 11 S.T.R. 578 (Cestat - Kolkata)	It was held if an expenditure is indispensable and inevitably incurred to provide a service, such cost should essentially form part of cost of service itself and shall contribute to value of taxable service.

Thus, it is seen that the Tribunals have differed in their pronouncements on the same issue of the taxability of reimbursement of expenses and the matter referred to larger bench.

In *Harveen & Co vs. CCE, Chandigarh* (2012) 26 STR 14 (CESTAT, Delhi), in a case relating to clearing and forwarding agency, it was held that expenses of dispatch inspection, octroi and detention charges are not towards any activity that would constitute service rendered by assessee. Clerkage and office telephone expenses even if billed separately to client can not be considered reimbursable expenses. In case of godown rent, if it is for discharging obligation under a contract, rent would form part of taxable value even if it is reimbursed separately by client,

6.15.7 Inclusion/Exclusion of Commission, Costs etc. in Value (Rule 6)

Rule 6 as amended by Notification No. 24/2012-ST, dated 20-6-2012, deals with cases in which the commission, costs etc. shall be excluded from or included in the value of taxable services. The Rule 6 would operate subject to provisions of Section 67.

The value of taxable services shall include the following -

- (i) the aggregate of commission or brokerage charged by a broker on the sale or purchase of securities including the commission or brokerage paid by the stock-broker to any sub-broker;
- (ii) the adjustments made by the telegraph authority from any deposits made by the subscriber at the time of application for telephone connection or pager or facsimile or telegraph or telex or for leased circuit;
- (iii) the amount of premium charged by the insurer from the policy holder,
- (iv) the commission received by the air travel agent from the airline;
- (v) the commission, fee or any other sum received by an actuary, or intermediary or insurance intermediary or insurance agent from the insurer;
- (vi) the reimbursement received by the authorised service station, from manufacturer for carrying out any service of any motor car, light motor vehicle or two wheeled motor vehicle manufactured by such manufacturer;
- (vii) the commission or any amount received by the rail travel agent from the Railways or the customer;
- (viii) the remuneration or commission, by whatever name called, paid to such agent by the client engaging such agent for the services provided by a clearing and forwarding agent to a client rendering services of clearing and forwarding operations in any manner;
- (ix) the commission, fee or any other sum, by whatever name called, paid to such agent by the insurer appointing such agent in relation to insurance auxiliary services provided by an insurance agent, and

The amount realised as demurrage or by any other name whatever called for the provision of service beyond the period originally contracted or in any other manner relatable to the provision of service.

The value of taxable services shall exclude the following --

- (i) initial deposit made by the subscriber at the time of application for telephone connection or pager or facsimile (FAX) or telegraph or telex or for leased circuit;
- (ii) the airfare collected by air travel agent in respect of service provided by him;
- (iii) the rail fare collected by rail travel agent in respect of service provided by him;
- (iv) interest on loans. [Interest on delayed payment of any consideration for the provision of services or sale of property whether movable or immovable as amended by Notification No. 11/2012-ST, dated 17-3-2012 and superceded by Notification No. 24/2012-ST dated 6-6-2012 w.e.f. 1-7-2012.]

- (v) the taxes levied by any government on any passenger travelling by air, if shown separately on the ticket, or invoice for such ticket issued to the passenger, and [inserted w.e.f. 27.2.2010 by Notification No. 15/2010- ST dated 27.2.2010].
- (vi) accidental damages due to unforeseen action not relatable to the provisions of service [inserted w.e.f. notified date by Notification No 11/2012-ST dated 17.3.2012].
- (vii) subsidies and grants disbursed by the Government, not directly affecting the value of service [amended by Notification No. 24/2012-ST dated 6-6-2012 w.e.f. 1-7-2012].

The exclusion entry related to accidental damages due to unforeseen actions not relatable to the provisions of service has been inserted vide the Serviced Tax (Determination of Value) Second Amendment Rules, 2012. In terms of this exclusion accidental damages are not to be included in the value of service provided the following two conditions are specified:

- The damages are due to unforeseen actions.
- The damages are not related to provisions of service.

Illustration 5.

- Insurance Companies provide insurance services to the clients for which the premium is charged. The premium charged is a consideration for the insurance service provided. However, in case due to an unforeseen action, like an accident etc., a compensation is paid by the insurance company to the client then the money would not be included as part of value of taxable service as it is not relatable to the provisions of service but is only in the nature of consequence of provisions of insurance service.
- In case a landlord who has rented out his office building to a tenant receives compensation from the tenant for the damage caused to the building by an unforeseen action then such compensation would not form part of the value of taxable service related to tenant of his building as an unforeseen damage caused by the tenant is not relatable to provision of service of renting of the office building.

The exclusion entry relating to subsidies and grants disbursed by the Government, not in the nature of directly influencing the value of service has also been inserted by the Service Tax (Determination of Value) Second Amendment Rules, 2012. A subsidy influences the price directly when the price goes down proportionately to the amount of subsidy. In terms of this exclusion any subsidy or grant disbursed by the Government cannot form part of the value of taxable service unless such subsidy or grant directly influences the value of such service.

In *Keeping Newcastle Warm Ltd. (2012) 36 STT 702 (ECJ)*, where assessee received energy advice grants for providing energy advice, it was held by the European Court of Justice that energy advice grants paid by the public authority constituted a subsidy.

Since taxable amount comprises of everything which makes up consideration for service, every advice grants were received by assessee in consideration for service provided by the assessee and hence taxable.

In *Office Des Products Walloons ASBL v. Belgian State (2012) 36 STT 683 STT (ECJ)*, it was held that operating subsidies covering a part of running costs always affect the cost price of the goods and services supplied by the subsidised body. However, the mere fact that a subsidy may affect the price of the goods or services supplied by the subsidised body is not enough to make that subsidy taxable. For the subsidy to be directly linked to the price of such supplies, it is also necessary that it be paid specifically to the subsidised body to enable it to provide particular goods or services. Only in that case, the subsidy can be regarded as consideration for the supply of goods or services, and therefore be taxable.

Subsidy is identifiable only if there is significant relation between price and subsidy. In order to determine whether the consideration represented by the subsidy is identifiable, the Court may either compare the price at which the goods are sold in relation to their normal cost price, or examine whether the amount of the subsidy has been reduced once those goods are no longer produced. If the factors examined are significant, it must be concluded that the part of the subsidy allocated to the production and sale of the goods in question constitutes a subsidy directly linked to the price. In that regard, it is not necessary for the subsidy to correspond exactly to the diminution in the price of the goods supplied, it being sufficient if the relationship between the diminution in price and the subsidy, which may be at a flat rate, is significant.

6.15.8 Value of Taxable Service to be the Actual Consideration where Services provided from outside India (Rule 7)

According to Rule 7, in cases where the taxable services are provided by person from outside India in India (Section 66A cases), the value of taxable services received shall be taken at such amount as is equal to the actual consideration charged for the services so provided or to be provided. This could, therefore, be taken as actual remittance made to service provider abroad.

In case of services partly performed in India, the value of taxable services shall be the total consideration paid by the recipient for such services including the value of service partly performed outside India.

Rule 7 stands omitted by Notification No. 11/2012-ST, dated 17-3-2012 and as superceded by Notification No. 24/2012-ST, dated 6-6-2012 w.e.f. 1-7-2012.

6.15.9 Adjudication

No forms have been prescribed for seeking determination of value of taxable services and it is expected that in case of difference of amount between the value of taxable service as determined by the service provider and that as per the opinion of Central Excise Officer, the matter could be decided by way of adjudication by giving a show cause notice and an opportunity of being heard.

If the assessee does not agree with the valuation, he may also prefer an appeal.

Withdrawal of Circulars on Valuation

Consequent upon notification of Service Tax (Determination of Value) Rules, 2006, all circulars on valuation of taxable services or portions thereof, which are inconsistent with the new valuation rules have been withdrawn B1/4/2006 dated 19-4-2006. These same has been retriated vide Circular No. 93/04/2007, dated 10-5-2007.

6.15.10 Value of Director's Services

So far as payment to Directors towards their services is concerned, value of services shall include -

- Director's fee, by whatever name called
- Commission based on profits or otherwise
- Bonus
- Value of service for company car provided
- Share in profit
- Benefit in form of ESOPs etc.
- Travel reimbursements.

However, reimbursement of expenses in terms of contractual obligations may not be taxable if they fall within the scope of 'reimbursements' and 'pure agents' as per Service Tax (Determination of Value) Rules, 2005.

The following amounts received by the directors from the company will not attract Service Tax as such amounts does not represent service provided by directors-

- (i) interest on loan by director to company
- (ii) dividend on shares
- (iii) other professional charges on account of services not rendered as a director (in professional capacity)

On reimbursement of expenses incurred by the director being liable to Service Tax, it may be noted that directors are considered to be agent of the company and as such expenses are reimbursed to them as an agent. Moreover, taxability shall be subject to the valuation rules and criteria of 'pure agency' shall have to be satisfied.

On whether sitting fee paid to directors for attending board meetings only are taxable or any amount paid as fees whether for board meetings or committee meetings will be taxable, it may be noted that all amounts paid as remuneration except salary to directors shall be liable to Service Tax, whether for attending board meetings or committee meetings or for any other service rendered in the capacity of a director. If an employed director gets sitting fee for attending the meeting, it may be liable to Service Tax as Department is likely to view it that way. There is need for clarification on this issue.

Since there is a monetary limit on payment of remuneration to directors beyond which it requires approval of the Central Government u/s 309 or 310 of the Companies Act, 1956, there is doubt that whether Service Tax paid by the company under reverse charge shall be deemed to be a part of such remuneration. Under the scheme of Service Tax, though taxable services are rendered by the directors, the burden of payment of Service Tax has been shifted on the companies on whose board, such directors serve. In certain cases which are already at the top of the ceiling, payment of Service Tax by company will result in exceeding the monetary limit of 1 per cent or 3 per cent of net profit, as the case may be. Ministry of Corporate Affairs (MCA) has vide General Circular No. 24/2012 dated 9.8.2012 clarified that for the financial year 2012-13, any increase in remuneration solely as a result of application of Service Tax on commission shall not require Central Government's approval (though deemed to be a part of remuneration as per income Tax) u/s 309 or 310 of the Companies Act, 1956. It may be noted that this relaxation is only for the financial year 2012-13 and only applies to non-whole time director's remuneration.

In case of any remuneration, by whatever name called, accruing to persons employed by the company as managing director or whole time directors, entire gross amount shall not be taxable as it is earned in the course of employment and is not covered within the scope of service at all. If the service itself is not taxable, there is no question of Service Tax being payable on the remuneration which is a part of contract of employment. On the other hand, even if the remuneration is termed as salary for a part-time/non-official/ independent director, it shall be subject to levy of Service Tax.

6.5.11 Service Tax and TDS

Service tax is payable on gross amount payable to service provider. Since TDS is deducted on behalf of the payee, gross amount for the purpose of service tax would be the amount inclusive of or before deduction of TDS.

On TDS on payments made to service providers, CBDT vide Letter No F. No. 275/1/2006-IT (B) dated 21.7.2006 addressed to CIT, Mumbai clarified that tax deduction u/s 194-J of Income Tax Act 1961 would be required to be made on the sums payable by the deductors inclusive of any service tax.

So far as TDS on rent is concerned, CBDT has clarified vide Circular No. 4 dated 28.4.2008 that service tax paid by the tenant does not partake of the nature of income of landlord. The landlord only acts as a collection agency for the Government for collection of service tax. Therefore, TDS under section 194-J of the Income Tax Act, 1961 would be required to be made on the amount of rent paid or payable without including the service tax.

In CCE, Jaipur I vs. Louis Berger International Inc. (2009) 13 STR 381; (2008) 18 STT 312 (CESTAT, New Delhi), it was held that amount of tax deducted at source (TDS) is not excludible from gross amount for determining tax liability. The TDS amount deducted was payable only on behalf of the appellant to income tax department and there was no justification to exclude TDS amount from gross amount for the purpose of determining service tax liability.

Example 45: US\$1000 are sold by a customer at the rate of ₹ 45 per US\$.

RBI reference rate for US\$ is ₹ 45.50 at that time.	₹
RBI reference rate for US\$ at that time	= 45.50
Less: selling rate by a customer	= 45.00
Difference (irrespective of Plus or Minus)	= 0.50
The taxable value	= ₹ 500 (i.e. US\$1000 x Re. 0.50)
Service Tax (Standard Rate)	= ₹ 60 (i.e. ₹ 500 x 12%)

Note: Service tax is subject to 2% and 1% Education and SAH Education Cess.

Example 46: INR70000 is changed into Great Britain Pound (GBP) and the exchange rate offered is ₹70, thereby giving GBP 1000.

RBI reference rate for that currency at that time for GBP is ₹ 69.

	₹
RBI reference rate for GBP at that time	= 69.00
Less: Buying rate by a customer	= 70.00
Difference (irrespective of Plus or Minus)	= 1.00
The taxable value	= ₹ 1000.00 (i.e. GBP1 000 x Re. 1.00)
Service Tax (Standard Rate)	= ₹ 120.00 (i.e. ₹ 1000 x 12%)

Note: Service tax is subject to 2% and 1% Education and SAH Education Cess.

- (ii) In case where the RBI reference rate for a currency is not available, the value shall be 1% of the gross amount of Indian Rupees provided or received, by the person changing the money.

Example 47: INR 70,000 is changed into Great Britain Pound (GBP) and the exchange rate offered is ₹70, thereby giving GBP 1000.

RBI reference rate for that currency at that time for GBP is not available.

The taxable value	= ₹ 700 (i.e. GBP1000 x ₹ 70 x 1%)
Service Tax (Standard Rate)	= ₹ 84 (i.e. ₹ 700 x 12%)

Note: (i) Service tax is subject to 2% and 1% Education and SAH Education Cess.

- (ii) In case both the currencies are not Indian rupees, @1% of the lesser of the amounts received if the two currencies are converted at RBI reference rate.

Example 48: US\$ 1,000 is changed into UK £ 571 .4286 (i.e. 1 UK POUND = US\$ 1.75).

RBI reference rate for that currency at that time for 1 US\$ is ₹ 45 and for 1 UK POUND = ₹ 85

Particulars	Value in ₹	Remarks
US Dollars converted into RBI reference rate at that time of exchange	45,000	USD 1000 x ₹ 45
UK Pounds converted into RBI reference rate at that time of exchange	48,571	UK £ 571.4286 x ₹ 85

The lower of the above two currencies at RBI reference rate is ₹ 45,000. Therefore, the taxable value is ₹ 450 (i.e. ₹ 45,000 x 1%)

Service Tax (Standard Rate) = ₹ 54 (i.e. ₹ 450 x 12%)

Note: Service tax is subject to 2% and 1% Education and SAH Education Cess

Example 49: Food King Pvt. Ltd. Supplies foods and beverages only.

- (i) at a restaurant for ₹ 11,250 (inclusive of VAT ₹ 1,250) located at Mylapore, Chennai and
- (ii) Supplied food to Infosys company for ₹ 22,500 (including of VAT ₹ 2,500). Find service tax liability?

Answer:

	₹
(i) Value of service = 10,000 x 40%	= 4,000 (i.e. restaurant services)
(ii) Value of service = 20,000 x 60%	= 12,000 (i.e. outdoor catering services)
Total value of services	= 16,000
Service Tax 12.36% on ₹ 16,000	= 1,978

Example 50: Reimbursement expenses can be viewed as

Octroi or entry tax paid by carriage and freight forwarding agent on behalf of owner of goods, Customs duty by customs house agent on behalf of client, Advertisement charges paid by an advertising agency to newspaper on behalf of clients, Ticket charges paid by Travel Agent and recovered from his customer.

Example 51: X contracts with Y, a real estate agent to sell his house and thereupon Y gives an advertisement on television. Y billed X including charges for Television advertisement and paid service tax on the total consideration billed. In such a case, consideration for the service provided is what X pays to Y. Y does not act as an agent on behalf of X when obtaining the television advertisement even if the cost of television advertisement is mentioned separately in the invoice issued by Y. Advertising service is an input service for the estate agent in order to enable or facilitate him to perform his services as an estate agent.

Example 52: In the course of providing a taxable service, a service provider incurs costs such as traveling expenses, postage, telephone, etc., and may indicate these items separately on the invoice issued to the recipient of service. In such a case, the service provider is not acting as an agent of the recipient of service but procures such inputs or input service on his own account for providing the taxable service. Such expenses do not become reimbursable expenditure merely because they are indicated separately in the invoice issued by the service provider to the recipient of service.

Example 53: A contract with B, an architect, for building a house. During the course of providing the taxable service, B incurs expenses such as telephone charges, air travel tickets, hotel accommodation, etc., to enable him to effectively perform the provision of services to A. In such a case, in whatever form B recovers such expenditure from A, whether as a separately itemized expense or as part of an inclusive overall fee, service tax is payable on the total amount charged by B. Value of the taxable service for charging service tax is what A pays to B.

Example 54: Company X provides a taxable service of rent-a-cab by providing chauffeur-driven cars for overseas visitors. The chauffeur is given a lump sum amount to cover his food and overnight accommodation and any other incidental expenses such as parking fees by the Company X during the tour. At the end of the tour, the chauffeur returns the balance of the amount with a statement of his expenses and the relevant bills. Company X charges these amounts from the recipients of service. The cost incurred by the chauffeur and billed to the recipient of service constitutes part of gross amount charged for the provision of services by the company X. This sum is subject to service tax.

Example 55: In respect of delay payment charges recovered by the service provider is includable in the value of taxable service?

Answer: vide CBEC LETTER 137/25/2011 dt.3.8.2011, it is clarified in the following manner:

“SECTION 67A: Date of determination of rate of tax, value of taxable service and rate of exchange —The rate of service tax, value of a taxable service and rate of exchange, if any, shall be the rate of service tax or value of a taxable service or rate of exchange, as the case may be, in force or as applicable at the time when the taxable service has been provided or agreed to be provided.

6.16 IMPORTANT ISSUES UNDER SERVICE TAX PROVISIONS

6.16.1 There is no Service Tax on free services. This is because there is no consideration involved in rendering the free service. However the service tax department is likely to verify whether the services were in fact rendered free.

6.16.2 If the service provider received an amount from service receiver indirectly in addition to receiving the value of services, such receipt is not subject to Service Tax.

Example 56: A mandap keeper lets out his premises to a contractor at market rates. The contractor then gave donation of ₹ 20 lakhs to the mandap keeper as contribution to corpus of the mandap. This amount was not in relation to service of mandap provided by mandap keeper and hence will not attract service tax. *CKP Mandal v CCE (2006) (Bom. HC).*

However, in the above instance if the market rate is say ₹ 5 lakhs and the service has been offered at ₹ 2 lakhs, the difference between ₹ 5 lakhs and ₹ 2 lakhs namely ₹ 3 lakhs will suffer service tax and the balance namely ₹ 20 lakhs less ₹ 3 lakhs will not suffer service tax. This is laid out in Service Tax (Determination of Value) Rules, 2006 which says that if any amount is received indirectly as part of consideration for the services rendered then such indirect consideration will form part of the value of taxable services.

6.16.3 Option to pay an amount in case of lottery service under section 65(105) (zzzzn):

The distributor or selling agent is liable to pay service tax for the taxable service of promotion, marketing, organizing or any other manner assisting in organizing lottery.

As per Rule 6(7C) of the Service Tax Rules, 1994 the distributor or selling agent shall have the option to pay an amount at the rate specified below instead of paying service tax w.e.f 1-4-2012 (vide NT 3/2012-ST DT. 17.3.2012)).

S.No.	Rate	Condition
i	₹ 7,000 on every ₹ 10 lakh (or part of ₹ 10 lakh) of aggregate face value of lottery tickets printed by the organizing State for a draw	If the lottery or lottery scheme is one where the guaranteed prize payout is more than 80%.
ii	₹ 11,000 on every ₹ 10 lakh (or part of ₹ 10 lakh) of aggregate face value of lottery tickets printed by the organizing State for a draw	If the lottery or lottery scheme is one where the guaranteed prize payout is less than 80%.

Provided that in case of online lottery, the aggregate face value of lottery tickets for the purpose of this sub-rule shall be taken as the aggregate value of tickets sold, and service tax shall be calculated in the manner specified in the said Table.

Provided further that the distributor or selling agent shall exercise such option within a period of one month of the beginning of each financial year and such option shall not be withdrawn during the remaining part of the financial year.

Provided also that the distributor or selling agent shall exercise such option for financial year 2010-11, within a period of one month of the publication of this sub-rule in the Official Gazette or, in the case of new service provider, within one month of providing of service under the said sub-clause and such option shall not be withdrawn during the remaining part of that financial year.

Terms	Meanings	Examples
Face value	The amount mentioned on the lottery ticket.	 Face value of ₹ 10 per ticket
Aggregate face value	For printed tickets: Face value of ticket x No. of lottery tickets printed. For online tickets: Face value of ticket x No. of lottery tickets sold	 2,50,000 tickets printed x ₹ 10 = ₹ 25 lacs 2,00,000 tickets sold x ₹ 10 = ₹ 20 lacs
Guaranteed prize payout	the aggregate prize money distributed to all winners	Let us say ₹ 15 lacs in case of printed tickets out of ₹ 25 lacs. (i.e. 60%)

Example 57: M/s Martin Pvt. Ltd. is a distributor or selling agent authorized by a State in India. Following is the details of lotteries of a distributor to be organized by the State.

Particulars	Lakhpati (Printed)	Crorepati (Online)
No. of tickets proposed	2,50,000	3,00,000
Face value of ticket	₹ 10 each	₹ 500 each
Guaranteed prize payout	@60%	@90%
No. of tickets sold	2,00,000	2,35,000

Calculate the service tax under composition scheme as per Rule 6(7C) of the Service Tax Rules, 1994.

Answer:

Lakhpati lottery tickets - Printed

No. of tickets proposed	2,50,000 tickets
Face value of ticket	₹ 10 each
Total face value	₹ 25,00,000
Guaranteed prize payout	@60%
Multiples of TEN lakhs or part of TEN lakhs	3 (i.e. ₹ 25,00,000/₹ 10,00,000)
Service tax payable for every ₹ 10 lakhs or part thereof	₹ 11,000
Total Service tax (subject to Cess)	33,000 (i.e. 3 x ₹ 11,000)

Crorepati lottery tickets –Online

No. of tickets sold	2,35,000 tickets
Face value of ticket	₹ 500 each
Total face value	₹ 11,75,00,000
Guaranteed prize payout	@90%
Multiples of TEN lakhs or part of TEN lakhs	118 (i.e. ₹ 11,75,00,000/₹ 10,00,000)
Service tax payable for every ₹ 10 lakhs or part thereof	₹ 7,000
Total Service tax (subject to Cess)	₹ 8,26,000 (i.e. 118 x ₹ 7,000)

Total service tax liability payable by M/s Martin Pvt. Ltd.

Particulars	Amount in ₹
Lakhpati lottery tickets - Printed	33,000
Crorepati lottery tickets – Online	8,26,000
Sub-total	8,59,000
Add: Education cess @2%	17,180
Add: Secondary and Higher Education cess @1%	8,590
Total service tax liability	8,84,770

6.16.4 Persons marking the lottery tickets are exempt from service tax (vide Notification No. 50/2010-ST, dated. 08-10-2010):

The Central Government, exempts persons marketing the lottery tickets (hereinafter referred to as 'such person'), other than the distributors or selling agents appointed or authorized by the lottery organising State (hereinafter referred to as 'such distributor or selling agent'), from the whole of service tax leviable thereon on the value of taxable service of marketing of lottery, if the optional composition scheme under sub-rule (7C) of rule 6 of Service Tax (2nd Amendment) Rules, 2010 dated 8th October 2010 is availed of by such distributor or selling agent, in respect of such lottery during the financial year.

Provided that if such person also markets lottery tickets for distributors or selling agents who have not so opted, then nothing contained in this notification shall apply to the value of service provided to the distributors or selling agents who have not so opted.

6.16.5 Penalty for Non-Payment or Delayed Payment of Service Tax (Section 76 of the Finance Act, 1994) W.E.F. 8-4-2011:

Any person, liable to pay service tax in accordance with the provisions of section 68 or the rules made under this Chapter, who fails to pay such tax, shall pay, in addition to such tax and the interest on that tax amount in accordance with the provisions of section 76 penalty (w.e.f. 8-4-2011) is as follows:

₹ 100 for every day of delay	}	Whichever is higher.
(OR)		
@1% of the tax per month		

Overall penalty should not exceed 50% of the service tax payable.

Such penalty shall be payable starting from the first day after the due date till the date of actual payment of outstanding amount of service tax.

Example 58: An assessee, fails to pay service tax of ₹ 15 lakhs payable by 6th June 2011. He pays the amount on 16th June 2011. What is the penalty payable by M? (CA Final June 2009 Old Syl modified)

Answer: Penalty is calculated as follows:

₹ 15,00,000 x 10 days/30 days x 1% pm	=	₹ 5,000
		Or
100 per day x 10 days	=	₹ 1,000
(Whichever is higher)		
Therefore the penalty is ₹ 5,000		

6.16.6 Service Tax Liability — In case of Tax Deducted at Source (TDS) under Income Tax Act, 1961 Service Tax is payable on the value of Service and Not on value net of TDS.

Service Tax is to be paid on the gross value of taxable service which is charged by a Service Tax assessee for providing a taxable service. Income tax deducted at source is includible in the charged amount. Therefore, service Tax is payable on the gross amount including the amount of Income Tax deducted at source also.

Example 59: Mr. X, an architect has received the fees of ₹ 4,48,500 after the deduction of Income Tax of ₹ 51,500. The Service Tax is payable on ₹ 4,48,500.

Answer: No, the service tax can be payable on value of services. Hence, the value of services is ₹ 5,00,000 and the service tax @ 12.36% can be levied on ₹ 5,00,000.

Hence, the service tax liability is ₹ 55,002 (i.e. ₹ 5,00,000 x 12.36/112.36)

6.17 E-PAYMENT OF SERVICE TAX

The limit of ₹ 50 lakhs has been reduced to ₹ 10 lakhs in the preceding financial year, w.e.f. 1-4-2010 (Notification No. 1/2010).

6.18 SELF ADJUSTMENT OF EXCESS TAX PAID

Tax paid in excess to the credit of Government for a month/quarter may be adjusted by the assessee against the tax payable for the succeeding month/quarter Rule 6(4A) of the Service Tax Rules, 1994.

6.18.1 Conditions for Self-Adjustment

As per the Rule 6(4B) of the Service Tax Rules, 1994, self adjustment of excess payment of service tax allowed under Rule 6(4A) is subject to the following conditions:

- i. Excess payment since exact amount to be paid could not be calculated
- ii. When tax is to be paid by 31st March and calculation of exact amount of service tax is difficult
- iii. Any calculation mistakes

An assessee who have centralized registration (i.e. one RC) can adjust the excess service tax paid on their own without any monetary limit provided the excess amount paid is on account of delayed receipt of details of payments from branches.

Self adjustment will not be applicable when excess payment relates to interpretation of law, taxability, classification, valuation or eligibility to exemption notification.

In case of an assessee with multiple registration certificates (RCs), excess service tax paid on their own without any monetary limit w.e.f. 1.4.2012 [NT3/201 2-ST dt 17-3-2012]. The monetary limit is ₹2,00,000 upto 31-3-2012 for a month/quarter as per Rule 6(4B) (iii) of the Service Tax Rules, 1994.

Such adjustment can be made only in the succeeding month or quarter.

The details of self-adjustment should be intimated to the Superintendent of Central Excise within a period of 15 days from the date of adjustment as per Rule 6(4B) (iv) of the Service Tax Rules, 1994. W.e.f. 1-4-2012 there is no need to intimate to the Department about such self-adjustment.

6.18.2 Advance payment of Services Tax

As per Section 6(1A) of the Finance Act, 1994 (w.e.f. 1.3.2008);

- i. The assessee may, on his own, pay Service tax in advance and adjust the amount towards future liability.
- ii. He shall intimate details of advance payment to the Superintendent of Central Excise within 15 days of such payment.
- iii. He shall indicate the details of adjustment of advance payment in the returns.

6.19 SPECIAL AUDIT

Section 72A

- (1) If the Commissioner of Central Excise, has reasons to believe that any person liable to pay service tax (herein referred to as "such person"),-
 - (i) Has failed to declare or determine the value of a taxable service correctly; or
 - (ii) Has availed and utilized credit of duty or tax paid-
 - (a) Which is not within the normal limits having regard to the nature of taxable service provided, the extent of capital goods used or the type of inputs or input services used, or any other relevant factors as he may deem appropriate; or
 - (b) By means of fraud, collusion, or any willful misstatement or suppression of facts; or
 - (iii) Has operations spread out in multiple locations and it is not possible or practicable to obtain a true and complete picture of his accounts from the registered premises falling under 20 the jurisdiction of the said Commissioner,

He may direct such person to get his accounts audited by a chartered accountant or cost accountant nominated by him, to the extent and for the period as may be specified by the Commissioner.
- (2) The chartered accountant or cost accountant referred to in sub-section (1) shall, within the period specified by the said Commissioner, submit a report duly signed and certified by him to the 25 said Commissioner mentioning therein such other particulars as may be specified by him.
- (3) The provisions of sub-section (1) shall have effect notwithstanding that the accounts of such person have been audited under any other law for the time being in force.
- (4) The person liable to pay tax shall be given an opportunity of being heard in respect of any material gathered on the basis of the audit under Sub-Section (1) and proposed to be utilized in 30 any proceeding under the provisions of this Chapter or rules made thereunder.

Explanation – For the purposes of this section –

- (i) "chartered accountant" shall have the meaning assigned to it in clause (b) of sub-section (1) of section 2 of the Chartered Accountants Act, 1949;
- (ii) "cost accountant" shall have the meaning assigned to it in clause (b) of sub-section (1) of 35 section 2 of the Cost and Works Accountants Act, 1959.;
- (k) in section 73,-
 - (i) for the words "one year", wherever they occur, the words "eighteen months" shall be substituted;
 - (ii) after sub-section (1), the following sub-section shall be inserted, namely –

"(1A) Notwithstanding anything contained in sub-section (1), the Central Excise Officer may serve, subsequent to any notice or notices served under that sub-section, a statement, containing the details of service tax not levied or paid or short levied or short paid or erroneously refunded for the subsequent period, on the person chargeable to service tax, then, service of such statement shall be deemed to be service of notice on such person, subject to the condition that the grounds relied upon for the subsequent period are same as are mentioned in the earlier notices.";
 - (iii) In sub-section (4A), for the words, brackets and figures "sub-sections (3) and (4)", the word, brackets and figure "sub-section (4)" shall be substituted.

6.20 RETURN

6.20.1 Filing of Returns

Every assessee registered under Service tax provisions should file returns mandatorily electronically (w.e.f. 1-10-2011) as explained below:

Period	Due date (e-filing)	Return (must be filed in triplicate)	Person responsible to file	Remarks
1st April to 30th September	25th of October	ST-3 Every assessee shall submit the half-yearly return electronically w.e.f. 1-10-2011.	All assesseees (provider or recipient of service as the case may be)	Due date is a public holiday, then next working day is the due date. One ST-3 can file for multiple services. 'Nil' return acceptable but no return will attract penalty.
1st October to 31st March	25th April	ST-3 Every assessee shall submit the half-yearly return electronically w.e.f. 1-10-2011.	All assesseees (provider or recipient of service as the case may be)	Due date is a public holiday, then next working day is the due date. One ST-3 can file for multiple services. 'Nil' return acceptable but no return will attract penalty.
1st April to 30th September	25th of October	ST-3A Every assessee shall submit the half-yearly return electronically w.e.f. 1-10-2011.	All assesseees to whom provisional assessment has been granted.	A statement giving details of the difference between the service tax deposited and the service tax liable to be paid for each month or quarter, as the case may be, in a memorandum accompanying the half-yearly return.
1st October to 31st March	25th April	ST-3A Every assessee shall submit the half-yearly return electronically w.e.f. 1-10-2011.	All assesseees to whom provisional assessment has been granted.	A statement giving details of the difference between the service tax deposited and the service tax liable to be paid for each month or quarter as the case may be in a memorandum accompanying the half-yearly return.

6.20.2 Service Tax Return Preparer (STRP)

With effect from Finance Act, 2008, dated 10-5-2008 a scheme of Service Tax Return Preparer being introduced in the service tax provisions.

A STRP shall assist the person or class of persons to prepare and furnish the return in such manner as may be specified in the Scheme.

Service Tax Return Preparer (STRP) being an individual, who has authorized to act as a service tax return preparer under the Scheme.

6.20.3 Preservation Period of Records and Documents

All records and documents concerning any taxable service, CENVAT transactions etc. must be preserved for a minimum period of 5 years immediately after the financial year to which such records pertain (Rule 5(3) of Service Tax Rules 1994.)

6.20.4 Revised Return

With effect from 1st March, 2008 (Rule 7B of the Service Tax Rules), an assessee is allowed to rectify mistakes and file Revised Return within 90 days from the date of filing of the original return. Revised return after 90 days not allowed. (w.e.f. 1.3.2007 to 29.2.2008 the time limit was 60 days).

This implies that Returns pertaining to the period prior to 1st March, 2007 can be revised without the time limit.

Example 60: X Ltd. filed the ST-3 return on 30th November 2010 for the period from 1st April 2010 to 30th September 2010. Subsequently on 1st February 2011, some mistakes were found in the ST-3 return which was originally submitted on 30th November 2010. Service tax authorities rejected the revised return filed by the X Ltd. on 5th February, 2011, since the revised return was filed by the assessee after 90 days from the due date of filing the return (i.e. 25th October, 2010). The action of the department is correct?

Answer: No, the department action is not sustainable in the eyes of law. As per Rule 7B of the Service Tax Rules, 1994, the time limit of 90 days for filing of revised return counts only from the date of filing of the original return and not from the due date for filing of original return as contained in the Explanatory Notes. Therefore, X Ltd. can file revised return by 5th February, 2011.

6.21 PENALTIES

Late fee (Penalty) in case of late filing of Form ST-3

Fee for Late filing of ST-3 (As per Rule 7C of Service Tax Rules, 1994)

If a person fails to furnish the ST-3 return within the due date [25th October and 25th April every year] he shall be liable to pay late fee (penalty) is as follows:

Delay upto 15 days ₹ 500

Delay upto 30 days ₹ 1,000

Delay beyond 30 days ₹ 1,000 + ₹ 100 per day subject to a maximum of ₹ 20,000 (w.e.f. 8-4-2011 ₹ 2,000 enhanced to ₹ 20,000)

Late fee should be paid at the time of filling the return without waiting for any communication or notice from the Department. However, filing of return cannot be refused for non-submission of evidence of payment of late fee along with the Return.

Other Penalties

Sl. No.	Types of penalty	Penalty (prior to 8-4-2011)	Penalty (w.e.f. 8-4-2011)
i.	Non-filing of Return Section 77 of the Finance Act, 1994)	Upto ₹ 5,000	Upto ₹ 10,000
ii.	Not obtaining registration (section 77 of the Finance Act, 1944)	₹ 200 per day for every day of default or ₹ 5,000 whichever is higher.	₹ 200 per day for every day of default or ₹ 10,000 whichever is higher, starting with the first day after the due date, till the date of actual compliance;
iii.	Non-maintenance of proper books of accounts (Section 77 of the Finance Act, 1994)	Upto ₹ 5,000	Upto ₹ 10,000
iv.	Non-appearance before Officers on issue of summons (Section 77 of the Finance Act, 1994)	₹ 200 per day for every day of default or ₹ 5,000 whichever is higher	₹ 200 per day for every day of default or ₹ 10,000 whichever is higher, starting with the first day after the due date, till the date of actual compliance;

Sl. No.	Types of penalty	Penalty (prior to 8-4-2011)	Penalty (w.e.f. 8-4-2011)
v.	Failure to pay tax electronically when so required to pay (Section 77 of the Finance Act, 1994)	Upto ₹ 5,000	Upto ₹ 10,000
vi.	Issuing incorrect invoice or not accounting invoices in books (Section 77 of the Finance Act, 1994)	Upto ₹ 5,000	Upto ₹ 10,000
vii.	Failure to pay service tax (Section 76 of the Finance Act, 1994)	₹ 200 for every day of delay or @2% of the tax per month whichever is higher. However, such higher should not exceeds amount of Service tax	₹ 100 for every day of delay or @1% of the tax per month whichever is higher. Such penalty shall be payable starting from the first day after the due date till the date of actual payment of outstanding amount of service tax. However, the total amount of penalty payable shall not exceed 50% of the service tax payable. Where the true or complete details of the transactions are recorded in the specified records, the penalty under this section can be waived if the service tax and interest paid before issue of show cause notice under section 73(3).
	Section 78A – Evasion of service tax, – Issuance of invoice without provision of service, – availment of Cenvat Credit without receipt of service of goods, or – Service tax collected remaining overdue for more than 6 months.		Section 78A is being introduced, to make provision for imposition of penalty on director, manager, secretary or other officer of the company, who is in any manner knowingly concerned with specified contraventions. Penalty upto ₹ 1 Lakh
viii.	Fraud or suppression of acts (Section 78 of the Finance Act, 1994): Wrongful utilization of Cenvat credit by reason of fraud, collusion or any willful mis-statement etc. with the intent to evade the payment of service tax, the provider of service shall be liable to pay penalty in terms of the provisions of Section 78 of the Finance Act, 1994.	A show cause notice has been issued under Section 73(1A) of the Finance Act, 1994 by demanding Minimum 100% of service tax. Maximum 200% of service tax. The penalty will be reduced to 25%, if tax, interest and penalty paid within 30 days from the date of receipt of order of Central Excise Officer.	100% of the service tax, where the true and complete details of the transactions are not recorded in the specified records. This penalty cannot be waived. 50% of the service tax, where the true and complete details of the transactions are recorded in the specified records. This penalty can be waived. 25% of the service tax, where the true and complete details of the transactions are recorded in the specified records and the assessee pays service tax and interest thereupon within 30 days (if taxable turnover ≤ ₹ 60 lakh then within 90 days) from the date of the communicated by the Central Excise Officer. This penalty can be waived.

Sl. No.	Types of penalty	Penalty (prior to 8-4-2011)	Penalty (w.e.f. 8-4-2011)
ix.	During the Department audit or verification of records of the assessee, they found short payment of service tax or sometimes, the amount erroneously refunded to the assessee. If all such transactions are completely recoded in the specified records (Section 73(4A) of the Finance Act, 1994 w.e.f. 8-4-2011). This provision is applicable to those assessee who have no intention to evade tax.		@1% of such tax for each month, for the period during which the default continues. However, such penalty shall be a maximum of 25% of the tax amount. The assessee who would like to take the benefit of this provision to avail the reduced penalty, will have to make the payment of tax with interest and penalty before issuance of Show Cause Notice under Section 73 of the Finance Act, 1994. This penalty can be waived.

6.22 ADJUDICATION & APPEALS

6.22.1 Adjudication

- (i) Central Excise Officers have been empowered to adjudicate in following –
- Demand of service tax and its recovery - section 73.
 - Rectification of mistake by amending own order - section 74.
 - Imposition of penalty - section 83A
 - Refund of service tax - section 11B of Central Excise Act made applicable to Service Tax.
- (ii) **Time limit for issue of show cause notice** - If it is found that assessee has paid less tax, department will issue a show cause notice cum demand.
- If any service tax is not levied or not paid or short levied or short paid or erroneously refunded, Central Excise Officer shall issue a show cause notice for demand can be made within 18 months from 'relevant date' [section 73(1)].
- If such short payment etc. was by reason of fraud, collusion, wilful mis-statement, suppression of facts or contravention of any provision of Finance Act, 1994 or rules, show cause notice can be issued within five years [proviso to section 73(1)]. If notice is issued under 5 years, the demand for normal period would not Service — S.C. Decision in the case of Alcobex Metals. After considering the representation, Central Excise Officer will determine the service tax payable. Such tax cannot be more than the amount specified in show cause notice. Thereupon, the person shall pay the amount so determined [section 73(2)].
- (iii) **Voluntary Payment before receipt of show cause notice** - Assessee may pay such tax on the basis of his own ascertainment or on the basis of tax ascertained by Central Excise Officer, before issue of show cause notice. After payment of tax, assessee should inform the Central Excise Officer in writing about such payment, and then the central excise officer shall not issue any show cause notice under section 73(1) in respect of service tax so paid [section 73(3)].

- (iv) **Rectification** - The Central Excise Officer who has passed order (of assessment or demand or penalty) can rectify any mistake apparent from the record, within two years of the date in which the order was passed. The mistake must be 'apparent from the records'.
- (v) **Revision** - The Commissioner of Central Excise can revise the orders passed by adjudicating authority subordinate to him. The revision order can be passed any time within two years of the original order, but not afterwards. No revision can be made if appeal against such order is pending with Commissioner (Appeals) [section 84]. Appeal against the order of Commissioner (after revision) lies with CESTAT under section 86.

In case of assessee appeal also, appellate tribunal can admit an appeal or permit the filing of memorandum of cross objections after the expiry of the relevant period.

6.22.2 APPEALS

- (i) **Appeal to Commissioner (Appeals)** - Appeal to Commissioner (Appeals) can be made against order of any Central Excise Officer subordinate to Commissioner in respect of demand, interest or penalty or denial of refund of service tax. Appeal should be in prescribed form and duly verified. Appeal must be filed within three months from date of receipt of order. Delay upto three months can be condoned by Commissioner (Appeals). The procedures and powers will be similar to those under Central Excise. [section 85 of Finance Act, 1994].
- (ii) **Appeal to Tribunal** - Appeal to CESTAT (Tribunal) can be made against order of Commissioner passed by him under section 73, 83A or 84 or order of Commissioner (Appeals) passed by him under section 85 [order in appeal from order of AC/DC] by assessee or the department. Appeal has to be filed within three months from date of receipt of order by assessee, Board or Commissioner as the case may be. [section 86 of Finance Act, 1994].
- Tribunal can condone the delay in filing appeal on showing sufficient cause. Appeal has to be accompanied with prescribed fees, if appeal is by the assessee. Tribunal is final fact finding authority.
- (iii) **Appeals to HC/SC** – If issue involves classification or valuation, appeal lies with Supreme Court. If issue does not involve classification or valuation dispute, appeal lies with High Court only on substantial question of law.

PRACTICAL PROBLEMS

Point of Taxation:

Example 61: Sun Academy Pvt. Ltd., is providing commercial training services since, 2009. During the year 2011-12 service tax liability arises to pay was ₹ 12,00,000. However, service tax paid was ₹ 8 lacs after adjustment of CENVAT CREDIT of ₹ 4 lacs. In the month of April 2012, 60 students were joined for pursuing Point of Taxation Rules (from 1st April'12 to 1^{0th} April'12). Fee per student is ₹ 3,000 (inclusive of Service tax) paid by all students the month of June 2012. Service Tax @12.36% paid on 5th July 2012. Calculate the following:

- Point of Taxation
- Due Date
- Service Tax liability
- Interest if any
- Penalty under Sec. 76 of the Finance Act, 1994, if any.

Answer:

- (a) Point of taxation = April 2012
- (b) Due date = 6th May 2012
- (c) Service tax = ₹ 19,800 (i.e. $3,000 \times 60 \times 12.36/112.36$)
- (d) Interest = ₹ 586 (i.e. $19,800 \times 18/100 \times 60/365$)
- (e) Penalty = ₹ 6,000
- i.e. ₹ 100 x 60 days = ₹ 6000 or ₹ 391 ($19,800 \times 12/100 \times 60/365$) whichever is higher

Example 62: State briefly whether the following service under the Finance Act, 1994 relating to service tax are taxable service.

- (a) Service provided in the State of Rajasthan by a person having a place of business in the State of Jammu and Kashmir.
- (b) Service provided from India for use outside India
- (c) Service provided from outside India and received in India by Individual otherwise than purpose of use in business or commerce.
- (d) Service provided to an Export Oriented Unit

Answer:

- (a) These are taxable services. Services rendered within India (except in the state of Jammu and Kashmir) are come under the service tax net, provided these services are taxable services.
- (b) These services can be considered as export of services, which are exempted from the service tax liability.
- (c) Services in the nature of import are taxable if these are imported for the purpose of business or commerce. Services imported for the purpose of personal use by individuals are exempted from service tax.
- (d) Service provided to export oriented undertaking is liable to service tax. Service rendered to EOU or supplies of services by EOU in domestic market is not presently exempt from service tax.

Example 63: Answer the following with reference to the Finance Act, 1994 as amended relating to applicability of service tax:

Service provided by educational institutions like IIMs by charging a fee from prospective employers like corporate houses regarding recruiting candidates through campus interviews.

Answer:

Manpower recruitment or supply agency is defined as 'any person engaged in providing any service, directly or indirectly, in any manner for recruitment or supply of manpower, temporarily or otherwise, to a client.

Educational institutes like IITs, IIMs etc. fall within the above definition. Thus, service tax is liable to be paid on services provided by such institutes in relation to campus recruitment.

Example 64: Answer the following:

- (a) A particular service has been brought into service tax net with effect from 1-5-2011. Mr. Vignesh has provided this service on 10-5-2011 and invoice has been issued on the same date. The payment for the same was received on 30-4-2011. Is service tax payable on the same?

- (b) Mr. Saravanan has collected ₹ 15,000 as service tax from a client mistakenly, even though no service tax is chargeable for such service. Should the amount so collected be remitted to the credit of the Central Government?
- (c) Briefly explain the nature of the service tax

Answer:

- (a) As per Rule 5(b) of the Point of Taxation Rules, 2011, no tax shall be payable if the payment has been received before the service becomes taxable and invoice has been issued within the period referred to in rule 4A of the Service Tax Rules, 1994.

As per rule 4A of the Service Tax Rules, 1994, an invoice is required to be issued within 14 days from the date of completion of service or from the date of receipt of any payment of taxable service, whichever is earlier.

In the given case, Mr. Vignesh is not liable to pay service tax.

- (b) Section 73A of the Finance Act, 1994 casts an obligation on every person who has collected service tax from any recipient of service in any manner as service tax, to remit the same to the credit of the Central Government. On account of this provision, where any person has collected any amount, which is not required to be collected from any other person, in any manner as representing service tax, he should also immediately pay the amount so collected to the credit of the Central Government.

Hence, Mr. Saravanan has to remit the service tax collected by him on the non taxable services to the credit of Central Government of India.

- (c) Section 70 of the Finance Act, 1994 enjoins that every person liable to pay service tax shall himself assess the tax due on the services provided by him and shall furnish a return to the Superintendent of Central Excise.

Example 65: Ms. P rendered taxable services to a client. A bill of ₹ 40,000 were raised on 29-4-2012. ₹ 15,000 were received from the client on 1-5-2012 and the balance on 23-5-2012. No service tax was separately charged in the bill.

- (a) Is Ms. P liable to pay service tax, even though the same has not been charged by her?
- (b) If so, what is the value of taxable services and the service tax?
- (c) Due date of payment of service tax?

Note: previous year turnover is ₹ 25 lakhs

Answer:

- (a) Ms. P is liable to pay service tax even though she has not collected the service tax from his client, by considering the service tax is inclusive in the value of the bill. The point of taxation is 29-4-2012. It means she is liable to pay service tax for the month of April, 2012.

- (b) Service tax liability is as follows:

$$\begin{aligned} \text{Value of taxable services} &= 40,000 \times 100/112.36 &= & ₹ 35,600 \\ \text{Service tax liability} &= 35,600 \times 12.36/100 &= & ₹ 4,400 \end{aligned}$$

- (c) Due date of payment of service tax is 5th July 2012.

Example 66: Mr. Vasudevan is a practicing Cost Accountant, has rendered freely, a service to a client which is taxable, but has not charged or received any fee from a client. Is service tax payable on such free services?

Answer:

Service tax is payable when services are provided for consideration as per Section 67 of the Finance Act, 1994. Moreover the charging section 66 provides that service tax is chargeable on the value of taxable service. Hence, if the value is Free no service tax is payable even though the service may be taxable. However, this principle applies only when there is really a 'free service' and not when its cost is recovered through different means.

Example 67: Mr. Harish, a consulting engineer raised a bill of ₹ 2,20,600 (including service tax @12.36%) on his client for consulting services rendered by him in the month of June, 2012. A partial payment of ₹ 1,65,450 was received by Mr. Harish in the month of September 2012 as full and final settlement. Compute the service tax amount payable by Mr. Y and the due date by which service tax can be deposited. Previous year taxable services are ₹ 74 lakhs.

Answer:

Service tax is payable only on the basis of point of taxation rules. Hence, service tax is required to be paid on the entire bill value. The service tax is required to be paid on the value of service which is actually billed in the month of June 2012.

Value of taxable services (₹ 2,20,600 x 100/112.36)	=	₹ 1,96,333
Service tax payable on ₹ 1,96,333 @ 12%	=	₹ 23,560
Education cess @ 2% on ₹ 23,560	=	₹ 471
Secondary and Higher Education cess @ 1% on ₹ 23,560	=	₹ 236
Total	=	₹ 2,20,600

Therefore, service tax payable to the government ₹ 24,267.

Due dates of payment of service tax is quarterly for an individual. Therefore, due date is on or before 5th July 2012.

Tax Deducted at Source:

Example 68: A Ltd. provided Information Technology & Software services to B Ltd. in the month of July 2012. A bill inclusive of Service Tax issued in the month of July 2012. B Ltd paid ₹ 24,81,750 (after deducting TDS under sec 194J of the Income Tax Act, 1961 @10% towards TDS) in the month of August, 2012. You are required to calculate:

- Service tax liability
- Due date of payment of service tax.

Answer:

	(Amount in ₹)
(a) Net payment received	= 24,81,750 = 90%
TDS @ 10%	= 2,75,750 = 10%
Total bill value	27,57,500

Service tax liability = ₹ 27,57,500 x 12.36/112.36 = 3,03,335

- Due date of payment of service tax in case of manual payment is on or before 5th of August 2012.

Due date of payment of service tax in case of e-payment is on or before 6th August 2012.

(Note: service tax is liable to pay on provisional as per the rule 3 of the Point of Taxation Rules, 2011, w.e.f. 1-4-2011)

Interest

Example 69: Mr. X practicing Chartered Accountant received ₹ 20,00,000 in the June 2012. He paid service tax on 25th July 2012 by way of GAR – 7 challan. Gross receipts in the year 2011-12 were ₹ 25 lakhs. You are required to calculate Interest on delay payment of service tax.

Answer :

Service tax @12.36% on ₹ 20,00,000 = ₹ 2,47,200.

Due date of payment of service tax- 5th July, 2012.

No. of days delay = 20 days

Interest = ₹ 2,032 (i.e. ₹ 2,47,200 x 15/100 x 20/365)

Example 70: Dhruva Engineering Ltd. deposited the service tax due for the month of May, 2012 by cheque in the designated bank on 5th June, 2012. The cheque was realized by the designated bank on 9th June, 2012. The service tax authority has issued a notice to the company under section 75 of Chapter V of the Finance Act, 1994 demanding interest for the delayed period. Is the demand justified? Give reasons for your answer.

Answer:

As per Rule 6(2A) of the Service Tax Rules, if the service tax is paid by cheque, the date of presentation of the cheque to the designated bank shall be deemed to be the date on which service tax has been paid subject to realization of the cheque.

In view of the above, Dhruva Engineering Ltd paid the service tax in time for the month of May 2012. Therefore, the demand for payment of interest is not justifiable.

Example 71: What is the rate of interest for late filing of return (i.e. V Form ST-3)?

Answer :

No interest will be levied in case of late filing of return Form ST-3.

Penalty for Delayed Payment of Service Tax:

Example 72: X Ltd. is liable to pay service tax of ₹ 1,00,000 on or before 5th July 2011 but he paid it on 15th July 2011. What is the penalty for non-payment or delayed payment of service tax? Can this penalty be waived or reduced?

Answer:

Calculation of Penalty under Section 76 of the Finance Act, 1994 (w.e.f. 8-4-2011):

Such penalty shall be payable starting from the first day after the due date till the date of actual payment of outstanding amount of service tax.

However, the total amount of penalty payable shall not exceed 50% of the service tax payable.

Penalty = ₹ 100 x 10 days = ₹ 1,000

Or Whichever is higher

₹ 1,00,000 x 1/100 x 10/31 = ₹ 323

Therefore, penalty is ₹ 1,000

Where the true or complete details of the transactions are recorded in the specified records, the penalty under this section can be waived if the service tax and interest paid before issue of show cause notice under section 73(3).

Penalty for Late Filing of Return:

Example 73: SM Ltd. filed its service tax returns for the half years ending on September 2010 and March 2011 on 25-11-2010 and 31-7-2011. The two half yearly returns show a service tax liability of ₹ 2,00,000 and ₹ 1,00,000 respectively. Is any late fee/fine payable by SM Ltd.? If yes, what is the quantum of such fee in both the cases?

Will your answer be different if SM Ltd. files a nil return for the half year ending on September 2010?

Answer:

Form ST-3 half yearly – due dates

25th October for the first half year ending 30th September

25th April for the second half year ending 31st March

Actual No. of days delay for the first half year return = 31 days

(Oct 6 days + Nov 25 days)

Therefore, penalty is ₹ 1,100

Actual No. of days delay for the 2nd half year return = 97 days

(April 5 days + May 31 days + June 30 days + July 31 days)

Upto 30 days of delay ₹ 1,000 plus ₹ 100 per day of delay subject to maximum of ₹ 20,000 (w.e.f. 8-4-2011) Therefore, penalty is ₹ 7,700.

Penalty can be reduced or waived if the ST-3 return belongs to nil return.

6.23 FAQ's OF ST 3

- 1. I got ST registration on/after 01.07.2012 with the service description, 'Other Than in the Negative List'. Can I file the return now?**

Assessee registered / amended their registration on or after 01.07.2012 with the service description, 'All Taxable Services – Other than in the Negative List' are required to file amendment to their Registration online by deleting the said description and adding the relevant description(s) of Taxable Services available in the drop-down list in the online Amend ST1 Form. Only after approval of the amendment by departmental officers, these assessee will be able to file their returns for the period from July, 2012 onwards.

- 2. The ST-3 Return for the period, July-Sept., 2012 is quarterly or half-yearly?**

It is a quarterly return.

- 3. Is the new ST-3 return for the period, July-Sept., 2012 available in both online or offline modes?**

It is available in offline mode only as of now.

- 4. How to download the new Excel utility for ST3 return for the period July-Sept 2012?**

The new Excel utility for ST3 return for the period July-Sept 2012 can be downloaded from '[DOWNLOADS](#)' section of ACES website, or after logging in, under the navigational path RET-> e-Filing -> Download e-Filing Utility.

5. Are there any changes in the new format of ST-3 return for the period, July-Sept., 2012?

Few modifications have been carried out to overcome the difficulties in entering certain details such as R & D Cess, Specific Rate of Tax etc

6. Any new instructions as the ST-3 format are modified?

Please go through the instruction sheet and guidelines given in the new excel utility, 'What? New' and 'Help' sections of ACES Website. In case of doubts relating to offline utility or the ACES software application, you may e-mail to ACES Service Desk at aces.servicedesk@icegate.gov.in. For any other queries on legal/procedural matters, please contact your jurisdictional Central Excise or Service Tax office.

7. Are there any built in validations which may result in rejection of return?

Yes. There are a few mandatory validations and if incorrect entries are made, the return would be rejected. Some of them are listed below.

- (a) Registration Number does not exist in the database.
- (b) If a non-LTU assessee selected ?Yes? in A6.1.
- (c) Wrong selection of Constitution resulting in display of payable/paid sheet in quarterly format instead of monthly format and vice versa.
- (d) Entering text in fields having drop-down values
- (e) Technical Error – tampering of XML file generated before uploading, error at the time of generation of XML file etc.

8. How to ascertain the errors if the return is rejected?

When the return is rejected, the reasons for the same would be displayed under the ?status of xml upload? view facility.

9. Do we get any mail in case of rejection of return with possible reasons?

Yes. Mail will be automatically sent by the system to the Assessee? e-mail ID mentioned/available in the registration data. Hence, it must be ensured that the e-mail ID in the ACES registration database is updated. You may also check the spam folder.

Instructions for filling up the new ST-3 offline return

A1 – What is to be selected?

Only one of the options (ORIGINAL / REVISED) can be selected as applicable to the Assessee.

A2 – What to enter in this field?

Digits PAN-based or Temp-based RC number should be entered.

A3 – Name of the Assessee

This field is disabled for any entry by the assessee. Based on the registration number entered, the name will be fetched from the registration database of the assessee, when the XML file is uploaded, and it will be displayed when the return is viewed.

A4 & A5

As this return is meant for the specific period, July – Sept. 2012, this field is auto-populated by the system and need not be entered by the assessee

A6 – How to select the option?

Assessee, falling under the jurisdiction of any Large Tax Payers? Unit (LTU) must select ?Yes? in A6.1. A6.2 – ?Name of LTU Opted for? will be fetched from the registration database of the assessee, when the XML file is uploaded, and it will be reflected when the return is viewed.

A7 – How to find out Premises Code?

This field need not be entered by the Assessee. This field will be fetched from the registration database of the assessee when the XML file is uploaded and it will be reflected when the return is viewed.

A8 – Constitution of the Assessee:

There are more categories compared to the old version of form ST-3. The Assessee has to select the appropriate category applicable to them and as already furnished in form ST-1. When 'Proprietorship/ Individual', 'Limited Liability Partnership' or 'A Firm' is selected in the 'Constitution of the Assessee' field system will display the ST3 return with payable/paid sheets in quarterly format and for other values of Constitution the payable/paid sheets in monthly format.

A9 – List of Taxable Services – How to select many services?

To add more than one service, click on the 'Add Service' button. Similarly, if any service has been wrongly selected, it can be deleted by clicking on the 'Red' colour cell and then clicking on the 'Delete Service' button.

1. How to fill up Service wise details?

When the taxable services applicable are selected, the service-wise payable screens will be populated and displayed for filling up the data.

A10 – Category of Registrant/ Partial Reverse Charge: What is Partial Reverse Charge?

The details are available in the Notification No. 30/2012-ST dated 20-06 2012, effective from 01-07-2012, made applicable to certain specified services.

Service Provider has to select A10.1

Service Receiver has to select A10.2

If the Assessee is liable to pay tax under Partial Reverse Charge as Provider, he will have to select 'Yes' under A10.1 and A10.3 and select the percentage from A10.4.

If the Assessee is liable to pay tax under Partial Reverse Charge as Receiver, he will have to select 'Yes' under A10.2 and A10.4 and select the percentage from A10.6.

2. How to enter the details of exemptions, if any availed under particular Notification/s?

For entering details of any exemption availed under a Notification and entering the amount of exemption claimed, the below mentioned steps have to be followed:

- a. A11.1 – This field should be selected as YES.
- b. A11.2 – After selecting YES in A11.1 this field will be enabled. A drop down list of Notification Nos./Sl. No will be enabled and displayed in A11.2, relevant for the selected service. The Assessee can select the Notification No. / Sl. No. to be availed by them. The assessee should select the Notifications and Sl.Nos. from the drop-down only and should not enter the numbers.

3. How to avail abatement?

- a. A12.1 – This field should be selected as YES
- b. A12.2 – After selecting YES in A12.1, this field will be enabled. A drop down list of Notification Nos / Sl No will be enabled and displayed in A12.2, relevant for the selected service. The Assessee can select the Notification No / Sl No availed by them. The assessee should select the Notifications and Sl.Nos. from the drop-down only and should not enter the numbers.

4. How to avail mega exemption notification?

Gist of the mega exemption Notification No 25/2012 ST dated 20.06.2012, effective from 01.07.2012, is made available in the excel utility in the Instruction sheet. This contains the serial no and the description of various services covered therein.

5. How to fill up the details of Provisional Assessment, if any, in the return?

In A13.1, when Yes is selected, A13.2 will be enabled to enter the Provisional Assessment order number and date.

6. What to fill up in B1.1 to B1.6?

The text in the rows are self-explanatory and for further details, you may go through the Instruction sheet available in the notified statutory Form ST-3 Vide Boards Order No: 01/2013-Service Tax dated 06th March 2013. For any further clarification on these fields, the Jurisdictional SP/AC/DC may be approached.

7. How to fill up B1.8/B1.11?

If the Assessee desires to fill up any amount in these fields, they should have selected the applicable Notifications from A11/A12. Otherwise B1.8/B1.11 cannot be filled.

8. How to claim other deductions in B1.12?

For entering any amount in this field the Assessee should also fill up the details of such deductions claimed, in the text field provided there in. If this field is filled, the Return will be marked for R & C.

9. How to fill up B1.15 / B2.15, Service Tax Rate-wise Break up of NET TAXABLE VALUE for ADV rate?

When various Tax Rates are filled up in this table against certain taxable value, the total of such rate-wise values should be equal to the NET TAXABLE VALUE arrived in B1.14. For further details, the illustrations pasted in ACES Website under HELP section, may please be referred. B1.15 / B2.15 is meant only for filling up ad valorem rates of Tax applicable only.

10. Is there any provision to enter specific rate of Tax?

Yes. Table is available in B1.16 / B2.16 for entering details of services liable to specific rate of Tax. The rates applicable can be entered along with the taxable units chargeable to Tax in this table and the system will populate the Tax payable.

11. Is Cess payable on the Tax calculated under specific rate of tax?

Yes. EDU Cess at 2% on the tax payable and SHE Cess at 1% on Tax payable has to be paid. If the Cess rates are entered by the Assessee, the system will populate the amount of EDU/SHE Cess payable under B1.20 and B1.21. Please also refer to the illustration for entering Specific rate in ST3 return is given at the end.

12. What is R & D Cess deduction?

In term of notification no 14/2012 ST dated 17.03.2012, it provides for exemption of R & D Cess payable on import of technology from the tax payable on the services provided.

13. How to fill up B2.1 to B2.21?

This is similar to what is explained for Provider section from B1.1 to B1.21.

14. How to enter the value of services imported

This can be entered under B2.5.

15. How to fill up Partial Reverse Charge under B1.6 & B2.7?

For filling up any amount in these fields, A10.3/A10.4 should have been selected as 'Yes' and A10.5/A10.6 should be enabled with the appropriate percentage, selected from the drop down list.

16. How do I fill up specific rate of Tax as a provider of 'Foreign Exchange Broker Service' / 'Lottery Ticket Selling Agents'?

Specific illustrations are given for the said services and are available in ACES Website under ?Help? section.

17. What is meant by book adjustment in the case of specified Govt. Departments?

This is meant for those Central Govt. Departments who are liable for service tax for the services provided by them but the payment of the same is effected by way of 'adjustment of entries' and not by Cash.

18. Where do we enter the advance amount of Tax deposited?

They should be entered in the table under part 'C' meant for Service Tax payable in advance.

19. Can I enter the payment of Arrears by CENVAT adjustment?

Yes. This amount can be entered in PART 'G'.

20. What Challan details have to be entered in H1?

If any payment of Cash / Cess / Other Payment have been made by cash all relevant challan nos. shall be entered in this table with their amounts.

21. How to enter details of multiple challans?

Any number of challans can be entered by clicking the 'Add Challan' button in the Challan details section.

22. How to enter the amount of late fee paid for delayed filing of returns?

A separate row no. G10 has been provided for this purpose.

23. What is the restriction for entering an amount in I3.1.2.6 / I3.2.2.6 / I3.3.2.6?

If any amount is entered in these fields, the details of the same should be given in brief in the text field provided therein.

24. Can I add ISD as new category of registrant at the time of filling up the return?

No. Such Assessee will have to file amendment application in ACES to add ISD as a category and only after that they have to file the return.

25. Can I enter EDU Cess and SHE Cess combined together in CENVAT section?

No. Separate tables have been provided for entries of credit taken and utilized on EDU Cess & SHE Cess.

26. Is there provision to enter the details of Certified Facilitation Centre (CFC)?

Yes. This has been provided under PART 'L' of the return.

27. How to calculate the late fee for delayed filing of the return?

New provision has been made in ACES to identify the delayed filing of returns, no. of days of delay beyond the due date and the late fee payable. After the returns are successfully filed, these details will be populated and displayed in the view option for Assessee and departmental officers.

FAQs on filing of returns using web-form (on-line)

1. How can I e-file the return on-line?

After logging into the ACES system, click on the 'RET' module displayed in the menu item at home page. Select 'File return' option. Sub-menu for different types of returns namely, 'ER-1', 'ER-2', 'ER-3', 'ER-4', 'ER-5', 'ER-6', 'Dealer return' OR 'ST-3' will be displayed. Select the required option. Navigation path is

Login as Assessee → RET → File Returns → ER-1

Login as Assessee → RET → Fill ST-3 → Fill

After filling all the details, in the last page click on ?SAVE? button. A ?confirmation view? screen will display the return in its entirety. Verify for the correctness of details entered. Once it is confirmed that the entered details are in order, click on ?SUBMIT? button. If any modification is required, click on ?MODIFY? button. The first entry screen will be displayed. Modification can be carried out in all fields. If it is desired that the details are to be entered afresh click on ? CANCEL? button.

2. In case of disruption while entering my return, is it possible for me to retrieve the entered details and complete the return at a later point of time or is it necessary that I have to fill and file the return at one go?

In case of Central Excise Returns (ER-1), the return will get partially saved in case of disconnection (there is no explicit save button for partial save). The return partially saved can be retrieved and completed using ? Complete return? available in ? RET? menu. In case of ST-3, there is a provision to save the return explicitly (before submission). The returns can be completed partially/fully using ?Amend return? option in ? RET? menu.

3. How to navigate between fields/pages on the screen?

Navigation would be as follows:

- (i) Moving across fields: After entry in the desired field, tab key can be used. On pressing tab, you will be taken to next field of the section for data entry.
- (ii) Moving across pages: After you have filled the data in a page, you can move to the next page by clicking ? Next? button. On clicking this button, the system will validate all the entries on the page and lead you to the next sheet (if the data is filled properly on the page or when you want to proceed despite warnings in case of minor errors). Similarly, ? Previous? button can be used for moving to a previous page for the purpose of view or correction.

4. How to fill up the data in e-return?

- a) All the fields marked with asterisk (*) are mandatory and the same are to be filled before proceeding further.
- b) Wherever required, data must be in correct format. For example
 - (i) Challan no to be a 20 digit number consisting of, 7 digit BSR code, 8 digit date of tender in the format ?ddmmyyyy? and 5 digit challan no. For example, ?12345670112200812345?
 - (ii) Wherever columns are available for providing Quantity, decimals upto two places only are allowed.
 - (iii) Columns where Amount is to be provided, only whole number is allowed.

5. In Dealer Return, after completing all information and clicking on Next button, an error message appears ? MONTH YEAR WHICH YOU ARE FILING RETURN, RECORD ALREADY EXISTS?. Please help

This error will occur if the user has already submitted the Return for the mentioned month and year. In ACES, once user has submitted return for a particular month and year, he will not be able to submit the return again for the same month and year.

6. How will I know if I have filled my returns correctly?

In ACES you can view and verify the return submitted by you using

RET-> List Original Return (in case of Central Excise)

RET-> View ST-3 (in case of Service Tax)

7. How do I amend my saved ST-3 Return?

You can access saved ST-3 Return for amendment by clicking on Amend ST-3 option of Fill ST-3 submenu under RET menu. Once ST-3 Return is submitted in ACES the return cannot be amended.

8. How do I revise my ST-3 Return?

You can revise your ST-3 return once within 90 days after filing the original return, by clicking on Revise ST-3 option of Fill ST-3 submenu under RET menu.

9. Will I get an acknowledgment after filing the return?

On the successful submission of a return, an acknowledgement with a number in the format ? registration number_Type of return_Month and Year of the return? will be shown. For example, for the ER-1 return filed for the month of December, 2009 by an assessee having registration no AAABC7865HXM001, the number? AAABC7865HXM001_ER1_122009? is generated as acknowledgement. This number becomes a reference number (Source Document number) for subsequent correspondences with the department in respect of the return.

FAQs on filing of returns using EXCEL downloadable Utility**1. What is downloadable utility?**

In ACES the Assessee can file his returns online by filling up the web-form or by using downloadable utility available in ACES website. Downloadable utility is an offline utility which can be downloaded, filled off-line and submitted on-line. The generated XML file should be uploaded into ACES.

2. What are the pre-requisites for filing data in this utility?

Following are prerequisites for filing data in offline utility:

1. The version of Microsoft Excel in your system should be Microsoft Office Excel 2003 and above
2. Make sure that you have downloaded the latest Excel Utility from ACES website / application to your local system
3. Please enable the Macros (if disabled) as per the following instructions:
 - On the Tools menu, point to Macro, and then click Security.
 - Click on either Medium or High to select the 'Security Level'.
 - On the Trusted Publishers tab, select the Trust all installed add-ins and templates check box.

Please make sure that your System Date is correct.

1. Do I need to download utility each time I file a return or use the earlier one downloaded?

Yes, it is advisable that you download the latest version of utility from the ACES website before filling the same.

2. What are the steps for filing Return through offline utility?

The steps are as follows:

1. Fill up the Return data: Navigate to each field of every section in the sheet to provide applicable data in correct format. (Formats will get reflected while filling data.)
2. Validating Sheets: Click on the "Validate this sheet" button to ensure that the sheet has been properly filled and also data has been furnished in proper format. If there are some errors on the sheet, the Utility will prompt you about the same. In such cases, the offline utility will not allow you to proceed further until you rectify the errors.
3. Generate XML: There is "Validate Return and Submit" button on last sheet "Challan" for validating all the entries in your return. If you click on this button, Utility will validate all the sheets one by one and also perform inter-sheet validations. After validation, an XML will be generated. In case there is some error identified on some sheet, the utility will prompt you about the same and lead you to the respective sheet(s).

4. Both files are saved in the same folder of your system where E-filing Utility is placed/ saved (while downloading the e-filing utility).
5. Upload XML file to ACES application: For uploading the XML generated by the E-filing Utility, login to ACES application and access menu option to upload generated xml file of Return. On Upload screen provide the required information and browse to select the relevant XML file and submit the form.

1. How do I file NIL return in offline utility?

There is an Option for NIL Return in the first sheet. In case you are filing a NIL Return then change this option to "Yes". On selection Yes, utility will ask you to freeze the option and then delete all the sheets that are not applicable.

2. In ST-3 Offline Utility when I enter premises code, an error appears ? Premises code Number accepts only 10 digits alphanumeric characters? Please help.

Please ensure that you enter 10 characters premises code. System does not allow less than or more than 10 characters code. This code can be alphanumeric (all numeric, all alphabetic or alphanumeric). The structure of 10 characters premises code is [Location Code of 6 characters + 4 alphanumeric characters]. User can check the premises code through RET—> Fill ST-3 -> Fill (Check premises code here).

3. How to generate XML file after filling the sheets in the offline utility?

Once all relevant fields of the sheet have been filled up, clicking on "Validate Return and Submit" button will again validate all the sheets and XML will be generated if data is found OK.

1. After generating the XML, the Utility will prompt you the name and location of the files saved
2. The name of the XML file that has been generated by the system will be the Registration Number_Date_StampTime.xml e.g. AAABC7865HXM001_131200834021PM.xml or AAGPI2894EXD001_24-Jun-0910603PM.xml

1. How do I upload my offline return?

You can browse and upload offline return (XML file) by logging into ACES with your user-id and password and navigating in the ACES website in the following manner:

RET-> eFiling for Returns ->Upload File (In case of ER-3)

RET-> eFiling->Upload File (In case of ST-3)

2. What does the ?status of returns? mean?

Status of returns implies the status of offline returns uploaded into the system. Status of returns submitted through offline utility can be either Uploaded or Filed or Rejected. You can view the status of your return submitted using offline utility through:

RET-> eFiling for Returns-> View Status (In case of CE)

RET-> eFiling -> View Status (In case of ST)

3. When will I know whether my uploaded return is accepted or rejected by ACES?

Returns submitted through offline utility can have follows status:

- Uploaded: Denotes that return is uploaded and under processing by the system. You should view again after some time

- Filed: Denotes that uploaded return is accepted by the system

- Rejected: Denotes that the return could not be processed due to errors and is rejected and the assessee return is not filed with the department in this case

The result of the acceptance or otherwise of the return filed off line will be known within one business day at present.

4. **When are offline returns rejected?**

Returns would not be accepted due to some technical errors validated by the system. For example, such errors may be wrong mention of premise code, mismatch of registration numbers, mismatch of period of return filed etc.

5. **What to do when my return is rejected?**

Errors due to which return is rejected are displayed when you click on hyperlink on rejected return. Please also look into the error the systems shows for the rejection of the return and correct the error. If required, returns can be corrected and then new xml file generated and uploaded again.

6. **While uploading the XML file in ACES, an error appeared “File corrupt. Regenerate and upload the file again”. Since regenerating the XML is time consuming task, please help how we can regenerate with less effort?**

This error appears only when user has tampered XML file generated by the utility. Please ensure that you upload the original XML file generated by the utility without tampering/ opening for modification.

7. **While clicking on “Validate & Submit” button on worksheet on e-Filing Dealer Return, it says ‘Compile error in hidden module: Module 5’ and system does not generate the XML to be uploaded?**

This error will not occur if the user is using Microsoft Office Excel 2003 version or above.

Study Note - 7

ADJUDICATION, PENALTIES AND APPEALS IN INDIRECT TAXES

This Study Note includes

- 7.1 Common Topics in Indirect Taxes
- 7.2 Adjudication in Indirect Taxes
- 7.3 Enforcement Powers of Revenue Officers
- 7.4 Penalties in Indirect Tax Laws
- 7.5 Appeal provisions under Central Excise, Service Tax and Customs
- 7.6 Settlement Commission
- 7.7 Authority for Advance Ruling

7.1 COMMON TOPICS IN INDIRECT TAXES

Three major indirect taxes, viz. Central Excise, Service Tax and Customs are being administered by single authority i.e. Central Board of Excise and Customs (CBE&C) under Ministry of Finance, Government of India. Final departmental appellate authority i.e. Tribunal is common. It is, therefore, natural that basic thinking and approach is same in all the legislations connected with these three taxes.

Many provisions of Central Excise are made applicable to service tax. Many provisions of customs law have been made applicable to Central Excise.

7.1.1 Provisions in respect of Demands, Refunds, Penalties, Appeals are Common or Similar

Provisions relating to demands, refunds, penalties and appeals are either common in all the three legislations or at least they are similar.

7.1.2 Assessee and Assessment

Assessment means determining the tax liability.

Duty is paid by the manufacturer on his own while clearing goods from the factory/warehouse, on 'self assessment'. The assessee himself has to determine classification and valuation of goods and pay duty accordingly.

Rule 2(b) of Central Excise Rules states that 'assessment' includes self-assessment of duty made by the assessee and provisional assessment made under Rule 7.

'Assessee' - Rule 2(c) of Central Excise Rules states that 'assessee' means any person who is liable for payment of duty assessed or a producer or manufacturer of excisable goods or a registered person of a private warehouse in which excisable goods are stored, and includes an authorized agent of such person.

Self Assessment - The assessment under Central Excise is basically an Invoice based self-assessment, except in case of cigarettes. Rule 6 of Central Excise Rules provides that the assessee shall himself assess the duty payable on excisable goods, except that that in case of cigarettes, the Superintendent or Inspector of Central Excise shall assess the duty payable before removal of goods.

The assessee has to submit monthly return in ER-1/ER-2/ER-3 form. The return has to be along with 'Self Assessment Memorandum', where Assessee declares that (a) the particulars in ER-1/ER-2/ER-3 return are correctly stated (b) Duty has been assessed as per provisions of Section 4 or 4A of CEA (c) TR-6 challans by which duty has been paid are genuine.

In case of service tax also, Section 70(1) of Finance Act, 1994 provides that every person liable to pay service tax shall himself assess the tax due and file return. The ST-3 return filed by assessee contains a 'Self-Assessment Memorandum'.

7.1.3 Scrutiny of Correctness of Duty

After submission of return by assessee, first stage dealer and second stage dealer, the 'proper officer' will scrutinise the return on the basis of information contained in the return and further enquiry as considered necessary. The manner of scrutiny will be prescribed by CBE&C [Rule 12(3) – inserted w.e.f. 1-4-2005].

Every assessee shall make available to 'proper officer' all documents and records for verification as and when required by such officer [Rule 12(4)].

7.1.4 Assessment Order in Customs but not in Excise and Service Tax

In case of customs, Bill of Entry (in case of imports) and Shipping Bill (in case of exports) is an assessment order. If the valuation shown by assessee is not accepted by department, order with reasons will have to be issued within 14 days. Appeal can be filed against the order. Mere filing of refund claim is not sufficient.

In case of excise and service tax, the assessee is required to file returns. Excise officers will not 'assess' the duty i.e. assessment order is not issued. If the officers are of opinion that there is short payment, show cause notice cum demand will have to be issued.

7.1.5 Provisional Assessment

Rule 7 of Central Excise Rules make provisions in respect of provisional assessment. Provisional assessment can be requested by the assessee. Department cannot itself order provisional assessment.

Final assessment will be made later by Assistant/Deputy Commissioner after getting the required details. In case of such provisional assessment, demand can be raised within one year after the provisional assessment is finalised.

Overview of Provisions of Provisional Assessment - An assessee can request for provisional assessment in following circumstances – (a) Assessee is unable to determine the value of excisable goods in terms of Section 4 of CEA on account of non-availability of any document or information or (b) Assessee is unable to determine rate of duty applicable.

In aforesaid cases, assessee may request Assistant/Deputy Commissioner in writing giving reasons for provisional assessment of duty. [Assessee should give reason why he wishes to have provisional assessment]. After such request, the Assistant/Deputy Commissioner may by order allow payment of duty on provisional basis. The Assistant/Deputy Commissioner shall also specify the rate or value at which the duty will be paid on provisional basis. [Rule 7(1)].

Payment of duty on provisional basis will be allowed subject to execution of bond for payment of differential duty [Rule 7(2)]. After that Assistant/Deputy Commissioner should pass order for final assessment within 6 months from date of order of provisional assessment. This period can be extended by further 6 months by Commissioner and further without any time limit by Chief Commissioner [Rule 7(3)]. If differential amount is payable, interest is payable [Rule 7(4)]. If excess amount was paid, it is refundable with interest [Rule 7(5)]. The refund is subject to provision of Unjust Enrichment [Rule 7(6)].

Finalisation of Provisional Assessment

AC/DC is required to pass order of final assessment after getting relevant information, within six months of date of communication of his order allowing provisional assessment. The period of 6 months can be extended by Commissioner of CE, on making a specific request, for reasons to be recorded in writing. Extension beyond one year for further period can be granted only by Chief Commissioner. [Rule 7(3) of Central Excise Rules].

No time limit for finalisation in case of customs – In *Shakti Beverages v. CC* 2003(153) ELT 445 (CEGAT 3 member bench), it was held that there is no time limit for finalising provisional assessment. The only question that can be considered by Tribunal is whether due to delay in finalising provisional assessment whether appellant has suffered any prejudice and whether there is violation of principles of natural justice. [The principle should apply to Central Excise also].

Interest payable/receivable - If differential duty is found to be payable, interest as specified in Section 11AA or 11AB will be payable by assessee from first day of the month succeeding the month *for which* such amount is determined till date of payment thereof. [Rule 7(4)].

Since the word used is '*for*', interest is payable from first day of next month after clearance of goods. For example, if goods were cleared on 15th October 2003 under provisional assessment and assessment was finalized on 25th March 2004, interest will be payable from 1st November, 2003 till date of payment.

If differential amount is found to be refundable to assessee, it shall be refunded with interest at rate as specified in Section 11BB. The period for payment of Interest will be same as per section 11BB. Thus, interest is payable by department is on the same basis as payable by assessee, i.e. not from date of finalisation of provisional assessment, but from month next to the month on which duty was provisionally paid. [Note that u/s 11BB, interest on delayed refund is payable only three months after filing of refund application. This provision does not apply to refund obtainable after finalization of Provisional Assessment].

Interest in case of customs - Section 18 of Customs Act (inserted w.e.f. 13-7-2006) makes provision for payment of interest after finalization of provisional assessment.

Refund after finalization of assessment

If duty is paid on provisional basis, refund claim can be filed within one year after duty is adjusted after final assessment. [Explanation B(eb) to Section 11B].

Refund subject to provision of Unjust Enrichment - Rule 7(6) of Central Excise Rules clarifies that refund is subject to provisions of 'Unjust Enrichment', i.e. refund will be granted to manufacturer if he has not passed on incidence of duty to another person – confirmed in *Hindustan Lever v. CCE* (2004) 171 ELT 12 (CESTAT).

In case of customs duty, there was no parallel provision in respect of provisional assessment. Section 18(5) of Customs Act inserted by Taxation Laws (Amendment) Act w.e.f. 13-7-2006, has made provision for unjust enrichment in case of customs duty refund when there was provisional assessment.

7.2 ADJUDICATION IN INDIRECT TAXES

Adjudicate means to hear or try and decide judicially and adjudication means giving a decision. As per Oxford Dictionary, 'adjudicate' means deciding judicially (regarding a claim etc.), pronounce.

Excise and Customs Authorities are empowered to determine classification, valuation, refund claims and the tax/duty payable. They are also empowered to grant various permissions under rules and impose fines, penalties, etc., and confiscate offending goods. Since the authorities are departmental officers, the process is called "departmental adjudication".

They are required to follow principles of natural justice. Their adjudicating powers are prescribed under Act and departmental circulars Their orders are appealable.

These are 'quasi judicial authorities' and they are not bound by any trade notice or instructions of superiors.

Uncontrolled authority may cause great damage to an assessee and hence opportunity of appeal against the order has been provided. The topmost authority of departmental appeal is "Tribunal" in Excise and Customs. The decision of the Tribunal is final as far as the departmental remedy of appeal is concerned. Provisions are available for appeal/reference to High Court/Supreme Court in limited cases. Needless to mention, writ jurisdiction of High Court and Supreme Court is independent of any provision/s of the Excise Act and Writ Petition can be filed in High Court/SLP in Supreme Court irrespective of any provision of Excise Act.

7.2.1 Principles of Natural Justice

Basic requirements of principle of natural justice are – (a) Full information about charges, (b) Allowing party to state his defence (Personal Hearing), (c) Unbiased authority & (d) Order with reasons.

7.2.2 Adjudicating Authority

- (i) Any authority competent to pass any order or decision under Central Excise Act.
- (ii) Commissioner (appeals) and CBEC are not adjudicating authority.
- (iii) If remission of duty for loss of goods involved is up to ₹ 10,000, the Superintendent of Central Excise is adjudicating authority.
- (iv) If amount of duty or Cenvat credit involved is up to ₹ 5,00,000, such demand can be made by Deputy/Assistant Commissioner of Central Excise. Remission of duty for loss of goods up to ₹ 1,00,000 can also be granted by such authority.
- (v) If amount of duty or Cenvat credit involved is above ₹ 5,00,000 and up to ₹ 50,00,000 such demand can be made by Joint Commissioner of Central Excise. Remission of duty for loss of goods up to ₹ 5,00,000 can also be granted by such authority.
- (vi) If amount of duty or Cenvat credit involved is above ₹ 5,00,000 and up to ₹ 50,00,000 such demand can be made by Additional Commissioner (Circular No. 957/18/2011-CX-3 25th October, 2011) or Commissioner of Central Excise. Remission of duty for loss of goods up to ₹ 5,00,000 can also be granted by such authority.
- (vii) Demand of duty or demand of CENVAT credit of any amount (i.e. without any upper limit) can be made by Commissioner or Commissioner of Central Excise.
- (viii) Gazetted officer rank starts from Superintendent of Central Excise.

7.2.3 Remission of Duty (Rule 21 of the Central Excise Rules, 2002)

Remission of Duty means duty levied but exempted from payment of duty with the permission of Adjudicating Authority. Where it is shown to the satisfaction of the Commissioner that goods have been lost or destroyed by natural causes or by unavoidable accident or are claimed by the manufacturer as unfit for consumption or for marketing, at any time before removal, he may remit the duty (i.e. no demand of duty) payable on such goods, subject to such conditions as may be imposed by him by order in writing (Rule 21 of the Central Excise Rules, 2002).

Note: Remission of duty is not allowed in case of theft, since the goods are available for consumption somewhere else.

Procedure for claiming Remission of Duty :

- (i) A manufacturer has to make an application in duplicate to the Range Officer indicating complete details of the goods and reasons for destruction, along with the proof that the goods have become unfit for consumption or for marketing such as report of chemical test or any other test, conducted by a Government recognized laboratory.
- (ii) The application will be quickly processed by the Range Office. In case the matter falls within the competency of superior officer, he will forward the application along with his recommendation to the Deputy/Assistant Commissioner within 15 days of receipt.
- (iii) The Deputy/Assistant Commissioner will scrutinise the application and based upon the information given by the assessee, if found in order, allow destruction of goods and remission of duty, if the case relates to his competency. Otherwise, he will forward the application with his remarks to the superior authority competent to give permission for destruction and remission (Additional/Joint Commissioner or Commissioner, as the case may be) within 3 days.
- (iv) Where only physical verification is required, the same may be conducted by the remission granting authority (proper officer), as specified above and upon his satisfaction, destruction of goods and remission of duty may be allowed.

- (v) As far as possible, destruction should be made inside the factory.
- (vi) The goods are rendered unfit for consumption or marketing should be accepted and necessary permission should be granted within a period of 21 days or earlier, if possible. Where samples are drawn, such permission should be granted within 45 days.

Example 1: B Ltd. was engaged in the manufacture of lead and zinc concentrates. At the time of carrying out the physical stock taking, some difference was found between the physically verified stock and the stock as per the books. According to B Ltd., this difference was due to de-bagging, shifting of concentrates, seepage of rain water and storage and loading on trucks. B Ltd. applied for the remission of duty under rule 21 of the Central Excise Rules, 2002. Revenue claimed that the shortage could have been avoided or minimized by the assessee, as they were neither due to natural causes, nor due to unavoidable accident. Thus, the prayer for remission was declined.

Answer:

In the case of *UOI v Hindustan Zinc Limited* 2009 (233) ELT 61 (Raj), the High court said that Revenue's claim is not valid in law. B Ltd can get benefit under Rule 21 of the Central Excise Rules 2002.

7.2.4 Rebate of Duty

Rebate of duty can be understood as duty draw back. Where any goods are exported, the Central Government may, by notification, grant rebate of duty paid on such excisable goods or duty paid on materials used in the manufacture or processing of such goods and the rebate shall be subject to such conditions or limitations, if any, and fulfillment of such procedure, as may be specified in the notification.

7.2.5 Recovery of duties not levied or not paid or short levied or short paid or erroneously refunded [Section 11A of Central Excise Act, 1944/Section 28 of Customs Act / Section 73 of Finance Act, 1994]

Show Cause Notice under section 11A(1)(a) of Central Excise Act provides that a Central Excise authority can, within ONE year from *relevant date*, serve show cause notice on assessee chargeable to duty if—

- (a) Central Excise duty has not been paid or short paid
- (b) Central Excise duty erroneously refunded.

The Apex Court held that the time-limit under section 11A of the Central Excise Act, 1944 is not applicable to recovery of dues under compounded levy scheme [*Hans Steel Rolling Mill v. CCE*, Chandigarh 2011 (265) E.L.T. 321 (S.C.)].

Section 28 of the Customs Act, 1962 also deals with recovery of duties not levied or short levied or erroneously refunded. In the case of *C.Cus. v Sayed Ali* 2011 (SC) the Apex Court held that—

- Director General of Revenue Intelligence or
- Director General of Central Excise Intelligence
- Are not eligible for issuing show cause notices. However, w.e.f 16.9.2011 the law amended retrospectively by providing validity to those show cause notices issued by the Director General of Revenue Intelligence or, Director General of Central Excise Intelligence.

Provided that the proper officer shall not serve such show cause notice, where the amount involved is less than rupee one hundred.

Duty and interest paid before issue of show cause notice Section 11A(1)(b)

As per section 11A(1)(b), the person chargeable with duty may, before service of notice under Section 11A(1)(a), pay on the basis of his own ascertainment of such duty or the duty ascertained by the Central Excise Officer, the amount of duty along with interest payable thereon under section 11AA.

Description	Relevant section	Time period to issue notice	Excise duty	Interest @18%p.a	Penalty equal to the duty specified in the notice
Duty paid along with interest before issue of show cause notice (other than fraud)	Section 11A(1)(b)	One year from the relevant date, if required	Liable to pay	Liable to pay	No penalty is required to pay

Intimation to the Central Excise Officer under section 11A(2): The person who has paid the duty under section 11A(1)(b), shall inform the Central Excise Officer of such payment in writing, who, on receipt of such information, shall not serve any notice under section 11A(1)(a) or any penalty leviable under the provisions of this Act or the rules made thereunder. It means penalty cannot be levied.

Show cause notice under section 11A(3): where the Central Excise Officer is of the opinion that the amount paid under section 11A(1)(b), falls short of the amount actually payable, then he shall proceed to issue the notice as provided under section 11A(1)(a) in respect of such amount which falls short of the amount actually payable in the manner specified under that sub-section and the period of ONE year shall be computed from the date of receipt of information under section 11A(2).

Show Cause Notice under section 11A(4) in case of fraud: the Central Excise Officer can also be issued a show cause notice within FIVE years from relevant date if Central Excise duty has not been paid by way of fraud, or collusion, or willful misstatement and suppression of facts, or contravention of any of the provisions of this Act or the rules made thereunder with intent to evade payment of duty. Show cause can be issued by demanding the amount of duty along with interest payable thereon under Section 11AA and a penalty equivalent to the duty specified in the notice.

Description	Relevant section	Time period to issue notice	Excise duty	Interest @18%p.a (1-4-2011)	Penalty (w.e.f. 8-4-2011)
Show Cause issued under on the grounds of fraud	Section 11A(4)	5 years from the relevant date	Liable to pay	Liable to pay	Liable to pay equal to the duty specified in the notice

Fraud noticed during the audit, investigation but the details are available in the specified records Section 11A(5):

As per Section 11A(5), where fraud or collusion or willful misstatement and suppression of facts, or contravention of any of the provisions of this Act, found during the course of any audit, investigation or verification but the details relating to the transactions are available in the specified record, then in such cases, the Central Excise Officer shall within a period of FIVE years from the relevant date, serve a notice on the person chargeable with duty requiring him to show cause why he should not pay the amount of specified in the notice along with interest under section 11AA and **penalty equivalent to 50% of such duty.**

Description	Relevant section	Time period to issue notice	Excise duty	Interest @18%p.a (w.e.f.1-4-2011)	Penalty (w.e.f. 8-4-2011)
Show Cause issued on the grounds of fraud. Fraud noticed during the audit, investigation but the details are available in the specified records	Section 11A(5)	5 years from the relevant date	Liable to pay	Liable to pay	Liable to pay equivalent to 50% of such duty

Fraud noticed during the audit, investigation but the details are available in the specified records, where as dues has been paid before issue of show cause notice Section 11(6)

Under section 11A(6), any person chargeable with duty under section 11(5) may, before service of show cause notice on him, pay the duty in full or in part, as may be accepted by him along with the interest payable thereon under section 11AA and penalty equal to 1% per month of such duty to be calculated from the month following the month in which such duty was payable, but not exceeding a maximum of 25% of the duty, and inform the Central Excise Officer of such payment in writing.

Description	Relevant section	Time period to issue notice	Excise duty	Interest @18%p.a (w.e.f. 1-4-2011)	Penalty (w.e.f. 8-4-2011)
Fraud noticed during the audit, investigation but the details are available in the specified records, where as dues has been paid before issue of show cause notice	Section 11A(6)	5 years from the relevant date (if applicable)	Liable to pay	Liable to pay	Liable to pay @1% per month of such duty or 25% of the duty whichever is less.

As per section 11A (7) the Central Excise Officer, on receipt of information under section 11(6) shall not serve any show cause notice and all proceedings in respect of the said duty shall be deemed to be concluded where it is found by the Central Excise Officer that the amount of duty, interest and penalty as provided under section 11(6) has been fully paid. If the Central Excise Officer found that duty short paid then show cause notice can be issued within ONE year shall be computed from the date of receipt of such information.

Section 11A is being amended to insert sub-section (7A) providing that service of a statement containing details of duty not paid, short levied or erroneously refunded shall be deemed to be service of notice under sub-section (1) or (3) or (4) or (5) of this section.

According to section 11A (8) while computing the period of ONE year or FIVE years the period during which there was any stay by an order of the court or tribunal in respect of payment of such duty shall be excluded.

As per section 11A(9) if the department has not been established against the person to whom notice was issued under section 11A(4) i.e. fraud or collusion or any willful mis-statement or suppression of facts or contravention of any of the provisions of this Act or of the rules made thereunder with intent to evade payment of duty, then any Appellate Authority or Tribunal or Court concludes that the notice issued by the Central Excise Officer shall determine the duty of excise payable by such person for the period of ONE year, deeming as if the notice were issued under Section 11A(1)(a).

As per section 11A(10) the Central Excise Officer shall determine the amount of duty of excise due from such person not being in excess of the amount specified in the show cause notice. The Central Excise Officer can do so after allowing the concerned person an opportunity of being heard.

Under section 11A(11) the Central Excise Officer shall determine the amount of duty of excise under section 11A(10) within SIX months from the date of notice where it is possible to do so, in respect of cases falling under section 11A(1). Cases falling under section 11A(4) and (5), within ONE year from the date of notice.

As per section 11A(12) where the Appellate Authority or Tribunal or Court modifies the amount of duty of excise determined by the Central Excise Officer under section 11(10), then the amount of penalties and interest under this section shall stand modified accordingly, taking into account the amount of duty of excise so modified.

As per section 11A(13) where the amount as modified by the Appellate Authority or Tribunal or Court is more than the amount determined under section 11A(10) by the Central Excise Officer, the time within which the interest or penalty is payable under this Act shall be counted from the date of the order of the appellate authority or tribunal or court in respect of such increased amount.

As per section 11A(14) where an order determining the duty of excise is passed by the Central Excise Officer under section 11A, the person liable to pay the said duty of excise shall pay the amount so determined along with the interest due on such amount whether or not the amount of interest is specified separately. It means section 11A and 11AA goes hand-in-hand.

As per section 11A(15) where interest alone is payable has not been paid or part paid or erroneously refunded, then section 11A(1) to (14) shall apply, *mutatis mutandis*.

Important points:

- (i) If the Court has issued a Stay Order for recovery of amount, the period during which the stay order is in operation will be excluded for calculation of the time limit.
- (ii) If demand has been raised without show cause, notice is invalid and unsustainable. At the same time penalty cannot be imposed if show cause notice does not contain proposal for penalty.
- (iii) While interpreting section 32L(3), the Gujarat High Court held that for working out the time limit prescribed under section 11A for recovery of duties, the period commencing from the date of application to the Settlement Commission to the date of receipt of the order under section 32L by the adjudicating authority, shall be excluded *Vishwa Traders Pvt. Ltd. v UOI 2009 (241) ELT 164 (Guj)*. Section 32L, deals with sending back a case to proper officer if applicant has not co-operated with the Settlement Commission.
- (iv) *Relevant Date*: it means it may be any one of the following:
 - (a) date of actual filling of monthly return, or
 - (b) Date on which return should have been filed, when required to be filed but not filed, or
 - (c) If no return is required to be filed under the Central Excise, then the date of payment of duty, or
 - (d) In case of provisional assessment, relevant date is the date of adjustment of duty after final adjustment.
 - (e) In case of erroneous refund, date of such refund.

7.2.6 Protective Demand

It means issue show-cause notice-cum-demand in time, so that it does not get time barred, specially in case of receipt of audit objections, protective demands should be issued in time.

7.2.7 Omission to Give Correct Information Cannot be Construed As 'Suppression of Facts' for the Purpose of the Proviso to Section 11A(1) of The Central Excise Act, 1944

In case of *Joint Venture v CCE 2007 (SC)*, the Supreme Court of India observed that since the expression "suppression" used in proviso to section 11A(1) of the Central Excise Act, 1944 is accompanied by very strong words as fraud or collusion, it should be construed strictly. Suppression means failure to disclose full information with intent to evade payment of duty. When the facts are known to both the parties, omission by one party to do what he might have done would not render it suppression. The Apex Court held that mere omission to give correct information is not suppression of facts unless it was deliberate to stop the payment of duty. The Apex Court explained that an incorrect statement cannot be equated with a willful misstatement.

7.3 ENFORCEMENT POWERS OF REVENUE OFFICERS

7.3.1 Powers of Central Excise Officers

- i. **Power to access registered premises:** As per Rule 22(1) of Central Excise Rules, 2002, an officer empowered by the Commissioner in this behalf shall have access to any premises registered under these rules for the purpose of carrying out any scrutiny, verification and checks as may be necessary to safeguard the interest of revenue.

- ii. **Power to stop and search:** As per Rule 23 of Central Excise Rules, 2002, any Central Excise Officer, may search any conveyance carrying excisable goods in respect of which he has reason to believe that the goods are being carried with the intention of evading duty.
- iii. **Power to detain or seize goods:** As per Rule 24 of Central Excise Rules, 2002, if a Central Excise Officer, has reason to believe that any goods, which are liable to excise duty but no duty has been paid thereon or the said goods were removed with the intention of evading the duty payable thereon, the Central Excise Officer may detain or seize such goods.
- iv. **Power to delegate authority:** As per Section 12E(1) of Central Excise Act, 1944, a Central Excise Officer may exercise the powers and discharge the duties conferred or imposed under this Act on any other Central Excise Officer who is sub-ordinate to him.

Notwithstanding anything contained in sub-section (1), the Commissioner of Central Excise (Appeals) shall not exercise the powers and discharge the duties conferred or imposed on a Central Excise Officer other than those specified in section 14.

- v. **Power to arrest:** As per the provisions of Section 13 of the Central Excise Act, 1944 the central excise officer not below the rank of inspector can arrest any person whom he has a reason to believe to be liable to punishment under the Central Excise Law. However, such an arrest can be only with the prior approval of Commissioner of Central Excise. The arrested person must be produced before the Magistrate within twenty four hours of the arrest.

According to Section 14 of the Central Excise Act, 1944, any Central Excise Officer not below the rank of Superintendent of Central Excise shall have power to summon any person whose attendance he considers necessary for gathering relevant evidence and documents. All persons so summoned shall be bound to attend, either in person or by an authorized agent. Every such inquiry as aforesaid shall be deemed to be a 'Judicial Proceeding' within the meaning of Section 193 and Section 228 of the Indian Penal Code, 1860.

Section 18 of the Central Excise Act, 1944 all arrests shall be carried out in accordance with the provisions of the Code of Criminal Procedure relating to arrest.

Note: provisions of arrest are not applicable to service tax matters.

- vi. **Power to summon persons to give evidence and produce documents in inquiries under this Act:** As per Section 14 of the Central Excise Act, 1944,
 - (a) Any Central Excise Officer duly empowered by the Central Government in this behalf, shall have power to summon any person whose attendance he considers necessary either to give evidence or to produce a document or any other thing in any inquiry which such officer is making for any of the purposes of this Act. A summons to produce documents or other things may be for the production of certain specified documents or things or for the production of all documents or things of a certain description in the possession or under the control of the person summoned.
 - (b) All persons so summoned shall be bound to attend, either in person or by an authorised agent, as such officer may direct; and all persons so summoned shall be bound to state the truth upon any subject respecting which they are examined or make statements and to produce such documents and other things as may be required:
Provided that the exemptions under Sections 132 and 133 of the Code of Civil Procedure, 1908 (5 of 1908) shall be applicable to requisitions for attendance under this section.
 - (c) Every such inquiry as aforesaid shall be deemed to be a "judicial proceeding" within the meaning of Section 193 and Section 228 of the Indian Penal Code, 1860.

7.3.2 Show-Cause Notice Can be Issued by the Following Authority Under Section 11A

Authority	Demand of Duty/Cenvat Credit (applicable for Central Excise and Service Tax matters)
Superintendents	Upto ₹ 1,00,000 (Excluding cases involving determination of rate of duty or valuation and cases involving extended period of limitation). [C.B.E. & C. Circular No. 922/12/2010-CX., dated 18.5.2010]
Assistant/Deputy Comm. of C. Ex	₹ 5,00,000 (Except the cases where Superintendents are empowered to adjudicate). [C.B.E. & C. Circular No. 922/12/2010-CX., dated 18.5.2010]
Joint Comm. of C. Ex.	₹ 5,00,000 to ₹ 50,00,000
Additional Comm. of C. Ex.	₹ 5,00,000 to ₹ 50,00,000 (Circular No. 957/18/2011-CX-3 25th October, 2011)
Commissioner of Central Excise	Without any limit.

It means to say that the Superintendent of Central Excise now can issue the show cause notice.

Now, Superintendents are eligible to issue Show Cause Notices (SCN) involving duty and or CENVAT credit upto ₹ 1,00,000. It means to say that Superintendents are competent to issue SCN were cases involving wrong availment of CENVAT credit upto a monetary limit of ₹ 1,00,000 or duty calculated wrongly. They also eligible to decide Show Cause Notice proposing only imposition of penalty.

However, they would not be eligible to decide (i.e. settle) cases which involve excisability of a product, classification, eligibility of exemption, valuation and cases involving suppression of facts, frauds etc. [C.B.E. & C. Circular No. 922/12/2010-CX, dated 18.5.2010]

A show cause notice issued before the finalization of provisional assessment is not valid in law. In the case of *CCE & C v I.T.C. Ltd.* (2006) the Supreme Court of India observed that the power to issue a show cause notice under section 11A of the Central Excise Act, 1944 can be invoked only when duty is not levied or not paid or short-levied or short-paid. Such a proceeding can be initiated within one year from the relevant date. As per section 11A(3)(ii)(b), in case of provisional assessment the relevant date is the date of adjustment of duty after final assessment.

7.3.3 Joint Commissioner or Additional Commissioner of Central Excise is Empowered to Issue Show Cause Notices Without Upper Monetary Limit in Cases Relating to

- i. export under bond or
- ii. export under rebate or
- iii. loss of goods during transit to warehouse

7.3.4 Records Should be Returned Within 30 Days from the Date of Issue of Show Cause Notice (Rule 24A of Central Excise Rules, 2002)

A new rule has been inserted in the Central Excise Rules 2002 to provide that records seized by the department during an investigation but not relied upon in the Show Cause Notice should be returned to the party within 30 days of the issue of show cause notice or the completion of the period for issue of the show cause notice [Notification No. 17/2009-CE(NT), dated 7.7.2009].

7.3.5 Interest on Delayed Payment of Duty (Section 11AA of C.Ex. Act W.E.F. 1-4-2011 Similar Provision Under the Section 28AA(1) of the Customs Act.)

Interest on delay payment should not be less than 10% and nor more than 36%. The interest is payable from the next date after the due date in case of delay in payment. The interest rate is 18%p.a. w.e.f. 1-4-2011. (Prior to 1-4-2011 it was @13% p.a.).

No interest shall be payable where, the duty payable arises subsequent to the issue of an order, instruction or direction by the Board under section 37B and such amount of duty is voluntarily paid in full, within 45 days from the date of issue of such order, instruction or direction, without reserving any right to appeal against the said payment at any subsequent stage of such payment.

Recovery of duty from successor: if the assessee transfers his business or trade to third party, any duty is due from predecessor (namely assessee) can be recovered from successor in trade or business. It is clear that only goods, plant etc transferred by predecessor can be attached and not goods or machinery acquired by the successor.

In case of liquidation of the company, the assets are transferred or disposed of by Court order and hence, recovery of duty from successor does not arise.

If non-payment or short payment of duty is due to oversight or by mistake but not intentional as per section 11A(2B), in such case it provides that the assessee in default may, before the notice issued under section 11A(1) is served on such assessee, make payment of the unpaid duty and inform to the Central Excise Officer in writing about the payment of differential amount. Hence, the person who has paid the duty under Section 11A(2B) shall, in addition to the duty be liable to pay the interest under section 11AA. However, no penalty is payable. [CCE v SKF India Ltd. 2009 (239) ELT 385 (SC)]

Example 2: Mr. X, paid the duty for the month of June 2011 on 15th July 2011. Hence, the interest @18% p.a. is calculated on the amount of duty for 10 days of delay (i.e. due date is 5th July 2011).

Example 3: Mr. Y, paid the duty for the month of June 2011 on 5th July for ₹ 10,300. It was found by the department officer, the actual amount of duty is ₹ 15,450 for the June 2011. Hence, the interest @18% p.a. is calculated on the amount of duty which is short paid from the 1st day of the month following the month in which the duty ought to have been paid, till the date of payment. It means delay number of days count start from 6th July 2011 upto the date of actual payment.

Interest @18% p.a. is payable from 6th July 2011 upto the date of payment.

7.4 PENALTIES IN INDIRECT TAX LAWS

7.4.1 Penalty [Section 11AC of Central Excise Act, 1944/Section 114A of Customs Act, 1962/Section 78 of Finance Act, 1994]

Penalty attracted if any duty of excise has not been levied or paid or has been short-levied or short-paid or erroneously refunded by reasons of fraud, collusion or any willful mis-statement or suppression of facts, or contravention of any of the provisions of this Act or of the rules made there under with intent to evade payment of duty.

7.4.2 Penalty Provisions W.E.F. 8-4-2011

Penalty equal to the duty evaded [section 11AC(1)(a)]

Where any duty of excise has not been levied or paid or short levied or short paid or erroneously refunded, by reason of fraud or collusion or any willful mis-statement or suppression of facts or contravention of any of the provisions of this Act or of the rules made there under with intent to evade payment of duty, the person who is liable to pay duty as determined under section 11A(10) shall also be liable to pay a penalty equal to the duty so determined. Provisions are same even in the case of Customs Act, 1962 under section 114A.

Penalty equal to fifty per cent, of the duty so evaded [section 11AC (1)(b)]

Where of any transaction available in the specified records, reveal that any duty of excise has not been levied or paid or short paid or erroneously refunded as referred to in section 11A(5) (i.e. details relating to the transactions are available in the specified records), the person who is liable to pay duty as determined under section 11A(10) shall also be liable to pay a penalty equal to 50% of the duty.

Penalty equal to twenty-five per cent, of the duty [section 11AC(1)(c)]

Any duty as determined by Central Excise Officer has been paid along with interest thereon under section 11AA (where duty earlier was not paid due to suppression or willful statement or fraud or collusion but transactions recorded in specified records) within 30 days of the date of communication of order of the Central Excise Officer, then the amount of penalty liable to be paid by such person shall be 25% of the duty.

If duty is paid but interest is not paid within 30 days, benefit of reduced penalty of 25% is not available.

The assessee can go for appeal after making payment of duty, interest and 25% of duty as penalty, if he likes.

Description	Relevant section	Time period to issue notice	Excise duty	Interest @18%p.a (w.e.f.1-4-2011)	Penalty (w.e.f. 8-4-2011)
Where duty earlier was not paid due to suppression or willful statement or fraud or collusion but transactions recorded in specified records.	Section 11AC(1)(c)	5 years from the relevant date	Liable to pay	Liable to pay	25% of the duty (Duty and interest paid within 30 days of the date of communication of order).

Modified penalty [section 11AC(1)(d)]

Where the appellate authority or tribunal or court modifies the amount of duty of excise determined by the Central Excise Officer under section 11A(10), then the amount of penalty and interest payable shall stand modified accordingly and after taking into account the amount of duty of excise so modified, the person who is liable to pay duty as determined under section 11A(10) shall also be liable to pay such amount of penalty or interest so modified.

Modified penalty more than the amount already determined [section 11AC(2)]

If the duty determined as payable is increased by appellate authority, benefit of reduced penalty will be available if interest and 25% of consequential increase in penalty is paid within 30 days. The count of 30 days starts from the date of the order of the appellate authority or tribunal or court in respect of such increased amount.

7.4.3 'Unjust Enrichment'

It means the assessee gaining double benefits under the law out of one transaction.

Example 4: X Ltd. manufactured and sold goods to its buyer by collecting excise duty. Subsequently X Ltd. claimed refund of excise duty for the same transaction. Hence, such refund of duty to the manufacturer will amount to excess and un-deserved profit. This is called as 'Unjust Enrichment'

Example 5: Y Ltd. collected the excise duty and not remitted to the department of Excise. This is known as 'Unjust Enrichment'

Example 6: Z Ltd. claimed the Cenvat credit of excise duty and duty drawback. This is called as 'Unjust Enrichment'.

Where refund is due (i.e. Unjust Enrichment) it should be transferred to a Consumer Welfare Fund instead of paying it to the assessee. Thereby, provisions in respect of 'Unjust Enrichment' were incorporated under Central Excise Act, 1944 which will be applicable even for Service Tax and Customs duty.

Refund of Duty and interest (Section 11B of Central Excise Act, 1944)

a. The assessee can claim the refund of duty if due to him along with interest (w.e.f. 10.05.2008).

- b. The refund should be filed in form 'R' in duplicate in the office of Assistant Commissioner of Central Excise or Deputy Commissioner of Central Excise.
- c. Application for refund should be made within ONE year from the relevant date. Time limit not applicable in the following cases:—
 - (i) duty paid by the assessee under protest
 - (ii) in case of appeal, order is decided in favour of assessee then the time limit of one year not applicable.
- d. The relevant date of one year count starts from the date of order.

Example 7: The assessee had paid excess amount of interest under section 11AA of Central Excise Act, 1944. Consequently, a refund claim for the said interest was filed by the assessee under section 11B. The Department objected to the refund claim on the ground that section 11B merely provides for refund of duty paid erroneously and not interest.

Answer:

As per the decision of the High Court, the payment of interest is automatic with payment of duty in case of delayed payment of duty and in case of delayed payment of refund of duty. Therefore payment of interest cannot be excluded from provisions of section 11B merely because it uses the expression of 'refund of duty' [CCEx. v Northern Minerals Ltd. 2007 (216) ELT 198 (P&H)]

Example 8: The assessee had never applied for revision of classification and once the classification is finalized and duty is paid accordingly, unless and until such classification is challenged and/or disturbed, it is not possible for the assessee to make refund claim based on some order passed by the Appellate authority in other case. Such order cannot universally be applied without going into facts of the case. Therefore, in the given case refund of duty is not allowed to the assessee- Wood Polymer Limited 2010 (H.C.).

7.4.4 Refund Under Section 11B of Central Excise Act, 1944/Section 27 of Customs Act, 1962/Section 83 of Finance Act, 1944 is applicable in the following Cases

- (a) rebate of duty of excise on excisable goods exported out of India or on excisable materials used in the manufacture of goods which are exported out of India;
- (b) unspent advance deposits lying in balance in the applicant's current account maintained with the Commissioner of Central Excise
- (c) refund of credit of duty paid on excisable goods used as inputs in accordance with the rules made, or any notification issued, under this Act;
- (d) the duty of excise paid by the manufacturer, if he had not passed on the incidence of such duty to any other person;
- (e) the duty of excise borne by the buyer, if he had not passed on the incidence of such duty to any other person;
- (f) the duty of excise borne by any other such class of applicants as the Central Government may, by notification in the Official Gazette, specify:

Example 9: Greenview Technologies Ltd. has paid excess amount of interest under section 11AA of Central Excise Act, 1944. Consequently, a refund claim for the said interest was filed by Greenview Technologies Ltd. under section 11B. The Department raised the objection to the refund claim on the ground that section 11B merely provides for refund of duty paid erroneously and not the interest. Do you think that the objection raised by the Department is valid in law?

Answer:

The provision applicable for refund of duty extended to refund of interest with effect from 10th May 2008. Hence, application for refund of duty has to be made by the assessee within one year from the relevant date to the Assistant or Deputy Commissioner of Central Excise.

Therefore Greenview Technologies Ltd is eligible to claim refund of interest along with duty. Department view is not valid.

7.4.5 Documents Required for Filing the Refund Applications

- i. Application form 'R'
- ii. ARE-1 (original copy)
- iii. Bill of lading or airway bill (duly attested)
- iv. Shipping bill copy duly attested
- v. Copy of invoice which shows clearly the value of goods and duty thereon.

7.4.6 Interest on Delayed Refunds (Section 11BB of Central Excise Act, 1944 Section 27A of Customs Act, 1962/Section 83 of Finance Act, 1994)

If the refund of duty along with interest has been granted to the assessee the same has to be paid within 3 months from the date of application made by him. If the amount is not paid within the time period of 3 months then interest @ 6% p.a. interest has to be paid.

While working out the time limit prescribed under section 11BB interest on delayed refunds, the period commencing from the date of application to the Settlement Commission under section 32E, to the date of receipt of the order under section 32L by the adjudicating authority, shall be excluded. Section 32L deals with sending back a case to proper officer if applicant has not co-operated with the Settlement Commission

7.4.7 Deposit of Duty Collected from the Buyer in Excess of Duty or Service Tax Assessed, into the Credit of Central Government. (Section 11D Of C. Ex Act, 1944 / Section 28B of Customs Act, 1962/Section 73A of Finance Act, 1994)

Interest on the amounts Collected in Excess of the Duty (Section 11DD of C. Ex. Act, 1944 / Section 73B of Finance Act, 1994)

Assessee is liable to make payment of interest on excess duty collected from any person or where a person has collected any amount as representing duty of excise on any excisable goods which are wholly exempt or are chargeable to nil rate of duty. Therefore, interest is payable @15% p.a. from the first day of the month succeeding the month in which the amount ought to have been paid till the date of payment of such amount Section 11DD of C.Ex. Act, 1944).

7.4.8 Provisional Attachment of Property (Section 11DDA of C.Ex. Act, 1944 Section 28BA of Customs Act, 1962 / Section 73C of Finance Act, 1994)

Omitted w.e.f. 1.3.2013.

7.4.9 Liability Under Act to be First Charge

w.e.f. 8-4-2011, the Finance Act, 2011 has inserted a new section 11E of the Central Excise Act, 1944 so as to create first charge on the property of the defaulter for recovery of excise duty dues from such defaulter subject to provisions of section 529A of the Companies Act, 1956 and the Recovery of Debts Due to Bank and the Financial Institutions Act, 1993 and the Securitization and Reconstruction of Financial Assets and the Enforcement of Security Interest Act, 2002. Similar provisions in Customs Act, 1962 under section 131BA.

Deposit of duty demanded or penalty levied (Section 35F of C.Ex. Act, 1944 / Section 129E of Customs Act, 1962/Section 83 of Finance Act, 1994)

The person aggrieved with the decision of the adjudicating authority wants to go for appeal against the order shall, pending the appeal, deposit the duty demanded or penalty levied. Sometimes, the appellate authority in its discretion dispense with such deposit (i.e. no deposit of duty is required in such case). Such waiver of deposit is with the interest of revenue. These provisions are same in case of Section 129E of the Customs Act, 1962.

Interest on delayed refund of amount deposited (Section 35FF of C.Ex. Act, 1944 / Section 129EE of Customs Act, 1962/Section 83 of Finance Act, 1994)

If the appeal is decided in the favour of assessee, the pre-deposit is refundable within three months from the date of communication of the order to adjudicating authority. Delay in refund will attract interest @ 6% as per section 11BB of C.Ex. Act, 1944.

Publishing the name of any person and particulars of any proceedings (Section 37E)

Section 37E introduced by the Taxation Laws (Amendment) Act, 2006 provides for publishing the name of any person and particulars of any proceedings in relation to such person, in public interest. The provisions are as follows:

- (i) The Central Government may publish name of any person and any other particulars relating to any proceedings or prosecutions in respect of such person if it is of the opinion that it is necessary or expedient in the public interest to do so. The Government can do the publication in such manner as it thinks fit.
- (ii) The publication shall be made in relation to any penalty only after the time for presenting an appeal to the Commissioner (Appeals) or the Appellate Tribunal expires without an appeal being presented or the appeal, if presented, gets disposed off.
- (iii) In the case of a firm, company or other association of persons, the names of the partners of the firm, directors, managing agents, secretaries and treasurers or managers of the company, or the members of the association, as the case may be, may also be published if, in the opinion of the Central Government, circumstances of the case justify it.

7.5 APPEAL PROVISIONS UNDER CENTRAL EXCISE, SERVICE TAX AND CUSTOMS

Assessment Procedure

7.5.1 Section 35: Appeals to Commissioner (Appeals) —

- (1) Any person aggrieved by any decision or order passed under this Act by a Central Excise Officer, lower in rank than a Commissioner of Central Excise, may appeal to the Commissioner of Central Excise (Appeals) hereafter in this Chapter referred to as the Commissioner (Appeals) within sixty days from the date of the communication to him of such decision or order:

Provided that the Commissioner (Appeals) may, if he is satisfied that the appellant was prevented by sufficient cause from presenting the appeal within the aforesaid period of sixty days, allow it to be presented within a further period of thirty days.

- (1A) The Commissioner (Appeals) may, if sufficient cause is shown at any stage of hearing of an appeal, grant time, from time to time, to the parties or any of them and adjourn the hearing of the appeal for reasons to be recorded in writing:

Provided that no such adjournment shall be granted more than three times to a party during hearing of the appeal.

- (2) Every appeal under this section shall be in the prescribed form and shall be verified in the prescribed manner.

SECTION 35A: Procedure in appeal -

- (1) The Commissioner (Appeals) shall give an opportunity to the appellant to be heard, if he so desires.
- (2) The Commissioner (Appeals) may, at the hearing of an appeal, allow an appellant to go into any ground of appeal not specified in the grounds of appeal, if the Commissioner (Appeals) is satisfied that the omission of that ground from the grounds of appeal was not wilful or unreasonable.
- (3) The Commissioner (Appeals) shall, after making such further inquiry as may be necessary, pass such order, as he thinks just and proper, confirming, modifying or annulling the decision or order appealed against

Provided that an order enhancing any penalty or fine in lieu of confiscation or confiscating goods of greater value or reducing the amount of refund shall not be passed unless the appellant has been given a reasonable opportunity of showing cause against the proposed order:

Provided further that where the Commissioner (Appeals) is of opinion that any duty of excise has not been levied or paid or has been short-levied or short-paid or erroneously refunded, no order requiring the appellant to pay any duty not levied or paid, short-levied or short-paid or erroneously refunded shall be passed unless the appellant is given notice within the time-limit specified in section 11A to show cause against the proposed order.

- (4) The order of the Commissioner (Appeals) disposing of the appeal shall be in writing and shall state the points for determination, the decision thereon and the reasons for the decision.
- (4A) The Commissioner (Appeals) shall, where it is possible to do so, hear and decide every appeal within a period of six months from the date on which it is filed.
- (5) On the disposal of the appeal, the Commissioner (Appeals) shall communicate the order passed by him to the appellant, the adjudicating authority, the Chief Commissioner of Central Excise and the Commissioner of Central Excise.

SECTION 35B: Appeals to the Appellate Tribunal -

- (1) Any person aggrieved by any of the following orders may appeal to the Appellate Tribunal against such order —
- (a) a decision or order passed by the Commissioner of Central Excise as an adjudicating authority;
 - (b) an order passed by the Commissioner (Appeals) under section 35A;
 - (c) an order passed by the Central Board of Excise and Customs constituted under the Central Boards of Revenue Act, 1963 (54 of 1963) (hereafter in this Chapter referred to as the Board) or the Appellate Commissioner of Central Excise under section 35, as it stood immediately before the appointed day;
 - (d) an order passed by the Board or the Commissioner of Central Excise, either before or after the appointed day, under section 35A, as it stood immediately before that day:

Provided that no appeal shall lie to the Appellate Tribunal and the Appellate Tribunal shall not have jurisdiction to decide any appeal in respect of any order referred to in clause (b) if such order relates to, —

- (a) a case of loss of goods, where the loss occurs in transit from a factory to a warehouse, or to another factory, or from one warehouse to another, or during the course of processing of the goods in a warehouse or in storage, whether in a factory or in a warehouse;

- (b) a rebate of duty of excise on goods exported to any country or territory outside India or on excisable materials used in the manufacture of goods which are exported to any country or territory outside India;
- (c) goods exported outside India (except to Nepal or Bhutan) without payment of duty;
- (d) credit of any duty allowed to be utilised towards payment of excise duty on final products under the provisions of this Act or the rules made thereunder and such order is passed by the Commissioner (Appeals) on or after the date appointed under section 109 of the Finance (No. 2) Act, 1998;

Provided further that the Appellate Tribunal may, in its discretion, refuse to admit an appeal in respect of an order referred to in clause (b) or clause (c) or clause (d) where—

- (i) in any disputed case, other than a case where the determination of any question having a relation to the rate of duty of excise or to the value of goods for purposes of assessment is in issue or is one of the points in issue, the difference in duty involved or the duty involved; or
- (ii) the amount of fine or penalty determined by such order, does not exceed fifty thousand rupees.

(1A) Every appeal against any order of the nature referred to in the first proviso to sub-section (1), which is pending immediately before the commencement of section 47 of the Finance Act, 1984, before the Appellate Tribunal and any matter arising out of, or connected with, such appeal and which is so pending shall stand transferred on such commencement to the Central Government, and the Central Government shall deal with such appeal or matter under section 35EE as if such appeal or matter were an application or a matter arising out of an app" made to it under that section.

(1B) (i) The Central Board of Excise and Customs constituted under the Central Boards of Revenue Act, 1963 (54 of 1963) may, by B* in the Official Gazette, constitute such Committee as may be necessary for the purposes of this Act.

(ii) Every Committee constituted under clause (i) shall consist of two Chief Commissioners of Central Excise or two Commissioners Central Excise, as the case may be.

(2) The Committee of Commissioners of Central Excise may, if it is of opinion that an order passed by the Appellate Commissioner Excise under section 35, as it stood immediately before the appointed day, or the Commissioner (Appeals) under section 35A, is not proper, direct any Central Excise Officer authorised by him in this behalf to appeal on its behalf to the Appellate Tribunal against such order.

Provided that where the Committee of Commissioners of Central Excise differs in its opinion regarding the appeal against the order Commissioner (Appeals), it shall state the point or points on which it differs and make a reference to the jurisdictional Chief Commissioner of Central Excise who shall, after considering the facts of the order, if is of the opinion that the order passed by the Commissioner (Appeals) is not legal or proper, direct any Central Excise Officer to appeal to the Appellate Tribunal against such order.

Explanation — For the purposes of this sub-section, "jurisdictional Chief Commissioner;" means the Chief Commissioner of Central Excise having jurisdiction over the adjudicating authority in the matter.

(3) Every appeal under this section shall be filed within three months from the date on which the order sought to be appealed against is communicated to the Commissioner of Central Excise, or, as the case may be, the other party preferring the appeal.

(4) On receipt of notice that an appeal has been preferred under this section, the party against whom the appeal has been preferred may, notwithstanding that he may not have appealed

against such order or any part thereof, file, within forty-five days of the receipt of the notice, a memorandum of cross-objections verified in the prescribed manner against any part of the order appealed against and such memorandum shall be disposed of by the Appellate Tribunal as if it were an appeal presented within the time specified in sub-section (3).

- (5) The Appellate Tribunal may admit an appeal or permit the filing of a memorandum of cross-objections after the expiry of the relevant period referred to in sub-section (3) or sub-section (4), if it is satisfied that there was sufficient cause for not presenting it within that period.
- (6) An appeal to the Appellate Tribunal shall be in the prescribed form and shall be verified in the prescribed manner and shall, irrespective of the date of demand of duty and interest or of levy of penalty in relation to which the appeal is made, be accompanied by a fee of, —
- (a) where the amount of duty and interest demanded and penalty levied by any Central Excise Officer in the case to which the relates is five lakh rupees or less, one thousand rupees;
 - (b) where the amount of duty and interest demanded and penalty levied by any Central Excise Officer in the case to which the relates is more than five lakh rupees but not exceeding fifty lakh rupees, five thousand rupees;
 - (c) where the amount of duty and interest demanded and penalty levied by any Central Excise Officer in the case to which the relates is more than fifty lakh rupees, ten thousand rupees:

Provided that no fee shall be payable in the case of an appeal referred to in sub-section (2) or a memorandum of cross-objections referred to sub-section (4).

- (7) Every application made before the Appellate Tribunal, —
- (a) in an appeal for grant of stay or for rectification of mistake or for any other purpose; or
 - (b) for restoration of an appeal or an application,
- shall be accompanied by a fee of five hundred rupees :

Provided that no such fee shall be payable in the case of an application filed by or on behalf of the Commissioner of Central Excise under this sub-section.

7.5.2 Departmental Appeals not Allowed (W.E.F. 01-09-2011)

The Central Board of Excise and Customs (CBE&C) has issued instructions (vide F.No. 390/ Misc./ 163/2010-JC dated 17-8-2011) by fixing the following different minimum monetary limits for filing appeals to the Customs, Excise and Service Tax Appellate Tribunal (CESTAT) and High Court:

- i. Departmental appeals in the Tribunal (CESTAT) shall not be filed in cases where the duty involved is ₹5 lakh and below.
- ii. Departmental appeals in the High Court should not be filed in cases where the duty involved is ₹10 lakhs and below.
- iii. Departmental appeals in the Supreme Court should not be filed in cases where the duty involved is ₹25 lakhs and below

However, Departmental appeals in case of adverse judgments relating to the following disputes shall be allowed irrespective of the amount involved.

- (a) Where the constitutional validity of the provisions of an Act or Rule is under challenge.
- (b) Where notification/instruction/order or Circular has been held illegal or ultra virus.

Example 10: X Ltd. received a protective demand notice from the department on 1.7.2013 under Section 11A of the Central Excise Act, 1944 where the duty demanded is ₹ 5,00,000, in addition to interest of ₹ 10,000 and Penalty of ₹ 1,00,000. The assessee went for appeal and filed the case in the Commissioner (Appeals) on 1.8.2013. Subsequently on 31.10.2013, the Commissioner (Appeals) decided

the case in favour of the assessee. The Committee of Commissioners can delegate the authority to the department officers to go for further appeal on its behalf to the Appellate Tribunal (CESTAT) against such order.

Answer:

As per the Central Board of Excise and Customs (CBE&C) instructions (vide F.No. 390/Misc./163/ 2010-JC dated 17-8-2011), in a case involving duty of ₹ 5 lakh and below, no appeal shall henceforth (i.e. w.e.f. 1-9-2011) be filed in the Tribunal (CESTAT).

Hence, in the given case, no appeal shall henceforth be filed in the Tribunal as the duty involved is within the monetary limit of ₹ 5 lakh.

SECTION 35C: Orders of Appellate Tribunal -

(1) The Appellate Tribunal may, after giving the parties to the appeal an opportunity of being heard, pass such orders thereon as it thinks fit, confirming, modifying or annulling the decision or order appealed against or may refer the case back to the authority which passed such decision or order with such directions as the Appellate Tribunal may think fit, for a fresh adjudication or decision, as the case may be, after taking additional evidence, if necessary.

(1A) The Appellate Tribunal may, if sufficient cause is shown, at any stage of hearing of an appeal, grant time, from time to time, to the parties or any of them and adjourn the hearing of the appeal for reasons to be recorded in writing:

Provided that no such adjournment shall be granted more than three times to a party during hearing of the appeal.

(2) The Appellate Tribunal may, at any time within six months from the date of the order, with a view to rectifying any mistake apparent from the record, amend any order passed by it under sub-section (1) and shall make such amendments if the mistake is brought to its notice by the Commissioner of Central Excise or the other party to the appeal:

Provided that an amendment which has the effect of enhancing an assessment or reducing & refund or otherwise increasing the liability of the other party, shall not be made under this sub-section, unless the Appellate Tribunal has given notice to him of its intention to do so and has allowed him a reasonable opportunity of being heard.

(2A) The Appellate Tribunal shall, where it is possible to do so, hear and decide every appeal within a period of three year from the date on which such appeal is filed:

Provided that where an order of stay is made in any proceedings relating to an appeal filed under sub section (1) of section 35B, the Appellate Tribunal shall dispose of the appeal within a period of one hundred and eighty days from the date of such order:

Provided further that if such appeal is not disposed of within the period specified in the first proviso, the stay order shall, on expiry of that period, stand vacated.

Provided that in case where delay in disposing of the appeal is not attributable to the appellant, the tribunal may extend the period of stay by a period not exceeding 185 days subject to the condition that if the appeal is not disposed of within the total period of 365 days from the date of order, the stay shall stand vacated.

(3) The Appellate Tribunal shall send a copy of every order passed under this section to the Commissioner of Central Excise and the other party to the appeal.

(4) Save as provided in the National Tax Tribunal Act, 2005, orders passed by the Appellate Tribunal on appeal shall be final.

Example 11: The CESTAT passed its order on 01.01.2009. The assessee filed the application for rectification of a mistake apparent from the record in the said order on 23.05.2009. However, the Tribunal could

not dispose of the application till 30.06.2009. Thereafter, the Tribunal rejected the application on the ground that the six months period had lapsed. Do you think that the stand taken by the Tribunal is valid in law?

Answer:

The assessee has filed the application for rectification of mistake apparent from the record within six month from the date of passing the original order. Hence, it is apparent that Tribunal is not justified in rejecting the application on the ground that the six months period has lapsed as the application had been filed before the expiry of SIX months. *Sree Ayyangar Spg & Wvg Mills Ltd. v CIT* 2008 (229) ELT 164 (SC).

Example 12: The High Court held that in a case of confiscation of goods because of their under valuation, Tribunal could not cancel the confiscation order for want of evidence from the foreign supplier. *CCus. v Jaya Singh Vijaya Jhaveri* 2010 (251) ELT 38 (Ker).

An order passed by CESTAT based on consent and the matter was remanded at the instance of Revenue, then Revenue could not pursue an appeal against such order in a higher forum.

Example 13: The Tribunal had remanded the matter in order to re-compute the duty payable by the assessee on the basis of representation of Revenue. Thereafter, the Revenue filed an appeal against the said order. The assessee contended that the appeal filed by the Revenue was not maintainable since the order had been passed by the Tribunal on the submission of the representative of the Revenue. Further, since it is a consent order, no appeal would lie. Hence, the High Court held that an appeal against the consent order cannot be filed by the Revenue (*CCus v Trilux Electronics* 2010 (253) ELT 367 (Kar)).

SECTION 35D: Procedure of Appellate Tribunal -

- (1) The provisions of subsections (1), (2), (5) and (6) of section 129C of the Customs Act, 1962(52 of 1962), shall apply to the Appellate Tribunal in the discharge of its functions under this Act as they apply to it in the discharge of its functions under the Customs Act, 1962.
- (2) Omitted
- (3) The President or any other member of the Appellate Tribunal authorised in this behalf by the President may, sitting singly, dispose of any case which has been allotted to the Bench of which he is a member where—
 - (a) in any disputed case, other than a case where the determination of any question having a relation to the rate of duty of excise or to the value of goods for purposes of assessment is in issue or is one of the points in issue, the difference in duty involved or the duty involved; or
 - (b) the amount of fine or penalty involved, does not exceed ten lakh rupees.

SECTION 35E: Powers of Board or Commissioner of Central Excise to pass certain orders —

- (1) The Committee of Chief Commissioners of Central Excise may, of its own motion, call for and examine the record of any proceeding in which a Commissioner of Central Excise as an adjudicating authority has passed any decision or order under this Act for the purpose of satisfying itself as to the legality or propriety of any such decision or order and may, by order, direct such Commissioner or any other Commissioner to apply to the Appellate Tribunal for the determination of such points arising out of the decision or order as may be specified by the Committee of Chief Commissioners of Central Excise in its order.

Provided that where the Committee of Chief Commissioners of Central Excise differs in its opinion as to the legality or propriety of the decision or order of the Commissioner of Central Excise, it shall state the point or points on which it differs and make a reference to the Board which,

after considering the facts of the decision or order, if is of the opinion that the decision or order passed by the Commissioner of Central Excise is not legal or proper, may, by order, direct such Commissioner or any other Commissioner to apply to the Appellate Tribunal for the determination of such points arising out of the decision or order, as may be specified in its order.

- (2) The Commissioner of Central Excise may, of his own motion, call for and examine the record of any proceeding in which an adjudicating authority subordinate to him has passed any decision or order under this Act for the purpose of satisfying himself as to the legality or propriety of any such decision or order and may, by order, direct such authority or any Central Excise Officer subordinate to him to apply to the Commissioner (Appeals) for the determination of such points arising out of the decision or order as may be specified by the Commissioner of Central Excise in his order.
- (3) Every order under sub-section (1) or sub-section (2), as the case may be, shall be made within a period of three months from the date of communication of the decision or order of the adjudicating authority.
- (4) Where in pursuance of an order under sub-section (1) or sub-section (2), the adjudicating authority or the authorised officer makes an application to the Appellate Tribunal or the Commissioner (Appeals) within a period of one month from the date of communication of the order under sub-section (1) or sub-section (2) to the adjudicating authority, such application shall be heard by the Appellate Tribunal or the Commissioner (Appeals), as the case may be, as if such application were an appeal made against the decision or order of the adjudicating authority and the provisions of this Act regarding appeals, including the provisions of sub-section (4) of section 35B shall, so far as may be, apply to such application.

SECTION 35EE: Revision by Central Government—

- (1) The Central Government may, on the application of any person aggrieved by any order passed under section 35A, where the order is of the nature referred to in the first proviso to sub-section (1) of section 35B, annul or modify such order.

Provided that the Central Government may in its discretion, refuse to admit an application in respect of an order where the amount of duty or fine or penalty, determined by such order does not exceed five thousand rupees.

Explanation.— For the purposes of this sub-section, “order passed under section 35A” includes an order passed under that section before the commencement of section 47 of the Finance Act, 1984 against which an appeal has not been preferred before such commencement and could have been, if the said section had not come into force, preferred after such commencement, to the Appellate Tribunal.

- (1A) The Commissioner of Central Excise may, if he is of the opinion that an order passed by the Commissioner (Appeals) under section 35A is not legal or proper, direct the proper officer to make an application on his behalf to the Central Government for revision of such order.
- (2) An application under sub-section (1) shall be made within three months from the date of the communication to the applicant of the order against which the application is being made:

Provided that the Central Government may, if it is satisfied that the applicant was prevented by sufficient cause from presenting the application within the aforesaid period of three months, allow it to be presented within a further period of three months.

- (3) An application under sub-section (1) shall be in such form and shall be verified in such manner as may be specified by rules made in this behalf and shall be accompanied by a fee of,—
 - (a) two hundred rupees, where the amount of duty and interest demanded, fine or penalty levied by any Central Excise Officer in the case to which the application relates is one lakh rupees or less;

- (b) one thousand rupees, where the amount of duty and interest demanded, fine or penalty levied by any Central Excise Officer in the case to which the application relates is more than one lakh rupees:

Provided that no such fee shall be payable in the case of an application referred to in sub-section (1A).

- (4) The Central Government may, of its own motion, annul or modify any order referred to in sub-section (1).
- (5) No order enhancing any penalty or fine in lieu of confiscation or confiscating goods of greater value shall be passed under this section,—
- (a) in any case in which an order passed under section 35A has enhanced any penalty or fine in lieu of confiscation or has confiscated goods of greater value; and
- (b) in any other case, unless the person affected by the proposed order has been given notice to show cause against it within one year from the date of the order sought to be annulled or modified.
- (6) Where the Central Government is of opinion that any duty of excise has not been levied or has been short-levied, no order levying or enhancing the duty shall be made under this section unless the person affected by the proposed order is given notice to show cause against it within the time limit specified in section 11A.

SECTION 35F: Deposit, pending appeal, of duty demanded or penalty levied.—Where in any appeal under this Chapter, the decision or order appealed against relates to any duty demanded in respect of goods which are not under the control of central excise authorities or any penalty levied under this Act the person desirous of appealing against such decision or order shall, pending the appeal, deposit with the adjudicating authority the duty demanded or the penalty levied:

Provided that where in any particular case, the Commissioner (Appeals) or the Appellate Tribunal is of opinion that the deposit of duty demanded or penalty levied would cause undue hardship to such person, the Commissioner (Appeals) or, as the case may be, the Appellate Tribunal, may dispense with such deposit subject to such conditions as he or it may deem fit to impose so as to safeguard the interests of revenue.

Provided further that where an application is filed before the Commissioner (Appeals) for dispensing with the deposit of duty demanded or penalty levied under the first proviso, the Commissioner (Appeals) shall, where it is possible to do so, decide such application within thirty days from the date of its filing.

Explanation.— For the purposes of this section “duty demanded” shall include, —

- (i) amount determined under section 11D;
- (ii) amount of erroneous Cenvat credit taken;
- (iii) amount payable under rule 57CC of Central Excise Rules, 1944;
- (iv) amount payable under rule 6 of Cenvat Credit Rules, 2001 or Cenvat Credit Rules, 2002 or Cenvat Credit Rules, 2004;
- (v) interest payable under the provisions of this Act or the rules made thereunder.

SECTION 35FF: Interest on delayed refund of amount deposited under the proviso to section 35F. — Where an amount deposited by the appellant in pursuance of an order passed by the Commissioner (Appeals) or the Appellate Tribunal (hereinafter referred to as the appellate authority), under the first proviso to section 35F, is required to be refunded consequent upon the order of the appellate authority and such amount is not refunded within three months from the date of communication of such order to the adjudicating authority, unless the operation of the order of the appellate authority is stayed by a superior court or tribunal, there shall be paid to the appellant interest at the rate specified in section

11BB after the expiry of three months from the date of communication of the order of the appellate authority, till the date of refund of such amount.

SECTION 35G: Appeal to High Court -

- (1)** An appeal shall lie to the High Court from every order passed in appeal by the Appellate Tribunal on or after the 1st day of July, 2003 (not being an order relating, among other things, to the determination of any question having a relation to the rate of duty of excise or to the value of goods for purposes of assessment), if the High Court is satisfied that the case involves a substantial question of law.
- (2)** The Commissioner of Central Excise or the other party aggrieved by any order passed by the Appellate Tribunal may file an appeal to the High Court and such appeal under this sub-section shall be
 - (a) filed within one hundred and eighty days from the date on which the order appealed against is received by the Commissioner of Central Excise or the other party;
 - (b) accompanied by a fee of two hundred rupees where such appeal is filed by the other party; in the form of a memorandum of appeal precisely stating therein the substantial question of law involved.
- (2A)** The High Court may admit an appeal after the expiry of the period of one hundred and eighty days referred to in clause (a) of sub-section (2), if it is satisfied that there was sufficient cause for not filing the same within that period.
- (3)** Where the High Court is satisfied that a substantial question of law is involved in any case, it shall formulate that question.
- (4)** The appeal shall be heard only on the question so formulated, and the respondents shall, at the hearing of the appeal, be allowed to argue that the case does not involve such question:

Provided that nothing in this sub-section shall be deemed to take away or abridge the power of the court to hear, for reasons to be recorded, the appeal on any other substantial question of law not formulated by it, if it is satisfied that the case involves such question.
- (5)** The High Court shall decide the question of law so formulated and deliver such judgment thereon containing the grounds on which such decision is founded and may award such cost as it deems fit.
- (6)** The High Court may determine any issue which-
 - (a) has not been determined by the Appellate Tribunal; or
 - (b) has been wrongly determined by the Appellate Tribunal, by reason of a decision on such question of law as is referred to in subsection (1).
- (7)** When an appeal has been filed before the High Court, it shall be heard by a bench of not less than two judges of the High Court, and shall be decided in accordance with the opinion of such judges or of the majority, if any, of such judges.
- (8)** Where there is no such majority, the judges shall state the point of law upon which they differ and the case shall, then, be heard upon that point only by one or more of the other judges of the High Court and such point shall be decided according to the opinion of the majority of the judges who have heard the case including those who have first heard it.
- (9)** Save as otherwise provided in this Act, the provisions of the Code of Civil Procedure, 1908, relating to appeals to the High Court shall, as far as may be, apply in the case of appeals under this section.

SECTION 35-I: Power of High Court or Supreme Court to require statement to be amended — If the High Court or the Supreme Court is not satisfied that the statements in a case referred to it are sufficient to enable it to determine the questions raised thereby, the Court may refer the case back to the Appellate Tribunal for the purpose of making such additions thereto or alterations therein as it may direct in that behalf.

SECTION 35J: Case before High Court to be heard by not less than two judges —

- (1) When any case has been referred to the High Court under section 35G or section 35H, it shall be heard by a Bench of not less than two judges of the High Court and shall be decided in accordance with the opinion of such judges or of the majority, if any, of such judges.
- (2) Where there is no such majority, the judges shall state the point of law upon which they differ and the case shall then be heard upon that point only by one or more of the other judges of the High Court, and such point shall be decided according to the opinion of majority of the judges who have heard the case including those who first heard it.

SECTION 35K: Decision of High Court or Supreme Court on the case stated —

- (1) The High Court or the Supreme Court hearing any such case shall decide the question of law raised therein and shall deliver its judgment thereon containing the grounds on which such decision is founded and a copy of the judgment shall be sent under the seal of the Court and the signature of the Registrar to the Appellate Tribunal which shall pass such orders as are necessary to dispose of the case in conformity with such judgment.
- (1A) Where the High Court delivers a judgment in an appeal filed before it under section 35G, effect shall be given to the order passed on the appeal by the concerned Central Excise Officer on the basis of a certified copy of the judgment;
- (2) The costs of any reference to the High Court or an appeal to the High Court or the Supreme Court, as the case may be, which shall not include the fee for making the reference, shall be in the discretion of the Court.

SECTION 35L: Appeal to the Supreme Court - An appeal shall lie to the Supreme Court from—

- (a) any judgment of the High Court delivered-
 - (i) in an appeal made under section 35G; or
 - (ii) on a reference made under section 35G by the Appellate Tribunal before the 1st day of July, 2003; or
 - (iii) on a reference made under section 35H,
in any case which, on its own motion or on an oral application made by or on behalf of the party aggrieved, immediately after passing of the judgment the High Court certifies to be a fit one for appeal to the Supreme Court.
- (b) any order passed before the establishment of the National Tax Tribunal by the Appellate Tribunal relating, among other things, to the determination of any question having a relation to the rate of duty of excise or to the value of goods for purposes of assessment.

SECTION 35M: Hearing before Supreme Court -

- (1) The provisions of the Code of Civil Procedure, 1908, relating to appeals to the Supreme Court shall, so far as may be, apply in the case of appeals under section 35L as they apply in the case of appeals from decrees of a High Court:

Provided that nothing in this sub-section shall be deemed to affect the provisions of sub-section (1) of section 35K or section 35N.

- (2) The costs of the appeal shall be in the discretion of the Supreme Court.

- (3) Where the judgment of the High Court is varied or reversed in the appeal, effect shall be given to the order of the Supreme Court in the manner provided in section 35K in the case of a judgment of the High Court.

SECTION 35N: Sums due to be paid notwithstanding reference, etc — Notwithstanding that a reference had been made to the High Court or the Supreme Court or an appeal has been preferred to the Supreme Court, under this Act before the commencement of the National Tax tribunal Act, 2005, sums due to the Government as a result of an order passed under sub-section (1) of section 35C shall be payable in accordance with the order so passed.

SECTION 35-O: Exclusion of time taken for copy — In computing the period of limitation prescribed for an appeal or application under this Chapter, the day on which the order complained of was served, and if the party preferring the appeal or making the application was not furnished with a copy of the order when the notice of the order was served upon him, the time requisite for obtaining a copy of such order shall be excluded.

SECTION 35Q: Appearance by authorised representative —

- (1) Any person who is entitled or required to appear before a Central Excise Officer or the Appellate Tribunal in connection with any proceedings under this Act, otherwise than when required under this Act to appear personally for examination on oath or affirmation, may, subject to the other provisions of this section, appear by an authorised representative.
- (2) For the purposes of this section, "authorised representative" means a person authorised by the person referred to in sub-section (1) to appear on his behalf, being—
- (a) his relative or regular employee; or
 - (b) any legal practitioner who is entitled to practice in any civil court in India; or
 - (c) any person who has acquired such qualifications as the Central Government may prescribe for this purpose.
- (3) Notwithstanding anything contained in this section, no person who was a member of the Indian Customs and Central Excise Service -Group A and has retired or resigned from such Service after having served for not less than three years in any capacity in that Service, shall be entitled to appear as an authorised representative in any proceedings before a Central Excise Officer for a period of two years from the date of his retirement or resignation, as the case may be.
- (4) No person,—
- (c) who has been dismissed or removed from Government service; or
 - (d) who is convicted of an offence connected with any proceeding under this Act, the Customs Act, 1962 or the Gold (Control) Act, 1968; or
 - (e) who has become an insolvent, shall be qualified to represent any person under sub-section (1),
for all times in the case of a person referred to in clause (a), and for such time as the Commissioner of Central Excise or the competent authority under the Customs Act, 1962 or the Gold (Control) Act, 1968, as the case may be, may, by order, determine in the case of a person referred to in clause (b), and for the period during which the insolvency continues in the case of a person referred to in clause (c).
- (5) If any person, —
- (a) who is a legal practitioner, is found guilty of misconduct in his professional capacity by any authority entitled to institute proceedings against him, an order passed by that authority shall have effect in relation to his right to appear before a Central Excise Officer or the Appellate Tribunal as it has in relation to his right to practice as a legal practitioner;

- (b) who is not a legal practitioner, is found guilty of misconduct in connection with any proceedings under this Act by the prescribed authority, the prescribed authority may direct that he shall thenceforth be disqualified to represent any person under sub-section (1).
- (6) Any order or direction under clause (b) of sub-section (4) or clause (b) of sub-section (5) shall be subject to the following conditions, namely: —
- (a) no such order or direction shall be made in respect of any person unless he has been given a reasonable opportunity of being heard;
 - (b) any person against whom any such order or direction is made may, within one month of the making of the order or direction, appeal to the Board to have the order or direction cancelled; and
 - (c) no such order or direction shall take effect until the expiration of one month from the making thereof, or, where an appeal has been preferred, until the disposal of the appeal.

SECTION 35R: Appeal not to be filed in certain cases —

- (1) The Central Board of Excise and Customs may, from time to time, issue orders or instructions or directions fixing such monetary limits, as it may deem fit, for the purposes of regulating the filing of appeal, application, revision or reference by the Central Excise Officer under the provisions of this Chapter.
- (2) Where, in pursuance of the orders or instructions or directions, issued under sub-section (1), the Central Excise Officer has not filed an appeal, application, revision or reference against any decision or order passed under the provisions of this Act, it shall not preclude such Central Excise Officer from filing appeal, application, revision or reference in any other case involving the same or similar issues or questions of law.
- (3) Notwithstanding the fact that no appeal, application, revision or reference has been filed by the Central Excise Officer pursuant to the orders or instructions or directions issued under sub-section (1), no person, being a party in appeal, application, revision or reference shall contend that the Central Excise Officer has acquiesced in the decision on the disputed issue by not filing appeal, application, revision or reference.
- (4) The Appellate Tribunal or court hearing such appeal, application, revision or reference shall have regard to the circumstances under which appeal, application, revision or reference was not filed by the Central Excise Officer in pursuance of the orders or instructions or directions issued under sub-section (1).
- (5) Every order or instruction or direction issued by the Central Board of Excise and Customs on or after the 20th day of October, 2010, but before the date on which the Finance Bill, 2011 receives the assent of the President, fixing monetary limits for filing of appeal, application, revision or reference shall be deemed to have been issued under sub-section (1) and the provisions of sub-sections (2), (3) and (4) shall apply accordingly.

SECTION 36: Definitions - In this Chapter - (b) "High Court" means, -

- (i) In relation to any State, the High Court for that State;
 - (ii) In relation to a Union Territory to which the jurisdiction of the High Court of a State has been extended by law, that High Court;
 - (iii) In relation to the Union Territories of Dadra and Nagar Haveli and Daman and Diu the High Court at Bombay;
 - (iv) In relation to any other Union Territory, the highest court of civil appeal for that territory other than the Supreme Court of India.
- (c) "President" means the President of the Appellate Tribunal.

SECTION 36A: Presumption as to documents in certain cases — Where any document is produced by any person or has been seized from the custody or control of any person, in either case, under this Act or under any other law and such document is tendered by the prosecution in evidence against him or against him and any other person who is tried jointly with him, the Court shall, —

- (a) unless the contrary is proved by such person, presume —
 - (i) the truth of the contents of such document;
 - (ii) that the signature and every other part of such document which purports to be in the handwriting of any particular person or which the Court may reasonably assume to have been signed by, or to be in the handwriting of, any particular person, is in that person's handwriting, and in the case of a document executed or attested, that it was executed or attested by the person by whom it purports to have been so executed or attested;
- (b) admit the document in evidence, notwithstanding that it is not duly stamped, if such document is otherwise admissible in evidence.

SECTION 37C: Service of decisions, orders, summons, etc. —

- (1) Any decision or order passed or any summons or notices issued under this Act or the rules made thereunder, shall be served, —
 - (a) by tendering the decision, order, summons or notice, or sending it by registered post with acknowledgement due, to the person for whom it is intended or his authorised agent, if any;
 - (b) if the decision, order, summons or notice cannot be served in the manner provided in clause (a), by affixing a copy thereof to some conspicuous part of the factory or warehouse or other place of business or usual place of residence of the person for whom such decision, order, summons or notice, as the case may be, is intended;
 - (c) if the decision, order, summons or notice cannot be served in the manner provided in clauses (a) and (b), by affixing a copy thereof on the notice board of the officer or authority who or which passed such decision or order or issued such summons or notice.
- (2) Every decision or order passed or any summons or notice issued under this Act or the rules made thereunder, shall be deemed to have been served on the date on which the decision, order, summons or notice is tendered or delivered by post or a copy thereof is affixed in the manner provided in sub-section (1).

SECTION 38A: Effect of amendments, etc., of rules, notifications or orders — Where any rule, notification or order made or issued under this Act or any notification or order issued under such rule, is amended, repealed, superseded or rescinded, then, unless a different intention appears, such amendment, repeal, supersession or rescinding shall not -

- (a) revive anything not in force or existing at the time at which the amendment, repeal, supersession or rescinding takes effect; or
 - (b) affect the previous operation of any rule, notification or order so amended, repealed, superseded or rescinded or anything duly done or suffered thereunder; or
 - (c) affect any right, privilege, obligation or liability acquired, accrued or incurred under any rule, notification or order so amended, repealed, superseded or rescinded; or
 - (d) affect any penalty, forfeiture or punishment incurred in respect of any offence committed under or in violation of any rule, notification or order so amended, repealed, superseded or rescinded; or
 - (e) affect any investigation, legal proceeding or remedy in respect of any such right, privilege, obligation, liability, penalty, forfeiture or punishment as aforesaid,
- and any such investigation, legal proceeding or remedy may be instituted, continued or enforced

and any such penalty, forfeiture or punishment may be imposed as if the rule, notification or order, as the case may be, had not been amended, repealed, superseded or rescinded.

SECTION 84: Appeals to Commissioner of Central Excise (Appeals) —

- (1) The Commissioner of Central Excise may, of his own motion, call for and examine the record of any proceedings in which an adjudicating authority subordinate to him has passed any decision or order under this Chapter for the purpose of satisfying himself as to the legality or propriety of any such decision or order and may, by order, direct such authority or any Central Excise Officer subordinate to him to apply to the Commissioner of Central Excise (Appeals) for the determination of such points arising out of the decision or order as may be specified by the Commissioner of Central Excise in his order.
- (2) Every order under sub-section (1) shall be made within a period of three months from the date of communication of the decision or order of the adjudicating authority.
- (3) Where in pursuance of an order under sub-section (1), the adjudicating authority or any other officer authorised in this behalf makes an application to the Commissioner of Central Excise (Appeals) within a period of one month from the date of communication of the order under sub-section (3) to the adjudicating authority, such application shall be heard by the Commissioner of Central Excise (Appeals), as if such application were an appeal made against the decision or order of the adjudicating authority and the provisions of this Chapter regarding appeals shall apply to such application.

Explanation. — For the removal of doubts, it is hereby declared that any order passed by an adjudicating officer subordinate to the Commissioner of Central Excise immediately before the commencement of clause (C) of section 113 of the Finance (No. 2) Act, 2009, shall continue to be dealt with by the Commissioner of Central Excise as if this section had not been substituted.

SECTION 85: Appeals to the Commissioner of Central Excise (Appeals) —

- (1) Any person aggrieved by any decision or order passed by an adjudicating authority subordinate to the Commissioner of Central Excise may appeal to the Commissioner of Central Excise (Appeals).
- (2) Every appeal shall be in the prescribed form and shall be verified in the prescribed manner.
- (3) An appeal shall be presented within three months from the date of receipt of the decision or order of such adjudicating authority, relating to service tax, interest or penalty under this Chapter made before the date on which the Finance Bill, 2012 receives the assent of the President:
- (3A) An appeal shall be presented within two months from the date of receipt of the decision or order of such adjudicating authority, made on and after the Finance Bill, 2012 receives the assent of the President, relating to service tax, interest or penalty under this Chapter:

Provided that the Commissioner of Central Excise (Appeals) may, if he is satisfied that the appellant was prevented by sufficient cause from presenting the appeal within the aforesaid period of two months, allow it to be presented within a further period of one month.

Provided that the Commissioner of Central Excise (Appeals) may, if he is satisfied that the appellant was prevented by sufficient cause from presenting the appeal within the aforesaid period of three months, allow it to be presented within a further period of three months.

- (4) The Commissioner of Central Excise (Appeals) shall hear and determine the appeal and, subject to the provisions of this Chapter, pass such orders as he thinks fit and such orders may include an order enhancing the service tax, interest or penalty:

Provided that an order enhancing the service tax, interest or penalty shall not be made unless the person affected thereby has been given a reasonable opportunity of showing cause against such enhancement.

- (5) Subject to the provisions of this Chapter, in hearing the appeals and making orders under this section, the Commissioner of Central Excise (Appeals) shall exercise the same powers and follow the same procedure as he exercises and follows in hearing the appeals and making orders under the Central Excise Act, 1944.

SECTION 86: Appeals to Appellate Tribunal -

- (1) Any assessee aggrieved by an order passed by a Commissioner of Central Excise under section 73 or section 83A, or an order passed by a Commissioner of Central Excise (Appeals) under section 85, may appeal to the Appellate Tribunal against such order within three months of the date of receipt of the order.

- (1A) (i) The Board may, by notification in the Official Gazette, constitute such Committees as may be necessary for the purposes of this Chapter.

(ii) Every Committee constituted under clause (i) shall consist of two Chief Commissioners of Central Excise or two Commissioners of Central Excise, as the case may be.

- (2) The Committee of Chief Commissioners of Central Excise may, if it objects to any order passed by the 'Commissioner of Central Excise under section 73 or section 83A, direct the Commissioner of Central Excise to appeal to the Appellate Tribunal against the order.

Provided that where the Committee of Chief Commissioners of Central Excise differs in its opinion against the order of the Commissioner of Central Excise, it shall state the point or points on which it differs and make a reference to the Board which shall, after considering the facts of the order, if it is of the opinion that the order passed by the Commissioner of Central Excise is not legal or proper, direct the Commissioner of Central Excise to appeal to the Appellate Tribunal against the order.

- (2A) The Committee of Commissioners may, if it objects to any order passed by the Commissioner of Central Excise (Appeals) under section 85, direct any Central Excise Officer to appeal on its behalf to the Appellate Tribunal against the order.

Provided that where the Committee of Commissioners differs in its opinion against the order of the Commissioner of Central Excise (Appeals), it shall state the point or points on which it differs and make a reference to the jurisdictional Chief Commissioner who shall, after considering the facts of the order, if it is of the opinion that the order passed by the Commissioner of Central Excise (Appeals) is not legal or proper, direct any Central Excise Officer to appeal to the Appellate Tribunal against the order.

Explanation.— For the purposes of this sub-section, "jurisdictional Chief Commissioner" means the Chief Commissioner having jurisdiction over the concerned adjudicating authority in the matter.

- (3) Every appeal under sub-section (2) or sub-section (2A) shall be filed within four months from the date on which the order sought to be appealed against is received by the Committee of Chief Commissioners or, as the case may be, the Committee of Commissioners.'

- (4) The Commissioner of Central Excise or any Central Excise Officer subordinate to him or the assessee, as the case may be, on receipt of a notice that an appeal against the order of the Commissioner of Central Excise or the Commissioner of Central Excise (Appeals) has been preferred under sub-section (1) or sub-section (2) or sub-section (2A) by the other party may, notwithstanding that he may not have appealed against such order or any part thereof, within forty-five days of the receipt of the notice, file a memorandum of cross-objections, verified in the prescribed manner, against any part of the order of the Commissioner of Central Excise or the Commissioner of Central Excise (Appeals), and such memorandum shall be disposed of by the Appellate Tribunal as if it were an appeal presented within the time specified in sub section (3).

- (5) The Appellate Tribunal may admit an appeal or permit the filing of a memorandum of cross-objections after the expiry of the relevant period referred to in sub-section (3) or sub-section (4) if it is satisfied that there was sufficient cause for not presenting it within that period.

- (6) An appeal to the Appellate Tribunal shall be in the prescribed form and shall be verified in the prescribed manner and shall, irrespective of the date of demand of service tax and interest or of levy of penalty in relation to which the appeal is made, be accompanied by a fee of, —
- (a) where the amount of service tax and interest demanded and penalty levied by any Central Excise Officer in the case to which the appeal relates is five lakh rupees or less, one thousand rupees;
 - (b) where the amount of service tax and interest demanded and penalty levied by any Central Excise Officer in the case to which the appeal relates is more than five lakh rupees but not exceeding fifty lakh rupees, five thousand rupees;
 - (c) where the amount of service tax and interest demanded and penalty levied by any Central Excise Officer in the case to which the appeal relates is more than fifty lakh rupees, ten thousand rupees :
- Provided that** no fee shall be payable in the case of an appeal referred to in sub-section (2) or sub-section (2A) or a memorandum of cross-objections referred to in sub-section (4).
- (6A) Every application made before the Appellate Tribunal, —
- (a) in an appeal for grant of stay or for rectification of mistake or for any other purpose; or
 - (b) for restoration of an appeal or an application,
- shall be accompanied by a fee of five hundred rupees :
- Provided that** no such fee shall be payable in the case of an application filed by the Commissioner of Central Excise or Assistant Commissioner of Central Excise or Deputy Commissioner of Central Excise, as the case may be under this sub-section.
- (7) Subject to the provisions of this Chapter, in hearing the appeals and making orders under this section, the Appellate Tribunal shall exercise the same powers and follow the same procedure as it exercises and follows in hearing the appeals and making orders under the Central Excise Act 1944.

7.6 SETTLEMENT COMMISSION

The settlement Commission is constituted under section 32 of the Central Excise Act, 1944 in order to speedy disposal and easy settlement of tax disputes of Customs and Central Excise involving high revenue stake and thereby save time and energy of both the applicant and the department.

The settlement Commission has the power to grant immunity from prosecution and also to reduce or waive the penalty or fine, if the applicant has made a true and full disclosure of his duty liability. It is similar to 'out of Court' settlement of dues to avoid lengthy and costly litigation.

Constitution : The Settlement Commission consists of a Chairman and as many Vice-Chairmen and Members as the Central Government may think fit and functions within the Department of Central Government dealing with Customs and Central Excise matters. The Chairman, Vice-Chairmen and other members of the Settlement Commission shall be appointed from amongst persons of integrity and outstanding ability having special knowledge of and experience in administration of Customs and Central Excise Laws. The Commission has its Principal Bench at New Delhi. At any stage of the hearing of any such case or matter, the Chairman may, if he thinks that the case or matter is of such a nature that it ought to be heard by a Bench consisting of 3 Members, constitute such Bench and if Vice-Chairman is not one of the Members, the senior among the Members shall act as the presiding officer of such Bench.

SECTION 31: Definitions — Unless the context otherwise requires,—

- (a) “assessee” means any person who is liable for payment of excise duty assessed under this Act or any other Act and includes any producer or manufacturer of excisable goods or a registered person under the rules made under this Act, of a private warehouse in which excisable goods are stored;
- (b) “Bench” means a Bench of the Settlement Commission;
- (c) “case” means any proceeding under this Act or any other Act for the levy, assessment and collection of excise duty, pending before an adjudicating authority on the date on which an application under sub-section (1) of section 32E is made.
Provided that when any proceeding is referred back in any appeal or revision, as the case may be, by any court, Appellate Tribunal or any other authority, to the adjudicating authority for a fresh adjudication or decision, as the case may be, then such proceeding shall not be deemed to be a proceeding pending within the meaning of this clause;
- (d) “Chairman” means the Chairman of the Settlement Commission;
- (e) “Commissioner (Investigation)” means an officer of the Customs or a Central Excise Officer appointed as such Commissioner to conduct enquiry or investigation for the purposes of this Chapter;
- (f) “Member” means a Member of the Settlement Commission and includes the Chairman and the Vice-Chairman;
- (g) “Settlement Commission” means the Customs and Central Excise Settlement Commission constituted under section 32; and
- (h) “Vice-Chairman” means a Vice-Chairman of the Settlement Commission.

7.6.1 Advantages of Settlement Commission

- (i) Quick settlement of disputes to avoid prolonged litigation
- (ii) Settlement commission provides chance to turn a new leaf.
- (iii) Settlement commission can grant waiver/reduction of penalty, fine or interest.
- (iv) Settlement commission can grant immunity from prosecution to an assessee, its directors and partners. (Immunity cannot be granted in respect of prosecution under Indian Penal Code or any other Central law w.e.f. 1-6-2007).
- (v) Issues can be resolved within an outer limit of 9 months to 1 year.

7.6.2 Section 31(C) [Corresponding Customs Section 127A(B)] Defines “Case” to mean

- any proceeding under this Act or any other Act
- for the levy, assessment and collection of excise duty/ customs duty,
- **pending before an adjudicating authority** on the date on which an application for settlement is made.

Remanded proceedings- Not pending proceedings: However, when any proceeding is referred back in any appeal/revision by any court, Appellate Tribunal or any other authority, to the adjudicating authority for a fresh adjudication/ decision, then such proceeding shall not be deemed to be a ‘Proceeding Pending’ for the purposes of the above. Therefore, no settlement application can be filed in respect of cases remanded for fresh adjudication.

Pending appeals not ‘case’: Since Commissioner (Appeals) is not ‘Adjudicating Authority’, hence, proceedings pending before him will not be regarded as ‘case’ for the purposes of Settlement.

SECTION 32: Customs and Central Excise Settlement Commission.-

- (1) The Central Government shall, by notification in the Official Gazette, constitute a Commission to be called the Customs and Central Excise Settlement Commission for the settlement of cases under this Chapter and Chapter XIVA of the Customs Act, 1962 (52 of 1962).
- (2) The Settlement Commission shall consist of a Chairman and as many Vice-Chairmen and other Members as the Central Government thinks fit and shall function within the Department of the Central Government dealing with customs and central excise matters.
- (3) The Chairman, Vice-Chairman and other Members of the Settlement Commission shall be appointed by the Central Government from amongst persons of integrity and outstanding ability, having special knowledge of, and experience in, administration of customs and central excise laws:

Provided that, where a member of the Board is appointed as the Chairman, Vice-Chairman or as a Member of the Settlement Commission, he shall cease to be a member of the said Board.

SECTION 32A: Jurisdiction and powers of Settlement Commission —

- (1) Subject to the other provisions of this Chapter, the jurisdiction, powers and authority of the Settlement Commission may be exercised by Benches thereof.
- (2) Subject to the other provisions of this section, a Bench shall be presided over by the Chairman or a Vice-Chairman and shall consist of two other Members.
- (3) The Bench for which the Chairman is the presiding officer shall be the principal Bench and other Benches shall be known as additional Benches.
- (4) Notwithstanding anything contained in sub-section (1) and sub-section (2), the Chairman may authorise the Vice-Chairman or other Member appointed to one Bench to discharge also the functions of the Vice-Chairman or, as the case may be, other Member of another Bench.
- (5) The principal Bench shall sit at Delhi and the Central Government shall, by notification in the Official Gazette, establish additional Benches at such places as it considers necessary.
- (6) Notwithstanding anything contained in the foregoing provisions of this section, and subject to any rules that may be made in this behalf, when one of the persons constituting a Bench (whether such person be the presiding officer or other Member of the Bench) is unable to discharge his functions owing to absence, illness or any other cause or in the event of the occurrence of any vacancy either in the office of the presiding officer or in the office of one or the other members of the Bench, the remaining Members may function as the Bench and if the presiding officer of the Bench is not one of the remaining Members, the senior among the remaining Members shall act as the presiding officer of the Bench:

Provided that if at any stage of the hearing of any such case or matter, it appears to the presiding officer that the case or matter is of such a nature that it ought to be heard of by a Bench consisting of three Members, the case or matter may be referred by the presiding officer of such bench to the Chairman for transfer to such Bench as the Chairman may deem fit.

Provided further that at any stage of the hearing of any such case or matter, referred to in the first proviso, the Chairman may, if he thinks that the case or matter is of such a nature that it ought to be heard by a Bench consisting of three Members, constitute such Bench and if Vice-Chairman is not one of the Members, the senior among the Members shall act as the presiding officer of such Bench.

- (7) Notwithstanding anything contained in the foregoing provisions of this section, the Chairman may, for the disposal of any particular case, constitute a special Bench consisting of more than three Members.

- (8) Subject to the other provisions of this Chapter, the special Bench shall sit at a place to be fixed by the Chairman.

SECTION 32B: Vice-Chairman to act as Chairman or to discharge his functions in certain circumstances—

- (1) In the event of the occurrence of any vacancy in the office of the Chairman by reason of his death, resignation or otherwise, the Vice-Chairman or, as the case may be, such one of the Vice-Chairmen as the Central Government may, by notification in the Official Gazette, authorise in this behalf, shall act as the Chairman until the date on which a new Chairman, appointed in accordance with the provisions of this Chapter to fill such vacancy, enters upon his office.
- (2) When the Chairman is unable to discharge his functions owing to absence, illness or any other cause, the Vice-Chairman or, as the case may be, such one of the Vice-Chairmen as the Central Government may, by notification in the Official Gazette, authorise in this behalf, shall discharge the functions of the Chairman until the date on which the Chairman resumes his duties.

SECTION 32C: Power of Chairman to transfer cases from one Bench to another.—On the application of the assessee or the Chief Commissioner or Commissioner of Central Excise and after giving notice to them, and after hearing such of them as he may desire to be heard, or on his own motion without such notice, the Chairman may transfer any case pending before one Bench, for disposal, to another Bench.

7.6.3 Section 32E (Corresponding Customs Section 127B) are as Follows

(I) Conditions to be fulfilled before a settlement application is filed to Settlement Commission:

The following conditions must be fulfilled before a settlement application can be filed-

- (a) In case of Central Excise, the applicant must be an assessee. "Assessee" means any person who is liable for payment of excise duty assessed under this Act or any other Act and includes any producer or manufacturer of excisable goods or a registered person under the rules made under this Act, of a private warehouse in which excisable goods are stored.

In case of Customs, the applicant may be an importer or exporter or any other person;

- (b) the case must have not been adjudicated i.e. settlement application can be made only before adjudication;
- (c) the application should contain-
- (i) a full and true disclosure of his duty liability which has not been disclosed before the Central Excise/ proper Officer having jurisdiction,
 - (ii) the manner in which such liability has been derived,
 - (iii) the additional amount of excise/customs duty accepted to be payable by him, and
 - (iv) such other particulars as may be prescribed,
 - (v) including the particulars of such excisable/ dutiable goods in respect of which he admits short levy on account of -
 - misclassification,
 - under-valuation,
 - inapplicability of exemption notification or
 - CENVAT credit or
 - otherwise (Amendment by the Finance Act, 2010 w.e.f 8-5-2010)

[Before amendment it was provided that the following shall not be eligible for settlement:

- (i) the goods in respect of which no proper record has been maintained by the assessee in his daily stock register (in case of central excise); or

(ii) the goods not included in the entry made under this Act (in case of customs)].

- (d) the applicant has filed returns showing production, clearance and central excise duty paid in the prescribed manner; (in case of customs, the applicant has filed a bill of entry, or a shipping bill, in respect of import or export of such goods, as the case may be);
- (e) a show cause notice for recovery of duty issued by the Central Excise Officer has been received by the applicant; (in relation to such bill of entry or shipping bill, a show cause notice has been issued to him by the proper officer applicable to Custom);
- (f) the additional amount of duty accepted by the applicant in his application exceeds 3 lakh;
- (g) the applicant has paid the additional amount of excise duty accepted by him along with interest under section 11AB (or Customs section 28AB);
- (h) if any excisable/ dutiable goods, books of accounts or other documents or any sale proceeds of goods have been seized, application for settlement has been made only after 180 days from the date of seizure.

(II) Cases for which no settlement application can be made : The Settlement Commission cannot entertain the following cases -

- (a) cases pending with the Appellate Tribunal or any Court;
- (b) cases involving the interpretation of the classification goods under the Customs/Excise Tariff;
Cases involving a purely classification issue cannot be taken up by the Settlement Commission. However, the Settlement Commission can settle a complicated case having several issues including one of classification - Oriflame India Pvt. Ltd. [2000] 122 ELT 601 (Sett. Comm.).
- (c) no application for settlement can be made in relation to offence of goods notified under Section 123 of the Customs Act, 1962 or the goods covered under Narcotic Drugs and Psychotropic Substances Act, 1985 (*applicable only for customs*).

(III) Fees for filing an application : An application to Settlement Commission shall be made in prescribed form with a fee of ₹ 1,000 and cannot be withdrawn by the applicant.

7.6.4 SECTION 32F (corresponding Customs section 127C) provides for the following procedure to be followed by the Settlement Commission for disposal of a case -

- (i) **Acceptance or Rejection of Application:** On receipt of an application for settlement, the Settlement Commission shall, within 7 days from the date of receipt of the application, issue a notice to the applicant to explain in writing as to why the application made by him should be allowed to be proceeded with. After taking into consideration the explanation provided by the applicant, the Settlement Commission, shall, within a period of 14 days from the date of the notice, pass an order either allowing the application to be proceeded with, or rejecting the application. In case of rejection, the proceedings before the Settlement Commission shall abate on the date of rejection.

However, where no notice has been issued or no order has been passed within the aforesaid period by the Settlement Commission, the application shall be deemed to have been allowed to be proceeded with.

A copy of every such order shall be sent to applicant and to the Commissioner having jurisdiction.

- (ii) **Calling of Report from Commissioner when Application Allowed:** Where an application is allowed or deemed to have been allowed to be proceeded with, the Settlement Commission shall, within seven days from the date of order allowing the application, call for a report along with relevant records from the Commissioner having jurisdiction and the Commissioner shall furnish the report within 30 days of receipt of communication from the Settlement Commission.

However, if the Commissioner does not furnish the report within 30 days as aforesaid, the Settlement Commission shall proceed further in the matter without the report of the Commissioner.

- (iii) **Further investigation by Commissioner (Investigation) :** Where a report of the Commissioner has been furnished within 30 days as aforesaid, the Settlement Commission may, after examination of such report, if it is of the opinion that any further enquiry or investigation in the matter is necessary, direct the Commissioner (Investigation) within 15 days of the receipt of the report, to make or cause to be made such further enquiry or investigation and furnish a report within a period of 90 days of the receipt of the communication from the Settlement Commission, on the matters covered by the application and any other matter relating to the case.

However, if the Commissioner (Investigation) does not furnish the report within the aforesaid period, the Settlement Commission shall proceed to pass an order without such report.

- (iv) **Passing of Final Order:** After examination of the records and the report of the Commissioner of Central Excise/Customs including the report of the Commissioner (Investigation) if any, and after giving an opportunity of being heard both to the applicant and to the Commissioner and examining such other evidence as may be placed before it, the Settlement Commission shall pass final order as it thinks fit in accordance with the provisions of the Act.

The order shall be passed only on the matters covered by the application and any other matter relating to the case not covered by the application, but referred to in the report of the Commissioner or Commissioner (Investigation).

- (v) **Time limit for Passing of Final Order:** The final order on settlement shall be passed -

- within 9 months from the last day of the month in which the application was made,

- failing which

(a) the settlement proceedings shall abate, and

(b) the adjudicating authority before whom the proceeding at the time of making the application was pending, shall dispose of the case in accordance with the provisions of this Act as if no application for settlement had been made.

Extension of time by 3 months : The aforesaid period of 9 months may, for reasons to be recorded in writing, be extended by the Settlement Commission for a further period not exceeding 3 months.

- (vi) **Terms of Final Order:** Such an order shall provide for the terms of settlement including any demand by way of duty, penalty or interest, the manner in which any sum due under the settlement shall be paid and all other matters to make the settlement effective. In case of rejection, such order shall contain reasons thereof. Further, the amount of settlement ordered by the Settlement Commission shall not be less than the duty liability admitted by the applicant in the settlement application.

- (vii) **Recovery :** Where any duty, interest, fine and penalty payable in pursuance of a final order is not paid by the assessee within 30 days of receipt of a copy of the order by him, the amount which remains unpaid, shall be recovered along with interest due thereon, as the sums due to the Central Government by the Central Excise Officer having jurisdiction over the assessee in accordance with the provisions of section 11.

- (viii) **Consequences of Settlement obtained by Fraud:** The orders passed by the Settlement Commission are conclusive and can only be reopened by the Settlement Commission. Any such order obtained by way of fraud or misrepresentation of facts shall be void. In case the Settlement has become void because it has been obtained by fraud and misrepresentation of facts, then the matters in respect of settlement shall be deemed to have been revived from the stage when the application was made to the Settlement Commission and the Central Excise/proper officer

shall decide such case within a period of 2 years from the date of receipt of communication that the settlement has become void.

7.6.5 SECTION 32D

The decision of Settlement Commission will be according to the opinion of the majority. However, in case the members are equally divided on any point(s), then-

- (a) the point(s) of difference shall be referred to Chairman or one or more additional members, and
- (b) such point or points will be decided according to the opinion of the majority of the total members (i.e. additional members and the members who first heard it).

7.6.6 Power Of The Settlement Commission

(i) Power to order Provisional Attachment to Protect Revenue [Section 32G (Customs section 127D)]:

The Settlement Commission has the power to order provisional attachment of any property belonging to the applicant in the prescribed manner. Such order can be made by the Settlement Commission during the pendency of any proceedings before it where it is of the opinion that such attachment is necessary for the purpose of protecting the interests of the revenue.

Cessation of attachment : Any such provisional attachment shall cease to have effect from the date the sums due to the Central Government in respect of such attachment are discharged by the applicant and the evidence in respect of such discharge is submitted to the Settlement Commission.

(ii) Power to Grant Immunity from Prosecution or Imposition of Penalty or Fine (Section 32K (Customs section 127H)) : If the Settlement Commission is satisfied that applicant has cooperated with it in the proceedings before it and has made a full and true disclosure of his duty liability, then the Commission may grant to an applicant immunity from-

- (a) prosecution for any offence under this Act, and
- (b) also wholly or partly from imposition of any penalty and fine under this Act.

Exception : The Settlement Commission cannot grant any immunity if the proceedings for the prosecution of the applicant were instituted before the date of receipt of the settlement application.

Immunity Withdrawn: The immunity so granted will be withdrawn in any of the following cases -

- (a) If the applicant fails to pay any sum specified in the settlement order within the time specified in such order or fails to comply with any other condition subject to which the immunity was granted; or
- (b) If the Settlement Commission is satisfied that the applicant had in the course of the proceedings concealed any particulars material to the settlement or had given false evidence.

(iii) Power to send case back to Central Excise/Customs Officer [Section 32L (Customs section 127I)]:

If the applicant does not cooperate with the Settlement Commission in the proceeding before it, the Settlement Commission may send the case back to the Central Excise/Customs officer for further action as per law. If the application is sent back, then, all submissions made and all the information given by the applicant before the Settlement Commission can be used by the Excise/ Customs officer while deciding the case.

In that case, the period commencing from the date of the application to the Settlement Commission and ending with the date of receipt by the Central Excise/Customs officer of the order sending case back to him, shall be excluded for the purposes of time limit u/s 11A and interest u/s 11BB.

(iv) Other Powers: The Settlement Commission shall have the following other powers -

- (a) all the powers which are vested in a Central Excise/Customs Officer under this Act or the rules made there under;
- (b) power to regulate its own procedure;
- (c) exclusive jurisdiction over the case where application is allowed to be proceeded with and until the settlement order has been passed.

SECTION 32H: Power of Settlement Commission to reopen completed proceedings — If the Settlement Commission is of the opinion (the reasons for such opinion to be recorded by it in writing) that, for the proper disposal of the case pending before it, it is necessary or expedient to reopen any proceeding connected with the case but which has been completed under this Act before application for settlement under section 32E was made, it may, with the concurrence of the applicant, reopen such proceeding and pass such order thereon as it thinks fit, as if the case in relation to which the application for settlement had been made by the applicant under that section covered such proceeding also:

Provided that no proceeding shall be reopened by the Settlement Commission under this section after the expiry of five years from the date of application.

Provided further that no proceeding shall be reopened by the Settlement Commission under this section in a case where an application under section 32E is made on or after the 1st day of June, 2007.

SECTION 32-I: Powers and procedure of Settlement Commission —

- (1) In addition to the powers conferred on the Settlement Commission under this Chapter, it shall have all the powers which are vested in a Central Excise Officer under this Act or the rules made thereunder.
- (2) Where an application made under section 32E has been allowed to be proceeded with under section 32F, the Settlement Commission shall, until an order is passed under sub-section (5) of section 32F, have, subject to the provisions of sub-section (4) of that section, exclusive jurisdiction to exercise the powers and perform the functions of any Central Excise Officer, under this Act in relation to the case.
- (3) In the absence of any express direction by the Settlement Commission to the contrary, nothing in this Chapter shall affect the operation of the provisions of this Act in so far as they relate to any matters other than those before the Settlement Commission.
- (4) The Settlement Commission shall, subject to the provisions of this Chapter, have power to regulate its own procedure and the procedure of Benches thereof in all matters arising out of the exercise of its powers, or of the discharge of its functions, including the places at which the Benches shall hold their sittings.

SECTION 32J: Inspection, etc., of reports — No person shall be entitled to inspect, or obtain copies of, any report made by any Central Excise Officer to the Settlement Commission; but the Settlement Commission may, in its discretion furnish copies thereof to any such person on an application made to it in this behalf and on payment of the prescribed fee:

Provided that, for the purpose of enabling any person whose case is under consideration to rebut any evidence brought on record against him in any such report, the Settlement Commission shall, on an application made in this behalf, and on payment of the prescribed fee by such person, furnish him with a certified copy of any such report or part thereof relevant for the purpose.

SECTION 32M: Order of settlement to be conclusive — Every order of settlement passed under sub-section (5) of section 32F shall be conclusive as to the matters stated therein and no matter covered by such order shall, save as otherwise provided in this Chapter, be reopened in any proceeding under this Act or under any other law for the time being in force.

SECTION 32N: Recovery of sums due under order of settlement — Any sum specified in an order of settlement passed under sub-section (5) of section 32F may, subject to such conditions if any, as may be specified therein, be recovered, and any penalty for default in making payment of such sum may be imposed and recovered as sums due to the Central Government in accordance with the provisions under section 11 by the Central Excise Officer having jurisdiction over the person who made the application for settlement under section 32E.

7.6.7 Bar on subsequent application for settlement in certain cases [Section 32-O (Customs Section 127L), Amendment by the Finance Act, 2010 w.e.f. 8-5-2010]

- (i) an order of settlement passed u/s 32F(5) (Customs section 127C(5)) provides for the imposition of a penalty on the person who made the application for settlement, on the ground of concealment of particulars of his duty liability; or
- (ii) after the passing of an order of settlement in relation to a case, as aforesaid, such person is convicted of any offence under this Act in relation to that case; or
- (iii) the case of such person is sent back to the Central Excise Officer having jurisdiction by the Settlement Commission under section 32L (Customs Section 127I), then, applicant shall not be entitled to apply for settlement in relation to any other matter.

[Effect of amendment: General Bar on filing second application for settlement has been removed. Thus, an application for settlement can be filed as many times, as the aforesaid conditions stand non-violated.]

7.6.8 Adjudicating Authority Can Track Information Submitted in the Office of Settlement Commission

Cases which are sent back to the adjudication authority, all submissions or disclosures and information furnished by applicant before Settlement Commission can be made use of by the adjudicating authority while finalizing demand of duties, interest and imposing penalties.

Bar on subsequent application for settlement in certain cases (Section 32(O):

The assessee shall not be entitled to apply for settlement (i.e. second time) under section 32E in relation to any other matter if

- (i) an order of settlement passed for imposition of a penalty on the person who made the application under section 32E for settlement, on the ground of concealment of particulars of his duty liability, or
- (ii) after passing of an order of settlement in relation to a case, such person is convicted of any duty offence under this Act in relation to that case, or
- (iii) the case of such person is sent back to the central excise officer having jurisdiction by the settlement commission.

7.6.9 Entire Amount of Duty Should be Disclosed Under Section 127B of The Customs Act

Application u/s 127B is maintainable only if the duty liability is disclosed. The disclosure contemplated is in the nature of voluntary disclosure of concealed additional customs duty. Hence, having opted to get their customs duty liability settled by the Settlement Commission, the appellant could not be permitted to dissect the Settlement Commission's order with a view to accept what is favourable to them and reject what is not [*Sanghvi Reconditioners Pvt. Ltd. v UOI* 2010 (251) ELT 3 (SC)]

7.6.10 Recovery of Duty Drawback Erroneously Paid by The Revenue

As per section 127A of the Customs Act, 1962, the Settlement Commission have jurisdiction to settle cases relating to the recovery of drawback erroneously paid by the revenue as the claim for duty drawback is nothing but a claim for refund of duty as per the statutory scheme framed by the Government of India or in exercise of statutory powers under the provisions of the Act.

The contention that recovery of duty drawback does not involve levy, assessment and collection of customs duty as envisaged under section 127A(b) was not accepted .

Therefore, the Settlement Commission had jurisdiction to deal with the question relating to the recovery of drawback erroneously paid by the Revenue [*UOI v Customs & Excise Settlement Commission* 2010].

SECTION 32P: Proceedings before Settlement Commission to be judicial proceedings— Any proceedings under this Chapter before the Settlement Commission shall be deemed to be a judicial proceeding within the meaning of sections 193 and 228, and for the purposes of section 196 of the Indian Penal Code (45 of 1860).

SECTION 96A: Definitions — In this Chapter, unless the context otherwise requires,—

- (a) “advance ruling” means the determination, by the Authority, of a question of law or fact specified in the application regarding the liability to pay service tax in relation to a service proposed to be provided, by the applicant;
 - (b) “applicant” means —
 - (i) (a) a non-resident setting up a joint venture in India in collaboration with a non-resident or a resident; or
 - (b) a resident setting up a joint venture in India in collaboration with a non-resident; or
 - (c) a wholly owned subsidiary Indian company, of which the holding company is a foreign company,
 who or which, as the case may be, proposes to undertake any business activity in India;
 - (ii) a joint venture in India; or
 - (iii) resident falling within any such class or category of persons, as the Central Government may, by notification in the Official Gazette, specify in this behalf,
- and which or who, as the case may be, makes application for advance ruling under sub-section (1) of section 96C;

Explanation. — For the purposes of this clause, “joint venture in India” means a contractual arrangement whereby two or more persons undertake an economic activity which is subject to joint control and one or more of the participants or partners or equity holders is a nonresident having substantial interest in such arrangement;

- (c) “application” means an application made to the Authority under sub-section (1) of section 96C;
- (d) “Authority” means the Authority for Advance Rulings, constituted under sub-section (1), or authorised by the Central Government under subsection (2A), of section 28F of the Customs Act, 1962.
- (e) “non-resident”, “Indian company” and “foreign company” have the meanings respectively assigned to them in clauses (30), (26) and (23A) of section 2 of the Income-tax Act, 1961 (43 of 1961);
- (f) words and expressions used but not defined in this Chapter and defined in the Central Excise Act, 1944 (1 of 1944) or the rules made thereunder shall apply, so far as may be, in relation to service tax as they apply in relation to duty of excise.

SECTION 96B: Vacancies, etc., not to invalidate proceedings— No proceeding before, or pronouncement of advance ruling by, the Authority under this Chapter shall be questioned or shall be invalid on the ground merely of the existence of any vacancy or defect in the constitution of the Authority.

SECTION 96C: Application for advance ruling —

- (1) An applicant desirous of obtaining an advance ruling under this Chapter may make an application in such form and in such manner as may be prescribed, stating the question on which the advance ruling is sought.

- (2) The question on which the advance ruling is sought shall be in respect of, -
- (a) classification of any service as a taxable service under Chapter V;
 - (b) the valuation of taxable services for charging service tax;
 - (c) the principles to be adopted for the purposes of determination of value of the taxable service under the provisions of Chapter V;
 - (d) applicability of notifications issued under Chapter V;
 - (e) **admissibility of credit of duty or tax in terms of the rules made in this regard.**
 - (f) determination of the liability to pay service tax on a taxable service under the provisions of Chapter V.
- (3) The application shall be made in quadruplicate and be accompanied by a fee of two thousand five hundred rupees.
- (4) An applicant may withdraw an application within thirty days from the date of the application.

SECTION 96D: Procedure on receipt of application —

- (1) On receipt of an application, the Authority shall cause a copy thereof to be forwarded to the Commissioner of Central Excise and, if necessary, call upon him to furnish the relevant records :
Provided that where any records have been called for by the Authority in any case, such records shall, as soon as possible, be returned to the Commissioner of Central Excise.

- (2) The Authority may, after examining the application and the records called for, by order, either allow or reject the application:

Provided that the Authority shall not allow the application where the question raised in the application is, -

- (a) already pending in the applicant's case before any Central Excise Officer, the Appellate Tribunal or any Court;
- (b) the same as in a matter already decided by the Appellate Tribunal or any Court:

Provided further that no application shall be rejected under this sub-section unless an opportunity has been given to the applicant of being heard:

Provided also that where the application is rejected, reasons for such rejection shall be given in the order.

- (3) A copy of every order made under sub-section (2) shall be sent to the applicant and to the Commissioner of Central Excise.
- (4) Where an application is allowed under sub-section (2), the Authority shall, after examining such further material as may be placed before it by the applicant or obtained by the Authority, pronounce its advance ruling on the question specified in the application.
- (5) On a request received from the applicant, the Authority shall, before pronouncing its advance ruling, provide an opportunity to the applicant of being heard, either in person or through a duly authorised representative.

Explanation - For the purposes of this sub-section, "authorised representative" has the meaning assigned to it in sub-section (2) of section 35Q of the Central Excise Act, 1944 (1 of 1944).

- (6) The Authority shall pronounce its advance ruling in writing within ninety days of the receipt of application.
- (7) A copy of the advance ruling pronounced by the Authority, duly signed by the Members and certified in the prescribed manner shall be sent to the applicant and to the Commissioner of Central Excise, as soon as may be, after such pronouncement.

SECTION 96E: Applicability of advance ruling —

- (1) The advance ruling pronounced by the Authority under section 96D shall be binding only-
 - (a) on the applicant who had sought it;
 - (b) in respect of any matter referred to in sub-section (2) of section 96C;
 - (c) on the Commissioner of Central Excise, and the Central Excise authorities subordinate to him, in respect of the applicant.
- (2) The advance ruling referred to in sub-section (1) shall be binding as aforesaid unless there is a change in law or facts on the basis of which the advance ruling has been pronounced.

SECTION 96F: Advance ruling to be void in certain circumstances –

- (1) Where the Authority finds, on a representation made to it by the Commissioner of Central Excise or otherwise, that an advance ruling pronounced by it under sub-section (4) of section 96D has been obtained by the applicant by fraud or misrepresentation of facts, it may, by order, declare such ruling to be void ab initio and thereupon all the provisions of this Chapter shall apply (after excluding the period beginning with the date of such advance ruling and ending with the date of order under this sub-section) to the applicant as if such advance ruling had never been made.
- (2) A copy of the order made under sub-section (1) shall be sent to the applicant and the Commissioner of Central Excise.

SECTION 96G: Powers of Authority –

- (1) The Authority shall, for the purpose of exercising its powers regarding discovery and inspection, enforcing the attendance of any person and examining him on oath, issuing commissions and compelling production of books of account and other records, have all the powers of a civil court under the Code of Civil Procedure, 1908 (5 of 1908).
- (2) The Authority shall be deemed to be a civil court for the purposes of section 195, but not for the purposes of Chapter XXVI of the Code of Criminal Procedure, 1973 (2 of 1974), and every proceeding before the Authority shall be deemed to be a judicial proceeding within the meaning of sections 193 and 228, and for the purpose of section 196 of the Indian Penal Code (45 of 1860).

SECTION 96H: Procedure of Authority - The Authority shall, subject to the provisions of this Chapter, have power to regulate its own procedure in all matters arising out of the exercise of its powers under this Act.

SECTION 96-I : Power of Central Government to make rules —

- (1) The Central Government may, by notification in the Official Gazette, make rules for carrying out the provisions of this Chapter.
- (2) In particular, and without prejudice to the generality of the foregoing power, such rules may provide for all or any of the following matters, namely:-
 - (a) the form and manner for making application under sub-section (1) of section 96C;
 - (b) the manner of certifying a copy of advance ruling pronounced by the Authority under sub-section (7) of section 96D;
 - (c) any other matter which, by this Chapter, is to be or may be prescribed.
- (3) Every rule made under this Chapter shall be laid, as soon as may be, after it is made, before each House of Parliament, while it is in session for a total period of thirty days which may be comprised in one session or in two or more successive sessions, and if, before the expiry of the session immediately following the session or the successive sessions aforesaid, both Houses agree in making any modification in the rule or both Houses agree that the rule should not be made, the rule shall thereafter have effect only in such modified form or be of no effect, as the case may be; so, however, that any such modification or annulment shall be without prejudice to the validity of anything previously done under that rule.

7.7 AUTHORITY FOR ADVANCE RULING

Advance Ruling means, determination of a question of law or fact specified in the application submitted by applicant regarding the liability to pay duty in relation to activity of manufacture or import or export proposed to be undertaken by the applicant.

Scope of advance ruling is being extended to cover resident public limited companies; a notification is being issued for this purpose, under section 96A(b) (iii) of the Finance Act, 1994 as amended by Finance Act 2013.

Advance Ruling helps the assessee to be clear about legal aspects in advance (i.e. before starting the business or venture). The Authority for Advance Ruling will give a decision on question raised before it. Such ruling will be binding on the applicant as well as on the department. Every procedure before the Authority for Advance Ruling deemed to be a judicial proceeding.

SECTION 23A: Definitions — Unless the context otherwise requires,—

- (a) “activity” means production or manufacture of goods;
- (b) “advance ruling” means the determination, by the authority of a question of law or fact specified in the application regarding the liability to pay duty in relation to an activity proposed to be undertaken, by the applicant;
- (c) “applicant” means —
 - (i) (a) a non-resident setting up a joint venture in India in collaboration with a non-resident or a resident; or
 - (b) a resident setting up a joint venture in India in collaboration with a non-resident; or
 - (c) a wholly owned subsidiary Indian company, of which the holding company is a foreign company, who or which, as the case may be, proposes to undertake any business activity in India;
 - (ii) a joint venture in India; or
 - (iii) a resident falling within any such class or category of persons, as the Central Government may, by notification in the Official Gazette, specify in this behalf, and which or who, as the case may be, makes application for advance ruling under sub-section (1) of section 23C;

Explanation.- For the purposes of this clause, “joint venture in India” means a contractual arrangement whereby two or more persons undertake an economic activity which is subject to joint control and one or more of the participants or partners or equity holders are a non-resident having substantial interest in such arrangement
- (d) “application” means an application made to the Authority under sub-section (1) of section 23C;
- (e) “Authority” means the Authority for Advance Rulings, constituted under sub-section (1), or authorised by the Central Government under sub-section (2A), of section 28F of the Customs Act, 1962.
- (f) “Non-resident”, “Indian company” and “foreign company” shall have the meanings respectively assigned to them in clause (30), (26) and (23A) of section 2 of the Income Tax Act, 1961.

7.7.1 As Per Section 23A(C) of the Central Excise Act, an Application for Advance Ruling can be Made by any of the following if they Propose to Undertake any business activity in India

- (i) A Non-resident setting up a joint venture in India in collaboration with a non-resident or a resident.
- (ii) A resident setting up a joint venture in India in collaboration with a non-resident.
- (iii) A wholly owned subsidiary Indian company, of which the holding company is a foreign company, such holding company proposes to undertake any business activity in India.
- (iv) A joint venture in India in which at least one of the participants, partners, or equity share holders is a non-resident having substantial interest in the joint venture.

- (v) As may be specified by the Central Government of India by issuing a notification.
- (vi) Public Sector Undertakings (PSUs) can now seek advance ruling on Customs, Central Excise and Service Tax matters. All Indian companies (those considered as resident under Income Tax law) have now been allowed to seek advance ruling on project imports. NT No. 21/2009CE, 124/2009 20.08.2009. Applicable for Customs also.
- (vii) A Public Limited Company is Eligible for Making an Application to the Authority for Advance Ruling (N.T.67/2011 Dt 22.9.2011)

In section 23A of the Central Excise Act, for clause (e), the following clause shall be substituted, namely:—

“Authority” means the Authority for Advance Rulings, constituted under sub-section (1), or authorised by the Central Government under sub-section (2A), of section 28F of the Customs Act, 1962.’ (Finance Act, 2009).

Clause (a) of Section 23A is being amended to extend the definition of the term “activity” to include any new business of production or manufacture proposed to be undertaken by the existing producer or manufacturer.

7.7.2 Section 23C(2) provides for the admissibility of application for advance ruling, inter alia, for credit of excise duty paid or deemed to have been paid. The scope of admissibility has been expanded to include credit of service tax paid or deemed to have been paid on Input Services.

7.7.3 Application for Advance Ruling can be made in respect of following questions under Central Excise, Customs and Service Tax

- i. Classification of goods or services
- ii. Applicable of any exemption notification
- iii. Admissibility of CENVAT credit
- iv. Determination of Assessable value
- v. Determination of origin of goods in case of Customs
- vi. Determination of liability to pay duties of excise on any goods

On receipt of application Authority may admit or reject the application. In general in the following cases the application can be rejected in the following cases:

- (a) If the question raised is already pending before an officer of Excise or Tribunal or any Court.
- (b) If the matter has already been decided by CESTAT or any Court.

Application can be withdrawn within 30 days from the date of filing the application.

Authority for Advance Ruling once accepted the application can decide the case within 90 days from receipt of application.

Authority for Advance Ruling is common in Income Tax, Customs and Central Excise;

As per section 28F(2A) of Customs Act (w.e.f. 19.8.2009), Central Government can authorize Authority of Advance Ruling appointed under section 245-O of the Income Tax Act, 1961 to act as authority for advance for advance rulings under Central excise and customs. Therefore, Authority for Advance Ruling under income tax will also be Authority for excise, customs and service tax matters (Notification No. 143/2009 Cus.(NT) dated 15.9.2009).

SECTION 23B: Vacancies, etc., not to invalidate proceedings—No proceeding before, or pronouncement of advance ruling by, the Authority under this Chapter shall be questioned or shall be invalid on the ground merely of the existence of any vacancy or defect in the constitution of the Authority.

SECTION 23C: Application for advance ruling -

- (1) An applicant desirous of obtaining an advance ruling under this Chapter may make an application in such form and in such manner as may be prescribed, stating the question on which the advance ruling is sought
- (2) The question on which the advance ruling is sought shall be in respect of, —

- (a) classification of any goods under the Central Excise Tariff Act, 1985 (5 of 1986);
 - (b) applicability of a notification issued under sub-section (1) of section 5A having a bearing on the rate of duty;
 - (c) the principles to be adopted for the purposes of determination of value of the goods under the provisions of this Act.
 - (d) applicability of notifications issued, in respect of duties of excise under this Act, the Central Excise Tariff Act, 1985 and any duty chargeable under any other law for the time being in force in the same manner as duty of excise leviable under this Act;
 - (e) admissibility of credit of excise duty paid or deemed to have been paid on the goods used in or in relation to the manufacture of the excisable goods.
 - (f) determination of the liability to pay duties of excise on any goods under this Act.
- (3) The Application shall be made in quadruplicate and be accompanied by a fee of two thousand five hundred rupees.
- (4) An applicant may withdraw an application within thirty days from the date of the application.

SECTION 23D: Procedure on receipt of application.—

- (1) On receipt of an application, the Authority shall cause a copy thereof to be forwarded to the Commissioner of Central Excise and, if necessary, call upon him to furnish the relevant records:
Provided that where any records have been called for by the Authority in any case, such records shall, as soon as possible, be returned to the Commissioner of Central Excise.
- (2) The Authority may, after examining the application and the records called for, by order, either allow or reject the application:
Provided that the Authority shall not allow the application where the question raised in the application is,—
- (a) already pending in the applicant's case before any Central Excise Officer, the Appellate Tribunal or any Court;
 - (b) the same as in a matter already decided by the Appellate Tribunal or any Court
- Provided** further that no application shall be rejected under this sub-section unless an opportunity has been given to the applicant of being heard:
Provided also that where the application is rejected, reasons for such rejection shall be given in the order.
- (3) A copy of every order made under sub-section (2) shall be sent to the applicant and to the Commissioner of Central Excise.
- (4) Where an application is allowed under sub-section (2), the Authority shall, after examining such further material as may be placed before it by the applicant or obtained by the Authority, pronounce its advance ruling on the question specified in the application.
- (5) On a request received from the applicant, the Authority shall, before pronouncing its advance ruling, provide an opportunity to the applicant of being heard, either in person or through a duly authorised representative.
Explanation - For the purposes of this sub-section, "authorised representative" shall have the meaning assigned to it in sub-section (2) of section 35Q.
- (6) The Authority shall pronounce its advance ruling in writing within ninety days of the receipt of application.
- (7) A copy of the advance ruling pronounced by the Authority, duly signed by the Members and certified in the prescribed manner shall be sent to the applicant and to the Commissioner of Central Excise, as soon as may be, after such pronouncement.

SECTION 23E: Applicability of advance ruling —

- (1) The advance ruling pronounced by the Authority under section 23D shall be binding only—
- (a) on the applicant who had sought it;

- (b) in respect of any matter referred to in sub-section (2) of section 23C;
 - (c) on the Commissioner of Central Excise, and the Central Excise authorities subordinate to him, in respect of the applicant.
- (2) The advance ruling referred to in sub-section (1) shall be binding as aforesaid unless there is a change in law or facts on the basis of which the advance ruling has been pronounced.

SECTION 23F: Advance ruling to be void in certain circumstances.—

- (1) Where the Authority finds, on a representation made to it by the Commissioner of Central Excise or otherwise, that an advance ruling pronounced by it under sub-section (6) of section 28-1 has been obtained by the applicant by fraud or misrepresentation of facts, it may, by order, declare such ruling to be void *ah initio* and thereupon all the provisions of this Act shall apply (after excluding the period beginning with the date of such advance ruling and ending with the date of order under this sub-section) to the applicant as if such advance ruling had never been made.
- (2) A copy of the order made under sub-section (1) shall be sent to the applicant and the Commissioner of Central Excise.

SECTION 23G: Powers of Authority -

- (1) The Authority shall, for the purpose of exercising its powers regarding discovery and inspection, enforcing the attendance of any person and examining him on oath, issuing commissions and compelling production of books of account and other records, have all the powers of a civil court under the Code of Civil Procedure, 1908 (5 of 1908).
- (2) The Authority shall be deemed to be a civil court for the purposes of section 195, but not for the purposes of Chapter XXVI of the Code of Criminal Procedure, 1973 (2 of 1974), and every proceeding before the Authority shall be deemed to be judicial proceeding within the meaning of section 193 and 228, and for the purpose of section 196, of the Indian Penal Code (45 of 1860).

SECTION 23H: Procedure of Authority — The Authority shall, subject to the provisions of this Chapter, have power to regulate its own procedure in all matters arising out of the exercise of its powers under this Act.

WTO:

The World Trade Organization (WTO) is the only global international organization dealing with the rules of trade between nations. At its heart are the WTO agreements, negotiated and signed by the bulk of the world's trading nations and ratified in their parliaments. The goal is to help producers of goods and services, exporters, and importers conduct their business.

The WTO is an organization for trade opening. It is a forum for governments to negotiate trade agreements. It is a place for them to settle trade disputes. It operates a system of trade rules. Essentially, the WTO is a place where member governments try to sort out the trade problems they face with each other. The goal of the WTO is to improve the welfare of the peoples of the member countries.

GATT 94:

The term "GATT" stands for the "General Agreement on Tariffs and Trade". It is an agreement between States aiming at eliminating discrimination and reducing tariffs and other trade barriers with respect to trade in goods. The GATT 1994 is one of the multilateral agreements annexed to the WTO Agreement. It is an international treaty binding upon all WTO Members.

Impact of tax on GATT 94:

The Most Favoured Nation (MFN) principle, as has been noted, requires Members not to discriminate among countries. The national treatment principle, which complements the MFN principle, requires that an imported product which has crossed the border after payment of customs duties and other charges should not receive treatment that is less favourable than that extended to the like product produced domestically. In other words, the principle requires member countries to treat imported products on the same footing as similar domestically produced goods.

Thus it is not open to a country to levy on an imported product, after it has entered the country on payment of customs duties at the border, internal taxes (such as a sales tax) at rates that are higher than those applied to comparable domestic products. Likewise, regulations affecting the sale and purchase of products in the domestic market cannot be applied more rigorously to imported products.

Study Note - 8

CENTRAL SALES TAX AND VAT ACT

This Study Note includes

- 8.1 Indian Value Added Tax System
- 8.2 Central Sales Tax Act, 1956
- 8.3 Forms under CST

8.1 INDIAN VALUE ADDED TAX SYSTEM

The Government of India has excogitated “Value Added Tax (VAT)” on the sale of goods to provide a set-off for the tax already paid through a mechanism of input tax credit. This input tax credit in relation to any period means setting off the input tax by a registered dealer against the amount of his output tax.

In conceptualization of the VAT system the Government aims at the tax is to be paid on value addition at each point of sales to the goods.

DEALER

The dealer is the person who is liable to pay the Tax under the system. Therefore, before delving into the topic of VAT it is necessary to know the term dealer. As defined in the Central Sales Tax Act, 1956 the term ‘Dealer’ means any person who carries on the business of buying, selling, supplying or distributing goods, directly or otherwise, whether for cash or for deferred payment, or for commission, remuneration or other valuable consideration.

The term dealer explicitly encompasses but not limited to the following having a variation from state to state:

1. an industrial, commercial or trading undertaking of the Government, the Central Government, a State Government, a statutory body, a local authority, company, a Hindu undivided family, a partnership firm, a society, a club or an association which carries on such business;
2. a casual trader, a person who has, whether as principal, agent or in any other capacity, carries on occasional transactions of a business nature involving the buying, selling, supply or distribution of goods in the State, whether for cash or for deferred payment, or for commission, remuneration or other valuable consideration;
3. a commission agent, a broker or del credere agent or an auctioneer or any other mercantile agent by whatever name called, who carries on the business of buying, selling, supplying or distributing goods on behalf of any principal;
4. a non-resident dealer or an agent of a non-resident dealer, a local branch of a firm or company or association situated outside the State;
5. a person who sells goods produced by him by manufacture or otherwise;
6. a person engaged in the business of transfer otherwise than in pursuance of a contract of property in any goods for cash deferred payment or other valuable consideration;
7. a person engaged in the business of transfer of property in goods (whether as goods or in some other form) involved in the execution of a works contract;

8. a person engaged in the business of delivery of goods on hire purchase or any system of payment by installments;
9. a person engaged in the business of transfer of the right to use any goods for any purpose (whether or not for a specified period) for cash, deferred payment or other valuable consideration.

GOODS COVERED UNDER VAT

All the goods including declared goods as mentioned in the Central Sales Tax Act, 1956 are covered under VAT and will get the benefit of input tax credit.

Only few goods which has been kept outside VAT is liquor, lottery tickets, petrol, diesel, aviation turbine fuel and other motor spirit since their prices are not fully market determined. These will continue to be taxed under the Sales Tax Act or any other State Act or even by making special provisions in the VAT Act itself, and with uniform floor rates decided by the Empowered Committee.

REGISTRATION UNDER VAT

Persons Require Registration under the Vat Act

All dealer prior to commencement of the VAT Act in the States, having a Registration Certificate either under Local Sales Tax Act or under Central Sales Tax Act are deemed to be the Registered Dealer. A new dealer will be given a 30 days time from the date of applicability of the Act in the State.

As per the White Paper on Value Added Tax published by the Ministry of Finance, the registration of dealers with gross annual turnover above ₹ 5 lakh will be compulsory. However every States is flexible to fix the threshold limit within ₹ 5 lakh for the small dealers.

No need of compulsory registration for small dealers whose gross annual turnover is less than ₹ 5 lakh. Also, the Empowered Committee of State Finance Minister subsequently allowed the States to increase the threshold limit for the small dealers to ₹ 10 lakh with the condition that the concerned State would bear the revenue loss, on account of increase in limit beyond ₹ 5 lakh.

Example 1 : Mr. X commenced business with effect from 1st July, 2008 for buying and selling automobile parts within the state of Tamil Nadu. His turnover exceeds ₹ 10 lakhs in the month of 1st of December, 2008 then he has to get register within 30 days from the date of crossing the threshold limit of ₹ 10 lakhs.

Every State shall make the provision for voluntary registration of dealers who are not otherwise liable to pay tax. However the voluntary registration process are same as applicable to other dealers who are liable to pay tax under VAT.

Dealers with annual gross turnover not exceeding ₹ 50 lakh who are otherwise liable to pay VAT, shall however have the option for a composition scheme with payment of tax at a small percentage of gross turnover. The dealers opting for this composition scheme will not be entitled to input tax credit.

REGISTRATION PROCESS

The form of application to register and manner of making application, and the fee payable is prescribed by the State VAT Act in each State.

A properly filled application may be filed with the Commercial Tax Officer or Assistant Commissioner of Commercial Taxes or any other authority prescribed by the State VAT Act, who is having a jurisdiction over the principal place of business of the Applicant. On receipt of an application to register the prescribed authority shall register any such dealer and grant him a certificate of registration, if he is satisfied that the applicant is a bona fide dealer and that he complies with the requirements of the Act.

The certificate of registration will be issued with effect from the first day of the month following the month in which such application is made or from such earlier date as may be mutually agreed.

The prescribed authority may refuse to grant a certificate of registration to the applicant for any good and sufficient reasons to be recorded in writing, after allowing the applicant to show cause in writing against such refusal.

The Act may contains provision relating to suo-moto Registration of dealer. The competent authority may after conducting such survey, inspection or enquiry as may be prescribed, finds a dealer liable to be registered has failed to inform the competent authority of his liability to be registered, proceed to register such person under the Act.

SECURITY FOR REGISTRATION

The act may prescribe the authority for the proper payment of the tax, from time to time demand from a registered dealer or from a dealer who has applied for registration under this Act, reasonable security not exceeding an amount to be paid in a manner suggested in the Act.

The prescribed authority as per the state VAT Act may by order forfeit the whole or any portion of the security furnished by a dealer:

1. for collecting any amount of tax, interest or penalty that is payable by such dealer, or
2. if such dealer is found to have misused any prescribed certificate or declaration or has failed to keep or retain them in the prescribed manner. -
3. No order shall be passed under sub-section (2), without giving the dealer an opportunity of showing cause in writing against such forfeiture.

VAT RATES AND THE COMMODITIES

The VAT covers about 550 goods and only two basic VAT rates of 4% and 12.5%, plus a specific category of tax-exempted goods and a special VAT rate of 1% only for gold and silver ornaments, etc. are applicable.

The uniform VAT rate will abolish the multiplicity of rates in the existing structure. Under the exempted category, there will be about 46 commodities comprising of natural and unprocessed products in unorganised sector, items which are legally barred from taxation and items which have social implications. Included in this exempted category is a set of maximum of 10 commodities flexibly chosen by individual States from a list of goods (finalised by the Empowered Committee) which are of local social importance for the individual States without having any inter-state implication. The rest of the commodities in the list will be common for all the States.

A VAT rate of 4% is applicable to the largest number of goods (about 270), common for all the States, comprising of items of basic necessities such as medicines and drugs, all agricultural and industrial inputs, capital goods and declared goods.

The remaining commodities, common for all the States, will fall under the general VAT rate of 12.5%. In terms of decision of the Empowered Committee, items relating to sugar, textile and tobacco, because of initial organisational difficulties, will not be imposed for one year after the introduction of VAT, and till then the existing arrangement will continue.

RETURNS AND FILING

A simplified form of returns may be used and such form is to be notified by each State. Returns are to be filed monthly/quarterly as specified in the State Acts/Rules, and will be accompanied with payment challans.

Every return furnished by dealers will be scrutinised expeditiously within prescribed time limit from the date of filing the return. If any technical mistake is detected on scrutiny, the dealer will be required to pay the deficit appropriately.

Every return shall be signed and verified-

1. In the case of an individual, by the individual himself, and where the individual is absent from India, either by the individual or by some person duly authorised by him in this behalf and where the individual is mentally incapacitated from attending to his affairs, by his guardian or by any other person competent to act on his behalf;
2. 'In the case of a Hindu Undivided Family, by a Karta and where the Karta is absent from India or is mentally incapacitated from attending to his affairs, by any other adult member of such family;
3. In the case of a company or local authority, by the principal officer thereof;
4. In the case of a firm, by any partner thereof, not being a minor;
5. in the case of any other association, by any member of the association or persons;
6. in the case of a trust, by the trustee or any trustee; and
7. in the case of any other person, by some person competent to act on his behalf.

SELF-ASSESSMENT

The basic simplification in VAT is that VAT liability will be self-assessed by the dealers themselves in terms of submission of returns upon setting off the tax credit.

Return forms as well as other procedures will be simple in all States. There will no longer be compulsory assessment at the end of each year as is existing now. If no specific notice is issued proposing departmental audit of the books of accounts of the dealer within the time limit specified in the Act, the dealer will be deemed to have been self-assessed on the basis of returns submitted by him.

APPELLATE AUTHORITIES

1. An appeal from every original order under the VAT Act or the rules made thereunder shall lie,-
 - i. if the order is made by a an Assistant Commissioner or Sales Tax Officer, or any other officer subordinate thereto, to the Deputy Commissioner;
 - ii. if the order is made by an Deputy Commissioner, to the Joint Commissioner;
 - iii. if the order is made by a Joint Commissioner, Additional Commissioner, or Commissioner, to the Tribunal.
2. In the case of an order passed in appeal by an Deputy Commissioner or, as the case may be, by a Joint Commissioner, a second appeal shall lie to the Tribunal.
3. The Commissioner on receipt of notice that an appeal against the order passed in appeal by the Deputy Commissioner or, as the case may be, by the Joint Commissioner has been preferred by the other party to the Tribunal may, within thirty days of receipt of the notice, file a memorandum of cross objection against any part of the order passed in appeal by the Deputy Commissioner or, as the case may be, by the Joint Commissioner and such memorandum shall be disposed of by the Tribunal as if it were an appeal.

A person/Commissioner of Commercial Taxes not satisfied by the order of the Tribunal may approach the High court of the State either in appeal or revision within Ninety-days from the date of communication of the order, the decision of which will be final.

PENALTY & OTHER MEASURES

The penalties prescribed in the VAT Act are different in for different Offences and it still differs from state to State.

REFUNDS

Where any amount is refundable to a dealer after having duly verified the fact of deposit of such amount, the assessing authority shall in the prescribed manner refund to such dealer the amount to be refunded either by cash payment or by adjustment against the tax or other sum due in respect of any other period. Such refundable amount shall carry interest at the rate as may be notified by the State Government from time to time, with effect from the date of its deposit.

Where an amount or tax is collected at any check-post from any person who is not registered under the Act and such amount or tax is not found payable by him, or where an amount in lieu of tax for any work is deducted in any manner by an awardee from any bill of payment to a contractor, who is not liable to get registration under the Act, the amount so collected or deducted shall be refunded in the prescribed manner by the Assistant Commissioner or the Commercial Taxes Officer, as the case may be, in whose territorial jurisdiction such person or contractor ordinarily resides.

Any tax levied and collected under this Act, in respect of the sale or purchase inside the State of any declared goods which are subsequently sold in the course of inter-State trade or commerce and on which tax has been paid under the Central Sales Tax Act, 1956 (Central Act 74 of 1956), shall be refunded to the person making such sale or purchase in the course of inter-State trade or commerce.

A refund can be claimed only by the dealer or the person, who has actually suffered the incidence of tax; and the burden of proving the incidence of tax so suffered shall be on the dealer or the person claiming the refund.

8.2 CENTRAL SALES TAX ACT, 1956

Purpose/Scope

- (i) This Act is applicable to sales/purchases taking place in course of interstate trade and commerce.
- (ii) The interstate nature of transaction is to be determined as defined in Section 3(a)/(b). If sale/purchase occasions movement of goods from one State to another State, it is an interstate sale. A sale, effected by transfer of documents of title to goods when goods are in inter-state movement, is also an inter-state sale.
- (iii) Section 4 of the CST Act determines situs of sale: i.e. State in which the sale takes place. Accordingly the situs is to be decided on the location of the goods at the time of sale.
- (iv) Section 5 defines the sale/purchase taking place in course of import/export and such transactions are immune from levy of any tax by State Government or Central Government. [(Sections 5(1), 5(2) and 5(3)].

The sale of goods to any exporter for the purpose of complying with the pre-existing order and covered by Section 5(3) is also exempt as deemed export. These sales are to be supported by Form H along with export order details and copy of bill of lading etc. as evidence of actual export.

EXEMPTIONS

- (i) Section 6 is charging Section. As per Section 6(2) subsequent inter-state sale transaction taking place by transfer of documents of title to goods, when the goods are in course of movement, are exempt. For this purpose the claimant dealer has to obtain Form E-1 from his vendor (if such vendor is first seller otherwise, E-II) and Form 'C' from the buyer.
- (ii) Sale to notified foreign diplomat authorities is also exempt u/s. 6(3) against Form 'J'.
- (iii) The interstate sale to units situated in Special Economic Zone (SEZ) or developers of SEZ against Form 'I' are exempt as per Sections 8(6) read with Section 8(8).

BRANCH/CONSIGNMENT TRANSFER

Under Section 6A, branch/consignment transfer is allowed only if Form 'F' is produced, else it will be deemed to be a sale. Form 'F' is required to be obtained from transferee branch/agent. One Form 'F' can cover transfers effected in one calendar month.

RATES OF TAX

As per Section 8 of CST Act, the rates of taxes are to be decided as per rates under Local Act. The rates can be as under:

(From 1-6-2008 onwards)

Local Rate of Tax	Rate of Tax under C.S.T. Act	
	Supported by 'C' Form (Form D is abolished)	Without 'C' Form
Declared goods	2%	4%
If the goods are generally exempt under Local Act	Exempt	Exempt
1%	1% (C form not required)	1%
4%	2%	4%
5%	2%	5%
12.5%	2%	12.5%

REGISTRATION, FORM 'C' PURCHASES AND OTHER PROVISIONS

- (i) There is no threshold limit for registration under CST Act and hence even on the basis of single transaction a dealer will be liable for registration under Section 7(1). The dealer can also obtain registration voluntarily along with registration under VAT Act as per Section 7(2) of CST Act. Application for registration should be in Form A. Registration certificate will be in Form B.
- (ii) As per Section 9(2), the interest/penalty/return/assessment provisions applicable under Local Act are also applicable to CST Act. In addition there are provisions for levy of penalty u/s. 10 like contravention of the conditions of declaration forms, wrong issue of form etc.
- (iii) Purchases to be effected against Form 'C' are subject to conditions. The compliance is to be checked before using Form 'C'. In nutshell, it can be mentioned that Form 'C' can be used for effecting purchases which are meant for:
 - a) Resale by him
 - b) Use in manufacturing/ processing of goods for sale
 - c) Use in mining
 - d) Use in generation/ distribution of power
 - e) Use in packing of goods for sale/resale
 - f) Use in telecommunication network.
- (iv) One 'C' form can be issued for one quarter of a financial year. Similarly EI/EII can also be issued on quarterly basis.

The Central Government has substituted second and third proviso to Rule 12(1) vide Notification No. 588(E) dated 16th September, 2005. According to these provisos, with effect from 1st October, 2005, Form C will have to be collected separately for each quarter of the year. Form D was required to be obtained transaction wise. However, Form D has been abolished with effect from 1st April, 2007.

Central Government has also substituted sub rule (7) to rule 12 with effect from 1st October, 2005. Form C or certificate in Form E-I or E-II will have to be submitted to sales tax department within three months from the end of the quarter in which sale is effected. In case of Form F, it is to be obtained on monthly basis and it is to be submitted to the sales tax department within three months from the end of the month in which goods are transferred to the interstate branch or agent. In Maharashtra State, the Commissioner of Sales Tax has exempted the dealer from submission of Form C, D, F, H, E-I or E-II. Instead of that, dealers are required to submit the list of missing forms on quarterly basis as per the format specified in Trade Circular No. 28T of 2005 dated 24.10.2005.

- (v) From 11-5-2002 the six deemed transactions of sale, including works contracts and leases are taxable under the CST Act if they are effected in the course of inter-state trade.
- (vi) Chapter VI-A provides for filing of appeals before Central Sales Tax Appellate Authority in case of disputes involving more than one state.
- (vii) In addition, there are other provisions for declared goods, liability in case of companies, offences and prosecution, etc.

Levy and collection of tax and penalties [Section 9]

- (1) The tax payable by any dealer under this Act on sales of goods effected by him in the course of interstate trade or commerce, whether such sales fall within clause (a) or clause (b) of section 3, shall be levied by the Government of India and the tax so levied shall be collected by that Government in accordance with the provision of sub-section (2) in the State from which the movement of the goods commenced.

Provided that, in the case of a sale of goods during their movement from one State to another, being a sale subsequent to the first sale in respect of the same goods and being also a sale which does not fall within sub-section (2) of section 6, the tax shall be levied and collected—

- (a) Where such subsequent sale has been effected by a registered dealer, in the State from which the registered dealer obtained or, as the case may be, could have obtained, the form prescribed for the purposes of clause (a) of sub-section (4) of section 8 in connection with the purchase of such goods, and
 - (b) Where such subsequent sale has been effected by all unregistered dealer in the State from which such subsequent sale has been effected.
- (2) Subject to the other provisions of this Act and the rules made thereunder, the authorities for the time being empowered to assess, re-assess, collect and enforce payment of any tax under general sales tax law of the appropriate State shall, on behalf of the Government of India, assess, re-assess, collect and enforce payment of tax, including any penalty, payable by a dealer under this Act as if the tax or penalty payable by such a dealer under this Act is a tax or penalty payable under the general sales tax law of the State and for this purpose they may exercise all or any of the powers they have under the general sales tax law of the State and the provisions of such law, including provisions relating to returns, provisional assessment, advance payment of tax, registration of the transferee of any business, imposition of the tax liability of a person carrying on business on the transferee of, or successor to, such business, transfer of liability of any firm or Hindu undivided family to pay tax in the event of the dissolution of such firm or partition of such family, recovery of tax from third parties, appeals, reviews, revisions, references, refunds, rebates, penalties, Charging or payment of interest, compounding of offences and treatment of documents furnished by a dealer as confidential, shall apply accordingly.

Provided that if in any State or part thereof there is no general sales tax law in force, the Central Government may, by rules made in this behalf make necessary provision for all or any of the matter specified in this sub-section.

- (2A) All the provisions relating to offences and penalties (including provisions relating to penalties in lieu of prosecution for all offence or in addition to the penalties or punishment for all offence but excluding the provisions relating to matters provided for in section 10 and 10A) of the general sales tax law of each State shall, with necessary modifications, apply in relation to the assessment, reassessment, collection and the enforcement of payment of any tax required to be collected under this Act in such State or in relation to any process connected with such assessment, reassessment, collection or enforcement of payment as if the tax under this Act were a tax under such sales tax law.
- (3) The proceeds in any financial year of any tax, including any penalty levied and collected under this Act in any State (other than a Union Territory) on behalf of the Government of India shall be assigned to that State and shall be retained by it and the proceeds attributable to Union Territories shall form part of the Consolidated Fund of India.

TRANSACTION RELATING TO STOCK TRANSFER & BRANCH TRANSFER

To constitute interstate sales, one of the basic requirements is that there should be sale. If a person sends goods outside from its state to its branch office in another state then it is not sale because you cannot sell goods to yourself. Similarly if a dealer sends goods to its agent in another state who stocks and sells goods on behalf of the dealer, such agent is called consignment agent and such stock transfer is also not considered as interstate sales since there is no sales involved in it, sales will take place when such agent will sell goods. But to prove such stock/branch transfer, F form is required to be produced as proof.

F form required for stock transfer- F form is required to be produced as proof of stock transfer. As per section 6A (1) submission of F form is mandatory to prove stock transfer. Otherwise, the transaction will be treated as sale for all purposes of CST Act.

F Form is issued by the branch office/consignment agent receiving goods as branch/stock transfer to its head office/ principal who is sending the goods by way of stock/ branch transfer. The H.O./ Principal produces such F forms to its assessing authority to prove such stock/branch transfer.

One F Form for one month- First Proviso to Rule 5 of CST Rules 1957 provides that one F form covering receipts during the month can be issued. If space in F form is not adequate, a separate list may be attached as annexure to form F giving details, provided that the annexure is firmly attached to the form. The blank form has to be obtained from sales tax authority in which the transferee is situated, i.e. State where goods were received. If the form is lost, indemnity bond has to be given and duplicate form clearly marked as Duplicate can be issued.

When Stock transfer is treated as Interstate sales- When goods are dispatched to Branch office or consignment agent in other state and thereafter these goods are sold from the branch office or by the consignment agent then it is not a sales and is stock or branch transfer hence no CST liability arises.

However, if the movement of goods is occasioned on account of sales, the movement will be treated as interstate sales. It can be explained with an example Suppose the dealer A registered in Punjab who manufactures some goods and send these goods after manufacturing to its branch office situated at Delhi wherefrom the goods are sold in Delhi. Now the movement of goods from Punjab to Delhi will be treated as stock transfer or branch transfer and for which no CST liability arises and F form will be issued by Delhi Branch to Punjab dealer.

But if a person B in Delhi wants to purchase some goods of special description which is not normally manufactured by A and Mr B places order with A in Punjab for manufacturing special description goods. Now if A manufactures such ordered goods and send them to its branch at Delhi then such movement will be an interstate sales and not a branch transfer since the movement of goods was due to a predetermined contract of sales.

Thus where goods were sold through branch, but buyer was known and identified before goods were

dispatched from factory. Obviously this was held as interstate sales and not a stock transfer- Electric Construction and Equipment Co. Ltd. Vs. State of Haryana- (1990) 77 STC 424 (P&H HC DB).

In South India Viscose Ltd. vs. State of Tamilnadu -(1981) 48 STC 232 (SC)= AIR 1981 SC 1604 it was held that if there is a conceivable link between contract of sale and the movement of goods from one state to another in order to discharge the obligation under the contract of sale, the interposition of the agent of seller who may temporarily intercept the movement will not alter the interstate character of the sale.

F form is not a conclusive evidence but it is conclusive after assessing officer passes an order, Submitting F form is not a conclusive evidence per se to prove beyond doubt any stock or branch transfer. The assessing officer may make enquiry as to whether declaration furnished by dealer are true or not. The sales tax authorities can investigate if they are of the opinion that the movement of goods is an interstate sale and not stock transfer.

Section 6A (1) provides that the dealer may submit form F, along with evidence of dispatch of goods. If Dealer fails to furnish such declaration, the movement shall be deemed for all purposes of the Act to have been occasioned as a result of sale. Section 6A (2) provides that if assessing authority is satisfied after making enquiry that the declaration furnished by dealer are true, he shall make an order to that effect and thereupon, the movement of goods to which the declaration relates shall be deemed for the purpose of the CST Act to have been occasioned other than as a result of sale.

In Assam Company (India) Ltd. vs. CT, Assam (1997) 107 STC 154 (Gau HC DB), it was held that F form is not conclusive. Sales Tax Officer can make enquiry whether the declaration is true and can reject the F form, if the transaction is found not to be genuine.

In D Dhandapani vs. State of Tamilnadu-(1995) 96 STC 98 (Mad HC DB), it was held that section 6A(2) of CST Act authorizes Assessing officer to make enquiry that particulars contained in the declaration furnished by the dealer are true and for this purpose other evidence produced by dealer is also to be considered. Authority can call for other information to verify the truth of particulars contained in form F. The dealer has to prove that details in form F are true. If he is unable to do so, transfer of goods can be taken as on account of interstate sales.

It has been held that by production of form F and providing proof of dispatch of goods, the initial burden of proof on the dealer is discharged- State of AP vs. Dairy Development Corporation Ltd- (1994) 95 STC 478 (AP HC).

Once assessing officer had made enquiry and passed order that the particulars stated are correct, the presumption that the movement has occasioned otherwise than as a result of sale is conclusive. Reopening of assessment under State Sales Tax would not be permissible only on limited grounds of fraud, collusion, misrepresentation or suppression of material facts- Ashok Leyland Ltd vs. State of Tamilnadu 2004 AIR SCW 1001.

ASSESSMENT ORDERS [SECTIONS 6A (1), 6A (2) AND 6A (3)]

There is confusion in the minds of dealers/ assesseees as to the appellate forum to be approached in case of assessment orders passed under Sections 6A(1), 6A(2) and 6A(3) of the Central Sales Tax Act, 1956.

(i) Introduction

- (a) CST Act deals with taxation of inter-state sales made by the dealers. A sale which occasions movement of goods from one State to another or is effected by transfer of documents of title to the goods during the movement from one State to another falls within the ambit of interstate sale and liable for tax under the CST Act.
- (b) If the movement of the goods does not take place as a result of sale, but effected by a dealer to his own place of business or to his agent or principal in another State, then there is no tax liability on the dealer, since there is no sale of goods, subject to establishment of

movement of goods otherwise than as a result of sale. CST Act stipulates the conditions to be fulfilled by the dealer, to prove that the material movement has taken place not as a result of sale, but on account of stock transfer to his place of business or to his agent or principal in another State(s).

(ii) Conditions for granting exemption to stock transfers

- (a) The dealer effecting stock transfer of goods from one State to his place of business or to his agent or principal in another State, shall obtain a declaration in Form 'F' signed by the authorised signatory in other State(s), issued by the VAT department in those State(s), indicating the details of stock transfers made on the declaration Form, such as stock transfer challan no., date, value of the materials, vehicle no., LR No., date etc. The dealer is also required provide proof evidencing dispatch of goods to his place of business or to his agent or principal in other State(s). If the dealer fails to furnish the Form 'F' declarations and prove movement of goods to another State other than by way of sale, then the stock transfers shall be treated as sales.
- (b) Rule 6A of the CST Act is reproduced hereunder for ready reference:

"6A (1) Where any dealer claims that he is not liable to pay tax under this Act, in respect of any goods, on the ground that the movement of such goods from one State to another was occasioned by reason of transfer of such goods by him to any other place of his business or to his agent or principal, as the case may be, and not by reason of sale, the burden of proving that the movement of those goods was so occasioned shall be on that dealer and for this purpose he may furnish to the assessing authority, within the prescribed time or within such further time as that authority may, for sufficient cause, permit, a declaration, duly filled and signed by the principal officer of the other place of business, or his agent or principal, as the case may be, containing the prescribed particulars in the prescribed form obtained from the prescribed authority, along with the evidence of despatch of such goods and if the dealer fails to furnish such declaration, then the movement of such goods shall be deemed for all purposes of this Act to have been occasioned as a result of sale".
- (c) Rule 12(5) of the Central Sales Tax (Registration and Turnover) Rules, 1957 (hereinafter referred to as "CST Rules") stipulates that the declaration referred to in sub-section (1) of Section 6A shall be in Form 'F'.
- (d) A single declaration form shall cover the stock transfers effected by the dealer during one calendar month.
- (e) In effect, a dealer, who effected stock transfer of goods to his place of business or agent or principal in another State shall obtain one Form 'F' for each of the months during the year. If there are stock transfers during all the twelve months in a year, the dealer is required to obtain twelve (12) 'F' Forms from his place of business or agent or principal in another State and submit to his assessing authority along with proof of dispatch of goods to get exemption.
- (f) The dealer has to submit forms obtained from his branch or agent or principal outside the State, within three months from the end of the month in which stock transfers took place.
- (g) In case the dealer fails to submit the 'F' Forms, the movement of goods shall be treated as a result of sale and CST shall be levied, as per Section 6A(1) of the CST Act.

(iii) Assessment of stock transfers

- (a) The assessing authority is required to verify the Form 'F' declarations furnished by the dealer and proof of dispatch of goods other than by way of sale and if he is satisfied that the movement of the goods from one State to another State is not as a result of sale, he may pass assessment order, admitting the stock transfers and grant exemption from taxable turnover, since the movement of the goods has been occasioned otherwise than as a result of sale. Rule 6A(2) of the CST Act dealing with assessment is reproduced hereunder for ready reference.

- (b) If the assessing authority is satisfied that after making such inquiry as he may deem necessary that the particulars contained in the declaration furnished by a dealer under sub-section (1) are true, he may, at the time of, or at any time before, the assessment of the tax payable by the dealer under this Act, make an order to that effect and thereupon the movement of goods to which the declaration relates shall, subject to provisions of sub-section (3), be deemed for the purpose of this Act to have been occasioned otherwise than as a result of sale".
- (c) The rule stipulates that the assessing authority required to pass assessment order, treating the movement of goods otherwise than as a result of sale and exempt the transaction from CST, in case the assessing authority is satisfied that declarations and documentary evidence furnished by the dealer, in support of claim that goods are moved from one State to another State otherwise than as a result of sale, are true.
- (d) If the assessing authority after verification of the declaration forms and documentary evidence submitted by the dealer, in support of claim for stock transfers otherwise than as a result of sale, the assessing authority shall pass an order, rejecting the claim for stock transfers. In such a case, the movement of goods shall be treated as a result of sales and CST shall be levied on such transfers from one State to another.

(iv) Difference between orders under Section 6A(1) and 6A(2):

- (a) Order under Section 6A(1): The assessing authorities are required to pass orders under Section 6A(1) of the CST Act, in case the dealer failed to submit Form 'F' declarations. In this case, the claim for stock transfers is rejected for non-submission of 'F' Forms. Genuineness of the movement of goods otherwise than by way of sale is not decided in the orders passed under this Section. The order is purely on account of non-submission of 'F' Forms. Since 'F' Forms are not submitted, the claim from stock transfers otherwise by way of sale is rejected and tax is levied.
- (b) Forms and documents in support of claim for inter-state movement of goods otherwise than by way of sale submitted by the dealer. The assessing authority may reject the claim of the dealer for exemption on stock transfers and levy CST on the such inter-state transfers treating the same as inter-state sales, if he is not satisfied about the movement of goods otherwise than by way of sale.
- (c) The basic difference between order under Section 6A(1) and 6A(2) is that in case of order under Section 6A(1) the demand is due to non-submission of 'F' Forms, while in case of order under Section 6A(2) the demand is due to levy of CST treating the movement of goods as a result of sale, rejecting the claim of the dealers that movement is otherwise than as a result of sale.

(v) Appellate forum to be approached in case of orders under Section 6A(1) and 6A(2):

- (a) Orders passed for non-submission of 'F' Forms – Section 6A(1):

In case the order is passed under Section 6A(1) of the CST Act, rejecting the dealer's claim for stock transfers, for non-submission of the 'F' Forms, then the appeal lies before the next higher forum in the hierarchy of appellate forums. For ex., if the assessment order is passed by the Commercial/Sales Tax Officer/Asst. Commissioner, the appeal lies before the 1st appellate authority, who is generally Dy. Commissioner/Jt. Commissioner/Addl. Commissioner (Appeals) depending upon the designation of the 1st appellate authority. If the 1st appellate authority rejects the appeal, then the dealer has to file 2nd appeal before the 2nd appellate authority which is called Sales Tax Appellate Tribunal/Board or Tax Board etc., which is the highest appellate authority in the State.
- (b) The important point to be noted here is that once the assessment order is passed for non-submission of 'F' Forms, denying the claim for stock transfers, the appeal lies before the 1st

appellate authority, whether the assessing authority clearly indicates that the order is passed under Section 6A(1) or not.

- (c) It is understood there is confusion or mis-conception as to the appellate authority to be approached in case of order under Section 6A (1) or order passed for non-submission of 'F' Forms. It is understood that VAT/Sales Tax authorities in some of the States have also advised the dealers that appeal lies before the highest appellate forum in the State i.e., Sales Tax Appellate Tribunal/Board, in case of orders passed for non-submission of 'F' Forms, citing the provisions of Section 18A of the CST Act.

Relevant provisions of Section 18A of the CST are reproduced hereunder for ready reference:

Appeals to highest appellate authority of State [Section 18A]

- (1) Notwithstanding anything contained in a State Act, any person aggrieved by an order made by the assessing authority under sub-section (2) of section 6A, or an order made under the provisions of sub-section (3) of that section, may, notwithstanding anything contained in the general sales tax law of the appropriate State, prefer an appeal to the highest appellate authority of the State against such order.

Provided that any incidental issues including the rate of tax, computation of assessable turnover and penalty may be raised in such appeal.

- (2) An appeal under sub-section (1) shall be filed within sixty days from the date on which the order referred to in that sub-section is communicated to the aggrieved person.

Provided that any appeal forwarded by the highest appellate authority of a State to the first appellate authority under the proviso to sub-section (2) of section 25 and pending before such authority immediately before the appointed day shall be transferred, on such appointed day, to the highest appellate authority of the State and the same shall be treated as an appeal filed under sub-section (1) and dealt with accordingly.

Explanation.— For the purposes of this sub-section, "appointed day" means such date as the Central Government may, by notification in the Official Gazette, appoint.

- (3) The highest appellate authority of a State may, after giving both the parties an opportunity of being heard, pass appropriate order.
- (4) The highest appellate authority of the State may, as far as practicable, hear and decide such appeal within a period of six months from the date of filing of the appeal.
- (5) Notwithstanding anything contained in a State Act, the highest appellate authority of a State may, on the application of the appellant and after considering relevant facts, including the deposit of any amount towards local or central sales tax in other States on the same goods, pass an order of stay subject to such terms and conditions as it thinks fit, and such order may, inter alia, indicate the portion of tax as assessed, to be deposited prior to admission of the appeal.

Explanation.— For the purposes of this section and sections 20, 21, 22 and 25 highest appellate authority of a State, with its grammatical variations, means any authority or tribunal or court, except the High Court, established or constituted under the general sales tax law of a State, by whatever name called."

Summary of the above provisions

- (i) It is very much clear from the provisions of Section 18 of CST Act that appeals to highest appellate authority of the State shall be preferred in case of orders passed under Section 6A (2) and 6A (3) of the CST Act.
- (ii) Orders under Section 6A (2) are required to be passed by the assessing authority after verification of the Form 'F' declaration forms and documentary evidence in support of movement of goods

otherwise than as a result of sale submitted by the dealer. Therefore, orders Section 6A (2) cannot be passed, if the declaration forms are not submitted by the dealer. In such a case, orders under Section 6A (1) can be passed.

- (iii) Section 6A (3) deals with re-assessments by the assessing authority on discovery of new facts or by a higher authority on the ground that the findings of the assessing authority are contrary to the law. Evidently, Section 6A(3) covers re-assessments but not assessments. Therefore, original assessment orders passed by the assessing authorities are not covered by this Section.
- (iv) In effect, Section 18A contemplates appeals to the highest appellate forum in the State in two cases:
 - (a) Original assessment orders passed by the assessing authority, wherein CST is charged on the materials moved from one State to another State, rejecting the claim of the assessee towards stock transfer of materials, after verification of the 'F' form declarations and documentary evidence submitted by the dealer in support of movement of goods.
 - (b) Re-assessment orders passed by either the assessing authority or any higher authority.
- (v) The Section does not cover original assessment orders passed by the assessing authority for non-submission of 'F' forms, which are required to be passed under Section 6A (1) of the CST Act.
- (vi) The ambiguity in the matter has been succinctly cleared by the judgment of the Hon'ble Karnataka High Court in the case of *Tropicana Beverages Vs. State of Karnataka and Others* [(2012) 54 VST 472 (Kar)]. It has been held by the Hon'ble High Court that where the assessee could not produce Form 'F' to substantiate the exemption, then the question of conducting inquiry under Section 6A (2) does not arise at all. Consequently, the provisions of the Section 18A (1) of the CST Act do not get attracted in this case. Therefore, the appeal lies before the 1st appellate authority, but not before the highest appellate authority i.e., Appellate Tribunal. Dismissal of the appeals by the 1st appellate authority, on the ground that provisions of Section 18A (1) get attracted in this case and therefore appeal lies before the Karnataka Appellate Tribunal, is held to be invalid. The appellate authority is directed to decide the appeals as per the directions given by the High Court.

Conclusion:

- (i) Dealers are advised to file appeals against the assessment orders passed for non-submission of 'F' forms before the 1st appellate authority, but not before the highest appellate forum in the State.

The assessment order is supposed to mention that the order is passed under Section 6A (1) of the CST Act. Even if the assessment order fails to mention that the order is passed under Section 6A (1) of the CST Act, the dealer is required to prefer appeal before the 1st appellate authority, but not before the highest appellate forum in the State.
- (ii) Dealers are advised to file appeals before the highest appellate forum in the State i.e., Sales Tax Appellate Tribunal/ Board or Tax Board, in case the order is passed either under Section 6A(2) or 6A(3) of the CST Act.

Order under Section 6A (2) relates to rejection of the claim for stock transfers after verifying the genuineness of the transactions. Re-assessment order is passed under Section 6A(3) by the assessing authority on discovery of new facts or by a higher authority on the ground that the findings of the assessing authority are contrary to the law.

Central Sales Tax Appellate Authority [Section 19]

- (I) The Central Government shall constitute, by notification in the Official Gazette, an Authority to settle inter- State disputes falling under section 6A read with section 9" of this Act, to be known as "the Central Sales Tax Appellate Authority (hereinafter referred to as the Authority)".

- (2) The Authority shall consist of the following Members appointed by the Central Government, namely:-
- (a) a Chairman, who is a retired Judge of the Supreme Court, or a retired Chief Justice of a High Court;
 - (b) an officer of the Indian Legal Service who is, or is qualified to be, an Additional Secretary to the Government of India; and
 - (c) an officer of a State Government not below the rank of Secretary or an officer of the Central Government not below the rank of Additional Secretary, who is an expert in sales tax matters.
- (2A) Notwithstanding anything contained in sub-section (2), the Chairman or a Member holding a post as such in the Authority for Advance Rulings appointed under clause (a) or clause (c), as the case may be, of sub-section (2) of section 245-O of the Income-tax Act, 1961 (43 of 1961) may, in addition to his being the Chairman or a Member of that Authority, be appointed as the Chairman or a Member, as the case may be, of the Authority under this Act.
- (3) The salaries and allowances payable to, and the terms and conditions of service of, the Chairman and Members shall be such as may be prescribed.
- (4) The Central Government shall provide the Authority with such officers and staff as may be necessary for the efficient exercise of the powers of the Authority under this Act.

Vacancies, etc., not to invalidate proceedings [Section 19A]

No proceeding before the Authority shall be questioned or shall be invalid on the ground merely of the existence of any vacancy or defect in the constitution of the Authority.]

Appeals [Section 20]

- (1) An appeal shall lie to the Authority against any order passed by the highest appellate authority of a State under this Act determining issues relating to stock transfers or consignments of goods, in so far as they involve a dispute of inter-State nature."
- (2) Notwithstanding anything contained in the general sales tax law of a State, the Authority shall adjudicate an appeal filed under sub-section (1).
- (3) An appeal under sub-section (1) may be filed within ninety days from the date on which the order referred to in that sub-section is served on any aggrieved person.

Provided that the Authority may entertain any appeal after the expiry of the said period of ninety days, but not later than one hundred and fifty days from the date of such service, if it is satisfied that the appellant was prevented by sufficient cause from filing the appeal in time.

Provided further that the Authority may entertain any appeal from an aggrieved person within sixty days from the commencement of the Central Sales Tax (Amendment) Act, 2005, where such aggrieved person had the right to file an appeal against the order of the highest appellate authority of the State under sub-section (1) as it stood immediately before the commencement of the said Act, but has not availed of the right to file the appeal during the period commencing on and from the 3rd day of December, 2001 and ending with the 16th day of March, 2005.

- (4) The application shall be made in quadruplicate and be accompanied by a fee of five thousand rupees.]

Procedure on receipt of application [Section 21]

- (1) On receipt of an appeal, the Authority shall cause a copy thereof to be forwarded to the assessing authority concerned as well as to each State Government concerned with the appeal and to call upon them to furnish the relevant records:

Provided that such records shall, as soon as possible, be returned to the "assessing authority or such State Government concerned, as the case may be."

- (2) The Authority shall adjudicate and decide upon the appeal filed against an order of the "highest appellate authority".

Explanation. For the purposes of this section and sections 21, 22 and 25 "highest appellate authority of a State" means any authority or tribunal or court (except the High Court) established or constituted under the general sales tax law of a State, by whatever name called.

- (3) The Authority, after examining the appeal and the records called for, by order, either allow or reject the appeal.

Provided that no appeal shall be rejected unless an opportunity has been given to the appellant of being heard in person or through a duly authorised representative, and "also to each State Government" concerned with the appeal of being heard.

Provided further that whether an appeal is rejected or accepted, reasons for such rejection or acceptance shall be given in the order.

- (4) The Authority shall make an endeavour to pronounce its order in writing within six month of the receipt of the appeal.
- (5) A copy of every order made under sub-section (3) shall be sent to the "appellant, assessing authority, respondent and highest appellate authority of the State Government concerned".

Powers of the Authority [Section 22]

- (1) The Authority shall have the same powers as are vested in a court under the Code of Civil Procedure, 1908 (5 of 1908) while trying a suit in respect of the following matters, namely:—
 - (a) enforcing the attendance of any person, examining him on oath or affirmation;
 - (b) compelling the production of accounts and documents;
 - (c) issuing commission for the examination of witnesses;
 - (d) the reception of evidence on affidavits;
 - (e) any other matter which may be prescribed.

- (1A) The Authority may grant stay of the operation of the order of the highest appellate authority against which the appeal is filed before it or order the Pre-deposit of the tax before entertaining the appeal and while granting such stay or making such order for the Pre-deposit of the tax, the Authority shall have regard, if the assessee has made Pre-deposit of the tax under the general sales tax law of the State concerned, to such "Pre-deposit" or pass such appropriate order as it may deem fit.

- (1B) The Authority may issue direction for refund of tax collected by a State which has been held by the Authority to be not due to that State, or alternatively, direct that State to transfer the refundable amount to the State to which central sales tax is due on the same transaction:

Provided that the amount of tax directed to be refunded by a State shall not exceed the amount of central sales tax payable by the appellant on the same transaction.

- (2) Every proceeding before the Authority shall be deemed to be a judicial proceeding within the meaning of sections 193 and 228 of the Indian Penal Code (45 of 1860) and the Authority shall be deemed to be a civil court for the purposes of section 195 and Chapter XXVI of the Code of Criminal Procedure, 1973 (2 of 1974).

Procedure of Authority [Section 23]

The Authority shall, subject to the provisions of this Chapter, have power to regulate its own procedure "in all matters including stay of recovery of any demand" arising out of the exercise of powers under this Act.

Authority for Advance Rulings to function as Authority under this Act [Section 24]

- (1) Notwithstanding anything contained in any other law for the time being in force and in section 19 of this Act, the Authority for Advance Rulings constituted under section 245-O of the Income-tax Act, 1961 (43 of 1961), shall be notified by the Central Government in the Official Gazette, with such modifications as may be necessary, to make its composition in conformity with section 19 of this Act, as the Authority under this Act till such time an Authority is constituted under that section.
- (2) On and from the date of the constitution of the Authority in accordance with the provisions of section 19 of this Act, the proceedings pending with the Authority for Advance Rulings shall stand transferred to the Authority constituted under that section from the stage at which such proceedings stood before the date of constitution of the said Authority.

Transfer of pending proceedings [Section 25]

- (1) On and from the commencement of the Central Sales Tax (Amendment) Act, 2005, all appeals (except appeals against orders of the highest appellate authority of the State) pending before the Authority notified under subsection of section 24 shall stand transferred together with the records thereof to the highest appellate authority of the concerned State.
- (2) Such highest appellate authority of the State to which such appeal has been transferred under sub-section (1) on receipt of such records shall proceed to deal with such appeal so far as may be in the same manner as in the case of an appeal filed before such highest appellate authority of the State according to the general sales tax law of the appropriate State, from the stage which was reached before such transfer or from any earlier stage or de novo as such highest appellate authority of the State may deem fit.

Applicability of order passed [Section 26]

An order passed by the Authority under this Chapter shall be binding on "each state Government concerned, the assessing authorities" and other authorities created by or under any law relating to general sales tax, in force for the time being in any State.

8.3 FORMS UNDER CST

Form A	This form is prescribed for application to get registered u/s 7 of CST Act.
	Details such as name, status, place of business, warehouses, nature of business, nature and purpose of goods to be dealt, goods to be bought from outside the state etc., are required to be furnished.
	Care should be taken to list the goods sought to be bought from outside the state and the purposes for which they are proposed to be utilized as the benefit of Form C is restricted to the goods and end use listed only.
Form B	Certificate of registration shall be issued by the authority in this form.
	The certificate of registration should be kept in the principal place of business and copies thereof in the branches inside the appropriate state
Form C	Registered dealers are entitled to certain exemptions under CST Act, 1956
	Form C is used by a purchasing dealer to get the goods at concessional rate of duty and is issued in favour of the dealer who effects interstate sale.

	It is obtained from the sales tax authorities in the state in which the purchasing dealer is registered.
	It contains particulars such as name of purchasing dealer, sales tax registration no., its validity, details of goods obtained (whether for resale, manufacture, processing or as packing material), name and address of the seller etc.
Form D	Abolished w.e.f. 1.4.2007
Form E-I, E-II & E-III	In case of subsequent sale in the course of Interstate sale, the dealer effecting subsequent sale can avail exemption by submitting Form C issued by his customer and by submitting Form E-1, issued by his seller. Form, E-I, E-II & E-III etc. are printed by the Sales Tax department and are supplied to the registered dealer for their use. Form E-II & E-III will have to be issued, in case there are more than one subsequent sale.
Form F	Thus, it should be noted that Form E-I can be issued by the first seller alone. Form E-II & E-III will have to be submitted by those selling dealer (other than the first dealer) to their purchaser, who can avail of the exemption under section 6(2), subject to the condition that Form C is submitted as well.
	Contents of Form E-I: Declaration contains the name of the issuing state, date of issue, name of selling dealer, name of purchasing dealer name and place of state in which movement of goods commence, quantity, weight, value, number and date of declaration in Form C received by the purchasing dealer.
	Contents of Form E-II: the. Declaration contains the name of the issuing state, date of issue, name and address of dealer effecting sate by transfer of documents to the title name of purchasing dealer, name and place of state in which movement of goods commence, quantity, weight, value, invoice, number and date of declaration in Form C received by the purchasing dealer.
Form G	This form is used by registered dealer for making a declaration to the effect that the transfer of goods from one state to another by him is done otherwise than by way of sale as per the provisions of Section 6A of the CST Act, 1956.
	These forms are issued by the sales tax authorities of the concerned state where the goods are received.
	It contains the name of the issuing state, date of issue, name and address of consignee and his registration no., name and registration no. of the transferor, description of goods, quantity, weight value etc.
	The declaration shall be signed by the authorized signatory.
Form H	Form G relates to the indemnity which is required to be furnished by the dealer in regard to matters of security deposit (section 7A).
	The value of the stamp duty on which this should be executed has to be determined at the time of furnishing the indemnity after discussing with the Officer concerned.
	This form is used by the exporters who purchase the goods for the purpose of export.
	The actual exporter shall issue a certificate to the penultimate seller in Form H.
	These forms are obtained from the sales tax authorities by the exporter.
	Form H contains the name of the issuing state, date of issue name and address of exporter and his registration no., name and registration no. of the selling dealer, description of goods, quantity, weight, value details of export etc.
	It also contains an undertaking by the exporter that if the goods are re-imported they will inform the sales tax authorities about the re-import within 1 month of such re-import.

Study Note - 9

ASSESSMENT OF VARIOUS ENTITIES & TAX PLANNING

This Study Note includes

- 9.1 Assessment of Individuals
- 9.2 Assessment of Hindu Undivided Family
- 9.3 Assessment of Firms
- 9.4 Assessment of Limited Liability Partnership (LLP)
- 9.5 Assessment of Association of Persons/Body of Individuals
- 9.6 Assessment of Companies
- 9.7 Assessment of Co-operative Societies
- 9.8 Assessment of Trusts
- 9.9 Assessment of Mutual Association
- 9.10 Alternate Minimum Tax
- 9.11 Different Aspects of Direct Tax Planning

9.1 ASSESSMENT OF INDIVIDUALS

Tax incidence on Individuals

While computing taxable Income of an Individual following points should be considered.

Nature of Income	Tax Treatment
Income earned by the taxpayer	Except the following all other incomes shall be included (a) Income exempt under sections 10 to 13A (b) Incomes to be included in income of others by virtue of section 60 to 64.
Share of Profit from Hindu Undivided Family	It is exempt under section 10(2)
Share of Profit from a firm assessed as firm	It is exempt under section 10(2A)
Salary and Interest from the aforesaid firm	These are taxable as business Income
Share of profit from an Association of Persons/Body of Individuals	If the association/body is taxable at the maximum marginal rate (or at higher rate), then share of profit is not taxable in hands of recipient.
Income earned by others and included in the income of the taxpayer by virtue of section 60 to 64	Such income shall be included in the income of the taxpayer.

Special Provisions for persons governed by Portuguese Civil Law (Section 5A)

This Section is applicable for the appropriation of income between spouses governed by the Portuguese Civil Code which is in force in the state of Goa and Union territories of Dadra and Nagar Haveli and Daman and Diu. By virtue of this section, income from all other sources, except from salary, should be apportioned equally between husband and wife. The income so apportioned will be included separately in the total income of the husband and of the wife and the remaining provisions of act shall apply accordingly. Salary Income is, however, taxable in the hands of the spouse who has actually earned it.

Even the income from profession will be apportioned equally between the husband and the wife- CIT vs. Datta vs. Gaitonde [2002] 241 ITR 241/108/ taxman 533(Bom).

Taxable income shall be computed as follows :

- Step 1- Income under the different heads of income -First find out income under the five heads of income
- Step 2- Adjustment of losses of the current year and earlier years- Losses should be set off according to the provisions of sections 70 to 78. The income after adjustment of losses is the gross total income.
- Step 3- Deduction from gross total income- Deductions specified under Chapter VI A should be considered while calculating the gross total income.
- Step 4- Rounding off- The balance should be rounded off to the nearest ₹ 10. It is called as net income or taxable income or total income.

Tax Liability :

Normal Rates of Income Tax

- I. In the case of every Individual (including Non Resident) or Hindu Undivided Family or AOP/BOI (other than a co-operative society) whether incorporated or not, or every Artificial Judicial Person

Upto ₹ 2,00,000	Nil
₹ 2,00,001 to ₹ 5,00,000	10%
₹ 5,00,001 to ₹ 10,00,000	20%
Above ₹ 10,00,000	30%

- II. In the case of every individual, being a resident in India, who is of the age of 60 years or more at any time during the Previous Year. [Senior Citizen]

Upto ₹ 2,50,000	Nil
₹ 2,50,001 to ₹ 5,00,000	10%
₹ 5,00,001 to ₹ 10,00,000	20%
Above ₹ 10,00,000	30%

- III. In the case of every individual, being a resident in India, who is of the age of 80 years or more at any time during the Previous Year. [Super Senior Citizen]

Upto ₹ 5,00,000	Nil
₹ 5,00,001 to ₹ 10,00,000	20%
Above ₹ 10,00,000	30%

Note : The amount of income tax computed applying the above rates and special rates u/s 111A and 112 shall be increased by a surcharge at the rate of 10% of such income tax incase the total income exceeds ₹1 crore.

'Education Cess' @ 2%, and 'Secondary and Higher Education Cess (SHEC)' @ 1% on income tax shall be chargeable.

Calculation of Tax Liability:

- Step 1 – Determine Net Income and tax payable thereon at the slab rate.
- Step 2 – Add surcharge @ 10% incase the total income exceeds ₹1 crore.
- Step 3 – Add education cess and secondary and higher secondary education cess
- Step 4 – Deduct rebate u/s 86, 87A, 89, 90, 90A and 91

Step 5 – Add interest payable (if any)

Step 6 – Deduct amount of prepaid taxes paid (Advance Tax, Tax Deducted at Source, etc.)

The Balance so arrived is the amount of tax to be paid.

Note: (1) From the Assessment Year 2013-14, tax payable (i.e. amount arrived at Step 3) cannot be less than 18.5 percent of “Adjusted Total Income” in some Specified Cases.

(2) The total amount payable as income tax and surcharge on total income exceeding ₹1 crore shall not exceed the total amount payable as income tax on a total income of ₹1 crore by more than the amount of income that exceeds ₹1 crore.

If an individual receives any portion of his salary in arrears or in advance or receives profit in lieu of salary, he can claim relief in terms of section 89 read with rule 21A as under:

Computation of relief when salary has been received in arrears or in advance [Rule 21A(2)]

The relief on salary received in arrears or in advance (hereinafter to be referred as additional salary) is computed in the manner laid down in rule 21A (2) as under:

1. Calculate the tax payable on the total income, including the additional salary, of the relevant Previous Year in which the same is received.
2. Calculate the tax payable on the total income, excluding the additional salary, of the relevant Previous Year in which the additional salary is received.
3. Find out the difference between the tax at (1) and (2).
4. Compute the tax on the total income after including the additional salary in the Previous Year to which such salary relates.
5. Compute the tax on the total income after excluding the additional salary in the Previous Year to which such salary relates.
6. Find out the difference between the tax at (3) and (4).
7. The excess of tax computed at (3) over tax computed at (6) is the amount of relief admissible under section 89. No relief is, however, admissible if tax computed at (3) is less than tax computed at (6). In such a case, the assessee-employee need not apply for relief.

If the additional salary relates to more than one Previous Year, salary would be spread over the Previous Years to which it pertains in the manner explained above.

Special Provisions relating to non-residents [Section 115C to 115I]

The benefit of special provisions can be claimed by non-resident Indians. The following are non-resident Indians for the purpose:

- a. citizen of India who is a non-resident ;
- b. a person of Indian origin who is a non-resident

A person shall be deemed to be of Indian origin if he or either of his parents or any of his grandparents, was born in an undivided India.

The Provisions of Section 115C to 115I are applicable only in respect of the following incomes derived by a non resident Indian:

- a. Investment income derived from a “foreign exchange assets”; and
- b. Long Term Capital Gains on sale or transfer of “foreign exchange assets”.

Foreign Exchange Asset - It means those “specified asset” which the assessee has acquired or purchased with, or subscribed to in, convertible foreign exchange;

The following are the “specified assets”:

- a. shares in an Indian Company (public or private)
- b. debentures issued by an Indian Company which is not a Private Company ;
- c. deposits with an Indian Company which is not a Private Company, it may be even deposit with SBI or any other Banking Company;
- d. any security of the Central Government ; and
- e. such other asset as the Central Government may specify in this behalf by notification in the Official Gazette.

Investment Income

In computing the Investment income of a non-resident Indian, no deduction in respect of any expenditure or allowance shall be allowed under any provision of the Act. Moreover, no deduction under Sections 80C to 80U shall be allowed in respect of investment income of non-resident Indians.

Long Term Capital Gain

Long Term Capital Gain on sale or transfer of foreign exchange assets shall be calculated subject to:

1. The benefit of Indexation is not available for the sale or transfer of foreign exchange assets.
2. The non-resident Indian can claim exemption under section 115F by investing sale consideration in another asset.
3. No deduction is permissible under section 80C to 80U in respect of Long Term Capital Gain.

Tax treatment on Investment and Long Term Capital Gain:

Non-resident Indians are chargeable to tax on investment and Long Term Capital Gain at the rate of 20 percent and 10 percent respectively. (plus surcharge, education cess and secondary and higher secondary education cess)

General Provisions —

Rate of Tax — Similar to resident assesseees.

Special rates of tax on Dividends, interest income from units of Mutual Fund and UTI, bonds or shares purchased in foreign currency and Capital Gains arising from their transfer :

- 20% of the dividends [which have not been subjected to additional Income Tax u/s 115-O] [other than dividends mentioned in clause (iv)];
- 5% of interest received from an infrastructure debt fund referred to in Section 10(47) or interest of the nature and extent referred to in Section 194LC/194LD;
- 20% of the interest received from Government or an Indian concern on monies borrowed or debt incurred in foreign currency;
- 20% of the income received in respect of units purchased in foreign currency, of a Mutual Fund specified u/s 10(23D) or of the Unit Trust India;
- 10% of the interest or dividends [which have not been subjected to additional income tax u./s 115-O], in respect of bonds or Global Depository Receipts in an Indian company purchased in foreign currency and issued under the Foreign Currency Convertible Bonds and Ordinary shares (Through Depository Receipt Mechanism) Scheme, 1993 (commonly known as Euro Issues/Euro Bonds) or in respect of bonds or Global Depository Receipts issued against shares of a public sector company sold by the Government to the non-resident in foreign currency; and
- 25% of the income by way of royalty or fees for technical services, if any, included in the total income;
- 10% of the Long-term Capital Gains arising from the transfer of the aforesaid bonds or Global Depository receipts.

Filing of return — Similar to resident assesseees :

However, a non-resident shall not be required to file a return of income u/s 139(1), if his total income consists only of income subject to special rates of tax as mentioned in rate of tax under clauses (iv) supra and the tax has been deducted there from at source.

Return of Income not to be filled in certain cases:

Where a non-resident Indian has income only from a foreign exchange asset or income by way of Long Term Capital Gains arising on transfer of a foreign exchange asset, or both, and tax deductible at source from such income has been deducted, he is not required to file the return of income under section 139(1).

The income from foreign exchange assets and Long Term Capital Gains arising on transfer of such assets would be treated as separate block and charged to tax at a flat rate as explained above.

If the non-resident Indian has other Income in India, such other income is treated as an altogether separate block and charged to tax in accordance with other provisions of the Act.

Benefit available even after the assessee becomes resident – These provisions are as follows:

1. A non-resident Indian in any Previous Year becomes assessable as resident in India in any subsequent year.
2. He may furnish to the Assessing Officer a declaration in writing (along with his return of income under section 139 for the Assessment Year for which he is so assessable) to the effect that the special provisions shall continue to apply to him in relation to the investment income derived from any foreign exchange asset.
3. The foreign exchange assets for this purpose are debentures and deposit with an Indian public limited company and Central Government securities.

The special provisions shall continue to apply for that Assessment Year and for every subsequent Assessment Year till the transfer or conversion (otherwise than by transfer) into money of such assets.

Special Provisions not to apply if the assessee so chooses (Section 115-I)

A non-resident Indian may opt that the special provisions should not apply to him by making a declaration to that effect in his return of income for the relevant Assessment Year. In such case the whole of his Income (including income from foreign exchange assets and Long Term Capital Gains arising on transfer of a foreign exchange asset) is chargeable to tax under the general provisions of the Act.

Conversion of Proprietorship into Partnership

The first step that is usually taken by a proprietor sooner or later is to take the other members of the family as partners. Under the present scheme of taxation of firms, reasonable return for capital and salary for working partners can be deducted from the firm's profits, the balance being taxed at maximum marginal rate. In case of most big firms, the new system has given a significant advantage when compared to the earlier system of double taxation, once by way of firm's tax on firms and again on respective shares in the hands of partners. Such partnership can help to create wealth for the members of the family. Admission of minor children to the benefits of partnership would also help to ensure that the wealth of such minor children grows fast so that when they attain majority, they are assessable in their own hands. Where the parent is liable at maximum marginal rate at top slab, the fact that the minor's share would suffer maximum rate need not discourage such admission of minors. Prior to A.Y. 1993-94, it was possible for the Assessing Officer not to recognise a firm, where other members of the family do not bring in capital or skill in circumstances, where one suspects non-genuineness, a ground on which registration could be refused on the ground that such firms are not genuine. In that case, such firm may be treated as Association of Persons (AOP) with the consequential disallowance

of salary and interest to partners. From A.Y. 1993-94 onwards a firm is taxed as an entity with deductions permissible for salary and interest subject to certain limits while an AOP or BOI do not get this benefit.

Incoming partners have necessarily to justify their inclusion as a partner. Where they do not pay for their share of goodwill, there should be some justification for it. It is better that in such cases goodwill is evaluated and the individual (or existing partners) is/are credited prior to induction so that inference of lack of consideration cannot be lightly made. If the intention is to avoid the contingency of charging for goodwill, it is possible to have a clause in the partnership deed that the goodwill will always belong to the founders, and that, no retiring partner or the legal heirs of the deceased partner other than the founder partners would be entitled to a share of such goodwill. Similarly, real estate, if any, belonging to the individual but treated as that of the firm, would require to be brought in at market rate. If it is brought into the firm's books at book value, which very often is either the cost or the written down value after depreciation, the share of difference between the book value and the market value is lacking in consideration and was treated as deemed gift when gift tax was in vogue.

The Supreme Court's decision in the case of *CGT vs. Chhotalal Mohanlal* (1987) 166 ITR 124 (SC) should serve as a warning in this regard, though, in the facts of that case, the benefit of the reduction in share of the father went to the minor children, a situation, where lack of consideration can be more easily presumed. There are a number of High Court decisions where such attempt on the part of the Assessing Officers to presume gift have failed for one reason or the other. It is possible to resist the presumption of gift on the ground that partnership being a contract, there can be no inference of gift, a plea which is rather weak in the light of the Supreme Court decision or it can be argued that the incoming partners have brought in other intangible advantages for the business, which cannot be measured by what is given up by the individual. In *CGT vs. Smt. Lalita B. Shah* (1979) 118 ITR 794 (Bom.); *CGT vs. Nagji Dulabhji* (1979) 118 ITR 804 (Bom.); *CGT vs. Shravenkumar P. Patel* (1987) 167 ITR 496 (MP); *CGT vs. Sardar Wazir Singh* (1975) 99 ITR 104 (All.); and *Addl. CGT vs. A. A. Annamalai Nadar* (1978) 113 ITR 574 (Mad.) courts have taken a more liberal view on the ground that the promise of service or the agreement to share loss made up for any immediate benefit, which might otherwise be discernible. However, gift was inferred in a number of cases, as for example in *N. K. Krishna Iyer Sreeman Motors vs. CGT* (1973) 89 ITR 228 (Ker.); *CGT vs. A. M. Abdul Rahman Rowther* (1973) 89 ITR 219 (Mad); *CGT vs. Smt. Ruknani [Ammu]* (1973) 87 ITR 549 (Mad.) and *CGT vs. Ganapathy Moothan* (1972) 84 ITR 758 (Ker.).

No doubt, Supreme Court in *CGT vs. P. Gheevarghese Travancore Timbers & Products Kottayam* (1972) 83 ITR 403 (SC) chose not to infer gift in conversion of proprietary business into partnership; but it was not because there was no element of gift but only because the Assessing Officer had picked out goodwill as one of the assets of the proprietary business as the subject matter of the gift. It was pointed out that such an approach is "wholly incomprehensible" and that, therefore, the levy of gift-tax was illegal. On the other hand, if the Assessing Officer had evaluated the net asset value of the business, the issue would have still been open. In other words, the objection was more to the mode of computation of gift than on the principle as to whether there could be a gift at all in a contract of partnership. Relevance of such law after deletion of gift tax is to avoid inference of lack of genuineness on grounds of lack of consideration.

Where proprietary business becomes family partnership, there may be a tendency to regard the whole exercise as a mere tax routine. It cannot really be so. Partnership confers certain legal rights to the partners. A partnership deed in writing is necessary. If salary and interest are provided for and intended to be claimed as a deduction, such deed should be available even at the beginning of the accounting year. There is still the need for establishing that each partner is a genuine partner even under the new scheme of taxation of firms. A firm which is not genuine is not a firm at all. In order that a firm may be genuine, the partners must be real partners and not benamidars of someone else, whether of any other partner or outsider. It is quite likely that a son may be treated as benamidar of father, if he neither brought in capital nor is he able to participate in the firm and contribute his skill and labour. A more liberal view is, however, that even agreement to share loss, relieves the proprietor of his pressure and

may be enough consideration. If the son has no asset of his own, his agreement to share the loss would have no meaning. It is, therefore, necessary that the admission of a partner, though a family member, is capable of being supported by objective considerations, though not in the strictest sense that there must be a quid pro quo as would be normal in the case of transactions with strangers.

The risk in the firm being found non-genuine is that it cannot be treated as a firm even if all the formalities are fulfilled. If it is not treated as a firm, deduction of interest and salary to partners will not be permissible. As an Association of Persons (AOP), it may be taxed at the maximum rate if the shares are not specified or if any one of the members has taxable income. Where the firm is not considered genuine, the maximum rate will be automatically applied as it will be treated as an AOP.

It may be taken note of that the Supreme Court in *ITO vs. Ch. Atchiaiah* (1996) 218 ITR 239 (SC) has ruled that an AOP has only to be assessed directly as an AOP and there is no option either for revenue or taxpayer to have any option for assessment of each member on his respective share.

Where the proprietary business is converted into partnership, the advantage lies in not having to register the immovable property, even if such immovable property has to be treated as that of the firm. It is well-established that no registered instrument of transfer is required when a partner brings his asset as capital contribution. In most cases where the property is used for business, depreciation will be admissible and will lighten the burden of the firm especially since any deduction for depreciation will have the effect of reducing the tax at maximum rate. The fact that partner's capital account will be enlarged by the value of the asset so brought in will entitle him to larger interest deductible under section 40(b) and thereby reducing the incidence of maximum rate still further. It is, therefore, necessary that there should be enough documentation to suggest that the property belongs to the firm and does not continue to be that of the erstwhile proprietor. This is best done by mentioning the fact of the property being brought in by the individual partner as his capital contribution in the preamble to the partnership deed itself with the narration that the value of the property will form a part of his capital contribution. The asset must be taken in the accounts of the firm and shown as an asset in the Balance Sheet of the firm. It is also possible for a firm to purchase an asset from a partner. But in such a case registration would be necessary. However, the comments in this paragraph that no registration is required is subject to revision dependent on the State stamp law. In some States like Maharashtra, registration in such cases is now made mandatory.

The liability for capital gains for the partner who contributes the assets by way of his capital, is a matter which requires consideration. Section 45(3) would deem such pooling of the asset as deemed transfer for the purpose of capital gains tax. But then the value is not a matter on which the Assessing Officer can have any say, because the statute provides that the price to be reckoned for such deemed sale is "the amount recorded in the books of account of the firm". This gives an option to the erstwhile proprietor either to pay capital gains tax by placing a larger value and getting depreciation for firm on such enhanced amount or to avoid capital gains tax altogether and face lesser depreciation. After deletion of gift tax, the possibility of deemed gift in case of under-valuation is now absent.

It is possible to avoid capital gains tax altogether in respect of any real property by retaining ownership, but leasing it out to the firm. It is quite possible that such lease income, though ordinarily assessable as income from other sources, can take into consideration eligibility for depreciation which has been hitherto enjoyed. While in respect of machinery and plant, there is no ambiguity about depreciation, some problems might arise about buildings, when leased without plant and machinery, but used for business purposes. Care, however, should be taken to have the lease rent fixed in such a manner that it will not only be able to absorb the depreciation but will also be capable of being justified with reference to any objective criteria as a reasonable compensation for the assets made available to the firm. It is because one has to steer clear of section 40A(2), which would rule out any excessive or unreasonable amount payable to any interested person. There is a view that section 40A(2) can have no application, when payment is made to a partner, a view for which there is no precedent. On the

other hand, section 40A(2) *prima facie* would have application, since it specifically lists a partner of a firm as a related person under section 40A(2)(iii) of the Act. With the application of transfer pricing rules for transactions under section 40A(2), pricing may become material.

While there are special provisions exempting liability from capital gains tax on conversion of proprietary business and firm's business as that of a company, there is no provision exempting conversion of proprietary business into firm's business. In such a case, where there is conversion of proprietary business to firm's business and the business is transferred to the firm by the proprietor as a going concern contributed as his capital, the assets of the proprietary business will become the assets of the firm under section 14 of the Partnership Act even if such business had immovable property without the need for registration and therefore not incurring liability for stamp duty. But section 45(3) treats such transfer as a taxable transfer on the value credited to the partner, which will be taken as the sale consideration. If, however, the sale is a severable one and not contributed as capital, the erstwhile proprietor will be assessable for capital gains on sale of the asset transferred with the assessee having to pay stamp duty, if the transfer is of immovable property and also losing the sales-tax concession in respect of taxable items.

There is exemption from capital gains tax on sale of proprietary business to a company subject to conditions under section 47(xiv) of the Act. If the transfer takes place by way of conversion of firm into company by registering the firm as company, there is no liability even otherwise since it does not constitute transfer as was decided in *CIT vs. Texspin Engineering and Manufacturing Works* (2003) 263 ITR 345 (Bom.). Incentives enjoyed by the firm under Chapter VI-A prior to such conversion can be continued to be enjoyed by the company for the remaining eligible period as was decided by the Tribunal in *Chetak Enterprises (P) Ltd. vs. Asst. CIT* (2006) 281 ITR (AT) 162 (Jodh).

The view that capital gains tax is attracted in view of section 45(3) is supported by the decision of the Tribunal in *Dharamshibhai B. Shah vs. ITO/GTO* (2010) 1 ITR (Trib) 536 (Ahm).

Conversion to Company

The other choice for the proprietor in reorganising his business for expansion is to convert the proprietary business to that of a company. It is very unfortunate that prior to A.Y. 1999-2000, the general law or the tax laws were indifferent to the need for easier conversion in such cases in the larger interest of economy. Company being a separate legal entity, any transaction as between the firm and the company could have been treated as a transaction between two different persons even if the company happened to be what is loosely described as one-man company. The myth follows the English decision in *Salomon vs. Salomon & Co* (1897) AC 22 but the corporate veil is pierced for so many purposes to secure the interest of those dealing with companies including revenue. Such piercing of the veil is not permissible for the advantage of the individual or the company. In other words, the corporate existence is ignored for the purpose of revenue's benefit and not for the taxpayer, a veritable one-way street. It is for this reason that the cost of conversion should involve considerable tax as part of its cost.

Section 47 contains provisions relating to transactions which are not regarded as transfer for purposes of capital gains tax. Sub-section (xiv) of section 47 prescribes conditions in its proviso for granting exemption from capital gains on conversion of sole-proprietary concern to a company. Section 47(xiv) reads as under:

“47(xiv). Where a sole proprietary concern is succeeded by a company in the business carried on by it as a result of which the sole proprietary concern sells or otherwise transfers any capital asset or intangible asset to the company:

Provided that-

- (a) all the assets and liabilities of the sole proprietary concern relating to the business immediately before the succession become the assets and liabilities of the company.

- (b) the shareholding of the sole proprietor in the company is not less than fifty per cent of the total voting power in the company and his shareholding continues to remain as such for a period of five years from the date of the succession; and
- (c) the sole proprietor does not receive any consideration or benefit, directly or indirectly, in any form or manner, other than by way of allotment of shares in the company."

Immovable properties belonging to the individual can be transferred to a company only by a registered sale deed. Where business as a whole is taken over, registration is sometimes avoided for the time being, but such agreements usually provide for the contingency of registration in case it is so desired by the company. This is done so as to enable selective registration of the assets where it is so required. In case of immovable property, audit is bound to qualify the Balance Sheet in the absence of a registered document. The lending institutions would not treat the asset as that of the company with the result that it is not easy for the company to mobilise resources for its business without formal transfer of proprietary assets. If the asset has to be shown in the Balance Sheet without audit qualification, the cost of registration cannot be avoided. The consequent levy of capital gains tax could not have been avoided before the introduction of section 47(xiii) and 47(xiv). The burden of capital gains tax would have been higher in case of depreciable assets since the surplus over the written down value would be liable to tax as short-term capital gains under section 50 of the Act. Any attempt to lessen such liability by under-valuation of the asset does not now invite gift-tax, after its deletion, but there is no point in understating the value of an asset for the company in which the individual may not be the sole person interested in the company. It is in this context that the cost of conversion from individual to company may be found to be higher, where stamp duty is taken into consideration. At any rate, a larger levy of stamp duty is certain, amendment of Income-tax Act also is of no help in all cases.

There is also an additional point to be considered in such conversion. The individual even assuming has other income which takes him to maximum slab rate may be paying at a flat rate of 30% from A Y 1997-98 (with surcharge at 10% on tax). There is an element of double taxation in the case of a company, since its profit is taxed directly and again on distributed dividend. In contrast, a partner can withdraw his profit without any tax cost.

Mitigation of tax effect

Provision of salary

The only advantage which the individual may take is to ensure that he draws enough salary which can be allowed as a deduction from the company's income. This will avoid corporate tax; and the salary income would suffer the normal rate of tax in his hands. Care has to be taken to see that the salary received not only conforms to the ceiling under the company law which is now liberal, but also to be so designed to avoid resort by the Assessing Officer to section 40A(2), which enables him to disallow what he considers to be excessive or unreasonable. Transfer pricing rules are also made applicable from A.Y. 2013-2014.

Provision of interest

It is not ordinarily necessary that the entire capital employed by the erstwhile proprietor or partners should be treated as share capital of the company, if formed, since part of which may be by way of share capital and the remaining part treated as loan capital. Structuring of the capital of the company would have depended upon its requirement. Where part of the amount is treated as loan capital, interest could be charged. But if exemption is required, entire consideration has to be by way of share capital, since debentures are excluded for availing the benefit of exemption under section 47(xiv) of the Act. Preference shares not redeemable for five years (because of the requirement of retention for five years) should be permissible. As between the choice to convert the proprietary business to that of the firm or company, it would appear that formation of firm is less expensive and involves lesser formality. The question of stamp duty does not arise at all in most States, where the conversion is to the firm.

Business considerations may prompt conversion of individual business to a company with minimum effort rather than converting it into a firm and later on finding it necessary to convert it to a company. Tax cost in such changes on two occasions may be found to be even higher than otherwise. With escalation in prices, a direct takeover by the company now may be preferable to postponing it to a later date. The above comments have however been made with reference to the law as it stood prior to 1999 as well as post 1999.

Other options before the proprietor

It is true, that there is an option of registering the firm as a company so that it may be possible to consider the alternative of forming a firm with a view to register it as company. This is also an option which has to be considered in the light of what has been stated in the matter of conversion of firm into company.

9.2 ASSESSMENT OF HINDU UNDIVIDED FAMILY

U/s 4 of the Income Tax Act, 1961, Income-tax is payable by 'every person'. 'Person' includes a 'Hindu Undivided Family' as defined in sec. 2(31). The definition of 'Hindu Undivided Family' is not found in the Income-tax Act. Therefore the expression 'Hindu Undivided Family' must be construed in the sense in which it is understood under the 'Hindu Law' [Surjit Lal Chhabda vs. CIT 101 ITR 776(SC)].

According to Hindu Law, 'Hindu Undivided Family' is a family which consists of all persons lineally descended from a common ancestor and includes their wives and unmarried daughters. A 'Hindu Undivided Family' is neither the creation of law nor of a contract but arises from status.

A Hindu coparcenary includes those persons who acquire by birth an interest in joint family property. Only a male member of a family can be a coparcener while the membership of a HUF consists of both males and females. All the coparceners of the family constitute what is called a 'Coparcenery'. All the coparceners are members of a HUF but all members of a HUF are not coparceners. A coparcener of a joint family, who acquires by birth an interest in the joint property of the family, whether inherited or otherwise acquired by the family, may have a right to enforce partition whereas the members of the family who are not coparceners have no right to enforce partition. When a partition takes place, member (mother or widow) of the joint family may get a share equal to the sons and also it is necessary to provide for maintenance and marriage of the unmarried daughter out of family property.

There are two schools of Hindu Law- (1) Mitakshara and (2) Dayabhaga. Under the Mitakshara school, each son acquires by birth an equal interest with his father in the ancestral property. Under the Dayabhaga School which prevails in West Bengal and Assam, a son does not acquire by birth in ancestral property. He acquires interest only on the death of his father. Father enjoys an absolute right to dispose of the property of the family according to his desire. After the death of father, his son does not, by operation of law, become members of the joint family. The sons remain as co-owners with definite shares in the properties left by father unless they decide to live as a joint family.

Case Laws:

- (i) A single person, male or female, cannot constitute a Hindu Undivided Family. An individual, who has obtained a share on partition of a joint family, has potentialities of creating a joint family; but until he marries, he alone cannot be considered as a joint family [C. Krishna Prasad vs. CIT 97 ITR 493].
- (ii) A joint family may consist of a single male member with his wife and daughter(s) and it is not necessary that there should be two male members to constitute a joint family [Gowli Buddanna vs. CIT 60 ITR 193].

Jain & Sikh families are not governed by Hindu Law. However, for the purpose of Income tax Act, such families are treated as 'Hindu Undivided Families'.

The income of a joint Hindu family may be assessed in the status of HUF if the following conditions are satisfied:-

- (i) There should be a coparcenership
- (ii) There should be a joint family property which consists of ancestral property, property acquired with the aid of ancestral property and property transferred by its members. It may be pointed out that once a joint family income is assessed as that of Hindu Undivided Family, it will continue to be assessed as such in future years till partition is claimed by its coparceners.

Under the Hindu Law, ancestral property is the property which a person inherits from any of these three immediate male ancestors, i.e. his father, grandfather and great grandfather. Income of ancestral property is taxable as income of HUF in the following cases:

- (i) family of husband and wife without any children;
- (ii) family of two widows of deceased brothers;
- (iii) family of two or more brothers;
- (iv) family of uncle and nephew;
- (v) family of mother, son and son's wife;
- (vi) family of a person and his late brother's wife;
- (vii) family of widow mother and her sons.

It will be seen that the substantive provision of old section 6 reiterates the position prevailing under the then existing Hindu Law that on the death of a Hindu male coparcener of HUF his interest in the HUF shall devolve upon the surviving coparceners of the family. This ensures that succession by survivorship continues to be the law in so far as succession to coparcenary interest in HUF property of a Hindu male is concerned but, having restated and reiterated this important concept of Hindu law in so far as succession is concerned, the Hindu Succession Act, 1956 goes on to severely circumscribe its applicability by the proviso which immediately follows the sub-section.

Where the property of the father is inherited by his son then, as per Section 8 of the Hindu Succession Act, the income from such house property shall be assessed in his individual capacity and not as Karta of the HUF. [Dr. H. N. Mehrotra vs. CIT (2005) 276 ITR 158 (All.)]

According to the proviso to section 6 the succession by survivorship provided in the substantive part of the section will not be applicable where a deceased Hindu male, who is a member of an HUF, leaves behind him any female heirs of Class I or male heirs in that class through such female. In that case, his interest in the HUF coparcenary will devolve upon these heirs by succession, either intestate or by testament and not by survivorship to the remaining coparceners of the HUF.

The following are female heirs of a Hindu male specified in Class I of the Schedule:-

- (i) Widow;
- (ii) Daughter;
- (iii) Mother;
- (iv) Widow of a predeceased son;
- (v) Daughter of a predeceased son;
- (vi) Daughter of a predeceased daughter;
- (vii) Daughter of a predeceased son of a predeceased son;
- (viii) Widow of a predeceased son of a predeceased son.

The only male heir specified in Class I of the Schedule is the son of a predeceased daughter.

There are thus nine categories of heirs mentioned in Class I of the Schedule, eight females and one male, being the son of a predeceased daughter.

Thus where proviso to Section 6 applies and interest of a deceased coparcener is to devolve by intestate succession, what is meant is that the share in the coparcenary property which would have been allotted to him on a partition taking place before his death would devolve on his heirs. The concept of notional partition is brought in for defining the nature and quality of the interest which devolves the succession. The quantum of share is fixed, the proportion in which the share is to be computed is also crystallized. This specific share is definite ascertained properties devolves on the heirs by intestate succession. But that does not affect the continuance of the HUF.

Assessments will continue to be framed on the HUF as the death of a coparcener does not dissolve or disrupt the HUF. It continues in the same manner as before but with one coparcener less. There is, however, a change in the assets owned by the family is on so far as the interest of the deceased coparcener in the HUF will now pass on to his successors – sons, widow, daughters, etc. Before the passing of the Hindu Succession Act, in 1956, there would have been no change in the property or assets of the HUF on the death of a coparcener as his interest in HUF would have passed on to other coparceners by survivorship and consequently remained with the HUF.

Due to amendment brought in the Hindu Succession Act, 1956 by the Hindu Succession (Amendment) Act, 2005, the daughters have been given following rights under section 6.

- (1) The daughter of a coparcener shall by birth become a coparcener in her own right in the same manner as the son
- (2) The daughter has the same rights in the coparcenary property as she would have had in the same manner as the son
- (3) The daughter shall be subject to the same liability in the said coparcenary property as that of a son; and any reference to a Hindu Mitakshara coparceners shall be deemed to include a reference to a daughter of a coparcener
- (4) The daughter is allotted the same share as is allotted to a son.
- (5) The share of the pre-deceased son or a pre-deceased daughter shall be allotted to the surviving child of such pre-deceased son or of such predeceased daughter.
- (6) The share of the pre-deceased child of a pre-deceased son or of a pre-deceased daughter shall be allotted to the child of such pre-deceased child of the pre-deceased son or a pre-deceased daughter.

Further, after the commencement of the Hindu Succession (Amendment) Act, 2005, no court shall recognize any right to proceed against a son, grandson or great-grandson for the recovery of any debt due from his father, grandfather or great-grandfather solely on the ground of the pious obligation under the Hindu law, of such son, grandson or great-grandson to discharge any such debt.

Except the above change relating to daughter being a coparcener, assessments will continue to be framed on the HUF as the death of a coparcener does not dissolve or disrupt the HUF. The interest of the coparcener is determined by assuming a notional partition of HUF immediately before his death. The heirs of the deceased coparcener would hold their share of the property as tenants-in-common with the HUF.

While section 6 of the Hindu Succession Act deals with the succession to interest in coparcenary property where a Hindu male who is a coparcener of a HUF dies, section 8 governs succession to his separate and self-acquired property if he dies intestate. It provides that the self-acquired and separate property will devolve upon his heirs in the following order:

- (1) Firstly, on the relations specified in Class I of the Schedule

- (2) Secondly, if there are no relatives in Class I, then upon the relatives specified in Class II of the Schedule
- (3) Thirdly, if there are no heirs of either Class I or Class II, then upon the agnates of the deceased
- (4) Lastly, if there are no agnates, then upon the cognates of the deceased.

Agnates of the deceased are relatives from the paternal side. A person is said to be an agnate of another if the two are related by blood or adoption wholly through the males.

Cognates of the deceased are relatives through maternal side. A person is said to be cognate of the deceased if the two are related by blood and adoption not wholly through the males.

While computing income of a Hindu Undivided Family one should give due consideration of the following:

- (i) Where a member of HUF converts his self acquired property into joint family, income from such property shall not be treated as income of HUF u/s 64(2). It shall continue to be taxed in the hands of the transferor who is the member of the HUF.
- (ii) Income from an impartible estate is taxable in the hands of the holder of the estate and not in the hands of HUF.
- (iii) Income from Stridhan of a woman is not taxable in the hands of HUF.
- (iv) Personal income of members cannot be treated as income of HUF.
- (v) Where the funds of HUF are invested in a company or a firm, fees or remuneration received by the member as a director or a partner in the company or a firm may be treated as income of HUF in case the fees and remuneration is earned essentially as a result of investment funds.
- (vi) Where remuneration is paid by HUF to Karta or any other member for services rendered by him in conducting family's business, the remuneration is deductible provided the remuneration is paid :
 - (a) under a valid bonafide agreement;
 - (b) in the interest of, and expedient for the family business, and
 - (c) genuine and not unreasonable.

Case law:

Remuneration and commission received by the Karta of HUF on account of his personal qualifications and exertions and not on account of investments of the family funds in the company cannot be treated as income of HUF [Subbiah Pillai (K.S.) vs. CIT 103 Taxman 400/237 ITR 11].

Taxable income shall be computed as follows :

- Step 1 - Income under the different heads of income - First find out income under the five heads of income
- Step 2 - Adjustment of losses of the current year and earlier years - Losses should be set off according to the provisions of sections 70 to 78. The income after adjustment of losses is the gross total income.
- Step 3 - Deduction from gross total income - Deductions specified under Chapter VI A should be considered while calculating the gross total income.
- Step 4 - Rounding off - The balance should be rounded off to the nearest ₹ 10. It is called as net income or taxable income or total income.

Calculation of Tax Liability:

- Step 1 – Determine Net Income and tax payable thereon at the slab rate.
- Step 2 – Add surcharge @ 10% if the total income exceeds ₹ 1 crore.
- Step 3 – Add education cess and secondary and higher secondary education cess

Step 4 – Deduct rebate u/s 86, 90, 90A and 91

Step 5 – Add interest payable (if any)

Step 6 – Deduct amount of prepaid taxes paid (Advance Tax, Tax Deducted at Source, etc.)

The Balance so arrived is the amount of tax to be paid.

Note: (i) From the Assessment Year 2013-14, tax payable (i.e. amount arrived at Step 3) cannot be less than 18.5 percent of "Adjusted Total Income" in some Specified Cases.

(ii) The total amount payable as income tax and surcharge on total income exceeding ₹1 crore shall not exceed the total amount payable as income tax on a total income of ₹1 crore by more than the amount of income that exceeds ₹1 crore.

PARTITION OF HUF

'Partition' may be a (i) total or complete partition (ii) partial partition.

Where all the properties of the family are divided amongst all the members of the family, and the family ceases to exist as an undivided family, it is known as total or complete partition.

On the other hand, where one or more coparceners of the HUF may separate from others and the remaining coparceners may continue to be joint or some of the properties are divided and the balance remain joint it is known as partial partition.

Partition can only be claimed by a coparcener. But, when there is a partition of HUF the following persons are entitled to a share in the assets of the HUF:

- (1) All coparceners.
- (2) Mother is entitled to a share equal to the share of a son in case of death of the father.
- (3) Wife gets a share equal to that of a son if a partition takes place between her husband and his sons. She enjoys this share separately even from her husband.
- (4) A son in the womb of the mother at the time of the partition.

On a partition between the members of a joint family, the shares are allotted as under:-

- (1) On a partition in a HUF which includes father, mother and sons, mother has no right to claim partition but when a partition is actually affected, she takes a share equal to the sons.
- (2) On a partition between a father and his sons where mother is not living, each son takes a share equal to that of the father. Suppose there are four sons, each son of that father will take $1/5^{\text{th}}$ share of the property.
- (3) If a joint family consists of brothers, they take equal shares on a partition.
- (4) Each branch takes per stripe as regards every other branch, but members of each branch take per capita as regards each other.
- (5) None of the unmarried daughters have a right to share on the partition but the partition should provide for their maintenance and education till marriage and for their marriage expenses. However, w.e.f. 9.9.2005, the daughter whether married or unmarried shall also be entitled to equal share on partition as she has also been treated as coparcener like son.

Procedure to effect partition and consequences after partition are as follows:

- (1) A Hindu family hitherto assessed as undivided shall be deemed for the purposes of this Act to continue to be a Hindu Undivided Family, except where and in so far as the partition has been recognized by the Assessing officer under this section.
- (2) Where, at the time of making an assessment under section 143 or section 144, it is claimed by or on behalf of any member of a Hindu Undivided Family assessed as undivided that a total partition has taken place among the members of such family, the Assessing Officer shall make an inquiry there into after giving notice of such inquiry to all the members of the family.

- (3) On the completion of the inquiry, the Assessing Officer shall record a finding as to whether there has been total partition of the joint family property, and, if there has been such a partition, the date on which it has taken place.
- (4) Order u/s 171 passed by the Assessing officer after issuing a call memo only to Karta of the HUF and not other members of the family did not comply with the mandatory requirement of Section 17(2), and therefore, illegal and not valid. Matter remanded back to the Assessing Officer with the direction to pass an order under section 171 after notifying all the members of the HUF and hearing them. [P.G. Srinivasetty & Sons (HUF) vs. ITO (2010) 41 DTR 283 (Kar.)]
- (5) Where a finding of total partition has been recorded by the Assessing Officer under this section, and the partition took place during the previous year the total income of the joint family in respect of the period upto the date of partition shall be assessed as if so far no partition had taken place; and each member or group of members shall, in addition to any tax for which he or it may be separately liable and notwithstanding anything contained in Clause (2) of section 10, be jointly and severally liable for the tax on the income so assessed.
- (6) Where the finding of total partition has been recorded by the Assessing officer under the section, and the partition took place after the expiry of the previous year, the total income of the previous year of the joint family shall be assessed as if no partition had taken place; and each member or the group of members shall be jointly and severally liable for the tax on the income so assessed.
- (7) Notwithstanding anything contained in this section, if the Assessing Officer finds after completion of the assessment of a Hindu Undivided Family, that the family has already affected a partition, and every such person shall be jointly and severally liable for the tax on the income so assessed.
- (8) For the purposes of this section, the several liability of any member or group of members thereunder shall be computed according to the partition of the joint family property allotted to him or it at the partition, whether total or partial.
- (9) The provisions of this section shall, so far as may be, apply in relation to the levy and collection of any penalty, interest, fine or other sum in respect of any period upto the date of the partition, whether total or partial, of a Hindu Undivided Family as they apply in relation to the levy and collection of tax in respect of any such period.

The most important point to be noted for recognition of a partition in joint family which has been hitherto assessed is the condition that there should be a partition by metes and bounds. There should be a physical division of the property under the income-tax or wealth tax laws, although Hindu law recognizes partition by mere severance of status without a physical division. Though physical division by metes and bounds is mandatory, but if the property is not capable of physical division, an exception is possible. [Joint Family of Udayan Chinuttai vs. CIT (1967) 63 ITR 416]. But merely because property of the family consists of immoveable properties there need be no inference that they are indivisible. [Kalloomal Tapeswri Prasad (HUF) vs. CIT (1982) 133 ITR 690 (SC)].

A complete partition with unequal shares as may be agreed between the parties is not illegal and can be final. However, an unequal partition between karta as the sole adult member and the minor children may be challenged at the instance of the minor children on attaining majority of having a partition reopened by the Court. Such a reopening however, will not only be permitted if the division is unjust and unfair.

The Supreme Court in the case of Kapurchand Shrimai vs. CIT (1981) 131 ITR 451 (SC) held that the Assessing Officer cannot continue to make assessment on HUF without disposal of the application made for partition. If such assessment is done, it shall not be valid and it has to be set aside so that assessment can be made in conformity with the order under Section 171 which the Assessing Officer is bound to pass in accordance with law.

W.e.f. 31st December, 1978 partial partition is not recognised for tax purposes and as such the joint family shall continue to be liable to be assessed as if no such partial partition had taken place. Each member

of such family, immediately before such partial partition and the family shall be jointly and severally liable for any sum payable under the Act. [Sec. 171(9)]

9.3 ASSESSMENT OF FIRMS

From the Assessment Year 1993-94 partnership firm has been classified for the purpose of computation of income and its assessment as under:

- (a) Partnership Firm assessed as such (PFAS)
- (b) Partnership Firm assessed as an Association of Person (PFAOP).

Provisions relating to assessment of firms and partners are analyzed as under :

Specific provisions to firm assessed as an AOP

Particulars	Sections
Disallowance of salary and interest to partner	40(ba)
Method of computing partner's share in the income of PFAOP	67A
Rate of tax in respect of income of AOP/BOI	167B
Taxability of partner's share of income	86, 110

Assessment of firms and conditions to be fulfilled to avail the status of PFAS [Sec. 184]

Where a firm wants to avail the status of PFAS, it has to satisfy the following conditions:-

- (i) The firm shall be evidenced by an instrument and the individual shares of the partner shall be specified therein. [Sec. 184(1)]
- (ii) A certified copy of the instrument of partnership shall accompany the return of income of the Previous Year relevant to the Assessment Year 1993-94 or subsequent year in respect of which assessment of the firm is first sought. [Sec.184(2)]
- (iii) Wherever during a Previous Year a change takes place in the constitution of the firm or in the sharing ratio of partners, a certified copy of the revised instrument of partnership be submitted along with the return of income of the concerned year of assessment. [Sec. 184(4)]
- (iv) There should not be any failure on the part of the firm as is specified in Sec. 144 [Sec. 184(5)]

It may be mentioned that once a firm is assessed as PFAS after fulfillment of the above conditions, it will be assessed as PFAS, for every subsequent year provided there is no change in either firm's constitution or partner's profit sharing ratio. However, there should not be any failure mentioned in Sec. 144. [Sec. 184(3)]

A partnership deed shall be certified in writing by all the major partners. Where, however, the firm is dissolved and the return is filed after its dissolution, then the copy of deed may be certified by all the major partners in the firm immediately before its dissolution. Where a partner is dead, then it will have to be certified by his legal representative. [Sec. 184(2) Expl.]

Computation of Income

The following provisions should be given due consideration while computing income of a firm-

- (i) Provision relating to deductibility of remuneration paid to partners by firm.
- (ii) Provision relating to deductibility of interest paid to partners by firm.

Essential conditions to be satisfied by a firm to be assessed as firm and to be eligible for deduction of interest, salary, etc., to the partners [Section 184] are as follows:

(A) In the first assessment year: The following conditions must be satisfied by the firm in the first assessment year to be assessed as a firm:

- (1) Partnership is evidenced by an instrument i.e. there is a written document giving the terms of partnership.

The instrument of partnership may be in a single document or in more than one documents. Where the terms are spelt out in more than one document then all documents combined together would constitute instrument of partnership. But if such documents do not have the effect of bringing into existence a partnership then it will not amount to an instrument of partnership. [CIT vs. Wholesale Distt Cloth Importers Association (1973) Tax LR 867 (All.)]

- (2) It is essential that a valid deed must specify as to how the profits of the business are to be shared among the partners. Profits include loss also. It is not necessary that the deed must specify the shares in exact arithmetical fraction or so. As long as the deed specifies the proportion in which profits are to be divided among partners the condition is satisfied. The partners may agree to share profits in any way they like. As long as the sharing of profits can be worked out according to the specification in the deed the condition is deemed to be satisfied.

Similarly, the deed also must spell out the proportion in which losses are to be shared among the partners. The problem can arise specially in cases where minors are admitted to the benefits of partnership and the major partners have unequal share in profits. Where there is no minor admitted to partnership then it may be presumed that the loss will be borne by the partners in the same proportion of profits.

- (3) A certified copy of the said instrument of partnership shall accompany the return of income in respect of the assessment year for which the assessment as a firm is first sought.

(B) In the subsequent assessment years: Once the firm is assessed as a firm for any assessment year, it shall be assessed in the same capacity for every subsequent year if there is no change in the constitution of the firm or the share of the partners.

Where any such change had taken place in the previous year, the firm shall furnish a certified copy of the revised instrument of partnership along with the return of income for the assessment year relevant to such previous year.

The copy of the instrument of partnership deed should be certified by all partners, not being minors.

Where a firm had been assessed as a firm and in a later year, the salary and interest to be paid to partners has been changed in the partnership deed but the changed partnership deed is not attached alongwith the return of income of such assessment year the firm will be still assessed as firm but in such a situation, the interest and salary shall be allowed as deduction as per the earlier deed which was attached alongwith the return of income.

Presently, the assessee is not required to file any documents alongwith the return of income, hence, the partnership deed will not be required to be filed alongwith the return of income but the same will be required to be produced on demand by the Assessing officer.

However, in the following two cases, the firm shall be assessed as a firm but shall not be eligible for any deduction on account of interest to a partner and remuneration to a working partner although the same are mentioned in the partnership deed:

- (1) Where there is, on the part of the firm, any such failure as is mentioned in section 144 (relating to the best judgement assessment). [Section 184(5)]
- (2) Where the firm does not comply with the three conditions mentioned under section 184 discussed above [Section 185].

However, in both the above two cases, such amount of interest, salary, bonus, etc. shall not be charged to tax in the hands of the partner.

Taxable income shall be computed as follows :

- Step 1 - Income under the different heads of income - First find out income under the five heads of income
- Step 2 - Adjustment of losses of the current year and earlier years - Losses should be set off according to the provisions of sections 70 to 78. The income after adjustment of losses is the gross total income.
- Step 3 - Deduction from gross total income - Deductions specified under Chapter VI A should be considered while calculating the gross total income.
- Step 4 - Rounding off - The balance should be rounded off to the nearest ₹ 10. It is called as net income or taxable income or total income.

Calculation of Tax Liability:

- Step 1 – Determine Net Income and tax payable thereon at a normal rate of 30%.
- Step 2 – Add surcharge @ 10% if the total income exceeds ₹1 crore
- Step 3 – Add education cess and secondary and higher secondary education cess
- Step 4 – Deduct rebate u/s 86, 90, 90A and 91
- Step 5 – Add interest payable (if any)
- Step 6 – Deduct amount of prepaid taxes paid (Advance Tax, Tax Deducted at Source, etc.)

The Balance so arrived is the amount of tax to be paid.

Note: (i) From the Assessment Year 2013-14, tax payable (i.e. amount arrived at Step 3) cannot be less than 18.5 percent of “Adjusted Total Income” in some Specified Cases.

(ii) The total amount payable as income tax and surcharge on total income exceeding ₹1 crore shall not exceed the total amount payable as income tax on a total income of ₹1 crore by more than the amount of income that exceeds ₹1 crore.

Set off and carry forward of losses:

There are no special provisions for set-off and carry forward of losses of firms. These are the same as applicable in case of other assesses. The losses and unabsorbed depreciation of the firm can be carried forward by the firm only.

Where a change has occurred in the constitution of a firm, due to retirement of a partner or death of a partner, the firm shall not be entitled to carry forward and set off so much of the loss proportionate to the share of a retired or deceased partner as exceeds his share of profits, if any, in the firm in respect of the previous year.

The loss for the purpose of section 78(1) and (2) above does not only mean loss under the head profits or gains from business or profession, it means loss under any head of income.

Where any person carrying on any business or profession has been succeeded in such capacity by another person otherwise than by inheritance, no person other than the person incurring the loss shall be entitled to have it carried forward and set off against his income. [Section 78(2)]

In other words, treatment in case of change in constitution of firm will be as follows:

Step 1: Calculate the share of profit of the retiring/ deceased partner in the year in which there is a change in the constitution due to such retirement/ death.

Step 2: Compute the share of loss of the retiring/deceased partner in the brought forward loss of the firm.

Step 3: Set off the share in the brought forward losses of the retiring/deceased partner from his share of the profit of the current year.

This set off of share of brought forward loss will be allowed to the extent of share of profit of such partner. The balance loss, if any, will not be allowed to be carried forward either to such partner or to the firm. On the other hand, if in the current year also the share of the partner is a loss, then share of the brought forward loss along with the share of loss of current year will not be allowed to be set off and carried forward.

Note:

Unabsorbed depreciation of the firm is not covered u/s 78 and therefore, the entire unabsorbed depreciation will be allowed to be carried forward in the hands of the firm, even if there is a change in the constitution of the firm.

Change in onstitution of a firm [Section 187]

Where at the time of making an assessment u/s 143 or u/s 144, it is found that a change has occurred in the constitution of a firm, the assessment shall be made on the firm as constituted at the time of making the assessment. In other words, there will not be a separate assessment of firm even when there is a change in the constitution of the firm.

There is a change in the constitution of the firm:-

- (a) If one or more of the partner cease to be partners or one or more new partners are admitted, in such circumstances that one or more of the persons who were partners of the firm before the change continue as partner or partners after the change; or
- (b) Where all the partners continue with a change in their respective shares or in the shares of some of them.

Where a partnership deed provides that death shall not result into the dissolution of firm, such provision is lawful u/s 42 of the Partnership Act; on the death of the partner, a partnership is not dissolved and the business is continued by the re-constituted partnership, then only one assessment is to be made for the entire year [CIT vs. Empire Estate (1996) 218 ITR 355 (SC)].

Following are the examples of change in the constitution of the firm:

- (1) A firm consists of 3 partners A, B & C. A retires from the firm on 31st July, 2012. This will be a case covered u/s 187 and if the Assessing Officer makes the assessment of income of the assessment year 2013-14 on 31st July, 2014, the assessment shall be made on the firm as constituted at the time of making the assessment on 31st July, 2014. However, the liability of the partners shall be governed by section 188A i.e. A, B & C shall be jointly and severally liable for any tax, interest and penalty of the firm.
- (2) A firm consists of 3 partners A, B & C. A dies and as per partnership deed his son is taken as partner. This will also be a case covered u/s 187. However, liability of the partners shall be governed u/s 188A.
- (3) A, B and S are three partners in a firm. A dies and there is nothing in the partnership deed as to what will happen if there is a death of a partner. In this case, the firm will be dissolved and it will be covered u/s 189.
- (4) A and B are two partners of the firm. C joins the firm and B retires. It will be a case covered u/s 187. However, liability of the partners shall be governed by section 188A.
- (5) A firm consists of 3 partners A, B & C. All the three partners go out and an entirely new set of partners say X, Y and Z come in. It would not amount to change in the constitution of the firm but would amount to the succession of one firm by another and section 188 would apply.

As stated above, this section would apply if at the time of making an assessment order under section 143 or 144 (which would also include reassessment section 147) it is found that a change has occurred in the constitution of the firm. The change might have occurred either in the relevant previous year, or in the assessment year or even later. The words “at the time of making an assessment” mean in the course of the process of assessment and do not refer merely to the act of making an assessment

order. Thus, where a notice u/s 142(1)(i) for filing the return of income has been issued, the process of assessment of the person to whom notice is issued begins and would continue until an order of assessment is made and the assessment shall be made on the firm re-constituted if a change of the partners in the partnership occurs at any time before the assessment is made. However, this section has no application to a case where the change occurs after the assessment of the firm is completed.

Case Laws:

- (1) The firm will be dissolved on the death of any of its partner, unless there is a specific provision in the partnership deed, that the firm would not be dissolved on the death of a partner. Thus, there will be two separate assessments. [CIT vs. Ayyanarappan & Co. (1999) 236 ITR 410 (SC)].
- (2) A perusal of section 187(2)(a) of the Income Tax Act, 1961, shows that by legal fiction for the purposes of the Income Tax Act, if even one of the partners continues to remain in the firm then the firm will not be deemed to be dissolved. Hence, even if the partnership deed says that the firm will stand dissolved on the retirement of a partner, for the purposes of the Income Tax Act, it will not be deemed to be dissolved in view of section 187(2)(a). [CIT vs. Ratanlal Garib Das (2003) 261 ITR 200 (All)].

Where the firm is dissolved and reconstituted, it was merely a change in constitution of the firm under section 187 and not a case of succession under section 188. It was held that no separate assessment has to be made on two returns filed by the firm, instead only one assessment has to be made. [CIT vs. Hindustan Motors Finance Co. (2005) 276 ITR 382 (All)].

Where two partners out of 13 partners of the firm retire and on the same day two other partners joined alongwith eleven partners and the deed effecting these changes was described as a deed of dissolution and the firm filed two returns, one upto the date of retirement and the second after the date of retirement, it was held that the execution of the deed of the dissolution where two partners had retired and two new partners had come in would not make any difference and it would be a case of reconstitution of the firm. The case in hand was covered under section 187(1) of the Act and two assessments could not be made separately for the two periods. [CIT vs. Bliarat Steel Rolling Mills (2009) 313 ITR 406 (All)].

Where the firm is dissolved on the death of any of its partners it will not be considered as a change in the constitution of the firm as per clause (a) of section 187(2) given above. It will be covered under section 189.

Example:

- (1) A, B & C are three partners of a firm. The partnership deed provides that on the death of a partner, the firm shall be dissolved. This case shall not be covered under section 187(2)(a) given above but it should be covered under section 189.
- (2) A, B and C are three partners in a firm, A dies and there is nothing in the partnership deed as to what will happen if there is a death of a partner. In this case the firm will be dissolved and it will be covered under section 189.

The firm will be dissolved on the death of any of its partner, unless there is a specific provision in the partnership deed, that the firm would not be dissolved on the death of a partner. Thus, there will be two separate assessments. [CIT vs. Ayyanarappan & Co. (1999) 236 ITR 410 (SC)].

However, in the case of CIT vs. Jai Mewar Wine Contractors (2001) 251 ITR 785 (Raj) it was held that even if the partnership deed is silent on the contingency of death of a partner, it need not dissolve the firm as it was pointed out that a clause for continuation of the partnership without dissolution may not be expressed and it may be inferred from the conduct of the partners consequent on the death. The only exception in this case shall be where there are only two partners so that death of one cannot avoid dissolution.

Section 88 provides that where a firm carrying on a business or profession is succeeded by another firm, and the case is not one covered by section 187, separate assessments shall be made on the predecessor firm and the successor firm in accordance with the provisions of section 170.

As per section 170 the predecessor firm shall be assessed in respect of the income of the previous year in which succession took place up to the date of succession. The successor firm shall be assessed in respect of the income of the previous year after the date of succession.

Example: A, B & C a partnership firm is succeeded by X, Y & Z on 31.10.2013. In the case A, B & C shall be assessed in respect of income upto 31.10.2013 and X, Y & Z shall be assessed in respect of income after 31.10.2013.

According to section 189, where any business or profession carried on by a firm has been discontinued or where a firm is dissolved, the Assessing Officer shall make an assessment of the total income of the firm as if no such discontinuance or dissolution had taken place, and all the provisions of this Act, including the provisions relating to the levy of a penalty or any other sum chargeable under any provision of this Act, shall apply, so far as may be, to such assessment.

Every person who was at the time of such discontinuance or dissolution a partner of the firm, and the legal representative of any such person who is deceased, shall be jointly and severally liable for the amount of tax, penalty or other sum payable, and all the provisions of this Act, so far as may be, shall apply to any such assessment or imposition of penalty or other sum.

The tax payable, mentioned above, means the tax payable by the firm and not the tax assessed on the partners personally.

Where such discontinuance or dissolution takes place after any proceedings in respect of an assessment year have commenced, the proceedings may be continued against the person referred to above from the stage at which the proceedings stood at the time of such discontinuance or dissolution, and all the provisions of this Act shall, so far as may be, apply accordingly.

Where on the death of a partner or otherwise, the firm is actually dissolved by the partners and a new partnership deed is executed between some partners of the old firm or between new partner(s) and some partners of the old firm, it is a case of succession and hence there should be two separate assessments. However, in this case provisions of section 189 shall apply to the firm which is dissolved. On the other hand, if there is a succession to the business but the firm is not dissolved and it continues to exist although there will be two assessments as per section 188 but section 189 shall have no application.

Section 188A provides that every person who was, during the previous year, a partner of a firm and the legal representative of any such person who is deceased, shall be jointly and severally liable along with the firm for the amount of tax, penalty or other sum payable by the firm for the assessment year to which such previous year is relevant, and all the provisions of this Act, so far as may be, shall apply to the assessment of such tax or imposition or levy of such penalty or other sum.

Example: A partnership firm consisting of A, B, C & D was formed on 1.4.1998. Partner C retired on 17.6.2007 and E was taken in as partner on that very date. B retired on 15.10.2009 and F was taken in as partner on that date. The firm is dissolved on 15.9.2013.

In this case A, B, C & D are jointly and severally liable from assessment year 1999-2000 to 2008-09. E is also jointly and severally liable for assessment year 2008-09. For assessment year 2009-10 to 2010-11 A, B, E & D shall be jointly and severally liable. F is also jointly and severally liable for assessment year 2010-11. A, F, E & D shall be jointly and severally liable for assessment years 2010-11 to 2014-15.

9.4 ASSESSMENT OF LIMITED LIABILITY PARTNERSHIP (LLP)

A Limited Liability Partnership (LLP) is a body corporate formed or incorporated under the Limited Liability Partnership Act, 2008. It is a legally separate entity from its partners. It has perpetual succession i.e. any change in its partners will not have any impact on its existence, rights and liabilities. It is a corporate business form which gives benefits of limited liability of a company and the flexibility of a partnership. It contains elements of both a company as well as a partnership firm and thus it is called a hybrid between a partnership and a company. The Income-tax Act provides for the same taxation regime for a Limited Liability Partnership as is applicable to a partnership firm. It also provides tax neutrality (subject to fulfilment of certain conditions) to conversion of a Private Limited Company or an Unlisted Public Company into an LLP. However, Presumptive Tax Scheme u/s 44AD is not applicable to LLP.

An LLP being treated as a firm for taxation, has the following tax advantages over a company under the Income-tax Act :-

- (i) it is not subject to Minimum Alternate Tax;
- (ii) it is not subject to Dividend Distribution Tax (DDT); and
- (iii) it is not subject to surcharge.
- (iv) It is not subject to Wealth Tax.

In order to preserve the tax base vis-a-vis profit-linked deductions, a new Chapter XII-BA has been inserted in the Income-tax Act containing special provisions relating to certain Limited Liability Partnerships.

Calculation of Total income:

- Step 1 - Income under the different heads of income - First find out income under the five heads of income
- Step 2 - Adjustment of losses of the current year and earlier years - Losses should be set off according to the provisions of sections 70 to 78. The income after adjustment of losses is the gross total income.
- Step 3 - Deduction from gross total income - Deductions specified under Chapter VI A should be considered while calculating the gross total income.
- Step 4 - Rounding off - The balance should be rounded off to the nearest ₹ 10. It is called as net income or taxable income or total income.

Remuneration and interest to partners are deductible if condition of section 40(b) and 184 are satisfied.

Taxability:

- Step 1 – Determine Net Income and tax payable thereon at a normal rate of 30%.
 - Step 2 – Add surcharge @ 10% if total income exceeds ₹ 1 crore
 - Step 3 – Add education cess and secondary and higher secondary education cess
 - Step 4 – Deduct rebate u/s 86, 90, 90A and 91
 - Step 5 – Add interest payable (if any)
 - Step 6 – Deduct amount of prepaid taxes paid (Advance Tax, Tax Deducted at Source, etc.)
- The Balance so arrived is the amount of tax to be paid.

Note: (i) From the Assessment Year 2013-14, tax payable (i.e. amount arrived at Step 3) cannot be less than 18.5 percent of “Adjusted Total Income” if certain conditions are satisfied.

(ii) The total amount payable as income tax and surcharge on total income exceeding ₹ 1 crore shall not exceed the total amount payable as income tax on a total income of ₹ 1 crore by more than the amount of income that exceeds ₹ 1 crore.

Share of profit in LLP is not taxable in the hands of partners. However, remuneration and interest are taxable under section 28 under the "Profits and Gains of Business or Profession" in the hands of partners to the extent these are allowed as deduction in the hands of LLP.

Certain separate provisions of Limited Liability Partnership under Income Tax Act are as follows:

(A) The Finance (No. 2) Act, 2009 provided for the taxation of LLPs in the Income Tax Act on the same lines as applicable to partnership firms. Section 56 and section 57 of the Limited Liability Partnership Act, 2008 allow conversion of a private company or an unlisted public company (hereafter referred as company) into an LLP. Under the existing provisions of Income Tax Act, conversion of a company into an LLP has definite tax implications. Transfer of assets on conversion attracts levy of capital gains tax. Similarly, carry forward of losses and of unabsorbed depreciation is not available to the successor LLP.

The Act has inserted clause (xiiib) to section 47 to provide that the transfer of a capital asset or intangible asset by a private limited company or a non listed company, or any transfer of a share or shares held in the company by a shareholder on conversion of a private limited company or an unlisted company to a Limited Liability Partnership in accordance with section 56 and section 57 of the Limited Liability Partnership Act, 2008 shall not be regarded as a transfer for the purposes of capital gains tax under section 45, subject to certain conditions. These conditions are as follows:

- (a) All the assets and liabilities of the company immediately before the conversion become the assets and liabilities of the Limited Liability Partnership;
- (b) All the shareholders of the company immediately before the conversion become the partners of the Limited Liability Partnership and their capital contribution and profit sharing ratio in the Limited Liability Partnership are in the same proportion as their shareholding in the company on the date of conversion;
- (c) The shareholders of the company do not receive any consideration or benefit, directly or indirectly, in any form or manner, other than by way of share in profit and capital contribution in the Limited Liability Partnership;
- (d) The aggregate of the profit sharing ratio of the shareholders of the company in the Limited Liability Partnership shall not be less than 50% at any time during the period of five years from the date of conversion;
- (e) The total sales, turnover or gross receipts in business of the company in any of the three previous years preceding the previous year in which the conversion takes place does not exceed ₹60,00,000; and
- (f) No amount is paid, either directly or indirectly, to any partner out of balance of accumulated profit standing in the accounts of the company on the date of conversion for a period of three years from the date of conversion.

(B) Consequential amendments due to conversion of a private limited company or a non-listed company into LLP are as follows:

- (1) The Act has amended, w.e.f. A.Y. 2011-12, fifth proviso to section 32(1) to provide that the aggregate depreciation allowable to the predecessor company and successor LLP shall not exceed, in any previous year, the depreciation calculated at the prescribed rates as if the conversion had not taken place. In other words, depreciation shall be allowed to the predecessor company and successor LLP in the proportion of a number of days the assets are used by the predecessor and success or assessee.
- (2) W.e.f. A.Y. 2011-12 where there has been reorganisation of business, whereby a private company or unlisted public company is succeeded by a Limited Liability Partnership fulfilling the conditions laid down in the proviso to clause (xiiib) of section 47, the provisions of section 35DDA shall, as far as may be, apply to the successor LLP, as they would have applied to the said company, if reorganisation of business had not taken place.

- (3) Explanation 13 to section 43(1) amended w.e.f. A.Y. 2011-12 to provide that the cost of acquisition of the capital asset for the successor LLP, in case the predecessor company has claimed deduction under section 35AD, shall be nil.
- (4) W.e.f. A.Y. 2011-12, Explanation 2C in section 43(6) inserted to provide that the actual cost of the block of assets in the case of the successor LLP shall be the written down value of the block of assets as in the case of the predecessor company on the date of conversion.
- (5) W.e.f. A.Y. 2011-12, where any of the conditions laid down in proviso to section 47(xiiib) are not complied with, in any subsequent assessment year the consequences shall be as under:
 - (a) the amount of profits or gains arising from the transfer of such capital asset or intangible asset not charged under section 45 by virtue of conditions laid down in the said proviso shall be deemed to be the profits and gains chargeable to tax of the successor LLP for the previous year in which the requirements of the said proviso are not complied with.
 - (b) the amount of profits or gains arising from the transfer of share was shares not charged u/s 45 by virtue of conditions laid down in the said proviso shall be deemed to be the profits and gains chargeable to tax of the share holder of the predecessor company for the previous year in which the requirements of the said proviso are not complied with.
- (6) W.e.f. A.Y. 2011-12, Section 49(1) provides that the cost of asset in the hands of the LLP in the case of conversion of a private limited company or an unlisted company shall be the cost to the previous owner.
- (7) W.e.f. 01.04.2011, Section 49(2AAA) provides that where the capital asset being rights of a partner referred to in section 42 of the Limited Liability Partnership Act, 2008 became the property of the assessee on conversion as referred to in clause (xiiib) of section 47, the cost of acquisition of the asset shall be deemed to be the immediately before its conversion.

Section 42 of the Limited Liability Partnership Act, 2008 provides that Partner's transferable interest [Section 42]:

The rights of a partner to a share of the profits and losses of the LLP and to receive distributions in accordance with the LLP agreement are transferable either wholly or in part.

The transfer of any right by any partner pursuant to sub-section (1) does not by itself cause the disassociation of the partner or a dissolution and winding up of the LLP.

The transfer of right pursuant to this section does not, by itself, entitle the transferee or assignee to participate in the management or conduct of the activities of the LLP, or access information concerning the transactions of the LLP.

- (8) W.e.f. A.Y. 2011-12, the Act has allowed carry forward and set-off of accumulated loss and unabsorbed depreciation to the successor LLP which fulfills the above mentioned conditions. [Section 72A(6A)].

The accumulated loss and the unabsorbed depreciation of the predecessor company, shall be deemed to be the loss or allowance for depreciation of the successor LLP for the purpose of the previous year in which business reorganisation was effected and other provisions of this Act relating to set off and carry forward of loss and allowance for depreciation shall apply accordingly. In other words, accumulated loss shall be allowed for fresh 8 years and unabsorbed depreciation will be allowed to be carried forward indefinitely.

However, if any of the conditions laid down in the proviso of section 47(xiiib) are not complied with, the set off of loss or allowance of depreciation made in any previous year in the hands of the successor LLP, shall be deemed to be the income of the LLP chargeable to tax in the year in which such conditions are not complied with.

"Accumulated loss" means so much of the loss of the predecessor firm or the proprietary concern or the private company or unlisted public company before conversion into LLP or the

amalgamating company or the demerged company, as the case may be, under the head "Profits and gains of business or profession" (not being a loss sustained in a speculation business) which such predecessor firm or the proprietary concern or the company or amalgamating company or demerged company, would have been entitled to carry forward and set off under the provisions of section 72 if the reorganisation of business or conversion or amalgamation or demerger had not taken place

"Unabsorbed depreciation" means so much of the allowance for depreciation of the predecessor firm or the proprietary concern or the private company or unlisted public company before conversion into LLP or the amalgamating company or the demerged company, as the case may be, which remains to be allowed and which would have been allowed to the predecessor firm or the proprietary concern or the company or amalgamating company or demerged company, as the case may be, under the provisions of this Act, if the reorganisation of business or conversion or amalgamation or demerger had not taken place.

- (9) Credit in respect of tax paid by a company under section 115JB is allowed only to such company under section 115JAA. It has been clarified that the tax credit under section 115JAA shall not be allowed to the successor LLP.

(C) Like section 179 which is applicable for a private limited company, section 167C provides that notwithstanding anything contained in the Limited Liability Partnership Act, 2008, where any tax due from a LLP in respect of any income of any previous year or from any other person in respect of any income of any previous year during which such other person was a LLP cannot be recovered, in such case, every person who was a partner of the LLP at any time during the relevant previous year, shall be jointly and severally liable for the payment of such tax unless he proves that the non-recovery cannot be attributed to any gross neglect, misfeasance or breach of duty on his part in relation to the affairs of the LLP.

As an LLP and a general partnership is being treated as equivalent (except for recovery purposes) in the Act, the conversion from a general partnership firm to an LLP will have no tax implications if the rights and obligations of the partners remain the same after conversion and if there is no transfer of any asset or liability after conversion. If there is a violation of these conditions, the provisions of section 45 shall apply.

9.5 ASSESSMENT OF ASSOCIATION OF PERSONS / BODY OF INDIVIDUALS

Any payment of interest, salary, bonus, commission or remuneration by the AOP/BOI to a member is not allowable as deduction. Where interest is paid by AOP/BOI to a member who has also paid interest to the AOP/BOI, the amount of interest to be disallowed will be limited to the net amount of interest paid by the AOP/BOI. [Sec. 40(ba)]

Tax Rates :

	Where shares of members are determinate and known	Where shares of members are indeterminate or unknown
1. None of the members having taxable income	At the rates applicable to individual	At the maximum marginal rate.
2. Any member having income.	At the maximum marginal rate	At the maximum taxable marginal rate.

The amount of tax calculated shall be increased by a surcharge at the rate of 10% of such income tax in case the total income exceeds ₹1 crore. However, total amount payable as income tax and surcharge on total income exceeding ₹1 crore shall not exceed the total amount payable as income tax on a total income of ₹1 crore by more than the amount of income that exceeds ₹1 crore.

Maximum Marginal Rate means the rate of tax (including surcharge, if any) applicable to the highest slab of income in case of individuals. [Sec. 2(29C)]

From the Assessment Year 2013-14, tax payable (i.e. tax liability) cannot be less than 18.5 percent of "Adjusted Total Income" in some specified cases.

Ascertainment of member's share in AOP/BOI where shares are determinate and its taxability [Sec. 67A, 86 & 110]

(i) Ascertainment of share in AOP/BOI [Sec. 67A]	₹
Total income of the AOP/BOI	***
Less: Interest, salary, commission or other remuneration paid to any member	***
Balance apportionable to the members in proportion to their shares	***
Share of income allotted to a member	***
Add: Salary, interest, commission or other remuneration received by the member of the AOP or BOI	***
Total share	***
Less: Interest paid on capital borrowed for the purpose of investment in the AOP/BOI	***
Net assessable share income	***

(ii) Tax treatment of share income of members [Sec. 86 and Sec. 110]

In computing total income of an assessee, there shall be included share income of a member of an AOP or BOI subject to Sec. 86 and 110 of the I.T. Act.

The assessment of the members of AOP or BOI depends on whether the AOP or BOI is chargeable to tax at the maximum marginal rate or at slab rate or is not chargeable to tax at all.

Tax-treatment in the three cases is discussed below:

- (i) Where AOP or BOI is chargeable to tax at a maximum marginal rate or any higher rate, the share of profit of a member is exempt from tax. Thus, it is not to be included in the total income of the member [Sec. 86(a)]
- (ii) Where AOP or BOI is not taxed at the maximum marginal rate but it is taxed at slab rates, the share of profit of a member from AOP or BOI is to be included in the total income of the member only for rate purposes. The member is entitled to a rebate of tax on the entire share of profit at the average rate of tax applicable to total income. [Sec. 86(b)].
- (iii) Where AOP or BOI is not chargeable to tax at all, the share of profit of a member from AOP or BOI is included in his total income and he will pay tax on it. He is not entitled to any rebate of tax on such profits [Proviso to Sec. 86(b)].

Taxation of AOP/BOI [Sec 167B]	Tax treatment of share income in the hands of members of AOP/BOI [Sec. 86 & 110]
1. AOP or BOI is taxed at maximum marginal rate or at a higher rate.	Share income of the member is not taxable.
2. AOP or BOI is taxed at normal rates applicable	Share income computed u/s 67A is included into an Individual. The total income of the member but rebate u/s 110 at the average of tax in respect of such share income has to be allowed.
3. AOP or BOI is not taxed at all	Share income will be included in the total income of the member and taxed at the rates applicable to him.

"Average rate of Income-tax" is defined u/s. 2(10) to mean the rate arrived at by dividing the amount of Income-tax calculated on the total income, by such total income.

9.6 ASSESSMENT OF COMPANIES

The total income of a company is also computed in the manner in which income of any other assessee is computed. The first and the foremost step in this direction is to ascertain Gross Total Income. Income computed under four heads (salary head is not applicable), is aggregated. While aggregating the income, section 60 and 61 shall be applicable. Further, effect to set off of losses and adjustment for brought forward losses will also be done. From the Gross Total Income so computed, the deductions u/s 80G, 80GGA, 80GGB, 80IA, 80IAB, 80IB, 80IC, 80ID, 80IE, 80JJA, 80JJAA & 80LA of Chapter VIA should be allowed.

The following are the special provisions under the Income Tax Act which are applicable to a company in which public are not substantially interested i.e. a closely held company:

- (A) Carry forward and set off of losses [Section 79].
- (B) Deemed dividend u/s 2(22)(e).
- (C) Liability of directors [Section 179].

(A) Carry forward and set off of losses in case of certain companies [Section 79]

In the case of closely held companies where a change in shareholding has taken place in a previous year, no loss under any head incurred in any year prior to the previous year shall be carried forward and set off against the income of the previous year unless on the last day of the previous year in which loss is set off and on the last day of the previous year in which the loss was incurred, the shares of the company carrying not less than 51% of the voting power were beneficially held by the same persons.

In other words, where a change in voting power of more than 49% of the shareholding of a closely held company has taken place between two relevant dates (viz., the last day of previous year in which set off is claimed and the last date of the previous year in which the loss was incurred), the assessee will not be entitled to claim set off of such losses.

This provision shall not apply to a change in the voting power consequent upon:

- (i) the death of a shareholder, or
- (ii) on account of transfer of shares by way of gifts to any relative of the shareholder making such gift.

Further, section 79 shall not apply to any change in the shareholding of an Indian company which is subsidiary of a foreign company arising as a result of amalgamation or demerger of a foreign company subject to the condition that 51% of the shareholders of the amalgamating or demerged foreign company continue to remain the shareholders of the amalgamated or the resulting foreign company.

Section 79 applies to all losses, including losses under the head Capital Gains. However, overriding provisions of section 79 do not affect the set off of unabsorbed depreciation which is governed by section 32(2). [CIT vs. Concord Industries Ltd. (1979) 119 ITR 458 (Mad)].

(B) Deemed dividend [Section 2(22)(e)]

Any payment by a company, not being a company in which the public are substantially interested, of any sum by way of advance or loan to a shareholder holding not less than 10% voting power or to a concern in which such shareholder is a member or a partner and in which he has substantial interest or any payment by such company on behalf or for the individual benefit of any such shareholder, to the extent to which company in either case possesses accumulated profit shall be treated as deemed dividend.

(C) Liability of directors of private company in liquidation [Section 179]

Where any tax due from a private company in respect of any income of any previous year cannot be recovered, then, every person who was a director of the private company at any time during the

relevant previous year shall be jointly and severally liable for payment of such tax unless he proves that the non-recovery cannot be attributed to any gross neglect, misfeasance or breach of duty on his part in relation to the affairs of the company.

The Finance Act, 2011 has inserted section 115BBD which provides as under:

- (1) Sub-section (1) of this section provides that where the total income of an assessee, being an Indian company, for the previous year relevant to the assessment year beginning on the 1st day of April, 2012 includes any income by way of dividends declared, distributed or paid by a specified foreign company, the income-tax payable shall be the aggregate of—
 - (a) the amount of income-tax calculated on the income by way of such dividends, at the rate of 15%; and
 - (b) the amount of income-tax with which the assessee would have been chargeable had its total income been reduced by the aforesaid income by way of dividends.
- (2) Sub-section (2) of this section provides that notwithstanding anything contained in this Act, no deduction in respect of any expenditure or allowance shall be allowed to the assessee under any provision of this Act in computing its income by way of dividends received from specified foreign company.

According to section 115BBD(3)(ii), "Specified foreign company" means a foreign company in which the Indian company holds 26% or more in nominal value of the equity share capital of the company.

The principal officer of the company is required to file the return of total income of the company on or before 31st October of the assessment year. A company is assessed like any other assessee. However, its liability differs in two respects:

- (1) No exemption limit: A company does not enjoy any exemption limit.
- (2) Flat Rate of Tax: A company pays income-tax at a flat rate instead of slab rate.

Rates of income-tax for the assessment years 2013-14 are as under:

1	Short Term Capital Gain on equity shares in a company or units of an equity oriented fund where the transaction is chargeable to securities transaction tax	15%
2	Tax on Long Term Capital Gains	20%
	Where the Long Term Capital Gains is covered by section 115AB, 115AC or 115AD,	10%
3	Tax on winnings from lotteries, cross word puzzles, races including horse races, etc.	30%
4	Tax on income by way of dividends declared, distributed or paid by a specified foreign company [Section 115BBD]	15%
5	Tax on any other income:	
	Domestic company	30%
	Foreign company:	
	Royalty received from Government or an Indian concern in pursuance of an agreement made by it with the Indian concern after March 31, 1961 but before 1 st April, 1976 or fees for rendering technical services in pursuance of an agreement made by it after 29 th February, 1964 but before 1 st April, 1976 and where such agreement has in either case been approved by the Central Government	50%
	for any other income	40%

Surcharge: The amount of income-tax computed as above shall be increased by a surcharge of 5% in case of domestic companies and 2% in case of foreign companies provided the total income of such domestic/foreign company exceeds ₹1 crore.

However, the total amount payable as income tax and surcharge on total income exceeding ₹1 crore but not exceeding ₹10 crore, shall not exceed the total amount payable as income tax on a total income of ₹1 crore by more than the amount of income that exceeds ₹1 crore. In case, the total income exceeds ₹10 crore, the amount payable as income tax and surcharge shall not exceed the total amount payable as income tax and surcharge on a total income of ₹10 crore by more than the amount of income that exceeds ₹10 crore.

Education cess: Education cess @ 2% shall be levied on the total tax (including surcharge) payable by the assessee.

SHEC: SHEC @ 1% shall be levied on the total tax (including surcharge) payable by the assessee. In other word SHEC shall be half of education cess.

Minimum Alternate Tax (MAT) [Sec. 115JB]

1. Section 115JB provides that, in the case of a company, if the tax payable on the total income as computed under the Income-tax Act in respect of any Previous Year is less than 18.5 per cent of its book profit, such book profit shall be deemed to be the total income of the assessee and the tax payable for the relevant Previous Year shall be 18.5% of such book profit.
2. The Profit and Loss Account should be prepared in accordance with Parts II and III of Schedule VI of the Companies Act, 1956.

The Accounting Policies and the Accounting Standards adopted for preparing such accounts and the method and rates adopted for calculating the depreciation, shall be the same as have been adopted for the purpose of preparing such accounts and laid before the company at its AGM.

“**Book Profit**” means the net profit as shown in the Profit and Loss Account, as increased by –

- (a) the amount of income-tax paid or payable, and the provision therefore; or
- (b) the amounts carried to any reserves, by whatever name called other than a reserve specified under section 33AC; or
- (c) the amount or amounts set aside to provisions made for meeting liabilities, other than ascertained liabilities; or
- (d) the amount by way of provision for losses of subsidiary companies; or
- (e) the amount or amounts of dividends paid or proposed; or
- (f) the amount or amounts of expenditure relatable to any income to which section 10 [other than the provisions contained in section 10(38)] or section 11 or section 12 apply;
- (g) the amount of depreciation;
- (h) the amount of deferred tax and the provision created therefore and any amount set aside as provision for diminution in the value of any asset.

If any amount referred to in clauses (a) to (h) is debited to the profit and loss account, and as reduced by –

- (i) The amount withdrawn from any reserve or provision, if any such amount is credited to the Profit and Loss Account subject to the proviso stated in the section; or
- (ii) Incomes exempt under any of the provisions of section 10 other than the provisions contained in section 10(38) [LTCG on transfer of securities subject to STT] or section 11 or section 12 [Charitable or religious Trust's income], if any such income is credited to the Profit and Loss Account; or
- (iii) The amount of depreciation debited to Profit and Loss Account excluding the depreciation on account of revaluation of assets; or
- (iv) The amount withdrawn from revaluation reserve and credited to Profit and Loss Account, to the extent it does not exceed the amount of depreciation on account of revaluation of assets; or

- (v) The amount of loss brought forward or unabsorbed depreciation, whichever is less as per books of account.

However, for the purpose of this clause –

- (a) the loss shall not include depreciation;
 - (b) the provisions of this clause shall not apply if the amount of loss brought forward or unabsorbed depreciation is nil; or
- (vi) The amount of profits of sick industrial company during the years in which such company has become sick industrial company under the provisions of Sick Industrial Companies (Special Provision) Act, 1985.
 - (vii) The amount of deferred tax, if any such amount is credited to the Profit and Loss Account.

The tribunals decision in case of Sutej Cotton Mills vs. CIT and Sipani Automobiles vs. DCIT to the effect that profit on sale of assets need not form part of book profits now stand superseded by the decision of Bombay High Court in CIT vs. Veekayal Investment Co. Pvt. Ltd (2001) 249 ITR 597 (Bom). The Bombay High Court observed as under:

Since capital gain has to be considered in computation of income, it cannot fail to be reckoned in computation of books profits as well, since in its view 'in the circumstances one fails to understand as to how in computing book profits under the Companies Act, the assessee company cannot consider capital gain for computing book profits under section 115J (now 115JB) of the Act. The High Court also felt, it would be inappropriate to directly transfer such amounts to capital reserves and that they are required to be shown vide clauses (2)(b) and 3(xii) of Part II of Schedule VI of the Companies Act.

Capital profit credited to profit and loss account is part of book profit, even if it is exempt under section 54EC [N.J. Jose & Co. (P) Ltd vs. CIT (2008) 174 Taxman 141 (Ker)].

On the such analogy loss on sale of car/truck debited to Profit and Loss Account cannot be added back [Asian Diet Products vs. CIT (2007) 162 Taxman 210 (Del) (Mag)].

Under clause 2 of Part II of Schedule VI of the Companies Act, where a company receives an amount of surrender of lease hold rights, it is bound to disclose in the Profit and Loss Account the said amount as nonrecurring transaction or a transaction of an exceptional nature irrespective of its nature whether it is capital or revenue. Further, Profit and loss account shall disclose every material feature including transaction or transaction of an exceptional nature, which includes profits on sale of fixed assets, therefore profit on sale of fixed assets formed part of the book profit under section 115JA (New section 115JB). [GKW vs. CIT (2011) 64 DTK 79 (Cal)].

3. Provisions shall not affect carried forward of depreciation and losses under the applicable provisions mentioned in sub-section (3) of section 115JB.
4. Profits of an Entrepreneur in SEZ or Developer of SEZ are not liable for MAT.
5. Tax paid under section 115JB for A.Y. 2012-13 and any subsequent year would be allowed as a credit from the normal tax payable for any subsequent year in accordance with the provisions contained in section 115JAA. However, the amount of tax credit cannot be carried forward for set off beyond the tenth Assessment Year immediately succeeding the Assessment Year in which tax credit becomes allowable.
6. A report in prescribed form (Form No. 29B as per Rule 40B) from an accountant as defined in the section 288 shall be furnished along with the return of income.
7. All companies are liable for payment of advance tax having regard to the provisions contained in new section 115JB. Consequently, the provisions of sections 234B and 234C for interest on defaults in payment of advance tax and deferment of advance tax would also be applicable where facts of the case warrant. - Circular : No. 13/2001, dated 9-11-2001.

Where a private company or unlisted public company is converted into limited liability partnership in any previous year, the Mat credit which was available to the company shall lapse. In other words the tax credit under section 115JAA shall not be allowed to the successor LLP.

A company registered under section 25 of the companies Act, whose income is exempt under principles of mutuality cannot be brought within the purview of section 115JB [Delhi Gymkhana Club Ltd vs. Dy. CIT (2010) 39 DTR 48 (Del) (Trib): (2010) 35 SOT 335 (Del)].

Although, the assessee is liable to pay tax @ 18% (plus surcharge if applicable) of the book profits if its total income computed as per Income-tax Act is less but it is entitled to determine unabsorbed depreciation under section 32(2), business loss under section 72(1), speculation loss under section 73 and capital loss under section 74 and loss under section 74A and shall be allowed to carry forward such unabsorbed depreciation or losses to the subsequent years(s) for claiming set off as per the normal provisions of Income-tax Act.

In the connection of old section 115J (the provisions of section 115JB are similar in this case) the Authority for Advance Rulings held that such provisions are applicable to foreign companies also and the foreign companies shall calculate its Indian profits separately for the purpose of minimum alternate tax [P No. 14 of 1997, In re (1998) 234 ITR 828 (AAR)]. However, where a non-resident's income is assessed on the basis of presumptive income under sections 44B, 44BB, 44BBA, etc or at a flat rate under section 115A on royalty and technical fee, the book profit becomes immaterial for regular assessment and the presumptive income tax will prevail [Timken India Ltd, In re (2005) 273 ITR 67 (AAR)].

As per section 115JB(5), save as otherwise provided in section 115JB, all other provisions of the Income-tax Act shall apply to such companies. Hence, all other provisions relating to advance tax, interest under sections 234A, 234B and 234C penalty, etc. shall apply to such companies also.

Companies liable to pay tax on the basis of MAT are required to pay advance tax and failure to pay advance tax in respect of the same will attract interest under sections 234B and 234C [JCIT vs. Rolta India Ltd (2011) 330 ITR 470 (SC)].

Dividend Distribution Tax

As per section 115-O(1), the Domestic Company shall, in addition to the income-tax chargeable in respect of its total income, be liable to pay additional income-tax on any amount declared, distributed or paid by such company by way of dividend (whether interim or otherwise), whether out of current or accumulated profits. Such additional income-tax shall be payable @ 15% plus surcharge @ 5% (7.5% for A.Y. 2011-12) plus education cess @ 2% plus SHEC @ 1% of the amount so declared, distributed or paid.

Dividend received from subsidiary company to be reduced from the above dividend to be distributed [Section 115-O(IA)] [W.r.e.f. A.Y. 2008-09]: For the purpose of computation of tax on distributed profits, the amount of dividend distributed by the domestic company during the financial year shall be reduced by the following:

- (i) The amount of dividend, if any, received by the domestic company during the financial year, if—
 - (a) such dividend is received from its subsidiary;
 - (b) the subsidiary has paid tax under this section on such dividend; and
 - (c) the domestic company is not a subsidiary of any other company.
- (ii) The amount of dividend, if any, paid to any person for or behalf of the New Pension Scheme trust referred to in section 10(44).

However, that the same amount of dividend shall not be taken into account for reduction more than once.

For the purposes of section 115-O(1A), a company shall be a subsidiary of another company, if such other company holds more than half in nominal value of the equity share capital of the company.

Section 115-O of the Act provides that dividend liable for DDT in case of a company is to be reduced by an amount of dividend received from its subsidiary after payment of DDT if the company is not a subsidiary of any other company. This removes the cascading effect of DDT only in a two-tier corporate structure.

With a view to remove the cascading effect of DDT in multi-tier corporate structure, section 115-O(1A) of the Act has been amended to provide that in case any company receives, during the year, any dividend from any subsidiary and such subsidiary has paid DDT as payable on such dividend, then, dividend distributed by the holding company in the same year, to that extent, shall not be subject to Dividend Distribution Tax under section 115-O of the Act.

Dividend distribution tax which is also known as additional tax will have to be paid by the principal officer of the domestic company and the company within 14 days from the date of:

- (a) Declaration of any dividend; or
 - (b) Distribution of any dividend; or
 - (c) Payment of any dividend,
- whichever is earliest.

The company or the shareholder shall not be allowed any deduction in respect of the amount which has been charged to tax or the tax thereon under any provisions of the Income-tax Act.

As per section 115P, where the principal officer of a domestic company and the company fail to pay the whole or any part of the tax on distributed profits referred to in section 115-O(1) within the time, he or she or it shall be liable to pay simple interest @ 1% for every month or part thereof on the amount of such tax for the period beginning on the date immediately after the last date on which such tax was payable and ending with the date on which the tax is actually paid.

As per section 115Q, if the principal officer of a domestic company and the company does not pay tax on distributed profits in accordance with the provisions of section 115-O, then he or she or it shall be deemed to be an assessee in default in respect of the amount of tax payable by him or her or it and all the provisions of the Income-tax Act for the collection and recovery of income-tax shall apply. The assessee who is deemed to be in default in making the payment of tax on distributed profits is liable for penalty under section 221 of the Income-tax Act.

Further, as per section 271C, if any person fails to pay the whole or any part of the tax as required under section 115-O(2), then such person shall be liable to pay, by way of penalty, a sum equal to the amount of tax which such person failed to pay as aforesaid.

The penalty is, however, not applicable, if the assessee proves that there was reasonable cause for failure.

As per section 276B, if a person fails to pay to the credit of the Central Government the tax payable by the person under section 115-O(2), the person shall be punishable with rigorous imprisonment for a term which shall not be less than three months but which may extend to seven years and with fine.

However, no person will be punishable if the person proves that there was a reasonable cause for the default/failure.

As the dividend distribution tax is payable by a domestic company on the amount of dividend including deemed dividend covered under section 2(22)(a), (b), (c) and (d) paid, distributed or declared by it, such dividend shall be exempt in the hands of the shareholders under section 10(34).

However, deemed dividend covered under section 2(22)(e) shall be taxable in the hands of the shareholder.

Any amount of income distributed by: (i) a specified company, or (ii) a Mutual Fund to its unit holders shall be chargeable to tax and such specified company or Mutual Fund shall be liable to pay additional income-tax on such distributed income at the following rate:

1	(a) Where the income is distributed to any person being an individual or a HUF by a money market mutual fund or a liquid fund	25% + 5% SC + 2% EC + 1% SHEC
	(b) Where the income is distributed to any other person by a money market mutual fund or liquid fund	30% + 5% SC + 2% EC + 1% SHEC
2	Where the income is distributed by a fund other than a money market mutual fund or a liquid fund and such income is distributed to—	
	(a) Individual or HUF	12.5% + 5% SC + 2% EC + 1% SHEC
	(b) Any person other than individual	30% + 5% SC + 2% EC or HUF + 1% SHEC

1. 'Money market mutual fund' means a money market mutual fund as defined in sub-clause (p) of clause 2 of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996.
2. 'Liquid fund' means a scheme or plan of a mutual fund which is classified by the Securities and Exchange Board of India as a liquid fund in accordance with the guidelines issued by it in this behalf under the SEBI Act, 1992 or regulations made thereunder.

The Finance Act, 2013 has amended section 115-O(1A) to provide as under:

For the purpose of computation of tax on distributed profits, the amount of dividend distributed by the domestic company during the financial year shall be **reduced** by the following:

the amount of dividend, if any, received by the domestic company during the financial year, if such dividend is received from its subsidiary and,—

- (a) where such subsidiary is a domestic company, the subsidiary has paid the tax which is payable under this section on such dividend; or
- (b) where such subsidiary is a foreign company, the tax is payable by the domestic company under section 115BBD on such dividend.

However, the same amount of dividend shall not be taken into account for reduction more than once.

Sunset provisions inserted regarding exemption from Minimum Alternate Tax (MAT) and Dividend Distribution Tax (DDT) in case of Special Economic Zones [Sections 115JB(6), 115-O(6) read with section 10AA & 80-IAB]

Under the existing provisions of section 10AA of the Income-tax Act, a deduction of 100% is allowed in respect of profits and gains derived by a unit located in a Special Economic Zone (SEZ) from the export of articles or things or services for the first five consecutive Assessment Years; of 50% for further five Assessment Years; and thereafter, of 50% of the ploughed back export profit for the next five years.

Further, under section 80-IAB of the Income-tax Act, a deduction of 100% is allowed in respect of profits and gains derived by an undertaking from the business of development of an SEZ notified on or after 1.4.2005 from the total income for any ten consecutive Assessment Years out of fifteen years beginning from the year in which the SEZ is notified by the Central Government.

Under the existing provisions of section 115JB(6), an exemption is allowed from payment of Minimum Alternate Tax (MAT) on book profit in respect of the income accrued or arising on or after 1.4.2005 from any business carried on, or services rendered, by an entrepreneur or a Developer, in a Unit or Special Economic Zone (SEZ), as the case may be.

Further, under the existing provisions of section 115-O(6), an exemption is allowed from payment of tax on distributed profits [Dividend Distribution Tax (DDT)] in respect of the total income of an undertaking or enterprise engaged in developing or developing and operating or developing, operating and maintaining a Special Economic Zone for any Assessment Year on any amount declared, distributed or paid by such Developer or enterprise, by way of dividends (whether interim or otherwise) on or after 1.4.2005 out of its current income. Such distributed income is also exempt from tax under section 10(34) of the Act.

The above provisions were inserted in the Income-tax Act by the Special Economic Zones Act, 2005 (SEZ Act) with effect from 10th February, 2006.

Currently, there is no sunset date provided for exemption from MAT in the case of a developer of an SEZ or a unit located in an SEZ. Similarly, there is no sunset date for exemption from DDT in the case of a developer of an SEZ.

The Finance Act, 2011 has sunset the availability of exemption from Minimum Alternate Tax in the case of SEZ Developers and units in SEZs in the Income-tax Act as well as the SEZ Act w.e.f. A.Y. 2012-13. Hence, units of SEZ and developers of SEZ shall be liable to MAT w.e.f. A.Y. 2012-13.

It has further discontinued the availability of exemption from dividend distribution tax in the case of SEZ Developers under the Income-tax Act as well as the SEZ Act for dividends declared, distributed or paid on or after 1.6.2011 which shall be taxable @ 16.223% [15% + 5% SC + 3% (EC + SHEC)].

Consequential amendments have also be made by omitting *Explanation* to section 10(34) of the Income-tax Act w.e.f. 1.6.2011.

Amalgamation [Sec. 2(1B)]

Amalgamation in relation to companies means the merger of one or more companies with another company, or merger of two or more companies to form a new company. The company so merged goes out of existence is "amalgamating company." The company into which the amalgamating company merges, or the new company that is formed to effect amalgamation, is "amalgamated company" in such a manner that :-

- (a) All property of amalgamating company, immediately before amalgamation, should become the property of amalgamated company,
- (b) All liabilities of amalgamating company, immediately before amalgamation, should become the liabilities of amalgamated company,
- (c) Shareholders holding 75% in value of the shares in amalgamating company should become shareholders of the amalgamated company. However, if the amalgamated company or its subsidiary/nominee already holds some shares in the amalgamating company, value of such shares is excluded for calculating 75% of the value of shares of the amalgamating company.

A merger of companies will not be treated as amalgamation in case of sale or liquidation of company.

The effective date in a scheme of amalgamation is the date of transfer specified in the scheme and not the date of high court's order approving the scheme. So long as the court does not modify the date specified in the scheme, amalgamation takes effect on date of transfer specified in the scheme. The income of the amalgamating company from such date of transfer shall be assessed as income of the amalgamated company and shall be assessed accordingly. [Marshall Sons and Co. (India) Ltd. vs. ITO (SC), 223 ITR 809]

Certain concessions are provided under various provisions of the Income-tax Act in respect of amalgamation which are as under:

(a) To amalgamating company

- 1) Sec. 47 (vi): In a scheme of amalgamation if an Indian Company satisfies the condition of Sec 2(1B), Capital Gains tax is not attracted in case of transfer of capital asset by the amalgamating company to the amalgamated company.
- 2) Sec. 47(via): Tax concession to foreign amalgamating company.

By virtue of Sec. 47(via), transfer of shares in an Indian Company held by a foreign company to another foreign company in a scheme of amalgamation is not treated as transfer if the following conditions are satisfies :-

- (i) Shares in an Indian company held by a foreign company.
- (ii) Business of the foreign company is taken over by another company in a scheme of amalgamation.
- (iii) Atleast 25% of the shareholders of amalgamation foreign company continue to remain shareholders of the amalgamated company.
- (iv) Such transfer does not attract tax on Capital Gains in the company in which the amalgamating company is incorporated.

(b) To shareholders of an amalgamating company

Sec. 47(vii) : Transfer by a shareholder in a scheme of amalgamation of a capital asset being a share or shares held by him in amalgamating company if such transfer is made in consideration of allotment to him of shares in the amalgamated company and the amalgamated company is an Indian Company.

(c) To amalgamated company

The following benefits in the hands of amalgamating company are available to the amalgamated company:

- Sec. 35(5) : Expenditure on scientific research
Sec. 35A(6) : Expenditure on acquisition of patent right or copy right
Sec. 35AB(3) : Expenditure on know how
Sec. 35ABB(6) : Expenditure for obtaining license to operate telecommunication services
Sec. 35D(5) : Amortisation of preliminary expenses
Sec. 36E(7) : Deduction for expenditure on prospecting etc. for certain minerals
Sec. 36(ix) : Expenditure incurred for the purpose of promoting family planning.
Sec. 72A : Carry forward and set off of accumulated and unabsorbed depreciation

Further, the amalgamated company is entitled for :

- Sec. 35DD : Amortisation of expenditure in case of amalgamation or demerger

As per section 72A the amalgamated company is entitled to carry forward the unabsorbed depreciation and accumulated loss of the amalgamating company provided the following conditions are fulfilled:

(1) There should be an amalgamation of—

- (a) a company owning an industrial undertaking or ship or a hotel with another company, or
- (b) a banking company referred in section 5(c) of the Banking Regulation Act, 1949 with a specified bank, or
- (c) one or more public sector company or companies engaged in the business of operation of aircraft with one or more public sector company or companies engaged in the similar business.

(2) The following conditions laid down under section 72A(2) are satisfied by the amalgamating company and the amalgamated company as the case may be:

(a) Conditions to be satisfied by the amalgamating company

- (i) The amalgamating company has been engaged in the business, in which the accumulated loss occurred or depreciation remains unabsorbed, for 3 or more years.
- (ii) The amalgamating company has held continuously as on the date of the amalgamation at least 75% of the book value of fixed assets held by it two years prior to the date of amalgamation;

In other words, if an amalgamation takes places on 5-11-2013, then 75% of the book value of assets which were held by the amalgamating company on 5-11-2011 should continue to held by it on 5-11-2013.

Example: Suppose X Ltd holds the following assets on 5-11-2011.

Assets	Book value on 5-11-2011 ₹ (in lakh)
A	30
B	50
C	60
D	40
E	12
F	8
	200

In this case, assets carrying book value of at least ₹150 lakh (75% of ₹200 lakh) as on 5-11-2011 should be held on 5-11-2013 as well. Thus, if the company has assets A, B, C and D on 5-11-2013 it shall satisfy the above condition as total value on 5-11-2011 was ₹180 lakh. Alternatively, it should have at least assets B, C and D (₹ 150 lakh) or assets A, C, D, E, F (₹150 lakh) or A, B, C, E (₹150 lakh) on 5-11-2013. It may noted that the value of these assets as on the date of amalgamation ie 5-11-2013 is not relevant.

(b) Conditions to be satisfied by the amalgamated company

- (i) the amalgamated company holds continuously for a minimum period of 5 years from the date of amalgamation at least 75% of the book value of fixed assets of the amalgamating company acquired in the scheme of amalgamation;
- (ii) the amalgamated company continues the business of the amalgamating company for a period of 5 years from the date of amalgamation;
- (iii) the amalgamated company fulfils such other conditions as may be prescribed (See Rule 9C mentioned below) to ensure the revival of the business of the amalgamating company or to ensure that the amalgamation is for genuine business purposes laid down by section 72A(2)(b)(iii).

Conditions for carrying forward or set-off of accumulated loss and unabsorbed depreciation allowable in case of amalgamation [Rule 9C]:

The conditions referred to in section 72A(2)(b)(iii) shall be the following, namely:

- (a) The amalgamated company, owning an industrial undertaking of the amalgamating company by way of amalgamation, shall achieve the level of production of at least fifty per cent of the installed capacity of the said undertaking before the end of four years from the date of amalgamation and continue to maintain the said minimum level of production till the end of five years from the date of amalgamation.

Provided that the Central Government, on an application made by the amalgamated company, may relax the condition of achieving the level of production or the period during which the same is to be achieved or both in suitable cases having regard to the genuine efforts made by the amalgamated company to attain the prescribed level of production and the circumstances preventing such efforts from achieving the same.

- (b) The amalgamated company shall furnish to the Assessing Officer a certificate in Form No. 62, duly verified by an accountant, with reference to the books of account and other documents showing particulars of production, along with the return of income for the assessment year relevant to the previous year during which the prescribed level of production is achieved and for subsequent assessment years relevant to the previous years falling within five years from the date of amalgamation.

(1) Installed capacity means the capacity of production existing on the date of amalgamation.

(2) Accountant means the accountant as defined in the Explanation below sub-section (2) of section 288 of the Income-tax Act, 1961.

If the conditions mentioned under (2)(a) and (2)(b) previously are satisfied by both the amalgamating and amalgamated company, then the accumulated loss and unabsorbed depreciation of the amalgamating company shall become the business loss and unabsorbed depreciation of the amalgamated company. Such accumulated loss will be allowed to be carried forward by the amalgamated company for fresh 8 years and unabsorbed depreciation can be carried forward indefinitely.

Accumulated loss means so much of the loss of amalgamating company under the head "profits and gains of business or profession" (not being a loss sustained in a speculation business) which the amalgamating would have been entitled to carry forward and set off under the provisions of section 72 if amalgamation had not taken place. Further, brought forward loss under the head "house property" or "capital gain" whether short or long-term of the amalgamating company will get lost and neither company can avail it as there is no special provision in this regard.

Although unabsorbed depreciation and accumulated business loss will be carried forward by the resulting company in a scheme of demerger provided conditions mentioned in section 72A are complied with, but unabsorbed capital expenditure on scientific research cannot be brought either under unabsorbed depreciation or accumulated business loss [ITO vs. Mahyco Vegetable Seeds Ltd (2009) 308 ITR (AT) 205 (Mum)].

As per section 72A(3), where if the conditions laid down under clause (b) above are not complied with, the set off of loss or allowance of depreciation made in any previous year in the hands of the amalgamated company shall be deemed to be the income of the amalgamated company chargeable to tax for the year in which such conditions are not complied with. Further, the balance accumulated loss and unabsorbed depreciation not yet set off shall not be allowed to be carried forward and set off.

If any amalgamation takes place within the meaning of section 2(1B) of the income-tax, the following tax concession shall be available:

- (1) Tax concession to amalgamating company.
- (2) Tax concession to shareholders of the amalgamating company.
- (3) Tax concession to amalgamated company.

Tax concession to amalgamating company

- (i) Capital Gains tax not attracted: According to section 47(vi), where there is a transfer of any capital asset in the scheme of amalgamation, by an amalgamating company to the amalgamated company, such transfer will not be regarded as a transfer for the purpose of capital gain provided the amalgamated company, to whom such assets have been transferred, is an Indian company.
- (ii) Tax concession to a foreign amalgamating company [Section 47(via)], where a foreign company holds any shares in an Indian company and transfers the same, in the scheme of amalgamation, to another foreign company, such transaction will not be regarded as transfer for the purpose of capital gain under section 45 of the Income-tax Act if the following conditions are satisfied:
 - (1) Atleast 25% of the shareholders of amalgamating foreign company should continue to remain shareholders of amalgamated foreign company, and
 - (2) Such transfer does not attract tax on capital gains in the country, in which the amalgamating company is incorporated.

Tax concessions to the shareholders of a amalgamating company [Section 47(vii)]: Where a shareholder of an amalgamating company transfers his shares, in a scheme of amalgamation, such transaction will not be regarded as a transfer for capital gain purposes, if following conditions are satisfied:

- (i) the transfer of shares is made in consideration of the allotment to him of any share or shares in the amalgamated company except where the shareholder itself is the amalgamated company, and
- (ii) the amalgamated company is an Indian company.

Tax concessions to the amalgamated company: The amalgamated company shall be eligible for tax concessions only if the following two conditions are satisfied:

- (a) The amalgamation satisfies all the three conditions laid down in section 2(1B); and
- (b) The amalgamated company is an Indian company.

The result of such amalgamation [i.e. which takes places within the meaning of section 2(1B)] is that neither the company which gets amalgamated nor the shareholders of such company become liable for capital gain tax.

- (1) Expenditure on Scientific Research [Section 35(5)]: Where an amalgamating company transfers any asset represented by capital expenditure on the scientific research to the amalgamated Indian company in a scheme of amalgamation, the provisions of section 35 which were applicable to the amalgamating company shall become applicable to the amalgamated company consequently:—
 - (i) Unabsorbed capital expenditure on scientific research of the amalgamating company will be allowed to be carried forward and set off in the hands of the amalgamated company.

- (ii) If such asset ceases to be used in a previous year for scientific research related to the business of amalgamated company and is sold by the amalgamated company without having being used for other purposes, the sale price, to the extent of the cost of the asset shall be treated as business income of the amalgamated company. The excess of the sale price over the cost of the asset shall be subject to the provisions of the capital gains.
- (2) Expenditure for obtaining licence to operate telecommunication services [Section 35ABB(6)]: Where in a scheme of amalgamation, the amalgamating company sells or otherwise transfer its licence to the amalgamated company (being an Indian company), the provisions of section 35ABB which were applicable to the amalgamating company shall become applicable in the same manner to the amalgamated company, consequently:
 - (i) The expenditure on acquisition of licence, not yet written off, shall be allowed to the amalgamated company in the same number of balance installments.
 - (ii) Where such licence is sold by the amalgamated company, the treatment of the deficiency/ surplus will be same as would have been in the case of amalgamating company.
- (3) Treatment of preliminary expenses [Section 35D(5)]: Where an amalgamating company merges in a scheme of amalgamation with the amalgamated company, the amount of preliminary expenses of the amalgamating company, which are not yet written off, shall be allowed as deduction to the amalgamated company in the same manner as would have been allowed to the amalgamating company.
- (4) Amortisation of expenditure in case of amalgamation [Section 35DD]: (i) Where an assessee, being an Indian company, incurs any expenditure, on or after the 1st day of April, 1999, wholly and exclusively for the purposes of amalgamation or demerger of an undertaking, the assessee shall be allowed a deduction of an amount equal to one-fifth of such expenditure for each of the five successive previous years beginning with the previous year in which the amalgamation or demerger takes place.
 - (ii) No deduction shall be allowed in respect of the expenditure mentioned in sub-section (1) under any other provision of this Act.
- (5) Treatment of expenditure on prospecting, etc. of certain minerals [Section 35E(7A)]: Where an amalgamating company merges in a scheme of amalgamation with the amalgamated company, the amount of expenditure on prospecting, etc. of certain minerals of the amalgamating company, which are not yet written off, shall be allowed as deduction to the amalgamated company in the same manner as would have been allowed to the amalgamating company.
