## Preface

Professional education systems around the world are experiencing great change brought about by the global demand. Towards this end, we feel, it is our duty to make our students fully aware about their curriculum and to make them more efficient.

#### Abstract

Although it might be easy to think of the habits as a set of behaviours that we want students to have so that we can get on with the curriculum that we need to cover. It becomes apparent that we need to provide specific opportunities for students to practice the habits. Habits are formed only through continuous practice. And to practice the habits, our curriculum, instruction, and assessments must provide generative, rich, and provocative opportunities for using them.

The main purpose of this volume is to disseminate knowledge and motivate our students to perform better. Thus, we are delighted to inform about the e-distribution of the first edition of our 'Work book' for Foundation level.

This book has been written to meet the needs of students as it offers the practising format that will appeal to the students to read smoothly. Each chapter includes unique features to aid in developing a deeper under-standing of the chapter contents for the readers. The unique features provide a consistent reading path throughout the book, making readers more efficient to reach their goal.

Discussing each chapter with illustrations integrate the key components of the subjects. In the second edition, we expanded the coverage in some areas and condensed others.

It is our hope and expectation that this second edition of work book will provide further an effective learning experience to the students like the first edition.

## PAPER-2

INDEX

| SI. No. | Section - A : Fundamentals of Financial Accounting | Page No. |
| :---: | :--- | :---: |
| 1 | Accounting Basics | $1-30$ |
| 2 | Accounting for Special Transactions | $31-42$ |
| 3 | Preparation of Final Accounts | $43-53$ |
|  | Section - B : Fundamentals of Cost Accounting |  |
| 4 | Fundamentals of Cost Accounting | $54-62$ |

# SECTION - A : FUNDAMENTALS OF FINANCIAL ACCOUNTING <br> Study Note - 1 <br> ACCOUNTING BASICS 

Learning Objective: This chapter of workbook includes Accounting Principles, Concepts and Conventions; Capital and Revenue transactions - capital and revenue expenditures, capital and revenue receipts; Double entry system, Books of prime entry, Subsidiary Books, Cash Book, Journal, Ledger, Trial Balance; Depreciation - Methods (Straight Line and Diminishing Balance methods); Rectification of Errors; Opening entries, Transfer entries, Adjustment entries, Closing entries; Bank Reconciliation Statements.

This is actually the first stage of learning accounting and book keeping. The main objective of this chapter broadly is to help students understand fundamental accounting concepts and principles, as well as to develop the capability to perform the basic accounting functions: the recognition, valuation, measurement and recording of the most common business transactions and the preparation of accounting statements. After learning this chapter, the students will be able to gather overall knowledge about the whole accounting cycle and its components.

1. (a) Multiple Choice Questions
(i) Ram purchased a car ₹ 10,000 paid ₹ 3000 as cash and balance amount will be paid in three equal installments due to this $\qquad$ -.
(a) Total assets increase by ₹ 10,000
(b) Total liabilities increase by ₹ 3000
(c) Assets will increase by ₹ 7000 with corresponding increase in liability by ₹ 7000
(d) Both (b) and (c)
(ii) $\qquad$ are payable within 12 months.
(a) Current Liabilities
(b) Non-current Liabilities
(c) Liquid Liabilities
(d) Contingent Liabilities
(iii) Example of capital expenditure -
(a) Purchase of land, building, machinery or furniture;
(b) Cost of leasehold land and building;
(c) Cost of purchased goodwill;
(d) All of the above
(iv) The art of recording transactions in a set of books is referred to as $\qquad$ .
(a) Book Keeping
(b) Accounting
(c) Auditing
(d) Writing
(v) Gross working capital is equal to:
(a) Total Capital
(b) Total Assets
(c) Total Current Assets
(d) Current Assets - Current Liabilities
(vi) Business is an economic activity undertaken $\qquad$ .
(a) with the motive of earning profits
(b) to maximize the wealth for the owners.
(c) with the motive of earning profits and to maximize the wealth for the owners.
(d) None of the above
(vii) Accounting is considered as a/an $\qquad$ of the business.
(a) Language
(b) Face
(c) Art
(d) None of the above
(viii) "The process of identifying, measuring and communicating economic information to permit informed judgments and decisions by the users of accounting". This definition was given by
(a) American Accounting Association
(b) British Accounting Association
(c) Indian Accounting Association
(d) None of the above
(ix) Which one is the objective of Accounting?
(a) Providing Information to the Users for Rational Decision-making
(b) Systematic Recording of Transactions
(c) Ascertainment of Results of above Transactions
(d) All of the above
(x) The main functions of accounting are as $\qquad$ .
(a) Measurement
(b) Forecasting
(c) Both (a) \& (b)
(d) None of the above
(xi) $\qquad$ represents expenditure incurred for the purpose of acquiring a fixed asset which is intended to be used over long term for earning profits there from. e. g. amount paid to buy a computer for office use.
(a) Revenue Expenditure
(b) Capital Expenditure
(c) Both (a) \& (b)
(d) None of the above
(xii) Which one is the example of Revenue Expenditure?
(a) Repairs
(b) Insurance,
(c) Salary \& wages to employees
(d) All of the above
(xiii) $\qquad$ is the discount usually allowed by the wholesaler to the retailer computed on the list price or invoice price.
(a) Cash Discount
(b) Trade Discount
(c) Both (a) \& (b)
(d) None of the above
(xiv) $\qquad$ is allowed to encourage prompt payment by the debtor. This has to be recorded in the books of accounts. This is calculated after deducting the trade discount.
(a) Cash Discount
(b) Trade Discount
(c) Both (a) \& (b)
(d) None of the above
(xv) $\qquad$ represent certain types of assets whose usefulness does not expire in the year of their occurrence but generally expires in the near future.
(a) Capital Expenditure
(b) Deferred revenue expenditures
(c) Revenue expenditure
(d) None of the above
(xvi) Capital expenditure forms part of $\qquad$ .
(a) Balance Sheet
(b) Profit \& Loss
(c) Both (a) \& (b)
(d) None of the above
(xvii) If the transaction requires more than one account which is to be debited or more than one account is to be credited, it is known as $\qquad$
(a) Compound Journal
(b) Simple Journal
(c) Both (a) \& (b)
(d) None of the above
(xviii) Which financial statement represents the accounting equation Assets = Liabilities + Owner's equity:
(a) Income Statement
(b) Statement of Cash flows
(c) Balance Sheet
(d) None of the above
(xix) The debts written off as bad, if recovered subsequently are
(a) Credited to Bad Debts recovered A/c
(b) Credited to Trade Receivables Account
(c) Debited to Profit And Loss Account
(d) None
(xx) A trial balance will have no balance, if $\qquad$
(a) correct entry is posted twice
(b) The purchase on credit basis is debited to purchases and credited to cash
(c) ₹ 500 cash payment to creditors is debited to creditors for ₹ 50 and credited to cash as ₹ 500
(d) None of the above
(xxi) A trial balance shows -
(a) Honesty of accountants
(b) Accuracy of account
(c) Only arithmetical accuracy of accounts
(d) None of these
(xxii) Which of the following is/are objective(s) of Accounting?
(a) Providing Information to the Users for Rational Decision-making
(b) Systematic Recording of Transactions
(c) Ascertainment of Results of above Transactions
(d) All of the above
(xxiii) Which of the following is/are function(s) of Accounting?
(a) Measurement
(b) Forecasting
(c) Decision-making
(d) All of the above
(xxiv) Book-keeping is a mechanical task which involves:
(a) Collection of basic financial information.
(b) Identification of events and transactions with financial character i.e., economic transactions.
(c) Measurement of economic transactions in terms of money.
(d) All of the above
(xxv) Book-keeping is a mechanical task which involves:
(a) Recording financial effects of economic transactions in order of its occurrence.
(b) Classifying effects of economic transactions.
(c) Preparing organized statement known as trial balance.
(d) All of the above
(xxvi) An asset shall be classified as Current when it satisfies any of the following:
(a) It is expected to be realised in, or is intended for sale or consumption in the Company's normal Operating Cycle,
(b) It is held primarily for the purpose of being traded,
(c) It is due to be realised within 12 months after the Reporting Date
(d) All of the above
(xxvii) Current Liabilities means
(a) Liabilities which are payable within 12 months
(b) Liabilities which are payable immediately
(c) Liabilities which payable after one accounting year
(d) Liabilities which are readable within 3 months
(xxviii) An expenditure can be recognized as capital if it is incurred for the following purpose(s):
(a) An expenditure incurred for the purpose of acquiring long term assets (useful life is at least more than one accounting period) for use in business to earn profits.
(b) When an expenditure is incurred to improve the present condition of a machine or putting an old asset into working condition.
(c) If an expenditure is incurred, to increase earning capacity of a business.
(d) All of the above
(xxix) State whether the following is $\qquad$ .
Carriage of ₹ 10,000 spent on machinery purchased and installed.
(a) capital expenditure
(b) revenue expenditure
(c) deferred revenue expenditure
(d) deferred capital expenditure
(xxx) All revenue receipts and expenditures are shown in:
(a) Balance Sheet
(b) Trading and Profit and Loss A/c
(c) Cash Flow Statement
(d) Statement of Affairs

## Answer:

| (i) | (c) | (vi) | (c) | (xi) | (a) | (xvi) | (a) | (xxi) | (c) | (xxvi) | (d) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| (ii) | (a) | (vii) | (a) | (xii) | (d) | (xvii) | (a) | (xxii) | (d) | (xxvii) | (a) |
| (iii) | (d) | (viii) | (a) | (xiii) | (b) | (xviii) | (c) | (xxiii) | (d) | (xxviii) | (d) |
| (iv) | (a) | (ix) | (d) | (xiv) | (a) | (xix) | (a) | (xxiv) | (d) | (xxix) | (a) |
| (v) | (b) | (x) | (c) | (xv) | (b) | (xx) | (c) | (xxv) | (d) | (xxx) | (b) |

(b) Fill in the Blanks:
(i) The debit balance in a nominal account shows $\qquad$
(ii) The allowance made for prompt payment is called $\qquad$
(iii) Credit note is sent by $\qquad$
(iv) Bad debts written off $\qquad$
(v) A transaction recorded on the debit side of cash book is transferred to the ledger $\qquad$ .
(vi) If a cheque is returned dishonored, it is recorded in $\qquad$ .
(vii) Trail balance is statement which shows the $\qquad$ or the totals of all the accounts.
(viii) __lists the balance and the title of account in the ledger an given data.
(ix) Closing stock appearing in the trial balance is shown on the ___balance sheet.
(x) The balance of liabilities account will be shown in the ___of the trial balance.
(xi) The amount of depreciation charged on a machinery will be debited to $\qquad$ account.
(xii) Profit on sale of machinery is $\qquad$ to $P$ \& $L$.
(xiii) The amount charged to depreciation declines in $\qquad$ .
(xiv) Formula to calculate rate of depreciation under diminishing balance method $\qquad$
(xv) Depreciation is a $\qquad$ item.
(xvi) The equality of debts and credits can be tested periodically by preparing a $\qquad$ .
(xvii) Overdraft as per cash book means $\qquad$ -
(xviii) $\qquad$ prepares bank reconciliation statement.
(xix) The capital contributed by the proprietor is treated as a liability according to $\qquad$ .
(xx) GAAP's means $\qquad$ -
(xxi) ₹ 3,500 spent on painting new factory is $\qquad$ .
(xxii) Extension to building occupied on lease for 5 years $\qquad$ .
(xxiii) ₹ $\mathbf{2 0 , 0 0 0}$ received from an issue of further shares the expenses of issue being ₹ $\mathbf{2 5 0 0}$ $\qquad$ .

## Work Book : Fundamentals of Accounting

(xxiv) Depreciation amount is shown as an $\qquad$ on the $\qquad$ of the Profit and Loss Account.
(xxv) Rectified entries to be passed in $\qquad$
(xxvi) If an amount is posted in the wrong account or it is written on the wrong side or the totals are wrong or a wrong balance is struck, it will be a case of " $\qquad$ "

## Answers:

(i) Expenditure
(ii) Cash Discount
(iii) seller
(iv) journal proper
(v) credit side of account
(vi) Bank column on the credit side.
(vii) "balances"
(viii) Trial balance
(ix) asset side of
(x) credit column
(xi) Depreciation
(xii) credited
(xiii) reducing balance method
(xiv) $1-n \sqrt{ }(R / C)$
(xv) non- cash
(xvi) trail balance
(xvii) credit balance in bank column of the cash book.
(xviii) Business enterprises
(xix) business entity concept
(xx) Generally Accepted Accounting Principles
(xxi) Capital Expenditure
(xxii) Deferred revenue expenditure
(xxiii) Capital receipt ₹ 20,000 and deferred revenue expenditure ₹ 2500
(xxiv) expense; debit side
(xxv) journal proper
(xxvi) errors of commission
(c) True \& False:
(i) When complete sequence of accounting procedure is done which happens frequently and repeated in same directions during an accounting period, the same is called an accounting cycle.
(ii) The excess of Revenue Income over expense is called loss.
(iii) Bank Reconslation Statement is not a part of the process of Accounts.
(iv) Sometimes interest on capital of proprietor or partners is to be provided and treated as business expense. For this, the following adjustment entry is passed.
Capital Account.......Dr.; To Interest on Capital A/c (of proprietor or partners)
(v) Wrong balancing in the ledger account is disclosed by trial balance.

## Work Book : Fundamentals of Accounting

(vi) An asset is purchased for ₹ 25,000, depreciation is to be provided annually according to straight line method useful life if the asset is 10 years and scrap value is $₹ 5000$. Is the rate of depreciation is $10 \%$.
(vii) Original cost of a machine was ₹ $2,52,000$. Salvage value was $₹ \mathbf{1 2 , 0 0 0}$, Depreciation for $2^{\text {nd }}$ year @ $10 \%$ under WDV method is ₹ 21,600 .
(viii) Rajan has assets of ₹ 20,000 and liabilities of ₹ 4,000 his capital therefore would be ₹ 16,000 .
(ix) Journal is the book of final entry.
(x) Goods worth ₹ 5000 sold to Biplab @ $10 \%$ trade discount and $5 \%$ sales tax was charged extra. By this transaction the sales account will be credited with ₹ 4500.
(xi) Credit sale of goods - sale invoice and sales book.
(xii) Due to damage of goods Ravi was sent credit note of ₹ 200 . It will be recorded in - sale book.
(xiii) Ram has assets of ₹ 20,000 and liabilities of ₹ 4,000 his capital therefore would be ₹ 16,000 .
(xiv) Depreciation is one kind of loss.
(xv) Double accounting system owes its origin to Luca Pacioli.
(xvi) Rent paid for the factory should be treated as a Revenue Expenditure because it will benefit only the current period.
(xvii) Every transaction has two fold aspects, i.e., one party giving the benefit and the other receiving the benefit.
(xviii) Every debit must have its corresponding and equal credit.
(xix) Expenses + Losses + Assets = Revenues + Gains + Liabilities

Answers:
i-T, ii-F, iii-T, iv-F, v-T, vi-F, vii-T, viii-T, ix-F, x-T, xi-T, xii-F, xiii-T, xiv-T, xv-T, xvi-T, xvii-T, xviii-T, xix-T.
(d) Match the followings

1. Match the following:

| Column A | Column B |
| :--- | :--- |
| 1. Memorandum joint venture account | (a) Co-venturers |
| 2. Joint venture account | (b) Memorandum account |
| 3. Partners of joint venture business | (c) Nominal account |
| 4. Under joint bank account method it is not opened | (d) to find out profit or loss |

## Answers:

1-(d), 2-(c), 3-(a), 4-(b)
2. Match the following:

| Column A | Column B |
| :---: | :---: |
| 1. Opening Entry | (a) All Asset A/c's <br> To All Liabilities A/c <br> To Owners' Capital A/cs |
| 2. Closing Entry | $\begin{array}{ll}\text { (b) } \begin{array}{ll}\text { Closing Stock A/c } \\ \text { To Trading } A / c\end{array} & \text { Dr. }\end{array}$ |
| 3. Transfer Entry | (c) Capital $A / C$ <br> To Drawings A/c |
| 4. Journal Proper | (d) Depreciation $A / c$ <br> To Machinery A/c |

## Answers:

1-(a), 2-(b), 3-(c), 4-(d)
3. Match the following:

| Column A | Column B |
| :--- | :--- |
| 1. Demolition costs | (a) Revenue Receipts |
| 2. Selling and distribution expenses | (b) Capital Receipts |
| 3. Legacies | (c) Revenue Expenditure |
| 4. Locker rent | (d) Capital Expenditure |

## Answers:

1-(d), 2-(c), 3-(b), 4-(a)
4. Match the following:

| Column A | Column B |
| :--- | :--- |
| 1. Bandhan Bank | (a) Natural Personal |
| 2. Accrued Rent | (b) Real |
| 3. Laptop | (c) Representative Personal |
| 4. Mr. S. Ganguly | (d) Artificial Personal |

## Answers:

1-(d), 2-(c), 3-(b), 4-(a)
5. Match the following:

| Column A | Column B |
| :--- | :--- |
| 1. Land | (a) Technological |
| 2. Copyright | (b) Depletion |
| 3. Mineral deposit | (c) Amortisation |
| 4. Obsolescence | (d) No Depreciation |

Answers:
1-(d), 2-(c), 3-(b), 4-(a)
6. Match the following:

| Column A | Column B |
| :--- | :--- |
| 1. Errors of principle | (a) An amount of ₹ 50 received from Mr. Bikash Das is not credited to <br> his account and the total of the sales book is ₹ 50 in excess. |
| 2. Errors of Omission | (b) A wrong balance is struck. |
| 3. Errors of Commission | (c) Not recording a credit purchase of furniture |
| 4. Compensating Errors | (d) On the purchase of a typewriter, the office expenses account is <br> debited. |

## Answer:

1-(d), 2-(c), 3-(b), 4-(a)

## 2. Write a short note on 'Working Capital'.

#### Abstract

Answer: In order to maintain flows of revenue from operation, every firm needs certain amount of current assets. For example, cash is required either to pay for expenses or to meet obligation for service received or goods purchased, etc. by a firm. On identical reason, inventories are required to provide the link between production and sale. Similarly, Accounts Receivable generate when goods are sold on credit. Cash, Bank, Debtors, Bills Receivable, Closing Stock, Prepayments etc. represent current assets of firm. The whole of these current assets from the working capital of a firm which is termed as Gross Working Capital.

Gross Working capital = Total Current Assets = Long term internal liabilities + long term debts + The current liabilities - The amount blocked in the fixed assets.

There is another concept of working capital. Working capital is the excess of current assets over current liabilities. That is the amount of current assets that remain in a firm if all its current liabilities are paid. This concept of working capital is known as Net Working Capital which is a more realistic concept. Working Capital (Net) = Current Assets - Currents Liabilities.

## 3. Can you explain Trade Discount and Cash Discount with appropriate examples.

## Answer:

Trade discount is a discount which is referred to as, discount given by the seller to the buyer at the time of purchase of goods. It is the discount usually allowed by the wholesaler to the retailer computed on the list price or invoice price. e.g. the list price of a TV set could be ₹ 15000 . The wholesaler may allow $20 \%$ discount thereof to the retailer. This means the retailer will get it for ₹ 12000 and is expected to sale it to final customer at the list price. Thus the trade discount enables the retailer to make profit by selling at the list price. Trade discount is not recorded in the books of accounts. The transactions are recorded at net values only. In above example, the transaction will be recorded at ₹ 12000 only.

Cash Discount is allowed to encourage prompt payment by the debtor. This has to be recorded in the books of accounts. This is calculated after deducting the trade discount. e.g. if list price is ₹ 15000 on which a trade discount of $20 \%$ and cash discount of $2 \%$ apply, then first trade discount of ₹ $3000(20 \%$ of $₹ 15000$ ) will be deducted and the cash discount of $2 \%$ will be calculated on ₹ 12000 ( $₹ 15000-₹ 3000$ ). Hence the cash discount will be ₹ 240 ( $2 \%$ of ₹ 12000 ) and net payment will be ₹ 11,760 (₹ 12,000 - ₹ 240 ).

## 3. Discuss any five modifying principles of accounting.

Answer:

## Consistency Concept

This Concept says that the Accounting practices should not change or must remain unchanged over a period of several years.

## Conservatism Concept

In accounting, the convention of conservatism, also known as the doctrine of prudence, is a policy of anticipating possible future losses but not future gains. Conservatism concept states that when alternative valuations are possible, one should select the alternative which fairly represents economic substance of transactions but when such choice is not clear select the alternative that is least likely to overstate net assets and net income. It provides for all known expenses and losses by best estimates if amount is not known with certainty, but does not recognizes revenues and gains on the basis of anticipation.

## Timeliness Concept

Under this principle, every transaction must be recorded in proper time. Normally, when the transaction is made, the same must be recorded in the proper books of accounts. In short, transaction should be recorded date-wise in the books. Delay in recording such transaction may lead to manipulation, misplacement of vouchers, misappropriation etc. of cash and goods. This principle is followed particularly while verifying day to day cash balance. Principle of timeliness is also followed by banks, i.e. every bank verifies the cash balance with their cash book and within the day, the same must be completed.

## Industry Practice

As that are different types of industries, each industry has its own characteristics and features. There may be seasonal industries also. Every industry follows the principles and assumption of accounting to perform their own activities. Some of them follow the principles, concepts and conventions in a modified way. The accounting practice which has always prevailed in the industry is followed by it. e.g., Electric supply companies, Insurance companies maintain their accounts in a specific manner. Insurance companies prepare Revenue Account just to ascertain the profit/loss of the company and not Profit and Loss Account. Similarly, non trading organizations prepare Income and Expenditure Account to find out Surplus or Deficit.

## Materiality Concept

The materiality could be related to information, amount, procedure and nature. Error in description of an asset or wrong classification between capital and revenue would lead to materiality of information. Say, If postal stamps of ₹ 100 remain unused at the end of accounting period, the same may not be considered for recognizing as inventory on account of materiality of amount. Certain accounting treatments depend upon procedures laid down by accounting standards. Some transactions are by nature material irrespective of the amount involved. e.g., audit fees, loan to directors

## 4. What is Deferred Revenue Expenditure? Explain with proper illustration.

#### Abstract

Answer: Deferred revenue expenditures represent certain types of assets whose usefulness does not expire in the year of their occurrence but generally expires in the near future. These type of expenditures are carried forward and are written off in future accounting periods. Sometimes, we make some revenue expenditure but it eventually becomes a capital asset (generally of an intangible nature). If one undertakes substantial repairs to the existing building, the deterioration of the premises may be avoided. We may engage our own employees to do that work and pay them at prevailing wage-rate, which is of a revenue nature. If this expenditure is treated as revenue expenditure and the current year's-profit is charged with these expenses, we are making the current year to absorb the entire expenses, though the benefit of which will be enjoyed for a number of accounting years.

The most common example of Deferred Revenue expenditure is advertisement expenses incurred in connection with launch of new product. Let's say the expenditure amounted to ₹ 10 lakhs. The effect of this expense will result in sales of the product for a period of 5 years.

This advertisement expense for launching a new product does not improve the production capacity of the entity. Hence, it is not capital in nature (it is not for purchase of an asset). Hence, it becomes revenue and this promotional strategy will not only create a market for your product as soon as it is launched but also to sustain in the market for a certain period.

## 5. What are the Functions of Journal? Also mention its advantages.

The functions of journal are as follows:
(i) Analytical Function: Each transaction is analysed into the debit aspect and the credit aspect. This helps to find out how each transaction will financially affect the business.
(ii) Recording Function: Accountancy is a business language which helps to record the transactions based on the principles. Each such recording entry is supported by a narration, which explain, the transaction in simple language. Narration means to narrate - i.e. to explain. It starts with the word Being ...
(iii) Historical Function: It contains a chronological record of the transactions for future references.

The following are the advantages of a journal:
(i) Chronological Record: It records transactions as and when it happens. So it is possible to get a detailed day-to-day information.
(ii) Minimizing the possibility of errors: The nature of transaction and its effect on the financial position of the business is determined by recording and analyzing into debit and credit aspect.
(iii) Narration: It means explanation of the recorded transactions.
(iv) Helps to finalize the accounts: Journal is the basis of ledger posting and the ultimate Trial Balance.
6. (a) Mention the purpose of a Trial Balance.

## Answer:

Trial Balance serves the following purposes:

1. To check the arithmetical accuracy of the recorded transactions.
2. To ascertain the balance of any ledger Account.
3. To serve as an evidence of fact that the double entry has been completed in respect of every transaction.
4. To facilitate the preparation of final accounts promptly.
(b) Is Trial Balance indispensable?

## Answer:

It is a mere statement prepared by the accountants for his own convenience and if it agrees, it is assumed that at least arithmetical accuracy has been done although there may be a lot of errors. Trial Balance is not a process of accounts, but its preparation helps us to finalise the accounts. Since it is prepared on a particular date, as at $\qquad$ / as on $\qquad$ is stated.
7. Can you explain the accounting treatment for Outstanding expenses and Prepaid or unexpired expenses?

Answer:

## Outstanding expenses

These are the expenses like wages, salaries, rent etc. which have been incurred but not paid at the end of the ear. For example, wages of $\begin{array}{ll}4,000 \\ \text { which have become due on } 31 \text { st March but not paid in the }\end{array}$ financial year, is termed as outstanding wages.

The adjustment entry is:
Wages Account .....Dr. 4,000
To Wages outstanding Account 4,000

It will be added in wages shown in the trading Account and will also be shown as a liability in the balance sheet.

## Prepaid or unexpired expenses

These are the expenses which are paid in the current accounting year but the benefit of this is to be received in the next accounting year. For example, insurance premium of ₹ 10,000 for one year is paid on 1st Jan. and the accounting year closes on 31st March. This means insurance premium for nine months i.e. for April 1st to Dec..., 31st amounting to ₹ 7,500 has been paid in advance i.e., prepaid. The adjustment entry is:

Prepaid Insurance Account .....Dr. 7,500
To Insurance Account
7,500.
As a result of this, ₹ 7,500 will be deducted from insurance premium of ₹ 10,000 in the Profit and Loss Account. It will also be shown as an asset in the Balance sheet at ₹ 7,500 as prepaid (or unexpired) Insurance Premium Account.

## 8. How to calculate Manager's Commission? (take imaginary figures)

## Answer:

Sometimes, the manager is entitled to a commission on profits at a fixed percentage. Such commission is calculated as follows:
(i) Commission on profits before charging such commission:

In such a case, commission is calculated as follows: Profit before commission $\times$ Suppose, profit before commission is $₹ 1,00,000$ and commission is payable at $5 \%$, then the amount of commission will be: ₹ $1,00,000 \times 5 \%=₹ 5,000$. Profit after commission will be ₹ $1,00,000-5,000=95,000$
(ii) Commission on profits after charging such commission: In this case, commission is calculated by the following formula: Profit before commission $\times$ Rate of Commission 100+ Rate of Commission.
In the above example, commission will be: ₹ $1,00,000 \times 5100=₹ 4,762$ (Approx.) Profit after commission will be ₹ $1,00,000-4,762=₹ 95,238$.

## 9. Write short note on 'Goods on sale or approval'.

When the goods are sold subject to approval of the customer, there is a possibility that such goods are not approved and returned. In case such goods sold on approval basis are lying with the customers at the close of the accounting year but not yet returned, these should be treated as stock lying with customers.

The following entries are passed.

1. Sales Account .... Dr

To Debtors Account
(This entry is at selling price of goods)
2. Stock Account ..... Dr

To Trading Account
(This entry is at cost price)
10. What will the accounting adjustment for Goods distributed as free samples?

## Answer:

When in order to promote sale of goods, free samples of goods are distributed to potential customers, the cost of free samples is charged to advertisement account. This will also reduce the stock of finished goods.

In the final accounts, it is recorded as follows:

1. In the Trading Account, cost of free samples is deducted from purchases.
2. In the Profit and Loss Account, it is shown as Advertisement Expenses on the debit side.

The entry to record this adjustment is:

$$
\begin{aligned}
& \text { Advertisement Account .... Dr. } \\
& \text { To Purchases Account }
\end{aligned}
$$

## 11. Discuss the reasons for Differences between Cash Book and Pass Book

## Answer:

The differences are basically of two types:
A. Items appear in Cash Book but not appearing in Pass Book and B. Items appear in Pass Book but not appearing in the Cash Book.

Let us understand these reasons:
(A) Items not appearing in Bank Pass Book -
(1) Cheques issued by business entity not debited by the Bank - This may be because they might not have been Banked by the payee or it may still be under clearance. The entry in Cash Book will be made immediately when the cheque is issued thereby reducing the Bank balance in the books of entity's books of $\mathrm{A} / \mathrm{cs}$. Here, Bank balance as per Cash Book will be less, but as per Bank Pass Book it will be more. This is also termed as unpresented cheques.
(2) Cheques deposited but not credited by the Bank - The business entity may receive cheques or draft which is deposited into the Bank for collecting the payment. Again entry in Cash Book will be instant thereby increasing the balance. Here, Bank balance as per Cash Book will be more than the balance as per Bank passbook. This is also called as outstanding cheques.
(3) Errors - The Bank may by mistake miss out entering the debit or credit which results in the difference.
(4) Standing Instructions - The entity may give standing instruction to the Bank for certain regular payments like loan repayment installment, transfer of funds etc. This may get entered in the Cash Book immediately, but Pass Book entry may be delayed.
(B) Items not appearing in the Cash Book -
(1) Bank interest, Bank charges etc. - The Bank will charge interest on overdraft or also charges for services, issue of demand draft, pay orders etc. Here, being the source of transaction, the Bank will record in the Pass Book immediately and send the debit advice slips to the business entity. The entry in the Cash Book may be delayed. Similarly the Bank could credit interest on fixed deposits, which may get entered in business books at a later date.
(2) Direct deposits in Bank account - Sometimes customers or others may directly deposit an amount in the Bank for goods or services rendered. The Bank will enter it immediately, but entry in Cash Book will appear later.
(3) Bills for collection - The Business Entity may send bills of exchange for collection. The Bank will collect the payment and credit the same in the passbook. The entry in Cash Book will be made only after receipt of information from the Bank.
(4) Errors - The records may be missed out by the book-keeper of the Business Entity.

## 12. What is the need of Bank Reconciliation Statement?

Answer:
Need of Bank Reconciliation Statement:

1. It helps to understand the actual Bank balance.
2. It helps to identify the mistakes in the Cash Book and the Pass Book.
3. It helps to detect and prevent frauds and errors in recording the Banking transactions.
4. It helps to incorporate certain expenditures/income debited/credited by Bank in the books of accounts.

## 13. How to ensure an efficient BRS?

## Answer:

1. Firstly, it's essential to have all the required documentation and information in hand. That means, if all the required documentation and information are at your disposal you get a better view of things.
2. Avoiding common errors, such as:
a. Error relating to duplication of entries.
b. Not accounting for a transaction that would cause a difference equal to the missed amount
c. Errors while entering commas and dots, which cause discrepancies that, could be of significant value. For instance, instead of entering INR 2,401.30, entering INR 240.13.
d. Transposition errors while entering figures in the books. For instance, instead of entering INR 221,200, entering INR 212,200.
3. Banks can make mistakes too: It is possible that your bank might have committed a mistake. They might debit incorrect amounts from your account, or credit deposits which doesn't belong to you. For this reason, in case you find errors for which you don't find any explanations, or for which you're in doubt, the best thing is to consult your bank.
4. Reconciling items: Listing differences and reconciling them and then forgetting it is possible. In case differences keep on accumulating with no action taken, your bank reconciliation would become meaningless. It is needed that a constant check is kept on the reconciled transactions so that they are reflected in the right way in the bank column of the cash book and in the bank statement.

## 14. What is Suspense Account?

## Answer:

When the trial balance does not tally due to the one-sided errors in the books, an accountant puts the difference between the debit and credit side of the trial balance on the shorter side as the Suspense A/c. As and when we locate and rectify the errors, the balance in the Suspense A/c reduces and consequently becomes zero. Thus, we cannot categorize the Suspense Account. It is a temporary account and can have debit or credit balance depending upon the situation.
15. What are the effects of Errors on Financial Statements?

## Answer:

Effect of error depends on the nature of effected accounts. If errors relate to nominal account, it will either increase or reduce the profit and rectification will reduce excess profit or Loss. Effect of error on Trading and Profit account ultimately effect the Balance-Sheet of a company too, because reduced profit or excess profit ultimately transferred to capital account, which is a part of the Balance Sheet.

There are some errors, which effect Trading or Profit and Loss account and Balance sheet simultaneously, like entry of depreciation will affect profit as well as value of the Fixed Assets.

Some entry may effect on Balance sheet only like, for instance omission of entry of cash paid to purchase fixed assets will affect Balance Sheet of a firm only.
16. State whether the following are capital, revenue or deferred revenue expenditure.
(i) Carriage of $₹ 7,500$ spent on machinery purchased and installed.
(ii) Heavy advertising costs of ₹ 20,000 spent on the launching of a company's new product.
(iii) ₹ $\mathbf{2 0 0}$ paid for servicing the company vehicle, including ₹ $\mathbf{5 0}$ paid for changing the oil.
(iv) Construction of basement costing ₹ $1,95,000$ at the factory premises.

## Solution:

(i) Carriage of ₹ 7,500 paid for machinery purchased and installed should be treated as a Capital Expenditure.
(ii) Advertising expenses for launching a new product of the company should be treated as a Revenue Expenditure. (As per AS-26)
(iii) ₹ 200 paid for servicing and oil change should be treated as a Revenue Expenditure.
(iv) Construction cost of basement should be treated as a Capital Expenditure.
17. State whether the following are capital or revenue expenditure.
(i) Paid a bill of ₹ 10,000 of Mr. Kumar, who was engaged as the erection engineer to set up a new automatic machine costing ₹ 20,000 at the new factory site.
(ii) Incurred ₹ 26,000 expenditure on varied advertisement campaigns under taken yearly, on a regular basis, during the peak festival season.
(iii) In accordance with the long-term plan of providing a well- equipped Labour Welfare Centre, spent ₹ 90,000 being the budgeted allocation for the year.

## Solution:

(i) Expenses incurred for erecting a new machine should be treated as a Capital Expenditure.
(ii) Advertisement expenses during peak festival season should be treated as a Revenue Expenditure.
(iii) Expenses incurred for Labour Welfare Centre should be treated as a Capital Expenditure.
18. Classify the following items as capital or revenue expenditure:
(i) An extension of railway tracks in the factory area;
(ii) Wages paid to machine operators;
(iii) Installation costs of new production machine;
(iv) Materials for extension to foremen's offices in the factory;
(v) Rent paid for the factory;
(vi) Payment for computer time to operate a new stores control system,
(vii)Wages paid to own employees for building the foremen's offices. Give reasons for your classification.

## Solution：

（i）Expenses incurred for extension of railway tracks in the factory area should be treated as a Capital Expenditure because it will yield benefit for more than one accounting period．
（ii）Wages paid to machine operators should be treated as a Revenue Expenditure as it will yield benefit for the current period only．
（iii）Installation costs of new production machine should be treated as a Capital Expenditure because it will benefit the business for more than one accounting period．
（iv）Materials for extension to foremen＇s offices in the factory should be treated as a Capital Expenditure because it will benefit the business for more than one accounting period．
（v）Rent paid for the factory should be treated as a Revenue Expenditure because it will benefit only the current period．
（vi）Payment for computer time to operate a new stores control system should be treated as Revenue Expenditure because it has been incurred to carry on the normal business．
（vii）Wages paid for building foremen＇s offices should be treated as a Capital Expenditure because it will benefit the business for more than one accounting period．

19．Supriyo started business on 1st January 2019．You are required to pass entries，in journal and subsidiary books，post them in ledger and prepare trial balance under totals and balances method for January 2019．His transactions for the month were follows：

| Date | Particulars | Amount（₹） |
| :---: | :--- | ---: |
| 2019, Jan | Cash brought in by Raju as his capital |  |
| 1 | Furniture purchased on credit from Nuluk Furniture Home | $2,00,000$ |
| 2 | Goods purchased from Modi \＆Sons on credit | 25,000 |
| 3 | Goods purchased for cash | 61,400 |
| 4 | Goods purchased from Delhi Traders on credit | 35,000 |
| 5 | Cash sales | 73,300 |
| 8 | Sold goods to Bhatia \＆Co．on credit | $\mathbf{4 , 6 0 0}$ |
| 11 | Purchased stationery for cash | 1050 |
| 12 | Paid Modi \＆Sons cash to settle account |  |
|  | Received 5\％discount from the firm | - |
| 13 | Received from Bhatia \＆Co．in full settlement of account | 19,800 |
| 18 | Cash sales | 10,700 |
| 19 | Sold on credit to Ganesh \＆Co． | 5,000 |
| 21 | Received cash from Ganesh \＆Co． | 1,000 |
| 23 | Sold on credit to Hoshiar Singh | 4,000 |
| 27 | Porchased goods for cash | 26,000 |
| 31 | Hoshiar Singh becomes insolvent．A first and final dividend of ₹ 3，000 is |  |
| 31 | Ganesh \＆Co．pays cash | 3,900 |
| 31 | Discount allowed to Ganesh \＆Co． | 100 |
| 31 | Cash paid for rent | 2,000 |
| 31 | Depreciation on furniture | 250 |
| 31 | Payment to Delhi Traders in full settlement | 73,000 |

## Workings:

Note 1: Accidental loss on 1.9.14

| Date | Original cost | Amount (₹) |
| :---: | :--- | ---: |
| 1.5 .89 | Orion | 21,000 |
| 31.3 .90 | $(-)$ Depreciation [15\% for 11 months] | 2,887 |
|  | WDV | $\mathbf{1 8 , 1 1 3}$ |
|  | (-) Depreciation [15\% of 18113] | 2,717 |
|  | Value on 1.4.14 | $\mathbf{1 5 , 3 9 6}$ |
|  | (-) Depreciation [15\% of 15396 for 5 months] | 962 |
|  |  | $\mathbf{1 4 , 4 3 4}$ |

Note 2: Depreciation on 31.3.15

| Date |  | Amount (₹) |
| :---: | :--- | ---: |
| 31.3 .92 | WDV as on 1.4.91 | $4,60,000$ |
|  | $(-)$ WDV of Asset lost in accident | 15,396 |
|  | WDV of other assets on 1.4.15 |  |
|  | $(-)$ Depreciation [15\% of 444604] (approx) | $\mathbf{4 , 4 4 , 6 0 4}$ |
|  | $\mathbf{3 6 , 6 9 1}$ |  |

Note 3: Depreciation on 31.3.16

| Date |  | Amount ( ${ }^{\text {) }}$ |
| :---: | :---: | :---: |
|  | $15 \%$ of 377913 (approx) <br> (+) $15 \%$ of new purchase for 9 months [5/12 * 52500 * 9/12] | 56,687 |
|  |  | 5,906 |
|  |  | 62,593 |

Note 4: Depreciation etc... on Asset sold on 31.8.16

| Date |  | Amount (₹) |
| :---: | :---: | :---: |
| 1.4.90 | Original cost | 31,500 |
| 31.3.91 | (-) Depreciation [15\% of 31500] | 4,725 |
|  | WDV | 26,775 |
| 31.3.92 | (-) Depreciation [15\% of 26775] | 4,016 |
|  | WDV | 22,759 |
| 31.3.93 | (-) Depreciation [15\% of 22759] | 3,414 |
|  | WDV | 19,345 |
| 31.8.93 | (-) Depreciation [15\% of 19345 for 5 months] | 1,209 |
| 31.8.93 | WDV | 18,136 |

So, Profit on sale $=$ Selling price - WDV $=36,000-18,136=17,864$
Note 5: Accidental loss on 1.9.14

| Date |  | Amount ( ${ }^{\text {) }}$ ) |
| :---: | :---: | :---: |
| 1.4.93 | Balance b/d | 3,67,820 |
| 1.4.93 | (-) Book value of Assets sold later in the year | 19,345 |
|  | Balance of remaining assets | 3,48,475 |

So, Annual Depreciation $=15 \%$ of $348475=₹ 52271.25=₹ 52271$

Note 6: Depreciation \& loss on sale on 1.11.17

| Date |  | Amount (₹) |
| :---: | :---: | :---: |
| 1.4.91 | Book value | 10,000 |
| 31.3.92 | (-) Depreciation [15\% of 10000] | 1500 |
|  | WDV | 8,500 |
| 31.3.93 | (-) Depreciation [15\% of 8500] | 1,275 |
|  | WDV | 7,225 |
| $\begin{gathered} 31.3 .94 \\ 1.4 .94 \end{gathered}$ | (-) Depreciation [15\% of 7225] | 1,084 |
|  | Book value | 6,141 |
| 1.11 .94 | (-) Depreciation [15\% of 6141 for 7 months] | 537 |
| 1.11 .94 | WDV | 5,604 |
|  | Selling Price | 4,000 |
|  | Loss on Sale | 1,604 |

Note 7: Depreciation on 31.3.18

| Date |  | Amount (₹) |
| :--- | :--- | ---: |
| 1.4 .94 | Book value b/d | $2,96,204$ |
|  | (-) Book value of asset sold later in the year |  |
| Balance of remaining assets |  |  |$\quad 6,1419$.

So, Annual Depreciation $=15 \%$ of $290063=₹ 43,509.45=₹ 43,509$
25. How would you rectify the following errors in the book of Raj \& Co.
(a) The total to the purchase book has been undercast by ₹ 100.
(b) The returns inward book has been undercast by ₹ 50.
(c) A sum of ₹ 250 written off as depreciation on Machinery has not been debited to Depreciation Account.
(d) A payment of ₹ 75 for salaries (to Joy) has been posted twice to Salaries Account
(e) The total of Bills Receivable book ₹ 1500 has been posted to the credit of Bills Receivable Account.

Solution:
(a) The Purchase Account should receive another debit of ₹ 100 since it was debited short previously: "To undercasting of Purchase Book for the month of $\qquad$ ₹ 100
(b) Due to this error the Returns Inward Account has been posted short by ₹ 50: "To undercasting of Returns Inward Book for the month of $\qquad$ ₹ 50
(c) The omission of the debit to the Depreciation Account will be rectified by the entry: "To omission of posting on ₹ 250 "
(d) The excess debit will be removed by a credit in the Salaries Account by the entry: "By double posting on ₹ 75"
(e) ₹ 1500 should have been debited to the Bills Receivable Account and not credited. So, the Bills Receivable Account should be debited by ₹ 3000 by the entry:
"To wrong posting of Bills Receivable received on ₹ 3000 "
26. The following errors were found in the book of Ramkingkar Prasad \& Sons. Give the necessary entries to correct them.
(a) ₹ 500 paid for furniture purchased has been charged to ordinary Purchases Account.
(b) Repairs made were debited to Building Account for ₹ 50
(c) ₹ 100 paid for rent debited to Landlord's Account.
(d) Salary ₹ 125 paid to a clerk due to him has been debited to his personal account.
(e) ₹ 100 received from Sundar \& Co. has been wrongly entered as from Surindar \& Co.

## Study Note - 2

## ACCOUNTING FOR SPECIAL TRANSACTIONS

Learning Objective: This chapter of workbook includes Bills of Exchange, Consignment (cost price, invoice price, commission \& valuation of stock), Joint Venture. The main objective of this chapter broadly is to help students to understand the accounting procedures on the Bills of Exchange, Consignment and Joint Venture areas of accounting. They will also be able to build up a comprehensive knowledge on those areas.

1. (a) Multiple Choice Questions

He is a person who draws the bill. Here, He is $\qquad$ .
(i) Drawer
(ii) Seller
(iii) Creditor
(iv) All of the above
(b) $\qquad$ is used without a trade transaction and is for mutual benefit.
(i) Accommodation bill
(ii) Trade Bill
(iii) Mutual Bill
(iv) None of the above
(c) X bought goods from Y for ₹ 4,000 . Y draws a bill on 1.1 .2018 for 3 months which was accepted by $\mathbf{X}$ for this purpose. On 1.3.2018, $X$ arranged to retire the bill at a rebate of $12 \%$ p.a. Show the entries in the books of $X$ and $Y$. Calculate Rebate Amount.
(i) 46
(ii) 58
(iii) 32
(iv) None
[Hints: Rebate $=₹ 4,000 \times 12 / 100 \times 35 / 365$ (1st March to 4th April) $=$ ₹ 46.]
(d) Mohan sold goods on 1st September, 2014 for ₹ $2,00,000 /-$ to Sohan. Sohan immediately accepted a 3 months bill. On the due date Sohan requested for the renewal of the bill for a further period of two months. Mohan agrees to pay interest @ $9 \%$ per annum to be included in the new bill. Determine the amount of the new bill.
(i) ₹ $2,03,000$
(ii) ₹ $2,03,000$
(iii) ₹ $2,03,000$
(iv) None of the above
(e) At the time of dishonor of an endorsed bill which one or these accounts would be credited by the drawee -
(i) bill payable account
(ii) drawer
(iii) Bank
(iv) Bill dishonored account
(f) If a bill drawn on 3rd July 2018 for $\mathbf{4 0}$ days payment must be made on -
(i) 16th August, 2018
(ii) 15th August, 2018
(iii) 12th August, 2018
(iv) 14th August, 2018
(g) This is additional commission payable to the consignee for taking over additional responsibility of collecting money from customers. Here, the commission is $\qquad$ .
(i) Ordinary Commission
(ii) Del Credre Commission
(iii) Agent Commission
(iv) Special Commission
(h) When the goods are sent by consignor to the consignee, $\qquad$ sends a 'proforma Invoice'.
(i) Consignor
(ii) Consignee
(iii) Customer
(iv) Agent
(i) X sends out 100 bags to Y costing ₹ 1000 each. 60 bags were sold at $10 \%$ above cost price. Sale value will be
(ii) 66,000
(iii) 65,000
(iv) 60,000
(v) 65,500
(j) The consignment accounting is made on the following basis
(i) accrual basis
(ii) realization basis
(iii) cash basis
(iv) All of above
(k) Which of the following statement is true?
(i) There is no difference between joint venture and partners
(ii) Consignment and joint venture is same
(iii) There is not separate act for joint venture
(iv) In case of joint venture, the number of third party is none only
(I) Which of the following accounts are maintained in the joint venture when separate set of books are maintained -
(i) Joint bank A/c
(ii) Joint venture $A / c$
(iii) Co-ventruer A/c
(iv) All of these

Answer:

| (a) | (b) | (c) | (d) | (e) | (f) | (g) | (h) | (i) | (j) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| (iv) | (i) | (i) | (iii) | (ii) | (iv) | (ii) | (i) | (ii) | (i) |
| (k) | (I) |  |  |  |  |  |  |  |  |
| (iii) | (iv) |  |  |  |  |  |  |  |  |

(b) Fill in the Blanks
(i) To provide a legal evidence of dishonour, the fact of dishonour is to be noted on the bill by $\qquad$ .
(ii) is not a part of double entry system.
(iii) is drawn to settle a trade transaction.
(iv) If the due date is a public holiday what will be the due date of the bill $\qquad$ .
(v) A promissory note contains an $\qquad$ to pay.
(vi) Bills of exchange is a $\qquad$ instrument
(vii) The cash allowance provided by the drawer to the drawee for the pre-payment of the bill is known as $\qquad$ .
(viii) Consignment account is $\qquad$ Account.
(ix) A periodic statement furnished by the consignee to consignor is $\qquad$ .
(x) 4. Del credere commission is allowed to cover the risk of $\qquad$ .
(xi) Joint venture does not follow $\qquad$ basis of accounting.

## Answers:

(i) Notary Public
(ii) Memorandum
(iii) Trade bill
(iv) preceding day
(v) undertaking or promise
(vi) negotiable
(vii) rebate
(viii) nominal
(ix) account sales
(x) bad debts
(xi) Accrual
(c) True \& False
(i) Memorandum joint venture account is a real account
(ii) Period between the date of drawing of the bill and the period it becomes due is called Tenure of the Bill.
(iii) In case of endorsement of bill endorser debits endorsee and credits $B / R$ account.
(iv) In case of consignment, the risk of loss or damage to the goods remains with the consignor till the goods consigned are sold by the consignee.
(v) Abnormal Losses arise as a result of natural causes, e.g. evaporation, leakage, breakage etc., and
(vi) they are inherent in nature.
(vii) Commission will be shared between only consignee.
(viii) Joint venture agreement must be registered.
(ix) Maximum number of members in joint venture business is 200.

Answers:
i-F, ii-T, iii-T, iv-T, v-F, vi-T, vii-T, viii-F, ix-F

## (d) Match the followings

1. Match the following:

| Transaction | Journal Entry |
| :--- | :--- |
| 1.Contribution of co-venturers | (a)Joint Venture A/c Dr. <br> To, Co-Venturers A/c |
| 2.Goods sent by co-venturer out of his own <br> stock | (b)Joint Venture A/c Dr. <br> To Joint Bank A/c |
| 3.Expenses paid by co-venturers | (c)Joint Venture A/c Dr. <br> To, Co-Venturers A/c |
| 4.Materials purchased out of joint venture <br> funds | (d)Joint Bank A/c Dr. <br> To, Co-Venturers A/c |

1-(d), 2-(c), 3-(a), 4-(b)
2. Match the following:

| Column A | Column B |
| :--- | :--- |
| 1. Consignment | (a) Nominal |
| 2. Co-ventruer | (b) Personal |
| 3. Consignment stock | (c) Real |

1-(a), 2-(b), 3-(c)
2. Write the features of a bill of exchange.

Based on this definition the following features of a bill of exchange are noticed:
(a) It's an instrument in writing;
(b) It contains an unconditional order;
(c) It's signed by the maker;
(d) It's drawn on a specific person ;
(e) There is an order to pay a specific sum of money;
(f) It must be dated and stamp;
(g) It must bear revenue stamp.
3. Write short note on 'Days of grace'.

In case the bill is payable on demand, it becomes due immediately on presentation for payment. In the same way if the bill is not payable on demand becomes due on the third day from the date of maturity. These three days are called Days of Grace. For example, if a bill is drawn on 1.4.2018 for 4 months, the due date or date of maturity will be 4.8.2018. The same can be computed as under:

## Example

Date of Drawing 1.4.2018
Add: Period/Tenure 4 months 1.8.2018
Add: Days of Grace 3
Due Date / Date of Maturity 4.8.2018

## 4. What is need of Accommodation Bill?

Generally a bill of exchange is drawn by a creditor on his debtor to settle a trade debt. A creditor is a person who has sold goods on credit basis and a debtor is a person who has purchased goods on credit
basis. Thus, a bill which is drawn by a creditor and accepted by a debtor is known as a trade bill of exchange.

On the other hand, a bill of exchange which is drawn to oblige a friend or to give him a temporary assistance or to provide him a loan or to accommodate one or more parties, is called an "accommodation bill of exchange".

Such a bill is drawn and accepted without any sale and purchase of goods. As the bill is drawn to fulfill the temporary need of money so there is no question of retaining this bill by the drawer until the due date. The bill will be discounted and cash will be received immediately. The drawer before maturity date is required to provide the acceptor with funds so that he may need his acceptance on the due date.

For example, let us suppose $A$ is in need of money, he approaches his friend $B$ and asks him to give him a loan for ₹ 5,000 . B also shows his inability but agrees that he will accept a bill of exchange. A draws a bill on $B$ which he accepts at three months. A discounts the bill with his bank and gets the money. After three months but before the due date, A sends ₹ 5,000 to B in order to meet his acceptance. B receives amount and pays his acceptance.

## 5. Show the accounting treatment of Credit Sales in books of Consignor.

In case consignee sales goods on cash and credit both, the responsibility of collection from customers may be either with consignee or consignor. The risk of non-collection is usually borne by the consignor. If consignor want this to be shouldered by the consignee, additional commission in the form of 'Del Credre' commission is payable. It may be noted that in case of credit sales, the personal accounts of debtors are to be maintained by the consignor and not the consignee.

The entry for credit sales will be:
Consignment Debtors A/c Dr
To Consignment A/c
6. Make difference between Joint Venture and Consignment.

| Point of Distinction | Joint Venture | Consignment |
| :--- | :--- | :--- |
| Identity of Parties | The parties are called co-venturers. | The parties are called consignor or <br> principal and consignee or agent. |
| Methods of <br> keeping accounts | Four methods of keeping accounts. | Is only one. |
| Continuity of <br> Relationship <br> between parties | Is terminated as soon as the venture <br> is over. | Will be there even after one <br> transaction. |
| Main activity | The business may be concerned with <br> buying or selling or contract work or any <br> other activities. | Consignments are meant for sale <br> of goods alone. |
| Type of Agreement | It is a temporary partnership. | It is not a partnership. The agent <br> need not be a agent. |

7. On $1^{\text {st }}$ August, 2018, VIJAY sold goods to PRITAM for $₹ 10000$ on credit. He drew a bill on PRITAM on the same date for the amount to be paid on $1^{\text {st }}$ October, 2018. PRITAM accepted the bill. VIJAY got the bill discounted with the bank on $1^{\text {st }}$ August @ $12 \%$ p.a. On the due date, the bill was dishonored and noting charges paid by VIJAY ₹ 50 . Pass the necessary journal entry for bills of exchange in the books of VIJAY and PRITAM.

## Solution:

Journal Entries in the books of VIJAY

| Date | Particulars | Amount (₹) | Amount (₹) |
| :---: | :---: | :---: | :---: |
| 2018 1 Aug | PRITAM's A/c Dr. To, Sales A/c (Being goods sold to PRITAM) | 10,000 | 10,000 |

10. Laxmi \& Sons bought goods of the value of ₹ 7,500 and consigned them to Ganesh \& Co. to be sold to them on a joint venture, profit being divided in 2/3: 1/3. They also paid ₹ 550 for freight, insurance and cartage and drew on Ganesh \& Co. for ₹ 3,000 on account. The bill was discounted by Laxmi \& Sons for ₹ 2,900. Ganesh \& Co. paid ₹ 300 for dock dues, storage, rent etc. The sales realised ₹ 12,500 and the sales expenses ₹ 250 were defrayed by Ganesh \& Co. The later forwarded a sight draft for the balance due to Laxmi \& Sons after charging their sales commission at 5 percent on the gross proceeds. You are requested to write up the accounts in the books of both the parties. No interest needs to be brought into account. You are required to prepare necessary accounts in the books of Laxmi \& Sons.

## Solution:

11. On $1^{\text {st }}$ July, 2017 Mohan of Maharastra consigned goods to the value of $₹ 50000$ to Pandit of Punjab. This was made by adding $25 \%$ on the cost. Mohan paid ₹ 2500 for freight and ₹ 1500 for insurance. During transit $1 / 10^{\text {th }}$ of the goods was totally destroyed by fire and a sum of $₹ 2400$ was realized from the insurance company. On arrival of the goods Pandit paid ₹ 1800 as carriage to godown. During the year ended $30^{\text {th }}$ June, 2018, Pandit paid ₹ 3600 for godown rent and ₹ 1900 for selling expenses $1 / 9^{\text {th }}$ of the remaining goods were again destroyed by fire in godown and nothing was recovered from the insurance company. Upto $30^{\text {th }}$ June, 2018, Pandit sold half of the original goods for ₹ 30000 and charged a commission of $5 \%$ on sales. $30^{\text {th }}$ June 2018, Pandit sent a bank draft to Mohan for the amount so far due from him.

You are required to prepare Consignment Account in the books of Mohan for the year ended $30^{\text {th }}$ June, 2018.

Solution:
In the books of Mohan
Consignment to Punjab Account

| Dr. |  |  |  |  |  |  | Cr. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Date | Particulars | Amount (₹) | Amount (₹) | Date | Particulars | Amount (₹) | Amount (₹) |
| 1.7.17 | To Goods sent on Consignment A/c [at loaded price (note 1)] |  | 50,000 | 30.6.18 | By Loss in Transit A/c [note 2] <br> By Goods lost (in consignment hands) |  | 4,400 4,600 |
| 1.7.17 | To Bank A/C [own expenses] -Freight -Insurance | $\begin{aligned} & 2,500 \\ & 1,500 \end{aligned}$ | 4,000 | 30.6.18 | A/c [note 3] <br> By Pandit A/c [sales] <br> By Stock on <br> Consignment A/C |  | $\begin{aligned} & 30,000 \\ & 16,800 \end{aligned}$ |

| :---: | :---: | :---: | :---: | :---: | :---: |
| Dr. |  |  |  |  | Cr. |
| Date | Particulars | Amount (₹) | Date | Particulars | $\underset{(7)}{\text { Amount }}$ |
|  | To Consignment to Punjab A/C | 4,400 |  | By Bank A/C [insurance claimed received] By P/L A/c [actual loss] | $\begin{aligned} & 2,400 \\ & 2,000 \end{aligned}$ |
|  |  | 4,400 |  |  | 4,400 |
| Goods Lost (In Consignee's Hands) Account |  |  |  |  |  |
| Dr. ${ }^{\text {a }}$ Cr. |  |  |  |  |  |
| Date | Particulars | Amount (₹) | t Date | Particulars | Amount (₹) |
|  | To Consignment to Punjab A/c | 4,600 |  | By P/L A/c [actual loss] | 4,600 |
|  |  | 4,600 |  |  | 4,600 |

## Workings:

Note 1: Goods Sent

| Particulars | Amount (₹) |
| :--- | ---: |
| Invoice price (loaded price) | 50,000 |
| (-) Loading included @ 25\% on coast or 25/125 of loaded price | 10,000 |
| Cost price of goods sent | $\mathbf{4 0 , 0 0 0}$ |

Note 2: Loss in Transit

| Particulars | Value ( $₹$ ) | Loading ( $₹$ ) |
| :--- | ---: | ---: |
| Goods sent | 50,000 | 10,000 |
| Consignor's Expenses (N.R.) | 4,000 | 1000 |
| Loss in Transit [1/10 th of Goods Sent] | 54,000 | $\mathbf{1 0 , 0 0 0}$ |
|  | $1 / 10 * 54,000$ | $1 / 10 * 10,000$ |

So, Adjusted amount may be shown as ₹ $(5400-1000)=₹ 4400$
Note 3: Goods destroyed in consignee's hands

| Particulars | Value (₹) | Loading (₹) |
| :--- | ---: | ---: |
| Value of goods received by Consignee (carriage to godown) | $(54000-5400)$ | $(10000-$ |
| $(+)$ Non-recurring expenses paid by consignee [carriage to | 48600 | $10000)$ |
| godown] | 1800 | 9000 |
| Goods received | 50400 | 9000 |
| Goods destroyed |  | $(1 / 9 * 50400)$ |
| $\left[1 / 9^{\text {th }}\right.$ of goods received] | $(1 / 9 * 9000)$ |  |

So, Adjusted amount may be shown as ₹ (5600-1000) = ₹ 4600
Note 4: Valuation of unsold goods
Goods received by consignee $=1-1 / 10=9 / 10^{\text {th }}$ of original goods
$(-)$ Loss in consignee's hand $=1 / 9^{*} 9 / 10^{\text {th }}$ of original goods
Remaining portion $=3 / 10^{\text {th }}$ original goods
(-) Portion sold $=1 / 2$ of original goods or $5 / 10^{\text {th }}$ original goods
Portion of unsold stock $=3 / 10^{\text {th }}$ of original goods

## Valuation

$8 / 10^{\text {th }}$ of goods sent $=8 / 10^{* ₹} 54000=₹ 16200$
(+) Proportionate non-recurring expenses of consignee
[For 9/10 => ₹ 1800
So, $3 / 10=>$ ₹ $1800 * 3 / 9$ = ₹ 600]
Loading included $=3 / 10$ of original loading $=3 / 10 * ₹ 10000=₹ 3,000$
Note 5: Profit/Loss on Consignment

| Particulars | Amount (₹) |
| :--- | ---: |
| Result as per Consignment | Nil |
| Net loss in Transit | 2,000 |
| Net loss in Consignee's hands | 4,600 |

12. Mr. Dey of Bihar on $15^{\text {th }}$ January, 2018 sent to Mr. Paul of Kolkata a consignment of 250 televisions costing $₹ 10,000$ each. Expenses of $₹ 7000$ were met by the consignor. Mr. Paul spent ₹ 4,500 for clearance on $30^{\text {th }}$ January, 2018 and the selling expenses were ₹ 500 per television as and when the sale made by Mr. Paul. Mr. Paul sold on $4^{\text {th }}$ March, 2018, 150 televisions at ₹ 14,000 per television and again on $10^{\text {th }}$ April, 2018, 75 televisions at ₹ 14,400 each. Mr. Paul was entitled to a commission of $₹ 500$ per television sold plus $1 / 4^{\text {th }}$ of the amount by which the gross sale proceeds less total commission thereon exceeded a sum calculated at the rate of ₹ 12,500 per television sold. Mr. Paul the account sale and the amount due to Mr. Dey on $30^{\text {th }}$ April, 2018 by bank demand draft.

You are requested to show the Consignment Account and Mr. Paul's Account in the books of Mr. Dey.
Solution:
In the books of Mr. Dey
Consignment to Bihar Account

| Dr. |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $\begin{array}{l\|} \hline \text { Date } \\ 2018 \\ \hline \end{array}$ | Particulars | Amount (₹) | $\begin{aligned} & \hline \text { Date } \\ & 2018 \\ & \hline \end{aligned}$ | Particulars | Amount (₹) |
| 15.1 | To Goods sent on Consignment A/C [250*₹ 10000] | 25,00,000 | $\begin{gathered} \hline 4.3 \\ 10.4 \end{gathered}$ | By Mr. Paul's A/c -Sales 150*₹ 14000 | 21,00,000 |
| 30.1 | To Cash A/c [expenses] | 7,000 |  | -Sales 75*14400 | 10,80,000 |
| 4.3 | To Mr. Paul's A/c -Clearance charges | 4,500 | 30.4 | By Stock on | 2,51,150 |
|  | -Selling expenses [150*₹ 500] | 75,000 |  | Consignment A/c |  |
| 10.4 | -Selling expenses [75*₹ 500] | 37,500 |  | (note 2) |  |
|  | -Commission (note 1) | 1,63,500 |  |  |  |
| 30.4 | To P\&L A/c (profit on consignment) | 6,43,650 |  |  |  |
|  |  | 34,31,150 |  |  | 34,31,150 |

In the books of Mr. Paul

## Workings:

Note 1: Mr. Paul's Commission
Total sales $=21,00,000+10,80,000=₹ 31,80,000$; Television sold $=150+75=225$ units
Sales calculated @ ₹ 12500 each $=₹\left(225^{*} 12500\right)=₹ 28,12,500$; Ordinary commission $=\left(225^{*} ₹ 500\right)=₹$ 1,12,500

Now, if total commission (ordinary + special) is ' $x$ '
Then ' $x$ ' $=112500+1 / 4[3180000-x-2812500]$ or, $x=112500+91875-x / 4$ or, $x+x / 4=204375$ or, $5 x / 4=2,04,375$
So, $x=204375 * 4 / 5=₹ 1,63,500$
Hence, Total commission is ₹ $1,63,500$ comprising of ordinary commission ₹ $1,12,500$, special commission ₹ 51,000

## Note 2: Stock on Consignment

Television unsold/Television sent $=250-225 / 250=25 / 250=1 / 10^{\text {th }}$ of goods sent

| Particulars | Amount (₹) |
| :--- | ---: |
| Cost price of goods sent | $25,00,000$ |
| $(+)$ Consignor's expenses | 7,000 |
| $(+)$ Non-recurring expenses of consignee (clearance) | 4,500 |
|  | $\mathbf{2 5 , 1 1 , 5 0 0}$ |

So, Stock $=1 / 10^{\text {th }}$ of $25,11,500=₹ 2,51,150$.

## Study Note - 3

PREPARATION OF FINAL ACCOUNTS

Learning Objective: To ascertain the results of transactions and the financial position of the business.

1. What are the objectives of preparing final accounts?

Answer:
a) Ascertaining the operating performance (efficiency) or results of an organisation for an accounting period (Trading and Profit \& Loss Accounts).
b) Showing the financial position (list of resources and the funding of the resources i.e. assets and liabilities) of the organisation at the end date of an accounting period (Balance Sheet).
2. Gross profit is the difference between
a) Sales and cost of goods sold
b) Sales and operating expenses
c) Sales and non-operating expenses
d) None of the above

Answer: C
3. Payment to a creditor
a) Reduce an asset, reduce a liability
b) Increase an asset, reduce a liability
c) Only reduce a liability
d) Only reduce an asset.

Answer: a
4. If a company wants to earn a $25 \%$ profit on sales, what will be the profit mark up on the cost.
a) $20 \%$
b) $33.33 \%$
c) $30 \%$
d) $25 \%$

Answer : b
5. An increase in the provision for doubtful debt will
a) Increase in net profit
b) Decrease in net profit
c) Increase in liability
d) Non of the above

Answer: b
6. Balance sheet is prepared
a) At a particular date
b) At the close of a day
c) For the close of a period
d) For showing performance of an organisation.

Answer: a
7. The portion of abnormal loss of inventory (Loss occurred by accident) not compensated by the insurance company should be
a) Debited to profit \& Loss account
b) Credited to trading account
c) Shown in the asset side of the balance sheet
d) Shown in the liability side of the balance sheet

Answer: a
8. Provision for discount on debtor is created only on
a) Good debtors
b) Bad and doubtful debtors
c) Insolvent debtors
d) None of the above

Answer: a
9. What is closing entries?

Answer:
The entries which have been made in the journal for transferring the various accounts to the trading and profit \& loss account is known as closing entries.
10. Unsold stock should not form a part of cost, that's why it is deducted at the time of calculating cost of goods sold. The principle which is governed here is termed as
a) Matching concept
b) Conservatism convention
c) Realization concept
d) Cost concept

Answer: a
11. If closing stock appears in the trial balance, how to treat this item in preparation of final account?

Answer:
The closing stock is then not entered in the trading account. This is because it is already been adjusted in cost of goods sold. It will be shown only in the balance sheet.
12. According to the conceptual framework, the most basic objective of financial reporting is to convey information
a) about the economic resources and obligations of a company.
b) about the liquidity and solvency of a company.
c) about the future cash flows of a company.
d) that enables users to make decisions about a company.

Answer: d

13．All of the following support the objectives of financial reporting except providing information that
a）is useful for making investment and credit decisions．
b）helps management evaluate alternative projects．
c）concerns enterprise resources and claims to those resources．
d）helps investors and creditors predict future cash flows．
Answer：b
14．In a period of rising prices，which one of the following inventory methods usually provides the best matching of expenses against revenues？
a）Weighted average
b）First－in，first－out
c）Last－in，first－out
d）Specific identification
Answer：c
15．Assets are listed on the balance sheet in the order of their
a．purchase date．
b．adjustments．
c．liquidity．
d．balance．
Answer：c
16．Which of the following accounts is not closed？
a．Depreciation Expense
b．Dividends
c．Service Revenue
d．Accumulated Depreciation
Answer：d
17．Which of the following is a position statement？
（a）Profit and loss account
（b）Balance sheet
（c）funds flow statement
（d）Trial balance
Answer：b
18．Mr．X runs a manufacturing enterprise，which close its books on March， 31 every year．He purchased a machinery on $1^{\text {st }}$ January 2018 at a cost ₹ $1,00,000$ ．Calculate the amount of depreciation for the year 2017－18，if
（a）machinery is depreciated＠ $\mathbf{2 0 \%}$ p．a．and
（b）machinery is depreciated by $20 \%$ ．
Answer：
（a）₹ $5,000[1,00,000 \times 20 \% \times 3 / 12]$
（b）₹ 20,000 ［ $1,00,000 \times 20 \%]$
19. (a) what is mutual indebtedness between debtors and creditors? (b) Write the journal entry of mutual indebtedness.

Answer:
(a) when amount is receivable from and payable to the same person at a particular point of time, this incidence is called mutual indebtedness.
(b) Creditors A/c ........Dr.

To, Debtors A/C
20. Write the meaning of contingent liability and its treatment.

Answer:
The probable liabilities which may turn into a actual liabilities on the happening or non-happening of any future event.
It is to be shown as a foot note at the end of the Balance sheet.
21. True \& False:

1. Income earned and received are called accrued incomes.
2. Octroi is shown on Trading Account.
3. The Profit \& Loss $A / C$ will give the information regarding the financial position for an particular year.
4. Loose Tools would be included in balance sheet as current asset
5. Current assets are kept in the business for use over a long period.
6. Trade Receivables is a current asset.
7. In sole trade, bad debt recovery is recorded as income.
8. All nominal accounts are shown in profit \& loss account
9. Income \& Expenditure account is nothing but a consolidated summary of the Cash Book.
10. Receipts and payments account is a personal account.

Answer:

| 1 | False | 2 | True | 3 | False | 4 | False | 5 | False |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 6 | True | 7 | True | 8 | True | 9 | False | 10 | False |

22. Fill in the blanks:
23. Pre-received subscription is shown on the ___of the balance sheet
24. Goodwill is an $\qquad$ but not $\qquad$ asset
25. __contains closing balances of real and personal account
26. Income due but not yet received are known as $\qquad$
27. Loss on sale of furniture is shown on debit side of $\qquad$
28. Amounts are paid to suppliers in advance and goods or services are not received till the balance sheet date, they are to be shown as $\qquad$
29. $\qquad$ is due to be realised within 12 months after the Reporting Date
$\qquad$ side of the balance sheet
30. Personal accounts from whom money is receivable is reflected in the
31. Indirect wages come to the debit side of the $\qquad$
32. Amortisation represents $a$ fall in the value of $a$ $\qquad$

Answer:

| 1. | Liability side | 6. | current assets |
| :---: | :--- | :--- | :--- |
| 2. | intangible, fictitious | 7. | Current assets |
| 3. | Balance sheet | 8. | Assets |
| 4. | Accrued income | 9. | Profit \& loss A/C |
| 5. | Profit and loss account | 10. | Intangible fixed assets |

23. How to treat the closing stock if it appears in the adjustment as $₹ 1,00,000$ at cost and $₹ 80,000$ at its market price.

## Answer:

The market price of closing stock of ₹ 80,000 is to be credited to Trading $A / C$ and also to be recorded in the Asset side of the Balance Sheet.
24. Bank overdraft has been obtained from SBI by hypothecation of stock-in-trade. SBI allows the overdraft limit by keeping a margin of $20 \%$. The present bank overdraft balance is reached maximum permissible limit, which appears in trial balance at ₹ 80,000 . Ascertain closing stock.

## Answer:

Assume value of closing stock be 100.
Margin $=20$, Maximum bank overdraft could be raised $=100-20=80$,
Now bank overdraft is ₹ 80,000 .
Value of closing stock $=80,000 \times 100 / 80=₹ 1,00,000$.
25. A company has debtor balance at the end of the year $4,00,000$. Bad debts has been shown in the trial balance is ₹ 20,000 . $Z$, a debtor for $₹ 40,000$ was declared insolvent, only 40 paise in the rupee was receivable against his estate. Create a provision for bad debts at $5 \%$ and provision for Discount on debtors @ 2\%.

Answer:

|  | Z | General Dr. | Total Dr. |
| :--- | ---: | ---: | ---: |
| Amount Due | 40,000 | $3,60,000$ | $4,00,000$ |
| Less: Provision for bad debt | 24,000 | 18,000 | 42,000 |
|  | $[40,000 \times 60 \%]$ | $[3,60,000 \times 5 \%]$ |  |
|  | 16,000 | $3,42,000$ | $3,58,000$ |
| Less: provision for discount | ------------- | 6,840 | 6,840 |
|  |  | $[3,42,000 \times 2 \%]$ |  |
|  | 16,000 | $3,35,160$ | $3,51,160$ |

26. From the following information, calculate the amount that will appear as 'stationery' in the Income \& Expenditure account for the year ended 31.3.18.

| Stock of stationery as on 1.4.2017 | ₹ 24,000 |
| :--- | ---: |
| Creditors for stationery on 1.4.17 | 50,000 |
| Stock of stationery as on 31.3.18 | 48,000 |
| Amount paid for stationery during 2017-18 | $2,00,000$ |
| Creditors for stationery on 31.3.18 | 48,000 |

Workings: Purchased for stationery during 2017-18
Creditors for Stationery A/C

| To, Bank A/C | $2,00,000$ | By, Balance B/D | 50,000 |
| :--- | ---: | :--- | ---: |
| To, Balance C/D | 48,000 | By, Stationery A/C (Purchase, B. figure) | $1,98,000$ |
|  | $2,48,000$ |  | $2,48,000$ |

## Solution:

Stationery A/C

| To, Balance B/D | 24,000 | By, Income \& Expenditure A/C | $1,74,000$ |
| :--- | ---: | :--- | ---: |
| To, Creditors for Stationery | $1,98,000$ | [Stationery consumed, B. figure] |  |
|  |  | By, Balance C/D | 48,000 |
|  | $2,22,000$ |  | $2,22,000$ |

So, Stationery consumed for the year 2017-18, is ₹ $1,74,000$.
27. Prepare income \& expenditure account for the year ended 31.12.17 and balance sheet on that date from Receipts \& Payments A/c and other following information.

| Receipts \& Payments Accounts for the year ended 31.12.2017 |  |  |  |
| :--- | ---: | :--- | ---: |
| To, Balance B/D | 7,000 | By, Payments of medicine | 30,000 |
| To, Subscription | 50,000 | By, Honorarium to doctors | 10,000 |
| To, Donation | 14,500 | By, Salaries | 27,500 |
| To, Interest on Investment @7\% p.a. | 7,000 | By, sundry expenses | 500 |
| To, Charity Show Proceeds | 10,000 | By, Equipment purchase | 15,000 |
|  |  | By, Charity show expenses | 1,000 |
|  |  | By, Balance C/D | 4,500 |
|  | 88,500 |  | 88,500 |

Other Information:

|  | 1.1 .17 | 31.12 .17 |
| :--- | ---: | ---: |
| Subscription due | 500 | 1,000 |
| Subscription received in advance | 1,000 | 500 |
| Stock of medicines | 10,000 | 15,000 |
| Amount due to medicine suppliers | 8,000 | 12,000 |
| Value of equipment | 21,000 | 30,000 |
| Value of building | 40,000 | 38,000 |

Answer:

| Income \& Expenditure A/C for the year ended 31.12.17 |  |  |  |
| :--- | ---: | :--- | ---: |
| Expenditure | Income |  |  |
| To, Salary | 27,500 | By, Subscription (WN) | 51,000 |
| To, Sundry expenses | 500 | By, Interest in Investment | 7,000 |
| To, Medicine consumed (WN) | 29,000 | By, Charity show proceeds | 10,000 |
| To, Charity show expenses | 1,000 | By, Capital Fund (Deficit) | 8,000 |
| To, Depreciation (WN) |  |  |  |
| Equipment | 6,000 |  |  |
| Building | 2,000 |  |  |
| To, Honorarium to Doctors | 10,000 |  | 76,000 |

| Balance Sheet as at 31.12.17 |  |  |  |  |
| :--- | ---: | :---: | :--- | ---: |
| Liabilities |  | $₹$ | Assets | $₹$ |
| Capital Fund on 1.1.17 (WN) | $1,69,500$ |  | Building | 38,000 |
| Add: Donations | 14,500 |  | Equipment | 30,000 |
|  | $1,84,000$ |  | Investment | $1,00,000$ |
| Less: Deficit | 8,000 | $1,76,000$ | Stock in medicine | 15,000 |
|  |  |  | Subscription receivable | 1,000 |
| Suppliers of medicine |  | 12,000 | Cash \& Bank | 4,500 |
| Advance Subscription |  | 500 |  |  |
|  |  | $1,88,500$ |  | $1,88,500$ |

Workings:

1. Depreciation on Building \& Equipment

|  | Equipment | Building |
| :--- | ---: | ---: |
| Book value on 1.1.17 | 21,000 | 40,000 |
| Add: Purchase during 2017 | 15,000 |  |
|  | 36,000 | 40,000 |
| Less: Book value on 31.12.17 | 30,000 | 38,000 |
|  | 6,000 | 2,000 |

2. Medicine used during 2017

| Medicine A/C |  |  |  |
| :--- | ---: | :--- | ---: |
| To, Balance B/D | 10,000 | By, Income \& Expenditure A/C | 29,000 |
| To, Medicine Suppliers A/C | 34,000 | [Balancing figure] |  |
| (Purchase of medicine WN 3) |  | By, Balance C/D | 15,000 |
|  | 44,000 |  | 44,000 |

3. Medicine purchase during 2017

| Medicine Suppliers A/C | 30,000 | By, Balance B/D | 8,000 |
| :--- | ---: | :--- | ---: |
| To, Bank A/C | 12,000 | By, Medicine A/C | 34,000 |
| To, Balance C/D |  | [purchase of medicine ...B/ Figure] |  |
|  | 42,000 |  | 42,000 |

4. Subscription for the year2017

| Subscription A/c |  |  |  |  |  |  |
| :---: | :--- | ---: | ---: | :--- | ---: | :---: |
| 1.1 .17 | To, subscription Receivable A/c | 500 | 1.1 .17 | By, Advance Subscription A/C | 1,000 |  |
| 31.12.17 | To, Advance Subscription A/C | 500 |  | By, Bank A/C <br> [as per Receipts \& Payments] | 50,000 |  |
|  | To, Income \& Expenditure A/C | 51,000 |  | By, Subscription Receivable A/C | 1,000 |  |
|  | [Balancing Figure] |  |  |  | 52,000 |  |

5. Value of investment:

Interest on investment ₹ 7,000 [Given @ 7\% p.a.].
Value of investment $=7,000 \times 100 / 7=₹ 1,00,000$
6. Capital fund on 1.1.17

| Balance Sheet as at 1.1.17 |  |  |  |
| :--- | ---: | :--- | ---: |
| Liabilities | $₹$ | Assets | $₹$ |
| Capital fund [B/Figure] | $1,69,500$ | Building | 40,000 |
| Suppliers of medicine | 8,000 | Equipment | 21,000 |
| Advance subscription | 1,000 | Investment (WN 5) | $1,00,000$ |
|  |  | Stock of Medicine | 10,000 |
|  |  | Subscription Receivable | 500 |
|  |  | Cash \& Bank | 7,000 |
|  | $1,78,500$ |  | $1,78,500$ |

28. From the following Trial Balance prepare Trading and Profit \& Loss A/c for the year ending 31.12.2018 and a Balance Sheet as on that date.

| Debit | $₹$ | Credit | $₹$ |
| :--- | ---: | :--- | ---: |
| Drawings | 10,200 | Capital | 95,000 |
| Stock (1-1-18) | 18,900 | Sales | $2,02,000$ |
| Purchase | $1,38,600$ | Creditors | 16,020 |
| Printing \& Stationery | 2,600 | Returns | 6,580 |
|  |  | Provident fund | 450 |
| Debtors | 22,800 | Interest on deposit with XYZ | 1,600 |
| Freehold Premises | 39,000 | Outstanding trade expenses | 2,200 |
| Deposit with XYZ @10\% (from 30-6-18) | 18,000 | Provision for bad debt | 700 |
| Salaries (including advance ₹ 3,500) | 28,200 | Bad debt recovered | 900 |
| Returns | 890 | Suspense A/C |  |
| Furniture | 8,600 |  |  |
| Trade expenses | 12,650 |  |  |
| Income Tax | 7,900 |  |  |
| Bank Balance | 6,950 |  | $3,27,000$ |
| Cash in Hand | 6,310 |  |  |
| Patent Right | 5,400 |  |  |
|  | $3,27,000$ |  |  |

## Other information:

1. Last year closing stock was valued at $10 \%$ below cost. It is needed to revert to cost. Stock as on 31.12 .18 was valued at ₹ 16,400 (at cost).
2. Goods costing ₹ 650 pilfered by a employee and furniture (book value on 1.1 .18 ₹ 700 ) destroyed by an accidental fire on 31.12.18.
3. A debtor is included in both debtors and creditors, the amount due from him is ₹ 430 and the amount due to him is ₹ 200 .
4. New furniture costing ₹ 1,200 was purchased on 31.12 .18 on credit but not yet recorded.
5. Suspense $\mathbf{A} / \mathrm{c}$ represents a cheque received from a debtor in full settlement of a claim for ₹ 1,000 . The cheque was deposited into bank and duty collected also.
6. The employer's contribution to provident fund ₹ 1,240 is yet to be paid.
7. Write-off ₹ 400 as bad and maintain provision for bad debt @5\% on debtors.
8. Depreciation all intangible fixed assets @10\% p.a. Patent was acquired in 2018 and annual amortisation equal to $1 / 10^{\text {th }}$ of the cost stated last year.
9. Creditors include supplies of stationery ₹ 200.

## Answer:

|  |  |  |  | Accrued interest |  |
| :--- | :--- | :--- | :--- | ---: | ---: |
|  |  |  |  | Bank balance |  |
|  |  |  | Cash in hand | 6,950 |  |
|  |  |  |  | 6,310 |  |

## Working:

1. Since opening stock was undervalued, actual value of opening stock ₹ $18,900 \times 100 / 90=₹ 21,000$
2. Abnormal loss of goods ₹ 650 is to be debited to Profit \& Loss A/c, and credited to purchase A/C. Abnormal loss for furniture (700-70) ₹ 630 will appear in debit side of profit \& loss and also will be deducted from furniture.
3. Suspense A/C .....Dr. 900 Discount Allowed A/C .....Dr. 100 To, Debtors A/C . 1,000
4. ₹ 5,400 is given after charging one year's depreciation of patent, which actually was ₹ $6,000(5,400 \mathrm{X}$ $100 / 90$ ) in 2017. Depreciation will be $=5,400 \times 1 / 9=₹ 600$
5. Provident fund due for this year ₹ 1,240 is to be debited to profit \& loss account and added to PF balance of ₹ 6,550 in liability side of the balance sheet.
6. From the following particulars prepare manufacturing account for the year ended 31.3.2017.

| Raw materials: 1.4. 2016 | $1,00,000$ | Wages: regular worker | $3,70,000$ |
| :--- | ---: | :--- | ---: |
| 31.3 .17 | $1,20,000$ | Apprentice workers | 35,000 |
| Work-in-progress: 1.4 .2016 | 60,000 | Depreciation: factory shed | 55,000 |
| 31.3 .2017 | 50,000 | Factory component | 33,000 |
| Purchase | $5,20,000$ | Factory furniture | 22,000 |
| Return outward | 40,000 |  | 60,000 |
| Factory lighting | 45,000 | Freight inward | 30,000 |
| Salary to factory staff | $1,20,000$ | Sale of scrap |  |
| Salary to factory manager | 90,000 |  |  |
| Normal loss of material | 4,400 |  |  |

Answer:

| Manufacturing Account for the year ended 31.3.2017      |  |  |  |  |  |
| :--- | ---: | :--- | :--- | :--- | :--- |
| To, Raw material consumed |  |  | By, Trading A/C (Cost of goods <br> produced transferred) | $12,70,000$ |  |
| Opening stock | $1,00,000$ |  |  |  |  |
| Add: purchase | $5,20,000$ |  |  |  |  |
| Freight | 60,000 |  |  |  |  |
|  | $6,80,000$ |  |  |  |  |

# SECTION - B : FUNDAMENTALS OF COST ACCOUNTING <br> Study Note-4 <br> FUNDAMENTALS OF COST ACCOUNTING 

Learning Objective: To understand the concepts of Cost Accounting, its significance and relations with financial accounting. To understand the classification of costs and preparation of Cost Sheet.

Choose the correct answer:

1. Fixed costs are considered as:
(A) fixed per unit of output.
(B) fixed for those cost unaffected by inflation.
(C) fixed, outside the control of management.
(D) fixed in total when production size changes.
2. Prime cost is:
(A) the process cost of a product.
(B) the standard cost of operating a department.
(C) the total of direct costs.
(D) relevant costs incurred in manufacturing a product.
3. Cost centres are:
(A) ascertainment of unit cost of output or service.
(B) locations or functions for which costs are ascertained.
(C) a section of production unit for which budgets are prepared.
(D) amounts of outlay for various activities.

Answer: 1. (D), 2. (C), 3. (B)
4. Which of the following are fixed and variable costs?
(A) Depreciation on delivery vehicles (Straight line basis)
(B) Direct material costs
(C) Machine rental costs
(D) Royalties payable on units produced

Answer:
Fixed cost [Depreciation on delivery vehicles, Machine rental costs]
Variable cost [Direct material costs, Royalties payable on units produced]
5. A company manufactures and retails designed garments. Determine correct classification of cost for the purpose of ascertaining cost of units produced, Classifications are as follows:
(i) direct materials
(ii) direct labour
(iii) direct expenses
(iv) indirect production overhead
(v) research and development costs
(vi) selling and distribution costs
(vii) administration costs
(viii) finance costs

1. Royalty payable on number of units of garments produced
2. Audit fees
3. Performing Rights Society charge for music broadcast throughout the factory
4. Wages of security guards for factory
5. Wages of operatives in the cutting department
6. Chief accountant's salary
7. Postage cost of parcels sent to customers
8. Cost of painting advertising slogans on delivery vans
9. Road fund licences for delivery vehicles
10. Cost of developing a new product in the laboratory
11. Lubricant for sewing machines
12. Market research undertaken prior to a new product launch
13. Interest on bank overdraft
14. Pen drive for general office computer
15. Wages of storekeepers in materials store
16. Wages of fork lift drivers who handle raw materials
17. Telephone rental
18. Cost of fabric purchased
19. Annual maintenance contract for general office photocopying machine
20. Cost of advertising products on television
21. Insurance of the company's premises
22. Branch office expenses

Answer:

| 1 | iii | 5 | ii | 9 | vi | 13 | viii | 17 | vii |

6. True or False:
7. Replacement cost is the current market cost of replacing an asset or a material.
8. Cost accounts provide information for determination of profit or loss.
9. Bad debts, legal charges for recovery of debts are considered as selling \& distribution expenses.
10. Imputed costs are hypothetical cost
11. Main objective of cost accounting is to control cost.
12. Godown rent, warehouse expenses, depreciation etc. are overhead cost.
13. Direct cost are directly related to a cost centre or cost unit.
14. Indirect costs are also known as overheads.
15. Semi variable cost are also known as step costs or slab cost.
16. Controllable costs are not influenced by managerial action and are within their control.
17. General principal of ascertaining cost is the same in every method of costing.
18. The cost system should be independent of the financial accounting system.
19. Cost accounting is a post-mortem of past cost.
20. Cost accounting facilitates in price fixation.
21. Operation costing is also known as job costing.
22. In automobile industry, multiple costing is used.
23. In batch costing, the cost of a group of products is ascertained.
24. cost accounting records both monetary and physical units.
25. cost accounting is based on estimated figures.
26. Sunk cost is relevant for decision- making.

## Work Book : Fundamentals of Accounting

21. Period cost is not assigned to products.
22. Semi-variable costs are partly variable and partly fixed in relation to output.
23. An opportunity costs are does not involve cash outlays.
24. Variable costs change proportionately with change in output.
25. Fixed costs per unit increase with increase in output.
26. Out of pocket costs involve payment to outsiders.
27. Rent on own building is imputed cost.
28. Tender is an estimation of selling price.

Answer:

| 1 | True | 2 | False | 3 | True | 4 | True | 5 | True |

7. Fill in the blanks:
8. Spare-parts manufacturing industry use $\qquad$ costing method.
9. Surplus or loss on sale of factory plant and machinery is an item of $\qquad$ accounting.
10. Royalties paid on patents is to be treated as $\qquad$ expenses.
11. Carriage and freight outward are the item of $\qquad$ overhead.
12. cost is a cost chargeable to a budget or cost centre, which can be influenced by the actions of the person in whom control of the centre is vested.
13. $\qquad$ is the achievement of real and permanent reductions in the unit cost of goods manufactured or services rendered without impairing their suitability for the use intended.
14. Cost of rectification of defective articles are $\qquad$ .overhead.
15. ___ is used in those concerns which produce a group of similar products of small values covering short duration at own premises as per specific order of the customers.
16. $\qquad$ is used in those concerns which produce a number of component parts of specific orders through different processes or operations and subsequently assembled into final product.
17. In $\qquad$ costing all costs are charged to the cost centres or cost units.
18. Contract costing, process costing are $\qquad$ of costing.
19. The cost centres are known as $\qquad$ centres.
20. Fringe benefits to workers are $\qquad$ labour.
21. Wages for abnormal idle time are not included in the cost of product or job and charged to $\qquad$ .
22. Differential costing is a $\qquad$ of costing.

Answer:

| 1. | Batch | 9. | Composite costing |
| :---: | :--- | :---: | :--- |
| 2. | Financial | 10. | Absorption costing |
| 3. | Direct | 11. | methods |
| 4. | distribution | 12. | Responsibility |
| 5. | Controllable | 13. | Direct |
| 6. | Cost reduction | 14. | Costing Profit \& Loss A/c |
| 7. | Production | 15. | techniques |
| 8. | Batch Costing |  |  |

8. Royal Manufacturing produces water bottle. For the year just ended, Royal produced 10,000 bottle with the following total costs:

Direct materials ₹ 20,000; Direct labour 35,000; Overhead 10,000; Selling expenses 6,250; Administrative expenses 14,400 ; During the year, Royal sold 9,800 units for ₹ 12 each. Beginning finished goods inventory consisted of 630 units with a total cost of ₹ 4,095 . There was no beginning or ending inventories of work in process.

1. Calculate the unit costs for the following: direct materials, direct labour, overhead, prime cost, and conversion cost.
2. Prepare schedules for cost of goods manufactured and cost of goods sold.

Answer:

1. Unit direct materials $=₹ 20,000 / 10,000=₹ 2.00$,

Unit direct labour $=₹ 35,000 / 10,000=₹ 3.50$
Unit overhead $=₹ 10,000 / 10,000=₹ 1.00$
Unit prime cost $=₹ 2.00+₹ 3.50=₹ 5.50$
Unit conversion cost $=₹ 3.50+₹ 1.00=₹ 4.50$
2. Statement of cost of goods manufactured:

| Direct materials used | $₹ 20,000$ |
| :--- | :---: |
| Direct labour | 35,000 |
| Overhead | 10,000 |
| Total manufacturing costs | $₹ 65,000$ |
| Add: Beginning work in process | 0 |
| Less: Ending work in process | 0 |
| Cost of goods manufactured | $₹ 65,000$ |

Cost of goods sold schedule:

| Cost of goods manufactured | $₹ 65,000$ |
| :--- | ---: |
| Add: Beginning finished goods | 4,095 |
| Less: Ending finished goods* | $(5,395)$ |
| Cost of goods sold | $₹ 63,700$ |

Units in ending finished goods inventory $=10,000+630-9,800=830$;
$830 \times(₹ 2.00+₹ 3.50+₹ 1.00$ ) $=₹ 5,395$.
9. Which of the following costs would be charged to the product as a prime cost?
A) Supervisor wages
B)Consumable stores
C) Primary packing materials
D) Component parts

Answer: C,D
10. Classify the following labour costs as either direct or indirect.
(a) The basic pay of direct workers (cash paid, tax and other deductions).
(b) The basic pay of indirect workers.
(d) Bonus payments under a group bonus scheme.
(e) Employer's State Insurance contributions.
(f) Idle time of direct workers, paid while waiting for work.

Answer: a) Direct; b) Indirect c) Indirect d) Indirect e) Indirect
11. Bajaj Ltd. is considering its options with regard to a machine which cost ₹ 140,000 four years ago. If sold, it would generate scrap proceeds of $₹ 170,000$. If kept, this machine would earn net income of $₹ 200,000$. The current replacement cost of this machine is $₹ 230,000$. What is the relevant cost of the machine?
A ₹140,000
B ₹ 170,000
C ₹200,000
D ₹ 230,000
Answer: C) ₹ 200,000
12. Whether the following statement is true or false.
(a) Cost accounting is mainly concerned with the preparation of management accounts for internal managers of an organisation. Financial accounts are prepared for individuals external to an organisation e.g. shareholders, customers and so on.
b) A fixed cost is a cost which tends to vary with the level of activity.

Answer: a) True b) False
13. Fill in the blanks:
a) A...... is a unit of product or service to which costs can be related. It is the basic control unit for costing purposes.
(b) A $\qquad$ acts as a collecting place for certain costs before they are analysed further.

Answer:
(a) Cost unit
(b) Cost centre
14. Choose the correct words from those highlighted.

In practice, most cost accounting systems use historical cost/economic cost/ economic value/cost value as a measurement basis.

Answer: Historical cos $\dagger$
15. Which of the following would be classified as indirect labour?
A)A stores assistant in a factory store
B)Assembly workers in a company manufacturing unit
C)An audit clerk in a auditors' firm.
D)Masons in a construction company

Answer: A) A stores assistant in a factory store
16. Which of the following options describes the value of a benefit sacrificed when one course of action is chosen in preference to an alternative?
A)Sunk cost
B) Differential cost
C) Opportunity cost
D)Relevant cost

Answer: C) Opportunity cost
17. A factory produces and sells 1000 units of a product in July, 2018 for which the following particulars are available:

| Stock of direct materials on 1st July 2018 | ₹ 6000 |
| :--- | ---: |
| Purchases and receipts of direct materials in July | $\mathbf{1 , 4 4 , 0 0 0}$ |
| Direct wages paid in cash in July (which includes ₹ 3000 on account of June, 2017 <br> and an advance of ₹ 2000 for August,2018) | 55,000 |
| Works overhead charges for the month | 60,000 |
| Stock of direct materials on 31 July, 2018 | 10,000 |
| Administration and selling overhead | ₹ 25 per unit |
| Sales price | ₹ 300 per unit |

From the above particulars you are required to (a) prepare a cost statement for July, 2018.
Answer:

| 1. Direct material/Raw material |  |  |
| :--- | ---: | ---: |
| Opening stock | 6,000 |  |
| Add: Purchase \& receipts of materials | $1,44,000$ |  |
| Less: Closing stock of materials | 10,000 | $1,40,000$ |
| 2. Direct Labour |  |  |
| Direct wages paid | 55,000 |  |
| Less: Paid for last month (June) | 3,000 |  |
| Less: Prepaid for next month (August) | 2,000 | 50,000 |
| Prime cost |  | $1,90,000$ |
| 3. Works overhead |  | 60,000 |
| Work cost |  | $2,50,000$ |
| 4. Administrative \& selling overhead (@ ₹ 25 per unit for 1000 units) |  | 25,000 |
| Cost of sales |  | $2,75,000$ |
| 5. Profit (Balancing figure) |  | 25,000 |
| Total sales (@ ₹ 300 per unit for 1,000 units) |  | $3,00,000$ |

18. Give reasons, whether the following items are to be dealt within cost accounting, explain whether and how any of these items are to be included in the total cost.
(i) Cash discount received from suppliers of raw materials
(ii) Royalties received for allowing others to use own patents.
(iii) Royalties paid on patents of other party used in own manufacturing process.
(iv) Surplus realised on sale of factory plant \& machinery.

Answer:
(i) It is an item of financial accounting and not forming any part in the cost structure of a product or services. Therefore, it is to be excluded from cost of material purchased.
(ii) Royalties received from other is to be considered as an income and excluded from ascertaining cost. It is an item of financial accounting.
(iii) Royalties paid on patents is to be treated as direct expense. It is to be charged to prime cost.
(iv) Surplus or loss on sale of factory plant and machinery is an item of financial accounting.
19. (a) From the following particulars, prepare a statement showing cost of production and profit or loss assuming that LIFO method is followed for valuation of closing stock of finish goods.

|  | $1{ }^{\text {st }}$ April 2017 (₹) | $31^{\text {st }}$ March 2018 (₹) |
| :---: | :---: | :---: |
| Stock of raw material | 50,000 | 62,500 |
| Work-in-progress | 62,500 | 87,500 |
| Stock of finish goods | 90,000 (2000 units) | $₹(2500$ units) |
| Raw material purchased |  | 2,00,000 |
| Direct labour |  | 1,37,000 |
| Chargeable expenses |  | 50,000 |
| Machine hour rate |  | ₹ 20 per hour |
| Machine hour worked |  | 5,000 hours |
| Office and administrative overhead |  | $₹ 12$ per unit |
| Selling and distribution overhead |  | $₹ 7.50$ per unit |
| Sales (12000 units) |  | $₹ 65$ per unit |

b) What would be the profit and loss if the firm follows FIFO method for valuation of closing stock of finish goods?
c) What would be the profit and loss if the firm follows Simple-average method for valuation of closing stock of finish goods?

## Answer:

|  | $₹$ | Per unit |
| :--- | ---: | ---: |
| Raw material: opening stock | 50,000 |  |
| Add: purchase | $2,00,000$ |  |
| Less: closing stock | 62,500 |  |
| Raw material consumed | $1,87,500$ | 15 |
| Add: productive labour | $1,37,500$ | 11 |
| Chargeable expenses | 50,000 | 4 |
| Prime cost | $1,75,000$ | 30 |
| Add: Factory overhead (5,000 hours X ₹ 20 per hour) | $4,00,000$ | 8 |
| Gross work cost | 62,500 | 38 |
| Add: Opening work in progress | 87,500 | 5 |
| Less: Closing work in progress | $4,50,000$ | 7 |
| Work cost | $1,50,000$ | 12 |
| Add: General office overhead (12,500 units X ₹ 12 per unit) | $6,00,000$ | 48 |
| Cost of production | 90,000 |  |
| Add: Opening finish stock | $1,14,000$ |  |
| Less: Closing finish stock [90,000 + (₹48 X 500 units)] | $5,76,000$ | 48 |
| Cost of goods sold | 90,000 | 7.50 |
| Add: selling \& distribution overhead (12,000 units X ₹ 7.50) | $6,66,066$ | 55.50 |
| Cost of sales | $1,14,000$ | 9.50 |
| Add: Profit (Balancing figure) | $7,80,000$ | 65.00 |
| Sales (12,000 units X ₹ 65 ) |  |  |

Note:
(a) Closing stock of finish goods (LIFO) $=₹[90,000+(500 \times 48)]=1,14,000$
(b) Value of closing stock under FIFO method $=2,500$ X48 $=₹ 1,20,000$. If the firm follows FIFO method, the difference in value of stock of finish goods $=₹(1,20,000-1,14,000)=₹ 6,000$. Therefore, revised profit will be $=(1,14,000+6,000)=₹ 1,20,000$.
(c) Value of closing stock under Simple average method $=2,500 \times(45+48) / 2=₹ 1,16,250$. The difference in value of stock of finish goods $=₹(1,16,250-1,14,000)=₹ 2,250$. Therefore, revised profit will be $=$ $(1,14,000+2,250)=₹ 1,16,250$.
20. From the following information, compute the raw material purchased.

| Opening stock of raw material | 20,000 |
| :--- | ---: |
| Closing stock of the raw material | 30,000 |
| Direct wages | $2,10,000$ |
| Factory overhead | $60 \%$ of direct wages |
| General overhead | $10 \%$ of works cost |
| Cost of production | $6,88,600$ |

Answer:

| Cost of production | $6,88,600$ |
| :--- | ---: |
| Less: General overhead (office \& Administrative) [10\% of work cost, i.e., $10 / 110$ of cost of <br> production, $10 / 110 \times 6,88,600$ ) | 62,600 |
| Work cost | $6,26,000$ |
| Less: Factory overhead (60\% of direct wages) [60\% X 2,10,000] | $1,26,000$ |
| Prime cost | $5,00,000$ |
| Less: Direct Wages | $2,10,000$ |
| Raw material consumed | $2,90,000$ |
| Add: Closing stock of raw material | 30,000 |
|  | $3,20,000$ |
| Less: Opening stock of raw material | 20,000 |
| Purchase of raw material | $3,00,000$ |

Note:

1. The purchase of raw material is computed by back calculation method starting from cost of production.
2. Material consumed $=$ op. Stock + Purchase - Closing stock, Alternatively

Purchase $=$ Material consumed + closing stock - Opening stock $=2,90,000+30,000-20,000=$ 3,00,000.
21. Write the classification of fixed costs.

## Answer:

Fixed cost can be classified by the following four ways

## (a) Committed costs:

These costs are the result of inevitable consequences of commitments previously made or are incurred to maintain certain facilities and cannot be quickly eliminated. The management has little or no discretion in such type of costs e.g., rent, insurance, depreciation on building or equipment purchased.
(b) Policy and Managed costs:

Policy costs are incurred for implementing some management policies as executive development, housing etc. and are often discretionary. Managed costs are incurred to ensure the operating existence of the company e.g., staff services.
(c) Discretionary costs:

These costs are not related to the operation but can be controlled by the management. These costs arise from some policy decisions, new researches etc. and can be eliminated or reduced to a desirable level at the discretion of the management.
(d) Step Costs:

Such costs are constant for a given level of output and then increase by a fixed amount at a higher level of output.
22. Base for selection of suitable costing method and cost unit:

| Name of industry | Method of costing | Suitable cost unit |
| :--- | :---: | :--- |
| Sugar Industry | Process Costing | Cost per quintal/tone |
| Steel or cement | Process Costing | Cost per tone |
| Hospital | Service/ Operating | Cost per bed per patient per day |
| Building | Contract Costing | Cost per sq. feet |
| Education Institution | Operating/ service | Cost per student per year |
| Pharmaceuticals | Process costing | Cost per strip/bottle of different size |
| Soft drinks | Process costing | Cost per case(24)/ bottle of different sizes |
| Canteen | Operating/ service | Cost per meal |

23. What is a cost object?

## Answer:

A cost object is anything for which an organisation needs a separate measurement of cost. Examples include a product, a service, a project, a customer, a brand category, an activity, and a department.
