MESSAGE

I am happy to know that Institute of Cost Accountants of India [ICMAI], Kolkata intends to publish CMA Prospectus 2024, shortly.

It is commendable that in drafting the CMA Prospectus 2024, the Institute of Cost Accountants has taken into account the evolving needs of the industry, the latest advancements in technology, and the changing regulatory landscape.

I convey my hearty greetings to the people behind this endeavour and hope that the curriculum would reflect the highest academic standards.

[Arif Mohammed Khan]
MESSAGE

I am pleased to learn that The Institute of Cost Accountants of India, a statutory body set up under an Act of Parliament in 1959, which regulates the profession of Cost and Management Accountancy, is going to publish CMA Prospectus-2024 motivating CMA students across the globe.

The Institute pursues the vision of cost competitiveness, cost management, efficient use of resources and structured approach to cost accounting as the key drivers of the profession. With the current emphasis on management of resources, the specialized knowledge of evaluating operating efficiency and strategic management is of paramount importance.

In today's world, the profession of conventional accounting and auditing has taken a back seat and cost and management accountants are increasingly contributing toward the management of scarce resources and applying strategic decisions. This has opened up further scope and tremendous opportunities for cost accountants in India and abroad.

I am told that the Institute is the largest Cost and Management Accounting body in the world, having approximately 5,00,000 students and 1,00,000 members all over the globe, a testament to its commitment to excellence, innovation and continuous improvement in professional education.

In crafting the CMA Prospectus 2024, the Institute has taken into account the evolving needs of the industry, the latest advancements in technology, and the changing regulatory landscape. It is also aligned with the objectives and principles outlined in the National Education Policy (NEP)-2020.

Best wishes!

It brings me immense pleasure to extend my warmest greetings to each one of you as we embark on yet another transformative journey with the release of the CMA Prospectus for the year 2024. The CMA Prospectus stands as a testament to our commitment to excellence in professional education and our unwavering dedication to shaping the future of management accounting.

In today’s dynamic business landscape, characterized by rapid technological advancements and evolving regulatory frameworks, the role of management accountants has become more pivotal than ever before. It is our responsibility, as custodians of the profession, to equip our students with the requisite knowledge, skills and ethical values to thrive in this ever-changing environment as future-ready professionals.

The CMA Course embodies our collective efforts to provide world-class education and training that not only meets the industry’s demands but also sets new benchmarks for excellence. Through a meticulously curated curriculum, enriched with practical insights and contemporary case studies, we aim to empower our students to become adept problem-solvers, strategic thinkers and trusted business advisors.

Furthermore, I am delighted to announce that the CMA Prospectus 2024 reflects our unwavering commitment to innovation and inclusivity. We have incorporated feedback from stakeholders across the globe to ensure that our programs are not only relevant but also accessible to aspiring professionals from diverse backgrounds.

Best wishes for a successful academic year ahead.

CMA Ashwin G. Dalwadi
It is with great pleasure and enthusiasm that I extend my warmest greetings to each of you on the occasion of the release of the CMA Prospectus for the year 2024.

The CMA Prospectus 2024 serves as a beacon of opportunity for aspiring professionals seeking to carve out a successful career path in the field of cost and management accounting. Through its comprehensive curriculum, practical learning experiences and industry-relevant insights, this prospectus reflects our commitment to nurturing competent and ethical professionals who can thrive in today’s complex business environment.

At ICMAI, we understand the evolving needs of the industry and the importance of staying ahead of the curve. That is why the CMA Course is designed to equip our students with the skills, knowledge and mind-set necessary to navigate challenges, seize opportunities and drive organizational success.

Moreover, I am proud to say that inclusivity and accessibility are at the forefront of our agenda. The CMA Prospectus 2024 aims to cater to the diverse needs of our student community, ensuring that everyone has equal access to quality education and professional development opportunities.

Warm regards

CMA Bibhuti Bhusan Nayak
I am delighted to extend my warmest greetings to each of you on the auspicious occasion of the release of the CMA Prospectus for the year 2024. As the Chairman of the Training & Educational Facilities Committee at the Institute of Cost Accountants of India (ICMAI), it gives me immense pleasure to present to you a prospectus that not only reflects our commitment to excellence but also embodies our dedication to aligning with International Education Standards (IES) and the National Education Policy (NEP) - 2020.

In today’s interconnected and rapidly evolving world, it is imperative that our educational programs remain at the forefront of global best practices. With this in mind, the CMA Course has been meticulously crafted to align with International Education Standards, ensuring that our students receive a world-class education that is recognized and respected across borders.

Furthermore, the introduction of the National Education Policy (NEP) - 2020 has provided us with a unique opportunity to reimagine and revitalize our educational framework. The CMA Course is a testament to our commitment to embracing the principles and objectives outlined in the NEP - 2020, including the promotion of holistic and multidisciplinary learning, the integration of technology in education and the emphasis on skill development and lifelong learning.

Through a combination of rigorous academic training, practical learning experiences and innovative teaching methodologies, the CMA Prospectus 2024 aims to empower our students to become not just competent professionals but also responsible global citizens who are capable of driving positive change in society.

I would like to express my sincere gratitude to all our council members, experts and staff for their unwavering dedication and tireless efforts in making the CMA Prospectus 2024 a reality. Together, let us continue to strive for excellence and innovation in education, as we pave the way for a brighter and more prosperous future.

Best wishes for a rewarding and fulfilling educational journey ahead.

ABOUT THE INSTITUTE

THE INSTITUTE OF COST ACCOUNTANTS OF INDIA (ICMAI)

- **THE INSTITUTE OF COST ACCOUNTANTS OF INDIA** (erstwhile The Institute of Cost and Works Accountants of India) was established in 1944 as a registered company under the Companies Act with the objects of promoting, regulating and developing the profession of Cost Accountancy.

- The Institute of Cost Accountants of India is a premier professional body of Management Accountants in the country established on 28th May, 1959 under the Cost and Works Accountants Act, 1959 enacted by the Parliament in 1959 as ICWAI to regulate the profession of Cost and Management Accountancy in India.

- The Institute has been recognized by the Parliament as The Institute of Cost Accountants of India, w.e.f. 1st Feb, 2012.

- The Institute is governed by a Council in accordance with the provisions of the Cost and Works Accountants Act, 1959 as may be amended from time to time and Rules and Regulations framed thereunder.

- The Institute as a part of its obligation to regulate the profession of Cost and Management Accountancy, enrolls students for Cost Accountancy course, provides coaching facilities to the students, organizes professional development programmes for the members and undertakes research programme in the field of Cost and Management Accountancy.

- The Institute is having 117 Chapters, 11 Overseas Centres and 4 Regional Councils under the administrative control of Ministry of Corporate Affairs, Government of India.

- Over the years the Cost and Management Accountancy profession has registered a tremendous growth and has occupied a prominent role in our economy and society. The Institute has more than 5,00,000 students and more than 1,00,000 qualified members.

- The Institute is a founder member of International Federation of Accountants (IFAC), Confederation of Asian and Pacific Accountants (CAPA) and South Asian Federation of Accountants (SAFA). The Institute is also an Associate Member of ASEAN Federation of Accountants (AFA) and member in the Council of International Integrated Reporting Council (IIRC), UK.

- The Institute is the largest CMA body in the Globe.
OBJECTIVES OF THE INSTITUTE

⊙ To develop the Cost and Management Accountancy function as a powerful tool of management control in all spheres of economic activities
⊙ To promote and develop the adoption of scientific methods in Cost and Management Accountancy
⊙ To develop the professional body of members and equip them fully to discharge their functions and fulfil the objectives of the Institute in the context of providing financial leadership of enterprises globally
⊙ To keep abreast of development in Cost and Management Accounting principles and practices, to incorporate such changes as essential for creating value for the industry and other economic activities
⊙ To exercise supervision over the entrants to the profession and to ensure strict adherence to the best ethical standards by the professionals
⊙ To organize seminars and conferences on the subjects of professional interest in different parts of the country for cross fertilization of ideas for professional growth
⊙ To carry our research activities covering various economic spheres and the publishing of books and booklets for disseminating information of professional interest to members in industrial, commercial and educational units in India and abroad
CMA PROFESSION

PROFESSIONAL AVENUES

In today’s interconnected global landscape, organizations rely on professionals like Cost and Management Accountants (CMAs) who possess specialized expertise in business strategy and value creation. Serving as the bedrock of enterprises, the comprehensive education and training provided by the Institute equip Cost and Management Accountants with multifaceted skills. CMAs play a pivotal role across diverse economic activities, serving as value creators, enablers, preservers and reporters.

The demand for CMAs spans various sectors including government, private enterprises, banking and finance, developmental agencies, education, training, research, as well as service and public utility sectors. Leveraging their specialized knowledge and training, CMAs often assume top management positions in both public and private enterprises, such as Chairman cum Managing Directors, Managing Directors, Finance Directors, Chief Financial Officers, Cost Controllers, Marketing Managers, Chief Internal Auditors and other significant roles.

Entrepreneurial CMAs managing their own businesses effectively assume the roles of managers and accountants, enabling them to control and grow their ventures. The career trajectory for a CMA offers ample opportunities for advancement, with sustained demand for qualified and experienced professionals in India and abroad across various industries and government departments. Many Institute members also engage in providing professional cost consultancy services and teaching cost and management accountancy in reputed universities and colleges.

Cost accountancy surpasses financial accounting by promoting the study and implementation of scientific methods to maximize efficiency in industrial, commercial and other domains. Unlike financial accounting, which primarily relies on retrospective data analysis, cost accounting facilitates real-time monitoring and regulation of production operations and processes, enhancing management and strategic decision-making.

Within organizations, CMA members of the Institute serve as integral members of management teams, fulfilling roles as Cost Auditors, Internal Auditors, Auditors for GST, Excise, SEBI, NSDL, and other regulatory bodies, as well as serving as advisors and consultants in practice.

INDEPENDENT PRACTICE

The realm of independent practice offers extensive opportunities for Cost Accountants, necessitating the acquisition of a Practice Certificate from the Institute. Detailed information regarding this process can be found in the "Membership Section" of the Institute’s website: http://www.cmaicmai.in/external/Home.aspx. Cost Accountants have the flexibility to establish their practice independently as proprietors, form new partnership firms with fellow Cost Accountants or join existing firms as new partners. Their clientele encompasses a diverse range of entities, including private and public companies, large corporations, medium and small-scale enterprises, partnerships, proprietorships, as well as industrial, commercial and service-oriented establishments. To guide practicing Cost Accountants, the Institute has provided suggested fee guidelines, accessible at https://icmai.in/upload/pd/pd/Scale_of_Fees.pdf. The areas of practice available to Cost Accountants include, but are not limited to:

CMA SYLLABUS 2022
IN THE LIGHT OF NATIONAL EDUCATION POLICY 2020

The Directorate of Studies has made efforts to craft the CMA Syllabus 2022 (CMAS 2022) in the light of particularly those provisions of the National Education policy 2020 which are considered relevant and appropriate in the best interest of students and other stakeholders, and to the extent feasible keeping in view the enormity and nation-wide spread of students. The predominant objective is to nurture today’s students to tomorrow’s globally oriented and, socially responsible CMA professionals. The following is a summary of those enabling features of the CMAS 2022:

- CMA, as a professional education, would significantly contribute towards sustainable livelihoods and economic development of the nation.
- CMAS 2022 would make students future ready for academic enlightenment, constructive public engagement, productive contribution to the society and personal accomplishments.
- The Syllabus would equip students with identified skill sets for value creation. It would help them to prepare for more meaningful and satisfying lives and work roles with economic independence.
- The erstwhile syllabus has substantially been recrafted after comprehensive review and re-energised to ensure that emerging/future needs of corporate world, the society, and government are met.
- The Institute has taken a wholistic and multidisciplinary approach by mandating students to complete technical and soft skill training for 120 hours and 20 hours respectively, 44 hours of tutorial workshops, practical training for 15 months and Industry oriented training program for 7 days.
- The Institute is striving to set up frontiers of research with greater industry-professional institute linkages in which students would get opportunities to participate as field level researchers and analysts.
- CMAS 2022 has been designed and re-engineered to ensure application-oriented learning outcomes both for each subject and CMA curriculum. Engaging teaching pedagogy, asynchronous learning resources, skill training processes, and newly contemplated assessment procedure would ensure effective learning.
- The Syllabus has given students an option to choose the 20th subject of final level out of three. The Institute has also decided to introduce grading system that assesses students’ achievements based on the learning objectives of each subject.
- Study and training for IT tools have been blended with academic education. Data Analytics have been added as a separate section of a subject. Technical skill training for SAP Finance Power User, Microsoft Office, and E Filing is a compulsory part of the curriculum.
SKILL MAPPING OF SYLLABUS

In developed countries, Cost and Management Accounting professionals primarily emphasize three core knowledge pillars: Management, Strategy and Financial Reporting. However, in India, Cost and Management Accountants also play a significant role in addressing regulatory concerns within the industry. Recognizing this, the syllabus has been thoughtfully designed to encompass four key knowledge pillars, which include Regulatory Services, catering to the diverse needs of professionals in this field.

The syllabus for the CMA Course has been designed to strengthen the following four knowledge pillars:
- Management
- Strategy
- Regulatory Framework
- Financial Reporting

Subjects related to applicable statutes shall be read with amendments made from time to time. Syllabus and its contents, scheme and/or pattern of examinations, are subject to modifications from time to time. Reference should be made to relevant notifications in this regard, as may be issued by the Institute from time to time.

**Study Weightage:**

Within a syllabus subject, a percentage weightage is shown against each subject-section/topic. This is provided as a guide to the proportion of study time each topic requires. The study weightage also indicates the approximate proportional distribution of marks that may be allocated in any single examination.

Subject Title | BUSINESS LAWS & ETHICS
Subject Code  | BLE
Paper No.     | 5
Course Description | The subject deals with four core components namely commercial laws, industrial laws, corporate laws and ethics. Accordingly, it covers various commercial laws that govern business transactions and settlement procedures in entities and internal management in partnership organisations. It provides a wholistic view of various industrial laws having significant impact on business operations and decisions on employee compensation and work environment. The subject also offers a detailed understanding of legislation governing formation of a company, role of directors, operation and financial control as well as shareholders’ rights. Finally, it introduces the concept of ethics and emotional intelligence and explains how they can complement laws in ensuring legitimate as well as responsible business dealings.

Learning Environment
The subject comprises two sections – Operations Management and Strategic Management. The former aims to provide students with a critical understanding of the scope and strategic importance of operations management, various tools and techniques for operations planning and designing as well as production planning. It also offers detail coverage of important techniques for measurement and management of productivity, project management and inventory management which lie at the core of a successful organisation.

The section, Strategic Management, tries to address different aspects of strategy formulation and implementation in an organisation. It tries to take into account the problems that strategic managers face while developing and implementing strategies within a dynamic business environment. The subject also deals with the contemporary issues such as digital and social marketing strategies that have immense impact on organisation’s competitive advantage.
### Subject Learning Objectives [SLOB(s)]

#### A. Operations Management

1. To appreciate the recent trends and challenges in production and operations management and understand the relationships between operations and other business functions. (CMLO 1a, b, c)
2. To attain knowledge on techniques and tools to be applied for product and process designing, capacity planning and production line balancing; and job designing; in operations management. (CMLO 3c, 5a, b, c)
3. To develop detailed understanding about frameworks and tools for measuring and managing productivity of resources as well as quality control of outputs. (CMLO 2q 3c, 5c)
4. To gain knowledge on project planning, managing and control to ensure optimum utilization of time and resources. (CMLO 2b, 3c, 5b)
5. To appreciate the importance and gather knowledge about processes for spares management in mitigating related risks and optimising costs. (CMLO 2a, 3c, 5b)

#### B. Strategic Management

Relevance of Data Analytics in Financial Management Decision-making

The popularity of ‘data analytics’ is on the rise. Whereas, ‘financial management’ and ‘corporate finance’ is maintaining the positions of popularity. If we look at the average interest over time, ‘financial management’ is the most sought-after search word in India as well as worldwide.

In recent years, the role of financial analysis is being taken over by a new wave of digital transformation, which includes advanced analytics, in corporate finance. These technologies are spawning disruptive new business models and transforming the procedures that serve as the basis for corporate performance management.

A successful bonding of data analytics and financial management may culminate into the production of in-depth analyses to answer business-specific issues and anticipate potential future financial scenarios. It may help to develop a corporate plan based on trustworthy, verifiable findings rather than intuition. Data analytics is the science and art of integrating data in a logical and relevant manner in order to anticipate an enterprise’s financial position - profitability, cash flow, and company value.

Data analytics enables firms to obtain visibility and a deeper understanding of revenue, cost, profitability, and cash flow, as well as to identify areas requiring attention to influence good business results more quickly than would be feasible otherwise.

In such a scenario, it has become almost imperative for the finance managers to have an understanding of data analytics. And, this is the primary reason behind introducing the modules on ‘Business Data Analytics’ in this Paper.

**Course Description**
The subject Strategic Financial Management deals with three key areas of strategic decision making with respect to financial resources, namely, long term investment decisions, management of investment portfolio and management of risk in national and international operations. It provides a detailed understanding of various alternatives approaches of capital budgeting and project appraisal under a deterministic environment and complements the discussion with detail coverage of different techniques for incorporating the uncertainty element in project evaluation. The subject provides a detail account of the alternative approaches towards security analysis and portfolio performance evaluation and portfolio revision. It also provides a detail coverage on various risk management techniques including use of derivatives with an added emphasis on risk management in international operations. In addition to the above, the subject gives an overview of the components of a digital finance ecosystem and highlights the interaction among them.

**CMA Course Learning Objectives (CMLOs)**

1. To obtain in-depth knowledge on application of various techniques of project evaluation under a deterministic environment as well as techniques of incorporating the element of uncertainty in project appraisal. (CMLO 2a, 2b)
2. To develop detailed understanding of how to make strategic choices in long term investment decisions such as own or lease and making optimal allocation of limited funds. (CMLO 3c)
3. To equip oneself with the knowledge of application of various techniques in security evaluation, building a portfolio, measuring its performance and making revisions to optimise the returns. (CMLO 3a)
4. To develop detail understanding of the sources and impact of risks to which an organisation is exposed to in a dynamic business environment at national and international level and the techniques for managing the same to sustain competitive advantages. (CMLO 3b, 3c)
5. To obtain an overview of various components of digital finance to better understand the interrelationship among them. (CMLO 1a, b, c)

**Subject Learning Objectives [SLOB(s)]**

1. Students will be able to perform project appraisals, allocation of limited funds among competing projects and making strategic choices in long term investment decisions.
2. They will be able to identify the risks associated with various functional areas of the organisation and evaluate the alternative risk management techniques.
3. They will be able to build profitable portfolios and evaluate their performance continuously to identify if any revision is warranted.
APSs:
1. They will develop necessary skill to prepare project appraisal reports and guide the management in selecting the appropriate one.
2. They will be able to prepare risk reports to be submitted to the management to facilitate strategic decision making relating to the functional areas of the organisation.
3. They will be able to prepare periodic portfolio performance reports to facilitate portfolio revision decisions.

Subject Title: RISK MANAGEMENT IN BANKING AND INSURANCE

Subject Code: RMBI

Paper No.: 20 B

Course Description: The subject focuses on risk management in two most important financial services namely banking and insurance.

In its first segment, the subject concentrates on risk management in banking organisations. Accordingly, it covers, in detail, the fundamental concepts associated with risk and its management with added emphasis on the banking sector. It offers a detail coverage of each individual type of risks faced by a bank and discusses the techniques used by banks for measurement, monitoring and mitigation of risks. It also highlights the regulatory framework of BASEL III in this context.

In its second segment, the subject offers a detail coverage of fundamental concepts associated with risk management in insurance. It discusses about the general structure and administration of an insurance company which act as the potential source of risk. Finally, it highlights the types of risks indigenous to an insurance company and techniques for managing the same.
