SAP FICO Consultant

At Expound Technivo, we're building software to help everyone in the world become more effective in working together and developing quality product with ease. Our main expertise lies in helping business digitally transform their traditional run business, better utilize their tech and get the most value out of their business making it efficient, faster, profitable and sustainable.

Our SAP teams are committed to helping customers adopt, implement, utilize, migrate and upgrade SAP as both a technology product and a holistic approach to work. With a diverse group of sap certified experts coming with vast domain expertise we have a very agile outlook towards enabling traditional industry to become the best run company.

As an SAP consultant, you'll support customers in effectively using SAP software, integrating multiple third-party tools with their existing technology performing activities like migration and upgradation, adopting it widely across their organization, and continuously gaining business value from our products and services. By engaging your customers in a consultative manner grounded in success metrics, meaningful relationships, and change management concepts, you'll position yourself as a long-term trusted partner across the customer's lifecycle: onboarding, adoption, advocacy, and support. Equipped with the knowledge of what it takes for customers to digitally transform, you will serve as the voice of your customers cross-functionally, providing feedback to the team and developing unique solutions to their problems with are simple yet effective and innovate. To the entire team, you'll represent an empathetic, customer-centric perspective.
