ABOUT US

MASO Group is a leading forging company specializing in the manufacturing of gears and shafts. Our company is committed to maintaining high standards of quality and cost-efficiency across our production processes.

DESCRIPTION

We are seeking a dedicated and skilled Cost Accountant to join our team and drive cost optimization strategies. You'll be responsible for performing cost analyses and preparing budget reports. You should possess excellent analytical skills along with the ability to combine different data and calculate profit margins. The ideal candidate should also be able to create detailed reports that present cost-effective solutions for our company. Ultimately, you should be able to build updated databases and manage cost information to maximize profitability for our company.

RESPONSIBILITIES

- Collect cost information and maintain an expenses database
- Develop and maintain accurate product costing models for gears, shafts, and related components
- Analyse the Bill of Materials (BOM) for each product, ensuring the inclusion of all processes (forging, machining, heating, rolling, trimming, etc.)
- Implement cost control measures and monitor adherence to cost standards
- Plan and record variable costs (e.g. purchases of raw material and operations costs)
- Identify and evaluate cost-saving opportunities through process improvements and waste reduction initiatives
- Prepare annual budgets and forecasts, analysing production volumes, material costs, labour costs, and overheads
- Conduct regular audits of production stages to track process-wise costs and scrap generation
