

About Eternity Technologies FZ LLC

Eternity Technologies was founded in 2009 as part of the Al Dobowi Group to meet the needs of the global industrial lead acid battery market. Eternity Technologies manufacturing facility is based in Ras Al Khaimah, UAE. Based in the dynamic and vibrant UAE, Eternity Technologies have developed a state-of-the-art manufacturing facility utilising the latest design, manufacturing processes and customer-focused management systems to not only meet the needs of the global power market but define them for the future.

Eternity Technologies accelerated production capacity to one million traction cells per year in a short space of time and became a global player in the market. In 2015 Eternity Technologies expanded its product range to include Network Power and now have a wide range of international products.

Now selling to over 100 countries worldwide Eternity Technologies is a successful global supplier to the industrial market. Partner businesses have been established in Germany, UK, Canada, South Africa, Chile and Spain to enable regional distributor focus.

Eternity Technologies continues to produce premium products that meet market demand and the company will continue to expand further, as one of the world's leading industrial battery companies.
