

IRIS Business Services Limited is one of the first providers of full professional XBRL products and solutions to organizations globally. The company is headquartered in Mumbai, India with international offices in United States, Singapore, United Kingdom, and the UAE.

**IRIS is a direct member of XBRL International and XBRL US.** The Company has over eighteen years of proven expertise in the financial information management space, providing customized technology solutions for data and content management, for the dissemination of information to investors and stock exchanges, and for effective content management to institutional clients.

Over the last seven years, IRIS has been very closely involved in the XBRL space, in taxonomy creation, software solutions and in the conversion of structured and unstructured data into XBRL for SEC filing in the US. IRIS has multidisciplinary skills in XBRL as well as in technology. Taxonomy experts, software engineers, business analysts and accountants come together to provide a complete range of products and services across the XBRL supply chain.
